

The Honorable City Council Members  
City Manager  
City of La Habra  
101 East La Habra Boulevard  
La Habra, California 90631

8-27-25

Dear Honorable City Council Members,

On behalf of the La Habra City Little League, please accept our sincere gratitude for the upcoming field lighting installation project at the baseball fields at Portola Park. The improvements to the fields are impressive and will significantly enhance the experience for our players and spectators, allowing our youth an opportunity to play for longer hours and for additional months during the year. The lighting will also improve safety and will enhance accessibility, positively impacting the quality of play while fostering a greater love for baseball in the community.

With the lighting project in mind, we acknowledge that the smaller diamond will be removed to allow for the necessary components of the project and for future additional parking. While this smaller field has served a valuable purpose in the past, the importance of optimizing resources and creating the best possible facilities for the community is recognized. Consolidating efforts and focusing on the larger, upgraded diamonds will ultimately lead to a more impactful and sustainable baseball program for the city.

We recognize that this project is a large financial commitment by the City and we cannot thank you enough. The positive impact these upgrades will have on the local baseball community and the use of the improved facilities is anticipated.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jim Barger', written over a horizontal line.

Jim Barger  
President of La Habra City Little League
