RE: Request for Approval for Facility Project

Hello Leslie,

The City of La Habra Child Development Division requests your approval to complete the following project at the City of La Habra **Child Development Center (CDC)**. **Site Address:** 401 S. Euclid, La Habra, CA 90631

Project: Removal and replacement of Office Floor by DFS Flooring

Justification: The floor surface inside the 215 N. Euclid Main site is in poor condition and needs replacement and repair. The estimated cost for the CCTR apportionment would be 59% of the total, which is **\$12,209.46**.

This project includes the removal of furniture as needed, demoing existing carpet and vinyl composite tile (VCT), and replacing it with new surface material. This project will stay within the same footprint and cover any provisions for unforeseen costs. The current floor surface has been in place for over 20 years; it is worn, including cracks, uneven surfaces, and stains. If approved, this project would allow for updated safety measures, increased education play, and set a foundation for further improvement while providing a better overall look and feel to our classrooms and site. **Procurement policies and procedures for the City of La Habra will be adhered to when purchasing the above items.**

Please let me know if you need anything else to process this request or if you need to speak to me regarding these projects; you may contact me at (562) 383-4270.

I am looking forward to your favorable response regarding these projects.

Thank you.

DFS Flooring will not be held responsible for any delays related to supply-chain issues or labor shortages.

These delays are beyond our control, therefore DFS Flooring will not accept any back-charges or liquidated damages at this time. *****IMPORTANT NOTICE REGARDING RECENT DELAYS & PRICE INCREASES*****

DFS Flooring guarantees pricing for up to thirty (30) days from the proposal origination date.

The recent global pandemic has caused unprecedented raw material and labor shortages that have disrupted the supply-chain and caused frequent material price increases that have been imposed without notice. To avoid any additional charges due to manufacturer price increases, materials must be formally approved within 30 days from the origination date on the proposal.

DFS Flooring will not be held responsible for any delays related to supply-chain issues or labor shortages.

These delays are beyond our control, therefore DFS Flooring will not accept any back-charges or liquidated damages at this time.

The construction industry is experiencing frequent and prolonged delays from both manufacturing and shipping companies.

Please take these issues into account when placing orders and scheduling your projects. Physical samples for submittals may take in excess of 7 business days to process. Consider processing digital submittals whenever possible.
