Notice of Meeting

CITY COUNCIL WORK SESSION

Tuesday, January 18, 2022

at or about 6:00 p.m. at City Hall – Council Chambers – 6131 Taylorsville Road

Huber Heights Mayor Jeff Gore has scheduled a City Council Work Session to discuss:

- City Manager Report/Water
 Infrastructure Update
- Bottled Water Collection, Storage, and Distribution – Public Purpose
- Culture and Diversity Citizen Action
 Commission Update Presentation
- ZC 21-34 The Annex Group –
 6502 Old Troy Pike –
 Rezoning/Basic Development Plan
- ZC 21-47 Campbell Berling East Side Of Bellefontaine Road South Of Chambersburg Road – Rezoning/Basic Development Plan

- Construction New City Hall/ Senior Center
- Brandt Pike Revitalization Project
- Jonetta Street Sanitary Sewer Project
- ODOT Preliminary Consent Legislation
 State Route 202 Resurfacing
- New Sidewalk Discussion
- Ordinance Modification Huber Heights City Code – Section 509.08(b)(10) – Disturbing The Peace
- Huber Heights Polling Locations
- City Manager Recruitment Brochure

Please Note:

The meeting will be viewable by the public on live stream available at www.hhoh.org

Distributed – January 13, 2022

For more information, visit www.hhoh.org

CITY OF HUBER HEIGHTS STATE OF OHIO

City Council Work Session

January 18, 2022 6:00 P.M. City Hall – Council Chambers – 6131 Taylorsville Road

1. Call Meeting To Order/Roll Call

2. Approval of Minutes

A. January 4, 2022

3. Work Session Topics Of Discussion

- A. City Manager Report/Water Infrastructure Update
- B. Bottled Water Collection, Storage and Distribution Public Purpose
- C. Culture and Diversity Citizen Action Commission Update Presentation
- D. ZC 21-34 The Annex Group 6502 Old Troy Pike Rezoning/Basic Development Plan
- E. ZC 21-47 Campbell Berling East Side Of Bellefontaine Road South Of Chambersburg Road - Rezoning/Basic Development Plan
- F. Construction New City Hall/Senior Center

- G. Brandt Pike Revitalization Project
- H. Jonetta Street Sanitary Sewer Project
- I. ODOT Preliminary Consent Legislation State Route 202 Resurfacing
- J. New Sidewalk Discussion
- K. Ordinance Modification Huber Heights City Code Section 509.08(b)(10) Disturbing The Peace
- L. Huber Heights Polling Locations
- M. City Manager Recruitment Brochure

4. Adjournment

CITY OF HUBER HEIGHTS STATE OF OHIO

Council Work Session Meeting Minutes

Name of Body:	Council Work Session
Date:	January 18, 2022
<u>Time</u> :	6:00 P.M.
<u>Place</u> :	City Hall – 6131 Taylorsville Road – Council Chambers

Members Present:

Kathleen Baker, Councilmember Nancy Byrge, Councilmember Mark Campbell, Councilmember Ed Lyons, Councilmember Glenn Otto, Councilmember (Left at 9:35 P.M.) Richard Shaw, Councilmember (Left at 9:35 P.M.) Jeff Gore, Mayor

Guests Present:

City Staff Present: Russ Bergman, Bryan Chodkowski, Gerald McDonald, and Anthony Rodgers.

Topics of Discussion:

- City Manager Report/Water Infrastructure Update
- Bottled Water Collection, Storage, and Distribution Public Purpose
- Culture and Diversity Citizen Action Commission Update Presentation

- ZC 21-34 The Annex Group 6502 Old Troy Pike Rezoning/Basic Development Plan
- ZC 21-47 Campbell Berling East Side Of Bellefontaine Road South Of Chambersburg Road – Rezoning/Basic Development Plan
- Construction New City Hall/Senior Center
- Brandt Pike Revitalization Project
- Jonetta Street Sanitary Sewer Project
- ODOT Preliminary Consent Legislation State Route 202 Resurfacing
- New Sidewalk Discussion
- Ordinance Modification Huber Heights City Code Section
 509.08(b)(10) Disturbing The Peace
- Huber Heights Polling Locations
- City Manager Recruitment Brochure

1. Call Meeting To Order/Roll Call

Mayor Jeff Gore convened the Council Work Session at 6:02 P.M. The Council Work Session started late due to technical difficulties.

Anthony Rodgers took Roll Call.

Mayor Jeff Gore said Don Webb and Anita Kitchen had emailed him and were not feeling well and would not be attending the Council Work Session.

2. Approval of Minutes

The following minutes were approved unanimously at the beginning of this meeting:

• January 4, 2022

There were no changes or corrections to these minutes as submitted. This Council Work Session was recorded by the City and the recording of this meeting will be posted to the City's website and will also be maintained by the City consistent with the City's records retention schedule.

3. Work Session Topics Of Discussion

City Manager Report/Water Infrastructure Update

Bryan Chodkowski said the Request For Proposals (RFP) for the Water Utility Integrity Study has been released and that project should be awarded in late February, 2022. He said work regarding new boil advisory notice tags including vouchers for bottled water have been undertaken by Suez Water and Suez Water will continue to pursue that program. He said in December, 2021, four water main breaks were reported; and through today, six water main breaks were reported in January, 2022. He said all ten breaks dating back to December 1, 2021, are freeze/thaw related based on Suez Water analysis. He said no main breaks have been reported in the lined areas other than the initial two breaks on November 19 and 30, 2021. He said the Lancer Court property is currently being demolished and the attached garage should be down as of today.

Mayor Jeff Gore thanked Bryan Chodkowski and Gerald McDonald for their work on the Lancer Court property and the Rip Rap Road property.

Ed Lyons asked where the six water main breaks in January, 2022 were located.

Bryan Chodkowski said the locations were not disclosed to him other than the water main breaks were not part of the lined area. He said he can follow up on that information if Council would like.

Mayor Jeff Gore asked Bryan Chodkowski to email Council with the location of the six water main breaks.

Richard Shaw asked for an update on the final payment and bond discussion for the Water Lining Project.

Bryan Chodkowski said the consensus of the discussion is that the vendor has provided the appropriate bond and a report which has been reviewed by Suez Water and City Staff. He said the position today is the City will withhold the cost to make those repairs on November 19 and 30, 2021 from the final payment and pay the balance as the City now possesses the maintenance bond.

Richard Shaw asked if Council could get the numbers regarding the repair cost and what amount will be withheld and paid in an email by the end of the week.

Bottled Water Collection, Storage, and Distribution - Public Purpose

Bryan Chodkowski distributed information regarding bottled water collection, storage, and distribution (see attached). He said there has been discussion regarding ways to provide potable water to impacted residents from water main breaks. He said Council had brought up utilizing vouchers, gift cards, and other means in which City funds could be expended to provide potable water to those residents impacted by service issues. He said regardless of the method Council chooses, Council needs to adopt legislation to declare such programs as a valid public purpose.

Mayor Jeff Gore said everyone understands with a water main break, residents can cook with water and shower. He said situations were brought up where senior citizens struggle with the right amount of water to drink or potable water, and these programs are a good solution. He said St. Peter's Food Pantry was talked about as a place to hold thirty cases of water and as the stash depleted, this public purpose money could be used to purchase additional water and have it there and also to have residents collect and use water from the voucher system. He recommended moving forward with this initiative.

Anthony Rodgers said Gerald McDonald has provided an outline for the legislation.

Kathleen Baker asked what the budget would be for the program.

Mayor Jeff Gore said his initial thought was \$1,000. He asked if an amount is needed.

Anthony Rodgers said the public purpose legislation was going to cover not only restocking bottled water at the St. Peter Food Pantry but having that determination also for the ongoing voucher program once that program is instituted. He said the legislation would declare the programs as a valid public purpose and City Staff could expend the necessary funds from the City Budget because the amount would not exceed \$25,000.

After discussion, City Council agreed to recommend approval of the necessary legislation to declare the bottled water collection, storage, and distribution as a valid public purpose and requested that the necessary legislation be prepared and placed on the agenda at the January 24, 2022 City Council Meeting for a first reading as non-emergency legislation and adoption of the legislation at the January 24, 2022 City Council Meeting.

Culture and Diversity Citizen Action Commission Update Presentation

Yolanda Stephens, Chair, distributed information regarding updates on the Culture and Diversity Citizen Action Commission (see attached). She gave a presentation regarding the commission's progress in 2021 and said she is here to make recommendations to help City Council to be the best and to make the City the best and most inclusive City. She said the commission is trying to integrate policies, community activities, education, outreach, and things that will help include all residents and not produce discriminatory practices. She discussed the four committees and the events of the commission. She said there is a formal recommendation to Council on the table to establish an independent citizen action review board to review citizen complaints that came out of the commission's Reform Committee. She said recommendations have been made to the Police Chief and the Fire Chief to post position openings with minority professional organizations such as the National Organization of Black Law Enforcement. She said that initiative is something that is ongoing, and conversations have been had with the City to look at how it can increase diversity recruitment numbers. She said last week there was a forum on policing with the Police Chief and there were a lot of great questions and feedback. She reviewed the recommendations made to

City Council and she stated the commission is still awaiting feedback on some of the recommendations.

Mayor Jeff Gore said Katie Knisley is the Staff Liaison to the commission and any recommendation from the commission would come from the Staff Liaison to the City Manager and then to City Council to make it to an agenda item to have a formal discussion.

Anthony Rodgers said he has had discussions with Bryan Chodkowski and Katie Knisley about working out a process on how the recommendations get filtered, but most of the recommendations have remained at the City Staff level and have not been filtered to the City Council for formal recommendation yet.

Mark Campbell asked to place these recommendations on the next Council Work Session agenda.

Mayor Jeff Gore said there are a lot of things on the list of recommendations that have been taken care of already.

Yolanda Stephens said she will resubmit the recommendations including the citizen complaint process, a recommendation to gather and report on EEO data, and a recommendation for a black business of the quarter through the Advocacy Committee of the commission.

Bryan Chodkowski apologized to Council and the commission. He said the commission has worked very hard on several things, but one is a recommendation process. He said he knew the process had been defined but he was not sure where that process stood. He said City Staff was under the impression the policy had been adopted by the commission but not quite enacted by the commission.

Yolanda Stephens discussed website change recommendations as the website does not have life and interactive engaged humans in the images. She said this recommendation is from February, 2021 and it has not been addressed. She continued the list of recommendations to include providing an unbiased reporting process for citizens to voice concerns and submit complaints and diversity training for City Staff, leadership, boards, and commissions. Mayor Jeff Gore said there is a process to go through the Chief of Police and he does not feel Council is qualified to discuss that topic. He said if this recommendation is going to become City policy passed by legislation it has to be thorough. He said everyone needs to be clear on what the process is, the intent of the board, and to make sure the Police Chief is okay with the process.

Ed Lyons said this board is a process that will take more than one or two meetings. He said the review of Council is needed before moving forward.

Nancy Byrge said a process in Dayton has been in place for several years. She said a copy of the structure of that board is needed to review and see if it needs to be tailored for this community. She said it is important to get rolling on it.

Yolanda Stephens said the formal recommendation as written by the Reform Committee of the commission was that it was unanimously recommended that an independent review board be established to investigate complaints submitted by citizens. She said the recommendation has an overview and she will send Council a copy. She asked Mayor Jeff Gore what the process would be.

Mayor Jeff Gore said he would like an open public session with the Police Chief, and he wants to see what Dayton's review board looks like. He said he hears "review board" and "advisory board" and those sound like two different things and he wants to be clear on what it is. He asked is it advising and helping the City and to what level is the review.

Ed Lyons said this item is the initial discussion and it will be on the next Council Work Session.

Yolanda Stephens described the complaint process and said the review board would have no authority to take disciplinary action.

Mayor Jeff Gore asked Bryan Chodkowski to make sure the Police Chief attends the next Council Work Session.

Mark Campbell asked Bryan Chodkowski to speak to the Police Chief to see if he is comfortable with what Yolanda Stephens conveyed. He said this conversation could help expedite things and get this item on the next agenda and passed. He asked Yolanda Stephens how the resolution denouncing racism is helping the commission and the community.

Yolanda Stephens said it is definitely the first step. She said next is that all the City's actions align to the statement. She said she is asking Council and everyone in the community to continue the conversations and continue to educate themselves and to get the City and employees involved in this process. She said there will be recommendations from the commission on how to get employees involved and maybe develop a diversity council within the City, and there are action steps the City can take to start doing things within the body of the City as well.

Mark Campbell said City Council can do better as it relates to what is coming out of the commission to Council. He said anything Council can do with the Staff Liaison or whoever to bridge the gap needs to be done. He said the website has no people on the pages, and this job could be outsourced if necessary.

Kathleen Baker said everyone has been at events and have taken pictures. She said the community could submit photos for the website.

Mark Campbell said in looking at the presentation, the commission has been busy and Council has only passed two resolutions. He said Council has a lot of catch up to do.

Yolanda Stephens asked Council to look back at the resolution and think what the Council can do as the leadership to put this work into action and make it a living document and see some action behind it.

Kathleen Baker asked if the three forum recordings can be sent to City Staff and the City's boards and commissions to get the training started. She said the process for complaints involving City departments/divisions should be online also. She also asked for an accounting of the \$15,000 commission budget for last year for Council.

Nancy Byrge said the Culture and Diversity Citizen Action Commission is planning a weeklong celebration in June, 2022 and the Arts and Beautification Commission is planning cultural events around the same time. She asked if there is a reason why those activities are not being combined.

Yolanda Stephens said the commission would like to partner with all of the boards and commissions and she is not aware of a separate event.

Nancy Byrge asked Yolanda Stephens to check with the Arts and Beautification Commission to make sure there are not two events at the same time.

Yolanda Stephens listed the upcoming events and welcomed Council feedback on how the commission is doing.

Richard Shaw asked Yolanda Stephens how well she thinks the forums have been attended by the community.

Yolanda Stephens said the commission members would like to see more attendance and that is one of the challenges. She said often the people who need to be there are not.

Richard Shaw said when he attends the forums, once you remove Councilmembers, board and commissions, and City Staff, you are left with a handful of residents. He said it makes him wonder what is missing as a community. He said that is his challenge to the commission and what everyone can do as a City to improve that participation.

Yolanda Stephens said one of the things that can be done is when a Councilmember attends, bring a friend and show your support.

Kathleen Baker asked if emails are being sent to the other City boards and commission and to City Staff inviting people to the meetings.

Bryan Chodkowski said that is not something the City has done. He said he would want to be thoughtful before doing it with respect to promoting one commission over another. He said there is some thought that would need to go into this suggestion.

Yolanda Stephens said there is not a downloadable calendar on the City's website.

Richard Shaw said that is a great topic when it comes to the City's website and the City app. He said those types of events can be pushed out to those who subscribe to the calendar and the newsletter. He said with Android and Apple you can get RSS updates, so it automatically puts the events in your calendar.

Glenn Otto said the City needs to push the City app and the City's website and educate the residents. He said the key is letting people know those things exist.

Anthony Rodgers said there is a board in the entry way at City Hall for flyers for events and digital boards in the lobby.

Mayor Jeff Gore said Huber Heights is an extremely diverse city and is growing that way more than any other city. He said at the end of the day, everyone should be proud of how Huber Heights is growing in populations other than white populations.

After discussion, the City Council requested that this agenda item be discussed again at the next Council Work Session.

<u>ZC 21-34 – The Annex Group – 6502 Old Troy Pike – Rezoning/Basic</u> Development Plan

Bryan Chodkowski distributed information and proposed legislation to approve a Rezoning and a Basic Development Plan for The Annex Group in ZC 21-34 (see attached). He said he has been in contact repeatedly with the applicant working to get some numbers regarding PILOT payments from the developer. He said Ohio goes about it a little differently than in other states in the way the property would be taxed, how the project would be taxed, and how it would be assessed. He said he has had the opportunity to talk with the developer, and the developer will be back in touch with him. He said it should not be too much longer before this item comes back to Council.

Anthony Rodgers said in December, 2021, this item was tabled to a third reading at the January 24, 2022 City Council Meeting, so it will appear as a third reading on Monday's agenda automatically. He said at that time it can be tabled again or passed to a fourth reading.

After discussion, the City Council requested that the proposed legislation to approve a Rezoning and a Basic Development Plan for The Annex Group in ZC 21-34 be placed on the agenda for a third reading at the January 24, 2022 City Council Meeting and passed to a fourth reading at the February 14, 2022 City Council Meeting.

<u>ZC 21-47 – Campbell Berling – Rezoning/Basic Development Plan –</u> East Side of Bellefontaine Road South of Chambersburg Road

Bryan Chodkowski distributed information and proposed legislation to approve a Rezoning and a Basic Development Plan for Campbell Berling for property on the east side of Bellefontaine Road south of Chambersburg Road in ZC 21-47 (see attached).

Greg Berling from Campbell Berling gave a PowerPoint presentation on ZC 21-47 (see attached). Greg Berling said he had discussions with Ron Deak today and other adjacent residents. He said regarding the stormwater, he had his engineer write up a simple narrative and passed that information out to Council (see attached). He said the narrative goes through how stormwater design is implemented on the front end of a development. He said it is not a detailed design as it is in the planning stages. He explained the criteria used to determine the size and effects on the property. He said in the detailed design, the basin could become smaller or bigger. He said this is the engineer's preliminary design, and if it becomes smaller or larger, that is the way it will be built. He said Choice One will be performing a traffic study and that study will be submitted to the City for review and any recommendations will go through City Staff for approval on any road improvements beyond the frontage of the property. He said on plan additions, whether he agrees with the property owners or not, there are some items he wanted to add to the plan. He distributed an exhibit showing the mounding and landscaping along Bellefontaine Road (see attached). He said he has no problem agreeing with a sidewalk along Bellefontaine Road. He said in addition, along Mr. Harmon's property line to the north, there will be a landscape buffer along the rear yards of those lots. He said in the open space along the pipeline easement, a sidewalk will be added to connect those two streets and he will add a walking path around the detention basin. He said he had a discussion with Fisher Homes and on the lots, Fisher Homes provides landscape screening between each lot and the design will be submitted to the City for review.

Mayor Jeff Gore said he appreciates what Mr. Berling has done. He asked how the buffer compares height wise to the one at The Oaks. He said the issue is the aesthetics. He said if he is driving down the road and looking, the more similar the landscaping buffer can look from one development to the next then he would not necessarily know the development is different than the other.

Greg Berling said he has no problem with a mounding similar to what is in The Oaks.

Richard Shaw asked why the developer chose this location for the development.

Greg Berling said he developed Silver Oaks and Quail Ridge which are single family subdivisions. He said this product is a product that is needed in the City. He said he looks at the builder partners and this is a product that has been successful and well received in other municipalities and by the people who have purchased the units. He said the features of the site lent itself to this product and it impacts the topography less than single-family homes. He said Campbell Berling identified Huber Heights as an area of growth for single family attached and detached homes.

Richard Shaw asked if this product in other communities was placed in established neighborhoods or on redeveloped land. He said he does not see a single-family product because it is a combined building with two families next to established neighborhoods. He asked why there when one can map out several acres throughout this community that is available. He said the topography is pretty much the same.

Greg Berling explained how these products are single family and not multifamily homes.

Nancy Byrge said she sent an email to Bryan Chodkowski concerning a potential new development code because of the conditions discussed at the last meeting; specifically, regarding the gentleman who said active hunting is done in the lots behind this area. She said she did not receive a response from Bryan Chodkowski. She read the email for the record. She said no other development in Huber Heights has abutted into rural development. She said as developers move east, the developers are

running into larger lots, farming, and hunting, and the City has not set up codes on how to protect the neighbors.

Greg Berling said the burden is on the hunters if they are using inappropriate weapons or hunting in an inappropriate way.

Bob Krohngold from Campbell Berling said an administrator at the Police Division said there is no discharge of firearms allowed in the City of Huber Heights.

Nancy Byrge said if you own five acres you are allowed to hunt white tail deer on your property. She said the City needs to protect potential residents in the new developments as development moves east.

Mayor Jeff Gore stopped the discussion. He said the meeting is short two Councilmembers and his recommendation was to not take any action this evening. He said this item will move to another Council Work Session. He said he was aware of the email Nancy Byrge sent and he plans on having the discussion to find out what those laws and regulations are. He said those are internal conversations Council can have. He said that is not on the developer. He said the proposal checks all the boxes, is not illegal, and meets the City Code. He said the City needs to make sure that people are safe. He said any questions that come up are conversations to be had with the City Manager and the Police Division.

Richard Shaw said, since it was mentioned at the podium that Greg Berling had a conversation with Ron Deak, he asked if Mr. Deak could have a couple of minutes to provide his insight to that meeting.

Mayor Jeff Gore said Mr. Deak can send an email to Council. He said when this item comes up at a City Council Meeting, he will be happy to allow any resident to speak.

Greg Berling said he had a good meeting with Mr. Deak and they do not agree on everything, but it was very constructive. He said the residents he has talked to have been fair and professional and he does not get that everywhere. He said he appreciates that of the City and it has been good working with everybody. After discussion, the City Council requested that the proposed legislation to approve a Rezoning and a Basic Development Plan for Campbell Berling for property on the east side of Bellefontaine Road south of Chambersburg Road in ZC 21-47 be placed on the agenda for a second reading as non-emergency legislation at the January 24, 2022 City Council Meeting and passed to a third reading at the February 14, 2022 City Council Meeting.

Construction - New City Hall/Senior Center

Mayor Jeff Gore distributed information regarding a new City Hall and Senior Center (see attached). He said this site is in the targeted area of the Brandt Pike Revitalization at the former Marian Meadows. He said this item has been talked about for quite some time. He said the City and City Staff are growing, and there have been discussions about combining a new City Hall facility or a new municipal facility with potentially a senior center at the site near the library. He said it seems to make sense. He said the sooner the City starts looking at the possibilities there, the better. He said there are two other municipal facilities for tax and water and the City is paying rent at those facilities. He said if the City vacated area in this building to another facility, that is money to have all in house with maybe a customer service center and the Council Chamber where everyone can go to pay water, taxes, zoning certificates, or whatever, and there is one place to go to. He said this is the beginning of the discussion of where to go from here and if Council is in agreement that some municipal facilities make sense at the Brandt Pike site next to the new library.

Bryan Chodkowski said from a City Staff perspective, he is 100 percent behind any plans that Council has to make sure there is adequate space available. He said the City has clearly outgrown the space in City Hall and there are some storage and accommodation issues with the rented location at the Huber Centre. He said if the City were to engage the appropriate architect, a survey of Council wants and City Staff needs would put together a good project for Council and City Staff to get behind and the community to rally around to help facilitate development at the Marian Meadows area.

Glenn Otto said he would support the building of a new municipal building that would house the Senior City and the tax and water facilities.

He said he does not see a need for a new City Hall. He said that space is finite, and the more used for the City, the less there is to create what the residents asked for to begin with which is the walkable presentation of what a downtown would be. He said a new City Hall would take up a large piece of that area.

Nancy Byrge said it was the intent to have a developer come in and develop the property and sell or lease it to businesses. She said it was never the intent of the City to develop that property and build all of the housing and to become landlords.

Mayor Jeff Gore said it was always to provide a space where developers would want to be, and the City has that now. He said the library makes it a civil space. He said the plan that was done and the study and survey called for senior housing. He said there are components to all of that that makes sense. He said the City has a part to play in that to make the overall site development worthy. He said there has to be someone willing to come in and do something different with an already established property. He said when he thinks of the Brandt Pike Revitalization, he does not think of Marian Meadows, he thinks strategically on a bigger scale that goes to Kitridge Road and to Chambersburg Road that is a true redevelopment of the City of Huber Heights. He said Council agreed unanimously to purchase the property with the intent to redevelop it. He said if that means the City needs to be part of the catalyst as municipal space next to the library and the Senior Center, then that is a good thing. He said the first step in the process is for the City to engage an architect to help determine what the space needs. He said he would like to see Council be okay with recommendations to the City Manager to engage an architect to start those discussions to figure out through surveys of Council and the community what would serve best there.

Mark Campbell said the City is in a 10,000 square foot building. He said the Council Chambers and Clerk of Council's Office takes up 2,000 square feet. He said City Hall is cramped for space. He said it makes some sense to move the Council Chambers to another location because the City Staff could use the space that the Council is occupying. He said it makes good sense to move Council to the new location as well as the services that the City is currently renting space for along with a Senior Center. He asked Bryan Chodkowski if he has the level of expertise to initiate a meeting with the architects to get ideas on paper and bring back those ideas to Council.

Richard Shaw said when he looks at updates for the Brandt Pike Revitalization, the Senior Center, and City Hall, he reverts back to the Council Work Session that took place on August 31, 2021 when the Mayor and Council gave direction to City Staff to provide updated drawings and information that he has yet to see. He said he cannot have a conversation about these agenda items when he has been waiting for that information. He said Council came out of that meeting with the understanding that Council would get the updated drawings and the architect information and then the City was going to ask the community and put the information out to them. He said he believes a Senior Center and municipal offices for tax, water, and parks could be at that location. He said there is a community center that could house offices. He said an overall analysis of what areas are available before putting shovels in the ground is needed.

Mayor Jeff Gore said what he is asking of Council is to authorize Bryan Chodkowski to engage an architect so Council can start having those discussions and make decisions. He said six months from now he does not want to be having the conversation that the City needs more municipal space without having engaged an architect to help decide what that space is going to look like, meaning what the space will entail and what makes the most sense. He said that is the purpose of the discussion.

Richard Shaw asked, other than what has been taken up by the library and Dogtown, what does the City have left to build upon. He said that is information he is looking for.

Mayor Jeff Gore clarified for Richard Shaw that he is talking about moving the Council Chambers and having City Staff take over the current Council space.

Glenn Otto said as far as getting an architect on board he is good with that part, but he asked who will be providing the input to the architect.

Mayor Jeff Gore said a Council Work Session could be held with the architect and have an open discussion where everyone has input on what they think the municipal space should include. He asked if there is any objection to having City Staff move forward with LWC as an architect for this purpose.

Bryan Chodkowski said unless Council wants multiple proposals, his idea would be to contact LWC since LWC is already so ingrained in this effort and ask for a proposal to submit for Council discussion and simply award a no bid professional services contract to LWC based on that proposal.

Mayor Jeff Gore said he wants continuity between what the library and the civic spaces look like. He said that is why he likes LWC.

Glenn Otto said he would like to see it go out to bid.

Kathleen Baker asked who is developing Dogtown.

Bryan Chodkowski said the architect is Ted Johannsen in Cincinnati.

Mayor Jeff Gore said he recommends LWC and either the majority agrees or disagrees. He said the civic space is going to be in the middle and he does not know why Council would not want all of those facilities to resemble one another.

Richard Shaw said he agrees this work should go out to bid for the simple fact that it garners certain attention from professionals who have done this work.

Mark Campbell confirmed with Bryan Chodkowski that the architect on the Huber Heights Veterans Memorial and the CR Dayton property was LWC and those projects were not bid out. He said he would personally be okay with LWC.

Mayor Jeff Gore said there are six Councilmembers here and if there are four that object to LWC, the recommendation would be to go out to bid.

Nancy Byrge said she supports LWC and going out to bid will delay it even more.

Glenn Otto said he is not objecting to LWC, but he would just like to see options. He said it was just pointed out that the City uses LWC for a lot of things and he asked when the last time was the City had a new visual on things. He said LWC is not the only architect in this area or region. He said it would be cool to get different visuals, views, and thoughts. He said he wants to be careful not to label this as a municipal project because again that was not the goal.

Mark Campbell asked Gerald McDonald what allows Council to not bid this project.

Gerald McDonald said there is a provision in the City Code to waive any and all bids for any reason Council believes to be in the best interest of the City. He said there are multiple ways to waive bids, one of them is through a professional services award. He confirmed for Mark Campbell that is how his law firm has continued with the City and it is the same with Suez Water.

Ed Lyons said LWC has done an excellent job and he has had no problem in the past bidding service contracts. He said he would prefer to reach out to LWC to get moving on this work sooner as opposed to later.

Kathleen Baker said if Council does not like what it sees from LWC, then Council can go a different direction.

After discussion and with majority consensus, Mayor Jeff Gore directed Bryan Chodkowski to reach out to LWC and begin the process.

Brandt Pike Revitalization

Bryan Chodkowski distributed information regarding the Brandt Pike Revitalization Project (see attached). He said the north end of the CR Dayton property and the majority of the furniture store have been demolished. He said the slabs are coming out this week and next week and the final restoration on the ground work should be completed the following week. He said he anticipates being in a go position for Dogtown and any other development by the end of January, 2022.

Richard Shaw asked if there is any movement on the August 31, 2021 information since the City is going to reach out to LWC for this architect information. He said he believes LWC was the architect that the previous City Manager stated would be able to give a, as Mr. Webb said, a "clean slate view" so that Council can start going out to residents and have that discussion on how the City is moving this project forward.

Mayor Jeff Gore said there are updates forthcoming.

Bryan Chodkowski said that is a good summary and he said updates will be forthcoming.

Mayor Jeff Gore confirmed for Nancy Byrge that that the City has a specific timeline with Dogtown that the City entered into in the development agreement to the point that if Dogtown does not start moving by a certain time frame that there are additional costs, and that there are incentives in the timeline to make sure the facility is up sooner than later.

Nancy Byrge asked for an update on the timeline for Dogtown at the next City Council Meeting.

Jonetta Street Sanitary Sewer Project

Russ Bergman distributed information and proposed legislation to create a special Jonetta Street sewer tap-in district. (see attached). He said this location is where there is a private pump station which needs repairs or replacement. He said the City agreed to install sanitary sewer which will go through the side yard in through the back yard and to the south to Brandonview Court. He said this tap-in district sets up a 20-year assessment for those residents, and that money will be used to pay for half of the installation of the sanitary sewer and will eliminate the existing pump station. He said all of the residents have signed a petition agreeing to pay for this assessment on their property taxes. He said construction is scheduled to begin soon. He said it has been held up due to having trouble getting manholes. He said once construction starts it should take only a few weeks.

After discussion, the City Council agreed to recommend approval of the proposed legislation to create a special Jonetta Street sewer tap-in district and requested that the proposed legislation be placed on the agenda at the January 24, 2022 City Council Meeting for a first reading as non-emergency legislation and adoption of the legislation at the January 24, 2022 City Council Meeting.

ODOT - Preliminary Consent Legislation - State Route 202 Resurfacing

Russ Bergman distributed information and proposed legislation to give consent to the Ohio Director of Transportation to resurface State Route 202 from Fishburg Road to the south corporation limit (see attached). He said this work is a little over a mile in length. He said the City has already upgraded handicap ramps in all of the intersections in this area to meet ADA standards and this work is a new ODOT requirement. He said he will bring back final legislation in the next two to three months for the City to agree to pay 20 percent of the construction costs. He said this initial legislation is just for consent for ODOT. He said the repaving is scheduled for the second half of the year.

After discussion, City Council agreed to recommend approval of the proposed legislation to give consent to the Ohio Director of Transportation to resurface State Route 202 from Fishburg Road to the south corporation limit and requested that the proposed legislation be placed on the agenda at the January 24, 2022 City Council Meeting for a first reading as non-emergency legislation and adoption of the legislation at the January 24, 2022 City Council Meeting.

New Sidewalk Discussion

Mayor Jeff Gore distributed information regarding new sidewalks (see attached). He said Nancy Byrge requested this item be on the agenda.

Nancy Byrge said during the past few years there have been numerous discussions about making the City more walkable and safer by installing sidewalks in well-traveled areas. She said Council has also discussed creating legislation requiring developers to include minimum five-footwide sidewalks on streets adjoining those developments. She asked Council to join with her to request legislation be drafted to formalize this requirement.

Richard Shaw said he stands with Nancy Byrge on this item.

Glenn Otto said he supports this item as well.

Bryan Chodkowski said there are no objections from City Staff on the requirement. He said City Staff will put together tentative language for Council to consider and he will have to get with the City Engineer and talk about what an appropriate timeline would be for bringing that legislation back to Council.

Russ Bergman said a lot of time when sidewalks are installed, you almost have to design that side of the road with curb in order to set the sidewalk to the right elevation. He asked if Council wants curb or just the sidewalk?

Bryan Chodkowski said there may be some issues with respect to City Code language or to developer interpretation where the City may require the design or the engineering of curb but may not require installation of that curb at the same time the City would require installation of the sidewalk. He said that is an internal measure that City Staff can work out.

After discussion, City Council agreed to recommend that City Staff draft the necessary language to address new sidewalks in the City Code for discussion at an upcoming Council Work Session.

<u>Ordinance Modification – Huber Heights City Code – Section</u> 509.08(b)(10) – Disturbing The Peace

Gerald McDonald distributed information regarding modifications to the Huber Heights City Code to address construction noise (see attached).

Mayor Jeff Gore said Council had talked about having an ordinance outside of the typical Disturbing The Peace section of the City Code that deals with construction noise or disturbances. He said he has a concern telling builders they cannot work on Saturdays. He said he does not think there is any city around that does not allow people to work on Saturdays. He said he would like to see a blanket 7:00 A.M. to 7:00 P.M. for Saturday work. He said as an example if a concrete truck pulls up and is warming up at 6:30 A.M., that is in violation of the City Code.

Gerald McDonald said there were some comments from City Staff not in this legislation for things like emergency type situations, water main breaks, etc. He said he would like one more Council Work Session to incorporate those comments as he did not do it because he thought there would be comments from Council. He said there are two different things he is proposing, one is the civil infraction concept of it and the other is the disturbing the peace section will need to be amended if Council wants to make it for 7:00 A.M. to 7:00 P.M. Monday through Saturday. He said the other provision that he thought may be more beneficial would be to put the language that is at the end of this information into the PUD agreement. He said there is a standard PUD agreement with everybody, and the language could be put in there so that the developer or whoever signs the PUD agreement is going to be responsible or the City will put a stop work order on it. He said all of the new developments causing the problems are in PUD's and that will probably solve the problem more so than the other stuff will.

Ed Lyons confirmed with Gerald McDonald that the fine would be a not to exceed of \$250 as identified by the City Manager.

Gerald McDonald said the City needs to be careful how much it is charging. He said if the company receives three violations, a stop work order can be issued until everything is paid.

Richard Shaw asked that before this item comes back to Council with revisions, that Council get solid clarification that Police Chief Mark Lightner and the Police Division know exactly what this City Code section is going to say so that the Police Division knows these provisions are enforceable.

Glenn Otto said he will not support this item as within the purpose and background of this agenda item it states, "Construction on Saturdays due to noise has become an issue lately." so Council's correction is to allow construction noise on Saturday apparently. He said that logic does not make sense to him.

After discussion, the City Council requested that the Law Director prepare draft legislation regarding changes to the City Code for construction noise. The City Council also requested that this agenda item be discussed again at the next Council Work Session.

Huber Heights Polling Locations

Anthony Rodgers distributed information regarding Huber Heights polling locations (see attached). He said the Law Director was asked to contact the Miami County Prosecutor and/or the Ohio Secretary of State's Office to ascertain the basis for the legal opinion the Miami County Board of Elections had referenced in not being able to establish polling locations outside of the county.

Gerald McDonald said the Prosecutor told him if there was such a legal opinion, he would be glad to share it, and he heard nothing and there was no return call from the Miami Board of Elections. He said he did his own research and citizens are required to vote in the county in which they reside. He said if that is the case, then Miami County is correct that the polling place would need to be in the county. He said the Ohio Secretary of State has confirmed the power is vested within the county board of election officials as to where the polling places go. He said he has no reason to doubt the board of elections cannot establish a place in Montgomery County for the Huber Heights/Miami County people to vote.

Anthony Rodgers said the polling locations would remain the same for 2022 and then the plan is to relocate the polling locations for the Huber residents in Miami County to Bethel Schools in 2023 and that would allow for continued discussions to see if a location can be found in the Huber Heights portion of Miami County.

Mayor Jeff Gore asked Anthony Rodgers and Gerald McDonald to make sure they have left no stone unturned about how frustrated the City is and to determine whoever else needs to get involved with this issue because there are residents driving ten miles to vote, the mapping process still is not finished, so to say this change could not be done before the primary almost does not make sense because the primary may not even happen in May, 2022. He said he wants to make sure there is absolutely nothing the City can do to expedite moving polling location closer to Miami County residents.

After discussion, the City Council requested that the Law Director and the Clerk of Council follow up on this issue. The City Council also requested that this agenda item be discussed again at the next Council Work Session.

City Manager Recruitment Brochure

Anthony Rodgers distributed information regarding the City Manager recruitment brochure (see attached). He said on December 28, 2021, he received the draft recruitment brochure from Baker Tilly which he distributed to Council and asked for comments from Council. He said he received some comments and feels there were good points made. He said Baker Tilly concurred there could be some adjustments to reflect those recommendations including talking about the strong military association with Wright-Patterson Air Force Base, highlighting some of the additional larger employers in the City, and mentioning in more detail about the ethnic diversity of the community and the commitment to maintain roadways as well as the water infrastructure. He said City Staff are trying to find better pictures of City Hall. He said this brochure is supposed to be a summary and not a book so not every element can be included. He said the other major area of discussion involves the last page which talks about compensation and benefits. He said the statement currently states residency within the City limits of Huber Heights is strongly preferred. He said in talking with Baker Tilly, she said the issue of residency would be a major discussion point as they narrow the applicant pool down and to make sure the applicant understood the City has an expectation the City Manager would reside within the City as part of their employment. He said this message needs to be consistent and clear throughout the process.

Mayor Jeff Gore said he thinks it needs to be stated in the brochure that residency is required, not preferred. He said there is no reason not to be transparent in the beginning stages.

Anthony Rodgers said he asked Gerald McDonald to take a stab at language that would meet legal muster as the situation stands vis a vis the City Charter and the Ohio Supreme Court decision as it relates to residency. He said Gerald McDonald came back with a provision and he read it to Council. He said that language would be an option if Council would like to change the language about residency.

Nancy Byrge said the salary range needs to be changed.

Bryan Chodkowski said he would encourage Council to consider invalidating the salary range within the Table of Organization and for the purpose of this advertisement to say the salary is regionally competitive.

Gerald McDonald recommended listing the current salary of the Interim City Manager position and state the salary is dependent on the candidate or something to that effect.

There was additional discussion with the City Council regarding the salary range and the current salary of the Interim City Manager.

After discussion, Mayor Jeff Gore recommended stating the current salary of the Interim City Manager and then state the salary is based on candidate qualifications in the recruitment brochure.

Executive Session - Sale Of Property

Mayor Jeff Gore said there is need for an Executive Session.

Anthony Rodgers said the motion is to go into Executive Session to consider the sale of property at competitive bidding where premature disclosure of information would give an unfair competitive or bargaining advantage to a person whose personal, private interest is adverse to the general public interest.

Nancy Byrge moved to enter into Executive Session for the reason stated by Anthony Rodgers; Kathleen Baker seconded the motion.

Glenn Otto asked for a defined property area. He said his concern is if this sale of property is somewhere within the Brandt Pike Revitalization area; this Executive Session would not be appropriate because Council just discussed it would be bringing some stuff back to start step one in the process.

Anthony Rodgers said this motion was language prepared by the Law Director and he said typically the motion would not get that specific in the identification of the property because the purpose of going into Executive Session is to protect that information. On a call of the vote, Ms. Baker, Mr. Campbell, Mrs. Byrge, Mr. Otto, and Mr. Lyons voted yea; Mr. Shaw voted nay. The motion passes 5-1.

The Executive Session began at 9:21 P.M.

The Executive Session ended at 9:37 P.M. after the departure of Richard Shaw and Glenn Otto from the Executive Session at 9:35 P.M. resulted in a loss of a quorum for the meeting.

Mayor Jeff Gore said Richard Shaw and Glenn Otto decided not to continue participating in the Executive Session and left without any explanation; so, with lack of a quorum for the meeting, the City Council had adjourned from the Executive Session, and he was adjourning the Council Work Session due to the lack of a quorum. He said no decisions were made following the Executive Session.

Other Business

There was no other business conducted at the Council Work Session.

4. Adjournment

Mayor Jeff Gore adjourned the Council Work Session at 9:37 P.M.

Presentation

Huber Heights Culture and Diversity Citizens Action Commission 2021

Members: Yolanda Stephens, Chairperson Rhonda Sumlin, Co-Chairperson Dr. Fred Aikens Mia Honaker Jean Newby Tara Purvis Arrick Richardson Eric Stephens

Mission

The Culture and Diversity Citizen Action Commission was established to act in an advisory capacity to City Council and the City Manager to promote equal opportunity and the full exercise of civil rights for all persons without discrimination because of race, ethnicity, color or national origin to combat discrimination, racism and other biases through education, mediation, policy, legislation, and complaint review/resolution.

HH Culture & Diversity Citizens Action Commission

- Make recommendations to the City Council and the City Manager that minimize the effects of civil rights conflicts and promote an appreciation of diversity within the City.
- Provide a variety of services, education and cultural programs that promote global thinking
 - Encourage civil and human rights awareness
 - Reflect the rich diversity found in the City.

Services and programs may include:

 Diversity and inclusion training, topical forums, voter education and registration, and community celebration.

The Culture and Diversity Citizen Action Commission may also serve as a review/advisory

Advocacy Committee

Objective: To ensure that a local minority owned business felt support from the Huber Heights community. We brought the community together to stand in solidarity with a local minorityowned business that was the target of repeated, senseless acts of violence. These repeated acts of violence can create financial, mental, and emotional distress for the victims.

Outreach Committee

Middle School / Black History Month Essay Contest

Contest conducted during February 2021. The topic, "The most inspirational African American person that I have learned about during Black History Month is _____; this is why."

Successes

- Introduced the commission to the HHCSD and students
- Inspired students to write essays about influential African Americans
- Provided \$500 in prizes to students

Lessons Learned

- Get teachers involved to increase number of submissions
- Increase incentive amounts to motivate students to apply

Outreach Committee (cont.)

High School / Indigenous Peoples Essay Contest

Fall contest conducted during Nov./Dec 2021. The topic, "Why is it important to honor the history of indigenous peoples in America and what can non-natives do to further the restoration of Indigenous life and culture?"

- Teachers involved in encouraging submissions
- Increased award amounts to \$1,000.00

Multicultural Festival 2021- Postponed until 2022 due to pandemic

Huber Heights Culture Week scheduled for June 29th to June 25, 2022. Culminating in Culture Festival on Saturday, June 25th.

Reform Committee

Accomplishments

- Reviewed HHPD's response to the NAACP 8-point Initiative regarding police reform to assess progress. Held several productive discussions with Police Chief
- Reviewed all HHPD general orders/policies and them posted on the HH City website for public awareness
- Submitted formal recommendation to City Council to establish an independent Citizens Action Review Board to review citizen complaints
- Provided recommendation to Police Chief to have HHPD post position openings with minority professional organizations (e.g. National Organization of Black Law Enforcement Officers (NOBLE)
- Organized public forum on Policing with Huber Heights and Vandalia Police Chiefs (with Education Committee)

Recommendations to City Council

October 2021:

Recommendation to acknowledge Ms. Lucille Dale.

July 2021:

1: Citizen Complaint Process Recommendation (Reform Committee)

<u>Recommendation:</u> Recommend that an independent review board be established to investigate complaints submitted by citizens. This citizens' complaint review board would function similar to the new Dayton Citizens' Appeal Board.

- 2. Recommendation to gather(and report on) EEO data in applicant process to assist in ensuring that Huber Heights is an equal opportunity employer.
- 3. Recommendation: Adoption of Black-owned Business of the Quarter (Advocacy Committee)

Recommendations: February 2021

- 1. Resolution denouncing racism and recognizing it as a public health crisis.
- 2. Website:
 - A statement on the city of HH website denouncing racism.
 - Revise the HH website with a diverse equity lens. Our city website does not reflect the richness of our community.
 - Create a web page layout for the commission, such that each committee will have a link to their own designated page. Committee pages will include things such as mission, activities, committee member contact information, resources, etc.
- 3. Provide an unbiased reporting process for citizens to voice concerns and submit complaints through an unbiased means without fear of retaliation. This process and means to report will be visibly placed on the city website.
- 4. Staff, leadership, boards, and commissions diversity training: All city leadership, staff, boards, and commissions attend required annual diversity education training.

Recommendations from February 2021

5. Proclamation, Recognition & Observance of the following:

Juneteenth (annually) - held June 19, 2021 this year.

Indigenous People Day (on Columbus Day)

6. It is suggested that City Council consider opening meetings with a land acknowledgement in recognition of indigenous people.

For information purposes:

MLK Day 2022, January 17th

Ensure that city is prepared with resources like microphones, tents, personnel, closure of streets, and any other needed items.

2022 Moving Forward

MONDAY, JANUARY 17, 2022

Masks are encouraged and social distancing guidelines will be followed.

Outreach Committee

- Huber Heights Culture Week, June 19th to June 25th, 2022
- Juneteenth Funk Festival, Sunday, June 19, 2022 (Rose or Eichelberger)
- Culture Festival on Saturday, June 25th. 12:00pm to 6:00pm (Eichelberger)
- Other activities during the week being planned
 - Racism as a Public Health Crisis, Part II (Thursday)
 - Financial Literacy Seminar (TBA) Looking for sponsors

Additional Goals and Initiatives

- Continue to focus on diversity recruitment initiatives
- Continue to support the 8 point initiatives of the NAACP
 - Provide recommendations to the city to work toward developing a concrete plan on how to build and sustain safety, employment opportunities, and equity within our community.
 - Assist and make recommendations that help the city to promote on-going education that will begin to dismantle systems that breed implicit biases, racial misconceptions, hatred, and inequities

-(NAACP letter to Dayton Mayors and Managers Association and Montgomery County Association of Chiefs of Police, 2020)

 The Culture and Diversity Citizen Action Commission may also serve as a review/advisory panel for investigations and complaint resolution for bias-based issues brought about within the community or City government.

We need your involvement to succeed!

- Attend our meetings and events and show your support
- Spread the word about the Commission events and initiatives in your prospective wards
- Continuously connect with your diverse constituents to understand needs
- Initiate, embrace and be a voice for change
- Be open to new thoughts and ideas
- Be a continuous learner
- Share what you've learned

Staff Report for Meeting of December 14, 2021

To: Huber Heights City Planning Commission

From: Jason Foster, Economic Development Coordinator

Date: 12/1/2021

Subject: ZC 21-47 (Rezoning of a total of 22.968 acres to PR-Planned Residential and approval of a Basic Development Plan)

Application dated November 16, 2021

Department of Planning and Zoning	City of Huber Heights
APPLICANT/OWNER:	Campbell Berling – Applicant Richard Stork - Owner
DEVELOPMENT NAME:	Addington Place
ADDRESS/LOCATION:	East side of Bellefontaine Road and South of Chambersburg Road
ZONING/ACREAGE:	A / 22.968 acres
EXISTING LAND USE:	Agricultural
ZONING ADJACENT LAND:	Agricultural and Planned Residential
REQUEST:	The applicant requests approval of a Rezoning and Basic Development Plan for 22.968 acres at East side of Bellefontaine Road and South of Chambersburg Road
PREVIOUS APPROVAL:	
APPLICABLE HHCC:	
CORRESPONDENCE:	In Favor – None Received In Opposition – None Received

STATEMENT OF FACT:

The applicant requests approval of a Rezoning to Planned Residential and Basic Development Plan for 22.968 acres on Bellefontaine Road for a residential subdivision.

STAFF ANALYSIS AND RECOMMENDATION:

Overview

The applicant, Campbell Berling, is looking to develop 22.968 acres on the east side of Bellefontaine Road. The applicant did appear for a pre-application conference several weeks ago. The intent is to build 132 residential lots. The request is to re-zone to Planned Residential for this development.

The Zoning Code is as follows:

Chapter 1172 – (PR) Planned Residential District

1172.01 - Principal permitted uses.

The following principal uses are permitted, provided that they are approved as provided for in this chapter:

- (a) All residential uses permitted in all other chapters of the Zoning Ordinance such as: one family dwellings, two family dwellings, multiple family dwellings, including garden apartments, row houses, quadraminiums and condominiums;
- (b) Churches and other places of worship;
- (c) Colleges, primary and secondary schools under School Board or Parochial supervision, and public libraries;
- (d) Public recreation buildings, parks, playgrounds and athletic fields under School Board, Parochial, other governmental supervision or "homeowners association" supervision; and
- (e) Uses designed solely to serve in a complimentary way the needs of this District above.

(Ord. 89-O-339, Passed 2-6-89)

1172.02 - Accessory uses.

The following accessory uses are permitted:

- (a) Uses customarily incidental to all permitted uses; and
- (b) Temporary structures and uses required during construction in this District.

(Ord. 89-O-339, Passed 2-6-89; Ord. No. 2019-O-2398, § 1, 10-14-19)

1172.03 - Development standards.

Except when specifically modified herein, the provisions of Chapter 1181, "General Provisions", shall govern. In addition, the following development standards apply:

- (a) Minimum "PR" Land Area Requirement.
- (1) A minimum of one acre shall be required.
- (b)Dwelling Unit Density—Five Dwelling Units.
- (1) The average dwelling unit density for the entire district shall not exceed five dwelling units (DU) per acre.
- (2) Minimum area standards such as individual lot size, frontage, setbacks, side, and rear yards shall be those prescribed in the City approved detailed final development plans, except that: A. Lots for detached single family dwellings shall meet each of the standards set forth in Section 1147.04.
- (c)Dwelling Unit Density-Eight Dwelling Units.
- (1) Dwelling unit density for the entire district shall not exceed eight dwelling units per acre of land on which dwellings are constructed. For example, if the entire district is three acres but dwellings are constructed on two acres only, dwelling unit density for the entire district shall not exceed 16 dwellings.
- (2) Minimum area standards such as individual lot size, frontage, setbacks, side, and rear yards shall be those prescribed in the City approved detailed final development plans, except that: A. Lots for detached single family dwellings shall meet each of the standards set forth in Section 1147.04.
- (d)Dwelling Unit Density—Twelve Dwelling Units.
- (1) Dwelling unit density for the entire district shall not exceed 12 dwelling units per acre of land on which dwellings are constructed. For example, if the entire district is three acres but dwellings are constructed on two acres only, dwelling unit density for the entire district shall not exceed 24 dwellings. (2) Minimum area standards such as individual lot size, frontage, setbacks, side and rear yards shall be those prescribed in the City approved

detailed final development plans, except that: A.Lots for detached single family dwellings shall meet each of the standards set forth in Section 1147.04.

(e)Character of Neighborhood. Use of the Planned Residential Zoning District for developments with a proposed dwelling unit density greater than five dwelling units per acre shall be considered only when the district is bounded at least on one side by R-5, R-6, R-7, O-1, B, I, or Planned Development Districts.

(Case 378, 6-17-76; Case 235, 7-11-94; Ord. 94-O-711, Passed 7-11-94; Ord. 2006-O-1664, Passed 10-23-06)

1172.04 - Parking and loading.

(a)The provisions of Chapter 1185, "Parking and Loading", shall apply, except that at least two permanently maintained parking spaces shall be provided for each family unit, except for detached single family dwellings.

(b)Required parking spaces shall not be part of public thoroughfares, private roads leading to and serving the sites of the various uses in this district.

(Ord. 89-O-339, Passed 2-6-89)

1172.05 - Utilities.

The distribution systems for utilities are required to be underground.

(Ord. 89-O-339, Passed 2-6-89)

The request is for the following:

The City's Comprehensive Plan calls for this area to be single family residential. The proposed density is 5.7 units per acre.

Sanitary Sewer and water will connect into the City's public, main system. Water and sanitary are located along Bellefontaine Road. A pump station will be installed to move waste to the sanitary sewer system. Drainage will be handled through a public storm sewer system including a detention basin, following the City's code for storm water drainage. Bellefontaine Road has already been improved; however, staff recommends a drop lane for right hand turns into the development and a short acceleration lane out of the development. The interior street network of the development will be public with curb and sidewalk throughout.

This subdivision is proposing attached, patio homes on two styles of lots, 60 foot and 68 foot. Of the 132 total lots, 62 are proposed to be 60-foot lots and 70 are proposed to be 68-foot lots. All lots are proposed to have a minimum lot depth of one hundred ten (110) feet, twenty-five (25) foot front yard setback, a minimum of twenty-five (25) foot rear yard setbacks, and six (6) foot side yard setbacks. The proposal also calls for forty (40%) percent masonry on the front facades of each unit. This is significantly higher than the typical recommendation of twenty-five (25%) percent.

1171.05 - Contents of basic development plan.

- (a) The basic development plan shall consist of at least the following information together with such other data and materials as may be required by the City:
- Site plan showing the actual shape and dimensions of the lot to be built upon or to be changed in its use together with the location of the existing and proposed structures with approximate square footages, number of stories including heights of structures;
- (2) Typical elevation views of the front and side of each type of building;
- (3) Planning location and dimensions of all proposed drives, service access road, sidewalks, and curb openings;
- (4) Parking lot areas (show dimensions of a typical parking space), unloading areas, fire lanes and handicapped parking;
- (5) Landscaping plan, walls and fences;
- (6) Storm water detention and surface drainage;
- (7) Exterior lighting plan;
- (8) Vehicular circulation pattern;
- (9) Location and square footage of signs;
- (10) Topographic survey; and
- (11) Listing of proposed uses taken from the list of permitted and special uses of the PUD zoning district to which rezoning is being sought.

(b)The Planning Commission shall schedule both the proposed rezoning and the issue of approval of the basic development plan for a combined public hearing, following which it shall make its recommendation indicating approval, approval with modification or disapproval.

(Ord. 2006-O-1655, Passed 9-25-05)

1171.06 - General standards for approval.

The Planning Commission shall review the application, prepared development plan and the facts presented at the hearing. The applicant shall have the burden of proof. No approval shall be given unless the Commission shall find by a preponderance of the evidence that such PUD on the proposed locations:

- (a) Is consistent with official thoroughfare plan, comprehensive development plan and other applicable plans and policies;
- (b) Could be substantially completed within the period of time specified in the schedule of development submitted by the developer;
- (c) Is accessible from public roads that are adequate to carry the traffic that shall be imposed upon them by the proposed development. Further, the streets and driveways on the site of the proposed development shall be adequate to serve the residents or occupants of the proposed development;
- (d) Shall not impose an undue burden on public services such as utilities, fire, and police protection, and schools;
- (e) Contains such proposed covenants, easements and other provisions relating to the proposed development standards as may reasonably be required for the public health, safety and welfare;
- (f) Shall be landscaped or otherwise improved and the location and arrangement of structures, parking areas, walks, lighting and appurtenant facilities shall be compatible with the existing intended uses, and any part of a PUD not used for structures, parking and loading areas, or accessways;
- (g) Shall preserve natural features such as water courses, trees and rock outcrops, to the degree possible, so that they can enhance the overall design of the PUD;
- (h) Is designed to take advantage of the existing land contours in order to provide satisfactory road gradients and suitable building lots and to facilitate the provision of proposed services;
- Shall place underground all electric and telephone facilities, street light wiring and other wiring conduits and similar facilities in any development which is primarily designed for or occupied by dwellings, unless waived by the Commission because of technical reasons;
- Shall not create excessive additional requirements at public cost of public facilities and services and shall not be detrimental to the economic welfare of the community;
- (k) Shall not involve uses, activities, processes, materials, equipment, and conditions of operation that shall be detrimental to any persons, property or the general welfare by reason of excessive production of traffic, noise, smoke, fumes, glare, or odors; and

 Rezoning of the land to the PUD District and approval of the development plan shall not adversely affect the public peace, health, morals, safety, or welfare.

(Ord. 93-O-602, Passed 3-22-93)

1171.07 - Review and recommendations by planning commission.

The Planning Commission shall review the proposed PUD as presented in the application and basic development plan in terms of the standards in Section 1171.06 and the specific requirements as outlined in all Planned Unit Developments. The Commission shall hold a public hearing on the proposed PUD. At least ten days in advance of such hearing, notice of time and place of such hearing shall be published in a newspaper of general circulation in the City. Written notice of such hearing shall be mailed at least ten days before the public hearing to the owners of property located within 200 feet of the property proposed for the PUD. The Planning Commission shall make its recommendation, indicating approval, approval with modifications, or disapproval. If the Commission recommends approving rezoning of land to a PUD District and also approves a basic development plan for the area to be rezoned, it may impose upon that plan any additional requirements or conditions deemed appropriate by the Commission to ensure that the development shall meet the standards described in Section 1171.06 and shall comply with the intention and objectives of this Zoning Ordinance.

If the owner chooses to submit a combined development plan, the Planning Commission shall review the aspects of it constituting the basic development plan pursuant to the standards set out in Section 1171.06. The detailed development plan aspects shall be reviewed in the same manner as provided herein for review of detailed development plans.

(Ord. 93-O-602, Passed 3-22-93)

1171.08 - Action by council.

Council shall hold a public hearing for application for rezoning and approval of the basic development plan (or combined development plan) after receiving the proposal from the Planning Commission. At least 15 days' notice of the time and place of such public hearing shall be placed in a newspaper of general circulation in the City. Written notice of such hearing shall be mailed at least ten days before the public hearing to the owners of property located within 200 feet of the property proposed for the PUD. Council shall approve, reject or approve with modifications the rezoning and basic development plan in the same manner as other rezoning requests. If the applicant has chosen to submit a combined development plan, Council shall review the aspects of it constituting the basic development plan pursuant to the standards set out in Section 1171.06. If Council

approves the basic development plan aspects of a combined development plan, the detailed development plan shall be deemed to be approved and no further action shall be required for the area covered by the combined development plan. If the basic development plan aspects of a combined development plan are modified, the combined development plan shall be changed in all aspects to meet that modification. The City staff in charge of plan review shall determine when the basic development plan or combined plan meets the modification required by Council.

(Ord. 93-O-602, Passed 3-22-93)

1171.11 - Changes in the basic and detailed development plans.

A PUD shall be developed only according to the approved and recorded detailed development plan and supporting data together with all recorded amendments and shall be binding on the applicants, their successors, grantees and assigns and shall limit and control the use of premises (including the internal use of buildings and structures) and location of structures in the PUD as set forth therein.

- (a) Major Changes. Changes which alter the concept, uses or intent of the PUD including increases in the number of units per acre, change in location or amount of nonresidential land uses, more than 15 percent modification in proportion of housing types, significant redesign of roadways, utilities or drainage, may be approved only by submission of a new basic plan and supporting data in accordance with Sections 1171.03, 1171.04 and 1171.05.
- (b) Minor Changes. The Zoning Officer recommends to the Planning Commission approval or disapproval of the minor changes in the PUD. Minor changes are defined as any change not defined as a major change.

(Ord. 89-O-339, Passed 2-6-89)

Fire Department Comments:

The Huber Heights City Code Part 15 Refers to Fire Code Requirements and has adopted by reference OFC and IFC Appendices

Approved per Review of Ohio Fire Code and adopted Life Safety Standards based on the following:

- One- or two-family residential projects having more than 30 dwelling units shall be equipped with two separate and approved fire apparatus access roads in accordance with Ohio Fire Code D106.1. A secondary access is shown connecting Bellefontaine Road and new road. This access shall comply with the following:
 - o Be a minimum 20 feet wide (Ohio Fire Code 503.2.1)
 - Constructed of materials capable of handling 75,000 pounds (Ohio Fire Code D102.1.)
- The turning radius for fire department access roads shall meet requirements for Huber Heights Fire Division (HHFD) vehicles. Contact HHFD to obtain information. OFC 503.2.4 and Appendix D103.3.
- Site utility plan showing fire hydrants has not been provided.
- Hydrants in single-family residential districts shall be placed not more than 500 feet apart, measured on the main, and no more than 400 feet from any opening in any building. Review Huber Heights Codified Ordinance 1521.06(b) for additional requirements.
- All new water mains and any existing water mains that are replaced shall be eight inches in diameter or greater in all one-, two- and three-family dwelling areas and in multi-family areas or commercial areas. All water

mains shall be sectionalized and looped when reasonably feasible and achievable. Dead end water mains shall only be permitted upon written approval from the Fire Official and City Engineer. Huber Heights Codified Ordinance 1519.01 - Water mains.

 The minimum fire-flow and flow duration requirements for one- and twofamily dwellings shall comply with Ohio Fire Code B105.1. Documentation shall be provided.

Plans reviewed by the Huber Heights Fire Division are reviewed with the intent they comply in <u>ALL</u> respects to this code, as prescribed in <u>SECTION (D)</u> <u>104.1 of the 2017 Ohio Fire Code</u>. Any omissions or errors on the plans or in this review do not relieve the applicant of complying with <u>ALL</u> applicable requirements of this code. These plans have been reviewed for compliance with the Ohio Fire Code adopted by this jurisdiction. There may be other regulations applicable under local, state, or federal statues and codes, which this department has no authority to enforce and therefore have not been evaluated as part of this plan review.

Good Afternoon!

As a resident of the Oaks of Huber, my husband and I are writing today in opposition to ZC 21-47 for the rezoning of the property across from the Oaks to build patio homes and duplexes. As with the other property adjacent to the Oaks, the proposed properties are not the same standards as the Oaks requires and we feel it will not only lower our property values but will also create too much traffic congestion at the entrance to the oaks. At times, it is very hard to get out turning left towards Chambersburg because of the volume of traffic, adding this many properties will further increase the issue. Houses on that plot of land should be in comparison to the Oaks properties as to maintain the integrety of the area. Thank you for the chance to voice our opinions.

Dear Mr. Foster,

Please add our opposition letter to the packet for the Planning Commission meeting on December 14th.

Thank you.

OPPOSITION TO ZC 21-47

We are opposed to the application for rezoning the property east of Bellefontaine and south of Chambersburg (ZC 21-47).

The City's Comprehensive Plan clearly states that future development of this land be single family detached homes on medium to large lots. This proposal does not meet the City's Comprehensive Plan and should be denied on that basis.

Additionally, the abutting land is all either agricultural or residential lots with a minimum of 3 acres each. This application does not conform with existing surrounding property uses. This application seeks to place houses 20 feet from agricultural uses (including farm animals), from agricultural and excavation equipment, farm ponds and from land that has been hunted on for over four generations.

Also, the high density of this application will cause significant traffic issues, especially with the entrance being placed directly opposite the entrance to The Oaks. The applicant is requesting to place 132 homes on 22.9 acres; by comparison, The Oaks has 202 homes on 116.9 acres.

Please deny the application to rezone this property.

Cindy and Brad Smith

Good evening all,

I hope this email finds you all well. My name is Fred Aikens. I am a homeowner in the Oaks of Huber Heights and I am sending this email to express my opposition to the rezoning of the cornfield directly across Bellefontaine Road. For the purpose of clarity, this is the exact information from the agenda for the meeting on Tuesday:

"REZONING - The applicant, Campbell Berling, is requesting approval of a Rezoning and Basic Development Plan to PR (Planned Residential) for property located on the East side of Bellefontaine and South of Chambersburg Road (ZC 21-47)."

I am writing for the same reasons expressed by many of my neighbors in regard to density and the number of units in such a small area. This proposed development will negatively affect the aesthetics of the neighborhood as well as adversely affect the property values of those who decided to invest in our development (The Oaks of Huber Heights). After speaking to a few neighbors, I learned that adding such large numbers of new residents may also have a negative effect on already overcrowded primary schools in the area.

I believe in the Huber Heights Motto, "Come grow with us". I also believe that we need to be strategic about the growth of our city. As homeowners, we cannot afford to allow developers to come into the city and cause irreparable damage to our neighborhoods. When my wife and I decided to build here, we did so because of the neighborhood and the people who live here. Hopefully, our elected officials will help us in keeping it the way it was when we made that decision. I trust that the voices of concerned citizens will assist you in your deliberations. Your decision to protect our neighborhood is greatly appreciated.

Thank you for taking the time to hear and read about our concerns.

Dr. Fred A. Aikens HOA Board Member The Oaks of Huber Heights

I oppose the rezoneing for the New Development going in across fron The Oaks on Bellefontaine Rd. This property is mostly bordered by single family residences on at least 3 acres of land, which would have a maximum density of 0.33. The Oaks is across the street, adjacent to the property and our density is 2.05. This project does not fit the aesthetics of our overall neighborhood and we believe it will adversely affect our property values. Thank You Roger Zambile

Ms Foster, Mr Lyons, Ms Byrge

I am writing this is opposition to the planned development the developer has proposed. I will keep it OBJECTIVE as I did the last time the old church property adjacent to the Oaks using my license as a professional comprehensive planner.

1) The current Huber Heights plan is for single family units and would be a great development if done right not duplex patio homes.

2) Size and density do not complement the surrounding area. from third acre to acre in the Oaks to 3 to 5 in the area where Mr Lyons has his home just beyond the tree line.

3) You have a stream on the north end of the property that is wetlands under the Ohio and National guidelines and must be protected. The retention pond is required for this area and at this density you are penalized for a new development as you have over 40% impermeable surfaces. The developer has not provided his calculations.

4) based on this design you would need a stop sign for the cross intersection under traffic guidelines and density. A T intersection is much better just as you have in many areas along Bellefontaine.

5) Need a buffer a proper setbacks at the substation and primary high voltage lines.

6) Only one entrance where you require two just as council voted for the old church

property. Remember the church property is 32 units with two entrances. This is 132 Units with one. Fire codes emergency response, police etc. This is basically a zero lotline scenario and as a previous fire marshal and chief seven time the ability to respond to emergency's put an extreme risk to the responders much less the neighborhood.

7) This design is not ready for prime time except for the dollars the developer and their investors will make. They need to take into account traffic, response, density, compatibility to surrounding homes and development.

8) the Oaks was a master planned community nearly four times as large with slightly more than the 132 unit. The city approved this and surrounding areas to be single family and should be maintained with similar size, brick, basements, 2-3 car garages, adequate setback and area between each unit.

9) The items above are just a small sample of the inequities of this proposal based on my expertise as a comprehensive planner during my 25 years in the Air Force. I urge you to take note of this items and ensure the development is done correctly in conduction with the surrounding area, adequate fire and emergency response, and meeting all necessary environmental guidelines from the Ohio and Federal EPA statutes.

I plan on attending the planning meeting and hope for good interchange with the developer and planning board.

Questions please email me or call as tony has my number. Thanks in advance for your time.

Warmest Regards Ron Deak

CAUTION EXTERNAL EMAIL: This message originated from a non Huber Heights email server. DO NOT CLICK ANY LINKS or OPEN ANY ATTACHMENTS unless you have contacted the sender to verify its legitimacy or confirmed you were expecting it. Contact the IT Department if you need assistance.

Dean Planning Commission Officer, I am opposed to the following development plan for the reasons stated below.

This development is planned on 22.968 acres and has 66 duplexes for a total of 132 units. They are one and two story patio homes which means no basement.

Their lots are a minimum of 2500sf and 5 feet to the lot line, 25 foot setback for the front and 20 feet for the back. The lots in The Oaks are a minimum of 12,000sf, 10 feet to the lot line, 25 foot setback in front and 40 feet for the back. Huge difference!

The density of that project is 5.7 units per acre; while the density of The Oaks is 2.05. This will increase traffic dramatically. Their entrance will be directly across from ours which will cause difficulty especially during commuting hours.

The City has a Comprehensive Plan which calls for this property to be single-family, detached homes. This property is mostly bordered by single family residences on at least 3 acres of land, which would have a maximum density of 0.33. The Oaks is across the street, adjacent to the property and our density is 2.05. This project does not fit the aesthetics of our overall neighborhood and we believe it will adversely affect our property values.

Thank You for you mindful consideration for those of us that live in the OAKs .

Sincerely Yours, Warren & Catherine Taldo 5921 Oak Creek Trail, Huber Heights, Oh. 45424

Hello,

We've heard about the proposed development across from the Oaks Subdivision on Bellefontaine Road. If it is true that it is going to be patio homes (duplexes) then I am against this happening. I've heard this is zoned for single family homes and should stay that way. It would be best if the properties are similar to the Oaks and the DR Horton Development on Silver Oak. I plan to attend the meeting this week.

Thanks, Jason Williams Lot 135 Oaks Subdivision 6040 White Oak Way

Regarding property ZC 21-47 on bellefontaine rd:

I own the property immediately to the north of this area. I bought here for space and privacy. My home is oriented so my windows face away from my only neighbor to my north. The plans call for many homes to back up to my southern property line where all my windows face, which would completely remove any privacy I have.

Visual barriers that currently exist along the common property line would be insufficient, especially during winter when leaves are gone and they will not stop noise.

Traffic along bellefontaine road is fairly high right now. Some people consider it a drag strip which is annoying and noisy. Adding many more houses will increase this traffic and the noise.

Thank you for the opportunity to express my opposition. I look forward to hearing what decisions are made.

Michael J. Harman 937-768-9561

Mr. Foster,

My name is Tracy Harman and I live at 6480 Bellefontaine Road. I am contacting you to tell you of my opposition to the planned building of a huge number of duplex homes to the south of my property on Bellefontaine Road.

We purchased this property in July of 2019. We loved the privacy of the lot, yet the close proximity of all Huber Heights has to offer.

We just went through the mess of Bellefontaine Rd being worked on & raising the dip in the road that caused dangerous lack of visibility. As a result of that road work, we have lost all of the privacy we had along Bellefontaine Road, as well as adding obstruction for leaving our driveway (heading north).

The number of planned houses that would be built on the 22 acres south of our property is insane. The documents on the Huber Heights website show that any planned building on that property was to be single family homes. That was what we saw when we purchased our property here.

Please let me know if there is anything else I need to do to make my voice heard. My husband & I will be at the meeting on 14 December at 6 pm.

Thank you for all you do for our community,

In response to Brad and Cindy Smith's email below, I am providing this email for your attention and action as appropriate.

I strongly oppose subject construction plan/rezoning as it continues to degrade the Oaks of Huber Heights neighborhood concept. When my wife and I were deciding where to build our retirement home 9 years ago we liked the Oaks development as well as the Callamere Farms neighborhood. They were upscale from the normal small brick homes that Huber Heights is famous for and where I owned my first, "starter" home 40 years ago. The Oaks neighborhood has plenty of space, a great blend of country and city and neighbors who take pride in their homes and neighborhood. In the last five years, it appears that the city of Huber Heights has reversed course by building smaller lots/homes on the northeast section of Chambersburg and Bellefontaine Rds. And this past year a new builder tried to complete the remaining section of the Oaks with small rental properties which is diametrically opposed to the Oaks concept. I'm very thankful and appreciative that the City Council did not allow this to happen. Ask yourself, why can't Huber Heights have a decent size section of town with mid to upscale homes and lot sizes like nearly every other suburb of Dayton? Is population density the centerpiece of the Huber Heights' "Come grow with us" economic development strategy? If so, then please write it in the city charter so people will know this up front and can choose a different suburb to live. Hopefully Huber Heights City Council will continue to fight for our neighborhood and proudly expand on one of the best neighborhood concepts in this part of Ohio. Thanks for your continued support. From: Brad Smith <BTGeek@aol.com> Sent: Thursday, December 9, 2021 10:57 AM To: Cindy Smith <btgeek@aol.com> Subject: The Oaks - Opposition to ZC 21-47

Dear Neighbors,

Hopefully by now everyone has been notified of the application for rezoning for the cornfield directly across from the entry to The Oaks. We are writing in the hope that our neighborhood will rise together yet again to oppose any development that will adversely affect us.

This development is planned on 22.968 acres and has 66 duplexes for a total of 132 units. They are one and two story patio homes which means no basement.

Their lots are a minimum of 2500sf and 5 feet to the lot line, 25 foot setback for the front and 20 feet for the back. The lots in The Oaks are a minimum of 12,000sf, 10 feet to the lot line, 25 foot setback in front and 40 feet for the back. Huge difference!

The density of that project is 5.7 units per acre; while the density of The Oaks is 2.05. This will increase traffic dramatically. Their entrance will be directly across from ours which will cause difficulty especially during commuting hours.

The City has a Comprehensive Plan which calls for this property to be single-family, detached homes. This property is mostly bordered by single family residences on at least 3 acres of land, which would have a maximum density of 0.33. The Oaks is across the street, adjacent to the property and our density is 2.05. This project does not fit the aesthetics of our overall neighborhood and we believe it will adversely affect our property values.

Information on this project is available on the City Website under the Planning Commission.

There are things that need to be done:

Please talk with your immediate neighbors and make sure everyone is aware of this.

Please send an email no later than Monday opposing this project to: <u>ifoster@hhoh.org</u>, cc: <u>elvons@hhoh.org</u>, <u>nbyrge@hhoh.org</u>. Please put in subject line: Opposition to ZC 21-47.

Please attend the Planning Commission on December 14th at 6pm at City Hall. The quickest way for us to stop this project is at the Planning Commission stage.

We are so happy to live in this neighborhood with all of our wonderful neighbors!

Brad and Cindy Smith

Jason Foster Economic Development Coordinator City of Huber Heights 937-237-5818 jfoster@hhoh.org

From: Mellanie Toles <tolesm@clarkstate.edu> Sent: Thursday, December 9, 2021 1:43 PM To: Foster, Jason <JFoster@hhoh.org> Cc: Lyons, Ed <ELyons@hhoh.org>; Byrge, Nancy <NByrge@hhoh.org> Subject: Opposition to ZC 21-47

CAUTION EXTERNAL EMAIL: This message originated from a non Huber Heights email server. DO NOT CLICK ANY LINKS or OPEN ANY ATTACHMENTS unless you have contacted the sender to verify its legitimacy or confirmed you were expecting it. Contact the IT Department if you need assistance.

Hello! We are writing in opposition to ZC 21-47 because this project does not fit the aesthetics of our overall neighborhood (The Oaks of Huber Heights), and we believe it will adversely affect our property values. This development is planned on 22.968 acres and has 66 duplexes for a total of 132 units. They are one and two story patio homes which means no basement.

Their plans call for lots that are a minimum of 2500sf and 5 feet to the lot line, 25 foot setback for the front and 20 feet for the back. The lots in The Oaks are a minimum of 12,000sf, 10 feet to the lot line, 25 foot setback in front and 40 feet for the back. This is a huge difference.

Also, the density of that project is 5.7 units per acre; while the density of The Oaks is 2.05. This will increase traffic dramatically, and they are planning an entrance directly across from ours, which will cause difficulty especially during commuting hours.

The City has a Comprehensive Plan which calls for this property to be single-family, detached homes. This property is mostly bordered by single family residences on at least three acres of land, which would have a maximum density of 0.33. The Oaks is across the street, adjacent to the property and our density is 2.05.

We respectfully ask that you help us protect our property values by not approving this project and sticking with the City's Comprehensive Plan as referenced above. We and our neighbors have worked hard to build and maintain a wonderful neighborhood, and we feel that this project would adversely impact it. Thank you for your consideration!

Planning Commission Decision Record

WHEREAS, on November 16, 2021, the applicant, Campbell Berling, requested approval of a Rezoning from AG Agricultural to Planned Residential and a Basic Development Plan for 22.968 acres for property located on the East side of Bellefontaine Road and South of Chambersburg Road, further identified as Parcel Number P70 03908 0126 of the Montgomery County, Ohio Recorder's Office (Zoning Case 21-47), and;

WHEREAS, on December 14, 2021, the Planning Commission did meet and fully discuss the details of the request.

NOW, THEREFORE, BE IT RESOLVED that the Planning Commission hereby recommended approval of the request.

Ms. Thomas moved to recommend approval of the application by Campbell Berling, requested approval of a Rezoning from AG Agricultural to Planned Residential and a Basic Development Plan for property located on the East side of Bellefontaine Road and South of Chambersburg Road, further identified as Parcel Number P70 03908 0126 of the Montgomery County, Ohio Recorder's Office (Zoning Case 21-47), in accordance with the recommendation of Staff's Memorandum dated December 01, 2021, with the following conditions:

- The Basic Development Plan shall be the plans stamped received by the City of Huber Heights Planning Department on November 16, 2021 unless specifically modified below.
- 2. The minimum setbacks shall be as follows: 25-foot front yard, minimum 25foot rear yard with a maximum of 15 lots having 20-foot rear setback, and 6foot side yard.
- 3. An average of 40% of the surface area of the front façade shall be finished with brick or stone masonry products.

- 4. A drop lane for northbound traffic shall be installed and an acceleration lane to northbound Bellefontaine Road shall be installed; pending the results of a traffic impact study and approval by the City Engineer.
- 5. The applicant shall meet all petroleum company easement requirements
- Prior to the issuance of a zoning permit, the applicant shall submit and receive approval of a Detailed Development Plan through the Planning Commission.

Seconded by Mr. Jeffries. Roll call showed: YEAS: Mr. Jeffries, Ms. Opp, Ms. Thomas, Ms. Vargo, and Mr. Walton. NAYS: None. Motion to recommend approval carried 5-0.

Terry Walton, Chair Planning Commission Date

Planning Commission Meeting December 14, 2021

> REZONING - The applicant, Campbell Berling, is requesting approval of a Rezoning and Basic Development Plan to PR (Planned Residential) for property located on the East side of Bellefontaine and South of Chambersburg Road (ZC 21-47).

Mr. Foster stated that the applicant requests approval of a Rezoning to Planned Residential and Basic Development Plan for 22.968 acres on Bellefontaine Road for a residential subdivision.

The applicant, Campbell Berling, is looking to develop 22.968 acres on the east side of Bellefontaine Road. The applicant did appear for a pre-application conference several weeks ago. The intent is to build 132 residential lots. The request is to re-zone to Planned Residential for this development.

The Zoning Code is as follows:

Chapter 1172 - (PR) Planned Residential District

1172.01 - Principal permitted uses.

The following principal uses are permitted, provided that they are approved as provided for in this chapter:

- (a) All residential uses permitted in all other chapters of the Zoning Ordinance such as: one family dwellings, two family dwellings, multiple family dwellings, including garden apartments, row houses, quadraminiums and condominiums;
- (b) Churches and other places of worship;
- (c) Colleges, primary and secondary schools under School Board or Parochial supervision, and public libraries;
- (d) Public recreation buildings, parks, playgrounds and athletic fields under School Board, Parochial, other governmental supervision or "homeowners association" supervision; and
- (e) Uses designed solely to serve in a complimentary way the needs of this District above.

(Ord. 89-O-339, Passed 2-6-89)

1172.02 - Accessory uses. The following accessory uses are permitted:

- (a) Uses customarily incidental to all permitted uses; and
- (b) Temporary structures and uses required during construction in this District.

(Ord. 89-O-339, Passed 2-6-89; Ord. No. 2019-O-2398 , § 1, 10-14-19)

Planning Commission Meeting December 14, 2021

1172.03 - Development standards.

Except when specifically modified herein, the provisions of Chapter 1181, "General Provisions", shall govern. In addition, the following development standards apply:

- (a) Minimum "PR" Land Area Requirement.
- (1) A minimum of one acre shall be required.
- (b) Dwelling Unit Density—Five Dwelling Units.
- The average dwelling unit density for the entire district shall not exceed five dwelling units (DU) per acre.
- (2) Minimum area standards such as individual lot size, frontage, setbacks, side, and rear yards shall be those prescribed in the City approved detailed final development plans, except that: A. Lots for detached single family dwellings shall meet each of the standards set forth in Section 1147.04.
- (c) Dwelling Unit Density—Eight Dwelling Units.
- (1) Dwelling unit density for the entire district shall not exceed eight dwelling units per acre of land on which dwellings are constructed. For example, if the entire district is three acres but dwellings are constructed on two acres only, dwelling unit density for the entire district shall not exceed 16 dwellings.
- (2) Minimum area standards such as individual lot size, frontage, setbacks, side, and rear yards shall be those prescribed in the City approved detailed final development plans, except that: A. Lots for detached single family dwellings shall meet each of the standards set forth in Section 1147.04.
- (d)Dwelling Unit Density-Twelve Dwelling Units.
- (1) Dwelling unit density for the entire district shall not exceed 12 dwelling units per acre of land on which dwellings are constructed. For example, if the entire district is three acres but dwellings are constructed on two acres only, dwelling unit density for the entire district shall not exceed 24 dwellings. (2) Minimum area standards such as individual lot size, frontage, setbacks, side and rear yards shall be those prescribed in the City approved detailed final development plans, except that:A.Lots for detached single family dwellings shall meet each of the standards set forth in Section 1147.04.

(e)Character of Neighborhood. Use of the Planned Residential Zoning District for developments with a proposed dwelling unit density greater than five dwelling units per acre shall be considered only when the district is bounded at least on one side by R-5, R-6, R-7, O-1, B, I, or Planned Development Districts.

(Case 378, 6-17-76; Case 235, 7-11-94; Ord. 94-O-711, Passed 7-11-94; Ord. 2006-O-1664, Passed 10-23-06)

Planning Commission Meeting December 14, 2021

1172.04 - Parking and loading.

(a)The provisions of Chapter 1185, "Parking and Loading", shall apply, except that at least two permanently maintained parking spaces shall be provided for each family unit, except for detached single family dwellings.

(b)Required parking spaces shall not be part of public thoroughfares, private roads leading to and serving the sites of the various uses in this district.

(Ord. 89-O-339, Passed 2-6-89)

1172.05 - Utilities.

The distribution systems for utilities are required to be underground.

(Ord. 89-O-339, Passed 2-6-89)

The request is for the following:

The City's Comprehensive Plan calls for this area to be single family residential. The proposed density is 5.7 units per acre.

Sanitary Sewer and water will connect into the City's public, main system. Water and sanitary are located along Bellefontaine Road. A pump station will be installed to move waste to the sanitary sewer system. Drainage will be handled through a public storm sewer system including a detention basin, following the City's code for storm water drainage. Bellefontaine Road has already been improved; however, staff recommends a drop lane for right hand turns into the development and a short acceleration lane out of the development. The interior street network of the development will be public with curb and sidewalk throughout.

This subdivision is proposing attached, patio homes on two styles of lots, 60 foot and 68 foot. Of the 132 total lots, 62 are proposed to be 60-foot lots and 70 are proposed to be 68-foot lots. All lots are proposed to have a minimum lot depth of one hundred ten (110) feet, twenty-five (25) foot front yard setback, a minimum of twenty-five (25) foot rear yard setbacks, and six (6) foot side yard setbacks. The proposal also calls for forty (40%) percent masonry on the front facades of each unit. This is significantly higher than the typical recommendation of twenty-five (25%) percent.

1171.05 - Contents of basic development plan.

- (a) The basic development plan shall consist of at least the following information together with such other data and materials as may be required by the City:
- (1) Site plan showing the actual shape and dimensions of the lot to be built upon or to be changed in its use together with the location of the existing and proposed structures with approximate square footages, number of stories including heights

Planning Commission Meeting December 14, 2021 of structures;

- (2) Typical elevation views of the front and side of each type of building;
- (3) Planning location and dimensions of all proposed drives, service access road, sidewalks, and curb openings;
- (4) Parking lot areas (show dimensions of a typical parking space), unloading areas, fire lanes and handicapped parking;
- (5) Landscaping plan, walls and fences;
- (6) Storm water detention and surface drainage;
- (7) Exterior lighting plan;
- (8) Vehicular circulation pattern;
- (9) Location and square footage of signs;
- (10) Topographic survey; and
- (11) Listing of proposed uses taken from the list of permitted and special uses of the PUD zoning district to which rezoning is being sought.

(b)The Planning Commission shall schedule both the proposed rezoning and the issue of approval of the basic development plan for a combined public hearing, following which it shall make its recommendation indicating approval, approval with modification or disapproval.

(Ord. 2006-O-1655, Passed 9-25-05)

1171.06 - General standards for approval.

The Planning Commission shall review the application, prepared development plan and the facts presented at the hearing. The applicant shall have the burden of proof. No approval shall be given unless the Commission shall find by a preponderance of the evidence that such PUD on the proposed locations:

- (a) Is consistent with official thoroughfare plan, comprehensive development plan and other applicable plans and policies;
- (b) Could be substantially completed within the period of time specified in the schedule of development submitted by the developer;
- (c) Is accessible from public roads that are adequate to carry the traffic that shall be imposed upon them by the proposed development. Further, the streets and driveways on the site of the proposed development shall be adequate to serve the residents or occupants of the proposed development;
- (d) Shall not impose an undue burden on public services such as utilities, fire, and

Planning Commission Meeting

December 14, 2021

police protection, and schools;

- (e) Contains such proposed covenants, easements and other provisions relating to the proposed development standards as may reasonably be required for the public health, safety and welfare;
- (f) Shall be landscaped or otherwise improved and the location and arrangement of structures, parking areas, walks, lighting and appurtenant facilities shall be compatible with the existing intended uses, and any part of a PUD not used for structures, parking and loading areas, or accessways;
- (g) Shall preserve natural features such as water courses, trees and rock outcrops, to the degree possible, so that they can enhance the overall design of the PUD;
- (h) Is designed to take advantage of the existing land contours in order to provide satisfactory road gradients and suitable building lots and to facilitate the provision of proposed services;
- Shall place underground all electric and telephone facilities, street light wiring and other wiring conduits and similar facilities in any development which is primarily designed for or occupied by dwellings, unless waived by the Commission because of technical reasons;
- (j) Shall not create excessive additional requirements at public cost of public facilities and services and shall not be detrimental to the economic welfare of the community;
- (k) Shall not involve uses, activities, processes, materials, equipment, and conditions of operation that shall be detrimental to any persons, property or the general welfare by reason of excessive production of traffic, noise, smoke, fumes, glare, or odors; and
- Rezoning of the land to the PUD District and approval of the development plan shall not adversely affect the public peace, health, morals, safety, or welfare.

Mr. Jeffries asked about the emergency safety access/boulevard. Mr. Foster said that would be for Council discussion. It was approved both ways.

Ms. Vargo asked about gas line. Mr. Foster said it does touch this property, there is an easement. Ms. Vargo asked about the electrical grid, Mr. Foster said to the south.

Mr. Jeffries asked about the creek on the northern edge. Defer to the applicant.

Mr. Walton asked how it ties into the Oaks directly across the street and Mr. Foster responded it is directly across the street but does not tie into the Oaks. The entrances would line up. Not part of that development.

Mr. Jeffries asked about the Oaks building materials and frontage, these being 40% is more than our requirement and Mr. Foster said the original approval for

Planning Commission Meeting

December 14, 2021

the Oaks was 25% and each case after didn't expand that number. Houses that back up to Shady Oak have to be full brick wrap. All PUDs in effect.

Ms. Thomas asked about the entrances lining up, will this have a Boulevard and Mr. Foster said no.

Bob Krohngold from Campbell Berling said rep from Fischer Homes is here also. Attached product, fee simple for sale, mixture of paired patio homes and attached two story town homes both with attached 2 car garages. 22-acre site, next to an electric substation, 3 pipelines, easements, and setbacks. We are open to exploring a Boulevard. Price point below single-family homes.

Ms. Vargo asked about price range. Jennifer Gonzalez from Fischer Homes said \$230,000.00. Up to \$250,000.00, semi-custom.

Mr. Krohngold talked about drop lane and acceleration lane coming out of the community. Significant road improvement on that frontage already, would like to amend decision record to say pending the results of a traffic impact study. We did increase setbacks but would like to revise the rear from 25 to 20 ft.

Ms. Thomas asked about proposed lighting and sidewalks. Mr. Krohngold said we team with Miami Valley Lighting and provide streetlights. Yes there will be sidewalks on both sides.

Mr. Jeffries said he wants to still see drop lane and acceleration lane. Mr. Krohngold said he would like to see some restriping. Concerning water, no additional run off? Mr. Krohngold said we'll provide detention.

Ms. Vargo would like staff to make decision if added words if needed. Mr. Krohngold would like guidance from traffic engineer. Mr. Foster stated that in a typical development like this a traffic study would be done.

Discussion on the setbacks and changing the minimum rear yard to 20 ft. Mr. Krohngold said about 10 - 15 range. Will try for 25 ft. max of 15 lots that won't meet that.

Mr. Jeffries asked how far away the nearest building is. Mr. Krohngold said next house is pretty far from property line, over 50 ft away.

Concerns from neighbors

Cindy Smith all houses in the Oaks required to have 25% of entire building be brick or stone. Unless they border Bellefontaine or Fishburg where they are required to have 50%. Project doesn't meet City's Comprehensive Plan Density 0.33, The Oaks 2.05, this project 5.7 Traffic issues Parking issues Water absorption Farm animals Large equipment Aging in place housing Rural area

Wildlife

Planning Commission Meeting

December 14, 2021

Mr. Jeffries asked about the comprehensive plan and Mr. Foster said it was done 2011. Ten-year plan. Does say single family detached homes. 2021 new comprehensive plan probably 2022.

Ron Deak No downtown, expensive to correct now. Plan doesn't compliment anything Stick to original plan 3 car garage, 2500 sq ft basement No storage, then sheds and fences Parking Wetland detention Impervious surface Single family homes One entrance Fire safety Accommodate the developer

Mr. Jeffries said calculations would come at Detailed, that is Engineering. Drainage would not go into pond, tying into stormwater. 100% isn't going to retention pond. Mr. Foster deferred to developer. Emergency access point was presented in original presentation before email.

I personally take offense to saying we are here to accommodate the developer, we are volunteer residents.

Mike Harmon Creek Rural Privacy Fences Water absorption Visual peace, no noise Dogs

William Clark, President of the Oaks HOA Number of units Density Correcting prior mistakes Retain 10-year plan Property value 25% stone

Mellisa Several ponds Large animals Farm equipment Hunting/fishing

Don Stewart Where do we stand, where do we go from here Planning Commission Meeting December 14, 2021 Mr. Jeffries said this is a recommendation to Council This product is selling in other communities Life-style community patio homes do sell Neighbor sold this property

Bob Krohngold stated impervious issue is an engineering scientific calculation. It will be retained and released at predevelopment rate. The Landings isn't a single-family home, it works as a transition zone. Providing a variety of housing stock. Property value is determined by comps.

Mr. Jeffries asked about barrier around property. Mr. Krohngold said significant buffer in place already. Also, no fences or sheds on this property. There will be people with dogs, I can't control dogs.

Mr. Jeffries asked about demographics, cars per house. Mr. Krohngold said typically not families, 55 or older, room for 2 cars in driveway. Storage in garage, cars parked on the street. Maybe provide off street parking.

William Clark countered and said homes of likeness are used to calculate property value but others are used also.

Ron Hines appraisals look for comps that are very similar. They do compare the surrounding areas.

Tracy Harmon Living space looks out at this Love this area Sewage and pump

Mr. Foster said pump station. Mr. Krohngold stated sanitary sewer lift station. Lift station on Bellefontaine for the Oaks. Gravity sewer.

Action

Ms. Thomas moved to approve the request by the applicant, CAMPBELL BERLING, for an approval of a Rezoning from AG to PR and a Basic Development Plan for property located on the East side of Bellefontaine and South of Chambersburg Road, further identified as Parcel P70 03908 0126 of the Montgomery County Ohio Recorder's office (ZC 21-47) in accordance with the recommendation of Staff's Memorandum dated December 1, 2021, and the Planning Commission Decision Record written as amended.

Seconded by Mr. Jeffries. Roll call showed: YEAS: Ms. Opp, Ms. Vargo, Ms. Thomas, Mr. Jeffries, and Mr. Walton. NAYS: None. Motion to approve carried 5-0.

Ms. Vargo said the only way to guarantee no one builds around you, you need to buy the land yourself.

Next step is the recommendation will be taken to a City Council meeting.

Subject:	ZC 21-47 the development being proposed for the cornfield across from The Oaks entrance.

CAUTION EXTERNAL EMAIL: This message originated from a non Huber Heights email server. DO NOT CLICK ANY LINKS or OPEN ANY ATTACHMENTS unless you have contacted the sender to verify its legitimacy or confirmed you were expecting it. Contact the IT Department if you need assistance.

To All Concerned,

It is my belief that the development being proposed will adversely affect our property values (The Oaks) as well as not fit in with our overall neighborhood aesthetic. The City's Comprehensive Plan specifically states that the use for this land be single family detached homes on medium to large lots. It does not follow the Comprehensive Plan. They are duplexes, not detached homes and the lot size is not medium to large. Their minimum lot size is 2500sf. The Oaks minimum lot size is 12,000sf.

It is bordered by residential properties with a minimum of 3 acres, with a density of 0.33. The density of the proposed development is 5.7. By comparison, The Oaks is 2.05. This dramatic increase in density will cause many issues, primarily traffic-related.

Because of these and other reasons, I and residents of The Oaks are opposed to this development and request that the City Council deny the application.

As residents of The Oaks we are so grateful to live in this neiborhood and want to continue to enjoy it. We want our home values to remain and of course continue to appreciate. This proposed development will drag down our property values as any licensed appraiser will tell you.

Please vote an emphatic NO to this application. Thanks for your consideration! Sincerely, Ron

Resending to you since I had an error in your email address below.

From: William Sent: Friday, December 31, 2021 10:14 AM To: publicmeeting@hhoh.org Cc: elyons@hhoh.org; nbyrge@hhoh.org; gotto@hhoh.org; rshaw@hhoh.org; dewebb@hhoh.org; kbaker@hhoh.org; akitchen@hhoh.org; mcampbell@hhoh.org; jgore@hhoh.org; bchodkowski@hhoh.orgit; Cindy Smith Subject: Another Email Please - Opposing ZC 21-47

Huber Heights City Leaders:

I respectfully provide this email for your attention and action as appropriate.

I continue to oppose the ZC 21-47 construction plan/rezoning as it degrades the Oaks of Huber Heights neighborhood concept. As I understand, it falls short of the original concept for this area of town. This area of town was meant to have larger lot sizes and homes that blend into the country homes and multi-acre lots and farms that surround it. When my wife and I were deciding where to build our retirement home 9 years ago we liked the Oaks development and the Callamere Farms neighborhood. They were upscale from the normal small brick homes that Huber Heights is famous for and where I owned my first, "starter" home 40 years ago. The Oaks neighborhood has plenty of space, a great blend of country and city and neighbors who take pride in their homes and neighborhood. In the last five years, it appears that the city of Huber Heights has returned to its roots by building smaller, starter lots/homes on the northeast section of Chambersburg and Bellefontaine Rds. And this past year a new builder tried to complete the remaining section of the Oaks neighborhood with small rental properties which is diametrically opposed to the Oaks concept. I'm very thankful and appreciative that the City Council did not allow this to happen. I understand Huber Heights' "Come grow with us" motto, but let's do it smartly and not let population density be our primary economic objective. The Huber Heights residents who live along the Bellefontaine Rd corridor chose this area because it is less dense, safer, and less expensive than comparable neighborhoods in other suburbs around Dayton. I request the Huber Heights City leaders continue to fight for us and smartly expand on one of the best neighborhood concepts in this part of Ohio. Thanks for your continued support.

Dear Mayor and City Council Members,

As a long time resident of the Oaks of Huber Heights, I would like you all to know that the vast majority of the people living in the Oaks are vehemently opposed to the recent application that has moved from the Planning Commission and now resides with you the City Council for the following reasons:

It is our belief that the development being proposed will adversely affect our property values as well as not fit in with our overall neighborhood aesthetic. The City's Comprehensive Plan specifically states that the use for this land be single family detached homes on medium to large lots. It does not follow the Comprehensive Plan. They are duplexes, not detached homes and the lot size is not medium to large. Their minimum lot size is 2500sf. The Oaks minimum lot size is 12,000sf.

It is bordered by residential properties with a minimum of 3 acres, with a density of 0.33. The density of the proposed development is 5.7. By comparison, The Oaks is 2.05. This dramatic increase in density will cause many issues, primarily traffic-related.

We here in the Oaks are hoping that the City Council will use common sense when they make decision that truly affect other residents in the said area, and deny this application.

Thank You, Warren & Catherine Taldo 5921 Oak Creek Trail, Huber Heights, Ohio 45424

Members of City Council,

Thank you for taking the time to read my email. I am writing in opposition to proposal ZC 21-47. I live in the Oaks Of Huber Heights neighborhood, across from the location of the proposed new development. This proposal will adversely affect the property values of the homes in my neighborhood. Additionally, the developer's proposal is not in line with the City's Comprehensive Plan that requires the land to be used for single family dwellings. I love my neighborhood and want to keep my home-investment growing. Developing single-family homes in line with the already approved mandates would be welcome.

Respectfully,

Kathi Davis 6224 Oak Ridge Drive 443-306-4535 darandkat@gmail.com

HH City Council,

My name is Michael Harman and I own the property immediately along the NW border of the property in question.

I oppose this development, as proposed.

When I purchased my home I was told that single family homes "might" get built on this property. This proposal is not in line with the 2011 Huber Heights Comprehensive Plan which calls for "Single Family Residential" homes. Why did this usage change not come up in the discussions with the planning council. Was there a predetermined guarantee that this change in use would be approved?

I knew of the 2011 plan when we moved here in 2019. We own 4 acres and chose this area for more space. My house is oriented so the windows face away from Bellefontaine road and my single neighbor to the north. This plan will place 20 homes within 25 feet of my southern property line and completely removes the privacy I purchased my home for. Currently we see trees, greenery, and fields south and east of my home but these trees are not sufficient to block out homes from my eyelines. I expected to eventually see 2 or 3 homes, not 20.

If you add 132 homes, traffic and related noise will increase. Bellefontaine is already a drag strip and this will increase traffic. A light will be needed at Fishburg and at the development entrance and I expect we will eventually need speed bumps in this area as well.

I chose this area for its lack of traffic and distractions, so I am asking you to oppose this development.

Sincerely, Michael Harman 6480 Bellefontaine

I am sure I am not the only one that has concerns with the planned development adjacent to the Oaks on Bellefontaine Rd. While many are subjective I will keep it objective.

1) I attended the planning meeting and I encourage each one of you to listen and watch it. How different the planning board was to our concerns and facts on this one versus the Jen Realty with the other plot of land I call the church property. It seemed that while they listened to our questions everything was on deaf ear and as I said when I spoke it was rubber stamping what the developer proposed. Mr. Jefferies took exception to my comment after I ended but did not enter into any questions and answers with anyone that showed up. His only comment that concerned my dialog was later that there is a market for that type of unit but I was not allowed to rebut. Mr. Stewart got up and asked is there anyway to stop it in its tracks, the comment from the board no. Why is my questions when the proposed development is wrong on many fronts. I plan on attending like many others to the upcoming meeting and hope there will be dialog with property owners and developer with council. Ms. Vargo also during the planning meeting said that he is the property owner and can submit what he wants to do and get it approved. While I agree with her statements the developer also needs to develop in a comprehensive manner satisfying all the laws ordnances etc. where it complements the surrounding areas. Since I had a license as a professional comprehensive planner everything I say will be in an objective state.

1) The area zoned is for single family with agriculture. I asked what basis the developer has to change the zoning? still waiting for an answer other than he/she is the owner.

2) The developed area exceeds the minimum EPA requirements for the catch pond. I have asked for the calculations from the planning board and nothing has been received. With a development of over 40% impermeable land the acre feet of water goes up exponentially and with my rough calculation would have to be at least 5 times larger than proposed in the neighborhood of 30acre feet of water. The pond is near not the size of that. Still waiting for the calculations. This is important why ...you have two streams that also include wetlands under the EPA definition that will be altered. The area in question in the stream near Bath road and the wetlands adjacent to Mr. Lyons property and others down stream. A complete analysis is required as this amount of storm water flow affects the surrounding areas and the associated wetlands on the properties that are near it.

3) Setback why was the setback to the road changed from 25 feet to 20 feet? I can only say it was to accommodate the design of the developer

4) With more units than the Oaks with a density that goes up to almost six units per acre from a little over 2 per acre in the Oaks and 1 unit per 3-5 acres on the other sides of the development. No justification given to the benefits of this during the planning meeting other than he owns the property. Huber Heights was built on what I term suburban sprawl. This means there is no structure and flow to the city as there is no identifiable downtown. What do I mean by this. It is nearly impossible it not impossible to correct the past developments. The city is trying to have a downtown on the Brandt Pike corridor but only so much can be done without buyouts etc. to correct what is incorrect. It would be astronomically expensive. This type of density is made for areas that are directly adjacent to commercial property ie gas, restaurants and shopping.

5) Traffic study was asked for! where is it when you add over 500 more vehicles to that residential area. There is only one entrance for vehicular traffic. It requires two.

6) Emergency Response. While there is two entrances for emergency responses maneuvering through the development will be nearly impossible. The front of each unit with two car garage, creates space for two cars. Any overage parks on the street as these units do not have storage out side the garage and the developer indicates that there will be no sheds. I believe that is against the law. The average house has 3.1 vehicles. You will have very little parking on the street since most of the area will be consumed by concrete drive ways. Take response of fire trucks and snow plows and you can see there is not enough room to safely respond and do their jobs.

7) No sidewalks or boulevard entrance on to Bellefontaine.

8) Lift station what is the location and how will it tie into the main system. Since there is a lot of grade change, if it is located in the front of the development the sewer system would be down in excess of 40 feet. Not reasonable. Need the developer address this with a clear answer which he has not done including the size, back up power requirements and tie ins into the main system.

9) No brick at least 25 percent of the home as others are required to have. This is a simple one, the developer is cutting costs to raise his profit margins.

10) The gas right of way! where is the approval from the gas line owner to have it just paved over? none provided. You just cannot pave over a right of way

11) Open space require! where is it? While the developer would say the area adjacent to the substation would be it. First it is dangerous to have a open space play area right next to a major substation and with an area this big needs to be more centralized at least two to three areas.

12) Mail pick delivery cluster boxes! Where will they be since all the property is developed other than the area next to the substation. Imagine putting all those mail boxes there and having lines of vehicles trying to get their mail and it would be right at the entrance off Bellefontaine creating hazardous conditions on Bellefontaine.

I can continue on and on but just wanted to hit the high points. Every developer has a right to develop any piece of property and make a profit but it needs to be done correctly with the surrounding area and not create more problems for a lifetime and beyond for the home owners there and the city of Huber Heights.

Should any of you have any additional questions or want clarification you can do so by emailing me and or calling me at 7816989177.

Thanks in advance for allowing to me address many issues in an objective way and to make Huber Heights the place to be to live work and play. It just needs to be done in a sound, harmonious completing way for all. It there is something you do not understand or does not make sense please advise

Regards and Happy Year to all.

Ron Deak

To All Concerned,

It is my belief that the development being proposed will adversely affect our property values (The Oaks) as well as not fit in with our overall neighborhood aesthetic. The City's Comprehensive Plan specifically states that the use for this land be single family detached homes on medium to large lots. It does not follow the Comprehensive Plan. They are duplexes, not detached homes and the lot size is not medium to large. Their minimum lot size is 2500sf. The Oaks minimum lot size is 12,000sf.

It is bordered by residential properties with a minimum of 3 acres, with a density of 0.33. The density of the proposed development is 5.7. By comparison, The Oaks is 2.05. This dramatic increase in density will cause many issues, primarily traffic-related.

Because of these and other reasons, I and residents of The Oaks are opposed to this development and request that the City Council deny the application.

As residents of The Oaks we are so grateful to live in this neiborhood and want to continue to enjoy it. We want our home values to remain and of course continue to appreciate. This proposed development will drag down our property values as any licensed appraiser will tell you.

Please vote an emphatic NO to this application. Thanks for your consideration! Sincerely, Ron

Council members

We stand opposed to ZC 21-47, major concern is the effect on property values if this plan is approved. It is also our understanding that the City's Comprehensive Plan is not being adhered to, If the proposed ZC21-47 does not reflect the Comprehensive plan, how did it ever leave the Planning Commission? With lot size reduction and the construction of duplexes instead of single homes this proposal does not meet the standards that Comprehensive plan lays out.

My name is Joel Ford. I live in The Oaks. My wife and I are both vehemently opposed to the diversion from the city's original comprehensive plan. The variation from the city plan will undoubtedly have an adverse effect on our property values as population density will increase and traffic issues will surely follow. This community has worked hard to keep a safe and clean environment to raise our family's and have a quiet place to retire. Please deny the application as it does not adhere to the city's overall comprehensive plan of single family homes.

To members of Huber Heights City Council:

It is our belief that the development being proposed on Bellefontaine Road across from Oak Ridge Drive will adversely affect our property values and will not fit in with our overall neighborhood aesthetic. The City's Comprehensive Plan specifically states that the use for this land be single family detached homes on medium to large lots. This proposal does not follow the Comprehensive Plan. The buildings are duplexes, not detached homes, and the lot size is not medium-to-large. The proposed minimum lot size is 2500sf. The Oaks' minimum lot size is 12,000sf.

This land is bordered by residential properties with a minimum of 3 acres, with a density of 0.33. The density of the proposed development is 5.7. By comparison, The Oaks is 2.05. This dramatic increase in density will cause many issues, primarily traffic-related.

Because of these and other reasons, we are opposed to this development and request that the City Council deny the application. We insist that the city stick with the Comprehensive Plan. Why is the City always bending to the wants of the developers and not the citizens? The density does not need to match that of the Oaks exactly, but putting A) duplexes and B) buildings so close together does not at all fit the LOOK and PLAN of the area!

The Planning Commission, after hearing from multiple residents opposed to the development, still voted unanimously to NOT follow the Comprehensive Plan and recommended the development be allowed. A member of the Planning Commission, during the meeting last month to discuss this topic, said that if a resident didn't like what was proposed, he/she could always buy the land him/herself. Really, that is the Clty's solution??! The answer should be that the City is following the Comprehensive Plan, especially given that the people who it will affect are opposed.

Thank you for your attention to this matter and Happy New Year.

Sincerely,

Jon and Tressa Kneer

Dear Mr. Mayor and Members of Council,

We are writing to voice our opposition to Zoning Case 21-47 for the following reasons:

ZC 21-47 Does Not Comply with the City's Comprehensive Plan - They are not Single Family Detached Homes on Medium to Large Lots

The Future Land Use Map on page 18 of the Comprehensive Plan references that this property is to be Single-Family Residential based on the Legend at the bottom of the page. Page 19 further defines "Single Family- Residential" as singlefamily detached homes on medium to large lots. While the Staff Report states that the project complies with the Comprehensive Plan as being Single Family Residential; Mr. Foster read the <u>full</u> Page 19 definition to the Planning Commission during the meeting on December 14th. Clearly the project does NOT comply with the full definition. The Staff Report has not been amended.

The Planning Commission did NOT comply with Ordinance 1171.06 - General standards for approval

This information was provided as part of the Staff Report. The bolding is my addition.

1171.06 - General standards for approval.

The Planning Commission shall review the application, prepared development plan and the facts presented at the hearing. The applicant shall have the burden of proof. No approval shall be given unless the Commission shall find by a preponderance of the evidence that such PUD on the proposed locations:

(a) is consistent with official thoroughfare plan, comprehensive development plan and other applicable plans and policies;

As this application is NOT consistent with the comprehensive development plan, it should not have been approved by the Planning Commission.

ZC 21-47 does NOT match the densities of the bordering properties

The residential properties that border this project are all homes on a minimum of 3 acres, with a maximum density of 0.33. This project has a density of 5.7, or 17 times the bordering density. The Oaks does not border the property; it is on the opposite side of Bellefontaine. For comparison, the density of The Oaks is 2.05. This proposal is more than 2 and 1/2 times

the density of The Oaks. This dramatic increase in density will cause problems, many traffic related. Their density will cause parking issues within their own community. With lots as narrow as 30 feet and driveways being approximately 18 feet, that only leaves 12 feet of street available. Taking into account fire hydrants and centralized mailboxes, the parking issues that more traditional neighborhoods experience and discussed at length during the City's Town Hall meeting a few months ago, will be exacerbated by this design. It will also cause a loss of the overall neighborhood aesthetic, the area on the east side of Bellefontaine is all rural homes on significant acreage.

ZC 21-47 will incur a significant increase of impervious surface, creating water issues for the surrounding properties

We would like to point out the higher percentage of impervious surfaces resulting from this plan. The land previously was all agricultural, all pervious surfaces; the ground and the plants absorbing water. Now with minimum 2500sf lots, ranch houses of approximately 1250sf with a 2 car garage of 360 sf and a 25 foot long two car driveway of 450 sf that makes 2060 sf of impervious surface not including any porch, patio or sidewalks. There is not a lot of ground left to absorb water. Will this cause issues for the amount of water running down to the creeks on neighboring properties? Also, just from a general Climate Change discussion, this is a huge percentage of impervious surface.

ZC 21-47 does not fit the masonry standards of the area

The Staff Report on Page 5 states "The proposal also calls for forty (40%) masonry on the front facades of each unit. This is significantly higher than the typical recommendation of twenty-five (25%) percent. At the December 14th Planning Commission Meeting, I pointed out to Mr. Foster that Ordinance 1405 from 2003 calls for homes in The Oaks to have a minimum of 25% of the entire exterior be brick or stone unless they back up to Bellfontaine or Fishburg, in which case they have a 50% requirement. And that is of the entire exterior, not just the front facade. The majority of the homes in The Oaks have a brick front and also brick wrapping to the sides. The majority of the homes that abut this property have full brick wraps.

Also, I would like to point out the many "masonry" discussions before the City Council and that in the Ordinances passed while the masonry requirement has been under review, Mr. Falkowski amended Ordinances to state brick or stone, not "masonry."

In summary, this project does not fit with the bordering properties. We believe this will have a negative effect on our property values. We are not opposed to development on that property. However, any development should fit the City's Comprehensive Plan and be aligned with the homes already in existence.

There are several families that have recently purchased rural homes bordering this property. They bought because they wanted the space, peace and lifestyle that goes with rural living. There are some that have lived there for four generations. They run farm equipment, have animals and hunt on their own land. Now put houses 20 feet from their property line. Will it cause problems because this is not a good place to put 132 houses? We believe it will and that is why the City's Comprehensive Plan outlined specific requirements for this property for any future use — and this development does not meet those requirements.

Please vote no on Zoning Case 21-47.

Thank you for your time and consideration.

Respectfully,

Cindy and Brad Smith

Good afternoon members,

I like just north of the ZC 21-47 property.

I wanted to show you what this development would look like from my view. I realize its hard to understand the impact from an aerial view so I attached a short set of pictures showing how my complete view would be consumed by a wall of homes. Please take a moment to see my perspective.

I dont know how you plan to vote on this topic but I am happy to discuss with you individually, if you like.

Please contact me via cell below.

Michael Harman 6480 Bellefontaine Rd 937-768-9561

This is my current view and one of the main reasons I bought this home

This is the surface of the field where the homes would go

Creek

This development would place 15-20 tightly packed home all along this property line and dramatically destroy this view

I don't want to look at a fence, but even a 6 foot high solid privacy fence will not hide the view into all these yards, since it would be close to the property line and lower than the homes and I could probably see right over it.

I am willing to look at a few homes in this view. I don't want to look at a wall of homes.

Dear City Council Members,

I'd like to thank you all for allowing us, the residents of The Oaks and surrounding residents of the proposed development east of Bellfontaine Road. I want you to know we are not against developments of housing. We are simply against this project as it will affect our property values negatively. As a Realtor of over 20 years in the area, having duplexes across the street from our beautiful subdivision The Oaks will definitely drag down our property values. I recently had an appraisal on my home in The Oaks and my homes value was reduced \$5,000 simply due to the traffic on Bellefontaine Road. I can only imagine when and if this project is allowed to go forward, and the traffic on Bellefontaine increases significantly what this will do to our property values.

The proposed development looks pretty good, just not on this piece of property.

I appreciate your consideration in this matter.

Sincerely,

Ron

My reasons for objecting the duplex homes development on the eastside of Bellefontaine Rd:

- It will adversely affect home values in The Oaks
- Increase in traffic
- Duplex homes instead of single family homes. Duplex property values considerably less that the homes in The Oaks (\$100K).
- This developments homes will have a much higher density, smaller lots and much less home square footage.
- Appraisers reduce property values due to the development being on a busy street which Bellefontaine Rd will certainly be.
 Huber Hts Comprehensive Plan specifically states that this land be for single family detached homes on medium to large lots.
 Development proposed lot size is 2,500 sf. The Oaks minimum lot size is

12,000 sf.

Development proposed's Density is 5.7. The Oaks is 2.05. Surround neighbors to the north & east is 0.33.

CITY OF HUBER HEIGHTS STATE OF OHIO

ORDINANCE NO. 2022-O-

TO APPROVE A REZONING FROM AGRICULTURAL TO PLANNED RESIDENTIAL AND A BASIC DEVELOPMENT PLAN FOR THE PROPERTY LOCATED ON THE EAST SIDE OF BELLEFONTAINE ROAD AND SOUTH OF CHAMBERSBURG ROAD AND FURTHER IDENTIFIED AS PARCEL NUMBER P70-03908-0126 ON THE MONTGOMERY COUNTY AUDITOR'S MAP AND ACCEPTING THE RECOMMENDATION OF THE PLANNING COMMISSION (ZONING CASE 21-47).

WHEREAS, the citizens of Huber Heights require the efficient and orderly planning of land uses within the City; and

WHEREAS, the City Planning Commission has reviewed Zoning Case 21-47 and on December 14, 2021, recommended approval by a vote of 5-0 of the Rezoning and the Basic Development Plan; and

WHEREAS, the City Council has considered the issue.

NOW, THEREFORE, BE IT ORDAINED by the City Council of Huber Heights, Ohio that:

Section 1. The application requesting approval of a Rezoning and the Basic Development Plan (Zoning Case 21-47) is hereby approved in accordance with the Planning Commission's recommendation and following conditions:

- The Basic Development Plan site plans shall be the plans stamped received by the City of Huber Heights Planning Department on November 16, 2021, unless specifically modified below.
- The minimum setbacks shall be as follows: 25-foot front yard, minimum 25-foot rear yard with a maximum of 15 lots having a 20-foot rear yard setback and 6-foot side yard.
- 3. An average of 40 percent of the surface area of the front façade shall be finished with brick or stone masonry products.
- 4. A drop lane for northbound traffic shall be installed and an acceleration lane to northbound Bellefontaine Road shall be installed pending the results of a traffic impact study and approval by the City Engineer.
- 5. The applicant shall meet all petroleum company easement requirements.
- Prior to the issuance of a zoning permit, the applicant shall submit and receive approval of a Detailed Development Plan through the Planning Commission.
- Prior to the issuance of a zoning permit, the applicant shall enter into a PUD Agreement 7. with the City for the purpose, but not the sole purpose, of establishing the development obligations of the applicant and requiring the submittal of a performance bond, cash bond, or letter of credit to insure the installation of landscaping as approved. The bond or letter of credit shall be in an amount equal to the applicant's estimate of the cost of installation as approved by the Planning Department and shall remain in effect until such time as the landscaping has been completed as determined by the Planning Department. Upon completion of the installation of landscaping as required by the approved landscape plan, the applicant may request release of the performance bond or letter of credit. Following an inspection by the Planning Department and upon determination by the department that the landscaping has been completed in accordance with the approved landscaping plan, 80 percent of the performance bond or letter of credit may be released. However, the performance bond or letter of credit will not be released until a maintenance bond lasting three growing seasons, or letter of credit equal to 20 percent of the initial performance bond or letter of credit to ensure maintenance of the landscaping, is submitted to and accepted by the Planning Department. The term of the maintenance bond shall be three growing seasons.

Section 2. It is hereby found and determined that all formal actions of this Council concerning and relating to the passage of this Ordinance were adopted in an open meeting of this Council, and that all deliberations of this Council and of any of its Committees that resulted in such formal action were in meetings open to the public and in compliance with all legal requirements including Section 121.22 of the Ohio Revised Code. Section 3. This Ordinance shall go into effect upon its passage as provided by law and the Charter of the City of Huber Heights.

Begin forwarded message:

From: Rich Arnold <RArnold@mcgillsmithpunshon.com> Date: January 14, 2022 at 11:28:28 AM EST To: Bo Gold <BobKrohngold@gmail.com> Subject: Basin Design Narrative

Good morning Bob, The following is a narrative as to how we determine the size of the basin.

The sizing of the proposed storm water management system for Addington was based on the storm water management regulations by the City of Huber Heights which requires the sizing to be based on Urban Hydrology

for Small Watersheds Technical Release 55 by The U. S. Department of Agriculture (USDA). The following are items that are considered when determining the size of the basin.

- Amount of Rainfall.
- The type of surface cover.
- Average Percentage of Impervious area.
- The type of hydrological soil group.
- Time of Concentration.

From the aforementioned information, peak flow rates may be calculated and basin volumes may be determined.

In addition, a storm water quality volume is determined pursuant to current Ohio EPA regulations.

Resolution

-

CITY OF HUBER HEIGHTS STATE OF OHIO

RESOLUTION NO. 2022-R-

CREATING A SPECIAL JONETTA STREET SEWER TAP-IN DISTRICT FOR THE PROVISION OF SANITARY SEWER TO CERTAIN RESIDENTIAL PROPERTIES.

WHEREAS, certain properties at the end of Jonetta Street in Huber Heights connect their sanitary service through private laterals to a private pump station which is failing and costly to repair; once the pump station fails, the properties will be unserved for sanitary sewer creating a health, welfare and safety issue; and

WHEREAS, the private arrangement for the failing pump station is vague and not recorded in the public records with Montgomery County and the City does not believe a publicly owned pump station is practical; and

WHEREAS, Council desires to create a special "tap-in" district known as the Jonetta Street Sewer Tap-In District be established and establish the policies for the special tap-in district at the time the district is created; and

WHEREAS, the total of all combined assessment within a period of twenty (20) years for the affected Property Owners will not be in excess of 33 1/3% of the actual value of such property.

WHEREAS, City Council finds that the creation of the proposed tap-in district and the policies associated therewith, protect the health, safety, and welfare of the citizens of Huber Heights.

NOW, THEREFORE, BE IT RESOLVED by the City Council of Huber Heights, Ohio that:

Section 1. Council hereby creates a special tap-in district to be known as the Jonetta Street Sewer Tap-In District which shall consist of the following properties within the City of Huber Heights:

P70 00817 0008 6883 Jonetta Street Michael Carter and Michele L. McGhee

P70 00817 0007 6879 Jonetta Street R. Matthew and Theresa L Ruchti

P70 00817 0006 6876 Jonetta Street Timothy Bradford Likens

(the Properties). Said Properties are located at the end of the cul-de-sac on Jonetta Street in Huber Heights.

Section 2. Council has determined that the total cost to abandon in place the existing pump station on Jonetta Street and extend the sanitary sewer south to an existing manhole on Brandonview Court through a contract with Durst Brothers Excavating as approved in Resolution No. 2021-R-7066 is in the best interest of the City.

Section 3. Council has determined that the following policies shall apply to the Jonetta Street Sewer Tap-In District.

a) The cost to be assessed to each of the three listed property owners for the Jonetta Street Sewer Tap-In District is estimated to be \$24,141.74 with the City paying the remaining amount for the sanitary sewer connection.

- b) The cost to each of said property owners shall be paid in full or assessed upon completion of the sanitary sewer connection. In the case of an assessment the owners and their successors agree to assume the annual assessment for the water main installation and having the payment applied directly to their property tax bills for twenty-year period including all City and County administrative and collection costs.
- c) The City will fund and prepare plans to extend public sanitary sewer service within six (6) months of the establishment of the District.
- d) The City shall determine the final alignment and location of all requested utility extensions. The City shall not be obligated to replace landscaping, irrigation systems, or any other privately owned obstructions within the existing right-of-way or utility easement at the time of the construction; the City shall not be obligated to compensate property owners for the removal of such obstructions.
- e) If at the time of awarding the contract for installing the new sanitary sewer connection the cost is higher than \$100,000.00 the City reserves the right to terminate the special tap-in district.
- f) Property owners shall be responsible for any pipes, labor and appurtenances that may be necessary to properly connect its dwelling unit to the public sanitary sewer system and any modifications to existing interior plumbing necessary to connect to the public utility lines. All connections to the public systems must be made in accordance with the City Code.

Section 4. City Council reserves the right, without setting precedence, to extend public utility services for the public health, safety and welfare of residents or the community at large by the means it deems necessary. Nothing in the creation of this Special Tap-In District shall be deemed to abridge the authority and powers granted by law to the City and/or its City Council.

Section 5. It is hereby found and determined that all formal actions of this Council concerning and relating to the passage of this Resolution were adopted in an open meeting of this Council and that all deliberations of this Council and of any of its Committees that resulted in such formal action were in meetings open to the public and in compliance with all legal requirements including Section 121.22 of the Ohio Revised Code.

Section 6. This Resolution shall go into effect upon its passage as provided by law and the Charter of the City of Huber Heights.

Resolution

CITY OF HUBER HEIGHTS STATE OF OHIO

RESOLUTION NO. 2022-R-

CONSENTING TO THE OHIO DIRECTOR OF TRANSPORTATION TO RESURFACE STATE ROUTE 202 FROM FISHBURG ROAD TO THE SOUTH CORPORATION LIMIT.

WHEREAS, the State of Ohio has identified the need for the described project:

Resurface State Route 202 from SLM 04.37 (south corporation limits) to SLM 05.40 (Fishburg Road) in the City of Huber Heights.

NOW, THEREFORE, BE IT RESOLVED by the City Council of Huber Heights, Ohio:

Section 1. Being in the public interest, the City gives consent to the Ohio Director of Transportation to complete the above-described project.

Section 2. The City shall cooperate with the Ohio Director of Transportation in the above-described project as follows:

The City agrees to participate in the cost of the project. The City further agrees to pay 100 percent of the cost of those features requested by the City which are determined by the State and Federal Highway Administration to be unnecessary for the project.

The City further agrees that change orders and extra work contracts required to fulfill the construction contracts shall be processed as needed. The State shall not approve a change order or extra contract until it first gives notice in writing to the City. The City shall contribute its share of the cost of these items in accordance with other sections herein.

The City further agrees to pay 100 percent of the cost to install and/or repair curb ramps at all necessary intersections to ensure compliance with the Americans With Disabilities Act.

Section 3. The City agrees to acquire and/or make available to the Ohio Department of Transportation (ODOT) in accordance with current State and Federal regulations all necessary right-of-way required for the described project. The City also understands that right-of-way includes eligible utility costs.

The City agrees to be responsible for all utility accommodation, relocation and reimbursement and agrees that such accommodation, relocation, and reimbursement shall comply with the current provisions of 23 CFR 645 and the ODOT Utilities Manual.

Section 4. Upon completion of the project, and unless otherwise agreed, the City shall: (1) provide adequate maintenance for the project in accordance with all applicable State and Federal law, including, but not limited to Title 23, U.S.C., Section 116; (2) provide ample financial provisions, as necessary, for the maintenance of the Project; (3) maintain the right-of-way, keeping it free of obstructions; and (4) hold said right-of-way inviolate for public highway purposes.

Section 5. The City Manager is hereby empowered to enter into contracts with ODOT pre-qualified consultants for the preliminary engineering phase of the project and to enter into contracts with the Director of Transportation which is necessary to complete the above-described project.

Upon request of ODOT, the City Manager is also empowered to assign all rights, title, and interests of the City of Huber Heights to ODOT arising from any agreement with its consultant in order to allow ODOT to direct additional or corrective work, recover damages due to errors or omissions, and to exercise all other contractual rights and remedies afforded by law or equity.

The City agrees that if Federal Funds are used to pay the cost of any consultant contract, the City shall comply with 23 CFR 172 in the selection of its consultant and administration of the consultant contract. Further the City agrees to incorporate ODOT's "Specifications for Consulting Services" as a contract document in all of its consultant contracts. The City agrees to require, as a scope of services clause, that all plans prepared by the consultant must conform to ODOT'S current design standards and that the consultant shall be responsible for ongoing consultant involvement during the construction phase of the

Project. The City agrees to include a completion schedule acceptable to ODOT and to assist ODOT in rating the consultant's performance through ODOT's Consultant Evaluation System.

Section 6. It is hereby found and determined that all formal actions of this Council concerning and relating to the passage of this Resolution were adopted in an open meeting of this Council and all deliberations of this Council and of any of its Committees that resulted in such formal action were in meetings open to the public and in compliance with all legal requirements including Section 121.22 of Ohio Revised Code.

Section 7. This Resolution shall go into effect upon its passage as provided by law and the Charter of the City of Huber Heights.

Ordinance Modification - Huber Heights City Code - Section 509.08(b)(10) - Disturbing The Peace

Purpose and Background

The City Code in Section 509.08(b)(10) - Disturbing The Peace (see attached) addresses the days and hours allowed for construction work. It is currently 7:00 a.m. to 10:00 p.m. on weekdays. Construction on Saturdays (due to noise) has become an issue lately.

The Law Director has prepared some draft revisions to the City Code regarding construction noise for discussion purposes (see attached).

1323 CONSTRUCTION NOISE

1323.01 Definitions

"Construction Noise " shall mean noise created by, the erection (including excavating), demolition, alteration, or repair of any structure, within or adjacent to a residential zoning district including but not limited to noise from heavy equipment such as crawlers, tractors, bulldozers, cement mixers, rotary drills and augers, loaders, power shovels, saws, cranes, derricks, graders, off-highway trucks, ditchers, trenchers, compactors, compressors; pavement breakers, pile drivers, jackhammers, sandblasting tools, and other similar equipment (collectively "construction activity") that disturb the good order and quiet of the City.

"Owner of Property" shall mean the owner of the real property where the construction activity that leads to Construction Noise.

"Stop Work Order" means an order issued which requires that all construction activity on a site be stopped.

1323.02 Prohibition

(a) No property owner or shall operate, cause to operate, or allow to operate any tools or equipment or activity that causes Construction Noise between 7 p.m. and 7 a.m. on Monday through Saturday or any time on Sunday or legal Ohio holidays.

(b) 1323.02(a) shall not apply when the Construction Noise is associated with urgent necessity in the interest of public health and safety, and then only with a permit from the City Engineer, which permit may be granted for a period not to exceed three days while the emergency continues and which permit may be renewed for a period of three days or less while the emergency continues.

1323.03 Civil Infraction

(a) The Huber Heights Civil Infractions Violations Bureau shall have the jurisdiction over any Construction Noise Violations under this Chapter 1323

(b) All Construction Noise Violations infractions that are a violation under section 1323.02 shall be civil infractions handled pursuant to and be governed by this section 1323.03. The provisions of this chapter and all actions taken pursuant to this Chapter are civil and remedial in nature and not designed to punish the offender and are not criminal offenses. No violation shall be considered a misdemeanor of any class, and no Property Owner shall be arrested for a violation of a Construction Noise Violation under this Chapter

(c) A Construction Noise Violation Notice shall be the summons and complaint for purposes of issuing Construction Noise citations. Each Construction Noise Notice issued shall contain the following information:

(i) That the person upon whom it is served must answer in relation to the Construction Noise infraction charged in the Notice;

(ii)The allowable answers that may be made and that the person will be afforded a hearing if he/she denies a violation of 1323.02;

(iii)That any answer must be made to Huber Heights Civil Infractions Violations Bureau, the address for the Bureau, and the time within which an answer is to be made;

(iv)The penalties that may result from failure to timely answer and the fine that arises from the Construction Noise infraction; and

(iv)A warning that failure to timely answer or to appear at a requested hearing will be considered an admission of the Construction Noise infraction, and that a default civil judgment potentially may be entered against the Property Owner if the person fails to timely answer or to appear at a requested hearing.

(d) Procedures relative to Construction Noise Notices.

(1) *Issuance*. The Enforcement Officer who issues a Construction Noise Notice for a Construction Noise infraction shall complete the Notice by identifying the Construction Noise infraction charged, recording the address of the property, and indicating the date, time, and place of the Construction Noise infraction charged. The Officer shall sign the Notice and affirm the facts it contains. If the Property Owner is present, the Officer shall personally serve the Construction Noise Notice upon the Property Owner. If the Property Owner is not present, the Officer post the Notice in a conspicuous place on the property and mail it to the Property Owner at the last known address of the Property Owner. Constructive service of a Construction Noise Notice upon a Property Owner by affixation and mail as provided in this division has the same force and effect and potentially subjects the Property Owner to the same fine and the same penalties for failure to timely answer or to appear as if the Construction Noise Notice were personally served. The original of a Construction Noise Notice issued pursuant to this section or any true copy of it shall be considered a record kept in the ordinary course of business of the City and of the enforcement agency whose officer issued it, and shall be prima facie evidence of the facts it contains.

(2) Answer to charges. A person who is served with a Construction Noise Notice charging the commission of a Construction Noise infraction may answer the charge by personal appearance at the Huber Heights Police Department during normal business hours or by mail. The answer shall be made within ten days of the issuance of the Construction Noise Notice (the mailing must be postmarked within ten days of the issuance of the Notice) and shall be: (i) An admission that the a violation of 1323.02 occurred by payment of the fine or (ii)A denial that the infraction occurred and a request for a hearing. A denial must in writing. When a person denies that a violation of 1323.02 has occurred he shall be granted a hearing which shall be civil in nature. The Bureau shall set a date for the hearing and notify the person, in writing, of the date, time and place of the hearing in the same fashion as set forth in Huber Code section 353.05.

(3) Failure to answer. When a person is personally or constructively served with a Construction Noise Notice charging the commission of a Construction Noise infraction and the person fails to answer the charge within the time specified by the local authority, the Huber Heights Civil Infractions Violations Bureau shall issue a notice of infraction and send such

notification of infraction to the address on record of the Property Owner as follows: (i) If the person who fails to answer was personally served with the Construction Noise Notice, a notification of infraction shall be sent to that person at his/her most recent address appearing in such records; (ii) If the person was constructively served with the Construction Noise Notice, a notification of infraction shall be sent to the owner at his most recent address appearing in the public records.

(e) Stop Work Order. In addition to any other penalty otherwise provided by law, if three or more judgments or default judgments have been entered against a person and the person has not paid the judgments or default judgments within ten days of the date of entry of the third judgment, the Huber Heights Civil Infractions Violations Bureau may give notice of that fact to the Enforcement Officer who shall then issue a Stop Work Order until such time as the violations have been paid.

1323.04 Fines, penalties and costs.

(a) The City Manager shall adopt a fine schedule for a violation of civil infractions and prescribe an additional penalty or penalties for failure to answer any charges of the violation in a timely manner, provided that no fine adopted or additional penalty prescribed exceed \$250.00, plus costs and other administrative charges, per violation

(b) All fines and penalties established for a Construction Noise infraction shall be collected by the Finance Director and paid into the City Treasury.

(c) The costs of proceedings shall be administratively determined by the City Manager.

ADD PROVISION TO PUD AGREEMENT

The Developer shall not permit construction noise to be generated from the "subject property" between 7 p.m. and 7 a.m. on Monday through Saturday or any time on Sunday or legal Ohio holidays. "Construction Noise" shall mean noise created by the erection (including excavating), demolition, alteration, or repair of any structure, within or adjacent to a residential zoning district including but not limited to noise from heavy equipment such as crawlers, tractors, bulldozers, cement mixers, rotary drills and augers, loaders, power shovels, saws, cranes, derricks, graders, off-highway trucks, ditchers, trenchers, compactors, compressors; pavement breakers, pile drivers, jackhammers, sandblasting tools, and other similar equipment that disturb the good order and quiet of the City. Failure to adhere to this provision may require a stop work order to be issued

Huber Heights Polling Locations

Purpose and Background

The City has been engaged in discussions with the Montgomery County Board of Elections and the Miami County Board of Elections to address polling locations for Huber Heights residents that are located outside of the City of Huber Heights. The Montgomery County Board of Elections has committed to working to relocate its polling locations outside of the City to within the City. The Miami County Board of Elections responded with an email regarding its plans for polling locations in Miami County outside of the City to continue in 2022 (see attached).

This agenda item is for discussion of these issues regarding Huber Heights polling locations.

Tony,

We have been looking into the possibilities regarding moving the polling location for residents of the City of Huber Heights. Per the Secretary of State's Office, we are not allowed to operate a polling location that falls outside of our county lines. Unfortunately, with the requirements we have for ADA compliance, parking, and space required, there are very few options that fall closer to the City of Huber Heights.

Our office currently has plans to begin utilizing schools as polling locations beginning with the General Election of 2023. We did take a look at Charles Huber Elementary. Unfortunately, elementary schools do not typically provide adequate parking to be utilized as a polling location that can service this many voters. Under our current plan, Bethel Township and our portion of Huber Heights would vote at Bethel Local Schools. This will cut the distance for voters in Huber Heights voters by 1-4 miles, depending on which portion of Carriage Trails they reside. We realize this isn't an ideal location, but with our ADA, parking, and space requirements, we believe it is the best option for voters in Miami County.

For voters with continued concerns, we also offer in-person early voting at our office for most of the 28 days prior to every election, and absentee voting by mail during the same time period.

Thank you,

Ian Ridgeway, MPA Deputy Director Miami County Board of Elections 215 West Main Street Troy, OH 45373

CITY MANAGER

CITY OF HUBER HEIGHTS, OHIO

PUBLIC SECTOR EXECUTIVE RECRUITMENT

THE COMMUNITY

Located in West Central Ohio, Huber Heights (pop. 43,439) is an attractive city within Montgomery and Miami counties. The City is the third largest suburb in the Metro Dayton area and is one of the largest growing cities in Montgomery County. The City's strategic location near the Dayton International Airport and near the "Crossroads of America" interchange makes the community a highly desirable place to live, work, and play.

Huber Heights has a thriving business climate, offering over 800 acres of retail space to the residents, such as great dining, shopping, and entertainment options. Huber Heights also offers the Kroger Aquatic Center, a family friendly outdoor waterpark that features a giant leisure pool, water slides, and a spray ground. The City is home to the Rose Music Center, where various well-known artists come and perform in a large covered, outdoor amphitheater that seats over 4,000. The top employers for the City include Apache Technologies, NDC Technologies, Enginetics, and most notably, the Huber Heights City School (HHCS) District and Bethel Local Schools.

The HHCS serves more than 5,800 students in one high school, one middle school, five elementary schools, and one preschool. The high school offers Project Lead the Way (PLTW), a STEM career development program where students can begin taking courses in Engineering, Biomedical, and Computer Science. Students can start earning college credits during their time in the High School, accelerating their academic career. The District also partners with Miami Valley Career Technical Center, and offers vocational and technical programs for students, and this includes 40 different areas for them to focus on. HHCS has been awarded various awards, such as Weisenborn Middle School being named a PLTW Distinguished School for its STEM Career Program.

Bethel Local Schools serves more than 1,800 students in one K-12 grade building with three different schools: elementary, middle school and high school. Bethel Local Schools is one of the fastest growing districts in the state adding over 100 new students per year with a new residential development in the area. Student-centered instruction, small class sizes and supportive learning environments foster a caring "family" environment where teachers are able to make personal connections with students and their families on a daily basis. Bethel local Schools is committed to its core values and strives to achieve the highest levels of performance in all its endeavors.

With its close proximity to an International Airport, various shopping strips, family centric activities, and boasting a low cost of living, Huber Heights is an attractive location for families and businesses. We encourage you to explore the City at https://hhoh.org.

THE ORGANIZATION

The City Council consists of a Mayor and eight Councilmembers, with six Councilmembers representing six wards within the City of Huber Heights and two Councilmembers at-large. The Councilmembers are elected and serve four-year staggered terms. The Mayor serves a four-year term and is also elected at-large; the Mayor also serves as a non-voting Presiding Officer of the City Council.

The City of Huber Heights operates under a modified Council-Manager form of government that combines the political leadership of elected officials in the form of a Mayor and City Council, with the managerial experience of an appointed City Manager. The City Council appoints a City Manager, a Clerk of Council, and a Law Director, and establishes a salary for these positions. The City Council evaluates the effectiveness of the City Manager, the Clerk of the Council, and the Law Director, and make adjustments as necessary.

The Huber Heights Mayor and the City Council are the leaders and policymakers, elected to stand for various segments of the community and to concentrate on policy issues that are responsive to citizens' needs and wishes. The Mayor and the City Council appoint a City Manager to carry out policies and ensure effective, efficient, and responsive professional service to the entire community. The City Manager oversees department/ division directors to lead Council directed programs and initiatives. The City Manager is responsible for overseeing a \$104 million budget, 190 full-time and 16 part-time employees that are organized into 16 different departments/divisions, and the Kroger Aquatic Center and the Rose Music Center.

THE POSITION

Under the administrative direction of City Council, the City Manager serves as the Chief Executive Officer of the City; provides leadership with the development and execution of the City's strategic vision; provides highly responsible and complex policy support to the Council; directs the work of executive level managers and reviews overall operational performance; and exercises budgetary and contractual control over revenues and expenses for the City.

Responsibilities of the City Manager include:

- Directs the development of the City's Capital Improvement Plan involving major improvements to the City's infrastructure system and municipal government facilities.
- Prepares timely, accurate information and provides appropriate recommendations on policy matters to aid City Council in the decision-making process.
- Oversees all City operations and activities; ensures that departmental goals, objectives, and policies align with City Council's Strategic Plan and budget.
- Leads the organization with a commitment to best practices; continuously monitors the efficiency and effectiveness of City operations by safeguarding the public assets and streamlining costs as needed.
- Assists in the planning and long-term strategy for future development and expansion of City services and operations.
- Advises the governing body on administrative matters and represents the City in daily interactions with the general public, businesses, media, community organizations, and other entities.

THE POSITION (CONTINUED)

- Fosters a culture of innovation; provides leadership in attracting, retaining, and developing an engaged workforce in the delivery of superior services to City residents and businesses.
- Directs, manages, and supervises all departments and divisions of the City. Coordinates activities between and among departments and divisions. Provides regular and consistent supervision, leadership, and accessibility within and outside of normal business hours.
- Identifies community needs and expectations. Works with City Council to establish long-range plans and short-range organizational goals and objectives.
- Evaluates performance and delegates assignment of subordinate personnel. Hears and resolves errors and complaints. Oversees human resources activities related to advancement, discipline, and discharge.
- Provides highly responsible policy analysis and administrative staff assistance to Council. Prepares and submits to Council including reports as requested and/or deemed advisable by the City Manager or as required by the City Charter. Prepares and/or recommends legislation for adoption by Council.

AT THE HEIGHTS

- Attends all regular Council meetings and Council committee meetings and other meetings as requested within and outside normal business hours. Regularly prepares and communicates a variety of information in various formats to the Council to assist in decision making.
- Projects long-term monetary and service needs. Oversees the forecasting of short-term monetary and service needs. Assures that assigned areas of responsibility are operated within the budget. Ensures cost control activities are performed.
- Monitors revenues and expenditures to assure sound fiscal control. Oversees preparation and presentation of annual budget. Works with department/division heads to prioritize and reconcile services with monies available.
- Promotes and maintains appropriate, proactive, and positive relations with media. Establishes news release policy and procedures. Assumes responsibility for general public relations activities.
- Participates in service organizations, community partnerships, and community events within and outside normal business hours. Plans and coordinates special events.
- Establishes and maintains positive relationships and regular interactions with external agencies.
- Attends and participates in inter-governmental meetings and organizations within and outside normal business hours. Facilitates and maintains inter-governmental agreements. Participates in professional organizations and meetings.

LEADERSHIP OPPORTUNITIES

Public Infrastructure: Work with City Council to assess the current public infrastructure needs as it relates to expected residential growth and update the long-range Capital Improvement Plan to meet the growth. Provide recommended priorities and potential sources of funding to address current needs and planned growth.

Establishing Trust: Establishing trust and credibility with the City Council, staff, and the community, listening, and communicating information, and managing expectations will be important activities for the City Manager. Building trust will enable the City Manager to help everyone see the big picture and establish shared goals.

Effective Communication: The City Manager will identify ways to expand internal and external communications to ensure transparency and to build understanding of issues being discussed and policy decisions made by the City Council.

Storm Water Management Plan: Oversee development and implement the results of the storm water management plan and dedicate fundings to address storm water related issues.

Economic Development: With multiple opportunities for economic development within the community, a primary focus of the City Manager will be advising the City Council regarding economic development opportunities and working in partnership with public and private entities to ensure that future development is sustainable and in the best long-term interests of the City. Currently underway, the City Manager's attention to economic development matters will include the Brandt Pike Revitalization Project and The Meadows Redevelopment Project; in addition to the numerous residential developments under consideration. Attention from the City Manager will be necessary to facilitate future growth on the eastern side of the City with respect to industrial and logistics uses as well as expanding relationships with Wright-Patterson Air Force Base and the defense community.

Attracting Employers and Jobs: The City Manager will work collaboratively with government partners and community leaders to present Huber Heights as a community that welcomes businesses and to attract new employers and new jobs to the City. The City Manager will also get to know employers and businesses in Huber Heights and be attentive to retention and expansion needs.

Labor Relations: The City Manager will be adept at negotiating and administering union contracts, maintaining productive and cordial relationships with the bargaining units while protecting the interests of the organization and taxpayers.

THE IDEAL CANDIDATE

The City of Huber Heights seeks a visionary leader experienced in managing an expanding community who can plan for growth and be able to communicate needs and present ideas and options clearly to the City Council and residents. The ideal candidate will be open-minded and passionate about the Huber Heights community.

This person will be a visionary, who will bring new ideas and a progressive, forward-thinking approach to address community issues and convey that vision and enthusiasm to others. The ideal candidate will be unafraid of change, always looking for ways to improve, and have an energetic, enthusiastic, idea focused attitude. The selected new City Manager will be professional, respectful, have a passion for public service, operate with integrity, and in a manner that is firm yet compassionate.

The successful candidate will be an approachable and astute manager who will encourage, mentor, and motivate City Staff and inspire the team to serve the citizens of Huber Heights with confidence and pride. The person selected for this position should be familiar and comfortable with technology, the dynamics of social media and citizen engagements, and be able to lead technological advancements for the betterment of the City.

The successful candidate will possess exceptional communication skills with the ability to effectively and articulately present pertinent information to the Council, staff, residents, business community, and other stakeholders. The next City Manager will support a culture of accountability within the organization and provide employee development, and enrichment opportunities that improve performance. Highly visible and involved in the community, the selected candidate should be accessible and at ease in a variety of social settings.

The next City Manager must have a keen understanding of municipal operations, including finance and budgeting, water and sewer infrastructure, and emergency response services. The person selected for this position must development. The chosen understand economic candidate will optimize the City's development opportunities and guide it on the path to sustainable growth. Economic development and municipal finance skills are needed to ensure development opportunities are sought and implemented using fiscally responsible processes and procedures that make the best use of City resources.

EDUCATION AND EXPERIENCE

The successful candidate will hold a bachelor's degree from an accredited college or university in public administration, political science, business management, or a closely related field with a minimum of ten (10) years' progressively responsible experience in municipal administration and a minimum of five (5) years of supervisory experience; or an equivalent combination of education and experience to provide sufficient evidence of the successful performance of the essential functions of the job. Master's degree from an accredited college or university in Public Administration, Business, Finance, or related Field and credentialed Manager through ICMA is preferred.

COMPENSATION AND BENEFITS

The annual salary range for this position is **\$108,366 to \$177,008** dependent upon candidate qualifications and experience. A competitive benefits package is offered which includes: fully paid medical insurance, HSA or HRA, dental, vision, life insurance, vacation, sick leave, and personal leave. The City Manager will participate in the Ohio Public Employees Retirement System with a 14% employee and 10% employer contribution. Residency within the City limits of Huber Heights is strongly preferred.

APPLICATION AND SELECTION PROCESS

Qualified candidates please submit your cover letter and resume by visiting our website at:

https://bakertilly.recruitmenthome.com/postings/3231

This position is open until filled; however, interested applicants are strongly encouraged to apply no later than ______. Following this date, applications will be screened against criteria outlined in this brochure. For more information, please contact Patty Heminover at patty.heminover@bakertilly.com or by calling 651-968-7841.

My initial comments:

- 1. Huber Heights is comprised of 12.5% veterans with many residents either serving as active duty or civilian employees of WPAFB. I would like to see a reference to our strong military association, not only with the base, but with area military service organizations.
- 2. Instead of just highlighting our largest local employers, recommend we mention the largest area employers, including WPAFB. I was also surprised that Trimble wasn't included.
- 3. There is no mention that we are an ethnically diverse community.
- 4. References to our other major amenities, including our expansive park system, dog park, Veterans Memorial, and BMX/Skate Park, which all draw people to the community would be beneficial.
- 5. We need to highlight the numerous free community events like the Farmer's Market, the Summer music and movie nights, Huber Haunts, Lights in the Heights; events that draw the community together.
- 6. The prospective City Manager needs to know that we are in the midst of accelerated business and residential growth and revitalization and that they need to be able to hit the ground running with these activities.

Nancy L. Byrge

City Councilwoman At-Large 6131 Taylorsville Road Huber Heights, OH 45424 937-716-2779

Good Morning Tony,

I have reviewed the Brochure Draft and have provided my comments / concerns below:

Cover page 1:

· Is the cover photo of City Hall the best and most up to date photo we have?

Page 2:

- In the second sentence, is Huber Heights not the second largest suburb as Dayton is considered a Metropolitan City?
- In the third sentence, would it be beneficial to add that half of the US population lives within a few hours flight of the City?
- In the last sentence of the second paragraph, why was there no mention of Trimble or AIDA-America as major employers, including several of our major transportation employers?
- In the third paragraph, in the third sentence, would it be beneficial to add our community/school partnership with Sinclair Community College?

Page 3:

Is there a better picture of the Dog Park that doesn't show brown/dead grass?

Page 4:

No changes

Page 5:

- Under Public Infrastructure, I seen no mention of Traffic or Road Improvements.
- Under Economic Development, in the ninth sentence, this should read The Marion Meadows Redevelopment.
- Under Economic Development, there was no mention of the ongoing Swan Lake Redevelopment.
- Under Attracting Employers and Jobs, why was there no mention of our partnership with the Huber Heights Chamber of Commerce?

Page 6:

No changes

Page 7:

- Under the Education and Experience, how was this section drafted and originated?
- Under the Compensation and Benefits, how was this section drafted and originated?
- The sentence, Residency within the City limits of Huber Heights is strongly preferred. Why are we not stating Required?

Please note that any views or opinions presented in this email do not necessarily represent those of the City of Huber Heights. Ohio has a very broad public records law. As a result, most written communication created or received by the City of Huber Heights employees, elected officials, agents and volunteers are subject to disclosure to the public and news media upon request, unless otherwise exempt. Under Ohio law, email addresses are public records. If you do not want your email address released in response to a public records request, do not send an email to a City email address.
