

Proclamation in recognition of National Engineers Week
February 19- 25, 2023

- Whereas* Engineers use their scientific skills and specialized knowledge in creative and innovative ways to fulfill society’s needs; and
- Whereas* Engineers assist in solving major technological challenges of our time – from designing efficient building and infrastructure systems to rebuilding towns devastated by natural disasters; and
- Whereas* Engineering has been called the invisible or stealth profession because everything around us and things we use every day have been engineered in some way, yet we do not see the engineers behind the scenes at work demonstrating their unique skills; and
- Whereas* Engineers Week promotes recognition among parents, teachers and students on the importance of a technical education with an emphasis on accelerated levels of math, science and technology literacy and motivates youth to pursue engineering careers in order to provide a diverse and vigorous engineering workforce; and
- Whereas* the 2023 Theme of National Engineers Week is Creating the Future which places an emphasis on producing renovating solutions to global challenges that impact future generations; and
- Whereas* this Commissioners Court wishes the community to partake in The University of Texas Rio Grande Valley College of Engineering and Computer Science fun filled activities set to take place during Engineers Week; and

Now therefore, be it proclaimed that the Hidalgo County Commissioners Court hereby recognizes February 19 through February 25, 2023, as National Engineers Week.

Approved this 17th day of February 2023.

RICHARD F. CORTEZ

County Judge

DAVID L. FUENTES

County Commissioner, Pct. 1

EDUARDO “EDDIE” CANTU

County Commissioner, Pct. 2
