Re: PRI Sole Source Letter

Dear Ignacio Amezcua,

In response to Hidalgo County's ("Customer") request for a Sole Source Letter, to the best of the signatory's actual knowledge, and as of the date of this Letter, Spectrum is not aware of any other facilities-based service provider that could meet the Customer's technical requirements, and provide the same level of service quality (whether in terms of service technology, performance, or support) as Spectrum has committed to provide, especially in light of the unique technical competence and technical expertise with which Spectrum provides the Services to Customer.

Please do not hesitate to reach out to me in the event you have any questions.

Sincerely,

DocuSigned by:

Nicholas J. Seelman
