

## **Project Description**

**Project Name:**

Hidalgo County Precinct 2 Stormwater Management Project

**Project Number:**

ARPA-21-122-017

**Program Name:**

The Hidalgo County Precinct 2 Stormwater Management Project will be part of the Hidalgo County American Rescue Plan Act Stormwater System Improvement Program

**Department Name:**

Hidalgo County Precinct 2

**ARPA Expenditure Category:**

5: Infrastructure

**ARPA Eligibility Category:**

5.6: Clean Water: Stormwater

**Project Description:**

The Hidalgo County Precinct 2 Stormwater Management Project will assist in addressing and improving stormwater infrastructure. The project will address the inadequate stormwater systems that cause flooding, the spread of diseases, and eroded roads during the rainy season thereby increasing community quality of life.

Water, sewer, and broadband infrastructure all involve the provision of essential services to residents, businesses, and other consumers. As the pandemic has made clear, access to broadband has itself become essential for individuals and businesses to participate in education, commerce, work, and civic matters and to receive health care and social services.<sup>1</sup> The Treasury states that CWSRF includes a broad range of stormwater infrastructure projects, and as such these projects were eligible under the interim final rule and continue to be eligible under the final rule. These projects include gray infrastructure projects, such as traditional pipe, storage, and treatment systems. Projects that manage, reduce, treat, or recapture stormwater or subsurface drainage water are also eligible, including real-time control systems for combined sewer overflow management, and sediment control.<sup>2</sup>

**Fiscal Impact:**

Estimated Budget: \$ 492,460.00
