RESOLUTION RECEIVING FEASIBILITY REPORT, ORDERING PLANS AND SPECIFICATIONS, AND AUTHORIZING SOLICITATION OF CONTRACTOR QUOTES FOR CAPITAL IMPROVEMENT PROJECT 11264 – WRRF SECONDARY SCUM PIT MODIFICATIONS

WHEREAS, the City of Mankato owns and operates the Mankato Water Resource Recovery Facility (WRRF); and

WHEREAS, the City has identified improvements to the existing secondary scum handling system to improve operational reliability, reduce maintenance requirements, and optimize treatment plant operations; and

WHEREAS, the proposed improvements include abandonment of the existing secondary scum pumping system and installation of a gravity-flow conveyance system for routing secondary scum to the interceptor sewer; and

WHEREAS, City staff has completed a feasibility report and concluded that the proposed modification is technically feasible, cost-effective, and consistent with the City's long-term asset management strategy for maintaining reliable wastewater treatment; and

WHEREAS, the estimated total project cost is One Hundred Ninety Four Thousand Seven Hundred Ten Dollars ($194,710.00), including construction, contingency, engineering, and administrative costs, to be funded entirely through the Water Resource Recovery Facility (WRRF) Capital Budget; and

WHEREAS, the City desires to obtain competitive contractor quotes for the construction of the proposed improvements;

NOW, THEREFORE, BE IT RESOLVED by the Council for the City of Mankato, Minnesota, that the City Manager is authorized to accept the feasibility report, authorize preparation of final plans and specs, and instructed to solicit for contractor quotes for the modifications. Upon receipt of quotes, City staff shall evaluate the proposals to ensure sufficient funds and recommend execution of the contract.

Adopted this 28th day of September 2026.
