RE: Request for Approval for Facility Projects

Hello Leslie,

The City of La Habra, Child Development Division is requesting for your approval to complete the following project at the **Claire Brown Center (CBC) Address: 305 S. Euclid Street, La Habra, CA 90631:**

Project: Removal and replacement of the playground structure and surface.

Justification: The playground structure and ground surface at this site is currently in poor condition and in need of repair. This project includes the removal of the current pour in place and playground structure surface and replacing it with new surface material and a new structure. There are three classrooms at this facility that serve only the CCTR School Age Program/ The estimate for the CCTR apportioned cost would be **100%** of the total approximately **\$206,681.71**. This cost includes removing all ground cover and climbing structure and replacing each with new, updated materials while staying within the same footprint. The current equipment surface is worn and there are holes throughout the ground cover (safety mats). This project would allow for updated safety measures, increased education play, and a better over-all look and feel to our playground. **Procurement policies and procedures for the City of La Habra will be adhered to in the purchase of the materials for this project.**

Please let me know if you need anything else to process this request or if you need to speak to me regarding these projects, you may contact me at (562) 383-4270.

Looking forward to your favorable response regarding these projects.

Thank you,
Johanna Perez
