(4) An invoice under this Grant Contract shall be presented to the State within sixty (60) days after the end of the calendar month in which the subject costs were incurred or services were rendered by the Grantee. An invoice submitted more than sixty (60) days after such date will NOT be paid. The State will not deem such Grantee costs to be allowable and reimbursable by the State unless, at the sole discretion of the State, the failure to submit a timely invoice is warranted. The Grantee shall submit a special, written request for reimbursement with any such untimely invoice. The request must detail the reason the invoice is untimely as well as the Grantee's plan for submitting future invoices as required, and it must be signed by a Grantee agent that would be authorized to sign this Grant Contract.

C.6. Budget Line-items. Expenditures, reimbursements, and payments under this Grant Contract shall adhere to the Grant Budget. The Grantee may vary from a Grant Budget line-item amount by up to twenty percent (20%) of the line-item amount, provided that any increase is off-set by an equal reduction of other line-item amount(s) such that the net result of variances shall not increase the total Grant Contract amount detailed by the Grant Budget. Any increase in the Grant Budget, grand total amounts shall require an amendment of this Grant Contract.

C.7. Disbursement Reconciliation and Close Out. The Grantee shall submit any final invoice and a grant disbursement reconciliation report within forty-five (45) days of the Grant Contract end date, in form and substance acceptable to the State. (**Attachment 4**)

a. If total disbursements by the State pursuant to this Grant Contract exceed the amounts permitted by the section C, payment terms and conditions of this Grant Contract, the Grantee shall refund the difference to the State. The Grantee shall submit the refund with the final grant disbursement reconciliation report.

b. The State shall not be responsible for the payment of any invoice submitted to the State after the grant disbursement reconciliation report. The State will not deem any Grantee costs submitted for reimbursement after the grant disbursement reconciliation report to be allowable and reimbursable by the State, and such invoices will NOT be paid.

c. The Grantee's failure to provide a final grant disbursement reconciliation report to the State as required by this Grant Contract shall result in the Grantee being deemed ineligible for reimbursement under this Grant Contract, and the Grantee shall be required to refund any and all payments by the State pursuant to this Grant Contract.

d. The Grantee must close out its accounting records at the end of the Term in such a way that reimbursable expenditures and revenue collections are NOT carried forward.

C.8. Indirect Cost. Should the Grantee request reimbursement for indirect costs, the Grantee must submit to the State a copy of the indirect cost rate approved by the cognizant federal agency or the cognizant state agency, as applicable. The Grantee will be reimbursed for indirect costs in accordance with the approved indirect cost rate and amounts and limitations specified in the attached Grant Budget. Once the Grantee makes an election and treats a given cost as direct or indirect, it must apply that treatment consistently and may not change during the Term. Any changes in the approved indirect cost rate must have prior approval of the cognizant federal agency or the cognizant state agency, as applicable. If the indirect cost rate is provisional during

the Term, once the rate becomes final, the Grantee agrees to remit any overpayment of funds to the State, and subject to the availability of funds the State agrees to remit any underpayment to the Grantee.

C.9. Cost Allocation. If any part of the costs to be reimbursed under this Grant Contract are joint costs involving allocation to more than one program or activity, such costs shall be allocated and reported in accordance with the provisions of Central Procurement Office Policy Statement 2013-007 or any amendments or revisions made to this policy statement during the Term.

C.10. Payment of Invoice. A payment by the State shall not prejudice the State's right to object to or question any reimbursement, invoice, or related matter. A payment by the State shall not be construed as acceptance of any part of the work or service provided or as approval of any amount as an allowable cost.

C.11. Non-allowable Costs. Any amounts payable to the Grantee shall be subject to reduction for amounts included in any invoice or payment that are determined by the State, on the basis of audits or monitoring conducted in accordance with the terms of this Grant Contract, to constitute unallowable costs.

C.12. State's Right to Set Off. The State reserves the right to set off or deduct from amounts that are or shall become due and payable to the Grantee under this Grant Contract or under any other agreement between the Grantee and the State of Tennessee under which the Grantee has a right to receive payment from the State.

C.13. Prerequisite Documentation. The Grantee shall not invoice the State under this Grant Contract until the State has received the following, properly completed documentation.

a. The Grantee shall complete, sign, and return to the State an "Authorization Agreement for Automatic Deposit (ACH Credits) Form" provided by the State. By doing so, the Grantee acknowledges and agrees that, once this form is received by the State, all payments to the Grantee under this or any other grant contract will be made by automated clearing house ("ACH").

b. The Grantee shall complete, sign, and return to the State the State-provided W-9 form. The taxpayer identification number on the W-9 form must be the same as the Grantee's Federal Employer Identification Number or Social Security Number referenced in the Grantee's Edison registration information.

D. STANDARD TERMS AND CONDITIONS:

D.1. Required Approvals. The State is not bound by this Grant Contract until it is signed by the parties and approved by appropriate officials in accordance with applicable Tennessee laws and regulations (depending upon the specifics of this Grant Contract, the officials may include, but are not limited to, the Commissioner of Finance and Administration, the Commissioner of Human Resources, and the Comptroller of the Treasury).

D.2. Modification and Amendment. This Grant Contract may be modified only by a written amendment signed by all parties and approved by the officials who approved the Grant Contract and, depending upon the specifics of the Grant Contract as amended, any additional officials required by Tennessee laws and regulations (the officials may include, but are not limited to, the Commissioner of Finance and Administration, the Commissioner of Human Resources, and the Comptroller of the Treasury).

D.3. Termination for Convenience. The State may terminate this Grant Contract without cause for any reason. A termination for convenience shall not be a breach of this Grant Contract by the State. The State shall give the Grantee at least thirty (30) days written notice before the effective termination date. The Grantee shall be entitled to compensation for authorized expenditures and satisfactory services completed as of the termination date, but in no event shall the State be liable to the Grantee for compensation for any service that has not been rendered. The final decision

as to the amount for which the State is liable shall be determined by the State. The Grantee shall not have any right to any actual general, special, incidental, consequential, or any other damages whatsoever of any description or amount for the State's exercise of its right to terminate for convenience.

D.4. Termination for Cause. If the Grantee fails to properly perform its obligations under this Grant Contract, or if the Grantee violates any terms of this Grant Contract, the State shall have the right to immediately terminate this Grant Contract and withhold payments in excess of fair compensation for completed services. Notwithstanding the exercise of the State's right to terminate this Grant Contract for cause, the Grantee shall not be relieved of liability to the State for damages sustained by virtue of any breach of this Grant Contract by the Grantee.

D.5. Subcontracting. The Grantee shall not assign this Grant Contract or enter into a subcontract for any of the services performed under this Grant Contract without obtaining the prior written approval of the State. If such subcontracts are approved by the State, each shall contain, at a minimum, sections of this Grant Contract pertaining to "Conflicts of Interest," "Lobbying," "Nondiscrimination," "Public Accountability," "Public Notice," and "Records" (as identified by the section headings). Notwithstanding any use of approved subcontractors, the Grantee shall remain responsible for all work performed.

D.6. Conflicts of Interest. The Grantee warrants that no part of the total Grant Contract Amount shall be paid directly or indirectly to an employee or official of the State of Tennessee as wages, compensation, or gifts in exchange for acting as an officer, agent, employee, subcontractor, or consultant to the Grantee in connection with any work contemplated or performed relative to this Grant Contract.

D.7. Lobbying. The Grantee certifies, to the best of its knowledge and belief, that:

a. No federally appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

b. If any funds other than federally appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this contract, grant, loan, or cooperative agreement, the Grantee shall complete and submit Standard Form-LLL, "Disclosure of Lobbying Activities," in accordance with its instructions.

c. The Grantee shall require that the language of this certification be included in the award documents for all sub-awards at all tiers (including subcontracts, sub-grants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into and is a prerequisite for making or entering into this transaction imposed by 31 U.S.C. § 1352.

D.8. Communications and Contacts. All instructions, notices, consents, demands, or other communications required or contemplated by this Grant Contract shall be in writing and shall be made by certified, first-class mail, return receipt requested and postage prepaid, by overnight courier service with an asset tracking system, or by email or facsimile transmission with recipient confirmation. All communications, regardless of method of transmission, shall be addressed to the respective party as set out below:
The State:

Marie Hartel, MPH | Program Director
Tennessee Vaccine-Preventable Diseases and Immunization Program
Communicable and Environmental Diseases and Emergency Preparedness Division
Tennessee Department of Health
Andrew Johnson Tower, 3rd Floor
710 James Robertson Pkwy,
Nashville, TN 37243
Cell Phone# 615-979-4452
Telephone# 615-253-9978
Marie.Hartel@tn.gov

Jessie Smotherman Jobe | Contracts Director
Jessie.Smotherman@tn.gov
Invoices.VPDIP@tn.gov

The Grantee:
Kevin Parton, Finance Manager
Knox County Regional Health Department
140 Dameron Ave.
Knoxville, TN 37917
Email Address: tdhcontracts@knoxcounty.org
Telephone # (865) 215-5273

A change to the above contact information requires written notice to the person designated by the other party to receive notice.

All instructions, notices, consents, demands, or other communications shall be considered effectively given upon receipt or recipient confirmation as may be required.

D.9. Subject to Funds Availability. This Grant Contract is subject to the appropriation and availability of State or Federal funds. In the event that the funds are not appropriated or are otherwise unavailable, the State reserves the right to terminate or suspend this Grant Contract upon written notice to the Grantee. The State's right to terminate or suspend this Grant Contract due to lack of funds is not a breach of this Grant Contract by the State. Upon receipt of the written notice, the Grantee shall cease all work associated with the Grant Contract. Should such an event occur, the Grantee shall be entitled to compensation for all satisfactory and authorized services completed as of the termination or suspension date but shall not be entitled to compensation for any services performed subsequent to termination date or during a period of suspension. Upon such termination, the Grantee shall have no right to recover from the State any actual, general, special, incidental, consequential, or any other damages whatsoever of any description or amount.

D.10. Nondiscrimination. The Grantee hereby agrees, warrants, and assures that no person shall be excluded from participation in, be denied benefits of, or be otherwise subjected to discrimination in the performance of this Grant Contract or in the employment practices of the Grantee on the grounds of handicap or disability, age, race, color, religion, sex, national origin, or any other classification protected by federal, Tennessee state constitutional, or statutory law. The Grantee shall, upon request, show proof of nondiscrimination and shall post in conspicuous places, available to all employees and applicants, notices of nondiscrimination.

D.11. HIPAA Compliance. As applicable, the State and the Grantee shall comply with obligations under the Health Insurance Portability and Accountability Act of 1996 (HIPAA), Health Information Technology for Economic and Clinical Health Act (HITECH) and any other relevant laws and regulations regarding privacy (collectively the "Privacy Rules"). The obligations set forth in this Section shall survive the termination of this Grant Contract.

a. The Grantee warrants to the State that it is familiar with the requirements of the Privacy Rules and will comply with all applicable HIPAA requirements in the course of this Grant Contract.

b. The Grantee warrants that it will cooperate with the State, including cooperation and coordination with State privacy officials and other compliance officers required by the Privacy Rules, in the course of performance of this Grant Contract so that both parties will be in compliance with the Privacy Rules.

c. The State and the Grantee will sign documents, including but not limited to business associate agreements, as required by the Privacy Rules and that are reasonably necessary to keep the State and the Grantee in compliance with the Privacy Rules. This provision shall not apply if information received by the State under this Grant Contract is NOT "protected health information" as defined by the Privacy Rules, or if the Privacy Rules permit the State to receive such information without entering into a business associate agreement or signing another such document.

D.12. Public Accountability. If the Grantee is subject to Tenn. Code Ann. § 8-4-401 *et seq*., or if this Grant Contract involves the provision of services to citizens by the Grantee on behalf of the State, the Grantee agrees to establish a system through which recipients of services may present grievances about the operation of the service program. The Grantee shall also display in a prominent place, located near the passageway through which the public enters in order to receive Grant supported services, a sign at least eleven inches (11") in height and seventeen inches (17") in width stating:

NOTICE: THIS AGENCY IS A RECIPIENT OF TAXPAYER FUNDING. IF YOU OBSERVE AN AGENCY DIRECTOR OR EMPLOYEE ENGAGING IN ANY ACTIVITY WHICH YOU CONSIDER TO BE ILLEGAL, IMPROPER, OR WASTEFUL, PLEASE CALL THE STATE COMPTROLLER'S TOLL-FREE HOTLINE: 1-800-232-5454.

The sign shall be on the form prescribed by the Comptroller of the Treasury. The Grantor State Agency shall obtain copies of the sign from the Comptroller of the Treasury, and upon request from the Grantee, provide Grantee with any necessary signs.

D.13. Public Notice. All notices, informational pamphlets, press releases, research reports, signs, and similar public notices prepared and released by the Grantee in relation to this Grant Contract shall include the statement, "This project is funded under a grant contract with the State of Tennessee." All notices by the Grantee in relation to this Grant Contract shall be approved by the State.

D.14. Licensure. The Grantee, its employees, and any approved subcontractor shall be licensed pursuant to all applicable federal, state, and local laws, ordinances, rules, and regulations and shall upon request provide proof of all licenses.

D.15. Records. The Grantee and any approved subcontractor shall maintain documentation for all charges under this Grant Contract. The books, records, and documents of the Grantee and any approved subcontractor, insofar as they relate to work performed or money received under this Grant Contract, shall be maintained in accordance with applicable Tennessee law. In no case shall the records be maintained for a period of less than five (5) full years from the date of the final payment. The Grantee's records shall be subject to audit at any reasonable time and upon reasonable notice by the Grantor State Agency, the Comptroller of the Treasury, or their duly appointed representatives.

The records shall be maintained in accordance with Governmental Accounting Standards Board (GASB) Accounting Standards or the Financial Accounting Standards Board (FASB) Accounting Standards Codification, as applicable, and any related AICPA Industry Audit and Accounting guides.

In addition, documentation of grant applications, budgets, reports, awards, and expenditures will be maintained in accordance with U.S. Office of Management and Budget's *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*.

Grant expenditures shall be made in accordance with local government purchasing policies and procedures and purchasing procedures for local governments authorized under state law.

The Grantee shall also comply with any recordkeeping and reporting requirements prescribed by the Tennessee Comptroller of the Treasury.

The Grantee shall establish a system of internal controls that utilize the COSO Internal Control - Integrated Framework model as the basic foundation for the internal control system. The Grantee shall incorporate any additional Comptroller of the Treasury directives into its internal control system.

Any other required records or reports which are not contemplated in the above standards shall follow the format designated by the head of the Grantor State Agency, the Central Procurement Office, or the Commissioner of Finance and Administration of the State of Tennessee.

D.16. Monitoring. The Grantee's activities conducted and records maintained pursuant to this Grant Contract shall be subject to monitoring and evaluation by the State, the Comptroller of the Treasury, or their duly appointed representatives.

D.17. Progress Reports. The Grantee shall submit brief, periodic, progress reports to the State as requested.

D.18. Annual and Final Reports. The Grantee shall submit, within three (3) months of the conclusion of each year of the Term, an annual report. For grant contracts with a term of less than one (1) year, the Grantee shall submit a final report within three (3) months of the conclusion of the Term. For grant contracts with multiyear terms, the final report will take the place of the annual report for the final year of the Term. The Grantee shall submit annual and final reports to the Grantor State Agency. At minimum, annual and final reports shall include: (a) the Grantee's name; (b) the Grant Contract's Edison identification number, Term, and total amount; (c) a narrative section that describes the program's goals, outcomes, successes and setbacks, whether the Grantee used benchmarks or indicators to determine progress, and whether any proposed activities were not completed; and (d) other relevant details requested by the Grantor State Agency. Annual and final report documents to be completed by the Grantee shall appear on the Grantor State Agency's website or as an attachment to the Grant Contract. (Attachment 5)

D.19. Audit Report. The Grantee shall be audited in accordance with applicable Tennessee law.

At least ninety (90) days before the end of its fiscal year, the Grantee shall complete the Information for Audit Purposes ("IAP") form online (accessible through the Edison Supplier portal) to notify the State whether or not Grantee is subject to an audit. The Grantee should submit only one, completed form online during the Grantee's fiscal year. Immediately after the fiscal year has ended, the Grantee shall fill out the End of Fiscal Year ("EOFY") (accessible through the Edison Supplier portal).

When a federal single audit is required, the audit shall be performed in accordance with U.S. Office of Management and Budget's *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*.

A copy of the audit report shall be provided to the Comptroller by the licensed, independent public accountant. Audit reports shall be made available to the public.

D.20. Procurement. If other terms of this Grant Contract allow reimbursement for the cost of goods, materials, supplies, equipment, or contracted services, such procurement shall be made on a competitive basis, including the use of competitive bidding procedures, where practical. The Grantee shall maintain documentation for the basis of each procurement for which reimbursement is paid pursuant to this Grant Contract. In each instance where it is determined that use of a competitive procurement method is not practical, supporting documentation shall include a written justification for the decision and for use of a non-competitive procurement. If the

Grantee is a subrecipient, the Grantee shall comply with 2 C.F.R. §§ 200.317—200.327 when procuring property and services under a federal award.

The Grantee shall obtain prior approval from the State before purchasing any equipment under this Grant Contract.

For purposes of this Grant Contract, the term "equipment" shall include any article of nonexpendable, tangible, personal property having a useful life of more than one year and an acquisition cost which equals or exceeds ten thousand dollars ($10,000.00).

D.21. Strict Performance. Failure by any party to this Grant Contract to insist in any one or more cases upon the strict performance of any of the terms, covenants, conditions, or provisions of this Grant Contract is not a waiver or relinquishment of any term, covenant, condition, or provision. No term or condition of this Grant Contract shall be held to be waived, modified, or deleted except by a written amendment signed by the parties.

D.22. Independent Contractor. The parties shall not act as employees, partners, joint venturers, or associates of one another in the performance of this Grant Contract. The parties acknowledge that they are independent contracting entities and that nothing in this Grant Contract shall be construed to create a principal/agent relationship or to allow either to exercise control or direction over the manner or method by which the other transacts its business affairs or provides its usual services. The employees or agents of one party shall not be deemed or construed to be the employees or agents of the other party for any purpose whatsoever.

D.23. Limitation of State's Liability. The State shall have no liability except as specifically provided in this Grant Contract. In no event will the State be liable to the Grantee or any other party for any lost revenues, lost profits, loss of business, loss of grant funding, decrease in the value of any securities or cash position, time, money, goodwill, or any indirect, special, incidental, punitive, exemplary or consequential damages of any nature, whether based on warranty, contract, statute, regulation, tort (including but not limited to negligence), or any other legal theory that may arise under this Grant Contract or otherwise. The State's total liability under this Grant Contract (including any exhibits, schedules, amendments or other attachments to the Contract) or otherwise shall under no circumstances exceed the Maximum Liability originally established in Section C.1 of this Grant Contract. This limitation of liability is cumulative and not per incident.

D.24. Force Majeure. "Force Majeure Event" means fire, flood, earthquake, elements of nature or acts of God, wars, riots, civil disorders, rebellions or revolutions, acts of terrorism or any other similar cause beyond the reasonable control of the party except to the extent that the non-performing party is at fault in failing to prevent or causing the default or delay, and provided that the default or delay cannot reasonably be circumvented by the non-performing party through the use of alternate sources, workaround plans or other means. A strike, lockout or labor dispute shall not excuse either party from its obligations under this Grant Contract. Except as set forth in this Section, any failure or delay by a party in the performance of its obligations under this Grant Contract arising from a Force Majeure Event is not a default under this Grant Contract or grounds for termination. The non-performing party will be excused from performing those obligations directly affected by the Force Majeure Event, and only for as long as the Force Majeure Event continues, provided that the party continues to use diligent, good faith efforts to resume performance without delay. The occurrence of a Force Majeure Event affecting Grantee's representatives, suppliers, subcontractors, customers or business apart from this Grant Contract is not a Force Majeure Event under this Grant Contract. Grantee will promptly notify the State of any delay caused by a Force Majeure Event (to be confirmed in a written notice to the State within one (1) day of the inception of the delay) that a Force Majeure Event has occurred, and will describe in reasonable detail the nature of the Force Majeure Event. If any Force Majeure Event results in a delay in Grantee's performance longer than forty-eight (48) hours, the State may, upon notice to Grantee: (a) cease payment of the fees until Grantee resumes performance of the affected obligations; or (b) immediately terminate this Grant Contract or any purchase order, in whole or in part, without further payment except for fees then due and payable. Grantee will not increase its charges under this Grant Contract or charge the State any fees other than those provided for in this Grant Contract as the result of a Force Majeure Event.

D.25. Tennessee Department of Revenue Registration. The Grantee shall comply with all applicable registration requirements contained in Tenn. Code Ann. §§ 67-6-601 – 608. Compliance with applicable registration requirements is a material requirement of this Grant Contract.

D.26. Charges to Service Recipients Prohibited. The Grantee shall not collect any amount in the form of fees or reimbursements from the recipients of any service provided pursuant to this Grant Contract.

D.27. No Acquisition of Equipment or Motor Vehicles. This Grant Contract does not involve the acquisition and disposition of equipment or motor vehicles acquired with funds provided under this Grant Contract.

D.28. State and Federal Compliance. The Grantee shall comply with all applicable state and federal laws and regulations in the performance of this Grant Contract. The U.S. Office of Management and Budget's Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards is available here: http://www.ecfr.gov/cgi-bin/text-idx?SID=c6b2f053952359ba94470ad3a7c1a975&tpl=/ecfrbrowse/Title02/2cfr200_main_02.tpl

D.29. Governing Law. This Grant Contract shall be governed by and construed in accordance with the laws of the State of Tennessee, without regard to its conflict or choice of law rules. The Grantee agrees that it will be subject to the exclusive jurisdiction of the courts of the State of Tennessee in actions that may arise under this Grant Contract. The Grantee acknowledges and agrees that any rights or claims against the State of Tennessee or its employees hereunder, and any remedies arising there from, shall be subject to and limited to those rights and remedies, if any, available under Tenn. Code Ann. §§ 9-8-101 through 9-8-408.

D.30. Completeness. This Grant Contract is complete and contains the entire understanding between the parties relating to the subject matter contained herein, including all the terms and conditions agreed to by the parties. This Grant Contract supersedes any and all prior understandings, representations, negotiations, or agreements between the parties, whether written or oral.

D.31. Severability. If any terms and conditions of this Grant Contract are held to be invalid or unenforceable as a matter of law, the other terms and conditions shall not be affected and shall remain in full force and effect. To this end, the terms and conditions of this Grant Contract are declared severable.

D.32. Headings. Section headings are for reference purposes only and shall not be construed as part of this Grant Contract.

D.33. Iran Divestment Act. The requirements of Tenn. Code Ann. § 12-12-101, *et seq.*, addressing contracting with persons as defined at Tenn. Code Ann. §12-12-103(5) that engage in investment activities in Iran, shall be a material provision of this Grant Contract. The Grantee certifies, under penalty of perjury, that to the best of its knowledge and belief that it is not on the list created pursuant to Tenn. Code Ann. § 12-12-106.

D.34. Debarment and Suspension. The Grantee certifies, to the best of its knowledge and belief, that it, its current and future principals, its current and future subcontractors and their principals:

a. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any federal or state department or agency;

b. have not within a three (3) year period preceding this Grant Contract been convicted of, or had a civil judgment rendered against them from commission of fraud, or a criminal offence in connection with obtaining, attempting to obtain, or performing a public (federal, state, or local) transaction or grant under a public transaction; violation of federal or state antitrust statutes or commission of embezzlement, theft, forgery, bribery,

falsification, or destruction of records, making false statements, or receiving stolen property;

c. are not presently indicted or otherwise criminally or civilly charged by a government entity (federal, state, or local) with commission of any of the offenses detailed in section b. of this certification; and

d. have not within a three (3) year period preceding this Grant Contract had one or more public transactions (federal, state, or local) terminated for cause or default.

The Grantee shall provide immediate written notice to the State if at any time it learns that there was an earlier failure to disclose information or that due to changed circumstances, its principals or the principals of its subcontractors are excluded or disqualified, or presently fall under any of the prohibitions of sections a-d.

D.35. Confidentiality of Records. Strict standards of confidentiality of records and information shall be maintained in accordance with the requirements of this Grant Contract and applicable state and federal law. All material, information, and data regardless of form, medium or method of communication, that the Grantee will have access to, acquire, or is provided to the Grantee by the State or acquired by the Grantee on behalf of the State shall be regarded as "Confidential Information." The State grants the Grantee a limited license to use the Confidential Information but only to perform its obligations under the Grant Contract. Nothing in this Section shall permit Grantee to disclose any Confidential Information, regardless of whether it has been disclosed or made available to the Grantee due to intentional or negligent actions or inactions of agents of the State or third parties. Confidential Information shall not be disclosed except as required under state or federal law or otherwise authorized in writing by the State. Grantee shall take all necessary steps to safeguard the confidentiality of such Confidential Information in conformance with the requirements of this Grant Contract and with applicable state and federal law.

As long as the Grantee maintains State Confidential Information, the obligations set forth in this Section shall survive the termination of this Grant Contract.

D.36. State Sponsored Insurance Plan Enrollment. The Grantee warrants that it will not enroll or permit its employees, officials, or employees of contractors to enroll or participate in a state sponsored health insurance plan through their employment, official, or contractual relationship with Grantee unless Grantee first demonstrates to the satisfaction of the Department of Finance and Administration that it and any contract entity satisfies the definition of a governmental or quasigovernmental entity as defined by federal law applicable to ERISA.

D.37. Foreign Adversary Company Attestation. The Grantee attests that they are not a "Foreign adversary company" within the meaning of Pub. Ch. 768 (2026) and that the Grantee is not knowingly selling an information and communications technology final product or service within the meaning of Pub. Ch. 768 (2026).

E. SPECIAL TERMS AND CONDITIONS:

E.1. Conflicting Terms and Conditions. Should any of these special terms and conditions conflict with any other terms and conditions of this Grant Contract, the special terms and conditions shall be subordinate to the Grant Contract's other terms and conditions.

E.2. Personally Identifiable Information. While performing its obligations under this Grant Contract, Grantee may have access to Personally Identifiable Information held by the State ("PII"). For the purposes of this Grant Contract, "PII" includes "Nonpublic Personal Information" as that term is defined in Title V of the Gramm-Leach-Bliley Act of 1999 or any successor federal statute, and the rules and regulations thereunder, all as may be amended or supplemented from time to time ("GLBA") and personally identifiable information and other data protected under any other applicable laws, rule or regulation of any jurisdiction relating to disclosure or use of personal information ("Privacy Laws"). Grantee agrees it shall not do or omit to do anything which would cause the State to be in breach of any Privacy Laws. Grantee shall, and shall cause its

employees, agents and representatives to: (i) keep PII confidential and may use and disclose PII only as necessary to carry out those specific aspects of the purpose for which the PII was disclosed to Grantee and in accordance with this Grant Contract, GLBA and Privacy Laws; and (ii) implement and maintain appropriate technical and organizational measures regarding information security to: (A) ensure the security and confidentiality of PII; (B) protect against any threats or hazards to the security or integrity of PII; and (C) prevent unauthorized access to or use of PII. Grantee shall immediately notify State: (1) of any disclosure or use of any PII by Grantee or any of its employees, agents and representatives in breach of this Grant Contract; and (2) of any disclosure of any PII to Grantee or its employees, agents and representatives where the purpose of such disclosure is not known to Grantee or its employees, agents and representatives. The State reserves the right to review Grantee's policies and procedures used to maintain the security and confidentiality of PII and Grantee shall, and cause its employees, agents and representatives to, comply with all reasonable requests or directions from the State to enable the State to verify or ensure that Grantee is in full compliance with its obligations under this Grant Contract in relation to PII. Upon termination or expiration of the Grant Contract or at the State's direction at any time in its sole discretion, whichever is earlier, Grantee shall immediately return to the State any and all PII which it has received under this Grant Contract and shall destroy all records of such PII.

The Grantee shall report to the State any instances of unauthorized access to or potential disclosure of PII in the custody or control of Grantee ("Unauthorized Disclosure") that come to the Grantee's attention. Any such report shall be made by the Grantee within twenty-four (24) hours after the Unauthorized Disclosure has come to the attention of the Grantee. Grantee shall take all necessary measures to halt any further Unauthorized Disclosures. The Grantee, at the sole discretion of the State, shall provide no cost credit monitoring services for individuals whose PII was affected by the Unauthorized Disclosure not to exceed 12 months. The Grantee shall bear the cost of notification to all individuals affected by the Unauthorized Disclosure, including individual letters and public notice. The remedies set forth in this Section are not exclusive and are in addition to any claims or remedies available to this State under this Grant Contract or otherwise available at law. The obligations set forth in this Section shall survive the termination of this Grant Contract.

E.3. Federal Funding Accountability and Transparency Act (FFATA).

This Grant Contract requires the Grantee to provide supplies or services that are funded in whole or in part by federal funds that are subject to FFATA. The Grantee is responsible for ensuring that all applicable FFATA requirements, including but not limited to those below, are met and that the Grantee provides information to the State as required.
The Grantee shall comply with the following:

a. Reporting of Total Compensation of the Grantee's Executives.

(1) The Grantee shall report the names and total compensation of each of its five most highly compensated executives for the Grantee's preceding completed fiscal year, if in the Grantee's preceding fiscal year it received:

i. 80 percent or more of the Grantee's annual gross revenues from Federal procurement contracts and federal financial assistance subject to the Transparency Act, as defined at 2 CFR 170.320 (and sub awards); and

ii. $25,000,000 or more in annual gross revenues from federal procurement contracts (and subcontracts), and federal financial assistance subject to the Transparency Act (and sub awards); and

iii. The public does not have access to information about the compensation of the executives through periodic reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. § 78m(a), 78o(d)) or § 6104 of the Internal Revenue Code of 1986. (To determine if the public has access to the compensation information, see the U.S. Security and Exchange Commission total compensation filings at http://www.sec.gov/answers/execomp.htm).

As defined in 2 C.F.R. § 170.315, “Executive” means officers, managing partners, or any other employees in management positions.

2) Total compensation means the cash and noncash dollar value earned by the executive during the Grantee’s preceding fiscal year and includes the following (for more information see 17 CFR § 229.402(c)(2)):

i. Salary and bonus.
ii. Awards of stock, stock options, and stock appreciation rights. Use the dollar amount recognized for financial statement reporting purposes with respect to the fiscal year in accordance with the Statement of Financial Accounting Standards No. 123 (Revised 2004) (FAS 123R), Shared Based Payments.
iii. Earnings for services under non-equity incentive plans. This does not include group life, health, hospitalization or medical reimbursement plans that do not discriminate in favor of executives and are available generally to all salaried employees.
iv. Change in pension value. This is the change in present value of defined benefit and actuarial pension plans.
v. Above-market earnings on deferred compensation which is not tax qualified.
vi. Other compensation, if the aggregate value of all such other compensation (e.g. severance, termination payments, value of life insurance paid on behalf of the employee, perquisites or property) for the executive exceeds $10,000.

b. The Grantee must report executive total compensation described above to the State by the end of the month during which this Grant Contract is established.

c. If this Grant Contract is amended to extend its term, the Grantee must submit an executive total compensation report to the State by the end of the month in which the amendment to this Grant Contract becomes effective.

d. The Grantee will obtain a Unique Entity Identifier (SAM) and maintain its number for the term of this Grant Contract. More information about obtaining a Unique Entity Identifier can be found at: https://www.gsa.gov.

The Grantee’s failure to comply with the above requirements is a material breach of this Grant Contract for which the State may terminate this Grant Contract for cause. The State will not be obligated to pay any outstanding invoice received from the Grantee unless and until the Grantee is in full compliance with the above requirements.

E.4. Clean Air Act and Federal Water Pollution Control Act. As a condition for receipt of funds, the Grantee agrees to comply with the Clean Air Act, 42 U.S.C. § 7401 et seq. and the Federal Water Pollution Control Act, 33 U.S.C § 1251 et seq., as those sections are amended from time to time during the term. Violations must be reported to the Centers for Disease Control and Prevention and the Region 4 Office of the Environmental Protection Agency.

E.5. Americans with Disabilities Act. The Grantee must comply with the Americans with Disabilities Act (ADA) of 1990, as amended, including implementing regulations codified at 28 CFR Part 35 "Nondiscrimination on the Basis of Disability in State and Local Government Services" and at 28 CFR Part 36 "Nondiscrimination on the Basis of Disability in Public Accommodations and Commercial Facilities," and any other laws or regulations governing the provision of services to persons with a disability, as applicable. For more information, please visit the ADA website: http://www.ada.gov.

E.6. Healthy Eating Requirements. Grant recipients who purchase or serve snacks or meals in conjunction with their performance under this Grant Contract shall provide only healthy foods. No

high-sugar beverage shall be served at any time. Fruits and vegetables shall be given preference in menu selections.

E.7. Assistance Listing Number. When applicable, the Grantee shall inform its licensed independent public accountant of the federal regulations that require compliance with the performance of an audit. This information shall consist of the following Assistance Listing Numbers:
93.268 Immunization Cooperative Agreements.

E.8. Comptroller Audit Requirements.

When requested by the State or the Comptroller of the Treasury, the Grantee must provide the State or the Comptroller of the Treasury with a detailed written description of the Grantee's information technology control environment, including a description of general controls and application controls. The Grantee must also assist the State or the Comptroller of the Treasury with obtaining a detailed written description of the information technology control environment for any third or fourth parties, or Subcontractors, used by the Grantee to process State data and/or provide services under this Contract.

Grantee will maintain and cause its Subcontractors to maintain a complete audit trail of all transactions and activities in connection with this Contract, including all information technology logging and scanning conducted within the Grantee's and Subcontractor's information technology control environment. Upon reasonable notice and at any reasonable time, the Grantee grants the State or the Comptroller of the Treasury with the right to audit the Grantee's information technology control environment, including general controls and application controls. The audit may include testing the general and application controls within the Grnatee's information technology control environment and may also include testing general and application controls for any third or fourth parties, or Subcontractors, used by the Grantee to process State data and/or provide services under this Contract. The audit may include the Grantee's and Subcontractor's compliance with the State's Enterprise Information Security Policy and all applicable requirements, laws, regulations, or policies.

Upon reasonable notice and at any reasonable time, the Grantee and Subcontractor(s) agree to allow the State, the Comptroller of the Treasury, or their duly appointed representatives to perform information technology control audits of the Grantee and all Subcontractors used by the Grantee. Grantee will provide to the State, the Comptroller of the Treasury, or their duly appointed representatives access to Grantee and Subcontractor(s) personnel for the purpose of performing the information technology control audit. The audit may include interviews with technical and management personnel, physical or virtual inspection of controls, and review of paper or electronic documentation.

The Grantee must have a process for correcting control deficiencies that were identified in the State's or Comptroller of the Treasury's information technology audit. For any audit issues identified, the Grantee and Subcontractor(s) shall submit a corrective action plan to the State or the Comptroller of the Treasury which addresses the actions taken, or to be taken, and the anticipated completion date in response to each of the audit issues and related recommendations of the State or the Comptroller of the Treasury. The corrective action plan shall be provided to the State or the Comptroller of the Treasury upon request from the State or Comptroller of the Treasury and within 30 days from the issuance of the audit report or communication of the audit issues and recommendations. Upon request from the State or Comptroller of the Treasury, the Grantee and Subcontractor(s) shall provide documentation and evidence that the audit issues were corrected.

Each party shall bear its own expenses incurred while conducting the information technology controls audit.

E.9. **Information Technology Security Requirements (State Data, Audit, and Other Requirements).**

a. The Grantee shall protect State Data as follows:

(1) The Grantee shall ensure that all State Data is housed in the continental United States, inclusive of backup data. All State data must remain in the United States, regardless of whether the data is processed, stored, in-transit, or at rest. Access to State data shall be limited to US-based (onshore) resources only.

All system and application administration must be performed in the continental United States. Configuration or development of software and code is permitted outside of the United States. However, software applications designed, developed, manufactured, or supplied by persons owned or controlled by, or subject to the jurisdiction or direction of, a foreign adversary, which the U.S. Secretary of Commerce acting pursuant to 15 CFR 7 has defined to include the People's Republic of China, among others are prohibited. Any testing of code outside of the United States must use fake data. A copy of production data may not be transmitted or used outside the United States.

(2) The Grantee shall encrypt Confidential State Data at rest and in transit using the current version of Federal Information Processing Standard ("FIPS") 140-2 **or** 140-3 (or current applicable version) validated encryption technologies.

(3) The Grantee shall implement and maintain privacy and security controls that follow the guidelines set forth in the most current version of NIST 800-171, "Protecting Controlled Unclassified Information in Nonfederal Systems and Organizations," with the State to review the implementation of this Section. The State must have proof of compliance with NIST 800-171 in the form of a third-party audit at a minimum every two years or upon request.

No additional funding shall be allocated for these examinations as they are included in the Maximum Liability of this Contract.

(4) The Grantee must annually perform Penetration Tests and Vulnerability Assessments against its Processing Environment per the NIST 800-115 definition. "Processing Environment" shall mean the combination of software and hardware on which the Application runs. "Application" shall mean the computer code that supports and accomplishes the State's requirements as set forth in this Contract. "Penetration Tests" shall be in the form of attacks on the Grantee's computer system, with the purpose of discovering security weaknesses which have the potential to gain access to the Processing Environment's features and data. The "Vulnerability Assessment" shall be designed and executed to define, identify, and classify the security holes (vulnerabilities) in the Processing Environment. The Grantee shall provide a letter of attestation on its processing environment that penetration tests and vulnerability assessments has been performed on an annual basis and taken corrective action to evaluate and address any findings. The Grantee must provide a letter of attestation that includes a penetration testing and vulnerability assessments report per NIST 800-115 that outlines risk exposure of the critical, high, and moderate risks and how they were mitigated, within 30 days of receiving the results.

In the event of an unauthorized disclosure or unauthorized access to State data, the State Strategic Technology Solutions (STS) Security Incident Response Team (SIRT) must be notified and engaged by calling the State Customer Care Center (CCC) at 615-741-1001. Any such event must be reported by the Grantee within twenty-four (24) hours after the unauthorized disclosure has come to the attention of the Grantee.

(5) If a breach has been confirmed a fully un-modified third-party forensics report must be supplied to the State and through the STS SIRT. This report must include indicators of compromise (IOCs) as well as plan of actions for

remediation and restoration. Grantee shall take all necessary measures to halt any further Unauthorized Disclosures.

(6) Upon State request, the Grantee shall provide a copy of all Confidential State Data it holds. The Grantee shall provide such data on media and in a format determined by the State

(7) Upon termination of this Contract and in consultation with the State, the Grantee shall destroy, and ensure all subcontractors shall destroy, all Confidential State Data it holds (including any copies such as backups) in accordance with the current version of National Institute of Standards and Technology ("NIST") Special Publication 800-88. The Grantee shall provide a written confirmation of destruction to the State within ten (10) business days after destruction.

b. Minimum Requirements

(1) The Grantee and all data centers used by the Grantee to host State data, including those of all Subcontractors, must comply with the most current version of NIST 800-171, "Protecting Controlled Unclassified Information in Nonfederal Systems and Organizations," with the State to review the implementation of this Section. The State must have proof of compliance with NIST 800-171 in the form of a third-party audit at a minimum every two years or upon request. Knox County Information Security Management Policy is attached as Attachment #6.

(2) The Grantee agrees to maintain the Application so that it will run on a current, manufacturer-supported Operating System. "Operating System" shall mean the software that supports a computer's basic functions, such as scheduling tasks, executing applications, and controlling peripherals.

(3) If the Application requires middleware or database software, Grantee shall maintain middleware and database software versions that are always fully compatible with current versions of the Operating System and Application to ensure that security vulnerabilities are not introduced.

(4) In the event of drive/media failure, if the drive/media is replaced, it remains with the State and it is the State's responsibility to destroy the drive/media, or the Grantee shall provide written confirmation of the sanitization/destruction of data according to NIST 800-88.

c. Business Continuity Requirements. The Grantee shall maintain set(s) of documents, instructions, and procedures which enable the Grantee to respond to accidents, disasters, emergencies, or threats without any stoppage or hindrance in its key operations ("Business Continuity Requirements"). Business Continuity Requirements shall include:

(1) "Disaster Recovery Capabilities" refer to the actions the Grantee takes to meet the Recovery Point and Recovery Time Objectives defined below. Disaster Recovery Capabilities shall meet the following objectives:

i. Recovery Point Objective ("RPO"). The RPO is defined as the maximum targeted period in which data might be lost from an IT service due to a major incident:

1 Hour

ii. Recovery Time Objective ("RTO"). The RTO is defined as the targeted duration of time and a service level within which a business process

must be restored after a disaster (or disruption) in order to avoid unacceptable consequences associated with a break in business continuity:

24 HOURS

(2) The Grantee and the Subcontractor(s) shall maintain a documented Disaster Recovery plan and shall share this document with the State when requested. The Grantee and the Subcontractor(s) shall perform at least one Disaster Recovery Test every three hundred sixty-five (365) days. A “Disaster Recovery Test” shall mean the process of verifying the success of the restoration procedures that are executed after a critical IT failure or disruption occurs. The Disaster Recovery Test shall use actual State Data Sets that mirror production data, and success shall be defined as the Grantee verifying that the Grantee can meet the State’s RPO and RTO requirements. A “Data Set” is defined as a collection of related sets of information that is composed of separate elements but can be

IN WITNESS WHEREOF, the parties have by their duly authorized representatives set their signatures.

REPORTING TEMPLATE

Introduction

Reporting Template has three parts:
•Schedule A,
•Schedule B, and
•Schedule C which are Program Expense Reports (PER), Program Revenue Reports (PRR) and Reconciliation Between Total and Reimbursable Expenses and Total Expense Summary Report.
Program Expense Reports (PER), Program Revenue Reports (PRR) and Reconciliation Between Total and Reimbursable Expenses and Total Expense Summary Report including Schedule A-1 and Schedule B-1 must be submitted in the same format/the same column heading each quarter. The final Report (definition can be found in grant contract agreement) must be approved by the contracting state agency.

Schedule Headings

At the top of each schedule, the name of the reporting contractor/grantee and the period covered by the report need to be entered. The period of the report should always be the most recent quarter ended and report programs in the same sequence as the previous quarter.

Column Headings

For each program for Schedule A and B, Contracting State Agency, Program Name, Assistance Listing Number/Program Number, Edison Contract Number, and Grant/Contract Term should be entered. These can be found in the grant contract agreement.
•The Contracting State Agency is for the state agency who awards the grant and initiates the contract agreement.
•The Program Name is the title to describe the program or the title that corresponds to the Federal Assistance Listing number.
•The Assistance Listing Number/Program Name is a number assigned to identify the Federal Assistance Listings under which the subaward was made by the contracting State agency.
•The Edison contract number is the number assigned by the contracting state agency and should include the amendment number, if any. This can be found in the grant contract agreement.
•The grant/contract term is the beginning and ending dates of the grant/contract. This can be found in the grant contract agreement.

Program Columns

Program expense columns (Quarter-To-Date and Year-To-Date) are for reporting direct program expenses. Direct program expenses that benefit more than one program (i.e., allocable-direct costs) may be allocated to the benefitted programs within the expense categories. The cognizant state agency should approve the method used for cost allocations and the contacting state agency should abide by the cost allocation approved by the cognizant state agency.
The Quarter-To-Date column can be used to capture all expenses for the specific quarter. For example, the expenses for the 2nd quarter (from 10/1/22 to 12/31/2022) can be entered in this column.
All accumulated expenses for each program can be entered in Year-To-Date column. For example, if a grantee/organization has entered the expenses for the 2nd quarter in Quarter-To-Date column, all accumulated expenses for the 1st quarter and the 2nd quarter should be entered in Year-To-Date column.

PROGRAM EXPENSE REPORT (PER) SCHEDULE A

Purpose/Scope

The Program Expense Report (PER Schedule A) contains expenses by the detailed line items and then summarizes by subtotals or total**.** This schedule can be used for any grants received from a state agency or multiple state agencies.

These expenses include direct and allocated direct program expenses in each line item. Per 2 CFR Part 200.413, direct costs are those costs that can be identified specifically with a particular final cost objective, such as a grant, or other internally or externally funded activity, or that can be directly assigned to such activities relatively easily with a high degree of accuracy. Per 2 CFR Part 200.405, allocable direct costs are those that benefit more than one program, but do not fall under the criteria of indirect costs.

Except for depreciation, every expense reported in Lines 1 through 21 must represent an actual cash disbursement or accrual (as defined in the Basis for Reporting Expenses/Expenditures section on page 1 of this instructions). If more than two programs (e.g., four programs), complete multiple Schedule As to report all four program expenses.

Instruction for Expenses by Object Line-Items

Line 1 Salaries and Wages

Enter the amount of compensation, fees, salaries, bonuses, severance payments, and wages paid to program directors, program managers/staffs, and employees.

References:

2 CFR Part 200.430
Form 990 Part IX line 5, 7

Line 2 Employee Benefits & Payroll Taxes

Enter (a) the grantee's/organization's contributions to pension plans and to employee benefit programs such as health, life, and disability insurance; and (b) the grantee's/organization's portion of payroll taxes such as social security, Medicare taxes, and unemployment and workers' compensation insurance.

References:

2 CFR Part 200.431
Form 990 Part IX lines 8, 9, 10

Line 3 Total Personnel Expenses

Add lines 1 Salaries and Wages and 2 Employee Benefits & Payroll Taxes.

Line 4 Professional Fees

Enter the costs/fees of professionals, consultants, and personal-service contractors who are not officers or employees of the grantee/organization. These include legal, accounting, and auditing fees.

References:

2 CFR Part 200.459
Form 990 Part IX line 11

Line 5 Supplies

Enter the grantee's/organization's expenses for office supplies, housekeeping supplies, and other supplies.

References:
2 CFR Part 200.453
Form 990 Part IX line 13

Line 6 Telecommunication

Enter the grantee's/organization's expenses for telephone, cellular phones, beepers, telegram, FAX, telephone equipment maintenance, internet, cloud servers, and other related expenses.

References:
2 CFR Part 200.471
Form 990 Part IX line 13

Line 7 Postage and Shipping

Enter the grantee's/organization's expenses for postage, messenger services, overnight delivery, outside mailing service fees, freight and trucking, and maintenance of delivery and shipping vehicles. Include vehicle insurance here or on line 14.

References:
2 CFR Part 200.474
Form 990 Part IX line 13

Line 8 Occupancy

Enter the grantee's/organization's expenses for use of office space and other facilities including rent, heat, light, power, other utilities, outside janitorial services, mortgage interest, real estate taxes, and similar expenses. Include property insurance here or on line 14.

References:
2 CFR Part 200.465
Form 990 Part IX line 16

Line 9 Equipment Rental and Maintenance

Enter the grantee's/organization's expenses for renting and maintaining computers, copiers, postage meters, other office equipment, and other equipment, except for telecommunications, truck, and automobile expenses, reportable on lines 6, 7, and 11, respectively.

References:
2 CFR Part 200.452
Form 990 Part IX line 13

Line 10 Printing and Publications

Enter the grantee's/organization's expenses for producing printed materials, purchasing books and publications, buying subscriptions to publications, publication costs for electronic and print media, and page charges for professional journal publications.

References:
- 2 CFR Part 200.461
- Form 990 Part IX line 13

Line 11 Travel

Enter the grantee's/organization's expenses for airfare, transportation, meals and lodging, subsistence, and related items incurred by employees on official business of the organization. These costs may be charged on an actual cost basis, on a per diem or mileage basis in lieu of actual costs incurred, consistent with those normally allowed in like circumstances in the organization's non-federal/state-funded activities and in accordance with organization's written travel reimbursement policies. Include gas and oil, repairs, licenses and permits, and leasing costs for company vehicles. Include travel expenses for meetings and conferences. Include vehicle insurance here or on line 14.

If an organization does not have the written travel reimbursement policies, they may use the State Travel policy which is:

F&A Policy 08 Comprehensive State Travel Regulations.

References:
- 2 CFR Part 200.475
- Form 990 Part IX line 17

Line 12 Conference and Meetings

Enter the grantee's/organization's expenses for conducting or attending meetings, conferences, seminars, retreats, and conventions including registration fees. When host of conference, include rental of facilities, speakers' fees and expenses, costs of meals and refreshment (food and beverages), and printed materials for the conference.

References:
- 2 CFR Part 200.432
- Form 990 Part IX line 19

Line 13 Interest

Enter the interest expense for the business related loans and interest costs that are related to capital leases on equipment, trucks and automobiles, and other notes and loans. Do not include mortgage interest reportable on line 8.

References:
- 2 CFR Part 200.449
- Form 990 Part IX line 20

Line 14 Insurance

Enter the grantee's/organization's expenses for liability insurance, fidelity bonds, and other insurance. Do not include employee-related insurance reportable on line 2. Do not include shipping vehicle, property, and organization vehicles for travel if reported on lines 7, 8, or 11 respectively.

References:

2 CFR Part 200.447

Form 990 Part IX line 23

Line 15 Grants and Awards

Enter the grantee's/organization's awards, grants, subsidies, and other pass-through expenditures to other organizations. Include allocations to affiliated organizations. Include in- kind grants to other organizations. Include scholarships, tuition payments, travel allowances, and equipment allowances to clients. These expenses will not include when calculating Administrative Expense in line 22.

References:

2 CFR Part 200.1

Form 990 Part IX line 1

Line 16 Specific Assistance to Individuals

Enter the grantee's/organization's direct payment for expenses of clients, patients, and individual beneficiaries. Include such expenses as medicines, medical and dental fees, children's board, food and homemaker services, clothing, transportation, insurance coverage, scholarships, fellowships, stipends, research grants, wage supplements, and similar payments.

References:

2 CFR Part 200.456

Form 990 Part IX line 2

Line 17 Depreciation

Enter the expenses the grantee's/organization's records for depreciation (the method for allocating the cost of fixed assets to periods benefitting from asset use) of equipment, buildings, leasehold improvements, and other depreciable fixed assets.

References:

2 CFR Part 200.436

Form 990 Part IX line 22

Line 18 Other Nonpersonnel Expenses

Enter the grantee's/organization's allowable expenses for Advertising, Information Technology, Bad Debts, Contingency Provisions, Fines and Penalties, Independent Research and Development, Organization Costs, Rearrangement and Alteration, Recruiting, and Taxes. Include the Organization's and Employees' Membership Dues in Associations and Professional Societies. Include other fees for the Organization's Licenses, Permits, and Registrations, etc.

NOTE: Expenses reportable on lines 1 through 17 should not be reported as an additional expense category on line 18. A description should be attached for each additional category entered on line 18. The contracting state agency may determine these requirements in the grant contract agreement.

a) Advertising:

Enter expenses paid for advertising. Include amounts for print and electronic media advertising. Also include internet site link costs, signage costs, and advertising costs for the organization's in-house fundraising campaigns.

References:
2 CFR Part 200.421
Form 990 Part IX line 12

b) Information Technology:

Enter expenses for information technology, including hardware, software, and support services such as maintenance, help desk, and other technical support services. Also include expenses for infrastructure support, such as website design and operations, virus protection and other information security programs and services to keep the organization's website operational and secured against unauthorized and unwarranted intrusions, and other information technology contractor services.

References:
2 CFR Part 200.1
Form 990 Part IX line 14

c) Bad Debts:

Enter expense amounts for losses (whether actual or estimated) arising from uncollectable accounts and other claims, related collection costs, and related legal costs.

References:
2 CFR Part 200.426
Form 990 Part IX line 24

d) Contingency Provisions:

Enter expense amounts for contributions to a contingency reserve or any similar provision made for events the occurrence of which cannot be foretold with certainty as to time, intensity, or with an assurance of their happening.

References:
2 CFR Part 200.433
Form 990 Part IX line 24

e) Fines and Penalties:

Enter costs of fines and penalties resulting from violations of, or failure of the organization to comply with Federal, State, and local laws and regulations except when incurred as a result of compliance with specific provisions of an award or instructions in writing from the awarding agency.

References:
2 CFR Part 200.441
Form 990 Part IX line 24

f) Independent Research and Development:

Enter the expenses of all research activities, including the training of individuals in research techniques.

References:
2 CFR Part 200.1
Form 990 Part IX line 24

g) Organization Costs:

Enter expenses such as incorporation fees, brokers' fees, fees to promoters, and organizers.

References:
2 CFR Part 200.455
Form 990 Part IX line 24

h) Rearrangement and Alteration:

Enter expenses incurred for ordinary or normal rearrangement and alteration of facilities. Include the expenses incurred in the restoration or rehabilitation of the organization's facilities.

References:
2 CFR Part 200.462
Form 990 Part IX line 24

i) Recruiting:

Enter expenses for recruiting staff and maintaining workload requirements, costs of "help wanted" advertising, operating costs of an employment office necessary to secure and maintain an adequate staff, costs of operating an aptitude and educational testing program and relocation costs incurred incident to recruitment of new employees.

References:
2 CFR Part 200.463
Form 990 Part IX line 24

j) Taxes:

Enter expenses for payment of taxes to the local government or state.

References:
2 CFR Part 200.470
Form 990 Part IX line 24

k) Organization's and Employee's Membership Dues in Associations and Professional Societies:

Enter expenses of the organization's membership or subscriptions in business, technical, and professional organizations.

References:
2 CFR Part 200.454
Form 990 Part IX line 24

Line 19 Total Nonpersonnel Expenses

Add lines 4 Professional Fees through 18 Other Non-personnel Expenses.

Line 20 Reimbursable Capital Purchases

Enter the organization's purchases of fixed assets. Include land, equipment, buildings, leasehold improvements, and other fixed assets.

References:

2 CFR Part 200.439

Form 990 Par X line 10a or Schedule D Part VI

Line 21 Total Direct Program Expenses

Add Line 3 Total Personnel Expenses, and Line 19 Total Non-personnel Expenses, and Line 20 Reimbursable Capital Purchases. These expenses are the summary of the direct and allocated direct program expenses that entered in Line 1 Salaries and Wages through Line 20 Reimbursable Capital Purchases.

Reference:

2 CFR Part 200.405 2 CFR Part 200.413

Form 990 Part IX, column B

Line 22 Administrative Expenses

The distribution will be made in accordance with an allocation plan approved by your cognizant state agency. Pass-through funds (Line 15 Grants and Awards) are not included when computing administrative expenses.

References:

2 CFR Part 200.414

Form 990 Part IX, Column C

Line 23 Total Direct Program and Administrative Expenses

Line 23 is the total of Line 21 Total Direct Program Expenses and Line 22 Administrative Expenses. Total Direct Program and Administrative Expenses (Line 23) Year To Date (if quarter end 3/31/2023) should agree with Total of YTD (Year To Date) Actual Expenditures Through 3/31/2023 (Column E) of the Invoice for Reimbursement.

Line 24 In-Kind Expenses

In-kind Expenses is for reporting the value of contributed resources (non-cash) applied to the program. Approval and reporting guidelines for in-kind contributions will be specified by those contracting state agencies who allow their use toward earning grant funds.

References:

2 CFR Part 200.434

Form 990 Part XI line 6

Line 25 Total Program Expenses

The sum of Line 23 Total Direct Program and Administrative Expenses and Line 24 In-kind Expenses goes on this line.

PROGRAM EXPENSE REPORT (PER) SCHEDULE A-Q1-Q4

Purpose/Scope

This template tracks expenses for all the quarters and summarizes in the Year-To-Date column. The Year-To-Date column can be linked to Year-To-Date column of the Schedule A.

Additionally, this schedule provides the Grant Budget Amount (from grant contract agreement) column and the Over/(Under) Budget Amount column which compares cumulative Year-To-Date expenses to Grant Budget Amount.

Instruction for Expenses by Object Line-Items

The instructions for expense line items are the same as Schedule A.

PROGRAM REVENUE REPORT AND RECONCILIATION BETWEEN TOTAL PROGRAM AND REIMBURSABLE EXPENSES SCHEDULE B

Purpose/Scope

Program Revenue Report (PRR) and Reconciliation Between Total and Reimbursable Expenses, Schedule B, are intended to capture all revenue by the detailed source and reconcile total program expenses and reimbursable expenses. Each revenue column should match up with the Edison Contract Number and the Program Name from Schedule A and align with its corresponding expense column from the Schedule A. The Reconciliation of Total Program Expenses And Reimbursable Expenses, at the bottom of Schedule B, should be completed to show how Total Program Expenses (Line 51 of Schedule B or Line 25 of Schedule A) reconciles to the amount to be reimbursed.

If multiple programs exist, additional copies of the Schedule B can be used to enter all Program Revenue and Reconciliation Between Total and Reimbursable Expenses.

Additional supplemental schedules showing the Sources of Revenue in the aggregations may be attached, if needed. The contracting state agency may provide more guidance in the grant contract agreement.

Instruction for Sources of Revenue

• Reimbursable Program Funds

Line 31 Reimbursable Federal Program Funds

Enter the portion of Total Direct Program & Administrative Expenses reported on Line 23 of the Schedule A that are reimbursable from the Federal program funds.

Reference:
Form 990 Part VIII 1e

Line 32 Reimbursable State Program Funds

Enter the portion of Total Direct Program & Administrative Expenses reported on Line 23 of the Schedule A that are reimbursable from the state program funds.

Reference:
Form 990 Part VIII 1e

Line 33 Total Reimbursable Program Funds

Add Line 31 Reimbursable Federal Program Funds and Line 32 Reimbursable State Program Funds.

• Matching Revenue Funds

Note: matching requirements can be found in the grants contact agreement for the grants received from the contracting state agency.

Line 34 Other Federal Funds

Enter the matching portion (the grantee portion) of the program costs that will be covered by other Federal fund sources.

Reference:
Form 990 Part VIII 1e

Line 35 Other State Funds

Enter the matching portion (the grantee portion) of the program costs that will be covered by other State fund source.

Reference:
Form 990 Part VIII 1e

Line 36 Other Government Funds

Enter the matching portion (the grantee portion) of the program costs that will be covered by other government fund source.

Reference:
Form 990 Part VIII 1e

Line 37 Cash Contributions (Nongovernment)

Enter the matching portion (the grantee portion) of the cash contributions that were received from corporations, foundations, trusts, and individuals, United Ways, other not-for-profit organizations, and affiliated organizations. This is only applicable when the grantee has received contributions from above donors for this program and this is included as expense line-items of the Schedule A.

References:
Form 990 Part VIII 1f

Line 38 In-Kind Contributions (Equals Schedule A. Line 24)

Enter the matching portion (the grantee portion) of the direct and administrative in-kind contributions.

Approval and guidelines for valuation and reporting of in-kind contributions will be specified by those grantor agencies who allow their use toward program purposes.

References:
Form 990 Part VIII line 1f and Part XI line 6

Line 39 Program Income

Enter the matching portion (the grantee portion) of program income. For example, income from fees for services performed.

Reference:
Form 990 Part VIII line 2a to 2f

Line 40 Other Matching Revenue

Enter the matching portion of other revenues that are not included in lines 34 through 39.
References:
Form 990 Part VIII 3 through 11e

Line 41 Total Matching Revenue Funds

Add lines 34 through 40.

Line 42 Other Program Funds

Enter any other program revenues that are funded by the contracting state agency but are not reported as matching revenue funds on Line 41 Total Matching Revenue Funds. Example of this can be in-kind expenses (Line 24 of Schedule A), if any.

References:
Form 990 Part VIII 1a through 11e

Line 43 Total Revenue

Add lines 33, 41, and 42.
References:
Form 990 Part VIII 12

Instruction for Reconciliation Between Total and Reimbursable Expenses

Line 51 Total Program Expenses

This line is brought forward from Line 25 Total Program Expenses on Schedule A.

Line 52 Other Unallowable Expenses

Enter amount for Other Unallowable Expenses here. Some program expenses may not be reimbursable under certain grants. Example of this can be the in-kind expenses which is non-cash item. This will vary according to the contracting state agency and the type of grant or contract. Consult with the contracting state agency that funds the program for additional guidelines.

Line 53 Excess Administration

This line may be used to deduct allocated Administration and General expenses (indirect costs) in excess of the allowable percentage specified in the grant contract agreement or the indirect cost rate that is approved by the cognizant State agency. This line may also be used to deduct an adjustment resulting from limitations on certain components of Administration and General expenses. Consult with the contracting state agency that funds the program for additional guidelines.

Line 54 Matching Expenses

Total program expenses should be deducted from matching (cost sharing) expenses required by the program compliance. This portion can be a specified as an amount or percentage to match the federal award. Program income (e.g., user fees or rental of real property) can be deducted from matching portion.

Line 55 Reimbursable Expense (Line 51 Less Lines 52, 53, And 54)

This should equal the amount the contracting state agency has already paid for the quarter's operations of the program. The cumulative Year-To-Date column is what the grantor has actually paid to date if the organization has submitted the invoice and reimbursed monthly.

Line 56 Total Reimbursement To Date

The Quarter-to-Date column is the total amounts received for this quarter from filing of Invoices for Reimbursement (usually monthly). The cumulative Year-to-Date column amount is the total amount received for the grant program.

Line 57 Difference (Line 55 minus Line 56)

This is the portion of Reimbursable Expenses that are not paid yet. If a grantee submits a monthly invoice for reimbursement and reimbursement has been received, this will be zero.

Line 58 Advances

Any advance payments from the contracting state agency should appear on this line. Most of time, the contracting state agency will not pay the expenses in advance.

Line 59 This Reimbursement (Line 57 minus 58)

The remainder should be the amount due under the grant contract. Request for reimbursement is made through the invoicing process and not through filing of the quarterly or annual report. Any amounts showing here needed to be included in the invoice for reimbursement.

NONGRANT EXPENSE REPORT (NER)
NONGRANT REVENUE REPORT (NRR) AND
RECONCILIATION BETWEEN TOTAL NONGRANT AND REIMBURSABLE EXPENSES
SCHEDULE A-1, SCHEDULE A-1-Q1-Q4, and SCHEDULE B-1

Purpose/Scope

These schedules may be used for the nongrants/unallowable expenses that are not reimbursed/will not be reimbursed by the contracting state agencies.

These schedules should be completed to reconcile expenses per the Total Expense Summary Report (Schedule C) to the trial balance/general ledger when the nongrants/unallowable expenses exist in the grantee's books.

Instruction for Schedules A-1, A-1-Q1-Q4, and B-1

The instruction for these schedules A-1, A-1-Q1-Q4, and B-1 are the same as the instructions for Schedule A and B except these expenses will not be reimbursed by the contracting state agency.

Heading sections may be entered as N/A if this heading is not applicable for Nongrant/Unallowable Expense or Revenue.

TOTAL EXPENSE SUMMARY REPORT
Schedule C

Purpose/Scope

The Total Expense Summary Report is intended to recap all the direct program expenses in one column, separately identify nongrant/unallowable expenses, and total administrative expenses in other columns, as well as a grand total of all the expenses of the grantee. The amounts in Grand Total Year-to-Date column should tie to the general ledger/trial balance of the grantee/organization.

Schedule C should be only one schedule regardless if there are multiple Schedule As and Bs. The grantee will complete all the schedules at one time and will submit the same schedule to the multiple contracting state agencies if the grantee has received awards from the multiple state agencies.

Instruction for Expenses by Object Line-Items

The object line-items are the same as Schedule A. See each line-item instruction in Schedule A.

Instruction for Columns

Total Direct Program Expenses Column

This column is the summary of all the individual programs' cumulative year to date expenses as identified separately under the respective program names in Schedule A.

Total Nongrant/Unallowable Expenses Column

The nongrant/unallowable expense column includes the following expenses:

I. The cumulative year-to-date expenses for all other programs that are not funded by the contracting state agency/agencies.

II. The cumulative year-to-date expenses for fund-raising activities, if any.

III. Other cumulative year-to-date expenses that are not allowable for reimbursement according to the terms of the grants or the Federal guidance.

Total Administrative Expenses Column

The administrative expenses column is for categorizing the cumulative year-to-date administrative expenses into the Expense by Object. Total Direct Program Expenses (line 21) of this column is the sum of all the line 21s. Line 22 of this column will make line 21 amount to be a credit amount so that Total Direct and Administrative Expenses is showing zero since these expenses are already claimed in columns Total Direct Program Expenses Year-To-Date and Total Nongrant/Unallowable Expenses Year-To-Date.

Grand Total Column

The Grand Total column contains all the cumulative year-to-date expenses for the entire reporting organization. The Grant Total Year-to-Date expenses must be traceable to the reporting organization's general ledger or trial balance.

Introduction

Information Technology (IT) solutions are driven by the demands of our daily business activities at Knox County. The ability to procure efficient communication, IT resources, and technologies that support Knox County's business processes is a foundational component of a successful IT program.

Organizations often take risks in order to meet those time-sensitive business requirements, sometimes bypassing existing processes to meet the demands of customers whom they serve. As we continue to expand our use of cloud technologies, it is imperative that Knox County Information Technology (KCIT) continues to demonstrate that our data is hosted, processed, and stored securely. Information security is not an absolute and cannot absolutely guarantee the security of the information that it handles. This policy is an effort to strive to maintain a reasonable, continuous process for implementing, reviewing, and improving data security.

The main purpose of this living document, the Knox County Information Technology Security Policy, herein thereafter referred to as the "Policy", is to define information security policies for individuals that access any assets controlled, leased, owned, or otherwise utilized by Knox County, herein thereafter referred to as, the "County". Our purview specifically excludes Knox County Libraries, Schools, & Sheriff networks and workstations, with the exception of those Knox County Library, School, and Sheriff users that are issued credentials by KCIT in order to access certain applications and resources. The goal of the Policy is to maintain confidentiality, continuity, integrity, and availability of information, information technology, and critical operation processes in such a manner that the County's legal, regulatory, and ethical responsibilities to its citizens are upheld to the highest of standards. The Policy defines the acceptable use and management of internal and remote systems, services, information, technical controls, and procedures that govern the design, acquisition, implementation, administration, and use of the County's system that assist in mitigating risks due to evolving cyber threats and vulnerabilities.

The Policy defines the minimum-security requirements for the protection of KCIT assets, including the managerial, operational, and technical protection requirements and controls to protect the integrity, continuity, confidentiality, and availability of the County's IT assets as well as compliance with all applicable federal, state, and local laws, policies, and regulations (e.g. HIPAA, HITECH, PCI-DSS, PII, PHI, and other specific privacy regulations currently in effect, as amended, or established later). The Policy will abide by the guidelines established by the National Institute of Standards and Technology (NIST) and any other existing and future implementations of technology, as business needs, and funding allow.

Purpose

The purpose of this policy document is intended to protect any and all information and information systems within the County under KCIT's purview. Information systems consist of all IT systems and critical infrastructure to include computers, communication equipment fixed or mobile, software, systems, applications, databases, internet access, the data and information contained or passing through them, and activities and individual behavior involving the use or management of the systems and information. The intent is to cover all actions and procedures implemented to govern the design,

construction, operation, and preservation of the creation, collection, recording, processing, storing, retrieval, presentation, and transmission of information.

Scope

The Policy applies to:

- All County agencies, departments, employees, volunteers, service providers, vendors, contractors, and commercial entities (referred to as 'users' throughout this and other KCIT policies and procedures), that develop, implement, administer or use Knox County information and communication systems, data and information.
- All audio and video streaming and content, use of any web-based applications, including the use of social media, the County's web addresses (URLs) and image, wireless and remote access into the County's technology environment from anywhere, cloud services, and any other external resources hosted by a third-party, such as a vendor, on behalf of the County are incorporated into the scope of the Policy.
- All existing and future implementations of information systems, communications, other technology, and the Internet at Knox County or in use interoperability capabilities with partner organizations.

Exceptions

Exceptions to the Policy may be requested. Any exceptions to any of the security policies outlined in this, or any other security policy or procedure released on behalf of KCIT, will be reviewed, evaluated, and processed by a member of the Chief Technology Officer's (CTO) staff.

An Information Security Policy Exception/Waiver Request Form shall be prepared by the Department, signed by the elected official or Director of the Department, and submitted for review by the CTO, IT Compliance Officer (ITCO), Cyber Security Manager (CSM) and/or other members of the IT staff, as deemed appropriate. Certain exception requests may require escalation to Knox County's Law Department whose responsibilities include e-Government and HIPAA functions for determination. Periodic reviews for all granted exceptions will be conducted by the ITCO and reviewed by the CTO or Law Department to verify that the original business need is still valid, and the risk level is still acceptable.

Review

Review of this document takes place within KCIT and will occur on an annual basis, at a minimum. Document review can also be requested by submitting a request to the CTO by completing the KCIT Security Policy Document Review Request Form.

Compliance

Objective: **To avoid breaches of legal, statutory, regulatory, or contractual obligations related to information security or any security requirements.**

The Policy shall serve as an adequacy standard for information security safeguards and shall form the basis on which information security audits and reviews will be conducted. All activity from the County's IT environments and on County resources are subject to monitoring by authorized staff or designated entities.

Identification of Applicable Legislation and Contractual Requirements

All relevant legislative, statutory, regulatory, contractual, requirements, and the County's approach to meet these requirements should be explicitly identified, documented, and kept current for each information system, each department, and each entity that stores, processes, or transmits data on behalf of the County. This includes, but is not limited to, Criminal Justice Information Services (CJIS), Health Insurance Portability and Accountability Act (HIPAA), Federal Information Security Modernization Act (FISMA), Payment Card Industry Data Security Standard (PCI DSS), Health Information Technology for the Economy and Clinical Health Act (HITECH), Tennessee Annotated Code, as amended, and the Tennessee Personal and Commercial Computer Act of 2003, as amended.

Privacy and Protection of Personally Identifiable Information

The privacy and protection of personally identifiable information (PII) should be protected as required by relevant federal or state statute or regulation. The overall privacy of information are concerns both for individuals whose personal information is at stake and for departments and agencies that may be liable or have their reputations damaged should PII be inappropriately accessed, used, or disclosed.

Information Security Policies

***Objective*: To provide management direction and support for information security in accordance with Knox County requirements and relevant county, state, and federal statutes, and regulations for the County's computing environments.**

Information Security Requirements and Guidelines

KCIT will initiate, control, and communicate an enterprise information security architecture that includes, but is not limited to, a policy framework, an organizational and communication framework, and a security technology framework.

Security Assessment and Authorization

The CTO shall develop formal and documented security assessment and authorization procedures and strategies that address purpose, scope, roles and responsibilities, management commitment, coordination among agencies and departments, and operations and technical controls to ensure compliance consistent with County policy, and applicable local, state, and federal laws, directives, operational policies, regulations, standards, and guidance.

The CSM and ITCO shall annually review security assessment policies, procedures, and strategies and determine the effectiveness of existing security controls and team roles and responsibilities. The ITCO

shall also produce analytical reports that detail the results of security assessments and implement plans of action to improve information security controls, as funding and budget allow. KCIT may employ an independent assessment team to test and review security controls to ensure compliance consistent with local, state, and federal laws, directives, policies, regulations, standards, and guidance.

County leadership shall determine personnel authorized to determine the acceptable levels of risk to County operations and information assets to guide the implementation of appropriate security controls. County leadership shall designate approval authorities responsible and accountable for exercising due care in assessing the security risks associated with Knox County information and systems and due diligence that the information security program and measures are implemented accordingly.

Department leadership must formally authorize connections from County information systems to external information systems through interconnection security agreements such as Memoranda of Understandings, Service Level Agreements, Firewall Rules Requests, Exceptions to Policy/Waivers, etc. Requests shall include details specific to each connection including the system or data source being connected to, the interface characteristics, security requirements, and type of information transmitted. Interconnections shall be monitored to verify enforcement of security use, policy, controls, and requirements.

The ITCO and/or the CSM shall implement a continuous security program that allows County agencies to maintain security baselines adaptive to evolving threats, vulnerabilities, and technologies yet remain in alignment with County missions, goals, and values.

Operations Security

***Objective*: To protect critical County information resource assets, including hardware, software, and data from unauthorized use, misuse, or destruction and to maintain correct and proper operations.**

Documented Operating Procedures

KCIT and vendors or outsourced employees acting on behalf of the County should identify, document, and maintain standard security operating procedures and configurations for their respective operating environments and make sure the documentation is available to all users who need it.

Awareness and Training

An information security awareness and training program shall be incorporated as part of the County's training and education programs for all users in order to educate the user community in the issues related to vulnerabilities and cyber-security breach risks associated with information technology, the importance, and methods of protecting County information, and information systems. Security awareness shall be continually emphasized, reinforced, updated, and validated.

KCIT shall develop and maintain a communications process for notifying users of new information system security-related issues and concerns specific to the County and of general interest.

Users shall receive security awareness training and sign an acknowledgment indicating they have read and agree to adhere to KCIT information security policies. Records or certifications indicating the completion of security awareness training shall be retained for County users.

Configuration and Change Management

IT systems shall be designed, configured, hardened, and maintained according to County System Hardening Standards to adequately safeguard County information to the extent possible or feasible. Baseline configurations and configuration deviations of the County's information systems, network devices, and communications infrastructure shall be documented, reviewed, and updated. General requirements include, but are not limited to, installing operating systems from KCIT approved sources and media, applying vendor patches, removing, or disabling unnecessary software and services, enabling audit logging and other security protections, and changing the passwords and usernames of default accounts. System owners are prohibited from making unauthorized changes to approved configurations without consultation and approval of the Infrastructure Director and CTO.

System Administrators shall analyze hardware and software for flaws, weaknesses, incompatibility, and other security or functionality impacts and vulnerabilities in a test environment prior to implementation into the production environment, when possible. Security functions shall be reviewed and verified after changes to systems have been implemented to verify the functions and features are implemented correctly, operating as intended, and producing the desired result.

Changes to information processing facilities and systems should be controlled and monitored for security compliance. Formal management responsibilities and procedures should exist to assist in the satisfactory control or all changes to equipment, software, applications, configurations, and/or procedures that affect KCIT operation environment. All written documentation generated by the change control policies and procedures should be retained as evidence of compliance.

Change control procedures should include authorization, risk assessment, logging, auditability, and rollback procedures.

Capacity Management

The use of KCIT resources should be monitored and tuned so that projections of future capacity requirements can be made.

Separation of Development, Testing, and Operational Environments

Development and testing environments should be segregated from production environments in order to reduce the risks of unauthorized access or changes to the production environment. Data classified as restricted must be protected from unauthorized disclosure, use, modification, or destruction and should not be used in development or test environments.

Protection from Malware

Objective: **Prevent the automated propagation of malicious code and contamination of environments attached to the KCIT network.**

Malicious Software Control

All computing platforms that are attached to the County's enterprise technology infrastructure or operated on behalf of the County should be protected from intentional or unintentional exposure to malicious software. Malicious software includes, but is not limited to, software viruses, worms, Trojan horses, logic bombs, and rootkits. Compromised systems should be removed from the operational environment. All computing platforms that are attached to the County's enterprise technology infrastructure will participate in the County's antivirus program if antivirus signatures are available for the computing platforms. KCIT reserves the right to seize any compromised system for forensic analysis.

Backup

Objective: **To prevent loss of data and to attain data availability.**

Data Backup

Backup copies of data, software, and system images should be taken and tested regularly in accordance with the established procedures. A copy of the backup data should be stored off-site according to applicable regulatory requirements and County guidelines. Results of restore tests should be furnished to data owners with recommendations for any remedial steps found. Data owners should approve any remedial plans and timelines for implementing those remediation steps within a reasonable period, not to exceed three months. Following remediation, the restore testing should be repeated and results documented to substantiate that those steps mitigated all identified issues.

Logging and Monitoring

Objective: **To record events and generate evidence.**

Event Logging

All systems should be configured to support security event logging, user activity recording, exceptions, faults, and information security events. System administrators should monitor and report inappropriate access to the Infrastructure Director and the CTO. Critical systems should be configured to support automated logging to a facility that protects the integrity of the logs. Logging levels and monitor elements will be configured in accordance with federal and state statute and regulatory requirements.

Availability and Performance Monitoring

Critical systems should be configured to support County approved automated monitoring of system availability and performance.

Protection of Log Information

Logging facilities and log information should be protected against tampering and unauthorized access.

Administrator and Logs

System Administrator activities should be logged, protected, and regularly reviewed.

Clock Synchronization

Approved KCIT managed enterprise network time servers should be the only County devices permitted to synchronize with external time services. All County provided or managed systems will synchronize time with approved KCIT managed enterprise network time servers. All non-County provided or managed systems storing, processing, or transmitting County data should be synchronized to County approved time synchronization services.

Control of Operational Software

Objective: **To protect the integrity of operational systems.**

Installation of Software on Operational Systems

Only software that has been licensed and approved as County standard software/product or that has been approved as an exception through the County's architecture standards approval process should be installed on devices covered by the software's license agreement.

Patch Management

All applications and processing devices that are attached to the County's enterprise technology infrastructure will have critical security related application, operating system, and/or security-related patches for supported operating systems made available by the software or hardware vendor applied when applied within 90 calendar days or sooner, if any acceptable date can be agreed upon by all affected parties. Emergency patches and updates will be applied as soon as possible following successful validation and testing.

Patch Schedule

KCIT will generally follow the below schedule for patches, unless deemed otherwise.

- 7 days for critical patches addressing known exploits
- 14 days for high patches addressing known exploits
- 30 days for critical patches
- 60 days for high patches

Software Maintenance

Servers and workstation computer devices should have defined maintenance windows within every 90 days.

Applications should have established review and maintenance cycles for software updates.

Access Control

Objective: **To limit access to information and information processing facilities.**

Access Control Policy

All access rules and requirements to access KCIT resources should be developed, documented, maintained, and audited by KCIT. Access to the County's IT resources will be granted consistent with the concept of least privilege. All information processing systems owned by or operated on behalf of the County should have an appropriate role-based access control system that confirms only legitimate users and/or systems have access to IT resources that are explicitly authorized to use.

Access to Networks and Network Services

All access and connectivity to the County's enterprise network or networks operated on behalf of the County should be granted consistent with the concept of least privilege. Users will only be provided with access to the network and network resources that they have been specifically authorized to use.

Remote Access

All users who are accessing the County's internal network should access those resources through a County approved Virtual Private Network (VPN) solution. All users who access County data on networks operated on behalf of the County should use secure connection methods and are required to sign the Acceptance Use Policy and End User Agreement.

Information Security Roles and Responsibilities

All information security responsibilities should be defined and assigned by the access granting authority within KCIT, most commonly the system administrators.

Segregation of Duties

Where appropriate, conflicting duties and areas of responsibility should be segregated and assigned to different individuals to reduce opportunities for unauthorized or unintentional modification or misuse of the County's assets.

User Access Management

Objective: **To authenticate authorized user access and to prevent unauthorized access to systems and services.**

User Registration and De-Registration

A formal user registration and de-registration process will be implemented to enable proper assignment of access rights and to adjust those rights as the user's role changes. Prior to any access, the user must complete, sign, and return the KCIT Acceptable Use Policy and End User Agreement.

User Access Provisioning

User access to IT resources should be authorized and provisioned according to the Department's employee provisioning process.

User Account Naming

All County user accounts will follow a County approved standardized naming convention.

Management of Privileged Access Rights

Users should have the least privileges required to perform their roles as identified and approved by their management. The allocation and use of privileged access rights should be restricted and controlled.

Management of Secret Authorization of Information Users

The allocation of secret authentication information should be controlled through a formal management process.

Review of User Access Rights

A user's access rights should be reviewed, validated, and updated for appropriate access provided by a user's supervisor on a regular basis or whenever the user's access requirements change (e.g. hire, promotion, demotion, and transfer within and between departments). KCIT is not responsible for determining appropriate user access rights. However, KCIT will provide departments with audit reports, upon request.

Removal or Adjustment of Access Rights

All access rights for employees, elected officials, and external entities to information and information processing facilities should be revoked upon termination of their employment, contract, agreement, or change of department by the close of business on the user's last day working or within 24 hours of notification of the user's death, determination of job abandonment, or retroactive notification of resignation or retirement.

In the event the user will be returning or transferring to another role in which they will need access to the County's resources, the user's profile will be suspended in lieu of termination and the user's access rights will need to be reviewed prior to reinstatement.

Procedures for emergency removal of access rights should be in place.

User Responsibilities

Objective: **To make users accountable for safeguarding their authentication information.**

Use of Secret Authentication Information

Users should follow County guidelines and requirements in the use of secret authentication information.

System and Application Access Control

Objective: **To prevent unauthorized access to systems and applications.**

Information Access Restriction

Access to information and application system functions should be restricted in accordance with the defined access control guidelines. KCIT reserves the right to deny access to any networked information, systems, applications, or internal resources for any devices not owned by the County.

Secure Log-on Procedures

Where required by access control guidelines, access to systems and applications should be controlled by a secure log-on procedure. At a minimum, user access to protected KCIT resources requires that the utilization of User Identification (User ID) and password that uniquely identifies the user. Sharing access credentials intended to authenticate and authorize a single user between any two or more individuals is prohibited.

System Administrator Access

All System Administrators or users with elevated privileges using administrative tools or protocols to access servers located in County managed data processing facilities or facilities operated on behalf of the County must use a multifactor VPN solution to obtain access.

Log-on Banner

All workstations owned and operated by or on behalf of the County must display the County approved logon banner before the user is able to log in.

Service Account Use

Service Accounts should be unique to each application and/or system and should only be used to authenticate systems and/or applications to specific services.

System/Application Account Use

System/application accounts are created upon installation of an application and may have a predetermined User ID. Privileged user access to system accounts must be approved and documented. A system/application account differs from a service account in that individuals may know the password

to the system/application account. This account must be elevated from a lesser account. An example of this type of account is the default administrative account required by the application.

System Administrator Account Use

System Administrator accounts have elevated privileges and should only be used when elevated privileges are required. Administrative accounts are used to administer operating systems and applications.

Password Requirements

All users accessing Knox County internal resources are required to adhere to the requirements and guidelines set forth in the Knox County Password Requirements & Guidelines document. When accessing applications, users must adhere to the password requirements of the application that will be accessed.

Password Management System

Password Management Systems should be interactive and should ensure quality passwords. Passwords and passcodes must be provided to KCIT upon request.

Use of Privileged Utility Programs

The use of utility programs that might be capable of overriding system and application controls should be restricted and tightly controlled.

Access Control to Program Source Code

Access to program source code should be restricted to authorized users.

Default Configurations

All applications and processing devices that are attached the County's enterprise technology infrastructure should be deployed with modified configurations for, but not limited to, default accounts, and/or installation paths to minimize the use of default settings to gain unauthorized use, modification, or destruction.

Asset Management

Objective: **To identify organizational assets and define appropriate protection responsibilities.**

Inventory of Assets

An inventory of information system assets, components, software, and services in KCIT's custody and control shall be maintained and periodically reassessed. Due to the varying values of equipment under KCIT's purview, an agreed-upon threshold between the CTO and Knox County Finance Department will determine the minimum value of an asset that is required to be included in KCIT inventory.

Ownership of Assets

All information resource assets listed in the asset inventory should have an assigned owner or entity who will ensure the assets are protected in a manner consistent with their value, sensitivity, and criticality to the business and operation of the County's government and those it serves or as specified by any superseding county, state, or federal statute or regulation.

Acceptable Use of Assets

Rules for the acceptable use of information and assets associated with information and information processing facilities should be identified, documented, implemented, and communicated to the users who have access to those assets.

Users are expected to treat their assets with care and respect. Placing stickers, writing, or drawing on, engraving, or otherwise defacing any device(s) and/or case(s) is prohibited, unless authorized by KCIT, and may result in loss of the privilege of utilizing a County-owned asset.

Return of Assets

All users of KCIT assets must return all County assets in their possession upon termination of their need to no longer access KCIT information or information systems. All assets must be returned unlocked. In the event an asset is returned, and it is locked, Knox County reserves the right to withhold the user's last paycheck until the user unlocks all assets that were in the user's custody.

Asset Identification

All KCIT workstations will be named in accordance with an approved standardized naming convention. Those identification numbers shall be affixed in obvious locations when possible.

Data Classification

Objective: **To confirm the data used and managed by the County receives an appropriate level of protection commensurate with the value, importance, and criticality of the data to the County.**

Classification of Data

Data assets owned and/or managed by the County should be classified according to the definition of "Personal Information" or "Confidential Records" as specified by applicable state and/or federal statute or regulations to indicate the need, priorities, and degree of protection it will receive. At a minimum, data will be classified as Public, Internal, or Restricted.

Labeling of Data

An appropriate set of procedures for labeling data assets owned and/or managed by the County should be developed and implemented in accordance with the County's data classification scheme.

Handling and Use of Data

Procedures for handling data assets should be developed and implemented in accordance with the data classification scheme adopted by the County.

Public Data Classification and Control

Data classified as public should be protected from unauthorized modification or destruction.

Restricted Data Classification

Data classified as restricted must be protected from unauthorized disclosure, use, modification, or destruction and cannot be used in development or test environments, or publicly disclosed. Controls should be applied to data in a manner consistent with its value, sensitivity, and criticality to the business and operation of the County. Data classified as restricted must be encrypted at rest and during transmission in accordance with applicable state or federal statute or regulatory requirements.

Restricted Data on Personally Owned Devices

Restricted data, specifically PHI and PII, should not be stored on, or accessed using personally owned devices, including mobile devices (cell phone, tablet, etc.), unless an Information Security Policy Exception/Waiver Request Form has been completed, submitted, and approved.

Restricted Electronic Messages Classification and Control

Email sent from the County's domain out through the public Internet must be encrypted if it contains restricted information in the body or attachment. Restricted information should not be placed into the subject line of the message.

Payment Card Information Classification and Control

Payment card information must be considered restricted when an individual's first name or first initial and last name are present in combination with account number, credit or debit card numbers, required security code, access code, or password that would permit access to an individual's financial account.

The Payment Card Industry – Data Security Standards (PCI DSS) comprise a minimum set of requirements for protecting cardholder data and may be enhanced by additional controls and practices to further mitigate risks, as well as local, regional, and sector statutes and regulations. Additionally, legislation or regulatory requirements may require specific protection of PII and/or other data elements (for example, cardholder name).

All payment card information stored and processed by the County or transmitted over County networks must be in compliance with the PCI-DSS. Storage of the full Primary Account Number (PAN) on County systems is prohibited.

All purchased (off the shelf) applications used to process payment card information must be compliant with the Payment Application Data Security Standard (PA-DSS).

Media Handling

Objective: **To prevent unauthorized disclosure, modification, removal, or destruction of data stored on media.**

Management of Removable Media

Procedures should be implemented for the management of removable media in accordance with the classification scheme adopted by KCIT.

Repair of Removable Media

Removable media should be sanitized prior to removing it from the County facilities for maintenance and repair.

Disposal of Removable Media

Removable media should be disposed of securely when no longer required, using KCIT approved procedures.

Physical Transfer of Removable Media

Removable media containing restricted data must be protected against unauthorized access, misuse, or corruption during transport.

Workstation Computing

Objective: **To prevent unauthorized disclosure, modification, removal, or destruction of data stored on user assigned processing devices.**

County Provided Workstation Computing Platforms

Workstation computing platforms, including laptops, should be physically protected against theft when left unattended. Workstation computing platforms should not store restricted data assets where it is not absolutely necessary to perform the specific job-related duties. Storage of restricted data assets on a workstation computing platform should have approval from the asset custodian for such storage. Restricted data assets that have been authorized to be stored on the local workstation should be encrypted while stored on the workstation computing platform.

Workstation Platform Reassignment

All workstation computing platforms, including all external storage devices, should be sanitized prior to being re-issued or re-purposed to another user.

Workstation Platform Disposal

Hard drives in workstation computing platforms, including all mobile storage devices and phones, should be sanitized using approved sanitization procedures, or destroyed prior to transfer or surplus of a processing device to an external entity.

Cloud & Hosting Services

Anyone acting on behalf of the County who wishes to use cloud or hosting services for County business must seek KCIT guidance and approval for cloud solutions prior to enabling cloud services. This is imperative due to the higher risk of security concerns and threats associated with cloud computing.

KCIT will perform conformity assessment activities that may include, but are not limited to, the review and approval of service level agreements, terms and conditions, privacy policies, monitoring services, accessibility, standards mapping, standardization gaps, and retention policies.

Physical and Environmental Security

Objective: **To prevent unauthorized physical access, damage, and interference to the County's information and information processing facilities.**

Physical Security Perimeter

All enterprise data processing facilities that process or store data classified or restricted should have multiple layers of physical security. Each layer should be independent and separate of the preceding and/or following layer(s).

All other processing facilities should have, at a minimum, a single security perimeter protecting it from unauthorized access, damage and/or interference.

Physical Entry Controls

Secure areas should be protected by appropriate entry controls to restrict access only to authorized personnel.

Securing Offices, Rooms, and Facilities

Physical security for offices, rooms, and facilities should be designed and applied commensurate with the classification and value of the data being handled or processed.

Protecting against External and Environmental Threats

Physical protection against natural disasters, malicious attacks, or accidents should be considered and incorporated in facility design, construction, and placement.

Working in Secure Areas

Procedures for working in secure areas should be created and implemented.

Delivery and Loading Areas

Access points such as delivery and loading areas and other points where unauthorized persons could enter the premises should be controlled, and if possible, isolated from information processing facilities.

Equipment

Objective: **To prevent loss, damage, theft, compromise of assets, or interruption to County operations.**

Equipment Siting and Protection

Equipment should be located in secured areas or protected to reduce the risks from environmental threats or hazards, and to reduce the opportunities for unauthorized access. Equipment located in areas where Knox County is unable to maintain a secure perimeter should be locked in a secured manner with access controlled by Knox County. Secured cabinets or facilities should support further segregation within KCIT organization based on role and responsibility.

Supporting Utilities

Infrastructure and related computing equipment should be protected from power failures and other disruptions by failures in supporting utilities.

Cabling Security

Power and telecommunications cable carrying data or supporting information services should be protected from interception, interference, or damage.

Equipment Maintenance

Equipment should be correctly maintained to ensure its continued availability and integrity.

Removal of Assets

All equipment, software, or information that is a part of KCIT operational systems or processes should not be taken off-site without the prior authorization from executive management or a designated representative and should be removed according to documented KCIT equipment transfer procedures.

Security of Equipment and Assets Off-Premises

Security should be applied to off-site assets, taking into account the different risks of working outside the County's premises.

Secure Disposal or Reuse of Data Processing Equipment

All data processing equipment including storage devices subject to transfer or reuse should be sanitized with KCIT's media reuse procedure or superseding state or federal requirements. Data processing equipment assets that are not subject to transfer or reuse should be destroyed in accordance with KCIT's media disposal procedures or in accordance with superseding state or federal requirements.

Unattended User Equipment

Users should ensure that unattended data processing equipment has appropriate protection.

Session Time Outs

All systems and devices owned and operated by or on behalf of Knox County should be configured to clear and lock the screen or log the user off the system after a defined period of inactivity. Sessions will be configured to time out after a minimum of 15 minutes of activity.

Clear Desk and Clear Screen Policy

All data classified as restricted must be stored in a locked cabinet or room when unattended. All data processing equipment that provides access to Information Processing Systems will be configured so that a screensaver, with password protection engaged, or other lock-down mechanisms that prevent unauthorized viewing of screen information or unauthorized access to the system will automatically be implemented if the system has been left unattended. Maximum inactivity interval for engaging screensaver or other lockdown mechanisms is 15 minutes.

All restricted computing platforms residing in non-secured facilities with attached displays should be oriented away from direct line of sight from unauthorized viewers.

Network Connectivity Security

Objective: **To protect the County's assets that are accessible by suppliers and vendors.**

Network Controls

Networks should be managed and controlled to protect information in systems and applications.

Security of Network Services

Security mechanisms, service levels, and management requirements of all network services should be identified and included in network services agreements, whether these services are provided in-house or outsourced.

Segregation in Networks

All enterprise network architectures operated by, or on behalf of, Knox County should be designed to support, at a minimum, separate public, "demilitarized" and private security zones based on role, risk, and sensitivity. Bridging between separate security zones is strictly prohibited. All access between

separate security zones should be controlled by a security mechanism configured to deny all access by default unless explicitly authorized and approved by KCIT.

Information Transfer

Objective: **To maintain the security of information transferred within network infrastructures managed by and on behalf of Knox County and with any external entity.**

Information Transfer Policies and Procedures

Formal transfer procedures, guidelines, and controls should be in place to protect the transfer of information through the use of all types of communication facilities.

Agreements on Data Transfer Policies

Agreements should address the secure transfer of business information between the County and external parties.

Electronic Messaging

Data involved in electronic messaging should be appropriately protected.

Internal Electronic Messages Control

Email and instant messages internal to the County's domain containing restricted data should be encrypted during transmission. Restricted information should not be placed into the subject line of email or as any part of instant message.

External Electronic Messages Control

Email sent through the public Internet must be encrypted if it contains restricted information in the body or attachment of the email. Restricted information should not be placed into the subject line of the message.

Electronic Messaging Management

All electronic messages created, sent, or received in conjunction with the transaction of official business should use the County's approved gateway(s) to communicate via the Internet.

Confidentiality or Non-Disclosure Agreements

When exchanging or sharing information classified as restricted with external parties that are not already bound by a contract confidentiality clause or a non-disclosure agreement, one should be established between the owner of the data and the external party.

Note: Departments should work with Knox County legal counsel to ensure proper language is used.

Mobile Device Security Policy

Objective: **To extend the County's security posture to the mobile workforce.**

Mobile Device Policy

All Knox County owned mobile devices that connect to KCIT managed data or infrastructure should be managed by the County's enterprise mobile device management solution or the County's enterprise configuration manager, as funding allows, and should comply with appropriate mobile device usage policies as required by state or federal statute or regulation.

Alternate Work Space

Alternate Work Space (AWS) users should comply with the appropriate AWS policies as required by state or federal statute, regulation, or state, county, or department policy, procedures and/or guidelines.

External Party Security

Objective: **To protect the County's assets that are accessed, processed, communicated to, or managed by external parties, suppliers, or vendors. This includes any external party who has access to physical data processing facilities, logical access to County data processing systems via local or remote access, or access via another external party into the County's data processing facilities.**

Information Security Policy for External Party Relationships

Information and physical security requirements for mitigating the risks associated with supplier or vendor access to the County's assets should be agreed upon in writing with the external party. All external parties must agree in writing to comply with all applicable information security policies, third party connectivity agreements, executive orders, standards, controls, and regulations.

Identification of Risk

Risk involving external parties should be identified and proper controls implemented prior to the granting of access to any County information, information technology asset or information processing facilities.

Addressing Security within External Party Agreements

All relevant information security requirements should be established and agreed upon with each supplier or vendor that may access, process, store communicate any County data as well as access, process, store, communicate, or provide IT infrastructure components for the County's processing systems or infrastructure.

Reporting of Security Incidents

External Party Agreements will require external parties to report perceived security incidents that may impact the confidentiality, integrity, or availability of County data immediately.

Subcontractor Requirements

Primary external parties should require their subcontractors to abide by the County's policies and security requirements, if applicable.

Addressing Security for Access to Citizen Data

Risk involving external party access to citizen data should be identified and proper controls implemented prior to the granting of access to any County citizen data. Appropriate controls should be agreed upon, documented in external party agreements, and implemented prior to the granting of access to any citizen data.

System Acquisition, Development, and Maintenance

Objective: **To verify that information security is an integral part of information systems through its life cycle. This includes application infrastructure, vendor applications, inhouse development, and user-developed applications and information systems which provide services over public networks or the County's internal network.**

Security Requirements of Information Systems

Security requirements should be identified and documented as part of the overall business case for new information systems and for enhancement to existing information systems and should be included early and continuously throughout the lifecycle of the application, including, but not limited to the conception, design, development, testing, implementation, maintenance, and disposal phases.

Securing Application Services on Public Networks

Information involved in application services passing over public networks should be protected from fraudulent activity and unauthorized disclosure or modification.

Protecting Application Services Transactions

Information involved in application service transactions should be protected to prevent incomplete transmission, misrouting, unauthorized message alteration, unauthorized disclosure, unauthorized message duplication or reply.

Information Security in Project Management

Information security should be addressed at project initiation and throughout the lifecycle of the project.

Security in Development and Support Processes

Objective: **To confirm that information security is designed and implemented within the development lifecycle of information systems.**

Security Requirements of Information Systems

Requirements, rules, and guidelines for the development of software and systems should be established and applied to all systems development.

Security in Application Systems Development

Input validation, authentication, and authorization should be included in the design, development, and implementation of applications.

Input and Data Validation

Applications should not pass raw input to other processes including, but not limited to, other applications, web services, application servers, and databases. Non-legacy applications should use parameterized queries or stored procedures, and not dynamic SQL statements, when processing user input.

Output Data Validation

Applications should not echo input back to the user or disclose information about the underlying system through error messages.

Application Authorization

Applications that provide access to restricted information in databases or from network shares should perform user authentication.

Inter-process Message Authentication

Inter-process message authentication should be used to verify that a message originated from a trusted source and that the message has not been altered transmission.

Control of Internal Processing

Security controls should be included to prevent corruption due to processing errors or deliberate acts.

Change Control Procedures

Changes to systems or applications within the development lifecycle should be controlled by the use of formal change control procedures.

Technical Review of Applications after Operating Platform Changes

When operating platforms or applications are changed, business critical applications should be reviewed and tested to verify there is no adverse impact on organizational operations or security.

Restrictions or Changes to Software Packages

Modifications to software packages should be limited to necessary changes, and all changes should be strictly controlled.

Secure System Engineering Principles

Principles for engineering secure systems should be established, documented, maintained, and applied to any information system implementation efforts.

Secure Development Environment

Organizations should establish and appropriately protect secure development environments for system development and integration efforts that cover the entire system development lifecycle.

Outsourced Development

Outsourced system development should be monitored and supervised to ensure the County's policies and practices are followed and to confirm appropriate security controls are in place. This is applicable for KCIT and any other departments within the County that develop applications.

System Security Testing

Testing of security functionality should be carried out during development. Applications should be tested periodically throughout their respective lifecycles, at each major version release, and prior to assigning public IP addresses or being moved or promoted into the production environment.

System Acceptance Testing

Acceptance testing program and related criteria should be established for new information systems, upgrades, and new versions.

Protection of Test Data

Test data should be selected carefully, protected, and controlled.

Business Continuity Management

Objective: **To maintain the availability of critical systems and infrastructure with the continued ability to provide services in the event of a crisis or disaster.**

Planning Information Systems Continuity

KCIT should determine its requirements for the continuity of information management systems in adverse situations, e.g. during a crisis or disaster. County departments are encouraged to communicate the criticality of operation information systems to KCIT and engage in disaster recovery exercises.

Business Impact Analysis

KCIT should perform a Business Impact Analysis (BIA) to identify systems and infrastructure that are critical to County operations and services to citizens, other departments, and agencies, as well as regulatory bodies.

Critical Applications

Systems including Infrastructure components, applications, and security systems identified as critical in the BIA will be recovered in accordance with the BIA and documented system recovery strategy.

Non-Critical Applications

Infrastructure components and applications identified as non-critical in the BIA will be recovered on a best-effort basis. The components and applications listed as non-critical should have an explanation in the BIA justifying their low importance and demonstrating how the loss of their associated functionality will be acceptable during an event or how a manual workaround can be implemented.

Implementing Information Systems Continuity

KCIT should establish, document, implement, and maintain processes, procedures, and controls in disaster recovery plans to make sure the required level of business continuity for all systems during an adverse situation are considered and addressed.

Verify, Review, and Evaluation Information Systems Continuity

KCIT, vendors, and/or contractors who operate on behalf of the County should verify they established and implemented information systems continuity controls at regular intervals in order to ensure that they are valid and effective during adverse situations.

Redundancies

Objective: **To attain availability of information processing facilities.**

Availability of Information Processing Facilities

Information processing facilities should be implemented with redundancy sufficient to meet availability requirements.

Verify, Review, and Evaluate Information Systems Continuity

BIAs and a sample of critical applications should be tested within every 365 days as a part of a scheduled disaster recovery exercise, as a tabletop exercise, or prior to go live exercise.

Information Security Incident Management

Objective: **To create a consistent and effective approach to the management of information security incidents, including communication on security events and weaknesses.**

Responsibilities and Procedures

KCIT will establish a Security Incident Response Team (SIRT). The SIRT will ensure that the County can efficiently and effectively communicate information security incidents to the proper stakeholders and respondents of the County. The SIRT members will be appointed based on their position and capabilities within the organization and their responsibilities communicated clearly.

Reporting Information Security Events

Information security events should be reported through appropriate channels using the Knox County Cyber Incident Response Plan (CIRP).

Data Breach and Disclosure

Anyone that discovered a breach of the information security controls set forth in this document which results in disclosure of unencrypted "personal information" about persons to unauthorized third parties must provide disclosure in accordance with TCA 47-18-2107 or any other applicable state and/or federal statute or regulations).

Reporting Information Security Weakness

Employees, outsourced employees, and any users using the County's information systems and services are required to note and report any observed or suspected information security weaknesses in systems or services to KCIT.

Assessment of and Decision on Information Security Events

Information security events should be assessed, and a determination should be made on whether to classify the event as an incident in accordance with the CIRP.

Response to Information Security Incidents

Information security incidents will be managed in accordance with the documented procedures in the KCIT Incident Response, Alerting, and Communication Plan.

Learning from Information Security Incidents

Knowledge gained from analyzing and resolving information security incidents should be used to reduce the likelihood or impact of future incidents.

Collection of Evidence

The County should define and apply procedures for the identification, collection, acquisition, and preservation of information, which can serve as evidence.

Cryptography

Objective: **To achieve proper and effective use of cryptography to protect the confidentiality and integrity or data owned or managed by or on behalf of the County. Restricted information must be encrypted by the use of valid encryption processes for data at rest and in motion as required by state or federal statute or regulation. This includes but is not limited to sensitive information stored on mobile devices, removable drives, and laptop computers.**

Use of Cryptographic Controls

Cryptographic controls should be based on the classification and criticality of the data. In deciding what strength and type of control to be deployed, both stand-alone and enterprise level encryption solutions should be considered. Attention should be given to regulations, national restrictions (e.g. export controls) that may apply to the use of cryptographic techniques.

Transmission Confidentiality

Information systems should protect the confidentiality of transmitted information. The County will employ mechanisms to recognize changes to information during transmission unless otherwise protected by alternative physical measures.

Cryptographic Module Authentication

Information systems must use mechanisms for authentication to a cryptographic module that meet the requirements of application federal statutes, state statutes, Executive Orders, directives policies, regulations, standards, and guidance for such authentication. The list of cryptographic modules in use will be compared to the list of NIST validated cryptographic modules at least quarterly ensure compliance.

Information systems will obtain, and issue supported public key and Transport Layer Security (TLS) certificates from an approved service provider. This control focuses certificates with visibility external to the internal system operations, for example, application-specific time services. Secure Socket Layer (SSL) protocol must be disabled on all devices.

Key Management

A secured environment should be established to protect the cryptographic keys used to encrypt and decrypt information. Cryptographic key management and establishment will be performed using automated mechanisms with supporting manual procedures. Keys should be security distributed and stored. Access to keys should be restricted only to individuals who have a business need to access them. All access to cryptographic keys requires authorization and should be documented. Compromise of a cryptographic key would cause all information encrypted with that key to be considered unencrypted.

Technical and Vulnerability Management

Objective: **To prevent exploitation and technical vulnerabilities.**

Management of Technical Vulnerabilities

Information about technical vulnerabilities on information systems and supporting infrastructure should be obtained in a timely fashion, evaluated for exposure and risk to the County, and appropriate measures implemented to address the associated risk.

Restrictions on Software Installation

Users should not install software that has not been approved by KCIT and their supervisor.

Information Systems Audit Controls

In order to minimize the impact of audit activities on operational systems, audit requirements and activities involving verification of operational systems should be carefully planned and agreed upon in advance to minimize disruptions to business processes.

WHEREAS, Knox County has received a grant contract from the Tennessee Department of Health to provide Tuberculosis Control and Prevention services for the period beginning July 1, 2026 and ending June 30, 2027; and

WHEREAS, under the terms of the proposed grant contract, the Knox County Health Department will receive the amount not to exceed $852,000.00 to provide the aforesaid services, as further defined in the Scope of Services and Deliverables section of the attached grant contract; and

WHEREAS, this grant contract does not require matching funds from Knox County.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The grant contract with the Tennessee Department of Health for the provision of Tuberculosis Control and Prevention is hereby adopted and approved in substantive form as presented this date, a copy of which is attached to this Resolution and incorporated herein by reference.

BE IT FURTHER RESOLVED, the grant contract with the Tennessee Department of Health for the provision of Tuberculosis Control and Prevention shall be executed subject to such amendment or action not affecting the substantive provisions of the contract as may be required and approved by the Knox County Law Director.

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

GRANT CONTRACT
BETWEEN THE STATE OF TENNESSEE,
TENNESSEE DEPARTMENT OF HEALTH
AND
THE GOVERNMENT OF KNOX COUNTY DBA KNOX COUNTY HEALTH DEPARTMENT

This grant contract ("Grant Contract"), by and between the State of Tennessee, Tennessee Department of Health, hereinafter referred to as the "State" or the "Grantor State Agency" and Government of Knox County dba Knox County Health Department, hereinafter referred to as the "Grantee," is for the provision of Tuberculosis Control and Prevention, as further defined in the "SCOPE OF SERVICES AND DELIVERABLES."

Grantee Edison Vendor ID # 2830

A. SCOPE OF SERVICES AND DELIVERABLES:

A.1. The Grantee shall provide the scope of services and deliverables ("Scope") as required, described, and detailed in this Grant Contract.

A.2. Service Definitions.

a. "TB" means Tuberculosis.

b. "TTBEP" means the Tennessee Tuberculosis Elimination Program.

c. "CDC" means the Centers for Disease Control & Prevention of the U. S. Department of Health and Human Services.

d. "TBI" means tuberculosis infection.

e. "TDH" means Tennessee Department of Health.

A.3. Service Goals. The service goal is to achieve sustained TB control and enhanced TB prevention in each Grantee area, aiming to eventually eliminate TB as a public health threat in Tennessee.

A.4. Service Recipients. Service recipients are all persons in Tennessee at high risk for TBI or active TB disease.

A.5. Service Description.

The Grantee shall use the grant funds to the TTBEP service goal as follows:

a. General:

(1) Conduct the regional TB program as a functional part of the statewide Tennessee Tuberculosis Elimination Program (TTBEP) of the Grantor State Agency for the delivery of TB outreach and control services in accordance with the most current publication of the TTBEP TB Manual, a copy of which has been provided to the Grantee, is maintained on file with TDH, and will be posted on the TTBEP SharePoint website; and subsequent revisions which will be communicated via e-mail to the Grantee.

(2) Collaborate with the TTBEP Central Office in meeting requirements and national objectives for TB control and prevention services as established by the Division of Tuberculosis Elimination of the CDC.

(3) Effectively operate and manage a TB clinic on the premises, unless an agreement is made between the Grantee and other public health entity or medical practice to provide clinical services in accordance with the current

TTBEP TB Manual. A copy of such agreement will be made available to TTBEP Central Office upon request.

b. Specific:

(1) Identify a Health Officer who will function as the local TB Control Officer with primary responsibility for establishing and maintaining local TB outreach/control services.

(2) Identify a physician(s) licensed in the State of Tennessee with qualifications acceptable to the TTBEP Medical Director, through employment or contract arrangement, to provide and oversee direct patient care services to all persons with suspected or confirmed TB disease and persons with TBI. If physician's services are obtained through a professional service arrangement, provide to TTBEP Central Office a copy of the arrangement. New physician(s) employed or engaged by sub-contract arrangement after July 1, 2026, who provide services to TB patients, will be credentialed through an appropriate method to verify licensure, board certification(s), work history and incident(s) of medical malpractice or other legal actions involving patient care. Documentation of credentialing efforts by the Grantee shall be available to TTBEP Program Director upon request.

(3) Identify a TB program manager or supervisor to oversee the TB program. If this supervisor has both administrative and clinical duties, he/she must be allowed adequate time to perform administrative duties to satisfactorily fulfill the requirements of this Grant Contract.

(4) Maintain a staffing level to adequately carry out TB program activities. If at any time fewer than seventy-five percent (75%) of the positions funded through this contract arrangement are filled, Grantee will promptly notify the TTBEP Central Office and submit a corrective action plan which documents plans and efforts to remediate the staffing deficiency. Grantee will promptly notify TTBEP Central Office if the TB physician is unable to perform TB program responsibilities for a period longer than two (2) consecutive weeks, with explanation of how physician coverage will be maintained during the absence of the TB physician.

(5) Ensure that each TB program staff person has read appropriate role-related Modules of the current TTBEP TB Manual.

(6) Ensure that all nurses who will be performing case management activities complete the CDC Core Curriculum on Tuberculosis.

(7) If services and treatment for individual patients are not provided according to current TTBEP TB Manual, adequate explanation and justification of the management utilized will be documented in the patient's health department record.

(8) Grantee shall evaluate local TB program performance in accordance with CDC national objectives and the Standards of Public Health Practice listed in the current TTBEP TB Manual, and in a timely manner establish and implement a plan to improve program performance as indicated. A copy of such plan will be made available to TTBEP Central Office upon request.

(9) Grantee shall ensure that education and training are provided to TB program staff and to the TB clinician(s) including opportunities to attend national TB meetings, when appropriate, so that staff have adequate knowledge to carry out responsibilities and duties set forth in the TTBEP TB Manual. Documentation of TB-related Continuing Medical Education credits and Continuing Education Units awarded to an employee or clinician will be retained in the employee file.

(10) Grantee shall ensure the TB Program Manager or designee and at least one (1) additional staff person from the local/regional TB program participate in all educational activities sponsored by TTBEP Central Office. These activities include but are not limited to monthly or bi-monthly statewide conference calls, annual statewide meeting, video conferences and on-site training sessions, if applicable.

(11) Grantee shall maintain a roster of all staff performing TB services with employee name, position title, salary and percent of time performing TB services. If services are provided through a contract arrangement, the roster should include the name of the contractor(s) and business entity, type of service provided, and volume of services provided to TB patients. The roster should be updated as changes occur and not less than quarterly, and a copy should be submitted to TTBEP Central Office.

A.6. Incorporation of Additional Documents. Each of the following documents is included as a part of this Grant Contract by reference or attachment. In the event of a discrepancy or ambiguity regarding the Grantee's duties, responsibilities, and performance hereunder, these items shall govern in order of precedence below.

a. This Grant Contract document with any attachments or exhibits (excluding the items listed at subsections b. and c., below);

b. The TTBEP TB Manual;

c. The Rules of Tennessee Department of Health, Health Services Administration, Communicable and Environmental Disease Services, Chapter 1200-14-1.

d. Current Lists of Reportable Diseases in Tennessee for Healthcare Providers and for Healthcare Laboratories.

A.7. Service Reporting.

Grantee shall conduct ongoing and systematic data collection, analysis and submit reports as follows:

a. Report all suspected and confirmed cases of TB and cases of TBI in accordance with established reporting requirements and guidelines in the TTBEP TB Manual.

b. Report individuals with newly suspected or confirmed TB disease to Central Office within two (2) business days of the initial report to the health department.

c. Record and update surveillance data for suspected or confirmed TB cases and persons with TB infection in a timely manner into the state’s surveillance system.

d. Facilitate TB case and suspect reporting from various community sources (e.g., physicians, laboratories, hospitals, and pharmacies) and routinely monitor the completeness of reporting and the duration of time between diagnosis and reporting.

e. Pursuant to section 212(a)(1) of the Immigration and Nationality Act and the Public Health Service Act (42 U.S.C. 246(b)), locate, evaluate, and treat all immigrants classified as A, B1 or B2 by the CDC.

A.8. Service Deliverables.

Deliverable	Contract Section	Delivery Date(s)	Due to Whom	Requested Format

Conduct the TB Program as a functional part of the Tennessee Tuberculosis Elimination Program of the Tennessee Department of Health for the delivery of TB outreach and control services in accordance with the most current publication of the TTBEP TB Manual.	A.5.a.(1)	Ongoing	TTBEP Central Office	As specified in TTBEP TB Manual
Collaborate with the TTBEP Central Office in meeting requirements and national objectives for TB control and prevention services as established by the Division of Tuberculosis Elimination of the CDC.	A.5.a.(2)	Ongoing	TTBEP Central Office	Written communication
Operate and manage a TB clinic on the premises, unless an agreement is made between the Grantee and other public health entity or medical practice to provide clinical services.	A.5.a.(3)	Ongoing	TTBEP Central Office	A document signed by Grantee Official
Identify a Health Officer who will function as the local TB Control Officer.	A.5.b.(1)	At contract initiation	TTBEP Central Office	A document signed by Grantee Official
Identify a physician(s) to provide and oversee direct patient care services to all persons with suspected or confirmed TB disease and persons with TBI. If a physician's services are obtained through a professional service arrangement, provide to TTBEP Central Office a copy of the arrangement.	A.5.b.(2)	At contract initiation	TTBEP Central Office	A document signed by Grantee Official
Identify a TB program manager or supervisor to oversee the TB program.	A.5.b.(3)	At contract initiation	TTBEP Central Office	A document signed by Grantee Official
Maintain a staffing level of seventy-five percent (75%) or more at all times. If at any time fewer than seventy-five percent (75%) of the positions funded through this contract arrangement are filled, Grantee will promptly notify the TTBEP Central Office and submit a corrective action plan. Grantee will promptly notify TTBEP Central Office if the TB physician is unable to perform TB program responsibilities for a period longer than two (2) consecutive weeks.	A.5.b.(4)	Within five (5) business days of such occurrence	TTBEP Central Office	Written notification
Ensure that each TB program staff person has read appropriate role-related Modules of the current TTBEP TB Manual.	A.5.b.(5)	Ongoing	N/A	Written plan of activities maintained in Grantee file.
Ensure that all nurses who will be performing case management activities complete the CDC Core Curriculum on Tuberculosis as well as	A.5.b.(6)	Ongoing	N/A	Written plan of activities maintained in Grantee file.

appropriate training provided by the Central Office staff.				
If services and treatment for individual patients are not provided according to current TTBEP TB Manual, adequate explanation and justification of the management utilized will be documented in the patient's health department record.	A.5.b.(7)	Ongoing	TTBEP Central Office	Documentation in health records
Evaluate local TB program performance, establish and implement a plan to improve program performance as indicated.	A.5.b.(8)	Ongoing	TTBEP Central Office	Written plan maintained in Grantee file
Ensure that education and training are provided to TB program staff and to the TB clinician(s) including opportunities to attend national TB meetings, documentation of TB-related Continuing Medical Education credits and Continuing Education Units awarded to an employee or clinician will be retained in the employee file.	A.5.b.(9)	Ongoing	N/A	Written plan of activities maintained in Grantee file.
Ensure the TB Program Manager or designee and at least one (1) additional staff person from the local/regional TB program participate in all TTBEP statewide monthly conference calls, and in education and training programs conducted by the TTBEP Central Office, including statewide meetings, video conferences and on-site training sessions, if applicable. If it is not possible for a representative from a local/regional TB program to participate, the TB Program Manager will notify the Central Office at least twenty-four (24) hours beforehand.	A.5.b.(10)	Within 5 business days of event	N/A	Record of participation
Maintain a current roster of all staff performing TB services.	A.5.b.(11)	Ongoing	N/A	Grantee files
Report individuals with newly suspected or confirmed TB disease to Central Office within two (2) business days of the initial report to the health department.	A.7.b.	Ongoing	TTBEP Central Office	Written notification
Record and update surveillance data for suspected or confirmed TB cases and persons with TB infection in a timely manner into the state's surveillance system.	A.7.c.	Ongoing	State Surveillance System	System Data Entry

A.9. Incorporation of Federal Award Identification Worksheet. The federal award identification worksheet, which appears as Attachment 1, is incorporated in this Grant Contract.

A.10. Required Disclosures for Federal Awardee Performance and Integrity Information System (FAPIIS). Consistent with 45 CFR 75.113, applicants and recipients must disclose in a timely manner, in writing to the CDC, with a copy to the HHS Office of Inspector General (OIG), all information related to violations of federal criminal law involving fraud, bribery, or gratuity violations potentially affecting the federal award. Subrecipients must disclose, in a timely manner

in writing to the prime recipient (pass through entity) and the HHS OIG, all information related to violations of federal criminal law involving fraud, bribery, or gratuity violations potentially affecting the federal award. Disclosures must be sent in writing to the CDC and to the HHS OIG at the following addresses:

CDC, Office of Grants Services
Mr. Anthony Fultz
Grants Management Specialist
Centers for Disease Control and Prevention
Infectious Disease Services Branch
District Chamblee, Bldg. 2900 TCU-3
Atlanta, GA 30341
Email: qjj7@cdc.gov

AND

U.S. Department of Health and Human Services
Office of the Inspector General
ATTN: Mandatory Grant Disclosures, Intake Coordinator 330 Independence Avenue, SW
Cohen Building, Room 5527
Washington, DC 20201
Fax: (202)-205-0604
Email: MandatoryGranteeDisclosures@oig.hhs.gov

Recipients must include this mandatory disclosure requirement in all subawards and contracts under this award.

Failure to make required disclosures can result in any of the remedies described in 45 CFR 75.371. Remedies for noncompliance, including suspension or debarment (See 2 CFR parts 180 and 376, and 31 U.S.C. 3321).

CDC is required to report any termination of a federal award prior to the end of the period of performance due to material failure to comply with the terms and conditions of this award in the OMB-designated integrity and performance system accessible through SAM (formerly FAPIIS). (45 CFR 75.372(b)) CDC must also notify the recipient if the federal award is terminated for failure to comply with the federal statutes, regulations, or terms and conditions of the federal award. (45 CFR 75.373(b))

B. TERM OF CONTRACT:

This Grant Contract shall be effective on July 1, 2026 ("Effective Date") and extend for a period of twelve (12) months after the Effective Date ("Term"). The State shall have no obligation to the Grantee for fulfillment of the Scope outside the Term.

C. PAYMENT TERMS AND CONDITIONS:

C.1. Maximum Liability. In no event shall the maximum liability of the State under this Grant Contract exceed eight hundred and fifty-two thousand dollars ($852,000.00) ("Maximum Liability"). The Grant Budget, attached and incorporated as Attachment 2 is the maximum amount due the Grantee under this Grant Contract. The Grant Budget line-items include, but are not limited to, all applicable taxes, fees, overhead, and all other direct and indirect costs incurred or to be incurred by the Grantee.

C.2. Compensation Firm. The Maximum Liability of the State is not subject to escalation for any reason unless amended. The Grant Budget amounts are firm for the duration of the Grant Contract and are not subject to escalation for any reason unless amended, except as provided in Section C.6.

C.3. Payment Methodology. The Grantee shall be reimbursed for actual, reasonable, and necessary costs based upon the Grant Budget, not to exceed the Maximum Liability established in Section C.1. Upon progress toward the completion of the Scope, as described in Section A of this Grant Contract, the Grantee shall submit invoices prior to any reimbursement of allowable costs.

C.4. Travel Compensation. Reimbursement to the Grantee for travel, meals, or lodging shall be subject to amounts and limitations specified in the "State Comprehensive Travel Regulations," as they are amended from time to time, and shall be contingent upon and limited by the Grant Budget funding for said reimbursement.

C.5. Invoice Requirements. The Grantee shall invoice the State no more often than monthly, using Attachment 3, with all necessary supporting documentation, and present such to:

Yigzaw Belay
Tennessee Department of Health
TB Elimination Program
710 James Robertson Parkway
Nashville, TN 37243

a. Each invoice shall clearly and accurately detail all of the following required information (calculations must be extended and totaled correctly).

(1) Invoice/Reference Number (assigned by the Grantee).
(2) Invoice Date.
(3) Invoice Period (to which the reimbursement request is applicable).
(4) Grant Contract Number (assigned by the State).
(5) Grantor: Tennessee Department of Health, CEDEP Division, Tuberculosis Elimination Program.
(6) Grantor Number (assigned by the Grantee to the above-referenced Grantor).
(7) Grantee Name.
(8) Grantee Tennessee Edison Registration ID Number Referenced in Preamble of this Grant Contract.
(9) Grantee Remittance Address.
(10) Grantee Contact for Invoice Questions (name, phone, or fax).
(11) Itemization of Reimbursement Requested for the Invoice Period— it must detail, at minimum, all of the following:

i. The amount requested by Grant Budget line-item (including any travel expenditure reimbursement requested and for which documentation and receipts, as required by "State Comprehensive Travel Regulations," are attached to the invoice).
ii. The amount reimbursed by Grant Budget line-item to date.
iii. The total amount reimbursed under the Grant Contract to date.
iv. The total amount requested (all line-items) for the Invoice Period.

b. The Grantee understands and agrees to all of the following.

(1) An invoice under this Grant Contract shall include only reimbursement requests for actual, reasonable, and necessary expenditures required in the delivery of service described by this Grant Contract and shall be subject to the Grant Budget and any other provision of this Grant Contract relating to allowable reimbursements.
(2) An invoice under this Grant Contract shall not include any reimbursement request for future expenditures.
(3) An invoice under this Grant Contract shall initiate the timeframe for reimbursement only when the State is in receipt of the invoice, and the invoice meets the minimum requirements of this section C.5.

C.6. Budget Line-items. Expenditures, reimbursements, and payments under this Grant Contract shall adhere to the Grant Budget. The Grantee may vary from a Grant Budget line-item amount by up to one percent (20%) of the line-item amount, provided that any increase is off-set by an equal reduction of other line-item amount(s) such that the net result of variances shall not increase the total Grant Contract amount detailed by the Grant Budget. Any increase in the Grant Budget, grand total amounts shall require an amendment of this Grant Contract.

C.7. Disbursement Reconciliation and Close Out. The Grantee shall submit any final invoice and a grant disbursement reconciliation report within ninety (90) days of the Grant Contract end date, in form and substance acceptable to the State. Attachment 4.

a. If total disbursements by the State pursuant to this Grant Contract exceed the amounts permitted by the section C, payment terms and conditions of this Grant Contract, the Grantee shall refund the difference to the State. The Grantee shall submit the refund with the final grant disbursement reconciliation report.

b. The State shall not be responsible for the payment of any invoice submitted to the State after the grant disbursement reconciliation report. The State will not deem any Grantee costs submitted for reimbursement after the grant disbursement reconciliation report to be allowable and reimbursable by the State, and such invoices will NOT be paid.

c. The Grantee's failure to provide a final grant disbursement reconciliation report to the State as required by this Grant Contract shall result in the Grantee being deemed ineligible for reimbursement under this Grant Contract, and the Grantee shall be required to refund any and all payments by the State pursuant to this Grant Contract.

d. The Grantee must close out its accounting records at the end of the Term in such a way that reimbursable expenditures and revenue collections are NOT carried forward.

C.8. Indirect Cost. Should the Grantee request reimbursement for indirect costs, the Grantee must submit to the State a copy of the indirect cost rate approved by the cognizant federal agency or the cognizant state agency, as applicable. The Grantee will be reimbursed for indirect costs in accordance with the approved indirect cost rate and amounts and limitations specified in the attached Grant Budget. Once the Grantee makes an election and treats a given cost as direct or indirect, it must apply that treatment consistently and may not change during the Term. Any changes in the approved indirect cost rate must have prior approval of the cognizant federal agency or the cognizant state agency, as applicable. If the indirect cost rate is provisional during the Term, once the rate becomes final, the Grantee agrees to remit any overpayment of funds to the State, and subject to the availability of funds the State agrees to remit any underpayment to the Grantee.

C.9. Cost Allocation. If any part of the costs to be reimbursed under this Grant Contract are joint costs involving allocation to more than one program or activity, such costs shall be allocated and reported in accordance with the provisions of Central Procurement Office Policy Statement 2013-007 or any amendments or revisions made to this policy statement during the Term.

C.10. Payment of Invoice. A payment by the State shall not prejudice the State's right to object to or question any reimbursement, invoice, or related matter. A payment by the State shall not be construed as acceptance of any part of the work or service provided or as approval of any amount as an allowable cost.

C.11. Non-allowable Costs. Any amounts payable to the Grantee shall be subject to reduction for amounts included in any invoice or payment that are determined by the State, on the basis of audits or monitoring conducted in accordance with the terms of this Grant Contract, to constitute unallowable costs.

C.12. State's Right to Set Off. The State reserves the right to set off or deduct from amounts that are or shall become due and payable to the Grantee under this Grant Contract or under any other

agreement between the Grantee and the State of Tennessee under which the Grantee has a right to receive payment from the State.

C.13. Prerequisite Documentation. The Grantee shall not invoice the State under this Grant Contract until the State has received the following, properly completed documentation.

a. The Grantee shall complete, sign, and return to the State an "Authorization Agreement for Automatic Deposit (ACH Credits) Form" provided by the State. By doing so, the Grantee acknowledges and agrees that, once this form is received by the State, all payments to the Grantee under this or any other grant contract will be made by automated clearing house ("ACH").

b. The Grantee shall complete, sign, and return to the State the State-provided W-9 form. The taxpayer identification number on the W-9 form must be the same as the Grantee's Federal Employer Identification Number or Social Security Number referenced in the Grantee's Edison registration information.

D. STANDARD TERMS AND CONDITIONS:

D.1. Required Approvals. The State is not bound by this Grant Contract until it is signed by the parties and approved by appropriate officials in accordance with applicable Tennessee laws and regulations (depending upon the specifics of this Grant Contract, the officials may include, but are not limited to, the Commissioner of Finance and Administration, the Commissioner of Human Resources, and the Comptroller of the Treasury).

D.2. Modification and Amendment. This Grant Contract may be modified only by a written amendment signed by all parties and approved by the officials who approved the Grant Contract and, depending upon the specifics of the Grant Contract as amended, any additional officials required by Tennessee laws and regulations (the officials may include, but are not limited to, the Commissioner of Finance and Administration, the Commissioner of Human Resources, and the Comptroller of the Treasury).

D.3. Termination for Convenience. The State may terminate this Grant Contract without cause for any reason. A termination for convenience shall not be a breach of this Grant Contract by the State. The State shall give the Grantee at least thirty (30) days written notice before the effective termination date. The Grantee shall be entitled to compensation for authorized expenditures and satisfactory services completed as of the termination date, but in no event shall the State be liable to the Grantee for compensation for any service that has not been rendered. The final decision as to the amount for which the State is liable shall be determined by the State. The Grantee shall not have any right to any actual general, special, incidental, consequential, or any other damages whatsoever of any description or amount for the State's exercise of its right to terminate for convenience.

D.4. Termination for Cause. If the Grantee fails to properly perform its obligations under this Grant Contract, or if the Grantee violates any terms of this Grant Contract, the State shall have the right to immediately terminate this Grant Contract and withhold payments in excess of fair compensation for completed services. Notwithstanding the exercise of the State's right to terminate this Grant Contract for cause, the Grantee shall not be relieved of liability to the State for damages sustained by virtue of any breach of this Grant Contract by the Grantee.

D.5. Subcontracting. The Grantee shall not assign this Grant Contract or enter into a subcontract for any of the services performed under this Grant Contract without obtaining the prior written approval of the State. If such subcontracts are approved by the State, each shall contain, at a minimum, sections of this Grant Contract pertaining to "Conflicts of Interest," "Lobbying," "Nondiscrimination," "Public Accountability," "Public Notice," and "Records" (as identified by the section headings). Notwithstanding any use of approved subcontractors, the Grantee shall remain responsible for all work performed.

D.6. Conflicts of Interest. The Grantee warrants that no part of the total Grant Contract Amount shall be paid directly or indirectly to an employee or official of the State of Tennessee as wages, compensation, or gifts in exchange for acting as an officer, agent, employee, subcontractor, or consultant to the Grantee in connection with any work contemplated or performed relative to this Grant Contract.

D.7. Lobbying. The Grantee certifies, to the best of its knowledge and belief, that:

a. No federally appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any federal contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

b. If any funds other than federally appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this contract, grant, loan, or cooperative agreement, the Grantee shall complete and submit Standard Form-LLL, “Disclosure of Lobbying Activities," in accordance with its instructions.

c. The Grantee shall require that the language of this certification be included in the award documents for all sub-awards at all tiers (including subcontracts, sub-grants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into and is a prerequisite for making or entering into this transaction imposed by 31 U.S.C. § 1352.

D.8. Communications and Contacts. All instructions, notices, consents, demands, or other communications required or contemplated by this Grant Contract shall be in writing and shall be made by certified, first class mail, return receipt requested and postage prepaid, by overnight courier service with an asset tracking system, or by email or facsimile transmission with recipient confirmation. All communications, regardless of method of transmission, shall be addressed to the respective party as set out below:

The State:

Tennessee Department of Health
TB Elimination Program
Andrew Johnson Tower
710 James Robertson Parkway
Email Address: yigzaw.belay@tn.gov
Telephone: (615) 253-2308
Fax: (615) 253-1370

The Grantee:

The Government of Knox County dba Knox County Health Department
Kevin Parton, Finance Manager
140 Dameron Avenue
Knoxville TN 37919-6413
Email Address: tdhcontracts@knoxcounty.org
Telephone #: 865-215-5273
Fax #: 865-215-5295

A change to the above contact information requires written notice to the person designated by the other party to receive notice.

All instructions, notices, consents, demands, or other communications shall be considered effectively given upon receipt or recipient confirmation as may be required.

D.9. Subject to Funds Availability. This Grant Contract is subject to the appropriation and availability of State or Federal funds. In the event that the funds are not appropriated or are otherwise unavailable, the State reserves the right to terminate or suspend this Grant Contract upon written notice to the Grantee. The State's right to terminate or suspend this Grant Contract due to lack of funds is not a breach of this Grant Contract by the State. Upon receipt of the written notice, the Grantee shall cease all work associated with the Grant Contract. Should such an event occur, the Grantee shall be entitled to compensation for all satisfactory and authorized services completed as of the termination or suspension date but shall not be entitled to compensation for any services performed subsequent to termination date or during a period of suspension. Upon such termination, the Grantee shall have no right to recover from the State any actual, general, special, incidental, consequential, or any other damages whatsoever of any description or amount.

D.10. Nondiscrimination. The Grantee hereby agrees, warrants, and assures that no person shall be excluded from participation in, be denied benefits of, or be otherwise subjected to discrimination in the performance of this Grant Contract or in the employment practices of the Grantee on the grounds of handicap or disability, age, race, color, religion, sex, national origin, or any other classification protected by federal, Tennessee state constitutional, or statutory law. The Grantee shall, upon request, show proof of nondiscrimination and shall post in conspicuous places, available to all employees and applicants, notices of nondiscrimination.

D.11. HIPAA Compliance. As applicable, the State and the Grantee shall comply with obligations under the Health Insurance Portability and Accountability Act of 1996 (HIPAA), Health Information Technology for Economic and Clinical Health Act (HITECH) and any other relevant laws and regulations regarding privacy (collectively the "Privacy Rules"). The obligations set forth in this Section shall survive the termination of this Grant Contract.

a. The Grantee warrants to the State that it is familiar with the requirements of the Privacy Rules and will comply with all applicable HIPAA requirements in the course of this Grant Contract.

b. The Grantee warrants that it will cooperate with the State, including cooperation and coordination with State privacy officials and other compliance officers required by the Privacy Rules, in the course of performance of this Grant Contract so that both parties will be in compliance with the Privacy Rules.

c. The State and the Grantee will sign documents, including but not limited to business associate agreements, as required by the Privacy Rules and that are reasonably necessary to keep the State and the Grantee in compliance with the Privacy Rules. This provision shall not apply if information received by the State under this Grant Contract is NOT "protected health information" as defined by the Privacy Rules, or if the Privacy Rules permit the State to receive such information without entering into a business associate agreement or signing another such document.

D.12. Public Accountability. If the Grantee is subject to Tenn. Code Ann. § 8-4-401 *et seq*., or if this Grant Contract involves the provision of services to citizens by the Grantee on behalf of the State, the Grantee agrees to establish a system through which recipients of services may present grievances about the operation of the service program. The Grantee shall also display in a prominent place, located near the passageway through which the public enters in order to receive Grant supported services, a sign at least eleven inches (11") in height and seventeen inches (17") in width stating:

NOTICE: THIS AGENCY IS A RECIPIENT OF TAXPAYER FUNDING. IF YOU OBSERVE AN AGENCY DIRECTOR OR EMPLOYEE ENGAGING IN ANY ACTIVITY WHICH YOU CONSIDER TO BE ILLEGAL, IMPROPER, OR WASTEFUL, PLEASE CALL THE STATE COMPTROLLER'S TOLL-FREE HOTLINE: 1-800-232-5454.

The sign shall be on the form prescribed by the Comptroller of the Treasury. The Grantor State Agency shall obtain copies of the sign from the Comptroller of the Treasury, and upon request from the Grantee, provide Grantee with any necessary signs.

D.13. Public Notice. All notices, informational pamphlets, press releases, research reports, signs, and similar public notices prepared and released by the Grantee in relation to this Grant Contract shall include the statement, "This project is funded under a grant contract with the State of Tennessee." All notices by the Grantee in relation to this Grant Contract shall be approved by the State.

D.14. Licensure. The Grantee, its employees, and any approved subcontractor shall be licensed pursuant to all applicable federal, state, and local laws, ordinances, rules, and regulations and shall upon request provide proof of all licenses.

D.15. Records. The Grantee and any approved subcontractor shall maintain documentation for all charges under this Grant Contract. The books, records, and documents of the Grantee and any approved subcontractor, insofar as they relate to work performed or money received under this Grant Contract, shall be maintained in accordance with applicable Tennessee law. In no case shall the records be maintained for a period of less than five (5) full years from the date of the final payment. The Grantee's records shall be subject to audit at any reasonable time and upon reasonable notice by the Grantor State Agency, the Comptroller of the Treasury, or their duly appointed representatives.

The records shall be maintained in accordance with Governmental Accounting Standards Board (GASB) Accounting Standards or the Financial Accounting Standards Board (FASB) Accounting Standards Codification, as applicable, and any related AICPA Industry Audit and Accounting guides.

In addition, documentation of grant applications, budgets, reports, awards, and expenditures will be maintained in accordance with U.S. Office of Management and Budget's *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*.

Grant expenditures shall be made in accordance with local government purchasing policies and procedures and purchasing procedures for local governments authorized under state law.

The Grantee shall also comply with any recordkeeping and reporting requirements prescribed by the Tennessee Comptroller of the Treasury.

The Grantee shall establish a system of internal controls that utilize the COSO Internal Control - Integrated Framework model as the basic foundation for the internal control system. The Grantee shall incorporate any additional Comptroller of the Treasury directives into its internal control system.

Any other required records or reports which are not contemplated in the above standards shall follow the format designated by the head of the Grantor State Agency, the Central Procurement Office, or the Commissioner of Finance and Administration of the State of Tennessee.

D.16. Monitoring. The Grantee's activities conducted and records maintained pursuant to this Grant Contract shall be subject to monitoring and evaluation by the State, the Comptroller of the Treasury, or their duly appointed representatives.

D.17. Progress Reports. The Grantee shall submit brief, periodic, progress reports to the State as requested.

D.18. Annual and Final Reports. The Grantee shall submit, within three (3) months of the conclusion of each year of the Term, an annual report. For grant contracts with a term of less than one (1) year, the Grantee shall submit a final report within three (3) months of the conclusion of the Term. For

grant contracts with multiyear terms, the final report will take the place of the annual report for the final year of the Term. The Grantee shall submit annual and final reports to the Grantor State Agency. At minimum, annual and final reports shall include: (a) the Grantee's name; (b) the Grant Contract's Edison identification number, Term, and total amount; (c) a narrative section that describes the program's goals, outcomes, successes and setbacks, whether the Grantee used benchmarks or indicators to determine progress, and whether any proposed activities were not completed; and (d) other relevant details requested by the Grantor State Agency. Annual and final report documents to be completed by the Grantee shall appear on the Grantor State Agency's website or as Attachment 5 to the Grant Contract.

D.19. Audit Report. The Grantee shall be audited in accordance with applicable Tennessee law.

At least ninety (90) days before the end of its fiscal year, the Grantee shall complete the Information for Audit Purposes ("IAP") form online (accessible through the Edison Supplier portal) to notify the State whether or not Grantee is subject to an audit. The Grantee should submit only one, completed form online during the Grantee's fiscal year. Immediately after the fiscal year has ended, the Grantee shall fill out the End of Fiscal Year ("EOFY") (accessible through the Edison Supplier portal).

When a federal single audit is required, the audit shall be performed in accordance with U.S. Office of Management and Budget's *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*.

A copy of the audit report shall be provided to the Comptroller by the licensed, independent public accountant. Audit reports shall be made available to the public.

D.20. Procurement. If other terms of this Grant Contract allow reimbursement for the cost of goods, materials, supplies, equipment, or contracted services, such procurement shall be made on a competitive basis, including the use of competitive bidding procedures, where practical. The Grantee shall maintain documentation for the basis of each procurement for which reimbursement is paid pursuant to this Grant Contract. In each instance where it is determined that use of a competitive procurement method is not practical, supporting documentation shall include a written justification for the decision and for use of a non-competitive procurement. If the Grantee is a subrecipient, the Grantee shall comply with 2 C.F.R. §§ 200.317—200.327 when procuring property and services under a federal award.

The Grantee shall obtain prior approval from the State before purchasing any equipment under this Grant Contract.

For purposes of this Grant Contract, the term "equipment" shall include any article of nonexpendable, tangible, personal property having a useful life of more than one year and an acquisition cost which equals or exceeds ten thousand dollars ($10,000.00).

D.21. Strict Performance. Failure by any party to this Grant Contract to insist in any one or more cases upon the strict performance of any of the terms, covenants, conditions, or provisions of this Grant Contract is not a waiver or relinquishment of any term, covenant, condition, or provision. No term or condition of this Grant Contract shall be held to be waived, modified, or deleted except by a written amendment signed by the parties.

D.22. Independent Contractor. The parties shall not act as employees, partners, joint venturers, or associates of one another in the performance of this Grant Contract. The parties acknowledge that they are independent contracting entities and that nothing in this Grant Contract shall be construed to create a principal/agent relationship or to allow either to exercise control or direction over the manner or method by which the other transacts its business affairs or provides its usual services. The employees or agents of one party shall not be deemed or construed to be the employees or agents of the other party for any purpose whatsoever.

D.23. Limitation of State's Liability. The State shall have no liability except as specifically provided in this Grant Contract. In no event will the State be liable to the Grantee or any other party for any

lost revenues, lost profits, loss of business, loss of grant funding, decrease in the value of any securities or cash position, time, money, goodwill, or any indirect, special, incidental, punitive, exemplary or consequential damages of any nature, whether based on warranty, contract, statute, regulation, tort (including but not limited to negligence), or any other legal theory that may arise under this Grant Contract or otherwise. The State's total liability under this Grant Contract (including any exhibits, schedules, amendments or other attachments to the Contract) or otherwise shall under no circumstances exceed the Maximum Liability originally established in Section C.1 of this Grant Contract. This limitation of liability is cumulative and not per incident.

D.24. Force Majeure. "Force Majeure Event" means fire, flood, earthquake, elements of nature or acts of God, wars, riots, civil disorders, rebellions or revolutions, acts of terrorism or any other similar cause beyond the reasonable control of the party except to the extent that the non-performing party is at fault in failing to prevent or causing the default or delay, and provided that the default or delay cannot reasonably be circumvented by the non-performing party through the use of alternate sources, workaround plans or other means. A strike, lockout or labor dispute shall not excuse either party from its obligations under this Grant Contract. Except as set forth in this Section, any failure or delay by a party in the performance of its obligations under this Grant Contract arising from a Force Majeure Event is not a default under this Grant Contract or grounds for termination. The non-performing party will be excused from performing those obligations directly affected by the Force Majeure Event, and only for as long as the Force Majeure Event continues, provided that the party continues to use diligent, good faith efforts to resume performance without delay. The occurrence of a Force Majeure Event affecting Grantee's representatives, suppliers, subcontractors, customers or business apart from this Grant Contract is not a Force Majeure Event under this Grant Contract. Grantee will promptly notify the State of any delay caused by a Force Majeure Event (to be confirmed in a written notice to the State within one (1) day of the inception of the delay) that a Force Majeure Event has occurred, and will describe in reasonable detail the nature of the Force Majeure Event. If any Force Majeure Event results in a delay in Grantee's performance longer than forty-eight (48) hours, the State may, upon notice to Grantee: (a) cease payment of the fees until Grantee resumes performance of the affected obligations; or (b) immediately terminate this Grant Contract or any purchase order, in whole or in part, without further payment except for fees then due and payable. Grantee will not increase its charges under this Grant Contract or charge the State any fees other than those provided for in this Grant Contract as the result of a Force Majeure Event.

D.25. Tennessee Department of Revenue Registration. The Grantee shall comply with all applicable registration requirements contained in Tenn. Code Ann. §§ 67-6-601 – 608. Compliance with applicable registration requirements is a material requirement of this Grant Contract.

D.26. Charges to Service Recipients Prohibited. The Grantee shall not collect any amount in the form of fees or reimbursements from the recipients of any service provided pursuant to this Grant Contract.

D.27. No Acquisition of Equipment or Motor Vehicles. This Grant Contract does not involve the acquisition and disposition of equipment or motor vehicles acquired with funds provided under this Grant Contract.

D.28. State and Federal Compliance. The Grantee shall comply with all applicable state and federal laws and regulations in the performance of this Grant Contract. The U.S. Office of Management and Budget's Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards is available here: http://www.ecfr.gov/cgi-bin/text-idx?SID=c6b2f053952359ba94470ad3a7c1a975&tpl=/ecfrbrowse/Title02/2cfr200_main_02.tpl

D.29. Governing Law. This Grant Contract shall be governed by and construed in accordance with the laws of the State of Tennessee, without regard to its conflict or choice of law rules. The Grantee agrees that it will be subject to the exclusive jurisdiction of the courts of the State of Tennessee in actions that may arise under this Grant Contract. The Grantee acknowledges and agrees that any rights or claims against the State of Tennessee or its employees hereunder, and any remedies arising there from, shall be subject to and limited to those rights and remedies, if any, available under Tenn. Code Ann. §§ 9-8-101 through 9-8-408.

D.30. Completeness. This Grant Contract is complete and contains the entire understanding between the parties relating to the subject matter contained herein, including all the terms and conditions agreed to by the parties. This Grant Contract supersedes any and all prior understandings, representations, negotiations, or agreements between the parties, whether written or oral.

D.31. Severability. If any terms and conditions of this Grant Contract are held to be invalid or unenforceable as a matter of law, the other terms and conditions shall not be affected and shall remain in full force and effect. To this end, the terms and conditions of this Grant Contract are declared severable.

D.32. Headings. Section headings are for reference purposes only and shall not be construed as part of this Grant Contract.

D.33. Iran Divestment Act. The requirements of Tenn. Code Ann. § 12-12-101, *et seq.*, addressing contracting with persons as defined at Tenn. Code Ann. §12-12-103(5) that engage in investment activities in Iran, shall be a material provision of this Grant Contract. The Grantee certifies, under penalty of perjury, that to the best of its knowledge and belief that it is not on the list created pursuant to Tenn. Code Ann. § 12-12-106.

D.34. Debarment and Suspension. The Grantee certifies, to the best of its knowledge and belief, that it, its current and future principals, its current and future subcontractors and their principals:

a. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any federal or state department or agency;

b. have not within a three (3) year period preceding this Grant Contract been convicted of, or had a civil judgment rendered against them from commission of fraud, or a criminal offence in connection with obtaining, attempting to obtain, or performing a public (federal, state, or local) transaction or grant under a public transaction; violation of federal or state antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification, or destruction of records, making false statements, or receiving stolen property;

c. are not presently indicted or otherwise criminally or civilly charged by a government entity (federal, state, or local) with commission of any of the offenses detailed in section b. of this certification; and

d. have not within a three (3) year period preceding this Grant Contract had one or more public transactions (federal, state, or local) terminated for cause or default.

The Grantee shall provide immediate written notice to the State if at any time it learns that there was an earlier failure to disclose information or that due to changed circumstances, its principals or the principals of its subcontractors are excluded or disqualified, or presently fall under any of the prohibitions of sections a-d.

D.35. Confidentiality of Records. Strict standards of confidentiality of records and information shall be maintained in accordance with the requirements of this Grant Contract and applicable state and federal law. All material, information, and data regardless of form, medium or method of communication, that the Grantee will have access to, acquire, or is provided to the Grantee by the State or acquired by the Grantee on behalf of the State shall be regarded as “Confidential Information.” The State grants the Grantee a limited license to use the Confidential Information but only to perform its obligations under the Grant Contract. Nothing in this Section shall permit Grantee to disclose any Confidential Information, regardless of whether it has been disclosed or made available to the Grantee due to intentional or negligent actions or inactions of agents of the State or third parties. Confidential Information shall not be disclosed except as required under state or federal law or otherwise authorized in writing by the State. Grantee shall take all

necessary steps to safeguard the confidentiality of such Confidential Information in conformance with the requirements of this Grant Contract and with applicable state and federal law.

As long as the Grantee maintains State Confidential Information, the obligations set forth in this Section shall survive the termination of this Grant Contract.

D.36. State Sponsored Insurance Plan Enrollment. The Grantee warrants that it will not enroll or permit its employees, officials, or employees of contractors to enroll or participate in a state sponsored health insurance plan through their employment, official, or contractual relationship with Grantee unless Grantee first demonstrates to the satisfaction of the Department of Finance and Administration that it and any contract entity satisfies the definition of a governmental or quasigovernmental entity as defined by federal law applicable to ERISA.

D.37. Foreign Adversary Company Attestation. The Grantee attests that they are not a "Foreign adversary company" within the meaning of Pub. Ch. 768 (2026) and that the Grantee is not knowingly selling an information and communications technology final product or service within the meaning of Pub. Ch. 768 (2026).

E. SPECIAL TERMS AND CONDITIONS:

E.1. Conflicting Terms and Conditions. Should any of these special terms and conditions conflict with any other terms and conditions of this Grant Contract, the special terms and conditions shall be subordinate to the Grant Contract's other terms and conditions.

E.2. Printing Authorization. The Grantee agrees that no publication coming within the jurisdiction of Tenn. Code Ann. § 12-7-101, *et seq*., shall be printed pursuant to this Grant Contract unless a printing authorization number has been obtained and affixed as required by Tenn. Code Ann. § 12-7-103(d).

E.3. Environmental Tobacco Smoke. Pursuant to the provisions of the federal "Pro-Children Act of 1994" and the "Children's Act for Clean Indoor Air of 1995," Tenn. Code Ann. §§ 39-17-1601 through 1606, the Grantee shall prohibit smoking of tobacco products within any indoor premises in which services are provided to individuals under the age of eighteen (18) years. The Grantee shall post "no smoking" signs in appropriate, permanent sites within such premises. This prohibition shall be applicable during all hours, not just the hours in which children are present. Violators of the prohibition may be subject to civil penalties and fines. This prohibition shall apply to and be made part of any subcontract related to this Grant Contract.

E.4. Federal Funding Accountability and Transparency Act (FFATA).

This Grant Contract requires the Grantee to provide supplies or services that are funded in whole or in part by federal funds that are subject to FFATA. The Grantee is responsible for ensuring that all applicable FFATA requirements, including but not limited to those below, are met and that the Grantee provides information to the State as required.

The Grantee shall comply with the following:

a. Reporting of Total Compensation of the Grantee's Executives.

(1) The Grantee shall report the names and total compensation of each of its five most highly compensated executives for the Grantee's preceding completed fiscal year, if in the Grantee's preceding fiscal year it received:

i. 80 percent or more of the Grantee's annual gross revenues from Federal procurement contracts and federal financial assistance subject to the Transparency Act, as defined at 2 CFR 170.320 (and sub awards); and

ii. $25,000,000 or more in annual gross revenues from federal procurement contracts (and subcontracts), and federal financial assistance subject to the Transparency Act (and sub awards); and

iii. The public does not have access to information about the compensation of the executives through periodic reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. § 78m(a), 78o(d)) or § 6104 of the Internal Revenue Code of 1986. (To determine if the public has access to the compensation information, see the U.S. Security and Exchange Commission total compensation filings at http://www.sec.gov/answers/execomp.htm.).

As defined in 2 C.F.R. § 170.315, "Executive" means officers, managing partners, or any other employees in management positions.

(2) Total compensation means the cash and noncash dollar value earned by the executive during the Grantee's preceding fiscal year and includes the following (for more information see 17 CFR § 229.402(c)(2)):

i. Salary and bonus.
ii. Awards of stock, stock options, and stock appreciation rights. Use the dollar amount recognized for financial statement reporting purposes with respect to the fiscal year in accordance with the Statement of Financial Accounting Standards No. 123 (Revised 2004) (FAS 123R), Shared Based Payments.
iii. Earnings for services under non-equity incentive plans. This does not include group life, health, hospitalization or medical reimbursement plans that do not discriminate in favor of executives, and are available generally to all salaried employees.
iv. Change in pension value. This is the change in present value of defined benefit and actuarial pension plans.
v. Above-market earnings on deferred compensation which is not tax qualified.
vi. Other compensation, if the aggregate value of all such other compensation (e.g. severance, termination payments, value of life insurance paid on behalf of the employee, perquisites or property) for the executive exceeds $10,000.

b. The Grantee must report executive total compensation described above to the State by the end of the month during which this Grant Contract is established.

c. If this Grant Contract is amended to extend its term, the Grantee must submit an executive total compensation report to the State by the end of the month in which the amendment to this Grant Contract becomes effective.

d. The Grantee will obtain a Unique Entity Identifier (SAM) and maintain its number for the term of this Grant Contract. More information about obtaining a Unique Entity Identifier can be found at: https://www.gsa.gov.

The Grantee's failure to comply with the above requirements is a material breach of this Grant Contract for which the State may terminate this Grant Contract for cause. The State will not be obligated to pay any outstanding invoice received from the Grantee unless and until the Grantee is in full compliance with the above requirements.

E.5. Clean Air Act and Federal Water Pollution Control Act. As a condition for receipt of funds, the Grantee agrees to comply with the Clean Air Act, 42 U.S.C. § 7401 *et seq*. and the Federal Water Pollution Control Act, 33 U.S.C § 1251 *et seq.*, as those sections are amended from time to time during the term. Violations must be reported to the Centers for Disease Control and Prevention and the Region 4 Office of the Environmental Protection Agency.

E.6. Assistance Listing Number. When applicable, the Grantee shall inform its licensed independent public accountant of the federal regulations that require compliance with the performance of an

audit. This information shall consist of the following Assistance Listing Numbers: 93.116 Project Grants and Cooperative Agreements for Tuberculosis Control Programs.

E.7. Health Care Data. Grantee shall provide data reports about health care services provided under this Grant using the Department of Health's Patient Tracking and Billing Management Information System (or its successor). Data regarding health care services provided by the Grantee shall be coded and entered into the Patient Tracking and Billing Management Information System (PTBMIS), using the PTBMIS Codes Manual. The PTBMIS Codes manual is available electronically at http://hsaintranet.health.tn.gov/ and e-mail notices shall be sent to the Grantee regarding new revisions and/or updates, which can be accessed through the above-referenced website.

On a schedule defined by the State, the Grantee shall submit Central Office Database Report (CODB) files, as defined in PTBMIS, electronically to the State. The Grantee shall also submit other health care data reports, as requested by the State, and in a format acceptable to the State.

E.8. Comptroller Audit Requirements.

When requested by the State or the Comptroller of the Treasury, the Grantee must provide the State or the Comptroller of the Treasury with a detailed written description of the Grantee's information technology control environment, including a description of general controls and application controls. The Grantee must also assist the State or the Comptroller of the Treasury with obtaining a detailed written description of the information technology control environment for any third or fourth parties, or Subcontractors, used by the Grantee to process State data and/or provide services under this Contract.

Grantee will maintain and cause its Subcontractors to maintain a complete audit trail of all transactions and activities in connection with this Contract, including all information technology logging and scanning conducted within the Grantee's and Subcontractor's information technology control environment. Upon reasonable notice and at any reasonable time, the Grantee grants the State or the Comptroller of the Treasury with the right to audit the Grantee's information technology control environment, including general controls and application controls. The audit may include testing the general and application controls within the Grantee's information technology control environment and may also include testing general and application controls for any third or fourth parties, or Subcontractors, used by the Grantee to process State data and/or provide services under this Contract. The audit may include the Grantee's and Subcontractor's compliance with NIST 800-171 and all applicable requirements, laws, regulations, or policies.

Upon reasonable notice and at any reasonable time, the Grantee and Subcontractor(s) agree to allow the State, the Comptroller of the Treasury, or their duly appointed representatives to perform information technology control audits of the Grantee and all Subcontractors used by the Grantee. Grantee will provide to the State, the Comptroller of the Treasury, or their duly appointed representatives access to Grantee and Subcontractor(s) personnel for the purpose of performing the information technology control audit. The audit may include interviews with technical and management personnel, physical or virtual inspection of controls, and review of paper or electronic documentation.

The Grantee must have a process for correcting control deficiencies that were identified in the State's or Comptroller of the Treasury's information technology audit. For any audit issues identified, the Grantee and Subcontractor(s) shall submit a corrective action plan to the State or the Comptroller of the Treasury which addresses the actions taken, or to be taken, and the anticipated completion date in response to each of the audit issues and related recommendations of the State or the Comptroller of the Treasury. The corrective action plan shall be provided to the State or the Comptroller of the Treasury upon request from the State or Comptroller of the Treasury and within 30 days from the issuance of the audit report or communication of the audit issues and recommendations. Upon request from the State or Comptroller of the Treasury, the Grantee and Subcontractor(s) shall provide documentation and evidence that the audit issues were corrected.

Each party shall bear its own expenses incurred while conducting the information technology controls audit.

E.9. Information Technology Security Requirements (State Data, Audit, and Other Requirements).

a. The Grantee shall protect State Data as follows:

(1) The Grantee shall ensure that all State Data is housed in the continental United States, inclusive of backup data. All State data must remain in the United States, regardless of whether the data is processed, stored, in-transit, or at rest. Access to State data shall be limited to US-based (onshore) resources only.

All system and application administration must be performed in the continental United States. Configuration or development of software and code is permitted outside of the United States. However, software applications designed, developed, manufactured, or supplied by persons owned or controlled by, or subject to the jurisdiction or direction of, a foreign adversary, which the U.S. Secretary of Commerce acting pursuant to 15 CFR 7 has defined to include the People's Republic of China, among others are prohibited. Any testing of code outside of the United States must use fake data. A copy of production data may not be transmitted or used outside the United States.

(2) The Grantee shall encrypt Confidential State Data at rest and in transit using the current version of Federal Information Processing Standard ("FIPS") 140-2 validated encryption technologies.

(3) The Grantee shall implement and maintain privacy and security controls that follow the guidelines set forth in the most current version of NIST 800-171, "Protecting Controlled Unclassified Information in Nonfederal Systems and Organizations," with the State to review the implementation of this Section. The State must have proof of compliance with NIST 800-171 in the form of a third-party audit at a minimum every two years or upon request.

No additional funding shall be allocated for these examinations as they are included in the Maximum Liability of this Contract.

(4) The Grantee must annually perform Penetration Tests and Vulnerability Assessments against its Processing Environment per the NIST 800-115 definition. "Processing Environment" shall mean the combination of software and hardware on which the Application runs. "Application" shall mean the computer code that supports and accomplishes the State's requirements as set forth in this Contract. "Penetration Tests" shall be in the form of attacks on the Grantee's computer system, with the purpose of discovering security weaknesses which have the potential to gain access to the Processing Environment's features and data. The "Vulnerability Assessment" shall be designed and executed to define, identify, and classify the security holes (vulnerabilities) in the Processing Environment. The Grantee shall provide a letter of attestation on its processing environment that penetration tests and vulnerability assessments have been performed on an annual basis and taken corrective action to evaluate and address any findings. The Grantee must provide a letter of attestation that includes a penetration testing and vulnerability assessments report per NIST 800-115 that outlines risk exposure of the critical, high, and moderate risks and how they were mitigated, within 30 days of receiving the results.

In the event of an unauthorized disclosure or unauthorized access to State data, the State Strategic Technology Solutions (STS) Security Incident Response Team (SIRT) must be notified and engaged by calling the State Customer Care Center (CCC) at 615-741-1001. Any such event must be reported by the Grantee within

twenty-four (24) hours after the unauthorized disclosure has come to the attention of the Grantee.

(5) If a breach has been confirmed a fully un-modified third-party forensics report must be supplied to the State and through the STS SIRT. This report must include indicators of compromise (IOCs) as well as plan of actions for remediation and restoration. Grantee shall take all necessary measures to halt any further Unauthorized Disclosures.

(6) Upon State request, the Grantee shall provide a copy of all Confidential State Data it holds. The Grantee shall provide such data on media and in a format determined by the State

(7) Upon termination of this Contract and in consultation with the State, the Grantee shall destroy, and ensure all subcontractors shall destroy, all Confidential State Data it holds (including any copies such as backups) in accordance with the current version of National Institute of Standards and Technology ("NIST") Special Publication 800-88. The Grantee shall provide a written confirmation of destruction to the State within ten (10) business days after destruction.

b. Minimum Requirements

(1) The Grantee and all data centers used by Grantee to host State data, including those of all subcontractors, must comply with the most current version of NIST 800-171, "Protecting Controlled Unclassified Information in Nonfederal Systems and Organizations," with the State to review the implementation of this Section. The State must have proof of compliance with NIST 800-171 in the form of a third-party audit at a minimum every two years or upon request. Knox County Information Security Management Policy is attached as Attachment #6.

(2) The Grantee agrees to maintain the Application so that it will run on a current, manufacturer-supported Operating System. "Operating System" shall mean the software that supports a computer's basic functions, such as scheduling tasks, executing applications, and controlling peripherals.

(3) If the Application requires middleware or database software, Grantee shall maintain middleware and database software versions that are always fully compatible with current versions of the Operating System and Application to ensure that security vulnerabilities are not introduced.

(4) In the event of drive/media failure, if the drive/media is replaced, it remains with the State and it is the State's responsibility to destroy the drive/media, or the Grantee shall provide written confirmation of the sanitization/destruction of data according to NIST 800-88.

c. Business Continuity Requirements. The Grantee shall maintain set(s) of documents, instructions, and procedures which enable the Grantee to respond to accidents, disasters, emergencies, or threats without any stoppage or hindrance in its key operations ("Business Continuity Requirements"). Business Continuity Requirements shall include:

(1) "Disaster Recovery Capabilities" refer to the actions the Grantee takes to meet the Recovery Point and Recovery Time Objectives defined below. Disaster Recovery Capabilities shall meet the following objectives:

i. Recovery Point Objective ("RPO"). The RPO is defined as the maximum targeted period in which data might be lost from an IT service due to a major incident: 24 hours

ii. Recovery Time Objective ("RTO"). The RTO is defined as the targeted duration of time and a service level within which a business process must be restored after a disaster (or disruption) in order to avoid unacceptable consequences associated with a break in business continuity: 48 hours

(2) The Grantee and the Subcontractor(s) shall maintain a documented Disaster Recovery plan and shall share this document with the State when requested. The Grantee and the Subcontractor(s) shall perform at least one Disaster Recovery Test every three hundred sixty-five (365) days. A "Disaster Recovery Test" shall mean the process of verifying the success of the restoration procedures that are executed after a critical IT failure or disruption occurs. The Disaster Recovery Test shall use actual State Data Sets that mirror production data, and success shall be defined as the Grantee verifying that the Grantee can meet the State's RPO and RTO requirements. A "Data Set" is defined as a collection of related sets of information that is composed of separate elements but can be manipulated as a unit by a computer. The Grantee shall provide written confirmation to the State after each Disaster Recovery Test that its Disaster Recovery Capabilities meet the RPO and RTO requirements.

E.10. Personally Identifiable Information. While performing its obligations under this Grant Contract, Grantee may have access to Personally Identifiable Information held by the State ("PII"). For the purposes of this Grant Contract, "PII" includes "Nonpublic Personal Information" as that term is defined in Title V of the Gramm-Leach-Bliley Act of 1999 or any successor federal statute, and the rules and regulations thereunder, all as may be amended or supplemented from time to time ("GLBA") and personally identifiable information and other data protected under any other applicable laws, rule or regulation of any jurisdiction relating to disclosure or use of personal information ("Privacy Laws"). Grantee agrees it shall not do or omit to do anything which would cause the State to be in breach of any Privacy Laws. Grantee shall, and shall cause its employees, agents and representatives to: (i) keep PII confidential and may use and disclose PII only as necessary to carry out those specific aspects of the purpose for which the PII was disclosed to Grantee and in accordance with this Grant Contract, GLBA and Privacy Laws; and (ii) implement and maintain appropriate technical and organizational measures regarding information security to: (A) ensure the security and confidentiality of PII; (B) protect against any threats or hazards to the security or integrity of PII; and (C) prevent unauthorized access to or use of PII. Grantee shall immediately notify State: (1) of any disclosure or use of any PII by Grantee or any of its employees, agents and representatives in breach of this Grant Contract; and (2) of any disclosure of any PII to Grantee or its employees, agents and representatives where the purpose of such disclosure is not known to Grantee or its employees, agents and representatives. The State reserves the right to review Grantee's policies and procedures used to maintain the security and confidentiality of PII and Grantee shall, and cause its employees, agents and representatives to, comply with all reasonable requests or directions from the State to enable the State to verify or ensure that Grantee is in full compliance with its obligations under this Grant Contract in relation to PII. Upon termination or expiration of the Grant Contract or at the State's direction at any time in its sole discretion, whichever is earlier, Grantee shall immediately return to the State any and all PII which it has received under this Grant Contract and shall destroy all records of such PII.

The Grantee shall report to the State any instances of unauthorized access to or potential disclosure of PII in the custody or control of Grantee ("Unauthorized Disclosure") that come to the Grantee's attention. Any such report shall be made by the Grantee within twenty-four (24) hours after the Unauthorized Disclosure has come to the attention of the Grantee. Grantee shall take all necessary measures to halt any further Unauthorized Disclosures. The Grantee, at the sole discretion of the State, shall provide no cost credit monitoring services for individuals whose PII was affected by the Unauthorized Disclosure. The Grantee shall bear the cost of notification to all individuals affected by the Unauthorized Disclosure, including individual letters and public notice. The remedies set forth in this Section are not exclusive and are in addition to any claims or

remedies available to this State under this Grant Contract or otherwise available at law. The obligations set forth in this Section shall survive the termination of this Grant Contract.

IN WITNESS WHEREOF, the parties have by their duly authorized representatives set their signatures.

Introduction

Information Technology (IT) solutions are driven by the demands of our daily business activities at Knox County. The ability to procure efficient communication, IT resources, and technologies that support Knox County's business processes is a foundational component of a successful IT program.

Organizations often take risks in order to meet those time-sensitive business requirements, sometimes bypassing existing processes to meet the demands of customers whom they serve. As we continue to expand our use of cloud technologies, it is imperative that Knox County Information Technology (KCIT) continues to demonstrate that our data is hosted, processed, and stored securely. Information security is not an absolute and cannot absolutely guarantee the security of the information that it handles. This policy is an effort to strive to maintain a reasonable, continuous process for implementing, reviewing, and improving data security.

The main purpose of this living document, the Knox County Information Technology Security Policy, herein thereafter referred to as the "Policy", is to define information security policies for individuals that access any assets controlled, leased, owned, or otherwise utilized by Knox County, herein thereafter referred to as, the "County". Our purview specifically excludes Knox County Libraries, Schools, & Sheriff networks and workstations, with the exception of those Knox County Library, School, and Sheriff users that are issued credentials by KCIT in order to access certain applications and resources. The goal of the Policy is to maintain confidentiality, continuity, integrity, and availability of information, information technology, and critical operation processes in such a manner that the County's legal, regulatory, and ethical responsibilities to its citizens are upheld to the highest of standards. The Policy defines the acceptable use and management of internal and remote systems, services, information, technical controls, and procedures that govern the design, acquisition, implementation, administration, and use of the County's system that assist in mitigating risks due to evolving cyber threats and vulnerabilities.

The Policy defines the minimum-security requirements for the protection of KCIT assets, including the managerial, operational, and technical protection requirements and controls to protect the integrity, continuity, confidentiality, and availability of the County's IT assets as well as compliance with all applicable federal, state, and local laws, policies, and regulations (e.g. HIPAA, HITECH, PCI-DSS, PII, PHI, and other specific privacy regulations currently in effect, as amended, or established later). The Policy will abide by the guidelines established by the National Institute of Standards and Technology (NIST) and any other existing and future implementations of technology, as business needs, and funding allow.

Purpose

The purpose of this policy document is intended to protect any and all information and information systems within the County under KCIT's purview. Information systems consist of all IT systems and critical infrastructure to include computers, communication equipment fixed or mobile, software, systems, applications, databases, internet access, the data and information contained or passing through them, and activities and individual behavior involving the use or management of the systems and information. The intent is to cover all actions and procedures implemented to govern the design,

construction, operation, and preservation of the creation, collection, recording, processing, storing, retrieval, presentation, and transmission of information.

Scope

The Policy applies to:

- All County agencies, departments, employees, volunteers, service providers, vendors, contractors, and commercial entities (referred to as 'users' throughout this and other KCIT policies and procedures), that develop, implement, administer or use Knox County information and communication systems, data and information.
- All audio and video streaming and content, use of any web-based applications, including the use of social media, the County's web addresses (URLs) and image, wireless and remote access into the County's technology environment from anywhere, cloud services, and any other external resources hosted by a third-party, such as a vendor, on behalf of the County are incorporated into the scope of the Policy.
- All existing and future implementations of information systems, communications, other technology, and the Internet at Knox County or in use interoperability capabilities with partner organizations.

Exceptions

Exceptions to the Policy may be requested. Any exceptions to any of the security policies outlined in this, or any other security policy or procedure released on behalf of KCIT, will be reviewed, evaluated, and processed by a member of the Chief Technology Officer's (CTO) staff.

An Information Security Policy Exception/Waiver Request Form shall be prepared by the Department, signed by the elected official or Director of the Department, and submitted for review by the CTO, IT Compliance Officer (ITCO), Cyber Security Manager (CSM) and/or other members of the IT staff, as deemed appropriate. Certain exception requests may require escalation to Knox County's Law Department whose responsibilities include e-Government and HIPAA functions for determination. Periodic reviews for all granted exceptions will be conducted by the ITCO and reviewed by the CTO or Law Department to verify that the original business need is still valid, and the risk level is still acceptable.

Review

Review of this document takes place within KCIT and will occur on an annual basis, at a minimum. Document review can also be requested by submitting a request to the CTO by completing the KCIT Security Policy Document Review Request Form.

Compliance

Objective: **To avoid breaches of legal, statutory, regulatory, or contractual obligations related to information security or any security requirements.**

The Policy shall serve as an adequacy standard for information security safeguards and shall form the basis on which information security audits and reviews will be conducted. All activity from the County's IT environments and on County resources are subject to monitoring by authorized staff or designated entities.

Identification of Applicable Legislation and Contractual Requirements

All relevant legislative, statutory, regulatory, contractual, requirements, and the County's approach to meet these requirements should be explicitly identified, documented, and kept current for each information system, each department, and each entity that stores, processes, or transmits data on behalf of the County. This includes, but is not limited to, Criminal Justice Information Services (CJIS), Health Insurance Portability and Accountability Act (HIPAA), Federal Information Security Modernization Act (FISMA), Payment Card Industry Data Security Standard (PCI DSS), Health Information Technology for the Economy and Clinical Health Act (HITECH), Tennessee Annotated Code, as amended, and the Tennessee Personal and Commercial Computer Act of 2003, as amended.

Privacy and Protection of Personally Identifiable Information

The privacy and protection of personally identifiable information (PII) should be protected as required by relevant federal or state statute or regulation. The overall privacy of information are concerns both for individuals whose personal information is at stake and for departments and agencies that may be liable or have their reputations damaged should PII be inappropriately accessed, used, or disclosed.

Information Security Policies

***Objective*: To provide management direction and support for information security in accordance with Knox County requirements and relevant county, state, and federal statutes, and regulations for the County's computing environments.**

Information Security Requirements and Guidelines

KCIT will initiate, control, and communicate an enterprise information security architecture that includes, but is not limited to, a policy framework, an organizational and communication framework, and a security technology framework.

Security Assessment and Authorization

The CTO shall develop formal and documented security assessment and authorization procedures and strategies that address purpose, scope, roles and responsibilities, management commitment, coordination among agencies and departments, and operations and technical controls to ensure compliance consistent with County policy, and applicable local, state, and federal laws, directives, operational policies, regulations, standards, and guidance.

The CSM and ITCO shall annually review security assessment policies, procedures, and strategies and determine the effectiveness of existing security controls and team roles and responsibilities. The ITCO

shall also produce analytical reports that detail the results of security assessments and implement plans of action to improve information security controls, as funding and budget allow. KCIT may employ an independent assessment team to test and review security controls to ensure compliance consistent with local, state, and federal laws, directives, policies, regulations, standards, and guidance.

County leadership shall determine personnel authorized to determine the acceptable levels of risk to County operations and information assets to guide the implementation of appropriate security controls. County leadership shall designate approval authorities responsible and accountable for exercising due care in assessing the security risks associated with Knox County information and systems and due diligence that the information security program and measures are implemented accordingly.

Department leadership must formally authorize connections from County information systems to external information systems through interconnection security agreements such as Memoranda of Understandings, Service Level Agreements, Firewall Rules Requests, Exceptions to Policy/Waivers, etc. Requests shall include details specific to each connection including the system or data source being connected to, the interface characteristics, security requirements, and type of information transmitted. Interconnections shall be monitored to verify enforcement of security use, policy, controls, and requirements.

The ITCO and/or the CSM shall implement a continuous security program that allows County agencies to maintain security baselines adaptive to evolving threats, vulnerabilities, and technologies yet remain in alignment with County missions, goals, and values.

Operations Security

***Objective*: To protect critical County information resource assets, including hardware, software, and data from unauthorized use, misuse, or destruction and to maintain correct and proper operations.**

Documented Operating Procedures

KCIT and vendors or outsourced employees acting on behalf of the County should identify, document, and maintain standard security operating procedures and configurations for their respective operating environments and make sure the documentation is available to all users who need it.

Awareness and Training

An information security awareness and training program shall be incorporated as part of the County's training and education programs for all users in order to educate the user community in the issues related to vulnerabilities and cyber-security breach risks associated with information technology, the importance, and methods of protecting County information, and information systems. Security awareness shall be continually emphasized, reinforced, updated, and validated.

KCIT shall develop and maintain a communications process for notifying users of new information system security-related issues and concerns specific to the County and of general interest.

Users shall receive security awareness training and sign an acknowledgment indicating they have read and agree to adhere to KCIT information security policies. Records or certifications indicating the completion of security awareness training shall be retained for County users.

Configuration and Change Management

IT systems shall be designed, configured, hardened, and maintained according to County System Hardening Standards to adequately safeguard County information to the extent possible or feasible. Baseline configurations and configuration deviations of the County's information systems, network devices, and communications infrastructure shall be documented, reviewed, and updated. General requirements include, but are not limited to, installing operating systems from KCIT approved sources and media, applying vendor patches, removing, or disabling unnecessary software and services, enabling audit logging and other security protections, and changing the passwords and usernames of default accounts. System owners are prohibited from making unauthorized changes to approved configurations without consultation and approval of the Infrastructure Director and CTO.

System Administrators shall analyze hardware and software for flaws, weaknesses, incompatibility, and other security or functionality impacts and vulnerabilities in a test environment prior to implementation into the production environment, when possible. Security functions shall be reviewed and verified after changes to systems have been implemented to verify the functions and features are implemented correctly, operating as intended, and producing the desired result.

Changes to information processing facilities and systems should be controlled and monitored for security compliance. Formal management responsibilities and procedures should exist to assist in the satisfactory control or all changes to equipment, software, applications, configurations, and/or procedures that affect KCIT operation environment. All written documentation generated by the change control policies and procedures should be retained as evidence of compliance.

Change control procedures should include authorization, risk assessment, logging, auditability, and rollback procedures.

Capacity Management

The use of KCIT resources should be monitored and tuned so that projections of future capacity requirements can be made.

Separation of Development, Testing, and Operational Environments

Development and testing environments should be segregated from production environments in order to reduce the risks of unauthorized access or changes to the production environment. Data classified as restricted must be protected from unauthorized disclosure, use, modification, or destruction and should not be used in development or test environments.

Protection from Malware

Objective: **Prevent the automated propagation of malicious code and contamination of environments attached to the KCIT network.**

Malicious Software Control

All computing platforms that are attached to the County's enterprise technology infrastructure or operated on behalf of the County should be protected from intentional or unintentional exposure to malicious software. Malicious software includes, but is not limited to, software viruses, worms, Trojan horses, logic bombs, and rootkits. Compromised systems should be removed from the operational environment. All computing platforms that are attached to the County's enterprise technology infrastructure will participate in the County's antivirus program if antivirus signatures are available for the computing platforms. KCIT reserves the right to seize any compromised system for forensic analysis.

Backup

Objective: **To prevent loss of data and to attain data availability.**

Data Backup

Backup copies of data, software, and system images should be taken and tested regularly in accordance with the established procedures. A copy of the backup data should be stored off-site according to applicable regulatory requirements and County guidelines. Results of restore tests should be furnished to data owners with recommendations for any remedial steps found. Data owners should approve any remedial plans and timelines for implementing those remediation steps within a reasonable period, not to exceed three months. Following remediation, the restore testing should be repeated and results documented to substantiate that those steps mitigated all identified issues.

Logging and Monitoring

Objective: **To record events and generate evidence.**

Event Logging

All systems should be configured to support security event logging, user activity recording, exceptions, faults, and information security events. System administrators should monitor and report inappropriate access to the Infrastructure Director and the CTO. Critical systems should be configured to support automated logging to a facility that protects the integrity of the logs. Logging levels and monitor elements will be configured in accordance with federal and state statute and regulatory requirements.

Availability and Performance Monitoring

Critical systems should be configured to support County approved automated monitoring of system availability and performance.

Protection of Log Information

Logging facilities and log information should be protected against tampering and unauthorized access.

Administrator and Logs

System Administrator activities should be logged, protected, and regularly reviewed.

Clock Synchronization

Approved KCIT managed enterprise network time servers should be the only County devices permitted to synchronize with external time services. All County provided or managed systems will synchronize time with approved KCIT managed enterprise network time servers. All non-County provided or managed systems storing, processing, or transmitting County data should be synchronized to County approved time synchronization services.

Control of Operational Software

Objective: **To protect the integrity of operational systems.**

Installation of Software on Operational Systems

Only software that has been licensed and approved as County standard software/product or that has been approved as an exception through the County's architecture standards approval process should be installed on devices covered by the software's license agreement.

Patch Management

All applications and processing devices that are attached to the County's enterprise technology infrastructure will have critical security related application, operating system, and/or security-related patches for supported operating systems made available by the software or hardware vendor applied when applied within 90 calendar days or sooner, if any acceptable date can be agreed upon by all affected parties. Emergency patches and updates will be applied as soon as possible following successful validation and testing.

Patch Schedule

KCIT will generally follow the below schedule for patches, unless deemed otherwise.

- 7 days for critical patches addressing known exploits
- 14 days for high patches addressing known exploits
- 30 days for critical patches
- 60 days for high patches

Software Maintenance

Servers and workstation computer devices should have defined maintenance windows within every 90 days.

Applications should have established review and maintenance cycles for software updates.

Access Control

Objective: **To limit access to information and information processing facilities.**

Access Control Policy

All access rules and requirements to access KCIT resources should be developed, documented, maintained, and audited by KCIT. Access to the County's IT resources will be granted consistent with the concept of least privilege. All information processing systems owned by or operated on behalf of the County should have an appropriate role-based access control system that confirms only legitimate users and/or systems have access to IT resources that are explicitly authorized to use.

Access to Networks and Network Services

All access and connectivity to the County's enterprise network or networks operated on behalf of the County should be granted consistent with the concept of least privilege. Users will only be provided with access to the network and network resources that they have been specifically authorized to use.

Remote Access

All users who are accessing the County's internal network should access those resources through a County approved Virtual Private Network (VPN) solution. All users who access County data on networks operated on behalf of the County should use secure connection methods and are required to sign the Acceptance Use Policy and End User Agreement.

Information Security Roles and Responsibilities

All information security responsibilities should be defined and assigned by the access granting authority within KCIT, most commonly the system administrators.

Segregation of Duties

Where appropriate, conflicting duties and areas of responsibility should be segregated and assigned to different individuals to reduce opportunities for unauthorized or unintentional modification or misuse of the County's assets.

User Access Management

Objective: **To authenticate authorized user access and to prevent unauthorized access to systems and services.**

User Registration and De-Registration

A formal user registration and de-registration process will be implemented to enable proper assignment of access rights and to adjust those rights as the user's role changes. Prior to any access, the user must complete, sign, and return the KCIT Acceptable Use Policy and End User Agreement.

User Access Provisioning

User access to IT resources should be authorized and provisioned according to the Department's employee provisioning process.

User Account Naming

All County user accounts will follow a County approved standardized naming convention.

Management of Privileged Access Rights

Users should have the least privileges required to perform their roles as identified and approved by their management. The allocation and use of privileged access rights should be restricted and controlled.

Management of Secret Authorization of Information Users

The allocation of secret authentication information should be controlled through a formal management process.

Review of User Access Rights

A user's access rights should be reviewed, validated, and updated for appropriate access provided by a user's supervisor on a regular basis or whenever the user's access requirements change (e.g. hire, promotion, demotion, and transfer within and between departments). KCIT is not responsible for determining appropriate user access rights. However, KCIT will provide departments with audit reports, upon request.

Removal or Adjustment of Access Rights

All access rights for employees, elected officials, and external entities to information and information processing facilities should be revoked upon termination of their employment, contract, agreement, or change of department by the close of business on the user's last day working or within 24 hours of notification of the user's death, determination of job abandonment, or retroactive notification of resignation or retirement.

In the event the user will be returning or transferring to another role in which they will need access to the County's resources, the user's profile will be suspended in lieu of termination and the user's access rights will need to be reviewed prior to reinstatement.

Procedures for emergency removal of access rights should be in place.

User Responsibilities

Objective: **To make users accountable for safeguarding their authentication information.**

Use of Secret Authentication Information

Users should follow County guidelines and requirements in the use of secret authentication information.

System and Application Access Control

Objective: **To prevent unauthorized access to systems and applications.**

Information Access Restriction

Access to information and application system functions should be restricted in accordance with the defined access control guidelines. KCIT reserves the right to deny access to any networked information, systems, applications, or internal resources for any devices not owned by the County.

Secure Log-on Procedures

Where required by access control guidelines, access to systems and applications should be controlled by a secure log-on procedure. At a minimum, user access to protected KCIT resources requires that the utilization of User Identification (User ID) and password that uniquely identifies the user. Sharing access credentials intended to authenticate and authorize a single user between any two or more individuals is prohibited.

System Administrator Access

All System Administrators or users with elevated privileges using administrative tools or protocols to access servers located in County managed data processing facilities or facilities operated on behalf of the County must use a multifactor VPN solution to obtain access.

Log-on Banner

All workstations owned and operated by or on behalf of the County must display the County approved logon banner before the user is able to log in.

Service Account Use

Service Accounts should be unique to each application and/or system and should only be used to authenticate systems and/or applications to specific services.

System/Application Account Use

System/application accounts are created upon installation of an application and may have a predetermined User ID. Privileged user access to system accounts must be approved and documented. A system/application account differs from a service account in that individuals may know the password

to the system/application account. This account must be elevated from a lesser account. An example of this type of account is the default administrative account required by the application.

System Administrator Account Use

System Administrator accounts have elevated privileges and should only be used when elevated privileges are required. Administrative accounts are used to administer operating systems and applications.

Password Requirements

All users accessing Knox County internal resources are required to adhere to the requirements and guidelines set forth in the Knox County Password Requirements & Guidelines document. When accessing applications, users must adhere to the password requirements of the application that will be accessed.

Password Management System

Password Management Systems should be interactive and should ensure quality passwords. Passwords and passcodes must be provided to KCIT upon request.

Use of Privileged Utility Programs

The use of utility programs that might be capable of overriding system and application controls should be restricted and tightly controlled.

Access Control to Program Source Code

Access to program source code should be restricted to authorized users.

Default Configurations

All applications and processing devices that are attached the County's enterprise technology infrastructure should be deployed with modified configurations for, but not limited to, default accounts, and/or installation paths to minimize the use of default settings to gain unauthorized use, modification, or destruction.

Asset Management

Objective: **To identify organizational assets and define appropriate protection responsibilities.**

Inventory of Assets

An inventory of information system assets, components, software, and services in KCIT's custody and control shall be maintained and periodically reassessed. Due to the varying values of equipment under KCIT's purview, an agreed-upon threshold between the CTO and Knox County Finance Department will determine the minimum value of an asset that is required to be included in KCIT inventory.

Ownership of Assets

All information resource assets listed in the asset inventory should have an assigned owner or entity who will ensure the assets are protected in a manner consistent with their value, sensitivity, and criticality to the business and operation of the County's government and those it serves or as specified by any superseding county, state, or federal statute or regulation.

Acceptable Use of Assets

Rules for the acceptable use of information and assets associated with information and information processing facilities should be identified, documented, implemented, and communicated to the users who have access to those assets.

Users are expected to treat their assets with care and respect. Placing stickers, writing, or drawing on, engraving, or otherwise defacing any device(s) and/or case(s) is prohibited, unless authorized by KCIT, and may result in loss of the privilege of utilizing a County-owned asset.

Return of Assets

All users of KCIT assets must return all County assets in their possession upon termination of their need to no longer access KCIT information or information systems. All assets must be returned unlocked. In the event an asset is returned, and it is locked, Knox County reserves the right to withhold the user's last paycheck until the user unlocks all assets that were in the user's custody.

Asset Identification

All KCIT workstations will be named in accordance with an approved standardized naming convention. Those identification numbers shall be affixed in obvious locations when possible.

Data Classification

Objective: **To confirm the data used and managed by the County receives an appropriate level of protection commensurate with the value, importance, and criticality of the data to the County.**

Classification of Data

Data assets owned and/or managed by the County should be classified according to the definition of "Personal Information" or "Confidential Records" as specified by applicable state and/or federal statute or regulations to indicate the need, priorities, and degree of protection it will receive. At a minimum, data will be classified as Public, Internal, or Restricted.

Labeling of Data

An appropriate set of procedures for labeling data assets owned and/or managed by the County should be developed and implemented in accordance with the County's data classification scheme.

Handling and Use of Data

Procedures for handling data assets should be developed and implemented in accordance with the data classification scheme adopted by the County.

Public Data Classification and Control

Data classified as public should be protected from unauthorized modification or destruction.

Restricted Data Classification

Data classified as restricted must be protected from unauthorized disclosure, use, modification, or destruction and cannot be used in development or test environments, or publicly disclosed. Controls should be applied to data in a manner consistent with its value, sensitivity, and criticality to the business and operation of the County. Data classified as restricted must be encrypted at rest and during transmission in accordance with applicable state or federal statute or regulatory requirements.

Restricted Data on Personally Owned Devices

Restricted data, specifically PHI and PII, should not be stored on, or accessed using personally owned devices, including mobile devices (cell phone, tablet, etc.), unless an Information Security Policy Exception/Waiver Request Form has been completed, submitted, and approved.

Restricted Electronic Messages Classification and Control

Email sent from the County's domain out through the public Internet must be encrypted if it contains restricted information in the body or attachment. Restricted information should not be placed into the subject line of the message.

Payment Card Information Classification and Control

Payment card information must be considered restricted when an individual's first name or first initial and last name are present in combination with account number, credit or debit card numbers, required security code, access code, or password that would permit access to an individual's financial account.

The Payment Card Industry – Data Security Standards (PCI DSS) comprise a minimum set of requirements for protecting cardholder data and may be enhanced by additional controls and practices to further mitigate risks, as well as local, regional, and sector statutes and regulations. Additionally, legislation or regulatory requirements may require specific protection of PII and/or other data elements (for example, cardholder name).

All payment card information stored and processed by the County or transmitted over County networks must be in compliance with the PCI-DSS. Storage of the full Primary Account Number (PAN) on County systems is prohibited.

All purchased (off the shelf) applications used to process payment card information must be compliant with the Payment Application Data Security Standard (PA-DSS).

Media Handling

Objective: **To prevent unauthorized disclosure, modification, removal, or destruction of data stored on media.**

Management of Removable Media

Procedures should be implemented for the management of removable media in accordance with the classification scheme adopted by KCIT.

Repair of Removable Media

Removable media should be sanitized prior to removing it from the County facilities for maintenance and repair.

Disposal of Removable Media

Removable media should be disposed of securely when no longer required, using KCIT approved procedures.

Physical Transfer of Removable Media

Removable media containing restricted data must be protected against unauthorized access, misuse, or corruption during transport.

Workstation Computing

Objective: **To prevent unauthorized disclosure, modification, removal, or destruction of data stored on user assigned processing devices.**

County Provided Workstation Computing Platforms

Workstation computing platforms, including laptops, should be physically protected against theft when left unattended. Workstation computing platforms should not store restricted data assets where it is not absolutely necessary to perform the specific job-related duties. Storage of restricted data assets on a workstation computing platform should have approval from the asset custodian for such storage. Restricted data assets that have been authorized to be stored on the local workstation should be encrypted while stored on the workstation computing platform.

Workstation Platform Reassignment

All workstation computing platforms, including all external storage devices, should be sanitized prior to being re-issued or re-purposed to another user.

Workstation Platform Disposal

Hard drives in workstation computing platforms, including all mobile storage devices and phones, should be sanitized using approved sanitization procedures, or destroyed prior to transfer or surplus of a processing device to an external entity.

Cloud & Hosting Services

Anyone acting on behalf of the County who wishes to use cloud or hosting services for County business must seek KCIT guidance and approval for cloud solutions prior to enabling cloud services. This is imperative due to the higher risk of security concerns and threats associated with cloud computing.

KCIT will perform conformity assessment activities that may include, but are not limited to, the review and approval of service level agreements, terms and conditions, privacy policies, monitoring services, accessibility, standards mapping, standardization gaps, and retention policies.

Physical and Environmental Security

Objective: **To prevent unauthorized physical access, damage, and interference to the County's information and information processing facilities.**

Physical Security Perimeter

All enterprise data processing facilities that process or store data classified or restricted should have multiple layers of physical security. Each layer should be independent and separate of the preceding and/or following layer(s).

All other processing facilities should have, at a minimum, a single security perimeter protecting it from unauthorized access, damage and/or interference.

Physical Entry Controls

Secure areas should be protected by appropriate entry controls to restrict access only to authorized personnel.

Securing Offices, Rooms, and Facilities

Physical security for offices, rooms, and facilities should be designed and applied commensurate with the classification and value of the data being handled or processed.

Protecting against External and Environmental Threats

Physical protection against natural disasters, malicious attacks, or accidents should be considered and incorporated in facility design, construction, and placement.

Working in Secure Areas

Procedures for working in secure areas should be created and implemented.

Delivery and Loading Areas

Access points such as delivery and loading areas and other points where unauthorized persons could enter the premises should be controlled, and if possible, isolated from information processing facilities.

Equipment

Objective: **To prevent loss, damage, theft, compromise of assets, or interruption to County operations.**

Equipment Siting and Protection

Equipment should be located in secured areas or protected to reduce the risks from environmental threats or hazards, and to reduce the opportunities for unauthorized access. Equipment located in areas where Knox County is unable to maintain a secure perimeter should be locked in a secured manner with access controlled by Knox County. Secured cabinets or facilities should support further segregation within KCIT organization based on role and responsibility.

Supporting Utilities

Infrastructure and related computing equipment should be protected from power failures and other disruptions by failures in supporting utilities.

Cabling Security

Power and telecommunications cable carrying data or supporting information services should be protected from interception, interference, or damage.

Equipment Maintenance

Equipment should be correctly maintained to ensure its continued availability and integrity.

Removal of Assets

All equipment, software, or information that is a part of KCIT operational systems or processes should not be taken off-site without the prior authorization from executive management or a designated representative and should be removed according to documented KCIT equipment transfer procedures.

Security of Equipment and Assets Off-Premises

Security should be applied to off-site assets, taking into account the different risks of working outside the County's premises.

Secure Disposal or Reuse of Data Processing Equipment

All data processing equipment including storage devices subject to transfer or reuse should be sanitized with KCIT's media reuse procedure or superseding state or federal requirements. Data processing equipment assets that are not subject to transfer or reuse should be destroyed in accordance with KCIT's media disposal procedures or in accordance with superseding state or federal requirements.

Unattended User Equipment

Users should ensure that unattended data processing equipment has appropriate protection.

Session Time Outs

All systems and devices owned and operated by or on behalf of Knox County should be configured to clear and lock the screen or log the user off the system after a defined period of inactivity. Sessions will be configured to time out after a minimum of 15 minutes of activity.

Clear Desk and Clear Screen Policy

All data classified as restricted must be stored in a locked cabinet or room when unattended. All data processing equipment that provides access to Information Processing Systems will be configured so that a screensaver, with password protection engaged, or other lock-down mechanisms that prevent unauthorized viewing of screen information or unauthorized access to the system will automatically be implemented if the system has been left unattended. Maximum inactivity interval for engaging screensaver or other lockdown mechanisms is 15 minutes.

All restricted computing platforms residing in non-secured facilities with attached displays should be oriented away from direct line of sight from unauthorized viewers.

Network Connectivity Security

Objective: **To protect the County's assets that are accessible by suppliers and vendors.**

Network Controls

Networks should be managed and controlled to protect information in systems and applications.

Security of Network Services

Security mechanisms, service levels, and management requirements of all network services should be identified and included in network services agreements, whether these services are provided in-house or outsourced.

Segregation in Networks

All enterprise network architectures operated by, or on behalf of, Knox County should be designed to support, at a minimum, separate public, "demilitarized" and private security zones based on role, risk, and sensitivity. Bridging between separate security zones is strictly prohibited. All access between

separate security zones should be controlled by a security mechanism configured to deny all access by default unless explicitly authorized and approved by KCIT.

Information Transfer

Objective: **To maintain the security of information transferred within network infrastructures managed by and on behalf of Knox County and with any external entity.**

Information Transfer Policies and Procedures

Formal transfer procedures, guidelines, and controls should be in place to protect the transfer of information through the use of all types of communication facilities.

Agreements on Data Transfer Policies

Agreements should address the secure transfer of business information between the County and external parties.

Electronic Messaging

Data involved in electronic messaging should be appropriately protected.

Internal Electronic Messages Control

Email and instant messages internal to the County's domain containing restricted data should be encrypted during transmission. Restricted information should not be placed into the subject line of email or as any part of instant message.

External Electronic Messages Control

Email sent through the public Internet must be encrypted if it contains restricted information in the body or attachment of the email. Restricted information should not be placed into the subject line of the message.

Electronic Messaging Management

All electronic messages created, sent, or received in conjunction with the transaction of official business should use the County's approved gateway(s) to communicate via the Internet.

Confidentiality or Non-Disclosure Agreements

When exchanging or sharing information classified as restricted with external parties that are not already bound by a contract confidentiality clause or a non-disclosure agreement, one should be established between the owner of the data and the external party.

Note: Departments should work with Knox County legal counsel to ensure proper language is used.

Mobile Device Security Policy

Objective: **To extend the County's security posture to the mobile workforce.**

Mobile Device Policy

All Knox County owned mobile devices that connect to KCIT managed data or infrastructure should be managed by the County's enterprise mobile device management solution or the County's enterprise configuration manager, as funding allows, and should comply with appropriate mobile device usage policies as required by state or federal statute or regulation.

Alternate Work Space

Alternate Work Space (AWS) users should comply with the appropriate AWS policies as required by state or federal statute, regulation, or state, county, or department policy, procedures and/or guidelines.

External Party Security

Objective: **To protect the County's assets that are accessed, processed, communicated to, or managed by external parties, suppliers, or vendors. This includes any external party who has access to physical data processing facilities, logical access to County data processing systems via local or remote access, or access via another external party into the County's data processing facilities.**

Information Security Policy for External Party Relationships

Information and physical security requirements for mitigating the risks associated with supplier or vendor access to the County's assets should be agreed upon in writing with the external party. All external parties must agree in writing to comply with all applicable information security policies, third party connectivity agreements, executive orders, standards, controls, and regulations.

Identification of Risk

Risk involving external parties should be identified and proper controls implemented prior to the granting of access to any County information, information technology asset or information processing facilities.

Addressing Security within External Party Agreements

All relevant information security requirements should be established and agreed upon with each supplier or vendor that may access, process, store communicate any County data as well as access, process, store, communicate, or provide IT infrastructure components for the County's processing systems or infrastructure.

Reporting of Security Incidents

External Party Agreements will require external parties to report perceived security incidents that may impact the confidentiality, integrity, or availability of County data immediately.

Subcontractor Requirements

Primary external parties should require their subcontractors to abide by the County's policies and security requirements, if applicable.

Addressing Security for Access to Citizen Data

Risk involving external party access to citizen data should be identified and proper controls implemented prior to the granting of access to any County citizen data. Appropriate controls should be agreed upon, documented in external party agreements, and implemented prior to the granting of access to any citizen data.

System Acquisition, Development, and Maintenance

Objective: **To verify that information security is an integral part of information systems through its life cycle. This includes application infrastructure, vendor applications, inhouse development, and user-developed applications and information systems which provide services over public networks or the County's internal network.**

Security Requirements of Information Systems

Security requirements should be identified and documented as part of the overall business case for new information systems and for enhancement to existing information systems and should be included early and continuously throughout the lifecycle of the application, including, but not limited to the conception, design, development, testing, implementation, maintenance, and disposal phases.

Securing Application Services on Public Networks

Information involved in application services passing over public networks should be protected from fraudulent activity and unauthorized disclosure or modification.

Protecting Application Services Transactions

Information involved in application service transactions should be protected to prevent incomplete transmission, misrouting, unauthorized message alteration, unauthorized disclosure, unauthorized message duplication or reply.

Information Security in Project Management

Information security should be addressed at project initiation and throughout the lifecycle of the project.

Security in Development and Support Processes

Objective: **To confirm that information security is designed and implemented within the development lifecycle of information systems.**

Security Requirements of Information Systems

Requirements, rules, and guidelines for the development of software and systems should be established and applied to all systems development.

Security in Application Systems Development

Input validation, authentication, and authorization should be included in the design, development, and implementation of applications.

Input and Data Validation

Applications should not pass raw input to other processes including, but not limited to, other applications, web services, application servers, and databases. Non-legacy applications should use parameterized queries or stored procedures, and not dynamic SQL statements, when processing user input.

Output Data Validation

Applications should not echo input back to the user or disclose information about the underlying system through error messages.

Application Authorization

Applications that provide access to restricted information in databases or from network shares should perform user authentication.

Inter-process Message Authentication

Inter-process message authentication should be used to verify that a message originated from a trusted source and that the message has not been altered transmission.

Control of Internal Processing

Security controls should be included to prevent corruption due to processing errors or deliberate acts.

Change Control Procedures

Changes to systems or applications within the development lifecycle should be controlled by the use of formal change control procedures.

Technical Review of Applications after Operating Platform Changes

When operating platforms or applications are changed, business critical applications should be reviewed and tested to verify there is no adverse impact on organizational operations or security.

Restrictions or Changes to Software Packages

Modifications to software packages should be limited to necessary changes, and all changes should be strictly controlled.

Secure System Engineering Principles

Principles for engineering secure systems should be established, documented, maintained, and applied to any information system implementation efforts.

Secure Development Environment

Organizations should establish and appropriately protect secure development environments for system development and integration efforts that cover the entire system development lifecycle.

Outsourced Development

Outsourced system development should be monitored and supervised to ensure the County's policies and practices are followed and to confirm appropriate security controls are in place. This is applicable for KCIT and any other departments within the County that develop applications.

System Security Testing

Testing of security functionality should be carried out during development. Applications should be tested periodically throughout their respective lifecycles, at each major version release, and prior to assigning public IP addresses or being moved or promoted into the production environment.

System Acceptance Testing

Acceptance testing program and related criteria should be established for new information systems, upgrades, and new versions.

Protection of Test Data

Test data should be selected carefully, protected, and controlled.

Business Continuity Management

Objective: **To maintain the availability of critical systems and infrastructure with the continued ability to provide services in the event of a crisis or disaster.**

Planning Information Systems Continuity

KCIT should determine its requirements for the continuity of information management systems in adverse situations, e.g. during a crisis or disaster. County departments are encouraged to communicate the criticality of operation information systems to KCIT and engage in disaster recovery exercises.

Business Impact Analysis

KCIT should perform a Business Impact Analysis (BIA) to identify systems and infrastructure that are critical to County operations and services to citizens, other departments, and agencies, as well as regulatory bodies.

Critical Applications

Systems including Infrastructure components, applications, and security systems identified as critical in the BIA will be recovered in accordance with the BIA and documented system recovery strategy.

Non-Critical Applications

Infrastructure components and applications identified as non-critical in the BIA will be recovered on a best-effort basis. The components and applications listed as non-critical should have an explanation in the BIA justifying their low importance and demonstrating how the loss of their associated functionality will be acceptable during an event or how a manual workaround can be implemented.

Implementing Information Systems Continuity

KCIT should establish, document, implement, and maintain processes, procedures, and controls in disaster recovery plans to make sure the required level of business continuity for all systems during an adverse situation are considered and addressed.

Verify, Review, and Evaluation Information Systems Continuity

KCIT, vendors, and/or contractors who operate on behalf of the County should verify they established and implemented information systems continuity controls at regular intervals in order to ensure that they are valid and effective during adverse situations.

Redundancies

Objective: **To attain availability of information processing facilities.**

Availability of Information Processing Facilities

Information processing facilities should be implemented with redundancy sufficient to meet availability requirements.

Verify, Review, and Evaluate Information Systems Continuity

BIAs and a sample of critical applications should be tested within every 365 days as a part of a scheduled disaster recovery exercise, as a tabletop exercise, or prior to go live exercise.

Information Security Incident Management

Objective: **To create a consistent and effective approach to the management of information security incidents, including communication on security events and weaknesses.**

Responsibilities and Procedures

KCIT will establish a Security Incident Response Team (SIRT). The SIRT will ensure that the County can efficiently and effectively communicate information security incidents to the proper stakeholders and respondents of the County. The SIRT members will be appointed based on their position and capabilities within the organization and their responsibilities communicated clearly.

Reporting Information Security Events

Information security events should be reported through appropriate channels using the Knox County Cyber Incident Response Plan (CIRP).

Data Breach and Disclosure

Anyone that discovered a breach of the information security controls set forth in this document which results in disclosure of unencrypted "personal information" about persons to unauthorized third parties must provide disclosure in accordance with TCA 47-18-2107 or any other applicable state and/or federal statute or regulations).

Reporting Information Security Weakness

Employees, outsourced employees, and any users using the County's information systems and services are required to note and report any observed or suspected information security weaknesses in systems or services to KCIT.

Assessment of and Decision on Information Security Events

Information security events should be assessed, and a determination should be made on whether to classify the event as an incident in accordance with the CIRP.

Response to Information Security Incidents

Information security incidents will be managed in accordance with the documented procedures in the KCIT Incident Response, Alerting, and Communication Plan.

Learning from Information Security Incidents

Knowledge gained from analyzing and resolving information security incidents should be used to reduce the likelihood or impact of future incidents.

Collection of Evidence

The County should define and apply procedures for the identification, collection, acquisition, and preservation of information, which can serve as evidence.

Cryptography

Objective: **To achieve proper and effective use of cryptography to protect the confidentiality and integrity or data owned or managed by or on behalf of the County. Restricted information must be encrypted by the use of valid encryption processes for data at rest and in motion as required by state or federal statute or regulation. This includes but is not limited to sensitive information stored on mobile devices, removable drives, and laptop computers.**

Use of Cryptographic Controls

Cryptographic controls should be based on the classification and criticality of the data. In deciding what strength and type of control to be deployed, both stand-alone and enterprise level encryption solutions should be considered. Attention should be given to regulations, national restrictions (e.g. export controls) that may apply to the use of cryptographic techniques.

Transmission Confidentiality

Information systems should protect the confidentiality of transmitted information. The County will employ mechanisms to recognize changes to information during transmission unless otherwise protected by alternative physical measures.

Cryptographic Module Authentication

Information systems must use mechanisms for authentication to a cryptographic module that meet the requirements of application federal statutes, state statutes, Executive Orders, directives policies, regulations, standards, and guidance for such authentication. The list of cryptographic modules in use will be compared to the list of NIST validated cryptographic modules at least quarterly ensure compliance.

Information systems will obtain, and issue supported public key and Transport Layer Security (TLS) certificates from an approved service provider. This control focuses certificates with visibility external to the internal system operations, for example, application-specific time services. Secure Socket Layer (SSL) protocol must be disabled on all devices.

Key Management

A secured environment should be established to protect the cryptographic keys used to encrypt and decrypt information. Cryptographic key management and establishment will be performed using automated mechanisms with supporting manual procedures. Keys should be security distributed and stored. Access to keys should be restricted only to individuals who have a business need to access them. All access to cryptographic keys requires authorization and should be documented. Compromise of a cryptographic key would cause all information encrypted with that key to be considered unencrypted.

Technical and Vulnerability Management

Objective: **To prevent exploitation and technical vulnerabilities.**

Management of Technical Vulnerabilities

Information about technical vulnerabilities on information systems and supporting infrastructure should be obtained in a timely fashion, evaluated for exposure and risk to the County, and appropriate measures implemented to address the associated risk.

Restrictions on Software Installation

Users should not install software that has not been approved by KCIT and their supervisor.

Information Systems Audit Controls

In order to minimize the impact of audit activities on operational systems, audit requirements and activities involving verification of operational systems should be carefully planned and agreed upon in advance to minimize disruptions to business processes.

WHEREAS, Knox County Parks and Recreation has received multiple donations; and

WHEREAS, the attach list provides the donor, description of the donation, and the amount of the donation; and

WHEREAS, Knox County and the Knox County Parks and Recreation Department desire to accept such donations.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The Knox County Commission hereby authorizes the acceptance of donations for Knox County Parks and Recreation as shown on the list of donations attached hereto and incorporated herein by reference and in the total amount of $70,463.00.

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

Donation Information

Donor Estimate of Current Value of Donation (Fair Market Value)
250.00

Type of Donation
Land/Goods/Services

If land, goods, or services are your donation - describe the donation and provide serial or VIN number
Installing 2, 4 bird house posts in plumb creek park

No goods or services were provided in exchange, in whole or in part, for the donation
True

This donation is to be used at Knox County's discretion
True

Will there be any potential, immediate, or initial acquisition or installation costs or ongoing maintenance or replacement costs?
No

Additional Remarks

Spoke with Joseph Mack about installing 2 bird house post with 4 houses at Plumb Creek park. Can send a mock photo if needed. Plans are to install along the walking path near the play ground area once approved.

I understand that submission of this form does not guarantee acceptance of donation and once approved by Senior Director of Knox County Parks and Recreation donation will be presented to Knox County Commission for final approval.
True

4000

Type of Donation
Land/Goods/Services

If land, goods, or services are your donation - describe the donation and provide serial or VIN number
9 Disc Golf baskets (targets)

No goods or services were provided in exchange, in whole or in part, for the donation
True

This donation is to be used at Knox County's discretion
False

What specific purpose should the donation be used for?
These are nine disc golf baskets intended for use at Powell Station Disc Golf Course.

Will there be any potential, immediate, or initial acquisition or installation costs or ongoing maintenance or replacement costs?
No

Additional Remarks
The community (disc golfers, local businesses, and the Enhance Powell Fund) has graciously funded the purchase of nine disc golf targets. These targets match the ones already at the course. I would like these targets to be installed in the existing collars at Powell Station. The community came together quickly and funded this donation as a gift for the Powell Station Celebration that is coming August 8th. I helped design the course at Powell and I feel like the locations are a perfect compromise for player challenge and the County Parks department. I am happy to show you onsite the layout and how good of an improvement these will be for the course and, the disc community. I am available to walk the course throughout the week. Please call me so we can discuss further. Thank you for your consideration of this donation.

I understand that submission of this form does not guarantee acceptance of donation and once approved by Senior Director of Knox County Parks and Recreation donation will be presented to Knox County Commission for final approval.

Memorial

Type of Memorial

French Broad Veteran Memorial Donation

Type of Veteran Memorial Donation. (Please note this type of donation is subject to veteran verification through Knox County Veterans Memorial Subcommittee)

Plaque

Provide a short description of the parameters of your donation. Name the desired location of the donation and the dimensions of the donation. If the donation is a tree, name the desired species.

A plaque near the donated tulip poplar tree grove. It is an 8x11 sized plaque.

Memorial Dedication (Trees have a word limit of 25; Benches and Picnic Tables have a word limit of 36).

This Liberty Tree Grove includes 25 tulip poplar trees, one for each decade of American Independence, to celebrate our country's 250th birthday. This grove is planted in honor of the men and women who achieved American Independence and lived in Knox County.
Placed by Cavett Station Chapter, NSDAR

No goods or services were provided in exchange, in whole or in part, for the donation

True

This donation is to be used at Knox County's discretion

True

Will there be any potential, immediate, or initial acquisition or installation costs or ongoing maintenance or replacement costs?

No

Additional Remarks

Our chapter would like to plant and dedicate a Liberty Tree and a place and dedicate a DAR Liberty Tree Marker at the French Broad Veterans Memorial Park in Knoxville, TN. The tree and marker will be a part of a community project and celebration to honor the men and women who achieved American Independence with a Liberty Tree Grove. One tree and the marker will be our chapter's contribution to this effort. The Liberty Tree Grove will include 25 tulip poplar trees, each representing one decade of American liberty from 1776 to the present. Often utilized as liberty trees during the American Revolution, tulip poplars are native to the state and are also the Tennessee state tree. A DAR Liberty Tree Marker will be placed at the grove to educate the public about the historical significance of liberty trees during the American Revolution as symbols of freedom, hope, and rallying points for liberty. A public dedication ceremony for the grove and the marker will serve as a focal point for community engagement. The ceremony will include DAR tree dedication and marker dedication ceremonies as well as a focus on remembering and honoring

Knox County's Revolutionary War Patriots.

I understand that submission of this form does not guarantee acceptance of donation and once approved by Senior Director of Knox County Parks and Recreation donation will be presented to Knox County Commission for final approval.	True

WHEREAS, Knox County is the owner of approximately 3.1 acres of real property located at 11020 Solway School Rd, Knoxville, TN 37931, and more commonly known as the Fairview Technology Center consisting of Parcel ID: 089 062 (the "Property"); and

WHEREAS, Knox County currently leases the Property to The Industrial Development Board of the County of Knox (the "IDB") pursuant to that certain lease agreement dated as of September 24, 2024, under which the IDB manages the Property, including leasing to tenants and providing for its overall care and maintenance; and

WHEREAS, the IDB is a nonprofit public corporation organized by Knox County as an industrial development board pursuant to Tenn. Code Ann. §7-53-101 et seq. (the "Act") and as such is a public instrumentality of Knox County performing a public function; and

WHEREAS, pursuant to the Act, the IDB is authorized to acquire, own, lease, and dispose of properties for the purpose of promoting industry, trade, and economic development within the county; and

WHEREAS, pursuant to Tennessee Code Annotated § 5-7-101, Knox County is authorized to acquire and dispose of real property and to exercise powers necessary to promote the general welfare of its citizens; and

WHEREAS, the IDB has experience and expertise in the management, development, and promotion of industrial and economic development properties within Knox County and is therefore the most appropriate entity to own and manage the Property; and

WHEREAS, the transfer of the Property to the IDB will promote efficient management, support economic development, and serve the public purpose within Knox County; and

WHEREAS, the Commission of Knox County, Tennessee ("Commission") desires to authorize Knox County to transfer the Property in fee simple to The Industrial Development Board of the County of Knox for and in consideration of the sum of $10.00 and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged.

NOW, THEREFORE, BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The Commission hereby authorizes and approves the transfer of the Property in fee simple from Knox County to the IDB for and in consideration of the sum of $10.00 and other good and valuable consideration;

BE IT FURTHER RESOLVED, that the Mayor of Knox County is authorized to execute the appropriate deed(s) transferring the Property from Knox County to the IDB and, further, is authorized to execute any other documents that may be necessary to effectuate and complete said transfer of the Property, subject to the review and approval of the Knox County Law Director's Office.

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

FAIRVIEW TECHNOLOGY CENTER

This LEASE AGREEMENT, made and entered into as of the 24 day of September, 2024 by and between KNOX COUNTY, a political subdivision of the State of Tennessee, ("Knox County"), and THE INDUSTRIAL DEVELOPMENT BOARD OF THE COUNTY OF KNOX, a Tennessee nonprofit corporation ("IDB").

RECITALS:

A. Knox County is the owner of certain real property located in Knox County, Tennessee, more commonly known as the Fairview Technology Center (the "Premises" or "Fairview"), and more particularly described on Attachments A, B, & C attached hereto; and

B. The parties have agreed for IDB to lease the Premises from Knox County under the terms and conditions contained herein to better operate and manage Fairview.

AGREEMENTS:

NOW, THEREFORE, for and in consideration of the premises and mutual covenants and agreements contained herein, the parties agree as follows:

1. Term. Knox County does hereby lease to IDB, and IDB does hereby lease from Knox County, the Premises for a term of ten (10) years commencing on November 27, 2023, and terminating on November 26, 2033, unless sooner terminated or extended as provided herein.

2. Rent. IDB covenants and agrees to pay to Knox County an annual rental payment of One Dollar ($1.00), due on or before the first day of each year.

3. Taxes, Assessments and Other Charges. IDB shall pay all taxes assessed and levied against the Premises, or any improvements, by the state, city and county or other municipal taxing authorities.

4. Use of the Premises. IDB shall use the Premises to lease office space in Fairview, and for any purpose associated therewith. In its use of the Premises, IDB shall comply with all applicable federal, state and local statutes, regulations, and/or other laws.

5. Insurance. IDB shall maintain general liability insurance protecting Knox County and IDB against liability for injury to third parties and property damage, regardless of how such liabilities arise, in the amount of $1,000,000.00 per incident, and $3,000,000.00 in the aggregate. Such policies shall provide Knox County with a certificate of insurance demonstrating compliance with this paragraph. IDB shall name Knox County as additional named insured on said policies. Knox County will maintain insurance on the building, the personal property of Knox County, and contractor's equipment located and/or maintained on the Premises. IDB will reimburse Knox County for any and all premiums for said insurance.

6. Sublcases. In its operation of Fairview, IDB shall have the right and authority to sublease office space to prospective tenants without the prior written consent of Knox County. Said subleases shall require the sublessees to maintain general liability insurance and insurance for the sublessees' own contents. IDB shall not sublease the premises in its entirety to any third party or parties, and shall not assign or transfer this Lease Agreement to any third party or parties without the prior written consent of Knox County.

7. Events of Default. The occurrence of any one or more of the following events shall constitute a material default and breach of this Lease Agreement by IDB:

(a) Abandonment of the Premises for a period of sixty (60) days or more;

(b) Failure by IDB to make any payment required under this Lease Agreement as and when due, where such failure shall continue for a period of thirty (30) days after written notice from Knox County; or

(c) Failure by IDB to observe or perform any of the covenants, conditions, or provisions of this Lease Agreement, other than the making of any payment, where the failure shall continue for a period of ninety (90) days after notice of the failure from Knox County or such additional period of time as is reasonably necessary to cure the failure, provided IDB diligently prosecutes the cure.

8. Termination. This Lease Agreement may be terminated by either party upon written notice where the other party commits a material breach hereof. This Lease Agreement may be terminated upon:

(a) Any event of default; or

(b) Failure of Knox County to fund IDB through the Knoxville Chamber for any one budget year.

9. Waiver. Failure of either party to insist upon the strict performance by the other party of any term, condition, or covenant on the other party's part to be performed pursuant to the terms of this Lease Agreement or to exercise any of its options, rights, powers, or remedies contained herein shall not be deemed nor construed as a waiver of such performance or relinquishment of such right now or subsequent hereto.

10. Notices, Demands and Other Instruments. All notices, demands, requests, consents, and other instruments required or permitted to be given pursuant to the terms of this Lease Agreement shall be in writing and shall be deemed to have been properly given (i) upon personal delivery, or (ii) upon deposit in the United States Mail, if sent by registered or certified United States Mail, return receipt requested, or (iii) forwarded by a nationally recognized overnight courier service, addressed to the other party as follows:

Knox County:	Knox County Mayor 400 Main Street Suite 615, City-Co. Building Knoxville, TN 37902
The Industrial Development Board of the County of Knox:	The Industrial Development Board of the County of Knox 17 Market Square Suite 201 Knoxville, TN 37902-1447

or at such other address in the United States as either party may designate in writing delivered to the other party.

11. Governing Law; Venue. This Lease Agreement shall be exclusively construed, governed, and controlled by the laws of the State of Tennessee without reference to its choice of law rules and without regard to principles of law, including conflicts of law, of any other jurisdiction, territory, country, and/or province. Any dispute arising out of or relating to this Lease Agreement shall exclusively be brought in the Chancery Court or the Circuit Court of Knox County, Tennessee. Each party consents to personal jurisdiction thereto and waives any defenses based on personal jurisdiction, venue, and inconvenient forum.

12. Amendment or Modification. No amendment or modification of this Lease Agreement shall be valid or binding unless expressed in writing and executed by the parties in writing hereto in the same manner as the execution of this Lease Agreement.

13. Independent Contractor. IDB acknowledges that it and its employees serve as independent contractors and that Knox County shall not be in any manner responsible for any payment, insurance, or incurred liability.

14. Indemnification/Hold Harmless. IDB shall indemnify, defend, save, and hold harmless Knox County, its officers, agents, and employees from all suits, claims, actions, or damages of any nature brought because of, arising out of, or due to breach of the Lease Agreement by IDB, its subcontractors, suppliers, agents, or employees or due to any negligent act or occurrence or any omission or commission of IDB, its subcontractors, suppliers, agents, or employees.

IN WITNESS WHEREOF, Knox County and IDB hereby execute this Lease Agreement as of the day and year first above written.

WHEREAS, Knox County is the owner of approximately 3.1 acres of real property located at 11020 Solway School Rd, Knoxville, TN 37931, and more commonly known as the Fairview Technology Center consisting of Parcel ID: 089 062 (the "Property"); and

WHEREAS, Knox County currently leases the Property to The Industrial Development Board of the County of Knox (the "IDB") pursuant to that certain lease agreement dated as of September 24, 2024, under which the IDB manages the Property, including leasing to tenants and providing for its overall care and maintenance; and

WHEREAS, the IDB is a nonprofit public corporation organized by Knox County as an industrial development board pursuant to Tenn. Code Ann. §7-53-101 et seq. (the "Act") and as such is a public instrumentality of Knox County performing a public function; and

WHEREAS, pursuant to the Act, the IDB is authorized to acquire, own, lease, and dispose of properties for the purpose of promoting industry, trade, and economic development within the county; and

WHEREAS, pursuant to Tennessee Code Annotated § 5-7-101, Knox County is authorized to acquire and dispose of real property and to exercise powers necessary to promote the general welfare of its citizens; and

WHEREAS, the IDB has experience and expertise in the management, development, and promotion of industrial and economic development properties within Knox County and is therefore the most appropriate entity to own and manage the Property; and

WHEREAS, the transfer of the Property to the IDB will promote efficient management, support economic development, and serve the public purpose within Knox County; and

WHEREAS, the Commission of Knox County, Tennessee ("Commission") desires to authorize Knox County to transfer the Property in fee simple to The Industrial Development Board of the County of Knox for and in consideration of the sum of $10.00 and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged;

NOW, THEREFORE, BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The Commission hereby authorizes and approves the transfer of the Property in fee simple from Knox County to the IDB for and in consideration of the sum of $10.00 and other good and valuable consideration;

BE IT FURTHER RESOLVED, that the Mayor of Knox County is authorized to execute the appropriate deed(s) transferring the Property from Knox County to the IDB and, further, is authorized to execute any other documents that may be necessary to effectuate and complete said transfer of the Property, subject to the review and approval of the Knox County Law Director's Office.

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

WHEREAS, various budget requests were not funded during the fiscal year 2026-2027 budget process with the intention that the requests would be designated through savings in the fiscal year 2025-2026 budget; and

WHEREAS, it has been requested that the monies for these projects be designated/committed and appropriated in the fiscal year 2026-2027 budget; and

WHEREAS, the Knox County Finance Director recommends amending the funds listed on the attached Exhibit A and re-appropriating the amounts for the projects specified therein.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

That the amounts for the projects listed within the various funds as shown on the attached Exhibit A and in the total amount of $4,396,415.48 are hereby designated/ committed and appropriated from the Fiscal Year 2025-2026 budget to the Fiscal Year 2026-2027 budget and may be expended up to an amount not to exceed the amount specified therein with the appropriation to be made subsequent to the satisfaction of all Knox County Charter and Code requirements.

BE IT FURTHER RESOLVED, that consistent with long-standing practice, interest earnings from the County's temporary investments be committed to the County's debt service fund to help offset the County's cost of borrowing except for these accounts that are specifically set up for one purpose or fund.

BE IT FURTHER RESOLVED, if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare, requiring it.

WHEREAS, Knox County has received a Select Service Agreement from Trane U.S. Inc. to provide preventative maintenance and repair services for Sheriff's facilities; and

WHEREAS, the proposed Select Service Agreement sets forth the terms and conditions under which the services will be provided by Trane; and

WHEREAS, the Select Service Agreement is effective for an initial term of five (5) years and, following expiration of the initial term, the Agreement shall renew automatically for successive periods of 5 years until terminated as provided in the Agreement; and

WHEREAS, the Knox County Commission deems it in the best interest of Knox County to approve the Select Service Agreement for the preventative maintenance and repair of HVAC equipment at Sheriff's facilities.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The Select Service Agreement with Trane U.S. Inc. to provide preventative maintenance and repair services for Sheriff's facilities is hereby adopted and approved in substantive form as presented this date, a copy of which is attached to this Resolution and incorporated herein by reference.

BE IT FURTHER RESOLVED, the Select Service Agreement with Trane U.S. Inc. to provide preventative maintenance and repair services for Sheriff's facilities shall be executed subject to such amendment or action not affecting the substantive provisions of the document as may be required and approved by the Knox County Law Director.

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

ATTENTION: Hugh Holt and Mandi Benedict

Trane is pleased to provide this OMNIA compliant proposal to continue the preventive maintenance & repair services for the Sheriff's Facilities that we have been maintaining since 2010 through the County's Energy Program. Services will be performed using Trane's exclusive service procedures provided by factory trained and experienced technicians. You receive the full benefit of our expertise derived from being Trane equipment's original manufacturer. Our procedures are environmentally and safety conscious while providing for the efficient delivery of these services.

This **Select Service Agreement** features parts and labor coverage for HVAC equipment repairs included in the annual planned maintenance contract. It is the easiest and most reassuring way to ensure your HVAC equipment is continuously operating at peak performance levels.

Under this service agreement, Trane will schedule and manage preventative maintenance and provide repair coverage to help you minimize unplanned downtime and avoid unexpected expenses.

As an HVAC service provider, Trane offers many advantages:

- Confidence that your HVAC equipment is being serviced according to OEM best practices
- Priority service available 24-hours a day
- Advanced diagnostic technologies allow our technicians to analyze system performance comprehensively

Protect your bottom line. Proper maintenance can save an estimated 12 to 18 percent of your budget compared to a run-to-fail approach. This service agreement will help you capture those savings. (FEMP O&M Guide 2010)

REFRIGERANT MANAGEMENT COMPLIANCE

The following Refrigerant Management features will be included:

Standard Agreement
Trane will provide the EPA Standard data to Customer via our Field Report and Refrigerant Activity Report. This option does not include reports supplied in the future. Customer (Owner/Operator) has been made aware that the regulatory responsibility to keep the records remains with them and not the Service Provider (Trane).

PRICING AND ACCEPTANCE

CLARIFICATIONS

- Any service not listed is not included
- Work will be performed during normal Trane business hours
- This proposal is valid for 60 days from June 02, 2026

Trane Service Agreement

This Service Agreement consists of the pages beginning with the title page entitled "Scheduled Service Agreement," the consecutively numbered pages immediately following such title page, and includes and ends with the Trane Terms and Conditions (Service) (collectively, the "Service Agreement" or "Agreement"). Trane agrees to inspect and maintain the Covered Equipment according to the terms of this Service Agreement, including the "Terms and Conditions," and "Scope of Services" sections. Trane agrees to give preferential service to Service Agreement Customer over non-contract customers.

Service Fee

As the fee(s) (the "Service Fee(s)") for the inspection and maintenance services described in the Scope of Services section with respect to the Covered Equipment, Customer agrees to pay to Trane the following amounts, plus applicable tax, as and when due.

Contract Year	Annual Amount - All Sites USD	Payment USD	Payment Term
Year 1	334,158.00	334,158.00	Annual
Year 2	347,524.00	347,524.00	Annual
Year 3	360,890.00	360,890.00	Annual
Year 4	374,257.00	374,257.00	Annual
Year 5	387,623.00	387,623.00	Annual

This agreement will be invoiced annually and if paid within fifteen (15) calendar days, a 3% discount can be taken by short-paying the invoice – please refer to notes in the actual invoice. In addition to any other amounts then due hereunder, if this Agreement is terminated or cancelled prior to its scheduled expiration, Customer shall pay to Company the balance of any amounts billed to but unpaid by Customer and, if a "Service Project" is included in the Agreement, the Cancellation Fee set forth in "Exhibit A" Cancellation Schedule attached hereto and incorporated herein, which Cancellation Fee represents unbilled labor, non-labor expenses and parts materials and components. Subject only to a prior written agreement signed by Trane, payment is due upon receipt of invoice in accordance with Section 4 of the attached Terms and Conditions.

Confidential and Proprietary Information of Trane U.S. Inc.

Term

The Initial Term of this Service Agreement is 5 years, beginning July 1, 2026. However, Trane's obligation under this Agreement will not begin until authorized representatives of Trane and Customer have both signed this Agreement in the spaces provided below.

Following expiration of the initial term on June 30, 2031, this Agreement shall renew automatically for successive periods of 5 years (the "Renewal Term") until terminated as provided herein. If you do not want to renew this Agreement for the Renewal Term, please notify Trane by telephone or by U.S. mail prior to the expiration date set forth in the preceding sentence. If any questions arise regarding this Service Agreement or how to cancel this Agreement, Trane can be reached either by telephone at or by direct mail addressed to: 5220 Middlebrook Pike S., Knoxville, TN 37921.

Renewal Pricing Adjustment

The Service Fees for an impending Renewal Term shall be the current Service Fees (defined as the Service Fees for the initial Term or Renewal Term immediately preceding the impending Renewal Term) annually adjusted based on changes to the cost of service. The Service Fees for an impending Renewal Term shall be set forth in the service renewal letter furnished to Customer.

Cancellation by Customer Prior to Services; Refund

If Customer cancels this Agreement within (a) thirty (30) days of the date this Agreement was mailed to Customer or (b) twenty (20) days of the date this Agreement was delivered to Customer, if it was delivered at the time of sale, and if no Services have been provided by Company under this Agreement, the Agreement will be void and Company will refund to Customer, or credit Customer's account, the full Service Fee of this Agreement that Customer paid to Company, if any. A ten percent (10%) penalty per month will be added to a refund that is due but is not paid or credited within forty-five (45) days after return of this Agreement to Company. Customer's right to cancel this Agreement only applies to the original owner of this Agreement and only if no Services have been provided by Company under this Agreement prior to its return to Company.

Cancellation by Company

This Agreement may be cancelled during the Initial Term or, if applicable, a Renewal Term for any reason or no reason, upon written notice from Company to Customer no later than 30 days prior to the scheduled expiration date and Company will refund to Customer, or credit Customer's account, that part of the Service Fee attributable to Services not performed by Company. Customer shall remain liable for and shall pay to Company all amounts due for Services provided by Company and not yet paid.

Confidential and Proprietary Information of Trane U.S. Inc.

TERMS AND CONDITIONS - SERVICE

"Company" shall mean Trane U.S. Inc. dba Trane for Company performance in the United States and Trane Canada ULC for Company performance in Canada.

1. Agreement. These terms and conditions ("Terms") are an integral part of Company's offer and form the basis of any agreement (the "Agreement") resulting from Company's proposal (the "Proposal") for the following commercial services as stated in the Proposal (collectively, the "Services"): inspection, maintenance and repair (the "Maintenance Services") on equipment (the "Covered Equipment"), specified Additional Work (if any), and, if included in the Proposal, Intelligent Services, Energy Assessment, and any other services using remote connectivity (collectively and individually referred to in these Terms as "Intelligent Services"). **COMPANY'S TERMS ARE SUBJECT TO PERIODIC CHANGE OR AMENDMENT.**

2. Connected Services and Company Provided Telematics Connectivity. In addition to these terms and conditions, the Connected Services Terms of Service ("Connected Services Terms"), available at https://www.trane.com/TraneConnectedServicesTerms, as updated from time to time, are incorporated herein by reference and shall apply to the extent that Company provides Customer with Connected Services, as defined in the Connected Services Terms or Telematics Devices, both as defined in the Connected Services Terms. Certain Equipment may include, or be installed together with, Company provided Telematics Devices that provide remote connectivity and the Connected Services Terms set forth the terms and conditions applicable to the Telematics Devices and connectivity, including opt-out provisions. If Customer provides or transfers the Equipment to another party, Customer shall ensure that such party is informed in writing of the presence of any Telematics Devices and the applicability of the Connected Services Terms.

3. Acceptance. The Proposal is subject to acceptance in writing by the party to whom this offer is made or an authorized agent ("Customer") delivered to Company within 30 days from the date of the Proposal. If Customer accepts the Proposal by placing an order, without the addition of any other terms and conditions of sale or any other modification, Customer's order shall be deemed acceptance of the Proposal subject to these Terms and Conditions. If Customer's order is expressly conditioned upon Company's acceptance or assent to terms and/or conditions other than those expressed herein, return of such order by Company with Company's Terms and Conditions attached or referenced serves as Company's notice of objection to Customer's terms and as Company's counteroffer to perform in accordance with the Proposal and Company Terms and Conditions. If Customer does not reject or object in writing to Company within 10 days, Company's counteroffer will be deemed accepted. Customer's acceptance of performance by Company will in any event constitute an acceptance by Customer of Company's Terms and Conditions. This Agreement is subject to credit approval by Company. Upon disapproval of credit, Company may delay or suspend performance or, at its option, renegotiate prices and/or Terms and Conditions with Customer. If Company and Customer are unable to agree on such revisions, this Agreement shall be cancelled without any liability, other than Customer's obligation to pay for Services provided by Company to the date of cancellation.

4. Fees and Taxes. Fees for the Services (the "Service Fees") are as set forth in the Proposal. Except as otherwise stated in the Proposal, Service Fees are based on performance during regular business hours. Charges for performance outside Company's normal business hours shall be billed separately according to the then prevailing overtime or emergency labor/labour rates. In addition to the stated Service Fees, Customer shall pay all taxes not legally required to be paid by Company or, alternatively, shall provide Company with an acceptable tax exemption certificate.

5. Payment. Payment is due upon receipt of Company's invoice. Service Fees shall be paid no less frequently than quarterly and in advance of performance of the Services. Company reserves the right to add to any account outstanding for more than 30 days a service charge equal to the lesser of the maximum allowable legal interest rate or 1.5% of the principal amount due at the end of each month. Without liability to Customer, Company may discontinue performance whenever payment is overdue. Customer shall pay all costs (including attorneys' fees) incurred by Company in attempting to collect amounts due or otherwise enforcing this Agreement.

6. Customer Breach. Each of the following constitutes a breach by Customer and shall give Company the right, without an election of remedies, to suspend performance or terminate this Agreement by delivery of written notice declaring termination. Upon termination, Customer shall be liable to the Company for all Services furnished to date and all damages sustained by Company (including lost profit and overhead): (a) Any failure by Customer to pay amounts when due; (b) any general assignment by Customer for the benefit of its creditors, Customer's bankruptcy, insolvency, or receivership; (c) Any representation or warranty furnished by Customer in connection with this Agreement is false or misleading in any material respect when made; or (d) Any failure by Customer to per¬form or comply with any material provision of this Agreement.

7. Performance. Company shall perform the Services in accordance with industry standards generally applicable in the state or province where the Services are performed under similar circumstances when Company performs the Services. Company may refuse to perform where working conditions could endanger property or put people at risk. Unless otherwise agreed by Customer and Company, at Customer's expense and before the Services begin, Customer will provide any necessary access platforms, catwalks to safely perform the Services in compliance with OSHA, state, or provincial industrial safety regulations or any other applicable industrial safety standards or guidelines. This Agreement presupposes that all major pieces of Covered Equipment are in proper operating condition as of the date hereof. Services furnished are premised on the Covered Equipment being in a maintainable condition. In no event shall Company have any obligation to replace Covered Equipment that is no longer maintainable. During the first 30 days of this Agreement, or upon initial inspection, and/or upon seasonal start-up (if included in the Services), if an inspection by Company of Covered Equipment indicates repairs or replacement is required, Company will provide a written quotation for such repairs or replacement. If Customer does not authorize such repairs or replacement, Company may remove the unacceptable equipment from the Covered Equipment and adjust the Service Fees accordingly. Customer authorizes Company to utilize Customer's telephone line or network infrastructure to connect to controls, systems and/or equipment provided or serviced by Company and to provide Services contracted for or otherwise requested by Customer, including remote diagnostic and repair service. Customer acknowledges that Company is not responsible for any adverse impact to Customer's communications and network infrastructure. Company may elect to install/attach to Customer equipment or provide portable devices (hardware and/or software) for execution of control or diagnostic procedures. Such devices shall remain the personal proprietary property of Company and in no event shall become a fixture of Customer locations. Customer shall not acquire any interest, title or equity in any hardware, software, processes, and other intellectual or proprietary rights to devices used in connection with the Services on Customer equipment. Company may remove such devices at its discretion. Parts used for any repairs made will be those selected by Company as suitable for the repair and may be parts not manufactured by Company.

8. Customer Obligations. Customer shall: (a) Provide Company reasonable and safe access to the Covered Equipment and areas where Company is to work; (b) Follow manufacturer recommendations concerning teardown and internal inspection, major overhaul, restoration or refurbishing of the Covered Equipment; unless expressly stated in the Scope of Services statement, Company is not performing any manufacturer recommended teardown and internal inspection, major overhaul, restoration or refurbishing of the Covered Equipment; and (c) Where applicable, unless water treatment is expressly included in the Services, provide professional cooling tower water treatment in accordance with any reasonable recommendations provided by Company.

9. Exclusions. Unless expressly included in the Covered Equipment or the Services, the Services do not include, and Company shall not be responsible for or liable to the Customer for any claims, losses, damages or expenses suffered by the Customer in any way connected with, relating to or arising from, any of the following: (a) Any guarantee of room conditions or system performance; (b) Inspection, maintenance, repair, replacement of or services for: chilled water and condenser water pumps and piping; electrical disconnect switches or circuit breakers; motor starting equipment that is not factory mounted and interconnecting power wiring; recording or portable instruments, gauges or thermometers; non-moving parts or non-maintainable parts of the system, including, but not limited to, storage tanks; pressure vessels, shells, coils, tubes, housings, castings, casings, drain pans, panels, duct work; piping: hydraulic, hydronic, pneumatic, gas, or refrigerant; insulation; pipe covering; refractory material; fuses, unit cabinets; electrical wiring; ductwork or conduit; electrical distribution system; hydronic structural supports and similar items; the appearance of decorative casing or cabinets; damage sustained by other equipment or systems; and/or any failure, misadjustment or design deficiencies in other equipment or systems; (c) Damage, repairs or replacement of parts made necessary as a result of electrical power failure, low voltage, burned out main or branch fuses, low water pressure, vandalism, misuse or abuse, wear and tear, end of life failure, water damage, improper operation, unauthorized alteration of equipment, accident, acts or omissions of Customer or others, damage due to freezing weather, calamity, malicious act, or any Event of Force Majeure; (d) Any damage or malfunction resulting from vibration, electrolytic action, freezing, contamination, corrosion, erosion, or caused by scale or sludge on internal tubes except where water treatment protection services are provided by Company as part of this Agreement; (e) Furnishing any items of equipment, material, or labor/labour, or performing special tests recommended or required by insurance companies or federal, state, or local governments; (f) Failure or inadequacy of any structure or foundation supporting or surrounding the equipment to be worked on or any portion thereof; (g) Building access or alterations that might be necessary to repair or replace Customer's existing equipment; (h) The normal function of starting and stopping equipment or the opening and closing of valves, dampers or regulators normally installed to protect equipment against damage; (i) Valves that are not factory mounted: balance, stop, control, and other valves external to the device unless specifically included in the Agreement; (j) Any responsibility for design or redesign of the system or the Covered Equipment, obsolescence, safety tests, or removal or reinstallation of valve bodies and dampers; (k) Any services, claims, or damages arising out of Customer's failure to comply with its obligations under this Agreement; (l) Failure of Customer to follow manufacturer recommendations concerning teardown and internal inspection, overhaul and refurbishing of equipment; (m) Any claims, damages, losses, or expenses, arising from or related to conditions that existed in, on, or upon the premises before the effective date of this Agreement ("Pre-Existing

© 2026 Trane Technologies. All Rights Reserved.
Confidential and Proprietary Information of Trane U.S. Inc.

Conditions"), including, without limitation, damages, losses, or expenses involving pre-existing building envelope issues, mechanical issues, plumbing issues, and/or indoor air quality issues involving mold/mould and/or fungi; (n) Replacement of refrigerant is excluded, unless replacement of refrigerant is expressly stated as included within the Services, in which case replacement shall in no event exceed the stated percentage of rated system charge per year expressly stated in the Services; (o) crane or rigging costs; (p) Any Services, claims, or damages arising out of refrigerant not supplied by Company. Customer shall be responsible for: (i) The cost of any additional replacement refrigerant; (ii) Operation of any equipment; and (iii) Any claims, damages, losses, or expenses, arising from or related to work done by or services provided by individuals or entities that are not employed by or hired by Company.

10. Limited Warranty. Company warrants that: (a) the material manufactured by Company and provided to Customer in performance of the Services is free from defects in material and manufacture for a period of 12 months from the earlier of the date of equipment start-up or replacement; and (b) the labor/labour portion of the Maintenance Services and Additional Work has been properly performed for a period of 90 days from date of completion (the "Limited Warranty"). Company obligations of equipment start-up, if any are stated in the Proposal, are coterminous with the Limited Warranty period. Defects must be reported to Company within the Limited Warranty period. Company's obligation under the Limited Warranty is limited to repairing or replacing the defective part at its option and to correcting any labor/labour improperly performed by Company. No liability whatsoever shall attach to Company until the Maintenance Services and Additional Work have been paid for in full. Exclusions from this Warranty include claims, losses, damages and expenses in any way connected with, related to or arising from failure or malfunction of equipment due to the following: wear and tear; end of life failure; corrosion; erosion; deterioration; Customer's failure to follow the Company-provided maintenance plan; unauthorized or improper maintenance; unauthorized or improper parts or material; refrigerant not supplied by Company; and modifications made by others to equipment. Company shall not be obligated to pay for the cost of lost refrigerant or lost product. Some components of equipment manufactured by Company may be warranted directly from the component supplier, in which case this Limited Warranty shall not apply to those components and any warranty of such components shall be the warranty given by such component supplier. Notwithstanding the foregoing, all warranties provided herein terminate upon termination or cancellation of this Agreement. Equipment, material, and/or parts that are not manufactured by Company ("Third-Party Products(s)") are not warranted by Company and have such warranties as may be extended by the respective manufacturer. **CUSTOMER UNDERSTANDS THAT COMPANY IS NOT THE MANUFACTURER OF ANY THIRD-PARTY PRODUCT(S) AND ANY WARRANTIES, CLAIMS, STATEMENTS, REPRESENTATIONS, OR SPECIFICATIONS ARE THOSE OF THE THIRD-PARTY MANUFACTURER, NOT COMPANY AND CUSTOMER IS NOT RELYING ON ANY WARRANTIES, CLAIMS, STATEMENTS, REPRESENTATIONS, OR SPECIFICATIONS REGARDING THE THIRD-PARTY PRODUUCT THAT MAY BE PROVIDED BY COMPANY OR ITS AFFILIATES, WHETHER ORAL OR WRITTEN. THE REMEDIES SET FORTH IN THIS LIMITED WARRANTY ARE THE SOLE AND EXCLUSIVE REMEDIES FOR WARRANTY CLAIMS PROVIDED BY COMPANY TO CUSTOMER UNDER THIS AGREEMENT AND ARE IN LIEU OF ALL OTHER WARRANTIES AND LIABILITIES, CONDITIONS AND REMEDIES, WHETHER IN CONTRACT, WARRANTY, STATUTE OR TORT (INCLUDING NEGLIGENCE), EXPRESS OR IMPLIED, IN LAW OR IN FACT, INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE AND/OR OTHERS ARISING FROM COURSE OF DEALING OR TRADE. COMPANY EXPRESSLY DISCLAIMS ANY REPRESENTATIONS OR WARRANTIES, ENDORSEMENTS OR CONDITIONS OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTIES OF QUALITY, FITNESS, MERCHANTABILITY, DURABILITY AND/OR OTHERS ARISING FROM COURSE OF DEALING OR TRADE OR REGARDING PREVENTION BY THE SCOPE OF SERVICES, OR ANY COMPONENT THEREOF. NO REPRESENTATION OR WARRANTY OF ANY KIND, INCLUDING WARRANTY OF MERCHANTABILITY OR FITNESS FOR PARTICULAR PURPOSE, REGARDING PREVENTING, ELIMINATING, REDUCING OR INHIBITING ANY MOLD, FUNGUS, BACTERIA, VIRUS, MICROBIAL GROWTH, OR ANY OTHER CONTAMINANTS (INCLUDING COVID-19 OR ANY SIMILAR VIRUS) (COLLECTIVELY, "CONTAMINANTS"), WHETHER INVOLVING OR IN CONNECTION WITH EQUIPMENT, ANY COMPONENT THEREOF, SERVICES OR OTHERWISE. IN NO EVENT SHALL COMPANY HAVE ANY LIABILITY FOR THE PREVENTION, ELIMINATION, REDUCTION OR INHIBITION OF THE GROWTH OR SPREAD OF SUCH CONTAMINANTS INVOLVING OR IN CONNECTION WITH ANY EQUIPMENT, THIRD-PARTY PRODUCT, OR ANY COMPONENT THEREOF, SERVICES OR OTHERWISE AND CUSTOMER HEREBY SPECIFICALLY ACKNOWLEDGES AND AGREES THERETO.**

11. Indemnity. To the maximum extent permitted by law, Company and Customer shall indemnify and hold harmless each other from any and all claims, actions, costs, expenses, damages and liabilities, including reasonable attorneys' fees, resulting from death or bodily injury or damage to real or personal property, to the extent caused by the negligence or misconduct of the indemnifying party, and/or its respective employees or other authorized agents in connection with their activities within the scope of this Agreement. Neither party shall indemnify the other against claims, damages, expenses, or liabilities to the extent attributable to the acts or omissions of the other party or third parties. If the parties are both at fault, the obligation to indemnify shall be proportional to their relative fault. The duty to indemnify and hold harmless will continue in full force and effect, notwithstanding the expiration or early termination of this Agreement, with respect to any claims based on facts or conditions that occurred prior to expiration or termination of this Agreement.

12. Limitation of Liability. NOTWITHSTANDING ANYTHING TO THE CONTRARY, NEITHER PARTY SHALL BE LIABLE FOR SPECIAL, INCIDENTAL, LIQUIDATED, INDIRECT, OR CONSEQUENTIAL LOSSES OR DAMAGES OF ANY KIND (INCLUDING WITHOUT LIMITATION REFRIGERANT LOSS, PRODUCT LOSS, LOST REVENUE OR PROFITS, OR LIABILITY TO THIRD PARTIES), OR CONTAMINANTS LIABILITIES, OR PUNITIVE DAMAGES WHETHER BASED IN CONTRACT, WARRANTY, STATUTE, TORT (INCLUDING NEGLIGENCE), STRICT LIABILITY, INDEMNITY OR ANY OTHER LEGAL THEORY OR FACTS. NOTWITHSTANDING ANY OTHER PROVISION OF THIS AGREEMENT, THE TOTAL AND AGGREGATE LIABILITY OF THE COMPANY TO THE CUSTOMER WITH RESPECT TO ANY AND ALL CLAIMS CONNECTED WITH, RELATED TO OR ARISING FROM THE PERFORMANCE OR NON-PERFORMANCE OF THIS AGREEMENT, WHETHER BASED IN CONTRACT, WARRANTY, STATUTE, TORT (INCLUDING NEGLIGENCE), STRICT LIABILITY, INDEMNITY OR ANY OTHER LEGAL THEORY OR FACTS, SHALL NOT EXCEED THE COMPENSATION RECEIVED BY COMPANY OVER THE 12 MONTH PERIOD PRECEDING THE DATE OF OCCURRENCE FOR THE SERVICES AND ADDITIONAL WORK FOR THE LOCATION WHERE THE LOSS OCCURRED. IN NO EVENT SHALL COMPANY BE LIABLE FOR ANY DAMAGES (WHETHER DIRECT OR INDIRECT) RESULTING FROM MOLD/MOULD, FUNGUS, BACTERIA, MICROBIAL GROWTH, OR OTHER CONTAMINANTS OR AIRBORNE BIOLOGICAL AGENTS. TO THE MAXIMUM EXTENT ALLOWED BY LAW, COMPANY SHALL NOT BE LIABLE FOR ANY OF THE FOLLOWING IN CONNECTION WITH PROVIDING THE INTELLIGENT SERVICES: INTERRUPTION, DELETION, DEFECT, DELAY IN OPERATION OR TRANSMISSION; CUSTOMER'S NETWORK SECURITY; COMPUTER VIRUS; COMMUNICATION FAILURE; THEFT OR DESTRUCTION OF DATA; GAPS IN DATA COLLECTED; AND UNAUTHORIZED ACCESS TO CUSTOMER'S DATA OR COMMUNICATIONS NETWORK.

13. CONTAMINANTS LIABILITY.

The transmission of COVID-19 may occur in a variety of ways and circumstances, many of the aspects of which are currently not known. HVAC systems, products, services, and other offerings have not been tested for their effectiveness in reducing the spread of COVID-19, including through the air in closed environments. **IN NO EVENT WILL COMPANY BE LIABLE UNDER THIS AGREEMENT OR OTHERWISE FOR ANY INDEMNIFICATION, ACTION OR CLAIM, WHETHER BASED ON WARRANTY, CONTRACT, TORT OR OTHERWISE, FOR ANY BODILY INJURY (INCLUDING DEATH) DAMAGE TO PROPERTY, OR ANY OTHER LIABILITIES, DAMAGES OR COSTS RELATED TO CONTAMINANTS (INCLUDING THE SPREAD, TRANSMISSION OR CONTAMINATION THEREOF) (COLLECTIVELY, "CONTAMINANTS LIABILITIES") AND CUSTOMER HEREBY EXPRESSLY RELEASES COMPANY FROM ANY SUCH CONTAMINANTS LIABILITIES.**

14. Asbestos and Hazardous Materials. The Services expressly exclude any identification, abatement, cleanup, control, disposal, removal, or other work connected with asbestos polychlorinated biphenyl ("PCB"), or other hazardous materials (collectively, "Hazardous Materials"). Customer warrants and represents that there are no Hazardous Materials on the premises that will in any way affect Company's performance, except as set forth in a writing signed by Company disclosing the existence and location of any Hazardous Materials in all areas within which Company will be performing. Should Company become aware of or suspect the presence of Hazardous Materials, Company may immediately stop work in the affected area and notify Customer. Customer will be responsible for correcting the condition in accordance with all applicable laws and regulations. Customer shall be exclusively responsible for and shall indemnify and hold harmless Company (including its employees, agents and subcontractors) from and against any loss, claim, liability, fees, penalties, injury (including death) or liability of any nature, and the payment thereof, arising out of or relating to any Hazardous Materials on or about the premises, not brought onto the premises by Company. Company shall be required to resume performance only in the absence of Hazardous Materials or when the affected area has been rendered harmless. In no event shall Company be obligated to transport or handle Hazardous Materials, provide any notices to any governmental agency, or examine the premises site for the presence of Hazardous Materials.

15. Insurance. Company agrees to maintain the following insurance during the term of this Agreement with limits not less than shown below and will, upon request from Customer, provide a Certificate of evidencing the following coverage:

Commercial General Liability	$2,000,000 per occurrence
Automobile Liability	$2,000,000 CSL
Workers' Compensation	Statutory Limits

© 2026 Trane Technologies. All Rights Reserved.
Confidential and Proprietary Information of Trane U.S. Inc.

If Customer has requested to be named as an additional insured under Company's insurance policy, Company will do so but only subject to Company's manuscript additional insured endorsement under its primary Commercial General Liability policies. In no event does Company or its insurer waive rights of subrogation.

16. Force Majeure. Company's duty to perform under this Agreement is contingent upon the non-occurrence of an Event of Force Majeure. If Company is unable to carry out any material obligation under this Agreement due to an Event of Force Majeure, this Agreement shall at Company's election (i) remain in effect but Company's obligations shall be suspended until the uncontrollable event terminates or (ii) be terminated upon 10 days' notice to Customer, in which event Customer shall pay Company for all parts of the Services furnished to the date of termination. An "Event of Force Majeure" shall mean any cause or event beyond the control of Company. Without limiting the foregoing, "Event of Force Majeure" includes: acts of God; acts of terrorism, war or the public enemy; flood; earthquake; lightning; tornado; storm; fire; civil disobedience; pandemic; insurrections; riots; labor/labour disputes; labor/labour or material shortages from the usual sources of supply; sabotage; restraint by court order or public authority (whether valid or invalid), and action or non-action by or inability to obtain or keep in force the necessary governmental authorizations, permits, licenses, certificates or approvals if not caused by Company; and the requirements of any applicable government in any manner that diverts either the material or the finished product to the direct or indirect benefit of the government.

17. Maintenance Services Other Than Solely Scheduled Service. If Company's Maintenance Services hereunder are not limited solely to Scheduled Service, the following provisions shall also apply: (a) Required restoration shall be performed by Customer at its cost prior to Company being obligated to perform hereunder; (b) any changes, adjustments, service or repairs made to the Equipment by any party other than Company, unless approved by Company in writing, may, at Company's option, terminate Company's obligation to render further service to the Equipment so affected; in such case no refund of any portion of the Service Fees shall be made; and (c) Customer shall (i) promptly notify Company of any unusual performance of Equipment; (ii) permit only Company personnel to repair or adjust Equipment and/or controls during the Term or a Renewal Term; and (iii) utilize qualified personnel to properly operate the Equipment in accordance with the applicable operating manuals and recommended procedures.

18. General. Except as provided below, to the maximum extent provided by law, this Agreement is made and shall be interpreted and enforced in accordance with the laws of the state or province in which Company performs the Services. Any dispute arising under or relating to this Agreement shall be decided by litigation in a court of competent jurisdiction located in the state or province in which the Services are performed. To the extent the premises are owned and/or operated by any agency of the United States Federal Government, determination of any substantive issue of law shall be according to the United States Federal common law of Government contracts as enunciated and applied by United States Federal judicial bodies and boards of contract appeals of the United States Federal Government. This Agreement contains all of the agreements, representations and understandings of the parties and supersedes all previous understandings, commitments or agreements, oral or written, related to the Services. If any term or condition of this Agreement is invalid, illegal or incapable of being enforced by any rule of law, all other Terms of this Agreement will nevertheless remain in full force and effect as long as the economic or legal substance of the transaction contemplated hereby is not affected in a manner adverse to any party hereto. Customer may not assign, transfer, or convey this Agreement, or any part hereof, without the written consent of Company. Subject to the foregoing, this Agreement shall bind and inure to the benefit of the parties hereto and their permitted successors and assigns. This Agreement may be executed in several counterparts, each of which when executed shall be deemed to be an original, but all together shall constitute but one and the same Agreement. A fully executed facsimile copy hereof or the several counterparts shall suffice as an original. Customer may not assign, transfer, or convey this Agreement, or any part hereof, or its right, title, or interest herein, without the written consent of Company. Subject to the foregoing, this Agreement shall be binding upon and inure to the benefit of the parties' respective successors and assigns. No failure or delay by the Company in enforcing any right or exercising any remedy under this Agreement shall be deemed to be a waiver by the Company of any right or remedy.

19. Federal Requirements. The Parties shall comply with all United States federal labor law obligations under 29 CFR part 471, appendix A to subpart A. THE FOLLOWING PROVISIONS ARE INCORPORATED HEREIN BY REFERENCE: Executive Order 11701 and 41 CFR §§ 60-250.5(a), 60-300.5; Executive Order 11758 and 41 CFR § 60-741.5(a); U.S. immigration laws, including the L-1 Visa Reform Act of 2004 and the H-1B Visa Reform Act of 2004; and Executive Order 13496. The Parties shall abide by the requirements of 41 CFR 60-300.5(a) and 60-741.5(a). These regulations prohibit discrimination against qualified individuals based on their status as protected veterans or individuals with disabilities. Moreover, these regulations require that covered prime contractors and subcontractors take affirmative action to employ and advance in employment individuals without regard to protected veteran status or disability. The Parties certify that they do not operate any programs promoting DEI that violate any applicable United States anti-discrimination laws and acknowledge and agree that their compliance with all applicable federal anti-discrimination laws is material to the federal government's payment decisions. The Parties acknowledge and agree that their employment, procurement, and contracting practices shall not consider race, color, sex, sexual preference, religion, or national origin in ways that violate United States federal civil rights laws.

20. Export Laws. The obligation of Company to supply Equipment and/or Services under this Agreement is subject to the ability of Company to supply such items consistent with applicable laws and regulations of the United States and other governments. Company reserves the right to refuse to enter into or perform any order, and to cancel any order, under this Agreement if Company in its sole discretion determines that performance of the transaction to which such order relates would violate any such applicable law or regulation. Customer will pay all handling and other similar costs from Company's factories including the costs of freight, insurance, export clearances, import duties and taxes. Customer will be "exporter of record" with respect to any export from the United States of America and will perform all compliance and logistics functions in connection therewith and will also comply with all applicable laws, rules, and regulations. Customer understands that Company and/or the Equipment and/or Services are subject to laws and regulations of the United States of America which may require licensing or authorization for and/or prohibit export, re-export or diversion of Company's Equipment and/or Services to certain countries, and agrees it will not knowingly assist or participate in any such diversion or other violation of applicable United States of America laws and regulations. Customer agrees to hold harmless and indemnify Company for any damages resulting to Customer or Company from a breach of this paragraph by Customer. Furthermore, the Customer acknowledges that the Company's Equipment are subject to export control and sanction laws and regulations, including but not limited to the U.S. Export Administration Regulations (EAR) (15 CFR 730-774) and the Foreign Asset Control Regulations (31 CFR 500) ("laws and regulations"). The Customer agrees to comply with all such laws and regulations. The Customer will not use or divert the Equipment for any prohibited end-uses, such as the proliferation of weapons of mass destruction. The Customer also agrees not to re-export or transfer the Equipment in violation of export control laws.

21. U.S. Government Services. The following provision applies only to direct sales by Company to the US Government. The Parties acknowledge that all items or services ordered and delivered under this Agreement are Commercial Items as defined under Part 12 of the Federal Acquisition Regulation (FAR). In particular, Company agrees to be bound only by those Federal contracting clauses that apply to "commercial" suppliers and that are contained in FAR 52.212-5(e)(1). Company complies with 52.219-8 or 52.219-9 in its service and installation contracting business. **The following provision applies only to indirect sales by Company to the US Government**. As a Commercial Item Subcontractor, Company accepts only the following mandatory flow down provisions: 52.219-8; 52.222-26; 52.222-35; 52.222-36; 52.222-39; 52.247-64. If the Services are in connection with a U.S. Government contract, Customer certifies that it has provided and will provide current, accurate, and complete information, representations and certifications to all government officials, including but not limited to the contracting officer and officials of the Small Business Administration, on all matters related to the prime contract, including but not limited to all aspects of its ownership, eligibility, and performance. Anything herein notwithstanding, Company will have no obligations to Customer unless and until Customer provides Company with a true, correct, and complete executed copy of the prime contract. Upon request, Customer will provide copies to Company of all requested written communications with any government official related to the prime contract prior to or concurrent with the execution thereof, including but not limited to any communications related to Customer's ownership, eligibility or performance of the prime contract. Customer will obtain written authorization and approval from Company prior to providing any government official any information about Company's performance of the Services that are the subject of the Proposal or this Agreement, other than the Proposal or this Agreement.

22. Limited Waiver of Sovereign Immunity. If Customer is an Indian tribe (in the U.S.) or a First Nation or Band Council (in Canada), Customer, whether acting in its capacity as a government, governmental entity, a duly organized corporate entity or otherwise, for itself and for its agents, successors, and assigns: (1) hereby provides this limited waiver or its sovereign immunity as to any damages, claims, lawsuit, or cause of action (herein "Action") brought against Customer by Company and arising or alleged to arise out of the furnishing by Company of any product or service under this Agreement, whether such Action is based in contract, tort, strict liability, civil liability or any other legal theory; (2) agrees that jurisdiction and venue for any such Action shall be proper and valid (a) if Customer is in the U.S., in any state or United States court located in the state in which Company is performing this Agreement or (b) if Customer is in Canada, in the superior court of the province or territory in which the work was performed; (3) expressly consents to such Action, and waives any objection to jurisdiction or venue: (4) waives any requirement of exhaustion of tribal court or administrative remedies for any Action arising out of or related to this Agreement; and (5) expressly acknowledges and agrees that Company is not subject to the jurisdiction of Customer's tribal court or any similar tribal forum, that Customer will not bring any action against Company in tribal court, and that Customer will not avail itself of any ruling or direction of the tribal court permitting or directing it to suspend its payment or other obligations under this Agreement. The individual signing on behalf of Customer warrants and represents that such individual

SECURITY ADDENDUM

This Addendum shall be applicable to the sale, installation and use of Trane equipment and the sale and provision of Trane services. "Trane" shall mean Trane U.S. Inc. for sales and services in the United States, or Trane Canada ULC for sales and services in Canada.

1. Definitions. All terms used in this Addendum shall have the meaning specified in the Agreement unless otherwise defined herein. For the purposes of this Addendum, the following terms are defined as follows:

   "Customer Data" means Customer account information as related to the Services only and does not include HVAC Machine Data or personal data. Trane does not require, nor shall Customer provide personal data to Trane under the Agreement. Such data is not required for Trane to provide its Equipment and/or Services to the Customer.

   "Equipment" shall have the meaning set forth in the Agreement.

   "HVAC Machine Data" means data generated and collected from the product or furnished service without manual entry. HVAC Machine Data is data relating to the physical measurements and operating conditions of a HVAC system, such as but not limited to, temperatures, humidity, pressure, HVAC equipment status. HVAC Machine Data does not include Personal Data and, for the purposes of this agreement, the names of users of Trane's controls products or hosted applications shall not be Personal Data, if any such user chooses to use his/her name(s) in the created accounts within the controls product (e.g., firstname.lastname@address.com). HVAC Machine Data may be used by Trane: (a) to provide better support services and/or products to users of its products and services; (b) to assess compliance with Trane terms and conditions; (c) for statistical or other analysis of the collective characteristics and behaviors of product and services users; (d) to backup user and other data or information and/or provide remote support and/or restoration; (e) to provide or undertake: engineering analysis; failure analysis; warranty analysis; energy analysis; predictive analysis; service analysis; product usage analysis; and/or other desirable analysis, including, but not limited to, histories or trends of any of the foregoing; and (f) to otherwise understand and respond to the needs of users of the product or furnished service. "Personal Data" means data and/or information that is owned or controlled by Customer, and that names or identifies, or is about a natural person, such as: (i) data that is explicitly defined as a regulated category of data under any data privacy laws applicable to Customer; (ii) non-public personal information ("NPI") or personal information ("PI"), such as national identification number, passport number, social security number, social insurance number, or driver's license number; (iii) health or medical information, such as insurance information, medical prognosis, diagnosis information, or genetic information; (iv) financial information, such as a policy number, credit card number, and/or bank account number; (v) personally identifying technical information (whether transmitted or stored in cookies, devices, or otherwise), such as IP address, MAC address, device identifier, International Mobile Equipment Identifier ("IMEI"), or advertising identifier; (vi) biometric information; and/or (vii) sensitive personal data, such as, race, religion, marital status, disability, gender, sexual orientation, geolocation, or mother's maiden name.

   "Security Incident" shall refer to (i) a compromise of any network, system, application or data in which Customer Data has been accessed or acquired by an unauthorized third party; (ii) any situation where Trane reasonably suspects that such compromise may have occurred; or (iii) any actual or reasonably suspected unauthorized or illegal Processing, loss, use, disclosure or acquisition of or access to any Customer Data.

   "Services" shall have the meaning set forth in the Agreement.

2. HVAC Machine Data; Access to Customer Extranet and Third-Party Systems. If Customer grants Trane access to HVAC Machine Data via web portals or other non-public websites or extranet services on Customer's or a third party's website or system (each, an "Extranet"), Trane will comply with the following:
   a. Accounts. Trane will ensure that Trane's personnel use only the Extranet account(s) designated by Customer and will require Trane personnel to keep their access credentials confidential.
   b. Systems. Trane will access the Extranet only through computing or processing systems or applications running operating systems managed by Trane that include: (i) system network firewalls; (ii) centralized patch management; (iii) operating system appropriate anti-malware software; and (iv) for portable devices, full disk encryption.
   c. Restrictions. Unless otherwise approved by Customer in writing, Trane will not download, mirror, or permanently store any HVAC Machine Data from any Extranet on any medium, including any machines, devices, or servers.
   d. Account Termination. Trane will terminate the account of each of Trane's personnel in accordance with Trane's standard practices after any specific Trane personnel who has been authorized to access any Extranet (1) no longer needs access to HVAC Machine Data or (2) no longer qualifies as Trane personnel (e.g., the individual leaves Trane's employment).
   e. Third-Party Systems. Trane will provide Customer prior notice before it uses any third-party system that stores or may otherwise have access to HVAC Machine Data, unless (1) the data is encrypted and (2) the third-party system will not have access to the decryption key or unencrypted "plain text" versions of the HVAC Machine Data.

3. Customer Data; Confidentiality. Trane shall keep confidential, and shall not access or use any Customer Data and information that is marked confidential or by its nature is considered confidential ("Customer Confidential Information") other than for the purpose of providing the Equipment and Services, and will disclose Customer Confidential Information only: (i) to Trane's employees and agents who have a need to know to perform the Services, (ii) as expressly permitted or instructed by Customer, or (iii) to the minimum extent required to comply with applicable law, provided that Trane (1) provides Customer with prompt written notice prior to any such disclosure, and (2) reasonably cooperate with Customer to limit or prevent such disclosure.

4. Customer Data; Compliance with Laws. Trane agrees to comply with laws, regulations governmental requirements and industry standards and practices relating to Trane's processing of Customer Confidential Information (collectively, "Laws").

5. Customer Data; Information Security Management. Trane agrees to establish and maintain an information security and privacy program, consistent with applicable HVAC equipment industry practices that complies with this Addendum and applicable Laws ("Information Security Program"). The Information Security Program shall include appropriate physical, technical and administrative safeguards, including any safeguards and controls agreed by the Parties in writing, sufficient to protect Customer systems, and Customer's Confidential Information from unauthorized access, destruction, use, modification, or disclosure. The Information Security Program shall include appropriate, ongoing training and awareness programs designed to ensure that Trane's employees and agents, and others acting on Trane's, behalf are aware of and comply with the Information Security Program's policies, procedures, and protocols.

6. Monitoring. Trane shall monitor and, at regular intervals consistent with HVAC equipment industry practices, test and evaluate the effectiveness of its Information Security Program. Trane shall evaluate and promptly adjust its Information Security Program in light of the results of the testing and monitoring, any material changes to its operations or business arrangements, or any other facts or circumstances that Trane knows or reasonably should know may have a material impact on the security of Customer Confidential Information, Customer systems and Customer property.

7. Audits. Customer acknowledges and agrees that the Trane SOC2 audit report will be used to satisfy any and all audit/inspection requests/requirements by or on behalf of Customer. Trane will make its SOC2 audit report available to Customer upon request and with a signed nondisclosure agreement.

8. Information Security Contact. Trane's information security contact is Local Sales Office.

© 2026 Trane Technologies. All Rights Reserved.
Confidential and Proprietary Information of Trane U.S. Inc.

9. Security Incident Management. Trane shall notify Customer after the confirmation of a Security Incident that affects Customer Confidential Information, Customer systems, and Customer property. The written notice shall summarize the nature and scope of the Security Incident and the corrective action already taken or planned.

10. Threat and Vulnerability Management. Trane regularly performs vulnerability scans and addresses detected vulnerabilities on a risk basis. Periodically, Trane engages third parties to perform network vulnerability assessments and penetration testing. Vulnerabilities will be reported in accordance with Trane's cybersecurity vulnerability reported process. Trane periodically provides security updates and software upgrades.

11. Security Training and Awareness. New employees are required to complete security training as part of the new hire process and receive annual and targeted training (as needed and appropriate to their role) thereafter to help maintain compliance with Security Policies, as well as other corporate policies, such as the Trane Code of Conduct. This includes requiring Trane employees to annually re-acknowledge the Code of Conduct and other Trane policies as appropriate. Trane conducts periodic security awareness campaigns to educate personnel about their responsibilities and provide guidance to create and maintain a secure workplace.

12. Secure Disposal Policies. Trane will maintain policies, processes, and procedures regarding the disposal of tangible and intangible property containing Customer Confidential Information so that wherever possible, Customer Confidential Information cannot be practicably read or reconstructed.

13. Logical Access Controls- Trane employs internal monitoring and logging technology to help detect and prevent unauthorized access attempts to Trane's corporate networks and production systems. Trane's monitoring includes a review of changes affecting systems' handling authentication, authorization, and auditing, and privileged access to Trane production systems. Trane uses the principle of "least privilege" (meaning access denied unless specifically granted) for access to customer data.

14. Contingency Planning/Disaster Recovery. Trane will implement policies and procedures required to respond to an emergency or other occurrence (i.e., fire, vandalism, system failure, natural disaster) that could damage Customer Data or any system that contains Customer Data. Procedures include the following:
    a. Data backups; and
    b. Formal disaster recovery plan. Such disaster recovery plan is tested at least annually.

15. Return of Customer Data. If Trane is responsible for storing or receiving Customer Data, Trane shall, at Customer's sole discretion, deliver Customer Data to Customer in its preferred format within a commercially reasonable period of time following the expiration or earlier termination of the Agreement or, such earlier time as Customer requests, securely destroy or render unreadable or undecipherable each and every original and copy in every media of all Customer's Data in Trane's possession, custody or control no later than [90 days] after receipt of Customer's written instructions directing Trane to delete the Customer Data.

16. Background Checks. Trane shall take reasonable steps to ensure the reliability of its employees or other personnel having access to the Customer Data, including the conducting of appropriate background and/or verification checks in accordance with Trane policies.

17. DISCLAIMER OF WARRANTIES. EXCEPT FOR ANY APPLICABLE WARRANTIES IN THE AGREEMENT, THE SERVICES ARE PROVIDED "AS IS", WITH ALL FAULTS, AND THE ENTIRE RISK AS TO SATISFACTORY QUALITY, PERFORMANCE, ACCURACY AND EFFORT AS TO SUCH SERVICES SHALL BE WITH CUSTOMER. TRANE DISCLAIMS ANY AND ALL OTHER EXPRESS OR IMPLIED REPRESENTATIONS AND WARRANTIES WITH RESPECT TO THE SERVICES AND THE SERVICES PROVIDED HEREUNDER, INCLUDING ANY EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR THAT THE SERVICES WILL OPERATE ERROR-FREE OR UNINTERRUPTED OR RETURN/RESPONSE TO INQUIRIES WITHIN ANY SPECIFIC PERIOD OF TIME.

APPENDIX

SAFETY

Since 2003, U.S. Bureau of Labor Statistics records have consistently shown the Total Recordable Incident Rate (TRIR) and Days Away From Work (DAFW) for Trane have been significantly lower than those for HVAC repair and maintenance contractors and specialty trade contractors (construction). The company's safety culture in America is unparalleled in the building service industry, with proven results in the continuous reduction of injury rates. Trane incident rates (OSHA) are consistently 50 to 70 percent below the industry average.

A wide range of safety training and resources are available to Trane technicians, including:

- Safety training—20 hours per year
- Electrical safety—NFPA 70E compliant, electrical PPE
- Fall protection
- Ergonomics
- USDOT compliance
- Refrigerant management training

ENVIRONMENTAL PRACTICES

Trane policies and procedures are compliant with all federal and state regulations. Refrigerant (and substitutes) handling, storage and leak repair processes are compliant with Environmental Protection Agency regulation 40 CFR Part 82. Service technicians are Universal-certified and use only certified recovery equipment.

Refrigerant Management Software (RMS) captures, manages and reports all refrigerant activity at your site. Upon request, Trane can send you an anual report documenting all refrigerant activity that we performed for each piece of equipment during the past 12 months.

Trane adheres to all environmental regulations when removing used oil from refrigeration units.

CONSISTENCY

Nationwide, Trane technicians follow documented, formal processes that ensure uniform service delivery. As an OEM, Trane has developed exclusive service procedures which provide the most reliable outcomes, and extended equipment longevity, at the most cost-effective price.

- Exclusive service work flow processes provide detailed steps and information encompassing parts, materials, tools and sequence of execution
- Additional steps addressing safety, quality control, work validation and environmental compliance
- Technicians must consistently reference documented processes to ensure no critical steps are skipped or omitted
- Applicable service processes meet or exceed ASHRAE 180-2008 Standard Practice for Inspection and Maintenance of Commercial Building HVAC Systems

CUSTOMER SERVICE FLOWS

The following Customer Service Flows provide additional service description detail for Covered Equipment. Note: There may be differences per the agreement in the work being performed between sites and the equipment on those sites. This section clarifies differences in the work being performed between sites and the equipment on those sites:

Service 1: Air Cooled Package Heat Pump Cooling Pre-Season Annual Start Up
Description

- Unitary Visual Equipment Inspection
- Lock Out Tag Out (Standard)
- Supply Fan Inspection
- Meg Supply Fan Without VFD
- Meg Compressor Motor
- Electrical Inspection
- Filter Inspection And Change
- Condensate Drip Pan Treatment
- Condenser Coil Cleaning (Light Commercial)
- Condenser Fan Check
- Remove Lock Out Tag Out
- Inspect Reversing Valve
- Start Up Seasonal Cooling

Service 2: Air Cooled Package GE Cooling Pre-Season Annual Start Up
Description

- Unitary Visual Equipment Inspection
- Lock Out Tag Out (Standard)
- Supply Fan Inspection
- Meg Supply Fan Without VFD
- Meg Compressor Motor
- Electrical Inspection
- Filter Inspection And Change
- Condensate Drip Pan Treatment
- Condenser Coil Cleaning (Light Commercial)
- Condenser Fan Check
- Remove Lock Out Tag Out
- Inspect Reversing Valve
- Start Up Seasonal Cooling

Service 3: Air Cooled Package Heat Pump Quarterly Inspection
Description

- Unitary Visual Equipment Inspection
- Supply Fan Inspection Including LOTO
- Filter Inspection And Change
- Log Unit (Unitary)

Service 4: Air Cooled Package GE Quarterly Inspection
Description

- Unitary Visual Equipment Inspection
- Supply Fan Inspection Including LOTO
- Filter Inspection And Change
- Log Unit (Unitary)

Service 5: Air Cooled Condenser Annual Inspection
Description

- Lock Out Tag Out Condenser
- Electrical Inspection-Unitary
- Leak Test Inspection (Positive Pressure)
- Condenser Coil Check
- Condenser Physical Fan Check
- Remove Lock Out Tag Out and Restore Power
- Manual Log

Service 6: Condenser Coil Cleaning

© 2026 Trane Technologies. All Rights Reserved.
Confidential and Proprietary Information of Trane U.S. Inc.

Description
- Condenser Coil Cleaning w/ Solution

Service 7: Air Cooled Condenser Quarterly Inspection
Description
- Lock Out Tag Out Condenser
- Condenser Coil Check
- Unitary Visual Equipment Inspection
- Remove Lock Out Tag Out and Restore Power

Service 8: Intellipak Rooftop Cooling Pre-Season Annual Start Up
Description
- Unitary Visual Equipment Inspection
- Lock Out Tag Out
- Bearing Lubrication
- Filter Inspection And Change (Intellipak)
- Condensate Drip Pan Treatment
- Condenser Coil Cleaning With Back Flush(Intellipak)
- Electrical Inspection
- Remove Lock Out Tag Out and Restore Power
- Check Damper (Intellipak)
- Start Up Seasonal Cooling
- Log Unit (Generic)

Service 9: Intellipak Rooftop Cooling Pre-Season Annual Start Up
Description
- Unitary Visual Equipment Inspection
- Lock Out Tag Out
- Bearing Lubrication
- Filter Inspection And Change (Intellipak)
- Condensate Drip Pan Treatment
- Condenser Coil Cleaning With Back Flush(Intellipak)
- Electrical Inspection
- Remove Lock Out Tag Out and Restore Power
- Check Damper (Intellipak)
- Start Up Seasonal Cooling
- Log Unit (Generic)

Service 10: Intellipak Rooftop Cooling Pre-Season Annual Start Up
Description
- Unitary Visual Equipment Inspection
- Lock Out Tag Out
- Supply Fan Inspection-IPAK/VOY
- Power Exhaust Fan Inspection (Intellipak)
- Start Up Condenser Fan Check (Per Fan)
- Filter Inspection And Change (Intellipak)
- Condensate Drip Pan Treatment
- Condenser Coil Cleaning With Back Flush(Intellipak)
- Meg Compressor Motor - IPAK/VOY
- Meg Supply Fan Without VFD
- Meg Power Exhaust Without VFD
- Electrical Inspection
- Remove Lock Out Tag Out and Restore Power
- Check Damper (Intellipak)
- Start Up Seasonal Cooling
- Manual Log With Electronic Device

Service 11: Intellipak Rooftop Quarterly Inspection
Description
- Unitary Visual Equipment Inspection
- Lock Out Tag Out
- Filter Inspection And Change (Intellipak)
- Log Unit

© 2026 Trane Technologies. All Rights Reserved.
Confidential and Proprietary Information of Trane U.S. Inc.

Service 12: Intellipak Rooftop Quarterly Inspection
Description
- Unitary Visual Equipment Inspection
- Lock Out Tag Out
- Filter Inspection And Change (Intellipak)
- Log Unit

Service 13: Intellipak Rooftop Quarterly Inspection
Description
- Unitary Visual Equipment Inspection
- Lock Out Tag Out
- Supply Fan Inspection-IPAK/VOY
- Power Exhaust Fan Inspection (Intellipak)
- Filter Inspection And Change (Intellipak)
- Remove Lock Out Tag Out and Restore Power
- Check Damper (Intellipak)
- Manual Log With Electronic Device

Service 14: M Series Annual
Description
- AHU Visual Equipment Inspection
- Lock Out Tag Out (Standard)
- Electrical Inspection (AHU)
- Supply Fan and Motor Inspection (Air Handler)
- Meg Supply Fan With VFD
- Condensate Inspection
- Heating Coil Cleaning
- Air Handler Filter Inspection
- Check Damper
- Start Up Seasonal Heating-Electric
- Return Unit to Normal Operation

Service 15: M Series Quarterly
Description
- AHU Visual Equipment Inspection
- Lock Out Tag Out (Standard)
- Remove Access Panels or Open Access Doors
- Supply Fan Belt Inspection
- Coil Inspection (Climate Changer)
- Air Handler Filter Inspection (CSAA)
- Reinstall Access Panels or Close Access Doors
- Remove Lock Out Tag Out
- Return Unit to Normal Operation

Service 16: Gas Furnace Annual Inspection
Description
- Customer Notification
- Initial Site Inspection
- Lock Out Tag Out (Standard)
- Start Up Seasonal Heating (Gas) Unitary
- Filter Inspection And Change
- Remove Lock Out Tag Out and Restore Power
- Manual Log

Service 17: Unit Heater Maintenance
Description
- Unit Heater Electrical Inspection

Service 18: VAV Limited Inspection
Description
- VAV Limited Inspection

© 2026 Trane Technologies. All Rights Reserved.
Confidential and Proprietary Information of Trane U.S. Inc.

Service 19: Gas Furnace Quarterly Inspection
Description
- Customer Notification
- Initial Site Inspection
- Lock Out Tag Out (Standard)
- General Furnace Maintenance
- Filter Inspection And Change
- Remove Lock Out Tag Out and Restore Power
- Manual Log

Service 20: Central Air Handler Cooling Pre-Season Annual Maintenance
Description
- Unitary Visual Equipment Inspection
- Filter Inspection and Change (Generic)
- Supply Fan and Motor Inspection (Belt Driven)
- Replace Belt(s) on Supply Fan (Per Fan)
- Electrical Inspection (Air Handler NTP)
- Log Unit (NTP Air Handler)

Service 21: Commercial Package Rooftop (Greater than 10 tons) Cooling Pre-Season Annual Maintenance
Description
- Unitary Visual Equipment Inspection
- Filter Inspection and Change (Generic)
- Condensate Drip Pan Inspection and Treatment
- Coil Cleaning Solution
- Electrical Inspection (Commercial Over 10 Tons Rooftop NTP)
- Log Unit (NTP Cooling)

Service 22: Split System Air Handler Cooling Pre-Season Annual Maintenance (Includes Condenser)
Description
- Unitary Visual Equipment Inspection
- Filter Inspection and Change (Generic)
- Electrical Inspection (Air Handler NTP)
- Log Unit (NTP Air Handler)
- Lock Out Tag Out Condenser
- Condenser Coil Check (Generic)
- Coil Cleaning Solution
- Condenser Physical (One) Fan Check (Generic Condensing Unit)
- Electrical Inspection (Light Commercial Condensing Unit)
- Log Unit (NTP Cooling)

Service 23: Split System Air Handler Cooling Pre-Season Annual Maintenance (Includes Condenser)
Description
- Unitary Visual Equipment Inspection
- Filter Inspection and Change
- Replace Belt(s) on Supply Fan
- Electrical Inspection
- Log Unit
- Lock Out Tag Out
- Condenser Coil Check
- Coil Cleaning Solution
- Condenser Physical Fan Check
- Electrical Inspection
- Log Unit

Service 24: Split System Air Handler Cooling Pre-Season Annual Maintenance (Includes Condenser)
Description
- Unitary Visual Equipment Inspection
- Filter Inspection and Change (Generic)
- Electrical Inspection (Air Handler NTP)
- Log Unit (NTP Air Handler)
- Lock Out Tag Out Condenser
- Condenser Coil Check (Generic)

© 2026 Trane Technologies. All Rights Reserved.
Confidential and Proprietary Information of Trane U.S. Inc.

- Condenser Physical (One) Fan Check (Generic Condensing Unit)
- Electrical Inspection (Light Commercial Condensing Unit)
- Log Unit (NTP Cooling)

Service 25: Split System Air Handler Annual Maintenance
Description
- Unitary Visual Equipment Inspection
- Filter Inspection and Change (Generic)
- Electrical Inspection (Air Handler NTP)
- NTP Heating Inspection (Electrical)
- Log Unit (1-5 Ton Unit)

Service 26: Split System Air Handler Annual Maintenance
Description
- Unitary Visual Equipment Inspection
- Filter Inspection and Change (Generic)
- Electrical Inspection (Air Handler NTP)
- NTP Heating Inspection (Electrical)
- Log Unit (1-5 Ton Unit)

Service 27: Central Air Handler Quarterly Maintenance
Description
- Unitary Visual Equipment Inspection
- Filter Inspection and Change (Generic)

Service 28: Commercial Package Rooftop (Greater than 10 tons) Quarterly Maintenance
Description
- Unitary Visual Equipment Inspection
- Filter Inspection and Change (Generic)

Service 29: Split System Air Handler Quarterly Maintenance
Description
- Unitary Visual Equipment Inspection
- Filter Inspection and Change (Generic)
- Log Unit (1-5 Ton Unit)

Service 30: Split System Air Handler Quarterly Maintenance (Includes Condenser)
Description
- Unitary Visual Equipment Inspection
- Filter Inspection and Change (Generic)

Service 31: Split System Air Handler Quarterly Maintenance (Includes Condenser)
Description
- Unitary Visual Equipment Inspection
- Filter Inspection and Change
- Electrical Inspection

Service 32: Split System Air Handler Quarterly Maintenance (Includes Condenser)
Description
- Unitary Visual Equipment Inspection
- Filter Inspection and Change (Generic)
- Electrical Inspection (Air Handler NTP)
- Electrical Inspection (Light Commercial Condensing Unit)

Service 33: Split System Air Handler Quarterly Maintenance
Description
- Unitary Visual Equipment Inspection
- Filter Inspection and Change (Generic)
- Log Unit (1-5 Ton Unit)

Service 34: Condenser Coil Cleaning
Description
- Condenser Coil Cleaning

Confidential and Proprietary Information of Trane U.S. Inc.

Service 35: Precedent Cooling Pre-Season Annual Start Up
Description

- Unitary Visual Equipment Inspection
- Verify Line Voltage
- Lock Out Tag Out (Standard)
- Supply Fan Inspection-IPAK/VOY
- Remove Access Panels or Open Access Doors
- Meg Compressor Motor - IPAK/VOY
- Electrical Inspection
- Filter Inspection And Change
- Reinstall Access Panels or Close Access Doors
- Micro Channel Coil Cleaning
- Condensate Drip Pan Treatment
- Remove Lock Out Tag Out
- Pre-Start Check- VOY/PRE
- Start Up Condenser Fan Check (Per Fan)
- Cooling Check-VOY
- Manual Log With Electronic Device
- Return Unit to Normal Operation

Service 36: Precedent Quarterly Inspection
Description

- Unitary Visual Equipment Inspection
- Lock Out Tag Out (Standard)
- Supply Fan Inspection-IPAK/VOY
- Power Exhaust Fan(s) Inspection - Direct Drive
- Remove Access Panels or Open Access Doors
- Filter Inspection And Change
- Reinstall Access Panels or Close Access Doors
- Check Economizer Damper-VOY/PRE
- Manual Log With Electronic Device
- Return Unit to Normal Operation

Service 37: Precedent Quarterly Inspection
Description

- Unitary Visual Equipment Inspection
- Lock Out Tag Out (Standard)
- Supply Fan Inspection-IPAK/VOY
- Power Exhaust Fan(s) Inspection - Direct Drive
- Remove Access Panels or Open Access Doors
- Electrical Inspection
- Filter Inspection And Change
- Reinstall Access Panels or Close Access Doors
- Check Economizer Damper-VOY/PRE
- Manual Log With Electronic Device
- Return Unit to Normal Operation

Service 38: Precedent Cooling Pre-Season Annual Start-Up
Description

- Unitary Visual Equipment Inspection
- Supply Fan Inspection Including LOTO
- Bearing Lubrication
- Filter Inspection And Change
- Check Damper
- Condensate Drip Pan Treatment
- Condenser Coil Cleaning (Light Commercial)
- Meg Supply Fan Without VFD
- Meg Compressor Motor
- Electrical Inspection
- Condenser Fan Check (Unitary)
- Start Up Seasonal Cooling

Service 39: Precedent Cooling Pre-Season Annual Start-Up

- Supply Fan Inspection Including LOTO
- Filter Inspection And Change

Service 41: Precedent Quarterly Inspection
Description
- Unitary Visual Equipment Inspection
- Supply Fan Inspection Including LOTO
- Filter Inspection And Change

Service 42: Clean Condenser Coils
Description
- Clean Unit Exterior and Coil

Service 43: Annual Maintenance - Air Cooled Recip Condensing Unit
Description
- Customer Notification
- Initial Site Inspection
- Verify Line Voltage
- Control Panel Calibration Check
- Lock Out Tag Out Condenser
- Electrical Inspection
- Meg Compressor Motor(s)
- High Pressure Leak Check (Standard)
- Visual Condenser Coil Check
- Condenser Coil Cleaning wo/Backflush
- Condenser Fan Check
- Remove LOTO and Check Heater Operation
- Inspect Strainer and Pump - Seasonal Startup
- Low Ambient Damper Inspection RAUJ
- Compressor Oil Level Check
- Manual Log With Electronic Device

Service 44: Quarterly Maintenance - Air Cooled Split System Condensing Unit
Description

WHEREAS, Knox County has received a Select Service Agreement from Trane U.S. Inc. to provide preventative maintenance and repair services for Library facilities; and

WHEREAS, the proposed Select Service Agreement sets forth the terms and conditions under which the services will be provided by Trane U.S, Inc.; and

WHEREAS, the Select Service Agreement is effective for an initial term of five (5) years and, following expiration of the initial term, the Agreement shall renew automatically for successive periods of 5 years until terminated as provided in the Agreement; and

WHEREAS, the Knox County Commission deems it in the best interest of Knox County to approve the Select Service Agreement for the preventative maintenance and repair of HVAC equipment at Library facilities.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The Select Service Agreement with Trane U.S. Inc. to provide preventative maintenance and repair services for Library facilities is hereby adopted and approved in substantive form as presented this date, a copy of which is attached to this Resolution and incorporated herein by reference.

BE IT FURTHER RESOLVED, the Select Service Agreement with Trane U.S. Inc. to provide preventative maintenance and repair services for Library facilities shall be executed subject to such amendment or action not affecting the substantive provisions of the document as may be required and approved by the Knox County Law Director.

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

Knox County Libraries
Attn: Cody Miller and Mandi Benedict

Trane is pleased to provide this OMNIA compliant proposal to continue the preventive maintenance & repair services for the Knox County Library Facilities that we have been maintaining since 2010 through the County's Energy Program. Services will be performed using Trane's exclusive service procedures provided by factory trained and experienced technicians. You receive the full benefit of our expertise derived from being Trane equipment's original manufacturer. Our procedures are environmentally and safety conscious while providing for the efficient delivery of these services.

This **Select Service Agreement** features parts and labor coverage for HVAC equipment repairs included in the annual planned maintenance contract. It is the easiest and most reassuring way to ensure your HVAC equipment is continuously operating at peak performance levels.

Under this service agreement, Trane will schedule and manage preventative maintenance and provide repair coverage to help you minimize unplanned downtime and avoid unexpected expenses.

As an HVAC service provider, Trane offers many advantages:

- Confidence that your HVAC equipment is being serviced according to OEM best practices
- Priority service available 24-hours a day
- Advanced diagnostic technologies allow our technicians to analyze system performance comprehensively

Protect your bottom line. Proper maintenance can save an estimated 12 to 18 percent of your budget compared to a run-to-fail approach. This service agreement will help you capture those savings. (FEMP O&M Guide 2010)

EQUIPMENT LIST

Knox Co East TN Historical Soc

The following "Covered Equipment" will be serviced at Knox Co East TN Historical Soc:

REFRIGERANT MANAGEMENT COMPLIANCE

The following Refrigerant Management features will be included:

Standard Agreement
Trane will provide the EPA Standard data to Customer via our Field Report and Refrigerant Activity Report. This option does not include reports supplied in the future. Customer (Owner/Operator) has been made aware that the regulatory responsibility to keep the records remains with them and not the Service Provider (Trane).

PRICING AND ACCEPTANCE

CLARIFICATIONS

- Any service not listed is not included
- Work will be performed during normal Trane business hours
- This proposal is valid for 60 days from June 1, 2026

Trane Service Agreement

This Service Agreement consists of the pages beginning with the title page entitled “Select Service Agreement,” the consecutively numbered pages immediately following such title page, and includes and ends with the Trane Terms and Conditions (Service) (collectively, the “Service Agreement” or "Agreement"). Trane agrees to inspect and maintain the Covered Equipment according to the terms of this Service Agreement, including the “Terms and Conditions,” and “Scope of Services” sections. Trane agrees to give preferential service to Service Agreement Customer over non-contract customers.

Service Fee

As the fee(s) (the “Service Fee(s)”) for the inspection and maintenance services described in the Scope of Services section with respect to the Covered Equipment, Customer agrees to pay to Trane the following amounts, plus applicable tax, as and when due.

Contract Year	Annual Amount - All Sites USD	Payment USD	Payment Term
Year 1	289,800.00	289,800.00	Annual
Year 2	305,900.00	305,900.00	Annual
Year 3	322,000.00	322,000.00	Annual
Year 4	338,100.00	338,100.00	Annual
Year 5	354,200.00	354,200.00	Annual

This agreement will be invoiced annually and if paid within fifteen (15) calendar days, a 3% discount can be taken by short-paying the invoice – please refer to notes in the actual invoice. In addition to any other amounts then due hereunder, if this Agreement is terminated or cancelled prior to its scheduled expiration, Customer shall pay to Company the balance of any amounts billed to but unpaid by Customer and, if a “Service Project” is included in the Agreement, the Cancellation Fee set forth in “Exhibit A” Cancellation Schedule attached hereto and incorporated herein, which Cancellation Fee represents unbilled labor, non-labor expenses and parts materials and components. Subject only to a prior written agreement signed by Trane, payment is due upon receipt of invoice in accordance with Section 4 of the attached Terms and Conditions.

Term

The Initial Term of this Service Agreement is 5 years, beginning July 1, 2026. However, Trane’s obligation under this Agreement will not begin until authorized representatives of Trane and Customer have both signed this Agreement in the spaces provided below.

Following expiration of the initial term on June 30, 2031, this Agreement shall renew automatically for successive periods of 5 years (the “Renewal Term”) until terminated as provided herein. If you do not want to renew this Agreement for the Renewal Term, please notify Trane by telephone or by U.S. mail prior to the expiration date set forth in the preceding sentence. If any questions arise regarding this Service Agreement or how to cancel this Agreement, Trane can be reached either by telephone at or by direct mail addressed to: 5220 Middlebrook Pike S., Knoxville, TN 37921.

Renewal Pricing Adjustment

The Service Fees for an impending Renewal Term shall be the current Service Fees (defined as the Service Fees for the initial Term or Renewal Term immediately preceding the impending Renewal Term) annually adjusted based on changes to the cost of service. The Service Fees for an impending Renewal Term shall be set forth in the service renewal letter furnished to Customer.

Cancellation by Customer Prior to Services; Refund

If Customer cancels this Agreement within (a) thirty (30) days of the date this Agreement was mailed to Customer or (b) twenty (20) days of the date this Agreement was delivered to Customer, if it was delivered at the time of sale, and if no Services have been provided by Company under this Agreement, the Agreement will be void and Company will refund to

Customer, or credit Customer's account, the full Service Fee of this Agreement that Customer paid to Company, if any. A ten percent (10%) penalty per month will be added to a refund that is due but is not paid or credited within forty-five (45) days after return of this Agreement to Company. Customer's right to cancel this Agreement only applies to the original owner of this Agreement and only if no Services have been provided by Company under this Agreement prior to its return to Company.

Cancellation by Company

This Agreement may be cancelled during the Initial Term or, if applicable, a Renewal Term for any reason or no reason, upon written notice from Company to Customer no later than 30 days prior to the scheduled expiration date and Company will refund to Customer, or credit Customer's account, that part of the Service Fee attributable to Services not performed by Company. Customer shall remain liable for and shall pay to Company all amounts due for Services provided by Company and not yet paid.

TERMS AND CONDITIONS - SERVICE

"Company" shall mean Trane U.S. Inc. dba Trane for Company performance in the United States and Trane Canada ULC for Company performance in Canada.

1. Agreement. These terms and conditions ("Terms") are an integral part of Company's offer and form the basis of any agreement (the "Agreement") resulting from Company's proposal (the "Proposal") for the following commercial services as stated in the Proposal (collectively, the "Services"): inspection, maintenance and repair (the "Maintenance Services") on equipment (the "Covered Equipment"), specified Additional Work (if any), and, if included in the Proposal, Intelligent Services, Energy Assessment, and any other services using remote connectivity (collectively and individually referred to in these Terms as "Intelligent Services"). **COMPANY'S TERMS ARE SUBJECT TO PERIODIC CHANGE OR AMENDMENT.**

2. Connected Services and Company Provided Telematics Connectivity. In addition to these terms and conditions, the Connected Services Terms of Service ("Connected Services Terms"), available at https://www.trane.com/TraneConnectedServicesTerms, as updated from time to time, are incorporated herein by reference and shall apply to the extent that Company provides Customer with Connected Services, as defined in the Connected Services Terms or Telematics Devices, both as defined in the Connected Services Terms. Certain Equipment may include, or be installed together with, Company provided Telematics Devices that provide remote connectivity and the Connected Services Terms set forth the terms and conditions applicable to the Telematics Devices and connectivity, including opt-out provisions. If Customer provides or transfers the Equipment to another party, Customer shall ensure that such party is informed in writing of the presence of any Telematics Devices and the applicability of the Connected Services Terms.

3. Acceptance. The Proposal is subject to acceptance in writing by the party to whom this offer is made or an authorized agent ("Customer") delivered to Company within 30 days from the date of the Proposal. If Customer accepts the Proposal by placing an order, without the addition of any other terms and conditions of sale or any other modification, Customer's order shall be deemed acceptance of the Proposal subject to these Terms and Conditions. If Customer's order is expressly conditioned upon Company's acceptance or assent to terms and/or conditions other than those expressed herein, return of such order by Company with Company's Terms and Conditions attached or referenced serves as Company's notice of objection to Customer's terms and as Company's counteroffer to perform in accordance with the Proposal and Company Terms and Conditions. If Customer does not reject or object in writing to Company within 10 days, Company's counteroffer will be deemed accepted. Customer's acceptance of performance by Company will in any event constitute an acceptance by Customer of Company's Terms and Conditions. This Agreement is subject to credit approval by Company. Upon disapproval of credit, Company may delay or suspend performance or, at its option, renegotiate prices and/or Terms and Conditions with Customer. If Company and Customer are unable to agree on such revisions, this Agreement shall be cancelled without any liability, other than Customer's obligation to pay for Services provided by Company to the date of cancellation.

4. Fees and Taxes. Fees for the Services (the "Service Fees") are as set forth in the Proposal. Except as otherwise stated in the Proposal, Service Fees are based on performance during regular business hours. Charges for performance outside Company's normal business hours shall be billed separately according to the then prevailing overtime or emergency labor/labour rates. In addition to the stated Service Fees, Customer shall pay all taxes not legally required to be paid by Company or, alternatively, shall provide Company with an acceptable tax exemption certificate.

5. Payment. Payment is due upon receipt of Company's invoice. Service Fees shall be paid no less frequently than quarterly and in advance of performance of the Services. Company reserves the right to add to any account outstanding for more than 30 days a service charge equal to the lesser of the maximum allowable legal interest rate or 1.5% of the principal amount due at the end of each month. Without liability to Customer, Company may discontinue performance whenever payment is overdue. Customer shall pay all costs (including attorneys' fees) incurred by Company in attempting to collect amounts due or otherwise enforcing this Agreement.

6. Customer Breach. Each of the following constitutes a breach by Customer and shall give Company the right, without an election of remedies, to suspend performance or terminate this Agreement by delivery of written notice declaring termination. Upon termination, Customer shall be liable to the Company for all Services furnished to date and all damages sustained by Company (including lost profit and overhead): (a) Any failure by Customer to pay amounts when due; (b) any general assignment by Customer for the benefit of its creditors, Customer's bankruptcy, insolvency, or receivership; (c) Any representation or warranty furnished by Customer in connection with this Agreement is false or misleading in any material respect when made; or (d) Any failure by Customer to per¬form or comply with any material provision of this Agreement.

7. Performance. Company shall perform the Services in accordance with industry standards generally applicable in the state or province where the Services are performed under similar circumstances when Company performs the Services. Company may refuse to perform where working conditions could endanger property or put people at risk. Unless otherwise agreed by Customer and Company, at Customer's expense and before the Services begin, Customer will provide any necessary access platforms, catwalks to safely perform the Services in compliance with OSHA, state, or provincial industrial safety regulations or any other applicable industrial safety standards or guidelines. This Agreement presupposes that all major pieces of Covered Equipment are in proper operating condition as of the date hereof. Services furnished are premised on the Covered Equipment being in a maintainable condition. In no event shall Company have any obligation to replace Covered Equipment that is no longer maintainable. During the first 30 days of this Agreement, or upon initial inspection, and/or upon seasonal start-up (if included in the Services), if an inspection by Company of Covered Equipment indicates repairs or replacement is required, Company will provide a written quotation for such repairs or replacement. If Customer does not authorize such repairs or replacement, Company may remove the unacceptable equipment from the Covered Equipment and adjust the Service Fees accordingly. Customer authorizes Company to utilize Customer's telephone line or network infrastructure to connect to controls, systems and/or equipment provided or serviced by Company and to provide Services contracted for or otherwise requested by Customer, including remote diagnostic and repair service. Customer acknowledges that Company is not responsible for any adverse impact to Customer's communications and network infrastructure. Company may elect to install/attach to Customer equipment or provide portable devices (hardware and/or software) for execution of control or diagnostic procedures. Such devices shall remain the personal proprietary property of Company and in no event shall become a fixture of Customer locations. Customer shall not acquire any interest, title or equity in any hardware, software, processes, and other intellectual or proprietary rights to devices used in connection with the Services on Customer equipment. Company may remove such devices at its discretion. Parts used for any repairs made will be those selected by Company as suitable for the repair and may be parts not manufactured by Company.

8. Customer Obligations. Customer shall: (a) Provide Company reasonable and safe access to the Covered Equipment and areas where Company is to work; (b) Follow manufacturer recommendations concerning teardown and internal inspection, major overhaul, restoration or refurbishing of the Covered Equipment; unless expressly stated in the Scope of Services statement, Company is not performing any manufacturer recommended teardown and internal inspection, major overhaul, restoration or refurbishing of the Covered Equipment; and (c) Where applicable, unless water treatment is expressly included in the Services, provide professional cooling tower water treatment in accordance with any reasonable recommendations provided by Company.

9. Exclusions. Unless expressly included in the Covered Equipment or the Services, the Services do not include, and Company shall not be responsible for or liable to the Customer for any claims, losses, damages or expenses suffered by the Customer in any way connected with, relating to or arising from, any of the following: (a) Any guarantee of room conditions or system performance; (b) Inspection, maintenance, repair, replacement of or services for: chilled water and condenser water pumps and piping; electrical disconnect switches or circuit breakers; motor starting equipment that is not factory mounted and interconnecting power wiring; recording or portable instruments, gauges or thermometers; non-moving parts or non-maintainable parts of the system, including, but not limited to, storage tanks; pressure vessels, shells, coils, tubes, housings, castings, casings, drain pans, panels, duct work; piping: hydraulic, hydronic, pneumatic, gas, or refrigerant; insulation; pipe covering; refractory material; fuses, unit cabinets; electrical wiring; ductwork or conduit; electrical distribution system; hydronic structural supports and similar items; the appearance of decorative casing or cabinets; damage sustained by other equipment or systems; and/or any failure, misadjustment or design deficiencies in other equipment or systems; (c) Damage, repairs or replacement of parts made necessary as a result of electrical power failure, low voltage, burned out main or branch fuses, low water pressure, vandalism, misuse or abuse, wear and tear, end of life failure, water damage, improper operation, unauthorized alteration of equipment, accident, acts or omissions of Customer or others, damage due to freezing weather, calamity, malicious act, or any Event of Force Majeure; (d) Any damage or malfunction resulting from vibration, electrolytic action, freezing, contamination, corrosion, erosion, or caused by scale or sludge on internal tubes except where water treatment protection services are provided by Company as part of this Agreement; (e) Furnishing any items of equipment, material, or labor/labour, or performing special tests recommended or required by insurance companies or federal, state, or local governments; (f) Failure or inadequacy of any structure or foundation supporting or surrounding the equipment to be worked on or any portion thereof; (g) Building access or alterations that might be necessary to repair or replace Customer's existing equipment; (h) The normal function of starting and stopping equipment or the opening and closing of valves, dampers or regulators normally installed to protect equipment against damage; (i) Valves that are not factory mounted: balance, stop, control, and other valves external to the device unless specifically included in the Agreement; (j) Any responsibility for design or redesign of the system or the Covered Equipment, obsolescence, safety tests, or removal or reinstallation of valve bodies and dampers; (k) Any services, claims, or damages arising out of Customer's failure to comply with its obligations under this Agreement; (l) Failure of Customer to follow manufacturer recommendations concerning teardown and internal inspection, overhaul and refurbishing of equipment; (m) Any claims, damages, losses, or expenses, arising from or related to conditions that existed in, on, or upon the premises before the effective date of this Agreement ("Pre-Existing

Sensitivity: Highly Confidential
© 2026 Trane Technologies. All Rights Reserved.
Confidential and Proprietary Information of Trane U.S. Inc.

Conditions"), including, without limitation, damages, losses, or expenses involving pre-existing building envelope issues, mechanical issues, plumbing issues, and/or indoor air quality issues involving mold/mould and/or fungi; (n) Replacement of refrigerant is excluded, unless replacement of refrigerant is expressly stated as included within the Services, in which case replacement shall in no event exceed the stated percentage of rated system charge per year expressly stated in the Services; (o) crane or rigging costs; (p) Any Services, claims, or damages arising out of refrigerant not supplied by Company. Customer shall be responsible for: (i) The cost of any additional replacement refrigerant; (ii) Operation of any equipment; and (iii) Any claims, damages, losses, or expenses, arising from or related to work done by or services provided by individuals or entities that are not employed by or hired by Company.

10. Limited Warranty. Company warrants that: (a) the material manufactured by Company and provided to Customer in performance of the Services is free from defects in material and manufacture for a period of 12 months from the earlier of the date of equipment start-up or replacement; and (b) the labor/labour portion of the Maintenance Services and Additional Work has been properly performed for a period of 90 days from date of completion (the "Limited Warranty"). Company obligations of equipment start-up, if any are stated in the Proposal, are coterminous with the Limited Warranty period. Defects must be reported to Company within the Limited Warranty period. Company's obligation under the Limited Warranty is limited to repairing or replacing the defective part at its option and to correcting any labor/labour improperly performed by Company. No liability whatsoever shall attach to Company until the Maintenance Services and Additional Work have been paid for in full. Exclusions from this Warranty include claims, losses, damages and expenses in any way connected with, related to or arising from failure or malfunction of equipment due to the following: wear and tear; end of life failure; corrosion; erosion; deterioration; Customer's failure to follow the Company-provided maintenance plan; unauthorized or improper maintenance; unauthorized or improper parts or material; refrigerant not supplied by Company; and modifications made by others to equipment. Company shall not be obligated to pay for the cost of lost refrigerant or lost product. Some components of equipment manufactured by Company may be warranted directly from the component supplier, in which case this Limited Warranty shall not apply to those components and any warranty of such components shall be the warranty given by such component supplier. Notwithstanding the foregoing, all warranties provided herein terminate upon termination or cancellation of this Agreement. Equipment, material, and/or parts that are not manufactured by Company ("Third-Party Products(s)") are not warranted by Company and have such warranties as may be extended by the respective manufacturer. **CUSTOMER UNDERSTANDS THAT COMPANY IS NOT THE MANUFACTURER OF ANY THIRD-PARTY PRODUCT(S) AND ANY WARRANTIES, CLAIMS, STATEMENTS, REPRESENTATIONS, OR SPECIFICATIONS ARE THOSE OF THE THIRD-PARTY MANUFACTURER, NOT COMPANY AND CUSTOMER IS NOT RELYING ON ANY WARRANTIES, CLAIMS, STATEMENTS, REPRESENTATIONS, OR SPECIFICATIONS REGARDING THE THIRD-PARTY PRODUUCT THAT MAY BE PROVIDED BY COMPANY OR ITS AFFILIATES, WHETHER ORAL OR WRITTEN. THE REMEDIES SET FORTH IN THIS LIMITED WARRANTY ARE THE SOLE AND EXCLUSIVE REMEDIES FOR WARRANTY CLAIMS PROVIDED BY COMPANY TO CUSTOMER UNDER THIS AGREEMENT AND ARE IN LIEU OF ALL OTHER WARRANTIES AND LIABILITIES, CONDITIONS AND REMEDIES, WHETHER IN CONTRACT, WARRANTY, STATUTE OR TORT (INCLUDING NEGLIGENCE), EXPRESS OR IMPLIED, IN LAW OR IN FACT, INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE AND/OR OTHERS ARISING FROM COURSE OF DEALING OR TRADE. COMPANY EXPRESSLY DISCLAIMS ANY REPRESENTATIONS OR WARRANTIES, ENDORSEMENTS OR CONDITIONS OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTIES OF QUALITY, FITNESS, MERCHANTABILITY, DURABILITY AND/OR OTHERS ARISING FROM COURSE OF DEALING OR TRADE OR REGARDING PREVENTION BY THE SCOPE OF SERVICES, OR ANY COMPONENT THEREOF. NO REPRESENTATION OR WARRANTY OF ANY KIND, INCLUDING WARRANTY OF MERCHANTABILITY OR FITNESS FOR PARTICULAR PURPOSE, REGARDING PREVENTING, ELIMINATING, REDUCING OR INHIBITING ANY MOLD, FUNGUS, BACTERIA, VIRUS, MICROBIAL GROWTH, OR ANY OTHER CONTAMINANTS (INCLUDING COVID-19 OR ANY SIMILAR VIRUS) (COLLECTIVELY, "CONTAMINANTS"), WHETHER INVOLVING OR IN CONNECTION WITH EQUIPMENT, ANY COMPONENT THEREOF, SERVICES OR OTHERWISE. IN NO EVENT SHALL COMPANY HAVE ANY LIABILITY FOR THE PREVENTION, ELIMINATION, REDUCTION OR INHIBITION OF THE GROWTH OR SPREAD OF SUCH CONTAMINANTS INVOLVING OR IN CONNECTION WITH ANY EQUIPMENT, THIRD-PARTY PRODUCT, OR ANY COMPONENT THEREOF, SERVICES OR OTHERWISE AND CUSTOMER HEREBY SPECIFICALLY ACKNOWLEDGES AND AGREES THERETO.**

11. Indemnity. To the maximum extent permitted by law, Company and Customer shall indemnify and hold harmless each other from any and all claims, actions, costs, expenses, damages and liabilities, including reasonable attorneys' fees, resulting from death or bodily injury or damage to real or personal property, to the extent caused by the negligence or misconduct of the indemnifying party, and/or its respective employees or other authorized agents in connection with their activities within the scope of this Agreement. Neither party shall indemnify the other against claims, damages, expenses, or liabilities to the extent attributable to the acts or omissions of the other party or third parties. If the parties are both at fault, the obligation to indemnify shall be proportional to their relative fault. The duty to indemnify and hold harmless will continue in full force and effect, notwithstanding the expiration or early termination of this Agreement, with respect to any claims based on facts or conditions that occurred prior to expiration or termination of this Agreement.

12. Limitation of Liability. NOTWITHSTANDING ANYTHING TO THE CONTRARY, NEITHER PARTY SHALL BE LIABLE FOR SPECIAL, INCIDENTAL, LIQUIDATED, INDIRECT, OR CONSEQUENTIAL LOSSES OR DAMAGES OF ANY KIND (INCLUDING WITHOUT LIMITATION REFRIGERANT LOSS, PRODUCT LOSS, LOST REVENUE OR PROFITS, OR LIABILITY TO THIRD PARTIES), OR CONTAMINANTS LIABILITIES, OR PUNITIVE DAMAGES WHETHER BASED IN CONTRACT, WARRANTY, STATUTE, TORT (INCLUDING NEGLIGENCE), STRICT LIABILITY, INDEMNITY OR ANY OTHER LEGAL THEORY OR FACTS. NOTWITHSTANDING ANY OTHER PROVISION OF THIS AGREEMENT, THE TOTAL AND AGGREGATE LIABILITY OF THE COMPANY TO THE CUSTOMER WITH RESPECT TO ANY AND ALL CLAIMS CONNECTED WITH, RELATED TO OR ARISING FROM THE PERFORMANCE OR NON-PERFORMANCE OF THIS AGREEMENT, WHETHER BASED IN CONTRACT, WARRANTY, STATUTE, TORT (INCLUDING NEGLIGENCE), STRICT LIABILITY, INDEMNITY OR ANY OTHER LEGAL THEORY OR FACTS, SHALL NOT EXCEED THE COMPENSATION RECEIVED BY COMPANY OVER THE 12 MONTH PERIOD PRECEDING THE DATE OF OCCURRENCE FOR THE SERVICES AND ADDITIONAL WORK FOR THE LOCATION WHERE THE LOSS OCCURRED. IN NO EVENT SHALL COMPANY BE LIABLE FOR ANY DAMAGES (WHETHER DIRECT OR INDIRECT) RESULTING FROM MOLD/MOULD, FUNGUS, BACTERIA, MICROBIAL GROWTH, OR OTHER CONTAMINANTS OR AIRBORNE BIOLOGICAL AGENTS. TO THE MAXIMUM EXTENT ALLOWED BY LAW, COMPANY SHALL NOT BE LIABLE FOR ANY OF THE FOLLOWING IN CONNECTION WITH PROVIDING THE INTELLIGENT SERVICES: INTERRUPTION, DELETION, DEFECT, DELAY IN OPERATION OR TRANSMISSION; CUSTOMER'S NETWORK SECURITY; COMPUTER VIRUS; COMMUNICATION FAILURE; THEFT OR DESTRUCTION OF DATA; GAPS IN DATA COLLECTED; AND UNAUTHORIZED ACCESS TO CUSTOMER'S DATA OR COMMUNICATIONS NETWORK.

13. CONTAMINANTS LIABILITY.

The transmission of COVID-19 may occur in a variety of ways and circumstances, many of the aspects of which are currently not known. HVAC systems, products, services, and other offerings have not been tested for their effectiveness in reducing the spread of COVID-19, including through the air in closed environments. **IN NO EVENT WILL COMPANY BE LIABLE UNDER THIS AGREEMENT OR OTHERWISE FOR ANY INDEMNIFICATION, ACTION OR CLAIM, WHETHER BASED ON WARRANTY, CONTRACT, TORT OR OTHERWISE, FOR ANY BODILY INJURY (INCLUDING DEATH) DAMAGE TO PROPERTY, OR ANY OTHER LIABILITIES, DAMAGES OR COSTS RELATED TO CONTAMINANTS (INCLUDING THE SPREAD, TRANSMISSION OR CONTAMINATION THEREOF) (COLLECTIVELY, "CONTAMINANTS LIABILITIES") AND CUSTOMER HEREBY EXPRESSLY RELEASES COMPANY FROM ANY SUCH CONTAMINANTS LIABILITIES.**

14. Asbestos and Hazardous Materials. The Services expressly exclude any identification, abatement, cleanup, control, disposal, removal, or other work connected with asbestos polychlorinated biphenyl ("PCB"), or other hazardous materials (collectively, "Hazardous Materials"). Customer warrants and represents that there are no Hazardous Materials on the premises that will in any way affect Company's performance, except as set forth in a writing signed by Company disclosing the existence and location of any Hazardous Materials in all areas within which Company will be performing. Should Company become aware of or suspect the presence of Hazardous Materials, Company may immediately stop work in the affected area and notify Customer. Customer will be responsible for correcting the condition in accordance with all applicable laws and regulations. Customer shall be exclusively responsible for and shall indemnify and hold harmless Company (including its employees, agents and subcontractors) from and against any loss, claim, liability, fees, penalties, injury (including death) or liability of any nature, and the payment thereof, arising out of or relating to any Hazardous Materials on or about the premises, not brought onto the premises by Company. Company shall be required to resume performance only in the absence of Hazardous Materials or when the affected area has been rendered harmless. In no event shall Company be obligated to transport or handle Hazardous Materials, provide any notices to any governmental agency, or examine the premises site for the presence of Hazardous Materials.

15. Insurance. Company agrees to maintain the following insurance during the term of this Agreement with limits not less than shown below and will, upon request from Customer, provide a Certificate of evidencing the following coverage:

Commercial General Liability	$2,000,000 per occurrence
Automobile Liability	$2,000,000 CSL
Workers' Compensation	Statutory Limits

Sensitivity: Highly Confidential
© 2026 Trane Technologies. All Rights Reserved.
Confidential and Proprietary Information of Trane U.S. Inc.

If Customer has requested to be named as an additional insured under Company's insurance policy, Company will do so but only subject to Company's manuscript additional insured endorsement under its primary Commercial General Liability policies. In no event does Company or its insurer waive rights of subrogation.

16. Force Majeure. Company's duty to perform under this Agreement is contingent upon the non-occurrence of an Event of Force Majeure. If Company is unable to carry out any material obligation under this Agreement due to an Event of Force Majeure, this Agreement shall at Company's election (i) remain in effect but Company's obligations shall be suspended until the uncontrollable event terminates or (ii) be terminated upon 10 days' notice to Customer, in which event Customer shall pay Company for all parts of the Services furnished to the date of termination. An "Event of Force Majeure" shall mean any cause or event beyond the control of Company. Without limiting the foregoing, "Event of Force Majeure" includes: acts of God; acts of terrorism, war or the public enemy; flood; earthquake; lightning; tornado; storm; fire; civil disobedience; pandemic; insurrections; riots; labor/labour disputes; labor/labour or material shortages from the usual sources of supply; sabotage; restraint by court order or public authority (whether valid or invalid), and action or non-action by or inability to obtain or keep in force the necessary governmental authorizations, permits, licenses, certificates or approvals if not caused by Company; and the requirements of any applicable government in any manner that diverts either the material or the finished product to the direct or indirect benefit of the government.

17. Maintenance Services Other Than Solely Scheduled Service. If Company's Maintenance Services hereunder are not limited solely to Scheduled Service, the following provisions shall also apply: (a) Required restoration shall be performed by Customer at its cost prior to Company being obligated to perform hereunder; (b) any changes, adjustments, service or repairs made to the Equipment by any party other than Company, unless approved by Company in writing, may, at Company's option, terminate Company's obligation to render further service to the Equipment so affected; in such case no refund of any portion of the Service Fees shall be made; and (c) Customer shall (i) promptly notify Company of any unusual performance of Equipment; (ii) permit only Company personnel to repair or adjust Equipment and/or controls during the Term or a Renewal Term; and (iii) utilize qualified personnel to properly operate the Equipment in accordance with the applicable operating manuals and recommended procedures.

18. General. Except as provided below, to the maximum extent provided by law, this Agreement is made and shall be interpreted and enforced in accordance with the laws of the state or province in which Company performs the Services. Any dispute arising under or relating to this Agreement shall be decided by litigation in a court of competent jurisdiction located in the state or province in which the Services are performed. To the extent the premises are owned and/or operated by any agency of the United States Federal Government, determination of any substantive issue of law shall be according to the United States Federal common law of Government contracts as enunciated and applied by United States Federal judicial bodies and boards of contract appeals of the United States Federal Government. This Agreement contains all of the agreements, representations and understandings of the parties and supersedes all previous understandings, commitments or agreements, oral or written, related to the Services. If any term or condition of this Agreement is invalid, illegal or incapable of being enforced by any rule of law, all other Terms of this Agreement will nevertheless remain in full force and effect as long as the economic or legal substance of the transaction contemplated hereby is not affected in a manner adverse to any party hereto. Customer may not assign, transfer, or convey this Agreement, or any part hereof, without the written consent of Company. Subject to the foregoing, this Agreement shall bind and inure to the benefit of the parties hereto and their permitted successors and assigns. This Agreement may be executed in several counterparts, each of which when executed shall be deemed to be an original, but all together shall constitute but one and the same Agreement. A fully executed facsimile copy hereof or the several counterparts shall suffice as an original. Customer may not assign, transfer, or convey this Agreement, or any part hereof, or its right, title, or interest herein, without the written consent of Company. Subject to the foregoing, this Agreement shall be binding upon and inure to the benefit of the parties' respective successors and assigns. No failure or delay by the Company in enforcing any right or exercising any remedy under this Agreement shall be deemed to be a waiver by the Company of any right or remedy.

19. Federal Requirements. The Parties shall comply with all United States federal labor law obligations under 29 CFR part 471, appendix A to subpart A. THE FOLLOWING PROVISIONS ARE INCORPORATED HEREIN BY REFERENCE: Executive Order 11701 and 41 CFR §§ 60-250.5(a), 60-300.5; Executive Order 11758 and 41 CFR § 60-741.5(a); U.S. immigration laws, including the L-1 Visa Reform Act of 2004 and the H-1B Visa Reform Act of 2004; and Executive Order 13496. The Parties shall abide by the requirements of 41 CFR 60-300.5(a) and 60-741.5(a). These regulations prohibit discrimination against qualified individuals based on their status as protected veterans or individuals with disabilities. Moreover, these regulations require that covered prime contractors and subcontractors take affirmative action to employ and advance in employment individuals without regard to protected veteran status or disability. The Parties certify that they do not operate any programs promoting DEI that violate any applicable United States anti-discrimination laws and acknowledge and agree that their compliance with all applicable federal anti-discrimination laws is material to the federal government's payment decisions. The Parties acknowledge and agree that their employment, procurement, and contracting practices shall not consider race, color, sex, sexual preference, religion, or national origin in ways that violate United States federal civil rights laws.

20. Export Laws. The obligation of Company to supply Equipment and/or Services under this Agreement is subject to the ability of Company to supply such items consistent with applicable laws and regulations of the United States and other governments. Company reserves the right to refuse to enter into or perform any order, and to cancel any order, under this Agreement if Company in its sole discretion determines that performance of the transaction to which such order relates would violate any such applicable law or regulation. Customer will pay all handling and other similar costs from Company's factories including the costs of freight, insurance, export clearances, import duties and taxes. Customer will be "exporter of record" with respect to any export from the United States of America and will perform all compliance and logistics functions in connection therewith and will also comply with all applicable laws, rules, and regulations. Customer understands that Company and/or the Equipment and/or Services are subject to laws and regulations of the United States of America which may require licensing or authorization for and/or prohibit export, re-export or diversion of Company's Equipment and/or Services to certain countries, and agrees it will not knowingly assist or participate in any such diversion or other violation of applicable United States of America laws and regulations. Customer agrees to hold harmless and indemnify Company for any damages resulting to Customer or Company from a breach of this paragraph by Customer. Furthermore, the Customer acknowledges that the Company's Equipment are subject to export control and sanction laws and regulations, including but not limited to the U.S. Export Administration Regulations (EAR) (15 CFR 730-774) and the Foreign Asset Control Regulations (31 CFR 500) ("laws and regulations"). The Customer agrees to comply with all such laws and regulations. The Customer will not use or divert the Equipment for any prohibited end-uses, such as the proliferation of weapons of mass destruction. The Customer also agrees not to re-export or transfer the Equipment in violation of export control laws.

21. U.S. Government Services. The following provision applies only to direct sales by Company to the US Government. The Parties acknowledge that all items or services ordered and delivered under this Agreement are Commercial Items as defined under Part 12 of the Federal Acquisition Regulation (FAR). In particular, Company agrees to be bound only by those Federal contracting clauses that apply to "commercial" suppliers and that are contained in FAR 52.212-5(e)(1). Company complies with 52.219-8 or 52.219-9 in its service and installation contracting business. **The following provision applies only to indirect sales by Company to the US Government**. As a Commercial Item Subcontractor, Company accepts only the following mandatory flow down provisions: 52.219-8; 52.222-26; 52.222-35; 52.222-36; 52.222-39; 52.247-64. If the Services are in connection with a U.S. Government contract, Customer certifies that it has provided and will provide current, accurate, and complete information, representations and certifications to all government officials, including but not limited to the contracting officer and officials of the Small Business Administration, on all matters related to the prime contract, including but not limited to all aspects of its ownership, eligibility, and performance. Anything herein notwithstanding, Company will have no obligations to Customer unless and until Customer provides Company with a true, correct, and complete executed copy of the prime contract. Upon request, Customer will provide copies to Company of all requested written communications with any government official related to the prime contract prior to or concurrent with the execution thereof, including but not limited to any communications related to Customer's ownership, eligibility or performance of the prime contract. Customer will obtain written authorization and approval from Company prior to providing any government official any information about Company's performance of the Services that are the subject of the Proposal or this Agreement, other than the Proposal or this Agreement.

22. Limited Waiver of Sovereign Immunity. If Customer is an Indian tribe (in the U.S.) or a First Nation or Band Council (in Canada), Customer, whether acting in its capacity as a government, governmental entity, a duly organized corporate entity or otherwise, for itself and for its agents, successors, and assigns: (1) hereby provides this limited waiver or its sovereign immunity as to any damages, claims, lawsuit, or cause of action (herein "Action") brought against Customer by Company and arising or alleged to arise out of the furnishing by Company of any product or service under this Agreement, whether such Action is based in contract, tort, strict liability, civil liability or any other legal theory; (2) agrees that jurisdiction and venue for any such Action shall be proper and valid (a) if Customer is in the U.S., in any state or United States court located in the state in which Company is performing this Agreement or (b) if Customer is in Canada, in the superior court of the province or territory in which the work was performed; (3) expressly consents to such Action, and waives any objection to jurisdiction or venue: (4) waives any requirement of exhaustion of tribal court or administrative remedies for any Action arising out of or related to this Agreement; and (5) expressly acknowledges and agrees that Company is not subject to the jurisdiction of Customer's tribal court or any similar tribal forum, that Customer will not bring any action against Company in tribal court, and that Customer will not avail itself of any ruling or direction of the tribal court permitting or directing it to suspend its payment or other obligations under this Agreement. The individual signing on behalf of Customer warrants and represents that such individual

© 2026 Trane Technologies. All Rights Reserved.
Confidential and Proprietary Information of Trane U.S. Inc.

is duly authorized to provide this waiver and enter into this Agreement and that this Agreement constitutes the valid and legally binding obligation of Customer, enforceable in accordance with its terms.

SECURITY ADDENDUM

This Addendum shall be applicable to the sale, installation and use of Trane equipment and the sale and provision of Trane services. "Trane" shall mean Trane U.S. Inc. for sales and services in the United States, or Trane Canada ULC for sales and services in Canada.

1. Definitions. All terms used in this Addendum shall have the meaning specified in the Agreement unless otherwise defined herein. For the purposes of this Addendum, the following terms are defined as follows:

   "Customer Data" means Customer account information as related to the Services only and does not include HVAC Machine Data or personal data. Trane does not require, nor shall Customer provide personal data to Trane under the Agreement. Such data is not required for Trane to provide its Equipment and/or Services to the Customer.

   "Equipment" shall have the meaning set forth in the Agreement.

   "HVAC Machine Data" means data generated and collected from the product or furnished service without manual entry. HVAC Machine Data is data relating to the physical measurements and operating conditions of a HVAC system, such as but not limited to, temperatures, humidity, pressure, HVAC equipment status. HVAC Machine Data does not include Personal Data and, for the purposes of this agreement, the names of users of Trane's controls products or hosted applications shall not be Personal Data, if any such user chooses to use his/her name(s) in the created accounts within the controls product (e.g., firstname.lastname@address.com). HVAC Machine Data may be used by Trane: (a) to provide better support services and/or products to users of its products and services; (b) to assess compliance with Trane terms and conditions; (c) for statistical or other analysis of the collective characteristics and behaviors of product and services users; (d) to backup user and other data or information and/or provide remote support and/or restoration; (e) to provide or undertake: engineering analysis; failure analysis; warranty analysis; energy analysis; predictive analysis; service analysis; product usage analysis; and/or other desirable analysis, including, but not limited to, histories or trends of any of the foregoing; and (f) to otherwise understand and respond to the needs of users of the product or furnished service. "Personal Data" means data and/or information that is owned or controlled by Customer, and that names or identifies, or is about a natural person, such as: (i) data that is explicitly defined as a regulated category of data under any data privacy laws applicable to Customer; (ii) non-public personal information ("NPI") or personal information ("PI"), such as national identification number, passport number, social security number, social insurance number, or driver's license number; (iii) health or medical information, such as insurance information, medical prognosis, diagnosis information, or genetic information; (iv) financial information, such as a policy number, credit card number, and/or bank account number; (v) personally identifying technical information (whether transmitted or stored in cookies, devices, or otherwise), such as IP address, MAC address, device identifier, International Mobile Equipment Identifier ("IMEI"), or advertising identifier; (vi) biometric information; and/or (vii) sensitive personal data, such as, race, religion, marital status, disability, gender, sexual orientation, geolocation, or mother's maiden name.

   "Security Incident" shall refer to (i) a compromise of any network, system, application or data in which Customer Data has been accessed or acquired by an unauthorized third party; (ii) any situation where Trane reasonably suspects that such compromise may have occurred; or (iii) any actual or reasonably suspected unauthorized or illegal Processing, loss, use, disclosure or acquisition of or access to any Customer Data.

   "Services" shall have the meaning set forth in the Agreement.

2. HVAC Machine Data; Access to Customer Extranet and Third-Party Systems. If Customer grants Trane access to HVAC Machine Data via web portals or other non-public websites or extranet services on Customer's or a third party's website or system (each, an "Extranet"), Trane will comply with the following:
   a. Accounts. Trane will ensure that Trane's personnel use only the Extranet account(s) designated by Customer and will require Trane personnel to keep their access credentials confidential.
   b. Systems. Trane will access the Extranet only through computing or processing systems or applications running operating systems managed by Trane that include: (i) system network firewalls; (ii) centralized patch management; (iii) operating system appropriate anti-malware software; and (iv) for portable devices, full disk encryption.
   c. Restrictions. Unless otherwise approved by Customer in writing, Trane will not download, mirror, or permanently store any HVAC Machine Data from any Extranet on any medium, including any machines, devices, or servers.
   d. Account Termination. Trane will terminate the account of each of Trane's personnel in accordance with Trane's standard practices after any specific Trane personnel who has been authorized to access any Extranet (1) no longer needs access to HVAC Machine Data or (2) no longer qualifies as Trane personnel (e.g., the individual leaves Trane's employment).
   e. Third-Party Systems. Trane will provide Customer prior notice before it uses any third-party system that stores or may otherwise have access to HVAC Machine Data, unless (1) the data is encrypted and (2) the third-party system will not have access to the decryption key or unencrypted "plain text" versions of the HVAC Machine Data.

3. Customer Data; Confidentiality. Trane shall keep confidential, and shall not access or use any Customer Data and information that is marked confidential or by its nature is considered confidential ("Customer Confidential Information") other than for the purpose of providing the Equipment and Services, and will disclose Customer Confidential Information only: (i) to Trane's employees and agents who have a need to know to perform the Services, (ii) as expressly permitted or instructed by Customer, or (iii) to the minimum extent required to comply with applicable law, provided that Trane (1) provides Customer with prompt written notice prior to any such disclosure, and (2) reasonably cooperate with Customer to limit or prevent such disclosure.

4. Customer Data; Compliance with Laws. Trane agrees to comply with laws, regulations governmental requirements and industry standards and practices relating to Trane's processing of Customer Confidential Information (collectively, "Laws").

5. Customer Data; Information Security Management. Trane agrees to establish and maintain an information security and privacy program, consistent with applicable HVAC equipment industry practices that complies with this Addendum and applicable Laws ("Information Security Program"). The Information Security Program shall include appropriate physical, technical and administrative safeguards, including any safeguards and controls agreed by the Parties in writing, sufficient to protect Customer systems, and Customer's Confidential Information from unauthorized access, destruction, use, modification, or disclosure. The Information Security Program shall include appropriate, ongoing training and awareness programs designed to ensure that Trane's employees and agents, and others acting on Trane's, behalf are aware of and comply with the Information Security Program's policies, procedures, and protocols.

6. Monitoring. Trane shall monitor and, at regular intervals consistent with HVAC equipment industry practices, test and evaluate the effectiveness of its Information Security Program. Trane shall evaluate and promptly adjust its Information Security Program in light of the results of the testing and monitoring, any material changes to its operations or business arrangements, or any other facts or circumstances that Trane knows or reasonably should know may have a material impact on the security of Customer Confidential Information, Customer systems and Customer property.

7. Audits. Customer acknowledges and agrees that the Trane SOC2 audit report will be used to satisfy any and all audit/inspection requests/requirements by or on behalf of Customer. Trane will make its SOC2 audit report available to Customer upon request and with a signed nondisclosure agreement.

8. Information Security Contact. Trane's information security contact is Local Sales Office.

Sensitivity: Highly Confidential
© 2026 Trane Technologies. All Rights Reserved.
Confidential and Proprietary Information of Trane U.S. Inc.

9. Security Incident Management. Trane shall notify Customer after the confirmation of a Security Incident that affects Customer Confidential Information, Customer systems, and Customer property. The written notice shall summarize the nature and scope of the Security Incident and the corrective action already taken or planned.

10. Threat and Vulnerability Management. Trane regularly performs vulnerability scans and addresses detected vulnerabilities on a risk basis. Periodically, Trane engages third parties to perform network vulnerability assessments and penetration testing. Vulnerabilities will be reported in accordance with Trane's cybersecurity vulnerability reported process. Trane periodically provides security updates and software upgrades.

11. Security Training and Awareness. New employees are required to complete security training as part of the new hire process and receive annual and targeted training (as needed and appropriate to their role) thereafter to help maintain compliance with Security Policies, as well as other corporate policies, such as the Trane Code of Conduct. This includes requiring Trane employees to annually re-acknowledge the Code of Conduct and other Trane policies as appropriate. Trane conducts periodic security awareness campaigns to educate personnel about their responsibilities and provide guidance to create and maintain a secure workplace.

12. Secure Disposal Policies. Trane will maintain policies, processes, and procedures regarding the disposal of tangible and intangible property containing Customer Confidential Information so that wherever possible, Customer Confidential Information cannot be practicably read or reconstructed.

13. Logical Access Controls- Trane employs internal monitoring and logging technology to help detect and prevent unauthorized access attempts to Trane's corporate networks and production systems. Trane's monitoring includes a review of changes affecting systems' handling authentication, authorization, and auditing, and privileged access to Trane production systems. Trane uses the principle of "least privilege" (meaning access denied unless specifically granted) for access to customer data.

14. Contingency Planning/Disaster Recovery. Trane will implement policies and procedures required to respond to an emergency or other occurrence (i.e., fire, vandalism, system failure, natural disaster) that could damage Customer Data or any system that contains Customer Data. Procedures include the following:
    a. Data backups; and
    b. Formal disaster recovery plan. Such disaster recovery plan is tested at least annually.

15. Return of Customer Data. If Trane is responsible for storing or receiving Customer Data, Trane shall, at Customer's sole discretion, deliver Customer Data to Customer in its preferred format within a commercially reasonable period of time following the expiration or earlier termination of the Agreement or, such earlier time as Customer requests, securely destroy or render unreadable or undecipherable each and every original and copy in every media of all Customer's Data in Trane's possession, custody or control no later than [90 days] after receipt of Customer's written instructions directing Trane to delete the Customer Data.

16. Background Checks. Trane shall take reasonable steps to ensure the reliability of its employees or other personnel having access to the Customer Data, including the conducting of appropriate background and/or verification checks in accordance with Trane policies.

17. DISCLAIMER OF WARRANTIES. EXCEPT FOR ANY APPLICABLE WARRANTIES IN THE AGREEMENT, THE SERVICES ARE PROVIDED "AS IS", WITH ALL FAULTS, AND THE ENTIRE RISK AS TO SATISFACTORY QUALITY, PERFORMANCE, ACCURACY AND EFFORT AS TO SUCH SERVICES SHALL BE WITH CUSTOMER. TRANE DISCLAIMS ANY AND ALL OTHER EXPRESS OR IMPLIED REPRESENTATIONS AND WARRANTIES WITH RESPECT TO THE SERVICES AND THE SERVICES PROVIDED HEREUNDER, INCLUDING ANY EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR THAT THE SERVICES WILL OPERATE ERROR-FREE OR UNINTERRUPTED OR RETURN/RESPONSE TO INQUIRIES WITHIN ANY SPECIFIC PERIOD OF TIME.

APPENDIX

SAFETY

Since 2003, U.S. Bureau of Labor Statistics records have consistently shown the Total Recordable Incident Rate (TRIR) and Days Away From Work (DAFW) for Trane have been significantly lower than those for HVAC repair and maintenance contractors and specialty trade contractors (construction). The company's safety culture in America is unparalleled in the building service industry, with proven results in the continuous reduction of injury rates. Trane incident rates (OSHA) are consistently 50 to 70 percent below the industry average.

A wide range of safety training and resources are available to Trane technicians, including:

- Safety training—20 hours per year
- Electrical safety—NFPA 70E compliant, electrical PPE
- Fall protection
- Ergonomics
- USDOT compliance
- Refrigerant management training

ENVIRONMENTAL PRACTICES

Trane policies and procedures are compliant with all federal and state regulations. Refrigerant (and substitutes) handling, storage and leak repair processes are compliant with Environmental Protection Agency regulation 40 CFR Part 82. Service technicians are Universal-certified and use only certified recovery equipment.

Refrigerant Management Software (RMS) captures, manages and reports all refrigerant activity at your site. Upon request, Trane can send you an anual report documenting all refrigerant activity that we performed for each piece of equipment during the past 12 months.

Trane adheres to all environmental regulations when removing used oil from refrigeration units.

CONSISTENCY

Nationwide, Trane technicians follow documented, formal processes that ensure uniform service delivery. As an OEM, Trane has developed exclusive service procedures which provide the most reliable outcomes, and extended equipment longevity, at the most cost-effective price.

- Exclusive service work flow processes provide detailed steps and information encompassing parts, materials, tools and sequence of execution
- Additional steps addressing safety, quality control, work validation and environmental compliance
- Technicians must consistently reference documented processes to ensure no critical steps are skipped or omitted
- Applicable service processes meet or exceed ASHRAE 180-2008 Standard Practice for Inspection and Maintenance of Commercial Building HVAC Systems

CUSTOMER SERVICE FLOWS

The following Customer Service Flows provide additional service description detail for Covered Equipment. Note: There may be differences per the agreement in the work being performed between sites and the equipment on those sites. This section clarifies differences in the work being performed between sites and the equipment on those sites:

Service 1: Air Cooled Package Heat Pump Cooling Pre-Season Annual Start Up
Description

- Unitary Visual Equipment Inspection
- Lock Out Tag Out (Standard)
- Supply Fan Inspection
- Meg Supply Fan Without VFD
- Meg Compressor Motor
- Electrical Inspection
- Filter Inspection And Change
- Condensate Drip Pan Treatment
- Condenser Coil Cleaning (Light Commercial)
- Condenser Fan Check
- Remove Lock Out Tag Out
- Inspect Reversing Valve
- Start Up Seasonal Cooling

Service 2: Air Cooled Package GE Cooling Pre-Season Annual Start Up
Description

- Unitary Visual Equipment Inspection
- Lock Out Tag Out (Standard)
- Supply Fan Inspection
- Meg Supply Fan Without VFD
- Meg Compressor Motor
- Electrical Inspection
- Filter Inspection And Change
- Condensate Drip Pan Treatment
- Condenser Coil Cleaning (Light Commercial)
- Condenser Fan Check
- Remove Lock Out Tag Out
- Inspect Reversing Valve
- Start Up Seasonal Cooling

Service 3: Air Cooled Package Heat Pump Quarterly Inspection
Description

- Unitary Visual Equipment Inspection
- Supply Fan Inspection Including LOTO
- Filter Inspection And Change
- Log Unit (Unitary)

Service 4: Air Cooled Package GE Quarterly Inspection
Description

- Unitary Visual Equipment Inspection
- Supply Fan Inspection Including LOTO
- Filter Inspection And Change
- Log Unit (Unitary)

Service 5: Air Handler Annual Inspection
Description

- AHU Visual Equipment Inspection
- Lock Out Tag Out (Standard)
- Electrical Inspection (AHU)
- Supply Fan and Motor Inspection (Air Handler)
- Meg Supply Fan With VFD
- Coil Inspection (Climate Changer)
- Air Handling Unit Cleaning
- Condensate Drip Pan Treatment
- Air Handler Filter Inspection

Sensitivity: Highly Confidential
© 2026 Trane Technologies. All Rights Reserved.
Confidential and Proprietary Information of Trane U.S. Inc.

- Return Unit to Normal Operation
- Manual Log With Electronic Device

Service 6: Air Handler Quarterly Inspection
Description
- AHU Visual Equipment Inspection
- Lock Out Tag Out (Standard)
- Supply Fan and Motor Inspection (Air Handler)
- Condensate Inspection
- Coil Inspection (Climate Changer)
- Air Handler Filter Inspection
- Remove Lock Out Tag Out
- Return Unit to Normal Operation

Service 7: Boiler Annual Maintenance
Description
- Water Boiler Maintenance Safety Check
- Shut Down Boiler
- Drain Boiler
- Boiler Internal Cleaning Natural Gas, Propane, Oil (Commercial and Industrial)
- Boiler Internal Inspection Natural Gas/Propane/Oil (Commercial and Industrial)
- External Cleaning for Natural Gas/Propane Water Boiler (Commercial and Industrial)
- Burner Safety Inspection for Natural Gas/Propane Water Boilers (Commercial and Industrial)
- Thermo Shock
- Boiler External Inspection for Water Boilers (Commercial and Industrial) (Natural Gas/Propane)

Service 8: Boiler Quarterly Maintenance
Description
- Water Boiler Maintenance Safety Check
- Boiler External Inspection for Water Boilers (Commercial and Industrial) (Natural Gas/Propane)

Service 9: CGAM Annual Inspection
Description
- Customer Notification
- Visual Condenser Coil Check
- Lock Out Tag Out (Standard)
- Electrical Inspection
- Meg Compressor Motor(s)
- Compressor Oil Level Check- Air-Cooled Scroll
- Leak Test (High Pressure)
- Strainer Maintenance - BPHE Units
- Inspect Piping - CGAM
- TechView/KestrelView Connection
- Review Diagnostics
- Check Fans for Rubbing
- Check EXV Sight Glass
- Run Service Report From TechView
- Techview/Kestrel View Disconnection
- Clean and Repaint

Service 10: CGAM Quarterly Inspection
Description
- Customer Notification of Unit Maintenance
- Visual Condenser Coil Check
- Shut Down Unit
- Compressor Oil Level Check- Air-Cooled Scroll
- Return Unit to Normal Operation
- TechView/KestrelView Connection
- Check Fans for Rubbing
- Review Diagnostics
- Check EXV Sight Glass
- Run Service Report From TechView
- Techview/Kestrel View Disconnection

Sensitivity: Highly Confidential

Confidential and Proprietary Information of Trane U.S. Inc.

Service 11: Annual Mechanical-Draft Cooling Tower Inspect and Clean (1 Cell)
Description

- Inspect External Condition Of Tower
- Visual Inspection Of Mechanical Operating Unit
- Verify Water Level
- Tower Upper And Lower Basin Inspection And Clean
- Check Condition Of Gear Box
- Change Oil In Cooling Tower Gear Box
- Fan Check For Cooling Tower
- Cooling Tower Motor Check And Lube

Service 12: Annual Mechanical-Draft Cooling Tower Inspect and Clean (1 Cell)
Description

- Inspect External Condition Of Tower
- Visual Inspection Of Mechanical Operating Unit
- Verify Water Level
- Tower Upper And Lower Basin Inspection And Clean
- Check Condition Of Gear Box
- Change Oil In Cooling Tower Gear Box
- Fan Check For Cooling Tower
- Cooling Tower Motor Check And Lube
- Basin Heater Inspection On Cooling Tower

Service 13: Quarterly Mechanical-Draft Cooling Tower (1 Cell)
Description

- Inspect External Condition Of Tower
- Visual Inspection Of Mechanical Operating Unit
- Verify Water Level
- Tower Upper And Lower Basin Inspection Only
- Check Condition Of Gear Box
- Cooling Tower Motor Check And Lube

Service 14: Ductless High Wall Indoor Annual Inspection
Description

- Check Electrical Connections (Indoor Unit)
- Clean Air Filter
- Clean Coil
- Clean Condensate Drain Pan/Pipe
- Leak Test Inspection (Commercial Condensing Unit)
- Verify Operating Voltages
- Verify Incoming Voltages
- Measure Amperage of Motor
- Log Unit and Operation Check (Ductless)
- Check Controller Operation
- Recommend Wireless Remote Control Batteries

Service 15: Ductless High Wall Indoor Quarterly Inspection
Description

- Visual Inspection for Abnormality, Damage and Missing Hardware
- Clean Air Filter
- Evaporator Coil Check (Generic)
- Clean Condensate Drain Pan/Pipe

Service 16: Air Cooled Condenser Annual Inspection
Description

- Customer Notification
- Lock Out Tag Out Condenser
- Electrical Inspection
- Leak Test Inspection
- Condenser Coil Cleaning
- Condenser Fan Check
- Remove Lock Out Tag Out

Sensitivity: Highly Confidential
© 2026 Trane Technologies. All Rights Reserved.
Confidential and Proprietary Information of Trane U.S. Inc.

Service 17: Air Cooled Condenser Quarterly Inspection
Description
- Lock Out Tag Out Condenser
- Condenser Coil Check
- Unitary Visual Equipment Inspection
- Remove Lock Out Tag Out and Restore Power

Service 18: Fan Coil Unit Inspection
Description
- Fan Coil Unit Comprehensive Inspection

Service 19: M Series Annual
Description
- AHU Visual Equipment Inspection
- Lock Out Tag Out (Standard)
- Electrical Inspection (AHU)
- Supply Fan and Motor Inspection (Air Handler)
- Meg Supply Fan With VFD
- Air Handling Unit Cleaning
- Condensate Inspection
- Air Handler Filter Inspection
- Check Damper
- Start Up Seasonal Heating-Electric
- Return Unit to Normal Operation

Service 20: M Series Annual
Description
- AHU Visual Equipment Inspection
- Lock Out Tag Out (Standard)
- Electrical Inspection (AHU)
- Supply Fan and Motor Inspection (Air Handler)
- Meg Supply Fan With VFD
- Air Handling Unit Cleaning
- Condensate Inspection
- Heating Coil Cleaning
- Air Handler Filter Inspection
- Check Damper
- Start Up Seasonal Heating-Electric
- Return Unit to Normal Operation
- Manual Log With Electronic Device

Service 21: M Series Quarterly
Description
- AHU Visual Equipment Inspection
- Lock Out Tag Out (Standard)
- Remove Access Panels or Open Access Doors
- Supply Fan Belt Inspection
- Coil Inspection (Climate Changer)
- Air Handler Filter Inspection (CSAA)
- Reinstall Access Panels or Close Access Doors
- Remove Lock Out Tag Out
- Return Unit to Normal Operation

Service 22: M Series Quarterly
Description
- AHU Visual Equipment Inspection
- Lock Out Tag Out (Standard)
- Remove Access Panels or Open Access Doors
- Supply Fan Belt Inspection
- Coil Inspection (Climate Changer)
- Air Handler Filter Visual Inspection
- Reinstall Access Panels or Close Access Doors

Sensitivity: Highly Confidential

- Remove Lock Out Tag Out
- Return Unit to Normal Operation

Service 23: NTP De-Humidifier Maintenance
Description
- Clean Dehumidifier
- Clean Water Bucket
- Check Water Level Float

Service 24: Generic Exhaust Fan Maintenance
Description
- Fan Inspection

Service 25: Gas Furnace Annual Inspection
Description
- Customer Notification
- Initial Site Inspection
- Lock Out Tag Out (Standard)
- Start Up Seasonal Heating (Gas) Unitary
- Filter Inspection And Change
- Remove Lock Out Tag Out and Restore Power
- Manual Log

Service 26: NTP Packaged Terminal Air Conditioner Comprehensive Maintenance
Description
- Initial Site Inspection
- Electrical Inspection (PTAC)
- PTAC Cabinet Cleaning
- Condenser Coil Cleaning (PTAC)
- Remove Lock Out Tag Out and Restore Power
- Log Unit (PTAC)

Service 27: Generic Supply Fan Maintenance
Description
- Fan Inspection

Service 28: Unit Heater Maintenance
Description
- Unit Heater Electrical Inspection

Service 29: VAV Comprehensive Inspection
Description
- VAV Comprehensive Inspection

Service 30: Gas Furnace Quarterly Inspection
Description
- Customer Notification
- Initial Site Inspection
- Lock Out Tag Out (Standard)
- General Furnace Maintenance
- Filter Inspection And Change
- Remove Lock Out Tag Out and Restore Power
- Manual Log

Service 31: Custom Air Handler Cooling Pre-Season Annual Maintenance
Description
- Unitary Visual Equipment Inspection
- Filter Inspection and Change (Generic)
- Supply Fan and Motor Inspection (Belt Driven)
- Replace Belt(s) on Supply Fan (Per Fan)
- Electrical Inspection (Air Handler NTP)
- Log Unit (NTP Air Handler)

Service 32: Central Air Handler Cooling Pre-Season Annual Maintenance

Sensitivity: Highly Confidential
© 2026 Trane Technologies. All Rights Reserved.
Confidential and Proprietary Information of Trane U.S. Inc.

Description
- Unitary Visual Equipment Inspection
- Filter Inspection and Change (Generic)
- Supply Fan and Motor Inspection (Belt Driven)
- Replace Belt(s) on Supply Fan (Per Fan)
- Electrical Inspection (Air Handler NTP)
- Log Unit (NTP Air Handler)

Service 33: Modular Air Cooled Chiller Annual Maintenance (Up to 120 Tons)
Description
- Unitary Visual Equipment Inspection
- Electrical Inspection
- Condenser Physical (One) Fan Check (Generic Condensing Unit)
- Condenser Physical (One) Fan Check (Generic Condensing Unit)
- Condenser Physical (One) Fan Check (Generic Condensing Unit)
- Flow Device Check Generic
- Log Unit (NTP Generic Modular Chiller)

Service 34: Modular Air Cooled Chiller Annual Maintenance (Up to 120 Tons)
Description
- Unitary Visual Equipment Inspection
- Electrical Inspection
- Coil Cleaning Solution
- Condenser Physical (One) Fan Check (Generic Condensing Unit)
- Flow Device Check Generic
- Log Unit (NTP Generic Modular Chiller)

Service 35: Split System Air Handler Cooling Pre-Season Annual Maintenance (Includes Condenser)
Description
- Unitary Visual Equipment Inspection
- Filter Inspection and Change (Generic)
- Electrical Inspection (Air Handler NTP)
- Log Unit (NTP Air Handler)
- Lock Out Tag Out Condenser
- Condenser Coil Check (Generic)
- Condenser Physical (One) Fan Check (Generic Condensing Unit)
- Electrical Inspection (Light Commercial Condensing Unit)
- Log Unit (NTP Cooling)

Service 36: Split System Air Handler Cooling Pre-Season Annual Maintenance (Includes Condenser)
Description
- Unitary Visual Equipment Inspection
- Electrical Inspection (Air Handler NTP)
- Log Unit (NTP Air Handler)
- Lock Out Tag Out Condenser
- Condenser Coil Check (Generic)
- Condenser Physical (One) Fan Check (Generic Condensing Unit)
- Electrical Inspection (Light Commercial Condensing Unit)
- Log Unit (NTP Cooling)

Service 37: Split System Air Handler Cooling Pre-Season Annual Maintenance (Includes Condenser)
Description
- Unitary Visual Equipment Inspection
- Filter Inspection and Change (Generic)
- Electrical Inspection (Air Handler NTP)
- Log Unit (NTP Air Handler)
- Lock Out Tag Out Condenser
- Condenser Coil Check (Generic)
- Coil Cleaning Solution
- Condenser Physical (One) Fan Check (Generic Condensing Unit)
- Electrical Inspection (Light Commercial Condensing Unit)
- Log Unit (NTP Cooling)

WHEREAS, based on studies conducted by the City of Knoxville (the "City") and the Knoxville Convention and Visitors Bureau (dba Visit Knoxville) ("Visit Knoxville"), the City and Knox County (the "County") face significant challenges in both modernizing public golf facilities and addressing a substantial shortage of rectangular sports fields; and

WHEREAS, due to limited field availability, local sports organizations lack adequate space for weekly practices and league play, as well as for hosting large-scale tournaments and events for sports such as soccer, lacrosse, flag football, and ultimate frisbee; and

WHEREAS, at the same time, the current configuration of Knoxville Municipal Golf Course is not optimally designed to meet the evolving needs of the golfing community; and

WHEREAS, a proposed modernization concept would evaluate reconfiguring the golf course into a more accessible and market-responsive Par-3 and/or 9-Hole facility, while creating space for new rectangular sports fields to support a variety of recreational uses; and

WHEREAS, to advance this effort, the City and County propose partnering with The Sports Authority of the County of Knox and the City of Knoxville (the "Sports Authority") to solicit redevelopment proposals for the site, as further detailed in the attached Memorandum of Understanding; and

WHEREAS, the proposed Memorandum of Understanding will serve as a statement of the mutual intent of the parties with respect to undertaking the potential redevelopment of the site of the Knoxville Municipal Golf Course for use as a new modern golf course, sports field complex and ancillary supporting commercial facilities.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The Memorandum of Understanding among the City of Knoxville, Knox County, the Sports Authority, and Visit Knoxville, exploring the potential redevelopment and improvement of Knoxville Municipal Golf Course is hereby adopted and approved in substantive form as presented this date, a copy of which is attached to this Resolution and incorporated herein by reference.

BE IT FURTHER RESOLVED, the Memorandum of Understanding among the City of Knoxville, Knox County, the Sports Authority, and Visit Knoxville, exploring the potential redevelopment and improvement of Knoxville Municipal Golf Course shall be executed subject to such amendment or action not affecting the substantive provisions of the contract as may be required and approved by the Knox County Law Director.

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

MEMORANDUM OF UNDERSTANDING AMONG THE CITY OF KNOXVILLE, TENNESSEE, KNOX COUNTY, TENNESSEE, THE SPORTS AUTHORITY OF THE COUNTY OF KNOX AND THE CITY OF KNOXVILLE, TENNESSEE AND KNOXVILLE CONVENTION & VISITORS BUREAU, INC. EXPLORING THE POTENTIAL REDEVELOPMENT AND IMPROVEMENT OF KNOXVILLE MUNICIPAL GOLF COURSE

This memorandum of understanding (this "Memorandum of Understanding") will serve as a statement of the mutual intent of the parties acknowledging this Memorandum of Understanding with respect to undertaking the potential redevelopment of the site of the Knoxville Municipal Golf Course for use as a new modern golf course, sports field complex and ancillary supporting commercial facilities (the "Project"). The Project would be undertaken primarily through The Sports Authority of the County of Knox and City of Knoxville, Tennessee (the "Sports Authority"), with the support of the City of Knoxville (the "City") and Knox County (the "County"). The Knoxville Convention & Visitors Bureau, Inc. (dba Visit Knoxville) ("Visit Knoxville") would work closely with the Sports Authority in evaluating and undertaking the Project. The City, County, the Sports Authority and Visit Knoxville acknowledge that the undertaking of the Project will require cooperation between the parties hereto. The respective Mayors of the City and the County have indicated their mutual support for the Project and have requested the legislative bodies of the City and the County to indicate their conceptual support for the Project by approving this Memorandum of Understanding.

1. Background.

Based upon studies undertaken by Visit Knoxville and the City of Knoxville, Knoxville and Knox County have a significant challenge modernizing public golf facilities and are also facing a substantial shortage of rectangular sport fields. Due to limited field availability, local sports organizations lack adequate space for weekly practices and league play, as well as for hosting large-scale tournaments and events for sports such as soccer, lacrosse, flag football, and ultimate frisbee. At the same time, the current golf course configuration is not optimally designed to meet the evolving needs of the golfing community. The existing Knoxville Municipal Golf Course, which is funded by the City, is primarily used by non-residents of the City, and is a somewhat redundant recreation asset to other golf courses in the area. The current configuration is also not designed to meet the future needs of the golfing community. A possible reconfiguration of the golf course as a lighted, par 3 and/or 9-hole course would result in a new golf product being available in the market, and similar projects in other cities have resulted in a broader participant use as compared to traditional 18-hole courses. With a new site configuration, land could be made available for sport fields as well as adjacent, supportive commercial development that complements the recreational facilities. The undertaking of the Project would benefit both the City and the County through increased occupancy tax and sales tax revenues, as well as providing more recreational opportunities for the citizens of the City and the County. Therefore, the administrations of the City and the County have indicated an interest in collaborating on the Project and would therefore request the Authority, as a jointly-created instrumentality of the City and the County, to seek proposals for the redevelopment of the Knoxville Municipal Golf Course site as described below.

2. Terms of Transaction.

The proposed terms governing the undertaking of the Project and the financing thereof are as described on the Term Sheet attached as Exhibit A to this Memorandum of Understanding. The Term Sheet is incorporated as part of this Memorandum of Understanding. If this Memorandum of Understanding is approved by the parties hereto, the provisions of the Term Sheet are expected to be incorporated in the various documents necessary to implement the transactions and agreements described in the Term Sheet, and the parties acknowledging this Memorandum of Understanding shall negotiate the terms of the definitive agreements consistent with such terms.

3. Non-Binding.

This Memorandum of Understanding is intended to be, and shall be construed only as, a non-binding memorandum of understanding summarizing and evidencing the discussions between representatives of the parties. Any legally binding obligation of the parties with respect to the matters discussed herein (other than Section 2) shall exist only upon the execution and delivery of definitive agreements, into which this Memorandum of Understanding and all prior discussions shall merge. It is expressly understood that this Memorandum of Understanding is not a contract to execute any definitive agreement or otherwise to consummate any agreement. The parties will cooperate in negotiating definitive agreements providing for the transactions contemplated by this Memorandum of Understanding, but each party reserves the right of final approval or disapproval, for any reason, of such documentation.

The parties signing below have acknowledged this non-binding Memorandum of Understanding as of _____, 2026.

Term Sheet

49827891.3

July __, 2026

TERM SHEET

Relating to the Potential Development and Financing of a Modern Golf Course, Recreational Sports Complex, and Ancillary Commercial Facilities

For discussion purposes only and does not constitute a commitment to enter into any transaction.

Overall Project Description:	The exploration of the redevelopment of the site of the Knoxville Municipal Golf Course as a multi-use facility with an artificial turf sports complex for youth and adult use, par 3 or 9-hole golf course, and ancillary commercial use (the "Project").
Parties and Nature of Involvement:	The public entities that would be involved in undertaking the Project would be the City of Knoxville (the "City"), Knox County (the "County"), The Sports Authority of the County of Knox and the City of Knoxville (the "Sports Authority"), and the Industrial Development Board of the City of Knoxville (the "City IDB"). The Knoxville Convention & Visitors Bureau, Inc. (dba Visit Knoxville) ("Visit Knoxville"), the nonprofit corporation that promotes tourism on behalf of the County and the City, would also be a key participant in the process.
Request for Proposal Process:	The Sports Authority, in conjunction with Visit Knoxville, will develop a request for proposals (the "RFP") to develop the Project from private parties, which may include joint ventures of private parties with different expertise in development and operations. The RFP will provide for a minimum scope for the Project, including a minimum number of fields and type of golf course facility, but will also ask respondents to provide creative solutions to maximize the use of the Project site to benefit the goals of the Project. Prior to finalizing the RFP, the Sports Authority will hold a public hearing to receive public comment on the RFP and the scope of the Project.
Review of Proposals:	The Sports Authority, in conjunction with Visit Knoxville, will review the proposals received in response to the RFP. The responses will be made available to the public, and the public will be given an opportunity to comment on the proposals. Based upon the Sports Authority's review and input from the public, the Sports Authority will recommend the selected proposal to the City and the County for consideration and implementation.
Financing Plan:	The Sports Authority will retain a financing team, including an underwriter and financial adviser, to undertake the financing of the Project upon the approval of the selected proposal by the City and the County. Upon receipt of the proposals, the Sports Authority, in collaboration with the financing team, will develop a financing plan for the Project to be presented to the City and the County with the selected proposal. While it is expected that the Project will provide revenues to the Sports Authority upon completion that will be available to pay debt service on debt to finance the Project, it is also expected that the City and the County will be required to commit to contribute adequate funds from non-ad valorem tax revenues to pay debt service with respect to the Project to the extent the revenues from the Project are not adequate therefor. In connection with presenting a financing plan to the City and the County, the financing team will project any such shortfalls for consideration by the City and the County, and the City and County will be asked to approve an intergovernmental agreement under which the City and the County would agree to equally contribute the amount needed to pay debt service with respect to the Project to the extent the revenues from the Project are not adequate for that purpose (the "Intergovernmental Agreement").

Development Agreement:	Upon approval by the City and the County of the selected proposal and the financing plan, including authorization of the Intergovernmental Agreement, the Sports Authority would negotiate a development agreement with the selected respondent to undertake the Project consistent with the respondent's proposal.
Commitment of Project Site:	Upon submission of the selected proposal and the financing plan, the City will also be asked to contribute the Project site to the Sports Authority so that the site can be redeveloped in the manner provided in the selected proposal. The City will be asked to approve this contribution at the same time as the approval of the selected proposal and financing plan.
Commercial Development:	Respondents to the RFP will be asked to identify the area on the Project site that would be developed for ancillary commercial uses such as hotels, retail and offices. Upon receipt of ownership of the Project site, and as will be provided in the development agreement, the Sports Authority will contribute the portion of the Project site to be used for such purposes to the City IDB. The City IDB would agree to make such property available for the commercial development, and the City IDB would be a party to the development agreement for these purposes.
Tax Increment Contribution:	The City IDB would prepare and submit to the City and the County for approval an economic impact plan pursuant to which incremental property tax revenues with respect to the Project site would be allocated to the City IDB. Pursuant to an intergovernmental agreement between the City IDB and the Sports Authority, the incremental tax revenues would be contributed by the City IDB to the Sports Authority to be used as a source of revenues to pay debt service with respect to the development of the Project.
Programming:	The sports facilities to be part of the Project are expected to be used for local recreational activities and tournaments, as well as other sporting events that will result in substantial sales tax revenues for the City and the County. The RFP will require respondents to detail how each respondent would collaborate with Visit Knoxville in order to utilize and meet the needs of both the local recreational demands and the use of the facilities for tournaments and other events so as to create sales tax revenues. The intent of this concept is for the facilities to be utilized during the week for local recreation, with national/regional tournaments taking place on weekends to support economic impact. In connection with entering into the development agreement, the selected respondent will be required to enter into an agreement with Visit Knoxville with respect to the programming of the sports facilities so as to maximize their usage.
Field Availability:	In addition to hosting tournaments and other events, the sports facilities are expected to be a significant addition to the publicly available fields for community use for sports such as soccer, flag football, lacrosse and other sports that use rectangular fields. In connection with the RFP, respondents will be required to demonstrate how the sports fields will be made available for community use, and how the cost for such use would be determined. In connection with execution of the development agreement, the selected respondent will be required to enter into an agreement with the City and County to address how the sports fields would be made publicly available for community use.
Public Golf Facility:	The RFP will require that the new and modern golf amenities included as part of the Project be available for use by the public and not be limited to a member-only facility. The development agreement shall include this requirement as an ongoing operating covenant.
Construction:	Respondents would be asked to propose the method(s) of construction for the Project. It is expected that the selected respondent would undertake the Project at a guaranteed not to exceed cost to paid from the financing proceeds, with any cost overruns being the responsibility of the selected respondent.

Microsoft Products and Services Agreement

This Microsoft Products and Services Agreement (the "Agreement") is entered into between Customer and Microsoft. It includes the General Terms, the Professional Services Terms (if any), the Purchasing Account registration (if any), Use Rights, Licensing Manual and all documents referenced within those documents.

General Terms

These General Terms apply to all of Customer's Purchasing Accounts. Capitalized terms have the meanings given in the "Definitions" section below.

1. Grants, rights and terms.

All rights granted under this Agreement are non-exclusive and non-transferable (except as set forth in the "License transfers" section in the Purchasing Account registration) and apply as long as neither Customer nor any of its Affiliates is in material breach of this Agreement.

a. **Software.** Upon acceptance of each order, Microsoft grants Customer a limited right to use the Software in the quantities ordered.

(i) **Use Rights.** The Use Rights in effect when Customer orders Software will apply to that Software, even if Customer chooses to use an earlier version. If the Software is covered by Software Assurance, when a new version is released, Customer may, at its option, (1) install and use the new version under the Use Rights in effect when the new version is released; or (2) continue to use the earlier version under the Use Rights applicable to either the earlier version or the new version.

(ii) **Temporary and perpetual licenses.** Licenses available on a subscription basis, rights to Online Services, and most Software Assurance rights are temporary. For all other licenses, the right to use Software becomes perpetual only when all applicable payments for that Software have been made and any applicable Software Assurance term has expired. To obtain rights for a newer version of Software through Software Assurance, Customer must maintain continuous Software Assurance coverage for its licenses for that Software. Licenses for a new version of Software obtained through Software Assurance replace any licenses for the earlier version.

b. **Online Services.** Customer may use the Online Services as provided in this Agreement.

(i) **Online Services Terms.** The Online Services Terms in effect when Customer orders or renews a subscription to an Online Service will apply for the applicable subscription term. For Online Services that are billed periodically based on consumption, the Online Services Terms current at the start of each billing period will apply to usage during that period.

(ii) **Suspension.** Microsoft may suspend use of an Online Service during Customer's violation of the Acceptable Use Policy described in the Online Services Terms, failure to pay amounts due, or failure to respond to a claim of alleged infringement. Microsoft will give Customer notice before suspending an Online Service when reasonable, including 30 days' notice of a suspension for non-payment. Microsoft may de-provision seats for Online Services that Customer has self-provisioned if Customer does not promptly submit a reconciliation order for those seats.

c. **Fixes.** Each Fix is licensed under the same terms as the Product to which it applies. If a Fix is not provided for a specific Product, any use rights Microsoft provides with the Fix will apply.

d. **Affiliates' rights.** Customer may sublicense its rights to use Products to its Affiliates, but Customer's Affiliates may not sublicense these rights. Customer is responsible for ensuring its Affiliates'

compliance with this Agreement. Customer must notify Microsoft promptly if any Affiliate ceases to be an Affiliate of the Agreement Administrator.

e. **Restrictions.** Customer must not (and is not licensed to): (1) reverse engineer, decompile or disassemble any Product or Fix, or attempt to do so; (2) install or use non-Microsoft software or technology in any way that would subject Microsoft's intellectual property or technology to any other license terms; or (3) work around any technical limitations in a Product or Fix or restrictions in Product documentation. Except as expressly permitted in this Agreement, a Supplemental Agreement or Product documentation, Customer must not (and is not licensed to): (1) separate and run parts of a Product or Fix on more than one device, upgrade or downgrade parts of a Product or Fix at different times, or transfer parts of a Product or Fix separately; or (2) distribute, sublicense, rent, lease, lend any Products or Fixes, in whole or in part, or use them to offer hosting services to a third party.

f. **Reservation of rights.** Products and Fixes are protected by copyright and other intellectual property rights laws and international treaties. Microsoft reserves all rights not expressly granted in this Agreement. No rights will be granted or implied by waiver or estoppel. Rights to access or use Software on a device do not give Customer any right to implement Microsoft patents or other Microsoft intellectual property in the device itself or in any other software or devices.

g. **Verifying compliance for Products.**

(i) **Right to verify compliance.** Customer must keep records relating to all use and distribution of Products by Customer and its Affiliates. Microsoft has the right, at its expense, to verify compliance with the Products' license terms. Customer must promptly provide any information reasonably requested by the independent auditors retained by Microsoft in furtherance of the verification, including access to systems running the Products and evidence of licenses for Products that Customer hosts, sublicenses, or distributes to third parties. Customer agrees to complete Microsoft's self-audit process, which Microsoft may request as an alternative to a third party audit. Additional details about the process are included in the Licensing Manual.

(ii) **Remedies for non-compliance.** If verification or self-audit reveals any unlicensed use of Products, then within 30 days (1) Customer must order sufficient licenses to cover its use, and (2) if unlicensed use is 5% or more, Customer must reimburse Microsoft for the costs Microsoft incurred in verification and acquire the necessary additional licenses at 125% of the price, based on the then-current price list and customer price level. The unlicensed use percentage is based on the total number of licenses purchased for current use compared to actual installed base. If there is no unlicensed use, Microsoft will not subject Customer to another verification for at least one year. By exercising the rights and procedures described above, Microsoft does not waive its rights to enforce this Agreement or to protect its intellectual property by any other legal means.

(iii) **Verification process.** Microsoft will notify Customer at least 30 days in advance of its intent to verify Customers' compliance with the license terms for the Products Customer and its Affiliates use or distribute. Microsoft will engage an independent auditor, which will be subject to a confidentiality obligation. Any information collected in the self-audit will be used solely for purposes of determining compliance. This verification will take place during normal business hours and in a manner that does not unreasonably interfere with Customers operations.

2. Privacy and compliance with Laws.

a. Customer consents to the processing of personal information by Microsoft and its agents to facilitate the subject matter of this Agreement and any Supplemental Agreement. Customer will obtain all required consents from third parties (including Customer's contacts, resellers, distributors, administrators, and employees) under applicable privacy and data protection laws before providing personal information to Microsoft.

b. Personal information collected under this Agreement (1) may be transferred, stored and processed in the United States or any other country in which Microsoft or its service providers maintain

facilities and (2) will be subject to the privacy terms specified in the Use Rights. Microsoft will abide by the requirements of European Economic Area and Swiss data protection law regarding the collection, use, transfer, retention, and other processing of personal data from the European Economic Area and Switzerland.

c. **U.S. export.** Products and Fixes are subject to U.S. export jurisdiction. Customer must comply with all applicable international and national laws, including the U.S. Export Administration Regulations, the International Traffic in Arms Regulations, and end-user, end use and destination restrictions by U.S. and other governments related to Microsoft products, services, and technologies.

3. Confidentiality.

"Confidential Information" is non-public information that is designated "confidential" or that a reasonable person should understand is confidential, including Customer Data and the terms of Microsoft agreements. The Online Services Terms may provide additional obligations for, and limitations on disclosure and use of, Customer Data. Confidential Information does not include information that (1) becomes publicly available without a breach of this Agreement, (2) the receiving party received lawfully from another source without a confidentiality obligation, (3) is independently developed, or (4) is a comment or suggestion volunteered about the other party's business, products or services.

Each party will take reasonable steps to protect the other's Confidential Information and will use the other party's Confidential Information only for purposes of the parties' business relationship. Neither party will disclose that Confidential Information to third parties, except to its employees, Affiliates, contractors, advisors and consultants ("Representatives"), and then only on a need-to-know basis under nondisclosure obligations at least as protective as this Agreement. Each party remains responsible for the use of the Confidential Information by its Representatives and, in the event of discovery of any unauthorized use or disclosure, must promptly notify the other party.

A party may disclose the other's Confidential Information if required by law, but only after it notifies the other party (if legally permissible) to enable the other party to seek a protective order.

Neither party is required to restrict work assignments of its Representatives who have had access to Confidential Information. Each party agrees that the use of information retained in Representatives' unaided memories in the development or deployment of the parties' respective products or services does not create liability under this Agreement or trade secret law, and each party agrees to limit what it discloses to the other accordingly.

These obligations apply (1) for Customer Data until it is deleted from the Online Services and (2) for all other Confidential Information for a period of five years after a party receives the Confidential Information.

4. Product warranties.

a. **Limited warranties and remedies.**

(i) **Software.** Microsoft warrants that each version of the Software will perform substantially as described in the applicable Product documentation for one year from the date Customer is first licensed for that version. If it does not, and Customer notifies Microsoft within the warranty term, then Microsoft will, at its option, (1) return the price Customer paid for the Software license or (2) repair or replace the Software.

(ii) **Online Services.** Microsoft warrants that each Online Service will perform in accordance with the applicable SLA during Customer's use. Customer's remedies for breach of this warranty are in the SLA.

The remedies above are Customer's sole remedies for breach of the warranties in this section. Customer waives any breach of warranty claims not made during the warranty period.

b. **Exclusions.** The warranties in this Agreement do not apply to problems caused by accident, abuse or use inconsistent with this Agreement, including failure to meet minimum system requirements.

These warranties do not apply to free, trial, preview, pre-release or beta products, or to components of Products that Customer is permitted to redistribute.

c. **Disclaimer. Except for the limited warranties above, Microsoft provides no other warranties or conditions for Products and disclaims any other express, implied or statutory warranties for Products, including warranties of quality, title, non-infringement, merchantability and fitness for a particular purpose.**

5. Defense of third party claims.

The parties will defend each other against the third-party claims described in this section and will pay the amount of any resulting adverse final judgment or approved settlement, but only if the defending party is promptly notified in writing of the claim and has the right to control the defense and any settlement of it. The party being defended must provide the defending party with all requested assistance, information, and authority. The defending party will reimburse the other party for reasonable out-of-pocket expenses it incurs in providing assistance. This section describes the parties' sole remedies and entire liability for such claims.

a. **By Microsoft.** Microsoft will defend Customer against any third-party claim to the extent it alleges that a Product or Fix made available by Microsoft for a fee and used within the scope of the license granted under this Agreement (unmodified from the form provided by Microsoft and not combined with anything else), misappropriates a trade secret or directly infringes a patent, copyright, trademark or other proprietary right of a third party. If Microsoft is unable to resolve a claim of infringement under commercially reasonable terms, it may, at its option, either: (1) modify or replace the Product or Fix with a functional equivalent; or (2) terminate Customer's license and refund any prepaid license fees (less depreciation on a five-year, straight-line basis) for perpetual licenses and any amount paid for Online Services for any usage period after the termination date. Microsoft will not be liable for any claims or damages due to Customer's continued use of a Product or Fix after being notified to stop due to a third-party claim.

b. **By Customer.** To the extent permitted by applicable law, Customer will defend Microsoft against any third-party claim to the extent it alleges that: (1) any Customer Data or non-Microsoft software hosted in an Online Service by Microsoft on Customer's behalf misappropriates a trade secret or directly infringes a patent, copyright, trademark, or other proprietary right of a third party; or (2) Customer's use of any Product or Fix, alone or in combination with anything else, violates the law or harms a third party.

6. Limitation of liability.

For each Product, each party's maximum, aggregate liability to the other under this Agreement and any Supplemental Agreement is limited to direct damages finally awarded in an amount not to exceed the amounts Customer was required to pay for the applicable Products during the term of this Agreement, subject to the following:

a. **Online Services.** For Online Services, Microsoft's maximum liability to Customer for any incident giving rise to a claim will not exceed the amount Customer paid for the Online Service during the 12 months before the incident.

b. **Free Products and distributable code.** For Products provided free of charge and code that Customer is authorized to redistribute to third parties without separate payment to Microsoft, Microsoft's liability is limited to direct damages finally awarded up to US$5,000.

c. **Exclusions.** In no event will either party be liable for indirect, incidental, special, punitive, or consequential damages, or loss of use, loss of profits, or interruption of business, however caused or on any theory of liability.

d. **Exceptions.** No limitation or exclusions will apply to liability arising out of either party's (1) confidentiality obligations (except for all liability related to Customer Data, which will remain subject to the limitations and exclusions above); (2) defense obligations; or (3) violation of the other party's intellectual property rights.

7. Term and termination.

a. **Term.** This Agreement is effective until terminated by a party, as described below.

b. **Termination without cause.** The Agreement Administrator or Microsoft may terminate this Agreement without cause on 60 days' notice. Termination without cause will not affect any existing orders or Supplemental Agreements, but Customer will no longer be able to place orders, register Purchasing Accounts, or enter into Supplemental Agreements after the effective date of termination.

c. **Termination for cause.** If a party breaches this Agreement or any Supplemental Agreement, the other party may terminate the breached agreement (in whole or in part, including orders) upon notice. If the breach is curable within 30 days, then the terminating party must provide 30 days' notice to the breaching party and an opportunity to cure the breach. Microsoft may terminate a Customer's right to place orders if Customer ceases to be an Affiliate of the Agreement Administrator.

d. **Effect of termination.** If Customer terminates this Agreement due to a breach by Microsoft, then

(i) For subscription-based Products (including Online Services), Customer will receive a credit for any amount paid for a usage period after the termination date.

(ii) For consumption-based Products, Customer must (1) pay for Products consumed as of the termination date and (2) will receive a credit for any Product for which it has paid but not consumed.

(iii) For other Software, Customer may either (1) pay all remaining amounts due under the Agreement, in which case it will have perpetual rights for all such Software ordered, or (2) pay only the amounts due as of the termination date, in which case it will have perpetual licenses for all fully-paid Software licenses and a pro rata number of Software licenses for which partial payment has been made. In each case, if the Software licenses are covered by Software Assurance, the perpetual licenses will be for the latest version of the Software at termination.

8. Ordering, pricing, and payment.

a. **Ordering Products.** To order Products under this Agreement, Customer must be a legal entity that is an Affiliate of the Agreement Administrator and establish one or more Purchasing Accounts by executing a Purchasing Account registration for each Purchasing Account.

b. **Pricing and payment.** The Partner or Microsoft Affiliate that invoices Customer will set Customer's pricing and payment terms for that invoice. Microsoft annually reviews price levels used, as described in the Licensing Manual. Customer will pay the amount due according to the payment terms.

c. **Payment terms for Microsoft invoices**. If a Microsoft Affiliate invoices Customer, Customer must pay Microsoft according to the terms, payment methods and in the currency stated on Microsoft's invoice. The terms of any extension of credit under this Agreement may be modified or withdrawn by Microsoft upon notice. Microsoft may assess a finance charge on all past due amounts, payable on demand and equal to the lesser of an annual rate of 24% and the highest amount allowed by law, applied from the first day the amount is past due until paid in full.

d. **Taxes.** If any amounts are to be paid to Microsoft, the amounts owed are exclusive of any taxes, unless specified on the invoice as tax inclusive. Customer shall pay any applicable value added, goods and services, sales, gross receipts, or other transaction taxes, fees, charges, or surcharges, or any regulatory cost recovery surcharges or similar amounts that are owed under this Agreement and that Microsoft is permitted to collect from Customer. Customer shall be responsible for any

applicable stamp taxes and for all other taxes that it is legally obligated to pay including any taxes that arise on the distribution or provision of Products by Customer to its Affiliates. Microsoft shall be responsible for all taxes based upon its net income, gross receipts taxes imposed in lieu of taxes on income or profits or taxes on its property ownership.

If any taxes are required to be withheld on payments to Microsoft, Customer may deduct such taxes from the amount owed and pay them to the appropriate taxing authority, but only if Customer promptly provides Microsoft an official receipt for those withholdings and other documents reasonably requested to allow Microsoft to claim a foreign tax credit or refund. Customer will ensure that any taxes withheld are minimized to the extent possible under applicable law.

9. Miscellaneous.

a. **Partners.** Customer may authorize a Partner to place orders on Customer's behalf and manage Customer's purchases by associating the Partner with a Purchasing Account. Partners and other third parties are not agents of Microsoft and are not authorized to enter into any agreement with Customer on behalf of Microsoft. Microsoft may pay some Partners and other third parties for their services related to Customer purchases. The fees Microsoft pays depend upon several factors, including the number and types of licenses ordered.

b. **Use of contractors.** Microsoft may use contractors to perform services, but will be responsible for their performance, subject to the terms of this Agreement.

c. **Microsoft as independent contractor.** The parties are independent contractors. Customer and Microsoft each may develop products independently without using the other's Confidential Information.

d. **Notices.** Notices to Microsoft must be sent to the address listed on the applicable registration or Supplemental Agreement. Notices must be in writing and will be treated as delivered on the date shown on the return receipt or on the courier or fax confirmation of delivery. Microsoft may provide information to Customer about upcoming ordering deadlines, services and subscription information in electronic form, including by email, to contacts provided by Customer under the Purchasing Account registration or other documents or sites. Emails will be treated as delivered on the transmission date.

e. **Agreement not exclusive.** Customer is free to enter into agreements to license, use, or promote non-Microsoft products or services.

f. **Order of precedence.** In the case of a conflict between any documents in this Agreement that is not expressly resolved in those documents, their terms will control in the following order of descending priority: (1) these General Terms, (2) any Professional Services Terms; (3) any Purchasing Account registration, (4) any Supplemental Agreement, (5) the Licensing Manual, (6) the Product Terms, (7) the Online Services Terms, (8) orders submitted under this Agreement, and (9) any other documents in this Agreement. Terms in an amendment control over the amended document and any prior amendments concerning the same subject matter.

g. **Amendments.** Any amendment to this Agreement or any Supplemental Agreement must be executed by both parties, except that Microsoft may change the Product Terms, Use Rights and Licensing Manual from time to time, subject to the terms of this Agreement. Any additional or conflicting terms and conditions contained in Customer's or a Partner's purchase order are expressly rejected and will not apply. Microsoft may require Customer to sign a new agreement or an amendment to an existing agreement before processing a new order or accepting a Purchasing Account registration.

h. **Assignment.** Either party may assign this Agreement to an Affiliate, but it must notify the other party in writing of the assignment. Any other proposed assignment of this Agreement must be approved by the non-assigning party in writing. Assignment will not relieve the assigning party of its obligations under the assigned Agreement. Any attempted assignment without required approval will be void.

i. **Applicable law.** Except as noted in any Professional Services Terms, this Agreement shall be governed by and construed in accordance with the laws specified in the Purchasing Account registration.

j. **Dispute resolution.** When bringing any action arising under this Agreement or any Supplemental Agreement, the parties agree to the following exclusive venues:

(i) If Microsoft brings the action, the venue will be where Customer has its headquarters.

(ii) If Customer brings the action against Microsoft or any Microsoft Affiliate located outside of Europe, the venue will be the state or federal courts in King County, State of Washington, U.S.A.

(iii) If Customer brings the action against a Microsoft Affiliate located in Europe, and not also against Microsoft or a Microsoft Affiliate located outside of Europe, the venue will be Ireland.

The parties consent to personal jurisdiction in the agreed venue. This choice of venue does not prevent either party from seeking injunctive relief in any jurisdiction with respect to a violation of intellectual property rights or confidentiality obligations.

k. **Severability.** If any provision in this Agreement is held to be unenforceable, the balance of the Agreement will remain in full force and effect.

l. **Waiver.** Failure to enforce any provision of this Agreement will not constitute a waiver. Any waiver must be in writing and signed by the waiving party.

m. **No third-party beneficiaries.** This Agreement does not create any third-party beneficiary rights.

n. **Survival.** All provisions survive termination of this Agreement except those requiring performance only during the term of the Agreement.

10. Country-specific provisions.

The country-specific provisions available at the Licensing Site replace or supplement the relevant provisions of this Agreement based on the Customer's location and in any case where the law of the jurisdictions listed in the country-specific provisions gets applied.

11. Definitions.

"Affiliate," unless otherwise defined in the Purchasing Account type terms, means any legal entity that a party owns, or is owned by, or that is under common ownership with that party. "Ownership" means, for purposes of this definition, control of more than a 50% interest in an entity.

"Agreement Administrator," or a successor term, means the legal entity that manages this Agreement. By default, the first Customer to execute this Agreement is the Agreement Administrator.

"Confidential Information" is defined in the "Confidentiality" section.

"Customer" means a legal entity that enters into this Agreement by executing a Purchasing Account registration or Supplemental Agreement.

"Customer Data" means all data, including all text, sound, software, image or video files that are provided to Microsoft by, or on behalf of, Customer and its Affiliates through use of Online Services.

"day" means a calendar day.

"Fix" means a Product fix, modifications or enhancements, or their derivatives, that Microsoft either releases generally (such as Product service packs) or provides to Customer to address a specific issue.

"Licensing Manual" means the document that provides information about this Agreement, such as price levels and ordering rules. The Licensing Manual document is on the Licensing Site and is updated from time to time.

"Licensing Site" means http://www.microsoft.com/licensing/contracts or a successor site.

"Microsoft" means the Microsoft entity that counter-executed Customer's Purchasing Account registration or Supplemental Agreement and its Affiliates (as appropriate).

"Online Services" means the Microsoft-hosted services identified as Online Services in the Product Terms.

"Online Services Terms" means the additional terms that apply to Customer's use of Online Services published on the Licensing Site and updated from time to time.

"Partner" means a company Microsoft has authorized to sell Products to Customer.

"Product" means all products identified in the Product Terms, such as all Software, Online Services and other web-based services, including pre-release or beta versions. Product availability may vary by region.

"Product Terms" means the document that provides information about Microsoft Products and Professional Services available through volume licensing. The Product Terms document is published on the Licensing Site and is updated from time to time.

"Purchasing Account" means the account that Customer authorizes to manage orders and payment under this Agreement and is established by executing a Purchasing Account registration.

"SLA" means Service Level Agreement, which specifies the minimum service level for the Online Services and is published on the Licensing Site.

"Software" means licensed copies of Microsoft software identified on the Product Terms. Software does not include Online Services, but Software may be part of an Online Service.

"Software Assurance" means an offering that provides new version rights for Products and other benefits, as further described in the Product Terms and the Licensing Manual.

"Supplemental Agreement" means any agreement that incorporates this Agreement.

"use" or "run" means to copy, install, use, access, display, run or otherwise interact with.

"Use Rights" means the use rights or terms of service for each Product published on the Licensing Site and updated from time to time. The Use Rights supersede the terms of any end user license agreement that accompanies a Product. The Use Rights for Software are published by Microsoft in the Product Terms. The Use Rights for Online Services are published in the Online Services Terms.

Professional Services Terms

These terms are part of the Agreement and apply to any consulting and support services Microsoft performs ("Professional Services"). Professional Services Microsoft performs will be described in a work order or other description of services that incorporates the Agreement (a "Statement of Services"). Any computer code or materials other than Products or Fixes that Microsoft leaves with Customer at the conclusion of Microsoft's performance of Professional Services are considered "Services Deliverables."

a. **Pre-existing work.** All rights in any computer code or other written materials developed or otherwise obtained independent of this Agreement ("Pre-existing Work") will remain the sole property of the party providing it. Each party may use, reproduce and modify the other party's Pre-existing Work only as needed to perform obligations related to Professional Services.

b. **Services Deliverables.** Upon payment in full for the Professional Services, Microsoft grants Customer a non-exclusive, non-transferable, perpetual license to reproduce, use and modify the Services Deliverables solely for Customer's internal business purposes, subject to the terms and conditions in this Agreement.

c. **Use of technical information from Professional Services.** Microsoft may use any technical information it derives from providing Professional Services for problem resolution, troubleshooting, product functionality enhancements, Fixes, and for Microsoft's knowledge base. Microsoft agrees not to identify Customer or disclose any of Customer's Confidential Information as part of such use.

d. **Professional Services warranty.** Microsoft warrants that it will perform Professional Services with professional care and skill. If Microsoft fails to do so and Customer notifies Microsoft within 90 days of the date the Professional Services were performed, then Microsoft will, at its discretion and as Customer's sole remedy for the breach of the warranty, either re-perform the Professional Services

or return the price Customer paid for them. **This warranty is subject to the "exclusions" and "disclaimer" terms of the Warranties section in the General Terms.**

e. **Professional Services limitation of liability.** The total liability of each party for Professional Services under this Agreement and any Supplemental Agreement that incorporates its terms is limited to direct damages up to the amount Customer was required to pay under the applicable Statement of Services. In the case of services provided free of charge, or code Customer is authorized to redistribute to third parties without separate payment to Microsoft, Microsoft's liability is limited to direct damages up to U.S. $5,000. **This limitation of liability is subject to the "Exclusions" and "Exceptions" terms in the General Terms.**

f. **Compliance with laws.** Microsoft and Customer will each comply with all applicable laws and regulations. However, Microsoft is not responsible for compliance with any laws or regulations applicable to Customer or Customer's industry that are not also generally applicable to information technology services providers.

g. **Professional Services termination.** If Customer terminates a Statement of Services as a result of a breach by Microsoft, Customer must pay all amounts due under the Statement of Services as of the termination date. Upon Microsoft's receipt of payment for the Professional Services, Customer's interests in the Services Deliverables will vest. Microsoft has no obligation to continue to provide Professional Services if Customer fails to make timely payment for the Professional Services.

h. **Applicable law and dispute resolution for Professional Services.** The terms of each Statement of Services will be governed by and construed in accordance with the law of the jurisdiction where the Microsoft Affiliate delivering the Professional Services is organized. If Customer brings an action to enforce a Statement of Services, the venue will lie where the Microsoft Affiliate delivering the services has its headquarters.

i. **Certain terms.** Services Deliverables are deemed "Products" for purposes of all rights and obligations in the sections of the General Terms titled "Affiliates' rights," "Restrictions," "Reservation of rights," "Privacy and Compliance with Laws," "Defense of third party claims" and "Taxes." The parties may agree to change any of the terms in this "Professional Services Terms" section in a Statement of Services.

Microsoft Products & Services Agreement Registration

Microsoft Products & Services Agreement (MPSA) Number: 4100165152

Version: 2016May

Agreement Language: English

Agreement Administrator Purchasing Account Number: 0040033757

Customer Legal Entity Name: Knox County Government

By executing this registration, Customer registers the following Purchasing Account(s) under the Agreement and accepts the terms of the Agreement. Capitalized terms used but not defined in this registration have the definitions in the Agreement. To register a Purchasing Account, Customer must be a legal entity and Affiliate of the Agreement Administrator.

By providing contact information, Customer consents to (1) the use of such information for purposes of administering purchases under the Agreement and any Supplemental Agreement by Microsoft, its Affiliates, and other parties that help administer the Agreement and (2) disclosure of information related to Customer's Agreement to the contact(s) identified. Each party will notify the other if any of the contact information changes.

Purchasing Accounts

Customer registers a Purchasing Account to manage orders of Products under the Agreement. Customer can register itself as the Purchasing Account or identify a business unit within Customer's organization that will manage orders and payment for the Customer. In either case the Customer identified on the signature form for this registration is the legal entity for the Agreement.

Purchasing Account name: Knox County Government

Purchasing Account number:	0040033757
Purchasing Account type:	Government
Address:	400 West Main St.
City:	KNOXVILLE
State/Province:	Tennessee
Postal code:	37902-2432
Country/Region:	United States
Within City Limits:	Yes

Purchasing Account contact: This is an individual within Customer's organization who will serve as the main contact and administrator for the Purchasing Account and who will receive contractual notices from Microsoft. Customer authorizes this individual to establish the Purchasing Account's electronic identity which is required for online administrator access to the Microsoft Business Center. This contact's access to the Microsoft Business Center is used for purposes of managing agreements and Products associated with this Purchasing Account, and granting online access and permissions to others as needed to support managing the Purchasing Account.

First and last name	David Hutsell
Email address	david.hutsell@knoxcounty.org
Phone number	
Preferred language	English

Anniversary month: August
Customer may align the subscription term for a Product to this anniversary month.

Eligible for Government Community Cloud: No

Cloud Deployment Model: Public Cloud

A public cloud is based on the standard cloud computing model, in which a service provider makes shared resources, such as applications and storage, available to the general public over the internet and maintains them for use by multiple customers.

Important: By making this election, Customer represents that it has reviewed the eligibility requirements for the Government Community Cloud and has chosen the Public Cloud deployment model. **Customer is solely responsible for ensuring that it has elected the correct cloud deployment model before executing this registration.**

License transfers. License transfers are not permitted, except that Customer may transfer only fully-paid perpetual licenses to (1) an Affiliate or (2) a third party, solely in connection with the transfer of hardware or employees to whom the licenses have been assigned to the third party as part of (a) a divestiture of all or part of an Affiliate or (b) a merger involving Customer or an Affiliate. Upon such transfer, Customer and its Affiliates must uninstall and discontinue using the licensed Product and render any copies unusable. The Licensing Manual describes the requirements for license transfers. Attempted license transfers that do not comply with this Agreement are void.

Applicable Law: This Agreement will be governed by and construed in accordance with the laws of Customer's state, without regard to conflict of laws principles. The 1980 United Nations Convention on Contracts for the International Sale of Goods and its related instruments will not apply to this Agreement.

Government Customer Affiliate Definition. With regard to Customer, "Affiliate" means any eligible entity, as defined in the applicable Microsoft Government Eligibility Definition located at the Licensing Site, that:

a. is a government agency, department, office, instrumentality, division, unit or other entity of the state or local government that is supervised by or is part of Customer, or that supervises Customer or of which Customer is a part, or that is under common supervision with Customer;

b. is a county, borough, commonwealth, city, municipality, town, township, parish, special purpose district, or other similar type of governmental instrumentality established by the laws of Customer's state or local jurisdiction and is located within Customer's state or local jurisdiction and geographic boundaries;

c. is in Customer's state or local jurisdiction that is expressly authorized by the laws of Customer's state or local jurisdiction to purchase under state or local government contracts; provided that a state and its Affiliates shall not, for purposes of this definition, be considered to be Affiliates of the federal government and its Affiliate; or d. has legislative authority to control or supervise Customer.

Government Pricing. In addition to the pricing terms above, Customer may qualify for government pricing. To qualify for government pricing, Customer and its Affiliates must satisfy the applicable Microsoft Government Eligibility Definition located at the Licensing Site. Microsoft reserves the right to verify Customer's and its Affiliates' eligibility for government pricing at any time and suspend the Agreement if such eligibility requirements are not met.

Termination for non-appropriation of funds. In addition to the rights granted in the "Term and Termination" section of this Agreement, Customer may terminate this Agreement without liability, penalty or further obligation to make payments (other than payments for outstanding invoices or for Products ordered but for which Customer has not yet been invoiced) if funds to make payments under the Agreement are not appropriated or allocated for such purpose. If Customer terminates the Agreement for non-appropriation of funds, or Microsoft terminates for non-payment due to non-appropriation of funds, then the following applies:

a. For subscription-based Products (including Online Services), Customer may use the Products for the period for which Customer has paid, even if such period extends beyond the termination date.

b. For other Software Products, Customer may either (1) pay all remaining amounts due under the Agreement, in which case it will have perpetual rights for all Products ordered or (2) pay only the amounts due as of the termination date, in which case it will have perpetual licenses for all fully-paid Products and a pro rata number of perpetual licenses for Products for which it has partially paid. In each case, if Software Assurance coverage applies, the perpetual licenses Customer receives will be for the version of Products ordered as of the date the Software Assurance coverage expires.

Microsoft Volume Licensing

Purchasing Account registration signature

By signing below, Customer acknowledges that it has received, read and understands all contract documents identified in the Purchasing Account registration, including the Microsoft Products and Services Agreement, any amendments, and all documents incorporated by reference (collectively, the "Agreement"), and accepts the terms and conditions set forth in all such documents. The Agreement will take effect upon acceptance by Microsoft. Customer must be a legal entity that is an Affiliate of the Agreement Administrator to execute a Purchasing Account registration.

The Agreement Administrator and Purchasing Account contacts will receive an acceptance notification from Microsoft confirming the effective date of this Agreement. When Customer is associating a Purchasing Account with an Affiliate's Microsoft Products and Services Agreement, it must obtain a copy of that agreement from its Affiliate if not presented as part of this registration.

WHEREAS, Knox County desires to contract for the provision of Employee Vision Benefit Services; and

WHEREAS, the Knox County Procurement Division requested proposals for Employee Vision Benefit Services and it was determined that EyeMed Vision Care, LLC submitted the proposal that is most responsible and responsive and best conforms to the specifications and needs of Knox County; and

WHEREAS, the proposed contract with EyeMed Vision Care, LLC is effective for a two-year term beginning January 1, 2027 and ending December 31, 2028 and may be extended for three (3) additional years, one (1) year at a time, which may result in a total of five (5) years; and

WHEREAS, EyeMed Vision Care, LLC has the necessary qualifications to provide the services for Knox County.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The contract with EyeMed Vision Care, LLC for the provision of Employee Vision Benefit Services is hereby adopted and approved in substantive form as presented this date, a copy of which is attached to this Resolution and incorporated herein by reference.

BE IT FURTHER RESOLVED, the contract with EyeMed Vision Care, LLC for the provision of Employee Vision Benefit Services shall be executed subject to such amendment or action not affecting the substantive provisions of the contract as may be required and approved by the Knox County Law Director.

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

Knox County Government
And
EyeMed Vision Care, LLC

This Contract, made and entered into by and between the Knox County Government, hereinafter referred to as the "County" and EyeMed Vision Care, LLC hereinafter referred to as "Contractor".

Whereas, the County requested proposals for Employee Vision Benefit Services for Knox County Government and Knox County Schools (Request for Proposal #3734) and;

Whereas, Contractor submitted a proposal in accordance with said requested specifications, the response of which is the most responsible and responsive proposal meeting specifications accepted by the County;

Whereas, Contractor agrees and undertakes to provide said services for the County, as set forth in the Request for Proposal, and at the price quoted for said services by Contractor. Further, in accordance with the lawful directions of the County, the Contractor agrees in all respects, to be governed by the Request for Proposals' specifications and the Contractor's proposal and response.

Now, therefore in consideration of mutual covenants and promises contained herein, the parties hereto wish to enter into this Contract to set forth their respective rights and obligations and do mutually agree that;

Witnesseth:

Terms of this Contract. This Contract commences on the 1st day of January 2027 and ends upon the 31st day of December 2028 unless terminated in conformity with the terms of this Contract as contained in paragraphs 4 and 5. Upon the mutual agreement of the vendor and the County, the award may be extended for three (3) additional years, one (1) year at a time. This may result in a total of five (5) years. The County reserves the right to purchase these goods/services from other sources if the need arises. The County reserves the right to revoke the award if a pattern of unavailability with the vendor.

1. Payment. Contractor warrants that the pricing shall remain firm for the initial twenty-four (24) months period. At the end of the first twenty-four (24) months period, and pursuant to the renewal terms in Paragraph 1, the Contractor may request a price increases. Price increases will only be given at the renewal time and must remain in effect for the next one (1) year term. No price increases will be given during the term of a Contract. The County shall pay Contractor the amount as agreed upon in the County's Request for Proposal for Employee Vision Benefit Services per the Contractor's response to Request for Proposal #3734 and negotiations; pursuant to all payments being subject to the County's review and approval. The Contractor shall receive, upon the need of the County, written notification to proceed. The Contractor shall pursue all work diligently until completion as directed by the County.

2. Invoicing and reporting requirements. Contractor shall invoice the County for Employee Vision Benefit Services pursuant to Request for Proposal #3734.

3. Termination. The County may terminate this Contract with or without cause, upon written notice of not less than thirty (30) days. Upon termination, the County will pay for services satisfactorily completed but not yet invoiced. Contractor shall not perform additional work without the expressed permission of the County.

Should the Contractor fail to provide Employee Vision Benefit Services detailed herein, the County will communicate the problem(s) to the Contractor both verbally and in writing and keep a written record as to what the problem(s) are and when the Contractor was notified in writing. The Contractor shall rectify the problem within thirty (30) business days of notification of the problem. If the same or other problems persist or reoccur, the County may terminate the Contract.

In the event Contractor intends to interrupt or discontinue service under this Contract, Contractor agrees to give the County at least one hundred twenty (120) business days' advance written notice of said interruption or discontinuance of service prior to interrupting or discontinuing same.

Any interruption or discontinuance of service without cause without said advance notice shall constitute a material breach of this Contract.

4. Appropriations. In the event no funds are appropriated by the County for the Employee Vision Benefit Services in any fiscal year or insufficient funds exist to provide the services, then the Contract shall expire upon the expenditure of previously appropriated funds or the end of the current fiscal year, whichever occurs first, with no further obligations owed to or by either party.

5. Independent contractor. Contractor acknowledges that Contractor and employees serve as independent contractors and that the County shall not be in any manner responsible for any payment, insurance, or incurred liability.

6. Compliance with all federal, state, and municipal laws. Contractor is assumed to be familiar with and agrees to observe and comply with all federal, state, and local laws, statutes, ordinances, and regulations in any manner affecting the provision of the Employee Vision Benefit Services, and all instructions and prohibitive orders issued regarding this work and shall obtain all necessary permits.

7. Severability clause. If any provision of this Contract is declared illegal, void, or unenforceable the remaining provisions shall not be affected but shall remain in force and in effect.

8. Prohibition against assignment. Contractor shall not assign or subcontract this Contract to any party, company, partnership, incorporation, or person without prior specific written consent of the County. Knox County hereby approves EyeMed's book of business subcontractors as listed in Exhibit N.

9. This Contract shall be exclusively construed, governed, and controlled by the Laws of the State of Tennessee without regard to principles of law, including conflicts of law, of any other jurisdiction, territory, country, and/or province. Any dispute arising out of or relating to this agreement shall exclusively be brought in the Chancery Court or the Circuit Court of Knox County, Tennessee. Each party consents to personal jurisdiction thereto and waives any defenses based on personal jurisdiction, venue and inconvenient forum.

10. Right to inspect. As permitted by HIPPA and applicable state privacy law, and upon a minimum of sixty (60) days advance written notice, the County reserves the right to make periodic inspections of the manner and means the services are performed.

11. Nondiscrimination and non-conflict statements. Contractor agrees that no person on the grounds of handicap, age, race, color, religion, sex, national origin or any individual trait or characteristic found to be an illegal consideration, shall be excluded from participation in, or be denied benefits of, or be otherwise subjected to discrimination in the performance of this Contract, or in the employment practices of Contractor. Contractor shall upon request show proof of such non-discrimination and shall post in conspicuous places available to all employees and applicants notices of non-discrimination.

12. Books and records. Contractor shall maintain all books, documents, accounting records and other evidence pertaining to the service under this Contract. As permitted by HIPAA and applicable state privacy laws, Contractor shall make such materials available at their offices upon a minimum of sixty (60) days advance written notice during the contract period and for five (5) years from the date of the final payment under the Contract for inspection by the County or by any other governmental entity or agency participating in the funding of this Contract, or any authorized agents thereof; copies of said records to be furnished if requested. Such records shall not include those books, documents and accounting records that represent the Contractor's costs of manufacturing, acquiring or delivering the products and services governed by this Contract.

13. Contractor shall indemnify**,** defend, save and hold harmless, County, its officers, agents and employees from all third-party suits, claims, actions or damages of any nature brought because of, arising out of, or due to material breach of the Contract by Contractor, its subcontractors, agents or employees or due to any negligent act, occurrence, omission, commission of Contractor, its subcontractors, agents, or employees. It is agreed and understood that optometrist and other vision professionals are not the subcontractors, agents or employees of Contractor.

14. Delivery. Contractor shall render the Employee Vision Benefit Services for the County in accordance with Request for Proposal #3734.

15. Tax Compliance. Pursuant to Resolution R-07-1-903 passed by the Commission of Knox County, Tennessee, Contractor hereby acknowledges, by submission of its bid and signature that it is current in its respective Federal, State, County, and City taxes of whatever kind or nature and is not delinquent in any way. Delinquent status must be disclosed or risk debarment by the Knox County Procurement Division.

16. Limitations of liability. In no event shall the County be liable for any indirect, incidental, consequential, special or exemplary damages or lost profits, even if the County has been advised of the possibility of such damages.

17. Contract documents. It is mutually agreed by both parties that the following documents are made part of this Contract and are incorporated herein by reference:

A. Request for Proposal No. 3734
B. Contractor's Response to Request for Proposal No. 3734

It is agreed that this Contract, represents the **entire Contract** between the parties and no prior representations, promises, and agreements, oral or otherwise, not embodied herein, shall be of any force or effect.

In witness whereof, the parties hereto have caused this Contract to be executed in one original copy on the day and year last written below.

BUSINESS ASSOCIATE AGREEMENT

This Business Associate Agreement ("Agreement") is entered into by and between Knox County, Tennessee, Covered Entity ("CE"), and **EyeMed Vision Care, LLC**, Business Associate ("BA").

PURPOSE

A. Covered Entity ("CE") operates a Health Plan licensed and certified to participate in the Knox County Employee Benefits Program.

B. Business Associate ("BA") is contractually obligated to provide certain services related to one or more "covered entities" as that term is defined and regulated under HIPAA.

C. CE and BA intend to protect the privacy of Protected Health Information ("PHI") and electronic Protected Health Information ("e-PHI") disclosed to or created or received by BA pursuant to the Agreement in compliance with applicable provisions of the Health Insurance Portability and Accountability Act of 1996, Public Law I 04-191 ("HIPAA") and regulations promulgated there under by the U.S. Department of Health and Human Services, the privacy and security provisions of the American Recovery and Reinvestment Act (Stimulus Act) for Long Term Care, Public Law 111-5, HITECH Act and other applicable laws.

D. CE and BA agree to comply with the Fair and Accurate Credit Transactions Act of 2003 (FACTA) and its implementing regulations at 16 CFR §681.1 and 16 CFR §681.2.

E. The purpose of this Agreement is to satisfy certain standards and requirements of HIPAA, including the Standards for Privacy of Individually Identifiable Health Information at 45 CFR parts 160 and 164, Subparts A and E, the standards relating to Notification in the Case of Breach of Unsecured Protected health Information at 45 CFR Parts 160 and 164, Subparts A and D, and the Security Standards for the Protection of electronic Protected Health Information at 45 CFR Parts 160 and 164, Subparts A and D, as such regulations may be amended from time to time (including, without limitation any amendments required by the Health Information Technology for Economic and Clinical Health Act (the "HITECH Act") (collectively "HIPAA Regulations")

In consideration of the mutual promises below and the exchange of information pursuant to this Agreement, the parties agree as follows:

1. **Definitions**: The following definitions are used by this Agreement:

1.1 **Agreement** – means this Business Associate Agreement, which is an agreement required under 45 C.F.R. Section 164.314(a) (2) between a Business Associate and a Covered Entity.

1.2 **Breach** – means the unauthorized acquisition, access, use, or disclosure of Protected Health Information in a manner not permitted under the Privacy Rule which compromises the security or privacy of the protected health information. Except that: a use or disclosure of protected health information that does not include the identifiers listed at 45 CFR 164.514 (e)(2) of the Privacy Rule, date of birth, and zip code does not compromise the security or privacy of the protected health information is deemed not to be a "Breach" for purposes of this agreement. Notwithstanding the foregoing, a Breach does not include: (1) any unintentional acquisition, access, or use of Protected Health Information by an employee or individual acting under the authority of Covered Entity or Business Associate and in the scope of the employment or relationship between the employee or individual and Covered Entity or BA, provided such information is not further acquired, accessed, used, or disclosed by any person without authorization; (2) any inadvertent disclosure by an individual who is authorized to access. Protected Health Information at Covered Entity's or BA's facility to another similarly situated individual at the same facility, provided such information is not further acquired, accessed, used, or disclosed by any person without authorization; and (3) a disclosure of Protected Health Information in a situation in which BA has a good faith belief that the person(s) to which the unauthorized disclosure was made would not reasonably have been able to retain such information.

1.3 **Business Associate (BA)** – is a person or entity, other than a member of the workforce of a covered entity CE, who performs functions or activities on behalf of a CE that involves access by the BA to protected health information as described in 45 C.F.R. Section 160.103.
A BA is also a subcontractor that creates, receives, maintains, or transmits protected health information on

behalf of another business associate.

1.4 **Covered Electronic Transactions** – shall have the meaning given to the term “transaction” in 45 C.F.R. Section 160.103.

1.5 **Covered Entity (CE)** – as the term referenced to the entity to this agreement is a provider of medical and health services as described in 45 C.F.R. Section 160.103.

1.6 **Covered Individual** – means a person who is eligible for payment of certain services or supplies rendered or sold to the person or the person’s eligible dependents under the terms, conditions, limitations, and exclusions of the Plan.

1.7 **Data Aggregation** – means, with respect to Protected Health Information created or received by BA in its capacity as a BA (as that term is defined in 45 C.F.R. Section 160.103) of the Plan, the combining of such Protected Health Information by BA with the Protected Health Information received by BA in its capacity as a BA of another covered entity (as those terms are defined in 45 C.F.R. Section 160.103), to permit data analyses that relate to the health care operations of the respective covered entities.

1.8 **Designated Record Set** – means a group of records maintained by or for Covered Entity that is (1) the medical records and billing records about Individuals maintained by or for a covered health care provider, (2) the enrollment, payment, claims adjudication, and case or medical management record systems maintained by or for Covered Entity, or (3) used, in whole or in part, by or for Covered Entity to make decisions about Individuals. As used herein, the term “Record” means any item, collection, or grouping of information that includes Protected Health Information and is maintained, collected, used or disseminated by or for Covered Entity.

1.9 **Disclose** - means the release, transfer, provision of access to, or divulging in any other manner of PHI to parties outside the BA's organization.

1.10 **Effective Date** – means January 1, 2027, unless specifically noted otherwise herein.

1.11 **Electronic Health Record** – means an electronic record of health-related information regarding an Individual that is created, gathered, managed, and consulted by authorized health care clinicians and their staff.

1.12 **Electronic Protected Health Information** – shall have the same meaning as the term “electronic protected health information” in 45 C.F.R. Section 160.103, limited to the information created, received, maintained, or transmitted by BA from or on behalf of Covered Entity.

1.13 **GINA** - shall mean the Genetic Information Nondiscrimination Act of 2008 (Pub. L. 110-223).

1.14 **HITECH** – means Heath Information Technology for Economic and Clinical Health Act.

1.15 **HHS** – means the United States Department of Health and Human Services.

1.16 **Including** – means “including but not limited to.”

1.17 **Individual** – shall have the same meaning as the term “individual” in 45 C.F.R. Section 160.103 and shall include a person who qualifies as a personal representative in accordance with 45 C.F.R. Section 164.502(g).

1.18 **Integrity** – means that data or information have not been altered or destroyed in an unauthorized manner.

1.19 **Data Set** – shall have the same meaning as the term “limited data set” in 45 C.F.R. Section 164.514(e) (2).

1.20 **Plan** – means the group health plan(s) identified in the introductory paragraph to this Agreement.

1.21 **Privacy Rule** – means the Standards and Privacy of Individually Identifiable Health Information at 45 C.F.R. Part 160 and Part 164, subparts A and E and the privacy provisions of HIPAA, as amended.

1.22 **Protected Health Information (PHI)** – shall have the same meaning as the term “protected health information” in 45 C.F.R. 160.103, limited to the information created, received, maintained, or transmitted by BA from or on behalf of Covered Entity. PHI includes both Hardcopy and Electronic Protected Health Information ("phi") and means any information, whether oral or recorded in any form or medium, that

i. Relates to the past, present or future physical or mental health or condition of an individual, the

provision of health care to an individual, or the past, present or future payment for the provision of health care to an individual; and,

ii. Identifies the individual or there is a reasonable basis to believe the information can be used to identify the individual; and,

iii. Is limited to the information created or received by BA from or on behalf of CE.

iv. Hardcopy Protected Health Information ("paper") is a subset of Protected Health Information and means PHI that is maintained as a paper document.

1.23 **Electronic Protected Health Information ("e-PHI")** is a subset of Protected Health Information and means PHI that is transmitted by or maintained in any electronic media.

1.24 **Required By Law** – means a mandate contained in law that compels a covered entity to make a use or disclosure of PHI and that is enforceable in a court of law and shall have the same meaning as the term "required by law" in 45 C.F.R. Section 164.103.

1.25 **Secretary** – means the Secretary of Health and Human Services or any other officer or employee of HHS to whom the authority involved has been delegated.

1.26 **Security Incident** – shall mean the attempted or successful unauthorized access, use, disclosure, modification, or destruction of Covered Entity's information created, received, maintained or transmitted by BA pursuant to this Agreement or interference with system operations in an information system as provided in 45 CFR 146.304.

1.27 **Security Rule** – means the Security Standards and Implementation Specifications at 45 C.F.R. Part 160 and Part 164, subpart C and the security provisions of HIPAA, as amended.

1.28 **Standards for Electronic Transactions Rule** – means the final regulations issued by HHS concerning standard transactions and code sets under the Administrative Simplification provisions of HIPAA, 45 C.F.R. Part 160 and Part 162.

1.29 **Subcontractor** – means an agent of a BA described in 45 C.F.R. Section 165.103 to whom the BA provides protected health information that the BA creates, receives, maintains, or transmits on behalf of a Covered Entity.

1.30 **Unsecured Protected Health Information** – means Protected Health Information that has not been rendered unusable, unreadable, or indecipherable to unauthorized individuals through the use of a technology or methodology specified by the Secretary. As of August 24, 2009, the Secretary has specified the following technologies and methodologies that will render Protected Health Information unusable, unreadable, and indecipherable (i.e., secured Protected Health Information): (1) encryption as described in the Secretary's guidance and determined by the National Institute of Standard and Technology to meet the standards described in such guidance, or (2) destruction, in accordance with the procedures identified in the Secretary's guidance, of the media on which the Protected Health Information was stored or recorded.

1.31 **Use** – means the sharing, employment, application, utilization, examination, or analysis of PHI within the BA's organization.

2. Privacy Provisions

2.1 **Introduction.** Business Associate, on behalf of Covered Entity, performs or assists in the performance of functions and activities that may involve the use, disclosure, receipt and/or creation of Protected Health Information. The "business associate" provisions of the Privacy Rule govern the terms and conditions under which the BA may use or disclose Protected Health Information. In general, BA agrees and intends to act such that (1) Covered Entity can fulfill its responsibilities under HIPAA; and (2) BA can fulfill its contractual obligations under this Agreement. In addition, BA specifically acknowledges its direct liability for the failure to comply with certain portions of the Privacy Rule as provided under HITECH and the regulations issued thereunder.

2.2 **Permitted Uses and Disclosures by Business Associate**.

2.2.1 Business Associate agrees to not use or disclose PHI other than as permitted or required by this Agreement or as Required by Law. Business Associate shall comply with the provisions of this Agreement relating to privacy and security of PHI on all present and future provisions of HIPAA, the HITECH Act and HIPAA Regulations that relate to privacy and security of PHI and that are applicable to CE and/or BA.

Except as otherwise limited in this Agreement, BA may use or disclose Protected Health Information (i)

to perform functions, activities, or services for, or on behalf of, Covered Entity pursuant to any services agreement with the BA, (ii) as permitted or required by this Agreement, and (iii) as Required by Law. BA may disclose Protected Health Information to other BAs of Covered Entity, or to BAs of another covered entity that is part of an organized health care arrangement that includes Covered Entity, to the fullest extent allowed under applicable law. If and when BA discloses or makes available Protected Health Information to the sponsor of the Plan, BA agrees to disclose or make available Protected Health Information only to the persons identified in the attached Designated Persons Appendix (which may be updated by Covered Entity and communicated to BA from time to time) for the purpose of performing functions, services, or activities for or on behalf of Covered Entity. Upon Covered Entity's request, BA will provide Protected Health Information to other BAs of Covered Entity that assist in administering the group health plans and that are authorized to receive such information.

2.2.2 Except as otherwise limited in this Agreement, BA may use or disclose PHI consistent with CE's minimum necessary policies and procedures to perform functions, activities, or Services for, or on behalf of CE as specified in the Agreement, provided such use or disclosure would not violate the Privacy and Security Rule if done by the CE.

2.2.3 Disclosure for Management and Administration - Except as otherwise limited in this Agreement, BA may disclose PHI for the proper management and administration of the BA or to carry out the legal responsibilities of the BA, provided that:

i. Disclosures are required by law; or
ii. BA obtains reasonable assurances from the person to whom the information is disclosed that it will remain confidential and will be used or further disclosed only as required by law or for the purpose for which it was disclosed to the person, and
iii. The person notifies the BA of any instances of which it is aware in which the confidentiality of the information has been breached.

2.2.4 Data Aggregation - Except as otherwise limited in this Agreement, BA may use PHI to provide Data Aggregation services to CE relating to the health care operations of the CE.

2.2.5 Report Violations of Law - Except as otherwise limited in this Agreement, BA may use PHI to report violations of law appropriate to Federal and State authorities consistent with 45 CFR §164.502(j))(1).

2.2.6 De-identification. The BA may de-identify any and all PHI that it obtains from the CE, but only if such de-identification is accomplished in accordance with the requirements of 45 CFR 514 (a) and (b).

2.2.7 Business Associate will limit the use, disclosure, or request of Protected Health Information, to the extent practicable, (i) to the Limited Data Set, or (ii) if needed by BA, to the minimum necessary (as determined by BA) to accomplish the intended purpose of such use, disclosure, or request, except to the extent a broader use, disclosure, or request of Protected Health Information is allowed by the Privacy Rule. BA's ability to satisfy the requirement of this Section 2.2.7 by use of the Limited Data Set shall be available until the effective date of subsequent guidance issued by the Secretary regarding what constitutes "minimum necessary," at which time BA will take reasonable efforts to limit the use, disclosure, or request of Protected Health Information to the minimum necessary (as defined by such Secretary's guidance) to accomplish the intended purpose of such use, disclosure, or request, except to the extent a broader use, disclosure, or request of Protected Health Information is allowed by the Privacy Rule.

2.2.8 Except as otherwise authorized by the Privacy Rule, BA shall not directly or indirectly receive remuneration (whether financial or nonfinancial) in exchange for any Protected Health Information of a Covered Individual unless Covered Entity has received a valid authorization from the Covered Individual that includes a specification of whether the Protected Health Information can be further exchanged for remuneration by the entity receiving Protected Health Information of that Covered Individual.

This Section 2.2.8 shall apply to exchanges of Protected Health Information occurring on or after the compliance date applicable under the final regulations issued under HITECH that address this restriction.

3. **Limitations on Business Associate's Uses and Disclosures.** With respect to Protected Health Information that Covered Entity discloses to BA or BA creates, receives, maintains, or transmits on behalf of Covered Entity, BA will not use or further disclose the Protected Health Information other than as permitted or required by this Agreement or as Required by Law.

4. **Additional Obligations of Business Associate**. Except as otherwise specified in this Agreement, the provisions of this paragraph apply only to Protected Health Information that Covered Entity discloses to BA or BA creates, receives, maintains, or transmits on behalf of Covered Entity.

4.1 **Safeguards**. BA agrees to use appropriate safeguards to prevent the use or disclosure of the PHI other than as provided for by this Agreement. Without limiting the generality of the foregoing sentence, BA must comply with the Security Rule by:

4.1.1 Implementing administrative, physical, and technical safeguards that reasonably and appropriately protect the confidentiality, integrity and availability of PHI and ePHI as required by the Agreement, and as required by 45 CFR 164.308, 164.310, 164.312, and 164l316 that the BA receives, creates, maintains, or transmits to the same extent as if the BA were a CE. The BA shall undertake such actions in a manner that is consistent with any guidance issued by the Secretary pursuant to the HITECH Act.

4.1.2 Ensure that any subcontractors that create, receive, maintain or transmit PHI on behalf of the BA agree to comply with the applicable requirements of the Privacy and Security Rules by entering into a contract or other arrangement that complies with the Privacy and Security Rules.

4.1.3 Promptly report to CE any Security Incident of which BA becomes aware. In addition, BA agrees to promptly notify CE following the discovery of a Breach of Unsecured PHI. A Breach is considered "discovered" as of the first day on which the Breach is known, or reasonably should have been known, to BA or any employee, officer or agent of BA, other than the individual committing the Breach.

4.1.4 BA shall protect PHI from any improper oral or written disclosure by enacting and enforcing safeguards to maintain the security of and to prevent any Use or Disclosure of PHI other than is permitted by this Agreement.

4.2 **Reporting and Mitigation**. Business Associate will report to Covered Entity any acquisition, access, use, or disclosure of Protected Health Information of which BA becomes aware, or that is reported to BA by an agent or Subcontractor, that is in violation of this Agreement.

BA agrees to mitigate, to the extent practicable, any harmful effect that is known to BA of a use or disclosure of PHI by BA or its employees, officers or agents in violation of the requirements of this Agreement (including, without limitation, any Security Incident or Breach of Unsecured PHI). BA agrees to reasonably cooperate and coordinate with CE in the investigation of any violation of the requirements of this Agreement and/or any Security Incident or Breach. BA shall also reasonably cooperate and coordinate with CE in the preparation of any reports or notices to the individual, a regulatory body or any third party required to be made under HIPAA Regulations, the HITECH Act, or any other Federal or State laws, rules, or regulations, provided that any such reports or notices shall be subject to the prior written approval of CE.

4.3 **Agents and Subcontractors**. BA agrees to enter into an agreement with each of its subcontractors pursuant to 45 CFR 164.308(b)(1) and HITECH 13401. BA shall monitor and ensure, in accordance with 45 CFR 164.502(e)(l)(ii) and 164.308(b)(2), that any agents, including subcontractors and subcontractors of subcontractors, that create, received, maintain, or transmit PHI on behalf of the BA agree to the same restrictions, conditions, and requirements that apply to the BA through this Agreement with respect to such information.

4.4 **Access to Designated Record Sets**. To the extent that BA possesses or maintains PHI in a Designated Record Set, BA agrees to provide access, at the request of CE, and in the time and manner designated by the CE, to PHI in a Designated Record Set, to Covered Entity or, as directed by CE, to an Individual in order to meet the requirements under HIPAA Regulations. If an Individual makes a request for access to PHI directly to BA, BA shall notify CE of the request within five (5) business days of such request and will cooperate with CE and allow CE to send the response to the Individual.

4.5 **Amendment of Designated Record Sets**. To the extent that BA possesses or maintains PHI in a Designated Record Set, BA agrees to make any amendment(s) to PHI in a Designated Record Set that the CE directs or agrees to pursuant to HIPAA Regulations at the request of CE or an Individual, and in the time and manner designated by the CE. If an Individual makes a request for an amendment to PHI directly to BA, BA shall notify CE of the request within five (5) business days of such request and will cooperate with CE and allow CE to send the response to the Individual.

4.6 **Disclosure Accounting**. BA agrees to document disclosures of Protected Health Information and information related to such disclosures as is necessary to enable Covered Entity to respond to a request by a Covered

Individual for an accounting of disclosures of PHI in accordance with HIPAA Regulations and the HITECH Act. BA agrees to provide to CE or an Individual, in the time and manner designated by the CE, information to permit CE to respond to a request by an Individual for an accounting of disclosures of PHI in accordance with HIPAA Regulations and the HITECH Act. If an Individual makes a request for an accounting directly to BA, BA shall notify CE of the request within five (5) business days of such request and will cooperate with CE and allow CE to send the response to the Individual. At a minimum, Business Associate shall provide Covered Entity with the following information: (i) the date of the disclosure; (ii) the name of the entity or person who received the Protected Health Information, and if known, the address of such entity or person; (iii) a brief description of the Protected Health Information disclosed; and, (iv) a brief statement of the purpose of such disclosure which includes an explanation of the basis for such disclosure. BA hereby agrees to implement an appropriate record keeping process to enable it to comply with the requirements of this section and applicable law. It shall be CE's responsibility to promptly notify BA of the request for an accounting, and to prepare and deliver any such accounting requested.

4.7 **Access to Business Associate's Internal Records**. BA shall make its internal practices, books, and records relating to the use and disclosure of Protected Health Information received from, or created or received by Business Associate on behalf of, CE available to the Secretary, for the purposes of the Secretary's determining compliance with HIPAA for Covered Entity and/or BA.

4.8 **Electronic Transactions**. In the event the BA transmits or receives any Covered Electronic Transaction on behalf of CE, it shall comply with all applicable provisions of the Standards for Electronic Transactions Rule to the extent Required by Law, and shall ensure that any agents and Subcontractors that assist BA in conducting Covered Electronic Transactions on behalf of CE agree in writing to comply with the Standards for Electronic Transactions Rule to the extent Required by Law.

4.9 **GINA**. BA agrees not to use or disclose Protected Health Information that contains genetic information if such use or disclosure would violate GINA.

5. Obligations and Rights of Covered Entity.

5.1 **Notice of Privacy Practices**. CE shall provide BA with the notice of privacy practices that CE produces in accordance with 45 C.F.R. Section 164.520, as well as any changes to such notice.

5.2 **Requests by Covered Entity**. CE shall not request or direct BA to use or disclose Protected Health Information in any manner that would not be permissible under the Privacy Rule if done by CE. This includes, but is not limited to, requests or directions for disclosure of Protected Health Information to the Plan sponsor in a capacity other than acting on behalf of the Plan as CE. To the extent a dispute or difference of opinion exists between the BA and CE regarding whether a use or disclosure is permissible, BA may disclose the Protected Health Information under objection pursuant to the specific, written direction of CE. Any disclosures made pursuant to such specific, written direction shall be subject to the indemnification provisions of the Agreement.

5.3 **Authorizations**. CE shall notify Business Associate of any authorization provided by an Individual to use or disclose Protected Health Information (and any changes in or revocation of such an authorization),, to the extent that such information may affect Business Associate's use or disclosure of Protected Health Information. Upon receipt of such notification, BA shall use or disclose Protected Health Information in accordance with the authorization or changes thereto.

5.4 **Restrictions**. CE shall notify BA of any restriction on the use or disclosure of Protected Health Information to which CE has agreed in accordance with 45 C.F.R. Section 164.522 or is required to agree under HITECH (and any changes to or termination of such a restriction), to the extent that such restriction may affect BA's use or disclosure of Protected Health Information. Such restrictions include, but are not limited to, a Covered Individual's request not to disclose Protected Health Information for purposes of payment or health care operations where the Protected Health Information relates solely to a health item or service for which the health care provider has been paid in full out-of-pocket by, or on behalf of, the Covered Individual. Upon receipt of such notification, BA shall comply with such a restriction.

5.5 **Agreement Breaches by Business Associate**. If CE obtains knowledge of a pattern of activity or practice of BA that constitutes a material breach or violation of BA's obligations under this Agreement, CE will take reasonable steps to cure such breach or end such violation.
If CE cannot successfully cure the breach or end the violation, CE shall terminate the Agreement in accordance with Section 8.2 if feasible.

6. Electronic Security Provisions

6.1 **Introduction.** This section applies where Business Associate, on behalf of Covered Entity, performs or

assists in the performance of functions and activities that may involve the creation, maintenance, receipt, or transmission of Electronic Protected Health Information. This Section 6 along with the other sections of the BA Agreement are (1) intended to meet the requirements of the "business associate" provisions of Security Rule, and (2) govern the terms and conditions under which the BA may create, maintain, receive, and transmit Electronic Protected Health Information on behalf of CE. In general, BA agrees and intends to act such that (1) CE can fulfill its responsibilities under HIPAA; (2) BA can fulfill its responsibilities under HIPAA; and (3) BA can fulfill its contractual obligations under this Agreement.

6.2 **Obligations of Business Associate.** In accordance with the Security Rule, BA agrees to:

6.2.1 Conduct a security risk assessment (in accordance with 45 C.F.R. Section 164.308(a)(1)(ii)(A)) and adopt and implement policies and procedures designed to ensure compliance with the Security Rule and this Agreement including, but not limited to, identifying a security officer and training personnel. This Section 6.2.1 shall be effective as of the compliance date applicable under the final regulations issued under HITECH that address this requirement.

6.2.2 Implement administrative, physical and technical safeguards (including written policies and procedures) that reasonably and appropriately protect the confidentiality, integrity, and availability of the Electronic Protected Health Information that BA creates, maintains, receives, or transmits on behalf of CE.

6.2.3 Enter into a written contract with any agent or Subcontractor to whom BA provides Electronic Protected Health Information that requires such agent or Subcontractor to comply with the same restrictions and conditions that apply under this Section 6 to BA, including, but not limited to, implementing reasonable and appropriate safeguards to protect such information.

6.2.4 Report to CE any Security Incident of which BA becomes aware. BA shall provide such notification on a quarterly basis, unless a more prompt notice is otherwise required by this Agreement. With respect to Security Incidents that result from an unsuccessful attempt to access, use, disclose, modify, or destroy Electronic Protected Health Information or interfere with system operations in an information system containing Electronic Protected Health Information, the notification required hereunder need only report the aggregate number of such incidents.

6.2.5 Promptly mitigate, to the extent practicable, any harmful effect of a Security Incident that is known to BA.

6.3 **Obligations of Covered Entity**. CE shall not request or direct BA to create, maintain, receive, or transmit Electronic Protected Health Information in any manner that would not be permissible under the Security Rule.

7. Breach Notification Requirements

7.1 **Breach Notification**. To the extent BA accesses, maintains, retains, modifies, records, stores, destroys, or otherwise holds, uses, or discloses Unsecured Protected Health Information, as set forth in Section 13402(h) of HITECH, BA shall promptly report to CE any Breach of such Unsecured Protected Health Information by it, its subcontractors or agents of which it becomes aware. Prior to notifying CE of the Discovery of a Breach, BA shall take reasonable steps to satisfy itself based upon reasonable diligence that the acquisition, access, use or disclosure of PHI was not unintentional or inadvertent.
Notification to CE shall be made without unreasonable delay and in no case later than five (5) business days after the earlier of: (i) the first day on which such Breach is known to BA; or (ii) the first day on which such Breach, by exercising reasonable diligence, would have been known to any person (other than the person committing the Breach) who is an employee, officer or other agent of BA. Notification will be made to the Knox County Privacy Officer. Notification of the Breach may only be delayed if such delay is required by law enforcement purposes as set forth in 45 C.F.R. Section 164.412. If BA has been requested orally or in writing by law enforcement officials that notification of affected individuals may impede a criminal investigation, BA shall inform CE within 24 hours of receiving the request. BA shall exercise reasonable diligence and promptly supplement its report with any additional information as may be obtained by BA.

BA, its affiliates, agents and subcontractors shall not provide any notification or information regarding any Breach to any person other than CE, except to the extent such action is: (i) required by law, (ii) required under this Agreement, or (iii) taken pursuant to a prior written consent of Covered Entity.
Notwithstanding the foregoing, BA may provide information regarding a Breach to its legal counsel.

7.2 **Content of Report**. Notification to CE of a Breach shall include, at a minimum, the following:

7.2.1 A brief description of what happened, including the date of the incident and the date of the discovery of the incident, if known;

7.2.2 A description of the types of Unsecured PHI that were involved in the incident (such as whether full name, social security number, date of birth, home address, account number, diagnosis, disability code, or other types of information) and that were or are reasonably believed by BA to have been impermissibly accessed, acquired, used or disclosed;

7.2.3 A fact-specific and detailed risk assessment of whether the incident poses a significant risk of financial, reputational, or other harm to the individual whose Unsecured PHI has been (or is reasonable believed by BA to have been) acquired, accessed, used or disclosed;

7.2.4 Identification of the Individuals whose Unsecured PHI has been, or is reasonably believed by BA to have been, accessed, acquired, used or disclosed;

7.2.5 Any steps Individuals should take to protect themselves from potential harm resulting from the incident;

7.2.6 A brief description of what BA is doing to investigate the incident, to mitigate harm to Individuals, and to protect against any further incidents; and

7.2.7 Any other information reasonably requested by CE to be included in the report.

7.3 **Documentation and Retention**. BA will document all actions described in this Section 7 and maintain such documentation for at least six years from the date the documentation is created or the date it was last in effect, whichever is later.

7.4 **Reimbursement, Mitigation and Cooperation**. BA will reimburse CE for all reasonable and necessary out-of-pocket costs incurred (including without limitation costs associated with providing required notices) as a result of a Breach by the BA, its affiliates, subcontractors or agents. Business Associate further agrees to cooperate with CE as reasonably requested, to mitigate, to the extent practicable, any harmful effect of such a Breach or other use or disclosure of Protected Health Information in violation of the terms and conditions of this Agreement, and fully cooperate with CE on all matters relating to such incident and associated notifications by CE to Individuals, the media, the Secretary, the Federal Trade Commission, or any other governmental entity.

7.5 **Continuing Duty to Report**. Nothing in this Agreement shall be construed to relieve BA of its existing reporting obligations under the Agreement and BA shall continue to report to CE in the time and in the manner provided for in the Agreement. The occurrence of a Security Incident of a use or disclosure of PHI in a manner that is not provided for in the Agreement shall not discharge BA's obligations under this Agreement to report a Breach unless such reporting fully and completely satisfies all of the Breach reporting requirements of this Agreement.

8. Term and Termination

8.1 **Term.** The Term of this Agreement will begin and become effective on the Effective Date and shall terminate when all of the Protected Health Information provided by CE to BA, or created or received by BA on behalf of CE is destroyed or returned to CE, or, if it is infeasible to return or destroy Protected Health Information, protections are extended to such information, in accordance with the termination provisions in this Section 8

8.2 **Termination**. Upon CE's knowledge of a material breach by BA of the terms of this Agreement, CE shall either:

8.2.1 Provide an opportunity for BA to cure the Breach or end the violation. If BA does not cure the breach or end the violation within the time specified by CE, CE shall terminate this Agreement.

8.2.2 If BA has breached a material term of this Agreement and cure is not possible, immediately terminate this Agreement; or

8.2.3 If neither termination nor cure is feasible, CE shall report the violation to the Secretary.

8.3 **Effect of Relationship Termination**.

8.3.1 Except as provided in Section 8.3.2 and/or 8.3.3 of this sub-section, upon termination of the Agreement, for any reason, BA shall return or destroy all Protected Health Information received from, or created or received by it on behalf of CE and will certify that such return or destruction has been completed no later than 30 calendar days following the effective date of termination. The certificate of return or destruction should be mailed to Knox County Risk Management, Attn. Privacy Officer, 400 Main Street Suite 345, Knoxville TN 37902.

This provision shall apply to Protected Health Information that is in the possession of Business Associate and/or its Subcontractors or agents. BA will not retain any copies of Protected Health Information.

8.3.2 In the event that BA determines that returning or destroying Protected Health Information is infeasible, BA will notify CE in writing, no later than the date required for certification under section 8.3.1, of the conditions that make return or destruction infeasible. Upon mutual agreement of the parties that return or destruction of Protected Health Information is infeasible; BA will extend the protections of this Agreement to such Protected Health Information and limit further uses and disclosures of such Protected Health Information to those purposes that make the return or destruction infeasible, for so long as BA maintains such Protected Health Information.

8.3.3 Should Covered Entity notify Business Associate that the information necessary to comply with the recordkeeping requirements under other applicable law includes the Protected Health Information, BA shall return or provide to CE such information, including Protected Health Information.

9. General Provisions

9.1 **Regulatory References.** Any reference in this Agreement to a section in HIPAA, HIPAA Regulations, or the HITECH Act means the section as in effect or amended or modified from time to time, including any corresponding provisions of subsequent superseding laws or regulations.

9.2 **Amendment.** The parties agree to take such action as is necessary to amend this Agreement from time to time as is necessary for CE and/or BA to comply with the requirements of HIPAA and the HITECH Act, as those statutes and their implementing regulations may be amended from time to time. No amendment to this Agreement shall be effective until reduced to writing and duly signed by the authorized representatives of the parties.

9.3 **Interpretation.** Any ambiguity in this Agreement shall be resolved to permit each party to comply with HIPAA and the HITECH Act, as those statutes and their implementing regulations may be amended from time to time. The provisions of this Agreement shall prevail over any provision of any other agreement between the BA and the CE that may conflict or be inconsistent with any provision in this Agreement.

9.4 **Survival.** The respective rights and obligations of BA under this Agreement shall survive the termination of this Agreement and any related agreement, including a services agreement.

9.5 **Indemnity.** The BA agrees to indemnify, hold harmless, and defend the CE and its officers, directors, employees or agents from third-party any claim, cause of action, liabilities, damages, penalties, fines, costs, expenses or other losses (including reasonable attorney's fees) arising out of any use or disclosure of PHI by BA or its agents or subcontractors in breach of this Agreement of in violation of State or Federal Law, including without limitation, HIPAA, the HITECH Act, the Privacy Rule, or the Security Rule.

9.6 **No Third Party Beneficiaries**. Nothing express or implied in this Agreement is intended to confer, nor shall anything herein confer, upon any person other than the parties hereto, any rights, remedies, obligations, or liabilities whatsoever.

9.7 **Disputes**. If any dispute or claim arises between the parties with respect to this Agreement, the parties will make a good faith effort to resolve such matters informally, it being the intention of the parties that they reasonably cooperate with each other in the performance of the mutual obligations under this Agreement.

9.8 **Conformance with Law.** The parties agree to take such action as is necessary to amend this Agreement from time to time as is necessary for the parties to comply with the requirements of HIPAA as they apply to each party.

9.9 **Action.** For purposes of this Agreement, whenever action is required by a party to this Agreement, such action must be taken by a person or persons with authority to act on behalf of such party to this Agreement.

9.10 **Severability.** The invalidity or unenforceability of any provision of this Agreement shall not affect the validity or enforceability of any other provision of this Agreement, which shall remain in full force and effect.

9.11 **Notices.** All notices and communications required by this Agreement shall be in writing and shall be effective upon receipt.

Such notices and communications shall be given in one of the following forms: (i) by delivery in person, (ii) by a nationally-recognized, next-day courier service, (iii) by first-class, registered or certified mail, postage prepaid; or (iv) by electronic mail to the address that each party specifies in writing.
Neither party shall refuse delivery of any notice hereunder.

9.12 **Nature of Agreement.** Nothing in this Agreement shall be construed to create a partnership, joint venture, or other joint business relationship between the parties or any of their affiliates, or a relationship of employer and employee between the parties. Rather, it is the intention of the parties that their relationship shall be that of independent contractors.

9.13 **Entire Agreement.** This Agreement constitutes the entire agreement between the BA and the CE relating to the matters specified in this Agreement, and supersedes all prior representations or agreements, whether oral or written, with respect to such matters.

9.14 **Counterparts.** This Agreement may be executed in counterparts, each of which so executed shall be construed to be an original, but all of which together shall constitute one agreement binding on all parties, notwithstanding that all parties are not signatories to the same counterpart. Transmission by facsimile or electronic mail of an executed counterpart of this Agreement shall be deemed to constitute due and sufficient delivery of such counterpart.

This Agreement and any amendment or modification may not be denied legal effect or enforceability solely because it is in electronic form, or because an electronic signature or electronic record was used in its formation.

9.15 **Governing Law and Venue.** This Agreement and the rights and obligations of the parties hereunder shall be governed by and construed under the laws of the state of Tennessee. The Chancery Court and/or the Circuit Court of Knox County, Tennessee shall have exclusive and concurrent jurisdiction of any disputes which arise hereunder.

9.16 **Compliance with HIPAA Transaction Standards.** When providing its services and/or products, BA shall comply with all applicable HIPAA standards and requirements (including, without limitation, those specified in 45 CFR Part 162) with respect to the transmission of health information in electronic form in connection with any transaction for which the Secretary has adopted a standard under HIPAA("Covered Transactions"). BA represents and warrants that it is aware of all current HIPAA standards and requirements regarding Covered Transactions, and BA shall comply with any modifications to HIPAA standards and requirements which become effective from time to time. BA agrees that such compliance shall be at its sole cost and expense, which expense shall not be passed on to CE in any form, including, but not limited to, increased fees. BA shall require all of its agents and subcontractors (if any) who assist BA in providing its services and/or products to comply with these terms.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the date set forth below.

Request for Proposal #3734 and
Addendum I&II

Employee Vision Benefit
Services

The Procurement Division of Knox County, Tennessee will receive sealed proposals for the provision of **Employee Vision Benefit Services** as specified herein. Proposals must be received by **2:00 p.m.** on **May 5, 2026**. Late proposals will neither be considered nor returned.

Deliver Proposals To:

Proposal Number 3734
Knox County Procurement Division
Suite 100
1000 North Central Street
Knoxville, Tennessee 37917

The Proposal Envelope must show the Company Name, Proposal Number, Proposal Name & Proposal Closing Date.

SECTION I PROPOSAL PREPARATION AND SUBMISSION

1.1 **ADDITIONAL INFORMATION:** Knox County wants requests for additional information routed to Christina Beeler, Senior Procurement Analyst, at 865.215.5722 or emailed to Christina.Beeler@knoxcounty.org. If you have not heard from the Buyer in a reasonable amount of time, please call for further assistance. Information about the Knox County Procurement Division and current solicitations may be obtained on the internet at www.knoxcounty.org/procurement.

1.2 **ACCEPTANCE:** Vendors shall hold their price firm and subject to acceptance by Knox County for a period of one hundred twenty (120) Business Days from the date of the proposal closing, unless otherwise indicated in their proposal.

1.3 **ALTERNATIVE PROPOSALS:** Knox County will not accept alternate proposals (those not equal to specifications) unless authorized by the Request for Proposal (RFP).

1.4 **AUDIT HOTLINE:** Knox County has established an Audit Hotline to report potential fraud and waste. To report potential fraud, waste or abuse, vendor can file a report online by accessing https://www.knoxcounty.org/audit/hotline.php.

Vendors are hereby cautioned that this Audit Hotline does not replace the Award Protest Procedures found in Section VI, Item M of the Knox County Procurement Regulations.

1.5 **AWARD:** Award will be made to the most responsive, responsible proposer(s) meeting specifications and presenting the product(s) and/or service(s) that is in the best interest of Knox County. Knox County reserves the right to award this proposal on an all-or-none basis, schedule basis or by multiple award. Knox County reserves the right to not award this proposal. Award will be made in accordance with the evaluation criteria specified herein. The evaluation criteria can be found in Section 3.14.

1.6 **BUSINESS OUTREACH PROGRAM:** The purpose of this program is to increase the opportunity for companies doing business with Knox County by encouraging participation through site visits, providing education and support regarding policies and procedures, and actively recruiting all interested suppliers.

1.7 **CONFLICT OF INTEREST:** Vendors must have read and comply with the “Non-Conflict of Interest" statement provided in the vendor registration process prior to the closing of this solicitation. Knox County’s Non-Conflict of Interest Policy is available for review at https://www.knoxcounty.org/purchasing/conflict_policy.php.

1.8 **COPIES:** Knox County requires that two hard copies of proposals be submitted as one (1) marked original and one (1) exact electronic version. **Proposers must submit with their hard copies an exact electronic version of their proposal in a SINGLE FILE on a flash drive.**

1.9 **DECLARATIVE STATEMENTS:** Any statement or words (e.g.: must, shall, will) are declarative statements and the vendor must comply with the condition. Failure to comply with any such condition may result in the proposal being considered non-responsive and disqualified.

1.10 **ELECTRONIC TRANSMISSION OF PROPOSALS:** Knox County's Procurement Division **will not** accept electronically transmitted proposals. Facsimile and email submission is strictly prohibited. Due to the nature of the information requested, all submissions shall be in written format.

1.11 **HOW TO DO BUSINESS:** Knox County utilizes a web-based Procurement software system, "KnoxBuys." The system provides our clients (vendors, county departments and the citizens of Knox County) with a more enhanced and end-user friendly means of accessing our services. The system allows for on-line vendor registration and maintenance, electronic receipt of purchase orders, on-line retrieval and submittal of quotes, bids and proposals for our vendor-clients and on-line requisitioning and receiving for our county departments. In order for the County to maximize its investment and minimize the cost associated with office operations, we need your help. When doing business with Knox County, we are urging you to please go to our website at www.knoxcounty.org/procurement, register as a vendor in our on-line Procurement system, "KnoxBuys," if you have not done so and whenever possible to conduct your business with the County through this site. If you have any questions, please contact the Procurement Division Representative listed in Section 1.1 of this document.

1.12 **INCURRED COSTS:** Knox County will not be responsible for any costs incurred by the proposer in the preparation of their proposal.

1.13 **NON-COLLUSION:** Proposers, by submitting a signed proposal, certify that the accompanying proposal is not the result of, or affected by, any unlawful act of collusion with any other person or company engaged in the same line of business or commerce, or any other fraudulent act punishable under Tennessee or United States law.

1.14 **PAYMENT METHOD:** Knox County utilizes two (2) methods of placing order for products and/or services. The first is the use of Purchase Orders. These Purchase Orders will be issued from the Knox County Procurement Division via the method selected by the vendor during registration. The Purchase Order will detail the quantity, specific item(s) and the contracted price for each item.

The second method is the use of the Knox County Credit Card (VISA). Orders placed with the card will list the same information as the Purchase Order. Vendors will be given the card information and approval to process the transaction by the requesting department. Vendors must indicate in their proposal response if the vendor will accept Knox County's Credit Card (VISA) as a form of payment. Proposers are prohibited to charge Knox County any type of merchant fee from their financial institution to accept this type of payment.

1.15 **POSSESSION OF WEAPONS:** All vendors, their employees and their agents are prohibited from possessing any weapons on Knox County property without prior written consent from the County. In the case of a vendor whose Contract requires possession of firearms or other weapons to successfully complete their Contract, vendor must provide personnel who are bonded to bear said weaponry.

1.16 **PROCESSING TIME FOR PAYMENT:** Vendors are advised that a minimum of thirty (30) days is required to process invoices for payment.

1.17 **PROOF OF FINANCIAL AND BUSINESS CAPABILITY:** Vendors must, upon request, furnish satisfactory evidence of their ability to furnish products or services in accordance with the terms and conditions of these specifications. Knox County will make the final determination as to the vendor's ability.

1.18 **PROPOSAL DELIVERY:** Knox County requires proposers, when hand delivering proposals, to time and date stamp the envelope before depositing it in the bid box. Knox County will not be responsible for any lost or misdirected mail sent by common carrier, nor will Knox County be responsible for proposals delivered to addresses or Suites other than the delivery address and Suite specified at the top of this solicitation. The time clock in the Procurement Division shall serve as the official record of time.

Solicitations must be in a sealed envelope/box prior to entering the Procurement Division office. Procurement Division personnel are not allowed to see the submittal nor assist in placing documents in an envelope/box. Additionally, the Procurement Division is not responsible for providing materials (e.g. envelopes, boxes, tape) for submittals.

1.19 **RECYCLING:** Knox County, in its continuing efforts to lessen the amount of landfill waste and to further recycling efforts, requests that proposals being submitted on paper shall:

- Be submitted on recycled paper;
- Not include pages of unnecessary advertising;

1.20 **RESTRICTIVE OR AMBIGUOUS SPECIFICATIONS:** It is the responsibility of the prospective proposer to review the entire Request for Proposals (RFP) packet and to notify the Procurement Division if the specifications are formulated in a manner that would unnecessarily restrict competition.

Any such protest or question regarding the specifications or proposing procedures must be received in the Procurement Division by **April 16, 2026 at 12:00 p.m. local time**. These requirements also apply to specifications that are ambiguous.

1.21 **SIGNING OF PROPOSALS:** In order to be considered, all proposals must be signed. Please sign the original in blue ink. By signing the proposal document, the vendor acknowledges and accepts the terms and conditions stated in the proposal document.

1.22 **TAXES:** Knox County purchases are not subject to taxation. Tax exemption certificates will be provided upon request.

1.23 **TITLE VI OF THE 1964 CIVIL RIGHTS ACT AND TITLE IX OF THE EDUCATIONAL AMENDMENT OF 1972:** "Nondiscrimination in Federally Assisted Programs"—"No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance." 42 U.S.C. Section 2000. It is the policy of Knox County Government that all its services and activities be administered in conformance with the requirements of Title VI and Title IX.

1.24 **UNFORESEEN CIRCUMSTANCES:** During periods of closure due to unforeseen circumstances in Knox County or closures at the direction of the Knox County Mayor, the Procurement Division will enact the following procedures in regard to solicitations and closures:

- If the Mayor closes the Administrative offices prior to the time set for solicitation opening of any business day, all solicitations due that same day will be moved to the next operational business day.
- Other unforeseen circumstances shall be at the sole discretion of the Procurement Director.
- Knox County shall not be liable for any commercial carrier's decision regarding deliveries during any unforeseen circumstances.

1.25 **USE OF PROPOSAL FORMS:** Vendors must complete the proposal forms contained in the proposal package. Failure to complete the proposal forms may result in proposal rejection.

1.26 **VENDOR DEFAULT:** Knox County reserves the right, in case of vendor default, to procure the articles or services from other sources and hold the defaulting vendor responsible for any excess costs occasioned thereby. Should vendor default be due to a failure to perform or because of a request for a price increase, Knox County reserves the right to remove the vendor from the County's bidder's list for twenty-four (24) months.

1.27 **VENDOR REGISTRATION:** Prior to the submission deadline for this solicitation, ALL PROPOSERS MUST be registered with the Procurement Division. If you are not already a registered vendor with Knox County, register on-line at our website at www.knoxcounty.org/procurement and click on "Knox Buys" and then select "Online Vendor Registration." Vendors must be registered with the Procurement Division prior to submitting their proposal. Knox County shall not be responsible for technical difficulties experienced by vendors trying to register electronically less than twenty-four (24) hours prior to the proposal closing time.

1.28 **WAIVING OF INFORMALITIES:** Knox County reserves the right to waive minor informalities or technicalities when it is in the best interest of Knox County.

SECTION II OBLIGATIONS, RIGHTS AND REMEDIES

These terms and conditions shall be part of the Contract. Knox County reserves the right to negotiate other terms and conditions it deems appropriate and necessary under the circumstances to protect the public's trust.

2.1 **ALTERATIONS OR AMENDMENTS:** No alterations, amendments, changes, modifications or additions to this Contract shall be binding on Knox County without the prior written approval of the County.

2.2 **APPROPRIATION:** In the event no funds are appropriated by Knox County for the goods or services in any fiscal year, or insufficient funds exist to purchase the goods or services, then the Contract shall expire upon the expenditure of previously appropriated funds or the end of the current fiscal year, whichever occurs first, with no further obligations owed to or by either party.

2.3 **ASSIGNMENT:** Vendor shall not assign or sub-contract this agreement, its obligations or rights hereunder to any party, company, partnership, incorporation or person without the prior written specific consent of Knox County.

2.4 **BOOKS AND RECORDS:** Vendor shall maintain all books, documents, accounting records and other evidence pertaining to the goods and services provided under this Contract and make such materials available at its offices at all reasonable times during the Contract period and for five (5) years from the date of the final payment under this agreement for inspection by County or by any other governmental entity or agency participating in the funding of this agreement, or any authorized agents thereof; copies of said records to be furnished if requested. Such records shall not include those books, documents and accounting records that represent the Vendor's costs of manufacturing, acquiring or delivering the products and services governed by this agreement.

2.5 **CHILD LABOR:** Vendor agrees that no products or services will be provided or performed under this Contract that have been manufactured or assembled by child labor.

2.6 **COMPLIANCE WITH ALL LAWS:** Vendor is assumed to be familiar with and agrees to observe and comply with all Federal, State, and Local laws, statutes, ordinances, and regulations in any manner affecting the provision of goods and/or services, and all instructions and prohibitive orders issued regarding this work and shall obtain all necessary permits.

2.7 **CRIMINAL HISTORY RECORDS CHECK:** Any and all successful vendors, vendor employees, and any vendor subcontractor and its employees must submit to a criminal history records check, at vendor's expense, conducted by the Tennessee Bureau of Investigation and the Federal Bureau of Investigation prior to permitting the employee to have contact with students or enter school grounds when students are present. Reference Tennessee Code Annotated Section 49-5-413.

2.8 **DEFAULT:** If Vendor fails to perform or comply with any provision of this Contract or the terms or conditions of any documents referenced and made a part hereof, Knox County may terminate this Contract, in whole or in part, and may consider such failure or noncompliance a breach of Contract. Knox County expressly retains all its rights and remedies provided by law in case of such breach, and no action by Knox County shall constitute a waiver of any such rights or remedies. In the event of termination for default, Knox County reserves the right to purchase its requirements elsewhere, with or without competitive solicitation.

2.9 **GOVERNING LAW; VENUE:** This agreement shall be exclusively construed, governed, and controlled by the Laws of the State of Tennessee without regard to principles of law, including conflicts of law, of any other jurisdiction, territory, country, and/or province. Any dispute arising out of or relating to this agreement shall exclusively be brought in the Chancery Court or the Circuit Court of Knox County, Tennessee. Each party consents to personal jurisdiction thereto and waives any defenses based on personal jurisdiction, venue and inconvenient forum.

2.10 **INCORPORATION:** All specifications, drawings, technical information, Request for Proposal, Proposal, Award and similar items referred to or attached or which are the basis for this Contract are deemed incorporated by reference as if set out fully herein.

2.11 **INDEMNIFICATION—HOLD HARMLESS:** Vendor shall indemnify, defend, save and hold harmless Knox County, its officers, agents and employees from all suits, claims, actions or damages of any nature brought because of, arising out of, or due to breach of the agreement by Vendor, its subcontractors, suppliers, agents, or employees or due to any negligent act or occurrence or any omission or commission of Vendor, its subcontractors, suppliers, agents or employees.

2.12 **INDEPENDENT CONTRACTOR:** Vendor shall acknowledge that it and its employees serve as independent contractors and that Knox County shall not be responsible for any payment, insurance or incurred liability.

2.13 **INSPECTION AND ACCEPTANCE:** Warranty periods shall not commence until Knox County inspects and formally accepts the goods and/or services. The terms, conditions and timing of acceptance shall be determined by Knox County. Knox County reserves the right to reject any or all items or services not in conformance with applicable specifications, and vendor assumes the costs associated with such nonconformance. Acceptance of goods or services does not constitute a waiver of latent or hidden defects or defects not readily detectable by a reasonable person under the circumstances.

2.14 **IRAN DIVESTMENT ACT:** By submission of this RFP response, each proposer and each person signing on behalf of any proposer certifies, and in the case of a joint response, each party thereto certifies as to its own organization, under penalty of perjury, that to the best of its knowledge and belief that each proposer is not on the list created pursuant to Tennessee Code Annotated § 12-12-106. Proposers must submit with their proposals the completed Attachment D (Iran Divestment Act/No Boycott of Israel Affidavit).

2.15 **LIMITATIONS OF LIABILITY:** In no event shall Knox County be liable for any indirect, incidental, consequential, special or exemplary damages or lost profits, even if Knox County has been advised of the possibility of such damages.

2.16 **NO BOYCOTT OF ISRAEL:** Pursuant to Tennessee Code Annotated Title 12, Chapter 4, Part 1, by submission of a response to this solicitation, each proposer and each person signing on behalf of any proposer certifies, and in the case of a joint response each party thereto certifies as to its own organization, under penalty of perjury, that to the best of its knowledge and belief that each proposer is not currently engaged in, and will not for the duration of the contract engage in, a boycott of Israel. Proposers must submit with their proposals the completed Attachment D (Iran Divestment Act/No Boycott of Israel Affidavit).

2.17 **NON-DISCRIMINATION AND NON-CONFLICT STATEMENT:** Vendor agrees that no person on the grounds of handicap, age, race, color, religion, sex or national origin any individual trait or characteristic found to be an illegal consideration, shall be excluded from participation in, or be denied benefits of, or be otherwise subjected to discrimination in the performance of this agreement or in the employment practices of vendor. Vendor shall upon request show proof of such non-discrimination and shall post in conspicuous places available to all employees and applicants notices of non-discrimination. Vendor covenants that it complies with the Fair Wage and Hour Laws, the National Labor Relations Act, and other Federal and State employment laws as applicable. Vendor covenants that it does not engage in any illegal employment practices.

Vendor covenants that it has no public or private interest and shall not acquire directly or indirectly any interest that would conflict in any manner with the provision of its goods or performance of its services. Vendor warrants that no part of the total Contract amount provided herein shall be paid directly or indirectly to any officer or employee of Knox County as wages, compensation, or gifts in exchange for acting as officer, agent, employee, subcontractor or consultant to Vendor in connection with any goods provided or work contemplated or performed relative to the agreement.

2.18 **ORDER OF PRECEDENCE:** In the event of inconsistent or conflicting provision of this Contract and referenced documents, the following descending order of precedence shall prevail: (1) Contract, (2) Request for Proposal, (3) Contractor's Response, (4) Award, (5) Special Terms and Conditions, (6) General Terms and Conditions, (7) Specifications.

2.19 **REMEDIES:** Knox County shall have all rights and remedies afforded under the U.C.C. and Tennessee law in Contract and in tort, including but not limited to, rejection of goods, rescission, and right of set-off, refund, incidental, consequential and compensatory damages and reasonable attorney's fees.

2.20 **RIGHT TO INSPECT:** Knox County reserves the right to make periodic inspections of the manner and means the service is performed or the goods are supplied.

2.21 **SEVERABILITY:** If any provision of this Contract is declared illegal, void or unenforceable, the remaining provisions shall not be affected but shall remain in force and in effect.

2.22 **TAX COMPLIANCE:** Pursuant to Resolution R-07-1-903 passed by the Commission of Knox County, Tennessee, vendor hereby acknowledges, by submission of its proposal and signature, it is current in its respective Federal, State, County, and City taxes of whatever kind or nature, and is not delinquent in any way. Delinquent status must be disclosed or risk debarment by the Knox County Procurement Division.

2.23 **TERMINATION:** County may terminate this agreement with or without cause at any time. In the event of termination by either party, fees due for services satisfactorily performed or goods accepted prior to the termination date shall be paid.

In the event Contractor intends to interrupt or discontinue service under this Contract, Contractor agrees to give Knox County at least one hundred twenty (120) business days' advance written notice of said interruption or discontinuance of service prior to interrupting or discontinuing same. Any interruption or discontinuance of service without said advance notice shall constitute a material breach of this Contract.

2.24 **WARRANTY:** Proposer warrants to Knox County that all items delivered and all services rendered shall conform to the specifications, drawings, solicitation and/or other descriptions furnished and/or incorporated by reference and will be fit for the particular purpose purchased of merchantable quality, good workmanship, and free from defects. Proposer extends to Knox County all warranties allowed under the U.C.C. Vendor shall provide copies of warranties to the County upon request. Return of merchandise not meeting warranties shall be at Vendor's expense.

SECTION III SPECIAL TERMS AND CONDITIONS

3.1 **INTENT:** The intent of these specifications is to convey to prospective proposers the general type and quality of Employee Vision Benefits Services desired by Knox County Government and Knox County Schools. Knox County is committed to offer quality of work/life benefits for its employees and dependents. As part of this commitment we are interested in offering comprehensive vision plan(s) for eligible employees and their dependents.

3.2 **ACCEPTANCE:** Vendors are advised that the payment of an invoice does not necessarily constitute as an acceptance of services that are provided. Acceptance requires a specific written action by Knox County so stating.

3.3 **ADDITIONS OR DELETIONS**: Knox County reserves the right to add or delete services as the need arises. If services are to be added, Knox County and the Contractor will arrive at a mutually agreed price. Any additions or deletions must be approved in writing by Knox County Procurement prior to any changes in service.

3.4 **AWARD LENGTH:** Knox County intends to issue an initial two (2) year award. Upon the mutual agreement of the Vendor and Knox County, the award may be extended three (3) additional one (1) year options. This may result in a total of five (5) years. Should Knox County desire not to renew, no reason needs to be given. Knox County reserves the right to purchase these services from other sources if the need arises. Knox County reserves the right to revoke the award if a pattern of unavailability arises with the Vendor.

3.5 **CHANGES AFTER AWARD:** It is possible that after award, Knox County might change its needs or requirements. Knox County reserves the right to make such changes after consultation with the vendor. Should additional costs arise, Knox County reserves the right to consider accepting these charges provided the proposer can document the increased costs. Knox County also reserves the right to accept proposed service changes from the proposer if they will lower the cost to Knox County and/or provide improved service.

3.6 **CONTRACT COORDINATOR:** The County will designate a Contract Coordinator whose principal duties shall be:

3.6.1 Liaison with Contractor.
3.6.2 Coordinate and approve all work under the contract.
3.6.3 Resolve any disputes.
3.6.4 Assure consistency and quality of Contractor's performance.
3.6.5 Schedule and conduct Contractor performance evaluations and document findings.
3.6.6 Review and approve for payment all invoices for work performed or items delivered.

3.7 **COMMUNICATIONS:** The successful execution of this Contract will require extensive communication between all involved parties. While information may be transmitted via telephone, it should always be followed up with an email. It is essential that the Contractor have efficient email capabilities. The Contractor will be required to submit a list of individuals, along with direct phone numbers, cell phone numbers, and email addresses for the agency's contacts. These individuals must be familiar with the Knox County Contract and have authority to make adjustments as requested by Knox County.

3.8 **COMPLIANCE WITH ALL APPLICABLE REGULATIONS:** Vendor agrees and covenants that the company, its agents and employees will comply with all city, county, state and federal codes, laws, rules and regulations applicable to the business to be conducted under this Contract. If the vendor performs any work knowing it to be contrary to such laws, ordinances, rules and regulations, the vendor shall bear all costs arising from such work.

3.9 **CONTACT PERSONNEL:** It shall be essential to the success of this Contract to develop a good working relationship with the Contractor. It is imperative that the Knox County account be handled efficiently and professionally. Knox County should be assigned no more than two (2) Contractor contacts to handle billing inquiries and service related issues. In the event one or both contacts leave the Knox County account, the successful Contractor shall formally introduce the new contacts to County personnel. These contacts must be knowledgeable of the County's account to avoid any interruption of service.

3.10 **CONTRACT EXECUTION:** The award of this proposal may result in a Contract between Knox County and the successful vendor(s). The Contract may require Board of Education and/or Knox County Commission approval. The successful vendor(s) may be required to be present at the meeting(s) to answer questions relating to the service to be performed. Adequate notification will be given by Knox County Procurement Division if the awarded vendor(s) will need to attend meetings. There shall be no cost to Knox County for attendance of the vendor(s).

Knox County will draft the Contract. Exhibit A provides a sample contract for review. If a Contractor's Master Agreements, Service Agreements, Terms and Conditions or other contract agreements are submitted, they may not be accepted.

3.11 **ELIGIBLE DEPARTMENTS:** This Request for Proposals covers all Knox County Government and Knox County Schools departments that are eligible to participate in health coverage. These plans are administered by Knox County Mayor's Office, Benefits Department. This includes but is not limited to: The Mayor's Division as well as all other elected officials and their employees such as the Sheriff's Office, Trustee's Office, Register of Deeds, County Clerk, Criminal & 4th Circuit, Circuit & Civil Sessions, Attorney General, Sessions Judges, County Commission, Public Building Authority, Metropolitan Planning Commission, Medical Examiner, etc. This proposal does NOT include the Knox County Board of Education or the Knoxville-Knox County Community Action Committee.

3.12 **ELIGIBLE EMPLOYEES:** Knox County Employees are dispersed over several locations in Knoxville. The number of employees varies depending on the services that specific departments utilize.

For purposes of this proposal, the number of employees will include all elected officials and all employees that work for departments that are eligible to participate in health coverage.

Current Number of Eligible employees 11,107
Current Number of Employees enrolled in a vision plan 6,607

3.13 **ENROLLMENT STATISTICS FOR KNOX COUNTY:**

Tier	Monthly Rate	# Enrolled
Employee only	$5.91	3,184
Employee + 1 Dependent	$10.83	1,683
Employee + Family	$16.61	1,740
Total		6,607

3.14 **EVALUATION CRITERIA:** Each proposal will be evaluated using the following general criteria:

Value of Benefits & Service Offered	30 points
Provider Network	30 points
Cost	25 points
Experience & References	15 points

Knox County may select an Evaluation Committee for this solicitation to thoroughly review and score all submitted responsive and responsible proposals. Each evaluator will have the ability to award up to one hundred (100) points, based on the Evaluation Criteria, per submission.

3.15 **EVALUATION REVIEW:** Knox County reserves the right to use all pertinent information that might affect the County's judgment as to the appropriateness of an award to the best evaluated vendor. This information may be appended to the proposal evaluation process results. Information on a service provider from reliable sources, and not within the service provider's proposal, may also be noted and made part of the evaluation file. Knox County shall have sole responsibility for determining a reliable source. Knox County reserves the right to conduct written and/or oral discussions/interviews after the proposal closing. The purpose of such discussions/interviews is to provide clarification and/or additional information to make an award that is in the best interest of Knox County.

3.16 **EXCEPTIONS TO SPECIFICATIONS:** Vendors taking exception to any part or section of these specifications shall indicate such exceptions in their submittal. A failure to indicate any exception(s) shall be interpreted as the Vendor's intent to fully comply with the specifications as written. Conditional or qualified offer are subject to rejection in whole or in part. Any exceptions shall be included in Section V Tab X of the submittal. **Do not strike through or in any other way alter the RFP. Exceptions listed within other sections of the submittal shall not be reviewed or considered.**

3.17 **GRATUITIES AND KICKBACKS:** It shall be a breach of ethical standards for any person or company to offer, give, or agree to give any employee or former employee, or for any employee or former employee to solicit, demand, accept, or agree to accept from another person, a gratuity or an offer of employment in connection with any decision, approval, disapproval, recommendation, preparation of any part of a program requirement or a purchase request, influencing the content of any specification or procurement standard, rendering of advice, investigation, auditing or

in any other advisory capacity in any proceeding or application, request for ruling, determination, claim, or controversy or other particular matter, pertaining to any program requirement of a contract or subcontract or to any solicitation or proposal therefore. It shall be a breach of ethical standards for any payment, gratuity or offer of employment to be made by or on behalf of a subcontractor under a contract to the prime contractor or higher tier subcontractor or a person associated therewith, as an inducement for the award of a subcontract or order. Breach of the provisions of this paragraph is, in addition to a breach of this Contract, a breach of ethical standards which may result in civil or criminal sanction and/or debarment or suspension from being a vendor or subcontractor under Knox County contracts.

3.18 **INSURANCE:** The successful Vendor must carry the insurance as indicated on the Insurance Checklist Attachment hereto. As proof of the Vendor's willingness to obtain and maintain the insurance, the Vendor must complete, sign and have its insurance agent sign the attachment and submit it with the proposal.

Upon the Notification of Intent to Award, the successful vendor will be required to submit a Certificate of Insurance (COI) including any corresponding endorsement page(s) with the specified coverage and listing Knox County as an additional insured. It shall be the successful vendor's responsibility to keep a current COI and endorsement page(s) on file with Knox County Procurement for as long as the contract is in effect.

3.19 **INVOICING PROCEDURES:** Knox County requests that invoices be easy to read and understand. Invoices are to be original and uniquely pre-numbered. Each participating agency to this Contract may be required to use different invoicing information and procedures.

This information and procedures shall be provided to the contractor(s) prior to Contract execution. There shall be no additional charge for this information and procedures to be included. Mail invoices for the Knox County Benefits to:

Knox County Benefits Department
Attention: Stephanie Candler
400 Main Street, Suite 360
Knoxville, TN 37902-1850

Mail invoices for Knox County Schools Benefits to:

Knox County Schools Benefits Manager
P.O. BOX 2188
Knoxville, TN 37901

3.20 **INVOICE REVIEW:** Knox County shall review all invoices for adherence to the terms and conditions of the Contract. Variations from the Contract and Contract pricing are strictly prohibited. Any variance found on the invoice will result in rejection of that invoice. Rejected invoices will be returned to the Contractor(s) for correction. Repeated variations may result in the termination of the Contract with that particular Contractor.

3.21 **LICENSES AND CERTIFICATIONS:** Proposers must maintain the proper licenses and certifications as required by Federal, State and Local law. Proposers must provide copies of the licenses and certifications upon request by the users of this Contract.

3.22 **NEGOTIATION:** Knox County may select a successful proposer on the basis of initial offers received without discussions. Therefore, each proposal shall contain the proposer's best terms from a cost or price and service standpoint. Knox County reserves the right to enter into Contract negotiations, including, but not limited to, rates and term, with the highest-rated proposer. If Knox County and the selected proposer cannot negotiate a successful agreement, Knox County may terminate said negotiations and begin negotiations with the next highest-rated proposer.

Knox County retains the right to negotiate with multiple proposers simultaneously. This process will continue until an agreement has been reached or all proposers have been rejected. No proposer shall have any rights against Knox County arising from such negotiations.

3.23 **NEWS RELEASES BY VENDORS:** As a matter of policy, Knox County does not endorse the services of a vendor. A vendor will not make news releases concerning any resultant contract from this solicitation without the prior written approval of Knox County.

3.24 **NO CONTACT POLICY:** After the date and time that the vendor receives this solicitation, any contact initiated by any proposer with any Knox County representative, other than the Procurement Division representative listed herein, concerning this Request for Proposal, is **strictly prohibited**. Any such unauthorized contact may cause the disqualification of the proposer from this procurement transaction.

3.25 **OFFER WITHDRAWAL:** No proposal can be withdrawn after it is filed unless the proposer makes a request in writing (email) to the Knox County Procurement Division prior to the time set for the closing of proposals or unless the County fails to accept within one hundred and twenty (120) business days after the date fixed for the closing the RFP.

3.26 **PRICING:** The proposer(s) warrants that the unit price stated shall remain firm for a period of twenty-four(24) months from the first day of the Contract period. If the Contractor's price is increased after the first contract period, Knox County must be given a written notice to consider. Such a request shall include as a minimum, (1) the cause for the adjustment; (2) the amount of the change requested with documentation to support the requested adjustment. Price increases will only be considered at the renewal period(s). If the price increase is rejected the contractor may:

- Continue with the existing prices;
- Request a lower price increase;
- Not accept the renewal offer.

If a price increase is approved by Knox County, the approval notification will be done in writing and the Contractor will be notified of the new price schedule and effective date of increase. This documentation will become part of the proposal file. No approvals will be authorized verbally.

3.27 **PROPOSAL EVALUATION:** In evaluating the Proposals, Knox County reserves the right to use any or all of the ideas from the Proposals submitted without limitation and to accept any part or all, of the successful Proposal in selecting an operation which is judged to be in the best interest of Knox County. All material submitted becomes the property of Knox County.

3.28 **PROPOSAL FORMAT:** This solicitation is in the Request for Proposals (RFP) format. At the specified date and time, each Proposer's name will be publicly read aloud. No further information will be given at this time. Evaluation of the Proposals will proceed as expeditiously as possible and successful, as well as unsuccessful, notification will be given.

3.29 **PROPOSER INTERVIEWS:** Knox County reserves the right to request Proposer interviews from those Proposers displaying a thorough knowledge of the intent of this RFP. The purpose of these interviews is to gain additional insight into the capabilities and experience of the Proposer.

3.30 **PROPOSER OBLIGATION:** Proposers shall become fully acquainted with conditions relating to the scope of the work detailed in this RFP. Failure to become acquainted with the existing conditions shall in no way absolve the proposer of any obligations with respect to this RFP or the Contract.

3.31 **PUBLIC RECORDS ACT:** Knox County is subject to the Tennessee Open Records Act 10-7-503 et seq. Proposers are cautioned that all documents submitted on behalf of this Request for Proposals shall be open to the public for viewing and inspection.

3.32 **QUANTITIES:** Knox County does not guarantee any quantity of services will be utilized under this solicitation. Services will be utilized on an as needed basis or as set forth in the contract.

3.33 **REFERENCES:** Proposers must submit a list of three (3) references with which they have performed and placed this type of service within the last year. Each vendor is responsible for obtaining approval to submit and confirm the contact information provided for each reference. Knox County will not be responsible for gathering additional information for references that are incomplete or incorrect. References checks will be sent via email only. Reference Forms that cannot be delivered with the contact information listed, not returned prior to the deadline listed on the form, or not returned at all will be scored accordingly. Do not use Knox County Government as a reference.

3.34 **REJECTION OF PROPOSALS:** Knox County reserves the right to reject any and all proposals received as a result of this request and to waive any informality, technical defect or clerical error in any proposal, as the interests of Knox County may require. Non-acceptance of any proposal will be devoid of any criticism of the proposal and of any implication that the proposal is deficient in any manner. Non-acceptance of any proposal shall be construed as meaning simply that the County does not deem the proposal acceptable or that another proposal was deemed more advantageous to Knox County for the particular services proposed.

3.35 **SUBMIT QUESTIONS:** Prospective proposers may submit questions concerning this solicitation until **April 16, 2026 at 12:00 p.m. local time**. No oral interpretation will be made to any proposer regarding the meaning of specifications. All questions are to be submitted in writing via email and will be answered in the form of an addendum to the solicitation by the Knox County Procurement Division, if applicable. Submit questions as noted in Section 1.1.

SECTION IV SCOPE OF SERVICES

4.1 **SCOPE:** Employee Vision Benefit Services shall be provided for Knox County employees and their dependents. The current provider is EyeMed Vision. Participation is strictly on a voluntary basis and Knox County does not guarantee any participation from employees.

4.2 **COMPATIBILITY:** Knox County currently uses the Munis Human Resource Information System (HRIS) software for the Benefits Department. Carriers must be able to accept 834 format eligibility files.

4.3 **HIPAA COMPLIANCE:** The Vendor shall comply with the Health Insurance Portability and Accountability Act (HIPAA) in the exchange of any and all medical records of employees and their family members. The vendor shall state in Section V TAB VI how this compliance is assured.

4.4 **INSURANCE BROKERS:** Knox County will not be accepting proposals from insurance brokers. Knox County will only accept proposals from carriers who can provide the services as stated in this solicitation. Knox County is a member of the HealthCare TN and will solicit guidance or advice from this source on an as needed basis. These services will not include commissions.

4.5 **OPEN ENROLLMENT**: Knox County Government and Knox County Schools conduct Open Enrollment Meetings each fall for Employee Benefits. In order to help our employees understand their benefit options and to make sound decisions, Knox County expects all successful proposers to participate in these meetings upon request.

Previously, Knox County Government and Knox County Schools held between ten (10) – fifteen (15) Open Enrollment Meetings per year. The successful proposer shall actively participate in as many as reasonably possible open enrollment activities (including, but limited to: representatives attending scheduled sessions, providing enrollment materials as requested by Knox County Benefits and assisting in educating employees and dependents on their benefit options) at no additional cost to Knox County Government.

4.6 **PARTICIPANTS:** Proposer will accept all eligible members, including those on COBRA, covered under the County's present medical insurance plans on the day prior to the coverage effective date.

4.7 **PLAN DESIGN:** Knox County Government and Knox County Schools will be offering its employees a voluntary vision benefit. The County is requesting to see one plan that matches our current plan (eye exam once every twelve (12) months, lenses once every twelve (12) months and frames every twelve (12) months). See the Attached current plan design from EyeMed.

SECTION V PROPOSAL FORMAT

The following guidelines should be followed when responding to the Request for Proposals. Negligence in adhering to the criteria listed below will be considered when reviewing the responses and evaluating the proposers. Knox County reserves the right to reject any proposal for failure to comply with the requested response criteria. The County reserves the right to amend the Request for Proposals by addendum prior to the final date of proposal submission.
PROPOSERS MUST HAVE THEIR BINDERS IN THE EXACT FORMAT LISTED BELOW.

- Knox County requests proposals be in sufficient detail to address all requirements.
- The County requests responses be submitted in a three-ring binder containing sections separated by tabs. **Do not submit spiral bound or glued responses.**
- Proposers shall also submit an exact copy of the original proposal on a Flash drive. **This shall be in one (1) complete pdf file. Do not include multiple folders on the Flash drive.**
- Page numbers should be placed on bottom center of pages.

TAB I **COVER LETTER**

Include cover letter authorizing the submission of the proposal **signed** by the principal of the company.

TAB II **VENDOR INFORMATION**

- Vendor Name;
- Address, Telephone Number;
- Primary contact person with direct email address and phone number;
- Knox County Vendor Number;
- Knox County Business License (if Applicable);
- State of Tennessee Certificate of Authority (if entity is located outside of Tennessee);
- Taxpayer Identification Number (EIN);
- State whether you will accept payment via credit card (VISA);
- Acknowledgement of Addenda (if applicable).

TAB III **VALUE OF BENEFITS & SERVICES OFFERED (30 Points)**

Proposers must thoroughly address and respond to each item below:

- Provide a full break down of benefits and plan design(s) per Section 4.7. Include rates for in-network and out-of-network providers.
- List allowances on frames, lenses, and contact lenses
- List services included in a comprehensive eye exam
- Provide detailed information on pricing formula for frames, lenses, and contact lenses
- Include: Types of frames, lenses, and contact lenses available under your proposed plan
- List special options such as blended lenses, special tints, or coatings
- Provide additional discounts/services offered under your vision plan
- Provide any additional information that may be used to review benefit levels/coverage.

ID Cards & Communications

- Do you generate ID cards for participants? If yes, what information can be found on the cards? Please provide a sample ID card, if applicable.
    - If cards are available, Knox County would prefer ID cards be mailed to the employee's homes at the time of annual enrollment as well as for all new hires that come on the plan. Can your organization accommodate this request? Is there an additional charge?
    - Can members access their ID cards online? Can they check-in at a participating provider's office without a card?
- What online services does your organization offer (include a list of offerings for members and for Benefits staff)?
- Do you have a toll-free 800 number for customer, provider, and employer services? If yes, what are the hours of operation?
    - What services do your toll-free numbers provide?
    - What information about network providers will you provide a caller?
    - Describe the performance standards for the customer service unit.
    - Where will the call center operation be located (city and state)?
    - Can claim processors and customer service representatives view benefit information online?

- Include samples of documents to support the proposal process such as: sample brochures, magnets, wallet cards, and posters. Include all similar literature that would be used to attract employee attention to your organization.
    - Do you mail literature directly to participant's homes? Are there any extra costs associated with materials mailed to employee's homes?

Care Considerations

- Do members need to select a primary vision office for care? If so, how often can a member change offices?
- Are members required to get referrals or seek pre-authorization prior to obtaining care? If yes, please describe the process.
- Describe your organization's grievance and appeals processes.
- Can a member receive an exam from one provider and materials (frames, lenses, or contacts) from another provider?
- Can a member request that a provider be added to the network, and what is the timeframe for outreach to the requested provider? How is a member notified of the outcome?

Administrative

- Will you offer Knox County performance and claims standard guarantees? If so, please submit the proposed guarantees.
- What percent of claims processed by your organization during the last two years were for services provided by an in-network provider?
- Do you process your own claims or is claims administration outsourced?
- Do you generate Explanation of Benefits (EOBs) to members after processing a claim? If so, please explain what is found on your EOB's and provide a sample EOB.
- What processes do you have in place to ensure identification of fraudulent claims?
- Can your organization accept eligibility data in a standard 834 file format?
- Provide a sample of your quarterly utilization reports that an employer would receive under your contract.
- Does your company provide any additional services or discounts, in addition to the vision benefit services, that will be offered to our covered employees? If yes, please describe.

TAB IV **PROVIDER NETWORK (30 Points)**

Proposers must thoroughly address and respond to each item below:

- Attach a comprehensive list of all participating providers in the Knoxville area and which providers are accepting new patients.
- Provide a summary of the number of providers in the network by county (for Knox and adjacent counties).
- List current contracts with chain stores and retail optical laboratories.
- Provide a brief description of your credentialing process for contracting with new providers.
- List current contracts with chain stores and retail optical laboratories.
- Provide a brief description of your credentialing process for contracting with new providers.
- Provide a brief description of your credentialing process for renewing contracts with existing providers.
- List any certification requirements for your providers. List the standard required amount of malpractice coverage (individual and aggregate).
- What is your provider retention rate? What is your average length of time a provider contracts with your organization?

TAB V **COST (25 Points)**

Please quote total price per employee per month for voluntary coverage for the coverage types listed below. All quotes must include a twenty-four (24) month rate guarantee. Proposed costs should be inclusive of all expenses

- Coverage Types:
- Employee Coverage
- Employee + One (1) Dependent Coverage
- Family Coverage

Please use the attached Cost Form (Attachment A) to list rates.

TAB VI **EXPERIENCE & QUALIFICATIONS (15 Points)**

Proposers must thoroughly address and respond to each item below:

- Description of qualifications. Include a description and history of your company, applicable product portfolio, market share, size, scope and overall capabilities/experience of your organization.
- Describe any merger acquisition plans or other major organization changes under consideration by your company.
- Please state HIPAA Compliance.
- How many clients do you have in Tennessee? How many clients with 1500 or more enrolled employees (not including dependents)? What is the total number of enrollees (not including dependents) you have in Tennessee?
    - List recent situation of employer prior to your implementation, innovative approaches, services offered, client objectives, and costs.
- Describe how your organization stands out from your competitors in the Vision Benefit Services space?
- Why should Knox County contract with your organization over others?
- Provide biography and/or resume of direct contact to be assigned to Knox County.
- Please include **References (Attachment B).**

TAB VII **OTHER INFORMATION**

Proposers may include under this tab any other information deemed pertinent to this solicitation. Any copies of Licenses and/or Certifications may be included in this section.

TAB VIII **ATTACHMENTS**

Attach the completed Insurance Checklist (Attachment C)
Attach the completed Iran Divestment Act/No Boycott of Israel Affidavit (Attachment D)
Attach the completed Criminal History Check (Attachment E)

TAB IX **SAMPLE CONTRACT AND BUSINESS ASSOCIATE AGREEMENT – EXHIBITS A&B**

Upon award, the Proposer must assert that they are prepared to immediately execute a Contract and Business Associate Agreement in the form and substance of Exhibit A&B (Attached).

TAB X **EXCEPTIONS**

Proposers are to include any and all exceptions taken to this solicitation under this section. Do not mark through or otherwise alter the language of this RFP in your response.

Failure to provide any of the above information may result in the provider being disqualified from this process.

Knox County requests that all submittals be concise and not include additional advertisement or other information not relative to the requirements of this Request for Proposal.

SAMPLE CONTRACT
KNOX COUNTY PROCUREMENT
DIVISION REQUEST FOR PROPOSAL
NUMBER 3734

This Contract, made and entered into by and between the Knox County Government, hereinafter referred to as the "County" and (Contractor Name) hereinafter referred to as "Contractor".

Whereas, the County requested proposals for Employee Vision Benefit Services for Knox County Government and Knox County Schools (Request for Proposal #3734) and;

Whereas, Contractor submitted a proposal in accordance with said requested specifications, the response of which is the most responsible and responsive proposal meeting specifications accepted by the County;

Whereas, Contractor agrees and undertakes to provide said services for the County, as set forth in the Request for Proposal, and at the price quoted for said services by Contractor. Further, in accordance with the lawful directions of the County, the Contractor agrees in all respects, to be governed by the Request for Proposals' specifications and the Contractor's proposal and response.

Now, therefore in consideration of mutual covenants and promises contained herein, the parties hereto wish to enter into this Contract to set forth their respective rights and obligations and do mutually agree that;

Witnesseth:

1. Terms of this Contract. This Contract commences on the 1st day of January 2027 and ends upon the 31st day of December 2028 unless terminated in conformity with the terms of this Contract as contained in paragraphs 4 and 5. Upon the mutual agreement of the vendor and the County, the award may be extended for three (3) additional years, one (1) year at a time. This may result in a total of five (5) years. The County reserves the right to purchase these goods/services from other sources if the need arises. The County reserves the right to revoke the award if a pattern of unavailability with the vendor.

2. Payment. Contractor warrants that the pricing shall remain firm for the initial twenty-four (24) months period. At the end of the first twenty-four (24) months period, and pursuant to the renewal terms in Paragraph 1, the Contractor may request a price increases. Price increases will only be given at the renewal time and must remain in effect for the next one (1) year term. No price increases will be given during the term of a Contract. The County shall pay Contractor the amount as agreed upon in the County's Request for Proposal for Employee Vision Benefit Services per the Contractor's response to Request for Proposal #3734 and negotiations; pursuant to all payments being subject to the County's review and approval. The Contractor shall receive, upon the need of the County, written notification to proceed. The Contractor shall pursue all work diligently until completion as directed by the County.

3. Invoicing and reporting requirements. Contractor shall invoice the County for Employee Vision Benefit Services pursuant to Request for Proposal #3734.

4. Termination. The County may terminate this Contract with or without cause, upon written notice of not less than thirty (30) days. Upon termination, the County will pay for services satisfactorily completed but not yet invoiced. Contractor shall not perform additional work without the expressed permission of the County.

Should the Contractor fail to provide Employee Vision Benefit Services detailed herein, the County will communicate the problem(s) to the Contractor both verbally and in writing and keep a written record as to what the problem(s) are and when the Contractor was contacted. The Contractor shall rectify the problem within thirty (30) business days of notification of the problem. If the same or other problems persist or reoccur, the County may terminate the Contract.

In the event Contractor intends to interrupt or discontinue service under this Contract, Contractor agrees to give the County at least one hundred twenty (120) business days' advance written notice of said interruption or discontinuance of service prior to interrupting or discontinuing same.

Any interruption or discontinuance of service without said advance notice shall constitute a material breach of this Contract.

SAMPLE

5. Appropriations. In the event no funds are appropriated by the County for the Employee Vision Benefit Services in any fiscal year or insufficient funds exist to provide the services, then the Contract shall expire upon the expenditure of previously appropriated funds or the end of the current fiscal year, whichever occurs first, with no further obligations owed to or by either party.

6. Independent contractor. Contractor acknowledges that Contractor and employees serve as independent contractors and that the County shall not be in any manner responsible for any payment, insurance, or incurred liability.

7. Compliance with all federal, state, and municipal laws. Contractor is assumed to be familiar with and agrees to observe and comply with all federal, state, and local laws, statutes, ordinances, and regulations in any manner affecting the provision of the Employee Vision Benefit Services, and all instructions and prohibitive orders issued regarding this work and shall obtain all necessary permits.

8. Severability clause. If any provision of this Contract is declared illegal, void, or unenforceable the remaining provisions shall not be affected but shall remain in force and in effect.

9. Prohibition against assignment. Contractor shall not assign this Contract to any party, company, partnership, incorporation, or person without prior specific written consent of the County.

10. This Contract shall be exclusively construed, governed, and controlled by the Laws of the State of Tennessee without regard to principles of law, including conflicts of law, of any other jurisdiction, territory, country, and/or province. Any dispute arising out of or relating to this agreement shall exclusively be brought in the Chancery Court or the Circuit Court of Knox County, Tennessee. Each party consents to personal jurisdiction thereto and waives any defenses based on personal jurisdiction, venue and inconvenient forum.

11. Right to inspect. The County reserves the right to make periodic inspections of the manner and means the services are performed.

12. Nondiscrimination and non-conflict statements. Contractor agrees that no person on the grounds of handicap, age, race, color, religion, sex, national origin or any individual trait or characteristic found to be an illegal consideration, shall be excluded from participation in, or be denied benefits of, or be otherwise subjected to discrimination in the performance of this Contract, or in the employment practices of Contractor. Contractor shall upon request show proof of such non-discrimination and shall post in conspicuous places available to all employees and applicants notices of non-discrimination.

13. Books and records. Contractor shall maintain all books, documents, accounting records and other evidence pertaining to the service under this Contract and make such materials available at their offices at all reasonable times during the contract period and for five (5) years from the date of the final payment under the Contract for inspection by the County or by any other governmental entity or agency participating in the funding of this Contract, or any authorized agents thereof; copies of said records to be furnished if requested. Such records shall not include those books, documents and accounting records that represent the Contractor's costs of manufacturing, acquiring or delivering the products and services governed by this Contract.

14. Contractor shall indemnify**,** defend, save and hold harmless, County, its officers, agents and employees from all suits, claims, actions or damages of any nature brought because of, arising out of, or due to breach of the Contract by Contractor, its subcontractors, agents or employees or due to any negligent act, occurrence, omission, commission of Contractor, its subcontractors, agents, or employees.

15. Delivery. Contractor shall render the Employee Vision Benefit Services for the County in accordance with Request for Proposal #3734.

16. Tax Compliance. Pursuant to Resolution R-07-1-903 passed by the Commission of Knox County, Tennessee, Contractor hereby acknowledges, by submission of its bid and signature that it is current in its respective Federal, State, County, and City taxes of whatever kind or nature and is not delinquent in any way. Delinquent status must be disclosed or risk debarment by the Knox County Procurement Division.

17. Limitations of liability. In no event shall the County be liable for any indirect, incidental, consequential, special or exemplary damages or lost profits, even if the County has been advised of the possibility of such damages.

SAMPLE

18. Contract documents. It is mutually agreed by both parties that the following documents are made part of this Contract and are incorporated herein by reference:

A. Request for Proposal No. 3734
B. Contractor's Response to Request for Proposal No. 3734

It is agreed that this Contract, represents the **entire Contract** between the parties and no prior representations, promises, and agreements, oral or otherwise, not embodied herein, shall be of any force or effect.

In witness whereof, the parties hereto have caused this Contract to be executed in one original copy on the day and year last written below.

EXHIBIT B
KNOX COUNTY PROCUREMENT DIVISION
BUSINESS ASSOCIATE AGREEMENT
REQUEST FOR PROPOSALS NUMBER 3734

BUSINESS ASSOCIATE AGREEMENT

This Business Associate Agreement ("Agreement") is entered into by and between Knox County, Tennessee, Covered Entity ("CE"), and **[_____]**, Business Associate ("BA").

PURPOSE

A. Covered Entity ("CE") operates a _____licensed and certified to participate in the _____ Program.

B. Business Associate ("BA") is contractually obligated to provide certain services related to one or more "covered entities" as that term is defined and regulated under HIPAA.

C. CE and BA intend to protect the privacy of Protected Health Information ("PHI") and electronic Protected Health Information ("e-PHI") disclosed to or created or received by BA pursuant to the Agreement in compliance with applicable provisions of the Health Insurance Portability and Accountability Act of 1996, Public Law I 04-191 ("HIPAA") and regulations promulgated there under by the U.S. Department of Health and Human Services, the privacy and security provisions of the American Recovery and Reinvestment Act (Stimulus Act) for Long Term Care, Public Law 111-5, HITECH Act and other applicable laws.

D. CE and BA agree to comply with the Fair and Accurate Credit Transactions Act of 2003 (FACTA) and its implementing regulations at 16 CFR §681.1 and 16 CFR §681.2.

E. The purpose of this Agreement is to satisfy certain standards and requirements of HIPAA, including the Standards for Privacy of Individually Identifiable Health Information at 45 CFR parts 160 and 164, Subparts A and E, the standards relating to Notification in the Case of Breach of Unsecured Protected health Information at 45 CFR Parts 160 and 164, Subparts A and D, and the Security Standards for the Protection of electronic Protected Health Information at 45 CFR Parts 160 and 164, Subparts A and D, as such regulations may be amended from time to time (including, without limitation any amendments required by the Health Information Technology for Economic and Clinical Health Act (the "HITECH Act") (collectively "HIPAA Regulations")

In consideration of the mutual promises below and the exchange of information pursuant to this Agreement, the parties agree as follows:

1. **Definitions**: The following definitions are used by this Agreement:

1.1 **Agreement** – means this Business Associate Agreement, which is an agreement required under 45 C.F.R. Section 164.314(a) (2) between a Business Associate and a Covered Entity.

1.2 **Breach** – means the unauthorized acquisition, access, use, or disclosure of Protected Health Information in a manner not permitted under the Privacy Rule which compromises the security or privacy of the protected health information. Except that: a use or disclosure of protected health information that does not include the identifiers listed at 45 CFR 164.514 (e)(2) of the Privacy Rule, date of birth, and zip code does not compromise the security or privacy of the protected health information is deemed not to be a "Breach" for purposes of this agreement. Notwithstanding the foregoing, a Breach does not include: (1) any unintentional acquisition, access, or use of Protected Health Information by an employee or individual acting under the authority of Covered Entity or Business Associate and in the scope of the employment or relationship between the employee or individual and Covered Entity or BA, provided such information is not further acquired, accessed, used, or disclosed by any person without authorization; (2) any inadvertent disclosure by an individual who is authorized to access. Protected Health Information at Covered Entity's or BA's facility to another similarly situated individual at the same facility, provided such information is not further acquired, accessed, used, or disclosed by any person without authorization; and (3) a disclosure of Protected Health Information in a situation in which BA has a good faith belief that the person(s) to which the unauthorized disclosure was made would not reasonably have been able to retain such information.

1.3 **Business Associate (BA)** – is a person or entity, other than a member of the workforce of a covered entity CE, who performs functions or activities on behalf of a CE that involves access by the BA to protected health information as described in 45 C.F.R. Section 160.103.

A BA is also a subcontractor that creates, receives, maintains, or transmits protected health information on behalf of another business associate.

1.4 **Covered Electronic Transactions** – shall have the meaning given to the term "transaction" in 45 C.F.R. Section 160.103.

1.5 **Covered Entity (CE)** – as the term referenced to the entity to this agreement is a provider of medical and health services as described in 45 C.F.R. Section 160.103.

1.6 **Covered Individual** – means a person who is eligible for payment of certain services or supplies rendered or sold to the person or the person's eligible dependents under the terms, conditions, limitations, and exclusions of the Plan.

1.7 **Data Aggregation** – means, with respect to Protected Health Information created or received by BA in its capacity as a BA (as that term is defined in 45 C.F.R. Section 160.103) of the Plan, the combining of such Protected Health Information by BA with the Protected Health Information received by BA in its capacity as a BA of another covered entity (as those terms are defined in 45 C.F.R. Section 160.103), to permit data analyses that relate to the health care operations of the respective covered entities.

1.8 **Designated Record Set** – means a group of records maintained by or for Covered Entity that is (1) the medical records and billing records about Individuals maintained by or for a covered health care provider, (2) the enrollment, payment, claims adjudication, and case or medical management record systems maintained by or for Covered Entity, or (3) used, in whole or in part, by or for Covered Entity to make decisions about Individuals. As used herein, the term "Record" means any item, collection, or grouping of information that includes Protected Health Information and is maintained, collected, used or disseminated by or for Covered Entity.

1.9 **Disclose** - means the release, transfer, provision of access to, or divulging in any other manner of PHI to parties outside the BA's organization.

1.10 **Effective Date** – means _____, unless specifically noted otherwise herein.

1.11 **Electronic Health Record** – means an electronic record of health-related information regarding an Individual that is created, gathered, managed, and consulted by authorized health care clinicians and their staff.

1.12 **Electronic Protected Health Information** – shall have the same meaning as the term "electronic protected health information" in 45 C.F.R. Section 160.103, limited to the information created, received, maintained, or transmitted by BA from or on behalf of Covered Entity.

1.13 **GINA** - shall mean the Genetic Information Nondiscrimination Act of 2008 (Pub. L. 110-223).

1.14 **HITECH** – means Heath Information Technology for Economic and Clinical Health Act.

1.15 **HHS** – means the United States Department of Health and Human Services.

1.16 **Including** – means "including but not limited to."

1.17 **Individual** – shall have the same meaning as the term "individual" in 45 C.F.R. Section 160.103 and shall include a person who qualifies as a personal representative in accordance with 45 C.F.R. Section 164.502(g).

1.18 **Integrity** – means that data or information have not been altered or destroyed in an unauthorized manner.

1.19 **Data Set** – shall have the same meaning as the term "limited data set" in 45 C.F.R. Section 164.514(e) (2).

1.20 **Plan** – means the group health plan(s) identified in the introductory paragraph to this Agreement.

1.21 **Privacy Rule** – means the Standards and Privacy of Individually Identifiable Health Information at 45 C.F.R. Part 160 and Part 164, subparts A and E and the privacy provisions of HIPAA, as amended.

1.22 **Protected Health Information (PHI)** – shall have the same meaning as the term "protected health information" in 45 C.F.R. 160.103, limited to the information created, received, maintained, or transmitted by BA from or on behalf of Covered Entity. PHI includes both Hardcopy and Electronic Protected Health Information ("phi") and means any information, whether oral or recorded in any form or medium, that

i. Relates to the past, present or future physical or mental health or condition of an individual, the provision of health care to an individual, or the past, present or future payment for the provision of health care to an individual; and,
ii. Identifies the individual or there is a reasonable basis to believe the information can be used to identify the individual; and,
iii. Is limited to the information created or received by BA from or on behalf of CE.
iv. Hardcopy Protected Health Information ("paper") is a subset of Protected Health Information and means PHI that is maintained as a paper document.

1.23 **Electronic Protected Health Information ("e-PHI")** is a subset of Protected Health Information and means PHI that is transmitted by or maintained in any electronic media.

1.24 **Required By Law** – means a mandate contained in law that compels a covered entity to make a use or disclosure of PHI and that is enforceable in a court of law and shall have the same meaning as the term "required by law" in 45 C.F.R. Section 164.103.

1.25 **Secretary** – means the Secretary of Health and Human Services or any other officer or employee of HHS to whom the authority involved has been delegated.

1.26 **Security Incident** – shall mean the attempted or successful unauthorized access, use, disclosure, modification, or destruction of information or interference with system operations in an information system as provided in 45 CFR 146.304.

1.27 **Security Rule** – means the Security Standards and Implementation Specifications at 45 C.F.R. Part 160 and Part 164, subpart C and the security provisions of HIPAA, as amended.

1.28 **Standards for Electronic Transactions Rule** – means the final regulations issued by HHS concerning standard transactions and code sets under the Administrative Simplification provisions of HIPAA, 45 C.F.R. Part 160 and Part 162.

1.29 **Subcontractor** – means an agent of a BA described in 45 C.F.R. Section 165.103 to whom the BA provides protected health information that the BA creates, receives, maintains, or transmits on behalf of a Covered Entity.

1.30 **Unsecured Protected Health Information** – means Protected Health Information that has not been rendered unusable, unreadable, or indecipherable to unauthorized individuals through the use of a technology or methodology specified by the Secretary. As of August 24, 2009, the Secretary has specified the following technologies and methodologies that will render Protected Health Information unusable, unreadable, and indecipherable (i.e., secured Protected Health Information): (1) encryption as described in the Secretary's guidance and determined by the National Institute of Standard and Technology to meet the standards described in such guidance, or (2) destruction, in accordance with the procedures identified in the Secretary's guidance, of the media on which the Protected Health Information was stored or recorded.

1.31 **Use** – means the sharing, employment, application, utilization, examination, or analysis of PHI within the BA's organization.

2. Privacy Provisions

2.1 **Introduction.** Business Associate, on behalf of Covered Entity, performs or assists in the performance of functions and activities that may involve the use, disclosure, receipt and/or creation of Protected Health Information. The "business associate" provisions of the Privacy Rule govern the terms and conditions under which the BA may use or disclose Protected Health Information. In general, BA agrees and intends to act such that (1) Covered Entity can fulfill its responsibilities under HIPAA; and (2) BA can fulfill its contractual obligations under this Agreement. In addition, BA specifically acknowledges its direct liability for the failure to comply with certain portions of the Privacy Rule as provided under HITECH and the regulations issued thereunder.

2.2 **Permitted Uses and Disclosures by Business Associate**.

2.2.1 Business Associate agrees to not use or disclose PHI other than as permitted or required by this Agreement or as Required by Law. Business Associate shall comply with the provisions of this Agreement relating to privacy and security of PHI on all present and future provisions of HIPAA, the HITECH Act and HIPAA Regulations that relate to privacy and security of PHI and that are applicable to CE and/or BA.

Except as otherwise limited in this Agreement, BA may use or disclose Protected Health Information (i) to perform functions, activities, or services for, or on behalf of, Covered Entity pursuant to any services agreement with the BA, (ii) as permitted or required by this Agreement, and (iii) as Required by Law. BA may disclose Protected Health Information to other BAs of Covered Entity, or to BAs of another covered entity that is part of an organized health care arrangement that includes Covered Entity, to the fullest extent allowed under applicable law. If and when BA discloses or makes available Protected Health Information to the sponsor of the Plan, BA agrees to disclose or make available Protected Health Information only to the persons identified in the attached Designated Persons Appendix (which may be updated by Covered Entity and communicated to BA from time to time) for the purpose of performing functions, services, or activities for or on behalf of Covered Entity. Upon Covered Entity's request, BA will provide Protected Health Information to other BAs of Covered Entity that assist in administering the group health plans and that are authorized to receive such information.

2.2.2 Except as otherwise limited in this Agreement, BA may use or disclose PHI consistent with CE's minimum necessary policies and procedures to perform functions, activities, or Services for, or on behalf of CE as specified in the Agreement, provided such use or disclosure would not violate the Privacy and Security Rule if done by the CE.

2.2.3 Disclosure for Management and Administration - Except as otherwise limited in this Agreement, BA may disclose PHI for the proper management and administration of the BA or to carry out the legal responsibilities of the BA, provided that:

i. Disclosures are required by law; or
ii. BA obtains reasonable assurances from the person to whom the information is disclosed that it will remain confidential and will be used or further disclosed only as required by law or for the purpose for which it was disclosed to the person, and
iii. The person notifies the BA of any instances of which it is aware in which the confidentiality of the information has been breached.

2.2.4 Data Aggregation - Except as otherwise limited in this Agreement, BA may use PHI to provide Data Aggregation services to CE relating to the health care operations of the CE.

2.2.5 Report Violations of Law - Except as otherwise limited in this Agreement, BA may use PHI to report violations of law appropriate to Federal and State authorities consistent with 45 CFR §164.502(j))(1).

2.2.6 De-identification. The BA may de-identify any and all PHI that it obtains from the CE, but only if such de-identification is accomplished in accordance with the requirements of 45 CFR 514 (a) and (b).

2.2.7 Business Associate will limit the use, disclosure, or request of Protected Health Information, to the extent practicable, (i) to the Limited Data Set, or (ii) if needed by BA, to the minimum necessary (as determined by BA) to accomplish the intended purpose of such use, disclosure, or request, except to the extent a broader use, disclosure, or request of Protected Health Information is allowed by the Privacy Rule. BA's ability to satisfy the requirement of this Section 2.2.7 by use of the Limited Data Set shall be available until the effective date of subsequent guidance issued by the Secretary regarding what constitutes "minimum necessary," at which time BA will take reasonable efforts to limit the use, disclosure, or request of Protected Health Information to the minimum necessary (as defined by such Secretary's guidance) to accomplish the intended purpose of such use, disclosure, or request, except to the extent a broader use, disclosure, or request of Protected Health Information is allowed by the Privacy Rule.

2.2.8 Except as otherwise authorized by the Privacy Rule, BA shall not directly or indirectly receive remuneration (whether financial or nonfinancial) in exchange for any Protected Health Information of a Covered Individual unless Covered Entity has received a valid authorization from the Covered Individual that includes a specification of whether the Protected Health Information can be further exchanged for remuneration by the entity receiving Protected Health Information of that Covered Individual.

This Section 2.2.8 shall apply to exchanges of Protected Health Information occurring on or after the compliance date applicable under the final regulations issued under HITECH that address this restriction.

3. **Limitations on Business Associate's Uses and Disclosures.** With respect to Protected Health Information that Covered Entity discloses to BA or BA creates, receives, maintains, or transmits on behalf of Covered Entity, BA will not use or further disclose the Protected Health Information other than as permitted or required by this Agreement or as Required by Law.

4. **Additional Obligations of Business Associate**. Except as otherwise specified in this Agreement, the provisions of this paragraph apply only to Protected Health Information that Covered Entity discloses to BA or BA creates, receives, maintains, or transmits on behalf of Covered Entity.

4.1 **Safeguards**. BA agrees to use appropriate safeguards to prevent the use or disclosure of the PHI other than as provided for by this Agreement. Without limiting the generality of the foregoing sentence, BA must comply with the Security Rule by:

4.1.1 Implementing administrative, physical, and technical safeguards that reasonably and appropriately protect the confidentiality, integrity and availability of PHI and ePHI as required by the Agreement, and as required by 45 CFR 164.308, 164.310, 164.312, and 164l316 that the BA receives, creates, maintains, or transmits to the same extent as if the BA were a CE. The BA shall undertake such actions in a manner that is consistent with any guidance issued by the Secretary pursuant to the HITECH Act.

4.1.2 Ensure that any subcontractors that create, receive, maintain or transmit PHI on behalf of the BA agree to comply with the applicable requirements of the Privacy and Security Rules by entering into a contract or other arrangement that complies with the Privacy and Security Rules.

4.1.3 Promptly report to CE any Security Incident of which BA becomes aware. In addition, BA agrees to promptly notify CE following the discovery of a Breach of Unsecured PHI. A Breach is considered "discovered" as of the first day on which the Breach is known, or reasonably should have been known, to BA or any employee, officer or agent of BA, other than the individual committing the Breach.

4.1.4 BA shall protect PHI from any improper oral or written disclosure by enacting and enforcing safeguards to maintain the security of and to prevent any Use or Disclosure of PHI other than is permitted by this Agreement.

4.2 **Reporting and Mitigation**. Business Associate will report to Covered Entity any acquisition, access, use, or disclosure of Protected Health Information of which BA becomes aware, or that is reported to BA by an agent or Subcontractor, that is in violation of this Agreement.

BA agrees to mitigate, to the extent practicable, any harmful effect that is known to BA of a use or disclosure of PHI by BA or its employees, officers or agents in violation of the requirements of this Agreement (including, without limitation, any Security Incident or Breach of Unsecured PHI). BA agrees to reasonably cooperate and coordinate with CE in the investigation of any violation of the requirements of this Agreement and/or any Security Incident or Breach. BA shall also reasonably cooperate and coordinate with CE in the preparation of any reports or notices to the individual, a regulatory body or any third party required to be made under HIPAA Regulations, the HITECH Act, or any other Federal or State laws, rules, or regulations, provided that any such reports or notices shall be subject to the prior written approval of CE.

4.3 **Agents and Subcontractors**. BA agrees to enter into an agreement with each of its subcontractors pursuant to 45 CFR 164.308(b)(1) and HITECH 13401. BA shall monitor and ensure, in accordance with 45 CFR 164.502(e)(l)(ii) and 164.308(b)(2), that any agents, including subcontractors and subcontractors of subcontractors, that create, received, maintain, or transmit PHI on behalf of the BA agree to the same restrictions, conditions, and requirements that apply to the BA through this Agreement with respect to such information.

4.4 **Access to Designated Record Sets**. To the extent that BA possesses or maintains PHI in a Designated Record Set, BA agrees to provide access, at the request of CE, and in the time and manner designated by the CE, to PHI in a Designated Record Set, to Covered Entity or, as directed by CE, to an Individual in order to meet the requirements under HIPAA Regulations. If an Individual makes a request for access to PHI directly to BA, BA shall notify CE of the request within three (3) business days of such request and will cooperate with CE and allow CE to send the response to the Individual.

4.5 **Amendment of Designated Record Sets**. To the extent that BA possesses or maintains PHI in a Designated Record Set, BA agrees to make any amendment(s) to PHI in a Designated Record Set that the CE directs or agrees to pursuant to HIPAA Regulations at the request of CE or an Individual, and in the time and manner designated by the CE. If an Individual makes a request for an amendment to PHI directly to BA, BA shall notify CE of the request within three (3) business days of such request and will cooperate with CE and allow CE to send the response to the Individual.

4.6 **Disclosure Accounting**. BA agrees to document disclosures of Protected Health Information and information related to such disclosures as is necessary to enable Covered Entity to respond to a request by a Covered

Individual for an accounting of disclosures of PHI in accordance with HIPAA Regulations and the HITECH Act. BA agrees to provide to CE or an Individual, in the time and manner designated by the CE, information to permit CE to respond to a request by an Individual for an accounting of disclosures of PHI in accordance with HIPAA Regulations and the HITECH Act. If an Individual makes a request for an accounting directly to BA, BA shall notify CE of the request within three (3) business days of such request and will cooperate with CE and allow CE to send the response to the Individual. At a minimum, Business Associate shall provide Covered Entity with the following information: (i) the date of the disclosure; (ii) the name of the entity or person who received the Protected Health Information, and if known, the address of such entity or person; (iii) a brief description of the Protected Health Information disclosed; and, (iv) a brief statement of the purpose of such disclosure which includes an explanation of the basis for such disclosure. BA hereby agrees to implement an appropriate record keeping process to enable it to comply with the requirements of this section and applicable law. It shall be CE's responsibility to promptly notify BA of the request for an accounting, and to prepare and deliver any such accounting requested. In addition to the forgoing, BA shall track other disclosures and/or make available to CE such information as is necessary for Covered Entity to comply with any additional accounting requirements.

4.7 **Access to Business Associate's Internal Records**. BA shall make its internal practices, books, and records relating to the use and disclosure of Protected Health Information received from, or created or received by Business Associate on behalf of, CE available to CE or the Secretary, for the purposes of the Secretary's determining compliance with HIPAA for Covered Entity and/or BA.

4.8 **Electronic Transactions**. In the event the BA transmits or receives any Covered Electronic Transaction on behalf of CE, it shall comply with all applicable provisions of the Standards for Electronic Transactions Rule to the extent Required by Law, and shall ensure that any agents and Subcontractors that assist BA in conducting Covered Electronic Transactions on behalf of CE agree in writing to comply with the Standards for Electronic Transactions Rule to the extent Required by Law.

4.9 **GINA**. BA agrees not to use or disclose Protected Health Information that contains genetic information if such use or disclosure would violate GINA.

5. Obligations and Rights of Covered Entity.

5.1 **Notice of Privacy Practices**. CE shall provide BA with the notice of privacy practices that CE produces in accordance with 45 C.F.R. Section 164.520, as well as any changes to such notice.

5.2 **Requests by Covered Entity**. CE shall not request or direct BA to use or disclose Protected Health Information in any manner that would not be permissible under the Privacy Rule if done by CE. This includes, but is not limited to, requests or directions for disclosure of Protected Health Information to the Plan sponsor in a capacity other than acting on behalf of the Plan as CE. To the extent a dispute or difference of opinion exists between the BA and CE regarding whether a use or disclosure is permissible, BA may disclose the Protected Health Information under objection pursuant to the specific, written direction of CE. Any disclosures made pursuant to such specific, written direction shall be subject to the indemnification provisions of the Agreement.

5.3 **Authorizations**. CE shall notify Business Associate of any authorization provided by an Individual to use or disclose Protected Health Information (and any changes in or revocation of such an authorization),, to the extent that such information may affect Business Associate's use or disclosure of Protected Health Information. Upon receipt of such notification, BA shall use or disclose Protected Health Information in accordance with the authorization or changes thereto.

5.4 **Restrictions**. CE shall notify BA of any restriction on the use or disclosure of Protected Health Information to which CE has agreed in accordance with 45 C.F.R. Section 164.522 or is required to agree under HITECH (and any changes to or termination of such a restriction), to the extent that such restriction may affect BA's use or disclosure of Protected Health Information. Such restrictions include, but are not limited to, a Covered Individual's request not to disclose Protected Health Information for purposes of payment or health care operations where the Protected Health Information relates solely to a health item or service for which the health care provider has been paid in full out-of-pocket by, or on behalf of, the Covered Individual. Upon receipt of such notification, BA shall comply with such a restriction.

5.5 **Agreement Breaches by Business Associate**. If CE obtains knowledge of a pattern of activity or practice of BA that constitutes a material breach or violation of BA's obligations under this Agreement, CE will take reasonable steps to cure such breach or end such violation.
If CE cannot successfully cure the breach or end the violation, CE shall terminate the Agreement in accordance with Section 8.2 if feasible.

6. Electronic Security Provisions

6.1 **Introduction.** This section applies where Business Associate, on behalf of Covered Entity, performs or assists in the performance of functions and activities that may involve the creation, maintenance, receipt, or transmission of Electronic Protected Health Information. This Section 6 along with the other sections of the BA Agreement are (1) intended to meet the requirements of the "business associate" provisions of Security Rule, and (2) govern the terms and conditions under which the BA may create, maintain, receive, and transmit Electronic Protected Health Information on behalf of CE. In general, BA agrees and intends to act such that (1) CE can fulfill its responsibilities under HIPAA; (2) BA can fulfill its responsibilities under HIPAA; and (3) BA can fulfill its contractual obligations under this Agreement.

6.2 **Obligations of Business Associate.** In accordance with the Security Rule, BA agrees to:

6.2.1 Conduct a security risk assessment (in accordance with 45 C.F.R. Section 164.308(a)(1)(ii)(A)) and adopt and implement policies and procedures designed to ensure compliance with the Security Rule and this Agreement including, but not limited to, identifying a security officer and training personnel. This Section 6.2.1 shall be effective as of the compliance date applicable under the final regulations issued under HITECH that address this requirement.

6.2.2 Implement administrative, physical and technical safeguards (including written policies and procedures) that reasonably and appropriately protect the confidentiality, integrity, and availability of the Electronic Protected Health Information that BA creates, maintains, receives, or transmits on behalf of CE.

6.2.3 Enter into a written contract with any agent or Subcontractor to whom BA provides Electronic Protected Health Information that requires such agent or Subcontractor to comply with the same restrictions and conditions that apply under this Section 6 to BA, including, but not limited to, implementing reasonable and appropriate safeguards to protect such information.

6.2.4 Report to CE any Security Incident of which BA becomes aware. BA shall provide such notification on a quarterly basis, unless a more prompt notice is otherwise required by this Agreement. With respect to Security Incidents that result from an unsuccessful attempt to access, use, disclose, modify, or destroy Electronic Protected Health Information or interfere with system operations in an information system containing Electronic Protected Health Information, the notification required hereunder need only report the aggregate number of such incidents.

6.2.5 Promptly mitigate, to the extent practicable, any harmful effect of a Security Incident that is known to BA.

6.3 **Obligations of Covered Entity**. CE shall not request or direct BA to create, maintain, receive, or transmit Electronic Protected Health Information in any manner that would not be permissible under the Security Rule.

7. Breach Notification Requirements

7.1 **Breach Notification**. To the extent BA accesses, maintains, retains, modifies, records, stores, destroys, or otherwise holds, uses, or discloses Unsecured Protected Health Information, as set forth in Section 13402(h) of HITECH, BA shall promptly report to CE any Breach of such Unsecured Protected Health Information by it, its subcontractors or agents of which it becomes aware. Prior to notifying CE of the Discovery of a Breach, BA shall take reasonable steps to satisfy itself based upon reasonable diligence that the acquisition, access, use or disclosure of PHI was not unintentional or inadvertent.
Notification to CE shall be made without unreasonable delay and in no case later than five (5) business days after the earlier of: (i) the first day on which such Breach is known to BA; or (ii) the first day on which such Breach, by exercising reasonable diligence, would have been known to any person (other than the person committing the Breach) who is an employee, officer or other agent of BA. Notification will be made to the Knox County Privacy Officer. Notification of the Breach may only be delayed if such delay is required by law enforcement purposes as set forth in 45 C.F.R. Section 164.412. If BA has been requested orally or in writing by law enforcement officials that notification of affected individuals may impede a criminal investigation, BA shall inform CE within 24 hours of receiving the request. BA shall exercise reasonable diligence and promptly supplement its report with any additional information as may be obtained by BA.

BA, its affiliates, agents and subcontractors shall not provide any notification or information regarding any Breach to any person other than CE, except to the extent such action is: (i) required by law, (ii) required under this Agreement, or (iii) taken pursuant to a prior written consent of Covered Entity.

Notwithstanding the foregoing, BA may provide information regarding a Breach to its legal counsel.

7.2 **Content of Report**. Notification to CE of a Breach shall include, at a minimum, the following:

7.2.1 A brief description of what happened, including the date of the incident and the date of the discovery of the incident, if known;

7.2.2 A description of the types of Unsecured PHI that were involved in the incident (such as whether full name, social security number, date of birth, home address, account number, diagnosis, disability code, or other types of information) and that were or are reasonably believed by BA to have been impermissibly accessed, acquired, used or disclosed;

7.2.3 A fact-specific and detailed risk assessment of whether the incident poses a significant risk of financial, reputational, or other harm to the individual whose Unsecured PHI has been (or is reasonable believed by BA to have been) acquired, accessed, used or disclosed;

7.2.4 Identification of the Individuals whose Unsecured PHI has been, or is reasonably believed by BA to have been, accessed, acquired, used or disclosed;

7.2.5 Any steps Individuals should take to protect themselves from potential harm resulting from the incident;

7.2.6 A brief description of what BA is doing to investigate the incident, to mitigate harm to Individuals, and to protect against any further incidents; and

7.2.7 Any other information reasonably requested by CE to be included in the report.

7.3 **Documentation and Retention**. BA will document all actions described in this Section 7 and maintain such documentation for at least six years from the date the documentation is created or the date it was last in effect, whichever is later.

7.4 **Reimbursement, Mitigation and Cooperation**. BA will reimburse CE for all reasonable and necessary out-of-pocket costs incurred (including without limitation costs associated with providing required notices) as a result of a Breach by the BA, its affiliates, subcontractors or agents. Business Associate further agrees to cooperate with CE as reasonably requested, to mitigate, to the extent practicable, any harmful effect of such a Breach or other use or disclosure of Protected Health Information in violation of the terms and conditions of this Agreement, and fully cooperate with CE on all matters relating to such incident and associated notifications by CE to Individuals, the media, the Secretary, the Federal Trade Commission, or any other governmental entity.

7.5 **Continuing Duty to Report**. Nothing in this Agreement shall be construed to relieve BA of its existing reporting obligations under the Agreement and BA shall continue to report to CE in the time and in the manner provided for in the Agreement. The occurrence of a Security Incident of a use or disclosure of PHI in a manner that is not provided for in the Agreement shall not discharge BA's obligations under this Agreement to report a Breach unless such reporting fully and completely satisfies all of the Breach reporting requirements of this Agreement.

8. Term and Termination

8.1 **Term.** The Term of this Agreement will begin and become effective on the Effective Date and shall terminate when all of the Protected Health Information provided by CE to BA, or created or received by BA on behalf of CE is destroyed or returned to CE, or, if it is infeasible to return or destroy Protected Health Information, protections are extended to such information, in accordance with the termination provisions in this Section 8

8.2 **Termination**. Upon CE's knowledge of a material breach by BA of the terms of this Agreement, CE shall either:

8.2.1 Provide an opportunity for BA to cure the

8.2.2 Breach or end the violation. If BA does not cure the breach or end the violation within the time specified by CE, CE shall terminate this Agreement;

8.2.3 If BA has breached a material term of this Agreement and cure is not possible, immediately terminate this Agreement; or

8.2.4 If neither termination nor cure is feasible, CE shall report the violation to the Secretary.

8.3 **Effect of Relationship Termination**.

8.3.1 Except as provided in Section 8.3.2 and/or 8.3.3 of this sub-section, upon termination of the Agreement, for any reason, BA shall return or destroy all Protected Health Information received from, or created or received by it on behalf of CE and will certify that such return or destruction has been completed no later than 30 calendar days following the effective date of termination. The certificate of return or destruction should be mailed to Knox County Risk Management, Attn. Privacy Officer, 400 Main Street Suite 345, Knoxville TN 37902.

This provision shall apply to Protected Health Information that is in the possession of Business Associate and/or its Subcontractors or agents. BA will not retain any copies of Protected Health Information.

8.3.2 In the event that BA determines that returning or destroying Protected Health Information is infeasible, BA will notify CE in writing, no later than the date required for certification under section 8.3.1, of the conditions that make return or destruction infeasible. Upon mutual agreement of the parties that return or destruction of Protected Health Information is infeasible; BA will extend the protections of this Agreement to such Protected Health Information and limit further uses and disclosures of such Protected Health Information to those purposes that make the return or destruction infeasible, for so long as BA maintains such Protected Health Information.

8.3.3 Should Covered Entity notify Business Associate that the information necessary to comply with the recordkeeping requirements under other applicable law includes the Protected Health Information, BA shall return or provide to CE such information, including Protected Health Information.

9. General Provisions

9.1 **Regulatory References.** Any reference in this Agreement to a section in HIPAA, HIPAA Regulations, or the HITECH Act means the section as in effect or amended or modified from time to time, including any corresponding provisions of subsequent superseding laws or regulations.

9.2 **Amendment.** The parties agree to take such action as is necessary to amend this Agreement from time to time as is necessary for CE and/or BA to comply with the requirements of HIPAA and the HITECH Act, as those statutes and their implementing regulations may be amended from time to time. No amendment to this Agreement shall be effective until reduced to writing and duly signed by the authorized representatives of the parties.

9.3 **Interpretation.** Any ambiguity in this Agreement shall be resolved to permit each party to comply with HIPAA and the HITECH Act, as those statutes and their implementing regulations may be amended from time to time. The provisions of this Agreement shall prevail over any provision of any other agreement between the BA and the CE that may conflict or be inconsistent with any provision in this Agreement.

9.4 **Survival.** The respective rights and obligations of BA under this Agreement shall survive the termination of this Agreement and any related agreement, including a services agreement.

9.5 **Indemnity.** The BA agrees to indemnify, hold harmless, and defend the CE and its officers, directors, employees or agents from any claim, cause of action, liabilities, damages, penalties, fines, costs, expenses or other losses (including attorney's fees) arising out of any use or disclosure of PHI by BA or its agents or subcontractors in breach of this Agreement of in violation of State or Federal Law, including without limitation, HIPAA, the HITECH Act, the Privacy Rule, or the Security Rule.

9.6 **No Third Party Beneficiaries**. Nothing express or implied in this Agreement is intended to confer, nor shall anything herein confer, upon any person other than the parties hereto, any rights, remedies, obligations, or liabilities whatsoever.

9.7 **Disputes**. If any dispute or claim arises between the parties with respect to this Agreement, the parties will make a good faith effort to resolve such matters informally, it being the intention of the parties that they reasonably cooperate with each other in the performance of the mutual obligations under this Agreement.

9.8 **Conformance with Law.** The parties agree to take such action as is necessary to amend this Agreement from time to time as is necessary for the parties to comply with the requirements of HIPAA as they apply to each party.

9.9 **Action.** For purposes of this Agreement, whenever action is required by a party to this Agreement, such action must be taken by a person or persons with authority to act on behalf of such party to this Agreement.

9.10 **Severability.** The invalidity or unenforceability of any provision of this Agreement shall not affect the validity or enforceability of any other provision of this Agreement, which shall remain in full force and effect.

9.11 **Notices.** All notices and communications required by this Agreement shall be in writing and shall be effective upon receipt.

Such notices and communications shall be given in one of the following forms: (i) by delivery in person, (ii) by a nationally-recognized, next-day courier service, (iii) by first-class, registered or certified mail, postage prepaid; or (iv) by electronic mail to the address that each party specifies in writing.

Neither party shall refuse delivery of any notice hereunder.

9.12 **Nature of Agreement.** Nothing in this Agreement shall be construed to create a partnership, joint venture, or other joint business relationship between the parties or any of their affiliates, or a relationship of employer and employee between the parties. Rather, it is the intention of the parties that their relationship shall be that of independent contractors.

9.13 **Entire Agreement.** This Agreement constitutes the entire agreement between the BA and the CE relating to the matters specified in this Agreement, and supersedes all prior representations or agreements, whether oral or written, with respect to such matters.

9.14 **Counterparts.** This Agreement may be executed in counterparts, each of which so executed shall be construed to be an original, but all of which together shall constitute one agreement binding on all parties, notwithstanding that all parties are not signatories to the same counterpart. Transmission by facsimile or electronic mail of an executed counterpart of this Agreement shall be deemed to constitute due and sufficient delivery of such counterpart.

This Agreement and any amendment or modification may not be denied legal effect or enforceability solely because it is in electronic form, or because an electronic signature or electronic record was used in its formation.

9.15 **Governing Law and Venue.** This Agreement and the rights and obligations of the parties hereunder shall be governed by and construed under the laws of the state of Tennessee. The Chancery Court and/or the Circuit Court of Knox County, Tennessee shall have exclusive and concurrent jurisdiction of any disputes which arise hereunder.

9.16 **Compliance with HIPAA Transaction Standards.** When providing its services and/or products, BA shall comply with all applicable HIPAA standards and requirements (including, without limitation, those specified in 45 CFR Part 162) with respect to the transmission of health information in electronic form in connection with any transaction for which the Secretary has adopted a standard under HIPAA("Covered Transactions"). BA represents and warrants that it is aware of all current HIPAA standards and requirements regarding Covered Transactions, and BA shall comply with any modifications to HIPAA standards and requirements which become effective from time to time. BA agrees that such compliance shall be at its sole cost and expense, which expense shall not be passed on to CE in any form, including, but not limited to, increased fees. BA shall require all of its agents and subcontractors (if any) who assist BA in providing its services and/or products to comply with these terms.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the date set forth below.

Addendum II

Request for Proposal #3734
Employee Vision Benefit Services

Addendum Date: **April 24, 2026** **Buyer:** **Christina Beeler**

Opening Date: **May 12, 2026 at 2:00 pm** **Total Page(s):** **278**

The following is to be added:

Addition:
Attachment A Knox County Schools Census
Attachment B Knox County Census
Attachment C Vision Summary
Attachment D Knox County 36 Months Paid Claims
Attachment E Loss Ratio Report for Knox County Government/Schools 2026
Attachment F Loss Ratio Report for Knox County Government 2024 & 2024
Attachment G Loss Ratio Report for Knox County Schools 2024 & 2025

The following is for Clarification:

Question 1: Can you please provide the RFP in Word format?
Answer 1: No.

Question 2: Can you please provide a copy of the current vision benefit certificate of coverage and/or benefit summary?
Answer 2: Please see the attachments.

Question 3: Have there been any plan design changes in the last 12 to 24 months?
Answer 3: No

Question 4: Can you please provide the monthly claims and enrollment for the most recent 24 months?
Answer 4: Please see the attachments.

Question 5: Can you confirm whether the County will be utilizing a consultant/broker to assist with the evaluation of proposals and/or if consultant/broker commissions need to be included in the proposed rates?
Answer 5: No, we are using our procurement department.

Question 6: Can you confirm the current and planned contribution percentage?
Answer 6: 100%

Question 7: Can you provide a claim file for the most recent 12 months showing the claims by provider?
Answer 7: Please see the attachments.

Question 8: Can you provide a copy of the current census, showing the full eligible employee population, along with gender, date of birth, home zip code, state of residence, active/retired status, and tier (employee, employee+one, or family)?
Answer 8: Please see the attachments, residence are all active and located in Tennessee.

Question 9: Are there any other requirements to identify intent to bid on this RFP?
Answer 9: Please review the bid for all requirements.

Question 10: Can you confirm the vision proposal is self funded or fully insured?
Answer 10: Vision is fully insured.

Question 11: How long has the coverage been with the current carrier? What was the original effective date of the plan?
Answer 11: Since 1/1/2013

Question 12: Does the customer currently partner with or have plans to partner with a third-party entity that will assist in their benefit administration? Please include the name(s) of the entity partner(s) being considered and explain the scope of services they will provide.
Answer 12: No

Question 13: Eligible employee definition.
Answer 13: Full-time employee working at least 30 hours per week.

Question 14: Current dependent age definition and current full-time student age.
Answer 14: Dependents age-out on the last day of the month they turn 26

Question 15: What, if any, changes to the current plan design are being requested?
Answer 15: None

Question 16: Have there been any plan design changes over the past 36 months? If so, please provide the details and dates of any change(s). If the rates were impacted, please provide details.
Answer 16: Retinal imaging, up to $39 member cost for in-network providers.

Question 17: Please provide the last 36 months of monthly paid premium and paid claim experience on a monthly basis, with the following items split by plan
Answer 17: Please see attachments.

Question 18: Please provide rate history for the past three (3) years.
Answer 18: Current rates in Section 3.13 of RFP have remained the same since 2018

Question 19: Please provide renewal rates (if available).
Answer 19: Not available, please see answer 18.

Question 20: What is the current commission level included in the rates?
Answer 20: None.

Question 21: What level of commissions should be included in the proposed rates?

Answer 21: None.

Question 22: Are there any pass-through or explicit administrative charges included in the current and historical rates?
Answer 22: No

Question 23: Does Knox County expect to pay premiums within a 30-day grace period?
Answer 23: That would be great.

Question 24: Given that the census data and detailed plan information will most likely prompt follow-up questions from all bidding carriers—and will not be released until after the Q&A deadline via addendum—will an extension of the due date be considered to give all bidding carriers additional time to fully address these questions and submit the strongest possible Vision proposals for The County/Schools and your members?
Answer 24: The bid opening has been extended to 5/12/2026.

End of Addendum #1.
Addendum must be acknowledged in Section V, Tab II of your submittal.

(Plan allows the member to receive either contacts and frame, or frame and lens services.)

Fees charged by a Provider for services other than a covered benefit and any local, state or Federal taxes must be paid in full by the Insured Person to the Provider. Such fees, taxes or materials are not covered under the Policy. Allowances provide no remaining balance for future use within the same Benefit Frequency. Some provisions, benefits, exclusions or limitations listed herein may vary by state. No benefits will be paid for services or materials connected with or charges arising from: medical or surgical treatment, services or supplies for the treatment of the eye, eyes or supporting structures; Refraction, when not provided as part of a Comprehensive Eye Examination; services provided as a result of any Workers' Compensation law, or similar legislation, or required by any governmental agency or program whether federal, state or subdivisions thereof; orthoptic or vision training, subnormal vision aids and any associated supplemental testing; Aniseikonic lenses; any Vision Examination or any corrective Vision Materials required by a Policyholder as a condition of employment; safety eyewear; solutions, cleaning products or frame cases; non-prescription sunglasses; plano (non-prescription) lenses; plano (non-prescription) contact lenses; two pair of glasses in lieu of bifocals; electronic vision devices; services rendered after the date an Insured Person ceases to be covered under the Policy, except when Vision Materials ordered before coverage ended are delivered, and the services rendered to the Insured Person are within 31 days from the date of such order; lost or broken lenses, frames, glasses, or contact lenses that are replaced before the next Benefit Frequency when Vision Materials would next become available. This is a snapshot of your benefits. The Certificate of Insurance is on file with your employer. Member receives a 20% discount on items not covered by the plan at In-Network locations. Discount does not apply to Provider's professional services or contact lenses. Plan discounts cannot be combined with any other discounts or promotional offers. In certain states members may be required to pay the full retail rate and not the negotiated discount rate with certain participating providers. Please see the online provider locator to determine which participating providers have agreed to the discounted rate. Discounts on vision materials may not be applicable to certain manufacturers' products. The Plan reserves the right to make changes to the products on each tier and to the member out-of-pocket costs. Fixed tier pricing is reflective of brands at the listed product level. All providers are not required to carry all brands at all levels. Services and amounts listed above are subject to change at any time. Discounts are not insured benefits. Underwritten by Fidelity Security Life Insurance Company of Kansas City, Missouri, Policy number VC-19, form number M-9083, or Policy number VC-146, form number M-9184, in New York underwritten by Fidelity Security Life Insurance Company of New York, Policy Number VCN-1[illegible] form number MN-1, or Policy Number VCN-19, form number MN-28.

Ready to live your best EyeMed life?

There's so much more to your vision benefits than copays and coverage. Get ready to see the good stuff for yourself.

Your network is the place to start

See who you want, when you want. You have thousands of providers to choose from – independent eye doctors, your favorite retail stores, even online options.

Keep your eyes open for extra discounts*

Members already save an average 76% off retail using their EyeMed benefits,[1] but our long list of special offers takes benefits even further.

Remember, you're never alone

We're always here to help you use your benefits like a pro. Stay in-the-know with text alerts or healthy vision resources from the experts. If it can make benefits easier for you, we do it.

*Discounts are not insurance. Available at participating providers.

[1] Based on weighted average of sample transactions: EyeMed Insight network/$10 exam copay/$10 materials copay/$150 frame or contact lens allowance. 2021 EyeMed Commercial BOB stats.

Create a member account at eyemed.com/member

Everything is right there in one spot. Check claims and benefits, see special offers, estimate costs and find an eye doctor – search for one with the hours, location and brands you want. For maximum mobility, try the EyeMed App (Google Play or App Store).

This information is available broadly and is not plan or state specific.

On behalf of EyeMed Vision Care LLC ("EyeMed"), please accept the attached proposal for vision benefits. EyeMed is not a licensed underwriter, and therefore makes this proposal for fully insured vision benefits in conjunction with licensed insurance carrier, Fidelity Security Life Insurance Company ("FSL").

If EyeMed is selected as the successful bidder, FSL will issue the Vision Insurance Policy and Certificate of Insurance and will serve as the insurer for the fully insured vision plan. FSL will also receive insurance premium directly from you.

EyeMed will provide vision network administration and other services in connection with your vision plan and will serve as the sole point of contact for all purposes under the fully insured arrangement.

We look forward to continuing our partnership!

RE: PROPOSAL NUMBER 3734

On behalf of our entire team, we would like to thank you for the opportunity to remain the vision care benefits provider for Knox County Government. Over the course of our 13-year relationship, we have focused on providing a vision network of choice and convenience with benefits that redefine flexibility and value, while making the experience easy and transparent for all. Enclosed you will find all the amazing new ways we will complement your goals in vision care.

VISION BENEFITS AS YOU'VE NEVER SEEN THEM BEFORE

Throughout our proposal, we demonstrate how we'll continue to exceed expectations by evolving our benefits and giving clients and members more of what's best, not more of the same, including:

- Nearly 38 years of vision care industry expertise, translating into innovative products and stress-free administration
- A large, nationwide network loaded with the right mix of independent, national and regional retail providers – no wonder more than 92% of your employees visit an in-network provider today
- Benefits that redefine expectations – our members know what's best for them, so we'll keep giving them options that meet their eye care needs, style and lifestyle – without restriction
- And above all else, an experience made easy with member communications, online tools and award-winning resources

We're excited to share all the ideas we have for your vision benefits, and we're committed to continuing to provide exceptional value and service to you and your employees.

If you have any questions, please feel free to contact me at any time.

Sincerely,

Alysun Fulks
National Account Manager

M. Adam Stulberg
Vice President, Product Development

Hello, Knox County Government

Nice to see you again

We've been your preferred vision partner since 2013. From the beginning, we've been committed to a seamless member experience focused on innovation and value. That's important, because when members understand their benefits, they use their benefits – and save money. The proof? Over the past year alone, we've delivered savings of over $588,000 for your members.[1]

We're proud of what we've achieved together. And we know your members appreciate our approach to vision insurance benefits – proven by your 92% in-network utilization.[1] Staying with EyeMed lets you continue to offer vision benefits that make your members' lives not just easier ... but better.

PROPOSAL HIGHLIGHTS

PLAN OPTION 1	PLAN OPTION 2
"As-Is" plan featuring **rates that are 4% below your current vision benefit plan**. $10 exam copay and lens copays ranging from $25 to $135, plus generous frame and contacts allowances	Features competitive rates and our Eye360 program with **enhanced benefits at PLUS Providers** – $0 copay eye exams, an extra $50 frame allowance, an extra $50 contact lens allowance,[2]

Each option includes these highlights:

- 4-year rate guarantee to keep costs consistent
- Performance guarantees with fees at risk
- 40% off complete, unlimited additional pairs of prescription glasses at any in-network provider, any time – the largest and most flexible additional pairs discount in the industry[3]

Thank you for being our partner over the last 13 years. Together, we provide your members with vision benefits they'll enjoy and value. If you have any questions, please feel free to contact me.

ALYSUN FULKS
National Account Manager

[1] Knox County Utilization Report, 2025. [2] Member access to PLUS Providers is only available in conjunction with the Eye360 product and is not available in all states. [3] Discounts are not insured benefits. Fully insured clients are underwritten by Fidelity Security Life Insurance Company®, Kansas City, MO 64111 and Fidelity Security Life Insurance Company® of New York.

Let's review what you'll get with EyeMed

Reinventing choice and convenience

NETWORK

Staying with EyeMed means your members can continue to use their benefits where they want and when they want.

- 28,900 independent and retail locations nationwide including popular national chains like LensCrafters, Pearle Vision and Target Optical, plus local and regional favorites near you like America's Best, and Campbell Cunningham Taylor
- Online in-network options including LensCrafters.com, TargetOptical.com, Ray-Ban.com, Glasses.com, ContactsDirect.com, Oakley.com, NuanceAudio.com and more – with seamless benefit integration
- National lab network plus many on-site labs for same day glasses
- Access to advanced technology for eye care, eyewear and service, including Clarifye Digital Eye Exams and AccuFit Digital Measuring available at LensCrafters

Redefining flexibility and savings

BENEFITS

Based on how your employees want to use their benefits, we're offering a plan specifically designed to meet their needs. That means, vision benefits that control member out-of-pocket costs without limiting choice.

Here are some of the standout features in your proposed benefits:[1]

- Eye360 with enhanced benefits at PLUS Providers - $0 copay eye exam, extra $50 frame allowance and extra $50 contact lens allowance (can be combined with special offers)[2]
- Retinal imaging to help document early signs of many eye conditions
- 20% off any item not covered by the benefit, including non-prescription sunglasses
- Guaranteed access to 100+ frames priced at $130 or less at every in-network provider
- True blue protection with multiple options for blue light-filtering technology

Reimagining simple and transparent

EXPERIENCE

At EyeMed, we're committed to creating an outstanding experience for you and your members. We've curated our online resources, personalized member communications and client tools to deliver a benefit that members actually enjoy using.

FOR MEMBERS

- Personalized Welcome Kit with ID cards for newly enrolled employees
- Member App for on-the-go access to benefits"
- Open enrollment support through a virtual benefit fair booth, custom materials and access to eyemed.com/open-enrollment
- Know Before You Go tool to estimate out-of-pocket costs
- Award-winning call center with live agents 7 days a week[3]

FOR YOU

- Seamless account support – your EyeMed team will remain in place for consulting and reporting
- Annual Business Reviews to assess your benefit's performance
- HITRUST CSF Certified with best-in-class privacy and data security
- Member materials to download and share
- EyeManage client portal for reports, member data and invoices

[1] Discounts are not insured benefits. Offers not available in the State of Texas. [2] Member access to PLUS Providers is only available in conjunction with the Eye360 product and is not available in all states. [3] Designated "Certified Center of Excellence" by BenchmarkPortal, 2009–2024. Fully insured clients are underwritten by Fidelity Security Life Insurance Company®, Kansas City, MO 64111 and Fidelity Security Life Insurance Company® of New York.

Confirmed. As of May 6, 2026, EyeMed has received the following addenda:

Addendum #1 to Request for Proposal #3734 – Issued April 20, 2026

Addendum #2 – Request for Proposal #3734 – Issued April 24, 2026

Tab III

Value of Benefits & Services Offered

Value of Benefits & Services Offered

PROPOSAL NO. 3734

Provide a full breakdown of benefits and plan design(s), per Section 4.7. Include rates for in-network and out-of-network providers.

Confirmed. We've included our proposed benefit design with information on allowances, copays, fixed costs and discounts broken out by exam and materials, along with our proposed renewal rates. Please refer to **Tab V – Cost** for details.

List allowances on frames, lenses and contact lenses.

We're proposing a match to Knox County Government's current benefits (**Plan Option #1**), including frequencies and allowances. For **Plan Option #2**, we're including our Eye360 benefit with enhanced benefits at PLUS Providers - $0 copay eye exams, an extra $50 frame allowance and an extra $50 contact lens allowance. Please refer to **Tab V – Cost** for further details.

List services included in a comprehensive eye exam.

Healthy eyes are happy eyes. That's why we stress the importance of an annual eye exam to our members. Our vision care exams include dilation at no additional cost. The exam also includes:

- Case history
- Patient observation
- Clinical diagnostic testing, including binocular function
- Internal eye health assessment including dilation as necessary
- Biomicroscopy
- Refractive status
- Color vision testing
- Stereopsis testing
- Assessment, diagnosis and treatment plan

What's even better is that this service isn't just for seeing clearly; it can also spot the early signs of other serious health conditions like diabetes, high blood pressure and high cholesterol. Want more information? See **Exhibit B.** included in **Tab VII - Other Information.**

Provide detailed information on pricing formula for frames, lenses and contact lenses.

We contract with providers on scheduled reimbursements for services/materials and on discounts for lens options and other miscellaneous items. This is good news for you; it keeps your benefit rates and claims costs stable throughout our partnership. It also helps us provide a more consistent member experience at every in-network location.

In addition, through our many years of experience in the industry, we have found that a retail price approach makes it much easier for members to determine any out-of-pocket costs up-front. Our approach eliminates frame 'selections' and 'wholesale conversions' that may appear to provide consistency but can be confusing for members to understand while also limiting choice.

For materials covered by an allowance, such as frames and contact lenses, members can apply their allowance toward the retail price of any available frame or choose whatever brand and type of contact lens they want. They're simply responsible for any balance over their allowance, if applicable. Plus, our benefit provides a fixed, discounted price for lenses and lens options, including premium progressive lenses and the most popular lens options such as scratch-resistant and anti-reflective coatings.

Include: Types of frames, lenses and contact lenses available under your proposed plan.

Frames

Because our benefit designs are based on member choice, we make all frames at all provider locations available through the frame allowance. This gives members access to a huge range of eyewear, including top brands, rather than limiting their selection to a frame tower or certain frame selection. The extensive diversity and selection that we offer means that whether looking for fashion or trying to stick to a budget, your employees can feel confident that our provider locations are stocked with a variety of frames (or prescription sunglasses) that meet their needs.

Types of Lenses

We define lens types as the following:

Bifocal Lenses: Used for presbyopia, a condition when the person can no longer focus adequately at near distances, to allow for viewing at distance through the top of the lens and read through the bottom segment of the lens. Available different designs such as those that have lines (flat-top, round-top, curved top, executive, etc.) and progressive lenses that have no lines and gradually change focus as the person looks further down in the lens.

Progressives: Using a comprehensive, fact-based approach, EyeMed classifies brands of progressive lenses into tiers based on product features and benefits. Consideration is given to things such as age of technology, ease of adaptation and level of customization. By classifying progressive lenses into tiers, members will have a choice that fits every preference and budget.

- **Standard Progressive Lenses:** Includes the following trade names: Access, Adaptar, AF Mini, Continuous, Vue, Freedom, Sola VIP, Sola, and True Vision.
- **Premium Progressive Lenses:** Includes the following trade names: AO Compact, Kodak, Multigressiv, Natural, Outlook, Panamic, and Varilux Comfort.

Trifocal Lenses: Used for advanced levels of presbyopia, a condition when the person can no longer focus adequately at near distances, to allow for viewing at distance through the top of the lens, intermediate distances through the middle segment and reading through the bottom segment of the lens.

Types of Contact Lenses:

- **Conventional:** Intended for ongoing, daily-wear use. These lenses are not labeled with the expectation of replacement at specific intervals, but are replaced when the lenses become overly soiled or damaged, or present health risks as indicated by the provider
- **Disposable/Frequent replacement:** Designed and labeled to be replaced at specific time intervals (i.e. daily, weekly, monthly). These lenses are typically packaged such that multiple lenses are provided at the time of dispensing
- **Medically Necessary:** Meet the requirements related to eye conditions as established by the EyeMed Quality Assurance Committee. The eye conditions prevent the member from achieving a specified Contact lenses that provide superior visual and physical results to spectacles in individuals with the following eye conditions:
    - High Ametropia exceeding -10D or +10D in meridian spectacle Rx powers

- Anisometropia of 3D in meridian spectacle Rx powers
- Keratoconus when the member's vision is not correctable to 20/25 in either or both eyes using standard spectacle lenses
- Vision improvement for members whose vision can be corrected by 2 lines on the visual acuity chart when compared to the best corrected standard spectacle lenses

Anti-Reflective Coating: EyeMed classifies brands of anti-reflective coatings into tiers based on product features and benefits. Consideration is given to things such as age of technology as well as glare reduction capabilities, ability to repel water and resistance to smudging and scratching. With our tiers, members will have a choice of anti-reflective coating that fits every preference and budget.

- **Standard Anti-Reflective Coating:** Includes the following trade names: Crizal, HMC, Oakley, SharpView, SYNERGY.
- **Premium Anti-Reflective Coating:** Includes the following trade names: Crizal, Kodak, VISO, Xperio, ZEISS.

List special options such as blended lenses, special tints or coatings.

To keep money in our members' pockets, we provide them with fixed pricing on the most popular lens add-ons including options like premium anti-reflective coating. They just pay their lens copay and the cost of the add-ons.

Members will know upfront their out-of-pocket cost for various lens options, including:

- Tint (Solid or Gradient)
- UV Treatment
- Standard Scratch Coating
- Standard Polycarbonate
- Standard Anti Reflective - Includes the following trade names: Crizal, HMC, Oakley, SharpView, SYNERGY.
- Premium Anti Reflective - Includes the following trade names: Crizal, Kodak, VISO, Xperio, ZEISS.

For any other add-ons and services not itemized in the benefit design, members receive a 20% discount.

Provide additional discounts/services offered under your vision plan

We're committed to keeping money in our members' pockets. That's why we offer our members additional discounts above the proposed benefits, such as:[1]

- 40% off unlimited additional complete pairs of prescription glasses at any location, any time throughout the benefit year - largest and most flexible additional pairs discount in the industry
- Up to 34% off popular lens options not covered by the benefit
- Up to 30% savings on a standard fit and follow-up on qualifying networks
- 15% off retail or 5% off the promotional price of LASIK from LCA Vision or for even greater savings, members receive up to $1,000 off at over 120 LasikPlus, TLC and LVI locations nationwide
- 20% off any remaining balance over the frame allowance
- 15% off any balance over the conventional contact lens allowance
- 20% off any item not covered by the benefit, including non-prescription sunglasses
- Up to 66% off hearing aids, an extended warranty and free batteries through Amplifon

To help your employees get even more out of their vision benefit, we have a Special Offers page on our Member

Portal at eyemed.com where members can easily find discounts on frames, contacts, eye exams and more directly from manufacturers and providers. Some can even be combined with your vision benefit. Offers change periodically, but here's a sampling of the current specials:[2]

- Glasses.com: Additional $30 to use on anti-reflective lenses – on top of your vision benefits
- Pearle Vision: $100 toward purchase of progressive eyeglasses OR $50 toward single vision eyeglasses
- LasikPlus/TLC Laser Eye Centers/The LASIK Vision Institute: Up to $1,000 toward LASIK

1 Discounts are not insured benefits
[2] Offers not valid in the State of Texas

Provide any additional information that may be used to review benefit levels/coverage.

Being part of the EssilorLuxottica family of companies – the vision industry's leading innovator – gives EyeMed a front-row seat to groundbreaking technologies and products. Our innovation roadmap for 2026–2027 is built around emerging trends in vision care and our commitment to leading the managed vision care industry into the future.

In light of that, we provide members with a number of valuable, innovative product offerings, including:

- **Eye360:** Our Eye360 benefit provides added value when members visit PLUS Providers with $0 copay eye exams, an additional $50 toward frames (regardless of frame type) and an extra $50 contact lens allowance.[1] Included in our proposal (Plan Option #2) for Knox County Government.
- **Online Options:** Members have several options for seamlessly using their in-network benefits online to purchase glasses or contacts - Glasses.com, ContactsDirect.com, Ray-Ban.com, TargetOptical.com, LensCrafters.com, Oakley.com, NuanceAudio.com, FramesDirect.com, CostaDelMar.com and EyeBuyDirect.com
- **Vision Abroad:** Provides temporary, adjustable eyewear delivered within 24 hours, 24/7 member support, country-specific vision care guides, trusted providers around the world, translation services and more.
- **Know Before You Go tool:** A cost transparency tool that estimates a member's total out-of-pocket cost (if any) ahead of time, so there are no surprises when it's time for them to pay their providers.
- **HealthyEyes:** Wellness support program that provides disease capturing and reporting, member education and outreach – visit EyeSiteOnWellness.com for helpful resources.
- **Virtual Benefit Fair:** A digital open enrollment experience providing a one-stop shop for employees to understand their vision benefit options, locate a network provider nearby and learn about enrolling with EyeMed.

1 Member access to PLUS Providers is only available in conjunction with the Eye360 product and is not available in all states.

ID Cards & Communications

Do you generate ID Cards for participants? If yes, what information can be found on the cards? Please provide a sample ID card, if applicable.

Yes. Newly enrolled employees will receive our full color, customized Welcome Packet with 2 personalized ID cards and other helpful features:

- A description of your benefit
- A personalized list of nearby providers located close to the employee's home
- Customer Care Center and Member Web information

- Details on how to access the benefit and digital tools
- A personalized QR code that links the subscriber directly to our Member Web for easy account registration
- For subscribers with dependents, a personalized QR code that opens a downloadable PDF listing up to 6 additional dependent ID cards

The Welcome Packet will be distributed to your newly enrolled employees after we receive clean eligibility data from you. Members also have easy "on the go" access to their ID card on our website and mobile app. And while members have ranked our Welcome Packet and ID card as the most valuable source of benefit information, we don't require the card to access network services. With member name and date of birth, our doctors can verify eligibility and provide services.

A sample of our member Welcome Packet containing ID cards can be found in **Tab VII – Other Information, Exhibit C.**

- **If cards are available, Knox County would prefer ID cards be mailed to the employees' homes at the time of annual enrollment as well as for all new hires that come on the plan. Can your organization accommodate this request? Is there an additional charge?**

  Yes. At no additional cost, our Welcome Packets with ID cards will be mailed to newly enrolled members' homes once we receive clean eligibility data from you.

  For Knox County Government employees who are currently enrolled, we've found it's best not to provide new ID cards each year to avoid confusion - new ID cards typically indicate a new carrier. Members can always access a copy of their ID card at any time through our member web or mobile app. By logging into the app, members can easily view their ID card and have it available when they visit their provider.

- **Can members access their ID cards online? Can they check in at a participating provider's office without a card?**

  Yes. Members can easily access a copy of their ID card at any time through tools like our member portal or mobile app. In fact, by logging into the app and just shaking their smartphone, members can view their ID card and have it handy when they visit their provider. However, we don't require the card to access network services. With member name and date of birth, our doctors can verify eligibility and provide services.

What online services does your organization offer (include a list of offerings for members and for Benefits staff)?

Our online portals, accessible at eyemed.com, offer self-service digital tools and resources to make using and administering the vision benefit easier than ever.

FOR EMPLOYEES: Our Member Web and EyeMed App offer easy, on-demand service around the clock. From their computer, tablet or smart phone, members can view benefit details and eligibility status, access their ID card, check on a claim, estimate potential out-of-pocket costs, access our enhanced provider search tool and much more.

The provider locator on our website includes advanced search options such as provider specialty, hours of operation, languages spoken and available frame brands. All it takes is a few quick clicks for members to enter their ZIP code and select their criteria. Then we'll show them the nearest matching providers with driving directions and a map. There is even an option to schedule appointments online at many locations.

FOR EMPLOYERS: Our client portal, EyeManage, offers real-time access to member information and other vision benefit resources. This online tool makes it easy for your benefit administrators to manage member records, view individual benefits and service eligibility, download enrollment reports and member rosters, view and pay invoices, request open enrollment support and contact your EyeMed Account Manager. There is no limit to the number of logins that can be assigned for benefit administrators.

FOR PROVIDERS: EyeMed network providers are supported by both our Online Claims Processing System and our information resource portal, inFocus.

Online Claims Processing System: Our online claims portal is integrated with our lab order system and allows providers to submit a claim directly from within a member's profile. Currently 97% of in-network claims are submitted electronically, and 96.9% of all claims are automatically adjudicated.*

inFocus: Through inFocus, providers can get the latest news about plans and participation requirements including our Professional Provider Manual, lab information and product catalogs, quality assurance and audit tips, training resources, forms and tools, patient materials and more.

*EyeMed book of business, 2025

Do you have a toll-free 800 number for customer, provider and employer services? If yes, what are the hours of operation?

Yes. For members, our Customer Care Center, designated a "Certified Center of Excellence" for the past 16 years,[1] is open 7 days a week, 362 days per year. And because we offer extended hours of live-agent assistance every day compared to our competitors,[2] we have the opportunity to help members when they visit a provider for service - the times when they need us the most.

We do this all while monitoring and maintaining quality standards to make the experience easy. Your employees' calls will be answered by the right person, on the first ring, which we back by a 98.5% first call resolution rate. And we combine this with a 25 second or less average speed of answer to help keep your employees satisfied and happy with EyeMed.

Providers have a separate, dedicated phone line to contact our Customer Care Center, and as you have all along, your National Account Manager, Alysun Fulks, will continue to be available whenever you need assistance.

Hours of operation for our award-winning Customer Care Center will continue to be:

- Monday - Saturday: 8 am - 11 pm EST
- Sunday: 11 am - 8 pm EST

1 Purdue University BenchmarkPortal independent assessment of call centers nationwide, 2009 - 2025.
2 Analysis of EyeMed Customer Care Center and competitor call center hours, 2024.

- **What services do your toll-free numbers provide?**

  When members call the toll-free number provided to them, they can expect the following services from our Customer Care representatives. Of course, our agents will assist in helping members get to the right source for anything that doesn't fall into a particular category. Many requests can even be 'self-served' through our Interactive Voice Response (IVR), available 24/7.

- **What information about network providers will you provide a caller?**

  While we've made it very easy for members to find their ideal in-network provider on our member portal and mobile app, they can also call our Customer Care Center and IVR System. Representatives will provide name, address, contact information and specialty (ophthalmologist, optometrist or optician) about our network providers. They can even help members schedule appointments at affiliated national retailers such as LensCrafters, Target Optical and Pearle Vision.

- **Describe the performance standards for the customer service unit.**

  EyeMed's Customer Care Center is closely monitored to make certain they meet aggressive performance goals and exceed client expectations. Our Customer Care Center's performance standards and goals include the following:

	Performance Standard	2025 Goal
Average Speed of Answer:	25 seconds	8.7 seconds
Caller Abandonment Rate:	2.50%	0.60%
First Call Resolution:	98.50%	99.4%
Overall Member Satisfaction:	N/A	95% satisfaction

- **Where will the call center operation be located (city and state)?**

  Our award-winning Customer Care Center* is mainly located at our corporate headquarters in Mason, Ohio. But for added support, we also partner with Concentrix and Alorica, global leaders in call center management, to maintain additional remote call center agents across the entire country. And no matter which agent your calls are directed to, all representatives only answer EyeMed calls. Calls will always be answered by someone who has full visibility into the situation so you or your employees will get answers fast.

*Purdue University BenchmarkPortal independent assessment of call centers nationwide, 2009 - 2025.

- **Can claims processors and customer service representatives view benefit information online?**

  Yes. Our Customer Care Center uses fully integrated customer service desktop tools, meaning representatives have access to all plan benefits, claims, member information and provider information.

  Customer Service Representatives use an internally developed Customer Relationship Management (CRM) application as well as a tightly integrated knowledge management tool to provide service to members and providers.

  Through this system, representatives have access to all plan benefits, claims, member information and provider information. The application also has a graphical user interface (GUI) specifically designed for efficient and accurate responses.

  Both our Customer Care representatives and claims processors view the same member and benefit details.

Include samples of documents to support the proposal process such as: sample brochures, magnets, wallet cards and posters. Include all similar literature that would be used to attract employee attention to your organization.

Confirmed. As we have throughout our partnership, we'll continue to provide a wide range of pre- and post-enrollment resources and member communications once you choose to renew with us. We'll continue to offer an open enrollment content pack for your employees that's full of easy-to-access and easy-to-use resources for you to share with your employees.

You can choose from signage to post around your office, email templates to share with employees, health and wellness articles to include in your internal newsletter and much more. Plus, many of the items in the content pack are in Word format so you can quickly and easily plug in your logo, open enrollment dates and any other customizable information you think is important. As a refresher, feel free to take a look at the materials available in both English and Spanish at https://www.eyemed.com/en-us/oe.

We also offer other member material content packs you can share with your employees, both during the open enrollment period and throughout the benefit year. The following resources can be requested from your National Account Manager:

- **Welcome to EyeMed Content Pack:** an overview of our network, member experience, solutions and tools
- **Member Innovation Content Pack:** materials presenting details about special offers and Vision Abroad
- **Member Wellness Content Pack:** a resource promoting good health and wellness practices
- **"How-To" Content Pack:** tips for using our member web, mobile app and how to access and use the benefit

We've included samples of some of our most commonly used materials, including Welcome Packet (containing ID cards for your newly enrolled employees), an EyeMed benefit summary sample and Open Enrollment overview brochure and Frequently Asked Questions. You can find these samples as **Exhibit C** through **Exhibit F** in **Tab VII – Other Information**.

- **Do you mail literature directly to participants' homes? Are there any extra costs associated with materials mailed to employees' homes?**

  We'll continue to utilize mail, email and text, as well as our member portal and mobile app to communicate with your employees, as applicable; distribution will vary by format and objective. While the majority of information and resources members need to use/understand their vision benefit is provided on our Member

Web, eyemed.com, we do mail Welcome Packets to newly enrolled members and exam reminders for members diagnosed with "high risk" conditions – at no additional cost. We're happy to work with Knox County if you desire other 'hard copy' mailers sent to your employees.

Care Considerations

Do members need to select a primary vision office for care? If so, how often can a member change offices?

Members have the option of choosing any vision provider they wish and can change as often as they wish, too. Your enrolled employees and their eligible dependents can even choose different providers in the same household. Plus, they can get their exam from one provider and purchase their eyewear from a different location.

To search for a vision provider closest to them on our network, members can use our online provider locator, which makes it easy to search for the right eye doctor that's customized to members' needs. Available on eyemed.com and the EyeMed App, this tool includes advanced search options like provider specialty, hours of operation, languages spoken, available frame brands and more.

Are members required to get referrals or seek pre-authorization prior to obtaining care? If yes, please describe the process.

No. Prior authorizations or referrals are not needed for routine vision care.

Describe your organization's grievance and appeals process.

We're always sorry to hear that a member has a complaint, but we are always confident that we can take care of it. Members with complaints or inquiries should initially contact our Customer Care Center where our team is available 7 days a week to answer their questions. Our representatives are thoroughly trained in issue resolution for every type of call. What's even better is that 99% of the time inquiries are resolved during this first call. If the representative cannot resolve the issue, our Escalation team within the Customer Care Center is available to help. On rare occasions where further support is needed, our representatives have a process to get the complaint to our Quality Assurance department.

Within 3 business days, members will receive written confirmation of receipt. For complaints dealing with clinical care, our Medical Director reviews and researches the issue. A resolution, acknowledged in writing, will be reached within 30 calendar days or less.

In 2025, EyeMed received only 6,650 member complaints from over 32 million claims - equating to less than 0.02%.

Can a member receive an exam from one provider and materials (frames, lenses or contacts) from another provider?

Yes. Members may select one provider for their vision care exam and another provider for materials. They are free to choose any provider and can change providers at any time, for any reason, as often as they like.

Can a member request that a provider be added to the network, and what is the timeframe for outreach to the requested provider? How is a member notified of the outcome?

Yes. We know your employees will continue to appreciate our network. With a broad, yet diverse offering, we make their lives easier with convenient locations and longer hours on nights and weekends. But we also know it's important to include those doctors that our members want to visit. That's why we welcome provider nominations.

And it's easy. Members simply have their eye care professional complete the online interest form on EyeMedInfocus.com (our provider website), or your benefit administrator can nominate a provider on the member's behalf through your EyeMed Account Management team. While we can't make any promises that they'll agree to join, we'll reach out to them and invite them onto our network.

If you choose to renew with us, as part of the renewal process, the Network Management team will work with the Sales and Account Management team to keep them apprised of our results if we are recruiting providers. They typically then report the results or outcome to the client. If the request comes after the plan is renewed, our Network Management team would again keep your National Account Manager apprised of the request and results, which would be passed on to you.

The recruiting and credentialing process can take up to 90 days to complete.

Administrative

Will you offer Knox County performance and claims standard guarantees? If so, please submit the proposed guarantees.

Yes. Knowing that your plan administrator and employees are receiving exceptional service is important to us. That's why we're offering performance guarantees that monitor key client- and member-centric functional areas, such as membership file loads, timeliness on delivery of Welcome Packets, claims processing, call center statistics and reporting timeframes.

Based on Knox County Government's specific data, we report performance guarantee results on a quarterly basis and payments, if any, are measured and paid on an annual basis. To further demonstrate our dedication to you, we'll put administrative fees equivalent to 5% of premiums at risk for the proposed fully-insured benefit.

Our proposed performance guarantees are outlined in **Tab VII, Other Information, Exhibit G.**

What percent of claims processed by your organization during the last 2 years were for services provided by an in-network provider?

We understand the needs of our members, especially when it comes to our network. That's why we have the right mix of independent providers, national and regional retailer providers. With these convenient options, it's no wonder that we've had nearly 98% in-network utilization since 2023.*

*EyeMed book of business, 2025 – Not yet available.
*EyeMed book of business, 2024 - 97.4%
*EyeMed book of business, 2023 – 97.4%

Do you process your own claims or is claims administration outsourced?

Claims administration is handled directly by EyeMed's team; we do not outsource claims administration.

Do you generate Explanations of Benefits (EOBs) to members after processing a claim? If so, please explain what is found on your EOBs and provide a sample EOB.

Yes. We produce Explanations of Benefits (EOB) weekly for both in- and out-of-network claims and post them on our website within 7 days of production. All EOBs are based on the claims processed from the prior week.

Our EOB includes the provider's reimbursement, the member's out-of-pocket charges and copayment amounts. It's easy to read and understand, but if a member has any questions, they can call our Customer Care Center and we'll be happy to talk them through it. To review what members see after receiving services, check out **Exhibit H** for a sample EOB.

What processes do you have in place to ensure identification of fraudulent claims?

Our Quality Assurance Department leads monthly audits and claim-related process enhancements, involving internal reviews and the claims adjudication process. Any identified errors or inconsistencies are logged and reported for review. Because of the high percentage of auto-adjudicated claims (97.5%*), providers and members benefit from payment auto-calculation, as it minimizes the risk of miscalculation and member or provider over-payments or under-payments.

Listed below is an overview of the claims auditing and quality control processes:

- **System Check:** The automated system compares the claim to the member's specific benefit to determine if it has already been utilized during the benefit period and ensure all benefits were applied correctly.
- **Claims Processors:** When the Claims Department receives a paper claim, one of the Claims Processors will ensure it is complete and manually review it for accuracy.
- **Daily Audits:** On a daily basis, the Quality Assurance team randomly selects and audits a statistically significant sample of claims to ensure proper handling and financial accuracy. If any claim fails this process, it is forwarded to a Claims Processor for manual review to determine next steps.

*EyeMed book of business, 2025.

Can your organization accept eligibility data in a standard 834 file format?

Yes. We're able to accept eligibility in the following formats:

- HIPAA 834 file format
- EyeMed Excel Enrollment Template
- Most TPA and proprietary file formats

You can continue to transmit eligibility for your newly enrolled members to us via SFTP - using SSH encryption.

Provide a sample of your quarterly utilization reports that an employer would receive under your contract.

Working with us for the past 13 years, you know that our reporting package gives you a detailed view of your vision benefits. In fact, your latest utilization report shows that more than 92% of your members utilize their benefit in-network – which means you're getting great value. We're happy to continue sending your utilization report on a quarterly basis, so that you can understand your plan's performance, including trends with usage, preferences and more.

For a more precise sample, Knox County Government's most recent utilization reporting package is included in **Tab VII - Other Information**, **Exhibit I.**

Does your company provide any additional services or discounts, in addition to the vision benefit services, that will be offered to our covered employees? If yes, please describe.

We provide members with a number of valuable, innovative offerings, including:

- **Know Before You Go tool:** A cost transparency tool that estimates a member's total out-of-pocket cost (if any) ahead of time, so there are no surprises when it's time for them to pay their providers.
- **HealthyEyes:** Wellness support program that provides disease capturing and reporting, member education and outreach – visit EyeSiteOnWellness.com for helpful resources.
- **Virtual Benefit Fair:** A digital open enrollment experience providing a one-stop shop for employees to understand their vision benefit options, locate a network provider nearby and learn about enrolling with EyeMed.
- **Special Offers:** Exclusive members-only discounts and deals on frames and lenses, contacts, eye exams and more that can be found on our Member Portal and EyeMed Members App.[1]

Not only that, we offer our members additional discounts above the proposed benefits, such as:[2]

- 40% off unlimited additional complete pairs of prescription glasses at any location, any time throughout the benefit year - largest and most flexible additional pairs discount in the industry
- Up to 34% off popular lens options not covered by the benefit
- Up to 30% savings on a standard fit and follow-up on qualifying networks
- 15% off retail or 5% off the promotional price of LASIK from LCA Vision or for even greater savings, members receive up to $1,000 off at over 120 LasikPlus, TLC and LVI locations nationwide
- 20% off any remaining balance over the frame allowance
- 15% off any balance over the conventional contact lens allowance
- 20% off any item not covered by the benefit, including non-prescription sunglasses
- Up to 66% off hearing aids, an extended warranty and free batteries through Amplifon

1 Offers not valid in the state of Texas.
2 Discounts are not insured benefits

Tab IV
Provider Network

Provider Network

PROPOSAL NO. 3734

Attach a comprehensive list of all participating providers in the Knoxville area and which providers are accepting new patients.

We've included a directory of providers that participate on our network in the state of Tennessee, broken out by county, in our proposal. Please refer to **Exhibit J** in **Tab VII, Other Information**. As part of their contract terms, all providers on our network are required to continually accept new patients.

Provide a summary of the number of providers in the network by a county (for Knox and adjacent counties)

County	Total Provider Access Points*	Total Locations*	Independent Locations	Retail Locations
Knox	388	55	46	9
Anderson	39	7	5	2
Blount	89	10	8	2
Jefferson	8	3	3	0
Loudon	15	2	2	0
Roane	13	2	2	0
Sevier	88	11	9	2
Union	0	0	0	0
Total	640	90	75	15

*EyeMed Insight Network – April 2026

List current contracts with chain stores and retail optical laboratories.

Retail Providers

Employees want to receive eye care when they want, where they want; which is why our network offers the right mix of both independent and retail provider options. While private practice doctors make up the majority of our network, we also have thousands of retail locations throughout the country. With us, your employees have access to popular national chains like LensCrafters, Pearle Vision and Target Optical, plus local favorites like Campbell Cunningham Taylor and Volunteer Eye Care. Members can even purchase their eyewear online at LensCrafters.com, TargetOptical.com, Ray-Ban.com, Oakley.com, Glasses.com, NuanceAudio.com, ContactsDirect.com, FramesDirect.com, CostaDelMar.com and EyeBuyDirect.com. No wonder nearly 98% of EyeMed members choose to visit an in-network provider.*

The inclusion of regional and national retail-affiliated doctors on our network affords greater accessibility, longer hours of operation and faster delivery of service and materials. And unlike other managed vision care organizations, whether members select a retail or independent provider for their vision needs, they receive the same funded benefit at all in-network locations. Our vision network hits all buying preferences so members can make their selection based not only on their schedule, but also cost and fashion.

We've included a list of our major retail chains as **Exhibit K** in **Tab IV – Provider Network**.

Optical Labs

Providers can choose from a national network of labs that offer a large variety of manufacturers and products. And unlike other managed vision care organizations, we've built a large selection of full-service labs because it allows for:

- **Quick delivery of materials:** Our locations offer a local presence around the country, rather than a centralized location, which means that providers may select the lab in the closest proximity to their offices. This can result in quicker turnaround times, industry-leading service and the option to keep revenues local to you. What's more is that we allow the use of on-site labs, providing access to same-day product delivery.

- **Availability of products and technology:** The vision market now includes an expansive catalog of products, lenses and technologies. With that in mind, the diversity offered by our lab network supports the providers' ability to offer access to all product varieties so your employees and their family members may make a product selection based upon their vision and lifestyle needs, rather than availability.

- **Consistent delivery and quality:** All labs included on our network are regulated by the same entity, which means that each one is held to consistent standards of delivery and quality of care.

*EyeMed book of business, 2024

Provide a brief description of your credentialing process for contracting with new providers.

To participate on our network, all doctors must meet the credentialing and quality standards set forth in our Professional Provider Manual. These standards align with the industry standards set forth by the National Committee for Quality Assurance (NCQA).

Providers submit relevant demographic, educational and professional data which is verified for approval on our network. All providers are required to be re-credentialed at a minimum of every 36 months, or in accordance with state law.

We verify the following information for all doctors:

- Work history
- Licensure and certification
- Minimum professional liability insurance
- Criminal history
- Member complaints
- Liability and malpractice claims
- Education and training (Initial Credentialing only)
- Questionnaire that validates provider ability to practice
- Medicare and Medicaid Sanctions

List current contracts with chain stores and retail optical laboratories.

Retail Providers

Employees want to receive eye care when they want, where they want; which is why our network offers the right mix of both independent and retail provider options. While private practice doctors make up the majority of our network, we also have thousands of retail locations throughout the country. With us, your employees have access to popular national chains like LensCrafters, Pearle Vision and Target Optical, plus regional and local favorites like America's Best and Volunteer Eyecare. Members can even purchase their eyewear online at LensCrafters.com, TargetOptical.com, Ray-Ban.com, Oakley.com, Glasses.com, NuanceAudio.com, ContactsDirect.com, FramesDirect.com, CostaDelMar.com and EyeBuyDirect.com. No wonder nearly 98% of EyeMed members choose to visit an in-network provider.*

The inclusion of regional and national retail-affiliated doctors on our network affords greater accessibility, longer hours of operation and faster delivery of service and materials. And unlike other managed vision care organizations, whether members select a retail or independent provider for their vision needs, they receive the same funded benefit at all in-network locations. Our vision network hits all buying preferences so members can make their selection based not only on their schedule, but also cost and fashion.

You can find a list of our major retail chains in **Tab VII, Other Information, Exhibit K.**

Optical Labs

Providers can choose from a national network of labs that offer a large variety of manufacturers and products. And unlike other managed vision care organizations, we've built a large selection of full-service labs because it allows for:

- **Quick delivery of materials:** Our locations offer a local presence around the country, rather than a centralized location, which means that providers may select the lab in the closest proximity to their offices. This can result in quicker turnaround times, industry-leading service and the option to keep revenues local to you. What's more is that we allow the use of on-site labs, providing access to same-day product delivery.

- **Consistent delivery and quality:** All labs included on our network are regulated by the same entity, which means that each one is held to consistent standards of delivery and quality of care.

*EyeMed Book of Business, 2024

Provide a brief description of your credentialing process for contracting with new providers.

To participate on our network, all doctors must meet the credentialing and quality standards set forth in our Professional Provider Manual. These standards align with the industry standards set forth by the National Committee for Quality Assurance (NCQA).

Providers submit relevant demographic, educational and professional data which is verified for approval on our network. All providers are required to be re-credentialed at a minimum of every 36 months, or in accordance with state law.

We verify the following information for all doctors:

- Work history
- Licensure and certification
- Minimum professional liability insurance
- Criminal history
- Member complaints
- Liability and malpractice claims
- Education and training (Initial Credentialing only)
- Questionnaire that validates provider ability to practice
- Medicare and Medicaid Sanctions

Provide a brief description of your credentialing process for renewing contracts with existing providers.

All providers are required to be re-credentialed at a minimum of every 36 months, or in accordance with state law.

We utilize the services of the Council for Affordable Quality Healthcare (CAQH), which allows providers to maintain relevant demographic, educational and professional data that is required for the credentialing processes. Once a provider completes the CAQH application, Gemini, a Credentialing Verification Organization (CVO) accredited by the National Committee for Quality Assurance (NCQA), verifies the data and returns the file to us for review and approval. Here are our participation requirements:

- Submission of complete, signed application
- Satisfactory work history for prior 5 years
- Valid, unencumbered license in state(s) of practice
- Minimum liability insurance of $1 million per occurrence and $3 million aggregate
- No exclusion from Medicare/Medicaid in the last 5 years
- No criminal offense conviction that reasonably questions their ability to practice
- No more than a combined total of 3 liability and/or malpractice claims resulting in settlements within 5 years
- No reported sanctions on their licenses within the last 5 years
- Operation of all equipment in clean and working condition
- No history of chart/site evaluation failures in past 5 years
- No more than 3 member complaints within the last 3 years
- Open to new patients
- Graduation from an accredited school or college
- No history of insurance fraud
- Valid DEA or TPA certification and/or DEA or CDS certification, as indicated by state regulations Demonstrated board certification (if applicable)

List any certification requirements for your providers. List the standard required amount of malpractice coverage (individual and aggregate).

All our doctors are either Therapeutic Pharmaceutical Agent (TPA) certified (if the state license requires it) or Drug Enforcement Administration (DEA) licensed.

Specifically, we require our Optometrists to have TPA designation (unless the state considers the TPA as part of their single licensure), while Ophthalmologists must have a DEA license. Puerto Rico does not offer TPA designations. Because all of our Optometrists and Ophthalmologists are appropriately certified, they can

prescribe pharmaceuticals used in the treatment of eye disease. State laws define the specific pharmaceutical agents that Optometrists may prescribe under their TPA certification/licensure. The same goes for Ophthalmologists under the DEA license.

Malpractice Coverage

We require minimum professional liability and malpractice insurance for all states in which a provider practices:

- **Optometrists or ophthalmologists:** $1 million per occurrence and $3 million aggregate
- **Opticians:** $1 million per occurrence and $1 million aggregate

What is your provider retention rate? What is your average length of time a provider contracts with your organization?

By staying with EyeMed, Knox County Government members will continue to enjoy a strong and stable network. In 2025, we had just 1.84% voluntary turnover on our network, which experiences consistent year-over-year growth.

Among current providers, the average length of participation on our network is 9.3 years. Last year, 89% of providers indicated they were satisfied with working with EyeMed (top 3 box).* Our annual Provider Satisfaction Survey (PSAT) evaluates overall satisfaction as well as provider perceptions of key aspects of working with EyeMed.

*EyeMed Provider Satisfaction Survey conducted by Walker, 2025.

Experience & Qualifications

Experience and Qualifications

RFP NO. 3734

Description of qualifications. Include a description and history of your company, applicable product portfolio, market share, size, scope and overall capabilities/experience of your organization.

EyeMed has been 100% focused on vision care for nearly 38 years. We started as a LensCrafters discount program in 1988 and initiated LensCrafters Vision Care Management Systems in 1990. Then, in 1995, Luxottica acquired LensCrafters, and in 1999, we were formed as EyeMed Vision Care, LLC. In 2018, we became a part of the EssilorLuxottica family of companies when Luxottica merged with optical lens-maker Essilor.

As part of the EssilorLuxottica family of companies – the global leader in the design, manufacture and distribution of ophthalmic lenses, frames and sunglasses – we sit side-by-side with some of the most innovative brands in the optical industry such as Ray-Ban, Oakley, LensCrafters, Target Optical, Sunglass Hut, Varilux, Transitions and more. As of 2026, we've reached 90 million members with EyeMed benefits nationwide.

That includes 5.9% growth in funded membership this year alone.

Our financial strength is recognized through our ultimate parent company, EssilorLuxottica, the global leader in the design, manufacture and distribution of ophthalmic lenses, frames and sunglasses. EssilorLuxottica is rated A Stable by S&P Global Ratings[1] and A1 Stable by Moody's.[2]

Highlights include:

- Annual Net Sales of $32.2 billion USD[3]
- Annual Net Income of $2.8 billion USD[3]

Our expertise and flexibility support some of the most complex business structures, including many of the largest commercial, government and health plan organizations in the United States.

1 Last confirmation: October 5, 2025
2 Last confirmation: September 22, 2025
3 Average USD/Euro conversion for 2025

Describe any merger acquisition plans or other major organization changes under consideration by your company.

Not applicable. EyeMed does not have any upcoming mergers or acquisitions pending.

Please state HIPAA compliance.

We became HIPAA compliant on April 14, 2001, and we continue to maintain rigorous compliance with all HIPAA privacy regulations and applicable state privacy laws.

Our steps to ensure compliance include:

- Adherence to HIPAA required transaction sets including 834, 837, 270, etc.
- Distribution of a Notice of Privacy Practices (NPP) to all members; the NPP is also available on our website
- Mandatory company-wide training regarding HIPAA, which is required for new hires and annually thereafter

- Member website security, including password protection for member benefits information
- Administrative, physical and technical controls including limiting access to PHI to only those employees and associates who need access to perform their jobs, password controls to access our systems and key card controls to gain access to our building and to the EyeMed area

How many clients do you have in Tennessee? How many clients with 1,500 or more enrolled employees (not including dependents)? What is the total number of enrollees (not including dependents) you have in Tennessee?

Total Clients in Tennessee: 97

Total Number of Clients with 1,500 or More Enrolled Employees: In the state of Tennessee, we have 21 clients with 1,500 or more enrolled employees; across our book of business, we have 1,059 commercial-direct clients with 1,500 or more enrolled employees.

- **List recent situation of employer prior to your implementation, innovative approaches, services offered, client objectives and costs.**

  Health care costs are rising. Needs are shifting. People have more to do and less time to do it. EyeMed is changing the industry by doing more to help solve these real-world, everyday challenges – for both our clients and our members. We have grown to nearly 90 million members, and we implement thousands of new clients each year.

  With a continual focus on our network, benefits and creating an easy experience, we generate solutions that are designed to save money, save time or make life easier – sometimes all three. And you don't have to just take our word for it. Here's a sampling of positive experiences for a few of our clients that renewed with EyeMed and opted to add our Eye360 benefit for their employees:

  Client: Large building supplier – Average member out-of-pocket amounts decreased over the benefit year while incremental value of adding Eye360 with the additional frame allowance amounted to nearly $29,000.

  Client: Large well-known educational institution – Average member out-of-pocket amounts decreased over the benefit year while incremental value of adding the Eye360 benefit with the additional frame allowance amounted to more than $55,000.

  Client: Large healthcare system - Average member out-of-pocket amounts decreased over the benefit year while incremental value of adding the Eye360 benefit amounted to nearly $85,000.

Describe how your organization stands out from your competitors in the Vision Benefit Services space?

Our mission is to continue helping our members live life to the fullest. Here's how we're doing it year after year:

Eye360

At EyeMed, we listen to what our members want – driving continual improvements in plan designs and new product offerings. Eye360[1] offers enhanced benefits at qualified PLUS Providers, including additional allowances and $0 eye exams, helping remove the barriers to care while supporting overall wellness and maximizing savings. Included in our proposal for Knox County Government.

Member-centric experience
Our members are at the center of everything we do, and every business decision we make is driven by our commitment to creating a simple and transparent experience they actually love using. We've curated America's largest vision network[2] with the right mix of provider options so members can go where they want, when they want. And we support them with intuitive tools like cost estimators, a top-rated mobile app and award-winning customer service that make it easy for members to understand and use their vision benefits.

Premium benefits
EyeMed delivers a premium vision benefit that empowers members to experience vision care tailored to their preferences, lifestyle and needs. Flexible plan designs put control directly in members' hands, allowing them to choose any frame – from top designer brands and trend-forward styles to durable, performance-driven options built to last. Plus, members have access to comprehensive eye exams supported by the latest innovation and a wide selection of advanced lenses. With EyeMed, premium coverage means freedom, flexibility and value that extend well beyond the premium paid.

America's largest network of vision doctors[2]
EyeMed's network is purposely curated to offer seamless access - bringing together trusted local independent doctors, national retail brands and 10 in-network online options that make accessing care and eyewear easier than ever. In addition to offering members the most choice and flexibility, our providers consistently deliver high-quality exam experiences, bolstered by advanced technology and high service standards. Plus, we offer an unmatched selection of materials, from top designer frames to value-driven options.

EssilorLuxottica family of companies
EyeMed is proud to be a key player in a global ecosystem that offers seamless, end-to-end integration across the optical industry. Our unique position as part of the EssilorLuxottica global family of companies allows us to be future-ready, delivering innovative optical advancements in a way that's accessible and affordable to our vision care members.

1 Member access to PLUS Providers is only available in conjunction with the Eye360 product and is not available in all states.
2 EyeMed Insight network data and analysis of competitors' largest networks via competitor data, Spring 2024.

Why should Knox County contract with your organization over others?

Through our partnership over the past 13 years, Knox County Government already knows that our support goes beyond providing only vision benefits. You can continue to count on us to deliver superior performance in al aspects of our business that support your vision benefits. That includes customer care, member communications, account management support, open enrollment, claims processing and wellness and disease management support. When it comes to administering vision benefits, we make it easy.

Here's a look at the support you and your employees will continue to receive from EyeMed - all at no additional cost:

FOR YOU

Seamless Support for Your Newly Enrolled Members
- Eligibility, billing and reporting services
- Development, testing and deployment of plan changes and processes
- Production and distribution of member Welcome Packets for your newly enrolled employees
- Ongoing open enrollment and event support

Experienced and Dedicated Account Management Team

- Consultation on innovations, trends and consumer preferences
- Annual Business Review that continues to provide an overview of your plan's performance
- Training of benefits staff plus periodic meetings or teleconferences
- Coordination of internal resources for all needs and inquiries
- Contracting and renewal services

No-Cost Wellness and Disease Management Support

- Report on 250 ICD-10 diagnostic codes and CPT II reporting codes for 8 high-risk conditions
- Facilitation of high-risk exam findings to the member's primary care physician
- Integration with health plans, third-party administrators and disease management partners

FOR YOUR MEMBERS

Communication Materials

- Customized welcome packets with ID cards for newly enrolled members
- Access to educational wellness materials on EyeSiteonWellness.com
- Self-service content packs with downloadable member materials (including Welcome to EyeMed, Member Innovation, Member Wellness and Member How-To)

Award-Winning Customer Service

- Ongoing access to toll-free number for open enrollment and ongoing service
- Extended evening and weekend live-agent assistance to align with provider office hours
- Distinction of 'Certified Center of Excellence' from BenchmarkPortal 16 years running, ranking ours among
- America's highest-rated call centers*
- Mobile app for on-the-go support
- Online exam scheduling available for many locations

Network Management

- Access to the right mix of independent providers and the most-desired national and regional retail providers
- Fast, easy and seamless experience through our online providers
- Pre-negotiated fixed pricing and negotiated discounts
- Provider recruiting, credentialing and quality assurance

Claim Service

- TPA-Certified in all states where required
- Explanation of Benefits (EOBs) provided electronically for all claims

*Purdue University BenchmarkPortal independent assessment of call centers nationwide, 2009 - 2025.

Provide biography and/or resume of direct contact to be assigned to Knox County.

We support our clients every step of the way to make sure that they each get the most from their vision benefit. During our time together, you've become familiar with our Account Management team that leads all day-to-day internal deliverables with our key functional departments. Through your renewal with us, you'll enjoy a 'hassle free' benefit experience with support from the team that's already been working with you for several years. Below is an overview of your Account Management team:

Alysun Fulks – National Account Manager

- Benefit performance and consultation
- Execution of key deliverables
- Contract renewal
- Day-to-day services

Tori Fitzsimmons – Director of Account Management

- Executive-level oversight
- Escalated inquiries
- Overall benefit satisfaction

Jeremy Pereira – National Vice President, Commercial Accounts

- Executive-level support or resolution for escalated inquiries
- Development of our commercial markets, including sales, marketing, buyer relationships, account management facilitation and support of business processes
- Development of short- and long-term sales and marketing methodologies
- Represents client needs within the organization

Cassidy Bowen – Operations Service Department

- Project manager and system logic expert
- Operations partner for projects and issue resolution
- Contact for file changes and issues

Rhonda Wilson – Account Coordinator

- Eligibility questions and urgent updates
- Claims questions
- EyeManage password resets
- Copies of invoices and rosters

We've included resumes of our account management and support teams in **Tab VII – Other Information, Exhibit L.**

Please include References (Attachment B).

Confirmed. We have the privilege of working with hundreds of municipalities and public administration groups. We've provided contact information for a few of these clients and invite you to ask them about their experience with us.

Please refer to **Attachment B** included in **Tab VI – Experience and Qualifications, Item 6.2.**

Looking for your dependents' ID cards?
Scan this QR code and enter the dependent ID card access code printed near the ID cards when prompted.

Provider locations subject to change. When making your appointment, please confirm all discounts and services are offered.
Notice of Privacy Practice: Your Notice of Privacy Practice can be obtained at any time by calling the phone number listed on your ID card or by visiting https://member.eyemedvisioncare.com/member/en.

Fees charged by a Provider for services other than a covered benefit and any local, state or Federal taxes must be paid in full by the Insured Person to the Provider. Such fees, taxes or materials are not covered under the Policy. Allowances provide no remaining balance for future use within the same Benefit Frequency. Some provisions, benefits, exclusions or limitations listed herein may vary by state. No benefits will be paid for services or materials connected with or charges arising from: medical or surgical treatment, services or supplies for the treatment of the eye, eyes or supporting structures; Refraction, when not provided as part of a Comprehensive Eye Examination; services provided as a result of any Workers' Compensation law, or similar legislation, or required by any governmental agency or program whether federal, state or subdivisions thereof; orthoptic or vision training, subnormal vision aids and any associated supplemental testing; Aniseikonic lenses; any Vision Examination or any corrective Vision Materials required by a Policyholder as a condition of employment; safety eyewear; solutions, cleaning products or frame cases; non-prescription sunglasses; plano (non-prescription) lenses; plano (non-prescription) contact lenses; two pair of glasses in lieu of bifocals; electronic vision devices; services rendered after the date an Insured Person ceases to be covered under the Policy, except when Vision Materials ordered before coverage ended are delivered, and the services rendered to the Insured Person are within 31 days from the date of such order; lost or broken lenses, frames, glasses, or contact lenses that are replaced before the next Benefit Frequency when Vision Materials would next become available. Member receives a 20% discount on items not covered by the plan at In-Network locations. Discount does not apply to Provider's professional services or contact lenses. Plan discounts cannot be combined with any other discounts or promotional offers. In certain states members may be required to pay the full retail rate and not the negotiated discount rate with certain participating providers. Please see the online provider locator to determine which participating providers have agreed to the discounted rate. Discounts on vision materials may not be applicable to certain manufacturers' products. The Plan reserves the right to make changes to the products on each tier and to the member out-of-pocket costs. Fixed tier pricing is reflective of brands at the listed product level. All providers are not required to carry all brands at all levels. Services and amounts listed above are subject to change at any time. Discounts are not insured benefits.

This is a snapshot of your benefits. The Certificate of Insurance is on file with your employer.

Ready to live your best EyeMed life?

There's so much more to your vision benefits than copays and coverage. Get ready to see the good stuff for yourself.

Your network is the place to start

See who you want, when you want. You have thousands of providers to choose from – independent eye doctors, your favorite retail stores, even online options.

Keep your eyes open for extra discounts*

Members already save an average 76% off retail using their EyeMed benefits,[1] but our long list of special offers takes benefits even further.

Remember, you're never alone

We're always here to help you use your benefits like a pro. Stay in-the-know with text alerts or healthy vision resources from the experts. If it can make benefits easier for you, we do it.

*Discounts are not insurance. Available at participating providers.

[1] Based on weighted average of sample transactions: EyeMed Insight network/$10 exam copay/$10 materials copay/$150 frame or contact lens allowance. 2021 EyeMed Commercial BOB stats.

Create a member account at eyemed.com/member

Everything is right there in one spot. Check claims and benefits, see special offers, estimate costs and find an eye doctor – search for one with the hours, location and brands you want. For maximum mobility, try the EyeMed App (Google Play or App Store).

This information is available broadly and is not plan or state specific.

Look beyond 20/20

VISION BENEFITS FOR EVERY SET OF EYES

Where do you

want to start?

My eyesight needs help

With an EyeMed membership, you have the power to get exactly what you want – without settling for less.

VALUE

My eyes are just fine

Think you don't need vision care? Think again. Some health problems may show signs through your eyes – signs you don't want to miss.

WELLNESS

PLUS Providers offer an extra level of savings built right into your vision care. Look for this PLUS Provider symbol when you use our Provider Locator.

No matter why you're here, we think you'll like it

VALUE

See who you want, when you want

You have access to thousands of in-network providers–independent eye doctors, your favorite retail stores, even online options. Many of them are PLUS Providers, which offer even more perks for EyeMed members. Try the Provider Locator on eyemed.com to find your perfect provider.

Shop with freedom

Choose from any frame or brand. From image-conscious to budget-conscious, you have the freedom to find the right fit. Because life is too short to settle.

Enjoy savings that add up

As a member, you'll get additional special offers and savings on eyewear and eye care when you stay in-network. Want even more savings? Visit a PLUS Provider. The extra savings are built right into your benefits, so it's easy to watch them add up.

Get help from the vision experts

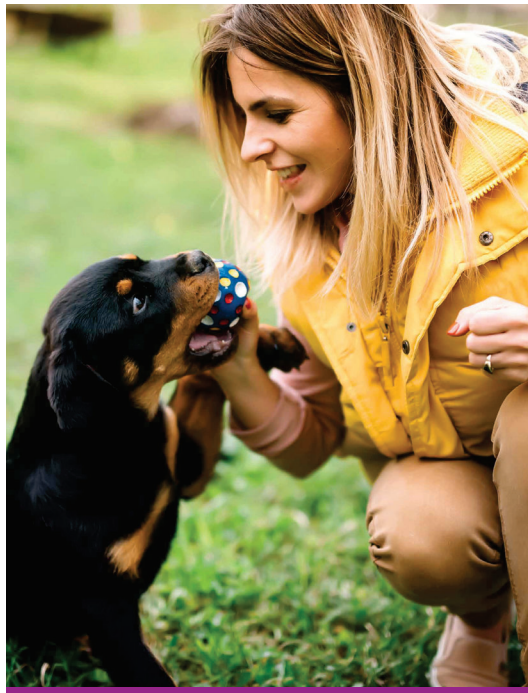
Our support tools make benefits easy to understand and easy to use. Create an account on our Member Web to view eligibility and coverage, use our cost estimator and search for in-network providers. Enroll in our e-newsletter for the latest in vision. Stay mobile with the EyeMed App and text alerts. And enjoy our award-winning wellness website (eyesiteonwellness.com).

WELLNESS

Spot health problems sooner

An eye exam can spot signs of diabetes, high blood pressure, high cholesterol and heart disease.[1] Not to mention cataracts and glaucoma. See it sooner. Treat it sooner.

Don't live with eye strain



Every day, we spend hours staring at phones, laptops and tablets. In fact, the average American spends over 7 hours looking at a screen each day.[2] All this exposure can put strain on our eyes and may be linked to blurred vision, dry eye and headaches.

Avoid vision creep

Your eyes are always changing (you probably don't even notice it). Our network doctors can track even the slightest changes with the latest in digital exam technology and retinal imaging. Designed for your comfort. Fine-tuned for precision.

Soak up the sun–safely

UV rays can cause cataracts, macular degeneration, vision loss and eye sunburn. Even in winter. Sunglasses can easily block 99% of these rays.[3] Thankfully, EyeMed benefits include discounts on non-prescription sunglasses.

Time for a little Q&A

A LOOK AT THE BENEFITS

What exactly do my EyeMed benefits cover?

If you're thinking about EyeMed, you'll want to connect with your employer to learn about the benefit options. Already a member? The easiest way to find your benefit information is to create a member account at eyemed.com/member or grab the EyeMed App (App Store or Google Play).

Does EyeMed offer any extra discounts?

We sure do. At participating in-network providers, members get 40% off an extra pair of eyeglasses or 20% off a partial pair (lenses only or frames only).* You also get 20% off non-prescription sunglasses and accessories, and discounts on LASIK laser vision correction. Call 1.800.988.4221 to find a LASIK location near you.

Can I use EyeMed benefits online?

Instantly apply your in-network benefits at checkout, with free shipping, free returns and no paperwork at these participating providers: lenscrafters.com, targetoptical.com, ray-ban.com, glasses.com, contactsdirect.com and oakley.com.

Can I get the same kind of care with a retail provider as I can with an independent doctor?

Many optometrists share space with a retail optical store, but operate a separate practice. All of them, wherever they practice, must meet the same state licensing and credentialing requirements. One advantage of using a vision carrier, like EyeMed, is that credentials of every in-network eye doctor are thoroughly examined and verified, so you can feel confident you're getting access to qualified eye doctors.

MEMBER HOW-TO TIPS

How do I use my benefits?

At EyeMed, we're all about easy. Just choose an in-network eye doctor from our Provider Locator, schedule your visit and go in for care or eyewear. You don't even need your ID card – just give them your name and birthday. When you stay in-network, we'll handle all the paperwork.

How do I find an eye doctor in my network?

The Provider Locator on Member Web and the EyeMed App has thousands of in-network eye doctors to choose from. Filter your search to find ones near you with the brands, hours and services you want.

How do I get on-the-go access?

The EyeMed App can do almost everything that Member Web can. Find an eye doctor, set an appointment, review your benefits, check claims, find special offers, estimate costs, show your ID card—even store your vision prescriptions and set exam reminders. Download it through the App Store or Google Play.

How do I submit a claim?

When you see one of our in-network eye doctors, you won't have to; we take care of all the paperwork. By the way, you'll save money by staying in-network, too. If you need an out-of-network claim form, simply log into your Member Web account and go to the "Claims" tab.

How do I get an ID card replacement or extra cards?

If you lose your card or need extras for your family, log into your account at eyemed.com/member to print a replacement, or log into your account on the app to access your ID card digitally. Here's a tip: you don't even need the card when you visit your eye doctor.

VISION AND YOUR HEALTH

I don't wear glasses and can see fine. Do I still need an eye exam?

Getting an eye exam isn't just about needing glasses. It's also about your health. An eye exam can detect eye health problems like glaucoma or cataracts, but it can also help identify early signs of serious diseases, like high blood pressure, diabetes and high cholesterol—just to name a few.[1]

How often should I get an eye exam?

Vision changes can happen slowly—you may not even notice it. Annual eye exams are a good rule of thumb unless your doctor suggests more frequent checks; we suggest making it part of your regular preventive care routine.

At what age should my child first visit the eye doctor?

The American Academy of Opthalmology recommends having a newborn's eyes checked for basic indicators of eye health and a second screening between 6 and 12 months for healthy eye alignment and movement. They also recommend an exam between the ages of 3 and 5, and every year after that.[2]

My child gets a vision screening at school, so there's no need for an eye exam, right?

A vision screening does not take the place of a comprehensive eye exam. School screenings generally check for color blindness and your child's ability to see far away. A comprehensive exam will evaluate the entire structure of the eye.

If you are not satisfied with this benefit determination, you are entitled to a review (appeal). To request a review, you or your authorized representative should submit your request in writing to:

FTOSOtAHndrCLAx PlO
Attn: Quality Assurance
4000 Luxottica Place
Mason, OH 45040
Fax: 1-513-492-3259

Your request for a review must be submitted within 180 days of the date of this Explanation of Benefits. With your request, you may also submit written comments, documents, records, and other information that you wish to have considered as part of the review.

If an internal rule, guideline, or protocol was relied upon in making the benefit determination, it will be provided free of charge upon request by you or your authorized representative. The documents relevant to your claim will be provided free of charge upon request by you or your authorized representative.

You will be notified of the final decision upon review in a timely fashion, but no later than 60 calendar days if your plan is governed by E: ISA. If you do not agree with the final decision on review and your plan is governed by E: ISA, you may have the right to bring legal action under section 502(a) of E: ISA.

You and your plan may have other alternative dispute resolution options, such as mediation. One way to find out what may be available is to contact your local U.S. Department of Labor office and your state insurance regulatory agency.

NOTICE OF NON-DISCRIMINATION AND ACCESSIBILITY REQUIREMENTS

Your plan complies with applicable Federal civil rights laws and does not discriminate on the basis of race, ethnicity, religion, national origin, gender/gender identity, age, mental or physical disability, limited English proficiency or genetic information. Your plan does not exclude people or treat them differently because of race, ethnicity, religion, national origin, gender/gender identity, age, mental or physical disability, limited English proficiency or genetic information.

For people with disabilities, we offer free aids and services, such as sign language interpreters, Braille, large print, audio, and accessible electronic formats. If you request information in an accessible format, you won't be disadvantaged by any additional time necessary to provide it. This means you will get extra time to take any action if there's a delay in fulfilling your request. For people whose primary language is not English, we offer language assistance services through interpreters and other written languages.

If you believe that your plan has failed to provide these services or discriminated on the basis of race, color, national origin, age, disability, or sex, you can file a compliant, also known as a grievance, by emailing eyemedQA@eyemed.com or calling 1-866-939-3633.

You can also file a civil rights complaint with the U.S. Department of Health and Human Services, Office for Civil Rights, electronically through the Office for Civil Rights Complaint Portal, available at: https://ocrportal.hhs.gov/ocr/portal/lobby.jsf

Or by mail or phone at:
U.S. Department of Health and Human
Services 200 Independence Avenue, SW
Room 509F, HHH Building
Washington, D.C. 20201
1-800-368-1019, 800-537-7697 (TDD)

Complaint forms are available at http://www.hhs.gov/ocr/office/file/index.html.

Report Name	Field & Definition
General	*Claims must include a funded exam, frame, lens or contact to be included within these reports. *Fit & Follow Up must be attached to a claim with a funded exam or contact to be included within these reports. CY - Current year reporting period. PY - Prior year reporting period.
Summary	BOB - EyeMed Book of Business. Exam Utilization - Number of exam claims divided by average member count. Material Utilization - Number of material claims divided by average member count. Exam Share - Percentage of exam claims by location type. Material Share - Percentage of material claims by location type.
Utilization	Members Using Benefit - Number of members with claim activity. Number of Exams - Number of exams billed from claims. Exam Claim Dollars - Claim dollars billed for the exams as reported on claims received. Number of Materials - Sum of eyewear and contacts billed from claims. Material Claim Dollars - Claim dollars billed for eyewear, contacts and fit & follow up as reported on claims received.
Benefit Utilization	Retail Dollars - Original cost (before discounts) of services as reported on the claims received. Net to Provider - Claim dollars billed for service and/or material type as reported on the claims received plus member out of pocket dollars. Client Savings Dollars - Retail dollars less net to provider dollars. Avg Retail Dollars - Retail dollars divided by count. Client Savings % - Client savings divided by retail dollars.
Member Experience	*Data includes Out-of-Network transactions. Member Responsibility - Dollars spent by members (member out of pocket). Member Savings - Retail dollars less member responsibility. Member Discount % - Member savings divided by retail dollars.

Retail Chains

What we love most about our retail providers is that most offer evening and weekend hours for extended service for members. People are busy – we get it. That's why we provide vision benefits that are easy to use, flexible and convenient. We have the right mix of independent providers, plus the most desired national and regional retail providers, ensuring your employees have the choice and convenience they expect.

INDEPENDENT PROVIDER NETWORK + LENSCRAFTERS PEARLE VISION TARGET OPTICAL

Want more? Check out the participating INSIGHT network retailers* below:

Acuity	For Eyes Optical	Oliver Peoples
America's Best	Gulf Coast Optometry	Pearle Vision
Clarkson Eyecare	Henry Ford Optimeyes	Ray Ban
Cohen's Fashion Optical	Herslof Opticians	SEE, Inc.
Crown Optical	LensCrafters	Shopko Optical

ENHANCED BENEFIT OPTION

Members get more, save more and are more satisfied with Eye360 [1,2,3]

Our members are at the center of everything we do. So, when they told us they wanted extra savings on exams, glasses and contacts, we saw an opportunity to redefine value and convenience with Eye360.

HOW IT WORKS

With Eye360, members receive the following enhancements – on top of their base vision insurance benefit:

Eye360 includes:

- $0 copay eye exam
- $50 added to the frame allowance[4]
- $50 added to the contact lens allowance[4]

MORE VALUE, MORE SAVINGS AT PLUS PROVIDERS

Eye360 adds up to eye-opening savings – up to 90% versus retail on an eye exam and glasses or an eye exam and contacts.[2]

All of these extras are available when members visit a PLUS Provider – a select group of over 6,500 providers in the EyeMed network.

Best of all, we keep saving simple with no paperwork or promo codes – it's built right into the plan.

Find nearby PLUS Providers on our Provider Locator. Just look for the PLUS.

PLUS PROVIDER

With Eye360, unmatched savings and value are in sight – contact your EyeMed rep or visit eyemed.com

[1] Member access to PLUS Providers is only available in conjunction with the Eye360 product and is not available in all states. Eye360 benefits not available in the State of Texas. [2] Based on EyeMed Book of Business 2024 average member out-of-pocket cost. [3] Eye360-PLUS Provider Survey-Wave2, conducted by The Web Opinion, April 2022. [4] Additional $50 allowance can be applied once to either frame or contact lenses.

Fully insured clients are underwritten by: Fidelity Security Life Insurance Company®, Kansas City, MO 64111 and Fidelity Security Life Insurance Company® of New York.

Subcontractors utilized across our book of business

The following list represents the subcontractors that assist EyeMed in support of our services to you.[1] Our agreements with these subcontractors require them to treat all confidential information, Personally Identifiable Information (PII) and Protected Health Information (PHI) confidentially and protect such information in accordance with applicable privacy laws and regulations.

We remain responsible for the acts of these subcontractors to the same extent as if we provided these services ourselves. These subcontractors are required to maintain appropriate levels of insurance. Prior to performing services, these subcontractors complete an assessment regarding their respective information security, privacy, business continuity, compliance, and policies and procedures.

Sample Contract and Business Associate Agreement

Sample Contract and Business Associate Agreement

RFP NO. 3734

We've had the privilege of working with Knox County for over 10 years. We are confident in our ability to continue providing seamless administration of your vision benefit and are prepared to immediately execute a Contract and Business Associate Agreement.

While minor, we have noted a few clarifications and exceptions to the RFP requirements outlined in our response to **Tab X Exceptions.**

Tab X
Exceptions

Exceptions

RFP NO. 3734

We support you every step of the way to make sure you and your employees get the most from your vision plan. While we have a few deviations, they are minimal and in no way impact our ability to administer your benefits.

Specification	EyeMed Response
Section II – Obligations Rights and Remedies Paragraph 2.3 – Assignment (Page 3 of RFP)	ASSIGNMENT: Vendor shall not assign or sub-contract this agreement, its obligations or rights hereunder to any party, company, partnership, incorporation or person without the prior written specific consent of Knox County. Knox County hereby approves EyeMed's book of business subcontractors as listed in **Exhibit N.**
Section II – Obligations, Rights and Remedies Paragraph 2.4 - Books and Records (Page 4 of RFP)	BOOKS AND RECORDS: Vendor shall maintain all books, documents, accounting records and other evidence pertaining to the goods and services provided under this Contract. As permitted by HIPAA and applicable state privacy laws, Contractor shall ~~and~~ make such materials available at its offices at all reasonable times during the Contract period and for five (5) years from the date of the final payment under this agreement for inspection by County or by any other governmental entity or agency participating in the funding of this agreement, or any authorized agents thereof; copies of said records to be furnished if requested. Such records shall not include those books, documents and accounting records that represent the Vendor's costs of manufacturing, acquiring or delivering the products and services governed by this agreement.
Section II – Obligations, Rights and Remedies Paragraph 2.11 - Indemnification-Hold Harmless (Page 4 of RFP)	**INDEMNIFICATION–HOLD HARMLESS:** Vendor shall indemnify, defend, save and hold harmless Knox County, its officers, agents and employees from all third-party suits, claims, actions or damages of any nature brought because of, arising out of, or due to material breach of the agreement by Vendor, its subcontractors, suppliers, agents, or employees or

	due to any negligent act or occurrence or any omission or commission of Vendor, its subcontractors, suppliers, agents or employees. It is agreed and understood that optometrists and other vision professionals are not the subcontractors, agents or employees of Contractor.
Section II – Obligations, Rights and Remedies Paragraph 2.23 - Termination (Page 5 of RFP)	**TERMINATION:** County may terminate this agreement with or without cause at any time. In the event of termination by either party, fees due for services satisfactorily performed or goods accepted prior to the termination date shall be paid. In the event Contractor intends to interrupt or discontinue service without cause under this Contract, Contractor agrees to give Knox County at least one hundred twenty (120) business days' advance written notice of said interruption or discontinuance of service prior to interrupting or discontinuing same. Any interruption or discontinuance of service without said advance notice shall constitute a material breach of this Contract.
Section III – Special Terms and Conditions Paragraph 3.18 - Insurance (Page 8 of RFP)	Upon request, we will provide the COI and add the Knox County additional insured in GL, AUTO. We will not provide full policies pages.
Section III – Special Terms and Conditions Paragraph 3.19 – Invoicing Procedures (Page 8 of RFP)	We use a standard invoicing template that does not allow customization.
Section III – Special Terms and Conditions Paragraph 3.20 – Invoice Review (Page 8 of RFP)	Variances in membership due to timing or other issues, which will impact billings, will be picked up in retro adjustments on a future invoice, looking back 90 days.
Section III – Special Terms and Conditions Paragraph 3.31 - Public Records Act (Page 9 of RFP)	**Request for Clarification:** Please confirm that proprietary and confidential information submitted in response to this RFP may be designated as exempt from disclosure under the Tennessee Open Records Act, and that EyeMed will receive advance written notice prior to any such disclosure.
Exhibit A – Sample Contract Paragraph 4 – Termination (Page 20 of RFP)	**Termination.** The County may terminate this Contract with or without cause, upon written notice of not less than thirty (30) days. Upon termination, the County will pay for services satisfactorily completed but not yet invoiced. Contractor shall not perform additional work without the expressed permission of the County.

	Should the Contractor fail to provide Employee Vision Benefit Services detailed herein, the County will communicate the problem(s) to the Contractor both verbally and in writing and keep a written record as to what the problem(s) are and when the Contractor was notified in writing ~~contacted~~. The Contractor shall rectify the problem within thirty (30) business days of notification of the problem. If the same or other problems persist or reoccur, the County may terminate the Contract. In the event Contractor intends to interrupt or discontinue service under this Contract, Contractor agrees to give the County at least one hundred twenty (120) business days' advance written notice of said interruption or discontinuance of service prior to interrupting or discontinuing same. Any interruption or discontinuance of service without cause without said advance notice shall constitute a material breach of this Contract.
Exhibit A – Sample Contract Paragraph 11 – Right to Inspect (Page 21 of RFP)	**Right to inspect.** As permitted by HIPAA and applicable state privacy laws, and upon a minimum of sixty (60) days advance written notice, the County reserves the right to make periodic inspections of the manner and means the services are performed.
Exhibit A – Sample Contract Paragraph 13 – Books and records (Page 21 of RFP)	**Books and records.** Contractor shall maintain all books, documents, accounting records and other evidence pertaining to the service under this Contract. As permitted by HIPAA and applicbale state privacy laws, Contractor shall ~~and~~ make such materials available at their offices upon a minimum of sixty (60) days advance written notice ~~at all reasonable times~~ during the contract period and for five (5) years from the date of the final payment under the Contract for inspection by the County or by any other governmental entity or agency participating in the funding of this Contract, or any authorized agents thereof; copies of said records to be furnished if requested. Such records shall not include those books, documents and accounting records that represent the Contractor's costs of manufacturing, acquiring or delivering the products and services governed by this Contract.
Exhibit A – Sample Contract Paragraph 14 – Indemnification (Page 21 of RFP)	Contractor shall indemnify, defend, save and hold harmless, County, its officers, agents and employees from all third-party suits, claims, actions or damages

	of any nature brought because of, arising out of, or due to material breach of the Contract by Contractor, its subcontractors, agents or employees or due to any negligent act, occurrence, omission, commission of Contractor, its subcontractors, agents, or employees. It is agreed and understood that optometrists and other vision professionals are not the subcontractors, agents, or employees of Contractor.
Exhibit B – Business Associate Agreement Paragraph A (Page 23 of RFP)	**EyeMed Comment:** Knox County to complete.
Exhibit B – Business Associate Agreement Paragraph 1.26 – Security Incident (Page 25 of RFP)	**Security Incident** – shall mean the attempted or successful unauthorized access, use, disclosure, modification, or destruction of Covered Entity's information created, received, maintained or transmitted by BA pursuant to this Agreement or interference with system operations in an information system as provided in 45 CFR 146.304.
Exhibit B – Business Associate Agreement Paragraph 4.4 – Access to Designated Record Sets (Page 27 of RFP)	**Access to Designated Record Sets.** To the extent that BA possesses or maintains PHI in a Designated Record Set, BA agrees to provide access, at the request of CE, and in the time and manner designated by the CE, to PHI in a Designated Record Set, to Covered Entity or, as directed by CE, to an Individual in order to meet the requirements under HIPAA Regulations. If an Individual makes a request for access to PHI directly to BA, BA shall notify CE of the request within five (5) ~~three (3)~~ business days of such request and will cooperate with CE and allow CE to send the response to the Individual.
Exhibit B – Business Associate Agreement Paragraph 4.5 – Amendment of Designated Record Sets (Page 27 of RFP)	**Amendment of Designated Record Sets.** To the extent that BA possesses or maintains PHI in a Designated Record Set, BA agrees to make any amendment(s) to PHI in a Designated Record Set that the CE directs or agrees to pursuant to HIPAA Regulations at the request of CE or an Individual, and in the time and manner designated by the CE. If an Individual makes a request for an amendment to PHI directly to BA, BA shall notify CE of the request within five (5) ~~three (3)~~ business days of such request and will cooperate with CE and allow CE to send the response to the Individual.
Exhibit B – Business Associate Agreement Paragraph 4.6 - Disclosure Accounting (Pages 27-28 of RFP)	**Disclosure Accounting.** BA agrees to document disclosures of Protected Health Information and information related to such disclosures as is

	necessary to enable Covered Entity to respond to a request by a Covered Individual for an accounting of disclosures of PHI in accordance with HIPAA Regulations and the HITECH Act. BA agrees to provide to CE or an Individual, in the time and manner designated by the CE, information to permit CE to respond to a request by an Individual for an accounting of disclosures of PHI in accordance with HIPAA Regulations and the HITECH Act. If an Individual makes a request for an accounting directly to BA, BA shall notify CE of the request within five (5) ~~three (3)~~ business days of such request and will cooperate with CE and allow CE to send the response to the Individual. At a minimum, Business Associate shall provide Covered Entity with the following information: (i) the date of the disclosure; (ii) the name of the entity or person who received the Protected Health Information, and if known, the address of such entity or person; (iii) a brief description of the Protected Health Information disclosed; and, (iv) a brief statement of the purpose of such disclosure which includes an explanation of the basis for such disclosure. BA hereby agrees to implement an appropriate record keeping process to enable it to comply with the requirements of this section and applicable law. It shall be CE's responsibility to promptly notify BA of the request for an accounting, and to prepare and deliver any such accounting requested. ~~In addition to the forgoing, BA shall track other disclosures and/or make available to CE such information as is necessary for Covered Entity to comply with any additional accounting requirements.~~
Exhibit B – Business Associate Agreement Paragraph 4.7 – Access to Business Associate's Internal Records (Page 28 of RFP)	**Access to Business Associate's Internal Records.** BA shall make its internal practices, books, and records relating to the use and disclosure of Protected Health Information received from, or created or received by Business Associate on behalf of, CE available to ~~CE or~~ the Secretary, for the purposes of the Secretary's determining compliance with HIPAA for Covered Entity and/or BA.
Exhibit B – Business Associate Agreement Paragraph 8.2 – Termination (Page 30 of RFP)	**Termination.** Upon CE's knowledge of a material breach by BA of the terms of this Agreement, CE shall either: 8.2.1 Provide an opportunity for BA to cure the Breach or end the violation. If BA does not cure the breach or end the violation within the time specified by CE, CE shall terminate this Agreement.

	~~8.2.2 Breach or end the violation. If BA does not cure the breach or end the violation within the time specified by CE, CE shall terminate this Agreement;~~ 8.2.3 If BA has breached a material term of this Agreement and cure is not possible, immediately terminate this Agreement; or 8.2.4 If neither termination nor cure is feasible, CE shall report the violation to the Secretary.
Exhibit B – Business Associate Agreement Paragraph 9.5 – Indemnity (Page 31 of RFP)	**Indemnity.** The BA agrees to indemnify, hold harmless, and defend the CE and its officers, directors, employees or agents from any third-party claim, cause of action, liabilities, damages, penalties, fines, costs, expenses or other losses (including reasonable attorney's fees) arising out of any use or disclosure of PHI by BA or its agents or subcontractors in breach of this Agreement of in violation of State or Federal Law, including without limitation, HIPAA, the HITECH Act, the Privacy Rule, or the Security Rule.

SECOND AMENDMENT TO THE ADMINISTRATIVE SERVICES AGREEMENT between BLUECROSS BLUESHIELD OF TENNESSEE, INC. and KNOX COUNTY, TENNESSEE

BlueCross BlueShield of Tennessee, Inc. ("BlueCross"), and Knox County, Tennessee ("Employer") (individually, a "Party" and collectively the "Parties") have previously entered into an Administrative Services Agreement, effective as of January 1, 2024 (the "Agreement"). This is the Second Amendment to that Agreement, effective as of January 1, 2026, unless otherwise specified (the "Second Amendment Effective Date").

For valuable consideration, the receipt of which is duly acknowledged the parties agree as follows:

1. **Article II – CONFIDENTIALITY**, Section 2.2.2 of the Agreement is here by amended to read as follows:

   "2.2.2. Employer's Release or Disclosure of Confidential Information. Employer shall use BlueCross Confidential Information solely for the purpose of administering Employer's Plan under this Agreement and in accordance with applicable law. Employer shall not disclose BlueCross's Confidential Information to a third party, including an Employer Service Vendor, unless the parties enter into an executed information sharing agreement with the third party pursuant to this Section 2.2.2. BlueCross may disclose Confidential Information of Employer to an Employer Service Vendor for Plan administration as directed by Employer, provided, however that (A) BlueCross, Employer and such Employer Service Vendor first must enter into an information sharing agreement approved by BlueCross authorizing BlueCross to disclose Confidential Information to such Employer Service Vendor, (B) any such disclosure shall be subject to the requirements of applicable laws and regulations and their implementing guidance, the policies and procedures of the Association, this Agreement, and such fully-executed information sharing agreement, and (C) the Parties acknowledge and agree that, notwithstanding the foregoing, BlueCross is under no obligation to release BlueCross Confidential Information at any time. Any information sharing agreement adopted pursuant to this section shall include:"

2. **Article V – LIABILITY AND INDEMNIFICATION**, Section 5.1.1 of the Agreement is amended to read as follows:

   "5.1.1. BlueCross neither insures nor underwrites any of Employer's obligations or liabilities under the Plan and shall have no obligations to Employer related thereto. BlueCross is responsible solely for its acts and for the acts of its subcontractors and employees acting within the scope of their duties under this Agreement. BlueCross is not responsible for any acts or omissions of Employer or its agents or any third parties, including Employer Service Vendors, associated with or contracted by Employer."

3. **Article V – LIABILITY AND INDEMNIFICATION**, Section 5.4.1 of the Agreement is amended to read as follows:

"5.4.1. Legal Actions Brought Against BlueCross. If a third party claim is asserted against BlueCross (but not Employer) that is based upon actions taken under this Agreement or the Plan, and litigation ("Action") is commenced against BlueCross:"

4. **Article V – LIABILITY AND INDEMNIFICATION**, Section 5.4.2 of the Agreement is amended to read as follows:

   "5.4.2. Legal Actions Brought Against Employer. If an Action is brought against Employer (and not BlueCross):"

5. **Article VI – MISCELLANEOUS PROVISIONS**, Section 6.10.2 of the Agreement is here by amended such that the first sentence is modified by replacing "participants" with "Members".

6. **Article VII – DEFINITIONS,** Section 7.10 of the Agreement is amended to read as follows:

   "7.10. "Effective Date" means January 1, 2026."

7. Exhibit B, Section 1., of the Agreement is amended and replaced with the following:

1.1 Medical ASF

Rates effective as of:	January 1, 2026[1]	January 1, 2027	January 1, 2028
Medical ASF	$35.59 per Subscriber per month	$36.66 per Subscriber per month	$37.76 per Subscriber per month
Medical Main ASF	**$35.59 per Subscriber per month**	**$36.66 per Subscriber per month**	**$37.76 per Subscriber per month**
Rx Integration Fee	$2.75 per Subscriber per month	$2.75 per Subscriber per month	$2.75 per Subscriber per month
Specialty UM Fee	$0.58 per Subscriber per month	$0.60 per Subscriber per month	$0.62 per Subscriber per month
Medical Guaranteed ASF	**$38.92 per Subscriber per month**	**$40.01 per Subscriber per month**	**$41.13 per Subscriber per month**
Medical Total ASF	**$38.92 per Subscriber per month**	**$40.01 per Subscriber per month**	**$41.13 per Subscriber per month**

[1]BlueCross provided a 1-month Fee Holiday of the Total Administrative Services Fee, excluding Broker Commissions, for January 2024. Additional fees such as HRA administration, HSA administration, and Stop Loss Interface Fees were not included in the Fee Holiday. If medical is terminated prior to the end of the multi-year fee guarantee, the Fee Holiday must be repaid.

1.1.1. BlueCross may adjust the above fees at any time, under the following circumstances:

1.1.1.1. Changes in the Plan, BlueCross's duties, legislation, regulation or required assessment or tax that changes BlueCross' cost in administering the plan;

1.1.1.2. Termination or addition of a subsidiary, operation or class of employees covered under the Agreement;

1.1.1.3. Fluctuation of the number of Subscribers by more than 10% percent by location, state and/or in aggregate. Calculation of the Medical Total ASF was based on 2,237 Subscribers;

1.1.1.4. Fluctuation of the Member to Subscriber ratio by +/- 0.05. The Medical Total ASF was based on a Member to Subscriber ratio of 2.04; or

1.1.1.5. Federal, state or local government action, change in law or regulation (or interpretation of a law or regulation) which impacts the benefit levels or affects BlueCross' ability to meet its obligations under this Agreement

to Employer, to Employer's Covered Members or to BlueCross' Network Providers, including but not limited to, legislation, regulation(s) or government action(s) which impose requirements that affect: (i) BlueCross' ability to determine or administer Covered Services; (ii) provider's delivery of care or the fees providers charge; or (iii) BlueCross' contracts with Network Providers. Upon the occurrence of an event described in this Section 1.1.1.5., the Parties will make a good faith effort to reach a new agreement that equitably reflects the circumstances as altered by such law, regulation or government action.

1.2. Knox County Allowance

Allowance	January 1, 2026	January 1, 2027	January 1, 2028
Allowance	$50,000	$50,000	$50,000
The Knox County allowance can be used to offset the cost of requested items such as an implementation audit, custom reporting, and communication initiatives. The allowance may also be used for additional items at the County's discretion; provided, however, that all such items relate to the administration of the healthcare plan for services provided by BlueCross or relate to a wellness activity. Additionally, the Knox County allowance will not be used to reimburse Employer for a consultant fee or any product that was bid on by BlueCross or that can be offered by BlueCross. The allowance will also be available as a reimbursement to the County in the form of an invoice credit. All requests for reimbursement shall be made by the March 1st following the end of the benefit period in which the expense was incurred. Funds from the Knox County allowance will be paid to Employer through a credit to Employer's monthly invoice. Any remaining allowance is forfeited after the end of each benefit period and no balance carries forward.			

1.3. Stop Loss Interface Fee

Rates effective as of:	January 1, 2026 – June 30, 2026
Stop Loss Interface Fee	$1.20 per contract per month

8. Exhibit B, Section 5 of the Agreement is hereby amended by adding the following sections:

"5.12. Shared Savings Fees pursuant to Exhibit W.

5.13. Audit Support for third-party reviews and audits that fall outside the scope of Exhibit S."

9. Exhibit B, Section 6 of the Agreement is hereby amended to read as follows:

"6. Security Interest. To secure the payment of any amounts due to BlueCross under this Agreement, Employer hereby grants to BlueCross a first priority security interest in and assigns to BlueCross Employer's right, title and interest in Employer's debiting account and the proceeds thereof to the fullest extent permitted under the law. In the event of a default by Employer of any of its obligations to BlueCross, including the prompt payment when due of any invoice sent to it by BlueCross, BlueCross shall have the immediate right, upon written notice to Employer, to offset the proceeds of the debiting account against the amount of any unpaid invoice or other obligation owed to BlueCross."

10. Exhibit C, Section 10 of the Agreement is here by amended to read as follows:

"10. **Effective January 1, 2026 – June 30, 2026:**

Duties with regard to non-BlueRe of Tennessee Stop Loss Carrier. For a separate Interface fee, BlueCross will perform the following services and provide the following information to Employer, or to a third party stop loss carrier and/or Employer Service Vendor, provided that Employer, BlueCross and such third party enter into an executed information sharing agreement pursuant to Section 2.2.2:

10.1. Provide monthly Claimants at 50% of Specific Attachment Point Reports.

10.2. BlueCross does not coordinate the payment of the stop loss premium between the stop loss vendor and Employer.

10.3. Provide stop loss carrier the following information at renewal to prepare a renewal of Employer's stop loss coverage. Information to be provided is as follows:

Census	
Age/ Gender	Subscriber Count by age/gender
Zip Codes	Subscriber Count by LOB, State, Zip
Plan Design Summary For Document Trigger Reports	Enrollment Snapshot
50% of Specific Report	50% Report (Includes Diagnosis Only)
Medical & Rx	

10.4. Regardless of whether a claim has met the stop loss dollar limit set out in the agreement between stop loss carrier and Employer, Employer is still responsible for funding all claims processed by BlueCross.

10.5. At the termination of this Agreement, BlueCross has no further obligation to provide any reports referenced in this section to Employer, stop loss carrier, or any other third party, other than standard reports for the time period the Agreement was in force, provided that Employer, BlueCross and such third party vendor enter into an executed information sharing agreement pursuant to Section 2.2.2."

11. Exhibit G, Section 1.1.2., of the Agreement is amended to read as follows:

"1.1.2. Claims Pricing.

Host Blues determine a negotiated price, which is reflected in the terms of each Host Blue's provider contracts. The following are examples of the negotiated price made available to BlueCross by the Host Blue, but not an exhaustive list of negotiated prices:"

12. Exhibit G, Section 1.1.2.3, first sentence of the second paragraph of the Agreement is amended to read as follows:

"The Host Blue determines whether it will use an actual, estimated or average price consistent with its provider contracts."

13. Exhibit G, Section 1.1.2.3, last paragraph of the Agreement is amended to read as follows:

"Variance account balances are small amounts relative to the overall paid claims amounts and will be liquidated over time. The timeframe for their liquidation depends on variables, including, but not limited to, overall volume/number of claims processed and variance account balance. Employer has no ownership interest in any variance account. Variance accounts are notional bookkeeping accounts maintained by the Host Blue and no amounts are segregated or held for the benefit of the Employer."

14. Exhibit G, Section 1.2.2, of the Agreement is hereby amended by removing the following language:

"Variance account balances are small amounts relative to the overall paid claims amounts and will be liquidated over time. The timeframe for their liquidation depends on variables, including, but not limited to, overall volume/number of claims processed and variance account balance. Variance account balances may earn interest, and interest is earned at the federal funds or similar rate. Host Blues may retain interest earned on funds held in variance accounts."

15. Exhibit W of the Agreement is amended by adding the following new section 5.:

"5. Enhanced Payment Integrity Services. BlueCross, or its delegate, may conduct pre-payment and post payment enhanced payment integrity reviews. BlueCross, or its delegate, will determine whether and in what manner to conduct such activities, and notwithstanding any provision of this Agreement to the contrary, Employer authorizes BlueCross to conduct such activities. When the enhanced pre-payment or post payment integrity review identifies an overpayment or prevents an overpayment from occurring, BlueCross will retain 39% of any such recoveries or prevention savings. Savings are determined at the time of the initial audit finding."

16. Exhibit J of the Agreement is amended by substituting the attached (Attachment 1) for Exhibit J.

17. Exhibit O of the Agreement is amended by substituting the attached (Attachment 2) for Exhibit O.

All terms and conditions set forth in the Administrative Services Agreement and all prior Exhibits thereto shall remain in full force and effect and are hereby ratified, except and to the extent that such terms and conditions are superseded or modified by the provisions of this Amendment, in which case this Amendment will prevail. In accepting this Amendment, Employer acknowledges its acceptance of said Agreement to which this Amendment is annexed and made a part.

The parties have caused this Amendment to be executed by their duly authorized representatives, effective as of January 1, 2026, unless otherwise specified.

Acceptance by Payment of Fees. BlueCross expects that Employer will demonstrate its acceptance of the terms of this Amendment by signing below. In the event that Employer has not signed this Amendment by the Effective Date, this Agreement will be considered

accepted by and binding upon both parties if and when Employer makes a payment to BlueCross in order to receive the services described in this Amendment.

Other Acceptable Forms of this Document. The following shall have the same legal effect as an original: facsimile copy, imaged copy, scanned copy, and/or an electronic version.

Counterparts. This Agreement may be executed in any number of counterparts, each of which shall be deemed an original and such counterparts shall constitute one and the same instrument.

Authorization. The undersigned persons hereby warrant that they are duly authorized to bind each of their represented parties to the terms of this Agreement.

EXHIBIT J

PERFORMANCE GUARANTEES

The Medical Performance Guarantees ("Medical PGs") listed in the chart below are effective for the period from January 1, 2026 – December 31, 2028 ("Medical PG Effective Period"). Medical PGs do not extend beyond this period.

Employer must maintain a minimum of 1,000 Medical Subscribers in the Plan each month throughout the Medical PG Effective Period. If this requirement is not met for any month during the Medical PG Effective Period, Medical PGs will be null and void, and no Penalty will be assessed or paid by BlueCross. BlueCross may re-evaluate and/or change Medical PGs if the number of Medical Subscribers fluctuates +/- 10% by location, State and/or in aggregate from 2,326.

Medical PGs will also be null and void if: (1) BlueCross suspends claims payment; (2) Employer is in breach of the Agreement; or (3) either Party experiences an inability to perform due to a Natural or Man-Made Disaster.

Medical PGs will not be negotiated or changed beyond 3 months from the start of the Medical PG Effective Period. The Agreement must be signed by Employer before any Penalty will be assessed or paid by BlueCross.

A Penalty will only apply when the calculation for the performance level of each Medical PG, as measured over each Measurement Period, falls below the Measurement Goal, when using the appropriate Method of Measurement. All measures expressed as a percentage will be rounded to the nearest whole number. All penalty calculations will apply to the Medical Main ASF actually collected during the Measurement Period of the Medical PGs listed in the chart below.

If BlueCross announces a business closure, delayed opening or early closure at a location due to a Natural or Man-Made Disaster Event or if an event described in Section 3.10 of Exhibit C occurs, the performance related to that day or event will be excluded from Medical PG reporting. For purposes of this Exhibit J, a "Natural or Man-Made Disaster" shall mean an event including, but not be limited to, (i) a catastrophic event as described in Section 3.10 of Exhibit C of the Agreement, (ii) or a declarations of disaster made by one of the following:

(A) Presidential declaration of a disaster or emergency under the either the Stafford Act or the National Emergencies Act; (B) a Secretarial declaration of a public health emergency under section 319 of the Public Health Service Act; or (C) a declaration by the Governor of a State or Protectorate.

Medical PG	Description	Method of Measurement	Measurement Goal	Reporting Frequency	Basis For Measurement	Measurement Period	Penalty
Claims Accuracy– Payment	Payment accuracy of medical claims	A statistically valid random sample of claims are selected and tested ("Payment Sample") From Payment Sample: Number of claims paid or denied without financial errors divided by total number of claims	Goal 97% Tier 1: 97.0% - 100% (no penalty) Tier 2: 96.0% - 96.9% (50% of penalty) Tier 3: 95.0% - 95.9% (75% of penalty) Tier 4: < 95.0% (100% of penalty)	Quarterly	MBA Business Unit	Annually	2.0 % of Medical Main ASF Not to exceed $20,978
Claims Accuracy– Financial	Financial accuracy of medical claims	A statistically valid random sample of claims are selected and tested ("Financial Sample") From Financial Sample: Amount of correctly paid dollars divided by total dollars	Goal 99% Tier 1: 99.0% - 100% (no penalty) Tier 2: 98.0% - 98.9% (50% of penalty) Tier 3: 97.0% - 97.9% (75% of penalty) Tier 4: < 97.0% (100% of penalty)	Quarterly	MBA Business Unit	Annually	2.0 % of Medical Main ASF Not to exceed $20,978
Claims Accuracy– Procedural	Procedural accuracy of medical claims "Procedural error" is defined as a processing error that has no financial impact to the claim	A statistically valid random sample of claims are selected and tested ("Procedural Sample") From Procedural Sample: Number of claims paid or denied without procedural errors divided by total number of claims	Goal 97% Tier 1: 97.0% - 100% (no penalty) Tier 2: 96.0% - 96.9% (50% of penalty) Tier 3: 95.0% - 95.9% (75% of penalty) Tier 4: < 95.0% (100% of penalty)	Quarterly	MBA Business Unit	Annually	2.0 % of Medical Main ASF Not to exceed $20,978

Medical PG	Description	Method of Measurement	Measurement Goal	Reporting Frequency	Basis For Measurement	Measurement Period	Penalty
Claims Timeliness– All Claims (14 Days)	Medical claims will be processed in accordance with Measurement Goal. Excludes adjustments, pharmacy claims, 2BC claims[1], and only includes claims for services to eligible BlueCross members.	Number of business days from date claim is received by BlueCross until adjudication is complete (paid or denied) Claims processed through BlueCard program will be measured from date BlueCross receives claim notification until necessary response is provided to Host plan	90% of claims processed in 14 business days Tier 1: 90.0% - 100% (no penalty) Tier 2: 89.0% - 89.9% (50% of penalty) Tier 3: 88.0% - 89.9% (75% of penalty) Tier 4: < 88.0% (100% of penalty)	Quarterly	MBA Business Unit	Annually	2.0 % of Medical Main ASF Not to exceed $20,978

EXHIBIT O

SAVINGS GUARANTEE Blue Networks S & P

1. Savings Guarantee.

BlueCross guarantees that, of the claims that are approved for Eligible Charges, Employer will see a savings over the amount charged by Network Providers. The Savings Guarantee will be 60.0%. This Savings Guarantee applies only to Eligible Charges received from a Network Provider.

1.1. This Savings Guarantee is valid only for the period January 1, 2026, through December 31, 2026, (the "SG Effective Period").

1.2. The measuring period for the Savings Guarantee is the applicable Plan Year, not to exceed 12 months.

1.3. The Savings Guarantee is based on the following facts and assumptions:

1.3.1. An enrollment of 2,456 lives and 2.01 contract size, and a network penetration of 95.5%.

1.3.2. No substantial changes (i.e. including but not limited to the addition of a new participating hospital or the termination of a participating hospital) in the Blue Network, or network service area.

1.3.3. The following provider utilization by type: (a) Inpatient, 15.2%; Outpatient, 40%; and Physician, 44.8%.

1.4. BlueCross reserves the right to change or nullify the Savings Guarantee if any of the following occur:

1.4.1. A +/-10% change in overall enrollment or contract size, enrollment by location, state or addition/closing of a location.

1.4.2. Network penetration falls below 94.5%.

1.4.3. A substantial change to the Blue Network, or the network service area. In such instance, adjustments will be made accordingly and communicated to Employer as soon as reasonably possible, but not later than 30 days prior to the effective date of the adjustment.

1.4.4. Provider utilization by type deviates +/-5% from the above percentages.

1.5. Savings Guarantee applies to In-Network medical charges only and excludes network access fees, zero discount claims, behavioral health claims, pharmacy claims, provider administered specialty pharmacy claims, and claims over $100,000.

1.6. A Network Savings Summary report will be provided on a quarterly basis.

2. BlueCross will determine the actual Savings Guarantee Percentage and provide Employer with the amount of any applicable refund, if necessary, no later than three months after the end of the applicable Plan Year.

2.1. If the achieved savings percentage is 3-4.9 percentage points below the Savings Guarantee, then BlueCross will refund $5.34 per Subscriber per month.

2.2. If the achieved savings percentage is 5.0 or more percentage points below the Savings Guarantee, then BlueCross will refund an additional $5.34 per Subscriber per month.

2.3. Any amounts owed to Employer by BlueCross will be paid within 30 days of when BlueCross delivers the Savings Guarantee calculation to Employer. Delivery may be accomplished via U.S. mail, electronic mail, or fax. Delivery may also be made in person by a representative of BlueCross.

3. Termination of this Exhibit.

This Savings Guarantee is valid only for the SG Effective Period. Should Employer terminate the Agreement before the end of the SG Effective Period, this Savings Guarantee will be invalid.

OFFICE OF COUNTY MAYOR GLENN JACOBS

Procurement Division • Department of Finance • 1000 North Central St., Suite 100 • Knoxville, TN 37917

Summary Documentation for Contract Approval

Nature of Contract:
Medical insurance benefit services for Knox County Government employees and their eligible dependents.

Contract Update:
This contract was originally approved by Commission in September 2023; however, a recent change requires it to be resubmitted for approval. This marks the second amendment to the contract. The first amendment, approved in 2025, added the Chronic Disease Management programs through Teladoc Health. The second amendment introduces clarifying language to the original agreement. Additionally, Knox County will realize annual savings of $40,000 by removing the Stop Loss Interface Fee effective June 30, 2026. The Administrative Services Fees (ASFs) previously approved by Commission remain unchanged.

Statement of Support:
Medical benefit services are a vital part of the competitive employment package that helps Knox County attract and retain a dedicated, talented workforce. Since partnering with BCBST in 2019, Knox County has maintained a strong and productive relationship with the organization. Throughout the current contract, BCBST has consistently delivered a high level of customer service and reliable claims administration. Our ongoing priority is to ensure our members have meaningful access to quality care, while keeping cost management at the forefront of our efforts.

MINUTE BOOK_____PAGE_____

WHEREAS, Grace Christian Academy's High School Boys Soccer team captured its second consecutive TSSAA Division II-A State Championship in 2026, defeating Notre Dame 3-1 in the state championship match; and

WHEREAS, the victory follows the Rams' historic first state title in 2025, when Grace Christian Academy defeated Webb Bell Buckle 3-0 to begin what has now become a back-to-back championship run; and

WHEREAS, led by Head Coach and Director of Soccer Isaac Brooks, the program continues to represent Grace Christian Academy and Knox County with

excellence, discipline, teamwork, and faith while pursuing its mission of using athletics to glorify God; and

WHEREAS, the Commission takes great pride in recognizing outstanding achievements by students and athletes in our community and desires to applaud the team for their tremendous success on the soccer field over the past two seasons.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The Knox County Commission hereby honors and congratulates the Grace Christian Academy High School Boys Soccer Team and all associated with the program for a remarkable season which culminated in winning its second consecutive TSSAA Division II-A State Championship.

BE IT FURTHER RESOLVED, that this Resolution be presented to the Grace Christian Academy Boys Soccer Team in appreciation of their excellence, sportsmanship, and dedication to representing our community with honor.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

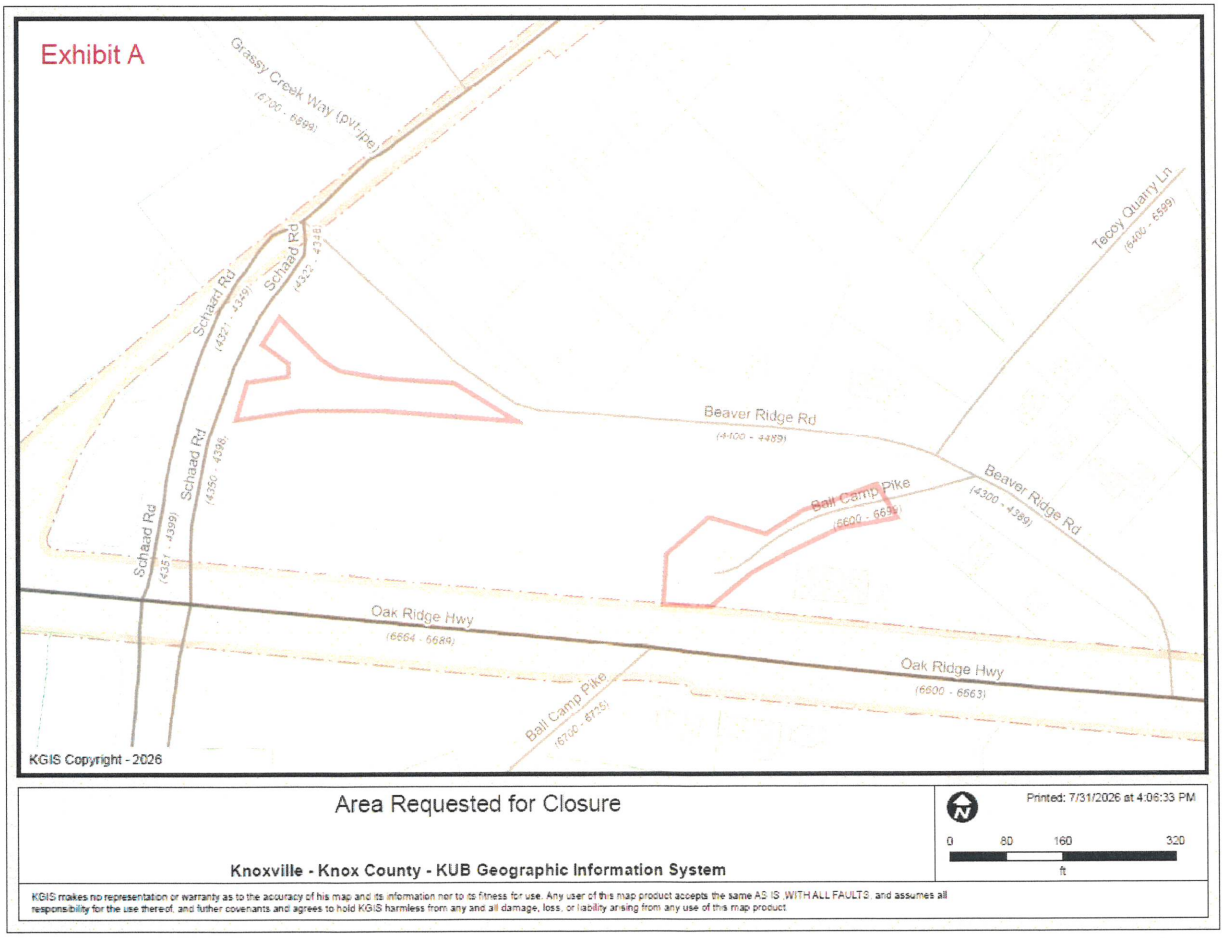
Notice of Request to Close Road/Right of Way

Date:	Monday, August 3, 2026
Name of Road:	Portion of former Beaver Ridge Road alignment and portion of current 6600 block of Ball Camp Pike
Location of Road:	Unused portion of former Beaver Ridge Road north of parcel 079 033 and south of parcel 079JA02. The roadbed at this location was removed for the Ball Camp Pike Relocation Project around 2008. The Ball Camp Pike cul-de-sac segment is located south of Beaver Ridge Road, north of Oak Ridge Highway, and across from Tecoy Quarry Lane
Length of Road:	+/- 415 feet of Right of Way formerly portion of Beaver Ridge Road +/- 300 feet of Ball Camp Pike
Reason for Request:	Property owner request for future development
Adjoining Landowners:	Patti and Charles Scarbrough; 0 Schaad Rd; 079JA020 Charles Malone; 4511 Beaver Ridge Rd; 079 033 Fred and Barbara Weaver; 6620 Oak Ridge Hwy Suite 101; 079JB003
Closure Representatives:	Marc Payne and Michael Scott, MBI Companies, Inc. 229 N Weisgarber Rd. (865) 742-0297

The closure of these roads and right of way will be discussed in the Main Assembly Room of the City-County Building during the Optional Agenda Review meeting on **Monday, August 24, 2026, at 3:00 p.m**. We encourage the closure representative to attend this meeting, in the event questions are posed. A public hearing will be held later in the same assembly room as part of the County Commission Meeting. The date is **Monday, August 31, 2026, at 5:00 p.m.** The closure representative should be present at this meeting and be prepared to speak in the event questions are posed. The public is invited to attend these meetings and speak on the matter. Please email rowclosures@knoxcounty.org or call 865-839-3592 with questions.

KNOX COUNTY
TENNESSEE



ENGINEERING & PUBLIC WORKS

Finance & Administration • Development Services • Fleet Services • Operations

The property owners are required to furnish a survey to Knox County Engineering and Public Works showing the boundaries of the right of way to be abandoned and the boundaries of the lots of the person to whom the right of way is to be transferred as they will exist after the right of way is closed as requested. A metes and bounds paragraph description of the area being closed is also required. These documents can be submitted before or after the Commission Meetings. They must be submitted prior to preparation of the Quit Claim Deed.

Sincerely,

Jim Snowden, P.E.
Senior Director

205 West Baxter Avenue • Knoxville, TN 37917 • www.knoxcounty.org
Phone: 865-215-5800

We are requesting closure on the following:

Ball Camp Pike from the northernmost point of 6620 Oak Ridge Hwy (CLT 079JB003) to its terminus at Oak Ridge hwy. The requested portion to be closed is 300' in length with varying widths from the lot line between parcels 079JB002 and 079JB003 with a measurement of 56' +/- to the boundary of Oak Ridge Highway and Cul de Sac with a width of 90' +/-.

Unused portion of Beaver Ridge Road adjacent to the northern lot line of 4511 Beaver Ridge RD (CLT 079 033) and the unused portion that is adjacent to 0 Schaad Rd (CLT 079JA020). The requested portion of Beaver Ridge to be closed is 370' +/- in length with a width of 50'+/-. (See attached maps)

Attached with this request is a map showing the location and portions of the right of way that is part of the request as well as the canvas form. We were unable to contact the owners of 0 Schaad Rd (CLT 079JA020), but it is our understanding that County Commissioner Terry Hill has been in direct contact with your office in support of the closure requests.

The reason for the requests is to expand the property to support the construction of a KenJo Market and a Buddy's BBQ on parcel 079 033. Inclusion of the additional acreage will assist is providing sufficient room for ingress/egress including delivery vehicles and customer traffic.

Upon approval, the property will be transferred to parcel 079 033.

Representatives for the request will be:

Marc Payne, APA

Susanne Huff

(Senior Center Contact's Printed Name)

Susan W Huff — July 9, 2026

(Senior Center Contact's Signature) (Date)

CURRENT NEED(S) SENTENCE

POINTS 10

Complete the following sentence:

The funds requested will be used to fund or purchase 4 Automatic Door Operators with installation to our bathrooms and swimming pool area, 34 padded stackable chairs with arms, and 60 non-padded stacking chairs with no arms.

SENIOR CENTER BACKGROUND

POINTS 10

Please provide any information about your center you would like the reviewers to know (500 words maximum).

The South Knoxville Senior Center was built and opened during the summer of 2007 to serve our aging population 50 years old and older in the surrounding area. Some of the same seniors that were instrumental in getting this project approved are still members of the Center today. We pride ourselves in providing a family atmosphere, cultivating fellowship while decreasing isolation, and offering recreational activities as well as exercise opportunities for seniors at all levels of mobility. Our Center offers several amenities for our patrons including:

- An indoor heated pool measuring 16 feet by 32 feet with a water depth of 3 to 5 feet, offering a perfect outlet for our seniors to exercise in a safe environment to limber up their joints and muscles. We currently offer 19 structured exercise classes a week and have ample free swim time for individual exercise routines.
- Classrooms to facilitate opportunities for mental enrichment, creative expression, and social connection for our seniors. Some of these programs include quilting, Dominoes, card games, story time, Bingo/Singo, crafts, guitar jams, painting, artist trading cards, sit and sew, club lunches, and cookouts.
- Indoor and outdoor space to encourage multiple opportunities for safe exercise through engaging, unique activities. Some of these programs include Senior Fitness, Cardio Drumming, Chair Volleyball, Line Dance, Ballroom Dance, balance class, and walking on our outdoor track.

IMPACT

POINTS 10

Describe the impact your project will have on the senior center and its participants if you receive grant funds.

The impact expected from the proposed enhancements from the requested grant to our Center and seniors are numerous.

- Automatic Doors for our bathrooms and swimming pool area will significantly help our less mobile seniors to be able to enter the bathroom without assistance, as well as enter the pool area. Our senior population is ageing and getting less mobile, so this improvement would be very beneficial for them.
- We have an increased number of seniors using walkers, walking sticks, and motorized wheelchairs. The handicapped doors would allow them better access to the restrooms.
- We partner with Sunshine Services, who serve individuals with disabilities, by welcoming their clientele age 50 and older into our programs. Many of our Sunshine friends require mobility aids and automatic doors to the restrooms would be highly beneficial.
- Our Center is equipped with a motorized chair lift to allow seniors another option into the pool that cannot use the stair entrance. Automatic doors to enter the pool area would help in this accessibility.
- Padded chairs would give our seniors the ability to stay longer to engage in our programming. The padded chairs would not be fabric, but rather pleather covered foam that is much easier to keep clean and sanitized.
- The arms added to the chairs allow support to get into and out of the chairs.
- The padded chairs being stackable would allow for flexibility in room staging and use.
- Stacking chairs without padding or arms is perfect for our performance concerts and programs, allowing more rows of chairs to be used.
- The chairs without arms would allow our musicians to easily play their instruments without being obstructed by chair arms. We have a large music jam every week for three hours, a second small music jam for an hour each week, and a third music jam once a month.

PROJECT TIMELINE

POINTS 10

Timelines can be adjusted during the grant cycle. The purpose of this section is to create a monthly plan that ensures all funds are expended by the grant deadline. Create a detailed monthly timeline from November 1, 2026 – March 31, 2028, for how you plan to spend the funds you are requesting.

Our total grant request is $50,000. All funds are requested under the Capital Projects category

- November 2026 - $37,000
  - Automatic Doors
- March 2027 - $13,000
  - Padded Stackable Chairs
  - Stacking Chairs

PROJECT BUDGET

POINTS 10

Complete a project budget using the required budget template *(Appendix A)* provided by DDA. Using a different budget template will result in an automatic reduction of points. Each budget category should be rounded to the nearest $1,000.

- See Attached

BUDGET NARRATIVE

POINTS 10

Provide an explanation and the calculations for how you determined the funding amounts for each category of your budget.

South Knoxville Senior Center is requesting $50,000 in grant funding. All funds are in the Capital Projects category. Details are as follows:

- 4 Automatic Door Operators furnished & installed - $37,000
  - Project Manager and two subcontractors – Total Labor Cost - $15,246
  - Total Material Cost - $17,200
  - 15% margin for inflation and miscellaneous items - $4554

- Chairs by Hendrickson's (34 padded stackable chairs with arms, 60 stacking non-padded chairs without arms) - $13,000

2026 TARGETED AREA — POINTS 1-5

Department of Economic and Community Development - See *Appendix C* for county breakdown.

5 pts "Distressed"
4 pts "At Risk"
3 pts "Transitional"
2 pts "Competitive"
1 pt. "Attainment"

ESTIMATED 65+ POPULATION IN 2026 — POINTS 1-5

Tennessee Department of Health, pg. 5-6 – See *Appendix D* for county breakdown.

5 pts 30% or higher
4 pts 25-29.9%
3 pts 20-24.9%
2 pts 15-19.9%
1 pt. 10-14.9%

ADULTS 65+ AT POVERTY LEVEL — POINTS 1-5

based on US Census Bureau Poverty Status in the Past 12 Months - See *Appendix E* for county breakdown.

5 pts 25% or higher
4 pts 20-24.9%
3 pts 15-19.9%
2 pts 10-14.9%
1 pt. 9.9% or lower

TIE SCORES

In the event applicants receive tied scores, it is within DDA's discretion to decide how the tie is broken. DDA's decision is not appealable. The applicant who submitted their application the earliest will receive priority determination of funding but will not automatically be granted funding. Therefore, it is important to submit your application as soon as possible.

Commissioner Brad Turner
Department of Disability and Aging
502 Deaderick Street, 9th Floor
Nashville, TN 37243-0860

Dear Commissioner Turner,

I am pleased to write this letter of support for the South Knoxville Senior Center's application for a $50,000 senior center grant from the Tennessee Department of Disability and Aging.

South Knoxville Senior Center serves between 1,500 to 2,000 seniors a month. If awarded the grant, the senior center plans to use the funds for accessible updates, including the purchase of four handicapped-accessible doors for the men's and women's bathrooms, to improve access to both restrooms and the indoor pool area.

They would additionally like to purchase 34 padded chairs and 80 stackable chairs with the funds. The senior center provides physical, social, and outdoor activities for better overall health and wellness for seniors age 50 and over. New updated equipment and supplies will enhance programming and accessibility to better serve the seniors.

I believe this project will be an asset to the constituents of Senate District 6. Thank you for considering South Knoxville Senior Center for this grant opportunity.

Sincerely,

Becky Massey
State Senator

Nashville, TN 37243-0860

Dear Commissioner Turner:

I am pleased to write this letter of support for the South Knoxville Senior Center's application for a $50,000 senior center grant from the Tennessee Commission on Aging and Disability.

South Knoxville Senior Center serves anywhere between 1,500 to 2,000 seniors a month. The South Knoxville Senior Center plans to purchase, if awarded the grant, 4 handicapped accessible doors for both the men's and women's bathrooms, going into the bathroom and into the pool area. We also plan on purchasing 34 padded chairs and 80 stackable chairs with the funds.

The grant funds will be used to update the South Knoxville Senior Center to promote easier accessibility for both men's and women's restrooms and indoor pool area. Our center provides physical, social, and outdoor activities for better overall health and wellness. New updated equipment and supplies will enhance programming and accessibility to better serve our seniors.

Please consider South Knoxville Senior Center for this grant opportunity.

I believe this project will be an asset to the constituents of House District 18.

Sincerely,

Elaine Davis

Form **W-9**
(Rev. March 2024)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

Go to *www.irs.gov/FormW9* for instructions and the latest information.

Give form to the requester. Do not send to the IRS.

Before you begin. For guidance related to the purpose of Form W-9, see *Purpose of Form*, below.

Print or type. See *Specific Instructions* on page 3.

1 Name of entity/individual. An entry is required. (For a sole proprietor or disregarded entity, enter the owner's name on line 1, and enter the business/disregarded entity's name on line 2.)

KNOX COUNTY, TENNESSEE GOVERNMENT

2 Business name/disregarded entity name, if different from above.

ALL OFFICES AND DIVISIONS

3a Check the appropriate box for federal tax classification of the entity/individual whose name is entered on line 1. Check only **one** of the following seven boxes.

☐ Individual/sole proprietor ☐ C corporation ☐ S corporation ☐ Partnership ☐ Trust/estate

☐ LLC. Enter the tax classification (C = C corporation, S = S corporation, P = Partnership) . . . . .

Note: Check the "LLC" box above and, in the entry space, enter the appropriate code (C, S, or P) for the tax classification of the LLC, unless it is a disregarded entity. A disregarded entity should instead check the appropriate box for the tax classification of its owner.

☑ Other (see instructions) LOCAL GOVERNMENT

3b If on line 3a you checked "Partnership" or "Trust/estate," or checked "LLC" and entered "P" as its tax classification, and you are providing this form to a partnership, trust, or estate in which you have an ownership interest, check this box if you have any foreign partners, owners, or beneficiaries. See instructions . . . . . ☐

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):

Exempt payee code (if any) 3

Exemption from Foreign Account Tax Compliance Act (FATCA) reporting code (if any) N/A

(Applies to accounts maintained outside the United States.)

5 Address (number, street, and apt. or suite no.). See instructions.

400 WEST MAIN STREET, SUITE 630

6 City, state, and ZIP code

KNOXVILLE, TN 37902

Requester's name and address (optional)

ALL KNOX COUNTY VENDORS

7 List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. See also *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Social security number: ☐☐☐ - ☐☐ - ☐☐☐☐

or

Employer identification number: 62-6007979

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and, generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

Sign Here Signature of U.S. person [signature] Date 4/8/26

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/FormW9*.

What's New

Line 3a has been modified to clarify how a disregarded entity completes this line. An LLC that is a disregarded entity should check the appropriate box for the tax classification of its owner. Otherwise, it should check the "LLC" box and enter its appropriate tax classification.

New line 3b has been added to this form. A flow-through entity is required to complete this line to indicate that it has direct or indirect foreign partners, owners, or beneficiaries when it provides the Form W-9 to another flow-through entity in which it has an ownership interest. This change is intended to provide a flow-through entity with information regarding the status of its indirect foreign partners, owners, or beneficiaries, so that it can satisfy any applicable reporting requirements. For example, a partnership that has any indirect foreign partners may be required to complete Schedules K-2 and K-3. See the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS is giving you this form because they

ORDER OF THE KNOX COUNTY MAYOR
APPOINTING UTILITY DISTRICT COMMISSIONER

IN RE:	)
	)
COMMISSIONER APPOINTMENT	)
FOR THE HALLSDALE-POWELL	)
UTILITY DISTRICT OF KNOX	)
COUNTY, TENNESSEE	)

Upon certification by the Board of Commissioners of the Hallsdale-Powell Utility District of Knox County, Tennessee, certifying an upcoming vacancy on said Board of Commissioners by the expiration of the term of Kevin Julian, and certifying a list of three names nominated for appointment to fill such vacancy in accordance with T.C.A. § 7-82-307(a);

IT IS THEREFORE ORDERED, ADJUDGED AND DECREED, AS FOLLOWS:

(a) That Jim Wright is hereby appointed to the Board of Commissioners of the Hallsdale-Powell Utility District of Knox County, Tennessee, to serve a four (4) year term commencing on September 14, 2026 and expiring on September 14, 2030. Jim Wright took the oath of office on August 11, 2026, a copy of which is attached hereto as Exhibit A.

(b) That a copy of this Order shall be entered into the minutes of the Knox County Commission as required by T.C.A. § 7-82-307(a)(4), and that a certified copy of this Order shall be provided to the Hallsdale-Powell Utility District Board of Commissioners and the appointee as required by T.C.A. § 7-82-307(a)(4).

(c) That this Order shall be kept by the Knox County Clerk as a permanent record of Knox County, and the Knox County Clerk shall issue certified copies of this Order as shall be requested.

ENTERED this 17th day of August, 2026.

GLENN JACOBS
KNOX COUNTY MAYOR

Oath of Office
of
Hallsdale-Powell Utility District of Knox County

I, Jim Wright, do solemnly swear that I will execute the duties of the office of HALLSDALE-POWELL UTILITY DISTRICT COMMISSIONER of Knox County, Tennessee to which I have been appointed and which I am about to assume, without prejudice, partiality, or favor to the best of my skill and ability. I further swear that I will support the Constitution of the State of Tennessee and the Constitution of the United States, so help me God.

Jim Wright

Subscribed and sworn to before me this 11h day of August, 2026.

STREETS Grant Application

THE KNOX COUNTY STREETS PROJECT

A COORDINATED RECOVERY INITIATIVE

DEPARTMENT OF HEALTH AND HUMAN SERVICES - SAMHSA
SAFETY THROUGH RECOVERY, ENGAGEMENT, AND EVIDENCE-BASED TREATMENT AND SUPPORT
OPPORTUNITY NUMBER: SM-26-019 | FEDERAL ASSISTANCE LISTING: 93.243
SUBMITTED BY: KNOX COUNTY, TENNESSEE

PROJECT ABSTRACT

The Knox County STREETS Project is a coordinated recovery initiative serving adults experiencing homelessness or housing instability in Knox County, Tennessee. Knox County has a population of 511,453 residents and faces high rates of homelessness, untreated behavioral health conditions, and overdose mortality. The project will serve 50 individuals in Year 1 and 100 individuals annually in Years 2–4, focusing on adults with serious mental illness, substance use disorders, and co-occurring disorders, including those who are unsheltered, chronically homeless, medically vulnerable, and justice-involved. Most individuals served will fall between ages 35 and 54, with unsheltered homelessness disproportionately affecting adult men and individuals with complex behavioral-health needs.

STREETS will provide comprehensive, street-based engagement, integrated screening and assessment, rapid access to evidence-based SUD and mental-health treatment, overdose-prevention interventions, peer recovery coaching, benefits navigation, and coordinated housing pathways. Core strategies include use of ASAM Criteria, Motivational Interviewing, the Columbia Suicide Severity Rating Scale (C-SSRS), Strengths-Based Case Management, Medication for Substance Use Disorder (MSUD), recovery housing, and a “no-wrong-door” approach supported through Coordinated Entry. Mobile Clinical Engagement Teams will operate in encampments, shelters, emergency departments, and crisis settings to initiate treatment, provide field-based triage, and connect individuals to ongoing care and housing. Case management will be provided throughout engagement, with outreach staff walking alongside each participant to coordinate treatment, support care transitions, address barriers, and connect individuals to housing, recovery supports, benefits, and community resources.

The project aims to reduce overdose risk, strengthen treatment engagement, create self-sufficiency, improve continuity of care, and reduce crisis-system and justice-system involvement. Measurable objectives include ensuring 80% of participants complete an assessment and treatment plan within 14 days of enrollment; initiating evidence-based SUD treatment for participants; and connecting 80% of participants to housing navigation and supportive services. Through coordinated partnerships with behavioral health providers, street outreach teams, EMS, public safety, hospitals, and housing agencies, STREETS will expand treatment access, promote recovery, and support long-term stability for adults with the most significant behavioral health and housing needs in Knox County

PROJECT NARRATIVE

A: POPULATION OF FOCUS AND NEED STATEMENT

1. Population Served and Geographical Area

Knox County, TN is a mix of suburban, urban, and rural communities located in Southern Appalachia, one of the regions hardest hit by the opioid epidemic. Despite a relatively strong regional economy, the median household income of $74,222 has not kept pace with increases in the cost of living, leaving 12.8% of the 511,453 residents in poverty (U.S. Census Bureau 2024). The economic conditions, combined with Knox County's high overdose mortality, significant behavioral health needs, and growing housing instability, underscore the urgent need for a coordinated response.

Individuals served through the Knox County STREETS project will include adults who are experiencing homelessness or are unstably housed, and who also have serious mental illness (SMI), substance use disorders (SUD), or co-occurring disorders (COD). Populations of focus include people who are unsheltered, chronically homeless, residing in emergency shelter, or justice-involved. These individuals represent some of the county's highest-acuity residents, many of whom experience repeated crises, untreated behavioral health conditions, and elevated overdose risk.

2. Population Characteristics

The Knoxville-Knox County Continuum of Care (CoC) 2026 Point-in-Time (PIT) Count documented 941 individuals experiencing homelessness, including 239 unsheltered residents and 143 individuals experiencing chronic homelessness. Although the PIT Count reflects a slight decrease compared to 2025, it does not capture the full scope of homelessness in Knox County, particularly among individuals who avoid shelters, reside in hidden or rural encampments, or cycle between institutions and the streets. Of those surveyed most unsheltered individuals resided in wooded areas and encampments.

Nearly 50% of unsheltered individuals reported experiencing homelessness for the first time, reflecting expanding economic and behavioral health instability. Within the unsheltered population recorded, 67% were male and 33% female. This reflects national trends of unsheltered homelessness being disproportionately experienced by adult men with complex behavioral health needs. More than 55% reported using substances or drinking alcohol, up from 50% in 2025. Additional vulnerability factors include mental health conditions (42%), veteran status (8%), fleeing domestic violence (23%), and reporting a physical disability (46%). Most unsheltered individuals (58%) fell between the ages of 35 and 54, the demographic with the highest fatal overdose risk in Knox County (Regional Forensic Center 2025).

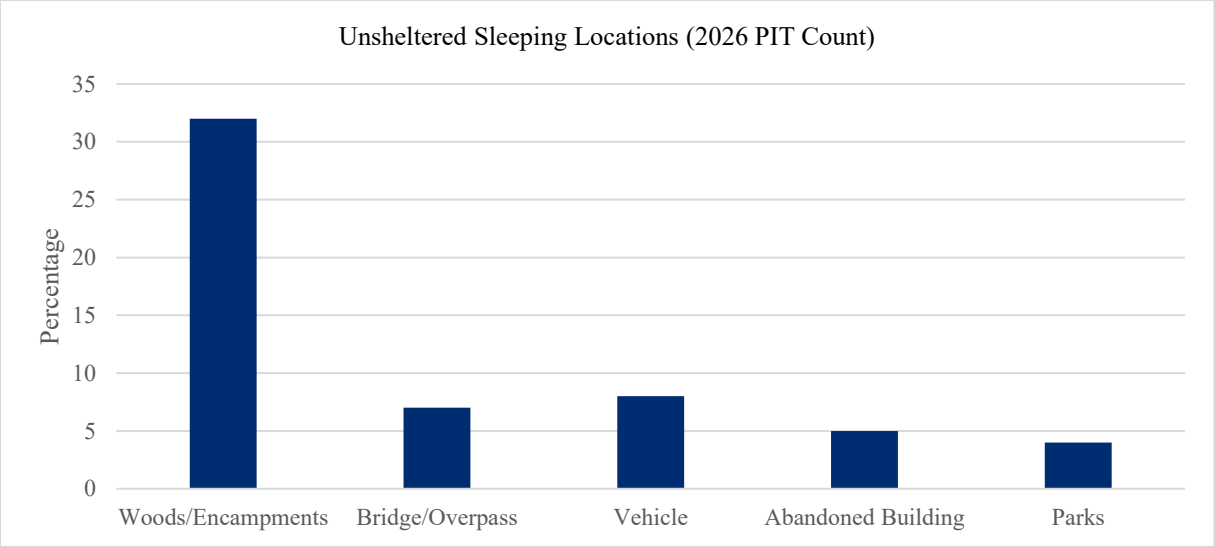

Figure 1 Source: 2026 Knoxville-Knox County Point in Time Count Data Snapshot

High-risk individuals served through Knox County's STREETS project may have current or recent involvement in the criminal justice system. Justice-involved individuals often face elevated risks for instability, crisis encounters, and overdoses due to limited access to continuous care, frequent displacement, and the challenges of reconnecting to services after periods of incarceration. Eligible individuals engaged with probation, the Public Defender's Office, participating in specialized judicial programs, or leaving incarceration will be referred to the STREETS program.

3. Project Need

Homelessness and housing instability in Knox County are strongly associated with increased substance use and other risky behaviors. According to Knox HMIS, 20% of individuals experiencing homelessness at the end of quarter four of 2025 attributed it directly to substance use. Behavioral health conditions among individuals experiencing homelessness contribute to elevated rates of illness and early mortality (PubMed 2021). High rates of chronic unemployment, often driven by behavioral health conditions, criminal justice involvement, and disabilities, further compound instability. Nearly 50% of unsheltered individuals engaged during the 2026 PIT Count were experiencing homelessness for the first time, indicating the problem is expanding beyond chronically homeless populations.

Geographic dispersion adds another layer of complexity. Historically, homelessness in Knox County was concentrated in the downtown "Mission District", where services are co-located. However, encampments have increasingly spread into suburban and rural areas. Over 50% of PIT Count respondents stated they move their sleeping location at least once per week, with 67 individuals moving daily. 129 individuals reported police contact in the past three months, exceeding contact with outreach workers or case managers. This highlights the difficulty in engaging and sustaining services with unsheltered individuals yet also demonstrates that this

population regularly interacts with law enforcement, reinforcing the importance of coordination with law enforcement.

The Knox County Regional Forensic Center reported 307 fatal overdoses in 2025. Knox County's overdose death rate of 85.9 deaths per 100,000 residents is one of the highest in Tennessee (TDH 2025). From December 2024 through November 2025 alone, Knox County recorded 224 unintentional or undetermined intent overdose deaths (CDC 2025). Nonfatal overdoses outpace fatal overdoses, with Knox County experiencing 300 nonfatal overdoses per 100,000 residents, compared with the statewide rate of 286 per 100,000 (TDH 2025). As of July 2026, Knox County has recorded 139 suspected overdose deaths this year (Knox County DA Office 2026).

Justice-involved individuals face even higher levels of vulnerability. According to the Knox County District Attorney's Office, 43% of individuals who died of a fatal overdose in 2022 had been arrested in the preceding five years. Among those individuals, 25% died within one year of release from jail and 20% died within six months (Allen 2022). These data points align with research showing that incarceration interrupts treatment continuity, increases tolerance loss, and significantly heightens overdose risk upon reentry. The *2022 Tennessee Department of Correction Statistical Abstract* reinforces this need: felons released from the Knox County jail system have a three-year recidivism rate of 66.94%, higher than those released from other major Tennessee jails.

Provider coordination challenges further contribute to unmet needs in Knox County. Providers silo within their own systems resulting in clients receiving fragmented care, duplicate assessments, or inconsistent guidance. This makes it difficult to maintain engagement, particularly for high acuity individuals.

B: PROPOSED IMPLEMENTATION APPROACH

1. Project Goals and Measurable Objectives

NUMBER OF UNDUPLICATED INDIVIDUALS TO BE SERVED WITH AWARD FUNDS			
Year 1	Year 2	Year 3	Year 4
50	100	100	100

Measurable Objectives:

- Improve treatment engagement by ensuring 80% of enrolled participants complete an initial assessment and individualized treatment plan within 14 days of enrollment.
- Initiate 40 individuals on evidence-based SUD treatment within the first grant period.
- Connect 80% of participants to housing navigation and supportive services to improve housing stability and recovery outcomes.

2. Implementation of Required and Allowable Activities

Cross-System Partnerships — Within four months of award, the County will execute a MOU with required cross-system partners. Core partners will meet monthly, with broader stakeholders meeting quarterly to coordinate services, monitor progress, review performance, and strengthen collaboration. The MOU will outline coordinated procedures for outreach, referrals, service coordination, and data sharing to improve access to housing, behavioral health, substance use treatment, medical care, and peer recovery support, and will be reviewed annually. A full list of partners is included in Section D of the Project Narrative.

Conduct an Environmental Scan and Hotspot Mapping — Knox County will competitively procure the program evaluation, environmental scan, and hotspot mapping through a Request for Proposals (RFP) within five months of award. Knox County's procurement policy meets all requirements outlined in 2 CFR Part 200 and includes provisions prohibiting conflicts of interest. The scan and mapping will be reviewed annually to reflect any changes in needs and resources.

Develop and Maintain a Treatment-Priority By-Name List — Within five months of award, the County will establish and maintain a secure, HIPAA-compliant treatment priority by-name list in Knox HMIS to track eligible participants from outreach through treatment, housing, and recovery. The by-name list will support coordinated care by documenting participant status, facilitating referrals and follow-up, reducing duplication of services, and helping partners prioritize individuals with the greatest treatment and housing needs.

Coordinate with Existing Homelessness and Behavioral Health Systems —Throughout the project period, Knox County will coordinate all STREETS activities with existing homelessness, behavioral health, and crisis response systems to ensure services are integrated, complementary, and responsive to community needs. As an active participant in the Knoxville-Knox County Continuum of Care (CoC), this project will utilize Knox HMIS to coordinate care, share information as permitted, and reduce duplication of outreach and services.

Knox County will collaborate closely with HUD-funded CoC partners and providers including the McNabb Center (a SAMHSA PATH provider), Knoxville Street Medicine Outreach (KSMO), American Medical Response (AMR), Knoxville-Knox County Community Action Committee (CAC), Volunteer Ministry Center (VMC), and other local agencies to coordinate outreach, behavioral health treatment, housing navigation, and supportive services. Coordination will include regular communication, warm handoffs, timely referrals, multidisciplinary case conferencing, and shared care-planning to promote rapid access to treatment and housing while supporting continuity of care.

Provide Coordinated, Street-Based Engagement

Deploy Mobile Clinical Engagement Team — Within six months of award, STREETS will deploy multidisciplinary Mobile Clinical Engagement Teams to provide outreach, engagement,

and clinical support in encampments, shelters, day centers, unsheltered locations, and other community settings serving individuals experiencing homelessness. Teams will include medical providers, licensed behavioral health clinicians, and case management staff to support enrollment, treatment engagement, and ongoing care coordination.

The teams will build on Knox County's existing partnerships among providers to connect individuals with timely medical care, including wound care, overdose prevention, and field-based triage, as well as behavioral health assessment, treatment linkage, and case management. CAC and VMC outreach teams will collaborate with medical providers from AMR and KSMO and behavioral health clinicians from the McNabb Center to identify, engage, and connect individuals to appropriate services. Law enforcement will support referrals during crisis or enforcement encounters.

Conduct Integrated Screening and Eligibility Assessment — Street Outreach Teams and medical providers will identify individuals experiencing potential SMI, SUD, or COD during outreach encounters and connect eligible individuals to STREETS services. Individuals needing treatment will be referred to the McNabb Center for clinical assessment, treatment recommendations, and linkage to appropriate behavioral health and recovery supports. A coordinated "no wrong door" approach will allow referrals from multiple entry points, with crisis response available for urgent behavioral health needs and medical partners providing field-based care, triage, and connection to primary care services. CAC and VMC outreach workers will provide ongoing case management, coordination, and warm handoffs to support continuity of care.

Actively Support Housing Connection and Entry — STREETS will support housing connection and entry for eligible individuals while maintaining a primary focus on engagement in behavioral health and substance use treatment. CAC and VMC outreach teams will work with clinical partners and recovery housing providers to identify appropriate housing options based on participant needs, treatment goals, and stability. When appropriate, participants will complete a Coordinated Housing Assessment and Match Plan (CHAMP), Coordinated Entry for Knox County.

Outreach staff will provide ongoing case management and care coordination from initial engagement through treatment, housing placement, and stabilization. Staff will collaborate with the McNabb Center and other treatment providers to support transitions from treatment settings into shelter, transitional housing, permanent supportive housing, recovery housing, or other appropriate options. STREETS will partner with recovery housing providers, prioritizing TN Alliance of Recovery Residences (TNARR)-certified programs that support individuals receiving MOUD and prescribed behavioral health medications. Individuals not eligible for STREETS services will receive referrals to appropriate housing, healthcare, behavioral health, and community resources through other partner programs.

Provide Immediate Clinical Triage and Stabilization — Mobile Clinical Engagement Teams will assess immediate safety concerns, provide field-based stabilization within their scope of practice, and connect individuals to the appropriate level of care while prioritizing community-based interventions and reducing avoidable emergency department use. Through partnerships with KSMO and AMR, STREETS will coordinate medical response, field-based clinical triage, and urgent medical care when needed. Team members will be trained in overdose recognition and response, carry naloxone in the field, and administer it when medically necessary. For individuals experiencing acute behavioral health concerns or crisis, STREETS will utilize the McNabb Center Mobile Crisis Team for crisis assessment, de-escalation, stabilization, and linkage to appropriate care. Outreach workers will also be trained to administer the Columbia-Suicide Severity Rating Scale (C-SSRS) to identify individuals requiring immediate behavioral health intervention.

Initiate evidence-based SUD or COD Treatment — Individuals identified with SUD or COD will receive timely engagement, screening, brief intervention, and connection to evidence-based treatment based on clinical needs. Outreach staff will use trauma-informed engagement and motivational interviewing approaches to build trust, reduce barriers, and support treatment participation.

When indicated, Mobile Clinical Engagement Teams will facilitate rapid referral to the McNabb Center for assessment and connection to appropriate treatment services, including evidence-based SUD and COD care and FDA-approved medications for substance use disorders. When services are not available internally, McNabb will coordinate referrals to qualified external providers. VMC and CAC outreach staff will support appointment coordination, transportation needs, and ongoing engagement to promote treatment initiation and retention.

Provide behavioral health promotion, psychosocial support, and suicide prevention — The Mobile Clinical Engagement Team will provide behavioral health promotion through education on mental health, substance use, overdose prevention, recovery support, and available community resources. The team will deliver trauma-informed, person-centered psychosocial support using strengths-based engagement and motivational interviewing to build trust and encourage ongoing participation in treatment and recovery services.

Outreach workers will be trained to administer the C-SSRS to identify and assess suicide risk during outreach encounters. Individuals identified as being at risk for suicide or experiencing a behavioral health crisis will receive immediate safety planning, coordination with the McNabb Center Mobile Crisis Team, and referrals to behavioral health providers, peer recovery services, counseling, and other community-based supports.

Deliver Overdose Prevention Education and Response Services — In alignment with SAMHSA's Dear Colleague Letter on the Executive Order on Ending Crime and Disorder on America's Streets, STREETS will provide overdose prevention and response services that prioritize rapid intervention, connection to care, and access to evidence-based supports for

individuals at risk of overdose. Mobile Clinical Engagement Team members will be trained in overdose recognition, prevention strategies, and response protocols, including the distribution and administration of Naloxone. The team will provide education on overdose risk factors, how to recognize an overdose, and how to access emergency and recovery resources.

AMR and KSMO will coordinate onsite medical support for individuals presenting with urgent health concern. Outreach workers will also connect individuals to infectious-disease prevention, testing, and treatment services when clinically indicated.

Rapid Access to Treatment and Care Coordination

Facilitate Immediate Access to Evidence-Based Treatment — STREETS will facilitate rapid access to evidence-based behavioral health and substance use disorder services through walk-in, same-day, or next-day appointments when clinically appropriate. Mobile Clinical Engagement Teams will assess participant needs and coordinate referrals to the McNabb Center for connection to the appropriate level of care within the continuum of services, including outpatient care, withdrawal management, crisis stabilization, COD treatment, residential treatment, and medications for substance use disorders (MSUDs). When the appropriate service is not available through McNabb Center, they will coordinate timely referrals to qualified external providers.

Assign Care Coordination and Supports — Throughout STREETS participation, CAC and VMC outreach workers will provide ongoing case management, care coordination, and engagement tailored to each participant's needs. Services will include system navigation, care transitions, treatment retention support, and connections to housing, healthcare, recovery supports, employment resources, and other community services. CAC outreach staff will also support individuals transitioning from jail to promote successful community reintegration.

For justice-involved participants, the Knox County Public Defender's Community Law Office will provide legal support and system navigation to address barriers and support compliance with court requirements. Metro Drug Coalition (MDC) will provide peer recovery coaching and support groups to promote treatment engagement, recovery, wellness, and connection to community supports.

Coordinate with Civil Courts, AOT, Specialty Courts, and Criminal Justice Diversion — STREETS will use a treatment-first approach for justice-involved individuals, those engaged in civil commitment processes, and individuals preparing for reentry. In collaboration with the Knox County Sheriff's Office (KCSO), Public Defender's Office, Probation, and specialty courts, STREETS will identify individuals at key points of crisis or justice involvement and connect them to behavioral health treatment, case management, recovery supports, and housing resources. STREETS will coordinate with specialty courts, diversion programs, and civil commitment and Mandatory Outpatient Treatment processes. Justice system and court partners will participate in quarterly stakeholder meetings to coordinate referrals, address service gaps, and improve outcomes.

***Provide Benefits Navigation* —** Outreach workers and care coordination staff will assist participants with identifying benefit needs, completing applications, obtaining documentation, resolving barriers, and connecting to community resources. Support may include access to TennCare/Medicaid, SSI, SSDI, SNAP, housing assistance, and other public benefits and supportive services. Staff will help individuals navigate eligibility processes, obtain identification, and address system barriers.

Individuals preparing for release from incarceration will be engaged prior to release to support benefit enrollment, continuity of care, and successful community reintegration. KCSO will assist by reissuing state-issued identification and driver's license at the Knox County Detention Center prior to release.

Ongoing Treatment, Monitoring, and Accountability

***Implement Individualized Service and Treatment Planning* —** STREETS will ensure each enrolled participant has an individualized service and treatment plan developed within two weeks of enrollment. McNabb Center will complete clinical treatment plans based on behavioral health and substance use needs, assessments, goals, strengths, and preferences, identifying appropriate evidence-based interventions and adjustments as needed. Outreach staff will use Knox HMIS and the Coordinated Entry process to document housing goals, referrals, care coordination, barriers, and progress toward stability. Partners will use these plans to coordinate services, monitor progress, and adjust supports based on participant needs.

***Deliver Integrated, Evidence-Based Treatment Services* —** STREETS will coordinate access to integrated, evidence-based treatment for individuals experiencing SUD, SMI, and COD based on clinical assessment, participant needs, and treatment goals. Through the McNabb Center and other providers, participants will be connected to appropriate levels of care, including behavioral health therapy, medication management, MOUD, SUD treatment, withdrawal management, and residential services.

McNabb Center's comprehensive continuum of care supports timely access to crisis intervention, stabilization, treatment, and recovery services. Treatment engagement will be supported through person-centered, trauma-informed approaches, motivational interviewing, shared decision-making, and recovery-oriented practices. Integrated approaches will address co-occurring conditions while incorporating suicide risk identification, safety planning, and crisis supports when clinically indicated.

KSMO and AMR will address medical needs identified in the field, while connecting participants to primary care and ongoing medical

services as they transition to treatment and housing stability. STREETS will collaborate with courts, specialty courts, probation, and treatment providers as appropriate to support continuity of care and coordinated treatment engagement.

Monitor Participation and Adherence — Participant engagement and adherence will be monitored collaboratively by outreach staff, clinical providers, and community partners. CAC and VMC outreach workers will provide ongoing follow-up to support participation in McNabb Center services, medication management, appointments, and individualized treatment goals. When appropriate, outreach staff will also support engagement in MDC peer recovery coaching and support groups. For participants involved in justice systems, STREETS will coordinate with legal and treatment partners to support treatment adherence and compliance while maintaining a participant-centered approach. Monthly interdisciplinary case reviews will assess progress, address barriers, and coordinate services, including monitoring treatment and recovery participation for individuals receiving recovery housing support.

Provide Peer Support and Recovery Navigation — Metro Drug Coalition (MDC) will provide peer support and recovery navigation services for participants. Through individual recovery coaching, peer support groups, and recovery-focused community resources, MDC will help participants strengthen recovery connections, build support networks, and maintain engagement in care. MDC's Gateway recovery center will provide additional opportunities for positive social connection and recovery engagement. MDC will coordinate with outreach workers and McNabb Center to ensure peer services align with individualized treatment goals and support continuity of care.

Plan for Step-Down and Continuing Care — STREETS will regularly assess each participant's needs to determine whether additional support, continued services, or step-down strategies are appropriate. Individuals experiencing worsening behavioral health symptoms, substance use challenges, or housing instability will be connected to higher levels of care. Individuals demonstrating stabilization and consistent engagement in treatment will transition to step-down services that maintain recovery while reducing reliance on intensive interventions.

Transition planning will be coordinated with clinical providers, recovery housing partners, and other community supports to ensure continuity of care as participants move between levels of service. Monthly interdisciplinary case reviews and ongoing documentation in HMIS will guide these adjustments, promote shared accountability, and ensure participants receive the right level of support as their treatment, recovery, and housing needs evolve.

Connection to Housing Placement and Recovery-Oriented Transitions

Housing Pathways — Partners will establish coordinated housing pathways for participants who demonstrate treatment engagement and are ready for placement. Using the Treatment-Priority By-Name List, Knox HMIS, and the Coordinated Entry process partners will identify appropriate housing options based on clinical need, housing vulnerability, and participant readiness.

Housing coordination will occur in conjunction with the Office of Housing Stability (the CoC), McNabb Center, recovery housing providers, faith-based organizations, and other housing providers. Available options may include supportive housing, recovery housing, transitional

housing, supervised residential programs, and other community-based housing resources. Utilizing the Coordinated Entry process CHAMP will support coordinated referrals, reduce duplication, and align participants with appropriate placements. Housing progress and outcomes will be tracked through Knox HMIS, with transitions to greater independence supported as participants achieve stability.

Ensure housing placements allow access to and use of FDA-approved medications — STREETS will maintain a network of housing providers that support participants' access to and continued use of prescribed medications, including FDA-approved medications for substance use disorders (MSUDs/MOUD) and psychiatric medications. Housing providers will be vetted to ensure they do not prohibit or discourage prescribed medications that are part of a treatment plan. Through ongoing case conferencing and coordination among housing, clinical, outreach, and recovery partners, STREETS will support appropriate placements, address barriers, and promote treatment engagement and long-term housing stability.

Housing Supports — Outreach workers will coordinate with treatment providers, housing partners, justice systems, hospitals, shelters, and community agencies to support timely housing placement and continuity of care. Housing transition services will include assistance with applications, documentation, identification, benefits, transportation, provider handoffs, and addressing barriers to placement. STREETS partners will coordinate discharge planning for individuals transitioning from treatment, correctional settings, shelters, and other temporary housing situations.

Following placement, outreach workers will provide housing stabilization services through case management, community visits, benefits navigation, healthcare and behavioral health referrals, employment supports, peer recovery connections, and resource coordination. Services will be adjusted as participants demonstrate increased stability and independence.

Provide Sober/Recovery Housing —STREETS will ensure participating recovery housing providers align with SAMHSA's Best Practices for Recovery Housing. Partners will receive the guidance document and acknowledge their commitment to implementing recovery-oriented practices. TNARR-certified residences and providers that support participant safety, autonomy, long-term stability, and continued access to prescribed medications will be prioritized. The STREETS Program Coordinator will conduct periodic site visits and maintain ongoing communication with providers to support quality assurance, continuous improvement, and safe, supportive recovery environments.

Community resources to support self-sufficiency — VMC and CAC outreach workers will connect participants to workforce development and self-sufficiency resources through Knox County's Skilled Trades Academy Regional Training (START) Center, MDC, employers, educational institutions, faith-based organizations, and other community providers. The START Center will provide access to skilled trades education, work-based training, industry exposure, apprenticeships, and employment pathways designed to increase economic stability. STREETS

will also leverage recovery workforce initiatives supported through Knox County's Opioid Settlement Funding and community partnerships to connect interested participants with employment and skill-building opportunities. Outreach workers will assist participants with identifying barriers, accessing resources, and developing individualized pathways toward employment, stability, and long-term self-sufficiency.

Continuous Quality Improvement, Evaluation, and Technical Assistance

Collect and Report Client-Level Performance Data — STREETS will utilize coordinated data collection and reporting processes to track client-level outcomes, including treatment engagement, recovery supports, housing stability, employment and education outcomes, and criminal justice involvement. Participant data will be maintained through Knox HMIS, when applicable, to support documentation, reporting, and care coordination. Subrecipients will collect and report required performance data to Knox County through outcome reports documenting services provided, participant engagement, and program accomplishments. Knox HMIS data, subrecipient reports, and partner coordination will be used to monitor outcomes, evaluate progress, and meet funding requirements.

Leverage Health Information Technology and Data Systems — Knox County will use coordinated health, homelessness, and public health data systems to support STREETS implementation and data-informed decision-making. Knox HMIS will serve as the primary system for tracking participant engagement, services, referrals, housing status, and outcomes while supporting coordination among authorized partners. The Knox County Health Department will contribute relevant EMS, emergency room utilization, and overdose data to help identify high-risk individuals and areas of need.

The environmental scan findings, gap analyses, and hotspot mapping will inform outreach strategies by identifying service gaps, areas of concentrated need, and opportunities to improve access to treatment and housing.

Conduct Ongoing Performance Review and Continuous Quality Improvement — The Program Evaluator will conduct ongoing performance reviews and continuous quality improvement activities to monitor progress, identify gaps, and guide program improvements. The Program Coordinator will review monthly performance data from subrecipients, including services delivered, participant engagement, outcomes, and barriers, in collaboration with the evaluator and Project Director. Quarterly performance reports will be reviewed during stakeholder meetings to assess progress, address challenges, and identify opportunities for improved coordination. Findings from these reviews will guide quality improvement efforts and ensure STREETS remain aligned with program goals and participant needs.

Participate in Evaluation and Learning Activities — Knox County and its partners will participate in all required evaluation activities, performance monitoring efforts, and peer learning collaboratives established by SAMHSA.

Engage in Technical Assistance and Knowledge Dissemination — Knox County and its partners are dedicated to continued learning and improvement through engagement with SAMHSA technical assistance resources, other federal and non-federal partners. Information and guidance gained through these opportunities will be incorporated into ongoing quality improvement efforts,

3. Alignment with SAMHSA Strategic Priorities and Executive Orders 14321 and 14379

Knox County's STREETS project aligns with SAMHSA's strategic priorities and Executive Orders 14321 and 14379 by prioritizing timely access to treatment, recovery supports, and pathways to stability for individuals experiencing homelessness and complex behavioral health needs. The STREETS model addresses the intersection of untreated SUD, SMI, and COD with homelessness, overdose risk, repeated crisis-system involvement, and justice-system contact. By prioritizing rapid engagement, clinical assessment, treatment initiation, recovery support, and housing stabilization. STREETS advances a treatment-first approach that connects individuals to appropriate levels of care while reducing reliance on emergency and crisis systems when avoidable.

The project also supports Executive Order 14321 goals by strengthening coordination with law enforcement, courts, probation, and diversion programs to connect individuals with treatment and supportive services rather than repeated cycles of crisis and incarceration. In alignment with Executive Order 14379, STREETS expands access to addiction treatment, including evidence-based substance use disorder services and FDA-approved medications for substance use disorders when clinically appropriate, while supporting recovery-oriented services that promote sustained wellness and independence.

C: PROPOSED EVIDENCE-BASED PRACTICE (EBP) AND/OR EVIDENCE-INFORMED PRACTICE (EIP)

1. Evidence-Based and Evidence-Informed Practices

The Knox County STREETS project will utilize the following EBP and EIPs:

American Society of Addiction Medicine (ASAM) Criteria ensures individuals receive the right level of care at the right time, prevents under- or over-treatment, and supports individualized treatment planning.

Columbia Suicide Severity Rating Scale (C-SSRS) provides a brief, validated method to identify suicide risk, guide clinical decision-making, and connect individuals to the appropriate level of behavioral health support.

Motivational Interviewing (MI) supports engagement by helping individuals identify personal goals, resolve ambivalence, and build motivation for treatment and recovery through a collaborative, person-centered approach.

Recovery Coaching provides peer-based support that strengthens engagement in recovery, builds hope and connection, and helps individuals access resources and supports needed for long-term stability.

Strengths-Based Case Management (SBCM) supports participant-driven goals, improve engagement, and connect individuals to housing, healthcare, and behavioral health services.

Street Medicine: Street Medicine reduces access barriers, builds trust, and meets people in their environment.

Continuum of Care Approach reduces gaps, strengthens transitions between care levels, and promotes stability.

Coordinated Entry – Coordinated Housing Assessment Match Plan (CHAMP) is a HUD-aligned system for standardized assessment and housing prioritization. It provides consistent assessment, prioritization, and linkage to services.

Medication for Substance Use Disorder (MSUD), when clinically appropriate and combined with counseling and recovery supports, reduces cravings, improves retention, decreases withdrawal symptoms, and supports long-term recovery.

"No Wrong Door" (NWD) Approach is imperative for individuals with COD as it provides universal screening, integrated care, and direct access to treatment.

2. Modifications to EBP/EIP

No modifications are necessary for the STREETS program.

3. Fidelity Monitoring

PRACTICE	FIDELITY STRATEGIES
ASAM Criteria	Staff complete ASAM training Documentation supporting level of care decisions Regular reassessment and quality assurance reviews
Columbia Suicide Severity Rating Scale (C-SSRS)	Consistent administration by trained staff Appropriate documentation of screenings Timely reassessment when clinically indicated Review of safety planning documentation
Motivational Interviewing (MI)	Staff training and supervision Review of documentation for MI techniques Client feedback on engagement MI competency tools used when available
Recovery Coaching	Delivery consistent with peer-support principles Documentation of coaching contacts and recovery goals Participation in supervision Referral and linkage tracking
Strengths-Based Case Management (SBCM)	Strengths incorporated into service plans Documentation of strength-based assessments Monitoring case-management contact frequency Review of referral success and progress toward goals

Street Medicine	Services delivered in unsheltered/community settings Documentation of outreach encounters and screenings Referral and follow-up tracking Verification of continuity in healthcare linkages
Medications for Substance Use Disorder (MSUD)	Adherence to prescribing protocols Completion of medical assessments and follow-up Documentation of medication initiation and treatment response Coordination with counseling and recovery supports
CHAMP (Coordinated Entry)	Use of standardized HUD-aligned assessments Documentation of participant engagement and referral follow-up Annual compliance monitoring of agencies Confirmation of timely linkage to appropriate housing supports
Continuum of Care Model	Documentation of warm handoffs and referrals Tracking transitions between levels of care Monitoring collaboration among service providers Review of participant engagement and retention
Overall Fidelity Monitoring Across All Practices	Staff training completion Supervision and case consultation Documentation review and quality assurance checks Participant feedback and outcome monitoring Annual subrecipient monitoring, including chart reviews and compliance assessment

D: ORGANIZATIONAL EXPERIENCE AND STAFFING

1. Local System Capacity

The STREETS project will be managed by Knox County's Grants and Community Development Department (KCGCD), which administers local, state, and federal funding to support housing stability, opioid abatement, workforce development, and public safety initiatives. KCGCD has the administrative, fiscal, and collaborative infrastructure needed to oversee a complex, cross-system initiative involving behavioral health, healthcare, housing, and justice partners. The Community Service Division will provide project oversight, including fiscal management, contract administration, data monitoring, and alignment with county priorities.

STREETS services will be delivered through qualified community partners with extensive experience serving individuals with complex behavioral health and housing needs. KCGCD has established partnerships with these organizations, as well as with the Knox County Health Department, hospitals, courts, and social service agencies to support coordinated referrals, shared accountability, and effective service delivery.

Through programs such as HUD-funded housing initiatives, U.S. Treasury Emergency Rental Assistance, recovery housing investments, Knox County Opioid Settlement Funding, and

ongoing participation in the Knoxville-Knox County Continuum of Care (CoC), KCGCD has demonstrated the ability to manage complex programs, convene cross-sector partners, oversee data systems, and coordinate services for high-acuity populations. As a HUD Entitlement Community, Knox County has experience investing resources in street outreach, rapid rehousing, permanent supportive housing, and recovery supports that align with STREETS goals. KCGCD also maintains strong partnerships with the Knox County Sheriff's Office, courts, probation, and justice-system programs. Through embedded reentry coordination at the Knox County Detention Center, jail-based case management, and management of the Department of Justice Comprehensive Opioid, Stimulant, and Substance Use Program (COSSUP), Knox County departments support connections to treatment, housing, and community services that promote continuity of care and reduce recidivism.

2. Community Capacity and Activities

Enforcing prohibitions — The Knox County Sheriff's Office (KCSO) enforces prohibitions on open illicit drug use, urban camping in restricted areas, squatting on private property, and ensuring compliance with sex-offender registration requirements. Enforcement is supported by outreach partnerships that help individuals access treatment and connect to shelter when appropriate. These efforts balance public safety with pathways to behavioral health and housing services, aligning with countywide priorities to reduce crisis encounters and improve long-term stability.

Using AOT, civil commitment, and other court-supervised treatment mechanisms — Knox County operates specialized courts designed to address the complex needs of justice-involved individuals with behavioral health conditions. Mental Health Court provides judicially supervised, community-based treatment and support services. Participants receive structured care plans that reduce system involvement and increase public safety. Recovery Court employs continuous, intensive judicial supervision paired with treatment, mandatory drug testing, community supervision, and rehabilitative services. Veterans Treatment Court engages participants through judicial oversight, treatment, counseling, and permanent support. Lastly, Homeless Court helps remove legal barriers to housing and employment by coordinating with outreach teams and service providers. Hearings often include onsite access to resources.

Knox County Probation provides case management and treatment connections for high-risk probationers, many of whom struggle with homelessness, behavioral health challenges, and repeated justice involvement. Additionally, the Knox County Public Defender's Office plays a critical role within this system by staffing licensed social workers who provide case management, recovery housing navigation, and linkage to behavioral health and supportive services for indigent individuals.

Innovative approaches to housing, employment, and educational support — Knox County's homelessness response system integrates emergency shelter, rapid rehousing, permanent supportive housing, and recovery housing models that have demonstrated high rates of housing stability over time. In 2023, Knox County and the City of Knoxville jointly established the Office of Housing Stability to align and coordinate resources to address homelessness.

Knox County invests in education, skills training, and employment pathways that support residents experiencing homelessness, justice involvement, or behavioral health challenges in gaining economic independence. The Skilled Trades Academy and Regional Training (START) Center, overseen by the Community Service Division, serves as a central hub connecting low-income, justice-involved, and unhoused residents to vocational education, job readiness programming, and registered apprenticeships. Knox County's broader network of support services, including access to behavioral health care, recovery supports, transportation assistance, benefits enrollment, identification restoration, and healthcare navigation help reduce barriers to achieving self-sufficiency.

KCSO has installed an ID machine at the Knox County Detention Center to provide individuals with government-issued identification and driver's licenses prior to release. This pilot program for the state of Tennessee removes significant barriers to obtaining housing and employment post-incarceration.

Serving and providing housing-related supports for populations with serious and complex needs — Knox County and its partner network have extensive experience serving individuals with complex needs, including SMI, opioid use disorder (OUD), and polysubstance use. The county's coordinated homelessness response system integrates street outreach, case management, emergency shelter, rapid rehousing, permanent supportive housing, and transitional housing to support individuals requiring stabilization, treatment engagement, and long-term recovery supports.

Behavioral health and housing providers collaborate to provide intensive case management, housing navigation, treatment connections, and individualized supports through appropriate housing models. Coordinated Entry helps identify individuals with the highest needs and connect them to suitable housing interventions, while recovery and supportive housing environments promote treatment engagement and stability.

Knox County also supports justice-involved individuals through pre-release recovery planning at the Knox County Detention Center. A jail-based case manager initiates treatment connections during incarceration and coordinates linkage to treatment and recovery housing prior to release. In 2025, 445 individuals received treatment and reentry support, with 40% successfully completing reentry into the community.

Leveraging innovative technology and data sharing — Knox County maintains strong technological and data-sharing capacity through the CoC, Knox HMIS, and the Knox County Health Department (KCHD). The CoC oversees Coordinated Entry, systemwide prioritization, and multidisciplinary case conferencing, ensuring that individuals with the highest needs are identified and connected to appropriate services. Knox HMIS provides real-time data on shelter utilization, street outreach contacts, referrals, service engagement, and housing outcomes, allowing STREETS partners to share information efficiently and monitor progress across agencies.

KCHD enhances this data network by supplying EMS run data, emergency-room utilization trends, overdose surveillance, infectious-disease monitoring, and syndromic indicators. These

data sources help identify geographic hot spots, emerging public-health risks, and individuals at highest risk for overdose or medical deterioration.

Connecting chronically homeless individuals or frequent users of emergency services with housing — Residents encountered through street outreach efforts, hospitals and emergency departments during repeated crisis presentations, and through EMS responses for medical emergencies or overdose are all connected to Knox County's housing system through Coordinated Entry. Managed by the CoC and Knox HMIS, this process serves as the countywide access point for identifying, prioritizing, and matching individuals with appropriate housing interventions. Through standardized assessment and shared data, Coordinated Entry ensures that individuals with the highest acuity, including those experiencing chronic homelessness or frequently using emergency services, are prioritized for available housing resources. Individuals can access Coordinated Entry through the Knoxville-Knox County Community Action Committee (CAC) and Volunteer Ministry Center (VMC), which serve as primary access centers for assessments and referrals. Emergency departments in the county connect homeless individuals who have come in for overdose or medical emergencies to the McNabb Center for behavioral health assessment, treatment linkage, and care coordination prior to entering the housing system.

3. Project Partners

American Medical Response (AMR) serves as Knox County's emergency medical services provider. AMR responds to overdoses, medical crises, and behavioral health emergencies and will support STREETS through field-based triage, medical stabilization, overdose recognition, and crisis response coordination with outreach and clinical partners.

Knox County Health Department (KCHD) provides public-health oversight, including EMS data, emergency-room utilization trends, overdose surveillance, infectious-disease information, and community health assessments. KCHD supports data-driven decision making and serves as a non-funded stakeholder offering expertise to align STREETS with countywide public-health priorities.

Knox County Public Defender's Community Law Office supports system navigation for justice-involved individuals, including assistance with legal barriers, court compliance, and coordination with treatment providers. Their dedicated social workers will help STREETS clients obtain treatment, behavioral health services, and recovery housing.

Knox County Sheriff's Office (KCSO) supports identification and referral of individuals encountered through enforcement activities, crisis events, and jail-based reentry. Deputies frequently engage individuals experiencing homelessness, behavioral health needs, or substance use in public spaces and will coordinate referrals to STREETS outreach and treatment pathways. KCSO also employs a jail-based case manager who works directly with individuals preparing for release. Warm handoffs to the Knoxville-Knox County Community Action Committee (CAC) will be completed to engage individuals in the STREETS program.

Knox HMIS – University of Tennessee, Knoxville oversees Coordinated Entry, Coordinated Housing Assessment and Match Plan (CHAMP) assessments, systemwide prioritization, and shared data workflows. They will ensure STREETS participants are prioritized for housing, tracked across the continuum, and connected to the most appropriate housing interventions.

Knoxville Street Medicine Outreach (KSMO) provides medical outreach, wound care support, crisis screening, and treatment linkage to individuals in unsheltered settings. KSMO will participate in the STREETS Mobile Clinical Engagement Team providing immediate clinical triage and stabilization.

Knoxville-Knox County Community Action Committee (CAC) is one of Knox County's primary street-outreach and intensive case-management providers. CAC serves as a main access point for Coordinated Entry. For the STREETS project, CAC will provide street-based outreach and contribute to multidisciplinary Mobile Clinical Engagement Team operations. Justice-involved individuals will be referred to CAC. Once an individual is connected to the STREETS, CAC will walk alongside them as their main case manager. Through ongoing case management, warm handoffs to McNabb Center, and monthly treatment-continuity meetings with McNabb, CAC will ensure sustained engagement in treatment. Following stabilized treatment CAC will facilitate housing navigation and connection to other support service needs.

McNabb Center provides the full continuum of behavioral health and substance use treatment services, including assessments, outpatient care, residential treatment, MOUD, crisis stabilization, withdrawal management, psychiatric services, and the Mobile Crisis Team. McNabb will conduct all clinical assessments, determine clinical acuity, and coordinate and monitor treatment for STREETS. Additionally, they will provide behavioral health promotion, psychosocial support, and suicide prevention coordination in partnership with the outreach teams. Clinicians will provide ongoing communication with outreach teams from CAC and VMC, participate in monthly case review meetings to confirm treatment participation and continuity of care, and coordinate transitions between treatment levels based on clinical need.

Metro Drug Coalition (MDC) provides peer recovery coaching, peer support groups, and recovery navigation. MDC also operates The Gateway, offering recovery friendly community spaces that support stabilization and ongoing engagement.

Office of Housing Stability/Knoxville-Knox County Continuum of Care (CoC) oversees systemwide housing coordination. The office will ensure STREETS participants have access to housing resources and supports treatment-first models.

Volunteer Ministry Center (VMC) provides extensive street outreach, case management, and housing navigation services in Knox County and will serve as a core entry point into the STREETS Program, particularly within the downtown Knoxville Mission District and surrounding high need areas. VMC maintains daily contact with individuals living in unsheltered locations downtown and is a primary access point for Coordinated Entry. For the STREETS Program, VMC will conduct street-based outreach, play a central role in multidisciplinary Mobile Clinical Engagement Team operations, and initiate evidence-based treatment referrals in

coordination with McNabb Center. Once an individual is connected to the STREETS Program, VMC serves as the primary case manager for participants, walking alongside each person from initial engagement through treatment participation, housing navigation, and stabilization. VMC staff will participate in monthly treatment continuity meetings with McNabb Center clinicians to confirm treatment adherence, coordinate care transitions, resolve barriers, and ensure continuity throughout the treatment and housing continuum.

4. Key Personnel

Program Director, Sharon Shanks (0.5 FTE) — Provides overall leadership and strategic direction. Oversees implementation, supervises staff, manages partner coordination, ensures compliance, and serves as liaison to SAMHSA. Shanks is experienced in leading complex behavioral health or homelessness programs; strong background in grant administration, cross-system coordination, compliance, and supervision.

Program Coordinator, Vacant (1.0 FTE) — Manages day-to-day operations, documentation, reporting, partner communication, outreach coordination, and data tracking. Candidates should have experience coordinating community-based or behavioral health programs; strong organizational and communication skills; familiarity with trauma-informed and recovery-oriented approaches.

Program Manager, Sarah Bradsher (0.25 FTE) — Oversees all subrecipient contracts, monitors compliance, reviews data and reimbursement requests, and ensures adherence to federal requirements. Bradsher has experience overseeing federal/state grants; skilled in contract monitoring, performance review, compliance, and technical assistance; prior nonprofit/human services experience.

Program Evaluator, Contracted (0.2 FTE) — Designs and maintains evaluation plan, analyzes outcomes data, manages reporting, and guides continuous quality improvement. The contractor should have experience evaluating behavioral-health or public-health programs; knowledge of federal reporting standards.

Budget Manager, Crystal Widener (0.10 FTE) — Manages fiscal oversight, reimbursement processing, budget monitoring, and compliance with SAMHSA allowable-cost requirements. Widener has experience managing multi-source public budgets; strong skills in reconciliation, fiscal compliance, and reporting.

Internal Staff Accountant, Savanah Sommerfield (0.15 FTE) — Supports grant accounting, invoice review, documentation verification, reimbursement processing, and reporting. Sommerfield has experience managing grant financial operations; strong reconciliation and documentation skills; familiarity with public-sector accounting systems.

E: DATA COLLECTION AND PERFORMANCE MEASUREMENT

1. Measuring Performance and Objectives

Knox County's STREETS project will collect performance measures and outcomes using secure data systems and standardized documentation processes across all partners. Participant confidentiality will be protected through compliance with HIPAA, 42 CFR Part 2, Knox HMIS privacy requirements, and Knox County policies. Access to confidential information will be limited to authorized staff, with required privacy training, agreements, and informed consent procedures implemented as applicable.

KCGCD will establish data collection and reporting procedures to support consistent documentation across the project. Data will be maintained through Knox HMIS, electronic health records (EHRs), and KCGCD's grant management platform, Neighborly, in accordance with program requirements. Staff will receive training on documentation standards, confidentiality, and reporting procedures, while KCGCD will provide ongoing technical assistance and monitoring to ensure data quality and compliance. The Knox County Health Department will contribute relevant EMS and public health data to support outcome tracking and identification of trends.

2. Data-Driven Program Improvement and Monitoring

Program supervisors will conduct routine chart reviews and documentation audits to verify data accuracy and ensure services align with program requirements. Monthly data reviews by program leadership will track progress toward objectives, identify trends, and address barriers. Findings will be discussed during monthly and quarterly meetings to guide program adjustments.

Subrecipient reports will be reviewed and approved by the Program Manager and Program Director before reimbursement to confirm accuracy, completeness, and compliance with grant requirements. All subrecipients will also participate in annual monitoring that includes chart reviews, documentation audits, and assessment of performance outcomes. Data gathered through these processes will inform continuous quality improvement, support accountability, and help ensure STREETS remains responsive to participant needs and aligned with project goals.

3. Evaluation, Outcomes, and Quality Improvement

Key performance measures will include individuals served, outreach and engagement contacts, behavioral health and suicide-risk screenings, ASAM assessments, treatment referrals, MSUD initiation and engagement, recovery housing placements, treatment retention, and linkage to community resources. Process measures will assess the program's ability to identify, engage, and connect participants to appropriate care, while outcome measures will evaluate treatment access, recovery engagement, continuity of care, and reductions in service barriers.

KCGCD will review subrecipient data practices through annual monitoring to ensure accurate reporting, compliance with federal and CoC requirements, and alignment with program goals. A contracted evaluation partner will provide independent analysis of outcomes, quality assurance reviews, and recommendations to support continuous improvement. The evaluator will work with the Program Director and Coordinator to review findings, address challenges, and guide data-informed program improvements.

Subject: Letter of Commitment for Knox County SAMHSA STREETS Grant Application

On behalf of American Medical Response, I affirm our commitment to actively participate in and support the objectives of Knox County's application to the STREETS grant program. We pledge to adhere to all program requirements, including compliance with federal guidelines, reporting standards, and collaborative practices, recognizing the importance of this partnership in achieving shared goals.

Our organization is dedicated to contributing to the success of this initiative by conducting joint activities with our street medicine program and educating emergency ambulance crews about additional strategies to advance the goals of the grant

We agree to:

- Participate in regular partner meetings.
- Share relevant data and outcomes for evaluation purposes.
- Coordinate with other partners to ensure integrated service delivery.

Sincerely,

Jerry Harnish

Director of Operations

RE: Letter of Commitment for Knox County SAMHSA STREETS Grant Application

To Whom It May Concern:

On behalf of Knox County Health Department (KCHD), I affirm our commitment to actively participate in and support the objectives of Knox County's application to the STREETS grant program. We pledge to adhere to all program requirements, including compliance with federal guidelines, reporting standards, and collaborative practices, recognizing the importance of this partnership in achieving shared goals.

KCHD is committed to serving as a key stakeholder in the STREETS initiative and will actively support the project's implementation and coordination efforts. We will provide epidemiological data, overdose surveillance trends, and community health assessment information to help the project team identify emerging needs, target outreach effectively, and strengthen ongoing program improvement. We will offer public-health expertise related to communicable disease prevention, environmental health conditions within encampments, and strategies that promote the health and safety of unsheltered individuals. In addition, we will provide guidance on evidence-based practices and ensure alignment with broader countywide public-health priorities. A KCHD representative will provide shared insight and guidance throughout the project on the stakeholder and partner committee.

We agree to:

- Participate in regular partner meetings.
- Share relevant data and outcomes for evaluation purposes.
- Coordinate with other partners to ensure integrated service delivery.

Sincerely,

Michelle Moyers

COMMUNITY LAW OFFICE

Eric Lutton
District Public Defender

Knox County Public Defender's Community Law Office
Intensive Recidivism Prevention Project
Annual Reports, 2010-2024

The Knox County Public Defender's Community Law Office (CLO) received CDBG funding for the Intensive Recidivism Prevention Project from 2007-2024. This funding request package includes annual reports from 2012-2019, as well as monthly client data from 2010-2024. In that time, the Intensive Recidivism Prevention Project worked with CLO's most vulnerable clients at risk of or experiencing homelessness.

The Project provides counseling on housing assistance programs, intensive case management, and referrals to community partners for mental health services, substance abuse treatment, job skills training, and other social services. Social service networks can be extremely difficult to navigate, especially for someone experiencing homelessness. With the help of social workers funded through this project, we are better able to connect our clients to the resources they need to thrive.

From 2010-2024, the Project provided these services to 2,070 clients, averaging approximately 148 clients per year. Historically funding has supplemented a portion of one Forensic Social Worker position at CLO. Toward the end of the program, the funding supplemented a portion of two Forensic Social Worker positions at the CLO.

Annual Reports Summary, 2010-2024	
Program Year	**Clients Served**
2010-2011	253 (87 non-PD client*)
2011-2012	268 (84 non-PD client*)
2012-2013	251 (86 non-PD client*)

KNOX COUNTY SHERIFF'S OFFICE

Tom Spangler
Sheriff

July 16, 2026

Knox County Sheriff's Office
Tom Spangler, Sheriff
400 Main Street, Ste. L165
Knoxville, TN 37902

Subject: Letter of Commitment for Knox County SAMHSA STREETS Grant Application

On behalf of the Knox County Sheriff's Office, I affirm our commitment to actively participate in and support the objectives of Knox County's application to the STREETS grant program. We pledge to adhere to all program requirements, including compliance with federal guidelines, reporting standards, and collaborative practices, recognizing the importance of this partnership in achieving shared goals.

Our organization is dedicated to contributing to the success of this initiative by making community referrals for treatments of various clinical levels, recovery housing, case management, mental health services and other applicable services to assist the individuals with re-entry to the community. Sober living/recovery housing deposits and entry fees are often one of the biggest barriers we face with placement into the community. Providing individuals with stable supportive housing is the first step in their journey to success and decreasing recidivism numbers.

We agree to:

Participate in regular partner meetings.
Share relevant data and outcomes for evaluation purposes.
Coordinate with other partners to ensure integrated service delivery.

Sincerely,

Tom Spangler
SHERIFF

July 2, 2026

KnoxHMIS, UT-SWORPS
Nate First
University of Tennessee Conference Center
600 Henley Street, Suite 224
Knoxville, TN 37996

Subject: Letter of Commitment in Support of Knox County's FY 2026 SAMHSA STREETS Application (SM-26-019)

On behalf of KnoxHMIS, I am pleased to confirm our commitment to support Knox County's application to the SAMHSA Safety Through Recovery, Engagement, and Evidence-Based Treatment and Support (STREETS) program. If Knox County is awarded funding, KnoxHMIS will participate as a partner in implementation of the project in Knox County, Tennessee.

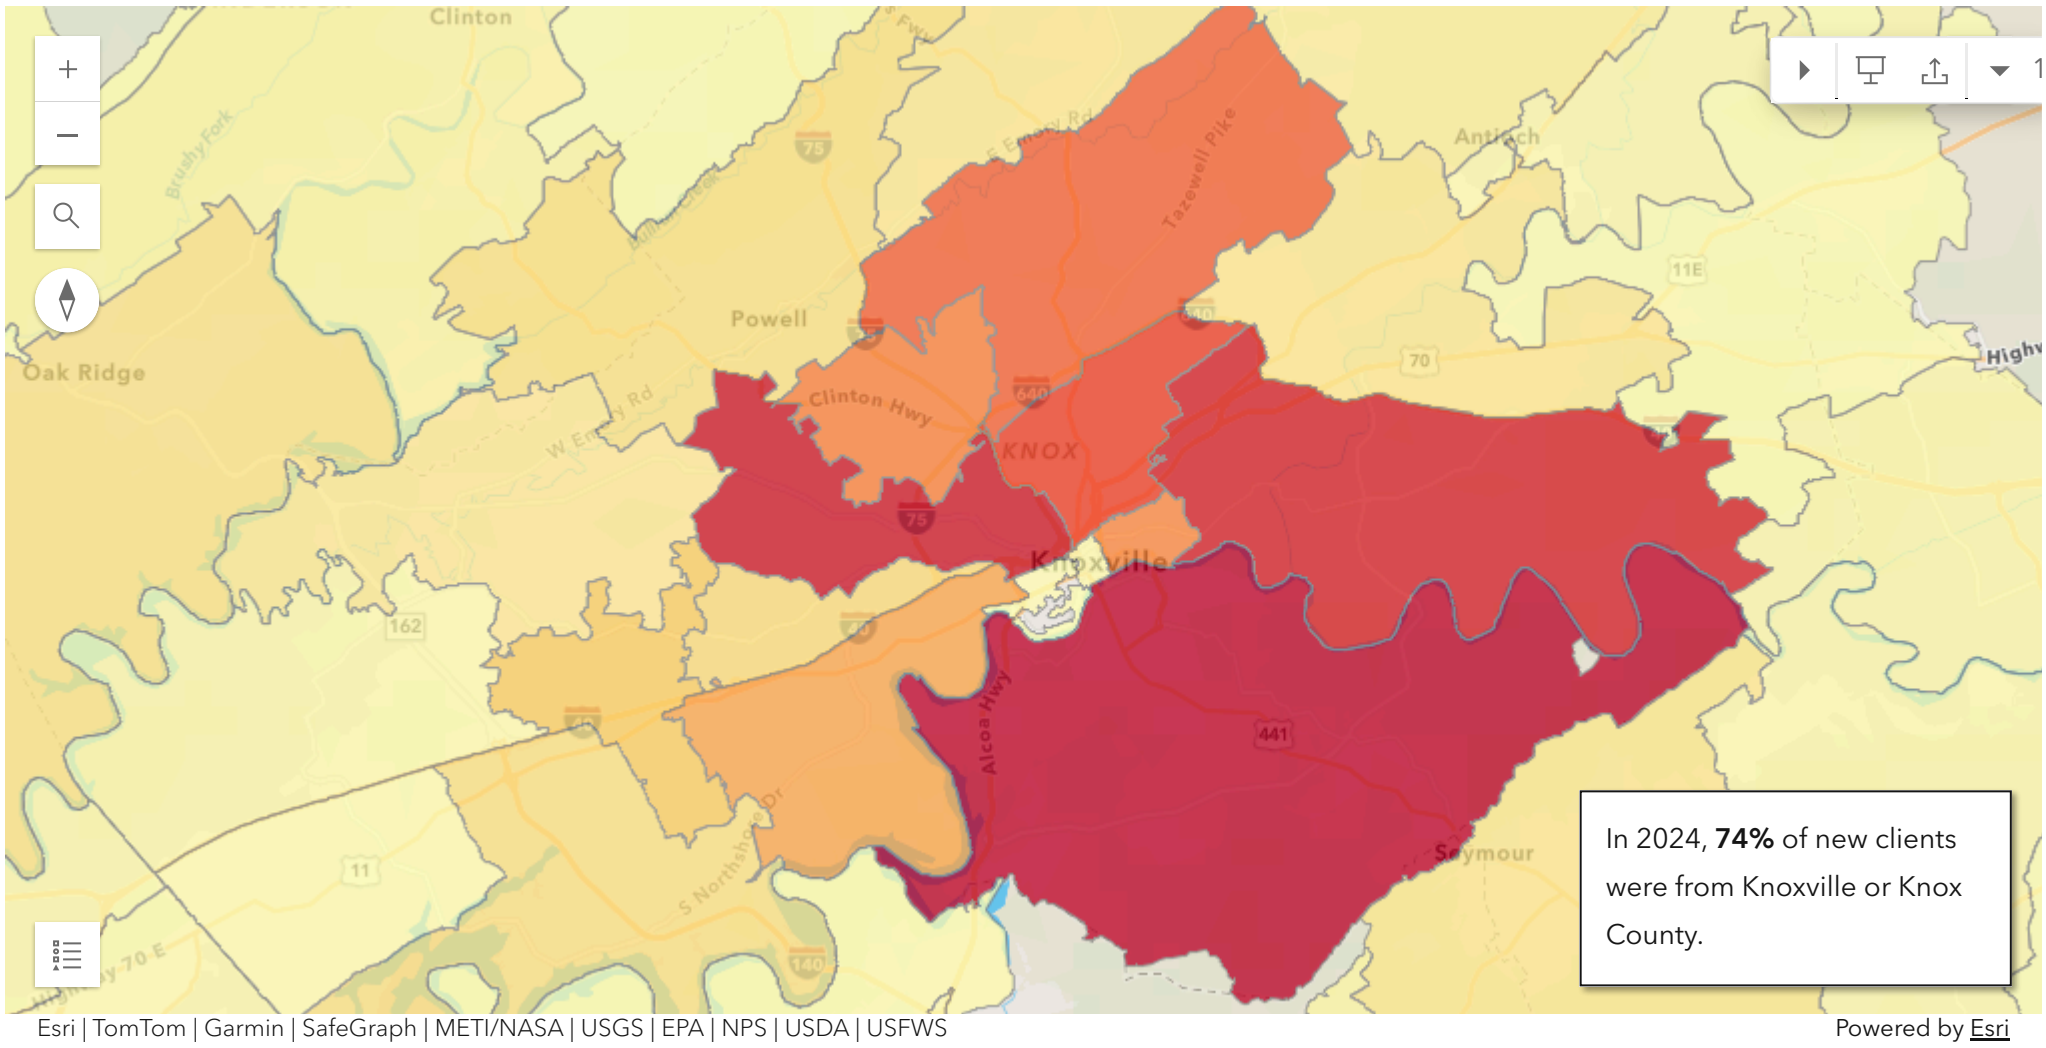
In its role overseeing both the community's Homeless Management Information System (HMIS) Coordinated Entry System (CES) for the Knox Housing Continuum (TN-502), KnoxHMIS is prepared to assist the STREETS initiative by:

- participating in project planning, governance, and regular partner coordination meetings;
- collaborating with Knox County and participating partners to develop and implement HMIS and CHAMP/CES workflows that support referral, enrollment tracking, and care coordination;
- supporting the development and use of appropriate consent and release-of-information processes for participating individuals, consistent with applicable policies and requirements;
- providing training and technical assistance to relevant program staff on agreed-upon HMIS and CHAMP/CES workflows and documentation processes;
- providing aggregate reporting and data support for project planning, performance monitoring, and evaluation; and
- where permitted by participant consent, executed data-sharing agreements, and applicable law and policy, providing relevant client-level HMIS and CHAMP/CES information to support care coordination and program operations.

KnoxHMIS understands the importance of strong data infrastructure and coordinated system implementation to the success of this project. We are committed to working collaboratively with Knox County and partner agencies to support compliant, effective referral, tracking, and reporting processes for the STREETS initiative.

This commitment is contingent upon award and subject to applicable federal, state, and local law; HMIS privacy, security, and data standards; coordinated entry policies; and any required memoranda of understanding or data-sharing agreements.

Sincerely,



Nate First, LCSW, MA
Program Director, KnoxHMIS

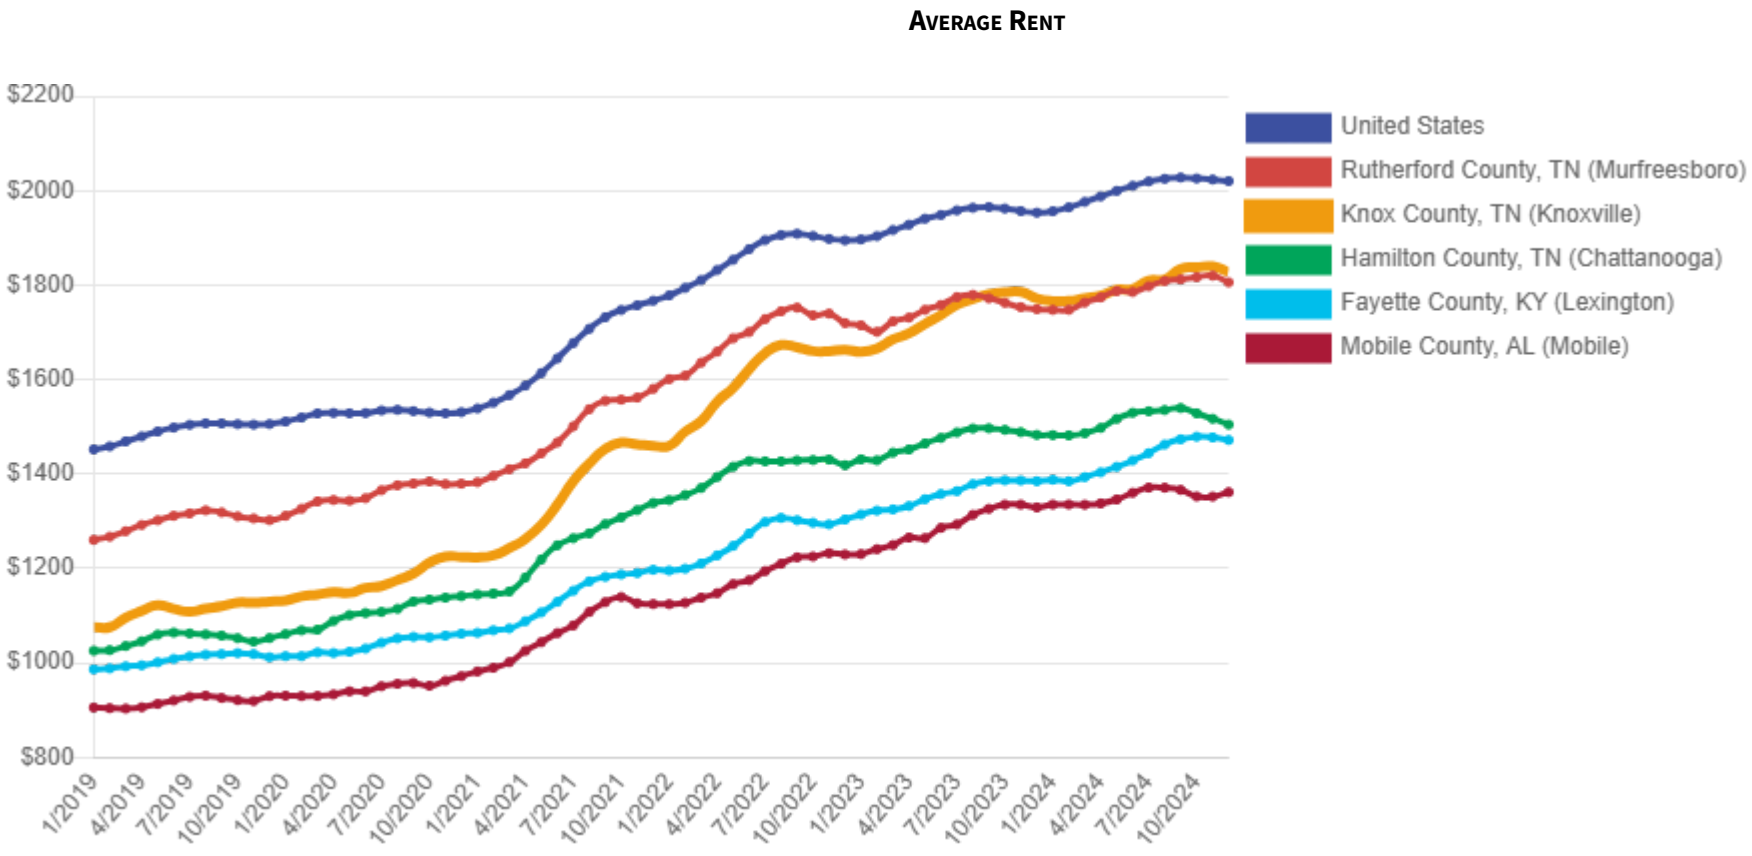
Housing Trends (2024 Annual)

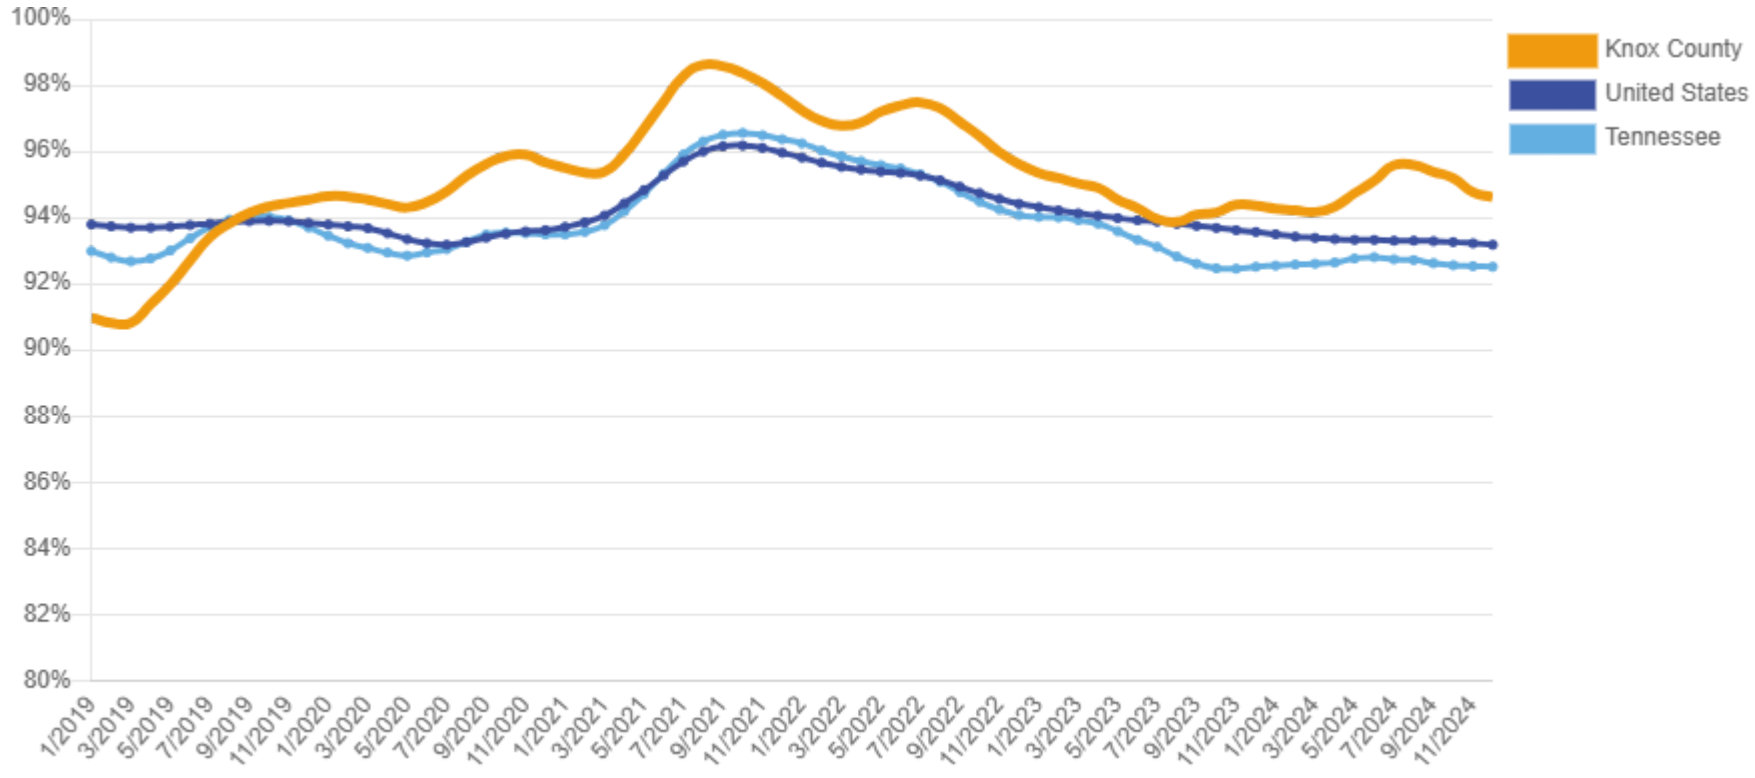
Why Housing Data? Click here to collapse



According to Homelessness is a Housing Problem (https://homelessnesshousingproblem.com/), which we can't recommend highly enough, the reason some cities have more homelessness than others **isn't about individual vulnerabilities**. Cities with higher levels of homelessness don't generally have higher rates of drug use or mental illness, and most communities with higher poverty rates actually have lower levels of homelessness. Instead, when comparing one city to another, **the root causes of homelessness almost always come down to housing**. In particular, as a rule, U.S. cities are more likely to have high rates of homelessness when their inhabitants face two things: **higher rent and fewer available rentals**.

We look at those factors here. **Median rent** compares monthly rental costs between Knoxville, Tennessee, and the United States. Likewise, occupancy rates highlight how “tight” the Knoxville market is compared with state and national trends: the higher the rate, the fewer rental units are available to those in search of housing. It's a salient fact: Knoxville saw the greatest rent growth in the country in 2022 (https://www.nar.realtor/blogs/economists-outlook/2022-commercial-real-estate-top-performers-and-2023-outlook).

As we speak, the City of Knoxville and Knox County, along with local nonprofits and private developers, are actively working to **increase housing stock** in our community. In our view, such developments can't come soon enough. We at KnoxHMIS humbly ask all Knox readers to remember this urgent need for affordable housing – and for all types of housing – when new development is considered in your own neighborhoods. We'll vow to do the same.



NOTE: If you're pressed for time, this 15-minute talk (https://www.youtube.com/watch?v=el_v-o--6G8&ab_channel=NLIHCOrganization&t=6m49s) offers a good summary of the themes in the book mentioned above. Many thanks to East Tennessee Realtors for their insights on housing data. (https://www.etnrealtors.com/)

Average Knox County rent has nearly doubled since 2017, outpacing both the US and Tennessee.

The Knox County housing market has tightened considerably since 2019.

System Performance Measures (2024 Annual)

Key Performance Indicators

Each year, communities across the country use HMIS data to assess the status of homelessness and homeless services through a set of key measures known as System Performance Measures. Here we track six. **Click any measure below** to see trends over time.

Median Time Homeless

179 Days

Median Shelter Stay (ES/TH)

22 Days

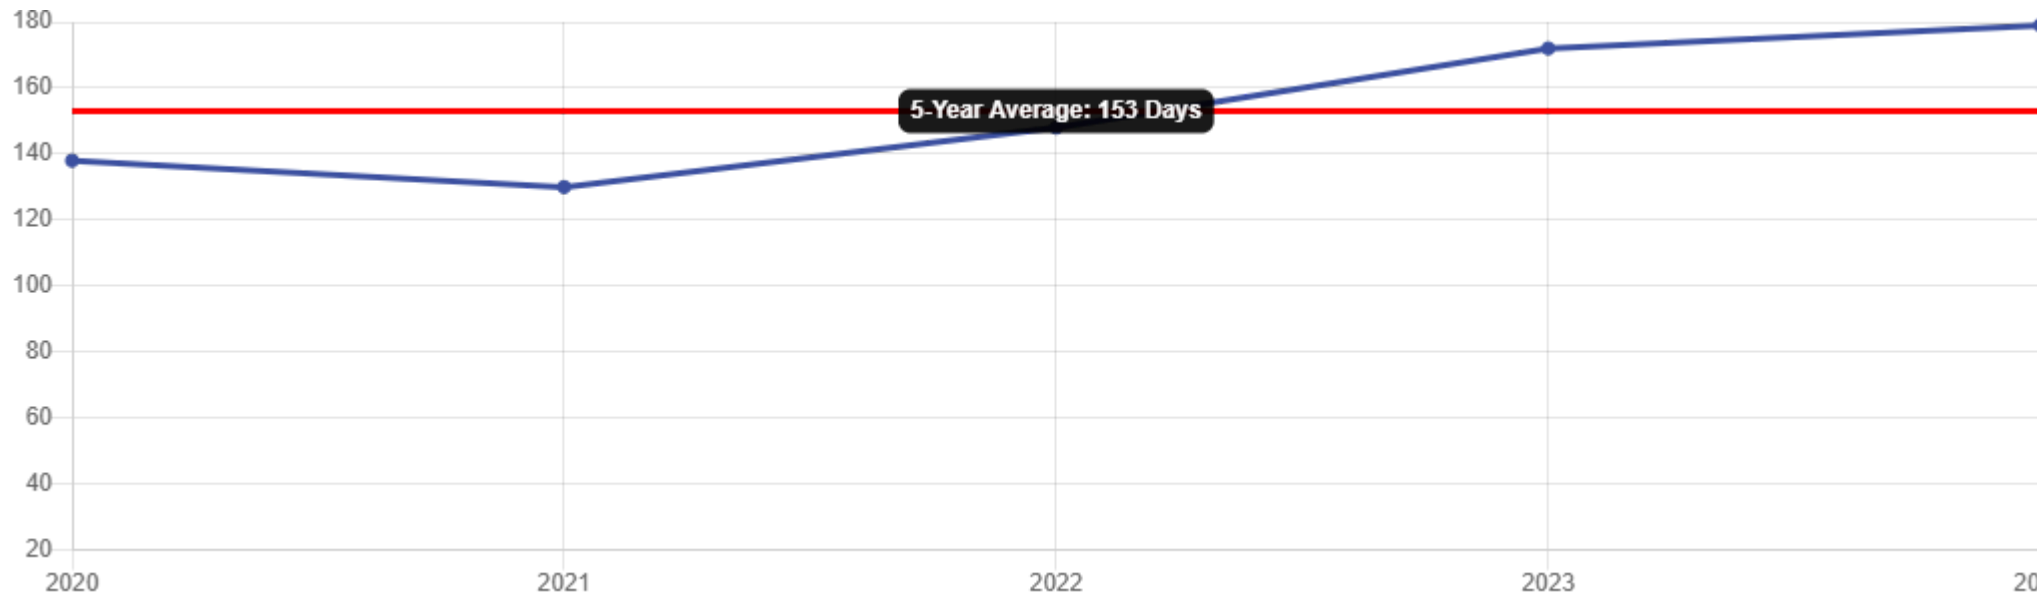
First Time Homeless

2925 New

Returns to Homelessness

14% Returned

Successful Exits



23% Housed

Permanent Housing Retention

91% Stayed Housed

The median duration of homelessness has increased by 63% since 2018 (91 days to 148 days)

Time Homeless (Median Days)

Time Homeless reflects the median duration of homelessness in days for individuals in Emergency Shelter, Transitional Housing, or Rapid Rehousing, by adding time spent in these programs with self-reported time spent homeless before that (e.g., in other shelters, in cars, on the street). In keeping with HUD measures, this count **excludes most Street Outreach clients**, a group which typically has a much longer average times homeless.

Knox Street Medicine Outreach

Danielle Darter MD

812 Montacres Lane

Knoxville, TN 37919

Subject: Letter of Commitment for Knox County SAMHSA STREETS Grant Application

On behalf of Knox Street Medicine Outreach, I affirm our commitment to actively participate in and support the objectives of Knox County's application to the STREETS grant program. We pledge to adhere to all program requirements, including compliance with federal guidelines, reporting standards, and collaborative practices, recognizing the importance of this partnership in achieving shared goals.

Our organization is dedicated to contributing to the success of this initiative by identifying patients that may be appropriate for this program and providing medical evaluation and treatment during our routine street rounds while continuing to collaborate with other organizations in our community serving our neighbors living without shelter.

In addition to providing referrals, medical evaluation and treatment, we agree to:

- Participate in regular partner meetings.
- Share relevant data and outcomes for evaluation purposes.
- Coordinate with other partners to ensure integrated service delivery

Our commitment is completely contingent upon adequate allocation of funding to Knox Street Medicine Outreach from the SAMHSA STREET Grant.

Sincerely,

Danielle Darter MD

KSMO Founder and President

BUILDING A STRONG FOUNDATION

This year we expanded our outreach through the implementation of our Electronic Medical Record (EMR). This system allowed us to provide high quality care to our patients while remaining organized. We were also able to improve inventory tracking and medication management. We continued our street rounds while also treating patients at several stationary clinics including warming centers and collaborative organizations.

CONTINUED COLLABORATION

KSMO worked with many organizations this year to spread awareness and education about the unique challenges those living without shelter experience. Our partnerships allowed us to reach more patients than ever!

GROWTH AND THANKS

This year we continued to grow and provide high quality care to the unhoused in Knoxville! Through generous donations and the hard work of our volunteers, we were able to continue providing care through street rounds and stationary clinics. Toward the end of the year we invited two new volunteer providers into our organization. Their presence allowed us to expand the frequency and reliability of our services!

DR. DARTER'S DETERMINATION RECOGNIZED

Our beloved Dr. Darter was honored with the Metro Drug Coalition Community Champion Award for Outstanding Healthcare Provider! This award represents the dedication she has shown towards the health of the unhoused.

Knoxville, TN 37918

Subject: Letter of Commitment for Knox County SAMHSA STREETS Grant Application

Dear Jody Van Horn,

The purpose of this letter is to support Knox County's application to the STREETS grant program through SAMHSA. As a major service provider to individuals experiencing homelessness and to people experiencing mental health symptoms and/or those who are in need of substance use treatment, the McNabb Center recognizes the importance of this partnership in achieving shared goals.

The McNabb Center provides the following services through a variety of programming that will accept referrals from individuals encounters through the STREETS outreach efforts:

- Assistance with coordinating outpatient mental health services, including community-based treatment options where clinically appropriate.
- Assistance with coordinating treatment for substance use and co-occurring disorders.
- Coordinating referrals for services as the need is identified.
- Participating in community partner meetings
- Coordinating with community partners to ensure integrated service delivery.

We appreciate the effort you and your staff are making to apply for the STREETS grant program for the community. We believe that these efforts will have a significant impact on the people we have partnered to serve.

Sincerely,

Mona Blanton-Kitts
President/CEO
McNabb Center

WELL MIND, WELL BEING

ANNUAL SERVICES REPORT | 2023-2024

GAIL AND CARL VAN HOOZIER

Laughter. Kindness. Community.

Photo by Charles Brooks

Gail Van Hoozier looks across the small table and smiles at Carl Van Hoozier, her husband of 34 years. "I'm a better person because of him," she says. Carl quickly waves off the compliment and begins praising her numerous charitable endeavors. Gail actively supports many organizations in the community serving as the Co-President of The Guild of the Knoxville Museum of Art, on the board for Special Growers in Maryville, an active committee chair at Cokesbury United Methodist church and on the Dean's Board of Advisors for the College of Education, Health and Human Services at the University of Tennessee.

Carl Van Hoozier is one of the longest standing Helen Ross McNabb Foundation Board and McNabb Center Board members. On the Helen Ross McNabb Foundation Board in particular, Carl served six consecutive years, then one as chair and one as immediate past chair. He was instrumental in growing the Russell Biven Clayfest tournament which in its history has raised over $2 million for the McNabb Center.

"When Carl decides to join a board, he gives 100 percent," said Gail. "He does his research and really works hard for the organizations." Because of Carl's active approach to service, he's a familiar face at Foundation and Center events—attending board meetings and ribbons cuttings, volunteering at Clayfest and even grilling hot dogs at the annual Bob Kesling and Bert Bertelkamp Golf Tournament snack shack.

In addition to the McNabb Center, Carl has been involved with the Volunteer Ministry Center, JDRF, Boy Scouts, Ijams Nature Center, Maryville Kiwanis, Blount County Chamber of Commerce and Blount County Education Foundation.

The Van Hooziers work together on projects for Special Growers, an organization that provides work opportunities for children and adults with special needs. The greenhouses used by Special Growers are located on land donated by Vulcan Materials where Carl worked for more than 35 years.

"Vulcan was very supportive of employees working with organizations in the community and allowing time for us to attend meetings and contribute," said Carl.

Carl began his career at Vulcan Materials Company mowing yards as a teenager. After working through college at Vulcan and then graduating from the University of Tennessee with a Bachelor of Business Administration degree, Carl continued working in the Knoxville division office of Vulcan as the quality control coordinator. He held several positions in Knoxville, Kingsport, Chattanooga and Nashville including District Sales Manager, Ready Mix Plant Manager, Nashville Operations Manager and Regional Sales Manager. He retired in 2020 as Manager of Process Improvement, Manager of Community Relations and Government Affairs. It was during this time that Carl joined the Helen Ross McNabb Foundation board which helped initiate 17 years of philanthropic support for the McNabb Center from Vulcan Materials.

While working at Vulcan and volunteering in the community, Carl remained an active parent to their two daughters, Kendall and Erin, and a devoted husband to Gail throughout her 30+ year career in retail business development. Her work with Sanrio Hello Kitty and Saban Brands Power Rangers took her across the country frequently, leaving Carl to manage their household. Gail teased, "One time I was leaving for a few days, and I spent a long time prepping and freezing meals for Carl and our girls, and you know what he fed them while I was gone? SPAM!" In response, Carl just leaned back and grinned.

Carl's humble, relatable attitude and perpetual smile belies an intelligence and business acumen that has benefitted the McNabb Center in many ways. Carl used his experience in legislative affairs with Vulcan Materials to advocate for services in support of Center clients, and he understands what it takes to be a good neighbor. He has been vocal in sharing the McNabb Center's mission.

"The Center's work goes beyond just treatment," says Carl. "It's about creating lasting change. I wish the community knew just how comprehensive and far-reaching the services by the McNabb Center truly are. Whether it's through helping someone achieve recovery, providing a safe environment for children or supporting families in crisis."

The Van Hooziers exemplify the mission of improving lives, and the McNabb Center is proud to dedicate the 2023-2024 McNabb Center Annual Services report to Gail and Carl Van Hoozier.

LETTER FROM THE CEO

Opportunity and Growth

The McNabb Center had a year filled with opportunity and growth! Our mission of "improving the lives of the people we serve" has been on display as we do vital work in our community daily. Our staff's dedication is making a profound impact on the lives of children, adults and families across all of East Tennessee.

The Center was successful in securing funding to provide services to combat the opioid epidemic. These funds were made available as part of a historic class-action law suit against pharmaceutical companies responsible for fueling the opioid crisis. While the harm caused by the crisis cannot be undone, these funds will drive innovation and provide help to those affected by opioids. The Center has created programming including the Blount County Transition Center, expanded Re-Entry programs known as "Jail to Work" and a comprehensive recovery continuum for adults. Additionally, we are forging powerful collaborations in Judicial District 10 (Bradley, Polk, McMinn and Monroe counties) to ensure access to care and resources for those adults in the judicial system who are struggling with addiction.

In a time when workforce challenges continue to plague our industry, we have not only held steady—we have thrived. McNabb staff have embraced new approaches to staff well-being, launching comprehensive programs that focus on physical, emotional, financial and social wellness. We have invested in a strategic Compassion Science initiative knowing that compassion across all aspects of the organization results in improved outcomes both for our customers and for the company. Additionally, our commitment to Inclusive Excellence is unwavering—ensuring that every voice is valued and every person feels a sense of belonging.

Our work at the McNabb Center is made even stronger through the support of our Helen Ross McNabb Center Foundation. Our foundation is more than a philanthropic entity; it is a vital force that allows us to respond swiftly and effectively to the changing needs of our community. By combining community generosity with our deep commitment to service, we have built a resilient organization that can expand and adapt, offering essential care when and where it is needed most.

The Foundation and the Center's impact is amplified by the dedicated volunteers who give their time and talent to support our mission. Our volunteers bring a spirit of compassion and generosity that is truly inspiring. This year alone, volunteers contributed a remarkable 44,574 hours, further enhancing our ability to improve lives.

Helen Ross McNabb's legacy lives on in each of us, and I know she would be proud of how far we've come. Together, we are building a future full of hope, healing and opportunity for all.

With appreciation,

FISCAL YEAR 2024

Sources and Uses of Funds

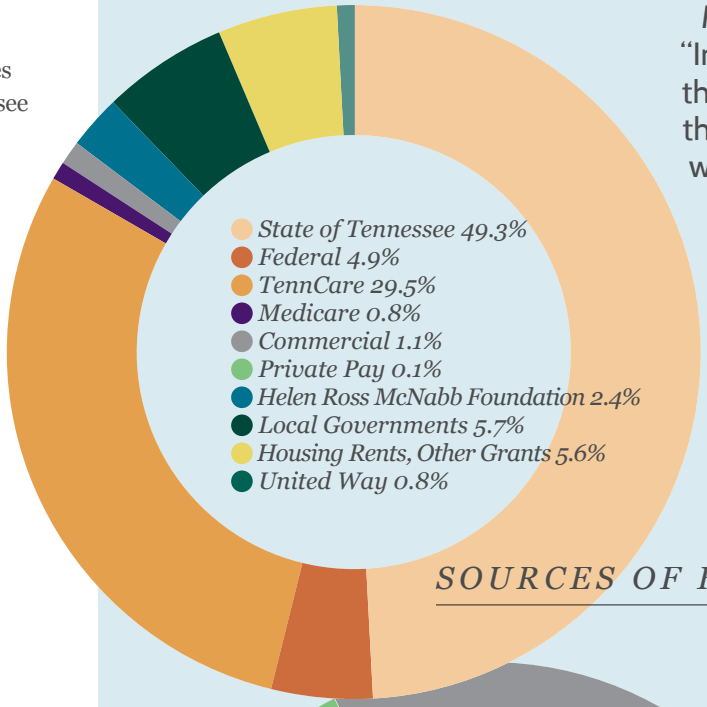
The McNabb Center relies on a diverse group of funding sources, which makes the Center unique in its operation and provides solid financial strength. The Center receives grants from the federal government and state of Tennessee through various agencies, including:

- TN Dept. of Children's Services
- TN Dept. of Criminal Justice Programs
- TN Dept. of Education
- TN Dept. of Health
- TN Dept. of Housing Development Agency
- TN Dept. of Mental Health & Substance Abuse Services
- TN Division of Tenncare
- TN Treasury Dept.
- US Board of Probation & Parole
- US Dept. of Agriculture - Dept. of Education
- US Dept. of Agriculture through TN Dept. of Agriculture
- US Dept. of Education
- US Dept. of Health & Human Services
- US Dept. of Housing & Urban Development
- US Dept. of Justice
- US Dept. of Justice through Office of Criminal Justice Programs

The Center also receives funding from various local governments, including:

- Blount County
- Blount County Schools
- Campbell County
- City of Alcoa
- City of Gatlinburg
- City of Knoxville
- City of Maryville
- City of Morristown
- City of Oak Ridge
- City of Pigeon Forge
- City of Sevierville
- Claiborne County
- Cocke County
- Eastern Band of Cherokee Indians
- Hamblen County
- Knox County
- Knox County City of Knoxville E911
- Knox County Schools
- Knox County Sheriff's Department
- Knoxville Police Department
- Lenoir City
- Sevier County

Other sources of revenue include:



- Client Service Fees
- Commercial Insurance
- Helen Ross McNabb Foundation
- Local Hospitals
- Local Universities & Colleges
- Maryville City Schools
- Medicare
- Other Local Non-Profits
- Private Pay
- United Way of Anderson Co.
- United Way of Blount Co.
- United Way of Greater Chattanooga
- United Way of Greater Knoxville
- United Way of Hamblen Co.
- United Way of Jefferson Co.
- United Way of Loudon Co.
- United Way of Sevier Co.
- University of Tennessee

BOARD OF DIRECTORS 2023–2024

The Center is governed by a volunteer board of directors. Board members have the responsibility to create and evaluate policy and organizational goals regarding the Center's finances and services. Board members are elected to serve a three-year term and may serve two terms consecutively.

CENTER MISSION

Improving the lives of the people we serve; helping children, adults, and families with substance use, mental illness and social challenges.

CENTER VISION

To be the premier provider of high quality behavioral health and social services through a continuum of care focusing on our clients first and foremost, delivering quality services, demonstrating effectiveness, inspiring our staff and building upon the spirit of our founder.

Special thanks

to the Marketing and Public Relations Committee: Laura Shamiyeh, Jason Bohne, Cindy Sexton, Claire Speight and Traci Topham.

MENTAL HEALTH SERVICES

CARF® International is an independent, nonprofit accreditor of health and human services. Through accreditation, CARF assists service providers in demonstrating value by the quality of their services and meeting internationally-recognized organizational and program standards. Learn more at CARF.org.

The McNabb Center's **Emergency Psychiatric Assessment, Treatment and Healing (EmPATH)** unit is an innovative approach to meeting the needs of individuals in crisis, and their families, often at their most vulnerable time. EmPATH transforms the way individuals experiencing a psychiatric crisis access emergency services providing a rapid, comprehensive assessment and continual re-assessment from a psychiatrist/psychiatric nurse practitioner along with a multi-disciplinary team in a calm, soothing environment while simultaneously providing access to urgent medical care needs. Providers serving individuals with mental illness are able to refer directly to EmPATH and bypass emergency departments.

Until the EmPATH unit opened in the Knoxville area, most individuals experiencing a psychiatric emergency were directed to emergency departments (ED) due to the need for medical evaluations, or patient acuity. Once at the ED, individuals would spend 3x longer than other patients, most often being boarded, and awaiting a higher level of care. The lengthy wait time paired with the environment of most EDs has been found to exacerbate an individual's symptoms, reducing the opportunity for diversion programming and increasing the referral for inpatient psychiatric hospitalization.

Research also shows that over 75% of severe psychiatric emergencies can be stabilized within 23 hours. Providing specialized care reduces unnecessary emergency department visits, increases tenure in the community and diverts from unnecessary psychiatric hospitalization due to delays in care.

In collaboration with local hospitals, the City of Knoxville, Knox County, the Tennessee Department of Mental Health and Substance Abuse Services and the McNabb Center, the EmPATH unit opened on June 3, 2024. This innovative, researched-based model was created by Scott Zeller, M.D., and the McNabb Center is the first organization to implement an EmPATH unit in Tennessee.

One of the most revolutionary aspects of the unit is the physical environment itself. EmPATH is a trauma-informed unit which offers a home-like care setting where relaxation, movement and recreation are encouraged. The high ceilings, ambient light and soothing décor all contribute to the calming environment which is designed to best meet patient needs. Individuals have the option to walk around, listen to music, serve themselves snacks or lay back in the recliners of the common area while in the unit. The set up facilitates socialization, discussion, interaction and treatment.

Ribbon cutting for the McNabb Center's new EmPATH Unit located in Knoxville, Tennessee.

SUBSTANCE USE SERVICES

OPIOID ABATEMENT COUNCIL

The McNabb Center was awarded a total of over $20 million to be used over the next three years from the Tennessee Opioid Abatement Fund. This significant award fuels important initiatives in our community, including:

New Blount County Transition Center

The New Blount County Transition Center offers support for individuals navigating the challenges after release from incarceration. It includes 32 units of recovery housing.

Jail to Work Re-entry Program

The Jail to Work Re-entry Program helps those affected by the opioid crisis reintegrate into the workforce and break the cycle of addiction. This program is available in Hamblen, Blount and Claiborne counties. Additionally, funding allows for a partnership with the Jefferson County Jail to provide MAT services.

Opioid Use Disorder Comprehensive Recovery Continuum

The Opioid Use Disorder Comprehensive Recovery Continuum expands access to life-saving treatment and support services. It serves 16 counties in the East Tennessee region.

Judicial District 10 Collaborative

The Judicial District 10 Collaborative provides MAT treatment and recovery support services to individuals being released from jail in Bradley, McMinn, Monroe and Polk counties.

This funding was made possible through the Tennessee Opioid Abatement Council's first-ever community grants. These grants are a result of Attorney General Jonathan Skrmetti's tenacious efforts to hold companies accountable for their role in the opioid crisis. The McNabb Center is ready to put this funding to work; strengthening our community and saving lives.

VICTIM SERVICES

SEXUAL ASSAULT CENTER OF EAST TENNESSEE (SACET)

The Sexual Assault Center of East Tennessee's advocacy department provides survivors of sexual assault with support, information and resources needed throughout the recovery process.

74%

of clients served reported their sexual assault to law enforcement.

92%

When requested, Sexual Assault Nurse Examiners arrived to the hospital within 1 hour for 92% of calls received.

FAMILY CRISIS CENTER SHELTER

The Family Crisis Center seeks to meet the need of acute outpatient assessment, response, referral, and treatment services for children's needing additional support in their natural environments.

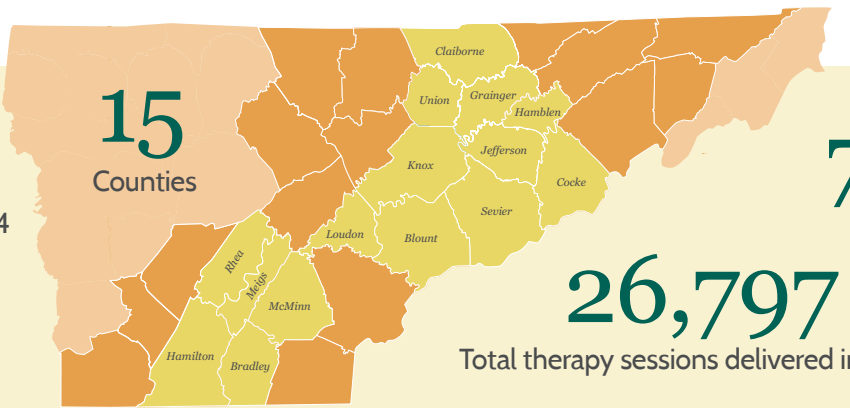
100%

of clients reported an increased sense of safety.

93%

of clients reported that the program helped them achieve the goals they set out to accomplish.

SCHOOL-BASED SERVICES



In 1992, the McNabb Center and Knox County Schools collaborated to offer a specialized classroom for children at-risk for psychiatric hospitalizations. The success of the program was immediate and unquestionable as the hospitalization rates were reduced by over 90%.

Today, 32 years later, the McNabb Center's school-based services have grown exponentially; adding new districts, new staff and new programming targeted for students, families and school staff.

> "You helped me raise my son in the darkest time in our lives. Gave him what I literally couldn't give anyone myself. I will forever be grateful for you. You were perfectly placed where you need to be."

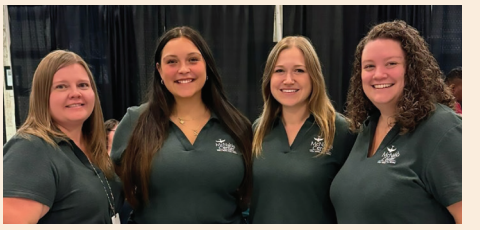
NEW PROGRAM: TENNESSEE RESILIENCY PROJECT



The Tennessee Resiliency Project (TRP) school-based crisis response team partners with schools in TDMHSAS Region II (16 counties) to provide trauma-informed consultation, education, training, crisis support, screening, assessment and referral/linkage to students, staff and schools. This program also supports and offers debriefing to school when suicides or community violence occurs.

In FY24, 24 additional school-based behavioral health liaisons were funded by TDMHSAS.

Above: Kaylie James leads a training for parents at a family engagement night in Blount County. Top right: TRP school crisis response team, Kelly Hurley, Selena Rivera, Emily Hoekstra, and Jamie Adams.

> "We are very grateful for the time, effort and expertise from the TRP team as they supported our staff during a recent event. The team from McNabb was available for our staff as they returned to school following the loss of a staff member. Our staff was able to speak individually with the team to seek support as they worked through the anxiety and strong emotions. We are so thankful to have had this opportunity and believe it has set our staff on a positive path to healing."
>
> *—Mrs. Lisa M. Downard, Principal, Oak Ridge Schools*

EVENTS

Old Ringgold Supportive Housing Beds Expansion

The McNabb center celebrated the expansion of our **supportive housing** in Chattanooga. The addition of these four beds brings the total number of supported living beds to 64 for the area of Chattanooga.

The McNabb Center's supported living services seek to provide permanent, safe, affordable housing to adults who are homeless and are experiencing symptoms of a mental illness.

This expansion is possible due to the financial support from the Tennessee Department of Mental Health and Substance Abuse Services grant, Creating Affordable Housing, an expansion of the Creating Homes Initiative.

Genoa Healthcare Pharmacy in Blount County

The McNabb Center and Genoa Healthcare celebrated the opening of the new **Genoa Healthcare Pharmacy** located inside the McNabb Center's Blount County Clinic on East Broadway.

Blount County Recovery Housing Dedication

The McNabb Center celebrated the opening of a **new women's recovery home** in Blount County. The 10-bed house is a safe, healthy and sober living environment where women have access to the aftercare they need to maintain a successful recovery from substance use disorder and transition back into the community. The home was dedicated in honor of Richard and Joni Maples, longtime supporters of the McNabb Center.

COMING 2025

The McNabb Center Breaks Ground on New Knox Women's Recovery Campus

This **innovative residential complex** will feature transitional and recovery housing units, group spaces, office space and a playground. Our goal is to provide a safe, healthy environment where women can heal and recover while learning essential skills for safety and independence.

AWARDS

Crisis Services Excellence Award

The McNabb Center won the Crisis Services Excellence Award for our Comprehensive Crisis Continuum at the Tennessee Statewide Crisis Services & Suicide Prevention Conference hosted by Tennessee Department of Mental Health and Substance Abuse Services.

Many of these programs are the first of their kind in the state and meet the needs of East Tennesseans experiencing a mental health emergency.

Serving children and adults, McNabb's Continuum includes:

- Family Walk-In Center
- Children's Crisis Stabilization Unit (CCSU)
- Mobile Crisis Unit (MCU) Expansion and Specialization
- Adult Crisis Stabilization Unit East & Upper East Tennessee
- Co-Response
- Behavioral Health Urgent Care Center (BHUCC)

UTK Alumni Awards

Mona Blanton-Kitts was recognized at the UTK Alumni Awards Gala. The Alumni Professional Achievement Award recognizes alumni who have a record of notable career accomplishments and a history of outstanding contributions to their profession. The award is presented to acknowledge their success which brings honor and credit to The University of Tennessee.

Instructor of the Year

Shea Hightower was awarded UTK College of Social Work Field Instructor of the Year.

Hope Ambassador

Rachel Loveday, Centerpointe clinical services coordinator, was honored as a Hope Ambassador for the Rx and Illicit Drug Summit. The Hope Ambassadors program highlights stories of recovery from individuals with personal experience and those who have impacted the journey of others.

Phil Acord Award

Janet Jenkins, Vice President of Organizational Culture & Advancement, received the Tennessee Alliance for Children and Families Annual Phil Acord Award. Over two decades, Janet has helped transform the McNabb Center's Foster Care program, helping 235 children find forever homes and securing nearly $15 million for vital programs. Her statewide advocacy and innovative initiatives have left an impactful mark on the community.

Clockwise from top: McNabb Center staff accept Crisis Services Excellence Award, Shea Hightower, Janet Jenkins, Rachel Loveday, and Mona Blanton-Kitts.

ANNUAL SERVICES REPORT | 2024 - 2025

McNabb Center

DAVID AND NEIL GOODSON

Volunteerism from the Heart

"The Center is not just mental health or addiction services—it's housing, crisis services, children's programs, domestic violence support and so much more," said David Goodson explaining what he wants everyone to know about the McNabb Center. David became an advocate for the Center almost 30 years ago when he learned about the important role that it plays in the Knoxville area.

David has become more connected to the Center throughout the years with his primary focus serving on fundraising and event committees, such as Clayfest, the annual Spirit Award banquet, and most recently, the Family Walk-In Clinic. "We became more involved in the mission of the Center and Centerpointe, a 28-day program for individuals struggling with drug misuse," shared David. Together with longtime friend Dan Standish, David has been instrumental in funding some of the improvements to the Centerpointe building. The substance use treatment center is currently undergoing renovations that will increase its services to help additional clients.

DAVID GOODSON AND NEIL GOODSON

Photo by Charles Brooks

Because of David's activity with the McNabb Center, his son, Neil Goodson, began supporting Center programs too. "After touring the Centerpointe facility, I was taken back by the number of people needing help. It speaks to the importance of the McNabb Center providing those addiction and detox services as well as other mental health services in our community," said Neil.

Neil has also been part of planning fundraising events such as Sunset Shenanigans. "It's a really unique, fun event and I think it is great exposure for the McNabb Center," he added.

"The most rewarding part has been seeing how lives are truly changed. Hearing the stories of those who've come through the Center—who have rebuilt their lives and found stability—makes you realize how much impact this organization has," said David. Having seen the real, direct effects in the community from Center staff members and knowing that drug misuse crosses all socio-economical divides, the Goodsons established the "Ben Goodson Gratitude Fund" which provides funding to support Center services. "As a society we have a moral imperative to take care of those who can't take care of themselves," stated David.

David has been part of other non-profit organizations and public service work in the community for years, "but at the end of the day, the McNabb Center is where our heart is and where we really want to spend our resources and our time," said David. "It's touched our hearts in so many ways."

Other organizations David has given his time and talents to are the Holston Foundation, Scenic Knoxville Board, as well as being a member of the Trinity Healthcare Board and a United Way committee member.

The Goodsons continue to share the work that the Center has made in the lives of others, and they encourage others to know that "even a small donation can change the course of someone's life." We are honored to dedicate the 2024-2025 McNabb Center Annual Services Report to David and Neil Goodson.

LETTER FROM THE CEO

Resilience, Service and Community

In the past year, the McNabb Center has continued to live out its mission of "improving the lives of the people we serve." Across East Tennessee, our staff has shown remarkable resilience, service and dedication to the community; meeting growing needs with innovation, expertise and heart.

One of the most significant developments this year has been the continued expansion of the Co-Response Program. As communities across the nation search for better ways to respond to the behavioral health crisis, the McNabb Center remains proud to be part of the solution here in East Tennessee. In 2025, we expanded our program by adding two additional crisis response teams bringing the total to six teams. Each team includes a master's level clinican and a specialty-trained police officer. These teams are helping ensure that people experiencing mental health crises receive care, stabilization and connection to services. Individuals are given immediate support when it matters the most rather than unnecessary involvement with emergency departments or the justice system.

Our commitment to community was also evident in the way our staff responded during Hurricane Helene disaster relief efforts. Time and again, our team members demonstrate that service is not just what we do, it is who we are. Many stepped forward to support response efforts by providing resources, assistance and compassionate care to those impacted. We are incredibly proud of the staff who volunteered their time and expertise to help our neighbors during this challenging time.

This year also marks an important milestone for the Emergency Psychiatric Assessment, Treatment and Healing (EmPATH) unit, which continues to transform how behavioral health emergencies are addressed in our region. In its first year of operation, the EmPATH unit served 1,733 individuals, offering a therapeutic, patient-centered alternative to traditional emergency department care. By providing rapid access to behavioral health treatment in a calming environment, this program is helping individuals stabilize more quickly while reducing the strain on local hospitals and emergency services.

The spirit of generosity in our community was on full display through the continued growth of our Dear Santa program. Thanks to the incredible support of partners and volunteers, and a remarkable toy donation this year, we were able to expand the program and bring joy to even more children and families during the holiday season.

These accomplishments reflect the strength of our staff, the generosity of our community and the power of collaboration. As behavioral health needs continue to rise nationwide, we remain steadfast in expanding access through compassionate, evidence-based care. We are grateful for the individuals and families who trust us with their mental health care every day and the dedicated staff who choose to join us in fulfilling the mission and vision of Mrs. Helen Ross McNabb.

Together, we are building a future filled with hope, healing and opportunity for all.

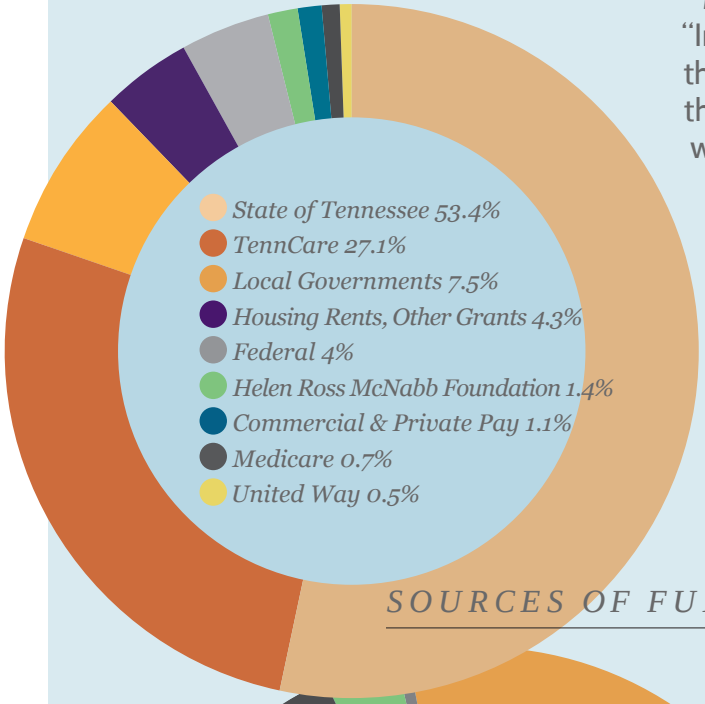
Sources and Uses of Funds

The McNabb Center relies on a diverse group of funding sources, which makes the Center unique in its operation and provides solid financial strength. The Center receives grants from the federal government and state of Tennessee through various agencies, including:

- Appalachian Regional Commission
- TN Dept. of Children's Services
- TN Dept. of Education
- TN Dept. of Finance & Administration Office of Criminal Justice Programs
- TN Dept. of Health
- TN Dept. of Human Services
- TN Dept. of Mental Health & Substance Abuse Services
- TN Division of TennCare
- TN Opioid Abatement Council
- TN Treasury Dept.
- US Board of Probation & Parole
- US Dept. of Agriculture
- US Dept. of Education
- US Dept. of Health & Human Services
- US Dept. of Housing & Urban Development
- US Dept. of Justice
- US Dept. of Justice - TN Dept. of Finance & Administration Office of Criminal Justice Programs
- US Dept. of Treasury

The Center also receives funding from various local governments, including:



- Blount Co.
- Blount Co. Schools
- Campbell Co.
- City of Alcoa
- City of Knoxville
- City of Maryville
- City of Morristown
- City of Oak Ridge
- Claiborne Co.
- Cocke Co.
- Hamblen Co.
- Hamilton Co.
- Jefferson Co. 911
- Knox Co.
- Knox Co. City of Knoxville E911
- Knox Co. Schools
- Knox Co. Sheriff's Department
- Knoxville Police Department
- Lenoir City
- Maryville City Schools
- Morristown Chamber of Commerce
- Sevier Co.

BOARD OF DIRECTORS 2024–2025

The Center is governed by a volunteer board of directors. Board members have the responsibility to create and evaluate policy and organizational goals regarding the Center's finances and services. Board members are elected to serve a three-year term and may serve two terms consecutively.

CENTER MISSION

Improving the lives of the people we serve; helping children, adults and families with substance use, mental illness and social challenges.

CENTER VISION

To be the premier provider of high quality behavioral health and social services through a continuum of care focusing on our clients first and foremost, delivering quality services, demonstrating effectiveness, inspiring our staff and building upon the spirit of our founder.

Special thanks

to the Marketing and Public Relations Committee: Wade Ewers, David Roddy, Laura Shamiyeh, Cindy Sexton, Claire Speight and Traci Topham.

DISASTER RESPONSE

In September 2024, Hurricane Helene caused severe flooding in Cocke County, and communities like Newport, Del Rio and Hartford were heavily impacted. Roads became impassable, and many residents were displaced or trapped. The McNabb Center is located within the flood zone, and although the area was evacuated, the Center remained open to continue to serve its clients.

In the aftermath of Helene, 28% more indivduals sought mental health services in December 2024 than in December 2023. The McNabb Center's established relationships with local organizations—such as government agencies, schools, law enforcement, nonprofits, faith-based groups and community leaders—provided a solid foundation for rapid mobilization and effective service delivery during this critical time. Leveraging existing partnerships and community resources was crucial to expand the reach, enhance coordination and improve response and recovery for Cocke County.

HOW DID THE CENTER RESPOND?

The CCP team began door-to-door outreach to assist and provide support directly to a group of more than 300 individuals who were affected by the flooding. Of those 300, the McNabb Center continued working closely with approximately 165 individuals to build rapport and provide support and resources.

McNabb staff members helped in various ways. Staff members provided tractors to help clear driveways and barns, assisted individuals with packing and unpacking their belongings, visited displaced survivors in assisted living facilities, helped with resources for medication funds, painted homes, put tarps over campers, gathered clothes and hand delivered food, cleaning supplies, water and toiletries. McNabb staff collaborated with local shelters and animal clinics for donations for survivors with pets. Staff bathed puppies, found washers and dryers, refrigerators, heaters, air conditioners, generators, tools and supplies. They located resources for living room and bedroom furniture, which they picked up and delivered to individual's homes.

During a crisis, response time matters. The McNabb Center stepped in to make sure families affected by Hurricane Helene had the support they needed fast.

EMPATH - A YEAR IN REVIEW

Rebecca's family brought her to EmPATH because of her increased symptoms of depression and suicidal thoughts. She shared numerous possible causes including the recent death of a family member, unresolved childhood trauma and overwhelming feelings of hopelessness. EmPATH staff spoke with her family to gather additional information as well as provide support and education for them. Immediately at EmPATH, she met with a prescriber who started her on medication for depression. She was able to talk with the staff about her feelings and start the process of healing that day. Once stabilized, she and the staff worked to create a plan with specific steps for treatment after discharge so she could continue to move forward successfully.

Two months after leaving EmPATH, the staff received a letter from Rebecca.

"Thank you for your unwavering empathy, kindness and support during one of the roughest periods in my life. When talking with the staff, I felt like I was a priority. EmPATH is truly the perfect name for this place. I am now on the path to healing, thanks to your empathy."

—Rebecca

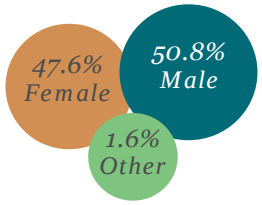
Left to Right: Travis Pyle, Dr. Scott Zoller and Candace Allen.

Clinical Vice President Candace Allen and Medical Director Travis Pyle represented the McNabb Center at the inaugural EmPATH Summit 2025 in Irving, Texas, joining leaders working to advance emergency psychiatric care nationwide.

Candace also met with Dr. Scott Zeller, creator of the EmPATH model, which is transforming psychiatric emergency treatment across the country.

The McNabb Center is proud to have opened Tennessee's first EmPATH Unit, continuing its commitment to innovative, compassionate mental health care.

CO-RESPONSE PROGRAM EXPANSION



Immediate first response to individuals in crisis

The McNabb Center's Co-Response Program is a partnership between the Center and the Knoxville Police Department. With the shared goal of diverting individuals from the criminal justice system and connecting them to appropriate care, McNabb Center master's-level clinicians ride alongside Crisis Intervention Team trained KPD officers to respond to behavioral health emergencies in Knoxville. The McNabb Center's first and only Co-Response Team took its first call on October 13, 2020. After a successful first year, three teams were added to the program in 2021. In 2025, it expanded again to a total of six teams. Of the 1,036 calls received, below is the information for those calls:

WHAT IS CRISIS INTERVENTION TEAM TRAINING?

CIT trained officers undergo 40 hours of intensive training, which helps them identify mental health resources to assist people in crisis. The training connects officers with mental health professionals and other community agencies to create a team that can provide support when a challenging situation occurs. In addition, officers learn verbal de-escalation skills and experience scenario-based training on responding to crises. Since the McNabb Center started coordinating CIT training in 2012, approximately 1,500 officers have graduated and have been using their intervention skills in the field.

DEAR SANTA

Through the McNabb Center's Dear Santa program, donors fulfill Christmas wish lists for children who are clients of the McNabb Center and their siblings. The Dear Santa program is supported by businesses, organizations and individual donors who sponsor children, host toy drives and volunteer their time.

WHY DEAR SANTA MAKES A DIFFERENCE...

A single mother of six children was deciding between paying her rent or buying Christmas presents for her kids. She was able to pay her living expenses and her kids all had several presents each!

A family experiencing hardship with a mom working multiple jobs and taking care of her own mom was given dignity for her and her children. All four of her kids received a tablet and much-needed clothing.

Pictured: McNabb Center staff and volunteers working together to ensure children in the Dear Santa program has their Christmas wishes fulfilled.

GROUND BREAKING

Blount County Transition Campus Groundbreaking

The Center broke ground on the Blount County Transition Campus on February 21st in Maryville. The campus will be an all-in-one accessible campus using a multi-disciplined approach to provide mental health, substance use and social services to incarcerated individuals with co-occurring disorders. The campus will consist of six buildings to house 62 individuals at a time and will provide a full range of services so every person can transition successfully into the community.

metro drug coalition

July 13, 2026

Subject: Letter of Commitment for Knox County SAMHSA STREETS Grant Application

On behalf of Metro Drug Coalition (MDC), I am pleased to express our commitment to collaborate with Knox County and its partner agencies in the development and implementation of the proposed SAMHSA STREETS Program, should funding be awarded.

Metro Drug Coalition has served Knox County and East Tennessee for over 40 years and operates The Gateway Recovery Community Center, a peer-led recovery support hub serving individuals affected by substance use disorders and co-occurring conditions. Through The Gateway and our broader community partnerships, MDC brings substantial experience in recovery support services, peer recovery coaching, workforce development connections, recovery community engagement, overdose prevention, first responder care coordination, and linkage to treatment and recovery housing resources.

As currently envisioned, MDC's role in the STREETS Program would include:

- Providing recovery coaching and peer recovery support services to program participants.
- Facilitating peer-led recovery support groups and recovery-focused educational programming.
- Offering access to The Gateway Recovery Community Center and its recovery-oriented programming, resources, and supportive community environment.
- Assisting participants in developing individualized recovery plans and supporting ongoing recovery engagement.
- Connecting participants to community-based recovery resources, employment and workforce development opportunities, transportation assistance, and other recovery-supportive services as appropriate.
- Coordinating with clinical providers, outreach partners, housing providers, case management staff, and other participating organizations to support integrated service delivery and participant success.
- Participating in case coordination activities, program planning, stakeholder meetings, and quality improvement efforts as requested.
- Contributing program data and outcome information necessary to support evaluation, reporting, and continuous program improvement activities.

MDC further agrees to:

- Participate in regular partner and stakeholder meetings.
- Share relevant data and outcomes, consistent with applicable privacy laws and participant consent requirements.
- Coordinate closely with Knox County and all participating partners to ensure effective and integrated service delivery.
- Support efforts to achieve the goals and objectives established under the SAMHSA STREETS Program.

Metro Drug Coalition is committed to partnering with Knox County in the implementation of the STREETS Program and anticipates providing the services described above consistent with the final approved project design, partner roles, and awarded funding levels. Specific activities, staffing assignments, and service capacity will be finalized through the program implementation planning process.

We appreciate the opportunity to collaborate with Knox County on this important initiative and we believe a coordinated, recovery-oriented system of care can significantly improve outcomes for individuals experiencing homelessness, substance use disorders, mental health challenges, and co-occurring conditions in Knox County.

Sincerely,

Webster Bailey
Executive Director
Metro Drug Coalition

metro drug coalition

2024 Annual Report

October 1, 2023 - September 30, 2024

Letter From Executive Director

Webster Bailey
Executive Director

The past year has been one of significant change and growth for Metro Drug Coalition (MDC). Our most notable transition occurred when Karen Pershing, after 14 years of dedicated leadership, decided to step down as Executive Director. I am deeply honored and grateful to have been selected by Karen and the Board of Directors to step into this role. I am fortunate to have a very supportive board of directors, an experienced and talented team, and many gracious and helpful community partners supporting me and teaching me as I grow into this role.

MDC has experienced many positive developments this year, particularly in securing funding to expand our programs and staffing. We've grown our youth prevention programming and our recovery support services, including the work we do at The Gateway Recovery Community Center, which recently celebrated its second anniversary. Over the past two years, we've provided more than 80,000 services at The Gateway, which is a testament to the impact we're making.

Since its founding in 1986, MDC has remained steadfast in our commitment to assessing and addressing the evolving needs of the community. Today, we continue to bring together diverse stakeholders to tackle the root causes of substance misuse. Through collaborative partnerships and maximizing available resources, we strive to make a greater impact. MDC has become a model for cross-sector collaboration, positioning us as Knoxville's premier partner for all types of substance use initiatives. Whether through professional education, primary prevention, harm reduction, or recovery support, we work alongside our community partners to address some of the most pressing issues in our community.

We know that mental health and substance misuse are closely linked, often sharing overlapping risk factors. That's why we continue to incorporate mental health first aid and suicide prevention trainings into our work, empowering community members to identify early signs of mental health struggles and intervene before substance misuse becomes a coping mechanism. MDC also recognizes the critical gaps in services for those with substance use disorders, particularly during the first two years of recovery which is typically among the most challenging. By supporting individuals and families through this crucial period at The Gateway, we help them develop the tools they need to thrive, which in turn reduces the demand for drugs and creates a healthier, safer community.

Substance misuse prevention is always at the heart of what we do, and we believe it must start early. This year, we expanded our prevention programming to reach children as young as 10 years old, ensuring that they receive age-appropriate messaging about the dangers of substances. We also know that childhood trauma plays a major role in the development of both substance use and mental health disorders. In response, we've launched an educational program for pediatric and obstetrical healthcare providers, equipping them with the tools to discuss adverse childhood experiences (ACEs) and build resilience in children and families. We understand that preventing substance misuse is a community effort, and parents play a critical role in this process.

At MDC, we believe that substance use disorders are preventable, and that with collective effort, recovery is not only possible - it's the most likely outcome. With your continued support, we will keep building a healthier, more vibrant community by reducing the negative impacts of substance misuse.

Yours in Recovery,

WBB

Meeting the needs of our community

Metro Drug Coalition (MDC) is a nonprofit organization striving to create a healthy and safe community, free of substance misuse. We have served the Knoxville community for over 38 years. Our goal is to increase access to evidence-based prevention education, harm reduction programs and recovery support services for anyone desiring to maintain or seek a life free from substance misuse. Through community collaborative efforts, we can all strengthen families and prevent future generations from the devastating consequences of addiction.

Primary Prevention

Community Coalition

The purpose of the Drug-Free Community Coalition is to engage every sector of the community in Metro Drug Coalition's efforts to reduce the misuse of substances. The coalition has continued to focus on a number of projects to educate, raise awareness and target young people, specifically, for positive alternatives to alcohol and substance misuse.

Reducing Retail Access

- **Compliance Support**
  - Provided resources for retailers who fail compliance checks
  - Recognized retailers who pass on social media

MDC provides all new permit holders with a packet of resources, including an ID coder, ID checking guide, and window clings. Last year, MDC began offering an online ID checking training as well.

112 RESOURCE PACKETS DISTRIBUTED TO NEW PERMIT HOLDERS

53 TRAINED IN PREVENTING UNDERAGE SALES

Medication Safety

1,438

Medication lock boxes distributed

6 Medication Collection Events

Medication collection events included two DEA National Take Back days, three Aging Adult Resource Fairs, and the first ever medication collection event on the University of Tennessee campus.

1,748.5 Pounds of Medications Collected

11 Medication Safety Pop-Ups

Pop-ups focus on educating college students on the importance of medication safety. Pop-ups took place at the University of Tennessee & Pellissippi State.

New Medication Mail Back Program

This program allows homebound individuals to receive a secure envelope to dispose of unwanted, expired, or unused medications via their mailbox.

1 Youth-Driven Medication Safety Campaign

Knox County students created messaging and art design for six medication safety billboards located around Knox County and medication safety tip posters distributed to local pharmacies, doctors offices, and family-serving organizations.

Mental Health

Metro Drug Coalition recognizes that substance use disorders and mental health disorders are often co-occurring. As a result, primary prevention efforts have expanded to include Mental Health First Aid, Psychological First Aid, and QPR Suicide Prevention training.

18 CLASSES TAUGHT

183 INDIVIDUALS TRAINED

Mental Health First Aid

Adult & youth mental health first aid classes teach the skills to identify, understand, & respond to the signs of mental illness and substance use disorders.

34 CLASSES TAUGHT

650 INDIVIDUALS TRAINED

QPR Suicide Prevention

People trained in QPR learn how to recognize the warning signs of a suicide crisis and how to question, persuade, and refer someone to help.

250 BROCHURES DISTRIBUTED

Born Drug Free Tennessee is an initiative implemented by the East Tennessee Neonatal Abstinence Syndrome (NAS) Task Force is 2015. Its goal is to connect pregnant women who are struggling with a substance use disorder to an evidence-based treatment provider & prenatal care as early as possible to improve outcomes for both the mother and baby.

1,363 MEDICAL PROVIDERS

Trained in SBIRT since 2015

Metro Drug Coalition facilitates **SBIRT** *(Screening, Brief Intervention, Referral to Treatment)* trainings in Knox County. This training equips providers, nurse practitioners, nurses, residents and office managers to: understand the disease process of addiction, recognize the risk factors and causes of Neonatal Abstinence Syndrome, understand the process of SBIRT (an evidence-based screening tool) to assess risk for substance misuse in patients, and learn ways to implement and administer brief interventions.

Healthcare Provider Education

EAST TENNESSEE OPIOID CONFERENCE

MDC collaborated with Pain Consultants of East TN, Summit Medical, Knoxville Academy of Medicine, Cherokee Health Systems and Cigna to host the Sixth Annual **East Tennessee Opioid Conference**. This conference educated medical providers on different levels of the opioid crisis and what they can do to play a role in finding solutions to this epidemic. **Over 455 individuals** received education at this event, either in-person or virtually, across the state of Tennessee.

Harm Reduction

Harm Reduction Outreach

MDC's Recovery Support Team has been hard at work with harm reduction outreach in our community. Last year, MDC began distributing fentanyl test strips to help combat the high rate of fentanyl overdose in the community. This year, an increase in xylazine use resulted in an increase of open wounds, so MDC began assembling and distributing wound care kits. MDC staff members have targeted specific areas in our community to distribute Narcan kits, safely dispose of needles and give other harm reduction items out to those in need.

8,750

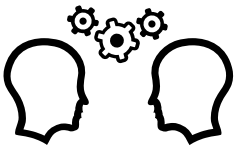
Recovery Housing Support Fund

The Recovery Housing Support fund was established in 2018 with funds generated by MDC's second Recovery Resource Fair. The fund has grown exponentially since its humble beginnings. Over the lifetime of the fund, MDC has paid **696 deposits** for individuals to enter sober living who would not have had the resources to go otherwise. MDC has received donations and grant dollars from both individuals, local and state government, as well as funds raised by our organization.

229



Individuals received recovery housing scholarships in FY 24.

became Certified Recovery Congregations during FY 24.

An Update on The Gateway

Anne Young
Director of Recovery Support Services

The Gateway Recovery Community Center has truly become a beacon of light for the recovery community in Knoxville. Over the past year, we have solidified our reputation as the principal one-stop resource for recovery, not only locally but also statewide. Our innovative and creative recovery services are being recognized and celebrated, and we are committed to continuing this trajectory of growth and excellence.

This year, The Gateway has made significant strides in providing a safe and supportive environment for individuals seeking recovery from substance misuse. Our center has become a hub where people can learn new skills, experience healing, and find a community that understands and supports their journey. Our innovative services have set us apart. We have introduced various programs that cater to the diverse needs of our community, ensuring that everyone who walks through our doors finds the support they need. These services have been instrumental in helping individuals rebuild their lives and regain their independence.

The recognition we have received from both local and statewide communities is a testament to the hard work and dedication of our team. We are proud to be seen as leaders in the field of recovery support, and we will continue to innovate and expand our services to meet the evolving needs of our community.

Goals for the New Year

As we look to the future, we have set ambitious goals to further enhance our services and support:

1. **Establish a Membership Program**: We aim to create a membership program that fosters a sense of ownership and pride among our participants. This program will allow individuals to take an active role in Gateway activities and contribute to the community.
2. **Certified Recovery Community Organization** (**RCO**): We will explore the process of becoming a Certified Recovery Community Organization through Faces and Voices of Recovery, which will further solidify our standing nationally and enable us to provide even more comprehensive support.
3. **Recovery Support Service Advisory Council**: We plan to re-establish an advisory council consisting of over 50% self-identifying individuals in personal recovery. This council will guide our services and ensure they are aligned with the needs of those we serve.
4. **Education and Professional Growth**: Continuing to foster, educate and grow addiction professionals through evidence-based practices and curriculums is a priority. We will provide ongoing training and development opportunities to ensure our team and members are equipped with the latest knowledge and skills.
5. **Workforce Development and Funding**: We will seek to enhance our workforce development capacity and secure funding to support these initiatives. This will enable us to expand our services and reach more individuals in need.
6. **Coordinated Volunteer Opportunities:** Providing recovery supportive volunteer opportunities to the broader community is essential in decreasing stigma and fostering a supportive environment. We will actively engage volunteers and provide meaningful opportunities for them to contribute.
7. **Engage Champions and Recovery Advocates**: Finding champions and engaging people in providing Gateway programs is crucial. Identifying what services are still needed and finding the right champion to support our mission is ongoing. We will collaborate with individuals and organizations who are advocates for recovery and willing to help provide needed services.

The Gateway Recovery Community Center is on a path of continuous growth and improvement. We are committed to providing a safe, supportive, and innovative environment for all individuals seeking recovery. With the goals we have set for the coming year, we are confident that we will continue to make a positive impact on the lives of those we serve

Thank you for investing in Metro Drug Coalition. We greatly appreciate your caring and compassionate support. We ensure that every donation goes directly to the service and programs MDC implements in our community.

Vision for 2025

MDC will further its mission by fostering deep community collaborations and developing innovative programs in prevention, harm reduction, and recovery support. Together with our partners and neighbors, we aim to strengthen the health and resilience of East Tennessee, building a future where hope and recovery thrive. Below are some of the primary focuses that we will have in 2025.

Prevention: Empowering Future Generations

- Juvenile Detention Center Collaboration: We will create impactful programming to support incarcerated youth, providing prevention education and opportunities for personal growth that address substance misuse and underlying trauma.
- Substance Misuse Education: MDC will expand its evidence-based education programming in Knox County Schools, ensuring students are equipped to make informed, healthy choices.
- Youth Advocacy Revitalization: We will revive the Youth Metro Drug Coalition (YMDC) to elevate youth voices and foster leadership, empowering students to co-create prevention initiatives.
- Trauma-Informed Care for Obstetricians: By training regional obstetricians in trauma-informed care, we will help them provide pregnant patients with compassionate, effective care and support to prevent substance misuse and work toward healing their trauma.
- Youth-Led Campaigns: Collaborating with students, MDC will develop social media campaigns that resonate with their peers, promoting prevention and wellness.
- Consistent Messaging in Schools: Prevention messaging will reach students daily through gymnasium and/or sports field banners, reinforcing positive health behaviors.

Harm Reduction: Saving Lives and Strengthening Communities

- Support for Overdose Survivors and Responders: MDC will support first responders and overdose patients through our new Care Coordinator position, offering critical follow-up care and resources.
- Mission District Medical Outreach: We will continue to expand this vital program, addressing the healthcare needs of our Mission District neighbors and offering overdose response training to community members.
- Community-Based Overdose Preparedness: MDC will continue to foster relationships with residents and organizations, equipping them with the knowledge and tools to save lives.

Recovery Support: Building Connection and Sustainability

- Advisory Committee for The Gateway: A newly established Advisory Committee will help guide the development of innovative, community-driven programming for The Gateway Recovery Community Center.
- Recovery Coalition: MDC will launch a Recovery Coalition to unite organizations and individuals working toward shared goals, amplifying recovery efforts across the region.
- Certified Recovery Community Organization: By working toward RCO certification, MDC will cement its role as a leader in recovery support and advocacy.
- Expanding Education: We will offer robust training opportunities for professionals in addiction treatment and recovery housing, enhancing their ability to serve effectively.
- Membership Model for The Gateway: Implementing a membership-based model will empower participants to take an active role in maintaining and shaping The Gateway's culture, fostering a sense of ownership and accountability.

Collaboration: Together We Achieve More

MDC will continue to prioritize partnerships with aligned organizations as we work toward expanding our reach in all areas of our work. Each time we join together with other organizations, we amplify our impact in prevention, harm reduction, and recovery, creating a healthier community for all.

2025: A Year of Growth, Connection, and Hope

With a steadfast commitment to our mission, MDC will continue to innovate, collaborate, and advocate. By empowering youth, supporting recovery, and saving lives through harm reduction, MDC will lead the way toward a brighter, healthier future.

metro drug coalition

2025 ANNUAL REPORT

October 1, 2024 - September 30, 2025

Letter From Executive Director

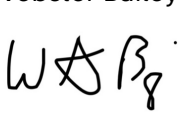
This past year has been one of growth, momentum, and deepened community impact for Metro Drug Coalition (MDC). As I continue in my role as Executive Director, I remain grateful for the trust of our Board of Directors, the dedication of our staff, and the generosity of donors, partners, and volunteers who believe in our mission.

Webster Bailey
Executive Director

For nearly four decades, MDC has served as a leader in substance use prevention in East Tennessee. That legacy continues today through evidence-based youth prevention initiatives, community education, policy and legislative engagement, and professional training that equip families, schools, and providers with tools to reduce risk and promote resilience. Substance use prevention remains at the core of who we are, and it is more important now than ever.

At the same time, MDC has expanded its role in recovery support through The Gateway Recovery Community Center. The Gateway has become a regional hub for connection, peer support, services, and opportunity — a place where individuals in recovery find belonging, purpose, and pathways forward. This year, we strengthened our offerings by adding recovery-to-workforce programming, building partnerships with education and training providers, and expanding peer-led services designed to help participants move from vulnerability and instability toward lasting stability and self-sufficiency.

To highlight a few newer partnerships, MDC is:



- Providing basic medical care and supplies, including overdose prevention resources, to the unhoused population in Knoxville's Mission District
- Serving as an integral partner in a community-based Opioid Use Disorder initiative providing housing, food, addiction care, case management, and recovery support to Knoxville's most vulnerable residents
- Working with youth incarcerated in the juvenile detention center to deliver prevention and early intervention programming
- Supporting women who are planning for a child, pregnant, or new mothers with high ACE scores to promote healing and prevent intergenerational trauma

These partnership efforts, and several others, reflect our belief that lasting change happens when organizations work together rather than in silos.

Behind every program are the people who make the work possible. I am continually inspired by our staff's compassion, professionalism, determination, and creativity; by a Board that provides guidance and accountability; and by donors and funders who invest not only in services, but in building long-term community capacity. Recently, through collaborative multi-year commitments from key funders, we have made strategic investments in internal infrastructure to ensure MDC is well-positioned for sustainable growth and expanding impact in the years ahead.

Our focus remains clear: strengthen youth prevention, expand recovery opportunities, develop the behavioral health workforce, and deepen partnerships that improve access to care. The challenges in our community are real, but so is the momentum we are building together.
Thank you for standing with Metro Drug Coalition. We are proud of what we have accomplished, and even more excited about what lies ahead.

With gratitude,
Webster Bailey

Community Impact

Metro Drug Coalition (MDC) is a nonprofit organization striving to create a healthy and safe community, free of substance misuse.
We have served the Knoxville community for more than 39 years.
Our goal is to increase access to evidence-based prevention education, overdose prevention programs and recovery support services for anyone desiring to maintain or seek a life free from substance misuse.
Through community collaborative efforts, we can all strengthen families and prevent future generations from the devastating consequences of addiction.

An Update on The Gateway

Anne Young
Director of Recovery Support Services

The Gateway Recovery Community Center envisions a future where every individual seeking recovery has access to compassionate, evidence-based, and community-driven support that fosters lifelong wellness, purpose, and belonging. Recovery is more than abstinence—it is the opportunity to live a healthy, self-directed, and meaningful life while contributing to family, community, and the workforce. Over the past year, we have solidified our reputation as the principal hub for recovery resources, not only locally but also statewide. Our innovative and creative recovery services are being recognized and celebrated, and we are committed to continuing this trajectory of growth and excellence. We are poised to be a change agent for recovery culture in East Tennessee and beyond.

This year, The Gateway has made significant strides in providing a safe and supportive environment for individuals seeking recovery from substance misuse. Individuals have the opportunity to learn new skills, experience healing, and find a community that understands and supports their recovery journey. Our innovative services have set us apart. We have introduced a variety of programs that cater to the increasing needs of our community, ensuring that everyone who walks through our doors finds the support they need. These services have been instrumental in helping individuals rebuild their lives and regain their independence. The recognition we have received from both local and statewide communities is a testament to the hard work and dedication of our team. We are proud to be seen as leaders in the field of recovery support, and we will continue to innovate and expand our services to meet the evolving needs of our community. The Gateway remains committed to ensuring equitable access to recovery support services for all individuals, regardless of background, identity, or stage of recovery.

Goals for the New Year

As we look to the future, we have set ambitious goals to further enhance our services and support:

1. Certified Recovery Community Organization (RCO): This past year we applied for membership in Faces and Voices of Recovery. This application represents the first step toward becoming a Certified Recovery Community Organization (RCO), which will further solidify our standing nationally and enable us to provide even more comprehensive support. Our next steps include exploring certification requirements and timelines.
2. Recovery Support Service Advisory Council: The Gateway is guided by a Recovery Support Services Advisory Council composed of more than 80% individuals in personal recovery. Through this council, the Gateway ensures that services are shaped by lived experience, community voice, and real-world relevance. This year, this council will help strategically plan future initiatives that promote long-term outcomes for our members and the recovery community.
3. Education and Professional Growth: Continuing to foster, educate, and grow addiction professionals through evidence-based practices and curricula is a priority. Through our Trinity grant, we have the funding to take this initiative to the next level, clearly establishing MDC and The Gateway as the Addiction Professional Education experts in the East Tennessee region. This initiative and education opportunities for substance-use professionals will inevitably improve addiction treatment outcomes for the region. We will also continue providing ongoing training and development opportunities for our team and members so they are equipped with the latest knowledge and skills.
4. Workforce Development and Funding: We will seek to enhance our workforce development capacity and secure funding to support these initiatives. By expanding our class offerings, we are creating clear pathways to employment, credentialing, and long-term stability for individuals in recovery. Next steps are to build additional community partnerships to further this vision and continue to evaluate effectiveness.
5. Coordinated Volunteer Opportunities: Providing recovery supportive volunteer opportunities to the broader community is essential in decreasing stigma and fostering a supportive environment. We will actively engage volunteers and provide meaningful opportunities for them to contribute. We will create new opportunities for volunteers to participate in Gateway initiatives.
6. Champions and Recovery Advocates: Finding champions and engaging people in providing Gateway programs is crucial. Identifying what services are still needed and finding the right champion to support our mission is ongoing. We will collaborate with individuals and organizations who are advocates for recovery and willing to help provide needed services.
7. Recovery Residence owners: Engage recovery residence owners in education opportunities, owner/operator support, continuing to connect them with best practice and skills to implement. We will establish opportunities for recovery house owners that serve as a catalyst for cultural and systems change in recovery. Our vision is a community where recovery leads to stable housing, meaningful employment, civic participation, and a strong sense of purpose.

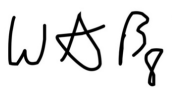
As we move into the coming year, The Gateway Recovery Community Center is poised to expand its reach, deepen its impact, and shape the future of recovery support in East Tennessee and beyond. Through innovation, collaboration, and an unwavering commitment to compassion and lived experience, we are building a community where recovery is not only possible—but expected and supported.

Vision For 2026

Metro Drug Coalition believes East Tennessee can be a place where prevention is strong, recovery is visible, and every person has the opportunity to build a healthy future. As we move into 2026, our work continues to align with national priorities reflected in the newly released Great American Recovery Initiative (GARI), the SUPPORT Reauthorization Act, and the STREETS Initiative - frameworks that emphasize prevention, coordinated systems of care, and long-term recovery support.

Here at MDC, that alignment translates into action.
We are expanding our primary prevention work so children and families receive support before substance misuse ever begins. We are broadening the reach of overdose prevention by training frontline agencies, businesses, schools, and community partners - multiplying life-saving knowledge and placing overdose reversal medications into more hands. We are strengthening opportunities at The Gateway Recovery Community Center so members can build a stable foundation for recovery through an expanded menu of classes and services, including job readiness, relapse prevention, recovery stability, and the development of strong, healthy social networks that support long-term connection (the opposite of addiction is connection).

Through our new Training and Education Department, we are investing deeply in the people who care for our community. Expanded professional development will support mental health and addiction treatment workers, family members seeking education and support, and individuals in early recovery who want to transform lived experience into meaningful careers in behavioral health. This work strengthens today's workforce while preparing the next generation of prevention, peer support, treatment, and recovery leaders.



At the organizational level, MDC is increasing the strength and capacity of our internal supports through strategic leadership growth. The addition of a Chief of Staff role will provide stronger coordination and operational support across our departments and programs. A new partnership with a nonprofit-focused financial management firm will strengthen fiscal oversight and long-term sustainability at a critical moment of organizational growth. Together, these investments ensure our infrastructure grows alongside our impact and that we steward resources responsibly.

Our work is about more than programs. It is about people. It is about families staying intact, young people discovering their potential, and neighbors helping neighbors move forward toward healthier, more hopeful futures.

With the support of donors, partners, and community members, Metro Drug Coalition is building an interconnected system designed to last. Our work is rooted in compassion, accountability, and shared responsibility. Together, we are shaping a future where prevention works, recovery thrives, and hope is visible in every corner of our community.

2026 is going to be a transformational year for MDC and for our community.

Yours in recovery,
Webster Bailey

July 6, 2026

To Whom It May Concern,

On behalf of the Knoxville-Knox County Office of Housing Stability (OHS), serving as Lead Agency for the Knoxville/Knox County Continuum of Care (CoC), I affirm our commitment to actively participate in and support Knox County's application to the Substance Abuse and Mental Health Services Administration's Safety Through Recovery, Engagement, and Evidence-Based Treatment and Support (STREETS) grant program.

The need for this initiative is clear in our community. The 2026 Knoxville-Knox County Point in Time Count identified 239 individuals experiencing unsheltered homelessness. Among those surveyed, 136 reported a diagnosed mental health condition and 133 reported alcohol or drug use. These findings underscore the need for a coordinated response that combines persistent street engagement, behavioral health and substance use treatment, and pathways to stable housing.

OHS and the CoC are committed to helping build that coordinated response by supporting the integration of STREETS with Knoxville and Knox County's existing homeless response system. Through this partnership, we will contribute our expertise and infrastructure in homeless system coordination, Coordinated Entry, the Homeless Management Information System (HMIS), housing pathways, provider engagement, system-level data and performance measurement, and cross-system collaboration.

Specifically, OHS, in its role as CoC Lead Agency, commits to:

- Participate in STREETS governance, regular partner meetings, implementation planning, and continuous quality improvement activities.
- Convene and engage relevant homeless service, street outreach, shelter, and housing providers to support coordinated implementation and reduce duplication across systems.
- Collaborate in developing bidirectional referral pathways between STREETS and Coordinated Entry, including pathways for individuals identified through the homeless response system who

may benefit from STREETS services and for STREETS participants who need connection to Coordinated Entry and appropriate housing resources.

- Support coordination with the CoC's existing housing system and provider network to identify appropriate housing pathways for eligible participants.
- Provide relevant system-level homelessness data and performance measures to support planning, evaluation, and continuous quality improvement.
- Collaborate with KnoxHMIS and other partners, as appropriate, to support referral tracking, housing outcome measurement, and coordination of relevant data consistent with applicable privacy, confidentiality, consent, and data-sharing requirements.
- Support coordination among street outreach partners and contribute to environmental scanning and hotspot mapping efforts by helping connect existing homeless response information with other relevant community data sources.
- Explore opportunities for coordinated case conferencing for individuals engaged with both STREETS and the homeless response system, subject to appropriate participant consent, releases of information, and data-sharing requirements.

We recognize the importance of connecting behavioral health treatment, recovery supports, street outreach, and housing resources through a coordinated community response. OHS and the Knoxville/Knox County CoC are committed to working alongside Knox County and STREETS partners to strengthen these connections, improve transitions between systems, and support improved treatment, housing, and long-term stability outcomes for individuals experiencing homelessness and serious behavioral health and substance use needs.

We look forward to partnering with Knox County and participating in the successful implementation of the STREETS initiative.

Sincerely,

Erin Read

Introduction

As homelessness has grown in Knoxville and Knox County since 2018, community leaders have recognized the increasing burden on residents, businesses, homeless service providers, community systems such as health care and law enforcement, and most of all on the people experiencing homelessness themselves. In September 2023, after months of preparation, the administrations of City of Knoxville Mayor Indya Kincannon and Knox County Mayor Glenn Jacobs created the Knoxville-Knox County Office of Housing Stability (OHS). Their purpose was to forge a truly collaborative effort to address homelessness across both jurisdictions.

OHS staff quickly identified cold-weather shelter as an immediate need and forged partnerships with local churches and nonprofits to support their work as warming centers. In the winter of 2023–2024, at least 287 individuals and families sought shelter at these warming centers; that number rose to more than 400 in the winter of 2024–2025. Existing year-round shelters were simultaneously operating at capacity, sheltering an additional 400 people.

In spring 2025, OHS officially became the Lead Agency of the Knoxville-Knox County Continuum of Care (CoC). The CoC is the federally recognized local planning body responsible for coordinating the community's response to homelessness, including system-wide planning, governance, data management through the Homeless Management Information System (HMIS), and the application for and oversight of certain federal funding streams. The CoC Board provides formal governance and strategic oversight, setting policy, approving community-wide goals, and ensuring compliance with federal regulations. As the new Lead Agency, OHS provides the administrative backbone for these efforts: convening partners, facilitating funding competitions, managing HMIS in collaboration with the HMIS lead, and ensuring that CoC policies and initiatives are implemented consistently across Knoxville and Knox County.

Vision

A continuum of services that prevent and end homelessness, and where every resident has access to safe, affordable, and stable housing.

Mission

The Knoxville-Knox County Continuum of Care mobilizes community partners to make homelessness rare, brief and non-recurring through collaboration, data-driven strategies, and a client-centered approach.

Knoxville-Knox County Continuum of Care

The Knoxville-Knox County Continuum of Care (CoC) is the U.S. Department of Housing and Urban Development's (HUD) designated planning body for organizing and delivering a comprehensive, community-wide response to homelessness. The CoC brings together local governments, nonprofit service providers, faith-based and philanthropic partners, people with lived experience of homelessness, and other stakeholders to plan, coordinate, and evaluate strategies that prevent and end homelessness. In addition to facilitating collaboration across a broad network of partners, the CoC is responsible for developing a communitywide strategic plan, setting performance standards, monitoring outcomes, and ensuring that federal, state and local resources are used effectively.

Governance of the CoC is vested in the CoC Board, a representative body of key stakeholders that sets policies and priorities, approves funding applications, and ensures compliance with HUD requirements. The Board is supported by committees and workgroups that focus on specific elements of the homeless response system, such as Coordinated Entry, data quality, and performance evaluation, ensuring that planning and decision-making reflect both technical expertise and the insights of people with lived experience.

As the newly designated Lead Agency, the Knoxville-Knox County Office of Housing Stability (OHS) serves as the administrative backbone of the CoC. OHS convenes the full membership, provides staff support to the Board and its committees, and manages the annual HUD funding competition and related contracts. OHS also partners with the Homeless Management Information System (HMIS) Lead to maintain and improve the community's data infrastructure, ensuring that decisions are grounded in accurate, timely information. By fulfilling these responsibilities, OHS helps the CoC sustain a coordinated, accountable, and data-driven system capable of making homelessness in Knoxville and Knox County rare, brief, and non-recurring.

Strategic Planning Process

This three-year strategic plan, while setting goals through 2028 in some cases, was developed through a comprehensive, multi-stage planning process. OHS and the CoC Board convened five geographically distributed public listening sessions (north, south, east, west, and city center) attended by more than 100 participants, with an additional 28 people providing input online. Participants shared how homelessness affects their families, neighborhoods, and workplaces; what assistance they would need if they themselves became homeless; and which interventions they see as most critical. Themes included deep concern and compassion for those experiencing homelessness alongside frustration and a sense of powerlessness; calls for more resources and faster interventions to prevent downward spirals; and recognition of the importance of faith communities and families in offering help.

OHS and its partners also interviewed more than 80 individuals experiencing homelessness and facilitated a focus group of 15 residents of permanent supportive housing. These conversations underscored the importance of personal relationships, outreach workers, and case managers; highlighted barriers such as long waiting lists, unaffordable housing, lack of transportation, and the impact of criminal justice involvement; and emphasized the need for safe places to rest, access to toilets, and storage for personal belongings.

The results of this extensive input process directly informed the priorities of the plan and ensured that the strategy to make homelessness rare, brief, and non-recurring is grounded in both broad stakeholder perspectives and the lived experience of those most affected.

Plan Structure and Goals

The plan is organized around **five overarching goals** that together describe the system-level changes required to prevent and end homelessness in Knoxville and Knox County:

Goal 1	**Ensure a Homeless Services System that Responds with Urgency and Efficiency**
Goal 2	**Prevent Homelessness**
Goal 3	**Reduce Unsheltered Homelessness**
Goal 4	**Increase Access to Permanent Housing for Homeless Households**
Goal 5	**Expand Funding Capacity and Sustainability of the Homeless Services System**

Each goal includes specific, measurable objectives with timelines and responsible parties. A consolidated total timeline appears at the end of the plan to provide a system-wide view of implementation milestones.

Goal 1

Ensure a Homeless Services System that Responds with Urgency and Efficiency

Objective 1: Establish new leadership (Continuum of Care Board) and administrative support (Lead Agency) for the Continuum of Care by 2026.

1.1 Strengthen planning for local homeless services

Action	Responsible	Timeline
Establish and implement community-level written standards for homeless services.	OHS, Lead Agency/Policy Development Work Group	Year 1
Assure appropriate referrals between homeless service providers, reduce overlap in services and facilitate future planning efforts.	OHS	Year 1-3

1.2 Improve governance and representation in the Continuum of Care

Action	Responsible	Timeline
Establish a governance charter for the CoC Board.	OHS, CoC Governance Work Group	Year 1
Create a Lived Experience Advisory Board (LEAB) with compensated members.	OHS, Homeless Coalition	Year 1
Ensure LEAB members participate in CoC committees and planning.	OHS, Lead Agency/Policy Development Work Group	Ongoing

1.3 Enhance Coordinated Entry System

Action	Responsible	Timeline
Require all homeless service providers that receive local homelessness funding or federal CoC or ESG funding to use the Coordinated Entry System.	OHS, HMIS, City and County government, Coordinated Entry Work Group	Year 1
Improve the Coordinated Entry System based on feedback from providers and clients.	OHS, HMIS, Coordinated Entry Work Group	Year 1
Complete a housing needs analysis by subpopulation using HMIS data and share with providers and local government partners.	HMIS, OHS	Year 1–2

1.4 Conduct housing inventory and gap analysis specific to homelessness

Action	Responsible	Timeline
Maintain ongoing gap analysis of housing needs to address current level of homelessness: ◦ Housing ◦ Available properties ◦ Funding sources ◦ Support services ◦ Shelter diversion efforts	OHS	Year 1; Ongoing – Conduct gap analyses every 6 months for prioritization of funding and programming.

Goal 2

Prevent Homelessness

Objective 2: Increase the number of households who avoid homelessness through shelter diversion services by 150%.

Baseline: In the second quarter of 2025, in an average month, 12 people avoided homelessness through shelter diversion services. A 150% increase would bring that total to 30 people per month.

2.1 Expand shelter diversion

Action	Responsible	Timeline
Establish written standards for shelter diversion.	OHS, Policy Development Work Group	Year 1
Define partnerships for diversion opportunities.	OHS, providers	Year 1; Ongoing

2.2 Develop housing navigation program

Action	Responsible	Timeline
Pilot a program based on best practices.	OHS, providers	Year 1; Possibly Ongoing
Assess pilot program, local needs and resources.	OHS, providers	Year 1 – 2; Ongoing

Goal 3

Reduce Unsheltered Homelessness

Objective 3: Decrease unsheltered homelessness by 15% over 3 years.

Baseline: In the first quarter of 2025, there was a monthly average of 689 people enrolled in street outreach services. A 15% reduction would bring that number down to 586.

3.1 Expand homeless shelter and warming center capacity

Action	Responsible	Timeline
Increase shelter capacity by 35%. Potentially include seasonal shelters and warming centers as needed during freezing weather.	OHS, providers	Year 1; Ongoing as needed

3.2 Increase homeless day center capacity

Action	Responsible	Timeline
Pilot a Day Center program based on best practices.	OHS, on-site provider, partner providers	Year 1; Possibly Ongoing
Assess pilot program, local needs and resources.	OHS, providers	Year 1 – 2; Ongoing
Improve Access to Sanitary Facilities for the Day Center and Day Space.	OHS, on-site provider	Year 1; Ongoing

3.3 Improve access to health services for people experiencing homelessness

Action	Responsible	Timeline
Increase coordinated care with medical and behavioral health service providers serving homeless patients	KCHD, OHS, providers	Year 1; Ongoing

3.4 Expand employment opportunities for people experiencing homelessness

Action	Responsible	Timeline
Develop on-site partnerships with employment service providers at the Day Center and Day Space.	OHS, employment service providers, homeless service providers	Year 1; Ongoing

Goal 4

Increase Access to Permanent Housing for Homeless Households

Objective 4a: Increase permanent housing placements for homeless households by 20% by 2028.
Baseline: In the first quarter of 2025, 246 homeless individuals exited the system housed. An increase of 20% would bring this total to 296 people every quarter. (HMIS)

Objective 4b: Reduce average duration of homelessness by 60 days by 2028.
Baseline: In the first quarter of 2025, the average duration of homelessness was 280 days, over twice the five-year average of 137 days. A reduction of 60 days would bring it to 220 days. (HMIS)

4.1 Maximize housing resources for homeless households

Action	Responsible	Timeline
Establish written standards for both Permanent Supportive Housing and Rapid Rehousing programs.	OHS, Lead Agency, Policy Development Work Group	Year 1; Ongoing
Explore options for increasing Permanent Supportive Housing, Rapid Rehousing and other needed housing resources.	OHS, private development partners, local government partners, local funders	Year 1-3; Ongoing

Objective 4c: Achieve Functional Zero for Veterans Experiencing Homelessness – House more veterans from homelessness than are becoming homeless by 2030. Baseline: In the first quarter of 2025, there were 138 homeless veterans in Knoxville and Knox County. (HMIS)

4.2 Expand veteran housing options to consistently progress annually toward functional zero

Action	Responsible	Timeline
Increase access to affordable permanent housing for veterans through review of policies and prioritization, inventory options (1.4) and landlord coordination.	OHS, HMIS, providers	Year 1–2; Ongoing
Define benchmarks for reaching functional zero (e.g., <10 veterans homeless at any time).	OHS, HMIS, providers	Year 1; Ongoing

Goal 5

Expand Funding Capacity and Sustainability of the Homeless Services System

Objective 5: Increase funds flowing through the lead agency to support homeless services by 15% by 2028.

Baseline: In 2025, $2.314 million flowed through the Office of Housing Stability to support homeless services and the administration of the homeless services system. A 15% increase would bring that number to $2.661 million.

5.1 Increase grant funding opportunities

Action	Responsible	Timeline
Improve CoC grant application score to 165 out of 200 (from the 2024 score of 150).	OHS, CoC Board	Year 1-3 progressively
Submit applications for bonus projects annually to the CoC grant program.	OHS, providers	Year 1-3
Identify and apply for privately funded grants.	OHS, providers	Year 1-3
Create and maintain a state funding opportunities sheet for providers.	OHS	Updated quarterly

5.2 Increase local funding opportunities

Action	Responsible	Timeline
Increase local funding for the CoC Lead Agency/OHS by 3% annually over 3 years.	City and County elected officials	Year 1–3

5.3 Develop philanthropic contributions

Action	Responsible	Timeline
Engage at least 3 philanthropic partners to support homeless services.	OHS, city/county officials	Year 1–3

Office of Housing Stability

VOLUNTEER MINISTRY CENTER

PREVENTING & ENDING HOMELESSNESS

July 9, 2026

From: Volunteer Ministry Center (VMC)

Subject: Letter of Commitment for Knox County SAMHSA STREETS Grant Application

On behalf of VMC, I affirm our commitment to actively participate in and support the objectives of Knox County's application to the STREETS grant program.

We agree to adhere to all program requirements, including compliance with federal guidelines, reporting standards, and collaborative practices, recognizing the importance of this partnership in achieving shared goals. Our organization is dedicated to contributing to the success of this initiative by providing **Street Outreach and Case Management service roles as identified in the NOFO**.

VMC currently operates a full-time Street Outreach Team in Knoxville/Knox County and has been established and growing (both in resources and services) since 2018. Contract services include local, state and federal contracts for services that include the City of Knoxville, Knox County, and HUD.

VMC agrees to the NOFO requirements that are already inherent in our daily activities. These include:

- Participate in regular partner meetings.
- Share relevant data and outcomes for evaluation purposes.
- Coordinate with other partners to ensure integrated service delivery.

Additionally, we agree to consider other roles and services upon planning and execution of the grant, as needed and funded. The entirety of our commitment is contingent on approved funding budgeted and necessary to carry out the grant commitments, upon approval from SAMHSA and Knox County.

Questions can be directed to Mary Beth Ramey, Chief Grants & Compliance Officer: MRamey@vmcinc.org, or (865) 524-3926 x 229.

Sincerely,

Tracey Williams
CEO

2023 ANNUAL REPORT

Tracey Williams, VMC CEO

2023 – A Year of Transition

I started my tenure at VMC January 22, 2024, and this annual report is a review of 2023. Although I was not yet in place, I have spent much of my first year reviewing our past performance, most especially, 2023—our year of transition.

We can't talk about 2023 without talking about **Bruce Spangler.** March 31, 2023, was Bruce's last day at VMC after leading VMC through 17 years of tremendous success and growth. His compassion and commitment to vulnerable people led us through some tough times, including COVID-19 and the soar in needs of the already challenged homeless community.

"Replacing" Bruce proved harder than we thought, and so the **Reverend Bo Townsend,** who had already led the financial charge to conceptualize and bring Caswell Manor to life, stepped in to bridge the gap until I could make my way here from Florida.

Caswell Manor was certainly our success story for 2023 as we finished construction on our second Permanent Supportive Housing (PSH) development. In 2023, we opened the doors for what would become home to 48 previously unhoused neighbors — many who came directly from living on the streets or encampments.

Tracey Williams, current VMC CEO, with former VMC CEOs Ginny Weatherstone and Bruce Spangler.

During the leadership turnover in 2023, Bo and our Board of Directors dug in and set VMC up for success by engaging with outside professionals. These brightest and best companies helped us update everything from our technology to accounting. We outsourced key positions (CFO, asset management, etc.) to ensure we had continuity of operations and engaged in best practices to allow staff to dedicate more time to the quality and sustainability of our programs and mission. Speaking of sustainability, 2023 also brought us a **two-million-dollar opportunity** to start an endowment fund—and with your help, we met that goal in 2024.

And so, we start **the next chapter of VMC** built on years of faithful support from hundreds of dedicated people like you.

All of this requires the best team and we are proud to tell you that, not only have we stabilized, but are stronger than ever and ready to step up our quest to **end and prevent homelessness.**

Thank you for staying true to VMC though our growing pains of 2023-24. We couldn't be more excited about the years ahead of us. Stay tuned, get involved, and reach out to me directly if you want to discuss opportunities for collaboration and success.

Gratefully,

Tracey Williams

A Message *from the Chairman of the Board*

Nancy Friedrich, Chairman of the Board

2023 was a year of tremendous excitement and anticipation as we faithfully laid the foundation for an even more impactful VMC future.

The year began with the opening of Caswell Manor, the new VMC permanent supportive housing development. Countless volunteer hours and generous donors made it possible for 48 chronically homeless individuals to leave the streets and be housed in their own beautiful apartment.

Then, the VMC Endowment: What a Game Changer! A long-time supporting foundation, a fervent believer in the VMC mission, pledged $1 million to VMC with the provision we raise $1 million in matching funds. This adds a level of financial strength to VMC we haven't had before.

The year wrapped up with the hiring of our new CEO Tracey Williams. You have read her impressive list of accomplishments in previous communications, but I will state again: Tracey's incredible vision, managerial skills and boundless energy shine a bright spotlight on VMC today and into the future.

To all of you who love and support the VMC mission of ending and preventing homelessness, thank you. It is an exciting time to be a part of VMC!

With thanks,

Nancy Friedrich

Housing is the solution to homelessness. With the opening of Caswell Manor in 2023, 48 formerly chronically homeless individuals with a disability now have a permanent home.

2024 Board of Directors

David Arning	Ross Goodman	Darrell Murrell
Kaleb Buckner	Felix Harris	Alison Oakes
Susan Conway	Rick Jenkins	Hunter Purnell
Nancy Friedrich	Anna Justice	Ragan Schriver
Phillip Furlong	Cara Knapp	Laura Seymour
Richie Gandy	Ken Knight	Mark Walker
Hitch Gilchrist	Greg Marret	Eboni Winford

The Resource Center

Utilizing the "Housing First" model, the Resource Center is an evidence-based transitional day program using case management services to assist people experiencing homelessness to attain affordable, permanent housing. Also provided are the additional skills and supportive services required to maintain that housing. The Resource Center provides a safe and supportive daytime environment in which clients can access meals, showers, laundry, telephone, mail, computers, and classes on a variety of topics such as anger management, personal responsibility, alcohol and drug education, self-esteem, and basic life skills.

2023 Resource Center Statistics

VMC's housing programs resulted in **98** housing placements with **52** of those through the Resource Center. Since 2007 a total of **1,326** have achieved housing. Our housing retention rate is **91.1%** measured after one year in housing. The national average is 85%.

Resource Center Staff Gail Mullins and Todd Townsend manage daily activities of participants in the VMC Resource Center.

The Bush Family Refuge

The Refuge serves individuals who are in crisis and who may be at risk of losing their housing. It also serves the homeless who need an assessment for services. Services provided include assistance with rent, utilities, transportation, prescriptions, birth certificates and state-issued identification, and CHAMP assessments. Volunteers assist with all aspects of the Refuge program. The focus of the Refuge is the prevention of homelessness and housing stabilization. Referrals to other services and agencies are made as appropriate.

2023 Bush Family Refuge Statistics

- **181** households received homeless prevention services.
- **655** individuals were assisted with birth certificates/state issued IDs.
- **1,493** total individuals served.

Refuge volunteer and VMC Board Member Rick Jenkins listens with compassion to a neighbor requesting assistance.

The VMC Dental Clinic

Located at our main campus, the VMC Dental Clinic has been providing oral health care to individuals experiencing homelessness and the very low income of Knox County since 1998. Staffed by volunteer dental professionals, the VMC Dental Clinic provides comprehensive dental services at no charge to a segment of our community who would otherwise not receive dental care.

2023 Dental Clinic Statistics

- **577** patient visits.
- **1,242** procedures performed.
- **32** sets of dentures were provided.

Colleen has a big, beautiful smile after receiving dental services in the VMC Dental Clinic.

Minvilla Manor & Caswell Manor

Minvilla Manor

Caswell Manor

Providing a moderate supportive environment to former chronically homeless and disabled individuals, Minvilla Manor has 57 apartment units for single residents and Caswell Manor has 48 apartment units. The supportive services are "in-house" to assist and empower every resident with the objective of long term tenancy and to secure appropriate medical/behavioral services. Minvilla and Caswell offers on-site case management services and twenty-four hour staffing. This ensures a high level of security for the residents. Social activities are also provided.

2023 Minvilla Manor & Caswell Manor Statistics

67 individuals lived in Minvilla Manor, and **56** individuals lived in Caswell Manor.

Street Outreach Services & The Foyer

Street outreach workers engage the most vulnerable of our homeless neighbors with the intent of connecting them to housing case management services. They also made referrals to the Foyer, a low-barrier housing-focused emergency overnight shelter to those who, for multiple reasons, were not accessing a traditional shelter.

Street Outreach Worker Dyrl Higdon engages neighbors under the bridge.

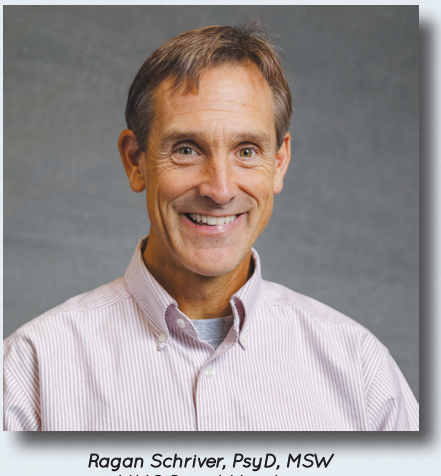
As an entrée to housing, the Foyer provided overnight accommodations for 30 people, paired with direct and indirect access to social services. Accommodations for companion pets were also provided at the Foyer.

2023 Street Outreach & Foyer Statistics

270 individuals engaged through Street Outreach. **100** individuals in overnight shelter at the Foyer.

Our Mission

> Ending and preventing homelessness through compassion, accountability, and results.



Three big words...

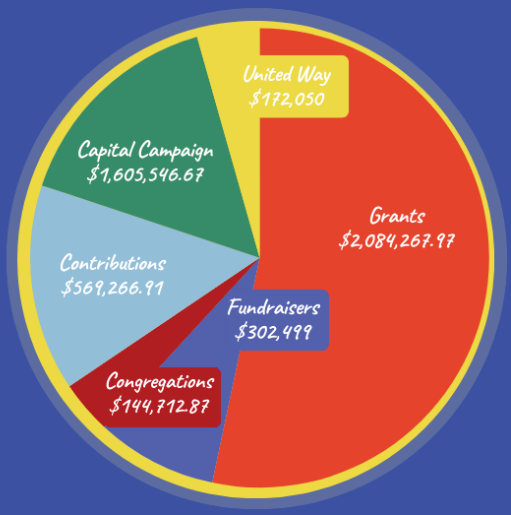
Compassion: meeting people where they are in their hour of greatest need, holding them in positive regard even as we see the possibility of a higher level of functioning and self-sufficiency.

Accountability: expecting those we serve to be an active part of their own recovery, expecting them to do what they agree to do as part of their plan.

Results: seeing those we serve move into a better life as people with housing and a plan for the future, seeing them maintain their housing with a long-term plan for sustainability.

> I remember when VMC was merely a drop-in center providing an important service, but not significantly improving the lives of the neighbors they served. VMC gave up their line of service to make a true mark on the lives of the clients. The move toward permanent supportive housing has been a game changer for so many.

Ragan Schriver, PsyD, MSW
VMC Board Member



Volunteer Ministry Center's focus on permanent supportive housing offers more than just a roof over one's head—it provides stability, dignity, and the critical services needed to break the cycle of homelessness. It's not just about shelter, but about giving individuals the opportunity to rebuild their lives with the support they deserve, leading to healthier communities and more hopeful futures for all.

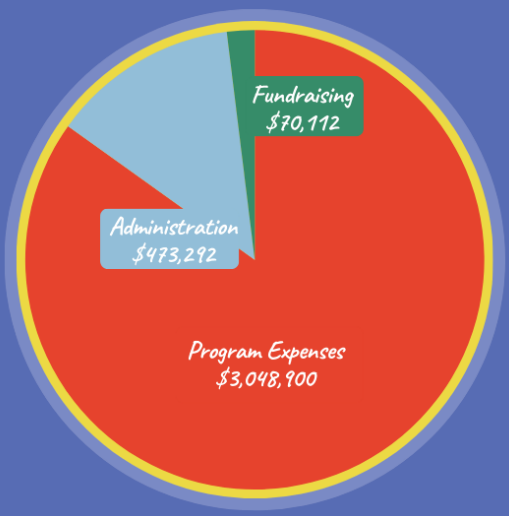
- Ragan Schriver

2023 VMC FINANCIAL SUMMARY

Revenue = $4,526,918 ↑ 21% from 2022

- **GRANTS: 53.3%**
  Foundations, FEMA, HUD, City of Knoxville, Knox County, and State of Tennessee.
- **CAPITAL CAMPAIGN: 15.5%**
  VMC hosted a capital campaign in 2022-2023 to raise funds to build 48 apartments known as Caswell Manor.
- **CONTRIBUTIONS: 14.5%**
  Donations from individuals, corporate partners, planned giving, and in-kind services/goods.
- **FUNDRAISERS: 8.5%**
  Annual and Community Events benefiting VMC (Golf Tournament, Wine & Shine, Carry the Torch, etc.)
- **UNITED WAY: 4.5%**
  Annual Grants Funds and Individual allocations through payroll.
- **CONGREGATIONS: 3.7%**
  Local Churches support programs and staffing for case management.

*Many corporate gifts are counted in fundraisers because they are given as event sponsorships.



Expenses = $3,592,304 ↓ 1% from 2022

- **PROGRAMS: 85%**

Program expenses include costs associated with providing VMC's case management, permanent supportive housing, and other prevention programs and services including rent and utility assistance, day program with laundry, and an outdoor shower trailer.

- **Resource Center** **$801,866**
- **Refuge Center** **$345,631**
- **Dental Clinic** **$164,371**
- **Street Outreach,** Low Barrier Shelter (The Foyer), and **Housing at Minvilla and Caswell Manors** (105 apartments) **$1,737,032**

- **ADMINISTRATION: 13%**
- **FUNDRAISING: 2%**

2023 VMC NET ASSETS UP ↑ 26% FROM 2022

2023 Highlights

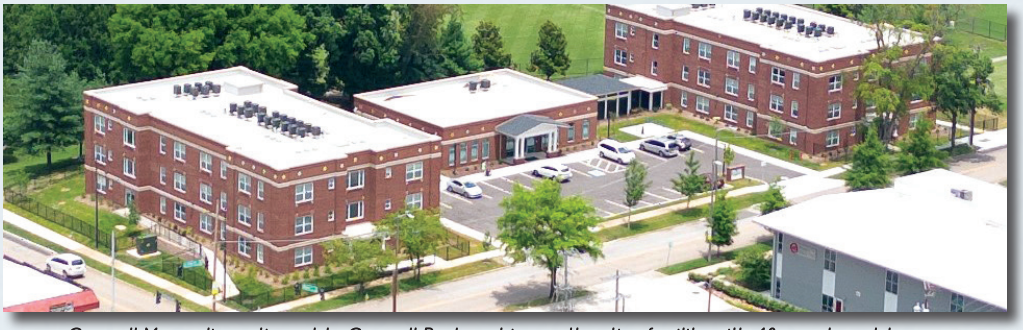
2023 was an exciting year with the opening of Caswell Manor and continued successes in all program areas. **113** individuals experiencing homelessness were engaged in a case management relationship through the Resource Center. **181** households received housing stabilization services through the Bush Family Refuge. There were **1,242** procedures performed in the Dental Clinic in **58** provision days. Street Outreach case workers engaged **270** individuals living in encampments. **2,565** showers were provided through the mobile hygiene shower trailer program. **100** of the most vulnerable of our homeless neighbors received nightly shelter at the Foyer. **123** residents at Minvilla Manor and Caswell Manor received housing support services. And, through the work of all VMC programs, **98** housing placements were made in 2023.

We have a home now!

Tim signed his lease and moved into his new apartment at Caswell Manor. He worked very hard for a year to achieve his goal of housing. During this time, Tim stayed at The Foyer and worked with his case manager in the VMC Resource Center until he achieved his housing goals. Now that he is in safe and stable housing, he will continue to be supported through case management services. Welcome Home, Tim!

Larry signed a lease for his new apartment and is now in housing! Larry is a kind person, who is very caring and goes out of his way to help other neighbors. He had been working toward housing with VMC for over a year and it was very crucial for his health for him to achieve housing. VMC is proud of Larry and how hard he has worked to change his way of life for the better. Welcome Home, Larry!

Daniel, left, and his case manager, Ethan, have a conversation in the lobby of Caswell Manor after Daniel signed a lease to his new apartment. Welcome Home, Daniel!



Beth proudly displays her key to her new apartment presented by her case manager, Andrea. Beth has a permanent home now providing safety and security and improved health and well-being. Welcome Home, Beth!

There is No Place Like Home!

Caswell Manor – Opened in 2023

With construction complete, Caswell Manor officially opened in 2023 providing 48 homes for our chronically homeless neighbors who have a disability and need moderate support. Similar to Minvilla Manor, Caswell Manor provides permanent supportive housing with on-site case management. The campus consists of two wings with 24 one-bedroom apartments connected by a center building for community activities, dining, laundry, and support staff offices.

Caswell Manor lies adjacent to Caswell Park and is an attractive facility with 48 apartment homes.

City, County, and State officials came together to participate in and celebrate the grand opening of Caswell Manor.

It was an exciting day for the first group of residents at Caswell Manor who signed leases to their new home.

Billy Currier Legacy Society

In 2021, the Billy Currier Legacy Society was established with members committing to a Legacy Gift for the Volunteer Ministry Center. Through a Planned Gift, generous and forward thinking donors support the long term success of VMC. The Legacy Society provides a way for VMC to recognize and thank donors during their lifetimes for their legacy gifts.

Billy was a long-time resident with VMC. A few years before his passing in September 2020, Billy decided he needed a Will. He said he didn't have much, but what he did have he wanted to go to VMC. Billy was a kind and generous soul. To that point, he designated his remaining financial assets through his Last Will and Testament to come to VMC.

With Gratitude — *Our Donors*

"I support VMC because of its mission and its impact. As a clinical psychologist who serves our neighbors, it is so important to include all social drivers of health—housing being one of them. I am a firm believer that everyone has a right to safe and affordable housing. That everyone has a right to safe and quality health care. And that everyone has a right to be treated with dignity and respect—regardless of where they live and where they consider 'home.' I'm honored to not only support VMC but to serve it as a member of its Board of Directors."

VMC

THE GOAL FOR EVERY NEIGHBOR IS TO ACHIEVE & SUSTAIN HOUSING

VMC'S MISSION & PURPOSE

Established in 1987, VMC is a 501(c)(3) nonprofit agency whose mission is to prevent and end homelessness, through compassion, accountability, and results. We are an inclusive and affirming culture that recognizes the value and humanity of each person. We offer customized services and case management to neighbors who are experiencing a housing crisis or homelessness.

THE COMMUNITY NEED

The data from the Homeless Management Information System (HMIS) dashboard shows that in the first quarter of 2024 there were 1,798 individuals accessing homeless services in Knoxville and Knox County. The median time spent unhoused in Knoxville is 320 days. The need is great and impacts all of us; there is both an economic and human cost to our community.

A MESSAGE

from the Chief Executive Officer

Leadership, Collaboration, and Commitment in 2024

Moving to Knoxville in January 2024, stepping into the role of VMC CEO, has been one of the most meaningful transitions of my career. VMC's strong reputation—built by dedicated leadership, staff, volunteers, and supporters—meant that I entered an organization already moving with strong purpose and momentum. That foundation made my first year not only a pleasure, but a challenge in all the best ways. My onboarding stretched through the entire year, bringing me into conversations with hundreds of VMC supporters, partner agencies, and city and county leaders. I quickly discovered how fortunate VMC is to have such respected programs with deeply committed people guiding them. Their reputation and circle of influence made it easy for me to connect, learn, and feel at home.

I also arrived at a pivotal time of housing-related momentum—just after the City/County Office of Housing Stability (OHS) was established and during a period of leadership transition across the Mission District and Knoxville's broader nonprofit community. These shifts brought new faces, new ideas, and renewed energy. This created a collaborative environment that started and continues to fuel the changes necessary to really move the needle in meeting the needs of our most vulnerable. More importantly, this new community leadership is helping to shape a more strategic, unified approach to serving our neighbors facing crisis and homelessness. That work is ongoing, and I assure you that VMC is serving on the frontline, eager to better meet needs from warming centers to permanent housing. I look forward to sharing that progress in 2025.

CEO, Tracey Williams with VMC Neighbor, Danny

This annual report reflects the collective achievements of VMC, so I will let the publication showcase our results, and I will use this space to express my gratitude, as you have made my first year deeply rewarding. I have always been mission-driven, but Knoxville—and the VMC team—have made this mission personal. It has changed me, and I am honored to join you in our shared commitment to ending and preventing homelessness in Knoxville.

CEO, Tracey Williams

A special thank you goes to Nancy Friedrich, my steady co-pilot throughout 2024, as well as Susan Conway, my connector and guide. They greeted me during my interview with bright smiles and tough questions, and they walked beside me all year—with leadership, support, and perfectly timed visits, text messages, and snacks.

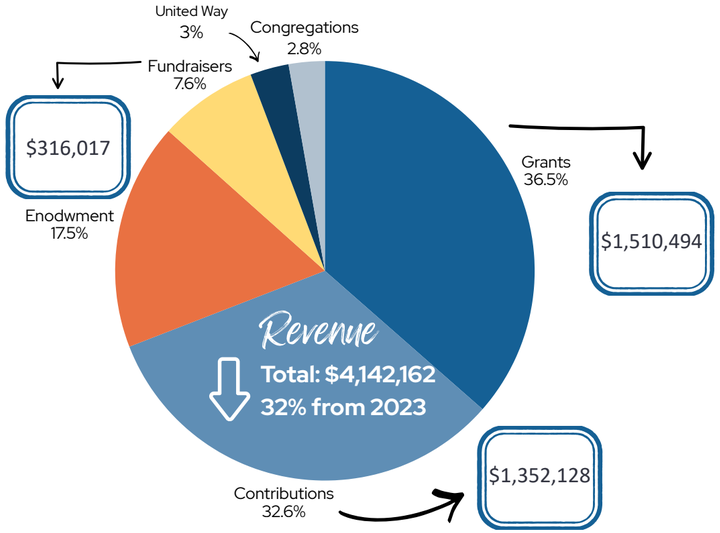
A message from the Board Chair

In 2024, VMC began an exciting new chapter of leadership with the appointment of CEO Tracey Williams. Tracey is a dynamic, experienced leader whose vision and expertise are guiding VMC to new levels of organizational excellence. Under Tracey's leadership, VMC has streamlined and enhanced its programs, always keeping in mind what best serves our unhoused neighbors. Also, this year, VMC achieved a significant milestone by raising $1 million to match a $1 million gift for the VMC Endowment fund. This will strengthen the long-term financial stability of VMC, enabling us to serve the most vulnerable in our community.

We are thankful for all of you - our volunteers and donors - who support the VMC mission to prevent and end homelessness.

Nancy Friedrich, Board Chair 2021, 2022, 2024

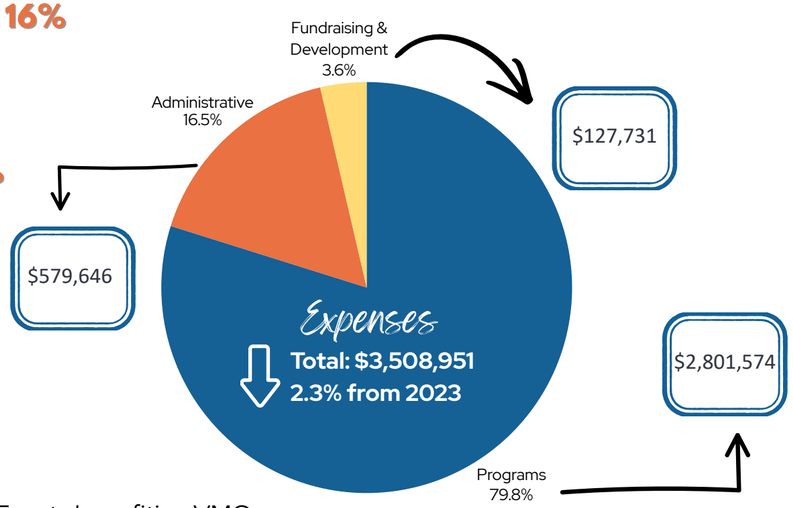


CEO Tracey Williams & COO Gabe Cline with Board Member, Ragan Schriver

2024 FINANCIALS

SUSTAINABILITY

We are grateful to have such a generous, supportive community who gives their time, skills, creativity, goods, and finances to support the mission of VMC as we serve our most vulnerable neighbors.



EXPENSES

Program expenses include costs associated with providing VMC's case management, permanent supportive housing, and other prevention programs and services. This includes rent and utility assistance, day program with laundry, and outdoor shower trailer.

ADMINISTRATIVE: 16%

PROGRAMS: 80%

FUNDRAISING: 4%

2024 REVENUE SOURCES

GRANTS: 36%

Foundations, FEMA, HUD, City of Knoxville, Knox County, and State of Tennessee.

ENDOWMENT: 17%

$1 Million Endowment gifted by a Foundation and then matched by other generous donors.

CONTRIBUTIONS: 33%

Donations from individuals, corporate partners, planned giving, and in-kind services/goods.

FUNDRAISERS: 8%

Annual and Community Events benefiting VMC (Golf Tournament, Wine & Shine, Carry the Torch)

UNITED WAY: 3%

Annual Grants Funds and Individual allocations through payroll.

CONGREGATIONS: 3%

Local Churches support programs and staffing for case management.

**Many corporate gifts are counted in fundraisers because they are given as event sponsorships.*

2024 AT A GLANCE

- 72 Neighbors Housed
- $5.1 Million Donations Received
- 1,198 Dental Procedures
- 2,724 Showers Provided to 526 Individuals
- 1032 People Engaged Through Street Outreach
- 11,057 Meals Served to Neighbors
- 152 Neighbors Received Case Management
- 125 People Received Emergency Assistance
- 551 Patient Visits
- 60 Neighbors Received Rapid-Rehousing Services

Over 1,124 individuals in crisis received services through the Bush Family Refuge.

72 OF KNOXVILLE'S MOST VULNERABLE ACHIEVED FREEDOM FROM THE STREETS AND NOW HAVE A SAFE PLACE TO CALL HOME THANKS TO GRANTS, OUR DONORS, AND SUPPORTERS WHO HELP US FUND THE RESOURCE CENTER, RAPID REHOUSING AND STREET OUTREACH PROGRAMS.

PROGRAMS & IMPACT

1

Street Outreach Team

Five staff host office hours, a clothing closet, shower trailers, and conduct daily visits to connect the unsheltered with services.

2

Dental Clinic

One staff coordinates professional dental clinicians to provide dental care to the homeless/low income: We provide dentures, fillings, cleanings, etc.

3

Bush Family Refuge

One staff/many volunteers serve those at risk of losing their housing. They conduct intake assessments for eligibility of housing services. Services Include: Rent/utilities funds, transportation, prescriptions, birth certificates, state-issued ID, and more.

OUR APPROACH

We use best practices, including the successful "Housing First" model. This means neighbors are offered permanent housing first, and without prerequisites (sobriety, employment, etc.).

This model allows neighbors the safety, stability, and security to heal. Only then, can they address the deeper issues that led to homelessness. Studies prove this approach achieves and sustains long-term success while reducing economic and human costs.

4

Resource Center

A Day Center with staff who provide one-on-one case management to help overcome barriers to housing and self sufficiency. Classes, meal program, showers, laundry facilities, and social activities are also offered.

5

Rapid Rehousing

A program for those who need guidance to navigate the housing system, but do not need long-term or the full support of a day shelter or PSH.

PERMANENT SUPPORTIVE HOUSING (PSH)

PSH is a housing model designed to serve the most vulnerable who have been identified as "chronically homeless" and have physical/mental disabilities that compound their issues.

ENDOWMENT

GENEROSITY RESULTING IN MORE

Board Member, Susan Conway (far right) with Chuck Maland, Jim Friedrich, & Nancy Maland

LED BY 2024 VMC BOARD MEMBER, SUSAN CONWAY, THE ENDOWMENT CAMPAIGN WAS A GREAT SUCCESS

2024 was an exciting year for VMC as it was the year a longtime supporter of VMC, a Foundation, gifted a $1 Million Endowment to sustain the future programs and services of the Volunteer Ministry Center. In addition, through the tenacious efforts of Susan Conway, VMC Board Member and Chair of the Endowment Committee, and the generosity of numerous VMC donors, the required matching funds in the amount of an additional $1 Million was gifted for the Endowment.

The gift of the Endowment provided a level of financial strength for VMC which will continue for years to come ensuring that our unhoused neighbors and those experiencing housing instability will receive the services they need. VMC extends heartfelt gratitude to the Foundation and all generous donors who supported the Endowment.

Billy Currier, Former VMC Resident and Legacy Society Inspiration

Billy was a long-time resident with VMC. A few years before his passing in September 2020, Billy decided he needed a Will. He said he didn't have much, but what he did have he wanted to go to VMC. Billy was a kind and generous soul. To that point, he designated his remaining financial assets through his Last Will and Testament to come to VMC.

LEGACY SOCIETY

In 2021 the Billy Currier Legacy Society was established with members committing to a legacy gift for the Volunteer Ministry Center. Through a planned gift, generous and forward thinking donors support the long term success of VMC. The Legacy Society provides a way for VMC to recognize and thank donors during their lifetimes for their legacy gifts.

Subject: Letter of Commitment for Knox County SAMHSA STREETS Grant Application

On behalf of Knox County Probation Department, I affirm our commitment to actively participate in and support the objectives of Knox County's application to the STREETS grant program. We pledge to adhere to all program requirements, including compliance with federal guidelines, reporting standards, and collaborative practices, recognizing the importance of this partnership in achieving shared goals.

Our organization is dedicated to contributing to the success of this initiative by identifying potential participants and acting as a referral source.

We agree to:

- Participate in regular partner meetings.
- Share relevant data and outcomes for evaluation purposes.
- Coordinate with other partners to ensure integrated service delivery.

Sincerely,

Richard A. Major

Subject: Letter of Commitment for Knox County SAMHSA STREETS Grant Application

On behalf of Knox County Mental Health Court, I affirm our commitment to actively participate in and support the objectives of Knox County's application to the STREETS grant program. We pledge to adhere to all program requirements, including compliance with federal guidelines, reporting standards, and collaborative practices, recognizing the importance of this partnership in achieving shared goals.

Our organization is dedicated to contributing to the success of this initiative by *Improving the well-being of justice-involved individuals with mental illness and other mental health diagnoses, to optimize the allocation of criminal justice resources, and increase public safety through judicially supervised, community-based treatment and support services, which encourage recovery through accountability, supported by the collaboration of community stakeholders.*

We agree to:

- Participate in regular partner meetings.
- Share relevant data and outcomes for evaluation purposes.
- Coordinate with other partners to ensure integrated service delivery.

Sincerely,

Vincent Smith

ATTACHMENT 3: SAMPLE CONSENT FORMS

DEPARTMENT OF HEALTH AND HUMAN SERVICES - SAMHSA
SAFETY THROUGH RECOVERY, ENGAGEMENT, AND EVIDENCE-BASED TREATMENT AND SUPPORT
OPPORTUNITY NUMBER: SM-26-019 | FEDERAL ASSISTANCE LISTING: 93.243
SUBMITTED BY: KNOX COUNTY, TENNESSEE

Welcome to CHAMP

CHAMP is a partnership of over 20 agencies in Knoxville and Knox County, connecting people with housing and services. This **20-30-minute interview** is the first step in the CHAMP process, helping us understand your needs.

By participating, you agree to the following:

- This interview does not guarantee that I or my agency will work with you. Referrals are based on availability and needs.
- Participation in CHAMP does not guarantee eligibility or admission to housing or services. Housing options are limited, and finding housing will take time.
- Please provide accurate and truthful information to avoid delays and unsuccessful referrals.
- Your provider needs to know how to reach you if opportunities arise. Please update them with any changes to your contact information.
- If you have a complaint or feel you've been treated unfairly, request an appeal form from any participating agency.
- You have the right to skip questions, but this may result in less accurate referrals.
- If you feel discomfort during the interview, we can take a break anytime.
- We value your time! Please keep your answers brief. You can usually answer questions with just one word like "yes" or "no."

KnoxHMIS Privacy Notice

Purpose

KnoxHMIS is the Homeless Management Information System (HMIS) for Knoxville and Knox County, Tennessee. This document (“Privacy Notice”) describes the privacy protections set in place by KnoxHMIS and its Partner Agencies ("Agencies") entering data into HMIS. This Privacy Notice covers how KnoxHMIS handles **Personally Identifiable Information (PII)** for the Agencies’ Clients. PII is any information that is specific enough to identify a person, either on its own or combined with other data.

Partner Agency Responsibilities

Agencies are required to adopt and comply with all the privacy protections detailed in this Privacy Notice. Agencies are encouraged to provide a copy of this Privacy Notice to each Client, and must:

- Inform Clients that PII is being collected and provide the reasons for collecting this information.
- Post this Privacy Notice visibly in places where intakes occur.
- Provide a copy of this Privacy Notice, the KnoxHMIS Release of Information, and KnoxHMIS Partner Poster (listing all agencies with HMIS access) upon Client request.

While posting this Privacy Notice is the minimum requirement, Agencies may choose to take additional steps to ensure the Client is fully informed, e.g., by guiding the Client through this Privacy Notice and answering questions as needed. Agencies shall provide reasonable accommodations to persons with disabilities and persons with limited English proficiency to ensure their understanding of the KnoxHMIS Privacy Notice and the KnoxHMIS Release of Information Form (ROI).

Accountability

Agencies must uphold relevant federal and state confidentiality regulations and laws that protect Client records, including but not limited to the privacy and security standards found in HUD’s Data and Technical Standards. If an Agency is a HIPAA-covered entity, the Agency is required to operate in accordance with HIPAA regulations and is exempt from the privacy and security standards found in HUD’s Data and Technical Standards.

Access and Correction

Agencies must allow Clients to view their personal information recorded in HMIS and provide Clients a copy upon their request. Clients have a right to rescind their consent for HMIS partners to share Client information; data already entered will not be un-shared, but data for projects entered thereafter will be locked down.

Agencies must offer to explain any information that is not understood.

Clients must request to view their HMIS data in writing to their social worker/case manager. Agencies must consider a written request for correction of inaccurate or incomplete personal information. If the Agency agrees that the information is inaccurate or incomplete, the Agency may delete it or may choose to mark it as inaccurate or incomplete and to supplement it with additional information.

Agencies may deny the Client's request for inspection or copying of personal information if:

a. Information was compiled in reasonable anticipation of litigation or comparable proceedings
b. Information is about another person
c. Information was obtained under a promise of confidentiality and disclosure would reveal the source of the information, or
d. Disclosure of the information would be reasonably likely to endanger the life or physical safety of any person.

If the Agency denies a request for access or correction, it must explain the reason for the denial and include documentation of the request and the reason for the denial.

Agencies may reject repeated or harassing requests for access or correction.

Purpose and Use Limitations

Agencies may use or disclose personal information for purposes described in this part of the notice. The Agency assumes that Clients consent to the use or disclosure of personal information for the purposes described here and for other uses and disclosures that are determined to be compatible with these uses or disclosures:

a. To internally manage data related to programs and services such as shelter, case management, and the provision of basic needs.
b. To complete functions related to payment or reimbursement for services,
c. To carry out administrative functions such as staff oversight management functions, and auditing purposes;
d. To create de-identified (anonymous) information that can be used for research and statistical purposes or for reporting to funders, the general public, or key decision makers for the purposes of informing future homeless services efforts. *(No names, date of birth, or other personally identifiable information beyond numeric Client ID will be shared.)*;
e. To avert a serious threat to health or safety if:
    the agency believes that the use or disclosure is necessary to prevent or lessen (1) a public health crisis or (2) a serious and imminent threat to the health or safety of a Client or the public, and the use or disclosure is made to a person reasonably able to prevent or lessen the threat, including the target of the threat;
f. To report victims of abuse when required by law;
g. To deduplicate Client records (i.e. share just enough information to ensure that each Client is only entered into HMIS once, e.g., by sharing name, age, and social security number within the secure HMIS platform);
h. To coordinate care between street outreach teams when Client is staying in places not meant for habitation

i. For judicial and administrative proceedings in response to a lawful court order, court-ordered warrant, subpoena or summons issued by a judicial officer, or a grand jury subpoena, again only as required by law;
j. For oversight of compliance with HMIS requirements.

Before any use or disclosure of personal information that is not described here, the agency must first seek the Client's consent.

Confidentiality

Each agency must maintain any/all personal information as required by federal, state, or local laws.

Agencies may only access or enter Client information when it is necessary for providing services to the Client.

Under no circumstances may Agencies knowingly enter false or misleading data, or use HMIS with intent to defraud federal, state or local governments, Clients or entities, or to conduct any illegal activity.

Agencies shall ensure that all HMIS users are trained through HMIS and comply with the *KnoxHMIS User License & Policy Agreement*.

HMIS users are not permitted at any time to share their HMIS username and password with anyone else, including fellow staff members or volunteers.

If an Agency discovers data was shared beyond the scope of this Privacy Notice, they shall contact KnoxHMIS within 7 (seven) calendar days.

In no situations should an Agency, directly or indirectly, receive remuneration in exchange for any protected health information of a Client.

Protections for Victims of Domestic Violence, Dating Violence, Sexual Assaults and Stalking

Victim service providers supported by Violence Against Women Act (VAWA) funding are prohibited from entering data into HMIS. Agencies must be particularly aware of the need for confidentiality regarding information about persons who are victims of domestic violence, dating violence, sexual assault, and stalking. Additional protections for these Clients includes explicit training for staff regarding the potentially dangerous circumstances that may be created by improper release of Victims' personally identifiable information.

The provisions of this Privacy Notice shall go into effect immediately. This Privacy Notice may be revised at any time, and amendments may affect data entered before such changes were made.

For more information, please contact KnoxHMIS support staff at (865) 974-9217 or HMISsupport@utk.edu.

KnoxHMIS Release of Information (ROI)

What is KnoxHMIS?
KnoxHMIS is a computer system used by homeless service providers in Knoxville/Knox County.

Why is it important?
Sharing your data through KnoxHMIS allows your service providers to work together to help you. It also means you won't have to answer the same questions many times.

What information is entered?
Your name, birthdate, gender, race, family details, housing and service history, employment, education, income, and other basic information will be entered into KnoxHMIS. This includes information about your children or dependents if they also receive help.

Who can see my information?
Only trained and approved users from HMIS partner agencies can access HMIS. They only view data *as needed* to support you, and they follow strict rules about keeping your data safe. All HMIS users can see very basic information like your name, age, and SSN. If you say "I give consent" below, HMIS partner agencies can also share other information with each other such as your housing history and the services you've received. Ask your provider for a complete list of HMIS partner agencies; this list can change over time.

KnoxHMIS sometimes reports data to help our community understand local needs, improve services, and get funding, but these reports *do not* include names, birthdates, or other identifying information. On very rare occasions, information may also be shared beyond these HMIS partner agencies in cases involving serious risk of harm.

What if I say YES?
If you say "I give consent" at the bottom of this form, you're allowing the agencies that serve you to share your information with other HMIS partners, including data from past services. Saying "I give consent" also gives you the option to participate in CHAMP, our local coordinated entry system. Consent is necessary for CHAMP participants, because CHAMP requires data sharing between providers.

What if I say NO?
If you say "I DO NOT give consent" or leave this form unsigned, your program and service information will still be saved in KnoxHMIS, but only *this provider* (the agency you list on page 2) will be able to see it. If you are staying on the street or in an encampment, multiple street outreach teams may work together to support you and may share basic information *only* with other outreach workers.

Is my information safe?
Yes, KnoxHMIS keeps your data safe and private with many protections, including strict federal and local privacy rules. All HMIS partner agencies and staff sign binding agreements to protect your information.

Can I change my mind?
If you permit us to share your information, your consent is valid until you cancel it, which you can do at any time by telling your service provider in writing. Existing data cannot be unshared, but data for projects entered from that point on will not be shared.

What if I want to know more?
For more information, please see the **KnoxHMIS Privacy Notice**, available through your provider or at KnoxHMIS.org/partners. You have a right to a copy of this Release of Information and/or the Privacy Notice. For questions or complaints about how your data are used, please call KnoxHMIS staff (voice calls only) at 865-974-9217.

Please complete a separate form for each **adult**:

☐ **I give consent** for KnoxHMIS partner agencies to use KnoxHMIS to share basic data about me and, if applicable, my children. I will only need to sign this consent one time, and it will be effective for all HMIS programs I work with until I take back my consent.

☐ **I DO NOT give consent** for _____ to share my information with
Name of Agency & Project

other KnoxHMIS partners. Not giving consent **will not** affect whether I can receive services, but I am aware that it may be harder to find help if my providers lack the information they need to work together.

_____	_____	_____

☐ 60 Days ☐ 90 Days ☐ 180 Days ☐ Termination of Treatment ☐ 90 Days post Discharge ☐ Other: _____
Unless I specify otherwise, this Authorization expires 180 days from the date signed or upon termination of treatment, whichever occurs first. This Authorization applies to health information relating to my past, present, or future physical or mental health treatment or payment for healthcare services.

Revocation: I understand that I may revoke this Authorization at any time by submitting a written request to the HRMC Privacy Officer or designee, except to the extent action has already been taken in reliance on it. Revocation does not apply where law permits an insurer to contest a claim under a policy. **Voluntary Authorization:** I understand that signing this Authorization is voluntary. HRMC will not condition treatment, payment, enrollment, or eligibility for benefits on whether I sign this Authorization. **Re-disclosure:** Information disclosed under this Authorization may no longer be protected by federal privacy law and may be re-disclosed by the recipient. However, federal and state law may restrict re-disclosure of HIV/AIDS, genetic testing, and substance use disorder ("SUD") information. Federal law (42 CFR Part 2) prohibits unauthorized re-disclosure of SUD information, including by Designated Parties, without my written consent except as otherwise permitted by law.

I have read, or have had read to me, the above statements and understand them as they apply to me. I have been given the opportunity to review, change, or remove any pre-populated content. I understand that I may receive a copy of this signed authorization form.

SHARON SHANKS

Knoxville, TN
Sharon.Shanks@knoxcounty.org

SUMMARY

Strategic public-sector leader with extensive experience building collaborative partnerships across local government, nonprofit organizations, community stakeholders, and the private sector. Proven success administering public and grant-funded programs, strengthening community initiatives, and leading cross-sector efforts that improve services and opportunities for residents. Skilled in public administration, community development, grants management, and stakeholder engagement, with experience coordinating programs that address health, housing stability, and workforce development.

WORK EXPERIENCE

Community Service Division Director, Knox County **2022 - Present**

- Direct the Community Service Division and oversee grant-funded initiatives that strengthen housing stability, health supports, workforce development, and recovery-oriented programming across Knox County.
- Lead cross-sector collaboration with local governments, nonprofit agencies, healthcare providers, and justice-system partners to improve service delivery, ensure compliance, and coordinate resources for high-acuity populations.
- Manage program operations, budgets, personnel, and performance outcomes while advancing strategic planning efforts that expand access to community services and align with countywide priorities.

Director of Community Based Initiatives, Knox County **2019 - 2022**

- Cultivated and sustained strategic partnerships with community organizations, government agencies, educational institutions, and private-sector leaders to strengthen countywide outreach and service delivery.
- Researched and implemented innovative, culturally responsive strategies to improve communication, community engagement, workforce initiatives, and access to supportive services.
- Provided executive leadership for developing and executing countywide engagement strategies, coordinating internal and external resources to advance collaborative initiatives and improve community outcomes.

KnoxWorx Director, Knoxville Leadership Foundation **2017-2019**

- Directed workforce development programs serving job seekers, employers, and community partners, expanding access to employment supports and coordinated community services.
- Built and sustained partnerships with employers, workforce boards, educational institutions, and community organizations to strengthen service delivery and improve economic mobility outcomes.

STREETS Program Coordinator Job Description

FLSA Classification	Exempt	**Hours per Pay Period**	80

Purpose of Job

The purpose of this position is to support the implementation, operations, and reporting requirements of the SAMHSA-funded STREETS grant. This role ensures that program activities align with SAMHSA guidelines, project goals, timelines, and performance measures. The coordinator works closely with community partners, service providers, leadership, and program staff to advance substance use prevention, treatment, and recovery initiatives.

Essential Functions

- Support day-to-day operations of the STREETS grant, ensuring activities meet SAMHSA standards and grant objectives.
- Coordinate outreach, education, and engagement activities related to substance use prevention and recovery support.
- Maintain detailed and accurate documentation, including participant records, service delivery logs, and required federal reporting.
- Assist in collecting, tracking, and analyzing program data for SAMHSA performance measures.
- Schedule and coordinate meetings, trainings, and collaborative activities with partners.
- Prepare program updates, progress summaries, and documentation for internal and external stakeholders.
- Support grant budgeting tasks by tracking expenditures and verifying allowable costs.
- Serve as a point of contact for community partners, ensuring timely communication and strong collaboration.
- Help ensure compliance with SAMHSA regulations, confidentiality requirements, and organizational policies.
- Provide logistical and administrative support to program leadership as needed.

Minimum Training & Qualifications

- Bachelor's degree in public health, social work, psychology, education, or related field preferred; equivalent experience considered.
- Experience working with federally funded programs, behavioral health services, or community-based initiatives is strongly preferred

Competencies

- Strong organizational, communication, and project coordination skills.
- Ability to manage multiple tasks, meet deadlines, and maintain accurate records.
- Experience with data collection, reporting systems, or grant performance metrics.
- Familiarity with trauma informed care, substance use disorders (SUD), co-occuring disorders, and behavioral/mental health treatment principles.
- Experience working with vulnerable populations.
- Experience working and managing complex projects related to substance use prevention, treatment, recovery, and housing stability.

SARAH BRADSHER

WORK EXPERIENCE

Knox County Government | Knoxville, TN

***Grants Program Manager* | February 2026 – Present**

- Direct the strategic planning, execution, and lifecycle management of a diverse portfolio of programs funded via local, state, and federal streams.
- Oversee complex sub-recipient contracts to guarantee 100% adherence to terms, conditions, approved budgets, and federal regulations.
- Analyze sub-recipient performance data and deliver specialized technical assistance and policy interpretations to mitigate compliance risks**.**
- Evaluate high-stakes grant applications and provide data-backed funding recommendations to departmental leadership**.**
- Lead cross-functional data collection to author comprehensive monthly, quarterly, and annual performance reports for state and federal agencies**.**

***Grants Coordinator* | May 2024 – February 2026**

- Maintained budget documents and performed rigorous grant reconciliations to ensure error-free financial reporting**.**
- Co-led the strategic implementation and compliance tracking of a complex project funded by FEMA's Regional Catastrophic Preparedness Grant (RCPG), successfully developing regional preparedness and community resiliency frameworks across 16 counties**.**
- Drafted and executed multiple Requests for Proposals (RFPs), comprehensively reviewing and scoring vendor applicants to secure specialized contractors.
- Spearheaded the creation of specialized low-barrier emergency shelter training courses; successfully launched and managed curriculum modules on a Talent LMS platform to scale regional education.

Volunteer Ministry Center | Knoxville, TN

***Various Social Work and Nonprofit Roles and Promotions* | July 2018 – April 2024**

***Director of the Bush Family Refuge* | November 2021 – April 2024**

- Supervised, trained, and evaluated full-time staff and interns by implementing performance metrics and professional best practices
- Facilitated critical communications between program directors, community staff, and clients to dynamically deploy changing operational resources**.**
- Managed the scheduling, recruitment, and tracking of volunteer network to ensure uninterrupted shift coverage**.**
- Maintained audit records by reviewing and approving all program expenditures in strict alignment with funder guidelines**.**

***Permanent Supportive Housing & Provisional Case Manager* | July 2018 – October 2021**

- Coordinated comprehensive, specialized care for a caseload of 20+ vulnerable clients navigating severe mental health and substance use diagnoses**.**
- Rapidly assessed high-stress crisis situations and executed immediate, safe de-escalation interventions.
- Managed client profiles within the HMIS database, maintaining strict record tracking, precise case notes, and structural internal spreadsheets.

Environmental Scan & Hot Spot Mapping
Contracted Service and Scope

Purpose	Knox County Grants and Community Development will procure a contracted service provider to conduct an environmental scan and hot spot mapping to inform STREETS outreach and implementation. This service will supply the project with the geospatial and environmental analysis needed to identify areas with concentrated unsheltered homelessness, elevated behavioral health needs, and increased overdose risk.
Scope of Work	• Conduct a comprehensive countywide environmental scan assessing service availability, geographic gaps, encampment patterns, and behavioral health risk indicators. • Develop geospatial hot spot maps using data sources such as HMIS, EMS overdose calls, shelter utilization, law enforcement activity, and public-health surveillance. • Identify priority outreach zones and emerging locations requiring targeted engagement by STREETS mobile teams. • Provide data visualizations, reports, and interpretation of geographic and environmental trends to support strategic planning and deployment of services. • Coordinate with the Program Evaluator, KCGCD, and project partners to ensure alignment with existing data systems and continuous quality-improvement efforts. • Present findings to KCGCD and the Governance Board to support evidence-based decision-making throughout the project period.
Procurement and Oversite	This service will be contracted through Knox County's competitive procurement process. The selected provider will have demonstrated experience in GIS mapping, environmental scanning, homelessness system analysis, and public-health data interpretation. KCGCD will oversee contract performance, deliverables, and integration of findings into the STREETS project.

Crystal M. Widener

PROFESSIONAL EXPERIENCE

Budget Manager, Knox County Government – Grants **Nov 2023 – Present**
Knoxville, TN | (865) 215-5000

- Manage and oversee the department's annual operating budget exceeding $100 million across local, state, and federal funding streams, ensuring accurate allocation, regulatory compliance, and financial accountability.
- Prepare and maintain budget documents, reconcile grant accounts, revenue activity, and purchasing card transactions, and monitor expenditures to ensure fiscal integrity.
- Conduct financial analysis and forecasting to support strategic planning, budget development, and long-term funding decisions.
- Process budget amendments and prepare monthly and quarterly reimbursement requests for multiple grant and funding sources.
- Generate and distribute detailed financial reports to support program administration, grant compliance, audits, and executive decision-making.

Internal Staff Accountant, Knox County Health Department **Jun 2017 – Nov 2023**
Knoxville, TN | (865) 215-5300

- Maintained daily bank deposit records and reconciled bank statements, lockbox payments, credit card deposits, and general accounts to ensure financial accuracy and accountability.
- Managed and audited petty cash, lockbox activity, and gift card inventories while preparing, processing, and reconciling grant invoices to maintain compliance with funding requirements.
- Reviewed invoices, prepared check requests, processed travel reimbursements, and transferred funds to appropriate revenue and organizational accounts.
- Processed, verified, and approved employee timesheets for all Health Department personnel to support accurate and timely payroll processing.

Finance Payment Specialist, EdFinancial Services **May 2012 – Feb 2014**
Knoxville, TN | (865) 342-5500

- Processed borrower, claim, and consolidation student loan payments through phone, email, and mail channels while consistently meeting production and accuracy goals.
- Completed payment processing functions including ACH transactions, refunds, write-offs, reversals, queue management, and system requests.
- Researched and resolved loan servicing and payment discrepancies to ensure accurate account maintenance and regulatory compliance.
- Prepared daily and weekly production reports, supported lender and compliance audits through documentation gathering, and developed training manuals for payment, refund, and claim procedures.

Member Service Officer, ORNL Federal Credit Union **Nov 2005 – May 2012**
Oak Ridge, TN | (865) 688-9555

- Processed secured and unsecured loan applications, evaluated financial documentation, and assisted members with financial products and services to support individual and business banking needs.
- Managed new personal and business account openings, IRA setup, teller transactions, ACH deposits, wire transfers, card servicing, and currency orders while consistently meeting sales and production goals.
- Prepared financial reports, supported daily branch operations, served as vault custodian, and conducted audits of cash machines and vault activity to ensure accuracy and compliance.
- Led staff meetings, coordinated employee schedules, developed promotional materials, and trained and coached team members while providing prompt multi-channel member support and maintaining regulatory compliance.

EDUCATION

King University **Aug 2015**
Bachelor of Business Administration

Savanah Sommerfeld

SKILLS

Strategic and detail-oriented finance professional with experience in public-sector budgeting, grant management, financial reporting, and compliance. Skilled in preparing and monitoring budgets, reconciling accounts, overseeing financial transactions, and supporting department leadership with accurate, timely fiscal insights. Committed to ensuring accuracy, attention to detail, supporting team initiatives, and staying in compliance with accounting standards and regulations.

PROFESSIONAL EXPERIENCE

Internal Staff Accountant

Knox County Grants and Community Development | Sept. 2024 - Present

Knox County Health Department | Nov. 2023 - Sept. 2024

- Manage comprehensive grant financial operations, including invoicing, budget tracking, amendments, and compliance documentation across multiple local, state, and federal programs. Prepare and reconcile financial records to support accurate monthly, quarterly, and annual reporting, while partnering with program managers to validate expenditures and ensure alignment with funding requirements.
- Oversee daily financial transactions by performing and reconciling bank deposits, generating credit card activity reports, auditing petty cash and gift card balances, and preparing transfers for disbursement corrections.
- Produce monthly operational reports, including mail activity summaries, vendor invoicing for vital records certificates, and financial reporting for the Breast and Cervical Cancer program, ensuring accuracy and timely submission.
- Utilize Munis to generate financial reports and compile supporting documentation for monthly grant invoicing across local, state, and federal funding sources. Prepare quarterly grant expense reports and develop annual accrual estimates to support precise financial planning and year-end reporting.

Medical Billing Clerk

August 2021 - November 2023

- Processed medical claims for the indigent care community in Knox County, TN. Opened and sorted mail according to the correct provider. Entered and processed claims for multiple specialists and hospitals. Ran monthly reports and created check requests for payment of claims.

EDUCATION

Walters State Community College

August 2016 - December 2017

I majored in pre-med and psychology.

STREETS Program Evaluator – Contracted Role and Scope of Work

Purpose

The Program Evaluator will be a contracted position responsible for leading all performance measurement, evaluation, and continuous quality-improvement activities for the STREETS initiative. The evaluator will design and maintain the project's internal evaluation plan and ensure alignment with SAMHSA's required performance metrics, reporting standards, and fidelity expectations.

Scope of Work

- Develop and implement the STREETS evaluation plan, including data-collection protocols, measurable objectives, and outcome-tracking tools.
- Oversee the analysis of quantitative and qualitative data related to outreach activities, treatment engagement, housing outcomes, recovery supports, and service coordination.
- Monitor fidelity to evidence-based and evidence-informed practices and provide recommendations that strengthen program effectiveness and alignment with grant requirements.
- Produce required SAMHSA reports, performance dashboards, and narrative summaries documenting project progress and system-level impact.
- Facilitate continuous quality-improvement (CQI) processes by identifying gaps, analyzing trends, and proposing actionable strategies to enhance service delivery.
- Collaborate with KCGCD, behavioral health providers, housing organizations, HMIS administrators, and justice-system partners to ensure accurate data sharing and timely reporting.
- Participate in governance and coordination meetings as necessary to align evaluation activities with broader project goals.

Structure

This role will be filled through a competitive procurement process managed by Knox County Grants and Community Development. The selected evaluation firm will demonstrate experience in behavioral health evaluation, homelessness system data, federal grant compliance, and outcomes analysis for high-acuity populations.

Competencies

Estimated at 0.25–0.50 FTE depending on final scope and data-reporting requirements.

ATTACHMENT 6: CONFIDENTIALITY AND SAMHSA PARTICIPANT PROTECTION

DEPARTMENT OF HEALTH AND HUMAN SERVICES - SAMHSA
SAFETY THROUGH RECOVERY, ENGAGEMENT, AND EVIDENCE-BASED TREATMENT AND SUPPORT
OPPORTUNITY NUMBER: SM-26-019 | FEDERAL ASSISTANCE LISTING: 93.243
SUBMITTED BY: KNOX COUNTY, TENNESSEE

Protect Participants and Staff from Potential Risks

Identify and describe possible physical, medical, psychological, social, and legal risks or potential adverse effects your project participants may be exposed to.

Participants in the STREETS program may experience physical, medical, psychological, social, or legal risks while engaging in street-based outreach, clinical assessment, or treatment services. Possible risks include exposure to environmental hazards in encampments, medical complications related to untreated physical or behavioral health conditions, emotional discomfort during assessment or disclosure of sensitive information, social stigma associated with homelessness or substance use, and legal concerns related to justice involvement or past criminal charges. Participants may also experience distress during crisis intervention or treatment transitions.

Identify and describe possible physical, medical, psychological, social, and legal risks, or potential adverse effects, your project staff may be exposed to.

STREETS staff may encounter physical or medical risks when working in encampments or unstable environments, including exposure to hazardous conditions, aggressive behaviors, communicable diseases, or overdose scenes. Staff may also experience psychological stress due to crisis encounters, emotional intensity during client interactions, or working with individuals experiencing acute behavioral health symptoms. Social or legal risks may arise when navigating complex situations involving law enforcement, emergency response, or mandated reporting.

Describe how you will minimize or protect participants and staff against potential risks, including risks to confidentiality.

To protect participants and staff, STREETS will implement strong safety, confidentiality, and clinical protocols, including:

- Trauma-informed and person-centered engagement
- Secure handling of participant information consistent with HIPAA, 42 CFR Part 2, and HMIS privacy standards
- Staff training in de-escalation, crisis recognition, field safety, and overdose response
- Use of safety protocols during outreach, including working in teams, maintaining communication with supervisors, and coordinating with medical, clinical, and law enforcement personnel.
- Clear roles and boundaries to ensure staff minimize exposure to legal or social risk
- Private settings or confidential methods for clinical screening, assessment, and required documentation
- Secure electronic systems for storing and transmitting participant information
- Confidential case reviews limited to authorized personnel

Outline your plan to provide assistance if participants or project staff experience adverse effects. Include, if any, alternative treatments that will be available to participants.

If a participant experiences adverse effects the Mobile Clinical Engagement Team will initiate immediate crisis assessment and connection to appropriate care. Follow-up support, safety planning, and referrals to additional treatment or recovery services will be provided as needed.

If staff experience adverse effects (physical injury, exposure to hazards, emotional stress, or secondary trauma) they will have access to emergency medical care, behavioral health support through employee assistance programs, supervision, and debriefing procedures. Staff may also access alternative assignments or temporary modifications to duties when needed to ensure safety and well-being.

Participants and staff will also have access to alternative services when clinically appropriate, such as telehealth visits, outpatient care, crisis stabilization units, or recovery supports that offer safe and lower-intensity environments while still meeting treatment needs.

Fair Selection of Participants

Participants will be recruited through multiple entry points to ensure equitable access to the STREETS program. Eligible individuals may enter through street-based outreach, emergency medical encounters, hospital emergency departments, crisis response teams, law enforcement crisis interactions, Coordinated Entry access points, and referrals from behavioral health providers, housing providers, or justice-system agencies.

Outreach and engagement strategies will be trauma-informed, responsive, and designed to reach individuals across urban, suburban, and rural areas of Knox County, including those who are disconnected from traditional services. Staff will deliver services without discrimination based on gender, age, disability, race, ethnicity, sexual orientation, justice involvement, or housing status.

To maintain fairness and prevent bias in selection, the STREETS program will:

- Use standardized screening tools and eligibility criteria
- Apply Coordinated Entry prioritization in alignment with HUD guidelines
- Document all referrals and engagement attempts
- Ensure decisions are based solely on clinical need, eligibility, and participant choice
- Provide accessible services and accommodations for individuals with disabilities or communication challenges
- Offer voluntary enrollment that respects participant autonomy

Absence of Coercion

The STREETS project will not provide any grant-funded incentives such as gift cards, cash equivalents, bus passes, or contingency-management rewards. Knox County does not use incentives to encourage participation, nor does it employ any incentive-based treatment models for this program.

STREETS will provide financial assistance for treatment, housing, and supportive services, these resources are not incentives. They are standard, allowable components of the treatment first and

housing support model required under the STREETS initiative. Assistance is provided solely to help participants access medically necessary treatment, stabilize safely, and remove barriers to care. Assistance is reliant on meeting STREETS eligibility requirements. Payments will be made directly to providers.

Data Collection

• Identify who you will collect data from. This may include participants, clients, family members, teachers, staff, or others.

• Describe the data collection procedures you will use and specify the sources for obtaining data. These sources may include school records, interviews, psychological assessments, questionnaires, observation, or other sources.

• State if you will be collecting specimens and provide the type(s) (e.g., urine or blood) your program may collect. Indicate if the specimens will be used for purposes other than evaluation.

• Provide copies of all available data collection instruments and interview protocols that you plan to use in *Attachment 2, "Data Collection Instruments/Interview Protocols,"* of your application. You may also provide a web link to standardized instruments or protocols you plan to use.

PRIVACY AND CONFIDENTIALITY

The STREETS program will ensure the privacy and confidentiality of all participant information through secure data systems, restricted access, and adherence to federal, state, and local requirements. All partner agencies will comply with HIPAA, 42 CFR Part 2, HMIS privacy and security standards, and Knox County confidentiality policies.

Storage of Collected Data

All participant data will be stored in secure, password-protected systems, including:

- Knox HMIS, which meets HUD privacy and security requirements and uses encrypted data storage.
- SPARS (for required SAMHSA reporting), accessed only by authorized personnel.
- Neighborly will utilized for subrecipient data collection.

Physical and electronic files will be stored on secure servers. No data will be stored on personal devices.

Access to Data

Access to participant information will be strictly limited to:

- Authorized STREETS personnel
- Designated HMIS users with approved access levels
- The Program Evaluator (as permitted)
- Knox County leadership responsible for grant compliance

All users must complete HMIS training, HIPAA privacy training, and confidentiality agreements before gaining access.

Protecting Participant Identity

The identity of STREETS participants will be protected through multiple safeguards, including:

- Use of unique HMIS identifiers rather than names in reports and care-coordination discussions
- Storing personally identifying information (PII) separately from service records when required
- Restricting access to PII to only those staff who need it for service delivery
- Encrypting electronic records and securing them
- Limiting case-review discussions to de-identified or minimally necessary information
- Ensuring all data shared with SAMHSA contains no identifying information

ADEQUATE CONSENT PROCEDURES

The Knox County STREETS project will implement informed consent procedures that ensure participants understand available services, how their information will be used, and their rights related to privacy and voluntary participation. Sample consent forms, including program participation consent, data-collection consent, and consent for information exchange, are included in Attachment 3. Because the program serves adults only, youth consent forms are not required.

Consent for Program Participation

Staff will review the consent form with each participant using clear, plain language, answer questions, and verify understanding before obtaining a signature. Participants will be informed that participation is voluntary and that services may be declined or discontinued at any time. Treatment Consent will be documented using McNabb Center's standard clinical consent forms,

Consent for Data Collection

Participants will be informed about what data will be collected, why it is collected, how it will be protected, and with whom it may be shared. Participants will be told that they may receive all STREETS services even if they choose not to participate in optional data-collection activities. Consent for entry into Knox HMIS will be documented using the Knox HMIS Release of Information (ROI) and McNabb Center's clinical data-collection consent forms.

Consent for Release or Exchange of Information

Any sharing of confidential information will occur only with participant consent and within the limits of applicable laws. The Knox HMIS ROI and McNabb Center release-of-information forms will be used to authorize the release or request of confidential information. These forms are HIPAA and 42 CFR Part 2 compliant.

Risk/Benefit Discussion

The risks identified for participants and staff are minimal and reasonable when compared to the significant benefits of the STREETS program. The STREETS model provides immediate access to medical care, behavioral health treatment, crisis stabilization, recovery supports, case management, and housing navigation. These services reduce overdose risk, improve clinical stability, increase safety, and help participants achieve long-term housing and treatment engagement.

For participants, the benefits of rapid access to evidence-based treatment, coordinated care, linkage to housing, and recovery supports far outweigh the limited risks associated with voluntary service participation. For staff, risks are mitigated through safety protocols, team-based outreach, training, supervision, and access to crisis support resources. In both cases, any potential adverse effects are addressed promptly through established crisis procedures, medical response pathways, and internal support systems.

Overall, the anticipated benefits of increased stability, improved health outcomes, reduced emergency-system utilization, and enhanced safety and recovery significantly exceed the manageable risks involved in delivering and participating in STREETS services.

Protection of Human Subjects Regulations

The Knox County STREETS Program is not subject to the Protection of Human Subjects Regulations (45 CFR 46) because the project does not involve research, experimental interventions, or data collection activities designed to contribute to generalizable knowledge. STREETS provides direct services such as outreach, clinical assessment, treatment linkage, case management, housing navigation, and recovery support. These activities constitute service delivery and care coordination, not human subjects research.

All participant information will be handled in accordance with HIPAA, 42 CFR Part 2, Knox HMIS privacy standards, and Knox County confidentiality policies. No experimental procedures will be used, no randomization or control groups will be assigned, and participation in STREETS is voluntary, with no coercive elements.

While 45 CFR 46 does not apply, the project incorporates SAMHSA’s participant-protection guidelines throughout service delivery to ensure confidentiality, safety, voluntary participation, and ethical treatment of all individuals served.

ASSURANCE
of Compliance with SAMHSA Charitable Choice Statutes and Regulations
SMA 170

REQUIRED ONLY FOR APPLICANTS APPLYING FOR GRANTS THAT FUND SUBSTANCE ABUSE TREATMENT OR PREVENTION SERVICES

SAMHSA's two Charitable Choice provisions [Sections 581-584 and Section 1955 of the Public Health Service (PHS) Act, 42 USC 290k, et seq., and 42 USC 300x-65 et seq., respectively] allow religious organizations to provide SAMHSA-funded substance abuse services without impairing their religious character and without diminishing the religious freedom of those who receive their services. These provisions contain important protections both for religious organizations that receive SAMHSA funding and for the individuals who receive their services, and apply to religious organizations and to State and local governments that provide substance abuse prevention and treatment services under SAMHSA grants.

As the duly authorized representative of the applicant, I certify that the applicant:

Will comply, as applicable, with the Substance Abuse and Mental Health Services Administration (SAMHSA) Charitable Choice statutes codified at sections 581-584 and 1955 of the Public Health Service Act (42 U.S.C. §§290kk, et seq., and 300x-65) and their governing regulations at 42 C.F.R. part 54 and 54a respectively.

Responsibilities include coordinating cross-agency activities, monitoring the program budget, reviewing data and reports, and ensuring timely reporting and documentation. Supervises: Program Coordinator, Evaluator, and other grant - funded personnel
2	Program Coordinator | TBD - 3 months | Key Personnel | Salary $63,895 | # of Staff 1 | LOE 100.00% | Personnel Cost $63,895 Program Coordinator - SAMHSA STREETS Grant The Program Coordinator manages day-to-day operations of the STREETS grant, including outreach coordination, documentation, reporting, partner communication, and data tracking. This position ensures activities meet SAMHSA requirements, supports treatment and recovery-focused engagement, and maintains accurate participant records and federal reporting. The Coordinator schedules meetings and trainings, assists with data collection for performance measures, tracks allowable expenditures, and provides administrative support to project leadership to ensure efficient and compliant program

Line Item #	Personnel Narrative:
	implementation.
3	Program Manager | Sarah Bradsher | Salary $63,895 | # of Staff 1 | LOE 50.00% | Personnel Cost $31,948 The STREETS Program Manager- SAMHSA STREETS grant. The Program Manager provides administrative and compliance oversight for the STREETS grant, ensuring all activities meet federal, state, and local requirements. This position manages subrecipient contracts, monitors partner performance, reviews budgets and allowable costs, and provides technical assistance to funded agencies. The Program Manager reviews and verifies required reporting, supports documentation accuracy, and assists with the submission of monthly, quarterly, and annual performance reports to ensure compliance with SAMHSA objectives.
4	Budget Manager | Crystal Widener | Salary $89,192 | # of Staff 1 | LOE 10.00% | Personnel Cost $8,919 The Budget Manager provides fiscal oversight for all STREETS grant funds, including financial reporting, expenditure tracking, and reconciliation of all grant transactions. This position ensures compliance with federal financial requirements, manages reimbursement requests, and prepares budget projections and monthly expenditure reports to support program operations and informed decision-making.
5	Staff Accountant | Savanah Sommerfeld | Salary $59,783 | # of Staff 1 | LOE 15.00% | Personnel Cost $8,967 The Staff Accountant compiles and maintains records to ensure grant compliance and timeliness. Maintains budget documents, performs grant reconciliations and prepares reporting for local, state and federal agencies.

B. Fringe Benefits

Our organization's fringe benefits consist of the components shown below:

Fringe Component	Rate (%)
Fringe benefits are recovered through an unapproved, internally calculated fringe benefit rate.	23.00%
Total Fringe Rate	23.00%

Fringe Benefits Cost

Line Item #	Position	Name	Calculation				FEDERAL REQUEST
			Personnel Cost	Total Fringe Rate (%)	Fixed / Lump Sum Fringe (if any)	**Fringe Benefits Cost**	
1	Project Director	Sharon Shanks	$59,674	23.00%		$13,725	$13,725
2	Program Coordinator	TBD - 3 months	$63,895	23.00%		$14,696	$14,696
3	Program Manager	Sarah Bradsher	$31,948	23.00%		$7,348	$7,348
4	Budget Manager	Crystal Widener	$8,919	23.00%		$2,051	$2,051
5	Staff Accountant	Savanah Sommerfeld	$8,967	23.00%		$2,062	$2,062
					TOTAL	**$39,882**	**$39,882**

Fringe Benefits Narrative:
Fringe benefits are calculated at a 23% rate for all personnel assigned to the STREETS project, including the Project Director (.5 FTE), Program Coordinator (1.0 FTE), Program Manager (.2 FTE), Budget Manager (.1 FTE) and Staff Accountant (.15

Fringe Benefits Narrative:
FTE). This rate reflects Knox County's standard fringe package and covers employer provided health insurance, retirement contributions, FICA, Workers' Compensation, and other mandatory benefits.

C. Travel

Trip #	Purpose	Origin and Destination	Calculation: Item	Cost / Rate per Item	Basis	Quantity per Person	Number of Persons	Travel Cost	FEDERAL REQUEST
1	Local travel	County wide	Local Travel (POV Mileage)	$0.76	Mile	1,500.00	3	$3,420	$3,420
							TOTAL	$3,420	**$3,420**

Trip #	Travel Narrative:		
	Local travel	County wide	Travel Cost $3,420
1	Funds to cover local travel costs are necessary for staff to carry out core STREETS activities throughout Knox County, which is 526 square miles. Cost is calculated using the current federal mileage rate ($0.76/ mile). Travel will include trips to partner agencies and community locations, site visits to conduct participant/client activities, and to coordinate and support key partners.		

D. Equipment

Contractual Details for Program/Data Evaluator via RFP

Agree-ment #	Services and Deliverables Provided
1	Program Evaluator - SAMHSA STREETS Grant Program evaluation services will be procured through Knox County's competitive process, which meets 2 CFR Part 200 requirements and prohibits conflicts of interest. The contracted Program Evaluator will implement the STREETS evaluation plan, ensure accurate collection of required performance measures, conduct quantitative and qualitative analysis, and produce monthly, quarterly, and annual reports. The Evaluator will support data quality across all partner agencies, provide training on documentation and reporting standards, develop data dashboards, and guide continuous quality-improvement activities throughout the project period. All deliverables will be submitted in accordance with SAMHSA reporting requirements. Period of Performance: Four years: September 2026 - June 30, 2030

Contractual Details for Gap Analysis and Hotspot Mapping via RFP

Agree-ment #	Services and Deliverables Provided
2	Environmental Scan, Gap Analysis, and Hotspot Mapping - SAMHSA STREETS Grant Method of Selection:This service will be procured through Knox County's competitive purchasing process, which complies with 2 CFR Part 200 and all federal, state, and local requirements. Scope of Work:The contractor will complete the environmental scan, annual gap analysis, and ongoing hotspot mapping required under the STREETS grant. These activities will identify community strengths, service gaps, and high-need geographic areas affecting eligible individuals who interact with emergency departments, EMS, crisis systems, and homelessness services. Essential Functions:• Conduct an environmental scan of existing behavioral-health, emergency-service, housing, and recovery-support resources. • Complete an annual gap analysis to identify unmet needs, access barriers, and areas where service capacity does not meet demand. • Perform hotspot mapping using EMS, ED utilization, outreach, homelessness, and partner datasets to identify geographic concentrations of high-acuity individuals. • Provide data-driven recommendations to support resource allocation, care-coordination strategies, and continuous quality improvement. • Present findings through maps, summaries, dashboards, and narrative reports. Method of Accountability:The contractor will report to County project leadership and submit all required deliverables, including environmental scan reports, gap analyses, hotspot maps, datasets, and summary briefs, in alignment with SAMHSA STREETS requirements and established deadlines. Period of Performance: Four years: September 2026 - June 30, 2030

Agree-ment #	Services and Deliverables Provided
3	All subawards will be selected through Knox County's competitive application process. Contractors will deliver coordinated street outreach, case management, and peer recovery support aligned with SAMHSA STREETS requirements. Mobile Clinical Engagement Teams will conduct community-based outreach in encampments, shelters, and other identified hotspots, providing immediate needs and safety assessments, basic medical care within scope of practice, behavioral-health screening, and referral to mental-health, substance-use, crisis, and recovery services. Case management services will ensure coordinated linkage to treatment, crisis stabilization, housing navigation, and recovery supports, including for justice-involved individuals, through warm handoffs, multidisciplinary case conferencing, and person-centered care planning. Peer recovery coaches will use lived experience to support engagement, provide one-on-one coaching, facilitate peer-led groups, assist with system navigation, and reinforce treatment and recovery participation. All contractors will maintain complete documentation of contacts, assessments, care plans, referrals, and outcomes consistent with STREETS data protocols and submit required monthly and quarterly reports. Knox County will conduct periodic monitoring

Line Item #	Other Narrative:

Line Item #	Other Narrative:					
1	Recovery Housing	Unit Cost/Rate $3,000.00	Basis Historical costs	Quantity 35.00	Duration	Other Cost $105,000
	Recovery Housing funds will provide short-term, supportive housing placements for eligible individuals engaged through emergency departments, EMS encounters, shelters, street outreach, and crisis settings. These placements stabilize individuals experiencing SUD, SMI, or COD by offering safe housing that supports treatment participation and recovery engagement. All contracted recovery residences must permit continued use of MOUD and prescribed psychotropic medications and will operate as low-threshold programs that promote safety, reduce risk of harm, support adherence to treatment plans, and facilitate warm handoffs to longer-term housing options.Funds may cover temporary bed costs at contracted recovery residences, supportive services included within bed rates (such as peer support, resident meetings, and skill-building groups), housing navigation and transition support, and transportation when bundled in vendor contracts. Recovery Housing is an allowable and essential STREETS activity that ensures individuals can stabilize, initiate treatment, access MOUD, attend appointments, and connect to longer-term recovery supports. Costs are based on established vendor rates, anticipated utilization, and local market pricing, and all expenses will comply with Knox County procurement rules and federal cost principles.					
2	Treatment	Unit Cost/Rate $500.00	Basis Historical costs	Quantity 2,400.00	Duration	Other Cost $1,200,000
	Behavioral Health Treatment funds will provide timely, clinically appropriate services that support rapid engagement, stabilization, and linkage to ongoing care for individuals with SMI, SUD, and COD encountered through emergency departments, EMS, street outreach, shelters, and crisis-response settings. These costs include outpatient therapy, psychiatric evaluation, medication management, MOUD services, intensive outpatient programming, residential treatment, withdrawal management, crisis stabilization, and recovery-focused ancillary supports. All services must align with SAMHSA STREETS requirements for evidence-based care, warm handoffs, and treatment continuity. These investments are necessary to reduce repeated emergency-system utilization, stabilize high-acuity individuals, and support long-term recovery outcomes. Costs are based on established vendor rates, anticipated utilization following outreach and referral activities, community market standards, and projected treatment intensity. All expenses are reasonable, necessary, and allowable under federal cost principles and Knox County procurement requirements.					
3	Direct Client Support	Unit Cost/Rate $300,000.00	Basis Historical costs	Quantity 1.00	Duration	Other Cost $300,000
	Behavioral Health Treatment funds will support timely, clinically appropriate services for individuals with SMI, SUD, and COD encountered through emergency departments, EMS, street outreach, shelters, and crisis-response settings. These costs cover evidence-based clinical services including outpatient therapy, psychiatric evaluation, medication management, MOUD services, intensive outpatient programming, residential treatment, withdrawal management, crisis stabilization, and recovery-focused supports. All services will follow SAMHSA STREETS requirements for rapid engagement, warm handoffs, treatment continuity, and coordinated care. These investments are essential to stabilize high-acuity individuals, reduce repeated emergency-system utilization, and support long-term recovery outcomes. Costs are based on established vendor rates, anticipated treatment demand following outreach and referral activities, community market standards, and projected caseloads, and all expenses comply with federal cost principles and Knox County procurement requirements.

ASSURANCES - NON-CONSTRUCTION PROGRAMS

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0040), Washington, DC 20503.

PLEASE DO NOT RETURN YOUR COMPLETED FORM TO THE OFFICE OF MANAGEMENT AND BUDGET. SEND IT TO THE ADDRESS PROVIDED BY THE SPONSORING AGENCY.

NOTE: Certain of these assurances may not be applicable to your project or program. If you have questions, please contact the awarding agency. Further, certain Federal awarding agencies may require applicants to certify to additional assurances. If such is the case, you will be notified.

As the duly authorized representative of the applicant, I certify that the applicant:

1. Has the legal authority to apply for Federal assistance and the institutional, managerial and financial capability (including funds sufficient to pay the non-Federal share of project cost) to ensure proper planning, management and completion of the project described in this application.

2. Will give the awarding agency, the Comptroller General of the United States and, if appropriate, the State, through any authorized representative, access to and the right to examine all records, books, papers, or documents related to the award; and will establish a proper accounting system in accordance with generally accepted accounting standards or agency directives.

3. Will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain.

4. Will initiate and complete the work within the applicable time frame after receipt of approval of the awarding agency.

5. Will comply with the Intergovernmental Personnel Act of 1970 (42 U.S.C. §§4728-4763) relating to prescribed standards for merit systems for programs funded under one of the 19 statutes or regulations specified in Appendix A of OPM's Standards for a Merit System of Personnel Administration (5 C.F.R. 900, Subpart F).

6. Will comply with all Federal statutes relating to nondiscrimination. These include but are not limited to: (a) Title VI of the Civil Rights Act of 1964 (P.L. 88-352) which prohibits discrimination on the basis of race, color or national origin; (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C.§§1681-1683, and 1685-1686), which prohibits discrimination on the basis of sex; (c) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. §794), which prohibits discrimination on the basis of handicaps; (d) the Age Discrimination Act of 1975, as amended (42 U. S.C. §§6101-6107), which prohibits discrimination on the basis of age; (e) the Drug Abuse Office and Treatment Act of 1972 (P.L. 92-255), as amended, relating to nondiscrimination on the basis of drug abuse; (f) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (P.L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; (g) §§523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. §§290 dd-3 and 290 ee- 3), as amended, relating to confidentiality of alcohol and drug abuse patient records; (h) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. §§3601 et seq.), as amended, relating to nondiscrimination in the sale, rental or financing of housing; (i) any other nondiscrimination provisions in the specific statute(s) under which application for Federal assistance is being made; and, (j) the requirements of any other nondiscrimination statute(s) which may apply to the application.

7. Will comply, or has already complied, with the requirements of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646) which provide for fair and equitable treatment of persons displaced or whose property is acquired as a result of Federal or federally-assisted programs. These requirements apply to all interests in real property acquired for project purposes regardless of Federal participation in purchases.

8. Will comply, as applicable, with provisions of the Hatch Act (5 U.S.C. §§1501-1508 and 7324-7328) which limit the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.

9. Will comply, as applicable, with the provisions of the Davis-Bacon Act (40 U.S.C. §§276a to 276a-7), the Copeland Act (40 U.S.C. §276c and 18 U.S.C. §874), and the Contract Work Hours and Safety Standards Act (40 U.S.C. §§327-333), regarding labor standards for federally-assisted construction subagreements.

10. Will comply, if applicable, with flood insurance purchase requirements of Section 102(a) of the Flood Disaster Protection Act of 1973 (P.L. 93-234) which requires recipients in a special flood hazard area to participate in the program and to purchase flood insurance if the total cost of insurable construction and acquisition is $10,000 or more.

11. Will comply with environmental standards which may be prescribed pursuant to the following: (a) institution of environmental quality control measures under the National Environmental Policy Act of 1969 (P.L. 91-190) and Executive Order (EO) 11514; (b) notification of violating facilities pursuant to EO 11738; (c) protection of wetlands pursuant to EO 11990; (d) evaluation of flood hazards in floodplains in accordance with EO 11988; (e) assurance of project consistency with the approved State management program developed under the Coastal Zone Management Act of 1972 (16 U.S.C. §§1451 et seq.); (f) conformity of Federal actions to State (Clean Air) Implementation Plans under Section 176(c) of the Clean Air Act of 1955, as amended (42 U.S.C. §§7401 et seq.); (g) protection of underground sources of drinking water under the Safe Drinking Water Act of 1974, as amended (P.L. 93-523); and, (h) protection of endangered species under the Endangered Species Act of 1973, as amended (P.L. 93-205).

12. Will comply with the Wild and Scenic Rivers Act of 1968 (16 U.S.C. §§1271 et seq.) related to protecting components or potential components of the national wild and scenic rivers system.

13. Will assist the awarding agency in assuring compliance with Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. §470), EO 11593 (identification and protection of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. §§469a-1 et seq.).

14. Will comply with P.L. 93-348 regarding the protection of human subjects involved in research, development, and related activities supported by this award of assistance.

15. Will comply with the Laboratory Animal Welfare Act of 1966 (P.L. 89-544, as amended, 7 U.S.C. §§2131 et seq.) pertaining to the care, handling, and treatment of warm blooded animals held for research, teaching, or other activities supported by this award of assistance.

16. Will comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. §§4801 et seq.) which prohibits the use of lead-based paint in construction or rehabilitation of residence structures.

17. Will cause to be performed the required financial and compliance audits in accordance with the Single Audit Act Amendments of 1996 and OMB Circular No. A-133, "Audits of States, Local Governments, and Non-Profit Organizations."

18. Will comply with all applicable requirements of all other Federal laws, executive orders, regulations, and policies governing this program.

19. Will comply with the requirements of Section 106(g) of the Trafficking Victims Protection Act (TVPA) of 2000, as amended (22 U.S.C. 7104) which prohibits grant award recipients or a sub-recipient from (1) Engaging in severe forms of trafficking in persons during the period of time that the award is in effect (2) Procuring a commercial sex act during the period of time that the award is in effect or (3) Using forced labor in the performance of the award or subawards under the award.

WHEREAS, the Board of County Commissioners of Knox County, Tennessee (the "County") has determined that it is necessary and advisable to borrow funds and incur indebtedness for certain public works projects as more fully set forth herein.

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of Knox County, Tennessee, for the purpose of providing funds for (i) constructing, improving, repairing, renovating and equipping of courtroom, corrective and detention facilities, schools and other educational facilities, libraries, stormwater drainage facilities, technology equipment, parking facilities, parks and recreation facilities and other public buildings, including any equipment required therefor; (ii) constructing and improving roads, streets, bridges and highways; (iii) payment of legal, fiscal, administrative, architectural and engineering costs incident to all of the foregoing (collectively, the "Projects"); (iv) reimbursement to the appropriate fund of the County for prior expenditures for the foregoing costs, if applicable; and (v) payment of costs incident to the issuance of the bonds authorized herein, there shall be issued bonds, in one or more emissions, of said County in the aggregate principal amount of not to exceed $155,000,000, which shall bear interest at a rate or rates not to exceed six percent (6.00%) per annum, and which shall be payable from unlimited ad valorem taxes to be levied on all taxable property within the County.

BE IT FURTHER RESOLVED by the Board of County Commissioners of Knox County, Tennessee that the County Clerk be, and is, hereby directed and instructed to cause the foregoing initial resolution relative to the issuance of not to exceed $155,000,000 general obligation bonds to be published in full in a newspaper having a general circulation in the County, for one issue of said paper followed by the statutory notice:

N O T I C E

The foregoing resolution has been adopted. Unless within twenty (20) days from the date of publication hereof a petition signed by at least ten percent (10%) of the registered voters of the County shall have been filed with the County Clerk protesting the issuance of the bonds, such bonds will be issued as proposed.

Sherry Witt, County Clerk

This Resolution shall be in immediate effect from and after its adoption, the public welfare requiring it.

Adopted and approved this 31st day of August, 2026.

WHEREAS, 9-21-101, et seq., inclusive, Tennessee Code Annotated, as amended, authorizes Knox County, Tennessee (the "County"), by resolution of the Board of County Commissioners, to issue and sell bonds for the purpose of providing funds for (i) constructing, improving, repairing, renovating and equipping of courtroom, corrective and detention facilities, schools and other educational facilities, libraries, stormwater drainage facilities, technology equipment, parking facilities, parks and recreation facilities and other public buildings, including any equipment required therefor; (ii) constructing and improving roads, streets, bridges and highways; (iii) payment of legal, fiscal, administrative, architectural and engineering costs incident to all of the foregoing (collectively, the "Projects"); (iv) reimbursement to the appropriate fund of the County for prior expenditures for the foregoing costs, if applicable; and (v) payment of costs incident to the issuance of the bonds authorized herein; and

WHEREAS, the Board of County Commissioners of the County hereby determines that it is necessary and advisable to issue general obligation bonds, in one or more series, for the purpose of financing the Projects and the foregoing described costs; and

WHEREAS, the Board of County Commissioners of the County did adopt on the date hereof an initial resolution (the "Initial Resolution") authorizing the issuance of not to exceed $155,000,000 general obligation bonds for the purposes described above; and

WHEREAS, the Initial Resolution, together with the notice required by Section 9-21-206, Tennessee Code Annotated, as amended, will be published as required by law; and

WHEREAS, it is the intention of the Board of County Commissioners of the County to adopt this resolution for the purpose of authorizing not to exceed $155,000,000 in aggregate principal amount of bonds for the above-described purposes, providing for the issuance, sale and payment of said bonds, establishing the terms thereof, and the disposition of proceeds therefrom, and providing for the levy of a tax for the payment of principal thereof, premium, if any, and interest thereon.

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of Knox County, Tennessee, as follows:

Section 1. Authority. The bonds authorized by this resolution are issued pursuant to 9-21-101, et seq., Tennessee Code Annotated, as amended, and other applicable provisions of law.

Section 2. Definitions. In addition to the terms defined in the preamble above, the following terms shall have the following meanings in this resolution unless the text expressly or by necessary implication requires otherwise:

(a) "Bonds" means the not to exceed $155,000,000 General Obligation Bonds of the County, to be dated their date of issuance, and having such series designation or such other dated date as shall be determined by the County Mayor pursuant to Section 8 hereof.

(b) "Book-Entry Form" or "Book-Entry System" means a form or system, as applicable, under which physical bond certificates in fully registered form are issued to a Depository, or to its nominee as Registered Owner, with the certificate of bonds being held by and "immobilized" in the custody of such Depository, and under which records maintained by persons, other than the County or the Registration Agent, constitute the written record that identifies, and records the transfer of, the beneficial "book-entry" interests in those bonds.

(c) "Code" means the Internal Revenue Code of 1986, as amended, and all regulations promulgated thereunder.

(d) "County Mayor" shall mean the County Mayor of the County.

(e) "Depository" means any securities depository that is a clearing agency under federal laws operating and maintaining, with its participants or otherwise, a Book-Entry System, including, but not limited to, DTC.

(f) "DTC" means the Depository Trust Company, a limited purpose company organized under the laws of the State of New York, and its successors and assigns.

(g) "DTC Participant(s)" means securities brokers and dealers, banks, trust companies and clearing corporations that have access to the DTC System.

(h) "Municipal Advisor" for the Bonds authorized herein means Cumberland Securities Company, Inc., Knoxville, Tennessee.

(i) "Projects" means (i) constructing, improving, repairing, renovating and equipping of courtroom, corrective and detention facilities, schools and other educational facilities, libraries, stormwater drainage facilities, technology equipment, parking facilities, parks and recreation facilities and other public buildings, including any equipment required therefor; (ii) constructing and improving roads, streets, bridges and highways; and (iii) payment of legal, fiscal, administrative, architectural and engineering costs incident to all of the foregoing.

(j) "Registration Agent" means the registration and paying agent appointed by the County Mayor pursuant to the terms hereof, or any successor designated by the Governing Body.

Section 3. Findings of the Governing Body; Compliance with Debt Management Policy.

(a) In conformance with the directive of the State Funding Board of the State of Tennessee, the County has heretofore adopted its Debt Management Policy. The Governing Body hereby finds that the issuance and sale of the Bonds, as proposed herein, is consistent with the County's Debt Management Policy.

(b) The Governing Body finds that the Municipal Advisor has provided the Governing Body with sufficient information regarding the estimated interest expense relating to the Bonds and costs of issuance of the Bonds for the Governing Body to make an informed decision in connection with the issuance of the Bonds in compliance with the County’s Debt Management Policy.

Section 4. Authorization and Terms of the Bonds.

(a) For the purpose of providing funds to finance, in whole or in part, the cost of the Projects and costs incident thereto; reimbursement to the appropriate fund of the County for prior expenditures for the foregoing costs, if applicable; and payment of costs incident to the issuance and sale of the Bonds, there is hereby authorized to be issued bonds, in one or more series, of the County in the aggregate principal amount of not to exceed $155,000,000. The Bonds shall be issued in one or more series, in fully registered, book-entry form (except as otherwise set forth herein), without coupons, and subject to the adjustments permitted hereunder, shall be known as "General Obligation Bonds", shall be dated their date of issuance, and shall have such series designation or such other dated date as shall be determined by the County Mayor pursuant to the terms hereof. The Bonds shall bear interest at a rate or rates not to exceed six percent (6.00%) per annum, payable (subject to the adjustments permitted hereunder) semi-annually on June 1 and December 1 in each year, commencing June 1, 2027. The Bonds shall be issued initially in $5,000

denominations or integral multiples thereof, as shall be requested by the original purchaser thereof. The Bonds shall mature serially or be subject to mandatory redemption and shall be payable on June 1 of each year, subject to prior optional redemption as hereinafter provided and subject to adjustment as provided herein, maturing not later than twenty-five years after the date of issuance of each series of Bonds. The final principal payment schedule shall be established by the County Mayor pursuant to Section 8 hereof, taking into account the overall debt service commitments of the County, and in approving such payment schedule for any series of Bonds, the County Mayor may delay principal payments as to any series up to five (5) fiscal years after the issuance of such series.

(b) Subject to the adjustments permitted under Section 8 hereof, Bonds of each in the ninth (9^{th}) fiscal year after such series is issued shall be subject to redemption prior to maturity at the option of the County on the June 1st and thereafter, as a whole or in part at any time, at the redemption price of par plus accrued interest to the redemption date.

If less than all the Bonds shall be called for redemption, the maturities to be redeemed shall be selected by the Governing Body in its discretion. If less than all of the Bonds within a single maturity shall be called for redemption, the interests within the maturity to be redeemed shall be selected as follows:

(i) if the Bonds are being held under a Book-Entry System by DTC, or a successor Depository, the Bonds to be redeemed shall be determined by DTC, or such successor Depository, by lot or such other manner as DTC, or such successor Depository, shall determine; or

(ii) if the Bonds are not being held under a Book-Entry System by DTC, or a successor Depository, the Bonds within the maturity to be redeemed shall be selected by the Registration Agent by lot or such other random manner as the Registration Agent in its discretion shall determine.

(c) Pursuant to the terms hereof, the County Mayor is authorized to sell the Bonds, or any maturities thereof, as term bonds ("Term Bonds") with mandatory redemption requirements corresponding to the maturities set forth herein or as determined by the County Mayor. In the event any or all the Bonds are sold as Term Bonds, the County shall redeem Term Bonds on redemption dates corresponding to the maturity dates set forth herein, in aggregate principal amounts equal to the maturity amounts established pursuant to the terms hereof for each redemption date, as such maturity amounts may be adjusted pursuant to the terms hereof, at a price of par plus accrued interest thereon to the date of redemption. Any Term Bonds to be redeemed within a single maturity shall be selected in the manner described above with respect to the partial optional redemption of a single maturity of the Bonds.

At its option, to be exercised on or before the forty-fifth (45^{th}) day next preceding any such mandatory redemption date, the County may (i) deliver to the Registration Agent for cancellation Bonds to be redeemed, in any aggregate principal amount desired, and/or (ii) receive a credit in respect of its redemption obligation under this mandatory redemption provision for any Bonds of the maturity to be redeemed which prior to said date have been purchased or redeemed (otherwise than through the operation of this mandatory sinking fund redemption provision) and cancelled by the Registration Agent and not theretofore applied as a credit against any redemption obligation under this mandatory sinking fund provision. Each Bond so delivered or previously purchased or redeemed shall be credited by the Registration Agent at 100% of the principal amount thereof on the obligation of the County on such payment date and any excess shall be credited on future redemption obligations in chronological order, and the principal amount of Bonds to be redeemed by operation of this mandatory sinking fund provision shall be accordingly reduced. The County shall on or before the forty-fifth (45^{th}) day next preceding each payment date furnish the Registration Agent with its certificate indicating whether or not and to what extent the provisions of clauses (i) and (ii) of this subsection are to be availed of with respect to such payment and

confirm that funds for the balance of the next succeeding prescribed payment will be paid on or before the next succeeding payment date.

(d) Notice of any call for redemption shall be given by the Registration Agent on behalf of the County not less than twenty (20) nor more than sixty (60) days prior to the date fixed for redemption by sending an appropriate notice to the registered owners of the Bonds to be redeemed by first-class mail, postage prepaid, at the addresses shown on the Bond registration records of the Registration Agent as of the date of the notice; but neither failure to mail such notice nor any defect in any such notice so mailed shall affect the sufficiency of the proceedings for redemption of any of the Bonds for which proper notice was given. The notice may state that it is conditioned upon the deposit of moneys in an amount equal to the amount necessary to effect the redemption with the Registration Agent no later than the redemption date ("Conditional Redemption"). As long as DTC, or a successor Depository, is the registered owner of the Bonds, all redemption notices shall be mailed by the Registration Agent to DTC, or such successor Depository, as the registered owner of the Bonds, as and when above provided, and neither the County nor the Registration Agent shall be responsible for mailing notices of redemption to DTC Participants or Beneficial Owners. Failure of DTC, or any successor Depository, to provide notice to any DTC Participant or Beneficial Owner will not affect the validity of such redemption. The Registration Agent shall mail said notices as and when directed by the County pursuant to written instructions from an authorized representative of the County (other than for a mandatory sinking fund redemption, notices of which shall be given on the dates provided herein) given at least forty-five (45) days prior to the redemption date (unless a shorter notice period shall be satisfactory to the Registration Agent). From and after the redemption date, all Bonds called for redemption shall cease to bear interest if funds are available at the office of the Registration Agent for the payment thereof and if notice has been duly provided as set forth herein. In the case of a Conditional Redemption, the failure of the Municipality to make funds available in part or in whole on or before the redemption date shall not constitute an event of default, and the Registration Agent shall give immediate notice to the Depository, if applicable, or the affected Bondholders that the redemption did not occur and that the Bonds called for redemption and not so paid remain outstanding.

(e) The Governing Body hereby authorizes and directs the County Mayor to appoint the Registration Agent for the Bonds and hereby authorizes the Registration Agent so appointed or the Registration Agent for the Bonds to maintain Bond registration records with respect to the Bonds, to authenticate and deliver the Bonds as provided herein, either at original issuance or upon transfer, to effect transfers of the Bonds, to give all notices of redemption as required herein, to make all payments of principal and interest with respect to the Bonds as provided herein, to cancel and destroy Bonds which have been paid at maturity or upon earlier redemption or submitted for exchange or transfer, to furnish the County at least annually a certificate of destruction with respect to Bonds cancelled and destroyed, and to furnish the County at least annually an audit confirmation of Bonds paid, Bonds outstanding and payments made with respect to interest on the Bonds. The County Mayor is hereby authorized to execute and the County Clerk is hereby authorized to attest such written agreement between the County and the Registration Agent as they shall deem necessary and proper with respect to the obligations, duties and rights of the Registration Agent. The payment of all reasonable fees and expenses of the Registration Agent for the discharge of its duties and obligations hereunder or under any such agreement is hereby authorized and directed.

(f) The Bonds shall be payable, both principal and interest, in lawful money of the United States of America at the main office of the Registration Agent. The Registration Agent shall make all interest payments with respect to the Bonds by check or draft on each interest payment date directly to the registered owners as shown on the Bond registration records maintained by the Registration Agent as of the close of business on the fifteenth day of the month next preceding the interest payment date (the "Regular Record Date") by depositing said payment in the United States mail, postage prepaid, addressed to such owners at their addresses shown on said Bond registration records, without, except for final payment, the presentation or surrender of such registered Bonds, and all such payments shall discharge the obligations

of the County in respect of such Bonds to the extent of the payments so made. Payment of principal of and premium, if any, on the Bonds shall be made upon presentation and surrender of such Bonds to the Registration Agent as the same shall become due and payable. All rates of interest specified herein shall be computed on the basis of a three hundred sixty (360) day year composed of twelve (12) months of thirty (30) days each. In the event the Bonds are no longer registered in the name of DTC, or a successor Depository, if requested by the Owner of at least $1,000,000 in aggregate principal amount of the Bonds, payment of interest on such Bonds shall be paid by wire transfer to a bank within the continental United States or deposited to a designated account if such account is maintained with the Registration Agent and written notice of any such election and designated account is given to the Registration Agent prior to the record date.

(g) Any interest on any Bond that is payable but is not punctually paid or duly provided for on any interest payment date (hereinafter "Defaulted Interest") shall forthwith cease to be payable to the registered owner on the relevant Regular Record Date; and, in lieu thereof, such Defaulted Interest shall be paid by the County to the persons in whose names the Bonds are registered at the close of business on a date (the "Special Record Date") for the payment of such Defaulted Interest, which shall be fixed in the following manner: the County shall notify the Registration Agent in writing of the amount of Defaulted Interest proposed to be paid on each Bond and the date of the proposed payment, and at the same time the County shall deposit with the Registration Agent an amount of money equal to the aggregate amount proposed to be paid in respect of such Defaulted Interest or shall make arrangements satisfactory to the Registration Agent for such deposit prior to the date of the proposed payment, such money when deposited to be held in trust for the benefit of the persons entitled to such Defaulted Interest as in this Section provided. Thereupon, not less than ten (10) days after the receipt by the Registration Agent of the notice of the proposed payment, the Registration Agent shall fix a Special Record Date for the payment of such Defaulted Interest which date shall be not more than fifteen (15) nor less than ten (10) days prior to the date of the proposed payment to the registered Owners. The Registration Agent shall promptly notify the County of such Special Record Date and, in the name and at the expense of the County, not less than ten (10) days prior to such Special Record Date, shall cause notice of the proposed payment of such Defaulted Interest and the Special Record Date therefor to be mailed, first-class postage prepaid, to each registered owner at the address thereof as it appears in the Bond registration records maintained by the Registration Agent as of the date of such notice. Nothing contained in this Section or in the Bonds shall impair any statutory or other rights in law or in equity of any registered owner arising as a result of the failure of the County to punctually pay or duly provide for the payment of principal of, premium, if any, and interest on the Bonds when due.

(h) The Bonds are transferable only by presentation to the Registration Agent by the registered owner, or his legal representative duly authorized in writing, of the registered Bond(s) to be transferred with the form of assignment included therein completed in full and signed with the name of the registered owner as it appears upon the face of the Bond(s) accompanied by appropriate documentation necessary to prove the legal capacity of any legal representative of the registered owner. Upon receipt of the Bond(s) in such form and with such documentation, if any, the Registration Agent shall issue a new Bond or the Bond to the assignee(s) in $5,000 denominations, or integral multiples thereof, as requested by the registered owner requesting transfer. The Registration Agent shall not be required to transfer or exchange any Bond during the period commencing on a Regular or Special Record Date and ending on the corresponding interest payment date of such Bond, nor to transfer or exchange any Bond after the publication of notice calling such Bond for redemption has been made, nor to transfer or exchange any Bond during the period following the receipt of instructions from the County to call such Bond for redemption; provided, the Registration Agent, at its option, may make transfers after any of said dates. No charge shall be made to any registered owner for the privilege of transferring any Bond, provided that any transfer tax relating to such transaction shall be paid by the registered owner requesting transfer. The person in whose name any Bond shall be registered shall be deemed and regarded as the absolute owner thereof for all purposes and neither the

County nor the Registration Agent shall be affected by any notice to the contrary whether or not any payments due on the Bonds shall be overdue. The Bonds, upon surrender to the Registration Agent, may, at the option of the registered owner, be exchanged for an equal aggregate principal amount of the Bonds of the same maturity in any authorized denomination or denominations.

(i) The Bonds shall be executed in such manner as may be prescribed by applicable law, in the name, and on behalf, of the County with the signature of the County Mayor and the attestation of the County Clerk.

(j) Except as otherwise provided in this resolution, the Bonds shall be registered in the name of Cede & Co., as nominee of DTC, which will act as securities depository for the Bonds. References in this Section to a Bond or the Bonds shall be construed to mean the Bond or the Bonds that are held under the Book-Entry System. One Bond for each maturity of the Bonds shall be issued to DTC and immobilized in its custody or a custodian of DTC. The Registration Agent is a custodian and agent for DTC, and the Bond will be immobilized in its custody. A Book-Entry System shall be employed, evidencing ownership of the Bonds in authorized denominations, with transfers of beneficial ownership effected on the records of DTC and the DTC Participants pursuant to rules and procedures established by DTC.

Each DTC Participant shall be credited in the records of DTC with the amount of such DTC Participant's interest in the Bonds. Beneficial ownership interests in the Bonds may be purchased by or through DTC Participants. The holders of these beneficial ownership interests are hereinafter referred to as the "Beneficial Owners." The Beneficial Owners shall not receive the Bonds representing their beneficial ownership interests. The ownership interests of each Beneficial Owner shall be recorded through the records of the DTC Participant from which such Beneficial Owner purchased its Bonds. Transfers of ownership interests in the Bonds shall be accomplished by book entries made by DTC and, in turn, by DTC Participants acting on behalf of Beneficial Owners. SO LONG AS CEDE & CO., AS NOMINEE FOR DTC, IS THE REGISTERED OWNER OF THE BONDS, THE REGISTRATION AGENT SHALL TREAT CEDE & CO. AS THE ONLY HOLDER OF THE BONDS FOR ALL PURPOSES UNDER THIS RESOLUTION, INCLUDING RECEIPT OF ALL PRINCIPAL OF, PREMIUM, IF ANY, AND INTEREST ON THE BONDS, RECEIPT OF NOTICES, VOTING AND REQUESTING OR DIRECTING THE REGISTRATION AGENT TO TAKE OR NOT TO TAKE, OR CONSENTING TO, CERTAIN ACTIONS UNDER THIS RESOLUTION.

Payments of principal, interest, and redemption premium, if any, with respect to the Bonds, so long as DTC is the only owner of the Bonds, shall be paid by the Registration Agent directly to DTC or its nominee, Cede & Co., as provided in the Letter of Representation relating to the Bonds from the County and the Registration Agent to DTC (the "Letter of Representation"). DTC shall remit such payments to DTC Participants, and such payments thereafter shall be paid by DTC Participants to the Beneficial Owners. The County and the Registration Agent shall not be responsible or liable for payment by DTC or DTC Participants for sending transaction statements or for maintaining, supervising or reviewing records maintained by DTC or DTC Participants.

In the event that (1) DTC determines not to continue to act as securities depository for the Bonds, or (2) to the extent permitted by the rules of DTC, the County determines that the continuation of the Book-Entry System of evidence and transfer of ownership of the Bonds would adversely affect their interests or the interests of the Beneficial Owners of the Bonds, then the County shall discontinue the Book-Entry System with DTC or, upon request of such original purchaser, deliver the Bonds to the original purchaser in the form of fully-registered Bonds, as the case may be. If the County fails to identify another qualified securities depository to replace DTC, the County shall cause the Registration Agent to authenticate and deliver replacement Bonds in the form of fully-registered Bonds to each Beneficial Owner. If the

purchaser(s) certifies that it intends to hold the Bonds for its own account, then the County may issue certificated Bonds without the utilization of DTC and the Book-Entry System.

THE COUNTY AND THE REGISTRATION AGENT SHALL NOT HAVE ANY RESPONSIBILITY OR OBLIGATIONS TO ANY PARTICIPANT OR ANY BENEFICIAL OWNER WITH RESPECT TO (i) THE BONDS; (ii) THE ACCURACY OF ANY RECORDS MAINTAINED BY DTC OR ANY DTC PARTICIPANT; (iii) THE PAYMENT BY DTC OR ANY DTC PARTICIPANT OF ANY AMOUNT DUE TO ANY BENEFICIAL OWNER IN RESPECT OF THE PRINCIPAL OF AND INTEREST ON THE BONDS; (iv) THE DELIVERY OR TIMELINESS OF DELIVERY BY DTC OR ANY DTC PARTICIPANT OF ANY NOTICE DUE TO ANY BENEFICIAL OWNER THAT IS REQUIRED OR PERMITTED UNDER THE TERMS OF THIS RESOLUTION TO BE GIVEN TO BENEFICIAL OWNERS; (v) THE SELECTION OF BENEFICIAL OWNERS TO RECEIVE PAYMENTS IN THE EVENT OF ANY PARTIAL REDEMPTION OF THE BONDS; OR (vi) ANY CONSENT GIVEN OR OTHER ACTION TAKEN BY DTC OR ITS NOMINEE, CEDE & CO., AS OWNER.

(k) The Registration Agent is hereby authorized to take such action as may be necessary from time to time to qualify and maintain the Bonds for deposit with DTC, including but not limited to, wire transfers of interest and principal payments with respect to the Bonds, utilization of electronic book entry data received from DTC in place of actual delivery of Bonds and provision of notices with respect to Bonds registered by DTC (or any of its designees identified to the Registration Agent) by overnight delivery, courier service, telegram, telecopy or other similar means of communication. No such arrangements with DTC may adversely affect the interest of any of the owners of the Bonds; provided, however, that the Registration Agent shall not be liable with respect to any such arrangements it may make pursuant to this Section.

(l) The Registration Agent is hereby authorized to authenticate and deliver the Bonds to the original purchaser, upon receipt by the County of the proceeds of the sale thereof and to authenticate and deliver Bonds in exchange for Bonds of the same principal amount delivered for transfer upon receipt of the Bond(s) to be transferred in proper form with proper documentation as hereinabove described. The Bonds shall not be valid for any purpose unless authenticated by the Registration Agent by the manual signature of an officer thereof on the certificate set forth herein on the Bond form.

(m) In case any Bond shall become mutilated, or be lost, stolen, or destroyed, the County, in its discretion, shall issue, and the Registration Agent, upon written direction from the County, shall authenticate and deliver, a new Bond of like tenor, amount, maturity and date, in exchange and substitution for, and upon the cancellation of, the mutilated Bond, or in lieu of and in substitution for such lost, stolen or destroyed Bond, or if any such Bond shall have matured or shall be able to mature, instead of issuing a substituted Bond the County may pay or authorize payment of such Bond without surrender thereof. In every case, the applicant shall furnish evidence satisfactory to the County and the Registration Agent of the destruction, theft or loss of such Bond, and indemnify satisfactory to the County and the Registration Agent; and the County may charge the applicant for the issue of such new Bond an amount sufficient to reimburse the County for the expense incurred by it in the issue thereof.

Section 5. Source of Payment. The Bonds shall be payable from unlimited ad valorem taxes to be levied on all taxable property within the County. For the prompt payment of the principal of, premium, if any, and interest on the Bonds, the full faith and credit of the County are hereby irrevocably pledged.

Section 6. Form of Bonds. The Bonds shall be in substantially the following form, the omissions to be appropriate completed when the Bonds are prepared and delivered:

(Form of Bond)

REGISTERED
Number ____

REGISTERED
$_____

UNITED STATES OF AMERICA
STATE OF TENNESSEE
COUNTY OF KNOX
GENERAL OBLIGATION BONDS, SERIES 202__

Interest Rate: Maturity Date: Date of Bond: CUSIP No.:

Registered Owner:

Principal Amount:

FOR VALUE RECEIVED, Knox County, Tennessee (the "County") hereby promises to pay to the registered owner hereof, hereinabove named, or registered assigns, in the manner hereinafter provided, the principal amount hereinabove set forth on the maturity date hereinabove set forth (or upon earlier redemption as set forth herein), and to pay interest (computed on the basis of a 360-day year of twelve 30-day months) on said principal amount at the annual rate interest hereinabove set forth from the date hereof until said maturity date or redemption date, said interest being payable on June 1, 202__, and semi-annually thereafter on the first day of June and December in each year until this Bond matures or is redeemed. The principal hereof and interest hereon are payable in lawful money of the United States of America by check or draft at the designated trust office of _____, _____, _____, as registration agent and paying agent (the "Registration Agent"). The Registration Agent shall make all interest payments with respect to this Bond on each interest payment date directly to the registered owner hereof shown on the Bond registration records maintained by the Registration Agent as of the close of business on the fifteenth day of the month next preceding the interest payment date (the "Regular Record Date") by check or draft mailed to such owner at such owner's address shown on said Bond registration records, without, except for final payment, the presentation or surrender of this Bond, and all such payments shall discharge the obligations of the County to the extent of the payments so made. Any such interest not so punctually paid or duly provided for on any interest payment date shall forthwith cease to be payable to the registered owner on the relevant Regular Record Date; and, in lieu thereof, such defaulted interest shall be payable to the person in whose name this Bond is registered at the close of business on the date (the "Special Record Date") for payment of such defaulted interest to be fixed by the Registration Agent, notice of which shall be given to the owners of the Bonds of the issue of which this Bond is one not less than ten (10) days prior to such Special Record Date. Payment of principal of and premium, if any, on this Bond shall be made when due upon presentation and surrender of this Bond to the Registration Agent.

Except as otherwise provided herein or in the Resolution, as hereinafter defined, this Bond shall be registered in the name of Cede & Co., as nominee of The Depository Trust Company, New York, New York ("DTC"), which will act as securities depository for the Bonds of the series of which this Bond is one. One Bond for each maturity of the Bonds shall be issued to DTC and immobilized in its custody or a custodian of DTC. The Registration Agent is a custodian and agent for DTC, and the Bond will be immobilized in its custody. A book-entry system shall be employed, evidencing ownership of the Bonds in $5,000 denominations, or multiples thereof, with transfers of beneficial ownership effected on the records of DTC and the DTC Participants, as defined in the Resolution, pursuant to rules and procedures established by DTC. So long as Cede & Co., as nominee for DTC, is the registered owner of the Bonds, the County and the Registration Agent shall treat Cede & Co. as the only owner of the Bonds for all purposes under the Resolution, including receipt of all principal and maturity amounts of, premium, if any, and interest on

the Bonds, receipt of notices, voting and requesting or taking or not taking, or consenting to, certain actions hereunder. Payments of principal, maturity amounts, interest, and redemption premium, if any, with respect to the Bonds, so long as DTC is the only owner of the Bonds, shall be paid directly to DTC or its nominee, Cede & Co. DTC shall remit such payments to DTC Participants, and such payments thereafter shall be paid by DTC Participants to the Beneficial Owners, as defined in the Resolution. Neither the County nor the Registration Agent shall be responsible or liable for payment by DTC or DTC Participants, for sending transaction statements or for maintaining, supervising or reviewing records maintained by DTC or DTC Participants. In the event that (1) DTC determines not to continue to act as securities depository for the Bonds or (2) to the extent permitted by the rules of DTC, the County determines that the continuation of the book-entry system of evidence and transfer of ownership of the Bonds would adversely affect its interests or the interests of the Beneficial Owners of the Bonds, the County may discontinue the book-entry system with DTC. If the County fails to identify another qualified securities depository to replace DTC, the County shall cause the Registration Agent to authenticate and deliver replacement Bonds in the form of fully-registered Bonds to each Beneficial Owner. Neither the County nor the Registration Agent shall have any responsibility or obligations to DTC Participant or any Beneficial Owner with respect to (i) the Bonds; (ii) the accuracy or any records maintained by DTC or any DTC Participant; (iii) the payment by DTC or any DTC Participant of any amount due to any Beneficial Owner in respect of the principal or maturity amounts of and interest on the Bonds; (iv) the delivery or timeliness of delivery by DTC or any DTC Participant of any notice due to any Beneficial Owner that is required or permitted under the terms of the Resolution to be given to Beneficial Owners; (v) the selection of Beneficial Owners to receive payments in the event of any partial redemption of the Bonds; or (vi) any consent given or other action taken by DTC, or its nominee, Cede & Co., as owner.

Bonds of the issue of which this Bond is one maturing June 1, _____ and thereafter shall be subject to redemption prior to maturity at the option of the County on June 1, _____ and thereafter, as a whole or in part at any time at the redemption price of par plus accrued interest to the redemption date.

If less than all the Bonds shall be called for redemption, the maturities to be redeemed shall be designated by the Board of County Commissioners of the County, in its discretion. If less than all the principal amount of the Bonds of a maturity shall be called for redemption, the interests within the maturity to be redeemed shall be selected as follows:

(i) if the Bonds are being held under a Book-Entry System by DTC, or a successor Depository, the amount of the interest of each DTC Participant in the Bonds to be redeemed shall be determined by DTC, or such successor Depository, by lot or such other manner as DTC, or such successor Depository, shall determine; or

(ii) if the Bonds are not being held under a Book-Entry System by DTC, or a successor Depository, the Bonds within the maturity to be redeemed shall be selected by the Registration Agent by lot or such other random manner as the Registration Agent in its discretion shall determine.

[Subject to the credit hereinafter provided, the County shall redeem Bonds maturing _____ on the redemption dates set forth below opposite the maturity dates, in aggregate principal amounts equal to the respective dollar amounts set forth below opposite the respective redemption dates at a price of par plus accrued interest thereon to the date of redemption. DTC, as securities depository for the series of Bonds of which this Bond is one, or such Person as shall then be serving as the securities depository for the Bonds, shall determine the interest of each Participant in the Bonds to be redeemed using its procedures generally in use at that time. If DTC or another securities depository is no longer serving as securities depository for the Bonds, the Bonds to be redeemed within a maturity shall be selected in the manner described above with respect to the partial optional redemption of a single maturity of the

Bonds. The dates of redemption and principal amount of Bonds to be redeemed on said dates are as follows:

Final Maturity	Redemption Date	Principal Amount of Bonds Redeemed

*Final Maturity

At its option, to be exercised on or before the forty-fifth (45th) day next preceding any such redemption date, the County may (i) deliver to the Registration Agent for cancellation Bonds to be redeemed, in any aggregate principal amount desired, and/or (ii) receive a credit in respect of its redemption obligation under this mandatory redemption provision for any Bonds of the maturity to be redeemed which prior to said date have been purchased or redeemed (otherwise than through the operation of this mandatory sinking fund redemption provision) and cancelled by the Registration Agent and not theretofore applied as a credit against any redemption obligation under this mandatory sinking fund provision. Each Bond so delivered or previously purchased or redeemed shall be credited by the Registration Agent at 100% of the principal amount thereof on the obligation of the County on such payment date and any excess shall be credited on future redemption obligations in chronological order, and the principal amount of Bonds to be redeemed by operation of this mandatory sinking fund provision shall be accordingly reduced. The County shall on or before the forty-fifth (45th) day next preceding each payment date furnish the Registration Agent with its certificate indicating whether or not and to what extent the provisions of clauses (i) and (ii) of this subsection are to be availed of with respect to such payment and confirm that funds for the balance of the next succeeding prescribed payment will be paid on or before the next succeeding payment date.]

Notice of any call for redemption shall be given by the Registration Agent not less than twenty (20) nor more than sixty (60) days prior to the date fixed for redemption by sending an appropriate notice to the registered owners of the Bonds to be redeemed by first-class mail, postage prepaid, at the addresses shown on the Bond registration records of the Registration Agent as of the date of the notice; but neither failure to mail such notice nor any defect in any such notice so mailed shall affect the sufficiency of the proceedings for the redemption of any of the Bonds for which proper notice was given. The notice may state that it is conditioned upon the deposit of moneys in an amount equal to the amount necessary to effect the redemption with the Registration Agent no later than the redemption date ("Conditional Redemption"). As long as DTC, or a successor Depository, is the registered owner of the Bonds, all redemption notices shall be mailed by the Registration Agent to DTC, or such successor Depository, as the registered owner of the Bonds, as and when above provided, and neither the County nor the Registration Agent shall be responsible for mailing notices of redemption to DTC Participants or Beneficial Owners. Failure of DTC, or any successor Depository, to provide notice to any DTC Participant will not affect the validity of such redemption. From and after any redemption date, all Bonds called for redemption shall cease to bear interest if funds are available at the office of the Registration Agent for the payment thereof and it notice has been duly provided as set forth in the Resolution, as hereafter defined. In the case of a Conditional Redemption, the failure of the Municipality to make funds available in part or in whole on or before the redemption date shall not constitute an event of default, and the Registration Agent shall give immediate notice to the Depository, if applicable, or the affected Bondholders that the redemption did not occur and that the Bonds called for redemption and not so paid remain outstanding.

This Bond is transferable by the registered owner hereof in person or by such owner's attorney duly authorized in writing at the designated trust office of the Registration Agent set forth on the front side hereof, but only in the manner, subject to limitations and upon payment of the charges provided in the Resolution, as hereafter defined, and upon surrender and cancellation of this Bond. Upon such transfer, a new Bond or Bonds of authorized denominations of the same maturity and interest rate for the same aggregate principal amount will be issued to the transferee in exchange therefor. The person in whose name this Bond is registered shall be deemed and regarded as the absolute owner thereof for all purposes and neither the County nor the Registration Agent shall be affected by any notice to the contrary whether or not any payments due on the Bond shall be overdue. Bonds, upon surrender to the Registration Agent, may, at the option of the registered owner thereof, be exchanged for an equal aggregate principal amount of the Bonds of the same maturity in authorized denomination or denominations, upon the terms set forth in the Resolution. The Registration Agent shall not be required to transfer or exchange any Bond during the period commencing on a Regular Record Date or Special Record Date and ending on the corresponding interest payment date of such Bond, nor to transfer or exchange any Bond after the notice calling such Bond for redemption has been made, nor during a period following the receipt of instructions from the County to call such Bond for redemption.

This Bond is one of a total authorized issue aggregating $_____ and issued by the County for the purpose of providing funds for (i) constructing, improving, repairing, renovating and equipping of courtroom, corrective and detention facilities, schools and other educational facilities, libraries, stormwater drainage facilities, technology equipment, parking facilities, parks and recreation facilities and other public buildings, including any equipment required therefor; (ii) constructing and improving roads, streets, bridges and highways; (iii) payment of legal, fiscal, administrative, architectural and engineering costs incident to all of the foregoing; (iv) reimbursement to the appropriate fund of the County for prior expenditures for the foregoing costs, if applicable; and (v) payment of costs incident to the issuance of the Bonds, pursuant to 9-21-101, et seq., Tennessee Code Annotated, as amended, and pursuant to a resolution adopted by the Board of County Commissioners of the County on August 31, 2026 (the "Resolution").

The Bonds shall be payable from unlimited ad valorem taxes to be levied on all taxable property within the County. For the prompt payment of the principal of, premium, if any, and interest on the Bonds, the full faith and credit of the County are hereby irrevocably pledged.

This Bond and the income therefrom are exempt from all present state, county and municipal taxes in Tennessee except (a) Tennessee excise taxes on interest on the Bond during the period the Bond is held or beneficially owned by any organization or entity, other than a sole proprietorship or general partnership, doing business in the State of Tennessee, and (b) Tennessee franchise taxes by reason of the inclusion of the book value of the Bond in Tennessee franchise tax base of any organization or entity, other than a sole proprietorship or general partnership, doing business in the State of Tennessee.

It is hereby certified, recited, and declared that all acts, conditions and things required to exist, happen and be performed precedent to and in the issuance of this Bond exist, happen and be performed precedent to and in the issuance of this Bond exist, have happened and have been performed in due time, form and manner as required by law, and that the amount of this Bond, together with all other indebtedness of the County, does not exceed any limitation prescribed by the constitution and statutes of the State of Tennessee.

IN WITNESS WHEREOF, the County has caused this Bond to be signed by its County Mayor and attested by its County Clerk as of the date hereinabove set forth.

Section 7. Levy of Tax. The County, through its Governing Body, shall annually levy and collect a tax upon all taxable property within the County, in addition to all other taxes authorized by law, sufficient to pay principal of, premium, if any, and interest on the Bonds when due, and for that purpose there is hereby levied a direct annual tax in such amount as may be found necessary each year to pay principal and interest coming due on the Bonds in said year. Principal and interest falling due at any time when there are insufficient funds from this tax levy on hand shall be paid from the current funds of the County and reimbursement therefor shall be made out of the taxes hereby provided to the levied when the same shall have been collected. The tax herein provided may be reduced to the extent of any direct appropriations from other funds, taxes and revenues of the County to the payment of debt service on the Bonds.

Section 8. Sale of Bonds.

(a) The Bonds shall be offered for competitive public sale in one or more series, at a price of not less than 98.0% of par, plus accrued interest, as a whole or in part from time to time as shall be determined by the County Mayor, in consultation with the Municipal Advisor. The Bonds, or any series thereof, shall be sold by delivery of bids via physical delivery, mail, fax, or telephone or by electronic bidding means of an Internet bidding service as shall be determined by the County Mayor, in consultation with the Municipal Advisor.

(b) If the Bonds are sold in more than one series, the County Mayor is authorized to cause to be sold in each series an aggregate principal amount of Bonds less than that shown in Section 4 hereof for each series, so long as the total aggregate principal amount of all series issued does not exceed the total aggregate of Bonds authorized to be issued herein.

(c) The County Mayor is further authorized with respect to each series of Bonds to:

(1) change the dated date of the Bonds, or any series thereof, to a date other than the date of issuance of the Bonds;

(2) change the designation of the Bonds, or any series thereof, to a designation other than "General Obligation Bonds" and to specify the series designation of the Bonds, or any series thereof;

(3) change the first interest payment date on the Bonds, or any series thereof, to a date other than June 1, 2027, provided that such date is not later than twelve months from the dated date of such series of Bonds;

(4) establish and adjust the principal and interest payment dates and the maturity amounts of the Bonds, or any series thereof, provided that (A) the total principal amount of all series of Bonds does not exceed the total amount of Bonds authorized herein; and (B) the final maturity date of each series shall not be later than the twenty-fifth (25^{th}) fiscal year after each such series is issued.

(5) adjust or remove the County's optional redemption provisions of the Bonds, provided that the premium amount to be paid on Bonds or any series thereof does not exceed two percent (2%) of the principal amount thereof;

(6) sell the Bonds, or any series thereof, or any maturities thereof as Term Bonds with mandatory redemption requirements corresponding to the maturities set forth herein or as otherwise determined by the County Mayor, as he shall deem most advantageous to the County; and

(7) cause all or a portion of the Bonds to be insured by a bond insurance policy issued by a nationally recognized bond insurance company if such insurance is requested and paid for by the winning bidder of the Bonds, or any series thereof.

The form of the Bond set forth in Section 6 hereof shall be conformed to reflect any changes made pursuant to this Section 8 hereof.

(d) The County Mayor is authorized to sell the Bonds, or any series thereof, simultaneously with any other bonds or notes authorized by resolution or resolutions of the Governing Body. The County Mayor is further authorized to sell the Bonds, or any series thereof, as a single issue of bonds with any other bonds with substantially similar terms authorized by resolution or resolutions of the Governing Body, in one or more series as the County Mayor shall deem to be advantageous to the County and in doing so, the County Mayor is authorized to change the designation of the Bonds to a designation other than "General Obligation Bonds"; provided, however, that the total aggregate principal amount of combined bonds to be sold does not exceed the total aggregate principal amount of Bonds authorized by this resolution or bonds authorized by any other resolution or resolutions adopted by the Governing Body.

(e) The County Mayor is authorized to award the Bonds, or any series thereof, in each case to the bidder whose bid results in the lowest true interest cost to the County, provided the rate or rates on the Bonds does not exceed the maximum rate prescribed by Section 4 hereof. The award of the Bonds by the County Mayor to the lowest bidder shall be binding on the County, and no further action of the Governing Body with respect thereto shall be required.

(f) The County Mayor and County Clerk are authorized to cause the Bonds, in book-entry form (except as otherwise permitted herein), to be authenticated and delivered by the Registration Agent to the successful bidder and to execute, publish, and deliver all certificates and documents, including an official statement and closing certificates, as they shall deem necessary in connection with the sale and delivery of the Bonds.

(g) No Bonds shall be issued until publication of the Initial Resolution in a newspaper of general circulation in the County and the passage of twenty (20) days from the date of publication thereof, and in no event shall the Bonds be issued if a legally sufficient petition, as defined by Section 9-21-207, Tennessee Code Annotated, is filed within such 20-day period.

Section 9. Disposition of Bond Proceeds. The proceeds of the sale of the Bonds shall be disbursed as follows:

(a) all accrued interest, if any, shall be deposited to the appropriate fund of the County to be used to pay interest on the Bonds on the first interest payment date following delivery of the Bonds; and

(b) the remainder of the proceeds of the sale of the Bonds shall be deposited with a financial institution regulated by the Federal Deposit Insurance Corporation or similar federal agency in a special fund known as the Project Fund (with a separate account for each series of Bonds) (the "Project Fund"), or

such other designation as shall be determined by the County Mayor to be kept separate and apart from all other funds of the County. The County shall disburse funds in the Project Fund to pay costs of issuance of the Bonds, including necessary legal, accounting and fiscal expenses, printing, engraving, advertising and similar expenses, administrative and clerical costs, Registration Agent fees, bond insurance premiums, if any, and other necessary miscellaneous expenses incurred in connection with the issuance and sale of the Bonds. Notwithstanding the foregoing, costs of issuance of the Bonds may be withheld from the good faith deposit or purchase price of the Bonds and paid to the Municipal Advisor to be used to pay costs of issuance of the Bonds. The remaining funds in the Project Fund shall be disbursed solely to pay the costs of the Projects and to reimburse the County for any funds previously expended for costs of the Projects. Money in the Project Fund shall be secured in the manner prescribed by applicable statutes relative to the securing of public or trust funds, if any, or, in the absence of such a statute, by a pledge of readily marketable securities having at all times a market value of not less than the amount in said Project Fund. Money in the Project Fund shall be invested at the direction of the Finance Director in such investments as shall be permitted by applicable law to the extent permitted by applicable law.

Section 10. Official Statement. The officers of the County, or any of them, are hereby authorized and directed to provide for the preparation and distribution of a Preliminary Official Statement describing the Bonds. After bids have been received and the Bonds have been awarded, the officers of the County, or any of them, shall make such completions, omissions, insertions and changes in the Preliminary Official Statement not inconsistent with this resolution as are necessary or desirable to complete it as a final Official Statement for purposes of Rule 15c2-12(e)(3) of the Securities and Exchange Commission. The officers of the County, or any of them, shall arrange for the delivery to the successful bidder on the Bonds of a reasonable number of copies of the Official Statement within seven business days after the Bonds have been awarded for delivery, by the successful bidder on the Bonds, to each potential investor requesting a copy of the Official Statement and to each person to whom such bidder and members of his bidding group initially sell the Bonds.

The County Mayor and the County Clerk, or either of them, are authorized, on behalf of the County, to deem the Preliminary Official Statement and the Official Statement in final form, each to be final as of its date within the meaning of Rule 15c2-12(b)(1), except for the omission in the Preliminary Official Statement of certain pricing and other information allowed to be omitted pursuant to such Rule 15c2-12(b)(1). The distribution of the Preliminary Official Statement and the Official Statement in final form shall be conclusive evidence that each has been deemed in final form as of its date by the County except for the omission in the Preliminary Official Statement of such pricing and other information.

Notwithstanding the foregoing, no Official Statement is required to be prepared if the Bonds, or any series thereof, are purchased by a purchaser that certifies that such purchaser intends to hold the Bonds, or any series thereof, for its own account and has no present intention to reoffer the Bonds, or any series thereof.

Section 11. Discharge and Satisfaction of Bonds. If the County shall pay and discharge the indebtedness evidenced by any series of the Bonds in any one or more of the following ways:

(a) By paying or causing to be paid, by deposit of sufficient funds as and when required with the Registration Agent, the principal of and interest on such Bonds as and when the same become due and payable;

(b) By depositing or causing to be deposited with any trust company or financial institution whose deposits are insured by the Federal Deposit Insurance Corporation or similar federal agency and which has trust powers (an "Agent"; which agent may be the Registration Agent) in trust or escrow, on or before the date of maturity or redemption, sufficient money or Defeasance Obligations, as hereafter defined,

the principal of and interest on which, when due and payable, will provide sufficient moneys to pay or redeem such Bonds and to pay interest thereon when due until the maturity or redemption date (provided, if such Bonds are to be redeemed prior to maturity thereof, proper notice of such redemption shall have been given or adequate provision shall have been made for the giving of such notice); or

(c) By delivering such Bonds to the Registration Agent for cancellation by it;

and if the County shall also pay or cause to be paid all other sums payable hereunder by the County with respect to such Bonds, or make adequate provision therefor, and by resolution of the Governing Body instruct any such Agent to pay amounts when and as required to the Registration Agent for the payment of principal of and interest on such Bonds when due, then and in that case the indebtedness evidenced by such Bonds shall be discharged and satisfied and all covenants, agreements and obligations of the County to the holders of such Bonds shall be fully discharged and satisfied and shall thereupon cease, terminate and become void.

If the County shall pay and discharge the indebtedness evidenced by any of the Bonds in the manner provided in either clause (a) or clause (b) above, then the registered owners thereof shall thereafter be entitled only to payment out of the money or Defeasance Obligations deposited as aforesaid.

Except as otherwise provided in this Section, neither Defeasance Obligations nor moneys deposited with the Registration Agent pursuant to this Section nor principal or interest payments on any such Defeasance Obligations shall be withdrawn or used for any purpose other than, and shall be held in trust for, the payment of the principal and interest on said Bonds; provided that any cash received from such principal or interest payments on such Defeasance Obligations deposited with the Registration Agent, (A) to the extent such cash will not be required at any time for such purpose, shall be paid over to the County as received by the Registration Agent and (B) to the extent such cash will be required for such purpose at a later date, shall, to the extent practicable, be reinvested in Defeasance Obligations maturing at times and in amounts sufficient to pay when due the principal and interest to become due on said Bonds on or prior to such redemption date or maturity date thereof, as the case may be, and interest earned from such reinvestments shall be paid over to the County, as received by the Registration Agent. For the purposes of this Section, Defeasance Obligations shall direct obligations of, or obligations, the principal of and interest on which are guaranteed by, the United States of America, or obligations of any agency or instrumentality of the United States, which obligations shall not be subject to redemption prior to their maturity other than at the option of the registered owner thereof.

Section 12. Federal Tax Matters Related to the Bonds.

(a) The County intends that the Bonds will be issued as tax-exempt bonds under the Code. If so issued, the County hereby covenants that it will take all such actions as are necessary under the Code so that the Bonds will qualify and continue to qualify for such tax-exemption, including, without limitation, not permitting the use of any proceeds of the Bonds in a manner that would cause the Bonds to be subjected to treatment under Section 148 of the Code, and applicable regulations thereunder, as an "arbitrage bond". The County further covenants that it will, throughout the term of the Bonds and through the date that the final rebate, if any, must be made to the United States in accordance with Section 148 of the Code, comply with the provisions of Sections 103 and 141 through 150 of the Code and all regulations proposed and promulgated thereunder that must be satisfied in order that interest on the Bonds shall be and continue to be excluded from gross income for federal income tax purposes under Section 103 of the Code.

(b) It is reasonably expected that the County will reimburse itself for certain expenditures made by it in connection with the Projects by issuing the Bonds. This resolution shall be placed in the minutes of the Governing Body and shall be made available for inspection by the general public at the

office of the Governing Body. This resolution constitutes a declaration of official intent under Treas. Reg. §1.150-2.

(c) The appropriate officers of the County are authorized and directed, on behalf of the County, to execute and deliver all such certificates and documents that may be required of the County in order to comply with the provisions of this Section related to the issuance of the Bonds and to administer the County's Federal Tax Compliance Policies and Procedures with respect to the Bonds.

Section 13. Continuing Disclosure. The County hereby covenants and agrees that it will provide annual financial information and material event notices if and as required by Rule 15c2-12 of the Securities Exchange Commission for the Bonds. The County Mayor is authorized to execute at the Closing of the sale of the Bonds an agreement for the benefit of and enforceable by the owners of the Bonds specifying the details of the financial information and material event notices to be provided and its obligations relating thereto. Failure of the County to comply with the undertaking herein described and to be detailed in said closing agreement shall not be a default hereunder, but any such failure shall entitle the owner or owners of any of the Bonds to take such actions and to initiate such proceedings as shall be necessary and appropriate to cause the County to comply with their undertaking as set forth herein and in said agreement, including the remedies of mandamus and specific performance.

Section 14. Reasonably Expected Economic Life. The "reasonably expected economic life" of the Project within the meaning of Sections 9-21-101, et seq., Tennessee Code Annotated, is greater than the term of the Bonds authorized herein.

Section 15. Resolution a Contract. The provisions of this resolution shall constitute a contract between the County and the registered owners of the Bonds, and after the issuance of the Bonds, no change, variation or alteration of any kind in the provisions of this resolution shall be made in any manner until such time as the Bonds and interest due thereon shall have been paid in full.

Section 16. Separability. If any section, paragraph or provision of this resolution shall be held to be invalid or unenforceable for any reason, the invalidity or unenforceability of such section, paragraph or provision shall not affect any of the remaining provisions of this resolution.

Section 17. Repeal of Conflicting Resolutions and Effective Date. All other resolutions and orders, or parts thereof in conflict with the provisions of this resolution, are, to the extent of such conflict, hereby repealed and this resolution shall be in immediate effect from and after its adoption.

This Resolution shall be in immediate effect from and after its adoption, the public welfare requiring it.

Adopted and approved this 31st day of August, 2026.

WHEREAS, Knox County, Tennessee (the "County") issued a Request for Proposal #2452 (as supplemented by addenda, the "RFP") to purchase and develop certain property known as the Andrew Johnson Building and located at 912 South Gay Street, Knoxville, Tennessee, consisting of the parcel identified as Tax Map 095I, Group D, Parcel 003 (such parcel with all improvements existing thereon being referred to herein as the "Property"); and

WHEREAS, BNA Associates, LLC, a Tennessee limited liability company (the "BNA"), submitted a proposal dated July 13, 2017 (the "Proposal") in response to the RFP,

which Proposal included the development of hotel, apartments and retail facilities (the "Project"), and BNA's Proposal was determined by the County to be the most responsive to the RFP; and

WHEREAS, in order to facilitate the orderly development of the Property in accordance with the Proposal, the County entered into a Development Agreement (the "Development Agreement") between the County and BNA dated as of December 21, 2020, as amended by that First Amendment to Development Agreement dated as of March 1, 2021, that Second Amendment to Development Agreement dated as of October 5, 2021, that Third Amendment to Development Agreement dated as of March 10, 2022, and that Fourth Amendment to Development Agreement dated as of June 28, 2022 (collectively, the "Development Agreement"); and

WHEREAS, BNA assigned its interest in the Development Agreement to Americana Knoxville, LLC, an affiliate of BNA, and the Property was conveyed by the County to Americana pursuant to a Quitclaim Deed with Possibility of Reverter dated August 1, 2022, that is recorded in the Register's Office of Knox County, Tennessee as Instrument No. 202208020007853; and

WHEREAS, the County, BNA and Americana desire to amend the Development Agreement to extend the date by which the BNA and Americana will commence construction of improvements to the Project until December 31, 2026, and to make other changes to the Development Agreement relating thereto; and

WHEREAS, the Commission (the "Commission") of the County desires to authorize the appropriate representatives of the County to execute and deliver a Fifth Amendment to Development Agreement (Andrew Johnson Building) (the "Fifth Amendment"), for such purposes.

NOW, THEREFORE, BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

Section 1. The Commission hereby approves the execution and delivery on behalf of the County of the Fifth Amendment in the form submitted to Commission at the time of consideration of this Resolution.

Section 2. The Commission hereby authorizes and directs the Mayor of the County to execute and to deliver to the BNA and Americana the Fifth Amendment.

Section 3. If any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

Section 4. This Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

FIFTH AMENDMENT TO DEVELOPMENT AGREEMENT
(ANDREW JOHNSON BUILDING)

THIS FIFTH AMENDMENT TO DEVELOPMENT AGREEMENT (ANDREW JOHNSON BUILDING) (this "Amendment") is made as of August 31, 2026, between **KNOX COUNTY, TENNESSEE**, a political subdivision of the State of Tennessee (the "County"), and **BNA ASSOCIATES, LLC**, a Tennessee limited liability company ("BNA") and **AMERICANA KNOXVILLE, LLC**, a Tennessee limited liability company ("Americana" and collectively with BNA, "Developer").

RECITALS:

The County and BNA entered into that certain Development Agreement (Andrew Johnson Building) dated as of December 21, 2020; as amended by that First Amendment to Development Agreement (Andrew Johnson Building), dated as of March 1, 2021; as amended by that Second Amendment to Development Agreement (Andrew Johnson Building), dated as of October 5, 2021; as amended by that Third Amendment to Development Agreement (Andrew Johnson Building), dated as of March 10, 2022; and as amended by that Fourth Amendment to Development Agreement (Andrew Johnson Building), dated as of June 28, 2022 (collectively, the "Agreement"), in which Developer agreed to acquire and redevelop certain property known as the Andrew Johnson Building (the "Property") as is more particularly described therein.

BNA assigned its interest in the Development Agreement to Americana, as an affiliate of BNA, and the County conveyed the Property to Americana by Quitclaim Deed with Possibility of Reverter dated August 1, 2022, that is recorded in the Register's Office of Knox County, Tennessee as Instrument No. 202208020007853 (the "Deed").

The parties wish to amend the Agreement to extend the deadline for commencement of construction of the redevelopment of the Andrew Johnson Building (the "Project"), provide for an additional Event of Default, and for other related purposes as set forth in further detail herein.

AGREEMENT:

NOW, **THEREFORE**, in consideration of the sum of $1.00 cash in hand paid and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto hereby agree as follows:

1. **Recitals; Definitions**. The parties acknowledge and agree that the foregoing recitals are true and correct in all respects and are incorporated herein by this reference. Capitalized terms used but not defined herein shall have the meaning given to such terms in the Agreement or the Purchase and Sale Agreement referenced therein.

2. **Amendment to Section 6**. The first sentence of Section 6 of the Agreement is hereby amended and restated as follows:

> 6. Commencement of Construction. Developer shall commence construction of the Project no later than December 31, 2026.

3. **Amendment to Section 10(a)**. Section 10(a) of the Agreement is hereby amended and restated as follows:

10. Default by Developer. An Event of Default shall be deemed to have occurred hereunder if:

a. Except as is provided in subsection (f) below, Developer breaches any agreement, covenant or condition made in this Agreement (and Developer shall fail to cure the same within thirty (30) days after written notice thereof by the County; provided that if the breach concerns a covenant (other than a covenant relating to the timing of the completion of the Project) that cannot reasonably be cured within the thirty (30) day period and Developer commences the cure and continues to diligently and timely cure such breach, then no breach shall be deemed to occur so long as the breach is cured within a ninety (90) day period after the County's notice;

4. **Amendment to Section 10**. The following subsection (f) shall be added to Section 10 of the Agreement:

f. Developer shall fail to commence construction of the Project by December 31, 2026, as provided in Section 6 (which failure shall not be subject to any cure rights provided herein).

5. **Deed-in-Lieu of Foreclosure**. The County's obligations under this Amendment and the effectiveness of this Amendment shall be subject to and conditioned upon the Developer providing to the County within thirty (30) days of the date of this Amendment an agreement pursuant to which Developer agrees for the benefit of its Mortgagee (as defined in the Deed) to immediately convey the Property to the Mortgagee upon an Event of Default under Section 10(f) of the Development Agreement pursuant to a deed in lieu of foreclosure. Such agreement shall provide that a deed in lieu of foreclosure shall be held in escrow by or on behalf of the Mortgagee from the date of execution of such agreement until the earlier of (i) when Developer has commenced construction of the Project (in which case the deed in lieu of foreclosure shall be returned to Developer) or (ii) December 31, 2026, in which case and upon notice by the County to the Mortgagee that commencement of construction of the Project has not occurred and is an Event of Default that will result in a reversion of the Property, then within (30) days of such notice, Mortgagee shall either (i) record the deed in lieu of foreclosure, or (ii) provide the County with notice of Mortgagee's intent to commence and consummate a foreclosure sale of the Property; provided that Mortgagee may record the deed in lieu of foreclosure at any time prior to the consummation of the foreclosure sale of the Property. In either case, the deadlines to commence and complete construction under the Development Agreement shall be reset and shall begin to run sixty (60) days from the date of the foreclosure sale and/or the recording the deed in lieu of foreclosure, as applicable. If Mortgagee and/or any purchaser at a foreclosure sale and/or any successor and/or assign has not undertaken and begun performance of the Developer's obligations under the Agreement one (1) year from the date of the said notice given by the County to Mortgagee, then the Property shall revert to the County as set forth in the Agreement. Any of the foregoing deadlines shall be tolled during the time that the automatic stay and/or any other court order prevents Mortgagee from commencing and/or consummating a foreclosure sale and/or recording the deed in lieu of foreclosure. The County shall be an express third-party beneficiary of such agreement. The terms of this Section 5 shall inure to the benefit of Mortgagee, which is an express-third party beneficiary of the same.

6. **Miscellaneous**.

A. Effect and Ratification. Except as expressly amended or supplemented hereby, the Agreement shall remain in full force and effect without change and is hereby ratified and confirmed.

B. Counterpart Execution; Electronic Copies. This Amendment may be executed in multiple counterparts, each of which shall be deemed an original and all of which shall constitute one agreement, and the signature of any party to any counterpart shall be deemed to be a signature to, and may be appended to, any other counterpart. Electronically transmitted copies of original signatures of any of the parties hereto shall be binding as if they were original signatures.

C. Governing Law. This Amendment shall be governed and construed in accordance with the laws of the State of Tennessee without regard to any applicable principles of conflicts of law. Venue for any action arising out of this Amendment shall be exclusively in Chancery and Circuit Courts of Knox County, Tennessee.

D. Entire Agreement; Amendments. The Agreement and the Exhibits attached thereto, as amended and supplemented by this Amendment, set forth all of the promises, covenants, agreements, conditions, and undertakings between and among the parties hereto with respect to the subject matter hereof, and supersede all prior and contemporaneous agreements and understandings, inducements, and conditions, express or implied, oral or written, except as contained herein. No extension, alteration, modification, or other amendment of or to the Agreement shall be valid or binding unless made in writing and signed by all parties hereto.

E. Headings. The captions and headings herein are for convenience and reference only and in no way define or limit the scope or content of this Amendment or in any way affect its provisions.

[*Remainder of page intentionally left blank; signatures on following page*]

IN WITNESS WHEREOF, the parties have caused this Amendment to be duly executed on the date first above written.

WHEREAS, the County Commission (the "Governing Body") of Knox County, Tennessee (the "County"), has met pursuant to proper notice; and

WHEREAS, Knoxville's Community Development Corporation ("KCDC"), as the housing and redevelopment authority for the City of Knoxville, Tennessee, has prepared the North Waterfront Redevelopment Plan (the "Redevelopment Plan") to facilitate the redevelopment of the corridor along Neyland Drive between Kingston Pike and the Henley Street Bridge and adjacent to Second Creek to Cumberland Avenue (the "Redevelopment Area"); and

WHEREAS, the City Council of the City of Knoxville has approved the Redevelopment Plan; and

WHEREAS, the form of the Redevelopment Plan has been presented to the Governing Body with this Resolution; and

WHEREAS, the Redevelopment Plan authorizes tax increment financing to finance improvements within the Redevelopment Area; and

WHEREAS, KCDC conducted a public hearing with respect to the Redevelopment Plan on July 29, 2026, and KCDC did not receive any comments in opposition to the Redevelopment Plan; and

WHEREAS, the County has determined that approval of the Redevelopment Plan is in the best interest of the residents of the County.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF KNOX COUNTY, TENNESSEE, AS FOLLOWS:

Section 1. The Governing Body hereby approves the North Waterfront Redevelopment Plan.

Section 2. The officers of the County are hereby authorized and directed to take such actions as are appropriate and necessary to comply with the terms of the Redevelopment Plan.

Section 3. The County Clerk is hereby directed to file a copy of the Redevelopment Plan with the minutes of this meeting.

Section 4. If any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

Section 5. This Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

NORTH WATERFRONT REDEVELOPMENT PLAN

INTRODUCTION

The Tennessee riverfront area along Neyland Drive from its intersection with Kingston Pike to the Henley Street Bridge and adjacent areas represents a unique and transformative opportunity for redevelopment within the City of Knoxville (the "City"). Despite this area's prominent location, much of the area is currently utilized as surface parking and transportation infrastructure or is underutilized land that is activated primarily during major athletic and special events. These conditions limit the area's ability to contribute to the City's economic vitality. The redevelopment of this corridor will require significant infrastructure investment throughout the area. Infrastructure improvements in this area will improve the physical connections between the University of Tennessee ("UT" or the "University"), the City's riverfront, World's Fair Park, and downtown Knoxville, while setting the stage for collaboration between UT and the private sector.

Recognizing the significant potential benefits to the City, Knox County (the "County") and the region from the redevelopment of this area, the City Council of the City has requested Knoxville's Community Development Corporation ("KCDC"), as the redevelopment authority of the City, to prepare this Redevelopment Plan (this "Plan") pursuant to Tennessee Code Annotated §13-20-203(b) and other applicable laws. The purpose of this Plan is to establish a framework for the coordinated redevelopment of the Redevelopment Area (as defined below) into a mixed-use innovation district that supports economic development, enhances public infrastructure and connectivity, improves public access to the riverfront, and promotes the efficient use of land.

The Redevelopment Area covered by this Plan (the "Redevelopment Area" or "Area") generally includes the land along Neyland Drive, extending to the intersection of Neyland Drive with Kingston Pike and extending along the river to the Henley Street Bridge overpass and also encompassing the area bordering Second Creek between Neyland Drive and Cumberland Avenue to include the Maplehurst area.

AREA HISTORY AND CONTEXT

The lands adjacent to Neyland Drive and the Tennessee River have historically functioned as a transition zone between the University of Tennessee campus and the industrial sites that once lined the riverfront. Over time, this Area has evolved into a predominantly institutional landscape, shaped largely by university-related uses including athletic facilities, parking areas, utility services and support infrastructure. Because of the nature of use of the University's athletic facilities, including Neyland Stadium and Food City Center at Thompson-Boling Arena, the surrounding land uses have developed in a manner that prioritizes event-based activity over continuous, mixed-use development. As a result, large portions of the Redevelopment Area remain inactive outside of major events. Also, the riverfront portion of the Redevelopment Area has not been fully activated. In the 1990s, public improvements, including greenways, were made to the riverfront area and adjacent areas, and while these improvements were a significant step forward in opening the riverfront for public use, much of the riverfront area could benefit from further improvement.

.

Three significant developments make the need to undertake the redevelopment of the Redevelopment Area particularly timely. First as part of UT's Master Plan, UT has indicated its desire for a portion of the Redevelopment Area bordering Second Creek between the riverfront and Cumberland Avenue to be redeveloped as an innovation district. This district, which would be known as Maplehurst Innovation District, introduces a new opportunity to diversify land uses within the Redevelopment Area by incorporating research, technology, and entrepreneurial activity. This District would also substantially improve connectivity between downtown Knoxville, World's Fair Park, and UT.

Second, the University has also approved the development of an entertainment district adjacent to Neyland Stadium that would primarily be located in the Redevelopment Area. The entertainment, hospitality, and residential uses resulting from this development would create a vibrant, year-round destination that complements both the University and downtown Knoxville. This UT led project presents a rare opportunity to reinvest in pedestrian and bicycle infrastructure along Neyland Drive, furthering public safety and access to the North Waterfront.

Finally, another significant component influencing the future of the Redevelopment Area is the planned Knoxville South Waterfront Bicycle and Pedestrian Bridge. In 2025, this project was awarded approximately $24.7 million in federal grant funding and, as of the date of adoption of this Plan, remains in the design phase. The proposed bridge will establish a direct connection between the University's campus and the City's South Waterfront. More specifically, the northern terminus of the bridge is anticipated to be located directly adjacent to the Food City Center at Thompson-Boling Arena. The implementation of this project is expected to have a transformative impact on the Redevelopment Area by significantly enhancing multimodal connectivity, improving access to the Tennessee River, and strengthening linkages between key destinations on both sides of the river. In doing so, the bridge will serve as a critical piece of infrastructure that supports increased redevelopment potential within the Redevelopment Area as well as along the South Waterfront, further advancing the City's long-term vision for a connected and activated riverfront corridor.

PLAN OBJECTIVES

This Plan is intended to guide redevelopment efforts within the Area in a manner that is consistent with the City's long-term planning goals and the UT's 2023 Master Plan. This Redevelopment Plan establishes a cohesive framework for redevelopment that allows for the coordinated planning and implementation of multiple, interrelated projects within the Redevelopment Area. By addressing the Area as a unified district rather than a series of isolated projects, the Plan is designed to ensure that public and private investments are aligned, mutually supportive, and implemented in a manner that maximizes long-term economic and community benefit. Proactive and coordinated infrastructure planning will make growth in the area more manageable.

The primary objectives of the Plan include facilitating the redevelopment of underutilized land into a cohesive, mixed-use district, promoting economic development through the creation of a premier entertainment district, and supporting the establishment of the Maplehurst Innovation District as a center for research, technology, and entrepreneurship. In addition, the Plan provides a structure through which these major catalytic projects along

with the Knoxville South Waterfront Bicycle and Pedestrian Bridge, can be planned and advanced concurrently. This coordinated approach is intended to ensure that infrastructure improvements, land use decisions, and development timing are integrated in a manner that enhances the overall functionality and identity of the Area.

Additional objectives include improving connectivity between the UT campus, downtown Knoxville, and the Tennessee River through a comprehensive network of pedestrian, bicycle, and vehicular infrastructure; enhancing the public enjoyment of the Area through the creation of additional open spaces, riverfront amenities, and pedestrian-oriented design; prioritizing the preservation and adaptive reuse of unique historic structures where feasible; and supporting strategic public investment in infrastructure necessary to accommodate future growth. This Plan further seeks to provide the flexibility necessary to phase development over time while maintaining a consistent vision for the Redevelopment Area, thereby allowing multiple projects to proceed simultaneously or in sequence without compromising the overall cohesiveness of the district.

PROJECT AREA BOUNDARY AND EXISTING CONDITIONS

The Redevelopment Area is depicted on the map attached hereto as Exhibit A. A list of parcels included within the Redevelopment Area is attached as Exhibit B. The Redevelopment Area is hereby declared to be subject to this Plan.

The Redevelopment Area currently consists of a mix of institutional uses, surface parking, transportation and utility infrastructure, and limited open space. Much of the land is underutilized and lacks the intensity and diversity of uses necessary to support a vibrant urban environment.

Pursuant to applicable State law, particularly Tenn. Code Ann. § 13-20-202 and § 13-20-203, KCDC is authorized to undertake redevelopment projects and to establish a redevelopment area in which such projects are to be located. Under these statutes, redevelopment projects include installation and construction of public infrastructure necessary to redevelop the Area.

The underutilization of land in the Redevelopment Area and the prospect of high-level economic development make the Redevelopment Area appropriate for redevelopment under Tennessee law.

RELATIONSHIP TO LOCAL OBJECTIVES

Appropriate Land Uses

The Redevelopment Area is currently characterized by a range of zoning designations that reflect its historic and existing uses. Due to the significant presence of the University of Tennessee, much of the Redevelopment Area is zoned for institutional uses or is otherwise utilized in a manner consistent with UT operations. In addition, portions of the Redevelopment Area are zoned industrial, while other areas are designated as right-of-way or open space. The area identified for the proposed Maplehurst Innovation District includes parcels currently zoned RN-5 (General Residential Neighborhood) and DK-B (Downtown

Knoxville – Boulevard District), each of which permits varying intensities of residential and mixed-use development.
The diversity of existing zoning classifications within the Redevelopment Area reflects the incremental and function-specific development patterns that have occurred over time. However, these classifications do not fully contemplate the type of integrated, mixed-use environment envisioned under this Plan. Consistent with the City's broader planning objectives and prior redevelopment efforts, this Plan encourages the evolution of land uses toward a more cohesive, mixed-use district that supports entertainment, hospitality, residential, office, research, and recreational uses in a complementary and interconnected manner.

Widespread or wholesale rezoning of the Redevelopment Area is not contemplated. The existing zoning framework, in combination with the University's institutional presence, provides a degree of flexibility that can accommodate many of the uses envisioned by this Plan. However, targeted rezonings or the application of special zoning districts or overlays may be necessary to facilitate specific redevelopment projects, particularly those involving higher-density mixed-use development, structured parking, or the integration of public and private uses within a single development.

The City and the University are expected to coordinate closely with respect to land use and development within the Redevelopment Area, including consideration of the zoning flexibility afforded to UT under applicable state law. This coordination will be critical to ensuring that development within the Area is both consistent with the objectives of this Plan and responsive to the operational needs of the University.

Ultimately, the land use framework established by this Plan is intended to provide sufficient flexibility to accommodate a range of development opportunities while promoting a unified and intentional pattern of growth. Through this approach, the Redevelopment Area can transition from its current condition into a vibrant, mixed-use district that supports both institutional and private development and contributes to the long-term vitality of the City and the Tennessee Riverfront.

Improved Traffic and Public Transportation

The Redevelopment Area is served by a primary transportation corridor, Neyland Drive, as well as other thoroughfares that provide connectivity throughout the UT campus. The Plan supports improvements to traffic circulation, pedestrian infrastructure, and multimodal transportation options to enhance accessibility and safety. This Plan will prioritize investments that build on and improve the City's existing connectivity network.

Public Utilities

The Redevelopment Area is currently served by public utilities; however, improvements and capacity upgrades may be necessary to support future development. These improvements may include enhancements to water, sewer, stormwater, fiber, and electrical systems as well as the potential relocation of existing utility facilities to enhance the land-use potential within the Area. Furthermore, the Area also includes several critical utility infrastructure facilities owned and operated by the Knoxville Utilities Board ("KUB"). Continued close

collaboration with KUB will be important during the implementation of this plan to ensure the objectives of this Plan are being met while also allowing KUB to continue to operate and provide the ongoing utility services to the Area and surrounding neighborhoods.

Historic Preservation and Adaptive Reuse

The Redevelopment Area includes a small number of historic structures, most of which are located within the footprint of the future Maplehurst Innovation District. This Redevelopment Plan prioritizes adaptive reuse of historic structures. A future master planning process for the Maplehurst area will create an inventory of historic structures, prioritizing their preservation and adaptive reuse based on a number of factors including history of the structure, architectural significance, structural integrity, and financial feasibility.

Recreation and Community Facilities

The proximity of the Redevelopment Area to the Tennessee River provides opportunities for the development of additional recreational amenities, including parks, greenways, and public gathering spaces. These improvements are intended to enhance quality of life and support the overall redevelopment of the Area.

LAND USE PLAN

As articulated in the previous section, the land use plan for the Redevelopment Area envisions a mixed-use district comprising entertainment, hospitality, residential, office, research, and recreational uses. Development within the Area may include structured parking, ground-floor retail, upper-story residential and office uses, and public open spaces.

The area near Neyland Stadium is anticipated to develop as an entertainment district, while the Maplehurst area is expected to support innovation-oriented uses along with mixed use residential. The riverfront is intended to serve as a focal point for public space and recreational activity. This Plan encourages coordinated infrastructure investments that extend beyond any single project, taking a district-wide approach to planning and development of public infrastructure.

RELOCATION OF RESIDENCES AND BUSINESSES

It is not anticipated that any residences or businesses will be required to relocate as a result of this Plan. However, if relocation becomes necessary, KCDC will provide assistance in accordance with applicable policies and regulations and will make reasonable efforts to minimize disruption.

LAND ACQUISITION AND DISPOSITION PLAN

KCDC may acquire property within the Redevelopment Area as necessary to facilitate redevelopment, and any acquisition would occur only upon compliance with applicable law. In no event will KCDC use eminent domain to acquire any property that is not blighted

property or that is used for owner-occupied residential purposes, including residential condominium developments like the property located at 1004 Game Day Way.

Properties acquired by KCDC will be disposed of in accordance with Tennessee Code Annotated § 13-20-204. Disposition may include the transfer of property to private developers subject to redevelopment agreements that ensure the completion of projects and the maintenance of quality standards.

To facilitate and support public and private redevelopment projects within the Area requiring investment in public infrastructure, the City is hereby authorized by this Plan to transfer City-owned property or City rights-of-way to KCDC within the Redevelopment Area. The terms and conditions of each property transfer to KCDC shall be determined by the City's Director of Engineering on a case-by-case basis.

PROPERTY MANAGEMENT

In accordance with the relocation and acquisition policies set forth in this Plan, it is anticipated that certain properties may be under management by KCDC or its assigns at various times in the Redevelopment Area. The primary objectives of the property management activity will be to minimize the length of occupancy of property after acquisition and to relocate occupants as quickly and efficiently as possible into appropriate accommodations in accordance with the resident and business relocation provisions of this Plan. KCDC will attempt to stage acquisition, relocation and demolition activities in a manner determined most beneficial to the redevelopment project and as needed in accordance with redevelopment schedules. It is expected that only such maintenance as may be required for the health and safety of persons lawfully remaining in occupancy of any property will be undertaken.

AUTHORITY TO IMPLEMENT PLAN

Tenn. Code Ann. § 13-20-202(a)(4)(G) authorizes KCDC to take all necessary actions designed to further the goals and local objectives articulated in this Redevelopment Plan. Pursuant to this authority, and without limiting any other actions that KCDC may undertake pursuant to such authority, KCDC is authorized to assist the City, the University and other parties undertaking projects within the Redevelopment Area as KCDC deems appropriate, including providing consulting and development services such as serving a project manager or owner's representative in connection with any such project.

TAX INCREMENT FINANCING

KCDC and the City anticipate using tax increment financing to support the development of public improvements and other redevelopment projects within the Redevelopment Area and to encourage projects that will redevelop vacant or underutilized parcels, preserve historic structures or otherwise meet the City's redevelopment goals and priorities in the Redevelopment Area. Therefore, this Plan contains the following provisions to permit the use of tax increment financing in the Redevelopment Area. To the extent tax increment financing assists a particular private project, both property owners and developers of such projects within the Redevelopment Area will be expected to demonstrate the financial ability to

undertake and complete any private redevelopment project. Public assistance through tax increment financing for private redevelopment projects will only be provided based on consistency with the Redevelopment Plan, resource availability, and the extent to which the assistance will stimulate private redevelopment. No private party shall have a vested right to receive any public assistance through tax increment financing.

After the date this Redevelopment Plan is approved by the City and the County and subject to the limitations herein, property taxes levied upon real property located in the Redevelopment Area shall be divided and allocated in accordance with applicable laws as set forth in this section.

1) Distribution of Taxes. In accordance with and subject to Tenn. Code Ann. § 13-20-205 and Tenn. Code Ann. § 9-23-101 et seq. (collectively, the "Tax Increment Act"), real property taxes (but not including personal property taxes, which shall not be subject to allocation to KCDC) imposed on real property located within the Redevelopment Area shall be allocated and distributed as provided in this subsection. The property taxes assessed by the City and the County on each tax parcel of real property within the Redevelopment Area will be divided and distributed as follows (subject to the commencement of allocation as to each parcel as permitted below):

    a. The portion of the real property taxes, if any, that were payable with respect to each tax parcel for the year prior to the date of approval of this Redevelopment Plan (the "Base Tax Amount") shall be allocated to and, as collected, paid to the City and the County as all other taxes levied by the jurisdictions on all other properties; provided, however, that in any year in which the taxes on the property within the applicable portion of the Redevelopment Area are less than the Base Tax Amount, there shall be allocated and paid to the City and the County only the taxes actually imposed. The Base Tax Amounts for each tax parcel within the Redevelopment Area are shown on Exhibit B attached hereto.

    b. The portion of real property taxes payable with respect to each tax parcel that constitutes Dedicated Taxes (as defined below) and is not included in the Base Tax Amount shall be retained by the City and the County. "Dedicated Taxes" are defined in Tenn. Code Ann. § 9-23-102 of the Tax Increment Act, as "that portion of property taxes, if any, designated by a taxing agency to pay debt service on the taxing agency's debt." "Taxing agency" is defined in the Tax Increment Act as "any county, city, town, metropolitan government or other public entity that levies property taxes on property within a plan area and that has approved the plan," which would include both the City and the County. To the extent that the amount of Dedicated Taxes is not determined by resolution of the governing body of either the City or the County, the amount of Dedicated Taxes may be determined by a certificate of the chief financial officer of the City or County or in such reasonable manner as either the City or the County shall select.

    c. As to each parcel, and subject to any limitations in applicable law, the excess of real property taxes over the Base Tax Amount, less the Dedicated Taxes (such remainder being the "Tax Increment Revenues"), shall be, as collected,

paid into a separate fund or funds of KCDC, created to hold such payments, for the purpose of paying principal of and interest on bonds, loans or other indebtedness incurred or to be incurred by KCDC to finance or refinance, in whole or in part, one or more redevelopment projects contemplated by this Redevelopment Plan or as otherwise provided in applicable law or reserved for purposes permitted by applicable law, provided (i) a portion of the Tax Increment Revenues may be allocated for administrative purposes of KCDC, the City and the County as provided by applicable law and by the policies of the respective governmental entities, and (ii) Tax Increment Revenues beyond amounts necessary to pay debt service on tax increment financing, to fund reserves therefor or in anticipation of the issuance of tax increment financing or to pay administrative expenses shall revert to the City and County as provided by applicable law..

2) General Allocation Provisions. KCDC is authorized to make all calculations related to the allocation of Tax Increment Revenues on the basis of each parcel within the Redevelopment Area instead of on an aggregate basis. As permitted by the Tax Increment Act, KCDC is also authorized to separately group one (1) or more parcels within the Redevelopment Area for purposes of calculating and allocating the Tax Increment Revenues, and in such cases, the allocation of Tax Increment Revenues shall be calculated and made based upon each such parcel or group of parcels, and not the entire Redevelopment Area. KCDC shall give notice of any such grouping of parcels to the City and the County.

The allocations of Tax Increment Revenues are further subject to the retention or payment of any applicable administrative expenses and fees of KCDC, the City or the County that are permitted by applicable law or applicable policies. Pursuant to applicable law and this Redevelopment Plan, up to five percent (5%) of Tax Increment Revenues may be set aside for administrative purposes.

The Base Tax Amount will be separately established for each parcel, and KCDC will make calculations and allocations of Tax Increment Revenues for each parcel separately (or with respect to groups of parcels as provided above). The parcels within the Redevelopment Area may be subdivided after this Plan is approved, in which case such parcels, as subdivided, will be treated separately, and the Base Tax Amount with respect to each tax parcel that is subdivided shall be allocated to each subdivided parcel on a pro-rated basis using either the acreage of each subdivided parcel as a percentage of the total acreage of the original tax parcel or using the relative values of the subdivided parcels in such manner as KCDC may determine.

KCDC is also authorized to designate, by notice to the City and the County, that the allocation of Tax Increment Revenues for each parcel or group of parcels within the Redevelopment Area may begin in different years from the allocations of Tax Increment Revenues for other parcels or groups of parcels within the Redevelopment Area. This approach allows KCDC to match Tax Increment Revenues from the development of each of the parcels with the purposes for which such revenues will be applied as determined by KCDC.

Allocations of Tax Increment Revenues shall be made (i) as to revenues derived from non-delinquent taxes, within sixty (60) days of the date such taxes are due without penalty for each tax year and (ii) as to revenues derived from delinquent taxes, within sixty (60) days from when such taxes are collected by the City and the County.

3) Tax Increment Debt Obligations. In order to finance the costs of redevelopment projects in the Redevelopment Area, KCDC expects to use all or a portion of the Tax Increment Revenues that it will receive as a result of the adoption of this Plan (other than amounts to be paid to the City and/or the County as provided above or to pay administrative expenses or establish reserves) to pay debt service on debt obligations that may be incurred to finance such costs. These tax increment financings would be structured as follows:

    a. KCDC may borrow funds through the issuance and sale of notes, bonds or other obligations of KCDC in one or more emissions. KCDC shall pledge all or a portion of the Tax Increment Revenues allocated to KCDC pursuant to this Plan to the payment of such notes, bonds or other obligations, including, without limitation, principal and interest thereon. In no event will the obligations issued by KCDC be considered a debt or obligation of the County or the City in any manner whatsoever, and the source of the funds to satisfy KCDC's payment obligations thereunder shall be payable from the Tax Increment Revenues and such other payment sources, such as developer guaranties, that may be provided therefor.

    b. The proceeds of the notes, bonds or obligations shall be used to pay costs of redevelopment projects, costs of issuances relating to notes, bonds or obligations and capitalized interest on the notes, bonds or other obligations to the extent permitted by the Act.

    c. Any tax increment financing may be refinanced by KCDC at any time as permitted by the Act, and upon such refinancing, available Tax Increment Revenues shall be applied to the payment of such refinancing debt to the extent such Tax Increment Revenues were to be used to pay the debt that is being refinanced.

4) Limitations on Allocations.

    a. Maximum Amount and Final Maturity. The aggregate principal amount of notes, bonds and obligations issued by the KCDC as described in subsection (3) (the "Tax Increment Financing") above shall not in any event exceed $80,000,000 (the "Maximum Amount"). The final maturity of any Tax Increment Financing shall be no later than thirty (30) years after the year in which the last allocation of Tax Increment Revenues as to the parcel(s) from which such Tax Increment Financing will be paid commences.

    b. Maximum Time Period. Taxes on the real property within the Redevelopment Area will be divided and distributed as provided in this Section of the Plan for a period, as to each parcel in the Redevelopment Area, not in excess of thirty (30) tax years as to any parcel, but, in any event, such allocations shall cease

when there are no outstanding or anticipated tax increment financings to be paid from the Tax Increment Revenues. KCDC may approve an allocation period that is less than thirty (30) years as to any parcel if KCDC determines that a shorter allocation period will provide sufficient incentive to promote the development of that parcel.

5) Additional Information Related to Tax Increment Financing. State law requires that certain additional information be set forth in a redevelopment plan with respect to any plan that includes tax increment financing provisions. In particular, this plan is required to include the estimated cost of the redevelopment project. "Redevelopment project" is defined in Tenn. Code Ann. § 13-20-202 to include many different types of improvements that can be undertaken in the area subject to this plan for redevelopment. Given the tremendous opportunities for redevelopment in this area, the estimated cost of the redevelopment project is in excess of $250 million, which does not include the actual cost of the buildings that are expected to be developed in the Redevelopment Area. The sources of revenue to pay such costs will include equity from investors (as to private projects), loans, grants and, in certain cases, the proceeds of Tax Increment Financing. The estimated tax increment that will be applied to pay the principal of Tax Increment Financing for these purposes is the Maximum Amount of $80,000,000 referenced above plus interest related thereto, which is estimated based upon current interest rates to be approximately $75,000,000. The expected impact of the use of Tax Increment Financing in the Redevelopment Area will vary based upon the times that the various emissions of Tax Increment Financing are issued but, generally, such impact is expected not to exceed approximately $3,000,000 per year with respect to either the City or the County, but this amount will vary based upon interest rates and other financial market conditions.

Notwithstanding anything to the contrary in this section, taxes levied by or for the benefit of the State of Tennessee, shall not be subject to allocation as provided in subsection (a), but shall be levied against such property and, when collected, paid to such taxing agency as taxes levied by such taxing agency on all other property are paid and collected.

PROCEDURE FOR PLAN AMENDMENTS AND TERMINATION

During implementation of this Plan, amendments may be warranted. Any amendments to this plan will only be adopted by City Council after a public hearing is conducted in the same manner as the hearing conducted prior to the adoption of this Plan and, where applicable, in compliance with the requirements of applicable law. Notice of any proposed amendments will be given to all property owners within the Redevelopment Area pursuant to the requirements of state law. If the County's approval of any amendment is required by state law, such approval will also be requested.

This Redevelopment Plan shall remain in effect until terminated by resolution of the City Council of the City. No such termination shall affect any tax increment indebtedness issued pursuant to this Plan, and the pledge of any tax increment revenues to secure tax increment indebtedness shall remain in full force and effect notwithstanding.

SEVERABILITY

The invalidation of any provision of this Redevelopment Plan by judgment of any court of competent jurisdiction shall not in any way affect the validity of any other provisions of this Plan, and the same shall remain in full force and effect.

TERMINATION OF ANY EXISTING PLANS

Upon approval of this Plan, this Plan shall supersede any existing redevelopment plans or urban renewal plans that cover all or a portion of the Redevelopment Area, provided, however, that any agreement entered into pursuant to any such existing plan shall remain in full force and effect until terminated pursuant to its terms.

RESOLUTION

A RESOLUTION OF THE COMMISSION OF KNOX COUNTY, TENNESSEE APPROVING THE NORTH WATERFRONT REDEVELOPMENT PLAN PREPARED BY KNOXVILLE'S COMMUNITY DEVELOPMENT CORPORATION

RESOLUTION: **R-_____-_____-_____**

WHEREAS, the County Commission (the "Governing Body") of Knox County, Tennessee (the "County"), has met pursuant to proper notice; and

WHEREAS, Knoxville's Community Development Corporation ("KCDC"), as the housing and redevelopment authority for the City of Knoxville, Tennessee, has prepared the North Waterfront Redevelopment Plan (the "Redevelopment Plan") to facilitate the redevelopment of the corridor along Neyland Drive between Kingston Pike and the Henley Street Bridge and adjacent to Second Creek to Cumberland Avenue (the "Redevelopment Area"); and

WHEREAS, the City Council of the Cit of Knoxville has approved the Redevelopment Plan; and

WHEREAS, the form of the Redevelopment Plan has been presented to the Governing Body with this Resolution; and

WHEREAS, the Redevelopment Plan authorizes tax increment financing to finance improvements within the Redevelopment Area; and

WHEREAS, KCDC conducted a public hearing with respect to the Redevelopment Plan on July 29, 2026, and KCDC did not receive any comments in opposition to the Redevelopment Plan; and

WHEREAS, the County has determined that approval of the Redevelopment Plan is in the best interest of the residents of the County

NOW, THEREFORE, BE IT RESOLVED by the Board of County Commissioners of Knox County, Tennessee, as follows:

Section 1. The Governing Body hereby approves the North Waterfront Redevelopment Plan.

Section 2. The officers of the County are hereby authorized and directed to take such actions as are appropriate and necessary to comply with the terms of the Redevelopment Plan.

Section 3. The County Clerk is hereby directed to file a copy of the Redevelopment Plan with the minutes of this meeting.

Section 4. If any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

Section 5. This Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

WHEREAS, Strong Stock Farm, LLC is the owner of a parcel of unimproved real property being approximately 167.12 acres located at 8217 Rutledge Pike, as more particularly described in the attached Ground Lease (the "Property"); and

WHEREAS, Knox County desires to lease from Strong Stock Farm, LLC an approximately 120-acre portion of the Property to be used solely for agricultural purposes, including the construction of facilities for agricultural activities and offices, including demonstrations and county fairs, and for no other purpose; and

WHEREAS, the proposed Ground Lease sets forth the terms and conditions for the lease of the Property by Knox County; and

WHEREAS, the Ground Lease is effective for a term of twenty (20) years with the option to extend the term for up to three (3) additional periods of ten (10) years each; and

WHEREAS, the Ground Lease provides for an annual rent of $150,000.00 for the first year of the lease and will increase annually thereafter based on changes in the United States Bureau of Labor Statistics CPI-U All Urban Consumers-Southern Region.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The Ground Lease with Strong Stock Farm, LLC for lease of approximately 120 acres on a portion of property located at 8217 Rutledge Pike is hereby adopted and approved in substantive form, a copy of which is attached to this Resolution and incorporated herein by reference.

BE IT FURTHER RESOLVED, the Ground Lease with Strong Stock Farm, LLC shall be executed subject to such amendment or action not affecting the substantive provisions of the agreement as may be required and approved by the Knox County Law Director.

BE IT FURTHER RESOLVED, that if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, that this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

GROUND LEASE

THIS GROUND LEASE (the "Lease") is made to be effective as of the _____ day of_____, 2026, by and between **Strong Stock Farm, LLC**, a Tennessee limited liability company (herein called the "Lessor") and **County of Knox, Tennessee,** a governmental entity (herein called the "Lessee").

W I T N E S S E T H:

WHEREAS, Lessor owns a parcel of unimproved real property located at 8217 Rutledge Pike, Knoxville, Tennessee 37924, in Knox County, Tennessee, being approximately 167.12 acres as described on Exhibit A-1 attached hereto (the "Land"); and

WHEREAS, upon the terms and conditions herein set forth, Lessor desires to lease to Lessee, and Lessee desires to lease from Lessor, an approximately 120-acre portion of the Land.

NOW, THEREFORE, for and in consideration of the covenants and agreements hereinafter set forth and for Ten Dollars ($10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Lessor and Lessee hereby mutually covenant and agree as follows:

ARTICLE I
DEMISE, TERM

Section 1.01 Demise of Premises. Lessor does hereby lease and demise unto Lessee and Lessee does hereby lease from Lessor, the approximately 120-acre portion of the Land that is outlined on Exhibit A, and all buildings, structures, driveways, parking areas, and other improvements now or hereafter located thereon (herein collectively called the "Premises"), together with all easements, appurtenances and hereditaments thereunto belonging. Lessee shall obtain a draft survey of the Premises in accordance with Section 1.06(b), and, after the area of the Premises so shown on such survey is agreed to by Lessor and Lessee, the depicted land area of the Premises shall be attached as a supplement to Exhibit A and such survey shall become the "Survey."

Section 1.02 Effective Date; Term of Lease. This Lease is effective and enforceable as of the date first written above (the "Effective Date"). The term of this Lease (herein called the "Term") shall commence on the date determined under Section 1.04 (the "Term Commencement

Date") and, unless sooner terminated or extended as hereinafter provided, shall continue thereafter for twenty (20) years.

Section 1.03. Options to Extend Term. Provided that the Lessee is not in material default under this Lease, beyond any applicable cure period, on the date of the expiration of the Term, Lessee shall have the right and option to extend the Term for up to three (3) additional periods of ten (10) years each. To exercise each such option, Lessee shall furnish to Lessor written notice of its intention to extend the Term not less than ninety (90) calendar days prior to the expiration date of the Term then in effect. Each such notice shall contain a certification by Lessee that it is not in material default under this Lease.

Section 1.04. Term Commencement Date. The Term shall commence upon (a) Lessor's Delivery of the Premises to Lessee, and (b) satisfaction or Lessee's waiver of the conditions described below in Section 1.06 (the "Lessee Conditions") on or before June 1, 2027. Absent a written notice from Lessee to Lessor that any of the Lessee Conditions are not satisfied delivered to Lessor by June 2, 2027, the Lessee Conditions shall be deemed satisfied. In addition, in the event any of the Lessee Conditions is not satisfied by June 1, 2027, (i) Lessee can waive the same by a writing delivered to Lessor on or before June 2, 2027, (ii) Lessor and Lessee can extend the June 1, 2027 date by a writing signed by both of them, or (iii) either Lessor or Lessee can terminate this Lease by a written termination delivered to the other on or before June 2, 2027. As used herein, "Lease Year" means a 12-month period during the Term; the first Lease Year begins on the Term Commencement Date, and each subsequent Lease Year begins on the annual anniversary of the Term Commencement Date. Lessor and Lessee agree to sign a writing setting forth the date of the Term Commencement Date once established.

Section 1.05. Delivery of Premises. "Delivery" of the Premises to Lessee shall be accomplished when Lessor tenders possession of the Premises to Lessee (a) free and clear of all mortgage liens, prior leases, tenants and/or occupants, and (b) free of any party, including any prior tenant, having possession or any rights of possession as to any part of the Premises. Lessor shall establish the Delivery date by written notice to Lessee that Lessor is so tendering possession. After Delivery, but prior to the Term Commencement Date, Lessor shall be entitled to continue to farm the Premises subject to Lessee's rights under Section 1.06 to inspect the Premises.

Section 1.06. Conditions prior to Term Commencement Date of the Lease. The following conditions must be satisfied or waived by Lessee prior to June 1, 2027:

(a) Lessee's receipt of written approval from the Knox County Commission, if needed, for the Lease; and

(b) Lessee's receipt and approval of a current survey (the "Survey" as described above) and title commitment of the Premises (which survey and commitment shall be obtained by Lessee at its cost) and of all encumbrances burdening the Premises, including covenants, conditions, restrictions, and easements, and all other title and Survey matters pertaining to the Premises; and

(c) Lessee's inspection of the Premises and its receipt and approval of an environmental report (which shall be obtained by Lessee at its cost) pertaining to the Land and Premises confirming that the Land and Premises are free of Hazardous Substances (defined in Article V).

ARTICLE II
COVENANTS AND WARRANTIES OF LESSOR

Section 2.01 Quiet Possession. Lessor covenants that Lessee, upon performing and observing the covenants to be observed and performed by Lessee under this Lease, shall peaceably hold, occupy, and enjoy the Premises during the Term Lease without interference by Lessor or by any other person whomsoever claiming by, through, or under the Lessor.

Section 2.02 Use. To Lessor's knowledge without having made an independent investigation, there are no violations of any rule, regulation, code, resolution, ordinance, statute, or law of any government, governmental agency, or Insurance Board of Underwriters, involving the use or condition of the Premises, or any part thereof, and there is no outstanding notice or order of any governmental authority having jurisdiction over the Premises not fully and duly complied with, affecting the use of the Premises.

Section 2.03. No Mechanic's Liens. No labor has been performed or material furnished for the Premises for which the Lessor has not heretofore fully paid, or for which a mechanic's or materialman's lien or liens, or any other lien, can be claimed by any person, party, or entity.

Section 2.04. No Condemnation Proceedings. To Lessor's knowledge without having made an independent investigation, there are no condemnation or eminent domain proceedings pending or threatened against the Premises or any part thereof and the Lessor has received no notice, oral, written, or constructive, of the desire of any public authority or other entity to take or use the Premises or any part thereof.

Section 2.05. No Existing Financing. The Premises are subject to no mortgages, deeds of trust, or deeds to secure debt of any type whatsoever.

Section 2.06. Lessor's Work. No work shall be performed by Lessor, and Lessee will be leasing the Premises AS IS, WHERE IS with no warranties or representations of any type or kind from Lessor. Lessee will rely solely on its own investigation of the Premises.

ARTICLE III
ANNUAL RENT

Section 3.01. Base Rent. Lessee covenants and agrees to pay Lessor, during the Term as it may be extended, as rent hereunder, rental (herein the "Base Rent") in the following amounts with the commencement of the obligation to pay Base Rent being established hereinbelow:

(a) For the initial 12-month period commencing on the Term Commencement Date, Lessee shall pay Base Rent in the amount of $150,000.00. Such initial payment shall be made on the Term Commencement Date.

(b) Thereafter, Base Rent will increase annually based on the annual changes in the United States Bureau of Labor Statistics CPI-U All Urban Consumers-Southern Region ("CPI-U"), as published by such Bureau or any successor agency, as determined by looking at the CPI-U as of the day 120 days before the next Lease Year. Base Rent will not decrease due to any negative CPI-U changes. If Lessee exercises one or more of the options herein stated to extend the Term, Base Rent shall continue to increase annually as described above for the duration of the extended Term.

If the CPI-U is not in existence at the time any increase is to be computed, Lessor shall be entitled to select and utilize any reasonably similar index published by such agency or any other governmental or non-governmental agency or entity, consistent with the intent to adjust the Base Rent annually in accordance with changes, if any, in the cost of living that have occurred during the applicable time period.

After the payment of Base Rent on the Term Commencement Date, Base Rent shall be paid in annual installments in advance on each annual anniversary of the Term Commencement Date.

After the payment of Base Rent on the Term Commencement Date, the Lessor shall establish the Base Rent for the next Lease Year, and each subsequent Lease Year, in accordance with the CPI-U formula set forth above and send Lessee a written Base Rent summary for the next Lease Year.

Section 3.02. Additional Rent. In addition to the Base Rent, Lessee shall pay all other obligations of Lessee stated in this Lease when they are due, including but not limited to real property tax reimbursements to Lessor (if applicable), insurance, and maintenance costs applicable to the Premises. All payment obligations of Lessee under this Lease other than Base Rent are hereby deemed rent and are sometimes referred to herein as "Additional Rent." Base Rent and Additional Rent are sometimes referred to herein as "Rent." Lessor and Lessee acknowledge that, it is their intent and agreement that this Lease be a "TRIPLE NET" Lease and that as such, the provisions contained in this Lease are intended to pass on to Lessee or reimburse Lessor for the costs and expenses reasonably associated with this Lease and Lessee's use of the Premises.

Section 3.03. Rent Payment. Lessee shall pay all Base Rent and all other Rent and obligations to Lessor without demand or offset, at Lessor's address as stated herein or at such other address as Lessor may hereafter stipulate to Lessee.

Section 3.04. Holdover Rent.

(a) If Lessee retains possession of the Premises or any part thereof after the expiration date or earlier termination date without the written consent of Lessor, Lessee's occupancy shall be under all of the terms and conditions of this Lease, except that (i) the tenancy shall be at will, terminable by either party on ten (10) days' written notice; and (ii) the Base Rent per month shall be 150% of the Base Rent specified herein for the month preceding the termination.

(b) No payments of money by Lessee to Lessor after the termination of this Lease shall reinstate, continue, or extend the Term and no extension of this Lease after the termination thereof shall be valid unless and until the same shall be reduced to writing and signed by both Lessor and Lessee.

ARTICLE IV
TAXES; ASSESSMENTS; CHARGES

Section 4.01 Taxes, Assessments and Other Charges. The Premises constitutes only a portion of the Land (the tax parcel number of the Land is Tax ID 051 12503), namely 120 acres; the Land comprises approximately 167.12 acres. Lessee shall be responsible to reimburse Lessor for the portion of real property taxes and assessments allocable to the Premises, which allocable share shall be the fraction of such taxes and assessments whose numerator is the number of acres of the Premises and whose denominator is the number of acres of the Land; such fraction is currently 120 divided by 167.12. Alternatively, since Lessee is exempt from paying real property taxes, Lessee shall take such steps are needed to cause there to be no real property taxes owed on the Premises or on the Improvements. Unless exempt, Lessee or its permitted assignee or subtenant shall be responsible to pay real property and personal property taxes assessed to Improvements (defined below) on the Premises. Unless exempt, Lessee or its permitted assignee or subtenant shall reimburse to Lessor Lessee's allocable share of such property taxes and assessments for each year during the Term; unless exempt, Lessee or its permitted assignee or subtenant shall pay any reimbursement to Lessor within 30 calendar days after Lessor's delivery to Lessee of a copy of the property tax bill for the then-current year. For clarification, if Lessee subleases all or a portion of the Premises and its subtenant is not exempt from paying property taxes, said subtenant shall pay all (or a portion) of said property taxes in accordance with the above provisions. Commencing on the Term Commencement Date, the Lessee shall be responsible for paying all utility and other costs of servicing of the Premises, the improvements now or hereafter on the Premises, the costs of maintenance, and the costs of all-risk and extended coverage insurance and public liability insurance procured by Lessor under Section 7.01 for the Premises. Unless Lessee is exempt from paying said taxes, real property taxes for partial years at the beginning and end of the Term shall be prorated. For example, if the Term Commencement Date were July 1, 2027, Lessee's liability for 2027 taxes would be one-half (six months out of twelve) for solely the 120 acre Premises.

Section 4.02 Taxes. Anything herein to the contrary notwithstanding, Lessee shall not be required to pay any franchise, excise, or income tax of Lessor, or estate, inheritance, or death taxes

with respect to Lessor's estate. If, at any time during the Term hereof, under the laws of the United States or the State of Tennessee or any political subdivision thereof in which the Premises are situated, a tax on rent or other charge by whatever name called, is levied, assessed, or imposed against Lessor by reason of the rent payable hereunder to Lessor as a substitute in whole or in part for the tax on real estate, Lessee shall pay such tax or other charge as soon as the same becomes due and payable as additional rent hereunder unless such tax is not owed because Lessee is exempt from paying such taxes.

ARTICLE V
USE OF THE PREMISES

Lessee shall use and occupy the Premises, subject to all rules, regulations, laws, ordinances, statutes, and requirements of all governmental authorities, and any other bodies having jurisdiction over the Premises, solely for agricultural purposes, including the construction of facilities for agricultural activities and offices, including demonstrations and county fairs, and for no other purpose. Such use is herein referred to as the "Exclusive Use." Without limiting the generality of the foregoing, Lessee shall not use the Premises for any activity or purpose listed on Exhibit D. The Premises may be used subject to the restrictions in this Article V and elsewhere in this Lease and to all valid restrictions in the public record. Lessee may use the Premises for the Exclusive Use on a seven (7) days per week, twenty-four (24) hours per day basis. Lessor acknowledges that Lessee intends to seek financial support from the State of Tennessee to pay for the cost of facilities to be used for the Exclusive Use and without such financial support, the undertaking of the development of the Premises by Lessee may not be feasible. Therefore, if Lessee reasonably determines that Lessee will not receive adequate funding from the State of Tennessee to assist with the development of the Premises for Exclusive Use, Lessee may terminate this Lease upon at least ninety (90) days' notice to Lessor, provided, however, that (i) Lessee may not give notice of such termination after June 30, 2029, and (ii) Lessee may not terminate this Lease pursuant to this paragraph after Lessee commences the construction of any improvements to the Premises (unless Lessor otherwise consents).

Lessee, at its sole cost and expense, shall comply with, and cause the Premises to comply with, all applicable federal, state, county, and municipal laws, rules, orders, regulations, and ordinances (including, without limitation, all environmental laws and regulations) affecting the Premises (all of which are referred to as "Regulations"), including but not limited to, all laws, rules, and regulations regarding the use of Hazardous Substances in connection with its occupancy and use of the Premises. If there is any violation of the Regulations or the introduction by Lessee or any assignee or sublessee of Lessee of any Hazardous Substances at, upon, under, or within the Premises, Lessee shall, at its cost, take all actions needed to correct the violation and/or remove the Hazardous Substances from the Land. For the purpose of this paragraph, the term "Hazardous Substances" includes, without limitation, those oil or petroleum or chemical liquids, solids, or gaseous products, or any wastes or substances, included within the definitions of "hazardous substances," "hazardous materials," "toxic substances," or "solid waste" under any Environmental Law. The term "Environmental Law" includes any Federal, State, or local law, statute, ordinance, or regulation pertaining to health, industrial hygiene, or environmental conditions on, under, or about

the Land, including, without limitation, The Comprehensive Environmental Response, Compensation and Liability Act, 42 USC Section 9601, et seq., the Resource Conservation and Recovery Act, 42 USC Section 6901, et seq., and Hazardous Material Transportation Act, 49 USC Section 1801, et seq., as amended.

ARTICLE VI
CONSTRUCTION OF NEW IMPROVEMENTS; CONTINGENCIES

Section 6.01 Construction of New Improvements. During the Term, Lessee shall be entitled from time to time to build improvements, including fixtures and equipment ("Improvements"), on the Premises, and from time to time to alter or demolish Improvements hereafter on the Premises, in any lawful manner as Lessee may reasonably determine. All infrastructure for such Improvements shall also cover and be infrastructure for all of the Land, including the Remaining Parcel (defined below). Such infrastructure shall include highway access points approved by Lessor, utilities, and a frontage road in the general areas to be agreed to by Lessor and Lessee and depicted on the Survey. If needed, Lessee shall (with cooperation from Lessor) rezone the Premises to allow the Exclusive Use. At the termination of the Lease, if requested by Lessor, Lessee will remove any or all Improvements made to the Premises and return the Premises to Lessor in substantially the same condition that existed when the Lease was executed. Nothing herein shall require Lessee to construct any buildings on the Premises or to conduct any business on the Premises if a building is constructed. Lessor hereby reserves perpetual easements for the benefit of the Remaining Parcel for access, ingress, egress, and utilities over the frontage road and the other areas to be depicted on the Survey as "Lessor Easements" or "Lessor Easement."

The parties estimate that the portion of the Land other than the Premises is approximately 47.12 acres (herein the "Remaining Parcel"). The Remaining Parcel may be rezoned by Lessor to be the same zoning classification as is required (or would be required) for the Exclusive Use or to a compatible zoning classification. Lessee agrees to cooperate with Lessor's efforts for any such rezoning of the Remaining Parcel.

In connection with Lessee conducting development work on the Land, Lessor shall have the right (at its option) and be entitled, at no cost to Lessor, to any and all excess dirt to be excavated by Lessee as a part of the development. Lessor shall have the right to direct Lessee's contractors on where on the Remaining Parcel to deposit the excess dirt.

Section 6.02 Conditions for Construction and Demolition.

(a) No construction, alteration, or demolition of Improvements ("Construction") shall be undertaken until Lessee shall have procured and paid for all municipal and other governmental permits and authorizations of the various municipal departments and governmental subdivisions having jurisdiction, relating to the particular phase of the demolition or construction to

be undertaken. Lessor, so long as the same shall be without costs or expense to Lessor, agrees to join in the application for such permits or authorization whenever such action is necessary.

(b) No Construction shall be undertaken until Lessee shall have procured the consent from Lessor of the plans for the Construction, which consent Lessor shall not unreasonably withhold or delay.

(c) At all times when any Construction is in progress, Lessee shall, at Lessee's sole cost and expense, maintain or cause to be maintained any required builder's risk insurance for the Improvements, worker's compensation insurance covering all persons employed in connection with the Construction and with respect to whom death or bodily injury claims could be asserted against Lessor, Lessee, or the Premises and/or the Improvements, and general liability insurance for the mutual benefit of Lessee and Lessor expressly covering the additional hazards due to the Construction, with limits of not less than the amounts provided in Section 7.01. Lessor shall be named as an additional insured, and Lessee shall provide certificates evidencing such insurance prior to the commencement of any Construction.

Section 6.03 All Construction shall be performed in a good and workmanlike manner. All business fixtures, equipment, furnishings, and other similar removable items placed by the Lessee or its sublessee under a total sublease (defined in Article IX) upon the Premises shall remain the property of the Lessee and such sublessee and the Lessee or such sublessee shall have the right to remove the same at any time.

Section 6.04 Lessee shall pay for the costs of Construction of any Improvements as work progresses. Notwithstanding anything to the contrary in this Lease, neither Lessee nor any person dealing with or under Lessee shall charge the rents of the Premises, or the property of which the Premises form a part, or the interest of Lessor in the estate of the Premises, with a mechanic's lien, materialman's lien, other construction lien, or any other lien or encumbrance of any kind and under no circumstances shall Lessee be construed to be the agent, employee, or representative of Lessor in the making of any alterations or improvements to the Premises. If any such lien is filed against the interest of Lessor in the estate of the Premises or against Lessor's interest in the Land, Lessee shall promptly, at its sole cost, remove said lien and cause it to be released.

ARTICLE VII
INSURANCE

Section 7.01 Fire and Extended Coverage and Public Liability Insurance. Lessee shall carry, or cause to be carried, all-risk and extended coverage insurance covering the Improvements now or hereafter on the Premises to the extent of not less than the full insurable value, less foundations, with good and solvent companies that are authorized to do business in the State of Tennessee and approved by Lessor in Lessor's reasonable judgement. Lessee shall cause the all-risk and extended coverage insurance to be written on a replacement cost basis without co-insurance requirements.

Subject to the provisions of the Tennessee Governmental Tort Liability Act, Lessee agrees to self-insure as to public liability and property damage with respect to all operations, including construction and demolition, conducted by Lessee, its invitees, agents, contractors, subtenants, successors and assigns on the Premises, such self-insurance to cover liability for death or bodily injury in any accident, mishap, or casualty and shall also cover liability for property damage in any accident, mishap, or casualty. In addition, Lessor shall have the right, but not the obligation, to obtain, at Lessee's cost for reimbursement under Section 3.02, public liability and property damage insurance with respect to Lessee's operations conducted on the Premises, such insurance to cover liability for death or bodily injury and for property damage in such amounts as Lessor shall hereafter designate as being similar to coverage limits of commercial undertakings similar to the use of the Premises by Lessee.

To the extent Lessee self-insures as set forth in the immediately preceding paragraph, Lessee agrees, at its cost, to provide Lessor with defense in any claim asserted against Lessor with respect to all operations, including construction and demolition, conducted on the Premises by Lessee, its invitees, agents, contractors, subtenants, successors and assigns, unless the claim asserted against Lessor alleges actions directly taken by Lessor which created the claim.

Lessee shall also cause its assignee or any subtenant to procure and keep in effect, public liability and property damage insurance with respect to all operations, including construction and demolition, conducted on the Premises, such liability insurance to name Lessor as an "additional insured" and cover liability for death or bodily injury in any one accident, mishap, or casualty in a sum of not less than $2,000,000.00 and shall cover liability for property damage in one accident, mishap, or casualty in the amount of $1,000,000.00, or such other amounts as Lessor shall hereafter designate as being similar to coverage limits of commercial undertakings similar to the use of the Premises by any assignee or subtenant of Lessee. With respect to the insurance coverage detailed in this paragraph, any such assignee or subtenant of Lessee shall provide Lessor with written evidence of such coverage on an annual basis.

Section 7.02 Requirements. All of the aforesaid insurance, except in instances where Lessee self-insures, shall be written in the name of Lessee with Lessor shown as an additional insured and loss payee. Lessee shall provide Lessor with certificates evidencing such insurance upon Lessor's request. Lessee shall be solely responsible for the payment of the premiums and deductibles, and Lessor (or its designee) shall not be required to pay any premium or deductible for such insurance.

ARTICLE VIII
OWNERSHIP OF CERTAIN PROPERTY

Ownership of and title to all machinery, equipment, and trade fixtures now or hereafter constructed, installed, or placed by Lessee upon the Premises and all alterations thereto hereafter installed or placed upon the Premises, shall be and remain with Lessee during the continuance of

this Lease, or extensions, but upon the termination hereof ownership and title to all machinery, equipment, and trade fixtures not removed by the Lessee or its sublessees before such termination shall vest in the Lessor. Lessee shall repair any damage done to the Premises by the removal of any machinery, equipment, or trade fixtures from the Premises. During the Term hereof, Lessee alone shall be entitled to claim depreciation for all taxation purposes on all machinery, equipment, and trade fixtures, and all alterations thereof hereafter installed or placed by Lessee upon the Premises.

ARTICLE IX
ASSIGNMENT AND SUBLETTING

Section 9.01 Restrictions on Transfer. Except as otherwise provided in this Article IX and in Article XI, Lessee shall not assign, sublease, mortgage, pledge, transfer, or otherwise encumber or dispose of this Lease, or any interest therein, or in any manner assign, sublease, mortgage, pledge, transfer, or otherwise encumber or dispose of its interest in the Premises, or any portion thereof, without obtaining Lessor's prior written consent in each and every instance; any transaction in violation of this Article IX shall, at Lessor's option, be null and void and of no force or effect. Notwithstanding the foregoing, Lessee is permitted to assign this Lease or grant a sublease of the entire Premises (herein a "total sublease, and the term "Transfer" herein refers to any such assignment or total sublease) to the University of Tennessee, Knoxville's Community Development Corporation ("KCDC"), or to an entity that is a governmental body associated with or formed by Lessee, without Lessor's consent; provided, however, that the conditions stated below in this Section 9.01 must be satisfied. No Transfer shall be made to any other party, except as provided in Article XI, without obtaining Lessor's prior written consent in each and every instance, which consent shall not be unreasonably withheld, conditioned or delayed. Lessee's request for consent to a Transfer must be in writing and be accompanied by a detailed description of the parties, terms, and other circumstances involved in the proposed Transfer and financial statements of the proposed assignee or sublessee for the immediately preceding three years and for all quarterly periods occurring thereafter before the consent request, in form and substance satisfactory to Lessor. Lessor will notify Lessee of Lessor's election to consent or withhold consent within thirty (30) days of Lessor's receipt of such a written request for consent to the Transfer from Lessee, together with the above-required accompanying information. Lessee will provide Lessor with any additional information Lessor reasonably requests regarding the proposed Transfer or the proposed assignee or sublessee. All Transfers and all requests for Lessor's consent to any Transfer are subject to the following conditions:

(a) At the time of any Transfer, and at the time when Lessee requests Lessor's written consent to a Transfer, this Lease must be in full force and effect, without any Default hereunder continuing on the part of Lessee.

(b) Any such assignee shall assume, by written, recordable instrument, in form and content reasonably satisfactory to Lessor, the due performance of all of Lessee's obligations under this Lease, including any accrued obligations at the time of the effective date of the assignment, and such assumption agreement shall state that the same is made by the assignee for

the express benefit of Lessor as a third party beneficiary thereof. A copy of the assignment and assumption agreement, fully executed and acknowledged by the assignee, together with a certified copy of a properly executed company or corporate resolution (if the assignee be a company or a corporation) authorizing the execution and delivery of such assignment and assumption agreement, shall be sent to Lessor within a reasonable time following the effective date of such assignment.

(c) All Transfers shall be subject to all the provisions, terms, covenants and conditions of this Lease.

(d) In the case of an assignment, Lessee and any other assignor (and the guarantor or guarantors of this Lease, if any) and the assignee or assignees shall continue to be and remain jointly and severally liable under this Lease, as it may be amended from time to time.

(e) Lessee's failure to comply with all of the foregoing provisions and conditions of this Article IX shall, at Lessor's option, render any purported Transfer null and void and of no force and effect.

(f) For purposes of this Article IX and in addition to any other reasonable grounds for denial, Lessor's consent to any of the transactions described in this Section 9.01 will be deemed reasonably withheld if, in Lessor's good-faith judgment, any one or more of the following apply: (a) a proposed assignee does not have the financial strength or business ability to perform the Lessee's obligations under this Lease; (b) a proposed sublessee does not have the financial strength or business ability to perform its obligations under the proposed sublease; (c) the proposed assignee or sublessee does not have a good business reputation as reasonably determined by Lessor and as detailed and described in a notice from Lessor to Lessee; or (d) a Default exists under this Lease and remains uncured beyond any cure period at the time Lessee requests consent to the proposed transaction.

Section 9.02 Subleases; Survival. Each sublease shall contain provisions to the effect that such sublease is subject and subordinate to all of the terms, covenants and conditions of this Lease and to all of the rights of Lessor hereunder. In the event this Lease shall terminate before the expiration of a total sublease, the sublessee thereunder will, at Lessor's option, attorn to Lessor and waive any rights the sublessee may have (i) to terminate the sublease or (ii) to surrender possession thereunder, as a result of the termination of this Lease. In the event this Lease is terminated by Lessor prior to the expiration of the Term hereof, Lessor in its sole discretion, has the right, subject to the conditions hereinafter set forth, to elect that such termination shall not result in the termination of any bona fide total sublease entered into by Lessee in any arm's-length transaction and that any such total sublease shall survive the termination of this Lease and continue for the duration of its term and any extension thereof as a direct lease between Lessor and the sublessee thereunder with the same force and effect as if Lessor had originally entered into such total sublease as the sublessor thereunder, provided that such total sublease (a) does not provide for a term in excess of the Term (as may be extended), (b) does not impose any obligation on the Lessor that it would not have under this Lease, (c) provides for the payment of rents that, in the aggregate, are not less than the Base Rent and the Additional Rent and payments of Lessee under this Lease, (d)

imposes no obligation on Lessor for maintenance or otherwise, and (e) has been approved as to form and substance by Lessor in Lessor's sole and absolute discretion.

ARTICLE X
DEFAULT

Section 10.01 Events of Default. The occurrence of any of the following acts or events shall constitute events of default under this Lease (herein referred to as "Default"):

(a) Lessee fails to make any payment of Base Rent and such failure continues for a period of 30 calendar days after Lessor shall have given Lessee and the Leasehold Mortgagee, if any, written notice of such failure; or

(b) Lessee fails to fulfill or perform any of Lessee's covenants (other than the payment of Base Rent), agreements, or obligations under this Lease and such failure continues for a period of 30 calendar days after Lessor shall have given Lessee and the Leasehold Mortgagee, if any, written notice of and specifying the nature of such failure; provided, however, in the event the Default is of a non-monetary character that reasonably requires additional time in which to cure and Lessee has commenced and is prosecuting with diligence said cure, the cure period applicable to said notice shall be extended automatically for the period (not to exceed 90 days) reasonably required to cure the non-monetary Default, so long as there is no monetary Default.

(c) Lessee admits its insolvency or bankruptcy or its inability to pay its debts as they may mature, or makes an assignment for the benefit of creditors or applies for or consents to the appointment of a trustee or receiver for Lessee, or for the major part of its property.

(d) If a trustee or receiver is appointed for Lessee or for the major part of its property and is not discharged within 90 calendar days after such appointment.

(e) If bankruptcy, reorganization, arrangement, insolvency, or liquidation proceedings, or other proceedings for relief under any bankruptcy law or similar law for the relief of debtors, are instituted by or against Lessee, and if instituted against Lessee are allowed against Lessee or are consented to or are not dismissed, stayed, or otherwise nullified within 90 calendar days after such institution.

Section 10.02 Rights of Lessor Upon Default. Upon the occurrence of any Default hereunder, Lessor, subject to the rights of any Leasehold Mortgagee under Article XI hereof and the rights of a sublessee of a total sublease under Article IX hereof, shall have the right, at its option, to terminate this Lease as to the Lessee following the expiration of the applicable cure period described in Section 10.01 without further notice.

Whenever any Default shall have happened and be subsisting after the applicable cure period has expired, Lessor may, to the extent permitted by law, and subject to the rights of a Leasehold Mortgagee under Article XI hereof and to the rights of any sublessee of a total sublease under Article IX hereof, pursue any and all remedies stated in this Lease or available at law or in equity, including but not limited to damages and specific performance. No such remedy shall be exclusive, and each such remedy shall be cumulative.

Section 10.03 Default by Lessor. In the event Lessor defaults in the performance of any of its legal or contractual obligations under this Lease, and such default continues for a period of 60 calendar days after written notice to Lessor from Lessee specifying the nature of such default or such additional time as reasonably may be required to cure the same, Lessee may pursue any remedy available at law or in equity.

ARTICLE XI
MORTGAGING THE LEASEHOLD

Section 11.01 Right To Mortgage. Lessee shall have the right at any time during the Term to encumber all of its right, title, and interest under this Lease with a Leasehold Mortgage (as hereinafter defined), without Lessor's consent or approval; provided, however, that the Leasehold Mortgage can only secure debt incurred to finance or refinance construction, alteration and repair of improvements on the Premises. Lessor shall not be required to subordinate its interest in this Lease or the Premises to any Leasehold Mortgage. Lessee shall have no right to pledge or encumber any interest of Lessor, including Lessor's fee simple interest in the Land or any of Lessor's other rights or interests in the Premises.

Section 11.02 Rights of Leasehold Mortgagee. If, from time to time, Lessee shall encumber the Lessee's interest in this Lease with a Leasehold Mortgage, and if the Leasehold Mortgagee, as that term is hereinafter defined, registers with Lessor by delivering to Lessor a copy of such recorded Leasehold Mortgage, together with written notice specifying the name and address of the Leasehold Mortgagee, the following provisions shall apply:

(a) Definitions. The term "Leasehold Mortgage" as used in this Lease, shall include any encumbrance of this Lease and the interest of Lessee hereunder as security for any indebtedness Lessee may incur, whether by deed to secure debt, mortgage, deed of trust, collateral assignment, or other security instrument including, but not limited to, a "Construction Loan" and/or a "Permanent Loan." The term "Leasehold Mortgagee" shall mean and refer to the holder or holders of the indebtedness secured by any Leasehold Mortgage, any successors or assigns of such holders, and any party that purchases or assigns the Lessee's interest following a default under a Leasehold Mortgage, whether at foreclosure or otherwise.

(b) Consent to Amendment. Except for terminations that result from a Default and are governed by Article X hereof, there shall be no cancellation, surrender, or amendment of

this Lease by Lessor and/or Lessee without the prior written consent of any Leasehold Mortgagee holding a first-lien Leasehold Mortgage.

(c) Notices. Lessor, upon delivering to Lessee any notice required to be given to Lessee by Lessor under this Lease, shall simultaneously deliver a copy of such notice to any Leasehold Mortgagee holding a first-lien Leasehold Mortgage. Such Leasehold Mortgagee shall then have the same period as Lessee after service of the notice to remedy or cause to be remedied any Default complained of, and Lessor shall accept performance by or at the instigation of such Leasehold Mortgagee as if it had been done or performed by Lessee. Such Leasehold Mortgagee shall have the right to enter upon the Premises for the purpose of remedying any such Default. Any notice required to be given to any Leasehold Mortgagee shall be posted in the United States certified mail, postage prepaid, sent by facsimile, or delivered by nationally recognized overnight delivery service addressed to the Leasehold Mortgagee at the address and to the attention of the person designated to Lessor by such Leasehold Mortgagee to receive copies of such notices and shall be deemed to have been delivered as of the date the notice is postmarked by the United States Postal Service, sent by facsimile, or deposited with a nationally recognized overnight delivery service.

(d) Right to Cure. In addition to the rights granted to any Leasehold Mortgagee holding a first-lien Leasehold Mortgage under Section 11.02(c) hereof, any such Leasehold Mortgagee shall have an additional period of (i) 10 calendar days to remedy a Default that results from the nonpayment of Base Rent and (ii) 30 calendar days to remedy or cause to be remedied any Default other than the nonpayment of Base Rent; or, if the Default is of a non-monetary character and complete remedy is impossible within said 30 calendar days an additional reasonable period (not to exceed 45 days), in which to remedy the Default provided that such Leasehold Mortgagee has commenced said cure and is prosecuting, and continues at all times during said additional period to prosecute, with diligence said cure and is diligently pursuing action to foreclose its Leasehold Mortgage; provided further such Leasehold Mortgagee shall reimburse Lessor for all reasonable and necessary costs and expenses of Lessor in maintaining, protecting, and insuring the Premises during said additional period, from time to time as Lessor incurs such costs and expenses, each of which reimbursements such Leasehold Mortgagee shall make within 25 days after receipt from Lessor of a written statement of Lessor's costs and expenses.

(e) Assignment. Lessor covenants and agrees that in the event of any foreclosure under any first-lien Leasehold Mortgage, either by judicial proceedings, under power of sale contained therein, or assignment in lieu of foreclosure, all right, title, and interest of Lessee under this Lease may, without the consent of Lessor, be assigned to and vested in the purchaser at such foreclosure; and, notwithstanding that Lessor's consent to said assignment has not been obtained, such assignee shall be vested with all right, title, and interest of Lessee under this Lease as though Lessor had expressly consented thereto.

(f) New Lease. Lessor covenants and agrees that in the event of a termination of this Lease by reason of any Default, Lessor will enter into a new lease (hereinafter called the "New

Lease") of the Premises with the Leasehold Mortgagee holding a first-lien Leasehold Mortgage for the remainder of the Term, provided that such Leasehold Mortgagee gives written notice to Lessor of its desire to obtain a New Lease before the expiration of the applicable cure period. The New Lease shall be (i) effective and commence as of the date of termination of this Lease, (ii) at the same rents and upon the same terms, provisions, covenants, and agreements as contained in this Lease, and (iii) subject to the same conditions of title with respect to the Premises as existed on the Term Commencement Date and all title matters arising after the Term Commencement Date. The New Lease and Lessor's entry into the New Lease shall be subject to the following conditions:

(1) The Leasehold Mortgagee shall pay to Lessor at the time of the execution and delivery of the New Lease any sums (less any net income collected by Lessor from the date of the termination of this Lease through and including the date on which the New Lease is executed and delivered) that at the time of its execution and delivery would be due pursuant to this Lease but for the termination, and, in addition, all monetary obligations of Lessee under the Lease then in Default or otherwise owing and all expenses that Lessor shall have incurred by reason of any Default, including reasonable and necessary attorneys' fees.

(2) The Leasehold Mortgagee shall perform and observe all covenants contained in the New Lease on Lessee's part to be performed and observed during the period the Leasehold Mortgagee is in possession of the Premises under the New Lease and shall further remedy any other condition that Lessee was obligated to remedy under the terms of this Lease.

(3) The Leasehold Mortgagee under the New Lease shall have the same right, obligations, title, and interest in and to the Premises as Lessee had under this Lease.

(g) Limitation of Liability. Lessor covenants and agrees that any Leasehold Mortgagee permitted under this Lease shall not be liable or responsible in any manner for any of Lessee's obligations or covenants under this Lease unless and until such Leasehold Mortgagee becomes the owner of the leasehold estate of Lessee hereunder by foreclosure, assignment in lieu of foreclosure, or otherwise, in which event such Leasehold Mortgagee shall remain liable for such obligations and covenants only so long as it remains the owner of said leasehold estate.

ARTICLE XII
CONDEMNATION

Section 12.01 Taking. Any taking during the Term of any interest in the Premises as a result of the actual exercise of the power of condemnation or eminent domain by the United States or any other body having such power or any sale or other transfer of any such interest in lieu of or in anticipation of the impending exercise of any such power, to any person legally empowered to exercise such power shall, for the purposes of this Lease, be herein referred to as a "Taking."

Section 12.02 Total Taking. In the event all of the Premises or such portion thereof as makes the residue unsuitable for Lessee's use, in Lessee's reasonable discretion, is subject to a

Taking (hereinafter referred to as a "Total Taking"), this Lease shall automatically terminate on the date that title to the Premises or portion thereof vests in the condemning authority; provided, however, that the termination of this Lease shall not benefit the condemnor and shall be without prejudice to the rights of either Lessor or Lessee to recover just and adequate compensation from the condemning authority. In the event of a taking in which more than fifty percent (50%) of the Premises are taken, or, if as a result of a Taking, a Leasehold Mortgage is accelerated, then, in any of such events such Taking may, at the option of Lessee, also be deemed a Total Taking under the provisions of this Article XII.

Section 12.03 Partial Taking. In the event that a Taking is not a Total Taking, it shall be hereinafter referred to as a "Partial Taking," and the Base Rent otherwise payable throughout the remainder of the Term shall be reduced to the amount obtained by multiplying the Base Rent by the percentage that the value of the residue of the Premises is to the value of the Premises immediately prior to such Partial Taking; said percentage shall be determined by agreement of Lessor and Lessee, or if they are unable to agree, by the appraisal procedure provided in Section 12.05 hereof.

Section 12.04 Awards. Lessor and Lessee may appear in any proceeding or negotiation with respect to any Taking and may be represented therein by their respective counsels. The court in any condemnation proceeding, if not prohibited by law, shall be requested by Lessor and Lessee to make separate awards to Lessor and Lessee in accordance with the principles of division set forth in this Section 12.04. This Article XII, to the extent permitted by law, shall be construed as superseding any statutory provisions now in force or hereafter enacted concerning condemnation proceedings. In the event of a Partial Taking, all sums received shall be paid to the Lessor and to the Lessee as their interests may appear. Sums received in connection with a Total Taking shall be distributed as follows:

(a) The total award shall be allocated between (i) the value of the Premises at the time of the Taking as if it were unimproved and unencumbered by any leasehold estate or otherwise (herein called the "Land Amount") and (ii) the value of the Improvements and appurtenances thereto installed or constructed on the Premises by Lessee including without limitation fixtures but excluding tenant trade fixtures and personal property that can be removed without damaging the improvements (herein called the "Improvement Amount").

(b) Out of the total award, if Lessee has not replaced the existing improvements on the Premises with Improvements having at least equal value as the existing improvements, or Lessee is in material Default and such Default continues beyond the applicable cure period under the terms of the Lease at the time of any Taking, Lessor shall be entitled to (i) the full Land Amount, and (ii) the Improvement Amount, after any debts secured by a Leasehold Mortgage are satisfied, so long as the loan secured by the Leasehold Mortgage was used, in whole or in material part, to improve the Premises or to finance a loan used, in whole or in material part, to improve the Premises. Lessee shall be entitled to any separate award associated with moving expenses, provided that the same does not reduce the award otherwise payable to Lessor.

(c) Out of the total award, if Lessee has replaced the existing improvements on the Premises with Improvements having at least equal value as the existing improvements, Lessor will be entitled to an amount equal to the Land Amount and the Parties shall be entitled to the Improvement Amount as follows: (i) Lessee shall be entitled to all of the Improvement Amount to the extent that the value of all of the out-of-pocket expenses incurred by Lessee in the Construction of the Improvements (the "Construction Costs") equals or exceeds the Improvement Amount; (ii) Lessee shall be entitled to the Construction Costs and Lessor shall be entitled to the remainder of the Improvement Amount to the extent that the Improvement Amount exceeds the Construction Costs. The foregoing notwithstanding, commencing on the first day of the second Lease Year after the completion of the Improvements, the amount of Construction Costs that Lessee shall be entitled to receive shall be reduced by an amount calculated by multiplying the Construction Costs by a fraction, the numerator of which is the number of Lease Years that the Lease has been in existence as of the date of Taking, and the denominator of which shall be twenty (20) (the "Adjustment Amount").

(d) Notwithstanding the foregoing, Lessee will be entitled to any costs for removal of furniture and equipment or other incidental amounts permitted by law as elements of damages, provided that the same does not reduce the award otherwise payable to Lessor.

Section 12.05 Appraisal. For the purpose of determining (i) the appropriate reduction in the Base Rent in the event of a Partial Taking of the Premises, and (ii) the value of the Land Amount and the Improvement Amount as defined in Section 12.04 (if such valuation is not made by the condemning authority and if Lessor and Lessee cannot agree on such amounts), Lessor and Lessee shall each appoint one appraiser and each shall promptly notify the other of such appointment. If the parties have each appointed an appraiser, the two appraisers thus appointed shall each independently make such determination within thirty (30) calendar days after the date of the notice of appointment. The average of the two appraisals shall be conclusive and shall be binding upon Lessor and Lessee with respect to the purposes for such appraisal, without any right of appeal, provided such appraisals do not exceed a fifteen percent (15%) differential. If there is a differential greater than fifteen percent (15%), then a third appraiser shall be appointed by the two appraisers at the joint expense of Lessor and Lessee. If the third appraisal is within a fifteen percent (15%) differential of one of the previous appraisals, then the average of the three appraisals shall be binding and conclusive upon the parties. In the event the third appraisal is not within a fifteen percent (15%) differential of either of the previously submitted appraisals, then the entire process above shall be repeated until the provisions of this paragraph are satisfied. All appraisers appointed hereunder shall be competent, qualified by training and experience, disinterested, independent, and members in good standing of the American Institute of Real Estate Appraisers or its successors. All appraisal reports shall be rendered in writing and signed by the appraisers making the report. Each party shall pay all fees and expenses charged or incurred by the appraiser appointed by such party; fees and expenses that cannot be reasonably attributed to any one appraiser shall be borne equally by Lessor and Lessee.

Section 12.06 Other Evidence. Except as provided in Section 12.05 and for the specific purpose set forth therein, nothing herein contained to the contrary shall be deemed to prohibit Lessor or Lessee from introducing into any such condemnation proceeding such appraisals or other estimates of value, loss, or damage as each may in its discretion determine.

ARTICLE XIII
WAIVER OF SUBROGATION

Notwithstanding anything in this Lease to the contrary, other than Lessee's obligations to repair, restore, or rebuild as set out herein, neither party shall be liable to the other for any damage or destruction of the Improvements resulting from fire or other casualty covered by insurance required hereunder, whether or not such loss, damage, or destruction of property is caused by or results from the negligence of such party (which term includes such party's officers, employees, agents, and invitees), and each party hereby expressly releases the other from all liability for or on account of any said loss, damage, or destruction, whether or not the party suffering the loss is insured against such loss, and if insured whether fully or partially. These mutual releases shall be applicable and in force only with respect to loss or damage covered by the releasing party's applicable insurance policies that contain a clause or endorsement to the effect that any such release shall not adversely affect or impair such policy or the right of the releasing party to recover thereunder.

ARTICLE XIV
DUTY TO KEEP IN GOOD REPAIR

Section 14.01 Good Repair. Lessee covenants and agrees with Lessor that during the Term, Lessee shall undertake and perform, or shall cause to be undertaken and performed, all construction, repairs, replacements, maintenance, and reconstruction, as permitted herein, whether foreseen or unforeseen, ordinary or extraordinary, structural or non-structural and whether occurring on the interior or exterior of any Improvement on the Premises and all additions thereto or alterations thereof. Lessee, at its sole expense, shall keep and maintain all Improvements now or hereafter located on the Premises in good order and repair; provided, however, that such duty is subject to Lessee's right to elect under Section 15.02 not to repair or rebuild a damaged or destroyed Improvement.

Section 14.02 Maintenance. In addition to and without limiting the requirements set forth in the foregoing section, Lessee, at its sole expense, agrees to perform all maintenance of all outside areas in the Premises.

ARTICLE XV
DAMAGE OR DESTRUCTION

Section 15.01 Lessee to Give Notice. In the event of any material damage to or destruction of any Improvement or any part thereof, Lessee will promptly give written notice thereof to Lessor generally describing the nature and extent of such material damage or destruction.

Section 15.02 Term & Rent Continue. In the event of any material damage to or destruction of any Improvement on the Premises, or any part thereof, including any Improvement that Lessee may hereafter construct, the Term and all Rent hereunder shall continue. Lessee will either (a) repair or rebuild the damaged or destroyed Improvement or (b) promptly raze the Improvement, remove the Improvement and related debris from the Premises, and seed or sod the area formerly occupied by the Improvement. In no event will any such casualty or damage or destruction give Lessee the right to abate Rent, surrender possession of the Premises, or terminate the Lease, and Lessee waives any and all rights of surrender, termination, and abatement or elimination of liability for rent under Tennessee Code Annotated § 66-7-102 or otherwise. Lessee shall notify Lessor of Lessee's election within forty-five (45) calendar days following the casualty event. If Lessee elects to repair or rebuild the Improvement, Lessee shall, at its expense, commence the work of restoring the Improvement within forty-five (45) days after notifying Lessor of such election and shall, subject to delays beyond the control of Lessee, prosecute the restoration to completion with all reasonable dispatch.

All fire and casualty insurance proceeds not used for repair or rebuilding of an Improvement, or for demolition or removal of an Improvement and related debris, shall be paid to Lessor and Lessee as their reversionary interests may appear. Lessor's reversionary interest shall be calculated by multiplying the amount of insurance proceeds by a fraction, the numerator of which shall be the number of Lease Years that the Lease was in existence on the date of casualty, and the denominator of which shall be twenty (20). Notwithstanding the foregoing, in any such case Lessee shall be entitled to the greater of (a) the remainder of such proceeds in such circumstances after deduction of Lessor's reversionary interest, or (b) the amount necessary to repay any loan secured by a Leasehold Mortgage, so long as the loan secured by the Leasehold Mortgage was used, in whole or in material part, to construct, alter, or repair the Improvement or to refinance a loan used, in whole or in material part, to construct, alter, or repair the Improvement.

Notwithstanding the other provisions of this Article, if there was neglect or fault on Lessee's part concerning the damage or destruction, Lessee will not have an election concerning repair or rebuilding but shall be obligated to repair or rebuild the damaged or destroyed Improvement, absent the written consent of Lessor.

ARTICLE XVI
HAZARDOUS SUBSTANCES

Lessor represents that, to its actual knowledge with no investigation, the Land and Premises are free and clear of Hazardous Substances, and Lessor agrees that it will defend and indemnify Lessee against any claim(s) relating to Hazardous Substances placed on the Land or the Premises by Lessor, its employees, contractors, or agents prior to the date of this Lease. In the event that Lessee discovers on the Premises any Hazardous Substances or conditions that existed on the Premises

prior to the date of this Lease and that violate or will violate any applicable environmental protection, energy conservation, hazardous waste, OSHA, or other local, state, or federal codes, laws, or restrictions of any kind, Lessee shall have the right to terminate this Lease upon 30 calendar days' notice. Lessee will comply with all laws, rules, and regulations regarding the use of Hazardous Substances in connection with its occupancy and use of the Premises ("Regulations"), and will, at Lessee's cost, take all actions needed to correct any violation of the Regulations and remove any Hazardous Substances arising out of or related to the introduction by Lessee or any assignee or sublessee of Lessee of any Hazardous Substances at, upon, under or within the Land or the Premises. For the purpose of this Article, the term "Hazardous Substances" has the meaning given it in Article V.

ARTICLE XVII
MISCELLANEOUS

Section 17.01 Lessor's Lien. Lessor shall have an existing statutory Lessor's lien, to the extent applicable, and, in addition, is hereby given, and Lessee hereby grants to Lessor, an express Lessor's lien and security interest as security for the Rent and Additional Rent as herein provided, as well as any of the other charges or expenses elsewhere herein designated, upon all of Lessee's interest in the goods, wares, chattels, implements, furniture, fixtures, tools, machinery, and other personal property at the Premises or which Lessee or a sublessee at any time places in or upon the Premises, all exceptions of such property or any part thereof being hereby waived. In addition to all other remedies available to it, Lessor is hereby authorized (in person or by agent) to take possession of and to sell Lessee's interest in the same at public or private sale, all without notice to Lessee (other than notices for a Default provided for herein), applying the proceeds thereof first to any rental, Additional Rent, or other charges or expenses which may then be due; second, to any other sum that may be due to Lessor from Lessee, including any damage which Lessor may suffer; and the balance, if any, to be paid to Lessee. Lessee approves Lessor's filing and recording of appropriate financing statements so that Lessor's lien can be fully perfected against third parties for the further protection of Lessor; and agrees to execute such other instruments which may be reasonably requested by Lessor as are reasonably required for the protection of Lessor's lien. If Lessor chooses to exercise this right to perfect its lien by UCC filings or otherwise, then Lessee will be responsible for all costs of filing and recording such financing statements. Notwithstanding the foregoing, (a) this Section 17.01 is applicable to any assignee or subtenant of Lessee (but inapplicable to Lessee and any governmental entity that is an assignee or subtenant of Lessee), and (b) all such Lessor's liens shall be subordinate to any rights or liens of the holder of a first-lien Leasehold Mortgage so long as the loan secured by the Leasehold Mortgage was used, in whole or in material part, to improve construct, alter, or repair an Improvement or to refinance a loan used for such purpose.

Section 17.02 Utility Easements. Subject to Section 6.02(b), Lessee shall be entitled and is hereby authorized to enter into such easements or agreements with utility companies that are required in order to provide service to any Improvements now or hereafter located on the Premises. Lessor hereby consents to the execution of such easements and agreements by Lessee and covenants

and agrees to execute any necessary documents and agreements and to take such action necessary in order to consummate the same, all at Lessee's cost and expense.

Section 17.03 Separability. All rights, powers, and remedies provided herein may be exercised only to the extent that the exercise thereof does not violate applicable law.

Section 17.04 Notices, Demands and Other Instruments. All notices, demands, requests, consents, and other instruments required or permitted to be given pursuant to the terms of this Lease to Lessor or Lessee shall be in writing and shall be deemed to have been properly given two business days after mailing by first class certified United States Mail, return receipt requested and postage paid, or one business day after sending by reputable overnight delivery service (such as Federal Express) for next business day delivery and with delivery charges paid, addressed to each party hereto at the following address:

Lessor: Strong Stock Farm, LLC
8220 Rutledge Pike
Knoxville, Tennessee 37924
Attn: Martha Strong Kern

and

David M. Shiflett
Parker Shiflett & Company, Inc.
9217 Park West Blvd., C-1

Attn: Knox County Mayor

and

Knox County Law Department
400 Main Street, Room 612
Knoxville, Tennessee 37902
Attn: Knox County Law Director

or at such other address in the United States as Lessor or Lessee may from time to time designate in writing and deliver to the other party.

Section 17.05 Successors and Assigns. Each and every covenant, term, condition, and obligation contained in this Lease shall apply to and be binding upon and inure to the benefit or detriment of the respective legal representatives, successors, and assigns of Lessor and Lessee. Whenever reference to the parties hereto is made in this Lease, such reference shall be deemed to include the legal representatives, successors, and assigns of Lessor and Lessee as if in each case expressed. The term "person" when used in this Lease shall mean any individual, corporation, limited liability company, partnership, firm, trust, joint venture, business association, syndicate, government or governmental organization, or any other entity.

Section 17.06 Headings. The headings to the various sections of this Lease have been inserted for purposes of reference only and shall not limit or define the express terms and provisions of this Lease.

Section 17.07 Applicable Law and Jurisdiction. This Lease shall be construed under and enforced in accordance with the laws of the State of Tennessee. The Parties hereby irrevocably submit to the jurisdiction of the State Courts of the State of Tennessee located in Knox County, Tennessee, for the purpose of any suit, action or other proceeding arising out of or based upon this Lease.

Section 17.08 Exhibits. The following exhibits attached or to be attached hereto are by this reference incorporated herein and made a part hereof: Exhibits A, A-1, B, C and D.

Section 17.09 Entire Agreement; Amendments. This Lease sets forth the entire understanding and agreement of Lessor and Lessee with respect to the Premises; all courses of dealing, usage of trade, and all prior representations, promises, understandings, and agreements whether oral or written, are superseded by and merged into this Lease. No modification of or amendment to this Lease shall be binding upon Lessee and/or Lessor unless in writing and signed by both parties hereto.

Section 17.10 All Genders and Numbers Included. Whenever the singular or plural number, or masculine, feminine, or neuter gender, is used in this Lease, it shall equally apply to, extend to, and include the other.

Section 17.11 Memorandum of Lease. Lessor and Lessee hereby agree that this Lease shall not be recorded. However, Lessor and Lessee shall execute a memorandum of lease, in recordable form and in the form attached hereto as Exhibit C (the "Memorandum of Lease"). The memorandum of lease shall not be filed for record in the Register's Office of Knox County, Tennessee until the Term Commencement Date. Any and all recording costs and documentary stamps or tax, if any, required in connection with the execution of this Lease and the recording of the Memorandum of Lease shall be paid by Lessee.

Section 17.12 [Intentionally Deleted]

Section 17.13 [Intentionally Deleted]

Section 17.14 Estoppel Certificates. Each party shall execute and return to the other an estoppel certificate, in form and substance reasonably satisfactory to the other, confirming that the Lease is in full force and effect and free of default by either party (or stating any exceptions), and confirming such other matters as are reasonably requested, within 10 business days after receipt of a written request for the same.

Section 17.15 Brokers' Commissions. Lessee represents to Lessor that Lessee has not dealt with any broker or agent in connection with this transaction. Lessor warrants that Lessor has had no dealings with any broker or agent in connection with this Lease, except David Shiflett of Parker Shiflett & Company, Knoxville, Tennessee. Lessor shall pay to said broker its brokerage fees associated with this Lease under the terms of a separate agreement. Lessor covenants to pay, hold harmless and indemnify Lessee from and against any and all costs, expense or liability for any compensation, commissions and charges claimed by any other broker or agent with respect to this Lease or the negotiation thereof as a result of any dealings between Lessor and such broker or agent.

ARTICLE XVIII
RIGHTS OF FIRST REFUSAL

Section 18.01 Rights of First Refusal. Lessor hereby covenants with Lessee that if, during the Term, Lessor desires to accept a bona fide offer from a third party to purchase a fee simple ownership interest in the Premises or any part thereof (the "Property to Be Sold"), or if, during the Term, Lessor desires to extend to a third party an offer to sell to such third party the Property to Be Sold (in either case, an "Offer"), Lessor shall first provide to Lessee a written copy of the terms and conditions of the Offer. Lessee shall have sixty (60) calendar days from and after receipt of such Offer either (1) to deliver to Lessor Lessee's signed, written agreement to purchase the Property to Be Sold on the terms and conditions contained in the Offer or (2) to deliver to Lessor Lessee's

signed, written rejection of the Offer. The failure of Lessee to respond to such Offer by delivering to Lessor one of the two foregoing alternative responses within such 60-calendar-day period shall be deemed a rejection thereof as of the last day of such 60-day period. If such Offer is rejected or deemed rejected, Lessor may sell the Property to Be Sold within 365 calendar days after the Lessee's rejection or deemed rejection of the Offer, on the terms and conditions contained in the Offer. If either (a) Lessor proposes to sell the Property to Be Sold within such 365-day period, but on different terms than contained in the Offer, or (b) Lessor does not close on the sale of the Property to Be Sold within such 365-day period, then in either event Lessor may not sell the Premises or any portion thereof during the Term, without again following the procedure outlined above in this Section 18.01 for submitting an Offer to Lessee. For the avoidance of doubt, should the Term expire during the aforesaid 365-day period and before Lessor has closed on the sale of the Property to Be Sold, Lessor may sell the Premises or any portion thereof free of Lessee's refusal rights after such expiration of the Term.

Section 18.02 Memorandum of Right. The Memorandum of Lease shall include the rights of Lessee set forth in Section 18.01.

[Signatures on Next Page]

IN WITNESS WHEREOF, the Lessor and Lessee have caused this Lease to be executed as of the day and year first above written.

MEMORANDUM OF LEASE

THIS MEMORANDUM OF LEASE is made to be effective as of the _____ day of _____, 202__, by and between **COUNTY OF KNOX, TENNESSEE** ("Lessee"), and **STRONG STOCK FARM, LLC, a Tennessee limited liability company** ("Lessor").

W I T N E S S E T H:

1. Pursuant to the terms of a Ground Lease dated _____, 2026, between Lessor and Lessee (the "Lease"), Lessor has leased and does hereby lease to Lessee and Lessee has leased and does hereby lease from Lessor an approximately 120-acre portion of the unimproved real property located at 8217 Rutledge Pike, Knoxville, Tennessee 37924, in Knox County, Tennessee (the "Premises"), which is owned by Lessor and that is outlined on Exhibit A attached hereto and incorporated herein by reference.

2. The term of the Lease is for twenty (20) years (such period, as the same may be renewed as provided below, is the "Term"), commencing on the "Term Commencement Date" as determined in accordance with the Lease, at the rentals and subject to all terms, covenants and conditions set forth in the Lease. Lessee is granted an option to renew the Lease for three (3) additional terms of ten (10) years each, at the rentals and subject to all terms, covenants and conditions set forth in the Lease.

3. Lessor hereby covenants with Lessee that if, during the Term, Lessor desires to accept a bona fide offer from a third party to purchase a fee simple ownership interest in the Premises, or any part thereof (the "Property to Be Sold"), or if, during the Term, Lessor desires to extend to a third party an offer to sell to such third party the Property to Be Sold (in either case, an "Offer"), Lessor shall first provide to Lessee a written copy of the terms and conditions of the Offer. Lessee shall have 60 calendar days from and after receipt of such Offer either (1) to deliver to

Lessor Lessee's signed, written agreement to purchase the Property to Be Sold on the terms and conditions contained in the Offer or (2) to deliver to Lessor Lessee's signed, written rejection of the Offer. The failure of Lessee to respond to such Offer by delivering to Lessor one of the two foregoing alternative responses within such 60-calendar-day period shall be deemed a rejection thereof as of the last day of such 60-day period. If such Offer is rejected or deemed rejected, Lessor may sell the Property to Be Sold within 365 calendar days after the Lessee's rejection or deemed rejection of the Offer, on the terms and conditions contained in the Offer. If either (a) Lessor proposes to sell the Property to Be Sold within such 365-day period, but on different terms than contained in the Offer, or (b) Lessor does not close on the sale of the Property to Be Sold within such 365-day period, then in either event Lessor may not sell the Premises or any portion thereof during the Term, without again following the procedure outlined above in this Section for submitting an Offer to Lessee. For the avoidance of doubt, should the Term expire during the aforesaid 365-day period and before Lessor has closed on the sale of the Property to Be Sold, Lessor may sell the Premises or any portion thereof free of Lessee's refusal rights after such expiration of the Term.

4. This is a short form of the Lease, which Lease contains other provisions with respect to the rights and obligations of the Lessor and Lessee, as more fully explained in the Lease, and which provisions are incorporated herein as if set forth verbatim herein.

5. This Memorandum of Lease is made and executed by the parties hereto for the purpose of recording the same in the Office of the Register of Deeds of Knox County, Tennessee, and is subject in each and every respect to the rents and other terms, covenants and conditions of the Lease, and this Memorandum of Lease is executed and delivered with the understanding and agreement that the same shall not in any manner or form whatsoever alter, modify or vary the rents and other terms, covenants and conditions of the Lease.

6. This Memorandum of Lease may be signed in counterparts, which counterparts shall be deemed originals for all purposes, and which together shall be deemed one agreement.

WHEREAS, The Industrial Development Board of the County of Knox (the "Corporation") is a nonprofit public corporation organized by Knox County as an industrial development board

pursuant to Tenn. Code Ann. §7-53-301 et seq. (the "Act") and as such is a public instrumentality of Knox County performing a public function; and

WHEREAS, Tenn. Code Ann. §7-53-305 provides that the Corporation and all properties at any time owned by it, and the income and revenues therefrom, and all bonds issued by it, and the income therefrom are exempt from all taxation in the State of Tennessee; and

WHEREAS, the Commission of Knox County, Tennessee (the "Commission") has the power to delegate to the Corporation the authority to negotiate and accept from the Corporation's lessees payments in lieu of ad valorem taxes, provided that any such authorization shall be granted only upon a finding that such payments are deemed to be in furtherance of the Corporation's public purposes as set forth in the Act; and

WHEREAS, by Resolution R-03-1-801 dated January 27, 2003, the Commission adopted a Property Tax Incentive Program, as subsequently amended, (the "Tax Incentive Program") pursuant to which the Corporation has implemented a program designed for economic development using payments in lieu of taxes in accordance with the Act; and

WHEREAS, by Resolution R-04-12-801 dated December 20, 2004, the Commission adopted certain amendments to the Tax Incentive Program in accordance with the Act; and

WHEREAS, under the Tax Incentive Program, the Commission authorized the Corporation to approve and enter into tax incentives that have a term-length established using specified criteria based primarily on the economic impact criterion of job creation, wages, and capital investment; and

WHEREAS, DWF John Sevier, LLC ("Applicant") has or will acquire the real property located at 400 W. Governor John Sevier Highway, Knoxville, TN 37920, parcel ID 137 25403 (the "Property"); and

WHEREAS, Applicant has submitted to the Corporation an application for tax incentives under the Tax Incentive Program in connection with the proposed redevelopment of the Property into a workforce housing townhome development having approximately eighty (80) units (the "Project"); and

WHEREAS, Applicant proposes to restrict 50% of the units within the Project to rents equal to 30% of 80% - 120% of the area median income for the Project's locale, which would be leased to residents making 80% to 120% of such area median income; and

WHEREAS, while the Project does not qualify under the current program criteria established primarily for manufacturing/distribution projects, Commission deems it to be in furtherance of the Act and in the best interest of the public to grant the tax incentive to Applicant based on other public benefits; and

WHEREAS, Applicant has requested that the Commission consider delegating to the Corporation the authority to grant and enter into a 50% tax abatement with Applicant having a term of twenty (20) years; and

WHEREAS, the Commission will designate the County Mayor to approve such Project.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

That the Commission adopts the Recitals to this Resolution in their entirety, as set forth above.

BE IT FURTHER RESOLVED, the Commission hereby finds that the negotiation and acceptance by the Board of payments in lieu of ad valorem taxes, as such payments are related to the Project, consistent with this resolution are deemed to be in furtherance of the public purposes of the Board as defined in Tennessee Code Annotated Section 7-53-305, and the Commission hereby consents and delegates to the Board the right to negotiate and accept such payments from the Company.

BE IT FURTHER RESOLVED, the Commission hereby finds that the Corporation is a nonprofit public corporation organized by Knox County as an industrial development board pursuant to the Act and as such is a public instrumentality of Knox County performing certain public functions.

BE IT FURTHER RESOLVED, the Commission hereby delegates to the Corporation the authority (i) to accept from Applicant, as a lessee of the Corporation, payments in lieu of ad valorem taxes annually in the amount of 50% of the taxes otherwise to be paid to Knox County, including without limitation all taxes assessed against real property constituting the Project, for a term of twenty (20) years, and (ii) to take such other actions with respect to the Project as may be necessary or convenient to effect the intent of this Resolution. In connection therewith, the Commission hereby finds that the authorization and delegation to the Corporation provided herein are deemed to be in furtherance of the Corporation's public purposes as set forth in the Act.

BE IT FURTHER RESOLVED, to the extent necessary for this Project, the Commission hereby amends the Tax Incentive Program. The Corporation and the County Mayor are hereby authorized and directed to take such actions, from time to time, as they consider necessary or appropriate to carry out the purposes and intentions of this Resolution.

BE IT FURTHER RESOLVED, if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority.

BE IT FURTHER RESOLVED, this Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

MINUTE BOOK_____PAGE_____

WHEREAS, Knox County seeks to support orderly economic development, walkable mixed-use areas, local restaurants, small businesses, tourism, and community activity within appropriate commercial districts; and

WHEREAS, Belltown Commons is planned as a mixed-use commercial and community gathering area within the Belltown development, with restaurants, retail uses, pedestrian areas, landscaped open space, parking areas, and an outdoor amphitheater intended to host live music, performances, and other community events; and

WHEREAS, the Board of Commissioners finds that a limited, clearly marked, and locally regulated pedestrian beverage zone may encourage pedestrian activity, support event programming and local businesses, and enhance public enjoyment of designated mixed-use areas while maintaining appropriate public safety controls; and

WHEREAS, the Board of Commissioners desires to establish a pilot program known as the Knox County Pedestrian Beverage Zone program, or "PBZ," under which alcoholic beverages and beer may be purchased from approved participating businesses and consumed only within a clearly defined and marked PBZ boundary; and

WHEREAS, the Board of Commissioners further desires to designate Belltown Commons as the initial pilot location for the PBZ program, subject to the requirements, operating rules, boundaries, signage, container-identification requirements, and enforcement provisions set forth in this Resolution and its exhibits; and

WHEREAS, the Board of Commissioners intends that the PBZ program operate only in compliance with all applicable federal, state, and local laws, and nothing in this Resolution shall be construed to authorize any sale, service, possession, or consumption of alcoholic beverages or beer that is prohibited by state law, the rules of the Tennessee Alcoholic Beverage Commission, the rules of the Knox County Beer Board, or any other applicable regulatory authority; and

WHEREAS, the Board of Commissioners finds that the pilot program should be subject to review after implementation so that the County may evaluate public safety, sanitation, business participation, economic activity, pedestrian circulation, event operations, and compatibility with surrounding uses; and

WHEREAS, the Belltown Commons PBZ is located entirely on privately owned property within unincorporated Knox County, and nothing in this Resolution is intended to authorize or permit the possession or open consumption of alcoholic beverages or beer on any public street, public sidewalk, or public right-of-way.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

SECTION 1. Establishment of Pedestrian Beverage Zone Pilot Program.

There is hereby established a Knox County Pedestrian Beverage Zone pilot program, referred to in this Resolution as the "PBZ program."

The purpose of the PBZ program is to allow, within a specifically designated and marked area, eligible persons who are twenty-one years of age or older to purchase alcoholic beverages or beer from approved participating businesses and consume those beverages while walking within the approved PBZ boundary, subject to the terms of this Resolution, all applicable licenses and permits, and all applicable state and local law.

SECTION 2. Designation of Belltown Commons as Pilot PBZ.

Belltown Commons is hereby designated as the initial pilot Pedestrian Beverage Zone.

The approved PBZ boundary shall be the area shown on Exhibit A, attached hereto and incorporated by reference. The PBZ boundary shall include only the area shaded or otherwise identified in Exhibit A and shall not include areas outside the marked boundary.

The PBZ boundary may include sidewalks, pedestrian areas, plazas, landscaped open spaces, parking areas, private common areas, outdoor event areas, and other designated pedestrian areas within Belltown Commons, but only to the extent shown on Exhibit A and permitted by applicable law.

SECTION 3. Pilot Term and Review.

The Belltown Commons PBZ shall operate as a pilot program for an initial period of twelve months beginning on the date the County Codes Administration determines that all required approvals, signage, participant authorizations, and operating procedures are in place.

The Codes Administration office and the property owner shall provide a quarterly report to the Board of Commissioners regarding the operation of the pilot program. The report shall address, as applicable, public safety calls, code enforcement issues, sanitation, litter, pedestrian activity, business participation, complaints, operational problems, event operations, and recommendations for continuation, modification, expansion, suspension, or termination.

SECTION 4. Hours of Operation.

The Belltown Commons PBZ may operate daily from 10:00 a.m. until 10:00 p.m., unless further restricted by state law, County regulation, Beer Board action, TABC requirement, property-owner rule, participant agreement, or other applicable authorities.

No person shall consume alcoholic beverages or beer within the PBZ outside the approved hours of operation, except as otherwise permitted by law.

No participating business shall sell or provide alcoholic beverages or beer for PBZ consumption outside the approved hours of operation, except as otherwise permitted by law.

SECTION 5. Approved Participating Businesses.

Only businesses approved by Knox County as PBZ participants may sell or provide alcoholic beverages or beer for consumption within the PBZ.

To participate, a business must:

A. hold all alcoholic beverages, liquor-by-the-drink, beer, food service, business, and other licenses or permits required by applicable law;

B. be located within or immediately adjacent to the approved PBZ boundary, unless otherwise approved by Knox County and permitted by law;

C. agree in writing in the recorded operational plan to comply with this Resolution, the PBZ operating rules, all TABC requirements, all Knox County Beer Board requirements, and all applicable laws;

D. provide wristbands to participants and use only approved PBZ cups, containers, labels, stickers, or other identification methods;

E. refuse service to underage persons and visibly intoxicated persons;

F. maintain staff training and internal controls sufficient to comply with alcoholic-beverage and beer laws;

G. cooperate with Knox County, law enforcement, the Knox County Beer Board, TABC, and property management concerning PBZ enforcement; and

H. immediately cease PBZ sales if directed to do so by Knox County, law enforcement, the Knox County Beer Board, TABC, or other lawful authorities.

Approval as a PBZ participant is a privilege and may be suspended or revoked by Knox County for violation of this Resolution, violation of applicable law, failure to maintain required licenses or permits, public safety concerns, failure to cooperate with enforcement, or other good cause.

The Codes Administration office shall maintain and publish a current list of approved participating businesses on the website. Approval as a participating business may be suspended or revoked for violation of applicable law or PBZ rules. Participation in the PBZ program does not require a separate zone-level license from the Knox County Beer Board beyond each participating business's existing required retail beer or alcoholic-beverage permits; however, each participating business remains subject to all applicable Knox County Beer Board rules and licensing conditions.

SECTION 6. Approved PBZ Containers, Stickers and Wristbands.

Alcoholic beverages and beer sold for PBZ consumption shall be served only in a County-approved PBZ cup or container, or in a container bearing a County-approved PBZ sticker or label.

Each approved PBZ cup, container, sticker, label, and wristband shall include, at minimum:

A. identification of the PBZ program;

B. identification of the participating business that sold or provided the beverage,

which may be by business logo, printed business name, approved sticker, or other County-approved method;

C. language or markings indicating that the beverage must remain within the PBZ boundary; and

D. any other information required by Knox County, the Knox County Beer Board, TABC, or applicable law.

The sample PBZ signage and container-identification formats shown on Exhibit B are approved as general PBZ identification formats, subject to administrative modification for readability, placement or regulatory compliance.

No glass container may be used for PBZ consumption.

No person may possess an alcoholic beverage or beer within the PBZ in a container that does not comply with this Section, except as otherwise permitted by law.

SECTION 7. Boundary, Signage, and Notice.

The property owner of Belltown Commons shall install and maintain PBZ boundary signage to be at appropriate entrances, exits, and pedestrian transition points.

PBZ signage shall substantially identify:

A. the area as a Pedestrian Beverage Zone;

B. the approved hours of operation;

C. that alcoholic beverages and beer must be finished or discarded before leaving the PBZ area;

D. that outside alcoholic beverages and beer are not permitted within the PBZ unless otherwise allowed by law;

E. a QR code or other link to current PBZ information and rules, where practical; and

F. any other rules required by Knox County, the Knox County Beer Board, TABC, law enforcement, or the PBZ operating plan.

The sign designs attached as Exhibit B are approved as the initial PBZ informational and boundary sign designs, subject to administrative modification for readability, placement or regulatory compliance. Boundary signage shall be posted at appropriate exit points to notify pedestrians that alcoholic beverages may not be carried beyond the approved PBZ boundary.

SECTION 8. Prohibited Conduct.

Within the PBZ, except as otherwise permitted by law, it shall be prohibited for any person to:

A. possess or consume alcoholic beverages or beer outside the approved PBZ hours;

B. leave the PBZ boundary with an open alcoholic beverage or beer container purchased for PBZ consumption;

C. bring alcoholic beverages or beer into the PBZ;

D. possess alcoholic beverages or beer in an unapproved container;

E. possess or consume alcoholic beverages or beer in violation of any applicable law, regulation, license condition, permit condition, posted rule, or lawful order;

F. remove, damage, obscure, or alter PBZ signage, boundary markers, or safety controls; or

G. possess or consume alcoholic beverages or beer within the PBZ if that person is under the minimum age required to purchase or consume alcoholic beverages under applicable Tennessee law.

SECTION 9. Security, Sanitation, Live Events, and Operations.

The PBZ shall operate according to an administrative operating plan approved by the Codes Administration Office. The County Mayor or designee shall file the initial operating plan with the County Clerk within ninety (90) days of the effective date of this Resolution. The operating plan, and any subsequent amendments thereto, shall be approved by the Codes Administration office and filed with the County Clerk and made available for public inspection.

The operating plan may include:

A. PBZ boundary map with approved maximum commercial square footage identified in the operating plan and signage locations;

B. participating-business approval procedures;

C. approved container, sticker, and label specifications;

D. security and law-enforcement coordination;

E. trash, recycling, litter-control, and sanitation procedures;

F. procedures for live music, performances, and other events at the Belltown Commons outdoor amphitheater;

G. procedures for temporary suspension during emergencies, severe weather, overcrowding, construction, public safety concerns, or other operational issues;

H. procedures for complaints, violations, and participant discipline; and

I. any additional rules necessary for safe and orderly operation.

The PBZ shall operate only in accordance with sanitation and waste-disposal measures approved as part of the PBZ operating plan. Such measures may include trash and recycling receptacles, litter control, collection schedules, post-event cleanup, and other measures reasonably necessary to maintain public health, safety, and appearance within the PBZ.

Sanitation and waste-disposal measures may be provided by participating businesses, property owners, event operators, private contractors, or other responsible parties, and nothing in this Resolution shall require the County to provide additional waste-disposal services.

The Codes Administration Office may approve administrative modifications to the operating plan, signage placement, participant forms, sticker specifications, event procedures, and similar implementation details, provided such modifications are consistent with this Resolution and applicable law.

SECTION 10. Enforcement.

The Knox County Sheriff's Office, Knox County Codes Administration, the Knox County Beer Board, and any other agency with lawful jurisdiction may enforce applicable laws, regulations, permits, and rules within the PBZ.

Violation of this Resolution or the PBZ operating rules may result in removal from the PBZ, citation, arrest, suspension or revocation of PBZ participant approval, referral to the Knox County Beer Board, referral to TABC, or any other remedy available by law. Nothing herein shall limit the authority of law enforcement to pursue criminal charges under applicable law for conduct that constitutes a criminal offense independent of this Resolution.

The Codes Administration Office may temporarily suspend PBZ operations.

SECTION 11. Property Owner and Management Responsibilities.

Before PBZ operations begin, the owner or manager of the property included within the PBZ shall provide written consent to the PBZ designation and shall agree to cooperate with Knox County regarding signage, maintenance, sanitation, security, participant

coordination, event operations, and enforcement, as applicable under the approved operating plan.

Nothing in this Resolution shall prevent the property owner or manager from imposing stricter rules on the possession or consumption of alcoholic beverages or beer within private property under its control, provided such rules do not conflict with applicable law.

SECTION 12. No Expansion Without Approval.

The Belltown Commons PBZ boundary shall not be expanded beyond the area shown on Exhibit A unless approved by the Board of Commissioners by subsequent resolution or other appropriate legislative action.

Additional PBZ pilot locations may be considered by the Board of Commissioners by separate resolution.

SECTION 13. Compliance With State and Local Law.

This Resolution is intended to operate only to the fullest extent permitted by state and local law.

No provision of this Resolution shall be construed to authorize any sale, service, possession, transportation, or consumption of alcoholic beverages or beer that is prohibited by Tennessee law, federal law, TABC rule, Knox County Beer Board rule, license condition, permit condition, or other applicable authority.

If any approval, license, permit, rulemaking, state authorization, or regulatory action is required before the PBZ may operate, PBZ operations shall not begin until such approval, license, permit, rulemaking, authorization, or regulatory action has been obtained.

SECTION 14. Severability.

If any section, subsection, sentence, clause, phrase, or provision of this Resolution is held invalid or unenforceable by a court of competent jurisdiction, such invalidity shall not affect the remaining portions of this Resolution, which shall remain in full force and effect.

SECTION 15. Effective Date.

This Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

MINUTE BOOK_____PAGE_____

WHEREAS, Knox County seeks to support orderly economic development, walkable mixed-use areas, local restaurants, small businesses, tourism, and community activity within appropriate commercial districts; and

WHEREAS, Belltown Commons is planned as a mixed-use commercial and community gathering area within the Belltown development, with restaurants, retail uses, pedestrian areas, landscaped open space, parking areas, and an outdoor amphitheater intended to host live music, performances, and other community events; and

WHEREAS, the Board of Commissioners finds that a limited, clearly marked, and locally regulated pedestrian beverage zone may encourage pedestrian activity, support event programming and local businesses, and enhance public enjoyment of designated mixed-use areas while maintaining appropriate public safety controls; and

WHEREAS, the Board of Commissioners desires to establish a pilot program known as the Knox County Pedestrian Beverage Zone program, or "PBZ," under which alcoholic beverages and beer may be purchased from approved participating businesses and consumed only within a clearly defined and marked PBZ boundary; and

WHEREAS, the Board of Commissioners further desires to designate Belltown Commons as the initial pilot location for the PBZ program, subject to the requirements, operating rules, boundaries, signage, container-identification requirements, and enforcement provisions set forth in this Resolution and its exhibits; and

WHEREAS, the Board of Commissioners intends that the PBZ program operate only in compliance with all applicable federal, state, and local laws, and nothing in this Resolution shall be construed to authorize any sale, service, possession, or consumption of alcoholic beverages or beer that is prohibited by state law, the rules of the Tennessee Alcoholic Beverage Commission, the rules of the Knox County Beer Board, or any other applicable regulatory authority; and

WHEREAS, the Board of Commissioners finds that the pilot program should be subject to review after implementation so that the County may evaluate public safety, sanitation, business participation, economic activity, pedestrian circulation, event operations, and compatibility with surrounding uses; and

WHEREAS, the Belltown Commons PBZ is located entirely on privately owned property within unincorporated Knox County, and nothing in this Resolution is intended to authorize or permit the possession or open consumption of alcoholic beverages or beer on any public street, public sidewalk, or public right-of-way.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

SECTION 1. Establishment of Pedestrian Beverage Zone Pilot Program.

There is hereby established a Knox County Pedestrian Beverage Zone pilot program, referred to in this Resolution as the "PBZ program."

The purpose of the PBZ program is to allow, within a specifically designated and marked area, eligible persons who are twenty-one years of age or older to purchase alcoholic beverages or beer from approved participating businesses and consume those beverages while walking within the approved PBZ boundary, subject to the terms of this Resolution, all applicable licenses and permits, and all applicable state and local law.

SECTION 2. Designation of Belltown Commons as Pilot PBZ.

Belltown Commons is hereby designated as the initial pilot Pedestrian Beverage Zone.

The approved PBZ boundary shall be the area shown on Exhibit A, attached hereto and incorporated by reference. The PBZ boundary shall include only the area shaded or otherwise identified on Exhibit A and shall not include areas outside the marked boundary.

The PBZ boundary may include sidewalks, pedestrian areas, plazas, landscaped open spaces, parking areas, private common areas, outdoor event areas, and other designated pedestrian areas within Belltown Commons, but only to the extent shown on Exhibit A and permitted by applicable law.

SECTION 3. Pilot Term and Review.

The Belltown Commons PBZ shall operate as a pilot program for an initial period of twelve months beginning on the date the County Codes Administration ~~County Mayor or designee~~ determines that all required approvals, signage, participant authorizations, and operating procedures are in place.

~~Before the end of the pilot period, T~~the Codes Administration office and the property owner~~County Mayor or designee~~ shall provide a quarterly report to the Board of Commissioners regarding the operation of the pilot program. The report shall~~may~~ address, as applicable, public safety calls, code enforcement issues, sanitation, litter, pedestrian activity, business participation, complaints, operational problems, event operations, and recommendations for continuation, modification, expansion, suspension, or termination.

SECTION 4. Hours of Operation.

The Belltown Commons PBZ may operate daily from 10:00 a.m. until 10:00 p.m., unless further restricted by state law, County regulation, Beer Board action, TABC requirement, property-owner rule, participant agreement, or other applicable authority.

No person shall consume alcoholic beverages or beer within the PBZ outside the approved hours of operation, except as otherwise permitted by law.

No participating business shall sell or provide alcoholic beverages or beer for PBZ consumption outside the approved hours of operation, except as otherwise permitted by law.

SECTION 5. Approved Participating Businesses.

Only businesses approved by Knox County as PBZ participants may sell or provide alcoholic beverages or beer for consumption within the PBZ.

To participate, a business must:

A. hold all alcoholic beverage, liquor-by-the-drink, beer, food-service, business, and other licenses or permits required by applicable law;

B. be located within or immediately adjacent to the approved PBZ boundary, unless otherwise approved by Knox County and permitted by law;

C. agree in writing in the recorded operational plan to comply with this Resolution, the PBZ operating rules, all TABC requirements, all Knox County Beer Board requirements, and all applicable laws;

D. provide wristbands to participants and use only approved PBZ cups, containers, labels, stickers, or other identification methods;

E. refuse service to underage persons and visibly intoxicated persons;

F. maintain staff training and internal controls sufficient to comply with alcoholic-beverage and beer laws;

G. cooperate with Knox County, law enforcement, the Knox County Beer Board, TABC, and property management concerning PBZ enforcement; and

H. immediately cease PBZ sales if directed to do so by Knox County, law enforcement, the Knox County Beer Board, TABC, or other lawful authority.

Approval as a PBZ participant is a privilege and may be suspended or revoked by Knox County for violation of this Resolution, violation of applicable law, failure to maintain required licenses or permits, public safety concerns, failure to cooperate with enforcement, or other good cause.

The Codes Administration office ~~County Mayor or designee~~ shall maintain and publish a current list of approved participating businesses on the website. Approval as a participating business may be suspended or revoked for violation of applicable law or PBZ rules. Participation in the PBZ program does not require a separate zone-level license from the Knox County Beer Board beyond each participating business's existing required retail beer or alcoholic-beverage permits; however, each participating business remains subject to all applicable Knox County Beer Board rules and licensing conditions.

SECTION 6. Approved PBZ Containers, ~~and~~ Stickers and Wristbands.

Alcoholic beverages and beer sold for PBZ consumption shall be served only in a County-approved PBZ cup or container, or in a container bearing a County-approved PBZ sticker or label.

Each approved PBZ cup, container, sticker, ~~or~~ label, and wristband ~~shall include, at minimum:

A. identification of the PBZ program;

B. identification of the participating business that sold or provided the beverage,

which may be by business logo, printed business name, approved sticker, or other County-approved method;

C. language or markings indicating that the beverage must remain within the PBZ boundary; and

D. any other information required by Knox County, the Knox County Beer Board, TABC, or applicable law.

The sample PBZ signage and container-identification formats shown on Exhibit B are approved as general PBZ identification formats, subject to administrative modification for readability, placement or, regulatory compliance., or updated County branding.

No glass container may be used for PBZ consumption. unless expressly approved by Knox County and permitted by all applicable laws and regulations.

No person may possess an alcoholic beverage or beer within the PBZ in a container that does not comply with this Section, except as otherwise permitted by law.

SECTION 7. Boundary, Signage, and Notice.

The property owner of Belltown Commons Knox County, the property owner, or the PBZ administrator shall install and maintaincause PBZ boundary signage to be installed and maintained at appropriate entrances, exits, and pedestrian transition points.

PBZ signage shall substantially identify:

A. the area as a Pedestrian Beverage Zone;

B. the approved hours of operation;

C. that alcoholic beverages and beer must be finished or discarded before leaving the PBZ area;

D. that outside alcoholic beverages and beer are not permitted within the PBZ unless otherwise allowed by law;

E. a QR code or other link to current PBZ information and rules, where practical; and

F. any other rules required by Knox County, the Knox County Beer Board, TABC, law enforcement, or the PBZ operating plan.

The sign designs attached as Exhibit B are approved as the initial PBZ informational and boundary sign designs, subject to administrative modification for readability, placement or, regulatory compliance., or updated County branding. Boundary signage shall be posted at appropriate exit points to notify pedestrians that alcoholic

beverages may not be carried beyond the approved PBZ boundary.

SECTION 8. Prohibited Conduct.

Within the PBZ, except as otherwise permitted by law, it shall be prohibited for any person to:

A. possess or consume alcoholic beverages or beer outside the approved PBZ hours;

B. leave the PBZ boundary with an open alcoholic beverage or beer container purchased for PBZ consumption;

C. bring alcoholic beverages or beer into the PBZ;

D. possess alcoholic beverages or beer in an unapproved container;

E. possess or consume alcoholic beverages or beer in violation of any applicable law, regulation, license condition, permit condition, posted rule, or lawful order;

F. remove, damage, obscure, or alter PBZ signage, boundary markers, or safety controls; or

G. possess or consume alcoholic beverages or beer within the PBZ if that person is under the minimum age required to purchase or consume alcoholic beverages under applicable Tennessee law.

SECTION 9. Security, Sanitation, Live Events, and Operations.

The PBZ shall operate according to an administrative operating plan approved by the Codes Administration Office. ~~County Mayor or designee~~. The County Mayor or designee shall ~~adopt and~~ file the initial operating plan with the County Clerk within ninety (90) days of the effective date of this Resolution. The operating plan, and any subsequent amendments thereto, shall be approved by the Codes Administration office and filed with the County Clerk and made available for public inspection.

The operating plan may include:

A. PBZ boundary map with approved maximum commercial square footage identified in the operating plan and signage locations;

B. participating-business approval procedures;

C. approved container, sticker, and label specifications;

D. security and law-enforcement coordination;

E. trash, recycling, litter-control, and sanitation procedures;

F. procedures for live music, performances, and other events at the Belltown Commons outdoor amphitheater;

G. procedures for temporary suspension during emergencies, severe weather, overcrowding, construction, public safety concerns, or other operational issues;

H. procedures for complaints, violations, and participant discipline; and

I. any additional rules necessary for safe and orderly operation.

The PBZ shall operate only in accordance with sanitation and waste-disposal measures approved as part of the PBZ operating plan. Such measures may include trash and recycling receptacles, litter control, collection schedules, post-event cleanup, and other measures reasonably necessary to maintain public health, safety, and appearance within the PBZ.

Sanitation and waste-disposal measures may be provided by participating businesses, property owners, event operators, private contractors, or other responsible parties, and nothing in this Resolution shall require the County to provide additional waste-disposal services. ~~unless separately approved~~.

The Codes Administration Office ~~County Mayor or designee~~ may approve administrative modifications to the operating plan, signage placement, participant forms, sticker specifications, event procedures, and similar implementation details, provided such modifications are consistent with this Resolution and applicable law.

SECTION 10. Enforcement.

The Knox County Sheriff's Office, Knox County Codes Administration, the Knox County Beer Board, and any other agency with lawful jurisdiction may enforce applicable laws, regulations, permits, and rules within the PBZ.

Violation of this Resolution or the PBZ operating rules may result in removal from the PBZ, citation, arrest, suspension or revocation of PBZ participant approval, referral to the Knox County Beer Board, referral to TABC, or any other remedy available by law. Nothing herein shall limit the authority of law enforcement to pursue criminal charges under applicable law for conduct that constitutes a criminal offense independent of this Resolution.

The Codes Administration Office ~~County Mayor or designee~~ may temporarily suspend PBZ operations. ~~, in whole or in part, if necessary for public safety, regulatory compliance, emergency response, severe weather, special events, construction, crowd management, or other substantial operational concerns.~~

SECTION 11. Property Owner and Management Responsibilities.

Before PBZ operations begin, the owner or manager of the property included within the PBZ shall provide written consent to the PBZ designation and shall agree to cooperate with Knox County regarding signage, maintenance, sanitation, security, participant coordination, event operations, and enforcement, as applicable under the approved operating plan.

Nothing in this Resolution shall prevent the property owner or manager from imposing stricter rules on the possession or consumption of alcoholic beverages or beer within private property under its control, provided such rules do not conflict with applicable law.

SECTION 12. No Expansion Without Approval.

The Belltown Commons PBZ boundary shall not be expanded beyond the area shown on Exhibit A unless approved by the Board of Commissioners by subsequent resolution or other appropriate legislative action.

Additional PBZ pilot locations may be considered by the Board of Commissioners by separate resolution.

SECTION 13. Compliance With State and Local Law.

This Resolution is intended to operate only to the fullest extent permitted by state and local law.

No provision of this Resolution shall be construed to authorize any sale, service, possession, transportation, or consumption of alcoholic beverages or beer that is prohibited by Tennessee law, federal law, TABC rule, Knox County Beer Board rule, license condition, permit condition, or other applicable authority.

If any approval, license, permit, rulemaking, state authorization, or regulatory action is required before the PBZ may operate, PBZ operations shall not begin until such approval, license, permit, rulemaking, authorization, or regulatory action has been obtained.

SECTION 14. Severability.

If any section, subsection, sentence, clause, phrase, or provision of this Resolution is held invalid or unenforceable by a court of competent jurisdiction, such invalidity shall not affect the remaining portions of this Resolution, which shall remain in full force and effect.

SECTION 15. Effective Date.

This Resolution is to take effect from and after its passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

RESOLUTION NO. _____

A RESOLUTION OF THE BOARD OF COMMISSIONERS OF KNOX COUNTY, TENNESSEE, ESTABLISHING A PEDESTRIAN BEVERAGE ZONE PILOT PROGRAM AND DESIGNATING BELLTOWN COMMONS AS THE INITIAL PEDESTRIAN BEVERAGE ZONE

WHEREAS, Knox County seeks to support orderly economic development, walkable mixed-use areas, local restaurants, small businesses, tourism, and community activity within appropriate commercial districts; and

WHEREAS, Belltown Commons is planned as a mixed-use commercial and community gathering area within the Belltown development, with restaurants, retail uses, pedestrian areas, landscaped open space, parking areas, and an outdoor amphitheater intended to host live music, performances, and other community events; and

WHEREAS, the Board of Commissioners finds that a limited, clearly marked, and locally regulated pedestrian beverage zone may encourage pedestrian activity, support event programming and local businesses, and enhance public enjoyment of designated mixed-use areas while maintaining appropriate public safety controls; and

WHEREAS, the Board of Commissioners desires to establish a pilot program known as the Knox County Pedestrian Beverage Zone program, or "PBZ," under which alcoholic beverages and beer may be purchased from approved participating businesses and consumed only within a clearly defined and marked PBZ boundary; and

WHEREAS, the Board of Commissioners further desires to designate Belltown Commons as the initial pilot location for the PBZ program, subject to the requirements, operating rules, boundaries, signage, container-identification requirements, and enforcement provisions set forth in this Resolution and its exhibits; and

WHEREAS, the Board of Commissioners intends that the PBZ program operate only in compliance with all applicable federal, state, and local laws, and nothing in this Resolution shall be construed to authorize any sale, service, possession, or consumption of alcoholic beverages or beer that is prohibited by state law, the rules of the Tennessee Alcoholic Beverage Commission, the rules of the Knox County Beer Board, or any other applicable regulatory authority; and

WHEREAS, the Board of Commissioners finds that the pilot program should be subject to review after implementation so that the County may evaluate public safety, sanitation, business participation, economic activity, pedestrian circulation, event operations, and compatibility with surrounding uses; and

WHEREAS, the Belltown Commons PBZ is located entirely on privately owned property within unincorporated Knox County, and nothing in this Resolution is intended to authorize or permit the possession or open consumption of alcoholic beverages or beer on any public street, public sidewalk, or public right-of-way.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COMMISSIONERS OF KNOX COUNTY, TENNESSEE:

SECTION 1. Establishment of Pedestrian Beverage Zone Pilot Program.

There is hereby established a Knox County Pedestrian Beverage Zone pilot program, referred to in this Resolution as the "PBZ program."

The purpose of the PBZ program is to allow, within a specifically designated and marked area, eligible persons who are twenty-one years of age or older to purchase alcoholic beverages or beer from approved participating businesses and consume those beverages while walking within the approved PBZ boundary, subject to the terms of this Resolution, all applicable licenses and permits, and all applicable state and local law.

SECTION 2. Designation of Belltown Commons as Pilot PBZ.

Belltown Commons is hereby designated as the initial pilot Pedestrian Beverage Zone.

The approved PBZ boundary shall be the area shown on Exhibit A, attached hereto and incorporated by reference. The PBZ boundary shall include only the area shaded or otherwise identified on Exhibit A and shall not include areas outside the marked boundary.

The PBZ boundary may include sidewalks, pedestrian areas, plazas, landscaped open spaces, parking areas, private common areas, outdoor event areas, and other designated pedestrian areas within Belltown Commons, but only to the extent shown on Exhibit A and permitted by applicable law.

SECTION 3. Pilot Term and Review.

The Belltown Commons PBZ shall operate as a pilot program for an initial period of twelve months beginning on the date the County Mayor or designee determines that all required approvals, signage, participant authorizations, and operating procedures are in place.

Before the end of the pilot period, the County Mayor or designee shall provide a report to the Board of Commissioners regarding the operation of the pilot program. The report may address, as applicable, public safety calls, code enforcement issues, sanitation, litter, pedestrian activity, business participation, complaints, operational problems, event operations, and recommendations for continuation, modification, expansion, suspension, or termination.

SECTION 4. Hours of Operation.

The Belltown Commons PBZ may operate daily from 10:00 a.m. until 10:00 p.m., unless further restricted by state law, County regulation, Beer Board action, TABC requirement, property-owner rule, participant agreement, or other applicable authority.

No person shall consume alcoholic beverages or beer within the PBZ outside the approved hours of operation, except as otherwise permitted by law.

No participating business shall sell or provide alcoholic beverages or beer for PBZ consumption outside the approved hours of operation, except as otherwise permitted by law.

SECTION 5. Approved Participating Businesses.

Only businesses approved by Knox County as PBZ participants may sell or provide alcoholic beverages or beer for consumption within the PBZ.

To participate, a business must:

A. hold all alcoholic beverage, liquor-by-the-drink, beer, food-service, business, and other licenses or permits required by applicable law;

B. be located within or immediately adjacent to the approved PBZ boundary, unless otherwise approved by Knox County and permitted by law;

C. agree in writing to comply with this Resolution, the PBZ operating rules, all TABC requirements, all Knox County Beer Board requirements, and all applicable laws;

D. use only approved PBZ cups, containers, labels, stickers, or other identification methods;

E. refuse service to underage persons and visibly intoxicated persons;

F. maintain staff training and internal controls sufficient to comply with alcoholic-beverage and beer laws;

G. cooperate with Knox County, law enforcement, the Knox County Beer Board, TABC, and property management concerning PBZ enforcement; and

H. immediately cease PBZ sales if directed to do so by Knox County, law enforcement, the Knox County Beer Board, TABC, or other lawful authority.

Approval as a PBZ participant is a privilege and may be suspended or revoked by Knox County for violation of this Resolution, violation of applicable law, failure to maintain required licenses or permits, public safety concerns, failure to cooperate with enforcement, or other good cause.

The County Mayor or designee shall maintain and publish a current list of approved participating businesses. Approval as a participating business may be suspended or revoked for violation of applicable law or PBZ rules. Participation in the PBZ program does not require a separate zone-level license from the Knox County Beer Board beyond each participating business's existing required retail beer or alcoholic-beverage permits; however, each participating business remains subject to all applicable Knox County Beer Board rules and licensing conditions.

SECTION 6. Approved PBZ Containers and Stickers.

Alcoholic beverages and beer sold for PBZ consumption shall be served only in a County-approved PBZ cup or container, or in a container bearing a County-approved PBZ sticker or label.

Each approved PBZ cup, container, sticker, or label shall include, at minimum:

A. identification of the PBZ program;

B. identification of the participating business that sold or provided the beverage, which may be by business logo, printed business name, approved sticker, or other County-approved method;

C. language or markings indicating that the beverage must remain within the PBZ boundary; and

D. any other information required by Knox County, the Knox County Beer Board, TABC, or applicable law.

The sample PBZ signage and container-identification formats shown on Exhibit B are approved as general PBZ identification formats, subject to administrative modification for readability, placement, regulatory compliance, or updated County branding.

No glass container may be used for PBZ consumption unless expressly approved by Knox County and permitted by all applicable laws and regulations.

No person may possess an alcoholic beverage or beer within the PBZ in a container that does not comply with this Section, except as otherwise permitted by law.

SECTION 7. Boundary, Signage, and Notice.

Knox County, the property owner, or the PBZ administrator shall cause PBZ boundary signage to be installed and maintained at appropriate entrances, exits, and pedestrian transition points.

PBZ signage shall substantially identify:

A. the area as a Pedestrian Beverage Zone;

B. the approved hours of operation;

C. that alcoholic beverages and beer must be finished or discarded before leaving the PBZ area;

D. that outside alcoholic beverages and beer are not permitted within the PBZ unless otherwise allowed by law;

E. a QR code or other link to current PBZ information and rules, where practical; and

F. any other rules required by Knox County, the Knox County Beer Board, TABC, law enforcement, or the PBZ operating plan.

The sign designs attached as Exhibit B are approved as the initial PBZ informational and boundary sign designs, subject to administrative modification for readability, placement, regulatory compliance, or updated County branding. Boundary signage shall be posted at appropriate exit points to notify pedestrians that alcoholic beverages may not be carried beyond the approved PBZ boundary.

SECTION 8. Prohibited Conduct.

Within the PBZ, except as otherwise permitted by law, it shall be prohibited for any person to:

A. possess or consume alcoholic beverages or beer outside the approved PBZ hours;

B. leave the PBZ boundary with an open alcoholic beverage or beer container purchased for PBZ consumption;

C. bring alcoholic beverages or beer into the PBZ;

D. possess alcoholic beverages or beer in an unapproved container;

E. possess or consume alcoholic beverages or beer in violation of any applicable law, regulation, license condition, permit condition, posted rule, or lawful order;

F. remove, damage, obscure, or alter PBZ signage, boundary markers, or safety controls; or

G. possess or consume alcoholic beverages or beer within the PBZ if that person is under the minimum age required to purchase or consume alcoholic beverages under applicable Tennessee law.

SECTION 9. Security, Sanitation, Live Events, and Operations.

The PBZ shall operate according to an administrative operating plan approved by the County Mayor or designee. The County Mayor or designee shall adopt and file the initial operating plan with the County Clerk within ninety (90) days of the effective date of this Resolution. The operating plan, and any subsequent amendments thereto, shall be filed with the County Clerk and made available for public inspection.

The operating plan may include:

A. PBZ boundary map and signage locations;

B. participating-business approval procedures;

C. approved container, sticker, and label specifications;

D. security and law-enforcement coordination;

E. trash, recycling, litter-control, and sanitation procedures;

F. procedures for live music, performances, and other events at the Belltown Commons outdoor amphitheater;

G. procedures for temporary suspension during emergencies, severe weather, overcrowding, construction, public safety concerns, or other operational issues;

H. procedures for complaints, violations, and participant discipline; and

I. any additional rules necessary for safe and orderly operation.

The PBZ shall operate only in accordance with sanitation and waste-disposal measures approved as part of the PBZ operating plan. Such measures may include trash and recycling receptacles, litter control, collection schedules, post-event cleanup, and other measures reasonably necessary to maintain public health, safety, and appearance within the PBZ.

Sanitation and waste-disposal measures may be provided by participating businesses, property owners, event operators, private contractors, or other responsible parties, and nothing in this Resolution shall require the County to provide additional waste-disposal services unless separately approved.

The County Mayor or designee may approve administrative modifications to the operating plan, signage placement, participant forms, sticker specifications, event procedures, and similar implementation details, provided such modifications are consistent with this Resolution and applicable law.

SECTION 10. Enforcement.

The Knox County Sheriff's Office, Knox County Codes Administration, the Knox County Beer Board, and any other agency with lawful jurisdiction may enforce applicable laws, regulations, permits, and rules within the PBZ.

Violation of this Resolution or the PBZ operating rules may result in removal from the PBZ, citation, arrest, suspension or revocation of PBZ participant approval, referral to the Knox County Beer Board, referral to TABC, or any other remedy available by law. Nothing herein shall limit the authority of law enforcement to pursue criminal charges under applicable law for conduct that constitutes a criminal offense independent of this Resolution.

The County Mayor or designee may temporarily suspend PBZ operations, in whole or in part, if necessary for public safety, regulatory compliance, emergency response, severe weather, special events, construction, crowd management, or other substantial operational concerns.

SECTION 11. Property Owner and Management Responsibilities.

Before PBZ operations begin, the owner or manager of the property included within the PBZ shall provide written consent to the PBZ designation and shall agree to cooperate with Knox County regarding signage, maintenance, sanitation, security, participant coordination, event operations, and enforcement, as applicable under the approved operating plan.

Nothing in this Resolution shall prevent the property owner or manager from imposing stricter rules on the possession or consumption of alcoholic beverages or beer within private property under its control, provided such rules do not conflict with applicable law.

SECTION 12. No Expansion Without Approval.

The Belltown Commons PBZ boundary shall not be expanded beyond the area shown on Exhibit A unless approved by the Board of Commissioners by subsequent resolution or other appropriate legislative action.

Additional PBZ pilot locations may be considered by the Board of Commissioners by separate resolution.

SECTION 13. Compliance With State and Local Law.

This Resolution is intended to operate only to the fullest extent permitted by state and local law.

No provision of this Resolution shall be construed to authorize any sale, service, possession, transportation, or consumption of alcoholic beverages or beer that is prohibited by Tennessee law, federal law, TABC rule, Knox County Beer Board rule, license condition, permit condition, or other applicable authority.

If any approval, license, permit, rulemaking, state authorization, or regulatory action is required before the PBZ may operate, PBZ operations shall not begin until such approval, license, permit, rulemaking, authorization, or regulatory action has been obtained.

SECTION 14. Severability.

If any section, subsection, sentence, clause, phrase, or provision of this Resolution is held invalid or unenforceable by a court of competent jurisdiction, such invalidity shall not affect the remaining portions of this Resolution, which shall remain in full force and effect.

SECTION 15. Effective Date.

This Resolution shall take effect upon passage, the public welfare requiring it.

A Proposal for a Knox County Pedestrian Beverage Zone

Knox County's Pedestrian Beverage Zone — and the Case for Belltown Commons

A PBZ (Pedestrian Beverage Zone) is the proposed term for a mapped district in Knox County where patrons 21 and older may purchase alcoholic beverages from approved businesses and carry them outside within designated boundaries. Knoxville uses the term DORA for similar zones.

Built-In Audience

Belltown's residential community — spanning single-family homes, townhomes, and apartments — creates a natural customer base for PBZ-participating businesses.

Anchor Licensed Venues

Soccer Taco and Abridged Burger Co. already operate in Belltown Commons with more on the way — the exact cluster of licensed venues a PBZ is designed to serve.

Designed for Outdoor Gathering

A walkable town center with a compact, clearly defined perimeter and an outdoor amphitheater makes Belltown Commons an ideal and manageable PBZ.

A Ready-Made PBZ District

Belltown Commons is a compact, walkable commercial district with clearly defined boundaries, licensed vendors, and outdoor gathering spaces — all the key ingredients for a successful and manageable PBZ.

Anchor Venues

Soccer Taco, Abridged Burger Co., and more

Defined Boundaries

Compact town center with natural signage and entry points

Outdoor Venue

Amphitheater and outdoor greenspace ideal for PBZ activity

Safe & Managed

Daycare and medical office on SW perimeter excluded from zone with buffer

SOCCERTACO
MEXICAN SPORTS BAR · TACOS

ABRIDGED
· TEN BURGER Co USA ·

BELLTOWN COMMONS
PROPOSED ZONE

Example PBZ beverage label

Belltown Commons PBZ: Rules & Guidelines

- **21+ Age Requirement**
  Patrons must be 21 or older to carry beverages within the designated Belltown Commons PBZ boundary.
- **Approved Containers Only**
  Drinks must be served in a can or clear cup with the PBZ label printed or attached as a sticker. No glass containers permitted anywhere in the zone.
- **Stay Within the Zone**
  Beverages may only be consumed within the posted PBZ boundaries and may not leave the zone.
- **Participating Businesses**
  Only Knox County-approved retailers may sell PBZ beverages. Each business applies separately and must post approval signage.
- **Operating Hours**
  The PBZ operates 10 a.m. to 10 p.m. daily. Outside these hours, standard open-container regulations apply.
- **Boundary Signage**
  Entry and exit points must be marked with posted signs. The daycare and medical office parcels on the SW perimeter are excluded from the zone.

AN OPPORTUNITY FOR KNOX COUNTY

Belltown Is Outside City Limits

Belltown Commons sits in Knox County but outside Knoxville city boundaries — meaning Knox County must lead in creating this program.

Knoxville Has Shown the Way

Knoxville recently approved DORAs near Covenant Health Park and Market Square — a proven Tennessee model ready to replicate.

A First for Knox County

No Knox County outdoor refreshment zone currently exists. Belltown Commons is the ideal first: compact boundaries, licensed venues, and a built-in community.

Economic Upside for the County

A Knox County PBZ ordinance would generate new F&B tax revenue, attract visitors from across the region, and strengthen the case for future commercial investment.

Low Risk, High Reward

Knox County can model its ordinance directly on Knoxville's framework, with enforcement, signage, and permit requirements already field-tested nearby.

We ask Knox County Commission to: adopt a PBZ ordinance, designate Belltown Commons as the pilot zone, and authorize participating businesses to apply for PBZ permits.

BELLTOWN

LIVE - WORK - PLAY

Belltown Commons is ready to become Knox County's first Pedestrian Beverage Zone (PBZ). With licensed venues open, a walkable town center, and a built-in community, all the ingredients are in place. We invite Knox County Commission to take the next step and establish the Belltown Commons Pedestrian Beverage Zone.

WHEREAS, pursuant to Article II, Section 2.01 of the Charter of Knox County, Tennessee, the Commission of Knox County, as the Legislative Body of Knox County, Tennessee, is vested with the authority and responsibility to adopt and amend the county budget, to fix county tax rates, and to appropriate county funds for any and all lawful

purposes; and

WHEREAS, on June 15, 2026, the Knox County Commission adopted a consolidated budget and set tax rates based on the tax rate in effect at that time; and

WHEREAS, in accordance with State statutes and procedure, Knox County has recently undergone a reappraisal process; and

WHEREAS, as part of this process, it is necessary to adopt a certified tax rate which is designed to make the reappraisal process revenue neutral; and

WHEREAS, the Knox County Property Assessor has completed the reappraisal calculations and has arrived at a new tax rate based on the reappraisal and the Tennessee State Board of Equalization has reviewed the certified tax rate calculations.

NOW THEREFORE BE IT RESOLVED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

The Knox County Commission hereby accepts the new tax rate certified by the Knox County Property Assessor to be 1.0158, based on the recently completed county-wide reappraisal.

BE IT FURTHER RESOLVED, that the Knox County Tax Rates for the fiscal year beginning July 1, 2026 and ending June 30, 2027, previously adopted by the Knox County Commission on June 15, 2026 by Resolution R-26-6-102-SS, are hereby amended and levied as follows:

Property Taxes:

General Fund	**$0.4592**
Schools General Purpose	**0.2983**
General Debt Service	**0.2583**
Total	**$1.0158**

Other Taxes:

Hotel-Motel Tax

5%

Amusement Tax (outside the corporate limits of the City of Knoxville)

5%

BE IT FURTHER RESOLVED, that all businesses, occupations, and other matters which are declared taxable privileges by the State of Tennessee, as provided by existing effective statutes and laws, are hereby declared taxable privileges for county purpose in Knox County, Tennessee, and at the same

rate and amount shown and provided in the state statutes and laws, to which reference is hereby made, and this Resolution shall also apply to any future effective statutes and laws.

BE IT FURTHER RESOLVED, if any notifications are to be made to effectuate this Resolution, then the County Clerk is hereby requested to forward a copy of this Resolution to the proper authority(s).

BE IT FURTHER RESOLVED, that this Resolution be spread on the minutes of the Commission of Knox County, Tennessee.

BE IT FURTHER RESOLVED, that this Resolution shall take effect as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

Comptroller

August 31, 2026

Honorable Glenn Jacobs
County Mayor, Knox County
400 Main Avenue, Room 615
Knoxville, TN 37902

Re: Certified tax rate concurrence, T.C.A. § 67-5-1701(b) for Knox County

Dear Mayor Jacobs:

We concur with the county certified tax rate of $1.0158 for Knox County. The county may formally determine the certified tax rate and then adopt the actual 2026 tax rate if it will not exceed the certified tax rate. If the certified rate must be exceeded, refer to our step-by-step instructions available through the assessor. It is especially important that any notice of intent to exceed the certified rate be published in the proper form.

Sincerely,

Mr. E. Robin Pope, J.D.
Executive Secretary
State Board of Equalization

cc: Phil Ballard, Knox County Assessor of Property
Chris Caldwell, Knox County Finance/Budget Director

WHEREAS, the Fourth Amendment to the Constitution of the United States and Article I, Sections 7 and 8 of the Constitution of Tennessee recognize and protect the

people's right to be secure in their persons, houses, papers, possessions, and effects against unreasonable searches and seizures; and

WHEREAS, the Knox County Commission recognizes that public safety and the preservation of individual liberty are complementary responsibilities of government, and that both must be protected through careful public policy; and

WHEREAS, advances in surveillance technology provide law enforcement with valuable investigative tools while also creating the potential for broad collection, storage, and analysis of information concerning individuals who are not suspected of criminal activity; and

WHEREAS, the Knox County Commission finds that permanent or fixed Automated License Plate Reader ("ALPR") systems create a countywide surveillance infrastructure capable of continuously collecting information from passing vehicles regardless of whether criminal activity is suspected; and

WHEREAS, the Commission further finds that vehicle-mounted ALPR systems operated by sworn deputies while physically present provide an effective investigative tool while limiting the scope of information collection; and

WHEREAS, the Commission further finds that unmanned aircraft systems ("UAS") provide significant public safety benefits when used in a limited capacity for emergency response, search and rescue, disaster response, hazardous incidents, crime scene documentation, and lawful criminal investigations; and

WHEREAS, it is the intent of this Ordinance to preserve effective law enforcement tools while establishing reasonable limitations upon surveillance technologies in a manner that protects both public safety and the constitutional liberties of the people of Knox County.

NOW, THEREFORE, BE IT ORDAINED BY THE BOARD OF COUNTY COMMISSIONERS OF KNOX COUNTY, TENNESSEE, AS FOLLOWS:

The Code of Knox County, Tennessee, Chapter 42, "Law Enforcement," is hereby amended to add a new Article III entitled "Surveillance Technology Limitations" to read as follows:

SECTION 1. PURPOSE

The purpose of this Ordinance is to establish clear limitations governing the acquisition and deployment of certain surveillance technologies by Knox County government while preserving law enforcement tools necessary to protect public safety and respond to emergencies.

SECTION 2. DEFINITIONS

For purposes of this Ordinance:

A. *Automated License Plate Reader (ALPR)* means any camera or imaging system capable of automatically capturing, photographing, scanning, reading, converting, or analyzing license plate information.

B. *Fixed ALPR* means an ALPR permanently or semi-permanently installed upon a pole, building, bridge, traffic signal, utility structure, roadway, or any other stationary location.

C. *Mobile ALPR* means an ALPR installed upon or within a law enforcement vehicle and operated only while a sworn deputy is physically present in or immediately operating that vehicle.

D. *Unmanned Aircraft System (UAS)* means an aircraft operated without a human occupant aboard together with all associated communications, cameras, sensors, software, and supporting equipment.

SECTION 3. PROHIBITION OF FIXED ALPR SYSTEMS

No department, office, agency, board, commission, employee, or instrumentality of Knox County government shall:

Purchase;
Lease;
Acquire;
Install;
Operate;
Maintain; or
Renew any contract or agreement

for any Fixed Automated License Plate Reader system.

No county-owned property, rights-of-way, buildings, bridges, traffic infrastructure, utility poles, or other county facilities shall be used for the installation or operation of a Fixed ALPR system.

Any existing agreement authorizing the operation of a Fixed ALPR system shall expire according to its existing terms and shall not be renewed or extended.

SECTION 4. AUTHORIZED MOBILE ALPR SYSTEMS

Nothing in this Ordinance shall prohibit the Knox County Sheriff's Office from utilizing Mobile ALPR systems, provided that:

A. The system is installed only upon a Sheriff's Office vehicle.

B. A sworn deputy is physically present in or immediately operating the vehicle whenever the ALPR system is collecting information.

C. The system shall not collect or record license plate information while the vehicle is unattended.

D. Mobile ALPR equipment shall not be deployed or utilized as a stationary or unattended surveillance device.

SECTION 5. AUTHORIZED UNMANNED AIRCRAFT SYSTEMS

The Knox County Sheriff's Office may own, lease, or operate no more than ten (10) Unmanned Aircraft Systems.

These systems may be utilized solely for:

Search and rescue operations;
Emergency response;
Natural disasters;
Hazardous material incidents;
Fire investigations;
Tactical incidents involving an imminent threat to life;
Documentation of crime scenes;
Missing or endangered persons;
Lawful criminal investigations conducted in accordance with applicable law; and
Other legitimate public safety missions authorized by federal and state law.

SECTION 6. PROHIBITED USES OF UNMANNED AIRCRAFT SYSTEMS

County-owned or county-operated Unmanned Aircraft Systems shall not be used for:

A. Generalized or suspicionless surveillance of the public;

B. Continuous monitoring of individuals or private property absent lawful authority;

C. Monitoring lawful political activity, religious activity, peaceful public assemblies, or other constitutionally protected activities absent individualized legal justification;

D. Persistent aerial surveillance conducted for intelligence gathering unrelated to a lawful criminal investigation or emergency response;

E. Automated facial recognition, biometric identification, or similar technologies unless expressly authorized by state or federal law.

SECTION 7. NO CIRCUMVENTION

No Knox County department or employee shall knowingly circumvent the provisions of this Ordinance by requesting or obtaining information collected by another governmental entity or private vendor through means that Knox County would be prohibited from employing directly under this Ordinance, except where such information is lawfully obtained as part of a specific criminal investigation, judicial proceeding, or otherwise authorized by law.

SECTION 8. CONSTRUCTION

Nothing contained herein shall prohibit:

A. Traditional law enforcement observation.

B. Dashboard cameras.

C. Body-worn cameras.

D. Execution of search warrants or court orders.

E. Temporary emergency actions authorized by state or federal law.

F. The lawful receipt of evidence obtained by another governmental agency during a criminal investigation.

SECTION 9. SEVERABILITY

If any section, subsection, sentence, clause, phrase, or provision of this Ordinance is held invalid or unconstitutional by a court of competent jurisdiction, such decision shall not affect the remaining portions of this Ordinance, which shall remain in full force and effect.

SECTION 10. EMERGENCY ORDINANCE.

In the event this Emergency Ordinance receives a majority vote but fails to receive a 2/3 vote of the Commission, the vote shall be considered the first reading of an Ordinance subject to §2.09.B. of the Knox County Charter and will be considered for second reading at the next regularly scheduled meeting of the Commission.

SECTION 11. EFFECTIVE DATE

This Ordinance shall take effect upon passage, as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

WHEREAS, George Washington, in his farewell address reflected on the Christian Faith of our nation by stating that: "With slight shades of difference, you have the same religion, manners, habits, and political principles." ; and

WHEREAS, John Jay, in the midst of the fiery debates leading toward the creation of our Constitution, remarked in Federalist II that "I have as often taken notice that Providence has been pleased to give this one connected country to one united people—a people descended from the same ancestors, speaking the same language, professing the *same religion*, attached to the

same principles of government, very similar in their manners and customs, and who, by their joint counsels, arms, and efforts, fighting side by side throughout a long and bloody war, have nobly established general liberty and independence." (emphasis added) ; and

WHEREAS, Justice of the Supreme Court Joseph Story in his 1833 *Commentaries on the Constitution of the United States* stated in Section 1871. "The real object of the amendment was, NOT to countenance, much less to advance Mahometanism, or Judaism, or infidelity, by prostrating Christianity; but to exclude all rivalry among Christian sects, and to prevent any national ecclesiastical establishment, which should give to an hierarchy the exclusive patronage of the national government."

WHEREAS, Justice of the Supreme Court Joseph Story in his 1833 *Commentaries on the Constitution of the United States* stated in Section 1868. "Probably at the time of the adoption of the constitution, and of the amendment to it, now under consideration, the general, if not the universal, sentiment in America was, that Christianity ought to receive encouragement from the state, so far as was not incompatible with the private rights of conscience, and the freedom of religious worship. An attempt to level all religions, and to make it a matter of state policy to hold all in utter indifference, would have created universal disapprobation, if not universal indignation"

WHEREAS, On October 11, 1798, John Adams wrote to the Massachusetts Militia that "Because We have no Government armed with Power capable of contending with human Passions unbridled by morality and Religion. Avarice, Ambition, Revenge or Gallantry, would break the strongest Cords of our Constitution as a Whale goes through a Net. Our Constitution was made only for a moral and religious people. It is wholly inadequate to the government of any other." ; and

WHEREAS, in *Church of the Holy Trinity v. United States* (1892), the Supreme Court of the United States stated: "[T]his is a Christian nation."; and

WHEREAS, all 13 original colonies had some type of religious test limiting the holding of public office to followers of the Christian faith, and in some cases limited to particular denominations, and understood that this was not a violation of religious liberty as a principle nor the 1st Amendment to the Constitution of the United States as a statute; and

WHEREAS, President of these United States Abraham Lincoln signed into Law in 1862 a bill commonly known as the Morrill Anti-Bigamy Act, in explicit affirmation of this country's acquiescence to the Christian moral framework that has governed Her from the Founding;

WHEREAS, The Association of Religion Data Archives, a data aggregating organization which strives to democratize access to the best data on religion, found either no presence or too small of a presence to measure of any muslim population in the State of Tennessee prior to the year 2000, establishing that the presence of Muslims in this State is a new and disruptive force which is not generally contemplated by existing Tennessee Law and which is necessarily disruptive to the culture and way of life enjoyed by the existing population of Tennessee; and

WHEREAS, our brethren in the nation which produced our founding stock, England, recently produced 2026 Rape Gang Inquiry Report which estimated the number of victims of Muslim rape gangs as over 250,000, and which stated that Muslims "operated under an honour- and shame-based clan code that treated non-Muslim girls, especially white working class girls, as property available for sexual use." Furthermore, the wide-scale abuse was partially due to the "doctrine of Muslim superiority drawn from Quranic verses that position Muslims at the top with a duty to correct non-believers. The gang members' justification for their crimes can be found in the Islamic principles of loyalty and disavowal known as al-walā' wa-l-barā'. It demands enmity towards non-Muslims, the superiority of men over women, forced marriage combined with the absence of any fixed minimum age of consent, the perception of female sexuality as inherently dangerous, a system of sex slavery that authorises sexual relations with non-Muslim captives, and a religiously sanctioned social hierarchy that subjugates conquered non-Muslims. These elements, filtered through clannish immigrant sub-cultures, provided religious justification that enabled the systematic rape and even slaughter of White British girls." which is necessarily dangerous to the culture and way of life enjoyed by the existing population of Tennessee;

NOW THEREFORE BE IT ORDAINED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

Section 1. A new ordinance shall be created under The Knox County Code, Chapter 50, Article I, Sec. 50-4, entitled "Prohibition Of Amplified Islamic Call to Prayer." with subsection (a) to read as follows:

(a) No Islamic call to prayer shall be undertaken in public by any means of amplification, whether electronic or otherwise.

Section 2. Subsection (b) of The Knox County Code, Chapter 50, Article I, Sec. 50-4 shall read as follows:

(b) Any person or organization that violates this ordinance shall be penalized by $1000 fine per violation.

Section 3. This Ordinance shall take effect as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.

WHEREAS, Knox County is experiencing significant population growth, creating

increased demand for single-family housing; and

WHEREAS, it has become a concern that large business entities, such as hedge funds, private equity firms, real estate investment trusts, and corporate landlords, could potentially purchase substantial numbers of single-family homes within Knox County for conversion to rental properties; and

WHEREAS, such bulk purchasing lowers the available supply of single-family homes for individual buyers, drives up purchase prices, and reduces homeownership opportunities for Knox County residents and families; and

WHEREAS, homeownership is one of the most reliable ways for families to build intergenerational wealth and economic stability; and

WHEREAS, Knox County does not wish to restrict the ordinary ownership of property but recognizes a compelling local interest in preventing the manipulation of the local housing market to the detriment of working families and prospective homeowners; and

WHEREAS, the Tennessee General Assembly considered but did not enact SB0242 / HB0298 (114th General Assembly), commonly known as the "Homes not Hedge Funds Act," and Knox County finds it appropriate and within its authority to adopt substantially similar protections at the local level.

NOW THEREFORE BE IT ORDAINED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

SECTION 1. The Code of Knox County, Tennessee, Chapter 53, "Real Property," is hereby amended to add a new Article II entitled "Housing" to read as follows:

ARTICLE II. – HOUSING

Sec. 53-31. – Short title.

This ordinance shall be known and may be cited as the "Knox County Homes Not Hedge Funds Ordinance."

Sec. 53-32. – Findings.

The Knox County Commission finds that:

(a) Knox County is experiencing population growth at levels significantly higher than many comparable Tennessee counties;

(b) It has become a concern that large business entities, such as hedge funds, private equity firms, real estate investment trusts, and corporate landlords, could purchase substantial numbers of single-family homes in Knox County for conversion into rental properties;

(c) Homeownership is recognized as one of the most reliable ways for individuals and families to build wealth and economic security;

(d) The unchecked purchase of single-family homes by large institutional investors undermines the economic stability of Knox County neighborhoods and works against the County's interest in promoting broad-based homeownership; and

(e) Knox County has a compelling interest in regulating local real property transactions to protect the health, safety, and welfare of its residents.

Sec. 53-33. – Definitions.

As used in this Ordinance:

(a) "Affiliate" means any entity that directly or indirectly controls, is controlled by, or is under common control with a person, including any entity in which a person holds a majority ownership or voting interest.

(b) "Person" means any business entity, including but not limited to a corporation, limited liability company, partnership, limited partnership, real estate investment trust, hedge fund, private equity fund, or any other association of persons organized for business purposes. "Person" does not include a natural individual acting in their own name.

(c) "Single-family home" means a detached residential dwelling unit designed and used for occupancy by a single household, including properties zoned or used as single-family residential, located within the unincorporated areas of Knox County.

(d) "Rental purpose" means the intent, at the time of purchase or within twelve (12) months following purchase, to lease or rent the property to one or more tenants for residential occupancy in exchange for compensation.

(e) "Affordable housing" means housing where the total monthly cost, including rent or mortgage, does not exceed thirty percent (30%) of the gross monthly income for households earning at or below eighty percent (80%) of the Area Median Income for Knox County as determined by the U.S. Department of Housing and Urban Development, adjusted for family size.

(f) "Qualifying build-to-rent program" means a program under which a person purchases or constructs newly built single-family homes — meaning homes for which a certificate of occupancy has not been issued prior to the person's acquisition — for the purpose of managing such homes as rental properties, whether within a community composed exclusively of renter-occupied single-family homes or within a community of mixed owner- and renter-occupied single-family homes.

(g) "Large-scale investor" means any person that is a publicly traded company — including any real estate investment trust, corporation, or other publicly traded entity —

whose total market capitalization exceeds One Billion Dollars ($1,000,000,000), as calculated in accordance with Section 53-35(e)(1) of this Ordinance, and that is engaged, in whole or in part, in the business of purchasing, owning, renting, managing, or holding single-family homes within Knox County, provided that:

(1) The market capitalization of any affiliate of such person that is also engaged in the purchase, ownership, management, or rental of single-family homes within Knox County shall be aggregated with the market capitalization of the person for purposes of determining whether the One Billion Dollar ($1,000,000,000) threshold is met;

(2) Any person that meets the definition of "large-scale investor" as of the last trading day of any fiscal quarter shall be treated as a large-scale investor for the entirety of the following fiscal quarter; and

(3) Any privately held entity, limited partnership, hedge fund, private equity fund, or other non-publicly traded investment vehicle shall not qualify for classification as a large-scale investor under this definition, regardless of the estimated or reported value of its assets under management.

(h) "Purchase Contract" as used in Section 53-34(c) means any contract for the purchase and sale of real estate pursuant to which the parties, either under the express terms of said contract or as evidenced by other mutual understanding between them, contemplate the development of property that includes the development, construction, and sale of single-family homes for use as rental properties, regardless of the number of single-family homes sold, and regardless of whether the seller, purchase, builder or their successors in interest currently has a place of business or legal domicile within the State of Tennessee.

Sec. 53-34. – Prohibition.

(a) It shall be unlawful for any person, including any affiliate of such person, to purchase more than one hundred (100) single-family homes within Knox County if such purchases are made primarily for rental purposes.

(b) For purposes of this Section, the number of single-family homes owned by a person shall include all single-family homes owned by any affiliate of that person.

(c) This prohibition applies to all purchase contracts entered into on or after the effective date of this Ordinance.

Sec. 53-35. – Exemptions.

The prohibition in Section 53-34 shall not apply to the following:

(a) Affordable Housing Exemption

Single-family homes purchased or held exclusively for the purpose of providing affordable housing as defined in Section 53-33(e).

(b) Grandfather Clause

Any person who, as of the effective date of this Ordinance, already owns more than one hundred (100) single-family homes within Knox County for rental purposes — provided that such person shall not acquire any additional single-family homes within Knox County for rental purposes beyond the number held on the effective date.

(c) Governmental Entities

Knox County government, the Knox County Land Bank, or any other governmental or quasi-governmental entity.

(d) Domicile / Principal Place of Business Exemption

This Ordinance shall not apply to any person whose principal place of business or legal domicile is located within the State of Tennessee, provided that:

(1) The person's principal executive offices, primary business operations, or registered principal place of business are physically located within the State of Tennessee as evidenced by state business filings with the Tennessee Secretary of State;

(2) The person is not a subsidiary, affiliate, or instrumentality of any entity whose ultimate parent company or controlling entity maintains its principal place of business outside the State of Tennessee; and

(3) The person is majority-owned — meaning more than fifty percent (50%) of its equity, membership interests, partnership interests, or voting shares — by natural persons who are domiciled within the State of Tennessee or by entities that themselves qualify under subsections (1) and (2) above.

This exemption recognizes that Tennessee-domiciled landlords are community stakeholders subject to local taxation, local ordinance, and community accountability in a manner that out-of-state institutional investors are not. The majority ownership requirement in subsection (3) is included to prevent evasion of this Ordinance through the formation of Tennessee-registered shell entities controlled by out-of-state principals.

(e) Market Capitalization Exemption

This Ordinance shall not apply to any person that is a publicly traded company — including any real estate investment trust, corporation, or other publicly traded entity — whose total market capitalization does not exceed One Billion Dollars ($1,000,000,000), provided that:

(1) Market capitalization shall be calculated as the total value of all issued and

outstanding shares or equity interests of the person as of the last trading day of the most recently completed fiscal quarter;
(2) Any person claiming this exemption whose market capitalization subsequently exceeds One Billion Dollars ($1,000,000,000) during any fiscal quarter shall lose eligibility for this exemption as of the first day of the following fiscal quarter, and shall not acquire additional single-family homes within Knox County in violation of Section 53-34 from that date forward;

(3) For the purpose of calculating market capitalization under this Section, the market capitalization of any affiliate shall be aggregated with the market capitalization of the person claiming the exemption if such affiliate is engaged in the purchase, ownership, management, or rental of single-family homes within Knox County;

(4) This exemption shall not apply to any privately held entity, limited partnership, hedge fund, private equity fund, or other non-publicly traded investment vehicle, regardless of the estimated or reported value of assets under management.

This exemption is intended to distinguish smaller publicly accountable real estate companies, whose ownership is broadly dispersed among public shareholders and whose activities are subject to SEC disclosure requirements, from the large institutional investors whose bulk purchasing practices this Ordinance targets. The aggregation requirement in subsection (3) prevents evasion through affiliated structures.

(f) Build-to-Rent Exemption

This Ordinance shall not apply to any person that purchases single-family homes within Knox County pursuant to a qualifying build-to-rent program, subject to the following conditions:

(1) Intent to Rent at the Time of Construction. The build-to-rent exemption applies only to homes which were constructed as a single-family homes intended to be managed as a rental property, whether as part of a community made up exclusively of renter-occupied single-family homes or as part of a community made up of single-family homes that are both owner and renter-occupied. Such communities of rental homes may be sold or transferred to in bulk to other entities or investors and still be subject to this exemption so long as the homes were always leased or intended to be leased at the time of acquisition.

(2) Community Development Requirement. The purchase of existing previously owned and occupied single-family homes for conversion to rental use shall not qualify under this exemption;

(3) Annual Reporting. Any person claiming this exemption shall file an annual report with the Property Assessor no later than March 31 of each year, identifying: the total number of single-family homes acquired under the build-to-rent exemption within

Knox County; the address and year of acquisition of each such home; and the current rental or sale status of each such home. Failure to file shall render the person ineligible for the exemption for the calendar year in which the failure occurs.

The build-to-rent exemption is intended to encourage the construction of new housing supply in Knox County, which serves the public interest in expanding the overall residential housing stock. The intent to rent limitation ensures this exemption cannot be used to justify the bulk acquisition of existing homes that would otherwise be available to individual buyers.

Sec. 53-36. – Enforcement and civil actions.

(a) Attorney General / County Law Director Action.

The Knox County Law Director, in coordination with the Tennessee Attorney General as appropriate, may bring a civil action in Knox County Circuit or Chancery Court against any person believed to violate this Ordinance.

(b) Private Right of Action.

Any Knox County resident who is directly harmed by a violation of this Ordinance, including any individual who was outbid as a reasonable value on or otherwise prevented from purchasing a single-family home in Knox County as a result of a violation, may bring a civil action in Knox County Circuit or Chancery Court.

(c) Penalties and Remedies.

Upon finding a violation, a court may:

(1) Impose a civil penalty of up to $100 per day for each single-family home acquired in violation of this Ordinance;
(2) Award compensatory damages to a prevailing plaintiff;
(3) Award punitive damages in an amount not to exceed $50,000 or three times the total of compensatory damages, costs, and fees, whichever is greater;
(4) Award costs and reasonable attorney's fees to a prevailing plaintiff; and
(5) Grant equitable relief, including injunctive relief requiring divestiture of homes acquired in violation of this Ordinance.

(d) Frivolous Actions.

A court may award a prevailing defendant costs and reasonable attorney's fees if the court finds the action was not well-grounded in fact or law, or was frivolous.

(e) Joinder.

A court may order the joinder of parties for purposes of ensuring a proper accounting of the total number of single-family homes owned by a defendant and any affiliates,

and for proper enforcement of any remedy.

Sec. 53-37. – Annual reporting.

The Knox County Law Director shall report annually to the Knox County Commission on the number of known complaints, investigations, and enforcement actions taken under this Ordinance. The Knox County Property Assessor shall report annually to the Knox County Commission on the status of corporate single-family home ownership within the County.

Sec. 53-38. – Severability.

If any provision of this Ordinance or its application to any person or circumstance is held invalid, the remainder of the Ordinance and its application to other persons or circumstances shall not be affected.

SECTION 2. This Ordinance shall take effect upon passage and approval as provided by the Knox County Charter and applicable Tennessee law, and shall apply to all single-family home purchase contracts entered into on or after that date.

WHEREAS, pursuant to Article II, Section 2.01 of the Charter of Knox County, Tennessee, the Commission of Knox County, as the Legislative Body of Knox County, Tennessee, is vested with the authority and responsibility to adopt and amend the County budget, to fix county tax rates, and to appropriate county funds for any and all lawful

purposes; and

WHEREAS, pursuant to Knox County Code § 2-548 the Commission must adopt a consolidated budget, tax rates, and appropriations on or before midnight on June 30 for the subsequent fiscal year beginning on the 1st day of July; and

WHEREAS, the Commission has determined that it is in the public interest to require that the budget be adopted in two readings, at least seven (7) days apart, to provide ample opportunity for Knox County citizens to provide feedback on the budget before it is adopted.

NOW THEREFORE BE IT ORDAINED BY THE COMMISSION OF KNOX COUNTY AS FOLLOWS:

SECTION 1. The Knox County Code, Chapter 2, Article VIII, Division 4, Section 2-548 entitled "Adoption of consolidated budget, tax rates and appropriations resolution; effect of failure to adopt" is hereby amended by adding three sentences at the end of Section 2-548 to read as follows:

> **The Budget shall be adopted by resolution after two readings, at least seven days apart, with the final reading taking place no later than June 30 of any fiscal year. The Commission may make amendments to the budget proposal proffered by the Mayor at its first reading. At second reading, no new amendments shall be allowed except to reject or remove any amendment adopted at first reading, or to reconsider and adopt an amendment that was proposed but not adopted at first reading, provided such reconsideration requires the affirmative vote of two-thirds (2/3) of the members of the Commission present and voting.**

SECTION 2. This Ordinance shall take effect as provided by the Charter of Knox County, Tennessee, the public welfare requiring it.
