# Blue Buffalo Breaks Ground On New Manufacturing and R&D Facility in Richmond, Indiana

RICHMOND, Ind., Sept. 23, 2016 (GLOBE NEWSWIRE) -- Lt. Governor Eric Holcomb presided over today's ground breaking for Blue Buffalo Co.'s newest Heartland manufacturing and R&D facility to be located in Richmond, IN.

"We are proud to be expanding our U.S. pet food manufacturing and R&D capabilities here in Richmond, IN. Richmond and the surrounding communities have both the people and the "can do" attitude that it takes to help us meet the growing demand for our natural pet food products," said Bill Bishop, Chairman and Founder at Blue Buffalo.

"Job creators across the country continue to choose Indiana because of our low-costs, minimal regulations and highly-skilled Hoosier workforce," said Lt. Governor Holcomb. "Our business climate has earned national recognition as companies like Blue Buffalo are choosing to grow in Indiana; contributing to the nearly 150,000 new Hoosier jobs added since 2013. We're glad to have Blue Buffalo in Indiana and look forward to many years of continued success for our newest Hoosier company."

It is anticipated that the new Blue Buffalo facility will create approximately 165 jobs in Richmond. Heartland Richmond will produce dry food and become the second company-owned manufacturing facility for Blue Buffalo, with the first facility located in Joplin, Missouri.

Construction is planned to begin in the second half of this year (2016) with production of BLUE natural pet food expected to begin in 2018. Blue Buffalo will begin to hire for selected positions in the first half of 2017 and will continue throughout 2017.

The planned investment in Blue Buffalo's Indiana plant will be approximately 150 million dollars. The Indiana Economic Development Corporation offered Blue Buffalo up to \$1,625,000 in conditional tax credits based on the company's job creation plans. These incentives are performance-based, meaning until Hoosiers are hired, the company is not eligible to claim incentives. Wayne County and the city of Richmond have approved additional incentives at the request of the Economic Development Corporation of Wayne County, Indiana.

"Blue Buffalo is an excellent and well-established company and we are excited to welcome them to Richmond. This ground breaking isn't a finish line but a milestone of the success we will share in years to come. This is all thanks to a collaborative effort of the state and local economic development corporations, Wayne County, Centerville, and the Richmond City Team," concluded Richmond Mayor Dave Snow.

## About Blue Buffalo

Blue Buffalo, based in Wilton, CT, is the nation's leading natural pet food company, and provides natural foods and treats for dogs and cats under its BLUE Life Protection Formula, BLUE Wilderness, BLUE Basics, BLUE Freedom and BLUE Natural Veterinary Diet lines. Paying tribute to its founding mission, the Company, through the Blue Buffalo Foundation, is also a leading sponsor of pet cancer awareness and of critical studies of pet cancer, health, treatment and nutrition at top veterinary medical schools across the United States. **Fundraising Tips & Tools** – Partnering with businesses, organizations and individuals can provide fundraising opportunities and increase public awareness and “ownership.”

**A marketing campaign is absolutely essential to show our community that the dog park is a fun, positive place for dogs and people alike.**

Recommend the Parks & Recreation Board lead the way, in partnership with private canine-related groups, to encourage programming of all types, since the dog-owning constituents are as varied as the dogs are.

Examples could be:

- Separate scheduling and signage for obedience training
- Puppy socials (to help puppies learn to socialize, play, and have fun with other dogs)
- Dog Camps (educational program for young dog owners about care, feeding, exercise, training, and an assortment of activities, including learning and following rules and etiquette of dog parks. This teaches them to be sensible, caring, and responsible dog owners.)
- Agility Training – Where dogs and handlers guide their dogs to correctly and rapidly perform a series of procedures involving a variety of obstacles, such as jumps, tunnels, seesaws, and weave poles. A number of agility organizations throughout the country hold trials where do and handler teams compete and earn titles
- Fitness programs – Personal trainers conduct workouts for owners and their dogs to perform together. The owner focuses on building cardio endurance, strength, flexibility, and muscle tone, while the dog learns to heel during both walking and jogging. These programs improve the dog’s obedience as well as fitness for both the dog and owner. Agility training courses could be offered for novices, intermediates, and masters; with increased difficulty and complexity at each level.
- “Doga” or yoga with your dog. This is a fun way for owners to explore yoga, massage, and stretching and relaxation techniques with their dogs. The owner deepens their connection with their dog, learns to bring their dog to a greater level of calm and relaxation, and learns the basic principles of yoga, including benefits for both them and their dog.
- American Red Cross Pet First Aid. Offers a pet-oriented, hands-on course to provide pet owners with both the skills and confidence necessary to tend to emergencies until they can get to a veterinarian.
- Pet Photography – A course that enables owners to take better photos of their pets and to have fun doing it.
- Social events – Yappy hours, dog day afternoons, dog-themed movies, and even make-your-own-dog-toy classes are wonderful ways to encourage dog park usage. The could possibly be done in conjunction with the Huber Heights Library programs.

- Special events (one-time or short-term activities) – Such as Halloween costume contests for dogs or some other annual event. We could include a Paws on Parade in our 4<sup>th</sup> of July parade. We could do a “bone hunt” for dogs for Easter or Halloween. This would be a real bone-anza!
- Pet portraits offering dog portraits taken by a professional photographer.
- Dog birthday parties or showers for new additions to the family.
- Pet appreciation days or weekend.
- Blessings of the animals. Clergy members from a variety of places of worship bless each animal and often recite prayers for the pets. Since Francis of Assisi is known as the patron saint of animals and the environment, his teachings are celebrated as a main theme of the event. The program typically honors the contributions that animals make to our quality of life; pet owners are encouraged to realize and appreciate the positive connections have to our physical and emotional well-being.

**ESSENTIAL DOG PARK AMENITIES**

### DRINKING WATER

Drinking water for both dogs and humans is required inside the dog park. Dogs cannot cool themselves as efficiently as humans, therefore, they must have access to water and shade. It is recommended that more than one drinking water fountain, or a combination drinking fountain be provided in the park.

In providing drinking water bowls/fountains, it is important to consider:

- Adequate drainage around the water bowl to reduce water logging and mud
- Location of the water bowl away from the main entry gates to discourage dogs

congregating in high traffic areas • Suitable water bowls that are large enough for all dogs to use and easy to clean and maintain.

### SHADE

Shade should be provided so dogs can rest, cool themselves, and protect themselves against the weather. Trees as a natural source of shade are preferable, although they may need protection from urinating dogs until established.

Prefabricated shade structures are ideal for open areas, where ambient temperatures can be reduced 20-30 degrees.

### SEATING

Seating location and materials are an important consideration in the design stage. Some considerations include:

- Seating should be located away from entry/exit gates to avoid congestion
- Keep seating to a minimum, as people tend to sit down, socialize, and do less interacting with their dog. It is better to encourage dog owners to keep moving through the park, interacting and staying connected with their dog
- Seating should be positioned to provide unobstructed

views of the dog play areas

- Benches that surround trees are a good choice because they help protect the trees from dog urinating.

### **PET WASTE DISPOSAL**

Waste disposal Bag dispensers and waste bins should be considered at appropriate locations in and around the park for cleaning up after dogs. Provide waste bins of a sufficient size and number to accommodate the expected demand.

### **TRASH RECEPTACLES**

**PICNIC TABLES** are not recommended in the dog park area because it encourages owners to bring food. These facilities must be accommodated outside the dog park, at a good distance from the dog park entry gates.

### **SIGNAGE**

Signs should be located in areas of high visibility to clearly direct park users to the designated dog park. Information signs should be located within the park to prompt appropriate park user behaviour. Park rules should be located in high visibility areas en route to the park, but at a distance from the main entry gates to avoid congestion, but not too far as that will discourage people from walking over to read them. Park rules should be presented in a friendly, easy to read and positive manner with consideration given to users who may not have English as their first language.

Some key messages to include:

- Pick up after your dog
- Always supervise your dog
- Dogs must be under effective control at all times
- All dogs must have up-to-date vaccinations
- Report all dog attacks
- Close the gate properly
- Remove your dog if it annoys, intimidates or becomes aggressive towards other dogs
- All children entering the park must be actively supervised by an adult
- Park not suitable for puppies
- Number of dogs allowed per person

Clear simple messages using symbols on attractive signs will gain attention and engage dog owners.

**ESSENTIAL DOG PARK AMENITIES**

## PARK LAYOUT

Park layout is one of the most important elements in the design of a dog park as this can influence the interactions within the dog park. It influences how dogs interact with each other, with people and how people interact with each other.

## ACTIVITY ZONES

A variety of spaces or activity zones should be created within the dog park. • Activity spaces or zones offer dogs a range of opportunities including active running as well as quieter environments where they can sniff, play and interact with their owners, and play one-on-one with other dogs away from the high running areas.

• Activity zones also help in dispersing the dog and human traffic throughout the park, and the spread of wear and tear on the ground surfaces.

• Activity zones can be created by using earth mounding or vegetation to create visual barriers within the park to interrupt dogs from running towards each other and body slamming each other.

They also provide a natural refuge where dogs can get away for 'time out.' It is not recommended to have fenced areas within the dog park for 'time out' zones.

## CIRCULATION PATHS

Walking paths and/or trails within the park encourage dog owners to walk with their dogs rather than standing in one place. This helps reduce congestion and the concentration of dogs in one particular location and the potential for dogs to form into loose groups. Many older dogs are really not that interested in playing with other dogs but do love to run and explore. Paths that encourage owners and dogs to keep walking are best for enhancing the dog/owner relationship and preventing dog to dog conflict.

## DOG PARK SURFACING

Different materials have their own advantages and disadvantages and when selecting a surface material for an activity zone the intensity of use should be considered along with drainage, topography and maintenance requirements.

## GRASS

Grass has shown to be a poor surface for high running areas (active zones) in a dog park as it tends to deteriorate quickly, dust forms, and requires repair or replacement.

#### CONCRETE

Concrete may be appropriate for surfacing in the transition area, a high traffic area.

#### SYNTHETIC DOG PARK TURF

Both durable and hygienic, synthetic grass offers the best balance for durability, comfort, and appeal for high traffic areas. It's soft impact attenuation keeps dogs paws from getting abrasions. Pet urine filters through, to prevent standing water. It's easy to clean and maintain. The cost of the turf, can range from \$7/sf- \$11.00/sf, depending on the material and site work required.

#### OTHER MATERIALS:

- ENGINEERED WOOD FIBER
- GRAVEL
- EXPOSED DIRT

# Proposed Dog Park Rules

- ❗ Park users and dog owners assume all risk related to park use.
- ❗ Owners must remain with dogs and carry a leash in fenced area.
- ❗ Owners must scoop the poop.
- ❗ Immediate picking up the feces and using the plastic bags and garbage receptacles provided is required.
- ❗ Dogs must be licensed and have current vaccinations.
- ❗ Dogs must be removed at first sign of aggression
- ❗ Dogs must be wearing a collar with identification, a license and rabies certification.
- ❗ Puppies under four months are prohibited.
- ❗ Male dogs must be neutered.
- ❗ Female dogs in heat are prohibited.
- ❗ Dog handlers must be 18 years or older.
- ❗ Children under the age of 10 are not permitted in the fenced area unless accompanied by an adult and supervised carefully.
- ❗ Dogs must be leashed prior to entering and upon leaving the fenced area.
- ❗ Hole digging is prohibited.
- ❗ No pronged training collars or choke chains allowed.
- ❗ No animals other than dogs are permitted.
- ❗ Professional dog trainers or handlers are not permitted to conduct business or training in the Dog Park.
- ❗ No glass containers of any kind permitted.
- ❗ Never allow your dog to chase children or others.

- ❗ Depending upon the size of the park, 2-3 per side should be sufficient.

## Earth Month Campaign: April 2018

This April, NRPA, in collaboration with Disney, ESPN and ABC, will provide 16 communities with resources to improve local parks through projects that connect kids to nature, inspire kids and families to live healthier lifestyles, and increase access to sports for youth through the Meet Me at the Park Earth Month campaign.

Throughout the month of April, the general public will have the opportunity to vote for one of three projects in 15 select cities to receive \$20,000 in grant funding. Voters can also nominate a city or town anywhere across the country to be entered for the chance to receive a \$20,000 grant that will be used to support a local park within that community. The areas participating in Meet Me at the Park include one "wild card" city and:

Austin, TX

Brevard County, FL

Charlotte, NC

Chicago, IL

Durham, NC

Fresno, CA

Hartford, CT

Houston, TX

Los Angeles, CA

Miami, FL

New York, NY

Orlando, FL

Philadelphia, PA

San Francisco, CA

Seattle, WA

### You Can Get Involved in Two Ways

- **First**, you may vote for one of three park improvement projects in 15 designated cities to help determine which project will receive a grant.
- **Second**, if your city is not one of the 15, you may nominate your city anywhere across the United States. The city with the most nominations will receive a grant to support a park within that community.

You can vote daily, throughout the month of April, to help your community receive a \$20,000 grant. Plus, for each vote you cast, you are entered to win a GoPro Prize Pack to use while exploring your park! The city with the most nominations and park project with the most votes will be contacted by NRPA by May 9th. No purchase necessary; must be 18+. Visit [www.nrpa.org/DisneyMeetMeAtThePark](http://www.nrpa.org/DisneyMeetMeAtThePark) for official rules.

[Vote Now](#)

Now get outside to your favorite park and take a "parkie" (park selfie) and share it on social media to encourage others to vote for parks in their community! #Parkies #MeetMeAtThePark #CelebrateEarth.

Materials and resources provided in a [marketing toolkit](#) can be used to spread the word about the Earth Month campaign. Download a flyer that can be customized to encourage people to nominate your city.

Check out last year's winners that were selected thanks to your votes, and see the impacts that were made.

Please email [EarthMonth@nrpa.org](mailto:EarthMonth@nrpa.org), with questions about the Meet Me at the Park Earth Month Campaign.

### Inclusive Play Space Grants: March 2018

Through *Meet Me at the Park*, NRPA in collaboration with The Walt Disney Company understand the need to improve access to outdoor play. Thanks to a grant from Disney, NRPA is excited to continue the *Meet Me at the Park* program in 2018 and provide additional communities with increased access to inclusive play spaces in local parks for children and families. As part of this program, park and recreation agencies in **all 50 states, the District of Columbia and U.S. Territories** are invited to share their best ideas on increasing access to inclusive play spaces for children and families in underserved communities. Agencies with the most innovative, scalable and impactful project ideas will receive grants to build their projects.

## Dog Parks in the U.S.

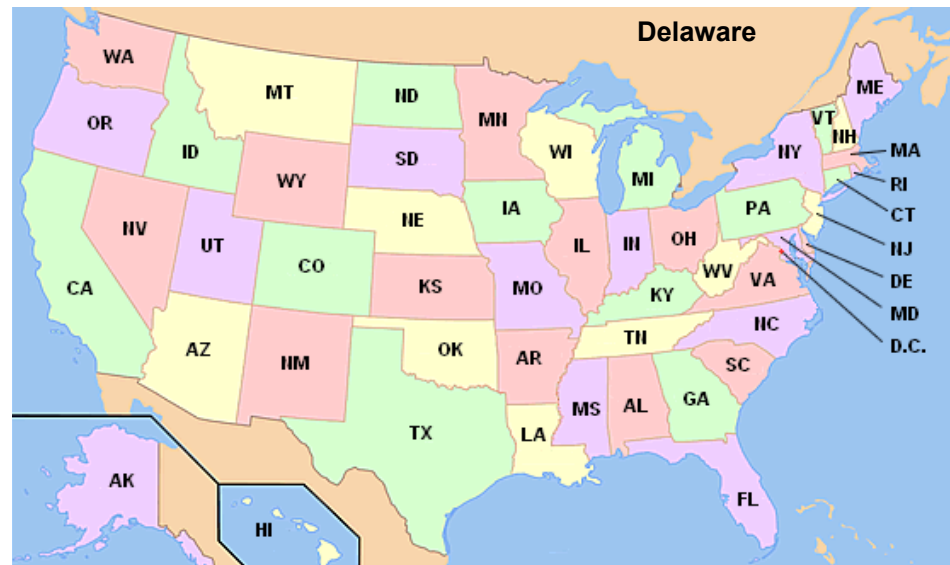

### Find dog parks and dog off-leash areas in the U.S.

Dog parks can be a great place for dogs to exercise off-leash and socialize with other dogs. However, unruly dogs and owners who don't supervise their pets can cause problems at the dog park. Please remember to abide by the rules of the dog park and always practice proper dog park etiquette.

### Ten Tips For Keeping Your Dog Safe at the Dog Park

1. Know each dog park's rules, and follow them.
3. Never leave your dog unattended, even in an off-leash dog park, and maintain voice control over your dog at all times.
4. Know your dog's play style and what the warning signs are that your dog may be getting over-stimulated and may be in danger of crossing the line into aggression. Respond promptly to aggressive behavior. Deciding what constitutes aggressive behavior is sometimes a matter of judgment. It's important to know your dog and to know what is normal and safe for your dog.
5. Don't bring toys or treats that dogs could fight over to the dog park.
6. If you have to break up a dog fight: grab the dogs from the BACK-grab either the tail or the hind legs. If a dog is involved in a fight, you should not grab the collar or put your hands anywhere near the dog's head. A dog that is fighting is in a state of frenzy and is not aware of what it is doing. It may reflexively lash out and bite at anything that comes near its head. The safest approach is to grab the dog's tail. If the dog has no tail, grab the hind legs. Both owners should grab their dogs and pull them away from each other at the same time. Then each dog should be leashed and IMMEDIATELY removed from the park.
7. Keep your dog's vaccinations, especially rabies, up-to-date.
8. Never bring a female dog in heat to a dog park.
9. Bring water for your dog -- not all dog parks have a water source.
10. ALWAYS clean up after your dog. Bring clean-up bags with you to the dog park.

## Off-Leash Dog Recreation Area

The facility consists of two separate and secure areas. There is a small area, .38 acres, for smaller and less active dogs and a larger area, 1.68 acres, for larger and more active dogs. Both areas are surrounded by six-foot chain-link fencing with access through a double gated entrance for a more secure setting. There is water available, benches, dog waste baggies, a trash can, plenty of shade and if the need arises; there is a fire hydrant for those dogs that just have to have one.

Scott,

Can you use the GIS map to tell us how large the Webster St. Dog Park is?

We are leaning toward making the proposed Menlo Park Dog Park three acres with two areas for large dog (one to be used when the other is recovering) and one small dog area.

Once we determine how many gates are required, including those needed for maintenance , and a transition area, we will be asking you to provide us an estimate for black powdered fencing. You might want to see if Mike has any suggestions for the gates. We won't be meeting again until April 19.

**Subject:** RE: Question from the Dog Park Committee

Ok, I can get it pretty close. There are 3 fenced in areas that I can tell. The smallest is 0.2 acres and the larger area at the bottom of the hill is 1 acre. The largest area that goes up the hill is about 5.3 acres.

Hope this helps.
