Hi Burlene,

Yes, per Tray's response the equipment purchased with the strategic expanding funding (NW) may be transferred/donated to your parent agency, Hidalgo County if they have an active FY25 DSHS or WIC contract. Your agency can then decide how to proceed with using the pumps. We will not be asking that they be returned.

Thank you for your response. I saw that you're out of the office; I'm okay with you responding next week.

Please forgive me for not explaining myself well. The question is ***IF*** we receive funding from our parent agency Hidalgo County to subsidize the cost of providing services for mothers not on the WIC program, can the equipment purchased with the strategic expanding funding (NW) be transferred/donated to our parent agency, Hidalgo County, thus continuing the loaner m/u breast pump program?

Thank you.
