Introductions

Cindy Popplewell, consultant from WSP, presented the meeting slides per the agenda shown below:

Overview of Hazard Mitigation Planning

Cindy Popplewell of WSP presented information on hazard mitigation, the requirements of hazard mitigation planning, and a timeline for the planning process. She explained the benefits of participating in the mitigation plan, including eligibility for federal hazard mitigation assistance. The powerpoint slide show that was used for informational purposes during the meeting is included as Attachment B.

Requirements of Hazard Mitigation Planning

WSP's approach to the Floodplain Management Planning process is structured around FEMA's Local Mitigation Planning Handbook (March 2013); FEMA's Local Mitigation Planning Policy Guide (April 2022); and the Community Rating System's (CRS) Floodplain Management Planning requirements (2017 and 2021 Addendum). See the reference table below. This approach will position Peoria County and participating jurisdictions to seek maximum credit under the CRS Program.

10-Step Mitigation Planning Process

Communication with the HMPC

Cindy described the role of the Hazard Mitigation Planning Committee (HMPC) during the planning process. Participation in the committee requires:

- Attending and participating in meetings,
- Providing available data requested,
- Reviewing and commenting on plan drafts,
- Advertising and assisting with the public input process, and
- Coordinating the formal adoption.

Attachment C provides an overview for HMPC members. It is anticipated that the HMPC will participate in three planning meetings. Communication between meetings will be handled primarily via email.

Planning for Public Involvement

Potential methods for involving the public in the planning process were discussed in a tiered format geared to inform, educate, and engage the public. Initial thoughts on disseminating public information about the hazard mitigation plan and planning process included posting informational flyers to the community websites and/or Tri-County Regional Planning Commission website, developing a questionnaire for public input, hosting public open house meetings and participating on the HMPC. A public outreach strategy is presented in Attachment D for review.

Risk Assessment and Capabilities Update

WSP will coordinate with Peoria County GIS staff to obtain GIS and mapping data for the risk assessment to include:

- Political boundaries
- Growth/land use maps
- Zoning data
- Parcel data
- Building footprints
- Critical facilities

Update to the Risk Assessment will include information on past occurrences, frequency/ likelihood of future occurrences, and changing future conditions. Attendees were provided a data collection guide presenting information on community technical, administrative, and fiscal resources. Attendees were asked to review the data collection guide. WSP staff will reach out directly to each jurisdiction to go collect pertinent information on capabilities. The data collection guide is included as Attachment E.

Mitigation Actions

Attendees were also provided a list of the current mitigation actions for each community. WSP staff will reach out directly to each jurisdiction to get an update on the status of all current mitigation actions (See Attachment F).

Next Steps

HMPC Members/Attendees

- Complete Data Collection Guides and/or participate in one-on-one call with WSP staff.
- Review current Mitigation Actions from previous mitigation plan and provide status update.
- Update websites with public outreach information

WSP

- Prepare Public Outreach Strategy for review – see Attachment D
- Prepare Public Information flyer and questionnaire online for public input
- Prepare outreach letters for Other Stakeholders
- Coordinate with GIS staffing for digital data/Risk Assessment
- Set meetings/calls with City/County Departments for Capability Assessment

COMMUNITY MEETINGS

Meetings were held with representatives of each participating jurisdiction to coordinate with staff outside of the HMPC membership and gather key inputs on changes in the community, changes in local capabilities, progress toward mitigation action implementation, local stakeholders to coordinate with, and other information. Minutes from each of these meetings are provided below

SURVEY RESULTS

A public survey was made available in (12/09/2024) and remained open for response through (12/20/2024). The public survey requested public input into the hazard mitigation plan update planning process, including the prioritization of hazards and the identification of goals and mitigation activities to lessen the risk and impact of future hazard events. 24 responses were submitted and a summary is shown below.

1. Choose how important you think each action is to reducing the impact of hazards in Knox County.

2. Choose how important you think each action is to reducing the impact of hazards in Knox County.

4. Choose how important you think each action is to reducing the impact of hazards in Knox County.

5. Choose how important you think each action is to reducing the impact of hazards in Knox County.

6. Are there any additional actions/projects that you think would be helpful to reduce hazard risk in Knox County?

ID ↑	Name	Responses
1	anonymous	An addition to the education/outreach section-- one point mentioned updating KEMA's emergency fact sheets-- I think it is important to figure out how best to distribute this information. I wasn't aware of these fact sheets or actually a lot of things mentioned in this survey, so getting the word out in a variety of ways would be really important. Snow/ice/winter weather preparedness also was not addressed here, but given how the county shut down this past January, research of more efficient ways to deal with winter hazards, training for equipment operators, securing funding for additional emergency equipment/materials that could possibly be shared among neighboring jurisdictions, etc.
2	anonymous	not that i know of
3	anonymous	Update to current editions of building and fire codes to enforce most recent seismic and wind design standards.
4	anonymous	Nope.

APPENDIX D: MITIGATION ALTERNATIVES

44 CFR Subsection D §201.6(c)(3)(ii): [The mitigation strategy section shall include] a section that identifies and analyzes a comprehensive range of specific mitigation actions and projects being considered to reduce the effects of each hazard, with particular emphasis on new buildings and infrastructure. All plans approved by FEMA after October 1, 2008, must also address the jurisdiction's participation in the NFIP, and continued compliance with NFIP requirements, as appropriate.

As part of the process of developing the mitigation action plan found in Section 7, the HMPC reviewed and considered a comprehensive range of mitigation options before selecting the actions identified for implementation. This section summarizes the range of mitigation measures evaluated and considered by the HMPC, including a review of the categories of mitigation measures outlined in the 2017 CRS Coordinator's Manual, a discussion of current local implementation and CRS credits earned by Pickens County for those measures, and a list of the specific mitigation projects considered and recommended for implementation.

Mitigation alternatives identified for implementation by the HMPC were evaluated and prioritized using the criteria discussed in Section 7 of this plan.

CATEGORIES OF MITIGATION MEASURES CONSIDERED

Once it was determined which hazards warranted the development of specific mitigation actions, the HMPC analyzed viable mitigation options that supported the identified planning goals. The HMPC was provided with the following list of mitigation categories which are utilized as part of the CRS planning process.

- Prevention
- Property Protection
- Natural Resource Protection
- Structural Projects
- Emergency Services
- Public Information and Outreach

ALTERNATIVE MITIGATION MEASURES PER CATEGORY

Note: CRS Credit Sections are based on the 2017 CRS Coordinator's Manual.

PREVENTATIVE AND REGULATORY MEASURES

Preventative measures are designed to keep a problem from occurring or from getting worse. The objective of preventative measures is to ensure that future development is not exposed to damage from hazards and does not cause an increase in damages to other properties. Building, planning, and code enforcement offices usually administer preventative measures. Some examples of types of preventative measures include:

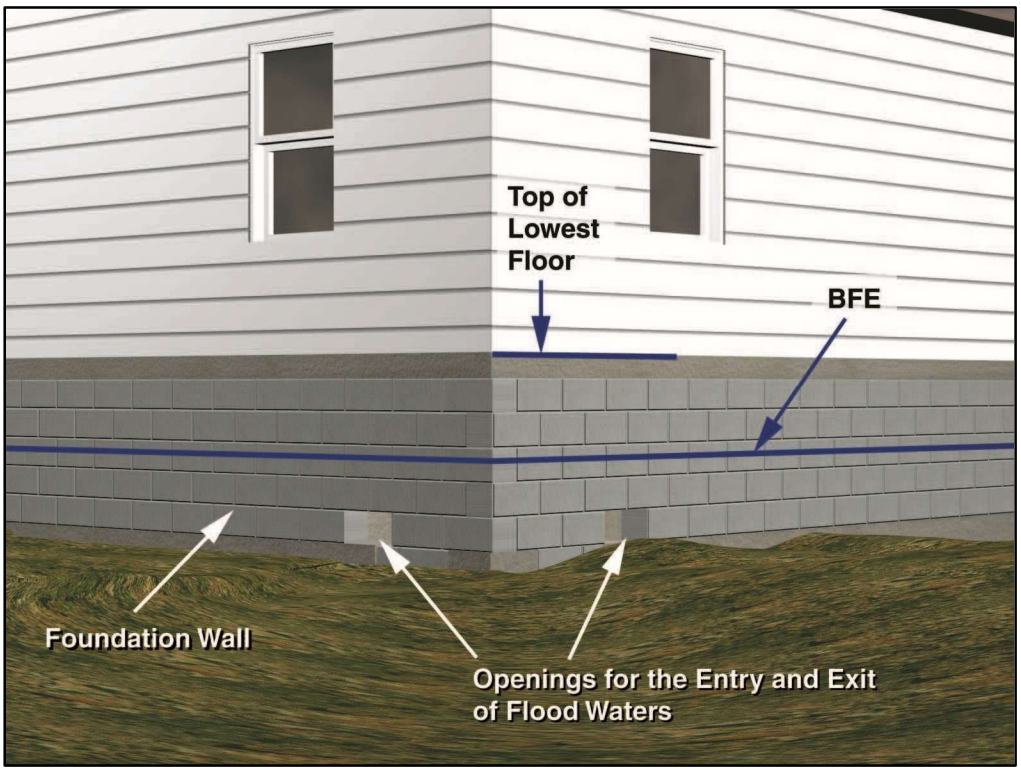
- Building codes
- Zoning regulations
- Comprehensive or land use plans
- Open space preservation
- Floodplain regulations
- Subdivision regulations
- Stormwater management regulations

BUILDING CODES

Building codes provide one of the best methods for addressing the impact of natural hazards on structures. When properly designed and constructed according to code, the average building can withstand many of the impacts of natural hazards. Hazard protection standards for all new and improved or repaired buildings can be incorporated into the local building code. Building codes can ensure that the first floors of new buildings are constructed to be higher than the elevation of the 1-percent-annual-chance flood. This is shown in the figure below. Building codes can also mitigate against other hazards, such as seismic standards, anchoring for manufactured homes or fuel tanks, soil type and stability requirements, and wind bracing requirements.

Just as important as having code standards is the enforcement of the code. Adequate inspections are needed throughout construction to ensure that the builder understands the requirements and is following them. Making sure a structure is properly elevated and anchored requires site inspections at each step.

Building Codes and Flood Elevations



Source: FEMA Publication: Above the Flood: Elevating Your Flood prone House, 2000

ASCE 24 is a referenced standard in the International Building Code (IBC). Any building or structure that falls within the scope of the IBC that is proposed in a flood hazard area is to be designed in accordance with ASCE 24. Freeboard is required as a function of the nature of occupancy and the flood zone.

COMPREHENSIVE OR LAND USE PLAN

Building codes provide guidance on how to build in hazardous areas. Planning and zoning activities direct development away from these areas, particularly floodplains and wetlands. They do this by designating land uses that are compatible with the natural conditions of land that is prone to flooding, such as open space or recreation. Land use planning could also be used to direct new development away from areas with high wildfire risk or areas downstream from dams.

OPEN SPACE PRESERVATION

Keeping the floodplain and other hazardous areas open and free from development can be the simplest approach to preventing damage to new development. Open space can be maintained in agricultural use or can serve as parks, greenway corridors, golf courses, and other recreation areas.

Comprehensive and capital improvement plans should identify areas to be preserved by acquisition and other means, such as purchasing an easement. With an easement, the owner is free to develop and use private property, but property taxes are reduced, or a payment is made to the owner if the owner agrees to not build on the part set aside in the easement.

Although there are some federal programs that can help acquire or reserve open lands, open space lands and easements do not always have to be purchased. Developers can be encouraged to dedicate park land and required to dedicate easements for drainage and maintenance purposes.

ZONING ORDINANCE

Zoning enables a community to designate what uses are acceptable on a given parcel. Zoning can ensure compatibility of land use with the land's level of suitability for development. Planning and zoning activities can also provide benefits by allowing developers more flexibility in arranging improvements on a parcel of land through the planned development approach. Zoning regulations describe what type of land use and specific activities are permitted in each district, and how to regulate how buildings, signs, parking, and other construction may be placed on a lot. Zoning regulations also provide procedures for rezoning and other planning applications. The zoning map and zoning regulations provide properties with certain rights to development.

FLOODPLAIN REGULATIONS

A Flood Damage Prevention Ordinance sets development standards for Special Flood Hazard Areas (SFHAs). Communities participating in the National Flood Insurance Program (NFIP) are required to adopt a flood damage prevention ordinance that meets at least the minimum standards of the NFIP; however, a community can incorporate higher standards for increased protection. For example, communities can adopt higher regulatory freeboard requirements, cumulative substantial damage definitions, fill restrictions, and other standards.

Another important consideration in floodplain regulations is the protection of natural and beneficial functions and the preservation of natural barriers such as vegetation. Vegetation along a stream bank is extremely beneficial for the health of the stream. Trees and other plants have an extensive root system that strengthen stream banks and help prevent erosion. Vegetation that has sprouted up near streams should remain undisturbed unless removing it will significantly reduce a threat of flooding or further destruction of the stream channel.

STORMWATER MANAGEMENT REGULATIONS

Stormwater runoff is increased when natural ground cover is replaced by urban development. Development in the watershed that drains to a river can aggravate downstream flooding, overload the community's drainage system, cause erosion, and impair water quality. There are three ways to prevent flooding problems caused by stormwater runoff:

5 Regulating development in the floodplain to ensure that it will be protected from flooding and that it won't divert floodwaters onto other properties;
6 Regulating all development to ensure that the post-development peak runoff will not be greater than it was under pre-development conditions; and
7 Set construction standards so buildings are protected from shallow water.

REDUCING FUTURE FLOOD LOSSES

Zoning and comprehensive planning can work together to reduce future flood losses by directing development away from hazard prone areas. Creating or maintaining open space is the primary way to reduce future flood losses.

Planning for open space must also be supplemented with development regulations to ensure that stormwater runoff is managed, and that development is protected from flooding. Enforcement of the flood damage prevention ordinance and the flood protection elevation requirement provides an extra level of protection for buildings constructed in the planning area.

Stormwater management and the requirement that post-development runoff cannot exceed pre-development conditions is one way to prevent future flood losses. Retention and detention requirements also help to reduce future flood losses.

PROPERTY PROTECTION MEASURES

Property protection measures are used to modify buildings or property subject to damage. Property protection measures fall under three approaches:

- Modify the site to keep the hazard from reaching the building;
- Modify the building (retrofit) so it can withstand the impacts of the hazard; and
- Insure the property to provide financial relief after the damage occurs.

Property protection measures are normally implemented by the property owner, although in many cases technical and financial assistance can be provided by a government agency.

Generally, natural hazards do not damage vacant areas. As noted earlier, the major impact of hazards is to people and improved property. In some cases, properties can be modified so the hazard does not reach the damage-prone improvements. For example, a berm can be built to prevent floodwaters from reaching a house.

There are five common methods to keep a flood from reaching and damaging a building:

- Erect a barrier between the building and the source of the flooding.
- Move the building out of the flood-prone area.
- Elevate the building above the flood level.

- Demolish the building.
- Replace the building with a new one that is elevated above the flood level.

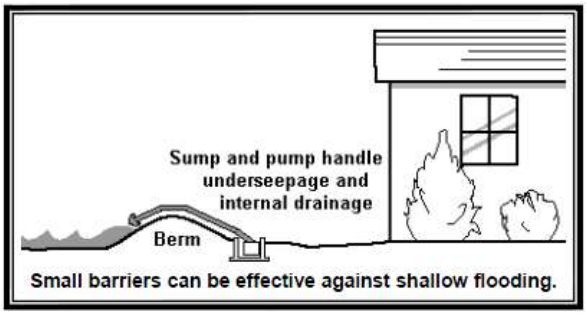
The latter three approaches are the most effective types to consider for the planning area.

BARRIERS

A flood protection barrier can be built of dirt or soil (a "berm") or concrete or steel (a "floodwall"). Careful design is needed so as not to create flooding or drainage problems on neighboring properties. Depending on how porous the ground is, if floodwaters will stay up for more than an hour or two, the design needs to account for leaks, seepage of water underneath, and rainwater that will fall inside the perimeter. This is usually done with a sump or drain to collect the internal groundwater and surface water and a pump and pipe to pump the internal drainage over the barrier. Barriers can only be built so high. They can be overtopped by a flood higher than expected. Barriers made of earth are susceptible to erosion from rain and floodwaters if not properly sloped, covered with grass, and properly maintained.

RELOCATION

Moving a building out of a flood prone area to higher ground is the surest and safest way to protect it from flooding. While almost any building can be moved, the cost increases for heavier structures, such as those with exterior brick and stone walls, and for large or irregularly shaped buildings. Relocation is also preferred for large lots that include buildable areas outside the floodplain or where the owner has a new flood-free lot (or portion of the existing lot) available.



Small barriers can be effective against shallow flooding.

BUILDING ELEVATION

Raising a building above the flood level can be almost as effective as moving it out of the floodplain. Water flows under the building, causing little or no damage to the structure or its contents. Raising a building above the flood level is cheaper than moving it and can be less disruptive to a neighborhood. Elevation has proven to be an acceptable and reasonable means of complying with floodplain regulations that require new, substantially improved, and substantially damaged buildings to be elevated above the base flood elevation.

This low floodwall has landscaping to minimize the adverse impact on the property's appearance.

DEMOLITION

Some buildings, especially heavily damaged or repetitively flooded ones, are not worth the expense to protect them from future damages. It is safer and more cost effective to demolish them and either replace them with new, flood protected structures, or relocate the occupants to a safer site. Demolition is also appropriate for buildings that are difficult to move—such as larger, slab foundation or masonry structures—and for dilapidated structures that are not cost-beneficial to protect.

Demolishing a repetitively flooded home

PILOT RECONSTRUCTION

If a building is not in good shape, elevating it may not be worthwhile or it may even be dangerous. An alternative is to demolish the structure and build a new one on the site that meets or exceeds all flood protection codes. FEMA funding programs refer to this approach as "pilot reconstruction." It is still a pilot

program, and not a regularly funded option. Certain rules must be followed to qualify for federal funds for pilot reconstruction.

RETROFITTING

An alternative to keeping the hazard away from a building is to modify or retrofit the site or building to minimize or prevent damage. This strategy can mitigate flooding, hurricane, severe weather, and other hazards. There are two primary techniques for flood retrofitting, as described below.

- **Dry Floodproofing**
  Dry floodproofing means making all areas below the flood protection level watertight. Walls are coated with waterproofing compounds or plastic sheeting. Openings, such as doors, windows and vents, are closed, either permanently, with removable shields, or with sandbags. Dry floodproofing of new and existing nonresidential buildings in the regulatory floodplain is permitted under state, FEMA and local regulations. Dry floodproofing of existing residential buildings in the floodplain is also permitted as long as the building is not substantially damaged or being substantially improved. Owners of buildings located outside the regulatory floodplain can always use dry floodproofing techniques.

  Dry floodproofing is only effective for shallow flooding, such as repetitive drainage problems. It does not protect from the deep flooding along lakes and larger rivers caused by hurricanes or other storms.

- **Wet Floodproofing**
  The alternative to dry floodproofing is wet floodproofing: water is let in and everything that could be damaged by a flood is removed or elevated above the flood level. Structural components below the flood level are replaced with materials that are not subject to water damage. For example, concrete block walls are used instead of wooden studs and gypsum wallboard. The furnace, water heater and laundry facilities are permanently relocated to a higher floor. Where the flooding is not deep, these appliances can be raised on blocks or platforms.

INSURANCE

Technically, insurance does not mitigate damage caused by a natural hazard. However, it does help the owner repair, rebuild, and hopefully afford to incorporate some of the other property protection measures in the process. Insurance offers the advantage of protecting the property, so long as the policy is in force, without requiring human intervention for the measure to work.

- **Private Property**
  Although most homeowner's insurance policies do not cover a property for flood damage, an owner can insure a building for damage by surface flooding through the NFIP. Flood insurance coverage is provided for buildings and their contents damaged by a "general condition of surface flooding" in the area. Most people purchase flood insurance because it is required by the bank when they get a mortgage or home improvement loan. Usually these policies just cover the building's structure and not the contents. Contents coverage can be purchased separately. Renters can buy contents coverage, even if the owner does not buy structural coverage on the building. Most people don't realize that there is a 30-day waiting period to purchase a flood insurance policy and there are limits on coverage.

- **Public Property**
  Governments can purchase commercial insurance policies. Larger local governments often self-insure and absorb the cost of damage to one facility, but if many properties are exposed to damage, self-insurance can drain the government's budget. Communities cannot expect federal disaster assistance to make up the difference after a flood.

Natural Resource Protection

Resource protection activities are generally aimed at preserving (or in some cases restoring) natural areas. These activities enable the naturally beneficial functions of fields, floodplains, wetlands, and other natural lands to operate more effectively. Natural and beneficial functions of watersheds, floodplains and wetlands include:

- Reduction in runoff from rainwater and stormwater in pervious areas
- Infiltration that absorbs overland flood flow
- Removal and filtering of excess nutrients, pollutants and sediments
- Storage of floodwaters
- Absorption of flood energy and reduction in flood scour
- Water quality improvement
- Groundwater recharge
- Habitat for flora and fauna
- Recreational and aesthetic opportunities

As development occurs, many of the above benefits can be achieved through regulatory steps for protecting natural areas or natural functions. This section covers the resource protection programs and standards that can help mitigate the impact of natural hazards, while they improve the overall environment. Six areas were reviewed:

- Wetland protection
- Erosion and sedimentation control
- Stream/River restoration
- Best management practices
- Dumping regulations
- Farmland protection

In general, a comprehensive natural resource protection plan can establish a complete set of standards, including the approaches, to protect, conserve and enhance natural resources. A comprehensive approach can integrate local planning and policy tools to achieve this aim, enable preservation of interconnected expanses of natural resource areas, and provide municipal officials, local developers and landowners a clearer understanding of the natural resources that need to be protected during the development review process. It also permits a municipality to more easily adapt its ordinances in order to address emerging environmental issues.

Comprehensive resource protection standards inherently conserve energy because they improve environmental conditions without the need for mechanical infrastructure that requires energy to operate. Vegetated floodplains reduce flooding and flood damage which requires reconstruction, and thus energy to

reverse. Similarly, vegetated wetlands improve water quality and reduce runoff lowering energy consumption used in water treatment plants. Riparian buffers and vegetated steep slopes reduce runoff and erosion thus improving water quality. Healthy forests and wooded areas also serve this function, and also create wind breaks, which reduce wind chill on houses and lower heating costs in winter. In summer, tall trees near buildings reduce the need for air condition through shading the structures and also release water from their leaves which cools the structure's surfaces.

However, comprehensive natural resource protection programs take time, resources, and technical expertise to complete, and they require a long-term commitment to educate municipal officials for successful implementation, administration, and ongoing public education.

WETLAND PROTECTION

Wetlands are often found in floodplains and topographically depressed areas of a watershed. Many wetlands receive and store floodwaters, slowing and reducing downstream flows. They also serve as a natural filter, which helps to improve water quality, and they provide habitat for many species of fish, wildlife and plants.

EROSION AND SEDIMENTATION CONTROL

Farmlands and construction sites typically contain large areas of bare exposed soil. Surface water runoff can erode soil from these sites, sending sediment into downstream waterways. Erosion also occurs along stream banks and shorelines as the volume and velocity of flow or wave action destabilize and wash away the soil. Sediment suspended in the water tends to settle out where flowing water slows down. This can clog storm drains, drain tiles, culverts and ditches and reduce the water transport and storage capacity of river and stream channels, lakes and wetlands.

There are two principal strategies to address these problems: minimize erosion and control sedimentation. Techniques to minimize erosion include phased construction, minimal land clearing, and stabilizing bare ground as soon as possible with vegetation and other soil stabilizing practices.

STREAM/RIVER RESTORATION

There is a growing movement that has several names, such as "stream conservation," "bioengineering," or "riparian corridor restoration." The objective of these approaches is to return streams, stream banks, and adjacent land to a more natural condition, including the natural meanders. Another term is "ecological restoration," which restores native indigenous plants and animals to an area.

A key component of these efforts is to use appropriate native plantings that resist erosion along stream banks. This may involve retrofitting the shoreline with willow cuttings, wetland plants, or rolls of landscape material covered with a natural fabric that decomposes after the banks are stabilized with plant roots.

In all, restoring the right vegetation to a stream has the following advantages:

- Reduces the amount of sediment and pollutants entering the water
- Enhances aquatic habitat by cooling water temperature
- Provides food and shelter for both aquatic and terrestrial wildlife
- Can reduce flood damage by slowing the velocity of water
- Increases the beauty of the land and its property value
- Prevents property loss due to erosion
- Provides recreational opportunities, such as hunting, fishing and bird watching
- Reduces long-term maintenance costs

BEST MANAGEMENT PRACTICES

Communities are required by state and federal regulations to monitor storm water drainage outfalls and control storm water runoff.

Point source pollutants come from pipes such as the outfall of a municipal wastewater treatment plant. They are regulated by the US EPA. Nonpoint source pollutants come from non-specific locations and harder to regulate. Examples of nonpoint source pollutants are lawn fertilizers, pesticides, other chemicals, animal wastes, oils from street surfaces and industrial areas, and sediment from agriculture, construction, mining and forestry. These pollutants are washed off the ground's surface by stormwater and flushed into receiving storm sewers, ditches and streams.

The term "best management practices" (BMPs) refers to design, construction and maintenance practices and criteria that minimize the impact of stormwater runoff rates and volumes, prevent erosion, protect natural resources and capture nonpoint source pollutants (including sediment). They can prevent increases in downstream flooding by attenuating runoff and enhancing infiltration of stormwater. They also minimize water quality degradation, preserve beneficial natural features onsite, maintain natural base flows, minimize habitat loss, and provide multiple usages of drainage and storage facilities.

DUMPING REGULATIONS

BMPs usually address pollutants that are liquids or are suspended in water that are washed into a lake or stream. Dumping regulations address solid matter, such as shopping carts, appliances and landscape waste that can be accidentally or intentionally thrown into channels or wetlands. Such materials may not pollute the water, but they can obstruct even low flows and reduce the channels' and wetlands' abilities to convey or clean stormwater.

Many cities have nuisance ordinances that prohibit dumping garbage or other "objectionable waste" on public or private property. Waterway dumping regulations need to also apply to "non-objectionable" materials, such as grass clippings or tree branches, which can kill ground cover or cause obstructions in channels. Regular inspections to catch violations should be scheduled.

Many people do not realize the consequences of their actions. They may, for example, fill in the ditch in their front yard without realizing that is needed to drain street runoff. They may not understand how re-grading their yard, filling a wetland, or discarding leaves or branches in a watercourse can cause a problem to themselves and others. Therefore, a dumping enforcement program should include public information materials that explain the reasons for the rules as well as the penalties.

FARMLAND PROTECTION

Farmland protection is an important piece of comprehensive planning and zoning throughout the United States. The purpose of farmland protection is to provide mechanisms for prime, unique, or important agricultural land to remain as such, and to be protected from conversion to nonagricultural uses.

Frequently, farm owners sell their land to residential or commercial developers and the property is converted to non-agricultural land uses. With development comes more buildings, roads, and other infrastructure. Urban sprawl occurs, which can lead to additional stormwater runoff and emergency management difficulties.

Farms on the edge of cities are often appraised based on the price they could be sold for to urban developers. This may drive farmers to sell to developers because their marginal farm operations cannot afford to be taxed as urban land. The Farmland Protection Program in the United States Department of Agriculture's 2002 Farm Bill (Part 519) allows for funds to go to state, tribal, and local governments as well as nonprofit organizations to help purchase easements on agricultural land to protect against the development of the land.

EMERGENCY SERVICES MEASURES

Emergency services measures protect people during and after a disaster. A good emergency management program addresses all hazards, and it involves all local government departments. This section reviews emergency services measures following a chronological order of responding to an emergency. It starts with identifying an impending problem (threat recognition) and continues through post-disaster activities.

THREAT RECOGNITION

The first step in responding to a flood is to know when weather conditions are such that an event could occur. With a proper and timely threat recognition system, adequate warnings can be disseminated.

The National Weather Service (NWS) is the prime agency for detecting meteorological threats. Severe weather warnings are transmitted through NOAA's Weather Radio System, Interactive NWS (iNWS) alerts, and FEMA's Integrated Public Alert & Warning System (IPAWS). Local emergency managers can then provide more site-specific and timely recognition after the NWS issues a watch or a warning. A flood threat recognition system predicts the time and height of a flood crest. This can be done by measuring rainfall, soil moisture, and stream flows upstream of the community and calculating the subsequent flood levels.

On smaller rivers and streams, locally established rainfall and river gauges are needed to establish a flood threat recognition system. The NWS may issue a "flash flood watch." This is issued to indicate current or developing hydrologic conditions that are favorable for flash flooding in and close to the watch area, but the occurrence is neither certain nor imminent. These events are so localized and so rapid that a "flash flood warning" may not be issued, especially if no remote threat recognition equipment is available. In the absence of a gauging system on small streams, the best threat recognition system is to have local personnel monitor rainfall and stream conditions. While specific flood crests and times will not be predicted, this approach can provide advance notice of potential local or flash flooding.

WARNING

The next step in emergency response following threat recognition is to notify the public and staff of other agencies and critical facilities. More people can implement protection measures if warnings are early and include specific detail.

The NWS issues notices to the public using two levels of notification:

- Watch: conditions are right for flooding, thunderstorms, tornadoes or winter storms.
- Warning: a flood, tornado, etc., has started or been observed.

A more specific warning may be disseminated by the community in a variety of ways. The following are the more common methods:

- CodeRED countywide mass telephone emergency communication system
- Commercial or public radio or TV stations
- The Weather Channel

- Cable TV emergency news inserts
- Telephone trees/mass telephone notification
- NOAA Weather Radio
- Tone activated receivers in key facilities
- Outdoor warning sirens
- Sirens on public safety vehicles
- Door-to-door contact
- Mobile public address systems
- Email notifications

Just as important as issuing a warning is telling people what to do in case of an emergency. A warning program should include a public information component.

STORMREADY

The National Weather Service (NWS) established the StormReady program to help local governments improve the timeliness and effectiveness of hazardous weather-related warnings for the public. To be officially StormReady, a community must:

- Establish a 24-hour warning point and emergency operations center
- Have more than one way to receive severe weather warnings and forecasts and to alert the public
- Create a system that monitors weather conditions locally
- Promote the importance of public readiness through community seminars
- Develop a formal hazardous weather plan, which includes training severe weather spotters and holding emergency exercises

Being designated as an NWS StormReady community is a good measure of a community's emergency warning program for weather hazards. Pickens County is designated as StormReady.

RESPONSE

The protection of life and property is the most important task of emergency responders. Concurrent with threat recognition and issuing warnings, a community should respond with actions that can prevent or reduce damage and injuries. Typical actions and responding parties include the following:

- Activating the emergency operations center (emergency preparedness)
- Closing streets or bridges (police or public works)
- Shutting off power to threatened areas (utility company)
- Passing out sand and sandbags (public works)
- Holding children at school or releasing children from school (school superintendent)
- Opening evacuation shelters (the American Red Cross)
- Monitoring water levels (public works)
- Establishing security and other protection measures (police)

An emergency action plan ensures that all bases are covered and that the response activities are appropriate for the expected threat. These plans are developed in coordination with the agencies or offices that are given various responsibilities.

Emergency response plans should be updated annually to keep contact names and telephone numbers current and to ensure that supplies and equipment that will be needed are still available. They should be critiqued and revised after disasters and exercises to take advantage of the lessons learned and of changing conditions. The result is a coordinated effort implemented by people who have experience working together so that available resources will be used in the most efficient manner possible.

EVACUATION AND SHELTER

There are six key components to a successful evacuation:

- Adequate warning
- Adequate routes
- Proper timing to ensure the routes are clear
- Traffic control
- Knowledgeable travelers
- Care for special populations (e.g., disabled persons, prisoners, hospital patients, schoolchildren)

Those who cannot get out of harm's way need shelter. Typically, the American Red Cross will staff a shelter and ensure that there is adequate food, bedding, and wash facilities. Shelter management is a specialized skill. Managers must deal with problems like scared children, families that want to bring in their pets, and the potential for an overcrowded facility.

POST-DISASTER RECOVERY AND MITIGATION

After a disaster, communities should undertake activities to protect public health and safety and facilitate recovery. Appropriate measures include providing safe drinking water, monitoring for diseases, vaccinating residents for tetanus and other diseases, clearing streets, and cleaning up debris and garbage. Additionally, there should be an effort to help prepare people and property for the next disaster, including:

- Public information activities to advise residents about mitigation measures they can incorporate into their reconstruction work
- Evaluating damaged public facilities to identify mitigation that can be included during repairs
- Identifying other mitigation measures that can lessen the impact of the next disaster
- Acquiring substantially or repeatedly damaged properties from willing sellers
- Planning for long-term mitigation activities
- Applying for post-disaster mitigation funds

To formalize the incorporation of mitigation into post-disaster redevelopment, communities may adopt post-disaster redevelopment plans and ordinances. Requiring permits for building repairs and conducting inspections are vital activities to ensure that damaged structures are safe for people to reenter and repair. There is a special requirement to do this in floodplains, regardless of the type of disaster or the cause of damage. The NFIP requires that local officials enforce the substantial damage regulations. These rules require that if the cost to repair a building in the mapped floodplain equals or exceeds 50% of the building's market value, the building must be retrofitted to meet the standards of a new building in the floodplain. In most cases, this means that a substantially damaged building must be elevated above the base flood elevation.

STRUCTURAL PROJECTS

Four general types of flood control projects are reviewed here: levees, reservoirs, diversions, and dredging. These projects have three advantages not provided by other mitigation measures:

- They can stop most flooding, protecting streets and landscaping in addition to buildings.
- Many projects can be built without disrupting citizens' homes and businesses.
- They are constructed and maintained by a government agency, a more dependable long-term management arrangement than depending on many individual private property owners.

However, as shown below, structural measures also have shortcomings. The appropriateness of using flood control depends on individual project area circumstances.

- Advantages
  - They may provide the greatest amount of protection for land area used
  - Because of land limitations, they may be the only practical solution in some circumstances
  - They can incorporate other benefits into structural project design, such as water supply and recreational uses
  - Regional detention may be more cost-efficient and effective than requiring numerous small detention basins
- Disadvantages
  - They can disturb the land and disrupt natural water flows, destroying wildlife habitat
  - They require regular maintenance
  - They are built to a certain flood protection level that can be exceeded by larger floods
  - They can create a false sense of security
  - They promote more intensive land use and development in the floodplain

LEVEES AND FLOODWALLS

Probably the best-known flood control measure is a barrier of earth (levee) or concrete (floodwall) erected between the watercourse and the property to be protected. Levees and floodwalls confine water to the stream channel by raising its banks. They must be well designed to account for large floods, underground seepage, pumping of internal drainage, and erosion and scour.

RESERVOIRS AND DETENTION

Reservoirs reduce flooding by temporarily storing flood waters behind dams or in storage or detention basins. Reservoirs lower flood heights by holding back, or detaining, runoff before it can flow downstream. Flood waters are detained until the flood has subsided, and then the water in the reservoir or detention basin is released or pumped out slowly at a rate that the river can accommodate downstream.

Reservoirs can be dry and remain idle until a large rain event occurs. Or they may be designed so that a lake or pond is created. The lake may provide recreational benefits or water supply, which could also help provide drought mitigation.

Retention pond

Flood control reservoirs are most commonly built for one of two purposes. Large reservoirs are constructed to protect property from existing flood problems. Smaller reservoirs, or detention basins, are built to protect property from the stormwater runoff impacts of new development.

DIVERSION

A diversion is a new channel that sends floodwaters to a different location, thereby reducing flooding along an existing watercourse. Diversions can be surface channels, overflow weirs, or tunnels. During normal flows, the water stays in the old channel. During floods, the floodwaters spill over to the diversion channel

PUBLIC INFORMATION

OUTREACH PROJECTS

Outreach projects are the first step in the process of orienting property owners to the hazards they face and to the concept of property protection. They are designed to encourage people to seek out more information in order to take steps to protect themselves and their properties.

Awareness of the hazard is not enough; people need to be told what they can do about the hazard. Thus, projects should include information on safety, health and property protection measures. Research has shown that a properly run local information program is more effective than national advertising or publicity campaigns. Therefore, outreach projects should be locally designed and tailored to meet local conditions.

Community newsletters/direct mailings: The most effective types of outreach projects are mailed or distributed to everyone in the community. In the case of floods, they can be sent only to floodplain property owners.

News media: Local newspapers can be strong allies in efforts to inform the public. Local radio stations and cable TV channels can also help. These media offer interview formats and cable TV may be willing to broadcast videos on the hazards.

LIBRARIES AND WEBSITES

The two previous activities tell people that they are exposed to a hazard. The next step is to provide information to those who want to know more. The community library and local websites are obvious places for residents to seek information on hazards, hazard protection, and protecting natural resources.

Books and pamphlets on hazard mitigation can be given to libraries, and many of these can be obtained for free from state and federal agencies. Libraries also have their own public information campaigns with displays, lectures and other projects, which can augment the activities of the local government. Today, websites are commonly used as research tools. They provide fast access to a wealth of public and private sites for information. Through links to other websites, there is almost no limit to the amount of up to date information that can be accessed on the Internet.

In addition to online floodplain maps, websites can link to information for homeowners on how to retrofit for floods or a website about floods for children.

TECHNICAL ASSISTANCE

- **Hazard Information**
  Residents and business owners that are aware of the potential hazards can take steps to avoid problems or reduce their exposure to flooding. Communities can easily provide map information from FEMA's FIRMs and Flood Insurance Studies. They may also assist residents in submitting requests for map amendments and revisions when they are needed to show that a building is located outside the mapped floodplain.

Some communities supplement what is shown on the FIRM with information on additional hazards, flooding outside mapped areas and zoning. When the map information is provided, community staff can explain insurance, property protection measures and mitigation options that are available to property owners. They should also remind inquirers that being outside the mapped floodplain is no guarantee that a property will never flood.

- **Property Protection Assistance**
  While general information provided by outreach projects or the library is beneficial, most property owners do not feel ready to retrofit their buildings without more specific guidance. Local building department staffs are experts in construction. They can provide free advice, not necessarily to design a protection measure, but to steer the owner onto the right track. Building or public works department staffs can provide the following types of assistance:
  - Visit properties and offer protection suggestions
  - Recommend or identify qualified or licensed contractors
  - Inspect homes for anchoring of roofing and the home to the foundation
  - Explain when building permits are needed for home improvements.

PUBLIC INFORMATION PROGRAM

A Program for Public Information (PPI) is a document that receives CRS credit. It is a review of local conditions, local public information needs, and a recommended plan of activities. A PPI consists of the following parts:

- The local flood hazard
- The property protection measures appropriate for the flood hazard
- Flood safety measures appropriate for the local situation
- The public information activities currently being implemented within the community, including those being carried out by non-government agencies
- Goals for the community's public information program
- The outreach projects that will be done each year to reach the goals
- The process that will be followed to monitor and evaluate the projects

Adopting Your Local Mitigation Plan

Local governments, including special districts, seeking plan approval must adopt their hazard mitigation plan in accordance with local laws. Adoption is a key requirement of the Local Mitigation Planning Policy Guide.

Why does plan adoption matter?

- You've done the hard work. Now, it's time to adopt! Plan adoption completes the mitigation planning process. It also shows your community's commitment to the goals and actions in your plan.
- Adoption fulfills Element F: Plan Adoption of the Local Mitigation Planning Policy Guide. FEMA only approves plans that meet all planning requirements. This includes plan adoption.
- For plan updates, adoption recognizes the current planning process. It acknowledges changes from the past five years and validates the priorities for hazard mitigation actions.
- Adoption marks the beginning of implementing your plan. Since each plan participant must sign off on the plan, this process reintroduces the ideas in the plan to decision makers, partners and the public. It also authorizes the agencies listed in the plan to carry out the risk reduction actions they agreed to take on.
- Approval makes your community eligible for certain FEMA assistance that can fund your mitigation actions. Applicants and subapplicants must have an approved mitigation plan at the time of grant application and obligation.

What do I need to do?

- Your local governing body or other authority must formally adopt the plan.
- Submit proof of plan adoption to the state and FEMA. Besides the official resolution, proof can be in the form of meeting minutes, resolutions, a signed letter or any other method that shows official adoption.
- Adoption can happen before you submit the plan to FEMA for approval. With this option, submit all adoption documentation along with the plan for review. Remember that the state and/or FEMA may require you to revise your plan. Use flexible language in your documentation. It should leave room for any needed revisions. For instance, you can state that your community adopts the plan inclusive of any minor additions or corrections that result from the state and FEMA review process.

FEMA

- You can also adopt after FEMA reviews your plan and it receives Approvable Pending Adoption (APA) status. With this option, you should adopt the plan within one year of getting APA status.
- **If you do not adopt the plan within one year of getting APA status, you must take further steps to validate that the plan's risk assessment and mitigation strategy are still current prior to approval.**
- Remember that there are other considerations for **multi-jurisdictional plans** (as shown below in Figure 1):
  - Each participating jurisdiction must adopt the plan and provide proof that adoption occurred. Lead jurisdictions for these plans should get buy-in for adoption early in the planning process. Use letters of commitment to show that jurisdictions will take part in and adopt the plan.
  - If your community is part of a multi-jurisdictional plan, the status of other participating jurisdictions in the plan will not affect your approval status.
  - If jurisdictions plan to adopt before submitting the plan for approval, **then all the jurisdictions that are part of the multi-jurisdictional plan must submit proof of adoption**. This allows the plan and all the jurisdictions to gain approval at once after all requirements are met.

RE: Roundabout Intersection Improvements
S. Northshore Drive at Concord Road (S.R. 332)
Knox County, Tennessee

Dear Mr. Friend:

Cannon & Cannon, Inc. (CCI) is pleased to submit this proposal to Knox County Engineering and Public Works for providing professional engineering and surveying services related to the Roundabout Intersection Improvements at S. Northshore Drive at Concord Road (S.R. 332). Knox County is proposing intersection improvements located at the existing roundabout and right-turn bypass lanes.

The two areas of improvement include a) adding an eastbound bypass lane along the southside of S. Northshore Drive adjacent to the Knox County Callaway Ridge Trails and b) extending an acceleration lane to the existing right-turn bypass lane from Concord Road onto S. Northshore Drive which would be located on the northside of S. Northshore Drive.

The scope of work includes field surveying, roadway geometric design and design for relocation of lighting and electrical services. Due to the impacts of the existing terrain, geotechnical exploration and retaining wall design services have been assumed and provided separately. We have based our scope and services on our understanding of the project scope and our previous coordination meeting.

SCHEDULE OF FEES (LUMP SUM - See Attached Scope of Services)	**$165,500**
Topographic and Property Survey	$17,500
Preliminary Plan Phase (40%)	$36,000
Geotechnical Engineering and Retaining Wall Design	$25,000
Lighting and Electrical Plans	$18,000
Right-Of-Way Plan Phase (85%)	$40,500
Utility, Right-of-Way, and Permitting Coordination	$5,000
Final Construction Plans (100%)	$13,500
Bidding and Administration	$10,000

Cannon & Cannon, Inc. (CCI) appreciates the opportunity to prepare this proposal for engineering and surveying services. In accordance with your request, the following is a summary of our proposed scope of work and fee structure.

This proposal is valid for 90 days from the date this letter was sent for your review. The budget and timeframe for this proposal shall be renegotiated if it hasn't been signed within this period of time.

We look forward to working with you on this project. Please do not hesitate to contact us with any questions or if you require additional information.

Sincerely,

WITNESSETH:

WHEREAS, the County plans to construct the Pedestrian Improvement Project for Gibbs Pedestrian Bridge, located in Knox County, Tennessee; and

WHEREAS, it is in the mutual interest of the parties that said utility work be performed together with the proposed construction and that the utility work shall be completed as a subcontract of the roadway contract,

NOW, THEREFORE, it is agreed by and between the parties as follows:

1. The County will oversee and pursue to completion the bidding and relocation/construction of the 8-inch natural gas lines (the "Gas Facilities") along Tazewell Pike. The Gas Facilities shall be built in compliance with KUB's specifications which can be obtained from KUB's Gas Engineering Department by contacting Alex Hibbs at 558-2312. The County agrees to provide KUB with access to the Gas Facilities throughout their construction. KUB shall have the right to (i) go upon the site and videotape the site before commencement of construction and after completion of the Gas Facilities; (ii) go upon the site at any stage of construction; (iii) inspect and test any work being performed; and (iv) reject any work which does not conform to the final plans and specifications or KUB's specifications as set forth in engineering drawings, 00 43 22 Unit Prices Form, 01 22 00 Unit Prices, 01 35 23 Owner Safety Requirements, 01 41 00 Regulatory Requirements, 33 52 16.29 Polyethylene Piping Installation for Natural Gas Mains, 33 52 16.29 Polyethylene Piping Installation for Natural Gas Service Lines, ML and SL Natural Gas Construction Guides. If the lowest responsible bid is greater than 120% of the project engineer's estimate for the utility work, then KUB reserves the right to reject the bid and re-bid the project on its own.

3. The County agrees to the following payment structure for the engineering, easement, and construction required for the project:
    a. KUB shall pay an engineering consultant for the engineering design to relocate KUB's Gas Facilities based on the County's plans.

Once approved, KUB will incorporate the Gas Facilities into KUB's gas system and agrees to operate, maintain, and provide gas services through the facilities to the affected property owners in the ordinary and usual operation of KUB's system, provided the recipients of such gas service maintain compliance with KUB's rules and regulations and service policies as are in effect from time to time. The County warrants that the Gas Facilities will be free of all liens and encumbrances upon their dedication to KUB and that the County has full authority and lawful right to transfer ownership to KUB as provided herein. WHEREAS, the County established the Opioid Settlement Program from the monies authorized by the Opioid Abatement Council and the designated repository of funds that are received by the County pursuant to a judgment on opioid-related claims, a recovery of bankruptcy on opioid-related claims, or a settlement of opioid-related claims to involve organizations in the provision of critical services, and programs that the County Government might otherwise provide in the absence of said service, or program; and

WHEREAS, the County desires to engage Awardee who has the capability to perform the services required by the County and agrees to render certain assistance, projects, or services in connection with such undertakings of the Opioid Settlement Program, situated in the program area described in Appendix A, which description is incorporated by reference as if fully set forth herein verbatim; and

WHEREAS, Knox County Commission approved Knox County's enrollment with the State of Tennessee and other local governments as participants in the Tennessee State-Subdivision Opioid Abatement Agreement and the County's approval of related settlement agreements on November 15, 2021 and the amended agreements on March 27, 2023, and thereby includes the funding as described in Appendix C herein.

NOW, THEREFORE, the parties do hereby mutually agree as follows:

A. DEFINITIONS

1. "Opioid Settlement Program" These County funds are generated through the Tennessee Opioid Abatement Fund, or affiliates, or subsidiaries of these entities, or legal settlements authorized to the County for the purposes of opioid remediation. Knox County Opioid Settlement Program funds will be allocated to projects and programs aimed at remediating, preventing, and educating on substance misuse. This effort will combat the opioid epidemic by supplying essential resources for the community.

2. “Opioid Abatement and Remediation” for the purposes of this Agreement means purposes that are specifically approved by the Tennessee Opioid Abatement Council and include activities on the list of approved programs created by the Opioid Abatement Council, as specified under T.C.A. § 33-11-103(r) and are specified under Appendix B of this Agreement.

3. “Opioid Remediation”, care, treatment, and other programs and expenditures designed to (1) address the misuse and abuse of opioid products, (2) treat or mitigate opioid use or related disorders, or (3) mitigate other alleged effects of, including on those injured as a result of, the opioid epidemic.

4. “Opioid Abatement Fund” for the purposes of this Agreement means the designated repository of funds that are either dedicated to Opioid Abatement, or Remediation, or are otherwise directed to abatement, or remediation and that are received by the State pursuant to a judgment on opioid-related claims, a recovery in bankruptcy on opioid-related claims, or a settlement of opioid-related claims as specified under Tenn. Code Ann. § 9-4-1304.

5. “Opioid Abatement Council” for the purposes of this Agreement means the council created pursuant to Tenn. Code Ann. §§ 33-11-101, et seq., and who is responsible for disbursing funds from the Opioid Abatement Fund for proceeds received from a statewide opioid settlement agreement from the entities or the affiliates, or subsidiaries of these entities that are deposited in the Opioid Abatement Fund, as outlined in Tenn. Code Ann. § 33-11-103(p). The Opioid Abatement Council operates as a state entity and is therefore an extension of the State of Tennessee. The Opioid Abatement Council allocates the Opioid Abatement Funds to the County for administration of said funds.

6. “Subdivision Funds” for the purposes of this Agreement means the amount paid directly to the County that participated in legal settlements, or designated repository of funds that are received by the County pursuant to a judgment on opioid-related claims, a recovery of bankruptcy on opioid-related claims, or a settlement of opioid-related claims to be used on Opioid Remediation. The Subdivision Fund does not flow through the State or the Opioid Abatement Council.

B. SCOPE OF WORK

Awardee agrees to undertake the following activities as the scope of this Agreement:

1. Awardee, in close coordination with the County, shall perform all projects and services ("WORK") necessary to complete the activities that pertain to opioid abatement and remediation in full compliance with the terms of this Agreement.

2. The County will provide to the Awardee **THIRTY THOUSAND DOLLARS AND NO/100 ($30,000.00)** in *Opioid Settlement Program* funds to provide workforce development for single-parent low-income households impacted by substance misuse.

and carry-out in a satisfactory manner, as determined by the County, the goals, objectives, and tasks set forth in Appendix B, and incorporated by reference as if fully set forth verbatim herein.

4. This Agreement utilizes funding from the Opioid Abatement Fund or Subdivision Funds, as set out in Appendix C, to disburse funds to the Awardee based upon approval and selection from the County for the Opioid Settlement Program.

5. The Awardee shall collect and maintain data relating to grant project activities and program performance. Specifically, the Awardee shall submit quarterly reports to the County in a format and timeframe prescribed by County staff, detailing how the Awardee has met the remediation core strategies and uses specified in Appendix B.

6. The Awardee shall be subject to programmatic and fiscal monitoring on an annual basis, or as otherwise determined by the County, or the Opioid Abatement Council. The results of this monitoring shall be reported by the County publicly to the Opioid Abatement Council during quarterly meetings and shall be discussed publicly by the Opioid Abatement Council during these quarterly meetings. The Awardee's compliance with the terms set out in Appendix B, and the other measures of the Agreement shall be considered as part of the monitoring of the Awardee.

7. Awardee's obligation to the County shall not end until all closeout requirements are completed. Activities during this closeout period include, but are not limited to: making final payments, disposing of program assets, and determining the custodianship of records.

C. TERM OF AGREEMENT

1. The term of this Agreement shall be July 1, 2025 through June 30, 2027 unless terminated in conformity with the terms of this Agreement.

D. PROGRAM EXPENSES AND REIMBURSEMENT COMPENSATION

1. It is expressly understood and agreed that in no event will the total amount paid by the County to Awardee under this Agreement exceed **THIRTY THOUSAND DOLLARS AND NO/100 ($30,000.00).** Program expenses paid to Awardee are provided through the Opioid Settlement Program for services satisfactorily rendered as outlined in Appendix B, "Performance Measurements."

2. This Agreement is subject to the appropriation and availability of Opioid Abatement Funds and Subdivision Funds. In the event that the funds are not appropriated, or are otherwise unavailable, the County reserves the right to delay payment, or terminate this Agreement upon written notice to the Awardee. The County's right to delay, or terminate this Agreement due to lack of funds is not a breach of this Agreement by the County. Upon receipt of the written notice, the Awardee shall cease all work associated with the Agreement. Should such an event occur, the Awardee shall be entitled to compensation for all satisfactory and authorized services completed as of the

termination date. Upon such termination, the Awardee shall have no right to recover from the County any actual, general, special, incidental, consequential, or any other damages whatsoever of any description or amount.

Awardee shall seek compensation from third party payers or sources, such as Medicaid, or other grant sources, prior to billing against this Agreement, for reimbursable services and supports delivered under this Agreement. Funding under this Agreement should not supplant other funding sources, but should supplement the activities outlined in Appendix B and expenses outlined in Appendix C that are otherwise non-reimbursable from third-party payors or sources.

5. The Awardee certifies that work to be performed under this Agreement does not duplicate any work to be charged against any other contract, subcontract, or other source. Copies of support documents shall be sent to the offices of the County and shall include invoices and payments for project expenditures, time sheets, and supporting personnel expense. All personnel costs will be documented on time sheets for the project activity and submitted for review. All such expenses shall be in conformance to the approved budget, Appendix C. Requests to adjust performance measurements and/or adjust budget line items will be considered on a case-by-case basis and require the approval from the Knox County Grants & Community Development (KCGCD) Department prior to invoicing. KCGCD has the discretion to amend budget line items outlined in Appendix C, or performance measurements outlined Appendix B by form of an amendment to the Agreement, including incorporating new line items, or transferring funding between established budget line items included in this Agreement. Budget amendments and approval shall be required prior to payment of any expenses not conforming to the approved project budget.

AGREEMENT BETWEEN
KNOX COUNTY
AND
METRO DRUG COALITION, INC.

THIS AGREEMENT is entered into this ____day of _____, 2025 by **KNOX COUNTY,** hereinafter referred to as the **County**, and **METRO DRUG COALITION, INC.,** a nonprofit corporation, hereinafter referred to as **Awardee** and which is located at **530 W. 5th Avenue, Knoxville, Tennessee 37917.**

WITNESSETH

WHEREAS, by means of the Opioid Abatement Council Act of 2121 (T.C.A. Section 33-11-101, et seq., as amended), the Tennessee General Assembly created the Tennessee Opioid Abatement Council and established the duties and responsibilities of the Council; and

WHEREAS, the County is authorized by the Opioid Abatement Council to appropriate and spend public monies for either opioid abatement, or remediation, or are otherwise directed to abatement or remediation benefiting the general welfare of Knox County citizens; and

WHEREAS, the County established the Opioid Settlement Program from the monies authorized by the Opioid Abatement Council and the designated repository of funds that are received by the County pursuant to a judgment on opioid-related claims, a recovery of bankruptcy on opioid-related claims, or a settlement of opioid-related claims to involve organizations in the provision of critical services, and programs that the County Government might otherwise provide in the absence of said service, or program; and

WHEREAS, the County desires to engage Awardee who has the capability to perform the services required by the County and agrees to render certain assistance, projects, or services in connection with such undertakings of the Opioid Settlement Program, situated in the program area described in Appendix A, which description is incorporated by reference as if fully set forth herein verbatim; and

WHEREAS, Knox County Commission approved Knox County's enrollment with the State of Tennessee and other local governments as participants in the Tennessee State-Subdivision Opioid Abatement Agreement and the County's approval of related settlement agreements on November 15, 2021 and the amended agreements on March 27, 2023, and thereby includes the funding as described in Appendix C herein.

NOW, THEREFORE, the parties do hereby mutually agree as follows:

A. DEFINITIONS

1. "Opioid Settlement Program" These County funds are generated through the Tennessee Opioid Abatement Fund, or affiliates, or subsidiaries of these entities, or legal settlements authorized to the County for the purposes of opioid remediation. Knox County Opioid Settlement Program funds will be allocated to projects and programs aimed at remediating, preventing, and educating on substance misuse. This effort will combat the opioid epidemic by supplying essential resources for the community.

2. "Opioid Abatement and Remediation" for the purposes of this Agreement means purposes that are specifically approved by the Tennessee Opioid Abatement Council and include activities on the

list of approved programs created by the Opioid Abatement Council, as specified under T.C.A. § 33-11-103(r) and are specified under Appendix B of this Agreement.

3. "Opioid Remediation", care, treatment, and other programs and expenditures designed to (1) address the misuse and abuse of opioid products, (2) treat or mitigate opioid use or related disorders, or (3) mitigate other alleged effects of, including on those injured as a result of, the opioid epidemic.

4. "Opioid Abatement Fund" for the purposes of this Agreement means the designated repository of funds that are either dedicated to Opioid Abatement, or Remediation, or are otherwise directed to abatement, or remediation and that are received by the State pursuant to a judgment on opioid-related claims, a recovery in bankruptcy on opioid-related claims, or a settlement of opioid-related claims as specified under Tenn. Code Ann. § 9-4-1304.

5. "Opioid Abatement Council" for the purposes of this Agreement means the council created pursuant to Tenn. Code Ann. §§ 33-11-101, et seq., and who is responsible for disbursing funds from the Opioid Abatement Fund for proceeds received from a statewide opioid settlement agreement from the entities or the affiliates, or subsidiaries of these entities that are deposited in the Opioid Abatement Fund, as outlined in Tenn. Code Ann. § 33-11-103(p). The Opioid Abatement Council operates as a state entity and is therefore an extension of the State of Tennessee. The Opioid Abatement Council allocates the Opioid Abatement Funds to the County for administration of said funds.

6. "Subdivision Funds" for the purposes of this Agreement means the amount paid directly to the County that participated in legal settlements, or designated repository of funds that are received by the County pursuant to a judgment on opioid-related claims, a recovery of bankruptcy on opioid-related claims, or a settlement of opioid-related claims to be used on Opioid Remediation. The Subdivision Fund does not flow through the State or the Opioid Abatement Council.

B. SCOPE OF WORK

Awardee agrees to undertake the following activities as the scope of this Agreement:

1. Awardee, in close coordination with the County, shall perform all projects and services ("WORK") necessary to complete the activities that pertain to opioid abatement and remediation in full compliance with the terms of this Agreement.

2. The County will provide to the Awardee **ONE HUNDRED FIFTY THOUSAND DOLLARS AND NO/100 ($150,000.00)** in *Opioid Settlement Program* funds to deliver substance misuse prevention curriculum with Knox County schools, after school programs, and within the community.

3. The activities funded pursuant to this Agreement, are those which are stated in Appendix B and must be focused on Opioid Abatement and Opioid Remediation. Awardee shall do, comply with, perform, and carry-out in a satisfactory manner, as determined by the County, the goals, objectives, and tasks set forth in Appendix B, and incorporated by reference as if fully set forth verbatim herein.

4. This Agreement utilizes funding from the Opioid Abatement Fund or Subdivision Funds, as set out in Appendix C, to disburse funds to the Awardee based upon approval and selection from the County for the Opioid Settlement Program.

5. The Awardee shall collect and maintain data relating to grant project activities and program performance. Specifically, the Awardee shall submit quarterly reports to the County in a format and timeframe prescribed by County staff, detailing how the Awardee has met the remediation core strategies and uses specified in Appendix B.

6. The Awardee shall be subject to programmatic and fiscal monitoring on an annual basis, or as otherwise determined by the County, or the Opioid Abatement Council. The results of this monitoring shall be reported by the County publicly to the Opioid Abatement Council during quarterly meetings and shall be discussed publicly by the Opioid Abatement Council during these quarterly meetings. The Awardee's compliance with the terms set out in Appendix B, and the other measures of the Agreement shall be considered as part of the monitoring of the Awardee.

7. Awardee's obligation to the County shall not end until all closeout requirements are completed. Activities during this closeout period include, but are not limited to: making final payments, disposing of program assets, and determining the custodianship of records.

C. TERM OF AGREEMENT

1. The term of this Agreement shall be July 1, 2025 through June 30, 2027 unless terminated in conformity with the terms of this Agreement.

2. Timely completion of the work specified in this Agreement is an integral and essential part of performance. Funds should be expended in full, prior to renewal as set out above. Failure to meet these deadlines may result in cancellation of this contract and revocation of funds.

D. PROGRAM EXPENSES AND REIMBURSEMENT COMPENSATION

1. It is expressly understood and agreed that in no event will the total amount paid by the County to Awardee under this Agreement exceed **ONE HUNDRED FIFTY THOUSAND DOLLARS AND NO/100 ($150,000.00).** Program expenses paid to Awardee are provided through the Opioid Settlement Program for services satisfactorily rendered as outlined in Appendix B, "Performance Measurements."

2. This Agreement is subject to the appropriation and availability of Opioid Abatement Funds and Subdivision Funds. In the event that the funds are not appropriated, or are otherwise unavailable, the County reserves the right to delay payment, or terminate this Agreement upon written notice to the Awardee. The County's right to delay, or terminate this Agreement due to lack of funds is not a breach of this Agreement by the County. Upon receipt of the written notice, the Awardee shall cease all work associated with the Agreement. Should such an event occur, the Awardee shall be entitled to compensation for all satisfactory and authorized services completed as of the termination date. Upon such termination, the Awardee shall have no right to recover from the

The County also reserves the right to hold payment until adequate documentation has been provided and reviewed. Final payment shall be made after the County has determined that all services have been rendered, files and documentation delivered.

4. Awardee shall seek compensation from third party payers or sources, such as Medicaid, or other grant sources, prior to billing against this Agreement, for reimbursable services and supports delivered under this Agreement. Funding under this Agreement should not supplant other funding sources, but should supplement the activities outlined in Appendix B and expenses outlined in Appendix C that are otherwise non-reimbursable from third-party payors or sources.

5. The Awardee certifies that work to be performed under this Agreement does not duplicate any work to be charged against any other contract, subcontract, or other source. Copies of support documents shall be sent to the offices of the County and shall include invoices and payments for project expenditures, time sheets, and supporting personnel expense. All personnel costs will be documented on time sheets for the project activity and submitted for review. The County may require a more detailed breakdown than the one outlined in Appendix C (Budget), and Awardee shall supply such supplementary information in a timely fashion in the form and context prescribed. All such expenses shall be in conformance to the approved budget, Appendix C. Requests to adjust performance measurements and/or adjust budget line items will be considered on a case-by-case basis and require the approval from the Knox County Grants & Community Development (KCGCD) Department prior to invoicing. KCGCD has the discretion to amend budget line items outlined in Appendix C, or performance measurements outlined Appendix B by form of an amendment to the Agreement, including incorporating new line items, or transferring funding between established budget line items included in this Agreement. Budget amendments and approval shall be required prior to payment of any expenses not conforming to the approved project budget.

THIS AGREEMENT is entered into this ____day of _____, 2025 by **KNOX COUNTY,** hereinafter referred to as the **County**, and **Knoxville Leadership Foundation,** a nonprofit corporation, hereinafter referred to as **Awardee** and which is located at **318 N Gay Street Suite 210, Knoxville, Tennessee 37917.**

WITNESSETH

WHEREAS, by means of the Opioid Abatement Council Act of 2121 (T.C.A. Section 33-11-101, et seq., as amended), the Tennessee General Assembly created the Tennessee Opioid Abatement Council and established the duties and responsibilities of the Council; and

WHEREAS, the County is authorized by the Opioid Abatement Council to appropriate and spend public monies for either opioid abatement, or remediation, or are otherwise directed to abatement or remediation benefiting the general welfare of Knox County citizens; and

WHEREAS, the County established the Opioid Settlement Program from the monies authorized by the Opioid Abatement Council and the designated repository of funds that are received by the County pursuant to a judgment on opioid-related claims, a recovery of bankruptcy on opioid-related claims, or a settlement of opioid-related claims to involve organizations in the provision of critical services, and programs that the County Government might otherwise provide in the absence of said service, or program; and

WHEREAS, the County desires to engage Awardee who has the capability to perform the services required by the County and agrees to render certain assistance, projects, or services in connection with such undertakings of the Opioid Settlement Program, situated in the program area described in Appendix A, which description is incorporated by reference as if fully set forth herein verbatim; and

WHEREAS, Knox County Commission approved Knox County's enrollment with the State of Tennessee and other local governments as participants in the Tennessee State-Subdivision Opioid Abatement Agreement and the County's approval of related settlement agreements on November 15, 2021 and the amended agreements on March 27, 2023, and thereby includes the funding as described in Appendix C herein.

NOW, THEREFORE, the parties do hereby mutually agree as follows:

A. DEFINITIONS

1. "Opioid Settlement Program" These County funds are generated through the Tennessee Opioid Abatement Fund, or affiliates, or subsidiaries of these entities, or legal settlements authorized to the County for the purposes of opioid remediation. Knox County Opioid Settlement Program funds will be allocated to projects and programs aimed at remediating, preventing, and educating on substance misuse. This effort will combat the opioid epidemic by supplying essential resources for the community.

2. “Opioid Abatement and Remediation” for the purposes of this Agreement means purposes that are specifically approved by the Tennessee Opioid Abatement Council and include activities on the list of approved programs created by the Opioid Abatement Council, as specified under T.C.A. § 33-11-103(r) and are specified under Appendix B of this Agreement.

3. “Opioid Remediation”, care, treatment, and other programs and expenditures designed to (1) address the misuse and abuse of opioid products, (2) treat or mitigate opioid use or related disorders, or (3) mitigate other alleged effects of, including on those injured as a result of, the opioid epidemic.

4. “Opioid Abatement Fund” for the purposes of this Agreement means the designated repository of funds that are either dedicated to Opioid Abatement, or Remediation, or are otherwise directed to abatement, or remediation and that are received by the State pursuant to a judgment on opioid-related claims, a recovery in bankruptcy on opioid-related claims, or a settlement of opioid-related claims as specified under Tenn. Code Ann. § 9-4-1304.

5. “Opioid Abatement Council” for the purposes of this Agreement means the council created pursuant to Tenn. Code Ann. §§ 33-11-101, et seq., and who is responsible for disbursing funds from the Opioid Abatement Fund for proceeds received from a statewide opioid settlement agreement from the entities or the affiliates, or subsidiaries of these entities that are deposited in the Opioid Abatement Fund, as outlined in Tenn. Code Ann. § 33-11-103(p). The Opioid Abatement Council operates as a state entity and is therefore an extension of the State of Tennessee. The Opioid Abatement Council allocates the Opioid Abatement Funds to the County for administration of said funds.

6. “Subdivision Funds” for the purposes of this Agreement means the amount paid directly to the County that participated in legal settlements, or designated repository of funds that are received by the County pursuant to a judgment on opioid-related claims, a recovery of bankruptcy on opioid-related claims, or a settlement of opioid-related claims to be used on Opioid Remediation. The Subdivision Fund does not flow through the State or the Opioid Abatement Council.

B. SCOPE OF WORK

Awardee agrees to undertake the following activities as the scope of this Agreement:

1. Awardee, in close coordination with the County, shall perform all projects and services ("WORK") necessary to complete the activities that pertain to opioid abatement and remediation in full compliance with the terms of this Agreement.

2. The County will provide to the Awardee **THIRTY THOUSAND DOLLARS AND NO/100 ($30,000.00)** in *Opioid Settlement Program* funds to provide mentoring services to children and youth impacted by parental incarceration through the Amachi program.

6. The Awardee shall be subject to programmatic and fiscal monitoring on an annual basis, or as otherwise determined by the County, or the Opioid Abatement Council. The results of this monitoring shall be reported by the County publicly to the Opioid Abatement Council during quarterly meetings and shall be discussed publicly by the Opioid Abatement Council during these quarterly meetings. The Awardee's compliance with the terms set out in Appendix B, and the other measures of the Agreement shall be considered as part of the monitoring of the Awardee.

7. Awardee's obligation to the County shall not end until all closeout requirements are completed. Activities during this closeout period include, but are not limited to: making final payments, disposing of program assets, and determining the custodianship of records.

In the event that the funds are not appropriated, or are otherwise unavailable, the County reserves the right to delay payment, or terminate this Agreement upon written notice to the Awardee. The County's right to delay, or terminate this Agreement due to lack of funds is not a breach of this Agreement by the County. Upon receipt of the written notice, the Awardee shall cease all work associated with the Agreement. Should such an event occur, the Awardee shall be entitled to compensation for all satisfactory and authorized services completed as of the

termination date. Upon such termination, the Awardee shall have no right to recover from the County any actual, general, special, incidental, consequential, or any other damages whatsoever of any description or amount.

4. Awardee shall seek compensation from third party payers or sources, such as Medicaid, or other grant sources, prior to billing against this Agreement, for reimbursable services and supports delivered under this Agreement. Funding under this Agreement should not supplant other funding sources, but should supplement the activities outlined in Appendix B and expenses outlined in Appendix C that are otherwise non-reimbursable from third-party payors or sources.

5. The Awardee certifies that work to be performed under this Agreement does not duplicate any work to be charged against any other contract, subcontract, or other source. Copies of support documents shall be sent to the offices of the County and shall include invoices and payments for project expenditures, time sheets, and supporting personnel expense. All personnel costs will be documented on time sheets for the project activity and submitted for review. The County may require a more detailed breakdown than the one outlined in Appendix C (Budget), and Awardee shall supply such supplementary information in a timely fashion in the form and context prescribed. All such expenses shall be in conformance to the approved budget, Appendix C. Requests to adjust performance measurements and/or adjust budget line items will be considered on a case-by-case basis and require the approval from the Knox County Grants & Community Development (KCGCD) Department prior to invoicing. KCGCD has the discretion to amend budget line items outlined in Appendix C, or performance measurements outlined Appendix B by form of an amendment to the Agreement, including incorporating new line items, or transferring funding between established budget line items included in this Agreement. Budget amendments and approval shall be required prior to payment of any expenses not conforming to the approved project budget.

AND
THE YOUNG WOMEN'S CHRISTIAN ASSOCIATION d.b.a. YWCA KNOXVILLE AND THE TENNESSEE VALLEY

THIS AGREEMENT is entered into this ____day of _____, 2025 by **KNOX COUNTY,** hereinafter referred to as the **County**, and **The Young Women's Christian Association d.b.a. YWCA Knoxville and the Tennessee Valley,** a nonprofit corporation, hereinafter referred to as **Awardee** and which is located at **420 Clinch Avenue, Knoxville, Tennessee 37902.**

WITNESSETH

WHEREAS, by means of the Opioid Abatement Council Act of 2121 (T.C.A. Section 33-11-101, et seq., as amended), the Tennessee General Assembly created the Tennessee Opioid Abatement Council and established the duties and responsibilities of the Council; and

WHEREAS, the County is authorized by the Opioid Abatement Council to appropriate and spend public monies for either opioid abatement, or remediation, or are otherwise directed to abatement or remediation benefiting the general welfare of Knox County citizens; and

WHEREAS, the County established the Opioid Settlement Program from the monies authorized by the Opioid Abatement Council and the designated repository of funds that are received by the County pursuant to a judgment on opioid-related claims, a recovery of bankruptcy on opioid-related claims, or a settlement of opioid-related claims to involve organizations in the provision of critical services, and programs that the County Government might otherwise provide in the absence of said service, or program; and

WHEREAS, the County desires to engage Awardee who has the capability to perform the services required by the County and agrees to render certain assistance, projects, or services in connection with such undertakings of the Opioid Settlement Program, situated in the program area described in Appendix A, which description is incorporated by reference as if fully set forth herein verbatim; and

WHEREAS, Knox County Commission approved Knox County's enrollment with the State of Tennessee and other local governments as participants in the Tennessee State-Subdivision Opioid Abatement Agreement and the County's approval of related settlement agreements on November 15, 2021 and the amended agreements on March 27, 2023, and thereby includes the funding as described in Appendix C herein.

NOW, THEREFORE, the parties do hereby mutually agree as follows:

A. DEFINITIONS

1. "Opioid Settlement Program" These County funds are generated through the Tennessee Opioid Abatement Fund, or affiliates, or subsidiaries of these entities, or legal settlements authorized to the County for the purposes of opioid remediation. Knox County Opioid Settlement Program funds will be allocated to projects and programs aimed at remediating, preventing, and educating on substance misuse. This effort will combat the opioid epidemic by supplying essential resources for the community.

2. “Opioid Abatement and Remediation” for the purposes of this Agreement means purposes that are specifically approved by the Tennessee Opioid Abatement Council and include activities on the list of approved programs created by the Opioid Abatement Council, as specified under T.C.A. § 33-11-103(r) and are specified under Appendix B of this Agreement.

3. “Opioid Remediation”, care, treatment, and other programs and expenditures designed to (1) address the misuse and abuse of opioid products, (2) treat or mitigate opioid use or related disorders, or (3) mitigate other alleged effects of, including on those injured as a result of, the opioid epidemic.

4. “Opioid Abatement Fund” for the purposes of this Agreement means the designated repository of funds that are either dedicated to Opioid Abatement, or Remediation, or are otherwise directed to abatement, or remediation and that are received by the State pursuant to a judgment on opioid-related claims, a recovery in bankruptcy on opioid-related claims, or a settlement of opioid-related claims as specified under Tenn. Code Ann. § 9-4-1304.

5. “Opioid Abatement Council” for the purposes of this Agreement means the council created pursuant to Tenn. Code Ann. §§ 33-11-101, et seq., and who is responsible for disbursing funds from the Opioid Abatement Fund for proceeds received from a statewide opioid settlement agreement from the entities or the affiliates, or subsidiaries of these entities that are deposited in the Opioid Abatement Fund, as outlined in Tenn. Code Ann. § 33-11-103(p). The Opioid Abatement Council operates as a state entity and is therefore an extension of the State of Tennessee. The Opioid Abatement Council allocates the Opioid Abatement Funds to the County for administration of said funds.

6. “Subdivision Funds” for the purposes of this Agreement means the amount paid directly to the County that participated in legal settlements, or designated repository of funds that are received by the County pursuant to a judgment on opioid-related claims, a recovery of bankruptcy on opioid-related claims, or a settlement of opioid-related claims to be used on Opioid Remediation. The Subdivision Fund does not flow through the State or the Opioid Abatement Council.

B. SCOPE OF WORK

Awardee agrees to undertake the following activities as the scope of this Agreement:

1. Awardee, in close coordination with the County, shall perform all projects and services ("WORK") necessary to complete the activities that pertain to opioid abatement and remediation in full compliance with the terms of this Agreement.

2. The County will provide to the Awardee **FIFTY THOUSAND DOLLARS AND NO/100 ($50,000.00)** in *Opioid Settlement Program* funds to support the Keys of Hope program.

3. The activities funded pursuant to this Agreement, are those which are stated in Appendix B and must be focused on Opioid Abatement and Opioid Remediation. Awardee shall do, comply with, perform, and carry-out in a satisfactory manner, as determined by the County, the goals, objectives, and tasks set forth in Appendix B, and incorporated by reference as if fully set forth verbatim herein.

4. This Agreement utilizes funding from the Opioid Abatement Fund or Subdivision Funds, as set out in Appendix C, to disburse funds to the Awardee based upon approval and selection from the County for the Opioid Settlement Program.

5. The Awardee shall collect and maintain data relating to grant project activities and program performance. Specifically, the Awardee shall submit quarterly reports to the County in a format and timeframe prescribed by County staff, detailing how the Awardee has met the remediation core strategies and uses specified in Appendix B.

6. The Awardee shall be subject to programmatic and fiscal monitoring on an annual basis, or as otherwise determined by the County, or the Opioid Abatement Council. The results of this monitoring shall be reported by the County publicly to the Opioid Abatement Council during quarterly meetings and shall be discussed publicly by the Opioid Abatement Council during these quarterly meetings. The Awardee's compliance with the terms set out in Appendix B, and the other measures of the Agreement shall be considered as part of the monitoring of the Awardee.

7. Awardee's obligation to the County shall not end until all closeout requirements are completed. Activities during this closeout period include, but are not limited to: making final payments, disposing of program assets, and determining the custodianship of records.

C. TERM OF AGREEMENT

1. The term of this Agreement shall be July 1, 2025 through June 30, 2027 unless terminated in conformity with the terms of this Agreement.

2. Timely completion of the work specified in this Agreement is an integral and essential part of performance. Funds should be expended in full, prior to renewal as set out above. Failure to meet these deadlines may result in cancellation of this contract and revocation of funds.

D. PROGRAM EXPENSES AND REIMBURSEMENT COMPENSATION

1. It is expressly understood and agreed that in no event will the total amount paid by the County to Awardee under this Agreement exceed **FIFTY THOUSAND DOLLARS AND NO/100 ($50,000.00)**. Program expenses paid to Awardee are provided through the Opioid Settlement Program for services satisfactorily rendered as outlined in Appendix B, "Performance Measurements."

2. This Agreement is subject to the appropriation and availability of Opioid Abatement Funds and Subdivision Funds. In the event that the funds are not appropriated, or are otherwise unavailable, the County reserves the right to delay payment, or terminate this Agreement upon written notice to the Awardee. The County's right to delay, or terminate this Agreement due to lack of funds is not a breach of this Agreement by the County. Upon receipt of the written notice, the Awardee shall cease all work associated with the Agreement. Should such an event occur, the Awardee shall be entitled to compensation for all satisfactory and authorized services completed as of the termination date. Upon such termination, the Awardee shall have no right to recover from the County any actual, general, special, incidental, consequential, or any other damages whatsoever of any description or amount.

3. The Awardee will administer its program to adhere to standard accounting principles and procedures, utilize adequate internal controls and maintain necessary source documentation for all costs incurred. The Awardee specifies and certifies that expenses are incurred and expended in accordance with this Agreement. No other claims, including those of Awardee's creditors or lien holders shall be allowed. Awardee shall not claim reimbursement for that portion of its obligations that are paid by another source or revenue. The County reserves the right to inspect records and project sites to determine that reimbursement and compensation requests are reasonable. The County also reserves the right to hold payment until adequate documentation has been provided and reviewed. Final payment shall be made after the County has determined that all services have been rendered, files and documentation delivered.

4. Awardee shall seek compensation from third party payers or sources, such as Medicaid, or other grant sources, prior to billing against this Agreement, for reimbursable services and supports delivered under this Agreement. Funding under this Agreement should not supplant other funding sources, but should supplement the activities outlined in Appendix B and expenses outlined in Appendix C that are otherwise non-reimbursable from third-party payors or sources.

5. The Awardee certifies that work to be performed under this Agreement does not duplicate any work to be charged against any other contract, subcontract, or other source. Copies of support documents shall be sent to the offices of the County and shall include invoices and payments for project expenditures, time sheets, and supporting personnel expense. All personnel costs will be documented on time sheets for the project activity and submitted for review. The County may require a more detailed breakdown than the one outlined in Appendix C (Budget), and Awardee shall supply such supplementary information in a timely fashion in the form and context prescribed. All such expenses shall be in conformance to the approved budget, Appendix C. Requests to adjust performance measurements and/or adjust budget line items will be considered on a case-by-case basis and require the approval from the Knox County Grants & Community Development (KCGCD) Department prior to invoicing. KCGCD has the discretion to amend budget line items outlined in Appendix C, or performance measurements outlined Appendix B by form of an amendment to the Agreement, including incorporating new line items, or transferring funding between established budget line items included in this Agreement. Budget amendments and approval shall be required prior to payment of any expenses not conforming to the approved project budget.

In the event that the funds are not appropriated, or are otherwise unavailable, the County reserves the right to delay payment, or terminate this Agreement upon written notice to the Awardee. The County's right to delay, or terminate this Agreement due to lack of funds is not a breach of this Agreement by the County. Upon receipt of the written notice, the Awardee shall cease all work associated with the Agreement. Should such an event occur, the Awardee shall be entitled to compensation for all satisfactory and authorized services completed as of the

termination date. Upon such termination, the Awardee shall have no right to recover from the County any actual, general, special, incidental, consequential, or any other damages whatsoever of any description or amount.

THIS AGREEMENT is entered into this ____day of _____, 2025 by **KNOX COUNTY,** hereinafter referred to as the **County**, and **Wesley House Community Center Company,** a nonprofit organization, hereinafter referred to as **Awardee** and which is located at **1719 Reynolds Street, Knoxville, Tennessee 37921.**

WITNESSETH

WHEREAS, by means of the Opioid Abatement Council Act of 2121 (T.C.A. Section 33-11-101, et seq., as amended), the Tennessee General Assembly created the Tennessee Opioid Abatement Council and established the duties and responsibilities of the Council; and

WHEREAS, the County is authorized by the Opioid Abatement Council to appropriate and spend public monies for either opioid abatement, or remediation, or are otherwise directed to abatement or remediation benefiting the general welfare of Knox County citizens; and

WHEREAS, the County established the Opioid Settlement Program from the monies authorized by the Opioid Abatement Council and the designated repository of funds that are received by the County pursuant to a judgment on opioid-related claims, a recovery of bankruptcy on opioid-related claims, or a settlement of opioid-related claims to involve organizations in the provision of critical services, and programs that the County Government might otherwise provide in the absence of said service, or program; and

WHEREAS, the County desires to engage Awardee who has the capability to perform the services required by the County and agrees to render certain assistance, projects, or services in connection with such undertakings of the Opioid Settlement Program, situated in the program area described in Appendix A, which description is incorporated by reference as if fully set forth herein verbatim; and

WHEREAS, Knox County Commission approved Knox County's enrollment with the State of Tennessee and other local governments as participants in the Tennessee State-Subdivision Opioid Abatement Agreement and the County's approval of related settlement agreements on November 15, 2021 and the amended agreements on March 27, 2023, and thereby includes the funding as described in Appendix C herein.

NOW, THEREFORE, the parties do hereby mutually agree as follows:

A. DEFINITIONS

1. "Opioid Settlement Program" These County funds are generated through the Tennessee Opioid Abatement Fund, or affiliates, or subsidiaries of these entities, or legal settlements authorized to the County for the purposes of opioid remediation. Knox County Opioid Settlement Program funds will be allocated to projects and programs aimed at remediating, preventing, and educating on substance misuse. This effort will combat the opioid epidemic by supplying essential resources for the community.

2. “Opioid Abatement and Remediation” for the purposes of this Agreement means purposes that are specifically approved by the Tennessee Opioid Abatement Council and include activities on the list of approved programs created by the Opioid Abatement Council, as specified under T.C.A. § 33-11-103(r) and are specified under Appendix B of this Agreement.

3. “Opioid Remediation”, care, treatment, and other programs and expenditures designed to (1) address the misuse and abuse of opioid products, (2) treat or mitigate opioid use or related disorders, or (3) mitigate other alleged effects of, including on those injured as a result of, the opioid epidemic.

4. “Opioid Abatement Fund” for the purposes of this Agreement means the designated repository of funds that are either dedicated to Opioid Abatement, or Remediation, or are otherwise directed to abatement, or remediation and that are received by the State pursuant to a judgment on opioid-related claims, a recovery in bankruptcy on opioid-related claims, or a settlement of opioid-related claims as specified under Tenn. Code Ann. § 9-4-1304.

5. “Opioid Abatement Council” for the purposes of this Agreement means the council created pursuant to Tenn. Code Ann. §§ 33-11-101, et seq., and who is responsible for disbursing funds from the Opioid Abatement Fund for proceeds received from a statewide opioid settlement agreement from the entities or the affiliates, or subsidiaries of these entities that are deposited in the Opioid Abatement Fund, as outlined in Tenn. Code Ann. § 33-11-103(p). The Opioid Abatement Council operates as a state entity and is therefore an extension of the State of Tennessee. The Opioid Abatement Council allocates the Opioid Abatement Funds to the County for administration of said funds.

6. “Subdivision Funds” for the purposes of this Agreement means the amount paid directly to the County that participated in legal settlements, or designated repository of funds that are received by the County pursuant to a judgment on opioid-related claims, a recovery of bankruptcy on opioid-related claims, or a settlement of opioid-related claims to be used on Opioid Remediation. The Subdivision Fund does not flow through the State or the Opioid Abatement Council.

B. SCOPE OF WORK

Awardee agrees to undertake the following activities as the scope of this Agreement:

1. Awardee, in close coordination with the County, shall perform all projects and services ("WORK") necessary to complete the activities that pertain to opioid abatement and remediation in full compliance with the terms of this Agreement.

2. The County will provide to the Awardee **ONE HUNDRED THOUSAND DOLLARS AND NO/100 ($100,000.00)** in *Opioid Settlement Program* funds to provide academic enrichment programming to underserved youth.

3. The activities funded pursuant to this Agreement, are those which are stated in Appendix B and must be focused on Opioid Abatement and Opioid Remediation. Awardee shall do, comply with, perform,

and carry-out in a satisfactory manner, as determined by the County, the goals, objectives, and tasks set forth in Appendix B, and incorporated by reference as if fully set forth verbatim herein.

4. This Agreement utilizes funding from the Opioid Abatement Fund or Subdivision Funds, as set out in Appendix C, to disburse funds to the Awardee based upon approval and selection from the County for the Opioid Settlement Program.

5. The Awardee shall collect and maintain data relating to grant project activities and program performance. Specifically, the Awardee shall submit quarterly reports to the County in a format and timeframe prescribed by County staff, detailing how the Awardee has met the remediation core strategies and uses specified in Appendix B.

6. The Awardee shall be subject to programmatic and fiscal monitoring on an annual basis, or as otherwise determined by the County, or the Opioid Abatement Council. The results of this monitoring shall be reported by the County publicly to the Opioid Abatement Council during quarterly meetings and shall be discussed publicly by the Opioid Abatement Council during these quarterly meetings. The Awardee's compliance with the terms set out in Appendix B, and the other measures of the Agreement shall be considered as part of the monitoring of the Awardee.

7. Awardee's obligation to the County shall not end until all closeout requirements are completed. Activities during this closeout period include, but are not limited to: making final payments, disposing of program assets, and determining the custodianship of records.

C. TERM OF AGREEMENT

1. The term of this Agreement shall be July 1, 2025 through June 30, 2027 unless terminated in conformity with the terms of this Agreement.

2. Timely completion of the work specified in this Agreement is an integral and essential part of performance. Funds should be expended in full, prior to renewal as set out above. Failure to meet these deadlines may result in cancellation of this contract and revocation of funds.

D. PROGRAM EXPENSES AND REIMBURSEMENT COMPENSATION

1. It is expressly understood and agreed that in no event will the total amount paid by the County to Awardee under this Agreement exceed **ONE HUNDRED THOUSAND DOLLARS AND NO/100 ($100,000.00).** Program expenses paid to Awardee are provided through the Opioid Settlement Program for services satisfactorily rendered as outlined in Appendix B, "Performance Measurements."

2. This Agreement is subject to the appropriation and availability of Opioid Abatement Funds and Subdivision Funds. In the event that the funds are not appropriated, or are otherwise unavailable, the County reserves the right to delay payment, or terminate this Agreement upon written notice to the Awardee. The County's right to delay, or terminate this Agreement due to lack of funds is not a breach of this Agreement by the County. Upon receipt of the written notice, the Awardee shall cease all work associated with the Agreement. Should such an event occur, the Awardee shall

be entitled to compensation for all satisfactory and authorized services completed as of the termination date. Upon such termination, the Awardee shall have no right to recover from the County any actual, general, special, incidental, consequential, or any other damages whatsoever of any description or amount.

4. Awardee shall seek compensation from third party payers or sources, such as Medicaid, or other grant sources, prior to billing against this Agreement, for reimbursable services and supports delivered under this Agreement. Funding under this Agreement should not supplant other funding sources, but should supplement the activities outlined in Appendix B and expenses outlined in Appendix C that are otherwise non-reimbursable from third-party payors or sources.

5. The Awardee certifies that work to be performed under this Agreement does not duplicate any work to be charged against any other contract, subcontract, or other source. Copies of support documents shall be sent to the offices of the County and shall include invoices and payments for project expenditures, time sheets, and supporting personnel expense. All personnel costs will be documented on time sheets for the project activity and submitted for review. The County may require a more detailed breakdown than the one outlined in Appendix C (Budget), and Awardee shall supply such supplementary information in a timely fashion in the form and context prescribed. All such expenses shall be in conformance to the approved budget, Appendix C. Requests to adjust performance measurements and/or adjust budget line items will be considered on a case-by-case basis and require the approval from the Knox County Grants & Community Development (KCGCD) Department prior to invoicing. KCGCD has the discretion to amend budget line items outlined in Appendix C, or performance measurements outlined Appendix B by form of an amendment to the Agreement, including incorporating new line items, or transferring funding between established budget line items included in this Agreement. Budget amendments and approval shall be required prior to payment of any expenses not conforming to the approved project budget.

L. AMENDMENTS

The County and Awardee may amend this Agreement at any time provided that such amendments make specific reference to this Agreement, are mutual in nature, and in writing and signed by duly authorized representatives of the Awardee and County. THIS AGREEMENT is entered into this ____day of _____, 2025 by **KNOX COUNTY,** hereinafter referred to as the **County**, and **Helen Ross McNabb Center, Inc.,** a nonprofit corporation, hereinafter referred to as **Awardee** and which is located at **200 Tech Center Drive, Knoxville, Tennessee 37912.**

WITNESSETH

WHEREAS, by means of the Opioid Abatement Council Act of 2121 (T.C.A. Section 33-11-101, et seq., as amended), the Tennessee General Assembly created the Tennessee Opioid Abatement Council and established the duties and responsibilities of the Council; and

WHEREAS, the County is authorized by the Opioid Abatement Council to appropriate and spend public monies for either opioid abatement, or remediation, or are otherwise directed to abatement or remediation benefiting the general welfare of Knox County citizens; and

WHEREAS, the County established the Opioid Settlement Program from the monies authorized by the Opioid Abatement Council and the designated repository of funds that are received by the County pursuant to a judgment on opioid-related claims, a recovery of bankruptcy on opioid-related claims, or a settlement of opioid-related claims to involve organizations in the provision of critical services, and programs that the County Government might otherwise provide in the absence of said service, or program; and

WHEREAS, the County desires to engage Awardee who has the capability to perform the services required by the County and agrees to render certain assistance, projects, or services in connection with such undertakings of the Opioid Settlement Program, situated in the program area described in Appendix A, which description is incorporated by reference as if fully set forth herein verbatim; and

WHEREAS, Knox County Commission approved Knox County's enrollment with the State of Tennessee and other local governments as participants in the Tennessee State-Subdivision Opioid Abatement Agreement and the County's approval of related settlement agreements on November 15, 2021 and the amended agreements on March 27, 2023, and thereby includes the funding as described in Appendix C herein.

NOW, THEREFORE, the parties do hereby mutually agree as follows:

A. DEFINITIONS

1. "Opioid Settlement Program" These County funds are generated through the Tennessee Opioid Abatement Fund, or affiliates, or subsidiaries of these entities, or legal settlements authorized to the County for the purposes of opioid remediation. Knox County Opioid Settlement Program funds will be allocated to projects and programs aimed at remediating, preventing, and educating on substance misuse. This effort will combat the opioid epidemic by supplying essential resources for the community.

2. “Opioid Abatement and Remediation” for the purposes of this Agreement means purposes that are specifically approved by the Tennessee Opioid Abatement Council and include activities on the list of approved programs created by the Opioid Abatement Council, as specified under T.C.A. § 33-11-103(r) and are specified under Appendix B of this Agreement.

3. “Opioid Remediation”, care, treatment, and other programs and expenditures designed to (1) address the misuse and abuse of opioid products, (2) treat or mitigate opioid use or related disorders, or (3) mitigate other alleged effects of, including on those injured as a result of, the opioid epidemic.

4. “Opioid Abatement Fund” for the purposes of this Agreement means the designated repository of funds that are either dedicated to Opioid Abatement, or Remediation, or are otherwise directed to abatement, or remediation and that are received by the State pursuant to a judgment on opioid-related claims, a recovery in bankruptcy on opioid-related claims, or a settlement of opioid-related claims as specified under Tenn. Code Ann. § 9-4-1304.

5. “Opioid Abatement Council” for the purposes of this Agreement means the council created pursuant to Tenn. Code Ann. §§ 33-11-101, et seq., and who is responsible for disbursing funds from the Opioid Abatement Fund for proceeds received from a statewide opioid settlement agreement from the entities or the affiliates, or subsidiaries of these entities that are deposited in the Opioid Abatement Fund, as outlined in Tenn. Code Ann. § 33-11-103(p). The Opioid Abatement Council operates as a state entity and is therefore an extension of the State of Tennessee. The Opioid Abatement Council allocates the Opioid Abatement Funds to the County for administration of said funds.

6. “Subdivision Funds” for the purposes of this Agreement means the amount paid directly to the County that participated in legal settlements, or designated repository of funds that are received by the County pursuant to a judgment on opioid-related claims, a recovery of bankruptcy on opioid-related claims, or a settlement of opioid-related claims to be used on Opioid Remediation. The Subdivision Fund does not flow through the State or the Opioid Abatement Council.

B. SCOPE OF WORK

Awardee agrees to undertake the following activities as the scope of this Agreement:

1. Awardee, in close coordination with the County, shall perform all projects and services ("WORK") necessary to complete the activities that pertain to opioid abatement and remediation in full compliance with the terms of this Agreement.

2. The County will provide to the Awardee **FIVE HUNDRED THOUSAND DOLLARS AND NO/100 ($500,000.00)** in *Opioid Settlement Program* funds to provide acute mental health care for persons with substance use disorders and any co-occurring mental health condition through the Emergency Psychiatric Assessment, Treatment, and Healing (EmPATH) unit.

3. The activities funded pursuant to this Agreement, are those which are stated in Appendix B and must be focused on Opioid Abatement and Opioid Remediation. Awardee shall do, comply with, perform,

and carry-out in a satisfactory manner, as determined by the County, the goals, objectives, and tasks set forth in Appendix B, and incorporated by reference as if fully set forth verbatim herein.

4. This Agreement utilizes funding from the Opioid Abatement Fund or Subdivision Funds, as set out in Appendix C, to disburse funds to the Awardee based upon approval and selection from the County for the Opioid Settlement Program.

5. The Awardee shall collect and maintain data relating to grant project activities and program performance. Specifically, the Awardee shall submit quarterly reports to the County in a format and timeframe prescribed by County staff, detailing how the Awardee has met the remediation core strategies and uses specified in Appendix B.

6. The Awardee shall be subject to programmatic and fiscal monitoring on an annual basis, or as otherwise determined by the County, or the Opioid Abatement Council. The results of this monitoring shall be reported by the County publicly to the Opioid Abatement Council during quarterly meetings and shall be discussed publicly by the Opioid Abatement Council during these quarterly meetings. The Awardee's compliance with the terms set out in Appendix B, and the other measures of the Agreement shall be considered as part of the monitoring of the Awardee.

7. Awardee's obligation to the County shall not end until all closeout requirements are completed. Activities during this closeout period include, but are not limited to: making final payments, disposing of program assets, and determining the custodianship of records.

C. TERM OF AGREEMENT

1. The term of this Agreement shall be July 1, 2025 through June 30, 2027 unless terminated in conformity with the terms of this Agreement.

2. Timely completion of the work specified in this Agreement is an integral and essential part of performance. Funds should be expended in full, prior to renewal as set out above. Failure to meet these deadlines may result in cancellation of this contract and revocation of funds.

D. PROGRAM EXPENSES AND REIMBURSEMENT COMPENSATION

1. It is expressly understood and agreed that in no event will the total amount paid by the County to Awardee under this Agreement exceed **FIVE HUNDRED THOUSAND DOLLARS AND NO/100 ($500,000.00).** Program expenses paid to Awardee are provided through the Opioid Settlement Program for services satisfactorily rendered as outlined in Appendix B, "Performance Measurements."

2. This Agreement is subject to the appropriation and availability of Opioid Abatement Funds and Subdivision Funds. In the event that the funds are not appropriated, or are otherwise unavailable, the County reserves the right to delay payment, or terminate this Agreement upon written notice to the Awardee. The County's right to delay, or terminate this Agreement due to lack of funds is not a breach of this Agreement by the County. Upon receipt of the written notice, the Awardee shall cease all work associated with the Agreement. Should such an event occur, the Awardee shall

be entitled to compensation for all satisfactory and authorized services completed as of the termination date. Upon such termination, the Awardee shall have no right to recover from the County any actual, general, special, incidental, consequential, or any other damages whatsoever of any description or amount.

3. The Awardee will administer its program to adhere to standard accounting principles and procedures, utilize adequate internal controls and maintain necessary source documentation for all costs incurred. No other claims, including those of Awardee's creditors or lien holders shall be allowed. Awardee shall not claim reimbursement for that portion of its obligations that are paid by another source or revenue. The County reserves the right to inspect records and project sites to determine that reimbursement and compensation requests are reasonable. The County also reserves the right to hold payment until adequate documentation has been provided and reviewed. Final payment shall be made after the County has determined that all services have been rendered, files and documentation delivered.

4. Awardee shall seek compensation from third party payers or sources, such as Medicaid, or other grant sources, prior to billing against this Agreement, for reimbursable services and supports delivered under this Agreement. Funding under this Agreement should not supplant other funding sources, but should supplement the activities outlined in Appendix B and expenses outlined in Appendix C that are otherwise non-reimbursable from third-party payors or sources.

5. The Awardee certifies that work to be performed under this Agreement does not duplicate any work to be charged against any other contract, subcontract, or other source. Copies of support documents shall be sent to the offices of the County and shall include invoices and payments for project expenditures, time sheets, and supporting personnel expense. All personnel costs will be documented on time sheets for the project activity and submitted for review. The County may require a more detailed breakdown than the one outlined in Appendix C (Budget), and Awardee shall supply such supplementary information in a timely fashion in the form and context prescribed. All such expenses shall be in conformance to the approved budget, Appendix C. Requests to adjust performance measurements and/or adjust budget line items will be considered on a case-by-case basis and require the approval from the Knox County Grants & Community Development (KCGCD) Department prior to invoicing. KCGCD has the discretion to amend budget line items outlined in Appendix C, or performance measurements outlined Appendix B by form of an amendment to the Agreement, including incorporating new line items, or transferring funding between established budget line items included in this Agreement. Budget amendments and approval shall be required prior to payment of any expenses not conforming to the approved project budget.

No other claims, including those of Awardee's creditors or lien holders shall be allowed. Awardee shall not claim reimbursement for that portion of its obligations that are paid by another source, or revenue. The County also reserves the right to hold payment until adequate documentation has been provided and reviewed. Final payment shall be made after the County has determined that all services have been rendered and files and documentation delivered. 8. The County shall have the right to review and audit all records of Awardee pertaining to any payment by the County. Said records shall be maintained for a period of five (5) years with the retention period beginning on the date of the submission of the final program invoice. If there is litigation, claims, audits, negotiations or other actions that involve any of the records cited and that have started before the expiration of the five (5) year period, then such records must be retained until completion of the actions and resolution of all issues, or the expiration of the five (5) year period, whichever occurs later.

WITNESSETH

WHEREAS, by means of the Opioid Abatement Council Act of 2121 (T.C.A. Section 33-11-101, et seq., as amended), the Tennessee General Assembly created the Tennessee Opioid Abatement Council and established the duties and responsibilities of the Council; and

WHEREAS, the County is authorized by the Opioid Abatement Council to appropriate and spend public monies for either opioid abatement, or remediation, or are otherwise directed to abatement or remediation benefiting the general welfare of Knox County citizens; and

WHEREAS, the County established the Opioid Settlement Program from the monies authorized by the Opioid Abatement Council and the designated repository of funds that are received by the County pursuant to a judgment on opioid-related claims, a recovery of bankruptcy on opioid-related claims, or a settlement of opioid-related claims to involve organizations in the provision of critical services, and programs that the County Government might otherwise provide in the absence of said service, or program; and

WHEREAS, the County desires to engage Awardee who has the capability to perform the services required by the County and agrees to render certain assistance, projects, or services in connection with such undertakings of the Opioid Settlement Program, situated in the project area described in Appendix A, which description is incorporated by reference as if fully set forth herein verbatim; and

WHEREAS, Knox County Commission approved Knox County's enrollment with the State of Tennessee and other local governments as participants in the Tennessee State-Subdivision Opioid Abatement Agreement and the County's approval of related settlement agreements on November 15, 2021 and the amended agreements on March 27, 2023, and thereby includes the funding as described in Appendix C herein.

NOW, THEREFORE, the parties do hereby mutually agree as follows:

A. DEFINITIONS

1. "Opioid Settlement Program" These County funds are generated through the Tennessee Opioid Abatement Fund, or affiliates, or subsidiaries of these entities, or legal settlements authorized to the County for the purposes of opioid remediation. Knox County Opioid Settlement Program funds will be allocated to projects and programs aimed at remediating, preventing, and educating on substance misuse. This effort will combat the opioid epidemic by supplying essential resources for the community.

2. “Opioid Abatement and Remediation” for the purposes of this Agreement means purposes that are specifically approved by the Tennessee Opioid Abatement Council and include activities on the list of approved programs created by the Opioid Abatement Council, as specified under T.C.A. § 33-11-103(r) and are specified under Appendix B of this Agreement.

3. “Opioid Remediation”, care, treatment, and other programs and expenditures designed to (1) address the misuse and abuse of opioid products, (2) treat or mitigate opioid use or related disorders, or (3) mitigate other alleged effects of, including on those injured as a result of, the opioid epidemic.

4. “Opioid Abatement Fund” for the purposes of this Agreement means the designated repository of funds that are either dedicated to Opioid Abatement, or Remediation, or are otherwise directed to abatement, or remediation and that are received by the State pursuant to a judgment on opioid-related claims, a recovery in bankruptcy on opioid-related claims, or a settlement of opioid-related claims as specified under Tenn. Code Ann. § 9-4-1304.

5. “Opioid Abatement Council” for the purposes of this Agreement means the council created pursuant to Tenn. Code Ann. §§ 33-11-101, et seq., and who is responsible for disbursing funds from the Opioid Abatement Fund for proceeds received from a statewide opioid settlement agreement from the entities or the affiliates, or subsidiaries of these entities that are deposited in the Opioid Abatement Fund, as outlined in Tenn. Code Ann. § 33-11-103(p). The Opioid Abatement Council operates as a state entity and is therefore an extension of the State of Tennessee. The Opioid Abatement Council allocates the Opioid Abatement Funds to the County for administration of said funds.

6. “Subdivision Funds” for the purposes of this Agreement means the amount paid directly to the County that participated in legal settlements, or designated repository of funds that are received by the County pursuant to a judgment on opioid-related claims, a recovery of bankruptcy on opioid-related claims, or a settlement of opioid-related claims to be used on Opioid Remediation. The Subdivision Fund does not flow through the State or the Opioid Abatement Council.

B. SCOPE OF WORK

6. The Awardee shall be subject to programmatic and fiscal monitoring on an annual basis, or as otherwise determined by the County, or the Opioid Abatement Council. The results of this monitoring shall be reported by the County publicly to the Opioid Abatement Council during quarterly meetings and shall be discussed publicly by the Opioid Abatement Council during these quarterly meetings. The Awardee's compliance with the terms set out in Appendix B, and the other measures of the Agreement shall be considered as part of the monitoring of the Awardee.

Upon receipt of the written notice, the Awardee shall cease all work associated with the Agreement. Should such an event occur, the Awardee shall

be entitled to compensation for all satisfactory and authorized services completed as of the termination date. Upon such termination, the Awardee shall have no right to recover from the County any actual, general, special, incidental, consequential, or any other damages whatsoever of any description or amount.

WHEREAS, the County established the Opioid Settlement Program from the monies authorized by the Opioid Abatement Council and the designated repository of funds that are received by the County pursuant to a judgment on opioid-related claims, a recovery of bankruptcy on opioid-related claims, or a settlement of opioid-related claims to involve organizations in the provision of critical services, and programs that the County Government might otherwise provide in the absence of said service, or program; and

WHEREAS, the County desires to engage Awardee who has the capability to perform the services required by the County and agrees to render certain assistance, projects, or services in connection with such undertakings of the Opioid Settlement Program, situated in the program area described in Appendix A, which description is incorporated by reference as if fully set forth herein verbatim; and

WHEREAS, Knox County Commission approved Knox County's enrollment with the State of Tennessee and other local governments as participants in the Tennessee State-Subdivision Opioid Abatement Agreement and the County's approval of related settlement agreements on November 15, 2021 and the amended agreements on March 27, 2023, and thereby includes the funding as described in Appendix C herein.

NOW, THEREFORE, the parties do hereby mutually agree as follows:

A. DEFINITIONS

1. "Opioid Settlement Program" These County funds are generated through the Tennessee Opioid Abatement Fund, or affiliates, or subsidiaries of these entities, or legal settlements authorized to the County for the purposes of opioid remediation. Knox County Opioid Settlement Program funds will be allocated to projects and programs aimed at remediating, preventing, and educating on substance misuse. This effort will combat the opioid epidemic by supplying essential resources for the community.

2. "Opioid Abatement and Remediation" for the purposes of this Agreement means purposes that are specifically approved by the Tennessee Opioid Abatement Council and include activities on the list of approved programs created by the Opioid Abatement Council, as specified under T.C.A. § 33-11-103(r) and are specified under Appendix B of this Agreement.

3. "Opioid Remediation", care, treatment, and other programs and expenditures designed to (1) address the misuse and abuse of opioid products, (2) treat or mitigate opioid use or related disorders, or (3) mitigate other alleged effects of, including on those injured as a result of, the opioid epidemic.

4. "Opioid Abatement Fund" for the purposes of this Agreement means the designated repository of funds that are either dedicated to Opioid Abatement, or Remediation, or are otherwise directed to abatement, or remediation and that are received by the State pursuant to a judgment on opioid-related claims, a recovery in bankruptcy on opioid-related claims, or a settlement of opioid-related claims as specified under Tenn. Code Ann. § 9-4-1304.

5. "Opioid Abatement Council" for the purposes of this Agreement means the council created pursuant to Tenn. Code Ann. §§ 33-11-101, et seq., and who is responsible for disbursing funds from the Opioid Abatement Fund for proceeds received from a statewide opioid settlement agreement from the entities or the affiliates, or subsidiaries of these entities that are deposited in the Opioid Abatement Fund, as outlined in Tenn. Code Ann. § 33-11-103(p). The Opioid Abatement Council operates as a state entity and is therefore an extension of the State of Tennessee. The Opioid Abatement Council allocates the Opioid Abatement Funds to the County for administration of said funds.

6. "Subdivision Funds" for the purposes of this Agreement means the amount paid directly to the County that participated in legal settlements, or designated repository of funds that are received by the County pursuant to a judgment on opioid-related claims, a recovery of bankruptcy on opioid-related claims, or a settlement of opioid-related claims to be used on Opioid Remediation. The Subdivision Fund does not flow through the State or the Opioid Abatement Council.

B. SCOPE OF WORK

Awardee agrees to undertake the following activities as the scope of this Agreement:

1. Awardee, in close coordination with the County, shall perform all projects and services ("WORK") necessary to complete the activities that pertain to opioid abatement and remediation in full compliance with the terms of this Agreement.

2. The County will provide to the Awardee **FOUR HUNDRED TWENTY-FIVE THOUSAND DOLLARS AND NO/100 ($425,000.00)** in *Opioid Settlement Program* funds to provide medical and behavioral health care to individuals with substance use disorder and any co-occurring mental health condition.

3. The activities funded pursuant to this Agreement, are those which are stated in Appendix B and must be focused on Opioid Abatement and Opioid Remediation. Awardee shall do, comply with, perform,

and carry-out in a satisfactory manner, as determined by the County, the goals, objectives, and tasks set forth in Appendix B, and incorporated by reference as if fully set forth verbatim herein.

4. This Agreement utilizes funding from the Opioid Abatement Fund or Subdivision Funds, as set out in Appendix C, to disburse funds to the Awardee based upon approval and selection from the County for the Opioid Settlement Program.

5. The Awardee shall collect and maintain data relating to grant project activities and program performance. Specifically, the Awardee shall submit quarterly reports to the County in a format and timeframe prescribed by County staff, detailing how the Awardee has met the remediation core strategies and uses specified in Appendix B.

6. The Awardee shall be subject to programmatic and fiscal monitoring on an annual basis, or as otherwise determined by the County, or the Opioid Abatement Council. The results of this monitoring shall be reported by the County publicly to the Opioid Abatement Council during quarterly meetings and shall be discussed publicly by the Opioid Abatement Council during these quarterly meetings. The Awardee's compliance with the terms set out in Appendix B, and the other measures of the Agreement shall be considered as part of the monitoring of the Awardee.

7. Awardee's obligation to the County shall not end until all closeout requirements are completed. Activities during this closeout period include, but are not limited to: making final payments, disposing of program assets, and determining the custodianship of records.

C. TERM OF AGREEMENT

1. The term of this Agreement shall be July 1, 2025 through June 30, 2026 unless terminated in conformity with the terms of this Agreement.

2. Upon mutual agreement of the Awardee and the County, the award may be extended for two (2) years, one (1) year at a time. This may result in a total of three (3) years; the funding amount may be adjusted upon renewal as recommended by the Knox County Mayor and subject to approval by Knox County Commission through the annual renewal process.

3. Timely completion of the work specified in this Agreement is an integral and essential part of performance. Funds should be expended in full, prior to renewal as set out above. Failure to meet these deadlines may result in cancellation of this contract and revocation of funds.

D. PROGRAM EXPENSES AND REIMBURSEMENT COMPENSATION

1. It is expressly understood and agreed that in no event will the total amount paid by the County to Awardee under this Agreement exceed **FOUR HUNDRED TWENTY-FIVE THOUSAND DOLLARS AND NO/100 ($425,000.00).** Program expenses paid to Awardee are provided through the Opioid Settlement Program for services satisfactorily rendered as outlined in Appendix B, "Performance Measurements."

2. This Agreement is subject to the appropriation and availability of Opioid Abatement Funds and Subdivision Funds. In the event that the funds are not appropriated, or are otherwise unavailable, the County reserves the right to delay payment, or terminate this Agreement upon written notice to the Awardee. The County's right to delay, or terminate this Agreement due to lack of funds is not a breach of this Agreement by the County. Upon receipt of the written notice, the Awardee shall cease all work associated with the Agreement. Should such an event occur, the Awardee shall be entitled to compensation for all satisfactory and authorized services completed as of the termination date. Upon such termination, the Awardee shall have no right to recover from the County any actual, general, special, incidental, consequential, or any other damages whatsoever of any description or amount.

3. The Awardee will administer its program to adhere to standard accounting principles and procedures, utilize adequate internal controls and maintain necessary source documentation for all costs incurred. No other claims, including those of Awardee's creditors or lien holders shall be allowed. Awardee shall not claim reimbursement for that portion of its obligations that are paid by another source or revenue. The County reserves the right to inspect records and project sites to determine that reimbursement and compensation requests are reasonable. The County also reserves the right to hold payment until adequate documentation has been provided and reviewed. Final payment shall be made after the County has determined that all services have been rendered, files and documentation delivered.

4. Awardee shall seek compensation from third party payers or sources, such as Medicaid, or other grant sources, prior to billing against this Agreement, for reimbursable services and supports delivered under this Agreement. Funding under this Agreement should not supplant other funding sources, but should supplement the activities outlined in Appendix B and expenses outlined in Appendix C that are otherwise non-reimbursable from third-party payors or sources.

5. The Awardee certifies that work to be performed under this Agreement does not duplicate any work to be charged against any other contract, subcontract, or other source. Copies of support documents shall be sent to the offices of the County and shall include invoices and payments for project expenditures, time sheets, and supporting personnel expense. All personnel costs will be documented on time sheets for the project activity and submitted for review. The County may require a more detailed breakdown than the one outlined in Appendix C (Budget), and Awardee shall supply such supplementary information in a timely fashion in the form and context prescribed. All such expenses shall be in conformance to the approved budget, Appendix C. Requests to adjust performance measurements and/or adjust budget line items will be considered on a case-by-case basis and require the approval from the Knox County Grants & Community Development (KCGCD) Department prior to invoicing. KCGCD has the discretion to amend budget line items outlined in Appendix C, or performance measurements outlined Appendix B by form of an amendment to the Agreement, including incorporating new line items, or transferring funding between established budget line items included in this Agreement. Budget amendments and approval shall be required prior to payment of any expenses not conforming to the approved project budget.

No other claims, including those of Awardee's creditors or lien holders shall be allowed. Awardee shall not claim reimbursement for that portion of its obligations that are paid by another source, or revenue. The County reserves the right to inspect records and project sites to determine that reimbursement and compensation requests are reasonable. The County also reserves the right to hold payment until adequate documentation has been provided and reviewed. Final payment shall be made after the County has determined that all services have been rendered and files and documentation delivered. Failure to comply with the recommendations and requirements of the County shall be considered a violation of this Agreement and sufficient reason for termination in accordance with **Special Terms and Conditions.**

8. The County shall have the right to review and audit all records of Awardee pertaining to any payment by the County. Said records shall be maintained for a period of five (5) years with the retention period beginning on the date of the submission of the final program invoice. If there is

litigation, claims, audits, negotiations or other actions that involve any of the records cited and that have started before the expiration of the five (5) year period, then such records must be retained until completion of the actions and resolution of all issues, or the expiration of the five (5) year period, whichever occurs later.

SECTION IV SCOPE OF WORK

4.1 **SCOPE OF WORK:** Knox County Grants and Community Development (KCGCD) carries out federal programs administered by the U.S. Department of Housing and Urban Development (HUD). As the lead agency for the County's Community Development Block Grant (CDBG) programs, KCGCD determines the community development and housing needs based on input from citizens and collaboration with community partners. The Knox County Home Rehabilitation Program (KCHR) provides emergency and minor home repairs to eligible residents, helps improve the quality of existing housing stock, prevents low-income residents from losing their housing, and eliminates threats to resident life, safety, and health.

Eligible Contractors include but are not limited to Licensed Home Improvement Contractors, Limited Licensed Electricians, Limited Licensed Plumbers, Licensed HVAC Contractors, Licensed Roofing Contractors, and other Licensed General Contractors. Bid prices shall reflect the complete labor, profit, and overhead operating costs associated with each construction activity/hourly rate listed. Materials are **not** included in the bid pricing as all material costs will be passed through and reimbursed by Knox County. Contractors are **not** permitted to charge a profit margin or percentage markup on materials for the KCHR Program.

The successful Contractor(s) for the Knox County Home Rehabilitation program will be placed in a workflow queue for their trade and/or qualifications based on bid evaluations. Contractors will be offered a project on a rotational basis using a "Round Robin" selection method. For the first project, wherein the reference to project signifies a residence that will receive rehabilitation assistance, the first Contractor on the list that possesses the relevant capabilities and licensing for the project becomes the "preferred Contractor". A Contractor may elect to pass on a project if they do not have the capacity to complete the repair activities for any reason without being penalized. If a Contractor declines the invitation to quote a project, they will not be removed from their place on the list, but will not be offered a project until it is their turn again. The "Round Robin" function for the same trade and/or qualifications will be offered to the next Contractor on said list, who then becomes the preferred Contractor once the next project is ready to be quoted. Upon reaching the bottom of the list, the process will start over again with the first Contractor on the list.

4.2 **ADA STANDARDS:** Vendors are advised that all new construction, additions and alterations to existing facilities must be designed, constructed or altered in strict compliance with ADAAG: Americans with Disabilities Act Accessibility Guidelines for building and facilities.

4.3 **ENTRANCE TO CONSTRUCTION SITES:** Only authorized employees of the successful Contractor(s) are allowed on the premises of a project site. Contractor's employees are not to be accompanied in their work area by acquaintances, family members, assistants or any person unless said person is an authorized employee of the Contractor(s). Estimation shall include but not be limited to the cost of labor, material, blueprint preparation, detailed description of the scope of work, inspection services, and any required subcontracted services. Quotations shall be based upon the contract rates. Quotation shall remain firm for thirty (30) days from acceptance by Knox County. All work is to be done as required by OSHA, EPA, and AHERA.

Knox County does not assume any responsibility for the protection of or for loss of materials, from the time that the Contract operations have commenced until the final acceptance of the work by Knox County. Prior to project commencement, BCC requires all subcontractors to submit project-specific safety and management plans. Our years in business have allowed us to develop a network of dependable subcontractors with whom we have well established relationships.

Financial Viability

Nationwide Mutual Insurance Company provides BCC's bonding support; BCC is capable of bonding to at least $3,000,000 per single construction project (see attached surety reference).

BCC's accounting practices are performed in accordance with GAAP guidelines and FAR cost accounting standards. BCC utilizes QuickBooks Pro software for bookkeeping and financial reporting. Financial statements are prepared internally on a quarterly basis and reviewed annually by Duane Cline, CPA, at fiscal year-end.

SECTION IV SCOPE OF WORK

4.1 **SCOPE OF WORK:** Knox County Grants and Community Development (KCGCD) carries out federal programs administered by the U.S. Department of Housing and Urban Development (HUD). As the lead agency for the County's Community Development Block Grant (CDBG) programs, KCGCD determines the community development and housing needs based on input from citizens and collaboration with community partners. The Knox County Home Rehabilitation Program (KCHR) provides emergency and minor home repairs to eligible residents, helps improve the quality of existing housing stock, prevents low-income residents from losing their housing, and eliminates threats to resident life, safety, and health.

Eligible Contractors include but are not limited to Licensed Home Improvement Contractors, Limited Licensed Electricians, Limited Licensed Plumbers, Licensed HVAC Contractors, Licensed Roofing Contractors, and other Licensed General Contractors. Bid prices shall reflect the complete labor, profit, and overhead operating costs associated with each construction activity/hourly rate listed. Materials are **not** included in the bid pricing as all material costs will be passed through and reimbursed by Knox County. Contractors are **not** permitted to charge a profit margin or percentage markup on materials for the KCHR Program.

The successful Contractor(s) for the Knox County Home Rehabilitation program will be placed in a workflow queue for their trade and/or qualifications based on bid evaluations. Contractors will be offered a project on a rotational basis using a "Round Robin" selection method. For the first project, wherein the reference to project signifies a residence that will receive rehabilitation assistance, the first Contractor on the list that possesses the relevant capabilities and licensing for the project becomes the "preferred Contractor". A Contractor may elect to pass on a project if they do not have the capacity to complete the repair activities for any reason without being penalized. If a Contractor declines the invitation to quote a project, they will not be removed from their place on the list, but will not be offered a project until it is their turn again. The "Round Robin" function for the same trade and/or qualifications will be offered to the next Contractor on said list, who then becomes the preferred Contractor once the next project is ready to be quoted. Upon reaching the bottom of the list, the process will start over again with the first Contractor on the list.

As the lead agency for the County's Community Development Block Grant (CDBG) programs, KCGCD determines the community development and housing needs based on input from citizens and collaboration with community partners. The Knox County Home Rehabilitation Program (KCHR) provides emergency and minor home repairs to eligible residents, helps improve the quality of existing housing stock, prevents low-income residents from losing their housing, and eliminates threats to resident life, safety, and health.

Eligible Contractors include but are not limited to Licensed Home Improvement Contractors, Limited Licensed Electricians, Limited Licensed Plumbers, Licensed HVAC Contractors, Licensed Roofing Contractors, and other Licensed General Contractors. Bid prices shall reflect the complete labor, profit, and overhead operating costs associated with each construction activity/hourly rate listed. Materials are **not** included in the bid pricing as all material costs will be passed through and reimbursed by Knox County. Contractors are **not** permitted to charge a profit margin or percentage markup on materials for the KCHR Program.

The successful Contractor(s) for the Knox County Home Rehabilitation program will be placed in a workflow queue for their trade and/or qualifications based on bid evaluations. Contractors will be offered a project on a rotational basis using a "Round Robin" selection method. For the first project, wherein the reference to project signifies a residence that will receive rehabilitation assistance, the first Contractor on the list that possesses the relevant capabilities and licensing for the project becomes the "preferred Contractor". A Contractor may elect to pass on a project if they do not have the capacity to complete the repair activities for any reason without being penalized. If a Contractor declines the invitation to quote a project, they will not be removed from their place on the list, but will not be offered a project until it is their turn again. The "Round Robin" function for the same trade and/or qualifications will be offered to the next Contractor on said list, who then becomes the preferred Contractor once the next project is ready to be quoted. Upon reaching the bottom of the list, the process will start over again with the first Contractor on the list.

Eligible Contractors include but are not limited to Licensed Home Improvement Contractors, Limited Licensed Electricians, Limited Licensed Plumbers, Licensed HVAC Contractors, Licensed Roofing Contractors, and other Licensed General Contractors.
