VERIFICATION OF EXISTING CONDITIONS

The scope of engineering services includes a field investigation to verify the condition of the existing "MEP" systems installation. We will visit the job site and perform an observation of the existing systems.

1. RO Engineering will attempt to accurately determine the existing conditions. However, because the systems are installed and may be concealed, we cannot be held accountable for omissions of items that were concealed or appeared to be installed and operating properly at the time of the observation.
2. During the construction, items may be uncovered by the contractors that were not apparent during our field observations. We will revise the documents as the situation warrants and the drawings will be reissued as a request for proposal.

EXCLUDED SERVICES

- 1. The scope of this proposal does not include any time for exterior building alterations.
- 2. We have not included time for preparation of as-built plans.
- 3. We have not included time for other items beyond this scope.

PROJECT AGREEMENT

- 1. If this project is delayed or abandoned for more than 90 days from the date of proposal, it is our option to renegotiate or terminate this agreement.
- 2. All billing shall be done in accordance with our standard office billing procedure with invoices delivered to your office on or about the first day of each month. We will invoice you for the percentage completed on the project, with payment due upon receipt of our invoice.
- 3. Should the construction of this project be abandoned or delayed, we will invoice you for the percentage of construction completed at that time. The invoices will be due and payable as stated above.

PROPOSAL APPROVAL

If this proposal meets your approval, please indicate your acceptance by the proper authorized signature in the space provided below and returning the signed original to our office. We will proceed with the work upon receipt of the executed proposal.
