Section I
Executive Summary

EXECUTIVE SUMMARY

Introduction

MGT of America (MGT) is pleased to present the City of La Habra with this summary of findings for the cost of services study for fee-related activities.

The city last underwent a detailed cost of services study in the 2005/2006 fiscal year. Since that time, the city has made some minor adjustments to the original calculations, but has largely maintained the fee structure that was developed as a result of that study. The city is interested in accurately reporting the true cost of providing various fee-related services, and exploring the possibilities of modifying current fees to better reflect the cost of providing services. The city contracted with MGT to perform this cost analysis using the adopted 2014/2015 fiscal year budget and staffing information.

This report is the culmination of a collaborative effort between MGT and city management and staff. MGT would like to take this opportunity to acknowledge all city management and staff who participated on this project for their efforts and coordination. Their responsiveness and continued interest in the outcome of this study contributed greatly to the success of this study.

Study Scope and Objectives

This study included a review of fee-for-service activities within the following departments:

- ❖ Community Development – Planning, Building , and Community Preservation
- ❖ Public Works – Engineering, Traffic Management, NPDES, and Street Maintenance
- ❖ Community Services – Recreation
- ❖ Community Services - Facility Rentals
- ❖ Police
- ❖ Finance
- ❖ City Clerk

The study was performed under the general direction of the City Manager's Office with the participation of the Finance Department and above-mentioned departments. The primary goals of the study were to:

- ❖ Define what it costs the city to provide various fee-related services.
- ❖ Determine whether there are any opportunities to implement new fees.

- ❖ Identify service areas where the city might adjust fees based on the full cost of services and other economic or policy considerations.
- ❖ Develop revenue projections based on recommended increases (or decreases) to fees.
- ❖ Provide a comparison of what other jurisdictions are charging for similar services.

The information summarized in this report addresses each of these issues and provides the City of La Habra with the tools necessary to make informed decisions about possible fee adjustments and the resulting impact on general fund revenues.

Study Findings

While the purpose of this study is to identify the cost of fee-related activities, one of the outcomes of the analysis is to provide a complete picture of the full cost of all services offered. It is necessary to identify *all* costs, whether fee-related or not, so that there is a fair and equitable distribution of all indirect or overhead costs (discussed in a later section of this report) across all activities, thereby ensuring a definitive relationship between the cost of the service and the fee that is charged. No service should be burdened with costs that cannot be directly or indirectly linked to that service. Therefore, the first task in this study is to separate the fee-for-service activities from the non-fee activities. Some non-fee related activities are appropriately funded by general fund monies (or other special revenue or impact fee sources), such as public safety or public improvement projects. The costs of these other services (*column A minus column B*) are identified and set aside from the user fee services.

The study's primary objective is to provide the City's decision-makers with basic data needed for setting fees. This report details the full cost of services, and presents fees and potential revenues. Recommendations for adjustments to existing fees will be made by city management and staff upon careful consideration of the results of the cost analysis, historical cost recovery levels, and market comparisons. The exhibit on the following page displays the costs and revenues of each department/division into the following categories:

Column A, Total Costs – Displays the total costs of each department. This includes fee and non-fee related service costs. Non-fee related service costs are set aside from the analysis. The total cost of the departments is \$21,892,026.

Column B, User Fee Costs – Of the \$21,892,026 million in total costs analyzed, \$4,071,487 million (or 18.60%) of that total is related to user fee services. It is this \$4,071,487 million that is the focus of this study and represents the total potential for user fee-related revenues for the City.

Column C, Current Revenues – Based on current fee levels, the City generates fee related revenues of \$2,326,184 million and is experiencing an overall 57% cost recovery level. Within each department, current cost recovery levels range from 4% in the Finance department to 83% in the Police department. The detail of individual fees may be found in subsequent sections of this report.

Column D, General Fund Subsidy – Current fee levels recovery is 57% of full cost, leaving 43% or \$1,745,303 to be funded by other funding sources. This \$1,745,303 represents an opportunity for an updated and more focused cost recovery effort by the City for fee-related services.

Column E, Cost Recovery Policy – Based on the recommendations made by city staff, the overall cost recovery for the City would increase to 83% or \$3,381,960. Within each department the individual recommendations vary based on economic factors and policy decisions based on the volume of activity and the beneficiary of the service.

Column F, Increased Revenue – Overall, the City would increase their overall revenue for user fee-related services by \$1,055,776. The study's primary objective is to provide the city's decision-makers with basic data needed for setting fees. There is a discussion about economic and policy considerations later in this report which may help facilitate the discussion on what cost recovery levels are appropriate for La Habra. To assist in that discussion, MGT offers the following comments relative to what we have seen in other agencies.

**City of La Habra
User Fee Cost & Revenue Analysis
FY 2014/2015**

User Fee Department	(A) Total Costs	(B) Costs, User Fee Services	(C) Current Revenue	(D) Current Subsidy	(E) Cost Recovery Policy	(F) Increased Revenue
Recreation	\$ 939,734	\$ 848,827	\$ 470,284 55%	\$ 378,543 45%	\$ 551,956 65%	\$ 81,672
Facility Rentals	\$ 227,732	\$ 156,275	\$ 71,442 46%	\$ 84,833 54%	\$ 156,275 100%	\$ 84,833
Police	\$ 15,558,176	\$ 1,088,785	\$ 873,858 80%	\$ 214,927 20%	\$ 1,079,603 99%	\$ 205,745
Finance 166101	\$ 1,137,540	\$ 78,536	\$ 2,785 4%	\$ 75,752 96%	\$ 77,190 98%	\$ 74,406
Finance 182121*	\$ 399,086	\$ 22,718	\$ - 0%	\$ 22,718 100%		
City Clerk	\$ 550,137	\$ 8.18	\$ 6.80 83%	\$ 1.38 17%	\$ 8.18 100%	\$ 1.38

Planning	\$ 1,106,890	\$ 1,005,864	\$ 354,370 35%	\$ 651,494 65%	\$ 724,167 72%	\$ 369,797
Building	\$ 677,864	\$ 677,864	\$ 445,083 66%	\$ 232,781 34%	\$ 667,100 98%	\$ 222,017
Totals:	\$ 21,892,026	\$ 4,071,487	\$ 2,326,184 57%	\$ 1,745,303 43%	\$ 3,381,960 83%	\$ 1,055,776

* This represents analysis for a new fee. If the City decides to adopt this new fee then there will be an increase in revenue.

Analysis Highlights

Public Works: Engineering - The cost analysis for Engineering is showing an overall cost recovery of 56% (\$108,356) and a 44% (\$84,254) subsidy rate. Individual cost recoveries range from 21% to 210%. Any services currently recovering over 100%, will be reduced to a 100% recovery. In general, Engineering is seeking to adjust most fees to at least a 60% full cost recovery. With the recommendations, the current recovery rate would increase to 65% (\$125,661) with a 29% (\$56,080) subsidy rate.

Building Inspection – Because Building Inspection fees are charged based on project valuation, MGT employed a two pronged approach to this analysis.

- ❖ Macro Analysis – The summary located in Section II of this report, compares the total cost of various building permits categories (single family, commercial, multi family, etc.) to total annual revenue. This analysis reveals an overall cost recovery of 66% (\$445,083) and a 34% (\$232,781) subsidy rate.
- ❖ Individual Project Analysis – Because of the wide range in recovery levels, the Building permit table will now be broken into 6 tables in order to calculate fees on a more equitable basis. The permit table will now have the following categories – New Single Family, New Commercial/Industrial, New Multi Family, Tenant Improvement Single Family, Tenant Improvement Commercial/Industrial, and Tenant Improvement Multi Family.
- ❖ In addition to the changes to the permit tables and miscellaneous fee schedules, Building is also recommending a surcharge to all building permits to offset building replacement and general plan update costs. The revenue generated is intended to recover the Community Development portion of the new City Hall and will be set aside for city facility replacements and the update of the general plan. The building replacement surcharge will be \$0.003 per dollar of project valuation and \$0.0044 for the general plan update.

Planning - The cost analysis for Planning is showing an overall cost recovery of 35% (\$354,370) and a 65% (\$651,494) subsidy rate. Individual cost recoveries range from 6% to 85%. Planning is recommending in general that all fees be adjusted to 100% recovery with a few exceptions with fire inspection fees and the entertainment/dance permit and massage/acupressure establishment fees. Our recommendation would be to incrementally increase these fees over time. With these recommendations, the current recovery rate would increase to 72% (\$724,167) with a 28% (\$281,697) subsidy rate.

Recreation – The cost analysis for Recreation is showing an overall cost recovery of 55% (\$470,284) and a 45% (\$378,543) subsidy rate. Typically, Receptions departments do not recover at 100%. With the current recommendations, the recovery rate would increase to 65% or \$551,956 which is an increase in revenue of \$81,672 leaving a 35% or \$296,871 subsidy. We recognize that most Recreation fees are not 100% full cost recovery and are driven by the need and demand for services as well as what is a benefit to the community. The City will need to determine what their "best practices" are when increasing these rates.

Facility Rentals - The cost analysis for Facility Rentals is showing an overall cost recovery of 46% (\$71,442) and a 54% (\$84,833) subsidy rate. The City has indicated that they are currently conducting an internal comparison study to determine what other agencies are charging

and what the market rate is for facility rentals. Based on the results of this comparison study the rental rates can be adjusted to what the market will bear and are not subject to the 100% cost recovery level set by Prop. 26. If the City were to seek a 100% cost recovery in this area, then the current recovery rate would increase to 100% or \$156,275 which is an increase in revenue of \$84,833.

Police – The cost analysis for Police is showing an overall cost recovery of 80% (\$873,858) and a 20% (\$214,927) subsidy rate. Individual cost recoveries range from 18% to over 100%. Our recommendation would be to lower those fees that are current over recovering so they do not exceed the 100% cost recovery level and to increase those fees that are under recovering. We recognize that it is difficult to recovery many of the fees relating to animal services at a 100% cost recovery level and suggest that these fees receive an overall increase of 10%. With our recommendations, the current recovery rate would increase to 99% or \$1,079,603 which is an increase in revenue of \$205,745 leaving a 1% or \$9,182 subsidy.

Finance – The cost analysis for Finance (166101) department is showing a cost recovery of 4% (\$2,785) and a 96% (\$75,752) subsidy rate. There is one fee that is over recovering at 128% and we recommend reducing this to a 100% recovery rate. The two business licenses processing fees have not been charged the last few years due to various lawsuits challenging this fee in other jurisdictions. This accounts for a great deal of the subsidy for this department. The revenue projects are based on the assumption that the City will reinstate the two business license processing fees. This would account for an increase of \$73,300 in revenue. In addition, due to another legal issue in another jurisdiction, the Finance department has been advised by Code Enforcement to suspend the current charge for handbill distribution permits. If the City determines at a future date that they will reinstate these fees, additional analysis will need to be done.

Note: There are two different government codes that pertain to the bad check fees. Civil Code 1719 and Government Code 6157. Government Code 6157 is consistent with Prop. 26 and allows the City to collect the bad check fees at actual cost.

There is one new fee being proposed to add to the Finance fee schedule. This new fee is a door hanger fee that has cross support from Public Works and is developed out of the Finance Water Customer Service (18212) division. By implementing this new fee, the City would gain an additional \$22,718 in revenue.

City Clerk – The cost analysis for the City Clerk's fees is showing minimal cost through user fees. The Entertainment/Dance Permit which had been collected by the City Clerk's department, are for services that have been moved to the Planning department. Some of the fees currently being charged by the City Clerk's department are now available on-line and we recommended removing these fees from the fee schedule. In addition, MGT performed an analysis on the cost per copy and public records certification. MGT recommends that the City discuss whether or not they would like to increase the current per copy fee and implement this cost as a City-wide standard.

Methodology

A cost of service study is comprised of two basic elements:

- ❖ Hourly rates of staff providing the service.
- ❖ Time spent to provide the service.

The product of the hourly rate calculation times the time spent yields the cost of providing the service.

Hourly Rates

The hourly rate methodology used in this study builds indirect costs into city staff hourly salary and benefit rates to arrive at fully burdened hourly rates. Fully burdened hourly rates are a mechanism used to calculate the total cost of providing services. Total cost is generally recognized as the sum of the direct cost together with a proportionate share of allowable indirect costs. The proper identification of all costs (including labor, operating expense, department administration and citywide support) as "direct" or "indirect" is crucial to the determination of the total cost of providing services.

Direct costs are typically defined as those that can be identified specifically to a particular function or activity, including labor, and possibly materials or supplies. Indirect costs are those that support more than one program area and are not easily identifiable to specific activities. Examples of indirect costs are: departmental administrative and support staff, training and education time, public counter and telephone time, some service and supply costs, and citywide overhead costs from outside of the department as identified in the City's cost allocation plan.

MGT's hourly rate calculation methodology includes the following:

Personnel Services Analysis – each staff classification within the department or division is analyzed in the study. The first burden factor is comprised of compensated absences such as vacation/holidays/sick leave days taken in a year's time. Staff classifications are then categorized as either direct (operational) or indirect (administrative or supervisory) labor. In some cases a classification will have both direct and indirect duties. The total indirect portion of staff cost is incorporated into hourly overhead rates.

Indirect Cost Rate – a ratio of indirect cost to direct labor (salaries plus benefits) is established. There are three elements of indirect cost incorporated, including:

- ❖ Indirect Labor – includes compensated absences, administrative and supervisory staff costs.
- ❖ Other Operating Expenses – most services and supplies are included as a second layer of indirect cost. There are some service and supply expenses classified as "allowable direct"; these expenditures are not part of the indirect cost rate but will be included as directly supporting specific program areas.
- ❖ External Indirect Allocations – this represents citywide overhead (from the City's cost allocation plan).

Cost Allocation Plan. Many of the costs that support *all* city programs and services are budgeted in centralized activities such as 1) Finance, which provides payroll, budgeting, accounting and financial reporting, 2) Human Resources, which provides services in support of the city's workforce, and 3) City Manager, which provides administrative oversight to all city operations. The costs of these activities and other centralized services are considered indirect overhead that support fee-for-service activities, as well as other programs and functions within the city.

As part of this study, MGT developed an indirect cost allocation plan that identifies and distributes these indirect costs to all operating programs and functions within the City's organizational structure. The cost allocation plan takes a detailed approach to analyzing indirect costs. MGT interviewed staff and analyzed data within each central activity to determine:

What indirect support functions are provided (e.g. payroll, legal services, building maintenance, etc.).

- ❖ How to allocate centrally budgeted personnel and other operating expenses into these functions.
- ❖ Which departments receive benefit from these services.
- ❖ How to identify the best method of allocating these costs to the users (e.g. information technology services are allocated based on the number of users and applications in each department).

The end result of this analysis is the allocation of all indirect costs to all operating departments and programs. The indirect costs are then added to the direct costs to determine the full cost of all city operations – whether fee-related or not. This accounting exercise is important in that it can result in an increase in general fund revenues for reimbursement of support for user fee services and state or federally funded programs.

Fully Burdened Hourly Rates – incorporates all the elements that comprise the hourly rates used in this cost analysis.

- ❖ Each direct or operational staff classification is listed, together with the average annual salary.
- ❖ The hourly salary rate is calculated by the taking annual salary and dividing by 2,080 available productive hours in a year.
- ❖ The benefit rate reflects the average benefit rate multiplied against the salary rate.
- ❖ The overhead rate is derived by multiplying the internal and external indirect cost rates against the salary plus benefit rates.

The total combines the salary, benefits and overhead rates. This is the fully burdened rate for each staff classification.

MGT prepared indirect overhead rates and corresponding hourly rate calculations using FY 2014/2015 budgeted expenditures. The hourly rate schedules may be seen in **Section III** of this report.

Time Spent

The first step in the process was to identify staff time spent directly on each of the user fee activities. Each staff person involved in the user fee services identified time spent to complete each task associated with all user fee services. Annual volume statistics were also gathered in order to develop total annual workload information. This information is provided in detailed user fee workbooks which will be provided to the City upon completion of the study.

Fee Calculations and Revenue Projections

Given this information, MGT was able to calculate the cost of providing each service, both on a per-unit and total annual basis (per-unit cost multiplied by annual volume equals total annual cost). As mentioned above, costs were calculated by multiplying per-unit time estimates by the hourly labor rates; additional operating expenses directly associated with certain services were also added in. Finally, if other departments or divisions provided support into certain user fee activities, this time was accounted for and added into the analysis as a crossover support activity. Full costs are then compared to current fees/revenues collected, and subsidies (or over-recoveries) are identified. User fee summaries by department may be seen in **Section II** of this report.

Legal, Economic & Policy Considerations

Calculating the true cost of providing city services is a critical step in the process of establishing user fees and corresponding cost recovery levels. Although it is an important factor, other factors must also be given consideration. City decision-makers must also consider the effects that establishing fees for services will have on the individuals purchasing those services, as well as the community as a whole.

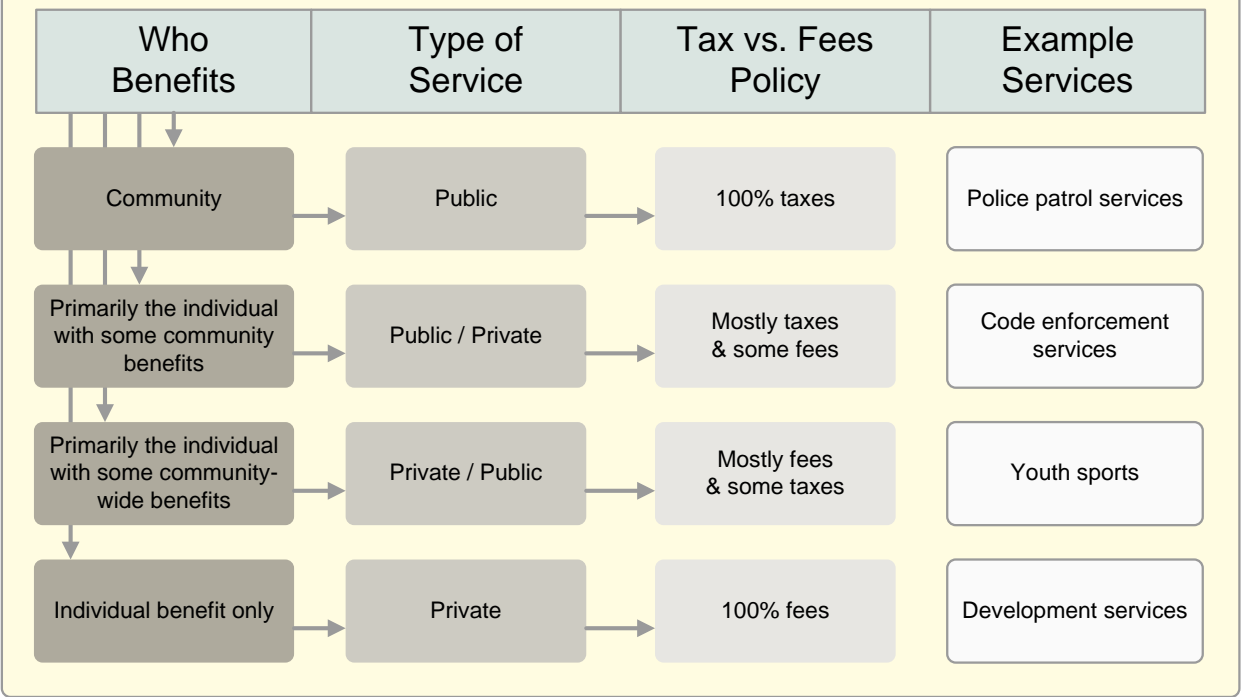

The following legal, economic and policy issues help illustrate these considerations.

- ❖ **State Law** - In California, user fees are limited to the "estimated reasonable cost of providing a service" by Government Code section 66014(a) and other supplementary legislation. Proposition 26 was approved by California voter in November of 2010 and clarified which charges are considered user fees and which are considered taxes. The significance of this distinction is that user fees may be raised by Council action up to the limit of actual cost, whereas taxes may not be increased without a majority vote of the public. None of the fee adjustments recommended by MGT are considered taxes per Proposition 26 guidelines. It should be noted that fees charged for the use of government property are exempt from Proposition 26. These include fees for parks and facility rentals as well as green fees, cart and other equipment rental fees for gold services. All of these fees may be set at a price the market will bear.
- ❖ **Economic barriers** - It may be a desired policy to establish fees at a level that permits lower income groups to use services that they might not otherwise be able to afford.
- ❖ **Community benefit** - If a user fee service benefits the community as a whole to some extent, it is appropriate to subsidize a portion of the fee. Many community services fees have very moderate cost recovery levels. Some programs are provided free of charge or for a minimal fee regardless of cost. Youth and senior programs tend to have the lowest recovery levels. Miscellaneous classes tend to have a moderate cost recovery level and adult sports programs typically have a higher cost recovery level.

- ❖ **Private benefit** - If a user fee primarily benefits the fee payer, the fee is typically set at, or close to 100% full cost recovery. Development related fees generally fall into this category, however exceptions are sometimes made for services such as appeal fees or fees charged exclusively to residential applicants.
- ❖ **Service driver** - In conjunction with the third point above, the issue of who is the service recipient versus the service driver should also be considered. For example, code enforcement activities benefit the community as a whole, but the service is driven by the individual or business owner that violates city code.
- ❖ **Managing demand** - Elasticity of demand is a factor in pricing certain city services; increasing the price of some services results in a reduction of demand for those services, and vice versa.
- ❖ **Competition** - Certain services, such as recreation classes, may be provided by neighboring communities or the private sector, and therefore demand for these services can be highly dependent on what else may be available at lower prices. Furthermore, if the City's fees are too low, demand enjoyed by private-sector competitors could be adversely affected.
- ❖ **Incentives** - Fees can be set low to encourage participation in a service, such as a youth sports activities or a water heater permit.
- ❖ **Disincentives** - Penalties can be instituted to discourage undesirable behavior. Examples include fines for construction without a building permit and fines for excessive false alarms within a one year period.

The flow chart on the following page helps illustrate the economic and policy considerations listed above.

DECISION-MAKING FLOW CHART

Footnotes:

- 1 Fee #4 - Youth Sport Organization (Affiliate Youth Sport Organizations) - The City has chosen to waive the fees and subsidize any cost related to the youth sport affiliate organizations.
- 2 Fee #6 - Fee to Rental Revenue - this is a new fee. This fee is intended to charge for rental of park facilities. The fee for rental of a park facilities can be set at what the market will bear. MGT recommends establishing a rental rate schedule for the park facilities and publishing the fees in the City's fee schedule. This fee is not restricted to full cost recovery under Prop. 218.
- 3 Fee #7 - Fee to Lease Revenue - This is the fee for the lease facility (Tennis Center). This fee should be treated with the same guidelines as facility rentals. The fee can be set at what the market can bear. This fee is not restricted to full cost recovery under Prop. 218.
- 4 Fee #11 - Filming Application Fee - The current fee for a filming application is \$27.95. The full cost recovery for an individual film application is \$87. MGT recommends increasing the current film application fee incrementally over the next few years so that the City will avoid "fee shock" when it comes to their clients. The current recommendation is to increase the fee by 25% to an average of \$35 the first year.
- 5 Fee #13 - Film Permit Vehicle Identification Tab - This fee seems to be set appropriately at \$15 per vehicle. MGT recommends no changes to this current fee.
- 6 Fee #14 - Filming Permits-Public Safety Services has been combined with the pyrotechnics inspections and equipment fees for film permits. MGT recommends that the City continues to charge these fees on an actual cost basis.
- 7 Fee #18 - Military Banners - The current fee is \$300 which is only 38% of the full cost recovery. MGT recommends increasing this fee by 5% which would bring the fee to \$315 and full cost recover of 40%. MGT recommends slowly increasing this fee as the City feels is appropriate in order to reach full cost recovery.

Footnotes:

- 1 The City is currently conducting a comparison study to determine what other agencies are charging and what the market rate is for facility rentals. Based on the results of this comparison study, MGT recommends to set the facility rentals at what the market would bear.

Footnotes:

- Fee #1 & #2 Alarm Permits Initial and Renewal Fees- These fees have combined the application fee plus alarm company connected fee and created the initial alarm permit and renewal alarm permit fees.
- Fee #3 Review of Alarm Response Record/Printout - MGT recommends to remove this fee from the fee schedule as it no longer applies to fee #1 or fee #2.
- Fee #4-7 these fees have been combined with the application fee and are included in fee #1 and 2. MGT recommends that the City remove these fees from the schedule.
- Fee #8 False Alarm Prevention - MGT recommends changing this name to False Alarm Billing. This fee is currently billed on a tiered scale. MGT has determined that the cost to respond to the false alarm is \$68. MGT has provided the Finance department with suggestions as to how they may want to tier the false alarm responses. Tiered Suggestion: 1st-3rd \$0; 4th \$75 ; 5th \$100; 6th \$135; 7th \$180; 8th \$225; 9th \$290

2014/2015

		Current						MGT Recommendations					Comments
		Per Unit			Annual			Per Unit		Annual			
Service Name	Fee Description	Current Fee	Current Recovery %	Full Cost	Annual Cost	Annual Revenue	Annual Subsidy	Recovery Level	Fee @ Policy Level	Annual Revenue	Increased Revenue	Recommended Subsidy	
5	Fee #9 Animal Impound - IVHS - this fee includes the drive time of the animal control officer taking the animal to Inland Valley Humane Society (IVHS) plus the time spent on impounding the animal at the shelter. This fee varies depending upon the type of intake and there is a range of fees that are currently established at the shelter. The City does not retain the impound fee. The fee is retained by the IVHS shelter. MGT recommends to increase the existing impound fees by 10%.												
6	Fee #10, 14, 16, 17, 19, 20, and 22 MGT recommends to increase these fees by 10%.												
7	Fee #11 Animal Licensing Fees (tiered) - The licensing fees are on a tiered system. The information above represents the average cost of a license based off of the total revenue received and the total number of licenses issued. MGT recommends that the licensing fees remain unchanged. Licensing revenues are intended to partially offset the subsidies that the department is experiencing in other areas. They are not subject to the limitations of full cost recovery.												
8	Fee #12 Puppy Licensing fees - MGT recommends that this new fee following the existing licensing fee schedule.												
9	Fee #15 Owner Release Live Animal - the language on the City's fee schedule should be modified to include, "plus the actual cost of euthanasia services, if applicable". In addition, MGT recommends to increase the base fee amount by 10%.												
10	Fee #23 Live Animal Event or Exhibit - no recent activity has been recorded for this permit. MGT recommends that this fee be changed to actual cost and billed at the hourly rates.												
11	Fee # 24 Permit Renewal Without Inspection - is set at 50% of the cost to renew any animal service permit. MGT recommends to continue this fee as currently set.												
12	Fee #25 Pet Shop Kennel Grooming Permit - although this fee is currently listed on the City's fee schedule, it does not appear to be collected by either Finance or the Police department. MGT recommends to delete this from the Police fee schedule and/or the City should revisit the ordinance determine how it would like to move forward.												
13	Fee #28 Bicycle Impoundment - this fee has never been charged and the Police department has requested that it be removed from the City's fee schedule.												
14	Fee #30 Private Party Response - this fee is actually an administration citation for a muni code violation and should be removed from the City's fee schedule.												
15	Fee #34 Concealed Weapons Permits - this is handled through the Sheriff's Department and therefore the fee should be removed from the City's fee schedule.												
16	Fee #35 Report Copies - this should not be a set fee but follow the codes set for a public records request and have a per page charge.												
17	Fee #41 Impounded Vehicle Release - Stolen - This fee is waived by the City and is not collected.												
18	Fee #42 Tapes/Record Research - the Police department indicated that the act of research cannot be charged independently of the charge to provide the requested material. Based off of this information, MGT recommends to remove this fee from the fee schedule.												
19	Fee #43 Tape Copy - MGT recommends changing the name of this fee to reflect "Dispatch Audio"												
20	Fee #45 Subpoena - this fee should be removed from the City's fee schedule.												
21	Fee #47 Entertainment/Dance Permit - the Police department provides cross support to the Planning department for this fee.												
22	Fee #48 Massage/Acupuncture Investigation Fee - This Police department has not performed this activity in recent years and is unable to determine an average time spent or if a fixed fee is the best option. MGT recommends to change the existing massage/acupuncture investigation fee to an hourly rate fee rather than a fixed fee rate.												
23	Fee #49 Bingo Permit Application - the Police department provides cross support to the Finance department for this fee.												
24	Fee #50 CD Photographs - this fee would take the place of providing a copy of a photograph. With today's technology the police department now places the photograph on a CD rather than providing a paper photograph.

- 25 Fee #54 Pawn Broker Permit New Employee/Partner - this fee is the same as the fingerprinting fee #29.
- 26 Fee #56 Storage Fee for Firearms - this is a new proposed fee, allowable under Family Code 6389(E) and Penal Code 12021.3(J)(1).
- 27 Fee #57 Vehicle Repossession Admin Fee - this fee should be removed from the City's fee schedule. There is a state imposed cap of \$15 on vehicle repossessions and there should be no additional administrative fee added to it.
- 28 Fee #58 Towing Service Permit - this is a fee that the Police department has not performed in numerous years and is unable to provide a time estimate for. Due to the inactivity regarding this fee, it is MGT's recommendation that the fee remain the same.

Footnotes:

- Fee #1 Bingo Annual Permit Fee - The City only charges the application fee and does not charge the annual permit fee therefore MGT recommends deleting the annual permit fee from the fee schedule.
- Fee #4, 5, 6 - Handbill Distribution Permit- The Finance department has been advised by Code Enforcement that there is currently a lawsuit regarding charging a permit fee for handbill distribution. The Finance department has not been collecting these fee but has been issuing permits. MGT recommend to continue to suspend the charge pending the outcome of the lawsuit. If the City determines at a future date that they will reinstate these fees additional analysis will need to be done.

User Fee Study Summary Sheet

City of La Habra

Finance - 166101

2014/2015

- 3 Fee #8 - Bad (NSF) Checks - Subs Returned Checks - The City does not track the subsequent returned checks and therefore does not charge this fee. MGT recommends removing this fee from the fee schedule.
- 4 Fee #10 & 11- Business License Administrative Processing Fee - The cost to administer and maintain business licenses is indicated in the cost allocation plan but is not allocated out and therefore the fee can be charged to the City's customers. In addition, the City has not been charging these fees so there should be no loss in revenue by adjusting the renewal fee down to the 100% cost recovery level.
- 5 Fee # 7 - The City has decided to change the name of this fee from Bad (NSF) Checks - 1st Returned Check to Return Check/Item.

User Fee Study Summary Sheet

City of La Habra

General Services - City Clerk

2014/2015

Footnotes:

- 1 Fee #1, 2, 4, and 5 - The information provided in fee #1 & 2 is available online or can be made through a public records request. Fee #4 & 5 are so seldom requested that if a request is made then actual cost to produce the document should be charged. MGT recommends deleting these fees from the fee schedule.
- 2 Fee #3 -This fee is calculated using only the salary and benefits of the staff performing the work, the cost of the DVD and the label. It does not contain any overhead.
- 3 Fee #7 - This fee has been moved to the Planning department to process.
