FC – 120 PUBLIC INVOLVEMENT FOR NOISE BARRIER WORKSHOP

On the FM 1925 project from Wallace Road to 10th Street, a length of 3.5 miles, a noise barrier is being proposed at the Monte Cristo Subdivision located at FM 1925 and FM 2220 (Ware Road). A Noise Barrier Workshop must be held to determine if the affected property owners are in favor or against the construction of the proposed noise barrier adjacent to their property. The Noise Barrier Workshop has been set for September 7, 2022 at the Tres Lagos Community Center in McAllen, Texas. L&G Engineering (L&G) is pleased to submit the Scope of Services to provide Environmental Services as it relates to the Noise Barrier Workshop. The tasks are outlined below.

A database search shall be conducted to determine the names and addresses of affected property owners along proposed noise barrier. A field visit will be made and it will be determined if the property is "owner occupied" and if there are actual residences/residents remaining on the property since the noise analysis was conducted.

L&G will prepare the letters in English and Spanish along with a location map of the Tres Lagos Community Center for TxDOT's review and approval for TxDOT mailing. The mailing list will also be sent to TxDOT.

L&G will develop the PowerPoint presentation in English and Spanish for TxDOT to present at the Noise Barrier Workshop and any Exhibits on boards as required by TxDOT for the workshop. L&G will also develop welcome boards and directional signs.

L&G's engineering and environmental groups will attend any planning meetings ahead of the workshop, will visit the venue ahead of time to prepare to set-up for the workshop, will attend the workshop on the said date and provide the presentation, exhibits and the necessary equipment (laptop, projector, etc.) for the workshop. In addition, L&G will also attend any follow up meetings after the noise workshop to assist the client in completing the task and will coordinate with TxDOT the completion of the task.

Progress on the project shall be reported on a monthly basis in a formal written progress report and percent completion of each task.
