Dear Landowner,

Tennessee Gas Pipeline Company, L.L.C. ("TGP") owns and operates an interstate natural gas pipeline system under the jurisdiction of the Federal Energy Regulatory Commission ("FERC"). TGP's records indicate that your property, as referenced above, will be impacted by this maintenance project.

Project Description:

Abandon in place approximately 4.2 miles of 4.5-inch natural gas pipeline designated as TGP's Line No. 407D-500. The abandonment will also include removal of all above ground facilities/appurtenances along TGP's 407D-500 including valves, risers, fencing, communication towers, tanks, meters and buildings, located in Hidalgo County, Texas.

TGP anticipates commencing construction on November 7, 2022, or soon thereafter, and work is expected to take approximately **forty-five (45) days to complete**.

In compliance with the FERC's landowner notification regulations, TGP is required to make a good faith effort to notify all landowners affected by this project at least 45 days prior to commencing construction. This 45-day notice period provides you with an opportunity to notify TGP or the FERC should you have a concern with the proposed project prior to the end of the 45-day notification period.

If you have no issues or concerns with the project, then TGP would request that you waive this 45-day landowner notification period. To do so, please sign the "45-Day Waiver Release" below and return it in the enclosed pre-paid return envelope provided for your convenience. TGP has set up several points of contact for your convenience, to help resolve any concerns or issues that you may have with these maintenance activities and/or ongoing operations of facilities.
