prepared legislation for Council consideration to increase the current salaries and to address this issue on an ongoing basis through an evergreen provision. He said the compensation changes would not be effective until after the Mayor and/or members of the City Council have been re-elected to a new term of office.

Solid Waste Management Plan Update

Executive Summary

Introduction

The Montgomery County Solid Waste Management District (SWMD) is charged with responsibly handling all solid waste disposal within Montgomery County. The SWMD is governed by two bodies: a board of directors and a policy committee and was formed as a single-county district in 1988. The SWMD is dedicated to promoting recycling, waste reduction, and responsible disposal of all waste from households, retail establishments, industry, and schools. Promoting the diversion of solid waste from landfills is a major emphasis of the SWMD, and the District offers numerous recycling programs to assist this effort.

The Solid Waste Management Plan

This Solid Waste Management Plan Update ("Plan") is a regulatory document overseen by the Ohio Environmental Protection Agency ("Ohio EPA") and serves as a roadmap for Montgomery County to reduce its reliance on landfills and to manage the solid waste generated in the County. The Plan is updated every five years, describes the waste reduction and diversion programming that will be undertaken during the planning period, and demonstrates that these programs are adequate to achieve the Plan's goals. To update the prior plan ratified in 2019, the SWMD performed a strategic, in-depth review of existing programs and services, recycling infrastructure, recovery efforts, and finances – as per Ohio EPA requirements

To advance the Plan document to ratification, the SWMD developed conclusions about the strengths and weaknesses of the SWMD's Plan and worked with the policy committee to demonstrate that Plan programs and services will meet the needs of the SWMD.

Ohio Revised Code (ORC) 3734.53 and Ohio Administrative Code (OAC) Rule 3745-27-90 specify the contents of a solid waste management plan. The Ohio EPA prescribes a District Solid Waste Management Plan Format that requires a series of Appendices. This format is very similar in concept to a permit application for a solid waste landfill.

Timeline

*This timeline is not final and subject to change.

Meeting State Goals

The State of Ohio's Solid Waste Plan has 10 goals. The District meets or exceeds all 10 of these goals. Two of the primary goals for the SWMD are:

GOAL 1 The SWMD shall ensure that there is adequate infrastructure to give residents and commercial businesses opportunities to recycle solid waste.

- ▶ Analysis shows there is 25 years of capacity at applicable landfills and sufficient disposal and processing infrastructure, more than enough to serve the SWMD's needs over the plan timeline (2026-2040).

GOAL 2 The SWMD shall reduce and recycle at least 25 percent of the solid waste generated by the residential/commercial sector.

- ▶ Based on the analysis, the SWMD's recycling rate will exceed the 25 percent goal over the planning period (2026-2040).

Key Fact

Between 2017 and 2021:

- ▶ Disposal has increased by about **55,000 tons**
- ▶ Recycling has increased by about **50,000 tons**

These trends are consistent with those of other urban SWMDs in Ohio.

SWMD Provides Access to Sufficient Collection, Recycling, Composting, and Disposal Capacity

27 communities with contracted curbside recycling services

1 community with subscription curbside recycling services

2 landfills with over 25 years of useful life each

3 material recovery facilities and 2 drop off sites

16 composting facilities and 1 food/yard waste management facility

2021-2029 Projected Recycling Rate

Sufficient Disposal Capacity

Stony Hollow Landfill (in Montgomery County) and Rumpke Sanitary Landfills (in Hamilton and Brown Counties) account for 96 percent of the waste disposed by the District. Each facility has over 25 years of useful life, providing more than enough capacity to serve the SWMD’s needs over the planning period (2026-2040).

Budget

The SWMD funds programs that are consistent with the 10 allowable uses, as determined by the Ohio EPA. These programs include education, specialty waste management, administration, and and others as shown in the Projected 2026 SWMD Expenses chart.

District is increasing generation fee from \$3.00/ton to \$3.65/ton in 2026 and 6% increases each year thereafter to support future programming

Projected SWMD 2026 Expenses (\$3 million)

Key Findings and Next Steps

The SWMD is presently complying with the regulations and requirements set forth by the Ohio EPA. Additionally, the District is committed to remaining in compliance with the Ohio EPA guidelines over the planning horizon. Landfills serving the SWMD have disposal capacity to serve the County's needs through 2040 and there is a robust set of infrastructure to meet SWMD's recycling needs.

Agenda Item Description or Legislation Title

County Assessments Authorization - Delinquent Utility/Property Maintenance/Grass And Weeds

Purpose and Background

Montgomery County requires all communities to pass separate legislation for assessments that are to be added to the tax duplicate. Before the City can assess property for such things as grass/weed charges, property maintenance abatement, unpaid water and sewer, etc., the City must pass legislation specifically identifying the property and the amount of the assessment. Details of each assessment can be found in Exhibit A, which is attached to this legislation. The assessments requested in this legislation are for grass/weeds charges, trash/litter charges, property maintenance abatement, and delinquent utility account balances. Assessments are based on collection for City services previously provided; therefore, City Staff are asking that this item be passed as emergency legislation.

Canal Heights TIF District

Submitted By: Aaron Sorrell

Department: Assistant City Manager - Public Services

Council Committee Review?: Council Work Session **Date(s) of Committee Review:** 04/08/2025

Emergency Legislation?: Yes **Motion/Ordinance/Resolution No.:**

Agenda Item Description or Legislation Title

Canal Heights TIF District

Purpose and Background

This legislation creates the Canal Heights Residential Tax Increment Financing Incentive Districts; declares improvements to the parcels to be a public purpose and exempts these parcels from real property taxation; requires the owners of those parcels to make service payments in lieu of taxes; establishes a municipal public improvement tax increment equivalent fund for the deposit of those service payments; specifies the public infrastructure improvements that serve the parcels in the incentive districts; provides for compensation payments to the school districts; and declares the legislation an emergency.

This enabling legislation follows the Canal Heights Economic Development Plan that was adopted by the City Council on February 25, 2025 (Ordinance No. 2025-O-2679) and the Development Agreement with Forestar that was approved by the City Council in December, 2024 (Resolution No. 2024-R-7502). The proposed Canal Heights TIF will facilitate the development of 283 single-family homes on 171 acres.

Montgomery County, Huber Heights Schools, and the Miami Valley CTC have all been notified of the proposed TIF as prescribed by the Ohio Revised Code.

Fiscal Impact

Source of Funds: N/A

Cost: N/A

Recurring Cost? (Yes/No): No

Funds Available in Current Budget? (Yes/No): Yes

Financial Implications:

TIF proceeds will be used to support the debt service of approximately \$10 million in special revenue bonds. Those bonds are guaranteed by the developer and not by the City of Huber Heights. Over the life of the TIF, the City will receive approximately \$9 million for various future public improvements.

CITY OF HUBER HEIGHTS
STATE OF OHIO

ORDINANCE NO. 2025-O-

CREATING THE CANAL HEIGHTS RESIDENTIAL TAX INCREMENT FINANCING INCENTIVE DISTRICTS; DECLARING IMPROVEMENTS TO THE PARCELS WITHIN THE INCENTIVE DISTRICTS TO BE A PUBLIC PURPOSE AND EXEMPT FROM REAL PROPERTY TAXATION; REQUIRING THE OWNERS OF THOSE PARCELS TO MAKE SERVICE PAYMENTS IN LIEU OF TAXES; ESTABLISHING A MUNICIPAL PUBLIC IMPROVEMENT TAX INCREMENT EQUIVALENT FUND FOR THE DEPOSIT OF THOSE SERVICE PAYMENTS; SPECIFYING THE PUBLIC INFRASTRUCTURE IMPROVEMENTS THAT BENEFIT OR SERVE PARCELS IN THE INCENTIVE DISTRICTS; PROVIDING FOR COMPENSATION PAYMENTS, AND DECLARING AN EMERGENCY.

WHEREAS, this Council has determined to facilitate the development of a residential development consisting of approximately 238 single-family homes within the City of Huber Heights (the “City”) in order to increase the available options within the City (the “Project”); and

WHEREAS, in order to develop the Project, it is necessary to construct certain public infrastructure improvements; and

WHEREAS, Ohio Revised Code (“ORC”) Sections 5709.40, 5709.42, and 5709.43 (collectively, the “TIF Statutes”) authorize this Council, by ordinance, to create one or more tax increment financing incentive districts within the corporate boundaries of the City, and declare the improvement to each parcel of real property located within the incentive districts to be a public purpose and exempt from taxation, require the owner of each parcel to make service payments in lieu of taxes, establish a municipal public improvement tax increment equivalent fund for the deposit of those service payments, and specify public infrastructure improvements made, to be made or in the process of being made that benefit or serve, or that once made will benefit or serve, parcels in the incentive districts; and

WHEREAS, to facilitate the development of the Project and pay the associated costs of the necessary public infrastructure improvements from service payments in lieu of taxes, this Council has determined to create the Canal Heights Incentive District #1, Canal Heights Incentive District #2, Canal Heights Incentive District #3, Canal Heights Incentive District #4, and Canal Heights Incentive District #5, (each an “Incentive District” and collectively the “Incentive Districts”) pursuant to the TIF Act, the boundaries of which shall be coextensive with the boundaries of, and will include, the parcels of real property within each Incentive District specifically identified and depicted in Exhibit A attached hereto (as currently or subsequently configured, the “Parcels”, with each of those parcels referred to herein individually as a “Parcel”); and

WHEREAS, by Ordinance No. 2025-O-2679 adopted on February 24, 2025, this Council approved an Economic Development Plan for the Incentive Districts (the “Economic Development Plan”), which Economic Development Plan is on file with the City Division of Engineering; and

WHEREAS, the City Engineer has certified to this Council that (i) the Incentive District is less than 300 acres in size and enclosed by a contiguous boundary, and (ii) the public infrastructure serving the Incentive District is inadequate to meet the development needs of the Incentive District as evidenced by the Economic Development Plan; and

WHEREAS, notices of this proposed Ordinance has been delivered to the Boards of Education of the Huber Heights City School District and the Miami Valley Career Technology Center in accordance with and within the time period prescribed in Ohio Revised Code Sections 5709.40 and 5709.83.

NOW, THEREFORE, BE IT ORDAINED by the City Council of Huber Heights, Ohio that:

Section 1. Incentive Districts Project; Creation of Incentive Districts. This Council finds and determines that (i) the Project will place additional demand on the public infrastructure, (ii) finds and determines that the City sent written notice of the public hearing regarding this ordinance by first class mail to each owner of real property within each proposed Incentive District at least 30 days prior to such hearing, which notice included a map of each proposed Incentive District as well as the

overlay area required by ORC Section 5709.40(C)(2), (iii) finds and determines that this Council has not received a request from the owner of any real property within any proposed Incentive District to exclude that owner's property from the Incentive District, (iv) finds and determines that notice of this ordinance has been delivered to the (A) Boards of Education of the Huber Heights City Schools District and the Miami Valley Career Technology Center and (B) the Board of County Commissioners of the County of Montgomery, Ohio, in accordance with and within the time periods prescribed in ORC Sections 5709.40 and 5709.83, and (v) finds and determines that the City has not received an objection to this ordinance from the Montgomery County Board of County Commissioners within the time periods prescribed in ORC Section 5709.40. This Council further finds that the sum of the taxable value of real property in the Incentive District for tax year 2024 and the taxable value of all real property in the City that would have been taxable in tax year 2024 were it not for the fact that the property was in an existing incentive district and therefore exemption from taxation, does not exceed twenty-five percent of the taxable value of real property within the City for tax year 2024. Pursuant to the TIF Statutes, this Council hereby creates the Incentive Districts, the boundaries of which are coextensive with the boundaries of, and include, the Parcels specifically identified and depicted in Exhibit A.

Section 2. Public Infrastructure Improvements. This Council hereby designates the public infrastructure improvements described in Exhibit B (the "Public Infrastructure Improvements") and any other public infrastructure improvements hereafter designated by ordinance as public infrastructure improvements made, to be made or in the process of being made by the City that benefit or serve, or that once made will benefit or serve, the Parcels in each Incentive District.

Section 3. Authorization of Tax Exemption; Life of Incentive District. The life of each Incentive District commences with the first tax year that begins after the effective date of this ordinance and in which an Improvement attributable to a new structure would first appear on the tax list and duplicate of real and public utility property for any Parcel within the Incentive District were it not for the exemption granted in this ordinance and ends on the earlier of (a) 30 years after such commencement or (b) the date on which the City can no longer require service payments in lieu of taxes, all in accordance with the requirements of the TIF Statutes (the "Incentive District Life"). Pursuant to and in accordance with the provisions of ORC Section 5709.40(C), this Council declares that 100% of the increase in assessed value of each Parcel subsequent to the effective date of this ordinance (which increase in assessed value is hereinafter referred to as the "Improvement" as defined in ORC Section 5709.40(A)) is a public purpose and 100% exempt from taxation for the Incentive District Life for the applicable Incentive District.

Section 4. Service Payments. As provided in ORC Section 5709.42, the owner of each Parcel is hereby required to make service payments in lieu of taxes with respect to the Improvement to that Parcel to the Montgomery County Treasurer (the "County Treasurer") on or before the final dates for payment of real property taxes. Each service payments in lieu of taxes, including any penalties and interest at the then current rate established for real property taxes (collectively, the "Service Payments"), will be charged and collected in the same manner and in the same amount as the real property taxes that would have been charged and collected against that Improvement if it were not exempt from taxation pursuant to Section 3,. The Service Payments, and any other payments with respect to each Improvement that are received by the County Treasurer in connection with the reduction required by ORC Sections 319.302, 321.24, 323.152 and 323.156, as the same may be amended from time to time, or any successor provisions thereto as the same may be amended from time to time (the "Property Tax Rollback Payments"), will be deposited and distributed in accordance with Section 6. The real property tax exemption granted and the payment obligations of this ordinance are subject and subordinate to any tax exemption applicable to the Improvement under ORC Sections 3735.65 through 3735.70.

Section 5. TIF Fund. This Council establishes, pursuant to and in accordance with the provisions of ORC Section 5709.43, the Canal Heights Municipal Public Improvement Tax Increment Equivalent Fund (the "TIF Fund"), with a separate account for each Incentive District therein. The TIF Fund will be maintained in the custody of the City and shall receive all distributions to be made to the City pursuant to Section 6 of this ordinance. Those Service Payments and Property Tax Rollback Payments received by the City with respect to the Improvement of each Parcel and so deposited pursuant to the TIF Act shall be used solely for the purposes authorized in the TIF Statutes and this ordinance (as it may be amended or supplemented). The TIF Fund will remain in existence so long as the Service Payments and Property Tax Rollback Payments are collected and used for the aforesaid purposes, after which time the TIF Fund will be dissolved and

any surplus funds remaining therein transferred to the City’s General Fund, all in accordance with the TIF Statutes.

Section 6. Distribution of Funds. Pursuant to the TIF Statutes, the County Treasurer is requested to distribute the Service Payments and Property Tax Rollback Payments collected in respect of each Parcel [to the City for further distribution] as follows:

- (i) to the Huber Heights City School District, an amount equal to the amount the Huber Heights City School District would otherwise have received as real property tax payments (including the applicable portion of any Property Tax Rollback Payments) derived from the Improvement to each Parcel if the Improvement had not been exempted from taxation pursuant to this Ordinance;
- (ii) to the Miami Valley Career Technology Center, an amount equal to the amount the Miami Valley Career Technology Center would otherwise have received as real property tax payments (including the applicable portion of any Property Tax Rollback Payments) derived from the Improvement to each Parcel if the Improvement had not been exempted from taxation pursuant to this Ordinance;
- (iii) to the City, all remaining amounts for further deposit into the TIF Fund for payment of costs of the Public Infrastructure Improvements, including, without limitation, debt charges on any notes or bonds issued to pay or reimburse finance costs or costs of those Public Infrastructure Improvements.

All distributions required under this Section 6 are requested to be made at the same time and in the same manner as real property tax distributions. [The City shall make any distributions to the extent not made by the County Treasurer.]

Section 7. Further Authorizations. This Council hereby authorizes and directs the City Manager, the Law Director, the Director of Finance, the Clerk of City Council or other appropriate officers of the City to deliver a copy of this ordinance to the Ohio Department of Development and to make such arrangements as are necessary and proper for collection of the Service Payments. This Council further authorizes the City Manager, the Law Director, the Director of Finance, the Clerk of Council or other appropriate officers of the City to prepare and sign all agreements and instruments and to take any other actions as may be appropriate to implement this Ordinance and to comply with all relevant local, state and federal legal requirements.

Section 8. Open Meetings. This Council finds and determines that all formal actions of this Council concerning and relating to the passage of this Resolution were taken in an open meeting of this Council and that all deliberations of this Council and any of its Committees that resulted in such formal actions were conducted in meetings open to the public in compliance with all legal requirements, including Section 121.22 of the Ohio Revised Code.

Section 9. Effective Date. This Ordinance is declared to be an emergency measure necessary for the immediate preservation of the public peace, health and safety, and for the further reason that this Ordinance is required to be immediately effective in order to enable the City to timely enter into contracts related to the timely development of and the commencement of construction of public infrastructure within the Incentive Districts; therefore, this Ordinance shall be in full force and effect immediately upon its passage.

Public Infrastructure Improvements

Service payments in lieu of taxes collected from the proposed Incentive District will fund certain public infrastructure improvements necessary to support residential development, including, without limitation, the acquisition, construction, equipping and installation of utilities (including but not limited to water, sanitary sewer, storm sewer infrastructure, water lines, hydrants, valves, irrigation systems and related appurtenances within the Project, which water lines, hydrants, valves, irrigation systems and related appurtenances shall be installed and inspected pursuant to plans and specifications approved by the City Engineer in accordance with the City's standard requirements, onsite and offsite retention ponds as designated on the development plans and plats for the Project) and roadways, the acquisition and construction of certain permanent improvement amenities (as set forth below) and the equipping of the Recreational Property (as defined below) to be used for recreation purposes (collectively, the "Public Infrastructure Improvements").

Additional Public Infrastructure Improvements will also include the replacement, repair, maintenance, and/or construction of new or existing permanent improvement amenities located within the Incentive District. The Developer will donate approximately 90 acres for active and/or passive recreational purposes (the "Recreational Property"). The City may use service payments in lieu of taxes to improve and equip the Recreational Property in order that it may be a recreational amenity for the residents of the City. For the purposes of this phase, "permanent improvement" shall have the same meaning as defined in Section 133.01(CC) of the Ohio Revised Code.

Other Public Infrastructure Improvements will also include all Public infrastructure improvements (as that term is defined in Section 5709.40(A)(8) of the Ohio Revised Code) that directly benefit, or that once made will directly benefit, the Incentive District (including, but not limited to, those costs listed in Section 133.15(B) of the Ohio Revised Code), as detailed in the Citywide Infrastructure Reliance Study prepared by LBJ, Inc. (see Attachment B), dated September 30, 2022. Such Public Infrastructure Improvements will also include, but not be limited to, excavating, grading, paving, constructing and installing curbs and gutters, public utilities which include water mains, sanitary sewers, and storm sewers, street lighting, sidewalks, bikeways, landscaping, traffic signalization, and also including design and other related costs, any right-of-way acquisition, erosion and sediment control measures, grading and other related work, survey work, soil engineering and construction staking, and in each case, all other costs and improvements necessary and appurtenant thereto, all of which will directly benefit, or that one made will direct benefit the Incentive Districts.

BACKGROUND

The City of Huber Heights commissioned LJB Inc. to conduct a citywide Infrastructure Reliance Study that evaluates critical linkages in the city's roadway, water, wastewater, and stormwater infrastructure. The results of this study will help the city better understand the correlation and interdependence of infrastructure elements, which will better position the city for funding opportunities for the maintenance and expansion of critical services for city residents and businesses. Increased funding for infrastructure allows Huber Heights to better distribute improvements throughout the city, improve service, and attract new developments.

The City of Huber Heights covers 25 square miles with a population of more than 43,000 residents and 800 businesses. The city also includes 233.91 centerline miles of roadways, 210.24 miles of water main, 189.71 miles of sanitary sewer, and 163.81 miles of stormwater infrastructure facilities.

INFRASTRUCTURE ATTRIBUTE APPROACH

Infrastructure Districts

Allocation of the city's 45,833 individual infrastructure elements distributed over 25 square miles requires suballocation of districts within the city. The LJB team collaborated with city staff to develop 8 Infrastructure Districts. Most city infrastructure exists within roadway right of way. Right of way for major roadway corridors were selected as borders of the Infrastructure Districts. The city corporation limits were bisected by SR 202 and SR 201 in the north and south direction and by the Montgomery County / Miami County line, I-70, Taylorsville Road and Fishburg Road in the east west directions. These corridors were selected as District borders at various points in the city. **Figure 1**, on the following page, depicts the Infrastructure Districts that are used throughout this study.

The infrastructure facilities identified for evaluation in this study are each linked to the residents and businesses in the city in different ways. For that reason, a different approach was used for the determination of how each of the different infrastructure facility categories provides service to a region of the city. A description of the allocation approach that was used for each asset category is included below.

Mapping of the infrastructure elements attributable to each of the Infrastructure Districts is included in the Appendices of this report. Maps include an overall District Infrastructure Map as well as individual maps for each of the roadway, water, sanitary sewer and stormwater assets for that district.

Roadways

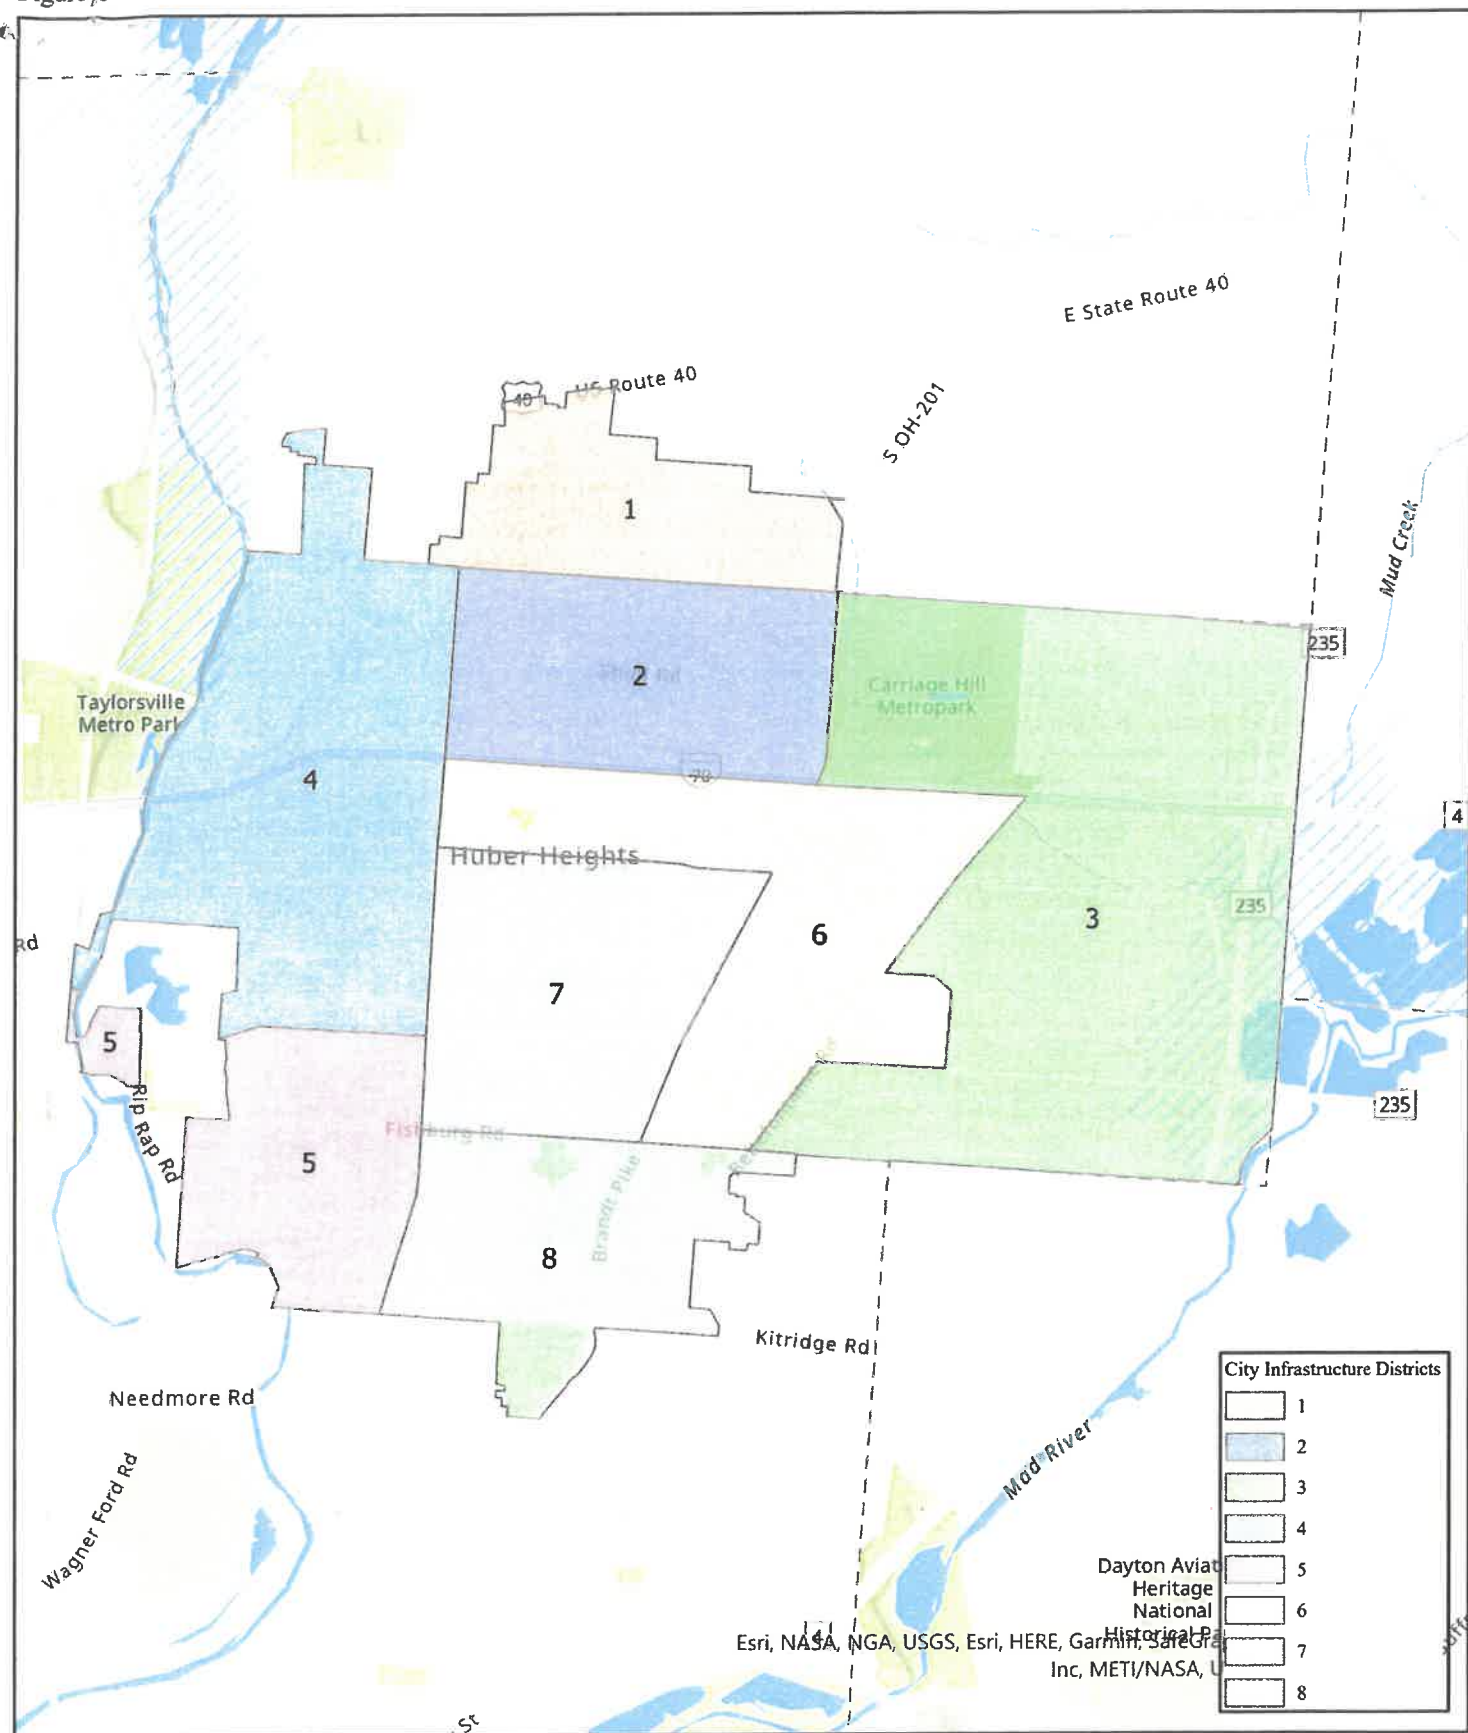

The city's roadway network provides critical access for people and goods to reach homes and businesses throughout the city. These residences and businesses rely on the roadway network to reach points inside and outside the city limits. The primary roadways that carry people and goods to points beyond the city limits are I-70, SR 202 and SR 201. A roadway segment was allocated to an Infrastructure District if it is located within that District or provided a critical, convenient link between residences and businesses within the district to the I-70, SR 202 or SR 201 corridors.

Clarifications

- > The Ohio Department of Transportation owns and maintains I-70 including grade separated interchanges with State Route 202 (SR 202) and State Route 201 (SR 201). This facility was not allocated to any of the Infrastructure Districts as it is not maintained by the city.
- > US 40 and SR 4 are also significant roadway assets in the region. While the city borders on these facilities, they are not maintained by the city and were not included in the study beyond being destinations beyond the city limits that are connected to the city's primary corridors.

Figure 7.1

Huber Heights Infrastructure Districts

1 inch equals 1 miles

Water Infrastructure

The city's supply of potable water for residential and commercial use and fire protection throughout the city is a very interconnected system. The entire city relies on the water treatment plant to provide safe water. The entire city also relies on elevated storage tanks, booster stations, and a network of pipes 6" in diameter and larger that provide appropriate redundancy and pressure balancing to all areas of the city.

A water infrastructure asset was allocated to an Infrastructure District if it is located in that district or is a part of the water treatment or pressure-providing system for that district. All water mains 6" in diameter and larger are included in the pressure-providing system and are therefore included in each of the Infrastructure Districts. A map of all water assets is included in Appendix X. See the table of contents for a listing of the exhibits that include maps for water assets in each of the Infrastructure Districts.

Sanitary Sewer Infrastructure

The city's sanitary sewer network includes all wastewater collection infrastructure from the individual residences, businesses and facilities to the lines that leave the city carrying sewage to the Tri-Cities Northern Regional Wastewater Authority or Clark County treatment plants. The system includes gravity sewer conduits, manholes, pump stations and sanitary sewer force mains.

A sanitary sewer infrastructure asset was allocated to an Infrastructure District if it is located in that district or is a downstream asset moving flows from the district towards the outfalls from the city. The vast majority of sanitary sewer infrastructure in the city carries flows to the Tri-Cities Northern Regional Wastewater Authority treatment plant located at 3777 Needmore Rd, Dayton, OH 45424, just outside the city's southwestern corporation limits. A small portion of the city's eastern sanitary sewer system, providing service to the Centre Point 70 development and businesses along New Carlisle Pike south of I-70, leaves the city to the east to enter the Clark County system just north of the Artz and SR 235 intersection.

Stormwater Infrastructure

The city's stormwater infrastructure network includes all publicly maintained open and closed drainage systems that carry rainwater from properties within the city limits to tributaries of the Great Miami River and Mad River as they exit the city corporation limits. The city's storm water system relies entirely on gravity flows and includes catch basins, manholes, storm sewer conduits, open channels and culverts within public right of way.

A storm sewer infrastructure asset was allocated to an Infrastructure District if it is located in that district or is a downstream asset moving flows from the district towards the outfalls from the city. Culverts carrying water under city owned and maintained roadways were included in the infrastructure asset assignments for Infrastructure Districts that drain to that location.

GIS MAP INTERFACE

The volume of infrastructure assets included in the city's dataset suggests that map-based presentations and management of the data will be the most effective. The LJB team applied additional data fields to the city's existing GIS information to allocate each asset to one or more Infrastructure Districts. This approach will allow the city to re-integrate the data into their existing system and apply similar approaches to modified or additional elements that are added. It will also allow city staff to query and produce maps and datasets according to the various District assignments.

Coding of Infrastructure Assets

Utility assets were assigned a code, which is viewable in the asset attribute field “Infrastructure Support District”, identifying the infrastructure district of origin. For road, storm and sanitary sewer assets, lines of continuity were followed until the utility assets exited the city boundary or ended at a body of water or processing facility. Codes were assigned to each segment in that path relating to the infrastructure district of origin, providing a clear path of asset origin to termination as defined earlier.

Query Process

To query assets, LJB first sorted by infrastructure district of origin by selecting the corresponding value from the “Infrastructure Support District” attribute field, thus showing all assets located within the boundaries of the district of interest. Next LJB added additional querying statements to show the path from origin to termination by selecting the corresponding value for “Support District” attribute fields 1-4. When structured correctly, the querying statement selects assets from the infrastructure district of origin and the accompanying assets required to perform a trace from infrastructure district of origin to point of termination.

Queried shapefile layers have been provided for each Infrastructure Support District.

Purpose and Background

Effective April 3, 2025, pursuant to Ohio Revised Code Section 149.43(B)(1), as amended by House Bill 315, state and local law enforcement agencies are permitted to charge the actual cost (capped at \$75.00 per hour with a total cap of \$750.00 per video record) to prepare law enforcement video records for inspection or production in response to a public records request. The actual costs include costs incurred in reviewing, blurring, obscuring, redacting, uploading, or producing the video records, the storage medium on which the record is produced, staff time, and any other relevant overhead necessary to comply with the public records request. Local governments can also require the requester to pay the estimated cost before preparing the video for inspection or production. City Staff have prepared a draft addition to the City's Public Records Policy for the Police Division (see attached) to address these issues due to the increasing number of these public records requests and the large amounts of resources required to process these public records requests.

Draft Policy - Video Records

DRAFT
Huber Heights Police Division Public Records Policy – Video Records
Fees for Video Record Requests (Pursuant to Ohio HB 315)
Effective Date: May 1, 2025

1. Scope:

- a) This policy applies to all public records requests involving video records (e.g., body camera, cruiser camera, or other video footage) maintained by the Huber Heights Police Division pursuant to Ohio Revised Code Section 149.43(B)(1), as amended by House Bill 315.

2. Fees For Video Records:

- a) The Police Division will charge all requesters the “actual cost” of preparing video records for production to offset the considerable time and expenses incurred in retrieving, downloading, reviewing, redacting, uploading, and producing such video records.
- b) The statutory term, “a video record,” for the purposes of this policy, means a video from one source for one start and stop recording (essentially the beginning and end of a distinct incident). For example, three (3) officers responding to an incident will each have “a video record” of that incident from each of their respective body cameras. This example will result in an actual cost charge for each video record, or three (3) video records.
- c) The amount charged for each video record will be based on the actual cost of the hourly rate(s) of the employee(s) or contractor(s) involved in retrieving, downloading, reviewing, redacting, uploading, and producing the video record requested, but will not exceed \$75.00 per hour of footage from a particular video record. Further, the total amount charged for retrieving, downloading, reviewing, redacting, uploading, and producing a video record will not exceed a maximum of \$750.00 for a particular video record.
- d) “Actual cost” includes all employee or contractor time and materials expended in retrieving, downloading, reviewing, redacting, uploading, and producing the video record, including staff time, storage media, and a portion of necessary overhead expenses required to comply with the public records request.
- e) As part of the necessary overhead charges authorized by statute, each public records request for video records will include an overhead fee of \$10.00 per video record to partially cover costs such as redaction software, video storage, upload and transmission, and other necessary expenses. This fee is included within the total actual cost and subject to the \$750.00 maximum cost per video record.

3. Critical Incident Exemption:

- a) For video records of critical incidents—defined as any instance where an officer from the Police Division fires a deadly weapon at a person—the Police Division will redact and produce the video at no cost to the requester within a reasonable period of time as defined in Ohio Revised Code Section 149.43(B)(1).
- b) This exemption is intended to ensure transparency and public accountability in such incidents.

4. Fee Exemptions:

- a) Upon submission of a fully completed Exemption Request (in such form as prescribed by the City Manager and the Law Director) and approved thereof by the City Manager, the following persons/entities may be determined to be exempt from the fee requirements of this policy: (a) an official representative of a public office as defined in Ohio Revised Code Section 149.011(A); (b) in order to respond to a duly issued subpoena in a criminal or other legal proceeding and/or an order of a court of competent jurisdiction; or (c) for any other public purpose as determined by the City Manager in his/her sole and absolute discretion.

5. Estimate Process And Advance Payment Requirement:

- a) Within five (5) business days of receiving a public records request for video records, the Police Division will provide the requester with an estimate of the cost of fulfilling the public records request.
- b) The estimated cost will include all applicable fees as outlined in Section 2, including the \$10.00 overhead fee per video record and an estimate of the cost required for video redaction and production, not to exceed the \$750.00 per video record limit.
- c) Except as provided in Section 3, the Police Division will not begin preparing a video record for production until the requester pays in full the estimated cost for the video record.

6. Cost Adjustments:

- a) If the actual cost exceeds the estimated cost by less than 20%, the requester will be required to pay the difference before the video record is provided.
- b) Under no circumstances will the requester be required to pay more than 20% above the original estimated cost, regardless of how much the actual cost exceeds

the estimate. Any additional cost beyond this 20% threshold will be borne by the Police Division.

- c) If the estimated amount exceeds the actual cost by more than 20%, the difference will be refunded to the requester in a reasonable amount of time.

7. Compliance Timeline:

- a) Except as provided in Section 3, the Police Division's obligation to make a video record available for production begins only after the requester pays in full the estimated cost.
- b) The time required for retrieving, downloading, reviewing, redacting, uploading, and producing (as well as seeking legal advice), will be considered in determining a "reasonable period of time" under Ohio Revised Code Section 149.43.

8. Contact Information:

- a) For questions about this policy or to submit a public records request, contact the Police Division at [\[Insert Contact Info\]](#).

Agenda Item Description or Legislation Title

City Council Compensation

Purpose and Background

This agenda item is to discuss potential changes to City Council compensation. When the compensation for the Mayor and the City Council was last changed in 2019 to ensure a full year of OPERS service credit, the minimum earnable salary was \$660.00 per month. Since that time, the minimum earnable salary has increased to \$734.07 per month in 2025 (see attached Information). The Law Director is preparing legislation for Council consideration to address this issue on an ongoing basis.

Service Credit and Contributing Months

Traditional Pension and Combined Plans

You earn contributing service credit when your contributions are remitted to OPERS by your employer and posted to your OPERS account. If contributions are not remitted during a pay period on your behalf, then no service credit is earned for that reporting period. Service credit is accrued based on the month in which your pay period ends.

Under the Traditional Pension and Combined plans, service credit is calculated on a monthly basis, January through December of each year, and is used to determine eligibility for retirement, disability and survivor benefits as well as any potential eligibility for the OPERS health care program.

You cannot receive more than one year of service credit for any calendar year, even if you are employed concurrently in more than one public job in an OPERS-covered position or one covered by another Ohio retirement system. Neither can you receive a full year of service credit if your length of employment or earnings per month indicates less than full-time service, as described below.

Full-time Service Credit for Calculating Pensions

You will receive full-time or a full year of service credit, toward your pension, for each year you contribute at least the full-time minimum of earnable salary during every reporting period that year – meaning the earnable salary for all pay periods ending in a calendar month equals at least the full-time minimum amount representing full-time service credit.

- Earnable salary of more than \$150 per month is considered full-time service credit through Dec. 31, 1984.
- Earnable salary of more than \$250 per month is considered full-time service credit Jan. 1, 1985 through Dec. 31, 2013.

- Earnable salary of more than \$600 per month is considered full-time service credit Jan. 1, 2014 through Dec. 31, 2016.
- Earnable salary of more than \$630 per month is considered full-time service credit Jan. 1, 2017 through Dec. 31, 2017.
- Earnable salary of more than \$660 per month is considered full-time service credit Jan. 1, 2018 through Dec. 31, 2019.

The minimum earnable salary will increase by 1.75 percent each year beginning Jan. 1, 2020, through Dec. 31, 2029.

- Earnable salary of more than \$673.08 per month is considered full-time service credit Jan. 1, 2020 through Dec. 31, 2020.
- Earnable salary of more than \$684.86 per month is considered full-time service credit Jan. 1, 2021 through Dec. 31, 2021.
- Earnable salary of more than \$696.84 per month is considered full-time service credit Jan. 1, 2022 through Dec. 31, 2022.
- Earnable salary of more than \$709.03 per month is considered full-time service credit Jan. 1, 2023 through Dec. 31, 2023.
- Earnable salary of more than \$721.44 per month is considered full-time service credit Jan. 1, 2024 through Dec. 31, 2024.
- Earnable salary of more than \$734.07 per month is considered full-time service credit Jan. 1, 2025 through Dec. 31, 2025.
- Earnable salary of more than \$746.91 per month is considered full-time service credit Jan. 1, 2026 through Dec. 31, 2026.
- Earnable salary of more than \$759.99 per month is considered full-time service credit Jan. 1, 2027 through Dec. 31, 2027.

Service Credit and Contributing Months

Traditional Pension and Combined Plans Continued

- Earnable salary of more than \$773.29 per month is considered full-time service credit Jan. 1, 2028 through Dec. 31, 2028.
- Earnable salary of more than \$786.82 per month is considered full-time service credit Jan. 1, 2029 through Dec. 31, 2029.

Part-time Service Credit for Calculating Pensions

If you work less than 12 months in a year or your earnable salary is less than the amounts listed above, you will receive part-time service credit toward your pension.

Service Credit and the OPERS Health Care Program

All service credit earned and purchased applies toward an increased pension benefit.

As of Jan. 1, 2014, to earn full service credit applicable to eligibility for the OPERS health care program in the Traditional Pension and Combined plans, you must earn a minimum of \$1,000 per month, and only the following service credit types will apply to health care program eligibility:

- Contributing service (which includes plan change service credit)
- Eligible Ohio Retirement System service combined at retirement
- Interrupted military time (USERRA)
- Unreported public service
- Redeposit (refunded/restored) service

Member-Directed Plan

If you are participating in the Member-Directed Plan, you earn contributing months rather than service credit when your contributions are remitted by your employer and posted to your OPERS account. If contributions are not remitted during any reporting period on your behalf, then you will not receive contributing months for that period. Contributions are due from your employer the month following the month in which your pay period ended. It is important to note, contributions are not immediately available to your investment accounts at the point they are deducted from your paycheck.

Employer contributions to your account are vested based on your contributing months of service. One year of participation is defined as 12 contributing months of participation in the plan. The percentage you are vested in your employer contributions determines the amount you are entitled to receive either at refund or when you retire.

The chart below illustrates the years of participation required to vest in all or a portion of the employer contributions made on your behalf:

Attained Years of Participation	Percentage Vested in Employer Contributions
Less than 1 year	0%
1 Year	20%
2 Years	40%
3 Years	60%
4 Years	80%
5 Years	100%
