Commissioner Manley asked staff to clarify if the draft conditions specified that the applicant cannot wash or repair vehicles on site. Associate Planner Lopez said that was correct. Commissioner Manley then asked if there was a condition of approval that limits the number of vehicles that could be stored on the premises. Associate Planner Lopez said there is not. Associate Planner Lopez stated that the number of stored vehicles has never been limited at other business locations, but the number of display vehicles can be limited based on required parking. Commissioner Manley then asked for clarification on the location of the customer parking area. Associate Planner Lopez stated that the customer parking area to be provided includes the three spaces which can be accessed from the westerly driveway. Commissioner Manley expressed concerns for the number of vehicles be stored, but said that if the applicant complied with the required parking requirements, then he was good with their proposed vehicle storage area.

Chair Rojas asked if there was anyone wishing to speak in favor of the project.

Elvira Stepanov, the applicant, addressed the Commission. Ms. Stepanov stated that she along with her partner, started their business in the Los Angeles area in 2018 and have been slowly growing. She further explained that they are capable of conducting vehicle sales online and make vehicle delivers to customers off-site. She noted that their business aims to serve the community and they are happy to be coming to La Habra. Ms. Stepanov said she was happy to answer any questions from the Commission.

Mustafa Bdaiwi, project architect, addressed the Commission. Mr. Bdaiwi stated that the owners have a great business plan in place, as they do well running their other location in Los Angeles and noted that most of their sales take place online which should reduce traffic to their actual site. Mr. Bdaiwi also explained that the applicant would not be using any flags or banners to attract customers. Mr. Bdaiwi also mentioned that there are other successful dealerships on Whittier Boulevard and hopes that the proposed business is successful as well.

The Chair asked if there was anyone wishing to speak in opposition to the project. There were none.
