DISCLAIMER - Project is design built. Due to the lack of "on site" consultation & supervision, and control over the actual construction process, and release of the various local building code requirements & weather conditions, the architect/owner/contractor ASSUMES NO RESPONSIBILITY in the use of these plans for any damages. This includes structural failures due to any deficiencies, omissions, or errors in the design or blueprints. It is recommended you consult with a local building official and/or inspector prior to the start of construction. General Contractor shall verify all existing dimensions and field conditions prior to existing or installing any materials. Notify designer/architect if conditions, materials, sizes or dimensions are different from what is shown on documents. Check reference plans with all other consultation sets. All construction materials shall be installed in accordance with manufacturers current specifications and industry standards. All construction components shall meet adopted code requirements.
