Extended School Year (ESY)

Determining ESY and Early Learning for Students with Disabilities:

- ★ Extended School Year refers to special education services that are provided to a student with a disability that are beyond the normal school year of the district.
- ★ Eligibility criteria for services is consistent across all levels: Early Learning - Elementary - Middle - High School - Transition

Regression and Recoupment	Self-Sufficiency	Unique Needs
Significant regression of skills or acquired knowledge from the student's level of performance on the annual goals that require more than the length of the break-in instruction to recoup . The targeted goals must be critical to the student's educational progress.	Services are needed for the student to attain and maintain self-sufficiency because of the critical nature of the skill. In other words, the student has just attained or is on the verge of attaining a critically developing milestone.	The IEP team otherwise determines, given the student's unique needs, that ESY services are necessary to ensure the pupil receives a free and appropriate education. Services deemed necessary should be held to a high standard.

Extended School Year (ESY)

Service model changes in response to the COVID-19 pandemic:

- ★ **Additional Service Time:** K-12 ESY service duration extended by 1 hour each day (Additional 16 hours total)
- ★ **Additional Staffing/Resources:**
 - Due to mental health needs, district mental health coverage through school psychologists, social workers, and counselors was a new component added to the ESY program
 - Due to student attendance, a need for credit recovery opportunities for graduation progress with additional special education support was added to summer programming
 - Due to limited community participation/work-based learning opportunities during the school year, extended partnerships with community work sites were added
 - Due to identified barriers to participation, increased transportation options were made available to families participating in Camp Ready Set Go.
- ★ **Adjusted Schedules:** Preschool services were delivered in a continuous 4-week model (July 19-August 12)
- ★ **Flexible Learning Models:** Due to student medical/health needs, a hybrid model (in-person and virtual learning) to accommodate distance learning for students with significant medical conditions
