Narrative Information

Introduction

The District Attorney Testing of Forensic Evidence Grant Program provides reimbursement to district attorney offices for costs associated with forensic analysis of physical evidence.

Certifications

In addition to the requirements found in existing statute, regulation, and the funding announcement, this program requires applicant organizations to certify compliance with the following:

Constitutional Compliance

Applicant assures that it will not engage in any activity that violates Constitutional law including profiling based upon race.

Cybersecurity Training Requirement

Local units of governments must comply with the Cybersecurity Training requirements described in Section 772.012 and Section 2054.5191 of the Texas Government Code. Local governments determined to not be in compliance with the cybersecurity requirements required by Section 2054.5191 of the Texas Government Code are ineligible for OOG grant funds until the second anniversary of the date the local government is determined ineligible. Government entities must annually certify their compliance with the training requirements using the [Cybersecurity Training Certification for State and Local Government](#). A copy of the Training Certification must be uploaded to your eGrants application. For more information or to access available training programs, visit the [Texas Department of Information Resources Statewide Cybersecurity Awareness Training](#) page.

Criminal History Reporting

Entities receiving funds from PSO must be located in a county that has an average of 90% or above on both adult and juvenile dispositions entered into the computerized criminal history database maintained by the Texas Department of Public Safety (DPS) as directed in the *Texas Code of Criminal Procedure, Chapter 66*. The disposition completeness percentage is defined as the percentage of arrest charges a county reports to DPS for which a disposition has been subsequently reported and entered into the computerized criminal history system.

Counties applying for grant awards from the Office of the Governor must commit that the county will report at least 90 percent of convictions within five business days to the Criminal Justice Information System at the Department of Public Safety.

Uniform Crime Reporting (UCR)

Eligible applicants operating a law enforcement agency must be current on reporting complete UCR data and the Texas specific reporting mandated by 411.042 TGC, to the Texas Department of Public Safety (DPS) for inclusion in the annual Crime in Texas (CIT) publication. To be considered eligible for funding, applicants must have submitted a full twelve months of accurate data to DPS for the most recent calendar year by the deadline(s) established by DPS. Due to the importance of timely reporting, applicants are required to submit complete and accurate UCR data, as well as the Texas-mandated reporting, on a no less than monthly basis and respond promptly to requests from DPS related to the data submitted.

Entities That Collect Sexual Assault/Sex Offense Evidence or Investigate/Prosecute Sexual Assault or Other Sex Offenses

In accordance with Texas Government Code, Section 420.034, any facility or entity that collects evidence for sexual assault or other sex offenses or investigates or prosecutes a sexual assault or other sex offense for which evidence has been collected, must participate in the statewide electronic tracking system developed and implemented by the Texas Department of Public Safety. Visit DPS's [Sexual Assault Evidence Tracking Program](#) website for more information or to set up an account to begin participating. Additionally, per Section 420.042 "A law enforcement agency that receives evidence of a sexual assault or other sex offense...shall submit that evidence to a public accredited crime laboratory for analysis no later than the 30th day after the date on which that evidence was received." A law enforcement agency in possession of a significant number of Sexual Assault Evidence Kits (SAEK) where the 30-day window has passed may be considered noncompliant.

Compliance with State and Federal Laws, Programs and Procedures

Local units of government, including cities, counties and other general purpose political subdivisions, as appropriate, and institutions of higher education that operate a law enforcement agency, must comply with all aspects of the programs and procedures utilized by the U.S. Department of Homeland Security ("DHS") to: (1) notify DHS of all information requested by DHS related to illegal aliens in Agency's custody; and (2) detain such illegal aliens in accordance with requests by DHS. Additionally, counties and municipalities may NOT have in effect, purport to have in effect, or make themselves subject to or bound by, any law, rule, policy, or practice (written or unwritten) that would: (1) require or authorize the public disclosure of federal law enforcement information in order to conceal, harbor, or shield from detection fugitives from justice or aliens illegally in the United States; or (2) impede federal officers from exercising authority under 8 U.S.C. § 1226(a), § 1226(c), § 1231(a), § 1357(a), § 1366(1), or § 1366(3). Lastly, eligible applicants must comply with all provisions, policies, and penalties found in Chapter 752, Subchapter C of the Texas Government Code.

Each local unit of government, and institution of higher education that operates a law enforcement agency, must download, complete and then upload into eGrants the CEO/Law Enforcement Certifications and Assurances Form certifying compliance with federal and state immigration enforcement requirements. Project Abstract :

This project will allow the Hidalgo County Criminal District Attorney's Office to fund independent forensic testing of evidence in pending felony criminal prosecutions. In doing so, the Hidalgo County Criminal District Attorney's Office will be able to expedite such cases for trial, resulting in shorter delays, reduced backlog at other forensic laboratories and will help bring closure to victims and their families.

Problem Statement :

Currently in Hidalgo County, there is a large number of felony criminal cases awaiting laboratory testing of evidence. The delay in being able to test such evidence results in cases taking several months, if not years, to get to court for trial, with defendants waiting in county jail (at taxpayer expense) in many cases. Additionally, the court system in Hidalgo County has experienced a significant backlog in obtaining dispositions on criminal cases over the past three years due to the COVID-pandemic. This project will assist in mitigating said backlog as the court system begins a return to normalcy.

Supporting Data :

Hidalgo County has 13 district courts (soon to be 14) that handle adult felony cases. Each of these courts have cases awaiting forensic testing of evidence. Some of these cases include continuous sexual assault of a child, adult sexual assault and murder. Defendants in many of these cases have been incarcerated in Hidalgo County awaiting trial for over a year.

Project Approach & Activities:

This project will allow the Hidalgo County Criminal District Attorney's Office to contract with non-government, non-State of Texas funded accredited forensic laboratories to test evidence for comparison, including, but not limited to, DNA, other biological evidence and ballistics. Evidence currently awaiting testing at Texas Department of Public Safety Laboratories would be transferred to contracted laboratories for expedited forensic analysis or sent directly if backlog is confirmed.

Capacity & Capabilities:

Felony trial prosecutors would ascertain pending felony criminal cases, giving priority to cases involving

incarcerated defendants and cases with long-delays. Then, working in conjunction with the investigative agencies and the Texas Department of Public Safety laboratories, evidence awaiting testing would be transferred to accredited laboratories who have signed contracts with the grantee for expedited forensic testing. Once the results of said testing are received, said evidentiary reports will be forwarded to counsel for defense in the respective cases. The felony cases will then advance to trial.

Performance Management :

Identifying success for this project will be measured by the reduction in time awaiting disposition of criminal cases. Many of the criminal prosecutions that will be subject to this grant have been awaiting forensic analysis for months. It is anticipated that by contracting with outside laboratories utilizing grant funds, lab results can be achieved on average in less than 30 days.

Target Group :

The services provided under this proposed project will be directed to pending felony criminal prosecutions and it is believed it will result in reduced delays in the Hidalgo County court system.

Evidence-Based Practices:

The forensic laboratories of the Texas Department of Public Safety are currently over-whelmed with pending requests for analysis of evidence, especially in the area of DNA-testing. In many instances, results of such testing is of a vital evidentiary nature, and many times those cases are the most serious felony cases prosecuted in Texas, (1st degree felonies i.e. sexual assault of a child, continuous sexual abuse, aggravated kidnapping, murder). Bringing such cases to trial allows the community to see justice at work and brings closure to victims, adult and child sexual assault, families and witnesses.
