

**Deer Oaks EAP Services Agreement
C-19-225B-12-03**

This Employee Assistance Program Services Agreement (the "Agreement") is made and entered into effective **January 1, 2020** by and between **Hidalgo County**, hereinafter referred to as "Employer" and **Deer Oaks EAP Services**, a Limited Liability Company, hereinafter referred to as "Company".

WHEREAS, the Employer desires to retain a contractor to provide an Employee Assistance Program ("EAP") and;

WHEREAS, Company submitted a proposal, which is attached and incorporated by reference as part of this agreement as Exhibit "A", which Employer has selected.

NOW, THEREFORE, in consideration of the mutual covenants set out herein, the parties hereto agree as follows.

WHEREAS, Employer solicited requests for qualifications for said EAP; and WHEREAS, Company submitted a proposal which Employer has selected. NOW, THEREFORE, in consideration of the mutual covenants set out herein, the parties hereto agree as follows:

1. **Scope of Work and Services.** In consideration for the "per employee per month" fee described in Section 2 below, Company agrees to provide to Employer's employees and their dependents, and anyone residing in their household (collectively, "participants") all the services described in this Agreement, and in Company's proposal to Employer, including, but not limited to, the services described below.

- a. **Eligibility:** All employees, dependents, and household members with the exception of minors (this exception will be detailed in Section d.) are eligible to access the EAP starting on day one of the contract regardless of whether they are or are not covered under other mental health service plans. Eligibility is based on the attestation of the member. Employees who terminate

their employment for any reason will have continued access to the EAP for six (6) months post-employment. Retirees, who retire with the Hidalgo County during the term of this agreement, will have continued access to the EAP for six (6) months post retirement.

- b. **Intake (Telephonic Triage):** This service will be immediately available during regular business (8am to 8pm CST) hours and in emergency situations via the 24-hour, 7 days a week emergency on-call system. Basic demographic information will be gathered. Client needs will be assessed. Those in crisis will be connected to a counselor.
- c. **Initial Diagnostic Assessment:** Following the intake, a Face-to-Face or Telephonic consultation appointment is offered. During the assessment the counselor will gather information regarding the presenting problem in order to create a diagnosis and develop a treatment plan for short-term counseling. This session counts as one of the EAP visits included in the plan. Telephonic or Virtual (iConnect You) Assessments in lieu of face-to-face assessments will only be conducted at the request of the participant.
- d. **Short-Term Therapeutic Counseling:** Company will offer up to three visit model **(3) visits** for short-term EAP counseling benefit per participant, per issue, per calendar year (including the initial appointment). The Company will be fully responsible for the clinical care provided to participants. The specific number of sessions and treatment plans will be determined by the Company's counselor and will be based on clinical presentation, need, and suitability for a short-term counseling model of treatment. Minor coverage: A minor may contact the EAP directly or a parent/guardian may do so on their behalf. Deer Oaks cannot assess a minor telephonically and cannot refer to EAP services without parental or legal guardian involvement and written consent. Minors accessing the service directly, without parental involvement, will be checked for safety, offered in-the-moment support and, where appropriate, referred to other Agencies. Upon receiving parental consent, children ages 8-13 are eligible for family counseling; children ages 14-17 are eligible for individual counseling; and children under age 8 must be referred out of the EAP. Telephonic counseling can be made available in lieu of face-to-face counseling only at the request of the participant. In addition, a confidential "Face time" session via "iConnect You" can also be available in lieu of face to face at the request of the participant. Other alternative modes

of counseling to discuss may include the following: AWARE Mindfulness-Based Stress Reduction Program, Telephonic Virtual Group Counseling and Telephonic Life Coaching. If a participant possesses clinical symptomatology that requires longer-term and/or a different psychotherapeutic approach to treatment, the Company will work with the employers medical benefit plan to either make a referral to another provider and/or provide these services under the umbrella of the employee's medical benefit.

- e. **Range of Counseling Types:** Counseling may include individual, family, and/or marital interventions for issues suitable for a short-term counseling approach. Common presenting problems include, but not limited to stress, family problems, marital problems, sadness/grief, worrying, parent/child problems, work-related difficulties, interpersonal problems with co-workers and supervisors, anger management problems, drug or alcohol use, workplace violence, single parenting problems, legal and financial difficulties, coping with medical problems, and crisis counseling.
- f. **Case Management & Follow-Up:** Company shall attempt to follow-up with all participants accessing services to ensure their satisfaction. Additionally, Company shall conduct comprehensive case management and follow-up for any participants referred to the EAP on a mandatory basis due to a job performance concern, work-place violence, sexual harassment, or suspicion of substance abuse or other employer group policy violation or concern.
- g. **Referrals:** For cases requiring medical or longer term/more intensive behavioral health intervention, referrals will be made by the Company to the employer's Medical Plan when indicated, or to another qualified professional that is within the financial means of the participant if the participant is not covered by the major medical plan. Low cost and free community referrals are also available to EAP participants.
- h. **Referrals for Psychological Testing/Fitness-For-Duty Evaluations (FFDs) and DOT/SAP Evaluations:** Deer Oaks provides expert telephonic consultation dealing with decisions regarding the need for a Fitness-for-Duty (FFD) Evaluation and can assist in recommending a FFD facilitator and coordinating a referral to the provider. However, the Employer is solely responsible to decide whether to refer an employee for a Fitness-for-Duty Evaluation. The

employer is responsible for working directly with the FFD provider, as well as paying for the Fitness-for-Duty Evaluation directly. With regard to DOT/SAP evaluations, the Company will coordinate and case manage DOT/SAP Evaluations at a fee for service.

- i. **Education & Prevention:** The Company offers Supervisor and Employee Wellness Training via webinars and in person. An extensive array of education and prevention seminars are available to employees and supervisors dealing with a wide variety of topics including wellness, stress management, coping with change, motivating employees, recognizing substance abuse, other personal or work-related concerns. Electronic Newsletters for employees and supervisors are designed by the Company for distribution by the employer to provide additional educational and preventative tips and activities. Additionally, many training seminars are available to download via the Company's website. PEPM includes up to twelve **(12) hours** of Onsite Employee/Supervisor Training Seminars and twelve **(12) hours** of Webinars from our Webinar Catalog. The onsite hours may be used at the Employers discretion for training/orientation, employee orientations, and wellness /brown bag seminars. Unlimited health fair/open enrollment meetings.
- j. **Work/Life Services:** Company will assist participants with balancing personal and work life concerns, coping with maternity/paternity and return to work, time management, childcare/eldercare services, and other work/life issues such as assistance with referrals for adoptions, relocations, college planning, and adjusting to retirement. Company will provide participants with I.D Recovery which offers a thirty (30) minute consultation with an Identity Recover Professional that will aid in the recovery process by assessing the situation, creating and implementing an action plan. Company will provide participants credit score monitoring through Credit Karma which will provide secure credit scores, reports and monitoring and financial tools. Company will provide Telephonic Life Coaching to assist participant with obtaining personal goals.
- k. **Employer Group Services:** Company will provide additional group assistance to the Employer as needed. These group services include immediate CISD response to any employees coping with a trauma or critical incident in the workplace within 24 hours of the request of the Employer

A More Comprehensive & Proactive Approach to EAP

Understanding of Challenges Facing County Government Employees

Having administered integrated EAP and work-life programming for cities, counties, towns, police and fire departments, transit authorities, and other public employers since 1992, Deer Oaks has thorough knowledge of the multitude of challenges employees face on a daily basis including:

- stress- personal and professional
- fiscal concerns
- challenging colleague relationships
- implementing changes in legislation
- incorporation of new technology in the workplace
- security and crisis management/safety
- increased performance demands
- employee engagement and morale issues
- retention, transition, and advancement
- work-life balance
- change and growth management

Further, we acknowledge that the County's various departments from the Auditor's Office to the WIC Office have varying needs. Issues that affect one employee population may not be a concern for another group.

For example, deputies and investigators with Child Protective Services, Emergency Management, and Fire Marshall personnel are oftentimes exposed to consistent high levels of stress and can experience and hear things day after day that are challenging, painful, and difficult—leading to burnout, secondary trauma, compassion fatigue, Post-Traumatic Stress Disorder, and difficult personal issues such as substance abuse, marital discord, and anger management. They may be exposed to traumatic events, witness violence and death, fear for their own safety and the safety of others, and face pressure to perform in life and death matters. These daily challenges would be different for employees working in other departments such as Human Resources, Purchasing, and Treasurer.

Deer Oaks does more than understand these differences – we act on it. ***By being adaptable at the County, department, and employee population levels, we are able to apply the right programs, to the right departments, at the right time in order to proactively assist employees to better assess and cope with day-to-day challenges.*** We will bring this adaptability to the County's EAP contract, building relationships within each department in order to best tailor services to their unique employee groups and challenges.

Impact of Stress and Psychological Issues

Through our extensive experience serving public sector clients including first responders since 1992, we understand all too well the impact that psychological problems and stress have on employees and the multi-level cost to employers including habitual absenteeism, lost productivity, and an increase in overall medical claims.

Tab 1: Executive Summary

In fact, statistics state:

Psychological problems account for

- 61 percent of absences from work each year
- 65-85 percent of employee terminations
- 80-90 percent of industrial accidents
- At least 50 percent reduction in productivity
- Employees with mental health disorders generate direct health care costs that can be 4.2 times higher than the typical employee.
- 1/3 of active duty and retired police officers suffer from post-traumatic stress and depressive symptoms are 2x that of the general population
- A survey of more than 4,000 first responders found that 6.6 percent had attempted suicide, which is more than 10 times the rate in the general population

Stress accounts for

- Est. \$300 billion per year cost to U.S. organizations
- 70 percent of employee visits to a family doctor
- 30 percent of all disability claims
- Significant cause of employee productivity problems such as difficulty concentrating, conflict with coworkers, missed deadlines, etc.

These many stressors can cause staff to become overwhelmed and experience stress that can negatively impact their performance at work, the way they interact with constituents, communicate with colleagues, and their personal well-being and family relationships.

Benefits of a Highly Utilized EAP

Early identification of issues, intervention, and timely case resolution through the EAP are fundamental to assisting employers in reducing lost time due to employee personal problems. A combination of high utilization and our “more than an EAP” approach can result in the following positive outcomes:

- ✓ Reduced behavioral healthcare claims, leading to overall cost savings
- ✓ Increased employee engagement, productivity, morale, and retention
- ✓ Goal-focused problem resolution, quickly returning employees to full productivity
- ✓ Reduction in the frequency of workplace incidents and absenteeism
- ✓ Rapid identification of issues and referral to appropriate care resulting in better outcomes
- ✓ Proactive assistance with work-life issues before they lead to stress and impact engagement

Deer Oaks has a reputation within the EAP industry for increasing our clients’ utilization rates substantially over the course of the contract term, enabling our customers to capitalize on the benefits associated with a highly-utilized EAP. We understand how important it is to promote the EAP at every step in order to increase program awareness, and therefore utilization of the program, leading to reduced behavioral healthcare claims, reduced behavioral healthcare costs, increased employee engagement and productivity, and an overall happier, healthier, more productive workforce.

Tab 1: Executive Summary

Our Approach

The County and its employees deserve a homegrown, hands on, holistic approach to the EAP that can best serve your employees. ***Deer Oaks can be the difference. Our approach is preventative—not reactionary.*** We assist employees with working through a wide range of challenges from relationship issues, both personal and professional; stress; and anxiety to developing strategies to maintain better work-life balance; time management; and managing to-do lists.

We offer proactive resources that provide employees with the right tools and confidential resources to combat stress and navigate work and life challenges in the moment before they have a negative impact on their work productivity and personal well-being.

Deer Oaks offers the County the following initiatives as part of our “more than an EAP approach”.

Dedicated to the Provision of EAP Services. Deer Oaks specializes in the delivery of EAP, Work-life and Wellness Services to public employers and has been a fixture in the EAP industry for 27 years. Deer Oaks understands the true value of the EAP in assisting organizations with issues such as employee engagement, productivity, morale, retention and assisting in lowering overall medical claims costs. *EAP isn't just something we do- It's all we do.* This is more than a slogan; for the County, it means that with Deer Oaks, you have an EAP that concentrates on proactively supporting your employees, assisting those struggling with stress, anxiety, or other issues. To make a difference in their lives, truly makes a difference to us.

Texas-based Account Management. Deer Oaks is headquartered in San Antonio, Texas, only a short drive from County offices. As a native Texan, former Rio Grande Valley resident, and serving as Project Manager for clients throughout Texas, Alicia Barrera, assigned project manager for the County, has a unique understanding of the diverse social and cultural landscape of our State, as well as the challenges facing Texas local government and other public employers. This intrinsic knowledge ensures that we not only have the resources in place to provide efficient service delivery to the County, but also that your Project Manager brings with her an understanding of local challenges including those unique to border communities. Further, our staff is readily available to attend meetings, conduct orientations, participate at annual health/benefit open enrollment fairs, and consult with the County as needed. We are only a short drive away!

Services tailored to first responders. Through our experience serving local government, as well as, the Federal Law Enforcement Training Centers (FLETC), we have developed a wealth of experience in working with first responders, law enforcement, fire, case workers, and other high-risk employee groups. As such, in order to adapt our approach to serve this population, we actively recruit providers on our affiliate provider panel that specialize in counseling high-risk populations and understand their unique challenges; conduct specialized outreach and education for first responder personnel to encourage program utilization; tailor critical incident response; develop custom webinar/on-demand training series on relevant topics including self-care, compassion fatigue, vicarious trauma, stress management, etc.; and meet with HR, the Sheriff's Office, and other key administrators to discuss how we can best support and integrate within established internal programs and initiatives.

Tab 1: Executive Summary

Market the EAP as an Integral Part of Daily Life. In recent years, the EAP has evolved beyond “just counseling,” although in many ways, it has yet to shake this perception. We focus on utilizing the EAP as both a life coaching tool for employees and strategic management tool for supervisors/managers. We believe the EAP should be an integral part of employees’ day-to-day lives and market it as such. We tend to focus our program promotion efforts on the range of available services outside of counseling including our well-received *Did You Know Campaign Series* through which we highlight the various day-to-day challenges for which the EAP can assist i.e. smoking cessation, relocation, retirement, improving relationships, and your “to-do” list, to name a few.

Focus on Stress Management. Understanding that county government employees experience a higher level of stress than many other occupations, Deer Oaks includes direct stress reduction programs tailored to the needs of the County encompassing training, a custom Stress Management webinar series, awareness materials, online information, telephonic consultation, in-the-moment telephonic support, AWARE mindfulness based stress reduction program, telephonic life coaching, and more. We seek to provide employees with the tools necessary to combat stress and learn to live a more balanced, mindful life.

Promote our Work-Life Services as a Stress Management Strategy. Not everyone needs counseling, but everyone has a to-do list. Members can use our legal, financial, and daily living consultation services to speak to a consultant who can assist members with locating nearly endless resources such as finding care for pets, personal care, travel, home improvement contractors, education, and managing day-to-day responsibilities at home, and work. So whether someone needs to find a plumber to fix that leaky faucet or a travel agent to plan their next vacation, the EAP can help, leaving them with more time for what matters most and less stress. This strategy has been successful in increasing many of our clients’ work-life utilization.

Reduce Stigma Associated with Mental Health Counseling. We encourage integrating the EAP under the umbrella of an overall Wellness or Employee Well-Being Initiative such as the County’s successful employee wellness program. The organization can harness the promotional activity already in place through its other wellness initiatives to also include EAP, raise awareness of the range of available services, and help to reduce the stigma that sometimes prohibits individuals from accessing mental health services. We have found that employees are typically more comfortable discussing wellness and stress management issues than mental health.

We further seek to reduce barriers by providing multiple service access points via telephone, video, SMS text, and live chat, as well as offering our AWARE, telephonic life coaching, and Virtual Group Counseling. This is especially important in today’s multi-generational workforce. A “Baby Boomer” employee may prefer to pick up the phone to access services, where a “Millennial” would be attracted to the idea of instant messaging or video chatting with a counselor. Our goal is to make it as easy as possible for members to make that first contact.

Robust training program comprised of onsite, webinar, and on-demand options. Because the County has dispersed employee populations that work various schedules, it is oftentimes challenging to provide them with training opportunities. Our unique blend of onsite, webinar, and on-demand training opportunities expands the reach and effectiveness of our training program and can have a significant impact on the County’s ability to provide health, wellness, and professional development training for its staff. Plus, we can track and report attendance at

Tab 1: Executive Summary

training events so employees can receive wellness points and offer certificates of completion for download following our on-demand and e-learning courses.

High 95% clinical case resolution rate. Our commitment to utilizing the EAP to realize the best possible outcomes for your employees is reflected in our case resolution rate. Across our book of business, *95% of clinical cases* are resolved within the EAP without the need for further referral into the employer's health plan. Deer Oaks' high case resolution assists our clients with reducing the number of health care claims made through their health plan for issues like stress and depression, leading to overall cost savings.

Success Stories

We not only talk-the-talk, but walk-the-walk. We successfully implement integrated EAP and work-life programs for public sector clients each year. Our project managers work in partnership with our clients to develop and roll out multi-faceted program awareness campaigns and wellness initiatives that result in increased program engagement.

- *McAllen ISD has been a client for many years and realized utilization of 22.33% in 2018. This utilization is nearly five times the national average!*
- *The City of Harlingen is a long-term client of Deer Oaks. Their combined utilization for 2018 was 8.29%--nearly double the industry average.*
- *The City of Brownsville is another long-term client of Deer Oaks. Their combined EAP and work-life utilization was 8.71% in 2018.*
- *The City of Mission has been a client since 2007 and has realized an average case utilization of 7% over the last three years, exceeding the national industry average of 4.5%.*
- *Fort Bend County has been a client since 2012 and has realized an average case utilization of 17.5% over the last three years, reaching 20.7% utilization in 2018.*
- *The City of Bryan has been a client since 2008 and has realized an average case utilization of 12.15% over the last three years.*
- *Montgomery County has been a client since 2006 and has realized an average case utilization of 19.62% over the last three years.*

Through these proactive strategies, Deer Oaks seeks to develop a partnership with Hidalgo County to implement a tailored EAP that is more than "just a counseling service." Our integrated, holistic approach and client and employee-centric programming combined with aggressive program promotion and training program will proactively assist members with both mental health and day-to-day issues, resulting in improved overall workforce productivity, well-being, engagement, and retention. We are excited about the opportunity to work with the County to put these words into action.

Subcontractor

Deer Oaks currently maintains a contractual relationship with Workplace Options to provide 24-hour call center operations and related services for its book of business. Deer Oaks first switched its work-life services to Workplace Options in 2012. We then expanded our relationship to include 24-hour call center operations July 1, 2013. By leveraging this partnership, Deer Oaks was able to centralize its call center operations and enhance quality control measures. In addition, with both EAP clinical and work-life personnel working under the same roof, using one case management system, and following the same quality standards, there was greater harmony among the service delivery philosophy, supervision structure, training methods, and operating procedures. This genuine integration allows for greater consistency in the management/delivery of services to our clients.

Alicia Barrera, Executive Director of EAP, works directly with Workplace Options and oversees quality control over our contract and service delivery. She also has a direct relationship with Workplace Options' President & Chief Operating Officer, Alan King, who is committed to a long-term relationship with Deer Oaks.

About Workplace Options

Founded in 1982, Workplace Options has grown to become the world's largest integrated employee wellbeing company. Their 13 global service centers support more than 58 million employees across 90,000 organizations in more than 200 countries and territories around the world through a variety of employee assistance, wellness, and work-life services.

Understanding of the Project Needs/Scope of Work

As a Texas-based EAP and an integrated provider of EAP and Work-life solutions, Deer Oaks is positioned to deliver the most seamless services to County employees, retirees, and family members. We have the knowledge and capability to provide employees with the most holistic support to achieve efficient and thorough resolution of their issue.

Unlike many of our competitors that utilize separate call centers and/or organizations for the provision of EAP, Work-life and Wellness services, as well as after-hours Helpline coverage, the Deer Oaks program is delivered 24/7 by EAP and Work-life staff members who are working under one roof, using one case management system, and following the same quality standards. This genuine integration allows for greater consistency in the management and delivery of services to our clients.

Further, employees of a truly integrated EAP and Work-life program are the best equipped to identify underlying issues and develop a plan for addressing all of the employee's needs.

For example, an employee may be overwhelmed by the loss of her parent, who had been the caregiver for her young children. With just one phone call, we can begin the process of arranging face-to-face counseling sessions, locating referrals for local support groups, and identifying suitable child care providers near the employee's worksite.

Tab 2: Understanding of the Project

Our services are designed to support employees with a wide range of emotional health issues when short-term counseling has been deemed appropriate. These are issues for which we can assist in facilitating a positive outcome within a number of sessions offered over a short period of time such as a three (3) or six (6) session model. The therapy concentrates on helping individuals identify the skills, strengths, and resources that are already present and moves them towards a solution. This model has been proven effective in helping address employees' personal and professional issues, helping them to avoid being absent from work or helping them to return to work as quickly as possible. Examples include but are not limited to stress, bereavement, depression, anxiety, relationship issues, dependent care concerns, wellness, substance abuse/dependence, and addictions.

Deer Oaks accepts unlimited self-referrals, supervisory-suggested referrals and formal management referrals to the EAP, as well as offers a full suite of Work-life services and organizational management services. Our counselors are experienced at accurately assessing the presenting problem(s) during the initial assessment and identifying the appropriate type and level of assistance needed to effectively assist the participant in resolving his/her issue. A referral is then coordinated to one of our 58,000+ affiliate providers nationally, selecting a provider that best meets the member's individual needs.

We also offer a number of tele-health options including structured telephonic counseling, video counseling, an online Cognitive Behavioral Therapy program, telephonic Aware – Mindfulness-Based Stress Reduction (MBSR) program, telephonic life coaching, and telephonic Virtual Group Counseling. We find that offering these tele-health options increases program access and reduces stigma that sometimes prohibits individuals from accessing mental health services.

Further, if the presenting issue(s) fall outside of the scope of the EAP or require longer-term treatment, we offer resources to ensure that the employee is placed on the path he/she needs to get more intensive support. This may include a referral to the employee's health plan or to local community resources. We utilize internal provider databases and our research teams to locate appropriate referrals for each member.

Finally, our EAP and Work-life Programming is anything but one-size-fits-all. Our programs are designed to be flexible and are able to be customized to the individual needs of our clients- *even if those needs change throughout the contract term*. Your Project Manager will ensure that the program is adapted to meet the County's changing needs, now and in the future.

Tab 3: Personnel & Staffing

EAP Administration

The day-to-day operations of the EAP are managed by Alicia Barrera, the Executive Director of EAP with input from the CEO, Paul Alan Boskind, Ph.D and CFO and President, Laura Davies. Alicia is responsible for the overall strategic and operational responsibility for staff, programming, and execution of services for clients; allocation of financial, material, and personnel resources to ensure contract performance; and ongoing programmatic excellence and quality assurance activities. She will also serve as Project Manager for this contract and will be in charge of implementation and serve as the day-to-day contact for the County. Business development activities are led by Greg Brannan, Director of Business Development and Training.

The lines of reporting authority and communication for the contract are clear and direct. Alicia Barrera, designated Implementation & Project Manager will interface and communicate directly with the County's Contract Officer and other key representatives. Contract requirements will be communicated by the County's Contract Officer to the Project Manager directly. The Project Manager will take the actions required to implement the requirements. Alicia will have full authority to make staff and resource decisions for the contract and will be solely responsible for contract performance. She will ensure that all necessary steps are identified and implemented as needed to ensure superior contract performance.

Finally, we employ 150+ staff and subcontractor personnel in the roles of executive leadership, program management, account management, marketing, administrative support, clinical, work-life, and call center management and support staff, as well as maintain a network of 58,000+ affiliate counselors nationally who are contracted to provide in-person, short-term counseling and related services to our client employees and their family/household members. Through these resources, Deer Oaks has the established operational infrastructure and existing manpower necessary to accommodate the County's contract if awarded.

Account Management Philosophy

We are a national and global EAP provider headquartered in San Antonio, Texas—just a 3 hour drive to Hidalgo County offices. As such, we are available to be onsite quickly when requested and attend health/benefit/open enrollment fairs. Your account manager, Alicia Barrera, has lived in the Rio Grande Valley region and South Texas for many years and is accustomed to working with our other clients in the area. Alicia is our most experienced Account Manager, is acutely aware of the challenges and unique needs of clients in the Valley, and is bilingual (English/Spanish). She returns phone calls and emails early in the morning and late at night and is always available to be reached after normal business hours by calling the Helpline or their personal line, if shared. During implementation, we will discuss program expectations, goals, and develop communication protocols with the County, establishing a routine for initial and ongoing communication that works for both parties.

Additionally, we have a team of executive personnel, account managers, and administrative staff that would fully support this account in addition to your assigned Project Manager. All client information is maintained in a central contact management system; therefore, every staff member has access to your program design, processes, and procedures so they can step in to assist when needed. They serve as back-up in the event that your Project Manager is on leave. Someone is always here to assist!

Tab 4: Response to Scope of Work & Services

Response to Questionnaire

Employee Assistance Program provider agrees to provide to Hidalgo County's employees, their dependents and anyone residing in their household (collectively, "Clients") all of the services described in EAP's proposal to Hidalgo County, including, but not limited to, the services described below.

Confirmed. Deer Oaks agrees to provide to Hidalgo County's employees, their dependents, and anyone residing in their household (collectively, "Clients") all of the services described in this proposal to Hidalgo County, including, but not limited to, the services described below.

(1) Intake (Telephonic Triage): This service will be immediately available during regular business hours and in emergency situations via the 24-hour, 7 day a week emergency on-call system. Basic demographic information will be gathered. Client needs will be assessed. Those in crisis will be connected to a clinician.

Confirmed.

Deer Oaks offers members a variety of 24/7 access points to the EAP including the following:

- **Toll-free Helpline answered live 24 hours a day by Master's level clinicians.** Employees will never reach an automated messaging system, phone tree, or general customer service representative. They will speak directly with a live master's level EAP clinician each and every time they call for assistance, no matter the day or time.

Because we do not have a prescribed process flow, our intake counselors are trained to listen closely to each member and to hear what is truly going on and what is being implied. They seek to guide each employee to a solution that addresses his or her individual concerns, which may require a multi-pronged approach of integrated EAP, work-life, and community resources—all of which are addressed during the initial phone call.

- **iConnectYou Smartphone Application** through which members may engage with their benefit via phone, video, instant messaging or SMS text. The app not only allows users to initiate contact with the program, but can also be used to deliver structured telephone or video counseling. Informational resources are also available. iConnectYou is available as a free download via Google Play and App Store. We will provide employees with a code specific to the County to access the app's full features.
- **Real Messaging Service (RMS) Instant Messaging** through which members may chat live with a Work-life Consultant regarding child care, elder care and other daily living work-life issues. The tool features simultaneous translation in over 100 languages.

Offering employees multiple ways to access services allows them the opportunity to choose the avenue that is most comfortable for them, thus increasing the likelihood that they will utilize the service. This is especially important in today's multi-generational workforce. A "Baby Boomer" employee may prefer to

Tab 4: Response to Scope of Work & Services

pick up the phone to access services, where a "Millennial" would be attracted to the idea of instant messaging, texting, or video chatting with a counselor.

The assessment process, which determines the need for counseling, begins at the case intake where demographic information is gathered and through a series of routine questions, the intake representative screens for risk, identifies the presenting problem(s), and triages participants to the most appropriate resource(s) to meet their needs and preferences.

If the issue is determined to be clinical in nature, the member receives a thorough, telephonic clinical assessment with one of our counselors during the initial call that includes:

- Expert identification of the presenting problem or need
- Investigation into support systems
- Coping strategies
- Additional background information
- Mandatory risk assessment including substance misuse/abuse (alcohol/drug assessment is used when indicated), suicidal intent (following guidelines for suicide risk), self-harm (e.g., cutting, risky sexual behavior, etc.), domestic violence, and workplace violence when indicated.

Aside from the severity of the presenting problem, risk in relation to self and others is a key factor in determining the need and urgency of an appointment. If through the clinical assessment the counselor determines that a referral to a network provider for in-person short-term EAP counseling is necessary, the assigned case manager in coordination with our Network Advantage Team:

- identifies and contacts local counselors based on the member's location, presenting problem, needs, availability, and counselor-client matching; and
- provides the identified counselor's information to the member to schedule an appointment at a time that is convenient for him/her.

Multi-lingual Services

To assist non-English speaking persons, we utilize our Language Line services, which offers immediate access to an interpreter in over 200 languages. All intake staff undergo a training on Language Line. Additionally, staff have job aids to guide them on how to use the service, keep callers on the line, identify the caller's language, etc. With these provisions, staff are well-equipped to handle calls in any language with efficiency and ease.

This process applies to the initial intake, during which the caller's demographics are collected, needs are identified, and a risk check is performed. For in-person counseling referrals, individuals are matched with an affiliate who is an appropriate match to their clinical needs, as well as primary language. The successful match occurs in 98% of the members served. In the 2% of cases where there is not an available provider to speak the preferred language, we provide bridge counseling via the translation service, while we are identifying an affiliate with the appropriate clinical credentials and language fluency.

Further, our website includes both English and Spanish sites and promotional materials including wallet cards, fact sheets, and brochures are available in Spanish upon request.

Tab 4: Response to Scope of Work & Services

Services for Member with Hearing Impairments

For individuals with hearing difficulties, we provide a TTY line which is answered 24/7 by our master's level clinicians. In addition to this line, we offer online chat and text message access to the service through a RMS Instant Messaging System for work-life issues and iConnectYou smartphone application for intake, clinical assessment, and structured counseling.

Based on our experience, text interaction is the preferred mode of access for those who are deaf and hard of hearing. Our RMS Instant Messaging application on the web is utilized more heavily than the TTY access. Our smartphone application, iConnectYou, also offers additional text and online chat access points, which hearing impaired users may find useful.

a. What is the professional level of the Intake Triage staff?

Helpline intake triage staff are Master's-level clinicians. All of our counselors have a minimum of a master's degree in social work, counseling, or a related area of study and at least two years' experience providing direct counseling or mental health services. Clinicians providing telephonic or online counseling are licensed mental health professionals.

Our clinical staff has solid experience in intake and crisis management, clinical assessments, chemical dependency, trauma response, and other relevant interventions. Counselors are required to complete our induction training including assessment skills training, risk assessment and crisis response, and outcome management; participate in ongoing training; and are supervised by a clinical management team.

b. What is the professional level of the "clinician" contacted?

Intake and clinical assessments are conducted by the same team of master's level clinicians as described above. They conduct intake and clinical assessments and provide in-the-moment telephonic support and crisis intervention 24/7 via the helpline and our iConnectYou Smartphone App.

c. In case of a critical emergency how quickly can a client member be contacted after Intake Triage has determined the call to be in crisis?

Immediate clinical assistance is available 24/7/365. Calls received after-hours and on weekends receive the same level of service as those received during regular business hours. Master's level counselors and a clinical supervisor are always available to handle emergency (and other) cases.

Our counselors have a responsibility in the course of assessment, to judge which cases have a probability of suicide risk. Of those, the counselor will specifically assess whether the danger appears to be imminent, or if the employee is at high risk of suicide in the short-term.

Where there is imminent, clear, and present danger judged to exist, the counselor will implement a plan to protect the employee's safety above all else. Under these circumstances, professional standards and the law allow for a breach of confidentiality (as appropriate), as part of an organized safety plan.

If the employee is alone and in imminent danger, we reassure him that help is available and support his decision to call for help. The counselor keeps the employee on the phone and alerts another counselor that emergency support is needed. The supporting counselor will contact the local police department and request access to the local emergency service dispatch. The supporting counselor will report the emergency and will provide the individual's location, the present threat, his mental status/stability,

Tab 4: Response to Scope of Work & Services

medical state, and any other relevant details. The counselor will remain on the phone with the employee until emergency services arrive.

The counselor will attempt to speak with the responding police or emergency personnel to apprise them of the situation and obtain information as to where the employee will be taken. Emergency services have decision-making power once they arrive. The counselor's only input is in providing information. When working with emergency services, EAP counselors do not attempt to engage in a discussion of the clinical issues involved in the case, but rather report the facts of the case in a concrete and deferential manner.

The counselor will remain available to the hospital or physician in order to discuss case and assessment information as needed to assist with the employee's admission.

d. Do you have on staff crisis management clinicians?

Yes, all of our clinical staff are trained in risk assessment and crisis response procedures.

(2) Initial Diagnostic Assessment: Following the intake, a Face-to-Face or Telephonic consultation appointment is offered. During the assessment the clinician will gather information regarding the presenting problem in order to create a diagnosis and develop a treatment plan for short-term counseling. This session does not count as one of the EAP visits included in the plan. Telephonic Assessments in lieu of face-to-face assessments should only be conducted at the request of the Client.

Deviation. A telephonic clinical assessment is conducted for every caller presenting with a clinical need so as to not delay the assessment process. The assessment also assists us with selecting the most appropriate provider to address each individual member's issue(s) for each case. This assessment does not count toward the session model. A face-to-face diagnostic assessment is also typically conducted during the first in-person EAP session with a local provider.

The assessment process, which determines the need for counseling, begins at the case intake where demographic information is gathered and through a series of routine questions, the intake representative screens for risk, identifies the presenting problem(s), and triages participants to the most appropriate resource(s) to meet their needs and preferences.

If the issue is determined to be clinical in nature, the member receives a thorough, telephonic clinical assessment with one of our counselors during the initial call that includes:

- Expert identification of the presenting problem or need
- Investigation into support systems
- Coping strategies
- Additional background information
- Mandatory risk assessment

Aside from the severity of the presenting problem, risk in relation to self and others is a key factor in determining the need and urgency of an appointment. If through the clinical assessment the counselor determines that a referral to a network provider for in-person short-term EAP counseling is necessary, the assigned case manager in coordination with our Network Advantage Team:

- identifies and contacts counselors based on the member's location, presenting problem, needs, availability, and counselor-client matching; and

Tab 4: Response to Scope of Work & Services

- provides the identified counselor's information to the member to schedule an appointment at a time that is convenient for him/her.

The following indicates the timelines for confirmed clinical referrals and appointment availability by standard, urgent, and emergent cases. The member is responsible for calling the referred counselor to schedule an appointment at a time that is convenient for him/her; therefore, the actual time to appointment may be shorter or longer depending on when the member schedules the appointment.

- **Intake & Telephonic Clinical Assessment** – Available immediately during the member's initial call into the EAP 24/7
- **Standard** – A counselor is appointed within 2-3 business days from the time of the telephone assessment. The case manager contacts the employee with the appointed counselor's name and contact information. The counselor must have appointment availability within five (5) business days of accepting the case.
- **Urgent** – Appointments for urgent requests are escalated and the case manager contacts the employee with a confirmed referral to an affiliate counselor within six (6) business hours. The provider must have appointment availability within two (2) business days of the initial contact with the EAP. In-the-moment telephonic counseling is provided to those in need of such support.
- **Emergent** – In extreme crisis situations, the case manager follows the escalation procedure as warranted. This may include involvement of emergency services, ER or hospitalization to preserve the employee's safety. If emergency services become involved, we ensure that the appropriate services are being offered by confirming with the emergency responders who arrive on the scene, whenever possible. If not possible, we provide a welfare check to ensure that the crisis has been resolved. If the safety of the caller is confirmed and emergency services are not needed, the counselor provides in-the-moment support. Face-to-face counseling is then provided on the timeframe for urgent requests.

Based on the specific case and the presenting issues, the counselor may recommend other modes of support including our AWARE Mindfulness-Based Stress Reduction Program, virtual group counseling, telephonic life coaching, referrals to local support groups, or even a referral to the member's medical plan or other health and wellness benefits when appropriate.

a. Do you have a network of clinicians?

Yes, Deer Oaks maintains a large network of clinicians in Hidalgo County, throughout the State of Texas, as well as nationwide. Deer Oaks maintains an extensive national network of 58,000+ counselors located in every state and Puerto Rico including the following providers available to provide in-person assessment, counseling, and related services for County members:

- 5,013 providers in the State of Texas
- 85 providers in Hidalgo County

All provider facilities are ADA compliant and most have convenient parking on-premises or parking nearby in urban locations.

b. What is their level of professional designations?

In order to be accepted into our affiliate network, each provider must meet the following minimum standards:

- Possession of a minimum of a master's degree in a mental health discipline
- Five years minimum post master's experience in the direct provision of clinical care
- Current and unrestricted license as a mental health practitioner at the independent practice level
- Maintenance of professional liability insurance at the level of \$1 million per occurrence and \$3 million aggregate
- Attestation/disclosure to the existence of prior sanctions or limitations to license, malpractice claims history, the existence of felony convictions, and the ability to perform the essential functions of an EAP counselor

As a certified Credentials Verification Organization (CVO) through the National Committee for Quality Assurance (NCQA), our credentialing department performs primary source verification in accordance with NCQA standards each time a provider is credentialed or re-credentialed (every three years). As such, each provider's accreditations, insurance, supervision, and continuing professional development credits are primary source verified by our network management team.

Tab 4: Response to Scope of Work & Services

c. Are clients directed to a specific clinician?

Yes. We understand how important it is for members to feel comfortable with their counselors and build trust, resulting in meaningful exchanges of information. This starts with creating a successful client-counselor match from the onset of the referral.

Following the initial intake and telephonic clinical assessment, our case managers seek to successfully match members with counselors that meet their specific clinical needs and personal preferences within a reasonable distance of his/her home or work. This client-counselor matching is an important step to ensuring that your employees receive assistance from counselors that are appropriate to their needs.

Our affiliate provider network is diverse and includes counselors that range in age, gender, ethnicity, race, expertise, treatment specialty areas and language capabilities. Therefore, our case management team is able to search our provider database for counselors that best match each individual's preferences based on such factors as location; appointment availability i.e. evening, weekend, daytime; specialty with the presenting problem; education/certification level; gender, etc.

For example, if a member requires an evening appointment within 25 miles of his/her home with a Spanish-speaking counselor, our team will contact providers within our system and determine which provider best meets the member's needs prior to sending the referral.

d. May client select a clinician provider from a list of providers?

Instead of providing a list of providers to the member who then has to make time to call each provider on the list who may or may not have the appropriate availability or meet the member's needs, the Deer Oaks team does the heavy lifting prior to sending out the referral to the member.

Our team searches our extensive provider database for counselors that best match each individual's preferences based on such factors as location; appointment availability i.e. evening, weekend, daytime; specialty with the presenting problem; education/certification level; gender; language preference, etc. The case manager then contacts the identified providers to determine which one provider is the best match for the member and provides the provider's information to the member for appointment scheduling. This process ensures that the member is provided with a referral to a local provider that has appropriate availability and is the best match for his/her needs/preferences.

e. Does the list of providers contain information about the clinician that will provide professional designations, appointment availability, and specialty?

Yes, the referral provided by our team to the member will include information about the selected provider including his/her professional designations, contact information, and specialty. The member is responsible for calling the referred counselor to schedule an appointment at a time that is convenient for him/her.

(3) Short-Term Therapeutic Counseling: Provide a quote for a 3 visit and a 6 visit EAP counseling benefit per Client, per issue, per calendar year (not including the initial appointment). The EAP provider will be fully responsible for the clinical care provided to Clients. The specific number of sessions and treatment plans will be determined by the EAP's clinician and will be based on clinical presentation, need, and suitability for a short-term counseling model of treatment. Telephonic counseling should be made

Tab 4: Response to Scope of Work & Services

available in lieu of face-to-face counseling only at the request of the Client. If a Client possesses clinical symptomatology that requires longer-term and/or a different psychotherapeutic approach to treatment, the EAP will work with the Hidalgo County's medical benefit plan to either make a referral to another provider and/or provide these services under the umbrella of the employee's medical benefit.

Confirmed.

Deer Oaks has included within its proposal a quote for a 3 visit and a 6 visit EAP counseling benefit per member, per separate issue, per calendar year. Deer Oaks shall be fully responsible for the clinical care provided to clients. The specific number of sessions and treatment plans will be determined by the Deer Oaks clinician and will be based on clinical presentation, need, and suitability for a short-term counseling model of treatment. Telephonic counseling shall be made available in lieu of face-to-face counseling only at the request of the client. If a client possesses clinical symptomatology that requires longer-term and/or different psychotherapeutic approach to treatment, Deer Oaks will work with Hidalgo County's medical benefit plan to either make a referral to another provider and/or provide these services under the umbrella of the employee's medical benefit. We utilize internal provider databases and our research teams to locate appropriate referrals for each member.

a. Do you have a report that demonstrates the number of times a clinician extends the number of treatment sessions to the County's medical plan?

Across our book of business, 95% of clinical cases are resolved within the EAP without the need for further referral into the employer's health plan. Of the remaining 5%, 3% of cases are referred to resources outside of the EAP and 2% are referred to work-life services. Deer Oaks' high case resolution within the EAP assists our clients with reducing the number of health care claims made through their health plan for issues like stress and depression, leading to overall cost savings.

b. Do you provide a report showing the success of treatment plans?

Our Evolutionary Case Outcomes Management System (ECOMS) measures the effectiveness of our clinical services throughout a participant's experience. The system uses client-reported scores produced from an Outcome Rating Scale (ORS) questionnaire to evaluate a client's clinical progress, regress, or stagnation in therapy. This rating scale gauges specific factors widely accepted as valid indicators of progress in therapy. Review of the resulting data allows for a client-directed, outcome-informed approach to case management, an approach unique to the EAP industry. This process allows our case manager and counselor to intervene where necessary to direct both the type of therapy being utilized and also the relationship between the employee and the clinician, ensuring that the best possible outcome is achieved. ECOMS information is available in real time and supports the case manager, counselor, and employee by evaluating the progress and effectiveness of counseling at key points in the program—not simply at the end of the case.

Scoring and Interpreting the ORS

The ORS questionnaire is designed to evaluate the following four areas of the client's life as perceived over the past week:

- Individual well-being
- Interpersonal relationships
- Social role performance (including work performance for employees)

Tab 4: Response to Scope of Work & Services

- Overall client functioning (taking previous scores into account)

Once the client completes the ORS the therapist will total the scores indicated by the client on each item (scored from 1 to 10). Resulting scores may range from zero to 40. The majority of total scores cluster around the mid-point of the scale, near a rating of five. Scores below 25 generally indicate a client is suitable for face-to-face or telephone counseling, while high scores above 25 typically indicate the client may not benefit from face-to-face counseling services. While clients are unlikely to score at either extreme of the scale, if the total score represents an extreme measurement, the counselor will check with the client to ensure they understood the scale correctly.

Our most current results, individuals using our emotional support services reported, on average, an improvement of 56% in their overall wellbeing.

Additional improvements reported include:

- Personal wellbeing + 48%
- Interpersonal relationships + 11%
- Social role performance + 31%

Note: Percentages detailed above are statistically significant gains measured from intake to the end of counselling.

(4) Range of Counseling Types: Counseling may include individual, family, marital, and/or group interventions for issues suitable for a short-term counseling approach. The EAP does not cover issues that require physician/psychiatric evaluation, psychological testing, chronic mental health illness, long-term psychotherapy treatment, or inpatient or residential treatment services. In these cases, we will provide the individual with an appropriate referral to either his/her health plan or to other community resources.

Alternate Modes of Support

Deer Oaks is unique in that it offers several additional support alternatives. In addition to traditional short-term counseling, our counselors may recommend one or more of the following support programs for members based on the initial assessment and presenting issues.

Aware – Mindfulness-Based Stress Reduction (MBSR)

Our unique research-based MBSR program, Aware, is an alternate modality of support for participants experiencing life stress, pain, and challenges with focus and concentration, as well as individuals who want to increase their awareness of and commitment to intentional living.

With a personalized approach to applying mindful practices to life, Aware teaches participants how to be engaged, diminish distractions, and counteract stress. The program cultivates focused and resilient employees, who are more engaged and productive in the workplace. Through six (6) weekly sessions, MBSR-trained health and wellness professionals provide one-on-one support and supply electronic resources for self-guided individual practice. Assessments conducted at the start of the program and upon completion provide measurable outcomes to demonstrate personal progress.

Virtual Group Counseling

We also offer virtual telephonic group counseling. Participants may be referred to a group based on a clinical assessment; those referred will present with similar issues (e.g., bereavement, work-life balance, anxiety) and without risk. Group sessions are 90 minutes in duration and take place once per week throughout the eight-week program. A clinician leads each group to ensure a sound contract is agreed upon during the first session, to maintain time boundaries, to provide structure and containment, and to keep the discussion solution-focused.

In My Hands – Computerized Cognitive Behavioral Therapy (cCBT)

Our online cCBT service, known as In My Hands, is available as a complement to the traditional telephone and face-to-face counseling services. In My Hands has several features that set it apart from other online counseling programs available today, including involvement by our clinical staff throughout the process and integration with our Evolution Case Outcomes Management System (ECOMS). Several modules are available, including Introduction to CBT; Self-Esteem and Thinking Styles; Low Mood and Depression; Stress and Anxiety; and Coping and Resilience.

The self-paced program encourages participants to interact with the application on a weekly basis, and to monitor their own perception of how they are functioning in terms of personal well-being, close family relationships, work, and social roles. Seven online CBT sessions are delivered over the course of seven weeks, with scheduled e-mail and/or telephone support from qualified counselors and additional support as needed.

Our cCBT application makes extensive use of video and other multimedia elements to increase the didactic engagement of the counseling program. The design is intuitive and the underlying system utilizes industry-standard techniques to maximize access and ease of use. In My Hands is currently available in English only.

Telephonic Life Coaching

Certified telephonic coaches partner with participants in a thought-provoking, creative process for navigating life transitions and maximizing personal and professional potential. Areas covered include career development, performance improvement, mentoring, work-life balance skills, managing change/transitions, managing stress, and time management skills.

Life coaching is offered in a six (6) session model that generally lasts three to four months. In the initial 45 minute session, the participant works with the coach to establish a vision, determine goals, and create an action plan. Subsequent 20-minute follow-up coaching sessions ensure the participant is on track to achieve the desired goals. Calls are scheduled at a time that is convenient for the participant and coaches also provide supportive email communication for sharing of resources and progress check-ins.

a. Do you have sufficient clinical provider network staff to address these issues?

Yes, Deer Oaks has 85 clinical providers within Hidalgo County as well as over 5,000 providers throughout the State of Texas and 58,000+ providers nationwide available to address these issues for members living within and outside of Hidalgo County.

As stated previously, our affiliate provider network is diverse and includes counselors that range in age, gender, ethnicity, race, expertise, treatment specialty areas and language capabilities. Therefore, our case management team is able to search our provider database for counselors that best match each individual's preferences based on such factors as location; appointment availability i.e. evening, weekend, daytime; specialty with the presenting problem; education/certification level; gender, etc.

For example, if a member requires an evening appointment within 25 miles of his/her home with a Spanish-speaking counselor, our team will contact providers within our system and determine which provider best meets the member's needs prior to sending the referral.

b. Do you refer specific issues to third party clinicians?

Yes, we refer specific issues that are more suited to long-term treatment to the client's behavioral health plan.

Long-Term Treatment Criteria

For a participant whose presenting problem cannot be reasonably addressed in a time-limited format, or who has multiple concerns and no clear focus, the counselor will discuss this with the participant and determine appropriate resources that the participant may access outside the EAP. The counselor may, in this case, provide some telephone support to aid in the participant's transition to those long-term resources.

Below are our clinical guidelines for making the determination:

- Indicators for long-term psychotherapy
 - Symptoms are chronic (slow to develop and of long duration)
 - Presenting problems have been in existence for a long time
 - Participant's functioning is severely compromised
 - Previous attempts at short-term counseling have been unsuccessful
 - Abrupt ending of sessions could be detrimental to the participant emotionally

Tab 4: Response to Scope of Work & Services

- Possible issues for focus of long-term psychotherapy
 - Evidence of psychosis
 - Severe depression (untreated previously)
 - Personality disorders (e.g., schizoid, borderline)
 - Sexual problems/dysfunction of some duration
 - Childhood abuse as a presenting issue
 - Chemical dependency as a presenting issue and in need of treatment
 - Eating disorders as a presenting issue and where medical evaluation is needed
 - Complex phobias
 - Impulse controls (e.g., kleptomania, gambling)

c. Do you refer to low cost or free Community Services?

Yes, Deer Oaks can also make referrals to low cost or free community services. Our approach to integrating local resources into the programs that we offer is one of the many advantages of our integrated EAP and work-life program. Using our extensive network of counseling providers and our experienced work-life team, we are able to ensure that your employees have access to programs and services that are relevant to them.

Our counselors themselves are valuable local resources. In cases where short-term EAP counseling is not appropriate for a client's situation, we will coordinate a referral for long-term treatment, which may include community resources. In order to locate these resources, we liaise with our local counselors who are often able to suggest treatment options. To ensure community resources are appropriate for participants, our staff individually researches each referral prior to suggesting the referral resource to a participant. In addition to tapping into the wealth of local assistance available through our EAP provider partnerships, our case managers search for resources on the Internet, obtaining community resource information. Once a community resource is located, the case manager calls the agency/program directly to assess its appropriateness. The case manager interviews the agency regarding services, the fee scale, and waiting lists.

Our work-life team also serves as a link to local resources—either through the provision of referrals directly to clients or in assisting with research to locate community resources for an EAP case manager. Every search is customized for the end-user and we confirm availability of every resource before offering it as a referral.

Work-Life Community Resources

We pride ourselves on having one of the most robust databases in the industry. The size of our database represents the number of unduplicated providers. Every state is represented in the database, as well as Puerto Rico.

The providers in our database do not constitute an exclusive or proprietary network. Rather, our database contains listings of providers and/or community organizations and resources drawn from local, state, and federal directories. We follow the local, state, and federal qualifying laws and regulations covering provider types (if applicable) when including or removing providers from our database. In addition, when a work-life consultant is researching providers for a case, he or she confirms all necessary information, as well as checks local and state directories for any complaints on a provider's license and documents information in the database.

Tab 4: Response to Scope of Work & Services

Once a month, we contact regulatory agencies to obtain licensed provider data. Providers are interviewed and records are updated each time a provider is contacted to fulfill a case. The database is updated on a daily basis.

Our database includes:

- **Child Care: 319,090 unique providers**
Child care providers include licensed day care centers, licensed family day care homes, in-home care (nanny agencies), summer camps, before/after school care, back-up and emergency care, etc.
- **Elder Care: 10,177 unique providers**
Elder Care providers include skilled nursing facilities, assisted living facilities, home health agencies, community resources, Meals-on-Wheels programs, etc.
- **Education: 113,849 unique providers**
Education providers include public and private elementary and secondary schools, preparatory colleges, colleges, universities, etc.
- **Community Resources: 16,165 unique providers**
Community resources include a variety of daily living resources including housing, pet care, financial assistance, health care, travel, adoption agencies, etc.

Our consultants are also highly trained and experienced in local community outreach and providing information on a range of community based organizations. For instance, upon local disasters we gather information from local resources such as the American Red Cross, the United Way, and other local relief efforts so that we are prepared to support employees and address issues that include, but are not limited to, shelters, alternative housing, evacuation routes, safe point locations, food, clothing, and locating missing loved ones and/or family pets.

d. Under what circumstances would you refer to Community Services?

We typically refer to community resources when a participant is either not enrolled in a health plan or cannot afford to pay out of pocket for services. This is where free or sliding-scale resources can come in. Referrals to local community services such as support groups may also be suggested independently of or in conjunction with the member's treatment plan through the EAP.

(5) Case Management Follow-Up: EAP shall attempt to follow-up with all Clients accessing services to ensure their satisfaction. EAP shall conduct comprehensive case management and follow-up for any Employee referred to the EAP on a mandatory basis due work-place violence, sexual harassment, or suspicion of substance abuse or other Hidalgo County group policy violations or concerns.

For cases that identify with risk (suicidal, homicidal, domestic violence, and/or child/elder protection concerns), the case manager will follow-up with the participant one day after the provider referral has been sent. For cases that involve minors, couples, family, and transitional support, the referred provider is required to complete a session review with our clinical team after the first session to ensure appropriateness and plan for ongoing treatment.

For mandatory referrals, follow-up assessment/compliance reports are provided to the employer's point of contact within the limits of the professional confidentiality regulations with the employee's signed

Tab 4: Response to Scope of Work & Services

consent. Deer Oaks has included unlimited mandatory referrals within its proposed solution for the County at no additional cost.

a. How do you report mandatory EAP visits with an Employee that does not attend required clinical sessions?

Neither the employer, nor Deer Oaks, can force an individual to seek assistance through the EAP. However, Deer Oaks will report whether or not an employee has attended their required clinical sessions to the County once we have received the employee's signed consent to share such information.

b. Briefly describe your experience in dealing with work related mandated EAP treatments.

Gaining the trust of managers and supervisors from the outset of the program is very important. We work hard to ensure that managers feel confident in recommending the EAP to employees who might otherwise not use the service. During implementation, your Program Manager will meet with administrators, supervisors, and managers to discuss the program and how we can best support them as managers and integrate within current processes and procedures. We will discuss the use of mandatory referrals in the workplace and how to recognize when an employee may need help with stress, substance abuse, workplace performance, etc.

Further, direct one-on-one support for managers is available through our telephonic ManagerAssist program; our counselors have received special training to enable them to counsel managers on the unique challenges they face in their roles. ManagerAssist is a key component of our counseling service that differentiates it from other non-workplace-based counseling services. Support to management is as important as personal counseling in achieving the goal of increasing employee productivity. Managers' need for such support is high. This service allows the manager to balance the imperative for improved performance with the offer of assistance with any personal problems. This service also allows the manager to step out of the role of counselor or diagnostician and focus on performance.

Supporting managers can be a complex process that requires ease in assuming the role of counselor, consultant, or manager and in shifting from one role to another as needed. Throughout the process, we maintain sensitivity to the manager and employee as dual-clients. In the face of conflicting interests, we use our skills to find constructive and appropriate ways to achieve the optimal solution.

Mandatory/Management-Directed Referrals

Formal referrals of employees to the EAP are welcome, and can be arranged quickly and easily. These referrals help an organization and/or manager to demonstrate duty of care towards an employee. Manager referrals can also be an integral part of an internal management process, such as a disciplinary or health-related protocol, and they can have the greatest impact on maximizing attendance.

If a manager recognizes that an employee is experiencing stress and/or having attendance issues, he or she can refer the employee to the EAP to help resolve the issue. We offer unlimited telephonic consultation to supervisors attempting to manage employees with job performance problems. Our counselors can assist supervisors in processing the behavior/issues and determine the appropriate action i.e. coaching sessions, supervisor-suggested referrals, mandatory referrals, fitness-for-duty referrals, mediation, etc.

If the counselor and supervisor agree that a mandatory referral is appropriate, the counselor explains the referral process, coaches the supervisor on how to engage with the employee regarding the referral and ensures that the supervisor has all of the applicable forms. Neither the employer, nor Deer Oaks, can force

Tab 4: Response to Scope of Work & Services

an individual to seek assistance through the EAP, but provided that Deer Oaks has the signed consent of the employee, we will contact him or her as soon as the referral form has been received via confidential fax. Reporting on the support provided is also available with the signed consent of the employee in question. Such referrals can originate from human resources, line management, or supervisors—the protocol is always decided upon by the client organization.

A mandatory referral flow chart is provided on the following page:

DOT Substance Abuse Professional (SAP) Referrals

DOT SAP evaluations are specialized evaluations conducted for employees that fall under DOT regulations and who violate DOT drug and alcohol regulations. All SAPs meet the qualifications outlined by DOT Order 3910.1D, Title 49 CFR Part 40. Deer Oaks follows the standards for SAP services as stipulated by the Department of Transportation- 49 CFR Part 40 and makes recommendations concerning education, treatment, follow-up testing, and aftercare. In these cases, Deer Oaks coordinates a referral to a DOT Substance Abuse Professional (SAP), who conducts an initial assessment of the referred employee; determines the appropriate recommendations (i.e. inpatient or outpatient treatment, support/self-help meeting, etc.); explains the treatment options; monitors the employee's compliance with the treatment; provides a follow-up testing schedule; provides compliance reports and a case closure letter.

Deer Oaks considers DOT SAP Evaluations distinct from other types of mandatory referrals. Therefore, these evaluations are provided on a fee-for-service basis. Non-DOT substance abuse referrals are handled through our standard mandatory referral process.

Conflict Resolution/Mediation Services

Deer Oaks is experienced at providing conflict resolution/mediation services in the workplace for our client employers. We can provide work-related mediation services to assist with resolving workplace conflict and interpersonal issues and offer three levels of service.

- Conflict Resolution: two-party counseling via a formal mandatory referral- *included in proposed rates*
- A 30-minute in-person mediation session with an attorney qualified as a mediator- *included within our Legal Assist Program*
- Full-service in-person mediation service with a qualified mediator; the mediator meets with each party separately and then jointly, establishes an action plan and follows up- *fee-for-service*

As part of this process, we provide input and advice to your HR department as to whether mediation would be appropriate for each potential case through our telephonic management consultation service. Managers, supervisors and HR may call our dedicated Helpline for a management consultation and to request workplace conflict resolution and mediation services.

(6) Referrals: For cases requiring medical or longer term/more intensive behavioral health intervention, referrals should be made by the EAP to the Hidalgo County's Medical Plan when indicated, or to another qualified professional that is within the financial means of the Client if the Client is not covered by the Hidalgo County's major medical plan.

Confirmed.

Referrals Outside of the EAP to the Health Plan or Community Resources

Although 95% of cases are resolved within the EAP across our book of business, there are cases that require assistance beyond the EAP in order to best meet the individual's needs. Therefore, a seamless transition from the EAP to the individual's health plan is vital to the success of our program.

If the initial assessment establishes that long-term specialist counseling is required, or if this is identified at an early stage of the counseling process, then we can make an external referral to the employee's health plan or to community resources to ensure that the employee is placed on the path he or she needs to get more intensive support. The types of referrals provided vary based on the service delivery systems,

Tab 4: Response to Scope of Work & Services

government programs, laws governing information and advice, and private resources. We utilize internal provider databases and our research teams to locate appropriate referrals for each member. Long-term specialist counseling is not included in the cost of the EAP.

BenefitCONNECT

BenefitCONNECT is our solution to ensure that employees who make use of the EAP are also made aware of and directed to other appropriate benefits offered to them by their employer. This information is incorporated into our case management system and can also be made available through the 'My Benefits' center on the website. As part of the service, we reach out to each benefit provider to introduce our program and agree to protocols for transferring and connecting employees to the other services your benefit providers offer including the County's wellness incentive programs.

Specifically BenefitCONNECT provides the following:

- Proactive integration outreach and creation of cross-referral processes and protocols with all appropriate employer benefit providers
- Detailed training for counselors and information specialists on these processes and protocols
- Integrated reporting on both the quantity and type of cross-referrals
- Integrated quality management

a. Do you have access low cost and free community services for extended services that are not covered by the County's health plan?

Yes, Deer Oaks maintains a database of low cost and free community services to whom we may refer members for extended services that are not covered by the County's health plan. Our work-life/community resource database contains listings of providers and/or community organizations and resources drawn from local, state, and federal directories.

(7) Work/Life Services: EAP will assist Clients with balancing personal and work life concerns, coping with maternity and return to work, time management, childcare/eldercare services, and other work/life issues such as assistance with adoptions, relocations, college planning, and adjusting to retirement.

Confirmed.

Deer Oaks' work-life services include legal and financial services, as well as child/elder/adult care and daily living consultation with confirmed match referrals. Our Work-life consultation, resource, and referral service provides practical assistance to users around a wide variety of dependent care issues.

As part of this service:

- All provided referrals are qualified and matched to the specific needs and requirements of the user—100% of the time. For example, is the agency within a reasonable distance of the member's work or home? Does the agency have availability meeting the member's requirements? Does the agency's fees meet the member's budget? Does the agency accept the specified form of payment?
- Each agency is contacted to ensure availability and to determine if it is an appropriate match for the employee's needs. The consultant then selects three (3) to five (5) providers with confirmed vacancies and provides them to the caller in the agreed upon method.

Tab 4: Response to Scope of Work & Services

- Referral packets are provided to members within three (3) business days for standard cases and within six (6) business hours for urgent cases.

Our daily living and dependent care services serve as an excellent complement to our EAP services. In many cases, we find that clients calling for counseling can also benefit from some practical resources to assist them in addressing their personal or professional challenges—and vice versa.

For example, clients calling for grief counseling are often provided with customized referrals to bereavement support groups. Members facing domestic violence can receive counseling as well as referrals to local shelters. A caller who contacts us due to the stress of raising teenagers can be referred to counseling along with parenting classes. By having our Work-life and EAP teams under the same roof, trained under the same philosophy, and experienced in collaborating to support clients' full range of needs, our program offers the County the most comprehensive assistance.

Below are sample topics for which our Daily Living and Dependent Care Teams can provide support.

- | | |
|---|---|
| • Adoption | • Home repair (handymen, plumbers, electricians, contractors, etc.) |
| • Childcare | • Entertainment services |
| • Back-up child care | • Pet obedience training |
| • Special needs care | • Transportation and travel services |
| • Summer programs and camps | • Volunteer opportunities |
| • Parenting skills | • Tutors |
| • Parenting classes | • Fitness and wellness centers/programs |
| • Playgroups | • Moving/relocation services |
| • Education K-12 programs | • Pet sitters/kennels |
| • Higher education support and programs | • Event planning |

| • Apartment locators | |
| • Chore services/house cleaners | |

Individuals who are unfamiliar with our approach to work-life sometimes ask why such services are any better than self-initiated internet based searches (e.g., Google or Bing). There are in fact numerous benefits to our program including:

- **Expert consultation, guidance, and support delivered by our knowledgeable staff** – The internet certainly offers a wealth of resources, but it can sometimes be hard to know where to start, and the volume of information can be overwhelming. Furthermore, it's hard to decipher whether the information found is reliable or if a particular service provider simply paid more for prominent ad placement. Our service offers unbiased information delivered by experienced specialists.
- **Customized support and confirmation that the service will meet the employee's specific needs** – For example, a parent seeking child care for her toddler might be able to do a Google search and find out that there is a family child care provider down the street but the internet won't be able to confirm vacancies, fees, hours of operations, whether there are pets in the home, or if the provider is able to accommodate the parent's preference for cloth diapers.

Tab 4: Program Approach & EAP Scope of Work

Through this service, we are able to assist employees with day-to-day issues that make life challenging and can detract from personal and workplace productivity. From locating child care, care for pets, personal care, and travel agents to locating home improvement contractors, education resources, and summer programs, we handle the consultation, research, and referral process from A-Z and provide referrals that are customized to the individual. Essentially, we help handle their to-do-list, leaving them with more time for what matters most and less stress.

Finally, our approach of marketing our work-life services as a stress management strategy has been successful in increasing work-life utilization for many of our clients.

Case Studies

A client contacted the EAP to request information on skilled nursing facilities with immediate availability, as well as in-home care agencies that offer overnight care in Marine City, MI. The client's father had Alzheimer's disease and was no longer able to live alone in his home. Initially it was found that facilities with immediate availability were limited; therefore, the client was contacted with an update on her search, and to provide her with the information on the one facility that had been located so she would not have to wait for completion of the search. By the conclusion of the research, two additional facilities were located within 20 miles of Marine City that had immediate openings. The client was sent the information on all three facilities via fax, as well as information on three in-home care agencies that met her father's needs and the contact information for her local Alzheimer's Association.

A couple reached out to us after experiencing a cancellation of their planned childcare service. They reported being in a great deal of stress because the wife was planning to return to work soon, and they were running out of time to confirm child care for their seven-month-old child. Their own research hadn't yielded much success.

Our consultant was able to calm the couple, explaining that this sort of thing happens more than they would think. The consultant took down the needed details from the couple so that research could begin. The request was to find a family day care home – as they were not comfortable with larger, center-based day care facilities – that had an opening within their budget and was conveniently located between their home and offices.

Upon reconnecting with the couple the next day, our consultant had successfully completed research on their request. Our consultant was able to locate three options for family day care homes that each had an opening for their child, was within budget and was in a suitable location. The consultant suggested that the couple should arrange tours at each home, as tours are free and help consumers decide which home to ultimately move forward with.

The couple expressed gratitude over the speed with which research was completed, the fact that the given care providers did meet the couple's needs, and the suggestion for tours to help make a final decision. The couple stated that they both felt relief from the stress they had been feeling.

Legal Assist

Through our Legal Assist program, members may consult with a plan attorney – *for free*. We contract with a nationwide network of attorneys to provide consultation to employees or family members regarding their legal concerns. Using our unique case management system, the caller initiates contact with a legal consultant who conducts the intake, confirms appropriateness and availability of the lawyer, and follows up to ensure client satisfaction and resolution.

Callers can obtain consultation for any legal issue, with the exception of those involving disputes or actions between an employee/dependent and their employer or EAP or for business issues.

Legal Assist offers two types of legal services to meet employees' needs. Offering both advice and local referral services ensures that all employees' legal needs are addressed in an appropriate manner.

- **Advice:** The majority of employees requiring legal assistance do not want or need to retain a lawyer. Their concerns can be resolved through a free telephonic advice service. In these situations, the legal consultant will transfer the employee to a qualified attorney for a free 30-minute consultation per separate issue.
- **Local Referral:** For employees who have an immediate need for in-person legal consultation, we refer the employee to a conveniently located lawyer with the appropriate expertise. These local lawyers provide a free half-hour consultation, and, in most instances, agree to discount their hourly fees by 25% if additional assistance is required.

Services include:

- Free 30-minute telephonic advice or in-person consultation with an in-plan attorney
- Consultation consists of analysis of the situation and advice on how to proceed. There is no document review or creation during this free consultation
- If representation is required, members receive a 25% discount off hourly attorney fees

The client was transferred to one of our financial counselors. She received an explanation regarding the different terminology, as well as advice on what payoff options would fit well with her current income and budget. She was very pleased with the direction she received and followed the counselor’s advice.

Take the High Road Ride Reimbursement Program

Deer Oaks remains concerned about the safety of its EAP participants and others. Therefore, Deer Oaks reimburses EAP participants for their cab, Uber, Lyft, and other ride-sharing fares in the event that they are incapacitated due to impairment by a substance or extreme emotional condition. Such circumstances may include over consumption of alcohol, drowsiness due to medication, or extremely upset/troubled over a situation. This service is available once per year per participant with a maximum reimbursement of \$45.00 (excludes tip). The process is simple, and like all other EAP services, confidential. Simply call the Deer Oaks Helpline for information regarding reimbursement.

Tab 4: Program Approach & EAP Scope of Work

a. Do you have sufficient network clinicians to provide these services?

Yes, Deer Oaks has sufficient Work-Life specialists on staff to provide consultation and referral research. Work-life consultants consult with members regarding their work-life needs i.e. child care, elder care, adoption, parenting education, pet care, relocation services, vacation planning, event planning, home repair, etc. All provided referrals are qualified and matched to the specific needs and requirements of the user—100% of the time. For example, is the agency within a reasonable distance of the member's work or home? Does the agency have availability meeting the member's requirements? Does the agency's fees meet the member's budget? Does the agency accept the specified form of payment?

We also have in-house accredited financial counselors to provide unlimited telephonic financial counseling and maintain a national network of attorneys to whom we refer legal cases for telephonic advice and in-person consultation.

b. What is the wait time to have a face to face meeting for these services?

Work-life referral packets are provided to members within three (3) business days for standard cases and within six (6) business hours for urgent cases. The consultant then selects three (3) to five (5) providers with confirmed vacancies and provides them to the caller in the agreed upon method. Online Work-life Resource Locators are also available.

(8) Hidalgo County Group Services: EAP will provide assistance to Hidalgo County as needed. These services include immediate response to any employees coping with a trauma or critical incident in the workplace within 24 hours of the request of Hidalgo County or at a time and place of Hidalgo County's choosing. Does your contract include these services? Yes X No

Tab 4: Program Approach & EAP Scope of Work

Unlimited two-hour on-site critical incident support events are included within our proposed solution for the County. Additional support hours are available as clinically indicated.

Deer Oaks has experience responding to small- and large-scale critical incidents including employee death, violence, workplace accidents, terror attacks, natural disasters, and layoffs/restructuring. In the event of a crisis, we provide efficient and compassionate support based on organizational needs and preferences aligned with clinical suitability.

We offer various responses, including information, practical support, telephonic crisis support, management consultation, on-site group meetings, and face-to-face counseling. Our approach to critical incident response takes the initial approach of providing psychological first aid, and assigning the most appropriate intervention under the circumstances. The ultimate objective of our post-incident service is to assist employers with decreasing the number of psychological casualties among employees and to facilitate a return to regular business functions as quickly as possible.

Effective crisis response is not formulaic—every single incident is unique and therefore requires a unique response. Responding to a workplace redundancy requires a completely different approach from responding to an employee suicide. While we have a standardized process to ensure consistency and quality, our approach is built with flexibility to ensure the most appropriate response for every individual incident.

Therefore, within 30 minutes of the notification of an incident, you can count on an incident manager to engage you in a management consultation. The incident managers are clinical trauma professionals who will support you from the initial consultation, to establishment of the intervention plan, through the event and post event follow-up.

This is a key differentiator of our approach to crisis support. An account manager doesn't just take an order. Instead, a clinician speaks with the client contact and performs an assessment to understand the nature and severity of the event, including who was impacted, how employees are currently reacting, and logistical considerations.

Once the consultation is completed, the incident manager and company representative establish a clinically appropriate intervention plan for the on-site event. This offers the opportunity for the incident manager to:

- Reassure the company representative that we can provide the support needed
- Assess the severity of the incident and determine the workplace impact, including the status of the victims, the number of employees affected, and employees' initial reactions
- Address logistical details such as when the trauma professional(s) should arrive and whether the workplace is the safest/most appropriate place for on-site services

It is important to note that immediate on-site counseling is not always clinically appropriate. Bringing a trauma professional onsite immediately may increase employees' level of anxiety, as they wonder if there is more to what happened than they were aware of. Therefore, we recommend an onsite response of 24-72 hours as best practice.

Tab 4: Program Approach & EAP Scope of Work

For the first 24 hours, employees will learn of the incident and oftentimes remain in shock. It is important for the employer to provide consistent messaging around the incident and about support that will be offered in the coming days. The time between learning of the incident and the psychological first aid session will allow employees the opportunity to move past the initial shock and to process the event, enabling them to be more receptive to assistance.

Trauma counselors who provide onsite support are trained in our model and provide a wide range of support for individuals, groups, and managers on how to best support the organization and employees. The trauma professional is chosen carefully based on geography, the nature of the event, and workplace culture/demographics.

During the onsite two-hour session, the clinician will help employees understand:

- What happened
- Normalize their emotions
- Provide psycho-education around how an individual can help themselves to recover through healthy lifestyle habits, maintaining a normal routine, getting enough sleep, and accessing social support, among other activities.

We also offer an unmatched level of post-incident support. This includes outreach to affected employees and guidance for managers, providing them with information on how to identify and support employees who may need assistance after the onsite response has concluded. We know that, in many cases, the impact of a trauma does not manifest immediately, but may take a few weeks. With our outreach, we ensure that no one falls through the cracks.

Resource Guides

When there is a widespread incident that impacts a number of clients, such as a natural disaster, terrorist attack, or virus outbreak, we develop a resource guide. Each of these handbooks contains educational information and tips on how to manage reactions to the incident. The guide is developed by our expert content team and is sent in electronic format to our clients for distribution to employees.

CISM Experience

Deer Oaks is very experienced in mobilizing CISM resources across citywide, countywide and statewide geographic regions and in small communities and rural areas. Deer Oaks has a tremendous success rate in mobilizing resources in crisis situations due to its exceptional network coverage, solid operational infrastructure, and decades of experience.

Below are some sample cases to which we organized on-site CISD response for client employers in recent years. Many of these cases were complex and affected employee groups at multiple locations in very different ways. Therefore, we customized the interventions to meet the needs of the various employee groups.

Tab 4: Program Approach & EAP Scope of Work

Following the Nebraska prison riots in May 2015, Deer Oaks provided the Nebraska Department of Corrections with multiple management consultations following the riot to determine a plan of action on how we could best support the employees involved. Subsequently, we sent two (2) clinicians on-site to provide over 25 hours of on-site support over a two (2) week period. We also sent information to employees reminding them of their EAP benefit and of available access to their families and other household members.

Two CISDs were conducted for the South Carolina Department of Health & Human Services on June 19, 2015 in the wake of the Charleston Church shooting. Two counselors were on-site at two locations for a total of 4.5 hours to accommodate both group and individual support requests. Our counselors provided support through active listening and feedback regarding grief reactions and coping skills.

Deer Oaks received a call after-hours requesting a CISD in response to a seven hour standoff at a client's office that ended with a woman shooting her two children and then herself inside the building. An employee had also been taken hostage at gunpoint and later released. Together, the Deer Oaks Account Management and Clinical Team along with our client points of contact coordinated the CISM response. Our Clinical Manager also consulted with First Responders. Deer Oaks provided a counselor on-site the same day to provide formal critical incident stress debriefing sessions including discussions regarding trauma intervention, grief and acute stress. Deer Oaks provided multiple CISDs and follow-up sessions totaling more than 45 hours of service with an attendance of approximately 380 employees. Deer Oaks offered ongoing support for the employees and their families involved in the event, as well as one-on-one support.

(10) Confidentiality: Issues of confidentiality will be handled with the utmost sensitivity and protection for the employee's rights to privacy. The EAP is fully HIPAA compliant. Where appropriate, consent forms will be obtained to provide written authorization to exchange information with any Hidalgo County benefits director or supervisor.

Does your contract include these services? Yes X No

Maintaining client confidentiality is a fundamental requirement for all aspects of Deer Oaks' service provision. Deer Oaks preserves client confidentiality at all times in accordance with the Employee Assistance Professionals Association (EAPA) Code of Ethics; Health Insurance Portability and Accountability Act (HIPAA); other relevant professional guidelines; and the law. The professional management of confidentiality insures that personally identifiable and sensitive information is protected

from any unauthorized disclosure. Disclosure is allowable only when there is authorization by client consent, or when required by law.

(11) Utilization Reports: The EAP will provide confidential Utilization Review Reports to the Hidalgo County on a quarterly basis. The reports will include: the number of EAP Clients seeking assistance, the reasons for accessing the EAP, basic demographics for the EAP Clients, the job classification, and the number of calls, in services, and referrals provided. These reports will be provided quarterly and can be individually tailored to meet the needs of the Hidalgo County. Client Satisfaction data should be included.

Does your contract include these services? Yes X No

Deer Oaks believes in the importance and utility of reporting to employers on the utilization patterns of the employees and dependents covered through the EAP. Standard utilization reports are provided electronically each quarter and annually and include information requested by the County without infringing on member confidentiality.

However, we do not provide any reports that could compromise employees' privacy. We do not individually report on a division so small (≤ 100 employees) that there is a risk for disclosing individual employee information; such statistics are incorporated into organizational reports. For divisions with 100 or fewer employees, the only data to be provided is an indication of whether or not there was utilization within each department.

Additionally, through our Focus Administrative Dashboard, designated County personnel will be able to track utilization data and run canned reports on-demand, anytime.

The reports include data covering:

- Caller demographics (age, gender, and status)
- Utilization summarized by division
- Issue categories for EAP and work-life cases
- Identified personal and work-related issues
- General assistance queries (not counted as utilization)
- Web hits
- Method of contact
- Workplace activities (on-site events including training, crisis support, etc.)

Your project manager reviews the detailed reports on an ongoing basis, monitoring utilization trends and the effects of various promotional campaigns. Through dialogue with County representatives and reviewing the utilization reports, your project manager has the opportunity to keep her finger on the pulse of the EAP services being offered, keeping an eye out for trends that may indicate a need for specialized support.

For example, if we notice that a number of employees are contacting the EAP regarding frustrations with colleagues, we might suggest offering training on dealing with workplace conflict. Similarly, if we see that a particular department has unusually low utilization levels, we could look at ways to increase program awareness through targeted promotions.

Tab 4: Program Approach & EAP Scope of Work

She then applies these results to adapting the program as needed for the County, keeping in mind your organizational strategies and goals. *A sample standard utilization report is included as an attachment.*

Client Satisfaction/Quality Assurance Plan

Deer Oaks monitors program participation/satisfaction, the quality of our services, and staff interactions with client employees through our quality assurance plan. We take a proactive approach to ensure that we deliver the highest quality services to our clients and their employees. Below is a summary of our quality assurance monitoring activities.

Case Management & Reporting System

- All client information, calls, instant message session, and face-to-face interaction with an individual are tracked in our proprietary online case management system, allowing us to efficiently and effectively log and monitor cases in real time.

Satisfaction Surveys

- Interactive Voice Response (IVR)– based satisfaction survey offered to users live at the end of their initial phone call with a counselor or work-life consultant and at case completion.
- Online member satisfaction survey available to participants following case closure to measure and evaluate our service delivery. The results of member satisfaction surveys are included on utilization reports when available (based on member completion rate).
- Provide satisfaction surveys following each critical incident support service and training to ensure complete satisfaction with the provided service(s). Summary results may be provided to the County.

Program Participation

- Account manager monitors utilization, trends, and the effects of various promotional campaigns on an on-going basis
- Quarterly utilization reports with formal review of the data with client personnel
- Discuss trends and make suggestions regarding programming, promotion, and policies as appropriate

Internal Audits

Our Quality Department conducts internal audits on a monthly basis, which consist of:

- Silent monitoring of counselor/consultant intake calls and outgoing calls to assess an overall service quality index for each individual;
- All EAP counselors have their case work reviewed formally on a monthly basis. Three cases per counselor per month are monitored for overall quality, accuracy and clinical protocols;
- Team leads audit three to five work-life cases per consultant per month to review compliance with the edits made by the editors prior to sending the case to the end-user;
- Internal and External Secret Shopper Program

Tab 4: Program Approach & EAP Scope of Work

- Our Quality Department uses a set of Quality Key Performance Indicators to measure overall quality performance: audits, complaints, secret shopper scores and participant satisfaction. These are calculated on a monthly and year-to-date basis.

Our quality assurance program ensures that we consistently provide the highest quality of services to our clients and achieve program objectives. We are committed to taking immediate action and corrective steps if deficiencies in service are identified by our clients.

Professional Development & Training Services

Deer Oaks maintains a robust training program that is designed to assist the County in promoting a healthy and motivated work environment where employees are engaged and effective in their roles. The ability to offer employees training opportunities in the workplace has only become increasingly more important in recent years. In fact, statistics state:

- ✓ Over \$500 Billion Is Lost Every Year Due to Employee Disengagement (source: Raptmedia)
- ✓ Only 13% of Employees Worldwide Are Engaged (source: Gallup)
- ✓ 87% of Millennials Claim That Professional Development and Career Growth Are Very Important (source: Gallup)
- ✓ 68% of Workers Claim That Training and Development Is the Most Important Company Policy (Source: ClearCompany)
- ✓ Companies that invest in employee training enjoy 24% higher profit margin versus companies who don't (source: Huffington Post)

The EAP can assist the County with providing not only mental health and wellness-related training, but also critical skills training such as soft skills and personal development. Our wellness and personal development topics may also be used by the County to provide important health and wellness education as a means of proactive prevention and may supplement other wellness initiatives in place through the County's employee wellness program.

Further, Deer Oaks understands that county government faces unique challenges in providing professional development opportunities for their staff. Because of the diverse nature of a county workforce who work many different schedules and at dispersed locations in and outside of the office, reaching them with professional development opportunities can be a challenging undertaking.

Deer Oaks meets this challenge by including a customized training approach designed to maximize staff participation as part of our core EAP Services. Our unique blend of onsite, webinar, and on-demand training opportunities expands the reach and effectiveness of our training program and can have a significant impact on the County's ability to provide health, wellness, and professional development training for its staff.

Tab 4: Program Approach & EAP Scope of Work

Webinar and on-demand training is as beneficial and effective as onsite training in today's workplace and offers a number of advantages:

- Employees at various learning sites can train simultaneously.
- Save money on travel arrangements and gas.
- No travel—saving time and money.
- Employees can train from the comfort of their desk or home 24/7 through on-demand seminars and webinar recordings.
- Easily track and record participation for wellness program credits.
- Our Webinar Catalog seminars are fully customizable to meet the County's training needs and may even be tailored for specific employee populations.

This best practice provides the County with the tools necessary to effectively utilize webinars and online seminars as a training and program awareness tool in addition to the traditional onsite training model.

Our customized training approach includes the following components:

- **Training Catalog: 12-hour bank.** More than 100 off-the-shelf seminars available covering a variety of work-life, wellness and EAP topics in the following categories: People Management, Caregiving, Financial, Legal, Wellness, Personal and Professional Development. Educational seminars are generally offered in 1-hour sessions. In most cases, we are able to schedule seminars and webinars during timeframes that best meet the needs of your workforce. We require a minimum of 10 participants per training, with special requests considered on a case-by-case basis. We do not have a maximum participation limit for onsite training. Our webinars hold 100 participants per session, with the option to hold multiple sessions per training opportunity. Finally, our onsite trainers have a minimum of five (5) years of experience in their content area(s), are local to your communities, are knowledgeable of the industry, and familiar with workplace environments.

Our 2019 Training Catalog and 2019 Webinar Catalog are included as attachments.

Program Promotion

We seek to maximize every opportunity to make a personal connection with employees, as well as to collaborate with client EAP coordinators and department heads to launch coordinated, multi-faceted promotional campaigns. Our success is reflected in the utilization rates of our clients, with a book of business average case utilization that is *54% higher than the national industry average of 4.5%*. Our client utilization tends to increase from year to year as we capitalize on the momentum made in consistent program awareness.

For example, McAllen ISD has been a client for many years and realized utilization of 22.33% in 2018. This utilization is nearly five times the national average! The City of Brownsville is another long-term client of Deer Oaks. Their combined utilization was 8.71% in 2018—nearly double the national average of 4.5%

First, establishing a strong partnership and healthy communication between County representatives and Deer Oaks is important. We seek to be your partner, not just your vendor. Through this working partnership, we will develop a custom, turnkey multimedia awareness campaign spearheaded by your Project Manager.

Secondly, we utilize creative approaches to both launch the EAP and build program awareness starting with a launch letter, then the distribution of wallet cards, flyers, brochures, and monthly supervisor and employee e-newsletters. Posters are provided for display in high traffic areas such as cafeterias, break rooms, bulletin boards and time clock areas. Those initial steps create awareness and interest, which is then reinforced by onsite and webinar orientations that allow employees to interact, ask questions and learn about the program at a deeper level. We also provide pre-recorded webinar links that may be posted on the County's intranet site, on the HR website and included in an email for dissemination to employees.

Tab 4: Program Approach & EAP Scope of Work

Topic-specific, ongoing promotions are provided throughout the year to reinforce program awareness and stimulate continued utilization. We keep the messages fresh through the development of “Did You Know” campaigns, monthly flyers on topics of interest to employees and in line with the employer’s wellness initiatives, on-demand online seminars, monthly orientation webinars, and reminders to managers and supervisors of how the EAP can be used as an effective management tool and to assist in dealing with difficult employee situations.

We welcome the County’s input into these promotional activities, as with all features of the program, and can customize a plan to meet your requests. Our marketing materials and communication methods vary, taking into account factors such as demographics, generational differences, lifestyles, and client preferences. We can tailor training, materials, and awareness campaigns that address hot button issues and challenges facing staff. Although hard copy materials are made available during implementation and as requested, we have found that ongoing electronic/camera-ready materials are an effective means of program promotion. Therefore, electronic materials will be provided on an on-going basis with hard copies available upon request. Materials are available in Spanish upon request as well.

In addition to the above activities, it is also important that leadership send the signal that it is not just okay to use the program, but they actually encourage use of the EAP. Our experience shows that when the EAP is openly embraced by senior leadership, we see the highest utilization rates. Therefore, educating executive leadership, EAP Coordinators, and department heads about the EAP, its various uses and ways to spread the word internally will be a key element of our promotional strategy.

Through this integrated multi-media promotional strategy, Deer Oaks seeks to ensure that the County’s diverse workforce is aware of benefits available to them through the Employee Assistance & Work-life Program, as well as ensure that key personnel have the knowledge to internally promote the program, leading to healthy program utilization.

Dear Ms. Sample:

Thank you for contacting your work-life benefit. Attached are five informational referral sheets for day care centers located in New York, NY. The included caregivers offer full-time care for infants. We have searched and exhausted zip code 10038 and expanded to its two-mile radius in order to locate providers that meet your needs. You may want to contact these providers as is suggested on each individual referral in order to reserve the space.

Also, attached are five informational referral sheets for nanny agencies. The included nanny agencies serve the New York, NY area, and representatives will be able to discuss a variety of in-home care options with you and your family. Please contact these agencies at your convenience to determine which will best suit your needs and to begin the interview process.

In addition, the websites listed below are online posting boards that help families find a nanny or babysitter independent of a placement agency. These sites allow parents to place an advertisement for a caregiver or browse the resumes of nannies and babysitters who are looking for a child care position. Please note that there may be fees associated with these services and that parents are responsible for checking references. Some sites partner with background check agencies, and services are available for an additional fee. Please click on the following links for additional information:

Choosing a Child Care Center

Child care centers provide group care in a nonresidential setting. They are licensed by a state agency to care for a specific number of children at each level, with limits on the ratio of children to caregivers. They may offer part-day, full-day, after-school, or kindergarten options. Centers for children 3-5 years old are the most prevalent, however, many centers offer programs for infants, toddlers, and school-age children.

Centers are located in schools, hospitals, religious or spiritual organizations, recreation centers, or self-contained buildings. They usually have outdoor play space or a park nearby. Variations of centers include preschools or nursery schools. Nursery schools are part-day programs aimed at providing enrichment activities for children who do not need full day care.

Full-day programs may provide breakfast, lunch, and two snacks. Centers usually follow a daily curriculum or schedule. Hours of operation typically begin between 6:00 a.m.—7:00 a.m. and end between 6:00 p.m.—6:30 p.m. Times may vary depending on the center. The following is a list of considerations:

Pros	Cons
Centers are usually regulated to set minimum standards for health, safety, and adult-to-child ratios.	Centers are usually not flexible about hours of operation and may charge late fees.
Center directors and staff usually have education in child development.	Center care may be expensive—especially for infants and toddlers.
Centers may offer a wide variety of activities and experiences as part of their programming.	Your child may not get as much individual attention at a center as in a family day care environment or from a nanny.
Your child will have playmates his age and may also meet children of different backgrounds or cultures.	A center may not accommodate all of your children.
Centers are able to provide care even if a teacher is ill.	Centers are unable to care for a mildly ill child.

Accreditation

In addition to a license, which allows the facility to operate, there is a growing trend to apply for accreditation. The National Association for the Education of Young Children (NAEYC) offers an accreditation program for child care centers. Accreditation is a seal of approval. NAEYC has developed criteria, which includes parent input and inspector validation. Centers must apply to NAEYC in order to be accredited and are subjected to an extensive external review process. While accreditation indicates that the center has met NAEYC's standards, it does not mean that accredited programs are necessarily better than those that have not applied for accreditation.

Evaluating Child Care Centers

In order to evaluate child care centers, it is important to visit several programs and spend time observing in each one. Carefully review these materials prior to visiting the centers.

Call in advance to make an appointment. Your referral service will provide you with basic information regarding vacancies, fees, hours, and policies. It is usually best not to bring your child along to every program you visit. It may be confusing for the child. Once you have narrowed your choices, consider making another visit with your child.

The activities of the day and the interaction between the provider and the children are strong indicators of the quality of care provided. Observe your child's prospective classroom. Pay attention to first impressions. Is the room bright and cheerful? Is children's art work displayed? Are children engaged in a variety of activities? Do the children seem involved and happy? Are staff members pleasant and responsive to the children and each other?

You will want to spend some time talking with the director about the program and tour the entire center.

WHAT'S NEW

AIR PROGRAM FOR MANAGERS – MANAGING YOUR TEAMS PERFORMANCE HALF-DAY WORKSHOP

The challenge for managers in today's work environment is to ensure that employees are engaged in delivering results while carrying out their work in challenging environments. Managers navigate performance issues while employees are under pressure of increased work volumes, tight timelines, limited resources, changing business requirements and global time zones. The AIR Program™ is designed to revolutionize the way managers think and act in relation to the performance of their employees and teams. The AIR program offers managers a way to gauge the emotional health of employees by understanding basic concepts of emotional health, observing key performance indicators, and reinforcing resilience skills of both individuals and teams.

HOW PARTICIPANTS WILL BENEFIT

At the end of this session Participants will be able:

- Understand the signs and symptoms of emotional distress related to performance
- Use the Stress and Pressure Impact Tool to manage performance of individual team members
- Recognize employees who are experiencing declines in performance and proactively respond.
- Use existing resources to develop intervention plans.
- Rely on practical strategies to build resilience skills with team members
- Build more collaboration and communication with individuals and team

FIRST RESPONDER SERIES: FEELING THE IMPACT OF TRAUMA - REACH OUT FOR HELP

First Responders operate with high resilience skills. The continual exposure to trauma requires specialized support. For first responders—the firefighters, police officers, military personnel, emergency dispatchers, EMTs and others who keep us safe—work can mean close encounters with danger, chaos and tragedy, sometimes on a daily basis. The continual exposure to traumatic situations takes a toll over time. This session is focused on helping participants reclaim their emotional footing by sharing experiences and learning effective strategies to manage their reactions to sustained stress.

This session is a pre-requisite for the other sessions in this series.

HOW PARTICIPANTS WILL BENEFIT

When participants leave this session, they will be able to:

- Understand the effect of continual exposure to trauma
- Learn the cycle of trauma and recovery
- Explore strategies to use in regaining emotional footing after trauma
- Experience the importance of peer and social support in the recovery process
- Address personal reactions to the stigma of seeking help and overcoming those reactions

WHATS NEW

FIRST RESPONDER SERIES: REACHING MY LIMIT – WHEN DO I REACH OUT FOR HELP?

First responders are very resilient. The culture of First Responders is represented by stoicism, confidence, and peer support. Yet the consistent pressure and stress over time can produce cracks in the armor. For First Responders it is important to understand the behavioral indicators that signal the need for help. Become aware of the signs of “stigma” when seeking professional help and learn how to overcome that. Knowing the signs is critically important to maintain your self-confidence and that of your team in order to continue operating effectively and safely.

HOW PARTICIPANTS WILL BENEFIT

When participants leave this session, they will be able to:

- Learn the effects of ignoring symptoms that indicate the need for help
- Understand available resources and how to access them
- Learn how to confidentially approach co-workers who might need support
- Understand the importance of social support and how to rely on your support system for recovery

FIRST RESPONDER SERIES: “THIS ONE GOT TO ME” – EMOTIONAL TRIGGERS

Trauma impacts each person differently; even our built-in resilience can be tested when faced with specific events that trigger deep, powerful, and personal emotional reactions. These reactions tend to take longer to recover and interfere with emotional grounding. Understanding your personal triggers and how to prepare and recover when you experience them plays an important role in maintaining overall resilience and continuing to perform first responder work safely and effectively. For peer support, understanding emotional triggers creates sensitivity among team members so they can recognize and support each other when experiencing a deep emotional reaction to a recent event.

HOW PARTICIPANTS WILL BENEFIT

When participants leave this session, they will be able to:

- Understand emotional triggers and how they impact individuals
- Know how to reach out for support when managing strong emotional reactions
- Identify peers who are triggered by specific events and discuss how to support them

WHATS NEW

FIRST RESPONDER SERIES: MINDFULNESS AND MEDITATION FOR FIRST RESPONDERS

This session explores the basic principles of mindfulness with a unique emphasis on how First Responders can use this to positively impact their reactions to traumatic events. Participants will learn how to apply basic mindfulness techniques immediately in their everyday activities.

HOW PARTICIPANTS WILL BENEFIT

When participants leave this session, they will be able to:

- Understand what mindfulness is
- Understand the impact of being mindful on various aspects of life
- Practice meditation techniques to use in developing a sustained practice
- Learn different techniques to live more mindfully every day

UNCONSCIOUS BIAS HALF-DAY WORKSHOP

Everyone has unconscious bias. It is based on an evolutionary survival instinct and means that our brains are predisposed to making quick judgments based on deeply rooted subconscious attitudes. This means that every employee brings this bias with them into the workplace. It shapes the way we think, act and interact with others. However, while we are not always aware of them, our unconscious bias creates barriers relating to inclusion, diversity, performance, engagement and communication. While these deep-set attitudes are difficult to eliminate completely, it is possible to interrupt the process, raise awareness of our bias and discover strategies to move towards conscious action.

This powerful and thought provoking workshop will enable participants to discover how the mind functions and use powerful demonstrations to illustrate the prevalence of unconscious bias. It will reveal the ways that people commonly make quick assumptions and judgments about others and the impact this can have on the employee and the organization.

HOW PARTICIPANTS WILL BENEFIT

At the end of the training, the participants will have a comprehensive understanding of the concept of Unconscious Bias. They will:

- Fully understand the concept of unconscious bias and how this differs from prejudice and stereotypes
- Discover their own personal unconscious bias and the impact this can have on those around them
- Explore why managing unconscious bias is crucial for personal and professional development
- Gain insight into the ways bias can manifest using powerful case studies
- Discuss common examples of bias and share personal experiences
- Develop practical and immediate techniques for challenging personal bias
- Learn new ways to consciously break habits and beliefs
- Determine strategies for tackling inappropriate bias in the work environment
- Discover ways to contribute to a positive and inclusive work culture

Required Contract Clauses for Non-Federal
Entity Contracts Under Federal Awards with
the Federal Emergency Management Agency
(FEMA)

2 C.F.R. § 200.326 & 2 C.F.R. Part 200, Appendix II, Required Contract Clauses for Non-Federal Entity Contracts Under Federal Awards

The United States Office of Management and Budget (OMB) issued in 2 C.F.R. 200: *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* (Uniform Guidance). Subpart D: Post Federal Award Requirements: 2 CFR §§200.317-200.326 of the Uniform Guidance contain provisions applicable to procurements made with federal grant funding.

As a non-Federal entity, the County of Hidalgo's ("County") contracts must contain the applicable contract clauses described in Appendix II to the Uniform Guidance (Contract Provisions for non-Federal Entity Contracts Under Federal Awards), which are set forth below. 2 C.F.R. §200.326. If applicable, the following clauses shall supersede any existing, similar clauses stated within the bid document, contract, and/or Terms and Conditions. *The term "Contractor" used herein refers to the proposer, bidder or other entity/individual responding to the applicable procurement packet.*

If applicable, the regulations in 2 CFR, Part 200 and Appendix II to the Uniform Guidance, as it may be amended from time to time, and the contract clauses below, are incorporated by reference as part of this procurement packet and any resulting agreement.

To procure goods and services using funds under a federal grant or contract, specific federal laws, regulations, and requirements may apply in addition to those under state law. The following provisions are required and apply when federal funds are expended by the County of Hidalgo for any contract resulting from this procurement process.

1. Remedies.

- a. Applicability. This requirement applies to all Federal grant and cooperative agreement programs.
- b. Standard. Contracts for more than the simplified acquisition threshold currently set at \$150,000, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate. See 2 C.F.R. Part 200, Appendix II, ¶ A.
- c. Statement. Pursuant to Federal Rule (A) above, when federal funds are expended by the County, the County reserves all rights and privileges under the applicable laws and regulations with respect to this procurement in the event of breach of contract by either party. Contractor shall comply with all applicable Federal, State of Texas, and local laws, rules, and regulations and shall obtain all applicable licenses and permits for the conduct of its business and the performance of the services, and any provision of equipment and material ("Applicable Law"). All transactions related to any of the Contract Documents shall be governed by the laws of the State of Texas, and trial of any action brought in connection with the bid or the Contract Documents shall be held exclusively in a state court in the County of Hidalgo, Texas.

2. Termination for Cause and Convenience.

- a. Applicability. This requirement applies to all Federal grant and cooperative agreement programs.
- b. Standard. All contracts in excess of \$10,000 shall address termination for cause and for convenience by the non-Federal entity including the manner by which it will be effected and the basis for settlement as follows. See 2 C.F.R. Part 200, Appendix II, ¶ B.
- c. Statement. Termination. County may terminate this Agreement for any reason upon ten (10) days written notice to the other party. County may terminate this Agreement immediately upon written notice if Contractor breaches this Agreement. In the event of any termination, Contractor shall promptly deliver to the County any and all Work Materials prepared for the County prior to the effective date of such termination, all of which shall become County's sole property. After receipt of the Work Materials, County will pay Contractor for the services which the County determines were satisfactorily performed as of the effective date of the termination.

Excuses for Non-Performance. Either party shall be absolved from its obligations under this contract when and to the extent that performance is delayed or prevented (and in the County of Hidalgo's case when and to the extent that its need for the articles, materials or work to be supplied hereunder is reduced or eliminated) by reason of acts of God, fire explosion, war riots, strikes, labor disputes, or governmental laws, orders or regulations.

Default. If Contractor or Subcontractor shall breach any provision hereof or shall become insolvent, enter voluntary or involuntary bankruptcy or receivership proceedings or make an assignment to the benefit of creditors, County of Hidalgo shall have the right (without limiting any other rights or remedies which it may have hereunder or by operation of law) to terminate this contract by written notice to Contractor whereupon County shall be relieved of all further obligation hereunder except the obligation to pay the reasonable value of Contractor's prior performance (at not exceeding the contract rate), and Contractor shall be liable to County for all costs incurred by County in completing or procuring the completion of performance in excess of the contract price herein specified. The County's right to require strict performance of any obligation hereunder shall not be affected by any previous waiver, forbearance of course of dealing. Time is of the essence thereof.

3. Equal Employment Opportunity.

- a. Applicability: This requirement applies to all Federal grant and cooperative agreement programs.
- b. Standard. Except as otherwise provided under 41 C.F.R. Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 C.F.R. § 60-1.3 must include the equal opportunity clause provided under 41 C.F.R. § 60-1.4(b), in accordance with Executive Order 11246, *Equal Employment Opportunity* (30 Fed. Reg. 12319, 12935, 3 C.F.R. Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, *Amending Executive Order 11246 Relating to Equal Employment Opportunity*, and implementing regulations at 41 C.F.R. Part 60 (Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor). See 2 C.F.R. Part 200, Appendix II, ¶ C.

c. Key Definitions:

- (1) *Federally Assisted Construction Contract.* The regulation at 41 C.F.R. § 60-1.3 defines a “federally assisted construction contract” as any agreement or modification thereof between any applicant and a person for construction work which is paid for in whole or in part with funds obtained from the Government or borrowed on the credit of the Government pursuant to any Federal program involving a grant, contract, loan, insurance, or guarantee, or undertaken pursuant to any Federal program involving such grant, contract, loan, insurance, or guarantee, or any application or modification thereof approved by the Government for a grant, contract, loan, insurance, or guarantee under which the applicant itself participates in the construction work.
- (2) *Construction Work.* The regulation at 41 C.F.R. § 60-1.3 defines “construction work” as the construction, rehabilitation, alteration, conversion, extension, demolition or repair of buildings, highways, or other changes or improvements to real property, including facilities providing utility services. The term also includes the supervision, inspection, and other onsite functions incidental to the actual construction

- d. Statement: Contractor will comply with the Nondiscrimination Civil Rights Act of 1964, as amended and all Federal regulations relative to nondiscrimination in Federally assisted programs. The regulation at 41 C.F.R. Part 60-1.4(b) requires the insertion of the following contract clause:

“During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive considerations for employment without regard to race, color, religion, sex, or national origin.

(3) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(4) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(5) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the

administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(6) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions as may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(7) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance: Provided, however, That in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency the contractor may request the United States to enter into such litigation to protect the interests of the United States."

4. **Davis Bacon Act and Copeland Anti-Kickback Act.**

- a. **Applicability of Davis-Bacon Act.** The Davis-Bacon Act only applies to the emergency Management Preparedness Grant Program, Homeland Security Grant Program, Nonprofit Security Grant Program, Tribal Homeland Security Grant Program, Port Security Grant Program, and Transit Security Grant Program. **It does not apply to other Federal grant and cooperative agreement programs, including the Public Assistance Program.**
- b. **Standard.** All prime construction contracts in excess of \$2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. §§ 3141-3144 and 3146-3148) as supplemented by Department of Labor regulations at 29 C.F.R. Part 5 (Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction)). **See 2 C.F.R. Part 200, Appendix II, ¶ D.**

In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week.

The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding City.

In contracts subject to the Davis-Bacon Act, the contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. § 3145), as supplemented by

Department of Labor regulations at 29 C.F.R. Part 3 (Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States). The Copeland Anti-Kickback Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to FEMA or applicable Federal entity.

- c. Statement. The regulation at 29 C.F.R. § 5.5(a) does provide the required contract clause that applies to compliance with both the Davis-Bacon and Copeland Acts. However, as discussed in the previous subsection, the Davis-Bacon Act does not apply to Public Assistance recipients and subrecipients. In situations where the Davis-Bacon Act does not apply, neither does the Copeland "Anti-Kickback Act." However, for purposes of grant programs where both clauses do apply, FEMA or applicable Federal entity requires the following contract clause:

"Compliance with the Copeland "Anti-Kickback" Act.

(1) *Contractor.* The contractor shall comply with 18 U.S.C. § 874, 40 U.S.C. § 3145, and the requirements of 29 C.F.R. pt. 3 as may be applicable, which are incorporated by reference into this contract.

(2) *Subcontracts.* The contractor or subcontractor shall insert in any subcontracts the clause above and such other clauses as Federal requirements may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of these contract clauses.

(3) *Breach.* A breach of the contract clauses above may be grounds for termination of the contract, and for debarment as a contractor and subcontractor as provided in 29 C.F.R. § 5.12."

5. Contract Work Hours and Safety Standards Act.

- a. Applicability: This requirement applies to all Federal grant and cooperative agreement programs.
- b. Standard. Where applicable (see 40 U.S.C. § 3701), all contracts awarded by the non-Federal entity in excess of \$100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. §§ 3702 and 3704, as supplemented by Department of Labor regulations at 29 C.F.R. Part 5. See 2 C.F.R. Part 200, Appendix II, ¶ E.

Under 40 U.S.C. § 3702, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week.

The requirements of 40 U.S.C. § 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of

supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

The regulation at 29 C.F.R. § 5.5(b) provides the required contract clause concerning compliance with the Contract Work Hours and Safety Standards Act:

c. Statement.

“Compliance with the Contract Work Hours and Safety Standards Act.

(1) *Overtime requirements.* No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

(2) *Violation; liability for unpaid wages; liquidated damages.* In the event of any violation of the clause set forth in paragraph (1) of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (1) of this section, in the sum of \$10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1) of this section.

(3) *Withholding for unpaid wages and liquidated damages.* The County of Hidalgo shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (2) of this section.

(4) *Subcontracts.* The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (1) through (4) of this section.”

6. Rights to Inventions Made Under a Contract or Agreement.

- a. Applicability: Stafford Act Disaster Grants. This requirement **does not apply to the Public Assistance**, Hazard Mitigation Grant Program, Fire Management Assistance Grant Program, Crisis Counseling Assistance and Training Grant Program, Disaster Case Management Grant

Program, and Federal Assistance to Individuals and Households – Other Needs Assistance Grant Program, as FEMA or Federal awards under these programs do not meet the definition of “funding agreement.”

- b. Standard. If the FEMA or Federal award meets the definition of “funding agreement” under 37 C.F.R. § 401.2(a) and the non-Federal entity wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that “funding agreement,” the non-Federal entity must comply with the requirements of 37 C.F.R. Part 401 (Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements), and any implementing regulations issued by FEMA or applicable awarding agency. See 2 C.F.R. Part 200, Appendix II, ¶ F.
- c. Key Definition: The regulation at 37 C.F.R. § 401.2(a) currently defines “funding agreement” as any contract, grant, or cooperative agreement entered into between any Federal agency, other than the Tennessee Valley Authority, and any contractor for the performance of experimental, developmental, or research work funded in whole or in part by the Federal government. This term also includes any assignment, substitution of parties, or subcontract of any type entered into for the performance of experimental, developmental, or research work under a funding agreement as defined in the first sentence of this paragraph.

7. **Clean Air Act and the Federal Water Pollution Control Act.**

- a. Applicability and Standard: Contracts of amounts in excess of \$150,000 must contain a provision that requires the contractor to agree to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act (42 U.S.C. §§ 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. §§ 1251-1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency. See 2 C.F.R. Part 200, Appendix II, ¶ G.
- b. Statement: Included in contracts as provided in section “7a” above.
 - (1) The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 et seq. and the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.
 - (2) The contractor agrees to report each violation to the Federal awarding agency (e.g. Federal Emergency Management Agency-FEMA) and the Regional Office of the Environmental Protection Agency. Contractor understands and agrees that each violation reported to the County of Hidalgo will, in turn, be reported as required to assure notification to the Federal awarding agency and the appropriate Environmental Protection Agency Regional Office.
 - (3) The contractor agrees to include these requirements in each subcontract exceeding \$150,000 financed in whole or in part with Federal assistance provided by the applicable Federal awarding agency (e.g. FEMA).

8. **Debarment and Suspension.**

- a. Applicability: This requirement applies to all Federal grant and cooperative agreement programs.

- b. Standard. Non-Federal entities and contractors are subject to the debarment and suspension regulations implementing Executive Order 12549, *Debarment and Suspension* (1986) and Executive Order 12689, *Debarment and Suspension* (1989) at 2 C.F.R. Part 180 and the Department of Homeland Security's regulations at 2 C.F.R. Part 3000 (Nonprocurement Debarment and Suspension).

These regulations restrict awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs and activities. See 2 C.F.R. Part 200, Appendix II, ¶ H; and Chapter IV, ¶ 6.d and Appendix C, ¶ 2. A contract award must not be made to parties listed in the SAM Exclusions. SAM Exclusions is the list maintained by the General Services Administration that contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. SAM exclusions can be accessed at www.sam.gov. See 2 C.F.R. § 180.530; Chapter IV, ¶ 6.d and Appendix C, ¶ 2.

In general, an "excluded" party cannot receive a Federal grant award or a contract within the meaning of a "covered transaction," to include subawards and subcontracts. This includes parties that receive Federal funding indirectly, such as contractors to recipients and subrecipients. The key to the exclusion is whether there is a "covered transaction," which is any nonprocurement transaction (unless excepted) at either a "primary" or "secondary" tier. Although "covered transactions" do not include contracts awarded by the Federal Government for purposes of the nonprocurement common rule and DHS's implementing regulations, it does include some contracts awarded by recipients and subrecipient.

Specifically, a covered transaction includes the following contracts for goods or services:

- (1) The contract is awarded by a recipient or subrecipient in the amount of at least \$25,000.
- (2) The contract requires the approval of FEMA or applicable Federal entity, regardless of amount.
- (3) The contract is for Federally-required audit services.
- (4) A subcontract is also a covered transaction if it is awarded by the contractor of a recipient or subrecipient and requires either the approval of FEMA or applicable Federal entity or is in excess of \$25,000.

- c. Statement. The following provides a debarment and suspension clause. It incorporates a method of verifying that contractors are not excluded or disqualified:

For maximum protection, provide a print or electronic document for every prime and subcontractor, from www.sam.gov in order to ensure that they are not debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs and activities.

This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the contractor is required to verify that none of the contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

This certification is a material representation of fact relied upon by (insert name of subrecipient). If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to (name of state agency serving as recipient and name of subrecipient), the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.”

9. **Byrd Anti-Lobbying Amendment.**

- a. **Applicability.** This requirement applies to all Federal grant and cooperative agreement programs.
- b. **Standard.** Contractors that apply or bid for an award of \$100,000 or more must file the required certification. See 2 C.F.R. Part 200, Appendix II, ¶ I; 44 C.F.R. Part 18; Chapter IV, 6.c; Appendix C, ¶ 4. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any City, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. § 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award. See Chapter IV, ¶ 6.c and Appendix C, ¶ 4.
- c. **Statement.** The following statement in bold provides a Byrd Anti-Lobbying contract clause:

(IF APPLICABLE, PLEASE FILL IN BLANKS AND SIGN)

“Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended)

Contractors who apply or bid for an award of \$100,000 or more shall file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient.”

1. 10. **Procurement of Recovered Materials.**

- a. **Applicability:** This requirement applies to all Federal grant and cooperative agreement programs.
- b. **Standard.** A non-Federal entity that is a **state agency or agency of a political subdivision** of a state and its contractors must comply with Section 6002 of the Solid Waste Disposal Act, Pub. L. No. 89-272 (1965) (codified as amended by the Resource Conservation and Recovery Act at 42 U.S.C. § 6962). See 2 C.F.R. Part 200, Appendix II, ¶ J; 2 C.F.R. § 200.322; *PDAT Supplement*, Chapter V, ¶ 7.

The requirements of Section 6002 include procuring only items designated in guidelines of the EPA at 40 C.F.R. Part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds \$10,000 or the value of the quantity acquired by the preceding fiscal year exceeded \$10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

- c. **Statement.** The following provides the clause that a state agency or agency of a political subdivision of a state and its contractors can include in contracts meeting the above contract thresholds:

“(1) In the performance of this contract, the Contractor shall make maximum use of products containing recovered materials that are EPA- designated items unless the product cannot be acquired—

- (3) Information about this requirement, along with the list of EPA-designate items, is available at EPA’s Comprehensive Procurement Guidelines web site, <https://www.epa.gov/smm/comprehensive-procurement-guideline-cpg-program>.”

Additional Required Contract Clauses for Non-Federal Entity Contracts Under Federal Awards with the Federal Emergency Management Agency (FEMA)

Additional FEMA or applicable Federal Requirements. In addition to the requirements above, non-Federal entity contracts under Federal award subject to financial assistance from FEMA are required to contain the following additional contract clauses. The Uniform Guidance authorizes FEMA to require additional provisions for non-Federal entity contracts. FEMA, pursuant to this authority, requires or recommends the following:

These clauses are incorporated by reference as part of this procurement packet and any resulting agreement.

11. Changes.

- a. Standard. To be eligible for FEMA assistance under the non-Federal entity's Federal grant or cooperative agreement, the cost of the change, modification, change order, or constructive change must be allowable, allocable, within the scope of its grant or cooperative agreement, and reasonable for the completion of project scope. FEMA or applicable Federal entity recommends, therefore, that a non-Federal entity include a changes clause in its contract that describes how, if at all, changes can be made by either party to alter the method, price, or schedule of the work without breaching the contract. The language of the clause may differ depending on the nature of the contract and the end-item procured.

- b. Statement. The following provides a contract clause regarding access to records:

"The contractor shall secure written authorization before proceeding with any additional work, whether requested by the County or required to complete the contract. The cost for any changes to the contract price, whether requested by the County or the Contractor will be approved only after submitting the contractor's true costs for the work and related equipment costs and site expenses."

12. Access to Records.

- a. Standard. All non-Federal entities must place into their contracts a provision that all contractors and their successors, transferees, assignees, and subcontractors acknowledge and agree to comply with applicable provisions governing Department and FEMA or applicable Federal entity access to records, accounts, documents, information, facilities, and staff. See DHS Standard Terms and Conditions, v 3.0, ¶ XXVI (2013).

- b. Statement. The following provides a contract clause regarding access to records:

"Access to Records. The following access to records requirements apply to this contract:

(1) The contractor agrees to provide the County of Hidalgo, the FEMA or applicable Federal Administrator, the Comptroller General of the United States, or any of their authorized representatives access to any books, documents, papers, and records of the Contractor which are directly pertinent to this contract for the purposes of making audits, examinations, excerpts, and transcriptions.

(2) The Contractor agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.

(3) The contractor agrees to provide the FEMA or applicable Federal Administrator or his authorized representatives access to construction or other work sites pertaining to the work being completed under the contract."

13. DHS Seal, Logo, and Flags.

- a. Standard. All non-Federal entities must place in their contracts a provision that a contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS City

officials without specific FEMA or applicable Federal entity pre-approval. See DHS Standard Terms and Conditions, v3.0, ¶ XXV (2013).

- b. Statement. The following provides a contract clause regarding DHS Seal, Logo, and Flags:

“The contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS City officials without specific FEMA or applicable Federal entity pre-approval.”

14. Compliance with Federal Law, Regulations, and Executive Orders.

- a. Standard. All non-Federal entities must place into their contracts an acknowledgement that FEMA or applicable Federal financial assistance will be used to fund the contract along with the requirement that the contractor will comply with all applicable Federal law, regulations, executive orders, and FEMA or applicable Federal policies, procedures, and directives.
- b. Statement. The following provides a contract clause regarding Compliance with Federal Law, Regulations and Executive Orders:

“This is an acknowledgement that Federal financial assistance will be used to fund the contract only. The contractor will comply will all applicable Federal law, regulations, executive orders, FEMA or applicable Federal policies, procedures, and directives.”

15. No Obligation by Federal Government.

- a. Standard. The non-Federal entity must include a provision in its contract that states that the Federal Government is not a party to the contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract.
- b. Statement. The following provides a contract clause regarding no obligation by the Federal Government:

“The Federal Government is not a party to this contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract.”

16. Program Fraud and False or Fraudulent Statements or Related Acts.

- a. Standard. The non-Federal entity must include a provision in its contract that the contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to its actions pertaining to the contract.
- b. Statement. The following provides a contract clause regarding Fraud and False or Fraudulent Related Acts:

“The contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to the contractor’s actions pertaining to this contract.”

It is further acknowledged that the Contractor read and understands all provisions, laws, acts, regulations, etc. as specifically noted above and certifies compliance with the same.

- 1) Any person or organization is an insured with whom you are required to add as an additional insured to this policy by a written contract or written agreement, or permit that is:
 - a) currently in effect or becoming effective during the term of this policy; and
 - b) executed prior to the "bodily injury," "property damage," "personal and advertising injury."
- 2) This insurance provided to the additional insured by this endorsement applies as follows:

 - (1) Premises you own, rent, lease, or occupy, or
 - (2) Your ongoing operations performed for the additional insured at the job indicated by written contract or written agreement.
 - b) The limits of insurance applicable to the additional insured are those specified in the written contract or written agreement or in the Declarations of this policy, whichever is less. These limits of insurance are inclusive of and not in addition to the limits of insurance shown in the Declarations.
- 3) With respect to the insurance afforded these additional insureds, the following additional exclusions apply:
 - a) This insurance does not apply to "bodily injury" or "property damage" occurring after:
 - (1) all work, including materials, parts or equipment furnished in connection with such work, on the project (other than service, maintenance or repairs) to be performed by or on behalf of the additional insured(s) at the site of the covered operations has been completed; or
 - (2) that portion of "your work" out of which the injury or damage arises has been put to its intended use by any person or organization other than another contractor or subcontractor engaged in performing operations on or at the same project.
 - b) This insurance does not apply to "bodily injury," "property damage," "personal and advertising injury" caused by the rendering of or failure to render any professional services.
- 4) Regardless of whether other insurance is available to an additional insured on a primary basis, this insurance will be primary and noncontributory if a written contract between you and the additional insured specifically requires that this insurance be primary.

R) WAIVER OF SUBROGATION

We will waive our right of subrogation in the event of a loss. We must be advised, prior to the loss, of your intention to waive subrogation. We also must know whom subrogation will be waived against. If your request meets the underwriting criteria it will be done at no additional charge.

S) WAIVER OF IMMUNITY

We will waive, both in the adjustment of claims and in defense of "suits" against the insured, any charitable or governmental immunity of the insured, unless the insured requests, in writing, that we not do so.

Employee Criminal Defense Costs Only Coverage

We will pay, on your behalf, for "defense costs" incurred by your "employee" in a "criminal proceeding". We will have the right, but not the duty to defend your "employee" in such "criminal proceeding".

2. The most we will pay for any one "criminal proceeding" is \$25,000, regardless of the number of "employees" involved in such "criminal proceeding". The payment of "defense costs" under this Employee Criminal Defense Costs Only Coverage is in addition to and does not reduce the Limits of Insurance shown on the Declarations. However, the payment of "defense costs" under this Employee Criminal Defense Costs Only Coverage is included within and shall reduce the \$25,000 each "criminal proceeding" Limit shown in Item V) of the Schedule above and we will not pay for any further "defense costs" for a "criminal proceeding" after the \$25,000 limit has been exhausted.
3. The following additional Exclusions apply to this Employee Criminal Defense Costs Only Coverage:

This insurance does not apply to:

a. Coverage Provided Under Coverages A or B

Any "defense costs" for which coverage is provided under COVERAGE A BODILY INJURY AND PROPERTY DAMAGE LIABILITY AND COVERAGE B PERSONAL AND ADVERTISING INJURY LIABILITY of this policy.

b. Damages, Fines or Penalties

Any damages, fines or penalties.

4. The following additional Definitions apply to this Employee Criminal Defense Costs Only Coverage:

a. "Criminal proceeding" means:

The prosecution of any of your "employees" commenced by the filing, with a court, or other regulatory enforcement agency, of an information, a complaint, or an indictment, and any amendments thereto, alleging that your "employee" had, during the policy period, committed one or more crimes involving one or more incidents, acts, or events. Such incidents, acts or events must arise within the scope of your "employee's" employment by you or occur while your "employee" is performing duties related to the conduct of your business.

Any "criminal proceeding" shall be considered a single "criminal proceeding", notwithstanding the fact that the prosecution or investigation may involve multiple incidents, multiple counts or charges, and/or multiple trial and/or appellate proceedings. A subsequent or different prosecution or investigation based on the same incidents, acts, or events that provided the basis for the original prosecution or investigation shall not constitute a separate "criminal proceeding".

b. "Defense costs" means

(1) Reasonable attorney fees (including fees for the services of paralegals, law clerks and/or investigators working under the direction of said attorney); and

(2) Reasonable and necessary costs, excluding loss of income.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to www.irs.gov/FormW9.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-INT (interest earned or paid)

- Form 1099-DIV (dividends, including those from stocks or mutual funds)

- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)

- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)

- Form 1099-S (proceeds from real estate transactions)

- Form 1099-K (merchant card and third party network transactions)

- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)

- Form 1099-C (canceled debt)

- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding, later.

By signing the filled-out form, you:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding, or
3. Claim exemption from backup withholding if you are a U.S. exempt payee. If applicable, you are also certifying that as a U.S. person, your allocable share of any partnership income from a U.S. trade or business is not subject to the withholding tax on foreign partners' share of effectively connected income, and
4. Certify that FATCA code(s) entered on this form (if any) indicating that you are exempt from the FATCA reporting, is correct. See *What is FATCA reporting*, later, for further information.

Note: If you are a U.S. person and a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien;
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States;
- An estate (other than a foreign estate); or
- A domestic trust (as defined in Regulations section 301.7701-7).

Special rules for partnerships. Partnerships that conduct a trade or business in the United States are generally required to pay a withholding tax under section 1446 on any foreign partners' share of effectively connected taxable income from such business. Further, in certain cases where a Form W-9 has not been received, the rules under section 1446 require a partnership to presume that a partner is a foreign person, and pay the section 1446 withholding tax. Therefore, if you are a U.S. person that is a partner in a partnership conducting a trade or business in the United States, provide Form W-9 to the partnership to establish your U.S. status and avoid section 1446 withholding on your share of partnership income.

In the cases below, the following person must give Form W-9 to the partnership for purposes of establishing its U.S. status and avoiding withholding on its allocable share of net income from the partnership conducting a trade or business in the United States.

- In the case of a disregarded entity with a U.S. owner, the U.S. owner of the disregarded entity and not the entity;
- In the case of a grantor trust with a U.S. grantor or other U.S. owner, generally, the U.S. grantor or other U.S. owner of the grantor trust and not the trust; and
- In the case of a U.S. trust (other than a grantor trust), the U.S. trust (other than a grantor trust) and not the beneficiaries of the trust.

Foreign person. If you are a foreign person or the U.S. branch of a foreign bank that has elected to be treated as a U.S. person, do not use Form W-9. Instead, use the appropriate Form W-8 or Form 8233 (see Pub. 515, Withholding of Tax on Nonresident Aliens and Foreign Entities).

Nonresident alien who becomes a resident alien. Generally, only a nonresident alien individual may use the terms of a tax treaty to reduce or eliminate U.S. tax on certain types of income. However, most tax treaties contain a provision known as a "saving clause." Exceptions specified in the saving clause may permit an exemption from tax to continue for certain types of income even after the payee has otherwise become a U.S. resident alien for tax purposes.

If you are a U.S. resident alien who is relying on an exception contained in the saving clause of a tax treaty to claim an exemption from U.S. tax on certain types of income, you must attach a statement to Form W-9 that specifies the following five items.

1. The treaty country. Generally, this must be the same treaty under which you claimed exemption from tax as a nonresident alien.
2. The treaty article addressing the income.
3. The article number (or location) in the tax treaty that contains the saving clause and its exceptions.
4. The type and amount of income that qualifies for the exemption from tax.
5. Sufficient facts to justify the exemption from tax under the terms of the treaty article.

Example. Article 20 of the U.S.-China income tax treaty allows an exemption from tax for scholarship income received by a Chinese student temporarily present in the United States. Under U.S. law, this student will become a resident alien for tax purposes if his or her stay in the United States exceeds 5 calendar years. However, paragraph 2 of the first Protocol to the U.S.-China treaty (dated April 30, 1984) allows the provisions of Article 20 to continue to apply even after the Chinese student becomes a resident alien of the United States. A Chinese student who qualifies for this exception (under paragraph 2 of the first protocol) and is relying on this exception to claim an exemption from tax on his or her scholarship or fellowship income would attach to Form W-9 a statement that includes the information described above to support that exemption.

If you are a nonresident alien or a foreign entity, give the requester the appropriate completed Form W-8 or Form 8233.

Backup Withholding

What is backup withholding? Persons making certain payments to you must under certain conditions withhold and pay to the IRS 28% of such payments. This is called "backup withholding." Payments that may be subject to backup withholding include interest, tax-exempt interest, dividends, broker and barter exchange transactions, rents, royalties, nonemployee pay, payments made in settlement of payment card and third party network transactions, and certain payments from fishing boat operators. Real estate transactions are not subject to backup withholding.

You will not be subject to backup withholding on payments you receive if you give the requester your correct TIN, make the proper certifications, and report all your taxable interest and dividends on your tax return.

Payments you receive will be subject to backup withholding if:

1. You do not furnish your TIN to the requester,
2. You do not certify your TIN when required (see the instructions for Part II for details),
3. The IRS tells the requester that you furnished an incorrect TIN,
4. The IRS tells you that you are subject to backup withholding because you did not report all your interest and dividends on your tax return (for reportable interest and dividends only), or
5. You do not certify to the requester that you are not subject to backup withholding under 4 above (for reportable interest and dividend accounts opened after 1983 only).

Certain payees and payments are exempt from backup withholding. See *Exempt payee code*, later, and the separate Instructions for the Requester of Form W-9 for more information.

Also see *Special rules for partnerships*, earlier.

What is FATCA Reporting?

The Foreign Account Tax Compliance Act (FATCA) requires a participating foreign financial institution to report all United States account holders that are specified United States persons. Certain payees are exempt from FATCA reporting. See *Exemption from FATCA reporting code*, later, and the Instructions for the Requester of Form W-9 for more information.

Updating Your Information

You must provide updated information to any person to whom you claimed to be an exempt payee if you are no longer an exempt payee and anticipate receiving reportable payments in the future from this person. For example, you may need to provide updated information if you are a C corporation that elects to be an S corporation, or if you no longer are tax exempt. In addition, you must furnish a new Form W-9 if the name or TIN changes for the account; for example, if the grantor of a grantor trust dies.

Penalties

Failure to furnish TIN. If you fail to furnish your correct TIN to a requester, you are subject to a penalty of \$50 for each such failure unless your failure is due to reasonable cause and not to willful neglect.

Civil penalty for false information with respect to withholding. If you make a false statement with no reasonable basis that results in no backup withholding, you are subject to a \$500 penalty.

Criminal penalty for falsifying information. Willfully falsifying certifications or affirmations may subject you to criminal penalties including fines and/or imprisonment.

Misuse of TINs. If the requester discloses or uses TINs in violation of federal law, the requester may be subject to civil and criminal penalties.

Specific Instructions

Line 1

You must enter one of the following on this line; **do not** leave this line blank. The name should match the name on your tax return.

If this Form W-9 is for a joint account (other than an account maintained by a foreign financial institution (FFI)), list first, and then circle, the name of the person or entity whose number you entered in Part I of Form W-9. If you are providing Form W-9 to an FFI to document a joint account, each holder of the account that is a U.S. person must provide a Form W-9.

a. **Individual.** Generally, enter the name shown on your tax return. If you have changed your last name without informing the Social Security Administration (SSA) of the name change, enter your first name, the last name as shown on your social security card, and your new last name.

Note: ITIN applicant: Enter your individual name as it was entered on your Form W-7 application, line 1a. This should also be the same as the name you entered on the Form 1040/1040A/1040EZ you filed with your application.

b. **Sole proprietor or single-member LLC.** Enter your individual name as shown on your 1040/1040A/1040EZ on line 1. You may enter your business, trade, or "doing business as" (DBA) name on line 2.

e. **Disregarded entity.** For U.S. federal tax purposes, an entity that is disregarded as an entity separate from its owner is treated as a "disregarded entity." See Regulations section 301.7701-2(c)(2)(iii). Enter the owner's name on line 1. The name of the entity entered on line 1 should never be a disregarded entity. The name on line 1 should be the name shown on the income tax return on which the income should be reported. For example, if a foreign LLC that is treated as a disregarded entity for U.S. federal tax purposes has a single owner that is a U.S. person, the U.S. owner's name is required to be provided on line 1. If the direct owner of the entity is also a disregarded entity, enter the first owner that is not disregarded for federal tax purposes. Enter the disregarded entity's name on line 2, "Business name/disregarded entity name." If the owner of the disregarded entity is a foreign person, the owner must complete an appropriate Form W-8 instead of a Form W-9. This is the case even if the foreign person has a U.S. TIN.

Line 2

If you have a business name, trade name, DBA name, or disregarded entity name, you may enter it on line 2.

Line 5

Enter your address (number, street, and apartment or suite number). This is where the requester of this Form W-9 will mail your information returns. If this address differs from the one the requester already has on file, write NEW at the top. If a new address is provided, there is still a chance the old address will be used until the payor changes your address in their records.

Line 6

Enter your city, state, and ZIP code.

Part I. Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. If you are a resident alien and you do not have and are not eligible to get an SSN, your TIN is your IRS individual taxpayer identification number (ITIN). Enter it in the social security number box. If you do not have an ITIN, see *How to get a TIN* below.

If you are a sole proprietor and you have an EIN, you may enter either your SSN or EIN.

If you are a single-member LLC that is disregarded as an entity separate from its owner, enter the owner's SSN (or EIN, if the owner has one). Do not enter the disregarded entity's EIN. If the LLC is classified as a corporation or partnership, enter the entity's EIN.

Note: See *What Name and Number To Give the Requester*, later, for further clarification of name and TIN combinations.

How to get a TIN. If you do not have a TIN, apply for one immediately. To apply for an SSN, get Form SS-5, Application for a Social Security Card, from your local SSA office or get this form online at www.SSA.gov. You may also get this form by calling 1-800-772-1213. Use Form W-7, Application for IRS Individual Taxpayer Identification Number, to apply for an ITIN, or Form SS-4, Application for Employer Identification Number, to apply for an EIN. You can apply for an EIN online by accessing the IRS website at www.irs.gov/Businesses and clicking on Employer Identification Number (EIN) under Starting a Business. Go to www.irs.gov/Forms to view, download, or print Form W-7 and/or Form SS-4. Or, you can go to www.irs.gov/OrderForms to place an order and have Form W-7 and/or SS-4 mailed to you within 10 business days.

If you are asked to complete Form W-9 but do not have a TIN, apply for a TIN and write "Applied For" in the space for the TIN, sign and date the form, and give it to the requester. For interest and dividend payments, and certain payments made with respect to readily tradable instruments, generally you will have 60 days to get a TIN and give it to the requester before you are subject to backup withholding on payments. The 60-day rule does not apply to other types of payments. You will be subject to backup withholding on all such payments until you provide your TIN to the requester.

Note: Entering "Applied For" means that you have already applied for a TIN or that you intend to apply for one soon.

Caution: A disregarded U.S. entity that has a foreign owner must use the appropriate Form W-8.

Part II. Certification

To establish to the withholding agent that you are a U.S. person, or resident alien, sign Form W-9. You may be requested to sign by the withholding agent even if item 1, 4, or 5 below indicates otherwise.

For a joint account, only the person whose TIN is shown in Part I should sign (when required). In the case of a disregarded entity, the person identified on line 1 must sign. Exempt payees, see *Exempt payee code*, earlier.

Signature requirements. Complete the certification as indicated in items 1 through 5 below.

1. Interest, dividend, and barter exchange accounts opened before 1984 and broker accounts considered active during 1983. You must give your correct TIN, but you do not have to sign the certification.

2. Interest, dividend, broker, and barter exchange accounts opened after 1983 and broker accounts considered inactive during 1983. You must sign the certification or backup withholding will apply. If you are subject to backup withholding and you are merely providing your correct TIN to the requester, you must cross out item 2 in the certification before signing the form.

3. Real estate transactions. You must sign the certification. You may cross out item 2 of the certification.

4. Other payments. You must give your correct TIN, but you do not have to sign the certification unless you have been notified that you have previously given an incorrect TIN. "Other payments" include payments made in the course of the requester's trade or business for rents, royalties, goods (other than bills for merchandise), medical and health care services (including payments to corporations), payments to a nonemployee for services, payments made in settlement of payment card and third party network transactions, payments to certain fishing boat crew members and fishermen, and gross proceeds paid to attorneys (including payments to corporations).

5. Mortgage interest paid by you, acquisition or abandonment of secured property, cancellation of debt, qualified tuition program payments (under section 529), ABL accounts (under section 529A), IRA, Coverdell ESA, Archer MSA or HSA contributions or distributions, and pension distributions. You must give your correct TIN, but you do not have to sign the certification.

Secure Your Tax Records From Identity Theft

Identity theft occurs when someone uses your personal information such as your name, SSN, or other identifying information, without your permission, to commit fraud or other crimes. An identity thief may use your SSN to get a job or may file a tax return using your SSN to receive a refund.

To reduce your risk:

- Protect your SSN,
- Ensure your employer is protecting your SSN, and
- Be careful when choosing a tax preparer.

If your tax records are affected by identity theft and you receive a notice from the IRS, respond right away to the name and phone number printed on the IRS notice or letter.

If your tax records are not currently affected by identity theft but you think you are at risk due to a lost or stolen purse or wallet, questionable credit card activity or credit report, contact the IRS Identity Theft Hotline at 1-800-908-4490 or submit Form 14039.

For more information, see Pub. 5027, Identity Theft Information for Taxpayers.

Victims of identity theft who are experiencing economic harm or a systemic problem, or are seeking help in resolving tax problems that have not been resolved through normal channels, may be eligible for Taxpayer Advocate Service (TAS) assistance. You can reach TAS by calling the TAS toll-free case intake line at 1-877-777-4778 or TTY/TDD 1-800-829-4059.

Protect yourself from suspicious emails or phishing schemes.

Phishing is the creation and use of email and websites designed to mimic legitimate business emails and websites. The most common act is sending an email to a user falsely claiming to be an established legitimate enterprise in an attempt to scam the user into surrendering private information that will be used for identity theft.

The IRS does not initiate contacts with taxpayers via emails. Also, the IRS does not request personal detailed information through email or ask taxpayers for the PIN numbers, passwords, or similar secret access information for their credit card, bank, or other financial accounts.

If you receive an unsolicited email claiming to be from the IRS, forward this message to phishing@irs.gov. You may also report misuse of the IRS name, logo, or other IRS property to the Treasury Inspector General for Tax Administration (TIGTA) at 1-800-366-4484. You can forward suspicious emails to the Federal Trade Commission at spam@uce.gov or report them at www.ftc.gov/complaint. You can contact the FTC at www.ftc.gov/idtheft or 877-IDTHEFT (877-438-4338). If you have been the victim of identity theft, see www.IdentityTheft.gov and Pub. 5027.

Visit www.irs.gov/IdentityTheft to learn more about identity theft and how to reduce your risk.

HISTORICALLY UNDERUTILIZED BUSINESS (HUB) DECLARATION

The primary objective of the Hidalgo County HUB Program is to ensure Historically Underutilized Businesses receive a fair and equal opportunity for participation in the County's procurement process. This fact holds true for Services (Professional & Non-Professional), Commodities, and Construction contracts and any subcontracts thereto. The program strongly encourages Prime Contractors to provide subcontracting opportunities to Certified Hub Contractors/Vendors. Our goal for HUB contractor/vendor participation, as well as HUB subcontractor participation is 30%. To be considered as a "Certified HUB Contractor/Vendor" the contractor/vendor must have been certified by, and hold a current and valid certification with any of the three agencies listed below.

***Continuous Contract:** Any existing written agreement (including any renewals that are exercised) between a prime contractor and a HUB vendor, where the HUB vendor provides the prime contractor with goods or service, to include under the same contract for a specified period of time. The frequency the HUB vendor is utilized or paid during the term of the contract is not relevant to whether the contract is considered continuous. Two or more contracts that run concurrently or overlap one another for different periods of time are considered by CPA to be individual contracts rather than renewals or extensions to the original contract. In such situations the prime contractor and HUB vendor are entering (have entered) into "new" contracts.

HUB Subcontracting Plan (HSP)

In accordance with Texas Gov't Code §2161.252, the contracting agency has determined that subcontracting opportunities are probable under this contract. Therefore, all respondents, including State of Texas certified Historically Underutilized Businesses (HUBs) must complete and submit this State of Texas HUB Subcontracting Plan (HSP) with their response to the bid requisition (solicitation).

NOTE: Responses that do not include a completed HSP shall be rejected pursuant to Texas Gov't Code §2161.252(b).

The HUB Program promotes equal business opportunities for economically disadvantaged persons to contract with the State of Texas in accordance with the goals specified in the 2009 State of Texas Disparity Study. The statewide HUB goals defined in 34 Texas Administrative Code (TAC) §20.284 are:

- **11.2 percent for heavy construction other than building contracts,**
- **21.1 percent for all building construction, including general contractors and operative builders' contracts,**
- **32.9 percent for all special trade construction contracts,**
- **23.7 percent for professional services contracts,**
- **26.0 percent for all other services contracts, and**
- **21.1 percent for commodities contracts.**

-- Agency Special Instructions/Additional Requirements --

In accordance with 34 TAC §20.285(d)(1)(D)(iii), a respondent (prime contractor) may demonstrate good faith effort to utilize Texas certified HUBs for its subcontracting opportunities if the total value of the respondent's subcontracts with Texas certified HUBs meets or exceeds the statewide HUB goal or the agency specific HUB goal, whichever is higher. When a respondent uses this method to demonstrate good faith effort, the respondent must identify the HUBs with which it will subcontract. If using existing contracts with Texas certified HUBs to satisfy this requirement, only the aggregate percentage of the contracts expected to be subcontracted to HUBs with which the respondent **does not** have a **continuous contract*** in place for **more than five (5) years** shall qualify for meeting the HUB goal. This limitation is designed to encourage vendor rotation as recommended by the 2009 Texas Disparity Study.

SECTION B-3: NOTIFICATION OF SUBCONTRACTING OPPORTUNITY

When completing this section you **MUST** comply with items **a, b, c and d**, thereby demonstrating your Good Faith Effort of having notified Texas certified HUBs and trade organizations or development centers about the subcontracting opportunity you listed in SECTION B-1. The initial day the subcontracting opportunity notice is sent/provided to the HUBs and to the trade organizations or development centers is considered to be "day zero" and does not count as one of the seven (7) working days.)
