The COUNTY, through the Health Administrator, may refuse to participate in a particular study at any time or halt data collection and participation at any time for any of these future studies.

The participation of COUNTY in this initiative shall consist of the following:

Informing the patient very briefly about the study, and requesting their authorization to have the SPH-8 outreach worker provide further details. Thereafter, SPH-B researchers will explain to the individual the study and

invite them to participate. If they voluntarily decide to do so, they will sign the informed consent and HIPAA forms approved by UT-SPH-8 Committee for the Protection of Human Subjects.

2. Provide SPH-8 researchers with retrospective and prospective data for analysis and publication on infectious disease trends in COUNTY.
3. Provide SPH-8 researchers with the relevant medical information on the Consenting Patient, after the patient has released the access to his information by signing the HIPAA form.
4. Specimen collection will be taken from the Consenting Patient based upon the nature of the disease. At a scheduled time and place between the Consenting Patient and the SPH-B researcher.

None of these studies will result in extra cost for the COUNTY. None will put the Consenting Patient at any unnecessary or undue risk.
