

# Notice of Meeting

## ORDINANCE REVIEW COMMISSION

Wednesday, September 15, 2021

*at or about 6:30 p.m. at City Hall – Council  
Chambers – 6131 Taylorsville Road*

**The Huber Heights Ordinance  
Review Commission  
has scheduled a  
Regular Meeting.**

The meeting will also be viewable by the public on live stream available at  
[www.hhoh.org](http://www.hhoh.org)

Distributed – August 25, 2021

**For more information, visit [www.hhoh.org](http://www.hhoh.org)**

**CITY OF HUBER HEIGHTS  
STATE OF OHIO  
Ordinance Review Commission**

**September 15, 2021**

**6:30 P.M.**

**City Hall – 6131 Taylorsville Road – Council Chambers**

1. **Call Meeting To Order/Roll Call**
  
2. **Approval of Minutes**
  - A. August 18, 2021
  
3. **Topics of Discussion**
  - A. Legislation Worksheets Review
  
  - B. City Ordinance/Resolution Logs - Review
  
  - C. Administrative/Process Issues
  
4. **Adjournment**

**CITY OF HUBER HEIGHTS  
STATE OF OHIO**

**Ordinance Review Commission Meeting Minutes**

**Name of Body:** Ordinance Review Commission  
**Date:** September 15, 2021  
**Time:** 6:30 P.M.  
**Place:** City Hall – Council Chambers – 6131 Taylorsville Road

**Members Present:**

Jim Ellis  
Joseph Hendrix  
Brian Kitchen  
Joseph Fannin  
Glenn Otto  
Don Webb

**Guests Present:**

City Staff Present: Karen Powell

Guests Present: None

**1. Call The Meeting To Order/Roll Call**

Chair Jim Ellis convened the Ordinance Review Commission meeting at 6:30 P.M.

Karen Powell took Roll Call.

Jim Ellis said he received an email from Jerry Wamsley and he is unable to attend the meeting this evening.

**2. Approval Of Minutes**

The following minutes were approved unanimously at the beginning of this meeting:

- August 18, 2021

**3. Topics of Discussion:**

- Legislation Worksheets Review

- City Ordinance/Resolution Logs – Review
- Administrative/Process Issues

### Legislation Worksheets Review

Karen Powell distributed information regarding the Legislation Worksheets Review (see attached). He also distributed City Staff responses and feedback from Gerald McDonald, Scott Falkowski, Russ Bergman, and Keith Knisley (see attached).

Jim Ellis said there are just a few items left open for discussion. He said the first sections are Section 920.07 – Appeals and Section 921.04.10 – Appeals which deals with an inconsistency in the appeals procedures. He said everyone should have received a recommendation from Gerald McDonald as to the language he was suggesting for Section 920.07 and Section 921.04.10 which clarifies the issue of who can make an appeal. He asked the commission members if there were any issues with the changes Gerald McDonald is proposing.

After discussion, the commission agreed with the recommendation for the suggested revisions proposed by Gerald McDonald to Section 920.07 and Section 921.04.10.

Jim Ellis said Section 1185.02 – Off Street Parking Standards dealt with the term “hard surface driveway” and other similar terms. He referred to the email from Gerald McDonald whose comment was that he recommends a thorough review of Section 1185.02 by City Staff to make sure that the terms throughout the City Code are consistent. He said Gerald McDonald is recommending this item go back to City Staff for further review.

Karen Powell said Scott Falkowski had a recommendation that the simple definition can be – “Hard surface – pavement that shall consist of continuous concrete, asphalt, stone or brick pavers.”

Jim Ellis said he is okay with Scott Falkowski’s suggestion as long as it is consistent throughout the City Code. He said City Staff needs to pick a definition and stick with it. He said he is good with whatever definitions as long as the definitions are consistent throughout.

After discussion, the commission agreed with the recommendation for the suggested revisions proposed by Scott Falkowski to Section 1185.02.

Jim Ellis said Section 1189.09(1) – Signs For Property Offered For Sale Or Rent deals with the time limitation for the real estate signs. He said Gerald McDonald’s recommendation was to not make any changes to the Sign Code at this time. He said the Law Director does not elaborate as to why or why not.

Glenn Otto said he thought this item was one of the items that the commission was going to push to the City Council to make a call on.

Jim Ellis read a portion of the minutes that stated, “After lengthy discussion, the commission recommended this item regarding Section 1189.09(1) go back to the Law Director and City

Staff for further review and clarification.” He said this item needs to be sent back because the commission was pretty clear in the concerns and questions it had. He said this section needs to be addressed before putting this section to bed.

After discussion, the commission recommended sending back Section 1189.09(1) to City Staff and the Law Director again for further review.

Jim Ellis said in Section 1313.05 – Maintenance Of Accessory Structures, the terms “accessory structure” and “accessory building” are being used in different ways. He said Gerald McDonald recommended the term “accessory structure” should be used throughout the City Code. He said Scott Falkowski’s response is that City Staff recommends just using “accessory structure” and removing the terms “accessory building” and “storage shed” from the City Code.

After discussion, the commission agreed with the recommendation for the suggested revisions to Section 1313.05.

Jim Ellis said in Section 1517.06 – Notice Of Violation there were questions about the administrative appeal process and who received the notice of the violation. He said his concern was the way it is written; the notice of violation could be sent to a tenant and the owner never know it. He said he had recommended the word “or” be changed to “and”. He said Gerald McDonald recommended some changed language, “In the event service is to the occupant or other person responsible for the conditions under violation, notice shall also be sent to the owner.” He said, similarly in Section 1517.08 – Stop Work And Remedial Orders and Section 1517.09 – Right Of Appeal, again his concern was the stop work order could be given to someone other than the owner and he feels the owner should be notified something is going on with his or her property. He said Gerald McDonald proposed a change to read, “The stop work order shall be in writing and shall be given to the owner of the property involved, or to the owner's agent, and to the person doing the work.” He said he is okay with that revision.

Karen Powell said Gerald McDonald forwarded Fire Chief Keith Knisley’s comments to Anthony Rodgers. She read Fire Chief Knisley’s comment that stated, “the language we currently use is very similar to the Ohio Administrative Code (3737.01). The OAC defines the Responsible Person as the person responsible for compliance with the state fire code, including but not limited to the owner, lessee, agent, operator, or occupant of a building, premises, or vehicle.” She said his email goes on with the definition of a responsible person and the Fire Code. She read his email further, “There are many times that a violation clearly is the responsibility of the occupant and not the owner, for instance, an egress door blocked by storage would be an occupant violation and not necessarily the owner. Having to make positive contact with the owner can be problematic especially with out of state owners. I would prefer to leave the language for these the same. Understanding that they resemble the OAC/Fire Code and have been in place since 1982, I believe there would be no harm in leaving them.” She said in Section 1519.09, Fire Chief Knisley’s comment to Gerald McDonald was, “Your substitution would be acceptable, however based on the Ohio Fire Code Section 108, I would believe that any appeal would be limited to the instances where the Huber Heights Code is more restrictive than the State of Ohio Fire Code (very few areas is this the case).” She said in Gerald McDonald’s email to Anthony Rodgers regarding this matter, he said, “There is not a conflict between my recommendation and his, as I fully defer to his expertise and experience. While my

proposed language makes sense to me as an easy “fix” it is apparently a fix for something that is not a problem. Let’s go ahead with the change to “aggrieved party” in Section 1517.09 as that is not really a substantive issue and is more of a change for clarification.”

Glenn Otto said the commission’s concern was the commission members wanted to ensure the owner and the party be notified.

Jim Ellis said his concern is the owner should always be notified in any circumstance. He said it is ultimately the owner’s property.

Don Webb said in Fire Chief Knisley’s response, he references a specific instance that they will cite the resident or tenant for a blocked egress door and would not necessarily involve the owner. He said Fire Chief Knisley did recommend nothing be changed as he felt it was sufficient.

Jim Ellis said he is okay with that if that is what the recommendation is; but if he owned a property and had a tenant that was committing violations of the Fire Code, he would want to know it and the only way he would know is if he received a copy of the violation as well. He said if City Staff is okay with the way it is working, he will defer to them as they have to live with it.

Karen Powell said Fire Chief Knisley wrote in his email “Talking with Regina Susong, our Fire Prevention Manager, she even acknowledges that we currently notify the occupant of the violation and after a few tries we then send a certified letter to both the occupant and owner.”

Glenn Otto said on the flip side, the owner could notify the tenant who would be able to correct the problem.

Jim Ellis asked if there is a problem and the tenant does not do anything about it and the tenant does not file an appeal and there is a time limit, if the owner is not made aware of it, who gets penalized? He asked if a citation will be issued to the tenant or owner?

Don Webb said it would not be fair for an owner to receive a citation after a period of no notification to the owner and only to the tenant.

Jim Ellis said if the tenant gets cited, he is okay with the way it is written. He said if it is the owner who ends up having to pay a fine, then there is a problem with this provision.

After lengthy discussion, the commission agreed with the recommendation for the suggested revisions to Section 1517.09. The commission also recommended sending back Section 1517.06 and Section 1517.08 to City Staff and the Law Director again for further review with the concern in mind that if the tenant is the violator, who gets cited?

Glenn Otto said he would like to go back to Section 509.08 – Disturbing The Peace based on a conversation at Monday’s City Council Meeting concerning the noise ordinance and disturbance of the peace. He said this commission had a City Staff recommendation to extend the time frame from Monday through Friday and include Saturday. He said Don Webb had brought up a

resident that has been complaining of early construction on Saturdays when construction currently is not allowed without the approval of the City Engineer. He said he does not want to open Pandora's box and allow that situation to continue. He said the commission should re-look at the times and revisit the thought of Saturdays. He said City Staff recommended pushing Saturdays into that time frame, but if it is causing big issues, it may be something to rethink.

Don Webb said to take the part of the resident who spoke at the meeting, envision going out on your patio on a summer Saturday morning, and at 7:00 A.M. you have cement trucks, backhoes, and roofers pounding away at 7:00 A.M. He said the City wants to facilitate development, but where this resident lives it has been continual development for over a year. He said at first glance, the commission read that proposed change and it made sense, but once you delve into it, you realize it is a major inconvenience. He said as it is now, it is an exception that the City Engineer can grant for a temporary period, but he is not sure it is the right step for the commission to recommend a change to the current City Code in Section 509.08.

Glenn Otto confirmed the noise ordinance is from 7:00 A.M. to 10:00 P.M. Monday through Friday, but he said sometimes contractors start as early as 6:00 A.M.

Don Webb said Saturdays are an exemption that the City Engineer can grant. He said, not to speak bad of developers, but this is a case where the City has given them an inch and they take a mile. He said because it is a Saturday, there are no City Staff to enforce it. He said he no longer agrees with the permanent modification for Saturdays to Section 509.08.

Glenn Otto said he would like City Staff to take a look at Section 509.08 and figure out a way to absolutely enforce a 7:00 A.M. start time or consider changing it to something more appropriate for a residential setting.

Karen Powell said she had a quick conversation with the City Engineer, and he said if contractors are starting before the approved times on Saturdays, he can repeal the approval and he has told the contractors that information.

Don Webb said the approval should have been pulled by now. He said he has an email string going back seven months and each one has been forwarded to the City Manager and he assumes from the City Manager to the City Engineer. He said this provision is unenforceable on Saturdays. He said the situation now is the City Engineer has the availability of granting an exception which he thought was for a period of three days during an emergency, but this exception has continued for months.

Jim Ellis asked if there is a problem with the ordinance or the enforcement?

Glenn Otto said it is a problem with enforcement because the ordinance has not been changed yet. He said regarding police response, the police officers can simply be directed that there is no work on the weekends, so there is no argument or looking at the ordinances.

Jim Ellis said the recommendation the commission originally made to add Saturdays to Section 509.08 should be pulled back and City Staff need to look further to see if there is a way to tighten up the enforcement of that section.

Don Webb said if this issue were to come back before the City Council to be discussed, he would be happy to entertain the reasoning behind a blanket Saturday allowance from City Staff.

After lengthy discussion, the commission recommended sending Section 509.08 back to City Staff to look at further and to rescind the recommendation the commission made previously to accept the City Engineer's proposed changes to Section 509.08 regarding Saturdays.

#### City Ordinance/Resolution Logs – Review

Karen Powell distributed information regarding the City Ordinance/Resolution Logs (see attached).

Jim Ellis said the logs are a list of all the ordinances and resolutions adopted by the City. He said Anthony Rodgers had suggested the members review and raise any issues with items in the logs. He said as of yesterday, Anthony Rodgers had not received any questions or comments from commission members regarding the logs.

#### Administrative/Process Issues

Jim Ellis said the commission has one more meeting on October 20, 2021. He said at that meeting, the commission will look at the few items that are still open and work on the final report to the City Council from the Ordinance Review Commission that will include all of the recommendations made up to this point in time.

#### 4. **Adjournment:**

Chair Jim Ellis adjourned the Ordinance Review Commission meeting at 7:05 P.M.

Russ, in reviewing the Ordinance Review Commission notes from Tony it appears that you and I need are to review Section 920.07 and 921.04.10 for consistency in process and for appeals. Evidently, we separately proposed conflicting recommendations. Here is what I know:

Section 920.07 (the Utility Structures Chapter) provides: "The City Engineer's decision to deny a Permit may be appealed to the City Manager. All appeals on a denial of a Permit must be made in writing within ten calendar days from the date of the action being appealed. If the City Engineer issues a denial of a Permit, the City Engineer shall notify the applicant in writing of the denial, suspension or revocation, including the grounds therefor, within three business days of such decision. If a notice of appeal is timely received by the City Manager, the City Manager shall notify the respondent within three business days of the receipt of the request for appeal of a hearing date to be within 21 days. The respondent may appear and be heard in person, or by his/her attorney, in opposition to the decision and do any of the following: (a)Present his/her positions, arguments and contentions;(b)Offer and examine witnesses and present evidence in support;(c)Cross-examine witnesses purporting to refute respondent's position, arguments and contentions;(d)Offer evidence to refute evidence and testimony offered in opposition to his/her position, arguments and contentions; and(e)Offer any such evidence into the record. The City Manager shall render a decision within five business days after the hearing."

Evidently you recommended to change the first line in this section from "to deny a permit" to "deny, suspend, or revoke a permit" and in the second sentence change "all appeals on denial of the permit" to "all appeals must be made in writing" to allow for appeals of suspensions or revocations in addition to denials. I on the other hand said the phrase "suspension or revocation" should be deleted as there is no provision in the chapter regarding these processes, only denials, so it should read "The City Engineer's decision to deny a permit may be appealed to the City Manager. All appeals on a denial of a permit must be made in writing within ten calendar days..." It appears in my memo to the ORC in regarding this section I said, "I like the City Engineer's language; however, it only makes sense if we have provisions that permit revocation or suspension, which we do not. If we add those provisions, we would also need to add provisions regarding a hearing prior to revocation or suspension."

If you don't object I propose that 920.07 be rewritten as follows:

Section 920.07 -Denial/Revocation; Appeal

- a. The following are grounds for revocation or denial of a permit:
- (1)The intentional provision of materially misleading information by the applicant (the provision of information is considered "intentional" where the applicant was aware of the inaccuracies or could have discovered the inaccuracies with reasonable diligence);
  - (2)The failure to comply with any condition of approval, order, or other applicable law, rule, or regulation;
  - (3)The utility structure as proposed or installed is otherwise not in compliance with the provisions of this Chapter
  - (4)The subject site or use is otherwise not in compliance due to incomplete work or projects, or is not in compliance due to unperformed or slow to perform work as part of an open permit.
- b. The City Engineer's decision to deny or revoke a Permit may be appealed to the City Manager. All appeals must be in writing and submitted within ten (10) calendar days from the date of the action being appealed. If the City Engineer issues a denial or revocation of a Permit, the City Engineer shall notify the applicant in writing including the grounds therefor, within three (3) business days of such decision. If a notice of appeal is timely received by the City Manager, the City Manager shall notify the respondent within three (3) business days of the receipt of the request for appeal of a hearing date to be within twenty-one (21) days.
- c. At any properly scheduled appeal, the respondent may appear and be heard in person, or by his/her attorney, in opposition to the decision and do any of the following:
- (1)Present his/her positions, arguments and contentions;
  - (2)Offer and examine witnesses and present evidence in support;
  - (3)Cross-examine witnesses purporting to refute respondent's position, arguments and contentions;
  - (4)Offer evidence to refute evidence and testimony offered in opposition to his/her position, arguments and contentions; and
  - (5)Offer any such evidence into the record.
- The City Manager shall render a decision within five business days after the hearing.

The issue is the same with 921.04.10 which I proposed be amended simply to take out the language regarding "suspension" and make it clear the appeal applies to denial and revocations. I would rewrite 921.04.10 to provide:

#### 921.04.10 Appeals.

The City Engineer's decision to deny or revoke a Permit may be appealed to the City Manager. All appeals on a denial of a Permit must be made in writing within ten (10) calendar days from the date of the action being appealed. If the City Engineer issues a denial or revocation of a Permit, the City Engineer shall notify the applicant in writing including the grounds therefor, within three business (3) days of such decision. If a notice of appeal is timely received by the City Manager, the City Manager shall notify the respondent within three (3) business days of the receipt of the request for appeal of a hearing date to be within twenty-one (21) days. The respondent may appear and be heard in person, or by his/her attorney, in opposition to the decision and do any of the following:

- (1)Present his/her positions, arguments and contentions;

- (2) Offer and examine witnesses and present evidence in support;
- (3) Cross-examine witnesses purporting to refute respondent's position, arguments and contentions;
- (4) Offer evidence to refute evidence and testimony offered in opposition to his/her position, arguments and contentions; and
- (5) Offer any such evidence into the record.

The City Manager shall render a decision within five business days after the hearing.

**CAUTION EXTERNAL EMAIL:** This message originated from a non Huber Heights email server. DO NOT CLICK ANY LINKS or OPEN ANY ATTACHMENTS unless you have contacted the sender to verify its legitimacy or confirmed you were expecting it. Contact the IT Department if you need assistance.

Russ, in reviewing the Ordinance Review Commission notes from Tony it appears that you and I need are to review Section 920.07 and 921.04.10 for consistency in process and for appeals. Evidently, we separately proposed conflicting recommendations. Here is what I know:

Section 920.07 (the Utility Structures Chapter) provides: "The City Engineer's decision to deny a Permit may be appealed to the City Manager. All appeals on a denial of a Permit must be made in writing within ten calendar days from the date of the action being appealed. If the City Engineer issues a denial of a Permit, the City Engineer shall notify the applicant in writing of the denial, suspension or revocation, including the grounds therefor, within three business days of such decision. If a notice of appeal is timely received by the City Manager, the City Manager shall notify the respondent within three business days of the receipt of the request for appeal of a hearing date to be within 21 days. The respondent may appear and be heard in person, or by his/her attorney, in opposition to the decision and do any of the following: (a) Present his/her positions, arguments and contentions; (b) Offer and examine witnesses and present evidence in support; (c) Cross-examine witnesses purporting to refute respondent's position, arguments and contentions; (d) Offer evidence to refute evidence and testimony offered in opposition to his/her position, arguments and contentions; and (e) Offer any such evidence into the record. The City Manager shall render a decision within five business days after the hearing."

Evidently you recommended to change the first line in this section from "to deny a permit" to "deny, suspend, or revoke a permit" and in the second sentence change "all appeals on denial of the permit" to "all appeals must be made in writing" to allow for appeals of suspensions or

revocations in addition to denials. I on the other hand said the phrase "suspension or revocation" should be deleted as there is no provision in the chapter regarding these processes, only denials, so it should read "The City Engineer's decision to deny a permit may be appealed to the City Manager. All appeals on a denial of a permit must be made in writing within ten calendar days..." It appears in my memo to the ORC in regarding this section I said, "I like the City Engineer's language; however, it only makes sense if we have provisions that permit revocation or suspension, which we do not. If we add those provisions, we would also need to add provisions regarding a hearing prior to revocation or suspension."

If you don't object I propose that 920.07 be rewritten as follows:

#### Section 920.07 -Denial/Revocation; Appeal

- (a) The following are grounds for revocation or denial of a permit:
- (1)The intentional provision of materially misleading information by the applicant (the provision of information is considered "intentional" where the applicant was aware of the inaccuracies or could have discovered the inaccuracies with reasonable diligence);
  - (2)The failure to comply with any condition of approval, order, or other applicable law, rule, or regulation;
  - (3)The utility structure as proposed or installed is otherwise not in compliance with the provisions of this Chapter
  - (4)The subject site or use is otherwise not in compliance due to incomplete work or projects, or is not in compliance due to unperformed or slow to perform work as part of an open permit.
- (b) The City Engineer's decision to deny or revoke a Permit may be appealed to the City Manager. All appeals must be in writing and submitted within ten (10) calendar days from the date of the action being appealed. If the City Engineer issues a denial or revocation of a Permit, the City Engineer shall notify the applicant in writing including the grounds therefor, within three (3) business days of such decision. If a notice of appeal is timely received by the City Manager, the City Manager shall notify the respondent within three (3) business days of the receipt of the request for appeal of a hearing date to be within twenty-one (21) days.
- (c) At any properly scheduled appeal, the respondent may appear and be heard in person, or by his/her attorney, in opposition to the decision and do any of the following:
- (1)Present his/her positions, arguments and contentions;
  - (2)Offer and examine witnesses and present evidence in support;
  - (3)Cross-examine witnesses purporting to refute respondent's position, arguments and contentions;
  - (4)Offer evidence to refute evidence and testimony offered in opposition to his/her position, arguments and contentions; and
  - (5)Offer any such evidence into the record.
- The City Manager shall render a decision within five business days after the hearing.

The issue is the same with 921.04.10 which I proposed be amended simply to take out the language regarding "suspension" and make it clear the appeal applies to denial and revocations. I would rewrite 921.04.10 to provide:

#### 921.04.10 Appeals.

The City Engineer's decision to deny or revoke a Permit may be appealed to the City Manager. All appeals on a denial of a Permit must be made in writing within ten (10) calendar days from the date of the action being appealed. If the City Engineer issues a denial or revocation of a Permit, the City Engineer shall notify the applicant in writing including the grounds therefor, within three business (3) days of such decision. If a notice of appeal is timely received by the City Manager, the City Manager shall notify the respondent within three (3) business days of the receipt of the request for appeal of a hearing date to be within twenty-one (21) days. The respondent may appear and be heard in person, or by his/her attorney, in opposition to the decision and do any of the following:

- (1)Present his/her positions, arguments and contentions;

- (2) Offer and examine witnesses and present evidence in support;
- (3) Cross-examine witnesses purporting to refute respondent's position, arguments and contentions;
- (4) Offer evidence to refute evidence and testimony offered in opposition to his/her position, arguments and contentions; and
- (5) Offer any such evidence into the record.

The City Manager shall render a decision within five business days after the hearing.

Scott, in review of Tony's email regarding the ordinance review commission stuff you and I are supposed to review Section 1185.02 (Off-Street Parking Standards) as it relates to what constitutes a hard surface/paved surface; 1189.09(1) (Signs For Property Offered For Sale Or Rent) as it relates to how temporary is temporary in particular real estate signs, and Section 1313.05 (referencing back to similar discussion in Part Eleven) as it relates to accessory structure/accessory building.

My quick response is, with respect to the sign code, not to make any changes at this time  
With respect to accessory structure/accessory building staff agrees that a single term should be used throughout the code and should be "accessory structure".

With hard surface/paved surface, etc. A through review of staff is in order for each time the terms (or variations thereof) are used in the various context of the code so that they are consistent as they are not currently.

**Cc:** Powell, Karen <KPowell@hhoh.org>  
**Subject:** RE: ORC Review Worksheets

Here are some comments. I think I caught everything that Jerry didn't. Let me know if you see something I missed.

1117.04 – No changes needed.

1123.25 – Accessory building says “a subordinate building located on the same lot occupied by the main building, the use of which is incidental to that of the main building or to the use of the land.” I don't see what the main building has to be “bigger”, so I don't think any change is needed.

1141.01 – The overlay supersedes the underlying district if applicable as Mr. Otto stated.

1156.03(k) – I do not feel that this needs to be modified.

1160.06 – No recommended changes

1171.XX - I'm fine with adding numbers to the Basic and Detailed Development Plan checklists and moving as Jerry stated.

In the DDP list, G number 2 can say: All proposed utilities complete which includes water, sanitary, gas, electric, cable, data and telephone services.

1181.12 (b)(5) - The height of any outdoor sales shall not exceed five feet This can be stricken from the code.

1181.12 (b)(8) - Outdoor sales areas shall be in good order and well maintained. This seems fine to

us. This gives the Code Enforcement Officer room for interpretation due to many types of sales items that can be displayed.

1181.20(a) – I think further discussion will be had at the works Session on Tuesday.

1181.24 – I think the language is ok. Variances can be requested through BZA or approved in a PUD.

1185.02 – I couldn't find "hard-paved surface", just "continuous hard surface", which in one area related back to a definition of "hard surface driveway" for residential uses, which there does need to be a distinction for as not all areas require asphalt or concrete, some zones allow gravel drives.

1189.09(1) – Staff does not recommend changing the language that was approved in 2019. Signs that are in disrepair can be put under violation.

1193 – Staff agrees that a larger discussion be done for this item.

1194.09 – Staff does not recommend any changes.

1199.07 – The Greene County reference could be removed as we no longer have any property in Greene County.

Staff recommends just using Accessory Structure, removing Accessory Building and Storage Shed

For the hard surface/ paved surface/hard surface driveway/ discussion, we want to catch all references and utilize a standard definition which has the meaning of a continuous surface, which can be concrete, asphalt, pavers, etc. We don't want to use the term impervious, as pervious pavers or concrete would be acceptable.

A simple definition can be:

Hard surface – pavement that shall consist of continuous concrete, asphalt, stone or brick pavers.

**CAUTION EXTERNAL EMAIL:** This message originated from a non Huber Heights email server. DO NOT CLICK ANY LINKS or OPEN ANY ATTACHMENTS unless you have contacted the sender to verify its legitimacy or confirmed you were expecting it. Contact the IT Department if you need assistance.

Keith, in a recent email from Tony, I was told that you and I need to review Section 1517.06 (Notice of Violation), 1517.08 (Stop Work And Remedial Orders), and 1517.09 (Right Of Appeal) of the Huber Heights Codified to determine if any changes or updates are needed and report back our findings for the Ordinance. Based on the minutes from the Ordinance Review Commission here are the potential issues.

1517.06, states in pertinent part, "The written notice of violation of the Ohio Fire Code shall be served on the owner, his duly authorized agent, or on the occupant or other person responsible for the conditions under violation." The issue apparently is the owner, or his duly authorized agent may not get notification of a violation involving a property since it can be served on the occupant. The question asked was should the word "or" be changed to "and". My thoughts are with respect to 1517.08 is to add a new line that states: "In the event service is to the occupant or other person responsible for the conditions under violation, notice shall also be sent to the owner."

With 1517.08 it's the same issue as the code say "The stop work order shall be in writing and shall be given to the owner of the property involved, or to the owner's agent, or to the person doing the work". My proposed "fix" is to recommend it be changed to read: "The stop work order shall be in writing and shall be given to the owner of the property involved, or to the owner's agent, and to the person doing the work.

Finally, in 1517.09, paragraph (a) states that any person aggrieved by a decision or interpretation by the Fire Official may appeal, but in paragraph (d), it says, "if the owner files for an appeal". The Ordinance Review Commission asked what if an aggrieved nonowner files for an appeal, are they entitled to a hearing? With respect to this section, I see no problem changing section d to provide "if the person aggrieved by a decision or interpretation files for an appeal..."

Thoughts?

Tony, Please pass on Keith's recommendation as to 1517.06 and .08. There is not a conflict between my recommendation and his, as I fully defer to his expertise and experience. While my proposed language makes sense to me as an easy "fix" it is apparently a fix for something that is not a problem. Lets go ahead with the change to "aggrieved party" in 1517.09 as that is not really a substantive issue and is more of a change for clarification.

---

Gerry,

For sections 1517.06 and 1517.08 the language we currently is very similar to the Ohio Administrative Code (3737.01). The OAC defines the Responsible Person as the person responsible for compliance with the state fire code, including but not limited to the owner, lessee, agent, operator, or occupant of a building, premises, or vehicle. Talking with Regina Susong, our Fire Prevention manager she even acknowledges that we currently notify the occupant of the violation and after a few tries we then send a certified letter to both the occupant and owner.

*R.C. 3737.01 (F): "Responsible person" means the person responsible for compliance with the state fire code, including, but not limited to, the owner, lessee, agent, operator, or occupant of a building, premises, or vehicle.*

*OAC 1301:7-7-01 (A)(2)(b), Ohio Fire Code 101.2.2: The scope of this code includes all aspects of fire safety for any occupancy of any activities at the places subject to this code, including actions of or uses by an individual, corporation, business trust, estate, trust, partnership, associations, the state, a political subdivision of the state, and any other entity, public or private*

There are many times that a violation clearly is the responsibility of the occupant and not the owner, for instance an egress door blocked by storage would be an occupant violation and not necessarily the owner. Having to make positive contact with the owner can be problematic especially with out of state owners.

I would prefer to leave the language for these the same. Understanding that they resemble the OAC / Fire Code and have been in place since 1982 I believe there would be no harm in leaving them.

1519.09 Your substitution would be acceptable, however based on the Ohio Fire Code Section 108, I would believe that any appeal would be limited to the instances where the Huber Heights Code is more restrictive than the State of Ohio Fire Code (very few areas is this the case), as appeals for those codes are under the jurisdiction of the State Board of Building appeals. Most of these types of appeals deal strictly with the owners as most rental / lease agreements restrict the modifications the lessee could perform.

One further issue I hope to research in the future is the idea that a law enforcement officer has to issue the citation for Fire Code Violations to the court and not an Ohio Certified Fire Safety Inspector

I hope to have answered your questions, if you have anything else, please let me know.

Thanks,

Keith

Keith, in a recent email from Tony, I was told that you and I need to review Section 1517.06 (Notice of Violation), 1517.08 (Stop Work And Remedial Orders), and 1517.09 (Right Of Appeal) of the Huber Heights Codified to determine if any changes or updates are needed and report back our findings for the Ordinance. Based on the minutes from the Ordinance Review Commission here are the potential issues.

1517.06, states in pertinent part, "The written notice of violation of the Ohio Fire Code shall be served on the owner, his duly authorized agent, or on the occupant or other person responsible for the conditions under violation." The issue apparently is the owner, or his duly authorized agent may not get notification of a violation involving a property since it can be served on the occupant. The question asked was should the word "or" be changed to "and". My thoughts are with respect to 1517.08 is to add a new line that states: "In the event service is to the occupant or other person responsible for the conditions under violation, notice shall also be sent to the owner."

With 1517.08 it's the same issue as the code say "The stop work order shall be in writing and shall be given to the owner of the property involved, or to the owner's agent, or to the person doing the work". My proposed "fix" is to recommend it be changed to read: "The stop work order shall be in writing and shall be given to the owner of the property involved, or to the owner's agent, and to the person doing the work.

Finally, in 1517.09, paragraph (a) states that any person aggrieved by a decision or interpretation by the Fire Official may appeal, but in paragraph (d), it says, "if the owner files for an appeal". The Ordinance Review Commission asked what if an aggrieved nonowner files for an appeal, are they entitled to a hearing? With respect to this section, I see no problem changing section d to provide "if the person aggrieved by a decision or interpretation files for an appeal..."

Thoughts?
