Chair Rojas asked if any correspondence had been received in regards to the item. Secretary Lopez said none had been received.

Senior Planner Quiroz presented the staff report and noted that staff would take care of minor formatting changes to the resolutions and attachments before the report is presented to City Council. She also introduced the City's consultant, Mark Hoffman who was present to answer any questions from the Commission.

Chair Rojas asked staff for clarification on what criteria is used to identify disadvantaged areas within the City. Senior Planner Quiroz explained that an evaluation of income levels, air pollution levels, health statistics, and social economic background data helps identify areas considered to be disadvantaged.

Mark Hoffman, PlaceWorks Inc., explained that the CalEnviroScreen tool considers population data as well as regional information. Chair Rojas wanted to clarify whether two-thirds of La Habra is considered disadvantaged. Mr. Hoffman said that was correct. Chair Rojas asked if density was one of the factors taken into consideration. Mr. Hoffman responded that density is not a criterion.

Vice Chair Surich asked staff to explain how being within a lower income area correlates with higher pollution impacts. Senior Planner Quiroz said that the data considers different types of pollution, not just air pollution. Mr. Hoffman explained that pollution is looked in at a regional context and therefore, the data does not precisely reflect La Habra's conditions. La Habra is not by any freeways or heavy industry, but the model shows it as being at a disadvantage. Mr. Hoffman noted that all cities must use the CalEnviroScreen data. Additionally, the technical reports were prepared for La Habra which also talk about environmental conditions, but they also offer qualifier information.

Commissioner Mahecha asked if the disadvantaged areas map indicates the levels of environmental impact. Director Kim said she was involved in the development of the CalEnviroScreen and explained that CalEnviroScreen looks at the impact on the communities and not whether the community is

impacting the environment. She explained that there are online resources including an interactive model where anyone can view how each of the contributing environmental factors affect the city and the surrounding area.

Commissioner Mahecha thanked staff for conducting the community workshops in preparation for the General Plan amendments and thanked Mr. Hoffman for his presentation.

Chair Rojas opened the public hearing and asked if there was anyone wishing to speak in favor of the proposed amendments. Seeing no one in the audience, Chair Rojas closed the public hearing and asked the Commission to begin a discussion or entertain a motion.

Moved by Vice Chair Surich and seconded by Commissioner Mahecha, Approving Resolution No. 23-24 Entitled: A RESOLUTION OF THE PLANNING COMMISSION OF THE CITY OF LA HABRA, CALIFORNIA, RECOMMENDING THAT THE CITY COUNCIL APPROVE GENERAL PLAN AMENDMENT 23-01 TO: (1) AMEND CHAPTER 2 (COMMUNITY DEVELOPMENT) AND APPENDIX C (GLOSSARY OF TERMS) TO PROVIDE CONSISTENCY WITH THE HOUSING ELEMENT; (2) AMEND CHAPTER 7 (COMMUNITY SAFETY) AND ADD NEW APPENDICES D (CLIMATE CHANGE VULNERABILITY ASSESSMENT) AND E (HEALTH AND ENVIRONMENTAL EQUITY ASSESSMENT) TO COMPLY WITH GOVERNMENT CODE SECTION 65302(G) AND SENATE BILL 1000 (2016) RELATED TO WILDFIRE AND EMERGENCY PREPAREDNESS, CLIMATE CHANGE ADAPTATION, AND ENVIRONMENTAL JUSTICE; AND (3) AMEND CHAPTER 8 (IMPLEMENTATION MANUAL) TO INCLUDE THE NEW POLICIES AND ADD NEW PROGRAMS AS PART OF THE UPDATES TO CHAPTER 2 (DEVELOPMENT) AND CHAPTER 7 (COMMUNITY SAFETY); AND MAKE A DETERMINATION THAT GENERAL PLAN AMENDMENT 23-01 IS EXEMPT FROM THE CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA) UNDER SECTION 15061(B)(3) (COMMON SENSE EXEMPTION) OF THE CEQA GUIDELINES.
