Option 2:

Mail us a check payable to DroneDeploy Inc. **Please note our new Lockbox Remittance Address is:**

DroneDeploy, Inc.

DEPT CH 14480

PALATINE IL 60055-4480

Dear DroneDeploy and StructionSite customers,

On November 4, 2022, DroneDeploy completed its acquisition of StructionSite. As a result, StructionSite is now a member of the DroneDeploy family of companies. Since 2016, StructionSite has emerged as a leader in ground reality capture for construction, with a mature product that's used by the world's largest general contractors. For customers of both products, you can expect:

- A unified reality capture platform: an integrated experience that enables you to understand the reality of your sites from the air and ground, exterior and interior - all in one easy-to-use platform.
- An accelerated roadmap: by combining the technologies, resources and expertise of the two teams, you can expect an acceleration of our joint reality capture roadmap.
- More automation, sooner: over 90% of our customers believe reality capture should be automated. We're going to deliver on this. Last year DroneDeploy acquired Rocos, enabling us to deliver an automated reality capture solution that's already on-site and reducing capture time dramatically.

How will this impact invoicing?

For DroneDeploy customers, you should experience no difference in the way you are being invoiced.

For StructionSite customers, please expect to be invoiced by DroneDeploy going forward. Unless and until you enter into a new agreement with, or your existing agreement is transferred or assigned to, another DroneDeploy entity, your agreement remains with StructionSite, Inc., and DroneDeploy is invoicing you on behalf of StructionSite.

If you have any questions, please feel free to reach out to our Accounting teams, or your Customer Success or Support teams, who are available to address any questions you may have.

We will do whatever we can to help you realize the benefits of this joining of forces as soon as possible, and can't wait to see what you achieve with DroneDeploy in the months and years to come.

Best,
Mike Winn
CEO and Co-founder
DroneDeploy
