Salesforce	The Salesforce cloud based architecture will allow the State to deploy Salesforce solutions rapidly and scale at will for future needs. Customer's may scale up and add licenses at any point during their annual contract cycle. User counts are examined on an annual basis at time of renewal to ensure the customer had adequate license coverage.
ServiceNow	ServiceNow can automatically scale its application servers horizontally by adding or subtracting them to the load balancer pools for a particular instance. Scaling is managed by the ServiceNow Cloud Operations team.
FireEye	The FireEye offerings in this response are SaaS service models. FireEye cloud environments are continuously monitored by cloud service operations (CSO) personnel to help ensure optimal resources are allocated to the system 24x365.
VirtueStream	Virtustream's self-service portal allows authorized users to deploy or de-commission resources on-demand 24x365.

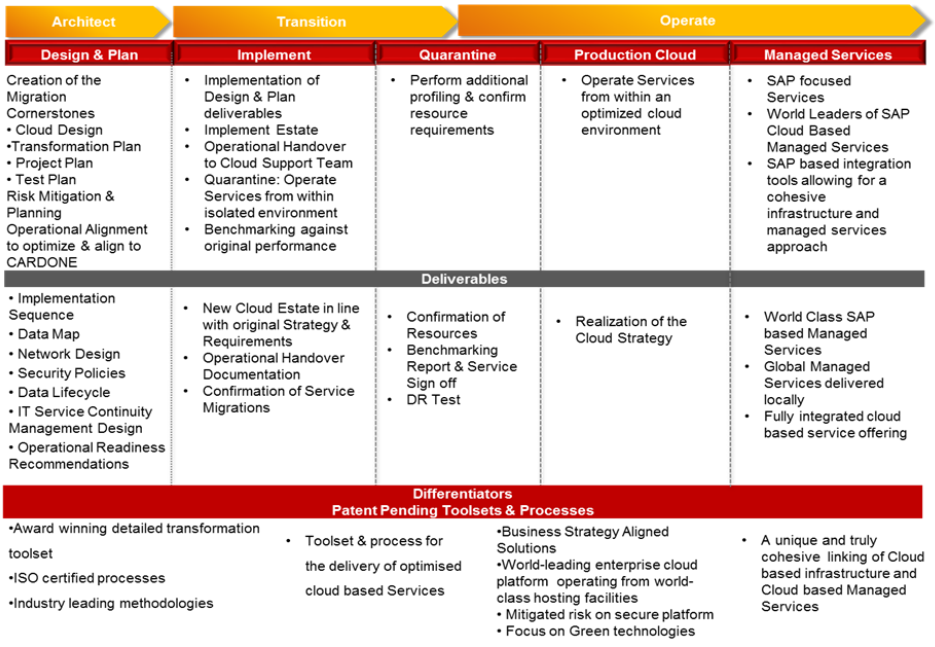
8.13 Cloud Security Alliance

Describe your level of disclosure with CSA Star Registry for each Solution offered.

a. Completion of a CSA STAR Self-Assessment, as described in Section 5.5.3.
b. Completion of Exhibits 1 and 2 to Attachment B.
c. Completion of a CSA STAR Attestation, Certification, or Assessment.
d. Completion CSA STAR Continuous Monitoring.

Carahsoft is proposing a number of Service Providers that are members of the Cloud Security Alliance. For example Salesforce is a corporate member of the Cloud Security Alliance (CSA) and contributes to their research and initiatives in a variety of ways. Salesforce has completed the CSA Consensus Assessments Initiative questionnaire (CAIQ), which maps to the CSA Cloud Controls Matrix (CCM) for the Salesforce Services, including Force.com, Analytics Cloud, Communities, Chatter, Sales Cloud and Service Cloud. A copy of the current completed CSA CAIQ can be provided to prospects or customers under NDA upon request.

8.14 Service Provisioning

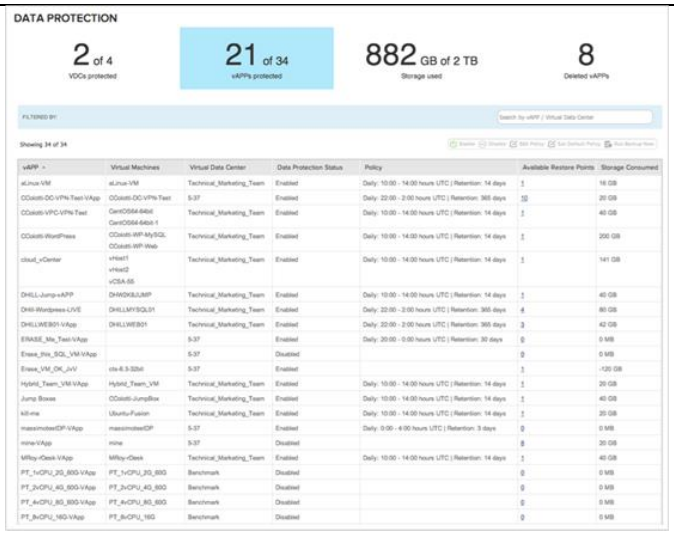


8.14. 1 Describe in detail how your firm processes emergency or rush services implementation requests by a Purchasing Entity.

CA	APM	CA SaaS Ops has a rigorous service introduction and update process that is governed by a central body to ensure adherence. Every step in the process is recorded, tracked and approved.
	MAA	Standard lead times for requests can be waived for requests that have a critical business need
	CA Agile	Standard lead times for requests can be waived for requests that have a critical business need such as a data recovery effort
	ASM	Standard lead times for requests can be waived for requests that have a critical business need such as a data recovery effort
Google	Order processing from the time a valid Purchase Order is submitted has a normal turn around time of three business days. Google's sales team can be contacted to expedite orders when needed.	
AODocs	Order processing from the time a valid Purchase Order is submitted has a normal turn around time of two business days. AODocs's sales team can be contacted to expedite orders when needed.	
Virtru	Requests are triaged by the support and if an emergency is identified, the request is escalated by the VP of Product who immediatlye assigns the issue as a top priority to a developer. Once completed a hotfix is pushed to production.	
Salesforce	Subscription-based, On-Demand Service Salesforce offers on-demand Platform as a Service (PaaS) and Software as a Service (SaaS). The Salesforce PaaS and SaaS offerings are subscription based and in a per user/month or user/year format billed annually with some of our products offered as total logins per month or by defined number of members billed annually. Multi-tenancy gives applications elasticity. Force.com applications can automatically scale from one to tens of thousands of users. Processing more than three billion transactions each day, Force.com is used for large-scale deployments. Any application that runs on Force.com is automatically architected to seamlessly scale from 1 user to 100,000 users without the customer having to do anything differently. All applications (includes mobile, offline and read-only options) and data running on Force.com are deployed to and replicated across multiple data centers in different geographies. Every application, no matter how large or small, gets the full benefits of the backup, failover, disaster recovery, and other infrastructure services required for an organization's mission-critical applications.	
ServiceNow	ServiceNow professional services organization responds to customer needs based on each request. Once a purchase order is received from the Purchasing Entity, ServiceNow contacts the Customer to discuss schedules. Resources are assigned based on the project need. If the customer has a priority issue with the system, they would open a ticket and the ticket SLA process would proceed until the issue is resolved. Every ServiceNow customer is supported based on their priority and need.	
SAP	Hanna	Rush or emergency infra provisioning can be request in exceptional situations and would be addressed on best effort priorty basis.
VMware	VMware IaaS Services Initial Order - Expedite the purchasing process thro - In the event that an emergency or rush service implementation request is received, VMware's NASPO program manager will coordinate an expedited response depending on the request. - Expedited Procurement - The Program Manager will directly interface with each company in the supply chain to ensure that the order is processed immediately upon receipt by each party. - Expedited In Increased capacity	

	VMWare AirWatch Participating Agencies will work with thier dedicated Account Executive to procure addition services for thier AirWatch implementations. Customers can implement and update configurations through the AirWatch administrative console. Additionally, customers can submit ASK tickets for any solution issues that will be tracked through completion.
FireEye	FireEye will make every reasonable effort to accommodate rush provisioning requests. The purchasing entity should contact their sales account team who will interface directly with the corresponding implementation team to coordinate an expedited implementation.

8.14.2 Describe in detail the standard lead-time for provisioning your Solutions.



CA	APM	48 hour turnaround is typically required
	MAA	Services do not generally require client action for provisioning. General service catalog requests have a standard 48 hour lead time
	CA Agile	Services do not generally require client action for provisioning. General service catalog requests, such as a data refresh, have a standard 48 hour lead time
	ASM	Services do not generally require client action for provisioning. General service requests have a standard 48 hour lead time
Google	Standard lead time is three business days.	
AODocs	Standard lead time is two business days.	
Virtru	The Lead-time for provisioning is no more than 15 minutes	
ServiceNow	ServiceNow provisions new instances or newly purchased users or applications to the instance within 48 hours after receipt of order. If users or applications are required more quickly, the customer controls access to all ServiceNOw capabilities at any time and the true-up occurs thereafter.	
Docusign	DocuSign is intuitive and easy-to-use. Getting started with our cloud solution, standard console, can be implemented in a day. Adding integrations or API's will add to the complexity of the implementation, but our Professional Services are there to guide you every step of the way.	
VMware	VMware vCloud Air Services VMware vCloud Air OnDemand services can be purchased and provisioned in minutes via the vCloud Air self service portal. VMware vCloud Air services other than OnDemand are purchased via purchase order. Purchase orders are typically processed on the day of order. Once services have been purchased the user can immediately begin provisioning services from the self service portal. These services are available within minutes of launch. VMware vCloud Government Services VMware vCloud Government Services are purchased via purchase order. Purchase orders are typically processed on the day of order. New environments require an RSA token that is overnighted for 2 factor authentication. Once the user has their RSA token they can begin to provision IaaS Services. VMWare AirWatch AirWatch is committed to implementing the solution in a timely manner and we work closely with customers to meet internal deadlines. Delivery and deployment models will vary depending the hosting model selected by the customer: • SaaS deployments can be implemented within several days and some within a few hours • Large enterprise deployments with numerous integration endpoints may require additional time Once an order is placed, we immediately begin working with the customer to finalize terms and conditions in a mutually agreeable manner and begin the implementation process. We schedule regular check-ins for project status updates and to discuss any questions or concerns.	

FireEye	FireEye anticipates that the standard lead-time is expected to take no more than five (5) business days. However, FireEye is willing to accommodate an urgent request from NASPO in order to provide adequate service to the participating states.
VirtueStream	Virtustream's standard lead-time for provisioning can vary based of the type of deployment and requirement. Resources can be deployed on-demand basis by State of Utah. For the initial services, there is a standard which is maintained as best practice. At project kick-off, Virtustream and State of Utah will develop a detailed Implementation Plan, on a system-by-system, week-by-week basis, to ensure that both sides of the relationship have clear expectations on what is to be accomplished, by whom, and in what timeframe. Upon completion of the Implementation Plan, Virtustream and State of Utah will establish a Project Governance Plan and the Project Governance Plan will manage Implementation Plan and ensure alignment at all tiers of the organization, define expectations for status update frequency and formats, and establish an escalation path for issue identification and resolution. Virtustream offers a dedicated onboarding project team that is charged with migrating clients into the xStream® cloud. This chargeable service includes resources from our platform and SAP teams and development of an onboarding project plan with milestones and deliverables. Virtustream uses a mature methodology to move clients onto our cloud platform, a process which is continuously refined and improved. A link is established to the client site using a Virtual Private Network (VPN) or Multiprotocol Label Switching (MPLS) circuit, for customer access and testing of migrated systems. Prerequisites are put into place (domain controllers, backup systems, infrastructure, networking, etc.) prior to systems being onboarded, in a defined sequence. Virtustream SAP basis team members test the systems before turning them over to Ascend for validation. Once on the xStream® platform, Virtustream monitors, backups and maintains the systems. As a component of the Virtustream platform, all core units are replicated to an alternate data center to provide disaster-recovery capability. **Figure 3. Sample Work Plan** 

8.15 Back Up and Disaster Plan

8.15.1 Ability to apply legal retention periods and disposition by agency per purchasing entity policy and/or legal requirements.

CA	APM	Not currently available.
	MAA	Not Available.
	CA Agile	The customer is responsible for the lifecycle of their data. We will retain all data until it has been deleted from our systems. We can remove data from our systems upon written request from the customer at termination of the contract.
	ASM	Not available.
Salesforce	Salesforce customers are responsible for complying with their company's data retention requirements in their use of the Salesforce Services. If a Salesforce customer must preserve data and the retention procedures above are insufficient, they may schedule a weekly export of data or copy to a sandbox account. Exports of Customer Data are available in comma separated value (.csv) format by request via Salesforce's Customer Support department. In addition, many exports can be manually pulled by the designated org administrators.	
ServiceNow	Once notified ServiceNow has the ability to leverage our internal clone operation process. This provides a locked state copy of the instance, while the customer can continue working on the production instance. Any data additions, changes or deletes will be on the production but not on the frozen instance copy. Additionally, ServiceNow can freeze backups to prevent them from being over written.	
Docusign	DocuSign customers determine their retention policies.	
QTS	Yes QTS will work with customers to meet legal requirements.	
SAP	Ariba	For the network's standard record retention is 180 days, but customers can request longer terms.
	Fieldglass	Fieldglass has many methods in which we can freeze customer data, today. We have the capabilities to restore, utilizing a point in time recovery method to a secondary system for legal review effectively delivering a system that has been frozen in time for all clients.
	Hanna	HEC standard backup retention is 1 month for productive systems, and 14 days for non-productive systems. However retention period can be changed per request and may have cost impact.
	SuccessFactors	A customer can configure as many ""purge rules"" as required to comply with data privacy rules. Since these rules vary by country, the solution provides the flexibility to define different retention periods for groups defined by country, department, division, location, job code and hire date. Customers can grant permissions to the appropriate users to create a request to purge data and to approve the request to purge data. These ""purge rules"" can be scheduled to reoccur. User records are kept in the system, for reporting purposes, but their data is anonymized. Our customers use the solution in compliance with local regulations today in almost 180 countries.
VMware	VMware IaaS Services Participating entities that leverage VMware Data Protection are able to specify the retention period of their backups to comply with policies and legal requirements. Data Protection leverages snapshots to take an image level backup of virtual machines. When a backup is initiated, a snapshot is taken of that virtual machine. Once the snapshot is taken it is then stored on the Data Protection storage for the duration of the retention period assigned in the policy. The policy column in the screenshot below illustrates the variety of data retention policies that have been set within a sample customer's vCloud Air Data Protection instance. In this example retention policies range from 3 to 365 days.	

	 VMWare AirWatch Customers can export and archive solution data using interactive dashboards (CSV), reports (PDF, XLS, and CSV), the AirWatch Hub (PDF), and event log (CSV). Customers in a Dedicated Cloud deployment can leverage a robust data mart.
FireEye	Customers have access to data stored in the varying cloud solutions and are accessible at any time during the length of the subscription contract. Retention periods vary per service offered. See section 8.7.2 for further information.
VirtueStream	Specific retention requirements can be accommodated on a custom basis. More detailed information would need to be provided in order to scope.

8.15.2 Describe any known inherent disaster recovery risks and provide potential mitigation strategies.

CA	APM	DR is provided only in a single geography at this point. Professional Services would need to be engaged to provide multi-geo DR
	MAA	N/A
	CA Agile	None - our DR plan is tested at a minimum semi-annually.
	ASM	None
Virtru	Please see the Virtru Disaster Recovery Plan provided in the Supplemental Information section of this response.	
Salesforce	The Salesforce service performs near real-time replication at each data center and annual disaster recovery tests for the service verify the projected recovery times and data replication between the production data center and the disaster recovery center. The disaster recovery site is a 100% replica of the primary production site of capacity (host, network, storage, data). Data is transmitted between the primary and disaster recovery data centers across encrypted links. Additionally, back-ups of data are performed and data is retained on backups at the geographically separated disaster recovery data center location [CP-4, CP-6, CP-7, CP-9, MP-5].	
ServiceNow	ServiceNow is divided into two distinct environments for Business Continuity (BC) and Disaster Recovery (DR). ServiceNow's corporate environment and its data center environments are physically and logically isolated from each other. A disaster in ServiceNow's corporate environment could occur with little or no impact on the ability for the data centers within the private cloud to operate. In both cases, the BC and the DR are supported by a series of SOPs that allow ServiceNow to quickly and effectively take action when it is required.	

<table>
<tr><td></td><td colspan="2">ServiceNow's customer DR is documented in its Information System Contingency Plan (ISCP), which covers its data center environments, and includes all customer environments as well as the instances that ServiceNow uses to run its business.

ServiceNow formally tests this process on an annual basis and can produce compliance reports for customers requiring them. ServiceNow also uses the process of transferring instances to reduce the impact of maintenance on its service and will move instances out of one data center to the other on a daily basis. As a result, ServiceNow is very well practiced at the process of "failing over" customer instances.

ServiceNow's BC process covers its functional offices and is a separate standard operating procedure from its customer environments. The BC Plan (BCP) has been developed in concert with the entire business including Business Impact Assessments (BIA) to understand the impact of the loss of any given systems or locations.</td></tr>
<tr><td>Docusign</td><td colspan="2">DocuSign is dedicated to providing the industry's most secure eSignature solution through the DocuSign Security Assurance Program.</td></tr>
<tr><td>QTS</td><td colspan="2">Not having a current copy of your information.
Mitigation - QTS's DR High Availability Service provides continuous data replication of your physical and virtual server environments, ensuring you always have access to a current copy of your data, applications and operating systems.</td></tr>
<tr><td rowspan="4">SAP</td><td>Ariba</td><td>Ariba has a strong disaster recovery procedure, tested every 6 months though has never required to fail over to the backup data center. The RTO is 4 hours and RPO is 5 minutes. Please see the SaaS Technical Infrastructure Whitepaper for addiitonal details.</td></tr>
<tr><td>Fieldglass</td><td>None.</td></tr>
<tr><td>Hanna</td><td>SAP Hana Enterprise Cloud helps customers improve their Business Continuity requirements with High Availability (HA) , Disaster Recovery & Backup options.
High Availability (HA) - HA is achieved by failover to standby node
Disaster Recovery (DR) - Systems are configured in the secondary datacenter.
DR is an optional service that can be included as per customer's requirements</td></tr>
<tr><td>SuccessFactors</td><td>We maintain an N+1 approach for all equipment in the hosted cloud environment, so that there is never a single point of failure. All customer database backups are encrypted and streamed in a secure manner from the customer's "primary" data center to their "alternate" data center, allowing for a timely restoration of service in the event of disaster.
Based on the terms of the agreement, we will designate one of the data centers as the customer's "primary" data center, with an additional data center designated as the "alternate" for data redundancy and disaster recovery purposes.</td></tr>
<tr><td>VMware</td><td colspan="2">VMware IaaS Services
The following table provides common inherent disaster recovery risks and potential mitigation strategies.
<table>
<tr><th>RISK</th><th>Unmitigated Probability</th><th>Mitigation</th><th>Mitigated Probability</th></tr>
<tr><td>Participating agency's lack of a disaster recovery plan leads to</td><td>High Risk</td><td>Participating Entities are encouraged to develop a disaster recovery plan to mitigate against service</td><td>No Risk</td></tr>
</table>
</td></tr>
</table>

	service outage or data loss in the event of a disaster.		outage or data loss. In parallel, entities are encouraged to leverage vCloud Air data protection, vCloud Air Disaster Recovery, and other high availability services while a formal plan is written	
	Participating entity chooses inappropriate data center location leading to service degradation or outage.	High Risk	Participating entities are encouraged to choose datacenter(s) that is geographically proximate to their end users to maximize performance. In addition, location of disaster recovery data center should be geographically separated from primary data center.	Low Risk
	Participating entity fails to budget for and acquire appropriate DR technology leading to inability to recover from disasters.	High Risk	Participating entities are encouraged to include DR capabilities in their costs estimates for cloud deployments to ensure budget is available to acquire those services.	No Risk
	Participating entity fails to ensure cloud service SLAs (e.g. RPO & RTO objectives) meet their mission requirements leading to inadequate service recovery times and data loss.	High Risk	Participating entities are encouraged to review SLAs for each cloud service that they are interested in acquiring to ensure that they meet mission requirements. Care should also be taken to ensure service SLAs do not significantly exceed mission requirements to avoid unnecessary cost.	No Risk
	VMWare AirWatch			

	Providing a secure and stable product that mitigates vulnerabilities, reduces risk and quickly responds to the evolving threat landscape is considered a top priority. Following the guidelines established in NIST SP 800-30, regular risk and vulnerability assessments are performed against the production environment to identify, assess and remediate emerging threats. When potential vulnerabilities are discovered, we follow a documented procedure to prioritize and deploy necessary patches. •Vulnerabilities and threat-sources are identified by conducting interviews with various members of the Cloud Operations community and mapping data to the AirWatch business landscape. •We can provide additional information as conversations progress.
FireEye	Varies by service and customer deployment. Will be defined during engagement setup.
VirtueStream	Virtustream has built redundancy into all layers of the physical infrastructure in order to deliver SLAs up to 99.999% and mitigate any known risks. To further mitigate against the unknown, Core microVM's are designed for mission-critical workloads and include reserved compute capacity in a secondary datacenter and automatic storage replication to facilitate the ability to restore operations in the event of an outage at the primary data center.

8.15.3 Describe the infrastructure that supports multiple data centers within the United States, each of which supports redundancy, failover capability, and the ability to run large scale applications independently in case one data center is lost.

CA	APM	AWS datacenters provide redundancy and failover within a single AWS EC2 zone (i.e., a single geographic location). Professional Services would need to be engaged to provide multi-geo DR
	MAA	MAA service is currently available from one data center only.
	CA Agile	We run a hot/warm data center configuration and have the ability to quickly failover if required. Our data centers are ~1300 miles apart to ensure redundancy. We perform full system planned switch over testing at a minimum semi-annually.
	ASM	ASM core services run in one primary data center, and can fail over to the DR site if there is a catastrophic failure.
AODocs	As described elsewhere in this response, AODocs is built on Google Cloud Platform (AppEngine) and Altirnao does not manage this infrastructure.	
Virtru	We operate our infrastructure in multiple Availability Zones, and any given data center failure would not result in data loss.	
Salesforce	Customer Data for customers in Salesforce's Government Cloud is stored in two of our U.S. data center locations. Our service is collocated in dedicated spaces at toptier data centers. Salesforce's hardware is located inside of secure server rooms designated to Salesforce and separated by concrete walls from other data center tenants. Individual racks inside of the data center are secured with a lock. Specific racks are allocated for hardware supporting the Salesforce Government Cloud. Access to the racks supporting the Salesforce Government Cloud hardware is restricted to Qualified U.S. Citizens as described in the section above.	
ServiceNow	ServiceNow's data centers and cloud-based infrastructure have been designed to be highly available. All servers and network devices have redundant components and multiple network paths to avoid single points of failure. At the heart of this architecture, each customer application instance is supported by a multi-homed network configuration with multiple connections to the Internet. Production application servers are load balanced within each data center. Production database servers are replicated in near-real time to a peer data center within the same geographic region.	

	ServiceNow leverages this Advanced High Availability (AHA) architecture for customer production instances in several ways: •In the event of the failure of one or more infrastructure components, service is restored by transferring the operation of customer instances associated with the failed components to the peer data center. •Before executing required maintenance, ServiceNow can proactively transfer operation of customer instances impacted by the maintenance to the peer data center. The maintenance can then proceed without impacting service availability. This approach means that the transfer between active and standby data centers is being regularly executed as part of standard operating procedures – ensuring that when it is needed to address a failure, the transfer will be successful and service disruption minimized. See the "ServiceNow Security, Operations, and Compliance White Paper" included with this response for more information.
Docusign	Each component of our trusted platform - Hardware & Infrastructure, Systems & Operations, Applications & Access, and Transmission & Storage - undergoes tremendous security scrutiny. HARDWARE & INFRASTRUCTURE Three geo-dispersed, SSAE 16 audited datacenters Near real-time secure data replication and encrypted archival 365x24x7 on-site security Annual Business Continuity Planning (BCP) & Disaster Recovery (DR) testing Third-party penetration testing SYSTEMS & OPERATIONS Physically and logically separate networks Two-factor, encrypted VPN access Professional, commercial grade firewalls and border routers Distributed Denial of Service (DDoS) mitigation Active monitoring and alerting APPLICATIONS & ACCESS Formal code reviews and vulnerability mitigation by third parties Application level Advanced Encryption Standard (AES) 256 bit encryption Key Management & Encryption Program Enterprise-class malware protection Digital audit trail Multiple authentication mechanisms TRANSMISSION & STORAGE Secure, private SSL 256 bit viewing session Anti-tampering controls Signature verification of signing events Unalterable, systematic capture of signing data Digital certificate technology Customer configurable data retention program

QTS	QTS cloud utilizes alternate telecommunications services from both TW Telecom and NTT America that reduces the likelihood of experiencing a single point of failure. QTS's failover facilities in RIC1 and ATL1 are a carrier-class and carrier-neutral datacenter with multiple Internet Service Providers. QTS-FC can establish connectivity with another service provider with 24 hours in the event of an unrecoverable catastrophic connectivity failure of QTS-FC's primary/secondary provider.	
SAP	Ariba	Ariba has implemented two sites within each region. In North America the sites are currently located in San Jose, California and Sterling, VA. In Europe the sites are located in St. Leon-Rot, Germany and Amsterdam, Netherlands. The act of failing over from one site to another has a design goal for its Recovery Time Objective (RTO) of no more than four hours. The design goal for the Recovery Point Objective (RPO) is five minutes. Disaster recovery options are included for all Ariba Cloud Services. In the event of a fail-over to the disaster recovery site, no customer changes are required as all URLs that customers use to reach the applications will continue to work. Ariba will notify customers via their email addresses in the event of unplanned downtime. Internally, Ariba uses a documented system recovery plan that outlines the approach and steps for recovering the applications. This document defines roles and responsibilities in the event of disaster: Local Ariba staff maintains the hardware remotely. Ariba maintains the application software. Processes are in place to keep database and fileservers in sync between primary and backup data centers. The failover process of all parts of the infrastructure is automated. In the event of a catastrophe, Ariba will declare the primary data center "down" and locally the script will be run to switchover and start the applications at the remote data center. Ariba tests power outage backup scenarios and the Disaster Recovery Plan on a periodic basis to ensure it is up-to-date, successful, and effective.
	Fieldglass	We host and manage the Fieldglass system within secure Internet data centers provided by CenturyLink in Elk Grove, IL, and our disaster recovery center provided by Equinix in San Jose, CA. Both are managed by Server Central which is a Tier 4 hosting provider and a Tier 1 data provider (see the note below). All systems are ""mission-critical loads"" supported by IDC Redundant Power Management System (UPS, generators etc.). Note: Data centers can be classified by tiers, with Tier 1 being the most basic and inexpensive, and Tier 4 being the most robust and costly. According to definitions from the Uptime Institute and the latest draft of TIA/EIA-942 (Telecommunications Infrastructure Standard for Data Centers), a Tier 1 data center is not required to have redundant power and cooling infrastructures. It needs only a lock for security and can tolerate up to 28.8 hours of downtime per year. In contrast, a Tier 4 data center must have redundant systems for power and cooling, with multiple distribution paths that are active and fault tolerant. Furthermore, access should be controlled with biometric readers and single-person entryways, gaseous fire suppression is required, the cabling infrastructure should have a redundant backbone, and the facility can permit no more than 0.4 hours of downtime per year. Tier 1 or 2 is usually sufficient for enterprise data centers that primarily serve users within a corporation. Financial data centers are typically Tier 3 or 4 because they are critical to our economic stability and, therefore, must meet

		higher standards set by our government. Public data centers that provide disaster recovery/backup services are also built to higher standards.
	Hanna	Infrastructure setup: * Standby SAP HEC systems at DR failover site will be shutdown / not useable during regular operations. * WAN connectivity & special requirements (e.g. acceleration services) fall into the responsibil-ity of the customer. * Customer must have independent network connections to both DR sites. * All DR-relevant systems are going to be installed according to the Adaptive Computing (AC) principle (virtual hostnames + virtual IP addresses HSR will be used to replicate data from Primary to DR site for HANA solutions, similarly Sybase Replication Server (SRS) will be used to replicate data from Primary to DR site for ASE based solutions. For more information, please refer to attached Business Continuity document
	SuccessFactors	Our infrastructure architecture is designed with high availability in mind, and engineered for resiliency. All major components are redundant, including power, HVAC, fire suppression, and the physical components of our network. Production data centers have strict access controls, and are continuously staffed and monitored to help prevent acts of sabotage or vandalism. All production data centers are ANSI/EIA/TIA-942Tier III/IV facilities, and are ISO 27001 certified. Production data centers are also geographically dispersed to help prevent a single event from affecting more than one data center. In the event a production data center has an outage we failover to an alternate data center in the same geographic region to minimize impact to customers. Our Cloud Operations teams are also geographically dispersed, working in offices in the US, Europe, South America, and India. Should an office be impacted by an environmental event or pandemic, other offices can continue operations. Aspects of the plan are described in the SOC reports, Disaster Recovery Plan ("DRP") and Business Continuity Plan ("BCP") solutions are dependent on several factors. The customer may be responsible for parts of the recovery/continuity activities
VMware	VMware IaaS Services VMware offers several technologies to provide redundancy, failover capability and the ability to run large scale applications independently in case one data center is lost. vCloud Air is built upon infrastructure that is architected for High Availability leveraging proven vSphere High Availability (HA), vSphere vMotion, and VMware Distributed Resource Scheduler (DRS). These technologies allow participating entities to migrate live workloads and/or automatically restart VMs in the event of host maintenance or unexpected issues. These technologies also maintain a consistently high level of performance for all tenants. VMWare vSphere vMotion enables migration of live VMs to transfer your workloads during maintenance, without downtime. Unlike other cloud providers, VMWare ensures that tenants are not impacted by standard maintenance. VMware performs vMotion migrations for maintenance behind the scenes for its tenants in vCloud Air during maintenance windows without disrupting tenant applications. vMotion is also used to seamlessly migrate VMs from an on-premises environment to vCloud Air and back. Today, vCloud Air is one of only a few major cloud vendors that uses live migration to do maintenance. This capability will enable NASPO participating entities to perform live migrations to move thier applications to and from the cloud for maintenance and other purposes. This	

	technology inherently prevents the lock-in experienced when migrating to cloud services offered by others. VMware Dynamic Resource Scheduler continuously monitors CPU and memory utilization across a cluster of vSphere hosts, allocating resources among VMs and rebalancing performance during high-volume peak times. This is performed 24x7 within the VMware vCloud Air environment. VMware vSphere High Availability delivers the availability required by most applications running in VMs, independent of the operating system and application running in it. Whether participating entities leverage Microsoft Windows or Linux; off-the-shelf or custom developed application; single VMs or many, HA provides uniform, failover protection against hardware and operating system outages within vCloud Air. HA can: • Monitor VMware vSphere hosts and VMs to detect hardware and guest operating system failures. • Restart VMs on other vSphere hosts in the cluster without manual intervention when a server outage is detected. • Reduce application downtime by automatically restarting VMs upon detection of an operating system failure. Other cloud providers require you to build availability in to your application. In the best case scenario, this is as simple as including a load balancer in front of multiple VMs in the same tier to achieve basic high availability. However, often the technologies of other cloud service providers requires a complete redesign of the hosted application, and often network devices such as load balancers are offered at an additional cost, unlike vCloud Air. vCloud Air was built to run hosted applications as-is, providing availability down to a single VM instance, and balancing resources across multiple tenant needs with DRS. Unlike other clouds, with vCloud Air and vCGS, participating entities are not required to rebuild thier application to get the flexibility and agility that cloud can provide. Of course, vCloud Air customers usually do not just stop at moving applications to vCloud Air. Once in the cloud they start to explore features like our Advanced Networking Services and using APIs, automation, and CI/CD tools to deliver services faster. And, where it makes sense, customers do look at application redesigns as well, but with vCloud Air it is not because they must redesign to ensure the application is always available. VMWare AirWatch AirWatch features active-passive configurations for high availability and redundancy with all components made to failover with minimal downtime. Load balancing capabilities are deployed across multiple data centers to ensure immediate server pick up, ensuring zero end user downtime. AirWatch also incorporates replication technology featuring SQL log shipping or network SAN byte replication to prevent data loss.
FireEye	Varies by service and customer deployment. Will be defined during engagement setup.
VirtueStream	Virtustream's U.S. based data centers are located in Washington, DC, Las Vegas, and San Francisco. All data centers meet the highest industry standard in terms of operational protocol and have redundancy built into all layers of the physical infrastructure. Core microVM's, which are used for mission-critical workloads, provide reserved compute capacity and automatic storage replication so that these systems can be failed over to a secondary data center and have access to the compute capacity required in the event of a catastrophic outage at the primary data center.

8.16 Solution Administration

8.16.1 Ability of the Purchasing Entity to fully manage identity and user accounts.

CA	APM	Customer has full control over all user accounts

	MAA	CA MAA provides user management self-service to customers to manage their own accounts and create accounts for other users.
	CA Agile	The customer is responsible for managing the lifecycle of all user accounts.
	ASM	The Purchasing Entity can manage their account and create sub-accounts within ASM.
Google	Comply	
AODocs	Comply	
Virtru	Virtru does not have an identity system. We federate authentication to Oauth and Email loop verification.	
Salesforce	Identity Management Logon is form-based. When users log into the Salesforce application, they submit a username and password, which are sent to Salesforce via an TLS-encrypted session. Security features are developed by Salesforce and built into the application. Third-party packages are not used for development or implementation of security internal to the application. In addition, single sign-on and two-factor authentication may be used to authenticate users. Some organizations prefer to use an existing single sign-on capability to simplify and standardize their user authentication. You have two options to implement single sign-on—federated authentication using Security Assertion Markup Language (SAML) or delegated authentication. Federated authentication using Security Assertion Markup Language (SAML) allows you to send authentication and authorization data between affiliated but unrelated Web services. This enables you to sign-on to Salesforce from a client application. Federated authentication using SAML is enabled by default for your organization. Delegated authentication single sign-on enables you to integrate Salesforce with an authentication method that you choose. This enables you to integrate authentication with your LDAP (Lightweight Directory Access Protocol) server, or perform single sign-on by authenticating using a token instead of a password. You manage delegated authentication at the profile level, allowing some users to use delegated authentication, while other users continue to use their Salesforce-managed password. Delegated authentication is set by profile, not organization wide. You must request that this feature be enabled by Salesforce. Salesforce can be configured to utilize Active Directory directly via Delegated Authentication, or indirectly via Federated Identity using either SAML 1.1, or SAML 2.0. Additionally your users can be loaded from information drawn from your Active Directory servers and modifications made in Active Directory can be propagated into Salesforce. Customers can use their own SAML Identity Provider, or license one directly from Salesforce with our Identity Connect product. User Accounts All users and application-level security are defined and maintained by the organization administrator, and not by Salesforce. The organization administrator is appointed by the customer. An organization's sharing model sets the default access that users have to each other's data. There are four sharing models: Private, Public Read Only, Public Read/Write, and Public Read/Write/Transfer. There are also several sharing model elements: Profiles, Roles, Hierarchy, Record Types, Page Layouts, and Field Level security.	
ServiceNow	Customers manage their own instances, including assigning users, defining user roles and profiles, and administrating the system. ServiceNow does not have access to the Customer's instances. The ServiceNow wiki has all ServiceNow documentation available.	

Docusign	Yes, DocuSign allows the purchasing entity to mange identities and user accounts. DocuSign for Enterprise is customizable to meet the administrative needs of the largest organizations. Full administration rights give you total control over document custody and retention policies, how signers sign or adopt signatures, user authentication and more. The branding tools ensure recipients can easily identify documents from your organization.
QTS	24x7x365 Operations Staff - Let QTS provide the expertise and experienced staff to monitor and manage your data center facility. Never again worry about staff turnover or whether your technologists are current with data center best practices.
SAP	Hanna Yes
VMware	VMware IaaS Services VMware management infrastructure requires 2-factor authentication and multiple layers of access control. vCloud Air customers have the ability to provide access to their designated users. User account management is maintained by the customer. control. vCloud Air customers have the ability to provide access to their designated users. User account management is maintained by the customer. VMWare AirWatch The Purchasing entity has the ability to fully manage identity and user accounts for administrators and end users through the web console. Customers can optionally integrate with AD/LDAP to inherit your existing structure and policies.
FireEye	User identity and account settings are controlled within the administration sections of the FireEye cloud solutions.
VirtueStream	Virtustream can provide solution for managed solution for Active Directory or LDAP. As standard, we provide support for managing the VM itself and all OS support. However, our typical use case is, customer manages the users and related activities, as Virtustream might not be aware of internal HR elements of User Management.

8.16.2 Ability to provide anti-virus protection, for data stores.

CA	APM	AWS provides protection/virus scanning for data at rest
	MAA	Logical security is provided by ClamAV Antivirus.
	CA Agile	We have ClamAV installed on all Linux hosts and TrendMicro for Windows hosts.
	ASM	Logical security is provided by ClamAV Antivirus.
Google	Comply	
AODocs	N/A	
Virtru	AlienVault IDS is used to perform virus and vulnerability scans.	
Salesforce	Salesforce runs antivirus software on the production systems that store, transmit or process customer information. The Anti-virus scans host filesystems (not customer data). The antivirus software checks for virus definition updates daily. Other controls are also used to address malware such as hardening the Operating System of our servers, firewall configuration to ensure only required ports are open and all others denied, and use of intrusion detection systems. Access to these systems is restricted to authorized personnel and all these systems, as well as the host platforms, are monitored in real time through a security monitoring system. The application only accepts http and https traffic, but Salesforce does not restrict the file types users can upload. Salesforce does not modify or clean any customer data; the system stores the information provided in an encoded format within the database. It is recommended that customers run updated antivirus and antimalware solutions to help mitigate these threats. The production system receives inbound mail as part of the workflow functionality, but this does not pose any threat to our network, application, or users. No code in the email can be executed or transferred,	

	eliminating the malicious software risk. Email sent from the Salesforce system is not currently scanned for viruses.
ServiceNow	If Customers want to schedule an antivirus software scan on certain computers after a pre-defined number of days, Customer would define a model-based plan with a duration-based maintenance schedule. This would do the scan automatically to those models defined in the Planned Maintenance area.
Docusign	Yes, DocuSign maintains enterprise-class malware protection.
QTS	Yes - 24x7x365, dependable and detailed support
SAP	Hanna Yes
VMware	VMware IaaS Services Anti-virus software is installed on all development, domain and production hardware devices owned and operated by VMware, which hold company data, passwords, or keys. These devices maintain the most recent version of the anti-virus software signature file. VMWare AirWatch AirWatch has installed a best-in-class, continuously-updated anti-virus suite on servers in the SaaS environment
FireEye	FireEye employs a multi-layered, continuously monitored and engaged set of active defenses to provide anti-virus protection for customer data stores that both meet and exceed traditional approaches. FireEye, and our customers, not only are prepared to reactively withstand attacks from known virus vectors, but since FireEye and our MVX technology is literally, continuously, and securely detonating viruses and other advanced malware on the way to our customer's data stores, FireEye proactively defends from zero day and other emergent attacks as they happen.
VirtueStream	Virtustream offers Anti-Virus protection based on per virtual machine, per month charge.

8.16.3 Ability to migrate all Purchasing Entity data, metadata, and usage data to a successor Cloud Hosting solution provider.

Carahsoft will work with each Participating Entity to develop a cost effective plan to assist in the migration and implementation of their data into the new service that has been selected.

8.16.4 Ability to administer the solution in a distributed manner to different participating entities.

Carahsoft will view each Participating Entity as a separate customer and privileges can be assigned for control access even within the individual services.

8.16.5 Ability to apply a participating entity's defined administration polices in managing a solution.

Each Participating Entity will have the ability to work with Carahsoft and the Service Provider to identify defined administration policies to mangage the solution.

8.17 Hosting and Provisioning

8.17.1 Documented cloud hosting provisioning processes, and your defined/standard cloud provisioning stack.

CA	APM	CA SaaS Ops has a well defined Service Introduction and update process, including review boards, staged rollouts and followups to ensure service integrity. Our cloud provisioning stack is tied to AWS EC2 services, and includes S3 and RDS for storage; RHEL instances for the applications; route 53 DNS services; cloudfront for monitoring; and ELB for load balancing

	MAA	Automation tools are used to install and configure MAA software on CA infrastructure. SOP documents are used by CA internally.
	CA Agile	All new systems should be provisions according to our baseline standards and we use configuration management tools to ensure all systems are created with the same standards.
	ASM	Automation tools are used to install and configure ASM software on CA infrastructure. SOP documents are used by CA internally.
Google	Google has administrative document and Google Deployment Guides accessible on the web.	
AODocs	This is not applicable to Google.	
Virtru	Ubuntu AMIs provisioned using terraform and configured by Ansible	
Salesforce	Cloud Hosting and Provisioning Salesforce's deployment model is a "public" cloud infrastructure, as defined by NIST 800-145. In the Salesforce Government Cloud, an agency dynamically provisions computing resources over the Internet on our multi-tenant infrastructure. This is a cost effective deployment model for agencies as it gives them the flexibility to procure only the computing resources they need and delivers all services with consistent availability, resiliency, security, and manageability. Salesforce provides market leading PaaS and SaaS solutions and is a multitenant cloud-based subscription service. Multi-tenant cloud solutions provide a single, shared infrastructure, one code base, one platform that is all centrally managed, with platform-based API to support all integration traffic, and multiple release upgrades included as part of the subscription service. Multi-tenancy and the Cloud Computing model remove unneeded tasks from the process of delivering, managing, and integrating software. Salesforce customers will not need to maintain any hardware or software. Without multiple versions to support, integrations don't break during updates; they are simply updated automatically. As a result, both the initial integration and its continued maintenance are simplified. More resources can be focused on creating a better product, with a faster cycle of innovation, instead of having to manage the complexity of many different versions to support a vast installed base. Salesforce's position as an online service enables us to roll out all levels of improvement, from patch releases to major upgrades, that are largely transparent to the end users. When a bug is fixed and tested, it is rolled out to the application as part of regular maintenance; the nature of the service prevents special patches and code branches for individual customers, so all fixes can potentially benefit all customers. The Salesforce Services is delivered using a world-class data center infrastructure. Each customer's org is hosted from a primary and secondary production data center, with near real-time replication occurring between the two sites. Salesforce is a pure multi-tenant web application. No software or infrastructure is required by the customer other than a computer, browser and internet connection or a mobile device. User Administration and ProvisioningUser provisioning and management is performed by the customer through the Salesforce Administrative Setup environment. Users, their profiles, permissions and passwords may be managed, edited, activated and deactivated as needed by those with appropriate permissions. An administrator with appropriate privileges can manage session timeout, password policies, IP range login restrictions, delegated authentication/SSO, and requirements as part of this process. On first time login or password reset request, users are required to change their passwords to gain access.	
ServiceNow	ServiceNow includes all documentation on the wiki at wiki.servicenow.com.	
Docusign	DocuSign hosts customer accounts in its own data centers managed by DocuSign. Upon a new contract executed with a customer, DocuSign provisions a customer account based on the	

	contract terms. A designated point of contact becomes the default primary administrator who then adds additional users and other admin tasks. DocuSign's cloud stack is defined in architecture documents available under separate confidential disclosure.	
QTS		
SAP	Ariba	Our solutions are offered and delivered in a true subscription-based model and shared service (multi-tenant) offering. There is no software to install, no hardware to buy, no maintenance or support costs and no need to hire consultants or tech specialists to run the system. We deploy and manage the infrastructure. Customers only need a web browser for access. Subscriptions include system maintenance, automatic upgrades, enhancements and application of service packs, Level 1– 3 help desk support, professional services and best practices built directly into the application.
	Fieldglass	Fieldglass maintains its own platforms and follows a mature change control process for introducing new systems to the hosted environments.
	Hanna	The Managed Service includes the following: • Infrastructure operations management: monitoring, patching, software updates & maintenance up to the OS Layer • OS management: monitoring, patching, updates, and maintenance of the specific OS • Network and system administration • HANA database platform operations includes: space management revision management , security management , hardware configuration management, backup & recovery, change management coordination • Health check services, proactive monitoring, capacity management • SAP Technical Application Basis Operations (incl. SAP Basis) • Monitoring • Troubleshooting – Incident Management Level 2 and 3 • Patch Management • Housekeeping • Backup/Recovery
	SuccessFactors	We offer a cloud based solution. Our application is standardized on the J2EE technology stack with the majority of our software written in industry-standard software programming languages, such as Java. We also make extensive use of Web 2.0 technologies, such as AJAX and Flash, for improved usability and performance and to deliver a rich and highly interactive experience. Our hardware consists primarily of industry standard web servers, application servers, database servers and storage and networking equipment. Customers share the network security infrastructure, web servers, application servers and database instance, and each customer has their own set of database tables that are logically partitioned in the database containing its own unique database schema. Each company instance can be completely exported out of the database without affecting any other customer. The application utilizes the JAVA and J2EE industry standards. Integration is supported through .CSV, XML and web services standards. The application is portable to any platform and is deployed on Apache (Solaris) Web Servers, JBOSS Application Servers, and Veritas High Availability Cluster Servers, and utilizes Cisco Networking.
VMware	VMware IaaS Services An interface that allows users to select from a catalog of pre built OS images and allows them to provision on the fly.	

	VMWare AirWatch AirWatch uses industry recognized tools and follow best practices to deploy, configure, and maintain server images. We do not apply customer-supplied templates and do not share templates with customers. Our Information Security team identifies applicable security standards and the AirWatch Server Team creates a secure baseline image for deployment throughout the SaaS environment. Due to FOIA restrictions, additional information regarding capacity planning and image creation/safeguarding cannot be disclosed at this time.
FireEye	This is not applicable as each of FireEye's offerings are classified as SaaS.

8.17.2 Provide tool sets at minimum for:

1. Deploying new servers (determining configuration for both stand alone or part of an existing server farm, etc.)

CA	APM	New servers are predefined by the CA SaaS Ops toolchain, and automated using AWS tooling to be able to bring up/down servers on demand
	MAA	Same as above.
	CA Agile	We utilize configuration management tools to ensure consistent configuration across our servers.
	ASM	Same as above.
Google	1. This is not applicable to Google. Capacity planning and server deployment is fully managed by Google. 2. This is not applicable. With the Google IaaS solutions all server images are provided by Google. 3. With respect to the SaaS offfering, Google Apps, if customers have not selected the Google Apps Unlimited option which offers unlimited storage, they have options to upgrade. With respect to the PaaS/IaaS offering, Google Cloud Platform, storage space is allocated dynamically based on actual usage demand. 4. SaaS, Google Apps includes numerous administrative tools to monitor end user and administrator activites."	
AODocs	This is not applicable.	
Virtru	AMIs provisioned using terraform and configured by Ansible to include all configuration parameters	
Salesforce	This is not applicable. These services while applicable to IaaS are not applicable to PaaS/SaaS where all of the infrastructure is managed by Salesforce as the Cloud Service Provider. These services are included and managed as part of the Salesforce subscription service and not directly exposed to the customer. The multitenant architecture and secure logical controls address separation of customer data. There are no dedicated servers used for individual customers. The Salesforce Services infrastructure is divided into a modular architecture based on "Instance". Each Instance is capable of supporting several thousand customers in a secure and efficient manner. Services are grouped within each Instance; with app, search, and database elements contained. There are appropriate controls in place to ensure that any given customer's org (application) is not compromised. The service has been designed to accomplish this and is robustly tested on an ongoing basis by both Salesforce and its customers. An instance consists of a database instance run on clustered database servers and physical storage subsystems. Each server has been allocated a different volume group so it can fail over to its backup server within the instance independently of the others. As scalability needs dictate,	

	additional database instances can be brought online (the application already provides for this). For additional server capacity, one or more databases could be moved onto its own database server.	
ServiceNow	ServiceNow has read and understands this requirement. ServiceNow supports only a SaaS environment so there is no on-premise offering.	
SAP	Ariba	Operating systems when installed through default means and with default settings are typically not secure and often include applications and services not required. Ariba has standardized operating systems' installations based on best practices. Ariba servers are configured with just the applications and services required to run the server as designed. Services not required are disabled and binary files not required for operation are removed, which reduces the total number of vulnerabilities a system may have. Ariba standardized installation process also ensures that all servers of the same type are configured exactly the same, utilizing a process that initiates an upgrade to system binaries across all systems. Based on the system type, the configuration will remain the same. If one server type needs to receive a patch for a vulnerable binary file, that patch is pushed to all systems of that particular server type. If that binary exists on all systems, it is patched across all systems. Patches are then included in the build process as well so that future systems built are in compliance with security standards. Ariba uses this configuration process to 'harden' the operating system prior to implementing additional controls as detailed below.
	Fieldglass	Fieldglass uses group policy to ensure the configuration of all servers match our security requirements.
	Hanna	HEC is a private cloud offering where servers configurations are discussed and approved by customer prior to deployment.
	SuccessFactors	We apply hardening in line with ISO 27k standards and audit key areas in the SOC 2 Type 2 report. Audit reports are available to customers and prospects upon completion of an NDA.
VMware	VMware IaaS Services vCloud Hybrid Service provides an interface that allows users to select from a catalog of pre-built OS images and allows them to provision on the fly. vRealize Automation is the next level for provisioning, delivering, and managing IT services on VMware vSphere infrastructure as well as VMware vCloud Air all with a unified management experience. It provides governance and blueprints to deliver services from on premise into vCloud Air. Customers can integrate vCloud Air with vRealize Automation. In this setup, users access vCloud Air primarily through the vRealize Automation service catalog which handles authentication to the service itself. vRealize Automation supports VMWare AirWatch AirWatch uses industry recognized tools and follow best practices to deploy, configure, and maintain server images. We do not apply customer-supplied templates and do not share templates with customers. Due to FOIA restrictions, additional information regarding capacity planning and image creation/safeguarding cannot be disclosed at this time.	
FireEye	This is not applicable as each of FireEye's offerings are classified as SaaS.	
VirtueStream	Virtustream offers on-demand self-service portal where State of Utah can deploy new servers as stand-alone or part of a server farm.	

2. Creating and storing server images for future multiple deployments

CA	APM	Servers are brought up on demand

	MAA	Same as above.
	CA Agile	We utilize configuration management tools to ensure consistent configuration across our servers.
	ASM	Same as above.
Virtru	Provisioning system automatically persists all past AMIs for ability to roll-back	
Salesforce	This is not applicable. These services while applicable to IaaS are not applicable to PaaS/SaaS where all of the infrastructure is managed by Salesforce as the Cloud Service Provider. These services are included and managed as part of the Salesforce subscription service and not directly exposed to the customer.	
ServiceNow	ServiceNow has read and understands this requirement. ServiceNow supports only a SaaS environment so there is no on-premise offering.	
SAP	Ariba	Ariba has standard 'realms' which are default versions of the various configurations the Ariba on-demand products can be setup for each customer with one test and one production instance. Ariba maintains all hardware, software, realms and entitlements taking the burden off our customers and suppliers whilst providing a platform to configure to each company's needs and business processes
	Fieldglass	Fieldglass uses virtual servers within our hosted environments uses the hardening configurations to maintain the right level of security.
	Hanna	HEC is a private cloud offering where servers configurations are discussed and approved by customer prior to deployment.
VMware	VMware IaaS Services We also allow for template and gold master images to be stored on-premise and deployed to the cloud as well as storage of templates and master images in vCloud Director catalogs in in vCloud Air VMWare AirWatch Our Information Security team identifies applicable security standards and the AirWatch Server Team creates a secure baseline image for deployment throughout the SaaS environment. Due to FOIA restrictions, additional information regarding capacity planning and image creation/safeguarding cannot be disclosed at this time.	
FireEye	This is not applicable as each of FireEye's offerings are classified as SaaS.	
VirtueStream	Virtustream offers server images, templates, or other methods (OVF and blueprints) for multiple deployments as part of standard solution.	

3. Securing additional storage space

CA	APM	AWS EC2 storage is elastic, and can be expanded on demand
	MAA	Virtual storage can be added when needed.
	CA Agile	We have redundant systems for all critical infrastructure and have the ability to add additional storage if deemed necessary.
	ASM	Additional storage is added manually.
AODocs	AODocs storage is based on Google Apps Drive storage and with respect to the SaaS offfering, Google Apps, if customers have not selected the Google Apps Unlimited option which offers unlimited storage, they have options to upgrade.	
Virtru	New hardware added at Cloudant	
Salesforce	Salesforce provides extensive storage capabilities. Storage is divided into two categories: file storage and data storage. File storage includes files in attachments, the Documents tab, the Files tab, the File field, Salesforce CRM Content, Chatter (including user photos), and Site.com assets. Data storage includes the following entities/records stored within the Salesforce application: Accounts, Article types, Article type translations, Campaigns, Campaign Members, Cases, Case	

	Teams, Contacts, Contracts, Custom objects, Email messages, Events, Forecast items, Google docs, Ideas, Leads, Notes, Opportunities, Opportunity Splits, Orders, Quotes, Quote Template Rich Text Data, Solutions, Tags: Tag applications, Tags: Unique tags, and Tasks. For file storage, Unlimited Edition is allocated a per-user limit multiplied by the number of users in the organization plus an additional per-organization allocation. For example, an Unlimited Edition organization with 600 users receives 1,211 GB of file storage, or 2 GB per user multiplied by 600 users plus an additional 11 GB. For data storage, Unlimited Edition is allocated either 1 GB or a per-user limit, whichever is greater. For example, an Unlimited Edition organization with 10 users receives 1 GB because 10 users multiplied by 20 MB per user is 200 MB, which is less than the 1 GB minimum. Additional storage can be purchased, or files can be exported and archived outside of Salesforce, thus freeing up file storage space.	
ServiceNow	ServiceNow has read and understands this requirement. ServiceNow supports only a SaaS environment so there is no on-premise offering.	
QTS	Services that scale to meet your web and IT infrastructure needs - QTS offers space options from single cabinets to multi-rack cages to private suites. Coupled with configurable primary and redundant power options to run your infrastructure, QTS Colocation services can be scaled to support your near term growth requirements and future expansion.	
SAP	Ariba	We carefully monitor all network interfaces. Internally we are well below capacity on our most congested interconnects. To the internet we use Border Gateway Protocol to peer with redundant Internet Service Provider's and manage the bandwidth accordingly.
	Fieldglass	As a software-as-a-service (SaaS), Fieldglass automatically and transparently handles the scaling and redundancy for customers based on SLAs governing performance and availability. Fieldglass monitors application servers, database servers, bandwidth, and infrastructure for average and maximum utilization with Orion. Current utilization averages approximately 20 percent across all components with a goal of scaling the component vertically or horizontally (depending on the specific component) upon reaching a 60 percent threshold). All systems are scalable either horizontally or vertically to handle capacity requirements. This includes but is not limited to web servers, database servers, and storage.
	Hanna	HEC is a private cloud offering where servers configurations are discussed and approved by customer prior to deployment.
VMware	VMware IaaS Services Additional storage can be purchased and provisioned in 48 hours. VMWare AirWatch Our Information Security team identifies applicable security standards and the AirWatch Server Team creates a secure baseline image for deployment throughout the SaaS environment. Due to FOIA restrictions, additional information regarding capacity planning and image creation/safeguarding cannot be disclosed at this time.	
FireEye	This is not applicable as each of FireEye's offerings are classified as SaaS.	

4. Monitoring tools for use by each jurisdiction's authorized personnel – and this should ideally cover components of a public (respondent hosted) or hybrid cloud (including Participating entity resources).

CA	APM	all SaaS based instances are monitored by CA SaaS Ops. With Hybrid deployments, customers can manage the on premise components of the deployment using their own tooling or CA products
	MAA	MAA is monitored internally as well as externally using multiple tools recognized within industry.
	CA Agile	Access to monitoring tools is provisions according to the principle of least priviledge and is only granted based upon business need.
	ASM	ASM uses Nimsoft Monitor, third-party open source monitoring tools, and ASM itself to monitor the health of ASM internal services and servers.
AODocs	AODocs includes numerous administrative tools to monitor end user and administrator activites.	
Virtru	Dtrace, CloudWatch, CloudTrail, Logstache, ElasticSearch, Kibana, DataDog	
Salesforce	Trust.salesforce.com is the Salesforce community's home for real-time information on system performance and security. On this site you'll find: ● Live and historical data on system performance ● Up-to-the minute information on planned maintenance ● Phishing, malicious software, and social engineering threats ● Best security practices for your organization ● Information on how we safeguard your data System Overview In addition to our Trust site (http://trust.salesforce.com/trust/status), you will also have access to a System Overview, which will help Salesforce customers monitor performance and usage of their own Salesforce org. This overview includes: Schema - # and % of custom objects and data storage Business Logic - # and % of Rules, Apex triggers and classes, as well as % of code used Licenses API Usage - # and % of requests in the last 24 hours User Interface - # and % of custom apps, sites, flows, custom tabs and pages Portal The above list is of all the possible metrics that Salesforce customers may have in their system overview.	
ServiceNow	ServiceNow has read and understands this requirement. ServiceNow supports only a SaaS environment so there is no on-premise offering.	
QTS	Alert Logic's Threat Manager Intrusion Detection System (IDS) and Vulnerability Scanning functionality are designed to monitor, detect, report and alert on adverse security issues on behalf of our customers. Within this process there are a number of both automated and manual processes which are supported by our SIEM software ('The Expert System') as well as our Network Security Analysts in our Security Operations Center (SOC). Threat Manager is the Alert Logic IDS and VA scan product. It includes the physical or virtual appliances and software tools used to analyze the customer's infrastructure and monitor that infrastructure for attacks. ActiveWatch is the managed aspect of Threat Manager, providing 24 x 7 monitoring and incident response operations from the Alert Logic SOC. Threat Manager's Expert System identifies valid security events and suppresses false positives through a patented multifactor correlation process. Every security event monitored by its global network of threat sensors is analyzed in real time. When the Expert System determines that a set of events comprise a valid security threat, an incident is created and escalated according to severity via email or through an Alert Logic Network Security Analyst. This approach dramatically	

	reduces false positives and keeps analysts and customers focused on real, actionable incidents. In addition, Alert Logic's security research team continuously monitors threat data and tunes the Expert System to respond to the most current threats.	
SAP	Ariba	Within our solution, specific logging takes place that is viewable by the customer administrator or their designee. Audit logs produced through use of the solution are considered customer data and are maintained within the customer's instance of the database. These logs are retained so long as the customer has an active contract with us. As a user control consideration, customers are responsible for monitoring the proper entry of data to the solution and reviewing reports generated by the system.
	Fieldglass	Fieldglass has a comprehensive set of performance monitoring tools in place. Some tools are built in the application and some are external. The Fieldglass application captures every page hit and the time it takes to respond. It captures the server response time and the client rendering time separately. The average page times are available to be seen by privileged users through the application. The user can drill down to the hour or minute or a single request for analysis. The information can be displayed by time range for all users, by company, or even for an individual user. Orion Network Monitoring watches more than 1,000 different points of interest on the production infrastructure. These monitors include, but are not limited to, the following: CPU, Memory, I/O, Capacity and Synthetic Transactions. These monitors along with our custom application performance monitors are used to produce and comply with customer SLA requirements. Fieldglass also uses Splunk Enterprise Security for event/audit log collection and correlation. Events and logs are retained online for 90 days and offline for two years. Alerts are generated and reviewed as they occur.
	Hanna	SAP HEC uses Solution Manager for monitoring the infrastructure end to end.
	Hybris	SAP Hybris offers continuous 24/7 systems monitoring in-place, which automatically notifies you, SAP Hybris support and optionally your designated implementation partner in the event of any monitored system problem. Tools used for monitoring include HP Sitescope and Nagios. This service ensures quick response times to emergency problems. Standard monitors are in place for basic site availability. Customer can utilize additional 3rd party monitoring services should it wish to add additional monitoring. Upon request, monthly or quarterly reviews are offered to review performance over the period. When a system problem occurs, in addition to monitor alerts sent to the customer, SAP Hybris support may send emails to a designated customer notification email address to provide status, updates or further detailed information. In addition, a support ticket would be created which would include such information.
	SuccessFactors	The application logs the following for every transaction: Event/transaction Time, Transaction ID, Event/transaction Type, Event/transaction Status (Result of the event; if failure, includes reason), Object Attributes (Describes the object affected by the event), Originator User ID (ID of the user who initiated the event or action), Subject ID, Process User ID, Account Number, Transaction Specific Elements. The application audits changes to the major components. Examples of this are goal auditing and document auditing. The audit trail includes who made the change, the date of the change and the ability to see the data as it existed at

		that point in time. The data in the audit log can be viewed with appropriate permissions. We also provide an optional Audit Framework for additional audit logging capabilities. All audit logs within the application are accessible only by customers. Therefore, the review of application audit logs as well as retention periods for the application audit logs are the customer's responsibility, and can be determined as per requirements
VMware	VMware IaaS Services The vCloud Hybrid Service infrastructure, including the top layer management stack, the customer management stack and the computing/storage/network hardware are monitored for availability, capacity and performance. Customers are responsible for monitoring their own VMs (OS, apps). Customers can use on premise monitoring tools to manage and monitor their applications and OSes over VPN and direct connect. VMWare AirWatch The AirWatch Cloud Operations team monitors the SaaS environment. AirWatch follows the Fault, Configuration, Accounting, Performance, and Security (FCAPS) model to monitor the SaaS environment. •We have configured the system to notify support personnel of any issues with key performance items •Because the solution is built on industry-standard ASP.NET architecture, it integrates into existing management and monitoring tools. Administrators can configure log data storage to destinations such as Windows Event Viewer, SNMP traps, syslog, SMTP email alerts, etc. The solution also integrates directly with Microsoft SCCM. The communication layer includes a complete infrastructure for API integration to third parties as well as a rich set of existing APIs, web services, single sign on and authentication protocols. Integrate with security information and event management (SIEM) solutions for enhanced logging of events occurring in the console. Administrators can view events, filter by event type, category and module, and export events. Event logging settings can be configured based on severity levels, with the ability to send specific levels to external system via syslog integration.	
FireEye	This is not applicable as each of FireEye's offerings are classified as SaaS.	

8.18 Trial and Testing Periods (Pre- and Post- Purchase)

8.18.1 Describe your testing and training periods that your offer for your service offerings.

Training and testing periods will vary based on the Service provider as well as the complexity of the request that is made by the Purchasing Entity. Some of the services can be functional within a few days and some will take a few months for full implementation.

8.18.2 Describe how you intend to provide a test and/or proof of concept environment for evaluation that verifies your ability to meet mandatory requirements.

Upon Request, Carahsoft will provide access to any of the Cloud Technologies proposed. The precise Access to the technology may be in a limited or "DEMO" fashion. Access will be to an extent that the State may complete any necessary tests or verifications that may be required. Instructions on precisely how each technology will be accessed will be provided upon request. All of the proposed technologies are currently live/ active and support many customers. A specific instance of the requested technology would be stood up within the cloud framework to support this request. As this will be occurring within a production, the creation of the instance is a quick and straight forward process not requiring any sort of extraordinary effort.

8.18.3 Offeror must describe what training and support it provides at no additional cost.

Carahsoft provides the customer with free training for specific deals on a case by case basis. This can include free installation, training, and maintenance for high value customers who purchase Carahsoft's solution through the NASPO contract vehicle. In addition, Carahsoft will provide webinars with basic training on a quarterly basis, made available to any Purchasing Entity who wishes to participate.

8.19 Integration and Customization

8.19.1 Describe how the Solutions you provide can be integrated to other complementary applications, and if you offer standard-based interface to enable additional integrations.

The integration into other applications will vary base on the Service Provider, however it is standard practice to allow for open AIs for integration development. For example Connecting Salesforce to an existing enterprise application is a common and frequently performed task. Integration options range from native Web Services support (APIs, outbound workflow, etc.) to import/export utilities to middleware integration via packaged connectors to toolkits for Java, .NET, and other open platforms. Our solution provides the ability to call out to virtually all common APIs, to enable synchronization, push / pull, and mash-ups with external apps/systems. Salesforce itself is based on web-service based APIs that in turn simplify access to Salesforce data from external systems. API-based integration is heavily leveraged by our customers.

8.19.2 Describe the ways to customize and personalize the Solutions you provide to meet the needs of specific Purchasing Entities.

The Service Providers customization options are very extensive and highly configurable. For example The Salesforce Platform offers a core set of technologies that not only power the Salesforce SaaS products, but also allows your Agency to build custom apps, connect data from any system, and manage it from anywhere. The Salesforce Platform allows customers to build apps fast with just a few clicks, designed for desktop and mobile devices, all from a single canvas. The Salesforce Platform has been given top ratings by Gartner, Forrester, & Info-Tech Research. To help IT deliver apps faster, the Salesforce Platform offers a simple yet powerful set of declarative, point-and-click tools that anyone can use to achieve business goals at lightning speed. Without writing code, developers and business users alike can quickly and easily create custom apps on the Salesforce Platform with complex business logic and beautiful user interfaces designed specific to every screen. Salesforce Lightning Builder tools allows your Agency to work in alignment with agile development methodologies as IT meet business demands faster. The Platform uses open APIs based on industry standards such as REST and SOAP to make it easy for your Agency to build apps that integrate with legacy systems. For more complex applications, developers can leverage the Apex programming language. Apex is an object-oriented, on-demand language. It is like Java, with similar syntax and notation, and is strongly-typed, compiled on demand, and fully integrated into the Platform. All of the application services come right out of the box, from a powerful workflow engine to API services, integration services, authentication, event log framework, analytics, and collaboration.

8.20 Marketing Plan

Describe your how you intend to market your Solutions to NASPO ValuePoint and Participating Entities.

Carahsoft offers deep experience in public sector marketing. Our dedicated team plans, promotes and executes more than 2,000 public-sector marketing campaigns and events each year, including contract-specific promotional activities. These include but are not limited to:

- News announcements

- Social media promotion (Twitter, Linked In, Facebook, Carahsoft Community)
- Website content/reciprocal links (Carahsoft website page; content for contract sponsor page)
- Marketing materials (FAQs, contract overviews, solution spec sheets, powerpoint slides)
- Training documents
- Co-branded tradeshow graphics, giveaways, display materials
- Tradeshow participation (national, state and local government and education shows)
- Digital and print ads
- Webinars
- Email campaigns
- Proactive marketing opportunity tar available through:
  - National Coalition for Public Procurement (NCPP) – publicprocurementcoalition.org
  - Institute for Public Procurement (NIGP) – nigp.org
  - National Association of Counties (NACo) – naco.org
  - The United States Conference of Mayors – usmayors.org
  - National League of Cities – nlc.org
  - National Governors Association – nga.org
  - Relevant State Associations

8.21 Related Value-Added Services to Cloud Solutions

Describe the valued-added services that you can provide as part of an awarded contract, e.g. consulting services pre- and post- implementation. Offerors may detail professional services in the RFP limited to assisting offering activities with initial setup, training and access to the services.

In addition to Carahsoft's quoting and configuration expertise, we also have a wide range of Service Provider implementation partners that we leverage to work with Purchasing Entities in order to ensure successful adoption and deployment within a Purchasing Entity. We will help to identity needs for initial setup, training and access to the services so that it is all available at the best prices from one source to the Purchasing Entity.

8.22 Supporting Infrastructure

8.22.1 Describe what infrastructure is required by the Purchasing Entity to support your Solutions or deployment models.

The Service Providers that are being proposed operate on their own secure infrastructure. The Purchasing Entities will only need an internet connection to access the services.

8.22.2 If required, who will be responsible for installation of new infrastructure and who will incur those costs?

The Service Providers maintain all costs for updating and building new infrastructures.

8.23 Alignment of Cloud Computing Reference Architecture

Clarify how your architecture compares to the NIST Cloud Computing Reference Architecture, in particular, to describe how they align with the three domains e.g. Infrastructure as a Service (IaaS), Software as a Service (SaaS), and Platform as a Service (PaaS).

CA	APM	The SaaS portal runs in Amazon Web Services.
	MAA	CA MAA is a SaaS service.
	CA Agile	Only SaaS is being offered via a public cloud

	ASM	As a monitoring service, ASM is considered to be SaaS.
Virtru	The capability provided to the consumer is to use the provider's applications running on a cloud infrastructure2 . The applications are accessible from various client devices through either a thin client interface, such as a web browser (e.g., web-based email), or a program interface. The consumer does not manage or control the underlying cloud infrastructure including network, servers, operating systems, storage, or even individual application capabilities, with the possible exception of limited userspecific application configuration settings.	
Salesforce	Salesforce's deployment model is a "public" cloud infrastructure, as defined by NIST 800-145. In the Salesforce Government Cloud, an agency dynamically provisions computing resources over the Internet on our multi-tenant infrastructure. This is a cost effective deployment model for agencies as it gives them the flexibility to procure only the computing resources they need and delivers all services with consistent availability, resiliency, security, and manageability. Salesforce was the first Cloud Service Provider to attain FedRAMP Authority to Operate for both Software as a Service (SaaS) and Platform as a Service (PaaS), consistent with the FedRAMP moderate baseline controls. Salesforce does not provide IaaS as a direct service offering to our customers, it is an underlying part of our PaaS and SaaS offerings. Salesforce Government Cloud In May 23, 2014 Salesforce achieved a FedRAMP Agency Authority to Operate at the moderate impact level (as described in FIPS 199 and 200) issued by Health and Human Services (HHS) for the Salesforce Government Cloud. Additionally, on May 15, 2015, HHS, as the FedRAMP authorizing agency, approved the Salesforce Government Cloud authorization package that was updated based on annual attestation requirements and updates to the FedRAMP baseline which is FISMA compliant and based on the current release of NIST SP 800-53 Rev. 4. Testing for the ATO was performed by a third party assessment organization (3PAO). The Salesforce Government Cloud information system and authorization boundary, is comprised of the Force.com Platform, Salesforce Services (Sales Cloud, Service Cloud, Chatter), and the backend infrastructure (servers, network devices, databases, storage arrays) that support the operations of these products, referred to as the General Support System (GSS). To obtain compliance with FedRAMP, Salesforce conducted security assessment and authorization activities in accordance with FedRAMP guidance, NIST SP 800-37, and HHS guidance. As part of this process Salesforce documented a System Security Plan (SSP) for the Salesforce Government Cloud service offering. The SSP is developed in accordance with NIST SP 800-18, Guide for Developing Federal Information System Security Plans. The SSP identifies control implementations for the GSS and in-scope customer facing products (Force.com Platform, Salesforce Services) according to the FedRAMP moderate baseline and HHS security control parameters. A security assessment of the information system was conducted by a third party assessment organization (3PAO) in accordance with NIST 800-53A and FedRAMP requirements. The security assessment testing determined the adequacy of the management, operational, and technical security controls used to protect the confidentiality, integrity, and availability of the Salesforce service and the customer data it stores, transmits and processes. To maintain compliance with FedRAMP, Salesforce conducts continuous monitoring. Continuous monitoring includes ongoing technical vulnerability detection and remediation, remediation of open compliance related findings, and at least annual independent assessment of a selection of security controls by 3PAO. As part of our FedRAMP annual assessment, Salesforce is now aligned with NIST SP 800-53, Rev. 4 controls.	
ServiceNow	ServiceNow's architecture aligns with Software as a Service (SaaS).	

Docusign	DocuSign's DTM® solution is ISO 27001:2013 certified and many of the ISO 27001:2013 controls are mapped to the NIST 800-53 requirements; we can provide additional information upon request.	
SAP	Ariba	Our solutions are offered and delivered in a true subscription-based model and shared service (multi-tenant) offering. There is no software to install, no hardware to buy, no maintenance or support costs and no need to hire consultants or tech specialists to run the system. We deploy and manage the infrastructure. Customers only need a web browser for access. Subscriptions include system maintenance, automatic upgrades, enhancements and application of service packs, Level 1– 3 help desk support, professional services and best practices built directly into the application.
	Fieldglass	Fieldglass is offered in a SaaS model. We follow the public cloud model identified by NIST. All customers access the same Fieldglass application version in a multi-tenancy database. The system is hosted in a secure hosting facility. Fieldglass manages everything from the cage in including all servers, devices, wiring, software, and configuration. Fieldglass uses the Cloud Security Alliance framework to measure itself against the recommended controls, in addition to ISO 27001 and SOC 2 controls in the Trust Services Principles of Security, Availability, Processing Integrity, Confidentiality, and Privacy.
	Hanna	HEC is a private cloud offering from SAP that provides fully 'managed' Infrastructure as a Service (IaaS) following NIST Cloud Computing Reference Architetcure.
	Hybris	The SAP Hybris Commerce, Cloud Edition is a Private Cloud Managed Service that offers a best practice multichannel commerce platform built on hybris accelerator technology, running in SAP Hybris own datacenters with a pay as you grow subscription model.
	SuccessFactors	Our IT architecture is aligned with ISO 27002. We are Safe Harbor certified and in alignment with BS10012 and ISO 20000 for Service Delivery. We demonstrate an on-going commitment to protecting the confidentiality, integrity and availability ("CIA") of data from internal and external threats, making us a reliable and secure system provider. Our secure multi-tenant Software as a Service (SaaS) platform is designed for availability, security, scalability, and performance. Industry best practices and standards are adopted and incorporated. Our Network also complies with the Authority to Operate as a Moderate Risk Federal Information System by the Office of Personnel Management and Department of Homeland Security; NIST SP800-53 Security Controls; EU Privacy Directive 95/46/EC for EU and non-EU customer data; Payment Card Industry (PCI) Data Security Standard (DSS) v 2.0; Safe Harbor. We provide privacy compliant data center facilities not only in the United States but also as a Member State of the European Union (EU) or a state of the European Economic Area (EEA). Currently, such data centers are certified for ISO27001, ISO9001 and PCI-DSS compliance. Our security services provide complete and thorough monitoring of all traffic on the network on a 24x7x365 basis, and include security technology, alert services and incident management support. We are audited twice annually to SSAE16 (US) or ISAE 3402 (international) accounting standards.

<table>
<tr><td>VMware</td><td>See section 8.1.1 for additional details.

Due to FOIA restrictions, we cannot share specific infrastructure details or architecture diagrams at this time. We can provide sample architecture diagrams under NDA to participating entities during task order negotiations as required.

VMWare AirWatch
AirWatch partners with co-located and cloud-hosted Tier III data centers to support of SaaS offering.
Due to FOIA restrictions, we cannot share specific infrastructure details or architecture diagrams at this time. We can provide sample deployments as under NDA to participating entities during task order negotiations as required.</td></tr>
<tr><td>FireEye</td><td>Each of the FireEye cloud solutions are classified as Software as a Service (SaaS) and leverage a private cloud deployment model. With respect to the NIST Cloud Computing Reference Architecture, the following actors are integral to the overall design of the solutions:

<table><tr><th>Actor</th><th>Definition</th></tr><tr><td>Cloud Consumer</td><td>Customer organizations who have purchased FireEye cloud solutions</td></tr><tr><td>Cloud Provider</td><td>FireEye</td></tr><tr><td>Cloud Carrier</td><td>Internet service providers and organizations who have been contracted to host FireEye cloud solutions.</td></tr></table>
A Cloud Broker is not leveraged in the FireEye cloud offerings. FireEye has contracted independent service auditors for evaluating controls relevant to security and confidentiality, however this occurs on an as-needed basis.</td></tr>
<tr><td>VirtueStream</td><td>Virtustream solution is fully NIST compliant for Essential Characteristics, as the Infrastructure as a Service (IaaS) Service Model, with all deployment options – Private Cloud, Community Cloud, Public and Hybrid Cloud. To that extent:
1.Virtustream IaaS provides a self-service portal called xStream, where users can access, view, edit, provision, and modify compute, storage, network and application services based on granular Role Based Access Control, which can be integrated with Active Directory or LDAP.
2.Virtustream IaaS provides Broad Network Access, where it can provide landing zone for any private network (Point-to-Point, Virtual Private Label Switching, Multi-Protocol Label Switching, or Direct Connect), public network (Internet, Trusted Internet Connectivity as landing zone, IPSEC VPN and SSL VPN) and also extranet connectivity (shared network, i.e, Cloud Connect, Cloud Exchange, NetBond, etc.) which is growing rapidly as option for connecting cloud resources.
3.Key to Virtustream solution is its proprietary and patented solution of uVM technology, which is effectively a granular solution for resource pooling, providing application performance, pay for consumption only and segregate resources for security and compliance, but aggregate for cost efficiency. In addition, Virtustream is currently one of very few Cloud Service Provider with capabilities for Geo-Fencing and Geo-Tagging of the virtual machines to a specific data center, and getting down to cluster and host machine level.
4.Virtustream's self-service portal, ticketing system and also the Technical Account Manager, who is the single point of contact for State of Utah allows for provisioning and deprovisioning of resources and services. In addition, Virtustream is uniquely positioned to provide application level provisioning as part of its standard automation and orchestration tool.
5.The fundamental of Virtustream solution is based on uVM Technology, which is very unique in terms of billing. Virtustream solution takes average consumption of compute resources, and State of Utah would only pay for actual resources based on a monthly average. This is in comparison</td></tr>
</table>

	with traditional cloud solution, where the billing is based on allocation of resources in T-Shirt size (Micro, S, M, L, XL, XXL), and if the server is up, consumer of the cloud pays, but when it is down, they don't. In case of the Virtustream solution, customer only pays based on the average of vCPU, RAM, IOPS and Network I/O; the key is average, not aggregate and based on consumption not allocation. In addition, all storage, security, application management services are offered as a monthly fee, based on the VMs; also, Virtustream can provide consultative and project support based on time and materials. 6.The deployment of Virtustream cloud can be on-premise or private based on purchase of its Cloud Management Platform, Community Cloud based on its IaaS, Public Cloud based on its IaaS and Hybrid cloud based on its ability to provide software and IaaS combined.

CONFIDENTIAL, PROTECTED, OR PROPRIETARY INFORMATION

All confidential, protected or proprietary Information must be included in this section of proposal response. Do not incorporate protected information throughout the Proposal. Rather, provide a reference in the proposal response directing Lead State to the specific area of this protected Information section.

If there is no protected information, write "None" in this section.

Failure to comply with this Section and Section 3.13 of the RFP releases the Lead State, NASPO ValuePoint, and Participating Entities from any obligation or liability arising from the inadvertent release of Offeror information.

Carahsoft Technology Corporation ("Carahsoft") respectfully requests that section 6.3 Financials of Carahsoft's response be treated as a trade secret under the Utah Uniform Trade Secrets Act, Utah Code § 13-24-2 and submits this justification in accordance with Utah Code 63-G-2-305 demonstrating that its audited financials should be treated as a trade secret under Utah's Uniform Trade Secrets Act. Additionally, Carahsoft is claiming the same confidentiality of the Consensus Assessments Initiative Questionnaire provided in relation to DocuSign and FireEye offerings, as well as the Cloud Controls Matrix for DocuSign.

Carahsoft has marked this attachment as "confidential" in accordance with the RFP instructions by including all confidential data into the Confidential, Protected, or Proprietary Information in our response.

Carahsoft is claiming confidentiality for these specific Consensus Assessments Initiative Questionnaires and Cloud Controls Matrix because releasing these documents would cause irreparable damage and would create the potential for cyber security breach. While portions of this information are in the public domain, the information contained within is not represented or assimilated this way in any other format.

Carahsoft's Audited Financial Data satisfies the three-part test of the Utah Uniform Trade Secrets Act as set forth below and should therefore be treated as confidential and by the Utah Division of Purchasing and should not subject to public disclosure as provided in Utah Code § 63G-2-305.

1. *Carahsoft's Audited Financial Data is a "compilation" within the meaning of Utah Code § 13-24-2(4).*
Carahsoft's Audited Financial Data is a compilation of all of the Company's financial data and results for 2014. While some aspects of this information may be available, the compilation of this information is unique and the result of sustained and distinct effort by the Company's financial staff and its accountants.

2. *As required by Utah Code § 13-24-2(4)(a) Carahsoft derives independent economic value, actual or potential, from its Audited Financial Data not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain economic value from its disclosure or use.*
Carahsoft is a leading distributor of technology products and services to public sector customers such as the State of Utah, and throughout the United States and Canada. Sales in this market are intensely and deliberately competitive, with each sale subject to a structured bidding process in which low price is frequently the deciding factor on which contract award is based. Competition in this market is fierce, with competitors regularly competing with one another for federal, state, county and city business.

Carahsoft's competitors closely monitor this market, and regularly attempt to gain financial and other information about Carahsoft and other competing vendors. Allowing Carahsoft's competitors access to this compilation of financial data by releasing it in response to a public records request will damage Carahsoft's competitive position because it will provide competitors insight into Carahsoft's financial structure, including compensation, overhead costs, rental rates, profit margins and the like. Indeed, allowing insight into compensation may violate individual employees' expectations of privacy. Once competitors have this access and insight, they can use it to undercut Carahsoft in the marketplace, damaging Carahsoft's business with its customers and its suppliers, and inflicting economic hardship upon the Company.

For these reasons, Carahsoft does not itself disclose its Audited Financial Data except when required by law to do so. For example, Carahsoft discloses its financial information in filing its periodic tax returns—disclosure of which is prohibited by applicable state and federal law. In this regard, we note that Carahsoft is a privately owned company. Therefore, Carahsoft does not publicly report its financial results to the United States Securities and Exchange Commission.

3. Carahsoft uses reasonable efforts to maintain the secrecy of its Audited Financial Data.

The third part of the Utah Uniform Trade Secret Act's test for trade secret treatment is whether the information "…is the subject of efforts that are reasonable under the circumstances to maintain its secrecy." Utah Code § 13-24-2(4)(b).

Carahsoft satisfies this test because it takes reasonable steps to maintain the secrecy of its financial information. As noted above, Carahsoft is a privately held company and therefore does not report its financial results publically to either its shareholders or the Securities and Exchange Commission. This is in contrast to public companies such as IBM or AT&T who report financial results quarterly as a matter of public record.

Even within Carahsoft's business operations itself, Carahsoft's management strictly limits disclosure of this information to a few carefully selected employees, and then only on a "need to know" basis in connection with their work assignments. Indeed, each Carahsoft employee signs a Confidentiality Agreement agreeing not to disclose this information.

Conclusion

Based on the forgoing, Carahsoft believes it has demonstrated that its Audited Financial Data, Consensus Assessments Initiative Questionnaires, and Cloud Controls Matrix are trade secret as defined in Utah Code § 23-24-2 . It is a compilation the content of which affords Carahsoft a competitive advantage. Carahsoft's competition cannot readily discern it by proper means. Moreover, Carahsoft itself treats this information as a trade secret even within its own business operations.

Should there be a public records request for this information, Carahsoft respectfully requests that the State afford Carahsoft's requested confidential information and documents trade secret protection in accordance with Utah law and deny the request. In the event that the State determines to release the requested confidential data, Carahsoft requests that you notify us promptly so that we may provide further justification for trade secret protection of this confidential data.

CLAIM OF BUSINESS CONFIDENTIALITY

Pursuant to Utah Code Annotated, Subsections 63G-2-305(1) and (2), and in accordance with Section 63G-2-309, Carahsoft Technology Corporation (company name) asserts a claim of business confidentiality to protect the following information submitted as part of this solicitation. Pricing/Cost Proposals may not be classified as confidential or protected and will be considered public information. **An entire proposal cannot be identified as "PROTECTED", "CONFIDENTIAL" or "PROPRIETARY".**

☒ Non-public financial statements
☐ Specific employee name and contact information
☐ Specific customer information, client lists, or subscription lists
☒ Other (specify): Consensus Assessments Initiative Questionnaires and Cloud Controls Matrix

This claim is asserted because this information requires protection as it includes:

☒ trade secrets as defined in Utah Code Annotated Section 13-24-2 ("Trade secret" means information, including a formula, pattern, compilation, program, device, method, technique, or process, that: (a) derives independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain economic value from its disclosure or use; and (b) is the subject of efforts that are reasonable under the circumstances to maintain its secrecy).

☒ commercial information or non-individual financial information obtained from a person if: (a) disclosure of the information could reasonably be expected to result in unfair competitive injury to the person submitting the information or would impair the ability of the governmental entity to obtain necessary information in the future; [and] (b) the person submitting the information has a greater interest in prohibiting access than the public in obtaining access.

This statement of reasons supporting the claim of business confidentiality applies to the following information in this proposal:

Page	Paragraph	Reason
187-204, Technical Response Template	All	See Confidential, Trade Secret, & Proprietary Information Explanation Page 176-177 of Carahsoft's Technical Response
Exhibit 1-DocuSign Excel	N/A	See Confidential, Trade Secret, & Proprietary Information Explanation Page 176-177 of Carahsoft's Technical Response
Exhibit 1-FireEye Excel	N/A	See Confidential, Trade Secret, & Proprietary Information Explanation Page 176-177 of Carahsoft's Technical Response
Exhibit 2-DocuSign Excel	N/A	See Confidential, Trade Secret, & Proprietary Information Explanation Page 176-177 of Carahsoft's Technical Response

Please use additional sheets if needed.

You will be notified if a record claimed to be protected herein under Utah Code Annotated § 63G-2-305(1) or (2) is classified public or if the governmental entity determines that the record

should be released after weighing interests under Utah Code Annotated § 63G-2-201(5)(b) or Utah Code Annotated § 63G-2-401(6). See Utah Code Annotated § 63G-2-309.

Signed: Robert R. Moore, Vice President
On behalf of (company): Carahsoft Technology Corporation
Date: March 10, 2016

(Revision 6/4/2015)

EXCEPTIONS AND/OR ADDITIONS TO THE STANDARD TERMS AND CONDITIONS

Proposed exceptions and/or additions to the Master Agreement Terms and Conditions, including the exhibits, must be submitted in this section. Offeror must provide all proposed exceptions and/or additions, including an Offeror's terms and conditions, license agreements, or service level agreements in Microsoft Word format for redline editing.

Offeror must also provide the name, contact information, and access to the person(s) that will be directly involved in terms and conditions negotiations. If there are no exceptions or additions to the Master Agreement Terms and Conditions, write "None" in this section.

The point of contact who will be directly involved in terms and conditions negotiations is Jack Dixon – Contract Specialist. He can be reached at – 703.230.7545 / Jack.Dixon@Carahsoft.com.

32. Transition Assistance:

a. The Contractor shall reasonably cooperate with other parties in connection with all Services to be delivered under this Master Agreement, including without limitation any successor service provider to whom a Purchasing Entity's Data is transferred in connection with the termination or expiration of this Master Agreement. The Contractor shall assist a Purchasing Entity in exporting and extracting a Purchasing Entity's Data, in a format usable without the use of the Services and as agreed by a Purchasing Entity, at no additional cost to the Purchasing Entity. Any transition services requested by a Purchasing Entity involving additional knowledge transfer and support may be subject to a separate transition Statement of Work.

b. A Purchasing Entity and the Contractor shall, when reasonable, create a Transition Plan Document identifying the transition services to be provided and including a Statement of Work if applicable.

c. The Contractor must maintain the confidentiality and security of a Purchasing Entity's Data during the transition services and thereafter as required by the Purchasing Entity.

Carahsoft takes exception to section 32 – Transition Assistance and request it includes the following.

9.4 RETURN OF CUSTOMER DATA. Carahsoft shall provide Customer Data in its standard database export format, excluding the any Core Technology, to Customer upon Customer's written request and at no additional cost to Customer, provided that Carahsoft receives such request from Customer within forty-five (45) days following the expiration or termination of a provided service. If Carahsoft has not received a request within the foregoing time frame, Carahsoft shall have no obligation to maintain or provide any Customer Data and shall thereafter, unless legally prohibited, have the right to delete all Customer Data in its systems or otherwise in its possession or under its control and delete Customer's instances of any provided service.

Carahsoft takes exception to Section 13 – Indemnification. Carahsoft requests that Indemnification from the state to the customer under a certain set of circumstances.

IN SUMMARY

Carahsoft Technology Corporation appreciates the opportunity to offer this solution for the State of Utah's initiative.

The Carahsoft Team has proposed a superior and cost-effective solution that fully complies with the State of Utah's requirements set forth in Solicitation # CH16012. We understand the importance of your project goals, and we are confident you will benefit from this solution and our expertise.

Carahsoft looks forward to the opportunity to speak with you regarding the details of this proposal, as well as the opportunity to work with the State of Utah on this project.

1 Introduction

This document provides a general overview of the SAP Fieldglass security and hosting infrastructure. It is effective as of the revision date indicated below. However, as security needs continue to evolve, the specific information relating to the topics covered may be subject to change over time.

Security

The SAP Fieldglass solution was architected to be the most reliable and secure Vendor Management System available today.

SAP Fieldglass is proud to offer our customers, subject to review and acceptance by our audit partner, the following assurances:

- ISO 27001 certified since 2011
- SSAE 16/ISAE 3402 Type 2 SOC1 audits conducted since 2005
- SSAE 16 Type 2 SOC2 audits in the Trust Services Principles for:
- Security – the system is protected, both logically and physically, against unauthorized access
- Availability – the system is available for operation and use as committed or agreed to
- Processing Integrity – system processing is complete, accurate, timely, and authorized
- Confidentiality – information that is designated as “confidential” is protected as committed or agreed
- SSAE 16 Type 1 SOC2 audit in the Trust Services Principle for Privacy (Type 2 audit scheduled for Q3 2015)
- Annual third party pen testing of our network and application

This document provides an understanding of how SAP Fieldglass handles the following areas across its global operations:

- Scope of Operations
- Security Management
- Application Security
- Physical Security
- Network Security
- Data Management
- Release Management
- Disaster Recovery
- Business Continuity

1.1 Scope of Operations

SAP Fieldglass has global operations located in the following regions:

United States

Business office

SAP Fieldglass
111 N. Canal Street
Suite 600
Chicago, IL 60606

Active and passive datacenters

Century Link 2425 Busse Road Elk Grove Village, IL 60007	Equinix / ServerCentral 1735 Lundy Avenue San Jose, CA 95131

APAC

Business office

SAP Fieldglass
Suite 5, 48 Lovett Street
Manly Vale
NSW 2094
Australia

European Union

Business office

SAP Fieldglass
One Valentine Place
London
SE1 8QH
United Kingdom

Active and passive datacenters

ServerCentral c/o Equinix Laarderhoogtweg 57 1101EB Amsterdam, Netherlands	ServerCentral c/o Telehouse North 14 Coriander Avenue London E14 2AA United Kingdom

The terms "active" and "passive" designate which of the production hosting environments is being used as the primary (active) and which is being used as the backup (passive or disaster recovery). These designations are not static and SAP Fieldglass will occasionally fail over the active hosting environment to the passive hosting environment. This practice ensures that SAP Fieldglass is capable and ready in the unlikely event a disaster occurs and we need to fail over to the passive site.

1.2 Security Management

SAP Fieldglass' Security Team is responsible for implementing and maintaining the security controls to ensure that SAP Fieldglass information systems are secure. SAP Fieldglass has based its security program on industry standards and best practices. For our established datacenters, these practices are audited annually by a third party with results available to customers in October.

1.2.1 Security Policies, Standards and Procedures

SAP Fieldglass maintains a comprehensive set of policies that define the information security goals and objectives. Each policy may be supported by a standard that dictates the required security requirements to ensure the uniform application of technologies and processes.

1.2.2 Risk Management

SAP Fieldglass manages risk by the identification of threats and vulnerabilities to its information systems and through a control selection process. Controls selected fall into the following categories:

- Policy
- Physical and Environmental Security
- Organizational Security
- Communications and Operations Management
- Acceptable Use
- Access Control
- Third Party Access
- Information Systems Acquisition, Development and Maintenance
- Asset Management
- Incident Management
- Personnel Security

- Compliance

As an element of our ISO 27001 compliance, SAP Fieldglass conducts an enterprise-wide risk assessment. Key individuals from every department are interviewed so that risks can be identified. Risks are then evaluated and entered into a risk treatment plan. This plan is managed by the Security team with oversight by the Security Steering Committee. The Security Steering Committee meets on a quarterly basis.

1.2.3 Assessments

SAP Fieldglass periodically assesses the security controls to review the effectiveness of each control in addressing risk. If SAP Fieldglass' assessment suggests a need for changes, the baseline standard may be changed to include additional controls.

Internal Audit

SAP Fieldglass conducts quarterly internal audits for critical controls. Evidence is reviewed by our Sr. Compliance Analyst and a formal assessment report is prepared. Failed controls are made visible by this process so they can be remediated. Executive sign off on the internal audit reports is required.

External Audit

SAP Fieldglass also contracts with third parties on an annual basis to perform formal security audits on the following:

- ISO 27001 surveillance audit
- SSAE 16/ISAE 3402 Type 2 SOC1 audit
- SSAE 16 Type 2 SOC2 audits in the Trust Services Principles for:
- Security
- Availability
- Processing Integrity
- Confidentiality
- SSAE 16 Type 1 SOC2 audit in the Trust Services Principle for Privacy (Type 2 audit scheduled for Q3 2015)
- Network penetration test
- Application penetration test

These assessments allow SAP Fieldglass to maintain an appropriate security posture in order to protect the company and its systems, as well as its customers' data.

We are currently working with our third party audit partner in bringing our EU datacenters into scope for our 2015 ISO 27001 audit and SSAE 16/ISAE 3402 Type 2 SOC1 and SOC2 examinations.

1.3 Application Security

Our application provides application-level security through a combination of encryption, page-level access checking, document envelopes, and activity logging. Application security is handled through a combination of programming checks, application server configuration, and database server configuration. SAP Fieldglass uses 128-bit SSL (HTTPS) encryption for all data transmissions over the public Internet, including data shared between the product and end users and data shared between the product and back-end systems.

Passwords are encrypted using a one-way hash with salt based on the SHA-256 encryption algorithm. The hash value is saved within the database; not the password.

The base SAP Fieldglass application does not require data that would require breach notifications if compromised. If the customer chooses to store sensitive data, custom fields may be defined by the customer that can be encrypted with AES-256. These fields can also be optionally masked from view while entering and viewing the fields in the application.

1.3.1 Encryption

By default, the application utilizes SSL encryption for all data transmissions over the public Internet.

In addition, the SAP Fieldglass hosted application encrypts sensitive data stored on the database so that only properly authorized users (or systems) will be able to decrypt the data. Because no state information is stored on the application server, in the unlikely event of unauthorized access to the database, the sensitive data is still encrypted.

1.3.2 Database Segmentation

SAP Fieldglass is a SaaS and utilizes a multi-tenancy database. Each customer is assigned a unique company code. Every record written to the database is keyed using this company code. After a user authenticates into the system, a session ID is generated which holds vital information about the user including their company code, user role, and data visibility restrictions. The session ID is cached server side to eliminate any ability for a malicious user to modify its contents.

1.3.3 Document Envelopes

Throughout the system, there are a number of events that generate “documents.” These are digital representations of their real-world counterparts. For example, job postings, work orders, time sheets, and invoices are all represented in the system as documents.

Each document in the system has an accompanying digital envelope that stores all access to that document. For example, when a job posting is created, an envelope entry is added for creation that records the date, time, and person. When it is submitted, another entry is added recording the date, time, and person.

1.3.4 Page-Level Access Checking

The application has been designed so that every single web page checks for access rights before displaying itself. Additionally, each page performs a second check to ensure that an authorized user will only have access to those data elements and functionality that has been expressly authorized by the system administrator.

The post-authentication session ID that is generated and cached server-side is validated prior to showing each page. SAP Fieldglass stores a non-persistent cookie in the browser and compares back to the server-side session ID. If they no longer match due to malicious activity, the user is redirected to a "You are not authorized" page.

Authorization is handled through the use of user-defined User Roles. User Roles provide the customer, through its designated administrators, the flexibility to specify the type of access given to a member of that user group based on the definitions configured by the administrator. The User Role controls what areas of the application are accessible to the user group and what actions they can perform in those areas (e.g. job posting create, time sheet approve, etc.).

1.3.5 URL Encryption

SAP Fieldglass does not pass any sensitive data in its URL query strings. Parameters that are used to identify users in the system are protected by anonymizing the field variable and then encrypting the associated value using AES-256.

1.3.6 Activity Logging

As users access the system, all of their business significant activities are tracked and logged including failed login attempts, successful logins, approvals, submissions, etc. This activity log provides a full audit trail of what actions a particular user performed within the system and the timestamp as well.

1.3.7 Application Testing

Upon request, SAP Fieldglass will provide customers with a sandbox environment where system testing can occur outside of production. This is useful when testing out configuration changes, new integrations, and/or new reports prior to making the changes live in the customer's production instance.

Upon request, customer's data can be anonymized. SAP Fieldglass has the ability to scrub the data such that it is unrecognizable. Data element replacement is accomplished by an automated SAP Fieldglass utility that replaces the customer's company code, user names, business units, cost centers, and sites from a store of random variables. Any or all of these elements may be chosen for replacement.

Sensitive data that has been designated by the customer to be stored in the SAP Fieldglass application is encrypted with AES-256. The encryption and decryption keys are different between production and test environments and are different between the US and EU datacenters. These keys are stored in the corporate password vault and are accessible only by the Database Administrators and the Lead Architect.

Once customer testing has been completed, the Environment Management team (a team within Professional Services) destroys the environment. The database is purged and the VM is returned into circulation.

1.3.8 Password Management

The SAP Fieldglass application provides each customer the ability to define a Password Policy. This policy contains custom-defined password rules that each user in the customer's instance must adhere to. The policy provides 20 different password rules such as minimum length, user lockout preference (hard lockout vs. time-based reset), days to expiration, minimum password age, etc. Also included is the ability to specify a regex pattern(s). This pattern dictates the password value syntax that each user must follow.

When customer chooses to use a test instance ("sandbox"), all user password values remain unchanged from their production values. All passwords and visibility restrictions remain unchanged to ensure that users in the test instance are not able to gain access to data they're not privileged to see in production. Also, the password policy that is enforced in in the production instance is also enforced in the test instance.

New user invitations are sent via email. Recipients enter their 1-time passcode and are then forced to specify a new password that complies with the customer's password policy rules. User invitations expire after 21-days.

1.3.9 Email Approvals

In order to better support our growing mobile workforce, SAP Fieldglass offers customers a supplementary method for approving their work items. Via email, approvers are able to submit their approval or rejection response by simply replying to the approval work item that was sent to them. This method has been proven to reduce approval cycle times by several days since the approver does not have to be in the office. This feature has been architected with the following security controls:

- Only the original recipient can approve/reject the work item. If the recipient forwards the email to another person, the system will not accept the response.
- Email spoofing is not a risk. A unique ID is generated for each approval request. This unique ID along with the person ID of the intended recipient is stored encrypted with AES-256. So even if the email address sending the approval/rejection response is legitimate but the sender is not, the system will detect this anomaly and not accept the response.
- A SAP Fieldglass approver can identify another user as their Proxy and/or Delegate when they will be out of the office and unable to handle the approval requests. By design, neither of these roles receive approval work items via email. So only the original recipient can ever submit an approval/rejection response via email.
- If the customer created custom fields where sensitive information is stored encrypted, those fields and associated values are not allowed to be selected for inclusion in these email approval notifications.
- The system audit trail is updated with all user actions including approval/rejection activities via email. This audit trail is accessible by privileged customer users and can be used to monitor user activity.

In order to compromise the security of our email approval feature, a malicious user would need to hack into another user's email account, locate the SAP Fieldglass approval request email, and then submit the approval/rejection response.

1.3.10 Application Penetration Testing

SAP Fieldglass uses a combination of manual and automated testing to ensure the application is secure. Various automated commercial tools are used prior to each major release of the SAP Fieldglass system (three times per year).

On an annual basis, SAP Fieldglass engages a 3rd party security company to conduct pen testing services against our application. This is in addition to SAP Fieldglass' own internal penetration testing efforts.

SAP Fieldglass has several test environments available for customers to conduct their own application penetration testing if requested.

1.4 Physical Security

The SAP Fieldglass data center provides physical security through its secure hosted facilities. The application is hosted within a secure unmarked cage. SAP Fieldglass manages everything from the cage in. Meaning, SAP Fieldglass manages all servers, devices, and software in the cage. The hosting provider provides physical security, internet connectivity, and HVAC.

1.4.1 Internet Data Center Construction

Exterior perimeter walls, doors and windows are constructed of materials that afford UL Standard #752, Level V Ballistic Protection.

1.4.2 Access Control

The data center uses an Access Control System (ACS), which supports a networked card reader and alarm system. The ACS uses proximity card readers to control access into perimeter doors, shipping/receiving areas, storerooms and other areas. Biometric hand scanners are installed to control access into the network control center, telecommunications node room and customer vaults. Additional access control measures include:

- Designated with signage as controlled access areas
- Areas within the internet data center are designated as restricted
- Access into the internet data center and restricted areas is controlled by biometric hand scanners, and is limited to authorized personnel
- Card access badges or contractor/visitor badges are required to gain entry
- All employees, customers, vendors, contractors and visitors must be sponsored by a facilities pre-approved sponsor to gain access
- Visitors are escorted at all times within the controlled access area perimeter

1.4.3 Man Traps

The system includes the following key features:

- Anti-passback
- Integrated metal & explosive detection
- Video monitored / recorded
- Two-way intercom audio to Security Control Room
- Level V ballistic protection
- Weight sensors limit entry to one person at a time (no tailgating)
- ADA compliant
- Intrusion / tampering alarm monitoring by Security Control Room
- Integrated card access & biometric access control systems limits access to persons verified by hand geometry
- All systems are supported by redundant power management system (generators).

1.4.4 Key Control

Facilities security staff is the custodian of all security and cage keys. These keys are maintained and tracked through a comprehensive issue, retrieval, audit, and storage process. The listing of all customers, customer employees and cage assignments is updated in real-time maintained to ensure that cage access is restricted to authorized personnel.

1.4.5 Alarm System

The ACS is used to monitor and log security alarms. The ACS monitors all:

- Perimeter doors
- Restricted Area doors
- Shipping / receiving doors

1.4.6 Closed Circuit Television System

Facilities employ an extensive closed circuit television system to monitor the exterior and interior of the internet data center. Exterior cameras provide views of critical support equipment and perimeter doors. Interior cameras are positioned to monitor all internet data center aisle ways, requests for entry and entry into the internet data center, shipping / receiving areas, high-security vaults and the internet data center lobby. All cameras are recorded on digital video recorders 24 x 7.

1.4.7 Background Checks

SAP Fieldglass requires background checks be performed at the time of hiring on all personnel. These background checks are performed by a nationally recognized third party company. SAP Fieldglass initiates the background check request for all potential employees and independent consultants. If the independent contractor is placed through

an agency, the agency will conduct a background check and confirm with Human Resources whether the results were completed with/without discrepancies. If the independent contractor is placed directly, SAP Fieldglass will conduct the background check.

Background checks include the following:

- Social Security Trace
- Statewide & National Criminal Report (7 years)
- Sex Offender Registry & Terrorist Watch
- Compliance Authorities Database Checks – Global (OFAC level verification)
- Education verification
- Employment verification (7 years)
- Global Sanctions & Prohibited Parties
- Credit (only for specific finance roles)

1.4.8 Hosting Facility Security Personnel

The security office duties include:

- Response to calls for assistance
- Security facility inspections
- Fire and safety patrols
- Shipping / receiving security
- Physical security audits and assessments

1.5 Network Security

The SAP Fieldglass network infrastructure includes redundant components, firewalls, and 24/7 monitoring.

1.5.1 Redundant Components

Most network components are internally redundant. For example, routers have redundant power supplies; servers have redundant drives, power supplies, and NIC cards. Additionally, all network components are redundant to provide redundancy and security in the event of a component failure.

1.5.2 Private Virtual LANs

The application network architecture has been designed with multiple private virtual LANs using redundant Cisco routers. Every major network layer is placed on its own virtual LAN with rules about which protocols and ports are accessible.

1.5.3 Firewall

SAP Fieldglass has implemented dual-vendor redundant firewalls between the public internet and the SAP Fieldglass private network, as well as between each virtual LAN. This

firewall has been configured to enforce protocols and ports that are able to cross LANs with a default deny stance.

1.5.4 24/7 Monitoring

SAP Fieldglass provides 24/7 monitoring of suspicious activity. Any failure is promptly reported and, after an initial analysis, escalated to the next appropriate level.

1.5.5 Enterprise SIEM

Our security incident and event management (SIEM) tool has been configured to collect logs and events from all systems and devices within the SAP Fieldglass network. Forwarders are used to collect, filter, normalize and forward relevant data to an Indexer. Each installation listens for Syslog data and actively pulls WMI information from its respective environment. Security related issues are monitored and alerted on where required.

1.5.6 Network Pen Testing

On an annual basis, SAP Fieldglass engages a 3rd party security company to conduct pen testing services on our network.

1.6 Data Management

1.6.1 Data Backups and Replication

SAP Fieldglass has a highly available backup solution that guarantees data can be restored as expediently as possible. Our solution performs a continuous replication of data to our passive production hosting facility. SAP Fieldglass takes incremental SQL backups every 15 minutes and full backups on a nightly basis. Backups are transferred to the passive production hosting environment over a secure channel. SAP Fieldglass' solution offers continuous protection of customer data geographically without imposing performance degradation or scaling limitations. Data is encrypted both at rest and in transit with AES-256.

Data backups and replication are performed between the active and passive production environments. The US-based active production environment replicates data to the US-based passive environment. Likewise, The EU-based active production environment replicates data to the EU-based passive environment.

Also refer to section 3.1 Disaster Recovery.

1.6.2 Data Archiving

Data is archived throughout the year. Eligible transactional and reporting data are moved from the active database to an archive database after 24 months. Archived data can be accessed only by customer users with a user role of Administrator. Archive data is accessed using the same login screen and user interface that is used to access current data. Reports can also be generated using archive data from the standard interface.

The criteria for archiving data are as follows:

- Data remains in the active database for 24 months, at which point eligible data is moved to the archive database.
- Data remains in the active report database for 24 months, at which point eligible data is moved to the archive report database.
- Archiving begins with the worker. When a worker's end date is more than 24 months old, the worker and all associated data including the worker's work orders, job seeker record, job posting, time sheets, expense sheets, and payment-related items such as invoices are archived.
- The archive process is run as a batch job on a weekly basis to move data from the active databases to the archive databases.
- Data cannot be moved back from the archive database to the active database.

SAP Fieldglass does not delete data from its archive databases and has data older than 7 years. In the future, if SAP Fieldglass decides to delete archived data, we will ensure that a minimum 7 years of data is retained.

1.6.3 Data Deletion

Data deletion occurs only when required by a customer. SAP Fieldglass' data deletion capabilities allow customers to remain compliant with data privacy, data protection, and other related data directives.

- Deletion logic is based solely on a customer's business requirements. A custom script is developed by SAP Fieldglass.
- Results are verified in a non-production environment by both SAP Fieldglass and the customer prior to executing in production.
- A "Preservation" flag is available for use. Customers can set this flag on any data to override logic that would otherwise delete the data. This is useful during times when litigation or eDiscovery efforts are in progress and certain data must be preserved.
- Script execution frequency is determined by the customer.

SAP Fieldglass is contractually obligated to retain at least 7 years of data for customers.

1.6.4 Data Usage

Customer data is required in non-production environments for various reasons:

- Second level help desk support for customer defect investigation and resolution.
- Supporting customer requests for updating data, whether it be for desired changes or corrections for data modified by the customer in error.
- Customer sandboxes – these are non-production environments configured only with the customer's data (customer's data is "sliced" out from the multi-tenancy production database). These sandboxes are required for many

reasons, including testing of new or changed integration connectors, reports, and/or application configuration changes such as revised approval workflows. New application features can also be turned on and reviewed in the sandbox before turning on in the live production instance.

- Any data deletion scripts that are developed between the customer and SAP Fieldglass must be tested in a non-production environment prior to executing in production.
- Customer Preview testing – this is an opportunity for customers to gain early access to a future upgrade of the SAP Fieldglass application. This allows customers to gain confidence that the system is working as expected prior to the release date. Customer participation is optional.
- SAP Fieldglass regression testing – the SAP Fieldglass application is offered in a Software as a Service (SaaS) model. One of the services we provide is testing of the application prior to each production release. To ensure a customer's configuration, integrations, and reports are working as expected with the new codebase, SAP Fieldglass Quality Assurance uses a scrubbed production copy of the database in our regression testing. Regression testing is where we execute test cases against the current production codebase and the future codebase using a common data input. Output files from each test are compared to ensure any changes are expected.

Customers may opt out of this process. However, all responsibility in ensuring the customer's SAP Fieldglass instance is properly working and maintained is transferred to the customer.

To date, all SAP Fieldglass customers have declined to assume this responsibility.

1.6.5 Data Scrubbing

In order to properly service our customers, access to production data is required. All customer data is classified as Confidential. SAP Fieldglass takes every possible precaution to ensure data is protected from unauthorized access and misuse.

Data is protected in the following ways:

- First names and last names of buyers, suppliers, and workers are anonymized by replacing with a test value.
- Email addresses of buyers, suppliers, and workers are changed to a single false email address such as qatest8@SAP Fieldglass.com which is configured to automatically purge all email sent to it.
- Buyer and supplier company names are anonymized.
- Any custom fields created by the customer remain unchanged. Custom fields that contain sensitive data are encrypted with AES-256 and optionally display masked when entering and displaying values in the user interface. There is no way to decrypt these values since the decryption keys between production and test are different. Keys are stored in the corporate password vault and

access is limited to only select senior members of the technology team. This access list is reviewed quarterly by the internal audit team and by a third party in our annual SSAE 16 / ISAE 3402 Type 2 SOC1 and SOC2 audits.

The data scrubbing process is:

- A backup of the data is taken at the location where the source database resides
- Data is filtered where only the most recent 3 months of data remain
- Data is scrubbed as described above
- Data is then securely transferred from the production system to the test system

Once scrubbed, all personally identifiable information (PII) has been removed and any sensitive custom field data cannot be read.

Our test systems reside in secure third party data centers with the same controls as our production data centers.

1.6.6 Data Access

Direct access to production data is required in specific cases. Access is provided based on business need and not by role alone. Access reviews are conducted monthly and reviews are subject to recurring quarterly reviews by the SAP Fieldglass internal audit team. Executive review and sign off is performed for all quarterly reviews.

Access is required for the following puposes:

- Professional Services Data Services team – this team receives a customer's master and/or worker data and executes data uploads into test and/or production environments. Once the data are successfully uploaded and customer has signed off on the accuracy and completeness of the upload, the data are destroyed.
- First level help desk – when customers call our help desk, the caller may require the help desk agent to to view data or log in as the caller in order to help them with their problem. This is only performed when authorized by the caller.

SAP Fieldglass has help desk locations in the following regions:

United States

SAP Fieldglass
111 N. Canal Street
Suite 600
Chicago, IL 60606

Europe and APAC

Merlin-IT Hungary Information Technology Services Kft. Vagohid u. 2., 4034 Debrecen, Hungary	Merlin Information Systems Philippines Inc. 6th Floor C ommerce and Industry Plaza Building, McKinley Hill Cyberpark, Taguig City, Philippines

The SAP Fieldglass Security team conducted an onsite security audit in 2014 at Merlin Hungary. Contractually, Merlin must meet SAP Fieldglass' security requirements. The following security controls are in place:

- Help desk agents are not able to cut/paste using their secured workstation.
- External media including any USB drive is disabled.
- Printing is not supported.
- Help desk agents have been background checked by Merlin using SAP Fieldglass' background check requirements (see section 1.4.7 Background Checks).

1.6.7 Data Loss Prevention

Our DLP solution has been installed and configured for use on devices subject to exposure to sensitive information. It has been implemented to guard data at its endpoints and to ensure leakage of information classified as Confidential does not occur. Policies can be pushed from the central management console or pulled from an individual endpoint client. Client installs are configured to update (pull) policy changes every 90 minutes.

Our enterprise SIEM tool is configured to pull data in real time from the DLP database. Dashboards are created to allow quick overviews of agent statuses/details, alert details, and logging details.

The SIEM is configured to notify the Security Team in real time when an alert is detected. The Analyst then logs into the SIEM and investigates the alert to determine whether it's legitimate or a false positive.

1.6.8 Customer Termination

If a customer were to terminate their contract with SAP Fieldglass, the customer's data could be sliced out of the production database and delivered to the customer on a media of their choice. The size of the data will determine what media is appropriate.

2 Release Management

2.1 Release Management Process

The SAP Fieldglass Release Management team is responsible for the management of all delivables required in upgrading the production SAP Fieldglass system. This team is comprised of key members from the Development, Quality Assurance, Product Management, Professional Services, and executive teams. SAP Fieldglass customers benefit from our release management in that the release deployment schedule repeats itself year over year; releases are deployed over the same weekends of predetermined months.

SAP Fieldglass has several different release types:

Major Releases

In the US, Major releases occur on the second Fridays in March, July, and November. In the EU, Major releases occur on the third Fridays in March, July, and November

These releases can include new product features, new or changed functionality, user experience enhacements, and changes to the user interface. These are our most formal releases and the only type of release that requires an extended maintenance window. The Release Manager and the Release Management team closely monitor all phases of the Software Development Lifecycle and analyze PKIs at each phase transition. Release notes are provided as well as an opportunity for customers to optionally participate in a customer preview opportunity. This is where users can log into a non-production environment that is running the future codebase. The benefit of participating is that customers can gain confidence the system is behaving as expected prior to the official release date.

Minor Releases

Minor releases occur on the second Fridays in January, May and September.

These releases do not require the formalities of major releases. This type of release is used when deploying customer-specific product features and integrations to production. These releases are deployed to both US and EU customers at the same time.

Service Packs

Serivce packs are deployed as required to resolve product defects. These releases are deployed to both US and EU customers at the same time.

All releases are deployed to production by a central deployment team located in the US. During the deployment process, the codebase is replaced with the new codebase and data transformation scripts are executed. During this process, customer data is not viewed or accessed. Upon completion of the deploy, the Quality Assurance team executes a post-deploy verification checklist to ensure the system is ready for general availability. One such verification is verifying an MD5 hash to ensure the certified codebase was installed in production without modification. Test companies are used in conducting all testing.

3 Disaster Recovery and Business Continuity Plan

3.1 Disaster Recovery

SAP Fieldglass maintains a disaster recovery plan with backup, hardware repair, and data restoration, along with the ability to bring up the SAP Fieldglass application at a hot backup site in the event of a declared disaster (as described in the SAP Fieldglass disaster recovery plan) where the primary site is destroyed or disabled. This plan is tested on a yearly basis. Lessons learned are recorded in the test results and the plan is adjusted and improved accordingly.

SAP Fieldglass has the concept of active and passive production hosting facilities. The active environment is the live production hosted facility that all SAP Fieldglass users are actively using. The passive environment is a hot production hosting environment. Our data replication solution ensures that the passive environment is ready at anytime to be failed over to. In a disaster scenario, SAP Fieldglass changes the DNS to the passive hosting center's set of IPs. Users are then seamlessly routed to the other datacenter. There is not multi-day data migration that has to occur due to the ongoing data replication that is in place.

SAP Fieldglass proactively conducted a datacenter failover from the active datacenter to the passive datacenter in April 2015. The entire failover process was conducted in just over 8 hours with zero data loss. SAP Fieldglass plans to repeat this proactive datacenter failover between 1 and 3 times per year.

Also refer to section 1.6.1 Data Backups and Replication.

3.2 Business Continuity

The primary objective of our business continuity plan (BCP) is to enable SAP Fieldglass to recover all functions within their respective Recovery Time Objectives (RTOs) after any type of disruption occurs which prevents SAP Fieldglass personnel from engaging in ongoing business operations. A Recovery Point Objective (RPOs) has also been defined to identify our tolerance for any data loss. This Plan is designed to support the employees responsible for leading recovery efforts to enable SAP Fieldglass to resume daily operations following a disruption.

A business impact analysis (BIA) has been developed to fully quantify and prioritize restoration of mission-critical processes.

I. Company

Virtru may be referred to as "**Company**."

A. Document Control

A staff copy of this document is available with the **Virtru** Privacy Officer, Will Ackerly, willackerly@virtru.com or (202) 577-3683.

B. Security Document Library

These policies and procedures and related privacy and security practice information will be kept in our Security Documentation Library (SDL). The Library is located in Google Drive and backed up to a local NAS.

Outdated and superseded materials from the Security Documentation Library (or Notebook) will be kept in an archive (the Security Documentation Archive) for at six (6) years after the date when they are first outdated or superseded.

II. Management and Protection of Personally-Identifiable Information

A. Overview

The Privacy Rules place certain restrictions on the acquisition, use and disclosure of Personally-Identifiable Information (PII). These policies establish the minimum care with which PII in the custody of **Virtru** personnel must be maintained.

B. Purpose

The purpose of this document is to provide basic instruction to all **Virtru** employees regarding the management and protection of Personally-Identifiable Information.

C. Applicability

This policy applies to all **Virtru** employees, which are defined for the purposes of this document to be employees of all current and future subsidiaries of **Virtru.**

D. Definitions

Covered Entity means a health plan, a health care clearinghouse, or a health care provider that transmits any health information in electronic form relating to any covered transaction.

Personally-Identifiable Information (PII) means any information about an individual maintained by **Virtru,** including:

1. Any information that can be used to distinguish or trace an individual's identity, such as name, social security number, date and place of birth, mother's maiden name, or biometric records; and

2. Any other information that is linked or linkable to an individual, such as medical, educational, financial, and employment information

Treatment, Payment and Health Care Operations (TPO) include all the following:

1. *Treatment* means the provision, coordination, or management of health care and related services, consultation between providers relating to an individual, or referral of an individual to another provider for health care.
2. *Payment* means activities undertaken to obtain or provide reimbursement for health care, including determinations of eligibility or coverage, billing, collections activities, medical necessity determinations and utilization review.
3. *Health Care Operations* includes functions such as quality assessment and improvement activities, reviewing competence or qualifications of healthcare professionals, conducting or arranging for medical review, legal services and auditing functions, business planning and development, and general business and administrative activities including the creation of de-identified health information as defined by these regulations.

Disclosure means the release, transfer, provision of access to, or divulging in any other manner of information outside the entity holding the information.

Use means, with respect to individually identifiable health information, the sharing, employment, application, utilization, examination, or analysis of such information within an entity that maintains such information.

Personal Representative means a person who has authority under applicable law to make decisions related to health care on behalf of an adult or an emancipated minor, or the parent, guardian, or other person who is authorized under law to make health care decisions on behalf of an un-emancipated minor.

Employees means all employees of **Virtru** as well as its temporary employees, interns, independent contractors, trainees, and other persons in the performance of work for the **Company**, its offices, programs or facilities.

Privacy Rules means the rules adopted by various state and federal agencies to implement the requirements of the Health Insurance Portability and Accountability Act of 1996 (HIPAA) and regulations promulgated under this Act as well as those obligations that arise under the privacy and security standards adopted by the Health Insurance Marketplaces, pursuant to 45 C.F.R. §155.260.

E. Policy

For details on specific requirements, refer to the appropriate policies in this manual as indicated in *[brackets]*.

1. Generally: Personally-Identifiable Information shall not be obtained, used or disclosed except as permitted or required by law.

2. Permitted and Required Uses and Disclosures: Personally-Identifiable Information may or shall be disclosed as follows:

   a) To the individual

   b) To carry out TPO activities as allowed under HIPAA and/or pursuant to and in compliance with a current and valid Authorization *[Receipt, Use and Disclosure of Personally-Identifiable Information].*

   c) In keeping with a Business Associate Agreement *[Business Associate Agreement].*

   d) As otherwise allowed or required under the HIPAA Rules or other federal and/or state laws concerning privacy of information that is used by **Virtru** in the course of its business operations.

3. Minimum Necessary: Generally, when obtaining, using or disclosing Personally-Identifiable Information, or when requesting PII from another entity, reasonable efforts must be made to limit the PII used or disclosed to the minimum necessary to accomplish the intended purpose. However, the Privacy rules were not intended to severely complicate business processes and **Virtru** may, where appropriate, use a single format to provide data containing PII for our various services *[Minimum Necessary Standard].*

4. De-identified Personally-Identifiable Information: PII may be considered not to be individually identifiable in the following circumstances:

   a) The following identifiers of the individual (and relatives, employers or household members) are removed. (This is the "Safe Harbor" method that **Virtru** will generally use.)

      - Names
      - Information relating to the individual's geographic subdivision if it contains fewer than 20,000 people
      - Elements of dates (except year) directly related to the individual
      - All ages and elements of dates that indicate age for individuals over 89, unless aggregated into a single category of age 90 and older
      - Telephone numbers
      - Fax numbers

- Email addresses
- Social Security Numbers
- Medical record numbers
- Health plan beneficiary numbers
- Account numbers
- Certificate or license numbers
- Vehicle identifiers and serial numbers, including license plate numbers
- Device identifiers and serial numbers
- Web Universal Resource Locators (URLs)
- Internet Protocol (IP) address numbers
- Biometric identifiers; full face photographic images
- Any other unique identifying number, characteristic or code.

b) As allowed in the Privacy Rules, **Virtru** shall provide a number of longitudinal identifiers in the de-identified data. These identifiers shall not allow identification of the individual who is the subject of this data in that:
    1) These identifiers will be encrypted using industry level encryption techniques
    2) The method of encryption shall not be divulged to the receiver of the de-identified data

5. Complaint Process: **Virtru** has put into place a process for individuals to make complaints about our Privacy Policies and Procedures and/or our compliance with those Policies and Procedures.

6. Documentation: **Virtru** must maintain written or electronic copies of all policies and procedures, communications, actions, activities or designations as are required to be documented under this manual for a period of six (6) years from the later of the date of creation or the last effective date.

F. Enforcement

An employee found to have violated this policy shall be subject to disciplinary action, up to and including termination of employment. In the case where inappropriate access or use or disclosure of Personally-Identifiable Information was or may have been involved, such individuals may additionally be reported to the appropriate enforcement agencies. *[Sanction Policy]*

III. Administrative Requirements for HIPAA Implementation

A. Overview

The Privacy Rules require that a Business Associate have in place appropriate administrative safeguards to protect the privacy of Personally-Identifiable Information.

B. Purpose

To provide instructions regarding **Virtru**'s obligations relating to the implementation of administrative requirements of the Privacy Rules.

C. Applicability

This policy applies to all **Virtru** employees, which is defined for the purposes of this document to be employees of all current and future subsidiaries of **Virtru**.

D. Policy

1. Personnel Designations: **Virtru** has designated and documented designations of the following:
   a. Will Ackerly has been designated as the Privacy Officer.
      1) He is responsible for the development and implementation of corporate-wide policies and procedures relating to the safeguarding of Personally-Identifiable Information.
      2) He will also be responsible for receiving complaints relating to Personally-Identifiable Information and for providing information about the **Company's** privacy practices.

   b. Persons with access to Personally-Identifiable Information are listed by title and department including a listing of individuals' names on the Risk Assessment; and will be updated if **Virtru** makes any major changes to processes, staff, programming or company location; or at a minimum annually. **Virtru** will retain the previous listing for a period of not less than six (6) years.

2. Training Requirements: **Virtru** shall document the following training actions: All **Virtru** employees shall receive training on applicable policies and procedures relating to Personally-Identifiable Information as necessary and appropriate for such persons to carry out their functions within the **Company**.

   a. Each new employee shall receive the training as described above within 30 days after joining **Virtru**.

b. Each employee whose functions are impacted by a material change in the policies and procedures relating to Personally-Identifiable Information, or by a change in position or job description, shall receive the training as described above within 30 days after the change becomes effective.

c. Complaints handled by Committee...

3. Safeguards: **Virtru** shall have in place appropriate Administrative, Technical, and Physical Safeguards to reasonably safeguard Personally-Identifiable Information from intentional or unintentional unauthorized receipt, use or disclosure.

4. Complaint process: **Virtru** shall have in place a process for individuals to make complaints about the **Company**'s HIPAA Policies and Procedures and/or **Virtru**'s compliance with those Policies and Procedures, and shall document all complaints received and the disposition of each complaint. (See Complaint Process)

5. Sanctions**:** Our Privacy Policies call for our workforce that has access to Personally-Identifiable Information to perform certain duties and to refrain from certain actions. Failure to do so will be sanctioned according to the policy below.

These sanctions apply to the designated workforce members including managers, supervisors, and staff who have access to Personally-Identifiable Information.
It is intended as guidance for our business management in sanctioning information security policy infractions. We reserve the right to implement sanctions differently if, in our judgment, the situation warrants it.

We define a serious infraction as one that results in known significant damage or that threatens imminent significant damage. Other infractions are simple infractions.

First security infraction

If the infraction is:

a. A simple infraction, and
b. The first infraction in the last 3 years

The sanction will be retraining the workforce member on the appropriate policy/procedure and placement of a written letter of reprimand in the employee file. The letter will notify the person of the nature of this infraction and of sanctions for future potential infractions.

Second security infraction or first serious infraction

If the infraction is:

a. A serious infraction, or

b. The second infraction of either type within 3 years

The sanction will include a written letter of reprimand that is given to the person at fault, placement of a copy of the letter in the employee file, and one week's suspension without pay. The letter will notify the person of the nature of this infraction and of sanctions for future potential infractions.

Third security infraction or second serious infraction

If the infraction is:

a. A second serious infraction within 3 years, or
b. A third infraction of any type within 3 years.

The sanction will be dismissal from the workforce.

Virtru makes exceptions for disclosures made by employees who qualify as whistleblowers or certain crime victims.

6. Mitigation efforts required*:* **Virtru**, to the extent practicable, shall mitigate any harmful effects of unauthorized uses or disclosures of Personally-Identifiable Information by the **Company** or any of its Business Associate Subcontractors.

7. Prohibition on intimidating or retaliatory acts: Neither **Virtru** nor any employee shall intimidate, threaten, coerce, discriminate against, or take other retaliatory action against any individual for the exercise of their rights or participation in any process relating to HIPAA compliance, or against any person for filing a complaint with the Secretary of the U.S. Department of Health and Human Services, participating in an investigation, compliance review, proceeding or hearing, or engaging in reasonable opposition to any act or practice that the person in good faith believes to be unlawful under the Privacy Rules as long as the action does not involve disclosure of Personally-Identifiable Information in violation of the regulations.

Virtru shall document the following actions relating to its policies and procedures:

a. Required policies and procedures: **Virtru** shall implement policies and procedures to assure appropriate safeguarding of Personally-Identifiable Information in its operations.
b. Changes to policies and procedures: **Virtru** shall change its policies and procedures as necessary and appropriate to conform to changes in law or regulation. **Virtru** may also make changes to policies and procedures at other times as long as the policies and procedures are still in compliance with applicable law. Where necessary, **Virtru** shall make correlative changes in its Privacy Notice.

E. Documentation Requirements

Virtru must maintain the required policies and procedures in written or electronic form, and must maintain written or electronic copies of all communications, actions, activities or designations as are required to be documented hereunder, or otherwise under the Privacy Rules, for a period of six (6) years from the later of the date of creation or the last effective date.

F. Enforcement

Any employee found to have violated this policy shall be subject to disciplinary action, up to and including termination of employment. In the case where inappropriate access, use or disclosure of Personally-Identifiable Information was or may have been involved, such individuals may additionally be reported to the appropriate enforcement agencies.

IV. Minimum Necessary Standard

A. Overview

The Privacy Rules place certain restrictions on the receipt, use and disclosure of Personally-Identifiable Information in regards to the amount reasonably necessary to accomplish the task being performed. However, the Privacy Rules also allow Personally-Identifiable Information to be disclosed for business appropriate needs.

The policies developed by **Virtru** will follow this business appropriate philosophy as well as that of administrative simplification, which is the subsection of the HIPAA law under which the Privacy Rule was developed. **Virtru** shall use standard data formats for information acquisition or disclosure and tailor these formats to contain a business reasonable minimum necessary amount of Personally-Identifiable Information. The **Company's** policies establish the minimum necessary use provisions for Personally-Identifiable Information in the custody of **Virtru** employees.

B. Purpose

To issue instructions regarding **Virtru's** obligations relating to the Privacy Rules to obtain, use and disclose only the minimum amount of Personally-Identifiable Information (PHI) necessary to accomplish the intended purpose.

C. Applicability

This policy applies to all **Virtru** employees, which is defined for the purposes of this document to be employees of all current and future subsidiaries of the **Company**.

D. Policy

Virtru will make reasonable efforts to ensure that the Minimum Necessary amount of Personally-Identifiable Information is disclosed, used, or requested to accomplish the intended purpose. Exceptions to the Minimum Necessary Standard include disclosures:

1. To the individual who is the subject of the information;

2. Made pursuant to an authorization provided by the individual;
3. To healthcare providers for treatment purposes;
4. Required for compliance with the standardized HIPAA transactions;
5. Made to the Secretary of HHS or his agent pursuant to a privacy investigation;
6. Otherwise required by the Privacy Rules or other law.

Employees shall be trained on the policies and procedures developed to apply these principles to the use or disclosure of, or requests for Personally-Identifiable Information.

E. Procedures

The following procedures will be implemented to ensure that this policy is enforced effectively across all parts of **Virtru**.

1. Each user of a system which accesses Personally-Identifiable Information shall be identified and the classes or types of PII to which access is needed and any conditions appropriate to such access will be established. It will be the responsibility of the Privacy Officer to maintain this information using the *Employee Access Request Form* [**Forms for Employees**] and *System Access Log* [**Change Control Logs for Security**].

2. Reasonable efforts will be taken to limit the access of each user of Personally-Identifiable Information to the amount needed to carry out the individual's duties. These efforts will include internal use of PII.

3. For situations where Personally-Identifiable Information disclosure occurs on a routine and recurring basis, the PII disclosed will be limited to the amount of information reasonably necessary to achieve the purpose of the disclosure.

4. Requests for disclosures that are not routine and recurring and thereby covered by **Virtru** standard procedures (other than to the individual, the Secretary of HHS or his agent, or where required by law) shall be reviewed by the Privacy Officer to determine that the Minimum Necessary Standard is applied to the extent reasonable.

5. Questions regarding these procedures should be directed to the **Virtru** Privacy Officer, Will Ackerly, willackerly@virtru.com, or (202) 577-3683.

F. Enforcement

An employee found to have violated this policy shall be subject to disciplinary action, up to and including termination of employment. In the case where inappropriate access or use or disclosure of Personally-Identifiable Information was or may have been involved, such individuals may additionally be reported to the appropriate enforcement agencies.

V. Business Associate Agreements

A. Overview

The Privacy Rules impose certain requirements on Business Associates who create, receive, use or disclose Personally-Identifiable Information on behalf of their Covered Entity partners. **Vitru** must comply with the requirements in this section.

B. Purpose

To provide instructions to all **Virtru** employees regarding the necessity of and the requirements for Business Associate Agreements relating to Covered Entities.

C. Applicability

This policy applies to all **Virtru** employees, which is defined for the purposes of this document to be employees of all current and future subsidiaries of **Virtru.**

D. Policy

1. Generally: A Covered Entity may disclose Personally-Identifiable Information to **Virtru**, or allow **Virtru** to create or receive PII on the Covered Entity's behalf. **Virtru** will appropriately safeguard the PII obtained from the Covered Entity. **Virtru** will document these assurances through a written agreement.

2. Content Requirements: The agreement between the Covered Entity and **Virtru** must meet the following requirements, as applicable:

    a. Establish permitted and required uses or disclosures of Personally-Identifiable Information that are consistent with those authorized for the Covered Entity, except that the agreement may permit **Virtru** to use or disclose Personally-Identifiable Information for its own management and administration if such use or disclosure is required by law, or **Virtru** provides reasonable assurance to the Covered Entity to which the Personally-Identifiable Information is disclosed that the confidentiality of the PII will be maintained.

    b. Provide that **Virtru** will:

        1. Not use or disclose the Personally-Identifiable Information except as authorized under the agreement or required by law.
        2. Use safeguards to prevent unauthorized use or disclosure.
        3. Report unauthorized uses or disclosures to the Covered Entity.

4. Pass on the same obligations relating to protection of Personally-Identifiable Information to any subcontractors.
5. Make Personally-Identifiable Information available for access by the Covered Entity in accordance with relevant law and policy.
6. Make Personally-Identifiable Information available to the Covered Entity for amendment, and incorporate any approved amendments to Personally-Identifiable Information, in accordance with relevant law and policy.
7. Make information available for the provision of an accounting of uses and disclosures in accordance with relevant law and policy.
8. Make its internal practices, books and records relating to its receipt or creation of Personally-Identifiable Information available to the Secretary of HHS for purposes of determining **Virtru's** compliance with Privacy Rules.
9. Authorize termination of the agreement by the Covered Entity upon a material breach by **Virtru**.

3. Compliance Responsibilities: Virtru agrees to report any use or disclosure of Personally-Identifiable Information not permitted by this agreement and any successful security incident to Covered Entity within a commercially reasonable period, but in no event later than within thirty (30) business days, after it is discovered.

E. Enforcement

An employee found to have violated this policy shall be subject to disciplinary action, up to and including termination of employment. In the case where inappropriate access or use of Personally-Identifiable Information was or may have been involved, these individuals may additionally be reported to the appropriate law enforcement agencies.

VI. Business Associate Subcontractor Agreements

A. Overview

The Privacy Rules impose certain requirements on Business Associate Subcontractors who create, receive, use or disclose Personally-Identifiable Information on behalf of **Virtru**. All Business Associate Subcontractors of **Virtru** must comply with the requirements in this section.

B. Purpose

To provide instructions to all **Virtru** employees regarding the necessity of and the requirements for Business Associate Subcontractor Agreements relating to Business Associate Subcontractors who receive, use or disclosure Personally-Identifiable Information on behalf of **Virtru**.

C. Applicability

This policy applies to all **Virtru** employees and Business Associate Subcontractors, which are defined for the purposes of this document to be employees of all current and future subsidiaries of **Virtru** and the Business Associate Subcontractor.

D. Policy

1. Generally: **Virtru** may disclose Personally-Identifiable Information to a Business Associate Subcontractor, or allow a Business Associate Subcontractor to create or receive PII on **Virtru**'s behalf, if adequate assurances are obtained by **Virtru** that the Business Associate Subcontractor will appropriately safeguard the PII. **Virtru** must document these assurances through a written agreement. This requirement does not apply with respect to:
   a. Disclosures made to a provider concerning the individual's treatment, payment or health care operations; or
   b. Uses or disclosures made to a governmental agency for purposes of public benefit eligibility or enrollment determinations where such company is authorized by law to make these determinations.

2. Content Requirements: The agreement between **Virtru** and a Business Associate Subcontractor must meet the following requirements, as applicable:

   a. Establish permitted and required uses or disclosures of Personally-Identifiable Information that are consistent with those authorized for the entity, except that the agreement may permit the Business Associate Subcontractor to use or disclose Personally-Identifiable Information for its own management and administration if such use, or disclosure is required by law, or the Business Associate Subcontractor obtains reasonable assurance from the entity to which the Personally-Identifiable Information is disclosed that the confidentiality of the PII will be maintained.

   b. Provide that the Business Associate Subcontractor will:
      1) Not use or disclose the Personally-Identifiable Information except as authorized under the agreement or required by law.
      2) Use safeguards to prevent unauthorized use or disclosure.
      3) Report unauthorized uses or disclosures to **Virtru**.
      4) Pass on the same obligations relating to protection of Personally-Identifiable Information to any subcontractors or agents.
      5) Make Personally-Identifiable Information available for access by **Virtru**, in accordance with relevant law and policy.

6) Make Personally-Identifiable Information available to **Virtru** for amendment, and incorporate any approved amendments to PII, in accordance with relevant law and policy.
7) Make information available to **Virtru** for the provision of an accounting of uses and disclosures in accordance with relevant law and policy.
8) Make its internal practices, books and records relating to its receipt or creation of Personally-Identifiable Information available to the Secretary of HHS for purposes of determining the Business Associate Subcontractor's compliance with Privacy Rules.
9) If feasible, return or destroy all Personally-Identifiable Information upon termination of contract; if any PII is retained, continue to extend the full protections specified herein as long as the PII is maintained.
10) Authorize termination of the agreement by the entity upon a material breach by the Business Associate Subcontractor.

3. Compliance Responsibilities: If **Virtru** knows of a pattern or practice of the Business Associate Subcontractor that amounts to a material violation of the Agreement, **Virtru** and the Business Associate Subcontractor must attempt to cure the breach to end the violation, and if unsuccessful, terminate the agreement. If terminating the Agreement is not feasible, **Virtru** must report the problem to the Secretary of HHS.

E. Enforcement

An employee of **Virtru** or an employee of the Business Associate Subcontractor found to have violated this policy shall be subject to disciplinary action, up to and including termination of employment. In the case where inappropriate access or use of Personally-Identifiable Information was or may have been involved, these individuals may additionally be reported to the appropriate law enforcement agencies.

VII. Receipt, Use and Disclosure of Personally-Identifiable Information

A. Overview

The Privacy Rules impose certain requirements on Covered Entities and Business Associates who create, receive, use or disclose Personally-Identifiable Information on behalf of their Covered Entity partners.

B. Purpose

To provide instructions to all **Virtru** employees regarding the receipt, uses and disclosures of Personally-Identifiable Information, which are permitted or required by HIPAA.

C. Applicability

This policy applies to all **Virtru** employees, which is defined for the purposes of this document to be employees of all current and future subsidiaries of the **Company**.

D. Special Definition

Public Health Authority means a governmental company or authority, or a person or entity acting under a grant of authority from or a contract with such a public company, including the employees or agents of the public company, its contractors and those to whom it has granted authority, that is responsible for public health matters as part of its official mandate.

E. Policy

State and federal law permit and require certain receipt, uses and disclosures of Personally-Identifiable Information such as those related to Business Associate Agreements. Additional uses and/or disclosures are allowed or required that related to public responsibility that require no agreement or authorization on the part of the individual who is the subject of the PII. It is the policy of **Virtru** to obtain, use and disclose PII only as permitted and/or required by law or regulation including the following situations:

1. Treatment, Payment or Healthcare Operations: Personally-Identifiable Information may be used or disclosed for the purposes of providing treatment, payment or healthcare operations. Such disclosures will be made only as allowed by and pursuant to prevailing state and federal law.
    a. Discussions involving Personally-Identifiable Information shall be conducted only in appropriate business areas including but not limited to offices, conference rooms and other non-public areas;
    b. Conducted only for the purpose of fulfilling a legitimate business need; and
    c. Conducted with regard to and in compliance with the "Minimum Necessary Standard." *[Minimum Necessary Standard]*

2. Contained in a Business Associate Agreement: For permitted and required uses or disclosures of Personally-Identifiable Information that are consistent with those authorized by the Covered Entity in a Business Associate Agreement.

3. Required by Law: Personally-Identifiable Information may be used or disclosed to the extent such use or disclosure complies with and is limited to the requirements of such law.

4. Abuse and Neglect: Except for reports of child abuse or neglect, Personally-Identifiable Information about an individual believed to be a victim of abuse, neglect, or domestic violence may be disclosed to a governmental authority authorized to receive such reports if the individual agrees or the reporting entity believes, in the exercise of professional judgment, that the disclosure is necessary to prevent serious physical harm. If the individual lacks the capacity to agree, disclosure may be made if not intended for use against the individual and delaying disclosure would materially hinder law

enforcement activity. The individual whose Personally-Identifiable Information has been released must be promptly informed that the report was made unless doing so would place the individual at risk of serious harm.

5. Judicial Proceedings: Personally-Identifiable Information may be disclosed in response to a court order.

6. Law Enforcement: Personally-Identifiable Information may be disclosed for the following law enforcement purposes and under the specified conditions:
    a. Pursuant to court order or as otherwise required by law, i.e. laws requiring the reporting of certain types of wounds or injuries
    b. Decedent's Personally-Identifiable Information may be disclosed to alert law enforcement to the death if entity suspects that death resulted from criminal conduct
7. Serious Threats to Health or Safety: Consistent with applicable law and ethical standards, Personally-Identifiable Information may be used or disclosed if the entity believes in good faith that the use or disclosure is necessary to prevent or lessen a serious and imminent threat to a person or the public, and disclosure is to someone reasonably able to prevent or lessen the threat, or the disclosure is to law enforcement authorities to identify or apprehend an individual who has admitted to violent criminal activity that likely caused serious harm to the victim or who appears to have escaped from lawful custody. Disclosures of admitted participation in a violent crime are limited to the individual's statement of participation and are not permitted when the information is learned in the course of treatment to affect the propensity to commit the subject crime, or through counseling, or therapy or a request to initiate the same.

8. Specialized Government Functions: National Security and Intelligence: Personally-Identifiable Information may be disclosed to authorized federal officials for the conduct of lawful intelligence, counter-intelligence, and other activities authorized by the National Security Act.(45 CFR 164.512(k)(2))

9. Protective Services: Personally-Identifiable Information may be disclosed to authorized federal officials for the provision of protective services to the President, foreign heads of state, and others designated by law, and for the conduct of criminal investigations of threats against such persons. (45 CFR 164.512(k)(3));

10. Public Benefits: Personally-Identifiable Information relevant to administration of a government program providing public benefits may be disclosed to another governmental program providing public benefits serving the same or similar populations as necessary to coordinate program functions or improve administration and management of program functions.

11. Workers' Compensation: Personally-Identifiable Information may be disclosed as authorized and to the extent necessary to comply with laws relating to workers' compensation and other similar programs.

F. Procedures

The following procedures will be implemented to ensure that this policy is enforced effectively across all parts of **Virtru**.

Any request for disclosure of Personally-Identifiable Information, 1) pursuant to a court order, warrant or subpoena; 2) by a law enforcement agent; 3) by a public health authority; or 4) by a national security, intelligence or other federal company, must be directed to the Privacy Officer and the CEO for review and action. Any such request will include an acknowledgement of receipt to insure that the document was actually received by the appropriate corporate individual and will retain a copy of the request. If the acknowledgement is not received within two working days of submitting to the appropriate corporate individual, then the request will be resubmitted to the Privacy Officer and CEO.

G. Enforcement

An employee found to have violated this policy shall be subject to disciplinary action, up to and including termination of employment. In the case where inappropriate access, use or disclosure of Personally-Identifiable Information was or may have been involved, such individuals may additionally be reported to the appropriate enforcement agencies.

VIII. Complaint Process

A. Overview

The Privacy Rules require that **Virtru** provide a process for individuals to make complaints concerning the **Company**'s policies and procedures required by these regulations and document all complaints received, and the dispositions of these complaints, if any.

B. Purpose

To issue instructions regarding **Virtru** obligations relating to the Privacy Rules to provide a process for individuals to complain about the **Company**'s policies and procedures and the requirement to document complaints received and the disposition of these complaints.

C. Applicability

This policy applies to all **Virtru** employees, which is defined for the purposes of this document to be employees of all current and future subsidiaries of **Virtru**.

D. Policy

Virtru shall maintain a process to receive complaints from individuals about **Company** Privacy Policies and Procedures, for complaints from individuals who believe their privacy rights have been violated and from employees or Business Associate Subcontractors who believe that **Virtru** is not abiding by its policies and procedures and/or assurances concerning Personally-Identifiable Information. This process shall include the following:

1. Any complaints or questions should be submitted to the Privacy Officer or his assistant.
2. All service and complaint issues will be stored in the Desk.com app.

Virtru shall work in good faith to resolve complaints received to the satisfaction of the submitter, where possible.

E. Procedures

The following procedures will be implemented to ensure that this policy is enforced effectively across all parts of **Virtru**.

1. Complaints shall be submitted in writing on paper or electronically.

2. Complaints shall be entered into the complaint tracking system either automatically or by the individual designated to provide information on the **Company** complaint process. and when manually entered shall be in the exact words provided by the submitter.

3. The **Virtru** Privacy Officer shall investigate complaints and make a determination as to whether or not the complaint has merit.

4. The **Virtru** Privacy Officer shall present complaints received to **Virtru**'s senior executive for immediate action.

5. If the Privacy Officer has completed the investigation of the complaint and made a determination, such determination shall be presented to the **Virtru** Executive Board

6. If the investigation has not been completed nor a provisional determination made by the Privacy Officer, it shall be the prerogative of the senior executive to make a summary determination or to direct the Privacy Officer to continue with the investigation and to report on the complaint at the next scheduled meeting.

If a determination is made that **Virtru** is in violation of the privacy provisions of the Privacy Rules or that changes are needed in the Privacy Policies or Business Associate Agreement to clarify the allowed practices of **Virtru**, the **Virtru** CEO and Privacy Officer shall determine the actions that the **Company** shall take.

Complaint determinations and actions that **Virtru** takes pursuant to such complaints, if any, shall be reported to the submitter of the complaint, if such person is known. Privacy Officer, or his designated agent, shall update the complaint tracking system with the findings of the Privacy Officer's investigation, any determination made, direction or actions of the **Virtru** CEO and Privacy Officer with regard to the complaint, and a copy of any information provided to the submitter in response to their complaint.

F. Enforcement

Any employee found to have violated this policy shall be subject to disciplinary action, up to and including termination of employment. In the case where inappropriate access, use or disclosure of Personally-Identifiable Information was or may have been involved, such individuals may additionally be reported to the appropriate enforcement agencies.

IX. Fax Policy

A. Overview

The Privacy Rules require that **Virtru** implement appropriate administrative, technical, and physical safeguards to protect the privacy of Personally-Identifiable Information.

B. Purpose

To provide instructions to all **Virtru** employees regarding the use of faxes with respect to Personally-Identifiable Information and the measures necessary to maintain an adequate level of security for such information. This policy defines rules necessary to achieve this level of protection. These standards are designed to minimize the potential exposure to **Virtru** from damages, which may result from unauthorized disclosure of Personally-Identifiable Information through facsimile use.

C. Applicability

This policy applies to all **Virtru** employees, which is defined for the purposes of this document to be employees of all current and future subsidiaries of **Virtru**.

D. Special Definitions

Fax: An electronic facsimile of a document stored as a series of zeroes and ones (binary data) that can be transmitted like normal computer data. When received by a fax machine, the incoming stream is translated into dots creating a representation of the original document.

Inappropriate Disclosure: The intentional or unintentional revealing of Personally-Identifiable Information to people who do not have a need to know such information.

E. Corporate Policies

Employees must exercise utmost caution when sending faxes to parties outside of **Virtru**. Faxes containing Personally-Identifiable Information should only be received on and sent to user or departmental specific fax machines and not to systems that have general access.

In cases where Personally-Identifiable Information is received from outside on a non-departmental specific fax machine, the receiving department shall notify the **Virtru** Privacy Officer of the source of such information. The employee shall communicate the approved fax number to the external entity and record such actions. Should PHI be disclosed by fax to an inappropriate party, **Virtru** shall, to the extent possible, remediate such disclosures.

All fax documents sent by **Virtru** employees shall contain the following statement:

This fax is intended for the individual/individuals or entity/entities named above and may be covered by copyrights, business partner confidentiality agreements, non-disclosures or other legally binding instruments. If you are not the intended recipient, do not read, copy, use or disclose the contents of this communication to others. Immediately notify the sender by reply fax, destroy all hard copies and delete this document from all systems. Thank you!

F. Procedure

In the cases where data that contains Personally-Identifiable Information is disclosed by fax machine use to an inappropriate party, the following procedure shall be followed:

1. The receiving party shall be contacted by telephone at the earliest opportunity and requested to destroy the fax without reading.
2. The name of the company, the person contacted, the date and time shall be recorded as well as any comments made by the person receiving such calls.
3. A fax shall also be sent to the receiving party containing the same instructions as detailed for the phone call requesting a return fax message indicating that the requested action was taken.
4. The cause of the inappropriate disclosure shall be determined and reported to the **Virtru** Privacy Officer.

Methods to prevent a reoccurrence of the inappropriate disclosure shall be formulated and put into place.

Any additional actions prescribed by regulations shall be performed to the extent possible.

G. Enforcement

Any employee found to have violated this policy shall be subject to disciplinary action, up to and including termination of employment. In the case where inappropriate access, use

or disclosure of Personally-Identifiable Information was or may have been involved, such individuals may additionally be reported to the appropriate enforcement agencies.

X. Scanner Policy

A. Overview

The Privacy Rules require that **Virtru** implement appropriate administrative, technical, and physical safeguards to protect the privacy of Personally-Identifiable Information.

B. Purpose

To provide instructions to all **Virtru** employees regarding the use of scanners with respect to Personally-Identifiable Information and the measures necessary to maintain an adequate level of security for such information. This policy defines rules necessary to achieve this level of protection. These standards are designed to minimize the potential exposure to **Virtru** from damages, which may result from unauthorized disclosure of Personally-Identifiable Information.

C. Applicability

This policy applies to all **Virtru** employees, which is defined for the purposes of this document to be employees of all current and future subsidiaries of **Virtru**.

D. Special Definitions

Scanner: An electronic copy of a document stored as a series of zeroes and ones (binary data) that can be transmitted like normal computer data. When received by a computer, the incoming stream is translated into dots creating a representation of the original document.

Inappropriate Disclosure: The intentional or unintentional revealing of Personally-Identifiable Information to people who do not have a need to know such information.

E. Corporate Policies

Employees must exercise utmost caution when scanning and transmitting these documents to their devices and parties outside of **Virtru**. Scans containing Personally-Identifiable Information should only be received on and sent to user or departmental specific computer in an encrypted format, or sent using **Virtru's** encrypted email application.

F. Procedure

In the case where scanned data that contains Personally-Identifiable Information is disclosed to an inappropriate party, the following procedure shall be followed:

1. The receiving party shall be contacted by telephone at the earliest opportunity and requested to destroy the scan without reading.

2. The name of the company, the person contacted, the date and time shall be recorded as well as any comments made by the person receiving such calls.
3. The cause of the inappropriate disclosure shall be determined and reported to the **Virtru** Privacy Officer.

Methods to prevent a reoccurrence of the inappropriate disclosure shall be formulated and put into place. Any additional actions prescribed by regulations shall be performed to the extent possible.

G. Enforcement

Any employee found to have violated this policy shall be subject to disciplinary action, up to and including termination of employment. In the case where inappropriate access, use or disclosure of Personally-Identifiable Information was or may have been involved, such individuals may additionally be reported to the appropriate enforcement agencies.

XI. Training Policy

A. Overview

The Privacy Rules require that **Virtru** train their employees on the requirements of our Privacy Policies and Procedures developed to protect the Personally-Identifiable Information to which employees are provided access. The **Company** has determined that all employees of **Virtru** shall be trained on Privacy so that we can provide the necessary assurances for the protection of Personally-Identifiable Information to our clients, vendors and business partners as required under the Privacy Rules.

B. Purpose:

To provide instructions to all **Virtru** employees regarding the requirement for HIPAA training.

C. Applicability

This policy applies to all **Virtru** employees, which is defined for the purposes of this document to be employees of all current and future subsidiaries of **Virtru**.

D. Policy

1. General: It is the policy of the **Company** that all employees of **Virtru** and its current and future subsidiaries be trained on Privacy and the **Company** policies and procedures created to protect Personally-Identifiable Information.

2. Duty Specific Training: Privacy training shall be appropriate to the tasks that each employee performs. In the case where an employee does not come into contact with Personally-Identifiable Information as a normal course of the employee's duties, the employee shall be trained on the corporate policies and procedures.

3. New Employees: New employees shall be trained on the corporate policies and procedures as part of their normal employment process and shall be trained on our Privacy Policies and Procedures, if applicable, within 30 days of being employed by **Virtru.** The Assistant ISO, Jordan Duggan, shall document this training and provide the Privacy Officer with documentation of this training within the 30-day period.

4. Transfers: When an employee transfers from one department to another, the employee shall be trained on our Privacy Policies and Procedures within 30 days of being assigned. Jordan Duggan shall document this training and provide the Privacy Officer with documentation of this training, within the 30-day period.

5. Material Change in Policies and Procedures: when a material change in the policies and procedures occurs, each employee shall receive training on such changes within 30 days of the implementation of the change. Jordan Duggan shall document this training and provide the Privacy Officer with documentation of this training, within the 30-day period.

E. Enforcement

Any employee found to have violated this policy shall be subject to disciplinary action, up to and including termination of employment. In the case where inappropriate access, use or disclosure of Personally-Identifiable Information was or may have been involved, such individuals may additionally be reported to the appropriate enforcement agencies.

Overview
Inventory of Information Assets and Electronic Asset Management Log
Rules for access to information assets
VIII. Access Control Policy
Overview
Access levels
Granting access
The ISO will provide accounts with the matching technical privileges and give the workforce member the account information including a one-time-use password that the user must change to a private password upon first use of the account.
1. Only the person assigned to an account will be allowed to use that account.
Vendors, contractors and other outsiders
Individuals
Policy

Security Policies and Procedures

IX. Rules by Data Classification
- Public/unclassified data
- B. Private/internal data
- C. Confidential or protected data
- D. Managing data sources
- E. Retention of media
  - Agent of Record letters and Letters of Authorization requests are held for no less than ninety (90) days
  - New Business Group documents are held for no less than ninety (90) days
  - General documents are held for no less than ninety (90) days
  - Banking statements are held for seven (7) years
  - Workforce member records are held for seven (7) years
- F. Sanitization of Media
- G. Information sharing and privacy
- H. Release of company information

X. Risk Analysis and Management
- Risk reviews
- B. Risk management
  - Increasing a protection to a level higher than what is listed in this document
  - Improving oversight or monitoring of the risk to limit impact and minimize response time
  - Limiting transactions or other events to minimize the possible impact of the risk event

XI. IDs and Accounts
- User IDs
- B. ID and account creation
  - Expiration dates for the User ID
  - Renewal process for the User ID
  - Documentation of the role, business process and job function relating to the User ID
- C. Account management
- Application Specific IDs

XII. Authentication and Passwords
- Overview
- Password format
- Rules

XIII. Authorization and Rights Management
- General Access Roles
  - Super Admin Access: Access to all front and backend products as well as product metrics
  - Admin Access: Access to all front end products as well as product metrics
  - General Access: Access to product metrics

- Low Access: Access to corporate email, sales, and marketing data only
- Amazon Web Services (AWS)
- Cloudant
- Github
- ELK Stack
- Mixpanel
- Kissmetrics
- Salesforce

Access Rules

- Limiting access to datasets and types
- Limiting access to operating systems
- Limiting times of access

Temporary Privileged Users and Accounts

D. Assignment and Revocation Procedure

- An Employee Access Log for all new hires and/or workforce member change of status.
- An Exit Checklist for all terminations.

E. Logout After Inactivity

XIV. Breaches or Impermissible Uses/Disclosures

Definitions

- Penetrations of systems, applications, networks or databases
- Denial of service attacks
- Misuse or mishandling of assets
- Virus or other malware contamination
- Transaction errors
- Breaches of confidentiality agreements or contracts
- Legal or regulatory violations

XV. Breach Response

A. Overview

Confidential Reporting:

- Calling (may leave voice message) the ISO or AISO
- Sending an email to the ISO or AISO, or;

XVI. Personnel Security

Screening for newly hired personnel, third parties, vendors

- Professional qualifications
- Identity checks
- Criminal checks
- Confirmation of academic and professional experience

B. Training and Awareness

- Managing malicious software (e.g. viruses)
- Using workstation(s) securely

- Managing passwords and
- Monitoring and reporting suspicious use of account(s)
- C. Terms of employment
- D. Acknowledgement
- E. Exit process for users
  - Relinquish all access to control devices
  - Report all User IDs in use by the person
  - Relinquish all information stored, whether on paper or on backup media
  - Relinquish all information processing devices, including workstations, all
  - Virtru-owned mobile devices and others
  - All systems access will be revoked.
- Security Sanction Policy
  - First Security Infraction
    - A simple infraction, and
    - The first infraction in the last 3 years
  - Second Security Infraction or First Serious Infraction
    - A serious infraction, or
    - The second infraction of either type within 3 years
  - Third Security Infraction or Second Serious Infraction
    - A second serious infraction within 3 years, or
    - A third infraction of any type within 3 years
    - The sanction will be dismissal from the workforce.

XVII. Legal and Regulatory Issues
- Legal processes
- Copyrights and licenses
- C. Export controls

XVIII. Malware and Antivirus
- Definitions
- Operating system anti-malware requirements
  - Macintosh, Linux and iPhones:
  - PC Operating Systems:
  - Android and Windows Phone Operating Systems:
- Affiliates
- Infected devices
- Employees' Requirements
  - Workforce members will not load software on our Company's information equipment without permission from the ISO.
  - Workforce members will not open electronic files from unfamiliar sources.
- Enforcement

XIX. Change Control Logs
- Preface

Security Policies and Procedures

- B. Policy
  - Sufficient information is available for proper investigation of use, misuse, incidents and performance
  - User ID, event type, date and time are maintained
  - Time is according to a known time stamp so that events across systems can be coordinated
  - 4. End-to-end accountability is always maintained
  - Changes to operating systems, application code or other tools
  - Backup and restore events
  - Changes affecting any cryptographic keys or devices
  - Stop or start of critical processes
  - Transaction failure, retry or duplication
  - KissMetrics
  - Segment.io
  - Sendgrid
- XX. Encryption
  - Preface
  - Application Encryption Policy
  - Key Rotation Policy
  - D. Device Encryption Policy
    - Mac OS Devices:
    - Windows OS Devices:
    - Linux OS Devices
    - Android Devices
    - Windows Phone
    - iPhone
  - E. Wi-Fi network encryption
  - F. Email encryption
  - G. Enforcement
- XXI. Assessments and Testing
  - Overview
  - B. Penetration testing
    - Operating systems
    - Applications
    - Databases
  - C. Vulnerability assessment testing
    - A new system, application or network is installed inside the Company
    - Changes are made to firewalls, VPNs or other security control tools
    - Changes are made to a web server's operating system
    - Changes are made to email servers
    - Configuration changes are made to databases

Configuration changes are made to critical applications
Changes are made to encryption scheme(s)
D. Wireless access testing
E. Password testing
XXII. Use of Email, Internet, Messaging, Public Sites, Blogs, Social Media
Policy
Sexually explicit material
Confidential, Private or Protected Information or Internal Use material, except as meets the Handling Rules section
Viruses
Threats
Inappropriate or unlawful language, including:
Offensive language
Language inappropriate for the Company environment
Discriminatory or harassing language
Tools usable for hacking, password cracking, vulnerability scanning or penetration testing
XXIII. Hardware
Definitions
B. Policy
C. Asset management
D. Enforcement
XXIV. Networks
Overview
Denial of service attacks
Improper access
Virus infections
Unauthorized software installations, email, FTP or other improper usage
Administration of network and communications connections
Operations of all devices
Monitoring
Timely review of audit logs and response to alerts or alarms
Review of unusual patterns of usage or activity
Monitoring
Access control and physical security
Access limited to authorized personnel only
Physical security, including RFID or passcode controlled locks, are in place
Modifications, updates
Documentation
Network design
Segmentation

- Firewalls
- Internet
  - Approved by the ISO
  - Periodically reviewed and tested for vulnerabilities
  - Protected by firewalls, intrusion detection systems and anti-malware tools
- VPN-remote access
- Wireless
- Telework Policy
- Patching of systems and applications
- Network hardening

XXV. Physical and Environmental Protections

- Definitions
  - Computing centers
  - Network connection points
  - Media storage locations
  - Locations containing platforms which carry high-value or critical information or transactions
- B. Secure Sites Policy
  - Media libraries
  - Electrical supplies and controls
  - Environmental and mechanical controls

XXVI. Physical Security Policy

- A. Entry Policy
- Loss of RFID key
- Mobile devices
- D. Video monitoring
- Alarm system
- Fire protection

XXVII. Software

- Overview
- B. Acquisition of software
- C. Open Source Software
  - It is not used in a production environment OR
  - Prior to use it is fully tested, documented and Virtru's personnel are assigned to support it. Checks to be performed include:
  - The source of the software is documented
  - URL
  - Project lead
  - Contributors
  - The ISO approves of the use
- D. Documentation

- E. Change control and maintenance
- F. Operating Systems
- G. Applications
  - Access control
  - Authorization
  - Information classification
  - Storage controls
  - Backup and restoration
  - Confidentiality and integrity requirements
  - Audit logs
  - Privacy, export control and other such requirements
- H. Asset management for software
- I. Enforcement

XXVIII. Removable Media Device Policy
- Purpose
- B. Scope
- C. Definitions

Security Policies and Procedures

I. Virtru

Virtru may be referred to as "**Company**."

A. Document control

A staff copy of this document is available with the Information Security Officer (ISO), Will Ackerly, willackerly@virtru.com (202) 577-3683, and Assistant Information Security Officer(AISO), Jordan Duggan, jordan@virtru.com (202) 577-3683.

B. Security Document Library

These policies and procedures and related security practice information will be kept in our **Security Documentation Library** (SDL). The **SDL** is located in google drive and backup to the Synology NAS.

Documentation about security practices (logs of activities, etc.) will either be kept in this SDL (or Notebook) or in a short file in the SDL that will describe where the security practice documentation resides. The intended result is that anyone with access to the SDL will be able to locate any piece of documentation associated with our security program.

Outdated and superseded materials from the SDL will be kept in an archive (the Security Documentation Archive) for at least seven (7) years after the date when they are first outdated or superseded.

II. Preface and Background Material

A. Overview

It is vital to the reputation and profitability of **Virtru** that our information and our clients' information, in all forms, be protected from unauthorized use, modification, loss, copying, etc. This document sets out the default standards, which must be met to ensure that control.

Our information may exist on paper, in voice systems, on IT systems and networks, in the minds of our people, and in other forms. The information which needs protection includes, but is not limited to:

1. Client information (both for customer companies and for people as individuals)
2. Financial information, including credit cards, salaries, banking, transactions and more
3. Medical information of all types
4. **Company** patents, business plans and other intellectual property

5. **Company** business records and planning materials, including our customer list, marketing and sales efforts, product line plans and more
6. Copyrighted materials, both which our **Company** creates and those which we obtain under license from others

B. Policy

Compliance with these standards is mandatory. Any deviation from these standards must be approved beforehand by the ISO.

III. Key Concepts

A. Information Security Principles

The protection of information can be described in several key dimensions:

1. Confidentiality
2. Integrity
3. Availability
4. Provability

In this document, the standards given are the **Company** defaults. They must be applied where appropriate, but always balanced against the cost of implementing the control, and the value of the information involved.

B. Definitions

To prevent confusion, these are the definitions used throughout this document.

Policies: Corporate documents which set out **Virtru's** position regarding business processes, behavior of personnel and similar topics. Policies are a high-level statement of **Virtru's** position. Some of **Virtru's** policies, which relate to information security are:

1. Information Security Policy
2. Privacy Policy
3. Acceptable Use Policy for IT Systems Users
4. Employment Policies

Standards: Rules that must be followed to enable an effective information security program. Compliance with the Standards is mandatory, but deviation is possible if approved by the ISO.

Standards define the minimum baseline procedures, practices and configurations for systems, applications, controls, networks and related topics. Standards are designed to provide a single reference point for use during software development and adoption,

installation of systems and tools, and during the contracts process with vendors and service providers. Standards do not, however, give detailed command-line instructions on how to meet the **Virtru's** policies. Those are given in the guidelines.

Guidelines: Built for each application and platform; to be followed when implementing that particular tool. A Guideline may vary a bit from one implementation to another, as long as the Security Standards are met and justification is given and properly documented.

Combined, these three levels of documents provide a method for **Virtru** to audit itself and ensure proper controls are in place, without excess cost or risk. They also provide a means for **Virtru** to explain to regulators, examiners, external auditors or investors how our **Company** is safe, trustworthy and efficient.

IV. Using These Standards

A. Audience – Who will use this document

This document applies to **Virtru's** employees, business units and any Business Associate Subcontractor supporting **Virtru**:

1. Technology and business process providers should comply with these Standards as a matter of contractual obligation
2. Employees and Business units within Virtru should comply, unless a Risk Assessment has been done and a deviation is approved by the ISO

B. How the document is used

This Standards document is a reference point to ensure a consistent framework of protections is in place. Implementing these standards involves:

1. Review of existing controls, procedures and tools against the Standards
2. Documenting compliance or deviations
3. Gap Analysis to determine where improvements are needed
4. A Risk Assessment to validate that the improvements are justified against the costs of the controls and the value of the information involved
5. Creation of a plan to close the gaps OR signoff of a deviation
6. Documentation of the new controls, procedures and tools

No signoff or approvals are needed if a level of protection higher than what is given in this Standard is determined to be needed for a given information asset.

C. Maintaining this document

This document must be reviewed at least once a year or anytime there are significant changes in software or security. Updates must be made to keep it in accord with **Virtru's** overall business goals and risk position. The document will be reviewed by the ISO or AISO. Any updates, improvements or suggestions should be sent to the ISO.

V. Roles and Responsibilities

A. Rules for ownership of information

The information and systems provided by **Virtru** to workforce members, contractors and representatives are owned by **Virtru**, which also determines appropriate usage and access rules. All data on **Virtru's** systems and networks is owned by **Virtru**, with the exception of software that the ISO has approved to be open sourced or otherwise transferred to another entity through code escrow or code exchange and/or trade.

In this document, the words 'information owner' refer to the person who owns the responsibility for the information. The information itself remains the property of **Virtru**.

B. Information users

Every user of **Virtru's** information must protect that information and ensure that it is used for **Virtru's** business purposes only. Any incidents or questionable issues in the security of our information must be reported to the ISO or AISO.

Information users may not assign access rights, authorize destruction or copying of information, or change the protections given to information assets. Information users must comply with all laws, regulations and **Virtru's** policies and procedures.

C. Information Security Officer

Virtru's ISO and AISO will:

1. Manage awareness programs relating to security and privacy topics
2. Maintain a central record of exceptions to this Standards document
3. Manage changes to this Standards document
4. Provide leadership relating to new security risks, controls and technologies
5. Oversee and approve the sharing and reuse of Personal Identifiable Information (PII) collected by or processed by the company

See Appendices for further information and *Information Security Committee* for a current listing of members.

VI. Information Classifications and Requirements

A. Overview

Information is classified by system to ensure that the controls applied to it are sufficient and also to ensure that the controls applied do not impair **Virtru's** business, ability to compete or **Virtru's** image.

All information must have a classification for security and must have requirements set for business continuity.

B. The Security classification process

Each information asset will go through the following classification process. Information assets include, but are not limited to:

1. IT platforms such as servers and workstations
2. IT applications including database transaction processing and email
3. Data sets
4. Paper copies of information
5. Information types typically known to workforce members, such as customer information

In general, an information asset includes both the raw information itself (paper, oral or data entry), the location where it resides, the business processes which handle it and the systems and tools that handle it.

Information assets will also be reviewed during:

1. Development, acquisition or deployment of software
2. Connections of computers or networks to outside systems or networks
3. Granting of access to any outside organizations

The security classification of an information asset is assigned according to the highest of these dimensions. As an example, if an asset is regulated by law, then it needs the highest classification, even if the asset is not critical to the Company's business.

C. The classes of information for Security and Privacy

This policy applies to all workforce members, management, contractors, vendors, business partners and any other parties who have access to Company or client data.

Data Types

The security classification of an information asset is assigned according to the highest of these dimensions. As an example, if an asset is regulated by law, then it needs the highest classification, even if the asset is not critical to **Virtru's** business. **Virtru** deals with two main kinds of data:

1. **Company-owned data** that relates to such areas as corporate financials, employment records, payroll, etc.

2. **Personally Identifiable Information (PII)** that is the property of our clients or workforce members, such as Protected Health Information, social security numbers, credit card information, contact information, etc.

D. Setting requirements for business continuity

The requirements for an information asset relating to business continuity are not set by classification, but are specific to that asset. They include:

1. Required uptime for the information asset
2. Required restoration time if the data must be restored
3. Required frequency of backups
4. Requirements for storage of backups
5. Requirements for testing of the recovery process

The default requirements for business continuity are listed in the information handling rules' section. See *Handling rules for the information classifications* in this document and *Disaster Recovery Plan* for detailed information.

This section outlines the basic rules for handling information types according to the classifications. More specific standards for platforms, processes and networks appear in each topic section of this standards document.

E. Enforcement

It is the responsibility of everyone who works at **Virtru** to protect our data. Even unintentional abuse of classified data will be considered punishable in accordance with the extent and frequency of the abuse.

VII. Handling Rules for the Information Classifications

A. Overview

This section outlines the basic rules for handling information types according to the classifications. More specific standards for platforms, processes and networks appear in each topic section of this standards document.

B. Inventory of Information Assets and Electronic Asset Management Log

An inventory is maintained of all significant information assets belonging to, or used by **Virtru**. This inventory includes:

1. Serial numbers/license numbers
2. MAC Addresses
3. Model
4. Device Type
5. Manufacturer
6. The information owner
7. Username
8. Location
9. OS Version
10. The custodian of the information and repository location (database, file cabinet, etc.)
11. Purpose in our systems
12. Asset value in dollars or other suitable measurement
13. The sensitivity of the asset, due to regulations, laws, customer expectations or other requirements
14. Requirements for the asset regarding availability, uptime, etc.
15. Contact information for one or more parties who can repair, restore, replace, or recover this asset. Examples are hardware/software vendors, IT support vendors, and/or staff members

This asset list contains information that is restricted to executives and super-admins, and therefore is stored securely on the Synology NAS, which itself is backed up to AWS Glacier.

This inventory will be reviewed and updated quarterly, or as new assets and devices are added. Logs are maintained as the *Inventory of Information Assets Log* and the

Organizational Chart/Electronic Asset Management Log. A current copy of this inventory will be kept at a separate location as described in our *Disaster Recovery Plan.*

C. Rules for access to information assets

If any given security incident involves a breach of Personally Identifiable Information (PII), the ISO will follow our security policies and *Incident and Breach Policy* for handling such a breach.

If a security incident includes the potential that personal information may have been obtained by unauthorized individuals, the ISO will work with the client to notify affected persons of this event, in compliance with relevant federal and/or state law.

See also *Breaches or Impermissible Uses/Disclosures* within these Security Policies and Procedures.

VIII. Access Control Policy

A. Overview

This policy defines how **Virtru** manages access to electronic information and systems. **Virtru** provides access to electronic data relative to the workforce member's job requirement. We limit access to categories of data and systems that each person needs to do his/her job. We require that each workforce member restrict his/her access to only those specific records and functions needed to carry out his/her job. For the purposes of this policy workforce members are anyone in **Virtru** who has access to Personally Identifiable Information (PII).

B. Access levels

The ISO will qualify the workforce member to have one of these forms of access based on the job role (in order of increasing access permissiveness):

1. Low Access to Corporate Email and Salesforce Data
2. General Access to product metrics
3. Admin Access to all front end products as well as product metrics
4. Super Admin Access to all front and backend products as well as product metrics

The access will match the person's job responsibilities The ISO will keep a record of the type of access provided to each workforce member. The record will include a date and justification and will be kept in our *Employee Access Request Log* in the **Security Documentation Library.**

The granting of access to Business Associate Subcontractors will be done in the same way as it is done for workforce members.

C. Granting access

The ISO will provide accounts with the matching technical privileges and give the workforce member the account information including a one-time-use password that the user must change to a private password upon first use of the account.

1. Only the person assigned to an account will be allowed to use that account.

2. Each time a user logs in to a system, a log will be maintained by that specific program with the following information
    a) When the user accessed the system
    b) What information the user accessed while in the program
    c) Tracking will be done by using the User ID and IP Address
    d) The ISO will maintain this log for a period of 1 year

3. The ISO and AISO will each have a special account that allows them to create new accounts. The accounts will be used:
    a) In an emergency when all other accounts have been disabled or locked out;
    b) To either reset the passwords on locked accounts; or
    c) To create new accounts that provide needed access.

4. When a change in the role of a workforce member requires a change in access privileges, the ISO will reassess the needs and provide new access privileges based on the policy in Access Levels in this section.
    a) If a workforce member leaves **Virtru**, the ISO will remove that member's access as soon as the access is no longer needed.
    b) If a workforce member takes a leave of absence and is not expected to require access, the ISO will disable the workforce member's account when he/she leaves and re-enable it upon his/her return to work.
    c) For other people who work around protected electronic information but are not qualified to access it, the ISO will decide which of the following two steps to take:
        1) Train the person to understand his/her responsibilities
        2) Supervise while he/she is exposed to the data
    d) For cases in which the provision of individual accounts is not feasible {e.g. access by any one person of a large help desk staff of a vendor}, the ISO will make:
        1) A serially reusable account and provide a one-time-use password to the vendor's representative for each time that access is needed; and

2) The password will be changed by the ISO on the account after each use of the account to a value not known to the vendor.

D. Vendors, contractors and other outsiders

Any outside organization that wishes to gain access to our or our client's Private/Internal, Confidential or Protected information must:

1. Sign a Business Associate Subcontractor Agreement; AND
2. Be willing and able to show that their privacy and security controls are at least as stringent as **Virtru's** controls.

See *Business Associate Subcontractor Agreement* for details of Agreement.

A written history of incidents reported by Business Associate Subcontractors (BAS) will be maintained. If the ISO becomes aware of a pattern of activity in which the BAS is not carrying out the contractually required safeguards, then the ISO will do one of the following:

1. Attempt to remedy this failure
2. Terminate the contract, if attempt to remedy is not feasible
3. Report the situation to the U.S. Secretary of Health and Human Services, if terminating the contract is not feasible.

If any given security incident involves a breach of Personally Identifiable Information, the ISO will follow our privacy policies and incident management plan for handling such a breach.

If a security incident reported by a BAS includes the potential that personal information may have been obtained by unauthorized individuals, the ISO will work with the BAS to notify affected persons of this event in compliance with relevant federal and/or state law.

See also *Breaches or Impermissible Uses/Disclosures* within these Security Policies and Procedures.

E. Individuals

Individual persons who work for such an organization must also be bound to the outside organization's controls. Such individuals must:

1. Have Business Associates Subcontractor Agreement with their own company; OR
2. Have a contract with their company; AND
3. Have appropriate background checks and bonding in place.

F. Policy

Virtru will not knowingly accept any confidential information belonging to third parties until that information is reviewed against our protections and the appropriate agreements put into place and signed by the information owner. The agreements should include all requirements for controls over the third-party information and the processes to be followed.

IX. Rules by Data Classification

A. Public/unclassified data

This type of information does not require special marking or storage, except to ensure that it is available when needed. It does need to be kept safe from unauthorized modification.

B. Private/internal data

Access is granted on a need-to-know basis, as authorized by the manager of the user of the information. Some types of jobs are automatically granted access to data in this class.

Paper products and backup media containing this type of information must be stored and handled in a secure manner. This includes:

1. Printing this class of information only to a known printers located in secure areas on secure networks.
2. Encrypting or physically securing backup media
3. Keeping paper copies of information locked or otherwise secured

This class of information is not released to anyone outside **Virtru** without a non-disclosure agreement, a Business Associate Subcontractor Agreement, and/or without the approval of the information owner. Private/Internal use information must not be transmitted across any unsecured outside network or path without proper controls. This means encryption for files and emails or secured packaging for paper copies.

C. Confidential or protected data

Access to this type of information is on a need-to-know basis, as approved by the ISO or information owner.

This class of information is not released to anyone outside the Company without a non-disclosure agreement and without the approval of the information owner.

Confidential or Protected information must not be transmitted across any unsecured outside network or path without proper controls. This means encryption for files and emails, or secured packaging for paper copies.

Paper products and backup media containing this type of information must be stored and handled in a secure manner. This includes:

1. Printing this class of information only to a known, secure printer
2. Encrypting and physically securing backup media
3. Keeping paper copies of information locked or otherwise secured

D. Managing data sources

The key to managing **Virtru's** business' media and documents is to first consider the source of the information, then the media type. **Virtru's** media and documents containing Protected Information (PHI, CJIS, or other) require protection from inception through disposition. Regardless of the owner relationship, the Company will be cognizant of the following Media Types:

1. **Hard Copy:** paper printouts, printer and facsimile ribbons, drums, etc.
2. **Electronic:** the bits and bytes contained on hard drives, flash drives, phones and tablets.

E. Retention of media

Retention: The length of time documentation and/or information is retained according to the level of confidentiality and to the business continuity requirements. System/ information owners should consult with the ISO to ensure compliance with the record retention regulations.

Virtru's hard copy record retention policy is as follows:
We will digitize and encrypt these records for secure storage on the Synology NAS, which will be backed up to AWS Glacier.

Virtru's electronic record retention policy is as follows:

1. Agent of Record letters and Letters of Authorization requests are held for no less than ninety (90) days
2. New Business Group documents are held for no less than ninety (90) days
3. General documents are held for no less than ninety (90) days
4. Banking statements are held for seven (7) years
5. Workforce member records are held for seven (7) years

F. Sanitization of Media

When media (hard copy and electronic) becomes obsolete, is no longer required or no longer usable, it is critical that proper sanitization is accomplished.

Sanitization Types

Disposal: the act of discarding media. This is often done via recycling paper containing "non-confidential" material.

*Reinitializing***:** Re-formatting drives so information cannot be retrieved by recovery utilities or any other forms including keystroke recovery attempts. This is achieved by overwriting the disk with zeros for no less than one (1) time.

Purging: exposing the magnetic media to a strong magnetic field in order to disrupt the recorded magnetic domains, this is also known as degaussing.

Destroying: destruction of media so it cannot be reused as its original purpose.

Virtru's electronic disposal policy is as follows:

1. Hard-drives are purged, reinitialize or destroyed
2. CD or DVD disks are destroyed
3. Flash drives are re-initialized or destroyed
4. Backup tapes are purged, reinitialized or destroyed

Any systems that are leased must be securely sanitized of all Company data prior to being returned to the leasing company. Any additional media (e.g. hard drives, USB drives etc.) will be reformatted then written with zeros for no less than one (1) time to ensure that the data contained on the media has been destroyed.

Virtru shall maintain appropriate records of sanitization. This entails validating how, where and when media is sanitized. See *Media Sanitization*.

G. Information sharing and privacy

In most cases the sharing and reuse of Personally Identifiable Information is governed by law, regulation and customer expectation. To ensure **Virtru** meets those requirements, no Personally Identifiable Information will be shared with outside companies, vendors or personnel without written approval from the ISO.

Personally Identifiable Information includes:

1. Names
2. Addresses

3. Phone Numbers
4. Email Address
5. Dates of birth
6. Social Security Numbers
7. Ages
8. Gender
9. Personal Financial Information
10. Personal Medical Information
11. Criminal History Information
12. Personal Employment Information
13. Personal Buying Histories
14. IP Addresses

Aggregated and statistical data developed from this personal information is not personally identifiable and, thus, does not need the approval of the ISO for sharing and re-use.

Virtru will comply with all applicable laws and regulations regarding the privacy of personal information, including such laws as:

1. Health Insurance and Portability and Accountability Act (HIPAA)
2. Health Information Technology for Economic and Clinical Health (HITECH)
3. Family Educational Rights and Privacy Act (FERPA)
4. Criminal Justice Information Systems (CJIS)
5. Federal Information Security Management Act (FISMA)

Virtru's workforce members, contractors, vendors and suppliers may come into possession of Personally Identifiable Information as a part of their relationship with **Virtru**. Each person must comply with all laws, regulations and policies and ensure such information is properly protected.

H. Release of company information

Virtru's information may only be released with the approval of the ISO or the information owner. This includes the posting of **Virtru's** information of any type onto bulletin board systems, public networks, social media or other open sharing tools. Any information released must contain proper copyright, trademark, disclaimer and patent notices as appropriate.

X. Risk Analysis and Management

Risks to **Virtru's** assets and environment should be addressed proactively rather than reactively. The controls applied to the risks must also be periodically reviewed to ensure the controls are working properly and efficiently.

Security Policies and Procedures

A. Risk reviews

The job of reviewing risks and setting requirements for controls is the ISO's. Risks should be reviewed or assessed when:

1. Developing or deploying new applications, systems, networks or software
2. When significant changes are made to that same list
3. When business processes change
4. When **Virtru** enters a new geographical area of business
5. When **Virtru** enters a new line of business
6. When incidents occur or new risks emerge
7. When new regulations or standards are set

B. Risk management

Risks may be accepted, avoided or mitigated.

Accepting the risk is appropriate when the cost of avoiding or mitigating the risk is greater than the expected loss. The losses considered should include the less tangible items such as **Virtru's** reputation, loss of market share and loss of public trust in **Virtru**. Acceptance of a risk requires complete documentation of the risk analysis and approval by the information owner.

Avoiding the risk is appropriate when the cost of insurance is less than the cost of incremental controls. However, basic controls must always be in place.

Mitigating the risk is appropriate in most situations. These situations are those where compensating controls are possible, cost-effective and manageable. These mitigating controls may include:

1. Increasing a protection to a level higher than what is listed in this document
2. Improving oversight or monitoring of the risk to limit impact and minimize response time
3. Limiting transactions or other events to minimize the possible impact of the risk event

The method chosen for managing the risk (acceptance, avoidance, mitigation) must match the business value and costs involved and must be approved by the information owner.

For further detail, see the *Risk Management Policy* and the *Disaster Recovery Plan*.

XI. IDs and Accounts

A. User IDs

Each user shall be assigned a unique identification, called the User ID. This User ID is not considered to be sensitive, unless the User ID relates to an authentication process, systems or application management role.

On sensitive systems or applications the User ID should not be easily identifiable, thus making unauthorized usage more difficult.

Sharing of User IDs is not permitted, unless justified by business requirements and approved by the ISO. For any such shared User ID, the password will be shared using LastPass, and the password will not be shared with the additional user. If this password is shared, it must be changed immediately after the User ID is used to keep the shared User ID from becoming generally available and a risk to **Virtru**.

Guest and anonymous User IDs are not allowed, unless the system involved is not connected to any of **Virtru's** networks and the system does not have any **Company** information on it. Typically, these guest or anonymous User IDs are only used during development or during marketing/sales demonstrations.

B. ID and account creation

User IDs are only to be created following a process approved by the information owner. This User ID creation process should include:

1. Expiration dates for the User ID
2. Renewal process for the User ID
3. Documentation of the role, business process and job function relating to the User ID

User IDs are to be created for the purpose needed and not in a manner to compromise segregation of duties.

A record of all User IDs and their owners will be maintained by the ISO. See the **Change Control Logs for Security** for further detail.

C. Account management

A periodic check will be made of all User IDs and any redundant, dormant or unused IDs will be removed. The ISO must review the privileges set up for User IDs no less than once every year.

D. Application Specific IDs

Application Specific IDs and logins are used in support of automated applications, transactions, processes or batch jobs. These have non-expiring passwords.

1. Application Specific IDs must not be used by individuals.
2. Application Specific IDs must be created only with the approval of the ISO, must be documented and have strictly limited access rights.
3. Application Specific IDs must not have ad hoc or interactive capabilities on the applications, systems, transactions or data involved.

XII. Authentication and Passwords

A. Overview

All systems, applications, databases or other information repositories shall require users to authenticate themselves prior to granting access. Authentication may be via an approved password scheme or via an access control device. All systems that support 2-factor authentication must have them enabled.

The authentication method used must suit the value of the information asset, matching the cost of the authentication method against the level of protection required. In general, administrative and other high-value User or Service IDs will use the most secure methods of authentication.

B. Password format

Must be at least twenty (20) characters in length and must contain characters from all of the following four (4) categories:

1. English uppercase characters (A through Z)
2. English lowercase characters (a through z)
3. Base 10 digits (0 through 9)
4. Non-alphabetic characters (for example, ! , @, #, $)

C. Rules

Users are forced to create a new password every 3 months. Users must not write down on paper or store any passwords; they must also never share their passwords with other users. Software is provided to securely store user passwords, with encryption.

A maximum 5 attempts will be permitted prior to disabling the account. New passwords must be different from the previous three (3) passwords. Passwords must be changed immediately upon first use of a new ID. Passwords must never be stored or transmitted in clear text. Systems must not echo back the password as it is entered.

Passwords must not be retained by any system or application longer than is needed to grant access. Initial passwords must be transmitted separately from the ID.

XIII. Authorization and Rights Management

A. General Access Roles

Access roles are defined as:

1. *Super Admin Access:* Access to all front and backend products as well as product metrics
2. *Admin Access:* Access to all front end products as well as product metrics
3. *General Access:* Access to product metrics
4. *Low Access:* Access to corporate email, sales, and marketing data only

Amazon Web Services (AWS)
Users who have access to AWS have Super Admin Access. User sessions will expire after one (1) hour of inactivity

Cloudant
Users who have access to Cloudant have Super Admin Access. User sessions do not automatically time out, the user is required to log out at the end of a session.

Github
Users who have access to Github have General Access. User sessions do not automatically time out, the user is required to log out at the end of a session.

ELK Stack
Users who have access to ELK Stack have Admin Access. User sessions do not automatically time out, the user is required to log out at the end of a session.

Mixpanel
Users who have access to Mixpanel have General Access. User sessions do not automatically time out, the user is required to log out at the end of a session.

Kissmetrics
Users who have access to Kissmetrics have General Access. User sessions do not automatically time out, the user is required to log out at the end of a session.

Salesforce
Users who have access to Salesforce have General Access. User sessions automatically time out after twenty (20) minutes.

Segment.io
Users who have access to Segment.io have General Access. User sessions do not automatically time out, the user is required to log out at the end of a session.

B. Access Rules

User IDs and accounts must be authorized to access only those elements needed for the user's role, including:

1. Limiting access to datasets and types
2. Limiting access to operating systems
3. Limiting times of access

Access to operating systems, ad hoc transaction capabilities, software development tools, and other system devices must be controlled and limited to only those User IDs which require that access.

Segregation of duties shall be established for all information asset controls to minimize the possibility that one person is responsible for an entire asset.

A user (and hence User ID) that changes role or job function must have access rights updated to match the new job role or function. Any changes will be documented in the *Responsibility Change Log*.

C. Temporary Privileged Users and Accounts

Temporary privileged users are defined as those who:

1. Have any control over security tools on an application, system or network
2. Can update operating systems or similar tools
3. Can directly modify data within a database or application
4. Have any special capabilities built in by the vendor of the application software, operating system or platform

Access at a temporary privileged user level shall be granted only on a need-to-know, need-to-perform basis, and then only to the assets required. Temporary privileged user access shall only be granted to those supporting **Virtru's** applications, networks and systems.

D. Assignment and Revocation Procedure

The ISO shall electronically complete:

1. An Employee *Access Log* for all new hires and/or workforce member change of status.
2. An *Exit Checklist* for all terminations.

E. Logout After Inactivity

The ISO shall verify that all users have activated a password-protected screensaver that automatically prevents unauthorized users from viewing or accessing electronic protected information from any system or device that can be used to access electronic information systems. After a maximum of 10 minutes of inactivity the system should log off and lock the device, making information inaccessible. Once logged off a user must re-enter a password to gain access to electronic protected information.

XIV. Breaches or Impermissible Uses/Disclosures

A. Definitions

Incident is defined as any breach of security, privacy, continuity, legal or regulatory controls over information assets of any type. Examples of such incidents include but are not limited to:

1. Penetrations of systems, applications, networks or databases
2. Denial of service attacks
3. Misuse or mishandling of assets
4. Virus or other malware contamination
5. Transaction errors
6. Breaches of confidentiality agreements or contracts
7. Legal or regulatory violations

Breach is defined as an impermissible access, use or disclosure, which compromises the privacy or security of PHI.

XV. Breach Response

A. Overview

Virtru will maintain an effective method so that all information users, custodians and owners can readily report incidents.

Incidents will be reported to the person's immediate manager or the ISO. Once the ISO has been notified, said Officer will then follow the directions in the *Incident and Breach Policy*.

The ISO will investigate incidents and will log or report significant losses or threats immediately. The appropriate authorities will be contacted by the ISO depending on the severity of incident.

Incidents involving misuse by workforce members will be investigated by the ISO.

Depending on the severity of the incident, the Emergency Contact list may provide additional contacts. See the *Emergency Contact List* located in the *Disaster Recovery Plan*.

Confidential Reporting:

Confidential reporting may be done either by:

1. Calling (may leave voice message) the ISO or AISO
2. Sending an email to the ISO or AISO, or;
3. Google Form for anonymous reporting

XVI. Personnel Security

A. Screening for newly hired personnel, third parties, vendors

Proper verification checks must be made prior to granting any new workforce member, contractor, vendor, agent or affiliate access to Private, Internal, Confidential or Protected information. These verification checks will meet the requirements set forth by the **Company** and may include:

1. Professional qualifications
2. Identity checks
3. Criminal checks
4. Confirmation of academic and professional experience

The ISO is responsible for ensuring that background checks are made biannually on parties who are not newly hired workforce members. A third party will conduct background checks.

B. Training and Awareness

Virtru will provide security awareness training to each new member of our workforce with access to electronic **Company**-owned or private data (Refer to Data Types information Classifications) whose activities in the business we directly control. The training will be provided prior to that person assuming his/her duties. The training is designed to inform the person of his/her responsibilities under **Virtru's** security policies. At a minimum, this training will include the workforce member's role in:

1. Managing malicious software (e.g. viruses)
2. Using workstation(s) securely
3. Managing passwords and
4. Monitoring and reporting suspicious use of account(s)

Virtru's employees will also be trained annually on **Virtru's** Policies and Procedures. A record of successful completion of this training and annual retraining will be kept online by **Total HIPAA Compliance**.

Within 30 days of starting, individuals who are employed as developers will receive training on the security measures and mechanisms used to protect the company's systems and service. All new developers will be required to take and pass online training modules covering secure coding when using Node.js. Developers who will be managing or developing operational aspects of the company's systems will also be required take the Security Operations on AWS training course from Amazon.

A record of training will be kept of training that lists the employee, type of training, date of completion, the employee's signature, and an admins signature asserting successful completion of the training.

C. Terms of employment

Compliance with **Virtru's** policies regarding security and privacy are a condition of employment.

D. Acknowledgement

All users shall be required to sign an acknowledgement after being trained on **Virtru's** security and privacy policies.

E. Exit process for users

Upon exiting employment or any relationship with **Virtru**, all users who have been granted access to any information asset shall:

1. Relinquish all access to control devices
2. Report all User IDs in use by the person
3. Relinquish all information stored, whether on paper or on backup media
4. Relinquish all information processing devices, including workstations, all **Virtru**-owned mobile devices and others

All systems access will be revoked.

The ISO will verify termination is completed, and document this procedure has been followed. See *Exit Checklist*.

F. Security Sanction Policy

Virtru's security policies call for the workforce that has access to electronic Protected Employee or Client Data and others to perform certain duties and to refrain from certain actions. Failure to do so will be sanctioned according to the policy below.

If the infraction involves the unauthorized use or disclosure of electronic Protected Employee or Client Data, the sanctions below apply to the designated workforce members including managers, supervisors, and staff who have access to Protected Employee or Client Data.

We define a serious infraction as one that results in known significant damage or that threatens imminent significant damage. Other infractions are simple infractions. The process below is intended as guidance for our business management in sanctioning Security Policies and Procedure infractions. We reserve the right to implement sanctions differently if, in our judgment, the situation warrants it.

First Security Infraction

If the infraction is:

1. A simple infraction, and
2. The first infraction in the last 3 years

The sanction will be retraining the workforce member on the appropriate policy/procedure and placement of a written letter of reprimand in the employee file.

The letter will notify the person of the nature of this infraction and of sanctions for future potential infractions.

Second Security Infraction or First Serious Infraction
If the infraction is:

1. A serious infraction, or
2. The second infraction of either type within 3 years

The sanction will include a written letter of reprimand that is given to the person at fault, placement of a copy of the letter in the employee file, and one week's suspension without pay. The letter will notify the person of the nature of this infraction and of sanctions for future potential infractions.

Third Security Infraction or Second Serious Infraction
If the infraction is:

1. A second serious infraction within 3 years, or
2. A third infraction of any type within 3 years

The sanction will be dismissal from the workforce.

XVII. Legal and Regulatory Issues

A. Legal processes

Responses to subpoenas, deposition requests and other legal issues will be referred to and handled by the CEO. The ISO will not respond to such legal processes without company legal counsel.

B. Copyrights and licenses

Virtru may have agreements in place governing the use and handling of software, information and other tools that are owned by other entities. All users and information owners will comply with those agreements.

Users are responsible for complying with copyrights regarding any material obtained via the Internet. This includes files, graphics, software, audio and video materials.

Users may not agree to a new copyright license, unless given permission by the ISO.

Licensed software must be used in accordance with the license agreement and only the number of copies licensed must be created or used.

C. Export controls

Information may not be exported across country boundaries without prior written approval of the **Company**'s ISO.

XVIII. Malware and Antivirus

A. Definitions

Anti-Malware: malicious software that may reside on a computer, steal information or cause destruction. This can include a virus, trojan horse, keylogger, hijacker or dialer.

Sandbox: A highly controlled area where programs and software can be tested before being allowed access to the rest of the system.

B. Operating system anti-malware requirements

Macintosh, Linux and iPhones:
Virtru has determined that software for anti-malware scanning on Macintosh, Linux and iPhones is not necessary due to the low probability of encountering malware, the demand on computer processing power, and loss of productivity by the user. This policy will be reviewed annually or as needed to determine if this is still valid.

PC Operating Systems:
Data entering **Virtru's** Window-based systems must be subject to an up-to-date anti-malware scanning tool that is scheduled to run at regular intervals. In addition, all emails, attachments, disks, backup media, USB memory devices and other data carrying tools must be scanned before they are downloaded or allowed access to the system. All incoming data must be sandboxed by the anti-malware program before it is allowed access to the system. The anti-malware pattern files must be regularly updated.

Android and Windows Phone Operating Systems:
All such devices must have anti-malware tools in place prior to being connected to **Virtru's** networks. These systems must be subject to an up-to-date anti-malware scanning tool that is scheduled to run at regular intervals. In addition, all emails, attachments, and SD cards must be scanned before they are downloaded or allowed access to the system.

C. Affiliates

Virtru and all of its affiliates, contractors, consultants, vendors, representatives or other service providers must make certain that adequate controls are in place to guarantee that data coming from their systems and networks is free from malware.

D. Infected devices

The ISO will use approved tools to monitor and remove malicious software from **Virtru's** assets. Virus-infected computers, tablets or phones must be removed from the network immediately until they are verified as virus-free.

E. Employees' Requirements

1. Workforce members will not load software on our **Company's** information equipment without permission from the ISO.
2. Workforce members will not open electronic files from unfamiliar sources.
3. Will exercise best practices when using the **Virtru** network. The employee will not:
    a. Circumvent user authentication on any device
    b. Sniff network traffic
    c. Access data, servers, or accounts they are not authorized to access
    d. Cause a disruption of servers
    e. Violate copyright law by transmitting copyrighted pictures, music, video and/or software
    f. Export or import software, technical information, encryption software, or technology in violation of international or regional export control laws
    g. Use the Internet or network in a manner that violates **Virtru's** Security Policies, or local laws
    h. Intentionally introducing malicious code; including, but not limited to, viruses, worms, Trojan horses, e-mail bombs, spyware, adware, and keyloggers

The workforce will be trained to know and carry out these malware protections. The ISO will generally provide permissions as required above only for actions that are intended for our **Company's** business and only under conditions that limit the potential for the introduction of malware.

F. Enforcement

Any activities with the intention to create and/or distribute malicious programs into **Virtru's** networks (e.g., viruses, worms, Trojan Horses, e-mail bombs, etc.) are prohibited, and user will be subject to **Virtru's** Sanction Policy, and will be reported to the proper state and federal authorities.

XIX. Change Control Logs

A. Preface

The ISO is required to maintain logs of systems that document any changes and access users may have to sensitive systems. The following are the retention policies for these logs.

B. Policy

Audit logs will be retained for at least one (1) year in raw format, preferably electronic, to preserve evidence. Audit logs must be configured to prevent overflow, erasure or tampering. Audit logs will be configured to record information such that:

1. Sufficient information is available for proper investigation of use, misuse, incidents and performance
2. User ID, event type, date and time are maintained
3. Time is according to a known time stamp so that events across systems can be coordinated
4. End-to-end accountability is always maintained

Events to be recorded include, but are not limited to:

1. Login and activity by any other privileged accounts
2. Changes to operating systems, application code or other tools
3. Backup and restore events
4. Changes affecting any cryptographic keys or devices
5. Stop or start of critical processes
6. Transaction failure, retry or duplication

All systems and tools involved in the protection process are required to always have change logs enabled and properly configured. This includes:

1. Firewalls
2. Email servers
3. Anti-malware tools especially the administration tools
4. Security administration tools such as password resets and account modifications
5. Monitoring tools
6. Routers and other network devices
7. Github
8. Amazon Web Servers (AWS)

9. IBM Cloudant
10. SalesForce
11. Elk Stack
12. Mixpanel
13. KissMetrics
14. Segment.io
15. Sendgrid
16. Customer.io

Logs will be reviewed and analyzed by delegates of the ISO.

Reports of problems and incidents will follow the incident reporting method, listed in the *Incident and Breach Policy*.

XX. Encryption

A. Preface

Encryption is the process of encoding messages of information is such a way that only authorized parties can read it.

B. Application Encryption Policy

Virtru encrypts all client data using NIST-approved cryptographic modules. **Virtru** uses AES 256 encryption for its application. **Virtru's** key length requirements shall be reviewed annually as part of the yearly security review and upgraded as technology allows.

The use of proprietary encryption algorithms is not allowed for any purpose, unless reviewed by qualified experts outside of the vendor in question and approved by the ISO.

C. Key Rotation Policy

Virtru requires the following key rotation policy to protect all external systems. The following is the list of policies for the following keys:

1. **Secure Socket Layer (SSL)Keys**
   Virtru uses SSL keys to enable Transport Layer Security (TLS) traffic between clients and **Virtru's** servers.

   Rotation Policy

Rotation of SSL Keys is done upon SSL Key expiration. They are set to expire at 1 (one) year and rotated at that time. If there is an incident or the security keys are thought to be compromised, the keys will be rotated immediately.

2. **Secure Shell (SSH) Keys**
   The SSH keys provide a layer of authentication to get into the production servers. SSH Keys are used as the authentication mechanism to remotely login to a server. They are also used as the first factor of authentication to assume root access on the production servers. Each developer has his/her own SSH key and is responsible for keeping this key secure.

   Rotation Policy
   All SSH keys are rotated at a minimum of every three (3) months. If there is an incident or the SSH keys are thought to be compromised, keys will be rotated immediately.

3. **Amazon Web Services (AWS) Access Keys**
   Unique AWS Access Keys are given to each developer with a unique AWS Login. This allows the developer to make Application Protocol Interface (API) calls to AWS. Currently, 1-2 AWS Access keys exist per developer. Where are these stored? How do you know how many keys each developer has?

   Rotation Policy
   These keys are rotated at a minimum of every 90 days. If there is an incident or the AWS keys are thought to be compromised, keys will be rotated immediately

4. **Application Keys**
   Virtru uses these keys to encrypt sensitive key data stored in the CouchDB database managed by IBM. There is only one copy of this key.

   Rotation Policy
   No rotation requirement.

   Backup Policy
   Backup of the key is kept with **Virtru's** Super Administrators.

The export of encryption technologies is restricted by the U.S. government. Residents of countries other than the United States should make themselves aware of the encryption technology laws of the country in which they reside.

D. Device Encryption Policy

Virtru requires devices have encryption enabled for any files, folders, drives, databases, or other stored data that may have sensitive information including protected personally identifiable information.

The implementation of any encryption scheme is performed by the user and the deployment of the encryption tool, including all keys, must meet industry best practices and be properly documented. Currently the minimum standard is 128-Bit encryption. Encryption keys will be managed by the user and a log will be maintained by the ISO.

Mac OS Devices:
Mac OS devices that store Protected Information (PHI, CJIS, etc), are required to use full disk encryption using FileVault 2. Users must provide a copy of their key to the ISO; both will maintain the key in a secure location.

For devices that do not store Protected Information (PHI, CJIS, etc), full disk encryption is at the discretion of the user. However, if this is used, a copy of the encryption key will be stored by both the user and the ISO in a secure location.

Windows OS Devices:
Windows OS devices that store Protected Information (PHI, CJIS, etc) are required to use full disk encryption with the program Bitlocker. The encryption key will be maintained in a secure location by both the user and the ISO.

For devices that do not store Protected Information (PHI, CJIS, etc), full disk encryption is at the discretion of the user. However, if this is used, a copy of the encryption key will be stored by both the user and the ISO in a secure location.

Linux OS Devices
Linux OS devices that store Protected Information (PHI, CJIS, etc) are required to use full disk encryption. This will be encrypted at a minimum of 128 bit encryption. The encryption key will be maintained in a secure location by both the user and the ISO.

For devices that do not store Protected Information (PHI, CJIS, etc), full disk encryption is at the discretion of the user. However, if this is used, a copy of the encryption key will be stored by both the user and the ISO in a secure location.

Android Devices
All Android devices that store Protected Information (PHI, CJIS, etc) will have encryption turned on and will be password protected at all times. The encryption key will be maintained in a secure location by both the user and the ISO.

Windows Phone
All Windows Phones that store Protected Information (PHI, CJIS, etc) will have encryption turned on and will be password protected at all times. The encryption key will be maintained in a secure location by both the user and the ISO.

iPhone
iPhones are natively encrypted. These devices are required to be password protected and/or biometrically protected at all times.

E. Wi-Fi network encryption

All wireless access points owned by **Virtru** are required to be protected using Wi-Fi Protected Access 2 with Advanced Encryption Standard (WPA2-AES). This password will be changed quarterly and will not be shared with users that are not employees or authorized Business Associates. Any outside users are required to use guest access points.

Employees that access **Virtru** resources from home are required to use Wi-Fi Protected Access 2 with Advanced Encryption Standard (WPA2-AES) to protect their devices. This password should be changed quarterly.

F. Email encryption

Virtru requires the use of its secure, encrypted email service to communicate with our employees about their Personally Identifiable Information, and to communicate any sensitive data. All email communication that includes personally identifiable data, and potentially sensitive data will be encrypted.

Virtru uses only its secure, encrypted email service to communicate with clients about their Personally Identifiable Information.

Virtru forbids the use of chat, texting or instant messaging programs by devices that store PHI.

G. Enforcement

Any workforce member found to have violated this policy may be subject to disciplinary action, up to and including termination of employment.
See *Sanction Policy*.

XXI. Assessments and Testing

A. Overview

The Security Rule of HIPAA mandates that covered entities implement appropriate information security policies and procedures to protect PI from "reasonably anticipated threats and hazards."

B. Penetration testing

Penetration testing of all servers containing PII will be conducted monthly by internal personnel, and by an external 3rd party at least annually or whenever there is a major system update. Testing shall validate the security of:

1. External connections
2. Operating systems
3. Applications
4. Databases
5. Network controls
6. Security procedures, including monitoring and incident response

C. Vulnerability assessment testing

Vulnerability assessments will be conducted periodically on all network-connected systems devices. Any vulnerability found must be corrected in a timely manner. Vulnerability assessments also shall be conducted when:

1. A new system, application or network is installed inside the Company
2. Changes are made to firewalls, VPNs or other security control tools
3. Changes are made to a web server's operating system
4. Changes are made to email servers
5. Configuration changes are made to databases
6. Configuration changes are made to critical applications
7. Changes are made to encryption scheme(s)

NOTE: *Vulnerability and penetration tests will not be conducted except with the prior approval of the ISO. No user will have vulnerability or penetration testing tools loaded onto any* ***Company*** *system without prior permission from the ISO.*

D. Wireless access testing

Testing of wireless access points (war-driving) shall occur regularly, to cover all wireless access points under the control of **Virtru**.

E. Password testing

Password cracking software shall be run periodically to validate the enforcement of password rules.

F. 3rd Party Security Management

A comprehensive list of 3rd parties with which the company does business with shall be maintained. Any 3rd party who handles or holds sensitive data or who provides a service which is critical to operations shall be required to assert that their own security practices and procedures meet or exceed that of the company's. Each 3rd party shall be assessed for conformance annually.

XXII. Use of Email, Internet, Messaging, Public Sites, Blogs, Social Media

A. Policy

Confidential, Private or Protected information and Internal Use information must not be transmitted across any unsecured outside network or path without proper controls. **Virtru** requires encryption for files and emails, or secured packaging for paper copies.

Users are responsible for ensuring that their use of these tools complies with all of **Virtru's** policies, and with applicable laws and regulations. This includes all employment policies such as sexual harassment, stalking, ethics and appropriate use.

These tools may not be used to access, send or receive, store or display:

1. Sexually explicit material
2. Confidential, Private or Protected Information or Internal Use material, except as meets the *Handling Rules* section
3. Viruses
4. Threats
5. Inappropriate or unlawful language, including:
    a. Offensive language
    b. Language inappropriate for the **Company** environment
6. Discriminatory or harassing language
7. Tools usable for hacking, password cracking, vulnerability scanning or penetration testing

These tools are the property of **Virtru** and are to be used only for **Virtru's** business. Access may be unavailable at any time, at the **Company's** discretion. Users must not assume that access to these tools will be available for incidental personal use.

All content transmitted over these tools is the property of **Virtru**. Content, including emails, may be inspected by **Virtru**. Such inspections will occur with the approval of the ISO or of the **Company** legal department. **Virtru** may monitor, filter or block content on these tools.

Users of blogs, social media sites such as Facebook, and other such tools must follow the guidelines outlined in **Virtru's** Social Media Policy. See *Social Media Policy*.

Users of blogs, social media sites such as Facebook, and other such tools must not represent their comments as coming from, or being representative of, the business or opinions of **Virtru**.

XXIII. Hardware

A. Definitions

Workstations: PCs, desktop computers, tablets and mobile computing devices that are located at **Virtru's** home office, or at remote locations. These devices are easily attacked and therefore must have access controls and anti-malware as specified in those sections of this document.

Servers: Devices that may or may not be housed at **Virtru** locations. Regardless of their location, these must secured in a manner that prevents them from being physically accessed without the appropriate level of security clearance.

B. Policy

A current copy of the *Organizational Chart/Electronic Asset Management Log* (**Risk Assessment**) will be kept at an off site location so it can be accessed quickly in the case of theft, fire, flood or other events that may make inventory information useful.

The ISO will keep a log of events noting when a physical security mechanism is repaired, replaced, installed, removed, modified, or maintained. This *Maintenance Log* will contain the: who, what, when, where, and why of the change and be kept in the **Security Documentation Library**.

Users of these devices are required to ensure that all appropriate protections are in place, including:

1. Physical security to prevent theft or misuse
2. Access controls suitable for the class of information on the device
3. Anti-malware
4. Keeping the devices locked to a desk or other secure location when outside

Virtru

5. Keeping control over backup media, as to minimize the possibility of theft or loss
6. Ensuring that the transport of these devices is secure and is safe from damage - for example, these devices should only travel in padded containers and should be locked and shut down during transit
7. Keeping all operating systems and tools up-to-date, with all updates and patches. Specific requirements for these topics are in the appropriate sections of this document

Virtru's devices must not be used by people who are not authorized, including family members and friends.

Software loaded onto such devices must follow the rules in the *Software* section of this document. In general, only approved software may be loaded, and shareware, games and other such software are not permitted.

International travel with these devices may require special approvals or configurations, especially in regards to encryption and licensed software. Before traveling internationally, users must contact the ISO to determine if such special considerations exist.

Connecting these devices to **Virtru's** networks must follow the rules in the *Networks* section of this document. In general, all such devices must be approved prior to connecting.

Remote access from these devices to **Virtru's** networks and devices must meet the controls specified in the *Networks* section of this document. In general, such access must be approved, and must have adequate controls over the security of information in transit.

Devices of these types that are owned by contractors, vendors or other third parties must meet all **Virtru** requirements prior to being connected.

C. Asset management

The ISO is responsible for maintaining an inventory of devices; as such he shall employ software to aid in the management of hardware and software asset. See *Handling Rules for the information classifications*

D. Enforcement

Any workforce member found to have violated this policy may be subject to disciplinary action, up to and including termination of employment. See *Sanction Policy*.

XXIV. Networks

A. Overview

Virtru's networks and devices shall designed, deployed and operated in a manner so as to provide proper levels of protection for the data being accessed and transported. Significant changes in network designs must be piloted before deployment.

Mechanisms must be in place to alert the ISO of possible attacks and breaches, to include:

1. Denial of service attacks
2. Improper access
3. Virus infections
4. Unauthorized software installations, email, FTP or other improper usage

Analysis must be conducted at least annually to validate the failure mode and recovery for all devices, network circuits and protocols. See *Change Logs* for details.

Responsibilities must be defined for:

1. Administration of network and communications connections
2. Operations of all devices
3. Monitoring
4. Timely review of audit logs and response to alerts or alarms
5. Review of unusual patterns of usage or activity

To minimize risks, any network connections or network segments should be disconnected when not in use.

B. Monitoring

Virtru uses AlienVault's Unified Security Management System to monitor all traffic on their network. Notifications are set to alert the IT staff of any unusual traffic and vulnerabilities, as well as log any security events that may occur.

C. Access control and physical security

Sites where **Virtru's** network equipment or communications lines exist are considered to be high-value and are subject to the access control and physical security rules

outlined in the *Physical Security* section of this document. In general, these rules will require:

1. Access limited to authorized personnel only
2. Physical security, including RFID or passcode controlled locks, are in place

D. Modifications, updates

Changes to the network architecture which affect the protections must be approved by the ISO. Examples of such changes include firewalls, wireless configurations, ports and proxies.

E. Documentation

The ISO shall maintain an accurate set of documentation of the networks and their components. This documentation is considered to be highly valuable and will be classified "Protected".

F. Network design

The goal for network design is to facilitate **Virtru's** business, while still providing protection for **Company** assets.

G. Segmentation

Virtru's networks will be segmented, in order to limit access to Confidential and Protected Information, without impacting the **Company's** business. There will be a guest network that will have no access to **Virtru's** Network Attached Storage, and other vital network resources.

H. Firewalls

Virtru's network and workstations in the DC office is protected using the Fortinet FortiGate 100D Firewall appliance. This device is configured to monitor and log all unusual traffic and warn **Virtru** of any network irregularities or attacks.

Definitions

Firewall: A part of the computer operating system or network that is designed to block unauthorized access while permitting outward communication. There are two different types of firewalls.

1. *Software Firewall:* Part of the operating system or can be a software add-on.
2. *Hardware Firewall:* Built into a router or a stand alone device. All computing devices will access a network through this point.

Firewall Settings

1. *Whitelisting:* Blocks all incoming traffic, and only allows traffic from good, or known IP addresses. The user will be required to authorize connections to their device.

2. *Blacklisting:* Authorizes all traffic as a default, and the user is responsible for denying unauthorized connections to their computing device from unrecognized or unknown IP addresses.

Software Firewall Policy

Virtru requires every device to have their internal software firewall activated at all times, and set to only allow whitelisted traffic. This will require the user to authorize any connections to their device. Any workforce member found to have violated this policy may be subject to disciplinary action, up to and including termination of employment.

I. Internet

Connections to the Internet must be:

1. Approved by the ISO
2. Periodically reviewed and tested for vulnerabilities
3. Protected by firewalls, intrusion detection systems and anti-malware tools

Some Internet tools, such as FTP, Internet Relay Chat, Telnet and Remote Procedure Call are restricted in use and must be approved for use by the ISO.

J. VPN-remote access

Virtual private networks (VPNs) will be used for traffic flowing over public networks to ensure the proper level of protection of **Virtru's** data.

K. Wireless

All wireless connections must have WPA2 with Advanced Encryption Standard (AES) turned on. This applies to all networks for **Virtru's** home office, and all telecommuting employees.

L. Telework Policy

If a staff member is allowed to telework/telecommute, they must comply with the **Virtru's** various employment policies, remote security measures and use the provided web portal via HTTPs, VPN and SSL. They must also make sure their home WI-FI is encrypted properly.

If they are accessing sites while on an unsecure router, they must make sure the sites they visit have a valid SSL certificate before proceeding.

M. Patching of systems and applications

Microsoft Windows OS Patches

Security Policies and Procedures

To manage the patching of Microsoft Windows operating systems (OS), Windows Software Update Service (WSUS) is used. The WSUS server automatically checks for patches once a day not during business hours. Then downloaded patches are manually released from the WSUS server to be downloaded and applied on the workstations. The ISO will evaluate all patches before they are applied; workstations will not automatically download OS patches from the WSUS server and updates will not be automatically installed. Installation of OS patches is done within a planned downtime.

Apple OS Patches
All Macintosh Operating System (OS) patching will be done through the App Store, and is the responsibility of the individual user to install. These should be applied within one (1) week of release from Apple.

Linux OS Patches
These patches should be applied and tested in an app staging environment before they are applied systemwide. The User is required to document where they received the patch, who downloaded it, what version of patching they are using, and when the patch was applied to the system. This documentation should be submitted to the ISO upon completion of the patching.

iPhone iOS Patching
All iPhone (OS) patching will be done through the App Store, and is the responsibility of the individual user to install. The device should be fully backed up prior to installing these patches either in the cloud or locally. All backups are required to be encrypted and password protected. These patches should be applied within one (1) week of release from Apple.

Android Phone Patching
All Android patching will be done through the Google Play Store, and is the responsibility of the individual user to install. The device should be fully backed up prior to installing these patches either in the cloud or locally. All backups are required to be encrypted and password protected. These patches should be applied within one (1) week of release from Google.

Windows Phone Patching
All Windows Phone patching will be done through the Windows Phone Store, and is the responsibility of the individual user to install. The device should be fully backed up prior to installing these patches either in the cloud or locally. All backups are required to be encrypted and password protected. These patches should be applied within one (1) week of release from Windows.

Patching of applications is done on a weekly basis, unless a zero-day exploit is found in an application that is used within the domain. If such an exploit is found and a patch is released for said exploit, an emergency planned downtime will be called for at the conclusion of the business day to patch the application in question.

N. Network hardening

Upon adding new devices to the network, installation procedures and set-up must be followed. Hardening will be done on network devices as well as systems (e.g. laptops, workstations and servers) and handled by the ISO or AISO.

Hardening will be broken down into the following categories which include, but are not limited to:

1. Preparation and installation
2. Updates to: software, firmware and hardware
3. Setting of appropriate account and auditing rules
4. Setting of appropriate security rules
5. Turning on the internal firewall
6. Turning on full disk encryption (If device will have access to PHI)
7. Other internal operations such as:
    a. Installation of appropriate software for workstation, server or laptop

The ISO will notify all affected staff when making changes to the hardening policy and will update the Security Policies and Procedures at that time. Written approval for hardening procedures above and beyond what is currently mandated is not necessary.

XXV. Physical and Environmental Protections

A. Definitions

Secure sites: These are locations that require the highest level of protection. These sites include:

1. Computing centers
2. Network connection points
3. Media storage locations
4. Locations containing platforms which carry high-value or critical information or transactions

Physical Security: These may occur within **Virtru** where the overall building is operated to a lower level of security, but a certain area is more controlled due to documents, assets or processes which occur in that area.

B. Secure Sites Policy

Secure sites shall be established for all computing centers and other locations where there is a concentration of high-value or sensitive information, systems or networks.

Sites will be designed and operated according to best practices and in consideration of threats appropriate to the site such as hurricanes, tornados, power outages and intruders.

This standard is not to be construed as a complete list of requirements for a secure site. It should be used in conjunction with expert advice, architects, fire marshals, OSHA and other regulations.

Separate, isolated areas will be created within the secure site for:

1. Media libraries
2. Electrical supplies and controls
3. Environmental and mechanical controls

Access to these sub-areas will be on a need-only basis. Critical assets and operations must be conducted in a secured area or secured site, with protections implemented in accordance with the risks and value of the assets, information and operations.

C. Data Centers

All data centers used by the company must provide proof that they meet or exceed the security requirements and standards of the company.

XXVI. Physical Security Policy

A. Entry Policy

All **Virtru's** workforce members are allowed access to the physical site at any time of the day, and any day of the week. The site is secured with an electronic door lock that accepts RFID cards and a numeric passcode. RFID cards are issued by the ISO or AISO by request and after approval.

B. Loss of RFID key

If a workforce member loses their RFID key, they will notify the ISO or AISO as soon as possible so the key may be deactivated. Any workforce member found to have violated

this policy may be subject to disciplinary action, up to and including termination of employment. See *Sanction Policy*.

C. Mobile devices

Mobile devices (laptops, netbook, tablets, iPhones, iPads, etc.) must have the appropriate encryption. Devices must have a power-on password or PIN, data encryption, auto-lock and role-based access per user. See *BYOD Policy* (**Forms for Employees**).

D. Video monitoring

Virtru's main office is monitored by a video camera. The data is stored in the Network Attached Storage which is physically secured in a locked cage in the IT closet. This data is stored for up to one (1) month.

E. Alarm system

Virtru's main office is monitored by an alarm system. It is attached to all doors and windows, and requires a 4-digit pin plus a modifier to deactivate. Once triggered, there is a 45-second delay before the local authorities, ISO and CEO are notified by the monitoring company. ADT is the company that is responsible for monitoring **Virtru's** main office.

The alarm pin code is changed quarterly, or at the time that an employee is fired or leaves the Company.

Virtru requires that this alarm be set by the last person to exit the office, and should be active anytime there is not an authorized employee on the premises.

F. Fire protection

Fire protection meet all regulations, including federal, state and local. Fire extinguishers shall be deployed in accordance with regulations of OSHA and fire inspectors. Periodic testing of alarms, fire extinguishers and fire evacuation procedures shall be conducted.

XXVII. Software

A. Overview

This section outlines the standards applying to operating systems, applications, databases and other software tools.

B. Acquisition of software

It is up to the developer to decide which software tools they will require for their workstation. All regulated software will only be download from trusted sources, such as the Apple App Store, Windows Store, or directly from reputable websites, etc.

Unregulated software is allowed, but must be fully documented and approved for use by the ISO. Documentation will include:

1. The source of the software
2. When it was downloaded
3. Who downloaded it for use and;
4. The date the ISO approved the use of the software

All software for Windows OS devices is required to be screened for malware prior to installation.

Any unauthorized software must be approved and validated, or removed.

Users of workstations, netbooks, wireless and other personal devices must not install unapproved software.

C. Open Source Software

The use of open source shareware or open source freeware may only occur if:

1. It is not used in a production environment OR
2. Prior to use it is fully tested, documented and **Virtru's** personnel are assigned to support it. Checks to be performed include:
    a. Verify usage license (no strong or weak copyleft licenses)
    b. Review open CVEs and available patches
    c. Perform internal security evaluation
    d. Flag for external security evaluation during next penetration test
3. The source of the software is documented
    a. URL
    b. Project lead
    c. Contributors
    d. Whether the project is actively maintained
4. The ISO approves of the use

D. Documentation

Documentation for sensitive applications and the operating systems which run those systems shall be stored securely. Backups of all documentation shall be maintained off

site. Access to the documentation for sensitive applications and the operating systems will be on a need-to-use basis.

E. Change Control and Maintenance

All proposed changes to production systems must be registered in the companies issue tracking system. Changes shall be categorized as standard, normal, or emergency. Standard changes are those that are performed frequently and considered low risk. Standard changes are reviewed quarterly and pre-approved for the following quarter. Normal changes are those which are not performed frequently and may pose some risk to the business. Each normal change must be reviewed by a minimum of two super-admins, the CTO and/or VP of engineering prior to being made. Reviewers are responsible for assessing the impact of the change in regards to the functionality, availability, durability, and security of the system. If a consensus among reviewers is reached, the proposed change is sized, sorted, and executed through the standard engineering workflow. Emergency changes are those that are required to rectify some form of degradation of the system. Emergency changes must be reviewed by a minimum of two super-admins. If a consensus is reached, emergency changes can bypass the standard engineering workflow and be made immediately. All changes to production systems must be captured in the company's issue tracking system without exception.

F. Operating Systems

Only approved operating systems will be loaded onto **Virtru**-owned assets. Before major upgrades to systems, authorization by the ISO and AISO will be required.

Default settings must be reviewed prior to installation to identify any security vulnerabilities. These settings will be communicated with all workforce members, or they will surrender their devices to the ISO or AISO for configuration.

G. Applications

All applications, whether developed or purchased, must comply with **Virtru's** policies and protection standards. The information owner is responsible for ensuring that these requirements are included during the development or acquisition of software.

The protection requirements for applications include:

1. Access control
2. Authorization
3. Information classification
4. Storage controls
5. Backup and restoration
6. Confidentiality and integrity requirements
7. Audit logs
8. Privacy, export control and other such requirements

All product associated applications must use HTTPS to communicate with all remote hosts, both Virtru hosted services and external third parties. HTTP and other non-encrypted communications are not allowed under any scenario.

Virtru applications shall treat user credentials with the utmost sensitivity and must follow security best practices for storing and transmitting user credentials. All credentials which are shared with a client device must be sent over HTTPS or another encrypted communication channel. All user credentials which are stored in a data store, must be stored in a benign state so that leakage of information from the data store does not compromise user accounts.
All application logs must be sent to a central logging cluster for aggregation and analysis.

H. Configuration Management

Where possible, Virtru applications and infrastructure follow an immutable paradigm. All changes to production infrastructure and application code is deployed on a brand new Amazon Machine Image (AMI). This allows all changes which are deployed to be tracked and audited. This also means that no configuration or application code will be modified on a production instance. All application servers have osquery installed and configured to monitor key files on the system for any change (File Integrity Monitoring). Any changes to configuration are logged and sent to AWS Cloudwatch Logs, where they trigger an alarm and cause an email to be sent to the Virtru DevOps team for further investigation.

Where possible, Virtru utilizes Terraform, Ansible, and other similar tools to define their infrastructure as code. This allows the production infrastructure to be versioned in a git repository and easily audited for change over time.

I. Asset management for software

The ISO is responsible for maintaining an inventory of software; as such it shall employ software to aid in the management of software assets.

J. Enforcement

Any workforce member found to have violated these policies may be subject to disciplinary action, up to and including termination of employment. See *Sanction Policy*.

XXVIII. Removable Media Device Policy

A. Purpose

The purpose of this policy is to minimize the risk of loss or exposure of Confidential or Protected Information maintained by **Virtru** when it is stored, transferred or accessed on a removable media device. This policy also aims to reduce the risk of acquiring malware infections on computers operated by Company. Any questions or comments about this policy should be directed to the ISO

B. Scope

This policy covers all removable media that contains **Virtru's** data or that is connected to **Virtru's** network.

C. Definitions

Removable media: devices or media that is readable and/or writable by the end user and are able to be moved from computer to computer without modification to the computer. This includes flash memory devices such as thumb drives, SD cards, cameras, MP3 players or any other storage medium; removable hard drives (including hard drive-based MP3 players); optical disks such as CD and DVD disks.

Encryption: a procedure used to convert data from its original form to a format that is unreadable and/or unusable to anyone without the tools/information needed to reverse the encryption process.

Malware: software of malicious intent/impact such as viruses, worms, and spyware.

D. Policy

Workforce members may use removable media in their work computers if they take all reasonable and prudent measures to ensure the safety and confidentiality of all information that is downloaded to any removable media or portable device

E. Using Removable Media Devices

PHI should be stored on removable media only when required in the performance of assigned duties or when responding to legitimate requests for information. When

Protected and Confidential information is stored on removable media, it must be encrypted in accordance with **Virtru's** Encryption Standards.

The workforce member shall take all reasonable and prudent measures to physically secure all removable media or to portable devices. Users shall not open or attempt to open the encasement of any removable media or portable devices nor otherwise circumvent any lock system that secures the device or its components. Users should take reasonable measures to secure device at all time and report any lost or stolen removable media or portable devices immediately.

Workforce members may not copy information or other sensitive data onto personal devices, unless approved by management in conjunction with the *Confidentiality Agreement for Employees*.

F. Exceptions

Exceptions to this policy may be requested on a case-by-case basis by petition to the ISO.

G. Refusal

Virtru reserves the right to refuse the ability to connect removable media devices to the Company network if such media is being used in such a way that puts **Virtru's** systems, data, users and customers at risk.

H. Enforcement

Anyone found to have violated this policy may be subject to disciplinary action, up to and including suspension of access to technology resources or termination of employment. A violation of this policy by a temporary worker, contractor or vendor may result in action up to and including termination of their contract or assignment with **Virtru**.

XXIX. Application Recovery Plan

A. Overview

Virtru backs up of all production data hourly and stores it remotely on two separate Amazon Web Server (AWS) Accounts. These backups are a combination of both differential and full backups. These backups are durable a the same rate as S3 data, each snapshot is 99.99999% durable.

B. Scope

These policies apply to all production servers and data that **Virtru** is responsible for maintaining on behalf of our clients.

C. Data durability and reliability

Virtru uses Amazon S3 to provide a highly durable storage infrastructure designed for mission-critical and primary data storage. Amazon S3 redundantly stores data in multiple facilities and on multiple devices within each facility. To increase durability, Amazon S3 synchronously stores **Virtru's** data across multiple facilities before confirming that the data has been successfully stored. In addition, Amazon S3 calculates checksums on all network traffic to detect corruption of data packets when storing or retrieving data. Amazon S3 performs regular, systematic data integrity checks and is automatically self-healing.

D. Encryption

Virtru uses Server-side encryption to protect data at rest. Server-side encryption with Amazon S3-managed encryption keys (SSE-S3) employs strong multi-factor encryption by encrypting each object with a unique key. As an additional safeguard, it encrypts the key itself with a master key that it regularly rotates. Amazon S3 server-side encryption uses 256-bit Advanced Encryption Standard (AES-256) to encrypt **Virtru's** data.

E. Load balancing

Virtru uses Amazon Web Services' Elastic Load Balancing (ELB) to automatically distribute incoming application traffic, to automatically route traffic across multiple instances. and multiple Availability Zones. This is used to insure that only healthy servers are receiving traffic.

F. Restoration of data

Restoration of production data is done on an as-needed basis. The following employees are responsible for restoration of the application if it is needed:

1. Reuven Gonzales, Lead Developer, or
2. Conor Gilsenan, Developer Ops.

The needed backup data will not be restored "on top of" the current "bad" data. The restores will be redirected to a new location, and first verified. Upon verification, the "bad" data will be removed from the drive, and stored and relabeled as "old data." Then the backup data will replace the "old data" on the drive. Once the restored data has been verified once more, the "old data" will be destroyed.

G. Testing and revision of plan

Once every quarter, after doing a full backup, **Virtru** will recover the saved data. During hours when the business is closed, we will operate the application using this recovered data in a test mode. The tests will consist of a set of tasks that are designed to exercise the main system functions to confirm that the data is usable and as up-to-date as we expected given the backups that were used to do the recovery. This testing process

should take an hour. The restore process should take an hour or two, once the files are retrieved.

If the process does not work as documented in our policy, it will be updated to reflect the actual procedure we need to implement to achieve successful recovery and operation.

Whenever we make changes to software or hardware, we will create/update and test using our *Inventory of Devices/Software Assets* and store this checklist in the **Security Documentation Library**.

XXX. Network Attached Storage and Workstation Backup Plan

A. Overview

Virtru recognizes that the backup and maintenance of data in the Network Attached Storage (NAS) and individual workstations are critical to operations. It is essential that certain basic standard practices be followed to ensure that data files are backed up on a regular basis.

B. Policy

Virtru will be using a Synology DS1515+ Network Attached Storage for backing up all workstations, firewall logs, and video surveillance footage. This data will also be backed up to a Amazon Web Services Glacier account.

C. Backup software

Virtru uses Cloud Station software to perform all backups. This will be installed on all workstations and must not be disabled by the user for more than one (1) business day. The software will maintain one month of file versions for restoring purposes

D. Remote backups

Virtru will provide a Virtual Private Network (VPN) for employees to login to for backing up their devices. Credentials for the VPM will be provided to remote employees, and they will be expected to configure their devices properly. If they are unsure, or have issue in setup, the IT department will be available for configuration assistance.

E. Local backups

Virtru encourages all users to do daily local backups of their data. These backups are to be encrypted using the encryption standards listed below. Any local backups must be surrendered at the time an employee no longer is employed by **Virtru**.

F. Encryption of backups

The backups of data will be encrypted on the NAS using AES 256 bit encryption. Any local backups that employees make must be encrypted at a minimum of 256 bit encryption.

G. Restoring data

In the event that a workstation fails, is stolen, or is damaged whether physically or by malware. It is the policy of **Virtru** that this device will be replaced within 24 hours. The IT department will be responsible for reprovisioning this device, and testing that the workstation is functioning properly before giving the device to the employee.

H. Enforcement

Anyone found to have violated this policy may be subject to disciplinary action, up to and including suspension of access to technology resources or termination of employment. A violation of this policy by a temporary worker, contractor or vendor may result in action up to and including termination of their contract or assignment with **Virtru**.

XXXI. Information Integrity Management Policy

A. Overview

The other policies in this document contribute to the integrity of the data in our systems. Notably, the Data Backup Plan, the Access Control Policy, and the Malware Management Policy contribute to data integrity. In addition to these, we add the following policy elements.

B. Policy

Virtru will configure our applications software to use the available edits on data that is entered into our systems. These edits will check for internal data consistency, reasonableness of data, and logical relations among data items.

XXXII. Security Incident Management Policy

A. Overview

Virtru recognizes that, despite having reasonable security safeguards, we may have security incidents.

B. Procedures

To manage these incidents, **Virtru** will do the following:

1. We will train each workforce member to recognize the common telltale signs of a security incident. When a member of the workforce detects one of these signs, he/she will be responsible for notifying the ISO.
2. The ISO will maintain a set of tests to detect events in the system logs that may indicate security incidents. These tests will be written into a script and run against the system log on a daily basis or whenever needed. The tests currently are:
    a) Account creation/deletion
    b) High volume of unsuccessful logon attempts
    c) Alerts from our malware monitoring systems
    d) High volume of file or database access/creation/deletion activity for the time of day, or for day of the week
    e) Account activity at unusual times of the day or night
    f) Absence of expected log records of activity when expected
    g) Unusual level of record access for a given account
    h) Daily logs will be tested by the firewall in real time,
    i) User data will be reviewed weekly
    j) Logs for the past month will be retained. When anomalies are discovered, the script will provide a report that is immediately brought to the attention of the ISO or designee as a potential security incident.
    k) Account lock out due to excessive password retry failure.

The ISO will determine, in consultation with others if needed, whether an event is a security incident.

If an event is a security incident, the ISO (or designee) will proceed to contain and repair damage from the incident by working with staff, vendors, and Business Associates as needed. The security incident will be tracked in JIRA and treated as an application defect. A log of relevant actions taken to contain and repair the damage will be stored in JIRA. The permanent home of this log will be in the **Security Documentation Library**. The ISO will determine if the event involves a workforce member action that is covered under the sanction policy and will follow that policy. The ISO will determine if the event represents a security incident for which a Business Associate is responsible. If so, the ISO will follow our *Incident and Breach Policy* in this area.

C. Policy

If an event is a security incident, the ISO (or designee) will proceed to contain and repair damage from the incident by working with staff, vendors, and Business Associate relations in order to further deter future incidents of the same type.

XXXIII. Security Plan Review Policy

A. Overview

We recognize that our underlying security risk will change and our ability to manage this risk will improve over time. To ensure that we adjust our policies and procedures to take these two factors into account, we will review our Security Policies and Procedures annually. The ISO will lead this review and involve others as needed. Documentation of the review will be contained in a document called *Annual Security Review* and restored in the **Security Documentation Library** {or **Notebook**}.

B. Procedures

At a minimum, the review process will consist of:

1. Evaluating changes in the last year that may affect our Security Policy. These will include changes in:
    a) Number, sizes or locations of our business sites
    b) Our workforce size and composition
    c) Hardware/software
    d) State or federal laws that apply to us
    e) Type of medical insurance that we provide
2. Reading each Policy to determine whether or not the changes may affect it and/or the practices driven by the Policy. We will make a list of changes that need to be made, then write a paragraph describing how.
3. Creating a list of changes in Policies and/or Procedures that our **Company** will carry out.
4. Developing and implementing any changes in our Policies and Procedures on a timely basis.

Security Policies and Procedures

Appendices

Security Policies and Procedures

A. Change Logs

The Change Logs are logs and reports that are reviewed, at a minimum, twice a year. It provides information on programs available and which employees have access to which programs. The actual logs are found in the **Change Control Logs for Security** section of the documents.

1. Annual Security Review
2. Application/Database Change
3. Employee Access
4. Incident - Disaster
5. Maintenance
6. Media Sanitization
7. Operating System Changes Audit
8. Organizational Chart/Electronic Asset Management
9. Network Change
10. Physical Entry Access
11. Responsibility Change

B. Information Security Committee

Information Security Officer:
Will Ackerly

conor@virtru.com

Disaster Recovery Plan for Virtru

We define a disaster as any event that affects our information systems and, as a result, substantially interferes with the operations of our business. Examples are fire, flood, hardware failure of critical elements (servers), software failures, theft, chemical/radiation hazard, and sabotage. Our definition of recovering from a disaster is taking all the actions needed to restore the systems to their normal operational state. Our plan to recover from disasters is described below.

1. What we will do to prepare to perform a disaster recovery:

    A. We will train the workforce to recognize and report a disaster.

    B. We will organize the workforce responsibilities so that during a recovery we are not dependent on only one person for any critical step.

    C. We will report disasters to the ISO and AISO. The ISO will make the formal determination as to whether or not to classify the event as a disaster.

    D. We will store paper backup copies of key disaster related documents with the offsite backups. These documents will include a List of Support Contacts – vendor, reseller, and/or support group contact information for all of our software and hardware.

    E. We will keep an *Inventory of Device/Software Assets* for [Name of Business]–– a detailed checklist for each asset, such as the server, PCs, the router, network switch, databases, and software programs containing tasks that must be completed to recover that asset. The list will include key data about the device including a party responsible for the recovery whose role is to diagnose and, if needed, repair, replace, and/or rebuild a device.

    F. We will have current copies of system data and software available at the off site location, as our data backup plan specifies.

2. Once the ISO (or designee) has certified a disaster, we will:

    A. Use the ISO or designee to facilitate the recovery. The facilitator will direct the recovery process, coordination and communication of the actions of the various parties that are involved in the recovery.
    B. Determine which devices/software (e.g. servers, PCs, power units, AC units) are not functioning normally, conferring with the appropriate staff, vendors, and other support personnel to make this determination. When in doubt about the status of the device, we will either use a test that is described in the IT Assets Recovery Checklist for the device/system or depend on the recovery responsible party to make this determination.
    C. Review the *Inventory of Device/Software Assets* for the devices to be recovered. Each checklist will have as an initial task, "Contact the appropriate parties responsible for restoring the devices/software to be recovered." Guidance and other recovery activities from these parties are key contributors to the recovery process.
    D. After all of the non-functioning assets have been restored, follow the instructions in the part of the Emergency Operations Plan that deals with what to do when the system is available again.

Organization

Emergency Planning & Crisis Management Team (**EPCMT**):

- Will Ackerly, CTO & ISO
- Jordan Duggan, VP of Product & Development & AISO
- Reuven Gonzales, Director of Operations
- Conor Gilsenan, Operations Developer
- Zack Nelson, Director of Development

Primary Disaster coordination handled through:

Crisis Manager 1:
Reuven Gonzales, Director of Operations
Cell: (949) 878-6154
reuven@virtru.com

Crisis Manager 2:
Conor Gilsenan, Operations Developer
Cell: 973-986-6650
conor@virtru.com

Other Members' Contact Information

- Zack Nelson 443-834-3791
- Payam Abedi 703-656-6227
- Tyler Biscoe 301-642-8844
- Jon Gilpen 303-358-6689
- Jason Ghent 803-658-6645

Off-Site Meeting Location

Used if team needs to meet to formulate an action plan.

If primary location is not accessible, we may need to operate from an off-site locations such as:

Employees' Home Offices
Jack Rose Restaurant

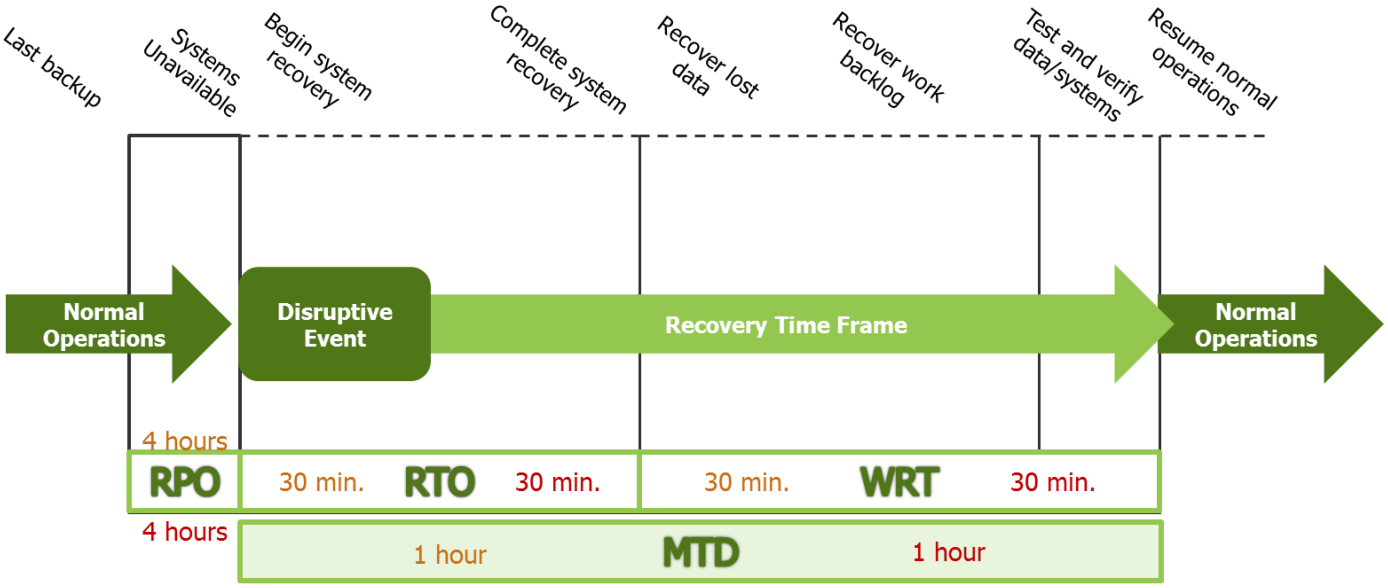
Extended off-site locations will be determined after assessing the severity of the disaster.

Disaster Recovery Timeframes

Maximum Tolerable Downtime (MTD)

The total amount of time our company is willing to accept for an outage or disruption, including all impact considerations. This guides our Crisis Management Team in determining the selection of an appropriate recovery method, and the depth of detail which will be required when developing recovery procedures, including their scope and content.

Recovery Point Objective (RPO)



This is the point in time, prior to a disaster or disruptive event, which our company has accepted for data loss. RPO determines the frequency of our data backups. When determining RPO, we need to consider how much newly entered data we can afford to lose. *Therefore, if RPO is set to 4 hours, then we must have offsite backups maintained every 4 hours.*

Recovery Time Objective (RTO)

RTO determines the target time for recommencement of business activity. The Crisis Management Team will determine what business functions (i.e. telecommunications, web servers, etc.) should be restored based on priority.

Working Recovery Time (WRT)

This is the time our company will spend recovering lost data and work backlog, and testing and verifying data and systems. WRT usually is the difference between MTD and RTO.

Physical Security Example Times
Minor Disaster and Major Disaster

(See next page)

Disaster Timeframe Expectations

Internal Network
The server and network must be functioning in order for any of our other information systems to function. We could afford to be without the server/network for ten (10) minutes without materially affecting our business. If the server/network is down for longer than ten (10) minutes, staff will switch over the mobile tethering, or will go to an approved location to continue their work.

Production Servers
Production servers must be functioning at all times in order for our applications to work. We cannot afford to be without the production servers without materially affecting our business. Traffic will be automatically routed to another server via Amazon Web Services' Elastic Load Balancing.

Workstations
If a workstation crashes, we can easily use another one with only modest inconvenience. Ideally, we would like to replace/restore a workstation within 72 hours.

Printer and Fax
We have two multifunction printers. We can lose all printers for up to a week with little effect on data flow.

Email and Web Browser
Currently, we can function for no more than 10 minutes without email or web browsing. We will tether devices via smartphones after that time.

Wireless Network
We have a wireless network and the office depends on it for routine transactions. A backup router is available; it is preconfigured and encrypted using WPA2-AES.

IT Resources
We depend on the availability of certain employees and our IT service provider to diagnose and fix problems quickly. A chain of contacts is available in this document.

Power and HVAC Equipment
We depend on external power and environmental equipment (especially our AC unit) to maintain the power and environmental support for our system. Failure of either of these systems could inhibit the use of our IT systems, and could also stop us from doing business. These failures are not IT-specific risks. We are comfortable enough with the track record of these services not to need more than a short term UPS to allow us to smoothly shut the network down in the event of a sustained power outage. We have to yearly revisit the question of whether or not we need

more power/environmental backup to ensure that the satellite site will able to operate even if power/cooling at the main site is out.

Disaster Timeframes Table

{This is a sample. Please fill in according to Virtru's standards. Functions can include departments, as listed below, or they can include more specific tasks, such as invoicing.}

	Minor Disaster				Major Disaster			
Function	**MTD**	**RTO**	**WRT**	**RPO**	**MTD**	**RTO**	**WRT**	**RPO**
Physical Security (office/suite)	1 hour	30 minutes	30 minutes	4 hours	1 hour	30 minutes	30 minutes	4 hours
IT (server, hardware, equipment)								
Sales and Marketing								
Administration								
HR								

EVACUATION PLAN - during business hours:

For a disaster where you will need to **leave the building:**

If a disaster happens during normal business hours all Company employees will meet at **Jack Rose Restaurant, 2007 18th St NW, Washington, DC 20009.**

This will prevent Company employees from being in the way of emergency crews. A head count by managers will determine if all staff members have fully exited the building.

Headcount numbers will be brought to the ISO or CEO.

If the disaster happens after the meeting location has closed, employees will wait outside of the same address.

For a disaster where you will need to **stay in the building:**

If a disaster happens during normal business hours, all Company employees will meet in the **Basement**. A head count will determine if all staff members have fully exited the suite. See above for head count procedures.

{Please fill in the appropriate personnel for the following responsibilities}

Office/Evacuation Managers	Assembly Managers
Will Ackerly	John Ackerly
John Ackerly as Backup	Will Ackerly as Backup
System Shutdown Manager	**Back-up System Shutdown Manager**
Jordan Duggan	Jordan Duggan
Will Ackerly as Backup	Will Ackerly as Backup

Critical Operation Priority List

If or when a disaster happens, certain contacts will need to be made.

Operation	Employee in Charge	Action Plan
Current enrollment processes (any pending business)	Will Ackerly	Notify carriers of current situation—give cell number if needed.
Communications	Will Ackerly	eBlast to client list
IT—phones, faxes, e-mail	John Ackerly	Set up remote office
Payroll-Banking issues-Commissions	John Ackerly	Notify payroll/banking institutions of disaster and action plan

Potential Purchase List

If or when a disaster happens, certain items may need to be replaced:

1. 3 UPS (Uninterruptible Power Supply)(s)(Batteries)
2. Network Attached Storage (NAS)
3. Network Switch(s)
4. Network cable(s)
5. Power cable(s)
6. Power strip(s)
7. Monitor(s) / Monitor Cable(s)
8. Keyboard(s) / Mouse(s)
9. Firewall
10. Workstation(s) / Laptop(s)
11. Phone(s) & Headsets
12. Security Camera
13. Electronic Door Lock
14. Video Conference Microphones
15. Minifridge
16. Projector
17. Software
    a. OSX
    b. Windows
    c. Acrobat
    d. Office Suite
18. Paper
    a. Printer paper
    b. Sticky notes
    c. New Checks
19. Multifunction Color Printer
20. Office Furniture/Equipment
21. Carrier (Marketing) Supplies
22. Office Supplies

Fire Plan

EVACUATION PLAN - FIRE!

If the fire alarm goes off during business hours, **evacuate the building immediately**. If you discover a fire or smell heavy smoke inside building:
DO NOT ATTEMPT TO FIGHT THE FIRE!!

1. Pull fire alarm, evacuate the building and call 911 on the way out of the building

2. Perform head count at the designated assembly point

    - If anyone is missing, call their emergency contacts to determine if the missing individual has made contact with them. If they have not, alert the authorities.

3. Action Plan - developed by ***EPCMT***

    - Re-open based on damage
    - If the office must remain closed:
        - Notify employees and/or employees emergency contacts.
        - If there is any impact to customer operations, email all clients with a status update and recovery plan.

NOTE: First Aid kit located in the drawer of the white cabinet located to the right of the spiral staircase.

Earthquake Plan

EVACUATION PLAN - Earthquake!

During an Earthquake

- **DO NOT USE THE ELEVATOR DURING AN EMERGENCY EVACUATION**.
- If you're indoors, stay there. Get under -- and hold onto --a desk or table, or stand against an interior wall. Stay clear of exterior walls, glass, heavy furniture, fireplaces and appliances. The kitchen is a particularly dangerous spot. If you're in an office building, stay away from windows and outside walls and do not use the elevator.
- If you're outside, get into the open. Stay clear of buildings, power lines or anything else that could fall on you.

After an Earthquake

- Perform head count at the designated assembly point
    - If anyone is missing, call their emergency contacts to determine if the missing individual has made contact with them. If they have not, alert the authorities.
- Shut down systems, if time permits, see **Emergency Shutdown Procedures**
    - Check for fire or fire hazards. If you smell gas, shut off the main gas valve. If there's evidence of damage to electrical wiring, shut off the power at the control box.
    - If the phone is working, only use it in case of emergency. Likewise, avoid driving if possible to keep the streets clear for emergency vehicles.

- Be aware that items may fall out of cupboards or closets when the door is opened, and also that chimneys can be weakened and fall with a touch. Check for cracks and damage to the roof and foundation of your home.
- Listen to the radio for important information and instructions. Remember that aftershocks, sometimes large enough to cause damage in their own right, generally follow large quakes.
- If you leave home, leave a message telling friends and family your location.

- Action Plan - developed by ***EPCMT***
  - Re-open based on damage
  - If the office must remain closed:
    - Notify employees and/or employees emergency contacts.
    - If there is any impact to customer operations, email all clients with a status update and recovery plan.

NOTE: First Aid kit located in the drawer of the white cabinet located to the right of the spiral staircase.

Tornado Plan

EVACUATION PLAN - Tornado!

If the city or county signal a tornado warning, move away from the perimeter of the building and any exterior glass.

DO NOT USE ANY ELEVATORS DURING AN EMERGENCY EVACUATION.

1. Move to the basement of the office suite.
2. Shutdown systems, if time permits, see **Emergency Shutdown Procedures**
3. Perform head count at the designated assembly point
    - If anyone is missing, call their emergency contacts to determine if the missing individual has made contact with them. If they have not, alert the authorities.
4. Action Plan - developed by ***EPCMT***
    - Re-open based on damage
    - If the office must remain closed:
        - Notify employees and/or employees emergency contacts.
        - If there is any impact to customer operations, email all clients with a status update and recovery plan.

NOTE: First Aid kit located in the drawer of the white cabinet located to the right of the spiral staircase.

Flood Plan

EVACUATION PLAN - Flood!

1. Evaluate the situation
    - Shutdown systems routine, see **Emergency Shutdown Procedures**
    - Perform head count
        - If anyone is missing, call their emergency contacts to determine if the missing individual has made contact with them. If they have not, alert the authorities.
2. Action Plan - developed by ***EPCMT***
    - Remain open - *based on damage or location*
        - Relocate staff within suite
        - Evaluate IT requirements
    - Close - send staff home
        - Re-open based on damage
        - If the office must remain closed:
            - Notify employees and/or employees emergency contacts.
            - If there is any impact to customer operations, email all clients with a status update and recovery plan.

After Hours Plan

EVACUATION PLAN - after business hours

If the building is in a disastrous state after working hours, the **EPCMT** will notify employees. *See **Virtru** Phone Tree*.

If **re-opening** on a workday at the primary location:

1. Verify location is safe for operations - including systems
2. Communications
    a. Emergency Contact List
    b. Client Blast

If **NOT re-opening** on the following workday at the primary location:

1. The **EPCMT** must decide estimated length of time we will not be able to function
    a. If less than or equal to one day, office is closed.
        i. **[Name of Business]** will open the following work day
        ii. Verify location is safe for operations
        iii. Communications
            1. Emergency Contact List
            2. Client Blast

2. If office needs to move to secondary location or close for a **short** period of time.
    a. The **EPCMT** meets to develop a plan of action
    b. Determine the validity of systems
        i. If valid, move critical systems to secondary location
        ii. If not valid, retrieve necessary items and contact suppliers for new systems
            1. Restore systems from backups
            2. Restore connectivity
                a. Skeleton crew of selected staff members (possibly several from each department)

c. Communications

i. Emergency Contact List

ii. Client Blast

3. If office needs to move to secondary location or close for a **longer** period of time:

a. The **EPCMT** meets to develop a plan of action

b. Determine the validity of Systems

i. If valid, move critical systems to secondary location

ii. If not valid, retrieve necessary items and contact suppliers for new systems

1. Restore systems from backups
2. Restore connectivity

ii. Determine staff needs - full or partial capacity

iii. Communications

1. Emergency Contact List
2. Client Blast

Emergency Contact List

Emergency Shutdown Procedures

If an electrocution occurs while working in server room, staff will pull all of the UPS cords from the outlet by the interior door. If that outlet is inaccessible due to fire or victim's position, staff will shut off the power at the breaker, located in the basement on the wall to the left of the TV.

If there is a fire within the building or suite, staff should concentrate on notifying authorities.

If there is severe flooding that threatens to affect the server room, staff will shutdown and unplug all equipment and move it to the second story platform of the suite.

BRIGHTLINE

CERTIFICATE OF REGISTRATION

Information Security Management System - ISO/IEC 27001:2013

The Certification Body of BrightLine hereby certifies that the following organization operates an Information Security Management System that conforms to the requirements of ISO/IEC 27001:2013

ServiceNow, Inc.

for the following scope of registration

The scope of the ISO/IEC 27001:2013 certification is limited to the information security management system (ISMS), which supports ServiceNow as a provider of cloud-based solutions that define, structure, manage and automate services across the global enterprise, as well as all supporting resources including global data center operations and infrastructure, applications, end-user services, and product development, and in accordance with the Statement of Applicability, approved July 28, 2015. Assets within scope of the ISMS include: internal information assets, customer data, software, hardware, people, and physical assets to host, support and operate the cloud-based solutions. The data centers in the following locations house the infrastructure used to deliver the cloud-based solutions: Virginia, California, Florida, Washington, Montreal, Toronto, London, Amsterdam, Geneva, Zurich, Sydney, Brisbane, Singapore, Hong Kong, São Paulo and Campinas. Additionally, ServiceNow uses Amazon Web Services (AWS) to host some ServiceWatch customers. Excluded from the scope are all operations of third party data centers and AWS.

the scope of this certification includes the following locations:

Santa Clara (HQ): 3260 Jay Street, Santa Clara, California, 95054, United States
San Diego: 4810 Eastgate Mall, San Diego, California, 92121, United States
Kirkland: 4400 Carillon Point, Kirkland, Washington, 98033, United States
Orlando: 3501 Quadrangle Blvd, Suite 150, Orlando, FL 32817, United States
Amsterdam (EMEA HQ): Hoekenrode 3, 1102 BR Amsterdam, The Netherlands
London: 3rd Floor, Future House, The Glanty, Egham, Surrey, TW20 9AH, United Kingdom
Sydney: Level 21, 50 Bridge St, Sydney, New South Wales, 2000, Australia

Certificate Number: **1980700-4**

ISO 27001 CERTIFIED BY BRIGHTLINE

ANAB ACCREDITED

Authorized by:

Christopher L. Schellman
President, BrightLine
1300 N. West Shore Blvd, Suite 240
Tampa, Florida 33607, United States
www.BrightLine.com

Issue Date	Original Registration Date	Expiration Date	Certificate Version
September 29, 2015	December 17, 2012	September 28, 2018	Version 4

CONDITIONS & LIMITATIONS:

1. The aforementioned organization has a perpetual responsibility to maintain compliance with ISO 27001:2013 during the period of certification.
2. This certificate is subject to the satisfactory completion of annual surveillance audits by BrightLine.
3. ISO 27001:2013 compliance audits are not designed to detect or prevent criminal activity or other acts that may result in an information security breach. As such, this certification should not be construed as a guarantee or assurance that an organization is unsusceptible to information security breaches.
4. The information in this document is provided "AS IS", without warranties of any kind. BrightLine expressly disclaims any representations and warranties, including, without limitation, the implied warranties of merchantability and fitness for a particular purpose.
5. This certificate is the property of BrightLine and is bound by the conditions of contract. The authenticity of this certificate can be validated at www.BrightLine.com/Certificate-Directory.

vCLOUD GOVERNMENT SERVICE

Compliant cloud solutions built for government agencies

Whether spurred by the need to increase efficiency, meet government mandates or deal with rapidly expanding data sets and workloads, more and more agencies are moving some or all of their applications or infrastructure to the cloud. However, for many agencies, the most cost-effective, secure and efficient solution is a hybrid cloud model that allows them to not only leverage their existing investments in IT infrastructure, but also extend their systems seamlessly to the technology platform that best meets their needs.

VMware®, the global leader in virtualization and cloud infrastructure, and QTS, a trusted cloud operator and leading provider of hybrid cloud services and managed hosting for government agencies and enterprises, have partnered to deliver VMware vCloud® Government Service provided by Carpathia™ (A QTS Company).

vCloud Government Service is an enterprise-class hybrid cloud service designed to run new and existing applications in exactly the same way, giving government organizations application and data mobility. Being able to use existing people, processes, tools, and automation enables government organizations to focus on the benefits of the cloud to their mission, rather than taking time and resources to re-architect for new infrastructure. Federal organizations can securely extend their data centers to the cloud quickly and confidently, using an integrated cloud infrastructure with the security of a JAB-based FedRAMP Provisional Authorization.

KEY FEATURES

Robust Security and Compliance

- vCloud Government Service is a secure cloud platform that enables customers to maintain security and data protection that meets a broad range of regulations, standards, and best practices including FedRAMP, International Traffic Arms Regulations (ITAR), FIPS 140-2, and AT 101 SOC Type 2.

Efficiency and Manageability

- Agencies can write, deploy, and manage applications in the cloud in the same way they do today, without making any changes or additional investments. With management tools consistent across on premises and cloud environments, you can accelerate application deployments, streamline the deployment and update process, leverage pre-built components, and reuse application models across environments, and clouds.

Seamless Network Integration

- vCloud Government Service is built on a seamless virtualized network that is quickly customizable to support your application and security needs. Network virtualization allows you to configure your firewalls and network as if they were in your own data center so that you can replicate the network your applications need to operate. Get common identity and access management across your onsite and offsite cloud locations.

BENEFITS

- Ease of Use – Leverage your existing investments in applications and infrastructure and avoid the complexity of re-architecting for public cloud infrastructure
- Secure and Compliant – Secure cloud platform, with security controls designed to meet the unique requirements of government customers, most notably the FedRAMP standards
- Hybrid – True hybrid cloud solution enables both onsite and offsite IT environments to run new and existing applications seamlessly
- Fastest Path to Cloud Value – Use a common platform to leverage internal and external cloud resources without having to retrain your staff, and lower overall costs

Why vCloud Government Service?

vCloud Government Service has a FedRAMP Provisional Authority to Operate (P-ATO) and is generally available to U.S. government and defense organizations. It can be used for a variety of applications and workloads including:

- Test and development
- Packaged application hosting
- Backup and Disaster Recovery
- Web hosting and customer service
- On-demand data center expansion

Trusted Cloud Services

QTS is redefining the industry with trusted cloud services that leverage innovation to improve the flexibility, scalability, and cost-effectiveness of cloud services.

- We are a trusted cloud operator with past performance serving the government market -- including DoD, Civilian and Intelligence agencies -- across multiple programs and applications
- QTS data centers deliver the highest levels of security and compliance, and meet many compliance standards including FISMA, DIACAP, PCI, and HIPAA
- We hold a number of certifications and accreditations across multiple federal agencies and programs and support over 50 Federal systems holding active Authorizations to Operate (ATO)

Security

vCloud Government Service operates with a FedRAMP Provisional Authorization to Operate (P-ATO) issued by the Joint Authorization Board (JAB). Built with a defense in-depth strategy that puts our customers' critical applications and data in the innermost ring, our people, processes and procedures ensure 100 percent compliance at implementation and through the lifecycle of the project.

Hybrid Options

vCloud Government Service is a true enterprise-class hybrid cloud service, offering a seamless platform for migrating and managing workloads between dedicated virtualized environments, on-premise infrastructures, third-party data centers and the cloud.

ABOUT QTS

QTS Realty Trust, Inc. (NYSE: QTS) is a leading provider of secure, compliant data center solutions and fully managed services, and the owner of Carpathia Hosting, a leading provider of hybrid cloud services and managed hosting. QTS' integrated technology service platform of custom data center (C1), colocation (C2) and cloud and managed services (C3) provides flexible, scalable, secure IT solutions for web and IT applications. QTS' Critical Facilities Management (CFM) provides increased efficiency and greater performance for data center owners and operators. QTS owns, operates or manages 25 data centers and bsupports more than 1,000 customers in North America, Europe and Asia Pacific.

Mr. Hughes:

As a privately owned company, Carahsoft Technology Corp. does not report to D&B. As such, the information in D&B is incorrect. To support you to determine that we have the financial resource to perform the contract we provide you the following information.

We are a stable, conservative and profitable company. Carahsoft continues to grow as noted by our year over year revenue below:

2010 $820 Million
2011 $1.12 Billion
2012 $1.46 Billion
2013 $1.81 Billion
2014 $2.45 Billion
2015 $3 Billion

We currently employ close to 500 employees.

To support you to determine that we have the financial resource to perform the contract we provide you the following information:

We maintain a $25M line of credit available (currently 100% available) with Xenith Bank. I have included a recent banking clarification letter from Xenith.

Mr. Joe Humphries is the Regional President and can be reached at 703-869-3610 if you need any information from him.

We have received numerous accolades including:

- For the 6th consecutive year CRN's 2012 Fast Growth List
- Washington Business Journal's 2012 List of Largest Government Contractors in Metro DC
- Third consecutive year Washington SmartCEO magazine's 2012 Future 50 list which recognizes the metro areas fastest growing companies.

Should you require additional details please call me and I can discuss our confidential financial information with you or provide you trade references that can further assist you.

Sincerely,

Jillian Dewey Szczepanek
Controller

Credit Information

Risk Summary

Risk of Late Payment

Risk of late payment is based on the following prioritized factors in addition to other information in D&B's files:

- Proportion of slow payments in recent months
- Higher risk industry based on delinquency rates for this industry
- Increase in proportion of delinquent payments in recent payment experiences
- Proportion of past due balances to total amount owing
- Evidence of open liens

Indications of slowness can be the result of disputes over merchandise, skipped invoices, etc.

Payment Performance Trend

The payment performance trend for this company is Increased . Payment Trend currently is Increased compared to payments three months ago. The most recent payment information in D&B's files is:

- Payments currently: 11 days beyond terms
- Payments 3 months ago: 19 DAYS BEYOND terms
- Industry average: 5 DAYS BEYOND terms

*Note: Payments to suppliers are averaged weighted by dollar amounts.

AODocs Terms of Service - Version published on the Web Site

TERMS OF SERVICE

These Terms of Service **("Terms")** are a legal agreement between Altirnao, Inc., herein **"Altirnao",** having an office and place of business at 221 Kearny Street, Suite 300, San Francisco, CA 94108, USA, and the person or entity agreeing to the terms herein **("Customer", "You" or "you").** By using or accessing any part of A0Docs (the **"Service"),** You agree that You have read, understand, and agree to be bound by all of the terms and conditions contained herein. If You do not agree to these Terms, You must not use or access the Service. If You are entering into this Terms on behalf of a company, You represent that You have the authority to bind that company to these Terms. If You have purchased a license to use A0Docs through an Altirnao reseller, You also agrees to comply with the terms of any agreement between You and such reseller. In the event of an inconsistency between these Terms and any such reseller agreements, these Terms shall control.

Description of Service

AODocs is an online document management solution for Google Apps. The Service is offered and provided subject to these Terms and solely for Your business purposes. You may connect to the Service using any Internet browser supported by the Service.

The Service requires one or more Google Apps for Business account that will be the owner(s) of all files stored and managed by the Service. The Service stores all the files that it stores and manages for You in the Google Drive account(s) that You will assign to AODocs when You deploy AODocs. You understand and acknowledge that You are solely responsible for obtaining the Internet access and all equipment necessary to use the Service, for appropriately configuring Your Google Apps account(s) and for allocating a sufficient number of accounts and sufficient Google Drive storage space to allow proper operation of the Service, as per the recommendation of Altirnao's technical support or product documentation. You also understand and agree that content you store through your use of the Service will be made available to Google as part of Google providing the Google Apps service. All fees associated with the foregoing shall be paid by You.

Modifications

To these Terms: Altirnao reserves the right to update and change the Terms of Service upon notice from time to time. You will be provided notice of any such modification by electronic mail or by the publishing of such on the website http://www.aodocs.com/terms-of-service. You may terminate your use of the Service if the Terms are modified in a manner that substantially affects your rights in connection with use of the Service. Your continued use of the Service after any such changes shall constitute your consent to such changes. You can review the most current version of the Terms of Service at any time at http://www.aodocs.com/terms-of-service.

To the Service: Altirnao may make changes to the Service from time to time. Altirnao will notify you of any material changes or modifications. Any updates, upgrades, additions or new features to the Service, including the release of new tools and resources, shall be subject to these Terms and may require you to agree to additional terms and conditions.

Use of the Service

Access to Service: Access to the Service is only available to the Customer and the end users **("Users")** to whom Customer has purchased individual user licenses and granted access. Upon registration with Altirnao, Customer will specify the email address of a Google Apps account (the **"Account"),** which will be granted access to the Service. Customer is solely responsible for granting the Service access to Customer's Google Apps files and revoking such access when Customer ceases use of the Service. Customer is responsible for maintaining the confidentiality of Customer's password. Customer agrees not to share its password with anyone other than Users, let anyone else access its password or do anything else that might jeopardize the security of its password. Customer agrees to notify Altirnao if Customer's password is lost, stolen or disclosed to an unauthorized third party, if there is any unauthorized use of its password or Account, or if Customer learns of any other breach of security in relation to the Service. Customer is solely responsible for any and all activities that occur through the use of Customer's Account.

License to Customer: Subject to Customer's compliance with these Terms and the Google Acceptable Use Policy (available at https ://cloud.google .com/terms/aup), including, without limitation, Customer's payment of all applicable fees, Altirnao hereby grants Customer a limited, revocable, non-transferable non-exclusive, non-sublicensable license to access and use the Service, solely for Customer's own internal use, and not for timesharing, application service provider or service bureau use.

Customer is at all times fully responsible and liable for all acts and omissions by Users to whom Customer has granted access to the Service and Customer agrees to indemnify Altirnao for all claims and losses related to any such acts and/or omissions.

Each user license ordered by Customer is specific to the email address of only one User and, once granted to that User, may not be transferred or reassigned to any other user unless the User originally granted the license will no longer use the Service. Any such transfer or reassignment is permanent and Licensee shall not permit the original User to use the Service after such User's license has been used by a different User.

Altirnao reserves the right to terminate unpaid Accounts and Accounts that are inactive for a continuous period of ninety (90) days. In the event of any termination, all data associated with such Account will be deleted and Customer shall be responsible for revoking the Service's access to Customer's Google Apps domain data and files. Altirnao will provide Customer with prior notice of such termination and will send a data backup to Customer by email. In case of Accounts with more than one User, if at least one of the Users is active, the Account will not be considered inactive.

Restrictions on Use

Restrictions on Use of AODocs: In addition to all other terms and conditions contained herein, you shall not and shall not permit others to:

1. copy, modify, adapt, translate or otherwise create derivative works of the Service;
2. reverse engineer, decompile, disassemble or otherwise attempt to discover the source code of the Service;
3. rent, lease, sell, assign or otherwise transfer rights in or to the Service;
4. remove any proprietary notices or labels from the Service;
5. use, post, transmit or introduce any device, software or routine which interferes or

attempts to interfere with the operation of the Service.

6. use the Service for spamming or any other illegal or unauthorized purpose or engage in illegal or deceptive trade practices; or

7. otherwise use of the Service in violation of any laws in your jurisdiction (including but not limited to copyright laws).

8. use the Service for High Risk Activities;

9. process or store any content on or through the Service that is subject to the International Traffic in Arms Regulations maintained by the Department of State.

10. if you are (or become) a Covered Entity or Business Associate, as defined in the Health Insurance Portability and Accountability Act **("HIPAA"),** use the Service for any purpose or in any manner involving Protected Health Information (as defined in HIPAA) unless you have received prior written consent to such use from both Google and Altirnao.

11. use the Service as a way to circumvent your obligation to provision one Google Apps End User Account for each User.

This list of prohibitions provides examples and is not complete or exclusive.

Restrictions on Use of Google Apps: You understand and agree that your use of the Service requires the use of Google Apps. You agree that you shall not and shall not permit others to:

copy, modify, create a derivative work of, reverse engineer, decompile, translate, disassemble, or otherwise attempt to extract the source code of Google Apps or any component thereof;

use the Google Apps or any component thereof for uses such as the operation of nuclear facilities, air traffic control, or life support systems, where the use or failure of Google Apps or any component thereof could lead to death, personal injury, or environmental damage;

sublicense, resell, or distribute Google Apps or any component thereof;

use Google Apps or any component thereof to create, train, or improve (directly or indirectly) a substantially similar product or service, including any machine translation engine;

access Google Apps or any component thereof in a manner intended to avoid incurring fees;

use Google Apps or any component thereof to operate or enable any telecommunications service or in connection with any application that allows end users to place calls to or to receive calls from any public switched telephone network; or

process or store any data that is subject to the International Traffic in Arms Regulations maintained by the U.S Department of State or any other applicable law.

Altirnao reserves the right to suspend or terminate your access to Service with or without cause and with or without notice, for any reason or no reason, or for any action that Altirnao determines is inappropriate or disruptive to the Service or to any other user of this Service. Google may suspend your Google Apps account if: (a) your use of Google Apps is in violation of Google's Acceptable Use Policy, which could disrupt: (i) Google Apps; (ii) other users' use of Google Apps; or (iii) the Google network or servers used to provide Google Apps services; or
(b) there is unauthorized third party access to Google Apps.

You acknowledge and agree that Altirnao, in its sole discretion, with or without notice, may establish or revise from time to time general practices and limits concerning your use of the

Service, including without limitation, establishing the maximum number of Google Drive operations that can be done on your behalf in a given period of time. In addition, Altirnao may limit, without notice, the volume of e-mail forwarding or file downloading from the Service in response to unreasonable activity (such as spamming).

Altirnao may report to law enforcement authorities any actions that may be illegal, and any reports it receives of such conduct. When legally required or at Altirnao's discretion, Altirnao will cooperate with law enforcement agencies in any investigation of alleged illegal activity associated with the Service or on the Internet.

Unauthorized use of any trademarked, copyrighted or patented materials contained in the Service may violate certain laws and regulations.

You agree to indemnify and hold Altirnao and its officers, directors, employees, affiliates, agents, licensors, and business partners harmless from and against any and all costs, damages, liabilities, and expenses (including attorneys' fees and costs of defense) Altirnao or any other indemnified party suffers in relation to, arising from, or for the purpose of avoiding, any claim or demand from a third party that your use of this Service or the use of Service by any person using your Account (including without limitation, Your Content (as defined below)) violates any applicable law or regulation, or the copyrights, trademark rights or other rights of any third party.

Suspension

Altirnao reserves the right to suspend or terminate Customer's access to the Service with or without notice if Altirnao reasonably determines that:
(a) there is a threat or attack on the Service (including a denial of service attack) or other event that may create a risk to the Service, Altirnao, Customer, or any user of the Service;
(b) Customer's or its users' use of the Service or Customer Content disrupts or poses a security risk to the Service or any user of the Service, may harm Altirnao's systems, or may subject Altirnao or any third party to liability;
(c) Customer or any User is using the Service for fraudulent or illegal activities;
(d) Customer or any User is causing performance disruptions in the Service or in Google Drive by using the Service in a way that is not recommended in the performance guidelines published in the Service's documentation or by ignoring performance recommendations provided by Altirnao's technical support;
(e) subject to applicable law, Customer has ceased to continue Customer's business in the ordinary course, made an assignment for the benefit of creditors or similar disposition of its assets, or become the subject of any bankruptcy, reorganization, liquidation, dissolution or similar proceeding;
(f) Customer or any User is using the Service or other Altirnao property in breach of this Agreement;
or (g) Customer is in default of its payment obligations hereunder (collectively, "Service Suspensions"). Altirnao will make commercially reasonable efforts, circumstances permitting, to provide written notice of any Service Suspension to Customer, and to provide updates regarding resumption of Customer's access to the Service following any Service Suspension.

Subscription terms

Customer agrees to pay the subscription fee applicable to Customers and its Users use of the Service. Such fees will be paid on a periodic basis as agreed to Altirnao or to your Altirnao reseller as agreed when you registered for the Service.

In case of non-payment for any reason (including, if applicable, Altirnao's inability to charge your credit card or other payment method for any reason) or any violation of these Terms, Altirnao shall be entitled – without liability – to immediately suspend Customer's and Users' access to the Service. If you purchase your license to use the Service from Altirnao, you hereby expressly agree that Altirnao is permitted to bill you for the applicable fees, any applicable tax and any other charges you may incur in connection with your use of the Service, or charge such fees to your credit card or other payment method designated on your initial registration with the Altirnao at regular intervals for the remainder of the term of these Terms. If you cancel your Account at any time, you will not receive any refund.

Customer agrees that Customer's paid use of the Service is neither contingent on the delivery of any future functionality or features nor dependent on any oral or written public or private comments made by Altirnao or any Altirnao reseller regarding future functionality or features.

Intellectual Property

Customer hereby acknowledges and agrees that, subject to the limited rights granted hereunder, Altirnao (or its licensors) own all legal right, title and interest in and to the Service, including, without limitation, any Intellectual Property Rights or other proprietary rights which exist in the Service (whether such rights are registered or unregistered, and wherever in the world those rights may exist) **("Our Technology").** For purposes of these Terms, "Intellectual Property Rights" means, on a worldwide basis, any and all now known or hereafter known (a) rights associated with works of authorship including copyrights and moral rights, (b) trademark and trade name rights and similar rights, (c) trade secret rights, (d) patent rights and other industrial property rights, (e) intellectual and industrial property rights of every other kind and nature and however designated, whether arising by operation of law or otherwise, and (f) all registrations, applications, renewals, extensions, continuations, divisions, or reissues thereof now or hereafter existing, made, or in force (including any rights in any of the foregoing).

Our Technology may not be copied, modified, reproduced, republished, posted, transmitted, sold, offered for sale, or redistributed in any way without our prior written permission and the prior written permission of our applicable licensors. You must abide by all copyright notices, information, or restrictions contained in or attached to any of Our Technology. Nothing in these Terms of Use grants you any right to receive delivery of a copy of Our Technology or to obtain access to Our Technology except as generally and ordinarily permitted through the Service according to these Terms. Furthermore, nothing in these Terms of Use will be deemed to grant, by implication, estoppel or otherwise, a license to Our Technology. Certain of the names, logos, and other materials displayed on the Service constitute trademarks, trade names, service marks or logos **("Marks")** of Altirnao or other entities. You are not authorized to use any such Marks. Ownership of all such Marks and the goodwill associated therewith remains with and will inure to us or those other entities. To the extent indicated, any use of third party software provided in connection with the Service will be governed by such third parties' licenses and not by these Terms of Service. Furthermore, any comments, ideas and/or reports about the Service that you provide to us, whether in written or electronic form **("Feedback"),** shall be considered our proprietary and confidential information, and you hereby irrevocably transfer and assign to us all intellectual property rights embodied in or arising in connection with such Feedback, and any other rights or claims that you may have with respect to any such Feedback.

Ownership & Privacy

As between You and Altirnao, you retain all right, title and interest in any and all data, files, attachments, text, images, personally identifiable information, and other content that You and Your Users upload or submit to the Service (collectively, **"Your Content").** You may not upload, post or otherwise make available through the Service any material protected by copyright,

trademark, or any other proprietary right -without the express permission of the owner of such copyright, trademark or other proprietary right owned by a third party, and the burden of determining whether any material is protected by any such right is on you. You shall have sole responsibility for the accuracy, quality, integrity, legality, reliability, appropriateness, and intellectual property ownership or right to use any and all of Your Content. You represent and warrant that you have all rights, permissions and consents necessary (a) to make Your Content available on or through the Service, and (b) to grant Altirnao the limited rights to use Your Content set forth in these Terms.

You agree that Altirnao may use Your Content to provide the Service and its features, including by making it available for viewing, download and modification by other Users with access rights to Your Content. You hereby grant Altirnao a non-exclusive, perpetual, royalty-free, worldwide license (including the right to sublicense through multiple tiers) to access, use, reproduce, distribute, store, transmit, modify, adapt, reformat, publicly display, publicly perform and create derivative works of Your Content as required for the purpose of providing the Service to you.

You understand and agree that Altirnao does not have the ability to grant or revoke the Service's access to Customer's Google Apps domain data and files or other content and materials stored in Customer's Google Apps account. Therefore, You are solely responsible for granting the Service access to such Google Apps files and revoking such access when You cease use of the Service. Altirnao shall not be responsible and shall have no liability for any damages that result from Your failure to grant or revoke such access.

You understand and agree that Altirnao may, notwithstanding any provision of any separate nondisclosure agreement that may have been executed between You and Altirnao, distribute and disclose Your Content (a) to your Users, and (b) to Altirnao's service providers who act on Altirnao's behalf in providing the Service. Altirnao's use of any personally identifiable information you provide through the Service is governed by our Privacy Policy. Your use of the Service indicates your acceptance of the terms of our Privacy Policy. You can review the most recent version of our Privacy Policy at http://www .altirnao .com/pr ivacy-policy/ .

You hereby consent that, if You choose to become a paying customer of the Service, Altirnao may identify You as a Altirnao customer (using Your name and logo) and generally describe the products or services it provides to You in its promotional materials, presentations, and proposals to other current and prospective customers.

If you cancel your Service subscription, your information is no longer used and Altirnao will delete your Account and data associated with your Account within ninety (90) days of your cancellation. Please note, however, that some information like billing and subscription may remain with us for accounting and legal reasons.

Availability.

Altirnao will make the Service available to You in accordance with the Service Level Agreement available online at https://www.aodocs.com/sla (the **"SLA").** Altirnao does not make any representations or guarantees regarding uptime or availability of the Service unless specifically identified in the SLA. The Service may be unavailable at certain times as specified in the SLA, including during any unanticipated or unscheduled downtime or unavailability of all or any portion of the Service as a result of system failures or force majeure events.

Warranty Disclaimer

THE SERVICE IS PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, IMPLIED WARRANTIES OF TITLE, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE

OR NON-INFRINGEMENT. ALTIRNAO MAKES NO WARRANTY THAT (I) THE SERVICE IS FREE OF VIRUSES OR OTHER HARMFUL COMPONENTS; (II) THE SERVICE WILL BE ERROR-FREE OR UNINTERRUPTED (INCLUDING, WITHOUT LIMITATION, INTERRUPTIONS THAT OCCUR IN THE CONTEXT OF REGULARLY SCHEDULED MAINTENANCE); (Ill) ANY INFORMATION OR ADVICE OBTAINED BY YOU IN CONNECTION WITH THE SERVICE WILL BE ACCURATE OR COMPLETE; OR (IV) THE RESULTS OF USING THE SERVICE WILL MEET YOUR REQUIREMENTS. SOME STATES DO NOT ALLOW EXCLUSION OF AN IMPLIED WARRANTY, SO THIS DISCLAIMER MAY NOT APPLY TO CUSTOMER.

Limitation of Liability

IN NO EVENT SHALL ALTIRNAO BE LIABLE FOR ANY CONSEQUENTIAL, INCIDENTAL, INDIRECT, SPECIAL, PUNITIVE, OR OTHER LOSS OR DAMAGE WHATSOEVER (INCLUDING BUT NOT LIMITED TO LOSS OF DATA, LOSS OF BUSINESS PROFITS, BUSINESS INTERRUPTION, COMPUTER FAILURE, LOSS OF BUSINESS INFORMATION), ARISING OUT OF OR CAUSED BY YOUR USE OF OR INABILITY TO USE THE SERVICE, EVEN IF ALTIRNAO HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGE. YOUR SOLE AND EXCLUSIVE REMEDY FOR ANY DISPUTE WITH ALTIRNAO RELATED TO ANY OF THE SERVICE SHALL BE TERMINATION OF SUCH SERVICE. IN NO EVENT SHALL ALTIRNAO'S ENTIRE LIABILITY TO YOU IN RESPECT OF ANY SERVICE, WHETHER DIRECT OR INDIRECT, EXCEED THE FEES PAID BY YOU TOWARDS SUCH SERVICE. SOME STATES DO NOT ALLOW THE LIMITATION OR EXCLUSION OF LIABILITY FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE LIMITATIONS OR EXCLUSIONS IN THIS PARAGRAPH MAY NOT APPLY TO CUSTOMER.

Other Terms

These Terms, their interpretation, performance or any breach thereof, will be construed in accordance with, and all questions with respect thereto will be determined by, the laws of the State of California. Both parties hereby irrevocably submit any disputes under these Terms to the jurisdiction of the courts located in the State of California.

Channel Foundation Agreement
U.S. Public Sector

1. INTRODUCTION

1.1 This Channel Foundation Agreement ("Foundation Agreement") specifies the terms and conditions agreed between CA and the Ordering Activity, as defined in GSA Order ADM4800.2G and as revised from time to time ("End User" or "Customer") as a foundation for their relationship as further defined in the applicable Modules. Ordering Activity understands and agrees that Ordering Activity's right to use the CA Offerings, ordered by Ordering Activity and submitted to CA by an Authorized CA Partner, is subject to Ordering Activity's compliance with this Foundation Agreement and the relevant Module for such CA Offering. The Foundation Agreement and the Module(s) incorporated into the GSA Schedule contract for the CA Offering(s) purchased by Ordering Activity will govern orders from an Authorized CA Partner for Ordering Activity's acquisition of the CA Offering and such terms shall remain binding upon both Ordering Activity and CA for that CA Offering absent mutual written agreement to the contrary.

1.2 Modules to this Foundation Agreement include the Channel Software Module, , Channel SaaS Module, Channel Hardware Appliance Module, and Channel Education Module.

2. DEFINITION

2.1 "Agreement" means this Foundation Agreement, the applicable Module, and License Metric for the applicable CA Offering, and any document incorporated expressly therein or incorporating the foregoing by reference.

2.2 "Authorized CA Partner" means an entity having a valid, current authorization from CA to market, offer and resell to Ordering Activity the right to use the CA Offering. Ordering Activity may find information regarding authorized CA Partners here: www.ca.com/partners.

2.3 "CA Offering" means the individual offering (such as software, services, software as a service etc.) made available by CA as defined in the Module and/or, License Metric.

2.4 "Confidential Information" means any information, maintained in confidence by the disclosing Party, communicated in written or oral form, marked as proprietary, confidential or otherwise so identified, that is exempt from disclosure under the Freedom of Information Act (FOIA), 5.U.S.C. §552(b) under one or more exemptions to that Act, and/or any information that by its form, nature, content or mode of transmission would to a reasonable recipient be deemed confidential or proprietary, including, without limitation, CA Offerings, Documentation, and any benchmark data and results produced.

2.5 "Documentation" means the documentation, technical product specifications and/or user manuals, published by CA or any entity within CA group of companies (each a CA entity) that is made generally available with CA Offerings.

2.6 "License Metric" means the specific criteria for measuring the usage of the CA Offering (such as MIPS, CPUs, tiers, servers, or users).

2.7 "Module" means the additional terms and conditions applicable to the CA Offering.

2.8 "Parties" means individually and or collectively CA and or the Ordering Activity.

2.9 "Prime Contractor" means the entity contracting directly with the Ordering Activity, if other than an Authorized CA Partner.

2.10 "Term" means the period for which Ordering Activity is authorized to use the CA Offering as specified in CA's order with Ordering Activity's chosen Authorized CA Partner or the Prime Contractor.

3. ORDERING AND DELIVERY

3.1 This Agreement applies to each specific CA Offering purchased by Ordering Activity from an Authorized CA Partner or Prime Contractor. Use of the CA Offerings, or of this Agreement to procure CA Offerings, by Ordering Activity's Affiliates outside of the jurisdiction specified for Ordering Activity in the order between CA and the Authorized CA Partner or Prime Contractor is not permitted unless such Affiliate signs a participation agreement with CA to adopt and adhere to the terms of this Agreement.

3.2 CA will deliver or make available a CA Offering to Ordering Activity only upon, and in accordance with, CA's execution of an order with the Authorized CA Partner. Any terms that may appear on an Ordering Activity's purchase order (including without limitation pre-printed terms), or as part of Ordering Activity's order with an Authorized CA Partner or Prime Contractor, that conflict or vary from the terms and conditions of this Agreement shall not apply to CA and shall be deemed null and void unless otherwise required by law.

3.3 The CA Offering will be delivered by CA to Ordering Activity either by electronic delivery (ESD) or in tangible media in accordance with the terms of the GSA Schedule contract and the relevant purchase order. CA agrees to be responsible for all customs duties and clearances.

4. CONFIDENTIAL INFORMATION

4.1 The Parties agree that when receiving Confidential Information from the disclosing Party, that the receiving Party shall hold it in confidence and shall not disclose or use such information except as permitted under the Agreement. The receiving Party shall treat the disclosing Party's Confidential Information confidentially and in the same manner as it treats its own proprietary and/or confidential information, which shall not be less than a reasonable standard of care, and the receiving Party shall use Confidential Information only for the purposes described in the Agreement. Confidential Information may be disclosed to receiving Party's employees, agents, financial advisors, contractors and attorneys on a need-to know basis and the receiving Party shall ensure that such persons maintain such Confidential Information pursuant to the terms of the Agreement.

4.2 The receiving Party shall be permitted to disclose Confidential Information in connection with a judicial or administrative proceeding to the extent that such disclosure is required under applicable law or court order, provided that the receiving Party shall, where reasonably possible, give the disclosing Party prompt and timely written notice of any such proceeding and shall offer reasonable cooperation in any effort of the disclosing Party to obtain a protective order.

4.3 For the purposes of the Agreement, Confidential Information shall exclude: (i) information which the receiving Party has been authorized in writing by the disclosing Party to disclose without restriction; (ii) information which was rightfully in the receiving Party's possession or rightfully known to it prior to receipt of such information from the disclosing Party; (iii) information which was rightfully disclosed to the receiving Party by a third Party having proper possession of such information, without restriction; (iv) information which is part of or enters the public domain without any breach of the obligations of confidentiality by the receiving Party; and (v) information which is independently developed by the receiving Party without use or reference to the disclosing Party's Confidential Information.

4.4 Nothing in the Agreement will (i) preclude CA from using the ideas, concepts and know-how which are developed in the course of providing any CA Offerings to Ordering Activity or (ii) be deemed to limit CA's rights to provide similar CA Offerings to other customers. Ordering Activity agrees that CA may use any feedback provided by Ordering Activity related to any CA Offering for any CA business purpose, without requiring consent including reproduction and preparation of derivative works based upon such feedback, as well as distribution of such derivative works.

4.5 To the extent permitted by the Federal Records Act, the receiving Party agrees, upon request of the disclosing party, to return to the disclosing Party all Confidential Information in its possession or certify the destruction thereof.

4.6 For CA software (including code) and Documentation, and Ordering Activity's and/or CA's Confidential Information expressly designated in writing as perpetually confidential, the obligations of this section are perpetual and shall survive termination. For all other Confidential Information, the foregoing obligations shall extend for five (5) years from the date of initial disclosure.

5. FEES

5.1 The Parties acknowledge and agree that all terms governing the fees, payments, payment schedules, pricing and discounts for the applicable CA Offering procured by Ordering Activity under this Agreement are and shall be between solely Ordering Activity and their chosen Authorized CA Partner or Prime Contractor.

6. TITLE

6.1 CA retains all right, title, copyright, patent, trademark, trade secret and all other proprietary interests to all CA Offerings and any derivatives thereof. No title, copyright, patent, trademark, trade secret or other right of intellectual property not expressly granted under the Agreement is exchanged between the Parties.

7. WARRANTY

7.1 Each Party represents and warrants that it has the legal power to enter into the Agreement.

7.2 CA represents and warrants that it owns or otherwise has sufficient rights to grant Ordering Activity the rights defined in the Agreement.

8. INDEMNIFICATION

8.1 CA will indemnify any third party claims that Ordering Activity's use of the specific CA Offering licensed or purchased by Ordering Activity under this Agreement infringes any valid US patent or copyright within the jurisdictions where Ordering Activity is authorized to use the CA Offering at the time of delivery. CA may, at its option and expense: (i) procure for Ordering Activity the

right to continue to use the CA Offering; (ii) repair, modify or replace the CA Offering so that it is no longer infringing; or (iii) provide a pro-rated refund to the Authorized CA Partner of the fees paid for the CA Offering which gave rise to the indemnity calculated against the remainder of the Term from the date it is established that CA is notified of the third party claim. If the CA Offering is CA Software, and is licensed on a perpetual basis, an amortization schedule of three (3) years shall be used for the basis of the refund calculation.

8.2 CA shall have no liability: (i) in the event the allegation of infringement is a result of a modification of the CA Offering except a modification by CA, (ii) if the CA Offering is not being used in accordance with CA's specifications, related documentation and guidelines, (iii) if the alleged infringement would be avoided or otherwise eliminated by the use of a CA published update or patch, (iv) if the alleged infringement is a result of use of the CA Offerings in combination with any third party product, or (v) if the applicable fees due for the specific CA Offering have not been paid by Ordering Activity or Prime Contractor to its Authorized CA Partner. The indemnifications contained herein shall not apply and CA shall have no liability in relation to any CA Offering produced by CA at the specific direction of Ordering Activity. THE FOREGOING PROVISIONS STATE THE ENTIRE LIABILITY AND OBLIGATIONS OF CA REGARDING CLAIMS OF INFRINGEMENT, AND THE EXCLUSIVE REMEDY AVAILABLE TO ORDERING ACTIVITY WITH RESPECT TO ANY ACTUAL OR ALLEGED INFRINGEMENT OR MISAPPROPRIATION OF ANY INTELLECTUAL PROPERTY OR OTHER PROPRIETARY RIGHTS.

8.3 CA shall indemnify Ordering Activity against all damages, fees, (including reasonable attorney's fees) fines, judgments, costs and expenses finally awarded as a result of a third party action alleging a bodily injury or death which arises under the Agreement, provided that such liabilities are the proximate result of gross negligence or intentional tortuous conduct on the part of CA.

8.4 The above indemnities are contingent upon: (i) Ordering Activity providing prompt notice of any claim of infringement and assistance in the defense thereof, (ii) CA's right to consult with Ordering Activity at any time and to intervene in the proceedings through CA's chosen counsel at CA's expense, provided that Ordering Activity shall not have the right to settle any claim requiring CA to make a payment or to admit liability without CA's prior written agreement , and (iii) Ordering Activity not taking any actions or failing to take actions that hinder the defense or settlement process.

9. LIMITATION OF LIABILITY

EXCEPT IN THE CASE OF A BREACH OF TITLE, INFRINGMENT OF CA'S INTELLECTUAL PROPERTY RIGHTS OR CONFIDENTIALITY, OR OF THIRD PARTY CLAIMS ARISING UNDER THE INDEMNIFICATION SECTION, TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW NEITHER PARTY (INCLUDING ANY OF CA'S SUPPLIERS) SHALL BE LIABLE FOR A) ANY INDIRECT, SPECIAL, CONSEQUENTIAL, INCIDENTAL, OR PUNITIVE DAMAGES OF ANY NATURE, INCLUDING, BUT NOT NECESSARILY LIMITED TO, LOSS OF PROFIT, DAMAGES RELATING TO MONIES SAVED OR FEES GENERATED AND OR ANY LOSS OF DATA BY USE OF ANY CA OFFERING, REGARDLESS OF WHETHER A PARTY WAS APPRISED OF THE POTENTIAL FOR SUCH DAMAGES; AND B) IN NO EVENT WILL A PARTY'S LIABILITY, EXCEED THE FEES PAID AND OR OWED TO CA FOR THE THEN CURRENT INITIAL OR RENEWAL TERM FOR WHICH THE ORDERING ACTIVITY HAS PROCURED THE CA OFFERING OR AS FURTHER DEFINED IN THE MODULE. FURTHERMORE, TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, CA SHALL NOT INCUR ANY LIABILITY FOR DEATH OR BODILY INJURY TO ANY THIRD PARTY UNLESS THE SAME ARISES FROM THE INTENTIONAL OR GROSSLY NEGLIGENT ACT(S) OF CA. This clause shall not impair the U.S. Government's right to recover for fraud or crimes arising out of or related to this Agreement under any federal fraud statute, including the False Claims Act, 31 U.S.C. §§ 3729-3733.

10. TERM & TERMINATION

10.1 This Foundation Agreement shall continue in effect unless otherwise terminated in accordance with this section or as required pursuant to Federal Acquisition Regulation (FAR) 52.212-4 "Contract Terms and Conditions- Commercial Items" sections (l) "Termination for the Government's Convenience" and (m) "Termination for Cause."

10.2 In the event Ordering Activity elects to terminate an order for its convenience prior to the expiration of the then current term, and such order includes licenses for CA Software, Ordering Activity shall also, within a reasonable period of time, delete all copies of such software from its systems, including copies stored for archival purposes and either destroy or return them to CA. The foregoing shall not apply, however, where such licenses were perpetual and Ordering Activity, at the time of such termination, has paid all associated perpetual license fees.

10.3 Termination does not release either Party from any liability which, at the time of such termination, had already accrued to the other Party or which is attributable to a period prior to such termination, nor preclude either Party from pursuing any rights or remedies it may have under law or in equity with respect to any breach of this Foundation Agreement or the Agreement.

11. DISPUTE RESOLUTION

11.1 Prior to the initiation of formal dispute resolution procedures regarding any dispute, controversy, or claim arising out of the Agreement or interpretation thereof (a "Dispute"), the Parties shall first meet as often, and for such duration and as promptly as the Parties reasonably deem necessary to discuss the Dispute and negotiate in good faith in an effort to resolve it.

11.2 The provisions of paragraph 11.1 will not be construed to prevent a Party from instituting formal proceedings to the extent necessary to avoid the expiration of any applicable limitations period or to pursue equitable rights or injunctive remedies deemed reasonable necessary to protect its interests.

11.3 Disputes relating to the payments of fees, any third party products or services or otherwise relating to the terms and conditions of an order between an Authorized CA Partner and Ordering Activity, shall be between Ordering Activity and such Authorized CA Partner, or if applicable, between Ordering Activity and Prime Contractor, and Ordering Activity agrees that it shall have no right of contribution or other claim from or against CA by reason thereof.

12. GENERAL TERMS

12.1 **Amendments**. The terms of the Agreement may only be amended by mutual written agreement of the Parties.

12.2 **Force Majeure**. Except for payment obligations and obligations pertaining to non-disclosure, notwithstanding any contrary provision in the Agreement, neither Party will be liable for any action taken, or any failure to take any action required to be taken, in the event and to the extent that the taking of such action or such failure arises out of causes beyond a Party's control, including, without limitation, war, civil commotion, act of God, strike or other stoppage (whether partial or total) of labor, any law, decree, regulation or order of any government or governmental body (including any court or tribunal).

12.3 **Order of Precedence**. Any conflict or inconsistency among or between the terms and conditions of the documents comprising the Agreement shall be resolved according to the following order of precedence, in the order of the greatest control to the least: (1) U.S. Federal law, (2) the relevant Module and(3) this Channel Foundation Agreement. Notwithstanding this Order of Precedence, unless expressly required by U.S. Federal law in subcontracts for commercial information technology, neither an Ordering Activity issued purchase order, nor the terms of an order between Ordering Activity and the Authorized CA Partner or Prime Contractor, shall modify the terms of the documents indicated herein.

12.4 **Ordering Activity Data**. If Ordering Activity transfers any personal data to CA as a requirement pursuant to any CA Offering, then Ordering Activity represents that (i) it is duly authorized to provide personal data to CA and it does so lawfully in compliance with relevant legislation, (ii) CA and any entity within the CA group of companies (each a "CA entity") or its subcontractors can process such data for the purposes of performing its obligations and (iii) CA may disclose such data to any CA entity and its subcontractors for this purpose and may transfer such data to countries outside of the country of origin. CA, Inc. is Safe Harbour certified and the CA Entities have committed to comply with relevant data protection/privacy legislation.

12.5 **Import Export**. Ordering Activity agrees that CA Offerings, Documentation, and or Confidential Information is subject to export controls of the United States of America and import controls of any other country in which such information may be used. Ordering Activity agrees to export, re-export or import such information only in compliance with such laws and controls.

12.6 **Announcements**. Neither Party may issue press releases relating to the Agreement without approving the content with the other Party. Either Party may include the name and logo of the other Party in lists of customers or vendors in accordance with the other Party's standard guidelines.

12.7 **Counterparts**. This Foundation Agreement and any Module, as applicable, may be signed in any number of counterparts by the Parties and each part shall be considered part of the whole and valid, legally binding document.

12.8 **Notice**. All notices hereunder shall be delivered to the other Party identified in the Agreement either personally, via certified mail, facsimile or overnight courier. If delivered personally, notice shall be deemed effective when delivered; if delivered via facsimile, notice shall be deemed effective upon electronic confirmation; and if delivered via certified mail or overnight courier, notice shall be deemed effective upon confirmation of delivery.

12.9 **Headings**. The section headings used herein are for information purposes only and shall not affect the interpretation of any provision of this Agreement.

12.10 **Validity**. In the event any term or provision of the Agreement shall be held to be invalid, the same shall not affect in any respect whatsoever the validity of the remainder of the Agreement.

12.11 **Third Parties**. This Agreement shall not create any rights in favor of, or any obligations owed by, any third party unless otherwise expressly defined in any Module. The Parties agree that any action arising from this Agreement shall solely be brought by Ordering Activity, the U.S. Government, or CA, unless otherwise permitted by law.

12.12 **Choice of Law**. To the extent that federal law is not dispositive of a dispute hereunder, the laws of the State of New York (excluding its conflict of laws provisions) shall govern the construction and enforceability of the Agreement.

12.13 **Survival**. Sections pertaining to Confidentiality, Title, Limitation of Liability, Termination, and Import Export shall survive termination of this Foundation Agreement.

12.14 **Entire Agreement**. The Agreement and all documents incorporated by reference therein shall comprise the entire agreement as pertaining to the subject matter thereof and all other prior representations, proposals, and other such information exchanged by the Parties concerning the subject matter is superseded in their entirety by the Agreement.

Channel SaaS Module

U.S. Public Sector

1. INTRODUCTION

1.1. This Module for Software as a Service ("SaaS Module") specifies terms and conditions which apply to Software as a Service that CA will provide to Ordering Activity.

1.2. This SaaS Module incorporates by reference the terms of the Foundation Agreement. Any capitalized terms used in this SaaS Module shall have the meanings given in the Foundation Agreement unless otherwise provided herein.

2. DEFINITIONS

2.1. "Ordering Activity Data" means information stored in the SaaS database.

2.2. "Force Majeure Event" means an event of Force Majeure as defined in the Foundation Agreement and/or delays caused by an internet service provider or hosting facility that results in data center outages resulting from causes not within CA's control.

2.3. "ISO 27001" means an Information Security Management System standard published by the International Organization for Standardization (ISO). This particular standard specifies a management system that is intended to bring information security under explicit management control and mandates specific requirements when this standard is met.

2.4. "Production" means the "live" environment of SaaS provided to process data on a real-time basis.

2.5. "Production Availability" means, for purposes of measuring the Service Level, the aggregate number of minutes during the month in which the SaaS is available for Production access and use by Ordering Activity.

2.6. "SaaS" means the online version of the CA Software specified in the Authorized CA Partner's order with CA for access to and usage by its customers via a website(s) environment.

2.7. "SAS 70 Type II" means the standards used by an independent auditor that employs procedures, policies and controls of SAS 70 Type I to verify and validate that the organization is following those procedures regarding control objectives, activities and control over information technology, and related processes.

2.8. "SaaS Support" means support of the underlying CA software so it operates materially in accordance with the Documentation.

2.9. "Sandbox" means a development or test environment that is not Production.

2.10. "Scheduled Downtime" means planned downtime of SaaS availability where CA provides notice to Ordering Activity at least 72 hours in advance.

2.11. "Service Level" means as described in the section entitled: Service Level Commitments.

2.12. "Subscription Term" means the period of the Ordering Activity's subscription to the SaaS as specified in the Authorized CA Partner's order with CA.

2.13. "Users" means the number of individuals authorized to access and use of SaaS by Ordering Activity and who have been provided user identifications and passwords by Ordering Activity (or by CA at Ordering Activity's request), measured by CA on an aggregate monthly basis by the amount of User Logins. Users may include Ordering Activity and Affiliate's employees and independent contractors that agree to be bound by terms and conditions no less restrictive than those contained herein and are acting on behalf of Ordering Activity and not a third party.

2.14. "User Logins" means the initial and standard login screen where a User is required to enter its user ID and the password.

3. SAAS OFFERING

3.1. CA shall provide SaaS to Ordering Activity during the Subscription Term directly or through a third party SaaS provider in accordance with the terms of the Agreement.

3.2. CA hereby provides Ordering Activity a non-transferable and non-exclusive right to access and use SaaS for the sole purpose of supporting its internal business use. A new User may replace a former User who no longer requires access to, or use of, the SaaS. Users may be Ordering Activity employees, Ordering Activity third party consultants, contractors or agents, which third parties may

access and use the SaaS solely for the benefit of Ordering Activity's internal business purposes in accordance with the provisions of this Agreement.

3.3. Ordering Activity acknowledges and agrees that in order for CA to effectively provide SaaS, Ordering Activity may be required to provide necessary information and shall not delay, prevent or interfere with CA's provision of SaaS.

4. FEES & RENEWAL

4.1. Ordering Activity may access SaaS for solely the number and type of Users specified in the Authorized CA Partner's order with CA. Additional Users, or an additional SaaS offering, if available, shall require Ordering Activity to procure with CA or an Authorized CA Partner (whether directly or through a Prime Contractor) for such users or offering. Unless otherwise agreed by CA, (i) additional Users may be purchased only in increments of 50 Users; and (ii) such additional User subscriptions shall be coterminous with the expiration of the Subscription Term.

4.2. CA may with notice prior to any renewal, replace the Ordering Activity ordered SaaS with replacement, underlying software that is generally available to customers with alternative, materially similar, functionality.

4.3. The fees for SaaS subscription are not contingent upon the delivery of any future functionality or features of the CA Software.

5. ORDERING ACTIVITY DATA

5.1. Ordering Activity exclusively owns all rights, title and interest in and to all Ordering Activity Data. Ordering Activity Data shall be considered to be Confidential Information under the Agreement. CA shall not access Ordering Activity's User accounts, or Ordering Activity Data, except (i) in the course of data center business operations if required, (ii) in response to SaaS or technical issues or (iii) at Ordering Activity's specific request as reasonably required in the provision of SaaS. CA will segregate Ordering Activity's Data from other customers' data.

5.2. CA operates and maintains a disaster recovery procedure. In case of a Force Majeure Event, Ordering Activity acknowledges and agrees that Ordering Activity Data may not be recoverable and accepts responsibility for re-entry of such data.

5.3. Ordering Activity Data will be returned to the Ordering Activity at the end of the Subscription Term or at the termination of the SaaS subscription in the manner described in the SaaS Documentation.

6. SECURITY

6.1. CA shall adhere to SAS 70 Type II audit compliance criteria and data security procedures which meet ISO 27001 status during the Subscription Term.

6.2. CA shall comply with CA's security policy and procedures, which policies and procedures are designed to provide and maintain commercially reasonable safeguards against the destruction, loss or alteration of, or unauthorized access to or use of the Ordering Activity Data in CA's possession or control and which safeguards are, at a minimum, no less rigorous than those maintained by CA for its own information of a similar nature.

6.3. Ordering Activity Data shall be stored pursuant to CA's data security procedures, which shall be provided to Ordering Activity upon request. Except as required herein, CA will not be responsible for any unauthorized access to, or alteration, theft or destruction of Ordering Activity Data, unless caused as a result of CA's negligence or intentional misconduct, in which case restoring or recovery of Ordering Activity Data shall be limited to the most recent back-up of Ordering Activity Data. CA is not responsible for loss of Ordering Activity Data arising from Ordering Activity's: (i) transmission of data in contravention of the User Guide; or (ii) failure to act on any CA provided communication.

6.4. CA shall comply with the applicable EU member states' implementation of the Directive 95/46/EC ("Directive") governing the processing of personal data as defined specifically in the Directive and CA, Inc. is Safe Harbour certified.

6.5. Ordering Activity or an independent third party may audit CA's operations within the applicable data center to verify CA's compliance with the security and technical provisions defined in this Module. The audit may take place, no more than once annually, upon thirty (30) days prior written notice subject to Ordering Activity or its independent third party having executed a CA confidentiality agreement and stating the purpose and scope of the request. Such audit shall be conducted during normal business hours in a manner that does not disrupt business operations.

7. INITIATION AND SUPPORT PROCESSES

7.1. The following processes apply to the SaaS:

i. CA will send an email to Ordering Activity's technical contact identified in the Authorized CA Partner's order with CA setting out the SaaS URL(s) and other information necessary for initial use of the SaaS. Ordering Activity shall provide information as requested within 7 days of receiving the email.

ii. Customer will utilize the CA Support website, or other site or notification mechanism as CA may designate from time to time, to notify CA of SaaS availability issues, request other in-scope technical support assistance, or for Customer's to provide feedback or approvals on requests as applicable.

8. SAAS SUPPORT

8.1. The Ordering Activity shall be provided with SaaS Support during the Subscription Term.

8.2. For any SaaS Support requests, Ordering Activity should be prepared to provide to SaaS Support personnel, all pertinent information, in English, including but not limited to, Ordering Activity number or site identification number, incident severity, SaaS/software name, area of SaaS (Production or Sandbox), incident description, and a technical contact familiar with Ordering Activity's environment or the problem to be solved. Ordering Activity must use reasonable efforts to communicate with CA in order to verify the existence of the problem and provide information about the conditions under which the problem could be duplicated.

8.3. Upon receiving Ordering Activity's technical contact information, SaaS Support will be provided in a timely and professional manner by qualified support engineers as defined below:

i. Access to CA help desk and the ability to open and manage support incidents via CA support online or by telephone.

ii. Production environment support: 24x7 for severity 1 incidents; normal business hours for severities 2-4.

iii. Sandbox environment support: Normal business hours for incidents of all severities.

iv. Access to CA support website (currently: http://support.ca.com) for 24x7x365 online support and access to CA software product and documentation, global user communities and regional user groups, FAQs, samples, webcast recordings and demos, usage tips, technical updates and HYPER notifications, as such are made available by CA.

v. Interactive remote diagnostic support allowing CA support engineers to troubleshoot an incident securely through a real-time browser-based remote control feature.

vi. Additional support such as file storage, point in time backup, periodic file refresh and basic reporting may be available at CA's discretion according to the SaaS provided.

Any additional support requirements are only by prior written agreement with CA.

8.4. In order to respond to an issue raised through SaaS Support, CA may request Ordering Activity to upgrade to appropriate operating systems and or third party applications as required in order to properly operate and access the SaaS offering. Any such upgrades or installations shall be at the Ordering Activity's sole option and discretion. The costs associated with any upgrades required and any such installations are not included as SaaS Support and all such costs shall be the responsibility of the Ordering Activity.

9. ORDERING ACTIVITY RESPONSIBILITIES

9.1. Ordering Activity is responsible for all activities that occur in, or are related to, User accounts including the data, information stored or transmitted when accessing SaaS.

9.2. Because Ordering Activity may integrate or utilize third party links to other software, hardware or other service which are associated with, or otherwise available through SaaS, Ordering Activity agrees that it and its Users shall use such third party links in their sole discretion. CA shall have no responsibility or liability with respect to such third party links used by Ordering Activity's or Users' or for any act or omission of any such third party provider.

9.3. Ordering Activity shall not: (i) make SaaS available to any third party not authorized, other than to Users or as otherwise contemplated by this Agreement; (ii) send or store code that can harm or result in damage to the SaaS offering (including but not limited to malicious code and malware); (iii) wilfully interfere with or disrupt the integrity of SaaS or the data contained therein; (iv) attempt to gain unauthorized access to the SaaS or its related system or networks; (v) use SaaS to provide services to external end users and or to process data other than Ordering Activity's as an outsourcer, service bureau or consultant without written permission provided by CA.

10. WARRANTY

10.1. CA warrants that (i) SaaS shall perform materially in accordance with the applicable SaaS Documentation and (ii) that SaaS will be available online according to the performance levels described in the Service Levels defined in this SaaS Module.

10.2. EXCEPT AS EXPRESSLY SET FORTH ABOVE, TO THE EXTENT PERMITTED BY LAW, NO OTHER WARRANTIES, WHETHER EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, THIRD PARTY WARRANTIES, IMPLIED WARRANTIES OF MERCHANTABILITY, SUITABILITY OR SATISFACTORY QUALITY, OR THE WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE ARE MADE BY CA AND CA MAKES NO WARRANTIES HEREUNDER WITH RESPECT TO ANY HARDWARE EQUIPMENT OR THIRD PARTY SOFTWARE WHICH CA MAY USE TO PROVIDE THE SAAS.

10.3. Ordering Activity warrants that (i) it has the right to transmit any data or information as may be required for the purposes of accessing SaaS (ii) it will ensure compliance to the Agreement by itself and its Users and (iii) it is responsible for all activities that occur in User accounts, (iv) it shall not misuse SaaS through sending spam or otherwise duplicative or unsolicited messages or store infringing, obscene, threatening, or otherwise unlawful material that is harmful to children or violates third party privacy rights.

11. WARRANTY REMEDY

11.1. In the event of a breach of the Warranty by CA, CA may in consultation with Ordering Activity (i) use reasonable efforts consistent with industry standards to cure the defect as defined in CA Support process outlined in this SaaS Module and or (ii) Ordering Activity may exercise its rights to termination as defined under the Service Level Commitment section below and qualify for a refund as defined therein and or (iii) mutually agree with Ordering Activity to terminate the subscription and provide a pro-rata refund to the Authorized CA Partner calculated on the number of months left remaining on the Subscription Term. Warranty remedies are conditioned upon (i) any error or defect complained of is reasonably reproducible by CA, (ii) the breach is not attributable in whole or in part to any non-CA product(s) or service(s).

12. SERVICE LEVEL COMMITTMENT

12.1. Service Levels: The following Service Levels will apply to the applicable SaaS offering during the applicable Subscription Term:

i. Production Availability of SaaS 99.5% on a monthly basis. If Production Availability falls below 99%, it shall be considered a minor failure; and if Production Availability falls below 98%, it shall be considered a major failure.

12.2. Ordering Activity will be provided monthly electronic reports regarding Service Levels and follow the procedure set out below:

i. CA will investigate missed Service Levels through determining the root cause of the issue then using commercially reasonable efforts to correct the issue and advising Ordering Activity as reasonably requested by Ordering Activity of the status of efforts being undertaken with respect to the issue;

ii. Provide Ordering Activity reasonable evidence to Ordering Activity that the cause of the issue is being corrected or will be corrected and

iii. In the event of a minor failure, Ordering Activity is entitled to 2 additional days of the applicable SaaS offering at no additional charge. In the event of a major failure, Ordering Activity is entitled to 5 additional days of the applicable SaaS offering at no additional charge.

12.3. Pursuant to FAR 52.212-4(l), Ordering Activity may terminate for convenience its subscription to SaaS without incurring any additional charges or termination fees. In the event of such termination for convenience CA shall refund to the CA Authorized Partner that portion of the fees paid which have not yet been applied towards SaaS as of the effective date of termination. Any such refund herein shall be Ordering Activity's sole and exclusive remedy under this SaaS Module with respect to CA only and CA shall have no further liability arising out of the applicable SaaS subscription, and shall not impact termination of any other Module or the Foundation Agreement. This section does not limit the rights or remedies of the Ordering Activity under FAR 52.212-4(m), Termination for cause.The following events shall be excluded from the calculation of any Service Level failures: (i) Force Majeure Event; (ii) outages due to Scheduled Downtime such as upgrading data center infrastructure; (iii) outages based on Ordering Activity networks or domain name server issues; (iv) Ordering Activity's configuration, scripting, coding; (v) internet outages; (vi) Ordering Activity outages requested by Ordering Activity (vii) Ordering Activity changes to its environment which hinder SaaS production and (viii) inability for Ordering Activity to log in due to use of Lightweight Directory Access Protocol (LDAP) to control authentication.

13. NIMSOFT SaaS

13.1. The following sections of this Module are not applicable to Nimsoft Saas transactions:

i. 2.2;

ii. 2.3;

iii. 2.7;

iv. 5.2;

v. 6.1;

vi. 6.5 and

vii. 12.2;

13.2. The following sections of this Module are modified or added as follows for Nimsoft SaaS (On-Demand) transactions to the extent consistent with U.S. Federal law:

i. Section 7.1 ii: "Ordering Activity will utilize the **Nimsoft** CA Support website, or other site or notification mechanism as CA may designate from time to time, to notify CA of SaaS availability issues, request other in-scope technical support assistance, or for Ordering Activity to provide feedback or approvals on requests as applicable."

ii. Section 8.1: "The Ordering Activity shall be provided with SaaS Support pursuant ot the terms of http://www.nimsoft.com/content/dam/nimsoft/documents/un-secure/agreements/nimsoft-us-support-agreement.pdf during the Subscription term."

iii. Section 10.1: "CA warrants that (i) SaaS shall perform materially in accordance with the applicable SaaS Documentation for a period of 60 days from the commencement of the Term and (ii) that SaaS will be available online according to the performance levels described in the Service Levels defined in this SaaS Module.

iv. Add the following as Section 15:

"15. **REPORTING AND AUDIT**

Reports. Ordering Activity agrees to prepare and submit monthly reports to the Authorized CA Partner and CA that shall include, without limitation, information detailing the use of SaaS pursuant to the license metrics applicable to SaaS ("Report"). Ordering Activity shall submit each Report to the Authorized CA Partner and CA on the fifteenth day of each calendar month.

Overage. If the Report shows the Ordering Activity has exceeded the Authorized Use Limitation at any time during a month, such Report shall constitute a basis for a claim to the relevant Contracting Officer pursuant to the Contract Disputes Act and FAR 52.233-1. In no event may the SaaS quantity be lowered below the original numberordered.

14. **GENERAL TERMS**.

14.1. Any conflict or inconsistency among or between the terms and conditions of the documents comprising the Agreement shall be resolved according to the following order of precedence, in the order of the greatest control to the least: (1) U.S. Federal law, (2) this Channel SaaS Module and (3) the Channel Foundation Agreement. Notwithstanding the foregoing, unless expressly required by U.S. Federal law in subcontracts for commercial information technology, neither an Ordering Activity issued purchase order, nor the terms of an order between Ordering Activity and the Authorized CA Partner or Prime Contractor, shall modify the terms of the documents indicated herein.

Channel Hardware Appliance Module
U.S. Public Sector

1. INTRODUCTION

1.1. This Module for the Hardware Appliance ("Hardware Appliance Module") specifies terms and conditions which apply to the Hardware Appliance which CA will provide to Ordering Activity.

1.2. This Hardware Appliance Module incorporates by reference the terms of the Foundation Agreement. Any capitalized terms used in this Hardware Appliance Module shall have the meanings given in the Foundation Agreement unless otherwise provided herein.

2. DEFINITIONS

2.1. "Hardware" means a single CA-supplied third party physical server or device.

2.2. "Hardware Appliance" means Hardware that is bundled with and operates the CA Software licensed by Ordering Activity and pre-installed on the Hardware.

3. APPLIANCE OFFERING

3.1. CA shall provide the Hardware Appliance specified in the Authorized CA Partner's order with CA.

3.2. The terms for license and support for the underlying CA Software is covered separately under the Software Module.

4. FEES

4.1. Ordering Activity may order Hardware Appliance with, and pay the associated fees and other charges to an Authorized CA Partner or Prime Contractor. CA will deliver to Ordering Activity the Hardware Appliance specified in the Authorized CA Partner's order with CA.

4.2. Upon CA's receipt of payment from the Authorized CA Partner, Ordering Activity will own the Hardware free of any liens or encumbrances.

5. WARRANTY

5.1. Upon the purchase of a Hardware Appliance, CA will pass through to the Ordering Activity the applicable Hardware warranty. Such warranty will be provided for a period of twelve (12) months or more depending on the type of Hardware Appliance purchased. A copy of the applicable third party support warranty coverage is available under the "Get Support" section of CA's Support website located at https://support.ca.com.

6. WARRANTY REMEDY

6.1. To address a warranty issue on the Hardware, CA will provide Ordering Activity telephone assistance to access the third party Hardware support to address support issues with the Hardware.

6.2. Except for procuring third party warranty coverage for the Hardware as described above, the Hardware is provided on an "AS IS" basis and CA makes no warranties, and disclaims any and all express or implied warranties (including but not limited to warranties of merchantability or satisfactory quality or fitness for a particular purpose), with respect to the Hardware. None of the warranties specified in the Foundation Agreement or any other agreement shall apply to the Hardware.

7. ORDERING ACTIVITY REQUIREMENTS

7.1. Ordering Activity is solely responsible for use of the Hardware, including assuring proper supported environment configuration, CA software installation, and operating methods in accordance with the Hardware specifications and Documentation.

7.2. CA will not support modifications to the Hardware nor will it support the Hardware if Ordering Activity fails to comply with the terms of the Agreement to the extent such failure causes the Hardware's failure to perform in substantial accordance with the applicable Hardware documentation.

7.3. CA shall have no obligation to replace the Hardware, or provide additional hardware, in cases where future Versions or Releases (as such terms are defined in the Software Module) of the CA Software require an upgrade of or addition to such Hardware.

8. GENERAL TERMS

8.1. Any conflict or inconsistency among or between the terms and conditions of the documents comprising the Agreement shall be resolved according to the following order of precedence, in the order of the greatest control to the least: (1) U.S. Federal law, (2) this Channel Hardware Appliance Module and (3) the Channel Foundation Agreement. Notwithstanding the foregoing, unless expressly required by U.S. Federal law in subcontracts for commercial information technology, neither an Ordering Activity issued purchase

order, nor the terms of an order between Ordering Activity and the Authorized CA Partner or Prime Contractor, shall modify the terms of the documents indicated herein.

Channel Education Module
U.S. Public Sector

1. INTRODUCTION

1.1. This Module for Education ("Education Module") specifies terms and conditions which apply to Education that CA will provide to Ordering Activity.

1.2. This Education Module incorporates by reference the terms of the Foundation Agreement. Any capitalized terms used in this Education Module shall have the meanings given in the Foundation Agreement unless otherwise provided herein.

2. DEFINITIONS

2.1. "Attendees" mean the participants authorized by Ordering Activity to attend or participate in the Education offerings as indicated in the Transaction Document.

2.2. "Course Materials" means any Education content provided to Ordering Activity in any media form pursuant to a Transaction Document, including without limitation, all publications, courseware, training manuals and materials, user guides, web portals, or virtual labs provided by CA or a CA subcontractor.

2.3. "Education" means any standard or customized education offerings, training or instruction, or related services, provided by CA or a CA subcontractor in any format or location, including without limitation, (i) instructor led training, including at CA or Ordering Activity site(s), (ii) virtual training, including online classes, courses, or course catalogues and/or (iii) class room training or testing, at a CA or third party training facility.

3. EDUCATION OFFERING

3.1. CA shall provide the Education as specified in the Authorized CA Partner's order with CA.

3.2. CA may require the registration or pre-registration of Attendees in order to attend or access the applicable Education. Ordering Activity acknowledges that CA reserves the right to refuse entry or access to any individual that cannot authenticate their registration or authorization for such Education.

4. FEES AND CANCELLATION

4.1. The Parties acknowlede and agree that all terms governing the fees, payments, payment schedules, pricing and discounts for the applicable CA Offering procured by Ordering Activity under this Agreement are and shall be between solely Ordering Activity and their chosen Authorized CA Partner or Prime Contractor.

4.2. If CA cancels a class due to unforeseen circumstances, or low enrollment, CA will provide as much advance notice as possible but no less than ten (10) business days prior to the class in which case Ordering Activity may reschedule the class to an alternative time.

4.3. Cancellation in writing by Ordering Activity must be provided at least ten (10) business days prior to the class. If such notice is not given CA may charge Authorized CA Partner up to 100% of the fees for the class. If fees are pre-paid, no refund will be provided to the Authorized CA Partner

4.4. Neither party shall be liable for any travel related fees or expenses incurred by the other party in relation to Education which such party has properly cancelled in compliance with this section.

5. INTELLECTUAL PROPERTY RIGHTS

5.1. CA grants to Ordering Activity, a non-exclusive, non-transferable license to use the Course Materials for the internal use of the Ordering Activity, but limited to the specific Attendees and subject to terms of the Agreement. Ordering Activity shall be responsible for all use of the Education and Course Materials by its Attendees.

6. WARRANTY

6.1. If CA provides an instructor, the delivery of the Course Offering shall be provided in a professional, workman-like manner.

6.2. EXCEPT AS SET FORTH IN THIS SECTION, NO OTHER WARRANTIES, WHETHER EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, THIRD PARTY WARRANTIES, THE IMPLIED WARRANTIES OF MERCHANTABILITY OR SUITABILITY AND/OR THE WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE ARE MADE BY CA.

7. WARRANTY REMEDY

7.1. In the event of a breach of the Warranty section, Ordering Activity's remedy shall be, at CA's discretion and in consultation with Ordering Activity, to re-perform the Education at no additional charge to the Ordering Activity. These remedies are contingent upon the alleged breach not resulting from Ordering Activity's failure to abide by its obligations or to conform to the Course Materials.

8. GENERAL TERMS

Any conflict or inconsistency among or between the terms and conditions of the documents comprising the Agreement shall be resolved according to the following order of precedence, in the order of the greatest control to the least: (1) U.S. Federal law, (2) this Channel Education Module and (3) the Channel Foundation Agreement. Notwithstanding the foregoing, unless expressly required by U.S. Federal law in subcontracts for commercial information technology, neither an Ordering Activity issued purchase order, nor the terms of an order between Ordering Activity and the Authorized CA Partner or Prime Contractor, shall modify the terms of the documents indicated herein.

1. INTRODUCTION

1.1. This Module for CA Software ("Software Module") specifies terms and conditions which apply to CA Software that CA will license to Ordering Activity and the Support that applies.

1.2. This Software Module incorporates by reference the terms of the Foundation Agreement. Any capitalized terms used in this Software Module shall have the meanings given in the Foundation Agreement unless otherwise provided herein.

2. DEFINITION

2.1. "Access" means use of CA Software remotely by an Authorized End User.

2.2. "Authorized End Users" means Ordering Activity as well as its employees and support contractors (but excluding any outsourcer, facilities management providers, managed service provider, or application service provider) that are bound by terms and conditions no less restrictive than those contained herein and are acting on behalf of Ordering Activity and not a third party.

2.3. "Authorized Use Limitation" means the quantity of the CA Software authorized by CA in accordance with the License Metric specified in the order between CA and the Authorized CA Partner.

2.4. "CA Software" means the computer software programs, either provided individually or packaged as a software appliance, made generally available and licensed to a Ordering Activity under this Module, including all Versions, Releases, provided as part of Support if applicable.

2.5. "Distributed" means the CA Software designated as distributed that is generally used for indepedent usage across individuals systems or hardware based on the Licensed Metric in a decentralized form of computing.

2.6. "Mainframe" means CA Software designated as mainframe that is generally used for a large capacity processor that provides links to users through less powerful devices such as workstations or terminals based on the Licensed Metric in a centralized form of computing.

2.7. "Maintenance" means the provision of new Releases made available while on active Support or new Versions if applicable to the generally available CA Software licensed by Ordering Activity.

2.8. "Perpetual License" means a license to use CA Software for an indefinite period subject to compliance with the Agreement.

2.9. "Release" means a general available release of a CA software product, which may contain minor new software product functionality, code, or compatibility and incorporates all previous fixes (if any exist) since the last Version. Typically, a Release requires a new installation, rather than an overlay to the already installed software. Unless otherwise specified by CA for a particular product, a Release is tied to the preceding Version and is typically designated by a number to the right of the decimal point such as 1.1, 1.2, 1.3, etc.

2.10. "Subscription" or "UMF" (Usage and Maintenance Fee) license means a license to use CA Software for a specific period of time which shall include Support unless otherwise specified by CA in its order with the Authorized CA Partner.

2.11. "Support" means the provision of technical support and Maintenance provided for a particular CA Software as specified in the Authorized CA Partner's order with CA.

2.12. "Territory" is the location where Ordering Activity is authorized to install the CA Software as specified in the Authorized CA Partner's order with CA or the Prime Contractor.

2.13. "Version" means a release of a CA Software Product that contains major changes in software product functionality, code, or compatibility and incorporates the previous release (if one has occurred), fixes and service Packs (if they have occurred). Typically, a Version requires a new installation, rather than an overlay to the already installed software. Unless otherwise specified by CA for a particular product, a Version is designated by the number to the left of the decimal point such as 1.0, 2.0, 3.0, etc.

3. SOFTWARE OFFERING & OBLIGATIONS

3.1. CA grants the Ordering Activity a limited, non-exclusive, non-transferable license, for the Term:

3.1.1. install and deploy the CA Software in the Territory up to the Authorised Use Limitation.

3.1.2. permit its Authorized End Users Access to the CA Software for Ordering Activity's and Affiliates' internal business wherever located. Ordering Activity hereby expressly agrees that a breach by an Authorized End User of the Agreement shall be considered to be a breach by and the responsibility of the Ordering Activity.

3.1.3. make a reasonable number of copies of the CA Software for disaster recovery "cold standby", backup and archival purposes. Use of such copies is limited to testing Ordering Activity's disaster recovery procedures and effectiveness and as is necessary during any reasonable period subsequent to the occurrence of an actual disaster during which Ordering Activity cannot operate the CA Software.

3.1.4. relocate CA Software to a new Ordering Activity location within the Territory upon prior written notice.

3.2. The specifications and specified operating environment information of the CA Software may be found in the Documentation accompanying the CA Software, if available (e.g., a user manual, user guide, or readme.txt or notice.txt file).

3.3. Upon request by CA, Ordering Activity agrees to provide records reasonably requested by CA to verify its compliance with the Authorized Use Limitation during the period in which Ordering Activity is licensed to use the CA Software and for a period of twelve (12) months after expiration including certified copies of statements or records as applicable. Such reports will be based on the License Metric for the CA Software ordered for Customer by CA.

3.4. The grant of license is contingent upon Ordering Activity's compliance with the following obligations set out under this provision: Ordering Activity agrees, that it shall not: (i) access or use any portion of the CA Software not expressly authorized by CA or the Documentation of the CA Software; (ii) cause or permit de-compilation, reverse engineering, or otherwise translate all or any portion of the CA Software; (iii) modify, unbundle, or create derivative works of the CA Software and/or Documentation; (iv) rent, sell, lease, assign, transfer or sublicense the CA Software or use the CA Software to provide hosting, service bureau, on demand or outsourcing services for the benefit of a third party; (v) remove any proprietary notices, labels, or marks on or in any copy of the CA Software or Documentation; (vi) use the CA Software beyond the Authorized Use Limitation.

3.5. CA reserves the right, on reasonable notice to the Ordering Activity and subject to any security measures the Ordering Activity deems appropriate, to conduct an audit remotely or onsite of Ordering Activity and/or its Affiliates facilities to verify Ordering Activity's compliance with the terms of the Agreement. CA agrees that such audit shall be conducted during regular business hours at Ordering Activity's offices and CA shall endeavor to conduct such audit so as not to interfere unreasonably with Ordering Activity's activities and/or use an independent third party to conduct the audit subject to terms of non-disclosure if required.

3.6. All rights not specifically granted hereunder are expressly reserved.

4. SUPPORT OFFERING

4.1. If Support is purchased by Ordering Activity, CA will provide Ordering Activity with technical support for the CA Software, according to the Support specified in the Authorized CA Partner's order with CA, to operate according to the Documentation, help desk support and Maintenance for the CA Software based on Support guidelines as described on http://www.support.ca.com.

4.2. In order to initiate an issue, Ordering Activity will provide CA sufficient information so that CA can provide assistance to Ordering Activity in a timely manner.

4.3. CA will provide a minimum of twelve months prior written notice to Ordering Activity if CA ceases to provide new Versions or Releases for a CA Software product.

4.4. CA will renew Support for Ordering Activity's use of the CA Software upon its acceptance of an order with an Authorized CA Partner for such Support.

5. THIRD PARTY TERMS

The CA Software may contain third-party software components. Ordering Activities are advised to review any additional terms, notices, and/or information applicable to third-party software components, which are available at https://support.ca.com/prodinfo/tpterms.

6. PERFORMANCE WARRANTY

6.1. For Distributed Software. CA warrants that the CA Software will operate materially in accordance with the applicable specifications set forth within the Documentation for a period of ninety (90) days after delivery of the CA Software to Ordering Activity subject to Ordering Activity's compliance with the Agreement.

6.2. For Mainframe Software. CA warrants that the Mainframe Software will operate materially in accordance with the applicable specifications set forth within the Documentation for the Term, subject to Ordering Activity's compliance with the Agreement.

7. PERFORMANCE WARRANTY REMEDY

7.1. If CA has breached either warranty set forth in the section entitled: Performance Warranty, Ordering Activity's remedy is for CA to, in consultation with Ordering Activity, to either (i) use reasonable efforts consistent with industry standards to cure the defect, or (ii) replace the CA Software(s) with one that materially complies with the Documentation, or (iii) mutually agree to terminate the license

and provide a pro-rata refund to the Authorized CA Partner of the license fees paid and or Support fees. If option (iii) applies, the pro-rata refund shall be calculated on the number of months left remaining on the Term of the applicable Transaction Document or if the CA Software is licensed under a Perpetual License, using (only for purposes of a refund calculation) an amortization schedule of three (3) years.

7.2. Warranty remedies are conditioned upon (i) any error or defect complained of is reasonably reproducible by CA, (ii) the CA Software is not modified and is being used in accordance with CA Documentation, and (iii) the breach is not attributable in whole or in part to any non-CA product(s) or service(s).

7.3. **THE ABOVE WARRANTIES ARE THE SOLE WARRANTIES PROVIDED BY CA. NO OTHER WARRANTIES, INCLUDING THAT THE CA SOFTWARE IS ERROR FREE, WHETHER EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTABILITY, NONINFRINGEMENT, OR SUITABILITY AND/OR THE WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE ARE MADE BY CA.**

8. ACCEPTANCE

8.1 All CA Software is deemed accepted upon issuance of an order to CA from CA Authorized Partner.

9. VIRTUALIZATION

When CA Software is used on multiple machines (physical and "virtual"), each such use of the CA Software shall be counted for the purposes of determining the Authorized Use Limitation for that CA Software. A "virtual" PC or server environment is created where Virtual Machine Technology (which applies to both client and server hardware) is used to enable multiple instances of an operating system(s) to run on a single computer simultaneously.

10. NEW PRODUCT LANGUAGE AND DISTRIBUTED CA SOFTWARE EXCLUSION

10.1 In addition to and separate from unspecified upgrades and enhancements to be provided as maintenance under the initial Term specified in the order with Authorized CA Partner (together with any extension(s) or renewal(s) thereof, the "Term" for purposes of this section), in the event CA develops a new release of a mainframe CA Software that it designates and makes generally available as a new product (typically containing new functions in addition to or different from existing functionality (a "New Product"), then upon CA's receipt of Ordering Activity's written request and without additional charge, such currently unspecified mainframe New Product shall be made available for use by the Ordering Activity during the Term, on the same basis as applies to such mainframe CA Software, even if CA then determines to charge a separate license fee for the mainframe New Product to CA's other licensees.

10.2 Such rights shall not extend to any Hardware provided under this Agreement. Notwithstanding anything to the contrary in the Agreement by and between the parties hereto (i) the Distributed CA Software herein shall not be construed as a "New Product" for the purposes of any prior agreement between the parties; and (ii) the provisions of any "New Product" provision in any prior agreement shall not apply to the distributed CA Software herein or any subsequent license for CA Software.

11. NIMSOFT ON PREMISE

11.1. **The following terms are modified or added for all Nimsoft transactions to the extent consistent with U.S. Federal law:**

11.1.1. **Section 2.4**: "Nimsoft Software" means the computer software programs, made generally available and licensed to a Ordering Activity under this Module, including all Versions, Releases, provided as part of Support if applicable."

11.1.2. **Section 4.1: "**If Support is purchased by Ordering Activity, CA will provide Ordering Activity with technical support for the Nimsoft Software, according to the Support specified in the Authorized CA Partner's order with CA, to operate according to the Documentation, help desk support and Maintenance for the Nimsoft Software pursuant to the following: http://www.nimsoft.com/content/dam/nimsoft/documents/un-secure/agreements/nimsoft-us-support-agreement.pdf."

11.1.3. **Add as Section 15: "15. REPORTS.** Ordering Activity agrees to prepare and submit monthly reports to the CA Authorized Reseller and CA that shall include, without limitation, information detailing the use of the Nimsoft Software pursuant to the license metrics applicable to the Software ("Report"). Ordering Activity shall submit each Report to CA Authorized Reseller and CA on the fifteenth day of each calendar month."

11.1.4. **Add as Section 16:** "**16. OVERAGE**. If the Report shows the Ordering Activity has exceeded the Authorized Use Limitation at any time during a month, such Report shall constitute the basis for a claim to the relevant Contracting Officer pursuant to the Contract Disputes Act and FAR 52.233-1. In no event may the Perpetual License or Subscription License quantity be lowered below the original number ordered."

12. GENERAL TERMS

12.1. Any conflict or inconsistency among or between the terms and conditions of the documents comprising the Agreement shall be resolved according to the following order of precedence, in the order of the greatest control to the least: (1) U.S. Federal law, (2) this

Channel Software Module and (3) the Channel Foundation Agreement. Notwithstanding the foregoing, unless expressly required by U.S. Federal law in subcontracts for commercial information technology, neither an Ordering Activity issued purchase order, nor the terms of an order between Ordering Activity and the Authorized CA Partner or Prime Contractor, shall modify the terms of the documents indicated herein.

Attachment A to Channel Software Module
Definitions and License Metrics

APPLICABILITY

The following definitions and License Metrics shall apply to the CA Software licensed by Ordering Activity to the extent such terms and/or CA Software are included in Ordering Activity's agreement with Authorized CA Partner or Prime Contractor:

Arcot

"Tier Servers" means single server of any tier up to and including Tier 9 Server. "Server" shall designate a specialized computer or a serial of processors assigned to store and to distribute information to and from Customer's personal computer (workstations). Linked to a company network, it enables a shared access to the files and a printing service support. "User" means a single person listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by the CA Software. Unless otherwise specified, a User shall not be counted more than once or on a concurrent basis.

CA Access Control Premium Edition

"Managed Device" means a virtual or physical machine to which the CA Software controls access.

CA Access Control Privileged User Password Management (PUPM)

"Managed Device" means a virtual or physical system or application whose privileged account passwords are being managed by the CA Software, including but not limited to operating system instances, databases, applications, Command Line Interface Software Development Kits, Open Database Connectivity/Java Database Connectivity applications, Windows services and managed tasks, and managed configuration files. When CA Software is used (i) in connection with a Managed Device or (ii) in connection with a virtual or physical system or application that leverages or interoperates with a Managed Device (a "Password Consumer System or Application"), each such use of the CA Software shall be counted for the purposes of determining the Authorized Use Limitation.

CA Automation Suite for Data Centers

A "Physical Socket" means an electrical component attached to a printed circuit board ("PCB") and electrically interconnects a central processing unit ("CPU") and PCB. A CPU is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. One physical CPU may have up to twelve (12) processing cores. CA Configuration Automation program is included in the delivery of CA Automation Suite for Data Centers for use in server environments managed under CA Automation Suite for Data Centers license. Use of this program with server environments not managed by CA Automation Suite for Data Centers requires a separate license for additional fees. Systems Performance for Infrastructure Manager (SystemEDGE) and Virtual Assurance for Infrastructure Manager AIMS components are included in the delivery of the CA Automation Suite for Data Centers for use only with this product. Use of these components with other CA products requires a separate license for additional fees.CA IT Client Management solution consists of CA Software Delivery, CA Asset Management, CA Remote Control programs and is included in the delivery of the CA Automation Suite for Data Centers. Customer may only use these components to manage server class machines, including virtual machines. Use of these programs for managing desktops, laptops and other client devices requires separate licenses for additional fees.CA Asset Intelligence and CA Patch Manager programs are included in the delivery of the CA Automation Suite for Data Centers. Customer may only use these components to manage server class machines, including virtual machines. Use of these programs for managing desktops, laptops and other client devices requires separate licenses for additional fees.CA Process Automation program is included in the delivery of CA Automation Suite for Data Centers. CA Process Automation includes two Orchestrators, all non-Premium Connectors, unlimited Agents and 75 Concurrent Processes per Orchestrator. Additional Orchestrators and Premium Connectors are available as an add-on option at additional cost. "Agent" means a single installation of the agent software component of the CA Process Automation program on a specific operating system which can be identified as unique host identification on a physical or virtual hardware server. "Orchestrator" means a single installation of the Orchestrator software component of the CA Process Automation program on a specific operating system which can be identified as unique host identification on a physical or virtual hardware server. This installation can be a stand-alone Orchestrator or as a node of a new or existing clustered Orchestrator. "Connector" is the software program connecting the CA Process Automation program with specific named third party software or other CA software. For example, CA Process Automation Connector For CA Service Desk connects CA Process Automation with CA Service Desk. Each Connector may only be used to connect the CA Software with the specific named third party software or CA software program. "Premium Connector" means a Connector identified by CA in the Order Form. "Process instance" means a single copy of a Process definition that has been scheduled to run (Queued state), is running (Running state), or has completed running (Failed or Completed state) on a particular "Orchestrator".

"Concurrent Processes" means the number of CA Process Automation Process instances that are marked in the Running state within an Orchestrator at any given time.

CA AutoSys Workload Automation

"Instance" means the number of copies of CA AutoSys Workload Automation installed in your physical and/or virtual environment.

CA Clarity Project & Portfolio Manager

"CA Software" means the CA Clarity Project and Portfolio Manager (also known as CA Clarity PPM). CA Clarity PPM is licensed by Environment and the number of Users (Manager, Team Member or Viewer). Customer is granted the right to install and use CA Clarity PPM in not more than three (3) Environments, of which only one (1) may be a production Environment. An "Environment" can consist of any or all of the following, provided that all of the servers in the Environment function as one logical Environment: one or more application servers, search servers, report servers, background servers, and/or database servers. Typical examples of Environments include production Environments, development Environments and test Environments. A production Environment is a computer system used to process an organization's daily work on a real-time operation, not systems used only for development and testing. "Manager User" means Customer's designated users who have full use of and access to the functions within CA Clarity PPM. "Team Member User" means Customer's designated users who have limited rights to the functions within CA Clarity PPM, and may only (i) view data and run reports in all licensed products; (ii) collaboratively participate in processes, discussions and document sharing and receive notifications in all licensed products; (iii) view project tasks and calendars, and report and approve time and project status; and (iv) enter and view status of ideas. "View Only User" means Customer's designated users who have limited rights to the functions within CA Clarity PPM and may only (i) view data and run reports; (ii) originate idea workflows, and participate in the continuation of those workflows.

CA Client Automation

A "Managed System" is any physical or virtual computer system that can host an operating system, including, but not limited to, a desktop computer or laptop computer, used by an end-user as part of their job function to access data, applications and resources, that is administered or managed by CA Client Automation by way of a management infrastructure, whether a CA management agent resides on the system or not. This includes laptops, desktops and virtual desktops running Windows, Macintosh and Linux operating systems, and it excludes Windows Servers, Linux Servers and UNIX systems. The management infrastructure components, such as Domain Manager, Scalability Server, and System Engine, that run on server platforms do not require a separate license, except if these systems themselves are being managed by an active agent for purposes other than serving as the CA Client Automation management infrastructure.

CA Client Automation consists of:
CA IT Client Manager
CA Patch Manager
CA Desktop Migration Manager
CA Asset Intelligence
CA Workflow for CA IT Client Manager (it is included in the delivery of CA Client Automation for use only for automating workflows inside CA Client Automation and between CA Client Automation and other software programs)

CA Configuration Automation:

The CA Software is licensed by the number of Physical Sockets. A "Physical Socket" means an electrical component attached to a printed circuit board ("PCB") and electrically interconnects a central processing unit ("CPU") and PCB. A CPU is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. One physical CPU may have up to twelve (12) processing cores.

CA Database Performance

CA Database Performance is licensed by the number of CPUs when used as a distributed product. "CPU" means a central processing unit which is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. A dual-core central processing unit is considered a single CPU. Note that because of the use of multi-core CPUs and virtual server environments, the calculation of CPUs for licensing purposes described below will not always equate to the number of physical CPUs in the environment. A virtual server environment is created where virtual machine technology (which applies to both client and server hardware) is used to enable multiple instances of an operating system(s) to run on a single computer simultaneously. With the Authorized Use Limitation as "CPU" or "Processor", the calculation with respect to the number of CPUs on an individual server is determined as follows:

1. For non-virtual server environments, for any server with databases monitored by the CA Software with single CPUs (including, for the avoidance of doubt, dual-core CPUs), count the number of CPUs. For any server with databases monitored by the CA Software with greater than dual-core CPUs, count all cores of the CPUs. Divide the number of cores by two (2) and round up to the next whole number.

2. For virtual server environments, for any server with single CPUs (including, for the avoidance of doubt, dual-core CPUs), count the number of CPUs. For any server with greater than dual-core CPUs, count all cores of the CPUs. Divide the number of cores by two (2) and round up to the next whole number. Determine the maximum percentage of the server CPU capacity that is allocated by the Virtual Machine Technology to any operating system instance containing databases(s) monitored by the CA Software, and multiply this percentage by the number of CPUs. Multiply the resulting number by one and a half (1.5X) and round up to the next whole number.

3. For mixed server environments, for each server perform the calculations for CPUs as set forth above in subparagraphs (1) and (2) and add these amounts together to determine the aggregate number of CPUs.

CA Systems Performance for Infrastructure Managers (formerly known as "CA SystemEdge") is a separate program included in the delivery of CA Database Performance. Customers can use this program only for communication with other CA Technologies tools and/or monitoring CA Technologies software systems only. Full functionality of the program to monitor and manage servers requires a separate license with additional fees.

CA DLP

CA DLP includes CA DLP Enterprise Suite, CA DLP Platform & Surveillance, CA DLP Endpoint, CA DLP Stored Data, CA DLP Message Server and CA DLP Network. CA DLP Network and CA DLP Enterprise Suite (which includes CA DLP Network) require and may only be used on a licensed CA DLP Network Appliance.

"CA DLP Network Appliance" means the hardware that operates the CA DLP Network. "User" means a single person, or identity, listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by the CA Software. Unless specified on the Order Form, a User shall not be counted more than once or a concurrent basis. If an Appliance is included with the CA Software, Support for an Appliance is provided in accordance with the CA Appliance Hardware Policy published on CA Support Online located at http://support.ca.com.

CA Enterprise Log Manager

"Agent" means a single installation of the agent software on a specific operating system instance which can be identified as a unique host identification on a hardware server. A hardware server may have multiple operating system instances installed on it (through partitioning or virtualization). Each instance of the operating system on a partitioned/virtualized server must license an agent if required for job scheduling purposes. "Node" means, in a communications system, a network junction or connection point. Any system or device connected to a network is also called a node or cluster. "Server" means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer.

CA ESP Workload Automation
(MIPS Based license. Operating System is IBM z/OS)

CA ESP Workload Automation is licensed by the specified number of MIPS (the "Authorized Use Limitation in MIPS"). "MIPS" means millions of instructions per second. The MIPS capacity of a computer shall be calculated by reference to CA's published schedules of the MIPS capacity and if a computer isn't listed then the manufacturer's published specifications should apply. In the event that any particular computer is not accounted for on CA's schedule, the manufacturer's published specification of MIPS capacity shall control. Further, in the event a special purpose processor, designed to perform one or more dedicated functions, is being used as a general purpose processor, CA shall treat such processor as a general purpose processor for purposes of calculating Authorized Use Limitation in MIPS. "Customer Site" means the site(s) specified at the time of licensing the CA Software or the Customer Address if no Customer Site has been indicated. Customer may use the CA Software only on the specific computers upon which the CA Software is installed to run at the Customer Site or on computers which are linked, connected to and/or which can remotely access such computers, irrespective of the platform designations of the hardware or operating systems, provided that such computer is capable of accessing, using, executing or benefiting from the CA Software, subject to the aggregate MIPS capacity not exceeding the Authorized Use Limitation in MIPS.

CA Fast Unload for Distributed Databases:

The CA Software is licensed by the number of servers. “Server” means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer.

CA Federation Manager:

(a) “Federate” means to link or bind two or more entities together, enabling identity, account, attribute, authentication, and authorization federation across different trust realms.
(b) “Federation” means a relationship or an association between a specific system entity’s identified users, partners or accounts.
(c) “Federation Partner” means an internal or external entity (i) for which a unique federation configuration is required in order to join a Federation, and (ii) with whom Customer interoperates using Federation Manager, with or without SAML AA.
(d) “Federation Partnership Licensee” means the Federation Partner designated by Customer as licensed to use SAML AA or Federation Manager in accordance with the provisions of the Agreement and who has agreed in writing to Customer terms and conditions substantially similar to the Federation Manager and SAML AA license provisions contained herein, as well as the confidentiality provisions contained in the Agreement. Such Federation Partnership Licensee shall not have any right to further copy, distribute, or otherwise transfer such software or any rights therein, notwithstanding any provision of the Agreement to the contrary. With regard solely to such Federation Partner’s use of the Licensed Programs in accordance herewith, the term “Customer” in the Agreement includes such Federation Partner.
(e) “Federation User” means any user who is allowed to use a Federation via the specific configuration of Federation Manager that Customer deploys. A Federation User shall not be counted more than once or on a concurrent basis.

CA GEN ENC Cross-Gen Opt Linux

“Server” means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer. "User" means a single person listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by the CA Software. Unless otherwise specified, a User shall not be counted more than once or on a concurrent basis. “Non Tier Servers” means single server of any tier up to and including Tier 9 Server.

CA GEN Implementation Toolset

“Server” means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer. "User" means a single person listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by the CA Software. Unless otherwise specified, a User shall not be counted more than once or on a concurrent basis. “Non Tier Servers” means single server of any tier up to and including Tier 9 Server.

CA GEN TRANSACTION Enabler

“Server” means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer. "User" means a single person listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by the CA Software. Unless otherwise specified, a User shall not be counted more than once or on a concurrent basis. “Non Tier Servers” means single server of any tier up to and including Tier 9 Server.

CA GEN TRANSACTION Enabler User Fnl

“Server” means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer. "User" means a single person listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by the CA Software. Unless otherwise specified, a User shall not be counted more than once or on a concurrent basis. “Non Tier Servers” means single server of any tier up to and including Tier 9 Server.

CA GEN WRKSTN Cross-Gen Linux

"Server" means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer. "User" means a single person listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by the CA Software. Unless otherwise specified, a User shall not be counted more than once or on a concurrent basis. "Non Tier Servers" means single server of any tier up to and including Tier 9 Server.

CA Identity Manager

"User" means a single person listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by CA Identity Manager. Unless otherwise specified, a User shall not be counted more than once or on a concurrent basis. "Internal User" is an intranet User defined as an employee or contractor of the Customer. CA Identity Manager may be used for Customer's internal use only, by the Internal Users on Customer's local area network and client/server system or a HTTP-based Web server infrastructure. Internal Users licensed hereunder may not be aggregated by a Customer contractor with any users of CA Identity Manager separately licensed by such contractor. "External User" is either an extranet or internet User defined as an employee of Customer's authorized third parties, which may be Customer's customers, clients, or consumers, on internet website(s) owned by, or under the control of, Customer. External Users licensed hereunder may not be aggregated by a Customer's vendor or business partner with any Users of CA Identity Manager separately licensed by such vendor or partner.

CA Infrastructure Insight

"Device" means a network-connected device that is managed by the CA Software and uses an Internet Protocol ("IP") address, including but not limited to IP and hybrid telephony devices, routers, appliances, hubs, physical servers, single-flow interfaces, and physical machines, but excluding endpoint devices such as IP telephones. When the Authorized Use Limitation is "Device", the calculation with respect to the number of Licenses is determined as follows:

a. For network-connected devices, for any device with up to five (5) IPflow interfaces, count the number of devices. For any device with greater than five (5) IPflow interfaces, count the total number of IPflow interfaces. Divide the number of IPflow interfaces by five (5) and round up to the next whole number.

b. For network-connected devices, for any device with up to two hundred (200) ports, count the number of devices. For any device with greater than two hundred (200) ports, count the total number of ports. Divide the number of ports by two hundred (200) and round up to the next whole number.

For avoidance of doubt, when a single network-connected device, has greater than five (5) IPflow interfaces and greater than two hundred (200) ports, the device is included in the license count that results in the highest number of licenses. For example, a device with fifty (50) IPflow interfaces and six hundred (600) ports would be included in the license count based upon the number of IPflow interfaces (50/5 = 10 licenses while 600/200 = 3 licenses).

CA Infrastructure Insight consists of CA Spectrum Infrastructure Manager and CA NetQoS ReporterAnalyzer.

CA Database Performance is included in the delivery of CA Infrastructure Insight for use only for monitoring the databases included in CA Infrastructure Insight. Full functionality of CA Database Performance to monitor other databases requires a separate license for additional fees.

CA Systems Performance for Infrastructure Managers is included in the delivery of CA Infrastructure Insight for use only for provisioning and performance monitoring of the systems that are running CA Infrastructure Insight. Full functionality of CA Systems Performance for Infrastructure Managers requires a separate license for additional fees.

If an Appliance is included with the CA Software, Support for a CA-provided physical server platform hardware appliance which is bundled with and used to operate one or more pre-installed licensed CA software products is provided in accordance with the CA Appliance Hardware Policy published on CA Support Online located at http://support.ca.com.

CA Infrastructure Management

"Device" means a network-connected device that is managed by the CA Software and uses an Internet Protocol ("IP") address, including but not limited to IP and hybrid telephony devices, routers, appliances, hubs, physical servers, single-flow interfaces, and physical machines, but excluding endpoint devices such as IP telephones. When the Authorized Use Limitation is "Device", the calculation with respect to the number of Licenses is determined as follows:

a. For network-connected devices, for any device with up to five (5) IPflow interfaces, count the number of devices. For any device with greater than five (5) IPflow interfaces, count the total number of IPflow interfaces. Divide the number of IPflow interfaces by five (5) and round up to the next whole number.

b. For network-connected devices, for any device with up to two hundred (200) ports, count the number of devices. For any device with greater than two hundred (200) ports, count the total number of ports. Divide the number of ports by two hundred (200) and round up to the next whole number.

For avoidance of doubt, when a single network-connected device, has greater than five (5) IPflow interfaces and greater than two hundred (200) ports, the device is included in the license count that results in the highest number of licenses. For example, a device with fifty (50) IPflow interfaces and six hundred (600) ports would be included in the license count based upon the number of IPflow interfaces (50/5 = 10 licenses while 600/200 = 3 licenses).

CA Infrastructure Management consists of CA Spectrum Infrastructure Manager, CA eHealth Performance Manager and CA NetQoS ReporterAnalyzer.

CA Database Performance is included in the delivery of CA Infrastructure Management for use only for monitoring the databases included in CA Infrastructure Management. Full functionality of CA Database Performance to monitor other databases requires a separate license for additional fees.

CA Systems Performance for Infrastructure Managers is included in the delivery of CA Infrastructure Management for use only for provisioning and performance monitoring of the systems that are running CA Infrastructure Management. Full functionality of CA Systems Performance for Infrastructure Managers requires a separate license for additional fees.

If an Appliance is included with the CA Software, Support for a CA-provided physical server platform hardware appliance which is bundled with and used to operate one or more pre-installed licensed CA software products is provided in accordance with the CA Appliance Hardware Policy published on CA Support Online located at http://support.ca.com.

CA Infrastructure Performance

"Device" means a network-connected device that is managed by the CA Software and uses an Internet Protocol ("IP") address, including but not limited to IP and hybrid telephony devices, routers, appliances, hubs, physical servers, single-flow interfaces, and physical machines, but excluding endpoint devices such as IP telephones. When the Authorized Use Limitation is "Device", the calculation with respect to the number of Licenses is determined as follows:

a. For network-connected devices, for any device with up to five (5) IPflow interfaces, count the number of devices. For any device with greater than five (5) IPflow interfaces, count the total number of IPflow interfaces. Divide the number of IPflow interfaces by five (5) and round up to the next whole number.

b. For network-connected devices, for any device with up to two hundred (200) ports, count the number of devices. For any device with greater than two hundred (200) ports, count the total number of ports. Divide the number of ports by two hundred (200) and round up to the next whole number.

For avoidance of doubt, when a single network-connected device, has greater than five (5) IPflow interfaces and greater than two hundred (200) ports, the device is included in the license count that results in the highest number of licenses. For example, a device with fifty (50) IPflow interfaces and six hundred (600) ports would be included in the license count based upon the number of IPflow interfaces (50/5 = 10 licenses while 600/200 = 3 licenses).

CA Infrastructure Performance consists of CA eHealth Performance Manager and CA NetQoS ReporterAnalyzer.

CA Database Performance is included in the delivery of CA Infrastructure Performance for use only for monitoring the databases included in CA Infrastructure Performance. Full functionality of CA Database Performance to monitor other databases requires a separate license for additional fees.

CA Systems Performance for Infrastructure Managers is included in the delivery of CA Infrastructure Performance for use only for provisioning and performance monitoring of the systems that are running CA Infrastructure Performance. Full functionality of CA Systems Performance for Infrastructure Managers requires a separate license for additional fees.

If an Appliance is included with the CA Software, Support for a CA-provided physical server platform hardware appliance which is bundled with and used to operate one or more pre-installed licensed CA software products is provided in accordance with the CA Appliance Hardware Policy published on CA Support Online located at http://support.ca.com.

CA Insight Database Performance Manager

"Server" means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer.CA Systems Performance for Infrastructure Managers (formerly known as "CA System Edge") Limited Use, is a separate program included in the delivery of CA Insight Database Performance Manager. The customers can use this program only for communication with other CA Technologies tools and/or monitoring CA Technologies Software systems only. Full functionality of the program to monitor and manage servers requires a separate license with additional fees.

CA IT Asset Manager

"CA Software" means the CA IT Asset Manager and CA Software Compliance Manager. A "Managed System" is any physical or virtual desktop, laptop, server, and tablet computer that may be tracked and/or managed by the CA Software, based upon user-supplied unique designations to identify such computers, regardless of use purpose including non-production, spares, or disaster recovery. If the optional component CA Software Compliance Content Subscription is listed on the applicable Order Form, Customer is granted a term license to use such content with CA Software Compliance Manager or CA IT Asset Manager beginning on the Term Start Date and ending on the Term End Date. The subscription fees for CA Software Compliance Content Subscription include the right to receive content updates during the Term of the content subscription. Such license for CA Software Compliance Content Subscription shall renew at the option of the Ordering Activity and be extended for successive periods equivalent to the original subscription Term, subject to the parties' agreement concerning fees to be paid during each such extended term. Use of the CA Software is limited as to several components included unless separately licensed. Software technology for Software Distribution, Remote Control and Asset Discovery and Inventory (CA IT Client Management) are included with CA Software Compliance Manager and CA IT Asset Manager, however the only authorized use is the ability to import Microsoft SMS 2003 or Microsoft SystemCenter Configuration Manager 2007 through the CA Asset Converter for Microsoft SMS, importing inventory from other third party discovery tools using the Asset Collector technology and CA IT Client Manager technology. Explicitly, Customer is not licensed to use the software distribution, remote control technologies as well as the full asset inventory and discovery agents. Use of the CA Software or CA Software Compliance Content Subscription is not a substitute for Customer's compliance with any laws (including but not limited to any act, statute, regulation, requirement, rule, standard, directive, administrative order, executive order, etc. (collectively, "Laws")). Customer should consult with competent legal counsel regarding any such Laws. Use of the CA Software or CA Software Compliance Content Subscription is not a substitute for Customer's compliance with its contractual obligations. The CA Software and CA Software Compliance Content Subscription require Customer to (i) manually or electronically enter or (ii) make decisions regarding software license data and other information for purposes of tracking authorized use, compliance with its software license contractual obligations and other information ("Data Entry"). Notwithstanding the provisions of any warranty to the contrary, CA makes no warranty with respect to the CA Software or CA Software Compliance Content Subscription failure, error, omission or inaccuracy to the extent that any such failure, error, omission or inaccuracy relates, in whole or in part, to Data Entry errors, omissions, decisions, inaccuracies, misinterpretations or otherwise.

CA IT Client Manager

"Managed System" is any physical or virtual computer system that can host an operating system, including, but not limited to, a desktop computer, server, or laptop computer, that is administered or managed by the CA Software (IT Client Manager / IT Inventory Manager) by way of a CA management agent, whether it resides on the asset or not. A "Non-CA managed system" has their inventory gathered by a non-CA management agent; however, the information about that asset is still stored in the Management Database (MDB). This asset information may have been obtained using the SMS Connector or Asset Collector. If Customer is licensed for CA IT Client Manager Patch Subscription, Customer is granted a term license to use such program with CA IT Client Manager beginning on the Term Start Date and ending on the End Date for the subscription term. The term license for the CA IT Client Manager Patch Subscription shall renew at the Ordering Activity's option and be extended for successive periods equivalent to the original term, subject to the parties' agreement concerning fees to be paid during each extended term.

CA Mainframe for IBM Rational Developer for System z Unit Test (CA Mainframe Suite for RDz UT):

a) Additional license rights to the CA software program(s) referenced below ("CA Software") are provided under the following terms and conditions in addition to any terms and conditions referenced (i) on the Order Form entered into by you and the CA entity ("CA") through which you obtained a license for the CA Software and (ii) in the software license agreement between you and CA for the CA Software. These terms shall be effective from the effective date of the Order Form.

b) **Program Name:** CA Mainframe Suite for IBM Rational Developer for System z Unit Test ("RDz UT")

c) Specified Operating Environment

The license rights set forth herein apply only to CA Software separately licensed from CA for the z/OS environment and for use hereunder only in the IBM RDz UT environment.

d) CA Software

CA Software for IBM RDz UT Environment:

CA 1™ Tape Management, CA TLMS® Tape Management
CA ACF2™, CA ACF2™ Option for DB2
CA Aion® Business Rules Expert
CA Auditor for z/OS, CA Cleanup
CA Bundl®
CA Cleanup
CA Compliance Manager for z/OS
CA Database Management for DB2 for z/OS
CA Database Management for IMS for z/OS
CA Datacom®
CA Deliver™
CA Disk™ Backup and Restore
CA Dispatch™
CA Easytrieve®
CA Endevor® Software Change Manager
CA FileMaster™ Plus, CA FileMaster™ Plus IMS
CA Gen
CA Gener/OL
CA IDMS™
CA InterTest™ for CICS, CA InterTest™ Batch
CA JCLCheck™ Workload Automation
CA JobTrac™ Job Management
CA Librarian®
CA Mainframe Application Tuner
CA Mainframe Software Manager™
CA NetMaster® File Transfer Management, CA NetMaster® Network Automation, CA NetMaster® Network Management for SNA, CA NetMaster® Network Management for TCP IP
CA Optimizer®/II
CA Panvalet®
CA Roscoe®

CA Scheduler® Job Management
CA Spool™
CA SymDump® Batch, CA SymDump® for CICS
CA Telon®
CA Top Secret®, CA Top Secret® Option for DB2
CA UFO™
CA View®
CA Workload Automation CA 7® Edition, CA Workload Automation ESP Edition, CA Workload Automation Restart Option EE, CA Workload Automation Restart Option for z/OS Schedulers
CA XCOM™ Data Transport®

e) Licensing Model and Terms

The license rights set forth herein authorize you to use CA Software for which you are separately licensed only in the IBM RDz UT environment for non-production purposes. During the term of this license, you must also be licensed to use the IBM RDz UT environment. Use of the CA Software in any other environment or in the RDz UT environment for production purposes is expressly prohibited. This restriction does not change your existing license rights to use the CA Software in a production environment. A production environment is a computer system used to process an organization's daily work on a real-time operation and is not a system used only for development and testing. During the term of this license, if you license additional CA Software, the license rights granted herein apply to such subsequently licensed CA Software.

The license rights are provided on a “per Seat” basis. “Seat” means a single person or identity whose access and use rights can be authenticated, authorized, or administered, or who has the ability to view content aggregated or managed by the CA Software. In general, a Seat shall not be counted more than once or on a concurrent (logged-in) basis. One Seat license shall authorize you to use any of the CA Software for which you are separately licensed in the RDz UT environment. The term of this license (the “Term”) is the lesser of: (i) one (1) year; (ii) the term end date for the applicable separately licensed CA Software; or (iii) the term end date for your use of the IBM RDz UT environment. Any termination under clauses (ii) or (iii) immediately above shall not result in refund of any license fees paid hereunder. Subject to the limitations set forth in clauses (i) (ii) and (iii) immediately above, any renewal or extension of the license term for the separately licensed CA Software or the IBM RDz UT environment, as the case may be, shall continue the Term of this agreement for the period identified above. If you have multiple CA Software products with different term end dates, the license rights granted herein terminate as to each specific CA Software product in the lesser of one (1) year or when the applicable term license for such CA Software ends. Termination of license rights hereunder shall not terminate your license to any CA Software product.

CA does not provide support for the CA Software in the RDz UT environment. Any issues with the CA Software in the RDz UT environment must be reproduced by you in the z/OS environment and reported as such through CA Technologies normal support process for the CA Software.

CA NetQoS NetVoyant

"Device” means a network-connected device that is managed by the CA Software and uses an Internet Protocol ("IP") address, including but not limited to IP and hybrid telephony devices, routers, appliances, hubs, physical servers, single-flow interfaces, and physical machines. Endpoint devices used solely as IP telephones are not considered to be Devices, unless the CA Software is specifically licensed by the number of phones. For the purposes of CA NetQoS Unified Communication Monitor only, endpoint devices used solely as IP telephones are considered to be Devices. When the Authorized Use Limitation is “Device”, the calculation with respect to the number of Licenses is determined as follows:

1. For network-connected devices, in non-virtual server environments, for any device with up to five (5) IPflow interfaces, count the number of devices. For any device with greater than five (5) IPflow interfaces, count the total number of IPflow interfaces. Divide the number of IPflow interfaces by five (5) and round up to the next whole number.

2. For network-connected devices, in non-virtual server environments, for any device with up to two hundred (200) ports, count the number of devices. For any device with greater than two hundred (200) ports, count the total number of ports. Divide the number of ports by two hundred (200) and round up to the next whole number.

For avoidance of doubt, when a single network-connected device, in non-virtual environments, has greater than five (5) IPflow interfaces and greater than two hundred (200) ports, the device is included in the license count that results in the highest number of licenses. For example, a device with fifty (50) IPflow interfaces and six hundred (600) ports would be included in the license count based upon the number of IPflow interfaces (50/5 = 10 licenses while 600/200 = 3 licenses).

CA NetQoS Reporter Analyzer

"Device" means a network-connected device that is managed by the CA Software and uses an Internet Protocol ("IP") address, including but not limited to IP and hybrid telephony devices, routers, appliances, hubs, physical servers, single-flow interfaces, and physical machines. Endpoint devices used solely as IP telephones are not considered to be Devices, unless the CA Software is specifically licensed by the number of phones. For the purposes of CA NetQoS Unified Communication Monitor only, endpoint devices used solely as IP telephones are considered to be Devices. When the Authorized Use Limitation is "Device", the calculation with respect to the number of Licenses is determined as follows:

1. For network-connected devices, in non-virtual server environments, for any device with up to five (5) IPflow interfaces, count the number of devices. For any device with greater than five (5) IPflow interfaces, count the total number of IPflow interfaces. Divide the number of IPflow interfaces by five (5) and round up to the next whole number.

2. For network-connected devices, in non-virtual server environments, for any device with up to two hundred (200) ports, count the number of devices. For any device with greater than two hundred (200) ports, count the total number of ports. Divide the number of ports by two hundred (200) and round up to the next whole number.

For avoidance of doubt, when a single network-connected device, in non-virtual environments, has greater than five (5) IPflow interfaces and greater than two hundred (200) ports, the device is included in the license count that results in the highest number of licenses. For example, a device with fifty (50) IPflow interfaces and six hundred (600) ports would be included in the license count based upon the number of IPflow interfaces (50/5 = 10 licenses while 600/200 = 3 licenses).

CA RegFort:

CA RegFort is licensed by the number of Users or Issuance.

"User" means a single person, or identity, listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by CA RegFort or who has the ability to view content aggregated or managed by CA RegFort. In general, a user shall not be counted more than once or on a concurrent (logged-in) basis.

"Issuance" means any activity in the life cycle of a Public Key Infrastructure credential that is managed by CA RegFort, including, but not limited to, creation of a new credential, revocation, renewal, re-issue or update of the credential.

"RegFort Client" means a portion of CA RegFort which enables end-users to interface with smartcards and tokens.

Limited License Grant. In addition to the rights granted in the applicable license agreement, CA grants Customer and its affiliates a nonexclusive license to distribute RegFort Client to end-users. Customer may use Customer's logo and name with the RegFort Client. No title to or ownership of the RegFort Client is transferred to Customer.

CA RiskFort:

CA RiskFort is licensed by the number of Users.

"User" means a single person, or identity, listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by CA RiskFort or who has the ability to view content aggregated or managed by CA RiskFort. In general, a user shall not be counted more than once or on a concurrent (logged-in) basis.

CA Role and Compliance Manager

"User" means a single person listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by the CA Software. Unless otherwise specified, a User shall not be counted more than once or on a concurrent basis. An "Internal User" is an intranet User defined as an employee or contractor of the Customer. CA Role and Compliance Manager may be used for Customer's internal use only, by the Internal Users on Customer's local area network and client/server system or a HTTP-based Web server infrastructure. Internal Users licensed hereunder may not be aggregated by a Customer contractor with any users of CA Role and Compliance Manager separately licensed by such contractor. An "External User" is either an extranet or internet User defined as an employee of Customer's authorized third parties, which may be Customer's customers, clients, or consumers, on internet website(s) owned by, or under the control of, Customer. External Users licensed hereunder may not be aggregated by a Customer's vendor or business partner with any Users of CA Role and Compliance Manager separately licensed by such vendor or partner.

CA Server Automation

"Physical Socket" means an electrical component attached to a printed circuit board ("PCB") and electrically interconnects a central processing unit ("CPU") and PCB. A CPU is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. One physical CPU may have up to twelve (12) processing cores.

CA Systems Performance for Infrastructure Manager (SystemEDGE) and CA Virtual Assurance for Infrastructure Manager AIMS components are included in the delivery of the CA Server Automation for use only with this product. Use of these components with other CA products requires a separate license for additional fees.

CA IT Client Management solution consists of CA Software Delivery, CA Asset Management, CA Remote Control programs and is included in the delivery of the CA Server Automation. Customer may only use these components to manage server class machines, including virtual machines. Use of these programs for managing desktops, laptops and other client devices requires separate licenses for additional fees.

CA Asset Intelligence and CA Patch Manager programs are included in the delivery of the CA Server Automation. Customer may only use these components to manage server class machines, including virtual machines. Use of these programs for managing desktops, laptops and other client devices requires separate licenses for additional fees.

CA Service Desk Manager

"CA Software" and "SDM" mean the CA Service Desk Manager – Analyst License, CA Service Desk Manager - Full License, or CA CMDB Manager Servers described herein in object code form. CA Service Desk Manager-Full License and CA Service Desk Manager-Analyst License are licensed on a Concurrent Analyst basis. In CA Service Desk Manager-Full License, CA Service Desk Manager-Analyst License, the authorized users are assigned various roles based upon the functions needed to accomplish designated tasks. "Concurrent Analyst", in the context of CA Service Desk Manager, means a software license that is based on the number of simultaneous (concurrent) users accessing the program. For the purpose of SDM, all roles (for example: Analyst, Manager, Administrator), and programmatic API and/or web services calls require a license. The Software does not prohibit additional users from access, but does log a license exception for auditing purposes. Customer is entitled to have the specified number of Concurrent Analysts access CA Service Desk Manager simultaneously. For CA Service Desk Manager-Full License, CA Service Desk Manager-Analyst License, You are also licensed for End-User Self-Service, which is granted to the employee and customer roles to allow for the creation, modification, and closure of a ticket on their own behalf, but not on behalf of someone else. CA Service Desk Manager-Full License includes a limited entitlement to CA Cohesion, and use of CA Cohesion is restricted to a maximum of one hundred (100) Managed Servers. Use for additional Servers requires additional licenses for CA CMDB Managed Server. CA Service Desk Manager-Analyst License does not include the CA Cohesion entitlement. CA CMDB Managed Servers is licensed by the number of Servers. "Managed Servers" means a virtual or physical Server managed by CA Software. "Server" means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer.

CA Service Desk Manager includes a limited entitlement to CA Business Intelligence. This entitlement is restricted to use within the context of reporting for SDM only. Specifically, SDM reports created using CA Business Intelligence may access and incorporate data created by, derived from, or used by SDM or third party data sources, provided that such data facilitates or augments data for Customer's use of SDM.

CA Service Desk Manager includes a limited entitlement to CA Process Management for Workflows. This entitlement is restricted to use within the context of Workflows associated with SDM only. This entitlement includes: the Service Desk Manager connector; three (3) Custom Operators; and five (5) Agents. This entitlement does not include any Premium Connectors. Multiple Orchestrators can be deployed with the constraints specified herein. There are no license limitations on the number of concurrent processes per Orchestrator.

For the purpose of CA Process Management for Workflows, "Agent" means a single installation of the agent software component of the CA Process Management for Workflows on a specific operating system which can be identified as a unique host identification on a physical or virtual hardware server.

For the purpose of CA Process Management for Workflows, "Connector" is the software program connecting CA Process Management for Workflows with specifically named third-party software or other CA software. For example, "CA Process Management for Workflows Connector for CA Service Desk Manager" connects CA Process Management for Workflows with CA Service Desk Manager. Each Connector may only be used to connect the CA Software with the specific named third-party software or CA software program.

For the purpose of CA Process Management for Workflows, "Custom Operator" means a type of automation object within the CA Process Management for Workflows that can be created to enhance, modify, or restrict the capabilities of an existing "Connector".

For the purpose of CA Process Management for Workflows, "Orchestrator" means a single installation of the Orchestrator software component of CA Process Management for Workflows on a specific operating system which can be identified as a unique host identification on a physical or virtual hardware server. This installation can be a stand-alone Orchestrator or as a node of a new or existing clustered Orchestrator.

CA SiteMinder

"User" means a single person listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by the CA Software. Unless otherwise specified, a User shall not be counted more than once or on a concurrent basis. An "Internal User" is an intranet User defined as an employee or contractor of the Customer. CA SiteMinder may be used for Customer's internal use only, by the Internal Users on Customer's local area network and client/server system or a HTTP-based Web server infrastructure. Internal Users licensed hereunder may not be aggregated by a Customer contractor with any users of CA SiteMinder separately licensed by such contractor. An "External User" is either an extranet or internet User defined as an employee of Customer's authorized third parties, which may be Customer's customers, clients, or consumers, on internet website(s) owned by, or under the control of, Customer. External Users licensed hereunder may not be aggregated by a Customer's vendor or business partner with any Users of CA SiteMinder separately licensed by such vendor or partner.

CA SOA Security Manager

"Secured Web Service" means a software system designed to support interoperable machine-to-machine interaction over a network which needs to be secured from unauthorized access, software routines or components that is or are intended to disable, erase, or otherwise harm software, equipment, or data, or cause other similar damage. This web service can be a URI or web services End point defined in a WSDL file. "URI" (Uniform Resource Identifier) means a compact string of characters for identifying an abstract or physical resource. “End point” means a specific location for accessing a web service using a specific protocol and data format. "WSDL" (Web Service Definition Language) means an XML (Extensible Markup Language) format for describing network services as a set of endpoints operating on messages containing either document-oriented or procedure-oriented information. "User" means a single person, application or identity listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by the CA Software or who has the ability to view content aggregated or managed by CA SOA Security Manager. In general, a user shall not be counted more than once or on a concurrent (logged-in) basis.

CA SOA Security Manager with Gateway

CA SOA Security Manager is licensed in number of Secured Web Services and Users. CA SOA Security Gateway is licensed in number of Instances. "Secured Web Service" means a software system designed to support interoperable machine-to-machine interaction over a network which needs to be secured from unauthorized access, software routines or components that is or are intended to disable, erase,

or otherwise harm software, equipment, or data, or cause other similar damage. This web service can be a URI or web services End point defined in a WSDL file. "URI" (Uniform Resource Identifier) means a compact string of characters for identifying an abstract or physical resource. “End point” means a specific location for accessing a web service using a specific protocol and data format. "WSDL" (Web Service Definition Language) means an XML (Extensible Markup Language) format for describing network services as a set of endpoints operating on messages containing either document-oriented or procedure-oriented information. "User" means a single person, application or identity listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by CA SOA Security Manager or who has the ability to view content aggregated or managed by CA SOA Security Manager. In general, a user shall not be counted more than once or on a concurrent (logged-in) basis. "Installation" means the number of copies of CA SOA Security Manager installed in the Customer’s physical and/or virtual environment.

CA Spectrum Infrastructure Manager

"Managed Network Device” means a virtual or physical network-connected device with less than 200 ports that is managed by CA Spectrum Infrastructure Manager and uses an Internet Protocol ("IP") address, including but not limited to IP and hybrid telephony devices, routers, appliances, hubs, virtual or physical servers, and virtual or physical machines, but excluding endpoint devices such as IP telephones.

CA Spectrum Service Assurance

“Site” or “Installation” means use of CA Spectrum Service Assurance in a data center comprised of one or more CPUs conforming to the following conditions: Two or more CPUs will be considered part of the same site if (i) the CPUs are located in a single building, (ii) each CPU shares access to data storage and peripheral devices with one or more of the other CPUs without requiring any programming interface to another CPU, and (iii) the CPUs function as a data processing facility under common data processing operations supervision. Use of CA Spectrum Service Assurance on two or more CPUs will be considered multiple and separate sites if all of the foregoing conditions of a single site are not satisfied, regardless of (i) whether they occupy different floors or locations in the same building or share the same mailing location address, or (ii) the extent to which the CPUs are integrated within a network or serve a functional role as part of a larger data processing organization. Customer is granted the right to deploy CA Spectrum Service Assurance at the Sites with the addresses listed in the Order Form. Customer may change and amend the addresses of the Sites by notice to CA providing that the total number of Sites listed does not exceed the number listed in the Order Form. “Connection” means a data source indicated by CA Spectrum Service Assurance to have a connector status of “Online”. A Connection may consist of a connection to a CA Software product (i.e. CA Wily, CA Spectrum), a third party product (i.e. HPOV), or a custom application. “Data source” means any software application that provides data to CA Spectrum Service Assurance.

CA SYSVIEW for CA Wily APM

Customer is granted a limited license to use CA SYSVIEW for CA Wily APM solely for the integration with CA Wily APM or CA Wily Introscope 8.2 or above (“CA Wily”). With this license, Customer is only authorized to install, configure and use CA SYSVIEW for CA Wily APM components to support its authorized use with CA Wily to provide mainframe performance metrics to CA Wily and trace transactions tagged by CA Wily that perform activity on the mainframe. Customer may not use CA SYSVIEW for CA Wily APM for other purposes. Any additional use requires a separate non-restricted license. In the event Customer chooses to increase its Authorized Use for CA Wily, Customer must also increase its Authorized Use for CA SYSVIEW for CA Wily APM and pay all applicable additional license and maintenance fees related thereto in order to use CA SYSVIEW for CA Wily APM with such increased CA Wily capacity. Additional use of CA Wily without obtaining a separate non-restricted license may be the basis for filing a claim with the relevant Contracting Officer under the Contract Disputes Act and FAR 52.233-1.

CA TSreorg for Distributed Databases

“Server” means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer.

CA Virtual Assurance

"Physical Socket" means an electrical component attached to a printed circuit board ("PCB") and electrically interconnects a central processing unit ("CPU") and PCB. A CPU is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. One physical CPU may have up to twelve (12) processing cores.

If an Appliance is included with the CA Software, Support for an Appliance is provided in accordance with the CA Appliance Hardware Policy published on CA Support Online located at http://support.ca.com.

CA Virtual Automation

"Physical Socket" means an electrical component attached to a printed circuit board ("PCB") and electrically interconnects a central processing unit ("CPU") and PCB. A CPU is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. One physical CPU may have up to twelve (12) processing cores.

CA Virtual Configuration

"Physical Socket" means an electrical component attached to a printed circuit board ("PCB") and electrically interconnects a central processing unit ("CPU") and PCB. A CPU is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. One physical CPU may have up to twelve (12) processing cores.

CA Virtual Performance Management (CA VPM)

"CPU" or "Processor" means central processing unit which is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. A Processor may not exceed a maximum of 12 processing cores.

CA WebFort:

CA WebFort is licensed by the number of User Credentials and Users.

"Credential" means an attestation of qualification, competence, or authority issued to a User by the CA Software.

"User" means a single person, or identity, listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by CA WebFort or who has the ability to view content aggregated or managed by CA WebFort. In general, a user shall not be counted more than once or on a concurrent (logged-in) basis.

"User Credentials" means the number of Credentials set forth on the Order Form to be issued to the Users who are authorized to access and use CA WebFort. Each User may have more than one credential for different verification methods.

"ArcotID Client" or "ArcotOTP Client" means portions of CA WebFort which enable end-users to use the ArcotID and ArcotOTP credentials.

Limited License Grant. In addition to the rights granted in the applicable license agreement, CA grants Customer and its affiliates a nonexclusive license to distribute the ArcotID Client or ArcotOTP Client to end users. Customer may use Customer's logo and name with the ArcotID Client or ArcotOTP Client. No title to or ownership of the ArcotID Client or ArcotOTP Client is transferred to Customer.

CA Wily Application Performance Management v9 (CA Wily APMv9)

CA Wily APMv9 is licensed by (1) the number of CPUs when used as a distributed product or by (2)(a) millions of service units ("MSUs") and number of System z Application Assist Processors ("zAAPs") and number of System z Integrated Information Processors ("zIIPs") or (b) number of integrated facilities for Linux ("IFLs"), when used in the mainframe environment. "CPU" means a central processing unit which is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. A dual-core central processing unit is considered a single CPU. Note that because of the use of multi-core CPUs and virtual server environments, the calculation of CPUs for licensing purposes described below will not always equate to the number of physical CPUs in the environment. A virtual server environment is created where virtual machine technology (which applies to both client and server hardware) is used to enable multiple instances of an operating system(s) to run on a single computer simultaneously ("Virtual Machine Technology"). When the

Authorized Use Limitation is “CPU” or “Processor”, the calculation with respect to the number of CPUs on an individual server is determined as follows:

1. For non-virtual server environments, for any server with applications monitored by the CA Software with single CPUs (including, for the avoidance of doubt, dual-core CPUs), count the number of CPUs. For any server with applications monitored by the CA Software with greater than dual-core CPUs, count all cores of the CPUs. Divide the number of cores by two (2) and round up to the next whole number.

2. For virtual server environments, for any server with single CPUs (including, for the avoidance of doubt, dual-core CPUs), count the number of CPUs. For any server with greater than dual-core CPUs, count all cores of the CPUs. Divide the number of cores by two (2) and round up to the next whole number. Determine the maximum percentage of the server CPU capacity that is allocated by the Virtual Machine Technology to any operating system instance containing application(s) monitored by the CA Software, and multiply this percentage by the number of CPUs. Multiply the resulting number by one and a half (1.5X) and round up to the next whole number.

3. For mixed server environments, for each server perform the calculations for CPUs as set forth above in subparagraphs (1) and (2) and add these amounts together to determine the aggregate number of CPUs.

When the Authorized Use Limitation is “MSUs”, “zAAPs”, or “zIIPs” (i) the MSUs shall be calculated by totaling the MSU capacity for all logical partitions, or LPARs, that run an application monitored by the CA Software, (ii) the zAAPs shall be calculated by totaling the number of zAAP engines attached to such LPARs, and (iii) the zIIPs shall be calculated by totaling the number of zIIP engines attached to such LPARs. An “LPAR” means the division of a computer’s processors, memory, and storage into multiple sets of resources so that each set of resources is operated independently with its own physical or virtual operating system instance and applications.

When the Authorized Use Limitation is “IFLs”, the IFLs shall be calculated by totaling the number of IFL engines that run an application monitored by the CA Software.

CA Wily Transaction Impact Monitor (“TIM”) “Software Appliance” means the software running TIM on Customer’s network feed to capture http/https transactions necessary for the Customer Experience analysis portion of CA Wily APMv9. Customer is responsible for providing hardware on which to run the TIM Software Appliance that meets CA’s specifications. Customer must license a copy of the TIM Software Appliance for each physical server (regardless of the number of CPUs) on which a TIM Software Appliance will be installed and configured.

CA Wily Application Performance Management (CA Wily APM)

CA Wily APM is licensed by (1) the number of CPUs when used as a distributed product or by (2)(a) millions of service units (“MSUs”) and number of System z Application Assist Processors (“zAAPs”) and number of System z Integrated Information Processors (“zIIPs”) or (b) number of integrated facilities for Linux (“IFLs”), when used in the mainframe environment. “CPU” means a central processing unit which is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. A dual-core central processing unit is considered a single CPU. Note that because of the use of multi-core CPUs and virtual server environments, the calculation of CPUs for licensing purposes described below will not always equate to the number of physical CPUs in the environment. A virtual server environment is created where virtual machine technology (which applies to both client and server hardware) is used to enable multiple instances of an operating system(s) to run on a single computer simultaneously. When the Authorized Use Limitation is “CPU” or “Processor”, the calculation with respect to the number of CPUs on an individual server is determined as follows:

1. For non-virtual server environments, for any server with applications monitored by the CA Software with single CPUs (including, for the avoidance of doubt, dual-core CPUs), count the number of CPUs. For any server with applications monitored by the CA Software with greater than dual-core CPUs, count all cores of the CPUs. Divide the number of cores by two (2) and round up to the next whole number.

2. For virtual server environments, for any server with single CPUs (including, for the avoidance of doubt, dual-core CPUs), count the number of CPUs. For any server with greater than dual-core CPUs, count all cores of the CPUs. Divide the number of cores by two (2) and round up to the next whole number. Determine the maximum percentage of the server CPU capacity that is allocated by the Virtual Machine Technology to any operating system instance containing application(s) monitored by the CA Software, and multiply this percentage by the number of CPUs. Multiply the resulting number by one and a half (1.5X) and round up to the next whole number.

3. For mixed server environments, for each server perform the calculations for CPUs as set forth above in subparagraphs (1) and (2) and add these amounts together to determine the aggregate number of CPUs.

When the Authorized Use Limitation is “MSUs”, “zAAPs”, or “zIIPs” (i) the MSUs shall be calculated by totaling the MSU capacity for all logical partitions, or LPARs, that run an application monitored by the CA Software, (ii) the zAAPs shall be calculated by totaling the number of zAAP engines attached to such LPARs, and (iii) the zIIPs shall be calculated by totaling the number of zIIP engines attached to such LPARs. An “LPAR” means the division of a computer’s processors, memory, and storage into multiple sets of resources so that each set of resources is operated independently with its own physical or virtual operating system instance and applications.

When the Authorized Use Limitation is “IFLs”, the IFLs shall be calculated by totaling the number of IFL engines that run an application monitored by CA Wily APM.

An Appliance is a CA-supplied physical server (“Hardware”) that is bundled with and used to operate the CA Software licensed by Customer which is pre-installed on the Hardware. Support is provided in accordance with the CA Appliance Hardware Policy published on CA Support Online located at http://support.ca.com. Customer must acquire at least one license (per CPU, MSU or IFL) in order to purchase a CA Wily Transaction Impact Monitor (“TIM”) or CA Wily Transaction Event & Statistics Server (“TESS”). Both a TIM and a TESS are required for any production installation. CA Wily Solutions for Lab Environments (“Wily LAB”) is a single Appliance that contains TIM and TESS capabilities but is not supported for a production environment. The Wily LAB system includes one CPU license for CA Wily APM at no additional charge.

CA Wily Customer Experience Manager (CA Wily CEM)

CA Wily CEM is licensed by (1) the number of CPUs when used as a distributed product or by (2)(a) millions of service units (“MSUs”) and number of System z Application Assist Processors (“zAAPs”) and number of System z Integrated Information Processors (“zIIPs”) or (b) number of integrated facilities for Linux (“IFLs”), when used in the mainframe environment. “CPU” means a central processing unit which is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. A dual-core central processing unit is considered a single CPU. Note that because of the use of multi-core CPUs and virtual server environments, the calculation of CPUs for licensing purposes described below will not always equate to the number of physical CPUs in the environment. A virtual server environment is created where virtual machine technology (which applies to both client and server hardware) is used to enable multiple instances of an operating system(s) to run on a single computer simultaneously (“Virtual Machine Technology”). When the Authorized Use Limitation is “CPU” or “Processor”, the calculation with respect to the number of CPUs on an individual server is determined as follows:

1. For non-virtual server environments, for any server with applications monitored by the CA Software with single CPUs (including, for the avoidance of doubt, dual-core CPUs), count the number of CPUs. For any server with applications monitored by the CA Software with greater than dual-core CPUs, count all cores of the CPUs. Divide the number of cores by two (2) and round up to the next whole number.

2. For virtual server environments, for any server with single CPUs (including, for the avoidance of doubt, dual-core CPUs), count the number of CPUs. For any server with greater than dual-core CPUs, count all cores of the CPUs. Divide the number of cores by two (2) and round up to the next whole number. Determine the maximum percentage of the server CPU capacity that is allocated by the Virtual Machine Technology to any operating system instance containing application(s) monitored by the CA Software, and multiply this percentage by the number of CPUs. Multiply the resulting number by one and a half (1.5X) and round up to the next whole number.

3. For mixed server environments, for each server perform the calculations for CPUs as set forth above in subparagraphs (1) and (2) and add these amounts together to determine the aggregate number of CPUs.

When the Authorized Use Limitation is “MSUs”, “zAAPs”, or “zIIPs” (i) the MSUs shall be calculated by totaling the MSU capacity for all logical partitions, or LPARs, that run an application monitored by the CA Software, (ii) the zAAPs shall be calculated by totaling the number of zAAP engines attached to such LPARs, and (iii) the zIIPs shall be calculated by totaling the number of zIIP engines attached to such LPARs. An “LPAR” means the division of a computer’s processors, memory, and storage into multiple sets of resources so that each set of resources is operated independently with its own physical or virtual operating system instance and applications.

When the Authorized Use Limitation is “IFLs”, the IFLs shall be calculated by totaling the number of IFL engines that run an application monitored by the CA Software.

An Appliance is a CA-supplied physical server (“Hardware”) that is bundled with and used to operate the CA Software licensed by Customer which is pre-installed on the Hardware. Support is provided in accordance with the CA Appliance Hardware Policy published on CA Support Online located at http://support.ca.com. Customer must acquire at least one license (per CPU, MSU or IFL) in order to purchase a CA Wily Transaction Impact Monitor (“TIM”) or CA Wily Transaction Event & Statistics Server (“TESS”). Both a TIM and a TESS are required for any production installation. CA Wily Solutions for Lab Environments (“Wily LAB”) is a single appliance that contains TIM and TESS capabilities but is not supported for a production environment. The Wily LAB system includes one CPU license for CA Wily CEM at no additional charge.

CA Wily Introscope

CA Wily Introscope is licensed by (1) the number of CPUs when used as a distributed product or by (2)(a) millions of service units ("MSUs") and number of System z Application Assist Processors ("zAAPs") and number of System z Integrated Information Processors ("zIIPs") or (b) number of integrated facilities for Linux ("IFLs"), when used in the mainframe environment. "CPU" means a central processing unit which is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. A dual-core central processing unit is considered a single CPU. Note that because of the use of multi-core CPUs and virtual server environments, the calculation of CPUs for licensing purposes described below will not always equate to the number of physical CPUs in the environment. A virtual server environment is created where virtual machine technology (which applies to both client and server hardware) is used to enable multiple instances of an operating system(s) to run on a single computer simultaneously ("Virtual Machine Technology"). When the Authorized Use Limitation is "CPU" or "Processor", the calculation with respect to the number of CPUs on an individual server is determined as follows:

1. For non-virtual server environments, for any server with applications monitored by the CA Software with single CPUs (including, for the avoidance of doubt, dual-core CPUs), count the number of CPUs. For any server with applications monitored by the CA Software with greater than dual-core CPUs, count all cores of the CPUs. Divide the number of cores by two (2) and round up to the next whole number.

2. For virtual server environments, for any server with single CPUs (including, for the avoidance of doubt, dual-core CPUs), count the number of CPUs. For any server with greater than dual-core CPUs, count all cores of the CPUs. Divide the number of cores by two (2) and round up to the next whole number. Determine the maximum percentage of the server CPU capacity that is allocated by the Virtual Machine Technology to any operating system instance containing application(s) monitored by the CA Software, and multiply this percentage by the number of CPUs. Multiply the resulting number by one and a half (1.5X) and round up to the next whole number.

3. For mixed server environments, for each server perform the calculations for CPUs as set forth above in subparagraphs (1) and (2) and add these amounts together to determine the aggregate number of CPUs.

When the Authorized Use Limitation is "MSUs", "zAAPs", or "zIIPs" (i) the MSUs shall be calculated by totaling the MSU capacity for all logical partitions, or LPARs, that run an application monitored by the CA Software, (ii) the zAAPs shall be calculated by totaling the number of zAAP engines attached to such LPARs, and (iii) the zIIPs shall be calculated by totaling the number of zIIP engines attached to such LPARs. An "LPAR" means the division of a computer's processors, memory, and storage into multiple sets of resources so that each set of resources is operated independently with its own physical or virtual operating system instance and applications. When the Authorized Use Limitation is "IFLs", the IFLs shall be calculated by totaling the number of IFL engines that run an application monitored by the CA Software.

CA Workload Automation

"Instance" means the number of copies of the CA Software installed in the Customer physical and/or virtual environment.

CA XCOM Data Transport for Windows Family Server

"Server" means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer.

CA eHealth Performance Manager

"Managed Network Device" means a virtual or physical network-connected device with less than 200 ports that is managed by the CA Software and uses an Internet Protocol ("IP") address, including but not limited to IP and hybrid telephony devices, routers, appliances, hubs, virtual or physical servers, and virtual or physical machines, but excluding endpoint devices such as IP telephones.

Mainframe CPU CA Software only

The CA Software is licensed by the specified number and model of CPU (the "Authorized Use Limitation"). "CPU" shall mean the central processing unit(s) capable of running the CA Software. Customer may only use CPUs specified when licensing the licenses herein and upon which the CA Software is installed and runs ("Designated CPUs"). Customer may change the Designated CPU on providing written notice to CA provided that such replacement CPU is of the same or lower CPU tier/power rating to the Designated CPU (save that Customer may

require an authorization key from CA in order to commence use of such CPU). Should Customer wish to add to the number of Designated CPUs or upgrade the then current Designated CPU(s) to a CPU with greater tier/power rating, Customer may elect to do so by providing CA with prior written notice of such additional CPU and/or upgrade to the Designated CPU(s) and by executing an order form to effect such addition/change and purchasing the applicable license.

Mainframe MIPS CA Software only

The CA Software is licensed by the specified number of MIPS (the "Authorized Use Limitation in MIPS"). "MIPS" means millions of instructions per second. The MIPS capacity of a computer shall be calculated by reference to CA's published schedules of the MIPS capacity and if a computer isn't listed then the manufacturer's published specifications should apply. Further, in the event a special purpose processor, designed to perform one or more dedicated functions, is being used as a general purpose processor, CA shall treat such processor as a general purpose processor for purposes of calculating Authorized Use Limitation in MIPS. "Customer Site" means the site(s) specified at the time of licensing the CA Software or the Customer Address if no Customer Site has been indicated. Customer may use the CA Software only on the specific computers upon which the CA Software is installed to run at the Customer Site or on computers which are linked, connected to and/or which can remotely access such computers, irrespective of the platform designations of the hardware or operating systems, provided that such computer is capable of accessing, using, executing or benefiting from the CA Software, subject to the aggregate MIPS capacity not exceeding the Authorized Use Limitation in MIPS.

Mainframe MSU CA Software only

The CA Software is licensed by the specified number of MSU (the "Authorized Use Limitation in MSU"). "MSU" means millions of service units. The MSU capacity shall be calculated with the aggregate computing power (expressed in millions of service units) by reference to CA's published schedules of the MSU capacity and if a computer isn't listed then the manufacturer's published specifications shall apply of all computers upon which the CA Software is installed to run at the Customer Site ("Customer Site" means the site(s) specified at the time of licensing the CA Software or the Customer Address if no Customer Site has been indicated) or computers which are linked, connected to and/or which can remotely access such computers, irrespective of the platform designations of the hardware or operating systems, provided that such computer is capable of accessing, using, executing or benefiting from the CA Software. Customer may use the CA Software subject to the aggregate MSU Capacity not exceeding the Authorized Use Limitation in MSU.

Pervasive Software:

The Pervasive Software is licensed by either by the number of Server or Users. Pervasive Software may be used to build integrations that connect to any authorized CA Clarity environment.

Pervasive Data Integrator Engine/Agent **for CA** Clarity PPM* is licensed by the number of Servers.
* includes one User license of Pervasive Data Integrator Analyst **Studio for C**A Clarity PPM

Pervasive Data Integrator Analyst **Studio for C**A Clarity PPM is licensed by the number of Users**.**

Pervasive Data Profiler Engine for CA Clarity PPM is licensed by the number of Servers.

Pervasive Data Profiler Analyst Studio for CA Clarity PPM is licensed by the number of Users**.**

"Server" means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer.

"User" means a single person listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by the Pervasive Software. Unless otherwise specified, a User shall not be counted more than once or on a concurrent basis.

CA Process Automation:

CA Software means the CA Process Automation software described herein in object code form only.

“Agent” means a single installation of the agent software component of the CA Software on a specific operating system which can be identified as a unique host identification on a physical or virtual hardware server.

“Orchestrator” means a single installation of the Orchestrator software component of the CA Software on a specific operating system which can be identified as a unique host identification on a physical or virtual hardware server. This installation can be a stand-alone Orchestrator or as a node of a new or existing clustered Orchestrator.

"Connector" is the software program connecting the CA Software with specific named third party software or other CA software. For example, CA Process Automation Connector For CA Service Desk connects CA Process Automation with CA Service Desk. Each Connector may only be used to connect the CA Software with the specific named third party software or CA software program.

“Premium Connector” means a Connector identified as “Premium” by CA.

“Custom Operator” means a type of automation object within the CA Process Automation Orchestrator that can be created to enhance, modify, or restrict the capabilities of an existing “Connector”.

“Process” means a type of automation object within CA Process Automation Orchestrator that contains connectors and other logical constructs that define a set of actions that will take place when the “Process” is executed by the Orchestrator.

“Process instance” means a single copy of a Process definition that has been scheduled to run (Queued state), is running (Running state), or has completed running (Failed or Completed state) on a particular “Orchestrator”.

“Concurrent Processes” means the number of CA Process Automation Process instances that are marked in the Running state within an Orchestrator at any given time.

“Power Pack” means a combination of Process definitions, Premium Connectors, Custom Operators and other automation objects that are packaged together to implement a specific solution.

The CA Software is licensed in different editions, as set forth in this Order Form, which authorizes the use of the specified number of Orchestrators, Agents, Connectors, and Concurrent processes (the "Authorized Use Limitation"). The various editions are:

CA Process Automation Player License includes: one Orchestrator, forty Agents, all non-Premium Connectors, and two hundred Concurrent Processes per Orchestrator. This license requires the purchase of either a “Power Pack” or a Services contract for the implementation of a solution that will be executed by the Player. No new automation objects may be created with the Player License. Only modifications of the purchased Power Packs and any Services delivered content is allowed.

CA Process Automation Express License includes: two Orchestrators, forty Agents, all non-Premium Connectors, and seventy-five Concurrent Processes per Orchestrator.

CA Process Automation Standard License includes: two Orchestrators, unlimited Agents, three Premium Connectors, all non-Premium Connectors, and two hundred Concurrent Processes per Orchestrator.

CA Process Automation Enterprise License includes: unlimited Orchestrators, unlimited Agents, twenty Premium Connectors, all non-Premium Connectors, and four hundred and seventy-five Concurrent Processes per Orchestrator.

CA Process Automation Level 1 Orchestrator includes: one Orchestrator and seventy-five Concurrent Processes per Orchestrator.

CA Process Automation Level 2 Orchestrator includes: two Orchestrators and two hundred Concurrent Processes per Orchestrator.

CA Process Automation Level 3 Orchestrator includes: three Orchestrators and four hundred and seventy-five Concurrent Processes per Orchestrator.

CA Process Automation Premium Connector License includes the right to use a Premium Connector to connect to a single instance of the target application or system.

CA Process Management for Workflows License includes: unlimited Orchestrators, five Agents, and three Custom Operators. No Premium connectors are available for purchase with this license. The only CA product connectors that are available are those associated with the product(s) providing the entitlement. This is a limited use entitlement and its use is restricted to the context of Workflows associated with the CA product(s) providing the entitlement. The component limits are not cumulative across multiple instances of the license at any individual customer.

The number of concurrent processes executing on any licensed Orchestrator may be exceeded as long as the total number of concurrent processes executing on all licensed Orchestrators is not exceeded. For example, if the license is for two Orchestrators with seventy-five Concurrent Processes per Orchestrator, one hundred Concurrent Processes could be utilized on one Orchestrator so long as only fifty Concurrent Processes are utilized on the second Orchestrator.

Server:

"Server" means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer.

CA Virtual Assurance for Infrastructure Managers and CA System Performance for Infrastructure Managers

"Physical Socket" means an electrical component attached to a printed circuit board ("PCB") and electrically interconnects a central processing unit ("CPU") and PCB. A CPU is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. One physical CPU may have up to twelve (12) processing cores.

DOCUSIGN, INC.
CORPORATE SUBSCRIBER TERMS AND CONDITIONS
v121008

These Terms and Conditions are incorporated by this reference into the Order Form (collectively referred to as the "Agreement") entered into by DocuSign, Inc. ("DocuSign") and the customer identified in the Order Form ("Subscriber").

1. DEFINITIONS

"Account" means a unique account established by Subscriber to enable its Authorized Users to access and use the Subscription Service and, where applicable, other DocuSign Products.

"Authorized User" means any employee of Subscriber, identified by a unique email address and user name, who is registered under the Account; provided that no two persons may register or use the Subscription Service as the same Authorized User.

"Consulting Services" means any additional professional services to be delivered by DocuSign, such as integration consulting or assistance, custom development, training, and transition services, that are set forth in an Order Form or Work Order as described in Section 15.

"DocuSign API" means the application programming interface that supports interoperation of applications with the Subscription Service.

"DocuSign Products" means the products and services identified on an Order Form, which may include the Subscription Service, the Repository Services, the Consulting Services and any other DocuSign offerings.

"eContract" refers to a contract, notice, disclosure, or other record or document deposited into the System by Subscriber for Processing using the Subscription Service.

"Envelope" means an electronic record containing one or more eContracts consisting of a single page or a group of pages of data uploaded to the System.

"Order Form" means a standard DocuSign order form or any other document separately and specifically approved by DocuSign that describes the DocuSign Products to be purchased by Subscriber and is signed by both parties.

"Personal Data" means any of the following: (a) nonpublic personally identifiable information, including driver's license numbers, national identification numbers such as social security account numbers, credit card numbers, digital identity certificates; (b) personally identifiable financial information regarding a consumer (i) provided by a consumer to a financial institution, (ii) resulting from any transaction with the consumer or any service performed for the consumer by a financial institution, or (iii) otherwise obtained by the financial institution, including any list, description, or other grouping of consumers (and publicly available information pertaining to them) that is derived using any nonpublic personal information; (c) personally identifiable medical or health-related information.

"Process" means any operation or set of operations performed upon Subscriber's data, whether or not by automatic means, such as collection, recording, organization, storage, adaptation or alteration, retrieval, accessing, consultation, use, disclosure by transmission, dissemination or otherwise making available, alignment or combination, blocking, erasure or destruction.

"Repository Services" means the Contract Repository or eVaulting Services, each as defined in the Terms and Conditions for Repository Services (available at http://www.docusign.com/company/terms-and-conditions/eoriginal/v121005), that are made the subject of an Order Form.

"Specifications" means the technical specifications set forth in the "Subscription Service Specifications" available at http://docusign.com/company/specifications.

"Subscription Service" means DocuSign's on-demand electronic signature service, which provides online display, certified delivery, acknowledgement, electronic signature, and storage services for eContracts via the Internet.

"System" refers to the software systems and programs, communication and network facilities, and hardware and equipment used by DocuSign or its agents to provide the Subscription Service.

"Term" means the period of effectiveness of this Agreement, as described in more detail in Section 9 below.

"Transaction Data" means the metadata associated with an Envelope and maintained by DocuSign for the purpose of establishing a digital audit trail, such as transaction history, image hash value, method and time of Envelope deletion, sender and recipient names, email addresses and signature IDs.

2. THE SUBSCRIPTION SERVICE

2.1 During the Term and subject to these Terms and Conditions, DocuSign will provide the Subscription Service in accordance with the Specifications, and Subscriber will have the right to obtain an Account and register its Authorized Users, who may access and use the Subscription Service. The right to use the Subscription Service is: (a) limited to its Authorized Users (accordingly, Subscriber may not resell or otherwise provide or assist with the provision of the Subscription Service to any third party); and (b) conditioned on Subscriber's acknowledgement and agreement with the following:

i) Nothing in this Agreement will be construed to make DocuSign a party to any eContract, and DocuSign makes no representation or warranty regarding the transactions sought to be effected by any eContract;

ii) DocuSign maintains no control of or access to the contents of any eContract, and so the content, quality, and format of any eContract is at all times in the exclusive control and responsibility of Subscriber;

iii) If Subscriber elects to use optional features designed to verify the identity of the intended recipient of an eContract ("Authentication Measures"), DocuSign will apply only those Authentication Measures (if any) selected by the Subscriber, but makes no representations or warranties about the appropriateness of any Authentication Measure and further, assumes no liability for the inability or failure by the intended recipient or other party to satisfy the Authentication Measure or to circumvent it;

iv) Certain types of agreements and documents are excepted from electronic signature laws, such that they cannot be legally formed by electronic signatures, and additionally, various agencies may have promulgated specific regulations that apply to electronic signatures and electronic records. DocuSign assumes no responsibility to determine whether any particular eContract is an exception to applicable electronic signature laws, or whether it is subject to any particular agency promulgations, or whether it can be legally formed by electronic signatures;

v) Subscriber is solely responsible for making available to third parties (including all parties to its eContracts) all contracts, documents, and other records required by applicable law, including, without limitation, electronic signature laws and other laws that may require records relating to a transaction to be retained or made accessible for a certain period of time;

vi) Certain laws or regulations impose special requirements with respect to electronic transactions involving one or more "consumers," such as (among others) requirements that the consumer consent to the method of contracting and/or that the consumer be provided with a copy, or access to a copy, of a paper or other non-electronic, written record of the transaction. DocuSign assumes no responsibility to: (A) determine whether any particular transaction involves a consumer; (B) furnish or obtain any such consents or to determine if any such consents have been withdrawn; (C) provide any information or disclosures in connection with any attempt to obtain any such consents; (D) provide legal review of, or to update or correct any information or disclosures currently or previously given; (E) provide any such copies or access except as expressly provided in the Specifications for all transactions, consumer or otherwise; or (F) otherwise to comply with any such special requirements; and

vii) Subscriber expressly undertakes to determine whether any consumer is involved in any eContract presented by its Authorized Users for Processing, and, if so, to comply with all requirements imposed by law on such eContracts or their formation.

3. SUBSCRIPTION PLANS AND USAGE PRICING

3.1 The pricing, features and options of the DocuSign Products selected by Subscriber are set forth in the Order Form. The Subscription Service is sold on a subscription basis and may be limited by usage ("Envelope Allowance"), or by the number of Authorized Users ("Seats"), or both. Optional features, such as Authentication Measures or fax-back services, may be purchased on a periodic or per-use basis.

3.2 If Subscriber selects an Envelope Allowance Subscription, then Subscriber is allowed to send the number of Envelopes in the Envelope Allowance specified in the Order Form during the Term. All Envelopes sent in excess of the Envelope Allowance will incur a per-Envelope charge that will be invoiced within 30 days of the date first incurred. The total number of Envelopes used is based on the sum of all Envelopes that have been sent for signature or for certified delivery from the Account. An Envelope will be deemed consumed at the time it is sent by an Authorized User, whether or not it has been received by the recipients or the recipients have performed any actions upon any eContract in the Envelope.

3.3 If Subscriber selects a Seat Subscription, then Subscriber is allowed to manually send Envelopes from the number of Seats specified in the Order Form during the Term. A Seat is defined as a natural person manually preparing and sending Envelopes, and excludes the Processing of Envelopes using automated batch or bulk sending operations, or the use of the

DocuSign API for sending Envelopes. If the number of Envelopes sent from a particular Seat or a group of Seats is abusive and/or unduly burdensome (indicating automated Processing), DocuSign will promptly notify Subscriber and the parties will review the use-case scenario as well as any continued monitoring and additional Seats that may be required to be purchased. The number of Seats is determined by the total number of active Authorized Users listed in the membership of an Account at any one time. No two individuals may log onto or use the Subscription Service as the same Authorized User, but Subscriber may unregister or deactivate Authorized Users and replace them with other Authorized Users without penalty, so long as the number of active Authorized Users registered at any one time is equal to or less than the number of Seats purchased. The addition by Subscriber of more Authorized Users than the number of Seats purchased in an Order Form will result in an additional charge for one Seat per additional Authorized User for the remainder of the Term, to be invoiced immediately.

4. ADDITIONAL SUBSCRIBER RESPONSIBILITIES

4.1 Subscriber agrees that it will not use or permit the use of the Subscription Service to send unsolicited mass mailings outside its organization, it being understood that the term "unsolicited mass mailings" includes all statutory and other common definitions, including all Commercial Electronic Marketing Messages as defined in the U.S. CAN SPAM Act.

4.2 Subscriber agrees that it is solely responsible for the nature and content of all materials, works, data, statements, and other visual, graphical, video, written or audible communications of any nature submitted by any Authorized User or otherwise Processed through its Account.

4.3 Subscriber further agrees not to use or permit the use of the Subscription Service: (a) to communicate any message or material that is defamatory, harassing, libelous, threatening, or obscene; (b) in a way that violates or infringes upon the intellectual property rights or the privacy or publicity rights of any person or entity or that may otherwise be unlawful or give rise to civil or criminal liability (other than contractual liability of the parties under eContracts Processed through the Subscription Service); (c) in any manner that is likely to damage, disable, overburden, or impair the System or the Subscription Service or interfere in any way with the use or enjoyment of the Subscription Service by others; or (d) in any way that constitutes or encourages conduct that could constitute a criminal offense.

4.4 Although DocuSign does not monitor the content Processed through the Subscription Service, DocuSign may at any time suspend any use of the Subscription Service and/or remove or disable any content as to which DocuSign reasonably and in good faith believes is in violation of this Agreement. DocuSign agrees to provide Subscriber with notice of any such suspension or disablement before its implementation unless such suspension or disablement is necessary to comply with legal process or prevent imminent harm to DocuSign's System, the Subscription Service or any third party, in which case DocuSign will notify Subscriber of such suspension or disablement as soon as reasonably practicable thereafter.

5. INTELLECTUAL PROPERTY AND TRADEMARK LICENSE

5.1 DocuSign is the owner of various intellectual property and technology rights associated with the Subscription Service, its document management, digital signature, and notary system, including patent, copyright, trade secret, and trademark and service mark rights. Except for the rights expressly granted in this Agreement, DocuSign does not license or transfer to Subscriber or any Authorized User or other third party any of DocuSign's technology or other intellectual property or technology rights. All right, title, and interest in and to DocuSign's technology and intellectual property will remain solely with DocuSign. Subscriber agrees that it will not, directly or indirectly, reverse engineer, decompile, disassemble, or otherwise attempt to derive source code or other trade secrets from or about any of the DocuSign Products or DocuSign's technology. DocuSign agrees that data and information provided by Subscriber under this Agreement shall remain, as between Subscriber and DocuSign, owned by Subscriber.

5.2 DocuSign hereby grants to users and licensees of its products and services a limited, revocable, nonexclusive and nontransferable right to use DocuSign's regular trade names, trademarks, titles and logos ("Licensed Marks") solely for purposes of identifying DocuSign's products and services. Details of this trademark license are available at: http://www.docusign.com/trademark-license.

6. CUSTOMER SUPPORT

DocuSign will provide customer support to Subscriber in accordance with the package that is identified on the Order Form, as further detailed at http://www.docusign.com/products/support-plans.

7. eCONTRACT STORAGE AND DELETION

7.1 DocuSign will store in accordance with the Specifications all completed eContracts sent by Subscriber until the termination or expiration of the Agreement, unless otherwise directed by Subscriber. Copies of stored eContracts may be retrieved by Subscriber at any time during that period, provided that following the expiration or termination of the Agreement, Subscriber may

request DocuSign's assistance in retrieving completed eContracts still remaining on the System pursuant to the transition services terms described in Section 9.4.

7.2 Prior to the expiration or termination of this Agreement, Subscriber may elect to purchase post-expiration or post-termination storage services for their completed eContracts. Where Subscriber opts not to purchase storage services, all copies of eContracts may be deleted by DocuSign without prior notice after the period available for transition services has expired pursuant to the terms described in Section 9.4. Subscriber may, at its option and wholly at Subscriber's risk, direct that any eContract be deleted at a time stated by Subscriber and prior to the end of the Term.

7.3 DocuSign may at its sole discretion delete an uncompleted eContract from the System immediately and without notice upon earlier of: a) expiration of the Envelope (where Subscriber has established an expiration for such Envelope, not to exceed 365 days); or b) expiration of the Term.

7.4 DocuSign will retain the Transaction Data permanently, provided that any Transaction Data that constitutes Confidential Information of Subscriber will at all times maintain that status and DocuSign will comply with its obligations in Section 13.

8. FEES AND PAYMENT TERMS

8.1 Subscriber will pay DocuSign the amounts set forth in each Order Form. An Order Form is not binding until it is executed by both DocuSign and Subscriber, at which point it will be deemed to be incorporated into this Agreement. Unless otherwise specified in an applicable Order Form, the first invoice will be submitted to Subscriber within 30 days after the Order Start Date, and Subscriber will pay all amounts due within 30 days of the date of the applicable invoice.

8.2 If Subscriber's usage under an Envelope Allowance Subscription exceeds the Envelope Allowance prior to the end of the Term, the unpaid balance of the Order Form for such Envelope Allowance Subscription shall become immediately due and payable.

8.3 Any undisputed amount not paid when due will be subject to finance charges equal to 1.5% of the unpaid balance per month or the highest rate permitted by applicable usury law, whichever is less, determined and compounded daily from the date due until the date paid. Subscriber will reimburse any costs or expenses (including reasonable attorneys' fees) incurred by DocuSign to collect any undisputed amount that is not paid when due. DocuSign may accept any check or payment in any amount without prejudice to DocuSign's right to recover the balance of the amount due or to pursue any other right or remedy. Amounts due to DocuSign under this Agreement may not be withheld or offset by Subscriber for any reason against amounts due or asserted to be due to Subscriber from DocuSign. All amounts payable under this Agreement are denominated in United States dollars, and Subscriber will pay all such amounts in United States dollars.

8.4 Taxes. Other than federal and state net income taxes imposed on DocuSign by the United States, Subscriber will bear all taxes, duties, and other governmental charges (collectively, "taxes") resulting from this Agreement or transactions conducted in relation to this Agreement or the DocuSign Products. If a tax is imposed on DocuSign by a jurisdiction outside the United States, Subscriber will not be obligated to bear that tax to the extent: (a) the tax is allowable as a credit against the United States federal income taxes of DocuSign; (b) Subscriber reduces such tax to the extent possible, giving effect to the applicable Income Tax Convention between the United States and other jurisdictions; and (c) Subscriber furnishes DocuSign with such evidence as the United States taxing authorities may require to claim the credit. Subscriber will pay any additional taxes as are necessary to ensure that the net amounts received and retained by DocuSign after all such taxes are paid are equal to the amounts that DocuSign would have been entitled to in accordance with this Agreement as if the taxes did not exist.

9. TERM AND TERMINATION

9.1 Term. Unless sooner terminated as stated below, and subject to Section 17 with respect to Work Orders (as defined below), the effectiveness of this Agreement will commence upon the Order Start Date and will continue for the term specified on the Order Form (the "Term").

9.2 Termination for Cause. If either party commits a material breach or default in the performance of any of its obligations under this Agreement, then the other party may terminate this Agreement by giving the defaulting party written notice of termination if the material breach or default in performance is not cured within 30 days after the defaulting party receives notice thereof. Without limiting the foregoing, any failure by Subscriber to timely pay to DocuSign any amounts owing under this Agreement will constitute a material breach of this Agreement. If Subscriber fails to timely pay any amounts due for services to be performed by DocuSign, then without limitation to any of its other rights or remedies, DocuSign may suspend performance of such services until it receives all amounts due.

9.3 Post-Termination Obligations. If this Agreement expires or is terminated for any reason: (a) Subscriber will pay to DocuSign any amounts required to be paid under this Agreement that have accrued prior to, and remain unpaid as of, the date of

termination or expiration (including Subscription fees, which become due upon termination of this Agreement as set forth in an Order Form, and any one-time or recurring fees through the end of the billing cycle in which termination occurs); (b) any and all liabilities accrued prior to the effective date of the termination will survive; (c) Subscriber will destroy all copies of DocuSign software, documentation, and materials within five business days of such termination, and immediately thereafter, if requested by DocuSign, provide DocuSign with a written certification signed by an authorized Subscriber representative certifying that all copies of software, documentation, and materials have been destroyed; (d) licenses to use DocuSign software and the provision of DocuSign services will immediately end; and (e) the parties' rights and obligations under Sections 1, 7.4, 9.3, 9.4, 10.3, and 11 through 14 will survive.

9.4 Transition Services. Upon expiration or termination of this Agreement for any reason, at Subscriber's request and at DocuSign's then-current standard professional services rates plus expenses, DocuSign shall provide reasonable transition services for a period not to exceed 90 days to assist Subscriber in moving Subscriber's data to another provider or exporting eContracts to external media. As part of such transition services, DocuSign shall at a minimum transfer, and cause any of its independent contractors to transfer, all data and electronic files associated with the Subscription Service. At its then-current standard professional services rates, DocuSign shall at Subscriber's request further cooperate with Subscriber in the development of a transition plan and shall use reasonable efforts to assist Subscriber and/or another service provider in the transition. DocuSign may at its discretion require advance payment or other adequate security for payment as DocuSign may consider appropriate in connection with or as a condition to the provision of services described in this section.

10. WARRANTIES AND DISCLAIMERS

10.1 DocuSign Warranties. DocuSign represents and warrants that: (a) the Subscription Service as delivered to Subscriber and used in accordance with the Specifications will not infringe on any United States patent, copyright or trade secret; (b) the Subscription Service shall be performed in accordance with the Specifications in their then-current form at the time of the provision of such Subscription Service; (c) any DocuSign Products that are software shall be free of harmful or illicit code, trapdoors, viruses, or other harmful features; (d) the proper use of the Subscription Service by Subscriber in accordance with the Specifications and applicable law in the formation of an eContract not involving any consumer will be sufficient under the Electronic Signatures in Global and National Commerce Act, 15 U.S.C. §§ 7001 et seq. (the "ESIGN Act") to support the validity of such formation, to the extent provided in the ESIGN Act; (e) the proper use of the Subscription Service by Subscriber in accordance with the Specifications and applicable law in the formation of an eContract involving a consumer will be sufficient under the ESIGN Act to support the validity of such formation, to the extent provided in the ESIGN Act, so long as and provided that Subscriber complies with all special requirements for consumer eContracts, including and subject to those referenced in Section 2.1(vi) and (vii) above; and (f) DocuSign has implemented information security policies and safeguards to preserve the security, integrity, and confidentiality of Personal Data and to protect against unauthorized access and anticipated threats or hazards thereto, that meet the objectives of the Interagency Guidelines Establishing Standards for Safeguarding Customer Information as set forth in Section 501 (b) of the Gramm-Leach-Bliley Act.

10.2 Mutual Warranties. Each party represents and warrants to the other that: (a) this Agreement has been duly executed and delivered and constitutes a valid and binding agreement enforceable against such party in accordance with its terms; (b) no authorization or approval from any third party is required in connection with such party's execution, delivery, or performance of this Agreement; and (c) the execution, delivery, and performance of this Agreement does not violate the laws of any jurisdiction or the terms or conditions of any other agreement to which it is a party or by which it is otherwise bound.

10.3 Disclaimer. EXCEPT FOR THE EXPRESS REPRESENTATIONS AND WARRANTIES STATED IN SECTIONS 10.1 AND 10.2 ABOVE (WHICH ARE NOT APPLICABLE TO CONSULTING SERVICES), DOCUSIGN MAKES NO ADDITIONAL REPRESENTATION OR WARRANTY OF ANY KIND -- WHETHER EXPRESS, IMPLIED IN FACT OR BY OPERATION OF LAW, OR STATUTORY -- AS TO ANY MATTER WHATSOEVER. DOCUSIGN EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. DOCUSIGN DOES NOT WARRANT THAT THE DOCUSIGN PRODUCTS (INCLUDING CONSULTING SERVICES OR RELATED DELIVERABLES, IF ANY), ARE OR WILL BE ERROR-FREE, WILL MEET SUBSCRIBER'S REQUIREMENTS, OR BE TIMELY OR SECURE. SUBSCRIBER WILL NOT HAVE THE RIGHT TO MAKE OR PASS ON ANY REPRESENTATION OR WARRANTY ON BEHALF OF DOCUSIGN TO ANY THIRD PARTY.

11. INDEMNIFICATION

11.1 By DocuSign. DocuSign will defend Subscriber, and its employees, directors, agents, and representatives ("Indemnified Party") from any actual or threatened third party claim arising from: (a) any breach by DocuSign of its confidentiality obligations in Section 13, and/or (b) alleged infringement by DocuSign of any third party intellectual property rights (each a "Subscriber Claim").

11.2 By Subscriber. Subscriber will defend DocuSign, and its employees, directors, agents, and representatives ("Indemnified Party") from any actual or threatened third party claim arising from: (a) any breach by Subscriber of its confidentiality obligations in Section 13, and/or (b) alleged infringement by Subscriber of any third party intellectual property rights, and/or (c) the content submitted by any Authorized User or otherwise Processed through Subscriber's Account (each a "DocuSign Claim").

11.3 Procedures. The parties' respective indemnification obligations above are conditioned on: (a) the Indemnified Party gives the Indemnifying Party prompt written notice of the Subscriber Claim or DocuSign Claim (as the case may be, a "Claim"); (b) the Indemnifying Party has full and complete control over the defense and settlement of the Claim; (c) the Indemnified Party provides assistance in connection with the defense and settlement of the Claim as the Indemnifying Party may reasonably request; and (d) the Indemnified Party complies with any settlement or court order made in connection with the Claim. The Indemnifying Party will indemnify the Indemnified Party against: (i) all damages, costs, and attorneys' fees finally awarded against any of them in any Claim under this Section 11; (ii) all out-of-pocket costs (including reasonable attorneys' fees) reasonably incurred by any of them in connection with the defense of the Claim (other than attorneys' fees and costs incurred without the Indemnifying Party's consent after it has accepted defense of such Claim); and (iii) if any Claim arising under this Section 11 is settled by the Indemnifying Party or with its approval, then the Indemnifying Party will pay any amounts to any third party agreed to by the Indemnifying Party in settlement of any such Claims.

12. LIMITATIONS OF LIABILITY

12.1 Disclaimer of Consequential Damages. EXCEPT WITH RESPECT TO INDEMNIFICATION OBLIGATIONS OF SECTION 11, NOTWITHSTANDING ANYTHING TO THE CONTRARY CONTAINED IN THIS AGREEMENT, NEITHER PARTY WILL, UNDER ANY CIRCUMSTANCES, BE LIABLE TO THE OTHER PARTY FOR CONSEQUENTIAL, INCIDENTAL, SPECIAL, OR EXEMPLARY DAMAGES ARISING OUT OF OR RELATED TO THE TRANSACTIONS CONTEMPLATED UNDER THIS AGREEMENT (INCLUDING WITH RESPECT TO CONSULTING SERVICES, IF ANY), INCLUDING, BUT NOT LIMITED TO, LOST PROFITS OR LOSS OF BUSINESS, EVEN IF APPRISED OF THE LIKELIHOOD OF SUCH DAMAGES OCCURRING.

12.2 Cap on Liability. EXCEPT WITH RESPECT TO INDEMNIFICATION OBLIGATIONS OF SECTION 11, UNDER NO CIRCUMSTANCES WILL EITHER PARTY'S TOTAL LIABILITY OF ALL KINDS ARISING OUT OF OR RELATED TO THIS AGREEMENT (INCLUDING, BUT NOT LIMITED TO, WARRANTY CLAIMS AND WITH RESPECT TO CONSULTING SERVICES, IF ANY), REGARDLESS OF THE FORUM AND REGARDLESS OF WHETHER ANY ACTION OR CLAIM IS BASED ON CONTRACT, TORT, OR OTHERWISE, EXCEED THE TOTAL AMOUNT PAID BY SUBSCRIBER TO DOCUSIGN UNDER THIS AGREEMENT DURING THE 12 MONTHS PRECEDING THE DATE OF THE ACTION OR CLAIM.

12.3 Independent Allocations of Risk. EACH PROVISION OF THIS AGREEMENT THAT PROVIDES FOR A LIMITATION OF LIABILITY, DISCLAIMER OF WARRANTIES, OR EXCLUSION OF DAMAGES REPRESENTS AN AGREED ALLOCATION OF THE RISKS OF THIS AGREEMENT BETWEEN THE PARTIES. THIS ALLOCATION IS REFLECTED IN THE PRICING OFFERED BY DOCUSIGN TO SUBSCRIBER AND IS AN ESSENTIAL ELEMENT OF THE BASIS OF THE BARGAIN BETWEEN THE PARTIES. EACH OF THESE PROVISIONS IS SEVERABLE AND INDEPENDENT OF ALL OTHER PROVISIONS OF THIS AGREEMENT, AND EACH OF THESE PROVISIONS WILL APPLY EVEN IF THE WARRANTIES IN THIS AGREEMENT HAVE FAILED OF THEIR ESSENTIAL PURPOSE.

13. CONFIDENTIALITY

13.1 "Confidential Information" means any trade secrets or other information of DocuSign or Subscriber, whether of a technical, business, or other nature (including, without limitation, in the case of DocuSign, DocuSign software and related information, and in the case of Subscriber, Personal Data and eContracts), that is disclosed to the other party (the "Recipient"). Confidential Information does not include any information that: (a) was known to Recipient prior to receiving it from the disclosing party; (b) is independently developed by Recipient without use of or reference to any Confidential Information of the other party; (c) is acquired by Recipient from another source that did not receive it in confidence from the other party to this Agreement; or (d) is or becomes part of the public domain through no fault or action of Recipient.

13.2 Restricted Use and Nondisclosure. During and after the Term, Recipient will: (a) use the Confidential Information of the other party solely for the purpose for which it is provided; (b) not disclose such Confidential Information to a third party; and (c) protect such Confidential Information from unauthorized use and disclosure to the same extent (but using no less than a reasonable degree of care) that it protects its own Confidential Information of a similar nature.

13.3 Required Disclosure. If Recipient is required by law to disclose Confidential Information of the other party or the terms of this Agreement, Recipient must give prompt written notice of such requirement before such disclosure and assist the disclosing party to obtain where reasonably available an order protecting the Confidential Information from public disclosure.

13.4 Return of Materials. Except for as provided in Section 7.4, upon written request by the disclosing party, Recipient will destroy or deliver to the disclosing party all of the disclosing party's Confidential Information that Recipient may have in its possession or control.

13.5 Ownership. Recipient acknowledges that, as between the parties, all Confidential Information it receives from the disclosing party, including all copies thereof in Recipient's possession or control, in any media, is proprietary to and exclusively owned by the disclosing party. Nothing in this Agreement grants Recipient any right, title or interest in or to any of the disclosing party's Confidential Information. Recipient's incorporation of the disclosing party's Confidential Information into any of its own materials shall not render Confidential Information non-confidential.

13.6 Remedies. Recipient acknowledges that any actual or threatened violation of this confidentiality provision may cause irreparable, non-monetary injury to the disclosing party, the extent of which may be difficult to ascertain, and therefore agrees that the disclosing party shall be entitled to seek injunctive relief in addition to all remedies available to the disclosing party at law and/or in equity. Absent written consent of the disclosing party, the burden of proving that the disclosing party's Confidential Information is not, or is no longer, confidential or a trade secret shall be on the Recipient.

13.7 Existing Obligations. The obligations in this Section 13 are in addition to, and supplement, each party's obligations of confidentiality under applicable law and/or under any nondisclosure or other agreement between the parties.

14. GENERAL

14.1 Relationship. At all times, the parties are independent actors, and are not the agent or representative of the other. This Agreement is not intended to create a joint venture, partnership, or franchise relationship, or give rise to any third party beneficiary. Subscriber must not represent to anyone that Subscriber is an agent of DocuSign or is otherwise authorized to bind or commit DocuSign in any way without DocuSign's prior authorization.

14.2 Assignability. Subscriber may not assign its rights, duties, or obligations under this Agreement without DocuSign's prior written consent. If consent is given, this Agreement will bind Subscriber's successors and assigns. Any attempt by Subscriber to transfer its rights, duties, or obligations under this Agreement except as expressly provided in this Agreement is void. Notwithstanding the foregoing, either party may assign this Agreement to a successor of its business without the other party's consent.

14.3 Nonsolicitation. During the Term of this Agreement and for a period of one year thereafter, Subscriber will not, directly or indirectly, employ or solicit the employment or services of a DocuSign employee or independent contractor without the prior written consent of DocuSign.

14.4 Notices. Any notice required or permitted to be given in accordance with this Agreement will be effective if it is in writing and sent using: (a) the "acknowledge receipt" function of the Subscription Service; (b) by certified or registered mail; or (c) insured courier, to the appropriate party at the address set forth on the Order Form. Either party may change its address for receipt of notice by notice to the other party in accordance with this Section. Notices are deemed given upon receipt if delivered using the Subscription Service, two business days following the date of mailing, or one business day following delivery to a courier.

14.5 Force Majeure. Except for any payment obligations, neither party will be liable for, or be considered to be in breach of or default under this Agreement on account of, any delay or failure to perform as required by this Agreement as a result of any cause or condition beyond such party's reasonable control, so long as such party uses all commercially reasonable efforts to avoid or remove such causes of non-performance or delay.

14.6 Dispute Resolution. In the event of any dispute regarding any right or obligation under this Agreement, the aggrieved party shall notify the other party in a writing describing the dispute ("Notice of Dispute"). Upon receipt of the Notice of Dispute, the parties shall arrange a meeting between their representatives. Over a period not to exceed 10 business days after receipt of Notice of Dispute ("Period"), the parties shall engage in good faith negotiations to resolve such dispute. If the parties' representatives are unable to resolve the dispute at such meetings during the Period, then each party may seek any remedies available to it in law or equity. Notwithstanding the foregoing, either party may seek injunctive relief at any time. Each party hereby irrevocably waives, to the fullest extent permitted by law, any and all right to trial by jury in any legal proceeding arising out of or relating to this Agreement.

14.7 Governing Law. This Agreement will be interpreted, construed, and enforced in all respects in accordance with the local laws of the State of Washington, U.S.A., without reference to its choice of law rules to the contrary. The provisions of the 1980 U.N. Convention on Contracts for the International Sale of Goods are expressly excluded and do not apply to this Agreement. Any legal action by Subscriber arising under this Agreement must be initiated within two years after the cause of action arises.

14.8 Waiver. The waiver by either party of any breach of any provision of this Agreement does not waive any other breach. The failure of any party to insist on strict performance of any covenant or obligation in accordance with this Agreement will not be a waiver of such party's right to demand strict compliance in the future, nor will the same be construed as a novation of this Agreement.

14.9 Severability. If any part of this Agreement is found to be illegal, unenforceable, or invalid, the remaining portions of this Agreement will remain in full force and effect. If any material limitation or restriction on the grant of any license to Subscriber under this Agreement is found to be illegal, unenforceable, or invalid, the license will immediately terminate.

14.10 Counterparts. This Agreement may be executed in any number of identical counterparts, notwithstanding that the parties have not signed the same counterpart, with the same effect as if the parties had signed the same document. All counterparts will be construed as and constitute the same agreement.

14.11 Entire Agreement. This Agreement is the final and complete expression of the agreement between these parties regarding the DocuSign Products. This Agreement supersedes, and the terms of this Agreement govern, all previous oral and written communications regarding these matters. This Agreement may be changed only by a written agreement signed by an authorized agent of both parties.

ADDITIONAL TERMS AND CONDITIONS FOR CONSULTING SERVICES

The following additional terms and conditions apply to Consulting Services, if any, that are made the subject of an Order Form.

15. SERVICES, WORK ORDERS, AND CHANGE ORDERS

15.1 Services. Subject to the terms and conditions of this Agreement, DocuSign will, if ordered as provided hereunder, perform for Subscriber certain Consulting Services.

15.2 Work Orders. The specific details of the Consulting Services to be performed will be determined on a per-project basis, and the details for each project will be described in a Work Order that is executed by both parties (called the "Work Order" for purposes of the Consulting Services). An Order Form that lists a DocuSign standard training or consulting package as a DocuSign Product constitutes a Work Order. Once executed by both parties, each Work Order will be a unique agreement that incorporates the terms of this Agreement and stands alone with respect to all other Order Forms. If there is a conflict between the terms of this Agreement and the terms of a Work Order, the terms of this Agreement will control unless the Work Order states that a specific provision of this Agreement will be superseded by a specific provision of the Work Order.

15.3 Change Orders. Unless otherwise specified in a Work Order, Subscriber may reasonably request in writing that revisions be made with respect to the Consulting Services or deliverables set forth in that Work Order ("Change Order"). If a Change Order recites revisions that materially increase the scope of the Consulting Services or the effort required to deliver deliverables under the applicable Work Order, then within 10 business days after DocuSign's receipt of the Change Order, DocuSign will deliver to Subscriber a written, revised Work Order reflecting DocuSign's reasonable determination of the revised Consulting Services, deliverables, delivery schedule, payment schedule, and adjusted fees or fee estimates, if any, that will apply to the implementation of the revisions. If Subscriber approves the revised Work Order, then the parties will execute it, and upon execution, the revised Work Order will supersede the then-existing Work Order. If Subscriber does not approve the revised Work Order within 10 business days after its receipt by Subscriber, the then-existing Work Order will remain in full force and effect, and DocuSign will have no further obligation with respect to the applicable Change Order.

16. PERFORMANCE OF CONSULTING SERVICES

16.1 Project Management. For each project described in a Work Order, each party will designate a single point of contact within its organization to manage the project ("Project Leader"). The Project Leaders will meet as necessary to manage the Consulting Services to be performed under a Work Order. Disputes will be escalated to more senior executives if the Project Leaders are unable to resolve a problem. DocuSign's Project Leader will provide Subscriber's Project Leader with regular reports on the status of the Consulting Services at least once per month.

16.2 Performance Standard. DocuSign warrants to Subscriber that the Consulting Services will be performed in a good and workmanlike manner in accordance with standard industry practice and the applicable Work Order, including any specifications

in such Work Order. DocuSign will complete the Consulting Services, including the delivery of any deliverables, in accordance with the schedule of times and milestones specified in the Work Order.

16.3 Fees. Unless otherwise specified in a Work Order, Subscriber will pay DocuSign for Consulting Services on a time-and-materials basis at DocuSign's then-current rates and under payment terms described in this Agreement ("Consulting Fees").

16.4 Disclaimer. EXCEPT FOR WARRANTIES PROVIDED HEREIN OR EXPRESSLY IDENTIFIED AS SUCH IN A WORK ORDER, THE CONSULTING SERVICES AND ANY RELATED DELIVERABLES WILL BE PROVIDED AS-IS AND WITHOUT WARRANTY OF ANY KIND. DOCUSIGN EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, AND NON-INFRINGEMENT AS TO ANY AND ALL CONSULTING SERVICES AND RELATED DELIVERABLES.

17. TERM AND TERMINATION OF WORK ORDERS

17.1 Term. Each Work Order is non-cancellable except pursuant to a Change Order, and will commence on the specified effective date and will continue until each party's obligations under the Work Order have been fulfilled or the Work Order is terminated as provided in the Work Order.

17.2 Effect of Termination. If any Work Order is terminated in accordance with this Section 17, then Subscriber will pay to DocuSign any Consulting Fees and all other payment obligations accrued and payable for the Consulting Services performed under the terminated Work Order through the effective date of the termination. If a Work Order is terminated for any reason other than for material breach by DocuSign, Subscriber will pay to DocuSign all Consulting Fees due under the Work Order had the Work Order not been terminated and had the Consulting Services been fully performed in accordance with the schedule then in effect, which amount owing will be evidenced in a final termination invoice to be provided by DocuSign to Subscriber. The amount of Consulting Services Fees specified in such termination invoice from DocuSign will be final and binding on the parties, absent manifest error.

18. PROPRIETARY RIGHTS

18.1 Subscriber Materials. Any materials provided by Subscriber to DocuSign specifically for use by DocuSign in the course of the Consulting Services ("Subscriber Materials") will be used and disclosed solely as required to perform the Consulting Services. As between the parties, Subscriber will continue to own the Subscriber Materials.

18.2 Inventions. Except as expressly set forth to the contrary in a Work Order, all works of authorship, inventions, discoveries, improvements, methods, processes, formulas, designs, techniques, and information: (a) conceived, discovered, developed or otherwise made by DocuSign, solely or in collaboration with others, in the course of performing the Consulting Services; or (b) that form all or part of a deliverable provided as part of the Consulting Services, whether developed as part of the Consulting Services or separately, but excluding Subscriber Materials (as defined in Section 18.1) (collectively, "Inventions"), will be the sole property of DocuSign. Upon and subject to final payment by Subscriber of all amounts owing to DocuSign, DocuSign hereby grants to Subscriber a nonexclusive, perpetual, worldwide, royalty-free license to use, copy, modify, and prepare derivative works of the Inventions solely for purposes of Subscriber's internal business operations only.

MASTER PURCHASE AGREEMENT

This Master Purchase Agreement (this "Agreement") is entered into as of [DATE] (the "Effective Date") by and between FireEye (as defined below) and _____, a _____ corporation, with its principal place of business at _____("Customer"). This Agreement will govern Customer's initial purchase of FireEye Offerings and any future orders by Customer as agreed between the parties in writing. FireEye shall provide its Offerings pursuant to the terms and conditions below. For good and valuable consideration, the parties hereby agree as follows:

Structure and Order of Precedence. This Agreement provides the general terms under which the Customer may use FireEye's various Offerings. The explicit rights for the Customer to use and receive Products, Support Services or Subscriptions or otherwise engage with specific FireEye Offerings are set forth in the applicable Exhibit. In the event of conflict between any of the terms in this Agreement and an Exhibit, the Exhibit shall govern.

GENERAL TERMS APPLICABLE TO ALL FIREEYE OFFERINGS

1. DEFINITIONS.

1.1 "Content Feed" means all intelligence and content feeds associated with Products, which may consist of inbound and outbound feeds that are part of FireEye's Dynamic Threat Intelligence (DTI) Cloud, downloads of Indicators for use with Products, and/or intelligence provided as part of the Advanced Threat Intelligence (ATI) Subscription.

1.2 "Deliverables" means the written reports that are created specifically for Customer as a result of the Professional Services provided hereunder.

1.3 "Documentation" means the user manuals generally provided in writing by FireEye to end users of the Products and Subscriptions in electronic format, as amended from time to time by FireEye.

1.4 "FireEye" means (i) FireEye, Inc., a Delaware corporation with its principal place of business at 1440 McCarthy Blvd., Milpitas, CA, 95035 with respect to Offerings that are shipped to, deployed or rendered inside of North America (including the United States, Mexico, Canada and the Caribbean), Central America and South America (collectively, the "Americas"); or (ii) with respect to all Offerings that are shipped to, deployed or rendered outside of the Americas, FireEye Ireland Limited, a company incorporated under the laws of Ireland with principal place of business at 2 Park Place, City Gate Park, Mahon, Cork, Ireland. FireEye includes the operating divisions Mandiant and iSIGHT.

1.5 "FireEye Materials" means all FireEye proprietary materials, Deliverables, intellectual property related to Products or Subscriptions, (such as all rights in any software incorporated into a Product or Subscription, copyrights, and patent, trade secret and trademark rights related to Products, and screens associated with Products or Subscriptions), Documentation, any hardware and/or software used by FireEye in performing Services or providing Subscriptions, Content Feeds, FireEye's processes and methods (including any forensic investigation processes and methods), Indicators of Compromise, materials distributed by FireEye during Training, and any FireEye templates and/or forms, including report and presentation templates and forms. FireEye Materials does not include Third Party Materials.

1.6 "Indicators of Compromise" or "Indicators" means specifications of anomalies, configurations, or other conditions that FireEye is capable of identifying within an information technology infrastructure, used by FireEye in performing Professional Services and providing Subscriptions.

1.7 "Intellectual Property Rights" means copyrights (including, without limitation, the exclusive right to use, reproduce, modify, distribute, publicly display and publicly perform the copyrighted work), trademark rights (including, without limitation, trade names, trademarks, service marks, and trade dress), patent rights (including, without limitation, the exclusive right to make, use and sell), trade secrets, moral rights, right of publicity, authors' rights, contract and licensing rights, goodwill and all other intellectual property rights as may exist now and/or hereafter come into existence and all renewals and extensions thereof, regardless of whether such rights arise under the law of the United States or any other state, country or jurisdiction.

1.8 "Offerings" means, collectively, Products, Subscriptions, Training, Professional Services and Support Services.

1.9 "Order" means a written purchase order or similar ordering document, signed or submitted to FireEye by Customer and approved by FireEye, under which Customer agrees to purchase Offerings.

1.10 "Products" means the FireEye software and hardware appliances (which may include embedded software or firmware components) as described in Exhibit A to this Agreement.

1.11 "Professional Services" means, collectively, those security consulting services provided by FireEye under a Statement of Work and/or set forth on an Order, which may consist of Product-related services such as deployment, configuration or installation services; proactive security consulting such as penetration testing, vulnerability assessments or compromise assessments; or incident response or other remediative services.

1.12 "Service" or "Services" means the Professional Services, Support Services and Training.

1.13 "Statement of Work" or "SOW" means a mutually agreed-upon document between FireEye and Customer, describing Professional Services, rates and timelines (if applicable) for those Professional Services, and incorporating this Agreement.

1.14 "Subscription" means a service provided by FireEye for a fixed term, under which FireEye provides access to certain features, functionality, and/or information, as described in the applicable Exhibit for each Subscription attached to this Agreement.

1.15 "Support Services" means the Product support and maintenance services provided by FireEye with respect to each Product, and that are described in the applicable Exhibit for each Product attached to this Agreement.

1.16 "Third Party Materials" means software or other components that are licensed to FireEye by third parties for use in FireEye's Offerings.

1.17 "Training" means training in the use of Products, or on security-related topics in general, provided by FireEye.

2. ORDERS AND STATEMENTS OF WORK.

2.1. Orders. Customer may purchase Offerings by submitting an Order. If accepted by FireEye, the "Order Effective Date" will be the date of the Order. All Orders will be governed by this Agreement. For clarity, FireEye will not be obligated to ship any Product, or provide any Services, Training or Subscriptions until Customer has issued a valid Order for those Offerings.

2.2. Statements of Work. Each Statement of Work will incorporate and be governed by this Agreement. The "Statement of Work Effective Date" will be the date both Customer and FireEye have agreed to the Statement of Work, either by executing the Statement of Work or by issuing and accepting an Order for the Professional Services described on the Statement of Work. For clarity, FireEye will not be obligated to perform any Professional Services until a SOW describing those Professional Services has been agreed by both parties or an Order listing those Professional Services has been accepted by FireEye.

3. PAYMENT. Customer agrees to purchase the Offerings for the prices set forth in each Order and/or Statement of Work, as applicable ("Fees"). If Customer purchases through a FireEye partner (such as an authorized reseller or distributor, collectively, "FireEye Partners"), all fees and other procurement and delivery terms shall be agreed between Customer and the applicable partner. If Customer purchases directly from FireEye, Customer will make full payment in the currency specified in FireEye's invoice, without set-off and in immediately available funds, within thirty (30) days of the date of each invoice. All Fees are non-cancelable and non-refundable. All Fees described on an Order will be fully invoiced in advance, unless otherwise agreed by FireEye. Unless otherwise specified in a Statement of Work, all Fees related to Professional Services will be invoiced

fully in advance. Customer shall reimburse FireEye for any and all expenses incurred so long as such expenses are directly attributable to the Services or Subscriptions performed for or provided to Customer. FireEye will provide appropriate vouching documentation for all expenses exceeding $25. If any payment is more than fifteen (15) days late, FireEye may, without limiting any remedies available to FireEye, terminate the applicable Order or Statement of Work or suspend performance until payment is made current. Customer will pay interest on all delinquent amounts at the lesser of 1.5% per month or the maximum rate permitted by applicable law. All Fees are exclusive of all present and future sales, use, excise, value added, goods and services, withholding and other taxes, and all customs duties and tariffs now or hereafter claimed or imposed by any governmental authority upon the Offerings which shall be invoiced to and paid by the Customer. If Customer is required by law to make any deduction or withholding on any payments due to FireEye, Customer will notify FireEye and will pay FireEye any additional amounts necessary to ensure that the net amount FireEye receives, after any deduction or withholding, equals the amount FireEye would have received if no deduction or withholding had been required. Additionally, Customer will provide to FireEye evidence, to the reasonable satisfaction of FireEye, showing that the withheld or deducted amounts have been paid to the relevant governmental authority. For purposes of calculating sales and similar taxes, FireEye will use the address set forth on the Order or Statement of Work, as applicable, as the jurisdiction to which Offerings and shipments are delivered unless Customer has otherwise notified FireEye in writing as of the Order Effective Date or Statement of Work Effective Date, as applicable. Customer will provide tax exemption certificates or direct-pay letters to FireEye on or before the Order Effective Date or Statement of Work Effective Date, as applicable. FireEye reserves the right to increase Fees at any time, although increases in Fees for Subscriptions or Support Services will not go into effect until the next Renewal Subscription Term or Renewal Support Term, as applicable.

4. TITLE AND RISK OF LOSS; INSPECTION. All hardware, including Products and any hardware provided for use with Subscriptions and/or Services, is shipped FOB Origin (FCA) from FireEye's designated manufacturing facility or point of origin, and title to such hardware and the risk of loss of or damage to the hardware shall pass to Customer at time of FireEye's delivery of such hardware to the carrier. FireEye is authorized to designate a carrier pursuant to FireEye's standard shipping practices unless otherwise specified in writing by Customer. Customer must provide written notice to FireEye within five (5) days of delivery of the Products of any non-conformity with the Order, e.g., delivery of the wrong Product or incorrect quantities.

5. TERMS APPLICABLE TO OFFERINGS.

5.1. Products and Support Services. Customer's purchase and use of each Product and Support Services for each Product will be subject to the licenses and terms specific to each Product set forth in Exhibit A.

5.2. Subscriptions. Customer's purchase of and access to each Subscription will be subject to the terms specific to each Subscription set forth in Exhibit B.

5.3. Training. Customer's purchase of Training will be subject to the terms in this Section 5.3. Training delivery dates and location for such Training will be mutually agreed upon by the parties. If an Order does not specify such dates and/or locations, then the parties will mutually agree upon the dates and locations for Training. Customer must request rescheduling of Training no less than two (2) weeks in advance of the scheduled start date. FireEye will use reasonable efforts to reschedule the Training, subject to availability, and Customer will pay any expenses associated with the rescheduling, including any expenses associated with cancelling or changing travel plans. If Customer cancels attendance at a public Training class, Customer must notify FireEye no later than two (2) business days before the date of the Training class. If Customer timely notifies FireEye of the cancellation, FireEye will issue Customer a credit for the amount paid for that public Training class, which Customer may apply toward another public Training class held within one (1) year of the date of the Order on which the cancelled Training class was included. Customer may substitute a named attendee at a public Training class, but Customer will notify FireEye in advance of any such substitution. FireEye reserves the right to refuse admittance to public Training classes to any person, for any reason, and if FireEye refuses admittance, FireEye will refund the amount paid for that person's attendance at the public Training class. FireEye does not refund or credit Fees paid for attendees who do not attend Training classes or who leave before a Training class concludes. If Customer purchases a block of Training hours (for example, 10 hours of Training), then Customer must use those hours within one (1) year of the effective date of the applicable Order. All Training must be scheduled and conducted within one (1) year of the date of the applicable Order for that Training.

5.4. Professional Services.

5.4.1. Deliverables. Subject to Customer's timely payment of applicable fees, and subject to this Agreement and each applicable SOW, Customer shall have a perpetual, non-exclusive, nontransferable, right and license to use, display and reproduce the Deliverables for its internal business purposes. Deliverables may not be shared with any third party other than law enforcement agencies. In no event may Deliverables be used for sales or marketing activities.

5.4.2. Customer-Owned Property. Customer will be and remain, at all times, the sole and exclusive owner of the Customer-Owned Property (including, without limitation, any modification, compilation, derivative work of, and all intellectual property and proprietary rights contained in or pertaining thereto). FireEye will promptly return to Customer all Customer-Owned Property upon the termination or expiration of the applicable Statement of Work or Order, or sooner at Customer's request. "Customer-Owned Property" means any technology, software, algorithms, formulas, techniques or know-how and other tangible and intangible items that were owned by Customer, or developed by or for Customer prior to the SOW Effective Date that are provided by Customer to FireEye for incorporation into or used in connection with the development of the Deliverables or performance of Professional Services.

5.4.3. Customer Responsibilities. If the Services or Subscriptions require the installation and use of FireEye equipment or software, Customer will facilitate the installation and shall provide physical space, electrical power, Internet connectivity and physical access as reasonably determined and communicated by FireEye. Notwithstanding anything to the contrary herein or in any Statement of Work, including confidentiality provisions, if Customer has hired FireEye to perform a PCI DSS Compliance Audit or a PCI investigation, FireEye may provide The Payment Card Industry Security Standards Council, LLC (PCI SSC), card companies and the relevant merchant bank with all Reports of Compliance (ROC) and all related assessment and investigative report documents generated in connection with such work, as required by PCI DSS rules.

5.4.4. Additional Assumptions. (a) estimated Fees for Professional Services do not include any hardware, software, licensing, maintenance or support costs of any FireEye or other third-party product or service suggested by FireEye in the course of performing Professional Services; (b) when FireEye's personnel are performing Professional Services on site at Customer's premises, Customer will allocate appropriate working space and physical access for all FireEye personnel; (c) Customer will make available key individuals within the security program that can best help plan and coordinate activities described in the SOW; (d) either party may elect to submit written change requests to the other party proposing changes to the Statement of Work. All changes to the requirements and Statement of Work will be made using agreed-to project change control procedures.

5.5 Evaluations. If Customer receives a Product or Subscription for evaluation purposes ("Evaluation Offerings") then Customer may use the Evaluation Offerings for its own internal evaluation purposes for a period of up to thirty (30) days from the date of receipt of the Evaluation Offerings (the "Evaluation Period"). Customer and FireEye may, upon mutual written agreement (including via email), extend the Evaluation Period. If the Evaluation Offering includes hardware components, Customer will return the hardware within ten (10) days of the end of the Evaluation Period, and if Customer does not return the hardware within this period, Customer shall be invoiced for the then-current list price for the applicable Evaluation Offering. Customer acknowledges that title to hardware components of Evaluation Offerings remains with FireEye at all times, and that Evaluation Offerings may be used and/or refurbished units. If the Evaluation Offering does not include hardware components, Evaluator must delete all software and other components (including Documentation) related to the Evaluation Offering at the end of the Evaluation Period, and confirm those deletions in writing to FireEye, or the Evaluator shall be invoiced for the then-current list price for the Evaluation Offering. If the Evaluation Offering is a Subscription, Evaluator understands that FireEye may disable access to the Subscription automatically at the end of the Evaluation Period, without notice to Evaluator. EVALUATION OFFERINGS ARE PROVIDED "AS IS", AND TO THE EXTENT PERMITTED BY APPLICABLE LAW, FIREEYE DISCLAIMS ALL WARRANTIES RELATING TO THE EVALUATION OFFERINGS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY WARRANTIES AGAINST INFRINGEMENT OF THIRD PARTY RIGHTS, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

6. INTELLECTUAL PROPERTY

6.1. Ownership of FireEye Materials; Restrictions. All Intellectual Property Rights in FireEye Materials, Products, Deliverables, Documentation, and Subscriptions belong exclusively to FireEye and its licensors. Customer will not (and will not allow any third party to): (i) disassemble, decompile, reverse compile, reverse engineer or attempt to discover any source code or underlying ideas or algorithms of any FireEye Materials (except to the limited extent that applicable law prohibits reverse engineering restrictions); (ii) sell, resell, distribute, sublicense or otherwise transfer, the FireEye Materials, or make the functionality of the FireEye Materials available to any other party through any means (unless otherwise FireEye has provided prior written consent), (iii) without the express prior written consent of FireEye, conduct any benchmarking or comparative study or analysis involving the FireEye Materials ("Benchmarking") for any reason or purpose except, to the limited extent absolutely necessary, to determine the suitability of Products or Subscriptions to interoperate with Customer's internal computer systems; (iv) disclose or publish to any third party any Benchmarking or any other information related thereto; (v) use the FireEye Materials or any Benchmarking in connection with the development of products, services or subscriptions that compete with the FireEye Materials; or (vi) reproduce, alter, modify or create derivatives of the FireEye Materials. Between Customer and FireEye, FireEye shall retain all rights and title in and to any Indicators of Compromise FireEye developed by or for FireEye in the course of providing Subscriptions or performing Services.

6.2. Third Party Materials. Customer acknowledges that Products and Subscriptions may include Third Party Materials. FireEye represents that these Third Party Materials will not diminish the license rights provided herein or limit Customer's ability to use the Products and Subscriptions in accordance with the applicable Documentation, and neither the inclusion of Third Party Materials in any Product or Subscription or use of Third Party Materials in performance of Services will create any obligation on the part of Customer to license Customer's software or products under any open source or similar license.

7. WARRANTIES.

7.1. Product Warranty. FireEye warrants to Customer that during the one (1) year period following the shipment of the Products, the Products will perform substantially in accordance with the applicable Documentation. The warranty stated in this Section 7.1 shall not apply if the Product has: (i) been subjected to abuse, misuse, neglect, negligence, accident, improper testing, improper installation, improper storage, improper handling or use contrary to any instructions issued by FireEye; (ii) been repaired or altered by persons other than FireEye; (iii) not been installed, operated, repaired and maintained in accordance with the Documentation; or (iv) been used with any third party software or hardware which has not been previously approved in writing by FireEye. If during the one-year Product warranty period: (a) FireEye is notified promptly in writing upon discovery of any error in a Product, including a detailed description of such alleged error; (b) such Product is returned, transportation charges prepaid, to FireEye's designated manufacturing facility in accordance with FireEye's then-current return procedures, as set forth by FireEye from time to time; and (c) FireEye's inspections and tests determine that the Product contains errors and has not been subjected to any of the conditions set forth in 7.1(i)-(iv) above, then, as Customer's sole remedy and FireEye's sole obligation under the foregoing warranty, FireEye shall, at FireEye's option, repair or replace without charge such Product. Any Product that has either been repaired or replaced under this warranty shall have warranty coverage for the remaining warranty period. Replacement parts used in the repair of a Product may be new or equivalent to new.

7.2. Services Warranty. FireEye warrants to Customer that Services will be performed in a professional manner in accordance with industry standards for like services. If Customer believes the warranty stated in this Section has been breached, Customer must notify FireEye of the breach no later than thirty (30) days following the date the Services were performed, and FireEye will promptly correct or re-perform the Services, at FireEye's expense.

7.3. Subscription Warranty. FireEye warrants to Customer the Subscriptions will be provided in a professional manner in accordance with industry standards for similar subscriptions. If Customer believes the warranty stated in this Section has been breached, Customer must notify FireEye of the breach no later than thirty (30) days following the date the warranty was allegedly breached, and FireEye will promptly correct the non-conformity, at FireEye's expense.

7.4. Remedies Exclusive. Except for any Service Level Credits described in Exhibit B, the remedies stated in Sections 7.1-7.3 above are the sole remedies, and FireEye's sole obligation, with respect to Products, Subscriptions and Services that fail to comply with the foregoing warranties.

7.5. Disclaimer of Warranties. EXCEPT FOR THE EXPRESS WARRANTIES SET FORTH HEREIN, ALL PRODUCTS, SUBSCRIPTIONS, FIREEYE MATERIALS, DELIVERABLES AND SERVICES ARE PROVIDED ON AN "AS IS" BASIS WITHOUT ANY WARRANTY WHATSOEVER. FIREEYE AND ITS SUPPLIERS EXPRESSLY DISCLAIM, TO THE MAXIMUM EXTENT PERMISSIBLE UNDER APPLICABLE LAW, ALL WARRANTIES, EXPRESS, IMPLIED AND STATUTORY, INCLUDING WITHOUT LIMITATION ANY IMPLIED WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, ACCURACY, NONINFRINGEMENT, OR ARISING FROM COURSE OF PERFORMANCE, DEALING, USAGE OR TRADE. FIREEYE ALSO MAKES NO WARRANTY REGARDING NONINTERRUPTION OF USE OR FREEDOM FROM BUGS, AND MAKES NO WARRANTY THAT PRODUCTS, FIREEYE MATERIALS, DELIVERABLES, SERVICES OR SUBSCRIPTIONS WILL BE ERROR-FREE.

8. INFRINGEMENT INDEMNITY.

8.1. FireEye shall defend Customer, and its officers, directors and employees, against any third party action alleging that the FireEye Materials infringes a valid U.S. patent or copyright issued as of the date of delivery or performance, as applicable, and FireEye shall pay all settlements entered into, and all final judgments and costs (including reasonable attorneys' fees) finally awarded against such party in connection with such action. If the FireEye Materials, or parts thereof, become, or in FireEye's opinion may become, the subject of an infringement claim, FireEye may, at its option: (i) procure for Customer the right to continue using the applicable FireEye Materials; (ii) modify or replace such FireEye Materials with a substantially equivalent non-infringing FireEye Materials; or (iii) require the return of such FireEye Materials or cease providing affected Product, Subscriptions, Deliverables or Services, and refund to Customer, with respect to Products, a pro-rata portion of the purchase price of such Products based on a three-year straight line amortization of the purchase price, and with respect to Subscriptions, a portion of any pre-paid Fees for such Subscriptions, pro rated for any unused Subscription Term, and with respect to Services, any pre-paid Fees for Services that have not been delivered. THIS SECTION 8.1 STATES THE ENTIRE LIABILITY OF FIREEYE AND CUSTOMER'S SOLE REMEDY WITH RESPECT TO ANY INFRINGEMENT OF INTELLECTUAL PROPERTY RIGHTS BY THE OFFERINGS, FIREEYE MATERIALS, OR DELIVERABLES.

8.2. FireEye shall have no indemnification obligations with respect to any action arising out of: (i) the use of any Product, Subscription, Deliverable, or Service, or any part thereof, in combination with software or other products not supplied by FireEye; (ii) any modification of the Products, Subscriptions, Deliverables, or Services not performed or expressly authorized by FireEye; or (iii) the use of any the Products, Subscriptions, Deliverables, or Services other than in accordance with this Agreement and applicable Documentation.

8.3. The indemnification obligations shall be subject to Customer: (i) notifying FireEye within ten (10) days of receiving notice of any threat or claim in writing of such action; (ii) giving FireEye exclusive control and authority over the defense or settlement of such action; (iii) not entering into any settlement or compromise of any such action without FireEye's prior written consent; and (iv) providing reasonable assistance requested by FireEye.

9. LIMITATION OF LIABILITY.

9.1. Consequential Damages Waiver. EXCEPT FOR LIABILITY ARISING UNDER A BREACH OF ANY INTELLECTUAL PROPERTY RIGHT OF FIREEYE, OR THE INDEMNIFICATION OBLIGATIONS SET FORTH IN SECTION 8 (INFRINGEMENT INDEMNITY), IN NO EVENT WILL FIREEYE BE LIABLE FOR ANY SPECIAL, INCIDENTAL, CONSEQUENTIAL OR EXEMPLARY DAMAGES OF ANY KIND, INCLUDING BUT NOT LIMITED TO ANY LOST PROFITS AND LOST SAVINGS, HOWEVER CAUSED, WHETHER FOR BREACH OR REPUDIATION OF CONTRACT, TORT, BREACH OF WARRANTY, NEGLIGENCE, OR OTHERWISE, WHETHER OR NOT FIREEYE WAS ADVISED OF THE POSSIBILITY OF SUCH LOSS OR DAMAGES.

9.2. Limitation of Monetary Damages. EXCEPT FOR LIABILITY ARISING UNDER A BREACH OF ANY INTELLECTUAL PROPERTY RIGHT OF FIREEYE, PAYMENT OBLIGATIONS OF CUSTOMER, AND THE INDEMNIFICATION OBLIGATIONS SET FORTH IN SECTION 8 (INFRINGEMENT INDEMNITY), AND NOTWITHSTANDING ANY OTHER PROVISIONS OF THIS AGREEMENT OR ANY ORDER OR STATEMENT OF WORK, FIREEYE'S TOTAL LIABILITY ARISING OUT OF THIS AGREEMENT, THE OFFERINGS, THE FIREEYE IP AND DELIVERABLES SHALL BE LIMITED TO THE TOTAL AMOUNTS

RECEIVED BY FIREEYE FOR THE RELEVANT OFFERINGS DURING THE TWELVE (12) MONTHS IMMEDIATELY PRECEDING THE FIRST OCCURRENCE OF THE EVENTS GIVING RISE TO SUCH LIABILITY.

9.3. Applicability. THE LIMITATIONS AND EXCLUSIONS CONTAINED HEREIN WILL APPLY ONLY TO THE MAXIMUM EXTENT PERMISSIBLE UNDER APPLICABLE LAW, AND NOTHING HEREIN PURPORTS TO LIMIT EITHER PARTY'S LIABILITY IN A MANNER THAT WOULD BE UNENFORCEABLE OR VOID AS AGAINST PUBLIC POLICY IN THE APPLICABLE JURISDICTION.

9.4 SAFETY Act. FireEye and Customer hereby mutually waive and release each other from any and all liabilities relating to any claims for losses or damages of any kind (including, but not limited to, business interruption losses) arising out of an Act of Terrorism as defined by the Support Anti-Terrorism By Fostering Effective Technologies Act of 2002 ("SAFETY Act")(6 U.S.C. §§ 441-444). FireEye and Customer further agree to be solely responsible to the full extent of any and all losses they may sustain, or for any and all losses their respective employees, officers, or agents may sustain, resulting from an Act of Terrorism as defined by 6 U.S.C. §§ 441-444 when FireEye's Multi-Vector Virtual Execution Engine and any subscriptions, cloud services platform or associated services (the "Qualified Anti-Terrorism Technology") are utilized in defense against, response to, or recovery from an Act of Terrorism.

10. Export Control; Anti-Corruption; U.S. Government Restricted Rights.

10.1. Export Control. Export Control. Each party represents and warrants that it shall comply with all laws and regulations applicable to it with respect to the Offerings. Customer further acknowledges and agrees that the Products and FireEye Materials may be subject to restrictions and controls imposed by the United States Export Administration Act, the regulations thereunder, as well as European Union ("EU") or National export control laws and obligations and similar laws in other jurisdictions. Customer agrees to comply with all applicable export and re-export control laws and regulations, including the Export Administration Regulations ("EAR") maintained by the U.S. Department of Commerce, trade and economic sanctions maintained by the Treasury Department's Office of Foreign Assets Control, and the International Traffic in Arms Regulations ("ITAR") maintained by the Department of State. Specifically, Customer covenants that it shall not, directly or indirectly, sell, export, reexport, transfer, divert, or otherwise dispose of any Products, FireEye Materials, or technology (including products derived from or based on such technology) received from FireEye under this Agreement to any destination, entity, or person prohibited by the laws or regulations of the United States and the EU, without obtaining prior authorization from the competent government authorities as required by those laws and regulations. These prohibitions include, but are not limited to the following: (i) the Products and FireEye Materials cannot be exported or re-exported to any countries embargoed by the United States (currently including Cuba, Iran, North Korea, Sudan or Syria) which includes nationals of these countries employed by Customer; (ii) the Products and FireEye Materials cannot be exported or re-exported for military use in country group 'b' prior to valid 'export license' or valid 'license exception'; and (iii) the Products and FireEye Materials cannot be used for any prohibited end uses including any "nuclear, biological or chemical weapon related activities."; and (iv) the Products and FireEye Materials will not be re-exported or otherwise sold or transferred if it is known or suspected that they are intended or likely to be used for such purposes. Customer agrees to notify FireEye of any suspicious activities by any employee related to the Products. Customer agrees to indemnify, to the fullest extent permitted by law, FireEye from and against any fines or penalties that may arise as a result of Customer's breach of this provision. This export control clause shall survive termination or cancellation of any Orders.

10.2. Anticorruption Laws. Each Party acknowledges that it is familiar with and understands the provisions of the U.S. Foreign Corrupt Practices Act ("the FCPA") and the U.K. Bribery Act of 2010 ("UKBA") and agrees to comply with its terms as well as any provisions of local law related thereto. Each party further understands the provisions relating to the FCPA and UKBA's prohibitions regarding the payment or giving of anything of value, including but not limited to payments, gifts, travel, entertainment and meals, either directly or indirectly, to an official of a foreign government or political party for the purpose of influencing an act or decision in his or her official capacity or inducing the official to use his or her party's influence with that government, to obtain or retain business involving the Offering. Each Party agrees to not violate or knowingly let anyone violate the FCPA or UKBA, and Each Party agrees that no payment it makes will constitute a bribe, influence payment, kickback, rebate, or other payment that violates the FCPA, the UKBA, or any other applicable anticorruption or anti-bribery law.

10.3. U.S. Government Restricted Rights. The Offerings, Deliverables and Documentation are "commercial items", "commercial computer software" and "commercial computer software documentation," pursuant to DFAR Section 227.7202 and FAR Section 12.212, as applicable. All Offerings and FireEye Materials are and were developed solely at private expense. Any use, modification, reproduction, release, performance, display or disclosure of the Offerings, FireEye Materials and Documentation by the United States Government shall be governed solely by the this Agreement and shall be prohibited except to the extent expressly permitted by this Agreement.

11. CONFIDENTIAL INFORMATION.

11.1. Confidential Information. "Confidential Information" means the non-public information that is exchanged between the parties, provided that such information is: (i) identified as confidential at the time of disclosure by the disclosing party ("Discloser"); or (ii) disclosed under circumstances that would indicate to a reasonable person that the information should be treated as confidential by the party receiving such information ("Recipient"). The terms of any commercial transaction between the parties (including pricing related to the Offerings) shall be considered Confidential Information.

11.2. Maintenance of Confidentiality. Each party agrees that it shall: (i) take reasonable measures to protect the Confidential Information by using the same degree of care, but no less than a reasonable degree of care, to prevent the unauthorized use, dissemination or publication of the Confidential Information as the Recipient uses to protect its own confidential information of a like nature; (ii) limit disclosure to those persons within Recipient's organization with a need to know and who have previously agreed in writing, prior to receipt of Confidential Information either as a condition of their employment or in order to obtain the Confidential Information, to obligations similar to the provisions hereof; (iii) not copy, reverse engineer, disassemble, create any works from, or decompile any prototypes, software or other tangible objects which embody the other party's Confidential Information and/or which are provided to the party hereunder; and (iv) comply with, and obtain all required authorizations arising from, all U.S. and other applicable export control laws or regulations.. Confidential Information shall not be used or reproduced in any form except as required to accomplish the purposes and intent of an Order or Statement of Work. Any reproduction of Confidential Information shall be the property of Discloser and shall contain any and all notices of confidentiality contained on the original Confidential Information.

11.3. Exceptions. The parties agree that the foregoing shall not apply to any information that Recipient can evidence: (i) is or becomes publicly known and made generally available through no improper action or inaction of Recipient; (ii) was already in its possession or known by it prior to disclosure by Discloser to Recipient; (iii) is independently developed by Recipient without use of or reference to any Confidential Information; or (iv) was rightfully disclosed to it by, or obtained from, a third party. Recipient may make disclosures required by law or court order provided that Recipient: (a) uses diligent efforts to limit disclosure and to obtain, if possible, confidential treatment or a protective order; (b) has given prompt advance notice to Discloser of such required disclosure; and (c) has allowed Discloser to participate in the proceedings.

11.4. Injunctive Relief. Each party will retain all right, title and interest to such party's Confidential Information. The parties acknowledge that a violation of the Recipient's obligations with respect to Confidential Information may cause irreparable harm to the Discloser for which a remedy at law would be inadequate. Therefore, in addition to any and all remedies available at law, Discloser shall be entitled to seek an injunction or other equitable remedies in all legal proceedings in the event of any threatened or actual violation of any or all of the provisions hereof.

11.5. Return of Confidential Information. Within thirty (30) days after the date when all Orders and SOWs have expired or been terminated, or after any request for return of Confidential Information, each party will return to the other party or destroy all of such other party's Confidential Information, at such other party's discretion, and, upon request, provide such other party with an officer's certificate attesting to such return and/or destruction, as appropriate.

11.6. Privacy. If FireEye is a data processor under this Agreement, further to the provisions of Article 17 and 25 of the EU Data Protection Directive EU (Directive 95/46/EC), FireEye agrees that it will:

11.6.1 only deal with and process personal data controlled by Customer in compliance with, and subject to, the instructions received from Customer and in compliance with this Agreement and will not use or process the personal data for any other purpose whatever;

11.6.2 adopt and maintain appropriate (including organizational and technical) security measures in dealing with Customer's personal data in order to protect against unauthorized or accidental access, loss, alteration, disclosure or destruction of such data, in particular where the processing involves the transmission of data over a network, and against all other unlawful forms of processing; and

11.6.3 take all reasonable steps to ensure that (i) persons employed by it, and (ii) other persons engaged at its place of work, are aware of and comply with applicable data privacy laws and regulations.

11.6.4 FireEye may process or otherwise transfer any personal information in or to any country outside the European Economic Area or any country not deemed adequate by the European Commission pursuant to Article 25(6) to the extent necessary for the provision of the Offerings. If required, FireEye will enter into the EU Standard Contractual Clauses as approved by the European Commission for ensuring an adequate level of data protection in respect of the personal information that will be processed or transferred.

12. TERM AND TERMINATION.

12.1. Term.

12.1.1 Products. Products will be licensed according to the applicable terms in Exhibit A, for the period of time stated on the Order (e.g., if the Order lists a Product as being provided for "3Y," the license for that Product is provided for three years from the date of the Order). If no period of time is stated on the Order, then the Product is licensed perpetually, unless otherwise terminated as set forth herein.

12.1.2 Support Services. Support Services will begin ten (10) days from the date of shipment of the associated Product and continue for the period of time stated on the Order("Initial Support Term"). Unless otherwise stated on the Order, the Support Services will automatically renew for additional periods of one (1) year each (each, a "Renewal Support Term" and together with the Initial Support Term, the "Support Term"), unless either party notifies the other of its intention not to renew Support Services at least sixty (60) days prior to the expiration of the then-current Support Term. Customer may terminate Support at any time, for convenience, on thirty (30) days' written notice to FireEye. If Customer terminates Support Services for convenience before the end of the then-current Support Term, Customer will pay any remaining fees owing for the remainder of the then-current Support Term within thirty (30) days of the effective date of termination.

12.1.3 Subscriptions. The term of each Subscription will begin on the Order Effective Date and will continue in effect for the period of time stated in the Order ("Initial Subscription Term"). Unless otherwise stated on the Order, the Subscription will automatically renew after its Initial Subscription Term for additional periods of one (1) year each (each, a "Renewal Subscription Term" and together with the Initial Subscription Term, the "Subscription Term"), unless either party notifies the other of its intention not to renew that Subscription at least sixty (60) days prior to the expiration of the then-current Subscription Term. Customer may terminate a Subscription at any time, for convenience, on thirty (30) days' written notice to FireEye. If Customer terminates a Subscription for convenience before the end of the then-current Subscription Term, Customer will pay any remaining fees owing for the remainder of the then-current Subscription Term within thirty (30) days of the effective date of termination.

12.1.4 Professional Services; Statements of Work. Professional Services described on an Order will be provided at mutually agreed-upon times, and will continue until complete, unless otherwise terminated as set forth herein. The term of each SOW will be as set forth in that SOW. If no term is expressed in an SOW, then the term of that SOW will begin on the SOW Effective Date and continue until the Professional Services described in that SOW are complete or the SOW is earlier terminated as set forth herein. Unless otherwise stated in a SOW, Customer may terminate a SOW at any time for convenience by giving FireEye at least thirty (30) days' written notice of its intent to terminate the SOW. If Customer terminates an SOW for convenience as set forth in this Section, Customer will pay any amounts owing for Professional Services and Deliverables provided under that SOW up to and including the date of termination. Customer may request that FireEye suspend performing Professional Services during the term of a Statement of Work, and FireEye will suspend such Professional Services within 24 hours of Customer's request. Customer acknowledges that any such suspension will not affect Customer's obligation to pay fees for Professional Services rendered through the date of suspension, and that

resumption of Professional Services may be delayed if FireEye redeploys personnel to other engagements during the period of suspension.

12.2. Termination for Material Breach. Either party may terminate any Order or any SOW upon written notice of a material breach of the applicable Order or SOW by the other party as provided below, subject to a thirty (30) day cure period ("Cure Period"). If the breaching party has failed to cure the breach within the Cure Period after the receipt by the breaching party of written notice of such breach, the non-breaching party may give a second notice to the breaching party terminating the applicable Order or SOW. Termination of any particular Order or SOW under this Section will not be deemed a termination of any other Order or SOW, unless the notice of termination states that another Order or SOW is also terminated. Notwithstanding the foregoing, the Cure Period applicable to a breach by Customer of any payment obligations under any Order or any SOW will be fifteen (15) days. Notwithstanding the foregoing, this Agreement shall terminate automatically in the event Customer has breached any license restriction and, in FireEye's determination, that breach cannot be adequately cured within the Cure Period.

12.3. Effect of Termination. Termination or expiration of any Order or SOW will not be deemed a termination or expiration of any other Orders or SOWs in effect as of the date of termination or expiration, and this Agreement will continue to govern and be effective as to those outstanding Orders and SOWs until those Orders and SOWs have expired or terminated by their own terms or as set forth herein. The provisions of Section 3 (Payment), Section 6 (Intellectual Property), Section 7.5 (Disclaimer of Warranties), 9 (Limitation of Liability), 10 (Export Control; Anti-Corruption; U.S. Government Restricted Rights), 12 (Confidential Information), and 13 (Miscellaneous), and all accrued payment obligations, shall survive the termination of all Orders and SOWs and the relationship between FireEye and Customer.

13. MISCELLANEOUS.

13.1. Assignment. Customer may not assign any Order or Statement of Work, or any rights or obligations thereunder, in whole or in part, without FireEye's prior written consent, and any such assignment or transfer shall be null and void. FireEye shall have the right to assign all or part of an Order or Statement of Work without Customer's approval. Subject to the foregoing, each Order and Statement of Work shall be binding on and inure to the benefit of the parties' respective successors and permitted assigns.

13.2. Entire Agreement. This Agreement along with any Order, Statement of Work and the Exhibits attached hereto is the entire agreement of the parties with respect to the Offerings and supersedes all previous or contemporaneous communications, representations, proposals, commitments, understandings and agreements, whether written or oral, between the parties regarding the subject matter thereof. FireEye does not accept, expressly or impliedly and FireEye hereby rejects and deems deleted any additional or different terms or conditions that Customer presents, including, but not limited to, any terms or conditions contained or referenced in any order, acceptance, acknowledgement, or other document, or established by trade usage or prior course of dealing. This Agreement may be amended only in writing signed by authorized representatives of both parties.

13.3. Force Majeure. Neither party will be liable to the other for any delay or failure to perform any obligation under this Agreement (except for a failure to pay fees) if the delay or failure is due to unforeseen events, which occur after the signing of this Agreement and which are beyond the reasonable control of the parties, such as strikes, blockade, war, terrorism, riots, natural disasters, refusal of license by the government or other governmental agencies, in so far as such an event prevents or delays the affected party from fulfilling its obligations and such party is not able to prevent or remove the force majeure at reasonable cost.

13.4. Governing Law. This Agreement shall be deemed to have been made in, and shall be construed pursuant to the laws of the State of California and the United States without regard to conflicts of laws provisions thereof, and without regard to the United Nations Convention on the International Sale of Goods or the Uniform Computer Information Transactions Act. Any legal suit, action or proceeding arising out of or relating to the Offerings, the FireEye Materials, this Agreement, an Order or a Statement of Work will be commenced exclusively in a federal court in the Northern District of California or in state court in Santa Clara County, California, and each party hereto irrevocably submits to the jurisdiction and venue of any such court in any such suit, action or proceeding.

13.5. Independent Contractors. The parties are independent contractors. Nothing in this Agreement, any Order or any Statement of Work shall be construed to create a partnership, joint venture or agency relationship between the parties. Customer shall make no representations or warranties on behalf of FireEye.

13.6. Language. This Agreement and each Order and Statement of Work are in the English language only, which shall be controlling in all respects. All communications, notices, and Documentation to be furnished hereunder shall be in the English language only.

13.7. Notices. All notices required to be sent hereunder shall be in writing, addressed to receiving party's current business contact, if known, with a cc: to the General Counsel/Legal Department of the receiving party, and sent to the party's address as listed in this Agreement, or as updated by either party by written notice. Notices shall be effective upon receipt and shall be deemed to be received as follows: (i) if personally delivered by courier, when delivered; or (ii) if mailed by first class mail, or the local equivalent, on the fifth business day after posting with the proper address.

13.8. Severability. If any provision of this Agreement is held to be illegal, invalid or unenforceable under the laws of any jurisdiction, the provision will be enforced to the maximum extent permissible so as to effect the intent of the parties, and the remaining provisions of this Agreement will remain in full force and effect.

13.9. Third Party Rights. Other than as expressly set out in this Agreement, this Agreement does not create any rights for any person who is not a party to it and no person who is not a party to this Agreement may enforce any of its terms or rely on any exclusion or limitation contained in it.

13.10. Waiver. The waiver of a breach of any provision of this Agreement shall not constitute a waiver of any other provision or any subsequent breach.

13.11. Equal Opportunity. FireEye is committed to the provisions outlined in the Equal Opportunity Clauses of Executive Order 11246, the Rehabilitation Act of 1973, the Vietnam Era Veterans Readjustment Act of 1974, the Jobs for Veterans Act of 2003, as well as any other regulations pertaining to these orders.

Wherefore, the parties have caused this Master Purchase Agreement to be executed as of the Effective Date.

EXHIBIT A
PRODUCT LICENSE AND SUPPORT TERMS
(FIREEYE NX, EX, AX, PX, FX, HX, SECURITY ORCHESTRATOR™, MVX SMART GRID, AND CENTRAL MANAGEMENT SERIES (CMS) PRODUCTS)

The following terms apply to the FireEye NX, EX, AX, PX, FX, HX, Security Orchestrator, MVX Smart Grid, and Central Management Series (CMS) Products, including any add-on features such as FireEye Advanced Threat Intelligence (ATI).

1. Grant of License and Restrictions. Subject to the terms hereof, payment of all fees, and any applicable user/use limitations, FireEye grants Customer a personal, perpetual, nonsublicensable, nonexclusive, right to use the Product, in accordance with the Agreement and this Exhibit A. Customer will maintain the copyright notice and any other notices that appear on the Product, including any interfaces related to the Product. With respect to the FireEye HX Series Product, Customer may install the "agent" software component of the Product on the number of Nodes stated on the applicable Order. With respect to the FireEye EX Series Product, Customer may use the Product in connection with the number of attached URL engines (i.e., email accounts) ("Attached URL Engines") stated on the applicable Order. FireEye reserves the right to audit Customer's use of the Product to ensure compliance with this Agreement. "Nodes" are endpoint computing devices owned or controlled by Customer (such as laptops, workstations, and servers), on which Customer installs the agent software. Updates, preview features, Content Feeds and/or Support Services are not necessarily provided with the Software, may require additional payment or include additional terms and conditions, and may be provided on a "preview" basis for a limited period at no additional charge but then licensed for an additional fee at a later date. Customer acknowledges that Third Party Software distributed with the Products may be subject to separate license terms, and specifically, if the Oracle™ Java® software is included within the Product, that software is subject to the license found at http://www.oracle.com/technetwork/java/javase/terms/license/index.html.

2. Content Feeds. Subject to Customer's payment in full of all associated fees for the applicable FireEye Content Feed, as set forth on the applicable Order, FireEye shall grant a limited, non-exclusive, personal, non-transferable, non-sublicenseable right to use the Content Feed as set forth in the Documentation for the applicable Product, for Customer's internal business purposes during the active Support Term for the applicable Product. FireEye shall not disclose to any third party any personally identifiable data or Customer Confidential Information in connection with the Content Feed unless expressly authorized to do so by Customer. The Content Feeds available to the Customer with respect to the Products may include:

2.1 FireEye Dynamic Threat Intelligence™ (DTI™) – The DTI Content Feed (currently available only for customers who have purchased the FireEye NX, EX, AX, HX or FX Product) provides continual, updated information to the Product about threats.

2.2. FireEye Advanced Threat Intelligence™ (ATI™) – The ATI Content Feed (currently available only for customers who have purchased the FireEye NX Product) provides contextual information about malware detected in Customer's environment, such as information regarding threat groups associated with certain malware, industry verticals in which FireEye has observed certain threat groups operate and in which certain malware is used, and relative frequency of observation of various threats and malware.

3. Support Services. Subject to Customer's payment in full of all associated fees for FireEye Support Services, FireEye shall provide Support Services for the Products as set forth in Exhibit C, as may be updated by FireEye in its discretion.

EXHIBIT B
SUBSCRIPTION TERMS

EXHIBIT B-1
SUBSCRIPTION TERMS FOR FIREEYE AS A SERVICE (FAAS) – CONTINUOUS PROTECTION

The following terms govern the FireEye as a Service (FaaS) – Continuous Protection (CP) Subscription.

1 Definitions.

1.1 **"Alert"** means, individually and collectively, APT Alerts, High Priority Alerts, and Low Priority Alerts.

1.2 "**APT Alert**" means (a) with respect to Products other than HX, an alert generated by a Product, that is identified by the Product as being associated with a "targeted threat," which means advanced persistent threat (APT) actors or APT activity; (b) with respect to the HX Product, an alert designated by HX as XPLT, EXC, or PRE, that is triggered by a FireEye standard Indicator; and (c) with respect to the TAP Subscription, an "APT Alert" means a TAP Alert designated as an "APT Alert" in the table in Section 1.11 below.

1.3 "**APT Only Service**" means the Subscription level in which FireEye will provide FaaS Reports and monitoring of APT Alert. If Customer purchases the APT Only Service, FireEye will provide FaaS Reports and monitoring of only APT Alerts, and not any other Alerts.

1.4 "**Covered System**" means (i) a computing device (to the extent supported by FireEye) that Customer specifies as within the scope of the CP Subscription, and if the Customer has purchased the HX Product, on which a software agent has been installed to support CP Subscription delivery, or (ii) a computing device (to the extent supported by FireEye) whose network traffic is observable to support CP Subscription delivery; (iii) with respect to ETP Subscriptions, mailboxes monitored to support CP Subscription delivery; or (iv) any computing device that both Customer and FireEye agree is within scope of the CP Subscription.

1.5 "**Full Coverage Service**" means the Subscription level in which FireEye will provide FaaS Reports and monitoring of all Alerts, regardless of the severity level of the Alert as classified by the Product.

1.6 "**High Priority Alert Service**" means the Subscription level in which FireEye will provide FaaS Reports and monitoring of High Priority Alerts and APT Alerts.

1.7 "**FaaS Reports**" means the written reports relating to Alerts that FireEye creates and makes available to Customer through the CP Subscription.

1.8 "**High Priority Alert**" means (a) with respect to Products other than HX and FX, an alert generated by that Product that is classified by that Product as severity level "critical" or "major"; (b) with respect to the FX Product, any alert generated by the FX Product, including APT Alerts; and (c) with respect to a TAP subscription, a TAP Alert designated as a "High Priority Alert" in the table in Section 1.11 below.

1.9 "**Low Priority Alert**" means an alert generated by a Product or TAP Subscription (as applicable) that is not an APT Alert or a High Priority Alert.

1.10 "**Nodes**" or "**Node Band**" refers to number of Covered Systems within the Customer environment, which is reflected on the Subscription Order.

1.11 "**TAP Alert**" means an alert generated by the TAP Subscription, with a severity level assigned by the TAP Subscription (e.g., "Critical," "High," "Medium"). TAP Alerts are investigated and reported on as "APT Alerts" and "High Priority Alerts" as shown in the table below, depending on the TAP Rule Pack that invoked the TAP Alert:

FireEye Rule Pack	APT Alerts	High Priority Alerts
Application Detection		
Cloud Infrastructure		
Commodity Malware		All

Current Events	Critical, High	Critical, High
DTI Rules		All
Exploit Kits		All
FTP		
Industrial Control Systems	Critical, High, Medium	Critical, High, Medium
Intel Match	Critical, High, Medium	Critical, High, Medium
Linux		Critical, High
Malware Methodology		Critical, High
Phishing	Critical High	Critical, High
Point of Sale	All	All
Security Tools		Critical, High, Medium
Targeted Malware	All	All
Vendor – FireEye		
Vulnerability		Critical, High, Medium
Web Application Attacks		Critical, High, Medium
Windows		Critical, High

1.13 "**TAP Rule Packs**" means a predefined set of criteria that identifies suspicious events or threats based on the associated rule type within the TAP Subscription.

2 **Scope of FaaS – Continuous Protection (CP) Subscription**. During the Subscription Term, FireEye will provide the CP Subscription as set forth in this Section 2, according to the Subscription level purchased by Customer as set forth in the Subscription Order. If the Subscription Order does not specify the Subscription lvel purchased, then Customer will be deemed to have purchased the APT Only Service. All services Customer requests that are not described in this Section 2 will be performed at mutually agreed upon rates as set forth in Statements of Work. Unless otherwise specified, the CP Subscription is provided by FireEye personnel remotely accessing Customer's environment from FireEye's networks. The CP Subscription is available for the number of Nodes purchased (available for Customers who have purchased the FireEye NX, FX, or EX Product or the ETP or TAP Subscription). If the number of Nodes exceeds the amount reflected in the Subscription Order by more than ten percent (10%), FireEye will notify Customer in writing, and will issue an invoice for the next higher Node Band at FireEye's then-current rates pro-rated for the remaining portion of the then-current Subscription Term.

2.1 Event Analysis.

(a) Time to Begin Analysis. FireEye will begin analysis of an Alert within the times set forth in the table below, calculated from the time the Alert was generated by the Product or TAP Subscription (as applicable).

(b) Alerts Investigated. FireEye will investigate and report on the Alerts that correspond with the Subscription level the Customer purchased. If the Customer purchased the APT Only Service, FireEye will investigate and report on only APT Alerts. If the Customer purchased the High Priority Alerts Service, FireEye will investigate and report on only High Priority Alerts and APT Alerts. If the Customer purchased the All Alerts Service, FireEye will investigate and report on APT Alerts, High Priority Alerts, and Low Priority Alerts. FireEye has no obligation to investigate and report on Alerts that fall outside the purchased Subscription level.

(c) Initial Investigation. FireEye analysts will perform an initial analysis of the Customer's Covered Systems to determine if the Alert is a true or false positive, benign or suspicious activity.

(d) FaaS Reports. If FireEye's investigation determines that the Alert indicates a true compromise, FireEye will publish a FaaS Report to the FaaS Portal within one (1) hour of the time FireEye makes that determination. Regardless of whether FireEye's investigation determines that an Alert indicates a true compromise, FireEye will publish a FaaS Report on the Alert to the FaaS Portal within the times set forth in the table

below, based on the classification of the Alert (APT Alert, High Priority Alert, Low Priority Alert). Customer acknowledges that in some cases, when FireEye's investigation is not complete, a FaaS Report may provide only an update of current status of the Alert investigation.

Alerts Investigated (Level of Service)			**FaaS Alert Classification**	**Time to Begin Investigation (from time Product or TAP Subscription generates Alert)**	**Time to Publish FaaS Report (from time FireEye validates actual compromise)**	**Time to Publish FaaS Report (when no validation of actual compromise; from time Product or TAP Subscription generates Alert)**
APT Only Service	**High Priority Alerts Service**	**Full Coverage Service**				
Yes	Yes	Yes	APT Alert	1 hours	1 hour	24 hours
No	Yes	Yes	High Priority Alert	7 hours	1 hour	24 hours
No	No	Yes	Low Priority Alert	24 hours	1 hour	48 hours

The service levels noted in the table above will become effective thirty (30) days following the Order Effective Date, to allow time for Customer to install Products and for FireEye to determine the level of staffing needed to respond to Alerts in Customer's environment.

(e) Extended Investigations; Multiple Related Alerts. When FireEye has identified a true positive or suspicious activity, FireEye analysts may perform an extended investigation, and/or may aggregate and review multiple Alerts from related Covered Systems to determine the extent of activity related to the Alert. FireEye analysts may append results from the extended investigation or subsequent Alert investigations to the initial FaaS Report if FireEye determines that additional or subsequent Alerts are related, and in such cases, FireEye will not be required to issue a separate FaaS Report for each such related Alert.

(f) Non-Remediable Alerts. FireEye has no obligation to notify the Customer or generate a new FaaS Report on new Alerts that are directly related to previous investigations where a FaaS Report has been published and FireEye has provided recommended remediation steps, when the Customer has acknowledged the FaaS Report but chooses not to or cannot remediate the cause of these Alerts.

(g) Alert Priority. FireEye may re-prioritize Alerts, regardless of their severity classification, to provide focus to Alerts that FireEye determines may have the largest impact to the Customer's environment.

(h) Continuity of Monitoring. All monitoring, investigation and reporting activities described in this Section 2.1 will be provided on a 24/7/365 basis.

2.2 System Health Monitoring and Notification. For Customers who have purchased the FireEye NX, EX, or FX Product, FireEye will provide Customer with notifications of system health issues such as connectivity problems.

2.3 Containment. When the Customer has purchased the HX Product, FireEye may, when appropriate, recommend containment of the target Covered System from the Customer's network. Containment must be executed by the Customer.

2.4 Portal Access. Alerts and FaaS Reports will be provided via an online portal ("FaaS Portal"), and FireEye will provide login credentials to the Customer to enable access to the FaaS Portal. The FaaS Portal will be available 99.9% of the time in any calendar month, other than Downtime, as defined below, and this FaaS Portal Service Level commitment will be subject to the Service Level Credits set forth in Section 3 below.

2.5 FireEye Intelligence Center. During the Subscription Term, FireEye will provide access to the FireEye Intelligence Center (FIC), which includes the Community Threat Intelligence (CTI) platform, subject to the following:

(a) Permitted Use; Reports. Customer may access, view and use FIC and content appearing on FIC ("FIC Content") solely for internal use. Some features of FIC may allow Customer to generate a report (each, a "FIC Report"). FIC Reports and FIC Content are FireEye IP. Subject to Customer's payment obligations, FireEye grants to Customer a limited, non-exclusive right to produce FIC Reports using FIC, and reproduce and distribute those FIC Reports and FIC Content internally for Customer's own business purposes.

(b) Additional Use Limitations. Customer may appoint up to fifteen (15) users of FIC at any time. Each day, all users on Customer's account may collectively make up to (A) one hundred (100) queries of IP addresses and domain names and (B) one hundred (100) queries of malware. Customer may request additional queries, to be evaluated by FireEye on a case by case basis.

(c) User Content. "User Content" means any communications, images, sounds, and all the material and information that Customer or anyone using Customer's account contributes to or through FIC, including any contributions to or through the CTI platform (e.g., comments to FIC Content, suspected malware that Customer uploads to FIC). Customer hereby grants FireEye a perpetual, irrevocable, worldwide, paid-up, non-exclusive, license, including the right to sublicense to third parties, and right to reproduce, fix, adapt, modify, translate, reformat, create derivative works from, publish, distribute, sell, license, transmit, publicly display, publicly perform, or provide access to electronically, broadcast, display, perform, and use and practice such User Content as well as all modified and derivative works thereof. Customer represents that Customer has all necessary rights to grant the license referenced in the preceding sentence. FireEye may use and disclose any of the information it collects about its customers' use of FIC, including CTI, to the extent such information is de-identified.

(d) Restrictions. Customer may not access FIC by any means other than through the interface that is provided or approved by FireEye. Customer will not collect any information from or through FIC using any automated means, including without limitation any script, spider, "screen scraping," or "database scraping" application, and Customer will not damage, disable, overburden, or impair FIC or interfere with any other party's use and enjoyment of FIC.

(e) Customer acknowledges that some optional features and content appearing on FIC may require payment of additional fees.

2.6 Reseller and Partner Purchases. If Customer receives the Subscription via a FireEye authorized services or support partner (a "Partner"), Customer agrees that the Subscription and FaaS Reports may be delivered to Customer through the Partner. Notwithstanding any other confidentiality obligations between the parties, Customer authorizes FireEye to disclose information related to the Subscription and Customer Data to Partner.

2.7 Customer Networks. The Subscription may only be provided for computer systems and networks leased to or owned by Customer, and under Customer's control, up to the number of Nodes allowed, as set forth in the applicable Subscription Order.

2.8 Connectivity Requirements. Unless otherwise specified, the Subscription are provided by FireEye personnel remotely accessing Customer's environment from FireEye's networks. Customer must provide outbound TCP-based connectivity from all Products to FireEye for the establishment of a virtual private network (VPN). Details pertaining to specific network access requirements will be established in conjunction with installation activities.

2.9 **Credential Security.** Customer will be responsible for the following: (a) providing accurate information to FireEye for provisioning access to (and removal of) Customer personnel access to the FaaS Portal; (b) implementing and adhering to strong password standards; (c) providing accurate information to FireEye for domain whitelisting; and (d) reporting any security issues related to the Subscription (including the FaaS Portal) to FireEye immediately.

2.10 **Exclusions.** Notwithstanding anything else contained in this Agreement to the contrary, FireEye shall have no obligation or responsibility to provide the Subscription for (i) Products for which Customer does not have an active Subscription in place; (ii) Products that the Customer (or FireEye or another third party on Customer's behalf) has configured with a one-way feed of FireEye's Dynamic Threat Intelligence (DTI) Subscription; (iii)

Products with an installed FireEye operating system less than version 6.2; (iv) Products that have been declared end of life; (v) Products that have no active Support Service in place; (vi) Products for which software updates have not been applied; (vii) Products that have not been installed and deployed; or (viii) Products that are misconfigured or incorrectly deployed, which prevents the Products from monitoring the Covered Systems. Customer acknowledges that to facilitate FireEye's efficient performance of the Subscription, FireEye may control some features and functionality of the Products, and that such features or functionality may not be available for Customer's independent use during the Subscription Term.

3. FaaS Portal Availability

3.1 FireEye shall undertake commercially reasonable efforts to ensure the FaaS Portal availability for 99.9% of the time during each calendar month.

3.1.1 "Service Outage" is where the FaaS Portal is not available due to a failure or a disruption in the FaaS Portal that is not the result of Scheduled Maintenance, Emergency Maintenance, a force majeure event or of the act or omission of Customer.

3.1.2 "Scheduled Maintenance Period" is the period during which weekly scheduled maintenance of the FaaS Portal may be performed, or a maintenance window otherwise mutually agreed upon by FireEye and Customer.

3.1.3 "Emergency Maintenance" means any time outside of Scheduled Maintenance that FireEye is required to apply critical patches or fixes or undertake other urgent maintenance. If Emergency Maintenance is required, FireEye will contact Customer and provide the expected time frame of the Emergency Maintenance and availability of the FaaS Portal during the Emergency Maintenance.

3.1.4 "System Availability" means the percentage of total time during which the FaaS Portal shall be available to Customer, excluding the Scheduled Maintenance Period, Emergency Maintenance, force majeure events, or acts or omissions of the Customer that cause system downtime.

3.2. Remedy

3.2.1 In the event that the FaaS Portal does not meet the monthly service availability defined in 3.1, FireEye will provide a credit to the Customer in accordance to the table below ("Credit") for a validated SLA Claim (defined below).

Percent of FaaS Portal Availability per Calendar Month	Service Credit
<99.9%	2%
<99.0%	5%
<98.0%	10%

3.2.2 For determining the Credit, the duration of a Service Outage will be measured as the time starting when Customer experiences a disruption in availability of the FaaS Portal and ending when a successful solution or workaround allowing for full restoration of the FaaS Portal is provided by FireEye to Customer. Customer must notify FireEye in writing of any Service Outage no later than fifteen (15) days after the calendar month in which the Service Outage occurred ("SLA Claim") to be entitled to a Credit for that Service Outage.

3.2.3 Any Credits earned by Customer hereunder will be applied to the Subscription Fees owed by Customer for the next Subscription Term for which the Credit applies. If Credits cannot be applied to future Subscription Fees because the Subscription Term has terminated for non-renewal or for a material uncured breach by Customer, such credits shall become null and void. If Credits cannot be applied to future Subscription Fees because the Subscription Term has terminated due to a material uncured breach by FireEye, FireEye will promptly pay Customer the amount of the Credit.

3.2.4 Customer shall not be entitled to receive a Credit that exceeds 10% of its prorated monthly Subscription Fee for a Service Outage for the applicable calendar month.

EXHIBIT B-2
SUBSCRIPTION TERMS FOR FIREEYE AS A SERVICE (FAAS) – CONTINUOUS VIGILANCE

The following terms govern the FireEye as a Service (FaaS) – Continuous Vigilance (CV) Subscription.

3 Definitions.

3.1 **"Alert"** means, individually and collectively, APT Alerts, High Priority Alerts, and Low Priority Alerts.

3.2 "**APT Alert**" means (a) with respect to Products other than HX, an alert generated by a Product, that is identified by the Product as being associated with a "targeted threat," which means advanced persistent threat (APT) actors or APT activity; (b) with respect to the HX Product, an alert designated by HX as XPLT, EXC, or PRE, that is triggered by a FireEye standard Indicator; and (c) with respect to the TAP Subscription, an "APT Alert" means a TAP Alert designated as an "APT Alert" in the table in Section 1.11 below.

3.3 "**APT Only Service**" means the Subscription level in which FireEye will provide FaaS Reports and monitoring of APT Alert. If Customer purchases the APT Only Service, FireEye will provide FaaS Reports and monitoring of only APT Alerts, and not any other Alerts.

3.4 "**Covered System**" means (i) a computing device (to the extent supported by FireEye) that Customer specifies as within the scope of the CV Subscription, and if the Customer has purchased the HX Product, on which a software agent has been installed to support CV Subscription delivery, or (ii) a computing device (to the extent supported by FireEye) whose network traffic is observable to support CV Subscription delivery; (iii) with respect to ETP Subscriptions, mailboxes monitored to support CV Subscription delivery; or (iv) any computing device that both Customer and FireEye agree is within scope of the CV Subscription.

3.5 "**Full Coverage Service**" means the Subscription level in which FireEye will provide FaaS Reports and monitoring of all Alerts, regardless of the severity level of the Alert as classified by the Product.

3.6 "**High Priority Alert Service**" means the Subscription level in which FireEye will provide FaaS Reports and monitoring of High Priority Alerts and APT Alerts.

3.7 "**FaaS Reports**" means the written reports relating to Alerts that FireEye creates and makes available to Customer through the CV Subscription.

3.8 "**High Priority Alert**" means (a) with respect to Products other than HX and FX, an alert generated by that Product that is classified by that Product as severity level "critical" or "major"; (b) with respect to the FX Product, any alert generated by the FX Product, including APT Alerts; and (c) with respect to a TAP subscription, a TAP Alert designated as a "High Priority Alert" in the table in Section 1.11 below.

3.9 "**Low Priority Alert**" means an alert generated by a Product or TAP Subscription (as applicable) that is not an APT Alert or a High Priority Alert.

3.10 "**Nodes**" or "**Node Band**" refers to number of Covered Systems within the Customer environment, which is reflected on the Subscription Order.

3.11 "**TAP Alert**" means an alert generated by the TAP Subscription, with a severity level assigned by the TAP Subscription (e.g., "Critical," "High," "Medium"). TAP Alerts are investigated and reported on as "APT Alerts" and "High Priority Alerts" as shown in the table below, depending on the TAP Rule Pack that invoked the TAP Alert:

FireEye Rule Pack	APT Alerts	High Priority Alerts
Application Detection		
Cloud Infrastructure		
Commodity Malware		All

Current Events	Critical, High	Critical, High
DTI Rules		All
Exploit Kits		All
FTP		
Industrial Control Systems	Critical, High, Medium	Critical, High, Medium
Intel Match	Critical, High, Medium	Critical, High, Medium
Linux		Critical, High
Malware Methodology		Critical, High
Phishing	Critical High	Critical, High
Point of Sale	All	All
Security Tools		Critical, High, Medium
Targeted Malware	All	All
Vendor – FireEye		
Vulnerability		Critical, High, Medium
Web Application Attacks		Critical, High, Medium
Windows		Critical, High

1.13 "**TAP Rule Packs**" means a predefined set of criteria that identifies suspicious events or threats based on the associated rule type within the TAP Subscription.

2 **Scope of FaaS – Continuous Vigilance (CV) Subscription**. During the Subscription Term, FireEye will provide the CV Subscription as set forth in this Section 2, according to the Subscription level purchased by Customer as set forth in the Subscription Order. If the Subscription Order does not specify the Subscription lvel purchased, then Customer will be deemed to have purchased the APT Only Service. All services Customer requests that are not described in this Section 2 will be performed at mutually agreed upon rates as set forth in Statements of Work. Unless otherwise specified, the CV Subscription is provided by FireEye personnel remotely accessing Customer's environment from FireEye's networks. The CV Subscription is available for the number of Nodes purchased (available for Customers who have purchased the FireEye NX, FX, or EX Product or the ETP or TAP Subscription). If the number of Nodes exceeds the amount reflected in the Subscription Order by more than ten percent (10%), FireEye will notify Customer in writing, and will issue an invoice for the next higher Node Band at FireEye's then-current rates pro-rated for the remaining portion of the then-current Subscription Term.

2.1 Event Analysis.

(e) Time to Begin Analysis. FireEye will begin analysis of an Alert within the times set forth in the table below, calculated from the time the Alert was generated by the Product or TAP Subscription (as applicable).

(f) Alerts Investigated. FireEye will investigate and report on the Alerts that correspond with the Subscription level the Customer purchased. If the Customer purchased the APT Only Service, FireEye will investigate and report on only APT Alerts. If the Customer purchased the High Priority Alerts Service, FireEye will investigate and report on only High Priority Alerts and APT Alerts. If the Customer purchased the All Alerts Service, FireEye will investigate and report on APT Alerts, High Priority Alerts, and Low Priority Alerts. FireEye has no obligation to investigate and report on Alerts that fall outside the purchased Subscription level.

(g) Initial Investigation. FireEye analysts will perform an initial analysis of the Customer's Covered Systems to determine if the Alert is a true or false positive, benign or suspicious activity.

(h) FaaS Reports. If FireEye's investigation determines that the Alert indicates a true compromise, FireEye will publish a FaaS Report to the FaaS Portal within one (1) hour of the time FireEye makes that determination. Regardless of whether FireEye's investigation determines that an Alert indicates a true compromise, FireEye will publish a FaaS Report on the Alert to the FaaS Portal within the times set forth in the table

below, based on the classification of the Alert (APT Alert, High Priority Alert, Low Priority Alert). Customer acknowledges that in some cases, when FireEye's investigation is not complete, a FaaS Report may provide only an update of current status of the Alert investigation.

Alerts Investigated (Level of Service)			**FaaS Alert Classification**	**Time to Begin Investigation (from time Product or TAP Subscription generates Alert)**	**Time to Publish FaaS Report (from time FireEye validates actual compromise)**	**Time to Publish FaaS Report (when no validation of actual compromise; from time Product or TAP Subscription generates Alert)**
APT Only Service	**High Priority Alerts Service**	**Full Coverage Service**				
Yes	Yes	Yes	APT Alert	1 hours	1 hour	24 hours
No	Yes	Yes	High Priority Alert	7 hours	1 hour	24 hours
No	No	Yes	Low Priority Alert	24 hours	1 hour	48 hours

The service levels noted in the table above will become effective thirty (30) days following the Order Effective Date, to allow time for Customer to install Products and for FireEye to determine the level of staffing needed to respond to Alerts in Customer's environment.

(e) Extended Investigations; Multiple Related Alerts. When FireEye has identified a true positive or suspicious activity, FireEye analysts may perform an extended investigation, and/or may aggregate and review multiple Alerts from related Covered Systems to determine the extent of activity related to the Alert. FireEye analysts may append results from the extended investigation or subsequent Alert investigations to the initial FaaS Report if FireEye determines that additional or subsequent Alerts are related, and in such cases, FireEye will not be required to issue a separate FaaS Report for each such related Alert.

(f) Non-Remediable Alerts. FireEye has no obligation to notify the Customer or generate a new FaaS Report on new Alerts that are directly related to previous investigations where a FaaS Report has been published and FireEye has provided recommended remediation steps, when the Customer has acknowledged the FaaS Report but chooses not to or cannot remediate the cause of these Alerts.

(g) Alert Priority. FireEye may re-prioritize Alerts, regardless of their severity classification, to provide focus to Alerts that FireEye determines may have the largest impact to the Customer's environment.

(h) Hunting. FireEye will conduct periodic proactive hunting techniques on Covered Systems to look for additional indicators of malicious or attacker activity. When FireEye's investigation reveals a compromise, then within one (1) hour of the time FireEye makes that determination, FireEye will publish a FaaS Report related to that activity to the FaaS Portal.

(i) Continuity of Monitoring. All monitoring, investigation and reporting activities described in this Section 2.1 will be provided on a 24/7/365 basis.

2.2 System Health Monitoring and Notification. For Customers who have purchased the FireEye NX, EX, or FX Product, FireEye will provide Customer with notifications of system health issues such as connectivity problems.

2.3 Containment. When the Customer has purchased the HX Product, FireEye may, when appropriate, recommend containment of the target Covered System from the Customer's network. Containment must be executed by the Customer.

2.4 Portal Access. Alerts and FaaS Reports will be provided via an online portal ("FaaS Portal"), and FireEye will provide login credentials to the Customer to enable access to the FaaS Portal. The FaaS Portal will be

available 99.9% of the time in any calendar month, other than Downtime, as defined below, and this FaaS Portal Service Level commitment will be subject to the Service Level Credits set forth in Section 3 below.

2.5 FireEye Intelligence Center. During the Subscription Term, FireEye will provide access to the FireEye Intelligence Center (FIC), which includes the Community Threat Intelligence (CTI) platform, subject to the following:

(f) Permitted Use; Reports. Customer may access, view and use FIC and content appearing on FIC ("FIC Content") solely for internal use. Some features of FIC may allow Customer to generate a report (each, a "FIC Report"). FIC Reports and FIC Content are FireEye IP. Subject to Customer's payment obligations, FireEye grants to Customer a limited, non-exclusive right to produce FIC Reports using FIC, and reproduce and distribute those FIC Reports and FIC Content internally for Customer's own business purposes.

(g) Additional Use Limitations. Customer may appoint up to fifteen (15) users of FIC at any time. Each day, all users on Customer's account may collectively make up to (A) one hundred (100) queries of IP addresses and domain names and (B) one hundred (100) queries of malware. Customer may request additional queries, to be evaluated by FireEye on a case by case basis.

(h) User Content. "User Content" means any communications, images, sounds, and all the material and information that Customer or anyone using Customer's account contributes to or through FIC, including any contributions to or through the CTI platform (e.g., comments to FIC Content, suspected malware that Customer uploads to FIC). Customer hereby grants FireEye a perpetual, irrevocable, worldwide, paid-up, non-exclusive, license, including the right to sublicense to third parties, and right to reproduce, fix, adapt, modify, translate, reformat, create derivative works from, publish, distribute, sell, license, transmit, publicly display, publicly perform, or provide access to electronically, broadcast, display, perform, and use and practice such User Content as well as all modified and derivative works thereof. Customer represents that Customer has all necessary rights to grant the license referenced in the preceding sentence. FireEye may use and disclose any of the information it collects about its customers' use of FIC, including CTI, to the extent such information is de-identified.

(i) Restrictions. Customer may not access FIC by any means other than through the interface that is provided or approved by FireEye. Customer will not collect any information from or through FIC using any automated means, including without limitation any script, spider, "screen scraping," or "database scraping" application, and Customer will not damage, disable, overburden, or impair FIC or interfere with any other party's use and enjoyment of FIC.

(j) Customer acknowledges that some optional features and content appearing on FIC may require payment of additional fees.

2.6 Reseller and Partner Purchases. If Customer receives the Subscription via a FireEye authorized services or support partner (a "Partner"), Customer agrees that the Subscription and FaaS Reports may be delivered to Customer through the Partner. Notwithstanding any other confidentiality obligations between the parties, Customer authorizes FireEye to disclose information related to the Subscription and Customer Data to Partner.

2.7 Customer Networks. The Subscription may only be provided for computer systems and networks leased to or owned by Customer, and under Customer's control, up to the number of Nodes allowed, as set forth in the applicable Subscription Order.

2.8 Connectivity Requirements. Unless otherwise specified, the Subscription are provided by FireEye personnel remotely accessing Customer's environment from FireEye's networks. Customer must provide outbound TCV-based connectivity from all Products to FireEye for the establishment of a virtual private network (VPN). Details pertaining to specific network access requirements will be established in conjunction with installation activities.

2.9 **Credential Security.** Customer will be responsible for the following: (a) providing accurate information to FireEye for provisioning access to (and removal of) Customer personnel access to the FaaS Portal; (b) implementing and adhering to strong password standards; (c) providing accurate information to FireEye for domain whitelisting; and (d) reporting any security issues related to the Subscription (including the FaaS Portal) to FireEye immediately.

2.10 **Exclusions.** Notwithstanding anything else contained in this Agreement to the contrary, FireEye shall have no obligation or responsibility to provide the Subscription for (i) Products for which Customer does not have an active Subscription in place; (ii) Products that the Customer (or FireEye or another third party on Customer's behalf) has configured with a one-way feed of FireEye's Dynamic Threat Intelligence (DTI) Subscription; (iii) Products with an installed FireEye operating system less than version 6.2; (iv) Products that have been declared end of life; (v) Products that have no active Support Service in place; (vi) Products for which software updates have not been applied; (vii) Products that have not been installed and deployed; or (viii) Products that are misconfigured or incorrectly deployed, which prevents the Products from monitoring the Covered Systems. Customer acknowledges that to facilitate FireEye's efficient performance of the Subscription, FireEye may control some features and functionality of the Products, and that such features or functionality may not be available for Customer's independent use during the Subscription Term.

3. FaaS Portal Availability

3.1 FireEye shall undertake commercially reasonable efforts to ensure the FaaS Portal availability for 99.9% of the time during each calendar month.

3.1.1 "Service Outage" is where the FaaS Portal is not available due to a failure or a disruption in the FaaS Portal that is not the result of Scheduled Maintenance, Emergency Maintenance, a force majeure event or of the act or omission of Customer.

3.1.2 "Scheduled Maintenance Period" is the period during which weekly scheduled maintenance of the FaaS Portal may be performed, or a maintenance window otherwise mutually agreed upon by FireEye and Customer.

3.1.3 "Emergency Maintenance" means any time outside of Scheduled Maintenance that FireEye is required to apply critical patches or fixes or undertake other urgent maintenance. If Emergency Maintenance is required, FireEye will contact Customer and provide the expected time frame of the Emergency Maintenance and availability of the FaaS Portal during the Emergency Maintenance.

3.1.4 "System Availability" means the percentage of total time during which the FaaS Portal shall be available to Customer, excluding the Scheduled Maintenance Period, Emergency Maintenance, force majeure events, or acts or omissions of the Customer that cause system downtime.

3.2. Remedy

3.2.1 In the event that the FaaS Portal does not meet the monthly service availability defined in 3.1, FireEye will provide a credit to the Customer in accordance to the table below ("Credit") for a validated SLA Claim (defined below).

Percent of FaaS Portal Availability per Calendar Month	Service Credit
<99.9%	2%
<99.0%	5%
<98.0%	10%

3.2.2 For determining the Credit, the duration of a Service Outage will be measured as the time starting when Customer experiences a disruption in availability of the FaaS Portal and ending when a successful solution or workaround allowing for full restoration of the FaaS Portal is provided by FireEye to Customer. Customer must notify FireEye in writing of any Service Outage no later than fifteen (15) days after the calendar month in which the Service Outage occurred ("SLA Claim") to be entitled to a Credit for that Service Outage.

3.2.3 Any Credits earned by Customer hereunder will be applied to the Subscription Fees owed by Customer for the next Subscription Term for which the Credit applies. If Credits cannot be applied to future Subscription Fees because the Subscription Term has terminated for non-renewal or for a material uncured breach by Customer, such credits shall become null and void. If Credits cannot be applied to future Subscription Fees because the Subscription Term has terminated due to a material uncured breach by FireEye, FireEye will promptly pay Customer the amount of the Credit.

3.2.4 Customer shall not be entitled to receive a Credit that exceeds 10% of its prorated monthly Subscription Fee for a Service Outage for the applicable calendar month.

EXHIBIT B-3
SUBSCRIPTION TERMS FOR FIREEYE THREAT ANALYTICS PLATFORM (TAP)

The following terms govern the Threat Analytics Platform Subscription, including purchase and support of TAP Cloud Collector™ Appliances and Support.

1. TAP Software, Alerts

1.1.1 TAP Software and Hardware. As part of the TAP Subscription, FireEye may deliver to Customer one or more software files (individually and collectively, "TAP Software"), and/or one or more "Cloud Collector" hardware appliances ("Cloud Collector Appliances"), which may contain TAP Software. Subject to full payment of all Fees associated with the TAP Subscription, FireEye grants to Customer a non-exclusive, limited right and license to install and run the TAP Software during the Subscription Term solely for purposes of using the TAP Subscription in accordance with the Documentation for the TAP Subscription.

1.1.2 Access; Customer Logs. FireEye will provide Customer with credentials to enable access to the TAP Subscription. Using the TAP Software, and subject to payment of Fees for the TAP Subscription and any Cloud Collector Appliances, Customer may upload Customer Logs to the TAP portal ("TAP Portal"). "Customer Logs" means any communications, logs and other content and information that Customer or anyone using Customer's account contributes to or through the TAP Portal. Customer grants to FireEye a perpetual, irrevocable, worldwide, paid-up, non-exclusive license and right to reproduce, modify, create derivative works from, publish, distribute, sell, sub-license, transmit, publicly display and provide access to Customer Logs, for purposes of enhancing FireEye's products and services, so long as (i) FireEye ensures that any Customer Confidential Information is removed from Customer Logs, and (ii) FireEye's use of Customer Logs does not in any way identify Customer or its employees or in any other way allow a third party to identify Customer as the source of the Customer Logs. Customer Logs are Customer's property, and other than the licenses granted in herein, FireEye does not obtain any ownership rights in Customer Logs.

1.1.3 TAP Alerts. Some features of the TAP Subscription may generate alerts of suspected malicious activity (each, a "TAP Alert"). TAP Alerts are FireEye Materials. FireEye hereby grants to Customer a limited, non-exclusive right to use TAP Alerts, and reproduce and distribute those TAP Alerts internally for Customer's own business purposes.

1.1.4 Cloud Collector Management. If Customer has installed Cloud Collectors in connection with the TAP Subscription, then FireEye will continuously monitor the Customer's Cloud Collector Appliances or Cloud Collector TAP Software for system health issues such as monitoring to ensure proper throughput and relay of data.

1.1.5 Cloud Collector Appliances. If the Customer has purchased Cloud Collector Appliances, then during the TAP Subscription Term, FireEye will replace any defective Cloud Collector Appliances as follows:

a) Prior to any return, Customer shall verify that the Cloud Collector Appliance at issue is defective by logging a Support request via one of the mechanisms provided in the Documentation and in accordance with FireEye's RMA procedures, including providing the part number, serial number, quantity and reason for return, an explanation of all failure symptoms and other relevant information.

b) Upon confirmation by FireEye of a defect, Customer shall obtain from FireEye an RMA number. FireEye shall ship via a recognized express courier service a replacement Cloud Collector Appliance to Customer to arrive no later than next business day after FireEye's issuance of an RMA number, provided the RMA number was issued prior to the business day cutoff time local to the defective Cloud Collector Appliance, provided the replacement does not require any custom pre-configuration, and provided no external-to-FireEye circumstances prevent the delivery. The replacement Cloud Collector Appliance may be a new or reconditioned Cloud Collector Appliance (of equivalent or better quality) at FireEye's sole discretion.

c) FireEye shall pay the shipping costs to ship the replacement Cloud Collector Appliance to Customer, but Customer shall bear any and all risk of loss of or damage to said Cloud Collector Appliance at all times after said Cloud Collector Appliance is made available by FireEye to the common carrier.

d) Within five (5) business days after Customer receives the replacement Cloud Collector Appliance from FireEye, Customer shall package the defective Cloud Collector Appliance in its original packing material or equivalent, write the RMA number on the outside of the package and return the defective Cloud Collector Appliance, at FireEye's cost (provided Customer utilizes FireEye's designated courier service and properly packages the defective Cloud Collector Appliance according to FireEye's instructions), shipped properly insured, FOB FireEye's designated facility. Customer shall enclose with the returned Cloud Collector Appliance the applicable RMA form, and any other documentation or information requested by FireEye customer support. Customer shall assume any and all risk of loss of or damage to such Cloud Collector Appliance during shipping. Title to the defective Cloud Collector Appliance shall pass to FireEye upon FireEye's receipt thereof.

e) When a replacement Cloud Collector Appliance is provided and Customer fails to return the defective Cloud Collector Appliance to FireEye within ten (10) business days after Customer receives the replacement Cloud Collector Appliance from FireEye, FireEye may charge Customer, and Customer shall pay for the replacement Cloud Collector Appliance at the then-current list price.

2. Event Volume; True-Up

2.1.1 Fees for the TAP Subscription are divided into "Tiers" based on the volume of events processed through the TAP Subscription per second ("Event Volume"). If at any point during the Subscription Term, Customer's Event Volume exceeds the Tier upon which Customer's TAP Subscription Fees were based, FireEye will not guarantee that Customer Logs in excess of the purchased Tier will be ingested and processed by the TAP Subscription. In times of Event Volume in excess of the paid Tier, Customer Logs will enter a queue. Excessive queueing may cause Customer Logs to be lost from the queue. If at any point during the Subscription Term, Customer's average Event Volume for any consecutive thirty-day period exceeds the Tier upon which Customer's TAP Subscription Fees were based, FireEye may issue a true-up invoice for the pro-rated difference between the Fees already paid for that Subscription Term and FireEye's list prices for the Fees for the Tier associated with Customer's actual Event Volume for that thirty-day period, pro-rated to reflect that thirty-day period and the remainder of the Subscription Term. FireEye will apply any discounts that were applied to initial Fees to FireEye's list prices for any true-up invoice. Until such time that the True Up invoice is paid in full, the TAP Subscription will continue to ingest and process only the Event Volume of the purchased Tier, allowing any excess Customer Logs to enter queueing conditions. The Tier for any Renewal Subscription Term will be the Tier associated with the actual Event Volume for the immediately preceding Subscription Term.

2.1.2 At the end of the Initial Subscription Term and each Renewal Subscription Term, FireEye may true-up Fees for that Subscription Term, and if the average monthly Event Volume for that Subscription Term exceeds the maximum Event Volume for the Tier for which Customer previously paid Fees, then (a) FireEye will issue a true-up invoice reflecting the difference between the Fees already paid for that Subscription Term and the Fees for the Tier associated with Customer's actual Event Volume.

3. TAP Portal Availability

3.1 FireEye shall undertake commercially reasonable efforts to ensure the TAP Portal availability for 99.9% of the time during each calendar month.

3.1.1 "Service Outage" is where the TAP Portal is not available due to a failure or a disruption in TAP Portal that is not the result of Scheduled Maintenance, Emergency Maintenance, a force majeure event or of the act or omission of Customer.

3.1.2 "Scheduled Maintenance Period" is the period during which weekly scheduled maintenance of the TAP Portal may be performed, or a maintenance window otherwise mutually agreed upon by FireEye and Customer.

3.1.3 "Emergency Maintenance" means any time outside of Scheduled Maintenance that FireEye is required to apply critical patches or fixes or undertake other urgent maintenance. If Emergency Maintenance is required, FireEye will contact Customer and provide the expected time frame of the Emergency Maintenance and availability of the TAP Portal during the Emergency Maintenance.

3.1.4 "System Availability" means the percentage of total time during which the TAP Portal shall be available to Customer, excluding the Scheduled Maintenance Period, Emergency Maintenance, force majeure events, or acts or omissions of the Customer that cause system downtime.

3.2. Remedy

3.2.1 In the event that the TAP Portal does not meet the monthly service availability defined in 6.1, FireEye will provide a credit to the Customer in accordance to the table below ("Credit") for a validated SLA Claim (defined below).

Percent of TAP Portal Availability per Calendar Month	Service Credit
<99.9%	2%
<99.0%	5%
<98.0%	10%

3.2.2 For determining the Credit, the duration of a Service Outage will be measured as the time starting when Customer experiences unavailability of the TAP Portal and ending when a successful solution or workaround allowing for full restoration of the TAP Portal is provided by FireEye to Customer. Customer must notify FireEye in writing of any Service Outage no later than fifteen (15) days after the date the Service Outage occurred ("SLA Claim") to be entitled to a Credit for that Service Outage.

3.2.3 Any Credits earned by Customer hereunder will be applied to the Subscription Fees owed by Customer for the next Subscription Term for which the Credit applies. If Credits cannot be applied to future Subscription Fees because the Subscription Term has terminated for non-renewal or for a material uncured breach by Customer, such credits shall become null and void. If Credits cannot be applied to future Subscription Fees because the Subscription Term has terminated due to a material uncured breach by FireEye, FireEye will promptly pay Customer the amount of the Credit.

3.2.4 Customer shall not be entitled to receive a Credit that exceeds 10% of its prorated monthly Subscription Fee for a Service Outage for the applicable calendar month.

4. FireEye Intelligence Center™ (FIC™), Community Threat Intelligence™ (CTI™). During the Subscription Term, FireEye will provide access to the FireEye Intelligence Center (FIC), which includes the Community Threat Intelligence (CTI) platform, subject to the following:

i. Permitted Use; Reports. Customer may view and use FIC and content appearing on FIC ("FIC Content") solely for internal use. Some features of FIC may allow Customer to generate a report (each, a "FIC Report"). FIC Reports and FIC Content are FireEye Materials. Subject to Customer's payment obligations, FireEye grants to Customer a limited, non-exclusive right to produce FIC Reports and FIC Content using FIC, and reproduce and distribute those FIC Reports and FIC Content internally for Customer's own business purposes.

ii. Additional Use Limitations. Customer may appoint up to fifteen (15) users of FIC at any time. Each day, all users on Customer's account may collectively make up to (A) one hundred (100)queries of IP addresses and domain names, and (ii) one hundred (100) queries of malware. Customer may request additional queries, to be evaluated by FireEye on a case by case basis.

iii. User Content. "User Content" means any communications, images, sounds, and all the material and information that Customer or anyone using Customer's account contributes to or through FIC including any contributions to or through the CTI platform (e.g., comments to FIC Content, suspected malware that Customer uploads to FIC). Customer hereby grants FireEye a perpetual, irrevocable, worldwide, paid-up, non-exclusive, license, including the right to sublicense to third parties, and right to reproduce, fix, adapt, modify, translate, reformat, create derivative works from, publish, distribute, sell, license, transmit, publicly display, publicly perform, or provide access to electronically, broadcast, display, perform, and use and practice such User Content as well as all modified and derivative works thereof. Customer represents that Customer has all necessary rights to grant the license referenced in the preceding sentence. FireEye may use and disclose any of the information it collects about its customers' use of FIC, including the CTI platform, to the extent such information is de-identified.

iv. Restrictions. Customer may not access FIC by any means other than through the interface that is provided or approved by FireEye. Customer will not collect any information from or through FIC using any automated means, including without limitation any script, spider, "screen scraping," or "database scraping" application, and Customer will not damage, disable, overburden, or impair FIC or interfere with any other party's use and enjoyment of FIC.

v. Customer acknowledges that some optional features and content appearing on FIC may require payment of additional fees.

EXHIBIT B-4
SUBSCRIPTION TERMS FOR FIREEYE EMAIL THREAT PREVENTION (ETP) and MOBILE THREAT PREVENTION (MTP)

The following terms govern the Email Threat Prevention Subscription and Mobile Threat Prevention Subscription.

1. Definitions.

"Cloud Subscription" means the online, web-based applications and platform which is made accessible to Customer by FireEye via a designated website, which includes the associated offline Software components to be used in connection with FireEye Mobile Threat Prevention and/or FireEye Email Threat Prevention. FireEye Mobile Threat Prevention ("MTP") and FireEye Email Threat Prevention ("ETP") are separate Cloud Subscriptions and usage is conditional on what the Customer has indicated on an Order.

"Customer Data" means data, information, applications, and any other items originated by Customer that Customer submits to the Cloud Subscription.

"Customer Representatives" means any employee or contractor of Customer or Mobile Device Manager to whom Customer provides access to the Cloud Subscriptions (or any component thereof, including Software) for use on behalf of and for the benefit of the Customer and for Customer's internal business purposes, subject to all the terms and conditions of this Agreement.

"Licensed Device" means (i) with respect to MTP, the registered devices that Customer may have at any time that are registered to the Cloud Subscription; which maximum number shall be based on the subscription fees paid by Customer and identified on the relevant purchase order from Customer as approved and invoiced by FireEye; and (ii) with respect to ETP, the number of email inboxes Customer may have at any time that are registered to the Cloud Subscription; which maximum number shall be based on the subscription fees paid by Customer and identified on the relevant purchase order from Customer as approved and invoiced by FireEye. For the avoidance of doubt, with respect to MTP, "registered devices" are those devices which have loaded device Software and which have been registered to the Cloud Subscription and which have not been retired (meaning unregistered).

"Mobile Device Manager" shall mean a third party who has been engaged by the Customer to provide security services for Licensed Devices for the benefit of Customer. Where indicated as such, the Mobile Device Manager shall be a subset of the definition of the Customer Representatives solely as applicable to MTP.

"Software" means the object code version of FireEye's proprietary computer programs delivered to Customer hereunder for use in connection with the Cloud Subscriptions, including collectively and individually the device-side software used on devices registered to the Cloud Subscription ("Device Software") and any connector software and/or any other server-side software (collectively the "Premise Software") , each which are delivered to Customer hereunder for use in connection with the Cloud Subscriptions, and any Documentation, backup copies and updates, upgrades, maintenance releases, bug fixes to any of the forgoing provided to Customer hereunder.

2. Right of Access and Use. During the Subscription Term, and subject to the terms of this Agreement, FireEye grants to Customer a non-exclusive right to (a) permit those Customer Representatives authorized by Customer to access and use the Cloud Subscriptions on Customer's behalf in compliance with the terms of this Agreement, and (b) to install, copy and use Premise Software in connection with Cloud Subscriptions in accordance with the Agreement and this Exhibit, but solely on systems and hardware owned or controlled or otherwise managed by Customer on behalf of and for the benefit of Customer, (c) to install, copy and use Device Software in connection with Cloud Subscriptions in accordance with the Documentation, but solely on devices used by Customer Representatives on behalf of and for the benefit of Customer. Notwithstanding anything else herein, the number of devices Customer and/or Customer Representatives may register to the Cloud Subscriptions may not exceed the number of Licensed Devices.

Notwithstanding anything to the contrary herein, if Customer is using the Cloud Subscriptions for evaluation purposes then such Customer usage is solely for internal testing and evaluation and the Subscription Term shall not exceed fifteen (15) days unless otherwise mutually agreed upon in a signed Evaluation License Agreement.

3. Restrictions. Except as otherwise expressly permitted under this Agreement, Customer agrees that it shall not, nor shall it permit any third party to, (a) use the Cloud Subscriptions (or any portion thereof) in excess of or beyond the Subscription Term, the Licensed Device quantity, and/or other restrictions/limitations described in this Agreement; use the Cloud Subscriptions to store or transmit infringing, libelous, or otherwise unlawful or tortious material, or to store or transmit material in violation of third-party privacy or other rights; (d) interfere with or disrupt the integrity or performance of the Cloud Subscriptions or third-party data contained therein; (e) use the Software on equipment or devices which are not specified in the Documentation; (f) Cloud Subscription specific to ETP Cloud Subscriptions, Customer shall route email through a commercially available secure email gateway for anti-spam scanning prior to relay through the FireEye network. No rights or licenses are granted other than as expressly and unambiguously set forth herein. Customer access and usage for the Cloud Subscriptions is limited to the MTP or ETP Subscription that has been paid or are being evaluated by the Customer.

4. Updates, Malware Detection Content and Support Services. Updates and malware detection content and/or support services are not necessarily provided with the Software or Subscriptions, and may require additional payment or include additional terms and conditions. However, to the extent that an update to the Software and/or malware detection content is provided, such update/content shall be deemed "Software" provided subject to this Agreement. If malware detection content/support services are provided, FireEye reserves the right to change the scope or duration of such services at anytime, and to access, freely use and distribute data collected from Customer through such services. If such services are made available, Customer may be required to pay fees or other charges for use or access to some or all such services, which fees and terms will be specified in the invoice or order form for such service.

5. Device Count Increases; Reporting; Invoice. If the number of devices that Customer or Customer Representatives have registered to the Cloud Subscription ("Actual Device Count") exceeds Customer's then current Licensed Device count or if Customer wishes to increase the Licensed Device count, then Customer shall notify FireEye (or the applicable FireEye Partner) and submit an Order for the incremental Subscription Fees due, and upon receipt of such Order, the Licensed Device count shall be amended to reflect this change. Upon written request, Customer will provide FireEye a report identifying (i) the Actual Devices; (ii) the copies of and location of the Premise Software maintained; and (iii) any other information reasonably requested by FireEye at the time as it relates to the use of the Cloud Subscription to determine compliance with the terms of this Agreement. FireEye and/or its Authorized Resellers may invoice Customer if it learns of any shortfalls, i.e. that the Licensed Device Count is below the Actual Device count. The fees charged to Customer for increases in License Device counts will be based on the then-current Subscription Term pricing.

6. Cloud Subscription Availability

6.1 FireEye shall undertake commercially reasonable efforts to ensure the Cloud Subscription availability for 99.9% of the time during each calendar month.

6.1.1 "Service Outage" is where the Customer is not receiving Cloud Subscription due to a failure or a disruption in the Cloud Subscriptions and is not the result of Scheduled Maintenance, Emergency Maintenance, a force majeure event or of the act or omission of Customer.

6.1.2 "Scheduled Maintenance Period" is the period during which weekly scheduled maintenance of the Cloud Subscriptions may be performed, or a maintenance window otherwise mutually agreed upon by FireEye and Customer.

6.1.3 "Emergency Maintenance" means any time outside of Scheduled Maintenance that FireEye is required to apply critical patches or fixes or undertake other urgent maintenance. If Emergency Maintenance is required, FireEye will contact Customer and provide the expected time frame of the Emergency Maintenance and availability of the Cloud Subscriptions during the Emergency Maintenance.

6.1.4 "System Availability" means the percentage of total time during which the Cloud Subscriptions shall be available to Customer, excluding the Scheduled Maintenance Period, Emergency Maintenance, force majeure events, or acts or omissions of the Customer that cause system downtime.

6.2. Remedy

6.2.1 In the event that the Cloud Subscription does not meet the monthly service availability defined in 6.1, FireEye will provide a credit to the Customer in accordance to the table below ("Credit") for a validated SLA Claim (defined below).

Percent of System Availability per Calendar Month	Service Credit
<99.9%	25%
<99.0%	50%
<98.0%	100%

6.2.2 For determining the Credit, the duration of a Service Outage will be measured as the time starting when there is a disruption in Cloud Subscription and ending when a successful solution or workaround allowing for full restoration of the Cloud Subscriptions is provided by FireEye to Customer. Customer must notify FireEye in writing of any Service Outage no later than fifteen (15) days after the date the Service Outage occurred ("SLA Claim") to be entitled to a Credit for that Service Outage.

6.2.3 Any Credits earned by Customer hereunder will be applied to the Subscription Fees owed by Customer for the next Subscription Term for which the Credit applies. If Credits cannot be applied to future Subscription Fees because the Subscription Term has terminated for non-renewal or for a material uncured breach by Customer, such credits shall become null and void. If Credits cannot be applied to future Subscription Fees because the Subscription Term has terminated due to a material uncured breach by FireEye, FireEye will promptly pay Customer the amount of the Credit.

6.2.4 Customer shall not be entitled to receive a Credit that exceeds 100% of its prorated monthly Subscription Fee for a Service Outage for the applicable calendar month.

EXHIBIT B-5
SUBSCRIPTION TERMS FOR FIREEYE ADVANCED THREAT INTELLIGENCE PLUS (ATI+)

The following terms govern the Advanced Threat Intelligence Plus (ATI+) Subscription.

The ATI+ Subscription comprises two features: Continuous Monitoring ("CM" or "Continuous Monitoring") and the FireEye Intelligence Center™ (FIC™) ("FIC").

1. Continuous Monitoring

The Continuous Monitoring portion of the Subscription is purchased in connection with one or more FireEye Products, and includes the following during the Subscription Term for the specific Products for which Continuous Monitoring was purchased (some Products may not be eligible for CM):

(a) Critical Event Notification. For Customers who have purchased the FireEye NX, FX, HX or EX Product, MVX Smart Grid with Network Smart node product combination, or the ETP or TAP Subscription, FireEye will provide Customer with proactive notifications of events FireEye determines to be critical that are logged by the Products ("Alerts"). FireEye will also provide Customer with access to a detailed description of the Alert. Alerts are not proof of vulnerability, threats or attacks on Customer.

(b) System Health Monitoring and Notification. For Customers who have purchased the FireEye NX, EX, FX, HX AX or FX Product, or MVX Smart Grid w/Network Smart node combination (hardware only), FireEye will provide Customer with proactive notifications of serious system health issues related to the hardware for Products covered by Continuous Monitoring. Customers will also be provided with metrics on critical event notifications and, for purchased hardware, the status of monitored hardware parameters.

(c) Portal Access. Alerts and critical event notifications from Continuous Monitoring will be provided via an online portal, and FireEye will provide login credentials to the Customer to enable access to that portal.

(d) Continuity of Monitoring. The monitoring activities described in (a)-(c) above will be provided on a 24/7 basis.

(f) Reseller and Partner Purchases. If Customer receives the Subscription via a FireEye Partner, Customer agrees that the Subscription may be delivered to Customer through the Partner. Notwithstanding any other confidentiality obligations between the parties, Customer authorizes FireEye to disclose information related to the Subscription to the Partner.

(g) Exclusions. Notwithstanding anything else contained in this Agreement to the contrary, FireEye shall have no obligation or responsibility to provide the Subscription for (i) Products for which Customer does not have an active Subscription in place; (ii) Products that the Customer (or FireEye or another third party on Customer's behalf) has configured with a one-way feed of FireEye's Dynamic Threat Intelligence subscription; (iii) Products with an installed FireEye operating system less than version 6.2; (iv) Products that are end of life; (v) Products that have no active support service in place; (vi) Products for which software updates have not been applied; or (vii) Products that have not been installed and deployed.

2. FireEye Intelligence Center™ (FIC™), Community Threat Intelligence™ (CTI™)

FireEye will provide the FIC portion of the Subscription, which includes the Community Threat Intelligence (CTI) platform, during the Subscription Term, as set forth below:

2.1 Permitted Use; Reports. Customer may view and use FIC and content appearing on FIC ("FIC Content") solely for internal use. Some features of FIC may allow Customer to generate a report (each, a "FIC Report"). FIC Reports and FIC Content are FireEye Materials. Subject to Customer's payment obligations, FireEye grants to Customer a limited, non-exclusive right to produce FIC Reports and FIC Content using FIC, and reproduce and distribute those FIC Reports and FIC Content internally for Customer's own business purposes.

2.2 Additional Use Limitations. Customer may appoint up to fifteen (15) users of FIC at any time. Each day, all users on Customer's account may collectively make up to (i) one hundred (100) queries of IP addresses and domain names, and (ii) one hundred (100) queries of malware per day. Customer may request additional queries, to be evaluated by FireEye on a case by case basis.

2.3 User Content. "User Content" means any communications, images, sounds, and all the material and information that Customer or anyone using Customer's account contributes to or through FIC including any contributions to or through the CTI platform. Customer hereby grants FireEye a perpetual, irrevocable, worldwide, paid-up, non-exclusive, license, including the right to sublicense to third parties, and right to reproduce, fix, adapt, modify, translate, reformat, create derivative works from, publish, distribute, sell, license, transmit, publicly display, publicly perform, or provide access to electronically, broadcast, display, perform, and use and practice such User Content as well as all modified and derivative works thereof. Customer represents that Customer has all necessary rights to grant the license referenced in the preceding sentence. FireEye may use and disclose any of the information it collects about its customers' use of FIC, including the CTI platform to the extent such information is de-identified.

2.4 Restrictions. Customer may not access FIC by any means other than through the interface that is provided or approved by FireEye. Customer will not collect any information from or through FIC using any automated means, including without limitation any script, spider, "screen scraping," or "database scraping" application, and Customer will not damage, disable, overburden, or impair FIC or interfere with any other party's use and enjoyment of FIC. Customer acknowledges that some optional features and content appearing on FIC may require payment of additional fees.

EXHIBIT B-6
SUBSCRIPTION TERMS FOR FIREEYE INTELLIGENCE CENTER™ (FIC™) (INCLUDING COMMUNITY THREAT INTELLIGENCE™ (CTI™))

The following terms govern the FireEye Intelligence Center™ (FIC™) Subscription, which includes access to the Community Threat Intelligence™ (CTI™) platform.

1. During the Subscription Term, FireEye will provide access to the FireEye Intelligence Center (FIC), which includes the Community Threat Intelligence (CTI) platform, subject to the following:

i. Permitted Use; Reports. Customer may view and use FIC and content appearing on FIC ("FIC Content") solely for internal use. Some features of FIC may allow Customer to generate a report (each, a "FIC Report"). FIC Reports and FIC Content are FireEye Materials. Subject to Customer's payment obligations, FireEye grants to Customer a limited, non-exclusive right to produce FIC Reports and FIC Content using FIC, and reproduce and distribute those FIC Reports and FIC Content internally for Customer's own business purposes.

ii. Additional Use Limitations. Customer may appoint up to fifteen (15) users of FIC at any time. Each day, all users on Customer's account may collectively make up to (A) one hundred (100)queries of IP addresses and domain names, and (ii) one hundred (100) queries of malware. Customer may request additional queries, to be evaluated by FireEye on a case by case basis.

iii. User Content. "User Content" means any communications, images, sounds, and all the material and information that Customer or anyone using Customer's account contributes to or through FIC including any contributions to or through the CTI platform (e.g., comments to FIC Content, suspected malware that Customer uploads to FIC). Customer hereby grants FireEye a perpetual, irrevocable, worldwide, paid-up, non-exclusive, license, including the right to sublicense to third parties, and right to reproduce, fix, adapt, modify, translate, reformat, create derivative works from, publish, distribute, sell, license, transmit, publicly display, publicly perform, or provide access to electronically, broadcast, display, perform, and use and practice such User Content as well as all modified and derivative works thereof. Customer represents that Customer has all necessary rights to grant the license referenced in the preceding sentence. FireEye may use and disclose any of the information it collects about its customers' use of FIC, including the CTI platform, to the extent such information is de-identified.

iv. Restrictions. Customer may not access FIC by any means other than through the interface that is provided or approved by FireEye. Customer will not collect any information from or through FIC using any automated means, including without limitation any script, spider, "screen scraping," or "database scraping" application, and Customer will not damage, disable, overburden, or impair FIC or interfere with any other party's use and enjoyment of FIC.

v. Customer acknowledges that some optional features and content appearing on FIC may require payment of additional fees.

EXHIBIT B-7
SUBSCRIPTION TERMS FOR FIREEYE iSIGHT INTELLIGENCE

The following terms govern the FireEye iSIGHT Intelligence Subscription ("iSIGHT" or "iSIGHT Subscription"). FireEye will provide the iSIGHT Subscription purchased by the Customer, as shown on the Order.

1. Definitions.

1.1 "Access Method(s)" or "Access Methods" means the MySIGHT Portal ("MySIGHT"), Software Development Kit ("SDK"), Application Programming Interface ("API"), Browser Plugin, iSIGHT App for Splunk, or any other method provided by FireEye for Customer to access the iSIGHT Subscription, individually or collectively. All Access Methods are FireEye Material as defined in the Agreement.

1.2 "Application" is a software program the Customer creates, or causes to have created on its behalf, that is designed to access the Content, which includes the features of the SDK/API but adds significant functionality beyond that provided by the SDK/API.

1.3 "Application Programming Interface" or "API" means the latest version of the iSIGHT Application Programming Interface software made generally available by iSIGHT, with its developer's guide and other related material (available at http://www.isightpartners.com).

1.4 "Browser Plugin" means the iSIGHT Browser Plugin which a Customer may install on Google Chrome and/or other commercially available and supported browsers that allows the Customer to access and view the Content when licensed to do so. The Browser Plugin displays the iSIGHT logo and links to MySIGHT. The Browser Plugin includes the latest version of the Browser Plugin software, its documentation and any html embedded code.

1.5 "Content" means the cyber threat intelligence data and any reports, threat indicators, trends, events, information, documentation or functionality provided in connection with the iSIGHT Subscription. All Content is FireEye Material as defined in the Agreement.

1.6 "End User" means the Customer or the Customer's employees, as applicable.

1.7 "Software Development Kit" or "SDK" shall mean the latest publicly-available version of the iSIGHT Software Development Kit and any associated documentation, tools, libraries, technical notes, software code, or other materials.

1.8 "iSIGHT App for Splunk" means the application provided by FireEye, which a Customer may install on Splunk, that allows the Customer to access and view the Content in accordance with this Agreement. The iSIGHT App for Splunk includes the latest version of the iSIGHT App for Splunk software, its documentation and any html embedded code.

1.9 "iSIGHT Subscription" includes but is not limited to, Cyber Crime, Cyber Espionage, Critical Infrastructure, Enterprise, Hacktivism, Vulnerability and Exploitation, MySIGHT Portal, Global Response, Analyst Access, iSIGHT SDK, iSIGHT API, iSIGHT Research Reports, or the current offering(s) as listed on the iSIGHT website, and as purchased by the Customer as shown on the Order.

2. License; Access to iSIGHT Subscription and Content.

2.1. Grant of Limited License. During the Subscription Term, FireEye grants to Customer in strict accordance with the terms of this Agreement, a limited, worldwide, revocable, non-exclusive, non-transferable, non-assignable, non-sublicensable royalty-free right and license to:

(a) use MySIGHT, the iSIGHT Subscription, and any Content provided by FireEye for internal use only. The ISIGHT Subscription can be used by End Users who have a valid "need to know" within Customer's organization, typically defined as a person or group that has a direct role in securing information system or networks. FireEye agrees to provide support for the ISIGHT Subscription in accordance with Section 3 below ("Subscription Support" or "Support").

(b) use the API to search, display, and otherwise access the Content. The API can be used to develop, display, or integrate applications, scripts, tools or workflows that interoperate with iSIGHT Subscriptions for the Customer's internal use. FireEye agrees to provide Support for the latest version of the API in accordance with Section 3 below.

(c) download, install and use the Software Development Kit ("SDK") to design, develop and test an Application(s), for the Customer's internal use only, for the purpose of customizing access to the Content. The Customer may modify the source code versions of sample files, if any, included with the SDK for the purpose of creating Customer's Application(s), and may make a reasonable number of copies of the SDK as necessary to develop Customer's Application(s), provided that Customer must reproduce complete copies of the SDK, including without limitation all "read me" files, copyright notices, and other legal notices and terms. FireEye agrees to provide Support for the ISIGHT SDK in accordance with Section 3 below.

(d) use the Browser Plugin to search, display and otherwise access the Content for the Customer's internal use only. Customer may install and use one copy of the Browser Plugin on a single computer per license. FireEye agrees to provide Support for the latest version of the Browser Plugin in accordance with Section 3 below

(e) use the ISIGHT App for Splunk to search, display and otherwise access the Content for the Customer's internal use only. Customer may install and use one copy of the ISIGHT App for Splunk on a single computer per license. FireEye agrees to provide Support for the latest version of the ISIGHT App for Splunk in accordance with Section 3 below.

2.2. Access Keys. Use of the Access Methods and access to the ISIGHT Subscription and the Content by Customer's End Users is provided through access keys or login credentials. Access keys in association with the Access Methods and ISIGHT Subscription shall be kept in confidence by Customer and Customer's End Users. Access keys will be issued to individual End Users by FireEye in accordance with each particular Access Method's parameters and will not be shared between End Users. Customer may not establish group accounts. Any unauthorized disclosure or dissemination of access keys by Customer or End Users shall be deemed a material breach of this Agreement. Customer shall inform FireEye of any data breach concerning login credentials in a timely manner. FireEye reserves the right to change, suspend, remove, or disable Customer's access keys to the Access Methods, ISIGHT Subscription , and Content upon notice if a material breach is suspected and not rectified upon notification.

2.3. Latest Version. The license granted to Customer under this Agreement is for the current version of the Access Methods. FireEye may release future versions of the Access Methods as determined in the sole discretion of FireEye. Nothing in this Agreement is a commitment to Customer of compatibility between the existing Access Methods and any future versions of the Access Methods. FireEye reserves the right to discontinue offering particular Access Methods (or any updates thereto) or to modify the Access Methods at any time in its sole discretion.

2.4. Multiple Copies. Customer may receive software for an Access Method in more than one medium and/or in multiple copies. The Customer's license rights are in accordance with the Order regardless of the number of copies received.

2.5. Additional Licenses. Customer may purchase additional licenses for the Browser Plugin for its authorized End Users through the Chrome Web Store. Customer may purchase additional licenses for the ISIGHT App for Splunk for its authorized End Users through Splunk. Additional licenses for the Browser Plugin and ISIGHT App for Splunk may be purchased and will be valid for the current Subscription Term as provided in the Order.

2.6. Customer Application. The Customer may allow Customer's employees to access and use the SDK/API on Customer's behalf to design an Application. The Customer may not rent, lease, sell, transfer, sublicense or time-share the Customer's Application to any third-party without the express consent of FireEye. Customer shall retain all right, title or interest in the Application and as such, Customer agrees to indemnify and hold harmless FireEye for any claims of infringement made against FireEye in connection with any Application. The Customer's Application(s) must perform in accordance with the terms of this Agreement and must ensure the security and confidentiality of FireEye's Confidential Information. Customer assumes full responsibility for any breach of

security caused by Customer's Application(s) in connection with the Content, API, SDK, and specifically to any unauthorized disclosure of any FireEye Materials or FireEye Confidential Information.

2.7. Content Modifications. Customer may access the Content from the MySIGHT Portal, via email, SMS, HTML, API, any other Access Methods as officially distributed by FireEye or an FireEye sanctioned third-party integration. FireEye reserves the right to modify, amend, augment, reduce or alter the Content's format, or Access Methods, or mode of retrieval of the Content, that in the sole judgment of FireEye is in its customers' best interests. Customer will be entitled to retrieve the Content with any updates, modifications, additions or changes in the Content. These changes may require Customer to upgrade its systems, hardware or software and FireEye will not be responsible for the costs of any such changes.

2.8. Prohibited Usage. Customer must comply with any Intellectual Property rights asserted in any materials contained in the Content. The following conduct and usage restrictions apply during Customer's download, installation, and use of the Content and/or Access Methods, and survive termination of the Agreement or Subscription Term. Customer and its authorized End Users may not:

a. rent, lease, lend, sell, redistribute or sublicense any part of the ISIGHT Subscription or Access Methods to any other party;

b. share the ISIGHT Subscription , Access Methods, Content or Confidential Information with any third-parties, except as expressly authorized in advance by this Agreement or by FireEye in writing;

c. use the ISIGHT Subscription or Access Methods in the operation of a service or in any way to provide services to any third-party;

d. create derivative works for external distribution or use based upon the Content;

e. create apps, extensions, or other products and services that use Content except as set forth herein;

f. display, post, frame, or scrape the Content, except as allowed under this Agreement;

g. use the Access Methods for any other purpose than to access the ISIGHT Subscription and the Content;

h. use the Access Methods for any illegal or unauthorized purpose to promote or provide instructional information about illegal activities or to promote stalking, physical harm or injury against any group or individual, or any use that violates the rights of privacy and publicity of others;

i. create, place, or disseminate any materials or other items that are inappropriate, defamatory, obscene, pornographic, harassing, threatening, abusive, hateful or otherwise offensive, or is unlawful (including any content that infringes any patent, trademark, service mark, copyright, trade secret or other proprietary right of any third-party without appropriate permissions);

j. transmit any viruses, worms, defects, Trojan horses, time-bombs, malware, spyware, or any other computer code of a destructive or interruptive nature in connection with use of the Access Methods;

k. use the Access Methods in connection with or to promote any products, services, or materials that constitute, promote or are used primarily for the purpose of dealing in spyware, adware, or other malicious programs or code, counterfeit goods, unsolicited mass distribution of email ("spam"), hacking, surveillance, interception, descrambling equipment, stolen products and items used for theft;

l. create any Application that exposes or provides functionality of the Access Methods to any third party;

m. interfere, restrict or inhibit any other customer from using the Access Methods or Content or disrupt any services offered by FireEye through any medium;

n. attempt to exceed or exceed the usage limits established by FireEye for the Customer (http://www.isightpartners.com/doc/sdk-bp-docs/#/rate_limiting).

2.9. Restrictions. FireEye expressly reserves the right to limit the number and/or frequency of requests for Content made through the Access Methods in its sole discretion in line with technical design and performance standards as documented in the publicly available developers guide. FireEye may limit the number of network calls that any Application may make via the Access Methods, the maximum file size, or the maximum amount of ISIGHT material that may be accessed. FireEye may change such usage limitations at any time and without notice. In addition to any other rights under this Agreement, FireEye may utilize technical measures to prevent over-usage or to stop usage of any Access Methods or any Application after any usage limitations are exceeded. The most current API/SDK documentation and developers guide can be found at http://www.isightpartners.com/doc/sdk-bp-docs/#/, and these documents detail the current rates and capabilities of the API.

2.10. Customer recognizes and agrees that certain information and data that will be provided by Customer to FireEye pursuant to the ISIGHT Subscription is not owned by Customer and is not Confidential Information of

Customer. Malware submitted by Customer to FireEye for analysis under ISIGHT Global Response, and other information submitted by Customer to FireEye that is not unique to and/or developed by Customer (collectively "Submissions") shall not be considered Confidential Information or Intellectual Property of the Customer. FireEye may use the Submissions, aggregate the Submissions with submissions from other FireEye customers as well as original research and analysis, and share that aggregated intelligence with Customer and with other FireEye customers to enhance the services FireEye provides to its customers. FireEye will anonymize all Submissions prior to distribution, and will not identify the source of any Submission without written permission in each case.

3. Service Levels.

3.1. Service Call and Subscription Support

FireEye maintains a service desk in order to assist its customers with issues, trouble or general questions concerning use of the FireEye ISIGHT Products. Customer may initiate a service call as follows:

Description	Details
FireEye Service Desk (Primary, escalation and off-hours contact)	servicedesk@isightpartners.com
Service Desk Hours	24 x 7
Service Call Response Time ("Response Time Standard")	4 hours for initial response (confirmation of receipt is immediate through an automated ticketing system)
ISIGHT API	General information regarding ISIGHT API which can be accessed at http://www.isightpartners.com/doc/api2.0/docs/#/
Other resources (all other Subscription Support issues)	Existing Clients – Contact your assigned Intelligent Account Manager at: client-engagement@isightpartners.com Prospective Clients – Contact your assigned Sales Engineer at: sales-engineering@isightpartnerns.com Partners, Resellers, Referrals – Contact partners program representative at: partners@isightpartners.com

FireEye will catalog and evaluate all bugs or software issues as they are reported. Such issues will be prioritized based on variables such as customer impact, security impact, etc. and will be scheduled for release accordingly. When applicable, FireEye will notify Customer of urgent patches or bug fixes. Support Services do not include custom programming services, on-site support, or other services including installation of hardware or software, or training.

3.2. Maintenance and Updates

(a) When feasible and appropriate, FireEye will provide Customer prior notification about major releases at least two weeks in advance via communication from FireEye representatives.
(b) Scheduled system maintenance will be performed during the targeted times of 01:00 – 07:00 UTC on Thursdays and 12:00 – 19:00 UTC on Sundays. Prior notification will be provided in the event of any impact to customer facing applications.
(c) Emergency maintenance notifications will be provided by FireEye as early as possible but with a goal of six (6) hours' prior notice provided. Further, FireEye will strive to minimize the impact of any maintenance on any critical system during standard business hours around the globe.

3.3. Subscription Availability

(a) The FireEye ISIGHT API will have at least 99% system uptime ("API Uptime Standard").

(b) The iSIGHT MySIGHT Portal will have at least a 99% system uptime ("Portal Uptime Standard").

(c) FireEye realizes that a failure to meet the Response Time Standard, API Uptime Standard and the Portal Uptime Standard (collectively, the "Service Level Standards") could have an adverse impact to Customer. If FireEye fails to meet any of the Service Level Standards ("Service Level Failure"), FireEye will: (i) promptly investigate and report on the root cause of the problem; (ii) advise Customer of the remedial efforts being undertaken with respect to this failure to meet the Service Level Standards; (iii) use commercially reasonable efforts to correct the problem and begin meeting the Service Level Standards; and (iv) take appropriate preventative measures designed to ensure that the problem does not recur.

EXHIBIT C
FIREEYE SUPPORT SERVICES APPLICABLE FOR FIREEYE PRODUCTS

1. SUPPORT PURCHASED SEPARATELY FROM THE PRODUCTS. In the event Customer has purchased the Products and pass-through Support Services from FireEye through a FireEye authorized reseller (a "Reseller"), Customer will be entitled to all the rights herein set forth related to the level of Support Service requested and paid for by it, provided Customer: (a) is the original purchaser of the covered Products, (b) has provided true, accurate, current and complete information to FireEye included with its purchase; and (c) has maintained and updated this information to keep it true, accurate, current, and complete.

2. SUPPORT SERVICES PROVIDED BY FIREEYE.

FireEye offers a range of programs for the support of its Products as described below ("Support Programs"). Customer shall be entitled to receive the Support Services specified on the applicable support invoice and described below to the extent that Customer has paid in full the applicable Fees for Support Services.

2.1 Software Maintenance Services – include each of the following:

Software Updates. During the Support Term , FireEye shall provide Customer notification of bug fixes, maintenance patches and new releases which may contain minor enhancements to the features or functions of the Product ("**Updates**"). FireEye may designate a particular release of the Product as an Update at its sole discretion. Customer may obtain Updates either through delivery of a machine-readable copy pursuant to instructions contained in the document notifying Customer of an available Update or by downloading the Update from FireEye's server via the Internet. FireEye reserves the right to impose additional charges for releases of Products (i) that provide major enhancements to the features or functions of the Products, as determined by FireEye at its sole discretion; or, (ii) that provide additional features or perform additional functions not provided or performed by the Products.

Software Error Corrections. During the Support Term, FireEye shall use commercially reasonable efforts to correct any reproducible programming error in the software associated with the Product attributable to FireEye, employing a level of effort commensurate with the severity of the error, provided, however, that FireEye shall have no obligation to correct all errors in the Products. Upon identification of any programming error, Customer shall notify FireEye of such error in writing and shall provide FireEye with enough information to locate and reproduce the error. FireEye shall not be responsible for correcting any errors not attributable to FireEye. Errors attributable to FireEye shall be those that are reproducible by FireEye on unmodified Products. If it is found that a particular error is fixed in the most current Product release, then FireEye shall have no obligation to fix the error in any prior Product release and Customer will need to upgrade to the current Product release in order to obtain the fix.

2.2 Support Programs

(a) Platinum Support includes all of the services set forth above under Software Maintenance Service (section 2.1) and additionally:

- *Email, Live Chat, Web or Telephone Support*. During the Support Term, FireEye shall provide Customer technical email, live chat, web or telephone support for the Products twenty-four (24) hours per day, 365 days a year. FireEye's support technician shall only be obligated to respond to Customer's fifteen (15) designated contacts.
- FireEye shall use commercially reasonable efforts to respond to the request for support as detailed in the Initial Response Times table found at https://www.fireeye.com/support/programs.html regarding use or installation of the Product that is communicated to FireEye via one of the mechanisms above to the attention of FireEye's support engineers.
- *Product Return*. During the term of this Agreement, Customer shall have the right to return to FireEye any defective Product subject to the limited warranty. Additionally, FireEye will fulfill the following Advance Return provisions below.

- Advance Replacement. Prior to any return as to which Advance Replacement applies, Customer shall verify that said Product is defective by logging a Support request via one of the mechanisms described above and in accordance with FireEye's RMA procedures, including providing the part number, serial number, quantity and reason for return, an explanation of all failure symptoms and other relevant information. Upon confirmation by FireEye of a defect, Customer shall obtain from FireEye an RMA number. FireEye shall ship via a recognized express courier service a replacement Product to Customer to arrive no later than next business day after FireEye's issuance of an RMA number, provided the RMA number was issued prior to the business day cutoff time local to the defective Product, provided the replacement does not require any custom pre-configuration, and provided no external-to-FireEye circumstances prevent the delivery. The replacement Product may be a new or reconditioned Product (of equivalent or better quality) at FireEye's sole discretion. FireEye shall pay the shipping costs to ship the replacement Product to Customer, but Customer shall bear any and all risk of loss of or damage to said Product at all times after said Product is made available by FireEye to the common carrier. The support service will transfer from the defective Product to the replacement Product. Within five (5) business days after Customer receives the replacement Product from FireEye, Customer shall package said defective Product in its original packing material or equivalent, write the RMA number on the outside of the package and return said defective Product, at FireEye's cost provided Customer utilizes FireEye's designated courier service and properly packages the defective Product according to FireEye's instructions, shipped properly insured, FOB FireEye's designated facility (except that FireEye shall pay for shipping). Customer shall enclose with the returned Product the applicable RMA form, and any other documentation or information requested by FireEye customer support. Customer shall assume any and all risk of loss of or damage to such Product during shipping. Title to the defective Product shall pass to FireEye upon FireEye's receipt thereof. When a replacement Product is provided and Customer fails to return the defective Product to FireEye within ten (10) business days after Customer receives the replacement Product from FireEye, FireEye may charge Customer, and Customer shall pay for the replacement Product at the then-current list price.

(b) Platinum Priority Plus Support iincludes all of the services set forth above under Platinum Support [section 2.2(a)] and additionally:

- *Access to Support*. Customer will be provided with direct priority access to Level 2 Advanced Engineering support who shall respond to Customer's unlimited number of designated contacts. A Designated Support Engineer (DSE) point of contact, who is available during Customer's business hours (for single Customer site if Product(s) installed at multiple Customer sites), will be made available to be the focal point of contact within FireEye, to project manage Customer's technical issues.
- *Onsite Support*. Onsite visits for problem assistance at DSE's sole discretion.
- *Reporting*. FireEye will supply Customer with monthly reports detailing technical support provided during the previous month. Quarterly business reviews will also be conducted.

(c) Government Support, if available, includes all of the services set forth above under Platinum Support [section 2.2(a)] and additionally:

- *Email, Live Chat, Web or Telephone Support*. For the specified country, access to citizens of that country for the fulfillment of Level 1 and 2 technical support requests.

(d) Government Priority Plus Support includes all of the services set forth above under Government Support [section 2.2(c)] and additionally:

- *Access to Support*. Customer will be provided with direct priority access to Level 2 Advanced Engineering support who are citizens of that country and shall respond to Customer's unlimited number of designated contacts. A Designated Support Engineer (DSE) point of contact who is a citizen of that country and available during Customer's business hours (for single Customer site if Product(s) installed at multiple Customer sites), will be made available to be the focal point of contact within FireEye, to project manage Customer's technical issues.
- *Onsite Support*. Onsite visits for problem assistance at DSE's sole discretion.
- *Reporting*. FireEye will supply Customer with monthly reports detailing technical support provided during the previous month. Quarterly business reviews will also be scheduled.

(e) Special Services. FireEye agrees to use commercially reasonable efforts to respond to any requests by Customer for support services not specifically provided for above. Customer acknowledges that all such services provided by FireEye shall be at FireEye's discretion and then-current fees and policies.

3. CUSTOMER RESPONSIBILITIES.

3.1 Requesting Support Services. When requesting Support Services from FireEye under this Agreement, Customer should have the following information available to provide to FireEye, if requested: (i) detailed problem description, including operating system ("OS") version, Product model and serial number(s), of the affected Product, and a detailed description of the troubleshooting that has already been done to try to resolve the problem; (ii) detailed system log files; (iii) configuration and login details to allow FireEye access as needed to the Products via the Internet for the purpose of providing support services and permissions needed in order for FireEye to conduct such remote access; (iv) a detailed description of changes to the environment; and (v) Customer's unique ID, Account ID, the serial number(s) of the Product(s) covered by this Agreement or other unique customer identifier as assigned to Customer by FireEye. Customer acknowledges and agrees that failure to have any or all information or access available as needed by FireEye in order to provide the Support Services may result in delays in FireEye's response, may hinder FireEye's ability to perform the Support Services and/or may cause incorrect Support Program fulfillment. FireEye will not be responsible for any such delays and inability to perform due to causes not due to FireEye.

3.2 Customer Assistance. Customer agrees to: (i) ensure that their site complies with any and all applicable FireEye published system environmental specifications; (ii) follow FireEye's procedures when requesting Support Services; (iii) provide FireEye reasonable access to all necessary personnel to answer questions or resolve problems reported by Customer regarding the Products; (iv) promptly implement all Updates and error corrections provided by FireEye under this Agreement; (v) maintain FireEye supported versions of required third party software, if any; and (v) notify FireEye promptly of any relocation of the Products from the location to which the Products were originally shipped. Customer agrees to use reasonable efforts to resolve internally any support questions prior to requesting Support Services pursuant to this Agreement. During the Support Term, FireEye may obtain information regarding Customer's email communication and Customer agrees that, as a condition to FireEye's provision of Support Services, FireEye may use statistical data generated regarding Customer's email correspondence with customer support so long as the source or content of the emails is not being disclosed.

3.3 Contact People. Customer shall appoint the specified number of individuals (depending upon the Support Program purchased) within Customer's organization to serve as contacts between Customer and FireEye and to receive support through FireEye's telephone support center. Customer's contacts shall have been adequately trained on the Products and shall have sufficient technical expertise, training and experience. All of Customer's support inquiries shall be initiated through these contacts.

4. EXCLUSIONS. Notwithstanding anything else contained in this Agreement to the contrary, FireEye shall have no obligation or responsibility to provide any Support Services relating to problems arising out of or related to (i) Customer's failure to implement all Updates to the Product which are made available to Customer under this Agreement; (ii) the failure to provide a suitable installation environment; (iii) any alteration, modification, enhancement or addition to the Products performed by parties other than FireEye; (iv) use of the Products in a manner, or for a purpose, for which they were not designed; (v) accident, abuse, neglect, unauthorized repair, inadequate maintenance or misuse of the Products; or relocation of the Products (including without limitation damage caused by use of other than FireEye shipping containers), (vi) operation of the Products outside of environmental specifications; (vii) interconnection of the Products with other products not supplied by FireEye; (viii) use of the Products on any systems other than the specified hardware platform for such Products; or (ix) introduction of data into any database used by the Products by any means other than the use of the software associated with the Products. Notwithstanding anything else contained in this Agreement to the contrary, FireEye will support all generally available ("GA") versions of the FireEye OS, for a minimum of one (1) year from GA release date, regardless of the number of supported OS GA versions. FireEye will also support the two (2) most current OS GA versions, regardless of the elapsed time from GA release date. If available, and at FireEye's sole discretion, support for any other OS versions or for other problems not covered under this Agreement may be obtained at FireEye's then-current fees and policies for such services. FireEye's complete end of life policy can be found at http://www.fireeye.com/support/supported-products.html

5. LAPSED SUPPORT AND UPGRADED SUPPORT.

5.1 Lapsed Support. After any lapse of Support Services, the parties subsequently may elect to reinstate such Support Services for Products for which the Support Services lapsed pursuant to the terms and conditions set forth in this Agreement; provided, however, that (i) Customer agrees to pay for the period of time that has lapsed as well as any renewal term, and (ii) such Products must be in good working condition, as solely determined by FireEye or its designee.

5.2 Support Program Upgrade. At any time during the Term, Customer may upgrade to FireEye's next level of Support Program by (i) notifying FireEye of Customer's desire to upgrade; (ii) acknowledging in writing the then-current terms and conditions for the relevant Support Program; and (iii) paying FireEye the additional Support Fee owed in connection with such upgraded Support Program.

Exhibit A
Product Passthrough Terms – Google Apps for Work (for Customers)

Customer has entered into a certain written agreement (the "Agreement") pursuant to which Customer has purchased the right to access and use the Product. These Product Passthrough Terms set forth the terms and conditions under which Customer may access and use such Product.

1. Product.

   1.1 Facilities and Data Transfer. All facilities used to store and process Customer Data will adhere to reasonable security standards no less protective than the security standards at facilities where Provider stores and processes its own information of a similar type. Provider has implemented at least industry standard systems and procedures to ensure the security and confidentiality of Customer Data, protect against anticipated threats or hazards to the security or integrity of Customer Data, and protect against unauthorized access to or use of Customer Data. As part of providing the Product, Provider may transfer, store and process Customer Data in the United States or any other country in which Provider or its agents maintain facilities. By using the Product, Customer consents to this transfer, processing and storage of Customer Data.

   1.2 Modifications.

      a. To the Product. Provider may make commercially reasonable changes to the Product, from time to time. If Provider makes a material change to the Product, Customer may be informed of such change, provided that Customer has subscribed with Provider to be informed about such change.

      b. To URL Terms. Provider may make commercially reasonable changes to the URL Terms from time to time. If Provider makes a material change to the URL Terms, Customer may be informed of such change through the Notification Email Address or via the Admin Console. If the change has a material adverse impact on Customer and Customer does not agree to the change, Customer must so notify Partner or Provider via the Help Center within thirty days after receiving notice of the change. Upon such notification, Customer will remain governed by the URL Terms in effect immediately prior to the change until the end of the then-current term for the affected Product. If the affected Product is renewed, they will be renewed under Provider's then current URL Terms.

   1.3 Customer Domain Name Ownership. Prior to providing the Product, Provider or Partner may verify that Customer owns or controls the Customer Domain Names. If Customer does not own, or control, the Customer Domain Names, then Provider will have no obligation to provide Customer with the Product.

   1.4 Federal Information Security Management Act (FISMA). The Provider's Product known as "Google Apps Core Services" received a FISMA "Authorization to Operate" for a Moderate impact system. Provider will continue to maintain a System Security Plan (SSP) for the Google Apps Core Services, based on NIST 800-53 Rev. 3, or a similarly applicable standard. If Provider does not maintain this SSP as stated, Customer's sole and exclusive remedy, and Provider's entire liability, will be Customer's ability to terminate use of the Product upon thirty days prior written notice.

2. Customer Obligations.

   2.1 Compliance. Customer will use the Product in accordance with the Acceptable Use Policy. Provider may make new applications, features or functionality for the Product available from time to time, the use of which may be contingent upon Customer's agreement to additional terms. In addition, Provider will make other Non-Google Apps Products (beyond the Product) available to Customer and its End Users in accordance with the Non-Google Apps Product Terms and the applicable product-specific Provider terms of service. If Customer does not desire to enable any of the Non-Google Apps Products, Customer can enable or disable them at any time through the Admin Console.

   2.2 Customer Administration of the Product. Customer may specify one or more Administrators through the Admin Console who will have the rights to access Admin Account(s) and to administer the End User Accounts. Customer and Partner are responsible for: (a) maintaining the confidentiality of the password and Admin Account(s); (b) designating those individuals who are authorized to access the Admin Account(s); and (c) ensuring that all activities that occur in connection with the Admin Account(s) comply with these

Product Passthrough Terms. Customer agrees that Provider's responsibilities do not extend to the internal management or administration of the Product for Customer and that Provider is merely a data-processor.

2.3 End User Consent. Customer's Administrators may have the ability to access, monitor, use, or disclose data available to End Users within the End User Accounts. Customer will obtain and maintain all required consents from End Users to allow: (i) Customer's access, monitoring, use and disclosure of this data and Provider providing Customer with the ability to do so, and (ii) Provider to provide the Product.

2.4 Unauthorized Use. Customer will use commercially reasonable efforts to prevent unauthorized use of the Product, and to terminate any unauthorized use. Customer or Reseller will promptly notify Provider of any unauthorized use of, or access to, the Product of which it becomes aware.

2.5 Restrictions on Use. Unless Provider specifically agrees in writing, Customer will not, and will use commercially reasonable efforts to make sure a third party does not: (a) sell, resell, lease, or the functional equivalent, the Product to a third party (unless expressly authorized in these Product Passthrough Terms); (b) attempt to reverse engineer the Product or any component; (c) attempt to create a substitute or similar service through use of, or access to, the Product; (d) use the Product for High Risk Activities; or (e) use the Product to store or transfer any Customer Data that is controlled for export under Export Control Laws. Customer is solely responsible for any applicable compliance with HIPAA.

2.6 Third Party Requests. Customer is responsible for responding to Third Party Requests. Provider will, to the extent allowed by law and by the terms of the Third Party Request: (a) promptly notify Customer of its receipt of a Third Party Request; (b) comply with Customer's reasonable requests regarding its efforts to oppose a Third Party Request; and (c) provide Customer with the information or tools required for Customer to respond to the Third Party Request. Customer will first seek to obtain the information required to respond to the Third Party Request on its own, and will contact Provider only if it cannot reasonably obtain such information.

3. Technical Support Services.

3.1 By Customer. Customer or Partner will, at its own expense, respond to questions and complaints from End Users or third parties relating to Customer's or End Users' use of the Product. Customer or Partner will use commercially reasonable efforts to resolve support issues before escalating them to Provider.

3.2 By Provider. If Customer or Partner cannot resolve a support issue consistent with the above, then Customer or Partner (as applicable based on the agreement between Provider and Partner) may escalate the issue to Provider in accordance with the TSS Guidelines. Provider will provide TSS to Customer or Partner (as applicable) in accordance with the TSS Guidelines.

4. Suspension.

4.1 Of End User Accounts by Provider. If Provider becomes aware of an End User's violation of these Product Passthrough Terms, then Provider may specifically request that Customer Suspend the applicable End User Account. If Customer fails to comply with Provider's request to Suspend an End User Account, then Provider may do so. The duration of any Suspension by Provider will be until the applicable End User has cured the breach which caused the Suspension.

4.2 Emergency Security Issues. Notwithstanding the foregoing, if there is an Emergency Security Issue, then Provider may automatically Suspend the offending use. Suspension will be to the minimum extent and of the minimum duration required to prevent or terminate the Emergency Security Issue. If Provider Suspends an End User Account for any reason without prior notice to Customer, at Customer's request, Provider will provide Customer the reason for the Suspension as soon as is reasonably possible.

5. Confidential Information.

5.1 Obligations. Customer and Provider will: (a) protect the other's Confidential Information with the same standard of care it uses to protect its own Confidential Information; and (b) not disclose the Confidential Information, except to Affiliates, employees and agents who need to know it and who have agreed in writing to keep it confidential. Customer and Provider (and any Affiliates, employees and agents to whom it has disclosed Confidential Information) may use Confidential Information only to exercise rights and fulfill its obligations under these Product Passthrough Terms, while using reasonable care to protect it. Customer

and Provider, respectively, will be responsible for any actions of its Affiliates, employees and agents in violation of this Section.

5.2 Exceptions. Confidential Information does not include information that: (a) the recipient of the Confidential Information already knew; (b) becomes public through no fault of the recipient; (c) was independently developed by the recipient; or (d) was rightfully given to the recipient by a third party.

5.3 Required Disclosure. Customer and Provider may disclose the other's Confidential Information when required by law but only after it, if legally permissible: (a) uses commercially reasonable efforts to notify the other; and (b) gives the other the chance to challenge the disclosure.

6. Intellectual Property Rights; Brand Features.

6.1 Intellectual Property Rights. Except as expressly set forth herein, these Product Passthrough Terms does not grant either Customer or Provider any rights, implied or otherwise, to the other's content or any of the other's intellectual property. As between the Customer and Provider, Customer owns all Intellectual Property Rights in Customer Data, and Provider owns all Intellectual Property Rights in the Product.

6.2 Display of Brand Features. Provider may display those Customer Brand Features authorized by Customer (such authorization is provided by Customer uploading its Brand Features into the Product), and within designated areas of the Service Pages. Customer may specify the nature of this use using the Admin Console. Provider may also display Provider Brand Features on the Service Pages to indicate that the Product are provided by Provider. Neither party may display or use the other party's Brand Features beyond what is allowed in these Product Passthrough Terms without the other's prior written consent.

6.3 Brand Features Limitation. Any use of Brand Features will inure to the benefit of the entity holding Intellectual Property Rights in those Brand Features. Any right to use its Brand Features pursuant to these Product Passthrough Terms may be revoked at any time with written notice to the other and a reasonable period to stop the use.

7. Publicity. Customer agrees that Provider may include Customer's name or Brand Features in a list of Provider customers, online or in promotional materials. Customer also agrees that Provider may verbally reference Customer as a customer of the Provider's Product that is the subject of these Product Passthrough Terms.

8. Representations, Warranties and Disclaimers.

8.1 Representations and Warranties. Customer and Provider represent that each will comply with all laws and regulations applicable to its provision, or use, of the Product, as applicable (including applicable security breach notification law). Provider warrants that it will provide the Product in accordance with the applicable SLA.

8.2 Disclaimers. TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW, EXCEPT AS EXPRESSLY PROVIDED FOR HEREIN, NEITHER PARTY MAKES ANY OTHER WARRANTY OF ANY KIND, WHETHER EXPRESS, IMPLIED, STATUTORY OR OTHERWISE, INCLUDING WITHOUT LIMITATION WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR USE AND NONINFRINGEMENT. PROVIDER MAKES NO REPRESENTATIONS ABOUT ANY CONTENT OR INFORMATION MADE ACCESSIBLE BY OR THROUGH THE PRODUCT. CUSTOMER ACKNOWLEDGES THAT THE PRODUCT IS NOT A TELEPHONY SERVICE AND THAT THE PRODUCT IS NOT CAPABLE OF PLACING OR RECEIVING ANY CALLS, INCLUDING EMERGENCY PRODUCT CALLS, OVER PUBLICLY SWITCHED TELEPHONE NETWORKS.

9. Term and Termination.

9.1 Term. The term for the Product will be as decided upon between Partner and Customer. These Product Passthrough Terms will remain in effect for the Term.

9.2 Termination for Breach. The Services may be suspended or terminated, if: (i) Customer is in material breach of these Product Passthrough Terms and fails to cure that breach within thirty days after receipt of written notice; (ii) Customer ceases its business operations or becomes subject to insolvency proceedings and the proceedings are not dismissed within ninety days; or (iii) Customer is in material breach of these Product Passthrough Terms more than two times notwithstanding any cure of such breaches.

9.3 Effects of Termination. If Services are terminated, then: (i) the rights granted by Provider to Customer, and Customer to Provider will cease immediately (except as set forth in this Section); (ii) neither Customer nor Partner will have access to, or the ability to export, the Customer Data; (iii) Provider will begin to delete Customer Data; and (iv) upon request will promptly use commercially reasonable efforts to return or destroy all other Confidential Information of the other.

10. Miscellaneous.

10.1 Product Development. The Product was developed solely at private expense and is commercial computer software and related documentation within the meaning of the applicable civilian and military federal acquisition regulations and any supplements thereto.

10.2 Force Majeure. Due to circumstances beyond Provider's controls, Provider may not be able to provide the Product.

10.3 No Waiver. Failure to enforce any provision of these Product Passthrough Terms will not constitute a waiver.

10.4 No Agency. These Product Passthrough Terms do not create any agency, partnership or joint venture.

10.5 No Third-Party Beneficiaries. There are no third-party beneficiaries to these Product Passthrough Terms. Customer's sole remedies will be set forth in its agreement with the Partner.

10.6 Survival. The following sections will survive expiration or termination of these Product Passthrough Terms: Sections 5, 6, 9.3, 10 and 12.

10.7 Severability. If any term (or part of a term) of these Product Passthrough Terms is invalid, illegal, or unenforceable, the rest of these Product Passthrough Terms will remain in effect.

10.8 Conflicting Terms. If there is a conflict between any terms of these Product Passthrough Terms and any other document that makes up the entire agreement as needed for Customer to use the Product, the terms of these Product Passthrough Terms will take precedence.

11. Additional Product Terms.

11.1 Ads. Provider does not serve Ads in the Product or use Customer Data for Ads purposes.

11.2 Aliases. Customer is solely responsible for monitoring, responding to, and otherwise processing emails sent to the "abuse" and "postmaster" aliases for Customer Domain Names but Provider may monitor emails sent to these aliases for Customer Domain Names to allow Provider to identify Product abuse.

11.3 Google Apps Vault Retention. If Customer is using Google Apps Vault, Provider will have no obligation to retain any archived Customer Data beyond the retention period specified by Customer. If Customer does not renew Google Apps Vault, Provider will have no obligation to retain any archived Customer Data.

12. Definitions.

"Acceptable Use Policy" means the acceptable use policy for the Product available at http://www.google.com/a/help/intl/en/admins/use_policy.html. The Acceptable Use Policy and such URL link may be updated or modified by Provider from time to time.

"Admin Account(s)" means the administrative account(s) provided to Customer for the purpose of administering the Product. The use of the Admin Account(s) requires a password, which Provider will provide to Customer or Partner.

"Admin Console" means the online tool Customer may use in reporting and certain other administration functions.

"Administrators" mean the Customer-designated technical personnel who administer the Product to End Users on Customer's behalf.

"Ads" means online advertisements displayed by Provider to End Users, excluding advertisements provided by any advertising products that are not part of the Product that Customer chooses to use in connection with the Product.

"Affiliate" means any entity that directly or indirectly controls, is controlled by, or is under common control with an entity.

"Brand Features" means the trade names, trademarks, service marks, logos, domain names, and other distinctive brand features of each party, respectively, as secured from time to time.

"Confidential Information" means information disclosed or exchanged under these Product Passthrough Terms that is marked as confidential or would normally be considered confidential under the circumstances. Customer Data is Customer's Confidential Information.

"Customer Data" means data, including email, provided, generated, transmitted or displayed via the Product by Customer, End Users, or Partner on behalf of Customer.

"Customer Domain Names" mean the domain names owned or controlled by Customer, which will be used in connection with the Product.

"Emergency Security Issue" means either: (a) Customer's use of the Product in violation of the Acceptable Use Policy, which could disrupt: (i) the Product; (ii) other customers' use of the Product; or (iii) the Provider network or servers used to provide the Product; or (b) unauthorized third party access to the Product.

"End Users" means the individuals Customer permits to use the Product.

"End User Account" means a Provider-hosted account established by Customer through the Product for an End User.

"Export Control Laws" means all applicable export and reexport control laws and regulations, including trade and economic sanctions maintained by the Treasury Department's Office of Foreign Assets Control, and the International Traffic in Arms Regulations ("ITAR") maintained by the Department of State.

"Google Apps Core Services" means the applicable Product purchased by Customer from Partner which are more fully described here: http://www.google.com/a/help/intl/en/users/user_features.html. The Google Apps Core Services and such URL link may be updated or modified by Provider from time to time.

"Help Center" means the Provider help center accessible at http://www.google.com/support/. The Help Center and such URL link may be updated or modified by Provider from time to time.

"High Risk Activities" means uses such as the operation of nuclear facilities, air traffic control, or life support systems, where the use or failure of the Product could lead to death, personal injury, or environmental damage.

"HIPAA" means the Health Insurance Portability and Accountability Act of 1996, as may be amended from time to time, and any regulations issued thereunder.

"Intellectual Property Rights" means current and future worldwide rights under patent law, copyright law, trade secret law, trademark law, moral rights law, and other similar rights.

"Non-Google Apps Products" means Provider products which are not part of the Product, but which may be accessed by End Users using their End User Account login and password. The Non-Google Apps Products are set forth at the following URL: http://www.google.com/support/a/bin/answer.py?hl=en&answer=181865. The Non-Google Apps Products and such URL link may be updated or modified by Provider from time to time.

"Non-Google Apps Product Terms" means the terms found at the following URL: http://www.google.com/apps/intl/en/terms/additional_services.html. The Non-Google Apps Product Terms and such URL link may be updated or modified by Provider from time to time.

"Notification Email Address" means the email address designated by Customer to receive email notifications from Provider. Customer may provide a Partner email address for this purpose if it so chooses. Customer may change this email address through the Admin Console.

"Provider" means the third party provider of the Product.

"Partner" means the entity Customer is paying to provide access to and use of the Product.

"Service Pages" mean the web pages displaying the Product to End Users.

"Product" means, as applicable, the Google Apps Core Services purchased from Partner.

"SLA" means the Service Level Agreement located here for applicable Google Apps Core Services: http://www.google.com/apps/intl/en/terms/reseller_sla.html. The SLA and such URL link may be updated or modified by Provider from time to time.

"Suspend" means the immediate disabling of access to the Product, or components of the Product, as applicable, to prevent further use of the Product.

"Term" means the term of these Product Passthrough Terms, which will continue for as long as Customer is receiving Product from Provider, unless terminated earlier pursuant to these Product Passthrough Terms, or pursuant to Customer's agreement with Partner.

"Third Party Request" means a request from a third party for records relating to an End User's use of the Product. Third Party Requests can be a lawful search warrant, court order, subpoena, other valid legal order, or written consent from the End User permitting the disclosure.

"TSS" means the technical support Product provided by Provider to the Administrators during the Term pursuant to the TSS Guidelines.

"TSS Guidelines" means Provider's technical support Product guidelines then in effect for the Product. TSS Guidelines are at the following URL: http://www.google.com/a/help/intl/en/admins/tssg.html. The TSS Guidelines and such URL link may be updated or modified by Provider from time to time.

"URL Terms" means the Acceptable Use Policy, the SLA and the TSS Guidelines.

SALESFORCE Service Terms

"AppExchange" means the online directory of on-demand applications that work with the Service, located at http://www.appexchange.com or at any successor websites.

"Service" means the online, Web-based application provided by Salesforce.com (sometimes referred to as "SFDC") via http://www.salesforce.com and/or other designated websites, including associated offline components but excluding AppExchange applications.

"Third-Party Applications" means online, Web-based applications and offline software products that are provided by third parties, interoperate with the Service, and are identified as third-party applications, including but not limited to those listed on the AppExchange.

"User Guide" means the online user guide for the Services, accessible via http://www.salesforce.com, as updated from time to time.

"Users" means Your employees, representatives, consultants, contractors or agents who are authorized to use the Service and have been supplied user identifications and passwords by You (or by Salesforce.com or Your reseller at Your request).

"You" and **"Your"** means the customer entity which has contracted to purchase subscriptions to use the Service subject to the conditions of these SFDC Service Terms.

"**Your Data**" means all electronic data or information submitted by You to the Service.

1. **Use of Service**

(a) User subscriptions cannot be shared or used by more than one User (but may be reassigned from time to time to new Users who are replacing former Users who have terminated employment with You or otherwise changed job status or function and no longer require use of the Service).

(b) You (i) are responsible for all activities occurring under Your User accounts; (ii) are responsible for the content of all Your Data; (iii) shall use commercially reasonable efforts to prevent unauthorized access to, or use of, the Service, and shall notify Your reseller or Salesforce.com promptly of any such unauthorized use You become aware of; and (iv) shall comply with all applicable federal laws and regulations in using the Service.

(c) You shall use the Service solely for Your internal business purposes and shall not: (i) license, sublicense, sell, resell, rent, lease, transfer, assign, distribute, time share or otherwise commercially exploit or make the Service available to any third party, other than to Users or as otherwise contemplated by these SFDC Service Terms; (ii) send spam or otherwise duplicative or unsolicited messages in violation of applicable laws; (iii) send or store infringing, obscene, threatening, libelous, or otherwise unlawful or tortious material, including material that is harmful to children or violates third party privacy rights; (iv) send or store viruses, worms, time bombs, Trojan horses and other harmful or malicious code, files, scripts, agents or programs; (v) interfere with or disrupt the integrity or performance of the Service or the data contained therein; or (vi) attempt to gain unauthorized access to the Service or its related systems or networks.

(d) You shall not (i) modify, copy or create derivative works based on the Service; (ii) frame or mirror any content forming part of the Service, other than on Your own intranets or otherwise for its own internal business purposes; (iii) reverse engineer the Service; or (iv) access the Service in order to (A) build a competitive product or service, or (B) copy any ideas, features, functions or graphics of the Service.

2. **Service Provision.** Salesforce.com will use commercially reasonable efforts to make the Services available 24 hours a day, 7 days a week, except for: (a) planned downtime (of which SFDC shall give at least 8 hours notice via the Services and which SFDC shall schedule to the extent practicable during the weekend hours from 6:00 p.m. Pacific time Friday to 3:00 a.m. Pacific time Monday), or (b) any unavailability caused by circumstances beyond SFDC's reasonable control, including without limitation, acts of God, acts of government, flood, fire, earthquakes, civil unrest, acts of terror, strikes or other labor problems (other than those involving SFDC employees), or Internet service provider failures or delays.

Salesforce.com will provide the Services only in accordance with applicable laws and government regulations.

3. **Acquisition of Third-Party Products and Services.** Any acquisition by You of third-party products or services, including but not limited to Third-Party Applications and implementation, customization and other consulting services, and any exchange of data between You and any third-party provider, is solely between You and the applicable third-party provider. Salesforce.com does not warrant or support third-party products or services, whether or not they are designated by Salesforce.com as "certified" or otherwise. No purchase of third-party products or services is required to use the Service as provided by Salesforce.com.

4. **Third-Party Applications and Your Data.** If You install or enable Third-Party Applications for use with the Service, You acknowledge that Salesforce.com may allow providers of those Third-Party Applications to access You Data as required for the interoperation of such Third Party Applications with the Service. Salesforce.com shall not be responsible for any disclosure, modification or deletion of You Data resulting from any such access by Third-Party Application providers. The Service shall allow You to restrict such access by restricting Users from installing or enabling such Third-Party Applications for use with the Service.

5. **Google Services.** Service features that interoperate with Google services depend on the continuing availability of the Google application programming interface ("API") and program for use with the Service. If Google Inc. ceases to make the Google API or program available on reasonable terms for the Service, Salesforce.com may cease providing such Service features without entitling You to any refund, credit, or other compensation.

6. **Proprietary Rights.** Subject to the limited rights expressly granted hereunder, Salesforce.com reserves all rights, title and interest in and to the Service, including all related intellectual property rights. The Service is deemed Salesforce.com confidential information, and You will not use it or disclose it to any third party except as permitted in these SFDC Service Terms and except as required by law, upon notice to Salesforce.com.

7. **Your Data.** As between Salesforce.com and You, You exclusively own all rights, title and interest in and to all of Your Data. Your Data is deemed your confidential information, and Salesforce.com shall not access Your User accounts, including Your Data, except to respond to service or technical problems or at your request.

8. **Compelled Disclosure.** If either You or Salesforce.com is compelled by law to disclose confidential information of the other party, it shall provide the other party with prior notice of such

compelled disclosure (to the extent legally permitted) and reasonable assistance, at the other party's cost, if the other party wishes to contest the disclosure.

9. **Suggestions** You agree that Salesforce.com shall have a royalty-free, worldwide, transferable, sublicenseable, irrevocable, perpetual license to use or incorporate into the Service any suggestions, enhancement requests, recommendations or other feedback provided by You or Your Users relating to the operation of the Service.

10. **Fees.** Contracted for fees for use of the Service represent a firm commitment and the number of User subscriptions contracted for cannot be reduced in the middle of a subscription term.

11. **Termination.** The master contract governs your termination (FAR 52.212-4(l) & (m)) and cancellation rights with the contractor, and the contract requires continued performance while any disputes are resolved (FAR 52.233-1(i)).

12. **Data Storage.** You are entitled to a cumulative amount of storage per User subscription for no additional charge as set forth in the User Guide for the Service subscription type purchased. You may purchase additional storage if necessary, and you may contact Your reseller for then-current rates listed in master contract price list.

13. **Support.** SFDC will provide You with basic support as described from time to time by SFDC at www.salesforce.com. In the event that You have purchased an upgraded support package, then upgraded support contact information will be provided to You together with your initial account set up information.

14. **No Warranty.** SALESFORCE.COM MAKES NO WARRANTIES OF ANY KIND, WHETHER EXPRESS, IMPLIED, STATUTORY OR OTHERWISE REGARDING THE SERVICE AND/OR SUPPORT, AND SPECIFICALLY DISCLAIMS ALL IMPLIED WARRANTIES, INCLUDING ANY WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW. IN THE EVENT THAT YOUR AGREEMENT WITH YOUR RESELLER PROVIDES ANY WARRANTIES WITH RESPECT TO THE SERVICE AND/OR SUPPORT, SUCH WARRANTIES ARE SOLELY BETWEEN YOU AND YOUR RESELLER. This clause does not disclaim any warranties expressly provided in a contract with the U.S. Government."

15. **No Liability.** IN NO EVENT SHALL SALESFORCE.COM HAVE ANY LIABILITY TO YOU OR ANY USER FOR ANY DAMAGES WHATSOVER, INCLUDING BUT NOT LIMITED TO DIRECT, INDIRECT, SPECIAL, INCIDENTAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES, OR DAMAGES BASED ON LOST PROFITS, HOWEVER CAUSED AND, WHETHER IN CONTRACT, TORT OR UNDER ANY OTHER THEORY OF LIABILITY, WHETHER OR NOT EITHER YOU OR SALESFORCE.COM HAVE BEEN ADVISED OF THE POSSIBILI TY OF SUCH DAMAGES. This clause shall not impair the

U.S. Government's right to recover for fraud or crimes arising out of or related to this Contract under any federal fraud statute, including the False Claims Act, 31 U.S.C. §§ 3729-3733. Furthermore, this clause shall not impair nor prejudice the U.S. Government's right to EXPRESS remedies provided in the Contract (i.e. clause 552.238-72 – Price Reductions, clause 52.212-4(h) – Patent Indemnification, Liability for Injury or Damage (Section 3 of the Price List), and GSAR 552.215-72 – Price Adjustment – Failure to Provide Accurate Information).

16. **Further Contact.** Salesforce.com may contact you regarding new Salesforce.com service features and offerings.

17. **Third Party Beneficiary.** SFDC shall be a third party beneficiary to the agreement between You and Reseller solely as it relates to these SFDC Service Terms.

SOFTWARE LICENSE AND SUPPORT AGREEMENT
General Terms and Conditions
("GTC")

1. DEFINITIONS.

1.1 "Add-on" means any development using SAP API's that adds new and independent functionality, but does not modify existing SAP functionality.

1.2 "Agreement" means these GTCs, any Order Form referencing these GTCs, and the Use Terms and Schedules referenced by these GTCs and/or such Order Forms. All such components are integral to the agreement, and collectively are referred to herein as the "Agreement".

1.3 "API" means SAP's application programming interfaces, as well as other SAP code that allow other software products to communicate with or call on SAP Software (for example, SAP Enterprise Services, BAPIs, Idocs, RFCs and ABAP or other user exits) provided under this Agreement.

1.4 "Affiliate" mean any legal entity in the Territory in which the Licensee, directly or indirectly, holds more than fifty percent (50%) of the shares or voting rights. Any such legal entity shall be considered an Affiliate for only such time as such equity interest is maintained.

1.5 "Business Partner" means a legal entity that requires access to the Software in connection with Licensee's internal business operations, such as customers, distributors and/or suppliers of Licensee.

1.6 "Confidential Information" means, with respect to SAP, all information which SAP protects against unrestricted disclosure to others, including but not limited to: (a) the Software and Documentation and other SAP Materials, including without limitation the following information regarding the Software: (i) computer software (object and source codes), programming techniques and programming concepts, methods of processing, system designs embodied in the Software; (ii) benchmark results, manuals, program listings, data structures, flow charts, logic diagrams, functional specifications, file formats; and (iii) discoveries, inventions, concepts, designs, flow charts, documentation, product specifications, application program interface specifications, techniques and processes relating to the Software; (b) the research and development or investigations of SAP; (c) product offerings, content partners, product pricing, product availability, technical drawings, algorithms, processes, ideas, techniques, formulas, data, schematics, trade secrets, know-how, improvements, marketing plans, forecasts and strategies; and (d) any information about or concerning any third party (which information was provided to SAP subject to an applicable confidentiality obligation to such third party). With respect to Licensee, "Confidential Information" means all information which Licensee protects against unrestricted disclosure to others and which (i) if in tangible form, Licensee clearly identifies as confidential or proprietary at the time of disclosure; and (ii) if in intangible form (including disclosure made orally or visually), Licensee identifies as confidential at the time of disclosure, summarizes the Confidential Information in writing, and delivers such summary within thirty (30) calendar days of any such disclosure.

1.7 "Documentation" means SAP's documentation which is delivered or made available to Licensee with the Software under this Agreement.

1.8 "Intellectual Property Rights" means patents of any type, design rights, utility models or other similar invention rights, copyrights, mask work rights, trade secret or confidentiality rights, trademarks, trade names and service marks and any other intangible property rights, including applications and registrations for any of the foregoing, in any country, arising under statutory or common law or by contract and whether or not perfected, now existing or hereafter filed, issued, or acquired.

1.9 "Modification" means (i) a change to the delivered source code or metadata; or (ii) any development, other than a change to the delivered source code or metadata, that customizes, enhances, or changes existing functionality of the Software including, but not limited to, the creation of any new application program interfaces, alternative user interfaces or the extension of SAP data structures; or (iii) any other change to the Software (other than an Add-on) utilizing or incorporating any SAP Materials (defined below).

1.10 "Professional Services Schedule" means the terms and conditions governing SAP's delivery of professional services, attached hereto and made a part hereof.

1.11 "SAP Materials" means any software, programs, tools, systems, data, or other materials made available by SAP to Licensee in the course of the performance under this Agreement including, but not limited to, the Software and Documentation, as well as any information, materials or feedback provided by Licensee to SAP relating to the Software and Documentation.

1.12 "SAP Support" means SAP's then-current SAP support offering specified in the applicable Order Forms and made available to Licensee as stated in the applicable SAP Support Schedule found at www.sap.com/company/legal/index.epx as of the effective date of the first Software Order Form issued under these GTCs. Such SAP Support Schedule is incorporated herein by reference. For the avoidance of doubt, such SAP Support Schedule shall apply to all Order Forms issued under these GTCs, unless otherwise agreed by the parties. SAP recommends Licensee prints a copy of the applicable SAP Support Schedule for Licensee's own records.

1.13 "Software" means (i) any and all software products licensed to Licensee under this Agreement as specified in Software Order Forms hereto, all as developed by or for SAP, SAP AG, Business Objects Software Limited and/or any of their affiliated companies and delivered to Licensee hereunder; (ii) any new releases thereof made available through unrestricted shipment pursuant to the respective support agreement and (iii) any complete or partial copies of any of the foregoing.

1.14 "Software Order Form" means the order form for the Software and related SAP Support ordered by Licensee thereunder, including information on Software, SAP Support, fees, and other information necessary for the delivery of such items to Licensee.

The Software Order Form does not include fees for professional services, which shall be billed under separate statements of work in accord with the Professional Services Schedule.

1.15 "Territory" means the world except for those countries prohibited by United States' export laws, and further subject to Section 12.4 of the GTC.

1.16 "Third Party Software" means (i) any and all software products and content licensed to Licensee under this Agreement as specified in Software Order Forms hereto, all as developed by companies other than SAP, SAP AG, Business Objects Software Limited and/or any of their affiliated companies and delivered to Licensee hereunder; (ii) any new releases thereof made available through unrestricted shipment pursuant to the respective SAP Support Schedule and (iii) any complete or partial copies of any of the foregoing.

1.17 "Use" means to activate the processing capabilities of the Software, load, execute, access, employ the Software, or display information resulting from such capabilities.

1.18 "Use Terms" means, with regard to Software specified in a Software Order Form, the SAP Software Use Rights document current at the time of execution of such Software Order Form, copies of which are found at www.sap.com/company/legal/index.epx and made a part hereof. Such SAP Software Use Rights documents are incorporated herein by reference. SAP recommends Licensee prints copies of the applicable SAP Software Use Rights documents for Licensee's own records

2. LICENSE GRANT.

2.1 License.

2.1.1 Subject to Licensee's compliance with all the terms and conditions of this Agreement, SAP grants to Licensee a non-exclusive, perpetual (except for subscription based or term licenses) license to Use the Software, Documentation, and other SAP Materials at specified site(s) within the Territory to run Licensee's and its Affiliates' internal business operations (including customer back-up and passive disaster recovery) and to provide internal training and testing for such internal business operations and as further set forth in the Software Order Form, unless terminated in accordance with Section 5 herein. This license does not permit Licensee (without being limited specifically to such restrictions) to: (i) use the SAP Materials to provide services to third parties (e.g., business process outsourcing, service bureau applications or third party training) other than to Affiliates (subject to Section 2.2); (ii) lease, loan, resell, sublicense or otherwise distribute the SAP Materials, other than distribution to Affiliates (subject to Section 2.2); (iii) make any Use of or perform any acts with respect to the SAP Materials other than as expressly permitted in accordance with the terms of this Agreement; or (iv) use Software components other than those specifically identified in the Software Order Form, even if it is also technically possible for Licensee to access other Software components. Business Partners may Use the Software only through screen access and solely in conjunction with Licensee's Use and may not Use the Software to run any of Business Partners' business operations.

2.1.2 Licensee agrees to install the Software only on information technology devices (e.g. hard disks or central processing units) identified by Licensee pursuant to this Agreement and that has been previously approved by SAP in writing or otherwise officially made known to the public as appropriate for Use or interoperation with the Software (the "Designated Unit"). Licensee must hold the required licenses as stated herein and in the applicable Order Forms, for any individuals that Use the Software, including employees or agents of Affiliates and Business Partners. Use may occur by way of an interface delivered with or as a part of the Software, a Licensee or third-party interface, or another intermediary system.

2.1.3 The terms and conditions of this Agreement relative to "Software" apply to Third Party Software except as otherwise stated in the Software Use Rights Schedule, a Schedule, an Order Form, or an Amendment.

2.2 Affiliate Use. Affiliates' Use of the Software, Documentation and other SAP Materials to run their internal business operations as permitted under Section 2.1.1 is subject to the following: (i) the Affiliate agrees to be bound by the terms herein in the form of Schedule A ("Affiliate Use Agreement") attached hereto; and (ii) a breach of such Affiliate Use Agreement by Affiliate shall be considered a breach by Licensee hereunder. If Licensee has an affiliate or subsidiary with a separate agreement for SAP software licenses and/or support services with SAP AG, any SAP AG affiliate (including SAP) or any other distributor of SAP software, the Software shall not be Used to run such affiliate's or subsidiary's business operations and such affiliate or subsidiary shall not receive any support services under this Agreement even if such separate agreement has expired or is terminated, unless otherwise agreed to in writing by the parties.

2.3 Outsourcing Services. With SAP's prior written consent, Licensee may permit services providers to access the Software solely for the purpose of providing facility, implementation, systems, application management or disaster recovery services to Licensee in connection with the business of Licensee for which the Software is herein licensed provided: (i) Licensee and such services provider execute a written agreement that includes provisions requiring such services provider's compliance with the terms of this Agreement prior to such access, including without limitation non-disclosure of SAP Confidential Information; (ii) Licensee shall hold the required licenses as stated in the Use Terms for all employees of such services provider authorized to access the Software; (iii) such services provider shall be permitted to Use the Software solely to install and configure the Software in accordance with the business of Licensee as set forth herein (or in the case of a disaster recovery vendor, to provide disaster recovery services only); (iv) under no circumstances may such services provider Use the Software to operate or provide processing services to Licensee or any other party, or in connection with such services provider's own business operations; (v) Licensee shall be responsible for any additional Software, migration tools, or third party software needed to effect such transition; and (vi) Licensee expressly agrees to indemnify SAP, its officers, employees, agents and subcontractors from and against all claims, liabilities, losses, damages and costs (including reasonable attorney fees) suffered by SAP arising from a breach by the services provider of the conditions of this Agreement. Upon SAP request, Licensee shall provide written confirmation to SAP that items (i)-(iv) are fulfilled.

3. VERIFICATION. SAP shall be permitted to audit (at least once annually and in accordance with SAP standard procedures, which may include on-site and/or remote audit) the usage of the SAP Materials. Licensee shall cooperate reasonably in the conduct of such audits. In the event an audit reveals that (i) Licensee underpaid license fees and/or SAP Support fees to SAP and/or (ii) that Licensee has Used the Software in excess of the license quantities or levels stated in the Software Order Form, Licensee shall pay such underpaid fees and/or for such excess usage based on SAP List of Prices and Conditions Software and Support governing use in effect at the time of the audit, and shall execute an additional Software Order Form in accordance with the terms of this Agreement

to affect the required licensing of any additional quantities or levels. Reasonable costs of SAP's audit shall be paid by Licensee if the audit results indicate usage in excess of the licensed quantities or levels. SAP reserves all rights at law and equity with respect to both Licensee's underpayment of License fees or SAP Support fees and usage in excess of the license quantities or levels.

4. PRICE, PAYMENT, AND DELIVERY.

4.1 Fees. Licensee shall pay to SAP license fees for the Software and fees for SAP Support on the terms in Software Order Forms hereto. Fees for consulting services will be paid as set forth in the Professional Services Schedule. Any fees not paid when due shall accrue interest at the rate of 18% (eighteen percent) per annum, but not to exceed the maximum amount as allowed by law.

4.2 Taxes. Fees and other charges described in this Agreement do not include federal, state or local sales, foreign withholding, use, property, excise, service, or similar transaction taxes ("Tax(es)") now or hereafter levied, all of which shall be for Licensee's account. Any applicable direct pay permits or valid tax-exempt certificates must be provided to SAP prior to the execution of this Agreement. If SAP is required to pay Taxes, Licensee shall reimburse SAP for such amounts. Licensee hereby agrees to indemnify SAP for any Taxes and related costs, interest and penalties paid or payable by SAP.

4.3 Delivery of the Software and SAP Support. SAP will deliver the Software and SAP Support by making it available for electronic download through the SAP ServiceMarketplace (http://service.sap.com/swdc) to Licensee. Risk of loss passes at the time of such electronic delivery. Licensee agrees not to request any physical delivery of Software or SAP Support and should it occur that any such delivery will be rejected by Licensee. Licensee agrees and understands that the calculation of Taxes may be affected by the delivery method and delivery location of the Software and corresponding SAP Support.

5. TERM.

5.1. Term. This Agreement and the license granted hereunder shall become effective as of the date first set forth in the first Software Order Form issued under these GTCs, and shall continue in effect thereafter unless this Agreement is terminated upon the earliest to occur of the following: (i) thirty days after Licensee gives SAP written notice of Licensee's direction to terminate this Agreement, for any reason, but only after payment of all license and SAP Support fees then due and owing; (ii) thirty days after SAP gives Licensee notice of Licensee's material breach of any provision of the Agreement (other than Licensee's breach of its obligations under Sections 6, 10 or 11, which breach shall result in immediate termination), including more than thirty days delinquency in Licensee's payment of any money due hereunder, unless Licensee has cured such breach during such thirty day period; (iii) immediately if Licensee files for bankruptcy, becomes insolvent, or makes an assignment for the benefit of creditors. For the avoidance of any doubt, termination of the Agreement shall strictly apply to all licenses under the Agreement, its appendices, schedules, addenda and order documents and any partial termination of the Agreement by Licensee shall not be permitted in respect of any part of the Agreement, its appendices, schedules, addenda, order documents.

5.2 End of Term Duties. Upon any termination hereunder, Licensee and its Affiliates shall immediately cease Use of all SAP Materials and Confidential Information. Within thirty (30) days after any termination, Licensee shall irretrievably destroy or upon SAP's request deliver to SAP all copies of the SAP Materials and Confidential Information in every form, except to the extent it is legally required to keep it for a longer period in which case such return or destruction shall occur at the end of such period. Licensee must certify to SAP in writing that it has satisfied its obligations under this Section 5.2. Licensee agrees to certify in writing to SAP that it and each of its Affiliates has performed the foregoing. Sections 3, 4, 5.2, 6, 7.2, 8, 9, 10, 12.4, 12.5, 12.6 and 12.8 shall survive such termination. In the event of any termination hereunder, Licensee shall not be entitled to any refund of any payments made by Licensee. Termination shall not relieve Licensee from its obligation to pay fees that remain unpaid.

6. INTELLECTUAL PROPERTY RIGHTS.

6.1 Reservation of Rights. The SAP Materials, and all Intellectual Property Rights embodied in the foregoing, shall be the sole and exclusive property of SAP, SAP AG (the parent company of SAP) or its or their licensors, subject to any rights expressly granted to Licensee in Section 2 and 6.3 herein. Except for the rights set forth in Section 6.3 herein, Licensee is not permitted to modify or otherwise make derivative works of the Software. Any such unauthorized works developed by Licensee, and any Intellectual Property Rights embodied therein, shall be the sole and exclusive property of SAP or SAP AG.

6.2 Protection of Rights. Licensee shall not copy, translate, disassemble, or decompile, nor create or attempt to create the source code from the object code of the Software in any manner. Reverse engineering of the Software and other SAP Materials is prohibited. Licensee is permitted to back up data in accordance with good information technology practice and for this purpose to create the necessary backup copies of the Software. Backup copies on transportable discs or other data media must be marked as backup copies and bear the same copyright and authorship notice as the original discs or other data media. Licensee must not change or remove SAP's copyright and authorship notices.

6.3 Modifications/Add-ons.

6.3.1 Conditioned on Licensee's compliance with the terms and conditions of this Agreement, Licensee may make Modifications and/or Add-ons to the Software in furtherance of its permitted Use under this Agreement, and shall be permitted to use Modifications and Add-ons with the Software in accordance with the License grant to the Software set forth in Section 2.1.1 herein. Licensee shall comply with SAP's registration procedure prior to making Modifications or Add-ons. All Modifications and all rights associated therewith shall be the exclusive property of SAP and SAP AG. All Add-ons developed by SAP (either independently or jointly with Licensee) and all rights associated therewith shall be the exclusive property of SAP and SAP AG. Licensee agrees to execute those documents reasonably necessary to secure SAP's rights in the foregoing. All Add-ons developed by or on behalf of Licensee without SAP's participation ("Licensee Add-on"), and all rights associated therewith, shall be the exclusive property of Licensee subject to SAP's rights in and to the Software; provided, Licensee shall not commercialize, market, distribute, license, sublicense, transfer, assign or otherwise alienate any such Licensee Add-ons. SAP retains the right to independently develop its own Modifications or Add-ons to the Software, and Licensee agrees not to take any action that would limit SAP's sale, assignment, licensing or use of its own Software or Modifications or Add-ons thereto.

6.3.2 Any Modification developed by or on behalf of Licensee without SAP's participation or Licensee Add-on must not (and subject to other limitations set forth herein): enable the bypassing or circumventing any of the restrictions set forth in this Agreement and/or provide Licensee with access to the Software to which Licensee is not directly licensed; nor permit mass data extraction from

Software to any non-SAP software, including use, modification saving or other processing of data in the non-SAP software; nor unreasonably impair, degrade or reduce the performance or security of the Software; nor render or provide any information concerning SAP software license terms, Software, or any other information related to SAP products.

6.3.3 Licensee covenants, on behalf of itself and its successors and assigns, not to assert against SAP or its affiliated companies, or their resellers, distributors, suppliers, commercial partners and customers, any rights in any Modifications developed by or on behalf of Licensee without SAP participation or Licensee Add-ons , or any other functionality of the SAP Software accessed by such Modification developed by or on behalf of Licensee without SAP participation or Licensee Add-on.

7. PERFORMANCE WARRANTY.

7.1 Warranty. SAP warrants that the Software will substantially conform to the specifications contained in the Documentation for six months following delivery. The warranty shall not apply: (i) if the Software is not used in accordance with the Documentation; or (ii) if the defect is caused by a Modification or Add-on (other than a Modification or Add-on made by SAP and which is provided through SAP Support or under warranty), Licensee or third-party software. SAP does not warrant that the Software will operate uninterrupted or that it will be free from minor defects or errors that do not materially affect such performance, or that the applications contained in the Software are designed to meet all of Licensee's business requirements. Provided Licensee notifies SAP in writing with a specific description of the Software's nonconformance within the warranty period and SAP validates the existence of such nonconformance, SAP will, at its option: a) repair or replace the nonconforming Software, or b) refund the license fees paid for the applicable nonconforming Software in exchange for a return of such nonconforming Software. This is Licensee's sole and exclusive remedy under this warranty.

7.2 Express Disclaimer. SAP AND ITS LICENSORS DISCLAIM ALL OTHER WARRANTIES EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE EXCEPT TO THE EXTENT THAT ANY WARRANTIES IMPLIED BY LAW CANNOT BE VALIDLY WAIVED.

8. INDEMNIFICATION.

8.1 Infringement and Defense of Licensee. SAP shall defend Licensee against claims brought against Licensee in the Territory by any third party alleging that Licensee's Use of the Software, in accordance with the terms and conditions of this Agreement, constitutes a direct infringement or misappropriation of a patent claim(s), copyright or trade secret rights, and SAP will pay damages finally awarded against Licensee (or the amount of any settlement SAP enters into) with respect to such claims. This obligation of SAP shall not apply if the alleged infringement or misappropriation results from Use of the Software in conjunction with any other software, an apparatus other than a Designated Unit, failure to use an update promptly provided by SAP if such infringement or misappropriation could have been avoided by use of the update, or unlicensed activities. This obligation of SAP also shall not apply if Licensee fails to timely notify SAP in writing of any such claim. SAP is permitted to control fully the defense and any settlement of any such claim as long as such settlement shall not include a financial obligation on Licensee. In the event Licensee declines SAP's proffered defense, or otherwise fails to give full control of the defense to SAP's designated counsel, then Licensee waives SAP's obligations under this Section 8.1. Licensee shall cooperate fully in the defense of such claim and may appear, at its own expense, through counsel reasonably acceptable to SAP. SAP expressly reserves the right to cease such defense of any claim(s) in the event the Software is no longer alleged to infringe or misappropriate, or is held not to infringe or misappropriate, the third party's rights. SAP may settle or mitigate damages arising from any claim or potential claim, by substituting alternative substantially equivalent non-infringing programs and supporting documentation for the Software. Licensee shall not undertake any action in response to any infringement or misappropriation, or alleged infringement or misappropriation of the Software that is prejudicial to SAP's rights.

8.2 THE PROVISIONS OF THIS SECTION 8 STATE THE SOLE, EXCLUSIVE, AND ENTIRE LIABILITY OF SAP AND ITS LICENSORS TO LICENSEE, AND IS LICENSEE'S SOLE REMEDY, WITH RESPECT TO THE INFRINGEMENT OR MISAPPROPRIATION OF THIRD-PARTY INTELLECTUAL PROPERTY RIGHTS.

9. LIMITATIONS OF LIABILITY.

9.1 Not Responsible. SAP and its licensors will not be responsible under this Agreement (i) if the Software is not used in accordance with the Documentation; or (ii) if the defect or liability is caused by Licensee, a Modification or Add-on (other than a Modification or Add-on made by SAP which is provided through SAP Support or under warranty), or third-party software. SAP AND ITS LICENSORS SHALL NOT BE LIABLE FOR ANY CLAIMS OR DAMAGES ARISING FROM INHERENTLY DANGEROUS USE OF THE SOFTWARE AND/OR THIRD-PARTY SOFTWARE LICENSED HEREUNDER.

9.2 Exclusion of Damages; Limitation of Liability. ANYTHING TO THE CONTRARY HEREIN NOTWITHSTANDING, EXCEPT FOR DAMAGES RESULTING FROM UNAUTHORIZED USE OR DISCLOSURE OF CONFIDENTIAL INFORMATION OR DEATH OR PERSONAL INJURY ARISING FROM EITHER PARTY'S GROSS NEGLIGENCE OR WILLFUL MISCONDUCT, UNDER NO CIRCUMSTANCES AND REGARDLESS OF THE NATURE OF ANY CLAIM SHALL SAP, ITS LICENSORS OR LICENSEE BE LIABLE TO EACH OTHER OR ANY OTHER PERSON OR ENTITY FOR AN AMOUNT OF DAMAGES IN EXCESS OF THE PAID LICENSE FEES FOR THE SOFTWARE DIRECTLY CAUSING THE DAMAGES OR BE LIABLE IN ANY AMOUNT FOR SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR INDIRECT DAMAGES, LOSS OF GOOD WILL OR BUSINESS PROFITS, WORK STOPPAGE, DATA LOSS, COMPUTER FAILURE OR MALFUNCTION, ATTORNEYS' FEES, COURT COSTS, INTEREST OR EXEMPLARY OR PUNITIVE DAMAGES. The provisions of this Agreement allocate the risks between SAP and Licensee. The license fees reflect this allocation of risk and the limitations of liability herein.

10. CONFIDENTIALITY.

10.1. Use of Confidential Information. Confidential Information shall not be reproduced in any form except as required to accomplish the intent of this Agreement. Any reproduction of any Confidential Information of the other shall remain the property of the disclosing party and shall contain any and all confidential or proprietary notices or legends which appear on the original. With respect to the Confidential Information of the other, each party : (a) shall take all Reasonable Steps (defined below) to keep all Confidential Information strictly confidential; and (b) shall not disclose any Confidential Information of the other to any person other than its bona fide individuals whose access is necessary to enable it to exercise its rights hereunder. As used herein "Reasonable Steps" means those steps the receiving party takes to protect its own similar proprietary and confidential information, which shall not be less than a reasonable standard of care. Confidential Information of either party disclosed prior to execution of this Agreement shall be subject to the protections afforded hereunder.

10.2 Exceptions. The above restrictions on the use or disclosure of the Confidential Information shall not apply to any Confidential Information that: (a) is independently developed by the receiving party without reference to the disclosing party's Confidential Information, or is lawfully received free of restriction from a third party having the right to furnish such Confidential Information; (b) has become generally available to the public without breach of this Agreement by the receiving party; (c) at the time of disclosure, was known to the receiving party free of restriction; or (d) the disclosing party agrees in writing is free of such restrictions.

10.3 Confidential Terms and Conditions; Publicity. Licensee shall not disclose the terms and conditions of this Agreement or the pricing contained therein to any third party. Neither party shall use the name of the other party in publicity, advertising, or similar activity, without the prior written consent of the other, except that Licensee agrees that SAP may use Licensee's name in customer listings or, at times mutually agreeable to the parties, as part of SAP's marketing efforts (including without limitation reference calls and stories, press testimonials, site visits, SAPPHIRE participation).

11. ASSIGNMENT. Licensee may not, without SAP's prior written consent, assign, delegate, pledge, or otherwise transfer this Agreement, or any of its rights or obligations under this Agreement, or the SAP Materials or SAP Confidential Information, to any party, whether voluntarily or by operation of law, including by way of sale of assets, merger or consolidation. SAP may assign this Agreement to any of its affiliates.

12. GENERAL PROVISIONS.

12.1 Severability. It is the intent of the parties that in case any one or more of the provisions contained in this Agreement shall be held to be invalid or unenforceable in any respect, such invalidity or unenforceability shall not affect the other provisions of this Agreement, and this Agreement shall be construed as if such invalid or unenforceable provision had never been contained herein.

12.2 No Waiver. If either party should waive any breach of any provision of this Agreement, it shall not thereby be deemed to have waived any preceding or succeeding breach of the same or any other provision hereof.

12.3 Counterparts. This Agreement may be signed in two counterparts, each of which shall be deemed an original and which shall together constitute one Agreement.

12.4 Regulatory Matters. The Software, Documentation and SAP Materials are subject to the export control laws of various countries, including without limit the laws of the United States and Germany. Licensee agrees that it will not submit the Software, Documentation or other SAP Materials to any government agency for licensing consideration or other regulatory approval without the prior written consent of SAP, and will not export the Software, Documentation and SAP Materials to countries, persons or entities prohibited by such laws. Licensee shall also be responsible for complying with all applicable governmental regulations of the country where Licensee is registered, and any foreign countries with respect to the use of the Software, Documentation or other SAP Materials by Licensee and/or its Affiliates.

12.5 Governing Law; Limitations Period. This Agreement and any claims arising out of or relating to this Agreement and its subject matter shall be governed by and construed under the laws of Commonwealth of Pennsylvania without reference to its conflicts of law principles. In the event of any conflicts between foreign law, rules, and regulations, and United States law, rules, and regulations, United States law, rules, and regulations shall prevail and govern. The United Nations Convention on Contracts for the International Sale of Goods shall not apply to this Agreement. The Uniform Computer Information Transactions Act as enacted shall not apply. Licensee must initiate a cause of action for any claim(s) arising out of or relating to this Agreement and its subject matter within one (1) year from the date when Licensee knew, or should have known after reasonable investigation, of the facts giving rise to the claim(s).

12.6 Notices. All notices or reports which are required or may be given pursuant to this Agreement shall be in writing and shall be deemed duly given when delivered to the respective executive offices of SAP and Licensee at the addresses first set forth in any Software Order Form. Where in this section 12.6 or elsewhere in this Agreement written form is required, that requirement can be met by facsimile transmission, exchange of letters or other written form.

12.7 Force Majeure. Any delay or nonperformance of any provision of this Agreement (other than for the payment of amounts due hereunder) caused by conditions beyond the reasonable control of the performing party shall not constitute a breach of this Agreement, and the time for performance of such provision, if any, shall be deemed to be extended for a period equal to the duration of the conditions preventing performance.

12.8 Entire Agreement. This Agreement constitutes the complete and exclusive statement of the agreement between SAP and Licensee, and all previous representations, discussions, and writings are merged in, and superseded by this Agreement and the parties disclaim any reliance on any such representations, discussions and writings. This Agreement may be modified only by a writing signed by both parties. This Agreement shall prevail over any additional, conflicting, or inconsistent terms and conditions which may appear on any purchase order or other document furnished by Licensee to SAP. This Agreement shall prevail over any additional, conflicting or inconsistent terms and conditions which may appear in any clickwrap end user agreement included in the Software. Signatures sent by electronic means (facsimile or scanned and sent via e-mail) shall be deemed original signatures. This Agreement does not create any partnership, joint venture or principal and agent relationship.

12.9 Hierarchy. The following order of precedence shall be applied in the event of conflict or inconsistency between provisions of the components of this Agreement: (i) the Software Order Form; (ii) the Schedules; (iii) the Use Terms; and (iv) the GTC.

Schedule B to the GTC
"Professional Services Schedule"

The parties agree that this Schedule is hereby annexed to and made a part of the GTC. In each instance in which provisions of this Schedule contradict or are inconsistent with the provisions of the GTC, the provisions of this Schedule shall prevail and govern.

WHEREAS, Licensee licensed from SAP the right to Use SAP Software pursuant to the Agreement and SAP provides, through its employees, affiliates, and third party contractors ("Consultants"), consulting and professional services ("Services") including support of installation and implementation of the licensed Software in the United States.

1. Services. Upon request by Licensee, SAP will provide a Consultant(s) to perform, at Licensee's direction, consulting and professional services including support of installation and implementation of the applicable SAP Software ("Services"). Any Statement(s) of Work ("SOW") more fully describing the project assumptions, scope, duration and fees for the Services shall reference this Schedule. All Services of the SAP Consultant(s) will be coordinated with the designated Licensee representative. Licensee is responsible for making the necessary internal arrangements for the carrying out of the Services on a non-interference basis.

2. Satisfaction with Performance. If at any time Licensee or SAP is dissatisfied with the material performance of an assigned Consultant or a Licensee project team member, the dissatisfied party shall immediately report such dissatisfaction to the other party in writing and may request a replacement. The other party shall use its reasonable discretion in accomplishing any such change.

3. Compensation of SAP. All Services will be provided by SAP on a time and expense basis at SAP's then current rates, unless otherwise agreed by the parties in a SOW.

4. Taxes. The fees listed in the applicable SOW do not include taxes. If SAP is required to pay sales, use, property, value-added or other taxes based on the Services provided under this Schedule, then such taxes shall be billed to and paid by Licensee. This section shall not apply to taxes based on SAP's income. Licensee also agrees to pay SAP for additional tax amounts if any, created by the taxability of Consultants reimbursed travel and living expenses resulting from long term assignments at Licensee's locations.

5. Work Product. Unless otherwise agreed to in writing by the parties in a SOW, SAP shall have the sole and exclusive right, title and ownership to any and all ideas, concepts, or other intellectual property rights related in any way to the techniques, knowledge or processes of the SAP Services and deliverables, whether or not developed for Licensee.

6. Warranty. SAP warrants that its Services shall be performed consistent with generally accepted industry standards. SAP MAKES NO WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, NOR ANY OTHER WARRANTIES, EXPRESS, IMPLIED OR STATUTORY, IN CONNECTION WITH THIS SCHEDULE AND THE SERVICES PROVIDED HEREUNDER.

7. Limitation of Liability. WITH RESPECT TO SERVICES, ANYTHING TO THE CONTRARY NOTWITHSTANDING, EXCEPT FOR DAMAGES RESULTING FROM UNAUTHORIZED USE OR DISCLOSURE OF THE PROPRIETARY INFORMATION AND SAP'S RIGHT TO COLLECT UNPAID FEES, UNDER NO CIRCUMSTANCES SHALL SAP, ITS CONSULTANTS OR LICENSEE BE LIABLE TO EACH OTHER OR ANY OTHER PERSON OR ENTITY FOR AN AMOUNT OF DAMAGES IN EXCESS OF THE FEES PAID FOR THE APPLICABLE SERVICES HEREUNDER OR BE LIABLE IN ANY AMOUNT FOR SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR INDIRECT DAMAGES, LOSS OF GOOD WILL OR BUSINESS PROFITS, WORK STOPPAGE, DATA LOSS, COMPUTER FAILURE OR MALFUNCTION, OR EXEMPLARY OR PUNITIVE DAMAGES. The provisions of the Schedule allocate the risks between SAP and Licensee. The License Fees reflect this allocation of risk and the limitations of liability herein.

8. Termination. The terms of this Schedule shall be effective as of the Effective Date of the Agreement and shall remain in effect until terminated by either party upon thirty (30) days prior written notice or otherwise in accordance with a particular SOW. Licensee shall be liable for payment to SAP for all Services provided prior to the effective date of any such termination, including any expenses incurred pursuant to the provision of such Services, in accord with the applicable SOW.

9. General Provisions.
   9.1 SAP may subcontract all or part of the Services to be performed to a qualified third party.
   9.2 With respect to the Services provided by SAP under this Schedule and any SOW hereto, the relationship of SAP and Licensee is that of an independent contractor.
   9.3 This Schedule, including any applicable SOWs, constitutes the entire agreement between the parties with respect to the subject matter hereof and supersedes all prior agreements between the parties, whether written or oral, relating to the same subject matter. In the event of any inconsistencies between this Schedule and a SOW, the SOW shall take precedence over the Schedule. Any purchase order or other document issued by Licensee is for administrative convenience only.

10. Survival. Sections 5 and 7 above shall survive any termination of this Schedule.

SUBSCRIPTION SERVICE AGREEMENT

This Subscription Service Agreement (including the Subscription Service Guide, attached hereto) ("***Agreement***") is made between the ServiceNow entity ("***ServiceNow***") and the customer entity ("***Customer***") on the ordering document and becomes effective on the last signature date of the ordering document issued by ServiceNow ("***Effective Date***").

The Subscription Service Guide includes: (1) the Customer Support Policy; (2) the Upgrade Policy; (3) the Data Security Guide; and (4) any other attachment set forth or referenced in the Subscription Service Guide. The Subscription Service Guide is posted on www.servicenow.com/schedules.do and incorporated herein by reference.

Pursuant to a separate transaction between Customer and ServiceNow's authorized reseller ("***Reseller***"), Customer has purchased from Reseller certain services to be delivered by ServiceNow. This Agreement specifies the terms and conditions under which those services will be provided, apart from price, payment and other terms specified in the separate agreement between Customer and Reseller.

1. DEFINITIONS

1.1. "***Confidential Information***" means: (a) ServiceNow Core Technology (which is Confidential Information of ServiceNow); (b) Customer Data and Customer Technology (which are Confidential Information of Customer); (c) any other information of a party that is disclosed in writing or orally and is designated as *Confidential* or *Proprietary* at the time of disclosure (and, in the case of oral disclosures, summarized in writing within thirty (30) days of the initial disclosure and delivered to the receiving party), or that due to the nature of the information the receiving party would clearly understand it to be confidential information of the disclosing party; and (d) the specific terms and conditions of this Agreement, any Use Authorization, any SOW, and any amendment and attachment thereof, between the parties. Confidential Information shall not include any information that: (i) is or becomes generally known to the public through no fault or breach of this Agreement by the receiving party; (ii) was rightfully in the receiving party's possession at the time of disclosure without restriction on use or disclosure; (iii) is independently developed by the receiving party without use of the disclosing party's Confidential Information; or (iv) was or is rightfully obtained by the receiving party from a third party not under a duty of confidentiality and without restriction on use or disclosure.

1.2. "***Customer Data***" means electronic data uploaded by or for Customer and Customer's agents, employees and contractors, and processed in the Subscription Service, excluding the ServiceNow Core Technology.

1.3. "***Customer Technology***" means software, methodologies, templates, business processes, documentation or other material authored, invented or otherwise created or licensed (other than by or from ServiceNow) by Customer using or for use with the Subscription Service, excluding the ServiceNow Core Technology.

1.4. "***Development Tools***" means source code, application programming interfaces (APIs), executable software and tools in human readable format made available by ServiceNow for the implementation, customization, configuration, and use of the Subscription Service, such as scripts, code snippets, sample code, and development tools published by ServiceNow.

1.5. "***Documentation***" means the ServiceNow product documentation relating to the operation and use of the Subscription Service, Software and Development Tools, including technical program or interface documentation, user manuals, operating instructions and release notes, as updated from time to time by ServiceNow.

1.6. "***Product Overview***" means the description of the ordered products and their functionalities attached to a Use Authorization or referenced therein.

1.7. "***Professional Services***" means any services provided by ServiceNow pursuant to an agreed SOW or Service Description.

1.8. "***Service Description***" means the written description for a packaged Professional Service, attached to a Use Authorization or referenced therein.

1.9. "***ServiceNow Core Technology***" means: (a) the Subscription Service; Software; Development Tools, Documentation; and ServiceNow technology and methodologies (including, without limitation, products, software tools, hardware designs, algorithms, templates, software (in source and object forms), architecture, class libraries, objects and documentation) existing as of the Effective Date or otherwise arising outside of work under a Professional Service; (b) updates, upgrades, improvements, configurations, extensions, and derivative works of the foregoing and related technical or end user documentation or manuals; and (c) intellectual property anywhere in the world relating to the foregoing.

1.10. "***Software***" means software provided by ServiceNow to Customer that operates on Customer-provided machines solely to facilitate the use of the Subscription Service.

1.11. "***SOW***" means a statement of work for Professional Services.

1.12. "***Subscription Service***" means the ServiceNow software as a service (SaaS) offering identified in a Use Authorization.

1.13. "***Subscription Term***" means the term of authorized use of the Subscription Service as set forth in the Use Authorization.

1.14. "***Use Authorization***" means a written document provided to Customer specifying the services that Customer has purchased, along with the term and scope of the authorized use thereof.

2. GRANT OF USE RIGHTS

2.1. SUBSCRIPTION SERVICE. Subject to the terms of this Agreement, ServiceNow authorizes Customer to access and use the purchased Subscription Service during the Subscription Term as set forth in an applicable Use Authorization for its internal business purposes in accordance with the Documentation. Customer shall not use or otherwise access the Subscription Service in a manner that exceeds Customer's authorized use as set forth in this Agreement and the applicable Use Authorization.

2.2. SOFTWARE. ServiceNow grants Customer a limited, personal, worldwide, non-sublicensable, non-transferable (except as set forth in Section 10.1 (Assignment)), non-exclusive license during the Subscription Term to install and execute Software on machines operated by or for Customer solely to facilitate Customer's authorized access to and use of the purchased Subscription Service. The Software may include code that is licensed under third party license agreements, including open source made available or provided with the Software. Software is licensed and not sold even if for convenience ServiceNow makes reference to words such as *sale* or *purchase*.

2.3. DEVELOPMENT TOOLS. In support of Customer's authorized internal business use of the Subscription Service during the Subscription Term, ServiceNow grants to Customer a limited, personal, worldwide, non-sublicensable, non-transferable (except as set forth in Section 10.1 (Assignment)), non-exclusive license to download and make a reasonable number of copies of the Development Tools, and to use, copy, modify and create derivative works of the Development Tools, in: (a) using, implementing and integrating the ServiceNow applications with other software and systems; and (b) creating applications on the ServiceNow platform (to the extent Customer has purchased authorized use of the Subscription Service to create applications on the ServiceNow platform). Customer shall not use the Development Tools in a manner that causes it to exceed the limits of its authorized use of the Subscription Service as set forth in this Agreement and the Use Authorization. From time to time, ServiceNow may provide Development Tools subject to the terms and conditions of separate agreements which will be provided to Customer for review and to which Customer will be required to agree prior to use of such Development Tools; provided that ServiceNow shall not require Customer to agree to separate terms and conditions for any Development Tool that is necessary for Customer's use of its ordered Subscription Service in conformance with the Product Overview unless set forth on the Use Authorization.

2.4. RESTRICTIONS. Customer shall not (and shall not permit others to) do the following with respect to the ServiceNow Core Technology: (i) use the Subscription Service with external programs in a manner that intentionally circumvents contractual usage restrictions; (ii) license, sub-license, sell, re-sell, rent, lease, transfer, distribute or time share or otherwise make any of it available for access by third parties except as otherwise expressly provided in a Use Authorization; (iii) access it for the purpose of developing or operating products or services intended to be offered to third parties in competition with the Subscription Service; (iv) disassemble, reverse engineer or decompile it; (v) copy, create derivative works based on or otherwise modify it except as permitted in this Agreement; (vi) remove or modify a copyright or other proprietary rights notice in it; (vii) use it to reproduce, distribute, display, transmit or use material protected by copyright or other intellectual property right (including the rights of publicity or privacy) without first obtaining the permission of the owner; (viii) use it to create, use, send, store or run viruses or other harmful computer code, files, scripts, agents or other programs or otherwise engage in a malicious act or disrupt its security, integrity or operation; or (ix) access or disable any ServiceNow or third party data, software or network (other than Customer's instance of the Subscription Service in accordance with this Agreement). Before Customer exercises any of the foregoing actions that Customer believes it is entitled to, Customer shall provide ServiceNow with thirty (30) days' prior written notice to legalnotices@servicenow.com (or, if applicable law or the relevant court order does not allow for such notice, then the maximum amount of notice allowable), and provide reasonably requested information to allow ServiceNow to assess Customer's claim and, at ServiceNow's sole discretion, provide alternatives that reduce adverse impacts on ServiceNow's intellectual property and other rights.

3. ORDERING

3.1. RESELLER ORDERS. Customer shall order and purchase the Subscription Service and Professional Services directly from Reseller pursuant to a separate agreement specifying price, payment and other commercial terms. ServiceNow is not a party to such separate agreement but will provide the purchased services pursuant to this Agreement. For each order, Reseller or ServiceNow will provide Customer with a Use Authorization for Customer to sign and return to ServiceNow. ServiceNow will have no obligation to provide services unless and until it has received a Use Authorization signed by Customer. Reseller is not authorized to make any changes to this Agreement (including any Use Authorizations issued hereunder) or bind ServiceNow to any additional or different terms or conditions. Additional orders for ServiceNow products or services may be placed either through Reseller or ServiceNow, provided that if Customer places an order directly through ServiceNow, Customer shall sign an addendum to this Agreement setting forth pricing, payment and other commercial terms between Customer and ServiceNow.

3.2. USE VERIFICATION. ServiceNow or Reseller may remotely review Customer's use of the Subscription Service, and upon ServiceNow or Reseller's written request Customer shall provide any reasonable assistance, to verify Customer's compliance with the Agreement. If ServiceNow determines that Customer has exceeded its permitted use of the Subscription Service then ServiceNow will notify Customer and within thirty (30) days thereafter Customer shall either: (i) disable any unpermitted use or (ii) purchase additional subscriptions commensurate with Customer's actual use. If Customer fails to regain compliance within such thirty (30) day period or fails to make payment as provided in its agreement with Reseller, ServiceNow may suspend Customer's use of the Subscription Service or terminate this Agreement for cause in accordance with Section 9 (Term and Termination), in addition to any other rights or remedies ServiceNow may have.

4. INTELLECTUAL PROPERTY

4.1. SERVICENOW OWNERSHIP. As between ServiceNow and Customer, all rights, title, and interest in and to all intellectual property rights in the ServiceNow Core Technology are owned exclusively by ServiceNow notwithstanding any other provision in this Agreement. Except as expressly provided in this Agreement, ServiceNow reserves all rights in the ServiceNow Core Technology and does not grant Customer any rights, express or implied or by estoppel.

4.2. CUSTOMER OWNERSHIP. As between Customer and ServiceNow, Customer shall retain all of its rights, title, and interest in and to its intellectual property rights in Customer Data and Customer Technology. Customer hereby grants to ServiceNow a royalty-free, fully-paid, non-exclusive, non-transferable (except as set

forth in Section 10.1 (Assignment)), sub-licensable, worldwide right to use Customer Data and Customer Technology solely for the purpose of providing the Subscription Service and Professional Services to Customer.

4.3. FEEDBACK. ServiceNow encourages Customer to provide suggestions, proposals, ideas, recommendations or other feedback regarding improvements to ServiceNow's services and related resources. To the extent Customer provides such feedback, Customer grants to ServiceNow a royalty-free, fully paid, sub-licensable, transferable (notwithstanding Section 10.1 (Assignment)), non-exclusive, irrevocable, perpetual, worldwide right and license to make, use, sell, offer for sale, import and otherwise exploit feedback (including by incorporation of such feedback into the ServiceNow Core Technology) without restriction.

4.4. PROFESSIONAL SERVICES. Subject to the provisions of this Section 4.4, ServiceNow shall assign to Customer any Newly Created IP (as defined below) in Deliverables upon payment in full by Customer of all amounts due for the Professional Service under which the Deliverable was created. A "***Deliverable***" is a deliverable that is identified in the applicable SOW or Service Description and that is created by ServiceNow for Customer in the performance of the Professional Services. "***Newly Created IP***" means intellectual property in any inventions or works of authorship that are made by ServiceNow specifically for Customer in the course of performing Professional Services for Customer that is identified as "Newly Created IP" in an SOW, excluding the ServiceNow Core Technology. To the extent (if at all) any ServiceNow Core Technology is incorporated into a Deliverable, ServiceNow grants to Customer a non-exclusive, royalty-free, non-transferable, non-sublicensable worldwide license to use the ServiceNow Core Technology solely to use the Deliverable in connection with the Subscription Service as contemplated under this Agreement during the Subscription Term. Nothing in this Agreement shall be deemed to restrict or limit ServiceNow's right to perform similar Professional Services for any other party or to assign any employees or subcontractors to perform similar Professional Services for any other party or to use any information incidentally retained in the unaided memories of its employees providing Professional Services.

5. WARRANTIES

5.1. LIMITED SUBSCRIPTION SERVICE WARRANTY. ServiceNow warrants that during the Subscription Term Customer's production instances of the Subscription Service shall materially conform to the Product Overview. To submit a warranty claim under this Section, Customer shall (1) reference this Section; and (2) submit a support request to resolve the non-conformity as provided in the Subscription Service Guide. If the non-conformity persists without relief more than thirty (30) days after written notice of a warranty claim provided to ServiceNow under this Section 5.1, then Customer may terminate the affected Subscription Service and submit to Reseller a claim for refund of any prepaid subscription fees covering the remainder of the Subscription Term of the affected Subscription Service after the date of termination. Notwithstanding the foregoing, this warranty shall not apply to any non-conformity due to a modification of or defect in the Subscription Service that is made or caused by any person other than ServiceNow or a person acting at ServiceNow's direction. THIS SECTION 5.1 SETS FORTH CUSTOMER'S EXCLUSIVE RIGHTS AND REMEDIES (AND SERVICENOW'S SOLE LIABILITY) IN CONNECTION WITH THIS WARRANTY.

5.2. LIMITED PROFESSIONAL SERVICES WARRANTY. ServiceNow warrants that the Professional Services will be performed in a competent and workmanlike manner in accordance with accepted industry standards and practices and all material requirements set forth in the SOW or Service Description. Customer shall notify ServiceNow in writing of any breach within thirty (30) days after performance of the non-conforming Professional Services. Upon receipt of such notice, ServiceNow, at its option, shall either use commercially reasonable efforts to re-perform the Professional Services in conformance with these warranty requirements or shall terminate the affected Professional Services, in which case Customer may submit to Reseller a claim for a refund of any amounts paid for the nonconforming Professional Services. THIS SECTION 5.2 SETS FORTH CUSTOMER'S EXCLUSIVE RIGHTS AND REMEDIES (AND SERVICENOW'S SOLE LIABILITY) IN CONNECTION WITH THIS WARRANTY.

5.3. DISCLAIMER OF WARRANTIES. EXCEPT FOR THE WARRANTIES EXPRESSLY STATED IN THIS AGREEMENT, TO THE MAXIMUM EXTENT ALLOWED BY LAW, SERVICENOW DISCLAIMS ALL WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, ORAL OR WRITTEN, INCLUDING WARRANTIES

ARISING UNDER STATUTE, WARRANTIES OF MERCHANTABILITY, ACCURACY, TITLE, NON-INFRINGEMENT OR FITNESS FOR A PARTICULAR PURPOSE OR ANY WARRANTIES ARISING FROM USAGE OF TRADE, COURSE OF DEALING OR COURSE OF PERFORMANCE. WITHOUT LIMITING THE GENERALITY OF THE FOREGOING, SERVICENOW SPECIFICALLY DOES NOT WARRANT THAT THE SUBSCRIPTION SERVICE, SOFTWARE, PROFESSIONAL SERVICES, DEVELOPMENT TOOLS, DOCUMENTATION OR DELIVERABLES WILL MEET THE REQUIREMENTS OF CUSTOMER OR OTHERS OR THAT THEY WILL BE ACCURATE OR OPERATE WITHOUT INTERRUPTION OR ERROR. CUSTOMER ACKNOWLEDGES THAT IN ENTERING THIS AGREEMENT IT HAS NOT RELIED ON ANY PROMISE, WARRANTY OR REPRESENTATION NOT EXPRESSLY SET FORTH HEREIN.

6. CONFIDENTIAL INFORMATION

6.1. CONFIDENTIALITY OBLIGATIONS. The recipient of Confidential Information shall: (i) at all times protect it from unauthorized disclosure with the same degree of care that it uses to protect its own confidential information, and in no event using less than reasonable care; and (ii) not use it except to the extent necessary to exercise rights or fulfill obligations under this Agreement. Each party shall limit the disclosure of the other party's Confidential Information to those of its employees and contractors with a need to access such Confidential Information for a party's exercise of its rights and obligations under this Agreement, provided that all such employees and contractors are subject to binding disclosure and use restrictions at least as protective as those set forth herein. Each party's obligations set forth in this Section 6 shall remain in effect during the term and three (3) years after termination of this Agreement. The receiving party shall, at the disclosing party's request or upon termination of this Agreement, return all originals, copies, reproductions and summaries of Confidential Information and other tangible materials and devices provided to the receiving party as Confidential Information, or at the disclosing party's option, certify destruction of the same. Provisions for the return of Customer Data are set forth in Section 9.3 (Return of Customer Data).

6.2. REQUIRED DISCLOSURES. A party may disclose the disclosing party's Confidential Information to a court or governmental body pursuant to a valid court order, law, subpoena or regulation, provided that the receiving party: (a) promptly notifies the disclosing party of such requirement as far in advance as possible to the extent advanced notice is lawful; and (b) provides reasonable assistance to the disclosing party in any lawful efforts by the disclosing party to resist or limit the disclosure of such Confidential Information.

6.3. EQUITABLE REMEDIES. The parties agree that the receiving party's disclosure of Confidential Information except as provided herein may result in irreparable injury for which a remedy in money damages may be inadequate. The parties further agree that in the event of such disclosure or threatened disclosure, the disclosing party may be entitled to seek an injunction to prevent the breach or threatened breach without the necessity of proving irreparable injury or the inadequacy of money damages, in addition to remedies otherwise available to the disclosing party at law or in equity.

7. INDEMNIFICATION

7.1. SERVICENOW OBLIGATION. Subject to the exclusions set forth below, ServiceNow shall: (i) defend Customer, its officers, directors and employees against any third party suit, claim, action or demand (each a *"**Claim**"*) to the extent alleging: (A) that the Subscription Service used in accordance with this Agreement infringes any third party patent, copyright or trademark, or misappropriates any third party trade secret; or (B) that ServiceNow's personnel when onsite at Customer's premises caused death, bodily harm or damage to tangible personal property due to their negligence or willful misconduct; and (ii) pay any court-ordered award of damages or settlement amount to the extent arising from any such Claims. If any portion of the Subscription Service becomes the subject of a Claim under Section 7.1(i)(A), ServiceNow may: (a) contest the Claim; (b) obtain permission from the claimant for Customer's continued use of the Subscription Service; (c) replace or modify the Subscription Service to avoid infringement, if such replacement or modification has substantially the same capabilities as the Subscription Service; or, if the foregoing (a), (b), and (c) are not available on commercially reasonable terms in ServiceNow's judgment, then (d) terminate Customer's use of the affected Subscription Service upon sixty (60) days' written notice, whereupon Customer may submit to Reseller a claim for a refund of any prepaid subscription fees covering the remaining portion of the applicable Subscription Term for the affected

Subscription Service after the date of termination. Notwithstanding the above, ServiceNow shall have no obligation or liability for any Claim under Section 7.1(i)(A) arising in whole or in part from: (1) any use of the Subscription Service which exceeds the authorized use permitted under this Agreement or not in accordance with the Documentation; (2) Customer Data or Customer Technology; (3) use of the Subscription Service by Customer in violation of applicable law; (4) use of the affected Subscription Service after termination in accordance with clause (d) of this Section 7.1; (5) modifications to the Subscription Service made to Customer's specifications or otherwise made by any person other than ServiceNow or a person acting at ServiceNow's direction if the Claim would have been avoided by use of the unmodified Subscription Service; or (6) use of the Subscription Service in combination with any hardware, software, application or service that was not provided by ServiceNow, if the Claim would have been avoided by the non-combined or independent use of the Subscription Service.

7.2. CUSTOMER OBLIGATION. Customer shall: (i) defend ServiceNow, its officers, directors and employees against any Claim alleging that: (A) Customer Data, (B) Customer Technology or (C) a modification to the Subscription Service made to Customer's specifications or otherwise made by or on behalf of Customer by any person other than ServiceNow or a person acting at ServiceNow's direction (but only if the Claim would have been avoided by use of the unmodified Subscription Service), infringes any patent, copyright or trademark, misappropriates any third party trade secret, or violates any third party privacy rights; and (ii) pay any court-ordered award of damages or settlement amount to the extent arising from such Claim.

7.3. PROCESS. All of the foregoing indemnity obligations of ServiceNow and Customer are conditioned on the indemnified party notifying the indemnifying party promptly in writing of any actual or threatened Claim, the indemnified party giving the indemnifying party sole control of the defense thereof and any related settlement negotiations, and the indemnified party cooperating and, at the indemnifying party's request and expense, assisting in such defense. SECTION 7 STATES EACH PARTY'S ENTIRE LIABILITY AND THE OTHER PARTY'S EXCLUSIVE REMEDY FOR THIRD PARTY CLAIMS AND ACTIONS.

8. LIMITATIONS OF LIABILITY

8.1. LIMITATIONS OF LIABILITY. SERVICENOW SHALL HAVE NO LIABILITY FOR ANY REFUND THAT, IN ACCORDANCE WITH THE TERMS OF THIS AGREEMENT, IS TO BE PAID BY RESELLER. TO THE EXTENT PERMITTED BY LAW, THE TOTAL, CUMULATIVE LIABILITY OF EACH PARTY ARISING OUT OF OR RELATED TO THIS AGREEMENT OR THE PRODUCTS OR SERVICES PROVIDED HEREUNDER WHETHER BASED ON CONTRACT, TORT (INCLUDING NEGLIGENCE) OR ANY OTHER LEGAL OR EQUITABLE THEORY, SHALL BE LIMITED TO THE AMOUNTS PAID BY CUSTOMER FOR THE PRODUCTS OR SERVICES GIVING RISE TO THE CLAIM DURING THE TWELVE (12) MONTH PERIOD PRECEDING THE FIRST EVENT GIVING RISE TO LIABILITY. THE EXISTENCE OF MORE THAN ONE CLAIM SHALL NOT ENLARGE THIS LIMIT. THE FOREGOING LIMITATION OF LIABILITY SHALL NOT APPLY TO:
(1) CUSTOMER'S OBLIGATION TO PAY FOR PRODUCTS, SERVICES OR TAXES; (2) A PARTY'S OBLIGATIONS IN SECTION 7 (INDEMNIFICATION); AND (3) INFRINGEMENT BY A PARTY OF THE OTHER PARTY'S INTELLECTUAL PROPERTY RIGHTS.

8.2. EXCLUSION OF DAMAGES. TO THE EXTENT PERMITTED BY LAW, NEITHER SERVICENOW NOR CUSTOMER SHALL BE LIABLE TO THE OTHER OR ANY THIRD PARTY FOR LOST PROFITS (WHETHER DIRECT OR INDIRECT) OR LOSS OF USE OR DATA, COVER, SUBSTITUTE GOODS OR SERVICES, OR FOR INCIDENTAL, CONSEQUENTIAL, PUNITIVE, SPECIAL OR EXEMPLARY DAMAGES (INCLUDING DAMAGE TO BUSINESS, REPUTATION OR GOODWILL), OR INDIRECT DAMAGES OF ANY TYPE HOWEVER CAUSED, WHETHER BY BREACH OF WARRANTY, BREACH OF CONTRACT, IN TORT (INCLUDING NEGLIGENCE) OR ANY OTHER LEGAL OR EQUITABLE CAUSE OF ACTION EVEN IF SUCH PARTY HAS BEEN ADVISED OF SUCH DAMAGES IN ADVANCE OR IF SUCH DAMAGES WERE FORESEEABLE. THE FOREGOING EXCLUSIONS SHALL NOT APPLY TO: (1) PAYMENTS TO A THIRD PARTY ARISING FROM A PARTY'S OBLIGATIONS UNDER SECTION 7 (INDEMNIFICATION); AND (2) INFRINGEMENT BY A PARTY OF THE OTHER PARTY'S INTELLECTUAL PROPERTY RIGHTS.

8.3. GROSS NEGLIGENCE; WILFUL MISCONDUCT. AS PROVIDED BY LAW, NOTHING HEREIN SHALL BE INTENDED TO LIMIT A PARTY'S LIABILITY IN AN ACTION IN TORT (SEPARATE AND DISTINCT

FROM A CAUSE OF ACTION FOR BREACH OF THIS AGREEMENT) FOR THE PARTY'S GROSS NEGLIGENCE OR WILFUL MISCONDUCT.

9. TERM AND TERMINATION

9.1. TERM AND TERMINATION. This Agreement continues until terminated under the terms of this Agreement. Each party may terminate this Agreement in its entirety either: (i) upon thirty (30) days' prior written notice to the other party, if at the time of notice there are no Use Authorizations in effect; or (ii) upon written notice if the other party becomes the subject of a petition in bankruptcy or any proceeding related to its insolvency, receivership or liquidation, in any jurisdiction, that is not dismissed within sixty (60) days of its commencement or an assignment for the benefit of creditors. Either party may terminate a Subscription Service or Professional Services upon written notice if the other party materially breaches this Agreement or the applicable Use Authorization for the affected service and does not cure the breach within thirty (30) days after receiving written notice thereof from the non-breaching party. Professional Services are separately ordered from the Subscription Service, and are not required for the Subscription Service. A breach by a party of its obligations with respect to Professional Services shall not by itself constitute a breach by that party of its obligations with respect to the Subscription Service even if the services are enumerated in the same Use Authorization.

9.2. EFFECT OF TERMINATION OF SUBSCRIPTION SERVICE. Upon termination of the Subscription Service for any reason, Customer shall stop using, and ServiceNow shall stop providing, the Subscription Service and all rights granted to Customer in this Agreement shall terminate. If the Subscription Service is terminated by Customer due to ServiceNow's breach, then Customer may submit to Reseller a claim for refund of all prepaid fees for the remaining portion of the Subscription Term for the terminated Subscription Service after the effective date of termination. Within thirty (30) days following the effective date of a termination by ServiceNow for Customer's breach, Customer shall pay all remaining amounts for the Subscription Term applicable to the Subscription Service covering the remainder of the Subscription Term regardless of the due dates specified in Reseller's order form to Customer.

9.3. TRANSITION SERVICES. At least thirty (30) days prior to either the expiration of the Subscription Term (where Customer elects not to renew) or in connection with the termination by Customer of the Subscription Service in accordance with Section 9.1, provided that Customer signs an addendum to this Agreement setting forth payment and other commercial terms between Customer and ServiceNow, Customer may purchase the following services from ServiceNow: (i) one (1) extension of the Subscription Service for up to six (6) months ("***Transition Subscription Service***"); and (ii) Professional Services. Prior to the commencement of any Transition Subscription Service or Professional Services, Customer shall sign an ordering document and shall pay in advance for the Transition Subscription Service and any Professional Services plus verifiable travel and expenses.

9.4. RETURN OF CUSTOMER DATA. ServiceNow shall provide Customer Data in its standard database export format, excluding the ServiceNow Core Technology, to Customer upon Customer's written request and at no additional cost to Customer, provided that ServiceNow receives such request from Customer within forty-five (45) days following the expiration or termination of this Agreement for the Subscription Service (including any Transition Subscription Service term, if applicable).If ServiceNow has not received a request within the foregoing time frame, ServiceNow shall have no obligation to maintain or provide any Customer Data and shall thereafter, unless legally prohibited, have the right to delete all Customer Data in its systems or otherwise in its possession or under its control and delete Customer's instances of the Subscription Service.

9.5. SURVIVAL. Sections 2.4 (Restrictions), 4.1 (ServiceNow Ownership), 4.2 (Customer Ownership), 4.3 (Feedback) and 6 (Confidential Information) through 10 (General Provisions) of this Agreement, together with any other provision required for their construction or enforcement, shall survive termination of this Agreement for any reason.

10. GENERAL PROVISIONS

10.1. ASSIGNMENT. Neither party may assign its rights or obligations under this Agreement, whether by operation of law or otherwise, without the prior written consent of the other party. Notwithstanding the

foregoing, either party may, upon notice and without the other party's consent: (i) in connection with a merger, reorganization or sale of all or substantially all of the assets or equity of such party, assign this Agreement in its entirety to such party's successor; and (ii) assign this Agreement in its entirety to any Affiliate. "***Affiliates***" shall mean any person or entity directly or indirectly Controlling, Controlled by or under common Control with a party to the Agreement, where "***Control***" means the legal power to direct or cause the direction of the general management of the company, partnership or other legal entity. Any attempted or purported assignment in violation of this Section 10.1 will be null and void. Subject to the foregoing, this Agreement shall bind and inure to the benefit of the parties, their respective successors and permitted assigns.

10.2. COMPLIANCE WITH LAWS. ServiceNow shall comply with any statutes and regulations that apply to its provision of the Subscription Service, Professional Services, Software, Documentation, Development Tools and Deliverables, under the Agreement, including but not limited to those applicable to the privacy and security of personal information, including trans-border data transfers and data breach notification requirements as required of ServiceNow by law. Customer shall comply with all laws that apply to its use of the Subscription Service, Professional Services, Software, Documentation, Development Tools and Deliverables, under the Agreement, including but not limited to those applicable to collection and processing of Customer Data in ServiceNow systems through the Subscription Service. Customer agrees to provide any required disclosures to and obtain any required consents for the transfer of Customer Data to ServiceNow. ServiceNow shall not be responsible for compliance with any laws applicable to Customer and its industry that are not generally applicable to information technology service providers.

10.3. EXPORT COMPLIANCE. Each party shall comply with United States and foreign export control laws and regulations. Customer acknowledges that the Subscription Service, Professional Services, Software, Documentation, Development Tools and Deliverables are subject to the U.S. Export Administration Regulations (the "***EAR***") and that Customer shall comply with the EAR. Without limiting the foregoing, Customer represents and warrants that: (i) Customer is not located in, and shall not use the Subscription Service, Professional Services, Software, Documentation, Development Tools and Deliverables from, any country that is subject to U.S. export restrictions (currently including, but not necessarily limited to, Cuba, Iran, North Korea, Sudan and Syria); (ii) Customer shall not use the Subscription Service, Professional Services, Software, Documentation, Development Tools and Deliverables in the design, development or production of nuclear, chemical or biological weapons, or rocket systems, space launch vehicles, sounding rockets or unmanned air vehicle systems; and (iii) Customer is not prohibited from participating in U.S. export transactions by any federal agency of the U.S. government. In addition, Customer is responsible for complying with any local laws which may impact Customer's right to import, export or use the Subscription Service, Professional Services, Software, Documentation, Development Tools and Deliverables.

10.4. US GOVERNMENT RIGHTS. All ServiceNow software (including Software) is commercial computer software and all services are commercial items. "***Commercial computer software***" has the meaning set forth in Federal Acquisition Regulation ("***FAR***") 2.101 for civilian agency purchases and the Department of Defense ("***DOD***") FAR Supplement ("***DFARS***") 252.227-7014(a)(1) for defense agency purchases. If the software is licensed or the services are acquired by or on behalf of a civilian agency, ServiceNow provides the commercial computer software and/or commercial computer software documentation and other technical data subject to the terms of this Agreement as required in FAR 12.212 (Computer Software) and FAR 12.211 (Technical Data) and their successors. If the software is licensed or the services are acquired by or on behalf of any agency within the DOD, ServiceNow provides the commercial computer software and/or commercial computer software documentation and other technical data subject to the terms of this Agreement as specified in DFARS 227.7202-3 and its successors. Only if this is a DOD prime contract or DOD subcontract, the Government acquires additional rights in technical data as set forth in DFARS 252.227-7015. This U.S. Government Rights clause is in lieu of, and supersedes, any other FAR, DFARS or other clause or provision that addresses Government rights in computer software or technical data.

10.5. NOTICE. Except as otherwise provided herein, all notices shall be in writing and deemed given upon: (i) personal delivery; (ii) when received by the addressee if sent by a recognized overnight courier (receipt requested); (iii) the second business day after mailing; or (iv) the first business day after sending by email with

confirmation of receipt, except that email shall not be sufficient for notices regarding a Claim. Notices shall be sent to the parties as set forth on the signature page of this Agreement or as subsequently updated in writing.

10.6. FORCE MAJEURE. No party shall be liable or responsible to the other party, nor be deemed to have defaulted under or breached this Agreement, for any failure or delay in fulfilling or performing any term of this Agreement (excluding Customer's failure to pay amounts owed when due), when and to the extent such failure or delay is caused by or results from acts beyond the affected party's reasonable control, including without limitation: strikes, lock-outs or other industrial disputes (whether involving its own workforce or a third party's), trespassing, sabotage, theft or other criminal acts, failure of energy sources or transport network, acts of God, export bans, sanctions and other government actions, war, terrorism, riot, civil commotion, interference by civil or military authorities, national or international calamity, armed conflict, malicious damage, breakdown of plant or machinery, nuclear, chemical or biological contamination, explosions, collapse of building structures, fires, floods, storms, earthquakes, epidemics or similar events, natural disasters or extreme adverse weather conditions (each a "***Force Majeure Event***"). The party suffering a Force Majeure Event shall use reasonable efforts to mitigate against the effects of such Force Majeure Event.

10.7. HIGH RISK ACTIVITIES. Customer shall use the ServiceNow Core Technology within the intended business purposes described in the Documentation, and not for any purpose that requires fail-safe performance including, but not limited to, stock trading, financial transaction processing, management of hazardous facilities or applications for which failure could result in death, personal injury, or severe physical or environmental damage ("***High Risk Activity***"). ServiceNow, its licensors and suppliers expressly disclaim all warranties of fitness for any such use and Customer shall release and hold ServiceNow, its licensors and suppliers harmless from liability arising out of the use of the ServiceNow Core Technology for High Risk Activity.

10.8. USE OF AGGREGATE DATA. Customer agrees that ServiceNow may collect, use and disclose quantitative data derived from the use of the Subscription Service for industry analysis, benchmarking, analytics, marketing, and other business purposes. All data collected, used, and disclosed will be in aggregate form only and will not identify Customer or its users.

10.9. ENTIRETY. This Agreement, together with the Use Authorizations, Product Overviews, SOWs, Service Descriptions, and the Subscription Service Guide (including the Customer Support Policy, the Upgrade Policy and the Data Security Guide), is the final and entire agreement between the parties regarding the products and services provided hereunder and supersedes all prior or contemporaneous oral or written agreements, representations, understandings, undertakings and negotiations with respect to the subject matter hereof. The terms of this Agreement apply to the exclusion of any other terms that Customer seeks to impose or incorporate, or which are implied by trade, custom, practice or course of dealing. Customer acknowledges that it has not relied on any statement, promise or representation made or given by or on behalf of ServiceNow that is not set out in this Agreement. Customer's orders are not contingent on, and Customer has not relied on, the delivery of any future functionality regardless of any verbal or written communication about ServiceNow's future plans. This Agreement may be executed in counterparts, each of which shall be deemed to be an original.

10.10. WAIVER AND AMENDMENT. A waiver of any right is only effective if it is in writing and only against the party who signed such writing and for the circumstances given. Any modification of this Agreement must be in writing and signed by authorized representatives of both parties.

10.11. RELATIONSHIP OF THE PARTIES. The parties are independent contractors. Nothing in this Agreement shall be construed to create a partnership, joint venture or agency relationship. Neither party shall have any right or authority to assume or create any obligation of any kind expressed or implied in the name of or on behalf of the other party.

10.12. GOVERNING LAW; JURISDICTION AND VENUE. This Agreement shall be governed by the laws of the state of California, without regard to its conflict of laws principles. The parties hereby irrevocably consent to the exclusive jurisdiction of, and venue in, any federal or state court of competent jurisdiction located in Santa Clara County, California, for the purposes of adjudicating any dispute arising out of this Agreement. Each party hereto expressly consents to service of process by registered mail. To the extent permitted by law, choice of law rules and the United Nations Convention on Contracts for the International Sale of Goods shall not apply.

Notwithstanding the foregoing, either party may at any time seek and obtain appropriate legal or equitable relief in any court of competent jurisdiction for claims regarding such party's intellectual property rights.

10.13. CONSTRUCTION. Products and services shall be provided in the English language unless agreed otherwise. The parties confirm that they have requested that this Agreement and all related documents be drafted in English at the express wishes of the parties. Les parties confirment avoir expressément exigé que le présent contrat et les documents de ServiceNow qui y sont attachés soient rédigés en anglais. Section headings are for convenience only and are not to be used in interpreting this Agreement.

SUBSCRIPTION SERVICE GUIDE

Capitalized terms not defined herein shall have the meaning set forth in the ordering agreement or the use agreement between Customer and ServiceNow.

1. SUPPORT

During the Subscription Term, ServiceNow or its authorized reseller, as applicable, shall provide support for the Subscription Service as set forth in the ***Customer Support Policy*** attached hereto, and incorporated herein by reference.

2. UPGRADES

ServiceNow determines whether and when to develop, release and apply any Upgrade (as defined in the ***Upgrade Policy*** attached hereto, and incorporated herein by reference) to Customer's instances of the Subscription Service.

3. DATA SECURITY

ServiceNow shall implement and maintain security procedures and practices appropriate to information technology service providers to protect Customer Data from unauthorized access, destruction, use, modification, or disclosure, as described in the ***Data Security Guide*** attached hereto, and incorporated herein by reference.

4. INSURANCE

ServiceNow agrees to maintain in effect during the Subscription Term, at ServiceNow's expense, the following minimum insurance coverage:

(i) (a) Workers' Compensation Insurance, in accordance with applicable statutory, federal, and other legal requirements and (b) Employers' Liability Insurance covering ServiceNow's employees in an amount of not less than $1,000,000 for bodily injury by accident, $1,000,000 policy limit for bodily injury by disease, and $1,000,000 each employee for bodily injury by disease;

(ii) Commercial General Liability Insurance written on an occurrence form and including coverage for bodily injury, property damage, products and completed operations, personal injury, advertising injury arising out of the services and/or products provided by ServiceNow under this Agreement with minimum limits of $1,000,000 per occurrence/$2,000,000 aggregate;

(iii) Commercial Automobile Liability Insurance providing coverage for hired and non-owned automobiles used in connection with this Agreement in an amount of not less than $1,000,000 per accident combined single limit for bodily injury and property damage;

(iv) Combined Technology Errors' & Omission Policy with a $5,000,000 per Claim limit, including: (a) Professional Liability Insurance providing coverage for the services and software in this Agreement. Such coverage to be maintained for at least two (2) years after the termination of this Agreement; and (b) Privacy, Security, and Media Liability Insurance providing liability coverage for unauthorized access or disclosure, security breaches or system attacks, as well as infringements of copyright and trademark that might result from this Agreement; and

(v) Excess Liability over Employers' Liability, Commercial General Liability and Commercial Automobile Liability with a $5,000,000 aggregate limit.

For the purpose of this Section, a "***Claim***" means a written demand for money or a civil proceeding which is commenced by service of a complaint or similar pleading.

5. AVAILABILITY SERVICE LEVEL

5.1. DEFINITIONS

(a) "***Available***" means that the Subscription Service can be accessed by authorized users.

(b) "***Excused Downtime***" means: (i) Maintenance Time of up to two (2) hours per month; and (ii) any time the Subscription Service is not Available due to circumstances beyond ServiceNow's control, including without limitation modifications of the Subscription Service by any person other than ServiceNow or a person acting at ServiceNow's direction, a Force Majeure Event, general Internet outages, failure of Customer's infrastructure or connectivity (including without limitation, direct connectivity and virtual private network (VPN) connectivity to the Subscription Service), computer and telecommunications failures and delays, and network intrusions or denial-of-service or other criminal attacks.

(c) "***Maintenance Time***" means the time the Subscription Service is not Available due to service maintenance.

(d) "***Availability SLA***" means the percentage of total time during which Customer's production instances of the Subscription Service are Available during a calendar month, excluding Excused Downtime.

5.2. AVAILABLITY

If Customer's production instances of the Subscription Service fall below the Availability SLA of ninety-nine and eight-tenths percent (99.8%) during a calendar month, Customer's exclusive remedy for failure of the Subscription Service to meet the Availability SLAs is either: (1) to request that the affected Subscription Term be extended for the number of minutes the Subscription Service was not Available in the month in accordance with the Availability SLA; or (2) to request that ServiceNow issue a service credit to Customer for the dollar value of the number of minutes the Subscription Service was not Available in the month in accordance with the Availability SLA (determined at the deemed per minute rate ServiceNow charges to Customer for Customer's use of the affected Subscription Service), which Customer may request ServiceNow apply to the next invoice for subscription fees.

5.3. REQUESTS

Customer must request all service credits or extensions in writing to ServiceNow within thirty (30) days of the end of the month in which the Availability SLA was not met, identifying the support requests relating to the period Customer's production instances of the Subscription Service was not Available. The total amount of service credits for any month may not exceed the subscription fee for the affected Subscription Service for the month, and has no cash value. ServiceNow may delay issuing service credits until such amounts reach one thousand U.S. dollars ($1,000) or equivalent currency specified in the applicable Order Form.

CUSTOMER SUPPORT POLICY

This Customer Support Policy governs the support that ServiceNow or its authorized reseller, as applicable, will provide for the Subscription Service. This Policy may be updated from time to time.

Scope

The purpose of Customer Support is to resolve defects that cause the Subscription Service to perform not in substantial conformance to the Product Overview. A resolution to a defect may consist of a fix, workaround or other relief ServiceNow deems reasonable.

Customer Support does not include:

- implementation services
- configuration services
- integration services
- customization services or other custom software development
- training
- assistance with administrative functions

Customer Support is not required to provide resolutions for immaterial defects or defects due to modifications of the Subscription Service made by any person other than ServiceNow or a person acting at ServiceNow's direction.

Business Hours

Customer Support is available 24 hours a day, 7 days a week, including all holidays.

Access Contacts

Customer may contact ServiceNow using one of the following means:

- Support Portal at https://hi.service-now.com/. Customer may get login access to this self-service portal by contacting its ServiceNow administrator.
- Phone using one of the numbers at http://servicenow.com/support/contact-support.html.

Customer shall contact ServiceNow's authorized reseller in accordance with its agreement with the reseller.

Incident Priority

Incident priority for a defect is determined using the guidelines below:

Priority	Definition
P1	Any defect that causes an instance to be unavailable.
P2	Any defect that causes a critical function to fail.
P3	Any defect that significantly impedes work or progress.
P4	Any defect that does not significantly impede work or progress.

Response Times and Level of Effort

Customer submits an incident with ServiceNow via phone or web and with ServiceNow's authorized reseller as directed by reseller. All support requests are tracked online and can be viewed by Customer's authorized contacts. Response times do not vary if the incident was filed via phone or web.

ServiceNow or its authorized reseller, as applicable, will use reasonable efforts to meet the target response times and target level of effort stated in the table below. Support from the reseller may be limited to business hours only.

Priority	Target Response Times	Target Level of Effort
P1	30 minutes	Continuously, 24 hours per day, 7 days per week
P2	2 hours	Continuously, but not necessarily 24 hours per day, 7 days per week
P3	1 business day	As appropriate during normal business hours
P4	N/A	Varies

Customer Responsibilities

Customer's obligations are as follows:

(a) Customer agrees to receive from ServiceNow or its authorized reseller, as applicable, communications via email, phone or through the Support Portal regarding the Subscription Service.

(b) Customer shall appoint no more than five (5) contacts ("***Customer Authorized Contacts***") to engage Customer Support for questions and/or technical issues.

(i) Only Customer Authorized Contacts are authorized to contact Customer Support.

(ii) Customer must ensure the information for these contacts is current in the Support Portal at https://hi.service-now.com/.

(iii) Customer Authorized Contacts are trained on the use and administration of the Subscription Service.

(c) Customer shall cooperate to enable ServiceNow to deliver the Subscription Service and support for the service.

(d) Customer is solely responsible for the use of the Subscription Service by its authorized users.

UPGRADE POLICY

1. UPGRADES

"***Upgrades***" are ServiceNow's releases of the Subscription Service for repairs, enhancements or new features applied by ServiceNow to Customer's instances of the Subscription Service at no additional fee during the Subscription Term. ServiceNow has the discretion to provide new functionality as an Upgrade or as different software or service for a separate fee. ServiceNow determines whether and when to develop, release and apply any Upgrade to Customer's instances of the Subscription Service.

2. NOTICE; MAINTENANCE DOWNTIME

ServiceNow shall use reasonable efforts to give Customer thirty (30) days prior notice of any Upgrade to the Subscription Service. ServiceNow shall use reasonable efforts to give Customer ten (10) days prior notice of any Upgrade to the cloud infrastructure network, hardware, or software used by ServiceNow to operate and deliver the Subscription Service if ServiceNow in its reasonable judgment believes that the infrastructure Upgrade will impact Customer's use of its production instances of the Subscription Service. ServiceNow will use commercially reasonable efforts to limit the period of time during which the Subscription Service is unavailable due to the application of Upgrades to no more than two (2) hours per month. Notwithstanding the foregoing, ServiceNow may provide Customer with a shorter or no notice period of an Upgrade if necessary, in the reasonable judgment of ServiceNow, to maintain the availability, security or performance of the Subscription Service or the ability of ServiceNow to efficiently provide the Subscription Service.

3. NOMENCLATURE

A pending Upgrade may be a "Feature Release", "Patch" or "Hotfix." A "***Feature Release***" is an Upgrade that includes new features or enhancements. A "***Patch***" or a "***Hotfix***" is an Upgrade to a Feature Release that maintains the functionality of the Feature Release and does not include new functionality. ServiceNow refers to each Feature Release and its associated Patches and Hotfixes as a "***Release Family***." For example, ServiceNow's Feature Release "Aspen" established the "Aspen" Release Family, and ServiceNow's subsequent Feature Release "Berlin" established the "Berlin" Release Family.

4. PINNING REQUESTS

Customer may submit a support request for "no Upgrade" not fewer than five (5) business days' prior to a pending Upgrade of the Subscription Service. Subject to the terms and conditions of this Upgrade Policy, Customer's "no Upgrade" request shall be granted, and the Upgrade shall not be applied to Customer's instances of the Subscription Service.

5. SUPPORTED AND NON-SUPPORTED RELEASE FAMILIES

ServiceNow offers support for the then current Release Family and the prior two (2) Release Families ("***Supported Release Families***") as set forth in the Customer Support Policy. A Customer using a Supported Release Family may be required to Upgrade to a Patch or Hotfix within the Supported Release Family to correct a defect. At its discretion, ServiceNow may offer limited support for additional Release Families ("***Non-Supported Release Families***"). Without limiting ServiceNow's discretion to determine the availability of support for Non-Supported Release Families, a Customer using a Non-Supported Release Family may be required to Upgrade to a Supported Release Family to correct a defect. Any service level agreements, recovery time objectives or recovery point objectives are not applicable to Non-Supported Release Families. Details of ServiceNow support are further set forth in the Customer Support Policy.

Customer acknowledges that the current Release Family is the most current feature, availability, performance and security version of the Subscription Service. Within a Supported Release Family, the most recent Patch contains the most current feature, availability, performance and security version of the Subscription Service for that Release Family. A Customer that has submitted a "no Upgrade" request may experience defects, for which Customer hereby agrees that ServiceNow is not responsible, including without limitation those that affect the features, availability, performance and security of the Subscription Service, that are fixed in the most

current version of the Subscription Service.

6. REQUIRED UPGRADES

If Customer has requested "no Upgrade" it may nevertheless be required to Upgrade if in the reasonable judgment of ServiceNow the Upgrade is necessary to maintain the availability, security or performance of the Subscription Service or the ability of ServiceNow to efficiently provide the Subscription Service, as follows:

6.1. SUPPORTED RELEASE FAMILY. If Customer is using a Supported Release Family, it may be required to Upgrade to a Patch or Hotfix within the Supported Release Family.

6.2. NON-SUPPORTED RELEASE FAMILY. If Customer is using a Non-Supported Release Family, it may be required to Upgrade to a Supported Release Family.

7. EXCEPTIONS

Notwithstanding the other provisions of this Upgrade Policy, Customer may not submit a support request for "no Upgrade" for any Upgrade to, or that is essential for, the infrastructure network, hardware, or software used by ServiceNow to operate and deliver the Subscription Service.

DATA SECURITY GUIDE

Security Statement of an Enterprise IT Cloud Company

The ServiceNow cloud is built for the enterprise customer with every aspect aimed towards meeting the customer's demand for reliability, availability and security. ServiceNow's comprehensive approach to address this demand is enabled by the following: (a) ServiceNow's robust cloud infrastructure runs on its own applications and utilizes industry best-of-breed technology to automate mission critical functionalities in the cloud service with around-the-clock and around-the-world delivery; (b) ServiceNow achieves flexibility and control in its ability to deliver a stable user experience to the customer by having a logical single tenant architecture; (c) ServiceNow's application development which has a paramount focus on quality, security, and the user experience is closely connected to the operations of delivering those applications in a reliable and secure cloud environment; (d) ServiceNow invests in a comprehensive compliance strategy that allows its customers to attain their own compliance to applicable laws by obtaining attestations and certifications and running its subscription service from paired data centers situated close to where its customers are located; and (e) ServiceNow's homogeneous environment where all applications are on a single platform offers ServiceNow a competitive advantage in being able to concentrate its efforts to make the customer's user experience the best possible.

This Data Security Guide describes the measures ServiceNow takes to protect Customer Data when it resides in the ServiceNow cloud. This Data Security Guide forms a part of any legal agreement into which this Data Security Guide is explicitly incorporated by reference (the "***Agreement***") and is subject to the terms and conditions of the Agreement. Capitalized terms that are not otherwise defined herein shall have the meaning given to them in the Agreement.

1. SECURITY PROGRAM

While providing the Subscription Service, ServiceNow shall maintain a written information security program of policies, procedures and controls ("***Security Program***") governing the processing, storage, transmission and security of Customer Data. The Security Program includes industry standard practices designed to protect Customer Data from unauthorized access, acquisition, use, disclosure, or destruction. ServiceNow may periodically review and update the Security Program to address new and evolving security technologies, changes to industry standard practices, and changing security threats, provided that any such update does not materially reduce the commitments, protections or overall level of service provided to Customer as described herein.

2. CERTIFICATIONS AND ATTESTATIONS

2.1. Certifications and Attestations. ServiceNow shall establish and maintain sufficient controls to meet the objectives stated in ISO 27001 and SSAE 16 / SOC 1 and SOC 2 Type 2 (or equivalent standards) (collectively, the "***Standards***") for the information security management system supporting the Subscription Service. At least once per calendar year, ServiceNow shall perform an assessment against such Standards ("***Assessment***"). Upon Customer's written request, which shall be no more than once per calendar year, ServiceNow shall provide a summary of the Assessment(s) to Customer. Assessments shall be Confidential Information of ServiceNow.

2.2. Safe Harbor. ServiceNow shall maintain self-certified compliance under the U.S.-EU and U.S.-Swiss Safe Harbor Frameworks developed by the U.S. Department of Commerce regarding the collection, use and retention of Personal Data (defined in Section 6 below) from European Union member countries and Switzerland.

3. PHYSICAL, TECHNICAL AND ADMINISTRATIVE SECURITY MEASURES

The Security Program shall include the following physical, technical and administrative measures designed to protect Customer Data from unauthorized access, acquisition, use, disclosure, or destruction:

3.1. Physical Security Measures

(a) Data Center Facilities: (i) Physical access restrictions and monitoring that may include a combination of any of the following: multi-zone security, man-traps, appropriate perimeter deterrents (for example,

fencing, berms, guarded gates), on-site guards, biometric controls, CCTV, and secure cages; and (ii) fire detection and fire suppression systems both localized and throughout the data center floor.

(b) Systems, Machines and Devices: (i) Physical protection mechanisms; and (ii) entry controls to limit physical access.

(c) Media: (i) Industry standard destruction of sensitive materials before disposition of media; (ii) secure safe for storing damaged hard disks prior to physical destruction; and (iii) physical destruction of all decommissioned hard disks storing Customer Data.

3.2. Technical Security Measures

(a) Access Administration. Access to the Subscription Service by ServiceNow employees and contractors is protected by authentication and authorization mechanisms. User authentication is required to gain access to production and sub-production systems. Access privileges are based on job requirements and are revoked upon termination of employment or consulting relationship. Production infrastructure includes appropriate user account and password controls (for example, the required use of virtual private network connections, complex passwords with expiration dates, and a two-factored authenticated connection) and is accessible for administration.

(b) Logging and Monitoring. The production infrastructure log activities are centrally collected and are secured in an effort to prevent tampering and are monitored for anomalies by a trained security team.

(c) Firewall System. An industry-standard firewall is installed and managed to protect ServiceNow systems by residing on the network to inspect all ingress connections routed to the ServiceNow environment.

(d) Vulnerability Management. ServiceNow conducts periodic independent security risk evaluations to identify critical information assets, assess threats to such assets, determine potential vulnerabilities, and provide for remediation. When software vulnerabilities are revealed and addressed by a vendor patch, ServiceNow will obtain the patch from the applicable vendor and apply it within an appropriate timeframe in accordance with ServiceNow's then current vulnerability management and security patch management standard operating procedure and only after such patch is tested and determined to be safe for installation in all production systems.

(e) Antivirus. ServiceNow updates anti-virus, anti-malware, and anti-spyware software on regular intervals and centrally logs events for effectiveness of such software.

(f) Change Control. ServiceNow ensures that changes to platform, applications and production infrastructure are evaluated to minimize risk and are implemented following ServiceNow's standard operating procedure.

3.3. Administrative Security Measures

(a) Data Center Inspections. ServiceNow performs routine reviews at each data center to ensure that it continues to maintain the security controls necessary to comply with the Security Program.

(b) Personnel Security. ServiceNow performs background and drug screening on all employees and all contractors who have access to Customer Data in accordance with ServiceNow's then current applicable standard operating procedure and subject to applicable law.

(c) Security Awareness and Training. ServiceNow maintains a security awareness program that includes appropriate training of ServiceNow personnel on the Security Program. Training is conducted at time of hire and periodically throughout employment at ServiceNow.

(d) Vendor Risk Management. ServiceNow maintains a vendor risk management program that assesses all vendors that access, store, process or transmit Customer Data for appropriate security controls and business disciplines.

4. DATA PROTECTION AND SERVICE CONTINUITY

4.1. Data Centers; Data Backup. ServiceNow shall host Customer's instances in primary and secondary SSAE 16 Type II or ISO 27001 certified (or equivalent) data centers in the geographic regions specified on the Order Form for the Subscription Term. Each data center includes full redundancy (N+1) and fault tolerant infrastructure for electrical, cooling and network systems. The deployed servers are enterprise scale servers with redundant power to ensure maximum uptime and service availability. The production database servers are replicated in near real time to a mirrored data center in a different geographic region. Each customer instance is supported by a network configuration with multiple connections to the Internet. ServiceNow backs up all Customer Data in accordance with ServiceNow's standard operating procedure.

4.2. Personnel. In the event of an emergency that renders the customer support telephone system unavailable, all calls are routed to an answering service that will transfer to a ServiceNow telephone support representative, geographically located to ensure business continuity for support operations.

5. INCIDENT MANAGEMENT AND BREACH NOTIFICATION

5.1. Incident Monitoring and Management. ServiceNow shall monitor, analyze and respond to security incidents in a timely manner in accordance with ServiceNow's standard operating procedure. Depending on the nature of the incident, ServiceNow security group will escalate and engage response teams necessary to address an incident.

5.2. Breach Notification. Unless notification is delayed by the actions or demands of a law enforcement agency, ServiceNow shall report to Customer the unauthorized acquisition, access, use, disclosure or destruction of Customer Data (a "Breach") promptly following determination by ServiceNow that a Breach occurred. The initial report shall be made to Customer security contact(s) designated in ServiceNow's customer support portal. ServiceNow shall take reasonable measures to promptly mitigate the cause of the Breach and shall take reasonable corrective measures to prevent future Breaches. As information is collected or otherwise becomes available to ServiceNow and unless prohibited by law, ServiceNow shall provide information regarding the nature and consequences of the Breach that are reasonably requested to allow Customer to notify affected individuals, government agencies and/or credit bureaus. Customer is solely responsible for determining whether to notify impacted Data Subjects (defined in 6.1 below) and for providing such notice, and for determining if regulatory bodies or enforcement commissions applicable to Customer or Customer Data need to be notified of a Breach.

5.3. Customer Cooperation. Customer agrees to cooperate with ServiceNow in maintaining accurate contact information in the customer support portal and by providing any information that is reasonably requested to resolve any security incident, identify its root cause(s) and prevent a recurrence.

6. DATA PROCESSING GUIDELINES; COMPLIANCE WITH LAWS

6.1. Customer as Data Controller. Customer acknowledges that in relation to Personal Data supplied and/or processed under the Agreement it acts as Controller and it warrants that it will duly observe all of its obligations under all applicable laws and regulations of the European Union, the European Economic Area and their member states regarding the processing of Personal Data (collectively referred to as "Data Protection Laws") including, without limitation, obtaining and maintaining all necessary notifications and obtaining and maintaining all necessary Data Subject Consents. Customer shall (i) have sole responsibility for the accuracy, quality, integrity, legality and reliability of Personal Data and of the means by which it acquired Personal Data, (ii) ensure that data processing instructions given to ServiceNow comply with applicable Data Protection Laws, and (iii) comply with all applicable Data Protection Laws in collecting, compiling, storing, accessing and using Personal Data in connection with the Subscription Service. For the purposes of this Data Security Guide, "Personal Data", "Controller", "Data Subject" and "Data Subject Consent" shall have the meaning given to these terms in Directive 95/46/EC. For clarity, "process" or "processing" means any operation or set of operations performed upon Customer Data.

6.2. ServiceNow as Data Processor. ServiceNow shall process or otherwise use Personal Data (including possible onward transfers) on behalf of Customer solely for the purpose of providing the services

described in the Agreement and only in accordance with Customer's lawful instructions (limited to those instructions which ServiceNow can reasonably carry out in the provision of the Subscription Service), the terms of the Agreement, and this Data Security Guide. ServiceNow shall ensure that those employees to whom it grants access to such Personal Data are directed to keep such Personal Data confidential and are informed of any additional data protection obligations applicable to such Personal Data. ServiceNow shall, to the extent legally permitted, promptly notify Customer with respect to any request or communication ServiceNow receives from any regulatory authority in relation to any data processing activities ServiceNow conducts on behalf of Customer. In addition, ServiceNow will cooperate and assist Customer, at Customer's cost, in relation to any such request and to any response to any such communication. ServiceNow will pass on to the Customer any requests of a Data Subject to access, delete, correct, or block Personal Data processed under the Agreement. If ServiceNow is compelled by law to disclose Customer's information as part of a civil proceeding to which Customer is a party, and Customer is not contesting the disclosure, Customer will reimburse ServiceNow for its reasonable cost of compiling and providing secure access to that information.

6.3. Subcontractors. ServiceNow may engage subcontractors for processing Customer Data under the Agreement, provided ServiceNow shall ensure compliance by such subcontractor(s) with the requirements of this Section 6 by entering into written agreements with such subcontractors which provide that the subcontractor will apply the Safe Harbor principles to the processing of Personal Data. ServiceNow's use of any subcontractor will not relieve, waive or diminish any obligation ServiceNow has under the Agreement or this Data Security Guide.

7. PENETRATION TESTS

7.1. By a Third Party. ServiceNow contracts with third party vendors to perform an annual penetration test on the ServiceNow platform to identify risks and remediation that help increase security.

7.2. By Customer. No more than once per calendar year Customer may request to perform, at its own expense, an application penetration test of its instances of the Subscription Service. Customer shall notify ServiceNow in advance of any test by submitting a request using ServiceNow's online support portal and completing a penetration testing agreement. ServiceNow and Customer must agree upon a mutually acceptable time for the test; and Customer shall not perform a penetration test without ServiceNow's express written authorization. The test must be of reasonable duration, and must not interfere with ServiceNow's day-to-day operations. Promptly upon completion of the penetration test, Customer shall provide ServiceNow with the test results including any detected vulnerability. Upon such notice, ServiceNow shall, consistent with industry standard practices, use all commercially reasonable efforts to promptly make any necessary changes to improve the security of the Subscription Service. Customer shall treat the test results as Confidential Information of ServiceNow.

8. SHARING THE SECURITY RESPONSIBILITY

8.1. Product Capabilities. The Subscription Service has the capabilities to: (i) authenticate users before access; (ii) encrypt passwords; (iii) allow users to manage passwords; and (iv) prevent access by users with an inactive account. Customer manages each user's access to and use of the Subscription Service by assigning to each user a credential and user type that controls the level of access to the Subscription Service.

8.2. Customer Responsibilities. ServiceNow provides the cloud environment that permits Customer to use and process Customer Data in the Subscription Service. The architecture in the Subscription Service includes, without limitation, column level encryption functionality and the access control list engine. Customer shall be responsible for using the column level encryption functionality and access control list engine for protecting all Customer Data containing sensitive data, including without limitation, credit card numbers, social security numbers, financial and health information, and sensitive personal data. Customer is solely responsible for the results of its decision not to encrypt such sensitive data. ServiceNow protects all Customer Data in the ServiceNow cloud infrastructure equally in accordance with this Data Security Guide, regardless of the classification of the type of Customer Data. Customer shall be responsible for protecting the confidentiality of each user's login and password and shall manage each user's access to the Subscription Service.

8.3. Customer Cooperation. Customer shall promptly apply any application upgrade that ServiceNow determines is necessary to maintain the security, performance or availability of the Subscription Service.

8.4. Limitations. Notwithstanding anything to the contrary in the Agreement or this Data Security Guide, ServiceNow's obligations extend only to those systems, networks, network devices, facilities and components over which ServiceNow exercises control. This Data Security Guide does not apply to: (i) information shared with ServiceNow that is not data stored in its systems using the Subscription Service; (ii) data in Customer's virtual private network (VPN) or a third party network; or (iii) any data processed by Customer or its users in violation of the Agreement or this Data Security Guide.

ServiceNow Product Overview

Effective Date: May 2, 2016

ServiceNow Applications	
Activity Designer	Enables a user to construct reusable activities that suit an organization's business needs. Requires Orchestration Core.
Activity Packs	A collection of related workflow activities that allow Orchestration Core to connect to, and automate work with, external systems. Some Activity Packs require Orchestration Core and others require Cloud Management.
Agile Development	Provides capabilities to manage the software development process in projects including enhancement requests, defect prioritization, definition of release content, and tasks.
Asset Management	Provides capabilities to track and manage the physical, contractual, and financial aspects of assets.
Audit Management	Provides a centralized process for Internal Audit teams to automate the complete audit lifecycle by providing the capability to plan, scope and execute integrated, risk-based audit plans.
Change Management	Allows repeatable methods and procedures to be used for introducing change into the IT infrastructure by providing capabilities for creating, assessing, approving, and executing changes.
Client Software Distribution	Allows administrators to distribute software from the service catalog using third party management systems. Requires Orchestration Core.
Cloud Management	Provides the capability to automate the provisioning and management lifecycle of public and private virtual servers. Requires Orchestration Core.
Configuration Automation	Provides the capability to manage the configuration settings of a physical or virtual server. Requires Orchestration Core.
Cost Management	Provides capabilities to track one-time and recurring costs of configuration items used by IT and allocate those costs to business units using allocation rules.
Cost Transparency	Provides insight for executives seeking to align spending to business goals. Users can classify general ledger records, define reporting structures and allocation rules, and view summary reports.
Customer Service Management	Includes the following key features: Omni–channel customer engagement across portal, chat, email, and phone (native telephony integration requires Notify); a robust customer data model for accounts, partners, and contacts; case management with advanced skills-based routing, real-time service level agreement (SLA), service contracts and service entitlements; pre-packaged service analytics using both real-time data as well as snapshots for trend analysis (trend analytics requires Performance Analytics use rights); and voice of customer feedback through online surveys and customer satisfaction reporting.

ServiceNow and the ServiceNow logo are trademarks of ServiceNow, Inc. All other brand and product names are trademarks or registered trademarks of their respective holders.

Demand Management	Consolidates IT requests through a service catalog and routes them in a workflow to stakeholders who gather additional information to prioritize investment decisions.
Discovery	Locates physical and virtual devices connected to an enterprise network. When Discovery locates a device, it explores its configuration, status, software, and relationships to other connected devices, and updates the Configuration Management Data Base (CMDB).
Edge Encryption	Resides on Customer-owned servers and encrypts and decrypts eligible data stored in their instance. Customer controls and manages the encryption keys for the eligible data in their instance.
Enterprise Service Portal - HR	In support of HR service delivery, provides employee self-service via an HR service catalog and provides HR the capability to assign tasks to employees. Uses prebuilt layouts, controls, and content. Requires HR Service Management.
Event Management	Aggregates events from monitoring tools used by Customer in its infrastructure, de-duplicates and correlates inputs from such events to CMDB, and provides the ability to filter and prioritize events to create incidents for remediation.
Facilities Service Management	Provides capabilities to manage the service delivery of a facilities department by offering a self-service catalog and assignment of requests based on fulfillment rules.
Field Service Management	Provides capabilities to create work order records for the repair and service of equipment. Requires Asset Management.
Financial Planning	Assists executives and budget owners in the automation of budget and forecast planning, helping to increase efficiency and simplify the planning process.
Finance Service Management	Enables the finance department to define its services and fulfill requests through workflow capabilities and knowledge management, and provides visibility into resource utilization and service delivery performance through dashboards.
HR Service Management	Provides capabilities to manage HR service delivery using case management to document the interactions between the employee and HR supported by the knowledge base.
Incident Management	Facilitates the process of restoring normal IT operations by providing capabilities to record, classify, distribute, and manage incidents through to resolution. Includes Performance Analytics limited to 15 key performance indicators (KPIs), one dashboard and 90 days of data captured by Incident Management.
Legal Service Management	Enables the legal department to define its services and fulfill requests through workflow capabilities and knowledge management, and provides visibility into resource utilization and service delivery performance through dashboards.
Marketing Service	Enables the marketing department to define its services and fulfill requests

Management	through workflow capabilities and knowledge management, and provides visibility into resource utilization and service delivery performance through dashboards.
Notify	Provides the capability to initiate notification from Customer's instance of the subscription service to a supported third-party platform for SMS, voice and other communications protocols. Customer is required to separately purchase any third-party service required to work with Notify.
Orchestration Core	Enables orchestration of activities outside Customer's instance of the subscription service. Allows Customer to automate discrete tasks or processes using graphical workflows that interact with external systems or services.
Password Reset	Provides the capability to reset User's passwords that are stored and pre-authenticated in a credential store outside Customer's instance of the subscription service, such as Active Directory and other supported credential stores. Requires Orchestration Core.
Performance Analytics	Provides advanced analytics and time series analysis for KPIs.
Platform Runtime	Allows customer to deploy applications developed on the ServiceNow Platform into production.
Policy and Compliance Management	Provides a centralized process for creating and managing policies, standards, and internal control procedures that are cross-mapped to external regulations and best practices. Additionally, the application provides structured workflows for the identification, assessment, and continuous monitoring of control activities.
Problem Management	Facilitates the process of identifying the root causes of errors in the IT infrastructure by providing capabilities to record, escalate, and manage problems through to resolution.
Project Portfolio Management	Provides capabilities to plan, organize, and manage projects and project portfolios including associated tasks and resources.
Release Management	Facilitates the planning, design, build, configuration, testing, and release of hardware and software into the IT infrastructure.
Request Management	Provides capabilities to approve and fulfill requests for goods and services defined and presented in the service catalog.
Resource Management	Provides a view of projects and the availability, allocation, and capacity of assigned resources.
Risk Management	Provides an executive view into risk to allow risk managers to quickly identify at-risk assets, perform assessments, and continuously monitor risk exposure.
Security Incident Response	Enables SOC/SIRT teams to enact response plans to address security-related activities, events or incidents. Enables response team collaboration, investigation of network and non-network related activities (i.e. intellectual property theft, criminal activities, etc.) and includes the capability for automated request assignment and remediation across IT and security teams.

Service Mapping	Discovers business services of the organization and builds a comprehensive map of all devices, applications, and configuration profiles used in these business services.
Test Management	Provides a user acceptance testing framework to help project teams and business users align on project deliverables, and provides visibility into the status of the project testing when used in conjunction with Project Portfolio Management and Agile Development. Project Portfolio Management and Agile Development are separately authorized.
Threat Intelligence	Provides the ability to support multiple threat intelligence feeds to enhance the context of a security incident by enabling analysts to see potential threats and related systems in an integrated view. Threat Intelligence also allows Customers to add their own custom feeds and to place confidence scores or weighting on each feed to accelerate the identification of legitimate security issues.
Vendor Performance Management	Enables Customer to manage, evaluate and compare vendors based on predefined criteria.
Vulnerability Response	Integrates with the National Vulnerability Database (NVD) and third-party solutions to generate a set of actionable reports of vulnerable assets in the Customer environment. Incident response tasks, change requests or problem tickets can easily be opened from vulnerabilities to allow security teams to perform further investigation or to allow IT to perform remediation.
ServiceNow Platform Services	
Business Service Maps	Graphically displays the configuration items related to a business service, and indicates the status of those configuration items.
Chat	Provides real-time communication capability via instant messaging between Users.
Coaching Loops	Provides the capability to monitor and provide feedback on a specific behavior of an individual or group.
Configuration Management (CMDB)	Provides capabilities to identify, record, and report on IT configuration items and their relationships.
Connect	Provides the capability to connect people, processes and information into a unique and centralized collaboration workspace to cut down on resolution times. Features include real-time chat, document delivery, active lists to see who is working and the ability to interact straight from the activity stream.
Content Management System	Provides the ability to create custom interfaces.
Form Designer	Allows creation of forms and tables with visual controls.

Google Maps	ServiceNow may make Google Maps available for use with the subscription service. If Customer uses Google Maps, Customer agrees to the following terms: (i) Customer shall limit its use to 60,000 map views on an annual basis and additional use shall be purchased from Google subject to Google's terms and conditions, to which ServiceNow is not a party; (ii) Customer agrees, and shall cause its end users to agree, to Google's Maps Terms (http://maps.google.com/help/terms_maps.html or a successor URL as provided by Google), the Legal Notices (http://www.maps.google.com/help/legalnotices_maps.html or a successor URL as provided by Google), and the Acceptable Use Policy (http://www.google.com/enterprise/earthmaps/legal/us/maps_AUP.html or a successor URL as provided by Google); and (iii) Customer agrees that Google may use Customer data in accordance with its privacy policy and that Google may provide its maps services to Customer. Google Maps may not be available to Customer due to location availability and may not be available during Customer's entire subscription term. ServiceNow support and warranty do not apply to Google Maps.
Graphical Workflow	Provides the capability to automate multi-step processes within Customer's instance of the subscription service. Each workflow can manage a sequence of activities, such as creating records or running scripts, and the condition-based transitions between them. Customer is required to purchase Orchestration Core to orchestrate activities using the Graphical Workflow that interact outside Customer's instance of the subscription service.
Knowledge Management	Provides role-based tools to create, store, and publish information. Provides mechanisms for version control and approvals of documents in the review process.
Live Feed	Provides a place to post and share content.
Mobile	Provides a customizable ServiceNow interface for mobile devices.
On-Call Scheduling	Enables creation of on-call schedules and escalation rosters.
OpenFrame	An interface technology that enables real-time communication channels such as telephone systems to be integrated into the ServiceNow Platform. OpenFrame consists of UI elements as well as a set of APIs that support exchange of events and data between ServiceNow and the communications system.
Reporting	Provides the capability to create and share reports and dashboards.
REST API	Provides the ability to integrate external systems through REST APIs using standard respond codes, header information, pagination support and streaming data on requests.
Service Catalog	Displays a listing of the goods and services that Customer provides within the enterprise to its employees and contractors.
Service Creator	Provides capabilities for building no-code service catalog items.

© 2016 ServiceNow, Inc. All rights reserved. ServiceNow Confidential.
ServiceNow and the ServiceNow logo are trademarks of ServiceNow, Inc. All other brand and product names are trademarks or registered trademarks of their respective holders.

Service Level Management	Establishes and monitors status of service contracts and SLAs between the organization and its customers or third-party service providers.
Service Portal Designer	Provides the capability to build portals with a consumer-like experience using both ServiceNow out-of-the-box widgets and templates as well as Customer's own widgets and styles, while leveraging only HTML and CSS.
Skills Management	Assigns configured competencies to groups or users.
Studio	Integrated Development Environment (IDE) for professional and low-code (i.e., IT administration) application developers.
Survey Management	Allows for polling and collection of data, including configuration for specific events and/or conditions.
Time Cards	Records time worked on tasks either manually or automatically.
Visual Task Boards	Enables a Kanban-style workspace for either individual or team-based management of tasks.
Visualizations	Displays interactive 2-D and 3-D visual representations for any logical data relationships within an instance.

GENERAL TERMS AND CONDITIONS

These General Terms and Conditions and any referenced documents form the agreement (the "***Agreement***") under which an Order Form is executed.

1. PROVISION OF SERVICES

ServiceNow will make the following purchased services available to Customer, subject to the terms and conditions of the Agreement and each ordering document signed by Customer and ServiceNow (each, an "***Order Form***") and the product overview attached thereto or referenced therein ("***Product Overview***"), including without limitation:

(a) use of the ServiceNow applications which are made available by ServiceNow as a software as a service (SaaS) ("***Subscription Service***"); and

(b) professional services and training services ("***Professional Services***").

An Order Form for Professional Services shall specify ServiceNow packaged professional services (each offering, a "***Packaged Service***"), as described in one or more service descriptions (if not attached to the Order Form, then as set forth on www.servicenow.com/be_schedules.do) ("***Service Description***") or other Professional Services described in one or more written statements of work ("***SOW***") signed by ServiceNow and Customer.

2. ORDERING

2.1 ORDERS AND PAYMENT. Upon execution by Customer and ServiceNow, each Order Form is non-cancellable and non-refundable except as provided in the Agreement. Prices stated in each Order Form are final. Except as expressly set forth in the applicable Order Form, Subscription Service fees are invoiced annually in advance. Each Subscription Term (as defined in Section 3.1) as set forth in the Order Form is a continuous and non-divisible commitment for the full duration of the Subscription Term regardless of the invoice schedule. Except as expressly set forth in the applicable Order Form or SOW or Service Description, Professional Services fees are invoiced on a time and materials basis monthly in arrears. Customer shall pay each invoice in full within thirty (30) days after the date of invoice. Customer may issue a purchase order consistent with the terms of the Order Form, but a purchase order is not required. If Customer issues a purchase order, then it shall be for the full amount of the Order Form, and any additional or conflicting terms appearing in a purchase order shall not amend the Order Form or the Agreement. Upon request, ServiceNow shall reference the purchase order number on its invoices (solely for administrative convenience) so long as Customer provides the purchase order at least fifteen (15) business days prior to the date of the invoice. Late payments shall accrue interest at a rate of one and one-half percent (1.5%) per month or the legal maximum interest rate, whichever is lower. If Customer is delinquent in payment of amounts for the services owed hereunder, ServiceNow may give notice to Customer of such delinquency and, in such case, Customer shall cure the delinquency within thirty (30) days from the date of ServiceNow's written notice. If Customer fails to cure the delinquency, ServiceNow may suspend Customer's use of the Subscription Service or terminate the Agreement for cause in accordance with Section 7 (Term and Termination), in addition to other rights and remedies available.

2.2 TAXES. All payments required by the Agreement are stated exclusive of all taxes, duties, levies, imposts, fines or similar governmental assessments including sales and use taxes, value-added taxes ("***VAT***"), goods and services taxes ("***GST***"), excise, business, service, and similar transactional taxes imposed by any jurisdiction and the interest and penalties thereon (collectively, "***Taxes***"). Customer shall be responsible for and bear Taxes associated with its purchase of, payment for, access to or use of the Subscription Service and Professional Services. Taxes shall not be deducted from the payments to ServiceNow, except as required by law, in which case Customer shall increase the amount payable as necessary so that after making all required deductions and withholdings, ServiceNow receives and retains (free from any Tax liability) an amount equal to the amount it would have received had no such deductions or withholdings been made. Each party is responsible for and shall bear taxes imposed on its net income. If Customer is a tax-exempt entity or claims exemption from any Taxes under the Agreement, Customer shall provide a tax exemption number on the Order Form and a certificate upon execution of the Order Form and, after receipt of valid evidence of exemption, ServiceNow shall not charge Customer any Taxes from which it is exempt. If ServiceNow is required to invoice or collect Taxes associated with Customer's purchase of, payment for, access to or use of the Subscription Service or Professional Services, ServiceNow will issue an invoice to Customer including the amount of those Taxes, itemized where required by law. Customer shall provide to ServiceNow its VAT or GST identification number(s) on the Order Form for (i) the country where Customer has established its business and/or (ii) any other country where Customer has a fixed establishment. Customer shall use the ordered Subscription Service and Professional Services for Customer's business use in the foregoing location(s) in accordance with the provided VAT or GST identification number(s). The parties' obligations under this Section shall survive the termination or expiration of the Agreement.

2.3 USE VERIFICATION. Customer may not use or otherwise access the Subscription Service in a manner that exceeds Customer's authorized use. ServiceNow may review Customer's use of the Subscription Service, and Customer shall provide any reasonable assistance to verify Customer's compliance with the Agreement. If ServiceNow determines that Customer has exceeded its permitted use of the Subscription Service then ServiceNow will notify Customer and within thirty (30) days thereafter Customer shall either: (i) disable any unpermitted use or (ii) purchase additional subscriptions. If Customer fails to regain compliance within such thirty (30) day period, ServiceNow may suspend Customer's use of the Subscription Service or terminate the Agreement for cause in accordance with Section 7 (Term and Termination), in addition to any other rights or remedies ServiceNow may have.

3. GRANT OF USE RIGHTS; OWNERSHIP; CUSTOMER RESTRICTIONS

3.1. SUBSCRIPTION SERVICE. Customer is authorized to use the Subscription Service limited by the purchased amount and subscription term ("***Subscription Term***") on the Order Form and the Product Overview.

3.2. DOCUMENTATION. ServiceNow grants to Customer a non-exclusive, non-transferable, worldwide right during the Subscription Term to access and use the documentation relating to the operation and use of the Subscription Service that is provided by ServiceNow to Customer under the Agreement, as updated by ServiceNow from time to time ("***Documentation***").

3.3. CUSTOMER DATA. Customer grants ServiceNow a non-exclusive, non-transferable, worldwide right to use the electronic data pertaining to Customer and/or its users that is processed using the Subscription Service (collectively "***Customer Data***") strictly for the limited purpose of providing the Subscription Service to Customer.

3.4. SOFTWARE. ServiceNow may provide ServiceNow software products ("***Software***") for use in connection with the Subscription Service. Any Software is licensed and not sold (even if for convenience ServiceNow makes reference to words such as "sale" or "purchase"). ServiceNow grants Customer a limited, personal, worldwide, non-sublicensable, non-transferable, non-exclusive license to install and execute the Software on machines operated by or for Customer solely to permit Customer to use the Subscription Service during the Subscription Term in accordance with the terms and conditions of the Agreement. The Software may include code that is licensed under third party license agreements, including open source made available or provided with the Software.

3.5. OWNERSHIP. As between ServiceNow and Customer, all rights, title, and interest in and to all intellectual property rights in the Subscription Service, Software and/or Documentation are owned exclusively by ServiceNow. Except as expressly provided in the Agreement, ServiceNow does not grant Customer (and expressly reserves) any rights, express or implied, or ownership in the Subscription Service, Software and/or Documentation. ServiceNow shall have a royalty-free, worldwide, non-exclusive, transferable, sub-licensable, irrevocable, perpetual right to make, use, sell, offer for sale, import, or otherwise incorporate into the Subscription Service, Software and/or Documentation, any suggestions, enhancements, recommendations or other feedback provided by Customer relating to the Subscription Service, Software and/or Documentation.

3.6. RESTRICTIONS. Customer shall not (and shall not permit others to) do the following with respect to the Subscription Service, Software or Documentation: (i) license, sub-license, sell, re-sell, rent, lease, transfer, distribute or time share or otherwise make any of them available for access by third parties; (ii) disassemble, reverse engineer, decompile or modify them or otherwise create derivative works thereof; (iii) access them for the purpose of developing products or services that compete with the Subscription Service; (iv) use them to operate more or different type of applications or platform not authorized under the Agreement; (v) use them to create, use, send, store or run viruses or other harmful computer code, files, scripts, agents or other programs or engage in any other malicious act; (vi) disrupt their security, integrity or operation; (vii) remove or modify a copyright or other proprietary rights notice in them; (viii) use them to reproduce, distribute, display, transmit or use material protected by copyright or other intellectual property right (including the rights of publicity or privacy) without first obtaining the permission of the owner; (ix) use them to damage the property of another; (x) use them in any manner which violates any law or regulation of the United States, any state thereof or other government authority; (xi) use them in any manner that disables, hacks or otherwise interferes with any security, digital signing, digital rights management, verification or authentication mechanisms or (xii) use them in a manner that temporarily or permanently alters, erases, removes, copies, modifies, halts or disables any ServiceNow or third party data, software or network.

4. WARRANTIES

4.1. LIMITED SUBSCRIPTION SERVICE WARRANTY. ServiceNow warrants that during the Subscription Term Customer's production instances of the Subscription Service shall materially conform to the Product Overview. To submit a warranty claim under this Section, Customer shall (1) reference this Section; and (2) submit a support request to resolve the non-conformity as provided in the Subscription Service Guide, which is set forth on www.servicenow.com/be_schedules.do. If the non-conformity persists without relief more than thirty (30) days after written notice of a warranty claim provided to

ServiceNow under this Section 4.1, then Customer may terminate the affected Subscription Service and ServiceNow shall refund to Customer any prepaid subscription fees covering the remainder of the Subscription Term of the affected Subscription Service after the date of termination. Notwithstanding the foregoing, this warranty shall not apply to any non-conformity due to a modification of or defect in the Subscription Service that is made or caused by any person other than ServiceNow or a person acting at ServiceNow's direction. THIS SECTION 4.1 SETS FORTH CUSTOMER'S EXCLUSIVE RIGHTS AND REMEDIES (AND SERVICENOW'S SOLE LIABILITY) IN CONNECTION WITH THIS WARRANTY.

4.2. LIMITED PROFESSIONAL SERVICES WARRANTY. ServiceNow warrants that the Professional Services will be performed in a competent and workmanlike manner in accordance with accepted industry standards and practices and all material requirements set forth in the SOW or Service Description. Customer shall notify ServiceNow in writing of any breach within thirty (30) days after performance of the non-conforming Professional Services. Upon receipt of such notice, ServiceNow, at its option, shall either use commercially reasonable efforts to re-perform the Professional Services in conformance with these warranty requirements or shall terminate the affected Professional Services and refund to Customer any amounts paid for the nonconforming Professional Services. THIS SECTION 4.2 SETS FORTH CUSTOMER'S EXCLUSIVE RIGHTS AND REMEDIES (AND SERVICENOW'S SOLE LIABILITY) IN CONNECTION WITH THIS WARRANTY.

4.3. DISCLAIMER OF WARRANTIES. EXCEPT FOR THE WARRANTIES EXPRESSLY STATED IN THE AGREEMENT, TO THE MAXIMUM EXTENT ALLOWED BY LAW, SERVICENOW DISCLAIMS ALL WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, ORAL OR WRITTEN, INCLUDING WARRANTIES ARISING UNDER STATUTE, WARRANTIES OF MERCHANTABILITY, ACCURACY, TITLE, NON-INFRINGEMENT OR FITNESS FOR A PARTICULAR PURPOSE OR ANY WARRANTIES ARISING FROM USAGE OF TRADE, COURSE OF DEALING OR COURSE OF PERFORMANCE. WITHOUT LIMITING THE GENERALITY OF THE FOREGOING, SERVICENOW SPECIFICALLY DOES NOT WARRANT THAT THE SUBSCRIPTION SERVICE, SOFTWARE, PROFESSIONAL SERVICES OR DOCUMENTATION WILL MEET THE REQUIREMENTS OF CUSTOMER OR OTHERS OR THAT THEY WILL BE ACCURATE OR OPERATE WITHOUT INTERRUPTION OR ERROR. CUSTOMER ACKNOWLEDGES THAT IN ENTERING THE AGREEMENT IT HAS NOT RELIED ON ANY PROMISE, WARRANTY OR REPRESENTATION NOT EXPRESSLY SET FORTH HEREIN.

5. CONFIDENTIALITY AND NON-USE RESTRICTIONS

5.1. CONFIDENTIAL INFORMATION. "***Confidential Information***" means all information disclosed by a party ("***Disclosing Party***") to the other party ("***Receiving Party***"), whether orally or in writing, that is designated as confidential or that reasonably should be understood to be confidential given the nature of the information and the circumstances of the disclosure, including without limitation: each party's respective business plans and processes; financial and employee data; proprietary technology and product information and designs; the Subscription Service and Software and Customer Data. The terms of the Agreement and Order form(s) are Confidential Information of ServiceNow. Confidential Information excludes information that: (i) is or becomes generally known to the public; (ii) was known to the Receiving Party prior to its disclosure by the Disclosing Party without breach of any obligation to the Disclosing Party; (iii) is received from a third party without any obligation of confidentiality to a third party or breach of any obligation of confidentiality to the Disclosing Party; or (iv) was independently developed by the Receiving Party without reference to the Disclosing Party's Confidential Information.

5.2. PROTECTION. The Receiving Party shall: (i) at all times protect the confidentiality of the Disclosing Party's Confidential Information with the same degree of care that it uses to protect its own confidential information, and in no event using less than reasonable care; and (ii) not use Confidential Information of the Disclosing Party except to the extent necessary to exercise its rights or fulfill its obligations under the Agreement. To the extent necessary under the Agreement, the Receiving Party may disclose the Confidential Information of the Disclosing Party to the Receiving Party's employees or contractors who are bound by written obligations of confidentiality and non-use and non-disclosure restrictions at least as protective as those set forth herein. In the event of a court order or government regulation compelling disclosure of any Confidential Information, the Receiving Party shall provide the Disclosing Party with prompt written notice thereof, and shall reasonably cooperate with the Disclosing Party to seek confidential or other protective treatment. Each party's obligations set forth in this Section 5 shall remain in effect during the term and three (3) years after termination of the Agreement. The Receiving Party shall promptly return to the Disclosing Party or destroy (with certification of such destruction provided by the Receiving Party upon request) all Confidential Information of the Disclosing Party in its possession or control upon request from the Disclosing Party. Provisions for the return of Customer Data are set forth in Section 7.3 (Return of Customer Data).

6. LIMITATIONS OF LIABILITY AND DAMAGES

6.1. LIMITATIONS OF LIABILITY. TO THE EXTENT PERMITTED BY LAW, THE TOTAL, CUMULATIVE LIABILITY OF EACH PARTY ARISING OUT OF OR RELATED TO The AGREEMENT OR THE SERVICES PROVIDED HEREUNDER, WHETHER BASED ON CONTRACT, IN TORT OR ANY OTHER LEGAL OR EQUITABLE THEORY, SHALL BE LIMITED TO THE AMOUNTS PAID BY CUSTOMER FOR THE SERVICE GIVING RISE TO THE CLAIM DURING THE

TWELVE (12) MONTH PERIOD PRECEDING THE FIRST EVENT GIVING RISE TO LIABILITY. THE EXISTENCE OF MORE THAN ONE CLAIM SHALL NOT ENLARGE THIS LIMIT. THE FOREGOING LIMITATION OF LIABILITY SHALL NOT APPLY TO: (1) BODILY INJURY OR DEATH; (2) INFRINGEMENT BY A PARTY OF THE OTHER PARTY'S INTELLECTUAL PROPERTY RIGHTS; AND (3) CUSTOMER'S OBLIGATION TO PAY AMOUNTS OWED FOR SERVICES PROVIDED HEREUNDER.

6.2. EXCLUSION OF DAMAGES. TO THE EXTENT PERMITTED BY LAW, NEITHER SERVICENOW NOR CUSTOMER SHALL BE LIABLE TO THE OTHER OR ANY THIRD PARTY FOR LOST PROFITS (WHETHER DIRECT OR INDIRECT) OR LOSS OF USE OR DATA, COVER, SUBSTITUTE GOODS OR SERVICES, OR FOR INCIDENTAL, CONSEQUENTIAL, PUNITIVE, SPECIAL OR EXEMPLARY DAMAGES (INCLUDING DAMAGE TO BUSINESS, REPUTATION OR GOODWILL), OR INDIRECT DAMAGES OF ANY TYPE HOWEVER CAUSED, WHETHER BY BREACH OF WARRANTY, BREACH OF CONTRACT, IN TORT OR ANY OTHER LEGAL OR EQUITABLE CAUSE OF ACTION EVEN IF SUCH PARTY HAS BEEN ADVISED OF SUCH DAMAGES IN ADVANCE OR IF SUCH DAMAGES WERE FORESEEABLE. THE FOREGOING EXCLUSIONS SHALL NOT APPLY TO: (1) BODILY INJURY OR DEATH; AND (2) INFRINGEMENT BY A PARTY OF THE OTHER PARTY'S INTELLECTUAL PROPERTY RIGHTS.

7. TERM AND TERMINATION

7.1. TERM AND TERMINATION. The Agreement continues until terminated in accordance with its terms. Each party may terminate the Agreement in its entirety either: (i) upon thirty (30) days' prior written notice to the other party, if at the time such notice is served there are no Order Forms in effect; or (ii) upon written notice if the other party becomes the subject of a petition in bankruptcy or any proceeding related to its insolvency, receivership or liquidation, in any jurisdiction, that is not dismissed within sixty (60) days of its commencement or an assignment for the benefit of creditors. Either party may terminate a Subscription Service or Professional Services effective immediately upon written notice if the other party materially breaches a material obligation under the Agreement or the applicable Order Form for the affected service and does not cure the breach within thirty (30) days after receiving written notice thereof from the non-breaching party. Professional Services are separately ordered from the Subscription Service, and are not required for the Subscription Service. A breach by a party of its obligations with respect to Professional Services shall not by itself constitute a breach by that party of its obligations with respect to the Subscription Service even if the services are enumerated in the same Order Form.

7.2. EFFECT OF TERMINATION OF SERVICE. Upon expiration or other termination of the Subscription Service for any reason, Customer shall stop using, and ServiceNow shall stop providing, the terminated Subscription Service. (a) If the Subscription Service is terminated by Customer due to ServiceNow's breach, then ServiceNow shall refund to Customer, within thirty (30) days after the effective date of termination, all prepaid fees for the remaining portion of the Subscription Term for the terminated Subscription Service after the effective date of termination. (b) If Professional Service is terminated by Customer due to ServiceNow's breach, then ServiceNow shall refund to Customer, within thirty (30) days after the effective date of termination, any prepaid amounts for unperformed Professional Service. (c) If the Subscription Service is terminated by ServiceNow due to Customer's breach, then Customer shall pay to ServiceNow, within thirty (30) days after the effective date of termination, fees for the terminated Subscription Service that would have been payable for the remainder of the Subscription Term after the effective date of termination. (d) Upon expiration or other termination of the Subscription Service for any reason, Customer shall be eligible to request the return of Customer Data in accordance with Section 7.3 (Return of Customer Data).

7.3. RETURN OF CUSTOMER DATA. Following the end of the Subscription Term, where Customer has not renewed, Customer shall have forty-five (45) days to request a copy of the Customer Data from ServiceNow; and, if requested, ServiceNow shall use commercially reasonable efforts to provide a copy of that data within fifteen (15) days in a mutually agreed upon, commercially standard format at no cost to Customer unless ServiceNow determines in its reasonable discretion that the data output is not routine, in which case the parties shall mutually agree on a statement of work for professional services. After such forty-five (45) day period, ServiceNow shall have no obligation to maintain or provide any Customer Data and shall thereafter, unless legally prohibited, have the right to delete all Customer Data in its systems or otherwise in its possession or under its control and delete Customer's instances of the Subscription Service.

7.4. SURVIVAL. Upon termination of the Agreement for any reason, Customer shall pay all amounts owed hereunder. Sections 3.5 (Ownership), 3.6 (Restrictions), and 5 (Confidentiality and Non-Use Restrictions) through 8 (General Provisions) of these General Terms and Conditions, together with any other provision required for their construction or enforcement, shall survive termination of the Agreement for any reason.

8. GENERAL PROVISIONS

8.1. ASSIGNMENT. Neither party may assign its rights or obligations, whether by operation of law or otherwise, without the prior written consent of the other party. Notwithstanding the foregoing, either party may, upon notice and without the other party's consent: (i) in connection with a merger, reorganization or sale of all or substantially all of the assets or equity

of such party, assign the Agreement in its entirety to such party's successor; and (ii) assign the Agreement in its entirety to any company, partnership or other legal entity which from time to time directly or indirectly controls, is controlled by or is under the common control with such party. Any attempted or purported assignment in violation of this Section 8.1 will be null and void. Subject to the foregoing, the Agreement shall bind and inure to the benefit of the parties, their respective successors and permitted assigns.

8.2. NOTICE. Except as otherwise provided herein, all notices shall be in writing and deemed given upon: (i) personal delivery; (ii) when received by the addressee if sent by a nationally recognized overnight courier (receipt requested); (iii) the second business day after mailing; or (iv) the first business day after sending by email, except that email shall not be sufficient for notices regarding a Claim. Notices shall be sent to the parties as set forth on the Order Form or as otherwise agreed to by the parties in writing.

8.3. EXPORT COMPLIANCE. Each party shall comply with United States and foreign export control laws and regulations. Customer acknowledges that the Subscription Service, Professional Services, Software and Documentation are subject to the U.S. Export Administration Regulations (the "***EAR***") and that Customer shall comply with the EAR. Without limiting the foregoing, Customer represents and warrants that: (i) Customer is not located in, and shall not use the Subscription Service, Professional Services, Software and Documentation from, any country that is subject to U.S. export restrictions (currently including, but not necessarily limited to, Cuba, Iran, North Korea, Sudan and Syria); (ii) Customer shall not use the Subscription Service, Professional Services, Software and Documentation in the design, development or production of nuclear, chemical or biological weapons, or rocket systems, space launch vehicles, sounding rockets or unmanned air vehicle systems; and (iii) Customer is not prohibited from participating in the U.S. export transactions by any federal agency of the U.S. government. In addition, Customer is responsible for complying with any local laws which may impact Customer's right to import, export or use the Subscription Service, Professional Services, Software and Documentation.

8.4. FORCE MAJEURE. No party shall be liable or responsible to the other party, nor be deemed to have defaulted under or breached the Agreement, for any failure or delay in fulfilling or performing any term of the Agreement, when and to the extent such failure or delay is caused by or results from acts beyond the affected party's reasonable control, including without limitation: strikes, lock-outs or other industrial disputes (whether involving its own workforce or a third party's), trespassing, sabotage, theft or other criminal acts, failure of energy sources or transport network, acts of God, war, terrorism, riot, civil commotion, interference by civil or military authorities, national or international calamity, armed conflict, malicious damage, breakdown of plant or machinery, nuclear, chemical or biological contamination, explosions, collapse of building structures, fires, floods, storms, earthquakes, epidemics or similar events, natural disasters or extreme adverse weather conditions (each a "***Force Majeure Event***"). The party suffering a Force Majeure Event shall use reasonable efforts to mitigate against the effects of such Force Majeure Event.

8.5. US GOVERNMENT RIGHTS. All ServiceNow software is commercial computer software and all services are commercial items. "***Commercial computer software***" has the meaning set forth in Federal Acquisition Regulation ("***FAR***") 2.101 for civilian agency purchases and the Department of Defense ("***DOD***") FAR Supplement ("***DFARS***") 252.227-7014(a)(1) for defense agency purchases. If the software is licensed or the services are acquired by or on behalf of a civilian agency, ServiceNow provides the commercial computer software and/or commercial computer software documentation and other technical data subject to the terms of the Agreement as required in FAR 12.212 (Computer Software) and FAR 12.211 (Technical Data) and their successors. If the software is licensed or the services are acquired by or on behalf of any agency within the DOD, ServiceNow provides the commercial computer software and/or commercial computer software documentation and other technical data subject to the terms of the Agreement as specified in DFARS 227.7202-3 and its successors. Only if this is a DOD prime contract or DOD subcontract, the Government acquires additional rights in technical data as set forth in DFARS 252.227-7015. This U.S. Government Rights clause is in lieu of, and supersedes, any other FAR, DFARS or other clause or provision that addresses Government rights in computer software or technical data.

8.6. ENTIRETY. Customer acknowledges that it has not relied on any statement, promise or representation made or given by or on behalf of ServiceNow which is not set out in the Agreement. Customer's order is not contingent on, and Customer has not relied on, the delivery of any future functionality regardless of any verbal or written communication about ServiceNow's future plans. The Agreement supersedes all prior or contemporaneous oral or written agreement, representations and negotiations, including, but not limited to, any terms contained in Customer's purchase order.

8.7. WAIVER AND AMENDMENT. A waiver of any right is only effective if it is in writing and only against the party who signed such writing and for the circumstances given. Any modification of the Agreement, an Order Form, the Product Overview, the Subscription Service Guide, a SOW or a Service Description must be in writing and signed by authorized representatives of both parties.

8.8. RELATIONSHIP OF THE PARTIES. The parties are independent contractors. Nothing in the Agreement shall be construed to create a partnership, joint venture or agency relationship. Neither party shall have any right or authority

to assume or create any obligation of any kind expressed or implied in the name of or on behalf of the other party. ServiceNow may at any time subcontract or delegate in any manner any or all of its obligations under the Agreement to any third party or agent.

8.9. GOVERNING LAW; VENUE; TIME FOR BRINGING ACTION. The Agreement shall be governed by, subject to, and interpreted in accordance with the laws of the state of California, United States of America, if Customer is located in Canada, United States or Mexico, and the laws of England if Customer is located elsewhere. If Customer is located in Canada, United State or Mexico, the parties hereby irrevocably consent to the nonexclusive jurisdiction of, and venue in, any federal or state court of competent jurisdiction located in San Diego, California, or New York, New York, for the purposes of adjudicating any action or proceeding to enforce the terms of the Agreement. If Customer is located elsewhere, then any dispute arising under the Agreement shall be finally settled by binding arbitration in London, England. Such arbitration shall be conducted in English in accordance with the rules of the International Chamber of Commerce by one (1) arbitrator appointed in accordance with such rules. The arbitrator shall allow such discovery as is appropriate in accomplishing a fair, speedy, and cost-effective resolution of the dispute, and shall be expressly empowered to issue appropriate injunctive relief. The award of arbitration shall be final and binding upon both parties, and judgment on the award rendered by the arbitrator may be entered in any court having jurisdiction thereof. Any monetary award shall be payable in United States dollars. To the extent permitted by law, choice of law rules and the United Nations Convention on Contracts for the International Sale of Goods shall not apply. No cause of action arising hereunder or relating hereto may be brought more than one (1) year after it first accrues. The prevailing party in an action to enforce the Agreement shall be entitled to costs of bringing the claim and reasonable attorneys' and experts' fees and expenses. Notwithstanding the foregoing, either party may at any time seek and obtain appropriate legal or equitable relief in any court of competent jurisdiction for claims regarding such party's intellectual property rights.

8.10. CONSTRUCTION. The Subscription Service and Professional Services shall be provided in the English language unless agreed otherwise. The parties confirm that they have requested that the Agreement and all related documents be drafted in English at the express wishes of the parties. Les parties ont exigé que le présent contrat et ServiceNow les documents connexes soient rédigés en anglais selon la volonté expresse des parties. Capitalized terms not defined herein shall have the meaning set forth or referenced in the Subscription Service Guide. Section headings are for convenience only and are not to be used in interpreting the Agreement.

SUBSCRIPTION SERVICE GUIDE

Capitalized terms not defined herein shall have the meaning set forth in the Express General Terms and Conditions or Subscription Service Agreement.

1. CUSTOMER OPERATION OF SUBSCRIPTION SERVICE

1.1. PASSWORDS AND USER NAMES. Customer shall: (a) protect the names and passwords of users of the Subscription Service and prevent and notify ServiceNow of unauthorized use of the Subscription Service; (b) appoint up to five (5) designated support contacts for purposes of contacting ServiceNow support regarding questions and/or technical issues ("***Authorized Customer Support Contacts")*** and ensure that the Authorized Customer Support Contacts' information is current in the ServiceNow support portal; (c) be responsible for the lawfulness of, and results obtained from, all Customer Data submitted by users to the Subscription Service and each user's acts and omissions; and (d) use the Subscription Service only in accordance with the Documentation.

1.2. ACCESS CONTROL. ServiceNow provides the technical architecture that permits Customer to use and process Customer Data in the Subscription Service. This architecture includes an access control list engine. Customer shall be responsible for using the access control list engine for protecting all Personal Data. Customer shall ensure that access to and use of Subscription Service is restricted to only users authorized by Customer. Customer shall be responsible for ensuring all such users maintain the security of any passwords, usernames and other forms of authentication to the Subscription Service. A username and password must be uniquely assigned to a specific person and may not be shared by multiple persons at any one time or transferred. "***Personal Data***" means information identifying a natural person; an identifiable natural person is someone who can be identified, directly or indirectly, in particular by reference to an identification number or to one or more factors specific to his or her physical, physiological, mental, financial, cultural or social identity.

2. SECURITY PROGRAM; EXCEPTIONS

ServiceNow shall maintain a security program ("***Security Program***") that includes industry standard practices designed to protect Customer Data from unauthorized access, use, disclosure, alteration, distribution and destruction. Notwithstanding anything to the contrary in this Agreement, the Security Program apply only to those systems, networks, network devices, facilities and components over which ServiceNow exercises control. The Security Program does not apply to: (i) information shared with ServiceNow that is not Customer Data; (ii) Customer Data in transit over the Internet, Customer's virtual private network (VPN), or another third party network; (iii) any Customer Data processed by Customer or its users in violation of this Agreement; or (iv) any part of the Subscription Service that is not hosted by ServiceNow.

3. UPGRADES

3.1. UPGRADES. "***Upgrades***" are ServiceNow's releases of the Subscription Service for repairs, enhancements or new features applied by ServiceNow to Customer's instances of the Subscription Service at no additional fee during the Subscription Term. ServiceNow has the discretion to provide new functionality either: (i) as an Upgrade, or (ii) as different software or service for a separate fee. ServiceNow determines whether and when to develop, release and apply any Upgrade to Customer's instances of the Subscription Service.

3.2. MAINTENANCE. ServiceNow shall use reasonable efforts to give Customer ten (10) days' notice of any service maintenance to the infrastructure network, hardware or software used by ServiceNow to operate and deliver the Subscription Service if ServiceNow, in its reasonable judgment, believes that such cloud infrastructure maintenance will impact Customer's use of its production instances of the Subscription Service. ServiceNow will use reasonable efforts to limit the Maintenance Time (as defined below) to no more than two (2) hours per month. Notwithstanding the foregoing, ServiceNow may provide Customer with a shorter or no notice period of service maintenance if necessary, in the reasonable judgment of ServiceNow, to maintain the availability, security, stability or performance of the Subscription Service.

4. SUPPORT

During the Subscription Term, ServiceNow shall use reasonable efforts to resolve Defects in the Subscription Service ("***Support***").

A "***Defect***" means a problem causing the Subscription Service to not conform to the Product Overview. Customer may request Support for a Defect at the online portal https://hi.service-now.com/ or any successor site.

A Defect will be assigned a priority level as follows:

- A Priority Level 1 Defect is any Defect that causes Customer's instance(s) of the Subscription Service to be not Available (as defined below).
- A Priority Level 2 Defect is any Defect that causes a mission critical function of the Subscription Service to fail.
- A Priority Level 3 Defect is any Defect that significantly impedes work or progress.
- A Priority Level 4 Defect is any Defect that does not significantly impede work or progress.

Upon notification by Customer of a Defect, ServiceNow shall, in all instances, target an initial response (the "***Initial Response***") within the timeframes set forth in the Support Table, as measured from the time that Customer notifies ServiceNow. The initial response from ServiceNow shall include, as applicable and without limitation: (i) ServiceNow's acknowledgment or notification to Customer of such Defect, and (ii) the classification of such Defect as a Priority Level 1, 2, 3 or 4.

SUPPORT TABLE

Priority Level	Target Initial Response
1	30 minutes; at all times
2	2 hours; at all times
3	Within 1 business day
4	Varies

Support does not include: implementation services; configuration services; integration services; customization services or other custom software development; support for modifications of the Subscription Service by any person other than ServiceNow or a person acting at ServiceNow's direction; training or "how-to"; assistance with administrative functions; professional services; corrections of immaterial Defects or Defects that have a viable workaround; or corrections that will degrade the Subscription Service.

5. SERVICE LEVEL OBJECTIVE

5.1. DEFINITIONS.

(a) "***Available***" means that the Subscription Service can be accessed by authorized users.

(b) "***Excused Downtime***": means (i) Maintenance Time of up to two (2) hours per month; and (ii) any time the Subscription Service is not Available due to circumstances beyond ServiceNow's control, including without limitation modifications of the Subscription Service by any person other than ServiceNow or a person acting at ServiceNow's direction, a Force Majeure Event, general Internet outages, failure of Customer's infrastructure or connectivity (including without limitation, direct connectivity and virtual private network (VPN) connectivity to the Subscription Service), computer and telecommunications failures and delays not within ServiceNow's control, and network intrusions or denial-of-service or other criminal attacks.

(c) "***Maintenance Time***" means the time the Subscription Service is not Available due to service maintenance.

(d) "***Availability Service Level Objective***" means the percentage of total time during which Customer's production instances of the Subscription Service are Available during a calendar month, excluding Excused Downtime.

5.2. AVAILABLITY. ServiceNow shall use reasonable efforts to provide an Availability Service Level Objective of 99.8% over any calendar month. There is no service credit offered for a failure to meet this Availability Service Level Objective.

SCHEDULE A

TERMS AND CONDITIONS TO
VIRTRU PRO
SUBSCRIPTION AGREEMENT

1. DEFINITIONS

For purposes of this Agreement, the following terms shall have the following meanings:

1.1 "**Derivative Work**" shall mean a new or modified work that is based on or derived from a preexisting work, including, without limitation, a work that, in the absence of a license, would infringe the copyright in such preexisting work or that uses trade secrets or other proprietary information with respect to such preexisting work.

1.2 "**Materials**" shall mean the Virtru Pro software (including any object code, executable files, or browser plug-ins) or materials related thereto provided by Virtru to Customer hereunder, including, without limitation, any software downloaded from Virtru's website or from the Virtru Pro Services; any related materials and documentation therefor; and any modifications, error corrections, bug fixes, new releases, enhanced functionality (including platform integration features not generally available to non-commercial users of Virtru's software) or other updates thereto that may be provided hereunder by Virtru to Customer during the term of this Agreement.

1.3 "**Third Party Services**" shall mean any services used in connection with the Materials that are hosted by a party other than Virtru or Licensee.

1.4 "**Virtru Pro Services**" shall mean the Virtru hosted services made available by Virtru to Customer in connection with the Materials.

2. RIGHTS IN MATERIALS AND TO USE SERVICE

2.1 Grant of Rights. Subject to the terms and conditions of this Agreement, Virtru (a) hereby grants to Customer a restricted, non-exclusive, nontransferable, nonsublicensable, royalty-free (except as set forth in Section 2.3), revocable right to use, during the term of this Agreement and in accordance with the documentation provided by Virtru, the Materials (the **"License"**), and (b) Virtru will make the Virtru Pro Services available to Customer pursuant to this Agreement during the term of this Agreement. Except as set forth in this Section 2.1, no other right or license of any kind is granted by Virtru to Customer hereunder with respect to the Materials or the Virtru Pro Services. Customer acknowledges and agrees that, unless otherwise agreed in writing between the parties, Customer shall be solely responsible for procuring and complying with any license or right to use any Third Party Services, including those offered by Customer's email services provider.

2.2 Restrictions. Customer shall not, without the prior written consent of Virtru: (a) copy all or any portion of the Materials or Virtru Pro Services; (b) decompile, disassemble, scrape or otherwise reverse engineer the Materials, Virtru Pro Services or any portion thereof, or determine or attempt to determine any source code, algorithms, methods or techniques embodied in the Materials or used in the Virtru Pro Services or any portion thereof; (c) modify, translate or create any Derivative Works based upon the Materials or Virtru Pro Services; (d) distribute, disclose, market, rent, lease, assign, sublicense, pledge or otherwise transfer the Materials, in whole or in part, to any third party or export the Materials outside the United States; (e) remove or alter any copyright, trademark, trade name or other proprietary notices, legends, symbols or labels appearing on or in copies of the Materials or the Virtru Pro Services; (f) perform, or release the results of, benchmark tests or other comparisons of the Materials or Virtru Pro Services with other programs or services; (g) transfer the Materials to any computer other than a computer owned by Customer and used by Customer in Customer's operations; (h) permit the Materials or Virtru Pro Services to be used for processing the data of any third party; (i) incorporate the Materials, Virtru Pro Services or any portion thereof into any other program, product or service, or use the Materials or Virtru Pro Services to provide similar services or functionality to third parties; (j) provide any third party with access to the Virtru Pro Services other than as expressly permitted herein or by the Terms of Service (as defined below); (k) use the Materials or Virtru Pro Services for any unlawful or tortious purpose; or (l) use the Materials or Virtru Pro Services for any purpose other than in accordance with the terms and conditions of this Agreement or Virtru's then-current terms of service (available at https://www.virtru.com/terms-of-service) (the "**Terms of Service**"). Customer shall ensure that all Customer end users of the Virtru Pro Service and Materials comply with

the terms and conditions of this Agreement. Customer shall be responsible for compliance with this Agreement by each Customer end user and it shall monitor and manage all Customer users in connection with this Agreement.

2.3 Fees; Payment. In consideration of the Virtru's provision of the Virtru Pro Services and Materials, Customer shall make payments to Virtru in accordance with the terms set forth on the cover page of this Agreement. Sales and use tax, VAT, or GST are Customer's sole responsibility, and Customer acknowledges and agrees that all fees are exclusive of all such taxes.

2.4 Seats; Reporting. Customer shall initially be permitted to use the Materials and Virtru Pro Services with respect to the number of seats set forth on the cover page of this Agreement (the "**Baseline Seat Count**"). Each seat shall be used by one Customer user. During the term of this Agreement, Customer will report to Virtru the total number of users of the Materials and Virtru Pro Services on an annual basis. Such report will be submitted to sales@virtru.com and shall be due thirty (30) days prior to each anniversary of the date of this Agreement (each, a "**Reporting Date**") based on the actual number of users as of the date thirty (30) days prior to such Reporting Date (each, a "**Seat Count Date**"). If the actual number of Customer users as of any Seat Count Date is higher than the Baseline Seat Count, Customer will pay the "Subscription Fee per Seat" set forth on the cover page of this Agreement (the "**Subscription Fee**") for each such additional user for any Renewal Term.

2.5 Adjustment Events. In addition to the annual reporting required under Section 2.4 above, Customer shall report to Virtru any increase of ten percent (10%) or more in the aggregate number of Customer users in excess of the Baseline Seat Count that occurs between Reporting Dates (an "**Adjustment Event**") and agrees to pay Virtru, within thirty (30) days following any such Adjustment Event, a prorated Subscription Fee for each such additional user for the remaining portion of the applicable term and for any Renewal Term.

2.6 Seat Count Audit. At any time during the term of this Agreement, Virtru shall have the right to audit Customer's usage of the Virtru Pro Services and Materials (a "**Seat Count Audit**"). If the actual number of Customer users as of the date of any Seat Count Audit is higher than the Baseline Seat Count, Customer will pay the "Subscription Fee per Seat" set forth on the cover page of this Agreement for the remaining portion of the applicable term and for any Renewal Term.

3. SUPPORT

Virtru will provide support to Customer and its end users through Virtru's generally available online ticketing and support system. Except as expressly provided in Schedule B, which is incorporated herein by reference, in this Section 3 or as may otherwise be provided under a written support agreement entered into by Virtru and Customer, Virtru is under no obligation to support the Materials or Virtru Pro Services in any way, nor to provide any modification, error correction, bug fix, new release or other update (each an "**Update**") to or for the Materials or Virtru Pro Service. In the event Virtru, in its sole discretion, supplies or makes available any Update to Customer, such Update shall be deemed to be part of the Materials or Virtru Pro Services (as applicable) hereunder and shall be subject to the terms and conditions of this Agreement.

4. PROPRIETARY RIGHTS

4.1 General. As between Virtru and Customer, Virtru retains all right, title and interest, including, without limitation, all patent rights, copyrights, trademarks and trade secrets, in and to the Materials, Virtru Pro Services and any portion thereof, including, without limitation, any copy or Derivative Work of the Materials, Virtru Pro Services or any portion thereof and any Update thereto. Customer agrees to take any action reasonably requested by Virtru to evidence, maintain, enforce or defend the foregoing. Customer shall not take any action to jeopardize, limit or interfere in any manner with Virtru's ownership of and rights with respect to the Materials, Virtru Pro Services or any Derivative Work or Update. Customer shall have only those rights in or to the Materials, Virtru Pro Services and any Derivative Work or Update granted to it pursuant to this Agreement.

4.2 Feedback. Customer and its authorized users may provide suggestions, requests, recommendations and other feedback concerning Customer's use of the Materials and Virtru Pro Services (including, without limitation, any errors or difficulties discovered with respect thereto) (the "**Feedback**"). Customer agrees that all Feedback shall be the sole

property of Virtru and Virtru may use such Feedback at its discretion without the consent of Customer.

5. PROPRIETARY INFORMATION

5.1 Proprietary Information. Both parties acknowledge that, in the course of this Agreement each may obtain confidential or proprietary information of the other party ("**Proprietary Information**"). "Proprietary Information" will include, without limitation, (a) the existence of and terms of this Agreement, (b) trade secrets, know-how, inventions (whether or not patentable), techniques, processes, programs (whether in source code or object code form), ideas, algorithms, formulas, schematics, testing procedures, software design and architecture, computer code, documentation, design and functional specifications, product requirements, problem reports, performance information, software documents, hardware, devices, designs, drawings, unpublished patent applications, data, plans, strategies and forecasts, and (c) technical, engineering, manufacturing, product, marketing, servicing, financial, personnel and other information. Virtru's "Proprietary Information" will include, without limitation, the Materials (including all Derivative Works and Updates) and all confidential information related thereto provided by Virtru to Customer in connection with this Agreement. Virtru's Proprietary Information shall, as between Customer and Virtru, belong solely to Virtru, and Customer's Proprietary Information shall, as between Customer and Virtru, belong solely to Customer.

5.2 Use and Disclosure Restrictions. Each party agrees (a) to protect the other party's Proprietary Information from unauthorized dissemination and use; (b) to use the other party's Proprietary Information only for the performance of this Agreement and the exercise of any rights under this Agreement; (c) not to disclose any Proprietary Information, or any part or parts thereof, to any of its employees, agents, contractors or any other individuals except to its employees who are under confidentiality obligations no less restrictive than the requirements of this Section 5; (d) with respect to Customer, not to disclose or otherwise provide to any third party, without the prior written consent of Virtru or as otherwise set forth in a separate written agreement between the parties hereto entered into after the date hereof, as applicable, any of Virtru's Proprietary Information, materials or any data or other information produced, obtained or created by Customer in connection with Customer's use of the Materials, including, without limitation, the existence of this Agreement and the existence and possible applications of the Materials; (e) to undertake whatever action is necessary (or authorize the other party to do so in the name of such party) to prevent or remedy any breach of such party's confidentiality obligations herein set forth or any other unauthorized disclosure of any Proprietary Information by its current or former employees, agents or contractors; and (f) not to remove or destroy any proprietary or confidential legends or markings placed upon or contained within the Proprietary Information provided to such party by the other party.

5.3 Exclusions. The foregoing restrictions on disclosure and use shall not apply with respect to any Proprietary Information that: (a) is or becomes publicly known through no act or omission of the other party; (b) was rightfully known by the receiving party without confidential or proprietary restriction before receipt from the other party, as evidenced by the receiving party's contemporaneous written records; (c) becomes rightfully known to the receiving party without confidential or proprietary restriction from a source other than the disclosing party that does not owe a duty of confidentiality with respect to such Proprietary Information; or (d) is independently developed without the use of the Proprietary Information as evidenced by the receiving party's written records. In addition, a party may use or disclose Proprietary Information to the extent (i) approved in writing by the other party and (ii) a party is legally compelled to disclose such Proprietary Information, provided, however, that prior to any such compelled disclosure, such party shall cooperate fully with the other party in protecting against any such disclosure and/or obtaining a protective order narrowing the scope of such disclosure and/or use of the Proprietary Information. Further, each party may disclose the terms and conditions of this Agreement: (A) in confidence, to legal counsel; (B) in confidence, to accountants, banks, and financing sources and their advisors; and (C) in connection with the enforcement of this Agreement or any rights hereunder.

5.4 Equitable Relief. Each party agrees that, due to the unique nature of the other party's Proprietary Information, the unauthorized disclosure or use of the other party's Proprietary Information or any other breach of any provision of this Section 5 will cause irreparable harm and significant injury to the other party, the extent of which will be difficult to ascertain and for which there will be no adequate remedy at law. Accordingly, each party agrees that the other party, in addition to any other available remedies, shall have the right to seek an immediate injunction and other equitable relief enjoining any breach or threatened breach of this Section 6 without the necessity of posting any bond or other security. Each party shall notify the other party in writing immediately upon becoming aware of any such breach or threatened breach.

6. NO WARRANTY

THE MATERIALS AND VIRTRU PRO SERVICES ARE PROVIDED "AS IS" AND VIRTRU DISCLAIMS ALL WARRANTIES AND REPRESENTATIONS, WHETHER EXPRESS OR IMPLIED, RELATING TO THE MATERIALS AND VIRTRU PRO SERVICES, INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OF DESIGN, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE OR NONINFRINGEMENT OF THIRD PARTY RIGHTS, OR WARRANTIES ARISING FROM A COURSE OF DEALING, COURSE OF PERFORMANCE, USAGE OR TRADE PRACTICE. VIRTRU DOES NOT GUARANTEE THE ACCURACY OF THE INFORMATION INCLUDED IN, TRANSMITTED THROUGH OR MADE AVAILABLE BY THE MATERIALS OR VIRTRU PRO SERVICES, WHICH MAY INCLUDE INACCURACIES OR ERRORS. VIRTRU DOES NOT GUARANTEE THAT THE MATERIALS OR VIRTRU PRO SERVICES WILL BE UNINTERRUPTED OR ERROR-FREE, THAT BUGS OR MALFUNCTIONS WILL BE CORRECTED OR THAT THE MATERIALS, VIRTRU PRO SERVICES OR VIRTRU'S SERVERS ARE FREE OF HARMFUL COMPONENTS. VIRTRU DOES NOT GUARANTEE THAT THE MATERIALS OR VIRTRU PRO SERVICES ARE ACCURATE, WITHOUT ERROR OR RELIABLE.

7. VIRTRU'S ENTIRE LIABILITY

TO THE EXTENT ALLOWED BY APPLICABLE LAW AND NOTWITHSTANDING ANY FAILURE OF ESSENTIAL PURPOSE OF ANY LIMITED REMEDY OR LIMITATION OF LIABILITY: (a) IN NO EVENT SHALL VIRTRU OR ITS SUPPLIERS BE LIABLE FOR ANY DAMAGES FOR LOSS OF PROFITS, LOSS OF BUSINESS, LOSS OF USE OR DATA, INADVERTENT DISCLOSURE OF DATA, OR INTERRUPTION OF BUSINESS, OR FOR ANY INDIRECT, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES OF ANY KIND OR OTHER ECONOMIC LOSS ARISING FROM OR RELATING TO THIS AGREEMENT OR THE SUBJECT HEREOF, EVEN IF VIRTRU HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, HOWEVER CAUSED, AND (b) NOTWITHSTANDING ANYTHING IN THIS AGREEMENT TO THE CONTRARY, VIRTRU'S ENTIRE LIABILITY ARISING FROM OR RELATING TO THIS AGREEMENT OR THE SUBJECT HEREOF, UNDER ANY LEGAL THEORY (WHETHER IN CONTRACT, TORT, INDEMNITY OR OTHERWISE), IF ANY, SHALL NOT EXCEED ONE THOUSAND DOLLARS (US$1,000).

8. INDEMNIFICATION

Customer shall defend, indemnify and hold Virtru harmless against any loss, liability, damage or cost (including reasonable attorneys' fees) in connection with claims, actions, demands, suits, or proceedings made or brought against Virtru by a third party alleging (a) that any modification or addition to the Materials or Virtru Pro Services made by or for Customer (other than by Virtru) infringes a copyright, mask work right, trade secret, trademark right or patent of the third party; (b) in combination with any other product or service not provided, specified or recommended in writing by Virtru for use with the Materials or Virtru Pro Services; or (b) with respect to the development, manufacture, marketing, sales, distribution or use of any of the Materials or Virtru Pro Services, including, without limitation, a product liability claim or a claim for breach of any warranty or support obligations. In connection with a claim under this Section 9, Virtru shall: (i) provide Customer with prompt notice of the claim; (ii) permit Customer to control the defense and any settlement of the claim (provided that Customer may not settle any claim unless such settlement unconditionally releases Virtru of all liability in connection with such claim); and (iii) provide cooperation as reasonably requested by Customer (at Customer's expense).

9. TERM AND TERMINATION

9.1 Term. This Agreement shall commence on the Effective Date and, unless sooner terminated pursuant to the terms hereof, shall continue in full force and effect for one (1) year (the "**Initial Term**"). Thereafter, this Agreement shall automatically renew for successive one (1) year periods (each a "**Renewal Term**"), unless either party provides the other party with written notice of its intent not to renew at least thirty (30) days prior to the end of the then-current term. The automatic renewal of this Agreement will be for the Baseline Seat Count, as adjusted pursuant to Sections 2.4, 2.5 and/or 2.6, on the same payment terms as set forth on the cover page of this Agreement.

9.2 Termination. Either party may terminate this Agreement immediately upon written notice to the other party if the other party fails to perform any of its duties or obligations hereunder and, except with respect to Customer's breach of Section 2.1 or 2.2, which breach shall not be subject to any cure period, fails to cure such default within thirty (30) days following receipt of written notice from the non-defaulting party specifying the occurrence or existence of the default. Customer shall notify Virtru within twenty-four (24) hours of Customer becoming aware of any breach (other than by Virtru) of the terms and conditions of this Agreement, including, without limitation, Sections 2 and 5.

9.3 Effect of Termination. Upon the expiration or termination of this Agreement, the rights granted to Customer hereunder shall terminate, Customer will cease all use of the Materials, return to Virtru or destroy the Materials in its possession, and, upon Virtru's request, so certify such actions to Virtru. Any costs

incurred in returning or destroying the Materials upon termination shall be borne by Customer. The provisions of Sections 2.2, 4.2, 5, 6, 7, 8, 9.3, and 10 shall survive the expiration or any termination of this Agreement. Termination of this Agreement by either party shall not act as a waiver of any breach of this Agreement and shall not act as a release of either party from any liability for breach of such party's obligations under this Agreement. Neither party shall be liable to the other for damages of any kind solely as a result of terminating this Agreement in accordance with its terms, and termination of this Agreement by a party shall be without prejudice to any other right or remedy of such party under this Agreement or applicable law.

10. GENERAL PROVISIONS

10.1 Notices. Any notice, request, demand or other communication required or permitted hereunder shall be in writing, shall reference this Agreement and shall be deemed to be properly given: (a) when delivered personally; (b) seven (7) days after having been sent by registered or certified mail, return receipt requested, postage prepaid; or (c) two (2) business days after deposit with a private industry express courier, with written confirmation of receipt. All notices shall be sent to the address set forth on the cover page of this Agreement and to the notice of the person executing this Agreement (or to such other address as may be designated by a party by giving written notice to the other party pursuant to this Section 10.1).

10.2 Assignment. This Agreement may not be assigned, in whole or part, whether voluntarily, by operation of law or otherwise, by Customer without the prior written consent of Virtru. Subject to the preceding sentence, the rights and liabilities of the parties hereto shall bind, and inure to the benefit of, their respective assignees and successors and is binding on the parties and their successors and assigns. Any attempted assignment other than in accordance with this Section 10.2 shall be null and void.

10.3 Governing Law, Jurisdiction and Venue. This Agreement is to be construed in accordance with and governed by the internal laws of the Commonwealth of Virginia (but expressly excluding the Uniform Computer Information Transactions Act ("**UCITA**") as enacted in Virginia) without giving effect to any choice of law rule that would cause the application of the laws of any jurisdiction other than the internal laws of the Commonwealth of Virginia (excluding UCITA) to the rights and duties of the parties. Any legal suit, action or proceeding arising out of or relating to this Agreement shall be commenced in a federal court in the Eastern District of Virginia or in state courts with jurisdiction over Fairfax County**,** Virginia, and each party hereto irrevocably submits to the exclusive jurisdiction and venue of any such court in any such suit, action or proceeding.

10.4 Attorneys' Fees. If any legal action, including, without limitation, an action for arbitration or injunctive relief, is brought relating to this Agreement or the breach hereof, the prevailing party in any final judgment or arbitration award, or the non-dismissing party in the event of a dismissal without prejudice, shall be entitled to the full amount of all reasonable expenses, including all court costs, arbitration fees and actual attorneys' fees paid or incurred in good faith.

10.5 Waiver. The waiver by either party of a breach of or a default under any provision of this Agreement, shall be in writing and shall not be construed as a waiver of any subsequent breach of or default under the same or any other provision of this Agreement, nor shall any delay or omission on the part of either party to exercise or avail itself of any right or remedy that it has or may have hereunder operate as a waiver of any right or remedy.

10.6 Severability. If the application of any provision of this Agreement to any particular facts or circumstances shall be held to be invalid or unenforceable by an arbitration panel or a court of competent jurisdiction, then (a) the validity and enforceability of such provision as applied to any other particular facts or circumstances and the validity of other provisions of this Agreement shall not in any way be affected or impaired thereby and (b) such provision shall be enforced to the maximum extent possible so as to effect the intent of the parties and reformed without further action by the parties to the extent necessary to make such provision valid and enforceable.

10.7 Relationship of the Parties. Nothing contained in this Agreement shall be deemed or construed as creating a joint venture, partnership, agency, employment or fiduciary relationship between the parties. Neither party nor its agents have any authority of any kind to bind the other party in any respect whatsoever, and the relationship of the parties is, and at all times shall continue to be, that of independent contractors.

10.8 Restricted Rights. If Customer is an agency or instrumentality of the United States Government, the Materials are "commercial computer software" and "commercial computer software documentation," and, pursuant to FAR 12.212 or DFARS 227.7202, and their successors, as applicable, use reproduction and disclosure of the Materials are governed by the terms of this Agreement.

10.9 Reference. Customer agrees to serve as a "reference customer" that may be disclosed by Virtru to third parties (including by displaying Customer's name, logo and/or a link to Customer's web site on Virtru's web site) and, upon reasonable notice from Virtru, shall serve as a reference to potential customers, vendors, investors, or other third parties designated by Virtru; provided, however, that Virtru shall provide Customer with reasonable prior notice of its need to have Customer serve as a reference.

10.10 Entire Agreement. This Agreement, any Schedules and any Exhibits attached hereto and incorporated herein by reference, and the Terms of Service constitute the entire agreement between the parties concerning the subject matter hereof and supersede all prior or contemporaneous representations, discussions, proposals, negotiations, conditions, agreements and communications, whether oral or written, between the parties relating to the subject matter of this Agreement and all past courses of dealing or industry custom. No amendment or modification of any provision of this Agreement shall be effective unless in writing and signed by a duly authorized signatory of each of Virtru and Customer.

10.11 Counterparts and Electronic Signatures. The Parties may execute this Agreement in counterparts, each of which is deemed an original, but all of which together constitute one and the same agreement. This Agreement may be delivered electronically or by facsimile transmission, and the parties hereby agree that any electronic or facsimile signatures hereto are legal, valid and enforceable as originals.

SCHEDULE B

MAINTENANCE AND SUPPORT SERVICES SCHEDULE

1. DEFINITIONS

For purposes of this Schedule, the following term shall have the following meaning:

(a) "**Support Services**" means the delivery of front-end support to Customer's end users by telephone, email or other methods and the training of Customer's end users, in each case relating to the use of the Materials and Virtru Pro Services.

2. SUPPORT SERVICES.

Virtru will be responsible for providing Customer's end users with Support Services. Virtru will not be required to provide the Support Services if Customer has failed to pay any amount payable to Virtru under this Agreement and such amount is more than thirty (30) days overdue.

3. UPDATES.

Virtru will provide Customer with one copy of each Update made generally available by Virtru to its customers that pay for customer support and maintenance during the term of this Agreement.

4. SUPPORT HOURS.

Virtru will provide the Support Services during Virtru's normal business hours, Monday to Friday, except holidays. Virtru will respond to Customer support inquiries or requests within one business day.

vCloud Air (U.S. and Japan Data Centers)

TERMS OF SERVICE

Last updated: November 5, 2014

VMware vCloud Air is an infrastructure as a service offering. By accessing any service offered through VMware vCloud Air (the " **Service Offering**") you agree to be bound by these terms of service between you and VMware (" **Agreement**"). If you do not agree to this Agreement, you must not access the Service Offering. An individual accepting this Agreement on behalf of an organization represents and warrants having legal authority to bind that organization. " **You**" means the entity accepting this Agreement. " **VMware**," " **we**," or " **us**" means VMware, Inc., a Delaware corporation, to the extent that you are purchasing the Service Offering in the United States, VMware vCloud Service G.K., a company organized and existing under the laws of Japan, to the extent that you are purchasing the Service Offering in Japan, and VMware International Limited, a company organized and existing under the laws of Ireland, to the extent that you are purchasing the Service Offering elsewhere. Capitalized terms used in this Agreement are defined throughout this Agreement and in Section 14.

EVALUATION PROGRAM USE. When you access the Service Offering under a VMware evaluation program, you may use the Service Offering only for non-production computing activity. Notwithstanding any other provision in this Agreement, under a VMware evaluation program, we provide the Service Offering "AS-IS" without indemnification, support or warranty of any kind, expressed or implied, and we will not be liable for any damages. Upon termination of the evaluation, you will no longer have access to the Service Offering and Your Content.

1. The Service Offering.

1.1 Generally. This Agreement governs your access and use of the Service Offering. We may deliver the Service Offering to you with the assistance of our affiliates, licensors and providers. Service Level Agreements may apply to the Service Offering. You will comply with all laws, rules and regulations applicable to your use of the Service Offering, and with the Third Party Terms, the Service Description, the Privacy Addendum, and the Support Policy, all of which are incorporated herein by reference.

1.2 Access to the Service Offering. You may access and use the Service Offering solely for your own benefit and only in accordance with this Agreement. To access the Service Offering, you must register for the Service Offering and set up an authorized account with Login Credentials. You may monitor and manage your Service Offering account via the My VMware Portal available at www.vmware.com/accounts and through the Service Offering Portal available at http://vcloud.vmware.com. You must keep confidential your Login Credentials. If you set up an authorized account for an organization, you will require that all authorized users of that account (including anyone providing services to you) keep confidential their Login Credentials. You will keep your registration information accurate, complete and current as long as you use the Service Offering. You are responsible for any use that occurs under your Login Credentials, including any activities by you, or your employees, contractors or agents. If you believe an unauthorized user has gained access to your Login Credentials, you will notify us as soon as possible. Neither we nor our affiliates are responsible for any unauthorized access to or use of your account.

1.3 Verifying; Cooperation. We have the right to verify your compliance with this Agreement. If we

seek to verify that compliance, you will provide information or other materials reasonably requested by us to assist the verification. We monitor the overall performance and stability of the infrastructure of the Service Offering. You may not block or interfere with that monitoring. If we reasonably believe a problem with the Service Offering may be attributable to Your Content or your use of the Service Offering, you will cooperate with us to identify and resolve the source of that problem.

1.4 Additional Terms; Third Party Content. As part of your use of the Service Offering, you may receive access to additional data, content, software or applications subject to separate terms. If so, those separate terms will prevail over this Agreement as to your use of that data, content, software or applications. Third Party Content is available "AS IS" without indemnification or support, and we disclaim all express and implied warranties (including warranties of merchantability, fitness for a particular purpose, and non-infringement). You are responsible for reviewing, accepting, and complying with any third party terms of use or other restrictions applicable to the Third Party Content. Those terms will be available to you through a notification within the Service Offering or in a document available at https://www.vmware.com/files/pdf/support/vmware-vcloud-air-third-party-terms.pdf. It is your responsibility to check the Third Party Terms, which may be modified from time to time. We may provide billing and related services associated with the Third Party Content. We will not provide any support for the Third Party Content unless otherwise noted in the Third Party Terms. We reserve the right to suspend or terminate the Third Party Content at any time, but we will use commercially reasonable efforts to provide reasonable notice of that suspension or termination.

1.5 Early Evaluation/Beta Features. We may identify and make available on an early evaluation or beta basis certain features or functionality within the Service Offering. You must use these features or functionality only for evaluation purposes and for the period that we specify. We provide these features and functions "AS-IS," without indemnification or support and disclaim all express and implied warranties (including warranties of merchantability, fitness for a particular purpose, and non-infringement). Any early evaluation or beta features or functionality do not constitute an implied commitment to offer to you or anyone these features and functionality as part of the Service Offering on a generally available basis.

1.6 Open Source Software. You may receive open source software when you use the Service Offering and any open source software distributed to you is made available under the applicable open source license, which can be found at: http://www.vmware.com/download/open_source.html. You may obtain a copy of these licenses and any source code (and modifications) that we are required to make available under these licenses (the " **Source Files**") at http://www.vmware.com/download/open_source.html or by sending a written request, with your name and address to: VMware, Inc., 3401 Hillview Avenue, Palo Alto, CA 94304, United States of America. All written requests must clearly specify: Open Source Files Request, Attention: General Counsel. This offer to obtain a copy of the Source Files is valid for three years from the date you last received open source software as part of the Service Offering or last accessed the Service Offering.

2. Data Protection and Security.

2.1 Data Protection. We will process personal data contained in Your Content as set forth in the Privacy Addendum.

2.2 Your Content and Security. You are solely responsible for Your Content. You are responsible for protecting the security of Your Content, including any access you might provide to Your Content by your employees, customers or other third parties, and in transit to and from the Service Offering. The Service Offering provides you with certain software and functionality to help you protect Your Content from unauthorized access. You will take and maintain appropriate security, protection and backup of Your Content, which might include the use of encryption technology to protect Your Content from unauthorized access. You are responsible for providing any necessary notices to your

users and obtaining any legally-required consents from your users concerning their use of the Service Offering. You are solely responsible for complying with any laws or regulations that might apply to Your Content. You are responsible for any losses or other consequences arising from your failure to encrypt or back up Your Content.

3. Acceptable Use.

3.1 General Restrictions. You and those accessing the Service Offering through you may not: (a) resell or sublicense the Service Offering; or (b) use or access the Service Offering: (i) in a way prohibited by law, regulation, governmental order or decree; (ii) to violate any rights of others; (iii) to try to gain unauthorized access to, test the vulnerability of, or disrupt the Service Offering or any other service, device, data, account or network; (iv) to spam or distribute malware; (v) in a way that could harm the Service Offering or impair anyone else's use of it; (vi) in a way intended to work around the Service Offering's technical limitations, recurring fees or usage limits; or (vii) in any application or situation where failure of the Service Offering could lead to the death or serious bodily injury of any person, or to severe physical or environmental damage. You must ensure that your users comply with the terms of this Agreement, and you agree that if you become aware of any violation by one of your users, you will terminate that user's access to Your Content immediately. If we have reason to believe that you or your users have breached this Agreement, we or our designated representative may review your use of the Service Offering, including your account, Your Content, and your records, to verify your compliance with this Agreement.

3.2 Content Restrictions. You will take steps to ensure that those accessing any service you provide with the Service Offering do not post content that: (a) may create a risk of harm, loss, physical or mental injury, emotional distress, death, disability, disfigurement, or physical or mental illness to anyone; (b) may create a risk of any other loss or damage to any person or property; (c) may constitute or contribute to a crime or tort; (d) contains any information or content that is illegal, unlawful, harmful, abusive, pornographic, racially or ethnically offensive, defamatory, infringing, invasive of personal privacy or publicity rights, harassing, humiliating to other people (publicly or otherwise), libelous, threatening, or otherwise objectionable; or (e) contains any information or content that you do not have a right to make available under any law or under contractual or fiduciary relationships. You are solely responsible for any software, product or service that a third party licenses, sells or makes available to you that you install or use with the Service Offering. Your use of that software, product or service is governed by separate terms between you and that third party. We are not a party to and are not bound by any of those separate terms. You represent and warrant that Your Content does not and will not violate any third-party rights, including any Intellectual Property Rights, and rights of publicity and privacy. You will ensure that your use of the Service Offering complies at all times with your privacy policies and all applicable laws and regulations, including any encryption requirements.

3.3 Violations of Acceptable Use. If you become aware that any of Your Content or your user's use of Your Content violates Section 3.1 or 3.2, you will take immediate action to remove the applicable part of Your Content or suspend the end user's access. If you fail to do so, we may ask you to do so. If you fail to comply with our request within twenty-four hours, we may suspend your account or disable access to Your Content until you comply with our request.

3.4 Notification of Infringement Concerns. If you believe that your copyrighted work has been copied and is accessible on our Service Offering in a way that constitutes copyright infringement, please send a notice to us as further detailed in Section 8 of the Community Terms of Use available at http://www.vmware.com/community_terms.html.

4. IP Ownership.

4.1 Ownership of Service Offering. We and our licensors own and retain all right, title and interest in and to the Service Offering and any related VMware Software, including all improvements, enhancements, modifications and derivative works thereof, and all Intellectual Property Rights therein. This includes any information that we collect and analyze in connection with the Service Offering, such as usage patterns, user feedback and other information to improve and evolve our software products and services offerings. Your rights to use the Service Offering are limited to those expressly granted in this Agreement. No other rights with respect to the Service Offering, any related VMware Software, or any related Intellectual Property Rights are implied.

4.2 Ownership of Your Content. You and your authorized users retain all right, title and interest in and to Your Content and all Intellectual Property Rights therein. Our rights to access and use Your Content are limited to those expressly granted in this Agreement. No other rights with respect to Your Content or any related Intellectual Property Rights are implied.

4.3. Feedback. We will be free to use for any purpose any feedback (such as comments or suggestions) that you provide to us regarding the Service Offering. You hereby grant to us a non-exclusive, perpetual, irrevocable, royalty-free, transferable, worldwide right and license, with the right to sublicense, to use, reproduce, perform, display, disclose, distribute, modify, prepare derivative works of and otherwise exploit the feedback without restriction in any manner now known or in the future conceived and to make, use, sell, offer to sell, import and export any product or service that incorporates the feedback.

5. Order, Delivery, Payment, and Taxes.

5.1 Generally. Sections 5.3 (Direct Orders), 5.4 (Delivery), 5.5 (Invoicing and Payment Terms) and 5.6 (Taxes) apply only to orders you place directly with, and the Service Offering you purchase directly from, VMware. When ordering through, or purchasing the Service Offering from, a VMware authorized reseller, the authorized reseller might specify similar terms.

5.2 Orders. All Orders issued to VMware are subject to the terms of this Agreement and are not binding until accepted by VMware. We are not required to provide any Service Offering to you until you provide all information we require for processing your Order.

5.3 Direct Orders. For orders placed directly with VMware, you must issue a purchase order to VMware for the initial Service Offering order, but a purchase order is not required for the monthly billings that occur after the initial Order billing. For subsequent billings, all fees (including subscription renewals, metered usage components, and other add-ons) will be paid in accordance with this Agreement. Your Order will be deemed accepted when we authorize the purchased Service Offering for your Login Credentials.

5.4 Delivery. When VMware accepts your Order for the Service Offering, we will deliver the corresponding Login Credentials to you by email to the address associated with your account. If VMware ships a physical object in connection with an add-on feature of the Service Offering, shipping and delivery terms are Ex Works VMware's regional fulfillment facility (INCOTERMS 2010).

5.5 Invoicing and Payment Terms. You will pay all fees for use of the Service Offering in the amount and currency specified in your invoice, within 30 days after the date of the invoice, and regardless of your usage level during a billing period. You will also be responsible for all additional fees for any subscription renewals and metered usage components consumed, and other subscriptions, features, products, services or add-ons that you purchase within the Service Offering. You will be billed in advance for the monthly or prepaid charges due to the subscription services purchased. Any metered usage components and any initial monthly fees will be billed in arrears. The applicable fees for subscriptions (including renewals), features and other available products and

services will be governed by the then-current applicable price list at the time the initial, renewal, or add-on order is submitted, or as otherwise agreed. We may increase or add new fees for the Service Offering by notifying you at least 30 days in advance.

5.6 Taxes. Service Offering fees are exclusive of taxes, and you shall pay or reimburse for all taxes arising out of transactions contemplated by this Agreement. If you are required to pay or withhold any tax for payments due under this Agreement, you shall gross your payments to us so we receive sums due in full and free of any deductions. You will provide documentation to us showing that taxes have been paid to the relevant taxing authority. " **Taxes**" means any sales, VAT, use, gross receipts, business and occupation, and other taxes (other than taxes on our income), export and import fees, customs duties and similar charges imposed by any government or other authority. You hereby confirm that we can rely on the name and address you provide to us when you agree to the Service Offering or in connection with your payment method as being the place of supply for sales tax and income tax purposes or as being the place of supply for VAT purposes where you have established your business.

6. Temporary Suspension.

6.1 Generally. Upon prior written notice to you, we may suspend your use of the Service Offering if we reasonably determine: (a) payment for the Service Offering is not received within 30 days from the date on which payment is due; (b) you or your use of the Service Offering is in breach of this Agreement; (c) you fail to address our request to take action as specified in Section 3.3; (d) your use of the Service Offering poses a security risk to the Service Offering or other users of the Service Offering; or (e) suspension is required pursuant to our receipt of a subpoena, court order, or other request by a law enforcement agency.

6.2 Effect of Suspension. You will remain responsible for all fees incurred before or during the suspension. You will not be entitled to any service credits under the Service Level Agreement that you might have otherwise accrued during the period of suspension.

7. Term and Termination.

7.1 Term of Agreement. This Agreement will be in effect through the Subscription Term, plus any renewals, unless terminated earlier as permitted under this Agreement or the Service Description. Upon the completion of the Subscription Term, the subscription will automatically renew as specified in the Service Description, unless terminated as permitted under the Service Description.

7.2 Termination for Cause. We may terminate this Agreement effective immediately upon sending you an email notice if: (a) you breach any provision in Sections 3.1 or 3.2; (b) you do not resolve the underlying cause resulting in a suspension of your account pursuant to Section 6.1 (other than suspension due to a subpoena, court order, or other request by a law enforcement agency) within 10 days after your account is suspended; or (c) you commit a material breach that cannot be cured.

7.3 Termination for Insolvency. We may terminate this Agreement effective immediately upon sending you an email notice if you: (a) terminate or suspend your business; (b) become insolvent, admit in writing your inability to pay your debts as they mature, make an assignment for the benefit of creditors; or (c) become subject to control of a trustee, receiver or similar authority or any bankruptcy or insolvency proceeding.

7.4 Effect of Termination. Upon the termination of this Agreement for any reason: (a) all rights granted to you under this Agreement, including your ability to access the Service Offering, will immediately terminate; and (b) you must promptly discontinue all use of the Service Offering and delete or destroy any of our Confidential Information. We will retain Your Content for a period of 30

days following the effective date of the termination, although you will cease to have access to the Service Offering or Your Content during this period. After the 30 days, Your Content will be deleted. Sections 1.6 (Open Source Software), 3 (Acceptable Use) 4 (IP Ownership), 5 (Order, Delivery, Payment and Taxes), 7 (Term and Termination), 9 (Disclaimer), 11 (Limitation of Liability), 12 (Confidential Information), 13 (General), and 14 (Definitions), will survive the termination of this Agreement. Termination of the Service Offering (except to the extent that the termination is permitted under Section 13.3 of this Agreement or Section 3.6 of the Service Description) will not entitle you to any refunds, credits, or exchanges, and you will be liable for all monthly billing fees for the remainder of the Subscription Term after termination, as well as all usage and other fees incurred up to the termination date.

8. Support and Subscription Services. When applicable, and subject to the terms of this Agreement, we will provide to you support for the Service Offering in accordance with the terms specified in the Support Policy. We will not provide support to any end users of Your Content.

9. Disclaimer. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, WE AND OUR LICENSORS AND SERVICE PROVIDERS DISCLAIM ALL WARRANTIES, WHETHER EXPRESS, IMPLIED, OR STATUTORY, INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, TITLE, NON-INFRINGEMENT AND ANY WARRANTIES ARISING FROM COURSE OF DEALING OR COURSE OF PERFORMANCE REGARDING OR RELATING TO THE SERVICE OFFERING OR ANY MATERIALS OR SERVICES FURNISHED OR PROVIDED TO YOU UNDER THIS AGREEMENT. WE AND OUR LICENSORS AND SERVICE PROVIDERS DO NOT WARRANT THAT THE SERVICE OFFERING WILL BE UNINTERRUPTED OR FREE FROM DEFECTS, OR THAT THE SERVICE OFFERING WILL MEET (OR IS DESIGNED TO MEET) YOUR BUSINESS REQUIREMENTS.

10. Indemnification.

10.1 Indemnification by Customer. You will defend and indemnify us against any third party claim arising from or relating to: (a) Your Content; (b) any infringement or misappropriation of any Intellectual Property Rights by you, your customers, your end users or your suppliers; (c) violation of law by you; (d) your use of the Service Offering (including any activities under your account and any use by your employees, personnel or end users) in violation of this Agreement, or (e) your use of any Third Party Content. We will (a) provide you with notice of the claim within a reasonable period of time after learning of the claim; and (b) reasonably cooperate in response to your requests for assistance. You may not settle or compromise any indemnified claim without our prior written consent.

10.2 Defense and Indemnification. Subject to the remainder of this Section 10, we will defend you against an Infringement Claim and indemnify you from the resulting costs and damages finally awarded against you to that third party by a court of competent jurisdiction or agreed to in settlement. You will (a) provide us with notice of any Infringement Claim within a reasonable period of time after learning of it; (b) allow us sole control over the claim's defense and settlement; and (c) reasonably cooperate in response to our requests for assistance. You may not settle or compromise any Infringement Claim without our prior written consent.

10.3 Remedies. If the Service Offering becomes, or in our opinion is likely to become, the subject of an Infringement Claim, we will at our option and expense either: (a) procure the rights necessary for you to keep using the Service Offering; (b) modify or replace the Service Offering to make it non-infringing; or (c) terminate this Agreement and refund any pre-paid fees for the Service Offering pro-rated for its remaining Subscription Term.

10.4 Exclusions. We will have no obligation under this Section 10 or otherwise with respect to any

claim based on: (a) a combination of VMware Software with non-VMware products or content, including Your Content; (b) use of the Service Offering for a purpose or in a manner not specified in this Agreement or the Service Description; (c) any modification to the Service Offering made without our express written approval; or (d) any Service Offering provided on a no charge basis. This Section 10 states your exclusive remedy for any infringement actions or claims.

11. Limitation of Liability.

11.1 Generally. TO THE MAXIMUM EXTENT PERMITTED BY LAW, IN NO EVENT WILL WE OR OUR LICENSORS OR SERVICE PROVIDERS BE LIABLE FOR ANY LOST PROFITS OR BUSINESS OPPORTUNITIES, LOSS OF USE OF THE SERVICE OFFERING, LOSS OF REVENUE, LOSS OF GOODWILL, BUSINESS INTERRUPTION, LOSS OF DATA, OR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES UNDER ANY THEORY OF LIABILITY, WHETHER BASED IN CONTRACT, TORT, NEGLIGENCE, PRODUCT LIABILITY, OR OTHERWISE. IN ADDITION, OUR AND OUR LICENSORS' AND SERVICE PROVIDERS' LIABILITY UNDER THIS AGREEMENT WILL NOT, IN ANY EVENT, REGARDLESS OF WHETHER THE CLAIM IS BASED IN CONTRACT, TORT, STRICT LIABILITY, OR OTHERWISE, EXCEED THE GREATER OF: (A) THE AGGREGATE FEES PAID OR PAYABLE TO US FOR YOUR ACCESS TO AND USE OF THE SERVICE OFFERING IN THE TWELVE (12) MONTHS PRIOR TO THE EVENT GIVING RISE TO YOUR CLAIM, OR (B) $5,000 USD (OR THE EQUIVALENT IN LOCAL CURRENCY). REGARDLESS OF WHETHER WE OR OUR LICENSORS OR SERVICE PROVIDERS HAVE BEEN ADVISED OF THE POSSIBILITY OF THOSE DAMAGES AND REGARDLESS OF WHETHER ANY REMEDY FAILS OF ITS ESSENTIAL PURPOSE. THESE LIMITATIONS OF LIABILITY IN THIS SECTION 11.1 WILL NOT APPLY TO (A) VMWARE'S INDEMNIFICATION OBLIGATIONS UNDER THIS AGREEMENT OR (B) ANY LIABILITY WHICH MAY NOT BE EXCLUDED BY APPLICABLE LAW.

11.2 Further Limitations. Our licensors and service providers will have no liability of any kind under this Agreement. You may not bring a claim under this Agreement more than eighteen (18) months after the cause of action arises.

12. Confidential Information.

12.1 Protection. A party may use Confidential Information of the other party solely to exercise its rights and perform its obligations under this Agreement or as otherwise permitted under this Agreement. Each party will disclose the Confidential Information of the other party only to the employees, service providers or contractors of the recipient party who have a need to know the Confidential Information for purposes of this Agreement and who are under a duty of confidentiality no less restrictive than each party's duty hereunder. Each party will use reasonable care to protect the confidentiality of the other party's Confidential Information.

12.2 Exceptions. The recipient's obligations under Section 12.1 with respect to any Confidential Information will terminate if the recipient can show by written records that the information: (a) was already known to the recipient at the time of disclosure by the other party; (b) was disclosed to the recipient by a third party who had the right to make the disclosure without any confidentiality restrictions; (c) is, or through no fault of the recipient has become, generally available to the public; or (d) was independently developed by the recipient without access to, or use of, discloser's Confidential Information. The recipient may disclose Confidential Information to the extent the disclosure is required by law or regulation. The recipient will provide the other party notice, when practicable, and will take reasonable steps to contest and limit the scope of any required disclosure.

13. General.

13.1 Assignment. You may not assign or transfer this Agreement, in whole or in part, by operation of law or otherwise, without our prior written consent. Any attempted assignment or transfer without that consent will be void. Subject to these limits, this Agreement will bind and inure to the benefit of the parties and their respective successors and assigns.

13.2 Notices. Any notice delivered by us to you under this Agreement will be delivered by email to the email address associated with your account or by posting on either the Service Offering Portal or the My VMware Portal, except as otherwise set forth in this Agreement. Please direct legal notices or other correspondence to VMware, Inc., 3401 Hillview Avenue, Palo Alto, California 94304, United States of America, Attention: Legal Department.

13.3 Modifications. We may change periodically the Service Offering, the terms of your access to the Service Offering, this Agreement, the Service Description, the Privacy Addendum, the Third Party Terms, the Service Level Agreement, or the Support Policy. It is your responsibility to regularly check the Service Offering console and the My VMware portal for updates. We will notify you of any material, detrimental change to this Agreement, the Service Description, the Privacy Addendum, the Service Level Agreement, or the Support Policy. The modified Agreement, Service Description, Privacy Addendum, Service Level Agreement, or Support Policy, as applicable, will become effective as of the date stated in that notification. If we make a material, detrimental change to the Service Offering (other than the termination or modification of any beta feature or functionality), this Agreement, the Service Description, the Privacy Addendum, the Service Level Agreement, or the Support Policy, then you may terminate this Agreement within 30 days of the change to the Service Offering or within 30 days of the notification. In that event, the termination will be effective as of the date we receive your notification, unless you state an effective date in your notification that is within 45 days after we receive your notification. In the event of that termination, we will refund any prepaid fees, pro-rated for the remainder of your Subscription Term, and less any discounts that would then not be earned. Your continued use of the Service Offering after the effective date of any modification to the Agreement, the Service Description, the Privacy Addendum, the Third Party Terms, the Service Level Agreement, or the Support Policy will be deemed acceptance of the modified terms, as applicable.

13.4 Waiver. The waiver of a breach of any provision of this Agreement will not constitute a waiver of any other provision or any later breach.

13.5 Severability. If any provision of this Agreement is held to be invalid or unenforceable, the provision will be enforced to the maximum extent permissible so as to effect the intent of the parties, and the remaining provisions of this Agreement will remain in force.

13.6 Compliance with Laws; Export Control. Each party will comply with all laws applicable to the actions contemplated by this Agreement. You acknowledge that the Service Offering is of United States origin, is provided subject to the U.S. Export Administration Regulations (including "deemed export" and "deemed re-export" regulations), and may be subject to the export control laws of the applicable territory. You represent and warrant that (a) you are not, and are not acting on behalf of, (1) any person who is a citizen, national, or resident of, or who is controlled by the government of any country to which the United States has prohibited export transactions; or (2) any person or entity listed on the U.S. Treasury Department list of Specially Designated Nationals and Blocked Persons, or the U.S. Commerce Department Denied Persons List or Entity List; (b) you will not permit the Service Offering to be used for any purposes prohibited by law, including any prohibited development, design, manufacture or production of missiles or nuclear, chemical or biological weapons; (c) Your Content will not be classified or listed on the United States Munitions list, contain defense articles, defense services or contain ITAR-related data; (d) Your Content will not require an export license and is not restricted from export to any VMware global resource or personnel under applicable export control laws; and (e) you are not subject, either directly or indirectly, to any order

issued by any agency of the United States government, revoking or denying, in whole or in part, your United States export privileges. You will notify VMware immediately if you become subject to any such order.

13.7 Government Regulations. For purposes of sales to government entities in the U.S.: The Service Offering and its documentation are deemed to be "commercial computer software" and "commercial computer software documentation," respectively, pursuant to DFARS Section 227.7202 and FAR Paragraph 12.212(b), as applicable. Any use, modification, reproduction, release, performing, displaying or disclosing of the Service Offering and documentation by or on behalf of the U.S. Government will be governed solely by the terms and conditions of this Agreement.

13.8 Force Majeure. We will not be liable for any delay or failure to perform any obligations under this Agreement due to any cause beyond our reasonable control, including acts of God, labor disputes or other industrial disturbances, systemic electrical, telecommunications or other utility failures, earthquakes, storms or other elements of nature, blockages, embargoes, riots, acts or orders of government, acts of terrorism or war.

13.9 Construction. The headings of sections of this Agreement are for convenience and are not for use in interpreting this Agreement. As used in this Agreement, the word 'including' means "including but not limited to."

13.10 Governing Law. This Agreement is governed by the laws of the State of California, United States of America (excluding its conflict of law rules), except as follows: To the extent that you choose a Japan data center Service Offering, then this Agreement is governed by the laws of Japan (excluding its conflict of law rules). The United Nations Convention for the International Sale of Goods does not apply.

13.11 Third Party Rights. Other than as expressly set out in this Agreement, this Agreement does not create any rights for any person who is not a party to it, and no person who is not a party to this Agreement may enforce any of its terms or rely on any exclusion or limitation contained in it.

13.12 Order of Precedence. The terms of this Agreement will supersede and control over any conflicting or additional terms and conditions of any other purchasing related document issued by you.

13.13 Entire Agreement. This Agreement, as may be revised by us, is the entire agreement of the parties regarding its subject matter. This Agreement supersedes all prior or contemporaneous communications, understandings and agreements, whether written or oral, between the parties regarding its subject matter.

14. Definitions.

14.1 "Confidential Information" means non-public technical, business or other information or materials disclosed or otherwise made available by one party that are in tangible form and labeled "confidential" or the like, or, information which is provided under circumstances reasonably indicating their confidentiality. Our Confidential Information includes: (1) Login Credentials; and (2) any information or materials relating to the Service Offering.

14.2 "Infringement Claim" means any third party claim that any VMware Software used to provide the Service Offering infringes any patent, trademark or copyright of the third party, or misappropriates a trade secret (but only to the extent that the misappropriation is not a result of your actions) under the laws of: (a) the United States; (b) Canada; (c) the European Economic Area; (d) Australia; (e) New Zealand; (f) Japan; or (g) the People's Republic of China, to the extent that those

countries are part of your places of use of the Service Offering.

14.3 "Intellectual Property Rights" means all worldwide intellectual property rights, including copyrights, trademarks, service marks, trade secrets, patents, patent applications, and moral rights, whether registered or unregistered.

14.4 "Login Credentials"mean any passwords, authentication keys or security credentials that enable your access to and management of the Service Offering.

14.5 "Order" means the internet order page, order document, purchase order, or purchase agreement issued to VMware that specifies your purchase of the Service Offering.

14.6 "Privacy Addendum" means the then-current version of the Service Offering Data Privacy Addendum document available at http://vcloud.vmware.com/legal, which we may modify from time to time.

14.7 "Service Description" means the then-current Service Offering Service Description document available at https://www.vmware.com/files/pdf/vcloud-air/vcloud-air-Service-Description.pdf, which contains technical and other information and which we may modify from time to time.

14.8 "Service Level Agreement" means the then-current Service Level Agreement document available at https://www.vmware.com/support/vcloud-air/sla.html, which we may modify from time to time.

14.9 "Subscription Term" means the time period of your access to the Service Offering, as specified by your Order.

14.10 "Support Policy" means the then-current version of the Service Offering Support Policy document available at http://www.vmware.com/support/services/iaas-production.html, which we may modify from time to time.

14.11 "Third Party Content" means third party data, service, content, software or applications, including open source software.

14.12 "Third Party Terms" means the then-current version of the third party license terms applicable to the Service Offering that are available at https://www.vmware.com/files/pdf/support/vmware-vcloud-air-third-party-terms.pdf, which we may modify from time to time.

14.14 "VMware Software" means the software programs listed in our commercial price list.

14.15 "Your Content" means any and all applications, files, information, data or other content uploaded to or published or displayed through the Service Offering by you, your users, us (acting upon your instructions as part of a service), or any third party users who access any service you provide with the Service Offering.

WHEREAS, Knox County Schools desires to have a contractor provide Evidence-Based Instruction Strategies Consulting; and

WHEREAS, the Knox County Procurement Division requested proposals for this purpose and it has been determined that Instruction Partners, Kids First Education, LLC,

Marzano Research, National Institute of Excellence in Teaching (NIET), PIVOT: School Improvement Leaders, and TNTP, Inc. submitted the proposals that are most responsible and responsive and best conform to the specifications and needs of Knox County and the Knox County Schools; and

WHEREAS, the proposed contracts with Instruction Partners, Kids First Education, LLC, Marzano Research, National Institute of Excellence in Teaching (NIET), PIVOT: School Improvement Leaders, and TNTP, Inc. are effective for a one (1) year term beginning on September 1, 2025 and may be extended for four (4) additional years, one (1) year at a time, which may result in a total of five (5) years; and

WHEREAS, at its regularly scheduled meeting on August 7, 2025, the Knox County Board of Education approved the contracts with Instruction Partners, Kids First Education, LLC, Marzano Research, National Institute of Excellence in Teaching (NIET), PIVOT: School Improvement Leaders, and TNTP, Inc.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The contracts with Instruction Partners, Kids First Education, LLC, Marzano Research, National Institute of Excellence in Teaching (NIET), PIVOT: School Improvement Leaders, and TNTP, Inc. for the provision of Evidence-Based Instruction Strategies Consulting are hereby adopted and approved in substantive form as presented this date, copies of which are attached to this Resolution and incorporated herein by reference.

BE IT FURTHER RESOLVED, the contracts with Instruction Partners, Kids First Education, LLC, Marzano Research, National Institute of Excellence in Teaching (NIET), PIVOT: School Improvement Leaders, and TNTP, Inc. for the provision of Evidence-Based Instruction Strategies Consulting shall be executed subject to such amendment or action not affecting the substantive provisions of the contracts as may be required and approved by the Knox County Law Director.

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

Knox County Government

and

Instruction Partners

This Contract, made and entered into between the Knox County Government, hereinafter referred to as the "County" and Instruction Partners, hereinafter referred to as "Contractor".

Whereas, the County requested proposals for Evidence-Based Instruction Strategies Consulting for Knox County Government (Request for Proposals #3667) and;

Whereas, Vendor submitted a bid in accordance with said requested specifications, the response of which is the most responsible and responsive bid meeting specifications accepted by the County;

Whereas, Vendor agrees and undertakes to provide said services for the County, as set forth in the Request for Proposals, and at the price quoted for said services by Contractor. Further, in accordance with the lawful directions of the County, the Contractor agrees in all respects, to be governed by the Request for Proposals specifications and the Contractor's bid and response.

Now, therefore in consideration of mutual covenants and promises contained herein, the parties hereto wish to enter into this Contract to set forth their respective rights and obligations and do mutually agree that;

Witnesseth:

1. Terms of this Contract. This Contract commences on the 1st day of September 2025 and ends the 31st day of August 2026 unless terminated in conformity with the terms of this Contract as contained in paragraphs 4 and 5. The County intends to issue a one-year (1) award. Upon the mutual agreement of the vendor and the County, the award may be extended for four (4) additional years, one (1) year at a time. This may result in a total of five (5) years. The County reserves the right to purchase these goods/services from other sources if the need arises. The County reserves the right to revoke the award if a pattern of unavailability arises with the vendor.

2. Payment. The County shall pay Contractor the amount as agreed upon in the County's Request for Proposals for Evidence-Based Instruction Strategies Consulting per the Contractor's response to Request for Proposals #3667; pursuant to all payments being subject to the County's review and approval. The Contractor shall receive, upon the need of the County, written notification to proceed. The Contractor shall pursue all work diligently until completion as directed by the County. Per Request for Proposals #3667, a minimum of thirty (30) days is required for processing of payment.

3. Invoicing and reporting requirements. Contractor shall invoice the County for Evidence-Based Instruction Strategies Consulting pursuant to Request for Proposals #3667.

4. Termination. The County may terminate this Contract with or without cause, upon written notice of not less than thirty (30) days. Upon termination, the County will pay for services satisfactorily completed but not yet invoiced. Contractor shall not perform additional work without the expressed permission of the County.

Should the Contractor fail to provide the Evidence-Based Instruction Strategies Consulting detailed herein, the County will communicate the problem(s) to the Contractor both verbally and in writing and keep a written record as to what the problem(s) are and when the Contractor was contacted. The Contractor shall rectify the problem within the time frame established by Tennessee State Law. If the same or other problems persist or reoccur, the County may terminate the Contract.

In the event Contractor intends to interrupt or discontinue service under this Contract, Contractor agrees to give the County at least 120 day advance written notice of said interruption or discontinuance of service prior to interrupting or discontinuing same. Any interruption or discontinuance of service without said advance notice shall constitute a material breach of this Contract.

5. Appropriations. In the event no funds are appropriated by the County for the Evidence-Based Instruction Strategies Consulting in any fiscal year or insufficient funds exist to provide the services, then the Contract shall expire upon the expenditure of previously appropriated funds or the end of the current fiscal year, whichever occurs first, with no further obligations owed to or by either party.

6. Independent contractor. Contractor acknowledges that Contractor and employees serve as independent contractors and that the County shall not be in any manner responsible for any payment, insurance, or incurred liability.

7. Compliance with all federal, state, and municipal laws. Contractor is assumed to be familiar with and agrees to observe and comply with all federal, state, and local laws, statutes, ordinances, and regulations in any manner affecting the provision of the Evidence-Based Instruction Strategies Consulting, and all instructions and prohibitive orders issued regarding this work and shall obtain all necessary permits.

8. Severability clause. If any provision of this Contract is declared illegal, void, or unenforceable the remaining provisions shall not be affected but shall remain in force and in effect.

9. Prohibition against assignment. Contractor shall not assign this Contract to any party, company, partnership, incorporation, or person without prior specific written consent of the County.

10. This Contract shall be governed by the laws of the State of Tennessee both as to interpretation and performance. The Chancery Court and/or the Circuit Court of Knox County, Tennessee, shall have exclusive and concurrent jurisdiction of any disputes, which arise hereunder.

11. Right to inspect. The County reserves the right to make periodic inspections of the manner and means the services are performed.

12. Nondiscrimination and non-conflict statements. Contractor agrees that no person on the grounds of handicap, age, race, color, religion, sex, national origin, or any individual trait or characteristic found to be an illegal consideration shall be excluded from participation in, or be denied benefits of, or be otherwise subjected to discrimination in the performance of this Contract, or in the employment practices of Contractor. Contractor shall, upon request, show proof of such non-discrimination, and shall post in conspicuous places available to all employees and applicants notices of non-discrimination.

13. Books and records. Contractor shall maintain all books, documents, accounting records and other evidence pertaining to the service under this Contract and make such materials available at their offices at all reasonable times during the contract period and for three (3) years from the date of the final payment under the Contract for inspection by the County or by any other governmental entity or agency participating in the funding of this Contract, or any authorized agents thereof; copies of said records to be furnished if requested. Such records shall not include those books, documents and accounting records that represent the Contractor's costs of manufacturing, acquiring or delivering the products and services governed by this Contract.

14. Contractor shall indemnify**,** defend, save and hold harmless, County, its officers, agents and employees from all suits, claims, actions or damages of any nature brought because of, arising out of, or due to breach of the Contract by Contractor, its subcontractors, agents or employees or due to any negligent act, occurrence, omission, commission of Contractor, its subcontractors, agents, or employees.

15. Delivery. Contractor shall render the Evidence-Based Instruction Strategies Consulting for the County in accordance with Request for Proposals #3667.

16. Tax Compliance. Pursuant to Resolution R-07-1-903 passed by the Commission of Knox County, Tennessee, Contractor hereby acknowledges, by submission of its bid and signature that it is current in its respective Federal, State, County, and City taxes of whatever kind or nature and is not delinquent in any way. Delinquent status must be disclosed or risk debarment by the Knox County Purchasing Division.

17. Limitations of liability. In no event shall the County be liable for any indirect, incidental, consequential, special or exemplary damages or lost profits, even if the County has been advised of the possibility of such damages.

17. Limitations of liability. In no event shall the County be liable for any indirect, incidental, consequential, special or exemplary damages or lost profits, even if the County has been advised of the possibility of such damages.

18. Contract documents. It is mutually agreed by both parties that the following documents are made part of this Contract and are incorporated herein by reference:

A. Request for Proposals #3667 and Addendum I
B. Contractor's Response to Request for Proposals #3667

It is agreed that this Contract, represents the **entire Contract** between the parties and no prior representations, promises, and agreements, oral or otherwise, not embodied herein, shall be of any force or effect.

In witness whereof, the parties hereto have caused this Contract to be executed in one original copy on the day and year first above written.

Contract #: 25-516(a)
Approved as to Legal Form:

_____
Knox County Law Director's Office

7/24/2025
Date

The Procurement Division of Knox County, Tennessee will receive sealed proposals for the provision of **Evidence-Based Instruction Strategies Consulting** as specified herein. Proposals must be received by **2:00 p.m.** on **June 13, 2025**. Late proposals will neither be considered nor returned.

Deliver Proposals To:

Proposal Number 3667
Knox County Procurement Division
Suite 100
1000 North Central Street
Knoxville, Tennessee 37917

The Proposal Envelope must show the Company Name, Proposal Number, Proposal Name & Proposal Closing Date.

SECTION I PROPOSAL PREPARATION AND SUBMISSION

1.1 **ADDITIONAL INFORMATION:** Knox County wants requests for additional information routed to Rachel Cabrera, Senior Buyer, at 865.215.5751. Questions may be emailed to rachel.cabrera@knoxcounty.org. If you have not heard from the Buyer in a reasonable amount of time, please call for further assistance. Information about the Knox County Procurement Division and current solicitations may be obtained on the Internet at www.knoxcounty.org/procurement.

1.2 **ACCEPTANCE:** Vendors shall hold their price firm and subject to acceptance by Knox County for a period of one hundred twenty (120) business days from the date of the proposal closing, unless otherwise indicated in their proposal.

1.3 **ALTERNATIVE PROPOSALS:** Knox County will not accept alternate proposals (those not equal to specifications) unless authorized by the Request for Proposal.

1.4 **AUDIT HOTLINE:** Knox County has established an Audit Hotline to report potential fraud and waste. To report potential fraud, waste or abuse, please file a report online by accessing http://www.knoxcounty.org/audit/hotline.php.

Vendors are hereby cautioned that this Audit Hotline does not replace the Award Protest Procedures found in Section VI, Item M of the Knox County Procurement Regulations.

1.5 **AWARD:** Award will be made to the most responsive, responsible proposer(s) meeting specifications and presenting the product(s) and/or service(s) that is in the best interest of Knox County. Knox County reserves the right to award this proposal on an all-or-none basis, schedule basis or by multiple award. Knox County reserves the right to not award this proposal. Award will be made in accordance with the evaluation criteria specified herein.

1.6 **BUSINESS OUTREACH PROGRAM:** Knox County has established a Business Outreach Program which has the responsibility of increasing opportunity for small, minority and women owned businesses. This is being accomplished through community education programs, policy edification, active recruitment of interested businesses and process re-engineering.

Knox County is committed to ensuring full and equitable participation for all disadvantaged businesses. Knox County welcomes submittals from those disadvantaged businesses that have an interest in providing goods and/or services listed herein. In addition, Knox County strongly encourages the inclusion of disadvantaged businesses by non-disadvantaged Contractors who wish to partner or subcontract portions of this agreement in order to accomplish the successful delivery of goods and/or services. If you are a disadvantaged business and would like additional information about our Business Outreach Program, please contact:

Diane Woods, Business Outreach Administrator
Telephone: 865.215.5760
Fax: 865.215.5778
Email: diane.woods@knoxcounty.org

1.7 **CONFLICT OF INTEREST:** Vendors must have read and comply with the "Non-Conflict of Interest" statement provided in the vendor registration process prior to the closing of this solicitation. Knox County's Non-Conflict of Interest Policy is available for review at https://www.knoxcounty.org/purchasing/conflict_policy.php.

1.8 **COPIES:** Knox County requires that proposals be submitted as one (1) marked as original and one (1) exact copy. **Proposers must submit with their written response an exact electronic version of their proposal in a single PDF file on a flash drive format.**

1.9 **DECLARATIVE STATEMENTS:** Any statement or words (e.g.: must, shall, will) are declarative statements and the vendor must comply with the condition. Failure to comply with any such condition may result in the proposal being considered non-responsive and disqualified.

1.10 **ELECTRONIC TRANSMISSION OF PROPOSALS:** Knox County's Procurement Division will not accept electronically transmitted proposals. Facsimile and email submissions are strictly prohibited. Due to the nature of the information requested, all submissions shall be in written format.

1.11 **HOW TO DO BUSINESS:** Knox County utilizes a web-based Procurement software system, "KnoxBuys." The system provides our clients (vendors, county departments and the citizens of Knox County) with a more enhanced and end-user friendly means of accessing our services. The system allows for on-line vendor registration and maintenance, electronic receipt of purchase orders, on-line retrieval and submittal of quotes, bids and proposals for our vendor-clients and on-line requisitioning and receiving for our county departments. In order for the County to maximize its investment and minimize the cost associated with office operations, we need your help. When doing business with Knox County, we are urging you to please go to our website at www.knoxcounty.org/procurement, register as a vendor in our on-line Procurement system, "KnoxBuys," if you have not done so and whenever possible to conduct your business with the County through this site. If you have any questions, please contact the Procurement Division Representative listed in Section 1.1 of this document.

1.12 **INCURRED COSTS:** Knox County will not be responsible for any costs incurred by the proposer in the preparation of their proposal.

1.13 **MULTIPLE PROPOSALS:** Knox County will consider multiple proposals that meet specifications.

1.14 **NON-COLLUSION:** Proposers, by submitting a signed proposal, certify that the accompanying proposal is not the result of, or affected by, any unlawful act of collusion with any other person or company engaged in the same line of business or commerce, or any other fraudulent act punishable under Tennessee or United States law.

1.15 **PAYMENT METHOD:** Knox County will utilize a Purchase Order for placing an order for products and/or services. Purchase Orders will be issued from the Knox County Procurement Division via the method selected by the vendor during registration. The Purchase Order will detail the quantity, specific item(s) and the contracted price for each item. Work on this project must not commence until a signed Purchase Order is issued by Knox County Procurement.

1.16 **POSSESSION OF WEAPONS:** All vendors, their employees and their agents are prohibited from possessing any weapons on Knox County property without prior written consent from the County. In the case of a vendor whose Contract requires possession of firearms or other weapons to successfully complete their Contract, vendor must provide personnel who are bonded to bear said weaponry.

1.17 **PROCESSING TIME FOR PAYMENT:** Vendors are advised that a minimum of thirty (30) days is required to process invoices for payment.

1.18 **PROOF OF FINANCIAL AND BUSINESS CAPABILITY:** Vendors must, upon request, furnish satisfactory evidence of their ability to furnish products or services in accordance with the terms and conditions of these specifications. Knox County will make the final determination as to the vendor's ability.

1.19 **PROPOSAL DELIVERY:** Knox County requires proposers, when hand delivering proposals, to time and date stamp the envelope before depositing it in the bid box. Knox County will not be responsible for any lost or misdirected mail sent by common carrier, nor will Knox County be responsible for proposals delivered to addresses or Suites other than the delivery address and Suite specified at the top of this solicitation. The time clock in the Procurement Division shall serve as the official record of time.

Solicitations must be in a sealed envelope/box prior to entering the Procurement Division office. Procurement Division personnel are not allowed to see the submittal nor assist in placing documents in an envelope/box. Additionally, the Procurement Division is not responsible for providing materials (e.g. envelopes, boxes, tape) for submittals.

1.20 **RECYCLING:** Knox County, in its continuing efforts to lessen the amount of landfill waste and to further recycling efforts, requests that proposals being submitted on paper shall:

1.20.1 Be submitted on recycled paper;
1.20.2 Not include pages of unnecessary advertising;
1.20.3 Be made on both sides of each sheet of paper.

1.21 **RESTRICTIVE OR AMBIGUOUS SPECIFICATIONS:** It is the responsibility of the prospective proposer to review the entire Request for Proposal packet and to notify the Procurement Division if the specifications are formulated in a manner that would unnecessarily restrict competition. Any such protest or question regarding the specifications or proposing procedures must be received in the Procurement Division by **May 27, 2025 at 4:30 p.m. local time**. These requirements also apply to specifications that are ambiguous.

1.22 **SIGNING OF PROPOSALS:** In order to be considered, all proposals must be signed. Please sign the original in blue ink. By submitting a signed letter authorizing the submission of the proposal, the vendor acknowledges and accepts the terms and conditions stated in the proposal document.

1.23 **TAXES:** Knox County purchases are not subject to taxation. Tax exemption certificates will be provided upon request.

1.24 **TITLE VI OF THE 1964 CIVIL RIGHTS ACT AND TITLE IX OF THE EDUCATIONAL AMENDMENT OF 1972:** "Nondiscrimination in Federally Assisted Programs"—"No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance." 42 U.S.C. Section 2000. It is the policy of Knox County Government that all its services and activities be administered in conformance with the requirements of Title VI and Title IX.

1.25 **UNFORESEEN CIRCUMSTANCES:** During periods of closure due to unforeseen circumstances in Knox County or closures at the direction of the Knox County Mayor, the Procurement Division will enact the following procedures in regard to solicitations and closures:

- If the Mayor closes the Administrative offices prior to the time set for solicitation opening of any business day, all solicitations due that same day will be moved to the next operational business day.
- Other unforeseen circumstances shall be at the sole discretion of the Procurement Director.
- Knox County shall not be liable for any commercial carrier's decision regarding deliveries during any unforeseen circumstances.

1.26 **USE OF PROPOSAL FORMS:** Vendors must complete the proposal forms contained in the proposal package. Failure to complete the proposal forms may result in proposal rejection.

1.27 **VENDOR DEFAULT:** Knox County reserves the right, in case of vendor default, to procure the articles or services from other sources and hold the defaulting vendor responsible for any excess costs occasioned thereby. Should vendor default be due to a failure to perform or because of a request for a price increase, Knox County reserves the right to remove the vendor from the County's bidder's list for twenty-four (24) months.

1.28 **VENDOR REGISTRATION:** Prior to the submission deadline for this solicitation, ***ALL PROPOSERS MUST*** be registered with the Procurement Division. If you are not already a registered vendor with Knox County, register on-line at our website at www.knoxcounty.org/procurement and click on "Knox Buys" and then select "Online Vendor Registration." Vendors must be registered with the Procurement Division **prior** to submitting their proposal. Knox County shall not be responsible for technical difficulties experienced by vendors trying to register electronically less than twenty-four (24) hours prior to the proposal closing time.

1.29 **WAIVING OF INFORMALITIES:** Knox County reserves the right to waive minor informalities or technicalities when it is in the best interest of Knox County.

SECTION II OBLIGATIONS, RIGHTS AND REMEDIES

These terms and conditions shall be part of the Contract. Knox County reserves the right to negotiate other terms and conditions it deems appropriate and necessary under the circumstances to protect the public's trust.

2.1 **ALTERATIONS OR AMENDMENTS:** No alterations, amendments, changes, modifications or additions to this Contract shall be binding on Knox County without the prior written approval of the County.

2.2 **APPROPRIATION:** In the event no funds are appropriated by Knox County for the goods or services in any fiscal year, or insufficient funds exist to purchase the goods or services, then the Contract shall expire upon the expenditure of previously appropriated funds or the end of the current fiscal year, whichever occurs first, with no further obligations owed to or by either party.

2.3 **ASSIGNMENT:** Contractor shall not assign or sub-contract this agreement, its obligations or rights hereunder to any party, company, partnership, incorporation or person without the prior written specific consent of Knox County.

2.4 **BOOKS AND RECORDS:** Vendor shall maintain all books, documents, accounting records and other evidence pertaining to the goods and services provided under this Contract and make such materials available at its offices at all reasonable times during the Contract period and for five (5) years from the date of the final payment under this agreement for inspection by County or by any other governmental entity or agency participating in the funding of this agreement, or any authorized agents thereof; copies of said records to be furnished if requested. Such records shall not include those books, documents and accounting records that represent the Vendor's costs of manufacturing, acquiring or delivering the products and services governed by this agreement.

2.5 **CHILD LABOR:** Contractor agrees that no products or services will be provided or performed under this Contract that have been manufactured or assembled by child labor.

2.6 **COMPLIANCE WITH ALL LAWS:** Contractor is assumed to be familiar with and agrees to observe and comply with all Federal, State, and Local laws, statutes, ordinances, and regulations in any manner affecting the provision of goods and/or services, and all instructions and prohibitive orders issued regarding this work and shall obtain all necessary permits.

2.7 **CRIMINAL HISTORY RECORDS CHECK:** Any and all successful proposers, Contractor's employees, Contractor's subcontractors and the employees of any subcontractors must submit to a criminal history records check at the Contractor's expense, conducted by the Tennessee Bureau of Investigation and the Federal Bureau of Investigation prior to permitting the employee to have contact with students or enter school grounds when students are present. Reference Tennessee Code Annotated Section 49-5-413. Proposers **must** submit with their proposals the Criminal History Affidavit of Compliance.

2.8 **DEFAULT:** If Contractor fails to perform or comply with any provision of this Contract or the terms or conditions of any documents referenced and made a part hereof, Knox County may terminate this Contract, in whole or in part, and may consider such failure or noncompliance a breach of Contract. Knox County expressly retains all its rights and remedies provided by law in case of such breach, and no action by Knox County shall constitute a waiver of any such rights or remedies. In the event of termination for default, Knox County reserves the right to purchase its requirements elsewhere, with or without competitive solicitation.

2.9 **GOVERNING LAW; VENUE:** This agreement shall be exclusively construed, governed, and controlled by the Laws of the State of Tennessee without regard to principles of law, including conflicts of law, of any other jurisdiction, territory, country, and/or province. Any dispute arising out of or relating to this agreement shall exclusively be brought in the Chancery Court or the Circuit Court of Knox County, Tennessee. Each party consents to personal jurisdiction thereto and waives any defenses based on personal jurisdiction, venue and inconvenient forum.

2.10 **INCORPORATION:** All specifications, drawings, technical information, Request for Proposal, Proposal, Award and similar items referred to or attached or which are the basis for this Contract are deemed incorporated by reference as if set out fully herein.

2.11 **INDEMNIFICATION—HOLD HARMLESS:** Contractor shall indemnify, defend, save and hold harmless Knox County, its officers, agents and employees from all suits, claims, actions or damages of any nature brought because of, arising out of, or due to breach of the agreement by Contractor, its subcontractors, suppliers, agents,

or employees or due to any negligent act or occurrence or any omission or commission of Contractor, its subcontractors, suppliers, agents or employees.

2.12 **INDEPENDENT CONTRACTOR:** Contractor shall acknowledge that it and its employees serve as independent contractors and that Knox County shall not be responsible for any payment, insurance or incurred liability.

2.13 **INSPECTION AND ACCEPTANCE:** Warranty periods shall not commence until Knox County inspects and formally accepts the goods and/or services. The terms, conditions and timing of acceptance shall be determined by Knox County. Knox County reserves the right to reject any or all items or services not in conformance with applicable specifications, and Contractor assumes the costs associated with such nonconformance. Acceptance of goods or services does not constitute a waiver of latent or hidden defects or defects not readily detectable by a reasonable person under the circumstances.

2.14 **IRAN DIVESTMENT ACT:** By submission of this Request for Proposal response, each proposer and each person signing on behalf of any proposer certifies, and in the case of a joint response, each party thereto certifies as to its own organization, under penalty of perjury, that to the best of its knowledge and belief that each proposer is not on the list created pursuant to Tennessee Code Annotated § 12-12-106.

2.15 **LIMITATIONS OF LIABILITY:** In no event shall Knox County be liable for any indirect, incidental, consequential, special or exemplary damages or lost profits, even if Knox County has been advised of the possibility of such damages.

2.16 **NO BOYCOTT OF ISRAEL:** Pursuant to Tennessee Code Annotated Title 12, Chapter 4, Part 1, by submission of a response to this solicitation, each proposer and each person signing on behalf of any proposer certifies, and in the case of a joint response each party thereto certifies as to its own organization, under penalty of perjury, that to the best of its knowledge and belief that each proposer is not currently engaged in, and will not for the duration of the Contract engage in, a boycott of Israel. Proposers must submit with their proposals the completed Iran Divestment Act/No Boycott of Israel Affidavit.

2.17 **NON-DISCRIMINATION AND NON-CONFLICT STATEMENT:** Contractor agrees that no person on the grounds of handicap, age, race, color, religion, sex **or** national origin any individual trait or characteristic found to be an illegal consideration, shall be excluded from participation in, or be denied benefits of, or be otherwise subjected to discrimination in the performance of this agreement or in the employment practices of vendor. Contractor shall upon request show proof of such non-discrimination and shall post in conspicuous places available to all employees and applicants notices of non-discrimination. Contractor covenants that it complies with the Fair Wage and Hour Laws, the National Labor Relations Act, and other Federal and State employment laws as applicable. Contractor covenants that it does not engage in any illegal employment practices.

Contractor covenants that it has no public or private interest and shall not acquire directly or indirectly any interest that would conflict in any manner with the provision of its goods or performance of its services. Contractor warrants that no part of the total Contract amount provided herein shall be paid directly or indirectly to any officer or employee of Knox County as wages, compensation, or gifts in exchange for acting as officer, agent, employee, subcontractor or consultant to Contractor in connection with any goods provided or work contemplated or performed relative to the agreement.

2.18 **ORDER OF PRECEDENCE:** In the event of inconsistent or conflicting provision of this Contract and referenced documents, the following descending order of precedence shall prevail: (1) Contract, (2) Request for Proposal, (3) Contractor's Response, (4) Award, (5) Special Terms and Conditions, (6) General Terms and Conditions, (7) Specifications, (8) Drawings.

2.19 **REMEDIES:** Knox County shall have all rights and remedies afforded under the U.C.C. and Tennessee law in Contract and in tort, including but not limited to, rejection of goods, rescission, and right of set-off, refund, incidental, consequential and compensatory damages and reasonable attorney's fees.

2.20 **RIGHT TO INSPECT:** Knox County reserves the right to make periodic inspections of the manner and means the service is performed or the goods are supplied and warehoused.

2.21 **SEVERABILITY:** If any provision of this Contract is declared illegal, void or unenforceable, the remaining provisions shall not be affected but shall remain in force and in effect.

2.22 **TAX COMPLIANCE:** Pursuant to Resolution R-07-1-903 passed by the Commission of Knox County, Tennessee, Contractor hereby acknowledges, by submission of its proposal or proposal and signature, it is current in its

respective Federal, State, County, and City taxes of whatever kind or nature, and is not delinquent in any way. Delinquent status must be disclosed or risk debarment by the Knox County Procurement Division.

2.23 **TERMINATION:** County may terminate this agreement with or without cause at anytime. In the event of termination by either party, fees due for services satisfactorily performed or goods accepted prior to the termination date shall be paid. Contractor shall not perform additional work without the expressed permission of County. In the event Contractor intends to interrupt or discontinue service under this Contract, Contractor agrees to give Knox County at least one hundred twenty (120) business days' advance written notice of said interruption or discontinuance of service prior to interrupting or discontinuing same. Any interruption or discontinuance of service without said advance notice shall constitute a material breach of this Contract.

2.24 **WARRANTY:** Contractor warrants to Knox County that all items delivered and all services rendered shall conform to the specifications, drawings, solicitation and/or other descriptions furnished and/or incorporated by reference, and will be fit for the particular purpose purchased of merchantable quality, good workmanship, and free from defects. Contractor extends to Knox County all warranties allowed under the U.C.C. Contractor shall provide copies of warranties to the County upon request. Return of merchandise not meeting warranties shall be at contractor's expense.

SECTION III SPECIAL TERMS AND CONDITIONS

3.1 **INTENT:** The intent of this document is to set forth and convey to prospective proposers the general requirements for vendors to provide Knox County Schools with Evidence-Based Instruction Strategies Consulting as desired by Knox County. Award will be based on Best Value. Best value means more than low cost. It includes cost, technical service quality, experience, qualifications and other factors detailed herein.

3.2 **ACCEPTANCE:** Vendors are advised that the payment of an invoice does not necessarily constitute as an acceptance of services that are provided. Acceptance requires a specific written action by Knox County so stating.

3.3 **ADDITIONS OR DELETIONS:** Knox County reserves the right to add or delete services as the need arises. If services are to be added, Knox County and the Contractor will arrive at a mutually agreed price. Any additions or deletions must be approved in writing by Knox County Procurement prior to any changes in service.

3.4 **AWARD LENGTH:** The pricing for this Contract must remain firm for thirty-six (36) months. However, due to the funding source Knox County does not allow automatic renewals, this Contract will need to be extended annually to continue services. Knox County will draft the Extension of Contract and send it to the vendor approximately ninety (90) days before expiration. The agreement may be renewed for four (4) one-year periods upon mutual consent, for a possible total of five (5) years. Following the initial thirty-six (36) months, the Contractor may request a change in price.

3.5 **CHANGES AFTER AWARD:** It is possible that after award, Knox County might change its needs or requirements. Knox County reserves the right to make such changes after consultation with the vendor. Should additional costs arise, Knox County reserves the right to consider accepting these charges provided the vendor can document the increased costs. Knox County also reserves the right to accept proposed service changes from the vendor if they will lower the cost to Knox County and/or provide improved service.

3.6 **COMMUNICATION:** The successful execution of this contract will require extensive communication between all involved parties. While information may be transmitted via telephone, it should always be followed up with an email. It is essential that the Contractor have an efficient email capabilities. The Contractor will be required to submit a list of individuals, along with direct phone numbers, cell phone numbers and email addresses for the agency's contacts. These individuals must be familiar with the Knox County Contract and have authority to make adjustments as requested by Knox County.

3.7 **COMPLIANCE WITH ALL APPLICABLE REGULATIONS:** Vendor agrees and covenants that the company, its agents and employees will comply with all City, County, State and Federal codes, laws, rules and regulations applicable to the business to be conducted under this contract. If the vendor performs any work knowing it to be contrary to such laws, ordinances, rules and regulations, the vendor shall bear all costs arising from such work.

3.8 **CONTACT PERSONNEL:** Essential to the success of this Contract is the development of a good working relationship between the vendor and Knox County. It is imperative that the Knox County account be handled efficiently and professionally. Knox County should be assigned no more than two (2) vendor contacts to handle billing inquiries and service related issues. In the event on or both contacts leave the Knox County account, the

vendor shall formally introduce the new contacts to Knox County personnel. These contacts must be knowledgeable of the County's account to avoid an interruption of service.

3.9 **CONTRACT EXECUTION:** The award of this proposal may result in a Contract between Knox County and the successful vendor(s). The Contract may require Knox County Board of Education and/or Knox County Commission approval. The successful vendor(s) may be required to be present at the Board of Education and/or County Commission meeting(s) to answer questions relating to the service to be performed. Adequate notification will be given by Knox County Procurement Division if the awarded vendor(s) will need to attend meetings. There shall be no cost to Knox County for attendance of the vendor(s). Knox County will draft the Contract. The Knox County Procurement Division will not accept any vendor's contract. A sample contract is under Exhibit B for review. If Master Agreements, Service Agreements, Terms and Conditions or other contract agreements are submitted they will not be accepted.

3.10 **CONTRACTOR DUTIES:** At the Contractor's own expense, the Contractor shall:

3.10.1 Provide competent supervision;
3.10.2 Provide competent personnel;
3.10.3 Take precautions necessary to protect persons or property against injury or damage and be responsible for any such damage or injury that occurs as a result of their fault or negligence.

3.11 **DESTINATION AND DELIVERY:** All shipments that are to be delivered must be Free on Board Destination to the department ordering the items. All shipping charges are to be included in the unit price of each item. All deliveries must be unloaded and delivered inside to the department location that is ordering the items.

3.12 **EVALUATION CRITERIA:** This proposal will be evaluated using the following criteria:

As per Section 1.5, Knox County will determine the award structure that is in its best interest.

Methodology	30 Points
Delivery of Service	30 Points
Experience & References	20 Points
Cost	20 Points

Knox County may select an Evaluation Committee for this solicitation to thoroughly review and score all submitted responsive and responsible proposals. Each evaluator will have the ability to award up to one hundred (100) points, based on the Evaluation Criteria, per submission.

3.13 **EVALUATION REVIEW:** Knox County reserves the right to use all pertinent information (including information learned from sources other than disclosed in the Request for Proposal process) that might affect the County's judgment as to the appropriateness of an award to the best evaluated vendor(s). This information may be appended to the proposal evaluation process results. Information on a service provider from reliable sources, and not within the service provider's proposal, may also be noted and made part of the evaluation file. Knox County shall have sole responsibility for determining a reliable source. Knox County reserves the right to conduct written and/or oral discussions/interviews after the proposal closing. The purpose of such discussions/interviews is to provide clarification and/or additional information to make an award that is in the best interest of Knox County.

3.14 **EXCEPTIONS TO SPECIFICATIONS:** Vendors taking exception to any part or section of these specifications shall indicate such exceptions on their submittal. A failure to indicate any exception(s) shall be interpreted as the vendor's intent to fully comply with the specifications as written. Conditional or qualified offer are subject to rejection in whole or in part. Any exceptions shall be included in Section V, Tab VIII of the submittal. **Do not strike through or in any other way alter the Request for Proposal. Exceptions listed within other sections of the submittal shall not be reviewed or considered.**

3.15 **GRANT FUNDING:** The products or services being procured under this solicitation are being funded by Federal Grant money. All awarded vendors will be required to adhere to Exhibit A of this solicitation in the performance of the Contract.

3.16 **GRATUITIES AND KICKBACKS:** It shall be a breach of ethical standards for any person or company to offer, give, or agree to give any employee or former employee, or for any employee or former employee to solicit, demand, accept, or agree to accept from another person, a gratuity or an offer of employment in connection with any decision, approval, disapproval, recommendation, preparation of any part of a program requirement or a purchase request, influencing the content of any specification or procurement standard, rendering of advice, investigation, auditing or in any other advisory capacity in any proceeding or application, request for ruling,

determination, claim, or controversy or other particular matter, pertaining to any program requirement of a contract or subcontract or to any solicitation or proposal therefore. It shall be a breach of ethical standards for any payment, gratuity or offer of employment to be made by or on behalf of a subcontractor under a contract to the prime contractor or higher tier subcontractor or a person associated therewith, as an inducement for the award of a subcontract or order. Breach of the provisions of this paragraph is, in addition to a breach of this Contract, a breach of ethical standards which may result in civil or criminal sanction and/or debarment or suspension from being a contractor or subcontractor under Knox County contracts.

3.17 **IDENTIFICATION:** Employees of the Contractor shall have proper photo identification displayed at all times while on property belonging to Knox County.

3.18 **INSURANCE:** The successful vendor(s) must carry the insurance as indicated on the Insurance Checklist Attachment hereto. As proof of the vendor's willingness to obtain and maintain the insurance, the vendor must complete, sign and have its insurance agent sign the attachment and submit it with the proposal. Upon the Notification of Intent to Award, the successful vendor will be required to submit a Certificate of Insurance (COI) including any corresponding endorsement page(s) with the specified coverage and listing Knox County as an additional insured. It shall be the successful vendor's responsibility to keep a current COI and endorsement page(s) on file with Knox County Procurement for as long as the contract is in effect.

3.19 **INTERPRETATION:** No oral interpretation will be made to any vendor regarding the meaning of specifications or the Scope of Work. All questions are to be submitted in writing via email and will be answered in the form of an addendum to the solicitation by the Knox County Procurement Division, if applicable.

3.20 **INVOICE DETAIL:** Knox County is requesting invoices to show the following detail to help expedite review and payment. The Contractor(s) may be required to modify invoicing procedures to show the detail. All potential Contractors are hereby cautioned that Knox County will only pay from original invoices and not facsimiles or copies. Invoices which do not adhere to these details may be returned to the Contractor for correction.

3.20.1 The invoice must show the amount due to the Contractor by Knox County;
3.20.2 The invoice must show a summary of completed work;
3.20.3 Invoices are to be original and uniquely pre-numbered;
3.20.4 Invoices which do not show this information are subject to rejection.

3.21 **INVOICING PROCEDURES:** Knox County requests that invoices be easy to read and understand. Invoices are to be original and uniquely pre-numbered. There shall be no additional charge for this information and these procedures to be included. Each invoice shall include a summary of service(s) provided and shall list the associated unit price. Supporting documentation shall be included with invoices as applicable. Invoices without this information will be returned to the Contractor for correction.

Invoices shall be sent to the billing address indicated on the Purchase Order. Each department or division of Knox County is responsible for its own budget. Departments cannot charge or pay bills for another department. Therefore, it is critical that the successful Contractor's invoices specify the correct department. Do not credit payments to another department's account. Invoices must be submitted in triplicate and must match the corresponding Purchase Order number. There shall be no component billing. Mail invoices for Knox County Schools to:

Knox County Schools Finance Department
Post Office Box 2188
Knoxville, TN 37902-1805
invoices@knoxschools.org

3.22 **INVOICE REVIEW:** Knox County shall review all invoices for adherence to the terms and conditions of the Contract. Variations from the Contract and Contract pricing are strictly prohibited. Any variance found on the invoice will result in rejection of that invoice. Rejected invoices will be returned to the Contractor(s) for correction. Repeated variations may result in termination.

3.23 **MINIMUM QUALIFICATION EXPECTATIONS:**

3.23.1 Respondent must address all submittal requirements as defined under Section IV.
3.23.2 Respondent shall have a minimum of five (5) years of experience and sufficient capabilities to carry out the work contemplated, as well as the equipment and personnel available for the work.

3.23.3 If the respondent has a permanent office in Knox County, respondent must have a current business license issued by Knox County. This requirement also applies to any of the Respondent's proposed subcontractors or subconsultants with a permanent office in Knox County. A Knox County business license is not required of any Respondent or proposed subcontractor or subconsultant who does not have a permanent office in Knox County. For more information, contact the Knox County Clerk's office at 865.215.2392.

3.24 **NEGOTIATION:** Knox County may select a successful proposer on the basis of initial offers received without discussions. Therefore, each proposal shall contain the proposer's best terms from a cost or price and service standpoint. Knox County reserves the right to enter into Contract negotiations with the highest-rated proposer. If Knox County and the selected proposer cannot negotiate a successful agreement, Knox County may terminate said negotiations and begin negotiations with the next highest-rated proposer. Knox County retains the right to negotiate with multiple proposers simultaneously. This process will continue until an agreement has been reached or all proposers have been rejected. No proposer shall have any rights against Knox County arising from such negotiations.

3.25 **NEWS RELEASES BY VENDORS:** As a matter of policy, Knox County does not endorse the services of a Contractor. A Contractor will not make news releases concerning any resultant contract from this solicitation without the prior written approval of Knox County.

3.26 **NO CONTACT POLICY:** After the date and time that the vendor receives this solicitation, any contact initiated by any proposer with any Knox County representative, other than the Procurement Division representative listed herein, concerning this Request for Proposal, is strictly prohibited. Any such unauthorized contact may cause the disqualification of the proposer from this procurement transaction.

3.27 **OFFER WITHDRAWAL:** No proposal can be withdrawn after it is filed unless the proposer makes a request in writing to the Knox County Procurement Division prior to the time set for the closing of proposals or unless the County fails to accept within one hundred twenty (120) business days after the date fixed for the closing the Request for Proposal.

3.28 **ORAL PRESENTATION/INTERVIEW:** Knox County may require proposers to give oral presentations/interviews in support of their proposal or to exhibit or otherwise demonstrate the information contained therein. These presentations/interviews may be conducted virtually through video conferencing or in person.

Knox County reserves the right to request oral presentations and/or interviews during the initial evaluation phase. The County also reserves the right to complete the initial evaluation phase and then request oral presentations and/or interviews from all proposers or the highest rated proposers. In this case, the evaluations may be revised based on additional information received during presentations.

3.29 **PRICING:** The proposer(s) warrants that the unit price stated shall remain firm for a period of thirty-six (36) months from the first day of the Contract period. If the Contractor's price is increased after the first contract period, Knox County must be given a written notice to consider. Such a request shall include as a minimum, (1) the cause for the adjustment; (2) the amount of the change requested with documentation to support the requested adjustment. Price increases will only be considered at the renewal period(s). If the price increase is rejected the contractor may:

- Continue with the existing prices;
- Request a lower price increase;
- Not accept the renewal offer.

If a price increase is approved by Knox County, the approval notification will be done in writing and the Contractor will be notified of the new price schedule and effective date of increase. This documentation will become part of the proposal file. No approvals will be authorized verbally.

3.30 **PROPOSAL CONTENT:** The proposer's response must contain a thorough description of the background of the proposer and sufficient evidence showing that the proposer is capable of providing the services. The proposer's response must thoroughly expound on the proposer's understanding of how the proposed services will meet Knox County's needs. The proposal must also contain an explanation of the implementation plan and the proposer's ongoing commitment to service.

3.31 **PROPOSAL EVALUATION:** In evaluation of submitted proposals, Knox County reserves the right to use any or all of the ideas from the proposals submitted without limitation and to accept any part or the entire successful proposal in selecting an operation which is judged to be in the best interest of Knox County. All material submitted becomes property of Knox County.

3.32 **PROPOSAL FORMAT:** This solicitation is in the Request for Proposal format. As the specified date and time, each proposer's name will be publicly read aloud. No further information will be given at that time. Evaluation of the proposals will proceed as expeditiously as possible and successful, as well as unsuccessful, notification will be given.

3.33 **PROPOSER OBLIGATION:** Proposers shall become fully acquainted with conditions relating to the scope of the work detailed in this Request for Proposal. Failure to become acquainted with the existing conditions shall in no way absolve the proposer of any obligations with respect to this Request for Proposal or the Contract.

3.34 **PUBLIC RECORDS ACT:** Knox County is subject to the Tennessee Open Records Act 10-7-503 et seq. Proposers are cautioned that all documents submitted on behalf of this Request for Proposal shall be open to the public for viewing and inspection.

3.35 **QUANTITIES:** Knox County does not guarantee any quantity of services will be utilized under this solicitation. Services will be utilized on an as needed basis.

3.36 **REJECTION OF PROPOSALS:** Knox County reserves the right to reject any and all proposals received as a result of this request and to waive any informality, technical defect or clerical error in any proposal, as the interests of Knox County may require. Non-acceptance of any proposal will be devoid of any criticism of the proposal and of any implication that the proposal is deficient in any manner. Non-acceptance of any proposal shall be construed as meaning simply that the County does not deem the proposal acceptable or that another proposal was deemed more advantageous to Knox County for the particular services proposed.

3.37 **REMOVAL OF CONTRACTOR'S EMPLOYEES:** Contractor agrees to utilize only experienced, responsible and capable people in the performance of the work. Knox County may require that the Contractor remove from the job covered by this Contract, including employees who endanger persons or property or whose continued employment under this Contract is inconsistent with the interest of Knox County.

3.38 **SUBMIT QUESTIONS:** Prospective proposers may submit questions concerning this solicitation until **May 27, 2025 at 4:30 p.m. local time**.

3.39 **SUSPENSION AND DEBARMENT:** Vendor will notify Knox County Government if they become suspended, debarred, or otherwise excluded from or ineligible for participation in Federal assistance programs or activities during the term of this proposal and during the term of any subsequent Contract for service.

3.40 **TENNESSEE REGISTRATION:** The successful proposer must meet any applicable State of Tennessee registration requirements.

SECTION IV SCOPE OF WORK

4.1 **BACKGROUND:** Knox County Schools (KCS) is a public education agency. It is responsible for the education of children from preschool through high school. There are approximately fifty-nine thousand (59,000) Pre-K through 12th-grade students and approximately seven thousand eight hundred (7,800) employees. For purposes related to this Request for Proposal, the district is comprised of ninety-two (92) schools that represent urban, suburban, and rural populations. In addition to Knox County Public Schools, funds are utilized to provide our non-public and the charter schools with resources/services.

4.2 **FACILITIES:** All facilities for the training will be provided by Knox County or Knox County's non-public schools.

4.3 **PARTICIPANTS:** Number of participants may vary. Vendors may work with an entire school staff or smaller school teams, and/or district teams, or any combination thereof. A defined number of trainings or participants is not guaranteed. Participants will be staff members serving students that may fall into historically underserved populations.

4.4 **SCOPE OF WORK:** Knox County Schools is seeking vendors to provide professional consultation to our schools and district to implement evidenced-based, content-specific strategies for instruction while building a coherent

academic and cultural model that is grounded in our district's four priorities: excellence in foundational skills, great educators in every school, success for every student, and career empowerment and preparation.

Through a framework that supports adult learning; while embracing student-centered decision-making, educators will be empowered to collaborate in curriculum-embedded professional learning. Educators will build discernment by measuring their impact on student learning through routine student work analysis. The consultant will work with leaders to support the accurate capture of the state of instruction through participation in classroom walkthroughs and coaching during reflective debriefs. The consultant will provide support in developing strategic action plans aligned with the current state of instruction that embrace evidenced-based instructional strategies within the high-quality instructional materials utilized by the district. Educators will also focus on developing or sustaining a culture of learning within the school community to support academic competency and increase student proficiency and growth

4.5 **METHODOLOGY:** Proposer is to describe, in detail, their proposed approach to providing services including excerpts and/or examples of course content and materials to be used, description(s) of recommended content proposed including objectives, research base, and training scripts.

Proposer is also to include samples of modules and/or curriculum and/or resources used in past projects that are similar in scope to the proposed training. This information is to be provided in Section V, Tab III of this Proposal.

4.6 **DELIVERY OF SERVICES:** The successful Proposer **must** offer professional development training designed to achieve the objectives outlined in this Request for Proposal and support increased organizational capacity to sustain the application of learning and implementation of tools and strategies over time. The proposed program must be designed to enhance the skills and/or abilities of employees in evidence-based instructional strategies as related to the classroom and school environment to reduce disparities and enhance student academic performance as detailed in this Request for Proposal.

The professional learning delivery model must authentically engage participants based on the principles of adult learning. Participants will be prepared to effectively implement evidenced-based, curriculum-based professional learning strategies and respond based on content-specific feedback to increase student proficiency. Participants will collaboratively engage in structures to include:

- Surveys for measuring culture;
- Processes for educator collaboration;
- Processes for measuring impact on student learning;
- Processes for building educator discernment regarding evidence-based instructional strategies within high-quality instructional materials utilized by the district; and
- Processes for leader capacity building.

Training provided should support sustained implementation and the professional learning should provide evidence-based instructional strategies with a proven impact on student outcomes.

Proposers must provide comprehensive narrative statements that outline the implementation and management plans that it intends to follow. This information should fully illustrate how the plan will serve to accomplish the work and furnish the deliverables described.

Implementation may be requested upon execution of a contract.

4.7 **EXPERIENCE & REFERENCES:** Proposers are to detail their organization's previous experience working with school and district leadership teams to analyze underserved students and to promote high levels of achievement for all learners. For all relevant team members, proposers are to submit education credentials, relevant work experience, demonstrated outcomes, independent research, and publishing in the subject areas addressed by this Request for Proposal. This information is to be submitted in Section V, Tab V of the Proposal.

Proposers must provide three (3) references relating to work of a similar scope completed within the last five (5) years. Include the name of the agency or institution, point of contact with both a telephone number and email address, and the nature and size of the Contract. **Do not list Knox County Government or Knox County Schools as a reference.** References shall be submitted on Attachment A of this Request for Proposal.

SECTION V PROPOSAL FORMAT

The following guidelines should be followed when responding to the Request for Proposal. Negligence in adhering to the criteria listed below will be considered when reviewing the responses and evaluating the proposers. Knox County reserves the right to reject any proposal for failure to comply with the requested response specifications. The County reserves the right to amend the Request for Proposal by addendum prior to the final date of proposal submission.
PROPOSERS MUST HAVE THEIR BINDERS IN THE EXACT FORMAT LISTED BELOW.

- Knox County requests proposals be in sufficient detail to address all requirements.
- The County requests responses be submitted in a three-ring binder containing sections separated by tabs. **Do not submit spiral bound or glued responses.**
- Please submit one (1) marked original and one (1) exact copy.
- Proposers shall also submit an exact copy of the original proposal on a Flash drive. **This shall be in one (1) complete pdf file. Do not include multiple folders on the Flash drive.**
- Page numbers should be placed on bottom center of pages.

TAB I **COVER LETTER**
Include cover letter authorizing the submission of the proposal signed by the principal of the company.

TAB II **COMPANY PROFILE**
- Company Name, Address Telephone/Fax numbers
- Contact name(s) and information
- Proposer's Vendor Number as assigned by Knox County
- Employer Identification Number (EIN)
- Knox County Business Tax License for Organization (if applicable)
- Knox County Business Tax License(s) for Subcontractor(s) (if applicable)
- Acknowledgement of the receipt of any Addendum issued

TAB III **METHODOLOGY (30 POINTS)**
Proposers must demonstrate an understanding of Knox County's needs and fully explain overall approach to meet the County's requirements. At a minimum, information provided must thoroughly address each of the requirements outlined in Section 4.4 and 4.5. Proposer is to describe, in detail, their proposed approach to providing services including excerpts and/or examples of course content and materials to be used, description(s) of recommended content proposed including objectives, research base, and training scripts.

Proposer is also to include samples of modules and/or curriculum used in past projects that are similar in scope to the proposed training.

TAB IV **DELIVERY OF SERVICES (30 POINTS)**

Proposers must provide and implementation plan and comprehensive narrative statements that outline the management plan it intends to follow. This information should fully illustrate how the plan will serve to accomplish the work and furnish the deliverables described in the scope of work within the County's project schedule. Proposers must thoroughly address each of the requirements outlined in the Delivery of Services portion of the Scope of Work. At a minimum, information provided must thoroughly address each of the requirements outlined in Section 4.6.

TAB V **EXPERIENCE AND REFERENCES (20 POINTS)**
Proposers must thoroughly detail its approach to the Experience and References portion of the Scope of Work. At a minimum, information provided must thoroughly address each of the requirements outlined in Section 4.7.
- References (Attachment A)
- Proposers must state the organization's number of years in business and provide a description of the organization to include office location(s).
- Proposers must describe the organization's experience with similar projects.
- Proposers must provide an organizational chart that illustrates the organization of the project team. The organizational chart must illustrate the lines of authority and designate the individual responsible and accountable for the completion of each component and deliverable of the Request for Proposal. Information about each person listed should include their a) title b) resume, including advanced education credentials, relevant work

experience, demonstrated outcomes, independent research, and publishing in the subject areas addressed by this Request for Proposal c) number of years with the organization and d) description of the type of work the individual will perform

TAB VI **PROPOSED COSTS (20 POINTS)**

Costs proposals must include all direct and indirect costs associated with the performance of the service. Proposed costs should be inclusive of all expenses. Proposer may include the methodology used to determine their proposed cost. Pricing must include all expenses, including transportation and ancillary out-of-pocket charges, if applicable. There will be no reimbursement for any such charges. Please state cost in a "per participant" format, noting any applicable volume discounts.

- Cost Sheet (Attachment E)

NOTE: This tab and Attachment E shall only be included in Section V behind Tab VI. This tab will be reviewed after the other sections of the vendor's proposal have been reviewed and scored.

TAB VII **OTHER INFORMATION**

Proposers may include any other information deemed pertinent to this solicitation.

TAB VIII **EXCEPTIONS**

Please note any and all exceptions taken to any part this Request for Proposal. If none are taken, please clearly state so. Do not mark through or otherwise alter the language of this Request for Proposal in your response.

TAB IX **ATTACHMENTS**

- Insurance Checklist (Attachment B)
- Criminal History Check Affidavit (Attachment C)
- Iran Divestment Act (Attachment D)

EXHIBIT A
GENERAL FEDERAL FUNDING REQUIREMENTS
KNOX COUNTY PROCUREMENT DIVISION
REQUEST FOR PROPOSAL NUMBER 3667

Equal Employment Opportunity

During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

(3) The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.

(4) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(5) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(6) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(7) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(8) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance:

Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

Clean Air Act and Federal Water Pollution Control Act
Contractors and subcontractors will comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251-1387). Violations will be reported to the U.S. Department of Education (DOE) and the Regional office of the Environmental Protection Agency (EPA).

Debarment and Suspension
A contract award will not be made to a party listed on the governmentwide exclusions in the System for Award Management (SAM).

Lobbying
The Contractor certifies, to the best of its knowledge and belief, that:

a. No federally appropriated funds have been paid or will be paid, by or on behalf of the Contractor, to any person for influencing or attempting to influence an officer or employee of an agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with the awarding of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

b. If any funds other than federally appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with any contract, grant, loan, or cooperative agreement, the Contractor shall complete and submit Standard Form-LLL, “Disclosure Form to Report Lobbying," in accordance with its instructions.

c. The Contractor shall require that the language of this certification be included in the award documents for all contractors and that all subcontractors shall certify and disclose accordingly.
This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into and is a prerequisite for making or entering into this transaction imposed by 31 U.S.C. § 1352.

Procurement of recovered materials.
Contractors must comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

Preferences for Products Produced or Manufactured in the U.S.
(a) This contract award prefers the purchase, acquisition, or use of goods, products, or materials produced in the United States (including but not limited to iron, aluminum, steel, cement, and other manufactured products).

(b) For purposes of this section:

(1) “Produced in the United States” means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.

(2) “Manufactured products” means items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer-based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber.

EXHIBIT B
Sample Contract
Knox County Government
and
(Contractor Name)

This Contract, made and entered into by and between the Knox County Government, hereinafter referred to as the "County" and (Contractor Name) hereinafter referred to as "Contractor".

Whereas, the County requested proposals for Evidence-Based Instruction Strategies Consulting for Knox County Government and Knox County Schools (Request for Proposal #3667) and;

Whereas, Contractor submitted a proposal in accordance with said requested specifications, the response of which is the most responsible and responsive proposal meeting specifications accepted by the County;

Whereas, Contractor agrees and undertakes to provide said services for the County, as set forth in the Request for Proposal, and at the price quoted for said services by Contractor. Further, in accordance with the lawful directions of the County, the Contractor agrees in all respects, to be governed by the Request for Proposal's specifications and the Contractor's proposal and response.

Now, therefore in consideration of mutual covenants and promises contained herein, the parties hereto wish to enter into this Contract to set forth their respective rights and obligations and do mutually agree that;
Arises

Witnesseth:

1. Terms of this Contract. This Contract commences on the 1st day of September 2025 and ends upon the 31st day of August 2026 unless terminated in conformity with the terms of this Contract as contained in paragraphs 4 and 5. The County intends to issue a one-year (1) award. Upon the mutual agreement of the vendor and the County, the award may be extended for four (4) additional years, one (1) year at a time. This may result in a total of five (5) years. The County reserves the right to purchase these goods/services from other sources if the need arises. The County reserves the right to revoke the award if a pattern of unavailability with the vendor.

2. Payment. Contractor warrants that the pricing shall remain firm for the initial three (3) year period. However, due to the funding source, the County is required to renew the Contract on a yearly basis as per Paragraph 1 above. At the end of the first three (3) year period, and pursuant to the renewal terms in Paragraph 1, the Contractor may request a price increase for each subsequent renewal. Price increases will only be given at the renewal time and must remain in effect for the next one (1) year term. No price increases will be given during the term of a Contract. The County shall pay Contractor the amount as agreed upon in the County's Request for Proposal for Evidence-Based Instruction Strategies Consulting per the Contractor's response to Request for Proposal #3667; pursuant to all payments being subject to the County's review and approval. The Contractor shall receive, upon the need of the County, written notification to proceed. The Contractor shall pursue all work diligently until completion as directed by the County.

3. Invoicing and reporting requirements. Contractor shall invoice the County for Evidence-Based Instruction Strategies Consulting and Services pursuant to Request for Proposal #3667.

TBA

4. Termination. The County may terminate this Contract with or without cause, upon written notice of not less than thirty (30) days. Upon termination, the County will pay for services satisfactorily completed but not yet invoiced. Contractor shall not perform additional work without the expressed permission of the County.

Should the Contractor fail to provide Evidence-Based Instruction Strategies Consulting and Services detailed herein, the County will communicate the problem(s) to the Contractor both verbally and in writing and keep a written record as to what the problem(s) are and when the Contractor was contacted. The Contractor shall rectify the problem within thirty (30) business days of notification of the problem. If the same or other problems persist or reoccur, the County may terminate the Contract.

In the event Contractor intends to interrupt or discontinue service under this Contract, Contractor agrees to give the County at least one hundred twenty (120) days' advance written notice of said interruption or discontinuance of service prior to interrupting or discontinuing same. Any interruption or discontinuance of service without said advance notice shall constitute a material breach of this Contract.

SAMPLE

5. Appropriations. In the event no funds are appropriated by the County for the Evidence-Based Instruction Strategies Consulting and Services in any fiscal year or insufficient funds exist to provide the services, then the Contract shall expire upon the expenditure of previously appropriated funds or the end of the current fiscal year, whichever occurs first, with no further obligations owed to or by either party.

6. Independent contractor. Contractor acknowledges that Contractor and employees serve as independent contractors and that the County shall not be in any manner responsible for any payment, insurance, or incurred liability.

7. Compliance with all federal, state, and municipal laws. Contractor is assumed to be familiar with and agrees to observe and comply with all federal, state, and local laws, statutes, ordinances, and regulations in any manner affecting the provision of the Evidence-Based Instruction Strategies Consulting and Services, and all instructions and prohibitive orders issued regarding this work and shall obtain all necessary permits.

8. Severability clause. If any provision of this Contract is declared illegal, void, or unenforceable the remaining provisions shall not be affected but shall remain in force and in effect.

9. Prohibition against assignment. Contractor shall not assign this Contract to any party, company, partnership, incorporation, or person without prior specific written consent of the County.

10. This Contract shall be exclusively construed, governed, and controlled by the Laws of the State of Tennessee without regard to principles of law, including conflicts of law, of any other jurisdiction, territory, country, and/or province. Any dispute arising out of or relating to this agreement shall exclusively be brought in the Chancery Court or the Circuit Court of Knox County, Tennessee. Each party consents to personal jurisdiction thereto and waives any defenses based on personal jurisdiction, venue and inconvenient form.

11. Right to inspect. The County reserves the right to make periodic inspections of the manner and means the services are performed.

12. Nondiscrimination and non-conflict statements. Contractor agrees that no person on the grounds of handicap, age, race, color, religion, sex, national origin or any individual trait or characteristic found to be an illegal consideration, shall be excluded from participation in, or be denied benefits of, or be otherwise subjected to discrimination in the performance of this Contract, or in the employment practices of Contractor. Contractor shall upon request show proof of such non-discrimination and shall post in conspicuous places available to all employees and applicants notices of non-discrimination.

13. Books and records. Contractor shall maintain all books, documents, accounting records and other evidence pertaining to the service under this Contract and make such materials available at their offices at all reasonable times during the contract period and for five (5) years from the date of the final payment under the Contract for inspection by the County or by any other governmental entity or agency participating in the funding of this Contract, or any authorized agents thereof; copies of said records to be furnished if requested. Such records shall not include those books, documents and accounting records that represent the Contractor's costs of manufacturing, acquiring or delivering the products and services governed by this Contract.

14. Contractor shall indemnify, defend, save and hold harmless, County, its officers, agents and employees from all suits, claims, actions or damages of any nature brought because of, arising out of, or due to breach of the Contract by Contractor, its subcontractors, agents or employees or due to any negligent act, occurrence, omission, commission of Contractor, its subcontractors, agents, or employees.

15. Delivery. Contractor shall render the Evidence-Based Instruction Strategies Consulting and Services for the County in accordance with Request for Proposal #3667.

16. Tax Compliance. Pursuant to Resolution R-07-1-903 passed by the Commission of Knox County, Tennessee, Contractor hereby acknowledges, by submission of its bid and signature that it is current in its respective Federal, State, County, and City taxes of whatever kind or nature and is not delinquent in any way. Delinquent status must be disclosed or risk debarment by the Knox County Procurement Division.

17. Limitations of liability. In no event shall the County be liable for any indirect, incidental, consequential, special or exemplary damages or lost profits, even if the County has been advised of the possibility of such damages

18. Contract documents. It is mutually agreed by both parties that the following documents are made part of this Contract and are incorporated herein by reference:

SAMPLE

A. Request for Proposal #3667
B. Contractor's Response to Request for Proposal #3667

It is agreed that this Contract, represents the **entire Contract** between the parties and no prior representations, promises, and agreements, oral or otherwise, not embodied herein, shall be of any force or effect.

In witness whereof, the parties hereto have caused this Contract to be executed in one original copy on the day and year last written below.

Knox County Procurement Division
Addendum I to RFP No. 3667
Evidence-Based Instruction Strategies Consulting

Addendum Date: June 2, 2025

Buyer: Rachel Cabrera

Closing Date: June 13, 2025

The following is for clarification:

Question 1: Section 4.1. In reference to, "For purposes related to this Request for Proposal, the district is comprised of ninety-two (92) schools that represent urban, suburban, and rural populations." Should proposal responses encompass working with educators prek-12, or could proposal responses attend to working with a subset of grade-levels (i.e. Elementary only)? Will proposals be scored more favorably one way or another?

Answer 1: Proposals can attend to working with subsets of grade-levels. No, proposals will not be scored more favorably one way or the other.

Question 2: Section 5. Proposal Format: This section requests submissions in a three-ring binder and also requests two copies, 1 marked "original" and 1 exact copy. Should both "Original" and "Exact Copy" be in the same three-ring binder, or should each be submitted in their own binder?

Answer 2: They should be submitted in their own binder.

Question 3: Section 4.7 states "Proposers must provide three (3) references relating to work of a similar scope completed within the last five (5) years." However, Attachment A states "Proposers shall submit a list of three (3) projects of similar size which have been in service for at least five (5) years." Can you please clarify, do these references need to be related to work completed in the last five years, or work that is currently underway and has been in service for 5+ years? i.e. Could we submit a reference from the last five years of a similar project that had a 3-year duration?

Answer 3: The work could have been completed in the last five years or currently underway. Yes, your company could submit a reference from the last five years of a similar project that had a 3-year duration.

Question 4: Will all 92 schools necessarily receive consulting services, or is the number of schools to be determined?

Answer 4: Per Section 3.35 Knox County does not guarantee any quantity of services will be utilized under this solicitation. Services will be utilized on an as needed basis.

Question 5: Are you able to provide any more guidance on the participants? I see Section 4.3 notes that the number and type of participants may vary, but do you have an idea if it will mainly be district leaders, school leaders, or teachers? Are you able to provide any more guidance on the participants? I see Section 4.3 notes that the number and type of participants may vary, but do you have an idea if it will mainly be district leaders, school leaders, or teachers?

Answer 5: We have 92 schools in KCS. Participants will primarily include executive principals and school-level leadership teams but may include supporting educators. Participant numbers will vary based on the size of the school and the focus of the work.

Question 6: Does the district have instructional coaches, and if so, do you envision the consultants supporting them via a train-

the-trainer model?

Answer 6: KCS has an instructional coach in each elementary school. Some of our middle schools and high schools have instructional coaches. Train-the-trainer model is an option for support.

Question 7: Section 4.4 states, "The consultant will provide support in developing strategic action plans aligned with the current state of instruction that embrace evidenced-based instructional strategies within the high-quality instructional materials utilized by the district." Do you have any additional information about the kind of strategic action plans you are looking for here?

Answer 7: Strategic plans should align with the district plan and school plan, but deeply analyze how best to achieve positive outcomes for students based on an understanding of the current state of instruction utilizing district IPGs. The plan should embrace the use of the district-provided HQIM (ELA, MATH, SCIENCE). Strategies outlined in the plan must align not only with research but with evidenced-based practices.

Question 8: How will schools and participants be selected?

Answer 8: School leaders will have autonomy to elect services and design support.

Question 9: Is there a vendor currently providing this scope of work?

Answer 9: Yes, Knox County currently has Contracts with Catapult Learning, LLC, Corwin Press and National Institute for Excellence in Teaching for Evidence-Based Instruction Strategies Consulting.

Question 10: Is a hybrid approach that includes onsite and virtual training acceptable?

Answer 10: Yes

Question 11: Does the district currently leverage an LMS for professional development?

Answer 11: Yes, Canvas.

Question 12: What is the budget for this scope of work?

Answer 12: The budget varies based on school budget and district budget.

Question 13: Tab VI Proposed Costs requests a "per participant" price but Attachment E Cost Sheet specifies a number of participants per service. Please clarify what should be reflected in Attachment E.

Answer 13: Please complete the Attachment E Cost Sheet. Do not alter the cost sheet in any way. Failure to provide the completed cost sheet or deviations from the cost sheet may be just cause to deem your proposal non-responsive and not considered for award.

End of Addendum I

Note: Addendum must be acknowledged in Section V behind Tab II of the proposal.

RE: Proposal Submission – RFP #3667: Evidence-Based Instruction Strategies Consulting

Dear Members of the Evaluation Committee,

On behalf of Instruction Partners, I am pleased to submit our proposal in response to **Knox County RFP #3667** for **Evidence-Based Instruction Strategies Consulting.**

We are excited about the opportunity to support Knox County Schools in implementing content-specific, evidence-based instructional strategies aligned to your district's four strategic priorities: **excellence in foundational skills, great educators in every school, success for every student, and career empowerment and preparation**. Our team brings [insert number] years of experience in partnering with school districts to build educator and leader capacity through high-impact professional learning, instructional coaching, and data-informed planning.

This proposal includes our detailed methodology, service delivery plan, team qualifications, and pricing—all organized per the RFP format. We are confident our approach will help KCS build a coherent academic and cultural model that drives student growth and supports instructional excellence.

We appreciate the opportunity to be considered and are committed to meeting the needs and expectations outlined in the RFP. Should you have any questions or require further information, please feel free to contact me at [your phone number] or [your email address].

Thank you for your time and consideration.

Sincerely,

Kelsey Hendricks, Executive Director, Engagement

Tab III: Methodology

Knox County RFP #3667 - Evidence-Based Instruction Strategies Consulting

Detailed Description of Proposed Approach and Research Base

Instruction Partners proposes an approach that fulfills the requirements outlined in Section 2 (Scope of Services) and Section 4 (Deliverables) through content-specific, evidence-aligned strategies. Our vision at Instruction Partners is that all students experience an excellent education–one that prepares them to contribute to their community, achieve economic security, and pursue their dreams. To achieve this vision, we strengthen instructional leadership at the school, system, and state levels to ensure teachers have the support they need to improve instruction and student learning.

Our core services are designed to build leader capacity with content and curriculum specificity. These services are aligned to **Knox County School's four strategic priorities** and include:

1. Shoulder-shoulder guidance for strengthening high-quality-instructional materials implementation
2. Support for leading effective professional learning systems for teachers, including collaborative planning and coaching
3. Support to put in place the conditions necessary to improve instruction – vision, time, process, roles, training, investment, and affirmation.
4. Lead instructional leaders in effectively understanding and leveraging student data to make decisions

Our methodology is grounded in rigorous, research-based practices. At the center is Dr. Richard Elmore's **Instructional Core theory**, which asserts that improving student outcomes emphasizes that improving student outcomes at scale requires one or more of the following: raising the level of content, improving teacher skill, and increasing student engagement with that content. Everything else, Elmore notes, is instrumental and must support these core elements[1].

We believe student learning improves when instructional leaders create the conditions that prioritize the instructional core and when teachers and students are empowered to engage

[1] Richard Elmore. Improving the Instructional Core. Harvard University, School of Education, 2008 https://cepr.harvard.edu/news/never-judge-book-its-cover%E2%80%94use-student-achievement-instead

in rigorous, affirming learning environments. The 2022 Research Partnership for Professional Learning reinforces this, finding that professional learning is most effective when it:

1. Builds subject-specific instructional practices (beyond content knowledge),
2. Is anchored in instructional materials like curriculum and formative assessments,
3. And prioritizes the quality of teacher-student relationships.[2]

Additionally, curriculum-aligned professional learning has been shown to significantly boost student outcomes—comparable to the effects of class size reduction or replacing an average teacher with a top performer.[3] Instruction Partners' approach to building leader capacity to execute strong professional learning systems like collaborative planning and observation/feedback is grounded in this research.

Through this lens, we have concentrated our organizational expertise around four key instructional leadership practices: materials, collaborative planning, coaching, and acting on data. We support Leaders in:

1. Observing instruction to identify content-specific areas for growth
2. Aligning stakeholders around a shared, actionable improvement plan, and
3. Implementing that plan through practical, job-embedded support.

Our team has deep expertise in helping leaders execute these practices with content specificity and in alignment with the latest research on how students learn and how adults change and grow. We explicitly develop leaders' competencies in content knowledge, change management, continuous improvement, and systems thinking–ensuring that instructional improvements are sustainable and scalable across the system.

In addition to building leader capacity to enact the professional learning practices that improve teacher effectiveness, our work supports leaders and their teams in creating and sustaining the conditions that undergird strong practices. We support teams in establishing or refining their vision, roles and responsibilities, use of time, protocols, data collection routines, and materials in alignment with key instructional leadership practices. Sustained improvement requires more than a single strong collaborative planning session—it requires coherent systems and consistent attention. Our approach prioritizes codifying the structures and conditions necessary for strong practices to become consistent and lasting. We work shoulder-to-shoulder with leaders to manage change, support continuous improvement,

build content knowledge, and foster the trusting relationships necessary for effective implementation.

The Professional Learning Conditions and Practices (PLCP) Rubric that guides this aspect of our support is included in the Appendix.

Content-Specificity

Early Literacy

Current KCS & Instruction Partners' Partnership and Approach

Since the 2023-2024 school year, Instruction Partners has worked with Knox County Schools to co-create and implement a district-wide early literacy improvement plan to support the foundational reading skills of all K-2 students, with attention to students experiencing poverty and students of color. Leveraging a systematic, explicit, and sounds-first approach to reading instruction, our shared goal is for KCS to provide students effective foundational skills instruction that results in significant improvement in students' early literacy reading proficiency. Instruction Partners' support is based on the district's adopted Benchmark Advanced curriculum and rooted in the science of reading—a body of research that tells us how our brains learn to read. We ground our instructional support in the Foundational Skills IPG, the set of instructional look-fors through which we examine the effectiveness of the instructional core in early literacy.

To reach this goal, we began our partnership in 2023 by diagnosing KCS' current district and school early literacy essential practices, the systemic factors at the school and system levels that fuel the instructional leadership needed to influence early literacy instruction in classrooms. Across the 2023-2024 school year, we facilitated Knox district and school leadership teams to develop a comprehensive early literacy vision and improvement plan focused on strengthening Tier I foundational skills instruction and the district and school leadership structures and teacher supports that fuel it. We partnered with Knox's Executive Director of Learning and Literacy Dr. Erin Phillips, Literacy Facilitators, Regional Directors and principals and instructional coaches of participating cohort 1 elementary schools to reimagine the district's use of time, materials, team roles and responsibilities, and the curriculum-based professional learning system. We also refined an approach to strategically leveraging universal screener and diagnostic assessment data to support teachers' capability to deliver high quality Tier I whole group and small group early literacy instruction that meets the learning needs of each student.

In the 2024-2025 school year, we expanded the reach and effectiveness of the early literacy program, serving 30 elementary schools across all five regions. In partnership with Literacy Facilitators, we supported the launch of the district's implementation of laser-focused, flexible foundational skills learning targets for each student within strategically flexing small learning groups in Tier 1, data-informed small group instruction routines, and methods for monitoring student progress.

Our support to district leaders has included onsite and virtual supports for:

- Diagnosing and building capacity to improve district level essential practices, with an emphasis on Vision refinements, HQIM implementation with integrity, Professional Learning, and Data Systems and Structures
- Co-developing the data-informed small-group instruction strategy and building capacity to support its implementation
- Using data to monitor and refine the Early Literacy System so that it is built to last well beyond the tenure of our partnership

Our support to school leaders has included onsite cohort-wide learning summits and school-specific onsite and virtual hours for:

- Diagnosing & building leader capacity to improve system level essential practices
- Leading an instructional diagnostic (IPG Classroom Observations, Focus Groups, PLC Observations)
- Training and providing implementation support to school leaders for data-informed small group instruction
- Implementing Instructional Support Short Cycles to build principals' and coach capacity to improve Tier 1 Whole Group and Small Group instruction, as measured by focus IPG indicators
- Using data to monitor and refine instruction and the school practices that support it

Sample resources that illustrate this work are included in the Appendix and feature materials such as the Leadership Summit deck (Cohort 2, Year 1), Short Cycle Plan, Focus Group Protocols, and PLC Coaching Criteria for Success. These artifacts provide additional insight into the structure, content, and impact of our leadership development approach.

Results

We randomly selected schools to serve as untreated controls to enable Knox, Instruction Partners, and our Principal Investigator, Vanderbilt University, to compare students' foundational skills learning outcomes according to the treatment that their school teams received. Upon conclusion of the service for schools receiving treatment, Knox and Instruction Partners will have discerned the system, school and classroom-level supports for Tier 1 foundational skills whole-group and small-group instruction that accelerates the early reading outcomes of students across the district's schools.

While we do not yet have the impact analysis of this randomized control trial, we do have MOY 24-25 data that suggests our theory of action is working. For cohort 1 schools that have received two years of support:

- All five essential practices showed an upward trend, with Vision, Time, and Team indicators above 80% and minimal downturns.
- Classroom observational data from walkthroughs confirms strong gains in Core Actions 1 and 2 of the IPG, with Core Action 3 needing more support in the 25-26 school year.

- The 2022 Kindergarten cohort shows rising proficiency and fewer students in the bottom quartile on AimsWeb, despite early fluctuations.

For cohort 2 schools that have received one year of support:

- Cohort 2 started the year stronger than Cohort 1 in essential practices, with Vision already at 71% and increasing to 100%, suggesting effective district support.
- Schools in Cohort 2 are showing a faster rate of improvement in Core Actions 1 and 2, aligning with anecdotal reports that they began at a similar baseline to Cohort 1 but are progressing more quickly.

English-Language Arts and Mathematics

In English-Language Arts (ELA) and mathematics, Instruction Partners gathers data on the conditions and daily instructional quality of classrooms to begin the work. We leverage the Instructional Practices Guide (IPG) to diagnose instruction and build leader capacity to provide content- and curriculum- specific feedback. The IPG is organized into three Core Actions that align to the Instructional Core and evidence based, best-practices in ELA and math instruction:

ELA IPG

- **Standard Alignment:** Does the lesson reflect the demand of the TN standard(s)?
- **Core Action 1:** Are the materials of grade-level complexity, instructionally rich, reflective of various experiences, and knowledge building?
- **Core Action 2:** Does this lesson employ questions and tasks, both oral and written, which integrate the standards and help students understand the content and meaning of the text(s)?
- **Core Action 3:** Do the lesson and instruction provide support for all students to engage in the work of the lesson?
- **Student Mastery:** Did students master or move towards mastery of the content of the lesson?

Math IPG

- **Standard Alignment:** Does the lesson reflect the demands of the TN standard(s)?
- **Core Action 1:** Does the lesson ensure the work of the enacted lesson reflects the focus, coherence, and rigor required by college- and career- ready standards in mathematics?
- **Core Action 2:** Does the lesson employ instructional practices that allow all students to learn the content of the lesson?
- **Core Action 3:** Do the lesson and instruction provide support for all students to exhibit mathematical practices while engaging with the content of the lesson?
- **Student Mastery:** Did students master or move toward mastery of the content of the lesson?

When working with school and system leaders focused on improving instruction in ELA or math, we ensure a strong orientation to the ELA and Math Instructional Practice Guides (IPG) through both introductory sessions—**Math IPG Norming** and **ELA IPG Norming**—and through ongoing use of the tools during walkthroughs and hallway debriefs. The **Math IPG Norming deck is included in the Appendix in Tab VII**, as are the **ELA and Math IPG tools**, originally developed by **Student Achievement Partners and later modified by the Tennessee Department of Education**. As described in more detail in Tab IV, our approach in Knox County will be tailored to align with the district's adopted high-quality instructional materials (HQIM) and current instructional priorities. We will collaborate closely with the Knox Teaching and Learning Team to ensure coherence across the district. Our deep experience in building leader capacity to facilitate content-specific collaborative planning and curriculum-aligned observation and feedback cycles is a key driver of success in both ELA and math.

Based on multiple data sources—including classroom observations, teacher and student focus groups, and observations of professional learning—leaders select a specific instructional leadership practice to focus on in our ELA-specific support: typically, collaborative planning or coaching. We then work alongside leaders to develop their capacity in that practice through a gradual release of responsibility and structured, job-embedded learning. Our goal is to build sustained ownership, enabling leaders to independently lead lesson internalization, conduct effective observation and feedback cycles, and guide student work analysis routines. We also support leaders in establishing the enabling conditions necessary for these practices to thrive.

Internalizing and practicing facilitation of internalization protocol to use as a part of teacher collaboration and planning meetings

- *Math: Leveraging the 5 Practices in Lesson Internalization* (session example)
- *ELA: ELA Lesson Internalization Process Example* (**included in Appendix, Tab VII**)

Naming "bite size" and content-specific feedback for teachers based on classroom observations

- *Math: Math Onsite – Observation/Feedback* (**included in Appendix, Tab VII**)
- *ELA: Haywood ELA Observation/Feedback Practice* (session example)

Reviewing and analyzing student work to assess for content mastery and identify instructional improvements

- *Math: Practicing a Student Work Sharing Routine; Preparing for Peer Observations* (session example)

- *ELA: Sample Student Work Analysis Intro* (**included in Appendix, Tab VII**)

These representative resources illustrate our approach to building content-specific leadership practices that result in improved instruction and student outcomes. Additional examples of session materials are available upon request.

There is also intentional progress monitoring built into our approach. We leverage this as a tool to review progress toward short-cycle goals, identify barriers and opportunities for improvement, and develop a short-cycle plan for the next six to eight weeks. During these progress monitoring meetings, we support leaders in reflecting on change management challenges and planning for needs related to communication, shifts in structures or role clarity, and leader modeling. These sessions are deeply context-specific. A session illustrating this approach—**Case Studies Progress Monitoring and Collaborative Planning**—is **included in the Appendix in Tab VII**.

We are committed to building instructional leadership capacity, instructional coherence, and sustainable systems that drive lasting student impact. Our methodology is grounded in rigorous research and will be adapted to the local context of Knox County. In order to ensure teachers have the support needed to improve student learning outcomes, we will work with leaders to create, strengthen, and sustain collaborative planning and observation and feedback structures. Our partnership approach is deeply collaborative. We work shoulder-to-shoulder with district and school leaders to embed these practices and build ownership that will sustain continuous improvement. Additional detail about our implementation plan for this methodology is described in Tab IV.

ELA and Math Results

Designing and Sustaining Instructional Improvement

Our multi-year partnership with Gladstone Elementary, a K-6 public school serving a large population of refugee and immigrant students, demonstrates the power of sustained instructional improvement. When we began working together in 2018, instruction and materials were misaligned with Missouri state standards. Together with school leaders, we co-developed a comprehensive improvement strategy focused on leadership development, aligned materials, and continuous data-driven feedback, which led to measurable gains in student achievement across all tested subjects—outpacing statewide trends. A **case study documenting this work is included in the Appendix in Tab VII**.

Table: State Assessment Gains – Missouri MAP (2018–2023)[4]

Subject	Gladstone (2018-2023)	Missouri Statewide (2018-2023)
Math	+6.0%	-2.2%
ELA	+2.3%	-5.4%
Science	+10.4%	-3.8%

State Education Agencies

Our work with state education agencies includes a multi-year partnership with the Rhode Island Department of Education (RIDE) to design and implement systems that advance high-quality instruction statewide. We supported RIDE in launching a System of Continuous Improvement for HQCM, including partner guidance, progress monitoring tools, and LEA Assistance Partner training.

We also co-led an initiative to strengthen early literacy implementation for curricula aligned to the Science of Reading. Working alongside RIDE, curriculum reviewers, and publishers, we co-developed customized toolkits, professional learning protocols, coaching materials, and walkthrough guides to strengthen instructional practice across Rhode Island.

Using the Instructional Practice Guide (IPG) to assess instructional quality, Rhode Island educators demonstrated significant growth in ELA and math over the 2023–24 school year:

Subject	Fall 2023	Spring 2024	% Point Gain
Math	28.33%	46.67%	+18.34%
ELA	32.69%	44.58%	+11.89%

These results exceeded Instruction Partners' national improvement benchmarks and reflect the power of a coherent, statewide approach to instructional improvement.

Nationally, our partners saw at least a 15 percentage point increase in instructional quality across all three IPG domains (Core Actions 1, 2, and 3) in 2022–23, reinforcing that the strategies we deploy in Rhode Island and other state-led efforts consistently drive

[4] **Instruction Partners. (2023). Case Study: Gladstone Elementary School – Kansas City Public Schools. Retrieved from https://instructionpartners.org/gladstone-case-study/**

meaningful change.

Extending the Model: Statewide Impact in Nebraska

Instruction Partners has successfully adapted our system-building approach in other contexts. In Nebraska, we partnered with the Department of Education and regional Educational Service Units (ESUs) to design and implement support structures for high-quality instructional materials (HQIM) in math. We collaborated with ESU leaders to co-develop walkthrough tools, teacher planning supports, and feedback systems aligned to a shared instructional vision.

At Lyons-Decatur Northeast Elementary, one district supported through this partnership, student proficiency on the Nebraska Student-Centered Assessment System (NSCAS) rose from an average of 35% to 67% in one year after implementing structured instructional leadership support. **A case study highlighting this work is included in the Appendix in Tab VII.**

Tab IV: Delivery of Services

Knox County RFP #3667 - Evidence-Based Instructional Strategies Consulting

Implementation and Management Plan to Achieve Scope of Work Objectives

Instruction Partners proposes a structured and collaborative model of support to help Knox County Schools strengthen instructional leadership and classroom practice to improve student outcomes. Our approach is grounded in research on effective continuous improvement, designed to build immediate and sustained instructional growth, and fully aligned to Knox County Schools' strategic priorities: excellence in foundational skills, great educators in every school, success for every student, and career empowerment and preparation. Building on our current partnership with Knox County, we focus on helping school leaders implement evidence-based, content and curriculum specific instructional leadership practices–particularly in ELA, mathematics, and early literacy–to accelerate learning for all students.

Our service model builds the capacity of school leaders - principals, assistant principals, instructional coaches, and teacher leaders - to support teachers with content and curriculum-specific learning and instructional improvement. Across our work with schools nationwide, we have seen the greatest improvements in instructional quality when teachers receive regular, job-embedded support from the leaders and peers in their school. To that end, we help school and district leaders create the enabling conditions for effective teacher development and then provide direct coaching and practice to build leaders' content knowledge and skills in facilitating teacher collaboration, observing instruction, delivering content-specific feedback, and analyzing student data and work to inform instructional decisions. Through this continuous cycle of diagnosis, short-cycle improvement, and progress monitoring, we support leaders to build the systems and capacity necessary to sustain improvement in instruction and student learning outcomes over time. Our approach aligns strongly to Knox County's priority of strengthening instructional leadership and instructional practice to improve outcomes for students.

Service Design and Implementation Plan

Our service approach begins with diagnostic work to understand the current conditions for professional learning and the current quality of daily instruction in the content area. We launch our partnership with schools and leaders virtually and engage in an interview with each school leader (Virtual coaching for small groups). We then spend a full day on-site at each school (School Visit) We gather data from leader interviews, artifact reviews, classroom observations, and teacher and student surveys and focus groups to inform our next steps.

Based on our diagnosis, we organize cohorts of 5-10 schools in the same grade span (elementary, middle, high) with similar leadership structures and identified focus areas for improving professional learning. Specific focus areas could include improvements in curriculum alignment and implementation, improvements in teacher collaboration and curriculum internalization, improved classroom observation and feedback routines, and/or improved protocols and routines for looking at student work and reviewing student data to improve instruction. We then have each cohort experience the following service model as a group of schools, with some activities bringing together leaders from across schools in addition to school-specific and leader-specific coaching supports.

Leadership Summit
After the diagnostic process, leaders from across a cohort of schools will take part in a Leadership Summit. This support is an on-site professional development session, with two or three facilitators depending on the number of content areas for focus. They will learn about the necessary conditions for teacher professional learning, review the results of the diagnosis for their cohort, and begin planning for changes to put the conditions in place, including practicing change management strategies around communication and modeling the change. We will also then introduce the instructional leadership practice for focus, such as introducing new protocols and focus areas for lessons internalization in the curriculum. Leaders from across the cohort will begin practicing to facilitate that practice, including learning about the curriculum and the content-specific strategies they will support teachers to implement consistently.

Action Plans and Short Cycles of Improvement
Working closely with the school leaders from each school, we will develop a detailed action plan that serves as our implementation guide and includes goals for improvement and progress monitoring across each short cycle of improvement (six to eight weeks.) We will implement three short cycles of improvement for all the schools in the cohort across the year. Organizing into short cycles allows us to target specific goals and measures, monitor progress at the end of each short cycle, and then adapt actions and goals based on lessons learned. This short cycle process allows for greater clarity and commitment from school teams around the focus of the work and their expected actions within the short cycle, and also provides the opportunity to course correct and learn from challenges within the school year. By the second and third short cycle, our goals include a focus on consistent and quality leader practices and whether those leader supports result in improved teacher planning and teacher classroom practice across the content area.

Each short cycle includes the following opportunities for leader learning and practice:

Service Experience	Description and Audience	Aligned Cost Element

Content Team Meetings	Content-specific leaders from across schools (instructional coaches, assistant principals, and/or teacher leaders) engage in virtual professional learning and practice on a specific instructional leadership practice. Examples of content team meeting topics include: ● Internalizing and practicing the facilitation of a new curriculum internalization protocol to use as part of teacher collaboration and planning meetings ● Naming "bite size" and content-specific feedback for teachers based on classroom observations ● Reviewing student work to assess for content mastery and identify instructional improvements	Virtual Professional Development, 1 Day
Onsite Modeling and Practice (for each school in the cohort)	Modeling instructional leader practices and observing/coaching school-level leaders onsite. Onsite practice could include: ● Modeling a lesson internalization protocol with a teacher team, debriefing with a school leader, and then observing a school leader facilitating the same protocol with another team ● Practicing a curriculum-specific lesson internalization protocol with a coach, and then observing the coach facilitate the protocol with a teacher team ● Observing classrooms together and then practicing with a coach to develop targeted teacher feedback ● Observing a coach leading a teacher feedback discussion, then providing feedback to the coach	Onsite Coaching for Small Groups
Virtual Coaching and Practice	Individual coaching video calls with each content-area leader (instructional coach, assistant principal) and with each principal to practice instructional leadership strategies.	Virtual Coaching for Small Groups
Onsite Progress Monitoring and Planning	Meeting with school leaders from across the cohort of schools to review progress to short cycle goals, identify barriers and improvements, and develop a short cycle plan for the next six to eight weeks. During these planning sessions, we also reflect on important change management challenges and plan for change leadership needs around communication, changes in structures or role clarity, or leader modeling	Onsite Coaching for Small Groups

We repeat this set of professional learning experiences for three short cycles of improvement, with each cycle including multiple opportunities for leader learning, coaching, and practice. This short cycle service approach also builds the capacity of school leaders around continuous improvement. Principals and their leadership teams continue to sharpen their lens of monitoring the quality of professional learning for teachers and of content-specific instruction, and they review other student work and student data to identify the successes and challenges from each short cycle. They then set clear goals for a short cycle to focus specific improvements in leader practice and teacher practice.

End of Year Planning
At the end of the year, we hold a final virtual planning meeting with school leaders, focused on actions for the summer and the beginning of the next school year. We identify improved professional learning conditions and leader practices that we want to sustain for the next year, and talk about how to "start strong" with those practices in the fall. We also plan for summer teacher professional development opportunities and important leadership messages and expectations to share with teachers at the start of the new school year. For a cohort of 10 schools, we would conduct this as an onsite professional development day working with leaders.

Summary of Services by Cohort and By School
Across the full year, school leaders from across the cohort and each individual school will receive a range of professional learning and coaching supports, all targeted to building their capacity to support teachers with content-specific planning and feedback. Leaders in the cohort and individual schools will receive the following number of services on average:

- **Services per Cohort (Leaders Working Together Across Schools)**
    - Virtual launch meeting
    - In person Leadership Summit
    - Three progress monitoring and planning for improvement meetings
    - Two onsite action planning and work sessions on professional learning conditions
    - Four content team meetings (per content area)
    - End of Year Virtual Stepback and planning for summer
- **Services per School**
    - Three onsite leader coaching days, including classroom observations, modeling professional learning sessions, and observing leaders in practice
    - 5 hours of individual coaching for the principal
    - 5 hours of individual coaching per content leader (instructional coach, teacher leader)

Additional Services Available - Teacher Professional Development
For many partners, we also provide large group On-Site teacher professional development at targeted moments in the year, in alignment with the instructional improvement priorities that we've identified from our diagnosis. Ahead of school starting, we often provide

curriculum-specific internalization practice for teachers, exploring the first unit of the curriculum and building their proficiency with curriculum-specific planning. During the school year, we may provide professional development on a specific area of instructional improvement, such as scaffolding student learning in math without reducing the focus on a grade-level standard. In other cases, we model specific teacher planning strategies - such as reviewing student work to identify areas for re-teaching or instructional improvement - with teachers as an introduction to work they will continue with their school-level leaders.

Additional Services Available - District Leader Coherence Support

In working with larger school systems across the country, we have seen the importance of aligning district level expectations, protocols, and supports with the professional learning and services offered at the school level. Without that alignment, school leaders and instructional coaches may receive inconsistent demands, tools, or feedback from multiple district leadership offices. These inconsistent expectations either lead to unrealistic workloads or poor quality implementation as leaders try to process the range of demands. To avoid this inconsistency of district expectations and build coherence across district guidance and school-level initiatives, we have developed a range of services focused on district leader alignment. Further, these services, through the coordinated and aligned efforts of district and school leaders can result in richer learning opportunities for students. The following table presents possible district-level services available as add ons to school-level services:

Service	Description	Aligned Cost Element
District Progress Monitoring and Planning	Prepare and review summaries of diagnosis or progress monitoring data across all schools and cohorts. Develop action plans at the district level, in particular setting consistent expectations for instructional leader responsibilities or professional learning structures (schedule, protocols) across schools. Progress monitoring helps to ensure continuous improvement to help identify and overcome challenges.	On-Site Coaching for Small Groups
District Coherence and Alignment Session	Review all relevant district initiatives, district supports (facilitators, professional development) and external partner services for alignment. Confirm the focused list of district priorities, instructional improvement strategies, and required tools that all schools must implement. Identify areas of misalignment or overlapping/conflicting supports and make decisions to address	On-Site Coaching for Small Groups
System Leader	Virtual one-on-one coaching sessions for relevant	Virtual

Coaching	system leaders (Academics, Regional Directors) to plan out change management and communication steps in support of district coherence or managing the implementation of the school-level action plans	Coaching for Small Groups
System Leader Professional Development	Large group professional learning and practice for system-level staff that provide coaching and direction to schools (district level facilitators.) Share updates to district supports and tools/protocols in order to align supports to schools. Practice coaching for school leaders or monitoring the quality of implementation at schools	On-Site Professional Development

Data Gathering and Management Plan

Instruction Partners is a capacity-building organization focused on targeted instructional improvement and leadership development. We support school and district leaders in providing effective feedback to teachers aligned to curriculum, strengthening curriculum-based professional learning systems, and modeling implementation practices that build instructional coherence across roles. Our goals span multiple measures—including participant satisfaction, improved instructional leadership practices, instructional change, and student learning outcomes—and we track progress on these measures throughout the year to inform the focus of our short cycle action plans and professional learning experiences. We work with school leaders to summarize progress against each of these measures at the end of a short cycle, and we also provide overviews of progress and next steps to system leaders to support coherence with other district initiatives and goals.

As part of our service model, we gather and analyze the following data sources throughout the school year.

Outcome 1: Increased Leadership Capacity and Clarity of Action Plan

> **Goal:** Following our support, school and district leaders will report increased confidence and capacity as instructional leaders. After participating in action planning and progress monitoring, leaders will report clarity and confidence in the developed action plans and their role as leaders within the plan. Survey data will reflect an average of 85% Agree and/or Strongly Agree on the following items:
>
> - *"I have a better understanding of the state of instruction than I did before the instructional diagnosis."* (Administered after each onsite day)
> - *"As a result of Instruction Partners' support, I feel more equipped to improve instruction."* (Administered throughout the year)

- *"I am clear about the change we seek to see in teacher practice and student learning."* (Administered after action planning)

- *"I feel clear about my roles and responsibilities in implementing the plan."*

- *"I am confident that if we implement the plan, we will achieve our goals."*

Rationale: These instruments measure high-leverage touchpoints to ensure satisfaction and effectiveness at each phase. We use this data to quickly adjust professional learning design and facilitation as needed. Short-cycle action planning (typically 8–10 weeks) structures incremental, measurable improvement. Our support ensures that leaders are confident, aligned, and committed to implementation.

Outcome 2: Improved Conditions for Professional Learning

Goal: Through our short cycle action plans and school leader change management efforts, we see measurable improvements in conditions for teacher support, including dedicated time, clear vision for teacher planning and coaching, clarity of roles for school leaders and teacher leaders, and defined protocols for planning and feedback. We use our Professional Learning Conditions and Practices rubrics (Included in Appendix to Tab III) to measure beginning of year, middle of year, and end of year status of these conditions.

- *"I am clear about the change we seek to see in teacher practice and student learning."*

- *"I feel clear about my roles and responsibilities in implementing the plan."*

- *"I am confident that if we implement the plan, we will achieve our goals."*

Rationale: Effective teacher professional learning requires these conditions to be in place, so that principals, instructional coaches, and teacher leaders have the time, clarity of expectations, and guidance for teacher support.

Outcome 3: Effective Instructional Leadership Practices

Goal: School leaders demonstrate consistent and quality implementation of instructional leadership practices and teacher professional learning supports.

Rationale: We build the capacity of leaders to provide regular, job-embedded, and content-specific supports to teachers, since school-level leaders (principals, assistant principals, coaches, teacher leaders) are able to provide consistent and ongoing support to teachers that leads to instructional improvement.

Example Instructional Leadership Practice Measures:

- Schedules and trackers of teacher team meetings and/or classroom observations and feedback meetings to track the frequency of teacher supports

- Observation rubrics for curriculum-specific lesson internalization, student work/data analysis sessions, or teacher feedback conversations that measure the quality of facilitation and focus on key content strategies from the curriculum

Outcome 4: Improvement in Instructional Practice

Goal: Over the course of the school year, schools will demonstrate:

- A **12% increase** in positive indicators on the Instructional Practice Guide leveraged by Knox County Schools rubric from fall to spring

Rationale: The IPG (developed by Student Achievement Partners originally and modified by the Tennessee Department of Education) assesses instruction aligned to the standards and the **Instructional Core**. By reviewing multiple classrooms across the year and building the skills of school leaders to also review instruction using the IPG, we gain a clear understanding of the quality of daily instruction in the content area.

Outcome 5: Improvement in Student Learning

Goal: Over the course of the school year, we also track and analyze any available student-level data on learning:

- In early literacy classrooms, we review early literacy universal screener data - such as AimsWeb - at the beginning, middle, and end of the year. We track the percentage of students meeting grade level expectations as well as reductions in the percent of students in the bottom quartile.
- For other content areas and grade spans, we work with school leaders to review interim assessment data along with samples of student work to monitor student learning and inform our short cycle plans.

Rationale: All of our support for leaders - and their direct work with teachers - is in service of improving student learning. By regularly reviewing available student learning data and student work, we can target specific instructional improvement needs with teacher teams while also tracking the impact of our overall improvement plans.

Management Plan

Throughout the year, we use data from the measures outlined above in order to manage the focus and quality of our service delivery. In the beginning of the school year, we conduct baseline assessments of professional learning conditions, instructional leadership practices, and the quality of daily classroom instruction. We also review teacher and student climate surveys and often conduct teacher and student focus groups to understand teacher experience with professional learning and student experience in the classroom. We then use all of that diagnostic data with our partner school leaders to identify the highest priority areas for improvement and develop the specific short cycle improvement plans for each cohort of schools.

During each short cycle, our Directors of Instructional Support review all session designs for alignment to the short cycle action plan. We also ensure that existing district tools and protocols and especially the adopted district curriculum are used in the design of every session we develop for leaders and teachers, to ensure that all professional learning is aligned to the context and the required content for student learning. We then review all participant surveys and comments for any of our professional learning experiences to capture any feedback and identify opportunities for us to improve our practice.

At the end of each short cycle, we measure progress to our goals for improved professional learning conditions and instructional leader practice. We review implementation data and observe leaders as they facilitate teacher team meetings, conduct teacher feedback conversations, and lead teachers in data and student work analysis. We then bring that progress monitoring data to our end of cycle meetings with school leaders to review for challenges and areas for improvement. For large district partners, we can also develop updates and summaries of progress across all schools we support.

We model this attention to short cycles of continuous improvement and continued practice in our own internal management for Instruction Partners staff. Each of our Managing Directors of Instructional Support leads partner-specific reflections around the data sources noted above with our teams, to identify successes and challenges and inform internal professional learning and practice. Our teams regularly review session designs and practice facilitation internally in order to gather feedback and revise ahead of partner delivery. We also use insights from the progress data to inform the content of monthly internal professional learning sessions for our staff.

Instruction Partners is committed to supporting Knox County Schools with a coherent, research-based model that builds enduring instructional leadership capacity and improves instruction systemwide. By aligning our approach with the district's strategic goals and leveraging existing priorities–such as high-quality instructional materials, effective professional learning systems, and rigorous use of student data–we help leaders build conditions for improvement that last beyond our engagement. Our partnership model, described in detail throughout Tab III and operationalized in Tab IV, is grounded in continuous improvement, content specificity, and collaborative change. We look forward to continuing to partner with Knox County Schools to help realize the district's vision of success for every student.

Tab V: Experience & References

Knox County RFP #3667 - Evidence-Based Instruction Strategies Consulting

About Instruction Partners

Instruction Partners is a nonprofit organization focused on improving instructional leadership and ensuring that all students receive high-quality, standards-aligned instruction. Since 2015, we have partnered with over 250 school districts, charter networks, and state education agencies across more than 20 states.

Our services include:

- Instructional leadership development
- Curriculum-based professional learning
- Comprehensive needs assessments and instructional diagnostics
- Capacity-building for school improvement systems
- High-quality instructional materials (HQIM) implementation support
- System-level planning and leadership coaching

We use a consistent service framework—**Diagnose** → **Action Plan** → **Capacity Build**—to anchor improvement efforts in evidence, connect them to actionable next steps, and sustain them through leadership development.

Headquartered in Nashville, Tennessee, Instruction Partners operates a fully remote service model with staff located across the country to support our partners effectively.

Instruction Partners brings a highly qualified, mission-driven team with deep expertise in instructional leadership and improving student outcomes. Our team includes former educators, instructional coaches, and system leaders with experience spanning classroom instruction, school leadership, and district-wide implementation. Team members bring:

- A master's degree or higher in Educational Leadership or a related field
- Extensive experience designing and delivering professional learning for teachers, coaches, and leaders

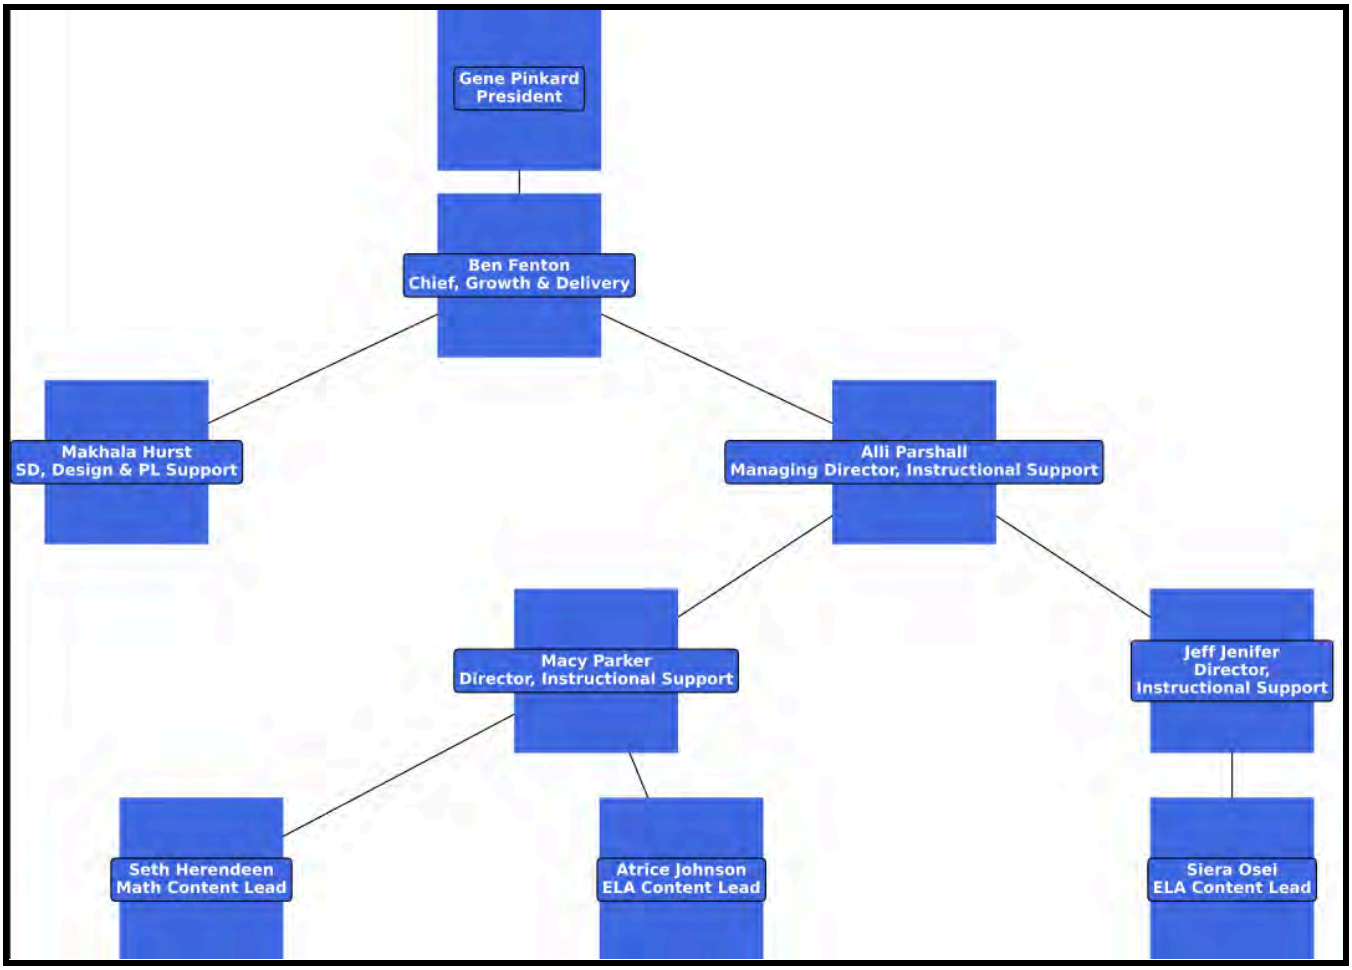
- Deep content knowledge in college- and career-ready standards and high-quality instructional materials (HQIM)
- Proven success in coaching leaders to improve instruction and student achievement
- Strong understanding of adult learning theory and facilitation practices
- The ability to manage complex implementation efforts across diverse educational contexts

We staff each engagement with a cross-functional team tailored to the local context and scope of services. Every team member assigned to this project has a strong record of supporting standards-aligned instruction, building professional learning systems, and implementing strategies aligned with the Multi-Tiered System of Supports (MTSS).

Our team brings valuable regional experience within Tennessee. Several team members have supported school systems throughout the state and are familiar with Tennessee's academic priorities and policy landscape.

All Instruction Partners staff receive ongoing training and coaching to remain current with research-based practices and the evolving needs of our partners.

For Knox County Schools, our proposed team includes content specialists, professional learning designers, and instructional leadership coaches prepared to support improvement efforts at scale. This includes:



- Leading curriculum-aligned professional learning for ELA and math educators
- Conducting instructional diagnostics and classroom walk-throughs with aligned follow-up support
- Partnering with school and district leaders to strengthen instructional systems and student outcomes

Key Personnel

Team Structure and Content Expertise

At Instruction Partners, we structure our team to ensure deep content-specific expertise aligned to partner needs. Our core academic team includes specialists in ELA and math who provide system-level and school-based support. In addition, we have a dedicated Early Literacy team with expertise in foundational skills and the Science of Reading. The following organizational charts and bios highlight the individuals supporting this work, organized first by ELA and math support and then by our Early Literacy team.

Senior Leaders & ELA and Math Team

Gene Pinkard, President
Years with Instruction Partners: Less than 1 year (since March 2025)
Advanced Degree: M.Ed. in School Administration, Trinity University, Washington, D.C.
Role on Project: Executive sponsor responsible for ensuring strategic alignment, quality assurance, and overall impact across all project components

Gene Pinkard is a nationally recognized leader in instructional systems, principal supervision, and education policy. As President of Instruction Partners, he oversees all programmatic and operational functions to ensure high-impact instructional support for schools and systems nationwide. Prior to joining Instruction Partners, Gene served as Director of K–12 Leadership at the Aspen Institute Education & Society Program, where he shaped national dialogue on school leadership and led influential work on the conditions for effective instructional

leadership. He also held multiple senior leadership roles in DC Public Schools, including Chief of School Design and Continuous Improvement and Instructional Superintendent.

Gene has authored and co-authored several publications that continue to inform leadership development, system strategy, and instructional coherence across the country, including:

- *Building Conditions for Instructional Leadership in Urban School Systems* (Aspen Institute)
- *Six Conditions for Effective Principal Supervision* (Aspen Institute)
- *The Role of Principal Supervisors in Leading Equity* (Aspen Institute)

He also served as a contributing editor and featured speaker for Aspen's *Leading for Equity* webinar and podcast series. Gene brings national expertise in aligning leadership systems to instructional priorities and will serve as the executive sponsor for this partnership, ensuring strategic coherence and a focus on sustainable impact.

Ben Fenton, Chief, Growth & Delivery
Years with Instruction Partners: 7
Advanced Degree: M.Ed., Harvard Graduate School of Business Administration
Role on Project: Senior advisor responsible for system-level strategy, alignment, and quality assurance

Ben Fenton is a nationally recognized expert in school leadership, instructional systems design, and education policy. He brings more than 25 years of experience supporting states, districts, and school systems in building instructional leadership capacity and improving student outcomes. At Instruction Partners, Ben leads service delivery and partnership strategy, ensuring effective implementation and impact at scale across diverse educational contexts.

Prior to joining Instruction Partners, Ben co-founded New Leaders, where he led the development of nationally adopted frameworks for principal effectiveness, district conditions for school improvement, and instructional leadership development. He is the author or co-author of several influential publications, including:

- *Breakthrough Principals: A Step-by-Step Guide to Building Stronger Schools* (Jossey-Bass, 2016)
- *The School Leadership Playbook: A Field Guide for Dramatic Improvement* (Jossey-Bass, 2015)
- *Great Principals at Scale: Creating District Conditions that Enable All Principals to Be Effective* (New Leaders, 2013)
- *Principal Evaluation Handbook* (New Leaders, 2012)

- *Taking Up the Challenge of Urban Schools* (ASCD Express, 2009), a 10-part series on turnaround leadership

Ben's work has informed leadership development programs, state policy guidance, and district improvement strategies across the country. For the Knox County partnership, he will provide senior-level strategic oversight and ensure that project implementation aligns with system-level instructional priorities.

Makhala Hurst, Senior Director, Design, Professional Learning & Support
Years with Instruction Partners: 6
Advanced Degree: M.Ed., University of Houston
Role on Project: Lead designer of professional learning structures and school conditions for instructional improvement

Makhala Hurst is a seasoned service designer and strategic leader in adult learning, instructional coaching, and systems-level instructional design. At Instruction Partners, she leads the creation of professional learning experiences that support instructional practice change and long-term system improvement.

Makhala is the architect of the **Professional Learning Conditions and Practices (PLCP)** framework, a nationally used toolset that defines the school-level conditions essential for implementing high-quality instruction and curriculum with fidelity. Grounded in research-based principles, the PLCP emphasizes classroom-level application, alignment to instructional priorities, and accountability for sustained improvement. The framework and accompanying implementation tools are included in the **Appendix** of this proposal.

Her expertise is grounded in prior roles as a resident principal, instructional coach, and professional learning manager. Before joining Instruction Partners, Makhala led professional learning and coaching systems at YES Prep, where she designed supports for novice teachers and facilitated leadership learning across schools.

For Knox County Schools, Makhala will lead the design and implementation of cohort-based learning structures, aligned professional learning systems, and tools that support strong instructional conditions across schools.

Allison Parshall, Managing Director, Instructional Support
Years with Instruction Partners: 5
Advanced Degree: M.Ed., Vanderbilt University
Role on Project: Project lead and point of contact for day-to-day partnership management

Allison Parshall brings more than a decade of experience in school leadership, instructional coaching, and systems-level support. As Managing Director of Instructional Support at Instruction Partners, she leads multi-state teams in delivering curriculum-based professional learning, instructional diagnostics, and leadership capacity-building aligned to high-quality instructional materials (HQIM) and Multi-Tiered Systems of Support (MTSS).

Before joining Instruction Partners, Alli served as an Assistant Principal and instructional coach, where she led teacher development, data-driven instruction, and schoolwide professional learning systems. Her current work focuses on strengthening district-wide instructional practices through strategic implementation support and job-embedded leadership coaching.

For the Knox County engagement, Alli will serve as the project lead and primary point of contact, managing all aspects of implementation and coordination. She will ensure that professional learning experiences and support structures are aligned to the district's goals and result in measurable improvements in instructional practice and student outcomes.

Macy Parker, Director, Instructional Support
Years with Instruction Partners: 4
Advanced Degree: M.Ed., Lipscomb University
Role on Project: Lead for collaborative planning and school-based coaching systems

Macy Parker is an instructional systems expert with deep experience supporting school and system leaders in implementing high-impact, evidence-based instructional practices. As a Director of Instructional Support at Instruction Partners, Macy specializes in designing and implementing observation and feedback structures, collaborative planning routines, and school-based professional learning systems.

Her background includes roles as an instructional coach and systems leader, where she developed coaching models, facilitated instructional walkthroughs, and led data-driven improvement cycles in support of stronger teaching and learning. Macy brings a practical lens to supporting leaders in translating strategy into day-to-day practice.

For Knox County Schools, Macy will lead efforts related to collaborative planning, instructional walkthroughs, and implementation support. She will coach school leaders in building and sustaining school-based professional learning systems that improve instructional practice and drive student achievement.

Seth Herendeen, Math Content Lead
Years with Instruction Partners: 3

Advanced Degree: M.Ed., Relay Graduate School of Education
Role on Project: Lead for math content support and data-informed instructional planning

Seth Herendeen is an experienced math educator and instructional coach who partners with school systems to strengthen math instruction, teacher capacity, and student outcomes. With certifications in both mathematics and social studies, Seth brings a versatile background as a teacher, coach, and curriculum designer, with particular expertise in assessment design and intervention strategies.

At Instruction Partners, Seth leads curriculum-aligned professional learning and supports school and district leaders in using instructional data to drive improvement. His work focuses on building coherence between standards, instructional materials, assessments, and day-to-day instruction.

For Knox County Schools, Seth will lead professional learning and coaching related to math content. He will facilitate sessions aligned to high-quality instructional materials and support school teams in using data to make informed instructional decisions that improve student learning.

Dr. Artrice Johnson, ELA Content Lead
Years with Instruction Partners: 3
Advanced Degree: Ed.D., University of Memphis
Role on Project: Lead for ELA content support and curriculum-aligned professional learning

Dr. Artrice Johnson is a nationally respected literacy leader with over a decade of experience in English Language Arts (ELA) instruction, coaching, and curriculum development. At Instruction Partners, she leads ELA-focused professional learning and supports school and system leaders with the implementation of high-quality instructional materials (HQIM).

Her prior work includes leading curriculum strategy, teacher development, and ELA coaching at KIPP, where she supported educators across multiple grade levels. Dr. Johnson is known for her expertise in aligning instructional practices to rigorous standards and advancing effective literacy leadership practices across schools and systems.

For Knox County Schools, Dr. Johnson will lead ELA content support, including facilitation of curriculum-aligned professional learning, coaching on instructional planning, and guidance on improving literacy instruction systemwide.

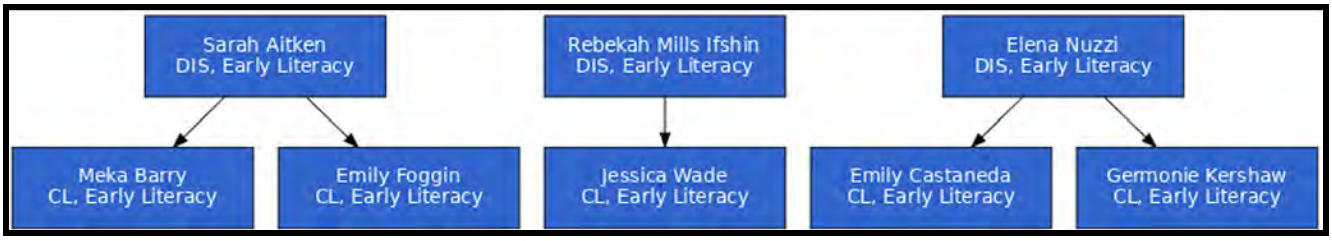
Jeff Jenifer, Director, Instructional Support
Years with Instruction Partners: 2

Advanced Degree: M.A.T., Johns Hopkins University
Role on Project: School-level leadership coach and support lead for instructional diagnostics

Jeff Jenifer is an accomplished instructional leader with a strong record of driving school improvement through leadership coaching, data-informed planning, and instructional systems development. Prior to joining Instruction Partners, Jeff served as Principal at KIPP Memphis, where he led significant gains in student achievement and school culture. He also served as a faculty member for the KIPP Foundation, where he specialized in leadership development, team performance, and instructional equity.

At Instruction Partners, Jeff partners with school and district leaders to design and implement strategies that strengthen instructional leadership and improve classroom practice. His coaching is grounded in real-time data use, collaborative planning, and high-impact instructional walk-throughs.

For Knox County Schools, Jeff will serve as a leadership coach focused on school-level instructional improvement. He will facilitate instructional diagnostics, support data reviews, and provide targeted follow-up coaching aligned to Knox's instructional priorities.



Siera Osei, ELA Content Lead
Years with Instruction Partners: 2
Advanced Degree: M.Ed., George Mason University
Role on Project: ELA content support and leadership coaching

Siera Osei is an experienced instructional coach and ELA specialist who partners with school and district leaders to strengthen instruction and drive student achievement. With a background spanning classroom teaching, district-level leadership, and systems coaching, Siera brings deep expertise in supporting evidence-based instructional improvement and curriculum-aligned professional learning.

Her work focuses on building educator capacity through the facilitation of high-impact professional learning and leadership coaching. She brings a particular strength in guiding teams through instructional shifts, supporting the adoption of high-quality instructional materials, and fostering effective change management strategies.

For Knox County Schools, Siera will lead ELA-focused professional learning and coach leaders on implementing curriculum-aligned instructional practices that support improved outcomes for all students.

Early LIteracy Team

Sarah Aitken, Director, Instructional Support, Early Literacy
Years with Instruction Partners: 2
Advanced Degree: M.S., School Administration and Supervision, University of Memphis
Role on Project: Early literacy systems design and leadership coaching

Sarah Aitken is a seasoned instructional leader with deep expertise in early literacy, foundational skills, and systems-level instructional improvement. Before joining Instruction Partners, Sarah served as Director of Elementary Education in Haywood County Schools, where she led the district's implementation of ELA, foundational skills, math, and science curricula. Her leadership transformed early reading instruction through strategic use of the Science of Reading, targeted professional learning, and the development of instructional leadership teams.

At Instruction Partners, Sarah leads a cross-functional team supporting foundational skills implementation across 30 schools. She partners with district and school leaders to strengthen early literacy practices using a research-based framework and data-driven continuous improvement. Her work emphasizes coherence between curriculum, instruction, and leadership practices that drive meaningful change for early readers.

For Knox County Schools, Sarah will provide strategic guidance on foundational literacy systems and coach leaders on implementing practices that improve early reading outcomes at scale.

Rebekah Mills Ifshin, Director, Instructional Support, Early Literacy
Years with Instruction Partners: 2
Advanced Degree: M.A.T., Elementary Education, Relay Graduate School of Education
Role on Project: Early literacy professional learning and school-based coaching

Rebekah Mills Ifshin is an accomplished instructional leader with extensive experience improving early literacy outcomes through high-impact coaching, data-driven decision-making, and Science of Reading-aligned instruction. Her leadership spans school- and system-level roles, including serving as a literacy director, assistant principal, and instructional coach across several high-needs contexts.

At Instruction Partners, Rebekah supports schools in implementing foundational literacy practices, offering job-embedded coaching and facilitating professional learning tailored to the needs of early grades educators. Her expertise includes curriculum implementation,

progress monitoring using tools like DIBELS and Acadience, and the development of literacy leadership capacity among teachers and school leaders.

For Knox County Schools, Rebekah will design and deliver professional learning and coaching that equips educators to implement evidence-based early literacy practices, with an emphasis on sustainability and student-centered growth.

Elena Nuzzi, Director, Instructional Support, Early Literacy
Years with Instruction Partners: 3
Advanced Degree: M.S., Childhood and Special Education, Long Island University
Role on Project: Foundational skills instruction, professional learning, and instructional coaching

Elena Nuzzi is an experienced early literacy specialist and instructional coach with deep expertise in foundational reading skills, content-aligned professional learning, and equity-centered coaching. With a background spanning classroom teaching, school leadership, and state-level curriculum review, Elena brings a systems-level lens to strengthening instruction in early grades.

At Instruction Partners, Elena designs and facilitates professional development, leads instructional walkthroughs, and supports leaders and teachers with data-informed coaching aligned to the Science of Reading. Her previous work includes leading dramatic literacy growth in K–2 classrooms, with over half of students moving from below grade level to proficiency in a single year. She has also served as a curriculum reviewer for the Louisiana Department of Education and has held instructional leadership roles across New Orleans schools.

For Knox County Schools, Elena will lead early literacy coaching and professional learning, supporting educators in implementing high-quality instructional materials and research-based foundational skills practices to ensure all students are reading on grade level.

Meka Barry, Content Lead, Early Literacy
Years with Instruction Partners: 3 (plus prior consulting experience)
Advanced Degree: Ed.S., Education Administration & Supervision, Lincoln Memorial University
Role on Project: Early literacy instructional coaching and professional development facilitation

Meka Barry is a veteran educator and early literacy expert with over 15 years of experience supporting instructional improvement across classrooms, districts, and state agencies. Her background spans classroom teaching, curriculum design, intervention, and systems-level coaching. She has served in key roles for the Tennessee and Kentucky Departments of Education, as well as with national education organizations such as SCORE and Teach Plus.

At Instruction Partners, Meka serves as a Content Lead, supporting foundational literacy implementation through job-embedded coaching, model lessons, and professional learning design. She brings deep expertise in early childhood education, reading intervention, and curriculum-aligned instruction. Meka's strengths lie in her ability to translate complex literacy research into practical strategies for teachers and leaders, driving measurable improvements in student outcomes.

For Knox County Schools, Meka will provide coaching and professional development focused on early literacy instruction, supporting educators to build strong foundations in reading for all students.

Emily Foggin, Content Lead, Early Literacy
Years with Instruction Partners: 1
Advanced Degree: M.A.T., Lee University
Role on Project: Early literacy instructional coaching and professional development

Emily Foggin is a dedicated instructional facilitator and early literacy coach with over 15 years of experience in primary education. Based in Tennessee, she has served as a classroom teacher, RTI facilitator, and district-level ELA content lead. Emily is known for her deep knowledge of foundational skills, the Science of Reading, and her skillful use of the Instructional Practice Guide (IPG) to improve classroom instruction.

In her work with Cleveland City Schools, Emily supports educators in strengthening Tier 1 and Tier 2 instruction through coaching, data analysis, and collaborative planning. She also leads professional development at the district and state level, designing content that aligns with instructional goals and pacing guidance.

For Knox County Schools, Emily will support teachers and leaders through coaching and professional learning, helping them implement strong early literacy practices grounded in research and tailored to student needs.

Jessica Wade, Content Lead, Early Literacy
Years with Instruction Partners: 1
Advanced Degree: M.S., Educational Leadership, Western Governors University
Role on Project: Early literacy implementation support, foundational skills coaching, and professional learning

Jessica Wade is a skilled early literacy coach and instructional content expert with a strong track record in supporting foundational literacy practices across schools and systems. With over a decade of experience in classroom teaching, RTI coordination, and state-level program design, she brings a deep understanding of high-quality instructional materials and learning acceleration strategies.

Prior to joining Instruction Partners, Jessica led the statewide ELA content development and tutoring strategy for the Tennessee Department of Education through TN ALL Corps, designing professional learning and targeted supports grounded in the Science of Reading.

Her work has focused on integrating phonics, fluency, and comprehension instruction with strong progress monitoring systems and data-driven decision making.

At Instruction Partners, Jessica supports partners through classroom observations, coaching, and the development of professional learning experiences tailored to foundational skills. She brings particular expertise in supporting districts to implement curriculum with fidelity and build sustainable systems for early literacy growth.

For Knox County Schools, Jessica will provide direct coaching and foundational literacy support to teachers and leaders, ensuring early readers receive high-impact instruction grounded in research and aligned with district priorities.

Emily Castaneda, Content Lead, Early Literacy
Years with Instruction Partners: 1
Advanced Degree: M.Ed., Educational Leadership, University of North Texas
Role on Project: Early literacy coaching, professional development, and curriculum implementation support

Emily Castaneda is an experienced early literacy leader and instructional coach with a strong background in school improvement, curriculum implementation, and professional learning design. Her leadership experience includes serving as an assistant principal and instructional coach in Tennessee and Texas, where she led campus-wide strategies aligned to the Science of Teaching Reading and Multi-Tiered Systems of Support (MTSS).

At Instruction Partners, Emily supports school and district teams through targeted walkthroughs, job-embedded coaching, and the design of professional development focused on early literacy. She partners shoulder-to-shoulder with leaders and instructional coaches to strengthen PLCs, feedback cycles, and content-aligned instructional practice.

For Knox County Schools, Emily will provide coaching and professional learning aligned to foundational skills and early reading instruction, supporting strong implementation of high-quality instructional materials and systems for continuous improvement.

Germonie Kershaw, Content Lead, Early Literacy
Years with Instruction Partners: 1
Advanced Degree: M.A., Educational Leadership, Queens University of Charlotte
Role on Project: Instructional coaching, early literacy professional learning, and curriculum implementation

Germonie Kershaw is a results-driven early literacy expert and instructional coach with a proven record of accelerating student achievement through strategic, data-driven instructional leadership. She brings deep experience as an elementary educator, assistant principal, and systems-level leader supporting foundational reading practices across schools.

Prior to joining Instruction Partners, Germonie led K–2 ELA initiatives as an assistant principal, supporting over 25 staff members in improving early literacy outcomes. Her

leadership contributed to record-setting student gains—including raising kindergarten proficiency to 95% on state assessments in just one year. She has successfully launched high-impact tutoring programs, implemented new early literacy curricula, and built leadership capacity through personalized coaching and PLC facilitation.

At Instruction Partners, Germonie supports districts with walkthroughs, coaching cycles, and professional learning rooted in the Science of Reading. For Knox County Schools, she will partner with leaders and educators to implement high-quality instructional materials and foundational skills instruction that drives sustainable improvement in early reading outcomes.

Relevant Project Experience

Instruction Partners has extensive experience leading school improvement work with districts and state agencies of varying size and scale that is directly aligned to the goals of Knox County. Recent examples include:

Jackson Public Schools (Mississippi)

Instruction Partners has supported Jackson Public Schools in Mississippi with district-wide curriculum implementation, leadership team capacity-building, and instructional improvement coaching. This work has included system-wide planning, leadership coaching, and job-embedded support for content-specific professional learning and instructional leadership teams across schools.

Bessemer City Schools (Alabama)

Instruction Partners has partnered with Bessemer City Schools to implement cohort-based leadership development, instructional walkthroughs, and student work analysis protocols aligned to high-quality instructional materials. The service design for Bessemer is highly aligned to the cohort model being proposed for Knox County.

West Contra Costa Unified School District (California)

Instruction Partners has supported West Contra Costa USD in implementing system-wide HQIM adoption and leadership coaching to strengthen instructional coherence. This work has included district-level planning, leadership coaching, and school-level instructional improvement strategies aligned to district instructional priorities.

Tennessee Statewide Partnerships

Instruction Partners has worked extensively across Tennessee, partnering with multiple districts and regional agencies to implement comprehensive needs assessments, HQIM implementation, and leadership team coaching aligned to the Tennessee IPG and statewide

school improvement priorities. Our experience in Tennessee provides strong alignment to the Knox County context.

EUGENE PINKARD, JR.

8214 Garland Avenue ▪ Takoma Park MD 20912
eugenepinkard@gmail.com ▪ 202 270 9598

Executive Summary

I am here because I believe education is an engine for justice, and every student has the capacity and right to shape their world. I consider leadership to be stewardship; an honor every day to be entrusted with important work. And frankly, I enjoy the complexity and variability of tackling all of this for students and adults alike.

Impact and Experience

President, *Instruction Partners* *March 2025-Present*

- Directs all operational and programmatic functions for a $25M national nonprofit, spearheading instructional support initiatives for school leaders and ensuring alignment with strategic goals.
- Manages and mentors a leadership team of Chiefs, overseeing all internal departments including programs, finance, development, and communications.
- Drives significant growth in organizational impact and reach, expanding instructional support services to new districts/regions and impacting thousands of school leaders.
- Collaborates directly with the CEO to develop and execute strategic plans, enhancing program effectiveness and stakeholder satisfaction.
- Oversees financial stewardship, managing a $25M annual budget and ensuring fiscal health and sustainability.
- Cultivates key partnerships with national educational organizations, funders, and policymakers to advance the nonprofit's mission and secure critical resources.
- Leads organizational change initiatives to optimize operational efficiency and enhance service delivery, strengthening the nonprofit's position as a national leader in instructional support.

Director, K-12 Leadership, Aspen Education & Society Program 2019-2025

- Key partner in overall strategy, delivery, and management for national nonprofit committed to shaping equitable, research-based educational leadership on a national scale
- Primary responsibility for strategy and programming for practitioner experiences and resources, including roughly $2m in budget and funding
- Framer of national dialogue and advisor for senior district leaders and national education non-profit leaders on strategy and systems
- Author, speaker, and editor for public content on emergent and priority issues in public education through white papers, webinars, national presentations, and podcast series
- Liaise with philanthropic partners to the Education & Society program and overall Institute; responsible for over $2m in philanthropic funding
- Lead teams of staff and consultants running multiple networks and learning communities for senior leaders from prominent districts and national education orgs, serving over two million students

Chief, School Design and Continuous Improvement, District of Columbia Public Schools 2017-2019

- Office comprised turnaround, portfolio growth, enrollment, innovation, partnerships, data systems
- Strategic lead and manager for district's $15m school transformation and innovation efforts
- Member of the DCPS cabinet and management team, and representative to local and national networks
- Launched school-based innovation and design-thinking initiatives to introduce dynamic learning models
- Advanced proactive strategy reversing enrollment downturn and reaching highest level in a decade
- Managed budgets of $10m+ including School Improvement Grants, central office support and databases

Deputy Chief, School Turnaround and Performance, District of Columbia Public Schools 2015-2017

- Strategic lead and manager for turnaround, intervention, equity and data workstreams
- Member of the DCPS management team and representative to local and national networks
- Developed intervention cluster for eleven high-need schools:

EUGENE PINKARD, JR.

8214 Garland Avenue ▪ Takoma Park MD 20912
eugenepinkard@gmail.com ▪ 202 270 9598

- School leaders increased their annual goal attainment from 56% to 70% in year one
- Accelerated schools to 2x district in PARCC decreasing students in lowest tier of PARCC

- Revived $6m boys of color programming and launched girls of color initiative
- Served on teams for union contract negotiations and state accountability framework building

Instructional Superintendent – Middle Schools, District of Columbia Public Schools 2014-2016

- Reversed prior years' decline and outpaced district with previously underperforming middle grades cluster in key indicators for two consecutive years:
  - Growth rate and proficiency in district reading assessment, and proficiency in Math
  - Reduction in suspensions in consecutive years, and increase in daily attendance
  - Increase in student satisfaction, assessment completion, teacher engagement in district PD
- Integrated social-emotional research and equity initiatives into principal development

Principal, Marie Reed Elementary School, Washington, DC 2010-2014

- School attained 95th percentile city-wide in state assessments in second year
- Introduced pilot teacher leadership and administrative support models later adopted at district scale
- Promoted teacher-developed lessons and assessments on critical discourse and community engagement
- Initiated Parent-Teacher Associations, administrator learning communities, student engagement groups

Director of Curriculum and Instruction, District of Columbia Public Schools 2009-2010

- Increased district-wide elementary literacy skills monitoring from 56% to 90% on assessment and recovery programs serving nearly 19,000 students
- Represented DCPS in local and national forums on middle grades, school reform, assessment data, and common core instruction

Principal, Maya Angelou Public Charter High School, Washington, DC 2004-2009

- National NWEA MAP R (99th) and M (95th) percentile in assessments by year four
- Earned Middle States Accreditation named and College Board AP Equity and Access model site by adding a grade level, a school climate framework, and establishing a core instruction, including advanced courses
- Developed faculty routines for collaboration, professional development, and teacher leadership
- Managed staffing, professional development, staffing, intervention partnerships, extended-day programming, and boarding programs
- Introduced integrated mental health and content instruction classes for therapeutic support

BENJAMIN G. FENTON

bgfenton@gmail.com / 917-750-7059

EXPERIENCE

INSTRUCTION PARTNERS, Nashville, TN **2018-present**

Chief Officer, Partnerships

- Improve instructional quality and student outcomes in small, rural districts and charter management organizations by managing all program delivery with school system partners
- Developed and launched a new service line focused on supporting State Education Agencies, with a specific focus on building SEA and regional center capacity to support high-quality curriculum implementation at the district level
- Develop systems and structures to drive organizational learning and improvement through data and technology systems

TURNAROUND FOR CHILDREN, New York, NY **2016-2018**

Senior Advisor, Systemic Impact

- Led the revision of the organization's strategic plan and service model, including updating the organization's theory of action, growth plans, and impact goals
- Developed and launched a new service line that expanded the DC program reach from four schools to more than 20 schools and 40 school leaders across DC Public Schools and KIPP DC

NEW LEADERS, New York, NY **2000 – 2016**

Co-Founder. Co-founder of an innovative non-profit organization that develops transformational leaders for high-poverty schools across the United States. Built and led all operational and site management functions from startup to a $20 million organization over five years. Served as key leader for research, new business lines, and thought leadership.

Chief Strategy Officer (2007 – 2016); Chief Program Officer (2014)

- Founded a consulting unit that helps districts and states design leadership effectiveness systems and policies and builds their capacity to implement these new systems.
    - Sold and delivered more than $4.5 million of consulting engagements since 2010.
    - Led the design and implementation of new principal evaluation systems for the states of Illinois, Connecticut, Minnesota, and Delaware, as well as for the Los Angeles Unified School District.
    - Created a new service line to help major universities implement the principal training approaches developed by New Leaders. To date, redesigned programs are training more than 50 school leaders per year.
- Led an 8-person research and evaluation team to inform program improvement and generate insights and recommendations for the wider education reform community. Developed thought leadership publications for policymakers and school system leaders based on insights from New Leaders' program evaluation and consulting services, including two books published by Jossey-Bass on leadership practices. (See below for brief list of publications.)
- Represented the organization as a national expert on principal evaluation, principal preparation, and principal effectiveness policy and practice. (See below for a representative list of presentations and advisory roles.)

Chief Cities Officer (2003-2006)

- Directed all program delivery and operations across New Leaders principal training sites nationwide, covering six teams, over 30 staff members, and $2-3 million in annual revenue.
- Selected and supported 350+ school leaders across sites. Once placed as principals, their students outperformed similar students in their districts by statistically significant margins, as measured by the RAND Corporation.
- Negotiated and managed formal partnerships with six local school districts, including recommending improvements to their principal development, hiring, and management practices.

Chief Operating Officer (2000-2003)

- Managed all operational functions (finance, HR, IT) while growing the organization from startup to a $20 million organization and from a staff of 5 to more than 100.
- Designed and implemented all financial and human resources systems for a rapidly growing non-profit
- Hired and managed first three local site Executive Directors, responsible for program delivery and local revenue.

MCKINSEY & COMPANY, INC., Pittsburgh, PA **1996 – 1998**

Business Analyst. Built strong foundation of skills in management consulting, strategy formulation, quantitative analysis, and client engagement within a strong team-oriented environment.

- **Marketing Engagements**
  - Evaluated market potential of launching non-branch-based products for regional bank. Modeled net income impact of various sales channels, including adoption rates and profit sharing arrangements.
  - Analyzed new product and market options for diversified chemical company. Valued potential of various markets, performed customer interviews, and developed criteria for final market selection.
- **Operations Engagements**
  - Led 5-person client team focused on reducing maintenance material costs. Modeled ongoing cost impact of supplier bids. Coached client team manager on negotiations with top supplier candidates. Initiated contract that reduced costs by 12% from $35 million base.
  - Identified and modeled bottlenecks in check processing center of regional bank. Implemented new procedures and incentive systems resulting in 28% increase in effective capacity.

THOUGHT LEADERSHIP (Lead Author or Co-Author)

- *The School Leadership Playbook: A Field Guide for Dramatic Improvement*. Jossey-Bass, San Francisco, 2015.
- *Breakthrough Principals: A Step-by-Step Guide to School Improvement*. Jossey-Bass, San Francisco, 2016.

HIGHLIGHTS

- Leadership Coaching and Management
- Instructional Leadership
- Equity-driven Coaching
- Adult Education & Professional Development
- Teacher Development Program Design
- Vision-driven & Strategic Planning

PROFESSIONAL EXPERIENCE

Instruction Partners *July 2022 - Present*

Director of Professional Learning & Support

- Design impactful professional learning opportunities to support goal achievement at partnership campuses.
- Facilitate engaging adult learning opportunities that lead to change of practice for leaders.
- Create aligned coaching resources to support multiple stakeholders with partnership work.
- Identify the root cause of inequities experienced on campuses, create tangible solutions, and provide coaching and development to campus leaders.

YES Prep Public Schools, Houston, Texas

Resident Principal *July 2021- Present*

- Set, progress monitored, and achieved rigorous student achievement goals to maximize student learning and address immediate learning needs.
- Attracted, hired, and retained top tier talent to ensure a fully staffed campus.
- Developed and managed campus leadership team, teachers, and support staff.
- Formed partnerships with families and the surrounding community to best support the needs of students.
- Planned and executed professional development opportunities for leaders and staff to support campus goals.

Manager of Coaching & Learning *October 2017– July 2021*

- Designed and executed professional development around excellent instructional coaching with a focus on coaching for equity and coaching across lines of difference to best support instructional coaches.
- Developed engaging, relevant, and rigorous coaching and programming structures to support novice teachers at five school districts.
- Managed, developed, and evaluated five instructional coaches in the areas of instructional coaching, leadership development, and facilitation to boost student achievement and teacher effectiveness.
- Coached and managed seven content leads to provide content specific supports and development to accelerate student learning.
- Analyzed instructional coach performance, teacher performance, and student achievement data to plan targeted supports and adjust long-term plans.
- Lead scholarship program and oversaw the budgeting, logistical, and reimbursement systems to award over seventy scholarships to novice teachers.

Diversity Ambassador *August 2017 – Present*

- Executed professional development sessions on the topics of diversity, equity, and inclusion at the system office and various campuses.
- Created targeted professional development and learning experiences aligned to district DEI goals.
  Set goals and monitored progress around district-wide equity initiatives

Instructional Coach *June 2016 - October 2017*

- Reviewed curriculum, observed teachers, analyzed student data, and provided teachers with actionable feedback and instructional coaching.
- Modeled, demonstrated, and co-taught lessons using various instructional and classroom culture best practices.
- Facilitated professional learning opportunities to develop new teachers and improve teaching strategies.

KIPP 3D Academy, Houston, Texas

5th Grade ELA Teacher *August 2013- June 2016*

- Designed weekly, rigorous lesson plans to provide aligned, purposeful, and engaging lessons.
- Implemented a blended-learning classroom using an iPad-based reading program.
- Achieved state assessment goals by analyzing and responding to class data to monitor student progress and provide small group intervention.

EDUCATION & CERTIFICATIONS

University of Houston - Master of Education in Administration and Supervision
University of Southern California - Bachelor of Arts in Political Science
Certifications - Classroom Teacher (Generalist 4-8), Principal Grades K-12

Allison Parshall

916 Maplewood Dr. Columbia MO 65203 (214) 725 - 8227 alli.parshall@gmail.com

EXPERIENCE

Instruction Partners **June 2021 - Present**

Managing Director of Instructional Support *June 2025 - Present*

- Lead a team of 10-12 team members to provide high-quality instructional and leadership support to a portfolio of partners
- Provide feedback and coaching on all aspects of partner service-delivery

Director of Instructional Support

- Lead school and district partners through instructional improvement cycles, including diagnosing strengths and opportunities for growth in current state of instruction, designing short cycle action plans to leverage strengths and address opportunities for growth, and reflecting on outcomes to drive continuous improvement.
- Coach school and district leaders around leading professional learning systems, curriculum implementation, and building level and district level coherence.
- Manage content area experts in design of professional learning experiences for school leaders and teachers to support their growth in content knowledge and executing strong professional learning.

Smilow Prep Charter School - Jackson, MS **June 2017 - May 2021**

Assistant Principal *June 2018 - May 2021*

- Managed and coached 14 literacy and science teachers in the internalization and implementation of rigorous curriculum through coaching meetings, live coaching, and data analysis meetings.
- Developed and led content-based professional development for school, regional, and network teams.
- Led the rollout and implementation of new ELA, science, and reading intervention curricula for the school meeting implementation goals around investment and student achievement.
- Taught seventh grade literacy and saw an increase of 12% proficiency from the previous year.
- Led the literacy team towards annual growth in ELA on the MAP assessments, including a 17.9% gain in 2018.

Science Teacher, Reading Intervention, and Grade-Level Team Leader *June 2017 - May 2018*

- Designed curriculum and assessments aligned to the 5th grade Science MAAP Assessment.
- Increased the pass rate on the test from the year before by 20% and had the highest MAAP data in the school.
- Coached team of teachers around shared instructional and culture systems.

Maureen Joy Charter School - Durham, NC **June 2013 - May 2017**

4th Grade Instructional Coach and Writing Teacher *July 2016 - May 2017*

- Developed 4th grade literacy and writing curriculum and taught writing workshop in each classroom.
- Coached 4th grade teachers through regular observations, executed weekly coaching and data analysis conversations, developed cultural and content-specific PD, and provided unit and lesson plan feedback.
- Led daily, intensive phonics intervention using HillRap Reading Intervention.
- Collaborated with the elementary instructional leadership team around school level instructional and cultural trends and proposed actions.

Grade Level Team Leader *July 2015 - May 2017*

- Created shared culture systems and routines, and I observed team members regularly to norm on classroom culture.
- Conducted weekly observation and feedback meetings with each member on the team.

5th Grade Science Teacher, Reading Intervention *June 2013 - July 2016*

- Developed a curriculum based on the North Carolina standards, created assessments, and analyzed data to effectively teach and prepare students for the End of Grade exam and high school science.
- Students scored the highest on their EOG exams in our school. 2014 (74% passed, which is a 20% increase from previous year)), 2015 (92% passed), 2016 (87% passed). Students exceeded expected growth on the EOG, 2014 - 2016.

Practice Perfect Coordinator/New Teacher Development *August 2015 - June 2016*

- Designed a scope and sequence based on the needs of our new instructional staff and delivered bi-weekly professional learning and observation and feedback.
- Designed and delivered professional learning for the entire staff during Teacher Orientation.

Jim Hill High School/Mississippi Teacher Corps - Jackson, MS **June 2011 - May 2013**

International Baccalaureate Higher Level Biology, Biology II

- Developed daily lesson plans and unit plans, created assessments, and analyzed data to effectively teach and prepare students for their International Baccalaureate exam.
- Oversaw science fair projects for each of my students, sending 27 students to the Regional Science Fair, and 1 to the National Science Fair.

Institute of Southern Jewish Life - Jackson, MS **June 2009 - June 2013**

Education Fellow

- Developed and led sessions and tracks for annual professional development conferences with educators from over 70 communities.
- Developed religious school curriculum and programming for adult and child learners.
- Worked directly with eleven partner communities, offering instructional support, professional development, and programming.

ACCOMPLISHMENTS

EDUCATION

Johns Hopkins University, School of Education — **Baltimore, MD**
Master of Science in Education, GPA 3.95 — May 2021

Davidson College — **Davidson, NC**
Bachelor of Arts, French and Francophone Studies Major and International Studies Minor; Cum Laude — May 2015
GPA 3.62; Major GPA 3.67

PROFESSIONAL EXPERIENCE

Instruction Partners — **Remote**
Associate Director, Instructional Support — July 2023—June 2025
- Led five districts to increased student outcomes across two years through curriculum implementation, improved systems and structures, and ongoing cycles of improvement
- Managed contract deliverables and goals by building capacity and owning strategy both externally with district leaders and internally with math and English content leads

Mathematics Content Lead — July 2022—June 2023
- Collaborated with district leaders, principals, school instructional coaches, and teachers to improve conditions for collaborative planning and observation and feedback in three school districts nationwide
- Exceeded expected IPG growth from fall to spring in math classrooms, resulting in all districts renewing partnership

DC Preparatory Academy - Benning Middle Campus — **Washington, DC**
7th/8th Grade Special Education Math Teacher, Grade Level Leader - 8th Grade — August 2021—Present
- Co-taught over 65 students using a network-created curriculum for seventh grade and Agile Minds Algebra I for 8th grade
- Planned and facilitated daily small group instruction for students with and without IEPs based on classroom data
- Managed a caseload of 17 students with IEPs, modifying assignments daily to align with student accommodations
- Liaised between school leadership team and eighth grade teachers and families leading culture-based initiatives, coordinating family-teacher conferences, and proactively managing academic, social, and emotional needs of all students

Teach For America Twin Cities — **Minneapolis, MN**
Manager, Teacher Leadership Development — August 2018—July 2021
- Coached 45 first and second year corps members (teachers) across three years using Elena Aguilar's Transformational Coaching model rooted in Teach For America's Corps Member Roadmap outcomes
- Provided each corps member with at least 10 coaching cycles yearly, resulting in 84% of teachers staying in the classroom upon completing their two years in the program and 80% of teachers meeting or exceeding one year of growth
- Organized and led the region's first-ever Corps Member Leadership Council during the 2019-2020 and 2020-2021 school years. Members planned and facilitated programming during Saturday Sessions which aligned with their mission of inclusivity and accountability, resulting in our highest-ever corps member satisfaction on surveys, ranking in the top 10 of all TFA regions nationally
- Selected as a 2018-2019 TFA alum fellow for Principal Institute, a year-long school leadership program facilitated by New Leaders

Teach For America - National Summer Institute — **Tulsa, OK**
Teacher Education Facilitator - Upper Elementary Math — February 2019—July 2019
- Planned and facilitated rigorous daily professional development sessions focused on core practices and culturally responsive pedagogy for 55 corps members teaching math grades 4-6
- Managed four Corps Member Advisors across four schools towards measurable outcomes for corps members and students

Corps Member Advisor — March 2018—July 2018
- Coached 15 corps members on culturally responsive pedagogy, instructional execution, and classroom culture
- Facilitated sessions for 66 corps members on Diversity, Equity, and Inclusiveness, core practices, and upper elementary math content

Ranson IB Middle School — **Charlotte, NC**
6th Grade Mathematics Teacher — August 2015—June 2018
- Taught Common Core 6th grade math to over 100 students yearly, implementing data-driven instruction

- Collaborated with interdisciplinary team of 6th grade teachers to provide students with a transformational education through culturally responsive teaching, acting as a mentor to first year teachers
- Exceeded Expected Growth for the 2016-2017 and 2017-2018 school years, earning the highest growth of any classroom teacher in the school both years; named a 2016-2017 Project L.I.F.T. “Irreplaceable Teacher”
- Awarded employee of the month in November 2017 for exceeded growth and strong classroom culture; classroom ranked at “transformative engagement” for the 2017-2018 school year

LEADERSHIP EXPERIENCE AND ACCOMPLISHMENTS

- Accelerated TFA Twin Cities regional development by spearheading a STEM initiative with Best Buy, implementing DEI programming into professional development, and planning the Twin Cities 2019 and 2020 Inductions
- Selected as a 2017 Leroy “Pop” Miller Fellow through Teach For America Charlotte
- Led 4 11 year-olds on a month-long peace education program in São Paulo, Brazil through the nonprofit CISV
- Collaborated with Dr. Rebeca Fernández to create the course English Language Learners Across the Curriculum in 2015, completing a 20 hour pre-practicum volunteering with English Language Learners at South Mecklenburg High School
- Davidson Outdoors Backcountry Odyssey Trip Leader, Davidson, NC, January 2012 – May 2015
- Advanced French with a DALF C1 level certificate, beginner level Spanish

Minor: Studio Art

LEADERSHIP EXPERIENCE

English Language Arts, Content Leader

Instruction Partners July 2021- current

- Develop teacher and leader ELA knowledge and skill in order to improve student outcomes and instruction in K-12 schools/districts nation-wide
- Utilize a deep understanding of ELA and various curricula, as well as a dedication to learning what's new in the field, in order to drive student outcomes through observation, goal-setting, design, implementation, coaching, and facilitation
- Ensure high quality professional learning experiences through research, collaboration with colleagues, and constant learning and iteration
- Work with a team to think creatively and flexibly about support in each school/district and across schools/districts, including informing the development of action plan goals and action steps/sequence in ELA and identifying new problems and solutions in the work
- Contribute to the thought leadership and larger design needs around content development, design, and facilitation as an instructional leader on the team

System Support

- Observe and score ELA instruction during walkthroughs, and give feedback on trends to system and school leaders
- Conduct reviews and create reports on quality of assessments, curricula, pacing guides, scope and sequence guides, and other materials to inform system strategy for instructional improvement
- Answer partners' questions to support effective, informed decision-making
- Work with partners' ELA teams to support their instructional improvement cycle, including school visits, classroom observations, professional development, and content support
- Assist with the build-out of curriculum implementation playbooks for systems

Content Development and Delivery

- Develop school leader instructional leadership capacity through modeling coaching cycles to accelerate teacher practice and student achievement. Observe school leaders facilitate coaching cycles and create school-leader facing action steps to improve the quality and impact of school-based coaching.
- Develop content, such as model lessons, content exercises, and training session materials and PowerPoints
- Lead professional development for teachers and leaders, and train content specialists to deliver training content
- Support development of curriculum-specific transition and implementation plans and resources
- Prepare materials for and lead the ELA portions of professional learning opportunities for teachers and leaders
- Prepare materials for and lead sessions during topical meetings, quarterly network meetings, and other events as needed. Collect and analyze data to measure progress, school goals, and impact of partner support.

National Project Manager for 2nd Grade KIPP Wheatley Online

KIPP Foundation, National Network Primary Literacy Manager April 2020 - April 2021

- Designed and generated E-suite curriculum HUB for 2nd grade ELA curriculum which included: pacing guides, PowerPoints, teacher resource bank, instructional materials
- Built, produced, and delivered virtual instructional resources for teachers, leaders, and regional staff with the intended outcome of providing high quality virtual instruction for 2nd grade students in the national KIPP network in response to

COVID-19 school closures and remote learning experiences.

- Created, designed, and co-led webinar for national, regional, and school based leaders and teachers on implementation of virtual lessons and curriculum: 120+ participants.
- Created and designed KIPP Network E-suite curriculum instructional HUB for educators that resulted in a 45% overall increase of 2nd grade attendance, student growth, and instructional time throughout the network.
- As the national liaison and in collaboration with district managers facilitated, created, and designed a year-long virtual scope and sequence expectations bi- quarterly benchmark assessment tool.

Regional Literacy and Humanities Curriculum Manager

KIPP Jacksonville Schools, Jacksonville, FL August 2019 - July 2021

Curriculum Development

- Oversee full implementation of 3-8 KIPP Wheatley, Top Score Writing, History Alive, and Gateway to American Government curriculum with the intended outcome that of KIPP Jacksonville achieving the highest literacy achievement results possible.
- Develop, maintain, and revise regional pacing calendars for all ELA and Social Studies curriculum.
- Construct module and lesson internalization protocols for Social Studies and Government curricula.
- Provide regional, school, and teacher level support with curriculum where needed through observations, coaching, modeling, and examination and research of curriculum use and best instructional practices.
- Facilitate School Leader and Content Leader backwards planning meetings to align and adjust daily exit tickets with mid module, end of module, and state assessments.
- Develop partnerships and deliver professional development with outside curriculum and instructional technology organizations to enrich teacher training on curriculum and additional subject related resources.

Teacher Development

- Engage in weekly exit ticket analysis through modeling appropriate lesson delivery, and creating and facilitating professional development focused on creating a criteria for success for daily objectives and standards breakdown for 12 ELA teachers grades 3rd-8th.
- Develop and manage regional ELA and Social Studies content team structures that provide content support and collaboration for 12 ELA and 8 Social Studies teachers.
- Created scope and sequence of summer teacher institute for curriculum training which resulted in 100% of new teachers executing instruction of curriculum at full capacity before the end of quarter 1 of the school year.

Management & Collaboration

- Train and develop 6 content coaches through observation and quarterly professional development to increase their knowledge, practice, and facilitation of content team meetings.
- Evaluate instructional practices and curriculum implementation through classroom walkthroughs with school administrators and regional leaders to drive instructional and curriculum decision making.
- Conduct weekly instructional rounds with Assistant Principals in order to find high level key points and to align on next steps for teachers through developing a pre, during, and post observation protocol.
- Align weekly with Data & IT Manager on structures of data input and to maintain and monitor usage of instructional technology.

Data Driven Decision Making

- Create short cycle instructional observations for grade levels and meet weekly with Principals and regional leaders to assess data, observations, and create next steps.
- Analyze exit ticket, mid module, and end of module assessment data to include in weekly regional academic data meetings.

Stakeholder Communication

- Prioritize and synthesize weekly regional high-level data with the intended outcome of ensuring all staff are prioritizing high level data driven decision making.
- 88% of teachers and coaches agree or strongly agree that content teams are a meaningful use of time and need; 100% of teachers agree or strongly agree that content teams enhance learning experiences and collaboration due to implemented structures and facilitation.
- Serve as liaison with Schultz Center for Learning and Jacksonville University to oversee teachers' completion of reading endorsement coursework resulting in 90% completion of teachers enrolled in coursework.

STEAM Community Manager

Digi-Bridge US, Charlotte, NC September 2016 - June 2019

- Served as liaison between Digi-Bridge and all courses at granted program CMS schools, including managing nine

individual granted program sites complete with one site coordinator, 2-4 facilitators, and up to 30-40 participates at each site every Saturday
- Maintained online roster, and granted budget for each course and school, and then evaluate courses and events using feedback collected from coordinator, facilitators, and scholar surveys; provides suggestions for growth to Digi-Bridge staff and board
- Identified recruitment strategies to ensure full enrollment and evaluated courses/events using feedback collected from facilitator and scholar surveys and provide suggestions for growth
- Collaborated with Chief Leadership Officers to provide curriculum insight and strategies to determine grant and program revisions for the region.

#STEAMSaturdays Facilitator; Renaissance West Community Initiative Robotics Squad; Team Coach: Allenbrook Robotics Team

- Facilitated 5-week Object-Oriented Programming course for #STEAMSaturdays series; includes courses on Ruby, JavaScript, and Python targeted for students aged 3rd – 5th grade
- Assisted students in the Robotics Club with implementing projects in order to prepare for First Lego League competition (Lego MINDSTORM EV3)
- Served as liaison between school site and Digi-Bridge; maintain series rosters and recruiting; establish relationships with parents and families; Manage #STEAMSaturdays schedule; Determine/coordinate Digi-Bin series; Support facilitators; review, analyze, research survey data; use social media as platform to promote and tell Digi-Bridge story

Elementary School Teacher, 5th grade ELA/Science

Grade Level Team Lead; UNC Charlotte Clinical Educator/ Directing Teacher; STEM Committee Member; Instructional Leadership Team

Charlotte-Mecklenburg Schools - Dorothy J. Vaughan Academy of Technology, Charlotte, NC August 2018 – June 2019

- Directed and mentored UNC Charlotte pre-service teacher: shadows daily to learn classroom management, instruction, planning, and other required competencies

- Led professional development for teachers on small group instruction: how to analysis and use student data to improve performance by grouping abilities for a certain period of instruction

Elementary School Teacher, 5th grade ELA/Science

Literacy Leadership Committee; Teaching Assistant Principal; New Teacher Mentor

PROFESSIONAL SUMMARY

Professional Summary: Educational leader with over 12 years of experience in leading, managing, and developing teams in order to build capacity across the organization.

Education Elements

Design Principal/Consultant, 2022-Current

- Supporting and leading client projects focused on instructional design and implementation, organizational strategy, leadership strategy, and/or data collection and surveys
- Designing and facilitating virtual and in-person strategy sessions for district leadership teams
- Designing and leading virtual and in-person professional development sessions for groups of teachers, coaches, and principals
- Developing and maintaining project plans, communicating project status to internal and external teams, and supporting decision making and execution to meet project goals and timeline
- Leading and coaching internal teams by creating and implementing systems for collaboration and project management, delegating accountabilities to supporting team members that leverage strengths, meet project needs, and distribute work across the team, and delivering and receiving feedback within project teams to drive both personal and team member growth and performance

KIPP Memphis Collegiate Schools, Memphis, TN 2013-2022

Principal/School Leader, 2017- 2022

- Developed and coached high-performing school leadership team, ranking in top quartile according to KIPP's School Leadership survey/TNTP
- Planned/executed leadership development activities to ensure strong leadership succession
- Raised upper school student achievement literacy data by 40% (NWEA/MAP)
- Managed 3.5 million dollar operating budget, increased operational efficiencies leading to a $200,000 surplus (FY 17-18)
- Decreased school's student attrition by 10% (SY 17-18)
- Retained 95% of top-performing staff from SY 17 – SY18
- Increased student enrollment from 360 to 560 students
- Recruited, selected, and hired 45-person diverse school staff
- Increased State TVAAS score from 1 to 3 in SY 17-18 and 3 to 5 in SY 18-19
- Increased pre-school feeder partnership effectiveness leading to 90% of eligible 4 year-olds enrolled in Kindergarten at KIPP Memphis

Assistant Principal, 2014-2017

- Managed and coached 2nd – 4th Grade teachers, named a top academic performer across national network in every area tested (2014-2016)
- Nominated and selected to participate in KIPP's highly competitive KIPP School Leadership Program (2013, 2014)
- Served as a Faculty Fellow and coached and developed 80 leaders across the KIPP Network (2016-2017)

KIPP Foundation Leadership Faculty Fellow, 2014-2018

- **INSTRUCTIONAL LEADERSHIP**: Improved teacher instruction/leadership practices through observation, feedback, and data-driven leadership to drive student achievement
- **PERFORMANCE MANAGEMENT**: Developed the foundational skills of performance management with teams and individuals: set goals and expectations, coach and monitor, and hold others accountable to drive results
- **LEADING FOR EQUITY**: Examined implicit biases and raised self-awareness of educational inequity and racial belief in order to transform, influence, and impact practices at our schools
- **SELF-AWARENESS**: Coached and trained leaders around self-awareness in order to cultivate authentic relationships with students, families, and staff as a school-wide leader

Lead Elementary Teacher- 2013- 2014

- Led as a founding Kindergarten teacher at the first KIPP elementary school in KIPP Memphis
- Drove 95% of students to meet their individual growth targets on MAP for Primary Grades (Reading and Math)
- 94% of students met NWEA MAP Math Goals (made typical growth, F-S)
- 87% of students met NWEA MAP Reading Goals (made typical growth, F-S)

Memphis Business Academy

Founding Lead Teacher- 2010- 2013

- Founding Lead Teacher at a first year Charter School in Memphis

EDUCATION

Communication, Public Relations

Siera Osei

Literacy Specialist

tellis.siera@yahoo.com | 901-498-1502 | *www.linkedin.com/in/siera-osei*

Enthusiastic and self-motivated literacy specialist with 6+ years as a professional learning and development facilitator and 3+ years of Science of Reading experience. Thrives at a company that is passionate about student learning outcomes in reading and writing in which I can bring my skills in facilitation, leadership, and relationship building to the mission at hand.

Experience

ELA Content Lead at Instruction Partners — *2024-current*

- Develops and facilitates professional learning opportunities for school leaders and teachers.
- Conducted instructional walkthroughs and analyzed student work to identify trends and inform coaching conversations, resulting in targeted support for instructional improvement.
- Collaborated with school and district leaders to review and refine ELA curricula, assessments, and pacing guides to support alignment with academic standards and learner needs.
- Designed and facilitated adult learning experiences for instructional leaders and coaches, with an emphasis on building capacity to implement system-wide literacy strategies effectively.

Professional Learning Facilitator at Lexia Learning — *2023-2024*

- Facilitated LETRS training to groups of up to 50 educators.
- Ensured fidelity of LETRS content while personalizing resources and information according to participant needs and experiences.
- Created a learning environment that is personal and engaging.
- Quarterly feedback score was 29.67 out of 30

Professional Developer at Missouri State University — *2021-2023*

- Created and presented interactive professional learning to inform teachers in the southwest region of Missouri about the Science of Reading.
- Coached teachers in implementing new instructional practices.
- Modeled lessons with students on instructional practices that align with the Science of Reading.
- Facilitated LETRS training in local districts.
- Assisted district leaders with updating literacy plans and instruction to align with Science of Reading.

Program Specialist at ALLMemphis — *2020-2021*

- Delivered training and mentorship to Kindergarten to 12th-grade teachers using an Orton-Gilliham-based curriculum for RTI.
- Advised teachers on instruction, conducted one-on-one meetings, and provided any needed support to ensure the effectiveness of the program for students.

Dean of Instruction at Power Center Academy Elementary School — *2018-2020*

- Served as the Dean of Instruction, Test Coordinator, and Literacy Coach.
- Accounted for reading curriculum and materials.
- Provided teachers with quality feedback on the fidelity and effectiveness of curriculum and instructional practices.
- Built loving and supportive relationships with parents, scholars, and staff.
- Created and facilitated professional learning for teachers in literacy and classroom management practices.
- Assisted principal with logistics of the school day including arrival, dismissal, lunch, drills, etc.

Education

Union University — *2015*

- Master of Urban Education
- GPA: 3.7

Southeast Missouri State University — *2012*

- Bachelor of Science, Public Relations

SARAH AITKEN

Gates, Tennessee 38037 731-413-6427, sarah.aitken@instructionpartners.org

Professional Summary

As a classroom teacher, I dedicated myself to planning dynamic lessons for my students that were not only engaging but moved the needle of students' success. As a district leader, Director of Elementary Education, my knowledge of the Science of Reading and sound instructional practices has grown exponentially. In this role, I led the implementation of new curricula for ELA, foundational skills, math, and science, worked closely with external partnerships to coach school leaders and teachers, facilitated many professional development and PLCs, presented at conferences, published an article in *The 74 Million,* and implemented a foundational skills structure that has revolutionized how students learn to read in our district. I have developed a deep passion for all things early literacy and would love to continue this great work.

Skills

- Project management
- Cross-Team Deliveries
- Relationship building
- Curriculum selection
- Positive attitude
- Analytical thinking
- Teacher development
- Long-range planning

Experience

Director of Instructional Support, Early Literacy — July 2023– Present
Instruction Partners

- Research partnership with Vanderbilt University to analyze the impact of targeted, systematic and explicit foundational skills on student achievement in K-2.
- Currently managing a team of DIrectors and Content Leads scale targeted, systematic, and explicit foundational skills in both whole group and small group instruction across 30 schools in one of the largest school districts in Tennessee.
- Implemented systemic support with the district level and school level leadership through the use of the essential practices, leadership practices that drive change in early literacy outcomes.

Director of Elementary Education — July 2019 – June 2023
Haywood County Schools | Brownsville, Tennessee

- Collaborated with teachers to develop and maintain curriculum standards, develop mission statements and set performance goals and objectives for ELA, foundational skills, math and science.
- Enhanced performance of teachers and support staff with continuous professional development.
- Conducted classroom walkthroughs and coached school leaders on the development of professional learning for teachers through the data trends identified through the use of instructional practice guides.

- Directed and coordinated professional learning for teachers, administrators, and support staff at schools to build content knowledge in early literacy.
- Analyzed student data from the district level to the individual student level to identify skill gaps and support teachers in providing targeted instruction.

1st and 2nd Grade Teacher — July 2013 - July 2019

Ripley Primary School | Ripley, TN

- Developed and implemented engaging curriculum aligned with student learning objectives and in adherence with state and district requirements.
- Collected and analyzed student work samples and related data to monitor progress and identify skill gaps.
- Administered and interpreted formal and informal educational assessments and recorded findings.
- Taught classes to students at varying levels of attainment.
- Communicated with parents on students' academic progress, behavior and challenges to learning.

Education

Master of Science (M.S.) - School Administration and Supervision — August 2017

University of Memphis, Memphis, TN

Bachelor of Science (B.S.) - Integrated Studies, Elementary Education (K-6) — May 2013

University of Tennessee at Martin, Martin, TN

Rebekah Kate Mills-Ifshin

Uncommon Schools (Brooklyn, NY) - First Grade Teacher & Principal Fellow 2018 - 2019

- Engaged in a robust development process to prepare future school leaders, with training in frameworks aligned to data-driven instruction and school leadership.

Arthur Ashe Charter School, FirstLine Schools (New Orleans, LA) - Instructional Coach & Teacher 2012 - 2018

- Supervised and managed teacher performance. Lead professional development in math, literacy, culture, and data analysis for K-4 teachers.
- Facilitated network-level development of 11 kindergarten teachers through weekly development protocols, data analysis and intellectual preparation.
- Developed engaging and differentiated lessons for whole and small-group learning for class of 30+ kindergarten students with a focus on student-centered learning.

MATCH Leadership Coaching (New Orleans, LA) - Leadership Coaching Fellow 2016 - 2017

- Engaged in targeted support, training, and development as an instructional coach with the goal to improve teacher retention, efficacy, and student outcomes.

ELENA NUZZI

EARLY LITERACY SPECIALIST | EDUCATION CONSULTANT | INSTRUCTIONAL COACH

369 Ocean Avenue Brooklyn NY 11226 • (516) 527-3852 • enuzzi@gmail.com • linkedin.com/in/elena-nuzzi-0ba29031/

PROFESSIONAL SUMMARY

Detail-oriented facilitator and coach with a strong background in ELA and foundational reading skills coaching in grades K-12. Skilled in developing and facilitating impactful student and adult learning experiences. Focused on improving instructional effectiveness by analyzing data and research, with a strong belief in the potential of students, teachers, and systems. Work to support instructional improvement, promote equitable teaching practices, and improve instructional effectiveness by building capacity in teachers and leaders. Excellent at adapting to multiple and diverse work environments, while managing multiple projects simultaneously. Passionate about championing excellence and equity in education and supporting anti-racist educational environments so that all students, teachers, and leaders are heard, seen, and valued.

SKILLS & PROFICIENCIES

Academic Management & Support	Resource Management	Building Relationships
Curriculum Design & Development	Facilitation Skills	Interpersonal Communication Skills
Educational Administration	Conflict Resolution	Engagement & Empowerment
Mentoring & Coaching	Building Capacity	Strategic Leadership

SELECTED ACHIEVEMENTS

- Led implementation of high-quality foundational skills curriculum and student data tracking and analysis systems resulting in unprecedented literacy growth for students. At the start of the year, 0% of K–2 students were on grade level for reading foundational skills. By the spring of 2022, 58% of all K–2 students were reading on grade level, with 98% of kindergarten students reading on grade level.
- Nominated for New Orleans Excellence in Teaching Award (NOETA) for demonstrating top performance as a 6th Grade Teacher and Instructional Coach/Mentor.
- Integrated technology and pedagogic approaches to execute effective and engaging virtual and hybrid learning.
- Provided leader and teacher coaching and mentoring to build capacity and facilitate reflection and growth in order to improve classroom instruction for all learners.
- Utilized a trauma-informed social-emotional learning curriculum from the Institute of Women and Ethnic Studies (IWES). Successfully empowered all students in the school year 2019-2020 to improve based on data from the Strengths and Difficulties Questionnaire.
- Assessed the quality of publisher-submitted curricular materials, reviewed instructional resources, and provided feedback to publishers of English-Language Arts curriculums to maximize the effectiveness of the curriculum with the Louisiana Department of Education.

EMPLOYMENT & EXPERIENCE

INSTRUCTION PARTNERS, Remote **July 2021 – Present**

ELA Content Lead | Instructional Coach | Professional Development Facilitator

- Design and execute professional development, lead instructional walkthroughs, build and coach capacity in leaders, and provide content expertise to partner schools across the United States, virtually and in person.
- Use the Instructional Practices Guide (IPG) to observe and score ELA instruction, and give feedback on trends to school leaders and teachers.
- Conduct reviews and create reports on the quality of assessments, curricula, pacing guides, scope and sequence guides, and other materials to inform system strategy for instructional improvement.
- Work with school teams to support their instructional improvement cycle, including classroom observations and feedback, professional development, collaborative planning, and content support.
- Develop content, such as model lessons, content exercises, training session materials, and slide decks.
- Lead professional development for teachers and leaders, and train content specialists to deliver training content.
- Travel to schools around the country to deliver content and support.

FOUNDATION PREPARATORY CHARTER SCHOOL, New Orleans, LA **Aug 2019 – June 2021**

5th/6th Grade Lead Teacher Leader | Instructional Coach/Mentor

- Utilized tier 1 high-quality curricular materials for math and English-language arts in order to give all students access to grade-level instruction.
- Assessed student achievement and utilized research-based instructional practices to facilitate more effective learning experiences.
- Coached and mentored educators to boost student engagement and achievement.
- Utilized trauma-informed, socio-emotional learning curriculum to support student social and emotional growth.

THE LOUISIANA DEPARTMENT OF EDUCATION, New Orleans, LA **Aug 2020 – September 2021**

Teacher Leader Advisor

- Reviewed curriculum materials from various providers to ensure that fellow educators across the state have access to high-quality instructional materials and resources, and curriculum-aligned professional learning.
- Participated in the Louisiana Department of Education's instructional materials review process and provided feedback to curriculum writers.
- Maintained a thorough understanding of educational policies, laws, and program standards to reliably measure the efficacy of submitted curricula within tight deadlines.

HARRIET TUBMAN CHARTER SCHOOL, New Orleans, LA **Aug 2013 – May 2019**

Dean of Intervention and 504 | RTI Coordinator | Special Education Teacher

- Managed the development and implementation of an intervention program and the RTI/504 process for 600 elementary students, including reading foundational skills, comprehension, math, writing, and extension support to improve learner progress.
- Ensured high-quality instruction by providing teacher training on all facets of literacy, including oral reading fluency and phonics screeners, as well as Fountas and Pinnell reading assessments; coached and supported elementary SPED educators while leading interventionists to support students with special needs.
- Collaborated with 15 students to develop the school garden under the direction of the LSU AgCenter.
- Utilized the EngageNY and Wit and Wisdom ELA curriculums, providing scaffolds and supports for students with learning differences. Used data to determine appropriate scaffolds, modifications, and adjustments.
- Served as an ELA class for 5th-8th grade students and an optional homeroom to support students with behavioral, social, and emotional needs.
- Planned and delivered reading foundational skills intervention with students grades 3-8.

THE CHILD SCHOOL, New York, NY **Aug 2010 – Jun 2013**

Special Education Teacher

- Guided curriculum development, addressed institutional concerns, and performed research as an elected member of the International Baccalaureate Curriculum Planning Committee.
- Led a multi-age classroom for children with developmental disabilities.
- Created individualized programs using interdisciplinary methods in math, science, social sciences, reading, and language.
- Planned and delivered reading foundational skills lessons with students grades 2-5.

CERTIFICATION

TENNESSEE PROFESSIONAL TEACHING LICENSE

Elementary Education K-6
ESL PreK-12

ABOUT ME

I have been an educator for 15 years in Cleveland City Schools, fulfilling roles as a primary education teacher and an instructional coach. Throughout my career, I have been committed to assisting teachers at various stages to achieve their utmost potential by providing continuous classroom support. With a focus on primary reading, I have conducted training sessions for both the state of Tennessee and my district. I am enthusiastic about expanding my influence in this field.

WORK EXPERIENCE

INSTRUCTIONAL FACILITATOR
Yates Primary School (2012-current)

As an Instructional Facilitator, I have worked closely with primary grade teachers, acting as a coach and collaborator to enhance their teaching skills. I have assisted them in setting goals, observed their classroom instruction, and utilized the IPG alongside various indicators to enhance the educational experience for our students.

RTI FACILITATOR
Yates Primary School (2020-current)

Aside from being an Instructional Facilitator, I also fulfill the role of RTI Facilitator at Yates Primary School. This position involves overseeing student testing, organizing data meetings, and providing instructional support tailored to individual student requirements within the RTI model mandated by the Department of Education.

DISTRICT ELEMENTARY ELA CONTENT LEAD
Cleveland City Schools (2023-current)

As a secondary role in the district, I serve as the elementary ELA content lead, working with Teacher Leaders to design and deliver professional development and set district wide instructional goals and pacing guides.

KINDERGARTEN TEACHER
Yates Primary School (2010-2012

Jessica Wade

1608 Autumn Ridge Dr. Nashville, TN 37207 (219)798-8359
Jesswade0920@gmail.com or jessica.wade@instructionpartners.org

Knowledge

- Deep knowledge and experience with high quality instructional materials and literacy instructional practice.
- High dosage tutoring design and implementation
- Organizational and management practices as applied to the analysis and evaluation of school programs, policies, and operational needs.
- Ability to communicate the importance of learning acceleration for students to achieve their long-term learning goals.

Skills & Abilities

- Creating and Managing effective communication and presentations for multiple stakeholders.
- Establish and maintain effective working relationships with districts, instructional staff, vendors, and external partners.
- Execute towards outcomes and use project management tools to meet ambitious goals.
- Implementation of large projects through multiple layers of a delivery chain.
- Manage multiple vendor teams towards sustainable outcomes over time.
- Excellent organization and ability to meet deadlines, strong detail orientation
- Very strong oral and written communication skills
- Ability to build positive relationships with diverse team members and stakeholders in a virtual setting
- Ability to use sound judgment to identify and creatively solve problems with a solutions-oriented, "whatever it takes" mindset

Experience

September 2024 - Present

Early Literacy Content Lead, Instruction Partners

- Accompany Directors of Instructional Support on school walkthroughs, use the Foundational Skills Instructional Practices Guide (IPG) to observe and assess early literacy foundational skills instruction, and give feedback on trends to system and school leaders and teachers
- Conduct reviews and create reports on quality of assessments, curricula, pacing guides, scope and sequence guides, and other materials to inform system strategy for instructional improvement
- Answer partners' questions (directly and via Directors of Instructional Support) to support effective, informed decision-making
- Work with partners' early literacy teams to support their instructional improvement cycle, including school visits, classroom observations, professional development, and content support
- Assist with the build-out of curriculum implementation resources for systems

- Develop content specific to early literacy/foundational skills, such as model lessons, content exercises, and training session materials and PowerPoint presentations
- Lead professional learning for teachers and leaders, and train content specialists to deliver professional learning
- Support development of curriculum-specific transition and implementation plans and resources
- Prepare materials for and lead the early literacy/foundational skills portions of professional learning opportunities for teachers and leaders
- Prepare materials for and lead sessions during topical meetings, quarterly network meetings, and other events as needed

July 2021 – September 2024

TN ALL Corps ELA Content Development and Support Coordinator, Tennessee Department of Education

- The K-8 ELA Content Development and Support Coordinator supports the coherence of literacy tutoring programs for the state of Tennessee; this lends content expertise to both connected literacy tutoring strategy and the TN ALL Corps opportunity. This position is housed within the Office of Academics and supports the Senior Director of Instruction and Intervention and her/his implementation of a coherent learning acceleration strategy across the state of Tennessee.
- Provide professional learning, technical assistance, and coaching for district and school RTI2 leadership (i.e., school-level RTI2 support teams).
- Demonstrates a passion for and an unwavering commitment to ensure all students have equitable learning experiences and are on-track to be successful.
- Serves as a subject matter expert in literacy and the unique needs of learning recovery and learning acceleration within foundational literacy skills tutoring and overall literacy tutoring in the Tennessee Department of Education's TN All Corps strategy.
- Develops tutoring resources and guidance to ensure Connected Literacy tutors utilize effective foundational literacy tutoring grounded in phonics, phonemic awareness, and fluency.
- Support the development of Dyslexia tutoring strategy and coordinate with external and internal stakeholders to ensure students have high-quality and focused tutoring program grounded in Dyslexia.
- Support the development of guidance, resources, and overview tools for districts to implement literacy tutoring focused on comprehension using district-specific high-quality instructional materials.
- Ensure literacy tutoring guidance and resources provides appropriate progress monitoring and assessment tools to clearly track student performance in curriculum-based tutoring and assessment.
- Provide integration of student support resources for students with disabilities, English Language Learners, and students with Dyslexia.
- Provide technical support for districts, tutors, and other stakeholders in implementation and iteration of ELA tutoring.
- Develop strong relationships within project teams for the student acceleration project.
- Support CORE with data collection and tutor monitoring.

June 2018 – July 2021

District RTI Coordinator/Interventionist, Weakley County Board of Education

- Create procedures and protocols that provide consistency in RTI2 implementation across the district.
- Provide professional learning, technical assistance, and coaching for district and school RTI2 leadership (i.e., school-level RTI2 support teams).
- Align RTI2 work with the district improvement plan.
- Coordinate and develop resources (i.e., time, materials, personnel) related to RTI2 implementation.
- Collaborate with district-level curriculum and instruction and special education staff to align guidance and connect work.
- Develop and manage fidelity monitoring procedures.
- Build parent understanding of the RTI2 framework and their role in supporting student success.
- Train Intervention teachers and K-2 teachers the research behind how students learn to read by working through the progression of Phonological Awareness, Phonemic Awareness, and Phonics.
- Train Intervention teachers and K-2 teachers on the implementation of Survey Level Assessments to help guide instruction based on students' reading deficits (not only for RTI but also for core instruction).
- Gathered video examples of explicit Phonological Awareness, Phonics, Fluency, and Comprehension instruction to serve as a training model for our district. These videos have been uploaded to our District YouTube RTI channel for teachers to access and use as a training resource for not only intervention instruction, but core classroom instruction as well.
- Guided the creation and facilitation of the district's Writing Focus documents and related training that guided our district's focus of effective writing instruction practices for grades K-3 in correlation with the ELA curriculum being implemented.
- Assisted in facilitation of training related to the District's ELA Curriculum implementation and the use of the Unit Planning tools released by TDOE.

August 2010 – June 2018

1st Grade inclusion teacher, martin primary school – weakley county

- Adapt teaching methods and instructional materials to meet students' varying needs and interests.
- Establish and enforce rules for behavior and procedures for maintaining order among the students for whom they are responsible.
- Instruct students individually and in groups, using various teaching methods such as lectures, discussions, and demonstrations.
- Involve parent volunteers and older students in children's activities to facilitate involvement in focused, complex play.
- Collaborate with other teachers and administrators in the development, evaluation, and revision of elementary school programs.
- Administer standardized ability and achievement tests and interpret results to determine student strengths and areas of need.
- Attend staff meetings and serve on committees, as required.
- Attend professional meetings, educational conferences, and teacher training workshops to maintain and improve professional competence.
- Facilitate training at the school, district, and state level.
- Confer with other staff members to plan and schedule lessons promoting learning, following approved curricula.

TN Instructional facilitator (Core COACH) **served for five summers**

Tennessee Department of Education - Math and science subjects

- Participated in training specifically in the subject of Math (3 years) and Science (1 year).
- Planned, prepared, and presented training to teachers in the Northwest region of Tennessee.
- Received the "Bees Knees" award from the state at the end of my first experience as a Core Coach for my ability to work well with others and collaborate.

TN ELA Textbook Reviewer
2019-2020
Tennessee Department of Education - ELA (K-5)

- Participated in training specifically in the subject of ELA for the purpose of reviewing textbooks for the upcoming ELA adoption process.
- Reviewed K-5 textbook material

Rangefinding Committee for Writing
2019-2020
Tennessee Department of Education - ELA (2nd Grade Committee)

- Participated in training specifically in the subject of ELA – Writing to prepare for scoring 2nd grade writing assessments.
- Reviewed and scored 2nd Grade writing assessments.
- With this training and experience I lead my district to create and implement "Writing Focus Documents" to help meet the needs to K-3 teachers to integrate writing instruction and assessment along with their implementation of the Unit Starters.

Education

March 2021
Master of Science, Educational Leadership, Western governors University

May 2010
Bachelor of science: education, university of TN Martin

Activities

My personal activities that I participate in outside of my career involve raising and spending time with my two children and grandson. Hobbies that I like to indulge in my spare time are physical activities such as going on hikes and riding my Peloton. I also love baking sweet treats, reading good books, and I am always up for the challenge of learning something new and traveling to new places.

EMILY CASTANEDA

INSTRUCTIONAL LEADER

Profile

To leverage my expertise in early literacy and instructional coaching to support the development and delivery of emerging early literacy services to school districts to positively influences instructional practices.

EXPERIENCE

EARLY LITERACY CONTENT LEAD

Instruction Partners — **July 2024 - Present**

- Provide professional development to school leaders, content specialist, and teachers in the Science of Teaching Reading to improve student outcomes
- Provide instructional support using school walkthroughs to observe and evaluate instruction
- Provide should-to-shoulder support for instructional coaches and members of the school leadership team to increase effectiveness of instructional rounds, PLCs, coaching, and professional learning
- Develop content to support district curriculum implementation

ASSISTANT PRINCIPAL

Wilson County Schools: Stoner Creek Elementary — **July 2023 - July 2024**

- Collaborated with state, district, and school-level leadership teams to design and deliver professional development programs for staff.
- Adapted district initiative 'Powerful Core Instruction' into a unit planning document ensuring consistency in instruction delivery.
- Implemented the Science of Teaching Reading leading to significant improvements in student proficiency levels.

EDUCATIONAL CONSULTANT

Vanderbilt University — **March 2022 - July 2023**

- Developed training modules for Tennessee school districts focusing on RTI and PBIS models utilizing evidence-based improvements.
- Coached district leaders developing them into effective leaders through strategic data collection and management.
- Utilized evaluation tools to determine implementation successes interpreting results to establish next steps.

ASSISTANT PRINCIPAL

Lewisville ISD: Parkway Elementary — **July 2020-March 2022**

- Assisted with the design and creation of partner data supports allowing intentional collection/use of student-level data.
- Established and facilitated training in school improvement using MTSS brining school's rating from a Level D to Level A
- Analyzed student progress regularly communicating needs to stakeholders.

INSTRUCTIONAL COACH

Lewisville ISD: Parkway Elementary — **Aug 2017 - July 2020**

- Lead implementations of LMS program aligning instruction delivery effectively.
- Collaborated with various stakeholders including district leadership, administrators & teachers.

3RD GRADE CLASSROOM TEACHER/TEAM LEAD

Lewisville ISD: Independence Elementary — **Aug 2015 - June 2017**

Germonie Kershaw

Highly effective and experienced early literacy expert and instructional coach with over seven years of success as an elementary educator and school leader. Proven ability to support districts in developing and delivering impactful early literacy services that drive instructional improvement. Skilled communicator and collaborator, adept at building strong relationships with district personnel, colleagues, and all stakeholders. Focused on data-driven strategies that elevate student achievement and enhance the overall educational experience for all students.

Professional Experience

July 2024- Present

Instruction Partners, Nashville TN

Content Lead, Early Literacy

- Conduct instructional walk-throughs with school leadership teams to assess instructional quality and co-develop actionable plans to improve student outcomes.
- Collaborate with district and school partners to design, implement, and monitor strategic action plans aligned to key instructional priorities.
- Deliver high-quality, research-based professional learning experiences with Instructional Coaches grounded in the Science of Reading, tailored to meet the needs of educators and students.
- Build the instructional leadership capacity of school leaders by modeling coaching cycles that enhance teacher practice and accelerate student achievement.

August 2022- July 2024

The Point College Preparatory and Leadership Academy, Jamestown NC

Elementary School Assistant Principal

- Directed and coordinated K–2 ELA initiatives for 11 teachers, 4 administrators, and 11 support staff to build foundational content knowledge in early literacy.
- Analyzed data from 600 students to identify skill gaps and supported educators in delivering targeted, data-driven ELA instruction that support diverse learners.
- Conducted walkthroughs in 16 classrooms and provided actionable feedback to improve instruction; created individualized coaching plans for 6 teachers and modeled best practices in literacy instruction.
- Implemented new, research-based K–2 curriculum and program content to enrich the instructional experience for both students and teachers.
- Launched and led a high-impact after-school literacy program in partnership with Renaissance Learning, using data to identify and target skill gaps for K–5 students—successfully closing multi-year learning gaps in one year or less.

July 2018- July 2022

Guilford County Schools, Greensboro NC

Elementary Teacher (K-2)

- Implemented data-driven instruction across core content areas using high-quality instructional materials, including culturally relevant and rigorous texts, to support diverse learners.
- Collected and analyzed student work samples and assessment data to monitor progress and identify instructional gaps.
- Designed and delivered school-wide data analysis presentations and continuous improvement cycles to drive Kindergarten team effectiveness.
- Researched and integrated new technology tools and instructional techniques to boost classroom engagement and support the academic success of priority students.
- Developed and facilitated school-wide professional development focused on building classroom environments that promote high academic achievement.
- Served as Kindergarten Team Lead, facilitating PLCs, leading instructional planning, mentoring peers, and guiding data analysis to improve teaching practices and student outcomes.

Tab VII: Appendix Table of Contents

Item #	Title	Description
1	Professional Learning Conditions and Practices (PLPC) Rubric	Framework outlining essential conditions and practices for effective professional learning systems.
2	ELA Instructional Practice Guide (IPG)	A tool originally developed by Student Achievement Partners and adapted by the TN Department of Education to support observation and feedback on ELA instruction. Organized by Core Actions aligned to rigorous, standards-based teaching.
3	Math Instructional Practice Guide (IPG)	A diagnostic tool for identifying strengths and areas for growth in math instruction. Adapted from the Student Achievement Partners framework and aligned to TN math standards and instructional shifts.
4	Math IPG Norming Deck	Sample materials used to norm leaders on the Math IPG.
5	ELA Lesson Internalization Process Example	Resource for facilitating ELA collaborative planning.
6	Math Onsite - Observation and Feedback Example	Sample session for building leader capacity in math observation and feedback.
7	ELA Sample Student Work Analysis Intro	Resource for supporting leaders in analyzing ELA student work.
8	Case Studies Progress Monitoring and Collaborative Planning	A sample leader facing a professional learning session focused on analyzing the impact of collaborative planning on instructions. Includes case study artifacts, normed facilitation, and reflection prompt aligned to the IPG
9	Gladstone Elementary Case Study (Missouri)	Documents a multi-year partnership with a K–6 public school in Missouri serving refugee

		and immigrant students. Highlights gains in student proficiency, adoption of HQIM, and the implementation of instructional leadership practices.
10	Lyons-Decatur Northeast Case Study (Nebraska)	Describes how Instruction Partners collaborated with Nebraska ESUs and Lyons-Decatur Northeast Elementary to improve math instruction and increase student proficiency from 35% to 67% in one year through HQIM implementation and leader capacity building.

Please note: Landscape-oriented documents (e.g., slide decks) have centered bottom page numbers that appear on the right-hand side when hole-punched in the binder.

Appendix Item 1

Professional Learning Conditions and Practices (PLCP) Rubric

Collaborative planning conditions

Indicator	How do you know?	Current state
1.There is a clear, communicated vision for the purpose of collaborative planning.	**Artifact review:** Collaborative planning vision statement and any materials documenting the plan to communicate it **Teacher and facilitator survey:** "The vision for collaborative planning at my school was communicated to me, and I have a clear understanding of that vision."	☐ **Emerging:** Teams have different ideas for how this time should be spent. ☐ **Developing:** Some teams can articulate the purpose of this time. ☐ **Deepening:** Most teams understand the purpose of this time.
2. There is dedicated and consistent time for teachers to meet regularly.	**Artifact review:** Teacher schedules and attendance at collaborative planning meetings. **Teacher survey:** "I meet with my colleagues regularly to plan collaboratively."	☐ **Emerging:** Teams may meet sporadically, but time is not built into the school's calendar. ☐ **Developing:** Teams meet consistently for a sufficient amount of time, but meetings are not consistent throughout the school and/or this time is often interrupted. ☐ **Deepening:** Most teams meet for a sufficient amount of uninterrupted time.
3. Protocols and processes are in place to ensure effective use of collaboration time.	**Artifact review:** Schoolwide protocols and example agendas. **Teacher and facilitator surveys:** "My team has strong protocols and processes that maximize our time together collaboratively planning."	☐ **Emerging:** There are no schoolwide agendas or protocols shared across teams. ☐ **Developing:** There are some schoolwide agendas and protocols shared across teams, but not all teams use them effectively. ☐ **Deepening:** There are purposeful schoolwide agendas and protocols shared across teams that are aligned to the vision and goals of this time, and most teams use them effectively.
4. All staff members understand their roles and responsibilities in the collaborative planning structure.	**Artifact review:** Any documents specifying the key actions and timelines for leaders, facilitators, and participants involved in collaborative plannings. **Teacher and facilitator surveys:** "I understand what is expected of me in order to make collaborative planning effective." **Facilitator survey:** "I have sufficient time to complete my responsibilities as a facilitator of collaborative planning."	☐ **Emerging:** Roles and responsibilities for collaborative planning do not exist or people are not aware of them. ☐ **Developing:** Roles and responsibilities exist, but many staff are unaware of them or unable to execute on them. ☐ **Deepening:** Roles and responsibilities for collaborative planning exist, and most staff members are able to execute them.
5. Facilitators are trained and well prepared to fulfill their responsibilities in alignment with the vision.	**Artifact review:** The agenda and other available materials from the facilitator training. **Facilitator survey:** "I feel prepared to effectively lead my team in collaborative planning."	☐ **Emerging:** There is no training or support for facilitators. ☐ **Developing:** There is training and support for facilitators, but they do not lead to effective facilitation. ☐ **Deepening:** There is sufficient training and support for facilitators, and they lead to effective facilitation.
6. Teachers and facilitators are invested in collaborative planning time.	**Teacher and facilitator surveys:** "I am invested in collaborative planning time."; "Collaborative planning improves my/teachers' practice."	☐ **Emerging:** Few teachers and facilitators are invested in this time. ☐ **Developing:** Some teachers and facilitators are invested in this time, but a few question its impact and usefulness. ☐ **Deepening:** Most teachers and facilitators are invested in this time and can speak to its impact on their teaching.

This work carries a **CC BY-SA 4.0** license.

7. Interactions between facilitators and teachers affirm teachers' perspectives, efforts, and contributions.	**Observation:** Equity of voice, participation, and vulnerability. **Teacher survey:** "My perspectives, efforts, and contributions are affirmed in interactions with facilitators." **Facilitator survey:** "Interactions between facilitators and teachers affirm teachers' perspectives, efforts, and contributions."	☐ **Emerging:** Few teachers' perspectives, efforts, and contributions are affirmed in interactions with facilitators (specifically those who are least likely to feel affirmed). ☐ **Developing:** Some teachers' perspectives, efforts, and contributions are affirmed in interactions with facilitators (specifically those who are least likely to feel affirmed). ☐ **Deepening:** Most teachers' perspectives, efforts, and contributions are affirmed in interactions with facilitators (specifically those who are least likely to feel affirmed).

Observation and feedback conditions

Indicator	How do you know?	Current state
1. There is a clear, communicated vision for the purpose of observation and feedback.	**Artifact:** Vision statement and a plan to communicate it **Teacher and observer surveys:** "The vision for observation and feedback at my school was communicated to me, and I have a clear understanding of that vision."	☐ **Emerging:** Teachers and observers have different ideas about the purpose of an observation and feedback cycle. ☐ **Developing:** Some teachers and observers can articulate the purpose of an observation and feedback cycle. ☐ **Deepening:** Most teachers and observers understand the purpose of an observation and feedback cycle.
2. There is dedicated and consistent time to engage in observation and feedback.	**Artifact:** Leader weekly schedules with dedicated observation time **Teacher survey:** "I am observed and provided feedback at least once every other week." **Observer survey:** "I observe and provide feedback to the teachers on my caseload at least every other week."	☐ **Emerging:** Observers do not allocate enough time in their schedules to be in classrooms and provide feedback. ☐ **Developing:** Some observers allocate enough time in their schedules to observe and provide feedback, but it is inconsistently followed through on. ☐ **Deepening:** Most observers prioritize classroom observations, spending several hours a week engaged in observations and feedback.
3. There is a way to track that all teachers receive consistent observation and feedback.	**Artifact:** Observation tracker **Teacher survey:** "I can easily access the notes and action steps from my observations and feedback meetings." **Observer survey:** "I use an observation tracker to track observation dates, notes, and action steps and adjust the tracker as needed."	☐ **Emerging:** Observers do not have a shared way of tracking the frequency or content of observations and feedback. ☐ **Developing:** Observers track the frequency and content of observations and feedback in a shared system, but tracking is inconsistent across observers. ☐ **Deepening:** Observers track, share, and reflect on the frequency and content of observations and feedback; they use this information to adapt their practices.
4. All staff members understand their roles and responsibilities in the observation and feedback structure.	**Artifact:** Schoolwide plan that specifies the key actions, dates, and responsibilities for all staff members **Teacher and observer surveys:** "I understand my responsibilities and action steps so that the observation cycle is effective." **Observer survey:** "I have sufficient time to carry out my roles and responsibilities when it comes to observation and feedback."	☐ **Emerging:** Roles and responsibilities for observation and feedback do not exist or people are not aware of them. ☐ **Developing:** Roles and responsibilities for observation and feedback exist, but many staff are unable to execute them. ☐ **Deepening:** Roles and responsibilities for observation and feedback exist, and most staff members are able to execute them.
5. Observers receive training and clear protocols for how to do observation and feedback.	**Artifact:** Agendas or PL materials from observer trainings or joint observations **Observer survey:** "I feel prepared to facilitate an effective observation and feedback cycle."	☐ **Emerging:** There are no trainings or protocols about how to do effective observation and feedback. ☐ **Developing:** There are trainings and protocols for observers, but they do not lead to effective observation and feedback. ☐ **Deepening:** There are trainings and protocols for observers, and they lead to effective observation and feedback.

Download Professional Learning Conditions and Practices at **instructionpartners.org/professional-learning/**
This work carries a **CC BY-SA 4.0** license.

6. Teachers and observers are invested in observation and feedback.	**Teacher and observer surveys:** "I am invested in the observation and feedback process."; "The observation and feedback process improves my/teachers' instructional practice."	☐ **Emerging:** Few teachers and observers are invested in observation and feedback. ☐ **Developing:** Some teachers and observers are invested in observation and feedback, but a few question its impact and usefulness. ☐ **Deepening:** Most teachers and observers are invested in observation and feedback and can speak to its impact.
7. Interactions between observers and teachers affirm teachers' perspectives, efforts, and contributions.	**Observation:** Equity of voice, participation, vulnerability **Teacher survey:** "My perspectives, efforts, and contributions are affirmed in interactions with observers."	☐ **Emerging:** Few teachers (specifically those who are least likely to feel affirmed) have their perspectives, efforts, and/or contributions affirmed in the observation and feedback structure. ☐ **Developing:** Some teachers (specifically those who are least likely to feel affirmed) have their perspectives, efforts, and/or contributions affirmed in the observation and feedback structure. ☐ **Deepening:** Most teachers (specifically those who are least likely to feel affirmed) have their perspectives, efforts, and/or contributions affirmed in the observation and feedback structure.

Appendix 2

ELA Instructional Practice Guide (IPG)

Tennessee Instructional Practice Guide (IPG)
K-12 Knowledge Building Lessons*

*Note: Use the K-2 Foundational Skills IPG when observing lessons focused on foundational skills development.

Culture of Learning: Environmental Readiness		
• Students complete instructional tasks, volunteer responses and/or ask appropriate questions. • Students follow behavioral expectations and directions. • Students execute transitions, routines and procedures in an orderly and efficient manner. • Students are engaged in the work of the lesson from start to finish; there is a sense of urgency about how time is used. • Students and their teacher demonstrate a joy for learning through positive relationships and strong classroom culture that is responsive to student interests, experiences, and approaches to learning.	**Yes** **No**	
Core Action One: High-Quality Texts at the Center of Instruction		
A. A majority of the lesson is spent reading, writing, or speaking about the text(s). Type of text(s) (circle): Information / Literary / Other Media or Format	Yes No	
B. The anchor text(s) are at or above the complexity level expected for the grade and time in the school year.	Yes No	
C. The text(s) exhibit exceptional craft and thought, and/or provide meaningful information in the service of building knowledge.	Yes No	
Core Action One Summary: The majority of the lesson is grounded in a text that is at or above the expected complexity level and the text is utilized to develop knowledge that is worthy of students' time.	**Yes** **No**	
Core Action Two: Effective Use of Questions & Tasks		
A. Questions and tasks address the text by attending to its particular qualitative features: its meaning/purpose, and/or language, structure(s), and knowledge demands.	Yes Somewhat	Mostly Not Yet
B. Questions and tasks require students to use evidence from the text to demonstrate understanding and to support their ideas about the text. These ideas are expressed through written and/or oral responses.	Yes Somewhat	Mostly Not Yet
C. Questions and tasks attend to the words (academic vocabulary), phrases, and sentences within the text.	Yes Somewhat	Mostly Not Yet
D. Questions and tasks are sequenced to build knowledge by guiding students to delve deeper into the text and graphics.	Yes Somewhat	Mostly Not Yet
Core Action Two Summary: Teacher uses questions and tasks to reflect the depth of textual analysis required by grade-level standards and integrate these standards in service of building knowledge.	**Yes** **Somewhat**	**Mostly** **Not Yet**
Core Action Three: Opportunities for Student Engagement **Rating Scale** **Yes** - Teacher provides many opportunities, and most students take them. **Mostly** - Teacher provides many opportunities, and some students take them; or teacher provides some opportunities and most students take them. **Somewhat** - Teacher provides some opportunities, and some students take them. **Not Yet** - Teacher provides few or no opportunities, or few or very few students take the opportunities provided.		
A. The teacher poses questions and tasks that allow opportunities for students to do the majority of the work, and students engage in those opportunities via speaking/listening, reading, and/or writing.	Yes Somewhat	Mostly Not Yet
B. The teacher expects evidence and precision from students and probes students' answers accordingly, and students provide text evidence to support their ideas and display precision in their oral and written responses.	Yes Somewhat	Mostly Not Yet
C. The teacher cultivates reasoning and meaning making by allowing students to productively struggle, and students persevere through difficulty.	Yes Somewhat	Mostly Not Yet
D. The teacher creates conditions for student conversations where students are encouraged to talk and ask questions about each other's thinking, and students engage in those opportunities in order to clarify or improve their understanding.	Yes Somewhat	Mostly Not Yet
E. The teacher deliberately checks for understanding throughout the lesson and adapts the lesson according to student understanding, and students refine their written and/or oral responses (if appropriate).	Yes Somewhat	Mostly Not Yet
Core Action Three Summary: Students are responsible for developing their thinking, analyzing texts, and synthesizing knowledge orally and through writing (with appropriate supports as needed).	**Yes** **Somewhat**	**Mostly** **Not Yet**

Appendix 3

Math Instructional Practice Guide (IPG)

Culture of Learning: Create a classroom culture where student agency, mathematical identity, and belonging contribute to students' mathematical success.		
• Students and their teacher demonstrate a joy for learning through positive relationships and strong classroom culture that is responsive to student interests, experiences, and approaches to learning. • Students demonstrate self-management and there is a classroom culture of student choice and autonomy. • Students demonstrate positive dispositions and beliefs about their ability to participate and perform effectively in mathematics and their ability to use mathematics as a problem-solving tool in powerful ways across the contexts of their lives. • Students are engaged in the mathematics of the lesson from start to finish; there is intentionality about how time is used.	**Yes** **No**	
Core Action One: Focus, Coherence, and Rigor* at the Center of Instruction		
A. A majority of the lesson is spent on the grade/course-level cluster(s), grade/course-level content standard(s), or part(s) thereof. Mathematical Learning Goal: Standard(s) addressed in this lesson:	**Yes** **No**	
B. The curriculum materials are used as designed to connect developing mathematical ideas to math content within or across grades/courses through the use of tasks, examples, multiple representations, discussion, and instructional techniques.	**Yes** **No**	
C. The curriculum materials are used as designed to intentionally target the aspect(s) of Rigor (conceptual understanding, procedural skill and fluency, application) called for by the standard(s) being addressed in the lesson. Which aspect(s) of Rigor are targeted in the standard(s) addressed in the lesson? Which aspect(s) of Rigor are targeted in the instruction?	**Yes** **No**	
Core Action One Summary: The majority of the mathematics content of the lesson is grounded in materials and the delivery of the lesson meets the intent of grade-level standard(s) and leverages mathematical coherence and the appropriate aspect(s) of rigor to develop student understanding.	**Yes** **No**	
Core Action Two: Teacher Strategies to Develop Math Meaning		
A. The teacher uses a variety of explanations, representations, tasks, examples and/or instructional techniques are used to make the mathematics of the lesson explicit.	Yes Somewhat	Mostly Not Yet
B. The teacher shares multiple students' representations and/or solution methods and connects to students' understanding of the content, reduces student misconceptions, and ensures the mathematics is explicit.	Yes Somewhat	Mostly Not Yet
C. The teacher provides feedback and adjusts the lesson in response to student understanding. Questions and tasks surface misconceptions and opportunities for growth.	Yes Somewhat	Mostly Not Yet
D. The teachers uses internal summaries to pause and ensure understanding making references to student work and using discussions and questions reinforce the concepts of the lesson.	Yes Somewhat	Mostly Not Yet
Core Action Two Summary: The teacher uses instructional strategies to ensure all students progress toward mastery of the mathematical concepts addressed in the lesson.	**Yes** **Somewhat**	**Mostly** **Not Yet**
Core Action Three: Provide all students with opportunities to do mathematical thinking within the lesson. *Some or most of the indicators and student behaviors should be observable in every lesson, though not all will be evident in every lesson.*		
A. The teacher provides opportunities and access for all students to work with and practice grade-level problems and exercises. Students work with and practice grade-level problems and exercises.	Yes Somewhat	Mostly Not Yet
B. The teacher cultivates reasoning and problem solving by supporting students productive struggle.* Students reason, make sense of mathematics, and persevere in solving problems in the face of difficulty.	Yes Somewhat	Mostly Not Yet
C. The teacher poses questions and problems that prompt students to explain their thinking in a variety of ways about the content of the lesson. Students share their thinking in a variety of ways about the content of the lesson beyond just stating answers.	Yes Somewhat	Mostly Not Yet
D. The teacher provides opportunities for student conversations where students talk about each other's thinking. Students discuss and ask questions about each other's thinking, in order to clarify or improve their own mathematical understanding, justifications, and explanations.	Yes Somewhat	Mostly Not Yet
E. The teacher connects and develops students' informal and/or home language and mathematical ideas to precise mathematical language* and ideas. Students use increasingly precise mathematical language and ideas as they reason and explain their thinking.	Yes Somewhat	Mostly Not Yet
Core Action Three Summary: Students do and share their mathematical thinking within the lesson to develop a deeper understanding of the mathematical concepts addressed in the lesson.	**Yes** **Somewhat**	**Mostly** **Not Yet**

Appendix 4

Math IPG Norming Deck

IPG Norming

JPS Curriculum Leads, September 10, 2024

INSTRUCTION PARTNERS

Let's spread some JOY!

Think about it:

What is something that has brought you joy in the past week or so? Could be a photo, a memory, a moment, a meal, a joke

In your breakout rooms, share out your moment of joy!

Framing our Time Together

Outcomes for today:

Participants will…

- understand the purpose and design of the IPG
- reflect on key indicators on the IPG
- norm on key indicators of the IPG using a video observation.

Time	Detail
15 mins	Opening, introductions, framing
15 mins	Intro to the Math IPG
20 mins	Zooming in on specific indicators
25 mins	Video observation + norming
10 min	Reflections on our own practice
5 min	Survey + Next Steps

Collaborative Learning Norms

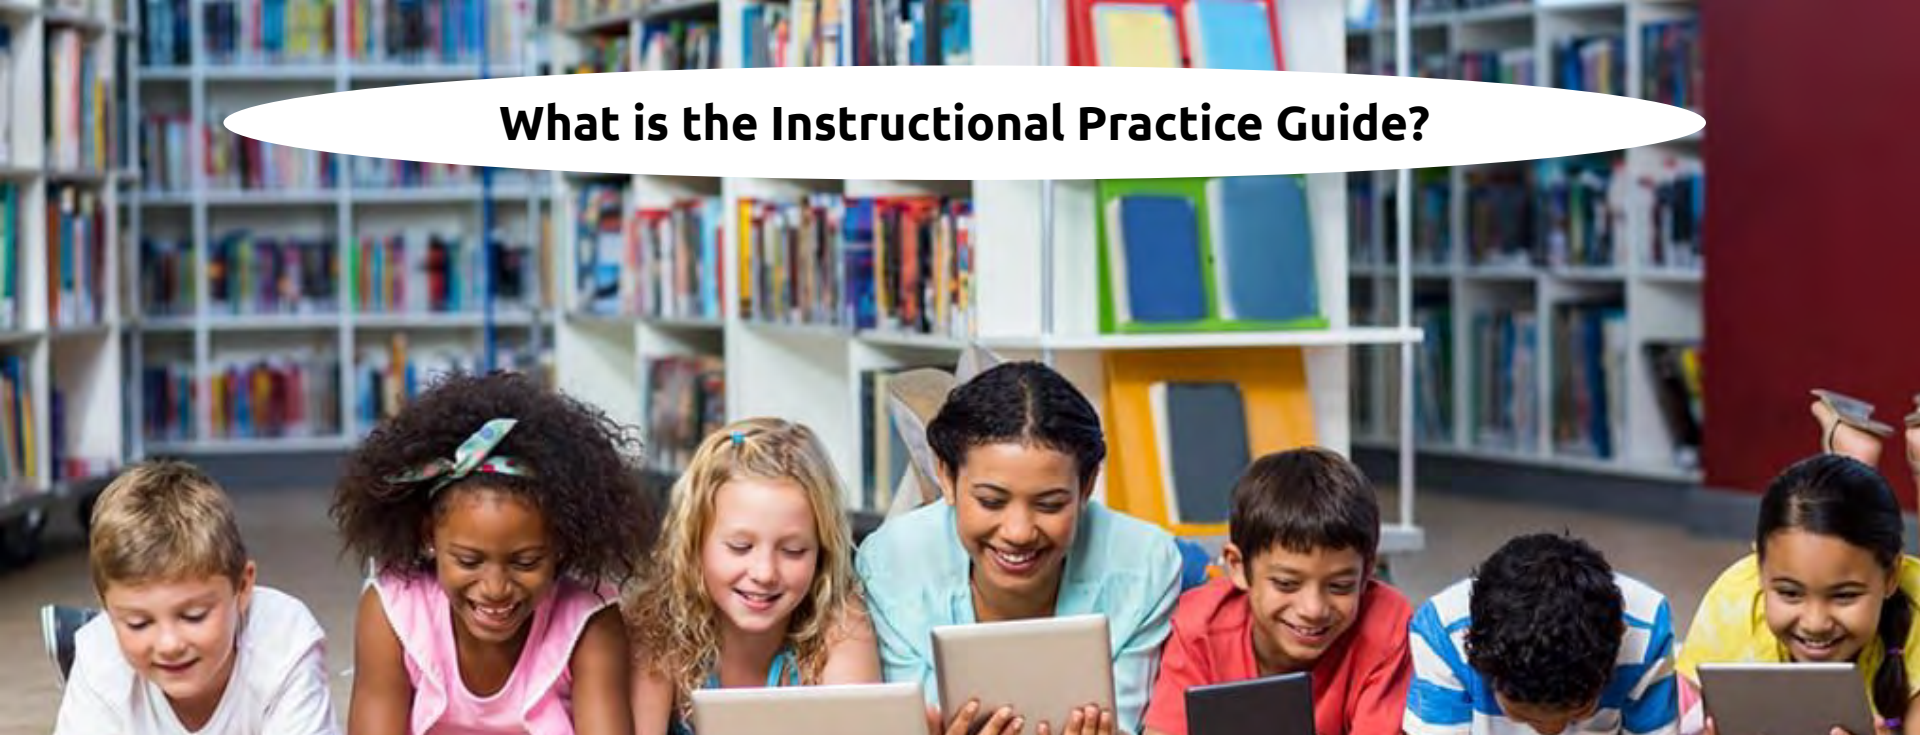
BE PRESENT & ENGAGED
Give yourself this time and space to be **fully present.**

STRIVE FOR EQUITY OF VOICE
All voices are wanted and needed. Actively **listen.**

LOOK FOR BLIND SPOTS
Check your **mindset, tone** and **privilege.** Keep **equity** at the forefront of the work.

STAY SOLUTIONS ORIENTED
We all work for **children.** Assume the **best!** Hold up the **mirror** before the magnifying glass.

EXPECT THE PUSH
We are **learning and growing** together. Sometimes growth is uncomfortable.



USE STRENGTH-BASED LANGUAGE
Refer to students using **"student first"** language. *For example, instead of "the low kids", try "**students with** unfinished teaching".*

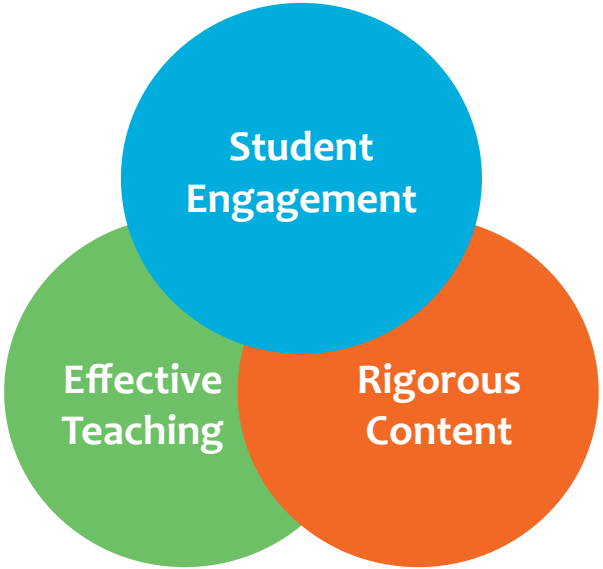
LEARN, UNLEARN, RELEARN
We are not the ultimate knowledge holders. Sometimes we will have to **interrogate what we already know** when faced with new information.

DISRUPT PERFECTIONISM
It is enough to be **good enough.**

Introduction to the Instructional Practice Guide (IPG)

What is the Instructional Practice Guide?

- Developed by Student Achievement Partners
- Describes specific, observable actions that illustrate the vision for excellent math instruction.
- Intended to help teachers and those who support teachers, make shifts in instructional practices to deliver more effective, equitable, standards-aligned instruction.
- Designed as tools for teachers and leaders to gauge whether students are engaging with content in ways that address the expectations of college- and career-ready standards for math

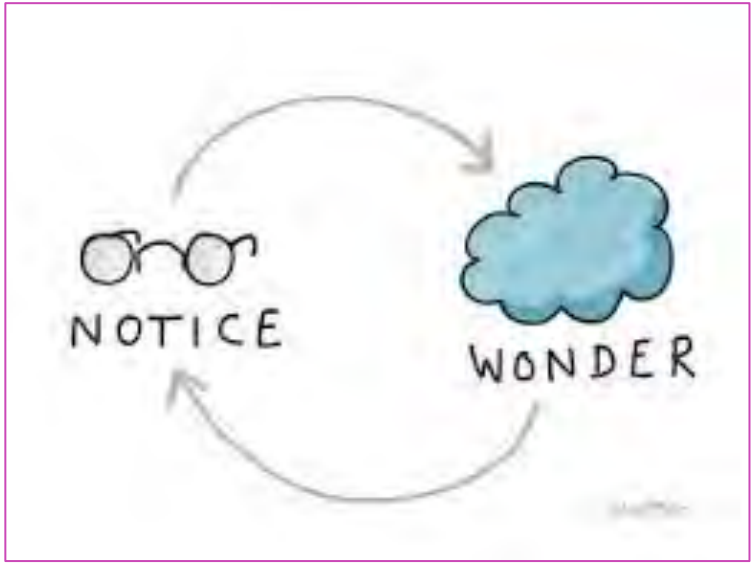


The IPG is a Conversation Tool

The IPG is designed for formative use to facilitate **non-evaluative** teacher observation and promote professional development through discussion and planning.

WHAT STUDENTS NEED

We know from research that improving core **INSTRUCTION** is the key to improving learning.



"**To improve student learning,** you can **raise the level of the content** that students are taught. You can **increase the skill and knowledge that teachers bring to the teaching of that content**. And you can **increase the level of students' active learning of the content**. That's it."

– Dr. Richard Elmore

Notice & Wonder

Individual Reflection: Take the next 4 minutes to look over the IPG and synthesize your thoughts around what you **notice** and what you **wonder**

In small groups, discuss:

- What do you notice? What do you wonder?
- What feels in alignment with the way you approach Math instruction? What is new or different?

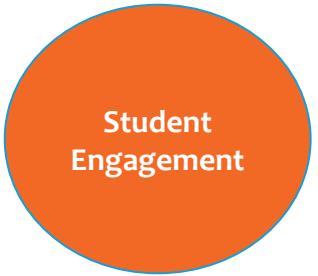
Examples of Notice & Wonderings

I notice that there are three core actions.

I wonder what this means.

Math Classroom Observation Rubric (based on Instructional Practice Guide)

Standard Alignment: Does the lesson reflect the demands of the standards?	
Instruction meets the demand of the standard or pairing of standard(s).	The instruction meets the demand of the standard or pairing of standard(s). 4 – Fully meets 3 – Mostly meets 2 – Partially meets 1 – Does not meet
Core Action 1: Does the lesson ensure the work of the enacted lesson reflects the focus, coherence, and rigor required by college- and career- ready standards in mathematics?	
A. The goal of each lesson reflects mathematics within the grade-level standards.	Yes – The goal of the lesson focuses on mathematics within the grade level standards. No, but appropriate – The goal of the lesson focuses on non-grade-level standards in an intentionally coherent way to increase access to grade-level materials. No – The goal of the lesson does not focus on mathematics within the grade-level standards.
B. Content is linked to prior math knowledge to increase access to grade-level math concepts for students with unfinished learning	Yes - Connections are being made to help students think about the math in a coherent way that helps them access grade-level material. No - Connections are not being made to help students think about the math in a coherent way that helps them access grade-level material.
C. The enacted lesson intentionally targets the aspect(s) of rigor (conceptual understanding, procedural skill and fluency, application) called for by the standard(s) being addressed.	Circle the aspect(s) of rigor targeted in the standard addressed in this lesson: Conceptual, Procedural, Application Yes – The enacted lesson explicitly targets the aspect(s) of rigor called for by the standard(s) being addressed. No – The enacted lesson targets aspects of rigor that are not appropriate for the standard(s) being addressed.
Core Action 2: Does the lesson employ instructional practices that allow all students to learn the content of the lesson?	
A. The teacher makes the mathematics of the lesson clear through the use of explanations, representations, tasks, and/or examples.	4 – A variety of instructional techniques and examples are used to make the mathematics of the lesson clear. 3 – Examples are used to make the mathematics of the lesson clear. 2 – Instruction is limited to showing students how to get the answer. 1 – Instruction is not focused on the mathematics of the lesson.
B. The teacher strengthens all students' understanding of the content by strategically sharing students' representations and/or solution methods and connecting those solutions to the learning goal of the lesson.	4 – Student solution methods are shared and connections to the mathematics are explicit and purposeful. Connections between the methods are examined. 3 – Student solution methods are shared and some mathematical connections are made between them. 2 – Student solution methods are shared, but few connections are made to strengthen student understanding. 1 – Student solution methods are not shared.
C. The teacher deliberately checks for understanding to surface misconceptions and opportunities for growth to provide feedback to students.	4 - The teacher checks for understanding among most students. Feedback is provided and students are expected to incorporate feedback into their work. 3 - The teacher checks for understanding among most students and feedback is provided. 2 - The teacher checks for understanding among some students. Feedback is provided to those students. 1 - The teacher checks for understanding among few or no students and/or no feedback is provided.
D. Throughout the lesson the teacher facilitates summaries of the key learnings with references to student work and discussion in order to reinforce the purpose of the lesson.	4 – The lesson includes a summary with references to student work and discussion that reinforces the mathematics. 3 – The lesson includes a summary with a focus on the mathematics. 2 – The lesson includes a summary with limited focus on the mathematics. 1 – The lesson does not include a summary of the mathematics.
F. Students from historically marginalized communities consistently receive supportive feedback that affirms their abilities and potential as mathematicians.	4 - The teacher consistently provides feedback that affirms the abilities and potential of a variety of individual students and includes precision and nuance unique to the student's work. 3 - The teacher consistently provides feedback that affirms the abilities and potential of a variety of individual students and extends beyond stating answers are right or wrong. 2 - The teacher provides feedback that affirms the abilities and potential of a limited set of individual students and



I notice that everything is scored 1-4

Whole Group Share

- What trends do you see in the notice and wonderings?
- What stands out to you in the IPG?
- What immediate questions are coming up?

Core Action Buckets

Core Action 1: Does the lesson ensure the work of the enacted lesson reflects the focus, coherence and rigor required by college and career ready standards in mathematics?	
Core Action 2: Does the lesson employ instructional practices that allow all students to learn the content of the lesson?	
Core Action 3: Does the lesson and instruction provide support for all students to exhibit mathematical practices while engaging with the content of the lesson?	

Whole Group Reflection

How do you envision the IPG being a **supportive** tool to use with the teachers you coach?

Core Action 1: Rigorous Content

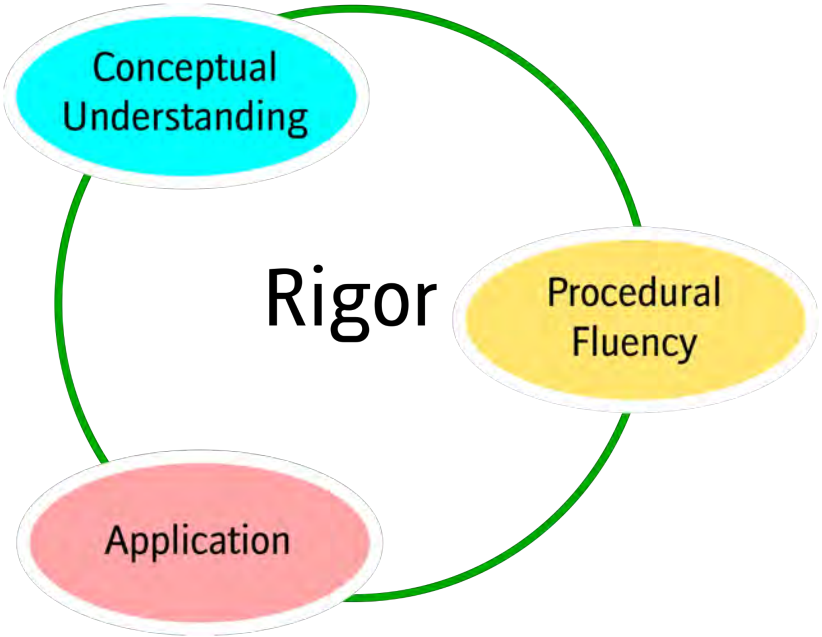
Core Action 1

Does the lesson ensure the work of the enacted lesson reflects the Focus, Coherence, & Rigor required by college and career ready standards in mathematics?

Rigorous Content

A. The **goal** of each lesson reflects mathematics within the **grade-level standards**.	Yes - The goal of the lesson focuses only on mathematics **within the grade-level standards**. *No, but appropriate - The goal of the lesson focuses on non grade-level standards in an intentionally coherent way to increase access to grade level materials.* No - The goal of the lesson does not focus on mathematics within the grade level standards.
B. Content is **linked to prior math knowledge** to increase access to grade level math concepts **for students with unfinished learning**.	Yes - **Connections** are being made to help students think about the math in a **coherent** way that helps them access **grade level material**. No - Connections are not being made to help students think about the math in a coherent way that helps them access grade level material.
C. The enacted lesson **intentionally targets the aspect(s) of rigor** (conceptual understanding, procedural skills and fluency, application) called for by the standard(s) being addressed.	Circle the aspect(s) of rigor targeted in the standard addressed in this lesson: Conceptual, Procedural, Application Yes - The enacted lesson explicitly **targets the aspect(s) of rigor called for by the standard(s) being addressed**. No - The enacted lesson targets aspects of rigor that are not appropriate for the standard(s) being addressed.

Core Action 1C: Aspect(s) of Rigor



C. The enacted lesson intentionally targets the aspect(s) of rigor (conceptual understanding, procedural skill and fluency, application) called for by the standard(s) being addressed.	Circle the aspect(s) of rigor targeted in the standard addressed in this lesson: Conceptual, Procedural, Application Yes – The enacted lesson explicitly targets the aspect(s) of rigor called for by the standard(s) being addressed. No – The enacted lesson targets aspects of rigor that are not appropriate for the standard(s) being addressed.

This indicator has two decision points:

1) What aspect(s) of rigor does the standard the lesson is covering target?
2) Does the enacted lesson align with what we expect to see for that aspect of rigor?

Aspects of Rigor

Associated with higher order thinking skills, working with multiple representations, and generally moving beyond performing procedures.

Students are asked to perform core functions required by grade-level mathematics with accuracy and flexibility. **Fluency** is explicitly called for in certain standards and implies efficiency.

Can be thought of generally as problem solving, in real-world or mathematical contexts.

Example: 4.NF.A.1

4.NF.A.1: Explain why a fraction a/b is equivalent to a fraction (n × a)/(n × b) by using visual fraction models, with attention to how the number and size of the parts differ even though the two fractions themselves are the same size. Use this principle to recognize and generate equivalent fractions. (Denominators are limited to 2, 3, 4, 5, 6, 8, 10, 12, and 100.)

What aspect of rigor do we feel this standard is targeting? Why?

A) Conceptual Understanding

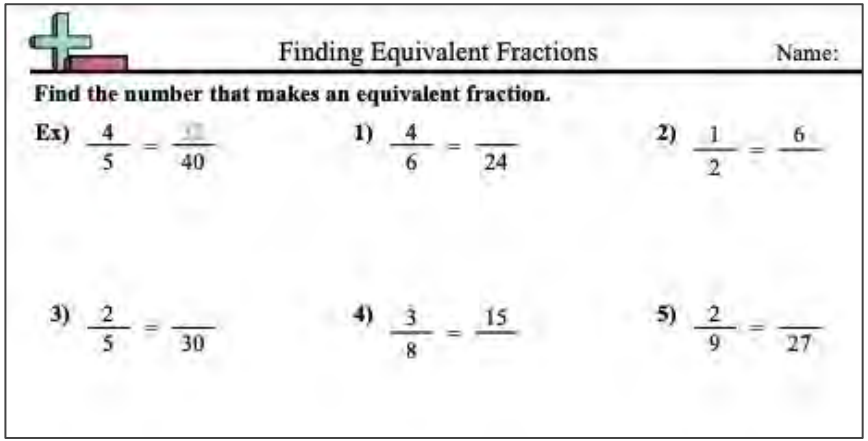
B) Procedural Skill & Fluency

C) Application

Example: 4.NF.A.1

4.NF.A.1: Explain why a fraction a/b is equivalent to a fraction (n × a)/(n × b) by using visual fraction models, with attention to how the number and size of the parts differ even though the two fractions themselves are the same size. Use this principle to recognize and generate equivalent fractions. (Denominators are limited to 2, 3, 4, 5, 6, 8, 10, 12, and 100.)

What aspect of rigor do we feel this standard is targeting? Why?



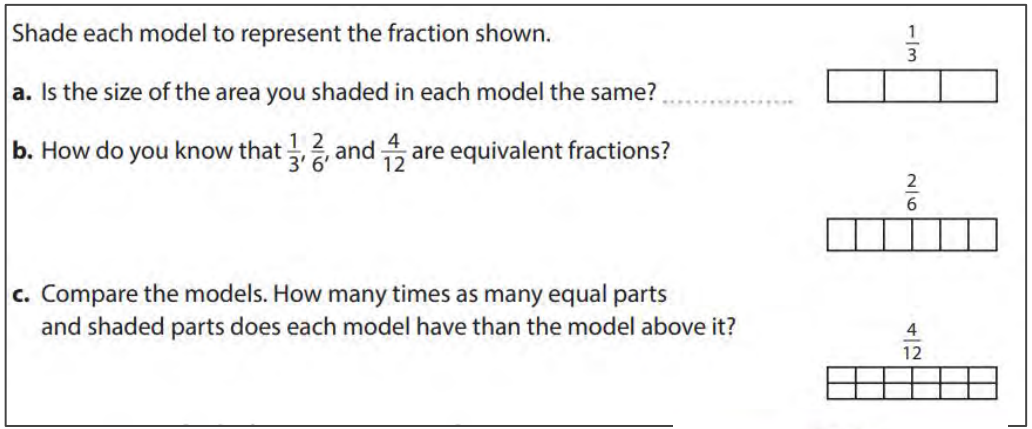
A) Conceptual Understanding

B) Procedural Skill & Fluency

C) Application

Connection Between Aspect of Rigor & Task

Google Search: "4.NF.A.1 Worksheets"



Finding Equivalent Fractions Name:

Find the number that makes an equivalent fraction.

Ex) $\frac{4}{5} = \frac{\square}{40}$ 1) $\frac{4}{6} = \frac{\square}{24}$ 2) $\frac{1}{2} = \frac{6}{\square}$

3) $\frac{2}{5} = \frac{\square}{30}$ 4) $\frac{3}{8} = \frac{15}{\square}$ 5) $\frac{2}{9} = \frac{\square}{27}$

Aligned Curriculum: iReady Math, Lesson 17, Session 1 Targeting 4.NF.A.1

Shade each model to represent the fraction shown.

a. Is the size of the area you shaded in each model the same? .....

b. How do you know that $\frac{1}{3}$, $\frac{2}{6}$, and $\frac{4}{12}$ are equivalent fractions?

c. Compare the models. How many times as many equal parts and shaded parts does each model have than the model above it?

$\frac{1}{3}$ $\frac{2}{6}$ $\frac{4}{12}$

DISCUSS IT

- How could you and your partner use multiplication to find another equivalent fraction for $\frac{1}{3}$?
- I think models and equations can help you understand equivalent fractions because . . .

- What similarities and differences do you see between these two tasks?
- What makes the task from iReady more aligned than the googled worksheet?

Connection Between Aspect of Rigor and Instruction

If we know this standard/lesson is targeting conceptual understanding…

- What teacher actions do we expect to see?
- What student actions do we expect to see?

Teacher Actions	Student Actions
• Asking students to explain WHY • Sharing student examples and representations • Guide students to make connections between strategies • Posing questions to push kids to explain their thinking	• Trying the problem on their own using their own strategies and representations • Looking at strategies and making connections • Using manipulatives to build understanding

Core Action 2: Effective Teaching

Effective Teaching

Does the lesson employ ***instructional practices*** that allow **all students** to learn the content of the lesson?

Core Action 2: Does the lesson employ instructional practices that allow all students to learn the content of the lesson?	
A. The teacher makes the mathematics of the lesson clear through the use of explanations, representations, tasks, and/or examples.	4 – A variety of instructional techniques and examples are used to make the mathematics of the lesson clear. 3 – Examples are used to make the mathematics of the lesson clear. 2 – Instruction is limited to showing students how to get the answer. 1 – Instruction is not focused on the mathematics of the lesson.
B. The teacher strengthens all students' understanding of the content by strategically sharing students' representations and/or solution methods and connecting those solutions to the learning goal of the lesson.	4 – Student solution methods are shared and connections to the mathematics are explicit and purposeful. Connections between the methods are examined. 3 – Student solution methods are shared and some mathematical connections are made between them. 2 – Student solution methods are shared, but few connections are made to strengthen student understanding. 1 – Student solution methods are not shared.
C. The teacher deliberately checks for understanding to surface misconceptions and opportunities for growth to provide feedback to students.	4 - The teacher checks for understanding among most students. Feedback is provided and students are expected to incorporate feedback into their work. 3 - The teacher checks for understanding among most students and feedback is provided. 2 - The teacher checks for understanding among some students. Feedback is provided to those students. 1 - The teacher checks for understanding among few or no students and/or no feedback is provided.
D. Throughout the lesson the teacher facilitates summaries of the key learnings with references to student work and discussion in order to reinforce the purpose of the lesson.	4 – The lesson includes a summary with references to student work and discussion that reinforces the mathematics. 3 – The lesson includes a summary with a focus on the mathematics. 2 – The lesson includes a summary with limited focus on the mathematics. 1 – The lesson does not include a summary of the mathematics.
F. Students from historically marginalized communities consistently receive supportive feedback that affirms their abilities and potential as mathematicians.	4 - The teacher consistently provides feedback that affirms the abilities and potential of a variety of individual students and includes precision and nuance unique to the student's work. 3 - The teacher consistently provides feedback that affirms the abilities and potential of a variety of individual students and extends beyond stating answers are right or wrong. 2 - The teacher provides feedback that affirms the abilities and potential of a limited set of individual students and

Core Action 2A

The teacher makes the mathematics of the lesson clear through the use of explanations, representations, tasks, and/or examples.	4 —A variety of instructional techniques and examples are used to make the mathematics of the lesson clear. 3 — Examples are used to make the mathematics of the lesson clear. 2 — Instruction is limited to showing students how to get the answer. 1 — Instruction is not focused on the mathematics of the lesson.

- Multiple strategies to solve
- Teachers allow students to grapple with the work

- Lecture
- Following the procedure the teacher is demonstrating

Scenario Practice

During Lesson 4 in 6th grade, students are exploring the idea that expressions with variables can be used to generalize relationships; they will understand that algebraic expressions can represent real-world situations in which a quantity is unknown.

Use what you know to try to solve the problem below.

Kaley is making a long bench for a daycare center. She connects 1-foot wooden cubes in a row. She will use fabric to cover the bench on all sides, including the bottom. What is the surface area to be covered with fabric if Kaley uses 20 cubes?

- What would we expect to see if instruction were on the 3 / 4 side?
- What would we expect to see if instruction were on the 1 / 2 side?

2A

In scoring 2A, we should consider…

- What is the aspect of rigor (1C) of the standard tagged to this lesson? Knowing that this is **conceptual** and **procedural** helps me to narrow my lens around success in 2A
- In this classroom, a ¾ for 2A would come from…
  - Students having the opportunity to try a variety of strategies
  - Students aren't using *every* strategy, but rather choosing the one that makes the most sense for them
  - By the end of the lesson, fluency with solving

A 3 or 4 on 2A doesn't call for students to do all 30 problems in the lesson plan.

What it *does* call for is students having the opportunity to practice the problems most aligned with the depth of the objective.

Core Action 3

Core Action 3 Focus: 3D

Student Engagement

Core Action 3: Does the lesson and instruction provide support for all students to exhibit mathematical practices while engaging with the content of the lesson?	
A. Students do the majority of the work of the lesson by working with and practi	4 - Most students are doing the majority of the work in service of grade-level standards. 3 - Some students are doing the majority of the work in service of grade-level standards.
B. Stude reason	
C. Students display their thinking about the content of the lesson beyond just stating answers.	4 - Most students display their thinking beyond just stating answers in service of grade-level understanding. 3 - Some students display their thinking beyond just stating answers in service of grade-level understanding. 2 - Few students display their thinking beyond just stating answers in service of grade-level understanding, OR students are displaying their thinking beyond just stating answers, but not in service of grade-level understanding. 1 - Few or no students display their thinking beyond just stating answers.
D. Students talk and ask questions about each other's thinking, in order to clarify or improve their own mathematical understanding.	4 - Most students are engaged in student-to-student conversations that are in service clarify and improve their understanding. 3 - Some students are engaged in student-to-student conversations that are in se clarify and improve their understanding. 2 - Few student conversations are occurring in service of grade-level understandi conversations are occurring but not in service of grade-level understanding. 1 - Student-to-student conversations are not occurring for most students.
E. Students connect their informal language and mathematical ideas to increasingly precise mathematical language and ideas.	4 - Most students are asked to connect their informal language and ideas to more precise ma language and ideas in service of grade-level understanding. 3 - Some students are asked to connect their informal language and ideas to more precise mathematical language and ideas in service of grade-level understanding. 2 - Few students are asked to connect their informal language and mathematical ideas in service of grade-level content, OR students are asked to connect their informal language and mathematical ideas, but not in service of grade-level understanding. 1 - Students are not asked to connect their informal language and mathematical ideas to more precise mathematical

Let's paint the picture:
What would this look like in action?
What would we see and hear students doing?

Students talk to each other about the math

Any Questions?

Practice Time: Using the IPG!

What does it mean to “norm” on the IPG?

- Come to an agreement on a rating for each indicator using evidence from classroom instruction
    - We are looking to be on the 3/4 side of the line or the 1/2 side of the line - agreement on what equates to positive lessons.
- Develop a shared understanding of the core indicators
- Engage in rich conversation about instruction for the purpose of sharpening our individual and collective lens

Let's norm on ratings: the context

- Video is from a fifth grade math classroom in Murfreesboro City Schools
- Students are working on a fraction division task called The Hiking Task
- The Standards:

5.NF.B.7.b: Interpret division of a whole number by a unit fraction, and compute such quotients. *For example, create a story context for 4 ÷ (1/5), and use a visual fraction model to show the quotient. Use the relationship between multiplication and division to explain that 4 ÷ (1/5) = 20, because 20 × (1/5) = 4.*

5.NF.B.7.c: Solve real-world problems involving division of unit fractions by non-zero whole numbers and division of whole numbers by unit fractions, e.g., by using visual fraction models and equations to represent the problem. For example, how much chocolate will each person get if 3 people share 1/2 lb of chocolate equally? How many 1/3-cup servings are in 2 cups of raisins?

Aspect of Rigor

- Based on the language of the standard, which aspect(s) of rigor is it targeting? How do you know? **Type your answer in the chat but don't hit send until I say go!**
  - Conceptual Understanding
  - Procedural Skill and Fluency
  - Application

The Standards:

5.NF.B.7.B: Interpret division of a whole number by a unit fraction, and compute such quotients. *For example, create a story context for 4 ÷ (1/5), and use a visual fraction model to show the quotient. Use the relationship between multiplication and division to explain that 4 ÷ (1/5) = 20, because 20 × (1/5) = 4.*

5.NF.B.7.c: Solve real-world problems involving division of unit fractions by non-zero whole numbers and division of whole numbers by unit fractions, e.g., by using visual fraction models and equations to represent the problem. For example, how much chocolate will each person get if 3 people share 1/2 lb of chocolate equally? How many 1/3-cup servings are in 2 cups of raisins?

Aspect of Rigor

- Based on the language of the standard, which aspect(s) of rigor is it targeting? How do you know?
  - Conceptual Understanding
  - Procedural Skill and Fluency
  - Application

- Knowing what we know about conceptual understanding, procedural skill and fluency, and real-world application, what can we expect to see from a classroom that explicitly targets these aspects of rigor?

The Task

A group of hikers is on a 4 mile hike. They stop every ⅓ mile to rest and drink water. How many stops did they make during their hike?

Let's watch: the observation

What is the Teacher doing/saying?	What are students doing/saying?

While you watch: take low inference notes about what the teacher is doing and what the students are doing. This will help inform your ratings!

Independent Reflection

Take 5 minutes to:

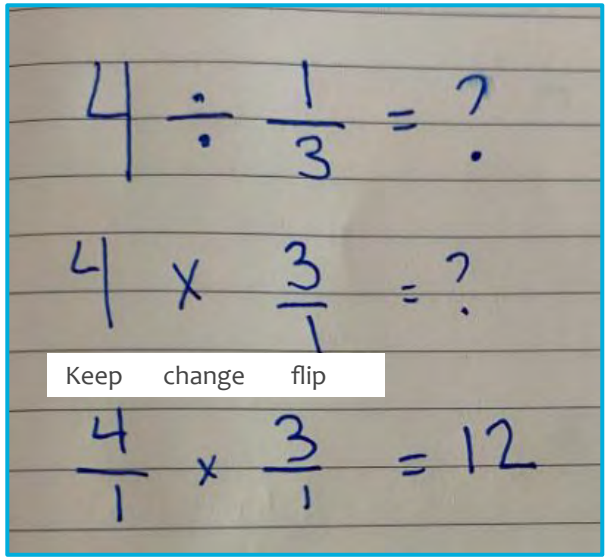
- Rate 1C, 2A, and 3D for this video using the IPG
  - What evidence supports your ratings?

Have no fear!

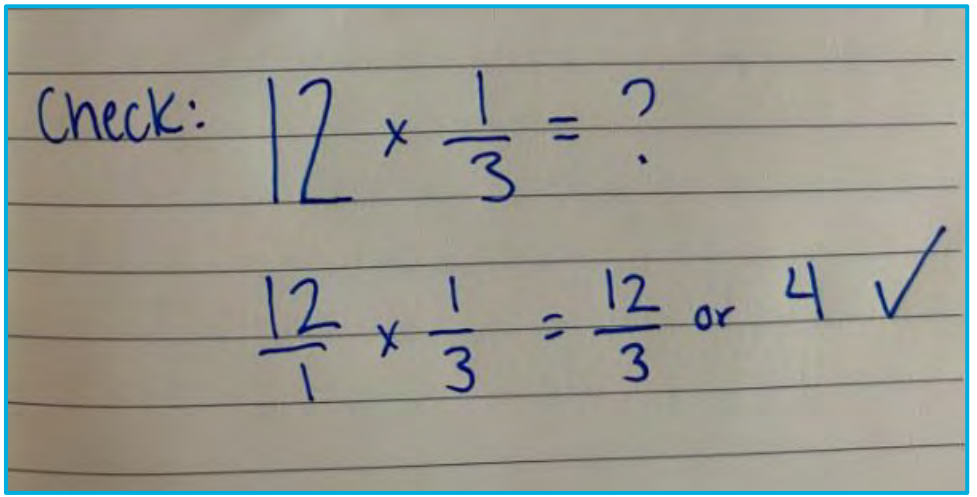
- We do not expect you to be an expert on the IPG today!

In small groups…

- Norm on your ratings and evidence specifically for Core Action 1C, 2A and 3D (remember 1/2 side vs. 3/4 side is most important)
- Be prepared to share out when we come back together as a whole group



Whole Group Share

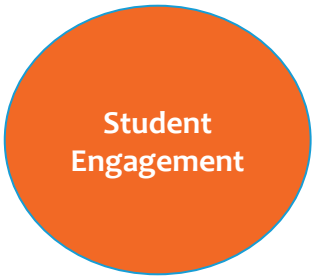


Core Action 1C: The enacted lesson intentionally targets the aspect(s) of rigor (conceptual understanding, procedural skill and fluency, application) called for by the standard(s) being addressed.	Circle the aspect(s) of rigor targeted in the standard addressed in this lesson: Conceptual, Procedural, Application Yes – The enacted lesson explicitly targets the aspect(s) of rigor called for by the standard(s) being addressed. No – The enacted lesson targets aspects of rigor that are not appropriate for the standard(s) being addressed.
Core Action 2A: The teacher makes the mathematics of the lesson clear through the use of explanations, representations, tasks, and/or examples.	4 – A variety of instructional techniques and examples are used to make the mathematics of the lesson clear. 3 – Examples are used to make the mathematics of the lesson clear. 2 – Instruction is limited to showing students how to get the answer. 1 – Instruction is not focused on the mathematics of the lesson.

Group Reflection

Thinking about what we just rated on 1C and 2A:

- If the teacher had taught the standard using the solving method below instead of the task she used, what would be the difference in student understanding?



Group Reflection

- If this standard were being taught in your building, what do you think instruction would look like (in terms of the aspect of rigor)? Which would you like to see? How does it impact student learning?

Whole Group Share: Core Action 3D

Standard	5.NF.B.7b
Core Action 3D: Students talk and ask questions about each other's thinking, in order to clarify or improve their own mathematical understanding.	4 - Most students are engaged in student-to-student conversations that are in service of grade-level understanding and clarify and improve their understanding. 3 - Some students are engaged in student-to-student conversations that are in service of grade-level understanding and clarify and improve their understanding. 2 - Few student conversations are occurring in service of grade-level understanding, **OR** student-to-student conversations are occurring but not in service of grade-level understanding. 1 - Student-to-student conversations are not occurring for most students.

Stamping Our Learning

Core Action 1: Does the lesson ensure the work of the enacted lesson reflects the focus, coherence and rigor required by college and career ready standards in mathematics?	
Core Action 2: Does the lesson employ instructional practices that allow all students to learn the content of the lesson?	
Core Action 3: Does the lesson and instruction provide support for all students to exhibit mathematical practices while engaging with the content of the lesson?	

Final Reflections + Survey

Let's reflect

The more reflective you are, the more effective you are!

- How do you see the IPG being a supportive tool for us to use with leaders during a walkthrough?
- How do you see the IPG being a supportive tool for leaders to use with their teachers?

Appendix Item 5

ELA Lesson Internalization Process Example

CKLA Lesson Internalization

INSTRUCTION PARTNERS

Objectives

We will identify and understand the components of the lesson internalization process.

We will deepen our understanding of the lesson internalization process by internalizing an upcoming lesson.

Collaborative Learning Norms

Be Present & Engaged	Give yourself this time and space. Use tech and/or paper and give time for **reflection/engagement.**
Stay Solutions Oriented	We all work for **children**. Assume the **best**! Hold up the **mirror** before the magnifying glass.
****Expect the Push**	We are **learning and growing together** and sometimes growth is uncomfortable.

Collaborative Learning Norms

Be Present & Engaged	Give yourself this time and space. Use tech and/or paper and give time for **reflection/engagement.**
Strive for Equity of Voice	**All voices** are wanted and needed. Actively **listen**.
Look for Blind Spots	Check your **mindset, tone** and **privilege**. Keep **equity** at the forefront of the work.
Stay Solutions Oriented	We all work for **children**. Assume the **best**! Hold up the **mirror** before the magnifying glass.
Expect the Push	We are **learning and growing together** and sometimes growth is uncomfortable.

Lesson Internalization Process

Why Lesson Internalization?

- My Story…

What holds true about this process . . .

- **Process over product**
  - The template is just a means to help us build our habits in strong lesson internalization.
- **It's dynamic.**
  - Expect it to change as you deepen your knowledge of EL and apply it to different lessons. Certain lessons might need more detailed and focus planning than others.
- **Gradual Release**
  - You will gradually increase the frequency you use this template for your lessons so that you get more practice using the template and more individual support.

The Process

1	Know the Text
2	Identify and break down the standard(s) and learning target(s)
3	Prioritize questions and tasks
4	Know where students need to end the lesson (exemplar, misconceptions)
5	Make connections to the unit and other lessons

Looking over the template

Step 1: Know the text	Notes
• Identify the most **important aspects of the text** and what might be hard for students in reading it (qualitative features, knowledge demands, etc). • What parts of the text (such as specific lines) will you bring attention to?	
Step 2: Identify and break down the focus standard and learning target of the lesson.	
• What is the **standard(s)** and learning target? • What **knowledge** do students need to master this learning target? • What **skills** do students need to master this standard?	
Step 3: Identify which questions/tasks to prioritize.	
• What **questions or tasks** in the lesson best reflect the demands of the standard? *(These are the ones to prioritize getting to/including in the lesson).* • How will these turn/talk **questions** help students make meaning of the text? • What **other questions** *(questions should build in complexity from recall to analytical)* should I add/create to build students' understanding and analysis?	

Read over the template independently and make annotations on your copy.

- *What are the steps asking for?*
- *How might these shifts support student outcomes?*
- *What questions come up as you look over it?*

Step 1: Know the text

Step 1: Know the text

- Identify the most **important aspects of the text** and what might be hard for students in reading it (qualitative features, knowledge demands, etc).
- What parts of the text (such as specific lines) will you bring attention to?

Chapter 6

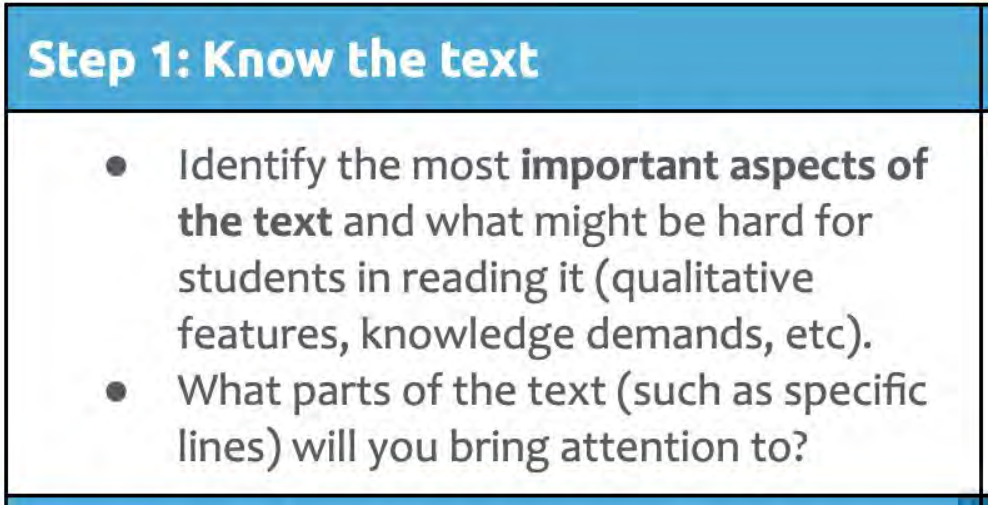
From Valley Forge to Yorktown

THE BIG QUESTION
What European country joined the Continental Army to fight the British, and how did their help influence the outcome of the war?

There is a saying, "what doesn't kill you makes you stronger." The winter of 1777 to 1778 was a difficult time for Washington and his men. Those who survived that winter in Valley Forge came to think they were strong enough to survive just about anything!

In February 1778, the French military entered the war to fight alongside the Continental Army. France was a longtime enemy of Great Britain, so they welcomed the opportunity to assist the colonists in their fight against the British. This was good news for the colonists. France had a strong, organized military. French involvement meant help was on the way!

Then, in late February, a man with a heavy German accent arrived in Valley Forge. His name was Friedrich Wilhelm Ludolf Gerhard Augustin von Steuben. The purpose for his arrival began during the previous summer when von Steuben traveled to Paris to volunteer his services to the Count de St. Germain, the French Minister of War. St. Germain had been so **impressed** with von Steuben's military experience that he sent him across the Atlantic Ocean to meet George Washington. George Washington was equally impressed and asked von Steuben to train his soldiers. There was just one problem: von Steuben knew only a few words of English. So, he shouted his commands in German, then someone would translate the words into English.



Step 1: Know the text

Step 1: Know the text	Notes
• Identify the most **important aspects of the text** and what might be hard for students in reading it (qualitative features, knowledge demands, etc).	• Chronological events + dates • Understanding the cause/effect of military actions and events • Domain specific vocabulary (monarchy, militia, etc) • Headings to show the most important parts of the text • Photos that show the most important events
• What parts of the text (such as specific lines) will you bring attention to?	• The paragraphs that most directly relate to the big question of the lesson

Partner Debrief

- Why should you start with the text when you are lesson planning?
- How will understanding the text's difficulties help you understand what else in the lesson might be difficult for students?

Step 1: Planning Time

With your grade level partner, look at the text for your upcoming lesson to fill out Step 1 of the planning template.

Step 2: Break down the standards & learning targets

Step 2: Identify and break down the focus standard and learning target of the lesson.

- What is the **standard(s)** and learning target?
- What **knowledge** do students need to master this learning target?
- What **skills** do students need to master this standard?

PRIMARY FOCUS OF LESSON

Spelling

Students will correctly spell targeted words related to lesson content. **[L.4.2d, L.4.6]**

Writing

Students will use paragraph writing skills to draft an essay describing the causes and effects leading to the American Revolution. **[RI.4.9; W.4.2, W.4.2b, W.4.2c, W.4.2d]**

Reading

Students will make inferences from the text to understand why the French army joined forces with the Continental Army and how this affected the outcome of the American Revolutionary War. **[RI.4.1]**

Step 2: Break down the standards & learning targets

PRIMARY FOCUS OF LESSON

Spelling
Students will correctly spell targeted words related to lesson content. [L.4.2d, L.4.6]

Writing
Students will use paragraph writing skills to draft an essay describing the causes and effects leading to the American Revolution. [RI.4.9; W.4.2, W.4.2b, W.4.2c, W.4.2d]

Reading
Students will make inferences from the text to understand why the French army joined forces with the Continental Army and how this affected the outcome of the American Revolutionary War. [RI.4.1]

Common Core Standards

RI 4.1-Refer to details and examples in a text when explaining what the text says explicitly and when drawing inferences from the text.

RI 4.9-. Integrate information from two texts on the same topic in order to write or speak about the subject knowledgeably

W4.2-Write informative/explanatory texts to examine a topic and convey ideas and information clearly.

Step 2: Break down the standards & learning targets

PRIMARY FOCUS OF LESSON

Spelling
Students will correctly spell targeted words related to lesson content. **[L.4.2d, L.4.6]**

Writing
Students will use paragraph writing skills to draft an essay describing the causes and effects leading to the American Revolution. **[RI.4.9; W.4.2, W.4.2b, W.4.2c, W.4.2d]**

Reading
Students will make inferences from the text to understand why the French army joined forces with the Continental Army and how this affected the outcome of the American Revolutionary War. **[RI.4.1]**

Knowledge:

- Content specific vocabulary
- Background knowledge about the American Revolution
- Cause/effect concept
- How to structure a body paragraph (sequential order of events, etc)

Skills:

- Using transition words
- Using content specific vocabulary in writing
- Basic writing conventions
- Incorporating specific details about the historical events (dates, facts, etc)

Partner Debrief

How can breaking down the standards and learning targets help you understand what students need to do in the lesson?

Step 2 Planning Time

Step 2: Identify and break down the focus standard and learning target of the lesson.

- What is the **standard(s)** and learning target?
- What **knowledge** do students need to master this learning target?
- What **skills** do students need to master this standard?

With your grade level partner, look at your upcoming lesson plan to fill out Step 2 of the planning template.

Step 3: Prioritizing questions and tasks

Step 3: Identify which questions/tasks to prioritize.

- What **questions or tasks** in the lesson best reflect the demands of the standard? *(These are the ones to prioritize getting to/including in the lesson).*
- How will these turn/talk **questions** help students make meaning of the text?
- What **other questions** *(questions should build in complexity from recall to analytical)* should I add/create to build students' understanding and analysis?

Step 3: Prioritizing questions and tasks

READING

Support

What prior conflict between France and Great Britain caused the British to go into debt and led Parliament to impose taxes on the colonies?

» the French and Indian War

Literal. What European country joined the Continental Army to fight the British and why?

» France joined the Continental Army to fight the British because it was a longtime enemy of Great Britain.

Inferential. How do you think the colonists felt about French involvement in the war and why?

» Answers may vary, but may include that the colonists felt happy or excited about France's involvement because France had a strong, organized military, whereas the colonists did not.

WRITING

MODEL WRITING A BODY PARAGRAPH (15 MIN.)

- Use the prepared Sample Writing Prompt Response below (or prepare your own) to model for students how to draft a body paragraph on the board or on chart paper. Think aloud as you write, pointing out transition words, use of commas, capitalization choices, and other skills described in the rubric. Ask for student input as you model making writing choices.

  By 1773, the colonists had been living with unfair taxation for many years. The Stamp Act had been repealed, but the British government imposed new taxes on the colonists. When the British imposed a tax on tea, the colonists boycotted, refusing to buy British tea. Led by the Sons of Liberty, a group of patriots protested and tossed tea into Boston Harbor.

- Continuing to think aloud, tell students that you are going to check to see whether you have included the necessary information found in the "Body" section for paragraph 1 in your response to the writing prompt. Model how to add content to the paragraph, writing on the board/chart paper.
- Note the first item in the rubric: repeal of the Stamp Act.

Partner Debrief

Why might it help to prioritize specific questions and tasks vs trying to get through everything in the lesson?

Step 3: Planning Time

Step 3: Identify which questions/tasks to prioritize.

- What **questions or tasks** in the lesson best reflect the demands of the standard? *(These are the ones to prioritize getting to/including in the lesson).*
- How will these turn/talk **questions** help students make meaning of the text?
- What **other questions** *(questions should build in complexity from recall to analytical)* should I add/create to build students' understanding and analysis?

Level 1 :Why do the pirates decide to mutiny?

Level 1: Why do the pirates choose to continue with LJS as the leader?

Level 2: What is the simile used to describe the men when they see LJS has the treasure map?

Level 3: What does this simile say about the men's feelings in that moment when they see the treasure map?

Step 4: Know where students need to end the lesson

Step 4: Know where students need to end the lesson

- Look at the **exemplar**. What do students need to be able to do? What evidence will you look for of student mastery?
  - If there is no exemplar, then create one.
- What are possible **misconceptions/difficulties** students might have with the questions/tasks?
- What **scaffolds** can you use or create to help students master the learning target/standard?

Exemplar Body Paragraph

By 1773, the colonists had been living with unfair taxation for many years. The Stamp Act had been repealed, but the British government imposed new taxes on the colonists. Consequently, angry crowds gathered in the streets of Boston. As a result, the British soldiers opened fire, killing five patriots. This incident became known as the Boston Massacre. When the British government imposed a tax on tea, the colonists boycotted, refusing to buy British tea. Led by the Sons of Liberty, a group of patriots protested and tossed tea into Boston Harbor.

Step 4: Know where students need to end the lesson

Step 4: Know where students need to end the lesson

- Look at the **exemplar**. What do students need to be able to do? What evidence will you look for of student mastery?
  - If there is no exemplar, then create one.
- What are possible **misconceptions/difficulties** students might have with the questions/tasks?
- What **scaffolds** can you use or create to help students master the learning target/standard?

Scaffolds

- Sentence frames
- Vocabulary word wall and vocabulary images
- Cause and effect graphic organizer

Partner Debrief

Based on the exemplar, how can you adjust instruction or activities based on potential student misconceptions?

Step 4: Planning Time

Step 4: Know where students need to end the lesson

- Look at the **exemplar**. What do students need to be able to do? What evidence will you look for of student mastery?
    - If there is no exemplar, then create one.
- What are possible **misconceptions/difficulties** students might have with the questions/tasks?
- What **scaffolds** can you use or create to help students master the learning target/standard?

With your grade level partner, look at your upcoming lesson plan to fill out Step 4 of the planning template.

Step 5: Understand the connections

Step 5: Understand the connections

- How does this lesson **connect** to the unit as a whole?
  - How does the text make connections to other texts in this lesson/unit?
- How does this connect to your ELD lesson?
  - What other scaffolds can you use from Language Studio?

Step 5: Planning Time

Step 5: Understand the connections

- How does this lesson **connect** to the unit as a whole?
  - How does the text make connections to other texts in this lesson/unit?
- How does this connect to your ELD lesson?
  - What other scaffolds can you use from Language Studio?

With your grade level partner, look at your upcoming lesson plan to fill out Step 5 of the planning template.

Internalization Process Implementation Stages

1) Introduce Vision and share with teachers
   a) Liana met with teachers before break to share vision and collect feedback

2) 2 lessons a week: (1) alongside instructional coach + (1)Friday collaborative planning **(launched at January PD)**
   a) Today - Practice using the tool
   b) Share with coach, grade level lead, and site leaders

3) Each Grade Level (GL) teacher responsible for 1 lesson independently to be completed by Friday to be discussed at GL team collaborative planning time to be ready to roll out next week (**March**)

Internalization Process Reflection

What was helpful about this planning process?

What did you like?

What should/could be changed to be more effective?

Our Learning Community Commitments

Be present and engaged	Give yourself this time and space to be **fully present.** **Actively participate** and honor the learning space by **limiting distractions.**
Strive for equity of voice	**All voices** are wanted and needed. Actively **listen.**
Explore alternative perspectives	Keep **equity** at the forefront of the work. Examine your **own perspective** and **consider perspectives that are not like yours.** Check your **mindset, tone,** and **privilege.**
Stay solution-oriented	Assume the **best**! Hold up the **mirror** before the magnifying glass. Focus on what's within **your locus of control** and what role **you** can play in the solution(s).
Lean into Learning	Learning and growing requires **vulnerability** and opens the door for **change.** Remain **open** to **new learning, unlearning,** and **re-learning.**
Use Strengths-Based Language	Use **"people-first"** language that elevates the strengths and genius of students and adults. **Avoid labels,** such as "the low kids," "the meets kids," "the GT class," "the Veteran teacher."

Math Vision

Edcouch-Elsa Students should experience classrooms that help them:

- feel connected to math
- have an understanding of math and its different applications
- have confidence to learn all levels of math
- see themselves as mathematicians
- engage in projects that highlight mathematics (i.e. engineering)
- use technology to visualize the math

Aspirations: In order to provide our *students* the desired instructional experience…

Our teachers must..	Our leaders must…
• Be passionate about their content • Invested in their content • Prepared to teach their content • Flexible and reflective • Be willing to adapt and listen to meaningful feedback • Be supported to navigate their curriculum • Be supported with the presence of leadership • Be visible to students, greet students • Have high expectations for students • Have high expectations for themselves • Be willing to be vulnerable	• Consistency in expectations and procedures • Provide support - how can we make the lives of teachers better? • Instructional support - Curriculum and pedagogical support • Be the guidance for implementing the curriculum • Support PLCs for implementation to thrive • Celebrate the teachers - for engaging as staff, but also their genius in instruction • Genuine care for teachers • Have systems put in place to best support instruction • Have a working knowledge of the curriculum (coaches much more in depth) • Have consistent touch points with one another

What makes a good coach?

A masterful coach is a leader who by nature is a vision builder and value shaper, not just a technician who manages people to reach their goals and plans through tips and techniques. To be able to do this requires that the coach discover his or own humanness and humanity, while being a clearing for others do do the same." - Robert Hargrove

Let’s get started!

“In mathematics classrooms, mathematical identity is mediated by how students engage with mathematics. Consequently, mathematics teaching involves not only helping students learn concepts and develop skills and understanding but also empowering students to see themselves as capable of participating in and being doers of mathematics.”

- *Catalyzing Change in High School Mathematics*

CORE ACTION 3

Core Action 3: Does the lesson provide all students with opportunities to exhibit mathematical practices while engaging with the content of the standard(s)?	
B. Students productively struggle to arrive at mathematical understanding through reasoning and appropriate scaffolding.	4 - Most students are engaging in productive struggle with sufficient scaffolding that allows them to use reasoning to arrive at grade-level mathematical understanding. 3 - Some students are engaging in productive struggle with sufficient scaffolding to arrive at grade-level mathematical understanding. 2 - Few students are engaging in productive struggle with sufficient scaffolding to arrive at grade-level mathematical understanding, **OR** students are engaging in productive struggle but not in service of grade-level understanding. 1 - Students are not engaging in productive struggle.
D. Students talk and ask questions about each other's thinking, in order to clarify or improve their own mathematical understanding.	4 - Most students are engaged in student-to-student conversations that are in service of grade-level understanding and clarify and improve their understanding. 3 - Some students are engaged in student-to-student conversations that are in service of grade-level understanding and clarify and improve their understanding. 2 - Few student conversations are occurring in service of grade-level understanding, **OR** student-to-student conversations are occurring but not in service of grade-level understanding. 1 - Student to student conversations are not occurring for most students.

Core Action 3B

Students productively struggle to arrive at mathematical understanding through reasoning and appropriate scaffolding.

What it is:	What does this look like in practice?
• It is when students are given a series of tasks that build up towards a solution. • It is when students are provided enough information to be able to arrive to a conclusion/solution without the assistance from the teacher. • It is supports a deeper understanding when learning new content. • Allowing students to think and try different things.	❑ Teacher provides adequate information for students to approach the task independent of teacher ❑ Teacher actively monitors student progress throughout the task ❑ Teacher gives feedback that affirms student thinking or progress in order to maintain productive struggle ❑ Teachers avoid unproductive struggle by asking clarifying questions or providing appropriate scaffolds without showing students a direct pathway to the answer ❑ Students are connecting what they know (prior knowledge) to a possible pathway to the answer ❑ Students are given the opportunity to share and clarify their reasoning with others ❑ Students are asking questions and checking their thinking in order to shape their reasoning and persevere along a chosen pathway

Core Action 3D

Students talk and ask questions about each other's thinking, in order to clarify or improve their own mathematical understanding.

What it is:	What does it look like in practice?
• It is conversations among students that are **intentional** on trying to solve the problem. • It is getting clarification on why each student choose a particular approach/response. • It is students exploring new ideas within groups when hearing other groups' ideas.	❑ Students are grouped in a way that facilitates discussion (intentional grouping) ❑ Students are actively engaged with their peers and self-guided with a clear understanding of the objective ❑ Students share their thinking and reasoning while listening to peer responses in order to clarify their own understanding ❑ Students debate their different approaches or share similarities in their thinking to gain further understanding ❑ Teachers pose questions that asks students to think about the concepts beyond simple recall or answer-getting ❑ Teachers monitor conversations for clarity of thinking and reasoning ❑ Teacher address misconceptions by ask clarifying questions, pointing to prior knowledge, or providing appropriate scaffolds (not the answer or direct instruction)

Why do coaches need to observe and take notes?

"Everyone we work with knows a lot more and can do a lot more than we think. It's our job as coaches to find out what it is that they know, care about, can do, and are committed to, and then to use that information to help them move their practice."
- Elena Aguilar

Observation Notes

Best practices for observations:

1. Eliminate effects of bias. Enter the classroom without judgment and work from evidence.
2. Take low-inference notes. Write down only what teachers and students say and do.
3. Look for learning. Seek evidence of what students know and are able to do.

Evidence	Opinion
• is observable • is not influenced by the observer's perspective • is free of evaluative words • does not draw conclusions	• makes inferences • depends on observer's perspective • includes evaluative words • draws conclusions

CLASSROOM OBSERVATION
(9:15-9:35)

Observation Notes - Teacher

What did we observe the teacher saying and doing?

Evidence
• is observable • is not influenced by the observer's perspective • is free of evaluative words • does not draw conclusions

Observation Notes - Students

What did we observe that students know or were able to do?

Evidence
• is observable • is not influenced by the observer's perspective • is free of evaluative words • does not draw conclusions

Observation Tool

Core Action 3 Indicators	Look-Fors
3B. Students productively struggle to arrive at mathematical understanding through reasoning and appropriate scaffolding. 4 - Most students are engaging in productive struggle with sufficient scaffolding that allows them to use reasoning to arrive at grade-level mathematical understanding. 3 - Some students are engaging in productive struggle with sufficient scaffolding to arrive at grade-level mathematical understanding. 2 - Few students are engaging in productive struggle with sufficient scaffolding to arrive at grade-level mathematical understanding, **OR** students are engaging in productive struggle but not in service of grade-level understanding. 1 - Students are not engaging in productive struggle.	☐ Teacher provides adequate information for students to approach the task independent of teacher ☐ Teacher actively monitors student progress throughout the task ☐ Teacher gives feedback that affirms student thinking or progress in order to maintain productive struggle ☐ Teachers avoid unproductive struggle by asking clarifying questions or providing appropriate scaffolds without showing students a direct pathway to the answer ☐ Students are connecting what they know (prior knowledge) to a possible pathway to the answer ☐ Students are given the opportunity to share and clarify their reasoning with others ☐ Students are asking questions and checking their thinking in order to shape their reasoning and persevere along a chosen pathway
3D. Students talk and ask questions about each other's thinking, in order to clarify or improve their own mathematical understanding. 4 - Most students are engaged in student-to-student conversations that are in service of grade-level understanding and clarify and improve their understanding. 3 - Some students are engaged in student-to-student conversations that are in service of grade-level understanding and clarify and improve their understanding. 2 - Few student conversations are occurring in service of grade-level understanding, **OR** student-to-student conversations are occurring but not in service of grade-level understanding. 1 - Student to student conversations are not occurring for most students.	☐ Students are grouped in a way that facilitates discussion (intentional grouping) ☐ Students are actively engaged with their peers and self-guided with a clear understanding of the objective ☐ Students share their thinking and reasoning while listening to peer responses in order to clarify their own understanding ☐ Students debate their different approaches or share similarities in their thinking to gain further understanding ☐ Teachers pose questions that asks students to think about the concepts beyond simple recall or answer-getting ☐ Teachers monitor conversations for clarity of thinking and reasoning ☐ Teacher address misconceptions by ask clarifying questions, pointing to prior knowledge, or providing appropriate scaffolds (not the answer or direct instruction)

Based on our indicator look-fors, how would you rate instruction for today's observation?

Observation Tool

Teacher Strength(s):
High-Yield Opportunity:

Take 5 minutes to look through your notes and ratings.
In your observation tool, name any teacher strengths or opportunities that stood out. Make sure that you can justify your response with specific examples from your notes.

Celebrations/Next Steps

What's one thing that you want to celebrate from each class?

What's one thing you would like to see change in each class?

What is the purpose of instructional observations?

"Teachers are waiting for direct feedback because they want to get better. Your job is to tell them the truth and provide a solution."
- Jill Jackson

Naming a Possible Next Step

Teacher Strength(s):
High-Yield Opportunity:

Thinking about the teacher strengths and opportunities, what possible next step would you suggest the teacher take to improve their instruction with 3B and 3D?

Naming a Possible Next Step

Next Step–Provide clear, concise, high-leverage next step aligned to the look-fors.

- ❑ **Clear + concise-** Simple and to the point. Easy for the teacher to understand exactly what they are to do.
- ❑ **Bite-Sized** - The teacher should be able to implement the feedback within a week.
- ❑ **High Leverage** - Will this feedback help improve teaching and learning quickly? Is it aligned to larger goal? Is it transferable to most lessons?
- ❑ **Observable and practicable -** You will be able to see the action step happening during instruction. The teacher can practice the action step in a coaching meeting.

Name the Error

Non-Exemplar 1: Increase student engagement.

- **Clear + concise-** Simple and to the point. Easy for the teacher to understand exactly what they are to do.
- **Bite-Sized** - The teacher should be able to implement the feedback within a week.
- **High Leverage** - Will this feedback help improve teaching and learning quickly? Is it aligned to larger goal? Is it transferable to most lessons?
- **Observable and practicable -** You will be able to see the action step happening during instruction. The teacher can practice the action step in a coaching meeting.

Name the Error

Non-Exemplar 2: You had students work independently to solve 5 problems from the book. You should have had them do a hands-on activity with a partner and a gallery walk to share their work with their peers.

- ❑ **Clear + concise-** Simple and to the point. Easy for the teacher to understand exactly what they are to do.
- ❑ **Bite-Sized** - The teacher should be able to implement the feedback within a week.
- ❑ **High Leverage** - Will this feedback help improve teaching and learning quickly? Is it aligned to larger goal? Is it transferable to most lessons?
- ❑ **Observable and practicable -** You will be able to see the action step happening during instruction. The teacher can practice the action step in a coaching meeting.

Name the Error

Non-Exemplar 3: During planning, you should script at least ten questions you can ask for every problem that you can ask the entire class to check for understanding.

- ❑ **Clear + concise-** Simple and to the point. Easy for the teacher to understand exactly what they are to do.
- ❑ **Bite-Sized** - The teacher should be able to implement the feedback within a week.
- ❑ **High Leverage** - Will this feedback help improve teaching and learning quickly? Is it aligned to larger goal? Is it transferable to most lessons?
- ❑ **Observable and practicable -** You will be able to see the action step happening during instruction. The teacher can practice the action step in a coaching meeting.

Naming the next step

Review your possible next step. Does it meet the criteria?

- ❑ **Clear + concise-** Simple and to the point. Easy for the teacher to understand exactly what they are to do.
- ❑ **Bite-Sized** - The teacher should be able to implement the feedback within a week.
- ❑ **High Leverage** - Will this feedback help improve teaching and learning quickly? Is it aligned to larger goal? Is it transferable to most lessons?
- ❑ **Observable and practicable -** You will be able to see the action step happening during instruction. The teacher can practice the action step in a coaching meeting.

BREAK
(10:30 - 10:40)

Inside the Lesson

Let's look at the implementation guide for today's lesson and determine what curriculum resources could support the implementation opportunities and our possible next steps.

Getting Started: Jump in the Line

ENGAGE

Facilitation Notes

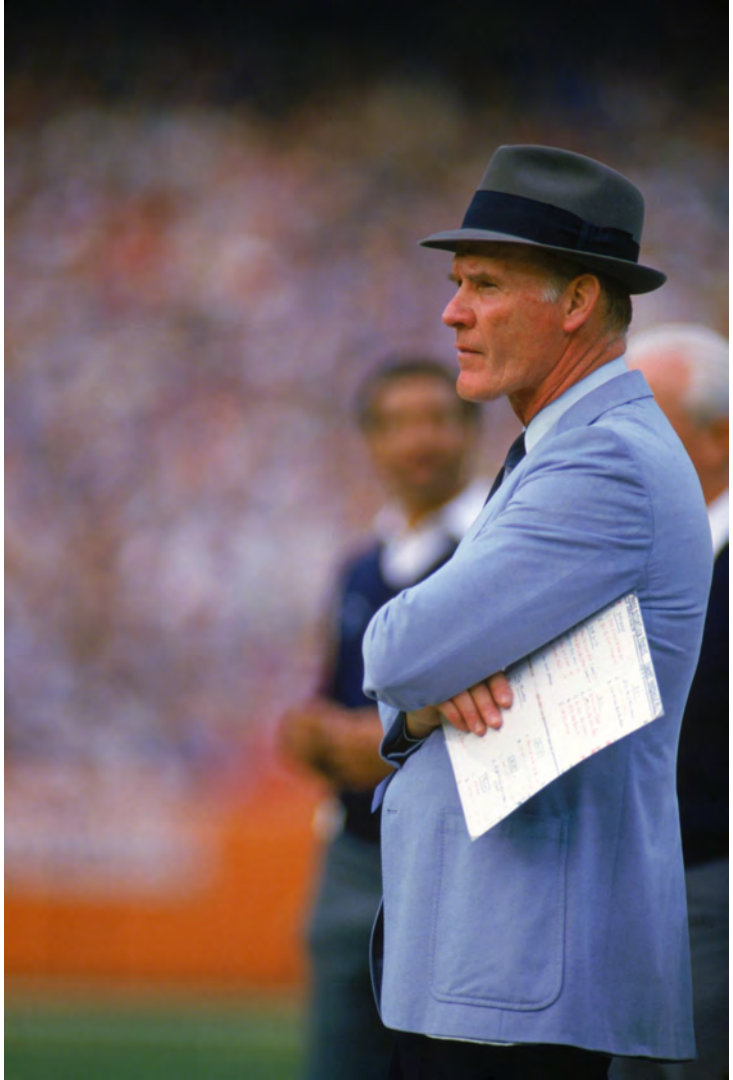
In this activity, students describe what they know about graphs of lines from given equations in different forms, and they brainstorm how they might graph the lines from their equations.

The intent of this lesson is to see what students understand and are able to do. Most students will resort to creating tables and plotting points to graph the lines. Students may struggle with how to use similar triangles or transformations to create graphs. The following activities guide students to graph from slope-intercept, point-slope, and standard forms of equations of lines.

Have students work with a partner or in a group to complete Questions 1 through 4. Share responses as a class.

Questions to ask

- What information is visible in an equation written in slope-intercept form?
- What information is visible in an equation written in point-slope form?
- Can you use the equation to determine ordered pairs of values on the graph of the line?
- Can you use the equation to write a table of values?
- Can you use the equation to determine the intercepts?
- Can you use the equation to determine the slope?
- How does knowing the slope help you to graph the line?



Summary

Characteristics of linear relationships can be identified when their equations are written in different forms such slope-intercept form, point-slope form, and standard form.

LUNCH
(11:30 - 12:30)

Why do feedback conversations matter?

“A coach is someone who tells you what you don’t want to hear so that you can see what you don’t want to see; so that you can be what you’ve always wanted to be” - Tom Landry

Aspirations: In order to provide our *students* the desired instructional experience…

Our teachers must..	Our leaders must…
• Be passionate about their content • Invested in their content • Prepared to teach their content • Flexible and reflective • Be willing to adapt and listen to meaningful feedback • Be supported to navigate their curriculum • Be supported with the presence of leadership • Be visible to students, greet students • Have high expectations for students • Have high expectations for themselves • Be willing to be vulnerable	• Consistency in expectations and procedures • Provide support - how can we make the lives of teachers better? • Instructional support - Curriculum and pedagogical support • Be the guidance for implementing the curriculum • Support PLCs for implementation to thrive • Celebrate the teachers - for engaging as staff, but also their genius in instruction • Genuine care for teachers • Have systems put in place to best support instruction • Have a working knowledge of the curriculum (coaches much more in depth) • Have consistent touch points with one another

Coaching Conversation Protocol Examples

What do you notice/wonder?

TN DOE

Uncommon Schools

Let's Personalize It!

Consider:

- What do we want to keep for EEHS math coaching conversations?
- What impact do we want the conversations to have on your future observations and feedback?

Let's Practice!

Thinking about our observation today, what will the conversation look like using the new protocol?

Closing & Next Steps

Debrief

- What is one takeaway or aha from today's collaboration?
- Are there any barriers you anticipate that may hinder the observation and feedback process?
- What is one commitment that you are willing to make from today's session that you can implement right away?

Thank you for your time and engagement!

We would greatly appreciate your feedback. Please jam-out and take the next ***two minutes*** to complete this quick feedback **survey.**

6

Today we will:

1. Analyze student work to better inform instruction
2. Reflect on how this routine could be used during collaborative planning

Consider …

As a teacher and facilitator …

- What value does this routine bring to teachers in our department to help us better plan and facilitate instruction?

Agenda

50 mins

Time	Details
10 mins	**Opening and Framing**
5 mins	**Preview the Process**
30 mins	**Student Work Analysis** **5- 10 mins:** Describe what we're looking for & connect to collaborative planning(steps 1-2) **10 mins:** Examining student work & connect to collaborative planning (step 3) **10 mins:** Next steps (step 4 & 5)
5 mins	**Looking Ahead & Closing**

What's the vibe?

Read the article (5 mins).

Be ready to share one sentence or phrase that stood out to you AND what that means for our work together today.

April 1, 2016 | ASCD Vol. 73, No. 7 | Authors: Bryan Goodwin, Heather Hein

Research Says / Looking at Student Work Yields Insights

Abstract

Years ago when I was a graduate student teaching college composition, my supervising professor presented the group of us teaching composition with two student papers. One was neatly typed, grammatically flawless, and structurally sound. Its five tidy paragraphs all began with topic sentences dutifully followed by supporting sentences.

The second paper was another matter. It had been scrawled into, and ripped from, a spiral notepad. Some words were hastily crossed out, others misspelled. Yet the writer's observations of late-night goings-on at a local burger joint left us chuckling. He wrote with a voice, including indelible turns of phrase like, "People began chucking the nasty burgers back at the workers." His thesis statement—what makes this fast food place special isn't the food but the unexpected entertainment that comes free with every meal—was clear and supported. In contrast, the first paper, was inert. It consumed five paragraphs saying almost nothing.

"How would you grade these two papers?" our professor asked. Thus began a productive dialogue—one that forever shaped my own make-a-point (but also revise-and-proofread) approach to writing instruction.

That's the promise of teachers looking at student work together. Focusing teacher dialogue on real artifacts can surface tacit differences in our expectations and teaching practices. So what does research say about using this approach—sometimes called the work sample method—for teacher professional development?

The What and Why

Student Work Analysis IS useful for…	Student work analysis IS NOT useful for…

Bank:

… analyzing student thinking - describing what they know and can do

… getting quantitative data about student learning

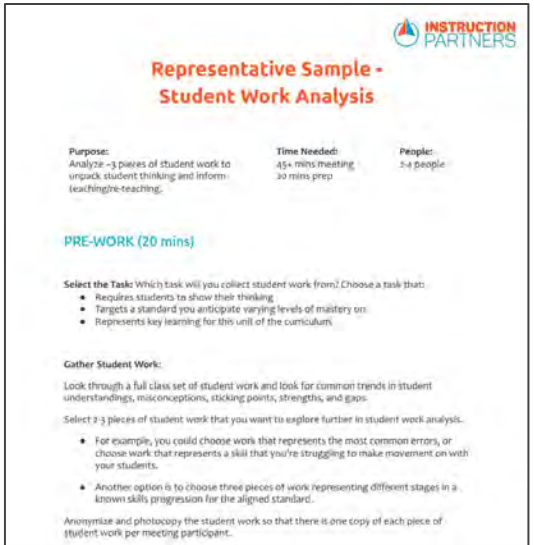
… predicting standardized test scores

… informing teachers' lesson planning

The What and Why (ANSWERS)

Student Work Analysis IS useful for…	**Student work analysis IS NOT useful for…**
… analyzing student thinking - describing what they know and can do	… getting quantitative data about student learning
… informing teachers' lesson planning	… predicting standardized test scores
[your ideas!]	**[your ideas!]**
[your ideas!]	**[your ideas!]**

Is there anything you would add based on your experience and the reading?



Norms … Anything to Add?

Norms	What this looks like
Stay Asset-Based 	• Assume the students and teachers tried their best. • Assume what students did made sense to them. • Use specific language to describe what you see, rather than using labels. Avoid generalizations such as “low” and “high”; “good” and “bad.”
Stick to the Lens 	• We can’t analyze everything! Stay laser focused on looking for the lens we create based on standards, the task, and the focus in collaborative planning. • For example, if an ELA standard is about thesis, then only consider thesis, not spelling. If a math standard is about fluency, then only analyze fluency.

Preview the Protocol

We will participate in a model using a sample protocol and consider how we can use it in collaborative planning time:

1. Read through the protocol for student work analysis.
2. Share any clarifying questions you may have (if any).

INSTRUCTION PARTNERS

Representative Sample - Student Work Analysis

Purpose: Analyze ~3 pieces of student work to unpack student thinking and inform (re)teaching.

Time Needed: 45+ mins meeting, 20 mins prep

People: 3-4 people

PRE-WORK (20 mins)

Select the Task: Which task will you collect student work from? Choose a task that:

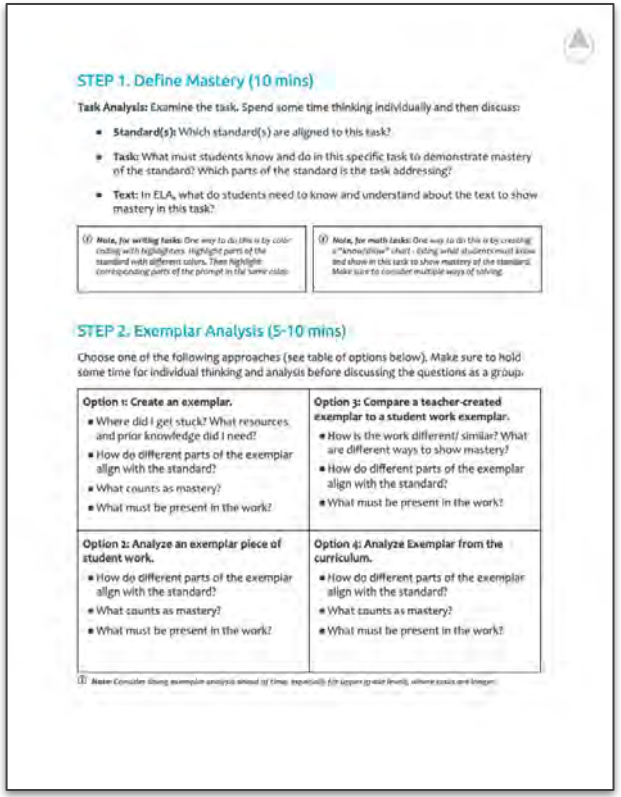
- Requires students to show their thinking
- Targets a standard you anticipate varying levels of mastery on
- Represents key learning for this unit of the curriculum

Gather Student Work:

Look through a full class set of student work and look for common trends in student understandings, misconceptions, sticking points, strengths, and gaps.

Select 2-3 pieces of student work that you want to explore further in student work analysis.

- For example, you could choose work that represents the most common errors, or choose work that represents a skill that you're struggling to make movement on with your students.
- Another option is to choose three pieces of work representing different stages in a known skills progression for the aligned standard.



Anonymize and photocopy the student work so that there is one copy of each piece of student work per meeting participant.

Student Work Analysis

Describe what you're looking for
(Protocol steps 1-2)

In this part of the protocol, we'll build clarity on what we're looking for.

Together we will discuss aligned **standard**(s), review the **task,** and analyze an **exemplar**.

STEP 1. Define Mastery (10 mins)

Task Analysis: Examine the task. Spend some time thinking individually and then discuss:

- **Standard(s):** Which standard(s) are aligned to this task?
- **Task:** What must students know and do in this specific task to demonstrate mastery of the standard? Which parts of the standard is the task addressing?
- **Text:** In ELA, what do students need to know and understand about the text to show mastery in this task?

ⓘ ***Note, for writing tasks:*** *One way to do this is by color-coding with highlighters. Highlight parts of the standard with different colors. Then highlight corresponding parts of the prompt in the same colors.*	ⓘ ***Note, for math tasks:*** *One way to do this is by creating a "know/show" chart - listing what students must know and show in this task to show mastery of the standard. Make sure to consider multiple ways of solving.*

STEP 2. Exemplar Analysis (5-10 mins)

Choose one of the following approaches (see table of options below). Make sure to hold some time for individual thinking and analysis before discussing the questions as a group.

Option 1: Create an exemplar. ▪ Where did I get stuck? What resources and prior knowledge did I need? ▪ How do different parts of the exemplar align with the standard? ▪ What counts as mastery? ▪ What must be present in the work?	**Option 3: Compare a teacher-created exemplar to a student work exemplar.** ▪ How is the work different/ similar? What are different ways to show mastery? ▪ How do different parts of the exemplar align with the standard? ▪ What must be present in the work?
Option 2: Analyze an exemplar piece of student work. ▪ How do different parts of the exemplar align with the standard? ▪ What counts as mastery? ▪ What must be present in the work?	**Option 4: Analyze Exemplar from the curriculum.** ▪ How do different parts of the exemplar align with the standard? ▪ What counts as mastery? ▪ What must be present in the work?

ⓘ ***Note:*** *Consider doing exemplar analysis ahead of time, especially for upper grade levels, where tasks are longer.*

The Task

Think 5: Why does Grover want to become a searcher? What does he hope to achieve? Use details from the text to support your answer.

DISCUSS AND WRITE

Prompt: Consider what Percy has learned about his quest. How do Percy's mixed feelings about the quest reflect the difficulties of being a demigod? How do his mixed feelings reflect the difficulty of being human? Compare and contrast his motivations with those of Annabeth and Grover. How are each of our three heroes influenced by their own internal conflicts?

The Standards

Key Ideas and Details:

CCSS.ELA-LITERACY.RL.6.1

Cite textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text.

CCSS.ELA-LITERACY.RL.6.2

Determine a theme or central idea of a text and how it is conveyed through particular details; provide a summary of the text distinct from personal opinions or judgments.

CCSS.ELA-LITERACY.RL.6.3

Describe how a particular story's or drama's plot unfolds in a series of episodes as well as how the characters respond or change as the plot moves toward a resolution.

Sample Response, Anything to Adapt?

Think 5: Why does Grover want to become a searcher? What does he hope to achieve? Use details from the text to support your answer.

Sample Answer: He wants to find the god Pan, who was rumored to have died 2,000 years ago. Although no other searcher has ever returned, Grover wants to awaken Pan so that Pan can protect the satyrs and all the wild places of the earth.

Criteria

- Clear that there is an understanding of why Grover is motivated
- Answer question - what Grover is hoping to achieve by being a searcher
  - Why is he motivated to be a searcher
- Explain their thinking
- Use specific details from the text (quote is acceptable, but not required)

Think 5: Why does Grover want to become a searcher? What does he hope to achieve? Use details from the text to support your answer.

Sample Answer: He wants to find the god Pan, who was rumored to have died 2,000 years ago. Although no other searcher has ever returned, Grover wants to awaken Pan so that Pan can protect the satyrs and all the wild places of the earth.

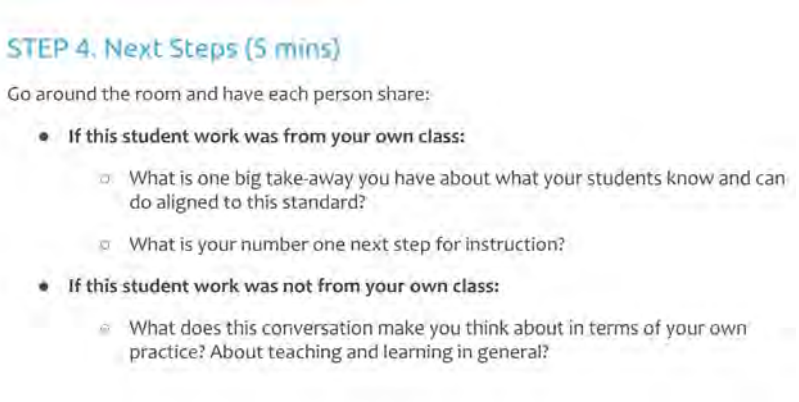
<u>Evidence of Collab Planning</u>

Scaffolded questions → all students are working towards grade level standards

Productive struggle - (not seeing student answers of IDK or giving up, using evidence from the text - using different, variation in evidence, not all students with same answer (that they copied from board))

Demonstration of understanding of the text

Examining Student Work



(Protocol step 3)

We will now analyze and discuss the student work, along with next steps for teaching and planning.

Discussing Next Steps
(Protocol step 4)

We will now discuss next steps and implications for teaching and learning.

If time - can prepare student feedback.

STEP 4. Next Steps (5 mins)

Go around the room and have each person share:

- **If this student work was from your own class:**
  - What is one big take-away you have about what your students know and can do aligned to this standard?
  - What is your number one next step for instruction?
- **If this student work was not from your own class:**
  - What does this conversation make you think about in terms of your own practice? About teaching and learning in general?

Next Steps - Based on our Discussion of Student Work

What I'll do next:

- **Teachers:** What might be your next step for instruction or lesson planning? When will you do this and with which classes?
- **Instructional Coaches / Content Leaders:** What is your number one next step for collaborative planning? When will you do this and with which teachers?
- **School and System Leaders:** What is your number one next step to support content leaders and teachers in their efforts? *(For example, how will you create and protect time for this work? Or, how do you plan to build your own content knowledge so you can provide precise praise and feedback?)*

Head, Heart, Hands

Head: One learning you're taking away from today.

Heart: How you're feeling leaving this experience.

Hands: Actions you're excited to take, OR things you want to do differently.

Appendix 8

Case Studies Progress Monitoring and Collaborative Planning Session

Teacher Case Studies

City Arts and Leadership - May 29th, 2025

INSTRUCTION PARTNERS

Welcome & Opening

Connector

What have you observed/seen/heard in school the last two weeks that made you smile or laugh?

Outcomes for Today

Today we will

- Build our capacity to see the connections between what happens in collaborative planning and instruction
- Consider what this analysis might tell us about what we want to start / stop / continue during during collaborative intellectual prep

This is important because

- We need to be able to see the impact of our leadership
- Even though we've made tremendous progress with collaborative planning, we need to continue to learn and grow to make it even more impactful for teachers and kids

	Time	Agenda
75 min	10 mins	Welcome and Opening
	55 mins	Case Studies Artifact 1: Video of Collaborative Planning
	10 mins	Closing and Next Steps

Case Study Teachers

Name: Ms. Kathi
Courses: Algebra 1 Support
Coach: Kala Stepter
Today you'll see:

- Algebra 1 Support
- Class focused on understanding perfect squares

Collaborative learning norms

Be present and engaged	Give yourself this time and space to be **fully present.**
Strive for equity of voice	**All voices** are wanted and needed. Actively **listen.**
Look for blind spots	Check your **mindset, tone,** and **privilege.** Keep **equity** at the forefront of the work.
Stay solutions oriented	We all work for **children.** Assume the **best!** Hold up the **mirror** before the magnifying glass.
Expect the push	We are **learning and growing together** and sometimes growth is uncomfortable.
Use Strengths-Based Language	Refer to students using **"student first"** language. For example, instead of "the low kids" try "**students with** unfinished teaching."

Artifact #1: Video of collaborative planning

How is collaborative planning impacting lesson internalization?

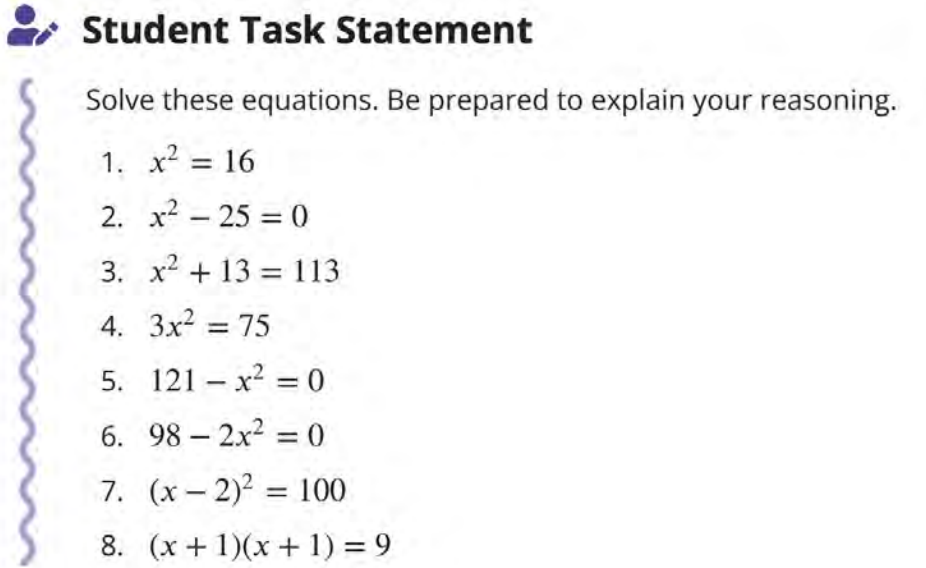
Case Study Process

We will analyze **1 artifact** for the case study teacher. For this artifact we will:

1. **Anticipate** what we expect or hope to see
2. **Explore** the artifact
3. **Discuss** what we'll start/stop/continue

Artifact #1 - Ms. Kathi / Kala

1. **Anticipate** what we expect or hope to see
2. **Explore** the artifact
3. **Discuss** what we'll start/stop/continue



Video of Collaborative Planning

1. **Anticipate** what we expect or hope to see

Take a moment to orient yourself to the lesson being internalized in this video:

- Unit 8 Lesson 11
- Generate (in writing) versions of quadratic expressions in a form that involves perfect squares.
- Solve quadratic equations that can be written as a perfect square equal to a constant.

Student Task Statement

Solve these equations. Be prepared to explain your reasoning.

1. $x^2 = 16$
2. $x^2 - 25 = 0$
3. $x^2 + 13 = 113$
4. $3x^2 = 75$
5. $121 - x^2 = 0$
6. $98 - 2x^2 = 0$
7. $(x - 2)^2 = 100$
8. $(x + 1)(x + 1) = 9$

1. Anticipate what we expect or hope to see

IPG Focus Indicators	What do we hope to see in collaborative planning that will impact these indicators?
• **1C** - The enacted lesson intentionally targets the **aspect(s) of rigor** (conceptual understanding, procedural skill and fluency, application) called for by the standard(s) being addressed. • **2A** - The teacher makes the **mathematics** of the lesson **clear** through the use of explanations, representations, tasks, and/or examples. • **2C** - The teacher deliberately **checks for understanding** to surface misconceptions and opportunities for growth to provide **feedback** to students. • **3A** - Students do the **majority of the work** of the lesson by working with and practicing grade-level problems and exercises.	• Identifying aspect(s) of rigor standard calls for and implications for instruction (1C) ○ Hope we talk about how we will make this come alive for students (avoiding just the steps to get the answer) • Clarity on what math is the focus of the lesson via doing the math and know / show chart (2A) • Discussion of tasks, representations, questions, and explanations used to make that math clear (2A) • Where / how teacher will check for understanding and provide feedback (2C)

2. **Explore** the artifact - Clip 1

Be prepared to share:

- What did we see in collaborative planning?
- How might this impact instruction?

2. Discuss what we saw in video

Portion of Protocol	What we saw / didn't see	What impact might this have on instruction / focus IPG indicators?
Do the Math + Create Exemplar	Identify what students know / do by end of the lesson. Sharing and sparing with the chart. - Elicit ideas from Kathi - Ideas Kala had but Kathi hadn't - Gap / near gap, should be in Kathi's but weren't - Coached her to those - Pushed for explaining in words to be added to chart - Wonder if could have spent less time on this portion: spoke a lot, maybe just named agree, tweak / push, stamp Didn't see doing the math of the cool down: Kathi came with it done, but didn't refer to it explicitly in know / show, do quality criteria for ET	Might help to determine the priority tasks, items she will now focus on that she wouldn't have - Specifically, looking at terms, positive / negative solutions, student justifications - Would help with alignment of instruction aspects of rigor (1c) Know / show chart made it easier later in the meeting to identify the questions to ask The look for might help with 2C (CFUs) knows what she is listening for 2A - have to be clear on the math ourselves before can do it for the kids Look fors to align with 2c might not be as clear

2. **Explore** the artifact - Clip 2

Be prepared to share:

- What did we see in collaborative planning?
- How might this impact instruction?

2. Discuss what we saw in video

Portion of Protocol	What we saw / didn't see	What impact might this have on instruction / focus IPG indicators?
Prepare for Instruction / Discourse in Priority Tasks	Didn't allocate time in this meeting to CFUs, how to gauge if everyone has it. Needed to get more specific in the **how** of the CFU Kala asks the teacher to identify likely misconceptions for the task, Ms. Kathi shares a common misconception and possible questions to ask Kala asks the teacher to consider what makes a strong question to build planning skill Kala provides a model of how to ask a question that nudges students to do the thinking, and gives Ms. Kathi time to script it in her own words and share it out loud, providing feedback when necessary	Expecting to see this line of questioning show up in instruction (2C, 3A, 1C, **2A** All of them!) Might not see data collected from all students from this line of questioning as they did not plan for how to collect information from all students (2C and 3A) Hoping to hear questions that they didn't plan together, but mimicked the type of questions that they did plan together (building capacity for Ms. Kathi to do that on her own)

What was the impact?

- Questioning during the lesson was stronger, more aligned with building understanding, justifying thinking
- Saw the specific line of questioning and other questions that did not give the students the answer but put the lift on them, teed them up to do the thinking, found another question when that question didn't work

2. **Explore** the artifact - Clip 3

Be prepared to share:

- What did we see in collaborative planning?
- How might this impact instruction?

2. Discuss what we saw in video

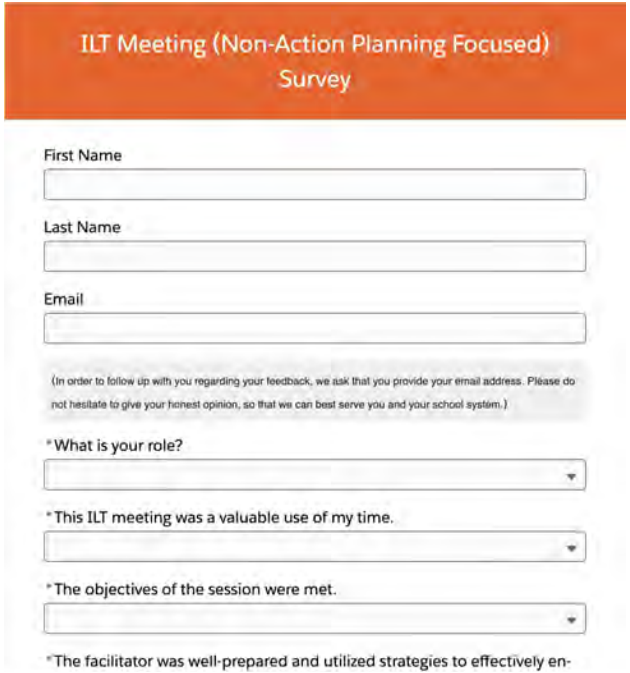
Portion of Protocol	What we saw / didn't see	What impact might this have on instruction / focus IPG indicators?
Practice		
What was the impact?		

3. Discuss what we should start/stop/continue

Start	Stop	Continue
• Being intentional about developing strategies for CFUs and using assessing/advancing questions • Having teachers come prepared to IP meetings! • • Start marking the CFS of the exit ticket exemplars / revisit the math	•	• Anticipating student responses • Plan questions to ask students • Pausing to make time for the teacher to script questions • Practicing key steps in the lesson • Rehearsing how the teacher will say something to the students. • Embedding practice throughout the protocol

Closing and Survey

Looking Ahead



Coming out of this meeting, what are your…

- … **immediate next steps** to improve the impact of collaborative planning?
- … **longer-term next steps** to improve the impact of collaborative planning?

We value your feedback!

Appendix Item 9

Gladstone Elementary Case Study (Missouri)

INSTRUCTION PARTNERS

Six Years of Partnership with Gladstone Elementary School

Kansas City, Missouri

Where we started

Instruction Partners began a partnership with Gladstone Elementary, a K–6 school with significant refugee and new immigrant student populations, in the fall of 2018.

At the time, Gladstone educators were working hard to provide great learning experiences for their students, but, despite their efforts, they were not seeing significant growth in student outcomes. When the Instruction Partners team conducted classroom observations, we found that classroom instruction and materials were unaligned to the state standards.

Where we reached

Compared to pre-pandemic levels, Gladstone students are progressing in grade-level proficiency on the MAP state assessment faster than the overall state.

> **What I'm most proud of is that our kids are no longer leaving with subpar instruction. Our kids are leaving 6th grade writing and reading, able to have discussions, and able to critically think. And it's because we upped our game with the support of Instruction Partners. So, game on.**

DANA CARTER
Former Principal

Change in % of students testing proficient/advanced, from SY 2018–19 to SY 2022–23 (Four years)*

	Gladstone Elementary	State
Math	+6.0%	-2.2%
ELA	+2.3%	-5.4%
Science	+10.4%	-3.8%

*Data pulled from Missouri Comprehensive Data System reporting website

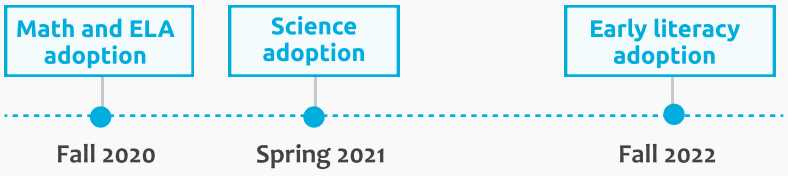
How we got here

Here's how we worked with Gladstone leaders to build an instructional support system that produces strong daily instruction and improved student outcomes.

Deepening leaders' content knowledge

The Instruction Partners team deepened the Gladstone leadership team's **understanding of effective instruction in ELA, math, science, and early literacy** by:

- **Introducing the team to the Instructional Practice Guides (IPGs)**—subject-specific observation and coaching tools that describe the content, teacher actions, and student engagement indicative of excellent teaching and learning.
- **Leading side-by-side classroom observations and coaching sessions** to build understanding of the grade-level standards and practice providing teacher feedback grounded in the IPG indicators in each subject area.



> **The Instructional Practice Guide gives us the 'what' by looking at the standard and the materials that we put in front of the children. It gives us the 'how' by really thinking through the facilitative questions that teachers will use to get the kids being able to access that content, and it helps us anticipate what students will do when they have the content in front of them.**

ULI SCHNEIDER
Current principal

Implementing and supporting high-quality instructional materials (HQIM)

After establishing a better understanding of standards-aligned instruction, the Instruction Partners team worked with Gladstone educators to select and implement high-quality instructional materials over the course of two years.

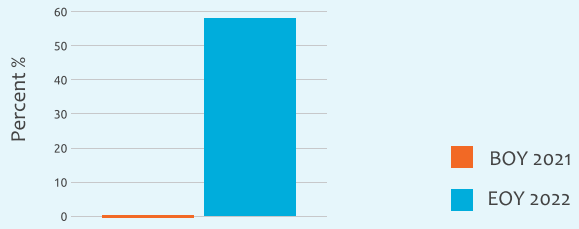
HQIM support included:

- Developing a clear rubric for materials evaluation to inform selection
- Helping Principal Carter set expectations for materials use, grading, and assessments
- Delivering upfront training on the new curricula
- Modeling lessons for teachers
- Creating and modeling protocols for unit internalization, lesson preparation, and student work analysis during professional learning communities (PLCs)

> **I have seen myself grow. I feel more confident teaching math. I've definitely learned how to look into the curriculum and the lessons that we're going to teach and how to break things down. And I've realized that the more I understand it, the more I can help the kids understand it.**

MOLLY HILLER
Teacher

Creating instructional data routines



Instruction Partners empowered Gladstone leaders to monitor and continually strengthen instructional support for teachers by collecting key instructional data at three levels:

1. **Leader data:** Frequency of classroom observation and quality of feedback
2. **Teacher data:** IPG indicators, participation in collaborative learning time, and qualitative survey feedback
3. **Student data:** Outcomes on both curriculum-embedded assessments and nationally normed assessments

We established monthly stepback meetings to reflect on instructional data, enabling leaders to create short-term action plans, including planning topics of focus for teachers' collaborative planning time.

Data routines were initially implemented for K–2 reading instruction and led to unprecedented levels of growth in literacy. From the start to the end of SY 2021–22, the percentage of K–2 students testing on grade level (as measured by the i-Ready universal screener) increased from 0 to 58%.

Increase in the percentage of K–2 students testing on grade level SY 2021-22*

*i-Ready data for Gladstone Elementary received through data sharing agreement.

> **Previously, we always collected a lot of data, but we didn't really know what to do with the data that we had. Now, we collect data, and that data actually is how I decide what I'm going to teach. That's what drives my instruction.**
>
> **SHAWNA CREELEY**
> Teacher

> **I think what has made this partnership so successful is the beliefs of the Gladstone leaders. There is never any doubt about the belief they have in their teachers and what their teachers are capable of—and the belief in their students and what their students are capable of.**
>

Appendix Item 10

Lyons-Decatur Northeast Case Study (Nebraska)

INSTRUCTION PARTNERS

Scaling Elementary Math Success in Nebraska

Nebraska school districts statewide are in the process of adopting new, high-quality instructional materials (HQIM) for K–12 math. To support successful implementation at scale, the Nebraska Department of Education (NDE) launched the Math Acceleration Project, a multiyear capacity-building endeavor that supports regional centers—called Educational Service Units (ESUs)—in providing deep, replicable support to school systems implementing HQIM.

NDE engaged Instruction Partners to support the effort, teaming up with ESUs to offer individualized engagements that developed leaders' capacity to provide deep, lasting, replicable support to districts adopting and implementing HQIM.

The opportunity

In 2020, Lyons-Decatur Northeast Elementary began using *Eureka Math®*, but the lasting impact of disrupted schooling combined with the introduction of a new high-quality curriculum led to implementation challenges and a dip in student scores. Principal Brenda Totten called ESU #2's math specialist, Dr. Kelly Georgius, to help create a plan for providing teachers with effective, ongoing support with the new materials.

When Dr. Georgius heard about the opportunity to work with Instruction Partners to improve math teaching and learning at Lyons-Decatur, she jumped at the chance to have a thought partner in the work. "My job is pretty siloed," she shared. "When I learned that the state was offering ESUs the opportunity to work with Instruction Partners on a project that would help with math instruction, I jumped in and said 'yes'!"

An approach for scalable success

Instruction Partners worked alongside Dr. Georgius and Principal Totten to observe classrooms and create an action plan for providing teachers with ongoing, targeted support. Leveraging resources from Instruction Partners' **Curriculum Support Guide**, the team:

- ensured teachers had the dedicated time and resources they needed to internalize the new materials,
- aligned around a shared vision of what math instruction should look like for students, and
- created a vision walkthrough tool that allowed Principal Totten to give teachers timely and actionable feedback around what to celebrate and where to focus improvement efforts.

This model not only helped Lyons-Decatur teachers improve instruction but also developed Dr. Georgius' capacity to apply effective HQIM support across other districts in her region.

Results

Aligning around a vision and then putting the vision to work improved teacher practice, student experience, and academic achievement at Lyons-Decatur Northeast Elementary.

Results from the **Nebraska Student-Centered Assessment System (NSCAS)** showed that student scores increased significantly, rising from an average of 35% proficiency in 2020–21 to an average of 67% proficiency in 2021–22.

	NSCAS score at end of 2020–21 school year	NSCAS score at end of 2021–22 school year
Grade 4	38%	79%
Grade 5	33%	55%
Grade 6	33%	68%

The partnership also provided a model for how regional centers can work with external support providers to provide meaningful, multilayered support to teachers and leaders in service of better outcomes for students.

> **The collaboration with Instruction Partners helped us build coherence in how we talk about instructional materials and why strong implementation is so important to student success.**
>
> Marissa Payzant, Nebraska Department of Education

Learn more about this partnership on the **InstructUP blog.**

Statement of Exceptions
Instruction Partners
Evidence-Based Instruction Strategies Consulting

Instruction Partners affirms that we have reviewed the terms, conditions, and specifications outlined in **RFP: #3667** issued by Knox County Schools. We do not have any exceptions to the RFP requirements.

We agree to comply fully with all terms and conditions as stated in the RFP.

Sincerely,

Kelsey Hendricks, Executive Director, Engagement

Knox County Government

and

Kids First Education LLC

This Contract, made and entered into between the Knox County Government, hereinafter referred to as the "County" and Kids First Education LLC, hereinafter referred to as "Contractor".

Whereas, the County requested proposals for Evidence-Based Instruction Strategies Consulting for Knox County Government (Request for Proposals #3667) and;

Whereas, Vendor submitted a bid in accordance with said requested specifications, the response of which is the most responsible and responsive bid meeting specifications accepted by the County;

Whereas, Vendor agrees and undertakes to provide said services for the County, as set forth in the Request for Proposals, and at the price quoted for said services by Contractor. Further, in accordance with the lawful directions of the County, the Contractor agrees in all respects, to be governed by the Request for Proposals specifications and the Contractor's bid and response.

Now, therefore in consideration of mutual covenants and promises contained herein, the parties hereto wish to enter into this Contract to set forth their respective rights and obligations and do mutually agree that;

Witnesseth:

1. Terms of this Contract. This Contract commences on the 1st day of September 2025 and ends the 31st day of August 2026 unless terminated in conformity with the terms of this Contract as contained in paragraphs 4 and 5. The County intends to issue a one-year (1) award. Upon the mutual agreement of the vendor and the County, the award may be extended for four (4) additional years, one (1) year at a time. This may result in a total of five (5) years. The County reserves the right to purchase these goods/services from other sources if the need arises. The County reserves the right to revoke the award if a pattern of unavailability arises with the vendor.

2. Payment. The County shall pay Contractor the amount as agreed upon in the County's Request for Proposals for Evidence-Based Instruction Strategies Consulting per the Contractor's response to Request for Proposals #3667; pursuant to all payments being subject to the County's review and approval. The Contractor shall receive, upon the need of the County, written notification to proceed. The Contractor shall pursue all work diligently until completion as directed by the County. Per Request for Proposals #3667, a minimum of thirty (30) days is required for processing of payment.

3. Invoicing and reporting requirements. Contractor shall invoice the County for Evidence-Based Instruction Strategies Consulting pursuant to Request for Proposals #3667.

4. Termination. The County may terminate this Contract with or without cause, upon written notice of not less than thirty (30) days. Upon termination, the County will pay for services satisfactorily completed but not yet invoiced. Contractor shall not perform additional work without the expressed permission of the County.

Should the Contractor fail to provide the Evidence-Based Instruction Strategies Consulting detailed herein, the County will communicate the problem(s) to the Contractor both verbally and in writing and keep a written record as to what the problem(s) are and when the Contractor was contacted. The Contractor shall rectify the problem within the time frame established by Tennessee State Law. If the same or other problems persist or reoccur, the County may terminate the Contract.

In the event Contractor intends to interrupt or discontinue service under this Contract, Contractor agrees to give the County at least 120 day advance written notice of said interruption or discontinuance of service prior to interrupting or discontinuing same. Any interruption or discontinuance of service without said advance notice shall constitute a material breach of this Contract.

5. Appropriations. In the event no funds are appropriated by the County for the Evidence-Based Instruction Strategies Consulting in any fiscal year or insufficient funds exist to provide the services, then the Contract shall expire upon the expenditure of previously appropriated funds or the end of the current fiscal year, whichever occurs first, with no further obligations owed to or by either party.

6. Independent contractor. Contractor acknowledges that Contractor and employees serve as independent contractors and that the County shall not be in any manner responsible for any payment, insurance, or incurred liability.

7. Compliance with all federal, state, and municipal laws. Contractor is assumed to be familiar with and agrees to observe and comply with all federal, state, and local laws, statutes, ordinances, and regulations in any manner affecting the provision of the Evidence-Based Instruction Strategies Consulting, and all instructions and prohibitive orders issued regarding this work and shall obtain all necessary permits.

8. Severability clause. If any provision of this Contract is declared illegal, void, or unenforceable the remaining provisions shall not be affected but shall remain in force and in effect.

9. Prohibition against assignment. Contractor shall not assign this Contract to any party, company, partnership, incorporation, or person without prior specific written consent of the County.

10. This Contract shall be governed by the laws of the State of Tennessee both as to interpretation and performance. The Chancery Court and/or the Circuit Court of Knox County, Tennessee, shall have exclusive and concurrent jurisdiction of any disputes, which arise hereunder.

11. Right to inspect. The County reserves the right to make periodic inspections of the manner and means the services are performed.

12. Nondiscrimination and non-conflict statements. Contractor agrees that no person on the grounds of handicap, age, race, color, religion, sex, national origin, or any individual trait or characteristic found to be an illegal consideration shall be excluded from participation in, or be denied benefits of, or be otherwise subjected to discrimination in the performance of this Contract, or in the employment practices of Contractor. Contractor shall, upon request, show proof of such non-discrimination, and shall post in conspicuous places available to all employees and applicants notices of non-discrimination.

13. Books and records. Contractor shall maintain all books, documents, accounting records and other evidence pertaining to the service under this Contract and make such materials available at their offices at all reasonable times during the contract period and for three (3) years from the date of the final payment under the Contract for inspection by the County or by any other governmental entity or agency participating in the funding of this Contract, or any authorized agents thereof; copies of said records to be furnished if requested. Such records shall not include those books, documents and accounting records that represent the Contractor's costs of manufacturing, acquiring or delivering the products and services governed by this Contract.

14. Contractor shall indemnify**,** defend, save and hold harmless, County, its officers, agents and employees from all suits, claims, actions or damages of any nature brought because of, arising out of, or due to breach of the Contract by Contractor, its subcontractors, agents or employees or due to any negligent act, occurrence, omission, commission of Contractor, its subcontractors, agents, or employees.

15. Delivery. Contractor shall render the Evidence-Based Instruction Strategies Consulting for the County in accordance with Request for Proposals #3667.

16. Tax Compliance. Pursuant to Resolution R-07-1-903 passed by the Commission of Knox County, Tennessee, Contractor hereby acknowledges, by submission of its bid and signature that it is current in its respective Federal, State, County, and City taxes of whatever kind or nature and is not delinquent in any way. Delinquent status must be disclosed or risk debarment by the Knox County Purchasing Division.

17. Limitations of liability. In no event shall the County be liable for any indirect, incidental, consequential, special or exemplary damages or lost profits, even if the County has been advised of the possibility of such damages.

17. **Limitations of liability.** In no event shall the County be liable for any indirect, incidental, consequential, special or exemplary damages or lost profits, even if the County has been advised of the possibility of such damages.

18. **Contract documents.** It is mutually agreed by both parties that the following documents are made part of this Contract and are incorporated herein by reference:

A. Request for Proposals #3667 and Addendum I
B. Contractor's Response to Request for Proposals #3667

It is agreed that this Contract, represents the **entire Contract** between the parties and no prior representations, promises, and agreements, oral or otherwise, not embodied herein, shall be of any force or effect.

In witness whereof, the parties hereto have caused this Contract to be executed in one original copy on the day and year first above written.

7/24/2025
_____**Date**

The Procurement Division of Knox County, Tennessee will receive sealed proposals for the provision of **Evidence-Based Instruction Strategies Consulting** as specified herein. Proposals must be received by **2:00 p.m.** on **June 13, 2025**. Late proposals will neither be considered nor returned.

Deliver Proposals To:

Proposal Number 3667
Knox County Procurement Division
Suite 100
1000 North Central Street
Knoxville, Tennessee 37917

The Proposal Envelope must show the Company Name, Proposal Number, Proposal Name & Proposal Closing Date.

SECTION I PROPOSAL PREPARATION AND SUBMISSION

1.1 **ADDITIONAL INFORMATION:** Knox County wants requests for additional information routed to Rachel Cabrera, Senior Buyer, at 865.215.5751. Questions may be emailed to rachel.cabrera@knoxcounty.org. If you have not heard from the Buyer in a reasonable amount of time, please call for further assistance. Information about the Knox County Procurement Division and current solicitations may be obtained on the Internet at www.knoxcounty.org/procurement.

1.2 **ACCEPTANCE:** Vendors shall hold their price firm and subject to acceptance by Knox County for a period of one hundred twenty (120) business days from the date of the proposal closing, unless otherwise indicated in their proposal.

1.3 **ALTERNATIVE PROPOSALS:** Knox County will not accept alternate proposals (those not equal to specifications) unless authorized by the Request for Proposal.

1.4 **AUDIT HOTLINE:** Knox County has established an Audit Hotline to report potential fraud and waste. To report potential fraud, waste or abuse, please file a report online by accessing http://www.knoxcounty.org/audit/hotline.php.

Vendors are hereby cautioned that this Audit Hotline does not replace the Award Protest Procedures found in Section VI, Item M of the Knox County Procurement Regulations.

1.5 **AWARD:** Award will be made to the most responsive, responsible proposer(s) meeting specifications and presenting the product(s) and/or service(s) that is in the best interest of Knox County. Knox County reserves the right to award this proposal on an all-or-none basis, schedule basis or by multiple award. Knox County reserves the right to not award this proposal. Award will be made in accordance with the evaluation criteria specified herein.

1.6 **BUSINESS OUTREACH PROGRAM:** Knox County has established a Business Outreach Program which has the responsibility of increasing opportunity for small, minority and women owned businesses. This is being accomplished through community education programs, policy edification, active recruitment of interested businesses and process re-engineering.

Knox County is committed to ensuring full and equitable participation for all disadvantaged businesses. Knox County welcomes submittals from those disadvantaged businesses that have an interest in providing goods and/or services listed herein. In addition, Knox County strongly encourages the inclusion of disadvantaged businesses by non-disadvantaged Contractors who wish to partner or subcontract portions of this agreement in order to accomplish the successful delivery of goods and/or services. If you are a disadvantaged business and would like additional information about our Business Outreach Program, please contact:

Diane Woods, Business Outreach Administrator
Telephone: 865.215.5760
Fax: 865.215.5778
Email: diane.woods@knoxcounty.org

1.7 **CONFLICT OF INTEREST:** Vendors must have read and comply with the "Non-Conflict of Interest" statement provided in the vendor registration process prior to the closing of this solicitation. Knox County's Non-Conflict of Interest Policy is available for review at https://www.knoxcounty.org/purchasing/conflict_policy.php.

1.8 **COPIES:** Knox County requires that proposals be submitted as one (1) marked as original and one (1) exact copy. **Proposers must submit with their written response an exact electronic version of their proposal in a single PDF file on a flash drive format.**

1.9 **DECLARATIVE STATEMENTS:** Any statement or words (e.g.: must, shall, will) are declarative statements and the vendor must comply with the condition. Failure to comply with any such condition may result in the proposal being considered non-responsive and disqualified.

1.10 **ELECTRONIC TRANSMISSION OF PROPOSALS:** Knox County's Procurement Division will not accept electronically transmitted proposals. Facsimile and email submissions are strictly prohibited. Due to the nature of the information requested, all submissions shall be in written format.

1.11 **HOW TO DO BUSINESS:** Knox County utilizes a web-based Procurement software system, "KnoxBuys." The system provides our clients (vendors, county departments and the citizens of Knox County) with a more enhanced and end-user friendly means of accessing our services. The system allows for on-line vendor registration and maintenance, electronic receipt of purchase orders, on-line retrieval and submittal of quotes, bids and proposals for our vendor-clients and on-line requisitioning and receiving for our county departments. In order for the County to maximize its investment and minimize the cost associated with office operations, we need your help. When doing business with Knox County, we are urging you to please go to our website at www.knoxcounty.org/procurement, register as a vendor in our on-line Procurement system, "KnoxBuys," if you have not done so and whenever possible to conduct your business with the County through this site. If you have any questions, please contact the Procurement Division Representative listed in Section 1.1 of this document.

1.12 **INCURRED COSTS:** Knox County will not be responsible for any costs incurred by the proposer in the preparation of their proposal.

1.13 **MULTIPLE PROPOSALS:** Knox County will consider multiple proposals that meet specifications.

1.14 **NON-COLLUSION:** Proposers, by submitting a signed proposal, certify that the accompanying proposal is not the result of, or affected by, any unlawful act of collusion with any other person or company engaged in the same line of business or commerce, or any other fraudulent act punishable under Tennessee or United States law.

1.15 **PAYMENT METHOD:** Knox County will utilize a Purchase Order for placing an order for products and/or services. Purchase Orders will be issued from the Knox County Procurement Division via the method selected by the vendor during registration. The Purchase Order will detail the quantity, specific item(s) and the contracted price for each item. Work on this project must not commence until a signed Purchase Order is issued by Knox County Procurement.

1.16 **POSSESSION OF WEAPONS:** All vendors, their employees and their agents are prohibited from possessing any weapons on Knox County property without prior written consent from the County. In the case of a vendor whose Contract requires possession of firearms or other weapons to successfully complete their Contract, vendor must provide personnel who are bonded to bear said weaponry.

1.17 **PROCESSING TIME FOR PAYMENT:** Vendors are advised that a minimum of thirty (30) days is required to process invoices for payment.

1.18 **PROOF OF FINANCIAL AND BUSINESS CAPABILITY:** Vendors must, upon request, furnish satisfactory evidence of their ability to furnish products or services in accordance with the terms and conditions of these specifications. Knox County will make the final determination as to the vendor's ability.

1.19 **PROPOSAL DELIVERY:** Knox County requires proposers, when hand delivering proposals, to time and date stamp the envelope before depositing it in the bid box. Knox County will not be responsible for any lost or misdirected mail sent by common carrier, nor will Knox County be responsible for proposals delivered to addresses or Suites other than the delivery address and Suite specified at the top of this solicitation. The time clock in the Procurement Division shall serve as the official record of time.

Solicitations must be in a sealed envelope/box prior to entering the Procurement Division office. Procurement Division personnel are not allowed to see the submittal nor assist in placing documents in an envelope/box. Additionally, the Procurement Division is not responsible for providing materials (e.g. envelopes, boxes, tape) for submittals.

1.20 **RECYCLING:** Knox County, in its continuing efforts to lessen the amount of landfill waste and to further recycling efforts, requests that proposals being submitted on paper shall:

1.20.1 Be submitted on recycled paper;
1.20.2 Not include pages of unnecessary advertising;
1.20.3 Be made on both sides of each sheet of paper.

1.21 **RESTRICTIVE OR AMBIGUOUS SPECIFICATIONS:** It is the responsibility of the prospective proposer to review the entire Request for Proposal packet and to notify the Procurement Division if the specifications are formulated in a manner that would unnecessarily restrict competition. Any such protest or question regarding the specifications or proposing procedures must be received in the Procurement Division by **May 27, 2025 at 4:30 p.m. local time**. These requirements also apply to specifications that are ambiguous.

1.22 **SIGNING OF PROPOSALS:** In order to be considered, all proposals must be signed. Please sign the original in blue ink. By submitting a signed letter authorizing the submission of the proposal, the vendor acknowledges and accepts the terms and conditions stated in the proposal document.

1.23 **TAXES:** Knox County purchases are not subject to taxation. Tax exemption certificates will be provided upon request.

1.24 **TITLE VI OF THE 1964 CIVIL RIGHTS ACT AND TITLE IX OF THE EDUCATIONAL AMENDMENT OF 1972:** "Nondiscrimination in Federally Assisted Programs"—"No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance." 42 U.S.C. Section 2000. It is the policy of Knox County Government that all its services and activities be administered in conformance with the requirements of Title VI and Title IX.

1.25 **UNFORESEEN CIRCUMSTANCES:** During periods of closure due to unforeseen circumstances in Knox County or closures at the direction of the Knox County Mayor, the Procurement Division will enact the following procedures in regard to solicitations and closures:

- If the Mayor closes the Administrative offices prior to the time set for solicitation opening of any business day, all solicitations due that same day will be moved to the next operational business day.
- Other unforeseen circumstances shall be at the sole discretion of the Procurement Director.
- Knox County shall not be liable for any commercial carrier's decision regarding deliveries during any unforeseen circumstances.

1.26 **USE OF PROPOSAL FORMS:** Vendors must complete the proposal forms contained in the proposal package. Failure to complete the proposal forms may result in proposal rejection.

1.27 **VENDOR DEFAULT:** Knox County reserves the right, in case of vendor default, to procure the articles or services from other sources and hold the defaulting vendor responsible for any excess costs occasioned thereby. Should vendor default be due to a failure to perform or because of a request for a price increase, Knox County reserves the right to remove the vendor from the County's bidder's list for twenty-four (24) months.

1.28 **VENDOR REGISTRATION:** Prior to the submission deadline for this solicitation, ***ALL PROPOSERS MUST*** be registered with the Procurement Division. If you are not already a registered vendor with Knox County, register on-line at our website at www.knoxcounty.org/procurement and click on "Knox Buys" and then select "Online Vendor Registration." Vendors must be registered with the Procurement Division **prior** to submitting their proposal. Knox County shall not be responsible for technical difficulties experienced by vendors trying to register electronically less than twenty-four (24) hours prior to the proposal closing time.

1.29 **WAIVING OF INFORMALITIES:** Knox County reserves the right to waive minor informalities or technicalities when it is in the best interest of Knox County.

SECTION II OBLIGATIONS, RIGHTS AND REMEDIES

These terms and conditions shall be part of the Contract. Knox County reserves the right to negotiate other terms and conditions it deems appropriate and necessary under the circumstances to protect the public's trust.

2.1 **ALTERATIONS OR AMENDMENTS:** No alterations, amendments, changes, modifications or additions to this Contract shall be binding on Knox County without the prior written approval of the County.

2.2 **APPROPRIATION:** In the event no funds are appropriated by Knox County for the goods or services in any fiscal year, or insufficient funds exist to purchase the goods or services, then the Contract shall expire upon the expenditure of previously appropriated funds or the end of the current fiscal year, whichever occurs first, with no further obligations owed to or by either party.

2.3 **ASSIGNMENT:** Contractor shall not assign or sub-contract this agreement, its obligations or rights hereunder to any party, company, partnership, incorporation or person without the prior written specific consent of Knox County.

2.4 **BOOKS AND RECORDS:** Vendor shall maintain all books, documents, accounting records and other evidence pertaining to the goods and services provided under this Contract and make such materials available at its offices at all reasonable times during the Contract period and for five (5) years from the date of the final payment under this agreement for inspection by County or by any other governmental entity or agency participating in the funding of this agreement, or any authorized agents thereof; copies of said records to be furnished if requested. Such records shall not include those books, documents and accounting records that represent the Vendor's costs of manufacturing, acquiring or delivering the products and services governed by this agreement.

2.5 **CHILD LABOR:** Contractor agrees that no products or services will be provided or performed under this Contract that have been manufactured or assembled by child labor.

2.6 **COMPLIANCE WITH ALL LAWS:** Contractor is assumed to be familiar with and agrees to observe and comply with all Federal, State, and Local laws, statutes, ordinances, and regulations in any manner affecting the provision of goods and/or services, and all instructions and prohibitive orders issued regarding this work and shall obtain all necessary permits.

2.7 **CRIMINAL HISTORY RECORDS CHECK:** Any and all successful proposers, Contractor's employees, Contractor's subcontractors and the employees of any subcontractors must submit to a criminal history records check at the Contractor's expense, conducted by the Tennessee Bureau of Investigation and the Federal Bureau of Investigation prior to permitting the employee to have contact with students or enter school grounds when students are present. Reference Tennessee Code Annotated Section 49-5-413. Proposers **must** submit with their proposals the Criminal History Affidavit of Compliance.

2.8 **DEFAULT:** If Contractor fails to perform or comply with any provision of this Contract or the terms or conditions of any documents referenced and made a part hereof, Knox County may terminate this Contract, in whole or in part, and may consider such failure or noncompliance a breach of Contract. Knox County expressly retains all its rights and remedies provided by law in case of such breach, and no action by Knox County shall constitute a waiver of any such rights or remedies. In the event of termination for default, Knox County reserves the right to purchase its requirements elsewhere, with or without competitive solicitation.

2.9 **GOVERNING LAW; VENUE:** This agreement shall be exclusively construed, governed, and controlled by the Laws of the State of Tennessee without regard to principles of law, including conflicts of law, of any other jurisdiction, territory, country, and/or province. Any dispute arising out of or relating to this agreement shall exclusively be brought in the Chancery Court or the Circuit Court of Knox County, Tennessee. Each party consents to personal jurisdiction thereto and waives any defenses based on personal jurisdiction, venue and inconvenient forum.

2.10 **INCORPORATION:** All specifications, drawings, technical information, Request for Proposal, Proposal, Award and similar items referred to or attached or which are the basis for this Contract are deemed incorporated by reference as if set out fully herein.

2.11 **INDEMNIFICATION—HOLD HARMLESS:** Contractor shall indemnify, defend, save and hold harmless Knox County, its officers, agents and employees from all suits, claims, actions or damages of any nature brought because of, arising out of, or due to breach of the agreement by Contractor, its subcontractors, suppliers, agents,

or employees or due to any negligent act or occurrence or any omission or commission of Contractor, its subcontractors, suppliers, agents or employees.

2.12 **INDEPENDENT CONTRACTOR:** Contractor shall acknowledge that it and its employees serve as independent contractors and that Knox County shall not be responsible for any payment, insurance or incurred liability.

2.13 **INSPECTION AND ACCEPTANCE:** Warranty periods shall not commence until Knox County inspects and formally accepts the goods and/or services. The terms, conditions and timing of acceptance shall be determined by Knox County. Knox County reserves the right to reject any or all items or services not in conformance with applicable specifications, and Contractor assumes the costs associated with such nonconformance. Acceptance of goods or services does not constitute a waiver of latent or hidden defects or defects not readily detectable by a reasonable person under the circumstances.

2.14 **IRAN DIVESTMENT ACT:** By submission of this Request for Proposal response, each proposer and each person signing on behalf of any proposer certifies, and in the case of a joint response, each party thereto certifies as to its own organization, under penalty of perjury, that to the best of its knowledge and belief that each proposer is not on the list created pursuant to Tennessee Code Annotated § 12-12-106.

2.15 **LIMITATIONS OF LIABILITY:** In no event shall Knox County be liable for any indirect, incidental, consequential, special or exemplary damages or lost profits, even if Knox County has been advised of the possibility of such damages.

2.16 **NO BOYCOTT OF ISRAEL:** Pursuant to Tennessee Code Annotated Title 12, Chapter 4, Part 1, by submission of a response to this solicitation, each proposer and each person signing on behalf of any proposer certifies, and in the case of a joint response each party thereto certifies as to its own organization, under penalty of perjury, that to the best of its knowledge and belief that each proposer is not currently engaged in, and will not for the duration of the Contract engage in, a boycott of Israel. Proposers must submit with their proposals the completed Iran Divestment Act/No Boycott of Israel Affidavit.

2.17 **NON-DISCRIMINATION AND NON-CONFLICT STATEMENT:** Contractor agrees that no person on the grounds of handicap, age, race, color, religion, sex **or** national origin any individual trait or characteristic found to be an illegal consideration, shall be excluded from participation in, or be denied benefits of, or be otherwise subjected to discrimination in the performance of this agreement or in the employment practices of vendor. Contractor shall upon request show proof of such non-discrimination and shall post in conspicuous places available to all employees and applicants notices of non-discrimination. Contractor covenants that it complies with the Fair Wage and Hour Laws, the National Labor Relations Act, and other Federal and State employment laws as applicable. Contractor covenants that it does not engage in any illegal employment practices.

Contractor covenants that it has no public or private interest and shall not acquire directly or indirectly any interest that would conflict in any manner with the provision of its goods or performance of its services. Contractor warrants that no part of the total Contract amount provided herein shall be paid directly or indirectly to any officer or employee of Knox County as wages, compensation, or gifts in exchange for acting as officer, agent, employee, subcontractor or consultant to Contractor in connection with any goods provided or work contemplated or performed relative to the agreement.

2.18 **ORDER OF PRECEDENCE:** In the event of inconsistent or conflicting provision of this Contract and referenced documents, the following descending order of precedence shall prevail: (1) Contract, (2) Request for Proposal, (3) Contractor's Response, (4) Award, (5) Special Terms and Conditions, (6) General Terms and Conditions, (7) Specifications, (8) Drawings.

2.19 **REMEDIES:** Knox County shall have all rights and remedies afforded under the U.C.C. and Tennessee law in Contract and in tort, including but not limited to, rejection of goods, rescission, and right of set-off, refund, incidental, consequential and compensatory damages and reasonable attorney's fees.

2.20 **RIGHT TO INSPECT:** Knox County reserves the right to make periodic inspections of the manner and means the service is performed or the goods are supplied and warehoused.

2.21 **SEVERABILITY:** If any provision of this Contract is declared illegal, void or unenforceable, the remaining provisions shall not be affected but shall remain in force and in effect.

2.22 **TAX COMPLIANCE:** Pursuant to Resolution R-07-1-903 passed by the Commission of Knox County, Tennessee, Contractor hereby acknowledges, by submission of its proposal or proposal and signature, it is current in its

respective Federal, State, County, and City taxes of whatever kind or nature, and is not delinquent in any way. Delinquent status must be disclosed or risk debarment by the Knox County Procurement Division.

2.23 **TERMINATION:** County may terminate this agreement with or without cause at anytime. In the event of termination by either party, fees due for services satisfactorily performed or goods accepted prior to the termination date shall be paid. Contractor shall not perform additional work without the expressed permission of County. In the event Contractor intends to interrupt or discontinue service under this Contract, Contractor agrees to give Knox County at least one hundred twenty (120) business days' advance written notice of said interruption or discontinuance of service prior to interrupting or discontinuing same. Any interruption or discontinuance of service without said advance notice shall constitute a material breach of this Contract.

2.24 **WARRANTY:** Contractor warrants to Knox County that all items delivered and all services rendered shall conform to the specifications, drawings, solicitation and/or other descriptions furnished and/or incorporated by reference, and will be fit for the particular purpose purchased of merchantable quality, good workmanship, and free from defects. Contractor extends to Knox County all warranties allowed under the U.C.C. Contractor shall provide copies of warranties to the County upon request. Return of merchandise not meeting warranties shall be at contractor's expense.

SECTION III SPECIAL TERMS AND CONDITIONS

3.1 **INTENT:** The intent of this document is to set forth and convey to prospective proposers the general requirements for vendors to provide Knox County Schools with Evidence-Based Instruction Strategies Consulting as desired by Knox County. Award will be based on Best Value. Best value means more than low cost. It includes cost, technical service quality, experience, qualifications and other factors detailed herein.

3.2 **ACCEPTANCE:** Vendors are advised that the payment of an invoice does not necessarily constitute as an acceptance of services that are provided. Acceptance requires a specific written action by Knox County so stating.

3.3 **ADDITIONS OR DELETIONS:** Knox County reserves the right to add or delete services as the need arises. If services are to be added, Knox County and the Contractor will arrive at a mutually agreed price. Any additions or deletions must be approved in writing by Knox County Procurement prior to any changes in service.

3.4 **AWARD LENGTH:** The pricing for this Contract must remain firm for thirty-six (36) months. However, due to the funding source Knox County does not allow automatic renewals, this Contract will need to be extended annually to continue services. Knox County will draft the Extension of Contract and send it to the vendor approximately ninety (90) days before expiration. The agreement may be renewed for four (4) one-year periods upon mutual consent, for a possible total of five (5) years. Following the initial thirty-six (36) months, the Contractor may request a change in price.

3.5 **CHANGES AFTER AWARD:** It is possible that after award, Knox County might change its needs or requirements. Knox County reserves the right to make such changes after consultation with the vendor. Should additional costs arise, Knox County reserves the right to consider accepting these charges provided the vendor can document the increased costs. Knox County also reserves the right to accept proposed service changes from the vendor if they will lower the cost to Knox County and/or provide improved service.

3.6 **COMMUNICATION:** The successful execution of this contract will require extensive communication between all involved parties. While information may be transmitted via telephone, it should always be followed up with an email. It is essential that the Contractor have an efficient email capabilities. The Contractor will be required to submit a list of individuals, along with direct phone numbers, cell phone numbers and email addresses for the agency's contacts. These individuals must be familiar with the Knox County Contract and have authority to make adjustments as requested by Knox County.

3.7 **COMPLIANCE WITH ALL APPLICABLE REGULATIONS:** Vendor agrees and covenants that the company, its agents and employees will comply with all City, County, State and Federal codes, laws, rules and regulations applicable to the business to be conducted under this contract. If the vendor performs any work knowing it to be contrary to such laws, ordinances, rules and regulations, the vendor shall bear all costs arising from such work.

3.8 **CONTACT PERSONNEL:** Essential to the success of this Contract is the development of a good working relationship between the vendor and Knox County. It is imperative that the Knox County account be handled efficiently and professionally. Knox County should be assigned no more than two (2) vendor contacts to handle billing inquiries and service related issues. In the event on or both contacts leave the Knox County account, the

vendor shall formally introduce the new contacts to Knox County personnel. These contacts must be knowledgeable of the County's account to avoid an interruption of service.

3.9 **CONTRACT EXECUTION:** The award of this proposal may result in a Contract between Knox County and the successful vendor(s). The Contract may require Knox County Board of Education and/or Knox County Commission approval. The successful vendor(s) may be required to be present at the Board of Education and/or County Commission meeting(s) to answer questions relating to the service to be performed. Adequate notification will be given by Knox County Procurement Division if the awarded vendor(s) will need to attend meetings. There shall be no cost to Knox County for attendance of the vendor(s). Knox County will draft the Contract. The Knox County Procurement Division will not accept any vendor's contract. A sample contract is under Exhibit B for review. If Master Agreements, Service Agreements, Terms and Conditions or other contract agreements are submitted they will not be accepted.

3.10 **CONTRACTOR DUTIES:** At the Contractor's own expense, the Contractor shall:

3.10.1 Provide competent supervision;
3.10.2 Provide competent personnel;
3.10.3 Take precautions necessary to protect persons or property against injury or damage and be responsible for any such damage or injury that occurs as a result of their fault or negligence.

3.11 **DESTINATION AND DELIVERY:** All shipments that are to be delivered must be Free on Board Destination to the department ordering the items. All shipping charges are to be included in the unit price of each item. All deliveries must be unloaded and delivered inside to the department location that is ordering the items.

3.12 **EVALUATION CRITERIA:** This proposal will be evaluated using the following criteria:

As per Section 1.5, Knox County will determine the award structure that is in its best interest.

Methodology	30 Points
Delivery of Service	30 Points
Experience & References	20 Points
Cost	20 Points

Knox County may select an Evaluation Committee for this solicitation to thoroughly review and score all submitted responsive and responsible proposals. Each evaluator will have the ability to award up to one hundred (100) points, based on the Evaluation Criteria, per submission.

3.13 **EVALUATION REVIEW:** Knox County reserves the right to use all pertinent information (including information learned from sources other than disclosed in the Request for Proposal process) that might affect the County's judgment as to the appropriateness of an award to the best evaluated vendor(s). This information may be appended to the proposal evaluation process results. Information on a service provider from reliable sources, and not within the service provider's proposal, may also be noted and made part of the evaluation file. Knox County shall have sole responsibility for determining a reliable source. Knox County reserves the right to conduct written and/or oral discussions/interviews after the proposal closing. The purpose of such discussions/interviews is to provide clarification and/or additional information to make an award that is in the best interest of Knox County.

3.14 **EXCEPTIONS TO SPECIFICATIONS:** Vendors taking exception to any part or section of these specifications shall indicate such exceptions on their submittal. A failure to indicate any exception(s) shall be interpreted as the vendor's intent to fully comply with the specifications as written. Conditional or qualified offer are subject to rejection in whole or in part. Any exceptions shall be included in Section V, Tab VIII of the submittal. **Do not strike through or in any other way alter the Request for Proposal. Exceptions listed within other sections of the submittal shall not be reviewed or considered.**

3.15 **GRANT FUNDING:** The products or services being procured under this solicitation are being funded by Federal Grant money. All awarded vendors will be required to adhere to Exhibit A of this solicitation in the performance of the Contract.

3.16 **GRATUITIES AND KICKBACKS:** It shall be a breach of ethical standards for any person or company to offer, give, or agree to give any employee or former employee, or for any employee or former employee to solicit, demand, accept, or agree to accept from another person, a gratuity or an offer of employment in connection with any decision, approval, disapproval, recommendation, preparation of any part of a program requirement or a purchase request, influencing the content of any specification or procurement standard, rendering of advice, investigation, auditing or in any other advisory capacity in any proceeding or application, request for ruling,

determination, claim, or controversy or other particular matter, pertaining to any program requirement of a contract or subcontract or to any solicitation or proposal therefore. It shall be a breach of ethical standards for any payment, gratuity or offer of employment to be made by or on behalf of a subcontractor under a contract to the prime contractor or higher tier subcontractor or a person associated therewith, as an inducement for the award of a subcontract or order. Breach of the provisions of this paragraph is, in addition to a breach of this Contract, a breach of ethical standards which may result in civil or criminal sanction and/or debarment or suspension from being a contractor or subcontractor under Knox County contracts.

3.17 **IDENTIFICATION:** Employees of the Contractor shall have proper photo identification displayed at all times while on property belonging to Knox County.

3.18 **INSURANCE:** The successful vendor(s) must carry the insurance as indicated on the Insurance Checklist Attachment hereto. As proof of the vendor's willingness to obtain and maintain the insurance, the vendor must complete, sign and have its insurance agent sign the attachment and submit it with the proposal. Upon the Notification of Intent to Award, the successful vendor will be required to submit a Certificate of Insurance (COI) including any corresponding endorsement page(s) with the specified coverage and listing Knox County as an additional insured. It shall be the successful vendor's responsibility to keep a current COI and endorsement page(s) on file with Knox County Procurement for as long as the contract is in effect.

3.19 **INTERPRETATION:** No oral interpretation will be made to any vendor regarding the meaning of specifications or the Scope of Work. All questions are to be submitted in writing via email and will be answered in the form of an addendum to the solicitation by the Knox County Procurement Division, if applicable.

3.20 **INVOICE DETAIL:** Knox County is requesting invoices to show the following detail to help expedite review and payment. The Contractor(s) may be required to modify invoicing procedures to show the detail. All potential Contractors are hereby cautioned that Knox County will only pay from original invoices and not facsimiles or copies. Invoices which do not adhere to these details may be returned to the Contractor for correction.

3.20.1 The invoice must show the amount due to the Contractor by Knox County;
3.20.2 The invoice must show a summary of completed work;
3.20.3 Invoices are to be original and uniquely pre-numbered;
3.20.4 Invoices which do not show this information are subject to rejection.

3.21 **INVOICING PROCEDURES:** Knox County requests that invoices be easy to read and understand. Invoices are to be original and uniquely pre-numbered. There shall be no additional charge for this information and these procedures to be included. Each invoice shall include a summary of service(s) provided and shall list the associated unit price. Supporting documentation shall be included with invoices as applicable. Invoices without this information will be returned to the Contractor for correction.

Invoices shall be sent to the billing address indicated on the Purchase Order. Each department or division of Knox County is responsible for its own budget. Departments cannot charge or pay bills for another department. Therefore, it is critical that the successful Contractor's invoices specify the correct department. Do not credit payments to another department's account. Invoices must be submitted in triplicate and must match the corresponding Purchase Order number. There shall be no component billing. Mail invoices for Knox County Schools to:

Knox County Schools Finance Department
Post Office Box 2188
Knoxville, TN 37902-1805
invoices@knoxschools.org

3.22 **INVOICE REVIEW:** Knox County shall review all invoices for adherence to the terms and conditions of the Contract. Variations from the Contract and Contract pricing are strictly prohibited. Any variance found on the invoice will result in rejection of that invoice. Rejected invoices will be returned to the Contractor(s) for correction. Repeated variations may result in termination.

3.23 **MINIMUM QUALIFICATION EXPECTATIONS:**

3.23.1 Respondent must address all submittal requirements as defined under Section IV.
3.23.2 Respondent shall have a minimum of five (5) years of experience and sufficient capabilities to carry out the work contemplated, as well as the equipment and personnel available for the work.

3.23.3 If the respondent has a permanent office in Knox County, respondent must have a current business license issued by Knox County. This requirement also applies to any of the Respondent's proposed subcontractors or subconsultants with a permanent office in Knox County. A Knox County business license is not required of any Respondent or proposed subcontractor or subconsultant who does not have a permanent office in Knox County. For more information, contact the Knox County Clerk's office at 865.215.2392.

3.24 **NEGOTIATION:** Knox County may select a successful proposer on the basis of initial offers received without discussions. Therefore, each proposal shall contain the proposer's best terms from a cost or price and service standpoint. Knox County reserves the right to enter into Contract negotiations with the highest-rated proposer. If Knox County and the selected proposer cannot negotiate a successful agreement, Knox County may terminate said negotiations and begin negotiations with the next highest-rated proposer. Knox County retains the right to negotiate with multiple proposers simultaneously. This process will continue until an agreement has been reached or all proposers have been rejected. No proposer shall have any rights against Knox County arising from such negotiations.

3.25 **NEWS RELEASES BY VENDORS:** As a matter of policy, Knox County does not endorse the services of a Contractor. A Contractor will not make news releases concerning any resultant contract from this solicitation without the prior written approval of Knox County.

3.26 **NO CONTACT POLICY:** After the date and time that the vendor receives this solicitation, any contact initiated by any proposer with any Knox County representative, other than the Procurement Division representative listed herein, concerning this Request for Proposal, is strictly prohibited. Any such unauthorized contact may cause the disqualification of the proposer from this procurement transaction.

3.27 **OFFER WITHDRAWAL:** No proposal can be withdrawn after it is filed unless the proposer makes a request in writing to the Knox County Procurement Division prior to the time set for the closing of proposals or unless the County fails to accept within one hundred twenty (120) business days after the date fixed for the closing the Request for Proposal.

3.28 **ORAL PRESENTATION/INTERVIEW:** Knox County may require proposers to give oral presentations/interviews in support of their proposal or to exhibit or otherwise demonstrate the information contained therein. These presentations/interviews may be conducted virtually through video conferencing or in person.

Knox County reserves the right to request oral presentations and/or interviews during the initial evaluation phase. The County also reserves the right to complete the initial evaluation phase and then request oral presentations and/or interviews from all proposers or the highest rated proposers. In this case, the evaluations may be revised based on additional information received during presentations.

3.29 **PRICING:** The proposer(s) warrants that the unit price stated shall remain firm for a period of thirty-six (36) months from the first day of the Contract period. If the Contractor's price is increased after the first contract period, Knox County must be given a written notice to consider. Such a request shall include as a minimum, (1) the cause for the adjustment; (2) the amount of the change requested with documentation to support the requested adjustment. Price increases will only be considered at the renewal period(s). If the price increase is rejected the contractor may:

- Continue with the existing prices;
- Request a lower price increase;
- Not accept the renewal offer.

If a price increase is approved by Knox County, the approval notification will be done in writing and the Contractor will be notified of the new price schedule and effective date of increase. This documentation will become part of the proposal file. No approvals will be authorized verbally.

3.30 **PROPOSAL CONTENT:** The proposer's response must contain a thorough description of the background of the proposer and sufficient evidence showing that the proposer is capable of providing the services. The proposer's response must thoroughly expound on the proposer's understanding of how the proposed services will meet Knox County's needs. The proposal must also contain an explanation of the implementation plan and the proposer's ongoing commitment to service.

3.31 **PROPOSAL EVALUATION:** In evaluation of submitted proposals, Knox County reserves the right to use any or all of the ideas from the proposals submitted without limitation and to accept any part or the entire successful proposal in selecting an operation which is judged to be in the best interest of Knox County. All material submitted becomes property of Knox County.

3.32 **PROPOSAL FORMAT:** This solicitation is in the Request for Proposal format. As the specified date and time, each proposer's name will be publicly read aloud. No further information will be given at that time. Evaluation of the proposals will proceed as expeditiously as possible and successful, as well as unsuccessful, notification will be given.

3.33 **PROPOSER OBLIGATION:** Proposers shall become fully acquainted with conditions relating to the scope of the work detailed in this Request for Proposal. Failure to become acquainted with the existing conditions shall in no way absolve the proposer of any obligations with respect to this Request for Proposal or the Contract.

3.34 **PUBLIC RECORDS ACT:** Knox County is subject to the Tennessee Open Records Act 10-7-503 et seq. Proposers are cautioned that all documents submitted on behalf of this Request for Proposal shall be open to the public for viewing and inspection.

3.35 **QUANTITIES:** Knox County does not guarantee any quantity of services will be utilized under this solicitation. Services will be utilized on an as needed basis.

3.36 **REJECTION OF PROPOSALS:** Knox County reserves the right to reject any and all proposals received as a result of this request and to waive any informality, technical defect or clerical error in any proposal, as the interests of Knox County may require. Non-acceptance of any proposal will be devoid of any criticism of the proposal and of any implication that the proposal is deficient in any manner. Non-acceptance of any proposal shall be construed as meaning simply that the County does not deem the proposal acceptable or that another proposal was deemed more advantageous to Knox County for the particular services proposed.

3.37 **REMOVAL OF CONTRACTOR'S EMPLOYEES:** Contractor agrees to utilize only experienced, responsible and capable people in the performance of the work. Knox County may require that the Contractor remove from the job covered by this Contract, including employees who endanger persons or property or whose continued employment under this Contract is inconsistent with the interest of Knox County.

3.38 **SUBMIT QUESTIONS:** Prospective proposers may submit questions concerning this solicitation until **May 27, 2025 at 4:30 p.m. local time**.

3.39 **SUSPENSION AND DEBARMENT:** Vendor will notify Knox County Government if they become suspended, debarred, or otherwise excluded from or ineligible for participation in Federal assistance programs or activities during the term of this proposal and during the term of any subsequent Contract for service.

3.40 **TENNESSEE REGISTRATION:** The successful proposer must meet any applicable State of Tennessee registration requirements.

SECTION IV SCOPE OF WORK

4.1 **BACKGROUND:** Knox County Schools (KCS) is a public education agency. It is responsible for the education of children from preschool through high school. There are approximately fifty-nine thousand (59,000) Pre-K through 12th-grade students and approximately seven thousand eight hundred (7,800) employees. For purposes related to this Request for Proposal, the district is comprised of ninety-two (92) schools that represent urban, suburban, and rural populations. In addition to Knox County Public Schools, funds are utilized to provide our non-public and the charter schools with resources/services.

4.2 **FACILITIES:** All facilities for the training will be provided by Knox County or Knox County's non-public schools.

4.3 **PARTICIPANTS:** Number of participants may vary. Vendors may work with an entire school staff or smaller school teams, and/or district teams, or any combination thereof. A defined number of trainings or participants is not guaranteed. Participants will be staff members serving students that may fall into historically underserved populations.

4.4 **SCOPE OF WORK:** Knox County Schools is seeking vendors to provide professional consultation to our schools and district to implement evidenced-based, content-specific strategies for instruction while building a coherent

academic and cultural model that is grounded in our district's four priorities: excellence in foundational skills, great educators in every school, success for every student, and career empowerment and preparation.

Through a framework that supports adult learning; while embracing student-centered decision-making, educators will be empowered to collaborate in curriculum-embedded professional learning. Educators will build discernment by measuring their impact on student learning through routine student work analysis. The consultant will work with leaders to support the accurate capture of the state of instruction through participation in classroom walkthroughs and coaching during reflective debriefs. The consultant will provide support in developing strategic action plans aligned with the current state of instruction that embrace evidenced-based instructional strategies within the high-quality instructional materials utilized by the district. Educators will also focus on developing or sustaining a culture of learning within the school community to support academic competency and increase student proficiency and growth

4.5 **METHODOLOGY:** Proposer is to describe, in detail, their proposed approach to providing services including excerpts and/or examples of course content and materials to be used, description(s) of recommended content proposed including objectives, research base, and training scripts.

Proposer is also to include samples of modules and/or curriculum and/or resources used in past projects that are similar in scope to the proposed training. This information is to be provided in Section V, Tab III of this Proposal.

4.6 **DELIVERY OF SERVICES:** The successful Proposer **must** offer professional development training designed to achieve the objectives outlined in this Request for Proposal and support increased organizational capacity to sustain the application of learning and implementation of tools and strategies over time. The proposed program must be designed to enhance the skills and/or abilities of employees in evidence-based instructional strategies as related to the classroom and school environment to reduce disparities and enhance student academic performance as detailed in this Request for Proposal.

The professional learning delivery model must authentically engage participants based on the principles of adult learning. Participants will be prepared to effectively implement evidenced-based, curriculum-based professional learning strategies and respond based on content-specific feedback to increase student proficiency. Participants will collaboratively engage in structures to include:

- Surveys for measuring culture;
- Processes for educator collaboration;
- Processes for measuring impact on student learning;
- Processes for building educator discernment regarding evidence-based instructional strategies within high-quality instructional materials utilized by the district; and
- Processes for leader capacity building.

Training provided should support sustained implementation and the professional learning should provide evidence-based instructional strategies with a proven impact on student outcomes.

Proposers must provide comprehensive narrative statements that outline the implementation and management plans that it intends to follow. This information should fully illustrate how the plan will serve to accomplish the work and furnish the deliverables described.

Implementation may be requested upon execution of a contract.

4.7 **EXPERIENCE & REFERENCES:** Proposers are to detail their organization's previous experience working with school and district leadership teams to analyze underserved students and to promote high levels of achievement for all learners. For all relevant team members, proposers are to submit education credentials, relevant work experience, demonstrated outcomes, independent research, and publishing in the subject areas addressed by this Request for Proposal. This information is to be submitted in Section V, Tab V of the Proposal.

Proposers must provide three (3) references relating to work of a similar scope completed within the last five (5) years. Include the name of the agency or institution, point of contact with both a telephone number and email address, and the nature and size of the Contract. **Do not list Knox County Government or Knox County Schools as a reference.** References shall be submitted on Attachment A of this Request for Proposal.

SECTION V PROPOSAL FORMAT

The following guidelines should be followed when responding to the Request for Proposal. Negligence in adhering to the criteria listed below will be considered when reviewing the responses and evaluating the proposers. Knox County reserves the right to reject any proposal for failure to comply with the requested response specifications. The County reserves the right to amend the Request for Proposal by addendum prior to the final date of proposal submission.
PROPOSERS MUST HAVE THEIR BINDERS IN THE EXACT FORMAT LISTED BELOW.

- Knox County requests proposals be in sufficient detail to address all requirements.
- The County requests responses be submitted in a three-ring binder containing sections separated by tabs. **Do not submit spiral bound or glued responses.**
- Please submit one (1) marked original and one (1) exact copy.
- Proposers shall also submit an exact copy of the original proposal on a Flash drive. **This shall be in one (1) complete pdf file. Do not include multiple folders on the Flash drive.**
- Page numbers should be placed on bottom center of pages.

TAB I **COVER LETTER**

Include cover letter authorizing the submission of the proposal signed by the principal of the company.

TAB II **COMPANY PROFILE**

- Company Name, Address Telephone/Fax numbers
- Contact name(s) and information
- Proposer's Vendor Number as assigned by Knox County
- Employer Identification Number (EIN)
- Knox County Business Tax License for Organization (if applicable)
- Knox County Business Tax License(s) for Subcontractor(s) (if applicable)
- Acknowledgement of the receipt of any Addendum issued

TAB III **METHODOLOGY (30 POINTS)**

Proposers must demonstrate an understanding of Knox County's needs and fully explain overall approach to meet the County's requirements. At a minimum, information provided must thoroughly address each of the requirements outlined in Section 4.4 and 4.5. Proposer is to describe, in detail, their proposed approach to providing services including excerpts and/or examples of course content and materials to be used, description(s) of recommended content proposed including objectives, research base, and training scripts.

Proposer is also to include samples of modules and/or curriculum used in past projects that are similar in scope to the proposed training.

TAB IV **DELIVERY OF SERVICES (30 POINTS)**

Proposers must provide and implementation plan and comprehensive narrative statements that outline the management plan it intends to follow. This information should fully illustrate how the plan will serve to accomplish the work and furnish the deliverables described in the scope of work within the County's project schedule. Proposers must thoroughly address each of the requirements outlined in the Delivery of Services portion of the Scope of Work. At a minimum, information provided must thoroughly address each of the requirements outlined in Section 4.6.

TAB V **EXPERIENCE AND REFERENCES (20 POINTS)**

Proposers must thoroughly detail its approach to the Experience and References portion of the Scope of Work. At a minimum, information provided must thoroughly address each of the requirements outlined in Section 4.7.

- References (Attachment A)
- Proposers must state the organization's number of years in business and provide a description of the organization to include office location(s).
- Proposers must describe the organization's experience with similar projects.
- Proposers must provide an organizational chart that illustrates the organization of the project team. The organizational chart must illustrate the lines of authority and designate the individual responsible and accountable for the completion of each component and deliverable of the Request for Proposal. Information about each person listed should include their a) title b) resume, including advanced education credentials, relevant work

experience, demonstrated outcomes, independent research, and publishing in the subject areas addressed by this Request for Proposal c) number of years with the organization and d) description of the type of work the individual will perform

TAB VI **PROPOSED COSTS (20 POINTS)**

Costs proposals must include all direct and indirect costs associated with the performance of the service. Proposed costs should be inclusive of all expenses. Proposer may include the methodology used to determine their proposed cost. Pricing must include all expenses, including transportation and ancillary out-of-pocket charges, if applicable. There will be no reimbursement for any such charges. Please state cost in a "per participant" format, noting any applicable volume discounts.

- Cost Sheet (Attachment E)

NOTE: This tab and Attachment E shall only be included in Section V behind Tab VI. This tab will be reviewed after the other sections of the vendor's proposal have been reviewed and scored.

TAB VII **OTHER INFORMATION**

Proposers may include any other information deemed pertinent to this solicitation.

TAB VIII **EXCEPTIONS**

Please note any and all exceptions taken to any part this Request for Proposal. If none are taken, please clearly state so. Do not mark through or otherwise alter the language of this Request for Proposal in your response.

TAB IX **ATTACHMENTS**

- Insurance Checklist (Attachment B)
- Criminal History Check Affidavit (Attachment C)
- Iran Divestment Act (Attachment D)

EXHIBIT A
GENERAL FEDERAL FUNDING REQUIREMENTS
KNOX COUNTY PROCUREMENT DIVISION
REQUEST FOR PROPOSAL NUMBER 3667

Equal Employment Opportunity

During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

(3) The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.

(4) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(5) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(6) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(7) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(8) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance:

Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

Clean Air Act and Federal Water Pollution Control Act
Contractors and subcontractors will comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251-1387). Violations will be reported to the U.S. Department of Education (DOE) and the Regional office of the Environmental Protection Agency (EPA).

Debarment and Suspension
A contract award will not be made to a party listed on the governmentwide exclusions in the System for Award Management (SAM).

Lobbying
The Contractor certifies, to the best of its knowledge and belief, that:

a. No federally appropriated funds have been paid or will be paid, by or on behalf of the Contractor, to any person for influencing or attempting to influence an officer or employee of an agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with the awarding of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

b. If any funds other than federally appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with any contract, grant, loan, or cooperative agreement, the Contractor shall complete and submit Standard Form-LLL, “Disclosure Form to Report Lobbying," in accordance with its instructions.

c. The Contractor shall require that the language of this certification be included in the award documents for all contractors and that all subcontractors shall certify and disclose accordingly.
This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into and is a prerequisite for making or entering into this transaction imposed by 31 U.S.C. § 1352.

Procurement of recovered materials.
Contractors must comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

Preferences for Products Produced or Manufactured in the U.S.
(a) This contract award prefers the purchase, acquisition, or use of goods, products, or materials produced in the United States (including but not limited to iron, aluminum, steel, cement, and other manufactured products).

(b) For purposes of this section:

(1) “Produced in the United States” means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.

(2) “Manufactured products” means items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer-based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber.

EXHIBIT B
Sample Contract
Knox County Government
and
(Contractor Name)

This Contract, made and entered into by and between the Knox County Government, hereinafter referred to as the "County" and (Contractor Name) hereinafter referred to as "Contractor".

Whereas, the County requested proposals for Evidence-Based Instruction Strategies Consulting for Knox County Government and Knox County Schools (Request for Proposal #3667) and;

Whereas, Contractor submitted a proposal in accordance with said requested specifications, the response of which is the most responsible and responsive proposal meeting specifications accepted by the County;

Whereas, Contractor agrees and undertakes to provide said services for the County, as set forth in the Request for Proposal, and at the price quoted for said services by Contractor. Further, in accordance with the lawful directions of the County, the Contractor agrees in all respects, to be governed by the Request for Proposal's specifications and the Contractor's proposal and response.

Now, therefore in consideration of mutual covenants and promises contained herein, the parties hereto wish to enter into this Contract to set forth their respective rights and obligations and do mutually agree that;
Arises

Witnesseth:

1. Terms of this Contract. This Contract commences on the 1st day of September 2025 and ends upon the 31st day of August 2026 unless terminated in conformity with the terms of this Contract as contained in paragraphs 4 and 5. The County intends to issue a one-year (1) award. Upon the mutual agreement of the vendor and the County, the award may be extended for four (4) additional years, one (1) year at a time. This may result in a total of five (5) years. The County reserves the right to purchase these goods/services from other sources if the need arises. The County reserves the right to revoke the award if a pattern of unavailability with the vendor.

2. Payment. Contractor warrants that the pricing shall remain firm for the initial three (3) year period. However, due to the funding source, the County is required to renew the Contract on a yearly basis as per Paragraph 1 above. At the end of the first three (3) year period, and pursuant to the renewal terms in Paragraph 1, the Contractor may request a price increase for each subsequent renewal. Price increases will only be given at the renewal time and must remain in effect for the next one (1) year term. No price increases will be given during the term of a Contract. The County shall pay Contractor the amount as agreed upon in the County's Request for Proposal for Evidence-Based Instruction Strategies Consulting per the Contractor's response to Request for Proposal #3667; pursuant to all payments being subject to the County's review and approval. The Contractor shall receive, upon the need of the County, written notification to proceed. The Contractor shall pursue all work diligently until completion as directed by the County.

3. Invoicing and reporting requirements. Contractor shall invoice the County for Evidence-Based Instruction Strategies Consulting and Services pursuant to Request for Proposal #3667.

TBA

4. Termination. The County may terminate this Contract with or without cause, upon written notice of not less than thirty (30) days. Upon termination, the County will pay for services satisfactorily completed but not yet invoiced. Contractor shall not perform additional work without the expressed permission of the County.

Should the Contractor fail to provide Evidence-Based Instruction Strategies Consulting and Services detailed herein, the County will communicate the problem(s) to the Contractor both verbally and in writing and keep a written record as to what the problem(s) are and when the Contractor was contacted. The Contractor shall rectify the problem within thirty (30) business days of notification of the problem. If the same or other problems persist or reoccur, the County may terminate the Contract.

In the event Contractor intends to interrupt or discontinue service under this Contract, Contractor agrees to give the County at least one hundred twenty (120) days' advance written notice of said interruption or discontinuance of service prior to interrupting or discontinuing same. Any interruption or discontinuance of service without said advance notice shall constitute a material breach of this Contract.

SAMPLE

5. Appropriations. In the event no funds are appropriated by the County for the Evidence-Based Instruction Strategies Consulting and Services in any fiscal year or insufficient funds exist to provide the services, then the Contract shall expire upon the expenditure of previously appropriated funds or the end of the current fiscal year, whichever occurs first, with no further obligations owed to or by either party.

6. Independent contractor. Contractor acknowledges that Contractor and employees serve as independent contractors and that the County shall not be in any manner responsible for any payment, insurance, or incurred liability.

7. Compliance with all federal, state, and municipal laws. Contractor is assumed to be familiar with and agrees to observe and comply with all federal, state, and local laws, statutes, ordinances, and regulations in any manner affecting the provision of the Evidence-Based Instruction Strategies Consulting and Services, and all instructions and prohibitive orders issued regarding this work and shall obtain all necessary permits.

8. Severability clause. If any provision of this Contract is declared illegal, void, or unenforceable the remaining provisions shall not be affected but shall remain in force and in effect.

9. Prohibition against assignment. Contractor shall not assign this Contract to any party, company, partnership, incorporation, or person without prior specific written consent of the County.

10. This Contract shall be exclusively construed, governed, and controlled by the Laws of the State of Tennessee without regard to principles of law, including conflicts of law, of any other jurisdiction, territory, country, and/or province. Any dispute arising out of or relating to this agreement shall exclusively be brought in the Chancery Court or the Circuit Court of Knox County, Tennessee. Each party consents to personal jurisdiction thereto and waives any defenses based on personal jurisdiction, venue and inconvenient form.

11. Right to inspect. The County reserves the right to make periodic inspections of the manner and means the services are performed.

12. Nondiscrimination and non-conflict statements. Contractor agrees that no person on the grounds of handicap, age, race, color, religion, sex, national origin or any individual trait or characteristic found to be an illegal consideration, shall be excluded from participation in, or be denied benefits of, or be otherwise subjected to discrimination in the performance of this Contract, or in the employment practices of Contractor. Contractor shall upon request show proof of such non-discrimination and shall post in conspicuous places available to all employees and applicants notices of non-discrimination.

13. Books and records. Contractor shall maintain all books, documents, accounting records and other evidence pertaining to the service under this Contract and make such materials available at their offices at all reasonable times during the contract period and for five (5) years from the date of the final payment under the Contract for inspection by the County or by any other governmental entity or agency participating in the funding of this Contract, or any authorized agents thereof; copies of said records to be furnished if requested. Such records shall not include those books, documents and accounting records that represent the Contractor's costs of manufacturing, acquiring or delivering the products and services governed by this Contract.

14. Contractor shall indemnify**,** defend, save and hold harmless, County, its officers, agents and employees from all suits, claims, actions or damages of any nature brought because of, arising out of, or due to breach of the Contract by Contractor, its subcontractors, agents or employees or due to any negligent act, occurrence, omission, commission of Contractor, its subcontractors, agents, or employees.

15. Delivery. Contractor shall render the Evidence-Based Instruction Strategies Consulting and Services for the County in accordance with Request for Proposal #3667.

16. Tax Compliance. Pursuant to Resolution R-07-1-903 passed by the Commission of Knox County, Tennessee, Contractor hereby acknowledges, by submission of its bid and signature that it is current in its respective Federal, State, County, and City taxes of whatever kind or nature and is not delinquent in any way. Delinquent status must be disclosed or risk debarment by the Knox County Procurement Division.

17. Limitations of liability. In no event shall the County be liable for any indirect, incidental, consequential, special or exemplary damages or lost profits, even if the County has been advised of the possibility of such damages

18. Contract documents. It is mutually agreed by both parties that the following documents are made part of this Contract and are incorporated herein by reference:

SAMPLE

A. Request for Proposal #3667
B. Contractor's Response to Request for Proposal #3667

It is agreed that this Contract, represents the **entire Contract** between the parties and no prior representations, promises, and agreements, oral or otherwise, not embodied herein, shall be of any force or effect.

In witness whereof, the parties hereto have caused this Contract to be executed in one original copy on the day and year last written below.

Addendum I to RFP No. 3667
Evidence-Based Instruction Strategies Consulting

Addendum Date: June 2, 2025

Buyer: Rachel Cabrera

Closing Date: June 13, 2025

The following is for clarification:

Question 1: Section 4.1. In reference to, "For purposes related to this Request for Proposal, the district is comprised of ninety-two (92) schools that represent urban, suburban, and rural populations." Should proposal responses encompass working with educators prek-12, or could proposal responses attend to working with a subset of grade-levels (i.e. Elementary only)? Will proposals be scored more favorably one way or another?

Answer 1: Proposals can attend to working with subsets of grade-levels. No, proposals will not be scored more favorably one way or the other.

Question 2: Section 5. Proposal Format: This section requests submissions in a three-ring binder and also requests two copies, 1 marked "original" and 1 exact copy. Should both "Original" and "Exact Copy" be in the same three-ring binder, or should each be submitted in their own binder?

Answer 2: They should be submitted in their own binder.

Question 3: Section 4.7 states "Proposers must provide three (3) references relating to work of a similar scope completed within the last five (5) years." However, Attachment A states "Proposers shall submit a list of three (3) projects of similar size which have been in service for at least five (5) years." Can you please clarify, do these references need to be related to work completed in the last five years, or work that is currently underway and has been in service for 5+ years? i.e. Could we submit a reference from the last five years of a similar project that had a 3-year duration?

Answer 3: The work could have been completed in the last five years or currently underway. Yes, your company could submit a reference from the last five years of a similar project that had a 3-year duration.

Question 4: Will all 92 schools necessarily receive consulting services, or is the number of schools to be determined?

Answer 4: Per Section 3.35 Knox County does not guarantee any quantity of services will be utilized under this solicitation. Services will be utilized on an as needed basis.

Question 5: Are you able to provide any more guidance on the participants? I see Section 4.3 notes that the number and type of participants may vary, but do you have an idea if it will mainly be district leaders, school leaders, or teachers? Are you able to provide any more guidance on the participants? I see Section 4.3 notes that the number and type of participants may vary, but do you have an idea if it will mainly be district leaders, school leaders, or teachers?

Answer 5: We have 92 schools in KCS. Participants will primarily include executive principals and school-level leadership teams but may include supporting educators. Participant numbers will vary based on the size of the school and the focus of the work.

Question 6: Does the district have instructional coaches, and if so, do you envision the consultants supporting them via a train-

the-trainer model?

Answer 6: KCS has an instructional coach in each elementary school. Some of our middle schools and high schools have instructional coaches. Train-the-trainer model is an option for support.

Question 7: Section 4.4 states, "The consultant will provide support in developing strategic action plans aligned with the current state of instruction that embrace evidenced-based instructional strategies within the high-quality instructional materials utilized by the district." Do you have any additional information about the kind of strategic action plans you are looking for here?

Answer 7: Strategic plans should align with the district plan and school plan, but deeply analyze how best to achieve positive outcomes for students based on an understanding of the current state of instruction utilizing district IPGs. The plan should embrace the use of the district-provided HQIM (ELA, MATH, SCIENCE). Strategies outlined in the plan must align not only with research but with evidenced-based practices.

Question 8: How will schools and participants be selected?

Answer 8: School leaders will have autonomy to elect services and design support.

Question 9: Is there a vendor currently providing this scope of work?

Answer 9: Yes, Knox County currently has Contracts with Catapult Learning, LLC, Corwin Press and National Institute for Excellence in Teaching for Evidence-Based Instruction Strategies Consulting.

Question 10: Is a hybrid approach that includes onsite and virtual training acceptable?

Answer 10: Yes

Question 11: Does the district currently leverage an LMS for professional development?

Answer 11: Yes, Canvas.

Question 12: What is the budget for this scope of work?

Answer 12: The budget varies based on school budget and district budget.

Question 13: Tab VI Proposed Costs requests a "per participant" price but Attachment E Cost Sheet specifies a number of participants per service. Please clarify what should be reflected in Attachment E.

Answer 13: Please complete the Attachment E Cost Sheet. Do not alter the cost sheet in any way. Failure to provide the completed cost sheet or deviations from the cost sheet may be just cause to deem your proposal non-responsive and not considered for award.

End of Addendum I

Note: Addendum must be acknowledged in Section V behind Tab II of the proposal.

SCOPE OF SERVICES

Focus: Evidence-Based Instruction Strategies

Personalized Plan: Kids First C^3 Success Model

Through the Kids First Education **C^3 Success Model**, Kids First coaches will support teaching and learning by **collaborating** with the Knox County Schools team to **create** personalized plans for administrators, teachers, and staff. Our coaching model emphasizes:

- **Training:** Equipping staff with content knowledge and procedural understanding.
- **Modeling:** Demonstrating best practices and instructional techniques.
- **Coaching:** Providing real-time feedback and sustained support.
- **Support:** Offering embedded assistance as educators implement strategies in their settings.

Throughout the project, our team will conduct regular debriefs with district leadership, building principals, or designated personnel to assess progress and revise the scope of work as necessary. The Kids First team will remain fully **committed** to delivering high-quality, adaptive support in alignment with district goals.

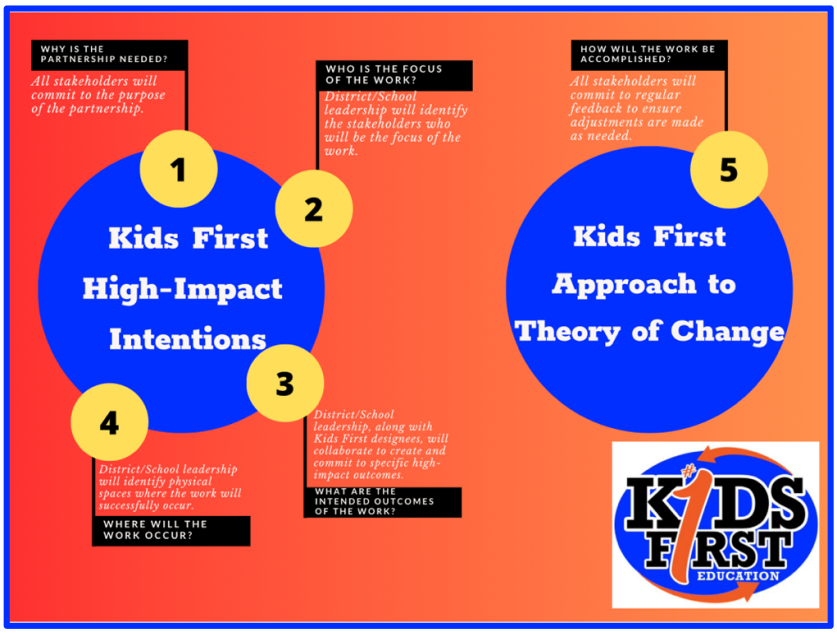
OUR PROCESS

The Kids First Team reviews each school's historical, demographic, and student data and determines what our current processes support and which areas will require new personalization for the new school year. Through this analysis, the Kids First Team cultivates a solid understanding of the proposed scope of work that will fulfill the district's needs and align with its priorities.

The Kids First Team is the most suitable contender to provide services and support for the following reasons:

- The Kids First Curriculum Teams have developed High-Quality Instructional Resources that support coaching services, build teacher capacity, and accelerate student learning.
  Visit **our website** for our High-Quality Instructional Tools.
- The Kids First Team members have successfully provided job embedded professional development and consultation since 2007.
- The Kids First Team is currently partnered with over 200 districts, systems, and cooperatives. Over 60 full-time employees and over 400 independent coaches provide these comprehensive, integrated services.
- The Kids First Team members have a proven track record of designing and implementing **effective, sustainable solutions**.
- The Kids First **personalized solutions** will address the individual needs of each school or school subgroup.
- The Kids First company began the approval process in 2021 and was approved by Rivet Education to be included in Rivet's Professional Learning Partner Guide (PLPG). Kids First was re-approved in 2024, going through an even more rigorous approval process. The PLPG is a list of organizations that provide best-in-class curriculum-aligned professional learning services in the country. With multiple HQIM on its list, Kids First Education is approved for partnering with schools and districts in launching an initial implementation of chosen curriculum materials, providing ongoing support for teachers, and providing leadership support in the implementation of those materials to ensure student growth and mastery
- The **Arkansas State Department of Education** recently approved Kids First Education as a 1003 Vendor of Choice to support School Improvement plans across the state of Arkansas. This recognition positions Kids First Education as a pivotal resource for schools seeking to implement effective instructional strategies to increase student achievement.
- The **Arkansas State Department of Education** recently approved Kids First Education as a Professional Learning Communities Support Vendor. Kids First is approved in ALL FOUR support areas, including Foundational Literacy and the Science of Reading, Strengthening Career Pathways, Strengthening Instructional Quality, and Multi-Tiered System of Supports for Behavioral and Mental Health Services. Kids First is THE ONLY approved vendor for ALL FOUR areas of support.
- Kids First's high-quality professional learning opportunities and services have been placed on approved vendor lists in the **South Texas Independent School District** and the **Mesa Arizona Public School District.**

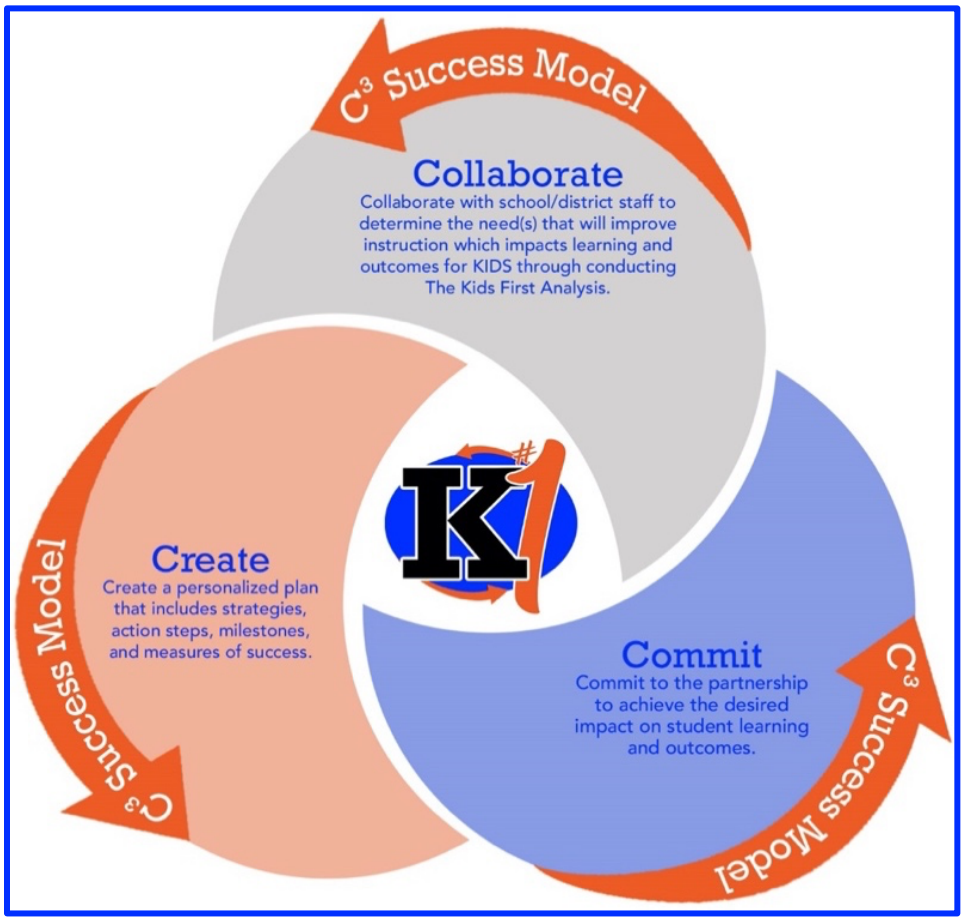
OUR INNOVATIVE CYCLICAL APPROACH



Based on the latest research through Northwest Evaluation Association, educators across the United States have determined top priorities as addressing both the equity, achievement gap and social emotional learning and providing services with a clear purpose and measurable impact for teachers and students.

Our innovative approach has improved:

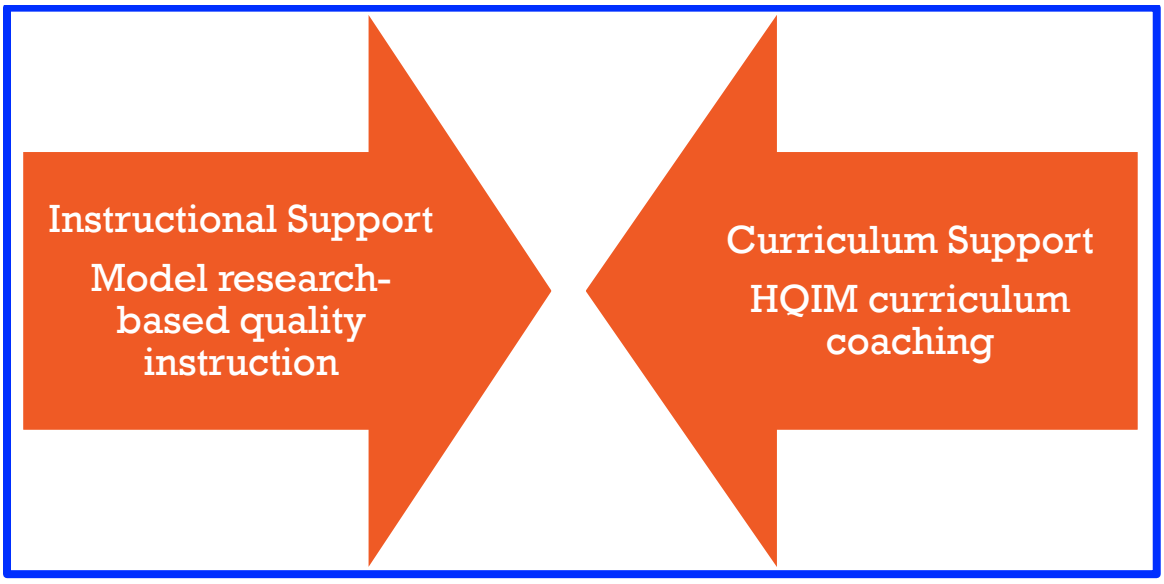
- Student acceleration,
- Learning loss,
- Social emotional learning, and
- Instructional continuity.



Kids First has a proven formula of identifying the specific High-Impact Intentions that lead to our cyclical approach to the theory of change, which necessitates adjustments based on analysis of given evidence.

1. All stakeholders will first commit to the purpose of the partnership. The purpose is begun with the district/school and then solidified through the collaboration and discussion with Kids First designees.
2. The district/school leadership team then identifies the stakeholders who will be the focus of the work, receiving the services needed to impact the purpose of the project. Kids First designees are available to collaborate and create the focus stakeholders, if needed.
3. Next, high-impact outcomes are either created by district/school leadership at the outset and discussed with Kids First designees or collaborated upon and created by the shared stakeholders within both parties.
4. District/school leadership will identify the physical space(s) where the services will occur. These spaces will effectively ensure the quality of the purpose and outcomes of the partnership.
5. After logistics are determined and the services begin, Kids First commits to obtaining continuous feedback throughout the scope of the project to ensure any adjustments that need to be made are based on quantitative and qualitative evidence and data. Once the evidence and data are analyzed, adjustments will be discussed with all stakeholders on both sides to ensure the changes are implemented effectively.

KIDS FIRST C³ SUCCESS MODEL



The common threads of our work are the KIDS (students) we serve and our commitment to personalized learning. Our work with KIDS, teachers, and school and district level leadership begins and ends with KIDS in mind. Our C³ Success Model is a KIDS First trademark and remains constant throughout our teaching and learning solutions.

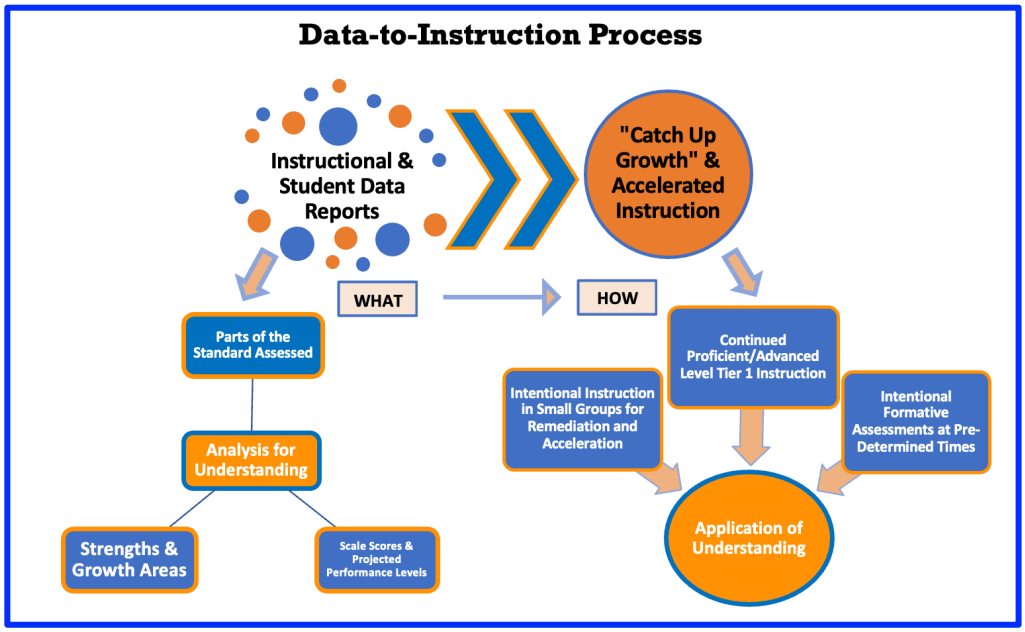
Kids First Services

INSTRUCTIONAL AND CURRICULUM SUPPORT

Instructional Support

- Research-based quality instruction and customized small-group levels.
- Instructional support where our coaches will work alongside teachers and students, co-teaching and modeling, to enhance the quality of instruction that ensures student mastery and fidelity to implementation.
- Collaborate with instructional staff and principals to support instructional processes at all levels, providing high-quality instructional strategies and practices for teachers between interim on-site visits to continue building capacity.
- Partner with instructional staff on expectations for lesson delivery and the consistent use of classroom resources during instruction.



Curriculum Support

- Conduct ongoing professional learning sessions that continuously focus on details related to the curriculum for teachers and instructional staff.
- Continue to connect instructional content to standards, the HQIM curriculum instructional model, instructional shifts, pacing, differentiation, assessments, and planning using HQIM.
- Revisit components of the HQIM and examine how those resources align with lesson plans and lesson lines.
- Hold professional learning sessions in which our instructional coaches model how to effectively implement the instructional model and lesson lines of the curriculum.
- Show how to implement engagement and differentiation practices effectively using HQIM guidance.
- Collaborate with instructional staff on classroom activities related to effective HQIM implementation.
- Monitor implementation fidelity through ongoing fidelity checks.
- Offer additional prescriptive services for each individual school focused on quality instruction.

DATA TO INSTRUCTION

Kids First instructional coaches will provide training and coaching to support the following areas, including but not limited to:

- Implementing data-driven instruction using state, district, school, and classroom data points;
- Assisting administrators and teachers in analyzing data to identify trends and gaps;
- Facilitating discussions on adjustments to instruction based on student data;
- Determining district/school-wide classroom structures for utilizing data; and
- Establishing protocols for collecting data, analyzing data, and reflecting on instructional delivery.

Data to Instruction includes working with school and district leadership and teachers to analyze all state, district, and school assessment data to determine students' learning strengths and skill gaps.

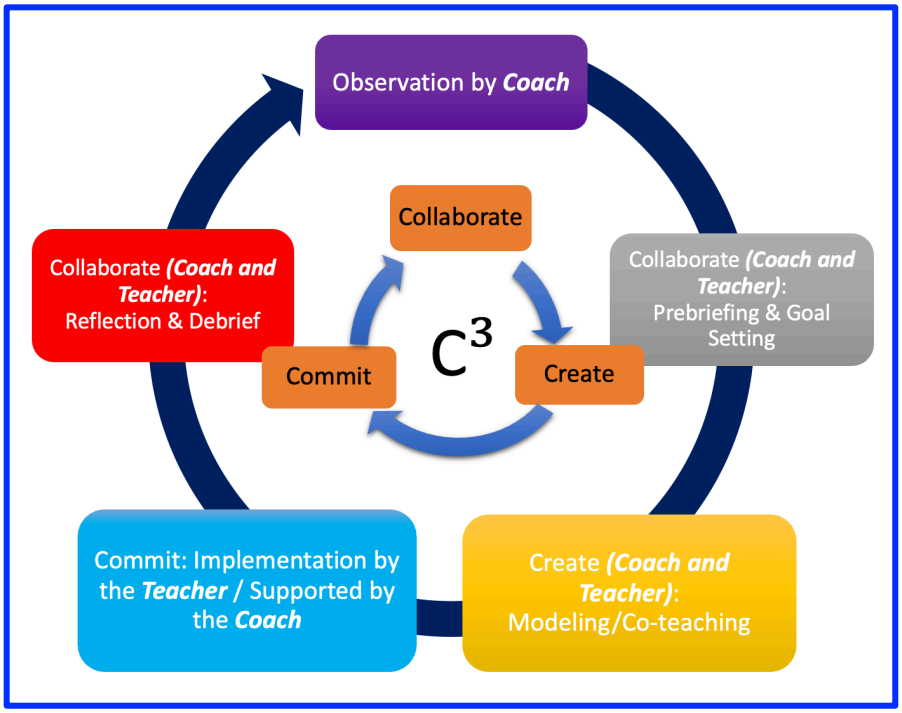
After reviewing the data point(s), a deep data dive with Kids First will discover:

Obstacles preventing standard mastery,
Misconceptions/Misunderstandings hindering standard mastery, and
Gaps in learning that are impeding standard mastery.

Using the Kids First O.M.G. method, administrators and teachers can define the exact direction and speed of instruction.

Kids First coaches will work with teachers to build capacity and produce positive results. The following areas are embedded in our teacher coaching:

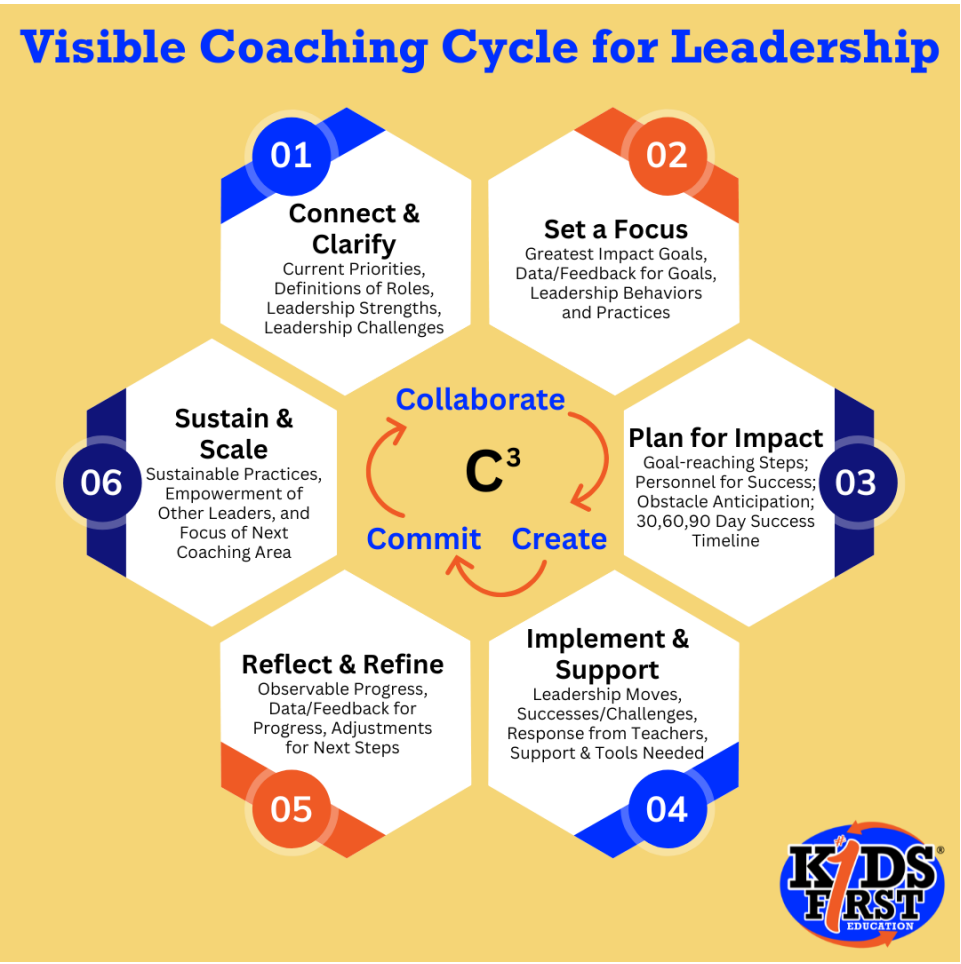
- Professional learning sessions wherein our instructional coaches will train, coach, and model research-based quality Tier I instruction
- Provide side-by-side support for teachers through modeling and co-teaching to enhance the level of quality instruction that ensures student mastery
- Data Driven Decision Making and Personalized Instruction
- Pacing and Curriculum Alignment to Standards
- Lesson Planning and Instructional Delivery
- 21st Century Technology Integration in the Classroom



- Student Engagement and Motivation
- Social and Emotional Learning
- Higher Order Questioning and Problem Solving
- Classroom Environment and Behavior Management
- Best practices for maximizing strategies for state assessments
- Other prescriptive services for each school centered around data-driven, quality instruction

Data to Instruction also involves collaborating with school and district leadership and teachers to analyze all state, district, and school assessment data, identifying students' learning strengths and skill gaps. This will provide the foundation for data-driven meetings and set the direction and pace of instruction.

JOB-EMBEDDED SUPPORT



Kids First Education coaches will train and model research-based practices with educators in multiple ways, including but not limited to:

- Professional learning sessions focusing on district goals and data to guide instruction.
- Job-embedded coaching emphasizing evidence-based and curriculum-embedded practices, including but not limited to instructional coaching, data coaching, assessment coaching, lesson planning, lesson modeling, differentiated instruction, scaffolding, and resource identification.
- Data-driven decision-making and personalized instruction.
- Appropriate pacing and curriculum alignment.
- Lesson planning and instructional delivery.
- High-yield instructional strategies, along with best practices for daily lessons and state assessment preparation.

Kids First Education leadership coaches will train, model, and coach best practices to:

- Guide administrators in establishing instructional priorities for the school year;
- Assist leaders in their roles related to curriculum implementation and supervision;
- Focus on enhancing the capacity of instructional leaders by developing their pedagogical knowledge;
- Provide site-based, job-embedded leadership coaching and development;
- Incorporate evidence- and research-based practices with proven results;
- Coordinate professional learning communities, professional development, and instructional rounds;
- Train and coach leaders on implementing instructional strategies that increase rigor, supporting teacher capacity and enhancing student achievement;
- Help school leaders create a common language that promotes consistency, high academic expectations, and an equitable school culture for all students;
- Encourage self-reflection aimed at enhancing the capacity to align instruction with state standards, district curricula, and assessments, thereby improving student achievement;
- Participate in data team meetings with instructional leadership teams and/or district leaders to assess instructional practices and measure their impact on student learning; and
- Develop a plan to gradually reduce support, ensuring sustainability.

SAMPLE MODULES AND HIGH-IMPACT RESULTS

English Language Arts	
Session Focus	**High-Impact Session Results**
Teaching to High Performance Levels: Utilizing Standards-Based Documents and IPGs to Ensure Mastery Instruction	• Gain a deeper understanding of how students think and acquire information • Analyze to integrate high performance level descriptors into teaching and learning • Analyze materials and resources to determine reading and writing opportunities and DOK levels of thinking and applying knowledge • Gain a deeper understanding of text complexity • Examine related IPGs to analyze instructional practices
Using Short Constructed Responses with Quality Feedback to Extend Thinking and Accountable Talk	• Collaborate to determine what writing must and must not be • Collaborate to identify school- and district-wide writing non-negotiables • Understand the benefits of short constructed responses
Attacking Vocabulary in the Primary Grades (Kindergarten-2nd Grade)	• Understand what effective vocabulary instruction is and its impact on reading comprehension • Determine how to effectively use diagnostic assessments to assess students' knowledge of words • Collaborate to implement whole-group, small-group, and independent vocabulary instruction and application
Building Reading and Writing Endurance	• Explore and understand the Reading and Writing Rope • Discuss ways to build student's endurance in reading and writing • Collaborate to create a plan to increase student's reading and writing endurance
Identifying and Utilizing High-Quality Instructional Materials	• Understand the why, how, when, and what of "high-quality instructional materials" • Explore materials and evaluate their level of quality • Examine and analyze each component of a high-quality curriculum • Identify the gradual and rapid release of instruction models found in specific high-quality curriculum
Science of Reading	• The 5Ws and 1H of the Science of Reading • Shifts in instruction • Planning an effective lesson • Gain knowledge of the science of reading and its application in instruction
Effective Center/Small Group Instruction	• Define what learning centers are and their requirements • Identify options for centers and management • Discuss and create planning and organizational processes for small group instruction • Gain a deeper understanding of planning and preparing for small group instruction

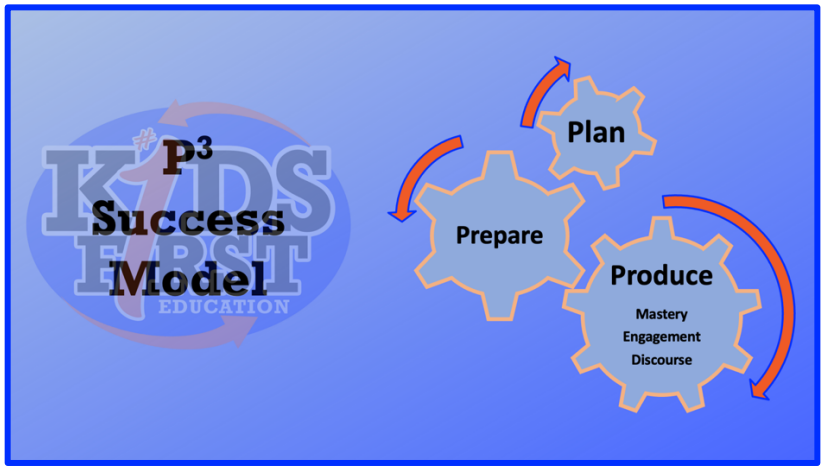
Mathematics	
Session Focus	**High-Impact Session Results**
The 5 Components of Tier 1 Math Instruction	• Gain an understanding of essential components of Tier 1 math instruction • Analyze current practices for improvement in Tier II and Tier III student support using the essential components • Solidify structures and strategies in the classroom to increase student gains
CPA: Three Phases of Sustainable Understanding for Early Math Instruction	• Know and understand the three phases of the CPA Strategy: Concrete, Pictorial, Abstract • Increase familiarity and confidence with appropriate manipulatives and models that boost number sense • Collaborate to create centers that incorporate all 3 modalities of the CPA strategy
Identifying and Utilizing High-Quality Instructional Materials for the Math Classroom	• Understand the parameters and components in determining HQIM for mathematics • Understand how the implementation of HQIM enhances the learning opportunities for students • Use materials for implementing rich tasks aligned to standards
Math Fluency	• Demonstrate effective strategies for developing fluency in Grades K-3 • Gain understanding of how to build students' conceptual knowledge through research-based strategies • Examine the progression of fluency facts
Engaging Students in Mathematical Discourse	• Understand how to facilitate small group talk effectively • Gain knowledge of strategies to support quality classroom discourse • Develop effective questioning practices and implement quality question stems
Using Manipulatives to Grow ALL Students	• Develop best practices for implementing tactile manipulatives • Compare and contrast the use of virtual and tactile manipulatives • Develop how to facilitate a lesson using the CPA Method and manipulatives
Desmos Calculator (High School)	• Demonstrate how to implement Desmos Studio and Desmos Classroom to provide effective classroom instruction • Gain knowledge to implement the Desmos Calculator for usage on the Digital ACT, Digital PSAT/SAT, and other digital Assessments

Science Opportunities	
Session Focus	**High-Impact Session Results**
Using Inquiry to Guide Problem Solving and Writing	• Understand how to use the 3D model of science to support student critical thinking and learning through inquiry • Understand how to use the scientific process to build student capacity in science literacy • Understand how to use inquiry when planning for lessons to deepen student content knowledge and skills

Using 3-Dimensional Learning Practices in Science	• Understand how to implement a full science experience using the three facets of science:
	  ○ What: Disciplinary Core Ideas (DCIs)
	  ○ How: Science and Engineering Practices (SEPs)
	  ○ Why: Cross-cutting Concepts
	• Understand how to turn the science classroom into a vocabulary centered multi-faceted phenomenon
	  ○ Deconstruct standards to identify academic vocabulary

Utilizing Reading & Writing Science/Technical Standards to Ensure Transfer Learning	• Understand scientific literacy in the real-world • Engage in a collaborative deep dive of the science/technical reading and writing standards • Understand the three levels of learning: surface, deep, and transfer • Engage in a collaborative planning session to integrate reading and writing standards in the science classroom
Visible Learning in Science: Hattie's Effects and the Science Classroom	• Develop an understanding of Visible Learning • Review Hattie's Effects and Develop an understanding of effective "Visible' teaching practices • Maximize teaching to enhance student engagement and retention
Using the 5E's in Science Lesson Planning	• Understand the components of the 5E lesson plan • Utilize and incorporate the 5e lesson plan template into the science classroom • Engage in effective planning and implementation of 5E lessons
Pushing to Proficiency	• Use Blueprints to effectively pace standards for instruction • Develop a clear path for instruction and remediation of students throughout the YEAR • Acquire High Impact strategies to accelerate students to proficiency • Develop strategies for continuous spiraling and integration of test-taking strategies

Social Studies/History	
Session Focus	**High-Impact Session Results**
Strengthening Social Studies Skills to Master Content Standards	• Make summarizing and comparing-and-contrasting a part of the weekly routine • Effectively incorporate map skills daily • Develop timelines to identify cause-and-effect relationships • Make graphic literacy part of social studies lessons • Begin test prep instruction in school social studies classrooms
Utilizing Reading & Writing History Standards to Ensure Transfer Learning	• Understand literacy in the social studies/history classroom • Engage in a collaborative deep dive of the history reading and writing standards • Understand the three levels of learning: surface, deep, and transfer • Engage in a collaborative planning session to integrate reading and writing standards in the social studies/history classroom
Project-Based Learning in the Social Studies Classroom	• Create hands on experiences for social studies students • Use the verbs within state standards as a guide in developing engaging learning experiences for students
Using Visuals and Primary Sources to Increase Understanding	• Create lessons centered on analyzing cartoons and illustrations • Develop independent work, group activities, and workstations using primary sources • Strengthen test prep skills



Faculty-Wide Opportunities	
Session Title	**High-Impact Session Results**
Effective Classroom Management Practices to Maximize *Learning*	• Develop an effective classroom management plan that utilizes proactive approaches to prevent minor and major behaviors • Collaborate to establish a safe, predictable classroom environment through defined classroom routines and procedures • Define classroom essentials and develop a system for teaching appropriate behaviors • Acquire positive behavior management strategies to utilize to build a positive and accountable classroom culture and community
High-Yield Strategies to Move Students Through the Three Phases of Learning	• Develop a clear understanding of how to identify “high yield” strategies • Analyze the progression of the three phases of learning: surface, deep, and transfer • Analyze a current lesson plan to identify where high-yield strategies are incorporated • Analyze a week’s lesson plan to identify progression from surface to transfer learning

Individualized Learning vs. Personalized Learning	• Understand the difference between individualized and personalized learning • Discuss the surface level of each type of learning and dig deeper to identify the components of each type and the supports to incorporate • Collaborate to effectively incorporate each strategy within the classroom
Differentiation vs. Scaffolding	• Understand the difference between differentiation and scaffolding • Discuss the surface level of each strategy and dig deeper to identify the components of each strategy and the supports to incorporate • Acquire differentiation strategies for content, process, product, and environment • Collaborate to understand how to utilize the Access for All Guide to provide differentiation and scaffolding • Collaborate to effectively incorporate each strategy within the classroom

Using The Fundamental Five to Ensure Effective Instruction	• Gain a deep understanding of The Five Components of Quality Instruction as defined in *The Fundamental Five:*
	  ○ Lesson Framing
	  ○ Recognize and Reinforce
	  ○ Critical Writing
	  ○ Frequent Small Group, Purposeful Talk
	  ○ Power Zone
	• Collaborate to implement practical strategies of The Fundamental Five
	• Collaborate to identify simple strategies for monitoring effective implementation of the Fundamental Five

TAB IV – DELIVERY OF SERVICES

Kids First Education shall offer professional development services specifically customized to meet the requirements of the district and/or individual schools. The specific content and focal areas will be jointly determined through continuous consultation and strategic planning between Kids First and the district or school leadership. This collaborative process ensures that professional learning is aligned with local priorities, instructional objectives, district and school-level data, as well as the needs of educators, thereby promoting significant and sustainable improvements in teaching and learning outcomes.

Through planning, preparing, and producing, the partnership between Knox County Schools and Kids First Education will PRODUCE:

- In-depth training and support for administrators, teachers, and staff;
- Coaching for administrators and teachers;
- Guidance for administrators to increase their level of actionable feedback to teachers and staff;
- Observation and debriefing sessions to set goals and to monitor progress;
- Data collection and analysis;
- Data-driven instructional plans;
- Instructional plans that include a coherent integration of resources, vertical and horizontal alignment of curriculum, an increase of rigor and complexity, and concept-based teaching and learning;
- Guidance and coaching for formative and summative classroom assessments creation;
- Comprehensive plans for supporting at-risk, struggling learners to close skill gaps and to move students to proficiency;
- Training and support for advanced students to provide an instructional path to continue their academic growth;
- Integration of technology into lessons to increase student engagement and mastery of standards;
- Special populations support plan;
- Special Education support for inclusion and self-contained classrooms; and
- An **increase** in student proficiency.

After each professional learning session, Kids First Coaches will administer an online quantitative evaluation to assess the participants' analysis of the session. Using Thomas Guskey's five levels of professional learning, Kids First will create a customized evaluation tailored to the goals for Professional Learning and Coaching in Knox County Schools.

Specific to the five levels will be the following:

1. Participants' reactions: Initial satisfaction with the professional development session
2. Participant learning: *New* knowledge and skills that participants take away
3. Organization support and change: Specific changes and/or extensions to current practices that will be implemented
4. Participant use of new knowledge and skills: Fidelity of participants' implementation of specific changes and/or extensions
5. Impact on student learning outcomes: Overall impact of professional development on student learning outcomes

Reports on professional development sessions will be presented to the district and school.

COMPREHENSIVE PLAN

A comprehensive Professional Learning and Job-Embedded Coaching Plan for Knox County Schools covering July 2025 through June 2026 is presented below. This plan supports both teachers and administrators with a strategic focus on evidence- and curriculum-based strategies, data analysis, accountability, instructional quality, content-specific feedback, and sustainability. Topics listed below are suggested options. All items can be adapted and customized to best meet district and school needs and/or requests.

Proposed Professional Learning Plan: July 2025 – June 2026
Knox County Schools and Kids First Education Partnership

Timeline Overview

Month	Key Focus Area(s)
June - July 2025	Data Analysis, Accountability, Administrator Preparation
July -August 2025	Teacher Training, Planning for Instruction, Student Return Readiness
September 2025 - May 2026	Multi-Teir Training and Support, Ongoing Job-Embedded Coaching, Instructional Improvement Cycles, Specific Support Services based on Student Needs, Mid-Year Data Reviews, Preparing for state assessments
June 2026	End-of-Year Reflection, Final Data Analysis, Planning for 2026-2027

Phase I: Data-Driven Planning and Leadership Readiness (June–July 2025)

1. Data Analysis (July)

- Collaborative sessions with district and school leaders to analyze current and historical data and assessment results.
- Disaggregation of data by subgroup, content area, and grade level.
- Identification of strengths, gaps, and trends to guide professional learning focus and coaching priorities.

2. Understanding Accountability (July)

- In-depth training for administrators on accountability frameworks.
- Emphasis on growth metrics, subgroup performance, and school-level implications.
- Action planning for how instructional leadership will address identified targets.

3. Administrator Preparation for Staff Return (July)

- Coaching for principals and leadership teams on setting expectations and focus areas.
- Support in developing school-based Professional Learning plans and messaging for staff.
- Alignment of leadership goals with district initiatives and data.

Phase II: Teacher Training and Instructional Launch (July-August 2025)

4. Teacher Training: Instructional Readiness

- Standards-aligned professional learning across content areas:
  - **ELA, Math, Science, Social Studies**.
- Key focus areas:
  - Using data to drive instruction.
  - Lesson preparation, planning, and modeling with scaffolding and differentiation.
  - Identifying and leveraging high-quality instructional materials (HQIM).
  - Implementing evidence-based instructional strategies.
- Special breakout sessions:
  - Addressing learning gaps and acceleration.
  - Culturally responsive teaching.

5. Administrators' Prep for Teacher Return

- Strategies for leading effective staff professional learning and setting instructional priorities.
- Leadership coaching on walkthrough calibration, observation protocols, and feedback cycles.
- Finalization of coaching schedules and school-based coaching goals.

6. Teachers' Prep for Student Return

- Classroom management and culture building strategies.
- Co-planning curriculum-based units using backward design and formative data points.
- Ready-to-implement instructional tools and model lessons.

Phase III: Ongoing Coaching and Continuous Improvement (September 2025 – May 2026)

7. Monthly Coaching Cycles

- **Instructional Coaching (All Content Areas)**:
  - Classroom observations, co-teaching, lesson modeling, and planning.
- **Assessment & Data Coaching**:
  - Analyzing benchmark and classroom assessment data.
  - Adjusting instruction based on student performance.
- **Leadership Coaching**:
  - Walkthrough analysis, instructional feedback, and data meeting facilitation.

8. Instructional Focus Areas (By Quarter)

Quarter	Focus Area
Q1 (Sept–Oct)	Lesson Planning, Engagement, HQIM
Q2 (Nov–Dec)	Data Use, Formative Assessments, Differentiation
Q3 (Jan–Feb)	Scaffolding, Reteaching, Acceleration
Q4 (Mar–May)	Preparing for End-of-Year Assessment, Enrichment

Phase IV: Year-End Reflection and Planning (June 2026)

9. Final Data Review and Instructional Planning

- Analyze year-end assessment results to measure impact.
- Reflect on coaching outcomes and instructional shifts.
- Identify successful strategies and areas needing further support.

10. Sustainability and Summer Planning

- Develop coaching and professional learning goals for the 2026–27 school year.
- Recommend teacher leaders and instructional champions.
- Update leadership development priorities in accordance with any new, applicable accountability guidance.

OUR RESEARCH

Leadership Coaching and Support

Kids First Education coaches are highly trained in evidence-based leadership practices grounded in John Hattie's Visible Learning research and other high-impact instructional frameworks. Our leadership training and coaching services for administrators are designed around high-yield influences proven to significantly enhance student learning outcomes.

Throughout coaching engagements, Kids First coaches work closely with school leaders to develop their instructional leadership capacity. This includes using data to inform and direct schoolwide decisions, facilitating and supporting high-functioning Professional Learning Communities (PLCs), cultivating a strong and positive school culture and climate, and ensuring the implementation of effective instructional practices with fidelity across all classrooms.

Each leadership coaching session explicitly connects actions to relevant research-based influences and their effect sizes, helping administrators understand WHICH PRACTICES MATTER MOST and WHY. By grounding leadership decisions in evidence, Kids First equips principals and school leadership teams to lead with clarity, intentionality, and measurable impact.

Leadership Strategy	Effect Size	Description
Collective Teacher Efficacy	1.57	Leadership fosters a belief among staff in their collective impact.
Instructional Leadership	0.84	Leaders focus on improving teaching and learning directly.
Professional Learning Communities (PLCs)	0.75	Facilitating collaboration focused on student learning and teacher growth.
Feedback (Leader to Teacher)	0.70	Timely, specific feedback that improves teaching performance.
Visible Learning Leadership	0.72	Administrators make learning visible by aligning practices to outcomes.
Goal Setting and Monitoring	0.68	Clear goals set by leadership that are tracked and refined over time.
School Climate	0.61	Creating a safe, inclusive, and achievement-oriented environment.
Data-Informed Decision-Making	0.67	Using schoolwide data to guide instructional focus and resource allocation.

Instructional – Teacher Coaching and Support

Kids First Instructional Coaches remain current with evidence-based research, encompassing high-yield instructional influences, such as John Hattie's Visible Learning, and the associated effect sizes on student learning and academic growth. Throughout all training and coaching sessions for administrators, instructional coaches, teachers, and teacher assistants, Kids First coaches will clarify the rationale behind each session by integrating the evidence-based influences and effect sizes that are anticipated to produce significant results for participants, ultimately benefiting students.

High-Yield Instructional Influence	Effect Size	Application
Student-Teacher Relationships	.72	Kids First coaches help teachers build trust and positive relationships with students to improve engagement and achievement.
Teacher Clarity	.75	Coaches support teachers in articulating clear learning goals, success criteria, and instructional expectations.
Teacher Credibility	.90	Coaches guide educators in demonstrating competence, trustworthiness, and passion to enhance student belief in learning.
Collective Teacher Efficacy	1.57	Kids First facilitates collaborative environments where educators believe in their joint capacity to impact learning.
Differentiated Instruction	.56	Coaches provide strategies for tailoring content, process, and product to meet diverse student needs.
Mastery Learning	.67	Kids First helps design learning experiences that ensure students achieve mastery before moving forward.
Explicit Teaching Strategies	.63	Coaches model direct instruction techniques with clear explanations and guided practice.
Planning and Predicting	.83	Kids First coaches train teachers to anticipate learning challenges and proactively plan instruction.
Direct Instruction	.60	Instructional coaches support clear, structured teaching with modeling, practice, and feedback.
Deliberate Practice	.79	Coaches help teachers refine specific teaching skills through focused, repeated practice and reflection.

ADDITIONAL RESEARCH

Visible Learning Research: With over 250+ Influences on Student Achievement, John Hattie's *Visible Learning* research on effect sizes is prominent within Kids First Education's training, coaching, modeling, and co-teaching. Our coaches ensure teachers are aware of, understand, and know how to implement the influences that accelerate student learning, such as the Jigsaw method, and meta-cognitive strategies to help in students' and teacher' self-efficacy. Service reports written for a contractual day's work will also include Hattie's Influences with the effect sizes to further emphasize the research-based focus of Kids First coaching. For more information, watch:

The Science of Reading: While "the science of reading" has become more popular in recent years, the research behind it has been around for decades. Multiple studies have provided evidence that students who leave grade 3 having transitioned from learning to read to reading to learn have a higher success rate of graduating high school and entering some type of post-secondary education. Kids First High-Impact Coaches embed the Science of Reading research into professional learning experiences, side-by-side teacher coaching, planning and preparing meetings, and analysis of multiple forms of assessments. By integrating research behind The Simple View of Reading and Scarborough's Reading Rope, our coaches build capacity in teachers and their leaders to consistently identify areas where literacy can be strengthened and how to deliver instruction using Structured Literacy to ensure that ALL learners can grow.

The Adolescent Brain and Brain Research: Adolescence is a challenging time both personally and academically. With the growing popularity of social media and video games, these challenges have risen exponentially. Many of our professional learning sessions begin by using the behavioral research of Simon Sinek to understand the need of knowing the "why" of education. Works of Eric Jensen, William Glasser and other educational researchers provide the connection of biology, psychology, and social variables to the educational challenges in today's world for adolescents and their teachers. John Hattie and Robert Marzano's research is then used to provide educators with strategies to engage adolescents and improve learning outcomes.

Professional Learning/Development: Our professional development sessions are hands-on, engaging "work" sessions wherein the participants not only receive information but then immediately collaborate with each other and/or work independently to engage in the cognitive process to implement for specific classrooms and students. Whole group, small group, and one-on-one collaborative sharing during sessions is a formative assessment strategy our High-Impact Professional Learning Facilitators and Instructional Coaches use to provide immediate, actionable feedback to participants to clarify any misunderstandings, close any skill deficits, and increase participant self-efficacy with the topic/subject prior to implementing in the district and/or school building.

Our training and coaching occur through multiple avenues, including high-impact, engaging professional learning sessions with multiple participants around a shared, research-based topic/area; facilitation of Professional Learning Communities for deepening content expertise and analyzing data to drive instruction; and in-classroom modeling and co-teaching experiences with a reflective, transformative debriefing immediately following. In collaboration with district and school level leadership, our coaches help determine the professional learning experiences needed to ensure a successful partnership. This ensures an increase in teacher and leader efficacy that leads to ALL KIDS growing and learning. Within these collaborations, our coaches stress four prerequisites for effective professional learning (adapted from Learning Forward) to help shape the conditions for the professional learning to be effectively successful: 1) All participants are committed to ALL students, laying the foundation for professional learning to be effective; 2) Each participant comes to each PL experience ready to increase self-efficacy and learn; 3) All participants know and believe they have something to contribute to the PL experience that will enhance individual and collective performance; and 4) All participants learn in different ways; therefore, PL facilitators and participants will engage in a variety of learning experiences.

TAB V – EXPERIENCE AND REFERENCES

ABOUT KIDS FIRST

Mr. Chuck Poer and Mrs. Cellie Scoggin co-founded Kids First Education on May 1st, 2020. They have taken their innovative ideas and talents to exciting new levels with the formation of Kids First Education, LLC. Free of autocracy and fueled by collaboration, the company is led exclusively by educators for educators and focused on placing Kids First.

Chuck and Cellie are joined by a team of coaches and specialists who have successfully worked with them for over a decade. This stellar team is passionate and committed to making a difference for kids. Kids First was founded out of a sincere desire to improve teaching and learning. The company's low overhead and research-based efficiency ensures high quality teaching and learning solutions with competitive pricing. While Kids First Education, LLC is domiciled at 510 Springhill Road, Laurel, MS, 39443, we have full-time head coaches located in each of our southeastern states providing state-specific support to our partners.

OUR CO-FOUNDERS

Mr. Chuck Poer has gained national recognition for his work as an instructional leader in data analysis, data-driven decision making, and school improvement. Chuck has over 30 years of experience in education and was named Mississippi's Administrator of the Year in 2007 by the Mississippi Department of Education. He successfully led Bailey Education Group, LLC from 2008 through 2019, leading the company to prominence as Mississippi's premier service provider during his leadership. In addition to Chuck's current role with Kids First Education, he is the author of his motivational book *Heart to Heart.*

Mrs. Cellie Scoggin brings more than 25 years of experience in education including twelve years of experience in school improvement. She is a former elementary and middle school teacher and elementary principal. Cellie led the teacher, leadership, English learner, and special education coaches with Bailey Education Group from 2009 through 2019. She leads the Kids First Education, LLC Head Coaches and Content Support Leaders working in Mississippi, Alabama, and Tennessee districts to ensure the Kids First Education, LLC services impact teaching and learning.

Jennifer K. Weeks, *Vice-President of Educational Services*
Jennifer Weeks is a lifelong educator committed to serving students and teachers. She has previously served Kids First Education as a head coach and Integrated Support Team Manager. Jennifer is an instructional leader with knowledge and experience in various areas. She is a former teacher, psychometrist, and district administrator who has served districts in numerous leadership roles, including Assistant Superintendent of Academic Education, Director of Accountability and Research, and Director of Special Education.

Kristie Ezzell, *Vice-President of Sales and Marketing*
Kristie Ezzell has a lifelong passion for serving children. She has served Kids First Education as a head coach and, most recently, as the Alabama Director of Sales and Marketing. Kristie is an accomplished leader with knowledge and experience in various instructional models. As the principal of a school with a high EL population, she led her school to become a CLAS School of Distinction, one of eight CLAS Banner Schools, and one of 12 Alabama Reading Initiative "Spotlight Schools" for the Science of Reading.

Renee Carter, *Executive Director of Educational Services, Alabama Division*
Renee Carter has over three decades of dedicated service in education and a wealth of practical experience. Her professional journey includes foundational roles as a classroom teacher and an ARI Reading Specialist, providing her with invaluable insights into student learning and literacy development. Building on this, she advanced through progressively responsible leadership positions. Notably, Renee served as a K-12 administrator, Special Educator Coordinator, Dean of Academics, and ultimately Assistant Superintendent for the Baldwin County Public School System (BCPSS), Alabama's third-largest school system. This high-level role gave her a comprehensive understanding of systemic educational operations and improvement strategies within a large, diverse district.

A significant focus throughout Renee's career has been empowering fellow educators. For over 30 years, she has been a driving force in designing and delivering impactful professional development and growth opportunities for leaders, teachers, and support staff, contributing to enhanced educator effectiveness.

Kat Bir, *Executive Director of Educational Services, Arkansas Division*
For the past 18 years, Kat Bir has devoted her time and energy to ensuring the success of every student and teacher she works with. Mrs. Bir has an energetic, fun-loving approach to serving the educational needs of all children. Her enthusiasm and determination aid in helping teachers find inventive ways to help their students feel successful. She has experience optimizing classroom instruction, successfully implementing school-wide programs and initiatives, supporting teachers, leading staff professional development, and promoting a safe learning environment. Throughout her educational career, Mrs. Bir has worked as a Classroom Teacher, Math Curriculum Team Lead, Instructional Facilitator, and Administrator. Each of these positions has played an integral part in her understanding of the learning process. Mrs. Bir has a proven record of exceeding expectations through high-quality instruction, best practices, and

communication. She has a firm commitment to data-driven, student-centered learning for all students. Mrs. Bir is highly respected by those she has worked with due to her empathy and deep understanding of all aspects of elementary education. Her dedication is unparalleled, as she genuinely prioritizes students, putting Kids First always. While working for Kids First, Mrs. Bir has served as Head Coach for multiple districts and cooperatives across the state of Arkansas. She now manages the Arkansas Division as Executive Director.

Shawnese Herrington, Ph.D., *Southeast Regional Executive Director of Educational Services*
Dr. Shawnese Herrington has been an educator for over a decade. Her expertise lies in sharing successful teaching strategies and analyzing data to implement quality lessons that are aligned with Mississippi College and Career Readiness Standards. Dr. Herrington offers teachers and students extensive support through co-teaching, modeling, and feedback in both virtual and traditional classroom settings. She is efficient with utilizing various learning management systems and is knowledgeable of web-based sites and tools that promote student engagement, critical thinking, and interactive learning. Dr. Herrington's data driven results and strong knowledge of English Language Arts have afforded her opportunities to present at conferences on the local, state, and regional levels. She has researched and published work on culturally relevant pedagogy to improve minority adolescent literacy achievement in Mississippi Schools. While working with Kids First, Dr. Herrington has served as an ELA Content Team Lead, Head Coach for multiple large districts in Mississippi, and an instructional coach, and now manages the Mississippi Division as Executive Director.

Marvin W. Lishman, Ph.D., *Executive Director of Educational Services, Independent Schools*
Dr. Marvin Lishman is the Executive Director for Educational Services for Independent Schools and is responsible for communicating all products and services Kids First, LLC offers to independent schools and their staff. Dr. Lishman has spent his entire career, 48 years, in independent school education, with the last 41 years as head of school. Additionally, he has served as an adjunct instructor for both Delta State University and Mississippi College, teaching educational leadership classes. Dr. Lishman received his Ph.D. from the University of Mississippi in 1989.

Kids First Education, LLC is committed to placing Kids First and to providing the highest quality of teaching and learning solutions in the industry. Our team consists of over 40 employees and over 350 education consultants who are committed to 100% client satisfaction. Proposal for Services Submitted by:
Kids First Education, LLC

Cellie Scoggin

June 2, 2025
Date

Proposal Accepted By:

Knox County Schools

Date

TAB VII – OTHER INFORMATION

SERVICE REPORTS AND COMMUNICATION

Kids First Education will:

- Prepare service reports that reflect daily services outlining actions taken and recommendations to be submitted to district and school teams,
- Meet with the district leadership to review the progress of the project,
- Deliver service reports every week, and
- Contact the district leadership in the event of an interruption of traditional school to ensure services are continued.

SERVICE CONTINUITY PLAN

The challenge of providing high-quality professional services during interruptions to traditional school has prompted a need for change in how Kids First Education works with schools. In the event of a disruption to the school schedule, we are prepared to provide training, modeling, co-teaching, consultation, and technical assistance in various modalities. The safety and well-being of students and school/district staff will always be our top priority.

For on-campus services, Kids First coaches and representatives will follow school/district protocols during interruptions to the traditional school schedule while supporting the established instructional continuity plan. To ensure strict adherence to established norms, Kids First Leadership will ensure all representatives:

- Follow school/district protocols for social distancing.
- Follow school/district instructional continuity plans.

Kids First anticipates there may be interruptions to the traditional school day due to various reasons. In this scenario, Kids First coaches will:

- Coach/Train teachers on-campus or virtually while always following district guidelines and school/district protocols.
- Certify that all coaches have been trained and have hands-on experience with the school/district's instructional management system and any learning applications included in the continuity plan for virtual learning and professional development.

PROPRIETARY STATEMENT

The submitted proposal contains trade secrets and/or other proprietary data that Kids First Education, LLC wishes to keep confidential.

CONFIDENTIALITY

Kids First Education shall agree to ensure the confidentiality of any records obtained from any district or school, as required by state and federal laws regarding privacy. No information, documents, or other material provided to or prepared by Kids First Education, deemed confidential by Hale County School District according to state and federal privacy laws, shall be made available to any person or organization without the prior approval of the Hale County School District. Any liability resulting from the wrongful disclosure of confidential information on the part of Kids First Education shall rest with Kids First Education.

SUSTAINABILITY

Kids First prides itself on creating sustainable instructional processes for administrator and teacher professional development and coaching. Because these processes are continuously implemented within a research-based coaching cycle, instructional leaders and teachers can continue using them even after completing services. All presentations, activities, and materials used in professional learning and coaching sessions will be shared with the district/school to encourage continuous refreshing and replication.

PROFESSIONAL ETHICS

Kids First Education ensures that consultants/trainers/presenters/speakers are fit to work with teachers, staff, students, and parents and agree to perform the Specified Services herein described above in a proper, workmanlike, and dignified manner; warrants that he/she can and will perform such Specified Services in a manner acceptable to Hale County School District; and agrees to make all additions, deletions and/or changes that may be required by Hale County School District, as condition precedent to the acceptance of such Specified Services. Kids First Education agrees that, at all times, the employees of Kids First furnishing or performing any of the services specified under this agreement shall do so in a proper, workmanlike, dignified manner in alignment with the Hale County School District Code of Conduct. All consultants working through this bid are expected to conduct themselves professionally.

Kids First Education will:

- Ensure all trainers and coaches have professional credentials to work with administrators, instructional leaders, and teachers.
- Ensure all consultants/trainers/presenters/speakers are expected to follow the District's Code of Ethics as it applies to their role.
- Ensure that any consultant performing services specified in this partnership agreement does so in a professional manner.
- Ensure all consultants have completed a criminal background check and a child abuse registry check.
- Ensure consultants do not use coarse language, wear inappropriate attire, or express personal political or religious beliefs.

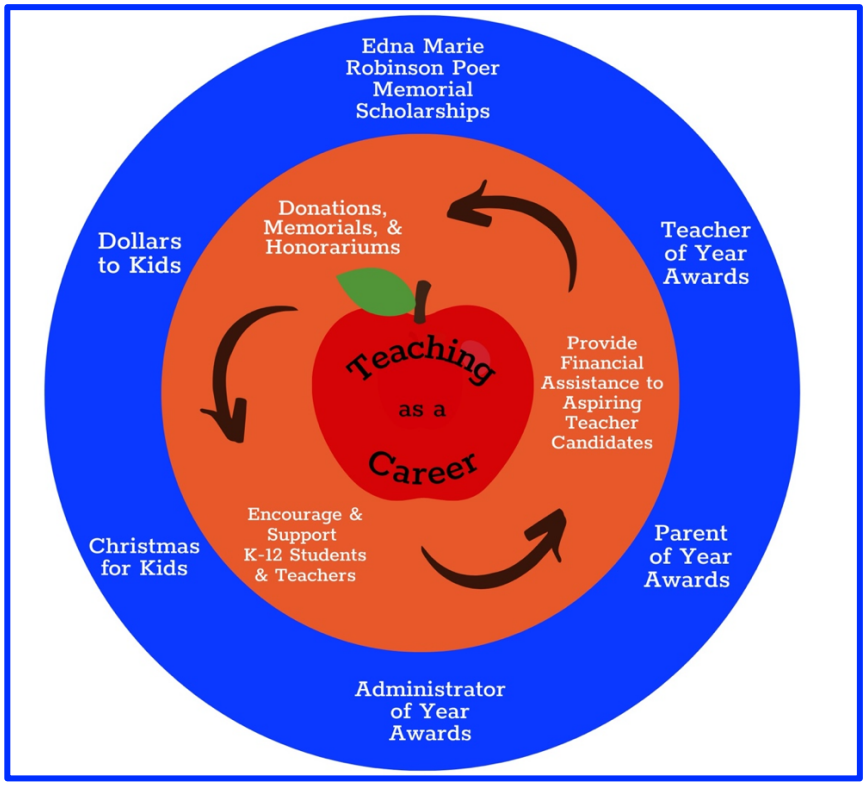
KIDS FIRST WINNER'S CIRCLE

At the center of our work is our Mission and Vision, which is putting KIDS FIRST in all circumstances. Using our C^3 Success Model, we collaborate to create and commit to the services, tools, and resources we provide to our partnering districts/systems. While those services, tools, and resources may evolve based on the K-12 educational landscape, our Mission, Vision, and Success Model will remain at the center of what we do.

KIDS FIRST TRUST FOUNDATIONS



The foundation of our work within our team and with our partnering districts and systems is trust. Without trust, communication falters and vulnerability cannot be expressed freely. Our C^3 Visible Coaching Cycle, Professional Learning sessions, and side-by-side support would not be possible without each stakeholder trusting to work in tandem with the other(s).

KIDS FIRST GIVES BACK-THE KIDS FIRST SCHOLARSHIP FOUNDATION

The Kids First Education Scholarship Foundation is in the business of improving lives in each state we serve. In those states, poverty has eroded the well-being for many, impacting education, health systems, and financial security. At the same time, the teacher shortage continues to exacerbate, with fewer students enrolling in teacher education programs. If not addressed, these conditions will worsen and deny opportunities for a complete and fulfilling life for present and future generations. Education is critical to making a difference in these communities.

The Kids First Education Scholarship Foundation was established to generate funding and resources to help address the teacher shortages in the states we serve. Our approach is straightforward and long term: 1) encourage K-12 students to consider teaching as a career, 2) provide financial assistance to aspiring teachers enrolled in K-12 teacher education programs, and 3) serve as a mentor to Kids First teacher candidates on their journey to a degree and licensure. To learn more about Kids First Giving Back from Regina Ginn, Executive Director of the Kids First Foundation, view **this short video** or click the QR code below.

TAB VIII - EXCEPTIONS

Kids First Education acknowledges and accepts all parts of this Request for Proposal with no exceptions.

Knox County Government

and

Marzano Research

This Contract, made and entered into between the Knox County Government, hereinafter referred to as the "County" and Marzano Research, hereinafter referred to as "Contractor".

Whereas, the County requested proposals for Evidence-Based Instruction Strategies Consulting for Knox County Government (Request for Proposals #3667) and;

Whereas, Vendor submitted a bid in accordance with said requested specifications, the response of which is the most responsible and responsive bid meeting specifications accepted by the County;

Whereas, Vendor agrees and undertakes to provide said services for the County, as set forth in the Request for Proposals, and at the price quoted for said services by Contractor. Further, in accordance with the lawful directions of the County, the Contractor agrees in all respects, to be governed by the Request for Proposals specifications and the Contractor's bid and response.

Now, therefore in consideration of mutual covenants and promises contained herein, the parties hereto wish to enter into this Contract to set forth their respective rights and obligations and do mutually agree that;

Witnesseth:

1. Terms of this Contract. This Contract commences on the 1st day of September 2025 and ends the 31st day of August 2026 unless terminated in conformity with the terms of this Contract as contained in paragraphs 4 and 5. The County intends to issue a one-year (1) award. Upon the mutual agreement of the vendor and the County, the award may be extended for four (4) additional years, one (1) year at a time. This may result in a total of five (5) years. The County reserves the right to purchase these goods/services from other sources if the need arises. The County reserves the right to revoke the award if a pattern of unavailability arises with the vendor.

2. Payment. The County shall pay Contractor the amount as agreed upon in the County's Request for Proposals for Evidence-Based Instruction Strategies Consulting per the Contractor's response to Request for Proposals #3667; pursuant to all payments being subject to the County's review and approval. The Contractor shall receive, upon the need of the County, written notification to proceed. The Contractor shall pursue all work diligently until completion as directed by the County. Per Request for Proposals #3667, a minimum of thirty (30) days is required for processing of payment.

3. Invoicing and reporting requirements. Contractor shall invoice the County for Evidence-Based Instruction Strategies Consulting pursuant to Request for Proposals #3667.

4. Termination. The County may terminate this Contract with or without cause, upon written notice of not less than thirty (30) days. Upon termination, the County will pay for services satisfactorily completed but not yet invoiced. Contractor shall not perform additional work without the expressed permission of the County.

Should the Contractor fail to provide the Evidence-Based Instruction Strategies Consulting detailed herein, the County will communicate the problem(s) to the Contractor both verbally and in writing and keep a written record as to what the problem(s) are and when the Contractor was contacted. The Contractor shall rectify the problem within the time frame established by Tennessee State Law. If the same or other problems persist or reoccur, the County may terminate the Contract.

In the event Contractor intends to interrupt or discontinue service under this Contract, Contractor agrees to give the County at least 120 day advance written notice of said interruption or discontinuance of service prior to interrupting or discontinuing same. Any interruption or discontinuance of service without said advance notice shall constitute a material breach of this Contract.

5. Appropriations. In the event no funds are appropriated by the County for the Evidence-Based Instruction Strategies Consulting in any fiscal year or insufficient funds exist to provide the services, then the Contract shall expire upon the expenditure of previously appropriated funds or the end of the current fiscal year, whichever occurs first, with no further obligations owed to or by either party.

6. Independent contractor. Contractor acknowledges that Contractor and employees serve as independent contractors and that the County shall not be in any manner responsible for any payment, insurance, or incurred liability.

7. Compliance with all federal, state, and municipal laws. Contractor is assumed to be familiar with and agrees to observe and comply with all federal, state, and local laws, statutes, ordinances, and regulations in any manner affecting the provision of the Evidence-Based Instruction Strategies Consulting, and all instructions and prohibitive orders issued regarding this work and shall obtain all necessary permits.

8. Severability clause. If any provision of this Contract is declared illegal, void, or unenforceable the remaining provisions shall not be affected but shall remain in force and in effect.

9. Prohibition against assignment. Contractor shall not assign this Contract to any party, company, partnership, incorporation, or person without prior specific written consent of the County.

10. This Contract shall be governed by the laws of the State of Tennessee both as to interpretation and performance. The Chancery Court and/or the Circuit Court of Knox County, Tennessee, shall have exclusive and concurrent jurisdiction of any disputes, which arise hereunder.

11. Right to inspect. The County reserves the right to make periodic inspections of the manner and means the services are performed.

12. Nondiscrimination and non-conflict statements. Contractor agrees that no person on the grounds of handicap, age, race, color, religion, sex, national origin, or any individual trait or characteristic found to be an illegal consideration shall be excluded from participation in, or be denied benefits of, or be otherwise subjected to discrimination in the performance of this Contract, or in the employment practices of Contractor. Contractor shall, upon request, show proof of such non-discrimination, and shall post in conspicuous places available to all employees and applicants notices of non-discrimination.

13. Books and records. Contractor shall maintain all books, documents, accounting records and other evidence pertaining to the service under this Contract and make such materials available at their offices at all reasonable times during the contract period and for three (3) years from the date of the final payment under the Contract for inspection by the County or by any other governmental entity or agency participating in the funding of this Contract, or any authorized agents thereof; copies of said records to be furnished if requested. Such records shall not include those books, documents and accounting records that represent the Contractor's costs of manufacturing, acquiring or delivering the products and services governed by this Contract.

14. Contractor shall indemnify**,** defend, save and hold harmless, County, its officers, agents and employees from all suits, claims, actions or damages of any nature brought because of, arising out of, or due to breach of the Contract by Contractor, its subcontractors, agents or employees or due to any negligent act, occurrence, omission, commission of Contractor, its subcontractors, agents, or employees.

15. Delivery. Contractor shall render the Evidence-Based Instruction Strategies Consulting for the County in accordance with Request for Proposals #3667.

16. Tax Compliance. Pursuant to Resolution R-07-1-903 passed by the Commission of Knox County, Tennessee, Contractor hereby acknowledges, by submission of its bid and signature that it is current in its respective Federal, State, County, and City taxes of whatever kind or nature and is not delinquent in any way. Delinquent status must be disclosed or risk debarment by the Knox County Purchasing Division.

17. Limitations of liability. In no event shall the County be liable for any indirect, incidental, consequential, special or exemplary damages or lost profits, even if the County has been advised of the possibility of such damages.

17. Limitations of liability. In no event shall the County be liable for any indirect, incidental, consequential, special or exemplary damages or lost profits, even if the County has been advised of the possibility of such damages.

18. Contract documents. It is mutually agreed by both parties that the following documents are made part of this Contract and are incorporated herein by reference:

A. Request for Proposals #3667 and Addendum I
B. Contractor's Response to Request for Proposals #3667

It is agreed that this Contract, represents the **entire Contract** between the parties and no prior representations, promises, and agreements, oral or otherwise, not embodied herein, shall be of any force or effect.

In witness whereof, the parties hereto have caused this Contract to be executed in one original copy on the day and year first above written.

Contract #: 25-516(c)
Approved as to Legal Form:

_____
Knox County Law Director's Office

7/24/2025
_____**Date**

The Procurement Division of Knox County, Tennessee will receive sealed proposals for the provision of **Evidence-Based Instruction Strategies Consulting** as specified herein. Proposals must be received by **2:00 p.m.** on **June 13, 2025**. Late proposals will neither be considered nor returned.

Deliver Proposals To:

Proposal Number 3667
Knox County Procurement Division
Suite 100
1000 North Central Street
Knoxville, Tennessee 37917

The Proposal Envelope must show the Company Name, Proposal Number, Proposal Name & Proposal Closing Date.

SECTION I PROPOSAL PREPARATION AND SUBMISSION

1.1 **ADDITIONAL INFORMATION:** Knox County wants requests for additional information routed to Rachel Cabrera, Senior Buyer, at 865.215.5751. Questions may be emailed to rachel.cabrera@knoxcounty.org. If you have not heard from the Buyer in a reasonable amount of time, please call for further assistance. Information about the Knox County Procurement Division and current solicitations may be obtained on the Internet at www.knoxcounty.org/procurement.

1.2 **ACCEPTANCE:** Vendors shall hold their price firm and subject to acceptance by Knox County for a period of one hundred twenty (120) business days from the date of the proposal closing, unless otherwise indicated in their proposal.

1.3 **ALTERNATIVE PROPOSALS:** Knox County will not accept alternate proposals (those not equal to specifications) unless authorized by the Request for Proposal.

1.4 **AUDIT HOTLINE:** Knox County has established an Audit Hotline to report potential fraud and waste. To report potential fraud, waste or abuse, please file a report online by accessing http://www.knoxcounty.org/audit/hotline.php.

Vendors are hereby cautioned that this Audit Hotline does not replace the Award Protest Procedures found in Section VI, Item M of the Knox County Procurement Regulations.

1.5 **AWARD:** Award will be made to the most responsive, responsible proposer(s) meeting specifications and presenting the product(s) and/or service(s) that is in the best interest of Knox County. Knox County reserves the right to award this proposal on an all-or-none basis, schedule basis or by multiple award. Knox County reserves the right to not award this proposal. Award will be made in accordance with the evaluation criteria specified herein.

1.6 **BUSINESS OUTREACH PROGRAM:** Knox County has established a Business Outreach Program which has the responsibility of increasing opportunity for small, minority and women owned businesses. This is being accomplished through community education programs, policy edification, active recruitment of interested businesses and process re-engineering.

Knox County is committed to ensuring full and equitable participation for all disadvantaged businesses. Knox County welcomes submittals from those disadvantaged businesses that have an interest in providing goods and/or services listed herein. In addition, Knox County strongly encourages the inclusion of disadvantaged businesses by non-disadvantaged Contractors who wish to partner or subcontract portions of this agreement in order to accomplish the successful delivery of goods and/or services. If you are a disadvantaged business and would like additional information about our Business Outreach Program, please contact:

Diane Woods, Business Outreach Administrator
Telephone: 865.215.5760
Fax: 865.215.5778
Email: diane.woods@knoxcounty.org

1.7 **CONFLICT OF INTEREST:** Vendors must have read and comply with the "Non-Conflict of Interest" statement provided in the vendor registration process prior to the closing of this solicitation. Knox County's Non-Conflict of Interest Policy is available for review at https://www.knoxcounty.org/purchasing/conflict_policy.php.

1.8 **COPIES:** Knox County requires that proposals be submitted as one (1) marked as original and one (1) exact copy. **Proposers must submit with their written response an exact electronic version of their proposal in a single PDF file on a flash drive format.**

1.9 **DECLARATIVE STATEMENTS:** Any statement or words (e.g.: must, shall, will) are declarative statements and the vendor must comply with the condition. Failure to comply with any such condition may result in the proposal being considered non-responsive and disqualified.

1.10 **ELECTRONIC TRANSMISSION OF PROPOSALS:** Knox County's Procurement Division will not accept electronically transmitted proposals. Facsimile and email submissions are strictly prohibited. Due to the nature of the information requested, all submissions shall be in written format.

1.11 **HOW TO DO BUSINESS:** Knox County utilizes a web-based Procurement software system, "KnoxBuys." The system provides our clients (vendors, county departments and the citizens of Knox County) with a more enhanced and end-user friendly means of accessing our services. The system allows for on-line vendor registration and maintenance, electronic receipt of purchase orders, on-line retrieval and submittal of quotes, bids and proposals for our vendor-clients and on-line requisitioning and receiving for our county departments. In order for the County to maximize its investment and minimize the cost associated with office operations, we need your help. When doing business with Knox County, we are urging you to please go to our website at www.knoxcounty.org/procurement, register as a vendor in our on-line Procurement system, "KnoxBuys," if you have not done so and whenever possible to conduct your business with the County through this site. If you have any questions, please contact the Procurement Division Representative listed in Section 1.1 of this document.

1.12 **INCURRED COSTS:** Knox County will not be responsible for any costs incurred by the proposer in the preparation of their proposal.

1.13 **MULTIPLE PROPOSALS:** Knox County will consider multiple proposals that meet specifications.

1.14 **NON-COLLUSION:** Proposers, by submitting a signed proposal, certify that the accompanying proposal is not the result of, or affected by, any unlawful act of collusion with any other person or company engaged in the same line of business or commerce, or any other fraudulent act punishable under Tennessee or United States law.

1.15 **PAYMENT METHOD:** Knox County will utilize a Purchase Order for placing an order for products and/or services. Purchase Orders will be issued from the Knox County Procurement Division via the method selected by the vendor during registration. The Purchase Order will detail the quantity, specific item(s) and the contracted price for each item. Work on this project must not commence until a signed Purchase Order is issued by Knox County Procurement.

1.16 **POSSESSION OF WEAPONS:** All vendors, their employees and their agents are prohibited from possessing any weapons on Knox County property without prior written consent from the County. In the case of a vendor whose Contract requires possession of firearms or other weapons to successfully complete their Contract, vendor must provide personnel who are bonded to bear said weaponry.

1.17 **PROCESSING TIME FOR PAYMENT:** Vendors are advised that a minimum of thirty (30) days is required to process invoices for payment.

1.18 **PROOF OF FINANCIAL AND BUSINESS CAPABILITY:** Vendors must, upon request, furnish satisfactory evidence of their ability to furnish products or services in accordance with the terms and conditions of these specifications. Knox County will make the final determination as to the vendor's ability.

1.19 **PROPOSAL DELIVERY:** Knox County requires proposers, when hand delivering proposals, to time and date stamp the envelope before depositing it in the bid box. Knox County will not be responsible for any lost or misdirected mail sent by common carrier, nor will Knox County be responsible for proposals delivered to addresses or Suites other than the delivery address and Suite specified at the top of this solicitation. The time clock in the Procurement Division shall serve as the official record of time.

Solicitations must be in a sealed envelope/box prior to entering the Procurement Division office. Procurement Division personnel are not allowed to see the submittal nor assist in placing documents in an envelope/box. Additionally, the Procurement Division is not responsible for providing materials (e.g. envelopes, boxes, tape) for submittals.

1.20 **RECYCLING:** Knox County, in its continuing efforts to lessen the amount of landfill waste and to further recycling efforts, requests that proposals being submitted on paper shall:

1.20.1 Be submitted on recycled paper;
1.20.2 Not include pages of unnecessary advertising;
1.20.3 Be made on both sides of each sheet of paper.

1.21 **RESTRICTIVE OR AMBIGUOUS SPECIFICATIONS:** It is the responsibility of the prospective proposer to review the entire Request for Proposal packet and to notify the Procurement Division if the specifications are formulated in a manner that would unnecessarily restrict competition. Any such protest or question regarding the specifications or proposing procedures must be received in the Procurement Division by **May 27, 2025 at 4:30 p.m. local time**. These requirements also apply to specifications that are ambiguous.

1.22 **SIGNING OF PROPOSALS:** In order to be considered, all proposals must be signed. Please sign the original in blue ink. By submitting a signed letter authorizing the submission of the proposal, the vendor acknowledges and accepts the terms and conditions stated in the proposal document.

1.23 **TAXES:** Knox County purchases are not subject to taxation. Tax exemption certificates will be provided upon request.

1.24 **TITLE VI OF THE 1964 CIVIL RIGHTS ACT AND TITLE IX OF THE EDUCATIONAL AMENDMENT OF 1972:** "Nondiscrimination in Federally Assisted Programs"—"No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance." 42 U.S.C. Section 2000. It is the policy of Knox County Government that all its services and activities be administered in conformance with the requirements of Title VI and Title IX.

1.25 **UNFORESEEN CIRCUMSTANCES:** During periods of closure due to unforeseen circumstances in Knox County or closures at the direction of the Knox County Mayor, the Procurement Division will enact the following procedures in regard to solicitations and closures:

- If the Mayor closes the Administrative offices prior to the time set for solicitation opening of any business day, all solicitations due that same day will be moved to the next operational business day.
- Other unforeseen circumstances shall be at the sole discretion of the Procurement Director.
- Knox County shall not be liable for any commercial carrier's decision regarding deliveries during any unforeseen circumstances.

1.26 **USE OF PROPOSAL FORMS:** Vendors must complete the proposal forms contained in the proposal package. Failure to complete the proposal forms may result in proposal rejection.

1.27 **VENDOR DEFAULT:** Knox County reserves the right, in case of vendor default, to procure the articles or services from other sources and hold the defaulting vendor responsible for any excess costs occasioned thereby. Should vendor default be due to a failure to perform or because of a request for a price increase, Knox County reserves the right to remove the vendor from the County's bidder's list for twenty-four (24) months.

1.28 **VENDOR REGISTRATION:** Prior to the submission deadline for this solicitation, ***ALL PROPOSERS MUST*** be registered with the Procurement Division. If you are not already a registered vendor with Knox County, register on-line at our website at www.knoxcounty.org/procurement and click on "Knox Buys" and then select "Online Vendor Registration." Vendors must be registered with the Procurement Division **prior** to submitting their proposal. Knox County shall not be responsible for technical difficulties experienced by vendors trying to register electronically less than twenty-four (24) hours prior to the proposal closing time.

1.29 **WAIVING OF INFORMALITIES:** Knox County reserves the right to waive minor informalities or technicalities when it is in the best interest of Knox County.

SECTION II OBLIGATIONS, RIGHTS AND REMEDIES

These terms and conditions shall be part of the Contract. Knox County reserves the right to negotiate other terms and conditions it deems appropriate and necessary under the circumstances to protect the public's trust.

2.1 **ALTERATIONS OR AMENDMENTS:** No alterations, amendments, changes, modifications or additions to this Contract shall be binding on Knox County without the prior written approval of the County.

2.2 **APPROPRIATION:** In the event no funds are appropriated by Knox County for the goods or services in any fiscal year, or insufficient funds exist to purchase the goods or services, then the Contract shall expire upon the expenditure of previously appropriated funds or the end of the current fiscal year, whichever occurs first, with no further obligations owed to or by either party.

2.3 **ASSIGNMENT:** Contractor shall not assign or sub-contract this agreement, its obligations or rights hereunder to any party, company, partnership, incorporation or person without the prior written specific consent of Knox County.

2.4 **BOOKS AND RECORDS:** Vendor shall maintain all books, documents, accounting records and other evidence pertaining to the goods and services provided under this Contract and make such materials available at its offices at all reasonable times during the Contract period and for five (5) years from the date of the final payment under this agreement for inspection by County or by any other governmental entity or agency participating in the funding of this agreement, or any authorized agents thereof; copies of said records to be furnished if requested. Such records shall not include those books, documents and accounting records that represent the Vendor's costs of manufacturing, acquiring or delivering the products and services governed by this agreement.

2.5 **CHILD LABOR:** Contractor agrees that no products or services will be provided or performed under this Contract that have been manufactured or assembled by child labor.

2.6 **COMPLIANCE WITH ALL LAWS:** Contractor is assumed to be familiar with and agrees to observe and comply with all Federal, State, and Local laws, statutes, ordinances, and regulations in any manner affecting the provision of goods and/or services, and all instructions and prohibitive orders issued regarding this work and shall obtain all necessary permits.

2.7 **CRIMINAL HISTORY RECORDS CHECK:** Any and all successful proposers, Contractor's employees, Contractor's subcontractors and the employees of any subcontractors must submit to a criminal history records check at the Contractor's expense, conducted by the Tennessee Bureau of Investigation and the Federal Bureau of Investigation prior to permitting the employee to have contact with students or enter school grounds when students are present. Reference Tennessee Code Annotated Section 49-5-413. Proposers **must** submit with their proposals the Criminal History Affidavit of Compliance.

2.8 **DEFAULT:** If Contractor fails to perform or comply with any provision of this Contract or the terms or conditions of any documents referenced and made a part hereof, Knox County may terminate this Contract, in whole or in part, and may consider such failure or noncompliance a breach of Contract. Knox County expressly retains all its rights and remedies provided by law in case of such breach, and no action by Knox County shall constitute a waiver of any such rights or remedies. In the event of termination for default, Knox County reserves the right to purchase its requirements elsewhere, with or without competitive solicitation.

2.9 **GOVERNING LAW; VENUE:** This agreement shall be exclusively construed, governed, and controlled by the Laws of the State of Tennessee without regard to principles of law, including conflicts of law, of any other jurisdiction, territory, country, and/or province. Any dispute arising out of or relating to this agreement shall exclusively be brought in the Chancery Court or the Circuit Court of Knox County, Tennessee. Each party consents to personal jurisdiction thereto and waives any defenses based on personal jurisdiction, venue and inconvenient forum.

2.10 **INCORPORATION:** All specifications, drawings, technical information, Request for Proposal, Proposal, Award and similar items referred to or attached or which are the basis for this Contract are deemed incorporated by reference as if set out fully herein.

2.11 **INDEMNIFICATION—HOLD HARMLESS:** Contractor shall indemnify, defend, save and hold harmless Knox County, its officers, agents and employees from all suits, claims, actions or damages of any nature brought because of, arising out of, or due to breach of the agreement by Contractor, its subcontractors, suppliers, agents,

or employees or due to any negligent act or occurrence or any omission or commission of Contractor, its subcontractors, suppliers, agents or employees.

2.12 **INDEPENDENT CONTRACTOR:** Contractor shall acknowledge that it and its employees serve as independent contractors and that Knox County shall not be responsible for any payment, insurance or incurred liability.

2.13 **INSPECTION AND ACCEPTANCE:** Warranty periods shall not commence until Knox County inspects and formally accepts the goods and/or services. The terms, conditions and timing of acceptance shall be determined by Knox County. Knox County reserves the right to reject any or all items or services not in conformance with applicable specifications, and Contractor assumes the costs associated with such nonconformance. Acceptance of goods or services does not constitute a waiver of latent or hidden defects or defects not readily detectable by a reasonable person under the circumstances.

2.14 **IRAN DIVESTMENT ACT:** By submission of this Request for Proposal response, each proposer and each person signing on behalf of any proposer certifies, and in the case of a joint response, each party thereto certifies as to its own organization, under penalty of perjury, that to the best of its knowledge and belief that each proposer is not on the list created pursuant to Tennessee Code Annotated § 12-12-106.

2.15 **LIMITATIONS OF LIABILITY:** In no event shall Knox County be liable for any indirect, incidental, consequential, special or exemplary damages or lost profits, even if Knox County has been advised of the possibility of such damages.

2.16 **NO BOYCOTT OF ISRAEL:** Pursuant to Tennessee Code Annotated Title 12, Chapter 4, Part 1, by submission of a response to this solicitation, each proposer and each person signing on behalf of any proposer certifies, and in the case of a joint response each party thereto certifies as to its own organization, under penalty of perjury, that to the best of its knowledge and belief that each proposer is not currently engaged in, and will not for the duration of the Contract engage in, a boycott of Israel. Proposers must submit with their proposals the completed Iran Divestment Act/No Boycott of Israel Affidavit.

2.17 **NON-DISCRIMINATION AND NON-CONFLICT STATEMENT:** Contractor agrees that no person on the grounds of handicap, age, race, color, religion, sex **or** national origin any individual trait or characteristic found to be an illegal consideration, shall be excluded from participation in, or be denied benefits of, or be otherwise subjected to discrimination in the performance of this agreement or in the employment practices of vendor. Contractor shall upon request show proof of such non-discrimination and shall post in conspicuous places available to all employees and applicants notices of non-discrimination. Contractor covenants that it complies with the Fair Wage and Hour Laws, the National Labor Relations Act, and other Federal and State employment laws as applicable. Contractor covenants that it does not engage in any illegal employment practices.

Contractor covenants that it has no public or private interest and shall not acquire directly or indirectly any interest that would conflict in any manner with the provision of its goods or performance of its services. Contractor warrants that no part of the total Contract amount provided herein shall be paid directly or indirectly to any officer or employee of Knox County as wages, compensation, or gifts in exchange for acting as officer, agent, employee, subcontractor or consultant to Contractor in connection with any goods provided or work contemplated or performed relative to the agreement.

2.18 **ORDER OF PRECEDENCE:** In the event of inconsistent or conflicting provision of this Contract and referenced documents, the following descending order of precedence shall prevail: (1) Contract, (2) Request for Proposal, (3) Contractor's Response, (4) Award, (5) Special Terms and Conditions, (6) General Terms and Conditions, (7) Specifications, (8) Drawings.

2.19 **REMEDIES:** Knox County shall have all rights and remedies afforded under the U.C.C. and Tennessee law in Contract and in tort, including but not limited to, rejection of goods, rescission, and right of set-off, refund, incidental, consequential and compensatory damages and reasonable attorney's fees.

2.20 **RIGHT TO INSPECT:** Knox County reserves the right to make periodic inspections of the manner and means the service is performed or the goods are supplied and warehoused.

2.21 **SEVERABILITY:** If any provision of this Contract is declared illegal, void or unenforceable, the remaining provisions shall not be affected but shall remain in force and in effect.

2.22 **TAX COMPLIANCE:** Pursuant to Resolution R-07-1-903 passed by the Commission of Knox County, Tennessee, Contractor hereby acknowledges, by submission of its proposal or proposal and signature, it is current in its

respective Federal, State, County, and City taxes of whatever kind or nature, and is not delinquent in any way. Delinquent status must be disclosed or risk debarment by the Knox County Procurement Division.

2.23 **TERMINATION:** County may terminate this agreement with or without cause at anytime. In the event of termination by either party, fees due for services satisfactorily performed or goods accepted prior to the termination date shall be paid. Contractor shall not perform additional work without the expressed permission of County. In the event Contractor intends to interrupt or discontinue service under this Contract, Contractor agrees to give Knox County at least one hundred twenty (120) business days' advance written notice of said interruption or discontinuance of service prior to interrupting or discontinuing same. Any interruption or discontinuance of service without said advance notice shall constitute a material breach of this Contract.

2.24 **WARRANTY:** Contractor warrants to Knox County that all items delivered and all services rendered shall conform to the specifications, drawings, solicitation and/or other descriptions furnished and/or incorporated by reference, and will be fit for the particular purpose purchased of merchantable quality, good workmanship, and free from defects. Contractor extends to Knox County all warranties allowed under the U.C.C. Contractor shall provide copies of warranties to the County upon request. Return of merchandise not meeting warranties shall be at contractor's expense.

SECTION III SPECIAL TERMS AND CONDITIONS

3.1 **INTENT:** The intent of this document is to set forth and convey to prospective proposers the general requirements for vendors to provide Knox County Schools with Evidence-Based Instruction Strategies Consulting as desired by Knox County. Award will be based on Best Value. Best value means more than low cost. It includes cost, technical service quality, experience, qualifications and other factors detailed herein.

3.2 **ACCEPTANCE:** Vendors are advised that the payment of an invoice does not necessarily constitute as an acceptance of services that are provided. Acceptance requires a specific written action by Knox County so stating.

3.3 **ADDITIONS OR DELETIONS:** Knox County reserves the right to add or delete services as the need arises. If services are to be added, Knox County and the Contractor will arrive at a mutually agreed price. Any additions or deletions must be approved in writing by Knox County Procurement prior to any changes in service.

3.4 **AWARD LENGTH:** The pricing for this Contract must remain firm for thirty-six (36) months. However, due to the funding source Knox County does not allow automatic renewals, this Contract will need to be extended annually to continue services. Knox County will draft the Extension of Contract and send it to the vendor approximately ninety (90) days before expiration. The agreement may be renewed for four (4) one-year periods upon mutual consent, for a possible total of five (5) years. Following the initial thirty-six (36) months, the Contractor may request a change in price.

3.5 **CHANGES AFTER AWARD:** It is possible that after award, Knox County might change its needs or requirements. Knox County reserves the right to make such changes after consultation with the vendor. Should additional costs arise, Knox County reserves the right to consider accepting these charges provided the vendor can document the increased costs. Knox County also reserves the right to accept proposed service changes from the vendor if they will lower the cost to Knox County and/or provide improved service.

3.6 **COMMUNICATION:** The successful execution of this contract will require extensive communication between all involved parties. While information may be transmitted via telephone, it should always be followed up with an email. It is essential that the Contractor have an efficient email capabilities. The Contractor will be required to submit a list of individuals, along with direct phone numbers, cell phone numbers and email addresses for the agency's contacts. These individuals must be familiar with the Knox County Contract and have authority to make adjustments as requested by Knox County.

3.7 **COMPLIANCE WITH ALL APPLICABLE REGULATIONS:** Vendor agrees and covenants that the company, its agents and employees will comply with all City, County, State and Federal codes, laws, rules and regulations applicable to the business to be conducted under this contract. If the vendor performs any work knowing it to be contrary to such laws, ordinances, rules and regulations, the vendor shall bear all costs arising from such work.

3.8 **CONTACT PERSONNEL:** Essential to the success of this Contract is the development of a good working relationship between the vendor and Knox County. It is imperative that the Knox County account be handled efficiently and professionally. Knox County should be assigned no more than two (2) vendor contacts to handle billing inquiries and service related issues. In the event on or both contacts leave the Knox County account, the

vendor shall formally introduce the new contacts to Knox County personnel. These contacts must be knowledgeable of the County's account to avoid an interruption of service.

3.9 **CONTRACT EXECUTION:** The award of this proposal may result in a Contract between Knox County and the successful vendor(s). The Contract may require Knox County Board of Education and/or Knox County Commission approval. The successful vendor(s) may be required to be present at the Board of Education and/or County Commission meeting(s) to answer questions relating to the service to be performed. Adequate notification will be given by Knox County Procurement Division if the awarded vendor(s) will need to attend meetings. There shall be no cost to Knox County for attendance of the vendor(s). Knox County will draft the Contract. The Knox County Procurement Division will not accept any vendor's contract. A sample contract is under Exhibit B for review. If Master Agreements, Service Agreements, Terms and Conditions or other contract agreements are submitted they will not be accepted.

3.10 **CONTRACTOR DUTIES:** At the Contractor's own expense, the Contractor shall:

3.10.1 Provide competent supervision;
3.10.2 Provide competent personnel;
3.10.3 Take precautions necessary to protect persons or property against injury or damage and be responsible for any such damage or injury that occurs as a result of their fault or negligence.

3.11 **DESTINATION AND DELIVERY:** All shipments that are to be delivered must be Free on Board Destination to the department ordering the items. All shipping charges are to be included in the unit price of each item. All deliveries must be unloaded and delivered inside to the department location that is ordering the items.

3.12 **EVALUATION CRITERIA:** This proposal will be evaluated using the following criteria:

As per Section 1.5, Knox County will determine the award structure that is in its best interest.

Methodology	30 Points
Delivery of Service	30 Points
Experience & References	20 Points
Cost	20 Points

Knox County may select an Evaluation Committee for this solicitation to thoroughly review and score all submitted responsive and responsible proposals. Each evaluator will have the ability to award up to one hundred (100) points, based on the Evaluation Criteria, per submission.

3.13 **EVALUATION REVIEW:** Knox County reserves the right to use all pertinent information (including information learned from sources other than disclosed in the Request for Proposal process) that might affect the County's judgment as to the appropriateness of an award to the best evaluated vendor(s). This information may be appended to the proposal evaluation process results. Information on a service provider from reliable sources, and not within the service provider's proposal, may also be noted and made part of the evaluation file. Knox County shall have sole responsibility for determining a reliable source. Knox County reserves the right to conduct written and/or oral discussions/interviews after the proposal closing. The purpose of such discussions/interviews is to provide clarification and/or additional information to make an award that is in the best interest of Knox County.

3.14 **EXCEPTIONS TO SPECIFICATIONS:** Vendors taking exception to any part or section of these specifications shall indicate such exceptions on their submittal. A failure to indicate any exception(s) shall be interpreted as the vendor's intent to fully comply with the specifications as written. Conditional or qualified offer are subject to rejection in whole or in part. Any exceptions shall be included in Section V, Tab VIII of the submittal. **Do not strike through or in any other way alter the Request for Proposal. Exceptions listed within other sections of the submittal shall not be reviewed or considered.**

3.15 **GRANT FUNDING:** The products or services being procured under this solicitation are being funded by Federal Grant money. All awarded vendors will be required to adhere to Exhibit A of this solicitation in the performance of the Contract.

3.16 **GRATUITIES AND KICKBACKS:** It shall be a breach of ethical standards for any person or company to offer, give, or agree to give any employee or former employee, or for any employee or former employee to solicit, demand, accept, or agree to accept from another person, a gratuity or an offer of employment in connection with any decision, approval, disapproval, recommendation, preparation of any part of a program requirement or a purchase request, influencing the content of any specification or procurement standard, rendering of advice, investigation, auditing or in any other advisory capacity in any proceeding or application, request for ruling,

determination, claim, or controversy or other particular matter, pertaining to any program requirement of a contract or subcontract or to any solicitation or proposal therefore. It shall be a breach of ethical standards for any payment, gratuity or offer of employment to be made by or on behalf of a subcontractor under a contract to the prime contractor or higher tier subcontractor or a person associated therewith, as an inducement for the award of a subcontract or order. Breach of the provisions of this paragraph is, in addition to a breach of this Contract, a breach of ethical standards which may result in civil or criminal sanction and/or debarment or suspension from being a contractor or subcontractor under Knox County contracts.

3.17 **IDENTIFICATION:** Employees of the Contractor shall have proper photo identification displayed at all times while on property belonging to Knox County.

3.18 **INSURANCE:** The successful vendor(s) must carry the insurance as indicated on the Insurance Checklist Attachment hereto. As proof of the vendor's willingness to obtain and maintain the insurance, the vendor must complete, sign and have its insurance agent sign the attachment and submit it with the proposal. Upon the Notification of Intent to Award, the successful vendor will be required to submit a Certificate of Insurance (COI) including any corresponding endorsement page(s) with the specified coverage and listing Knox County as an additional insured. It shall be the successful vendor's responsibility to keep a current COI and endorsement page(s) on file with Knox County Procurement for as long as the contract is in effect.

3.19 **INTERPRETATION:** No oral interpretation will be made to any vendor regarding the meaning of specifications or the Scope of Work. All questions are to be submitted in writing via email and will be answered in the form of an addendum to the solicitation by the Knox County Procurement Division, if applicable.

3.20 **INVOICE DETAIL:** Knox County is requesting invoices to show the following detail to help expedite review and payment. The Contractor(s) may be required to modify invoicing procedures to show the detail. All potential Contractors are hereby cautioned that Knox County will only pay from original invoices and not facsimiles or copies. Invoices which do not adhere to these details may be returned to the Contractor for correction.

3.20.1 The invoice must show the amount due to the Contractor by Knox County;
3.20.2 The invoice must show a summary of completed work;
3.20.3 Invoices are to be original and uniquely pre-numbered;
3.20.4 Invoices which do not show this information are subject to rejection.

3.21 **INVOICING PROCEDURES:** Knox County requests that invoices be easy to read and understand. Invoices are to be original and uniquely pre-numbered. There shall be no additional charge for this information and these procedures to be included. Each invoice shall include a summary of service(s) provided and shall list the associated unit price. Supporting documentation shall be included with invoices as applicable. Invoices without this information will be returned to the Contractor for correction.

Invoices shall be sent to the billing address indicated on the Purchase Order. Each department or division of Knox County is responsible for its own budget. Departments cannot charge or pay bills for another department. Therefore, it is critical that the successful Contractor's invoices specify the correct department. Do not credit payments to another department's account. Invoices must be submitted in triplicate and must match the corresponding Purchase Order number. There shall be no component billing. Mail invoices for Knox County Schools to:

Knox County Schools Finance Department
Post Office Box 2188
Knoxville, TN 37902-1805
invoices@knoxschools.org

3.22 **INVOICE REVIEW:** Knox County shall review all invoices for adherence to the terms and conditions of the Contract. Variations from the Contract and Contract pricing are strictly prohibited. Any variance found on the invoice will result in rejection of that invoice. Rejected invoices will be returned to the Contractor(s) for correction. Repeated variations may result in termination.

3.23 **MINIMUM QUALIFICATION EXPECTATIONS:**

3.23.1 Respondent must address all submittal requirements as defined under Section IV.
3.23.2 Respondent shall have a minimum of five (5) years of experience and sufficient capabilities to carry out the work contemplated, as well as the equipment and personnel available for the work.

3.23.3 If the respondent has a permanent office in Knox County, respondent must have a current business license issued by Knox County. This requirement also applies to any of the Respondent's proposed subcontractors or subconsultants with a permanent office in Knox County. A Knox County business license is not required of any Respondent or proposed subcontractor or subconsultant who does not have a permanent office in Knox County. For more information, contact the Knox County Clerk's office at 865.215.2392.

3.24 **NEGOTIATION:** Knox County may select a successful proposer on the basis of initial offers received without discussions. Therefore, each proposal shall contain the proposer's best terms from a cost or price and service standpoint. Knox County reserves the right to enter into Contract negotiations with the highest-rated proposer. If Knox County and the selected proposer cannot negotiate a successful agreement, Knox County may terminate said negotiations and begin negotiations with the next highest-rated proposer. Knox County retains the right to negotiate with multiple proposers simultaneously. This process will continue until an agreement has been reached or all proposers have been rejected. No proposer shall have any rights against Knox County arising from such negotiations.

3.25 **NEWS RELEASES BY VENDORS:** As a matter of policy, Knox County does not endorse the services of a Contractor. A Contractor will not make news releases concerning any resultant contract from this solicitation without the prior written approval of Knox County.

3.26 **NO CONTACT POLICY:** After the date and time that the vendor receives this solicitation, any contact initiated by any proposer with any Knox County representative, other than the Procurement Division representative listed herein, concerning this Request for Proposal, is strictly prohibited. Any such unauthorized contact may cause the disqualification of the proposer from this procurement transaction.

3.27 **OFFER WITHDRAWAL:** No proposal can be withdrawn after it is filed unless the proposer makes a request in writing to the Knox County Procurement Division prior to the time set for the closing of proposals or unless the County fails to accept within one hundred twenty (120) business days after the date fixed for the closing the Request for Proposal.

3.28 **ORAL PRESENTATION/INTERVIEW:** Knox County may require proposers to give oral presentations/interviews in support of their proposal or to exhibit or otherwise demonstrate the information contained therein. These presentations/interviews may be conducted virtually through video conferencing or in person.

Knox County reserves the right to request oral presentations and/or interviews during the initial evaluation phase. The County also reserves the right to complete the initial evaluation phase and then request oral presentations and/or interviews from all proposers or the highest rated proposers. In this case, the evaluations may be revised based on additional information received during presentations.

3.29 **PRICING:** The proposer(s) warrants that the unit price stated shall remain firm for a period of thirty-six (36) months from the first day of the Contract period. If the Contractor's price is increased after the first contract period, Knox County must be given a written notice to consider. Such a request shall include as a minimum, (1) the cause for the adjustment; (2) the amount of the change requested with documentation to support the requested adjustment. Price increases will only be considered at the renewal period(s). If the price increase is rejected the contractor may:

- Continue with the existing prices;
- Request a lower price increase;
- Not accept the renewal offer.

If a price increase is approved by Knox County, the approval notification will be done in writing and the Contractor will be notified of the new price schedule and effective date of increase. This documentation will become part of the proposal file. No approvals will be authorized verbally.

3.30 **PROPOSAL CONTENT:** The proposer's response must contain a thorough description of the background of the proposer and sufficient evidence showing that the proposer is capable of providing the services. The proposer's response must thoroughly expound on the proposer's understanding of how the proposed services will meet Knox County's needs. The proposal must also contain an explanation of the implementation plan and the proposer's ongoing commitment to service.

3.31 **PROPOSAL EVALUATION:** In evaluation of submitted proposals, Knox County reserves the right to use any or all of the ideas from the proposals submitted without limitation and to accept any part or the entire successful proposal in selecting an operation which is judged to be in the best interest of Knox County. All material submitted becomes property of Knox County.

3.32 **PROPOSAL FORMAT:** This solicitation is in the Request for Proposal format. As the specified date and time, each proposer's name will be publicly read aloud. No further information will be given at that time. Evaluation of the proposals will proceed as expeditiously as possible and successful, as well as unsuccessful, notification will be given.

3.33 **PROPOSER OBLIGATION:** Proposers shall become fully acquainted with conditions relating to the scope of the work detailed in this Request for Proposal. Failure to become acquainted with the existing conditions shall in no way absolve the proposer of any obligations with respect to this Request for Proposal or the Contract.

3.34 **PUBLIC RECORDS ACT:** Knox County is subject to the Tennessee Open Records Act 10-7-503 et seq. Proposers are cautioned that all documents submitted on behalf of this Request for Proposal shall be open to the public for viewing and inspection.

3.35 **QUANTITIES:** Knox County does not guarantee any quantity of services will be utilized under this solicitation. Services will be utilized on an as needed basis.

3.36 **REJECTION OF PROPOSALS:** Knox County reserves the right to reject any and all proposals received as a result of this request and to waive any informality, technical defect or clerical error in any proposal, as the interests of Knox County may require. Non-acceptance of any proposal will be devoid of any criticism of the proposal and of any implication that the proposal is deficient in any manner. Non-acceptance of any proposal shall be construed as meaning simply that the County does not deem the proposal acceptable or that another proposal was deemed more advantageous to Knox County for the particular services proposed.

3.37 **REMOVAL OF CONTRACTOR'S EMPLOYEES:** Contractor agrees to utilize only experienced, responsible and capable people in the performance of the work. Knox County may require that the Contractor remove from the job covered by this Contract, including employees who endanger persons or property or whose continued employment under this Contract is inconsistent with the interest of Knox County.

3.38 **SUBMIT QUESTIONS:** Prospective proposers may submit questions concerning this solicitation until **May 27, 2025 at 4:30 p.m. local time**.

3.39 **SUSPENSION AND DEBARMENT:** Vendor will notify Knox County Government if they become suspended, debarred, or otherwise excluded from or ineligible for participation in Federal assistance programs or activities during the term of this proposal and during the term of any subsequent Contract for service.

3.40 **TENNESSEE REGISTRATION:** The successful proposer must meet any applicable State of Tennessee registration requirements.

SECTION IV SCOPE OF WORK

4.1 **BACKGROUND:** Knox County Schools (KCS) is a public education agency. It is responsible for the education of children from preschool through high school. There are approximately fifty-nine thousand (59,000) Pre-K through 12th-grade students and approximately seven thousand eight hundred (7,800) employees. For purposes related to this Request for Proposal, the district is comprised of ninety-two (92) schools that represent urban, suburban, and rural populations. In addition to Knox County Public Schools, funds are utilized to provide our non-public and the charter schools with resources/services.

4.2 **FACILITIES:** All facilities for the training will be provided by Knox County or Knox County's non-public schools.

4.3 **PARTICIPANTS:** Number of participants may vary. Vendors may work with an entire school staff or smaller school teams, and/or district teams, or any combination thereof. A defined number of trainings or participants is not guaranteed. Participants will be staff members serving students that may fall into historically underserved populations.

4.4 **SCOPE OF WORK:** Knox County Schools is seeking vendors to provide professional consultation to our schools and district to implement evidenced-based, content-specific strategies for instruction while building a coherent

academic and cultural model that is grounded in our district's four priorities: excellence in foundational skills, great educators in every school, success for every student, and career empowerment and preparation.

Through a framework that supports adult learning; while embracing student-centered decision-making, educators will be empowered to collaborate in curriculum-embedded professional learning. Educators will build discernment by measuring their impact on student learning through routine student work analysis. The consultant will work with leaders to support the accurate capture of the state of instruction through participation in classroom walkthroughs and coaching during reflective debriefs. The consultant will provide support in developing strategic action plans aligned with the current state of instruction that embrace evidenced-based instructional strategies within the high-quality instructional materials utilized by the district. Educators will also focus on developing or sustaining a culture of learning within the school community to support academic competency and increase student proficiency and growth

4.5 **METHODOLOGY:** Proposer is to describe, in detail, their proposed approach to providing services including excerpts and/or examples of course content and materials to be used, description(s) of recommended content proposed including objectives, research base, and training scripts.

Proposer is also to include samples of modules and/or curriculum and/or resources used in past projects that are similar in scope to the proposed training. This information is to be provided in Section V, Tab III of this Proposal.

4.6 **DELIVERY OF SERVICES:** The successful Proposer **must** offer professional development training designed to achieve the objectives outlined in this Request for Proposal and support increased organizational capacity to sustain the application of learning and implementation of tools and strategies over time. The proposed program must be designed to enhance the skills and/or abilities of employees in evidence-based instructional strategies as related to the classroom and school environment to reduce disparities and enhance student academic performance as detailed in this Request for Proposal.

The professional learning delivery model must authentically engage participants based on the principles of adult learning. Participants will be prepared to effectively implement evidenced-based, curriculum-based professional learning strategies and respond based on content-specific feedback to increase student proficiency. Participants will collaboratively engage in structures to include:

- Surveys for measuring culture;
- Processes for educator collaboration;
- Processes for measuring impact on student learning;
- Processes for building educator discernment regarding evidence-based instructional strategies within high-quality instructional materials utilized by the district; and
- Processes for leader capacity building.

Training provided should support sustained implementation and the professional learning should provide evidence-based instructional strategies with a proven impact on student outcomes.

Proposers must provide comprehensive narrative statements that outline the implementation and management plans that it intends to follow. This information should fully illustrate how the plan will serve to accomplish the work and furnish the deliverables described.

Implementation may be requested upon execution of a contract.

4.7 **EXPERIENCE & REFERENCES:** Proposers are to detail their organization's previous experience working with school and district leadership teams to analyze underserved students and to promote high levels of achievement for all learners. For all relevant team members, proposers are to submit education credentials, relevant work experience, demonstrated outcomes, independent research, and publishing in the subject areas addressed by this Request for Proposal. This information is to be submitted in Section V, Tab V of the Proposal.

Proposers must provide three (3) references relating to work of a similar scope completed within the last five (5) years. Include the name of the agency or institution, point of contact with both a telephone number and email address, and the nature and size of the Contract. **Do not list Knox County Government or Knox County Schools as a reference.** References shall be submitted on Attachment A of this Request for Proposal.

SECTION V PROPOSAL FORMAT

The following guidelines should be followed when responding to the Request for Proposal. Negligence in adhering to the criteria listed below will be considered when reviewing the responses and evaluating the proposers. Knox County reserves the right to reject any proposal for failure to comply with the requested response specifications. The County reserves the right to amend the Request for Proposal by addendum prior to the final date of proposal submission.
PROPOSERS MUST HAVE THEIR BINDERS IN THE EXACT FORMAT LISTED BELOW.

- Knox County requests proposals be in sufficient detail to address all requirements.
- The County requests responses be submitted in a three-ring binder containing sections separated by tabs. **Do not submit spiral bound or glued responses.**
- Please submit one (1) marked original and one (1) exact copy.
- Proposers shall also submit an exact copy of the original proposal on a Flash drive. **This shall be in one (1) complete pdf file. Do not include multiple folders on the Flash drive.**
- Page numbers should be placed on bottom center of pages.

TAB I **COVER LETTER**

Include cover letter authorizing the submission of the proposal signed by the principal of the company.

TAB II **COMPANY PROFILE**

- Company Name, Address Telephone/Fax numbers
- Contact name(s) and information
- Proposer's Vendor Number as assigned by Knox County
- Employer Identification Number (EIN)
- Knox County Business Tax License for Organization (if applicable)
- Knox County Business Tax License(s) for Subcontractor(s) (if applicable)
- Acknowledgement of the receipt of any Addendum issued

TAB III **METHODOLOGY (30 POINTS)**

Proposers must demonstrate an understanding of Knox County's needs and fully explain overall approach to meet the County's requirements. At a minimum, information provided must thoroughly address each of the requirements outlined in Section 4.4 and 4.5. Proposer is to describe, in detail, their proposed approach to providing services including excerpts and/or examples of course content and materials to be used, description(s) of recommended content proposed including objectives, research base, and training scripts.

Proposer is also to include samples of modules and/or curriculum used in past projects that are similar in scope to the proposed training.

TAB IV **DELIVERY OF SERVICES (30 POINTS)**

Proposers must provide and implementation plan and comprehensive narrative statements that outline the management plan it intends to follow. This information should fully illustrate how the plan will serve to accomplish the work and furnish the deliverables described in the scope of work within the County's project schedule. Proposers must thoroughly address each of the requirements outlined in the Delivery of Services portion of the Scope of Work. At a minimum, information provided must thoroughly address each of the requirements outlined in Section 4.6.

TAB V **EXPERIENCE AND REFERENCES (20 POINTS)**

Proposers must thoroughly detail its approach to the Experience and References portion of the Scope of Work. At a minimum, information provided must thoroughly address each of the requirements outlined in Section 4.7.

- References (Attachment A)
- Proposers must state the organization's number of years in business and provide a description of the organization to include office location(s).
- Proposers must describe the organization's experience with similar projects.
- Proposers must provide an organizational chart that illustrates the organization of the project team. The organizational chart must illustrate the lines of authority and designate the individual responsible and accountable for the completion of each component and deliverable of the Request for Proposal. Information about each person listed should include their a) title b) resume, including advanced education credentials, relevant work

experience, demonstrated outcomes, independent research, and publishing in the subject areas addressed by this Request for Proposal c) number of years with the organization and d) description of the type of work the individual will perform

TAB VI **PROPOSED COSTS (20 POINTS)**

Costs proposals must include all direct and indirect costs associated with the performance of the service. Proposed costs should be inclusive of all expenses. Proposer may include the methodology used to determine their proposed cost. Pricing must include all expenses, including transportation and ancillary out-of-pocket charges, if applicable. There will be no reimbursement for any such charges. Please state cost in a "per participant" format, noting any applicable volume discounts.

- Cost Sheet (Attachment E)

NOTE: This tab and Attachment E shall only be included in Section V behind Tab VI. This tab will be reviewed after the other sections of the vendor's proposal have been reviewed and scored.

TAB VII **OTHER INFORMATION**

Proposers may include any other information deemed pertinent to this solicitation.

TAB VIII **EXCEPTIONS**

Please note any and all exceptions taken to any part this Request for Proposal. If none are taken, please clearly state so. Do not mark through or otherwise alter the language of this Request for Proposal in your response.

TAB IX **ATTACHMENTS**

- Insurance Checklist (Attachment B)
- Criminal History Check Affidavit (Attachment C)
- Iran Divestment Act (Attachment D)

EXHIBIT A
GENERAL FEDERAL FUNDING REQUIREMENTS
KNOX COUNTY PROCUREMENT DIVISION
REQUEST FOR PROPOSAL NUMBER 3667

Equal Employment Opportunity

During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

(3) The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.

(4) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(5) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(6) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(7) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(8) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance:

Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

Clean Air Act and Federal Water Pollution Control Act
Contractors and subcontractors will comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251-1387). Violations will be reported to the U.S. Department of Education (DOE) and the Regional office of the Environmental Protection Agency (EPA).

Debarment and Suspension
A contract award will not be made to a party listed on the governmentwide exclusions in the System for Award Management (SAM).

Lobbying
The Contractor certifies, to the best of its knowledge and belief, that:

a. No federally appropriated funds have been paid or will be paid, by or on behalf of the Contractor, to any person for influencing or attempting to influence an officer or employee of an agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with the awarding of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

b. If any funds other than federally appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with any contract, grant, loan, or cooperative agreement, the Contractor shall complete and submit Standard Form-LLL, “Disclosure Form to Report Lobbying," in accordance with its instructions.

c. The Contractor shall require that the language of this certification be included in the award documents for all contractors and that all subcontractors shall certify and disclose accordingly.
This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into and is a prerequisite for making or entering into this transaction imposed by 31 U.S.C. § 1352.

Procurement of recovered materials.
Contractors must comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

Preferences for Products Produced or Manufactured in the U.S.
(a) This contract award prefers the purchase, acquisition, or use of goods, products, or materials produced in the United States (including but not limited to iron, aluminum, steel, cement, and other manufactured products).

(b) For purposes of this section:

(1) “Produced in the United States” means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.

(2) “Manufactured products” means items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer-based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber.

EXHIBIT B
Sample Contract
Knox County Government
and
(Contractor Name)

This Contract, made and entered into by and between the Knox County Government, hereinafter referred to as the "County" and (Contractor Name) hereinafter referred to as "Contractor".

Whereas, the County requested proposals for Evidence-Based Instruction Strategies Consulting for Knox County Government and Knox County Schools (Request for Proposal #3667) and;

Whereas, Contractor submitted a proposal in accordance with said requested specifications, the response of which is the most responsible and responsive proposal meeting specifications accepted by the County;

Whereas, Contractor agrees and undertakes to provide said services for the County, as set forth in the Request for Proposal, and at the price quoted for said services by Contractor. Further, in accordance with the lawful directions of the County, the Contractor agrees in all respects, to be governed by the Request for Proposal's specifications and the Contractor's proposal and response.

Now, therefore in consideration of mutual covenants and promises contained herein, the parties hereto wish to enter into this Contract to set forth their respective rights and obligations and do mutually agree that;
Arises

Witnesseth:

1. Terms of this Contract. This Contract commences on the 1st day of September 2025 and ends upon the 31st day of August 2026 unless terminated in conformity with the terms of this Contract as contained in paragraphs 4 and 5. The County intends to issue a one-year (1) award. Upon the mutual agreement of the vendor and the County, the award may be extended for four (4) additional years, one (1) year at a time. This may result in a total of five (5) years. The County reserves the right to purchase these goods/services from other sources if the need arises. The County reserves the right to revoke the award if a pattern of unavailability with the vendor.

2. Payment. Contractor warrants that the pricing shall remain firm for the initial three (3) year period. However, due to the funding source, the County is required to renew the Contract on a yearly basis as per Paragraph 1 above. At the end of the first three (3) year period, and pursuant to the renewal terms in Paragraph 1, the Contractor may request a price increase for each subsequent renewal. Price increases will only be given at the renewal time and must remain in effect for the next one (1) year term. No price increases will be given during the term of a Contract. The County shall pay Contractor the amount as agreed upon in the County's Request for Proposal for Evidence-Based Instruction Strategies Consulting per the Contractor's response to Request for Proposal #3667; pursuant to all payments being subject to the County's review and approval. The Contractor shall receive, upon the need of the County, written notification to proceed. The Contractor shall pursue all work diligently until completion as directed by the County.

3. Invoicing and reporting requirements. Contractor shall invoice the County for Evidence-Based Instruction Strategies Consulting and Services pursuant to Request for Proposal #3667.

TBA

4. Termination. The County may terminate this Contract with or without cause, upon written notice of not less than thirty (30) days. Upon termination, the County will pay for services satisfactorily completed but not yet invoiced. Contractor shall not perform additional work without the expressed permission of the County.

Should the Contractor fail to provide Evidence-Based Instruction Strategies Consulting and Services detailed herein, the County will communicate the problem(s) to the Contractor both verbally and in writing and keep a written record as to what the problem(s) are and when the Contractor was contacted. The Contractor shall rectify the problem within thirty (30) business days of notification of the problem. If the same or other problems persist or reoccur, the County may terminate the Contract.

In the event Contractor intends to interrupt or discontinue service under this Contract, Contractor agrees to give the County at least one hundred twenty (120) days' advance written notice of said interruption or discontinuance of service prior to interrupting or discontinuing same. Any interruption or discontinuance of service without said advance notice shall constitute a material breach of this Contract.

SAMPLE

5. Appropriations. In the event no funds are appropriated by the County for the Evidence-Based Instruction Strategies Consulting and Services in any fiscal year or insufficient funds exist to provide the services, then the Contract shall expire upon the expenditure of previously appropriated funds or the end of the current fiscal year, whichever occurs first, with no further obligations owed to or by either party.

6. Independent contractor. Contractor acknowledges that Contractor and employees serve as independent contractors and that the County shall not be in any manner responsible for any payment, insurance, or incurred liability.

7. Compliance with all federal, state, and municipal laws. Contractor is assumed to be familiar with and agrees to observe and comply with all federal, state, and local laws, statutes, ordinances, and regulations in any manner affecting the provision of the Evidence-Based Instruction Strategies Consulting and Services, and all instructions and prohibitive orders issued regarding this work and shall obtain all necessary permits.

8. Severability clause. If any provision of this Contract is declared illegal, void, or unenforceable the remaining provisions shall not be affected but shall remain in force and in effect.

9. Prohibition against assignment. Contractor shall not assign this Contract to any party, company, partnership, incorporation, or person without prior specific written consent of the County.

10. This Contract shall be exclusively construed, governed, and controlled by the Laws of the State of Tennessee without regard to principles of law, including conflicts of law, of any other jurisdiction, territory, country, and/or province. Any dispute arising out of or relating to this agreement shall exclusively be brought in the Chancery Court or the Circuit Court of Knox County, Tennessee. Each party consents to personal jurisdiction thereto and waives any defenses based on personal jurisdiction, venue and inconvenient form.

11. Right to inspect. The County reserves the right to make periodic inspections of the manner and means the services are performed.

12. Nondiscrimination and non-conflict statements. Contractor agrees that no person on the grounds of handicap, age, race, color, religion, sex, national origin or any individual trait or characteristic found to be an illegal consideration, shall be excluded from participation in, or be denied benefits of, or be otherwise subjected to discrimination in the performance of this Contract, or in the employment practices of Contractor. Contractor shall upon request show proof of such non-discrimination and shall post in conspicuous places available to all employees and applicants notices of non-discrimination.

13. Books and records. Contractor shall maintain all books, documents, accounting records and other evidence pertaining to the service under this Contract and make such materials available at their offices at all reasonable times during the contract period and for five (5) years from the date of the final payment under the Contract for inspection by the County or by any other governmental entity or agency participating in the funding of this Contract, or any authorized agents thereof; copies of said records to be furnished if requested. Such records shall not include those books, documents and accounting records that represent the Contractor's costs of manufacturing, acquiring or delivering the products and services governed by this Contract.

14. Contractor shall indemnify**,** defend, save and hold harmless, County, its officers, agents and employees from all suits, claims, actions or damages of any nature brought because of, arising out of, or due to breach of the Contract by Contractor, its subcontractors, agents or employees or due to any negligent act, occurrence, omission, commission of Contractor, its subcontractors, agents, or employees.

15. Delivery. Contractor shall render the Evidence-Based Instruction Strategies Consulting and Services for the County in accordance with Request for Proposal #3667.

16. Tax Compliance. Pursuant to Resolution R-07-1-903 passed by the Commission of Knox County, Tennessee, Contractor hereby acknowledges, by submission of its bid and signature that it is current in its respective Federal, State, County, and City taxes of whatever kind or nature and is not delinquent in any way. Delinquent status must be disclosed or risk debarment by the Knox County Procurement Division.

17. Limitations of liability. In no event shall the County be liable for any indirect, incidental, consequential, special or exemplary damages or lost profits, even if the County has been advised of the possibility of such damages

18. Contract documents. It is mutually agreed by both parties that the following documents are made part of this Contract and are incorporated herein by reference:

SAMPLE

A. Request for Proposal #3667
B. Contractor's Response to Request for Proposal #3667

It is agreed that this Contract, represents the **entire Contract** between the parties and no prior representations, promises, and agreements, oral or otherwise, not embodied herein, shall be of any force or effect.

In witness whereof, the parties hereto have caused this Contract to be executed in one original copy on the day and year last written below.

Addendum I to RFP No. 3667
Evidence-Based Instruction Strategies Consulting

Addendum Date: June 2, 2025

Buyer: Rachel Cabrera

Closing Date: June 13, 2025

The following is for clarification:

Question 1: Section 4.1. In reference to, "For purposes related to this Request for Proposal, the district is comprised of ninety-two (92) schools that represent urban, suburban, and rural populations." Should proposal responses encompass working with educators prek-12, or could proposal responses attend to working with a subset of grade-levels (i.e. Elementary only)? Will proposals be scored more favorably one way or another?

Answer 1: Proposals can attend to working with subsets of grade-levels. No, proposals will not be scored more favorably one way or the other.

Question 2: Section 5. Proposal Format: This section requests submissions in a three-ring binder and also requests two copies, 1 marked "original" and 1 exact copy. Should both "Original" and "Exact Copy" be in the same three-ring binder, or should each be submitted in their own binder?

Answer 2: They should be submitted in their own binder.

Question 3: Section 4.7 states "Proposers must provide three (3) references relating to work of a similar scope completed within the last five (5) years." However, Attachment A states "Proposers shall submit a list of three (3) projects of similar size which have been in service for at least five (5) years." Can you please clarify, do these references need to be related to work completed in the last five years, or work that is currently underway and has been in service for 5+ years? i.e. Could we submit a reference from the last five years of a similar project that had a 3-year duration?

Answer 3: The work could have been completed in the last five years or currently underway. Yes, your company could submit a reference from the last five years of a similar project that had a 3-year duration.

Question 4: Will all 92 schools necessarily receive consulting services, or is the number of schools to be determined?

Answer 4: Per Section 3.35 Knox County does not guarantee any quantity of services will be utilized under this solicitation. Services will be utilized on an as needed basis.

Question 5: Are you able to provide any more guidance on the participants? I see Section 4.3 notes that the number and type of participants may vary, but do you have an idea if it will mainly be district leaders, school leaders, or teachers? Are you able to provide any more guidance on the participants? I see Section 4.3 notes that the number and type of participants may vary, but do you have an idea if it will mainly be district leaders, school leaders, or teachers?

Answer 5: We have 92 schools in KCS. Participants will primarily include executive principals and school-level leadership teams but may include supporting educators. Participant numbers will vary based on the size of the school and the focus of the work.

Question 6: Does the district have instructional coaches, and if so, do you envision the consultants supporting them via a train-

the-trainer model?

Answer 6: KCS has an instructional coach in each elementary school. Some of our middle schools and high schools have instructional coaches. Train-the-trainer model is an option for support.

Question 7: Section 4.4 states, "The consultant will provide support in developing strategic action plans aligned with the current state of instruction that embrace evidenced-based instructional strategies within the high-quality instructional materials utilized by the district." Do you have any additional information about the kind of strategic action plans you are looking for here?

Answer 7: Strategic plans should align with the district plan and school plan, but deeply analyze how best to achieve positive outcomes for students based on an understanding of the current state of instruction utilizing district IPGs. The plan should embrace the use of the district-provided HQIM (ELA, MATH, SCIENCE). Strategies outlined in the plan must align not only with research but with evidenced-based practices.

Question 8: How will schools and participants be selected?

Answer 8: School leaders will have autonomy to elect services and design support.

Question 9: Is there a vendor currently providing this scope of work?

Answer 9: Yes, Knox County currently has Contracts with Catapult Learning, LLC, Corwin Press and National Institute for Excellence in Teaching for Evidence-Based Instruction Strategies Consulting.

Question 10: Is a hybrid approach that includes onsite and virtual training acceptable?

Answer 10: Yes

Question 11: Does the district currently leverage an LMS for professional development?

Answer 11: Yes, Canvas.

Question 12: What is the budget for this scope of work?

Answer 12: The budget varies based on school budget and district budget.

Question 13: Tab VI Proposed Costs requests a "per participant" price but Attachment E Cost Sheet specifies a number of participants per service. Please clarify what should be reflected in Attachment E.

Answer 13: Please complete the Attachment E Cost Sheet. Do not alter the cost sheet in any way. Failure to provide the completed cost sheet or deviations from the cost sheet may be just cause to deem your proposal non-responsive and not considered for award.

End of Addendum I

Note: Addendum must be acknowledged in Section V behind Tab II of the proposal.

RE: Proposal Number 3667 – Evidence-based Instruction Strategies Consulting

Dear Ms. Cabrera,

On behalf of Marzano Research, I am pleased to submit this proposal in response to the Knox County Request for Proposal (#3667) for the Evidence-based Instruction Strategies Consulting.

We have prepared this proposal in accordance with the instructions to proposers. Our proposal describes our professional development appproach to enhance the skills of educators in understanding and applying evidence-based instructional strategies as related to the classroom and school environment to reduce disparities and enhance student academic performance.

As a principal and authorized representative of BNP Education Partners LLC dba Marzano Research, I authorize the submission of this proposal.

We look forward to the opportunity to partner with Knox County Schools to develop a culture of learning within the school community to support academic competency and increase student proficiency and growth.

Sincerely,

jennifer s norford

Tab III. Methodology

Knox County Schools is committed to building instructional coherence, developing great educators, ensuring success for every student, and preparing learners for future pathways. To support these goals, Marzano Research proposes a powerful yet practical approach to professional learning and consulting grounded in inquiry-driven improvement.

Our **Teacher as Researcher** professional learning model empowers educators to test, analyze, and refine evidence-based instructional strategies directly within their classrooms.

Teacher as Researcher: Curriculum-Embedded Professional Learning

Knox County Schools (KCS) is seeking a professional learning model that strengthens instructional coherence, builds educator capacity, and supports strategic use of evidence-based strategies within high-quality instructional materials. The Teacher as Researcher model delivers on these needs through clear, replicable cycles of inquiry and reflection embedded directly into classroom practice. This model gives KCS educators more than professional development—it gives them a system for continuous evidence-based instructional improvement.

Teacher as Researcher positions teachers as disciplined inquirers. Through structured **Instructional Improvement Cycles**, teachers implement high-impact strategies aligned to the district's high-quality instructional materials (HQIM), gather real-time student learning data, and evaluate results using accessible quasi-experimental methods. The result is a powerful shift: teachers not only use evidence-based strategies—they generate local evidence of what works best for their students.

The Teacher as Researcher model supports the development of a sustained culture of learning across classrooms, schools, and the district. Teachers are equipped with tools, time, and support to engage in ongoing inquiry, reflection, and collaboration. Leaders gain actionable insights through shared observation protocols and instructional strategy-level effect-size data, enabling them to align feedback, target instructional support, and develop strategic action plans that are responsive to the current state of teaching and learning. Over time, this model builds the habits, language, and structures that anchor professional growth in everyday practice, not isolated events.

The Teacher as Researcher model is grounded in:

- Proven adult learning principles that emphasize relevance, collaboration, and reflection
- A curated strategy bank aligned to ESSA evidence tiers and district HQIM
- Immediate classroom application supported by personalized coaching and user-friendly tools
- Robust, locally-generated data (Instructional Improvement Cycle effect sizes, observations, survey data) to promote insights

In recent implementations, including across South Carolina, Alaska, and Texas, participation in Teacher as Researcher has led to:

- A statistically significant increase in teacher efficacy
- Gains in teachers' capacity to use data and evidence-based strategies
- Strong endorsements from participants who cited deeper collaboration, instructional clarity, and renewed confidence in their practice

This proposal outlines a scalable delivery plan tailored for Knox County Schools, designed to generate early wins while building internal capacity for long-term sustainability. By embedding professional learning into the daily work of teaching, Teacher as Researcher cultivates a culture of curiosity, evidence-based decision-making, and continuous instructional improvement — making student success not just a goal, but a shared, achievable reality.

We look forward to the opportunity to partner with Knox County Schools to elevate educator practice and student outcomes through this innovative, evidence-driven approach.

The Instructional Improvement Cycle

The Teacher as Researcher model is anchored in a four-phase instructional improvement cycle that helps teachers test, analyze, and refine instructional strategies in their own classrooms. Embedded in daily instruction, not layered on top, this cycle supports deep teacher reflection, real-time data-informed decisions, and the generation of school-based evidence that informs both classroom practice and school- and districtwide instructional coherence.

This section includes a description of each phase with course materials in bold. We have provided samples of these materials in the Sample Materials section in this Tab.

Figure 1. Instructional Improvement Cycle

Phase 1. Select an Instructional Strategy
Educators begin by identifying a specific instructional strategy they want to test—one that's both evidence-based and relevant to their students, content, and upcoming lessons. This isn't a random choice; it's a thoughtful process supported by tools that help teachers connect strategies to real classroom needs.

Using the **Instructional Strategy Selection Worksheet**, educators are guided to ensure that the evidence-based strategy they choose:

- Has clear steps and a defined beginning and end
- Is designed to improve how students think, learn, or engage
- Aligns with their content, the district's HQIM and student learning goals

Marzano Research coaches guide educators to define a desired outcome that describes what they hope students will be able to do better as a result of using the strategy. This outcome becomes the anchor for their entire instructional improvement cycle.

By the end of this phase, educators have not only chosen a strategy, they have set focused, instructional goals for their classroom. This clarity ensures that the learning is purposeful and measurable from the very start.

Phase 2. Implement the Strategy
During this phase, our coaches guide educators to thoughtfully embed their selected strategy into their upcoming lessons or unit. This phase isn't about creating new curriculum—it's about weaving a high-impact strategy into instruction that teachers are already planning.

With support from the **Implementation Planning Worksheet** and coaching, teachers make clear decisions about:

- Where the strategy fits within their existing unit
- How often and for how long it will be used
- What instructional routines or lesson components the strategy will enhance (e.g., during modeling, small group work, guided practice)

This intentional planning helps ensure that the strategy is used in a meaningful and consistent way—matched to the content, pacing, and student needs—and creates a clear record of how the strategy was implemented. The documentation also makes it easier to replicate the strategy in future lessons or scale across classrooms and teams.

Phase 3. Collect Data on Strategy Implementation
As teachers implement the instructional strategy, they collect simple but meaningful student outcome data to understand the impact of the strategy on student learning. This typically includes classroom assessments, student work, or other performance tasks already built into the unit.

To determine whether the strategy made a difference, teachers use a quasi-experimental design to compare student learning with and without the strategy. They do this using one of two straightforward approaches:

- Same class, different time: The teacher first teaches part of the unit without the strategy, then introduces the strategy in the second part. By using the same assessment throughout, they can see how learning changes within the same group of students when the strategy is used.
- Two similar classes: The teacher uses the strategy in one class and sticks with their usual instruction in another. Since both groups study the same content, teachers can compare how students perform when the strategy is used versus when it is not - giving them insight into the added value the strategy may bring to student learning.

Teachers enter their data into a web based user-friendly **Analysis Tool**, which instantly calculates key metrics like effect size and baseline equivalence. These measures help quantify the strategy's impact while remaining easy to interpret. Teachers also document what they observe using the **Implementation Note Catcher**, providing valuable context around how students responded and how instruction may have evolved.

This approach allows teachers to gather classroom-based evidence without disrupting instruction or requiring additional testing. It equips them, and their school teams, with clearer insight into what's working, for which students, and under what conditions.

Phase 4. Analyze and Reflect on the Results

After collecting student learning data, teachers use the **Analysis Tool,** introduced in phase 3, to examine how the strategy affected student performance. The tool automatically calculates effect sizes and confidence intervals, giving teachers a clear, easy-to-interpret view of how much the strategy influenced learning—and how confident they can be in those results. After analyzing the data, teachers take time to reflect on what they've learned—not only about the strategy, but about their students and their own instruction. This reflection happens through a combination of individual planning, peer discussion, and coaching conversations.

Teachers consider:

- What learning gains did I observe, and for which students?
- What patterns or surprises emerged in the data?
- How did implementation go, and what would I adjust next time?

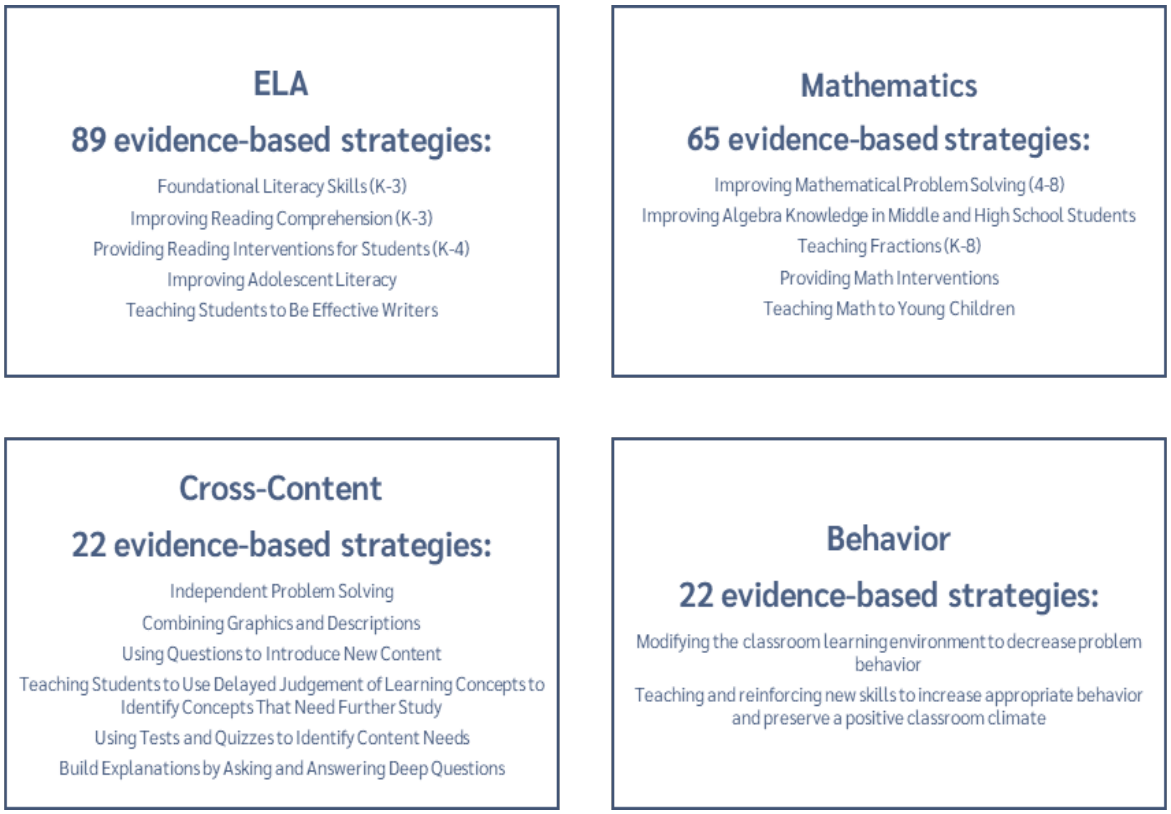
With support from a dedicated coach, educators use the **Reflection Worksheet** and their implementation notes to document outcomes, consider contributing factors, and identify instructional insights. This helps them decide whether to continue refining the same strategy, adapt it for another unit, or explore a new approach in their next cycle.

Because teachers complete multiple short cycles over the year, this ongoing reflection becomes part of their professional routine. With each cycle, they build greater instructional discernment—a deeper understanding of how specific strategies work in their unique context—and generate stronger classroom-level evidence of impact.

Reflection also supports broader school and district learning. As part of the cycle, teachers share their findings with colleagues and leaders. Their results contribute to strategic action planning at the school level, helping inform instructional coaching, collaborative planning, and future professional learning.

In this way, reflection isn't an endpoint, it's a launchpad for sustained instructional improvement and collective learning across the system.

Online Strategy Bank



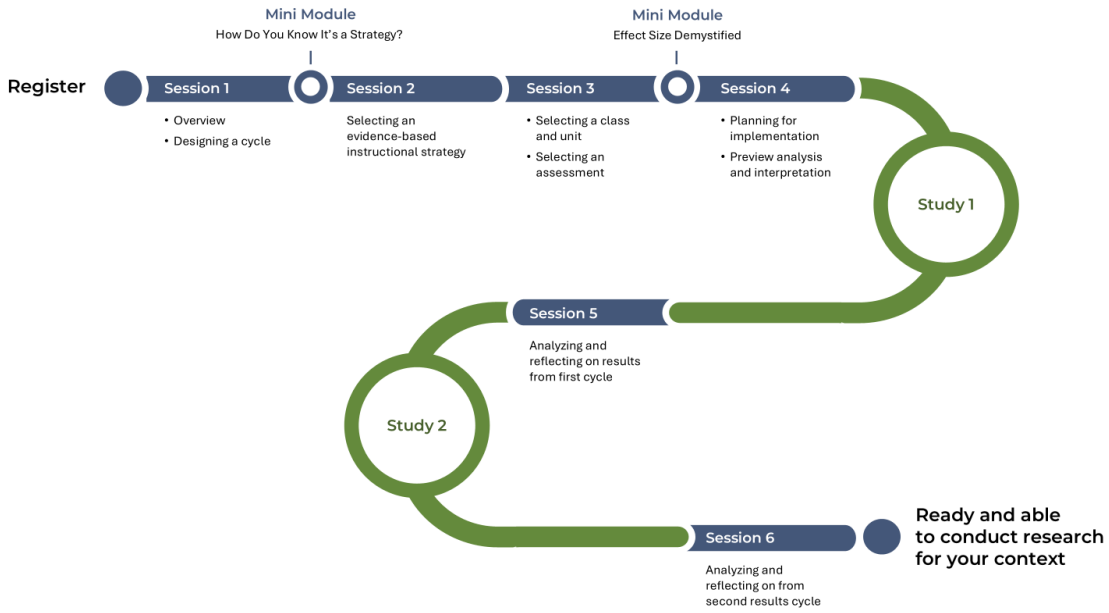
A core feature of the Teacher as Researcher model is a digitally accessible **Instructional Strategy Bank,** aligned to the district's HQIM (see the Sample Materials section in this Tab for an example of strategies aligned to early literacy standards in South Carolina). This

digital resource supports teachers in selecting and implementing high-impact strategies tailored to the content they already teach and the students they serve.

The Instructional Strategy Bank includes strategies that we have vetted for rigor and relevance, from sources including the What Works Clearinghouse Practice Guides. We have carefully curated and created succinct summaries of the evidence-based strategies to make it easy for teachers to use and integrate into their classrooms (Figure 2). Each strategy summary includes:

- A description of the strategy including clear student-facing steps or heuristics
- Facilitation tips that offer guidance for classroom implementation
- The ESSA Tier of Evidence classification
- The grade level context in which the strategy was tested

Figure 2. Summary of Strategy Bank Content



Teacher as Researcher Workshop Sessions

The Teacher as Researcher professional learning series is a structured sequence of six synchronous workshops, two asynchronous micro-modules, and individualized coaching designed to guide educators through multiple Instructional Improvement Cycles. Each component builds on the last, supporting teachers as they identify an instructional challenge, select and implement an evidence-based strategy aligned with district HQIM, collect and analyze student learning data, and reflect on the results to inform future instruction.

Throughout the series, teachers apply their learning in real time with support from dedicated coaches, ensuring a strong connection between professional learning and day-to-day instruction (Figure 3). Early sessions focus on foundational concepts—introducing the Teacher as Researcher model, helping teachers define an actionable instructional need, and guiding strategy selection. Midpoint sessions focus on planning and executing the instructional improvement cycle, supported by embedded coaching and tools. Later sessions help teachers analyze the impact of their work, share results, and begin planning for the next cycle. Two brief asynchronous micro-modules—*How Do You Know It's a Strategy?* and *Effect Sizes Demystified*—provide on-demand support to deepen understanding of key concepts introduced in the live sessions.

Figure 3. Teacher As Researcher Journey Map

During and in-between sessions, teachers receive **individualized coaching** that helps them design and implement their cycles, troubleshoot challenges, analyze data, and reflect deeply on their results. This targeted support ensures that each teacher's experience is personalized and that new learning consistently translates into improved classroom practice.

Alignment to Knox County Priorities

Knox County Schools has defined four clear strategic priorities to guide instructional improvement: excellence in foundational skills, great educators in every school, success for every student, and career empowerment and preparation. The Teacher as Researcher model aligns directly with each of these priorities—not as an add-on, but as a practical, embedded system for improving instruction and building educator capacity from the inside out.

By placing evidence-based instructional decision-making directly in the hands of teachers, the model addresses each priority in concrete, measurable ways. To strengthen **Excellence in Foundational Skills**, the Instructional Strategy Bank spotlights the highest-leverage foundational literacy routines and core mathematics practices. Teachers test these strategies in their own classrooms, producing local evidence that pinpoints the moves most likely to boost achievement. Advancing **Great Educators in Every School**, the Instructional Improvement Cycle equips teachers to conduct disciplined inquiry, receive job-embedded coaching, and ultimately mentor subsequent cohorts—creating a self-sustaining pipeline of instructional leadership that persists long after the initial engagement. The model strengthens **Success for Every Student** with tools that generate real-time effect-size data to illuminate subgroup gains (or gaps) as they emerge, allowing educators to adapt instruction swiftly. Finally, the work supports **Career Empowerment and Preparation** by weaving literacy, disciplinary content, and employability skills into secondary-level inquiry cycles.

Table 1. Alignment of KCS Priorities and Teacher as Researcher

KCS Priority	How Teacher as Researcher Meets the Need
Excellence in Foundational Skills	Bank of evidence-based instructional strategies aligned to KCS HQIM to help teachers identify strategies likely to be successful in their classrooms Strategy bank prioritizes early literacy and numeracy routines, aligned to HQIM
Great Educators in Every School	Instructional Improvement Cycle routines support teacher reflection, peer coaching, leadership walk-throughs, and PLC integration
Success for Every Student	Use of student-work artifacts and effect-size metrics allow for course correction in real-time instead of waiting for unit or interim assessments Effect-size tools highlight progress and guide real-time adaptation
Career Empowerment and Preparation	Students experience inquiry-oriented instruction and teachers model evidence-based decision making by testing and sharing how instructional strategies work best in their local context.

Research Base and Instructional Rationale

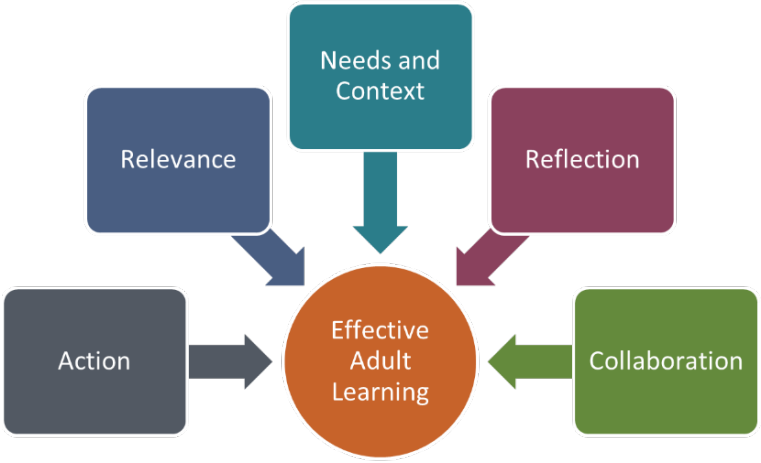
The Teacher as Researcher model is grounded in a robust body of research on how educators learn and improve their practice. It translates key findings from improvement science, professional learning research, and adult learning theory into a simple, usable system for school-based instructional improvement. Teachers engage in cycles of inquiry that are rigorous yet practical—focused on classroom-embedded application, real-time evidence, and reflective decision-making. Across multiple implementations in South Carolina, Alaska, and Texas, the model has produced statistically significant outcomes, including a large increase in teacher efficacy (*effect size g = 0.88*) and a substantial gain in teachers' capacity to use data and evidence-based strategies (*effect size d = 0.71*). These

results show that the model not only reflects research-informed best practices—it delivers measurable impact on teacher growth and instructional quality.

The model is anchored in two interconnected research foundations: teacher-led evidence-based inquiry and adult learning principles.

At the heart of Teacher as Researcher is the idea that teachers are best positioned to evaluate and improve instruction when they are supported by practical tools, trusted research, and structured opportunities to reflect. The Teacher as Researcher model uses tried-and-true teacher led experimental research that rapidly provide accurate information about instruction (Marzano et al., 2020; Cherasaro et al., 2015). The model draws from improvement science (Bryk et al., 2015), but tailors it to the real constraints and opportunities of day-to-day teaching. We provide a bank of strategies with evidence of effectiveness from What Works Clearinghouse and other peer reviewed sources.

By integrating instructional strategy implementation with a rigorous quasi-experimental research design, the Teacher as Researcher model helps solve what we call the “last mile” problem in professional development and adoption of HQIM: the persistent gap between PD participation and classroom practice.



The Teacher as Researcher model is focused on capacity building—moving recipients from learning to knowing to doing, and it is based on theory and research on best practices for supporting adult learning (Figure 4). Learning and building knowledge is action focused and experiential. Effective learning experiences provide opportunities for learners to try new ideas or new skills, while also reflecting on what they do and what they learn (Brookfield, 1991; Browder et al., 2012; Kolb, 2014; Darling-Hammond et al., 2017).

Teacher as Researcher is designed to be relevant and practical**,** providing opportunities for teachers to try out evidence-based strategies aligned to the current state of instruction and the HQIM they are already using, ensuring that learning is grounded in their experiences and their responsibilities (Arghode et al., 2017; Merriam et al., 2007). We systematically assess needs and context, providing coaching throughout the process and using regular reflections and exit surveys, as well as climate surveys to help ensure that our services are useful and relevant (Knowles et al., 2020; Taylor, 2009; Taylor & Laros, 2014). In collaboration with school and district leaders and teachers, we use this information to tailor the goals, content, and format to fit teachers’ needs.

Reflection helps adult learners connect new information and practices to previous knowledge and experiences (Kolb, 2014; Schön, 1983, 1987). We provide opportunities for teachers to collaboratively reflect on their goals, what they are learning, and the specific actions needed to implement new knowledge and behaviors.

Collaborative learning experiences value and capitalize on the unique knowledge and experiences adult learners can contribute (Darling-Hammond et al., 2017; Sannino et al., 2016; Taylor & Laros, 2014). We intentionally incorporate opportunities for teachers to work together and lead peer learning.

Figure 4. Adult Learning Best Practices

Marzano Research's Teacher as Researcher program offers Knox County Schools a powerful, flexible system for building professional capital and instructional coherence. It supports teachers as the primary agents of improvement, empowers leaders to capture the true state of instruction, and generates local evidence for smarter decision-making. Most importantly, it builds a culture of curiosity, collaboration, and action that reflects the very best of what teaching can be.

Action Plans Aligned with the Current State of Instruction

To help principals and school leadership teams gain a clear sense of the state of instruction in the building and develop strategic action plans, Marzano Research will compile findings and lessons learned from the cohort's instructional improvement cycles in annual **Strategies in Action Reports**. The reports will help the Knox County school leadership community identify what works in their schools and classrooms.

Sample Materials

Marzano Research has included materials that provide samples of the tools, scripts, and training materials from the Teacher as Researcher model. This section includes the following samples:

- Excerpts from the Teacher as Researcher Toolkit
- Selections from an ELA Teacher as Researcher Strategy Summary Document
- Selected Slides from a Module 1 Teacher as Researcher Workshop in South Carolina
- Sample Coach/Facilitator Guide for Teacher as Researcher Professional Development Series
- Excerpts from an Evaluation Brief

When working with Knox County Schools, Marzano Research will tailor these materials to the KCS context in the first weeks of engagement.

Excerpts from the Teacher as Researcher Toolkit

This is a selection of pages from our Teacher as Researcher Toolkit as used to support a national cohort of teachers. It does not represent the toolkit in its entirety. A similar toolkit would be developed to support KCS teachers. We will also develop a KCS-specific online Analysis and Planning Tool that includes effect size calculation and planning support.

Instructional Strategy Selection Guidance

The figure below describes three potential pathways to identify and select an appropriate strategy. You can choose a current challenge in your classroom (Route 1), identify a strategy that aligns with an upcoming lesson (Route 2), or select a strategy you want to try and align it to challenges and upcoming lessons (Route 3). After selecting a strategy, clearly describe the desired outcome of the strategy.

Proposed strategy

Desired outcome

What Do Your Results Mean?

Intervention		Baseline		Suggests that students...
Positive Intervention effect size	>	Baseline effect size	=	Performed better when the strategy was implemented*

If the intervention effect size is positive and larger than the baseline effect size, this suggests that students performed better when the strategy was implemented.

** If the analysis tool indicated that there is not confidence in the effect size, then you may not see the same results in another sample.*

Intervention		Positive baseline effect size		Did not perform better when the strategy was implemented*
Intervention effect size	<	Positive baseline effect size	=	Did not perform better when the strategy was implemented*

If the intervention effect size is smaller than the baseline effect size and the baseline effect size was positive, this suggests that students did not perform better when the strategy was implemented.

**If the analysis tool indicated that there is not confidence in the effect size, then you may not see the same results in another sample.*

Reflection Worksheet

Regardless of whether the effect size was positive or negative, teachers should also reflect on other information when interpreting the findings.

Reflection Responses

If you had **POSITIVE** results . . .

Why do you think the strategy worked well?

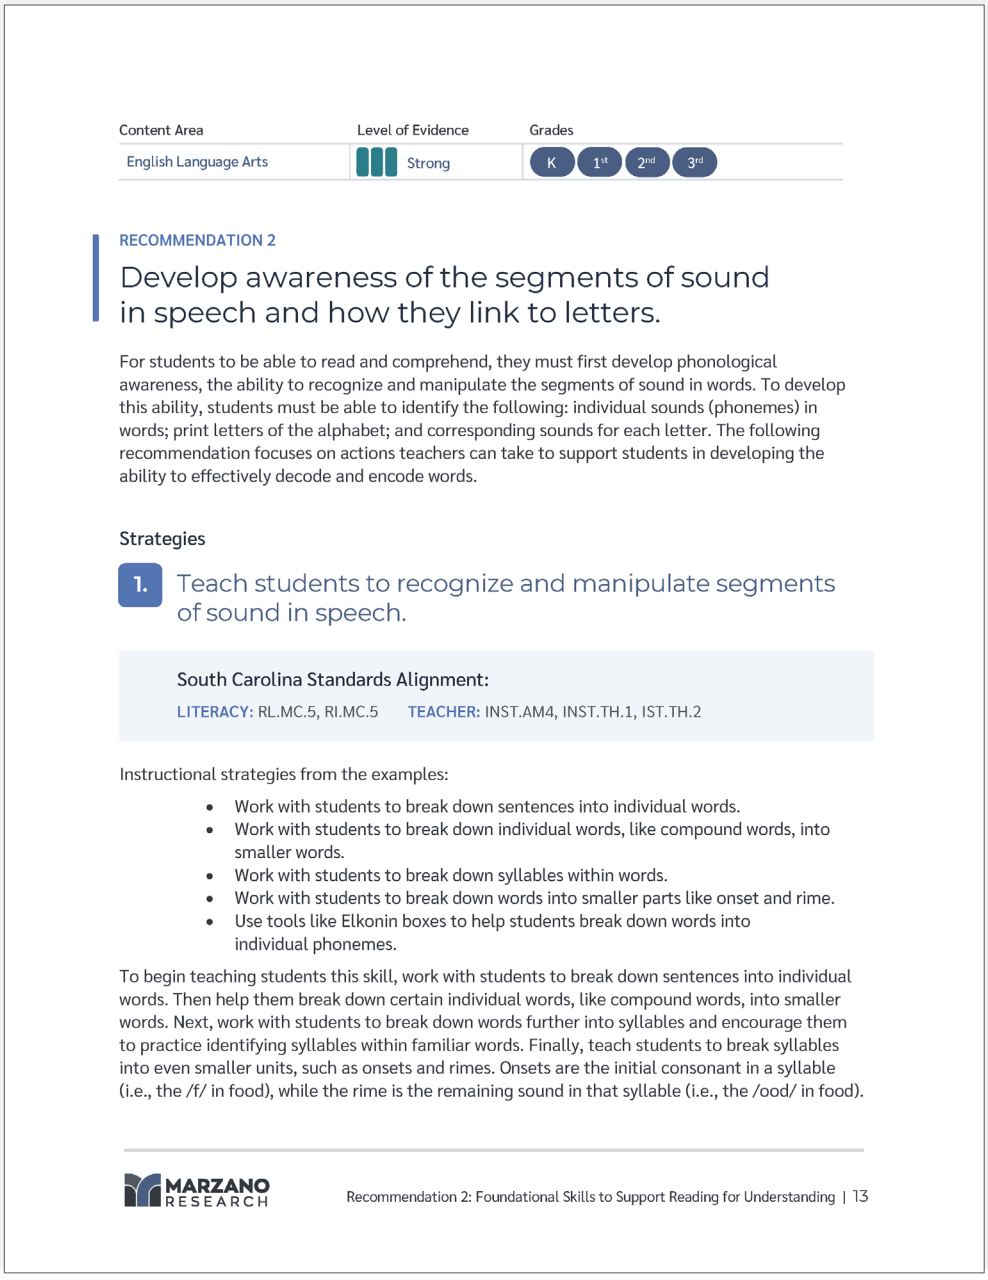
What else was happening, other than the strategy, that may have caused the result? (For example, were you using another strategy that may have also helped?)

If you had **NEGATIVE** results . . .

Why do you think the strategy did not work well?

What else was happening, other than the strategy, that may have caused the result?
(For example, were several students absent during the week that you implemented the strategy?)

Consider how the strategy was implemented



Do you feel like you had a good understanding of how to implement the strategy?

Do you feel like you implemented the strategy the way you planned?

Do you feel like the strategy you chose was appropriate for the class and/or lesson?

Selections from an ELA Teacher as Researcher Strategy Document

This is a sample of evidence-based strategy summaries aligned to South Carolina Learning Standards and Teacher professional standards. It was one of the curated strategies used in South Carolina to support implementation of the LETRS curriculum and breaks down research into concrete instructional steps a teacher can take in the classroom to support learning of upper elementary and middle school students. We curate and align strategies for each district's standards and curriculum. Teachers will have access to KCS aligned strategies within an online explorer tool that allows teachers to browse from a library of evidence-based instructional strategies to test in an instructional improvement cycle.

Content Area	Level of Evidence	Grades
English Language Arts	Strong	K 1st 2nd 3rd

RECOMMENDATION 2

Develop awareness of the segments of sound in speech and how they link to letters.

For students to be able to read and comprehend, they must first develop phonological awareness, the ability to recognize and manipulate the segments of sound in words. To develop this ability, students must be able to identify the following: individual sounds (phonemes) in words; print letters of the alphabet; and corresponding sounds for each letter. The following recommendation focuses on actions teachers can take to support students in developing the ability to effectively decode and encode words.

Strategies

1. Teach students to recognize and manipulate segments of sound in speech.

South Carolina Standards Alignment:

LITERACY: RL.MC.5, RI.MC.5 **TEACHER:** INST.AM4, INST.TH.1, IST.TH.2

Instructional strategies from the examples:

- Work with students to break down sentences into individual words.
- Work with students to break down individual words, like compound words, into smaller words.
- Work with students to break down syllables within words.
- Work with students to break down words into smaller parts like onset and rime.
- Use tools like Elkonin boxes to help students break down words into individual phonemes.

To begin teaching students this skill, work with students to break down sentences into individual words. Then help them break down certain individual words, like compound words, into smaller words. Next, work with students to break down words further into syllables and encourage them to practice identifying syllables within familiar words. Finally, teach students to break syllables into even smaller units, such as onsets and rimes. Onsets are the initial consonant in a syllable (i.e., the /f/ in food), while the rime is the remaining sound in that syllable (i.e., the /ood/ in food).

MARZANO RESEARCH Recommendation 2: Foundational Skills to Support Reading for Understanding | 13

When teaching text structures, teachers should introduce students not only to the structural elements in narrative text but also to those of informational, or expository, text. Informational text structures typically apply to paragraphs or passages, and when considering the entire text, students may encounter multiple structures, as well as multiple repetitions of the same structure.

Teachers should use ideas and topics familiar to the students when teaching about the structure of an informational text and should initially use texts that provide clear, easy-to-recognize examples of a given structure. During a reading of the text, the teacher should ask students to identify clue words in a passage that signal the use of a certain structure. An approach advocated by many researchers is to instruct students to organize information from expository text using graphic tools (e.g., concept maps, Venn diagrams, fishbone charts, and sequence diagrams or flow charts).

Once students can comfortably identify the structure of a passage and recall its content, the teacher can replace more direct, guiding questions ("What was the cause? What was the effect?") with complex questions that do not include clue words, such as "How did the author organize the information in this text?"

Structures of Informational Text

Structure	Description	Common Clue Words
Description	What something looks, feels, smells, sounds, tastes like, or is composed of	n/a
Sequence	When or in what order things happen	first, then, next, after, later, finally
Problem and Solution	What went wrong and how it was or could be fixed	because, in order to, so that, trouble, if, problem
Cause and Effect	How one event leads to another	because, therefore, cause, effect, so
Compare and Contrast	How things are alike and different	both, alike, unalike, but, however, than

Note. Adapted from page 20 of Improving Reading Comprehension in Kindergarten through 3rd Grade (Shanahan et al., 2010).

Narrative texts portray a story, or sequence of related fictional or nonfictional events involving individuals or fictional characters; in the elementary grades, narrative texts can include historical fiction, fables, and autobiographies.

Informational texts include expository writing, pieces that argue in favor of one position or another, and procedural texts and documents. In the elementary grades, informational texts can include news articles, speeches, and timelines.

Teacher Modeling How to Answer a "Think and Search" Question

The teacher and students continue reading about President Johnson's War on Poverty. The teacher stops after the second paragraph to model how to answer a Think and Search question.

President Johnson worked with Congress to pass laws to create programs to help people who were poor. Many of these programs are still here today. A major program was Head Start. Head Start was a preschool program for students who were poor to prepare them for school. The Head Start grant office also paid people to make educational television shows such as Sesame Street, The Electric Company, and Reading Rainbow. Anyone with a television could watch these shows. The food stamps program helped those who made little money to buy food. It is still here, but now called SNAP. Other programs were also started and provided jobs and job training. The Job Corps program prepared people to be auto mechanics, cooks, nurses, and emergency medical technicians.

Teacher writes on board: *What are three programs that were made available to reduce poverty?*

Teacher: Sometimes when a question asks about naming multiple things, you might have to look in different places in the text for the answer. In other words, you are not likely going to find the answer in one sentence, like a Right There question. This is a Think and Search question. To answer a Think and Search question, you have to put together information from different parts of the text. In the first sentence, the author states that President Johnson worked with Congress to pass laws that would make many programs to help people who were poor. The third sentence says that one program was the Head Start program. The question says to name three programs, but I have not come across another one yet. So, I will keep searching for more. As I read further, I see that television shows such as Sesame Street and The Electric Company were made, but not to reduce poverty. So, I am going to skim past these to find another program. As I read, I see other programs like food stamps and Job Corps programs. So, I found one program, Head Start, in the third sentence. Then I had to skim through further in the passage to find the other programs such as the food stamps and Job Corps programs.

Teacher Modeling How to Answer an "Author and Me" Question

Teacher writes on the board: *How did the Job Corps help people who were in poverty?*

Teacher: This is an Author and Me question. The answer to the question is not in the text we just read. I will have to think about the information the author gives and what I already know to answer the question. The author's information provides clues to help me answer the question. This question says: *How did the Job Corps help people who were experiencing poverty?* Hmm…I am not sure if the answer to this question is in the text or if I need to determine the answer in another way based on information I already know. Well, I don't remember the text saying how the Job Corps helps people. I am going to skim the text again and make sure. The author said that the Job Corps prepared people to be auto mechanics and nurses. But how does that actually help people? This might help them get a job, which can probably help people who are experiencing poverty.

The teacher reads a sentence that gives these clues.

Teacher: I am going to think about what we read about poverty last week and what I already know. We learned that people who are in poverty have very little money. I also know that my friend's family owns an auto repair shop and that my dad is a nurse, and both earn pretty good money. So, the information or clues the author gave me said that the Job Corps program prepared people to do auto repair and nursing.

Note that this is a sample of materials, and not a complete set of training materials.

Action Research

Why?

- Supports reflective practice
- Identifies what works in specific contexts
- Elevates the role of the classroom teacher

What?

- Conducted within the context of the teacher's environment
- Disciplined inquiry to inform and improve practice
- Iterative inquiry cycles

MARZANO RESEARCH

Instructional Improvement Cycle

2. Implement the strategy

- Select a unit/lesson to implement the strategy
- Choose single- or multiple-group design
- Select a class or classes to implement
- Determine how to implement

MARZANO RESEARCH

Scenarios

- Take **5 minutes** to read and annotate one of the **Scenarios**, which describes the experience of a hypothetical group of teachers.
- Review the data and findings from **ONE Scenario** in the *Analysis Tool* and prepare to discuss the results.

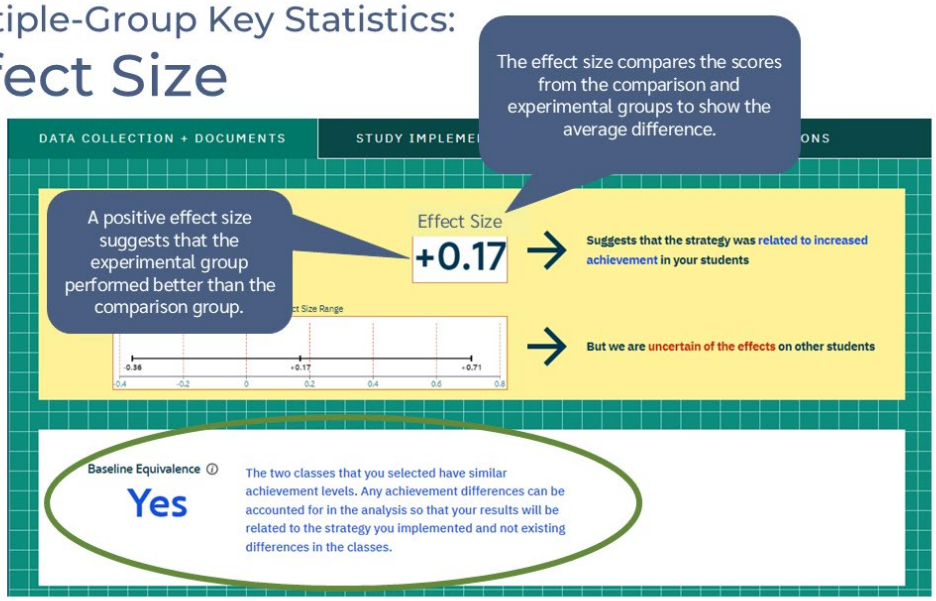
MATERIALS
Scenarios Handout

MARZANO RESEARCH

Scenario Activity

- What did you notice about the **Scenario** you reviewed?
- How did the four steps of the Instructional Improvement Cycle play out?
- Was the instructional strategy effective? How do you know?

MARZANO RESEARCH



Single-Group Design

- **The study takes place with one class.**
- Teach business as usual during the first half of the cycle.
- Teach using the strategy during the second half of the cycle.
- Administer the same assessment three times (pre, mid, and post).
  - The assessment can be teacher-developed or adopted from a textbook or curriculum, but it must be able to be administered three times.
- Compare changes in scores from pre- to mid-assessment (learning without the strategy) to changes from mid- to post-assessment (learning with the strategy).

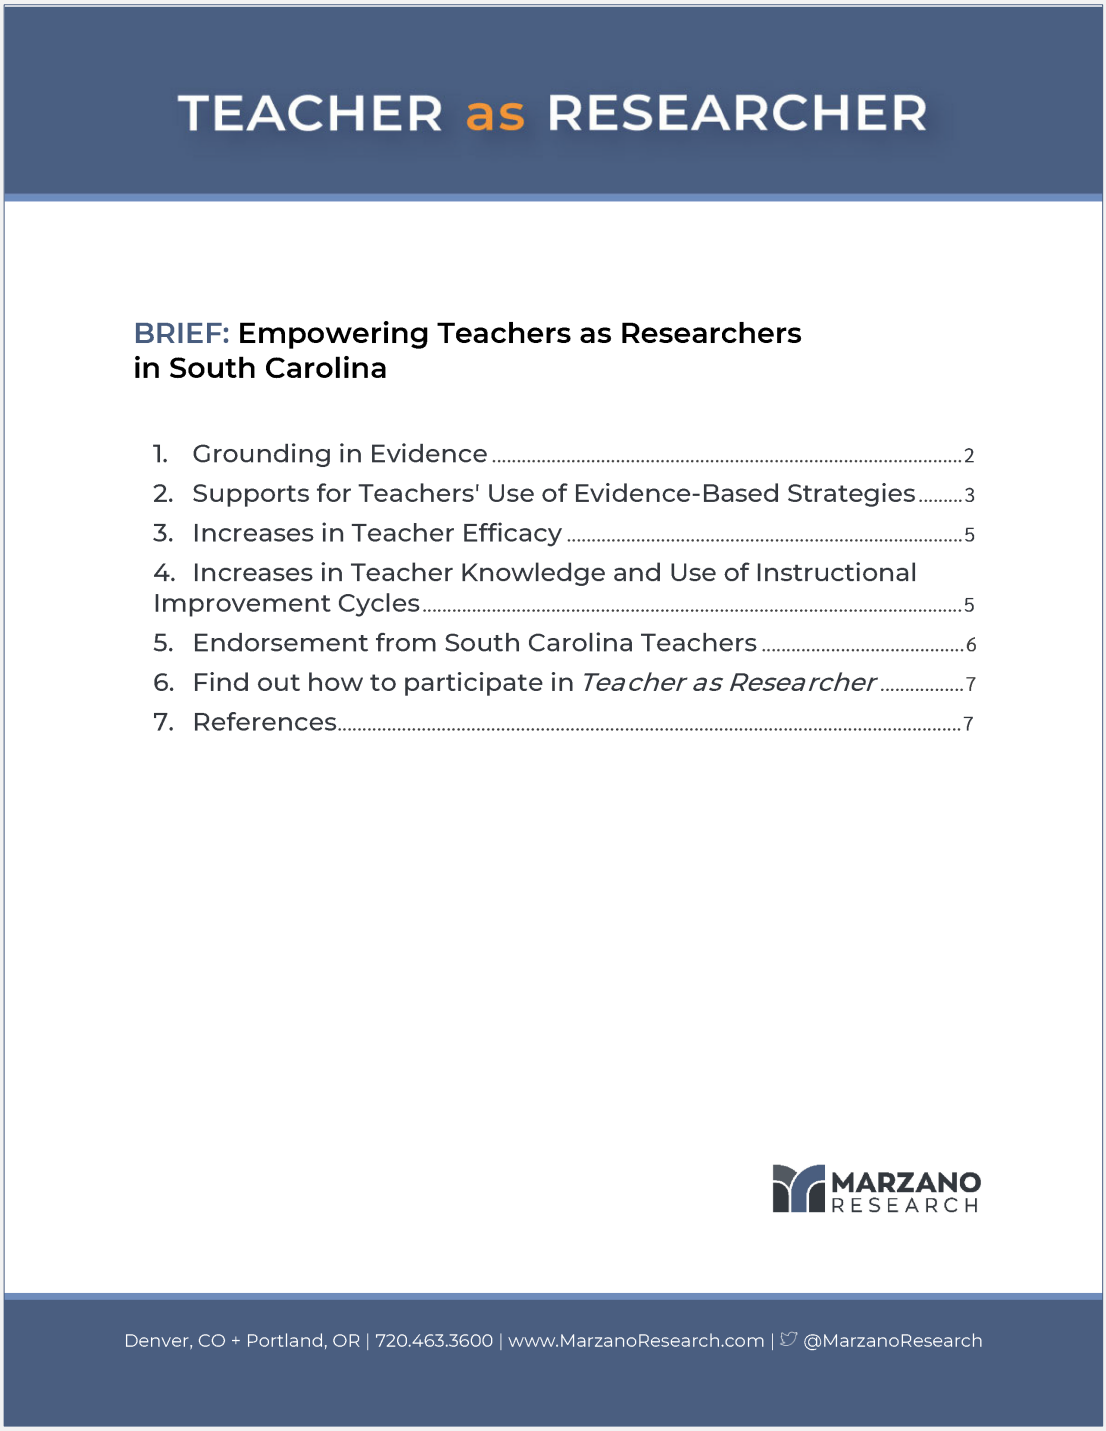
Sample Coach/ Facilitator Guide for Teacher as Researcher Professional Learning Series

Session 1 – Overview of the Teacher as Researcher Model: Marzano Research Coaches' Agenda

Objectives

- Develop an understanding of action research and the Teacher as Researcher model
- Develop an understanding of the structure and content of the Teacher as Researcher professional learning series
- Develop an understanding of some of the concepts of the Teacher as Researcher model



Topic (Slides)	Time	Resources	Description and Facilitation Notes
Introductions (Slides 1–4)	H:00-H:10	Attendance Sheet	As teachers sign on ask them to set up a folder on their desktop where they will save their Teacher as Researcher information. C1 welcomes participants to the PD series and facilitates introductions, including introducing participants to Marzano Research.
PD Series Overview (Slides 5–12)	H:10-H:20	Interactive Agenda	C1 provides an overview of the professional development series, including the following: *SC Teacher as Researcher context:* Overview of the SC TaR initiative. (slide 5) *Learning and practice outcomes:* Key knowledge, skills, and competencies that participants will develop throughout the sequence. (slides 6 & 7) *Learning sequence:* The sequence of scaffolded learning experiences that participants will engage in throughout the PD series. (slide 8) *Approach:* PD series approach to using PD time to develop and workshop key TaR activities (learning, doing, and learning by doing). (slide 8) *Expectations:* Key expectations of the TaR PD series, including expectations for work in between sessions and for implementing a TaR cycle before the end of the series. (slide 9) *Feedback:* expectation for providing feedback. (slide 10) *Norms:* Participation agreements. (slide 11)
Teacher as Researcher approach to action research	H:20-H:1:05	Pre-Survey Scenario Handouts	*Individual Activity (15 min)* C1 asks participants to spend fifteen minutes completing the pre-survey and responding to the following prompt (slide 14): *Why are you interested in action research and*

Topic (Slides)	Time	Resources	Description and Facilitation Notes
(Slides 13-24)		Analysis Tool	*what do you hope to gain from the experience?* C1 describes the survey will help us to understand if we are meeting the desired learning and practice outcomes. Participants are not asked to share their reflections with the group, but they will revisit this prompt at the end of the session. Overview – *(20 minutes)* C2 provides a high-level overview of action research, including an explanation of how action research can support reflective practice, help practitioners identify what works in specific contexts, and elevate the role of the classroom teacher as a professional. C2 describes key characteristics of action research and explains how it is different from other forms of experimentation and research. (Slide 15) C2 provides a high-level overview of the Teacher as Researcher (TaR) action research model, including a description of what distinguishes TaR from other forms of action research. (slides 16 & 17) C1 guides participants through key steps of the TaR Instructional Improvement Cycle, including: A description of the four steps described in the Instructional Improvement Cycle toolkit. (Slide 18) A description of the key actions the participants will take throughout the Instructional Improvement Cycle. (Slides 18-21) An overview of the Excel data analysis tool. *Individual Activity (20 min)* C1 asks participants to review scenarios that describe the experiences of a hypothetical group of teachers who engaged in a TaR Instructional Improvement Cycle in breakout groups. (slide 23) Participants read, annotate, and discuss the scenarios and select one set of data to enter into the Analysis Tool (10 minutes). NOTE: Teachers will need to download the analysis tool they received in a email prior to the session. C1 facilitates a whole group discussion based on a set of reflection questions on slide 23. (10 minutes) C2 creates breakout groups, and places participants into the groups for ten minutes.

Topic (Slides)	Time	Resources	Description and Facilitation Notes
Key terms and concepts Slides 25-40	H:1:05-1:50	Instructional Strategy Summaries	C2 introduces some of the key ideas, concepts, and knowledge that are foundational to the TaR model. Design (5 min): C2 uses slide 26 to explain the difference between single and multiple groups designs, highlighting key differences in the designs and discussing considerations for selecting a particular design. Basic statistics: (15 min) C2 uses slides 27-31 to explain effect sizes, baseline equivalence, and confidence. *Individual Activity (10 min)* (slide 31) Reflect on the statistics generated by the Analysis Tool in the scenario activity and identify new insights into the analysis. Instructional strategies: (20 min) C1 uses slides 33-34 to orient participants to the strategy selection considerations and routes described in the toolkit and the Instructional Strategy Selection Worksheet. C2 uses slide 35-37 to introduce the WWC and practice guide summary documents C1 uses slide 38 to ask participants to take 5 minutes to review the list of strategies they might test in an instructional improvement cycle C1 facilitates discussion of the strategies participants have reviewed and MZR Coaches ask questions and provide feedback Assessments: (5 min) C2 uses slides 39 & 40 to introduce participants to how assessments are used in multiple and single group designs.
Next steps (Slides 44-42)	H:1:50-H:2:00	Teacher as Researcher Toolkit Exit Survey	C1 provides an overview of activities participants will engage in before the next session. Read through Teacher as Researcher Toolkit and Instructional Strategy Summaries and come to the next session prepared with questions, wonderings, and reflections. Examine curriculum and unit plans for the next two months and begin to identify which class(es) you would like to implement a TaR cycle in and what types of instructional strategies you plan to implement and test. Bring these to the next session. Introduce survey

Excerpts from an Evaluation Brief

This sample is from an evaluation brief that explored the efficacy of the Teacher as Researcher professional learning series as implemented in South Carolina. This evaluation brief provides an example of the depth of insights that can be provided to the school or district when data from teachers' instructional improvement cycles are aggregated.

MARZANO RESEARCH

Denver, CO + Portland, OR | 720.463.3600 | www.MarzanoResearch.com | @MarzanoResearch

BRIEF: Empowering Teachers as Researchers in South Carolina

Marzano Research's *Teacher as Researcher* is an evidence-based professional development program that empowers teachers to select evidence-based instructional strategies, design authentic experiments to implement the strategies, collect data, analyze these data, and ultimately reflect and act on the results of their experiments, all within a structured, easy to implement Instructional Improvement Cycle. Ultimately, teacher reflection within professional development leads to ongoing improvement in classroom practices.

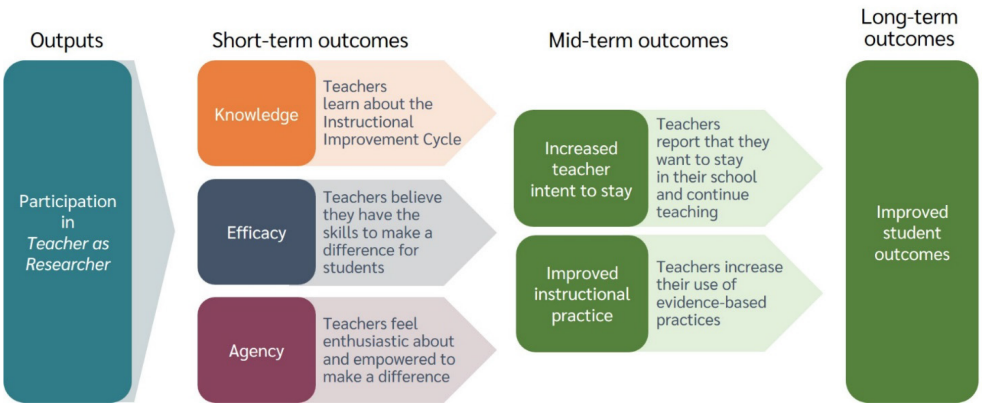
This brief highlights key findings from an evaluation of the *Teacher as Researcher* professional development series implemented in South Carolina. These key findings show that *Teacher as Researcher* contributes to teachers' use of evidence-based practices, knowledge about instructional improvement, and teachers' efficacy and agency. Refer to Box 1 for an overview of the evaluation design.

BOX 1. Evaluation Design

The evaluation is a pretest-posttest design focused on teacher outcomes, and the program is based on a well-defined logic model and rigorous research. Participants as of December 2022 included the Spring 2022 Pilot (17 teachers in 10 schools in 4 districts) and Fall 2022 Cohort 1 (125 teachers in 17 schools in 7 districts). An independent team at Marzano Research conducted the research. Data sources included the *Pre/Post Knowledge, Efficacy, and Agency Survey, Exit Surveys,* and documents related to teachers' instructional improvement work.

1. Grounding in Evidence

The research is clear: teachers have the strongest effect on student achievement compared to other school factors (Sanders et al., 1998; Opper, 2019). How can teachers ensure that their effect is positive?



Beginning with the work of Kurt Lewin in the 1940s, teachers have been borrowing methods from social science research to identify and solve practical education problems (Masters, 1995). This type of teacher research in classrooms has a long tradition and is often called "action research" (Manfra, 2019). It has promise.

But, action research fails when teachers use haphazard methods and do not ground their instruction in evidence-based strategies (Newton et al., 2016). In addition, despite the annual and interim testing typical in schools over the last two decades, many articles documented the importance of building teacher capacity by using formative data to improve classroom instruction (Means et al., 2011; Schildkamp et al., 2020).

Marzano Research's *Teacher as Researcher*[1] uses tried-and-true experimental research methods that rapidly provide accurate information about instruction (Marzano et al., 2020; Cherasaro et al., 2015). With its focus on evidence-based instruction, immediate feedback about students, and teacher reflection, *Teacher as Researcher* has the hallmarks of professional learning with "staying power," the ability to be implemented and sustained by teachers and the power to make a difference for students in the long term (Guskey, 2021).

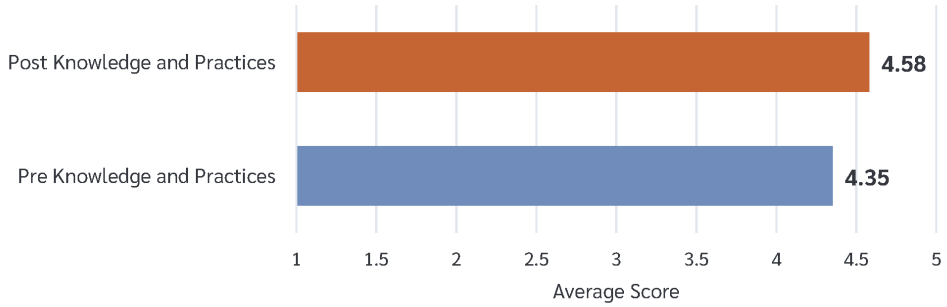
Ultimately, South Carolina leaders expect that ***if*** Marzano Research offers evidence-based strategies and delivers professional development to educators, ***then*** participation in *Teacher as Researcher* will be associated with increases in teachers' knowledge, efficacy, and agency, ***which will lead to*** teachers' changes in practice and intentions to stay in the teaching profession, and ***which will ultimately help*** increase student achievement (Figure 1).

Figure 1. Intended Outcomes of *Teacher as Researcher* in South Carolina

Source: Created by the Marzano Research evaluation team.

2. Supports for Teachers' Use of Evidence-Based Strategies

Teacher as Researcher developers at Marzano Research identified evidence-based strategies from the existing Institute for Education Sciences What Works Clearinghouse (WWC) Practice Guides in mathematics and English language arts (ELA). Figure 2 shows an example of a recommendation summary.



- 65 evidence-based **mathematics strategies** aligned to South Carolina standards
- 89 evidence-based **literacy strategies** aligned to South Carolina standards

Currently, the team is working on additional cross-cutting instructional strategies that work in multiple subject areas.

[1] Marzano Research's *Teacher as Researcher* is a trademarked professional learning program for teachers; however, other publications have used the phrase "teacher as researcher" in a general sense.

Cohort 1 teacher *Pre/Post Knowledge, Efficacy, and Agency Survey* responses indicated a statistically significant increase in knowledge and use of the Instructional Improvement Cycle (Figure 4).

Figure 4. Average Change in Knowledge and Practices

Note. Effect size of d = .61.
Source: Author's analysis of *Pre/Post Knowledge, Efficacy, and Agency Survey* data.

5. Endorsement from South Carolina Teachers

Teacher experiences in, and satisfaction with, professional development has long been associated with changes in beliefs (e.g., Guskey, 2002). While satisfaction in and of itself is often not enough to ensure that what teachers learn in professional development is implemented, Marzano Research coaches pride themselves on delivering professional development that is high-quality and appreciated by educators.

All Pilot session participants, and more than 85% of Cohort 1 session participants, agreed or strongly agreed with positive statements related to the professional development sessions.

In their comments about what was useful about *Teacher as Researcher,* teachers most frequently mentioned the utility of using evidence-based strategies in Instructional Improvement Cycles:

"I learned how to see if a strategy makes a difference in helping the students understand content. I could compare pre/post assessment results to see what changes were made."

"I also learned that it does not have to be difficult to implement this into my everyday teaching."

"When you see these research studies, you never really think about how they are done. I have learned that I can do this by following the steps [and] improve my practice."

Tab IV: Delivery of Services

Marzano Research proposes to provide professional learning services for educators that increase organizational capacity to sustain the application of learning and implementation of tools and strategies over time. In this section, we address the requirements of Section 4.6 in the request for proposals, including the plan for implementation and management of services.

Implementation and Management Plan: Delivering Sustainable Impact with Teacher as Researcher

Marzano Research proposes a comprehensive, flexible implementation of the Teacher as Researcher professional learning model to meet the objectives of Knox County Schools (KCS). Our phased implementation and management plan is designed to deliver immediate instructional improvement, while building enduring organizational capacity for evidence-based practice and ongoing professional learning.

Our plan is rooted in research-based adult learning principles and informed by our successful delivery of similar work in districts of comparable size and diversity.

We offer two flexible implementation timelines to align with KCS initiatives:

- **Full Academic Year Plan** (August–May):
  A summer kickoff followed by six bi-monthly workshops, two micro-modules, and coaching sessions paced across the school year. Teachers complete two full instructional improvement cycles that align with grading periods and assessment schedules.
- **Accelerated Plan** (August-December or January–May):
  Condensed learning sequence using paired workshops, asynchronous pre-work, and intensified coaching to ensure that participants still complete one full inquiry cycle with mid-cycle data reporting.

In either model, we ensure early and sustained engagement of both educators and leaders through cohort-based facilitation, interim reporting, and culminating reflection.

Upon contract execution, we will initiate a **joint onboarding meeting** with KCS stakeholders to finalize cohort composition, select the appropriate delivery schedule, align to district HQIM and strategic priorities, and clarify shared responsibilities.

We will then work with identified cohort(s) and building level leaders to schedule training and coaching sessions. Teachers will have password-protected access to Teacher as Researcher materials that have been configured to align to KCS priorities, a searchable strategy explorer tool, and a Planning and Analysis Tool. Monthly project check in meetings with school and/or district leaders will provide regular status updates and planning to drive next steps.

Implementation Plan and Professional Learning Structure

Our plan for professional learning authentically engages participants through a cohort structure organized at the school or district level.

Authentic Adult Learning and Sustained Impact: Cohort Design and Customization
We will collaborate with KCS to implement one or more cohorts of 10–15 educators, either at the school or district level. Each cohort program includes:

- A **collaborative kickoff session** (1 hour) where educators form cohorts and learn the Teacher as Researcher process
- **Six synchronous workshops** (2 hours each), spaced across the academic year (see sample PPT and facilitator's guide in Section V Tab III)
- **Two asynchronous mini-modules**:
  - "How Do You Know It's a Strategy?"
  - "Effect Sizes Demystified"
- Twenty 1-hour **virtual coaching sessions** conducted as "office hours" plus leader check-ins
- **Summary reporting** that aggregates local results by strategy and HQIM alignment
- **Implementation Tools and Templates**, including:
  - Class and Unit Selection Worksheet
  - Assessment Planning Guide
  - Implementation Note Catcher
  - Reflection Worksheet
  - Cycle Analysis Tool (calculates effect sizes, baseline equivalence, and confidence intervals)
- **Quarterly Leadership Sustainability Training** (proposed as site-visits that include walkthroughs), providing building leaders with data and training to support classroom walkthroughs and planning for sustainable implementation as part of the district's instructional improvement infrastructure

We have provided a sample of teacher-facing materials in Tab III. We have field-tested these materials with educators in Alaska, Texas, Nebraska, and South Carolina.

Cohorts receive differentiated support based on experience level, content area, and site needs. We also offer **custom PD sessions** upon request, such as deep dives into content-based instructional strategies, assessment design, or supporting teacher collaboration at scale.

The Teacher as Researcher model is grounded in adult learning theory (Brookfield, 2017; Kolb, 2014; Knowles et al., 2020) and emphasizes the principles of relevance, action, collaboration, and reflection. Educators do not passively receive professional learning—they apply, adapt, and analyze instructional strategies in their own classrooms, co-constructing knowledge with peers and coaches. The learning sequence includes:

- **Six collaborative workshops** (2 hours each) that guide teachers through the process of identifying an improvement need, selecting a strategy, designing a study,

planning for implementation, analyzing and reflecting on data, and determining next steps

- **Two asynchronous mini-modules** to develop an understanding of key statistics used in Teacher as Researcher (e.g., effect sizes) and how to define and select an instructional strategy
- Twenty 1-hour virtual coaching sessions conducted as "office hours" to support personalized implementation and reflection
- **Pre- and post-program surveys** to measure changes in teacher knowledge and efficacy, school culture, and the learning climate
- **Leader participation and quarterly check-ins** to embed cycles into the district's instructional improvement infrastructure and identify lessons learned
- **Quarterly capacity building sessions** with instructional coaches, school administrators, and district leaders to support sustainability

The **workshops** and **coaching session** pacing will mirror the natural rhythm of the school year. Workshop 1 focuses on identifying instructional challenges using student data. In Workshop 2, teachers select an evidence-based strategy from our curated strategy bank—each practice tied to HQIM and organized by grade and content area. Workshops 3 and 4 are dedicated to planning the instructional improvement cycle and preparing to gather implementation and outcome data. Following implementation of the instructional improvement cycles, in Workshops 5 and 6 teachers will analyze and reflect on their data, present their findings, and decide how to scale successful strategies. Throughout the cycle, teachers will submit planning templates, analysis exports, and reflection protocols, which Marzano Research will compile into a **Strategies in Action report** to share learning across the school and/or district.

All training and coaching sessions are assumed to be virtual, although they can be made face-to-face should the district prefer that option.

Table 2. Sample Scope and Sequence for Teacher Engagement

Session	Purpose	Timing	Local Evidence Generated
Introduction	Introduce educators to the Teacher as Researcher process	1 hour synchronous	School climate survey 1 Teacher knowledge and efficacy pre-survey
1: Framing the Inquiry	Identify actionable improvement need	2 hour synchronous workshop	Workshop exit survey
Mini Module: *How Do You Know It's a Strategy?*	Help educators select evidence-based and curriculum aligned strategies to address their improvement need	15 minute asynchronous learning that can be revisited	
Coaching 1	Support to finalize improvement need and select a strategy	1 hour, scheduled with teachers in each cohort	Coaching notes

Session	Purpose	Timing	Local Evidence Generated
2: Strategy Selection	Match HQIM-aligned strategy to improvement need	2 hour synchronous workshop	Workshop exit survey
3: Study Design	Draft quasi-experimental study design	2 hour synchronous workshop	Workshop exit survey Teacher planning templates
Coaching 2	Support in crafting a concrete implementation and data collection plan	1 hour, scheduled with teachers in each cohort	Coaching notes
Mini Module: *Effect Size Demystified*	Understand effect sizes & practical significance.	15 minute asynchronous learning that can be revisited	
4: Data-Collection Routines	Explore assessment and student work samples to measure impact of evidence-based strategy	2 hour synchronous workshop	Workshop exit survey Instructional Improvement Cycle analysis exports
Coaching 3	Support in collecting look-for evidence during implementation	1 hour, scheduled with teachers in each cohort	Coaching notes
5: Data Analysis	Analyze and interpret cycle data.	2 hour synchronous workshop	School climate survey 2 Teacher reflection notes
Coaching 4	Support in using data to drive the next instructional improvement cycle (tweak current strategy or select new one)	1 hour, scheduled with teachers in each cohort	Coaching notes
6: Scaling & Sharing	Analyze and interpret cycle 2 data; present findings; craft scaling plan.	2 hour synchronous workshop	Workshop exit survey Teacher reflection notes Teacher knowledge and efficacy post-survey
Final Strategies in Action Report	Supports PLCs, educators, and district leaders in making informed decisions about what strategies work.	1 hour debrief, scheduled with building and district leadership	Aggregated results at building or district level

This sequence authentically engages educators in structured inquiry and application, reinforcing a “learn-do-reflect” model of adult learning. Participants receive regular, actionable feedback and have protected time for guided planning and collaborative analysis—features essential for lasting instructional change.

This structure ensures that participants engage in curriculum-embedded professional learning that is directly linked to student outcomes and district priorities.

Surveys for Measuring Culture
Marzano Research will administer school climate and learning culture surveys aligned with Learning Forward's professional learning standards. These tools assess factors such as collaboration norms, psychological safety, leadership alignment, and perceived instructional support—key indicators of a learning-focused environment. We will disaggregate data by role and school to guide system-level reflection and adaptation.

Processes for Educator Collaboration
Educators work in cohorts of 10–15 participants, organized around professional learning communities (PLCs), grade levels, or instructional teams. Every phase of the Teacher as Researcher instructional improvement cycle involves peer collaboration:

- Co-design of improvement cycles
- Peer feedback protocols
- Shared planning templates and implementation walkthroughs

Collaboration is scaffolded through workshop activities, coaching, and facilitated debriefs that encourage collective ownership of learning.

Marzano Research will work with KCS to identify the teacher cohorts who will participate, according to the district's needs. Each cohort will include up to 15 educators who meet regularly in synchronous workshops and coaching sessions and apply their learning in the classroom through action research cycles. Examples of potential cohorts include:

- Teachers within a single school who participate in the same PLCs
- Grade and subject alike cohorts of educators across the school district
- Subject area teams and instructional coaches within a school

Processes for Measuring Impact on Student Learning
Our custom Analysis Tool enables teachers to upload student data and calculate effect sizes, helping them understand the real-time impact of their instructional changes.

These data points, along with implementation notes, are aggregated at the cohort level and shared during quarterly leader check-ins, allowing school and/or district leaders to understand trends and identify high-impact strategies for broader adoption. Participants will engage in quasi-experimental research cycles using Marzano Research's Teacher as Researcher tools, which include:

- Effect size calculators
- Implementation note catchers
- Data analysis and reflection worksheets

These tools allow educators to evaluate the impact of instructional strategies on student outcomes in a rigorous yet accessible way. Mid-cycle progress briefs and end-of-cycle Strategies in Action reports help school and district leaders see clear evidence of strategy effectiveness and subgroup outcomes.

Processes for Building Educator Discernment

Building discernment means helping teachers critically evaluate instructional strategies in relation to student needs and curricular context. Our curated strategy bank includes concise evidence briefs aligned to Every Student Success Act (ESSA) evidence tiers, HQIM, and content standards. Teachers learn to interpret the strength of research evidence and adapt strategies to fit their unique contexts, using implementation planning templates that prompt consideration of student needs, learning goals, and pacing constraints. In doing so, teachers strengthen both their pedagogical judgment and their alignment to district instructional materials. Marzano Research's approach is grounded in research-based adult learning principles (Brookfield, 2107; Kolb, 2014; Darling-Hammond et al., 2017; Knowles et al., 2020). Learning experiences are:

- **Action-Oriented**: Teachers test instructional strategies through classroom implementation and collect real-time evidence of impact
- **Relevant**: Content is embedded in teachers' existing curriculum and directly aligned to district HQIM
- **Collaborative**: Workshops emphasize peer discussion, planning, and shared reflection
- **Reflective**: Participants analyze student data and assess their instructional practices
- **Sustained**: The program is sequenced over the school year and designed to scale through leadership development and peer mentorship

This model ensures that participants are not passive recipients of training, but active practitioners co-constructing knowledge and drawing connections between strategy and student learning.

Processes for Leader Capacity Building

School and district leaders play a central role in sustaining the work. Leaders have opportunities to deeply engage in the program through:

- Participation in all workshops
- Quarterly data debriefs to interpret cohort trends and identify strategic supports
- A Leadership Walkthrough Guide for identifying strategy implementation in classrooms, including look-fors, observation prompts, and reflection questions, paired with optional quarterly site-visits providing training and support for walkthroughs and sustainability planning
- Optional certification to become internal Teacher as Researcher facilitators beginning in Year 2, enabling them to independently facilitate cycles and mentor future cohorts

Our delivery model is designed not only to improve instruction but to build the internal capacity necessary to sustain and scale this work across the district. Ideally delivered over the course of multiple years, the model includes:

- **Mentor development**: Cohort 1 participants are prepared to support subsequent cohorts

- **Actionable reporting**: The annual Strategies in Action report documents findings and examples that inform school- and/or district-wide professional learning
- **Leadership support**: We lead quarterly training and capacity building meetings with school leaders, co-develop routines, and create facilitation resources that enable schools to continue cycles of improvement independently

By embedding tools, protocols, and processes in the district's professional learning infrastructure, Knox County Schools will be positioned to sustain and expand the work without ongoing external support. We will assign a dedicated project lead, a team of facilitators, and implementation coaches who will collaborate with KCS leaders through regular check-ins, milestone reviews, and shared planning tools to ensure alignment, timeliness, and high-quality delivery. This delivery model is responsive, research-based, and scalable—designed to equip educators and leaders to improve instruction, drive student outcomes, and create a culture of learning that endures well beyond the end of the contract.

Deliverables and Reporting

Throughout the engagement, Marzano Research will provide Knox County Schools with a comprehensive set of deliverables that fulfill documentation requirements and serve as practical, enduring tools for instructional growth. At each stage of the implementation, we will share:

- Access to a curated **evidence-based strategy bank** that has been aligned to district HQIM (see example of a strategy aligned for SC included in Tab III Section V).
- Professionally designed **workshop slide decks** and **facilitator guides** that support consistency across delivery (examples included in Tab III Section V).
- Documentation of teachers' work through **planning templates** and data exports from the **Analysis Tool**, offering a transparent record of implementation decisions and instructional impact (see example of template in Toolkit included in Tab III Section V).
- **Pre- and post-surveys** that capture shifts in school culture, teacher efficacy, teacher knowledge, and perceptions of professional learning.
- **Quarterly implementation summaries** that assess and synthesize progress across cohorts and highlight emerging trends.
- **Quarterly site-visits** with training centered around the **Leadership Walkthrough Guide** and using quarterly implementation summaries to plan for sustainability.
- A **Strategies in Action report** compiled at the close of each cycle featuring examples from participating educators, including their selected strategies, cycle designs, classroom data, and reflections on student learning. This report becomes both a capstone product and a forward-looking planning tool for school and district leaders.
- An invitation to **co-author a blog series with participating educators** to showcase local successes and amplify the voices of teacher-leaders who are building a culture of inquiry in their schools.

These deliverables are intentionally designed to do more than document activities—they serve as capacity-building assets that equip Knox County Schools with the tools, language, and evidence needed to sustain and scale instructional improvement.

By embedding the Teacher as Researcher model into existing PLC structures, aligning to high-quality instructional materials, and training leaders to sustain the work, Marzano Research offers a delivery model that is responsive to Knox County Schools' current needs and ready to scale. Our approach ensures that every educator grows as both a practitioner and a researcher, deepening instructional expertise and creating a system in which student success is not just the goal, but the expected result.

Management and Delivery Team

Marzano Research will assign a **dedicated project lead**, and dedicated **facilitators** and **implementation coaches** to work closely with Knox County Schools throughout any project that result from this request for proposals. See Tab V for details about the coaching team. Marzano Research will match coaches to cohorts based on cohort focus and coach expertise. The team will:

- Coordinate workshop logistics and materials
- Monitor fidelity of implementation
- Track cohort progress and learning outcomes
- Provide real-time support to educators and leaders

The project lead, facilitators, and coaches will be supported by a strong content development and communications team with expertise in customizing material to reflect local context and culture. Monthly check-ins, milestone reviews, and shared digital project tracking tools will ensure timely delivery, accountability, and responsiveness to district needs.

Period of Performance and Timeline

Marzano Research has provided sample timelines for a six month or full-year implementation during a school year. We will work with partner schools to establish implementation timelines.

Tab V: Experience and References

Founded in 2008, Marzano Research is a women-owned small business, certified by the Small Business Administration, and a certified benefit company. We partner with organizations to build on strengths and address challenges in early childhood and preK–16 education through professional learning through facilitation and coaching, applied research, program evaluation, and data analysis. We are experts at working with educators to use research and evidence to design and enhance educational practices at the classroom, school, and district levels.

Marzano Research is a fully remote company with company owners located in Denver, Colorado, and the Portland metropolitan area in Oregon. We have staff members located in California, Colorado, Florida, Montana, Oregon, and Washington. We provide services nationally and are experienced with remote collaboration using online meetings and shared document systems and onsite collaboration facilitating professional learning sessions, conducting site visits, and collecting data.

Experience with Similar Projects

The project descriptions in this section provide examples of similar work with school and district leadership teams to analyze data, identify solutions, and provide services that promote high levels of achievement for all learners.

Project 1. South Carolina Teacher as Researcher

Marzano Research engaged teachers from 35 schools across 18 districts in South Carolina in the Teacher as Researcher model. We provided structured professional development, personalized coaching, and ongoing support, empowering educators to actively select, test, and refine evidence-based instructional strategies through rigorous, classroom-based Instructional Improvement Cycles. Teachers systematically implemented strategies, collected student learning data, and reflected on outcomes, building their capacity to make informed instructional decisions directly aligned with their students' needs.

Marzano Research developed a comprehensive bank of evidence-based instructional strategies drawn from recommendations in the Institute of Education Sciences (IES) practice guides and other national centers. We aligned the strategies with South Carolina learning and teaching standards and best practices in mathematics, English language arts, cross-content instructional areas, behavior, and school and district leader strategies. Each strategy summary provides practical, teacher-friendly guidance, including explicit implementation steps, research evidence levels, and recommendations tailored to various instructional contexts.

Through this hands-on, data-driven approach, teachers demonstrated significant improvements in their confidence, instructional skills, and ability to apply evidence-based

methods effectively. The project's collaborative workshops, individualized coaching, and professional learning network strengthened teacher practices and increased enthusiasm and commitment to the teaching profession. This model serves as an exemplar for districts seeking to enhance instructional quality, foster teacher effectiveness, and promote educator retention by empowering teachers as reflective practitioners who continuously improve student outcomes.

Project 2. Coaching for Data Use, MTSS, and Evidence-based Instruction – Converse County School District #1, Wyoming (2022–present)

Marzano Research leads professional learning sessions for Converse District #1 leadership, teachers, and instructional coaches and provides individual leadership coaching for district leaders and group coaching for instructional coaches. This work builds the district's capacity to understand and implement effective literacy instruction and assessment practices. The professional learning sessions and coaching are grounded in Marzano Research-developed resources that include a data interpretation process to analyze teacher instructional practices and student achievement, a template for the development of high leverage instructional strategies, classroom modeling and observational protocols, and monitoring and reflection protocols. Initial outcomes related to this work include increased district-wide data-informed practices, defined multi-tiered systems of support for instruction and assessment, a reconfigured district-wide instructional coaching model, and high-performing collaborative teaming structures.

Project 3. Alaska Alternative Schools Continuous Improvement

Marzano Research provided training, coaching, and technical support to help the Alaska Department of Education and Early Development (DEED) and the state's 12 alternative schools conduct continuous improvement cycles. The improvement cycles were designed to field test practices from the Alaska DEED trauma-engaged framework. Over the course of the two-year project, we summarized the evidence base for key practices from the framework, helped the alternative schools analyze data to identify an improvement focus, and coached school leadership teams to design, implement and analyze the results for three continuous improvement cycles. Our work with AK DEED and the state's alternative schools demonstrates our ability to translate the principles of improvement science into actionable and educator friendly guidance and support. Our work with AK DEED also highlights our ability to align our continuous improvement approach with existing improvement and subject matter frameworks.

REQUEST FOR PROPOSAL NUMBER 3667

Vendor Name: Marzano Research

Proposers shall submit a list of three (3) projects of similar size which have been in service for at least five (5) years. Each vendor is responsible for obtaining approval to submit and confirming that the contact information provided for each reference is accurate. Knox County will not be responsible for gathering additional information for references that are incomplete or incorrect. References checks will be sent via email only. Reference Forms that cannot be delivered with the contact information listed, not returned prior to the deadline listed on the form, or not returned at all will be scored accordingly. Do not list Knox County Government or Knox County Schools as a reference.

Name of Firm: University of South Carolina Aiken
Contact Person: Bridget Coleman Phone Number: 803.641.3792
Email Address: bridgetc@usca.edu Fax Number: _____
Nature of Contract: South Carolina Teacher as Researcher
Services Provided: Professional learning services
Dollar amount: $ 1,656,000 (over life of contract) Part of a statewide initiative
Contract start date: 12/2021 Contract end date: 5/2025

Name of Firm: Converse County School District #1
Contact Person: Dr. Andrea Gilbert Phone Number: 304.358.2942
Email Address: agilbert@ccsd1.org Fax Number: _____
Nature of Contract: Coaching for Data Use, MTSS, and Evidence-based Instruction
Services Provided: Professional learning and technical assistance services
Dollar amount: $ 500,753 (over life of contract)
Contract start date: 6/2022 Contract end date: Ongoing

Name of Firm: Alaska Department of Education and Early Development and Institute of Education Sciences

Nature of Contract: Alaska Alternative Schools Continuous Improvement
Services Provided: Professional learning and technical assistance services
Dollar amount: $ 260,500 (over life of contract)
Contract start date: 08/2023 Contract end date: 02/2025

Staff Qualifications and Organizational Chart

The team at Marzano Research brings together a diverse group of seasoned educators, researchers, and technical assistance providers with decades of experience across the PreK–16 education spectrum (Table 5). Our staff members have held roles as classroom teachers, administrators, consultants, and research leaders in both domestic and international settings. Collectively, they have led major federal and state initiatives, guided school and district improvement efforts, and developed evidence-based tools and strategies to improve instructional practices and student outcomes. Areas of expertise span literacy, career and technical education, inclusive instruction, formative assessment, teacher evaluation, curriculum and instruction, and college and career readiness. Team members have provided strategic support to education agencies across states including Alaska, Colorado, Idaho, Indiana, Florida, Kansas, Missouri, Montana, Nebraska, New Mexico, North Dakota, Ohio, Oregon, South Carolina, South Dakota, Washington, and Wyoming. They have a strong track record in bridging research and practice and facilitating capacity building among educators and leaders through coaching, training, and technical assistance.

The team's scholarly rigor is reflected in their substantial contributions to educational research and literature. Staff have authored peer-reviewed journal articles, practitioner-focused books, and implementation toolkits, and many hold doctoral degrees in fields such as educational psychology, curriculum and instruction, educational leadership, and the learning sciences. Their methodological expertise includes qualitative and mixed-methods research, randomized control trials, assessment design and validation, and data visualization. The team's ability to bridge research and practice ensures that their work is grounded in evidence while being responsive to the real-world needs of educators and students. This synergy of applied research, field experience, and policy insight enables Marzano Research to deliver high-impact solutions tailored to diverse educational contexts.

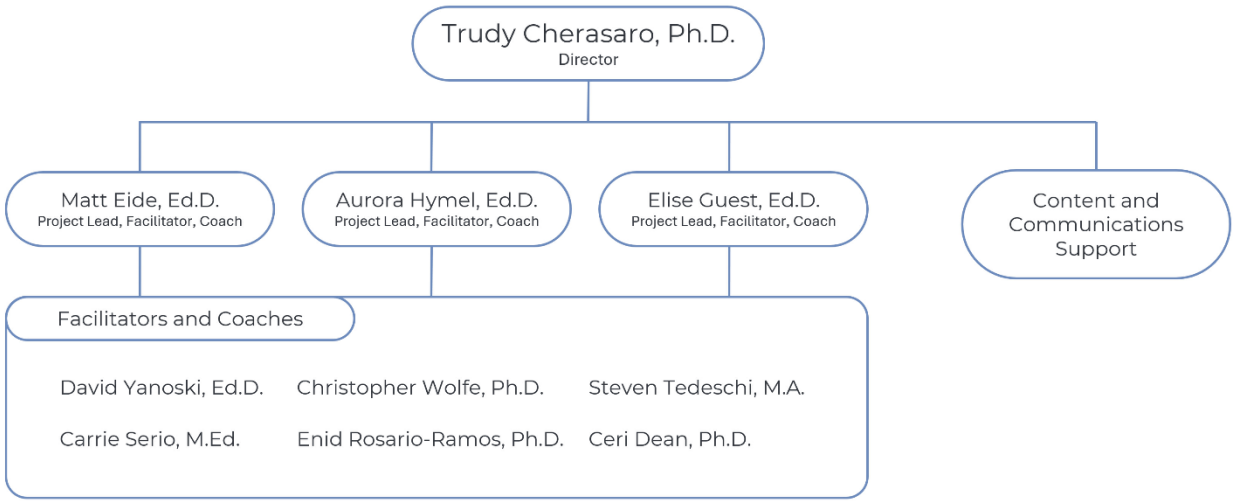

Table 5. Overview of Team Qualifications and Role

Team Member **Job Title** **Years with Company (Start date)**	**Project Role**
Trudy Cherasaro, PhD Director of Research 13 years (6/25/2012)	Project Lead, Facilitator, Coach
Ceri Dean, PhD Independent Consultant Consultant with Marzano Research since 2017	Facilitator, Coach
Matt Eide, EdD Managing Senior Education Improvement Specialist 5 years (4/20/2020)	Project Lead, Facilitator, Coach

Team Member Job Title Years with Company (Start date)	Project Role
Elise Guest, EdD Senior Education Improvement Specialist 3 years (7/12/2022)	Project Lead, Facilitator, Coach
Aurora Hymel, EdD Senior Education Improvement Specialist 2 years (7/5/2023)	Project Lead, Facilitator, Coach
Enid Rosario-Ramos, PhD Senior Researcher 2 years (6/26/2023)	Facilitator, Coach
Carrie Serio, MEd Education Improvement Specialist 2.5 years (1/18/2023)	Facilitator, Coach
Steven Tedeschi, MA Researcher 7 years (7/16/2018)	Facilitator, Coach
Christopher Wolfe, PhD Senior Researcher 3 years (5/2/2022)	Facilitator, Coach
David Yanoski, EdD Researcher 16.5 years (10/15/2008)	Facilitator, Coach

For any projects resulting from this request for proposals, senior staff will serve as project leads with a director providing oversight for the portfolio of Knox County Schools projects (see Figure 5).

Figure 5. Marzano Research Organizational Chart

Brief Narrative of Qualifications

In this section, we provide a brief narrative of the qualifications of proposed staff. Their resumes provide more details about their education credentials and relevant work experience. All team members are experienced Teacher as Researcher facilitators and coaches, as demonstrated in their resumes.

Trudy Cherasaro, PhD. A director of research at Marzano Research, Trudy has more than 20 years of experience providing educators with data, evidence, and practical tools to guide their decision making. She has directed large federal contracts; led evaluations of state, district, and university initiatives; provided training and technical support to educators; worked as a research coordinator in a school district; and taught online educator preparation courses. Trudy has led large-scale initiatives focused on enhancing the skills of educators to understand and use evidence-based instructional strategies in Nebraska and South Carolina. Her research includes examinations of teacher data use, classroom formative assessment, and state interventions in chronically low-performing schools. She has authored numerous peer-reviewed research articles and tools published by the Institute of Education Sciences and journals such as the *Journal of Research on Educational Effectiveness*. She received a doctorate in educational psychology, with an emphasis in research and evaluation, from the University of Virginia and a bachelor's degree from the University of Colorado.

Ceri Dean, PhD. An independent consultant with more than 30 years of experience developing and providing training, coaching, and technical assistance to educators at the state, district, and school levels, Ceri has worked with Marzano Research since 2017. She has directed large federal technical assistance and research centers and served in senior roles to manage, develop strategy, and oversee the development and delivery of training, technical assistance, and consulting services. Working with Marzano Research, she has coached educators who are supporting school and district leaders with their school improvement efforts and provided technical assistance to state education agencies in the areas of teacher evaluation, micro-credential system development, needs assessments, school improvement, leadership coaching, and instructional improvement. She is the co-author of *Classroom Instruction that Works, 2nd Edition* and has published in journals such as *Educational Leadership*, *Principal Leadership*, and *School Science and Mathematics*. Ceri holds a doctorate in curriculum and instruction, a master's degree in atmospheric science, and a bachelor's degree in atmospheric science and math education.

Matt Eide, EdD. A managing senior education improvement specialist at Marzano Research, Matt has more than two decades of experience in K–12 education as a teacher, district and school administrator, consultant, and youth development specialist. His primary areas of expertise include school and district improvement, training and coaching, data and evidence use, dropout prevention, re-engaging out of school youth, and alternative education. His recent work includes a project in Alaska that helped the state's 12 alternative schools use continuous improvement cycles to field test evidence-based practices intended to mitigate the impact of trauma and adverse childhood experiences.

Prior to joining Marzano Research, Eide worked as an administrator in Portland Public Schools, where he served as a senior director for academic programs; director of advanced academics, high school success, and dropout recovery; and project director for a federal innovation grant. Matt received a doctorate in educational leadership from the University of Oregon and a master's degree in secondary education from the University of California, Los Angeles.

Elise Guest, EdD. A senior education improvement specialist at Marzano Research, Elise has worked as a special education teacher, K–12 Principal, and PreK–12 curriculum director in Montana and Oregon in the United States and in education systems in Africa and Singapore. She provides professional learning and coaching services to create and evaluate preK–12 literacy plans and associated multi-tiered systems of support in multiple districts in Wyoming, to develop the leadership capacity of Idaho superintendents and principals, and to develop an effective coaching model to foster shared leadership for the full implementation of inclusive instructional practices in Ohio. She holds a doctorate of education in education, methodology, policy, and leadership from the University of Oregon.

Aurora Hymel, EdD. A senior education improvement specialist at Marzano Research, Aurora has more than two decades of experience in education. She has been a teacher in Mexico, Colombia, and Texas and served as a school-based administrator and principal in Texas and as a central office leader in Houston, Texas, and Portland, Oregon. Aurora's primary areas of expertise are career and technical education, college and career readiness, the career academy model, school improvement, advanced coursework programming, and the middle grades. Most of her experience has been in large urban districts, working with public educators. She holds a Doctorate of Education from the University of Houston in professional leadership and a Bachelor of Arts in history from Trinity University.

Enid Rosario-Ramos, PhD. A senior researcher at Marzano Research, Enid has extensive experience with qualitative and mixed-methods projects and program evaluation, and her areas of expertise include literacy development, youth civic engagement, secondary education and teacher preparation, social development, and personal growth skills. Currently, she leads an evaluation of a federal Comprehensive State Literacy Development (CSLD) grant and is responsible for developing data collection tools, overseeing data collection and analysis, and leading the drafting and submission of reports to the grantee. She has taught teacher preparation courses at the undergraduate and graduate levels at Northwestern University and the University of Michigan. She has published in journals such as *Research in the Teaching of English* and *The Journal of Higher Education*, Enid is a proud and fully bilingual native of Puerto Rico. She received a Bachelor of Arts in psychology at the University of Puerto Rico and a Master of Arts and a Doctorate in learning sciences at Northwestern University.

Carrie Serio, MEd. An education improvement specialist at Marzano Research, Carrie has more than 20 years of education experience in a variety of roles, including classroom teacher, interventionist, instructional coach, language specialist, and district coordinator.

Her recent projects include work with state and local education agencies in Alaska, Oregon, and Wyoming focused on developing, implementing, and evaluating statewide literacy strategic plans and frameworks and providing technical assistance and coaching to support implementation of evidence-based literacy instruction at the local level. Carrie has worked closely with school districts in Wyoming, providing training, coaching, and technical support to improve MTSS systems, literacy instruction, and student outcomes. Carrie earned a Master of Education in reading as well as an endorsement in culturally & linguistically diverse education from Regis University in Colorado and a bachelor's degree in sociology from the University of Colorado at Boulder.

Steven Tedeschi, MA. A researcher at Marzano Research, Steven has a combined 14 years of experience in education as a classroom practitioner, coach, researcher, and a technical assistance provider. Steven has led and supported projects that include working with three rural districts in Washington seeking to further their tech-enhanced learning initiatives; coaching school leaders in Alaska alternative schools to increase their knowledge and skills to interpret data and their capacity to conduct and sustain continuous improvement cycles; and conducting studies related to college, career, and civic readiness; career and technical education; and implementation of Native American curricula. He is a Teach For America alumnus and has taught in tribal, traditional public, and charter schools. Before his career in education, he was an airman in the U.S. Air Force. Steven received a Master of Arts in urban education policy from Brown University and a Bachelor of Arts in history from Rhode Island College.

Christopher Wolfe, PhD. A senior researcher at Marzano Research, Chris has extensive experience in randomized control trials, measure development, assessment development and validation, analysis, and data visualization and reporting. His content expertise includes early learning, literacy, mathematics curriculum and instruction, Response to Intervention, and special education. His current work includes a study of the Missouri assessment and accountability system, technical assistance to support Missouri leaders and leadership teams in developing a deep and nuanced understanding of their assessment and survey data to set priorities and plan for school improvement, and toolkit development to support evidence-based practices for using technology in postsecondary education based on an IES practice guide. He has published in peer-reviewed journals such as the *Journal of Research on Educational Effectiveness*, *Early Childhood Research Quarterly*, and *Educational Psychology*. He received a Bachelor of Arts in psychology at Hanover College in Indiana and a Master of Science and doctorate from Georgia State University.

David Yanoski, EdD. A researcher at Marzano Research, David taught middle school for 15 years before transitioning to education research in 2008. He has served as the project lead and lead facilitator for projects related to career and technical education; competency-based education; standards and curriculum development, revision, and assessment; educator evaluation, and educator preparation. He has provided qualitative research, literature scans, small and large group facilitation, focus groups and interviews, and technical consultation for projects. David is also a skilled presenter and facilitator and has developed materials for and provided in-person and online training and meeting

facilitation, individual coaching, and webinars for numerous projects. He is a co-author of numerous reports and two books, *Using Common Core Standards to Enhance Classroom Instruction and Assessment* and *Proficiency Scales for the New Science Standards*. He earned a Doctor of Education from the University of Colorado Denver in leadership focused on professional learning and technology, a Master of Arts in education from the University of Phoenix, and a Bachelor of Science in secondary education from Midland University.

Primary Areas of Expertise

- Research expertise: study design, randomized controlled trials, instrument development, structural equation modeling, qualitative data analysis, data visualization and reporting
- Content expertise: classroom and benchmark assessments, data analysis for continuous improvement, accountability systems, educator evaluation systems, teacher retention, teacher preparation, gifted education

Education

PhD	Educational Psychology *(emphasis in research and evaluation, and gifted education)* University of Virginia, Charlottesville, VA	2005
BA	Psychology, University of Colorado at Denver, Denver, CO	1998

Specialized Training, Certifications, Honors

What Works Clearinghouse Certified Reviewer: Single Case and Group Design Standards	
Summer Research Training Institute on Cluster Randomized Trials	2012
Outstanding Dissertation Award, Curry School of Education, University of Virginia National	2006

Professional Experience

Marzano Research, Denver, CO	**2012–Present**
Director	*2016–Present*
Director, Regional Educational Laboratory (REL) Central	*2017–2022*
Deputy Director, Regional Educational Laboratory (REL) Central	*2014–2017*
Senior Researcher	*2012–2016*
Mid-continent Research for Education and Learning (MCREL), Denver, CO	**2007–2012**
Principal Researcher	
Senior Researcher	
Albemarle County Public Schools, Charlottesville, VA	**2004–2007**
Coordinator of Research and Program Evaluation	
Casenex, University of Virginia, Charlottesville, VA	**2003–2009**
Course Instructor	
Educational Consultant	**2001–2007**
Independent Contractor	

Selected Project Experience

CTE Workplace Specialist Program Impact and Effectiveness Study **2025–present**

Funded by the Indiana Commission for Higher Education

Role: Project Director

Leads an evaluation of Indiana's CTE Workplace Specialist I Training Program, using mixed methods to assess program effectiveness, instructor preparation, and workforce retention. Directs a multi-phase study involving stakeholder interviews, surveys, administrative data analysis, and cross-state comparisons to inform strategic improvements.

Foundational Review and Analysis for Employability Skills Framework 2.0 **2024–present**
Funded by the U.S. Department of Education, Office of Career, Technical, and Adult Education (Contract # 91990023D0030)
Role: Project Director

Leads a project to conduct a comprehensive environment and literature scan to inform updates to the U.S. Department of Education's Office of Career, Technical and Adult Education (OCTAE) Employability Skills Framework. Leads a team conducting a comprehensive environment and literature scan, analyzing current employability skills, and synthesizing information on skills critical for success in evolving jobs. Directs the team in convening and facilitating stakeholder panels and briefings to gather feedback and refine results.

Success-Ready Students Network (SRSN) Data Analytics and Technical Assistance **2023–Current**
Funded by the Kaufman Foundation and the Missouri Department of Elementary and Secondary Education
Role: Expert Advisor and Project Oversight

Provides guidance on a project supporting the SRSN in designing a new assessment and accountability system for Missouri. This work involves analyzing and displaying interim assessment data to evaluate achievement across more than 40 Missouri school districts.

Teacher as Researcher **2020–2025**
Multiple projects sponsored by state and local education agencies and institutes of higher education; conducted in various sites:

- *Denali Borough School District, Healy, Alaska*
- *South Carolina Department of Education*
    - *Initiative involved 189 teachers in 42 schools across 22 districts and 2 teacher preparation programs (Coastal Carolina University and University of South Carolina Aiken)*
- *Texas A&M International University*
- *York Public Schools, York, Nebraska*

Role: Project Lead, Coach, Facilitator, Content Developer

Developed training materials and resources for strategy database. Facilitated professional learning sessions and coached classroom teachers and pre-service teachers to design and implement quasi-experimental action research projects. For the South Carolina Department of Education, led a project to develop statewide systems and professional development to help teachers select, implement, and examine the effectiveness of evidence-based instructional strategies. Designed professional development and supports educator teams in understanding and identifying evidence-based strategies, testing them in the classroom, and using the results to adjust their instruction.

Regional Educational Laboratory (REL) Northwest **2022–2025**
Funded by the Institute of Education Sciences REL Northwest (Contract #91990022C0009)
Role: Partnership and Project Lead

Led a partnership and projects with Portland Public Schools (PPS) to support PPS in evaluating the implementation of their High School Success Plan. Led projects with Lower Kuskokwim School District in Alaska focused on improving working conditions for teachers to increase teacher retention.

Evaluation of the Region IV Equity Assistance Center (EAC) Program **2017–2022**
Funded by the Metropolitan State University of Denver through a U.S. Department of Education grant
Role: Project Director

Leads a research team to evaluate the implementation and outcomes of the technical assistance provided by the EAC through ongoing surveys and case studies.

Regional Educational Laboratory (REL) Central **2017–2022**

Funded by the Institute of Education Sciences REL Central (Contract # ED-IES-17-C-0005)
Role: Director

Oversaw more than 80 technical support projects, 17 applied research studies, and led cross-REL activity focused on Rural Education to support a seven-state region. Technical support and applied research projects included projects related to personalized learning, early childhood education, school improvement, American Indian education, teacher equity and rural education. Applied research projects included descriptive, correlational, and quasi-experimental design studies. Engaged in ongoing communication with IES and led project management and reporting for the contract.

Selected projects:

- Study of the impact of career and technical education on postsecondary outcomes in Nebraska and South Dakota
- Study of variations in district strategies for remote learning during the COVID-19 pandemic
- A study to analyze and summarize the research on online and blended learning programs
- Analysis and synthesis of data and information on patterns in access to and participation in dual enrollment by locale and income level
- A study to examine the association between students' foundational knowledge and skills in grade 7 and students' Algebra I achievement in grade 8

Educator Evaluation Research **2017–2018**

Funded by the Michigan State Department of Education
Role: Principal Investigator

Oversaw all aspects of a project that included a literature review to identify best practices in educator evaluation, a survey to examine district implementation of best practices, a comparable state review to identify potential state supports, case studies of low and high implementing districts to understand facilitators and barriers to implementation, and a teacher survey to examine evaluator feedback.

Regional Educational Laboratory (REL) Central **2012–2017**

Funded by the Institute of Education Sciences (Contract # ED-IES-12-C-0007)
Role: Deputy Director, Research Alliance Lead, Principal Investigator

Served as Deputy Director for REL Central, one of 10 laboratories funded by the U.S. Department of Education's Institute of Education Sciences. REL Central provides education research, dissemination, and technical support services to educators and policymakers in Colorado, Kansas, Missouri, Nebraska, North Dakota, South Dakota, and Wyoming. Participated in and led numerous projects, including a systematic review of the evidence on formative assessment and elementary school student academic achievement, and a study to summarize the research on the association between state interventions in chronically low-performing schools and student achievement.

Development of a Process and Tools for Examining Teacher Instructional Strategies **2013–2015**

Funded by the Institute of Education Sciences REL Central (Contract # ED-IES-12-C-0007); conducted in partnership with York Public Schools, Nebraska
Role: Project Lead

Provided technical assistance to develop a process for cohorts of teachers to select and test instructional strategies to determine the effectiveness of the strategy and create a spreadsheet tool that allows teachers to calculate effect sizes.

Evaluation of Denver Public Schools Teacher Performance Evaluation System (LEAP) **2011–2012**
Funded by Denver Public Schools, Denver, CO
Role: Principal Investigator

Designed and conducted an evaluation of the district's newly developed teacher performance assessment system. The evaluation project included collection and analysis of reliability and validity evidence for the observation framework and a program evaluation.

Selected Projects conducted at Albemarle County Public Schools, Charlottesville, VA **2004–2007**
Role: Project Lead

Strategic Planning (2004-2007) Led the data team for the strategic planning in the district.
Five Year Gifted Programming Plan (2004-2005) Research member of the committee to develop a five-year gifted program plan for the district.
Selection and Implementation of an Information Management System (2006–2007)
Led the development team for an assessment item bank, a framework for administrators, and reporting features for administrators and classroom teachers.
Teacher Performance Appraisal System (2004–2007) Led the evaluation to collect and analyze feedback from teachers and administrators to inform the system.

CERI B. DEAN
2013 Lindenmeier Road, Fort Collins, CO 80524
970-227-0061 | ceridean47@gmail.com

PRIMARY AREAS OF EXPERTISE

- Designing and supporting sustainability of school and district-level reforms
- Technical assistance and professional development at the school, LEA, and SEA level
- School improvement planning and implementation
- Data-driven decision making
- Professional development planning and methods
- Development of professional learning materials
- Development and implementation of standards (content, teacher, leader)
- Implementation of research-based instructional strategies

EDUCATION

Ph.D. Curriculum and Instruction (Mathematics Education), University of Connecticut at Storrs, 1993

M.S. Atmospheric Science, Colorado State University, Fort Collins, CO, 1979

B.S. Mathematics Education and Atmospheric Science, State University of New York at Albany, 1974

PROFESSIONAL EXPERIENCE

Dean Education Consulting, LLC

2015-present **President and Owner**
Manages all aspects of this woman-owned business and provides consulting services to state education agencies, districts, schools, and technical assistance providers in the areas of professional development planning and implementation, design and development of professional development materials, standards development and implementation, school and district improvement, and other technical assistance.

Mid-continent Research for Education and Learning (McREL), Denver, CO

2012-2015 **Senior Fellow**
2006-2012 **Vice President for Field Services**
2002-2006 **Senior Director**
1998-2002 **Principal Consultant**
1992-1998 **Senior Associate**
Responsible for business, product, and program development; supported, advised, and consulted with Institutional Development staff on responses to, or leadership of, proposal writing efforts. Mentored staff with potential as conceptual, program, or project leadership. Collaborated with other senior leaders in the organization to develop business strategy; explored new markets for McREL products and services, managed relationships with major sponsors or other important funding agencies; served as key contact for partners. Represented the organization in a variety of contexts; prepared scholarly publications and reports for submission to refereed journals and presentation at regional and national conferences; interacted with important policy groups at national level and promoted positive image of the organization. Served as the Principal Investigator on funded projects, managing budgets, staffing, and timelines to ensure successful completion of project; participated in the design and development of training materials and provision of technical assistance in areas of expertise.

1991-1992 **Education Consultant**
Facilitated meetings of the Eighth Grade Curriculum Writing Project and assisted teachers in the development of instructional materials for the Providence School Department. Provided technical assistance to The College Board, Project EQUITY 2000 in Providence.

1987-1992 **Editorial Consultant**
Janson Publications, Providence, RI
Responsible for making recommendations concerning which manuscripts to publish, editing and authoring manuscripts, preparing product descriptions for catalogue, and making product presentations at mathematics teacher conferences.

1979-1984 **Teacher**
Air Academy High School, Colorado Springs, CO – high school mathematics (1983-1984)
Washoe High School, Reno, NV – high school science and mathematics in an alternative school setting (1979-1983)
Truckee Meadows Community College, Reno, NV – Basic mathematics (1979-1980)

1977-1979 **Graduate Research Assistant**
Colorado State University, Fort Collins, CO
Responsible for conducting research studies in meteorology using geostationary satellite data.

1974-1977 **Meteorological Observer**
U.S. Army active duty, White Sands Missile Range, NM
Assist researchers in the interpretation and application of meteorological satellite data.

SELECTED PROJECT EXPERIENCE

Major responsibilities have included leading and participating in projects in a variety of areas including standards implementation, school and district improvement, technical assistance to states, and development of products, such as McREL's *Success in Sight*—a systemic approach to continuous improvement.

Teacher as Researcher (2023–2025)
Multiple projects sponsored by state and local education agencies and institutes of higher education; conducted in various sites:

- South Carolina Department of Education
  Initiative involved 189 teachers in 42 schools across 22 districts and 2 teacher preparation programs (Coastal Carolina University and University of South Carolina Aiken)
- Texas A&M International University

Facilitated professional learning sessions and coached classroom teachers to build skills in testing and evaluating instructional strategies through teacher-designed classroom experiments.

Ohio Leadership for Inclusion, Implementation, and Instructional Improvement (2020–present)
Funded by the Ohio Department of Education through a grant to the University of Cincinnati
Summarize and present research on effective leadership to improve student outcomes. Plan and facilitate professional development for 45-50 experienced leadership coaches assigned to coach principals who are leading their schools in implementing evidence-based inclusive instructional practices. The professional development series for coaches combines research on effective school leadership and change with research-based practices and principles for leadership consultants and

coaches. The training is designed in collaboration with staff from the Systems Development and Improvement Center at the University of Cincinnati and delivered through a combination of virtual full-day professional development sessions and periodic hour-long webinars.

Ohio State Support Team (SST) Statewide Professional Development 2020–Present
Funded by the Ohio Department of Education through a grant to the University of Cincinnati
Train SST staff in research and best practice for facilitating change and improvement as an external change agent. The state of Ohio funds regional State Support Teams that employ consultants with expertise in school improvement areas such as special education, multi-tiered systems of support, leadership, and content-based instruction and assessment. The project provides training in performance coaching to expand the skillset of SST consultants from subject matter experts to coaches who can draw on their subject matter expertise and a strong coaching skillset to facilitate learning and growth in professional educators and leaders in the schools and districts their SSTs are assigned to serve. The training is designed and delivered in collaboration with the Ohio Department of Education and staff from the Systems Development and Improvement Center at the University of Cincinnati. The training is delivered in monthly 3-hour core sessions and includes monthly smaller-group professional learning community sessions of SST consultants in which participants deepen and apply their learning from the core sessions.

Regional Educational Laboratory (REL) Central (2017-2022)
U.S. Department of Education
Serve as consultant providing technical assistance for three Research Alliance projects with SEAs: development of leader and teacher evaluation systems and special education staffing guidelines in WY and development of the ND Native American Needs Assessment and associated action plan. Presented a webinar on family engagement in education reform. Also assisting with development of the research partnership in WY.

Teacher Leadership Micro-Credentials Development Project (2018-2019)
Colorado ASCD
Developed three teacher leadership micro-credentials for CO ASCD as part of its efforts to promote and recognize teacher leadership. The micro-credentials provide teachers opportunities to demonstrate that they have developed a range of leadership skills that enable them to work collaboratively with colleagues to improve teaching and learning.

High School Assessment in North Dakota (Fall 2018)
North Dakota Department of Public Instruction (NDDPI)
Assisted the state in preparing its high school assessment plan for peer review.

Regional Educational Laboratory (REL) Pacific (2013-2015)
U.S. Department of Education
Served as interim REL Pacific director (February-June 2015) and as co-leader of Task 3 (August 2013-June 2015). As director, provided guidance and oversight for all REL tasks, managed staffing and budgets, reviewed materials, managed relationships with REL subcontractors and board members from each state/entity, and interacted with U.S. Department of Education staff about the progress of the REL work. As Task 3 co-lead, provided oversight to research/practice partnership projects that provided training and technical assistance on such topics as using a systematic data process, developing research questions, developing college and career readiness indicators, understanding longitudinal data systems, and engaging parents and community members in schools. Assisted staff in developing training materials, reviewed materials, coordinated work with other tasks, wrote reports, and worked with staff to develop annual plan.

Colorado Close the Achievement Gap Project (2009-2011)
Roaring Fork School District, Glenwood Springs, CO
Served as Project Director, provided leadership to McREL staff who provided professional development to help principals monitor instruction and support teachers in improving instructional practice and help teachers use research-based instructional strategies, especially with ELL students. Provided professional development and technical assistance to the district leadership team to help them design and implement the district's initiative to close the achievement gap between groups of students.

Success in Sight* Development Project *(2008–2009)
Co-authored six professional development modules to guide principals and their school leadership teams in learning how to lead school improvement. The modules help teams use a continuous improvement process that includes using a four-step data process, use research-based practices associated with improved student achievement, and share leadership for improvement. Provided guidance to teams implementing the Success in Sight professional development and associated technical assistance in 26 schools.

North Central Comprehensive Center (2006–2008)
U.S. Department of Education
Served as Director, oversaw the work of state liaisons as they designed and carried out a plan of work for each of five states, provided technical assistance for specific projects in the states, managed the budget ($1.3 million per year), worked with directors of other centers in the comprehensive center network to design and carry out collaborative projects, and maintained relationships with chief state school officers and Advisory Board members.

Professional Experience

Marzano Research, Denver, CO **2020–Present**
Managing Senior Education Improvement Specialist (2023-Present)
Training, Coaching, and Technical Support Lead-REL NW (2022-Present)
Senior Educational Improvement Specialist (2020-2021; 2022-2023)
Portland Public Schools, Portland, OR **2017–2022**
Interim Senior Director-Academic Programs (2021-2022)
Director-Advanced Academics (2021-2022)
Director-High School Success (2019–2020)
Administrator-Reconnection Services (2017–2019)
Project Director-Education Innovation and Research (EIR) Grant (2017–2019)
Education Northwest, Portland, OR **2013–2017**
Senior Advisor (2014–2017)
Advisor - Technical Assistance (2013–2014)
Outside In, Portland, OR **2006–2013**
Principal
Manual Arts High School, Los Angeles, CA **2000–2005**
Social Studies Department Chair (2001–2004)
Social Studies Teacher (2000–2005)
KTC Foreign Language Institute, Okazaki, Japan **1998–1999**
English as a Foreign Language Teacher/District Leader

Selected Project Experience

Regional Educational Laboratory Northwest (REL NW) **2022–2025**
Funded by the Institute of Education Sciences (Contract # ED-IES-22-C-0009)
Role: Training, Coaching, and Technical Support Lead

Provided oversight for REL NW training, coaching, and technical support projects. Responsible for development, implementation, and monitoring of REL NW projects. Members of REL NW leadership team.

Principal as Researcher Ohio-specific Strategies Database Development **2025–Present**
Funded by the Ohio Association of Elementary School Administrators
Role: Project Lead, Content Developer

Developing a leadership strategies database for Principal as Researcher implementation specific to Ohio school and district leaders' context using national evidence-based leadership literature and Ohio frameworks. This resource will serve as a curated menu of well-defined, evidence-based leadership strategies aligned with learning science and statewide goals for leadership, instruction, and system improvement, with emphasis on priority areas such as early literacy and MTSS implementation. Participants will use this database to design and implement their school-based improvement cycles.

Idaho American Indian/Alaska Native Education Instructional Resources **2024–2025**
Funded by the Institute of Education Sciences REL Northwest (Contract # ED-IES-22-C-0009)
Role: Project Lead

Led a training and technical support project to help the Idaho Indian Education Committee and the Idaho State Department of Education collect, curate, and disseminate culturally responsive evidence-based and locally developed resources designed to meet the needs of Native students and educators.

Equitable Accelerated Learning **2023–2025**
Funded by the Oregon Department of Education: American Rescue Plan (ESSER III)
Role: Project Lead

Provided technical assistance and coaching designed to address unfinished learning, specifically in literacy and mathematics. Supported a leadership team and teacher leaders as they implemented projects to address inequities in the state's educational system exacerbated by the pandemic.

Teacher as Researcher **2021–Present**
Multiple projects sponsored by state and local education agencies and institutes of higher education; conducted in various sites:

- *Denali Borough School District, Healy, Alaska*
- *South Carolina Department of Education*
  - *Initiative involved 189 teachers in 42 schools across 22 districts and 2 teacher preparation programs (Coastal Carolina University and University of South Carolina Aiken)*
- *Texas A&M International University*

Role: Project Lead, Coach, Facilitator, Content Developer

Facilitated professional learning sessions and coached classroom teachers and pre-service teachers to design and implement quasi-experimental action research projects that develop their understanding and use of evidence-based instructional strategies.

Technical Assistance for Alaska Trauma Engaged Alternative Schools **2023–2025**
Funded by the Institute of Education Sciences REL Northwest (Contract # ED-IES-22-C-0009)
Role: Project Lead

Led a training and technical support project to support 13 Alaska alternative schools to use continuous improvement cycles to field test evidence-based trauma-informed strategies.

REL Central LEAD Fellowship Program **2020–2022**
Funded by the Institute of Education Sciences REL Central (Contract # ED-IES-17-C-0005)
Role: Project Lead

Led a project to convene state education agency representatives from each of the seven states in the REL Central region to build their capacity to use data and evidence to identify and address high-leverage education needs in their local contexts.

Nebraska Department of Education Comprehensive Needs Assessment **2020–2022**
Funded by the Institute of Education Sciences REL Central (Contract # ED-IES-17-C-0005)
Role: Project Lead

Led a technical support project with the Nebraska Department of Education (NDE) to convene stakeholders from NDE, local education agencies, and education service units to revise a comprehensive needs assessment instrument for use by all Nebraska schools.

Academic Programs at Portland Public Schools **2021–2022**
Role: Interim Senior Director of Academic Programs and Director of Advanced Academics

Provided senior leadership for 14 k-12 academic programs, including Talented and Gifted education, Advanced Placement, International Baccalaureate, English as a Second language, Dual Language Immersion, Health and PE, and Arts and Music. Managed 70 directors, assistant directors, and teachers on special assignment.

Reconnection Services at Portland Public Schools **2017–2019**
Role: Director

Directed the district's dropout recovery and prevention system, which served approximately 1,100 students per year who were disengaged, or were in the process of disengaging, from their education. Managed a staff of 15 case managers, social workers, counselors, and teachers who addressed students' social-emotional and academic needs and supported the re-enrollment of students into comprehensive and alternative schools.

High School Success Act at Portland Public Schools **2019–2020**
Funded by the Oregon Department of Education
Role: Director

Directed activities funded by Portland Public Schools' annual $10.8 million Oregon Department of Education High School Success allocation. Worked with stakeholders to develop the district's high school strategic plan, managed an annual $10.8 million budget, and provided oversight for grant-funded activities that included: implementation of a ninth-grade success team model at 12 high schools; expansion of career and technical education opportunities for 15,000 students; expansion of access to advanced coursework opportunities (i.e. AP, IB, Dual Credit); dropout prevention and chronic absenteeism programming and supports.

Personalized, Relevant, Engaged for Post-secondary (PREP) Project **2017–2019**
Funded by the U.S. Department of Education: Education, Innovation, and Research (EIR) Grant (U411C170253)
Role: Project Director

Directed this $3.9 million project designed to improve college and career readiness outcomes for students in three alternative schools by implementing project-based learning, career and technical education, and social emotional support.

American Indian/Alaska Native Network **2014–2017**
Funded by the US Department of Education Northwest Comprehensive Center
Role: Project Lead

Provided technical assistance to Northwest state and tribal education agency Indian Education Directors. Facilitated a community of practice and supported implementation of projects designed to improve outcomes for American Indian/Alaska Native students.

Northwest Rural Innovation and Student Engagement (RISE) Network **2013–2017**
Funded by the US Department of Education Northwest Comprehensive Center
Role: Project Lead

Managed a multi-state network of small rural districts. Activities included planning and facilitating semi-annual conferences, facilitating monthly steering committees, and recruiting new districts.

Outside In Alternative School **2006–2013**
Role: Principal

Created and led an alternative school for homeless youth in Portland.

Selected Project Experience

Literacy Professional Learning and Technical Assistance Services **2022–present**
Funded by the Comprehensive Literacy State Development grant from the Wyoming Department of Education and the US Department of Education; conducted in various sites:

- *Converse County School District #1, Douglas, WY*
- *Laramie County School District #2, Cheyenne, WY*
- *Park County School District #16, Meeteetse, WY*

Role: Project Lead, Training, Coaching and Technical Support

Works with local education agencies across the state to provide technical assistance and evidence to improve PreK–12 literacy and multi-tiered systems of support (MTSS) programming. Uses data to inform action planning and sustained improvement practices. Provides coaching and professional learning to adopt K–12 evidence-based ELA curriculum materials, develop comprehensive balanced assessment systems, establish leadership and team-based data analysis processes, and develop MTSS frameworks, high leverage instructional playbooks, and PreK–12 literacy plans.

Wyoming Regional Data Retreat **2022–present**
Funded by the Comprehensive Literacy State Development grant from the Wyoming Department of Education and the US Department of Education
Role: Training, Coaching and Technical Support

Provides state-wide professional learning and coaching services to develop data literacy and institute a data-analysis process for data-informed decision-making and continuous improvement action planning and implementation.

Teacher as Researcher **2023–2025**
Multiple projects sponsored by state and local education agencies and institutes of higher education; conducted in various sites:

- *South Carolina Department of Education*
    - *Initiative involved 189 teachers in 42 schools across 22 districts and 2 teacher preparation programs (Coastal Carolina University and University of South Carolina Aiken)*

Role: Coach, Facilitator

Facilitated professional learning sessions and coached classroom teachers to build skills in testing and evaluating instructional strategies through teacher-designed classroom experiments.

Professional Learning and Coaching for Literacy Coaches **2023–2024**
Funded by the Comprehensive Literacy State Development grant from the North Dakota Department of Education and the US Department of Education
Role: Training, Coaching and Technical Support

Provided professional learning and coaching services to deepen state-wide literacy coaches' understanding and application of evidence-based literacy and instructional coaching practices. Works with the state department leadership to develop capacity to evaluate their own impact.

Declining Enrollment Community Engagement **2023**
Funded by Denver Public Schools
Role: Project Lead/Facilitator

Coordinated community engagement activities and gathered community input on solutions for declining enrollment in the district. Planned and conducted community meetings, administered community survey, conducted virtual meetings with community partners, analyzed and reported results.

Evidence-based Literacy Practices Community of Practice Facilitation **2022–2025**
Funded by the Institute of Education Sciences, Regional Educational Laboratory – Northwest Region
Role: Training, Coaching and Technical Support

Supported state leaders from Oregon, Washington and Montana to join their peers across the northwest to share successes, discuss areas of challenge, and help SEAs promote evidence-based practices that yield improved outcomes for both educators and learners.

Oregon Literacy Initiative Partnership **2022–2025**
Funded by the Institute of Education Sciences REL Northwest (Contract #91990022C0009)
Role: Training, Coaching and Technical Support

Supported the Oregon Department of Education with integrating evidence-based practices and educator and community leader focus group expertise into new K–5 Early Literacy Framework. Provided evaluation support for Oregon's Early Literacy Success School District Grants. Led continuous improvement cycles to identify exemplar districts implementing evidence-based practices.

School Improvement Technical Assistance Services **2022–2023**
Funded by the Bellevue Community Schools, Michigan
Role: Training, Coaching and Technical Support

Provided technical assistance and research practices to a rural school district to evaluate a district-wide Multi-Tiered System of Support. Provided coaching and professional learning to develop and publish a K–12 Instructional Framework aligned to evidence-based instructional practices.

Idaho Superintendent's Network Facilitation **2022–2023**
Funded by the Idaho Department of Education
Role: Training, Coaching and Technical Support

Designed and facilitated professional learning and coaching services, focusing on successful superintendent leadership to strengthen learning organizations.

Professional Learning in Data-Driven Instruction **2021–2022**
Training provided by NWEA
Role: Professional Learning Consultant and Improvement Coach

Facilitated more than 100 professional learning sessions, both nationally and internationally on data analysis, using data to inform instruction and best teaching practices with a 93% satisfaction rate via performance survey data.

School Administrator Licensure Program Development **2021–2022**
Role: Consultant to the University of Montana

Designed online coursework for new administrators across Montana, using improvement science research and practices.

Missoula County Public Schools, Missoula, MT **2016–2022**
Role: Executive Director of Teaching and Learning

Initiated a K-12 Science of Reading Literacy Framework and K-12 Mathematical Practices Framework and increased student achievement by 6% according to state-wide test. Transformed the 6–12 Career Technology Education program to meet regional labor market trends with 93% graduation rate. Installed a K–9 benchmarking assessment that shows 75% of schools reaching 80% proficiency in ELA and Math. Founded a New Staff Mentor Program to increase retention and job satisfaction with a 73% retention rate. Developed a PreK–12 Professional Learning Model for 700 teachers based on national professional learning standards with 96% satisfaction rate.

International Baccalaureate Organization, Bethesda, MD **2011–2023**
IB Educator Network: Workshop Leader, Consultant, Site Visitor
Longfellow Middle School, San Antonio Independent School District, San Antonio, TX **2016–2018**
Principal
Linked Learning Department, Houston Independent School District, Houston, TX **2014–2016**
Director, Linked Learning
Manager, Career and Technical Education
Lanier Middle School, Houston Independent School District, Houston, TX **2007–2014**
Assistant Principal
International Baccalaureate Middle Years & Gifted and Talented Magnet Coordinator
History Teacher
Colegio Jorge Washington, Cartagena, Colombia **2006–2007**
6th Grade Social Studies Teacher
The American School of Tampico, Tampico, Tamaulipas, Mexico **2004–2006**
10th and 7th Grade Social Studies Teacher

Selected Project Experience

Foundational Review and Analysis for Employability Skills Framework 2.0 **2024–present**
Funded by the U.S. Department of Education, Office of Career, Technical, and Adult Education (Contract # 91990023D0030)
Role: Panel and Practitioner Lead

Leads the expert panel participation of a comprehensive literature scan to support the development of a revised employability skills framework. Supports industry experts in identifying emerging trends in employability, career readiness, and stakeholder needs, providing actionable insights to inform future educational strategies.

High School Success Plan Implementation in Oregon **2023–2025**
Funded by the Institute of Education Sciences REL Northwest (Contract #91990022C0009)
Role: Project Lead

Leads a project for Portland Public Schools and ensures that technical support projects, tools, and other materials meet Institute of Education Sciences (IES) standards. Partners with Portland Public Schools (PPS) to support PPS in evaluating the implementation of their High School Success Plan.

Assessment Collaborative Strategic Planning **2023-present**
Funded by the Smarter Balanced Assessment Collaborative
Role: Project Team Member

Providing technical assistance to a large, collaborative assessment organization to: 1) interpret feedback about and success of strategic planning to date; 2) collect interest holder feedback at student, parent, teacher, school/district, state and national levels; 3) use feedback to infuse interest holder voice into strategic plan goals; 4) create a monitoring plan for strategic plan; 4) co-create text for strategic plan. Oversight of research teams, creation of communications plans, co-creation of plan text, support for organizational staff to navigate state-level politics during data collection and planning process.

Request for Proposal (RFP) Development for a State Assessment **2024**
Funded by a State Education Agency
Role: Project Team Member

Provided technical assistance to a state department of education to analyze feedback collected from stakeholder groups across the state related to statewide assessment and reporting; analyzed the feedback and crafted potential recommendations for an assessment RFP. Created a RFP that blended state voice, best practices for RFP development, and federal and state requirements. Provided coaching for new state assessment staff. Co-created RFP text.

Education Evaluation System Development **2023–2024**
Funded by the Lower Kuskokwim School District, Bethel, Alaska
Role: Co-Lead

Collaborated with district leaders to build state-of-the-art evaluation systems for administrators, classified staff members, and teachers. Summarized evidence-based practices in educator evaluation systems and processes and facilitate committees of administrators, school board members, teachers, and classified staff in making decisions rooted in best evidence and local native contexts.

Literacy Professional Learning and Technical Assistance Services **2023–2025**
Funded by the Comprehensive Literacy State Development grant from the Wyoming Department of Education and the US Department of Education
Role: Project Team Member

Provides professional learning and coaching services to create, evaluate, and implement a PreK–12 literacy plan aligned to the Wyoming State Literacy Initiative in a number of school districts.

Equitable Accelerated Learning **2023–2024**
Funded by the Oregon Department of Education: American Rescue Plan (ESSER III)
Role: Project Team Member

Provided technical assistance and coaching services to a project designed to address unfinished learning, specifically in literacy and mathematics. Supported a leadership team and teacher leaders as they implemented projects to address inequities in the state's educational system exacerbated by the pandemic. Facilitated development of a professional learning network to sustain ESSER funded improvement initiatives.

Teacher as Researcher **2023–2025**
Multiple projects sponsored by state and local education agencies and institutes of higher education; conducted in various sites:

- *South Carolina Department of Education*
    - *Initiative involved 189 teachers in 42 schools across 22 districts and 2 teacher preparation programs (Coastal Carolina University and University of South Carolina Aiken)*
- *Texas A&M International University*

Role: Coach, Facilitator, Content Developer

Facilitated professional learning sessions and coached classroom teachers and pre-service teachers to design and implement quasi-experimental action research projects that develop their understanding and use of evidence-based instructional strategies. For Texas A&M International University initiative, created communications, resource design and outreach plans and materials to support the pre-service teacher training initiative.

School Improvement Technical Assistance Services **2023**
Funded by the Bellevue Community Schools, Michigan
Role: Training, Coaching and Technical Support

Provided technical assistance and research practices to a rural school district. Provided coaching and professional learning to develop and publish a K–12 Instructional Framework aligned to evidence-based instructional practices.

College and Career Readiness at Portland Public Schools **2018–2023**
Role: Senior Director of College and Career Readiness
Provided senior leadership for academic programming including Career and Technical Education, Talented and Gifted education, Advanced Placement, International Baccalaureate, and GEAR UP. Managed directors, assistant directors, managers, and teachers on special assignment.

High School Success Act Implementation at Portland Public Schools **2018–2023**
Funded by the Oregon Department of Education
Role: Senior Director

Directed activities funded by Portland Public Schools' annual $10.8 million Oregon Department of Education High School Success allocation. Worked with stakeholders to develop the district's high school strategic plan, managed an annual $10.8 million budget, and provided oversight for grant-funded

activities that included: implementation of a ninth-grade success team model at 12 high schools; expansion of career and technical education opportunities for 15,000 students; expansion of access to advanced coursework opportunities (i.e., AP, IB, Dual Credit); dropout prevention and chronic absenteeism programming and supports.

College and Career Pathways Grant Implementation at Portland Public Schools **2019–2022**
Funded by the U.S. Department of Education: Perkins Innovation and Modernization Program Grant
Role: Senior Director

Supervised the Portland Public School district's grant project to implement a system of college and career pathways to make Career and Technical Education (CTE) an integral part of students' educational experience, and with strong emphasis on STEM and Computer Science (CS) aligned across the high school curriculum. Working with ConnectED: The National Center for College and Career, the project provided leadership development to district staff, including high school principals, pathway directors, and teachers, to create Linked Learning pathways and design a district-wide system of work-based learning.

Linked Learning at Houston Independent School District **2015–2016**
Funded by the U.S. Department of Education: Race to the Top Grant
Role: Director

Served as the Project Director for the Linked Learning and Race to the Top Grant department in Houston Independent School District. Oversaw grant implementation at 27 high school campuses and the pathway pilot project at 4 middle school campuses. "Linked Learning," a new model of teaching from elementary through high school, enables students to begin early college and career readiness through project-based learning. Linked Learning programs integrate core academics with a career focus and raise expectations for students. Core subjects are mastered through the power of applying knowledge in a real-world context. Students learn by addressing authentic challenges and situations customary to the modern workplace.

Selected Project Experience

Evaluation of Alaska Comprehensive Literacy State Development Grant **2025–Present**
Funded by the Alaska Department of Education and Early Childhood through a US Department of Education Comprehensive Literacy Development Grant
Role: Project Lead

Leads activities for a mixed-methods evaluation of Alaska's Comprehensive Literacy State Development grant. Activities include document review, surveys, focus groups, student literacy screening and assessment, and facilitation of data use. Provides continuous performance feedback to the Alaska Department of Education and Early Learning and support for federal reporting.

Foundational Review and Analysis for Employability Skills Framework 2.0 **2024–present**
Funded by the U.S. Department of Education, Office of Career, Technical, and Adult Education (Contract # 91990023D0030)
Role: Analysis Lead

Leads the analysis and synthesis of a comprehensive literature scan to support the development of a revised employability skills framework. Conducts research to identify emerging trends in employability, career readiness, and stakeholder needs, providing actionable insights to inform framework updates.

Evaluation of the Ohio Department of Education and Workforce State Support Teams **2024–present**
Conducted in partnership with the American Institutes of Research
Role: Qualitative Lead

Leads qualitative data collection and analysis for the external evaluation of Ohio's State Systems of Support. Conducts analysis of educator surveys, student data, and focus group interviews to generate insights about the features of the support and district and school leaders' satisfaction with services.

Evaluation of Wyoming Believing in Literacy Together Initiative **2023–Present**
Funded by the Wyoming Department of Education through a US Department of Education Comprehensive Literacy Development Grant
Role: Co-lead

Co-leads a mixed-methods evaluation of Wyoming's Comprehensive Literacy State Development grant, including statewide implementation and district-level implementation of subgrants. Activities include document review, quantitative and qualitative analysis of educator surveys, quantitative analysis of student-level data, and qualitative analysis of interviews and focus groups.

Teacher as Researcher **2023–2025**
Multiple projects sponsored by state and local education agencies and institutes of higher education; conducted in various sites:

- *South Carolina Department of Education*
  - *Initiative involved 189 teachers in 42 schools across 22 districts and 2 teacher preparation programs (Coastal Carolina University and University of South Carolina Aiken)*
- *Texas A&M International University*

Role: Coach, Facilitator, Evaluator

Contributed to the implementation and evaluation of the Teacher as Researcher program, which supports educators in understanding and identifying evidence-based strategies, testing them in the classroom, and using the results to adjust their instruction. Conducted qualitative analysis of data to support continuous improvement and determine the impact of the program. Also coached classroom and pre-service teachers to design and implement quasi-experimental action research projects that develop their understanding and use of evidence-based instructional strategies.

Exploratory Study of the Student Mentorship for Literacy Program **2023–2024**
Working in the Schools (WITS), Chicago
Role: Project lead

Conducted an evaluation in Chicago Public Schools to examine the WITS adult volunteer student mentorship programs and their contributions to students' literacy development, attitudes toward reading, and social emotional learning. Designed the study plan and oversaw instrument development, data collection, analyses, and report writing. Also designed and delivered capacity building activities to support WITS staff in leading ongoing evaluation activities.

Asset Mapping and Needs Assessment for Community Schools in New Mexico **2023–2024**
Ojo Amarillo Elementary School and Kirkland Middle School
Role: Consultant

Provided consulting services to conduct an asset map and a needs assessment as part of a community schools initiative in the Central Consolidated School District in New Mexico. Services included designing and implementing plans for data collection and assisting with the development of the community schools' strategic plans.

Assessment for Good **2021–2023**
A program under the Advanced Education Research and Development Fund (AERDF)
Role: Senior Manager

Assessment for Good (AFG) is a program focused on leveraging inclusive and community-informed research and development to push the field of assessment to move towards the development and implementation of assessment practices that are identity-affirming, equity-focused, and asset-based, and to improve the educational experiences and social-emotional outcomes for Black and Latino students, ages 8-13. Actively managed funded projects to ensure progress towards milestones and deliverables, alignment to programmatic goals, and implementation of inclusive research and development practices.

School and Community Pathways to Engagement **2018**
Funded by the William T. Grant Foundation
Role: Co-Principal Investigator

Co-led the School and Community Pathways to Engagement (SCoPE) Project, a longitudinal mixed-methods study of adolescents' social-emotional learning, ethnic-racial identity and sociopolitical development, and civic engagement. The project was conducted by the Contexts of Academic and Socioemotional Adjustment (CASA) Lab at the University of Michigan in partnership with a school district in Illinois and the Collaborative for Academic, Social, and Emotional Learning (CASEL).

Understanding the Educational Opportunities of Recently-arrived Puerto Rican Students **(2018)**
Funded by Chiefs for Change
Role: Co-Principal Investigator

Co-led, in partnership with a school district in Florida, a mixed-methods project to study the educational transitions of hurricane-displaced Puerto Rican high schoolers who moved to Florida in the aftermath of Hurricane Maria. The project also evaluated the district's response to this large and unexpected influx of students. The final report submitted to the school district partner in Florida aimed to support the district's commitment to providing equitable educational opportunities for students experiencing displacement.

Equitable Futures: Exploring How Youth's Background Impacts Agency and Understandings of Inequality **(2016)**

Funded by The University of Michigan

Role: Co-Principal Investigator

Co-led the design, implementation, and research activities for the Equitable Futures Project, an educational program designed to create and support a network of teachers and students across boundaries of race, class, and geography to collaboratively research and problem solve around issues of inequity in southeastern Michigan. This high school program provided professional learning opportunities to educators around the implementation of justice-oriented project-based social studies instruction and connected students in three counties through a project-based learning approach as they analyzed data to investigate inequalities and then explored their historical antecedents.

Cherry Creek School District, Aurora, CO — **2004–2022**
English Language Support Specialist, K-5 (2021-2022)
4th Grade Teacher (2020-2021)
Elementary Literacy Coordinator (2018-2020)
Instructional Coach, K-5, Cimarron Elementary School (2013-2018)
Reading and Math Interventionist (2012-2013)
3rd Grade Teacher (2004-2012)

Selected Project Experience

Alaska Virtual Learning Consortium for Literacy — **2025–present**
Funded by the Alaska Department of Education and Early Development
Role: Training, Coaching and Technical Support

Provides facilitation and coordination support for the development and implementation of the Virtual Learning Consortium to meet the requirements of the Alaska Reads Act and the current needs of districts in delivering virtual content.

Foundational Review and Analysis for Employability Skills Framework 2.0 **2024–present**
Funded by the U.S. Department of Education, Office of Career, Technical, and Adult Education (Contract # 91990023D0030)
Role: Research Support

Supports the environment and research scan of current employability skills content related to the identified topics and questions, such as the definition of employability skills, current and emerging trends, current gaps in teaching and learning, and recommendations to address the gaps and enhance employability skills development.

Regional Educational Laboratory (REL) Northwest **2023–present**
Funded by the Institute of Education Sciences REL Northwest (Contract #91990022C0009)
Role: Training, Coaching and Technical Support

Contributed to a portfolio of projects (AK Strategic Literacy, OR Literacy Framework, WA Rural Alliance Blended Learning, Community of Practice-Literacy) designed to support state and local leaders in using research to inform improved outcomes, specifically in PreK-12 literacy and effective instructional practices. Supports multiple teams and projects to ensure that technical support projects, tools, and other materials meet IES standards.

Literacy Professional Learning and Technical Assistance Services **2023–present**
Funded by the Comprehensive Literacy State Development grant from the Wyoming Department of Education and the US Department of Education; conducted in various sites:

- *Converse County School District #1, Douglas, WY*
- *Laramie County School District #2, Cheyenne, WY*
- *Park County School District #16, Meeteetse, WY*

Role: Training, Coaching and Technical Support

Works with local education agencies across the state to provide technical assistance and research to evaluate PreK-12 literacy and multi-tiered systems of support programming. Uses data to inform action planning and sustained improvement practices. Provides coaching and professional learning to adopt K-12 evidence-based ELA curriculum materials, develop comprehensive balanced assessment systems, establish leadership and team-based data analysis processes, and develop multi-tiered systems of support frameworks, high leverage instructional playbooks and PreK-12 literacy plans.

Teacher as Researcher **2023–2025**
Multiple projects sponsored by state and local education agencies and institutes of higher education; conducted in various sites:

- *South Carolina Department of Education*
    - *Initiative involved 189 teachers in 42 schools across 22 districts and 2 teacher preparation programs (Coastal Carolina University and University of South Carolina Aiken)*

Role: Coach, Facilitator

Facilitated professional learning sessions and coached classroom teachers to build skills in testing and evaluating instructional strategies through teacher-designed classroom experiments.

Oregon Department of Education American Indian/Alaska Native Data Disaggregation **2023**
Funded by Region 16 Comprehensive Center; conducted for Oregon Department of Education (ODE)
Role: Project Coordinator

Supported the ODE's Office of Indian Education in identifying barriers and solutions for improving data collection processes of Oregon's Native American students. The work included the development of a logic model and interview protocols to use with ODE staff and local education agencies in Oregon. Used data collected from the interviews to develop Technical Working Group sessions with ODE leadership and staff to identify solutions to address data collection challenges.

School Improvement Technical Assistance Services **2022–2023**
Funded by the Bellevue Community Schools, Michigan
Role: Training, Coaching and Technical Support

Provided professional learning and coaching services to create and evaluate a PreK-12 Multi-Tiered System of Support, including establishing an Instructional Framework and evidence-based instructional practices.

Selected Leadership and Teaching Experience

English Language Support Specialist **2021–2022**
Cherry Creek School District, Aurora, CO
Partnered with classroom teachers and specialists to plan and implement accessible learning experiences for students of all English language proficiency levels. Co-planned and co-taught daily with 7 classroom teachers, delivering instruction to over 150 students, including 57 multilingual learners representing 13 different languages.

Online Teacher **2020–2021**
Cherry Creek School District, Aurora, CO
Responsible for grade-level content instruction for 40 students in a virtual setting. Designed and delivered both synchronous and asynchronous instruction daily, while monitoring the progress and differentiating for the needs of the diverse learners.

Elementary Literacy Coordinator **2018–2020**
Cherry Creek School District, Aurora, CO
In a district serving over 55,000 students, worked directly for the Director of Curriculum & Instruction, and communicated closely with the Superintendent of Performance Improvement and the Executive Directors of Elementary Education, to steer the districtwide vision for elementary literacy. Prioritized alignment with the strategic plan and coordinated systemic change based on historical data, current science, and professional best practices.

Instructional Coach, K-5 **2013–2018**
Cherry Creek School District, Aurora, CO
Cultivated a trustworthy, collaborative partnership for educators to continually grow and improve. Advocated for, designed, and implemented reflective coaching cycles and continuous improvement practices.

Classroom Teacher and Interventionist **2004–2013**
Cherry Creek School District, Aurora, CO
Responsible for all grade-level content instruction for assigned students, as well as behavior management and community-building. Also served as the reading and math interventionist for students demonstrating academic needs. Grades taught include second, third, fourth, and fifth.

Selected Project Experience

Enhancing the Instructional Value of Statewide Assessments: Coherence and Alignment for Educators and Families (CAEF) **2024–Present**
Funded by the Nebraska Department of Education through a grant awarded by U.S. Department of Education.
Role: Team Co-lead

Conducting a process and outcomes evaluation of the Nebraska Department of Education's *Enhancing the Instructional Value of Statewide Assessments: Coherence and Aligns for Educators and Families (CAEF) project.* The goal of this state initiative is to improve state assessment reporting accessibility and usability for schools, teachers, students, and families. This is a continuation of the project below titled, *Nebraska Department of Education's Assessment Procurement Support.*

Teacher as Researcher **2023–2025**

Multiple projects sponsored by state and local education agencies and institutes of higher education; conducted in various sites:

- *South Carolina Department of Education*
    - *Initiative involved 189 teachers in 42 schools across 22 districts and 2 teacher preparation programs (Coastal Carolina University and University of South Carolina Aiken)*

Role: Coach, Facilitator

Facilitated professional learning sessions and coached classroom teachers and pre-service teachers to design and implement quasi-experimental action research projects that develop their understanding and use of evidence-based instructional strategies.

Community Schools Needs Assessment and Asset Mapping **2023–2024**

Funded by Central Consolidated School District, New Mexico

Role: Project Team Lead

Supported two schools within the Central Consolidated School District (New Mexico) that are carrying out community school planning year activities. This work includes the development of needs assessment survey instruments, focus group protocols, data analysis, root cause analysis facilitation, and strategic planning. Deliverables from this work will support school leaders in applying for New Mexico's Community Schools Implementation grant in 2024.

Wyoming Accountability in Education Act Impact Study **2022–2024**

Funded by the Wyoming State Board of Education and Wyoming Department of Education

Role: Researcher

Conducted focus groups and analyzed data for a study of the Wyoming Accountability System. The study describes the characteristics of schools in each of the four school ratings; reviews the indicators, weights, and targets in the system; and examines the movement of schools across the four ratings. The study examined school and stakeholder perceptions of the accountability system to provide important information about the influence of the system and how it might be made even stronger.

Oregon Department of Education American Indian/Alaska Native Data Disaggregation **2022–2023**

Funded by Region 16 Comprehensive Center.

Role: Project Team Lead

Supported the Oregon Department of Education's (ODE) Office of Indian Education in identifying barriers and solutions for improving data collection processes of Oregon's Native American students. The work included development of a logic model and interview protocols to use with ODE staff and local education agencies in Oregon. Data collected from the interviews was used to develop Technical Working Group sessions with ODE leadership and staff to identify solutions to address data collections challenges.

Oregon Department of Education American Indian/Alaska Native Data Disaggregation **2022–2023**

Funded by Region 16 Comprehensive Center.

Role: Project Team Lead

Supported the Oregon Department of Education's (ODE) Office of Indian Education in identifying barriers and solutions for improving data collection processes of Oregon's Native American students. The work included development of a logic model and interview protocols to use with ODE staff and local education agencies in Oregon. Data collected from the interviews was used to develop Technical Working Group sessions with ODE leadership and staff to identify solutions to address data collections challenges.

Colorado Center for Rural Education Program Evaluation **2022**
Funded by the Colorado Center for Rural Education
Role: Project Team Member

Administered a survey to collect data from rural teaching stipend recipients. Analyzed and reported on the results for a diverse audience.

Evaluation of Oregon's Tribal History Program **2021–2022**
Funded by Region 16 Comprehensive Center; conducted for Oregon Department of Education (ODE)
Role: Project Team Lead

Conducted an evaluation of the implementation of Oregon's Tribal History/Shared History program across the state. The statewide program provides a K–12 Native American Curriculum for inclusion in Oregon public schools, professional development to educators, and funding for each of the state's nine federally recognized tribes to create individual place-based curriculum. Our work on this project included developing and administering statewide surveys for teachers and administrators. We also conducted interviews and focus groups with Tribal History/Shared History partners, including educators, families, Tribal community members, and ODE staff.

Evaluation of Region IV Equity Assistance Center Program **2017–2021**
Funded by Metropolitan State University of Denver through a grant awarded by U.S. Department of Education.
Role: Project Team Member

Served as an external evaluator for the Region IV Educational Equity Assistance Center, one of four regional centers funded by the U.S. Department of Education under the Title IV of the Civil Rights Act of 1964. The center provided training and technical assistance on educational issues related to race, sex, national origin, and religion. Designed to provide formative and outcome feedback for the center's equity projects, the evaluation included quick turnaround and follow-up stakeholder surveys; selected case studies with site visits, document analysis, and stakeholder interviews; and support to ensure compliance for all federal reporting requirements.

North Dakota Native American Needs Assessment **2017–2023**
Funded by the Institute of Education Sciences REL Central (Contract # ED-IES-17-C-0005) and the North Dakota Department of Public Instruction (NDDPI)
Role: Project Team Lead

Refined the existing NDDPI Native American Needs Assessment Survey to collect information of greater depth and breadth on the most pressing issues and needs facing schools with high concentrations of American Indian students. Identified strategies for involving more stakeholders in the survey to gather multiple perspectives on the needs of American Indian students. Supported NDDPI in analyzing annual needs assessment data and identifying research-based strategies for schools based on survey results.

Examining the Impact of Career and Technical Education Course-Taking in Two States **2019–2021**
Funded by the Institute of Education Sciences REL Central (Contract # ED-IES-17-C-0005); conducted in partnership with the Nebraska Department of Education (NDE) and the South Dakota Department of Education (SD DOE).
Role: Project Team Member

Investigated the impact of student participation in CTE programs at the secondary level on secondary, postsecondary, and workforce outcomes.

Measuring Civic Readiness: A Review of Instruments **2019–2021**
Funded by the Institute of Education Sciences REL Central (Contract # ED-IES-17-C-0005)
Role: Project Team Member

As state education agencies reform their accountability systems, interest in identifying instruments to measure civic readiness has grown. This study identified and reviews instruments measuring civic readiness. The study report summarizes the content and format of the instruments as well as the associated evidence of the reliability and validity of the instruments.

Evaluation of the North Dakota Native American Essential Understandings Project **2019–2021**
Funded by the Institute of Education Sciences REL Central (Contract # ED-IES-17-C-0005); conducted in partnership with North Dakota Department of Public Instruction (NDDPI)
Role: Project Team Member

Worked collaboratively with NDDPI staff to design an evaluation plan for the implementation of the lessons aligned with the seven North Dakota Native American Essential Understandings. Supported the development of a comprehensive evaluation plan, including a logic model, intended short-, mid-, and long-term outcomes, evaluation questions, data needs, data collection instruments and procedures, and plans for data analysis.

Nebraska Department of Education Reading Strategies and Interventions **2018–2019**
Funded by the Institute of Education Sciences REL Central (Contract # ED-IES-17-C-0005); conducted in partnership with the Nebraska Department of Education (NDE).
Role: Project Team Member

Assisted NDE in developing a resource inventory of evidence-based interventions and strategies for reading and writing that educators can use for individualized reading plans and classroom instruction.

Marzano Research, LLC
Denver, CO + Portland, OR

720.463.3600 ext. 101
christopher.wolfe@marzanoresearch.com

Primary Areas of Expertise

- Research expertise: research design, randomized controlled trials, assessment development and validation, item response theory (IRT), power analysis, and reporting
- Content expertise: program evaluation, early learning, literacy/mathematics curriculum and instruction, Response to Intervention, special education, assessment and accountability

Education

PhD	Developmental Psychology, Georgia State University, Atlanta, GA	2007
MA	Psychology, Georgia State University, Atlanta, GA	2004
BA	Psychology, Hanover College, Hanover, IN	2000

Specialized Training, Certifications, Honors

WWC Group Design Certification/Reviewer	2022–Present
Advanced Longitudinal Modeling, University of Kansas	2010
American Education Research Association (AERA) Summer Statistical Institute: Statistical Analysis for Educational Policy	2010
National Center for Education Research, Institute of Education Sciences (IES), Summer Research Training Institute on Cluster Randomized Trials, Vanderbilt University	2009

Statistical expertise: SPSS, Mplus, Lisrel, HLM, Jamovi, & Winsteps

Professional Experience

Marzano Research, Denver, CO — **2022–Present**
Senior Researcher

College of Arts and Sciences, Saint Leo University, Saint Leo, Florida — **2014–2022**
Associate Professor, Psychology

School of Education, Indiana University – Kokomo — **2011–2013**
Assistant Professor, Educational Psychology

Department of Learning and Instruction, School of Education, SUNY - University at Buffalo — **2008–2011**
IES Postdoctoral Research Associate

Educational Consultant — **2006–2007**
Independent Contractor

Selected Project Experience

Success-Ready Student Network – Real-World Learning AI for Algebra — **2025–present**
Funded by the Missouri Department of Education
Role: Senior Researcher – Project Lead

Engage in the design of an Algebra assessment focusing on mastery, real-world learning, and utilizing input from stakeholders and AI. Drawing across the SRSN network of districts for expertise and

experience in crafting the basic design elements of the assessment and laying the groundwork to move beyond Algebra and into other content areas.

CTE Workplace Specialist Program Impact and Effectiveness Study **2025–present**
Funded by Indiana Commission for Higher Education
Role: Senior Researcher

Data analyst for an evaluation of Indiana's CTE Workplace Specialist I Training Program, using mixed methods to assess program effectiveness, instructor preparation, and workforce retention. Supports a multi-phase study involving stakeholder interviews, surveys, administrative data analysis, and cross-state comparisons to inform strategic improvements. Engaged in synthesizing findings into actionable recommendations to strengthen alternative teacher certification pathways and support long-term educator success.

Foundational Review and Analysis for Employability Skills Framework 2.0 **2024–present**
Funded by the U.S. Department of Education, Office of Career, Technical, and Adult Education (Contract # 91990023D0030)
Role: Senior Research

Support a project to conduct a comprehensive environment and literature scan to inform updates to the U.S. Department of Education's Office of Career, Technical and Adult Education (OCTAE) Employability Skills Framework. Designed an AI system to undertake components of a comprehensive environment and literature scan, analyzing current employability skills, and synthesizing information on skills critical for success in evolving jobs.

Success-Ready Student Network Data Analytics and Dashboards **2023–present**
Funded by the Kaufman Foundation and the Missouri Department of Education
Role: Senior Researcher – Project Lead

Support districts in the network SRSN in the use of interim assessment data for state accountability through data collection and public visualization. Integration of multiple data sources to identify patterns of growth and achievement across more than 40 Missouri school districts. Support the design of a new assessment and accountability system in Missouri.

Idaho School Readiness: Needs Assessment (PDG-R) **2023–2024**
Funded by Idaho Association for the Education of Young Children through a U.S. Department of Health and Human Services Preschool Development Grant (PDG)
Role: Senior Researcher-Project Lead

Lead for nine subprojects evaluating Early Childhood Care and Education in Idaho including the creation and evaluation of three state-wide survey instruments focusing on parents, providers, and business leaders. Integration of multiple data streams to provide both targeted information to individual early childhood councils as well as an overall state-wide perspective of needs related to early childhood care and education.

Regional Educational Laboratory (REL) Northwest: **2022–2025**
Oregon Department of Education (ODE) – Educator Advancement Council
Funded by the Institute of Education Sciences REL Northwest (Contract #91990022C0009)
Role: Senior Researcher – Survey Design and Training

Support ODE EAC leadership in the development of two program evaluation plans. The first program, Regional Educator Network, supports the advancement and professional development for teachers. The second is a grow-your-own initiative supporting the development of a diverse teacher workforce reflective of the student population in Oregon.

Oregon Department of Education (ODE) – Student Success Plans **2023–2025**
Funded by the Institute of Education Sciences REL Northwest (Contract #91990022C0009)
Role: Senior Researcher-Survey Design and Training

Support ODE in the identification of key indicators for Student Success Plans and provide training expertise in the creation of metrics to monitor and establish outcomes for these indicators. Training includes principles of survey design, the adaptation of current surveys, processes for establishing reliability and validity, and effective data monitoring and analyses.

Teacher as Researcher **2023–2025**
Multiple projects sponsored by state and local education agencies and institutes of higher education; conducted in various sites:

- *South Carolina Department of Education*
    - *Initiative involved 189 teachers in 42 schools across 22 districts and 2 teacher preparation programs (Coastal Carolina University and University of South Carolina Aiken)*
- *Texas A&M International University*

Role: Coach, Facilitator, Senior Researcher

Facilitated professional learning sessions and coached classroom teachers and pre-service teachers to design and implement quasi-experimental action research projects that develop their understanding and use of evidence-based instructional strategies. Conducted analysis of teacher-focused surveys across time to gauge the impact of training and changes in Teacher Knowledge, Efficacy, and Agency.

Evaluation of Rural Educator Stipend Programs in Colorado **2022–2024**
Funded by Colorado Center for Rural Education (CCRE)
Role: Senior Researcher-Data analysis, presentation, and outcome report

Using longitudinal data on all teaching stipend recipients in rural Colorado to model impact on teacher retention. Data drawn from multiple sources and integrated to evaluate individual teacher placements and duration in the field. Findings presented at American Educational Research Association (2022).

Wyoming Data Literacy Professional Development **2022–2023**
Funded by the Wyoming Department of Education
Role: Senior Researcher-Survey design and analysis, data literacy-PD, outcomes report

Lead data analysis training for teachers and administrators utilizing longitudinal state assessment data in Wyoming. Focus on the use and interpretation of effect size comparisons and effective data visualizations. Creation of a state-wide survey of data literacy practices and beliefs to inform future professional development sessions.

Wyoming Accountability in Education Act Impact Study **2022–2024**
Funded by the Wyoming State Board of Education and Wyoming Department of Education
Role: Senior Researcher-Data analysis, presentation/report

Used Wyoming education data to evaluate the state-based educational accountability system across Grades 3–12 utilizing descriptives and analysis of variance to identify and report on inconsistencies and success within the system. Identification of positive outlier schools, those performing above expectation, for further in-depth analysis.

Colorado Kindergarten School Readiness Assessment Evaluation **2022–2023**
Funded by the Colorado Department of Education
Role: Senior Researcher – Assessment Analysis, creation, and evaluation with an assessment rubric

Developed a rubric for evaluating the technical merit, including reliability, validity, administration, and cultural inclusivity of kindergarten readiness assessments proposed for use in Colorado. Rubric results were used to classify the level of technical merit and recommendations provided to the Colorado Department of Education.

TRIAD: Teaching Early Mathematics for Understanding with Trajectories and Technologies **2005–2016**

Funded by the Institute of Education Sciences (R305K050157
Role: Research Associate and Consultant

Contributed to the design and implementation of a large-scale block randomized control trial assessment of mathematical development including both traditional pencil and paper experimental tests and observational coding.

Increasing the Efficacy of An Early Mathematics Curriculum with Scaffolding Designed to Promote Self-Regulation (EMERGE) **2008–2012**

Funded by the Institute of Education Sciences
Role: Research Associate

Conducted training and monitoring of assessment validity for master's level teacher assessors. Conducted psychometric analysis of primary outcome measures for outcome analysis.

Selected Project Experience

CTE Workplace Specialist Program Impact and Effectiveness Study **2025–Present**
Funded by the Indiana Commission for Higher Education
Role: Project team member

This project involves an evaluation of Indiana's CTE Workplace Specialist training Program, using mixed methods to assess program effectiveness, instructor preparation, and workforce retention. The multi-phase study includes stakeholder interviews, surveys, administrative data analysis, and cross-state comparisons to inform strategic improvements. Project activities include conducting cross-state comparisons of alternative certification and CTE certification programs, conducting interviews, and supporting data analysis.

Development of Algebra I Mastery Definitions **2025–Present**

Funded by the Missouri Department of Elementary and Secoindary Education

Role: Project team

This project involves the development of mastery definitions, in the form of proficiency scales, to inform the development of assessment items for Algebra 1. Project activities include the drafting of scales based on Missouri standards and performance level descriptors, the facilitation of educator review and feedback, and supporting the development of assessment items.

Foundational Review and Analysis for Employability Skills Framework 2.0 **2024–present**

Funded by the U.S. Department of Education, Office of Career, Technical, and Adult Education (Contract # 91990023D0030)

Role: Environment and Literature Scan Coordinator

This project involves a comprehensive environment and literature scan and analysis to support the development of an updated Employability Skills Framework. Project activities included serving on the leadership team for the project, developing protocols for the environment and literature scan, including searching for and screening resources, coordinating the research team in conducting the scan, producing required deliverables, facilitating the sharing of results, and analyzing resources.

Implementing Personalized Competency-Based Learning **2022–Present**

Funded by North Sanpete School District, Mt. Pleasant, UT

Role: Project Lead

This project involved the development of a strategic plan to implement personalized, competency-based learning in North Sanpete School District. Project activities include the development and administration of a survey to gather community input, and facilitation of model development, multi-year strategic planning, and action plans. Continuing project activities included ongoing support and consultation for the district leadership team and providing coaching and training on the development of proficiency scales and the use of scales to measure student achievement of standards.

Generation School Network's Pathways to Prosperity **2021–Present**

Funded by Generation School Network

Role: Project Lead

This project supports the Generation School Network and a collective of Colorado districts with literature reviews and research summaries to define specific workforce readiness skills. Project activities include reviewing literature, developing rubrics for each component of the skills, and identifying and aligning assessment strategies with existing student experiences.

Teacher as Researcher **2023–2025**

Multiple projects sponsored by state and local education agencies and institutes of higher education; conducted in various sites:

- *South Carolina Department of Education*
    - *Initiative involved 189 teachers in 42 schools across 22 districts and 2 teacher preparation programs (Coastal Carolina University and University of South Carolina Aiken)*
- *Texas A&M International University*

Role: Coach, Facilitator, Content Developer

Facilitated professional learning sessions and coached classroom teachers and pre-service teachers to design and implement quasi-experimental action research projects that develop their understanding and use of evidence-based instructional strategies.

Developing Evidence-based Resources to Strengthen Working Conditions **2022–2025**
Funded by the Institute of Education Sciences REL Northwest (Contract # ED-IES-22-C-0009)
Role: Project Team

The project involved the development of a tool that rural districts can use to examine and implement plans to address working conditions. Prior work included the development of the process with the Lower Kuskokwim School District (AK). Provided coaching to develop LKSD partners' understanding of the research base on working conditions, including how different features of working conditions interact to lead to increased teacher retention. Developed action plans and tools to assess and monitor working-condition data to inform retention efforts and human resources decisions.

Idaho School Readiness Project Strategic Plan **2024-2024**
Funded by Idaho State University
Role: Project Team
This project involved collecting statewide data to inform the development of the Idaho statewide school readiness strategic plan. Project activities included facilitating statewide public listening sessions to gather information about statewide school readiness needs, and analyzing and reporting the results.

Technical Assistance to Support Proficiency Scale Development and Alignment and Standards-based Grading. **2008–Present**
Sponsored by various education agencies; more than 20 districts and other clients
Role: Project Lead, Technical Expert

These projects involve supporting the development of proficiency scales. Project activities include facilitating the work of school or district teams in developing and writing their own proficiency scales; writing proficiency scales for clients; conducting curriculum alignment studies; and reviewing scales provided by clients.

Declining Enrollment Community Engagement **2023**
Funded by Denver Public Schools
Role: Project Lead/Facilitator

This project conducted community engagement activities and gathered community input on solutions for declining enrollment in the district. Project activities included conducting community meetings, administering a community survey, conducting virtual meetings with community partners, and analysis and reporting of the results.

Curriculum Mapping **2021–2022**
Funded by Emily Griffith Technical College
Role: Project Lead

Lead process to assess and map the curriculum with clear sequence of skills and knowledge and identifying the instructional levels a student is expected to master to successfully complete the program. Examined course syllabi and learning outcomes and analyzed sequence to determine how well program meets the required outcomes.

Using Program Evaluation to Support Continuous School Improvement **2020-2022**
Funded by the Institute of Education Sciences REL Central (Contract # ED-IES-17-C-0005)
Role: Project Lead

Supported the Kansas State Department of Education in developing and delivering training on program evaluation to support the Kansas Education Systems Accreditation process. Role included overall project lead, content expertise and meeting facilitation.

Tab VI: Proposed Costs

Cost Sheet (Attachment E)

ATTACHMENT E
COST SHEET
KNOX COUNTY PROCUREMENT DIVISION
REQUEST FOR PROPOSAL NUMBER 3667

To evaluate fairly, the County requires the completed cost sheet. Do not alter the cost sheet in any way. Failure to provide the completed cost sheet or deviations from this cost sheet may be just cause to deem your proposal non-responsive and not considered for award.

Name of Company: _____

Surveys	$ 2,500 per school	Notes:
Assessments	$ 7,700 per school	Notes: Strategies in Action Report
On-Site Coaching for Small Groups of five (5) or Individuals, Per Six (6)-Hour Day, Inclusive of all Travel Costs for Consultant	$ 9,800 per six-hour day	
Virtual Coaching for Small Groups of five (5) or Individuals	$ 400 per hour	
On-Site Professional Development, 1-Day (six (6) hours) for up to fifty (50) Participants, Inclusive of all Travel Costs	$ 9,800 per six-hour day	
On-Site Professional Development, 2-Days (six (6) hours Per Day) for up to fifty (50) Participants, Inclusive of all Travel Costs	$ 14,750 two (2)-six (6) hour days	
School Visits (Inclusive of all Travel Costs for Consultant)	$ 9,800 per school	
Virtual Professional Development, 1-Day (three (3) hours) for up to fifty (50) Participants	$ 2,250 per three-hour day	
Virtual Professional Development, 2-Days (three (3) hours Per Day) for up to fifty (50) Participants	$ 4,500 two (2)-three (3) hour days	
Workshop Resources and Materials (Shipping charges are to be included in the unit price of each item.)	_____: $_____ per unit price _____: $_____ per unit price _____: $_____ per unit price _____: $_____ per unit price Notes: All materials are included.	
Registration Fees (Conference/Workshop)	$ Not applicable per participant	
Other Expenses:	None	

DELIVERY: All shipments that are to be delivered must be Free on Board Destination to the department ordering the items. All shipping charges are to be included in the unit price of each item. All deliveries must be unloaded and delivered inside to the department location that is ordering the items.

Cost Methodology

Marzano made the following assumptions when determining proposed costs:

1. **Surveys**: Costs for surveys include administering an existing survey with minor customization, conducting basic analyses, and providing a summary brief.
2. **Assessments**: This category includes costs for a Strategies in Action Report for a school or cohort that captures examples from participating educators, including their selected strategies, cycle designs, classroom data, and reflections on student learning.
3. **Virtual Coaching for Small Groups of five (5) or Individuals**: This category assumes one coach for one hour.
4. **On-Site Professional Development, 1-Day (six (6) hours per day) for up to fifty (50) Participants, Inclusive of All Travel Costs**: Assumes one (1) facilitator. For larger groups, we recommend two facilitators, so that we can provide an interactive experience and address the individual needs of all participants.
5. **On-Site Professional Development, 2-Days (six (6) hours per day) for up to fifty (50) Participants, Inclusive of All Travel Costs**: Assumes one (1) facilitator. For larger groups, we recommend two facilitators, so that we can provide an interactive experience and address the individual needs of all participants.
6. **School Visits (Inclusive of all Travel Costs for Consultant)**: Assumes one (1) consultant for one (1) day.
7. **Virtual Professional Development, 1-Day (three (3) hours) for up to fifty (50) Participants**: Assumes one (1) facilitator. For larger groups, we recommend two facilitators, so that we can provide an interactive experience and address the individual needs of all participants.
8. **Virtual Professional Development, 2-Days (three (3) hours) for up to fifty (50) Participants**: Assumes one (1) facilitator. For larger groups, we recommend two facilitators, so that we can provide an interactive experience and address the individual needs of all participants.
9. **Workshop Resources and Materials**: Marzano Research will provide all workshop materials online through the Strategies Database and Teacher as Research app and/or as PDF files. Prices include all costs for these resources.
10. **Registration Fees**: We have not proposed conferences or workshops that require registration fees.

For this proposal, Marzano Research has proposed a plan to deliver a Teacher as Researcher professional learning sequence that includes several components. In this section, we provide the price for the sequence as proposed based on a la carte pricing (Table 6) and a discounted price for the entire package (Table 7).

Teacher as Researcher a la Carte Pricing

A typical Teacher as Researcher implementation includes a kickoff session, teacher knowledge and efficacy surveys (pre/post), a series of six virtual workshops with two facilitators (one with a strong practitioner background and one with a strong research

background), coaching office hours, leadership team check-ins, and a Strategies in Action Report (school or cohort level).

Table 6 provides the total cost when priced by individual component.

Table 6. Teacher as Researcher Priced by Component for a Cohort of up to 15 Teachers

Deliverable	Cost Rate		#	Total
Kickoff Session (Virtual)	No cost	—	1	—
Teacher Knowledge and Efficacy Survey (Pre/Post)	Surveys	$2,500	2	$5,000
Teacher as Researcher Workshops – 2 Facilitators	Virtual PD	$2,250	12	$27,000
Coaching Office Hours	Virtual Coaching	$400	20	$8,000
Leadership Team Check-ins	Virtual Coaching	$400	4	$1,600

Knox County Government

and

National Institute for Excellence in Teaching (NIET)

This Contract, made and entered into between the Knox County Government, hereinafter referred to as the "County" and National Institute for Excellence in Teaching (NIET), hereinafter referred to as "Contractor".

Whereas, the County requested proposals for Evidence-Based Instruction Strategies Consulting for Knox County Government (Request for Proposals #3667) and;

Whereas, Vendor submitted a bid in accordance with said requested specifications, the response of which is the most responsible and responsive bid meeting specifications accepted by the County;

Whereas, Vendor agrees and undertakes to provide said services for the County, as set forth in the Request for Proposals, and at the price quoted for said services by Contractor. Further, in accordance with the lawful directions of the County, the Contractor agrees in all respects, to be governed by the Request for Proposals specifications and the Contractor's bid and response.

Now, therefore in consideration of mutual covenants and promises contained herein, the parties hereto wish to enter into this Contract to set forth their respective rights and obligations and do mutually agree that;

Witnesseth:

1. Terms of this Contract. This Contract commences on the 1st day of September 2025 and ends the 31st day of August 2026 unless terminated in conformity with the terms of this Contract as contained in paragraphs 4 and 5. The County intends to issue a one-year (1) award. Upon the mutual agreement of the vendor and the County, the award may be extended for four (4) additional years, one (1) year at a time. This may result in a total of five (5) years. The County reserves the right to purchase these goods/services from other sources if the need arises. The County reserves the right to revoke the award if a pattern of unavailability arises with the vendor.

2. Payment. The County shall pay Contractor the amount as agreed upon in the County's Request for Proposals for Evidence-Based Instruction Strategies Consulting per the Contractor's response to Request for Proposals #3667; pursuant to all payments being subject to the County's review and approval. The Contractor shall receive, upon the need of the County, written notification to proceed. The Contractor shall pursue all work diligently until completion as directed by the County. Per Request for Proposals #3667, a minimum of thirty (30) days is required for processing of payment.

3. Invoicing and reporting requirements. Contractor shall invoice the County for Evidence-Based Instruction Strategies Consulting pursuant to Request for Proposals #3667.

4. Termination. The County may terminate this Contract with or without cause, upon written notice of not less than thirty (30) days. Upon termination, the County will pay for services satisfactorily completed but not yet invoiced. Contractor shall not perform additional work without the expressed permission of the County.

Should the Contractor fail to provide the Evidence-Based Instruction Strategies Consulting detailed herein, the County will communicate the problem(s) to the Contractor both verbally and in writing and keep a written record as to what the problem(s) are and when the Contractor was contacted. The Contractor shall rectify the problem within the time frame established by Tennessee State Law. If the same or other problems persist or reoccur, the County may terminate the Contract.

In the event Contractor intends to interrupt or discontinue service under this Contract, Contractor agrees to give the County at least 120 day advance written notice of said interruption or discontinuance of service prior to interrupting or discontinuing same. Any interruption or discontinuance of service without said advance notice shall constitute a material breach of this Contract.

5. Appropriations. In the event no funds are appropriated by the County for the Evidence-Based Instruction Strategies Consulting in any fiscal year or insufficient funds exist to provide the services, then the Contract shall expire upon the expenditure of previously appropriated funds or the end of the current fiscal year, whichever occurs first, with no further obligations owed to or by either party.

6. Independent contractor. Contractor acknowledges that Contractor and employees serve as independent contractors and that the County shall not be in any manner responsible for any payment, insurance, or incurred liability.

7. Compliance with all federal, state, and municipal laws. Contractor is assumed to be familiar with and agrees to observe and comply with all federal, state, and local laws, statutes, ordinances, and regulations in any manner affecting the provision of the Evidence-Based Instruction Strategies Consulting, and all instructions and prohibitive orders issued regarding this work and shall obtain all necessary permits.

8. Severability clause. If any provision of this Contract is declared illegal, void, or unenforceable the remaining provisions shall not be affected but shall remain in force and in effect.

9. Prohibition against assignment. Contractor shall not assign this Contract to any party, company, partnership, incorporation, or person without prior specific written consent of the County.

10. This Contract shall be governed by the laws of the State of Tennessee both as to interpretation and performance. The Chancery Court and/or the Circuit Court of Knox County, Tennessee, shall have exclusive and concurrent jurisdiction of any disputes, which arise hereunder.

11. Right to inspect. The County reserves the right to make periodic inspections of the manner and means the services are performed.

12. Nondiscrimination and non-conflict statements. Contractor agrees that no person on the grounds of handicap, age, race, color, religion, sex, national origin, or any individual trait or characteristic found to be an illegal consideration shall be excluded from participation in, or be denied benefits of, or be otherwise subjected to discrimination in the performance of this Contract, or in the employment practices of Contractor. Contractor shall, upon request, show proof of such non-discrimination, and shall post in conspicuous places available to all employees and applicants notices of non-discrimination.

13. Books and records. Contractor shall maintain all books, documents, accounting records and other evidence pertaining to the service under this Contract and make such materials available at their offices at all reasonable times during the contract period and for three (3) years from the date of the final payment under the Contract for inspection by the County or by any other governmental entity or agency participating in the funding of this Contract, or any authorized agents thereof; copies of said records to be furnished if requested. Such records shall not include those books, documents and accounting records that represent the Contractor's costs of manufacturing, acquiring or delivering the products and services governed by this Contract.

14. Contractor shall indemnify**,** defend, save and hold harmless, County, its officers, agents and employees from all suits, claims, actions or damages of any nature brought because of, arising out of, or due to breach of the Contract by Contractor, its subcontractors, agents or employees or due to any negligent act, occurrence, omission, commission of Contractor, its subcontractors, agents, or employees.

15. Delivery. Contractor shall render the Evidence-Based Instruction Strategies Consulting for the County in accordance with Request for Proposals #3667.

16. Tax Compliance. Pursuant to Resolution R-07-1-903 passed by the Commission of Knox County, Tennessee, Contractor hereby acknowledges, by submission of its bid and signature that it is current in its respective Federal, State, County, and City taxes of whatever kind or nature and is not delinquent in any way. Delinquent status must be disclosed or risk debarment by the Knox County Purchasing Division.

17. Limitations of liability. In no event shall the County be liable for any indirect, incidental, consequential, special or exemplary damages or lost profits, even if the County has been advised of the possibility of such damages.

17. Limitations of liability. In no event shall the County be liable for any indirect, incidental, consequential, special or exemplary damages or lost profits, even if the County has been advised of the possibility of such damages.

18. Contract documents. It is mutually agreed by both parties that the following documents are made part of this Contract and are incorporated herein by reference:

A. Request for Proposals #3667 and Addendum I
B. Contractor's Response to Request for Proposals #3667

It is agreed that this Contract, represents the **entire Contract** between the parties and no prior representations, promises, and agreements, oral or otherwise, not embodied herein, shall be of any force or effect.

In witness whereof, the parties hereto have caused this Contract to be executed in one original copy on the day and year first above written.

Approved as to Legal Form:

_____
Knox County Law Director's Office

7/24/2025
_____**Date**

The Procurement Division of Knox County, Tennessee will receive sealed proposals for the provision of **Evidence-Based Instruction Strategies Consulting** as specified herein. Proposals must be received by **2:00 p.m.** on **June 13, 2025**. Late proposals will neither be considered nor returned.

Deliver Proposals To:

Proposal Number 3667
Knox County Procurement Division
Suite 100
1000 North Central Street
Knoxville, Tennessee 37917

The Proposal Envelope must show the Company Name, Proposal Number, Proposal Name & Proposal Closing Date.

SECTION I PROPOSAL PREPARATION AND SUBMISSION

1.1 **ADDITIONAL INFORMATION:** Knox County wants requests for additional information routed to Rachel Cabrera, Senior Buyer, at 865.215.5751. Questions may be emailed to rachel.cabrera@knoxcounty.org. If you have not heard from the Buyer in a reasonable amount of time, please call for further assistance. Information about the Knox County Procurement Division and current solicitations may be obtained on the Internet at www.knoxcounty.org/procurement.

1.2 **ACCEPTANCE:** Vendors shall hold their price firm and subject to acceptance by Knox County for a period of one hundred twenty (120) business days from the date of the proposal closing, unless otherwise indicated in their proposal.

1.3 **ALTERNATIVE PROPOSALS:** Knox County will not accept alternate proposals (those not equal to specifications) unless authorized by the Request for Proposal.

1.4 **AUDIT HOTLINE:** Knox County has established an Audit Hotline to report potential fraud and waste. To report potential fraud, waste or abuse, please file a report online by accessing http://www.knoxcounty.org/audit/hotline.php.

Vendors are hereby cautioned that this Audit Hotline does not replace the Award Protest Procedures found in Section VI, Item M of the Knox County Procurement Regulations.

1.5 **AWARD:** Award will be made to the most responsive, responsible proposer(s) meeting specifications and presenting the product(s) and/or service(s) that is in the best interest of Knox County. Knox County reserves the right to award this proposal on an all-or-none basis, schedule basis or by multiple award. Knox County reserves the right to not award this proposal. Award will be made in accordance with the evaluation criteria specified herein.

1.6 **BUSINESS OUTREACH PROGRAM:** Knox County has established a Business Outreach Program which has the responsibility of increasing opportunity for small, minority and women owned businesses. This is being accomplished through community education programs, policy edification, active recruitment of interested businesses and process re-engineering.

Knox County is committed to ensuring full and equitable participation for all disadvantaged businesses. Knox County welcomes submittals from those disadvantaged businesses that have an interest in providing goods and/or services listed herein. In addition, Knox County strongly encourages the inclusion of disadvantaged businesses by non-disadvantaged Contractors who wish to partner or subcontract portions of this agreement in order to accomplish the successful delivery of goods and/or services. If you are a disadvantaged business and would like additional information about our Business Outreach Program, please contact:

Diane Woods, Business Outreach Administrator
Telephone: 865.215.5760
Fax: 865.215.5778
Email: diane.woods@knoxcounty.org

1.7 **CONFLICT OF INTEREST:** Vendors must have read and comply with the "Non-Conflict of Interest" statement provided in the vendor registration process prior to the closing of this solicitation. Knox County's Non-Conflict of Interest Policy is available for review at https://www.knoxcounty.org/purchasing/conflict_policy.php.

1.8 **COPIES:** Knox County requires that proposals be submitted as one (1) marked as original and one (1) exact copy. **Proposers must submit with their written response an exact electronic version of their proposal in a single PDF file on a flash drive format.**

1.9 **DECLARATIVE STATEMENTS:** Any statement or words (e.g.: must, shall, will) are declarative statements and the vendor must comply with the condition. Failure to comply with any such condition may result in the proposal being considered non-responsive and disqualified.

1.10 **ELECTRONIC TRANSMISSION OF PROPOSALS:** Knox County's Procurement Division will not accept electronically transmitted proposals. Facsimile and email submissions are strictly prohibited. Due to the nature of the information requested, all submissions shall be in written format.

1.11 **HOW TO DO BUSINESS:** Knox County utilizes a web-based Procurement software system, "KnoxBuys." The system provides our clients (vendors, county departments and the citizens of Knox County) with a more enhanced and end-user friendly means of accessing our services. The system allows for on-line vendor registration and maintenance, electronic receipt of purchase orders, on-line retrieval and submittal of quotes, bids and proposals for our vendor-clients and on-line requisitioning and receiving for our county departments. In order for the County to maximize its investment and minimize the cost associated with office operations, we need your help. When doing business with Knox County, we are urging you to please go to our website at www.knoxcounty.org/procurement, register as a vendor in our on-line Procurement system, "KnoxBuys," if you have not done so and whenever possible to conduct your business with the County through this site. If you have any questions, please contact the Procurement Division Representative listed in Section 1.1 of this document.

1.12 **INCURRED COSTS:** Knox County will not be responsible for any costs incurred by the proposer in the preparation of their proposal.

1.13 **MULTIPLE PROPOSALS:** Knox County will consider multiple proposals that meet specifications.

1.14 **NON-COLLUSION:** Proposers, by submitting a signed proposal, certify that the accompanying proposal is not the result of, or affected by, any unlawful act of collusion with any other person or company engaged in the same line of business or commerce, or any other fraudulent act punishable under Tennessee or United States law.

1.15 **PAYMENT METHOD:** Knox County will utilize a Purchase Order for placing an order for products and/or services. Purchase Orders will be issued from the Knox County Procurement Division via the method selected by the vendor during registration. The Purchase Order will detail the quantity, specific item(s) and the contracted price for each item. Work on this project must not commence until a signed Purchase Order is issued by Knox County Procurement.

1.16 **POSSESSION OF WEAPONS:** All vendors, their employees and their agents are prohibited from possessing any weapons on Knox County property without prior written consent from the County. In the case of a vendor whose Contract requires possession of firearms or other weapons to successfully complete their Contract, vendor must provide personnel who are bonded to bear said weaponry.

1.17 **PROCESSING TIME FOR PAYMENT:** Vendors are advised that a minimum of thirty (30) days is required to process invoices for payment.

1.18 **PROOF OF FINANCIAL AND BUSINESS CAPABILITY:** Vendors must, upon request, furnish satisfactory evidence of their ability to furnish products or services in accordance with the terms and conditions of these specifications. Knox County will make the final determination as to the vendor's ability.

1.19 **PROPOSAL DELIVERY:** Knox County requires proposers, when hand delivering proposals, to time and date stamp the envelope before depositing it in the bid box. Knox County will not be responsible for any lost or misdirected mail sent by common carrier, nor will Knox County be responsible for proposals delivered to addresses or Suites other than the delivery address and Suite specified at the top of this solicitation. The time clock in the Procurement Division shall serve as the official record of time.

Solicitations must be in a sealed envelope/box prior to entering the Procurement Division office. Procurement Division personnel are not allowed to see the submittal nor assist in placing documents in an envelope/box. Additionally, the Procurement Division is not responsible for providing materials (e.g. envelopes, boxes, tape) for submittals.

1.20 **RECYCLING:** Knox County, in its continuing efforts to lessen the amount of landfill waste and to further recycling efforts, requests that proposals being submitted on paper shall:

1.20.1 Be submitted on recycled paper;
1.20.2 Not include pages of unnecessary advertising;
1.20.3 Be made on both sides of each sheet of paper.

1.21 **RESTRICTIVE OR AMBIGUOUS SPECIFICATIONS:** It is the responsibility of the prospective proposer to review the entire Request for Proposal packet and to notify the Procurement Division if the specifications are formulated in a manner that would unnecessarily restrict competition. Any such protest or question regarding the specifications or proposing procedures must be received in the Procurement Division by **May 27, 2025 at 4:30 p.m. local time**. These requirements also apply to specifications that are ambiguous.

1.22 **SIGNING OF PROPOSALS:** In order to be considered, all proposals must be signed. Please sign the original in blue ink. By submitting a signed letter authorizing the submission of the proposal, the vendor acknowledges and accepts the terms and conditions stated in the proposal document.

1.23 **TAXES:** Knox County purchases are not subject to taxation. Tax exemption certificates will be provided upon request.

1.24 **TITLE VI OF THE 1964 CIVIL RIGHTS ACT AND TITLE IX OF THE EDUCATIONAL AMENDMENT OF 1972:** "Nondiscrimination in Federally Assisted Programs"—"No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance." 42 U.S.C. Section 2000. It is the policy of Knox County Government that all its services and activities be administered in conformance with the requirements of Title VI and Title IX.

1.25 **UNFORESEEN CIRCUMSTANCES:** During periods of closure due to unforeseen circumstances in Knox County or closures at the direction of the Knox County Mayor, the Procurement Division will enact the following procedures in regard to solicitations and closures:

- If the Mayor closes the Administrative offices prior to the time set for solicitation opening of any business day, all solicitations due that same day will be moved to the next operational business day.
- Other unforeseen circumstances shall be at the sole discretion of the Procurement Director.
- Knox County shall not be liable for any commercial carrier's decision regarding deliveries during any unforeseen circumstances.

1.26 **USE OF PROPOSAL FORMS:** Vendors must complete the proposal forms contained in the proposal package. Failure to complete the proposal forms may result in proposal rejection.

1.27 **VENDOR DEFAULT:** Knox County reserves the right, in case of vendor default, to procure the articles or services from other sources and hold the defaulting vendor responsible for any excess costs occasioned thereby. Should vendor default be due to a failure to perform or because of a request for a price increase, Knox County reserves the right to remove the vendor from the County's bidder's list for twenty-four (24) months.

1.28 **VENDOR REGISTRATION:** Prior to the submission deadline for this solicitation, ***ALL PROPOSERS MUST*** be registered with the Procurement Division. If you are not already a registered vendor with Knox County, register on-line at our website at www.knoxcounty.org/procurement and click on "Knox Buys" and then select "Online Vendor Registration." Vendors must be registered with the Procurement Division **prior** to submitting their proposal. Knox County shall not be responsible for technical difficulties experienced by vendors trying to register electronically less than twenty-four (24) hours prior to the proposal closing time.

1.29 **WAIVING OF INFORMALITIES:** Knox County reserves the right to waive minor informalities or technicalities when it is in the best interest of Knox County.

SECTION II OBLIGATIONS, RIGHTS AND REMEDIES

These terms and conditions shall be part of the Contract. Knox County reserves the right to negotiate other terms and conditions it deems appropriate and necessary under the circumstances to protect the public's trust.

2.1 **ALTERATIONS OR AMENDMENTS:** No alterations, amendments, changes, modifications or additions to this Contract shall be binding on Knox County without the prior written approval of the County.

2.2 **APPROPRIATION:** In the event no funds are appropriated by Knox County for the goods or services in any fiscal year, or insufficient funds exist to purchase the goods or services, then the Contract shall expire upon the expenditure of previously appropriated funds or the end of the current fiscal year, whichever occurs first, with no further obligations owed to or by either party.

2.3 **ASSIGNMENT:** Contractor shall not assign or sub-contract this agreement, its obligations or rights hereunder to any party, company, partnership, incorporation or person without the prior written specific consent of Knox County.

2.4 **BOOKS AND RECORDS:** Vendor shall maintain all books, documents, accounting records and other evidence pertaining to the goods and services provided under this Contract and make such materials available at its offices at all reasonable times during the Contract period and for five (5) years from the date of the final payment under this agreement for inspection by County or by any other governmental entity or agency participating in the funding of this agreement, or any authorized agents thereof; copies of said records to be furnished if requested. Such records shall not include those books, documents and accounting records that represent the Vendor's costs of manufacturing, acquiring or delivering the products and services governed by this agreement.

2.5 **CHILD LABOR:** Contractor agrees that no products or services will be provided or performed under this Contract that have been manufactured or assembled by child labor.

2.6 **COMPLIANCE WITH ALL LAWS:** Contractor is assumed to be familiar with and agrees to observe and comply with all Federal, State, and Local laws, statutes, ordinances, and regulations in any manner affecting the provision of goods and/or services, and all instructions and prohibitive orders issued regarding this work and shall obtain all necessary permits.

2.7 **CRIMINAL HISTORY RECORDS CHECK:** Any and all successful proposers, Contractor's employees, Contractor's subcontractors and the employees of any subcontractors must submit to a criminal history records check at the Contractor's expense, conducted by the Tennessee Bureau of Investigation and the Federal Bureau of Investigation prior to permitting the employee to have contact with students or enter school grounds when students are present. Reference Tennessee Code Annotated Section 49-5-413. Proposers **must** submit with their proposals the Criminal History Affidavit of Compliance.

2.8 **DEFAULT:** If Contractor fails to perform or comply with any provision of this Contract or the terms or conditions of any documents referenced and made a part hereof, Knox County may terminate this Contract, in whole or in part, and may consider such failure or noncompliance a breach of Contract. Knox County expressly retains all its rights and remedies provided by law in case of such breach, and no action by Knox County shall constitute a waiver of any such rights or remedies. In the event of termination for default, Knox County reserves the right to purchase its requirements elsewhere, with or without competitive solicitation.

2.9 **GOVERNING LAW; VENUE:** This agreement shall be exclusively construed, governed, and controlled by the Laws of the State of Tennessee without regard to principles of law, including conflicts of law, of any other jurisdiction, territory, country, and/or province. Any dispute arising out of or relating to this agreement shall exclusively be brought in the Chancery Court or the Circuit Court of Knox County, Tennessee. Each party consents to personal jurisdiction thereto and waives any defenses based on personal jurisdiction, venue and inconvenient forum.

2.10 **INCORPORATION:** All specifications, drawings, technical information, Request for Proposal, Proposal, Award and similar items referred to or attached or which are the basis for this Contract are deemed incorporated by reference as if set out fully herein.

2.11 **INDEMNIFICATION—HOLD HARMLESS:** Contractor shall indemnify, defend, save and hold harmless Knox County, its officers, agents and employees from all suits, claims, actions or damages of any nature brought because of, arising out of, or due to breach of the agreement by Contractor, its subcontractors, suppliers, agents,

or employees or due to any negligent act or occurrence or any omission or commission of Contractor, its subcontractors, suppliers, agents or employees.

2.12 **INDEPENDENT CONTRACTOR:** Contractor shall acknowledge that it and its employees serve as independent contractors and that Knox County shall not be responsible for any payment, insurance or incurred liability.

2.13 **INSPECTION AND ACCEPTANCE:** Warranty periods shall not commence until Knox County inspects and formally accepts the goods and/or services. The terms, conditions and timing of acceptance shall be determined by Knox County. Knox County reserves the right to reject any or all items or services not in conformance with applicable specifications, and Contractor assumes the costs associated with such nonconformance. Acceptance of goods or services does not constitute a waiver of latent or hidden defects or defects not readily detectable by a reasonable person under the circumstances.

2.14 **IRAN DIVESTMENT ACT:** By submission of this Request for Proposal response, each proposer and each person signing on behalf of any proposer certifies, and in the case of a joint response, each party thereto certifies as to its own organization, under penalty of perjury, that to the best of its knowledge and belief that each proposer is not on the list created pursuant to Tennessee Code Annotated § 12-12-106.

2.15 **LIMITATIONS OF LIABILITY:** In no event shall Knox County be liable for any indirect, incidental, consequential, special or exemplary damages or lost profits, even if Knox County has been advised of the possibility of such damages.

2.16 **NO BOYCOTT OF ISRAEL:** Pursuant to Tennessee Code Annotated Title 12, Chapter 4, Part 1, by submission of a response to this solicitation, each proposer and each person signing on behalf of any proposer certifies, and in the case of a joint response each party thereto certifies as to its own organization, under penalty of perjury, that to the best of its knowledge and belief that each proposer is not currently engaged in, and will not for the duration of the Contract engage in, a boycott of Israel. Proposers must submit with their proposals the completed Iran Divestment Act/No Boycott of Israel Affidavit.

2.17 **NON-DISCRIMINATION AND NON-CONFLICT STATEMENT:** Contractor agrees that no person on the grounds of handicap, age, race, color, religion, sex **or** national origin any individual trait or characteristic found to be an illegal consideration, shall be excluded from participation in, or be denied benefits of, or be otherwise subjected to discrimination in the performance of this agreement or in the employment practices of vendor. Contractor shall upon request show proof of such non-discrimination and shall post in conspicuous places available to all employees and applicants notices of non-discrimination. Contractor covenants that it complies with the Fair Wage and Hour Laws, the National Labor Relations Act, and other Federal and State employment laws as applicable. Contractor covenants that it does not engage in any illegal employment practices.

Contractor covenants that it has no public or private interest and shall not acquire directly or indirectly any interest that would conflict in any manner with the provision of its goods or performance of its services. Contractor warrants that no part of the total Contract amount provided herein shall be paid directly or indirectly to any officer or employee of Knox County as wages, compensation, or gifts in exchange for acting as officer, agent, employee, subcontractor or consultant to Contractor in connection with any goods provided or work contemplated or performed relative to the agreement.

2.18 **ORDER OF PRECEDENCE:** In the event of inconsistent or conflicting provision of this Contract and referenced documents, the following descending order of precedence shall prevail: (1) Contract, (2) Request for Proposal, (3) Contractor's Response, (4) Award, (5) Special Terms and Conditions, (6) General Terms and Conditions, (7) Specifications, (8) Drawings.

2.19 **REMEDIES:** Knox County shall have all rights and remedies afforded under the U.C.C. and Tennessee law in Contract and in tort, including but not limited to, rejection of goods, rescission, and right of set-off, refund, incidental, consequential and compensatory damages and reasonable attorney's fees.

2.20 **RIGHT TO INSPECT:** Knox County reserves the right to make periodic inspections of the manner and means the service is performed or the goods are supplied and warehoused.

2.21 **SEVERABILITY:** If any provision of this Contract is declared illegal, void or unenforceable, the remaining provisions shall not be affected but shall remain in force and in effect.

2.22 **TAX COMPLIANCE:** Pursuant to Resolution R-07-1-903 passed by the Commission of Knox County, Tennessee, Contractor hereby acknowledges, by submission of its proposal or proposal and signature, it is current in its

respective Federal, State, County, and City taxes of whatever kind or nature, and is not delinquent in any way. Delinquent status must be disclosed or risk debarment by the Knox County Procurement Division.

2.23 **TERMINATION:** County may terminate this agreement with or without cause at anytime. In the event of termination by either party, fees due for services satisfactorily performed or goods accepted prior to the termination date shall be paid. Contractor shall not perform additional work without the expressed permission of County. In the event Contractor intends to interrupt or discontinue service under this Contract, Contractor agrees to give Knox County at least one hundred twenty (120) business days' advance written notice of said interruption or discontinuance of service prior to interrupting or discontinuing same. Any interruption or discontinuance of service without said advance notice shall constitute a material breach of this Contract.

2.24 **WARRANTY:** Contractor warrants to Knox County that all items delivered and all services rendered shall conform to the specifications, drawings, solicitation and/or other descriptions furnished and/or incorporated by reference, and will be fit for the particular purpose purchased of merchantable quality, good workmanship, and free from defects. Contractor extends to Knox County all warranties allowed under the U.C.C. Contractor shall provide copies of warranties to the County upon request. Return of merchandise not meeting warranties shall be at contractor's expense.

SECTION III SPECIAL TERMS AND CONDITIONS

3.1 **INTENT:** The intent of this document is to set forth and convey to prospective proposers the general requirements for vendors to provide Knox County Schools with Evidence-Based Instruction Strategies Consulting as desired by Knox County. Award will be based on Best Value. Best value means more than low cost. It includes cost, technical service quality, experience, qualifications and other factors detailed herein.

3.2 **ACCEPTANCE:** Vendors are advised that the payment of an invoice does not necessarily constitute as an acceptance of services that are provided. Acceptance requires a specific written action by Knox County so stating.

3.3 **ADDITIONS OR DELETIONS:** Knox County reserves the right to add or delete services as the need arises. If services are to be added, Knox County and the Contractor will arrive at a mutually agreed price. Any additions or deletions must be approved in writing by Knox County Procurement prior to any changes in service.

3.4 **AWARD LENGTH:** The pricing for this Contract must remain firm for thirty-six (36) months. However, due to the funding source Knox County does not allow automatic renewals, this Contract will need to be extended annually to continue services. Knox County will draft the Extension of Contract and send it to the vendor approximately ninety (90) days before expiration. The agreement may be renewed for four (4) one-year periods upon mutual consent, for a possible total of five (5) years. Following the initial thirty-six (36) months, the Contractor may request a change in price.

3.5 **CHANGES AFTER AWARD:** It is possible that after award, Knox County might change its needs or requirements. Knox County reserves the right to make such changes after consultation with the vendor. Should additional costs arise, Knox County reserves the right to consider accepting these charges provided the vendor can document the increased costs. Knox County also reserves the right to accept proposed service changes from the vendor if they will lower the cost to Knox County and/or provide improved service.

3.6 **COMMUNICATION:** The successful execution of this contract will require extensive communication between all involved parties. While information may be transmitted via telephone, it should always be followed up with an email. It is essential that the Contractor have an efficient email capabilities. The Contractor will be required to submit a list of individuals, along with direct phone numbers, cell phone numbers and email addresses for the agency's contacts. These individuals must be familiar with the Knox County Contract and have authority to make adjustments as requested by Knox County.

3.7 **COMPLIANCE WITH ALL APPLICABLE REGULATIONS:** Vendor agrees and covenants that the company, its agents and employees will comply with all City, County, State and Federal codes, laws, rules and regulations applicable to the business to be conducted under this contract. If the vendor performs any work knowing it to be contrary to such laws, ordinances, rules and regulations, the vendor shall bear all costs arising from such work.

3.8 **CONTACT PERSONNEL:** Essential to the success of this Contract is the development of a good working relationship between the vendor and Knox County. It is imperative that the Knox County account be handled efficiently and professionally. Knox County should be assigned no more than two (2) vendor contacts to handle billing inquiries and service related issues. In the event on or both contacts leave the Knox County account, the

vendor shall formally introduce the new contacts to Knox County personnel. These contacts must be knowledgeable of the County's account to avoid an interruption of service.

3.9 **CONTRACT EXECUTION:** The award of this proposal may result in a Contract between Knox County and the successful vendor(s). The Contract may require Knox County Board of Education and/or Knox County Commission approval. The successful vendor(s) may be required to be present at the Board of Education and/or County Commission meeting(s) to answer questions relating to the service to be performed. Adequate notification will be given by Knox County Procurement Division if the awarded vendor(s) will need to attend meetings. There shall be no cost to Knox County for attendance of the vendor(s). Knox County will draft the Contract. The Knox County Procurement Division will not accept any vendor's contract. A sample contract is under Exhibit B for review. If Master Agreements, Service Agreements, Terms and Conditions or other contract agreements are submitted they will not be accepted.

3.10 **CONTRACTOR DUTIES:** At the Contractor's own expense, the Contractor shall:

3.10.1 Provide competent supervision;
3.10.2 Provide competent personnel;
3.10.3 Take precautions necessary to protect persons or property against injury or damage and be responsible for any such damage or injury that occurs as a result of their fault or negligence.

3.11 **DESTINATION AND DELIVERY:** All shipments that are to be delivered must be Free on Board Destination to the department ordering the items. All shipping charges are to be included in the unit price of each item. All deliveries must be unloaded and delivered inside to the department location that is ordering the items.

3.12 **EVALUATION CRITERIA:** This proposal will be evaluated using the following criteria:

As per Section 1.5, Knox County will determine the award structure that is in its best interest.

Methodology	30 Points
Delivery of Service	30 Points
Experience & References	20 Points
Cost	20 Points

Knox County may select an Evaluation Committee for this solicitation to thoroughly review and score all submitted responsive and responsible proposals. Each evaluator will have the ability to award up to one hundred (100) points, based on the Evaluation Criteria, per submission.

3.13 **EVALUATION REVIEW:** Knox County reserves the right to use all pertinent information (including information learned from sources other than disclosed in the Request for Proposal process) that might affect the County's judgment as to the appropriateness of an award to the best evaluated vendor(s). This information may be appended to the proposal evaluation process results. Information on a service provider from reliable sources, and not within the service provider's proposal, may also be noted and made part of the evaluation file. Knox County shall have sole responsibility for determining a reliable source. Knox County reserves the right to conduct written and/or oral discussions/interviews after the proposal closing. The purpose of such discussions/interviews is to provide clarification and/or additional information to make an award that is in the best interest of Knox County.

3.14 **EXCEPTIONS TO SPECIFICATIONS:** Vendors taking exception to any part or section of these specifications shall indicate such exceptions on their submittal. A failure to indicate any exception(s) shall be interpreted as the vendor's intent to fully comply with the specifications as written. Conditional or qualified offer are subject to rejection in whole or in part. Any exceptions shall be included in Section V, Tab VIII of the submittal. **Do not strike through or in any other way alter the Request for Proposal. Exceptions listed within other sections of the submittal shall not be reviewed or considered.**

3.15 **GRANT FUNDING:** The products or services being procured under this solicitation are being funded by Federal Grant money. All awarded vendors will be required to adhere to Exhibit A of this solicitation in the performance of the Contract.

3.16 **GRATUITIES AND KICKBACKS:** It shall be a breach of ethical standards for any person or company to offer, give, or agree to give any employee or former employee, or for any employee or former employee to solicit, demand, accept, or agree to accept from another person, a gratuity or an offer of employment in connection with any decision, approval, disapproval, recommendation, preparation of any part of a program requirement or a purchase request, influencing the content of any specification or procurement standard, rendering of advice, investigation, auditing or in any other advisory capacity in any proceeding or application, request for ruling,

determination, claim, or controversy or other particular matter, pertaining to any program requirement of a contract or subcontract or to any solicitation or proposal therefore. It shall be a breach of ethical standards for any payment, gratuity or offer of employment to be made by or on behalf of a subcontractor under a contract to the prime contractor or higher tier subcontractor or a person associated therewith, as an inducement for the award of a subcontract or order. Breach of the provisions of this paragraph is, in addition to a breach of this Contract, a breach of ethical standards which may result in civil or criminal sanction and/or debarment or suspension from being a contractor or subcontractor under Knox County contracts.

3.17 **IDENTIFICATION:** Employees of the Contractor shall have proper photo identification displayed at all times while on property belonging to Knox County.

3.18 **INSURANCE:** The successful vendor(s) must carry the insurance as indicated on the Insurance Checklist Attachment hereto. As proof of the vendor's willingness to obtain and maintain the insurance, the vendor must complete, sign and have its insurance agent sign the attachment and submit it with the proposal. Upon the Notification of Intent to Award, the successful vendor will be required to submit a Certificate of Insurance (COI) including any corresponding endorsement page(s) with the specified coverage and listing Knox County as an additional insured. It shall be the successful vendor's responsibility to keep a current COI and endorsement page(s) on file with Knox County Procurement for as long as the contract is in effect.

3.19 **INTERPRETATION:** No oral interpretation will be made to any vendor regarding the meaning of specifications or the Scope of Work. All questions are to be submitted in writing via email and will be answered in the form of an addendum to the solicitation by the Knox County Procurement Division, if applicable.

3.20 **INVOICE DETAIL:** Knox County is requesting invoices to show the following detail to help expedite review and payment. The Contractor(s) may be required to modify invoicing procedures to show the detail. All potential Contractors are hereby cautioned that Knox County will only pay from original invoices and not facsimiles or copies. Invoices which do not adhere to these details may be returned to the Contractor for correction.

3.20.1 The invoice must show the amount due to the Contractor by Knox County;
3.20.2 The invoice must show a summary of completed work;
3.20.3 Invoices are to be original and uniquely pre-numbered;
3.20.4 Invoices which do not show this information are subject to rejection.

3.21 **INVOICING PROCEDURES:** Knox County requests that invoices be easy to read and understand. Invoices are to be original and uniquely pre-numbered. There shall be no additional charge for this information and these procedures to be included. Each invoice shall include a summary of service(s) provided and shall list the associated unit price. Supporting documentation shall be included with invoices as applicable. Invoices without this information will be returned to the Contractor for correction.

Invoices shall be sent to the billing address indicated on the Purchase Order. Each department or division of Knox County is responsible for its own budget. Departments cannot charge or pay bills for another department. Therefore, it is critical that the successful Contractor's invoices specify the correct department. Do not credit payments to another department's account. Invoices must be submitted in triplicate and must match the corresponding Purchase Order number. There shall be no component billing. Mail invoices for Knox County Schools to:

Knox County Schools Finance Department
Post Office Box 2188
Knoxville, TN 37902-1805
invoices@knoxschools.org

3.22 **INVOICE REVIEW:** Knox County shall review all invoices for adherence to the terms and conditions of the Contract. Variations from the Contract and Contract pricing are strictly prohibited. Any variance found on the invoice will result in rejection of that invoice. Rejected invoices will be returned to the Contractor(s) for correction. Repeated variations may result in termination.

3.23 **MINIMUM QUALIFICATION EXPECTATIONS:**

3.23.1 Respondent must address all submittal requirements as defined under Section IV.
3.23.2 Respondent shall have a minimum of five (5) years of experience and sufficient capabilities to carry out the work contemplated, as well as the equipment and personnel available for the work.

3.23.3 If the respondent has a permanent office in Knox County, respondent must have a current business license issued by Knox County. This requirement also applies to any of the Respondent's proposed subcontractors or subconsultants with a permanent office in Knox County. A Knox County business license is not required of any Respondent or proposed subcontractor or subconsultant who does not have a permanent office in Knox County. For more information, contact the Knox County Clerk's office at 865.215.2392.

3.24 **NEGOTIATION:** Knox County may select a successful proposer on the basis of initial offers received without discussions. Therefore, each proposal shall contain the proposer's best terms from a cost or price and service standpoint. Knox County reserves the right to enter into Contract negotiations with the highest-rated proposer. If Knox County and the selected proposer cannot negotiate a successful agreement, Knox County may terminate said negotiations and begin negotiations with the next highest-rated proposer. Knox County retains the right to negotiate with multiple proposers simultaneously. This process will continue until an agreement has been reached or all proposers have been rejected. No proposer shall have any rights against Knox County arising from such negotiations.

3.25 **NEWS RELEASES BY VENDORS:** As a matter of policy, Knox County does not endorse the services of a Contractor. A Contractor will not make news releases concerning any resultant contract from this solicitation without the prior written approval of Knox County.

3.26 **NO CONTACT POLICY:** After the date and time that the vendor receives this solicitation, any contact initiated by any proposer with any Knox County representative, other than the Procurement Division representative listed herein, concerning this Request for Proposal, is strictly prohibited. Any such unauthorized contact may cause the disqualification of the proposer from this procurement transaction.

3.27 **OFFER WITHDRAWAL:** No proposal can be withdrawn after it is filed unless the proposer makes a request in writing to the Knox County Procurement Division prior to the time set for the closing of proposals or unless the County fails to accept within one hundred twenty (120) business days after the date fixed for the closing the Request for Proposal.

3.28 **ORAL PRESENTATION/INTERVIEW:** Knox County may require proposers to give oral presentations/interviews in support of their proposal or to exhibit or otherwise demonstrate the information contained therein. These presentations/interviews may be conducted virtually through video conferencing or in person.

Knox County reserves the right to request oral presentations and/or interviews during the initial evaluation phase. The County also reserves the right to complete the initial evaluation phase and then request oral presentations and/or interviews from all proposers or the highest rated proposers. In this case, the evaluations may be revised based on additional information received during presentations.

3.29 **PRICING:** The proposer(s) warrants that the unit price stated shall remain firm for a period of thirty-six (36) months from the first day of the Contract period. If the Contractor's price is increased after the first contract period, Knox County must be given a written notice to consider. Such a request shall include as a minimum, (1) the cause for the adjustment; (2) the amount of the change requested with documentation to support the requested adjustment. Price increases will only be considered at the renewal period(s). If the price increase is rejected the contractor may:

- Continue with the existing prices;
- Request a lower price increase;
- Not accept the renewal offer.

If a price increase is approved by Knox County, the approval notification will be done in writing and the Contractor will be notified of the new price schedule and effective date of increase. This documentation will become part of the proposal file. No approvals will be authorized verbally.

3.30 **PROPOSAL CONTENT:** The proposer's response must contain a thorough description of the background of the proposer and sufficient evidence showing that the proposer is capable of providing the services. The proposer's response must thoroughly expound on the proposer's understanding of how the proposed services will meet Knox County's needs. The proposal must also contain an explanation of the implementation plan and the proposer's ongoing commitment to service.

3.31 **PROPOSAL EVALUATION:** In evaluation of submitted proposals, Knox County reserves the right to use any or all of the ideas from the proposals submitted without limitation and to accept any part or the entire successful proposal in selecting an operation which is judged to be in the best interest of Knox County. All material submitted becomes property of Knox County.
