Overview

Swagit Productions, LLC, founded in 2003, is a privately held company headquartered in Dallas, Texas. Swagit is a progressive company that is pioneering the broadband multimedia communication service industry by providing clients a hands-free approach to always being connected to end-users information needs. In combining Swagit's EASE and Avior HD solutions, clients are offered the most comprehensive hands-free experience possible. Swagit specializes in providing streaming media solutions to cities, counties, states, school districts, and health providers. In addition, Swagit is a complete video production entity, providing services such as post-production, studio, and recording booth sessions. Swagit began with a mission to supply clients an affordable solution to stream their own content in an overpriced, complicated, hands-on video industry. From its beginnings as a company specializing in turnaround streams for cities, counties, states, and school districts, Swagit has grown significantly and provides an open API that allows for integrations with all major Agenda/Document Management and Voting Solutions. This lets our clients choose the best Agenda/Voting Solution for their unique needs. The Swagit content delivery network stretches across North America, ensuring fast connect times from the closest point-of-presence (POP) to an end user's location. Swagit's network is fully redundant, giving clients peace of mind and keeping with the Swagit motto, "Always Connected."
