*Custom 4G Unlimited MB Plan: 1) Data usage on this rate plan is not subject to speed reductions ("throttling") within a given billing cycle. However, in the event a user consumes more than 25GB each billing cycle for three (3) consecutive billing cycles, data throughput speeds will automatically be reduced for data usage exceeding 25GB per billing cycle on a go-forward basis. Data usage for actively engaged and deployed fire, police, emergency medical technicians, emergency management agency, and assigned federal law enforcement users on this plan will not be subject to speed reductions regardless of data usage during any billing cycle. To ensure users are able to maximize their high-speed data use for business applications, video applications will stream at 480p. This service plan includes Mobile Broadband Priority. Mobile Broadband Priority ensures customers can connect to the network with priority by leveraging a pool of radio resources dedicated to enable their connection. Mobile Broadband Priority identifies the user with an Access Priority setting, giving them higher priority for network access than lower Access Class users. This service plan is available to National Security, Public Safety, and Emergency Preparedness customers only as defined by the following NAICS (formerly SIC) Codes: 621910, 922110, 922120, 922130, 922140, 922150, 922160, 922190, 928110, 928120, 928150, 928130, 921160

Service Pricing provided is for Government Liability Accounts Only and is subject to the terms, provisions and conditions of the State of Texas Department of Information Resources (DIR) Contract No. DIR-TELE-CTSA-003 Coverage, service and offers not available in all areas.
