Ordinance

CITY OF HUBER HEIGHTS
STATE OF OHIO

ORDINANCE NO. 2022-O-

AUTHORIZING ADVANCES AND TRANSFERS BETWEEN VARIOUS FUNDS OF THE CITY OF HUBER HEIGHTS, OHIO AND AMENDING ORDINANCE NO. 2021-O-2511 BY MAKING SUPPLEMENTAL APPROPRIATIONS FOR EXPENSES OF THE CITY OF HUBER HEIGHTS, OHIO FOR THE PERIOD BEGINNING JANUARY 1, 2022 AND ENDING DECEMBER 31, 2022.

WHEREAS, supplemental appropriations for expenses of the City of Huber Heights must be made for appropriations of funds for various 2022 operating and project funding.

NOW, THEREFORE, BE IT ORDAINED by the City Council of Huber Heights, Ohio that:

Section 1. Authorization is hereby given to advance and transfer certain monies up to amounts not exceeding those shown and for the purposes cited in Exhibit A, and such authorization applies to any and all such advances and transfers necessary and effected after January 1, 2022.

Section 2. Ordinance No. 2021-O-2511 is hereby amended as shown in Exhibit B of this Ordinance.

Section 3. It is hereby found and determined that all formal actions of this Council concerning and relating to the passage of this Ordinance were adopted in an open meeting of this Council and that all deliberations of this Council and of any of its Committees that resulted in such formal action were in meetings open to the public and in compliance with all legal requirements including Section 121.22 of the Ohio Revised Code.

Section 4. This Ordinance shall go into effect upon its passage as provided by law and the Charter of the City of Huber Heights.

2022 Sidewalk Program - Ordinance Of Assessment

Purpose and Background

This Ordinance Of Assessment is the final piece of legislation for the 2022 Sidewalk Program. Following the passage of this ordinance by City Council, City Staff will send the invoices to the affected property owners. These property owners will have until August 8, 2022 to make payment. All unpaid assessments will be sent to the County Auditor by the second Monday of September, 2022 as required.

Ordinance

CITY OF HUBER HEIGHTS
STATE OF OHIO

ORDINANCE NO. 2022-O-

TO LEVY SPECIAL ASSESSMENTS FOR THE REPAIR AND RECONSTRUCTION OF SIDEWALKS, CURBS AND GUTTERS, DRIVEWAY APPROACHES AND APPURTENANCES THERETO ON PARTS OR ALL OF CERTAIN STREETS IN THE CITY OF HUBER HEIGHTS REFERRED TO AS THE 2022 SIDEWALK PROGRAM, AND DECLARING AN EMERGENCY.

WHEREAS, City Council has previously adopted legislation declaring the necessity of repairing sidewalks, driveway aprons, handicap ramps, curbs and gutters, and catch basin aprons under the 2022 program; and

WHEREAS, contracts have been let to perform various phases of the work under this program; and

WHEREAS, all phases of this work are now complete and the Engineering Division has calculated the final assessment cost to each property owner.

THEREFORE, BE IT ORDAINED, by the City Council of Huber Heights, Ohio, that:

Section 1. The assessment of the cost of repairing or reconstructing sidewalks, curbs and gutters, driveway approaches and appurtenances thereto on those streets in the City of Huber Heights, Ohio as previously reported to this Council and filed in the Office of the Clerk of this Council and aggregating \$109,674.27 is hereby adopted and confirmed. Notice of the filing of said assessments has been given as required by law, and no objections were filed with the Clerk of Council within the two weeks provided by statute.

Section 2. There are hereby levied and assessed upon the lots and lands bounding and abutting on the improvement and provided for in the Resolution of Necessity No. 2021-R-7028 passed August 23, 2021, the several assessment amounts which, taken together, aggregate the dollar amount set forth above. Those assessments are within statutory limitation. The assessments and the description of said lots and lands are now on file in the Office of the Clerk of Council.

Section 3. The total assessment against each lot or parcel of land shall be payable on or before August 8, 2022, and any such assessment payments, which have not been delivered to the City's Account Technician postmarked by August 8, 2022, shall be assessed by up to five annual installments, except all assessments \$100.00 or less shall be in one installment. Such assessments shall further include interest on any bonds and notes that could be sold at the time to finance the improvements plus administration and collection costs, together with all other necessary expenditures. All assessments and installments thereof which have not been paid at the expiration of the payment period described above shall be certified by the Clerk of Council to the County Auditor as provided by law to be placed on the tax duplicate and collected as other taxes are collected.

Section 4. The City's Account Technician is hereby directed to cause notice of the passage of this Ordinance to be published once in a newspaper of general circulation in this City within ten days after its passage.

Section 5. The Office of the City Engineer is authorized and directed to keep the assessments on file in the office of the City Engineer for as long as any of them remain unpaid.

Section 6. Further, the Clerk of Council is directed to deliver a certified copy of this Ordinance to the County Auditor within twenty days after its passage.

Section 7. It is hereby found and determined that all formal actions of this Council concerning and relating to the passage of this Ordinance were adopted in an open meeting

of this Council and that all deliberations of this Council and of any of its Committees that resulted in such formal action were in meetings open to the public and in compliance with all legal requirements including Section 121.22 of the Ohio Revised Code.

Section 8. This Ordinance is hereby declared to be an emergency measure necessary for the immediate preservation of the public peace, health, safety, and welfare and for the further reason that this timely approval by Council will enable the City to meet the County deadline for filing unpaid assessments for 2022; therefore, this Ordinance shall be in force and effect immediately upon its adoption by Council.

Audio-Visual Needs: None

Emergency Legislation?: No

**Motion/Ordinance/
Resolution No.:**

Agenda Item Description or Legislation Title

Chambersburg Road West - Engineering Design - Award Contract

Purpose and Background

The City of Huber Heights has applied for and received a grant through Miami Valley Regional Planning Commission (MVRPC) to reconstruct and widen Chambersburg Road from Old Troy Pike west to the City limit. The project consists of adjusting the vertical alignment of the roadway to eliminate a crest area in the pavement, widening the roadway from 2 to 3 lanes, installing curb, handicap ramps, storm sewer, 10' sidewalk/bikepath on the north side, 5' sidewalk on the south side, and extending the water main.

This legislation will authorize the employment of Choice One Engineering, an ODOT qualified consulting engineering and land surveying firm, to prepare plans and specifications for the design of this needed improvement. The design process through ODOT is approximately 5 years. The construction should occur in 2026.

Fiscal Impact

RESOLUTION NO. 2022-R-

AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT FOR PREPARATION OF ENGINEERING PLANS AND SPECIFICATIONS FOR THE DESIGN OF CHAMBERSBURG ROAD WEST IMPROVEMENTS PROJECT.

WHEREAS, the City Council has applied and received a grant through Miami Valley Regional Planning Commission (MVRPC) for the construction of the Chambersburg Road West Improvements Project; and

WHEREAS, it is necessary to obtain outside engineering services to design the Chambersburg Road West Improvements Project; and

WHEREAS, it is necessary to complete engineering plans and specifications for the design of this project; and

WHEREAS, Choice One Engineering has been determined to be the most qualified firm for the project.

NOW, THEREFORE BE IT RESOLVED by the City Council of Huber Heights, Ohio that:

Section 1. The City Manager is hereby authorized to enter into a contract for engineering plans and specifications for the design of the Chambersburg Road West Improvements Project with Choice One Engineering at a cost not to exceed \$290,000.00.

Section 2. It is hereby found and determined that all formal actions of this Council concerning and relating to the passage of this Resolution were adopted in an open meeting of this Council and that all deliberations of this Council and of any of its Committees that resulted in such formal action were in meetings open to the public and in compliance with all legal requirements including Section 121.22 of the Ohio Revised Code.

Section 3. This Resolution shall go into effect upon its passage as provided by law and the Charter of the City of Huber Heights.

Agenda Item Description or Legislation Title

Increase Not To Exceed Amount - Maintenance Contract - Veolia Water

Purpose and Background

This legislation will authorize the City Manager to enter into a contract modification and increase Veolia Water's contract by \$420,000 to cover the cost of three items. The first is to provide a back-up motor and pump for Well No. 6 at the Rip Rap Road Water Treatment Plant (RRWTP). The second item is to replace three large water valves on three other wells, also at the RRWTP. The third item is to cover the estimated additional expenditures between now and the end of the year on Veolia Water's yearly maintenance cap.

Fiscal Impact

Source of Funds: Water/Sewer Funds

Cost: \$420,000

RESOLUTION NO. 2022-R-

TO INCREASE THE NOT TO EXCEED MAINTENANCE CONTRACT AMOUNT AND
AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT MODIFICATION
WITH VEOLIA ENVIRONMENT.

WHEREAS, Veolia Environment has operated the City’s water and wastewater systems since
September 29, 1995; and

WHEREAS, the City Charter requires that City Council approve all work performed by a single
contractor in excess of \$25,000.00 in any given year; and

WHEREAS, the City has determined to increase the not to exceed amount of the contract to pay
the auditors fees for this year’s audit outside the contract and also to allow the company to
perform additional work for the City due to emergency measures and additional services as
needed, without delay; and

WHEREAS, City Council agrees that it is prudent and cost effective to increase Veolia
Environment contract to allow the company to perform additional work for the City due to
emergency measures and additional services as needed, without delay.

NOW, THEREFORE, BE IT RESOLVED by the City Council of Huber Heights, Ohio that:

Section 1. The City Manager is hereby authorized to enter into a contract modification to
increase the maintenance cost of the Veolia Environment by \$420,000.00.

Section 2. It is hereby found and determined that all formal actions of this Council
concerning and relating to the passage of this Resolution were adopted in an open meeting of this
Council and that all deliberations of this Council and of any of its Committees that resulted in
such formal action were in meetings open to the public and in compliance with all legal
requirements including Section 121.22 of the Ohio Revised Code.

Section 3. This Resolution shall go into effect upon its passage as provided by law and the
Charter of the City of Huber Heights.

CRA Agreement - Hayden Apartments, LLC - 5550 Huber Road

Submitted By: Bryan Chodkowski

Department: Economic Development

Council Committee Review?: Council Work Session **Date(s) of Committee Review:** 07/19/2022

Audio-Visual Needs: None **Emergency Legislation?:** No

**Motion/Ordinance/
Resolution No.:**

Agenda Item Description or Legislation Title

CRA Agreement - Hayden Apartments, LLC - 5550 Huber Road

Purpose and Background

This legislation provides a previously discussed property tax abatement for Homestead Properties, dba Hayden Properties, LLC, on a new \$30.6 million, 192-unit market-rate multi-family residential project near the intersection of Old Troy Pike and Taylorsville Road. This abatement is necessary to support the partnership between Broad Reach Properties, the master developer, and the City to support improvements to Old Troy Pike and Taylorsville Road. Said road improvements are designed to improve the flow of traffic on Old Troy Pike as well as access to businesses on Old Troy Pike between Taylorsville Road and I-70.

Resolution

Exhibit A

CITY OF HUBER HEIGHTS
STATE OF OHIO

RESOLUTION NO. 2022-R-

AUTHORIZING THE CITY MANAGER TO ENTER INTO A COMMUNITY REINVESTMENT AREA AGREEMENT WITH HAYDEN PROPERTIES, LLC UNDER CERTAIN TERMS AND CONDITIONS.

WHEREAS, the City of Huber Heights (the “City”) created Community Reinvestment Area Number 6 (“CRA #6”) by Resolution No. 93-R-1347 on November 8, 1993, for the purpose of encouraging economic development activity; and

WHEREAS, 5550 Huber Road, (the “Property”), currently vacant, is located within CRA #6; and

WHEREAS, Hayden Properties, LLC has a desire to acquire the Property for the purposes of constructing a 192-unit market-rate/192-unit multi-family development (the “Project”); and

WHEREAS, the Project will require an initial investment of \$30,600,000.00, creating 3.5 full-time equivalent jobs with a total payroll of approximately \$190,000.00; and

WHEREAS, Hayden Properties, LLC seeks to enter into an agreement with the City to ensure the full tax incentive available in CRA #6 is provided in support of the Project.

NOW, THEREFORE, BE IT RESOLVED by the City Council of Huber Heights, Ohio that:

Section 1. The City Manager is hereby authorized and directed to execute an agreement with Hayden Properties, LLC attached hereto as Exhibit A, to provide tax incentives for the purposes noted above and detailed therein; approved as to final form and content by the Law Director.

Section 2. It is hereby found and determined that all formal actions of this Council concerning and relating to the passage of this Resolution were adopted in an open meeting of this Council and that all deliberations of this Council and of any of its Committees that resulted in such formal action were in meetings open to the public and in compliance with all legal requirements including Section 121.22 of the Ohio Revised Code.

Section 3. This Resolution shall go into effect upon its passage as provided by law and the Charter of the City of Huber Heights.

EXHIBIT A

SYNERGY & MILLS DEVELOPMENT
PRE JULY 1994
COMMUNITY REINVESTMENT AREA
AND DEVELOPMENT AGREEMENT

This Agreement made and entered into by and between the CITY OF HUBER HEIGHTS, OHIO, Charter City, with its main offices located at 6131 Taylorsville Road, Huber Heights, Ohio ("City"); and Hayden Apartments LLC, with its main offices located at 369 E Livingston Ave, Columbus, Ohio 43215 ("Property Owner").

WHEREAS, the City has encouraged the development of real property located in the area designated as a Community Reinvestment Area; and

WHEREAS, on November 8, 1993 the City Council of Huber Heights, Ohio by Resolution No. 1993-R-13147, subsequently amended by 2021-R-7035, designated the Area known as "Community Reinvestment Area Number 6" pursuant Chapter 3735 of the Ohio Revised Code and the Charter of Huber Heights; and

WHEREAS, the Property Owner intends to constructed certain improvements within the boundaries of the Community Reinvestment Area Number 6 in the City of Huber Heights, provided that the appropriate development incentives are available to support the economic viability of the Project; and

WHEREAS, the City, having the appropriate authority pursuant to the Ohio Constitution, Charter of the City of Huber Heights and laws of the State of Ohio, desires to provide the Property Owner with incentives available for the development of the Project in said Community Reinvestment Area; and

NOW, Therefore, in consideration of the mutual covenants contained in this agreement, and of the benefit to be derived by the parties from the execution of it, the parties herein agree as follow:

1. The Property Owner shall, at 5550 Huber Road ("Project Site) in Huber Heights Community Reinvestment Area Number 6 shall build a 192-unit multi-family residential development ("Project") The Project involves a total investment by the Property Owner of \$30,600,000.00 plus or minus, at the Project Site.

2. The Project will create and sustain 3.5 full-time equivalent jobs resulting in approximately \$ 190,000.00 in new payroll.

3. The Property Owner shall provide to the proper Tax Incentive Review Council any information reasonably required by the Tax Incentive Review Council to evaluate the Property Owner compliance with this Agreement.

4. Upon conclusion of the Project the City shall grant the Property Owner a tax exemption for real property improvements made to the Project Site pursuant to applicable law; and shall be in the following amounts: One Hundred Percent (100%) for Fifteen (15) years. The exemption commences the first year for which real property would first be

EXHIBIT A

taxable were that property not exempted from taxation. Property Owner must file the appropriate tax forms with the Montgomery County Auditor to effect and maintain the exemptions covered in this Agreement.

5. The Property Owner, on behalf of itself and each subsequent owner of any portion of the Project Site, acknowledges and agrees that the Project Site is also subject to a minimum service payment obligation (the "Minimum Service Payment Obligation"), which constitutes or is similar to a minimum service payment obligation under Ohio Revised Code Section 5709.91. The Minimum Service Payment Obligation for the Project Site shall be satisfied in each year by the remittance to the City of a Minimum Service Payment ("MSP"), which annual MSP shall be remitted to the City in two equal installments on February 15 and July 15 of each year (50% of the annual payment shall be due on each date) commencing in the MSP First Payment Year and continuing through and including the MSP Last Payment Year. The annual amount of such MSP for the Project Site shall be in the amounts as follows: No Minimum Service Payment is associated with the Project Site.

6. This Agreement is not transferable or assignable without the express written approval of the City.

7. The Property Owner shall pay such real estate taxes as are not exempted under this Agreement, and are charged against such property, and shall file all tax reports and returns as required by law. If Property Owner fails to pay such taxes or file such returns and reports, all incentives granted under this Agreement are rescinded, beginning with the year for which such taxes are charged or such reports returns are required to be filed, and thereafter.

8. The City shall perform such acts as are reasonably necessary or appropriate to effect, claim, reserve, and maintain exemptions from taxation granted under this Agreement including, without limitation, joining in the execution of all documentation and providing any necessary certificates required in connection with such exemptions.

9. If for any reason the Community Reinvestment Area designation expires or the Director of the Ohio Department of Development revokes certification of the Area, entitlements granted under this Agreement shall continue for the number of years specified under this Agreement; provided however, if Property Owner materially fails to fulfill its obligation under this Agreement the City may terminate or modify the exemptions from taxation granted under this Agreement.

10. If the Property Owner materially fails to fulfill its obligations under this Agreement, or if the City determines that the certification as to delinquent taxes required by this Agreement is fraudulent, the City may unilaterally terminate or modify the exemptions from taxation granted under this Agreement; and may require that the Property Owner pay to the City the amount of taxes that were exempted under this Agreement, (i.e. the taxes that would have been payable had the property not been exempted from taxation under this Agreement). The City is authorized to secure the repayment of such taxes by a lien on the Project Site in an amount required to be repaid; and such lien shall attach and

EXHIBIT A

may be perfected, collected, and enforced, in the same manner as a mortgage lien on the real property; and shall otherwise have the same force and effect as a mortgage lien on the real property. The City is authorized to record the necessary documentation to perfect its lien rights set forth herein including but not limited to this Agreement. Any lien created herein shall run with the land.

11. The Property Owner covenants that it does not owe: (1) any delinquent taxes to the State of Ohio or political subdivision of the State; or (2) any other monies to the State, a state agency or a political subdivision of the State that are past due, whether the amounts owed are being contested in a court of law or not.

12. The Property Owner and the City acknowledge that this Agreement must be approved by formal action of the City Council of Huber Heights, Ohio, as a condition for the Agreement to take effect.

13. By executing this Agreement, the Property Owner is committing to following non-discriminatory hiring practices, acknowledging that no individual may be denied employment solely on the basis of race, religion, gender, disability, color, national origin, or ancestry.

14. The Property Owner agrees to construct the Project in a manner similar to the existing facility and in accordance with the requirements of Huber Heights Codified Ordinances.

15. The failure by any party to exercise any of its rights hereunder or to enforce any of the terms or conditions of this Agreement on any occasion shall not constitute or be deemed a waiver of that party's rights thereafter to exercise any rights hereunder or to enforce each and every term and condition of this Agreement. This Agreement may not be modified except by a writing specifically referring to this Agreement and executed by duly authorized representatives of both parties. The parties have had the opportunity to have this Agreement reviewed by legal counsel of their choosing. This Agreement was the product of negotiations between the parties and the parties agree that no provision or provisions herein shall be construed against any one party by virtue of the authorship of such provision.

16. The Parties agree to execute and deliver such additional documents and to perform such additional acts as may become reasonably necessary to effectuate the transfers contemplated by this Agreement.

17. A determination that any portion of this Agreement is unenforceable or invalid shall not affect the enforceability or validity of any of the remaining portions of this Agreement as a whole. In the event that any part of any of the covenants, Sections, or provisions herein may be determined by a court of law or equity to be invalid or unenforceable, the parties shall attempt to reach agreement with respect to valid and enforceable substitutes for deleted provision(s), which shall be as close in intent and effect as possible to the deleted portions.

EXHIBIT A

18. The Property Owner hereby consents to the Huber Heights Tax Division providing to, the Huber Heights City Manager, or his designee, any and all tax information if necessary to evaluate Property Owner's compliance with this Agreement and such disclosure shall not be a violation of any federal state or local confidentiality laws or requirements associated with tax and payroll returns. To the fullest extent permitted by law, the City Manager, or his designee, will treat any such information as confidential.

IN WITNESS WHEREOF, the parties execute this Agreement

Fire Department Comments:

The Huber Heights City Code Part 15 Refers to Fire Code Requirements and has adopted by reference OFC and IFC Appendices

Plan submittal is approved as shown on drawing. Proposed use has not been clarified on drawing. Cover sheet indicates medical facility. Additional requirements regarding fire department access and fire hydrants may be forthcoming during development.

- Submitted drawing is not to scale, therefore turn radius for fire department apparatus access has not been verified.**
- Site utility drawing has not been provided. Additional hydrants may be required.**
- If building is to be sprinklered a hydrant will be required within 75 feet of the fire department connection. Huber Heights Codified Ordinance 1521.01(e).**

Please reference contact information below for questions or concerns with this document.

Plans reviewed by the Huber Heights Fire Division are reviewed with the intent they comply in **ALL** respects to this code, as prescribed in **SECTION (D) 104.1 of the 2017 Ohio Fire Code**. Any omissions or errors on the plans or in this review do not relieve the applicant of complying with **ALL** applicable requirements of this code. These plans have been reviewed for compliance with the Ohio Fire Code adopted by this jurisdiction. There may be other regulations applicable under local, state, or federal statutes and codes, which this department has no authority to enforce and therefore have not been evaluated as part of this plan review.

Date: June 4, 2022

Subject: Basic Development Plan Review – Medical Facility
(7611 Old Troy Pike)

Application dated June 3, 2022

Department of Planning and Zoning

City of Huber Heights

APPLICANT/OWNER: Hartman I, LLC – Applicant
Huber Heights ABG, LLC - Owners

DEVELOPMENT NAME: Huber Heights Medical Facility

ADDRESS/LOCATION: 7611 Old Troy Pike
(Currently Rural King parking/display area)

ZONING/ACREAGE: Planned Commercial - 1.1 acres

EXISTING LAND USE: Parking / Display Area

**ZONING
ADJACENT LAND:** Planned Commercial

REQUEST: The applicant requests approval of a basic development plan and rezoning to Planned Office to construct a 10,800 SF emergency medical facility.

ORIGINAL APPROVAL: N/A

APPLICABLE HHCC: Chapter 1171, 1173, 1181,

CORRESPONDENCE: In Favor – None Received
In Opposition – None Received

STAFF ANALYSIS AND RECOMMENDATION:

Overview

The applicant requests approval of a basic development plan and rezoning from Planned Commercial to Planned Office to construct a 10,800 square foot healthcare facility for outpatient and emergency services. The applicant anticipates an initial volume of 30 – 40 patients per day, with a maximum of 50 – 60 a day once the facility is established.

The site plan for this development has evolved no less than four times since the application was originally submitted, and the City Council has requested the Planning Commission review the latest revision prior to their consideration of the rezoning and basic development plan approval request.

The Planning Commission originally heard this case on April 12, 2022. The original application had no direct access to Taylorsville Road. Prior to the Planning Commission meeting a revised plan was submitted which included a “Right-in / Right-out” on Taylorsville to facilitate site access. The access aligned with a large sewer easement on the eastern side of the site. There was significant discussion among the Planning Commission members regarding this access point and its close proximity to the bank driveway and the Old Troy Pike intersection. Ultimately, the Commission recommended approval of the rezoning and basic development plan with the access point on the eastern side.

Based on the location and depth of the sewer line, and a desire to have full turn access from Taylorsville into the site, the applicant revised the site plan and moved the building slightly west and relocated the access point to the west side of the site. Staff received the revised site plan on April 28, 2022, prior to the May 3rd City Council Work Session.

During the work session there was considerable discussion and concern expressed about adding the curb cut along Taylorsville Road. At the City Council meeting, there was additional concerns expressed about the curb cut access along Taylorsville Road.

The applicant has worked with Rural King to obtain an access agreement along the Taylorsville frontage, which enabled the elimination of the curb cut along Taylorsville Road. Subsequently, the applicant has submitted a revised site plan that utilizes the existing Rural King access point along Taylorsville. The site plan also moves the identification sign to the western side of the site.

City Council has requested the Planning Commission review the revised site plan and make a recommendation prior to Council moving forward with the rezoning legislation.

Staff Analysis

This site plan revision goes a long way to addressing the Taylorsville Road access concerns of the Planning Commission and City Council. The revised site plan conforms to the PO district regulations including parking and buffering. The revised plan also allows the possibility of aligning driveways along Taylorsville at some future point when the Rural King property is redeveloped or improved.

Conformance with Zoning Regulations:

1173 (PO) Planned Office District

The proposed use is principally permitted in the PO district.

The required 15-foot perimeter yard is provided in the revised site plan.

Chapter 1181 General Provisions

The proposal meets the requirements of Chapter 1181, with the exception of the following items are not illustrated on the Basic Development Plan:

- Street trees shall be placed every 40-feet along the public street.
- No exterior lighting plan was submitted. Unless otherwise directed by the Planning Commission, parking light fixtures shall not exceed 25 feet in height.
- Mechanical, waste, and service screening is not illustrated with great detail, but shall comply with the zoning code.

Chapter 1182 Landscaping and Screening Standards

The Basic Development Plan indicates potential locations for landscape islands and trees within the parking areas. Additional detail shall be provided during the detailed development plan phase.

Chapter 1185 Parking and Loading

The proposal generally meets the requirements of Chapter 1185. The applicant is illustrating areas for parking island landscaping. Based on the interior programming, 45 spaces required, and 50 spaces are illustrated. The applicant is working with Rural King on the exact language to allow access through the Rural King parking area.

Chapter 1189 Signs

The applicant is requesting a mixture of signage including one ground mounted sign, three corporate wall signs, three “Emergency” wall signs and one “Ambulance” canopy sign.

The original site plan had the ground mounted sign located on the eastern edge and the applicant requested an 8-feet tall with a sign area of 80 square feet. The height was to account for the grade change between the site and 5/3rd bank.

The code suggests a height limit of 6-feet and not exceed 75 square feet in sign area. The ground sign has been relocated to the western edge of the site, and the grade change should no longer be a factor.

The two “Emergency” wall signs are 75 square feet each, and the three corporate wall signs are 50 square feet each, totaling 300 square feet. The code suggests single wall signs shall not exceed 75 square feet each, and a cumulative total of no more than 150 square feet. If the commission considers the “emergency” signs to be exempt, the wall signs are compliant.

The “Ambulance” canopy sign is 35 square feet and mounted above the canopy. The code suggests canopy signs are only permitted along street frontage and may not project above the canopy. While not along a street frontage, the canopy covers the ambulance entrance and a variance from the code requirements seems reasonable.

Recommendation

Staff feels the standards of approval outlined in 1171.06 can be met and therefore staff recommends approval of the rezoning from Planned Commercial to Planned Office and approval of the basic development plan with the following conditions:

1. Street trees shall be placed every 40-feet along Taylorsville Road.
2. The applicant shall comply with Chapter 1181.18 Screening of Service Structures.
3. The applicant shall comply with Chapter 1181.21 Lighting Standards.
4. The applicant shall comply with Chapter 1182 Landscaping and Screening.
5. Wall and canopy signs shall be similar to those submitted in the sign package submitted to the Planning Commission on April 12, 2022.
6. Ground signs shall not exceed 6-feet in height.
7. Applicant shall comply will all fire code requirements.

Planning Commission Action

Planning Commission may take the following actions with a motion to:

- 1) Approve the rezoning and basic development plan application, with or without conditions.
- 2) Deny the basic development plan.
- 3) Table the application in order to gather additional information.

Planning Commission Decision Record

WHEREAS, on June 3, 2022, the applicant, Hartman I, LLC, requested approval of a Basic Development Plan and Rezoning to Planned Office (PO) to construct a 10,800 SF Emergency Medical Facility located at 7611 Old Troy Pike (Case RZ BDP 22-13), and;

WHEREAS, on June 14, 2022, the Planning Commission did meet and fully discuss the details of the request.

NOW, THEREFORE, BE IT RESOLVED that the Planning Commission hereby recommended approval of the request.

Ms. Thomas moved to approve the request by the applicant, Hartman I, LLC, for approval of a Basic Development Plan and Rezoning to Planned Office (PO) to construct a 10,800 SF Emergency Medical Facility at property located at 7611 Old troy Pike (Case RZ BDP 22-13) in accordance with the recommendation of Staff's Memorandum dated June 14, 2022, with the following conditions:

1. Street trees shall be placed every 40-feet along Taylorsville Road.
2. The applicant shall comply with Chapter 1181.18 Screening of Service Structures.
3. The applicant shall comply with Chapter 1181.21 Lighting Standards.
4. The applicant shall comply with Chapter 1182 Landscaping and Screening.
5. Wall and canopy signs shall be similar to those submitted in the sign package submitted to the Planning Commission on April 12, 2022.
6. Ground signs shall not exceed 6-feet in height.
7. Applicant shall comply will all fire code requirements.

RZ BDP 22-13 – Decision Record

Seconded by Mr. Jeffries. Roll call showed: YEAS: Mr. Jeffries, Ms. Thomas, and Mr. Walton. NAYS: Ms. Vargo and Ms. Opp. Motion to recommend approval carried 3-2 .

Terry Walton, Chair
Planning Commission

Date

**Planning Commission
June 14, 2022, Meeting
City of Huber Heights**

- I. Chair Terry Walton called the meeting to order at approximately 6:00 p.m.
- II. Present at the meeting: Mr. Jeffries, Ms. Opp, Ms. Thomas, Ms. Vargo and Mr. Walton.

Members absent: None.

Staff Present: Aaron K. Sorrell, Interim City Planner, and Geri Hoskins, Planning & Zoning Administrative Secretary.

III. Opening Remarks by the Chairman and Commissioners

IV. Citizens Comments

None.

V. Swearing of Witnesses

Mr. Walton explained the proceedings of tonight's meeting and administered the sworn oath to all persons wishing to speak or give testimony regarding items on the agenda. All persons present responded in the affirmative.

VI. Pending Business

1. None

VII. New Business

1. **FINAL PLAT - The applicant, DEC Land Co. I LLC, is requesting approval of the final plat for 62 building lots in Carriage Trails – Section 2, Phase 5 (Case FP 22-23).**

Mr. Sorrell stated that the applicant requests approval of the final plat for section two, phase five of the Carriage Trails subdivision. This phase contains 62 lots on approximately 16.32 acres.

Conformance with Zoning Regulations

The detailed development plan was approved by the Planning Commission on August 10, 2021.

Staff Analysis

The applicant requests approval of the final plat for section two, phase five of the Carriage Trails subdivision. This final plat accurately reflects the DDP and simply releases drainage easements between two sections.

Fire: None

City Engineer: None

Recommendation

Staff recommends approval of the final plat submitted on May 2, 2022.

Action

Ms. Opp moved to approve the request by the applicant DEC Land Co. I LLC, for approval of a Final Plat for 62 building lots in Carriage Trails – Section 2, Phase 5 (Case FP 22-23) in accordance with the recommendation of Staff's Memorandum dated June 4, 2022, and the Planning Commission Decision Record attached thereto.

Seconded by Ms. Thomas. Roll call showed: YEAS: Ms. Vargo, Mr. Jeffries, Ms. Thomas, Ms. Opp, and Mr. Walton. NAYS: None. Motion to approve carried 5-0.

2. **FINAL PLAT - The applicant, GENERATIONS CONSTRUCTION, LLC, is requesting approval of the final plat for 14 building lots in Callamere Farms, Section 6 (FP 22-26).**

Mr. Sorrell stated that the applicant requests approval of the final plat for section six of the Callamere Farms subdivision. This phase contains 14 lots on approximately 8.03 acres.

Conformance with Zoning Regulations

The detailed development plan was approved by the Planning Commission on March 23, 2021.

Staff Analysis

The applicant requests approval of the final plat for section six of the Callamere Farms subdivision. This final plat accurately reflects the DDP previously approved by the Planning Commission.

Fire: None

City Engineer: None

Recommendation

Staff recommends approval of the final plat submitted on May 30, 2022.

Action

Mr. Jeffries moved to approve the request by the applicant Generations Construction, LLC, for approval of a Final Plat for 14 building lots in Callamere Farms, Section six (FP 22-26) in accordance with the recommendation of Staff's Memorandum dated June 4, 2022, and the Planning Commission Decision Record attached thereto.

Seconded by Ms. Vargo. Roll call showed: YEAS: Ms. Thomas, Ms. Opp, Ms. Vargo, Mr. Jeffries, and Mr. Walton. NAYS: None. Motion to approve carried 5-0.

- 3. MINOR CHANGE - The applicant, MELISSA BARRETT, is requesting approval of A Minor Change to increase the wall sign area by approximately 60 SF at Kohl's/Sephora in the Northpark Center (MC 22-24).**

Mr. Sorrell stated that the applicant The applicant requests approval to add an additional copy to the existing wall sign, which will increase the size from approximately 192 SF to 252 SF. The request is to facilitate adding the "Sephora" brand to the existing Kohl's sign.

Conformance with Zoning Regulations

Northpark Center Sign Policy

The Northpark Center sign guidelines allow large tenants (over 60,000 SF) to have a maximum wall sign area of up to 250 SF on any one building face and a maximum of 500 SF total. The Kohl's tenant space is approximately 81,000 SF.

Current Application

The applicant seeks a minor change to add one 60 SF internally illuminated wall sign below the existing internally illuminated wall sign to highlight the two brands (Kohl's and Sephora). The total wall sign area will increase from 192 SF to 252SF. With this additional sign, the wall signs slightly exceed the maximum size by 2 SF, which is a negligible overage amount.

Staff Analysis

The applicant seeks a minor change to add one internally illuminated wall sign below an existing internally illuminated wall sign. Total wall sign area will exceed the maximum size by approximately 2 SF, or 1% of the total sign area. Staff feel this is a negligible overage amount and the new sign is visually proportional to the building frontage and existing sign.

Fire: None received

City Engineer: None Received

Recommendation

Staff recommend approval of the minor change to the sign package as submitted.

Action

Mr. Jeffries moved to approve the request by the applicant Melissa Barrett, for approval of a Minor Change to increase the wall sign area by approximately 60 SF at Kohl's/Sephora in the Northpark Center (Case MC 22-24) in accordance with the recommendation of Staff's Memorandum dated June 4, 2022, and the Planning Commission Decision Record attached thereto.

June 14, 2022

Seconded by Ms. Opp. Roll call showed: YEAS: Ms. Vargo, Mr. Jeffries, Ms. Thomas, Ms. Opp, and Mr. Walton. NAYS: None. Motion to approve carried 5-0.

4. BASIC DEVELOPMENT PLAN AND REZONING - The applicant, HARTMAN I, LLC, is requesting approval of a Basic Development Plan and Rezoning to Planned Office (PO) at property located at 7611 Old Troy Pike (RZ BDP 22-13).

Mr. Sorrell stated that the applicant requests approval of a basic development plan and rezoning from Planned Commercial to Planned Office to construct a 10,800 square foot healthcare facility for outpatient and emergency services. The applicant anticipates an initial volume of 30 – 40 patients per day, with a maximum of 50 – 60 a day once the facility is established.

The site plan for this development has evolved no less than four times since the application was originally submitted, and the City Council has requested the Planning Commission review the latest revision prior to their consideration of the rezoning and basic development plan approval request.

The Planning Commission originally heard this case on April 12, 2022. The original application had no direct access to Taylorsville Road. Prior to the Planning Commission meeting a revised plan was submitted which included a "Right-in / Right-out" on Taylorsville to facilitate site access. The access aligned with a large sewer easement on the eastern side of the site. There was significant discussion among the Planning Commission members regarding this access point and its close proximity to the bank driveway and the Old Troy Pike intersection. Ultimately, the Commission recommended approval of the rezoning and basic development plan with the access point on the eastern side.

Based on the location and depth of the sewer line, and a desire to have full turn access from Taylorsville into the site, the applicant revised the site plan and moved the building slightly west and relocated the access point to the west side of the site. Staff received the revised site plan on April 28, 2022, prior to the May 3rd City Council Work Session.

During the work session there was considerable discussion and concern expressed about adding the curb cut along Taylorsville Road. At the City Council meeting, there was additional concerns expressed about the curb cut access along Taylorsville Road.

The applicant has worked with Rural King to obtain an access agreement along the Taylorsville frontage, which enabled the elimination of the curb cut along Taylorsville Road. Subsequently, the applicant has submitted a revised site plan that utilizes the existing Rural King access point along Taylorsville. The site plan also moves the identification sign to the western side of the site.

City Council has requested the Planning Commission review the revised site plan and make a recommendation prior to Council moving forward with the rezoning legislation.

Staff Analysis

This site plan revision goes a long way to addressing the Taylorsville Road access concerns of the Planning Commission and City Council. The revised site plan conforms to the PO district regulations including parking and buffering. The revised plan also allows the possibility of aligning driveways along Taylorsville at some future point when the Rural King property is redeveloped or improved.

Conformance with Zoning Regulations:

1173 (PO) Planned Office District

The proposed use is principally permitted in the PO district.

The required 15-foot perimeter yard is provided in the revised site plan.

Chapter 1181 General Provisions

The proposal meets the requirements of Chapter 1181, with the exception of the following items are not illustrated on the Basic Development Plan:

- Street trees shall be placed every 40-feet along the public street.
- No exterior lighting plan was submitted. Unless otherwise directed by the Planning Commission, parking light fixtures shall not exceed 25 feet in height.
- Mechanical, waste, and service screening is not illustrated with great detail, but shall comply with the zoning code.

Chapter 1182 Landscaping and Screening Standards

The Basic Development Plan indicates potential locations for landscape islands and trees within the parking areas. Additional detail shall be provided during the detailed development plan phase.

Chapter 1185 Parking and Loading

The proposal generally meets the requirements of Chapter 1185. The applicant is illustrating areas for parking island landscaping. Based on the interior programming, 45 spaces required, and 50 spaces are illustrated. The applicant is working with Rural King on the exact language to allow access through the Rural King parking area.

Chapter 1189 Signs

The applicant is requesting a mixture of signage including one ground mounted sign, three corporate wall signs, three "Emergency" wall signs and one "Ambulance" canopy sign.

The original site plan had the ground mounted sign located on the eastern edge and the applicant requested an 8-foot tall with a sign area of 80 square feet. The height was to account for the grade change between the site and 5/3rd bank.

The code suggests a height limit of 6-feet and not exceed 75 square feet in sign area. The ground sign has been relocated to the western edge of the site, and the grade change should no longer be a factor.

The two "Emergency" wall signs are 75 square feet each, and the three corporate wall signs are 50 square feet each, totaling 300 square feet. The code suggests single wall signs shall not exceed 75 square feet each, and a cumulative total of no more than 150 square feet. If the commission considers the "emergency" signs to be exempt, the wall signs are compliant.

The "Ambulance" canopy sign is 35 square feet and mounted above the canopy. The code suggests canopy signs are only permitted along street frontage and may not project above the canopy. While not along a street frontage, the canopy covers the ambulance entrance and a variance from the code requirements seems reasonable.

Recommendation

Staff feels the standards of approval outlined in 1171.06 can be met and therefore staff recommends approval of the rezoning from Planned Commercial to Planned Office and approval of the basic development plan with the following conditions:

- Street trees shall be placed every 40-feet along Taylorsville Road.
- The applicant shall comply with Chapter 1181.18 Screening of Service Structures.
- The applicant shall comply with Chapter 1181.21 Lighting Standards.
- The applicant shall comply with Chapter 1182 Landscaping and Screening.
- Wall and canopy signs shall be similar to those submitted in the sign package submitted to the Planning Commission on April 12, 2022.
- Ground signs shall not exceed 6-feet in height.
- Applicant shall comply will all fire code requirements.

Discussion on the rezoning.

Action

Ms. Thomas moved to approve the request by the applicant Hartman I, LLC, for approval of a Basic Development Plan and Rezoning to Planned Office (PO) for property located at 7611 Old Troy Pike (RZ BDP 22-13) in accordance with the recommendation of Staff's Memorandum dated June 4, 2022, and the Planning Commission Decision Record attached thereto.

Seconded by Mr. Jeffries. Roll call showed: YEAS: Mr. Jeffries, Ms. Thomas, and Mr. Walton. NAYS: Ms. Opp and Ms. Vargo. Motion to approve carried 3-2.

5. BASIC DEVELOPMENT PLAN AND REZONING - The applicant, HOMESTEAD DEVELOPMENT, is requesting approval of a Basic Development Plan to construct 135-unit senior community and a 192-unit market rate community on a combined 15.56 acres. Property located at 6209 Brandt Pike (BDP 22-25).

Mr. Sorrell stated that this project grew out from the Brandt Pike Redevelopment Plan (2017), which identified a need and demand for senior housing and market-rate multi-family housing along and near the Brandt Pike corridor. The City subsequently purchased the shopping center to facilitate redevelopment. New developments within this site include: Dayton Metro Library Huber Heights Branch, Dogtown, and the shopping center will be refaced with a brick / stone façade. TIF proceeds from the proposed apartment developments, as well as future developments may fund the façade and public infrastructure upgrades.

The applicant is requesting basic development plan approval for a 184-unit market-rate apartment community and a 135-unit senior apartment community. While this application covers approximately 15.56 acres, the overall area zoned PM exceeds 20 acres.

The area zoned PM has a mix of uses including retail, commercial, public use (library) and planned residential.

All uses being considered are compatible with the neighboring properties.

Extensive natural vegetation exists that will buffer and screen the proposed development and the existing homes to the west.

The overall campus development is focused around a wet detention area and has large areas of open space. The combined proposed residential development sites are approximately 40% open space.

The parking areas are arranged for the convenience of the residents but are broken up with landscape islands and covered parking areas.

Sidewalks are indicated along the future road frontage of non-senior multi-family building. Staff recommends sidewalks also be provided for the senior facility residents.

No sign details were provided for this application but will be submitted during the detailed development phase.

While no height maximum height restriction exists in the PM district, the Brandt Pike Overlay District has a maximum height of three stories or 35 feet. The proposed non-senior apartments have both two- and three-story buildings. The two-story buildings are 34 feet to the roof peak and the three-story buildings are 44 feet to the roof peak. The applicant is proposing the market-rate apartments will have mixture of two- and three-story buildings along the west side of the site, which is closest to the existing single-family neighborhood. This arrangement will breakup the building massing along the western edge and the buildings are sited approximately 150-feet from the back of the single-family homes.

The three-story senior buildings will also be at least 150-feet from the back of the single-family homes. Additionally, the building is oriented in such a way that only the endcaps, and not the full building length, are facing the single-family homes.

Staff feels both the market rate site plan and senior building site plan provides a significant visual buffer and a nine (9) foot variance from the maximum height is acceptable. A landscaping plan has not been submitted at this time. Staff

recommends a mixture of street trees, and clustered plantings along the eastern edge of the market-rate and senior apartments. Staff feels a six-foot high earthen mound is inappropriate for this site and will interfere with pedestrian access from the apartments to the sidewalk network.

The applicant is proposing a five-foot earthen mound and evergreen plantings along the west edge to screen the development from the existing single-family homes.

Areas for parking landscaping are illustrated in the basic development plan. The applicant shall submit additional details during the detailed development phase.

The zoning code requires two-space per multi-family unit. In the non-senior community, the applicant is proposing 357 parking spaces for 184 units, or 1.94 spaces per unit. Of the 184 units, 84 are one-bedroom apartments which are less likely to have two vehicles. Additionally, most communities have begun reducing parking minimums of non-senior multi-family apartments to approximately 1.5 spaces / unit. Staff feels the amount of parking proposed for the non-senior community is adequate.

The applicant is proposing 134 spaces for 135 units, or .99 spaces per unit. Most senior living facilities have a 1:1 parking ratio because the majority of residents either live alone or only have one vehicle in the household. Staff feels the amount of parking provided is acceptable at this time. There is room to provide additional parking in the front of the building if management determines it's necessary in the future. However, at this point in time, staff does not think sacrificing greenspace for parking is necessary.

Staff feels issuing a conditional use permit/approval for this type of development is confusing and unnecessary. Staff recommends incorporating the standards, where appropriate, in the overall basic development plan approval and subsequent detailed development plan approval. This section of the overlay district should be revisited in the future and revised for clarity and intent.

STAFF RECOMMENDATION

It is the staff's opinion the proposal meets the standards outlined in Section 1171.06. Staff recommends approval of the Basic Development Plan submitted on June 3, 2022 to construct approximately 184 market-rate apartments and 134 senior apartments within two residential communities. Staff recommends approval with the following conditions:

- 1) Sidewalks shall be required connecting the senior building and along the future roadway
- 2) All sidewalks shall be a minimum of 5' in width
- 3) Street trees be provided 40-foot on center
- 4) A sign package meeting code shall be submitted with the detailed development plans
- 5) A lighting plan shall be submitted with the detailed development plan
- 6) A landscaping plan shall be submitted with the detailed development plan
- 7) In lieu of mounding and screening along the new roadway, clustered landscaping areas shall be provided between the apartments and sidewalks.
- 8) The applicant will comply with all stormwater requirements, per the City Engineer;

Planning Commission Meeting

June 14, 2022

- 9) The applicant will comply with all Fire Code requirements, per the Huber Heights Fire Department.

Numerous neighbors were present and asked questions about the development.

Action

Ms. Thomas moved to approve the request by the applicant Homestead Development, for approval of a Basic Development Plan to construct 135-unit senior community and a 192-unit market rate community on a combined 15.56 acres. Property located at 6209 Brandt Pike (BDP 22-25) in accordance with the recommendation of Staff's Memorandum dated June 8, 2022, and the Planning Commission Decision Record attached thereto.

Seconded by Mr. Jeffries. Roll call showed: YEAS: Ms. Opp, Ms. Vargo, Mr. Jeffries, Ms. Thomas, and Mr. Walton. NAYS: None. Motion to approve carried 5-0.

CITY OF HUBER HEIGHTS
STATE OF OHIO

ORDINANCE NO. 2022-O-

TO APPROVE A BASIC DEVELOPMENT PLAN AND REZONING TO PLANNED OFFICE (PO) FOR THE PROPERTY LOCATED AT 7611 OLD TROY PIKE AND FURTHER IDENTIFIED AS PARCEL NUMBER P70 04005 0140 ON THE MONTGOMERY COUNTY AUDITOR’S MAP AND ACCEPTING THE RECOMMENDATION OF THE PLANNING COMMISSION (CASE BDP 22-13).

WHEREAS, the citizens of Huber Heights require the efficient and orderly planning of land uses within the City; and

WHEREAS, the City Planning Commission has reviewed Case BDP 22-13 and on April 12, 2022, recommended approval by a vote of 4-0 of the Basic Development Plan and Rezoning to Planned Office (PO); and

WHEREAS, the City Council has considered the issue.

NOW, THEREFORE, BE IT ORDAINED by the City Council of Huber Heights, Ohio that:

Section 1. The application requesting approval of a Basic Development Plan and Rezoning to Planned Office (PO) (Case BDP 22-13) is hereby approved in accordance with the Planning Commission’s recommendation and following conditions:

1. Street trees shall be placed every 40-feet along Taylorsville Road.
2. The applicant shall comply with Chapter 1181.18 – Screening of Service Structures.
3. The applicant shall comply with Chapter 1181.21 – Light Standards.
4. The applicant shall comply with Chapter 1182 – Landscaping and Screening.
5. Taylorsville Road access shall comply with the City Engineer’s requirements.
6. The applicant shall comply with all Fire Code requirements.

Section 2. It is hereby found and determined that all formal actions of this Council concerning and relating to the passage of this Ordinance were adopted in an open meeting of this Council, and that all deliberations of this Council and of any of its Committees that resulted in such formal action were in meetings open to the public and in compliance with all legal requirements including Section 121.22 of the Ohio Revised Code.

Section 3. This Ordinance shall go into effect upon its passage as provided by law and the Charter of the City of Huber Heights.

Passed by Council on the ____ day of ____, 2022;
____ Yeas; ____ Nays.

Memorandum

Staff Report for Meeting of May 24, 2022

To: Huber Heights City Planning Commission

From: Aaron K. Sorrell, Interim City Planner
Community Planning Insights

Date: May 18, 2022

Subject: RZ 22-17 Request to Replat and Rezone 3.55 Acres from Agriculture to
Planned Industrial

Application dated March 28, 2022

Department of Planning and Zoning

City of Huber Heights

APPLICANT/OWNER: Michael Skilwies – Applicant / Owner

DEVELOPMENT NAME: N/A

ADDRESS/LOCATION: 9416 Taylorsville Rd.

ZONING/ACREAGE: A – Agricultural (5 acres)

EXISTING LAND USE: Residential

**ZONING
ADJACENT LAND:** Agricultural

REQUEST: The applicant requests approval of a replat and rezoning of 3.55 acres from Agriculture to Planned Industrial to allow the continued operation of their truck, diesel and heavy equipment repair business.

ORIGINAL APPROVAL: N/A

APPLICABLE HHCC: Chapter 1109, 1171, 1177

CORRESPONDENCE: In Favor –
In Opposition –

STAFF ANALYSIS AND RECOMMENDATION:

Overview:

The applicant has been operating a truck and heavy equipment repair business at this location for many years. Based on complaints received in August 2021, Zoning staff-initiated enforcement action on the applicant's business based on the fact that non-farm related truck and heavy equipment repair is not permitted in the Agricultural District. In August 2021 the applicant requested a use variance for the diesel truck and equipment repair operations. The BZA unanimously denied the application at their October 6, 2021 meeting.

The applicant was provided with the lot split and rezoning application shortly after the BZA decision as an alternative path to allow the continued operation of the repair facility. On or about March 28, 2022 Zoning staff filed minor misdemeanor charges for the continued operation of repair facility and the applicant subsequently filed the application for a lot split and rezoning.

Applicable Subdivision and Zoning Regulations

The applicable subdivision regulations include: 1109 Subdivision Design Standards

The applicable zoning chapters include: 1171 General Provisions, 1177 Planned Industrial District. The relevant sections are cited and discussed below:

Chapter 1109 Subdivision Design Standards

1109.01 General statement.

The regulations in Sections 1109.02 to 1109.22, inclusive, shall control the manner in which streets, lots and other elements of a subdivision are arranged on the land. These design controls shall help ensure convenient and safe streets, creation of usable lots, provision of space for public utilities and reservation of land for recreational uses. The planning of attractive and functional neighborhoods shall be promoted, minimizing the undesirable features of unplanned, haphazard growth.

The City Planning Commission has the responsibility for reviewing the design of each future subdivision early in its design development. The Commission shall ensure that all of the requirements of Sections 1109.02 to 1109.22, inclusive, are met.

1109.02 Conformity to development plans and zoning.

The arrangement, character, width and location of all thoroughfares or extensions thereof shall conform with the City's Official Thoroughfare Plan. Thoroughfares not contained in the aforementioned plan shall conform to the recommendation of the City Planning Commission based upon the design standards set forth in Sections 1109.03 to 1109.14, inclusive. In addition, no final plat of land within the area in which an existing Zoning Ordinance is in effect shall be approved unless it conforms with such Ordinance.

1109.03 Suitability of land.

If the City Planning Commission finds that land proposed to be subdivided is unsuitable for subdivision development due to flooding, bad drainage, topography, inadequate water supply, schools, transportation facilities and other such conditions which may endanger health, life or property; and, if from investigations conducted by the public agencies concerned, it is determined that in the best interest of the public the land should not be developed for the purpose proposed, the Commission shall not approve the land for subdivision unless adequate methods are advanced by the subdivider for solving the problems that will be created by the development of the land.

1109.17 Lots.

The following regulations shall govern the design and layout of lots:

- (a) The lot arrangement and design shall be such that all lots shall provide satisfactory building sites, properly related to topography and the character of surrounding development.
- (b) All lots shall conform to or exceed the requirements of these subdivision regulations and the zoning district requirements for the district in which they are located and the use for which they are intended.
- (c) Where no public utilities exist, the lots shall meet the requirements of the Montgomery County Board of Health.
- (d) All side lots shall be at right angles to street lines and radial to curved street lines, except where the City Planning Commission determines that a variation to this rule would provide a better layout.
- (e) Lots with double frontage shall be avoided except where the Commission determines that it is essential to provide separation of residential development from arterial streets.
- (f) No corner lot shall have a width at the building line of less than 75 feet, except as authorized by the Zoning Ordinance.
- (g) Except as provided in Section 1109.17(i) the maximum depth of a lot shall not be greater than three times the width of the lot, except lots which contain an area of five acres or more. Lots containing over five acres shall not be less than 200 feet in width at any location; they should be of such shape and dimensions as to render the possible resubdivision of any such parcels at some later date into lots and streets which meet the requirements of these regulations, except as authorized in Chapter 1143.
- (h) Additional lot depth may be required where a residential lot in a subdivision backs up to a railroad right-of-way, a high-pressure gasoline or gas line, open drainage ditch, an arterial street, an industrial area or other existing land use which may have a detrimental effect on the residential use of the property, and where no street is provided at the rear of such lot. Where a residential lot has its side lot line adjacent to any of the aforementioned an appropriate additional width may also be required.
- (i) The minimum lot size where public sewer or water is not available shall be one acre with a minimum frontage of 200 feet.

Where soil conditions are of such nature that proper operation of wells and septic systems may be impaired, the City Planning Commission may increase the size of any or all lots in the subdivision.

Where soils are classified as prime agricultural soils as defined in these regulations, or are adjacent to prime agricultural soils, the Commission may permit the alteration of these requirements where the subdivider demonstrates that such alteration is necessary and desirable in order to preserve the prime agricultural soils, provided that the subdivision is not contrary to applicable zoning regulations

Chapter 1171 General Provisions

1171.01 Purpose.

Planned Unit Developments Districts may be permitted as amendments to the zoning map, after application and approval of specific and detailed plans, where tracts suitable in location and character for the uses and structures proposed are to be planned and developed as units. The provisions of this chapter are adopted to unify planning and development in such districts. Applications for rezoning of land into a Planned Unit Development District shall be granted only when the basic development plan for the project is such that the public health, safety and morals shall not be jeopardized by a departure from the restrictions on corresponding uses in the standard zoning district. PUD rezonings may be approved only when a basic development plan for the area has been approved by Council. A detailed development plan shall then be approved for zoning permit to be approved for development in the District. Normally the detailed development plan shall be approved by the Planning Commission after the rezoning and basic development plan have been approved by Council. Owners shall have the option however, of submitting a combined basic and detailed development plan ("combined development plan") if they should so desire for some or all of the site.

(Ord. 93-O-602, Passed 3-22-93)

1171.05 Contents of basic development plan.

- (a) The basic development plan shall consist of at least the following information together with such other data and materials as may be required by the City:*
 - (1) Site plan showing the actual shape and dimensions of the lot to be built upon or to be changed in its use together with the location of the existing and proposed structures with approximate square footages, number of stories including heights of structures;*
 - (2) Typical elevation views of the front and side of each type of building;*
 - (3) Planning location and dimensions of all proposed drives, service access road, sidewalks and curb openings;*
 - (4) Parking lot areas (show dimensions of a typical parking space), unloading areas, fire lanes and handicapped parking;*
 - (5) Landscaping plan, walls and fences;*
 - (6) Storm water detention and surface drainage;*
 - (7) Exterior lighting plan;*
 - (8) Vehicular circulation pattern;*
 - (9) Location and square footage of signs;*
 - (10) Topographic survey; and*
 - (11) Listing of proposed uses taken from the list of permitted and special uses of the PUD zoning district to which rezoning is being sought.*
- (b) The Planning Commission shall schedule both the proposed rezoning and the issue of approval of the basic development plan for a combined public hearing, following which it shall make its recommendation indicating approval, approval with modification or disapproval.*

(Ord. 2006-O-1655, Passed 9-25-05)

1171.06 General standards for approval.

The Planning Commission shall review the application, prepared development plan and the facts presented at the hearing. The applicant shall have the burden of proof. No approval shall be given unless the Commission shall find by a preponderance of the evidence that such PUD on the proposed locations:

- (a) Is consistent with official thoroughfare plan, comprehensive development plan and other applicable plans and policies;
- (b) Could be substantially completed within the period of time specified in the schedule of development submitted by the developer;
- (c) Is accessible from public roads that are adequate to carry the traffic that shall be imposed upon them by the proposed development. Further, the streets and driveways on the site of the proposed development shall be adequate to serve the residents or occupants of the proposed development;
- (d) Shall not impose an undue burden on public services such as utilities, fire and police protection, and schools;
- (e) Contains such proposed covenants, easements and other provisions relating to the proposed development standards as may reasonably be required for the public health, safety and welfare;
- (f) Shall be landscaped or otherwise improved and the location and arrangement of structures, parking areas, walks, lighting and appurtenant facilities shall be compatible with the existing intended uses, and any part of a PUD not used for structures, parking and loading areas, or accessways;
- (g) Shall preserve natural features such as water courses, trees and rock outcrops, to the degree possible, so that they can enhance the overall design of the PUD;
- (h) Is designed to take advantage of the existing land contours in order to provide satisfactory road gradients and suitable building lots and to facilitate the provision of proposed services;
- (i) Shall place underground all electric and telephone facilities, street light wiring and other wiring conduits and similar facilities in any development which is primarily designed for or occupied by dwellings, unless waived by the Commission because of technical reasons;
- (j) Shall not create excessive additional requirements at public cost of public facilities and services and shall not be detrimental to the economic welfare of the community;
- (k) Shall not involve uses, activities, processes, materials, equipment and conditions of operation that shall be detrimental to any persons, property or the general welfare by reason of excessive production of traffic, noise, smoke, fumes, glare or odors; and
- (l) Rezoning of the land to the PUD District and approval of the development plan shall not adversely affect the public peace, health, morals, safety or welfare.

1171.091 Planning commission/council review.

It is the purpose of the Planning Development regulations to encourage property owners to develop their land in efficient and effective ways. It is the intent of these regulations to encourage land uses which may not always meet traditional zoning rules. Inherent in these Planned Development regulations is an opportunity for property owners to develop their sites without requiring strict compliance with all zoning regulations where the overall plan is deemed to be in the best interest of the City. During review of a Basic or Detailed Development Plan by the Planning Commission or City Council, all requirements within Part 11, Title 7 of the Code are to be used as guidelines and may be varied as part of the Basic or Detailed Development Plan if it is determined that such deviation will not materially adversely affect neighboring properties or the community as a whole, any such variation of these requirements does not change the overall plan and character of the proposed development, and the variance does not have the effect of nullifying the intent and purpose of these regulations or the Zoning Ordinance. In granting variances or modifications, the Commission or Council may require such conditions as shall, in its judgement, secure substantially the objective of the standards or requirements so varied or modified.

Chapter 1179 Planned Industrial District

1177.01 Principal permitted uses.

Any principal permitted use in the Industrial Districts, I-1 and I-2, and PO Planned Office District shall be permitted. Manufacturing, processing, warehousing, industrial service activities, office and associated activities may be developed, operated and maintained within a single, organized development in accordance with an approved Planned Industrial Development District.

1177.02 Accessory uses.

Only the following accessory uses shall be permitted in this District:

- (a) Uses customarily incidental to all principal permitted uses; and
- (b) Temporary buildings and uses incidental to construction work, which buildings shall be removed upon the completion or abandonment of the construction work.

1177.03 Development standards.

Except when specifically modified herein, the provisions of Chapter 1181, "General Provisions" shall govern. In addition, the following developmental standards shall apply:

- (a) *Minimum Land Area Requirements.*
 - (1) No minimum land area shall be required.
- (b) *Site Planning, General Design Standards and Improvement Requirements.*
 - (1) Total land occupancy by all buildings for a Planned Industrial Development District shall not exceed 75 percent of the area of the tract to be developed.
 - (2) Planned Industrial Development Districts shall have access to at least one major thoroughfare as established on the Official Thoroughfare Plan.
 - (3) Landscaping and use of yards shall be as follows:
 - A. Required side and rear yards shall be maintained in landscaping and shall not be used for off-street parking along all property lines which abut residential or PM districts. The

landscaping shall include, at a minimum, a six-foot high wooden or vinyl fence structure, earth mound, or wall with an opaqueness of 100 percent.

- B. Any front, side or rear yard that fronts a public street is required to be landscaped including street trees as outlined in Chapter 1181 and additional landscaping as determined appropriate by the Planning Commission.
 - C. The project area, where it abuts another business, office, or industrial district, shall be maintained in landscaping and not used for parking, to the extent of a minimum of 15-foot depth along property lines.
- (4) Off-street parking and loading spaces shall be required as set forth in Chapter 1185. In addition:
- A. Off-street parking and loading facilities shall be provided, with area, location and design appropriate to the needs and specific uses of the industrial project. Space designated for off-street parking shall not be used for off-street loading.
 - B. Off-street parking and loading facilities shall not be located in the front yard of any property.
 - C. Off-street parking and loading shall be of sufficient size to accommodate normal peak loads.
 - D. Loading docks shall not be placed between the building and the front lot line.
- (5) There shall be a side and rear yard setback of 25 feet or equal to the heights of the principal building, whichever is greater. If adjacent to a residential district or PM District, a minimum of 75 feet.
- (6) All streets within the Planned Industrial Development District shall have a width of not less than 40 feet and shall comply with the City's construction standards.
- (7) The distribution systems for utilities are required to be underground.
- (8) Building materials. The front facade of a principal building facing any public street on any property in the PI District shall be required to be constructed of at least 30 percent masonry materials that will extend along the entire length of the facade of the principal building. For the purposes of this section, the front facade of a principal building shall include any wall of the principal building that is parallel to the public street and is located within 100 feet of the established building line. The Planning Commission shall determine the appropriateness of the proposed masonry material design. In the case of a property which has frontage on more than one public street, the facade facing the public street from which access to the property is provided shall be considered the front facade of the building. In addition to the front facade, the side or rear facades of the principal building that face Interstate 70 or a State Route shall be constructed of at least 30 percent masonry materials that shall be clearly visible to Interstate 70 or the State Route unless a sufficient landscaping buffer is provided and is determined appropriate by Planning Commission. Recommended masonry materials include brick, split face block, tilt-up concrete, dryvit or any similar material determined appropriate by the Planning Commission.
- (9) Street tree requirement. Please refer to Chapter 1181 for street tree requirements.
- (10) Trash container enclosures. Please refer to Chapter 1181 for trash container enclosure requirements.

1177.04 Conditions.

All uses shall be conducted wholly within a completely enclosed building except for parking, loading and unloading facilities, which shall all be off-street. No use shall be permitted to be established or maintained which

by reason of its nature or manner of operation is or may become hazardous, noxious or offensive owing to the emission of odor, dust, smoke, cinders, gas fumes, noise, vibration, refuse matter or water-carried waste.

1177.05 Special uses.

The following special uses and no other shall be permitted in the "P1" District.

- (a) Sexually oriented businesses in accordance with Chapter 1135. Provided no sexually oriented business shall be located within a 500-foot radius of any other sexually oriented business. No sexually oriented business shall be located within a 500-foot radius from any residential use or residential zoning district, any public park, church or church grounds, public or private school, kindergarten or nursery school. No sexually oriented business shall be located within 1,000 feet of the right-of-way of, or be on a lot with frontage upon any divided, limited access highway including but not limited to applicable portions of Interstate 70, Ohio Route 4 and Ohio Route 235. Measurement of distances shall be as provided in Section 735.04 of the City Code of Huber Heights.

Subdivision Standards Analysis:

The following is the analysis of the subdivision and zoning regulations as applied to the applicant's proposal to subdivide a five-acre parcel into two lots: Lot 1: A 1.30-acre lot zoned Agricultural; Lot 2: A 3.55-acre lot requesting to be zoned Planned Industrial.

Proposed Lot 1 Analysis:

Use: Conforming (residential uses are permitted in the Agricultural District)

Lot Size: 1.3 acres – Conforms to zoning regulations (min. 1 acre required)

Lot Frontage: 158.06 feet – Does not conform to zoning code regulations
(Zoning code requires 200 feet. (Section 1142.05))

Yards:

Front: Conforming (min 60 feet)

Side: Conforming (min 30 feet)

Rear: Conforming (min 50 feet)

Other Issues:

There is no public water or sewer currently available along this portion of Taylorsville Road. Therefore, the proposed lot does not meet 1109.17(i) of the subdivision regulations: The minimum lot size where public sewer or water is not available shall be one acre with a minimum frontage of 200 feet.

Proposed Lot 2 Analysis:

Use: Proposed use of truck / heavy equipment repair is permitted in the Planned Industrial District

Lot Size: 3.56 acres – Conforms to zoning regulations (No min. area required)

Lot Frontage: 41.43 feet – Conforms to zoning regulations (35 feet is min. required)

Yards:

Front: Conforming (min 50 feet)

Side: Conforming (min 25 feet)

Rear: Conforming (min 25 feet)

Other Issues:

There is no public water or sewer currently available along this portion of Taylorsville Road. Therefore, the proposed lot does not meet 1109.17(i) of the subdivision regulations: The minimum lot size where public sewer or water is not available shall be one acre with a minimum frontage of 200 feet.

Staff Analysis

The subdivision of the 5-acre parcel into two new lots will create one minor nonconformity, which is Lot 1, will have less frontage than required by the zoning code. The subdivision regulations do not prohibit flag lots and there are examples of rural non-conforming lots of similar type. That being said, it is poor planning practice to encourage the creation of non-conforming lots.

Staff recommends the record plan only be approved if Planning Commission recommends approval of the rezoning.

Zoning Standards Analysis:

This analysis is based on the rezoning application submitted on March 28, 2022. The zoning code assumes that rezonings to planned unit development are part of a redevelopment or new construction project. The applicant has not indicated they are proposing any improvements to the site, and has not submitted a formal basic development plan. Therefore, staff is assuming no improvements are planned for the property, and the record plan survey dated May 4, 2022 will serve as the basic development plan.

1177.01 Principal permitted uses.

Any principal permitted use in the Industrial Districts, I-1 and I-2, and PO Planned Office District shall be permitted. Manufacturing, processing, warehousing, industrial service activities, office and associated activities may be developed, operated and maintained within a single, organized development in accordance with an approved Planned Industrial Development District.

The proposed truck and heavy equipment repair is principally permitted within the Planned Industrial District.

1177.03 Development standards.

Except when specifically modified herein, the provisions of Chapter 1181, "General Provisions" shall govern. In addition, the following developmental standards shall apply:

- (a) *Minimum Land Area Requirements.*

- (1) No minimum land area shall be required.

The proposed replat and rezoning results in a Planned Industrial site of approximately 3.55 acres.

(b) *Site Planning, General Design Standards and Improvement Requirements.*

- (1) Total land occupancy by all buildings for a Planned Industrial Development District shall not exceed 75 percent of the area of the tract to be developed.

As indicated by the record plan, the occupancy for the PI district is significantly less than 75 percent of the area. Additionally, the applicant has not indicated any additional improvements are intended for the site.

- (2) Planned Industrial Development Districts shall have access to at least one major thoroughfare as established on the Official Thoroughfare Plan.

Taylorville Road is a major thoroughfare as established on the Official Thoroughfare Plan.

- (3) Landscaping and use of yards shall be as follows:

- A. Required side and rear yards shall be maintained in landscaping and shall not be used for off-street parking along all property lines which abut residential or PM districts. The landscaping shall include, at a minimum, a six-foot high wooden or vinyl fence structure, earth mound, or wall with an opaqueness of 100 percent.
- B. Any front, side or rear yard that fronts a public street is required to be landscaped including street trees as outlined in Chapter 1181 and additional landscaping as determined appropriate by the Planning Commission.
- C. The project area, where it abuts another business, office, or industrial district, shall be maintained in landscaping and not used for parking, to the extent of a minimum of 15-foot depth along property lines.

No additional landscaping or buffering is indicated on any plans submitted to date. However, with exception to the street tree requirement, no screening along the side yards is required.

- (4) Off-street parking and loading spaces shall be required as set forth in Chapter 1185. In addition:

- A. Off-street parking and loading facilities shall be provided, with area, location and design appropriate to the needs and specific uses of the industrial project. Space designated for off-street parking shall not be used for off-street loading.
- B. Off-street parking and loading facilities shall not be located in the front yard of any property.
- C. Off-street parking and loading shall be of sufficient size to accommodate normal peak loads.
- D. Loading docks shall not be placed between the building and the front lot line.

The applicant has not proposed any off-street parking or loading area improvements. A large gravel parking area exists in front of the existing building where repairs are currently taking place. Staff does not feel additional parking is warranted and will distract from the rural nature of the neighborhood.

- (5) There shall be a side and rear yard setback of 25 feet or equal to the heights of the principal building, whichever is greater. If adjacent to a residential district or PM District, a minimum of 75 feet.

There is approximately 25 feet between the existing barn and the east property line. The applicant has not provided building heights, therefore if the building is greater than 25 feet, the structure will be a legally non-conforming structure if the rezoning is approved.

- (6) All streets within the Planned Industrial Development District shall have a width of not less than 40 feet and shall comply with the City's construction standards.

No new streets are proposed.

- (7) The distribution systems for utilities are required to be underground.

No new utilities are proposed.

- (8) Building materials. The front facade of a principal building facing any public street on any property in the PI District shall be required to be constructed of at least 30 percent masonry materials that will extend along the entire length of the facade of the principal building. For the purposes of this section, the front facade of a principal building shall include any wall of the principal building that is parallel to the public street and is located within 100 feet of the established building line. The Planning Commission shall determine the appropriateness of the proposed masonry material design. In the case of a property which has frontage on more than one public street, the facade facing the public street from which access to the property is provided shall be considered the front facade of the building. In addition to the front facade, the side or rear facades of the principal building that face Interstate 70 or a State Route shall be constructed of at least 30 percent masonry materials that shall be clearly visible to Interstate 70 or the State Route unless a sufficient landscaping buffer is provided and is determined appropriate by Planning Commission. Recommended masonry materials include brick, split face block, tilt-up concrete, dryvit or any similar material determined appropriate by the Planning Commission.

No new buildings are proposed. If the rezoning is approved, any new buildings proposed on this lot shall be subject to this provision.

- (9) Street tree requirement. Please refer to Chapter 1181 for street tree requirements.

No landscaping plans were submitted with the application.

- (10) Trash container enclosures. Please refer to Chapter 1181 for trash container enclosure requirements.

No new trash containers are proposed.

1177.04 Conditions.

All uses shall be conducted wholly within a completely enclosed building except for parking, loading and unloading facilities, which shall all be off-street. No use shall be permitted to be established or maintained which by reason of its nature or manner of operation is or may become hazardous, noxious or offensive owing to the emission of odor, dust, smoke, cinders, gas fumes, noise, vibration, refuse matter or water-carried waste.

If the rezoning is approved, the applicant will be required to move his repair operations wholly indoors. This requirement was brought to the attention of the applicant, and he indicated he understood the requirements and wished to proceed with the rezoning request.

While the applicant has agreed to these conditions, it is important to note that the site under discussion is not readily visible from the right-of-way, in fact it is nearly 400 feet from Taylorsville Road. Therefore, any violations of this condition will be almost impossible for code enforcement staff to easily recognize and thus enforcement of this condition will likely only be triggered by complaints made by adjacent property owners or residents.

Staff Analysis of Standards for approval

The Planning Commission shall review the application, prepared development plan and the facts presented at the hearing. The applicant shall have the burden of proof. No approval shall be given unless the Commission shall find by a preponderance of the evidence that such PUD on the proposed locations:

- (a) Is consistent with official thoroughfare plan, comprehensive development plan and other applicable plans and policies;*

The applicant is seeking relief for the illegal use by requesting a rezoning to Planned Industrial after the BZA denied the use variance. The comprehensive plan indicates this area should be agricultural/low density residential. The proposed rezoning is not consistent with the comprehensive plan.

In his application, the applicant references the industrially zoned land within a ¼ to ½ mile of this site. It should be noted that the majority of that land is consistent with the comprehensive plan and has access to public water and sewer. Neither are applicable to the applicant's site.

- (b) Could be substantially completed within the period of time specified in the schedule of development submitted by the developer;*

N/A. The applicant is not proposing any improvements to the property.

- (c) Is accessible from public roads that are adequate to carry the traffic that shall be imposed upon them by the proposed development. Further, the streets and driveways on the site of the proposed development shall be adequate to serve the residents or occupants of the proposed development;*

Taylorsville Road is classified as a major thoroughfare in the City Thoroughfare Plan. The proposed record plan illustrates a dedication of 35 feet of Right of Way, consistent with the Thoroughfare Plan.

- (d) Shall not impose an undue burden on public services such as utilities, fire and police protection, and schools;*

This use has not historically imposed an undue burden on public services.

- (e) *Contains such proposed covenants, easements and other provisions relating to the proposed development standards as may reasonably be required for the public health, safety and welfare;*

N/A

- (f) *Shall be landscaped or otherwise improved and the location and arrangement of structures, parking areas, walks, lighting and appurtenant facilities shall be compatible with the existing intended uses, and any part of a PUD not used for structures, parking and loading areas, or accessways;*

No improvements to the property have been proposed by the applicant. However, the applicant has stated he is willing to provide buffering for the adjacent neighboring properties.

- (g) *Shall preserve natural features such as water courses, trees and rock outcrops, to the degree possible, so that they can enhance the overall design of the PUD;*

N/A

- (h) *Is designed to take advantage of the existing land contours in order to provide satisfactory road gradients and suitable building lots and to facilitate the provision of proposed services;*

N/A

- (i) *Shall place underground all electric and telephone facilities, street light wiring and other wiring conduits and similar facilities in any development which is primarily designed for or occupied by dwellings, unless waived by the Commission because of technical reasons;*

No improvements to the property have been proposed by the applicant.

- (j) *Shall not create excessive additional requirements at public cost of public facilities and services and shall not be detrimental to the economic welfare of the community;*

No additional public facilities are anticipated due to this rezoning request.

- (k) *Shall not involve uses, activities, processes, materials, equipment and conditions of operation that shall be detrimental to any persons, property or the general welfare by reason of excessive production of traffic, noise, smoke, fumes, glare or odors; and*

This rezoning request ultimately arose due to complaints from neighboring property owners or residents regarding the operation of a truck / heavy equipment repair facility in their neighborhood. According to the minutes of the BZA hearing, complaints, centered on the noise of the diesel engines and traffic congestion due to vehicles moving on and off site. Additional concerns were raised about the potential contamination of drinking water wells due to fluid leaks or spills.

Noise, smoke and fumes are likely an occasional byproduct of heavy engine repair. If the planning commission is inclined to approve the rezoning, limiting the hours of operation to a traditional M-F, 8am – 6pm may reduce the impacts of this facility on the neighboring residents, especially in the evenings and weekends.

- (1) Rezoning of the land to the PUD District and approval of the development plan shall not adversely affect the public peace, health, morals, safety or welfare.

As indicated above, neighbors have expressed concerns about noise from the diesel engines and ground water pollution from this operation during the BZA hearing. All residents along this segment of Taylorsville Road get their drinking water from private wells, and this concern should not be overlooked.

STAFF RECOMMENDATION

It is the staff's opinion the rezoning to Planned Industrial does not meet the standards outlined in Section 1171.06. As outlined through the staff analysis above, the application does not meet the standards of Section 1171.06(a), (k), and (L). Therefore, staff recommends denial of the replat and rezoning from Agricultural to Planned Industrial.

If the Planning Commission determines the rezoning request is consistent with the standards outlined in Section 1171.06, staff recommends the following conditions:

- 1) The applicant shall obtain all necessary zoning and business licenses required by the City of Huber Heights;
- 2) All business and repair operations shall occur indoors, consistent with the requirements of the Planned Industrial District;
- 3) No outdoor storage of equipment, parts, inoperable or junk vehicles, or other materials associated with the truck and equipment repair business shall be permitted;
- 4) Repaired vehicles shall be stored on site no longer than five consecutive days;
- 5) The applicant shall comply with the Huber Heights Fire Department regarding the onsite storage of hazardous and/or industrial materials;
- 6) Hours of operation shall be limited to 8:00am – 6:00pm, Monday through Friday;

Planning Commission Action

Planning Commission may take the following actions with a motion:

- 1) Recommend approval of the rezoning and Basic Development Plan;
- 2) Recommend denial of the rezoning and Basic Development Plan (the Commission should state the specific reasons for denial); or
- 3) Table the application for additional information.

Planning Commission Decision Record

WHEREAS, on March 28, 2022, the applicant, Michael Skilwies, requested approval of a Replat and Rezone of 3.55 acres from Agriculture to Planned Industrial at 9416 Taylorsville Road (Case RZ 22-17), and;

WHEREAS, on May 24, 2022, the Planning Commission did meet and fully discuss the details of the request.

NOW, THEREFORE, BE IT RESOLVED that the Planning Commission hereby approved the request.

Ms. Thomas moved to approve the application by the applicant, Michael Skilwies, for approval of a Replat and Rezone of 3.55 acres from Agriculture to Planned Industrial at 9416 Taylorsville Road Parcel Number P70 03902 0018 of the Montgomery County Auditors Map (Case RZ 22-17) in accordance with the recommendation of Staff's Memorandum dated May 24, 2022, with the following conditions:

1. The applicant shall obtain all necessary zoning and business licenses required by the City of Huber Heights;
2. All business and repair operations shall occur indoors, consistent with the requirements of the Planned Industrial District;
3. No outdoor storage of equipment, parts, inoperable or junk vehicles, or other materials associated with the truck and equipment repair business shall be permitted;
4. Repaired vehicles shall be stored on site no longer than five consecutive days;

5. The applicant shall comply with the Huber Heights Fire Department regarding the onsite storage of hazardous and/or industrial materials;
6. Hours of operation shall be limited to 8:00am – 6:00pm, Monday through Friday;
7. The applicant shall pave and widen the driveway to minimum width of 35';
8. The applicant shall install screening along west property line, subject to detailed development plan approval.

Seconded by Mr. Jeffries. Roll call showed: YEAS: Ms. Vargo. NAYS: Ms. Opp, Mr. Jeffries, Ms. Thomas, and Mr. Walton. Motion to approve denied 4-1 .

Terry Walton, Chair
Planning Commission

Date

**Planning Commission
May 24, 2022, Meeting
City of Huber Heights**

- I. Chair Terry Walton called the meeting to order at approximately 6:00 p.m.
- II. Present at the meeting: Mr. Jeffries, Ms. Opp, Ms. Thomas, Ms. Vargo and Mr. Walton.

Members absent: None.

Staff Present: Aaron K. Sorrell, Interim City Planner, and Geri Hoskins, Planning & Zoning Administrative Secretary.

III. Opening Remarks by the Chairman and Commissioners

IV. Citizens Comments

None.

V. Swearing of Witnesses

Mr. Walton explained the proceedings of tonight's meeting and administered the sworn oath to all persons wishing to speak or give testimony regarding items on the agenda. All persons present responded in the affirmative.

VI. Pending Business

1. None

VII. New Business

1. **REZONING AND LOT SPLIT** - The applicant, **MICHAEL SKILWIES**, is requesting approval of a Replat and Rezoning from A (Agricultural) to PI (Planned Industrial). Property located at 9416 Taylorsville Road (Case RZ 22-17).

Mr. Sorrell stated that the applicant has been operating a truck and heavy equipment repair business at this location for many years. Based on complaints received in August 2021, Zoning staff-initiated enforcement action on the applicant's business based on the fact that non-farm related truck and heavy equipment repair is not permitted in the Agricultural District. In August 2021 the applicant requested a use variance for the diesel truck and equipment repair operations. The BZA unanimously denied the application at their October 6, 2021 meeting.

The applicant was provided with the lot split and rezoning application shortly after the BZA decision as an alternative path to allow the continued operation of the repair facility. On or about March 28, 2022 Zoning staff filed minor misdemeanor charges for the continued operation of repair facility and the applicant subsequently filed the application for a lot split and rezoning.

Applicable Subdivision and Zoning Regulations

The applicable subdivision regulations include: 1109 Subdivision Design Standards

The applicable zoning chapters include: 1171 General Provisions, 1177 Planned Industrial District.

Subdivision Standards Analysis:

The following is the analysis of the subdivision and zoning regulations as applied to the applicant's proposal to subdivide a five-acre parcel into two lots: Lot 1: A 1.30-acre lot zoned Agricultural; Lot 2: A 3.55-acre lot requesting to be zoned Planned Industrial.

Proposed Lot 1 Analysis:

Use: Conforming (residential uses are permitted in the Agricultural District)

Lot Size: 1.3 acres – Conforms to zoning regulations (min. 1 acre required)

Lot Frontage: 158.06 feet – Does not conform to zoning code regulations
(Zoning code requires 200 feet. (Section 1142.05))

Yards:

Front: Conforming (min 60 feet)

Side: Conforming (min 30 feet)

Rear: Conforming (min 50 feet)

Other Issues:

There is no public water or sewer currently available along this portion of Taylorsville Road. Therefore, the proposed lot does not meet 1109.17(i) of the subdivision regulations: The minimum lot size where public sewer or water is not available shall be one acre with a minimum frontage of 200 feet.

Proposed Lot 2 Analysis:

Use: Proposed use of truck / heavy equipment repair is permitted in the Planned Industrial District

Lot Size: 3.56 acres – Conforms to zoning regulations (No min. area required)

Lot Frontage: 41.43 feet – Conforms to zoning regulations (35 feet is min. required)

Yards:

Front: Conforming (min 50 feet)

Side: Conforming (min 25 feet)

Rear: Conforming (min 25 feet)

Other Issues:

There is no public water or sewer currently available along this portion of Taylorsville Road. Therefore, the proposed lot does not meet 1109.17(i) of the subdivision regulations: The minimum lot size where public sewer or water is not available shall be one acre with a minimum frontage of 200 feet.

Staff Analysis

The subdivision of the 5-acre parcel into two new lots will create one minor nonconformity, which is Lot 1, will have less frontage than required by the zoning code. The subdivision regulations do not prohibit flag lots and there are examples of rural non-conforming lots of similar type. That being said, it is poor planning practice to encourage the creation of non-conforming lots.

Staff recommends the record plan only be approved if Planning Commission recommends approval of the rezoning.

Zoning Standards Analysis:

This analysis is based on the rezoning application submitted on March 28, 2022. The zoning code assumes that rezonings to planned unit development are part of a redevelopment or new construction project. The applicant has not indicated they are proposing any improvements to the site, and has not submitted a formal basic development plan. Therefore, staff is assuming no improvements are planned for the property, and the record plan survey dated May 4, 2022 will serve as the basic development plan.

The proposed truck and heavy equipment repair is principally permitted within the Planned Industrial District.

As indicated by the record plan, the occupancy for the PI district is significantly less than 75 percent of the area. Additionally, the applicant has not indicated any additional improvements are intended for the site. Taylorsville Road is a major thoroughfare as established on the Official Thoroughfare Plan.

No additional landscaping or buffering is indicated on any plans submitted to date. However, with exception to the street tree requirement, no screening along the side yards is required.

The applicant has not proposed any off-street parking or loading area improvements. A large gravel parking area exists in front of the existing building where repairs are currently taking place. Staff does not feel additional parking is warranted and will distract from the rural nature of the neighborhood.

No new buildings are proposed. If the rezoning is approved, any new buildings proposed on this lot shall be subject to this provision.

If the rezoning is approved, the applicant will be required to move his repair operations wholly indoors. This requirement was brought to the attention of the applicant, and he indicated he understood the requirements and wished to proceed with the rezoning request.

While the applicant has agreed to these conditions, it is important to note that the site under discussion is not readily visible from the right-of-way, in fact it is nearly 400 feet from Taylorsville Road. Therefore, any violations of this condition will be almost impossible for code enforcement staff to easily recognize and thus enforcement of this condition will likely only be triggered by complaints made by adjacent property owners or residents

The applicant is seeking relief for the illegal use by requesting a rezoning to Planned Industrial after the BZA denied the use variance. The comprehensive plan indicates this area should be agricultural/low density residential. The proposed rezoning is not consistent with the comprehensive plan.

In his application, the applicant references the industrially zoned land within a ¼ to ½ mile of this site. It should be noted that the majority of that land is consistent with the comprehensive plan and has access to public water and sewer. Neither are applicable to the applicant's site.

This rezoning request ultimately arose due to complaints from neighboring property owners or residents regarding the operation of a truck / heavy equipment repair facility in their neighborhood. According to the minutes of the BZA hearing, complaints, centered on the noise of the diesel engines and traffic congestion due to vehicles moving on and off site. Additional concerns were raised about the potential contamination of drinking water wells due to fluid leaks or spills.

Noise, smoke and fumes are likely an occasional byproduct of heavy engine repair. If the planning commission is inclined to approve the rezoning, limiting the hours of operation to a traditional M-F, 8am – 6pm may reduce the impacts of this facility on the neighboring residents, especially in the evenings and weekends.

- (a) Rezoning of the land to the PUD District and approval of the development plan shall not adversely affect the public peace, health, morals, safety or welfare.

As indicated above, neighbors have expressed concerns about noise from the diesel engines and ground water pollution from this operation during the BZA hearing. All residents along this segment of Taylorsville Road get their drinking water from private wells, and this concern should not be overlooked.

STAFF RECOMMENDATION

It is the staff's opinion the rezoning to Planned Industrial does not meet the standards outlined in Section 1171.06. As outlined through the staff analysis above, the application does not meet the standards of Section 1171.06(a), (k), and (L). Therefore, staff recommends denial of the replat and rezoning from Agricultural to Planned Industrial.

If the Planning Commission determines the rezoning request is consistent with the standards outlined in Section 1171.06, staff recommends the following conditions:

- 1) The applicant shall obtain all necessary zoning and business licenses required by the City of Huber Heights;
- 2) All business and repair operations shall occur indoors, consistent with the requirements of the Planned Industrial District;
- 3) No outdoor storage of equipment, parts, inoperable or junk vehicles, or other materials associated with the truck and equipment repair business shall be permitted;
- 4) Repaired vehicles shall be stored on site no longer than five consecutive days;

Planning Commission Meeting

May 24, 2022

- 5) The applicant shall comply with the Huber Heights Fire Department regarding the onsite storage of hazardous and/or industrial materials;
- 6) Hours of operation shall be limited to 8:00am – 6:00pm, Monday through Friday;

Michael Skilwies and Attorney Greg Page spoke. A few neighbors spoke in opposition.

Discussion on inside storage, widen apron and driveway, current hours, Night lights, no complaints, visual truck traffic, EPA, concern about how long they've been in business, property value, safety, health, no other industrial plots, enforcement, and splitting lot what if sold.

Action

Ms. Thomas moved to approve the request by the applicant Michael Skilwies, for approval of a Rezoning from A (Agricultural) to PI (Planned Industrial) and a Lot Split. Property located at 9416 Taylorsville Road further identified as Parcel Number P70 03902 0018 of the Montgomery County Auditor's Map (Case RZ 22-17) in accordance with the recommendation of Staff's Memorandum dated May 24, 2022 and the Planning Commission Decision Record attached thereto.

Seconded by Mr. Jeffries. Roll call showed: YEAS: Ms. Vargo. NAYS: Mr. Jeffries, Ms. Opp, Ms. Thomas, and Mr. Walton. Motion to approve denied 4-1.

2. **MAJOR CHANGE TO THE DETAILED DEVELOPMENT PLAN - The applicant, SKILKEN GOLD REAL ESTATE DEVELOPMENT, LLC, is requesting approval of a Major Change to the Detailed Development Plan for a proposed Convenient Store/Gas Station and Car Wash. Property located at Old Troy Pike and Taylorsville Road (Case MJC 22-21).**

Mr. Sorrell stated applicant wasn't ready but due to already being advertised, this was added to the agenda.

Action

Mr. Jeffries moved to table the request by the applicant Skilken Gold Real Estate Development, LLC, for approval of a Major Change to the Detailed Development Plan (Case MJC 22-21) until the next Planning Commission meeting of 6/14/2022.

Seconded by Ms. Thomas. Roll call showed: YEAS: Ms. Opp, Ms. Vargo, Ms. Thomas, Mr. Jeffries, and Mr. Walton. NAYS: None. Motion to table carried 5-0.

VIII. Additional Business

RZ 22-17
9416 Taylorsville Rd

Request for Approval of Rezoning and Replat
July 11, 2022

Site Details:

- 5 acres, zoned A (Agricultural)
- Existing land use is residential
- Surrounding property is zoned Agricultural

Application:

- Applicant is requesting a replat of 3.5 acres and a rezoning to Planned Industrial to accommodate existing diesel truck / equipment repair business.
- 1.5 acres (residence) will remain zoned Agricultural

Site History:

- Applicant has been operating the repair facility for many years.
- August 2021:
 - Complaint led to zoning enforcement action
 - Applicant requested use variance
 - BZA unanimously denied variance application

Site History:

- After BZA denial city staff informed the applicant they could apply for lot split and rezoning as an alternative path forward
- March 2022:
 - Zoning enforcement action initiated
 - Applicant filed a rezoning / lot split application

Applicable Subdivision and Zoning Regulations

The applicable subdivision regulations include: 1109 Subdivision Design Standards

The applicable zoning chapters include: 1171 General Provisions, 1177 Planned Industrial District.

Replat Conformance with Subdivision and Zoning Regulations

Proposed Lot 1 Analysis (residential lot):

Use: Conforming (residential uses permitted in the Agricultural District)

Lot Size: 1.3 acres – Conforming (min. 1 acre required)

Lot Frontage: 158.06 feet – Does not conform to zoning code regulations (Zoning code requires 200 feet.)

Yards:

Front: Conforming (min 60 feet)

Side: Conforming (min 30 feet)

Rear: Conforming (min 50 feet)

Replat Conformance with Subdivision and Zoning Regulations

Proposed Lot 1 Analysis (residential lot):

Other Issues:

- No public water or sewer currently available along this portion of Taylorsville Road.
- Proposed lot does not meet 1109.17(i) of the subdivision regulations: The minimum lot size where public sewer or water is not available shall be one acre with a minimum frontage of 200 feet.

Replat Conformance with Subdivision and Zoning Regulations

Proposed Lot 2 Analysis (repair facility):

Use: Proposed use of truck / heavy equipment repair is permitted in the Planned Industrial District

Lot Size: 3.56 acres – Conforming (No min. area required)

Lot Frontage: 41.43 feet – Conforming (35 feet is min. required)

Yards:

Front: Conforming (min 50 feet)

Side: Conforming (min 25 feet)

Rear: Conforming (min 25 feet)

Replat Conformance with Subdivision and Zoning Regulations

Proposed Lot 2 Analysis (repair facility):

Other Issues:

- No public water or sewer currently available along this portion of Taylorsville Road.
 - Proposed lot does not meet 1109.17(i) of the subdivision regulations: The minimum lot size where public sewer or water is not available shall be one acre with a minimum frontage of 200 feet.
- Could be an issue if lots are ever sold separately

Lot Split Staff Analysis - Summary

The subdivision of the 5-acre parcel into two new lots will create one minor nonconformity:

- Lot 1, will have less frontage than required by the zoning code.

The subdivision regulations do not prohibit flag lots and there are examples of rural non-conforming lots of similar type.

- Staff recommended the record plan only be approved if the rezoning is approved.

Conformance with Zoning Regulations

This analysis was based on the rezoning application submitted on March 28, 2022.

- The zoning code assumes that rezonings to Planned Development are part of a redevelopment or new construction project.
- The applicant has not indicated any improvements to the site, and has not submitted a formal basic development plan.
- Therefore, staff is assuming no improvements are planned and the record plan survey dated May 4, 2022 will serve as the basic development plan.

Conformance with Zoning Regulations

1177.01 Principal permitted uses.

- The proposed truck and heavy equipment repair is principally permitted within the Planned Industrial District.

1177.03 Development standards.

- No Basic Plan submitted, however based on the plat survey the lot meets the PI development standards.

Conformance with Zoning Regulations

1177.04 Conditions.

“All uses shall be conducted wholly within a completely enclosed building..... No use shall be permitted to be established or maintained which is or may become hazardous, noxious or offensive owing to the emission of odor, dust, smoke, cinders, gas fumes, noise,”

- If the rezoning is approved, the applicant will be required to move his repair operations wholly indoors. The applicant is aware of this condition.
- The site is not readily visible from the street, any violations of this condition will likely only be triggered by complaints made by adjacent property owners or residents.

Staff Analysis

The Planning Commission shall review the application, prepared development plan and the facts presented at the hearing. The applicant shall have the burden of proof. No approval shall be given unless the Commission shall find by a preponderance of the evidence that such PUD on the proposed locations:

- a) Is consistent with official thoroughfare plan, comprehensive development plan and other applicable plans and policies;*
- The applicant is seeking relief for the illegal use by requesting a rezoning to Planned Industrial after the BZA denied the use variance.
- The comprehensive plan indicates this area should be agricultural/low density residential and the proposed rezoning is not consistent with the comprehensive plan.

Staff Analysis

a) Is consistent with official thoroughfare plan, comprehensive development plan and other applicable plans and policies;

- The applicant references the industrially zoned land within a $\frac{1}{4}$ to $\frac{1}{2}$ mile of this site. The majority of that land is consistent with the comprehensive plan, and has access to public water and sewer. Neither are applicable to the applicant's site.

Staff Analysis

(c) Is accessible from public roads that are adequate to carry the traffic that shall be imposed upon them by the proposed development. Further, the streets and driveways on the site of the proposed development shall be adequate to serve the residents or occupants of the proposed development;

- Taylorsville Road is classified as a major thoroughfare in the City Thoroughfare Plan.
- 35 feet of ROW will be dedicated, consistent with the Thoroughfare Plan.

Staff Analysis

(d) Shall not impose an undue burden on public services such as utilities, fire and police protection, and schools;

- This use has not historically imposed an undue burden on public services.

(f) Shall be landscaped or otherwise improved and the location and arrangement of structures, parking areas, walks, lighting and appurtenant facilities shall be compatible with the existing intended uses, and any part of a PUD not used for structures, parking and loading areas, or accessways;

- No improvements to the property have been proposed by the applicant. However, the applicant has stated he is willing to provide buffering for the adjacent neighboring properties.

Staff Analysis

(j) Shall not create excessive additional requirements at public cost of public facilities and services and shall not be detrimental to the economic welfare of the community;

- No additional public facilities are anticipated due to this rezoning request.

(k) Shall not involve uses, activities, processes, materials, equipment and conditions of operation that shall be detrimental to any persons, property or the general welfare by reason of excessive production of traffic, noise, smoke, fumes, glare or odors;

- This rezoning request ultimately arose due to complaints regarding the operation of a truck / heavy equipment repair facility

Staff Analysis

(k) Continued:

- According to the minutes of the BZA hearing, complaints ,centered on the noise of the diesel engines and traffic congestion due to vehicles moving on and off site.
- Additional concerns were raised about the potential contamination of drinking water wells due to fluid leaks or spills.
- If the Council is inclined to approve the rezoning, limiting the hours of operation to a traditional M-F, 8am – 6pm may reduce the impacts of this facility on the neighboring residents, especially in the evenings and weekends.

Staff Analysis

- (I) Rezoning of the land to the PUD District and approval of the development plan shall not adversely affect the public peace, health, morals, safety or welfare.*
- As indicated above, neighbors have expressed concerns about noise from the diesel engines and ground water pollution from this operation during the BZA hearing.
 - All residents along this segment of Taylorsville Road get their drinking water from private wells, and this concern should not be overlooked.

Staff Recommendation

It is the staff's opinion the rezoning to Planned Industrial does not meet the standards outlined in Section 1171.06.

- As outlined above, the application does not meet the standards of Section 1171.06(a), (k), and (L).
- Therefore, staff recommended denial of the replat and rezoning from Agricultural to Planned Industrial.
- Staff provided a set of acceptable conditions if Planning Commission was inclined to recommend approval.

Planning Commission Action:

- Three neighbors spoke in opposition to the rezoning request
 - Concerns about visual appearance (parked trucks)
 - Noise, pollution
 - Lower property values due to industrial zoning
- Planning Commission voted 4-1 to deny the rezoning request.
 - Difficult decision since the use has been operating 10+ years
 - Concerns with enforcement issues (neighbor initiated)

Staff Recommendation

If Council determines the rezoning request is consistent with the standards outlined in Section 1171.06, staff recommends the following conditions:

1. The permitted uses be limited to truck or heavy equipment repair;
2. The applicant shall obtain all necessary zoning and business licenses required by the City of Huber Heights;
3. All business and repair operations shall occur indoors, consistent with the requirements of the Planned Industrial District;
4. No outdoor storage of equipment, parts, inoperable or junk vehicles, or other materials associated with the truck and equipment repair business shall be permitted;

Staff Recommendation

Continued:

4. Repaired vehicles shall be stored on site no longer than five consecutive days;
5. The applicant shall comply with the Huber Heights Fire Department regarding the onsite storage of hazardous and/or industrial materials;
6. Hours of operation shall be limited to 8:00am – 6:00pm, Monday through Friday;
7. Applicant submits detailed development plan.

CITY OF HUBER HEIGHTS
STATE OF OHIO

ORDINANCE NO. 2022-O-

TO APPROVE A REZONING FROM AGRICULTURAL (A) TO PLANNED INDUSTRIAL (PI) AND A LOT SPLIT FOR THE PROPERTY LOCATED AT 9416 TAYLORSVILLE ROAD AND FURTHER IDENTIFIED AS PARCEL NUMBER P70 03902 0018 ON THE MONTGOMERY COUNTY AUDITOR'S MAP AND TO NOT ACCEPT THE RECOMMENDATION OF THE PLANNING COMMISSION (CASE RZ 22-17).

WHEREAS, the citizens of Huber Heights require the efficient and orderly planning of land uses within the City; and

WHEREAS, the City Planning Commission has reviewed Case RZ 22-17 and on May 24, 2022, opposed approval by a vote of 4-1 of the Rezoning from Agricultural (A) to Planned Industrial (PI) and a Lot Split; and

WHEREAS, the City Council has considered the issue.

NOW, THEREFORE, BE IT ORDAINED by the City Council of Huber Heights, Ohio that:

Section 1. The application requesting approval of a Rezoning from Agricultural (A) to Planned Industrial (PI) and a Lot Split (Case RZ 21-17) is hereby approved in opposition to the Planning Commission's recommendation of denial by a vote of 4-1 with the following conditions:

1. The applicant shall obtain all necessary zoning and business licenses required by the City of Huber Heights.
2. All business and repair operations shall occur indoors, consistent with the requirements of the Planned Industrial District.
3. No outdoor storage of equipment, parts, inoperable or junk vehicles, or other materials associated with the truck and equipment repair business shall be permitted.
4. Repaired vehicles shall be stored on site no longer than five consecutive days.
5. The applicant shall comply with the Huber Heights Fire Division regarding the onsite storage of hazardous and/or industrial materials.
6. Hours of operation shall be limited to 8:00 a.m. – 6:00 p.m., Monday through Friday.
7. The applicant shall pave and widen the driveway to minimum width of 35'.
8. The applicant shall install screening along west property line, subject to detailed development plan approval.

Section 2. It is hereby found and determined that all formal actions of this Council concerning and relating to the passage of this Ordinance were adopted in an open meeting of this Council, and that all deliberations of this Council and of any of its Committees that resulted in such formal action were in meetings open to the public and in compliance with all legal requirements including Section 121.22 of the Ohio Revised Code.

Section 3. This Ordinance shall go into effect upon its passage as provided by law and the Charter of the City of Huber Heights.

Passed by Council on the _____ day of _____, 2022;
_____ Yeas; _____ Nays.

DEMOLITION NOTES

3. THE CONTRACTOR IS RESPONSIBLE FOR OBTAINING ALL PERMITS REQUIRED FOR DEMOLITION AND DISPOSAL. THE DEMOLITION, REMOVAL, AND DISPOSAL IS TO BE APPROVED BY ALL GOVERNING AUTHORITIES, OF ALL FACILITIES SUCH AS: STRUCTURES, PAADS, WALLS, FLUMES, FOUNDATIONS, PARKING, DRIVES, DRAINAGE, STRUCTURES, UTILITIES, WELLS, ETC., SUCH THAT THE IMPROVEMENTS SHOWN ON THE REMAINING PLANS CAN BE CONSTRUCTED. ALL FACILITIES TO BE REMOVED SHALL BE UNDERCUT TO SUITABLE MATERIAL AND BROUGHT TO GRADE WITH SUITABLE COMPACTED FILL MATERIAL AS SPECIFIED BY A QUALIFIED PROFESSIONAL GEOTECHNICAL ENGINEER. IF UNDOCUMENTED FACILITIES ARE FOUND ON SITE, CONTRACTOR SHALL CONTACT THE OWNER AND UTILITY COMPANY PRIOR TO REMOVAL. ALL FACILITIES SHALL BE PLUGGED, ABANDONED, OR MOVED PER STATE AND LOCAL REQUIREMENTS.
2. FEDERAL, STATE AND LOCAL CODE REQUIREMENTS SHALL GOVERN THE DISPOSAL OF DEBRIS INCLUDING ANY POTENTIALLY HAZARDOUS AND TOXIC MATERIALS. ALL MATERIALS AND STRUCTURES DESIGNATED AS "TO BE REMOVED" SHALL BE DISPOSED OF OFF SITE AND AT THE COST OF THE CONTRACTOR.
3. THE CONTRACTOR IS RESPONSIBLE FOR PROVIDING JOB SITE SAFETY PER OSHA REQUIREMENTS AT ALL TIMES.
4. PRIOR TO DEMOLITION, IT IS THE CONTRACTOR'S RESPONSIBILITY TO CALL THE STATE 811 AND NOTIFY ALL UTILITY COMPANIES TO SCHEDULE UTILITY SERVICE REMOVAL AND/OR ABANDONMENT. ALL UTILITIES SHALL BE REMOVED/RELOCATED PER THE SPECIFICATIONS OF THE UTILITY COMPANIES. THE CONTRACTOR IS RESPONSIBLE TO PAY ALL FEES AND CHARGES ASSOCIATED WITH THIS WORK
5. CONTRACTOR SHALL MAINTAIN ALL UTILITY SERVICES TO INHABITED BUILDINGS ON SITE AND ADJACENT PROPERTIES AT ALL TIMES. INTERRUPTIONS SHALL BE APPROVED BY THE OWNERS OF THE BUILDINGS/PROPERTIES.
6. THE LOCATIONS OF ALL EXISTING UTILITIES SHOWN ON THIS PLAN HAVE BEEN DETERMINED FROM THE BEST INFORMATION AVAILABLE AND ARE GIVEN FOR THE CONVENIENCE OF THE CONTRACTOR. THE ENGINEER ASSUMES NO RESPONSIBILITY FOR THEIR ACCURACY. PRIOR TO THE START OF ANY DEMOLITION ACTIVITY, THE CONTRACTOR SHALL NOTIFY THE UTILITY COMPANIES FOR ONSITE LOCATIONS OF EXISTING UTILITIES. IF THE LOCATION OR ELEVATION OF THE EXISTING UTILITIES ARE FOUND TO BE DIFFERENT FROM THE PLANS, CONTRACTOR SHALL CONTACT THE ENGINEER IMMEDIATELY.
7. CONTRACTOR SHALL PROTECT EXISTING SITE FEATURES TO REMAIN INSIDE AND OUTSIDE CONSTRUCTION LIMITS. CONTRACTOR IS RESPONSIBLE TO DOCUMENT ALL EXISTING DAMAGES AND NOTIFY THE CITY/COUNTY PRIOR TO CONSTRUCTION START. ANY EXISTING SITE FEATURE TO REMAIN THAT IS DAMAGED DURING CONSTRUCTION, SUCH AS, BUT NOT LIMITED TO, DRAINAGE, UTILITIES, PAVEMENT, CURB, ETC. SHALL BE REPAIRED TO A CONDITION THAT IS EQUAL TO, OR BETTER THAN, THE EXISTING CONDITIONS. PRIOR TO BEING DAMAGED, THE CONTRACTOR IS RESPONSIBLE FOR REPAIRING ANY DAMAGE TO THE SATISFACTION OF THE OWNER AT NO ADDITIONAL COST.
8. CONTINUOUS ACCESS SHALL BE MAINTAINED TO THE SURROUNDING PROPERTIES AT ALL TIMES DURING DEMOLITION OF THE EXISTING FACILITIES.
9. THE CONTRACTOR IS RESPONSIBLE FOR PROVIDING TRAFFIC CONTROL. ALL TRAFFIC CONTROL MEASURES SHALL BE IN ACCORDANCE WITH STATE DEPARTMENT OF TRANSPORTATION REGULATIONS AND LOCAL REGULATIONS.
10. THE CONTRACTOR IS RESPONSIBLE FOR PLACING AND MAINTAINING CONSTRUCTION FENCE, SIGNS, ETC. TO WARN AND KEEP UNAUTHORIZED PEOPLE OFF SITE FOR THE DURATION OF THE PROJECT.
11. PRIOR TO DEMOLITION, ALL EROSION CONTROL DEVICES ARE TO BE INSTALLED PER THE GOVERNING AGENCIES GUIDELINES AND STANDARDS. DUST CONTROL SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR.
12. SAWCUT LINE PROVIDED IS FOR REFERENCE ONLY. CONTRACTOR WILL BE RESPONSIBLE FOR DETERMINING THE EXTENT OF THE SAWCUT THAT WILL BE REQUIRED AS WELL AS PAVEMENT REPAIRS TO INSTALL UTILITY TRENCHING. IF ANY DAMAGE OCCURS ON ANY OF THE SURROUNDING PAVEMENT, ETC., THE CONTRACTOR SHALL BE RESPONSIBLE FOR ITS REMOVAL AND REPAIR. THE CONTRACTOR IS RESPONSIBLE FOR REMOVING THAT WHICH IS NECESSARY TO COMPLETE THE INTENT OF THE PROPOSED IMPROVEMENTS. SAWCUT EXISTING PAVEMENT TO FULL DEPTH, USING CARE TO CUT NEAT, STRAIGHT LINES. CUT AT EXISTING JOINTS WHERE POSSIBLE.
13. THE CONTRACTOR SHALL MAINTAIN A WELL-DRAINED SITE, FREE OF STANDING WATER DURING CONSTRUCTION. THE CONTRACTOR SHALL BE RESPONSIBLE FOR TEMPORARY DRAINAGE MEASURES DURING CONSTRUCTION.
14. IT IS THE RESPONSIBILITY OF THE CONTRACTOR TO STUDY THE PLANS AND VISIT THE SITE TO DETERMINE THE ITEMS THAT MUST BE REMOVED TO COMPLY WITH THE SITE DEVELOPMENT PLANS. NO EXTRA FEE WILL BE PAID FOR THE REMOVAL OF ANY ITEM NOT LISTED THAT IS VISIBLE UPON A SITE VISIT. THE DEMOLITION PLAN IS INTENDED TO PRESENT THE SCOPE OF THE DEMOLITION, AND DOES NOT GUARANTEE THAT ALL ITEMS ARE ADDRESSED.
15. THE CONTRACTOR SHALL OBTAIN ALL PERMITS FOR ALL SITE DEVELOPMENT WORK, PAY ALL FEES FOR PERMITS AND CHECK ALL GOVERNING AUTHORITIES' SPECIFICATIONS FOR BUT NOT LIMITED TO, GUTTERS, SIDEWALKS, POLES, AND OTHER STRUCTURES, INCLUDING THE REMOVAL OR RELOCATION OF EXISTING UTILITIES OR OTHER PHYSICAL OBJECTS SHOWN ON PLANS OR NOTED OTHERWISE.
16. THE CONTRACTOR SHALL CREATE AND IMPLEMENT AN EROSION AND SEDIMENTATION CONTROL PLAN FOR ALL SITE CONSTRUCTION ACTIVITIES ASSOCIATED WITH THE PROJECT. THE PLAN MUST CONFORM TO THE EROSION AND SEDIMENTATION REQUIREMENTS OF THE CONSTRUCTION GENERAL PERMIT OR LOCAL STANDARDS AND CODES, WHICHEVER IS MORE STRINGENT.
17. ALL COSTS FOR INSPECTIONS AND/OR TESTS SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR UNLESS NOTED OTHERWISE.

3. ALL WORK AND MATERIALS SHALL COMPLY WITH ALL CITY/COUNTY REGULATIONS AND CODES AND O.S.H.A. STANDARDS.
4. ALL MATERIAL NOTED ON DRAWINGS WILL BE SUPPLIED BY THE CONTRACTOR UNLESS OTHERWISE NOTED.
5. CONTRACTOR SHALL REFER TO THE ARCHITECTURAL PLANS TO COORDINATE ACCESS POINTS AND ELEVATIONS. REFER TO ARCHITECTURAL PLANS. FOR EXACT LOCATIONS AND DIMENSIONS OF DOORS, ENTRY RAMP, AND CANOPY.
6. THE CONTRACTOR SHALL OBTAIN ALL PERMITS FOR ALL SITE DEVELOPMENT WORK, PAY ALL FEES FOR PERMITS AND CHECK ALL GOVERNING AUTHORITIES' SPECIFICATIONS FOR BUT NOT LIMITED TO, GUTTERS, SIDEWALKS, POLES, AND OTHER STRUCTURES, INCLUDING THE REMOVAL OR RELOCATION OF EXISTING UTILITIES OR OTHER PHYSICAL OBJECTS SHOWN ON PLANS OR NOTED OTHERWISE.
7. THE CONTRACTOR SHALL CREATE AND IMPLEMENT AN EROSION AND SEDIMENTATION CONTROL PLAN FOR ALL SITE CONSTRUCTION ACTIVITIES ASSOCIATED WITH THE PROJECT. THE PLAN MUST CONFORM TO THE EROSION AND SEDIMENTATION REQUIREMENTS OF THE CONSTRUCTION GENERAL PERMIT OR LOCAL STANDARDS AND CODES, WHICHEVER IS MORE STRINGENT.
8. ALL COSTS FOR INSPECTIONS AND/OR TESTS SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR UNLESS NOTED OTHERWISE.
9. ACCESSIBILITY STANDARDS SHALL BE IN ACCORDANCE WITH FEDERAL AND LOCAL REQUIREMENTS FOR HANDICAP ACCESSIBILITY, INCLUDING BUT NOT LIMITED TO THE AMERICANS WITH DISABILITIES ACT ACCESSIBILITY GUIDELINES. ADA PARKING STALLS SHALL MEET ADA GRADE GUIDELINES. CONTRACTOR SHALL FIELD VERIFY EXISTING GRADES AT ACCESS POINTS, ACCESSIBLE ROUTES, AND EXISTING PARKING TO REMAIN TO DETERMINE COMPLIANCE WITH STANDARDS.
10. ALL DISTURBED AREAS ARE TO RECEIVE 6" OF TOPSOIL, SEED, MULCH AND WATER UNTIL A HEALTHY STAND OF GRASS IS ESTABLISHED.
11. ALL DIMENSIONS AND RADIi ARE TO THE EDGE OF PAVEMENT OR FACE OF BUILDING, AS APPLICABLE, UNLESS OTHERWISE NOTED.
12. ALL CURB RADIi ARE 5 FEET UNLESS OTHERWISE NOTED.
13. PROVIDE SIGNAGE AND STRIPING AS SHOWN. ALL SIGNAGE AND PAVEMENT MARKINGS SHALL COMPLY WITH THE GOVERNING MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES (M.U.T.C.D.). PAVEMENT MARKINGS ON ASPHALT SHALL BE WHITE. PAVEMENT MARKINGS ON CONCRETE SHALL BE YELLOW.
14. REFER TO ARCHITECTURAL PLANS FOR PROPOSED BUILDING SIGNAGE.
15. REFER TO MECHANICAL PLANS FOR EQUIPMENT LAYOUT.
16. REFER TO ELECTRICAL PLANS FOR ELECTRICAL WORK.
17. REFER TO GEOTECHNICAL ENGINEERING REPORT FOR SITE WORK PREPARATION/RECOMMENDATIONS AND PAVEMENT SECTIONS.
18. ALL LIGHT POLES TO BE LOCATED 3' FROM THE BACK OF CURB, AS MEASURED FROM THE FACE OF POLE FOUNDATION, UNLESS OTHERWISE DENOTED ON PLANS.
19. REFER TO ORIGINAL SURVEY PROVIDED BY BURKHARDT.
20. EXISTING CONDITIONS BASED ON PLANS BY BURKHARDT, DATED 02/16/2022.
21. RECORD PLAN BY BURKHARDT, DATED 02/07/2022.

1. THE CONTRACTOR IS SPECIFICALLY CAUTIONED THAT THE LOCATION AND/OR ELEVATION OF EXISTING UTILITIES AS SHOWN ON THESE PLANS IS BASED ON RECORDS OF THE VARIOUS UTILITY COMPANIES, AND WHERE POSSIBLE, MEASUREMENTS TAKEN IN THE FIELD. THE INFORMATION IS NOT TO BE RELIED ON AS BEING EXACT OR COMPLETE. THE CONTRACTOR MUST CALL THE APPROPRIATE UTILITY COMPANIES AT LEAST 72 HOURS BEFORE ANY EXCAVATION TO REQUEST EXACT FIELD LOCATION OF UTILITIES. IT SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR TO RELOCATE ALL EXISTING UTILITIES WHICH CONFLICT WITH THE PROPOSED IMPROVEMENTS SHOWN ON THE PLANS.
2. THE TOPOGRAPHIC SURVEY WAS PERFORMED BY A REGISTERED LAND SURVEYOR. IF CONTRACTOR DOES NOT ACCEPT EXISTING TOPOGRAPHY AS SHOWN ON THE PLANS, WITHOUT EXCEPTION, HE SHALL HAVE MADE, AT HIS EXPENSE, A TOPOGRAPHIC SURVEY BY A REGISTERED LAND SURVEYOR AND SUBMIT IT TO THE OWNER FOR REVIEW.
3. CONSTRUCTION SHALL COMPLY WITH ALL APPLICABLE GOVERNING CODES AND BE CONSTRUCTED TO SAME.
4. THE CONTRACTOR SHALL ADHERE TO ALL TERMS & CONDITIONS AS OUTLINED IN THE EPA OR APPLICABLE STATE GENERAL N.P.D.E.S. PERMIT FOR STORM WATER DISCHARGE ASSOCIATED WITH CONSTRUCTION ACTIVITIES.
5. EXISTING AND PROPOSED GRADE CONTOUR INTERVALS ARE SHOWN AT 1 FOOT INTERVALS.
6. ALL SPOT ELEVATIONS REFER TO FINISHED PAVEMENT ELEVATIONS UNLESS OTHERWISE NOTED.
7. ALL ADA ACCESSIBLE PARKING SPACED AND LOADING AREAS SHALL BE GRADED WITH A 2.0% MAXIMUM SLOPE IN ALL DIRECTIONS. ALL ADA ACCESSIBLE ROUTES SHALL BE GRADED WITH A 2.0% MAXIMUM CROSS SLOPE AND 5.0% MAXIMUM RUNNING SLOPE.
8. MAINTAIN EXISTING DRAINAGE PATTERN THROUGHOUT THE SITE, EXCEPT WITHIN THE LIMITS OF DISTURBANCE (LOD).
9. COORDINATE GRADES AT BUILDING ENTRIES WITH ARCHITECTURAL PLANS.
10. EXISTING DRAINAGE STRUCTURES SHALL BE INSPECTED AND REPAIRED AS NEEDED, AND EXISTING PIPES ARE TO BE CLEANED TO REMOVE ALL SILT AND DEBRIS AFTER CONSTRUCTION IS COMPLETE.
11. IF ANY EXISTING STRUCTURES TO REMAIN ARE DAMAGED DURING CONSTRUCTION IT SHALL BE THE CONTRACTOR'S RESPONSIBILITY TO REPAIR AND/OR REPLACE THE EXISTING STRUCTURE AS NECESSARY TO RETURN IT TO A CONDITION EQUAL TO OR BETTER THAN ITS CONDITION PRIOR TO DAMAGE.
12. CONTRACTOR SHALL ASSURE POSITIVE DRAINAGE AWAY FROM BUILDING AND WITHIN PAVED AREAS.
13. ALL TOPSOIL MUST BE REMOVED BEFORE FILL MATERIAL IS PLACED.
14. ALL WET, OR OTHERWISE UNSUITABLE SOILS MUST BE STABILIZED. THIS MAY BE ACCOMPLISHED BY DRYING, REMOVAL & REPLACEMENT, REMOVAL & DRYING & RECOMPACTION, OR SOIL TREATMENT (LIME/CEMENT) UNDER THE SUPERVISION OF A QUALIFIED PROFESSIONAL GEOTECHNICAL ENGINEER.
15. ALL UNSURFACED AREAS, DISTURBED BY GRADING, OPERATION SHALL RECEIVE 6" OF TOPSOIL. CONTRACTOR SHALL APPLY STABILIZATION FABRIC TO ALL SLOPES 3H:1V OR STEEPER AND SEED WITH LOW MAINTENANCE GRASS SEED MIX. CONTRACTOR SHALL SEED DISTURBED AREAS IN ACCORDANCE WITH SPECIFICATIONS UNTIL A HEALTHY STAND OF GRASS IS OBTAINED. ALL EXPOSED SURFACE AREAS SHALL BE STABILIZED PER THE SWPPP AND LANDSCAPE REQUIREMENTS AS PART OF THIS PLAN SET.
16. ALL STORM PIPE ENTERING STRUCTURES SHALL BE GROUDED TO ASSURE CONNECTION AT STRUCTURE IS SOIL TIGHT.
17. ALL STORM STRUCTURES SHALL HAVE A SMOOTH UNIFORM POURED MORTAR INVERT FROM INVERT IN TO INVERT OUT.
18. STORM PIPE SHALL BE AS FOLLOWS UNLESS OTHERWISE NOTED:

MATERIAL	TYPE	PIPE SPEC	JOINT SPEC	INSTALLATION	ACCEPTABLE AREAS OF USE
REINFORCED CONCRETE PIPE (RCP)	CLASS III, IV, V	ASTM C-76	ASTM C443	ASTM C1479	WITHIN R/W, COVER VARIES WITH PIPE CLASS
HIGH DENSITY POLY-ETHYLENE (HDPE)	SMOOTH-WALLED CORRUGATED ADS-N12 OR EQUAL	AASHTO M294 (TYPE S)	ASTM F477	ASTM D2321	ON SITE, 12" TO 60" DIA.
POLY VINYL CHLORIDE (PVC)	SDR 35	ASTM D3034	ASTM D3212	ASTM D2321	ON SITE, 4" TO 10"

19. ALL STORM SEWER STRUCTURE GRATES AND FRAMES WITHIN PAVEMENT SHALL BE HEAVY DUTY.
20. ALL STORM DRAINAGE SHALL BE PERFORMED IN ACCORDANCE WITH ALL LOCAL COUNTY AND ODOT STANDARDS.
21. ALL DOWNSPOUT DRAIN LINES OR ROOF LEADERS SHALL HAVE A 1.0% MINIMUM SLOPE, UNLESS OTHERWISE NOTED. CONNECT ALL DOWNSPOUTS AND ROOF LEADERS TO THE STORM SEWER SYSTEM. REFER TO ARCHITECTURAL PLANS FOR DOWNSPOUT AND ROOF LEADER LOCATIONS. PROVIDE POSITIVE DRAINAGE AND PAVEMENT REPAIR AS NEEDED.
22. ROOF DRAINS, FOUNDATION DRAINS, AND OTHER CLEAN WATER CONNECTIONS TO THE SANITARY SEWER SYSTEM ARE PROHIBITED.
23. THE STORM SEWER GRADE WILL BE SUCH THAT A MINIMUM COVER IS MAINTAINED TO WITHSTAND AASHTO HS-25 LOADING ON THE PIPE. PROVIDE MINIMUM 2.0 FEET OF COVER FOR ALL STORM SEWERS UNLESS OTHERWISE NOTED.
24. WHEN A SANITARY SEWER MAIN LIES ABOVE A STORM SEWER, OR WITHIN 18 INCHES BELOW, THE SANITARY SEWER WILL HAVE AN IMPERVIOUS ENCASEMENT OR BE CONSTRUCTED OF STRUCTURAL SEWER PIPE FOR A MINIMUM OF 10 FEET ON EACH SIDE OF WHERE THE STORM SEWER CROSSES.
25. IF EXISTING FIELD TILES ARE ENCOUNTERED DURING CONSTRUCTION THEY SHALL BE REPAIRED AND/OR TIED INTO A STORM SEWER SYSTEM AS NEEDED TO MAINTAIN POSITIVE DRAINAGE.

1. THE CONTRACTOR IS SPECIFICALLY CAUTIONED THAT THE LOCATION AND/OR ELEVATION OF EXISTING UTILITIES AS SHOWN ON THESE PLANS IS BASED ON RECORDS OF THE VARIOUS UTILITY COMPANIES, AND WHERE POSSIBLE, MEASUREMENTS TAKEN IN THE FIELD. THE INFORMATION IS NOT TO BE RELIED ON AS BEING EXACT OR COMPLETE.
2. THE CONTRACTOR MUST CALL THE APPROPRIATE UTILITY COMPANIES AT LEAST 72 HOURS BEFORE ANY EXCAVATION TO REQUEST EXACT FIELD LOCATION OF UTILITIES. IT SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR TO RELOCATE ALL EXISTING UTILITIES WHICH CONFLICT WITH THE PROPOSED IMPROVEMENTS SHOWN ON THE PLANS.
3. CONTRACTOR SHALL COMPLY TO THE FULLEST EXTENT WITH THE LATEST STANDARDS OF O.S.H.A. DIRECTIVES OR ANY OTHER AGENCY HAVING JURISDICTION FOR EXCAVATION AND TRENCHING PROCEDURES. THE CONTRACTOR SHALL USE SUPPORT SYSTEMS, SLOPING, BENCHING, AND OTHER MEANS OF PROTECTION. THIS TO INCLUDE BUT NOT LIMITED FOR ACCESS AND EGRESS FROM ALL EXCAVATION AND TRENCHING. CONTRACTOR IS RESPONSIBLE TO COMPLY WITH PERFORMANCE CRITERIA FOR O.S.H.A.
4. CONTRACTOR IS RESPONSIBLE FOR REPAIRS OF DAMAGE TO ANY EXISTING UTILITY DURING CONSTRUCTION AT NO COST TO THE OWNER.
5. ALL FILL MATERIAL IS TO BE IN PLACE AND COMPACTED BEFORE INSTALLATION OF PROPOSED UTILITIES.
6. CONTRACTOR SHALL COORDINATE WITH ALL UTILITY COMPANIES FOR INSTALLATION REQUIREMENTS AND SPECIFICATIONS. THE CONTRACTOR SHALL CONDUCT ALL REQUIRED TESTS TO THE SATISFACTION OF THE RESPECTIVE UTILITY REGULATIONS AND THE OWNER'S INSPECTION AUTHORITIES.
7. CONTRACTOR SHALL NOTIFY THE UTILITY AUTHORITY'S INSPECTORS 72 HOURS BEFORE CONNECTING TO ANY EXISTING LINE.
8. WATER AND SANITARY UTILITIES SHALL HAVE TEN (10) FEET OF HORIZONTAL CLEARANCE WHEN PARALLEL, OR 18" VERTICAL CLEARANCE WHEN CROSSING. ALL CLEARANCE DISTANCES SHALL BE MEASURED FROM OUTSIDE EDGE OF PIPE TO OUTSIDE EDGE OF PIPE. THE CROSSING SHALL BE ARRANGED SO THAT THE SANITARY SEWER JOINTS WILL BE EQUIDISTANT AND AS FAR AS POSSIBLE FROM THE WATER LINE JOINTS.
9. IF A WATER LINE PASSES UNDER THE SANITARY SEWER LINE, THE SEWER LINE SHOULD BE CONSTRUCTED OF A WATERTIGHT MATERIAL APPROVED BY THE REGULATORY AGENCY FOR USE IN WATER MAIN CONSTRUCTION AND SHALL EXTEND TEN (10) FEET ON BOTH SIDES OF THE CROSSING, AS MEASURED PERPENDICULAR TO THE WATER LINES. ADEQUATE STRUCTURAL SUPPORT SHALL BE PROVIDED FOR THE SEWER TO MAINTAIN LINE AND GRADE.
10. UNDERGROUND LINES SHALL BE INSTALLED, INSPECTED AND APPROVED BEFORE BACKFILLING.
11. CONTRACTOR SHALL COORDINATE WITH ALL UTILITY COMPANIES FOR INSTALLATION REQUIREMENTS AND SPECIFICATIONS. THE CONTRACTOR SHALL CONDUCT ALL REQUIRED TESTS TO THE SATISFACTION OF THE RESPECTIVE UTILITY REGULATIONS AND THE OWNER'S INSPECTION AUTHORITIES.
12. UTILITY TRENCHES WITHIN PAVED AREAS TO BE BACKFILLED PER UTILITY TRENCH DETAIL PROVIDED WITHIN THE CONSTRUCTION DETAILS SHEET.
13. ALL WATER LINE WORK SHALL BE PERFORMED IN ACCORDANCE WITH THE CITY HUBER HEIGHTS CONSTRUCTION STANDARDS AND STATE REGULATIONS.
14. INSTALL ALL WATER LINES WITH A MINIMUM COVER OF 4'-0".
15. ON-SITE WATER LINE MATERIAL SHALL BE AS FOLLOWS:

MATERIAL	PRESSURE RATING	PIPE SPEC	FITTINGS	INSTALLATION	ACCEPTABLE AREAS OF USE
HIGH-DENSITY POLY-ETHYLENE (HDPE TUBING)	SDR 9 P.C. = 250 PSI	ASTM D2239 AWWA C901 ASTM F714	ASTM D3350 ASTM D3261	ASTM D2774	ON SITE, < 3" DIA.
COPPER 1"-3"	TYPE "K"	ASTM B88	AWWA C800	AWWA C800	DOMESTIC WATERLINES 1"-3"
PE 4710 POLY-ETHYLENE PLASTIC (IPS)	SDR 11 P.C. = 200 PSI	ASTM D3035 AWWA C901	ASTM D3350 ASTM D3261	ASTM D2774	ON SITE, 2" TO 3" DIA.
P.V.C. POLY VINYL CHLORIDE 4"- 8" C900	C900	AWWA C901 (RATED DR 14)	ASTM F-477 ASTM D3139	AWWA C900 C651	ON SITE, 4"-8" WATER LINES & FIRE LINES INSTALL W/ TRACER & TAPE #12 COPPER
DUCTILE IRON PIPE 4"-12"	CLASS 52 P.C. = 350PSI	AWWA C104, C110, C151, C500	AWWA C111	AWWA C600, C651	6" FIRE HYDRANT LEADS
PE 4710 POLY-ETHYLENE PLASTIC (DIPS)	SDR 9 P.C. = 250 PSI	ASTM D2239 ASTM F714 AWWA C906	ASTM D3350 ASTM D3261	ASTM D2774	ON SITE, 4" DIA. AND LARGER

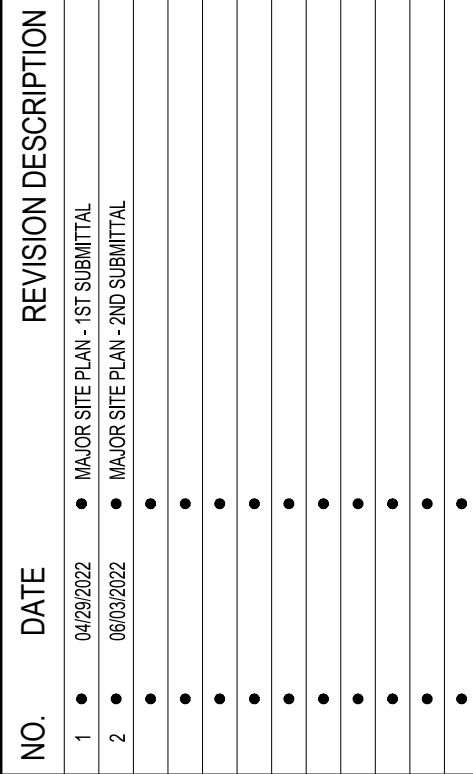

16. ON-SITE SANITARY SEWER LINE MATERIAL SHALL BE AS FOLLOWS:

MATERIAL	PRESSURE RATING	PIPE SPEC	FITTINGS	INSTALLATION	ACCEPTABLE AREAS OF USE
POLY VINYL CHLORIDE (PVC)	SDR 35	ASTM D3034	ASTM D3212	ASTM D2321 WITH TYPE 1 BEDDING	ON SITE, 6" TO 8" DIA. LESS THAN 8.5' OF COVER
POLY VINYL CHLORIDE (PVC)	SDR 26	ASTM 3034	ASTM D3212	ASTM 2321 WITH TYPE 1 BEDDING	ON SITE, 6" TO 8" DIA., GREATER THAN OR EQUAL TO 8.5' OF COVER

17. REFER TO ARCHITECTURAL DRAWINGS FOR EXACT BUILDING UTILITY CONNECTION LOCATIONS, SERVICE SIZES TO BE DETERMINED BY ARCHITECT.
18. CLEAN OUTS AND CURB BOXES WITHIN THE PAVED AREAS MUST HAVE TRAFFIC LOADING FRAMES AND COVERS.

DEMOLITION NOTES:

- GRADING NOTES:**

1. ALL SITE WORK SHALL BE DONE IN ACCORDANCE WITH THE PLANS PREPARED BY CISO. THE CURRENT REQUIREMENTS OF THE CITY OF HUBER HEIGHTS THE APPLICABLE SECTIONS OF THE ODOT STANDARD SPECIFICATIONS FOR ROADWAY CONSTRUCTION, AND ALL OTHER PERTINENT FEDERAL AND STATE LAWS.
2. THE CONTRACTOR SHALL COMPLY AT ALL TIMES WITH APPLICABLE FEDERAL, STATE AND LOCAL LAWS, PROVISIONS, AND POLICIES GOVERNING SAFETY AND HEALTH.
3. THE CONTRACTOR SHALL BE RESPONSIBLE FOR EXAMINING THE AREAS AND CONDITIONS UNDER WHICH THE PROJECT IS TO BE CONSTRUCTED PRIOR TO THE SUBMISSION OF A BID. SUBMISSION OF A BID SHALL BE CONSTRUED TO MEAN THE CONTRACTOR HAS REVIEWED THE SITE AND IS FAMILIAR WITH CONDITIONS AND CONSTRAINTS OF THE SITE.
4. BEFORE EXCAVATION, ALL UNDERGROUND UTILITIES SHALL BE LOCATED IN THE FIELD BY THE PROPER AUTHORITIES. THE CONTRACTOR SHALL NOTIFY OUPS. THE LOCATION OF ALL UTILITIES AND UNDERGROUND STRUCTURES ARE APPROXIMATE AND MAY NOT ALL BE SHOWN. IT IS THE RESPONSIBILITY OF THE CONTRACTOR TO DETERMINE THE EXISTENCE AND EXACT LOCATION OF ALL UTILITIES AND UNDERGROUND STRUCTURES.
5. ALL EXISTING TREES, VEGETATION, PAVEMENTS, CONCRETE FOUNDATIONS, STRUCTURES AND ORGANIC TOPSOIL SHALL BE STRIPPED AND REMOVED FROM NEW CONSTRUCTION AREAS UNLESS NOTED OTHERWISE.
6. ALL SLOPES SHALL BE 2:1 (HORIZONTAL: VERTICAL) MAXIMUM UNLESS NOTED OTHERWISE. ALL SLOPES GREATER THAN 3:1 TO PERMANENTLY STABILIZED WITH LANDSCAPE PLANTS.
7. AN AS-BUILT DRAWING OF NEW UTILITY SERVICES MUST BE PREPARED BY THE CONTRACTOR AND SUBMITTED TO THE OWNER UPON COMPLETION OF THE PROJECT.
8. ALL AREAS NOT PAVED SHALL BE TOP SOILED, SEEDED, MULCHED OR LANDSCAPED UNLESS OTHERWISE NOTED IN THE CONSTRUCTION DRAWINGS, SITE SPECIFICATIONS OR INSTRUCTED BY THE OWNER.
9. CONTRACTOR SHALL REFER TO THE GEOTECHNICAL REPORT PRIOR TO INITIATION OF ANY EARTHWORK ACTIVITY.
10. CONTRACTOR SHALL REFER TO OTHER PLANS WITHIN THIS CONSTRUCTION SET FOR OTHER PERTINENT INFORMATION.

STORMWATER MANAGEMENT NOTES:

1. ALL SITE WORK SHALL BE DONE IN ACCORDANCE WITH THE PLANS PREPARED BY CISO. THE CURRENT REQUIREMENTS OF THE CITY OF HUBER HEIGHTS THE APPLICABLE SECTIONS OF THE ODOT STANDARD SPECIFICATIONS FOR ROADWAY CONSTRUCTION, AND ALL OTHER PERTINENT FEDERAL AND STATE LAWS.
2. THE CONTRACTOR SHALL COMPLY AT ALL TIMES WITH APPLICABLE FEDERAL, STATE AND LOCAL LAWS, PROVISIONS, AND POLICIES GOVERNING SAFETY AND HEALTH.
3. THE CONTRACTOR SHALL BE RESPONSIBLE FOR EXAMINING THE AREAS AND CONDITIONS UNDER WHICH THE PROJECT IS TO BE CONSTRUCTED PRIOR TO THE SUBMISSION OF A BID. SUBMISSION OF A BID SHALL BE CONSTRUED TO MEAN THE CONTRACTOR HAS REVIEWED THE SITE AND IS FAMILIAR WITH CONDITIONS AND CONSTRAINTS OF THE SITE.
4. BEFORE EXCAVATION, ALL UNDERGROUND UTILITIES SHALL BE LOCATED IN THE FIELD BY THE PROPER AUTHORITIES. THE CONTRACTOR SHALL NOTIFY OUPS. THE LOCATION OF ALL UTILITIES AND UNDERGROUND STRUCTURES ARE APPROXIMATE AND MAY NOT ALL BE SHOWN. IT IS THE RESPONSIBILITY OF THE CONTRACTOR TO DETERMINE THE EXISTENCE AND EXACT LOCATION OF ALL UTILITIES AND UNDERGROUND STRUCTURES.
5. CONTRACTOR SHALL COORDINATE PUMP ISLAND CANOPY DRAINS CONNECTION TO THE MAIN COLLECTOR PIPE WITH OWNER AND PROVIDE ALL NECESSARY FITTINGS TO MAKE THE CONNECTION TO THE MAIN COLLECTOR PIPE.
6. CONTRACTOR TO PROVIDE SHOP DRAWINGS ON ALL STORM SEWER MANHOLES AND INLETS.
7. AN AS-BUILT DRAWING OF NEW UTILITY SERVICES SHALL BE PREPARED BY THE CONTRACTOR AND SUBMITTED TO THE OWNER UPON COMPLETION OF THE PROJECT.
8. ALL STORM PIPE SHALL BE AS SPECIFIED. ALL JOINTS SHALL BE WATERTIGHT.
9. CONTRACTOR SHALL REFER TO OTHER PLANS WITHIN THIS CONSTRUCTION SET FOR OTHER PERTINENT INFORMATION.

UTILITY NOTES:

3. ALL SITE WORK SHALL BE DONE IN ACCORDANCE WITH THE PLANS PREPARED BY CESO, THE CURRENT REQUIREMENTS OF THE CITY OF HUBER HEIGHTS, THE APPLICABLE SECTIONS OF THE ODOT STANDARD SPECIFICATIONS FOR ROADWAY CONSTRUCTION, AND ALL OTHER PERTINENT FEDERAL AND STATE LAWS.
2. THE CONTRACTOR SHALL COMPLY AT ALL TIMES WITH APPLICABLE FEDERAL, STATE AND LOCAL LAWS, PROVISIONS, AND POLICIES GOVERNING SAFETY AND HEALTH.
3. THE CONTRACTOR SHALL BE RESPONSIBLE FOR EXAMINING THE AREAS AND CONDITIONS UNDER WHICH THE PROJECT IS TO BE CONSTRUCTED PRIOR TO THE SUBMISSION OF A BID. SUBMISSION OF A BID SHALL BE CONSTRUED TO MEAN THE CONTRACTOR HAS REVIEWED THE SITE AND IS FAMILIAR WITH CONDITIONS AND CONSTRAINTS OF THE SITE.
4. BEFORE EXCAVATION, ALL UNDERGROUND UTILITIES SHALL BE LOCATED IN THE FIELD BY THE PROPER AUTHORITIES. THE CONTRACTOR SHALL NOTIFY OPS. THE LOCATION OF ALL UTILITIES AND UNDERGROUND STRUCTURES ARE APPROXIMATE AND MAY NOT ALL BE SHOWN. IT IS THE RESPONSIBILITY OF THE CONTRACTOR TO DETERMINE THE EXISTENCE AND EXACT LOCATION OF ALL UTILITIES AND UNDERGROUND STRUCTURES.
5. IT IS THE RESPONSIBILITY OF THE CONTRACTOR TO BID AND PERFORM ALL UTILITY WORK IN COMPLIANCE TO ALL APPLICABLE LOCAL AND STATE CODES AND REGULATIONS.
6. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL FEES ASSOCIATED WITH THE INSTALLATION, INSPECTING, TESTING AND FINAL ACCEPTANCE OF ALL PROPOSED UTILITIES CONSTRUCTION.
7. CONTRACTOR SHALL COORDINATE WITH THE APPROPRIATE UTILITY COMPANY ON THE ADDITION, REMOVAL AND/OR RELOCATION OF UTILITIES AND UTILITY POLES AND THE EXTENSION OF ALL PROPOSED UTILITIES TO PROPOSED STORE AND CAR WASH.
8. ALL UTILITIES SHALL BE INSTALLED IN ACCORDANCE WITH THE SPECIFICATIONS OF THE RESPECTIVE UTILITY COMPANY. IT IS THE RESPONSIBILITY OF THE CONTRACTOR TO ENSURE ALL UTILITIES ARE INSTALLED CORRECTLY TO MEET PROJECT REQUIREMENTS WHETHER PERFORMED BY THE CONTRACTOR OR NOT.
9. AN AS-BUILT DRAWING OF NEW UTILITY SERVICES SHALL BE PREPARED BY THE CONTRACTOR AND SUBMITTED TO THE STORE OWNER UPON COMPLETION OF THE PROJECT.
10. UTILITY COMPANIES AND CONTACTS ARE LISTED ON THE TITLE SHEET.
11. CONDUIT LOCATIONS TO PYLON SIGNS AND SITE LIGHT POLES TO BE COORDINATED WITH SUPERINTENDENT.
12. CONTRACTOR SHALL COORDINATE WITH SUPERINTENDENT ON LOCATION AND SIZE OF THE GREASE TRAP. GREASE TRAP SHALL BE PROVIDED WITH "T" PIPE IN OUTFLOW CHAMBER. ALL SANITARY SEWER PIPE SHALL BE SDR-35 PVC UNLESS OTHERWISE NOTED.
13. CONTRACTOR SHALL COORDINATE WITH STORE OWNER ON CONDUIT ROUTE TO STORE FROM THE TRANSFORMER AND/OR SERVICE UTILITY POLE FOR TELEPHONE AND ELECTRICAL SERVICE.
14. CONTRACTOR SHALL REFER TO OTHER PLANS WITHIN THIS CONSTRUCTION SET FOR OTHER PERTINENT INFORMATION.

LAYOUT NOTES:

1. CONTRACTOR SHALL REFER TO THE ARCHITECTURAL PLANS FOR THE EXACT LOCATION OF UTILITY ENTRANCES, BUILDING DIMENSIONS, ROOF LEADERS, EXIT DOORS, EXIT RAMPS AND PORCHES.
2. ALL DIMENSIONS ARE TO BUILDING FACE, FACE OF CURB OR EDGE OF SIDEWALK UNLESS NOTED OTHERWISE.
3. CONTRACTOR SHALL PROVIDE ALL LABOR AND MATERIALS FOR THE INSTALLATION OF TRAFFIC SIGNAGE AND PAVEMENT MARKINGS AS SHOWN ON THE CONSTRUCTION PLANS.
4. ALL NON-LANDSCAPED ISLANDS SHALL BE PAINTED WITH STRIPES 4" WIDE, AT 45° AND 2 FEET O.C.
5. ALL STRIPING SHALL BE 4" WIDE UNLESS NOTED OTHERWISE.
6. CONTRACTOR SHALL COORDINATE FINAL LOCATION OF THE PYLON SIGN WITH STORE OWNER.
7. CONTRACTOR SHALL REFER TO OTHER PLANS WITHIN THIS CONSTRUCTION SET FOR OTHER PERTINENT INFORMATION.

CONTRACTOR NOTE:

- CONTRACTOR SHALL VERIFY ALL LOCATIONS AND DEPTHS OF EXISTING UTILITIES.

CODED NOTES:

- CONTRACTOR SHALL FURNISH AND INSTALL 2" COPPER TUBE SIZE POLYETHYLENE PIPING FROM METER IN BUILDING TO NEW 2" TAP. NEW WATER TAPS WILL NEED TO BE INSTALLED AT WATER MAIN.
- CONNECT 6" SDR-35 PVC SANITARY SERVICE (MINIMUM 1.00% SLOPE) TO EXISTING SANITARY CLEANOUT PER CITY OF HUBER HEIGHTS STANDARDS. CONTRACTOR SHALL FIELD LOCATE AND VERIFY EXISTING SANITARY CLEANOUT PRIOR TO CONSTRUCTION AND REPORT ANY DISCREPANCIES TO ENGINEER. CONTRACTOR SHALL PROVIDE ALL NECESSARY FITTINGS FOR FINAL CONNECTION.
- COORDINATE UTILITIES WITH PLUMBING CONTRACTOR, CAP AND MARK FOR FUTURE CONNECTION. FINAL CONNECTION BY PLUMBING CONTRACTOR.
- CONTRACTOR SHALL COORDINATE WITH THE POWER COMPANY TO VERIFY THE LOCATION, ORIGIN OF PRIMARY SERVICE, AND ALL STANDARDS FOR WORK. CONTRACTOR SHALL PROVIDE THE TRANSFORMER VAULT AND PAD, CT, METER SOCKET, CONDUIT AND CABLE, AND SECONDARY FINAL CONNECTION.
- CONTRACTOR SHALL PROVIDE (2) 4" CONDUIT FOR TELEPHONE. CONTRACTOR SHALL VERIFY EXACT ROUTING AND TERMINATION REQUIREMENTS WITH UTILITY COMPANIES BEFORE STARTING WORK. CONTRACTOR SHALL COORDINATE WITH OTHER UTILITIES AND UTILIZE SHARED TRENCHING IF PERMITTED.
- CONNECTION TO GAS MAIN. LOCAL GAS COMPANY SHALL FURNISH AND INSTALL GAS LINE FROM METER TO NEW TAP. THE CONTRACTOR SHALL INSTALL THE GAS LINE FROM THE METER TO THE BUILDING PER THE BUILDING DRAWINGS. CONTRACTOR SHALL FIELD LOCATE AND VERIFY EXISTING GAS MAIN PRIOR TO CONSTRUCTION AND REPORT ANY DISCREPANCIES TO ENGINEER.
- CONTRACTOR SHALL SUPPLY AND INSTALL BELOW GRADE 2000 GALLON GREASE INTERCEPTOR. REFER TO UTILITY DETAILS, SHEET C6.3.
- PROPOSED 6" PVC STORM LINE FROM DOWNSPOUTS TO STORM CATCH BASINS (MIN. SLOPE 1.00%). REFER TO ARCHITECTURAL PLANS FOR EXACT BUILDING DOWNSPOUT LOCATIONS.
- FIRE HYDRANT BY DEVELOPER.

STORMWATER POLLUTION PREVENTION PLAN (SWPPP) PROJECT NARRATIVE:

DEVELOPER:
SKILKEN GOLD REAL ESTATE DEVELOPMENT
4270 MORSE ROAD
COLUMBUS, OH 43230
PHONE: (614) 262-0938
CONTACT: BETH COTNER

ENGINEER:
CESO, INC.
2800 CORPORATE EXCHANGE DR, SUITE 400
COLUMBUS, OH 43231
PHONE: (603) 799-5227
CONTACT: JOSH LONG
EMAIL: JOSH.LONG@CESOINC.COM

THE PROPOSED PROJECT IS THE CONSTRUCTION OF GAS STATION AND CONVENIENCE STORE. THE SUBJECT PARCEL IS 2.82 ACRES. THE TOTAL DISTURBED AREA IS 2.35 ACRES.

THE ENTIRE SITE DRAINS NORTHEAST TOWARDS THE EXISTING RETENTION BASIN.

EXISTING ON-SITE CONDITIONS: THE ENTIRE DEVELOPMENT IS PAD READY FOR CONSTRUCTION.

SEQUENCE OF CONSTRUCTION

1. NOTIFY CITY OF HUBER HEIGHTS ADMINISTRATOR BEFORE WORK IS TO BEGIN.
2. INSTALL ALL TEMPORARY EROSION CONTROL MEASURES INCLUDING SILT FENCE, CONSTRUCTION EXIT, FILTER SACKS, CONCRETE WASHOUT.
3. SITE DEMOLITION AND CLEARING.
4. ROUGH GRADING. PROVIDE TEMPORARY SEEDING OF DISTURBED AREAS WHICH ARE INACTIVE.
5. STORM SEWER AND UNDERGROUND UTILITY CONSTRUCTION.
6. BUILDING PAD.
7. CURB CONSTRUCTION.
8. FINE GRADING AND PAVEMENT SUBGRADE PREPARATION
9. ASPHALT PAVING AND REMAINING CONCRETE FLATWORK.
10. FINAL SEEDING.

* CONTRACTOR SHALL MODIFY THE SEQUENCE OF CONSTRUCTION BASED ON SITE CONDITIONS. CONTRACTOR TO NOTIFY PROJECT MANAGER PRIOR TO CHANGING SEQUENCE OF CONSTRUCTION.

E&SC GENERAL NOTES

1. ALL EROSION AND SEDIMENTATION CONTROL SHALL BE PERFORMED ACCORDING TO: SWPPP AND DETAIL PLANS; ACCORDING TO THE LATEST EPA AUTHORIZATION FOR CONSTRUCTION ACTIVITY UNDER THE "NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM" (NPDES); ANY AND ALL REQUIRED PERMITS, REPORTS, AND RELATED DOCUMENTS. ALL CONTRACTORS AND SUBCONTRACTORS MUST BECOME FAMILIAR WITH ALL OF THE ABOVE.
2. CONTRACTOR SHALL IMPLEMENT BEST MANAGEMENT PRACTICES (BMPs) AS REQUIRED BY THE SWPPP. ADDITIONAL BEST MANAGEMENT PRACTICES SHALL BE IMPLEMENTED AS DICTATED BY CONDITIONS AND GRADE CHANGES TO THE SITE AT NO ADDITIONAL COST TO OWNER THROUGHOUT ALL PHASES OF CONSTRUCTION.
3. CONTRACTOR SHALL MINIMIZE CLEARING AND DISTURBANCE TO THE ENVIRONMENT TO THE MAXIMUM EXTENT POSSIBLE OR AS REQUIRED BY THE GENERAL PERMIT.
4. SEDIMENT STRUCTURE AND PERIMETER SEDIMENT BARRIERS SHALL BE IMPLEMENTED AS THE FIRST STEP OF GRADING WITHIN SEVEN (7) DAYS FROM THE START OF CLEARING AND GRUBBING, AND SHALL CONTINUE TO FUNCTION UNTIL THE SLOPE DEVELOPMENT AREA IS RESTABILIZED.
5. PERMANENT SOIL STABILIZATION OF DISTURBED AREAS BY MEANS OF VEGETATION, LANDSCAPE TYPE MULCHING, MATTING, SOD, RIP RAP, AND OTHER APPROVED LANDSCAPING TECHNIQUES TO BE APPLIED AS FOLLOWS:
 - WITHIN SEVEN (7) DAYS OF ANY AREA THAT WILL BE DORMANT FOR ONE (1) YEAR OR MORE.
 - WITHIN TWO (2) DAYS OF ANY AREA WITHIN 50 FEET OF A STREAM AT FINAL GRADE.
 - WITHIN SEVEN (7) DAYS FOR ANY OTHER AREA AT FINAL GRADE.
6. TEMPORARY SOIL STABILIZATION OF DISTURBED AREAS BY MEANS OF TEMPORARY VEGETATION, MULCHING, GEOTEXTILES, SOD, PRESERVATION OF EXISTING VEGETATION, AND OTHER APPROVED TECHNIQUES TO BE APPLIED AS FOLLOWS:
 - WITHIN TWO (2) DAYS OF ANY AREA WITHIN 50 FEET OF A STREAM NOT AT FINAL GRADE.
 - WITHIN SEVEN (7) DAYS OF ANY AREA THAT WILL BE DORMANT FOR MORE THAN TWENTY ONE (21) DAYS, BUT LESS THAN ONE (1) YEAR.
 - PRIOR TO THE ONSET OF WINTER WEATHER FOR AREAS THAT WILL BE IDLE OVER WINTER.
7. TEMPORARY SEEDING, MULCHING, AND FERTILIZER SPECIFICATIONS:

SEEDING: ANNUAL RYEGRASS AT 2.02 POUNDS PER 1,000 S.F.

MULCHING: STRAW MATERIAL SHALL BE UNROTTED SMALL GRAIN STRAW APPLIED AT A RATE OF TWO (2) TON/ACRE, OR 80-100 POUNDS PER 1,000 S.F. MULCH MATERIALS SHALL BE RELATIVELY FREE OF ALL KINDS OF WEEDS AND SHALL BE FREE OF PROHIBITIVE NOXIOUS WEEDS. MULCH SHALL BE SPREAD UNIFORMLY BY HAND OR MECHANICAL MEANS. FROM NOVEMBER 01 THRU MARCH 15 INCREASE THE RATE OF STRAW MULCH TO THREE (3) TON/ACRE.

FERTILIZER: APPLY FERTILIZER AT HALF THE RATE OF PERMANENT APPLICATION AND AS PER ODOT SPECIFICATIONS. IF PROJECT CONDITIONS PREVENT FERTILIZING THE SOIL, THEN THIS ITEM MAY BE WAIVED.
8. SLOPES SHALL BE LEFT IN A ROUGHENED CONDITION DURING THE GRADING PHASE TO REDUCE RUNOFF VELOCITIES AND EROSION. ALL SLOPES 3:1 OR GREATER THAN 3:1 SHALL BE FERTILIZED, SEED, AND CURLEX BLANKETS BY AMERICAN EXCELSIOR COMPANY, NORTH AMERICAN GREEN, INC. OR AN APPROVED EQUAL AS SPECIFIED IN THE PLANS SHALL BE INSTALLED ON THE SLOPES.
9. NO SOLID (OTHER THAN SEDIMENT) OR LIQUID WASTE, INCLUDING BUILDING MATERIALS, SHALL BE DISCHARGED IN STORM WATER RUNOFF. ALL NON-SEDIMENT POLLUTANTS MUST BE DISPOSED OF IN ACCORDANCE WITH LOCAL, STATE, AND FEDERAL GUIDELINES. WASH OUT OF CEMENT TRUCKS SHOULD OCCUR IN DESIGNATED PIT OR DIKED AREAS, WHERE WASHINGS CAN BE REMOVED AND PROPERLY DISPOSED OFF-SITE WHEN THEY HARDEN. STORAGE TANKS SHOULD ALSO BE LOCATED IN PIT OR DIKED AREAS. IN ADDITION, SUFFICIENT OIL AND GREASE ABSORBING MATERIALS AND FLOTATION BOOMS TO CLEAN AND CONTAIN FUEL AND CHEMICAL SPILLS MUST BE KEPT ON SITE.
10. IF THE ACTION OF VEHICLES TRAVELING OVER THE STABILIZED CONSTRUCTION EXIT DOES NOT SUFFICIENTLY REMOVE MOST OF THE DIRT AND MUD, THEN THE TIRES MUST BE WASHED BEFORE VEHICLES ENTER A PUBLIC ROAD. PROVISIONS MUST BE MADE TO INTERCEPT THE WATER AND TRAP THE SEDIMENT BEFORE IT IS CARRIED OFF THE SITE.

11. RUBBISH, TRASH, GARBAGE, LITTER, OR OTHER SUCH MATERIALS SHALL BE DISPOSED INTO SEALED CONTAINERS. MATERIALS SHALL BE PREVENTED FROM LEAVING THE SITE THROUGH THE ACTION OF WIND OR STORM WATER DISCHARGE INTO DRAINAGE DITCHES OR WATERS OF THE STATE.
12. DUST CONTROL USING APPROVED MATERIALS MUST BE PERFORMED AT ALL TIMES. THE USE OF MOTOR OILS AND OTHER PETROLEUM BASED OR TOXIC LIQUIDS FOR DUST SUPPRESSION IS PROHIBITED.
13. ON-SITE AND OFF-SITE STOCKPILE AND BORROW AREAS SHALL BE PROTECTED FROM EROSION AND SEDIMENTATION BY THE USE OF BEST MANAGEMENT PRACTICES. THESE AREAS MUST BE SHOWN IN THE SITE MAP AND PERMITTED IN ACCORDANCE WITH GENERAL PERMIT REQUIREMENTS. AT A MINIMUM SILT FENCE TO BE PLACED AT PERIMETER OF STOCKPILE AREA TO PREVENT SOIL FROM LEAVING THE STOCKPILE AREA.
14. ALL MATERIALS SPILLED, DROPPED, WASHED, OR TRACKED ONTO THE ROADWAYS OR INTO THE STORM SEWERS MUST BE REMOVED IMMEDIATELY.
15. ALL CONSTRUCTION SHALL BE STABILIZED AT THE END OF EACH DAY; THIS INCLUDES BACKFILLING OF TRENCHES FOR UTILITY CONSTRUCTION AND PLACEMENT OF GRAVEL OR ASPHALT FOR ROAD CONSTRUCTION.
16. THE LAST LAYER OF SOIL, INCLUDING TOP SOIL, SHOULD BE COMPACTED TO 80% - 85% OF THE MAXIMUM STANDARD PROCTOR DENSITY, IN AREAS OUTSIDE THE PARKING LOT THAT WILL RECEIVE VEGETATION. THIS IS PARTICULARLY IMPORTANT IN CUT SLOPE AND EMBANKMENT AREAS. IN PAVEMENT AND ISLAND AREAS, IT IS RECOMMENDED THAT THE SOIL BE COMPACTED TO 98% AND 95% OF THE MAXIMUM STANDARD PROCTOR DENSITY RESPECTIVELY. THE LAST COMPACTED LAYER MAY BE SCARIFIED TO IMPROVE THE SOIL GROWTH CHARACTERISTICS.
17. ALL DEWATERING ACTIVITIES SUCH AS PUMPING DOWN OF FLOODED FOUNDATION AND UTILITY TRENCHES MUST PASS THROUGH THE RETROFITTED DETENTION BASIN OR A SEDIMENT CONTROL PRACTICE PRIOR TO LEAVING THE SITE.
18. SILT FENCE AND OTHER PERIMETER EROSION CONTROL MEASURES SHOWN OFF LIMITS OF DISTURBANCE FOR CLARITY PURPOSES ONLY. CONTRACTOR TO ENSURE PERIMETER EROSION CONTROL MEASURES ARE PLACED AT THE LIMITS OF DISTURBANCE. ANY DISCREPANCIES SHOULD BE BROUGHT TO THE ENGINEER PRIOR TO PLACEMENT OF ANY EROSION CONTROL MEASURES.

SWPPP MAINTENANCE NOTES

1. ALL CONTROL MEASURES STATED IN THE SWPPP SHALL BE MAINTAINED IN FULLY FUNCTIONAL CONDITION UNTIL TEMPORARY OR PERMANENT STABILIZATION OF THE SITE IS ACHIEVED. ALL EROSION AND SEDIMENTATION CONTROL MEASURES SHALL BE INSPECTED BY A QUALIFIED PERSON IN ACCORDANCE TO THE CONTRACT DOCUMENTS OR THE APPLICABLE PERMIT, WHICHEVER IS MORE STRINGENT, AND REPAIRED ACCORDING TO THE FOLLOWING.
2. INLET PROTECTION DEVICES AND CONTROLS SHALL BE REPAIRED OR REPLACED WHEN THEY SHOW SIGNS OF UNDERMINING AND/OR DETERIORATION. INLET PROTECTION DEVICES SHOULD BE ROUTINELY CLEANED AND MAINTAINED.
3. ALL SEEDING AREAS SHALL BE CHECKED REGULARLY TO ENSURE THAT A GOOD STANDING OF GRASS IS MAINTAINED. AREAS SHOULD BE FERTILIZED, WATERED, AND RESEED AS NEEDED.
4. MINIMIZE OFF-SITE SEDIMENT TRACKING OF VEHICLES BY THE USE OF STONE MATERIAL IN ALL CONSTRUCTION ENTRANCES, ALONG WITH REGULARLY SCHEDULED SWEEPING/GOOD HOUSEKEEPING. STABILIZED CONSTRUCTION ENTRANCES TO BE PROPERLY MAINTAINED BY GENERAL CONTRACTOR AND IN GOOD WORKING ORDER AT ALL TIMES. THIS MAY REQUIRE PERIODIC TOP DRESSING OF THE STONE AS CONDITIONS DEMAND.
5. THE TEMPORARY PARKING AND STORAGE AREA SHALL BE KEPT IN GOOD CONDITION (SUITABLE FOR PARKING AND STORAGE) BY GENERAL CONTRACTOR. THIS MAY REQUIRE PERIODIC TOP DRESSING OF THE TEMPORARY PARKING AS CONDITIONS DEMAND.
6. CONTRACTORS AND SUBCONTRACTORS WILL BE RESPONSIBLE FOR REMOVING ALL SEDIMENT FROM THE SITE, AND STORM SEWER SYSTEMS. SEDIMENT DEPOSITION DURING SITE STABILIZATION MUST ALSO BE REMOVED.
7. STONE CONSTRUCTION EXIT TO BE MAINTAINED BY GENERAL CONTRACTOR UNTIL SITE HAS BEEN PAVED OR IS NO LONGER REQUIRED.

SECTION

NOTES:

1. MATERIALS - COMPOST USED FOR FILTER SOCKS SHALL BE WEED, PATHOGEN AND INSECT FREE AND FREE OF ANY REFUSE, CONTAMINANTS OR OTHER MATERIALS TOXIC TO PLANT GROWTH. THEY SHALL BE DERIVED FROM A WELL-DECOMPOSED SOURCE OF ORGANIC MATTER AND CONSIST OF A PARTICLES RANGING FROM 3/8" TO 2".
 2. FILTER SOCKS SHALL BE 5 MIL CENTIMOUNT, TUBULAR, HDPE 3/8" KNITTED MESH NETTING MATERIAL, FILLED WITH COMPOST PASSING THE ABOVE SPECIFICATIONS FOR COMPOST PRODUCTS.
- INSTALLATION:**
3. FILTER SOCKS WILL BE PLACED ON A LEVEL LINE ACROSS SLOPES, GENERALLY PARALLEL TO THE BASE OF THE SLOPE OR OTHER AFFECTED AREA. ON SLOPES APPROACHING 2:1, ADDITIONAL SOCKS SHALL BE PROVIDED AT THE TOP AND AS NEEDED MIDSLOPE.
 4. FILTER SOCKS INTENDED TO BE LEFT AS A PERMANENT FILTER OR PART OF THE NATURAL LANDSCAPE, SHALL BE SEEDED AT THE TIME OF INSTALLATION FOR ESTABLISHMENT OF PERMANENT VEGETATION.
 5. FILTER SOCKS ARE NOT TO BE USED IN CONCENTRATED FLOW SITUATIONS OR IN RUNOFF CHANNELS.
- MAINTENANCE:**
6. ROUTINELY INSPECT FILTER SOCKS AFTER EACH SIGNIFICANT RAIN, MAINTAINING FILTER SOCKS IN A FUNCTIONAL CONDITION AT ALL TIMES.
 7. REMOVE SEDIMENTS COLLECTED AT THE BASE OF THE FILTER SOCKS WHEN THEY REACH 1/3 OF THE EXPOSED HEIGHT OF THE PRACTICE.
 8. WHERE THE FILTER SOCK DETERIORATES OR FAILS, IT WILL BE REPAIRED OR REPLACED WITH A MORE EFFECTIVE ALTERNATIVE.
 9. REMOVAL - FILTER SOCKS WILL BE DISPERSED ON SITE WHEN NO LONGER REQUIRED IN SUCH AS WAY AS TO FACILITATE AND NOT OBSTRUCT SEEDINGS.

CONCRETE WASHOUT

NTS

- NOTES:
1. ACTUAL LAYOUT DETERMINED IN THE FIELD.
 2. THE CONCRETE WASHOUT SIGN SHALL BE INSTALLED WITHIN 30' OF THE TEMPORARY CONCRETE WASHOUT FACILITY.
 3. THE WASHOUT MUST HAVE SUFFICIENT VOLUME TO CONTAIN ALL LIQUID AND CONCRETE WASTE GENERATED BY WASHOUT OPERATIONS INCLUDING BUT NOT LIMITED TO OPERATIONS ASSOCIATED WITH GROUT AND MORTAR

STABILIZED CONSTRUCTION ENTRANCE

NTS

SPECIFICATIONS FOR SILT FENCE

FABRIC PROPERTIES	VALUES	TEST METHODS
GRAB TENSILE STRENGTH	90 LB. MINIMUM	ASTM D-1682
MULEN BURST STRENGTH	190 PSI MINIMUM	ASTM D-3786
SLURRY FLOW RATE	0.3 GAL/MIN/FT. MAX.	
EQUIVALENT OPENING SIZE	40-80	US STD. SIEVE CW 02215
ULTRAVIOLET RADIATION STABILITY	90% MINIMUM	ASTM - G 26

CRITERIA FOR SILT FENCE MATERIALS

1. FENCE POSTS - THE LENGTH SHALL BE A MINIMUM OF 32 INCHES LONG. WOOD POSTS WILL BE 2 IN. X 2 IN. HARDWOOD OF SOUND QUALITY. THE MAXIMUM SPACING BETWEEN POSTS SHALL BE 10 FT.
2. SILT FENCE FABRIC (SEE CHART BELOW)

NOTES:

1. SILT FENCE SHALL BE CONSTRUCTED BEFORE UPSLOPE LAND DISTURBANCE BEGINS.
2. ALL SILT FENCE SHALL BE PLACED AS CLOSE TO THE CONTOUR AS POSSIBLE SO THAT WATER WILL NOT CONCENTRATE AT LOW POINTS IN THE FENCE AND SO THAT SMALL SWALES OR DEPRESSIONS WHICH MAY CARRY SMALL CONCENTRATED FLOWS TO THE SILT FENCE ARE ELIMINATED ALONG THE LENGTH.
3. TO PREVENT WATER PONDED BY THE SILT FENCE FROM FLOWING AROUND THE ENDS, EACH END SHALL BE CONSTRUCTED UPSLOPE SO THAT THE ENDS ARE AT A HIGHER ELEVATION.
4. WHERE POSSIBLE, SILT FENCE SHALL BE PLACED ON THE FLATTEST AREA AVAILABLE.
5. WHERE POSSIBLE, VEGETATION SHALL BE PRESERVED FOR 5 FT. (OR AS MUCH AS POSSIBLE) UPSLOPE FROM THE SILT FENCE. IF VEGETATION IS REMOVED, IT SHALL BE ESTABLISHED WITHIN 7 DAYS FROM THE INSTALLATION OF THE SILT FENCE.
6. THE HEIGHT OF THE SILT FENCE SHALL BE A MINIMUM OF 16 IN. ABOVE THE ORIGINAL GROUND SURFACE.
7. 6 IN. DEEP THE TRENCH SHALL BE CUT WITH A TRENCHER, CHAIN LAYING MACHINE, OR OTHER SUITABLE DEVICES WHICH WILL ENSURE ADEQUATE UNIFORM TRENCH DEPTH.
8. THE SILT FENCE SHALL BE PLACED WITH THE STAKES ON THE DOWNSLOPE SIDE OF THE GEOTEXTILE AND SO THAT THE 8 INCHES OF CLOTH ARE BELOW THE GROUND SURFACE. EXCESS CLOTH SHALL BE LAYED IN THE TRENCH AND DEEP TRENCH. THE TRENCH SHALL BE BACKFILLED AND COMPACTED.
9. SEAMS BETWEEN SECTIONS OF SILT FENCE SHALL BE OVERLAPPED WITH THE END STAKES OF EACH SECTION WRAPPED TOGETHER BEFORE DRIVING INTO THE GROUND.
10. MAINTENANCE - SILT FENCE SHALL ALLOW RUNOFF TO PASS ONLY AS DIFFUSE FLOW THROUGH THE GEOTEXTILE. IF RUNOFF OVERTOPS SILT FENCE, FLOWS UNDER OR AROUND THE ENDS, OR OTHERWISE BECOMES A CONCENTRATED FLOW, ONLY ONE OF THE FOLLOWING SHALL BE PERFORMED, AS APPROPRIATE:
 - 1) THE LAYOUT OF THE SILT FENCE SHALL BE CHANGED.
 - 2) ACCUMULATED SEDIMENT SHALL BE REMOVED, OR...

PLANTING PLAN

ISSUE: OWNER REVIEW	
DATE: 04.29.2022	
JOB NO.:	760396
DESIGN:	EAB
DRAWN:	EAB
CHECKED:	CJC
SHEET NO. L1.0	

ALL GROUND COVER SHALL BE PLANTED AT
EQUAL TRIANGULAR SPACING PER ON CENTER
SPACING AS SPECIFIED ON PLANTING PLAN.

LOCATE GROUND COVER ONE HALF OF SPECIFIED
SPACING DISTANCE FROM ANY CURB, SIDEWALK, OR
OTHER HARD SURFACE, UNLESS OTHERWISE NOTED

GENERAL NOTES: LANDSCAPE PLAN

1. CONTRACTOR TO VERIFY WITH OWNER AND UTILITY COMPANIES THE LOCATIONS OF ALL UTILITIES PRIOR TO CONSTRUCTION. TO DETERMINE IN THE FIELD THE ACTUAL LOCATIONS AND ELEVATIONS OF ALL EXISTING UTILITIES, WHETHER SHOWN ON THE PLANS OR NOT, THE CONTRACTOR SHALL CALL UTILITY LOCATE SERVICE 72 HOURS PRIOR TO CONSTRUCTION.
2. SITE CONDITIONS BASED UPON SURVEY PROVIDED BY OWNER. CONTRACTOR TO FIELD VERIFY EXISTING CONDITIONS BY DETAILED INSPECTION PRIOR TO SUBMITTING BID AND BEGINNING CONSTRUCTION.
3. REFER TO SITE CIVIL DRAWINGS FOR ADDITIONAL REQUIREMENTS AND COORDINATE WORK WITH OTHER SITE RELATED DEVELOPMENT DRAWING AS NEEDED.
4. REESTABLISH EXISTING TURF IN AREAS DISTURBED BY GRADING OR UTILITY TRENCHING, INCLUDING AREAS IN RIGHT-OF-WAY, TO MATCH EXISTING SPECIES.
5. CONTRACTOR SHALL EXAMINE FINISH SURFACE, GRADES, TOPSOIL QUALITY AND DEPTH. DO NOT START ANY WORK UNTIL UNSATISFACTORY CONDITIONS HAVE BEEN CORRECTED. VERIFY LIMITS OF WORK BEFORE STARTING.
6. CONTRACTOR TO REPORT ALL DAMAGES TO EXISTING CONDITIONS AND INCONSISTENCIES WITH PLANS TO LANDSCAPE ARCHITECT.
7. CONTRACTOR SHALL MAINTAIN POSITIVE DRAINAGE IN ALL LANDSCAPE BEDS AND ALL LAWN AREAS.
8. CONTRACTOR TO FINE GRADE AND ROCK-BOUND ALL TURF AREAS PRIOR TO SEEDING, TO PROVIDE A SMOOTH AND CONTINUAL SURFACE, FREE OF IRREGULARITIES (BUMPS OR DEPRESSIONS) & EXTRANEOUS MATERIAL OR DEBRIS.
9. REMOVE EXISTING WEEDS FROM PROJECT SITE PRIOR TO THE ADDITION OF ORGANIC AMENDMENTS AND FERTILIZER. APPLY AMENDMENTS AND FERTILIZER AS NEEDED.
10. QUANTITIES SHOWN ARE INTENDED TO ASSIST CONTRACTOR IN EVALUATING THEIR OWN TAKE OFFS AND ARE NOT GUARANTEED AS ACCURATE REPRESENTATIONS OF REQUIRED MATERIALS. THE CONTRACTOR SHALL BE RESPONSIBLE FOR HIS BID QUANTITIES AS REQUIRED BY THE PLANS AND SPECIFICATIONS. IF THERE IS A DISCREPANCY BETWEEN THE NUMBER LABELED ON THE PLANT LEGEND AND THE QUANTITY OF GRAPHIC SYMBOLS SHOWN, THE GREATER QUANTITY SHALL GOVERN.
11. COORDINATE LANDSCAPE INSTALLATION WITH INSTALLATION OF UNDERGROUND SPRINKLER AND DRAINAGE SYSTEMS.
12. ALL SIZES AND QUALITY OF PLANT MATERIAL SHALL MEET THE MINIMUM SPECIFICATIONS OF THE AMERICAN STANDARD FOR NURSERY STOCK (ANSI Z601-2014). THE LANDSCAPE CONTRACTOR SHALL INSTALL ALL PLANT MATERIAL IN SIZE AS INDICATED IN THE PLANT SCHEDULE UNLESS OTHERWISE SPECIFIED ON THE PLAN SET. ALL PLANTS THAT DO NOT MEET THE SIZE AND SPECIFICATIONS SET FORTH BY THE AMERICAN STANDARD FOR NURSERY STOCK WILL BE REJECTED BY LANDSCAPE ARCHITECT AT NO COST TO OWNER.
13. ONCE PROJECT IS AWARDED, THE LANDSCAPE CONTRACTOR SHALL BE RESPONSIBLE TO SECURE ALL PLANT MATERIAL IN THE SIZE SPECIFIED ON PLAN PRIOR TO INSTALLATION. IN THE EVENT THE PLANT MATERIAL IS NOT AVAILABLE IN THE SIZE SPECIFIED, THE CONTRACTOR SHALL INSTALL LARGER AT NO COST TO OWNER.
14. THE LANDSCAPE CONTRACTOR SHALL OBTAIN WRITTEN APPROVAL FOR ALL PLANT MATERIAL SUBSTITUTIONS FROM THE LANDSCAPE ARCHITECT PRIOR TO INSTALLATION. PLANT SUBSTITUTIONS WITHOUT PRIOR WRITTEN APPROVAL THAT DO NOT COMPLY WITH THE DRAWINGS AND SPECIFICATIONS MAY BE REJECTED BY THE LANDSCAPE ARCHITECT AND REPLACED BY CONTRACTOR AT NO COST TO THE OWNER.
15. PRIOR TO MOBILIZATION THE CONTRACTOR SHALL NOTIFY THE LANDSCAPE ARCHITECT, IN WRITING, IF HE/SHE BELIEVES ANY OF THE PLANT MATERIAL IDENTIFIED ON THE PLAN MAY NOT BE SUITABLE FOR THE SITE OR MAY DIE. SUBSTITUTION REQUESTS WILL BE GRANTED BY THE LANDSCAPE ARCHITECT PRIOR TO THE START OF CONSTRUCTION ACTIVITIES. IF NOTIFICATION IS NOT GIVEN TO THE LANDSCAPE ARCHITECT ALL PLANTINGS WHICH FAILS TO GROW (EXCEPT FOR DEFECTS RESULTING FROM LACK OF ADEQUATE MAINTENANCE AS DETERMINED BY THE OWNER, NEGLIGENCE, OR VANDALISM) SHALL BE REPLACED BY THE CONTRACTOR AT THE CONTRACTOR'S EXPENSE.
16. WHERE PROPOSED TREE LOCATIONS OCCUR UNDER EXISTING OVERHEAD UTILITIES OR CROWD EXISTING TREES, NOTIFY LANDSCAPE ARCHITECT TO ADJUST TREE LOCATIONS.
17. ALL PLANT MASSES TO BE TOP DRESSED WITH MULCH AS SPECIFIED IN PLANT SCHEDULE, SPREAD UNIFORMLY IN DEPTH OVER THE PLANTING BEDS AS DELINEATED ON THE PLANS UNLESS OTHERWISE NOTED.
18. BED EDGE TO BE NO LESS THAN 12" AND NO MORE THAN 18" FROM OUTER EDGE OF PLANT MATERIAL BRANCHING. WHERE GROUND-COVER OCCURS, PLANT TO LIMITS OF AREA AS SHOWN.
19. ALL PLANTS SHALL BE GUARANTEED FOR 1 YEAR AFTER SUBSTANTIAL COMPLETION OCCURS AND FINAL ACCEPTANCE BY OWNER.
20. LANDSCAPE MAINTENANCE PERIOD BEGINS IMMEDIATELY AFTER THE COMPLETION OF ALL PLANTING OPERATIONS AND WRITTEN ACCEPTANCE FROM THE OWNER AND LANDSCAPE ARCHITECT. MAINTAIN TREES, SHRUBS, LAWNS, AND OTHER PLANTS AS PER THE PROJECT MANUAL AND/OR WRITTEN SPECIFICATIONS, IF APPLICABLE. LANDSCAPE MAINTENANCE IS THE LANDSCAPING CONTRACTORS RESPONSIBILITY UNTIL FINAL ACCEPTANCE BY THE OWNER.
21. ALL LANDSCAPE MAINTENANCE SHALL BE IN ACCORDANCE WITH LOCAL GOVERNING STANDARDS.
22. REFER TO PROJECT MANUAL OR WRITTEN SPECIFICATIONS, IF AVAILABLE, FOR ADDITIONAL REQUIREMENTS.

SOIL PLANTING MIXTURE (MIX ONSITE)

1. THE LANDSCAPE CONTRACTOR SHALL FURNISH FROM THEIR SOURCE A GOOD CLEAN, NATIVE SOIL WHICH SHALL MEET THE APPROVAL OF THE OWNER'S REPRESENTATIVE. THIS SOIL SHALL BE USED FOR THE PLANTING MIXTURE AS FOLLOWS:
- A. ONE PART COMPOST/MANURE PLANTING MIX, TOPSOIL OR APPROVED EQUAL
 - B. ONE PART NATIVE SOIL
2. SOILS WITHIN PLANTING AREAS MUST BE SUITABLE FOR PROPOSED PLANTED MATERIAL & SOD WITH REGARD TO: pH, SOIL TEXTURE, STRUCTURE AND SEASONAL HIGH WATER TABLE. THE CONTRACTOR SHALL ANALYZE EXISTING SOILS LOCATED IN PROXIMITY TO PROPOSED PLANT MATERIAL AND BE RESPONSIBLE TO AMEND THE SOIL TO OBTAIN ESSENTIAL REQUIREMENTS NECESSARY FOR THE ESTABLISHMENT AND GROWTH OF PLANT LIFE. LANDSCAPE CONTRACTOR TO PROVIDE SOILS FAILURE TO PROVIDE AND APPROPRIATE RECOMMENDATIONS PRIOR TO INSTALLATION TO OWNER'S REPRESENTATIVE FOR REVIEW. FAILURE TO PROVIDE REPORT MAY RESULT IN PLANT MATERIAL BEING REJECTED BY OWNER'S REPRESENTATIVE AND REPLACED AT NO COST TO OWNER.
3. THE LANDSCAPE CONTRACTOR SHALL NOTIFY THE OWNER'S REPRESENTATIVE IN WRITING PRIOR TO PLANTING, WHEN CONDITIONS DETRIMENTAL TO PLANT GROWTH ARE ENCOUNTERED, SUCH AS RUBBLE FILL, POOR PLANTING SOIL, ADVERSE DRAINAGE CONDITIONS, OR OBSTRUCTIONS.

Fire Department Comments:

The Huber Heights City Code Part 15 Refers to Fire Code Requirements and has adopted by reference OFC and IFC Appendices

These comments are based only on the proposed site work, fire department access and basic fire protection concept at this time. A full plan review of the building systems, fire protection, egress and life safety will need to be conducted once the architectural plans have been submitted for permit. The proposed development will need to meet the requirements of the Ohio Fire Code 2017, Ohio Building Code 2017, and the Huber Heights Codified Ordinance. Based on the drawings provided the following requirements need to be met.

Requirements: (Site Plan)

- The canopy over fuel pumps shall have a clearance of 13 feet 6 inches or higher for fire apparatus clearance. Ohio Fire Code 503.2.1.
- The turn radius for the first entrance off Old Troy Pike needs to be increased/decreased for Huber Heights Fire apparatus to make turn onto service road. Ohio Fire Code D103.3 and 503.2.4. **(Confirm if island is a curbed concrete island or striped pavement.)**
- The turn radius to car wash needs to be increased for Huber Heights Fire apparatus to make turn. Ohio Fire Code D103.3 and 503.2.4. **(Drawing as shown we would not be able to get apparatus close to building in case of a fire.)**
- Fire apparatus access roads will need to comply with OFC 503 as well as the adopted appendices from the OFC (2017) and the Huber Heights Codified

Ordinance (HHCO) Section 15. ***(Size of access driveway to car wash needs to be increased for fire department access to and from the building.)***

- Hydrants in multi-family and commercial districts shall be placed not more than 300 feet apart, measured on the main and not more than 400 feet from any opening in any building. All new fire hydrants and any existing fire hydrants that are in need of replacement, shall meet the Huber Heights hydrant standard for this district of two (2), five (5) inch diameter steamer nozzles. These steamer nozzles shall have a five (5) inch STORTZ quick connection and one steamer shall have a four (4) inch STORTZ connection approved by the Code Official. Huber Heights Codified Ordinance 1521.06(c). ***(Hydrants are not shown on drawing.)***
- Unobstructed access to fire hydrants shall be maintained at all times. The fire department shall not be deterred or hindered from gaining immediate access to fire protection equipment or fire hydrants. Ohio Fire Code 507.5.4. ***(This will need to be confirmed once a drawing has been provided showing hydrants.)***
- A 3-foot (914 mm) clear space shall be maintained around the circumference of fire hydrants except as otherwise required or approved. (No trees, bushes, plantings, etc.) Ohio Fire Code 507.5.5. ***(This will need to be confirmed once a drawing has been provided showing hydrants.)***

Please reference contact information below for questions or concerns with this document.

Plans reviewed by the Huber Heights Fire Division are reviewed with the intent they comply in **ALL** respects to this code, as prescribed in **SECTION (D) 104.1 of the 2017 Ohio Fire Code**. Any omissions or errors on the plans or in this review do not relieve the applicant of complying with **ALL** applicable requirements of this code. These plans have been reviewed for compliance with the Ohio Fire Code adopted by this jurisdiction. There may be other regulations applicable under local, state, or federal statutes and codes, which this department has no authority to enforce and therefore have not been evaluated as part of this plan review.

DATE: May 26, 2022

SUBJECT: Capacity Analysis for Proposed C-Store Development, City of Huber Heights, Miami County, Ohio

INTRODUCTION

This memo documents a preliminary analysis on the traffic related impacts associated with the proposed C-Store Development. The purpose of this document is to allow the city to review the changes from the initial Broad Reach Development plan to the proposed development plan.

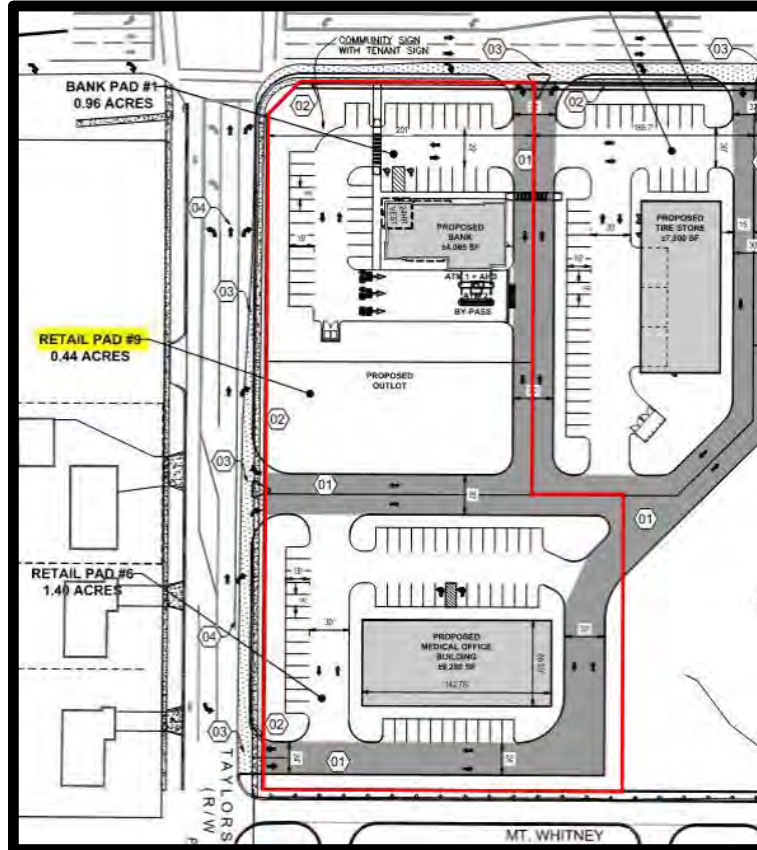

OVERVIEW

A preliminary transportation impact assessment was prepared by TEC Engineering, Inc. for the proposed Broad Reach Development site located in the northeast quadrant of the intersection of Taylorsville Road and Old Troy Pike within the City of Huber Heights, Miami County, OH.

The proposed multi-use development included a combination of restaurant, retail, and multi-family housing land uses. TEC Engineering evaluated the proposed land uses and sizes identified on the site plan using ITE Land Use Codes to estimate the peak hour generated trips associated with this development. Internal trip capture and pass-by trip capture data was utilized to define the final trip generation for the site including new trips and redirected existing trips.

Based upon conversations with the City of Huber Heights, changes were made to the existing multi-use development to include the substitution of three (3) lots that the proposed C-Store Development will be replacing. Figure 1 below illustrates the proposed location of the C-Store Development.

Figure 1
Proposed Location of C-Store Development

The three (3) existing lots consisted of:

- Existing Drive-In Bank occupying approximately 3,500 S.F.
- Existing Fast-Food Restaurant with Drive-Through Window occupying approximately 2,500 S.F.
- Existing Retail Shopping Center occupying approximately 9,280 S.F.

The proposed C-Store Development consists of:

- 6,138 S.F. convenience market
- 12 passenger car fueling stations
- Drive-through included as part of the convenience market
- Car wash including 1 service bay

TRIP GENERATION

Studies of similar developments throughout North America have shown that the amount of traffic generated will be functionally related to some unit of activity (i.e., number of dwelling units, vehicles, etc.). In development, site traffic fluctuates substantially on different days and hours throughout the year. Therefore, it is imperative to select an appropriate hourly volume on which to base the design of the external roadway and site access facilities. The Weekday AM and PM Peak Hours were selected based on the adjacent street traffic during this hour.

Utilizing the trip data from the preliminary transportation impact assessment prepared by TEC Engineering, Inc., CESO adjusted the generated trips to include the substitution of three (3) lots that the C-Store is taking over from the Broad Reach Development plan to determine the new Total Generated Trips.

Table 1
TEC Engineering Total Generated Trips

Land Use	Pass-by Trips				Non-Pass-by Trips			
	Weekday AM		Weekday PM		Weekday AM		Weekday PM	
	Enter	Exit	Enter	Exit	Enter	Exit	Enter	Exit
Drive-in Bank	5	4	11	11	12	9	21	21
Tire Store	3	2	3	4	9	5	9	11
Outparcel – Fast Food Restaurant with Drive-Through Window	23	22	19	18	24	23	19	18
Retail – Shopping Center	30	18	14	15	58	35	27	29
Retail – Shopping Center	30	18	13	14	57	35	25	27
End Cap Drive-Through Coffee/Donut Shop with Drive-Through	50	48	24	24	52	50	24	24
Fast Food Restaurant with Drive-Through Window	29	28	24	23	30	29	24	23
Fast Food Restaurant with Drive-Through Window	18	18	16	14	19	18	16	14
Multi-Family Housing (Mid Rise)	0	0	0	0	15	43	45	29
Total Trips	188	158	124	123	276	247	210	196
Adjusted Total Trips	130	114	80	79	182	180	143	128

For analysis purposes, the base variable units for the trip-generation rates were KSF (3.4 KSF = 3,400 S.F.), number of fueling positions, and bays. The C-Store Development Weekday Generated Traffic Volumes (Table 2) were calculated by utilizing data contained in the Institute of Transportation Engineers (ITE) *Trip Generation Manual, 10th Edition* in combination with methods outlined in the (ITE) *Trip Generation Handbook*. Pass-by trips were applied and based on percentages found in the Institute of Transportation Engineers (ITE) *Trip Generation Handbook, 3rd Edition*. CESO proposed a 76% pass-by rate for the AM and PM Peak Hours for ITE LUC Category 960. The C-Store Development Weekday Generated Traffic Volumes are presented below in Table 2.

Table 2
C-Store Development Weekday Generated Trips

ITE Land Use Description	ITE Cat.	Size	Unit	Total Generated Trips										
				Weekday			Weekday AM Peak Hour				Weekday PM Peak Hour			
				Trips			Trips				Trips			
				Tot	In	Out	^A Tot	In	Out	^B PB	^A Tot	In	Out	^B PB
Automated Car Wash	948	1	Bays	776	388	388	---	---	---	---	78	39	39	0
ITE Cat. 948 Entering (%)/Exiting (%)				100%	50%	50%	---	---	---	---	100%	50%	50%	^C 0%
Internal Capture Applied				---	---	---	---	---	---	---	20	10	10	
Internal Capture Rates				---	---	---	---	---	---	---	---	75%	75%	---
Gasoline/Service Station with Convenience Market	---	12	Fuel Pos.	2,766*	1,383	1,383	314	38	38	238	318	38	38	242
Entering (%) / Exiting (%)				100%	50%	50%	100%	50%	50%	^C 76%	100%	50%	50%	^C 76%
Internal Capture Applied				---	---	---	314	38	38	238	318	38	38	242
Internal Capture Rates				---	---	---	---	0%	0%	---	---	0%	0%	---
Total (No Internal Capture Applied)				3,542	1,771	1,771	314	38	38	238	396	77	77	242
Total (Internal Capture Subtracted)				3,542	1,771	1,771	314	38	38	238	338	48	48	242

^A – Primary Trips + Pass-by Trips, ^B – Pass-by Trips Generated, ^C – Percent (%) of ^ATot

* - Taken from ITE LUC 960 based on Vehicle Fueling Positions

** - No internal ITE capture rate. Internal Capture rate estimated at 75% since most car washes come directly from fueling customers.

Table 3
Total Development Weekday Peak Hour Generated Trips

Land Use	Pass-by Trips				Non-Pass-by Trips			
	Weekday AM		Weekday PM		Weekday AM		Weekday PM	
	Enter	Exit	Enter	Exit	Enter	Exit	Enter	Exit
Broad Reach Development	130	114	80	79	182	180	143	128
C-Store Development	119	119	121	121	38	38	48	48
Total Trips	249	233	201	200	220	218	191	176

The proposed development is estimated to generate 920 trips during the Weekday AM Peak Hour (469 inbound and 451 outbound) and 768 trips will be generated during the Weekday PM Peak Hour (392 inbound and 376 outbound). The Trip Generation Resources and Calculations can be found in **Attachment A**.

TRIP DISTRIBUTION

The basis for the directional distribution of the proposed development was based upon existing traffic patterns in the area. CESO utilized the directional distribution percentages determined in the preliminary transportation impact assessment prepared by TEC Engineering, Inc. which are summarized below in Table 4.

Table 4
Directional Distribution Percentages

Route	Distribution Approach/Departure	
	Passenger Cars	
	AM Peak Hour	PM Peak Hour
Primary Trip Distribution - Cars (Figure 1.A)		
To/From the West via I-70	15%/15%	15%/15%
To/From the East via I-70	10%/10%	10%/10%
To/From the North via Old Troy Pike	40%/40%	40%/40%
To/From the South via Old Troy Pike	23%/23%	23%/23%
To/From the West via Taylorsville Road	4%/4%	4%/4%
To/From the East via Taylorsville Road	8%/8%	8%/8%
TOTAL	100%/100%	100%/100%
Pass-by Trip Distribution – Cars (Figures 1.B)		
Pass-by from the North/To the South via Old Troy Pike	50%/50%	50%/50%
Pass-by from the South/To the North via Old Troy Pike	50%/50%	50%/50%
TOTAL	100%/100%	100%/100%

Based upon the directional distributions illustrated on Figures 1.A-1.B, the estimated Total Development-Generated Weekday Peak Hour Traffic Volumes shown in Table 3 were distributed to the adjacent roadway system. The Total Development Generated Traffic Volumes are illustrated on Figures 2.A-2.B.

All Figures can be found in **Attachment B**.

CAPACITY ANALYSIS

The capacity of an intersection (signalized or unsignalized) can best be described by its corresponding Level of Service (LOS). The level of service of an intersection is a qualitative measure of the various attributes of an intersection. There are six levels of service ranging from “ideal” free flow conditions at LOS “A,” to forced or “breakdown” conditions at LOS “F.” The level of service for signalized intersections is based upon the average stopped delay per vehicle for various movements within the intersection. Although v/c affects delay, there are other parameters that more strongly affect it, such as the quality of progression, length of green phases, cycle lengths, and others. Thus, for any given v/c ratio, a range of delay values may result, and vice versa.

The level of service for unsignalized intersections is based upon total delay. Total delay is defined in the *Highway Capacity Manual, Sixth Edition: A Guide for Multimodal Mobility Analysis*, as the total elapsed time from when a vehicle stops at the end of the queue until the vehicle departs from the stop line; this time includes the time required for the vehicle to travel from the last-in-queue position to the first-in-queue position. Table 4 summarizes the LOS definitions for unsignalized intersections. Throughout the memo, “unsignalized intersections” are commonly referred to as “stop sign controlled.”

Table 5
Level of Service Criteria (Unsignalized Intersections)

Level of Service	Delay per Vehicle (Sec.)	Description
A	≤ 10.0	Little or no delay.
B	> 10.0 and ≤ 15.0	Short traffic delays.
C	> 15.0 and ≤ 25.0	Average traffic delays.
D	> 25.0 and ≤ 35.0	Long traffic delays.
E	> 35.0 and ≤ 50.0	Very long traffic delays.
F	≥ 50.0	Extreme traffic delays.

Source: *Highway Capacity Manual, Sixth Edition: A Guide for Multimodal Mobility Analysis*. Transportation Research Board.

Highway Capacity Manual 2016 (HCM 6th Edition) methodology was used in the Traffic Impact Study to remain consistent with “state-of-the-practice” professional standards. It is important to note that the Level of Service Criteria for unsignalized intersections is different than for signalized intersections. For example, a delay of 18 seconds yields level of service C under the unsignalized LOS criteria (see Table 5) while yielding level of service B under the signalized intersection LOS criteria (see Table 6). Table 6 summarizes the LOS definitions for signalized intersections.

Table 6
Level of Service Criteria (Signalized Intersections)

Level of Service	Delay per Vehicle (Sec.)	Description
A	< 10.0	Most vehicles do not stop at all.
B	> 10.0 and ≤ 20.0	More vehicles stop than with LOS A.
C	> 20.0 and ≤ 35.0	The number of vehicles stopping is significant, although many pass through without stopping.
D	> 35.0 and ≤ 55.0	Many Vehicles stop. Individual cycle failures are noticeable.
E	> 55.0 and ≤ 80.0	Considered to be the limit of acceptable delay. Individual cycle failures are frequent.
F	> 80.0	Unacceptable delay.

Source: Highway Capacity Manual, Sixth Edition: A Guide for Multimodal Mobility Analysis. Transportation Research Board.

Synchro Version 11.0 was utilized to calculate delay and level of service values. Synchro 11 model parameters include traffic volumes, movements, heavy vehicle percentage, intersection traffic control, storage length, and lane widths. A peak hour factor (PHF) of 0.92 was used for all intersections.

Utilizing the 2022 Build Weekday Peak Hour Traffic Volumes illustrated on Figure 3, capacity calculations were performed for the Site driveways and key study intersections. Table 7 summarizes the capacity analyses results for the 2022 Build Traffic Scenario.

\$ - Delay exceeds 300 seconds.

CONCLUSIONS

The recommendations identified in the preliminary transportation impact assessment prepared by TEC Engineering, Inc. were found to be suitable for the substitution of three (3) lots of the existing Broad Reach Development. Based upon the capacity analysis results of the initial development plan in comparison to the proposed development plan, there were minimal changes in level of service and delay. Therefore, CESO determined no further improvements will be required at the study locations.

ATTACHMENT A
TRIP GENERATION RESOURCES AND CALCULATIONS

April 13, 2022

Traffic Impact Study – Proposed C-Store Development

City of Huber Heights, OH

CESO Trip Generation Calculations

ITE 948 – Automated Car Wash

For AM Peak Hour → 50% Enter/50% Exit

77.50 x 1 Car Wash Tunnels = 77.50 ≈ 78 Trips

78 Trips x 0.50 (50%) = 39 Trips Enter/39 Trips Exit

ITE 960 – Super Convenience Market/Gas Station

For Weekday → 50% Enter/50% Exit

230.52 x 12 Fueling Positions = 2,766.24 ≈ 2,766 Trips

2,766 Trips x 0.50 (50%) = 1,383 Trips Enter/1,383 Trips Exit

Independent Study:

For AM Peak Hour → 50% Enter/50% Exit

26.18 x 12 Fueling Positions = 314.16 ≈ 314 Trips

Pass-by Trips = 314 Trips x 0.76 (76%) = 238 Trips for Even Number

Pass-by Trips = 238 Trips x 0.50 (50%) = 119 Trips Enter/119 Trips Exit

Primary Trips = 314 – 238 = 76 Trips

Primary Trips = 76 x 0.50 (50%) = 38 Trips Enter/38 Trips Exit

For PM Peak Hour → 50% Enter/50% Exit

26.55 x 12 Fueling Positions = 318.60 ≈ 318 Trips

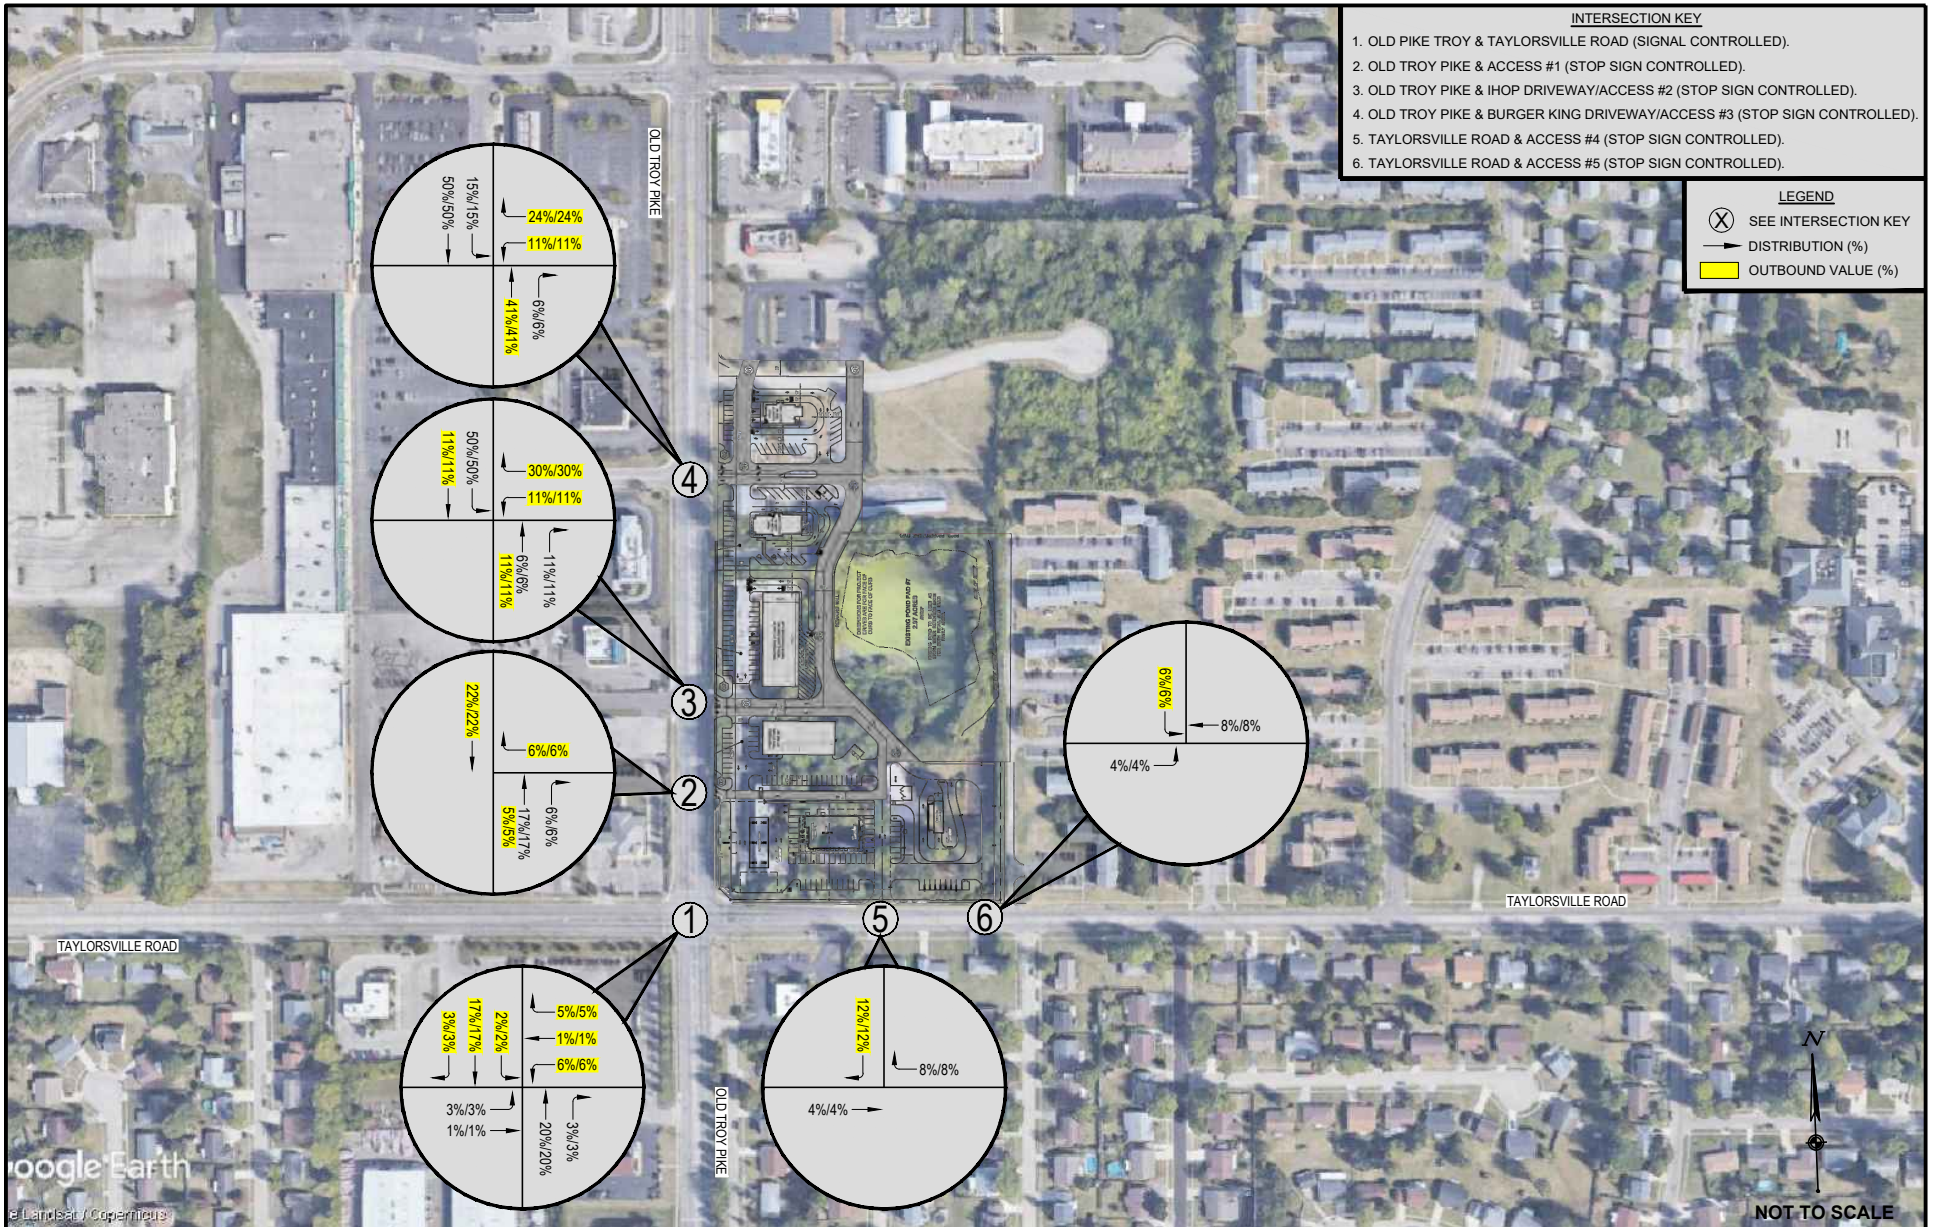

Pass-by Trips = 318 Trips x 0.76 (76%) = 242 Trips for Even Number

Pass-by Trips = 242 Trips x 0.50 (50%) = 121 Trips Enter/121 Trips Exit

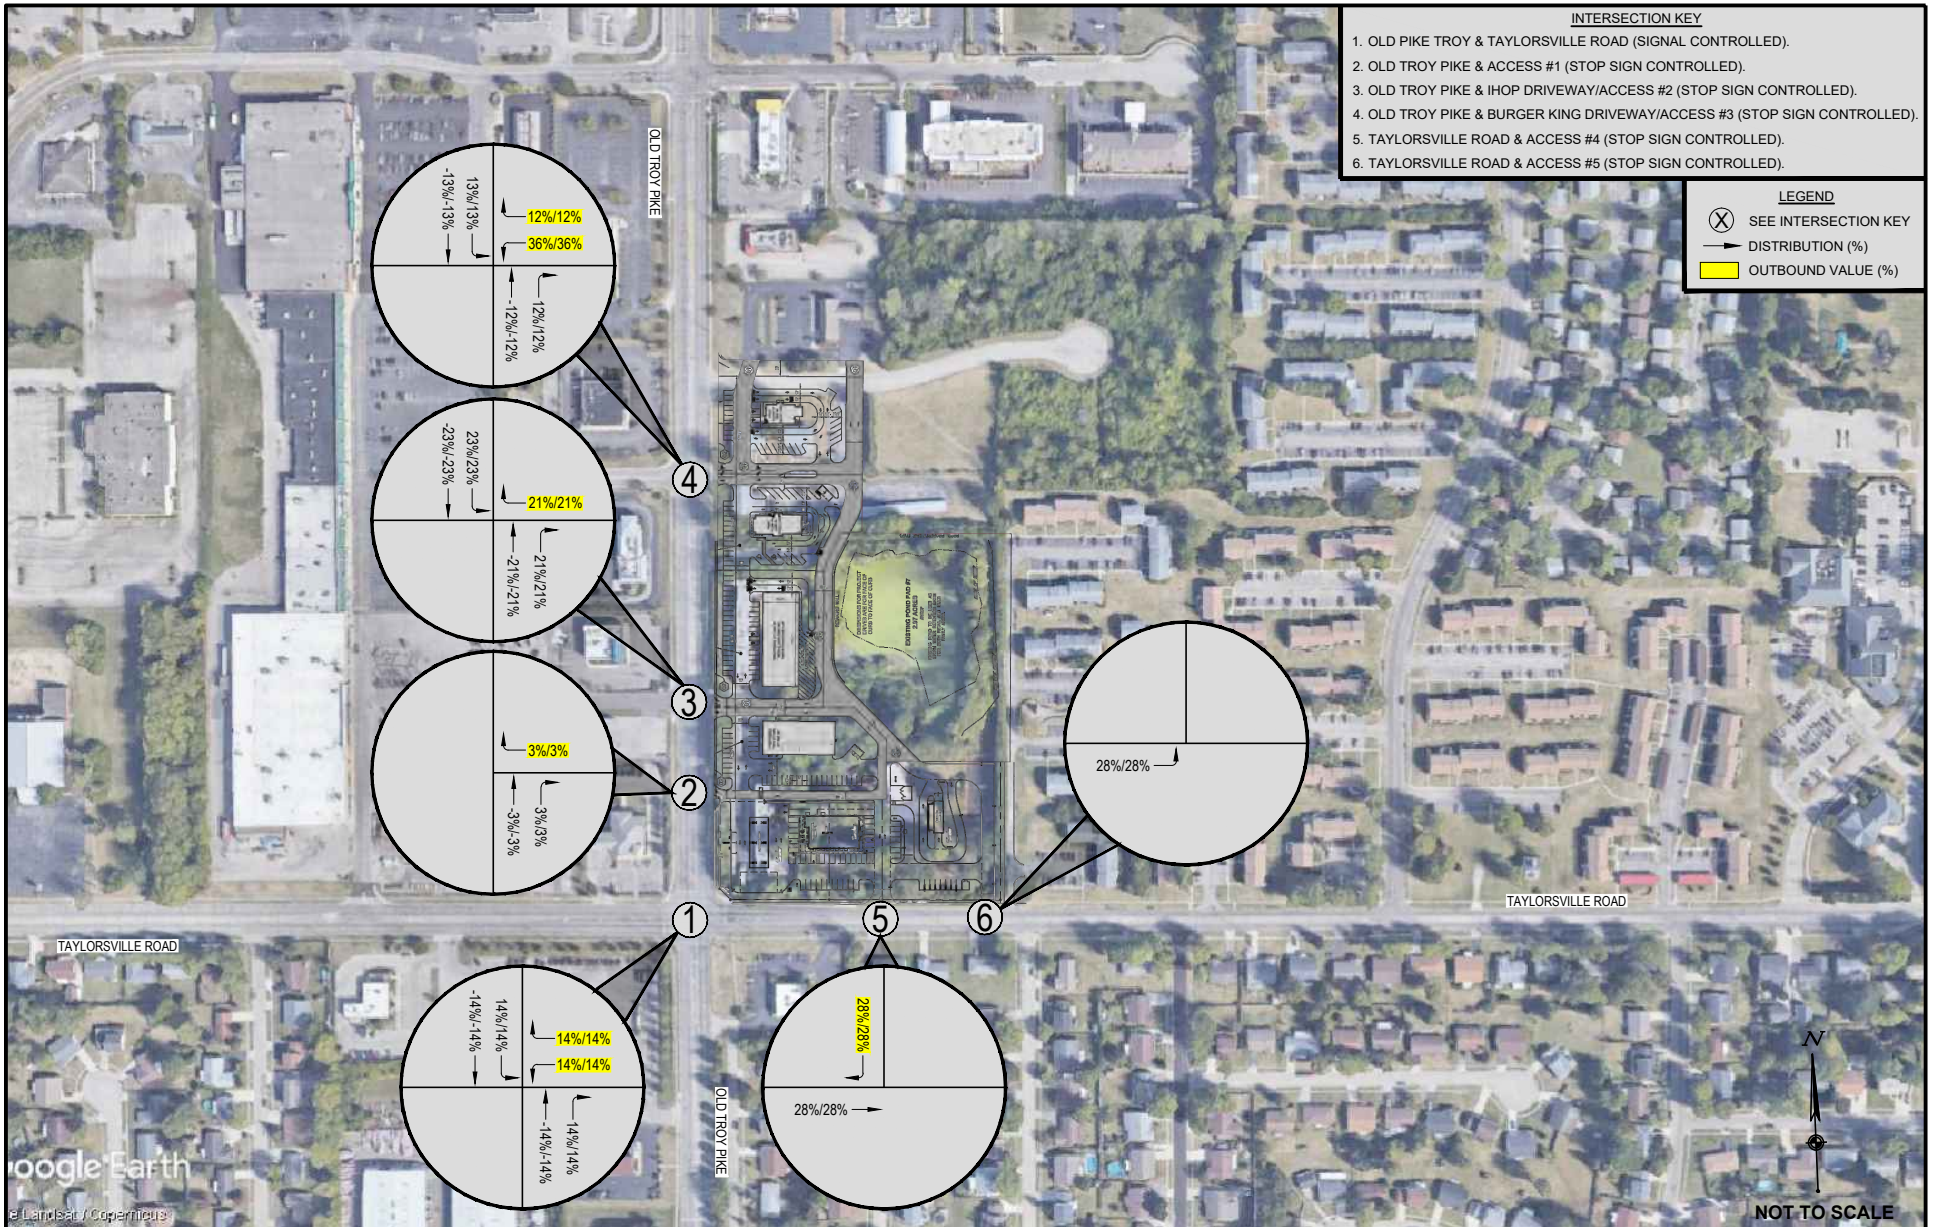

Primary Trips = 318 – 242 = 76 Trips

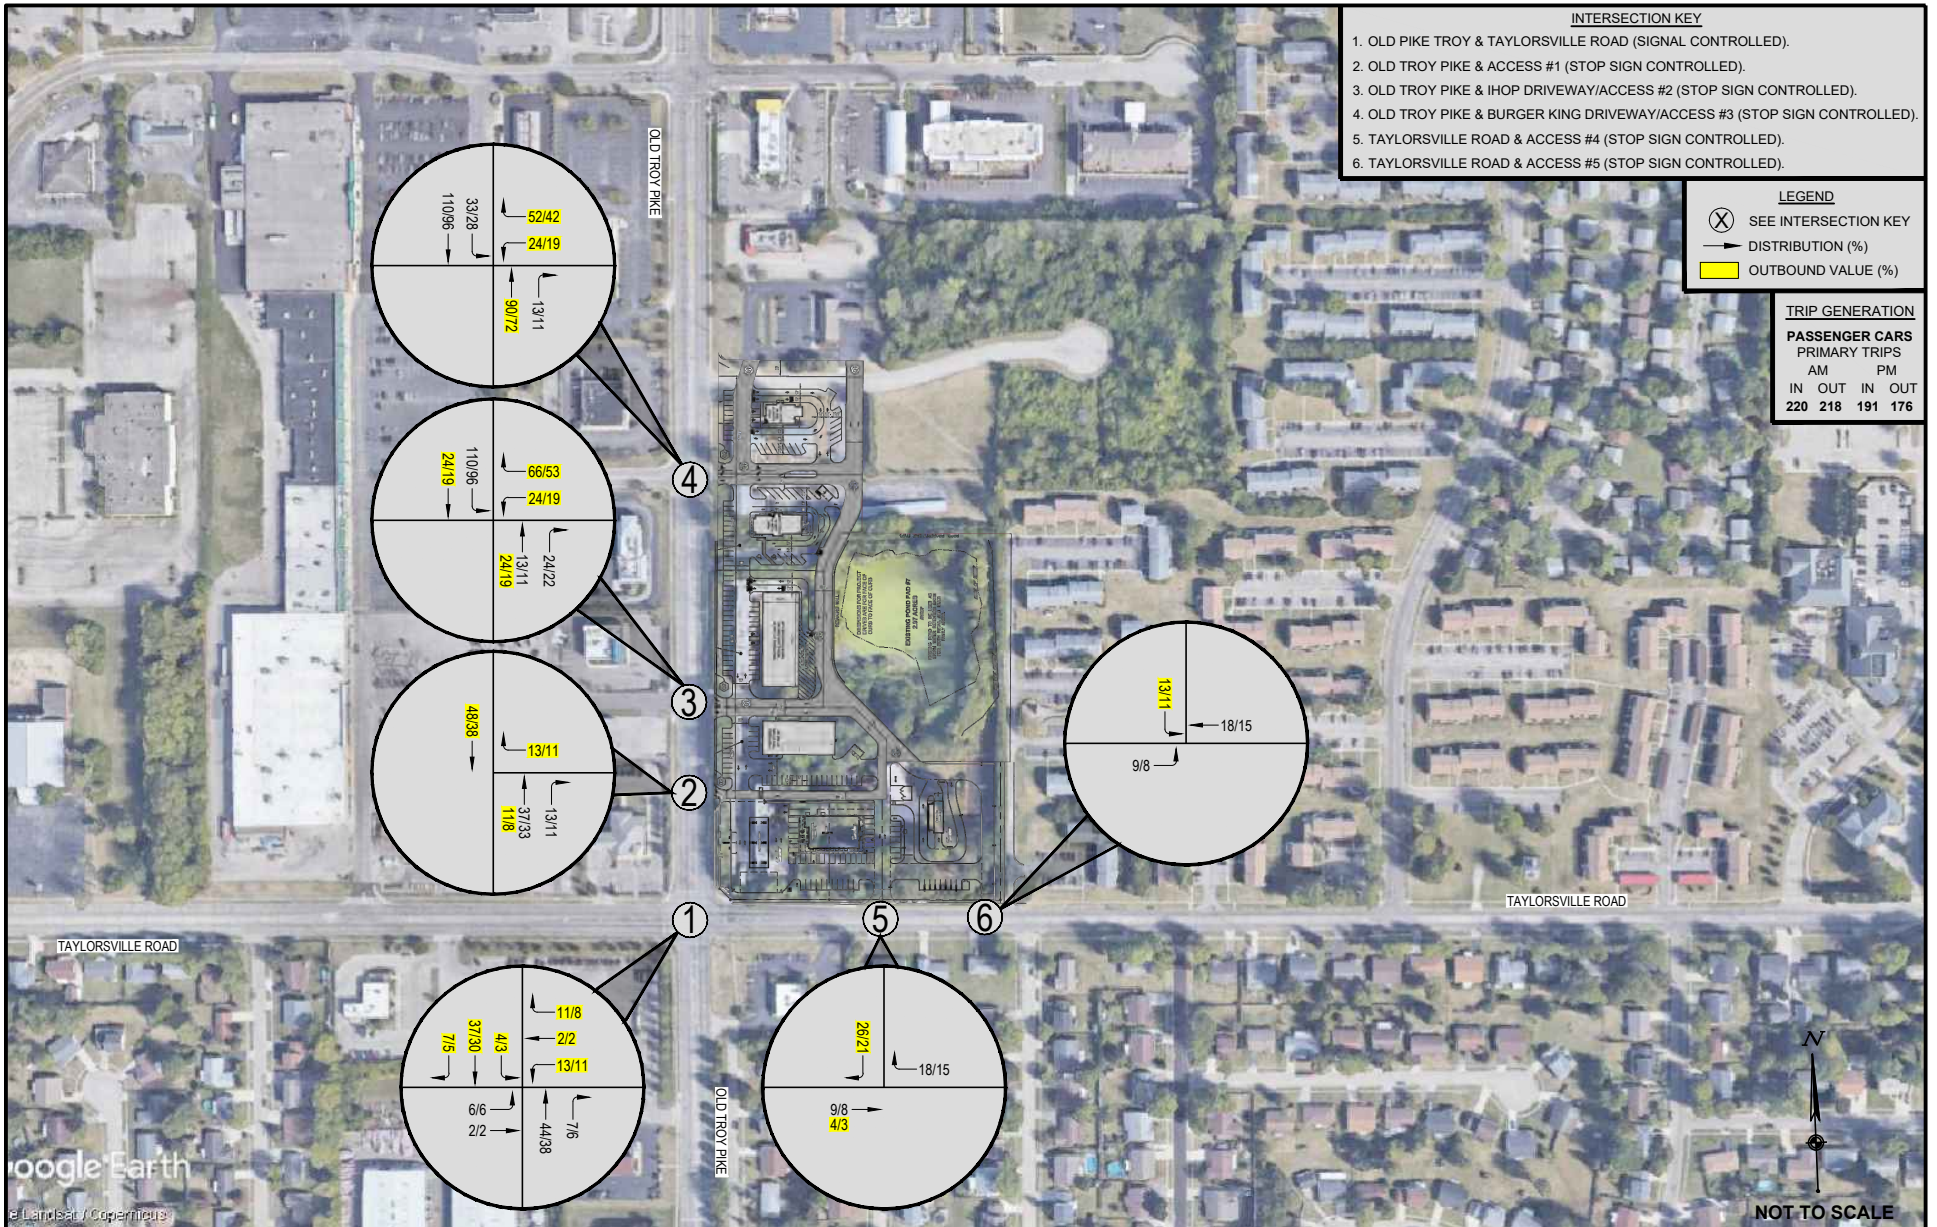

Primary Trips = 76 x 0.50 (50%) = 38 Trips Enter/38 Trips Exit

Intersection Summary

Area Type: Other

Cycle Length: 90

Actuated Cycle Length: 90

Offset: 0 (0%), Referenced to phase 2:NBTL and 6:SBTL, Start of Green

Natural Cycle: 110

Control Type: Actuated-Coordinated

Maximum v/c Ratio: 1.16

Intersection Signal Delay: 70.3

Intersection LOS: E

Intersection Capacity Utilization 97.8%

ICU Level of Service F

Analysis Period (min) 15

Splits and Phases: 3: Old Troy Pike & Taylorsville Road

Memorandum

Staff Report for Meeting of June 28, 2022

To: Huber Heights City Planning Commission

From: Aaron K. Sorrell, Interim City Planner
Community Planning Insights

Date: June 22, 2022

Subject: Major Change to Basic Development Plan

Application dated June 3, 2022

Department of Planning and Zoning

City of Huber Heights

APPLICANT/OWNER: Skilken Gold Real Estate Dev. – Applicant
Broad Reach Retail Partners, LLC - Owners

DEVELOPMENT NAME: Broad Reach / Sheetz

ADDRESS/LOCATION: NE Corner of Old Troy Pike and Taylorsville Rd.

ZONING/ACREAGE: Planned Mixed Use (PM) / 2.82 Acres

EXISTING LAND USE: Vacant

**ZONING
ADJACENT LAND:** PM (North), R-6 (East), R-4 (South), PC (West)

REQUEST: The applicant requests a major change to the basic development plan to construct a 6,138 SF convenience store with fueling pumps and a 1,648 SF carwash.

ORIGINAL APPROVAL: The Broad Reach basic development plan and rezoning was approved by the Planning Commission on May 11, 2021, and subsequently approved by City Council on June 14, 2021.

APPLICABLE HHCC: Chapter 1171, 1179

CORRESPONDENCE: In Favor – None Received
In Opposition – None Received

STAFF ANALYSIS AND RECOMMENDATION:

Overview

The applicant requests to construct a 6,138 SF convenience store with fueling pumps and a 1,648 SF carwash. During the informal review with the Planning Commission there was significant discussion about the proposed use as compared to the uses illustrated on the adopted basic development plan. The Planning Commission expressed concerns about the perceived deviation from the originally illustrated uses and layout on the south side of the development, and members felt that the City Council should have an opportunity to review the new development proposal. It was recommended by the Planning Commission and agreed to by the applicant that they would request a major change to the basic development plan, which allows City Council the opportunity to review the proposal.

Background

On May 21, 2021, the Planning Commission approved (4-1) a rezoning to PM and basic development plan to facilitate the redevelopment of two parcels totaling 17.2 acres into a mixed use development which includes a variety of commercial, office, and retail uses, along with a 192 unit apartment community. The rezoning was, and continues to be, consistent with the Comprehensive Plan.

As part of the rezoning and basic development plan approval, the following conditions were memorialized in the rezoning ordinance:

1. The Basic Development Plan shall be the plans stamped received by the City of Huber Heights Planning Department on May 5, 2021, unless specifically modified below.
2. The allowable uses shall be those that are permitted within the PM – Planned Mixed Use District as described in Chapter 1179 of the City’s Zoning Code.
3. Prior to the issuance of a zoning permit, the applicant shall submit and receive approval of a Detailed Development Plan through the Planning Commission.
4. Prior to the issuance of a zoning permit, the applicant shall obtain approval of a final subdivision of the subject property for the purpose, but not the sole purpose, of establishing all necessary public easements on the subject property.
5. A drop express lane shall be installed along the frontage of Old Troy Pike at the development.
6. Old Troy Pike & Access 3 (across from Burger King) shall have a signalized intersection installed.
7. Taylorsville Road shall be widened on the north side to match the widening of the existing northbound turn lane at the intersection of Old Troy Pike and Taylorsville.

8. Access shall be provided directly from the multi-family area to Taylorsville Road.
9. Access easements shall be granted to the public for access from the businesses to the north to access the signalized intersection.

Transportation Improvements

As part of the rezoning and basic development plan approval, the developer is widening the north side of Taylorsville Road to add a lane and widening the east side of Old Troy Pike to Huber Road to add a lane. Additionally, a new traffic signal will be installed along Old Troy Pike to facilitate better site access and the existing Huntington Bank and Starbucks sites will have access to this signalized intersection. The site is being cleared and roadway improvements will begin shortly.

For the sites under consideration in this application, the interior drive network and access to Taylorsville Road and Old Troy Pike is unchanged from the approved rezoning and basic development plan.

The city is planning to carry the Old Troy Pike widening from former Huber Road to I-70.

Allowable Uses

For the sites in this application, the basic development plan presented at the May 14th Planning Commission meeting illustrated a proposed bank, medical facility, and future outparcel. The basic development plan simply outlines allowable uses, site access, internal circulation (drive-aisles) and illustrates possible individual site plan concepts.

During the meeting, planning staff indicated to the Planning Commission the three sites were illustrative only, and those uses may change during the detailed development plan process. When the Planning Commission approved the basic development plan, it set the range of allowable uses (those permitted in the PM district), transportation improvements, site access, and internal site circulation.

The applicant is now proposing a convenience store and fueling station on the western parcels and a car wash on the eastern parcel in place of the illustrated bank, medical building and future outparcel.

Chapter 1179.02 states: *"The uses outlined as permitted uses in the (PR) Planned Residential District, (PO) Planned Office District, (PP) Planned Public and Private Buildings and Grounds District, and (PC) Planned Commercial District are principal uses permitted in the (PM) Planned Mixed Use District except as prohibited in this chapter."*

As such, the following related uses are permitted in PM district:

- Retail, office and commercial establishments
- Personal service commercial establishments
- Filling stations
- Service stations

The proposed uses are permitted within this adopted basic development plan.

Ground Signs

The approved basic development plan approved two multi-tenant ID signs, and one general ID sign adjacent to the public right of way. The approved locations are illustrated below. Sign “A” is 16’-8” and located at the main signalized intersection along Old Troy Pike. Sign “B” is 14’-2” and located along Taylorsville Road. Sign “C”, the smallest ID sign, is 5’ tall and located at the corner of Taylorsville Road and Old Troy Pike.

SIGN A

SIGN B

SIGN C

Through is major change, the applicant proposes two additional 6'-10" ground-mounted gas price signs adjacent to the public right of way. The signs are designed in a similar and complementary manner to those being constructed by the Broad Reach developer. The two ground mounted gas price signs are the only substantial changes being proposed to the approved basic development plan.

Applicable Zoning Regulations

The significant applicable zoning chapters include: 1171 General Provisions, 1179 Planned Mixed Use District, and 1181 General Provisions. Since a basic development plan was previously approved, only the relevant sections to this application are discussed in detail below:

Chapter 1171 General Provisions

1171.06 General standards for approval.

The Planning Commission shall review the application, prepared development plan and the facts presented at the hearing. The applicant shall have the burden of proof. No approval shall be given unless the Commission shall find by a preponderance of the evidence that such PUD on the proposed locations:

- (a) Is consistent with official thoroughfare plan, comprehensive development plan and other applicable plans and policies;*
- (b) Could be substantially completed within the period of time specified in the schedule of development submitted by the developer;*
- (c) Is accessible from public roads that are adequate to carry the traffic that shall be imposed upon them by the proposed development. Further, the streets and driveways on the site of the proposed development shall be adequate to serve the residents or occupants of the proposed development;*
- (d) Shall not impose an undue burden on public services such as utilities, fire and police protection, and schools;*
- (e) Contains such proposed covenants, easements and other provisions relating to the proposed development standards as may reasonably be required for the public health, safety and welfare;*
- (f) Shall be landscaped or otherwise improved and the location and arrangement of structures, parking areas, walks, lighting and appurtenant facilities shall be compatible with the existing intended uses, and any part of a PUD not used for structures, parking and loading areas, or accessways;*
- (g) Shall preserve natural features such as water courses, trees and rock outcrops, to the degree possible, so that they can enhance the overall design of the PUD;*
- (h) Is designed to take advantage of the existing land contours in order to provide satisfactory road gradients and suitable building lots and to facilitate the provision of proposed services;*
- (i) Shall place underground all electric and telephone facilities, street light wiring and other wiring conduits and similar facilities in any development which is primarily designed for or occupied by dwellings, unless waived by the Commission because of technical reasons;*
- (j) Shall not create excessive additional requirements at public cost of public facilities and services and shall not be detrimental to the economic welfare of the community;*
- (k) Shall not involve uses, activities, processes, materials, equipment and conditions of operation that shall be detrimental to any persons, property or the general welfare by reason of excessive production of traffic, noise, smoke, fumes, glare or odors; and*

- (l) *Rezoning of the land to the PUD District and approval of the development plan shall not adversely affect the public peace, health, morals, safety or welfare.*

1171.11 Changes in the basic and detailed development plans.

A PUD shall be developed only according to the approved and recorded detailed development plan and supporting data together with all recorded amendments and shall be binding on the applicants, their successors, grantees and assigns and shall limit and control the use of premises (including the internal use of buildings and structures) and location of structures in the PUD as set forth therein.

- (a) *Major Changes. Changes which alter the concept, uses or intent of the PUD including increases in the number of units per acre, change in location or amount of nonresidential land uses, more than 15 percent modification in proportion of housing types, significant redesign of roadways, utilities or drainage, may be approved only by submission of a new basic plan and supporting data in accordance with Sections 1171.03, 1171.04 and 1171.05.*
- (b) *Minor Changes. The Zoning Officer recommends to the Planning Commission approval or disapproval of the minor changes in the PUD. Minor changes are defined as any change not defined as a major change.*

Conformance with Zoning Regulations

1179.02 Permitted uses.

The uses outlined as permitted uses in the (PR) Planned Residential District, (PO) Planned Office District, (PP) Planned Public and Private Buildings and Grounds District, and (PC) Planned Commercial District are principal uses permitted in the (PM) Planned Mixed Use District except as prohibited in this chapter.

The approved basic development plan permits the uses proposed by the applicant.

Development Standards Analysis:

1179.06 Development standards (Planned Mixed Use)

Except when specifically modified herein, the provisions of the Planning and Zoning Code shall govern. The following development standards apply to a PM development:

- (a) *Minimum Land Area Requirement. A minimum of 20 acres shall be required.*

The approved basic development plan contains 17.2 acres.

- (b) *Covenants. The developer of a PM development shall be required to submit a set of covenants or deed restrictions with the Basic Development Plan application that will outline, at a minimum, development standards and guidelines established in this chapter and any other requirements the developer and/or Planning Commission deems necessary. The Planning Commission may require additional or amended covenants as it deems necessary to ensure compliance with the Planning and Zoning Code and the Planned Mixed-Use District.*

Covenants will be submitted during the detailed development phase and with the PUD agreement.

- (c) *Required Mix of Land Uses. A developer shall be required to provide a mix of land uses in a PM Development. At a minimum, at least two of the following uses are required in a PM Development: residential, commercial, office, institutional, and/or industrial.*

The approved permitted uses include a mix of residential, office, retail and commercial uses.

- (d) *Site Planning.*

- (1) *The combination of different uses whether as part of one building or as part of the overall development shall be designed and developed so as not to create a nuisance by excessive noise, light, vibration, odor or any other annoyances for any uses within the development or neighboring properties.*

After the informal review with the Planning Commission, the applicant relocated the proposed vacuum stands from along Taylorsville Road to behind the car wash. The revised location will reduce the noise impacts to surrounding residents. Additionally, the more intense activities such as fueling pumps, and the main access to the convenience store, are located adjacent to Old Troy Pike, away from surrounding residential areas. The car wash is a single bay wash whose doors close during the washing procedure.

- (2) *A PM development is to be designed so that buildings and structures are clustered and open space areas are preserved and maintained. Special care shall be given to protect preexisting natural features including, but not limited to, woodlands, ravines, streams, lakes, ponds, and/or flood plains. Impervious surface coverage, including, but not limited to, buildings, parking area, and accessways, shall not exceed 75 percent of the total development area. Therefore, 25 percent of the development area shall be reserved for green space.*

The approved basic development plan requires a minimum of 25 percent green space. The proposal shall also meet this requirement, which will be evaluated at the Detailed Development Plan stage.

- (3) *The number of ingress and egress points onto the public streets shall be limited in order to reduce the number of traffic conflict points. Adequate and properly arranged facilities for internal pedestrian and traffic circulations shall be provided. The street and thoroughfare network shall be designed to minimize truck traffic through residential areas of the development.*

The proposed development maintains the previously approved site access points and internal circulation pathways.

- (4) *Parking systems shall be designed so as to discourage single large unbroken paved lots for off-street parking and shall encourage smaller defined parking areas within the total parking system. Underground parking facilities are encouraged.*

The applicant's proposal has two smaller parking areas, not one large parking area, consistent with other commercial sites within this development.

- (5) *The development shall be designed to tie all the uses into one overall community and encourage walking, biking, running, and alternative modes of transportation. Developers are encouraged to incorporate bus stops, bikeways, walkways, and crosswalks into an overall thematic scheme for pedestrian traffic. Sidewalks shall be required except, in the case of a golf course or specific open space development, the Planning Commission may determine them to be unnecessary.*

The proposed development maintains the previously approved transportation system, including sidewalks, site access points and internal circulation pathways.

- (6) *Any signs as proposed within this district, shall comply with Chapter 1189 "Signs". Additionally, a developer of a PM development shall develop and submit with the Detailed Development Plan application, a comprehensive set of graphic design criteria for signage in the development. This set of graphic design criteria for signage shall be approved by the Planning Commission and shall apply to all signage requests within the development. The criteria shall include, at a minimum, the sizes permitted (if different from Chapter 1189), colors permitted, materials permitted, typefaces permitted, type size permitted, and permitted illumination. Compliance with the on- site comprehensive graphics shall be verified by the Zoning Administrator during the sign permit review process.*

Ground Signs

The applicant proposes two 6'-10" ground-mounted gas price signs adjacent to the public right of way. The signs have been significantly redesigned from those illustrated during the informal review. Specifically, they have been reduced from 30' tall pylon signs to a more modest height of 6'-10" and are designed in complementary manner that reflects the design of those being constructed by the Broad Reach developer. The two-ground mounted gas price signs are the only substantial change being proposed to the approved basic development plan.

Building Signs

While not part of the basic development plan, the proposed canopy and wall signs are generally consistent with the sign code and similar to those approved within the Broad Reach development. The final sign package will be evaluated during the detailed development plan phase.

- (7) *Minimum lot area, frontage and setback requirements may be varied to allow greater flexibility in design. However, the following shall be used as a guideline for development:*
- A. *With multiple buildings on a single property, entirely residential buildings shall be at least 15 feet from another entirely residential building and at least 50 feet from nonresidential or mixed-use buildings.*

The proposal meets these standards

- (8) *No maximum height restriction shall apply, except that the proposed development meets all Federal Aviation Administration (FAA), Dayton International Airport or Wright Patterson Air Force Base height or abatement requirements.*

The proposal meets these standards

- (9) *Common parking areas and accessways shall be lighted adequately with light fixtures that shall be designed to reflect light away from adjoining properties. Special attention will be given to protect entirely residential structures from light emitted from nonresidential land uses.*

A lighting plan was submitted with the application and appears to meet the lighting standards in terms of height and light trespass. A final review will be completed during the detailed development plan phase.

- (10) *Nonresidential uses shall have trash containers and/or receptacles (including recycling containers) placed to the rear of all structures and shall be screened or enclosed on four sides with opening doors for the purpose of trash removal. The placement of trash containers and/or receptacles in multi-family residential developments shall be as inconspicuous as possible. The use of a wooden or vinyl fence structure, earth mound, or wall with an opaqueness of 100 percent and a height of 12 inches above the top of the largest container is required.*

The application illustrates enclosed dumpsters. A final review will be completed during the detailed development plan phase.

- (11) *The architecture of nonresidential structures is encouraged to be unique yet similar in certain sections of the PM.*

The applicant is proposing brick structures consistent with the non-residential material requirements and the basic development plan. A final review will be completed during the detailed development plan phase.

- (12) *The distribution systems for utilities are required to be underground.*

All utilities will be below ground.

- (13) *The use of privately owned open space and public dedicated park land is encouraged as part of a PM development. Privately owned open space shall be maintained by the developer or by a duly authorized owner's association.*

All open space will be privately maintained.

- (14) *The use of chain link fencing is prohibited. Additionally, on an entirely residential property, no fencing shall be permitted in the front yard, and, in the case of a corner lot, no fencing shall be permitted in the side yard with frontage to a public right-of-way. The covenants submitted by the developer shall establish the height requirements for fencing in the development. Fencing in a development shall be uniform in height in related use areas. On an entirely residential property, fence height shall not exceed six feet.*

No fencing is proposed in the application.

- (15) With the submission of a Basic Development Plan application, the applicant is required to submit a phasing plan that details when certain sections of the development will commence construction and when the sections will be complete.*

The proposed filling station will be constructed in one phase.

1179.07 Landscaping.

To protect and promote a harmonious development that ensures a functional and logical arrangement of mixed uses, the effective and efficient use of landscaping and buffering is required. Therefore, a PM development shall include the following landscaping and buffering:

- (a) Development Landscaping. Within the PM development that is proposed, entirely residential buildings shall be screened from nonresidential and mixed-use buildings with a 20 foot wide buffer strip that includes a six foot high earth mound, wooden or vinyl fence, wall, landscaping and/or mixture thereof that shall maintain an opacity of at least 80 percent year around. Parking areas, accessways, or any impervious surfaces are prohibited within this buffer strip. If planted materials are used, the screen must achieve the required height, width, and opacity within two years of planting. The use of pre-existing trees, natural features or amenities as part of this buffer is encouraged. The Planning Commission may approve some other arrangement of buffering if it determines that such an arrangement meets the intent of this requirement.*

N/A

- (b) Perimeter Landscaping. In a section of a PM development that contains nonresidential, mixed use, or multi-family buildings that abut a neighboring property with a single-family residential zoning designation or in a PM development section that contains an entirely residential section that abuts a neighboring property with a commercial, office, or multi-family zoning designation, the perimeter of the section of the PM development shall be screened with a 25 foot wide buffer strip that includes a six foot high earth mound, wooden or vinyl fence, wall, landscaping and/or mixture thereof that shall maintain an opacity of at least 80 percent year-round. Parking areas, accessways or an impervious surfaces are prohibited within this buffer strip. If planted materials are used, the screen must achieve the required height, width, and opacity within two years of planting. The use of pre-existing trees, natural features or amenities as part of this buffer is encouraged. The Planning Commission may approve some other arrangement of buffering if it determines that such an arrangement meets the intent of this requirement.*

N/A

- (c) Parking Lot Landscaping. All parking lots are required to have interior landscaped areas as outlined in Chapter 1185, "Parking and Loading".*

The landscaping plan submitted appears to meet these requirements. Staff will verify compliance during the detailed development phase.

- (d) Street Tree Requirement. All frontage property within a PM development that abuts public rights-of-way and is developed with nonresidential, mixed use, and/or multi-family buildings is required to have one street tree per 40 feet of frontage planted just outside of the street right-*

of-way. Unless determined to be inappropriate by the City Engineer, street trees shall be planted at least four feet from the edge of the sidewalk on private property. All frontage property within a PM development along a major collector or better as defined by the Huber Heights Thoroughfare Plan, no matter what use, shall meet this requirement. The type of tree and size shall be proposed by the developer at the Detailed Development Plan application stage and approved by the Planning Commission. A list of appropriate trees with required caliper is available in the City Engineer's Office.

Street trees are illustrated in a clustered manner. Further refinement may be necessary during the detailed development phase.

1179.08 Parking and loading.

The provisions of Chapter 1185, "Parking and Loading" shall apply, except that the off-street loading spaces and docks shall be provided with area, location and design appropriate to the needs of the development and specific uses within it, and the space designated for off-street loading shall not be used for off-street parking. Within the PM development, off-street loading areas shall be physically isolated and/or enclosed from residences in or adjacent to the PM Development. In all cases, off-street loading spaces and docks are prohibited in the front and side yards of any property.

As proposed, the code requires approximately 49 spaces and at least five stacking spaces. The initial site plan illustrates 45 parking spaces and room to stack 10 vehicles. The final parking requirements will be determined during the detailed development plan review and may change based on the floor area of the retail component of the convenience store.

1179.09 Planning commission/city council review.

All requirements within this chapter are to be used as guidelines and may be varied as part of the Basic or Detailed Development Plan approval if it is determined that such deviation will not adversely affect neighboring properties or the community as a whole. Additionally, any variation of these requirements shall, in no case, change the overall plan and character of the proposed development.

1181.24 Commercial building design standards.

- (a) *Applicability. The Commercial Building Design Standards shall apply to all newly constructed or reconstructed/remodeled nonresidential structures located in the O-1, B-1, B-2, and B-3 zoning districts.*
 - (1) *Exceptions. The requirements of this section shall not apply to:*
 - A. *Existing structures as of the adoption of this section shall be exempt from these commercial building design standards unless an exempted structure is expanded by ten percent or more of its original size.*
 - B. *Deviation from the design standards contained in this section may only be approved through the Planned Unit Development Approval Process.*
- (b) *Design Standards.*
 - (1) *Building materials.*

- A. *All exterior walls, including parking structures, garages, and accessory structures shall be 100 percent masonry materials.*
 - B. *Masonry coverage calculation does not include doors, windows, chimneys, dormers, window box-outs, bay windows that do not extend to the foundation, or any exterior wall that does not bear on the foundation.*
 - C. *Masonry Materials shall be defined as:*
 - 1. *Hard fired brick: Shall be kiln fired clay or slate material and can include concrete brick if it is to the same American Society for Testing and Materials (ASTM) standard for construction as typical hard fired clay brick. Unfired or under-fired clay, sand or shale brick shall be prohibited.*
 - 2. *Stone: Includes naturally occurring granite, marble, limestone, slate, river rock, and other similar hard and durable all-weather stone that is customarily used in exterior construction material. Cast or manufactured stone product may be approved, provided that such product yields a highly textured, stone-like appearance.*
 - 3. *Decorative concrete block: Shall be highly textured finish such as split-faced, indented, hammered, fluted, ribbed, or similar architectural finish. Coloration shall be integral to the masonry material and shall not be painted on.*
 - 4. *Concrete pre-cast or tilt wall panel: Shall be of an architectural finish that is equal to or exceeds the appearance and texture of face brick or stone. Coloration shall be integral to the masonry material and shall not be painted on.*
 - 5. *Stucco: An exterior plaster made from a mixture of cement, sand, lime and water spread over metal screening or chicken wire or lath.*
 - 6. *Exterior Insulated Finish System (EIFS): A synthetic stucco cladding system that typically consists of these main components:*
 - a. *Panels of expanded polystyrene foam insulation installed with adhesive or mechanically fastened to the substrate, usually plywood or oriented strand board;*
 - b. *A base coat over the foam insulation panels,*
 - c. *A glass fiber reinforcing mesh laid over the polystyrene insulation panels and fully imbedded in the base coat; and*
 - d. *A finishing coat over the base coat and the reinforcing mesh.*
 - 7. *Other: The Director of the Planning and Development Department, or his/her designee, may approve the use of other materials not specifically mentioned herein if it is determined that said materials exhibit comparable characteristics as those materials already approved herein.*
- (2) *Roofing design and materials.*
- A. *Asphalt shingles, industry approved synthetic shingles, standing seam metal or tile roofs are allowed.*
 - B. *Gable roofs, if provided, shall have a minimum pitch of 6/12.*

- C. *Pitch roofs, if provided, shall have a minimum pitch of 9/12.*
 - D. *Architectural elements that add visual interest to the roof, such as dormers and masonry chimneys, are encouraged.*
 - E. *Flat roofs shall require parapet screening in accordance with Section 1181.18.*
 - F. *Parapet shall require cornice detailing or similar design.*
- (3) *Prohibited Materials. The following materials shall be prohibited as primary cladding or roofing materials:*
- A. *Aluminum or vinyl siding or cladding.*
 - B. *Galvanized steel or other metal.*
 - C. *Wood or plastic siding.*
 - D. *Cementitious fiber board.*
 - E. *Unfinished concrete block.*
 - F. *Exposed aggregate.*
 - G. *Wood roof shingles.*
 - H. *Reflective glass.*
- (4) *Architectural design features.*
- A. *All nonresidential buildings shall be architecturally finished on all sides with the same materials and detailing (e.g. tiles, moldings, cornices, wainscoting, etc.)*
 - B. *Structures 20,000 square feet or less shall require a minimum of two distinct building materials from the approved masonry list be utilized on all facades to provide architectural detail and interest.*
 - C. *Structures over 20,000 square feet shall require a minimum of three distinct building materials from the approved masonry list be utilized on all facades to provide architectural detail and interest.*
 - D. *Secondary materials must cover a minimum of ten percent of the building façade on all sides.*
 - E. *No blank walls shall front along any public right-of-way.*
 - F. *All nonresidential buildings shall be designed to include no less than four of the architectural design features listed as follows. Buildings over 20,000 square feet must include a minimum of six of the architectural design features listed as follows.*
 - 1. *Canopies, awnings, arcades, covered walkways or porticos.*
 - 2. *Recesses, projections, columns, pilasters projecting from the planes, offsets, reveals or projecting ribs used to express architectural or structural bays.*
 - 3. *Varies roof heights for pitched, peaked, sloped or flat roof styles.*
 - 4. *Articulated cornice line.*
 - 5. *Arches.*
 - 6. *Display windows, faux windows or decorative windows.*

7. *Architectural details (such as tile work and molding) or accent materials integrated into the building facade.*
8. *Integrated planted or wing walls that incorporate landscaping and sitting areas or outdoor patios.*
9. *Integrated water features.*
10. *Other architectural features approved by the Planning and development Director or his/her designee.*

The submitted elevations indicate the buildings will be clad with a brick and stone exterior, consistent with the design standards. A formal review of the building design for compliance with this section will occur during the detailed development plan phase.

Staff Analysis

The applicant requests to construct a 6,138 SF convenience store with fueling pumps and a 1,648 SF carwash. On May 21, 2021, the Planning Commission approved (4-1) a rezoning to PM and a basic development plan to facilitate the redevelopment of two parcels totaling 17.2 acres into a mixed-use development including a variety of commercial, office, and retail uses, along with a 192 unit apartment community. The rezoning was, and continues to be, consistent with the Comprehensive Plan.

When the Planning Commission approved the basic development plan, it set the range of allowable uses (those permitted in the PM district), site access, and internal site circulation. The applicant is proposing a convenience store and fueling station on the western parcels and a car wash on the eastern parcel bisected by the interior street network. The proposed uses are permitted within the adopted basic development plan.

Additionally, the revised traffic study indicates there will be minimal changes in the level of service and delay by the proposed development compared to three previous lots originally studied. No additional roadway improvements are necessary beyond the roadway widenings currently underway. The internal circulation system proposed by the applicant remains unchanged from the approved basic development plan.

Since the informal review before the Planning Commission, the applicant has made two key revisions to the application. First, the carwash and vacuum stations were redesigned to reduce noise impacts to the surrounding properties. Secondly, two 30' tall pylon gas price signs were reduced to 6'-10" tall.

Since the approved basic development plan only permitted three signs adjacent to the right of way, the two proposed 6'-10" gas price ground signs require major change approval from the Planning Commission. Staff feels the two proposed gas price ground signs are modestly sized and highly complementary in design to the previously approved Broad Reach ID signs.

Additional Comments:

Fire: See Attached.

City Engineer: The City Engineer has expressed a concern about customers parking along the eastern edge of the building backing into the drive aisle, and a concern about drive-thru customers crossing a drive aisle after ordering and stacking at the pick-up window.

This site is not unique with parking along a drive aisle; most of the sites along Old Troy Pike are similarly situated. Regarding drive-thru customers crossing the drive aisle, the applicant has stated that drive-thru customers are approximately 10% of sales and the applicant does not anticipate congestion issues related to vehicle stacking.

Recommendation

The application for a major change was initiated at the request of the Planning Commission and their desire for City Council to review this development application.

Only the two proposed ground signs must be approved through the major change. Staff feels the major change requested by the applicant meets the standards outlined in Chapter 1171.06 for the following reasons:

- The proposed uses are consistent with the Comprehensive Plan;
- The proposed uses are currently permitted within the approved basic development plan;
- All site access locations and interior circulation remain unchanged;
- The replacement of the convenience store, fueling station and carwash will result in minimal changes in the level of service and delay along the thoroughfares compared to the three lots and uses originally studied; and,
- The two ground mounted gas price signs are modest in height and designed in a complementary manner to the previously approved development ID signs.

Staff recommends approval with the following conditions:

- All conditions approved by the Planning Commission on May 21, 2021, shall remain in effect;
- The two additional ground mounted gas price signs shall not exceed 6'-10";
- The applicant shall comply with all engineering, building and fire codes; and,
- The applicant shall update the basic development plan to reflect all conditions imposed by the planning commission.

Planning Commission Action

Planning Commission may take the following actions with a motion to:

- 1) Approve the basic development plan application, with or without conditions.
- 2) Deny the basic development plan.
- 3) Table the application in order to gather additional information.

Planning Commission Decision Record

WHEREAS, on June 3, 2022, the applicant, Skilken Gold Real Estate Development Architects, requested approval of a Major Change to the basic development plan to construct a 6,138 SF convenience store with fueling pumps and a 1,648 SF carwash at property located at the NE Corner of Old Troy Pike and Taylorsville Road further identified as Parcel Numbers P70 04005 0015 and P70 04005 0043 of the Montgomery County Auditor's Map (Case MJC 22-21), and;

WHEREAS, on June 28, 2022, the Planning Commission did meet and fully discuss the details of the request.

NOW, THEREFORE, BE IT RESOLVED that the Planning Commission hereby recommended approval of the request.

Ms. Vargo moved to approve the request by the applicant, Skilken Gold real estate Development Architects, for approval of a Major Change to the basic development plan to construct a 6,138 SF convenience store with fueling pumps and a 1,648 SF carwash at property located at the NE Corner of Old Troy Pike and Taylorsville Road (Case MJC 22-21), in accordance with the recommendation of Staff's Memorandum dated June 22, 2022, with the following conditions:

1. All conditions approved by the Planning commission on May 21, 2021, shall remain in effect;
2. The two additional ground mounted gas price signs shall not exceed 6'-10";
3. The applicant shall comply with all engineering, building and fire codes; and,
4. The applicant shall update the basic development plan to reflect all conditions imposed by the Planning Commission.
5. No more than five (5) vacuums will be permitted.

MJC 22-21 – Decision Record

Seconded by Ms. Opp. Roll call showed: YEAS: Ms. Opp, Ms. Vargo, and Mr. Walton. NAYS: Mr. Jeffries and Ms. Thomas. Motion to recommend approval carried 3-2.

Terry Walton, Chair
Planning Commission

Date

**Planning Commission
June 28, 2022, Meeting
City of Huber Heights**

- I. Chair Terry Walton called the meeting to order at approximately 6:00 p.m.
- II. Present at the meeting: Mr. Jeffries, Ms. Opp, Ms. Thomas, Ms. Vargo and Mr. Walton.

Members absent: None.

Staff Present: Aaron K. Sorrell, Interim City Planner, and Geri Hoskins, Planning & Zoning Administrative Secretary.

III. Opening Remarks by the Chairman and Commissioners

IV. Citizens Comments

None.

V. Swearing of Witnesses

Mr. Walton explained the proceedings of tonight's meeting and administered the sworn oath to all persons wishing to speak or give testimony regarding items on the agenda. All persons present responded in the affirmative.

VI. Pending Business

- 1. None

VII. New Business

Ms. Thomas moved to change the agenda by adding a presentation by Joe Nickel from YARD Company and moving 7A to 7B and 7B to 7A.

Seconded by Ms. Vargo. Roll call showed: YEAS: Ms. Opp, Ms. Vargo, Mr. Jeffries, Ms. Thomas, and Mr. Walton. NAYS: None. Motion to approve carried 5-0.

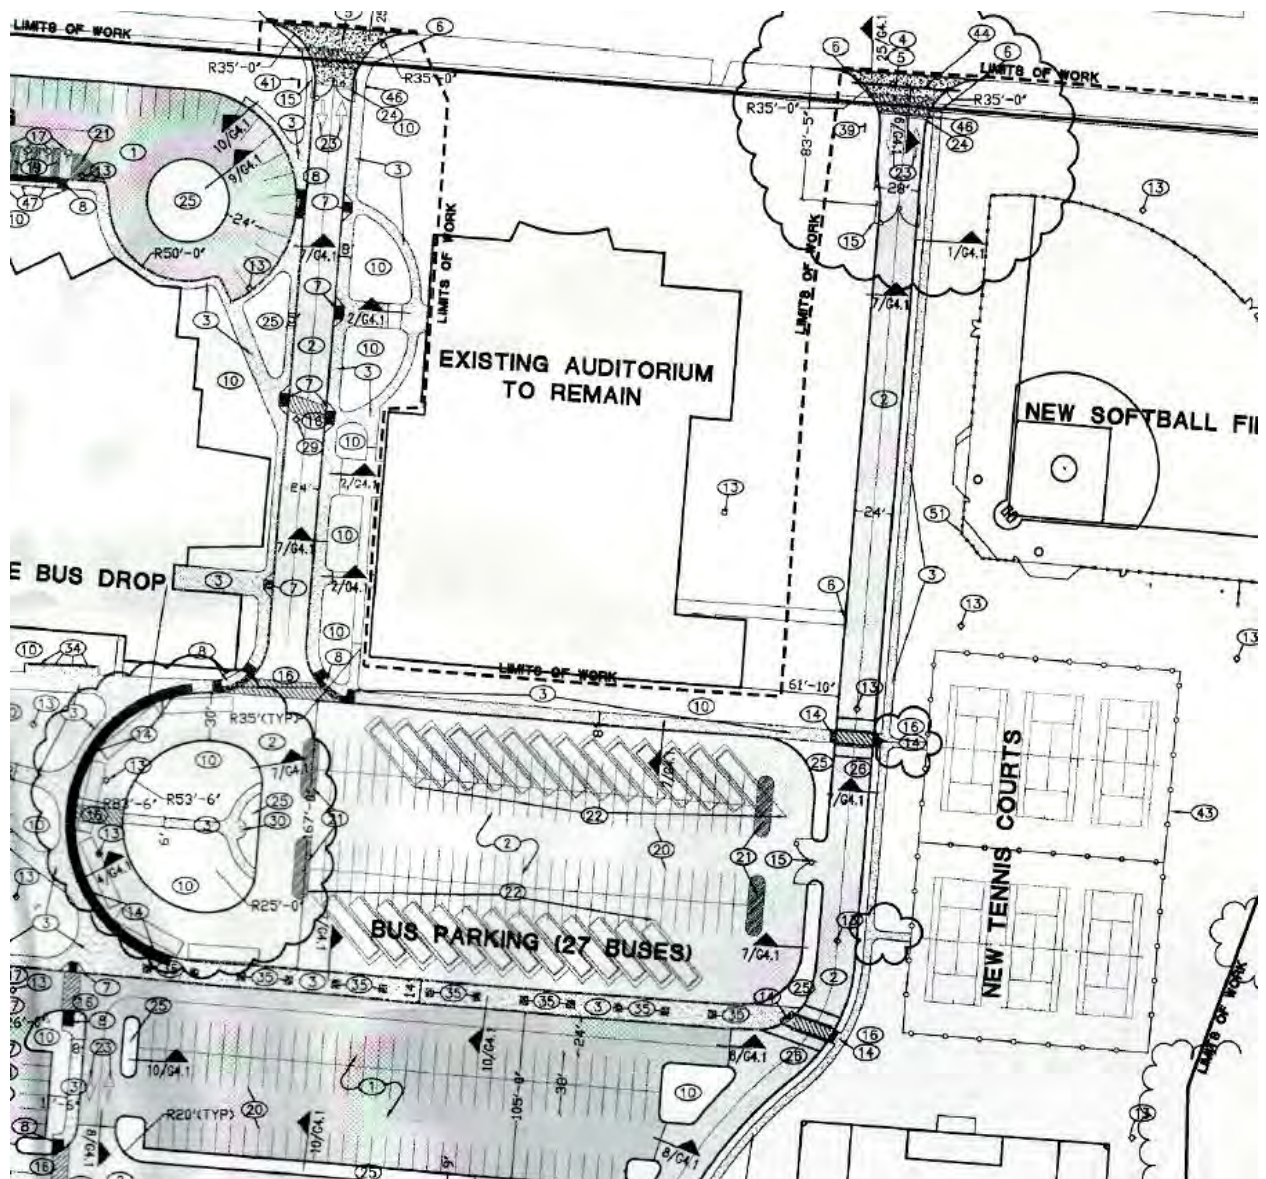

- 1. **JOE NICKEL FROM YARD COMPANY** gave a brief presentation on their help to develop the Comprehensive Plan.

- Library
 - Alematic
 - Pool
 - Music Nights
 - Farmer's Market
 - Final Recommendation

- 2. MAJOR CHANGE - The applicant, RUETSCHLE ARCHITECTS, is requesting a Major Change to the Combined Basic and Detailed Development Plan to construct an 11,623 SF career technology addition to the existing auditorium facility. Property is located at 5400 Chambersburg Road (MJC 22-27).**

Mr. Sorrell stated that in late October 2009, the Planning Commission approved a combined basic and detailed development plan to construct a new high school, softball field, tennis courts and associated student and staff parking areas.

At the time of approval, an existing auditorium along Chambersburg Road was improved during the school upgrades. A partial section of the approved BDP is below:

While the approved BPD illustrates bus parking in the lot immediately south of the auditorium, the school no longer stages buses there. It has been using the east/west drive near the current student parking area.

The applicant is now proposing to add an 11,623 addition to the rear of the existing auditorium to facilitate the development of the career technology center and a covered pedestrian walkway.

Parking will be reconfigured, and there is an overall net reduction of 26 parking spaces, which is simply one row of existing parking. No changes to the current bus parking, circulation, or other student/event parking are anticipated.

Conformance with Zoning Regulations

The use conforms with all requirements of Chapter 1174. The applicant is requesting an amendment to facilitate the addition of 11,623 SF to an existing building. The addition is in the interior of the campus and will not be seen from Chambersburg Road.

Staff feels the impact on parking is negligible. There are currently 1175 spaces throughout the campus. At the time of the original basic and detailed development plan approval in 2009, the high school required 460 spaces, and the stadium required 1175 spaces. The original parking calculation was based on 146 employees, 1680 students and 68 classrooms.

The current enrollment is 1569 students, and with this addition, there will be six additional classrooms. The stadium seating stays the same. The reduction from 1175 spaces to 1149 should have a negligible impact on the school's daily operations or impact to surrounding properties.

Landscaping

The applicant proposes improving the interior street tree landscaping along the impacted perimeter roads. This is an improvement from the original basic and detailed development plan.

Building Materials

The building will be clad with a brick exterior, similar to the existing auditorium.

As outlined above, the new high school was approved in October 2009. The addition of the career center will provide additional educational opportunities for Huber Heights students. It is the staff's opinion the impact of the reduced parking are negligible.

Additionally, the applicant is proposing additional interior landscaping that will improve the overall aesthetics of the campus. No other changes to the approved basic and detailed development plan are presented. Staff feels the General Standards for Approval outlined in Chapter 1171.06 can be satisfied and recommend approval.

Additional Comments:

Fire: See Attached. The applicant will comply with all fire code requirements.

City Engineer: No comments received.

Recommendation

Staff recommends approving the major change to the basic and detailed development plan submitted on June 2, 2022.

Mike Ruetschle and Gary Doll spoke.

Action

Mr. Jeffries moved to approve the request by the applicant RUETSCHLE RCHITECTS, for approval of a Major Change to the Combined Basic and Detailed Development Plan to construct an 11,623 SF career technology addition to the existing auditorium facility. Property is located at 5400 Chambersburg Road (Case MJC 22-27) in accordance with the recommendation of Staff's Memorandum dated June 22, 2022, and the Planning Commission Decision Record attached thereto.

Seconded by Ms. Thomas. Roll call showed: YEAS: Ms. Vargo, Mr. Jeffries, Ms. Thomas, Ms. Opp, and Mr. Walton. NAYS: None. Motion to approve carried 5-0.

3. **MAJOR CHANGE - The applicant, SKILKEN GOLD REAL ESTATE DEVELOPMENT, LLC, is requesting approval of A Major Change to the Basic Development Plan for a proposed 6,138 SF Convenience Store with Fuel Canopy, a 1,648 SF Car Wash and Vacuum Stalls. Property is located at NE Corner of Old Troy Pike and Taylorsville Road (Case MJC 22-21).**

Mr. Sorrell stated that the applicant requests approval to construct a 6,138 SF convenience store with fueling pumps and a 1,648 SF carwash. During the informal review with the Planning Commission there was significant discussion about the proposed use as compared to the uses illustrated on the adopted basic development plan. The Planning Commission expressed concerns about the perceived deviation from the originally illustrated uses and layout on the south side of the development, and members felt that the City Council should have an opportunity to review the new development proposal. It was recommended by the Planning Commission and agreed to by the applicant that they would request a major change to the basic development plan, which allows City Council the opportunity to review the proposal.

Background

On May 21, 2021, the Planning Commission approved (4-1) a rezoning to PM and basic development plan to facilitate the redevelopment of two parcels totaling 17.2 acres into a mixed-use development which includes a variety of commercial, office, and retail uses, along with a 192-unit apartment community. The rezoning was, and continues to be, consistent with the Comprehensive Plan.

Transportation Improvements

As part of the rezoning and basic development plan approval, the developer is widening the north side of Taylorsville Road to add a lane and widening the east side of Old Troy Pike to Huber Road to add a lane. Additionally, a new traffic signal will be installed along Old Troy Pike to facilitate better site access and the existing Huntington Bank and Starbucks sites will have access to this signalized intersection. The site is being cleared and roadway improvements will begin shortly.

For the sites under consideration in this application, the interior drive network and access to Taylorsville Road and Old Troy Pike is unchanged from the approved rezoning and basic development plan.

The city is planning to carry the Old Troy Pike widening from former Huber Road to I-70.

Allowable Uses

For the sites in this application, the basic development plan presented at the May 14th Planning Commission meeting illustrated a proposed bank, medical facility, and future outparcel. The basic development plan simply outlines allowable uses, site access, internal circulation (drive-aisles) and illustrates possible individual site plan concepts.

During the meeting, planning staff indicated to the Planning Commission the three sites were illustrative only, and those uses may change during the detailed development plan process. When the Planning Commission approved the basic development plan, it set the range of allowable uses (those permitted in the PM district), transportation improvements, site access, and internal site circulation.

The applicant is now proposing a convenience store and fueling station on the western parcels and a car wash on the eastern parcel in place of the illustrated bank, medical building and future outparcel.

Chapter 1179.02 states: *“The uses outlined as permitted uses in the (PR) Planned Residential District, (PO) Planned Office District, (PP) Planned Public and Private Buildings and Grounds District, and (PC) Planned Commercial District are principal uses permitted in the (PM) Planned Mixed Use District except as prohibited in this chapter.”*

As such, the following related uses are permitted in PM district:

- Retail, office, and commercial establishments
- Personal service commercial establishments
- Filling stations
- Service stations

The proposed uses are permitted within this adopted basic development plan.

Ground Signs

The approved basic development plan approved two multi-tenant ID signs, and one general ID sign adjacent to the public right of way. The approved locations are illustrated below. Sign “A” is 16’-8” and located at the main signalized intersection along Old Troy Pike. Sign “B” is 14’-2” and located along Taylorsville Road. Sign “C”, the smallest ID sign, is 5’ tall and located at the corner of Taylorsville Road and Old Troy Pike.

After the informal review with the Planning Commission, the applicant relocated the proposed vacuum stands from along Taylorsville Road to behind the car wash. The revised location will reduce the noise impacts to surrounding residents. Additionally, the more intense activities such as fueling pumps, and the main access to the convenience store, are located adjacent to Old Troy Pike, away from surrounding residential areas. The car wash is a single bay wash whose doors close during the washing procedure.

The approved basic development plan requires a minimum of 25 percent green space. The proposal shall also meet this requirement, which will be evaluated at the Detailed Development Plan stage.

A lighting plan was submitted with the application and appears to meet the lighting standards in terms of height and light trespass. A final review will be completed during the detailed development plan phase.

The applicant is proposing brick structures consistent with the non-residential material requirements and the basic development plan. A final review will be completed during the detailed development plan phase.

Staff Analysis

The applicant requests to construct a 6,138 SF convenience store with fueling pumps and a 1,648 SF carwash. On May 21, 2021, the Planning Commission approved (4-1) a rezoning to PM and a basic development plan to facilitate the redevelopment of two parcels totaling 17.2 acres into a mixed-use development including a variety of commercial, office, and retail uses, along with a 192-unit apartment community. The rezoning was, and continues to be, consistent with the Comprehensive Plan.

When the Planning Commission approved the basic development plan, it set the range of allowable uses (those permitted in the PM district), site access, and internal site circulation. The applicant is proposing a convenience store and fueling station on the western parcels and a car wash on the eastern parcel bisected by the interior street network. The proposed uses are permitted within the adopted basic development plan.

Additionally, the revised traffic study indicates there will be minimal changes in the level of service and delay by the proposed development compared to three previous lots originally studied. No additional roadway improvements are necessary beyond the roadway widenings currently underway. The internal circulation system proposed by the applicant remains unchanged from the approved basic development plan.

Since the informal review before the Planning Commission, the applicant has made two key revisions to the application. First, the carwash and vacuum stations were redesigned to reduce noise impacts to the surrounding properties. Secondly, two 30' tall pylon gas price signs were reduced to 6'-10" tall.

Since the approved basic development plan only permitted three signs adjacent to the right of way, the two proposed 6'-10" gas price ground signs require major change approval from the Planning Commission. Staff feels the two proposed gas price ground signs are modestly sized and highly complementary in design to the previously approved Broad Reach ID signs.

Additional Comments:

Fire: See Attached.

City Engineer: The City Engineer has expressed a concern about customers parking along the eastern edge of the building backing into the drive aisle, and a concern about drive-thru customers crossing a drive aisle after ordering and stacking at the pick-up window.

This site is not unique with parking along a drive aisle; most of the sites along Old Troy Pike are similarly situated. Regarding drive-thru customers crossing the drive aisle, the applicant has stated that drive-thru customers are approximately 10% of sales and the applicant does not anticipate congestion issues related to vehicle stacking.

Recommendation

The application for a major change was initiated at the request of the Planning Commission and their desire for City Council to review this development application.

Only the two proposed ground signs must be approved through the major change. Staff feels the major change requested by the applicant meets the standards outlined in Chapter 1171.06 for the following reasons:

- The proposed uses are consistent with the Comprehensive Plan;
- The proposed uses are currently permitted within the approved basic development plan;
- All site access locations and interior circulation remain unchanged;
- The replacement of the convenience store, fueling station and carwash will result in minimal changes in the level of service and delay along the thoroughfares compared to the three lots and uses originally studied; and,
- The two-ground mounted gas price signs are modest in height and designed in a complementary manner to the previously approved development ID signs.

Staff recommends approval with the following conditions:

- All conditions approved by the Planning Commission on May 21, 2021, shall remain in effect;

- The two additional ground mounted gas price signs shall not exceed 6'-10";
- The applicant shall comply with all engineering, building and fire codes; and,
- The applicant shall update the basic development plan to reflect all conditions imposed by the planning commission.

Lengthy discussions on stacking of cars, road widening, gaining left turn, additional lane on Troy Pike, curb cut management,

Mike Castellitto from Broadreach talked about widening Taylorsville and Troy Pike, lanes shifted, traffic control measures in place, history and relationship with the city, agreement pertains to property, not tenants.

Frank Petruziello talked about Sheetz selling gas but restaurant was original business, seating for 30, food to order, touch screens, drive-thru 10% of business. Traffic load won't change.

Discussion on vacuums and parking 49 required spaces, hours of operation, security, highly competitive. Signage and additional lanes. Eliminate 3 vacuums, hours of operation at Detailed Development Plan. All fire concerns are being addressed.

Action

Ms. Vargo moved to approve the request by the applicant SKILKEN GOLD REAL ESTATE DEVELOPMENT, for approval of a Major Change to the Basic Development Plan for a proposed 6,138 SF Convenience store a with Fuel Canopy, a 1,648 SF Car Wash and Vacuum Stalls. Property is located at NE Corner of Old Troy Pike and Taylorsville Road (Case MJC 22-21) in accordance with the recommendation of Staff's Memorandum dated June 22, 2022, and the amended Planning Commission Decision Record attached thereto.

Seconded by Ms. Opp. Roll call showed: YEAS: Ms. Opp, Ms. Vargo, and Mr. Walton. NAYS: Mr. Jeffries and Ms. Thomas. Motion to approve carried 3-2.

VIII. Additional Business

None.

IX. Approval of the Minutes

Without objection, the minutes of the June 14, 2022, Planning Commission meeting are approved.

X. Reports and Calendar Review

DDP – The Waverly
DDP – Medical Facility

XI. Upcoming Meetings

July 12, 2022
July 26, 2022

XII. Adjournment

There being no further business to come before the Commission, the meeting was adjourned at approximately 8:01 p.m.

CITY OF HUBER HEIGHTS
STATE OF OHIO

ORDINANCE NO. 2022-O-

TO APPROVE A MAJOR CHANGE TO THE BASIC DEVELOPMENT PLAN FOR THE PROPERTY LOCATED AT THE NORTHEAST CORNER OF OLD TROY PIKE AND TAYLORSVILLE ROAD AND FURTHER IDENTIFIED AS PARCEL NUMBER P70 04005 0015 ON THE MONTGOMERY COUNTY AUDITOR'S MAP AND ACCEPTING THE RECOMMENDATION OF THE PLANNING COMMISSION (CASE MJC 22-21).

WHEREAS, the citizens of Huber Heights require the efficient and orderly planning of land uses within the City; and

WHEREAS, the City Planning Commission has reviewed Case MJC 22-21 and on June 28, 2022, recommended approval by a vote of 3-2 of the Major Change; and

WHEREAS, the City Council has considered the issue.

NOW, THEREFORE, BE IT ORDAINED by the City Council of Huber Heights, Ohio that:

Section 1. The application requesting approval of a Major Change to the Basic Development Plan (Case MJC 22-21) is hereby approved in accordance with the Planning Commission's recommendation and following conditions:

1. All conditions approved by the Planning Commission on May 21, 2021, shall remain in effect.
2. The two additional ground mounted gas price signs shall not exceed 6'-10".
3. The applicant shall comply with all engineering, building and fire codes.
4. The applicant shall update the basic development plan to reflect all conditions imposed by the Planning Commission.
5. No more than five (5) vacuums will be permitted.
6. Prior to the issuance of a zoning permit, the applicant shall enter into a PUD Agreement with the City for the purpose, but not the sole purpose, of establishing the development obligations of the applicant and requiring the submittal of a performance bond, cash bond, or letter of credit to insure the installation of landscaping as approved. The bond or letter of credit shall be in an amount equal to the applicant's estimate of the cost of installation as approved by the Planning Department and shall remain in effect until such time as the landscaping has been completed as determined by the Planning Department. Upon completion of the installation of landscaping as required by the approved landscape plan, the applicant may request release of the performance bond or letter of credit. Following an inspection by the Planning Department and upon determination by the department that the landscaping has been completed in accordance with the approved landscaping plan, 80% of the performance bond or letter of credit may be released. However, the performance bond or letter of credit will not be released until a maintenance bond lasting three growing seasons, or letter of credit equal to 20% of the initial performance bond or letter of credit to ensure maintenance of the landscaping, is submitted to and accepted by the Planning Department. The term of the maintenance bond shall be three growing seasons.

Section 2. It is hereby found and determined that all formal actions of this Council concerning and relating to the passage of this Ordinance were adopted in an open meeting of this Council, and that all deliberations of this Council and of any of its Committees that resulted in such formal action were in meetings open to the public and in compliance with all legal requirements including Section 121.22 of the Ohio Revised Code.

Section 3. This Ordinance shall go into effect upon its passage as provided by law and the Charter of the City of Huber Heights.

Passed by Council on the _____ day of _____, 2022;
_____ Yeas; _____ Nays.

- GENERAL DEMOLITION NOTES**
1. Within the subject property, the intent is to have a clean, clear site, free of all existing items noted to be removed in order to allow for the construction of the new project.
 2. All items noted to be removed shall be done as part of the contract for general construction.
 3. Remove and dispose of any materials requiring removal from the work area in an approved off-site landfill.
 4. The Contractor shall secure all permits for demolition and disposal of demolition material to be removed from the site. The Contractor shall post all bonds and pay all permit fees as required.
 5. The Contractor shall cut and plug, or arrange for the appropriate utility company to cut and plug service piping at the property line or at the main (as required). All services may not be shown on this plan.
 6. For all items noted to be removed, remove not only above ground elements, but all underground elements as well, including, but not necessarily limited to: foundations, slabs, gravel fills, tree roots, pipes, wires, unsuitable materials, etc.
 7. The Contractor shall sawcut existing pavement to provide a clean edge between existing pavement to remain and existing pavement to be removed.
 8. Limits of removal shown on demolition plan are approximate only. Actual quantities may vary due to construction activities. Contractor is responsible for all demolition, removal and restoration work necessary to allow for the construction of the new project.
 9. Backfill excavations resulting from demolition work to meet the requirements for fill outlined in the Geotechnical / Soils Report.

- GENERAL SITE NOTES**
1. Building dimensions shown on the Civil Engineering Plans are for reference purposes only.
 2. All site and radii dimensions are referenced to the face of curbs or edge of paving unless otherwise noted.
 3. All dimensions to the building are referenced to the outside face of the structure's facade.
 4. All sidewalks, curb and gutter, street paving, curb cuts, driveway approaches, handicap ramps, etc. constructed outside the property line in the right-of-way shall conform to all Local and/or State specifications and requirements.
 5. All proposed handicap ramps, parking areas, and accessible routes shall strictly comply with current Local, State, and Federal regulations, including but not necessarily limited to the ADA Accessibility Guidelines (ADAAG).
 6. All ADA accessible routes shall have detectable warnings installed as required by the ADAAG. Detectable warnings shall consist of raised truncated domes which contrast visually with the adjoining surfaces, either light-on-dark, or dark-on-light.
 7. Contractor shall sawcut existing pavement and concrete to provide a clean, straight joint where new pavement meets existing pavement and ensure positive drainage.
 8. All concrete pavement shall have joints in accordance with ACI 330R-08, Section 3.7 and Appendix C. Contraction joints shall be 1/4 of the slab thickness. Isolation joints shall be placed between pavement and foundations, inlets, and other fixed structures. Contraction joints shall be tool finished and spaced as follows:
 - Curbing: 10'-0" (max) spacing.
 - Sidewalks: 5'-0" (max) spacing.
 - Vehicular Traffic Areas: 24 x Concrete Pavement Thickness (feet), 15'-0" (max) spacing.

GENERAL GRADING, EARTHWORK & DRAINAGE NOTES

1. All spot elevations indicated in pavement areas are at bottom face of curb and/or finished pavement grade unless noted otherwise. All spot elevations indicated in grass or landscape areas are finished grade unless noted otherwise.
2. The Contractor shall be responsible for the removal and disposal of all vegetation and organic materials from the site that results from clearing & grubbing activities.
3. The Contractor shall be responsible for stripping and removal of all excess topsoil from the site. All topsoil that cannot be used on site shall be removed from the site at the Contractor's expense. The Contractor may dispose of excess topsoil by burying topsoil in landscape areas only at the direction of the Owner or the Owner's Representative.
4. The Contractor will be responsible for all safety requirements and for the protection of all existing and proposed utilities or structures during earthwork procedures.
5. The Contractor shall be responsible for the import of structural fill materials if suitable material is not available on site. The location and testing of suitable material shall be the Contractor's responsibility. The Contractor shall be responsible for the export and disposal of all excess or unsuitable materials.
6. The Contractor shall provide construction dewatering as necessary to complete construction as outlined in plans.
7. The Contractor shall exercise extreme care in establishing all grades and slopes in pavement areas, ramps and sidewalks in the vicinity of handicap parking and access areas and shall comply with Federal, State, and Local Codes.
8. In areas where sheet drainage flows from grass or landscape areas onto paved areas, the finished grade in grass or landscape areas shall be 1/2 inch above the top of curb or above the pavement in areas without curb. In areas where sheet drainage flows from pavement to grass or landscaped areas, the finished grade in grass or landscape areas shall be 1/2 inch below the pavement.
9. The Contractor shall provide positive drainage in all areas and away from all buildings.
10. All pavement shall be laid on a straight, even, and uniform grade with a minimum of 1:100 (1.0%) slope toward the collection points unless otherwise specified on plans. Cut or fill slopes in unpaved areas shall not exceed 3:1 (33.3%) maximum grade unless otherwise noted on plans.
11. ADA accessible areas shall not exceed the following slopes:
Ramps - 1:12 (8.3%) max.
Routes - 1:20 (5.0%) max.
Parking - 1:50 (2.0%) max.
Cross Slopes - 1:50 (2.0%) max.
12. The Contractor shall adjust tops/lids/grates of all existing and proposed cleanouts, manholes, inlets, valves, etc. to match final grade.
13. Following grading of subsoil to subgrade elevations, the Contractor shall provide 4" of topsoil (minimum) in all disturbed areas which are not to be paved. Final grades should be smoothly finished to surrounding areas and ensure positive drainage. Stockpiled topsoil shall be screened prior to respreading and should be free of subsoil, debris, and stones.
14. The Contractor shall be responsible for determining exact quantities of cut and/or fill for estimating and construction and should alert the Engineer of any excessive cut and/or fill, especially if additional cut and/or fill will be required due to poor existing soil conditions discovered during earthwork operations.
15. Refer to the Architectural and Structural Plans for information regarding any perimeter foundation drains.
16. The Contractor shall obtain a copy of the Geotechnical / Soils Report and become thoroughly familiar with site and subgrade information and fully implement recommendations given therein.
17. Proposed spot elevations are provided in a truncated form to save space, add 900' to each spot elevation to convert the elevation to NAVD88 datum.
18. Refer to the Landscape Plans for finish material specifications (topsoil, seed, sod, mulch, etc.) in all landscape and open space areas.

- GENERAL UTILITY NOTES:**
1. All utilities shown are approximate locations only and have been compiled from the latest available mapping. The exact location of all underground utilities shall be verified by the Contractor prior to the start of construction.
 2. Contractor to coordinate with the local utility companies for all locations and connections. A preconstruction meeting with the various utility companies may be required prior to the start of any construction activity.
 3. The Contractor shall visit the site and verify the location, elevation, and condition of all existing utilities by various means prior to beginning any excavation. Test pits shall be dug at all locations where existing and proposed utility lines cross, and the horizontal and vertical locations of the utilities shall be determined. The Contractor shall contact the Engineer in the event of any unforeseen conflicts between existing and proposed utilities so that an appropriate modification may be made.
 4. The Contractor shall ensure that all utility companies and local standards for materials and construction methods are met. The Contractor shall perform proper coordination with the respective utility company. The Contractor shall coordinate work to be performed by the various utility companies and shall pay all fees for connections, disconnection, relocations, inspections, and demolition.
 5. This plan details pipes up to 5' from the building face. Refer to the building drawings for building connections. Supply and install pipe adapters as necessary.
 6. All valve boxes and curb boxes shall be adjusted to the final grades and located in grassed areas unless indicated otherwise on the plans.
 7. The Contractor shall provide traffic bearing concrete collars and lids for all cleanouts, manholes, inlets, valves, etc. which are located in paved areas.
 8. All existing pavement within the rights-of-way where utility piping is to be installed shall be saw cut and replaced or directionally bored in accordance with Local and/or State requirements. Existing pavement shall be repaired as necessary.
 9. All utility lines and trenches shall be installed, bedded and backfilled according to manufacturer's specifications and to the satisfaction of Local and State Authorities.
 10. Sanitary sewer laterals shall maintain (10' min. horizontal, 1.5' min. vertical) separation distance from water lines unless otherwise shown, or additional protection measures will be required. Where water line crosses above sanitary lateral by less than 2' vertical, a concrete encasement shall be installed, Contractor shall center one joint of pipe at crossing.
 11. Roof drains, foundation drains, and other clean water connections to the sanitary sewer system are prohibited.

Memorandum

Staff Report for Meeting of June 14, 2022

To: Huber Heights City Planning Commission
From: Aaron K. Sorrell, Interim City Planner
Date: June 8, 2022
Subject: BDP 22-25 Basic Development Plan - Marian Meadows

Application dated May 26, 2022

Department of Planning and Zoning

City of Huber Heights

APPLICANT/OWNER:	Homestead Development – Applicant City of Huber Heights - Owner
DEVELOPMENT NAME:	Marian Meadows
ADDRESS/LOCATION:	6209 Brandt Pike (rear lots of former Marian Shopping Center) P70 03912 0140
ZONING/ACREAGE:	PM – Planned Mixed Use / 15.56 Acres BPO – Brandt Pike Revitalization Overlay District
EXISTING LAND USE:	Vacant
ZONING ADJACENT LAND:	R-4 – West; PC – North; PM – East; PP/B-3 - South
REQUEST:	The applicant requests approval of a basic development plan to construct a 135-unit senior community and a 192-unit market rate community on a combined 15.56 acres.
ORIGINAL APPROVAL:	N/A
APPLICABLE HHCC:	Chapter 1171, 1179, 1180
CORRESPONDENCE:	In Favor – In Opposition –

STAFF ANALYSIS AND RECOMMENDATION:

Overview:

This project grew out from the Brandt Pike Redevelopment Plan (2017), which identified a need and demand for senior housing and market-rate multi-family housing along and near the Brandt Pike corridor. The City subsequently purchased the shopping center to facilitate redevelopment. New developments within this site include: Dayton Metro Library Huber Heights Branch, Dogtown, and the shopping center will be refaced with a brick / stone façade. TIF proceeds from the proposed apartment developments, as well as future developments may fund the façade and public infrastructure upgrades.

The applicant is requesting basic development plan approval for a 184-unit market-rate apartment community and a 135-unit senior apartment community.

Applicable Zoning Regulations

The applicable zoning chapters include: 1171 General Provisions, 1179 Planned Mixed Use District, 1180 Brandt Pike Revitalization Overlay District, 1181 General Provisions. The relevant sections are cited and discussed below:

Chapter 1171 General Provisions

1171.01 Purpose.

Planned Unit Developments Districts may be permitted as amendments to the zoning map, after application and approval of specific and detailed plans, where tracts suitable in location and character for the uses and structures proposed are to be planned and developed as units. The provisions of this chapter are adopted to unify planning and development in such districts. Applications for rezoning of land into a Planned Unit Development District shall be granted only when the basic development plan for the project is such that the public health, safety and morals shall not be jeopardized by a departure from the restrictions on corresponding uses in the standard zoning district. PUD rezonings may be approved only when a basic development plan for the area has been approved by Council. A detailed development plan shall then be approved for zoning permit to be approved for development in the District. Normally the detailed development plan shall be approved by the Planning Commission after the rezoning and basic development plan have been approved by Council. Owners shall have the option however, of submitting a combined basic and detailed development plan ("combined development plan") if they should so desire for some or all of the site.

(Ord. 93-O-602, Passed 3-22-93)

1171.05 Contents of basic development plan.

- (a) The basic development plan shall consist of at least the following information together with such other data and materials as may be required by the City:*
 - (1) Site plan showing the actual shape and dimensions of the lot to be built upon or to be changed in its use together with the location of the existing and proposed structures with approximate square footages, number of stories including heights of structures;*
 - (2) Typical elevation views of the front and side of each type of building;*

- (3) *Planning location and dimensions of all proposed drives, service access road, sidewalks and curb openings;*
 - (4) *Parking lot areas (show dimensions of a typical parking space), unloading areas, fire lanes and handicapped parking;*
 - (5) *Landscaping plan, walls and fences;*
 - (6) *Storm water detention and surface drainage;*
 - (7) *Exterior lighting plan;*
 - (8) *Vehicular circulation pattern;*
 - (9) *Location and square footage of signs;*
 - (10) *Topographic survey; and*
 - (11) *Listing of proposed uses taken from the list of permitted and special uses of the PUD zoning district to which rezoning is being sought.*
- (b) *The Planning Commission shall schedule both the proposed rezoning and the issue of approval of the basic development plan for a combined public hearing, following which it shall make its recommendation indicating approval, approval with modification or disapproval.*
- (Ord. 2006-O-1655, Passed 9-25-05)*

1171.06 General standards for approval.

The Planning Commission shall review the application, prepared development plan and the facts presented at the hearing. The applicant shall have the burden of proof. No approval shall be given unless the Commission shall find by a preponderance of the evidence that such PUD on the proposed locations:

- (a) Is consistent with official thoroughfare plan, comprehensive development plan and other applicable plans and policies;
- (b) Could be substantially completed within the period of time specified in the schedule of development submitted by the developer;
- (c) Is accessible from public roads that are adequate to carry the traffic that shall be imposed upon them by the proposed development. Further, the streets and driveways on the site of the proposed development shall be adequate to serve the residents or occupants of the proposed development;
- (d) Shall not impose an undue burden on public services such as utilities, fire and police protection, and schools;
- (e) Contains such proposed covenants, easements and other provisions relating to the proposed development standards as may reasonably be required for the public health, safety and welfare;
- (f) Shall be landscaped or otherwise improved and the location and arrangement of structures, parking areas, walks, lighting and appurtenant facilities shall be compatible with the existing intended uses, and any part of a PUD not used for structures, parking and loading areas, or accessways;
- (g) Shall preserve natural features such as water courses, trees and rock outcrops, to the degree possible, so that they can enhance the overall design of the PUD;

- (h) Is designed to take advantage of the existing land contours in order to provide satisfactory road gradients and suitable building lots and to facilitate the provision of proposed services;
- (i) Shall place underground all electric and telephone facilities, streetlight wiring and other wiring conduits and similar facilities in any development which is primarily designed for or occupied by dwellings, unless waived by the Commission because of technical reasons;
- (j) Shall not create excessive additional requirements at public cost of public facilities and services and shall not be detrimental to the economic welfare of the community;
- (k) Shall not involve uses, activities, processes, materials, equipment and conditions of operation that shall be detrimental to any persons, property or the general welfare by reason of excessive production of traffic, noise, smoke, fumes, glare or odors; and
- (l) Rezoning of the land to the PUD District and approval of the development plan shall not adversely affect the public peace, health, morals, safety or welfare.

(Ord. 93-O-602, Passed 3-22-93)

1171.091 Planning commission/council review.

It is the purpose of the Planning Development regulations to encourage property owners to develop their land in efficient and effective ways. It is the intent of these regulations to encourage land uses which may not always meet traditional zoning rules. Inherent in these Planned Development regulations is an opportunity for property owners to develop their sites without requiring strict compliance with all zoning regulations where the overall plan is deemed to be in the best interest of the City. During review of a Basic or Detailed Development Plan by the Planning Commission or City Council, all requirements within Part 11, Title 7 of the Code are to be used as guidelines and may be varied as part of the Basic or Detailed Development Plan if it is determined that such deviation will not materially adversely affect neighboring properties or the community as a whole, any such variation of these requirements does not change the overall plan and character of the proposed development, and the variance does not have the effect of nullifying the intent and purpose of these regulations or the Zoning Ordinance. In granting variances or modifications, the Commission or Council may require such conditions as shall, in its judgement, secure substantially the objective of the standards or requirements so varied or modified.

(Case 427; Ord. 2002-O-1367, Passed 9-9-02)

Development Standards Analysis:

1179.06 Development standards (Planned Mixed Use)

Except when specifically modified herein, the provisions of the Planning and Zoning Code shall govern. The following development standards apply to a PM development:

- (a) *Minimum Land Area Requirement.* A minimum of 20 acres shall be required.

While this application covers approximately 15.56 acres, the overall area zoned PM exceeds 20 acres.

- (b) *Covenants.* The developer of a PM development shall be required to submit a set of covenants or deed restrictions with the Basic Development Plan application that will outline, at a minimum, development standards and guidelines established in this chapter and any other requirements the developer and/or Planning Commission deems necessary. The Planning Commission may require additional or amended

covenants as it deems necessary to ensure compliance with the Planning and Zoning Code and the Planned Mixed-Use District.

Covenants will be created during the detailed development plan phase.

- (c) *Required Mix of Land Uses.* A developer shall be required to provide a mix of land uses in a PM Development. At a minimum, at least two of the following uses are required in a PM Development: residential, commercial, office, institutional, and/or industrial.

The area zoned PM has a mix of uses including retail, commercial, public use (library) and planned residential.

- (d) *Site Planning.*

- (1) The combination of different uses whether as part of one building or as part of the overall development shall be designed and developed so as not to create a nuisance by excessive noise, light, vibration, odor or any other annoyances for any uses within the development or neighboring properties.

All uses being considered are compatible with the neighboring properties. Extensive natural vegetation exists that will buffer and screen the proposed development and the existing homes to the west.

- (2) A PM development is to be designed so that buildings and structures are clustered and open space areas are preserved and maintained. Special care shall be given to protect preexisting natural features including, but not limited to, woodlands, ravines, streams, lakes, ponds, and/or flood plains. Impervious surface coverage, including, but not limited to, buildings, parking area, and accessways, shall not exceed 75 percent of the total development area. Therefore, 25 percent of the development area shall be reserved for green space.

The overall campus development is focused around a wet detention area and has large areas of open space. The combined proposed residential development sites are approximately 40% open space.

- (3) The number of ingress and egress points onto the public streets shall be limited in order to reduce the number of traffic conflict points. Adequate and properly arranged facilities for internal pedestrian and traffic circulations shall be provided. The street and thoroughfare network shall be designed to minimize truck traffic through residential areas of the development.

Access is limited to two required access points for each residential development.

- (4) Parking systems shall be designed so as to discourage single large unbroken paved lots for off-street parking and shall encourage smaller defined parking areas within the total parking system. Underground parking facilities are encouraged.

The parking areas are arranged for the convenience of the residents but are broken up with landscape islands and covered parking areas.

- (5) The development shall be designed to tie all the uses into one overall community and encourage walking, biking, running, and alternative modes of transportation. Developers are encouraged to incorporate bus stops, bikeways, walkways, and crosswalks into an overall thematic scheme for pedestrian traffic. Sidewalks shall be required except, in the case of a golf course or specific open space development, the Planning Commission may determine them to be unnecessary.

Sidewalks are indicated along the future road frontage of non-senior multi-family building. Staff recommends sidewalks also be provided for the senior facility residents.

- (6) Any signs as proposed within this district, shall comply with Chapter 1189 "Signs". Additionally, a developer of a PM development shall develop and submit with the Detailed Development Plan application, a comprehensive set of graphic design criteria for signage in the development. This set of graphic design criteria for signage shall be approved by the Planning Commission and shall apply to all signage requests within the development. The criteria shall include, at a minimum, the sizes permitted (if different from Chapter 1189), colors permitted, materials permitted, typefaces permitted, type size permitted, and permitted illumination. Compliance with the on-site comprehensive graphics shall be verified by the Zoning Administrator during the sign permit review process.

No sign details were provided for this application but will be submitted during the detailed development phase.

- (7) Minimum lot area, frontage and setback requirements may be varied to allow greater flexibility in design. However, the following shall be used as a guideline for development:
 - A. With multiple buildings on a single property, entirely residential buildings shall be at least 15 feet from another entirely residential building and at least 50 feet from nonresidential or mixed-use buildings.

All residential buildings are spaced according to the above requirements.

- (8) No maximum height restriction shall apply, except that the proposed development meets all Federal Aviation Administration (FAA), Dayton International Airport or Wright Patterson Air Force Base height or abatement requirements.

While no height maximum height restriction exists in the PM district, the Brandt Pike Overlay District has a maximum height of three stories or 35 feet. The proposed non-senior apartments have both two- and three-story buildings. The two-story buildings are 34 feet to the roof peak and the three-story buildings are 44 feet to the roof peak. The applicant is proposing the market-rate apartments will have mixture of two- and three-story buildings along the west side of the site, which is closest to the existing single-family neighborhood. This arrangement will breakup the building massing along the western edge and the buildings are sited approximately 150-feet from the back of the single-family homes.

The three-story senior buildings will also be at least 150-feet from the back of the single-family homes. Additionally, the building is oriented in such a way that only the endcaps, and not the full building length, are facing the single-family homes.

Staff feels both the market rate site plan and senior building site plan provides a significant visual buffer and a nine (9) foot variance from the maximum height is acceptable.

- (9) Common parking areas and accessways shall be lighted adequately with light fixtures that shall be designed to reflect light away from adjoining properties. Special attention will be given to protect entirely residential structures from light emitted from nonresidential land uses.

A lighting plan will be submitted with the detailed development plan.

- (10) Nonresidential uses shall have trash containers and/or receptacles (including recycling containers) placed to the rear of all structures and shall be screened or enclosed on four sides with opening doors for the purpose of trash removal. The placement of trash containers and/or receptacles in multi-family residential developments shall be as inconspicuous as possible. The use of a wooden or vinyl fence structure, earth mound, or wall with an opaqueness of 100 percent and a height of 12 inches above the top of the largest container is required.

Both developments indicate enclosed trash facilities. The screening details will be provided in the detailed development plan.

- (11) The architecture of nonresidential structures is encouraged to be unique yet similar in certain sections of the PM.

N/A

- (12) The distribution systems for utilities are required to be underground.

All utilities will be below ground.

- (13) The use of privately owned open space and public dedicated park land is encouraged as part of a PM development. Privately owned open space shall be maintained by the developer or by a duly authorized owner's association.

Two small dog parks are illustrated in the basic development plan of the market rate apartments. Overall, the developments have approximately 40% open space.

- (14) The use of chain link fencing is prohibited. Additionally, on an entirely residential property, no fencing shall be permitted in the front yard and, in the case of a corner lot, no fencing shall be permitted in the side yard with frontage to a public right-of-way. The covenants submitted by the developer shall establish the height requirements for fencing in the development. Fencing in a development shall be uniform in height in related use areas. On an entirely residential property, fence height shall not exceed six feet.

No fencing is currently illustrated on the plans.

- (15) With the submission of a Basic Development Plan application, the applicant is required to submit a phasing plan that details when certain sections of the development will commence construction and when the sections will be complete.

No phasing plans have been submitted to date, though staff expects the apartments to be constructed in one phase.

1179.07 Landscaping.

To protect and promote a harmonious development that ensures a functional and logical arrangement of mixed uses, the effective and efficient use of landscaping and buffering is required. Therefore, a PM development shall include the following landscaping and buffering:

- (a) *Development Landscaping.* Within the PM development that is proposed, entirely residential buildings shall be screened from nonresidential and mixed-use buildings with a 20-foot-wide buffer strip that includes a six-foot-high earth mound, wooden or vinyl fence, wall, landscaping and/or mixture thereof that shall maintain an opaqueness of at least 80 percent year around. Parking areas, accessways, or any impervious surfaces are prohibited within this buffer strip. If planted materials are used, the screen must achieve the required height, width, and opaqueness within two years of planting. The use of pre-

existing trees, natural features or amenities as part of this buffer is encouraged. The Planning Commission may approve some other arrangement of buffering if it determines that such an arrangement meets the intent of this requirement.

A landscaping plan has not been submitted at this time. Staff recommends a mixture of street trees, and clustered plantings along the eastern edge of the market-rate and senior apartments. Staff feels a six-foot high earthen mound is inappropriate for this site and will interfere with pedestrian access from the apartments to the sidewalk network.

- (b) *Perimeter Landscaping.* In a section of a PM development that contains nonresidential, mixed use, or multi-family buildings that abut a neighboring property with a single-family residential zoning designation or in a PM development section that contains an entirely residential section that abuts a neighboring property with a commercial, office, or multi-family zoning designation, the perimeter of the section of the PM development shall be screened with a 25 foot wide buffer strip that includes a six foot high earth mound, wooden or vinyl fence, wall, landscaping and/or mixture thereof that shall maintain an opaqueness of at least 80 percent year-round. Parking areas, accessways or an impervious surfaces are prohibited within this buffer strip. If planted materials are used, the screen must achieve the required height, width, and opaqueness within two years of planting. The use of pre-existing trees, natural features or amenities as part of this buffer is encouraged. The Planning Commission may approve some other arrangement of buffering if it determines that such an arrangement meets the intent of this requirement.

The applicant is proposing a five-foot earthen mound and evergreen plantings along the west edge to screen the development from the existing single-family homes.

- (c) *Parking Lot Landscaping.* All parking lots are required to have interior landscaped areas as outlined in Chapter 1185, "Parking and Loading".

Areas for parking landscaping are illustrated in the basic development plan. The applicant shall submit additional details during the detailed development phase.

- (d) *Street Tree Requirement.* All frontage property within a PM development that abuts public rights-of-way and is developed with nonresidential, mixed use, and/or multi-family buildings is required to have one street tree per 40 feet of frontage planted just outside of the street right-of-way. Unless determined to be inappropriate by the City Engineer, street trees shall be planted at least four feet from the edge of the sidewalk on private property. All frontage property within a PM development along a major collector or better as defined by the Huber Heights Thoroughfare Plan, no matter what use, shall meet this requirement. The type of tree and size shall be proposed by the developer at the Detailed Development Plan application stage and approved by the Planning Commission. A list of appropriate trees with required caliper is available in the City Engineer's Office.

Street trees are not illustrated, but staff recommends street trees be provided at 40-foot intervals.

1179.08 Parking and loading.

The provisions of Chapter 1185, "Parking and Loading" shall apply, except that the off-street loading spaces and docks shall be provided with area, location and design appropriate to the needs of the development and specific uses within it, and the space designated for off-street loading shall not be used for off-street parking. Within the PM development, off-street loading areas shall be physically isolated and/or enclosed from residences in or adjacent to the PM Development. In all cases, off-street loading spaces and docks are prohibited in the front and side yards of any property.

The zoning code requires two-space per multi-family unit. In the non-senior community, the applicant is proposing 357 parking spaces for 184 units, or 1.94 spaces per unit. Of the 184 units, 84 are one-bedroom apartments which are less likely to have two vehicles. Additionally, most communities have begun reducing parking minimums of non-senior multi-family apartments to approximately 1.5 spaces / unit. Staff feels the amount of parking proposed for the non-senior community is adequate.

The applicant is proposing 134 spaces for 135 units, or .99 spaces per unit. Most senior living facilities have a 1:1 parking ratio because the majority of residents either live alone or only have one vehicle in the household. Staff feels the amount of parking provided is acceptable at this time. There is room to provide additional parking in the front of the building if management determines it's necessary in the future. However, at this point in time, staff does not think sacrificing greenspace for parking is necessary.

1179.09 Planning commission/city council review.

All requirements within this chapter are to be used as guidelines and may be varied as part of the Basic or Detailed Development Plan approval if it is determined that such deviation will not adversely affect neighboring properties or the community as a whole. Additionally, any variation of these requirements shall, in no case, change the overall plan and character of the proposed development.

This development falls within the Brandt Pike Overlay District. The entire zoning text is included for your reference. My recommendations are at the end of each section.

CHAPTER 1180 (BPO) BRANDT PIKE REVITALIZATION OVERLAY DISTRICT

1180.01 Purpose; intent.

- (a) The purpose of the Brandt Pike Revitalization Overlay District is multi-faceted. On a practical level, the Overlay District standards are meant to implement the recommendations of the Brandt Pike Target Revitalization Study (2017) which identify a number of public health, safety, and welfare issues on Brandt Pike, including traffic congestion, changing land uses, aging shopping centers, unattractiveness, and lack of identity. As this part of Huber Heights has come close to reaching build-out, the opportunity to address these issues comes through site-by-site redevelopment, which is an incremental process that will occur in fragments. It is because of this fragmentation, that a cohesive framework that channels or guides new building and construction is needed; otherwise, redevelopment on individual parcels or sites will occur independent of the larger Brandt Pike Corridor context, perpetuating the public health, safety, and welfare issues. The Overlay is such a framework and is intended to supplement the land uses and development requirements of the multiple underlying zoning districts while providing more specific development standards that unify this unique corridor's development pattern by regulating primarily the form (scale, alignment, and composition of buildings); parking and loading; site amenities; landscape design; lighting; and graphics. It is also aimed at encouraging and incorporating environmentally-friendly design, facilitating pedestrian connections to adjacent neighborhoods, as well as better connecting the corridor to its surroundings and serve as a tool to achieve the City's vision for redevelopment and help to create an identity for this vital corridor.
- (b) It is the intent of the City of Huber Heights Brandt Pike Revitalization Overlay District to improve the health safety and welfare of the citizens of Huber Heights through objectives which include, but are not limited to, the following objectives:

- (1) To establish parking standards with the specific intent of coordinating traffic between adjoining properties.
- (2) To reduce access points to improve traffic safety, circulation, and coordination.
- (3) To provide standards for screening of service and loading areas, HVAC equipment, and other areas determined to detract from the aesthetic qualities of the streetscape.
- (4) To regulate outdoor dining activities for the benefit of customers and pedestrians, while also preserving required parking and safe vehicular circulation.
- (5) To minimize the potential for increased traffic congestion by providing incentives that require shared access points, cross-access easements, shared parking areas, and quality public spaces.
- (6) To increase the number of pedestrian and vehicular connections between adjacent properties to provide complimentary and coordinated development of adjacent properties.
- (7) To provide regulating standards which require orderly, well-planned development and to ensure that the new buildings and additions enhance the surrounding streetscape, including incentives for burial of existing utilities within the right-of-way.
- (8) To use scale, building orientation and landscaping to establish community identity.
- (9) To effectively and efficiently regulate the establishment and maintenance of businesses requiring outdoor storage of vehicles, type and heights of signage, equipment or merchandise.
- (10) To establish a walkable streetscape by promoting a pedestrian orientation of streets and buildings and providing a safe and convenient interconnected sidewalk network.

1180.02 Applicability to underlying zoning districts.

- (a) The provisions of this chapter shall be applicable to all lands shown as being located within the boundaries of the "BP" Brandt Pike Revitalization Overlay District ("BP") on the Zoning Map and shall be supplemental to the regulations of the underlying zoning district.
- (b) Any and all development, redevelopment, improvements, or the like, including, but not limited to, signage, and any variance, modification, and/or conditional use request for property with the BP shall be subject to the procedures and provisions set forth in this Chapter 1180. Any changes to the underlying zoning of property within the BP shall not remove the property from the BP unless expressly specified in the rezoning approval.
- (c) The Planning Commission shall review the particular facts and circumstance of each proposed conditional use in terms of the requirements contained in this chapter and shall find by a preponderance of the evidence that applicant has either met or made a good faith attempt to meet each applicable provision.

1180.03 Permitted uses.

- (a) Uses permitted in the underlying zoning districts; and
- (b) Multi-family residential uses are permitted if incorporated into an overall mixed-use development.

1180.04 Requirements for conditional use application.

Any applicant desiring to improve property, submit a land development or perform an alteration to an existing building located in the Brandt Pike Revitalization Overlay District is required to apply for and obtain conditional use approval pursuant to the provisions of this chapter, and said application shall be governed by the standards and criteria set forth below. If a Special Use permit is required for the use under the Underlying zoning, the applicant may submit a single application for special use/conditional use.

Staff feels issuing a conditional use permit/approval for this type of development is confusing and unnecessary. Staff recommends incorporating the standards, where appropriate, in the overall basic development plan approval and subsequent detailed development plan approval. This section of the overlay district should be revisited in the future and revised for clarity and intent.

1180.05 Conditional use general property standards and criteria.

The Planning Commission shall review the particular facts and circumstance of each proposed conditional use in terms of the following requirements and shall find by a preponderance of the evidence that applicant has either met or made a good faith attempt to meet each of the following

- (a) Applicants shall be required to pursue, where physically feasible, cross-easement agreements with neighboring property owners for the purpose of creating a cohesive and efficient parking configuration and traffic circulation plan including pedestrian and vehicular connections.
- (b) Applicants shall be required to investigate the feasibility of and to reduce, to the extent possible, the number of existing curb cuts in order to improve traffic safety and circulation.
- (c) Appropriate fenced and/or landscaped screening shall be required around all HVAC equipment, service and loading areas, trash receptacles, and other areas deemed appropriate by the Planning Commission. A privacy fence, landscaped buffer and/or low shrubs shall provide screening along the side and rear property boundaries to residential zoning districts.
- (d) Applicants shall be required to investigate the feasibility of and, to the extent possible, consolidate two or more parcels, under separate ownership, prior to development, with the purpose of providing a more unified development.
- (e) The applicant shall appropriately landscape along the backside of the public sidewalk with low shrubs, ornamental walls and earth shaping or any combination thereof. In those instances where parking is located in front of the building, vehicular screening shall be provided between the street right-of-way and the building by low brick walls 24 to 36 inches in height from the curb elevation with a five-inch limestone cap or by landscaping of 100 percent opacity. The brick utilized in the wall shall match the brick used elsewhere in the corridor. Where it is determined by the Planning Commission that insufficient space exists for such landscaping, they may be located elsewhere on the lot, at locations determined acceptable by the Commission.
- (f) The applicant shall renovate existing building facades to provide a combination of masonry materials, such as stone, stucco, or brick and decorative elements around windows and doors, such as columns, pediments, and shutters, and new roof plan where flat roofs presently exist. All exterior walls of Commercial, Office, and Mixed-Use Buildings shall be 100 percent masonry materials as per City Code 1181.24(b)(1). All buildings in the Brandt Pike Revitalization Overlay District shall be architecturally finished on all sides utilizing four-sided architectural design so that there will be no apparent rear of any building where visible by surrounding roadways, as determined by the City. All buildings shall have a minimum of two distinct building materials from the approved list with secondary materials covering a minimum of ten percent of the total building façades. Window walls shall be considered windows by the City Code. All materials, colors, and architectural details used on the exterior of a building should be compatible with the building style, and with each other.

The applicant is proposing four-sided architecture with a mixture of stone, lap siding and shake-style siding. Windows are trimmed and highlighted with shutters.

- (g) The applicant shall bring the front facade wall and sidewalk into conformity with 1180.11 contained herein.

- (h) New developments shall be planned containing new streets and/or pedestrian ways such that no block within the development shall contain a block frontage greater than 600 feet in one direction and 400 feet in the opposite direction without an intervening street or pedestrian way.

One street frontage exceeds 600-feet, however since it abuts an existing development new cross streets are not feasible.

- (i) Shopping center out-parcels shall have an equivalent design treatment on all facades and shall be of a complimentary architecture to that of the shopping center.
- (j) Any right-of-way outside of the roadway shall be preserved for sidewalks and green area between the curb line and the front yard setback along the entire Brandt Pike, Chambersburg, Fishburg, Powell, Nebraska and Kitridge Road frontages.
- (k) Minimum green area: 20 percent, which may include any green area in the right-of-way as provided in Subsection J. If 20 percent green area is physically impossible, the applicant shall make a contribution in lieu of green area to the City of Huber Heights. Such contribution will be based on the assessed value of the property.

The applicant is proposing 40% open space.

- (l) A maximum of one 30-foot curb cut per street frontage shall be provided, unless additional curb cuts are approved by the City in order to accommodate existing or proposed circulation deemed desirable by the City, including installation of one-way movements limiting existing or proposed driveways to entrance or exit only. The applicant shall reduce the number and width of existing curb cuts when practicable.
- (M) A minimum of 250 feet must be provided between curb cuts and public street intersections. A minimum of 100 feet must be provided between curb cuts.

The development meets this standard.

1180.07 Outdoor lighting.

All outside lighting on the premises, including sign lighting, shall be arranged, designed, and shielded or directed so as to protect the abutting streets and adjoining property from the glare of lights, and lighting shall be so shielded that the source of the light shall not be visible from any point outside the premises. No flashing or intermittent or moving lights shall be permitted, either freestanding, attached to a facade, or as a part of an approved sign. This does not include digital changeable copy.

Lighting plans shall be provided during the detailed development plan stage.

1180.08 Lots; setbacks; parking.

The following dimensional requirements shall apply to all properties within the Brandt Pike Revitalization Overlay District:

- (a) Maximum building height: three stories, not to exceed 35 feet.

Please refer to my prior discussion on building height.

- (b) Front, side, and rear yard setbacks: The front, side, and rear yard setbacks shall be no less than ten feet, unless adjacent to an existing residential zoning district, in which case the minimum side and rear yard setbacks shall be 30 feet.

The development proposal meets this standard.

- (c) Lot coverage maximums shall be those of the underlying zoning district unless a mix of two or more uses is incorporated on site. In such case, all impervious surface areas, including building, parking, etc. shall not exceed more than 80 percent of the site for the entire development.

The development proposal meets this standard.

- (d) Parking setback. All parking shall be set back a minimum of ten feet from the ultimate right-of-way along all Brandt Pike and frontages. The parking setback along all collectors or residential streets may be zero feet from the ultimate right-of-way. A minimum of ten feet from the curb line shall be provided for the placement of sidewalks, landscaping and utilities.

The development proposal meets this standard.

- (e) Up to 25 percent of the required parking spaces may be replaced with landscaped area. This area is in addition to any other landscaping requirement.
- (f) Up to 25 percent of the required parking spaces for any development may be compact spaces reduced in total area, width or depth for designated compact vehicle parking. Each compact vehicle parking space shall not be less than nine feet in width and 18 feet in depth.
- (g) Parking Cap. Parking shall not exceed 110 percent of the minimum requirement. A fee shall be paid for each parking space added in excess in accordance with the fee schedule.

Based on these standards, the market-rate apartments meet the parking requirements.

- (h) Curbing. All parking and landscape areas shall be curbed with six-inch concrete except in cases where bioretention basins or similar storm water management methods are utilized. Extruded curb is prohibited.
- (i) Decorative, commercial-quality, bicycle racks, benches and trash receptacles shall be required for all retail and office developments unless specifically waived by the Planning Commission.
- (j) Dumpsters shall be screened on all sides by a minimum six-foot high brick or masonry wall with access via an opaque gate.

1180.09. Sign and graphic standards.

In addition to conformance with Chapter 1189 of the City of Huber Heights Planning & Zoning Code, all signs and graphics shall meet the following requirements:

- (a) Signs must positively influence the overall character and appearance of the streetscape and must be designed to complement the architecture of the building.
- (b) Franchise logos and identification signs shall be permitted only if they are appropriate in size and are integrated into the building façade and street character. This also includes patio umbrella graphics and signage.
- (c) Canopies designed as signs are prohibited.
- (d) Individual letters (either illuminated or nonilluminated) are considered preferable to sign cabinets.
- (e) Signs shall be illuminated only by the following means:
 - (1) By a white, steady, stationary light of reasonable intensity, directed solely at the sign and shielded or otherwise prevented from beaming directly onto adjacent properties or rights-of-way. Light fixtures shall be screened from view by site grading or evergreen shrubs. No exposed light sources (except in the case of a sign made of neon tubing) are permitted.

- (ii) By white interior light of reasonable intensity with primary and secondary images lit or silhouetted on an opaque background. The background must be opaque and preferably made of aluminum (as opposed to Plexiglas) with routed-out or push-through letters and graphics. No additional background lighting or illuminated borders or outlines shall be permitted.
- (f) Ground signs shall be set on grade or be placed on a low masonry base and to take on an architectural appearance compatible with the actual building and the streetscape. Maximum height of grounds signs is six feet from ground level in relation to the back of curb of the nearest street.
- (g) Wall signs are prohibited above the ground floor level or above a height of one inch below the second-floor window line, whichever is lower.

A sign package shall be provided during the detailed development phase.

1180.11 Pedestrian standards.

- (a) Sidewalks are required to connect the street frontage sidewalks to all front building entrances, parking areas, central open space and any other destination that generates pedestrian traffic.
- (b) Sidewalks shall connect to existing sidewalks on abutting tracks and other nearby pedestrian destination points and transit stops.
- (c) Striped crosswalks shall be installed at any major intersection or other location as determined by the Planning Commission.
- (d) Sidewalks shall be a minimum of four feet in width and separated from the curb line by a minimum of five feet of grass and landscaped area, which shall, in any event, comply with the design standards contained herein, unless specifically waived by the Planning Commission.
- (e) All sidewalks and pedestrian connections shall be located a minimum of five feet from any buildings to allow for landscaping, unless arcades or entryways are part of the facade.
- (f) Pedestrian circulation areas shall be provided and clearly defined by the use of sidewalks, walkways or textured or colored paving materials.

All sidewalks should be a minimum of five-feet per the subdivision requirements and to accommodate two people walking side-by-side comfortably.

1180.99 Construction or implementation; permit issuance, invalidation.

- (a) The Planning Commission may modify or waive specific requirements of this section as well as the requirements of Chapter 1185, Parking and Loading, if the Commission determines an improved development plan or better vehicular or pedestrian circulation will result.
- (b) Construction or implementation of the proposed conditional use shall comply with the plans submitted with the application except to the extent those plans are modified by the Planning Commission and shall also comply with all terms of the decision of the Commission.
- (c) The City shall issue a conditional use permit to the extent a conditional use has been permitted by the Commission. The breach of any condition, safeguard or requirement shall automatically invalidate the permit granted and shall constitute a violation of the City's Zoning Ordinance. The penalties for such violations are specified in Section 1125.99
- (d) A conditional use permit shall be deemed to authorize only one particular conditional use and such permit shall automatically expire if, for any reason, the conditional use shall cease for more than one continuous one year.
- (e) A conditional use permit shall be transferable, but only if and when the transferee signs a form provided by the City acknowledging that the transferee is bound by all terms and conditions of the prior approval and permit.

As stated before, the issuance of a conditional use permit for a permitted use is confusing and unnecessary. Staff recommends the Planning Commission waive the conditional use permit and incorporate the necessary standards in the basic development plan.

1181 General Provisions

1181.20 Building materials for dwellings.

- (b) *Dwellings Over One Story.* All first-floor exterior walls of dwellings over one story shall be constructed of brick or other approved masonry type of materials. Other exterior wall areas of dwellings over one story may be constructed of other code approved building materials; provided, however, no vinyl siding shall be permitted, unless permitted under subsection (c) hereof.

The applicant has submitted proposed elevations that that are consistent with this requirement.

Staff Analysis of Standards for approval

The Planning Commission shall review the application, prepared development plan and the facts presented at the hearing. The applicant shall have the burden of proof. No approval shall be given unless the Commission shall find by a preponderance of the evidence that such PUD on the proposed locations:

- (a) *Is consistent with official thoroughfare plan, comprehensive development plan and other applicable plans and policies;*

This development is consistent with the comprehensive plan, which suggests this area be mixed use, as well as the Brandt Pike Revitalization Plan.

- (b) *Could be substantially completed within the period of time specified in the schedule of development submitted by the developer;*

While no phasing plan was submitted with the application, each apartment community will be constructed as one phase.

- (c) *Is accessible from public roads that are adequate to carry the traffic that shall be imposed upon them by the proposed development. Further, the streets and driveways on the site of the proposed development shall be adequate to serve the residents or occupants of the proposed development;*

New roads will be constructed for this development linking it to the existing transportation network.

- (d) *Shall not impose an undue burden on public services such as utilities, fire and police protection, and schools;*

The site is served by adequate utilities.

- (e) Contains such proposed covenants, easements and other provisions relating to the proposed development standards as may reasonably be required for the public health, safety and welfare;*

Draft covenants were not included in the application, however the standards set by the Planning Commission during the basic and detailed development planning process will be incorporated into the covenants before any zoning permit is issued.

- (f) Shall be landscaped or otherwise improved and the location and arrangement of structures, parking areas, walks, lighting and appurtenant facilities shall be compatible with the existing intended uses, and any part of a PUD not used for structures, parking and loading areas, or accessways;*

The applicant is providing adequate screening between all uses.

- (g) Shall preserve natural features such as water courses, trees and rock outcrops, to the degree possible, so that they can enhance the overall design of the PUD;*

Some existing vegetation will remain, however there are no real natural features on this site.

- (h) Is designed to take advantage of the existing land contours in order to provide satisfactory road gradients and suitable building lots and to facilitate the provision of proposed services;*

The site plan takes advantage of the natural grade and existing contours to limit grading beyond the required storm water detention cells.

- (i) Shall place underground all electric and telephone facilities, streetlight wiring and other wiring conduits and similar facilities in any development which is primarily designed for or occupied by dwellings, unless waived by the Commission because of technical reasons;*

All utilities will be placed below ground.

- (j) Shall not create excessive additional requirements at public cost of public facilities and services and shall not be detrimental to the economic welfare of the community;*

This residential development should not create excessive additional requirements to the community.

- (k) Shall not involve uses, activities, processes, materials, equipment and conditions of operation that shall be detrimental to any persons, property or the general welfare by reason of excessive production of traffic, noise, smoke, fumes, glare or odors; and*

Only residential uses are contemplated for this site.

- (l) Rezoning of the land to the PUD District and approval of the development plan shall not adversely affect the public peace, health, morals, safety or welfare.*

No rezoning is necessary.

STAFF RECOMMENDATION

It is the staff's opinion the proposal meets the standards outlined in Section 1171.06. Staff recommends approval of the Basic Development Plan submitted on June 3, 2022 to construct approximately 184 market-rate apartments and 134 senior apartments within two residential communities. Staff recommends approval with the following conditions:

- 1) Sidewalks shall be required connecting the senior building and along the future roadway
- 2) All sidewalks shall be a minimum of 5' in width
- 3) Street trees be provided 40-foot on center
- 4) A sign package meeting code shall be submitted with the detailed development plans
- 5) A lighting plan shall be submitted with the detailed development plan
- 6) A landscaping plan shall be submitted with the detailed development plan
- 7) In lieu of mounding and screening along the new roadway, clustered landscaping areas shall be provided between the apartments and sidewalks.
- 8) The applicant will comply with all stormwater requirements, per the City Engineer;
- 9) The applicant will comply with all Fire Code requirements, per the Huber Heights Fire Department;

Planning Commission Action

Planning Commission may take the following actions with a motion:

- 1) Approve the Basic Development Plan with or without conditions;
- 2) Deny the Basic Development Plan (the Commission should state the specific reasons for denial); or
- 3) Table the application.

Planning Commission Decision Record

WHEREAS, on May 26, 2022, the applicant, Homestead Development, requested approval of a Basic Development Plan to construct a 135-unit senior community and a 192-unit market rate community on a combined 15.56 acres at 6209 Brandt Pike, further identified as Parcel Number P70 03912 0140 of the Montgomery County Auditor's Map (Case BDP 22-25), and;

WHEREAS, on June 14, 2022, the Planning Commission did meet and fully discuss the details of the request.

NOW, THEREFORE, BE IT RESOLVED that the Planning Commission hereby recommended approval of the request.

Ms. Thomas moved to approve the request by the applicant, Homestead Development, for approval of a Basic Development Plan to construct a 135-unit senior community and a 192-unit market rate community on a combined 15.56 acres at 6209 Brandt Pike (Case BDP 22-25), in accordance with the recommendation of Staff's Memorandum dated June 8, 2022, with the following conditions:

1. Sidewalks shall be required connecting the senior building and along the future roadway.
2. All sidewalks shall be a minimum of 5' in width.
3. Street trees be provided 40-foot on center.
4. A sign package meeting code shall be submitted with the detailed development plans.
5. A lighting plan shall be submitted with the detailed development plan.
6. A landscaping plan shall be submitted with the detailed development plan.
7. In lieu of mounding and screening along the new roadway, clustered landscaping areas shall be provided between the apartments and sidewalks.
8. The applicant will comply with all stormwater requirements, per the City Engineer.

BDP 22-25 – Decision Record

9. The applicant will comply will all Fire Code requirements, per the Huber Heights Fire Department.

Seconded by Mr. Jeffries. Roll call showed: YEAS: Ms. Opp, Ms. Vargo, Mr. Jeffries, Ms. Thomas, and Mr. Walton. NAYS: None. Motion to recommend approval carried 5-0.

Terry Walton, Chair
Planning Commission

Date

**Planning Commission
June 14, 2022, Meeting
City of Huber Heights**

- I. Chair Terry Walton called the meeting to order at approximately 6:00 p.m.
- II. Present at the meeting: Mr. Jeffries, Ms. Opp, Ms. Thomas, Ms. Vargo and Mr. Walton.

Members absent: None.

Staff Present: Aaron K. Sorrell, Interim City Planner, and Geri Hoskins, Planning & Zoning Administrative Secretary.

III. Opening Remarks by the Chairman and Commissioners

IV. Citizens Comments

None.

V. Swearing of Witnesses

Mr. Walton explained the proceedings of tonight's meeting and administered the sworn oath to all persons wishing to speak or give testimony regarding items on the agenda. All persons present responded in the affirmative.

VI. Pending Business

1. None

VII. New Business

1. **FINAL PLAT - The applicant, DEC Land Co. I LLC, is requesting approval of the final plat for 62 building lots in Carriage Trails – Section 2, Phase 5 (Case FP 22-23).**

Mr. Sorrell stated that the applicant requests approval of the final plat for section two, phase five of the Carriage Trails subdivision. This phase contains 62 lots on approximately 16.32 acres.

Conformance with Zoning Regulations

The detailed development plan was approved by the Planning Commission on August 10, 2021.

Staff Analysis

The applicant requests approval of the final plat for section two, phase five of the Carriage Trails subdivision. This final plat accurately reflects the DDP and simply releases drainage easements between two sections.

Fire: None

City Engineer: None

Recommendation

Staff recommends approval of the final plat submitted on May 2, 2022.

Action

Ms. Opp moved to approve the request by the applicant DEC Land Co. I LLC, for approval of a Final Plat for 62 building lots in Carriage Trails – Section 2, Phase 5 (Case FP 22-23) in accordance with the recommendation of Staff's Memorandum dated June 4, 2022, and the Planning Commission Decision Record attached thereto.

Seconded by Ms. Thomas. Roll call showed: YEAS: Ms. Vargo, Mr. Jeffries, Ms. Thomas, Ms. Opp, and Mr. Walton. NAYS: None. Motion to approve carried 5-0.

2. **FINAL PLAT - The applicant, GENERATIONS CONSTRUCTION, LLC, is requesting approval of the final plat for 14 building lots in Callamere Farms, Section 6 (FP 22-26).**

Mr. Sorrell stated that the applicant requests approval of the final plat for section six of the Callamere Farms subdivision. This phase contains 14 lots on approximately 8.03 acres.

Conformance with Zoning Regulations

The detailed development plan was approved by the Planning Commission on March 23, 2021.

Staff Analysis

The applicant requests approval of the final plat for section six of the Callamere Farms subdivision. This final plat accurately reflects the DDP previously approved by the Planning Commission.

Fire: None

City Engineer: None

Recommendation

Staff recommends approval of the final plat submitted on May 30, 2022.

Action

Mr. Jeffries moved to approve the request by the applicant Generations Construction, LLC, for approval of a Final Plat for 14 building lots in Callamere Farms, Section six (FP 22-26) in accordance with the recommendation of Staff's Memorandum dated June 4, 2022, and the Planning Commission Decision Record attached thereto.

Seconded by Ms. Vargo. Roll call showed: YEAS: Ms. Thomas, Ms. Opp, Ms. Vargo, Mr. Jeffries, and Mr. Walton. NAYS: None. Motion to approve carried 5-0.

3. **MINOR CHANGE - The applicant, MELISSA BARRETT, is requesting approval of A Minor Change to increase the wall sign area by approximately 60 SF at Kohl's/Sephora in the Northpark Center (MC 22-24).**

Mr. Sorrell stated that the applicant The applicant requests approval to add an additional copy to the existing wall sign, which will increase the size from approximately 192 SF to 252 SF. The request is to facilitate adding the "Sephora" brand to the existing Kohl's sign.

Conformance with Zoning Regulations

Northpark Center Sign Policy

The Northpark Center sign guidelines allow large tenants (over 60,000 SF) to have a maximum wall sign area of up to 250 SF on any one building face and a maximum of 500 SF total. The Kohl's tenant space is approximately 81,000 SF.

Current Application

The applicant seeks a minor change to add one 60 SF internally illuminated wall sign below the existing internally illuminated wall sign to highlight the two brands (Kohl's and Sephora). The total wall sign area will increase from 192 SF to 252SF. With this additional sign, the wall signs slightly exceed the maximum size by 2 SF, which is a negligible overage amount.

Staff Analysis

The applicant seeks a minor change to add one internally illuminated wall sign below an existing internally illuminated wall sign. Total wall sign area will exceed the maximum size by approximately 2 SF, or 1% of the total sign area. Staff feel this is a negligible overage amount and the new sign is visually proportional to the building frontage and existing sign.

Fire: None received

City Engineer: None Received

Recommendation

Staff recommend approval of the minor change to the sign package as submitted.

Action

Mr. Jeffries moved to approve the request by the applicant Melissa Barrett, for approval of a Minor Change to increase the wall sign area by approximately 60 SF at Kohl's/Sephora in the Northpark Center (Case MC 22-24) in accordance with the recommendation of Staff's Memorandum dated June 4, 2022, and the Planning Commission Decision Record attached thereto.

June 14, 2022

Seconded by Ms. Opp. Roll call showed: YEAS: Ms. Vargo, Mr. Jeffries, Ms. Thomas, Ms. Opp, and Mr. Walton. NAYS: None. Motion to approve carried 5-0.

4. BASIC DEVELOPMENT PLAN AND REZONING - The applicant, HARTMAN I, LLC, is requesting approval of a Basic Development Plan and Rezoning to Planned Office (PO) at property located at 7611 Old Troy Pike (RZ BDP 22-13).

Mr. Sorrell stated that the applicant requests approval of a basic development plan and rezoning from Planned Commercial to Planned Office to construct a 10,800 square foot healthcare facility for outpatient and emergency services. The applicant anticipates an initial volume of 30 – 40 patients per day, with a maximum of 50 – 60 a day once the facility is established.

The site plan for this development has evolved no less than four times since the application was originally submitted, and the City Council has requested the Planning Commission review the latest revision prior to their consideration of the rezoning and basic development plan approval request.

The Planning Commission originally heard this case on April 12, 2022. The original application had no direct access to Taylorsville Road. Prior to the Planning Commission meeting a revised plan was submitted which included a “Right-in / Right-out” on Taylorsville to facilitate site access. The access aligned with a large sewer easement on the eastern side of the site. There was significant discussion among the Planning Commission members regarding this access point and its close proximity to the bank driveway and the Old Troy Pike intersection. Ultimately, the Commission recommended approval of the rezoning and basic development plan with the access point on the eastern side.

Based on the location and depth of the sewer line, and a desire to have full turn access from Taylorsville into the site, the applicant revised the site plan and moved the building slightly west and relocated the access point to the west side of the site. Staff received the revised site plan on April 28, 2022, prior to the May 3rd City Council Work Session.

During the work session there was considerable discussion and concern expressed about adding the curb cut along Taylorsville Road. At the City Council meeting, there was additional concerns expressed about the curb cut access along Taylorsville Road.

The applicant has worked with Rural King to obtain an access agreement along the Taylorsville frontage, which enabled the elimination of the curb cut along Taylorsville Road. Subsequently, the applicant has submitted a revised site plan that utilizes the existing Rural King access point along Taylorsville. The site plan also moves the identification sign to the western side of the site.

City Council has requested the Planning Commission review the revised site plan and make a recommendation prior to Council moving forward with the rezoning legislation.

Staff Analysis

This site plan revision goes a long way to addressing the Taylorsville Road access concerns of the Planning Commission and City Council. The revised site plan conforms to the PO district regulations including parking and buffering. The revised plan also allows the possibility of aligning driveways along Taylorsville at some future point when the Rural King property is redeveloped or improved.

Conformance with Zoning Regulations:

1173 (PO) Planned Office District

The proposed use is principally permitted in the PO district.

The required 15-foot perimeter yard is provided in the revised site plan.

Chapter 1181 General Provisions

The proposal meets the requirements of Chapter 1181, with the exception of the following items are not illustrated on the Basic Development Plan:

- Street trees shall be placed every 40-feet along the public street.
- No exterior lighting plan was submitted. Unless otherwise directed by the Planning Commission, parking light fixtures shall not exceed 25 feet in height.
- Mechanical, waste, and service screening is not illustrated with great detail, but shall comply with the zoning code.

Chapter 1182 Landscaping and Screening Standards

The Basic Development Plan indicates potential locations for landscape islands and trees within the parking areas. Additional detail shall be provided during the detailed development plan phase.

Chapter 1185 Parking and Loading

The proposal generally meets the requirements of Chapter 1185. The applicant is illustrating areas for parking island landscaping. Based on the interior programming, 45 spaces required, and 50 spaces are illustrated. The applicant is working with Rural King on the exact language to allow access through the Rural King parking area.

Chapter 1189 Signs

The applicant is requesting a mixture of signage including one ground mounted sign, three corporate wall signs, three "Emergency" wall signs and one "Ambulance" canopy sign.

The original site plan had the ground mounted sign located on the eastern edge and the applicant requested an 8-foot tall with a sign area of 80 square feet. The height was to account for the grade change between the site and 5/3rd bank.

The code suggests a height limit of 6-feet and not exceed 75 square feet in sign area. The ground sign has been relocated to the western edge of the site, and the grade change should no longer be a factor.

The two "Emergency" wall signs are 75 square feet each, and the three corporate wall signs are 50 square feet each, totaling 300 square feet. The code suggests single wall signs shall not exceed 75 square feet each, and a cumulative total of no more than 150 square feet. If the commission considers the "emergency" signs to be exempt, the wall signs are compliant.

The "Ambulance" canopy sign is 35 square feet and mounted above the canopy. The code suggests canopy signs are only permitted along street frontage and may not project above the canopy. While not along a street frontage, the canopy covers the ambulance entrance and a variance from the code requirements seems reasonable.

Recommendation

Staff feels the standards of approval outlined in 1171.06 can be met and therefore staff recommends approval of the rezoning from Planned Commercial to Planned Office and approval of the basic development plan with the following conditions:

- Street trees shall be placed every 40-feet along Taylorsville Road.
- The applicant shall comply with Chapter 1181.18 Screening of Service Structures.
- The applicant shall comply with Chapter 1181.21 Lighting Standards.
- The applicant shall comply with Chapter 1182 Landscaping and Screening.
- Wall and canopy signs shall be similar to those submitted in the sign package submitted to the Planning Commission on April 12, 2022.
- Ground signs shall not exceed 6-feet in height.
- Applicant shall comply will all fire code requirements.

Discussion on the rezoning.

Action

Ms. Thomas moved to approve the request by the applicant Hartman I, LLC, for approval of a Basic Development Plan and Rezoning to Planned Office (PO) for property located at 7611 Old Troy Pike (RZ BDP 22-13) in accordance with the recommendation of Staff's Memorandum dated June 4, 2022, and the Planning Commission Decision Record attached thereto.

Seconded by Mr. Jeffries. Roll call showed: YEAS: Mr. Jeffries, Ms. Thomas, and Mr. Walton. NAYS: Ms. Opp and Ms. Vargo. Motion to approve carried 3-2.

5. BASIC DEVELOPMENT PLAN AND REZONING - The applicant, HOMESTEAD DEVELOPMENT, is requesting approval of a Basic Development Plan to construct 135-unit senior community and a 192-unit market rate community on a combined 15.56 acres. Property located at 6209 Brandt Pike (BDP 22-25).

Mr. Sorrell stated that this project grew out from the Brandt Pike Redevelopment Plan (2017), which identified a need and demand for senior housing and market-rate multi-family housing along and near the Brandt Pike corridor. The City subsequently purchased the shopping center to facilitate redevelopment. New developments within this site include: Dayton Metro Library Huber Heights Branch, Dogtown, and the shopping center will be refaced with a brick / stone façade. TIF proceeds from the proposed apartment developments, as well as future developments may fund the façade and public infrastructure upgrades.

The applicant is requesting basic development plan approval for a 184-unit market-rate apartment community and a 135-unit senior apartment community. While this application covers approximately 15.56 acres, the overall area zoned PM exceeds 20 acres.

The area zoned PM has a mix of uses including retail, commercial, public use (library) and planned residential.

All uses being considered are compatible with the neighboring properties.

Extensive natural vegetation exists that will buffer and screen the proposed development and the existing homes to the west.

The overall campus development is focused around a wet detention area and has large areas of open space. The combined proposed residential development sites are approximately 40% open space.

The parking areas are arranged for the convenience of the residents but are broken up with landscape islands and covered parking areas.

Sidewalks are indicated along the future road frontage of non-senior multi-family building. Staff recommends sidewalks also be provided for the senior facility residents.

No sign details were provided for this application but will be submitted during the detailed development phase.

While no height maximum height restriction exists in the PM district, the Brandt Pike Overlay District has a maximum height of three stories or 35 feet. The proposed non-senior apartments have both two- and three-story buildings. The two-story buildings are 34 feet to the roof peak and the three-story buildings are 44 feet to the roof peak. The applicant is proposing the market-rate apartments will have mixture of two- and three-story buildings along the west side of the site, which is closest to the existing single-family neighborhood. This arrangement will breakup the building massing along the western edge and the buildings are sited approximately 150-feet from the back of the single-family homes.

The three-story senior buildings will also be at least 150-feet from the back of the single-family homes. Additionally, the building is oriented in such a way that only the endcaps, and not the full building length, are facing the single-family homes.

Staff feels both the market rate site plan and senior building site plan provides a significant visual buffer and a nine (9) foot variance from the maximum height is acceptable. A landscaping plan has not been submitted at this time. Staff

June 14, 2022

recommends a mixture of street trees, and clustered plantings along the eastern edge of the market-rate and senior apartments. Staff feels a six-foot high earthen mound is inappropriate for this site and will interfere with pedestrian access from the apartments to the sidewalk network.

The applicant is proposing a five-foot earthen mound and evergreen plantings along the west edge to screen the development from the existing single-family homes.

Areas for parking landscaping are illustrated in the basic development plan. The applicant shall submit additional details during the detailed development phase.

The zoning code requires two-space per multi-family unit. In the non-senior community, the applicant is proposing 357 parking spaces for 184 units, or 1.94 spaces per unit. Of the 184 units, 84 are one-bedroom apartments which are less likely to have two vehicles. Additionally, most communities have begun reducing parking minimums of non-senior multi-family apartments to approximately 1.5 spaces / unit. Staff feels the amount of parking proposed for the non-senior community is adequate.

The applicant is proposing 134 spaces for 135 units, or .99 spaces per unit. Most senior living facilities have a 1:1 parking ratio because the majority of residents either live alone or only have one vehicle in the household. Staff feels the amount of parking provided is acceptable at this time. There is room to provide additional parking in the front of the building if management determines it's necessary in the future. However, at this point in time, staff does not think sacrificing greenspace for parking is necessary.

Staff feels issuing a conditional use permit/approval for this type of development is confusing and unnecessary. Staff recommends incorporating the standards, where appropriate, in the overall basic development plan approval and subsequent detailed development plan approval. This section of the overlay district should be revisited in the future and revised for clarity and intent.

STAFF RECOMMENDATION

It is the staff's opinion the proposal meets the standards outlined in Section 1171.06. Staff recommends approval of the Basic Development Plan submitted on June 3, 2022 to construct approximately 184 market-rate apartments and 134 senior apartments within two residential communities. Staff recommends approval with the following conditions:

- 1) Sidewalks shall be required connecting the senior building and along the future roadway
- 2) All sidewalks shall be a minimum of 5' in width
- 3) Street trees be provided 40-foot on center
- 4) A sign package meeting code shall be submitted with the detailed development plans
- 5) A lighting plan shall be submitted with the detailed development plan
- 6) A landscaping plan shall be submitted with the detailed development plan
- 7) In lieu of mounding and screening along the new roadway, clustered landscaping areas shall be provided between the apartments and sidewalks.
- 8) The applicant will comply with all stormwater requirements, per the City Engineer;

Planning Commission Meeting

June 14, 2022

- 9) The applicant will comply with all Fire Code requirements, per the Huber Heights Fire Department.

Numerous neighbors were present and asked questions about the development.

Action

Ms. Thomas moved to approve the request by the applicant Homestead Development, for approval of a Basic Development Plan to construct 135-unit senior community and a 192-unit market rate community on a combined 15.56 acres. Property located at 6209 Brandt Pike (BDP 22-25) in accordance with the recommendation of Staff's Memorandum dated June 8, 2022, and the Planning Commission Decision Record attached thereto.

Seconded by Mr. Jeffries. Roll call showed: YEAS: Ms. Opp, Ms. Vargo, Mr. Jeffries, Ms. Thomas, and Mr. Walton. NAYS: None. Motion to approve carried 5-0.

CITY OF HUBER HEIGHTS
STATE OF OHIO

ORDINANCE NO. 2022-O-

TO APPROVE A BASIC DEVELOPMENT PLAN FOR THE PROPERTY LOCATED AT 6209 BRANDT PIKE AND FURTHER IDENTIFIED AS PARCEL NUMBER P70 03912 0140 ON THE MONTGOMERY COUNTY AUDITOR'S MAP AND ACCEPTING THE RECOMMENDATION OF THE PLANNING COMMISSION (CASE BDP 22-25).

WHEREAS, the citizens of Huber Heights require the efficient and orderly planning of land uses within the City; and

WHEREAS, the City Planning Commission has reviewed Case BDP 22-25 and on June 14, 2022, recommended approval by a vote of 5-0 of the Basic Development Plan; and

WHEREAS, the property subject to this legislation is one of several key properties identified as essential to the redevelopment of the Brandt Pike corridor as outlined in the City's 2017 Brandt Pike Corridor Revitalization Study; and

WHEREAS, the committed investment of public assets such as a library, senior center, and public park in close proximity to 6209 Brandt Pike compels the City to further redevelopment efforts involving other properties near parcel number P70 03912 0140; and

WHEREAS, the City Council has considered the totality of this issue.

NOW, THEREFORE, BE IT ORDAINED by the City Council of Huber Heights, Ohio that:

Section 1. The application requesting approval of a Basic Development Plan (Case BDP 22-25) is hereby approved in accordance with the Planning Commission's recommendation and following conditions:

1. Sidewalks shall be required connecting the senior building and along the future roadway.
2. All sidewalks shall be a minimum of 5 feet in width.
3. Street trees shall be provided 40-foot on center.
4. A sign package meeting code shall be submitted with the Detailed Development Plan.
5. A lighting plan shall be submitted with the Detailed Development Plan.
6. A landscaping plan shall be submitted with the Detailed Development Plan.
7. In lieu of mounding and screening along the new roadway, clustered landscaping areas shall be provided between the apartments and sidewalks.
8. The applicant will comply with all stormwater requirements, per the City Engineer.
9. The applicant will comply will all Fire Code requirements, per the Huber Heights Fire Division.
10. Prior to the issuance of a zoning permit, the applicant shall enter into a PUD Agreement with the City for the purpose, but not the sole purpose, of establishing the development obligations of the applicant and requiring the submittal of a performance bond, cash bond, or letter of credit to insure the installation of landscaping as approved. The bond or letter of credit shall be in an amount equal to the applicant's estimate of the cost of installation as approved by the Planning Department and shall remain in effect until such time as the landscaping has been completed as determined by the Planning Department. Upon completion of the installation of landscaping as required by the approved landscape plan, the applicant may request release of the performance bond or letter of credit. Following an inspection by the Planning Department and upon determination by the department that the landscaping has been completed in accordance with the approved landscaping plan, 80% of the performance bond or letter of credit may be released. However, the performance bond or letter of credit will not be released until a maintenance bond lasting three growing seasons, or letter of credit equal to 20% of the initial performance bond or letter of credit to ensure maintenance of the landscaping, is submitted to and accepted by the Planning Department. The term of the maintenance bond shall be three growing seasons.

Section 2. The City Manager is hereby authorized and directed to contact the owners of the following parcels for the express purpose of furthering the development of new private-public partnerships intended to support the redevelopment of said parcels in the spirit of the 2017 Brandt Pike Corridor Revitalization Study:

P70 02002 0001	P70 02015 0001	P70 02015 0002
P70 02015 0004	P70 02015 0005	P70 02015 0008
	P70 03912 0082	

Section 3. It is hereby found and determined that all formal actions of this Council concerning and relating to the passage of this Ordinance were adopted in an open meeting of this Council, and that all deliberations of this Council and of any of its Committees that resulted in such formal action were in meetings open to the public and in compliance with all legal requirements including Section 121.22 of the Ohio Revised Code.

Section 4. This Ordinance shall go into effect upon its passage as provided by law and the Charter of the City of Huber Heights.

Passed by Council on the _____ day of _____, 2022;
_____ Yeas; _____ Nays.

Cover Sheet

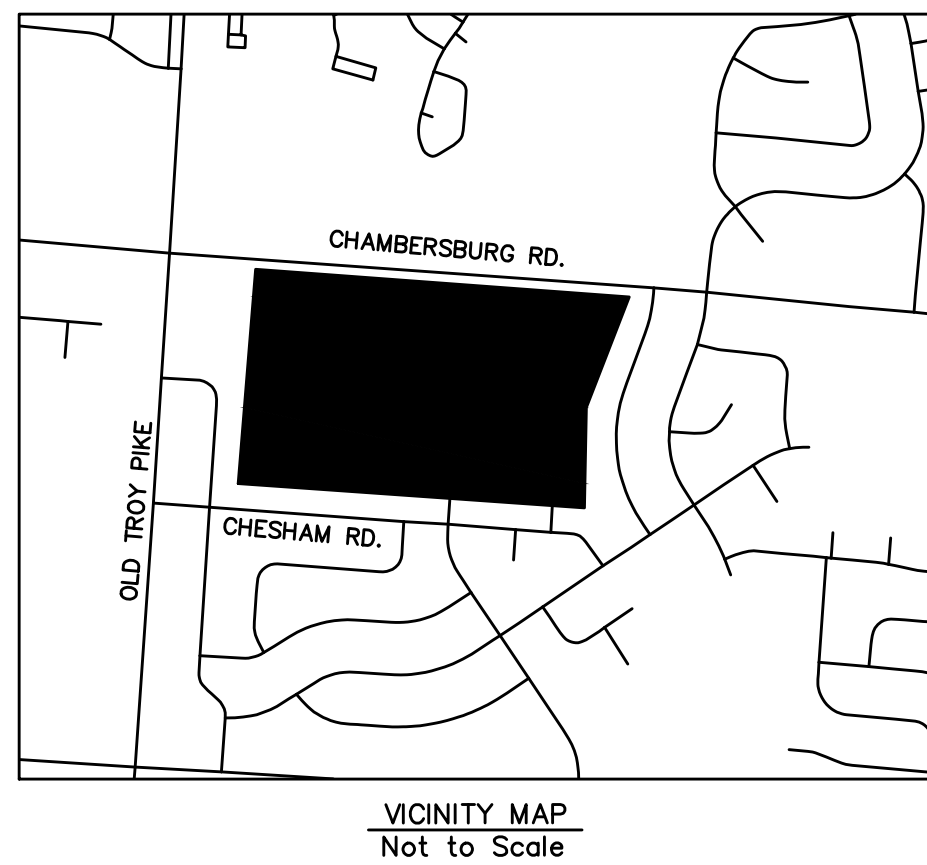

Sheet No.
1

GENERAL CONSTRUCTION NOTES

- All work shall strictly comply with all Local, State, and Federal regulations and requirements.
- Prior to the start of construction, the Contractor shall be responsible for ensuring that all required permits and approvals have been obtained. No construction or fabrication shall begin until the Contractor has received and reviewed all plans and other documents approved by all the permitting authorities. The Contractor shall post all bonds, pay all fees, and provide proof of insurance as required to obtain permits.
- All sediment and erosion control measures, as shown on Sheet C-3.0, shall be in place prior to the start of any demolition, clearing and grubbing, or construction operations. Erosion control measures shall conform to all Local, State, and Federal regulations and requirements.
- North arrow, existing topography, and bearings based on field survey of the subject property prepared by Burkhardt Engineering dated January, 2020.
- Information on existing utilities has been compiled from available information including utility company and municipal records and field survey and is not guaranteed correct and complete. Utilities are shown to alert the Contractor to their presence and the Contractor is solely responsible for determining actual locations and elevations of all utilities. Prior to demolition or construction, the Contractor shall contact "811", 72 hours before commencement of work and verify all utility locations.
- The Contractor shall provide and maintain traffic control devices for protection of vehicles and pedestrians consisting of drums, barriers, signs, lights, fences and uniformed traffic officers as required by Local and State Authorities.
- The Contractor shall protect all iron pins, monuments and property corners during construction. Any Contractor disturbed pins, monuments, etc. shall be reset by a Professional Land Surveyor (Registered with the State) at the expense of the Contractor.
- Any disturbance incurred to any adjacent properties or public right-of-way during demolition and construction shall be restored to its original condition or better, in accordance with and to the satisfaction of Local and State Authorities.
- The Contractor shall abide by all OSHA, Federal, State, and Local regulations when operating cranes, booms, hoists, etc. in close proximity to overhead electric lines. If Contractor must operate equipment close to electrical lines, contact the local Utility Provider to make arrangements for proper safeguards.
- All material schedules shown on the plans are for general information only. The Contractor shall prepare their material schedules based upon their plan review. All schedules shall be verified in the field by the Contractor prior to ordering materials or performing work.
- All work within public rights-of-way shall be in accordance with Local, State, and/or Federal requirements and specifications.

BM#1 Description: Existing Catch Basin
Grate Elevation: 865.84

GENERAL DEMOLITION NOTES

- Within the subject property, the intent is to have a clean, clear site, free of all existing items noted to be removed in order to allow for the construction of the new project.
- All items noted to be removed shall be done as part of the contract for general construction.
- Remove and dispose of any materials requiring removal from the work area in an approved off-site landfill.
- The Contractor shall secure all permits for demolition and disposal of demolition material to be removed from the site. The Contractor shall post all bonds and pay all permit fees as required.
- The Contractor shall cut and plug, or arrange for the appropriate utility company to cut and plug service piping at the property line or at the main (as required). All services may not be shown on this plan.
- For all items noted to be removed, remove not only above ground elements, but all underground elements as well, including, but not necessarily limited to: foundations, slabs, gravel fills, tree roots, pipes, wires, unsuitable materials, etc.
- The Contractor shall sawcut existing pavement to provide a clean edge between existing pavement to remain and existing pavement to be removed.
- Limits of removal shown on demolition plan are approximate only. Actual quantities may vary due to construction activities. Contractor is responsible for all demolition, removal and restoration work necessary to allow for the construction of the new project.
- Backfill excavations resulting from demolition work to meet the requirements for fill outlined in the Geotechnical / Soils Report.

DEMOLITION KEYNOTES

- 01 REMOVE TOPSOIL, GRASS, TREES, SHRUBS, AND ANY OTHER UNSUITABLE MATERIALS IN PROJECT AREA AND PREPARE SITE.

X REMOVE TREE/BUSH

- 02 REMOVE EXISTING CONCRETE PAVEMENT AND SAWCUT PAVEMENT FOR CLEAN EDGE

--- SAWCUT LINE

- 03 REMOVE EXISTING CONCRETE SIDEWALK
- 04 REMOVE EXISTING CURB
- 05 REMOVE EXISTING GATE
- 06 REMOVE EXISTING LIGHT POLE. RETURN TO OWNER.
- 07 REMOVE EXISTING SIGN
- 08 EXISTING ELECTRIC LINE TO BE REMOVED PER OWNER REQUIREMENTS
- 09 EXISTING FIBER OPTIC LINE TO BE REROUTED OUTSIDE OF PROPOSED BUILDING FOOTPRINT.
- 10 EXISTING SANITARY LINE TO BE REMOVED. VERIFY WITH OWNER THAT LINE IS NO LONGER IN USE.
- 11 EXISTING SANITARY LINE UNDER PROPOSED BUILDING TO BE REMOVED AND REPLACED PER MEP PLANS.
- 12 EXISTING PAVEMENT AREA TO BE RESTRIPTED.
- 13 REMOVE AND RE-ROUTE EXISTING WATER LINES. SEE UTILITY PLAN.

STABILIZE ALL AREAS AS NECESSARY

GENERAL GRADING, EARTHWORK & DRAINAGE NOTES

- All spot elevations indicated in pavement areas are at bottom face of curb and/or finished pavement grade unless noted otherwise. All spot elevations indicated in grass or landscape areas are finished grade unless noted otherwise.
- The Contractor shall be responsible for the removal and disposal of all vegetation and organic materials from the site that results from clearing & grubbing activities.
- The Contractor shall be responsible for stripping and removal of all excess topsoil from the site. All topsoil that cannot be used on site shall be removed from the site at the Contractor's expense. The Contractor may dispose of excess topsoil by burying topsoil in landscape areas only at the direction of the Owner or the Owner's Representative.
- The Contractor will be responsible for all safety requirements and for the protection of all existing and proposed utilities or structures during earthwork procedures.
- The Contractor shall be responsible for the import of structural fill materials if suitable material is not available on site. The location and testing of suitable material shall be the Contractor's responsibility. The Contractor shall be responsible for the export and disposal of all excess or unsuitable materials.
- The Contractor shall provide construction dewatering as necessary to complete construction as outlined in plans.
- The Contractor shall exercise extreme care in establishing all grades and slopes in pavement areas, ramps and sidewalks in the vicinity of handicap parking and access areas and shall comply with Federal, State, and Local Codes.
- In areas where sheet drainage flows from grass or landscape areas onto paved areas, the finished grade in grass or landscape areas shall be 1/2 inch above the top of curb or above the pavement in areas without curb. In areas where sheet drainage flows from pavement to grass or landscaped areas, the finished grade in grass or landscape areas shall be 1/2 inch below the pavement.
- The Contractor shall provide positive drainage in all areas and away from all buildings.
- All pavement shall be laid on a straight, even, and uniform grade with a minimum of 1:100 (1.0%) slope toward the collection points unless otherwise specified on plans. Cut or fill slopes in unpaved areas shall not exceed 3:1 (33.3%) maximum grade unless otherwise noted on plans.
- ADA accessible areas shall not exceed the following slopes:
 - Ramps - 1:12 (8.3%) max.
 - Routes - 1:20 (5.0%) max.
 - Parking - 1:50 (2.0%) max.
 - Cross Slopes - 1:50 (2.0%) max.
- The Contractor shall adjust tops/lids/grates of all existing and proposed cleanouts, manholes, inlets, valves, etc. to match final grade.
- Following grading of subsoil to subgrade elevations, the Contractor shall provide 4" of topsoil (minimum) in all disturbed areas which are not to be paved. Final grades should be smoothly finished to surrounding areas and ensure positive drainage. Stockpiled topsoil shall be screened prior to respreading and should be free of subsoil, debris, and stones.
- The Contractor shall be responsible for determining exact quantities of cut and/or fill for estimating and construction and should alert the Engineer of any excessive cut and/or fill, especially if additional cut and/or fill will be required due to poor existing soil conditions discovered during earthwork operations.
- Refer to the Architectural and Structural Plans for information regarding any perimeter foundation drains.
- The Contractor shall obtain a copy of the Geotechnical / Soils Report and become thoroughly familiar with site and subgrade information and fully implement recommendations given therein.
- Proposed spot elevations are provided in a truncated form to save space, add 800' to each spot elevation to convert the elevation to NAVD88 datum.
- Refer to the Landscape Plans for finish material specifications (topsoil, seed, sod, mulch, etc.) in all landscape and open space areas.

**SEE SHEET C-5.0 FOR GENERAL STORMWATER
POLLUTION PREVENTION NOTES**

**SOIL EROSION CONTROL SEQUENCE OF
CONSTRUCTION**

- Stone tracking pad atop geotextile liner.
- Install silt fence and protection fencing.
- Initial clearing, grubbing, and demolition.
- Strip and stockpile top soil.
- Rough grade and balance site.
- Install underground utilities (i.e. Sanitary, Storm & Water)
- Place inlet filters on all storm inlets.
- Install franchise utilities (i.e. Gas, Electric, Telephone & Cable TV).
- Final grade site.
- Install pavement, curb, and other hardscape structures/surfaces.
- Stabilize ditches, swales, common areas and slopes.
- Establish permanent vegetation for all disturbed areas.
- Erosion and sediment control devices to be removed after inspection approval from the city that permanent vegetation is sufficient and site is adequately stabilized.
- Clean out storm sewer system and disturbed areas upon completion.

SOIL EROSION CONTROL MAINTENANCE

- Inlet protection devices and barriers shall be repaired or replaced if they show signs of undermining or deterioration.
- All seeded areas shall be checked regularly to see that a good stand is maintained. Areas should be fertilized, watered, and reseeded as necessary.
- Silt fences shall be repaired to their original conditions if damaged. Sediment shall be removed from the silt fences when it reaches one-half the height of the silt fence.
- The construction entrance shall be maintained in a condition which will prevent tracking or flow of mud onto public rights-of-way.
- Sediment from the detention area shall be removed as necessary to maintain proper functionality.

SOIL EROSION CONTROL NOTES

All stormwater inlets shall be protected with Geotextile Inlet Protection or Inlet Filters (Dandy Products, Flexstorm, or equivalent).

NOTES

- STORM SEWER NOTES:

All storm sewer shall be reinforced concrete pipe (RCP, ASTM C76 - Class III, minimum) or high-density polyethylene pipe (ADS N-12 or equivalent), unless otherwise noted on plans. All pipe shall be installed according to Local, State, and manufacturer's specifications.

Contractor to provide downspout collection system to connect building downspouts / roof drains to storm sewer system. See architectural/plumbing plans for downspout locations and connection details.

Downspout collection pipe (DCP) may be HDPE (ADS N-12 or equivalent) or Schedule 40 PVC pipe. All downspout collector pipes to be at 2.00% minimum slope. All pipe shall be installed according to Local, State, and manufacturer's specifications. Provide cleanouts at all bends, angles, and junctions. All cleanouts in pavement areas shall be installed with traffic bearing lids and concrete collars, per detail / Sheet C-5.0.

Storm sewer connection, permit and construction to be coordinated with City of Hube Heights.

ELECTRIC NOTES:

Coordinate electric service lines, transformer, meter, and connections with electrical plans and local utility provider. Contractor shall verify both location and availability of service prior to the start of construction.

Coordinate site lighting, signage wiring, conduit locations, connections, etc. with electrical plans. Notify Engineers of any potential conflicts.

TELECOM NOTES:

Coordinate telecommunication service lines and connections with electrical plans and local utility provider. Contractor shall verify both location and availability of service prior to the start of construction.

SANITARY SEWER NOTES:

All sanitary sewer pipe shall be P.V.C. SDR-26 with joints conforming to ASTM 3212. All sanitary lines shall be installed in accordance with the manufacturer's recommended procedures. 6" lines shall maintain a minimum slope of 1.00%.

WATER NOTES:

Water lines shall be per City of Huber Heights & Montgomery County requirements, installed per manufacturer's recommended procedures. >2" waterlines to be Class 52 Ductile Iron. 2" and smaller service lines to be K Copper with Ford Meter Valves and a curb stop valve in a box in front of meter pit. Tapping Sleeve to be Stainless Steel or Ductile Iron. Main line valves to be Mueller. Lines shall be installed with a minimum cover of 48" or below frost line, whichever is greater.

Water service connection, meter, permit and construction to be coordinated with City of Huber Heights.

Huber Heights, OH 45424

GENERAL STORMWATER POLLUTION PREVENTION NOTES

- All erosion and sediment control practices must conform to the standards and specifications set forth by the Local, State, and Federal Authorities.
- Construction activities shall be scheduled such that a minimum area of the site is disturbed at a time. Construction operation shall be scheduled and performed so that preventative soil erosion control measures are in place prior to excavation in critical areas and temporary stabilization measures are in place immediately following backfilling operations. Contractor shall reduce effects of storm water by using and/or maintaining grassed swales, infiltration structures, or water diversions.
- Special precautions will be taken in the use of construction equipment to prevent situations that promote erosion.
- Cleanup will be done in a manner to ensure that erosion control measures are not disturbed.
- The soil erosion controls are to be inspected once a week and within 24 hours of a 0.25 inch or greater rain event. A written log of these inspections and improvements to controls shall be kept on site. The logs shall include the date of inspection, name of the inspector, weather conditions, actions taken to correct any problems and the date corrective actions were taken.
- Temporary soil stabilization shall occur within 7 days after rough grading if the area will remain idle longer than 21 days. Any disturbed area that is not going to be worked for 21 days or more must be seeded and mulched.
- Trenches for underground utility lines and pipes shall be temporarily stabilized within 7 days if they are to remain inactive for 21 days. Trench dewatering devices shall discharge in a manner that filters soil-laden water before discharging it to a receiving drainage ditch or pond. If seeding, mulching or other erosion and sediment control measures were previously installed, these protective measures shall be reinstalled. Pipelines with joints that allow a manufactured length of pipe to be placed in the trench with the pipe joint assembled/made in the trench require an open pipeline trench that is only slightly longer than the length of pipe being installed. The total length of excavated trench open at any time should not be greater than the total length of pipeline/utility that can be placed in the trench and backfilled in one working day. No more than 50 linear feet of open trench should exist when pipeline/utility line installation ceases at the end of the work day.
- Soil stockpiles shall be stabilized or protected to prevent soil loss.
- All disturbed areas shall be permanently stabilized within 7 days of final grading. Further, soil erosion control measures shall be maintained until permanent stabilization is complete, at which time temporary measures will be removed. Permanent vegetation is a ground cover dense enough to cover 80% of the soil surface and mature enough to survive winter weather conditions.
- Silt fence to be 2' minimum from property lines in areas where work is near adjacent properties.
- The Contractor shall establish a permanent on-site benchmark prior to clearing, grubbing and/or demolition.
- Haul Routes - The Contractor shall be responsible for the cleanup of any mud, dirt, or debris deposited on haul roads as a result of his operations. Soil shall be removed from roads and paved surfaces at the end of each day in such a manner that does not create off-site sedimentation in order to ensure safety and abate off-site soil loss. Collected sediments shall be placed in a stable location on site or taken off-site to a stable location. Contractor shall use State Routes (and shortest distance non-state routes) for project haul route.
- No solid or liquid waste shall be discharged into storm water runoff.
- Disposal of solid, sanitary and toxic waste - Solid, sanitary and toxic waste must be disposed of in a proper manner in accordance with local, state and federal regulations. It is prohibited to burn, bury or pour out onto ground or into storm sewer any solvents, paint, stains, gasoline, diesel fuel, used motor oil, hydraulic fluid, antifreeze, cement curing compounds and other such toxic or hazardous waste.
- Wash out of cement trucks should occur in the designated area where the washing can collect and be disposed of properly when it hardens.
- If a concrete washout area, and/or a stockpile area are needed, a delineated area for each must be provided and maintained for them. Areas can be located in an alternate location than that shown on the plans if necessary due to construction operations and other field considerations.
- No fuel storage is permitted on-site.
- All disturbed areas shall be cleared of construction sediment upon completion of construction.
- The General Contractor shall be responsible for submitting a Notice of Intent (NOI) and Notice of Termination (NOT) as required by the OEPA.

1 ELECTRICAL DEMO SITE PLAN

SCALE: 1/16" = 1'-0"

2 ELECTRICAL NEW WORK SITE PLAN

SCALE: 1/16" = 1'-0"

GENERAL NOTES

- THIS EXISTING SPACE IN WAYNE HIGH SCHOOL WILL BE REMODELED UNDER THIS CONTRACT AND A NEW ADDITION WILL BE ADDED ONTO BUILDING. REFER TO ARCHITECTURAL DRAWINGS FOR AREAS WHERE DEMO AND NEW WORK WILL OCCUR. E.C. SHALL REMOVE LIGHTING, ELECTRICAL DEVICES, SYSTEM COMPONENTS AND OTHER EQUIPMENT ASSOCIATED WITH DIVISION 26.27 AND 28 TO ACCOMMODATE ALL NEW CONSTRUCTION AND REMODELING IN THESE AREAS. ONLY EXISTING RECESSED DEVICES, DEVICES SERVING EXISTING EQUIPMENT TO REMAIN, AND DEVICES INDICATED AS EXISTING SHALL BE MAINTAINED ACTIVE (UNLESS INDICATED OTHERWISE).
- PROVIDE EXTERIOR MOUNTED WEATHERPROOF FIRE ALARM AUDIOVISUAL DEVICE ON THE OUTSIDE OF THE BUILDING AT LOCATIONS DIRECTED BY THE LOCAL FIRE DEPARTMENT, OWNER, AND ARCHITECT. REFER TO SPEC SECTION 28.31.00.
- WHERE CONDUITS ARE EXPOSED THEY SHALL BE MOUNTED TIGHT TO THE CEILING STRUCTURE IN CORNERS AND PAINTED TO MATCH WALL SURFACES.
- WHERE NEW DEVICE(S) ARE TO BE PROVIDED ON EXISTING SOLID WALL, PROVIDE WITH SURFACE RACEWAY PER GENERAL NOTE G, SHEET E004. WHERE NEW DEVICES ARE SHOWN ON NEW WALL OR EXISTING STUD WALLS DEVICE(S) SHALL BE RECESSED. INTENT IS THAT WHERE EVER POSSIBLE DEVICES SHALL BE RECESSED.
- ALL UNDERGROUND CONDUITS AND DUCTBANKS SHALL BE DIRECT BURIED UNLESS INDICATED OTHERWISE. ALL PRIMARY AND SECONDARY CONDUITS AND DUCTBANKS SHALL HAVE LONG SWEEPING BENDS. ALL CONDUITS BURIED UNDER DRIVEWAYS AND PARKING AREAS WHERE AUTOMOBILE TRAFFIC PASSES THROUGH SHALL BE CONCRETE ENCASED. PROVIDE ALL CONDUIT WITH PULL WIRE. ALL CONDUIT SHALL BE 1" UNLESS INDICATED OTHERWISE. E.C. SHALL UTILIZE COMMON TRENCHES WHERE EVER FEASIBLE.
- NEW BUILDING SHALL BE PROVIDED WITH AN EXTENSION OF THE LIGHTING PROTECTION SYSTEM PER SPEC SECTION 26.41.00.
- E.C. SHALL COORDINATE EXACT LOCATION OF LIGHT FIXTURE POLE BASES WITH ARCHITECT PRIOR TO ROUGH-IN AND PROVIDE ACCORDINGLY.

PLAN NOTES

- RELOCATE EXISTING FIBER LINE TO OUTSIDE OF PROPOSED BUILDING FOOTPRINT. COORDINATE EXACT ROUTE WITH UTILITY PRIOR TO ROUGH-IN AND PROVIDE ACCORDINGLY.
- RELOCATE EXISTING ELECTRIC LINES TO OUTSIDE OF PROPOSED BUILDING FOOTPRINT. COORDINATE EXACT ROUTE WITH UTILITY PRIOR TO ROUGH-IN AND PROVIDE ACCORDINGLY. REFER TO DETAILS 15 & 16 ON SHEET E002 FOR MORE INFORMATION.
- REMOVE AND RELOCATE EXISTING LIGHT POLE. PROVIDE NEW BASE IN NEW LOCATION TO MATCH EXISTING POLE BASE TYPE AND CHARACTERISTICS. EXTEND CIRCUIT AND CONDUIT AND PROVIDE NEW WIRING TO NEW LOCATION AS REQUIRED. MATCHING EXISTING WIRING RATING, CONDUIT SIZE, TYPE AND CHARACTERISTICS. REFER TO DETAIL 10, SHEET E002 FOR BASE INFORMATION.
- LIGHT POLE IS EXISTING TO REMAIN. ROTATE FIXTURE HEAD TO BE ORIENTED TO SIDEWALK AND AWAY FROM NEW BUILDING ADDITION. SEE PLANS FOR ORIENTATION.
- PROVIDE FLUSH GRADE QUARTZITE PULL BOX ENCLOSEURE WITH GREEN GASKETED COVER WITH APPROPRIATE LOGO PER DETAIL 14 ON SHEET E002. COORDINATE EXACT LOCATION WITH CIVIL ENGINEER PRIOR TO ROUGH-IN AND PROVIDE ACCORDINGLY.

Fire Department Comments:

The Huber Heights City Code Part 15 Refers to Fire Code Requirements and has adopted by reference OFC and IFC Appendices

These comments are based only on the proposed site work, fire department access and basic fire protection concept at this time. A full plan review of the building systems, fire protection, egress and life safety will need to be conducted once the architectural plans have been submitted for permit. The proposed development will need to meet the requirements of the Ohio Fire Code 2017, Ohio Building Code 2017 and the Huber Heights Codified Ordinance. Based on the drawings provided the following requirements need to be met.

Requirements: (Site Plan)

- **Proposed driveways are acceptable and appear to meet Ohio Fire Code requirements for turn radius.**
- **Covered walkway canopy has a clear height of 17 ft. 10 in., this exceeds the minimum required height of 13 ft. 6 in. in Ohio Fire Code 503.2.1.**
- **Existing hydrants appear to meet requirements.**
- **A permit shall be obtained for construction from Montgomery County Building Regulations.**

Please reference contact information below for questions or concerns with this document.

Plans reviewed by the Huber Heights Fire Division are reviewed with the intent they comply in **ALL** respects to this code, as prescribed in **SECTION (D) 104.1 of the 2017 Ohio Fire Code**. Any omissions or errors on the plans or in this review do not relieve the applicant of complying with **ALL** applicable requirements of this code. These plans have been reviewed for compliance with the Ohio Fire Code adopted by this jurisdiction. There may be other regulations applicable under local, state, or federal statutes and codes, which this department has no authority to enforce and therefore have not been evaluated as part of this plan review.

Memorandum

Staff Report for Meeting of June 28, 2022

To: Huber Heights City Planning Commission

From: Aaron K. Sorrell, Interim City Planner
Community Planning Insights

Date: June 22, 2022

Subject: Major Change to Basic Development Plan

Application dated June 3, 2022

Department of Planning and Zoning

City of Huber Heights

APPLICANT/OWNER: Ruetschle Architects – Applicant
Huber Height City Schools - Owners

DEVELOPMENT NAME: Wayne High School – Career Tech Addition

ADDRESS/LOCATION: 5400 Chambersburg Road

ZONING/ACREAGE: Planned Public and Private Buildings and Grounds
(PP) / 47.8 Acres

EXISTING LAND USE: Wayne High School

ZONING

ADJACENT LAND: R-4 (West, South and East)
PP (North)

REQUEST: The applicant requests a change to the combined basic and detailed development plan to construct an 11,623 SF career technology addition to the existing auditorium facility.

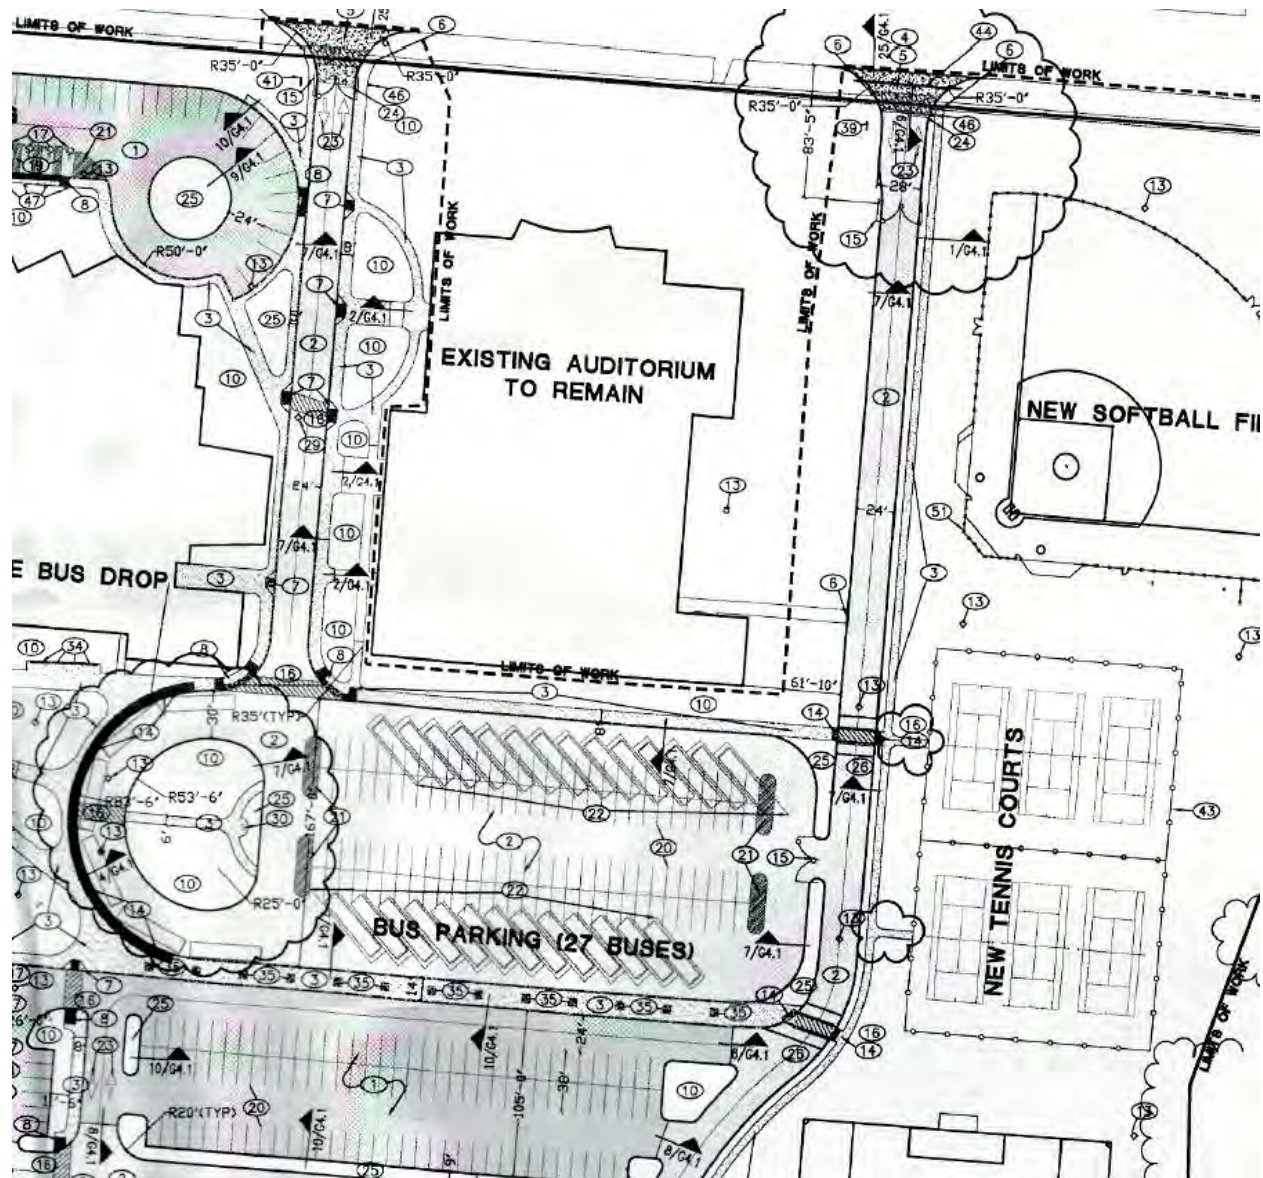

ORIGINAL APPROVAL: The Wayne High School combined basic and detailed development plan was approved in October, 2009.

APPLICABLE HHCC: Chapter 1171, 1174

CORRESPONDENCE: In Favor – None Received
In Opposition – None Received

Overview

At the time of approval, an existing auditorium along Chambersburg Road was improved during the school upgrades. A partial section of the approved BDP is below:

While the approved BPD illustrates bus parking in the lot immediately south of the auditorium, the school no longer stages buses there. It has been using the east/west drive near the current student parking area.

The applicant is now proposing to add an 11,623 addition to the rear of the existing auditorium to facilitate the development of the career technology center and a covered pedestrian walkway.

Parking will be reconfigured, and there is an overall net reduction of 26 parking spaces, which is simply one row of existing parking. No changes to the current bus parking, circulation, or other student/event parking are anticipated.

Conformance with Zoning Regulations

The use conforms with all requirements of Chapter 1174. The applicant is requesting an amendment to facilitate the addition of 11,623 SF to an existing building. The addition is in the interior of the campus and will not be seen from Chambersburg Road.

Staff feels the impact on parking is negligible. There are currently 1175 spaces throughout the campus. At the time of the original basic and detailed development plan approval in 2009, the high school required 460 spaces, and the stadium required 1175 spaces. The original parking calculation was based on 146 employees, 1680 students and 68 classrooms.

The current enrollment is 1569 students, and with this addition, there will be six additional classrooms. The stadium seating stays the same. The reduction from 1175 spaces to 1149 should have a negligible impact on the school's daily operations or impact to surrounding properties.

Landscaping

The applicant proposes improving the interior street tree landscaping along the impacted perimeter roads. This is an improvement from the original basic and detailed development plan.

Building Materials

The building will be clad with a brick exterior, similar to the existing auditorium.

Standards for Approval

1171.06 – General Standards For Approval

The Planning Commission shall review the application, prepared development plan and the facts presented at the hearing. The applicant shall have the burden of proof. No approval shall be given unless the Commission shall find by a preponderance of the evidence that such PUD on the proposed locations:

- (a) Is consistent with official thoroughfare plan, comprehensive development plan and other applicable plans and policies;*

- (b) *Could be substantially completed within the period of time specified in the schedule of development submitted by the developer;*
- (c) *Is accessible from public roads that are adequate to carry the traffic that shall be imposed upon them by the proposed development. Further, the streets and driveways on the site of the proposed development shall be adequate to serve the residents or occupants of the proposed development;*
- (d) *Shall not impose an undue burden on public services such as utilities, fire and police protection, and schools;*
- (e) *Contains such proposed covenants, easements and other provisions relating to the proposed development standards as may reasonably be required for the public health, safety and welfare;*
- (f) *Shall be landscaped or otherwise improved and the location and arrangement of structures, parking areas, walks, lighting and appurtenant facilities shall be compatible with the existing intended uses, and any part of a PUD not used for structures, parking and loading areas, or accessways;*
- (g) *Shall preserve natural features such as water courses, trees and rock outcrops, to the degree possible, so that they can enhance the overall design of the PUD;*
- (h) *Is designed to take advantage of the existing land contours in order to provide satisfactory road gradients and suitable building lots and to facilitate the provision of proposed services;*
- (i) *Shall place underground all electric and telephone facilities, street light wiring and other wiring conduits and similar facilities in any development which is primarily designed for or occupied by dwellings, unless waived by the Commission because of technical reasons;*
- (j) *Shall not create excessive additional requirements at public cost of public facilities and services and shall not be detrimental to the economic welfare of the community;*
- (k) *Shall not involve uses, activities, processes, materials, equipment and conditions of operation that shall be detrimental to any persons, property or the general welfare by reason of excessive production of traffic, noise, smoke, fumes, glare or odors; and*
- (l) *Rezoning of the land to the PUD District and approval of the development plan shall not adversely affect the public peace, health, morals, safety or welfare.*

Staff Analysis

As outlined above, the new high school was approved in October 2009. The addition of the career center will provide additional educational opportunities for Huber Heights students. It is the staff's opinion the impact of the reduced parking are negligible.

Additionally, the applicant is proposing additional interior landscaping that will improve the overall aesthetics of the campus. No other changes to the approved basic and

detailed development plan are presented. Staff feels the General Standards for Approval outlined in Chapter 1171.06 can be satisfied and recommend approval.

Additional Comments:

Fire: See Attached. The applicant will comply with all fire code requirements.

City Engineer: No comments received.

Recommendation

Staff recommends approving the major change to the basic and detailed development plan submitted on June 2, 2022.

Planning Commission Action

Planning Commission may take the following actions with a motion to:

- 1) Approve the basic development plan application, with or without conditions.
- 2) Deny the basic development plan.
- 3) Table the application in order to gather additional information.

Planning Commission Decision Record

WHEREAS, on June 3, 2022, the applicant, Ruetschle Architects, requested approval of a Major Change to an approved Detailed Development Plan to include 11,623 SF career technology addition to the existing auditorium facility at property located at 5400 Chambersburg Road further identified as Parcel Number P70 04004 0032 of the Montgomery County Auditor's Map (Case MJC 22-27), and;

WHEREAS, on June 28, 2022, the Planning Commission did meet and fully discuss the details of the request.

NOW, THEREFORE, BE IT RESOLVED that the Planning Commission hereby recommended approval of the request.

Mr. Jeffries moved to approve the request by the applicant, Ruetschle Architects, for approval of a Major Change to an approved Detailed Development Plan to include 11,623 SF career technology addition to the existing auditorium facility at property located at 5400 Chambersburg Road (Case MJC 22-27), in accordance with the recommendation of Staff's Memorandum dated June 22, 2022, with the following conditions:

1. Applicant shall meet all Fire Code requirements.
2. Applicant shall meet all Engineering requirements.

Seconded by Ms. Thomas. Roll call showed: YEAS: Ms. Vargo, Ms. Opp, Ms. Thomas, Mr. Jeffries, and Mr. Walton. NAYS: None. Motion to recommend approval carried 5-0.

Terry Walton, Chair
Planning Commission

Date

**Planning Commission
June 28, 2022, Meeting
City of Huber Heights**

- I. Chair Terry Walton called the meeting to order at approximately 6:00 p.m.
- II. Present at the meeting: Mr. Jeffries, Ms. Opp, Ms. Thomas, Ms. Vargo and Mr. Walton.

Members absent: None.

Staff Present: Aaron K. Sorrell, Interim City Planner, and Geri Hoskins, Planning & Zoning Administrative Secretary.

III. Opening Remarks by the Chairman and Commissioners

IV. Citizens Comments

None.

V. Swearing of Witnesses

Mr. Walton explained the proceedings of tonight's meeting and administered the sworn oath to all persons wishing to speak or give testimony regarding items on the agenda. All persons present responded in the affirmative.

VI. Pending Business

- 1. None

VII. New Business

Ms. Thomas moved to change the agenda by adding a presentation by Joe Nickel from YARD Company and moving 7A to 7B and 7B to 7A.

Seconded by Ms. Vargo. Roll call showed: YEAS: Ms. Opp, Ms. Vargo, Mr. Jeffries, Ms. Thomas, and Mr. Walton. NAYS: None. Motion to approve carried 5-0.

- 1. **JOE NICKEL FROM YARD COMPANY** gave a brief presentation on their help to develop the Comprehensive Plan.

- Library
 - Alematic
 - Pool
 - Music Nights
 - Farmer's Market
 - Final Recommendation

- 2. MAJOR CHANGE - The applicant, RUETSCHLE ARCHITECTS, is requesting a Major Change to the Combined Basic and Detailed Development Plan to construct an 11,623 SF career technology addition to the existing auditorium facility. Property is located at 5400 Chambersburg Road (MJC 22-27).**

Mr. Sorrell stated that in late October 2009, the Planning Commission approved a combined basic and detailed development plan to construct a new high school, softball field, tennis courts and associated student and staff parking areas.

At the time of approval, an existing auditorium along Chambersburg Road was improved during the school upgrades. A partial section of the approved BDP is below:

While the approved BPD illustrates bus parking in the lot immediately south of the auditorium, the school no longer stages buses there. It has been using the east/west drive near the current student parking area.

The applicant is now proposing to add an 11,623 addition to the rear of the existing auditorium to facilitate the development of the career technology center and a covered pedestrian walkway.

Parking will be reconfigured, and there is an overall net reduction of 26 parking spaces, which is simply one row of existing parking. No changes to the current bus parking, circulation, or other student/event parking are anticipated.

Conformance with Zoning Regulations

The use conforms with all requirements of Chapter 1174. The applicant is requesting an amendment to facilitate the addition of 11,623 SF to an existing building. The addition is in the interior of the campus and will not be seen from Chambersburg Road.

Staff feels the impact on parking is negligible. There are currently 1175 spaces throughout the campus. At the time of the original basic and detailed development plan approval in 2009, the high school required 460 spaces, and the stadium required 1175 spaces. The original parking calculation was based on 146 employees, 1680 students and 68 classrooms.

The current enrollment is 1569 students, and with this addition, there will be six additional classrooms. The stadium seating stays the same. The reduction from 1175 spaces to 1149 should have a negligible impact on the school's daily operations or impact to surrounding properties.

Landscaping

The applicant proposes improving the interior street tree landscaping along the impacted perimeter roads. This is an improvement from the original basic and detailed development plan.

Building Materials

The building will be clad with a brick exterior, similar to the existing auditorium.

As outlined above, the new high school was approved in October 2009. The addition of the career center will provide additional educational opportunities for Huber Heights students. It is the staff's opinion the impact of the reduced parking are negligible.

Additionally, the applicant is proposing additional interior landscaping that will improve the overall aesthetics of the campus. No other changes to the approved basic and detailed development plan are presented. Staff feels the General Standards for Approval outlined in Chapter 1171.06 can be satisfied and recommend approval.

Additional Comments:

Fire: See Attached. The applicant will comply with all fire code requirements.

City Engineer: No comments received.

Recommendation

Staff recommends approving the major change to the basic and detailed development plan submitted on June 2, 2022.

Mike Ruetschle and Gary Doll spoke.

Action

Mr. Jeffries moved to approve the request by the applicant RUETSCHLE RCHITECTS, for approval of a Major Change to the Combined Basic and Detailed Development Plan to construct an 11,623 SF career technology addition to the existing auditorium facility. Property is located at 5400 Chambersburg Road (Case MJC 22-27) in accordance with the recommendation of Staff's Memorandum dated June 22, 2022, and the Planning Commission Decision Record attached thereto.

Seconded by Ms. Thomas. Roll call showed: YEAS: Ms. Vargo, Mr. Jeffries, Ms. Thomas, Ms. Opp, and Mr. Walton. NAYS: None. Motion to approve carried 5-0.

3. **MAJOR CHANGE - The applicant, SKILKEN GOLD REAL ESTATE DEVELOPMENT, LLC, is requesting approval of A Major Change to the Basic Development Plan for a proposed 6,138 SF Convenience Store with Fuel Canopy, a 1,648 SF Car Wash and Vacuum Stalls. Property is located at NE Corner of Old Troy Pike and Taylorsville Road (Case MJC 22-21).**

Mr. Sorrell stated that the applicant requests approval to construct a 6,138 SF convenience store with fueling pumps and a 1,648 SF carwash. During the informal review with the Planning Commission there was significant discussion about the proposed use as compared to the uses illustrated on the adopted basic development plan. The Planning Commission expressed concerns about the perceived deviation from the originally illustrated uses and layout on the south side of the development, and members felt that the City Council should have an opportunity to review the new development proposal. It was recommended by the Planning Commission and agreed to by the applicant that they would request a major change to the basic development plan, which allows City Council the opportunity to review the proposal.

Background

On May 21, 2021, the Planning Commission approved (4-1) a rezoning to PM and basic development plan to facilitate the redevelopment of two parcels totaling 17.2 acres into a mixed-use development which includes a variety of commercial, office, and retail uses, along with a 192-unit apartment community. The rezoning was, and continues to be, consistent with the Comprehensive Plan.

Transportation Improvements

As part of the rezoning and basic development plan approval, the developer is widening the north side of Taylorsville Road to add a lane and widening the east side of Old Troy Pike to Huber Road to add a lane. Additionally, a new traffic signal will be installed along Old Troy Pike to facilitate better site access and the existing Huntington Bank and Starbucks sites will have access to this signalized intersection. The site is being cleared and roadway improvements will begin shortly.

For the sites under consideration in this application, the interior drive network and access to Taylorsville Road and Old Troy Pike is unchanged from the approved rezoning and basic development plan.

The city is planning to carry the Old Troy Pike widening from former Huber Road to I-70.

Allowable Uses

For the sites in this application, the basic development plan presented at the May 14th Planning Commission meeting illustrated a proposed bank, medical facility, and future outparcel. The basic development plan simply outlines allowable uses, site access, internal circulation (drive-aisles) and illustrates possible individual site plan concepts.

During the meeting, planning staff indicated to the Planning Commission the three sites were illustrative only, and those uses may change during the detailed development plan process. When the Planning Commission approved the basic development plan, it set the range of allowable uses (those permitted in the PM district), transportation improvements, site access, and internal site circulation.

The applicant is now proposing a convenience store and fueling station on the western parcels and a car wash on the eastern parcel in place of the illustrated bank, medical building and future outparcel.

Chapter 1179.02 states: *"The uses outlined as permitted uses in the (PR) Planned Residential District, (PO) Planned Office District, (PP) Planned Public and Private Buildings and Grounds District, and (PC) Planned Commercial District are principal uses permitted in the (PM) Planned Mixed Use District except as prohibited in this chapter."*

As such, the following related uses are permitted in PM district:

- Retail, office, and commercial establishments
- Personal service commercial establishments
- Filling stations
- Service stations

The proposed uses are permitted within this adopted basic development plan.

Ground Signs

The approved basic development plan approved two multi-tenant ID signs, and one general ID sign adjacent to the public right of way. The approved locations are illustrated below. Sign “A” is 16’-8” and located at the main signalized intersection along Old Troy Pike. Sign “B” is 14’-2” and located along Taylorsville Road. Sign “C”, the smallest ID sign, is 5’ tall and located at the corner of Taylorsville Road and Old Troy Pike.

After the informal review with the Planning Commission, the applicant relocated the proposed vacuum stands from along Taylorsville Road to behind the car wash. The revised location will reduce the noise impacts to surrounding residents. Additionally, the more intense activities such as fueling pumps, and the main access to the convenience store, are located adjacent to Old Troy Pike, away from surrounding residential areas. The car wash is a single bay wash whose doors close during the washing procedure.

The approved basic development plan requires a minimum of 25 percent green space. The proposal shall also meet this requirement, which will be evaluated at the Detailed Development Plan stage.

A lighting plan was submitted with the application and appears to meet the lighting standards in terms of height and light trespass. A final review will be completed during the detailed development plan phase.

The applicant is proposing brick structures consistent with the non-residential material requirements and the basic development plan. A final review will be completed during the detailed development plan phase.

Staff Analysis

The applicant requests to construct a 6,138 SF convenience store with fueling pumps and a 1,648 SF carwash. On May 21, 2021, the Planning Commission approved (4-1) a rezoning to PM and a basic development plan to facilitate the redevelopment of two parcels totaling 17.2 acres into a mixed-use development including a variety of commercial, office, and retail uses, along with a 192-unit apartment community. The rezoning was, and continues to be, consistent with the Comprehensive Plan.

When the Planning Commission approved the basic development plan, it set the range of allowable uses (those permitted in the PM district), site access, and internal site circulation. The applicant is proposing a convenience store and fueling station on the western parcels and a car wash on the eastern parcel bisected by the interior street network. The proposed uses are permitted within the adopted basic development plan.

Additionally, the revised traffic study indicates there will be minimal changes in the level of service and delay by the proposed development compared to three previous lots originally studied. No additional roadway improvements are necessary beyond the roadway widenings currently underway. The internal circulation system proposed by the applicant remains unchanged from the approved basic development plan.

Since the informal review before the Planning Commission, the applicant has made two key revisions to the application. First, the carwash and vacuum stations were redesigned to reduce noise impacts to the surrounding properties. Secondly, two 30' tall pylon gas price signs were reduced to 6'-10" tall.

Since the approved basic development plan only permitted three signs adjacent to the right of way, the two proposed 6'-10" gas price ground signs require major change approval from the Planning Commission. Staff feels the two proposed gas price ground signs are modestly sized and highly complementary in design to the previously approved Broad Reach ID signs.

Additional Comments:

Fire: See Attached.

City Engineer: The City Engineer has expressed a concern about customers parking along the eastern edge of the building backing into the drive aisle, and a concern about drive-thru customers crossing a drive aisle after ordering and stacking at the pick-up window.

This site is not unique with parking along a drive aisle; most of the sites along Old Troy Pike are similarly situated. Regarding drive-thru customers crossing the drive aisle, the applicant has stated that drive-thru customers are approximately 10% of sales and the applicant does not anticipate congestion issues related to vehicle stacking.

Recommendation

The application for a major change was initiated at the request of the Planning Commission and their desire for City Council to review this development application.

Only the two proposed ground signs must be approved through the major change. Staff feels the major change requested by the applicant meets the standards outlined in Chapter 1171.06 for the following reasons:

- The proposed uses are consistent with the Comprehensive Plan;
- The proposed uses are currently permitted within the approved basic development plan;
- All site access locations and interior circulation remain unchanged;
- The replacement of the convenience store, fueling station and carwash will result in minimal changes in the level of service and delay along the thoroughfares compared to the three lots and uses originally studied; and,
- The two-ground mounted gas price signs are modest in height and designed in a complementary manner to the previously approved development ID signs.

Staff recommends approval with the following conditions:

- All conditions approved by the Planning Commission on May 21, 2021, shall remain in effect;

- The two additional ground mounted gas price signs shall not exceed 6'-10";
- The applicant shall comply with all engineering, building and fire codes; and,
- The applicant shall update the basic development plan to reflect all conditions imposed by the planning commission.

Lengthy discussions on stacking of cars, road widening, gaining left turn, additional lane on Troy Pike, curb cut management,

Mike Castellitto from Broadreach talked about widening Taylorsville and Troy Pike, lanes shifted, traffic control measures in place, history and relationship with the city, agreement pertains to property, not tenants.

Frank Petruziello talked about Sheetz selling gas but restaurant was original business, seating for 30, food to order, touch screens, drive-thru 10% of business. Traffic load won't change.

Discussion on vacuums and parking 49 required spaces, hours of operation, security, highly competitive. Signage and additional lanes. Eliminate 3 vacuums, hours of operation at Detailed Development Plan. All fire concerns are being addressed.

Action

Ms. Vargo moved to approve the request by the applicant SKILKEN GOLD REAL ESTATE DEVELOPMENT, for approval of a Major Change to the Basic Development Plan for a proposed 6,138 SF Convenience store a with Fuel Canopy, a 1,648 SF Car Wash and Vacuum Stalls. Property is located at NE Corner of Old Troy Pike and Taylorsville Road (Case MJC 22-21) in accordance with the recommendation of Staff's Memorandum dated June 22, 2022, and the amended Planning Commission Decision Record attached thereto.

Seconded by Ms. Opp. Roll call showed: YEAS: Ms. Opp, Ms. Vargo, and Mr. Walton. NAYS: Mr. Jeffries and Ms. Thomas. Motion to approve carried 3-2.

VIII. Additional Business

None.

IX. Approval of the Minutes

Without objection, the minutes of the June 14, 2022, Planning Commission meeting are approved.

CITY OF HUBER HEIGHTS
STATE OF OHIO

ORDINANCE NO. 2022-O-

TO APPROVE A MAJOR CHANGE TO THE COMBINED BASIC AND DETAILED DEVELOPMENT PLAN FOR THE PROPERTY LOCATED AT 5400 CHAMBERSBURG ROAD AND FURTHER IDENTIFIED AS PARCEL NUMBER P70 04004 0032 ON THE MONTGOMERY COUNTY AUDITOR'S MAP AND ACCEPTING THE RECOMMENDATION OF THE PLANNING COMMISSION (CASE MJC 22-27).

WHEREAS, the citizens of Huber Heights require the efficient and orderly planning of land uses within the City; and

WHEREAS, the City Planning Commission has reviewed Case MJC 22-27 and on June 28, 2022, recommended approval by a vote of 5-0 of the Major Change; and

WHEREAS, the City Council has considered the issue.

NOW, THEREFORE, BE IT ORDAINED by the City Council of Huber Heights, Ohio that:

Section 1. The application requesting approval of a Major Change to the Combined Basic and Detailed Development Plan (Case MJC 22-27) is hereby approved in accordance with the Planning Commission's recommendation and following conditions:

1. The applicant shall meet all Fire Code requirements.
2. The applicant shall meet all Engineering requirements.
3. Prior to the issuance of a zoning permit, the applicant shall enter into a PUD Agreement with the City for the purpose, but not the sole purpose, of establishing the development obligations of the applicant and requiring the submittal of a performance bond, cash bond, or letter of credit to insure the installation of landscaping as approved. The bond or letter of credit shall be in an amount equal to the applicant's estimate of the cost of installation as approved by the Planning Department and shall remain in effect until such time as the landscaping has been completed as determined by the Planning Department. Upon completion of the installation of landscaping as required by the approved landscape plan, the applicant may request release of the performance bond or letter of credit. Following an inspection by the Planning Department and upon determination by the department that the landscaping has been completed in accordance with the approved landscaping plan, 80% of the performance bond or letter of credit may be released. However, the performance bond or letter of credit will not be released until a maintenance bond lasting three growing seasons, or letter of credit equal to 20% of the initial performance bond or letter of credit to ensure maintenance of the landscaping, is submitted to and accepted by the Planning Department. The term of the maintenance bond shall be three growing seasons.

Section 2. It is hereby found and determined that all formal actions of this Council concerning and relating to the passage of this Ordinance were adopted in an open meeting of this Council, and that all deliberations of this Council and of any of its Committees that resulted in such formal action were in meetings open to the public and in compliance with all legal requirements including Section 121.22 of the Ohio Revised Code.

Section 3. This Ordinance shall go into effect upon its passage as provided by law and the Charter of the City of Huber Heights.

Passed by Council on the _____ day of _____, 2022;

Agenda Item Description or Legislation Title

East Water Main Extension Project - Award Contract

Purpose and Background

This legislation will authorize the City Manager to enter into a contract with C. G. Construction & Utilities Inc. as the lowest and best bidder for the East Water Main Extension Project. Federal grant dollars as part of the American Rescue Plan Act (ARPA) will be utilized to construct this project at a cost not to exceed \$3,000,000 that will be appropriated in the Water Utility Reserve Fund. The proposed improvement of the East Water Main Extension Project includes the installation of approximately 7890 linear feet of 16" water main, complete with appurtenances, along Bellefontaine Road from 7060 Bellefontaine Road to a connection point at the intersection of Bellefontaine Road and Center Point 70 Boulevard.

Fiscal Impact

Source of Funds: See Financial Implications

Cost: \$3,000,000

Recurring Cost? (Yes/No): No

Funds Available in Current Budget? (Yes/No): Yes

Financial Implications:

The ARPA Fund will reimburse the Water Utility Reserve Fund for this project.

RESOLUTION NO. 2022-R-

INCREASING THE NOT TO EXCEED AMOUNT AND AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT FOR THE EAST WATER MAIN EXTENSION PROJECT.

WHEREAS, City Council under Resolution No. 2022-R-7129, dated May 23, 2022, has previously authorized the securing of bids for the East Water Main Extension Project; and

WHEREAS, construction bids were received on June 24, 2022; and

WHEREAS, there are adequate funds available to cover the cost of this work.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Huber Heights, Ohio that:

Section 1. The City Manager is hereby authorized to enter into a contract for the East Water Main Extension Project with C.G. Construction & Utilities, Inc. as the lowest and best bidder at a cost not to exceed \$3,000,000.00 on the terms and conditions as substantially set forth in the specifications of the contract.

Section 2. It is hereby found and determined that all formal actions of this Council concerning and relating to the passage of this Resolution were adopted in an open meeting of this Council and all deliberations of this Council and of any of its Committees that resulted in such formal action were in meetings open to the public and in compliance with all legal requirements including Section 121.22 of Ohio Revised Code.

Section 3. This Resolution shall go into effect upon its passage as provided by law and the Charter of the City of Huber Heights.

Resolution No.:**

Agenda Item Description or Legislation Title

City Staffing Levels/Table Of Organization

Purpose and Background

At the July 11, 2022 City Council Meeting, Mayor Gore recommended that an additional staff position be created to support the needs of the current staffing structure. Based on the Mayor's recommendation, it would be City Staff's suggestion to establish the position of Assistant to the City Manager. This position would be considered an intermediate-level exempt position with an expectation of a post-secondary education and some professionally relevant experience. This position would be valuable in addressing issues such as grant identification and application, support of professional projects, performance of complex research, analysis of data, and performance of other similar types of advanced managerial support functions.

While not available at the time of the Council Work Session meeting packet deadline, a draft job description and suggested salary range will be presented to the City Council at the July 19, 2022 Council Work Session.
