Project Description:

The COVID-19 Pandemic has not only affected the populations worldwide due to the morbidity and mortality associated with COVID-19 but it has also acted as a physical, mental, and social contagion. Hidalgo County Precinct 1 residents, too, are faced with the same challenges as these disruptions have yet to be alleviated. The development of the Wellness, Activity, and Community Center (WACC), located at 1901 N. Bridge Ave., Weslaco, TX 78599 will aid in providing a safe space for all residents to actively participate in their health journey. This facility will be strategically located in a low to moderate income area. The recreation center will also provide learning, growing and developmental opportunities for residents to equip them with the proper instruments and support long-term health goals while fostering community engagement and cohesion. In addition, the center will offer a diverse range of programming tailored to individuals of all ages and abilities, including fitness classes, recreational activities, wellness workshops, and social events in collaboration with partners that include but are not limited to the Hidalgo County Health and Human Services, City of Weslaco, Hidalgo County Juvenile Justice Center and Weslaco ISD in response to the negative impacts of COVID-19. Personnel costs will also be included to ensure center implementation and operation.

Treasury included as an enumerated eligible use in disproportionately impacted communities projects to develop neighborhood features that promote improved health and safety outcomes, such as parks, green spaces, recreational facilities, sidewalks, pedestrian safety features like crosswalks, projects that increase access to healthy foods, streetlights, neighborhood cleanup,

and other projects to revitalize public spaces.¹ In the final rule, to further decrease administrative burden and enhance recipient flexibility, Treasury is allowing recipients to also presume that low-income households were disproportionately impacted. Treasury anticipates that adding low-income households as a presumed eligible population will maintain targeting of funds to populations and communities most likely to have experienced severe pandemic impacts, while providing a more flexible approach for recipients.²
