BRINC Drones

BRINC is an American developer of technology in the service of public safety. The company builds a connected ecosystem of tools designed to save lives. BRINC manufactures its products in the US, has co-located R&D and production, and is vertically integrated, controlling the entirety of its supply chain. Over 500 public safety agencies and 10%+ of the SWAT teams in the US use its products to de-escalate dangerous situations and safeguard human life. The company is backed by top investors including Sam Altman, Index Ventures, Dylan Field, Elad Gil, Patrick Shanahan, Julius Genachowski, Shyam Sankar, Alexandr Wang, Bradley Tusk and Jeff Weiner.
