Eddie:

Good afternoon. We please to inform you the Public Health Emergency Preparedness Program will support the 2023 South Texas All Hazards Conference. The Center for Health Emergency Preparedness and Response (CHEPR) will work with the Contract Management Section (CMS) to execute an amendment for \$150,000. The amendment will be initiated following the Agency's closeout of budget period 3 expenses.

I hope all is well. Please let me know if you have any additional questions.

All my best,

Dana
