Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios). If Subrecipient does not identify the workplaces at the time of application, or upon award, if there is no application, the Subrecipient must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the Subrecipient's drug-free workplace requirements.

This certification is a material representation of fact upon which reliance is placed when the Department awards the grant. If it is later determined that Subrecipient knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, Department, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.
