Good afternoon Michelle,

Attached are three agreements related to participation in the Biobot Network, and we would appreciate your review.

Biobot Analytics offers the Biobot Network as a no-cost program through which participating organizations submit wastewater samples from a designated location for analysis. The testing includes monitoring for high-risk substances, illicit opioids, prescription opioids, substance use disorder treatments, and respiratory viruses.

Also attached is a copy of the questions included in the **Biobot Network opt-in form** that we would be required to complete, along with the associated agreements that must be accepted as part of participation.

Please review the attached documents and let us know if you identify any concerns or recommendations.

Thank you for your assistance.

Best regards,

**CLARISSA PEREZ, M.S.**
