The surveys and legal information shall include, as applicable, grades and lines of streets, alleys, pavements and adjoining property and structures; designated wetlands; adjacent drainage; rights-of-way, restrictions, easements, encroachments, zoning, deed restrictions, boundaries and contours of the site; locations, dimensions, and other necessary data with respect to existing buildings, other improvements and trees; and information concerning available utility services and lines, both public and private, above and below grade, including inverts and depths. All the information on the survey shall be referenced to a Project benchmark.

§ 5.5 The Owner shall furnish services of geotechnical engineers, which may include test borings, test pits, determinations of soil bearing values, percolation tests, evaluations of hazardous materials, seismic evaluation, ground corrosion tests and resistivity tests, including necessary operations for anticipating subsoil conditions, with written reports and appropriate recommendations.

§ 5.6 The Owner shall provide the Supplemental Services designated as the Owner's responsibility in Section 4.1.1.

§ 5.7 If the Owner identified a Sustainable Objective in Article 1, the Owner shall fulfill its responsibilities as required in AIA Document E204™-2017, Sustainable Projects Exhibit, attached to this Agreement.

§ 5.8 The Owner shall coordinate the services of its own consultants with those services provided by the Architect. Upon the Architect's request, the Owner shall furnish copies of the scope of services in the contracts between the Owner and the Owner's consultants. The Owner shall furnish the services of consultants other than those designated as the responsibility of the Architect in this Agreement, or authorize the Architect to furnish them as an Additional Service, when the Architect requests such services and demonstrates that they are reasonably required by the scope of the Project. The Owner shall require that its consultants and contractors maintain insurance, including professional liability insurance, as appropriate to the services or work provided.

§ 5.9 The Owner shall furnish tests, inspections and reports required by law or the Contract Documents, such as structural, mechanical, and chemical tests, tests for air and water pollution, and tests for hazardous materials.

§ 5.10 The Owner shall furnish all legal, insurance and accounting services, including auditing services, that may be reasonably necessary at any time for the Project to meet the Owner's needs and interests.

§ 5.11 The Owner shall provide prompt written notice to the Architect if the Owner becomes aware of any fault or defect in the Project, including errors, omissions or inconsistencies in the Architect's Instruments of Service; provided however, that failure of the Owner to provide such notice shall in no way affect the Architect's obligations hereunder, nor shall such failure relieve the Architect from any liability for failure to discover and correct any such fault, defect, error, omission or inconsistency.

§ 5.12 The Owner shall include the Architect in all communications with the Contractor that relate to or affect the Architect's services or professional responsibilities. The Owner shall promptly notify the Architect of the substance of any direct communications between the Owner and the Contractor otherwise relating to the Project. Communications by and with the Architect's consultants shall be through the Architect.

§ 5.13 Before executing the Contract for Construction, the Owner shall coordinate the Architect's duties and responsibilities set forth in the Contract for Construction with the Architect's services set forth in this Agreement. The Owner shall provide the Architect a copy of the executed agreement between the Owner and Contractor, including the General Conditions of the Contract for Construction.

§ 5.14 The Owner shall provide the Architect access to the Project site prior to commencement of the Work and shall obligate the Contractor to provide the Architect access to the Work wherever it is in preparation or progress.

§ 5.15 Within 15 days after receipt of a written request from the Architect, the Owner shall furnish the requested information as necessary and relevant for the Architect to evaluate, give notice of, or enforce lien rights.

ARTICLE 6 COST OF THE WORK

§ 6.1 For purposes of this Agreement, the Cost of the Work shall be the total cost to the Owner to construct all elements of the Project designed or specified by the Architect and shall include contractors' general conditions costs, overhead and profit. The Cost of the Work also includes the reasonable value of labor, materials, and equipment, donated to, or otherwise furnished by, the Owner. The Cost of the Work does not include the compensation of the Architect; the costs of the land, rights-of-way, financing, or contingencies for changes in the Work; or other costs that are the responsibility of the Owner.

§ 6.2 The Owner's budget for the Cost of the Work is provided in Initial Information, and shall be adjusted throughout the Project as required under Sections 5.2, 6.4 and 6.5. Evaluations of the Owner's budget for the Cost of the Work, and the preliminary estimate of the Cost of the Work and updated estimates of the Cost of the Work, prepared by the Architect, represent the Architect's judgment as a design professional. It is recognized, however, that neither the Architect nor the Owner has control over the cost of labor, materials, or equipment; the Contractor's methods of determining bid prices; or competitive bidding, market, or negotiating conditions. Accordingly, the Architect cannot and does not warrant or represent that bids or negotiated prices will not vary from the Owner's budget for the Cost of the Work, or from any estimate of the Cost of the Work, or evaluation, prepared or agreed to by the Architect.

§ 6.3 In preparing estimates of the Cost of Work, the Architect shall be permitted to include contingencies for design, bidding, and price escalation; to determine what materials, equipment, component systems, and types of construction are to be included in the Contract Documents; to recommend reasonable adjustments in the program and scope of the Project; and to include design alternates as may be necessary to adjust the estimated Cost of the Work to meet the Owner's budget. The Architect's estimate of the Cost of the Work shall be based on current area, volume or similar conceptual estimating techniques. If the Owner requires a detailed estimate of the Cost of the Work, the Architect shall provide such an estimate, if identified as the Architect's responsibility in Section 4.1.1, as a Supplemental Service.

§ 6.4 If, through no fault of the Architect, the Procurement Phase has not commenced within 90 days after the Architect submits the Construction Documents to the Owner, the Owner's budget for the Cost of the Work shall be adjusted to reflect changes in the general level of prices in the applicable construction market.

§ 6.5 If at any time the Architect's estimate of the Cost of the Work exceeds the Owner's budget for the Cost of the Work, the Architect shall make appropriate recommendations to the Owner to adjust the Project's size, quality, or budget for the Cost of the Work, and the Owner shall cooperate with the Architect in making such adjustments.

§ 6.6 If the Owner's budget for the Cost of the Work at the conclusion of the Construction Documents Phase Services is exceeded by the lowest bona fide bid or negotiated proposal, the Owner shall

- .1 give written approval of an increase in the budget for the Cost of the Work;
- .2 authorize rebidding or renegotiating of the Project within a reasonable time;
- .3 terminate in accordance with Section 9.5;
- .4 in consultation with the Architect, revise the Project program, scope, or quality as required to reduce the Cost of the Work; or,
- .5 implement any other mutually acceptable alternative.

§ 6.7 If the Owner chooses to proceed under Section 6.6.4, the Architect shall modify the Construction Documents as necessary to comply with the Owner's budget for the Cost of the Work at the conclusion of the Construction Documents Phase Services, or the budget as adjusted under Section 6.6.1. If the Owner requires the Architect to modify the Construction Documents because the lowest bona fide bid or negotiated proposal exceeds the Owner's budget for the Cost of the Work due to market conditions the Architect could not reasonably anticipate, the Owner shall compensate the Architect for the modifications as an Additional Service pursuant to Section 11.3; otherwise the Architect's services for modifying the Construction Documents shall be without additional compensation. In any event, the Architect's modification of the Construction Documents shall be the limit of the Architect's responsibility under this Article 6.

ARTICLE 7 COPYRIGHTS AND LICENSES

§ 7.1 Drawings, specifications and other documents, including those in electronic form, prepared by the Architect and the Architect's consultants are Instruments of Service for use solely with respect of this Project. The Architect and the Owner warrant that in transmitting Instruments of Service, or any other information, the transmitting party is the copyright owner of such information or has permission from the copyright owner to transmit such information for its use on the Project.

§ 7.2 The Architect and the Architect's consultants shall be deemed the authors and owners of their respective Instruments of Service, including the Drawings and Specifications, and shall retain all common law, statutory and other reserved rights, including copyrights. Original drawings and specifications are the property of the Architect; however, the Project is the property of the Owner, and the Architect may not use the drawings and specifications therefore for any purpose not related to the Project without Owner's consent. Owner shall be furnished with such reproductions of drawings and specifications as Owner may reasonably require. Upon completion of the Work or any earlier termination of this Agreement, Architect will revise drawings to reflect changes made during construction and made known by the Contractor and will promptly furnish the Owner with one complete set of reproducible record prints. All such reproductions shall be property of the Owner who may use them without Architect's permission for any proper purpose related to the Project, including, but not limited to additions to or completion of the Project. Submission or distribution of Instruments of Service to meet official regulatory requirements or for similar purposes in connection with the Project is not to be construed as publication in derogation of the reserved rights of the Architect and the Architect's consultants.

§ 7.3 The Architect grants to the Owner a nonexclusive license to use the Architect's Instruments of Service solely and exclusively for purposes of constructing, using, maintaining, altering and adding to the Project, provided that the Owner substantially performs its obligations under this Agreement, including prompt payment of all sums due pursuant to Article 9 and Article 11. The Architect shall obtain similar nonexclusive licenses from the Architect's consultants consistent with this Agreement. The license granted under this section permits the Owner to authorize the Contractor, Subcontractors, Sub-subcontractors, and suppliers, as well as the Owner's consultants and separate contractors, to reproduce applicable portions of the Instruments of Service, subject to any protocols established pursuant to Section 1.3, solely and exclusively for use in performing services or construction for the Project. If the Architect rightfully terminates this Agreement for cause as provided in Section 9.4, the license granted in this Section 7.3 shall terminate. If and upon the date the Architect is adjudged in default of this Agreement, the foregoing license shall be deemed terminated and replaced by a second, nonexclusive license permitting the Owner to authorize other

similarly credentialed design professionals to reproduce and, where permitted by law, to make changes, corrections or additions to the Instruments of Service for purposes of completing, using and maintaining the Project.

§ 8.2.2 The Owner and Architect may endeavor to resolve claims, disputes and other matters in question between them by mediation,. A request for mediation shall be made in writing, delivered to the other party to this Agreement, and filed with the person or entity administering the mediation. The request may be made concurrently with the filing of a complaint or other claim. However, nothing in this Agreement shall be construed as requiring mandatory mediation of claims, disputes or other matters in questions between the parties.

§ 8.2.3 The parties shall share the mediator’s fee and any filing fees equally. The mediation shall be held in the place where the Project is located, unless another location is mutually agreed upon. Agreements reached in mediation shall be enforceable as settlement agreements in any court having jurisdiction thereof.

ARTICLE 9 TERMINATION OR SUSPENSION

§ 9.1 If the Owner fails to make payments to the Architect in accordance with this Agreement, such failure shall be considered substantial nonperformance and cause for termination or, at the Architect's option, cause for suspension of performance of services under this Agreement. If the Architect elects to suspend services, the Architect shall give seven days' written notice to the Owner before suspending services. In the event of a suspension of services, the Architect shall have no liability to the Owner for delay or damage caused the Owner because of such suspension of services. Before resuming services, the Owner shall pay the Architect all sums due prior to suspension and any expenses incurred in the interruption and resumption of the Architect's services. The Architect's fees for the remaining services and the time schedules shall be equitably adjusted.

§ 9.2 If the Owner suspends the Project for more than thirty (30) consecutive days, the Architect shall be compensated for services performed prior to notice of such suspension.. The Architect's fees for the remaining services and the time schedules shall be equitably adjusted.

§ 9.3 If the Owner suspends the Project without cause for more than 90 cumulative days for reasons other than the fault of the Architect, the Architect may terminate this Agreement by giving not less than seven days' written notice.

§ 9.4 Either party may terminate this Agreement upon not less than seven days' written notice should the other party fail substantially to perform in accordance with the terms of this Agreement through no fault of the party initiating the termination.

§ 10.4 If the Owner requests the Architect to execute certificates, the proposed language of such certificates shall be submitted to the Architect for review at least 14 days prior to the requested dates of execution. If the Owner requests the Architect to execute consents reasonably required to facilitate assignment to a lender, the Architect shall execute all such consents that are consistent with this Agreement, provided the proposed consent is submitted to the Architect for review at least 14 days prior to execution. The Architect shall not be required to execute certificates or consents that would require knowledge, services, or responsibilities beyond the scope of this Agreement.

§ 10.5 Nothing contained in this Agreement shall create a contractual relationship with, or a cause of action in favor of, a third party against either the Owner or Architect.

§ 10.6 Unless otherwise required in this Agreement, to the extent allowed by law, the Architect shall have no responsibility for the discovery, presence, handling, removal or disposal of, or exposure of persons to, hazardous materials or toxic substances in any form at the Project site.

§ 10.7 The Architect shall have the right, subject to obtaining Owner's prior written consent which shall not be unreasonably withheld, to include photographic or artistic representations of the design of the Project among the Architect's promotional and professional materials. The Architect shall coordinate with Owner to be given reasonable access to the completed Project to make such representations. However, the Architect's materials shall not include the Owner's confidential or proprietary information and prior to use, Architect shall obtain from Owner written confirmation that that specific information it intends to use is not considered by Owner to be confidential or proprietary. Architect may not use any information not so confirmed by Owner. The Owner may at its discretion provide professional credit for the Architect in the Owner's promotional materials for the Project. This Section 10.7 shall survive the termination of this Agreement unless the Owner terminates this Agreement for cause pursuant to Section 9.4.

§ 10.8 If the Architect or Owner receives information specifically designated as "confidential" or "business proprietary," the receiving party shall keep such information strictly confidential and shall not disclose it to any other person except as set forth in Section 10.8.1. This Section 10.8 shall survive the termination of this Agreement.

§ 10.8.1 The receiving party may disclose "confidential" or "business proprietary" information, when required by law, or court order, including a subpoena or other form of compulsory legal process issued by a court or governmental entity, or to the extent such information is reasonably necessary for the receiving party to defend itself in any dispute. The receiving party may also disclose such information to its employees, consultants, or contractors in order to perform services or work solely and exclusively for the Project, provided those employees, consultants and contractors are subject to the restrictions on the disclosure and use of such information as set forth in this Section 10.8.

§ 10.9 The invalidity of any provision of the Agreement shall not invalidate the Agreement or its remaining provisions. If it is determined that any provision of the Agreement violates any law, or is otherwise invalid or unenforceable, then that provision shall be revised to the extent necessary to make that provision legal and enforceable. In such case the Agreement shall be construed, to the fullest extent permitted by law, to give effect to the parties' intentions and purposes in executing the Agreement.

ARTICLE 12 SPECIAL TERMS AND CONDITIONS

Special terms and conditions that modify this Agreement are as follows:
(Include other terms and conditions applicable to this Agreement.)

§ 12.1 Additional Payment Terms

§ 12.1.1 **Requests for Payment.** On or before noon of the first Monday of each month during the performance of the services, Architect shall submit to Owner for its approval a request for payment ("Request for Payment") in form and substance satisfactory to Owner. Each Request for Payment shall set forth the amount due for Services rendered, a detailed breakdown of the amount and the sum of all prior payments. Owner shall review each such Request for Payment and may make such exceptions as Owner reasonably deems necessary or appropriate under the circumstances then existing. About five (5) working days after the Owner's governing body meets approving such payment, the Owner shall make payment to Architect in the amount so approved subject to Section 12.1.3 below.

§ 12.1.2 **Final Payment.** After final completion of the work and acceptance thereof by Owner, Architect shall submit a final request ("Final Request") which shall set forth all amounts due and remaining unpaid to Architect and upon approval thereof by Owner, Owner shall pay to Architect the amount due ("Final Payment") under such Final Request in accordance with the provisions of Section 12.1.1. The Final Request for Payment shall not be made until Architect delivers to Owner an affidavit that so far as Architect has knowledge or information all materials and services over which Architect has contracted have been paid.

§ 12.1.3 **Qualifications on Obligations to Pay.** Any provision hereof to the contrary notwithstanding, Owner shall not be obligated to make any payment (whether a payment under Section 12.1 hereof or Final Payment) to Architect hereunder if any one or more of the following conditions precedent exist:

- .1 Architect is in default of any of its obligations hereunder or otherwise is in default under this Agreement or any of the Contract Documents;
- .2 Any part of such payment is attributable to Services which are not performed in accordance with this Agreement; provided, however, such payment shall be made as to the part thereof attributable to Services which were performed in accordance with this Agreement;
- .3 Architect has failed to make payments promptly to consultants or other third parties used in connection with the Services for which Owner has made payment to Architect;

.4 If Owner, in Owner's good faith judgment, determines that the portion of the compensation then remaining unpaid will not be sufficient to complete the Services in accordance with this Agreement, no additional payments will be due Architect hereunder unless and until Architect, at Architect's sole cost, performs a sufficient portion of the Services so that such portion of the compensation then remaining unpaid is determined by Owner to be sufficient to so complete the Services.

§ 12.1.4 No partial payment made hereunder shall be or construed to be final acceptance or approval of that part of the Services to which such partial payment relates or relieves Architect of any of its obligations hereunder with respect thereto.

§ 12.1.5 Architect shall promptly pay all bills for labor and material performed and furnished by others under a contract with the architect in connection with the performance of the Services.

§ 12.1.6 **Waiver.** The making of the Final Payment shall constitute a waiver of all claims by the Owner except those arising from (1) faulty or defective Services appearing after completion of the Work, (2) failure of the Services to comply with the requirements of this Agreement or the Contract documents or (3) terms of any special warranties required by this Agreement or provided at law or in equity. The acceptance of Final Payment shall constitute a waiver of all claims by the Architect except those previously made in writing and identified by the Architect as unsettled at the time of the Final Request for Payment.

§ 12.1.7 In the event of a conflict between the provisions of this Section 12.1 and other provisions in this B133, the provisions of Section 12.1 shall control.

§ 12.2 OTHER CONDITIONS OR SERVICES

§ 12.2.1 Prior to the commencement of construction, Architect, to the extent required by the Standard of Care, shall certify in writing to Owner that the Drawings and Specifications and all drawings and applicable improvements are sufficient to build the Project and conform to all applicable governmental regulations, statutes and ordinances then in effect. Architect represents covenants and agrees that there are no obligations, commitments or impediments of any kind that will limit or prevent performance of the Services.

§ 12.2.2 [Deleted]

§ 12.2.3 [Deleted]

§ 12.2.4 [Deleted]

§ 12.2.5 [Deleted]

§ 12.2.6 **Indemnification.** To the fullest extent permitted by applicable law, the Architect and its agents, partners, and consultants (collectively "Indemnitors") shall and do agree to indemnify and hold harmless the Owner, Owner's respective Commissioners Court, elected officials, employees and agents (collectively "Indemnitees") from and against all claims, damages, losses, liens, causes of action, suits, judgments and expenses, including attorney fees, of any nature, kind or description (collectively "Liabilities") of any person or entity whomsoever arising out of, caused by or resulting from the performance of the Services or any part thereof provided that any such Liabilities (1) are attributable to bodily injury, personal injury, sickness, disease or death of any person, or to the injury to or destruction of tangible personal property including the loss of use and consequential damages resulting therefrom, and (2) are caused by any negligent act or omission of the Architect, anyone directly or indirectly employed by it or anyone for whose acts it may be legally liable. In this connection, it is agreed and understood that Architect shall not be responsible for any portion of the liability proximately caused by Owner's negligence or any other liability excluded by Texas Local Government Code Section 271.904.

The listing below defines the monthly anticipated adverse weather for the Contract period and is based on National Oceanic and Atmospheric Administration data for the geographical location of the Project:

Monthly Anticipated Adverse Weather Calendar Days												
Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Annual
2	2	1	2	3	4	3	3	5	3	2	2	32

.1 Determination. The above schedule of anticipated adverse weather will constitute the base line for monthly (or portion thereof) weather time evaluations. Upon acknowledgment of the notice to proceed and continuing throughout the Contract on a monthly basis, actual adverse weather days will be recorded on a calendar day basis (including weekends and holidays) and compared to the monthly anticipated adverse weather tabulated above. The term actual adverse weather days shall include days impacted by actual adverse weather days.

.2 The number of actual adverse weather days shall be calculated chronologically from the first to the last day in each month. Once the number of actual adverse weather days anticipated above have been incurred, the Owner will examine any subsequently occurring adverse weather days to determine whether the Construction Manager is entitled to a time extension. These subsequently occurring adverse weather days must prevent work for 50 percent or more of the Construction Manager’s work day and delay work critical to the timely completion of the Project. The Owner will convert any delays to meeting the above requirements to calendar days and issue a Change Order in accordance with the Contract Documents.

.3 The Construction Manager’s schedule must reflect the above anticipated adverse weather delays on all weather dependent activities.

§ 12.3 In the event of a conflict between the provisions of this Article 12, and other provisions in this AIA B101-2017, the provisions of Article 12 shall control.

However, the Architect shall not be required to make exhaustive or continuous on-site inspections to check the quality or quantity of the Work. On the basis of the site visits, the Architect shall keep the Owner reasonably informed about the progress and quality of the portion of the Work completed, and promptly report to the Owner (1) known deviations from the Contract Documents, (2) known deviations from the most recent construction schedule submitted by the Contractor, and (3) defects and deficiencies observed in the Work.

§ 3.6.2.2 The Architect has the authority to reject Work that does not conform to the Contract Documents. Whenever the Architect considers it necessary or advisable, the Architect shall have the authority to require inspection or testing of the Work in accordance with the provisions of the Contract Documents, whether or not the Work is fabricated, installed or completed. However, neither this authority of the Architect nor a decision made in good faith either to exercise or not to exercise such authority shall give rise to a duty or responsibility of the Architect to the Contractor, Subcontractors, suppliers, their agents or employees, or other persons or entities performing portions of the Work.

§ 3.6.2.3 The Architect shall interpret and decide matters concerning performance under, and requirements of, the Contract Documents on written request of either the Owner or Contractor. § 3.6.4.2 The Architect shall review and approve, or take other appropriate action upon, the Contractor's submittals such as Shop Drawings, Product Data and Samples, but only for the limited purpose of checking for conformance with information given and the design concept expressed in the Contract Documents. Review of such submittals is not for the purpose of determining the accuracy and completeness of other information such as dimensions, quantities, and installation or performance of equipment or systems, which are the Contractor's responsibility. The Architect's review shall not constitute approval of safety precautions or construction means, methods, techniques, sequences or procedures. The Architect's approval of a specific item shall not indicate approval of an assembly of which the item is a component.

§ 3.6.4.3 If the Contract Documents specifically require the Contractor to provide professional design services or certifications by a design professional related to systems, materials, or equipment, the Architect shall specify the appropriate performance and design criteria that such services must satisfy. The Architect shall review and take appropriate action on Shop Drawings and other submittals related to the Work designed or certified by the Contractor's design professional, provided the submittals bear such professional's seal and signature when submitted to the Architect. The Architect's review shall be for the limited purpose of checking for conformance with information given and the design concept expressed in the Contract Documents. The Architect shall be entitled to rely upon, and shall not be responsible for, the adequacy and accuracy of the services, certifications, and approvals performed or provided by such design professionals.

§ 3.6.4.4 Subject to Section 4.2, the Architect shall review and respond to requests for information about the Contract Documents. The Architect shall set forth, in the Contract Documents, the requirements for requests for information. Requests for information shall include, at a minimum, a detailed written statement that indicates the specific Drawings or Specifications in need of clarification and the nature of the clarification requested. The Architect's response to such requests shall be made in writing within any time limits agreed upon, or otherwise with reasonable promptness. If appropriate, the Architect shall prepare and issue supplemental Drawings and Specifications in response to the requests for information.

§ 3.6.4.5 The Architect shall maintain a record of submittals and copies of submittals supplied by the Contractor in accordance with the requirements of the Contract Documents.

§ 3.6.5 Changes in the Work

§ 3.6.5.1 The Architect may order minor changes in the Work that are consistent with the intent of the Contract Documents and do not involve an adjustment in the Contract Sum or an extension of the Contract Time. Subject to Section 4.2, the Architect shall prepare Change Orders and Construction Change Directives for the Owner's approval and execution in accordance with the Contract Documents.

§ 3.6.5.2 The Architect shall maintain records relative to changes in the Work.

§ 3.6.6 Project Completion

§ 3.6.6.1 The Architect shall:

- ~~1 — conduct inspections to determine the date or dates of Substantial Completion and the date of final completion;~~
- ~~2 — issue Certificates of Substantial Completion;~~
- ~~3 — forward to the Owner, for the Owner’s review and records, written warranties and related documents required by the Contract Documents and received from the Contractor; and,~~
- ~~4 — issue a final Certificate for Payment based upon a final inspection indicating that, to the best of the Architect’s knowledge, information, and belief, the Work complies with the requirements of the Contract Documents.~~

~~§ 3.6.6.2 The Architect’s inspections shall be conducted with the Owner to check conformance of the Work with the requirements of the Contract Documents and to verify the accuracy and completeness of the list submitted by the Contractor of Work to be completed or corrected.~~

~~§ 3.6.6.3 When Substantial Completion has been achieved, the Architect shall inform the Owner about the balance of the Contract Sum remaining to be paid the Contractor, including the amount to be retained from the Contract Sum, if any, for final completion or correction of the Work.~~

~~§ 3.6.6.4 The Architect shall forward to the Owner the following information received from the Contractor: (1) consent of surety or sureties, if any, to reduction in or partial release of retainage or the making of final payment; (2) affidavits, receipts, releases and waivers of liens, or bonds indemnifying the Owner against liens; and (3) any other documentation required of the Contractor under the Contract Documents.~~

§ 7.1 Drawings, specifications and other documents, including those in electronic form, prepared by the Architect and the Architect's consultants are Instruments of Service for use solely with respect of this Project. The Architect and the Owner warrant that in transmitting Instruments of Service, or any other information, the transmitting party is the copyright owner of such information or has permission from the copyright owner to transmit such information for its use on the Project.

§ 7.2 The Architect and the Architect's consultants shall be deemed the authors and owners of their respective Instruments of Service, including the Drawings and Specifications, and shall retain all common law, statutory and other reserved rights, including copyrights. Original drawings and specifications are the property of the Architect; however, the Project is the property of the Owner, and the Architect may not use the drawings and specifications therefore for any purpose not related to the Project without Owner's consent. Owner shall be furnished with such reproductions of drawings and specifications as Owner may reasonably require. Upon completion of the Work or any earlier termination of this Agreement, Architect will revise drawings to reflect changes made during construction and made known by the Contractor and will promptly furnish the Owner with one complete set of reproducible record prints. All such reproductions shall be property of the Owner who may use them without Architect's permission for any proper purpose related to the Project, including, but not limited to additions to or completion of the Project. Submission or distribution of Instruments of Service to meet official regulatory requirements or for similar purposes in connection with the Project is not to be construed as publication in derogation of the reserved rights of the Architect and the Architect's consultants.

§ 7.3 The Architect grants to the Owner a nonexclusive license to use the Architect's Instruments of Service solely and exclusively for purposes of constructing, using, maintaining, altering and adding to the Project, provided that the Owner substantially performs its obligations under this Agreement, including prompt payment of all sums due pursuant to Article 9 and Article 11. The Architect shall obtain similar nonexclusive licenses from the Architect's consultants consistent with this Agreement. If the Architect rightfully terminates this Agreement for cause as provided in Section 9.4, the license granted in this Section 7.3 shall terminate. If and upon the date the Architect is adjudged in default of this Agreement, the foregoing license shall be deemed terminated and replaced by a second, nonexclusive license permitting the Owner to authorize other similarly credentialed design professionals to reproduce and, where permitted by law, to make changes, corrections or additions to the Instruments of Service for purposes of completing, using and maintaining the Project.

§ 7.3.1 In the event the Owner uses the Instruments of Service without retaining the authors of the Instruments of Service, the Owner releases the Architect and Architect's consultant(s) from all claims and causes of action arising from such uses. The Owner, to the extent permitted by law, further agrees to indemnify and hold harmless the Architect and its consultants from all costs and expenses, including the cost of defense, related to claims and causes of action asserted by any third person or entity to the extent such costs and expenses arise from the Owner's use of the Instruments of Service under this Section 7.3.1. The terms of this Section 7.3.1 shall not apply if the Owner rightfully terminates this Agreement for cause under Section 9.4.

§ 7.3.1-[Deleted]

§ 7.4 Except for the licenses granted in this Article 7, no other license or right shall be deemed granted or implied under this Agreement. The Owner shall not assign, delegate, sublicense, pledge or otherwise transfer any license granted herein to another party without the prior written agreement of the Architect. Any unauthorized use of the Instruments of Service shall be at the Owner's sole risk and without liability to the Architect and the Architect's consultants.- [Deleted]

§ 12.1 Additional Payment Terms

§ 12.1.1 Requests for Payment. On or before noon of the first Monday of each month during the performance of the services, Architect shall submit to Owner for its approval a request for payment ("Request for Payment") in form and substance satisfactory to Owner. Each Request for Payment shall set forth the amount due for Services rendered, a detailed breakdown of the amount and the sum of all prior payments. Owner shall review each such Request for Payment and may make such exceptions as Owner reasonably deems necessary or appropriate under the circumstances then existing. About five (5) working days after the Owner's governing body meets approving such payment, the Owner shall make payment to Architect in the amount so approved subject to Section 12.1.3 below.

§ 12.1.2 Final Payment. After final completion of the work and acceptance thereof by Owner, Architect shall submit a final request ("Final Request") which shall set forth all amounts due and remaining unpaid to Architect and upon approval thereof by Owner, Owner shall pay to Architect the amount due ("Final Payment") under such Final Request in accordance with the provisions of Section 12.1.1. The Final Request for Payment shall not be made until Architect delivers to Owner an affidavit that so far as Architect has knowledge or information all materials and services over which Architect has contracted have been paid.

§ 12.1.3 Qualifications on Obligations to Pay. Any provision hereof to the contrary notwithstanding, Owner shall not be obligated to make any payment (whether a payment under Section 12.1 hereof or Final Payment) to Architect hereunder if any one or more of the following conditions precedent exist:

- .1 Architect is in default of any of its obligations hereunder or otherwise is in default under this Agreement or any of the Contract Documents;
- .2 Any part of such payment is attributable to Services which are not performed in accordance with this Agreement; provided, however, such payment shall be made as to the part thereof attributable to Services which were performed in accordance with this Agreement;
- .3 Architect has failed to make payments promptly to consultants or other third parties used in connection with the Services for which Owner has made payment to Architect;
- .4 If Owner, in Owner's good faith judgment, determines that the portion of the compensation then remaining unpaid will not be sufficient to complete the Services in accordance with this Agreement, no additional payments will be due Architect hereunder unless and until Architect, at Architect's

sole cost, performs a sufficient portion of the Services so that such portion of the compensation then remaining unpaid is determined by Owner to be sufficient to so complete the Services.

§ 12.1.4 No partial payment made hereunder shall be or construed to be final acceptance or approval of that part of the Services to which such partial payment relates or relieves Architect of any of its obligations hereunder with respect thereto.

§ 12.1.5 Architect shall promptly pay all bills for labor and material performed and furnished by others under a contract with the architect in connection with the performance of the Services.

§ 12.1.6 Waiver. The making of the Final Payment shall constitute a waiver of all claims by the Owner except those arising from (1) faulty or defective Services appearing after completion of the Work, (2) failure of the Services to comply with the requirements of this Agreement or the Contract documents or (3) terms of any special warranties required by this Agreement or provided at law or in equity. § 12.2.9 Time Extensions for Unusually Severe Weather. This provision specifies the procedures for the determination of time extensions for unusually severe weather. The listing below defines the monthly anticipated adverse weather for the Contract period and is based on National Oceanic and Atmospheric Administration data for the geographical location of the Project:

Monthly Anticipated Adverse Weather Calendar Days												
<u>Jan</u>	<u>Feb</u>	<u>Mar</u>	<u>Apr</u>	<u>May</u>	<u>Jun</u>	<u>Jul</u>	<u>Aug</u>	<u>Sep</u>	<u>Oct</u>	<u>Nov</u>	<u>Dec</u>	<u>Annual</u>
<u>2</u>	<u>2</u>	<u>1</u>	<u>2</u>	<u>3</u>	<u>4</u>	<u>3</u>	<u>3</u>	<u>5</u>	<u>3</u>	<u>2</u>	<u>2</u>	<u>32</u>

.1 Determination. The above schedule of anticipated adverse weather will constitute the base line for monthly (or portion thereof) weather time evaluations. Upon acknowledgment of the notice to proceed and continuing throughout the Contract on a monthly basis, actual adverse weather days will be recorded on a calendar day basis (including weekends and holidays) and compared to the monthly anticipated adverse weather tabulated above. The term actual adverse weather days shall include days impacted by actual adverse weather days.

.2 The number of actual adverse weather days shall be calculated chronologically from the first to the last day in each month. Once the number of actual adverse weather days anticipated above have been incurred, the Owner will examine any subsequently occurring adverse weather days to determine whether the Construction Manager is entitled to a time extension. These subsequently occurring adverse weather days must prevent work for 50 percent or more of the Construction Manager’s work day and delay work critical to the timely completion of the Project. The Owner will convert any delays to meeting the above requirements to calendar days and issue a Change Order in accordance with the Contract Documents.

.3 The Construction Manager’s schedule must reflect the above anticipated adverse weather delays on all weather dependent activities.

§ 12.3 In the event of a conflict between the provisions of this Article 12, and other provisions in this AIA B101-2017, the provisions of Article 12 shall control.
