Contracted Vendor:
Project#

Our contract with your company has Contract provisions, which allow for renewal of the contract if mutually agreeable.

We would like to renew on a **YEARLY** basis, extending the current term through **10/24/2027**. After which, additional **YEARLY** renewals will be determined based on the current evaluation and award of our current Bid. If your company wishes to renew this contract as described above under the same terms and conditions, please complete the information below and return this form by e-mail to Melanie.Tadlock@mctx.org. Purchasing will then take the matter before the Commissioners' Court of Montgomery County on 09/03/2026 for their consideration. Please respond to this e-mail by 08/13/26.

✓ Yes, I agree to renew our agreement with Montgomery County under the same terms and conditions.

_____ Yes, I agree to renew our agreement with Montgomery County under the same terms and conditions with attached changes.

_____ No, I do not agree to renew our agreement with Montgomery County.

If yes, please provide a Form 1295 along with this renewal form by replying to this e-mail.

As of January 1, 2016, vendors are required to visit the Texas Ethics Commissions (TEC) website (https://www.ethics.state.tx.us/filinginfo/1295/) and file a 1295 Certificate. After creating the form on the TEC website it must be printed, signed, and then forwarded to the governmental entity with whom they have contracts. A 1295 form must be filed with TEC then submitted to Montgomery County for every contract held with a **PRIVATELY** owned company that is approved by our Commissioners' Court. **PUBLICLY** owned companies are exempt from the 1295 requirement. Below are links to helpful videos on how to create your login for first time users and how to create the necessary certificate.

How to create a login

How to create a 1295 Certificate

On-line instructions for the form:
Name of governmental entity is to read: **Montgomery County**
Identification number: 5813
Description is to read: Printing of Election Forms

After receiving the Form 1295 with the Certification Number and Date Filed, please print the form, sign and then e-mail the form 1295 and this Term Contract Renewal Form to Melanie.Tadlock@mctx.org.

CONFLICT OF INTEREST QUESTIONNAIRE

FORM CIQ

For vendor doing business with local governmental entity

This questionnaire reflects changes made to the law by H.B. 23, 84th Leg., Regular Session.

This questionnaire is being filed in accordance with Chapter 176, Local Government Code, by a vendor who has a business relationship as defined by Section 176.001(1-a) with a local governmental entity and the vendor meets requirements under Section 176.006(a).

By law this questionnaire must be filed with the records administrator of the local governmental entity not later than the 7th business day after the date the vendor becomes aware of facts that require the statement to be filed. *See* Section 176.006(a-1), Local Government Code.

A vendor commits an offense if the vendor knowingly violates Section 176.006, Local Government Code. An offense under this section is a misdemeanor.

OFFICE USE ONLY

Date Received

1 **Name of vendor who has a business relationship with local governmental entity.**

AM6 PRINTING + MAILING LLC

2 ☐ **Check this box if you are filing an update to a previously filed questionnaire.** (The law requires that you file an updated completed questionnaire with the appropriate filing authority not later than the 7th business day after the date on which you became aware that the originally filed questionnaire was incomplete or inaccurate.)

3 **Name of local government officer about whom the information is being disclosed.**

_____

Name of Officer

4 **Describe each employment or other business relationship with the local government officer, or a family member of the officer, as described by Section 176.003(a)(2)(A). Also describe any family relationship with the local government officer. Complete subparts A and B for each employment or business relationship described. Attach additional pages to this Form CIQ as necessary.**

A. Is the local government officer or a family member of the officer receiving or likely to receive taxable income, other than investment income, from the vendor?

☐ Yes ☐ No

B. Is the vendor receiving or likely to receive taxable income, other than investment income, from or at the direction of the local government officer or a family member of the officer AND the taxable income is not received from the local governmental entity?

☐ Yes ☐ No

5 **Describe each employment or business relationship that the vendor named in Section 1 maintains with a corporation or other business entity with respect to which the local government officer serves as an officer or director, or holds an ownership interest of one percent or more.**

6 ☐ Check this box if the vendor has given the local government officer or a family member of the officer one or more gifts as described in Section 176.003(a)(2)(B), excluding gifts described in Section 176.003(a-1).

ARTIFICIAL INTELLIGENCE (AI) ADDENDUM TO AGREEMENT/CONTRACT

This **Artificial Intelligence (AI) Addendum** ("AI Addendum") to the Agreement/Contract as previously entered into between the parties hereto (interchangeably referred to as "Agreement" or "Contract" as applicable), is made between Montgomery County, Texas ("County") and AMG PRINTERS /vendor ("Contractor"), parties to said Agreement (referred to individually as a "Party" or collectively as "Parties"), and this AI Addendum is made effective as of the date of last execution herein ("Effective Date"), and deemed attached to, made a part of and incorporated within, the Agreement as of said Effective Date.

WITNESSETH:

WHEREAS, the Texas Legislature in its 89th Legislative Session (2025-2026) enacted various laws and regulations governing the procurement, development, deployment, and/or use of artificial intelligence (AI) systems by Texas state agencies and local governments, including but not limited to provisions enacted under the Texas Responsible Artificial Intelligence Governance Act ("TRAIGA");

WHEREAS, as part of said laws and regulations, the Texas Department of Information Resources (DIR) adopted an AI Code of Ethics ("Code") and certain minimum standards, which Code and minimum standards were adopted, in the form attached and incorporated herewith as **Attachment A**, by the Commissioners Court of Montgomery County, Texas ("Commissioners Court"), on behalf of Montgomery, in a duly held Regular Session on April 23, 2026, as required by Senate Bill 1964 [89(R) (2025-2026)];

WHEREAS, the AI Code of Ethics at 1 TAC 219.11(j)(2)(B) further states:

"(2) Governmental entities: .....

(B) Must ensure their vendors are contractually bound to these AI ethical principles and any relevant laws or regulations governing the use of AI systems....."; and

WHEREAS, in compliance with aforesaid laws and regulations, the Parties hereto mutually desire to execute and effectuate this AI Addendum to the Agreement.

NOW, THEREFORE, in consideration of the mutual covenants, agreements, and benefits set forth herein, the Parties agree as follows:

1. Without affecting any other terms, provisions or attachments in the Agreement, the Parties hereto agree to *add* the following terms in the Agreement (to be added after all currently stated terms but before signatures) as follows:

"Artificial Intelligence (AI)

A. Compliance Requirements. Contractor acknowledges that County, as a governmental entity, is subject to a framework of applicable State and Federal laws with respect to AI systems, including but not limited to, Texas Responsible Artificial Intelligence Governance Act ("TRAIGA") [HB 149 (2025-2026), 89 (R)], the Texas Department of Information Resources (DIR) adopted AI Code of Ethics

("Code")[1] attached and incorporated herewith as **Attachment A**, pursuant to 1 TAC §219.11, Sec. 2054.702(c) and Sec. 2054.703(c) Tex. Govt. Code, and other associated laws, rules and regulations under State and Federal laws, as updated from time to time. Accordingly, Contractor shall be contractually bound by the AI ethical principles and any relevant laws or regulations governing the use of AI systems, to the full extent required by the aforementioned Code and legal framework. Contractor shall, prior to commencing performance under the Agreement/Contract and updating within thirty (30) days of any change(s) during the course of the Agreement/Contract, notify County in writing if an AI system(s) is(are) anticipated to be deployed and/or used for the purposes herein and shall further provide all requested information and specifications in relation to such system deployment and/or usage to County. In the event County determines that such AI system is non-compliant with any statutory requirements applicable to County, Contractor shall fully cooperate with County in adjusting, limiting or eliminating such system's deployment and/or usage from performance under this Agreement, until the deployment/usage reaches said statutory compliance.

B. Heightened Scrutiny AI system's deployment. If contractual performance by Contractor herein involves deployment of a heightened scrutiny AI system, Contractor shall further implement an AI risk management framework such as that published by the National Institute of Standards and Technology or a comparable standard for heightened scrutiny AI systems, shall notify County of such actual or anticipated deployment, shall comply with requirements of the Code and aforementioned legal framework, and shall further cooperate fully with County in the latter's compliance related steps with respect to such AI system, as required under State law and this Agreement."

2. Except as set forth in this AI Addendum, the Agreement is unaffected and shall continue in full force and effect in accordance with its terms. If there is a conflict between this AI Addendum and the Agreement or any earlier addendum(s)/amendment(s), the terms of this AI Addendum will prevail.

3. This AI Addendum shall attach to, be incorporated within and read together with, the Agreement. Both Agreement and AI Addendum shall constitute one agreement.

ARTIFICIAL INTELLIGENCE (AI) ADDENDUM TO AGREEMENT/CONTRACT

This **Artificial Intelligence (AI) Addendum** ("AI Addendum") to the Agreement/Contract as previously entered into between the parties hereto (interchangeably referred to as "Agreement" or "Contract" as applicable), is made between Montgomery County, Texas ("County") and Color Interiors /vendor ("Contractor"), parties to said Agreement (referred to individually as a "Party" or collectively as "Parties"), and this AI Addendum is made effective as of the date of last execution herein ("Effective Date"), and deemed attached to, made a part of and incorporated within, the Agreement as of said Effective Date.

WITNESSETH:

WHEREAS, the Texas Legislature in its 89th Legislative Session (2025-2026) enacted various laws and regulations governing the procurement, development, deployment, and/or use of artificial intelligence (AI) systems by Texas state agencies and local governments, including but not limited to provisions enacted under the Texas Responsible Artificial Intelligence Governance Act ("TRAIGA");

WHEREAS, as part of said laws and regulations, the Texas Department of Information Resources (DIR) adopted an AI Code of Ethics ("Code") and certain minimum standards, which Code and minimum standards were adopted, in the form attached and incorporated herewith as **Attachment A**, by the Commissioners Court of Montgomery County, Texas ("Commissioners Court"), on behalf of Montgomery, in a duly held Regular Session on April 23, 2026, as required by Senate Bill 1964 [89(R) (2025-2026)];

WHEREAS, the AI Code of Ethics at 1 TAC 219.11(j)(2)(B) further states:

"(2) Governmental entities: .....

(B) Must ensure their vendors are contractually bound to these AI ethical principles and any relevant laws or regulations governing the use of AI systems....."; and

WHEREAS, in compliance with aforesaid laws and regulations, the Parties hereto mutually desire to execute and effectuate this AI Addendum to the Agreement.

NOW, THEREFORE, in consideration of the mutual covenants, agreements, and benefits set forth herein, the Parties agree as follows:

1. Without affecting any other terms, provisions or attachments in the Agreement, the Parties hereto agree to *add* the following terms in the Agreement (to be added after all currently stated terms but before signatures) as follows:

"Artificial Intelligence (AI)

A. Compliance Requirements. Contractor acknowledges that County, as a governmental entity, is subject to a framework of applicable State and Federal laws with respect to AI systems, including but not limited to, Texas Responsible Artificial Intelligence Governance Act ("TRAIGA") [HB 149 (2025-2026), 89 (R)], the Texas Department of Information Resources (DIR) adopted AI Code of Ethics

("Code")[1] attached and incorporated herewith as **Attachment A**, pursuant to 1 TAC §219.11, Sec. 2054.702(c) and Sec. 2054.703(c) Tex. Govt. Code, and other associated laws, rules and regulations under State and Federal laws, as updated from time to time. Accordingly, Contractor shall be contractually bound by the AI ethical principles and any relevant laws or regulations governing the use of AI systems, to the full extent required by the aforementioned Code and legal framework. Contractor shall, prior to commencing performance under the Agreement/Contract and updating within thirty (30) days of any change(s) during the course of the Agreement/Contract, notify County in writing if an AI system(s) is(are) anticipated to be deployed and/or used for the purposes herein and shall further provide all requested information and specifications in relation to such system deployment and/or usage to County. In the event County determines that such AI system is non-compliant with any statutory requirements applicable to County, Contractor shall fully cooperate with County in adjusting, limiting or eliminating such system's deployment and/or usage from performance under this Agreement, until the deployment/usage reaches said statutory compliance.

B. Heightened Scrutiny AI system's deployment. If contractual performance by Contractor herein involves deployment of a heightened scrutiny AI system, Contractor shall further implement an AI risk management framework such as that published by the National Institute of Standards and Technology or a comparable standard for heightened scrutiny AI systems, shall notify County of such actual or anticipated deployment, shall comply with requirements of the Code and aforementioned legal framework, and shall further cooperate fully with County in the latter's compliance related steps with respect to such AI system, as required under State law and this Agreement."

2. Except as set forth in this AI Addendum, the Agreement is unaffected and shall continue in full force and effect in accordance with its terms. If there is a conflict between this AI Addendum and the Agreement or any earlier addendum(s)/amendment(s), the terms of this AI Addendum will prevail.

3. This AI Addendum shall attach to, be incorporated within and read together with, the Agreement. Both Agreement and AI Addendum shall constitute one agreement.

CONFLICT OF INTEREST QUESTIONNAIRE

FORM CIQ

For vendor doing business with local governmental entity

This questionnaire reflects changes made to the law by H.B. 23, 84th Leg., Regular Session.

This questionnaire is being filed in accordance with Chapter 176, Local Government Code, by a vendor who has a business relationship as defined by Section 176.001(1-a) with a local governmental entity and the vendor meets requirements under Section 176.006(a).

By law this questionnaire must be filed with the records administrator of the local governmental entity not later than the 7th business day after the date the vendor becomes aware of facts that require the statement to be filed. *See* Section 176.006(a-1), Local Government Code.

A vendor commits an offense if the vendor knowingly violates Section 176.006, Local Government Code. An offense under this section is a misdemeanor.

OFFICE USE ONLY

Date Received

1 **Name of vendor who has a business relationship with local governmental entity.**

Whitener Enterprises, Inc.

2 ☐ **Check this box if you are filing an update to a previously filed questionnaire.** (The law requires that you file an updated completed questionnaire with the appropriate filing authority not later than the 7th business day after the date on which you became aware that the originally filed questionnaire was incomplete or inaccurate.)

3 **Name of local government officer about whom the information is being disclosed.**

N/A

Name of Officer

4 **Describe each employment or other business relationship with the local government officer, or a family member of the officer, as described by Section 176.003(a)(2)(A). Also describe any family relationship with the local government officer. Complete subparts A and B for each employment or business relationship described. Attach additional pages to this Form CIQ as necessary.**

A. Is the local government officer or a family member of the officer receiving or likely to receive taxable income, other than investment income, from the vendor?

☐ Yes ☐ No

B. Is the vendor receiving or likely to receive taxable income, other than investment income, from or at the direction of the local government officer or a family member of the officer AND the taxable income is not received from the local governmental entity?

☐ Yes ☐ No

5 **Describe each employment or business relationship that the vendor named in Section 1 maintains with a corporation or other business entity with respect to which the local government officer serves as an officer or director, or holds an ownership interest of one percent or more.**

6 ☐ Check this box if the vendor has given the local government officer or a family member of the officer one or more gifts as described in Section 176.003(a)(2)(B), excluding gifts described in Section 176.003(a-1).

CERTIFICATE *of* COURSE COMPLETION

Code of Ethics Training for Vendors and Lobbyists

I, Brian Mauck, certify that I have completed the Montgomery County Code of Ethics Training course for vendors and lobbyists that satisfies the legal requirements of the Local Government Code, Section 161.

Certificate is issued effective this 16th day of March, 2026.

THE STATE OF TEXAS
Montgomery County

***NOTICE TO CERTIFICATE HOLDER**: In compliance with §161 of the Texas Local Government Code, vendors and lobbyists must complete this training at least once per year when doing business with Montgomery County, Texas. Upon completion of the required training, a Lobbyist shall register annually with the Montgomery County Human Resources Department on the Lobbyist Registration Form prescribed by the Commission and receive a current Lobbyist Registration Certificate, on or before the date they engage in Lobbying activity with a County Officer or department head. All registration certificates and Certificates of Course Completions expire on December 31st of each year for Lobbyist. Vendors must submit training Certificate of Course Completion annually to the Montgomery County Ethics Committee and with any bidding submissions to the Montgomery County Purchasing Department. All form must be submitted to the Montgomery County Ethics Commission, c/o Montgomery County Human Resources Department, 501 N. Thompson, Suite 400, Conroe TX 77301, Phone (936) 539-7886, Fax (936) 788-8396 and/or to the Montgomery County Purchasing Department, 501 North Thompson, Suite 405 Conroe, Texas 77301, Phone 936-539-7980, Fax 936-760-6976.*

www.mctx.org

Contracted Vendor: Texas Material Group
Project# 23-28

Our contract with your company has Contract provisions, which allow for renewal of the contract if mutually agreeable.

We would like to renew on a **YEARLY** basis, extending the current term through 9/24/2027. After which, additional **YEARLY** renewals will be determined based on the current evaluation and award of our current Bid. If your company wishes to renew this contract as described above under the same terms and conditions, please complete the information below and return this form by e-mail to tara.newman@mctx.org. Purchasing will then take the matter before the Commissioners' Court of Montgomery County on 8/20/2026 for their consideration. Please respond to this e-mail by 8/6/2026.

X Yes, I agree to renew our agreement with Montgomery County under the same terms and conditions.

_____ Yes, I agree to renew our agreement with Montgomery County under the same terms and conditions with attached changes.

_____ No, I do not agree to renew our agreement with Montgomery County.

If yes, please provide a Form 1295 along with this renewal form by replying to this e-mail.

As of January 1, 2016, vendors are required to visit the Texas Ethics Commissions (TEC) website (https://www.ethics.state.tx.us/filinginfo/1295/) and file a 1295 Certificate. After creating the form on the TEC website it must be printed, signed, and then forwarded to the governmental entity with whom they have contracts. A 1295 form must be filed with TEC then submitted to Montgomery County for every contract held with a **PRIVATELY** owned company that is approved by our Commissioners' Court. **PUBLICLY** owned companies are exempt from the 1295 requirement. Below are links to helpful videos on how to create your login for first time users and how to create the necessary certificate.

How to create a login

How to create a 1295 Certificate

On-line instructions for the form:
Name of governmental entity is to read: **Montgomery County**
Identification number: 5809
Description is to read: Bulk Road Materials

After receiving the Form 1295 with the Certification Number and Date Filed, please print the form, sign and then e-mail the form 1295 and this Term Contract Renewal Form to tara.newman@mctx.org.

ARTIFICIAL INTELLIGENCE (AI) ADDENDUM TO AGREEMENT/CONTRACT

This **Artificial Intelligence (AI) Addendum** ("AI Addendum") to the Agreement/Contract as previously entered into between the parties hereto (interchangeably referred to as "Agreement" or "Contract" as applicable), is made between Montgomery County, Texas ("County") and Texas Materials Group/vendor ("Contractor"), parties to said Agreement (referred to individually as a "Party" or collectively as "Parties"), and this AI Addendum is made effective as of the date of last execution herein ("Effective Date"), and deemed attached to, made a part of and incorporated within, the Agreement as of said Effective Date.

WITNESSETH:

WHEREAS, the Texas Legislature in its 89th Legislative Session (2025-2026) enacted various laws and regulations governing the procurement, development, deployment, and/or use of artificial intelligence (AI) systems by Texas state agencies and local governments, including but not limited to provisions enacted under the Texas Responsible Artificial Intelligence Governance Act ("TRAIGA");

WHEREAS, as part of said laws and regulations, the Texas Department of Information Resources (DIR) adopted an AI Code of Ethics ("Code") and certain minimum standards, which Code and minimum standards were adopted, in the form attached and incorporated herewith as **Attachment A**, by the Commissioners Court of Montgomery County, Texas ("Commissioners Court"), on behalf of Montgomery, in a duly held Regular Session on April 23, 2026, as required by Senate Bill 1964 [89(R) (2025-2026)];

WHEREAS, the AI Code of Ethics at 1 TAC 219.11(j)(2)(B) further states:

"(2) Governmental entities: ……..

(B) Must ensure their vendors are contractually bound to these AI ethical principles and any relevant laws or regulations governing the use of AI systems……"; and

WHEREAS, in compliance with aforesaid laws and regulations, the Parties hereto mutually desire to execute and effectuate this AI Addendum to the Agreement.

NOW, THEREFORE, in consideration of the mutual covenants, agreements, and benefits set forth herein, the Parties agree as follows:

1. Without affecting any other terms, provisions or attachments in the Agreement, the Parties hereto agree to *add* the following terms in the Agreement (to be added after all currently stated terms but before signatures) as follows:

"**Artificial Intelligence (AI)**

A. Compliance Requirements. Contractor acknowledges that County, as a governmental entity, is subject to a framework of applicable State and Federal laws with respect to AI systems, including but not limited to, Texas Responsible Artificial Intelligence Governance Act ("TRAIGA") [HB 149 (2025-2026), 89 (R)], the Texas Department of Information Resources (DIR) adopted AI Code of Ethics

("Code")[1] attached and incorporated herewith as **Attachment A**, pursuant to 1 TAC §219.11, Sec. 2054.702(c) and Sec. 2054.703(c) Tex. Govt. Code, and other associated laws, rules and regulations under State and Federal laws, as updated from time to time. Accordingly, Contractor shall be contractually bound by the AI ethical principles and any relevant laws or regulations governing the use of AI systems, to the full extent required by the aforementioned Code and legal framework. Contractor shall, prior to commencing performance under the Agreement/Contract and updating within thirty (30) days of any change(s) during the course of the Agreement/Contract, notify County in writing if an AI system(s) is(are) anticipated to be deployed and/or used for the purposes herein and shall further provide all requested information and specifications in relation to such system deployment and/or usage to County. In the event County determines that such AI system is non-compliant with any statutory requirements applicable to County, Contractor shall fully cooperate with County in adjusting, limiting or eliminating such system's deployment and/or usage from performance under this Agreement, until the deployment/usage reaches said statutory compliance.

B. Heightened Scrutiny AI system's deployment. If contractual performance by Contractor herein involves deployment of a heightened scrutiny AI system, Contractor shall further implement an AI risk management framework such as that published by the National Institute of Standards and Technology or a comparable standard for heightened scrutiny AI systems, shall notify County of such actual or anticipated deployment, shall comply with requirements of the Code and aforementioned legal framework, and shall further cooperate fully with County in the latter's compliance related steps with respect to such AI system, as required under State law and this Agreement."

2. Except as set forth in this AI Addendum, the Agreement is unaffected and shall continue in full force and effect in accordance with its terms. If there is a conflict between this AI Addendum and the Agreement or any earlier addendum(s)/amendment(s), the terms of this AI Addendum will prevail.

3. This AI Addendum shall attach to, be incorporated within and read together with, the Agreement. Both Agreement and AI Addendum shall constitute one agreement.

Attachment A[1]

CHAPTER 219. ARTIFICIAL INTELLIGENCE

The Texas Department of Information Resources (department) adopts 1 Texas Administrative Code (TAC) Chapter 219, Subchapter A, §219.1, and Subchapter B, §219.20 and §219.23, without changes to the proposal as published in the November 7, 2025, edition of the *Texas Register* (50 TexReg 7167). These will not be republished.

The department adopts 1 Texas Administrative Code Chapter 219, Subchapter A, §219.11, and Subchapter B, §§219.21, 219.22 and 219.24, with nonsubstantive changes to the rules as published in the November 7, 2025, edition of the *Texas Register* (50 TexReg 7167) in response to comments received from the public. These sections will be republished.

The adopted rules apply to state agencies, institutions of higher education, and, in limited scope as required by Senate Bill 1964 [89th Session (Regular)], local governments, a term which may include approximately 1,100 rural communities as defined by Texas Government Code § 2006.001(1-a).....

Description of Adopted Changes

Within Subchapter A, the department adopts §219.1 and §219.11, which introduce specialized definitions required by the rule, including the terms "AI--Artificial Intelligence", "Artificial Intelligence System", "Consequential Decision", Controlling Factor", "Department", "Executive Head", Governmental Entities", Heightened Scrutiny Artificial Intelligence System", "Information Resources", "Information Resources Technologies", "Local Government", "Personal Identifying Information (PII)", "Principal Basis", "Unlawful Harm." This subchapter also establishes a code of ethics and the ethical principles of artificial intelligence.

The department adopts subchapter B, §§219.20 - 219.24, which establish the minimum standards required by Texas Government Code § 2054.703 as enacted pursuant to Senate Bill 1964 of the Eighty-ninth Regular Session. In §219.21, the department establishes governmental entity's responsibility to AI Risk Management by designating an AI Risk Officer. In §219.22, the department establishes the requirements for the AI risk assessment for heightened scrutiny AI Systems in which the state agency or local government shall conduct a written AI risk assessment to consider the probability and severity of harm that could occur as the result of implementation of the AI system. In §219.23, the department establishes a vendor's responsibility of conducting an impact assessment of a heightened scrutiny AI system. In §219.24, the department establishes the guidelines for AI framework, policies, and trainings required by Texas Government Code § 2054.703(b)(4) as enacted pursuant to Senate Bill 1964 in the Eighty-ninth Regular Session.

---

SUBCHAPTER A. CODE OF ETHICS AND GENERAL INFORMATION

1 TAC §219.1, §219.11

The amendments are adopted pursuant to Texas Government Code § 2054.052(a), which authorizes the department to adopt rules as necessary to implement its responsibilities under Texas Government Code Chapter 2054, Texas Government Code § 2054.702, which requires the department to establish by rule an AI code of ethics for use by governmental entities, and Texas Government Code § 2054.703, which requires the department to establish minimum risk management and governance standards for the development, procurement, deployment, and use of heightened scrutiny artificial intelligence systems by a state agency or local government.

§219.11. Code of Ethics and the Ethical Principles of Artificial Intelligence.

(a) As required by Texas Government Code § 2054.702, state agencies and local governments shall adopt the AI Code of Ethics established by this section and follow the ethical principles included herein as they procure, develop, deploy, or use artificial intelligence systems.

(b) Preamble

(1) AI systems have the potential to transform the way our state and local governments serve Texans. AI systems can create efficiencies, support economic and scientific advancement, and improve the safety and well-being of our communities. The State of Texas supports the use of AI systems by governmental entities to improve the services they deliver to Texans and to lead in innovative AI adoption in the public sector.

(2) While they have significant potential value, AI systems also pose substantial risks if not implemented ethically and responsibly. AI risks vary based on the system involved, how it is used, and who uses it. AI systems are often trained on large amounts of data from a variety of sources, which can lead to inaccurate outputs. To the extent that AI systems are trained on or used to process PII, they may raise significant privacy concerns, particularly when the systems are deployed outside of a secure government environment. Malicious actors can utilize AI to develop more advanced cyberattacks, bypass security measures, and exploit vulnerabilities in systems. These and other AI risks make it a uniquely challenging technology for governmental entities to use safely, but with appropriate guardrails, governmental entities can limit the risks of AI and secure its many benefits for Texans.

(3) Governmental entities must limit the potential harm of AI systems by managing risk and prioritizing trustworthy and responsible development and deployment of AI consistent with the National Institute of Standards and Technology AI Risk Management Framework. Creating trustworthy AI requires balancing each of these principles based on the identified risks of an AI system and the context in which it is used.

(4) This section articulates the principles of ethical AI implementation that governmental entities must strive for when procuring, developing, designing, or using AI systems.

(c) Human Oversight and Control

(1) Human oversight plays a crucial role in ensuring that AI systems operate ethically. While AI can analyze vast amounts of data much faster--and sometimes more accurately--than humans, it lacks the human judgment necessary to ensure that its decisions align with societal values and the rights granted to individuals under the law. Ensuring human control over AI systems mitigates risks of inaccurate or undesirable outputs and allows for revision of the rules established during development of the system and to the data that supports the system's decision-making.

(2) Governmental entities:

(A) Must deploy AI systems in ways that enable humans to review and analyze inputs and outputs at appropriate intervals throughout the AI lifecycle;

(B) May incorporate a level of human oversight reasonably commensurate to the risks associated with a particular AI system, with heightened scrutiny AI systems requiring increased human oversight relative to lower risk systems; and

(C) Must ensure AI systems can be paused, restricted, or disabled until harmful or inaccurate decision making can be remedied.

(d) Fairness

(1) The data used to develop AI systems must adequately represent the subjects or people about which AI systems make judgments, decisions, or predictions. Incomplete or inaccurate data can result in unlawful harm.

(2) Governmental entities:

(A) Must ensure their use of AI systems does not infringe upon the legally protected rights and liberties of the individuals they serve or result in unlawful harm; and

(B) Must implement data governance practices for AI systems throughout the AI system's lifecycle to ensure fairness.

(e) Accuracy

(1) While AI systems are overall improving in their ability to deliver more accurate results, inaccurate outputs remain a significant risk when using AI systems.

(2) Governmental entities:

(A) Must train their employees to understand the importance of verifying AI outcomes for accuracy;

(B) Must formalize processes for monitoring system accuracy before the deployment of an AI system and throughout its life cycle, as a system's accuracy may change over time; and

(C) Shall, when feasible, implement processes to improve the accuracy of AI systems by training the systems using human feedback or improving retrieval-augmented generation by ensuring the accuracy and relevance of the underlying data used by the tool to develop answers.

(f) Redress

(1) Providing a method for redress will promote public trust in both the AI system and in the entity that deploys it.

(2) Governmental entities:

(A) Must provide a mechanism to seek redress for those impacted when an AI system makes a consequential decision that results in unlawful harm about their rights or access to governmental services;

(B) Must have a designated point of contact for individuals to address when seeking information about an unfair consequential decision; and

(C) Must develop internal procedures to allow employees to identify and remedy negative impacts caused by the use of AI systems.

(g) Transparency

(1) Establishing transparency for AI systems means providing information about the data, models, and outputs of an AI system to both the individuals interacting with the system and those deploying it. Strong transparency practices will build public trust in the AI systems governmental entities use.

(2) Governmental entities:

(A) Must collaborate with developers of AI systems and demand transparency to understand how a system operates, the source of the data the system was trained on, and its intended use cases;

(B) Must strive to understand the capabilities of the system and how it makes decisions;

(C) Must disclose when individuals interact with a public-facing AI system and when an AI system is used to make consequential decisions about their rights or access to governmental services; and

(D) Must never represent AI systems as human when interacting with the public.

(h) Data Privacy

(1) Governmental entities have a responsibility to protect the PII they collect and process about individuals, and both legal and ethical restrictions exist on what PII entities share with third parties. Data privacy principles likewise apply to the PII governmental entities process in and share with AI systems.

(2) The most effective method for protecting PII is through data minimization.

(3) Many AI systems rely on vast amounts of PII to make predictions and decisions. Sharing PII with an AI tool may violate privacy laws and obligations the entity has to the individual, particularly when using a tool outside the governmental entity's secure environment.

(4) Governmental entities:

(A) May collect and maintain only that PII needed for operations and must establish a process to delete PII consistent with records retention schedules and other legal requirements.

(B) Must strive to understand what PII the AI system uses, how that PII has been and will be collected, and how the tool uses, stores, and shares PII with third parties prior to using any government-held PII in an AI system;

(C) Must train employees about the risk of inputting sensitive or PII into publicly available AI systems that use inputs to train the model and share those inputs with other users of the AI system outside of the governmental entity; and

(D) Must strive to practice data minimization and ensure they abide by any purpose limitations granted when the PII was first collected, or as expressly allowed by law.

(i) Security

(1) AI systems are subject to security vulnerabilities. Common security concerns in the AI context may include data poisoning or malicious code injection, exfiltration of models or data within the AI system, and improper access controls that result in unauthorized access to the AI system itself. Secure AI systems will maintain the confidentiality and integrity of the AI system as well as the data it contains even when unexpected events or changes in their environment or use occur.

(2) Governmental entities:

(A) Must monitor, secure, and test AI systems to prevent or limit security attacks; and

(B) Must demand that AI system providers disclose known vulnerabilities and resolutions in a timely manner to the governmental entities deploying those systems.

(j) Accountability and Liability

(1) While governmental entities may delegate tasks and decision making to AI systems, the entities remain accountable for the decisions the AI systems make and the outcomes they produce. Use of AI systems for employment-related tasks or to make consequential decisions poses heightened risks.

(2) Governmental entities:

(A) Must provide training to employees on how to use AI systems in an effective, safe, and ethical way;

(B) Must ensure their vendors are contractually bound to these AI ethical principles and any relevant laws or regulations governing the use of AI systems; and

(C) Must ensure AI systems they deploy comply with the legal obligations they have at both the state and federal level.

(3) When deploying AI systems, governmental entities must establish appropriate retention schedules for the AI system's records and consider the Public Information Act implications related to the storage of data inputs and outputs.

(k) Evaluation

(1) AI systems can change over time, as can the purposes for which they are used.

(2) Governmental entities:

(A) Must establish methods for regular evaluation of AI systems to ensure the systems provide ongoing benefit to the populations they serve; and

(B) Must document such evaluations.

(l) Documentation

(1) Documentation provides a critical element for managing AI risk. Consistent documentation of preliminary assessments, ongoing monitoring and testing, and complaints provides governmental entities insight into the operations and improvements of their AI systems over their lifecycle. Documentation allows entities to evaluate the value of AI systems and determine where best to spend resources in further developing AI solutions.

(2) Governmental entities should maintain records of:

(A) The sources of data used in the AI system; and

(B) How the AI system is modified throughout the system's life cycle.

The agency certifies that legal counsel has reviewed the adoption and found it to be a valid exercise of the agency's legal authority.

SUBCHAPTER B. REQUIRED MINIMUM STANDARDS

1 TAC §§219.20 - 219.24

The amendments are adopted pursuant to Texas Government Code § 2054.052(a), which authorizes the department to adopt rules as necessary to implement its responsibilities under Texas Government Code Chapter 2054, and Texas Government Code § 2157.068(f), which authorizes the department to adopt rules as necessary to implement its responsibilities under Texas Government Code Chapter 2157. This subchapter establishes the minimum standards required by Texas Government Code § 2054.703 as enacted pursuant to Senate Bill 1964 of the Eighty-ninth Regular Session.

§219.21. AI Risk Management.

(a) A state agency or local government shall designate an employee as the AI Risk Officer.

(1) The AI Risk Officer is responsible for promoting ethical AI system procurement, development, deployment, and use within the state agency or local government, consistent with the AI Code of Ethics established by this chapter and the AI Risk Management Framework published by the National Institute of Standards and Technology.

(2) If a state agency or local government deploys a heightened scrutiny AI system, the AI Risk Officer is responsible for ensuring that the risk assessment is completed for that system. The AI Risk Officer shall evaluate the completed risk assessment and ensure that the heightened scrutiny AI system is deployed consistent with the minimum standards established by this chapter.

(3) In filling this role, the state agency or local government may employ an individual solely for this purpose or may add this responsibility to a current employee's existing job duties.

(b) A state agency or local government shall establish a process to identify and inventory all implementations of AI systems that qualify as heightened scrutiny AI systems.

§219.22. AI Risk Assessment for Heightened Scrutiny AI Systems.

(a) Before a state agency or local government develops, procures, deploys, or uses a heightened scrutiny AI system and at the time that a material change is made to the system, the state agency or local government shall conduct a written AI risk assessment to consider the probability and severity of harm that could occur as the result of implementation of the AI system.

(b) The risk assessment shall consider and document:

(1) The AI system's known security risks and mitigation steps available to limit those risks;

(2) The heightened scrutiny AI system's performance metrics relating to accuracy and operational efficiency; and

(3) The heightened scrutiny AI system's transparency, including information about:

(A) The system's algorithms and how the system makes decisions;

(B) The data used to train the system's model; and

(C) The availability of inputs and outputs to monitor the system's decision-making over time.

(c) When a state agency or local government is deploying any heightened scrutiny AI system, the AI Risk Officer shall:

(1) Review the completed written risk assessment prepared for that system prior to system deployment; and

(2) Approve or deny deployment of the system based on the risk and mitigation measures identified by the completed written risk assessment. At a minimum, the AI Risk Officer shall notify the state agency or local government's executive head or their designee of a decision to deploy a heightened scrutiny AI system. A state agency or local government may also establish a process for consultation or final approval by the executive head or their designee, as the state agency or local government determines appropriate.

(d) The state agency or local government shall maintain a record of the completed written risk assessment and all relevant documents for as long as required by the applicable state records retention schedule.

§219.24. Guidelines for Frameworks, Policies, and Trainings.

(a) This section establishes the guidelines required by Texas Government Code § 2054.703(b)(4) as enacted pursuant to Senate Bill 1964 in the Eighty-ninth Regular Session.

(b) When a state agency or local government deploys or uses a heightened scrutiny AI system, they must identify the acceptable use cases for such system, identify its limitations, and adopt an acceptable use policy to prevent uses other than those approved by the agency for the heightened scrutiny artificial intelligence system. All employees must be adequately trained on the acceptable use policy.

(c) A state agency or local government that deploys or uses a heightened scrutiny AI system shall provide employees or contractors who access, use, or manage the heightened scrutiny AI system with training regarding identified risks and appropriate methods for mitigating those risks.

(d) A state agency or local government that contracts with vendors to deploy a heightened scrutiny AI system shall mitigate third party risk by contractually requiring those vendors to implement an AI risk management framework such as that published by the National Institute of Standards and Technology or a comparable standard for heightened scrutiny AI systems.

The agency certifies that legal counsel has reviewed the adoption and found it to be a valid exercise of the agency's legal authority.

Filed with the Office of the Secretary of State on February 26, 2026.

CONFLICT OF INTEREST QUESTIONNAIRE

FORM CIQ

For vendor doing business with local governmental entity

This questionnaire reflects changes made to the law by H.B. 23, 84th Leg., Regular Session.

This questionnaire is being filed in accordance with Chapter 176, Local Government Code, by a vendor who has a business relationship as defined by Section 176.001(1-a) with a local governmental entity and the vendor meets requirements under Section 176.006(a).

By law this questionnaire must be filed with the records administrator of the local governmental entity not later than the 7th business day after the date the vendor becomes aware of facts that require the statement to be filed. *See* Section 176.006(a-1), Local Government Code.

A vendor commits an offense if the vendor knowingly violates Section 176.006, Local Government Code. An offense under this section is a misdemeanor.

OFFICE USE ONLY

Date Received

1 **Name of vendor who has a business relationship with local governmental entity.**

Texas Materials Group, Inc.

2 ☐ **Check this box if you are filing an update to a previously filed questionnaire.** (The law requires that you file an updated completed questionnaire with the appropriate filing authority not later than the 7th business day after the date on which you became aware that the originally filed questionnaire was incomplete or inaccurate.)

3 **Name of local government officer about whom the information is being disclosed.**

N/A

Name of Officer

4 **Describe each employment or other business relationship with the local government officer, or a family member of the officer, as described by Section 176.003(a)(2)(A). Also describe any family relationship with the local government officer. Complete subparts A and B for each employment or business relationship described. Attach additional pages to this Form CIQ as necessary.**

A. Is the local government officer or a family member of the officer receiving or likely to receive taxable income, other than investment income, from the vendor?

☐ Yes ☐ No

B. Is the vendor receiving or likely to receive taxable income, other than investment income, from or at the direction of the local government officer or a family member of the officer AND the taxable income is not received from the local governmental entity?

☐ Yes ☐ No

5 **Describe each employment or business relationship that the vendor named in Section 1 maintains with a corporation or other business entity with respect to which the local government officer serves as an officer or director, or holds an ownership interest of one percent or more.**

6 ☐ Check this box if the vendor has given the local government officer or a family member of the officer one or more gifts as described in Section 176.003(a)(2)(B), excluding gifts described in Section 176.003(a-1).

CONFLICT OF INTEREST QUESTIONNAIRE
For vendor doing business with local governmental entity

A complete copy of Chapter 176 of the Local Government Code may be found at http://www.statutes.legis.state.tx.us/Docs/LG/htm/LG.176.htm. For easy reference, below are some of the sections cited on this form.

Local Government Code § 176.001(1-a): "Business relationship" means a connection between two or more parties based on commercial activity of one of the parties. The term does not include a connection based on:

(A) a transaction that is subject to rate or fee regulation by a federal, state, or local governmental entity or an agency of a federal, state, or local governmental entity;

(B) a transaction conducted at a price and subject to terms available to the public; or

(C) a purchase or lease of goods or services from a person that is chartered by a state or federal agency and that is subject to regular examination by, and reporting to, that agency.

Local Government Code § 176.003(a)(2)(A) and (B):

(a) A local government officer shall file a conflicts disclosure statement with respect to a vendor if:

***

(2) the vendor:

(A) has an employment or other business relationship with the local government officer or a family member of the officer that results in the officer or family member receiving taxable income, other than investment income, that exceeds $2,500 during the 12-month period preceding the date that the officer becomes aware that

(i) a contract between the local governmental entity and vendor has been executed; or

(ii) the local governmental entity is considering entering into a contract with the vendor;

(B) has given to the local government officer or a family member of the officer one or more gifts that have an aggregate value of more than $100 in the 12-month period preceding the date the officer becomes aware that:

(i) a contract between the local governmental entity and vendor has been executed; or

(ii) the local governmental entity is considering entering into a contract with the vendor.

Local Government Code § 176.006(a) and (a-1)

(a) A vendor shall file a completed conflict of interest questionnaire if the vendor has a business relationship with a local governmental entity and:

(1) has an employment or other business relationship with a local government officer of that local governmental entity, or a family member of the officer, described by Section 176.003(a)(2)(A);

(2) has given a local government officer of that local governmental entity, or a family member of the officer, one or more gifts with the aggregate value specified by Section 176.003(a)(2)(B), excluding any gift described by Section 176.003(a-1); or

(3) has a family relationship with a local government officer of that local governmental entity.

(a-1) The completed conflict of interest questionnaire must be filed with the appropriate records administrator not later than the seventh business day after the later of:

(1) the date that the vendor:

(A) begins discussions or negotiations to enter into a contract with the local governmental entity; or

(B) submits to the local governmental entity an application, response to a request for proposals or bids, correspondence, or another writing related to a potential contract with the local governmental entity; or

(2) the date the vendor becomes aware:

(A) of an employment or other business relationship with a local government officer, or a family member of the officer, described by Subsection (a);

(B) that the vendor has given one or more gifts described by Subsection (a); or

(C) of a family relationship with a local government officer.

CERTIFICATE *of* COURSE COMPLETION

Code of Ethics Training for Vendors and Lobbyists

I, Kyle Lewis, certify that I have completed the Montgomery County Code of Ethics Training course for vendors and lobbyists that satisfies the legal requirements of the Local Government Code, Section 161.

Certificate is issued effective this 17th day of January, 2026

THE STATE OF TEXAS
Montgomery County

***NOTICE TO CERTIFICATE HOLDER**: In compliance with §161 of the Texas Local Government Code, vendors and lobbyists must complete this training at least once per year when doing business with Montgomery County, Texas. Upon completion of the required training, a Lobbyist shall register annually with the Montgomery County Human Resources Department on the Lobbyist Registration Form prescribed by the Commission and receive a current Lobbyist Registration Certificate, on or before the date they engage in Lobbying activity with a County Officer or department head. All registration certificates and Certificates of Course Completions expire on December 31st of each year for Lobbyist. Vendors must submit training Certificate of Course Completion annually to the Montgomery County Ethics Committee and with any bidding submissions to the Montgomery County Purchasing Department. All form must be submitted to the Montgomery County Ethics Commission, c/o Montgomery County Human Resources Department, 501 N. Thompson, Suite 400, Conroe TX 77301, Phone (936) 539-7886, Fax (936) 788-8396 and/or to the Montgomery County Purchasing Department, 501 North Thompson, Suite 405 Conroe, Texas 77301, Phone 936-539-7980, Fax 936-760-6976.*

TEXAS COMPTROLLER OF PUBLIC ACCOUNTS

DEBARRED VENDOR LIST

The following vendors shown below are debarred from doing business with the State of Texas, effective from the date of debarment for the length of time indicated. Whether they are listed below or not, the debarred vendors include the vendors' successors in interest as defined in Rule §20.102(b)(4).

Last updated: 04/01/26

Vendor ID Number	Vendor Name/Address	Date of Debarment	Length of Debarment
13840598299	Cobra Food Service, LLC 9000 Heartwood Drive Fort Worth, TX 76244	May 20, 2024	2 Years 3 Months

KELLY VIDAL, CPPO, CPPB, NIGP-CPP

www.mctx.org

Contracted Vendor: Vulcan Materials Company
Project# 23-28

Our contract with your company has Contract provisions, which allow for renewal of the contract if mutually agreeable.

We would like to renew on a **YEARLY** basis, extending the current term through 9/24/2027. After which, additional **YEARLY** renewals will be determined based on the current evaluation and award of our current Bid. If your company wishes to renew this contract as described above under the same terms and conditions, please complete the information below and return this form by e-mail to tara.newman@mctx.org. Purchasing will then take the matter before the Commissioners' Court of Montgomery County on 8/20/2026 for their consideration. Please respond to this e-mail by 8/6/2026.

✓ Yes, I agree to renew our agreement with Montgomery County under the same terms and conditions.

_____ Yes, I agree to renew our agreement with Montgomery County under the same terms and conditions with attached changes.

_____ No, I do not agree to renew our agreement with Montgomery County.

If yes, please provide a Form 1295 along with this renewal form by replying to this e-mail.

As of January 1, 2016, vendors are required to visit the Texas Ethics Commissions (TEC) website (https://www.ethics.state.tx.us/filinginfo/1295/) and file a 1295 Certificate. After creating the form on the TEC website it must be printed, signed, and then forwarded to the governmental entity with whom they have contracts. A 1295 form must be filed with TEC then submitted to Montgomery County for every contract held with a **PRIVATELY** owned company that is approved by our Commissioners' Court. **PUBLICLY** owned companies are exempt from the 1295 requirement. Below are links to helpful videos on how to create your login for first time users and how to create the necessary certificate.

How to create a login

How to create a 1295 Certificate

On-line instructions for the form:
Name of governmental entity is to read: **Montgomery County**
Identification number: 5808
Description is to read: Bulk Road Materials

After receiving the Form 1295 with the Certification Number and Date Filed, please print the form, sign and then e-mail the form 1295 and this Term Contract Renewal Form to tara.newman@mctx.org.

ARTIFICIAL INTELLIGENCE (AI) ADDENDUM TO AGREEMENT/CONTRACT

This **Artificial Intelligence (AI) Addendum** ("AI Addendum") to the Agreement/Contract as previously entered into between the parties hereto (interchangeably referred to as "Agreement" or "Contract" as applicable), is made between Montgomery County, Texas ("County") and Vulcan Construction Materials, LLC Vendor ("Contractor"), parties to said Agreement (referred to individually as a "Party" or collectively as "Parties"), and this AI Addendum is made effective as of the date of last execution herein ("Effective Date"), and deemed attached to, made a part of and incorporated within, the Agreement as of said Effective Date.

WITNESSETH:

WHEREAS, the Texas Legislature in its 89th Legislative Session (2025-2026) enacted various laws and regulations governing the procurement, development, deployment, and/or use of artificial intelligence (AI) systems by Texas state agencies and local governments, including but not limited to provisions enacted under the Texas Responsible Artificial Intelligence Governance Act ("TRAIGA");

WHEREAS, as part of said laws and regulations, the Texas Department of Information Resources (DIR) adopted an AI Code of Ethics ("Code") and certain minimum standards, which Code and minimum standards were adopted, in the form attached and incorporated herewith as **Attachment A**, by the Commissioners Court of Montgomery County, Texas ("Commissioners Court"), on behalf of Montgomery, in a duly held Regular Session on April 23, 2026, as required by Senate Bill 1964 [89(R) (2025-2026)];

WHEREAS, the AI Code of Ethics at 1 TAC 219.11(j)(2)(B) further states:

"(2) Governmental entities: .....

(B) Must ensure their vendors are contractually bound to these AI ethical principles and any relevant laws or regulations governing the use of AI systems....."; and

WHEREAS, in compliance with aforesaid laws and regulations, the Parties hereto mutually desire to execute and effectuate this AI Addendum to the Agreement.

NOW, THEREFORE, in consideration of the mutual covenants, agreements, and benefits set forth herein, the Parties agree as follows:

1. Without affecting any other terms, provisions or attachments in the Agreement, the Parties hereto agree to *add* the following terms in the Agreement (to be added after all currently stated terms but before signatures) as follows:

"Artificial Intelligence (AI)

A. Compliance Requirements. Contractor acknowledges that County, as a governmental entity, is subject to a framework of applicable State and Federal laws with respect to AI systems, including but not limited to, Texas Responsible Artificial Intelligence Governance Act ("TRAIGA") [HB 149 (2025-2026), 89 (R)], the Texas Department of Information Resources (DIR) adopted AI Code of Ethics

("Code")[1] attached and incorporated herewith as **Attachment A**, pursuant to 1 TAC §219.11, Sec. 2054.702(c) and Sec. 2054.703(c) Tex. Govt. Code, and other associated laws, rules and regulations under State and Federal laws, as updated from time to time. Accordingly, Contractor shall be contractually bound by the AI ethical principles and any relevant laws or regulations governing the use of AI systems, to the full extent required by the aforementioned Code and legal framework. Contractor shall, prior to commencing performance under the Agreement/Contract and updating within thirty (30) days of any change(s) during the course of the Agreement/Contract, notify County in writing if an AI system(s) is(are) anticipated to be deployed and/or used for the purposes herein and shall further provide all requested information and specifications in relation to such system deployment and/or usage to County. In the event County determines that such AI system is non-compliant with any statutory requirements applicable to County, Contractor shall fully cooperate with County in adjusting, limiting or eliminating such system's deployment and/or usage from performance under this Agreement, until the deployment/usage reaches said statutory compliance.

B. Heightened Scrutiny AI system's deployment. If contractual performance by Contractor herein involves deployment of a heightened scrutiny AI system, Contractor shall further implement an AI risk management framework such as that published by the National Institute of Standards and Technology or a comparable standard for heightened scrutiny AI systems, shall notify County of such actual or anticipated deployment, shall comply with requirements of the Code and aforementioned legal framework, and shall further cooperate fully with County in the latter's compliance related steps with respect to such AI system, as required under State law and this Agreement."

2. Except as set forth in this AI Addendum, the Agreement is unaffected and shall continue in full force and effect in accordance with its terms. If there is a conflict between this AI Addendum and the Agreement or any earlier addendum(s)/amendment(s), the terms of this AI Addendum will prevail.

3. This AI Addendum shall attach to, be incorporated within and read together with, the Agreement. Both Agreement and AI Addendum shall constitute one agreement.

Printed Name: Melanie Mannigne
Title: Sales Analyst

Attest:

_____
L. Brandon Steinmann, County Clerk

Attachment: **Attachment A**

Attachment A[1]

CHAPTER 219. ARTIFICIAL INTELLIGENCE

The Texas Department of Information Resources (department) adopts 1 Texas Administrative Code (TAC) Chapter 219, Subchapter A, §219.1, and Subchapter B, §219.20 and §219.23, without changes to the proposal as published in the November 7, 2025, edition of the *Texas Register* (50 TexReg 7167). These will not be republished.

The department adopts 1 Texas Administrative Code Chapter 219, Subchapter A, §219.11, and Subchapter B, §§219.21, 219.22 and 219.24, with nonsubstantive changes to the rules as published in the November 7, 2025, edition of the *Texas Register* (50 TexReg 7167) in response to comments received from the public. These sections will be republished.

The adopted rules apply to state agencies, institutions of higher education, and, in limited scope as required by Senate Bill 1964 [89th Session (Regular)], local governments, a term which may include approximately 1,100 rural communities as defined by Texas Government Code § 2006.001(1-a).....

Description of Adopted Changes

Within Subchapter A, the department adopts §219.1 and §219.11, which introduce specialized definitions required by the rule, including the terms "AI--Artificial Intelligence", "Artificial Intelligence System", "Consequential Decision", Controlling Factor", "Department", "Executive Head", Governmental Entities", Heightened Scrutiny Artificial Intelligence System", "Information Resources", "Information Resources Technologies", "Local Government", "Personal Identifying Information (PII)", "Principal Basis", "Unlawful Harm." This subchapter also establishes a code of ethics and the ethical principles of artificial intelligence.

The department adopts subchapter B, §§219.20 - 219.24, which establish the minimum standards required by Texas Government Code § 2054.703 as enacted pursuant to Senate Bill 1964 of the Eighty-ninth Regular Session. In §219.21, the department establishes governmental entity's responsibility to AI Risk Management by designating an AI Risk Officer. In §219.22, the department establishes the requirements for the AI risk assessment for heightened scrutiny AI Systems in which the state agency or local government shall conduct a written AI risk assessment to consider the probability and severity of harm that could occur as the result of implementation of the AI system. In §219.23, the department establishes a vendor's responsibility of conducting an impact assessment of a heightened scrutiny AI system. In §219.24, the department establishes the guidelines for AI framework, policies, and trainings required by Texas Government Code § 2054.703(b)(4) as enacted pursuant to Senate Bill 1964 in the Eighty-ninth Regular Session.

---

SUBCHAPTER A. CODE OF ETHICS AND GENERAL INFORMATION

1 TAC §219.1, §219.11

The amendments are adopted pursuant to Texas Government Code § 2054.052(a), which authorizes the department to adopt rules as necessary to implement its responsibilities under Texas Government Code Chapter 2054, Texas Government Code § 2054.702, which requires the department to establish by rule an AI code of ethics for use by governmental entities, and Texas Government Code § 2054.703, which requires the department to establish minimum risk management and governance standards for the development, procurement, deployment, and use of heightened scrutiny artificial intelligence systems by a state agency or local government.

§219.11. Code of Ethics and the Ethical Principles of Artificial Intelligence.

(a) As required by Texas Government Code § 2054.702, state agencies and local governments shall adopt the AI Code of Ethics established by this section and follow the ethical principles included herein as they procure, develop, deploy, or use artificial intelligence systems.

(b) Preamble

(1) AI systems have the potential to transform the way our state and local governments serve Texans. AI systems can create efficiencies, support economic and scientific advancement, and improve the safety and well-being of our communities. The State of Texas supports the use of AI systems by governmental entities to improve the services they deliver to Texans and to lead in innovative AI adoption in the public sector.

(2) While they have significant potential value, AI systems also pose substantial risks if not implemented ethically and responsibly. AI risks vary based on the system involved, how it is used, and who uses it. AI systems are often trained on large amounts of data from a variety of sources, which can lead to inaccurate outputs. To the extent that AI systems are trained on or used to process PII, they may raise significant privacy concerns, particularly when the systems are deployed outside of a secure government environment. Malicious actors can utilize AI to develop more advanced cyberattacks, bypass security measures, and exploit vulnerabilities in systems. These and other AI risks make it a uniquely challenging technology for governmental entities to use safely, but with appropriate guardrails, governmental entities can limit the risks of AI and secure its many benefits for Texans.

(3) Governmental entities must limit the potential harm of AI systems by managing risk and prioritizing trustworthy and responsible development and deployment of AI consistent with the National Institute of Standards and Technology AI Risk Management Framework. Creating trustworthy AI requires balancing each of these principles based on the identified risks of an AI system and the context in which it is used.

(4) This section articulates the principles of ethical AI implementation that governmental entities must strive for when procuring, developing, designing, or using AI systems.

(c) Human Oversight and Control

(1) Human oversight plays a crucial role in ensuring that AI systems operate ethically. While AI can analyze vast amounts of data much faster--and sometimes more accurately--than humans, it lacks the human judgment necessary to ensure that its decisions align with societal values and the rights granted to individuals under the law. Ensuring human control over AI systems mitigates risks of inaccurate or undesirable outputs and allows for revision of the rules established during development of the system and to the data that supports the system's decision-making.

(2) Governmental entities:

(A) Must deploy AI systems in ways that enable humans to review and analyze inputs and outputs at appropriate intervals throughout the AI lifecycle;

(B) May incorporate a level of human oversight reasonably commensurate to the risks associated with a particular AI system, with heightened scrutiny AI systems requiring increased human oversight relative to lower risk systems; and

(C) Must ensure AI systems can be paused, restricted, or disabled until harmful or inaccurate decision making can be remedied.

(d) Fairness

(1) The data used to develop AI systems must adequately represent the subjects or people about which AI systems make judgments, decisions, or predictions. Incomplete or inaccurate data can result in unlawful harm.

(2) Governmental entities:

(A) Must ensure their use of AI systems does not infringe upon the legally protected rights and liberties of the individuals they serve or result in unlawful harm; and

(B) Must implement data governance practices for AI systems throughout the AI system's lifecycle to ensure fairness.

(e) Accuracy

(1) While AI systems are overall improving in their ability to deliver more accurate results, inaccurate outputs remain a significant risk when using AI systems.

(2) Governmental entities:

(A) Must train their employees to understand the importance of verifying AI outcomes for accuracy;

(B) Must formalize processes for monitoring system accuracy before the deployment of an AI system and throughout its life cycle, as a system's accuracy may change over time; and

(C) Shall, when feasible, implement processes to improve the accuracy of AI systems by training the systems using human feedback or improving retrieval-augmented generation by ensuring the accuracy and relevance of the underlying data used by the tool to develop answers.

(f) Redress

(1) Providing a method for redress will promote public trust in both the AI system and in the entity that deploys it.

(2) Governmental entities:

(A) Must provide a mechanism to seek redress for those impacted when an AI system makes a consequential decision that results in unlawful harm about their rights or access to governmental services;

(B) Must have a designated point of contact for individuals to address when seeking information about an unfair consequential decision; and

(C) Must develop internal procedures to allow employees to identify and remedy negative impacts caused by the use of AI systems.

(g) Transparency

(1) Establishing transparency for AI systems means providing information about the data, models, and outputs of an AI system to both the individuals interacting with the system and those deploying it. Strong transparency practices will build public trust in the AI systems governmental entities use.

(2) Governmental entities:

(A) Must collaborate with developers of AI systems and demand transparency to understand how a system operates, the source of the data the system was trained on, and its intended use cases;

(B) Must strive to understand the capabilities of the system and how it makes decisions;

(C) Must disclose when individuals interact with a public-facing AI system and when an AI system is used to make consequential decisions about their rights or access to governmental services; and

(D) Must never represent AI systems as human when interacting with the public.

(h) Data Privacy

(1) Governmental entities have a responsibility to protect the PII they collect and process about individuals, and both legal and ethical restrictions exist on what PII entities share with third parties. Data privacy principles likewise apply to the PII governmental entities process in and share with AI systems.

(2) The most effective method for protecting PII is through data minimization.

(3) Many AI systems rely on vast amounts of PII to make predictions and decisions. Sharing PII with an AI tool may violate privacy laws and obligations the entity has to the individual, particularly when using a tool outside the governmental entity's secure environment.

(4) Governmental entities:

(A) May collect and maintain only that PII needed for operations and must establish a process to delete PII consistent with records retention schedules and other legal requirements.

(B) Must strive to understand what PII the AI system uses, how that PII has been and will be collected, and how the tool uses, stores, and shares PII with third parties prior to using any government-held PII in an AI system;

(C) Must train employees about the risk of inputting sensitive or PII into publicly available AI systems that use inputs to train the model and share those inputs with other users of the AI system outside of the governmental entity; and

(D) Must strive to practice data minimization and ensure they abide by any purpose limitations granted when the PII was first collected, or as expressly allowed by law.

(i) Security

(1) AI systems are subject to security vulnerabilities. Common security concerns in the AI context may include data poisoning or malicious code injection, exfiltration of models or data within the AI system, and improper access controls that result in unauthorized access to the AI system itself. Secure AI systems will maintain the confidentiality and integrity of the AI system as well as the data it contains even when unexpected events or changes in their environment or use occur.

(2) Governmental entities:

(A) Must monitor, secure, and test AI systems to prevent or limit security attacks; and

(B) Must demand that AI system providers disclose known vulnerabilities and resolutions in a timely manner to the governmental entities deploying those systems.

(j) Accountability and Liability

(1) While governmental entities may delegate tasks and decision making to AI systems, the entities remain accountable for the decisions the AI systems make and the outcomes they produce. Use of AI systems for employment-related tasks or to make consequential decisions poses heightened risks.

(2) Governmental entities:

(A) Must provide training to employees on how to use AI systems in an effective, safe, and ethical way;

(B) Must ensure their vendors are contractually bound to these AI ethical principles and any relevant laws or regulations governing the use of AI systems; and

(C) Must ensure AI systems they deploy comply with the legal obligations they have at both the state and federal level.

(3) When deploying AI systems, governmental entities must establish appropriate retention schedules for the AI system's records and consider the Public Information Act implications related to the storage of data inputs and outputs.

(k) Evaluation

(1) AI systems can change over time, as can the purposes for which they are used.

(2) Governmental entities:

(A) Must establish methods for regular evaluation of AI systems to ensure the systems provide ongoing benefit to the populations they serve; and

(B) Must document such evaluations.

(l) Documentation

(1) Documentation provides a critical element for managing AI risk. Consistent documentation of preliminary assessments, ongoing monitoring and testing, and complaints provides governmental entities insight into the operations and improvements of their AI systems over their lifecycle. Documentation allows entities to evaluate the value of AI systems and determine where best to spend resources in further developing AI solutions.

(2) Governmental entities should maintain records of:

(A) The sources of data used in the AI system; and

(B) How the AI system is modified throughout the system's life cycle.

The agency certifies that legal counsel has reviewed the adoption and found it to be a valid exercise of the agency's legal authority.

Filed with the Office of the Secretary of State on February 26, 2026.

SUBCHAPTER B. REQUIRED MINIMUM STANDARDS

1 TAC §§219.20 - 219.24

The amendments are adopted pursuant to Texas Government Code § 2054.052(a), which authorizes the department to adopt rules as necessary to implement its responsibilities under Texas Government Code Chapter 2054, and Texas Government Code § 2157.068(f), which authorizes the department to adopt rules as necessary to implement its responsibilities under Texas Government Code Chapter 2157. This subchapter establishes the minimum standards required by Texas Government Code § 2054.703 as enacted pursuant to Senate Bill 1964 of the Eighty-ninth Regular Session.

§219.21. AI Risk Management.

(a) A state agency or local government shall designate an employee as the AI Risk Officer.

(1) The AI Risk Officer is responsible for promoting ethical AI system procurement, development, deployment, and use within the state agency or local government, consistent with the AI Code of Ethics established by this chapter and the AI Risk Management Framework published by the National Institute of Standards and Technology.

(2) If a state agency or local government deploys a heightened scrutiny AI system, the AI Risk Officer is responsible for ensuring that the risk assessment is completed for that system. The AI Risk Officer shall evaluate the completed risk assessment and ensure that the heightened scrutiny AI system is deployed consistent with the minimum standards established by this chapter.

(3) In filling this role, the state agency or local government may employ an individual solely for this purpose or may add this responsibility to a current employee's existing job duties.

(b) A state agency or local government shall establish a process to identify and inventory all implementations of AI systems that qualify as heightened scrutiny AI systems.

§219.22. AI Risk Assessment for Heightened Scrutiny AI Systems.

(a) Before a state agency or local government develops, procures, deploys, or uses a heightened scrutiny AI system and at the time that a material change is made to the system, the state agency or local government shall conduct a written AI risk assessment to consider the probability and severity of harm that could occur as the result of implementation of the AI system.

(b) The risk assessment shall consider and document:

(1) The AI system's known security risks and mitigation steps available to limit those risks;

(2) The heightened scrutiny AI system's performance metrics relating to accuracy and operational efficiency; and

(3) The heightened scrutiny AI system's transparency, including information about:

(A) The system's algorithms and how the system makes decisions;

(B) The data used to train the system's model; and

(C) The availability of inputs and outputs to monitor the system's decision-making over time.

(c) When a state agency or local government is deploying any heightened scrutiny AI system, the AI Risk Officer shall:

(1) Review the completed written risk assessment prepared for that system prior to system deployment; and

(2) Approve or deny deployment of the system based on the risk and mitigation measures identified by the completed written risk assessment. At a minimum, the AI Risk Officer shall notify the state agency or local government's executive head or their designee of a decision to deploy a heightened scrutiny AI system. A state agency or local government may also establish a process for consultation or final approval by the executive head or their designee, as the state agency or local government determines appropriate.

(d) The state agency or local government shall maintain a record of the completed written risk assessment and all relevant documents for as long as required by the applicable state records retention schedule.

§219.24. Guidelines for Frameworks, Policies, and Trainings.

(a) This section establishes the guidelines required by Texas Government Code § 2054.703(b)(4) as enacted pursuant to Senate Bill 1964 in the Eighty-ninth Regular Session.

(b) When a state agency or local government deploys or uses a heightened scrutiny AI system, they must identify the acceptable use cases for such system, identify its limitations, and adopt an acceptable use policy to prevent uses other than those approved by the agency for the heightened scrutiny artificial intelligence system. All employees must be adequately trained on the acceptable use policy.

(c) A state agency or local government that deploys or uses a heightened scrutiny AI system shall provide employees or contractors who access, use, or manage the heightened scrutiny AI system with training regarding identified risks and appropriate methods for mitigating those risks.

(d) A state agency or local government that contracts with vendors to deploy a heightened scrutiny AI system shall mitigate third party risk by contractually requiring those vendors to implement an AI risk management framework such as that published by the National Institute of Standards and Technology or a comparable standard for heightened scrutiny AI systems.

The agency certifies that legal counsel has reviewed the adoption and found it to be a valid exercise of the agency's legal authority.

CONFLICT OF INTEREST QUESTIONNAIRE

FORM CIQ

For vendor doing business with local governmental entity

This questionnaire reflects changes made to the law by H.B. 23, 84th Leg., Regular Session.

This questionnaire is being filed in accordance with Chapter 176, Local Government Code, by a vendor who has a business relationship as defined by Section 176.001(1-a) with a local governmental entity and the vendor meets requirements under Section 176.006(a).

By law this questionnaire must be filed with the records administrator of the local governmental entity not later than the 7th business day after the date the vendor becomes aware of facts that require the statement to be filed. *See* Section 176.006(a-1), Local Government Code.

A vendor commits an offense if the vendor knowingly violates Section 176.006, Local Government Code. An offense under this section is a misdemeanor.

OFFICE USE ONLY
Date Received

1 **Name of vendor who has a business relationship with local governmental entity.**

Vulcan Construction Materials, LLC

2 ☑ **Check this box if you are filing an update to a previously filed questionnaire.** (The law requires that you file an updated completed questionnaire with the appropriate filing authority not later than the 7th business day after the date on which you became aware that the originally filed questionnaire was incomplete or inaccurate.)

3 **Name of local government officer about whom the information is being disclosed.**

NONE

Name of Officer

4 **Describe each employment or other business relationship with the local government officer, or a family member of the officer, as described by Section 176.003(a)(2)(A). Also describe any family relationship with the local government officer. Complete subparts A and B for each employment or business relationship described. Attach additional pages to this Form CIQ as necessary.**

A. Is the local government officer or a family member of the officer receiving or likely to receive taxable income, other than investment income, from the vendor?

☐ Yes ☐ No

B. Is the vendor receiving or likely to receive taxable income, other than investment income, from or at the direction of the local government officer or a family member of the officer AND the taxable income is not received from the local governmental entity?

☐ Yes ☐ No

5 **Describe each employment or business relationship that the vendor named in Section 1 maintains with a corporation or other business entity with respect to which the local government officer serves as an officer or director, or holds an ownership interest of one percent or more.**

6 ☐ Check this box if the vendor has given the local government officer or a family member of the officer one or more gifts as described in Section 176.003(a)(2)(B), excluding gifts described in Section 176.003(a-1).

CONFLICT OF INTEREST QUESTIONNAIRE
For vendor doing business with local governmental entity

A complete copy of Chapter 176 of the Local Government Code may be found at http://www.statutes.legis.state.tx.us/Docs/LG/htm/LG.176.htm. For easy reference, below are some of the sections cited on this form.

Local Government Code § 176.001(1-a): "Business relationship" means a connection between two or more parties based on commercial activity of one of the parties. The term does not include a connection based on:

(A) a transaction that is subject to rate or fee regulation by a federal, state, or local governmental entity or an agency of a federal, state, or local governmental entity;

(B) a transaction conducted at a price and subject to terms available to the public; or

(C) a purchase or lease of goods or services from a person that is chartered by a state or federal agency and that is subject to regular examination by, and reporting to, that agency.

Local Government Code § 176.003(a)(2)(A) and (B):

(a) A local government officer shall file a conflicts disclosure statement with respect to a vendor if:

***

(2) the vendor:

(A) has an employment or other business relationship with the local government officer or a family member of the officer that results in the officer or family member receiving taxable income, other than investment income, that exceeds $2,500 during the 12-month period preceding the date that the officer becomes aware that

(i) a contract between the local governmental entity and vendor has been executed; or

(ii) the local governmental entity is considering entering into a contract with the vendor;

(B) has given to the local government officer or a family member of the officer one or more gifts that have an aggregate value of more than $100 in the 12-month period preceding the date the officer becomes aware that:

(i) a contract between the local governmental entity and vendor has been executed; or

(ii) the local governmental entity is considering entering into a contract with the vendor.

Local Government Code § 176.006(a) and (a-1)

(a) A vendor shall file a completed conflict of interest questionnaire if the vendor has a business relationship with a local governmental entity and:

(1) has an employment or other business relationship with a local government officer of that local governmental entity, or a family member of the officer, described by Section 176.003(a)(2)(A);

(2) has given a local government officer of that local governmental entity, or a family member of the officer, one or more gifts with the aggregate value specified by Section 176.003(a)(2)(B), excluding any gift described by Section 176.003(a-1); or

(3) has a family relationship with a local government officer of that local governmental entity.

(a-1) The completed conflict of interest questionnaire must be filed with the appropriate records administrator not later than the seventh business day after the later of:

(1) the date that the vendor:

(A) begins discussions or negotiations to enter into a contract with the local governmental entity; or

(B) submits to the local governmental entity an application, response to a request for proposals or bids, correspondence, or another writing related to a potential contract with the local governmental entity; or

(2) the date the vendor becomes aware:

(A) of an employment or other business relationship with a local government officer, or a family member of the officer, described by Subsection (a);

(B) that the vendor has given one or more gifts described by Subsection (a); or

(C) of a family relationship with a local government officer.

CERTIFICATE *of* COURSE COMPLETION

Code of Ethics Training for Vendors and Lobbyists

I, Melanie Manrique, certify that I have completed the Montgomery County Code of Ethics Training course for vendors and lobbyists that satisfies the legal requirements of the Local Government Code, Section 161.

Certificate is issued effective this 12 day of June, 2026.

THE STATE OF TEXAS
Montgomery County

NOTICE TO CERTIFICATE HOLDER: *In compliance with §161 of the Texas Local Government Code, vendors and lobbyists must complete this training at least once per year when doing business with Montgomery County, Texas. Upon completion of the required training, a Lobbyist shall register annually with the Montgomery County Human Resources Department on the Lobbyist Registration Form prescribed by the Commission and receive a current Lobbyist Registration Certificate, on or before the date they engage in Lobbying activity with a County Officer or department head. All registration certificates and Certificates of Course Completions expire on December 31st of each year for Lobbyist. Vendors must submit training Certificate of Course Completion annually to the Montgomery County Ethics Committee and with any bidding submissions to the Montgomery County Purchasing Department. All form must be submitted to the Montgomery County Ethics Commission, c/o Montgomery County Human Resources Department, 501 N. Thompson, Suite 400, Conroe TX 77301, Phone (936) 539-7886, Fax (936) 788-8396 and/or to the Montgomery County Purchasing Department, 501 North Thompson, Suite 405 Conroe, Texas 77301, Phone 936-539-7980, Fax 936-760-6976.*

Contracted Vendor: G&S Asphalt, Inc dba American Materia
Project# 23-28

Our contract with your company has Contract provisions, which allow for renewal of the contract if mutually agreeable.

We would like to renew on a **YEARLY** basis, extending the current term through 9/24/2027. After which, additional **YEARLY** renewals will be determined based on the current evaluation and award of our current Bid. If your company wishes to renew this contract as described above under the same terms and conditions, please complete the information below and return this form by e-mail to tara.newman@mctx.org. Purchasing will then take the matter before the Commissioners' Court of Montgomery County on 8/20/2026 for their consideration. Please respond to this e-mail by 8/6/2026.

_____ Yes, I agree to renew our agreement with Montgomery County under the same terms and conditions.

xxxxx Yes, I agree to renew our agreement with Montgomery County under the same terms and conditions with attached changes.

_____ No, I do not agree to renew our agreement with Montgomery County.

If yes, please provide a Form 1295 along with this renewal form by replying to this e-mail.

As of January 1, 2016, vendors are required to visit the Texas Ethics Commissions (TEC) website (https://www.ethics.state.tx.us/filinginfo/1295/) and file a 1295 Certificate. After creating the form on the TEC website it must be printed, signed, and then forwarded to the governmental entity with whom they have contracts. A 1295 form must be filed with TEC then submitted to Montgomery County for every contract held with a **PRIVATELY** owned company that is approved by our Commissioners' Court. **PUBLICLY** owned companies are exempt from the 1295 requirement. Below are links to helpful videos on how to create your login for first time users and how to create the necessary certificate.

How to create a login

How to create a 1295 Certificate

On-line instructions for the form:
Name of governmental entity is to read: **Montgomery County**
Identification number: 5810
Description is to read: Bulk Road Materials

After receiving the Form 1295 with the Certification Number and Date Filed, please print the form, sign and then e-mail the form 1295 and this Term Contract Renewal Form to tara.newman@mctx.org.

American Materials

P.O. BOX 935 · Stafford, Texas 77497-0935

Dear Mrs. Tara Newman,

American Materials appreciates the opportunity to continue serving Montgomery County and values our longstanding partnership. As part of the upcoming contract renewal, we are requesting a limited price adjustment to account for increased material, commodity, and operating costs.

As a benchmark, the Consumer Price Index (CPI) increased from **307.026 in August 2023 to 333.952 in June 2026**, an increase of approximately **8.77%**. In an effort to remain a good partner to Montgomery County, American Materials is requesting increases below this benchmark for our primary asphalt products:

- **Type D Asphalt: $82.50 to $86.00 (4.2%)**
- **Black Base: $80.00 to $84.00 (5.0%)**
- **SS-1 Tack (buckets): $65.00 to $80.00 (23.0%)**

The Type D Asphalt and Black Base adjustments are substantially below the 8.77% CPI increase over the same period.

The SS-1 Tack adjustment reflects unique market conditions affecting this product. In addition to commodity market volatility, a major incident at one of the largest local suppliers has resulted in its terminal being shut down for several months and for the foreseeable future. This significant reduction in local supply has materially increased the cost and availability of tack.

American Materials has worked to absorb a portion of these increased costs and limit adjustments wherever possible. We believe the requested increases are fair and necessary to maintain reliable service and material availability for Montgomery County.

We appreciate your consideration and look forward to continuing our partnership.

Brian Asp – Vice President

Price Increase request and justification

Using US CPI-U (All Items, US City Average

August 2023 CPI	307.026
June 2026 CPI	333.952

ARTIFICIAL INTELLIGENCE (AI) ADDENDUM TO AGREEMENT/CONTRACT

This **Artificial Intelligence (AI) Addendum** ("AI Addendum") to the Agreement/Contract as previously entered into between the parties hereto (interchangeably referred to as "Agreement" or "Contract" as applicable), is made between Montgomery County, Texas ("County") and American Materials /vendor ("Contractor"), parties to said Agreement (referred to individually as a "Party" or collectively as "Parties"), and this AI Addendum is made effective as of the date of last execution herein ("Effective Date"), and deemed attached to, made a part of and incorporated within, the Agreement as of said Effective Date.

WITNESSETH:

WHEREAS, the Texas Legislature in its 89th Legislative Session (2025-2026) enacted various laws and regulations governing the procurement, development, deployment, and/or use of artificial intelligence (AI) systems by Texas state agencies and local governments, including but not limited to provisions enacted under the Texas Responsible Artificial Intelligence Governance Act ("TRAIGA");

WHEREAS, as part of said laws and regulations, the Texas Department of Information Resources (DIR) adopted an AI Code of Ethics ("Code") and certain minimum standards, which Code and minimum standards were adopted, in the form attached and incorporated herewith as **Attachment A**, by the Commissioners Court of Montgomery County, Texas ("Commissioners Court"), on behalf of Montgomery, in a duly held Regular Session on April 23, 2026, as required by Senate Bill 1964 [89(R) (2025-2026)];

WHEREAS, the AI Code of Ethics at 1 TAC 219.11(j)(2)(B) further states:

"(2) Governmental entities: ……..

(B) Must ensure their vendors are contractually bound to these AI ethical principles and any relevant laws or regulations governing the use of AI systems….."; and

WHEREAS, in compliance with aforesaid laws and regulations, the Parties hereto mutually desire to execute and effectuate this AI Addendum to the Agreement.

NOW, THEREFORE, in consideration of the mutual covenants, agreements, and benefits set forth herein, the Parties agree as follows:

1. Without affecting any other terms, provisions or attachments in the Agreement, the Parties hereto agree to *add* the following terms in the Agreement (to be added after all currently stated terms but before signatures) as follows:

"Artificial Intelligence (AI)

A. Compliance Requirements. Contractor acknowledges that County, as a governmental entity, is subject to a framework of applicable State and Federal laws with respect to AI systems, including but not limited to, Texas Responsible Artificial Intelligence Governance Act ("TRAIGA") [HB 149 (2025-2026), 89 (R)], the Texas Department of Information Resources (DIR) adopted AI Code of Ethics

("Code")[1] attached and incorporated herewith as **Attachment A**, pursuant to 1 TAC §219.11, Sec. 2054.702(c) and Sec. 2054.703(c) Tex. Govt. Code, and other associated laws, rules and regulations under State and Federal laws, as updated from time to time. Accordingly, Contractor shall be contractually bound by the AI ethical principles and any relevant laws or regulations governing the use of AI systems, to the full extent required by the aforementioned Code and legal framework. Contractor shall, prior to commencing performance under the Agreement/Contract and updating within thirty (30) days of any change(s) during the course of the Agreement/Contract, notify County in writing if an AI system(s) is(are) anticipated to be deployed and/or used for the purposes herein and shall further provide all requested information and specifications in relation to such system deployment and/or usage to County. In the event County determines that such AI system is non-compliant with any statutory requirements applicable to County, Contractor shall fully cooperate with County in adjusting, limiting or eliminating such system's deployment and/or usage from performance under this Agreement, until the deployment/usage reaches said statutory compliance.

B. Heightened Scrutiny AI system's deployment. If contractual performance by Contractor herein involves deployment of a heightened scrutiny AI system, Contractor shall further implement an AI risk management framework such as that published by the National Institute of Standards and Technology or a comparable standard for heightened scrutiny AI systems, shall notify County of such actual or anticipated deployment, shall comply with requirements of the Code and aforementioned legal framework, and shall further cooperate fully with County in the latter's compliance related steps with respect to such AI system, as required under State law and this Agreement."

2. Except as set forth in this AI Addendum, the Agreement is unaffected and shall continue in full force and effect in accordance with its terms. If there is a conflict between this AI Addendum and the Agreement or any earlier addendum(s)/amendment(s), the terms of this AI Addendum will prevail.

3. This AI Addendum shall attach to, be incorporated within and read together with, the Agreement. Both Agreement and AI Addendum shall constitute one agreement.

Attachment A[1]

CHAPTER 219. ARTIFICIAL INTELLIGENCE

The Texas Department of Information Resources (department) adopts 1 Texas Administrative Code (TAC) Chapter 219, Subchapter A, §219.1, and Subchapter B, §219.20 and §219.23, without changes to the proposal as published in the November 7, 2025, edition of the *Texas Register* (50 TexReg 7167). These will not be republished.

The department adopts 1 Texas Administrative Code Chapter 219, Subchapter A, §219.11, and Subchapter B, §§219.21, 219.22 and 219.24, with nonsubstantive changes to the rules as published in the November 7, 2025, edition of the *Texas Register* (50 TexReg 7167) in response to comments received from the public. These sections will be republished.

The adopted rules apply to state agencies, institutions of higher education, and, in limited scope as required by Senate Bill 1964 [89th Session (Regular)], local governments, a term which may include approximately 1,100 rural communities as defined by Texas Government Code § 2006.001(1-a).....

Description of Adopted Changes

Within Subchapter A, the department adopts §219.1 and §219.11, which introduce specialized definitions required by the rule, including the terms "AI--Artificial Intelligence", "Artificial Intelligence System", "Consequential Decision", Controlling Factor", "Department", "Executive Head", Governmental Entities", Heightened Scrutiny Artificial Intelligence System", "Information Resources", "Information Resources Technologies", "Local Government", "Personal Identifying Information (PII)", "Principal Basis", "Unlawful Harm." This subchapter also establishes a code of ethics and the ethical principles of artificial intelligence.

The department adopts subchapter B, §§219.20 - 219.24, which establish the minimum standards required by Texas Government Code § 2054.703 as enacted pursuant to Senate Bill 1964 of the Eighty-ninth Regular Session. In §219.21, the department establishes governmental entity's responsibility to AI Risk Management by designating an AI Risk Officer. In §219.22, the department establishes the requirements for the AI risk assessment for heightened scrutiny AI Systems in which the state agency or local government shall conduct a written AI risk assessment to consider the probability and severity of harm that could occur as the result of implementation of the AI system. In §219.23, the department establishes a vendor's responsibility of conducting an impact assessment of a heightened scrutiny AI system. In §219.24, the department establishes the guidelines for AI framework, policies, and trainings required by Texas Government Code § 2054.703(b)(4) as enacted pursuant to Senate Bill 1964 in the Eighty-ninth Regular Session.

---

https://www.sos.texas.gov/texreg/archive/March132026/Adopted%20Rules/1.ADMINISTRATION.html#116

SUBCHAPTER A. CODE OF ETHICS AND GENERAL INFORMATION

1 TAC §219.1, §219.11

The amendments are adopted pursuant to Texas Government Code § 2054.052(a), which authorizes the department to adopt rules as necessary to implement its responsibilities under Texas Government Code Chapter 2054, Texas Government Code § 2054.702, which requires the department to establish by rule an AI code of ethics for use by governmental entities, and Texas Government Code § 2054.703, which requires the department to establish minimum risk management and governance standards for the development, procurement, deployment, and use of heightened scrutiny artificial intelligence systems by a state agency or local government.

§219.11. Code of Ethics and the Ethical Principles of Artificial Intelligence.

(a) As required by Texas Government Code § 2054.702, state agencies and local governments shall adopt the AI Code of Ethics established by this section and follow the ethical principles included herein as they procure, develop, deploy, or use artificial intelligence systems.

(b) Preamble

(1) AI systems have the potential to transform the way our state and local governments serve Texans. AI systems can create efficiencies, support economic and scientific advancement, and improve the safety and well-being of our communities. The State of Texas supports the use of AI systems by governmental entities to improve the services they deliver to Texans and to lead in innovative AI adoption in the public sector.

(2) While they have significant potential value, AI systems also pose substantial risks if not implemented ethically and responsibly. AI risks vary based on the system involved, how it is used, and who uses it. AI systems are often trained on large amounts of data from a variety of sources, which can lead to inaccurate outputs. To the extent that AI systems are trained on or used to process PII, they may raise significant privacy concerns, particularly when the systems are deployed outside of a secure government environment. Malicious actors can utilize AI to develop more advanced cyberattacks, bypass security measures, and exploit vulnerabilities in systems. These and other AI risks make it a uniquely challenging technology for governmental entities to use safely, but with appropriate guardrails, governmental entities can limit the risks of AI and secure its many benefits for Texans.

(3) Governmental entities must limit the potential harm of AI systems by managing risk and prioritizing trustworthy and responsible development and deployment of AI consistent with the National Institute of Standards and Technology AI Risk Management Framework. Creating trustworthy AI requires balancing each of these principles based on the identified risks of an AI system and the context in which it is used.

(4) This section articulates the principles of ethical AI implementation that governmental entities must strive for when procuring, developing, designing, or using AI systems.

(c) Human Oversight and Control

(1) Human oversight plays a crucial role in ensuring that AI systems operate ethically. While AI can analyze vast amounts of data much faster--and sometimes more accurately--than humans, it lacks the human judgment necessary to ensure that its decisions align with societal values and the rights granted to individuals under the law. Ensuring human control over AI systems mitigates risks of inaccurate or undesirable outputs and allows for revision of the rules established during development of the system and to the data that supports the system's decision-making.

(2) Governmental entities:

(A) Must deploy AI systems in ways that enable humans to review and analyze inputs and outputs at appropriate intervals throughout the AI lifecycle;

(B) May incorporate a level of human oversight reasonably commensurate to the risks associated with a particular AI system, with heightened scrutiny AI systems requiring increased human oversight relative to lower risk systems; and

(C) Must ensure AI systems can be paused, restricted, or disabled until harmful or inaccurate decision making can be remedied.

(d) Fairness

(1) The data used to develop AI systems must adequately represent the subjects or people about which AI systems make judgments, decisions, or predictions. Incomplete or inaccurate data can result in unlawful harm.

(2) Governmental entities:

(A) Must ensure their use of AI systems does not infringe upon the legally protected rights and liberties of the individuals they serve or result in unlawful harm; and

(B) Must implement data governance practices for AI systems throughout the AI system's lifecycle to ensure fairness.

(e) Accuracy

(1) While AI systems are overall improving in their ability to deliver more accurate results, inaccurate outputs remain a significant risk when using AI systems.

(2) Governmental entities:

(A) Must train their employees to understand the importance of verifying AI outcomes for accuracy;

(B) Must formalize processes for monitoring system accuracy before the deployment of an AI system and throughout its life cycle, as a system's accuracy may change over time; and

(C) Shall, when feasible, implement processes to improve the accuracy of AI systems by training the systems using human feedback or improving retrieval-augmented generation by ensuring the accuracy and relevance of the underlying data used by the tool to develop answers.

(f) Redress

(1) Providing a method for redress will promote public trust in both the AI system and in the entity that deploys it.

(2) Governmental entities:

(A) Must provide a mechanism to seek redress for those impacted when an AI system makes a consequential decision that results in unlawful harm about their rights or access to governmental services;

(B) Must have a designated point of contact for individuals to address when seeking information about an unfair consequential decision; and

(C) Must develop internal procedures to allow employees to identify and remedy negative impacts caused by the use of AI systems.

(g) Transparency

(1) Establishing transparency for AI systems means providing information about the data, models, and outputs of an AI system to both the individuals interacting with the system and those deploying it. Strong transparency practices will build public trust in the AI systems governmental entities use.

(2) Governmental entities:

(A) Must collaborate with developers of AI systems and demand transparency to understand how a system operates, the source of the data the system was trained on, and its intended use cases;

(B) Must strive to understand the capabilities of the system and how it makes decisions;

(C) Must disclose when individuals interact with a public-facing AI system and when an AI system is used to make consequential decisions about their rights or access to governmental services; and

(D) Must never represent AI systems as human when interacting with the public.

(h) Data Privacy

(1) Governmental entities have a responsibility to protect the PII they collect and process about individuals, and both legal and ethical restrictions exist on what PII entities share with third parties. Data privacy principles likewise apply to the PII governmental entities process in and share with AI systems.

(2) The most effective method for protecting PII is through data minimization.

(3) Many AI systems rely on vast amounts of PII to make predictions and decisions. Sharing PII with an AI tool may violate privacy laws and obligations the entity has to the individual, particularly when using a tool outside the governmental entity's secure environment.

(4) Governmental entities:

(A) May collect and maintain only that PII needed for operations and must establish a process to delete PII consistent with records retention schedules and other legal requirements.

(B) Must strive to understand what PII the AI system uses, how that PII has been and will be collected, and how the tool uses, stores, and shares PII with third parties prior to using any government-held PII in an AI system;

(C) Must train employees about the risk of inputting sensitive or PII into publicly available AI systems that use inputs to train the model and share those inputs with other users of the AI system outside of the governmental entity; and

(D) Must strive to practice data minimization and ensure they abide by any purpose limitations granted when the PII was first collected, or as expressly allowed by law.

(i) Security

(1) AI systems are subject to security vulnerabilities. Common security concerns in the AI context may include data poisoning or malicious code injection, exfiltration of models or data within the AI system, and improper access controls that result in unauthorized access to the AI system itself. Secure AI systems will maintain the confidentiality and integrity of the AI system as well as the data it contains even when unexpected events or changes in their environment or use occur.

(2) Governmental entities:

(A) Must monitor, secure, and test AI systems to prevent or limit security attacks; and

(B) Must demand that AI system providers disclose known vulnerabilities and resolutions in a timely manner to the governmental entities deploying those systems.

(j) Accountability and Liability

(1) While governmental entities may delegate tasks and decision making to AI systems, the entities remain accountable for the decisions the AI systems make and the outcomes they produce. Use of AI systems for employment-related tasks or to make consequential decisions poses heightened risks.

(2) Governmental entities:

(A) Must provide training to employees on how to use AI systems in an effective, safe, and ethical way;

(B) Must ensure their vendors are contractually bound to these AI ethical principles and any relevant laws or regulations governing the use of AI systems; and

(C) Must ensure AI systems they deploy comply with the legal obligations they have at both the state and federal level.

(3) When deploying AI systems, governmental entities must establish appropriate retention schedules for the AI system's records and consider the Public Information Act implications related to the storage of data inputs and outputs.

(k) Evaluation

(1) AI systems can change over time, as can the purposes for which they are used.

(2) Governmental entities:

(A) Must establish methods for regular evaluation of AI systems to ensure the systems provide ongoing benefit to the populations they serve; and

(B) Must document such evaluations.

(l) Documentation

(1) Documentation provides a critical element for managing AI risk. Consistent documentation of preliminary assessments, ongoing monitoring and testing, and complaints provides governmental entities insight into the operations and improvements of their AI systems over their lifecycle. Documentation allows entities to evaluate the value of AI systems and determine where best to spend resources in further developing AI solutions.

(2) Governmental entities should maintain records of:

(A) The sources of data used in the AI system; and

(B) How the AI system is modified throughout the system's life cycle.

The agency certifies that legal counsel has reviewed the adoption and found it to be a valid exercise of the agency's legal authority.

SUBCHAPTER B. REQUIRED MINIMUM STANDARDS

1 TAC §§219.20 - 219.24

The amendments are adopted pursuant to Texas Government Code § 2054.052(a), which authorizes the department to adopt rules as necessary to implement its responsibilities under Texas Government Code Chapter 2054, and Texas Government Code § 2157.068(f), which authorizes the department to adopt rules as necessary to implement its responsibilities under Texas Government Code Chapter 2157. This subchapter establishes the minimum standards required by Texas Government Code § 2054.703 as enacted pursuant to Senate Bill 1964 of the Eighty-ninth Regular Session.

§219.21. AI Risk Management.

(a) A state agency or local government shall designate an employee as the AI Risk Officer.

(1) The AI Risk Officer is responsible for promoting ethical AI system procurement, development, deployment, and use within the state agency or local government, consistent with the AI Code of Ethics established by this chapter and the AI Risk Management Framework published by the National Institute of Standards and Technology.

(2) If a state agency or local government deploys a heightened scrutiny AI system, the AI Risk Officer is responsible for ensuring that the risk assessment is completed for that system. The AI Risk Officer shall evaluate the completed risk assessment and ensure that the heightened scrutiny AI system is deployed consistent with the minimum standards established by this chapter.

(3) In filling this role, the state agency or local government may employ an individual solely for this purpose or may add this responsibility to a current employee's existing job duties.

(b) A state agency or local government shall establish a process to identify and inventory all implementations of AI systems that qualify as heightened scrutiny AI systems.

§219.22. AI Risk Assessment for Heightened Scrutiny AI Systems.

(a) Before a state agency or local government develops, procures, deploys, or uses a heightened scrutiny AI system and at the time that a material change is made to the system, the state agency or local government shall conduct a written AI risk assessment to consider the probability and severity of harm that could occur as the result of implementation of the AI system.

(b) The risk assessment shall consider and document:

(1) The AI system's known security risks and mitigation steps available to limit those risks;

(2) The heightened scrutiny AI system's performance metrics relating to accuracy and operational efficiency; and

(3) The heightened scrutiny AI system's transparency, including information about:

(A) The system's algorithms and how the system makes decisions;

(B) The data used to train the system's model; and

(C) The availability of inputs and outputs to monitor the system's decision-making over time.

(c) When a state agency or local government is deploying any heightened scrutiny AI system, the AI Risk Officer shall:

(1) Review the completed written risk assessment prepared for that system prior to system deployment; and

(2) Approve or deny deployment of the system based on the risk and mitigation measures identified by the completed written risk assessment. At a minimum, the AI Risk Officer shall notify the state agency or local government's executive head or their designee of a decision to deploy a heightened scrutiny AI system. A state agency or local government may also establish a process for consultation or final approval by the executive head or their designee, as the state agency or local government determines appropriate.

(d) The state agency or local government shall maintain a record of the completed written risk assessment and all relevant documents for as long as required by the applicable state records retention schedule.

§219.24. Guidelines for Frameworks, Policies, and Trainings.

(a) This section establishes the guidelines required by Texas Government Code § 2054.703(b)(4) as enacted pursuant to Senate Bill 1964 in the Eighty-ninth Regular Session.

(b) When a state agency or local government deploys or uses a heightened scrutiny AI system, they must identify the acceptable use cases for such system, identify its limitations, and adopt an acceptable use policy to prevent uses other than those approved by the agency for the heightened scrutiny artificial intelligence system. All employees must be adequately trained on the acceptable use policy.

(c) A state agency or local government that deploys or uses a heightened scrutiny AI system shall provide employees or contractors who access, use, or manage the heightened scrutiny AI system with training regarding identified risks and appropriate methods for mitigating those risks.

(d) A state agency or local government that contracts with vendors to deploy a heightened scrutiny AI system shall mitigate third party risk by contractually requiring those vendors to implement an AI risk management framework such as that published by the National Institute of Standards and Technology or a comparable standard for heightened scrutiny AI systems.

The agency certifies that legal counsel has reviewed the adoption and found it to be a valid exercise of the agency's legal authority.

CONFLICT OF INTEREST QUESTIONNAIRE

FORM CIQ

For vendor doing business with local governmental entity

This questionnaire reflects changes made to the law by H.B. 23, 84th Leg., Regular Session.

This questionnaire is being filed in accordance with Chapter 176, Local Government Code, by a vendor who has a business relationship as defined by Section 176.001(1-a) with a local governmental entity and the vendor meets requirements under Section 176.006(a).

By law this questionnaire must be filed with the records administrator of the local governmental entity not later than the 7th business day after the date the vendor becomes aware of facts that require the statement to be filed. *See* Section 176.006(a-1), Local Government Code.

A vendor commits an offense if the vendor knowingly violates Section 176.006, Local Government Code. An offense under this section is a misdemeanor.

OFFICE USE ONLY

Date Received

1 **Name of vendor who has a business relationship with local governmental entity.**

American Materials, Inc

2 ☐ **Check this box if you are filing an update to a previously filed questionnaire.** (The law requires that you file an updated completed questionnaire with the appropriate filing authority not later than the 7th business day after the date on which you became aware that the originally filed questionnaire was incomplete or inaccurate.)

3 **Name of local government officer about whom the information is being disclosed.**

N/A

Name of Officer

4 **Describe each employment or other business relationship with the local government officer, or a family member of the officer, as described by Section 176.003(a)(2)(A). Also describe any family relationship with the local government officer. Complete subparts A and B for each employment or business relationship described. Attach additional pages to this Form CIQ as necessary.**

A. Is the local government officer or a family member of the officer receiving or likely to receive taxable income, other than investment income, from the vendor?

☐ Yes ☑ No

B. Is the vendor receiving or likely to receive taxable income, other than investment income, from or at the direction of the local government officer or a family member of the officer AND the taxable income is not received from the local governmental entity?

☐ Yes ☑ No

5 **Describe each employment or business relationship that the vendor named in Section 1 maintains with a corporation or other business entity with respect to which the local government officer serves as an officer or director, or holds an ownership interest of one percent or more.**

6 ☐ Check this box if the vendor has given the local government officer or a family member of the officer one or more gifts as described in Section 176.003(a)(2)(B), excluding gifts described in Section 176.003(a-1).

CONFLICT OF INTEREST QUESTIONNAIRE
For vendor doing business with local governmental entity

A complete copy of Chapter 176 of the Local Government Code may be found at http://www.statutes.legis.state.tx.us/Docs/LG/htm/LG.176.htm. For easy reference, below are some of the sections cited on this form.

Local Government Code § 176.001(1-a): "Business relationship" means a connection between two or more parties based on commercial activity of one of the parties. The term does not include a connection based on:

(A) a transaction that is subject to rate or fee regulation by a federal, state, or local governmental entity or an agency of a federal, state, or local governmental entity;

(B) a transaction conducted at a price and subject to terms available to the public; or

(C) a purchase or lease of goods or services from a person that is chartered by a state or federal agency and that is subject to regular examination by, and reporting to, that agency.

Local Government Code § 176.003(a)(2)(A) and (B):

(a) A local government officer shall file a conflicts disclosure statement with respect to a vendor if:

***

(2) the vendor:

(A) has an employment or other business relationship with the local government officer or a family member of the officer that results in the officer or family member receiving taxable income, other than investment income, that exceeds $2,500 during the 12-month period preceding the date that the officer becomes aware that

(i) a contract between the local governmental entity and vendor has been executed; or

(ii) the local governmental entity is considering entering into a contract with the vendor;

(B) has given to the local government officer or a family member of the officer one or more gifts that have an aggregate value of more than $100 in the 12-month period preceding the date the officer becomes aware that:

(i) a contract between the local governmental entity and vendor has been executed; or

(ii) the local governmental entity is considering entering into a contract with the vendor.

Local Government Code § 176.006(a) and (a-1)

(a) A vendor shall file a completed conflict of interest questionnaire if the vendor has a business relationship with a local governmental entity and:

(1) has an employment or other business relationship with a local government officer of that local governmental entity, or a family member of the officer, described by Section 176.003(a)(2)(A);

(2) has given a local government officer of that local governmental entity, or a family member of the officer, one or more gifts with the aggregate value specified by Section 176.003(a)(2)(B), excluding any gift described by Section 176.003(a-1); or

(3) has a family relationship with a local government officer of that local governmental entity.

(a-1) The completed conflict of interest questionnaire must be filed with the appropriate records administrator not later than the seventh business day after the later of:

(1) the date that the vendor:

(A) begins discussions or negotiations to enter into a contract with the local governmental entity; or

(B) submits to the local governmental entity an application, response to a request for proposals or bids, correspondence, or another writing related to a potential contract with the local governmental entity; or

(2) the date the vendor becomes aware:

(A) of an employment or other business relationship with a local government officer, or a family member of the officer, described by Subsection (a);

(B) that the vendor has given one or more gifts described by Subsection (a); or

(C) of a family relationship with a local government officer.

CERTIFICATE *of* COURSE COMPLETION

Code of Ethics Training for Vendors and Lobbyists

I, Chasity Estes, certify that I have completed the Montgomery County Code of Ethics Training course for vendors and lobbyists that satisfies the legal requirements of the Local Government Code, Section 161.

Certificate is issued effective this 24 day of July, 2026.

***NOTICE TO CERTIFICATE HOLDER**: In compliance with §161 of the Texas Local Government Code, vendors and lobbyists must complete this training at least once per year when doing business with Montgomery County, Texas. Upon completion of the required training, a Lobbyist shall register annually with the Montgomery County Human Resources Department on the Lobbyist Registration Form prescribed by the Commission and receive a current Lobbyist Registration Certificate, on or before the date they engage in Lobbying activity with a County Officer or department head. All registration certificates and Certificates of Course Completions expire on December 31st of each year for Lobbyist. Vendors must submit training Certificate of Course Completion annually to the Montgomery County Ethics Committee and with any bidding submissions to the Montgomery County Purchasing Department. All form must be submitted to the Montgomery County Ethics Commission, c/o Montgomery County Human Resources Department, 501 N. Thompson, Suite 400, Conroe TX 77301, Phone (936) 539-7886, Fax (936) 788-8396 and/or to the Montgomery County Purchasing Department, 501 North Thompson, Suite 405 Conroe, Texas 77301, Phone 936-539-7980, Fax 936-760-6976.*

Mr. Matt Gray
Commissioner
Montgomery County Precinct 4
23628 Roberts Road
New Caney, Texas 77357

Re: SH 99 Segment G – Ramps Between Valley Ranch Parkway and Valley Ranch Boulevard
Proposal to Prepare Construction Plans, Specifications, and Estimates for Safety Lighting

Commissioner Gray,

HR Green is pleased to submit this proposal for engineering services for the preparation of final construction plans, specifications, and estimates for safety lighting for the proposed entrance ramp from the eastbound frontage road to the SH 99 main lanes and exit ramp from the SH 99 main lanes to the westbound frontage road between Valley Ranch Parkway and Valley Ranch Boulevard.

We propose completing the safety lighting design for a lump sum amount of $29,794.30. See Attachment A-1 for the scope of services and Attachment B-1 for a detailed level of effort.

Please feel free to contact me at 713.806.6950 if you have any questions or need additional information.

Sincerely,

Matthew Zeve, P.E., CFM
Principal

Attachments: Attachment A-1 – Scope of Work
Attachment B-1 – Level of Effort

Attachment A-1

SERVICES TO BE PROVIDED BY THE ENGINEER

The Engineer shall provide supplemental engineering services required for ramps at SH 99 (GP) near Valley Ranch. This will include the preparation of plans, specifications, and estimates (PS&E) for bidding. These services include, preparing luminaire layout and detail sheets, miscellaneous structural details for luminaire supports added to existing retaining walls and existing bridge barriers, and construction phase services.

The services to be provided with the supplemental work authorization include design associated with safety lighting for the proposed entrance and exit ramps near Valley Ranch.

TASK DESCRIPTIONS AND FUNCTION CODES

The Engineer shall categorize each task performed to correspond with the Function Codes (FC) and Task Descriptions.

FUNCTION CODE 160(163) - ROADWAY DESIGN

MISCELLANEOUS (ROADWAY)

163.1. Geotechnical Borings and Investigation. – OMITTED

163.2. Retaining Walls and Miscellaneous Structures. The engineer shall refer tp TxDOT's Bridge Design Manual, AASHTO Standard Specifications for Structural Supports for Highway Signs, Luminaires, and Traffic Signals and other deemed necessary State approved manuals for design of reinforced concrete supports at proposed luminaire light pole locations. The design of the structural supports shall involve retrofit details that will require partial removal of existing concrete bridge barriers and concrete retaining wall stems to install integrated concrete pedestals and/or pilasters at each light pole location. Structural support details shall be coordinated with designs of lighting conduit and wiring layouts, anticipated light pole base plate configurations, and light pole and mast arm lengths and diameters and luminaire type and size.

163.3. Traffic Control Plan, Detours, Sequence of Construction – OMITTED

163.4. Illumination

163.5. Illumination. The Engineer shall refer to TxDOT's *Highway Illumination Manual, Chapter 6* and other deemed necessary State approved manuals for design of interchange merge/diverge lighting and safety lighting.. The Engineer shall provide a preliminary layout for initial review and approval by the State. The Engineer shall prepare circuit wiring diagrams showing the number of luminaries on each circuit, electrical conductors, length of runs, service pole assemblies. Underpass lighting shall be used on all structures within each project. The Engineer shall integrate existing illumination within the project limits into the proposed design. The Engineer shall coordinate with the State to determine the location of proposed high-mast, conventional, and underpass lighting, as appropriate.

163.6. Storm Water Pollution Prevention Plans (SWP3). - **OMITTED**.

163.7. Compute and Tabulate Quantities. The Engineer shall provide the summaries and quantities within all formal submittals.

163.8. Special Utility Details (Water, Sanitary Sewer, *etc.*) – OMITTED

163.9. Miscellaneous Structural Details. The Engineer shall provide necessary details required to supplement standard details.

163.10. Agreements (Railroad, *etc.*) and Layouts. – OMITTED

163.11. Estimate. The Engineer shall independently develop and report quantities necessary to construct the contract in standard State bid format at the specified milestones and Final PS&E submittals. The Engineer shall prepare each construction cost estimates using Estimator or any approved method. The estimate shall be provided at each milestone submittal or in DCIS format at the 95% and Final PS&E submittals per State's District requirement.

163.12. Contract Time Determination. - **OMITTED**

163.13. Specifications and General Notes. The Engineer shall identify necessary standard specifications, special specifications, special provisions and the appropriate reference items. The Engineer shall prepare General Notes from the District's *Master List of General Notes*, Special Specifications and Special Provisions for inclusion in the plans and bidding documents. The Engineer shall provide General Notes, Special Specifications and Special Provisions in the required format.

163.14. Constructability Review. - **OMITTED**

DELIVERABLES

The Engineer shall submit the following deliverables to the State:

A. Plans

The Engineer shall provide the following information at each submittal:

1. 30% Plans Submittal
   a. Estimate of construction cost.
   b. Engineer's internal QA and QC markup set.
   c. Form 1002 and Design Exceptions with existing and proposed typical sections, location map and design exception exhibits.
   d. Preliminary 3D corridor model, in the most current format, created using Bentley's OpenRoads tools, and with detail to verify the design of the 30% plan sheets.
   e. Preliminary miscellaneous light pole support details at existing bridge and retaining wall locations in PDF format for the State District review.
   f. Engineer's internal QA and QC marked up set.
   g. One set of a roll format TCP phasing layouts, one copy of the pdf of plan sheets for TCP concept, and significant project procedures form (State Form 2229) to present at the TCAT for the State review.
   h. One set of a roll format of illumination plan concept to State review.

i. Preliminary Title Sheet
j. Existing and Proposed Typical Sections
k. Preliminary Summary Sheets
l. Control Data Sheets
m. Comprehensive Map of all Utilities within the Project Area

2. 60% Plans Submittal
Provide the State with a review set of plans that includes the items listed below in the format specified in the Work Authorization:
   a. Estimate of construction cost.
   b. Engineer's internal QA and QC marked up set.
   c. One set of a roll format TCP phasing layouts, one copy of the .pdf of plans sheets for TCP concept, and significant project procedures form (State Form 2229) to present at the TCAT for the State review.
   d. Address 30% Comments.
   e. Updated Title Sheet with Index of Sheets including Standards
   f. Final Existing and Proposed Typical Sections
   g. Updated Summary Sheets
   h. Preliminary Traffic Control Plan Sheets
   i. Control Data Sheets & Right of Way Marker Sheets
   j. Updated Miscellaneous light pole support details at existing bridge and retaining wall locations
   k. Preliminary Lighting Layout, including at existing Retaining Wall and Bridge Locations
   l. Final Utility Exhibits
   m. Preliminary Signing Layouts
   n. Updated Estimate
   o. Preliminary Contract Time Determination

3. 90% Review Submittal Provide the State with a review set of plans that includes the items listed below in the format specified in the Work Authorization:
   a. Estimate of construction cost.
   b. Marked up general notes
   c. Construction schedule.
   d. New Special Specifications and Special Provisions with Form 1814, if applicable.
   e. Engineer's internal QA and QC marked up set.
   f. Other supporting documents.
   g. New Special Specifications and Special Provisions with Form 1814, if applicable.
   h. Other supporting documents.
   i. Address 60% Comments
   j. Updated Title Sheet with Index of Sheets
   k. Final Existing and Proposed Typical Sections
   l. Final Summary Sheets
   m. Final Traffic Control Plan Sheets
   n. Final Control Data Sheets
   o. Final Miscellaneous light pole support details at existing bridge and retaining wall locations
   p. Final Lighting layout, including at existing Retaining Walls and Bridges
   q. Final Signing Layouts

r. Final Pavement Marking Layouts and Delineation
s. Final construction cost Estimate, General Notes, Specification Data Sheet, Special Provisions, Special Specifications
t. Final Contract Time Determination

4. District Review Submittal (95%): Provide the State with a review set of plans of the items below in the format specified in the Work Authorization:
   a. List of governing Specifications and Special Provisions in addition to those required.
   b. Marked up general notes.
   c. Plans estimate.
   d. New Special Specifications and Special Provisions with Form 1814, if applicable.
   e. Triple Zero Special Provisions.
   f. Engineer sign, seal and date supplemental sheets (8 ½" x 11").
   g. Contract time determination summary.
   h. Construction speed zone request.
   i. Engineer's internal QA and QC marked-up set.
   j. Other supporting documents.

5. Final submittal (100%).
   a. Revised supporting documents from 95% review comments.

B. Electronic Copies
   1. The Engineer shall furnish the State with a USB flash drive of the final plans in the current graphics format used by the State, .pdf format, and in the District's File Management System (FMS) format.
   2. The Engineer shall provide the Primavera (P3) file or the latest scheduling program used by the State for construction time estimate.

C. Calculations
   The Engineer shall provide the following:
   1. All quantity and non-structural design calculations.
   2. Engineering design calculations, , analysis, input calculations, quantities, , etc. relating to the project's miscellaneous structural elements. Project structural elements include, but are not limited to: miscellaneous light pole supports at existing bridge and retaining wall locations for high-mast illumination foundations..
   3. Working copies of all spreadsheets and output from any programs utilized on a CD/DVD in a universally reliable format.
   4. Submit elements normally bound using a .pdf format.

D. Archiving File for Bridge Design Calculations and Notes
   1. The Engineer shall scan the design notes (or convert electronic files) and submit a single PDF file for miscellaneous structures.
      a. Refer to *Figure 6: Guidance for Calculation Retention* in the Bridge Division's *Quality Control and Quality Assurance Guide* at http.//ftp.dot.state.tx.us/pub/txdot-info/library/pubs/bus/bridge/qa_qc_guide.pdf for the design elements that are required and how to assemble the PDF file.
      b. Additionally, the file should contain:
         (1) Completed Quality Control Cover Sheet from the *Quality Control and Quality Assurance Guide* at http.//ftp.dot.state.tx.us/pub/txdot-info/library/pubs/bus/bridge/qa_qc_guide.pdf

The Engineer is allowed to use their own cover sheet if it is similar to the Quality Control Coversheet from the *Quality Control and Quality Assurance Guide.*

2. Name the file using the following naming convention:
   a. Design notes: NBI_DN_yyyy—mm, with yyy-mm being the year and month the PDF file is submitted (ex. 1234567890abcde_DN_2015-06)
   b. Change Orders: NBI_CO_yyyy—mm, with yyy-mm being the year and month the PDF file is submitted (ex. 1234567890abcde_CO_2015-06
3. Send the Archiving File PDF of miscellaneous structure design notes to the State's project manager, who will submit to the State's Bridge Management Group. The files will become part of the permanent bridge file in the State's bridge inspection database management system.

CONFLICT OF INTEREST QUESTIONNAIRE

FORM CIQ

For vendor doing business with local governmental entity

This questionnaire reflects changes made to the law by H.B. 23, 84th Leg., Regular Session.

This questionnaire is being filed in accordance with Chapter 176, Local Government Code, by a vendor who has a business relationship as defined by Section 176.001(1-a) with a local governmental entity and the vendor meets requirements under Section 176.006(a).

By law this questionnaire must be filed with the records administrator of the local governmental entity not later than the 7th business day after the date the vendor becomes aware of facts that require the statement to be filed. *See* Section 176.006(a-1), Local Government Code.

A vendor commits an offense if the vendor knowingly violates Section 176.006, Local Government Code. An offense under this section is a misdemeanor.

OFFICE USE ONLY

Date Received

1 **Name of vendor who has a business relationship with local governmental entity.**

HR Green, Inc.

2 ☐ **Check this box if you are filing an update to a previously filed questionnaire.** (The law requires that you file an updated completed questionnaire with the appropriate filing authority not later than the 7th business day after the date on which you became aware that the originally filed questionnaire was incomplete or inaccurate.)

3 **Name of local government officer about whom the information is being disclosed.**

Montgomery County

Name of Officer

4 **Describe each employment or other business relationship with the local government officer, or a family member of the officer, as described by Section 176.003(a)(2)(A). Also describe any family relationship with the local government officer. Complete subparts A and B for each employment or business relationship described. Attach additional pages to this Form CIQ as necessary.**

A. Is the local government officer or a family member of the officer receiving or likely to receive taxable income, other than investment income, from the vendor?

☐ Yes ☒ No

B. Is the vendor receiving or likely to receive taxable income, other than investment income, from or at the direction of the local government officer or a family member of the officer AND the taxable income is not received from the local governmental entity?

☐ Yes ☒ No

5 **Describe each employment or business relationship that the vendor named in Section 1 maintains with a corporation or other business entity with respect to which the local government officer serves as an officer or director, or holds an ownership interest of one percent or more.**

6 ☐ Check this box if the vendor has given the local government officer or a family member of the officer one or more gifts as described in Section 176.003(a)(2)(B), excluding gifts described in Section 176.003(a-1).

WHEREFORE, premises considered, County hereby executes this agreement on the 23th day of July, 2026.

FUNDING OUT

It is expressly understood and agreed that County has available the total maximum sum of funds for FY 25-26 and hereinafter certified available by the County Auditor of County for the purposes of satisfying County's obligations under the terms and provisions of this agreement; that notwithstanding anything to the contrary or that may be construed to the contrary, the liability of County is limited to said sum, plus additional amounts of funds from time to time certified available for the purpose of satisfying the County's obligations under the terms and provisions of this agreement, the sole and exclusive remedy of Bidder/Offeror shall be to take possession of any goods or materials and to terminate this agreement.

AUDITOR'S CERTIFICATION

I do hereby certify that funds are available sufficient to pay the obligation of Montgomery County under and within the foregoing Agreement.

DOCUMENTATION INSTRUCTIONS FOR LEASE NUMBER 500-50857691

The instructions listed below should be followed when completing the enclosed documentation. Documentation completed improperly will delay funding. If you have any questions regarding the instructions or the documentation, please call us.

EXCEPT AS NOTED, ALL SIGNATURES MUST BE BY THE PERSON OR PERSONS AUTHORIZED IN LESSEE'S RESOLUTION.

I. LEASE PURCHASE AGREEMENT

a. **Terms and Conditions**
- Print name, title, sign and date
- Another authorized officer must attest the signature – must be signed by other than lease signor

b. **Tax Designation and Covenants** – The purpose of this document is to determine if the Tax-Exempt Lease Purchase Agreement meets the requirements for "Bank Qualification" under Section 265(b)(3)(B) of the Internal Revenue Code. How the Lessee answers the questions will not impact the current transaction; however, it does allow for proper categorization of the obligation and accurate reporting to the Internal Revenue Service.
- Initial as appropriate

c. **Opinion of Counsel**
- Lessee's legal counsel must sign, date and type in their name, the name of the firm, address and telephone number.

II. EXHIBIT A – PAYMENT SCHEDULE

- Print name, title, sign and date

III. EXHIBIT B – EQUIPMENT DESCRIPTION — *(WHEN PROVIDED)*

- Print name, title, sign and date

IV. INCUMBENCY CERTIFICATE

To be signed by a person other than the person who signed the agreement and related Documents.

V. STATE SPECIFIC ADDENDA – Required for: AR, AZ, CO, FL, GA, KS, LA, MI, MN, MS, NC, NJ, NY, OH, OK, and TX.

- Print name, title, sign and date. Attest where required

VI. ACCEPTANCE CERTIFICATE – PLEASE RETAIN UNTIL ALL EQUIPMENT HAS BEEN RECEIVED AND IS IN FULL WORKING ORDER

- Print name, title, sign and date

VII. 8038 - IRS FORM

The enclosed form is a SAMPLE only. The actual 8038G or GC will be completed and sent to you for your signature after closing, with instructions to return the original to us at your earliest convenience. This is being done in accordance with the Internal Revenue Service regulations and is a requirement of this financing.

VIII. ADDITIONAL DOCUMENTATION THAT MUST BE SENT PRIOR TO FUNDING — *(WHEN APPLICABLE)*:

- ☐ **Resolution** of governing body approving the purchase of the equipment and the resolution ratifying the financing. (Note: If the purchase resolution and financing were done in one resolution that is sufficient.)
- ☑ **Vendor invoice** listing customer as both bill to and ship to party (to be provided by vendor)
- ☑ **Advance payment check** made payable to _____
- ☑ **Completed Billing Information form**
- ☑ **State sales tax exemption certificate**
- ☐ **Original documents**
- ☑ **Escrow Agreement** – Return signed Escrow Agreement Incumbency Certificate & Lessee W9
- ☑ Certificate of Insurance for Property Coverage
- ☑ Certificate of Insurance for Liability Coverage

ALL DOCUMENTATION SHOULD BE RETURNED TO:

(Terms and Conditions continued on the reverse side of this Agreement.)

TAX DESIGNATIONS AND COVENANTS

Bank Qualification: Lessee initial here if this provision is applicable: _____
If not initialed, this provision does NOT apply to this Agreement.

(a) Lessee hereby designates this Agreement as a "qualified tax-exempt obligation" as defined in Section 265(b)(3)(B) of the Code. The aggregate face amount of all tax-exempt obligations (excluding private activity bonds other than qualified 501(c)(3) bonds) issued or to be issued by Lessee and all subordinate entities thereof during the calendar year during which the Commencement Date of this Agreement occurs, including this Agreement, is not reasonably expected to exceed $10,000,000.

(b) Lessee hereby covenants that Lessee and all subordinate entities thereof will not issue in excess of $10,000,000 of "qualified tax-exempt obligations" (including this Agreement but excluding private activity bonds other than qualified 501(c)(3) bonds) during the calendar year during which the Commencement Date of this Agreement occurs without first obtaining an opinion of nationally recognized counsel in the area of tax-exempt obligations of state and local governments acceptable to Lessor that the designation of this Agreement as a "qualified tax-exempt obligation" will not be adversely affected.

OPINION OF COUNSEL

As legal counsel of Lessee, I have examined (a) the Agreement, which, among other things provides for the sale to and purchase by the Lessee of the Property, (b) an executed counterpart of the ordinance or resolution of Lessee which, among other things, authorizes Lessee to execute the Agreement and (c) such other opinions, documents and matters of law as I have deemed necessary in connection with the following opinions. Based on the foregoing, I am of the following opinions: (1) Lessee is a public body corporate and politic, duly organized and existing under the laws of the State, and has a substantial amount of one or more of the following sovereign powers: (a) the power to tax, (b) the power of eminent domain, and (c) police power; (2) Lessee has the requisite power and authority to purchase the Property and to execute and deliver the Agreement and to perform its obligations under the Agreement; (3) the Agreement and the other documents either attached thereto or required therein have been duly authorized, approved and executed by and on behalf of Lessee, and the Agreement is a valid and binding obligation of Lessee enforceable in accordance with its terms, except to the extent limited by applicable bankruptcy, insolvency, reorganization or other laws affecting creditor's rights generally; (4) the authorization, approval and execution of the Agreement and all other proceedings of Lessee relating to the transactions contemplated thereby have been performed in accordance with all open meeting laws, public bidding laws and all other applicable state and federal laws; and (5) there is no proceeding pending or threatened in any court or before any governmental authority or arbitration board or tribunal that, if adversely determined, would adversely affect the transactions contemplated by the Agreement. All capitalized terms herein shall have the same meanings as in the Agreement. Lessor, its successors and assigns, and any counsel rendering an opinion on the tax-exempt status of the interest components of Rental Payments are entitled to rely on this opinion.

ARTICLE I

Section 1.01. Definitions. The following terms will have the meanings indicated below unless the context clearly requires otherwise:

"Agreement" means this Lease Purchase Agreement and any other schedule, exhibit or escrow agreement made a part hereof by the parties hereto, together with any amendments to the Agreement.

"Capital Expenditures" means costs of a type that are properly chargeable to a capital account under general federal income tax principles in effect at the time the cost is paid, or would be so chargeable with a proper election or with the placed-in-service date considered to be the date on which, based on all facts and circumstances, (a) the facility has reached a degree of completion that would permit its operation at substantially its design level and (b) the facility is, in fact, in operation at such level.

"Code" means the Internal Revenue Code of 1986, as amended.

"Commencement Date" is the date when the term of this Agreement and Lessee's obligation to pay rent commence, which date shall be the earlier of (i) the date on which the Property is accepted by Lessee in the manner described in Section 5.01, or (ii) the date on which sufficient moneys to purchase the Property are deposited by Lessor for that purpose with an escrow agent.

"Event of Default" means an Event of Default described in Section 12.01.

"Issuance Year" is the calendar year in which the Commencement Date occurs.

"Lease Term" means the Original Term and all Renewal Terms, but ending on the occurrence of the earliest event specified in Section 3.02.

"Lessee" means the entity described as such on the front of this Agreement, its successors and its assigns.

"Lessor" means the entity described as such on the front of this Agreement, its successors and its assigns.

"Maximum Lease Term" means the Original Term and all Renewal Terms through the Renewal Term including the last Rental Payment date set forth on the Payment Schedule.

"Net Proceeds" means the amount remaining from the gross proceeds of any insurance claim or condemnation award after deducting all expenses (including attorneys' fees) incurred in the collection of such claim or award.

"Original Term" means the period from the Commencement Date until the end of the fiscal year of Lessee in effect at the Commencement Date.

"Payment Schedule" means the schedule of Rental Payments and Purchase Price set forth on Exhibit A.

"Property" means the equipment, software, maintenance, warranty, service and similar items being financed by this Agreement as described on the front of this Agreement, and all replacements, substitutions, updates, upgrades, repairs, restorations, modifications, attachments, accessions, additions and improvements thereof or thereto, as applicable.

"Purchase Price" means the amount set forth on the Payment Schedule as the Purchase Price for the Property.

"Renewal Terms" means the optional renewal terms of this Agreement, each having a duration of one year and a term co extensive with Lessee's fiscal year.

"Rental Payment Period" means the period beginning on the day a Rental Payment is due and ending the day before the next Rental Payment is due, The first Rental Payment Period shall begin on the Commencement Date in all cases. If Rental Payment Periods are monthly, subsequent Rental Payment Periods shall begin on the same day of each month after the Commencement Date. If Rental Payment Periods are quarterly, subsequent Rental Payment Periods shall begin on the same day of each third month after the Commencement Date. If Rental Payment Periods are semiannual, subsequent Rental Payment Periods shall begin on the same day of each sixth month after the Commencement Date. If Rental Payment Periods are annual, subsequent Rental Payment Periods shall begin on the anniversary of the Commencement Date in each year. If the Commencement Date is the 29th, 30th, or 31st day of a month, any subsequent Rental Payment Period that would otherwise begin on the 29th, 30th or 31st of a month that does not include such a date shall begin on the last day of the month.

"Rental Payments" means the basic rental payments payable by Lessee pursuant to Section 4.01.

"State" means the state in which Lessee is located.

"Vendor" means the manufacturer or supplier of the Property as well as the agents or dealers of the manufacturer or supplier of the Property, as listed on the front of this Agreement.

ARTICLE II

Section 2.01. Representations and Covenants of Lessee. Lessee represents, warrants and covenants for the benefit of Lessor as follows:

(a) Lessee is a municipal corporation and political subdivision duly organized and existing under the constitution and laws of the State. Lessee will do or cause to be done all things to preserve and keep in full force and effect its existence as a body corporate and politic. Lessee is a political subdivision of the State within the meaning of Section 103(a) of the Code or a constituted authority authorized to issue obligations on behalf of a state or local governmental unit within the meaning of the regulations promulgated pursuant to said Section of the Code.

(b) Lessee is authorized under the constitution and laws of the State to enter into this Agreement and the transaction contemplated hereby and to perform all of its obligations hereunder.

(c) Lessee has been duly authorized to execute and deliver this Agreement by proper action and approval of its governing body at a meeting duly called, regularly convened and attended throughout by a requisite majority of the members thereof or by other appropriate official approval.

(d) This Agreement constitutes the legal, valid and binding obligation of the Lessee enforceable in accordance with its terms, except to the extent limited by applicable bankruptcy, insolvency, reorganization or other laws affecting creditors' rights generally.

(e) No event or condition that constitutes, or with the giving of notice or the lapse of time or both would constitute, an Event of Default exists at the Commencement Date.

(f) Lessee has, in accordance with the requirements of law, fully budgeted and appropriated sufficient funds for the current fiscal year to make the Rental Payments scheduled to come due during the Original Term and to meet its other obligations for the Original Term, and such funds have not been expended for other purposes.

(g) Lessee will do or cause to be done all things necessary to preserve and keep in full force and effect its existence as a body corporate and politic.

(h) Lessee has complied with such public bidding requirements as may be applicable to this Agreement and the acquisition by Lessee of the Property hereunder.

(i) There is no action, suit, proceeding, inquiry or investigation, at law or in equity, before or by any court, public board or body, pending or threatened against or affecting the Lessee, nor to the best knowledge of the Lessee is there any basis therefor, wherein an unfavorable decision, ruling or finding would materially adversely affect the transactions contemplated by this Agreement or any other document, agreement or certificate which is used or contemplated for use in the consummation of the transactions contemplated by this Agreement or materially adversely affect the financial condition or properties of Lessee.

(j) All authorizations, consents and approvals of governmental bodies or agencies required in connection with the execution and delivery by the Lessee of this Agreement or in connection with the carrying out by the Lessee of its obligations hereunder have been obtained.

(k) The entering into and performance of this Agreement or any other document or agreement contemplated hereby to which the Lessee is or is to be a party will not violate any judgment, order, law or regulation applicable to the Lessee or result in any breach of, or constitute a default under, or result in the creation of any lien, charge, security interest of other encumbrance on any assets of the Lessee or the Property pursuant to any indenture, mortgage, deed of trust, bank loan or credit agreement or other instrument to which the Lessee is a party or by which it or its assets may be bound, except as herein provided.

(l) The Property is essential to the function of the Lessee or to the service Lessee provides to its citizens. The Lessee has an immediate need for, and expects to make immediate use of, substantially all the Property, which need is not temporary or expected to diminish in the foreseeable future. The Property will be used by Lessee only for the purpose of performing one or more of Lessee's governmental or proprietary functions consistent with the permissible scope of Lessee's authority and will not be used in the trade or business of any other entity or person.

(m) Lessee will comply with all applicable provisions of the Code, including without limitation Sections 103 and 148 thereof, and the applicable regulations of the United States Treasury Department to maintain the exclusion of the interest components of Rental Payments from gross income for purposes of federal income taxation.

(n) Lessee has never failed to appropriate or otherwise make available funds sufficient to pay rental or other payments coming due under any lease purchase, installment sale or other similar agreement.

(o) All the costs of acquiring the Property, including amounts attributable to the financing of software, maintenance, warranty and similar items, are consistently treated as Capital Expenditures by the Lessee on its books and records. All proceeds of this Agreement will be used, directly or indirectly, to finance Capital Expenditures or, to the extent permitted by law, de minimis expenditures for certain specified purposes.

(p) Lessee has received written assurance from Vendor that with respect to the portion of the Property being prepaid, the same maintenance, repair, extended warranty, updates or maintenance or support services, as applicable, are regularly provided to nongovernmental persons on the same terms.

Section 2.02. Certification as to Arbitrage. Lessee hereby represents as follows:

(a) The estimated total costs of the Property will not be less than the total principal portion of the Rental Payments.

(b) The Property has been ordered or is expected to be ordered within six months of the Commencement Date, and the Property is expected to be delivered and installed, and the Vendor fully paid, within one year of the Commencement Date.

(c) Lessee has not created or established, and does not expect to create or establish, any sinking fund or other similar fund (i) that is reasonably expected to be used to pay the Rental Payments, or (ii) that may be used solely to prevent a default in the payment of the Rental Payments.

(d) The Property has not been and is not expected to be sold or otherwise disposed of by Lessee, either in whole or in major part, prior to the last maturity of the Rental Payments.

(e) To the best of our knowledge, information and belief, the above expectations are reasonable.

ARTICLE III

Section 3.01. Lease of Property. Lessor hereby demises, leases and lets the Property to Lessee, and Lessee rents, leases and hires the Property from Lessor, in accordance with the provisions of this Agreement, for the Lease Term. The Original Term of this Agreement shall commence on the Commencement Date and shall terminate on the last day of Lessee's current fiscal year. The Lease Term may be continued at the end of the Original Term or any Renewal Term for an additional Renewal Term up to the Maximum Lease Term; provided, however, that at the end of the Original Term and at the end of each Renewal Term until the Maximum Lease Term has been completed, Lessee shall be deemed to have continued this Agreement for the next Renewal Term unless Lessee shall have terminated this Agreement pursuant to Section 3.04 or Section 10.01. The terms and conditions during any Renewal Term shall be the same as the terms and conditions during the Original Term, except that the Rental Payments shall be as provided in the Payment Schedule.

Section 3.02. Termination of Lease Term. The Lease Term shall terminate upon the earliest of any of the following events:

(a) the expiration of the Original Term or any Renewal Term and the nonrenewal of this Agreement in the event of nonappropriation of funds pursuant to Section 3.04;

(b) the exercise by Lessee of the option to purchase the Property under Article X and payment of the Purchase Price and all amounts payable in connection therewith;

(c) a default by Lessee and Lessor's election to terminate this Agreement under Article XII; or

(d) the payment by Lessee of all Rental Payments authorized or required to be paid by Lessee hereunder during the Maximum Lease Term.

Section 3.03. Continuation of Lease Term. Lessee currently intends, subject to Section 3.04, to continue the Lease Term through the Original Term and all of the Renewal Terms and to pay the Rental Payments hereunder. Lessee reasonably believes that legally available funds in an amount sufficient to make all Rental Payments during the Original Term and each of the Renewal Terms can be obtained. The responsible financial officer of Lessee shall do all things lawfully within his or her power to obtain and maintain funds from which the Rental Payments may be made, including making provision for such Rental Payments to the extent necessary in each proposed annual budget submitted for approval in accordance with applicable procedures of Lessee and to exhaust all available reviews and appeals in the event such portion of the budget is not approved. Notwithstanding the foregoing, the decision whether or not to budget or appropriate funds or to extend this Agreement for any Renewal Term is solely within the discretion of the then current governing body of Lessee.

Section 3.04. Nonappropriation. Lessee is obligated only to pay such Rental Payments under this Agreement as may lawfully be made from funds budgeted and appropriated for that purpose during Lessee's then current fiscal year. In the event sufficient funds shall not be appropriated or are not otherwise legally available to pay the Rental Payments required to be paid in the next occurring Renewal Term, as set forth in the Payment Schedule, this Agreement shall be deemed to be terminated at the end of the then current Original Term or Renewal Term. Lessee agrees to deliver written notice to Lessor of such termination at least 90 days prior to the end of the then current Original Term or Renewal Term, but failure to give such notice shall not extend the Lease Term beyond such Original Term or

Renewal Term. If this Agreement is terminated in accordance with this Section, Lessee's rights to the Property will simultaneously terminate and Lessee agrees, at Lessee's cost and expense, (a) to immediately discontinue use of the Property, (b) to return to Lessor any portion of the Property constituting tangible personal property, (c) to remove any intangible Property from Lessee's property and terminate access to and use of such Property, whether such Property is installed on premises or accessed remotely or by internet connection and, as applicable, deliver or otherwise release the same to Vendor at the location or locations specified by Vendor, and (d) within 30 days of any such termination, to deliver a certificate to Lessor certifying that Lessee has complied with this sentence.

ARTICLE IV

Section 4.01. Rental Payments. Lessee shall pay Rental Payments exclusively from legally available funds, in lawful money of the United States of America to Lessor on the dates and in the amounts set forth on the Payment Schedule. Any Rental Payment not received on or before its due date shall bear interest at the rate of 18% per annum or the maximum amount permitted by law, whichever is less, from its due date. As set forth on the Payment Schedule, a portion of each Rental Payment is paid as, and represents payment of, interest.

Section 4.02. Rental Payments to Constitute a Current Expense of Lessee. The obligation of Lessee to pay Rental Payments hereunder shall constitute a current expense of Lessee, and does not constitute a mandatory payment obligation of Lessee in any fiscal year beyond the then current fiscal year of Lessee. Lessee's obligation hereunder shall not in any way be construed to be a debt of Lessee in contravention of any applicable constitutional or statutory limitation or requirement concerning the creation of indebtedness by Lessee, nor shall anything contained herein constitute a pledge of the general credit, tax revenues, funds or moneys of Lessee.

Section 4.03. Rental Payments To Be Unconditional. EXCEPT AS PROVIDED IN SECTION 3.04, THE OBLIGATIONS OF LESSEE TO MAKE RENTAL PAYMENTS AND TO PERFORM AND OBSERVE THE OTHER COVENANTS AND AGREEMENTS CONTAINED HEREIN SHALL BE ABSOLUTE AND UNCONDITIONAL IN ALL EVENTS WITHOUT ABATEMENT, DIMINUTION, DEDUCTION, SET-OFF OR DEFENSE, FOR ANY REASON, INCLUDING WITHOUT LIMITATION ANY FAILURE OF THE PROPERTY TO BE DELIVERED OR INSTALLED, ANY DEFECTS, MALFUNCTIONS, BREAKDOWNS OR INFIRMITIES IN THE PROPERTY OR ANY ACCIDENT, CONDEMNATION OR UNFORESEEN CIRCUMSTANCES.

ARTICLE V

Section 5.01. Delivery, Installation and Acceptance of the Property. Lessee shall (a) order the Property, (b) cause any portion of the Property constituting tangible personal property to be delivered and installed at the location specified on the front of this Agreement, (c) cause any intangible Property to be accessible from Lessee's computers, servers and other electronic equipment, either by installing the software directly on premises or providing remote access thereto, and (d) pay any and all delivery, installation and other costs in connection therewith. When the Property has been delivered and installed or is otherwise accessible by the Lessee, Lessee shall immediately accept the Property and evidence said acceptance by executing and delivering to Lessor an acceptance certificate acceptable to Lessor. After it has been installed, any portion of the Property constituting tangible personal property and any computers, servers and other electronic equipment using intangible Property will not be moved from the location specified on the front of this Agreement without Lessor's consent, which consent shall not be unreasonably withheld.

Section 5.02. Enjoyment of Property. Lessee shall peaceably and quietly have and hold and enjoy the Property during the Lease Term, without suit, trouble or hindrance from Lessor, except as otherwise expressly set forth in this Agreement.

Section 5.03. Right of Inspection. Lessor shall have the right at all reasonable times during regular business hours to enter into and upon the property of Lessee for the purpose of inspecting any portion of the Property constituting tangible personal property.

Section 5.04. Use and Maintenance of the Property. Lessee will not install, use, operate or maintain the Property improperly, carelessly, in violation of any licensing or other agreement, or in violation of any applicable law or in a manner contrary to that contemplated by this Agreement. Lessee shall obtain all permits and licenses, if any, necessary for the installation, use, operation and maintenance of the Property. In addition, Lessee shall comply in all respects with all applicable laws, regulations and rulings of any legislative, executive, administrative or judicial body; provided that Lessee may contest in good faith the validity or application of any such law, regulation or ruling in any reasonable manner that does not, in the opinion of Lessor, adversely affect the interest or rights of Lessor under this Agreement. Lessee agrees that it will, at Lessee's own cost and expense, maintain, preserve and keep the Property in good repair, working order and condition and install all updates, upgrades, improvements and additions to the Property made available to it by Vendor. Lessor shall have no responsibility to maintain or repair or to provide or make updates, upgrades, improvements or additions to the Property.

ARTICLE VI

Section 6.01. Title to the Property. During the Lease Term, title to the Property shall vest in Lessee, subject to the provisions of this Agreement and any applicable license or other agreement. Upon any termination of this Agreement pursuant to Sections 3.02(a) or Section 3.02(c), Lessee's title shall immediately and without any action by Lessee terminate. Upon any termination of the Agreement pursuant to Sections 3.02(b) or 3.02(d), title to the Property shall be vested in Lessee, free and clear of any claim by or through Lessor.

Section 6.02. UCC FILINGS. Lessee authorizes Lessor to file a financing statement with respect to the Property.

ARTICLE VII

Section 7.01. Liens, Taxes, Other Governmental Charges and Utility Charges. Lessee shall keep the Property free and clear of all liens, charges and encumbrances, except those created under this Agreement. The parties to this Agreement contemplate that the Property will be used for a governmental or proprietary purpose of Lessee and, therefore, that the Property will be exempt from all property taxes and other similar charges. If the licensing, use, possession or acquisition of the Property is found to be subject to taxation in any form, Lessee will pay all taxes and governmental charges lawfully assessed or levied against or with respect to the Property. Lessee shall pay all utility and other charges incurred in the use and maintenance of the Property. Lessee shall pay such taxes and charges as the same become due; provided that, with respect to any such taxes and charges that may lawfully be paid in installments over a period of years, Lessee shall be obligated to pay only such installments that accrue during the Lease Term.

Section 7.02. Insurance. At its own expense, Lessee shall maintain (a) casualty insurance insuring any portion of the Property constituting tangible personal property against loss or damage by fire and all other risks covered by the standard extended coverage endorsement then in use in the State and any other risks reasonably required by Lessor in an amount at least equal to the then applicable Purchase Price of the Property, (b) liability insurance that protects Lessor from liability in all events in form and amount satisfactory to Lessor, and (c) workers' compensation coverage as required by the laws of the State; provided that, with Lessor's prior written consent, Lessee may self insure against the risks described in clauses (a) and (b). All insurance proceeds from casualty losses shall be payable as hereinafter provided. Lessee shall furnish to Lessor certificates evidencing such coverage throughout the Lease Term, as applicable. All such casualty and liability insurance shall be with insurers that are acceptable to Lessor, shall name Lessor as a loss payee and an additional insured, respectively, and shall contain a provision to the effect that such insurance shall not be cancelled or modified materially without first giving written notice thereof to Lessor at least ten days in advance of such cancellation or modification. All such casualty insurance shall contain a provision making any losses payable to Lessee and Lessor, as their respective interests may appear.

Section 7.03. Advances. In the event Lessee shall fail to maintain the insurance required by this Agreement, pay the taxes or charges required to be paid by it under this Agreement or keep the Property in good repair and operating condition, Lessor may, but shall be under no obligation to, purchase the required policies of insurance and pay the cost of the premiums thereof, pay such taxes and charges and maintain and repair the Property and pay the cost thereof. All amounts so advanced by Lessor shall become additional rent for the then current Original Term or Renewal Term. Lessee agrees to pay such amounts with interest thereon from the date paid at the rate of 12% per annum or the maximum permitted by law, whichever is less.

Section 7.04. Financial Information. Lessee will annually provide Lessor with current financial statements, budgets, proofs of appropriation for the ensuing fiscal year and such other financial information relating to the ability of Lessee to continue this Agreement as may be requested by Lessor.

Section 7.05. Release and Indemnification. To the extent permitted by law, Lessee shall indemnify, protect and hold harmless Lessor from and against any and all liability, obligations, losses, claims and damages whatsoever, regardless of cause thereof, and expenses in connection therewith (including, without limitation, counsel fees and expenses and any federal income tax and interest and penalties connected therewith imposed on interest received) arising out of or as the result of (a) the entering into this Agreement, (b) the ownership of any item of the Property, (c) the ordering, licensing, acquisition, use, operation, condition, purchase, delivery, rejection, storage or return of any item of the Property, (d) any accident in connection with the licensing, operation, use, condition, possession, storage or return of any item of the Property resulting in damage to property or injury or death to any person or (e) the breach of any covenant herein or any material misrepresentation contained herein. The indemnification arising under this paragraph shall continue in full force and effect notwithstanding the full payment of all obligations under this Agreement or the termination of the Lease Term for any reason.

ARTICLE VIII

Section 8.01. Risk of Loss. Lessee assumes, from and including the Commencement Date, all risk of loss of or damage to the Property from any cause whatsoever. No such loss of or damage to the Property nor defect therein nor unfitness or obsolescence thereof shall relieve Lessee of the obligation to make Rental Payments or to perform any other obligation under this Agreement.

Section 8.02. Damage, Destruction, Unfitness for Use and Condemnation. If (a) any portion of the Property constituting tangible personal property is destroyed, in whole or in part, or is damaged by fire or other casualty or if any portion of the Property is otherwise rendered unfit for use by any cause whatsoever, or (b) title to, or the temporary use of, any portion of the Property or the interest of Lessee or Lessor in any portion of the Property shall be taken under the exercise of the power of eminent domain by any governmental body or by any person, firm or corporation acting under governmental authority, Lessee and Lessor will cause the Net Proceeds to be applied to the prompt replacement, repair or restoration of the Property, unless Lessee shall have exercised its option to purchase Lessor's interest in the Property pursuant to Article X. Any balance of the Net Proceeds remaining after such replacement, repair or restoration of the Property has been completed shall be paid to Lessee.

Section 8.03. Insufficiency of Net Proceeds. If the Net Proceeds are insufficient to pay in full the cost of any replacement, repair or restoration referred to in Section 8.02, Lessee shall either (a) complete such replacement, repair or restoration and pay any costs thereof in excess of the amount of the Net Proceeds, or (b) purchase Lessor's interest in the Property pursuant to Article X. The amount of the Net Proceeds, if any, remaining after completing such replacement, repair or restoration or after purchasing the Property shall be retained by Lessee. If Lessee shall make any payments pursuant to this Section, Lessee shall not be entitled to any reimbursement therefor from Lessor nor shall Lessee be entitled to any diminution of the amounts payable under Article IV.

ARTICLE IX

Section 9.01. Disclaimer of Warranties. LESSOR MAKES NO WARRANTY OR REPRESENTATION, EXPRESS OR IMPLIED, AS TO THE VALUE, DESIGN, CONDITION, MERCHANTABILITY OR FITNESS FOR PARTICULAR USE OR PURPOSE OF THE PROPERTY OR AGAINST INFRINGEMENT, OR ANY OTHER WARRANTY OR REPRESENTATION WITH RESPECT THERETO. IN NO EVENT SHALL LESSOR BE LIABLE FOR ANY ACTUAL, INCIDENTAL, INDIRECT, SPECIAL OR CONSEQUENTIAL DAMAGE IN CONNECTION WITH OR ARISING OUT OF THIS AGREEMENT OR THE EXISTENCE, FURNISHING, FUNCTIONING OR LESSEE'S USE OR MAINTENANCE OF ANY PROPERTY PROVIDED FOR IN THIS AGREEMENT.

Section 9.02. Vendor's Warranties. Lessee may have rights under the contract evidencing the purchase of the Property or licensing or other agreements; Lessee is advised to contact the Vendor for a description of any such rights. Lessor hereby assigns to Lessee during the Lease Term all rights under any licensing or other agreement and warranties, if any, running from Vendor to Lessor included in or respecting the Property. Lessor hereby irrevocably appoints Lessee its agent and attorney in fact during the Lease Term, so long as Lessee shall not be in default hereunder, to assert from time to time whatever claims and rights (including without limitation warranties) related to the Property that Lessor may have against the Vendor. Lessee's sole remedy for the breach of any such licensing or other agreement, warranty, indemnification or representation shall be against the Vendor, and not against Lessor. Any such matter shall not have any effect whatsoever on the rights and obligations of Lessor with respect to this Agreement, including the right to receive full and timely payments hereunder. Lessee expressly acknowledges that Lessor makes, and has made, no

representations or warranties whatsoever as to the existence or availability of such agreements or warranties by any Vendor.

ARTICLE X

Section 10.01. Purchase Option. Lessee shall have the option to purchase Lessor's interest in all (but not less than all) of the Property, upon giving written notice to Lessor at least 60 (but not more than 180) days before the date of purchase, at the following times and upon the following terms:

(a) On any Rental Payment Date, upon payment in full of the Rental Payments and all other amounts then due hereunder plus the then applicable Purchase Price to Lessor; or

(b) If substantially all of the Property is substantially damaged, destroyed or otherwise rendered unfit for use or is condemned, on the day Lessee specifies as the purchase date in Lessee's notice to Lessor of its exercise of the purchase option, upon payment in full of the Rental Payments and all other amounts then due hereunder plus (i) the Purchase Price designated on the Payment Schedule for such purchase date if such purchase date is a Rental Payment Date or the Purchase Price for the immediately preceding Rental Payment Date if such purchase date is not a Rental Payment Date, and (ii) if such day is not a Rental Payment Date, an amount equal to the portion of the interest component of the Rental Payment scheduled to come due on the following Rental Payment Date accrued from the immediately preceding Rental Payment Date to such purchase date, computed on the basis of a 360 day year of twelve 30 day months.

Upon the exercise of the option to purchase set forth above, title to the Property shall be vested in Lessee, free and clear of any claim by or through Lessor.

Section 10.02. Determination of Fair Purchase Price. Lessee and Lessor hereby agree and determine that the Rental Payments hereunder during the Original Term and each Renewal Term represent the fair value of the use of the Property and that the amount required to exercise Lessee's option to purchase Lessor's interest in the Property pursuant to Section 10.01 represents, as of the end of the Original Term or any Renewal Term, the fair purchase price of the Property. Lessee hereby determines that the Rental Payments do not exceed a reasonable amount so as to place Lessee under a practical economic compulsion to renew this Agreement or to exercise its option to purchase the Property hereunder. In making such determinations, Lessee and Lessor have given consideration to (a) the costs of the Property, (b) the uses and purposes for which the Property will be employed by Lessee, (c) the benefit to Lessee by reason of the acquisition and installation of the Property and the use of the Property pursuant to the terms and provisions of this Agreement and any applicable licensing and other agreements, and (d) Lessee's option to purchase Lessor's interest in the Property.

ARTICLE XI

Section 11.01. Assignment by Lessor. Lessor's interest in, to and under this Agreement and the Property may, without notice to or the consent of Lessee, be assigned and reassigned in whole or in part to one or more assignees by Lessor. Lessee hereby appoints Municipal Registrar Services (the "Registrar") as its agent for the purpose of maintaining a written record of each such assignment in form necessary to comply with Section 149(a) of the Code. No such assignment shall be binding on Lessee until the Registrar has received written notice from Lessor of the name and address of the assignee. Lessee agrees to execute all documents, including chattel mortgages or financing statements that may be reasonably requested by Lessor or any assignee to protect its interest in the Property and in this Agreement. Lessee shall not have the right to and shall not assert against any assignee any claim, counterclaim, defense, set-off or other right Lessee may from time to time have against Lessor.

Section 11.02. Assignment and Subleasing by Lessee. None of Lessee's right, title and interest in, to and under this Agreement and in the Property may be assigned or encumbered by Lessee for any reason, except that Lessee may sublease all or part of the Property, to the extent, if any, permitted by any applicable licensing and other agreements, if Lessee obtains the prior written consent of Lessor and an opinion of nationally recognized counsel in the area of tax exempt municipal obligations satisfactory to Lessor that such subleasing will not adversely affect the exclusion of the interest components of the Rental Payments from gross income for federal income tax purposes. Any such sublease of all or part of the Property shall be subject to this Agreement and the rights of the Lessor in, to and under this Agreement and the Property.

ARTICLE XII

Section 12.01. Events of Default Defined. Subject to the provisions of Section 3.04, any of the following shall be "Events of Default" under this Agreement:

(a) Failure by Lessee to pay any Rental Payment or other payment required to be paid hereunder at the time specified herein;

(b) Any termination or suspension of any of Lessee's rights under any licensing agreement included in the Property.

(c) Failure by Lessee to observe and perform any covenant, condition or agreement on its part to be observed or performed or to comply with any licensing or other agreement included in or respecting the Property, other than as referred to in Section 12.01(a), for a period of 30 days after written notice, specifying such failure and requesting that it be remedied, is given to Lessee by Lessor, unless Lessor shall agree in writing to an extension of such time prior to its expiration; provided, however, if the failure stated in the notice cannot be corrected within the applicable period, Lessor will not unreasonably withhold its consent to an extension of such time if corrective action is instituted by Lessee within the applicable period and diligently pursued until the default is corrected;

(d) Any statement, representation or warranty made by Lessee in or pursuant to this Agreement or its execution, delivery or performance shall prove to have been false, incorrect, misleading or breached in any material respect on the date when made;

(e) Any provision of this Agreement shall at any time for any reason cease to be valid and binding on Lessee, or shall be declared to be null and void, or the validity or enforceability thereof shall be contested by Lessee or any governmental agency or authority if the loss of such provision would materially adversely affect the rights or security of Lessor, or Lessee shall deny that it has any further liability or obligation under this Agreement;

(f) Lessee shall (i) apply for or consent to the appointment of a receiver, trustee, custodian or liquidator of Lessee, or of all or a substantial part of the assets of Lessee, (ii) be unable, fail or admit in writing its inability generally to pay its debts as they become due, (iii) make a general assignment for the benefit of creditors, (iv) have an order for relief entered against it under applicable federal bankruptcy law, or (v) file a voluntary petition in bankruptcy or a petition or an answer seeking reorganization or an arrangement with creditors or taking advantage of any insolvency law or any answer admitting the material allegations of a petition filed against Lessee in any bankruptcy, reorganization or insolvency proceeding; or

(g) An order, judgment or decree shall be entered by any court of competent jurisdiction, approving a petition or appointing a receiver, trustee, custodian or liquidator of Lessee or of all or a substantial part of the assets of Lessee, in each case without its application, approval or consent, and such order, judgment or decree shall continue unstayed and in effect for any period of 30 consecutive days.

Section 12.02. Remedies on Default. Whenever any Event of Default exists, Lessor shall have the right, at its sole option without any further demand or notice, to take one or any combination of the following remedial steps:

(a) By written notice to Lessee, Lessor may declare all Rental Payments and other amounts payable by Lessee hereunder to the end of the then current Original Term or Renewal Term to be due.

(b) Lessor may terminate this Agreement and hold Lessee liable for Rental Payments and other amounts payable by Lessee hereunder to the end of the then current Original Term or Renewal Term, and in such event, Lessee's rights to the Property will simultaneously terminate and Lessee agrees, at Lessee's cost and expense, (a) to immediately discontinue use of the Property, (b) to return to Lessor any portion of the Property constituting tangible personal property, (c) to remove any intangible Property from Lessee's property and terminate access to and use of such Property, whether such Property is installed on premises or accessed remotely or by internet connection and, as applicable, deliver or otherwise release the same to Vendor at the location or locations specified by Vendor, and (d) within 30 days of any such termination, to deliver a certificate to Lessor certifying that Lessee has complied with this sentence. Lessor reserves the right to, and Lessee agrees that the Lessor or Vendor may, upon termination of this Agreement, enter the premises where the Property is located or used to retake possession of the Property or ensure compliance with the previous sentence.

(c) Lessor may take whatever other action at law or in equity may appear necessary or desirable to enforce its rights as Lessor under this Agreement.

In addition, Lessee will remain liable for all covenants and indemnities under this Agreement and for all legal fees and other costs and expenses, including court costs, incurred by Lessor with respect to the enforcement of any of the remedies listed above or any other remedy available to Lessor. Lessor may charge interest on all amounts due to it at the rate of 18% per annum or the maximum amount permitted by law, whichever is less.

Section 12.03. No Remedy Exclusive. No remedy herein conferred upon or reserved to Lessor is intended to be exclusive and every such remedy shall be cumulative and shall be in addition to every other remedy given under this Agreement or now or hereafter existing at law or in equity. No delay or omission to exercise any right or power accruing upon any default shall impair any such right or power or shall be construed to be a waiver thereof, but any such right and power may be exercised from time to time and as often as may be deemed expedient. In order to entitle Lessor to exercise any remedy reserved to it in this Article it shall not be necessary to give any notice, other than such notice as may be required in this Article.

ARTICLE XIII

Section 13.01. Notices. All notices, certificates or other communications hereunder shall be sufficiently given and shall be deemed given when delivered or mailed by registered mail, postage prepaid, to the parties at the addresses on the front of this Agreement (or at such other address as either party hereto shall designate in writing to the other for notices to such party), to any assignee at its address as it appears on the registration books maintained by Lessee.

Section 13.02. Binding Effect. This Agreement shall inure to the benefit of and shall be binding upon Lessor and Lessee and their respective successors and assigns.

Section 13.03. Severability. In the event any provision of this Agreement shall be held invalid or unenforceable by any court of competent jurisdiction, such holding shall not invalidate or render unenforceable any other provision hereof.

Section 13.04. Entire Agreement. This Agreement constitutes the entire agreement between Lessor and Lessee.

Section 13.05. Amendments. This Agreement may be amended in writing by Lessor and Lessee.

Section 13.06. INTENTIONALLY OMITTED.

Section 13.07. Usury. The parties hereto agree that the charges in this Agreement shall not be a violation of usury or other law. Any such excess charge shall be applied in such order as to conform this Agreement to such applicable law.

Section 13.08. Jury Trial Waiver. TO THE EXTENT PERMITTED BY LAW, LESSEE AGREES TO WAIVE ITS RIGHT TO A TRIAL BY JURY.

Section 13.09. INTENTIONALLY OMITTED.

Section 13.10. Captions. The captions or headings in this Agreement are for convenience only and in no way define, limit or describe the scope or intent of any provisions or sections of this Agreement.

Section 13.11. Applicable Law. This Agreement shall be governed by and construed in accordance with the laws of the State.

Section 13.12. Role of Lessor. Lessor has not acted and will not act as a fiduciary for Lessee or as Lessee's agent or municipal advisor. Lessor has not and will not provide financial, legal, tax, accounting or other advice to Lessee or to any financial advisor or placement agent engaged by Lessee with respect to this Agreement. Lessee, its financial advisor, placement agent or municipal advisor, if any, shall each seek and obtain its own financial, legal, tax, accounting and other advice with respect to this Agreement from its own advisors (including as it relates to structure, timing, terms and similar matters).

Section 13.13. Electronic Transactions. Lessor, in its sole discretion, may permit Lessee to electronically copy and/or deliver by telecopier or other electronic means of transmission an executed counterpart of this Agreement, and any document, schedule, amendment, addendum, supplement or agreement related hereto or executed in connection herewith, with the exception of the IRS Form 8038-G which Lessee must execute using an original, manual signature (not e-Signature). By so copying and/or delivering any such document, Lessee hereby represents and agrees (a) that such transmission constitutes due delivery of such executed document, (b) that the counterpart of such executed document as printed by the recipient, including Lessee's signature thereon, shall be deemed to constitute an original and shall be admissible in any court or other legal proceeding as an original, and (c) to deliver to Lessor, promptly on request, such document bearing Lessee's original "wet ink" signature; provided that neither delivery nor failure to deliver the document bearing Lessee's original "wet ink" signature shall limit or modify the representations and agreements set forth in clauses (a) and (b). This Agreement, including any document, schedule, amendment, addendum, supplement or agreement related hereto or executed in connection herewith with the exception of the IRS Form 8038-G, may be executed in counterparts and any facsimile, photographic or other electronic transmission and/or electronic signing of the Agreement by the Lessee when manually countersigned by Lessor or attached to Lessor's original signature counterpart and/or in Lessor's possession shall constitute the sole original chattel paper as defined in the UCC for all purposes and will be admissible as legal evidence thereof. At Lessor's option, Lessor may require a manual signature.

TEXAS ADDENDUM TO LEASE PURCHASE AGREEMENT

This Addendum to that certain Lease Purchase Agreement (together with all Exhibits and this Addendum, the "Agreement") dated as of July 1, 20 26, between De Lage Landen Public Finance LLC (together with its successors and assigns, "Lessor"), and Montgomery County (together with its successors and assigns, "Lessee"), is incorporated in and is hereby made a part of the Agreement. Lessor and Lessee hereby agree that capitalized terms used herein and not otherwise defined herein shall have the meaning assigned to such terms in the Agreement and that the following changes and additions shall be made to the Agreement:

1. The definition of **Lease Term** in the Agreement is hereby amended by deleting the existing definition and inserting the following definition in lieu thereof:

   "Lease Term" means, the Original Term and all Renewal Terms, but ending on the occurrence of the earliest event specified in **Section 3.02**, provided that the Lease Term shall not exceed 25 years.

2. **Section 3.03** of the Agreement is hereby deleted and the following **Section 3.03** is hereby inserted in lieu thereof:

   Section 3.03. Continuation of Lease Term. The decision whether or not to budget or appropriate funds or to extend this Agreement for any Renewal Term is solely within the discretion of the then-current governing body of Lessee.

3. **Section 11.01** of the Agreement is hereby deleted and the following **Section 11.01** is hereby inserted in lieu thereof:

   Section 11.01. Assignment by Lessor. Lessor's interest in, to and under this Agreement and the Property may, without notice to or the consent of Lessee, be assigned and reassigned in whole (but not in part) by Lessor. Lessee hereby appoints Municipal Registrar Services (the "Registrar") as its agent for the purpose of maintaining a written record of each such assignment in form necessary to comply with Section 149(a) of the Code. No such assignment shall be binding on Lessee until the Registrar has received written notice from Lessor of the name and address of the assignee. Lessee agrees to execute all documents, including chattel mortgages or financing statements that may be reasonably requested by Lessor or any assignee to protect its interest in the Property and in this Agreement. Lessee shall not have the right to and shall not assert against any assignee any claim, counterclaim, defense, set-off or other right Lessee may from time to time have against Lessor.

4. The following **Section 13.14** is hereby added to the Agreement:

   Section 13.14. No Engagement in Boycott of Israel. Lessor certifies that it does not boycott Israel, and agrees that it will not boycott Israel during the term of this Agreement, with the term "boycott" having the meaning assigned in V.T.C.A., Government Code § 808.001.

Except as specifically set forth in this Addendum, all terms and conditions contained in the Agreement remain in full force and effect and are hereby ratified and confirmed.

TEXAS VERIFICATION ADDENDUM TO LEASE PURCHASE AGREEMENT

[APPLICABLE TO A LEASE WITH A VALUE OF A $100,000 OR MORE]

LESSOR: De Lage Landen Public Finance LLC

LESSEE: Montgomery County

LEASE NUMBER: 500-50857691

LEASE DATE: July 1, 2026

This Texas Verification Addendum is hereby incorporated in and is hereby made a part of the above-referenced Lease Purchase Agreement (together with all Exhibits and Attachments, the "Original Lease", and with any supplemental addendums or amendments, the "Lease"). Words "YOU" and "YOUR" refer to the "Lessee" and the words "WE," "US" and "OUR" refer to De Lage Landen Public Finance LLC, as the "Lessor" of the Equipment.

This Texas Verification Addendum serves to evidence compliance with applicable Texas statutes by providing written verification that the Lessor, including its wholly-owned subsidiaries, majority-owned subsidiaries, parent companies, and affiliates, can make the unqualified verifications as outlined herein. The Lease is a contract for goods or services between the Lessor and the Lessee, a Texas governmental entity, with a value of $100,000 or more to be paid wholly or partly from public funds of the Lessee.

Lessor and Lessee hereby agree that capitalized terms used herein and not otherwise defined herein shall have the terms assigned to such terms in the Lease and that the following changes and additions shall be made to the Lease:

1. The following NEW SECTION is hereby added to the Original Lease:

   NEW SECTION. NO ENGAGEMENT IN BOYCOTT OF ISRAEL. WE certify that WE do not boycott Israel, and agree that WE will not boycott Israel during the term of this Lease, with the term "boycott" having the meaning assigned in V.T.C.A., Government Code § 808.001.

2. The following NEW SECTION is hereby added to the Original Lease:

   NEW SECTION. NO BUSINESS WITH IRAN, SUDAN, OR FOREIGN TERRORIST ORGANIZATIONS. WE certify that WE do not engage in business with Iran, Sudan, or any company identified on the list referenced in V.T.C.A., Government Code § 2252.152.

3. The following NEW SECTION is hereby added to the Original Lease:

   NEW SECTION. NO ENGAGEMENT IN BOYCOTTING ENERGY COMPANIES. WE certify that WE do not boycott energy companies and will not boycott energy companies during the term of this Lease pursuant to V.T.C.A., Government Code § 2274 (Acts 2021, 87th Leg., ch. 529, § 2)

4. The following NEW SECTION is hereby added to the Original Lease:

   NEW SECTION. NO DISCRIMINATION AGAINST FIREARM AND AMMUNITION INDUSTRIES. We certify that WE (a) do not have a practice, policy, guidance, or directive that discriminates against a firearm entity or firearm trade association; and (b) will not discriminate during the term of the Lease against a firearm entity or firearm trade association, all pursuant to V.T.C.A., Government Code § 2274 (Acts 2021, 87th Leg., ch. 530, § 1).

Except as specifically set forth in this Texas Verification Addendum, all terms and conditions contained in the Original Lease will remain in full force and effect and are hereby ratified and confirmed.

In the event of any conflict, inconsistency or incongruity between the provisions of this Texas Verification Addendum and any of the provisions of the Original Lease, the provisions of this Texas Verification Addendum shall in all respects govern and control.

TERMS AND CONDITIONS ADDENDUM

This Terms and Conditions Addendum dated as of July 8, 2026 ("Addendum") by and between De Lage Landen Public Finance LLC ("Lessor") and Montgomery County ("Lessee") is made part of and amends that certain Lease Purchase Agreement No. 500-50857691 by and between Lessor and Lessee (as amended by, and together with that Texas Addendum to the Lease Purchase Agreement ("Texas Addendum"), the "Lease"). Unless otherwise defined herein, capitalized terms shall have the definition set forth in the Lease.

NOW, THEREFORE, for good and valuable consideration, intending to be legally bound and pursuant to the terms and conditions of the Lease, it is hereby agreed as follows:

In the Lease, Section 2.01. Representations and Covenants of Lessee, subsection (a) is restated in its entirety to read as follows: "*(a) Lessee is a political subdivision duly organized and existing under the constitution and law of the State. Lessee will do or cause to be done all things to preserve and keep in full force and effect its existence as a body corporate and politic. Lessee is a political subdivision of the State within the meaning of Section 103(a) of the Code or a constituted authority authorized to issue obligations on behalf of the state or local government unit within the meaning of the regulations promulgated pursuant to said Section of the Code.*"

Section 3 of the Texas Addendum is restated in its entirety to read as follows: "*3. Section 11.01 of the Agreement is hereby deleted and the following Section 11.01 is hereby inserted in lieu thereof: Section 11.01. Assignment by Lessor. Lessor's interest in, to and under this Agreement and the Property may, without notice to or the consent of Lessee, be assigned and reassigned in whole or in part to one or more assignees by Lessor. Lessee hereby appoints County Purchasing Agent (the "Purchasing Agent") as its agent for the purpose of maintaining a written record of each such assignment in form necessary to comply with Section 149(a) of the Code. No such assignment shall be binding on Lessee until the Purchasing Agent has received written notice from Lessor of the name and address of assignee. Lessee agrees to execute all documents, including chattel mortgages or financing statements that may be reasonably requested by Lessor or any assignee to protect its interest in the Property and in this Agreement.*"

By signing this Addendum, Lessee acknowledges and agrees to the above changes to the Lease and authorizes Lessor to make such changes. In all other respects, the terms and conditions of the Lease remain in full force and effect and remain binding on Lessee. In the event of any conflict, inconsistency, or incongruity between the provisions of this Addendum and any of the provisions of the Lease, the provisions of this Addendum shall in all respects govern and control.

IN WITNESS WHEREOF, the parties have caused this Addendum to be executed on the date set forth above.

EXHIBIT A — LEASE PURCHASE AGREEMENT

Lease Payment Schedule

LESSOR: De Lage Landen Public Finance LLC

LESSEE: Montgomery County

LEASE NUMBER: 500-50857691

LEASE DATE: ~~June 10~~ July 1 ,20 26

YOUR first Lease Payment is due on the 30th day following the Commencement Date. All remaining Lease Payments are due on each successive periodic anniversary annually (monthly/quarterly/semi-annually/annually as specified in the Payment Frequency box of this Lease) of the Commencement Date that occurs during the Full Lease Term until the balance of all Lease Payments have been received by US. If the Commencement Date occurs on the 29th, 30th or 31st day of any month, the periodic anniversary will be deemed to occur on the 1st day of the succeeding month, unless another day is specified.

Payment Number	Rental Payment	Interest Portion	Principal Portion	Balance	Purchase Price
Loan				$2,533,478.29	
1	$506,695.66	$0.00	$506,695.66	$2,026,782.63	$2,067,318.28
2	$506,695.66	$0.00	$506,695.66	$1,520,086.97	$1,550,488.71
3	$506,695.66	$0.00	$506,695.66	$1,013,391.31	$1,033,659.14
4	$506,695.66	$0.00	$506,695.66	$506,695.65	$516,829.56
5	$506,695.66	$0.00	$506,695.65	$0.00	$0.00
Grand Totals	$2,533,478.30	$0.00	$2,533,478.29		

Sales tax of _____ is included in the financed amount shown above.

Lessee acknowledges that the amount financed by Lessor is $2,301,478.29 and that such amount, net of any advance payments, is the issue price for Federal Income Tax purposes. The yield for this schedule for Federal Income Tax purposes is 4.726%. Such issue price and yield will be stated in the applicable IRS Form 8038-G.The dates, interest rate and resulting payments contained in the above amortization schedule are estimated based on the expected transaction funding timeframe. Lessor will make reasonable efforts to maintain the rate and payments presented herein. However, the rate may need to be adjusted prior to closing due to change in law or market conditions. In the event that market interest rates increase prior to the date of closing, the interest rate will be revised to reflect adjustments to the Lender's actual cost of funds due to financial market and legal changes incurred since the date of this documentation. This revision may result in an increase in the resulting payment amounts. If such revisions are deemed necessary by Lessor (it its sole discretion), it is understood and agreed by Lessee that a revised amortization schedule reflecting these changes will be executed prior to closing.

Written Tax Compliance Procedures

The IRS Form 8038-G asks specific questions about whether written procedures exist with regard to compliance with the federal tax requirements for tax-exempt obligations. Please answer the following questions to help us complete the form correctly prior to your signature. **Please note that your answers to these questions will not impact the terms or conditions of the subject transaction:**

1. Has the Lessee established written procedures designed to monitor compliance with federal tax restrictions for the term of the lease? Among other matters, the written procedures should identify a particular individual within Lessee's organization to monitor compliance with the federal tax requirements related to use of the financed assets and describe actions to be taken in the event failure to comply with federal tax restrictions is contemplated or discovered.

YES ☐ NO ☑ If YES, please attach/provide a copy.

Answer the following question only if proceeds of the current financing will be funded to an ESCROW Account.
The IRS Form 8038-G asks specific questions about written procedures to monitor the yield on the investment of gross proceeds of tax-exempt obligations and, as necessary, make payments of arbitrage rebate earned to the United States.

2. Has the Lessee established written procedures to monitor the yield on the investment of proceeds of the Lease on deposit in an escrow account or similar fund prior to being spent and to ensure that any positive arbitrage rebate earned is paid to the United States?

YES ☐ NO ☑ If YES, please attach/provide a copy.

If you have further questions, please consult your regular bond or legal counsel.

ESCROW AGREEMENT

This ESCROW AGREEMENT (the "Escrow Agreement"), dated as of July 1, 20 26, and entered into among De Lage Landen Public Finance LLC, a Michigan limited liability company ("Lessor"), Montgomery County, a public body corporate and politic existing under the laws of Texas ("Lessee"), and UMB Bank, n.a., a national banking corporation, as escrow agent ("Escrow Agent").

Name of Acquisition Fund: "Montgomery County"

Equipment Acquisition Fund Account No.: _____

Amount of Deposit into the Acquisition Fund: $2,533,478.29 + $500.00 escrow fee paid by Lessor

TERMS AND CONDITIONS

1. This Escrow Agreement relates to and is hereby made a part of Lease Purchase Agreement dated as of July 1, 20 26 (the "Agreement"), between Lessor and Lessee.

2. Except as otherwise defined herein, all terms defined in the Agreement shall have the same meaning for the purposes of this Escrow Agreement as in the Agreement.

3. Lessor, Lessee and Escrow Agent agree that Escrow Agent will act as sole Escrow Agent under the Agreement and this Escrow Agreement, in accordance with the terms and conditions set forth in this Escrow Agreement. Escrow Agent shall not be deemed to be a party to the Agreement, and this Escrow Agreement shall be deemed to constitute the entire agreement between Lessor and Lessee and Escrow Agent.

4. There is hereby established in the custody of Escrow Agent a special trust fund designated as set forth above (the "Acquisition Fund") to be held and administered by Escrow Agent in trust for the benefit of Lessor and Lessee in accordance with this Escrow Agreement. Lessee hereby grants to Lessor a security interest in the cash and negotiable instruments from time to time comprising the Acquisition Fund (the "Security Interest"). To the limited extent required to perfect the Security Interest, Lessor hereby appoints Escrow Agent as its security agent, and Escrow Agent accepts the appointment as security agent and agrees to hold physical possession of such cash and negotiable instruments on behalf of Lessor.

5. Lessor shall deposit in the Acquisition Fund the amount specified above. Moneys held by Escrow Agent hereunder shall be invested and reinvested by Escrow Agent upon written direction of an authorized representative of Lessee in Qualified Investments (as hereinafter defined) maturing or subject to redemption at the option of the holder thereof prior to the date on which it is expected that such funds will be needed. Escrow Agent may act as purchaser or agent in the making or disposing of any investment. Escrow Agent shall have no obligation to invest or reinvest moneys if deposited with Escrow Agent after 11:00 a.m. (E.S.T.) on such day of deposit. Instructions received after 11:00 a.m. (E.S.T.) will be treated as if received on the following business day. Escrow Agent shall have no responsibility for any investment losses resulting from the investment, reinvestment or liquidation of funds held in the Acquisition Fund. Any interest or other income received on such investment and reinvestment of such funds shall become part of the Acquisition Fund and any losses incurred on such investment and reinvestment of such funds shall be debited against the Acquisition Fund. If the authorized representative of Lessee does not provide the Escrow Agent with written instructions directing the investment or reinvestment of such funds, the Escrow Agent may invest such funds in money market funds of a type described in Section 6(a)(iv) or Section 6(b)(vi) as appropriate until the Escrow Agent has received appropriate written instructions from the authorized representative. It is agreed and understood that the entity serving as Escrow Agent may earn fees associated with the investments described herein in accordance with the terms of such investments. Notwithstanding the foregoing, Escrow Agent shall have the power to sell or liquidate the foregoing investments whenever Escrow Agent shall be required to pay or disburse all or any portion of the funds held hereunder pursuant to the provisions hereof. In no event shall Escrow Agent be deemed an investment manager or adviser in respect of any selection of investments hereunder.

6. "Qualified Investments" shall be defined for purposes of this Escrow Agreement as follows:
   (a) For an Agreement **not** qualified for the arbitrage rebate exception for small governmental units under Section 148(f)(4)(C) of the Code, "Qualified Investments" means, to the extent the same are at the time legal for investment of the funds being invested: (i) United States Treasury Bills or United States Treasury Notes traded on an open market or issued directly by the United States at a yield not exceeding 4.726% per annum, (ii) United States Treasury Obligations State and Local Government Series time deposit securities with a yield not exceeding 4.726% per annum, (iii) obligations the interest of which is not includable in the gross income of the owner thereof for federal income tax purposes under Section 103 of the Code and which are rated AA or better by Standard & Poor's Corporation or Aa or better by Moody's Investors Service, Inc., (iv) shares of qualified regulated investment companies which distribute exempt interest dividends within the meaning of Section 852 of the Code and which are rated AA or better by Standard & Poor's Corporation or Aa or better by Moody's Investors Service, Inc. (tax exempt mutual funds), or (v) United States Treasury Obligations State and Local Government Series demand deposit securities.

   (b) For an Agreement qualified for the arbitrage rebate exception for small governmental units under Section 148(f)(4)(C) of the Code, "Qualified Investments" means to the extent the same are at the time legal for investment of the funds being invested: (i) direct general obligations of the United States of America; (ii) obligations the timely payment of the principal of and interest on which is fully and unconditionally guaranteed by the United States of America; (iii) general obligations of the agencies and instrumentalities of the United States of America acceptable to Lessor; (iv) certificates of deposit, time deposits or demand deposits with any bank or savings institution including Escrow Agent or any affiliate thereof, provided that such certificates of deposit, time deposits or demand deposits, if not insured by the Federal Deposit Insurance Corporation or the Federal Savings and Loan Insurance Corporation, are fully secured by obligations described in (i), (ii) or (iii) above; (v) repurchase agreements with any state or national bank or trust company, including Escrow Agent or any affiliate thereof, that are secured by obligations of the type described in (i), (ii) or (iii) above, provided that such collateral is free and clear of claims of third parties and that Escrow Agent or a third party acting solely as agent for Escrow Agent has possession of such collateral and a perfected first security interest in such collateral; or (vi) shares of money market funds which are registered under the Investment Act of 1940, as amended, and which are rated AAA by Standard & Poor's Corporation or Aaa by Moody's Investors Service, Inc.

7. Moneys in the Acquisition Fund shall be used to pay for the cost of acquisition of the Equipment listed in the Agreement. Payment shall be made from the Acquisition Fund for the cost of acquisition of part or all of said Equipment listed in the Agreement upon presentation to Escrow Agent of one or more properly executed Payment Request and Acceptance Certificates, a form of which is attached as Exhibit A, executed by Lessee and approved for payment by Lessor, together with an invoice for the cost of the acquisition of said Equipment for which payment is requested and a written approval by Lessor of the Vendor be paid.

8. The Acquisition Fund shall terminate upon the occurrence of the earlier of (a) the presentation of a proper Payment Request and Acceptance Certificate, with the portion thereof designated "Final Acceptance Certificate", properly executed by Lessee, or (b) the presentation of written notification by Lessor, or, if Lessor shall have assigned its interest under the Agreement, then the assignees or subassignees of all of Lessor's interest under the Agreement or an Agent on their behalf, that an Event of Default has occurred or that Lessee has terminated the Agreement pursuant to **Section 3.04** of the Agreement. Upon termination as described in clause (a) of this paragraph, any amount remaining in the Acquisition Fund shall be used to prepay the principal component of Rental Payments unless Lessor directs that payment of such amount be made in such other manner directed by Lessor that, in the opinion of nationally recognized counsel in the area of tax exempt municipal obligations satisfactory to Lessor, will not adversely affect the exclusion of the interest components of Rental Payments from gross income for federal income tax purposes. If any such amount is used to prepay principal, the Exhibit A of Rental Payments appearing

Initials _____

14 15c

in the Agreement shall be revised accordingly as specified by Lessor. Upon termination as described in clause (b) of this paragraph, any amount remaining in the Acquisition Fund shall immediately be paid to Lessor or to any assignees or subassignees of Lessor's interest in this Escrow Agreement.

9. Escrow Agent may at any time resign by giving at least 30 days written notice to Lessee and Lessor, but such resignation shall not take effect until the appointment of a successor Escrow Agent. The substitution of another bank or trust company to act as Escrow Agent under this Escrow Agreement may occur by written agreement of Lessor and Lessee. In addition, Escrow Agent may be removed at any time, with or without cause, by an instrument in writing executed by Lessor and Lessee. In the event of any resignation or removal of Escrow Agent, a successor Escrow Agent shall be appointed by an instrument in writing executed by Lessor and Lessee. Such successor Escrow Agent shall indicate its acceptance of such appointment by an instrument in writing delivered to Lessor, Lessee and the predecessor Escrow Agent. Thereupon such successor Escrow Agent shall, without any further act or deed, be fully vested with all the trusts, powers, rights, duties and obligations of Escrow Agent under this Escrow Agreement and the predecessor Escrow Agent shall deliver all moneys and securities held by it under this Escrow Agreement to such successor Escrow Agent.

10. Escrow Agent incurs no liability to make any disbursements pursuant to the Escrow Agreement except from funds held in the Acquisition Fund. Escrow Agent makes no representations or warranties as to the title to any Equipment listed in the Agreement or as to the performance of any obligations of Lessor or Lessee. Escrow Agent may consult legal counsel in the event of any dispute or question as to the construction of any provisions hereof or its duties hereunder, and it shall incur no liability and shall be fully protected in acting in accordance with the opinion or instructions of such counsel. Lessee agrees to indemnify Escrow Agent for, and to hold it harmless against, any loss, liability or expense incurred in connection herewith without gross negligence or willful misconduct on the part of Escrow Agent, including without limitation legal or other fees arising out of or in connection with its entering into this Escrow Agreement and carrying out its duties hereunder, including without limitation the costs and expenses of defending itself against any claim of liability in the premises or any action for interpleader. Escrow Agent shall be under no obligation to institute or defend any action, suit, or legal proceeding in connection herewith, unless first indemnified and held harmless to its satisfaction in accordance with the foregoing, except that Escrow Agent shall not be indemnified against any loss, liability or expense arising out of its own gross negligence or willful misconduct. Such indemnity shall survive the termination or discharge of this Escrow Agreement or resignation of Escrow Agent.

11. This Escrow Agreement shall be governed by and construed in accordance with the laws of the State in which Escrow Agent is located.

12. In the event any provision of this Escrow Agreement shall be held invalid or unenforceable by any court of competent jurisdiction, such holding shall not invalidate or render unenforceable any other provision hereof.

13. This Escrow Agreement may not be amended except by a written instrument executed by Lessor, Lessee and Escrow Agent.

14. This Escrow Agreement may be executed in several counterparts, each of which so executed shall be an original. Copies, telecopies, facsimiles, electronic files and other reproductions of original executed documents shall be deemed to be authentic and valid counterparts of such original documents for all purposes, including the filing of any claim, action or suit in the appropriate court of law.

15. Escrow Agent shall be entitled to fees and expenses for its regular services as Escrow Agent as agreed to in writing with the [Lessor/Lessee]. Escrow Agent is entitled to fees for extraordinary services and reimbursement of any out-of-pocket and extraordinary costs and expenses, including, but not limited to, attorneys' fees. Escrow Agent shall have a first lien upon the Acquisition Fund for the purpose of paying its fees and expenses. All of Escrow Agent's compensation, costs and expenses shall be paid by [Lessee/Lessor].

16. The parties hereto agree that, for tax reporting purposes, all interest or other income, if any, attributable to the funds held by Escrow Agent pursuant to this Escrow Agreement shall be allocable to Lessee. Lessor and Lessee agree to provide Escrow Agent completed Forms W-9 and other forms and documents that Escrow Agent may reasonably request (collectively, "Tax Reporting Documentation") at the time of execution of this Escrow Agreement and any information reasonably requested by Escrow Agent to comply with the USA Patriot Act of 2001, as amended from time to time. Additionally, the parties shall complete the Incumbency Certificate attached to this Escrow Agreement and provide it to Escrow Agent upon the execution of this Escrow Agreement. The parties hereto understand that if such Tax Reporting Documentation is not so certified to Escrow Agent, Escrow Agent may be required by the Internal Revenue Code, as it may be amended from time to time, to withhold a portion of any interest or other income earned on the investment of monies or other property held by Escrow Agent pursuant to this Escrow Agreement.

IN WITNESS WHEREOF, Lessor, Lessee and Escrow Agent have caused this Escrow Agreement to be executed by their duly authorized representatives, all as of the _____ day of _____, 20_____.

Israel Boycott Statement Explanation

1. **Prohibition on Investment in companies that boycott Israel**

1.1 SECTION 1. Prohibition on contracts with companies boycotting Israel per Government Code 2271.001 Definitions:

(1) "Boycott Israel" has the meaning assigned by Section 808.001.

(2) "Company" has the meaning assigned by Section 808.001 except that the term does not include a sole proprietorship.

(3) "Governmental entity" has the meaning assigned by Government Code, Section 2271.002.

PROVISION REQUIRED IN CONTRACT. (a) This section applies only to a contract that:

(a)

(1) is between a governmental entity and a company with 10 or more full-time employees; and

(2) has a value of $100,000 or more that is to be paid wholly or partly from public funds of the governmental agency.

(b) A governmental entity may not enter into a contract with a company for goods or services unless the contract contains a written verification from the company that it:

(1) does not boycott Israel; and

(2) will not boycott Israel during the term of the contract.

2. **Prohibition on contracting with a company doing business with Iran, Sudan, or a foreign terrorist organization**

2.1 Prohibition on contracts with certain companies per Government Code 2252.151
Definitions:

(1) "Company" has the meaning assigned by Section 806.001.

(2) "Foreign terrorist organization" means an organization designated as a foreign terrorist organization by the United States secretary of state as authorized by 8 U.S.C. Section 1189.

(3) "Governmental contract" means a contract awarded by a governmental entity for general construction, an improvement, a service, or a public works project for a purchase of supplies, materials, or equipment. The term includes a contract to obtain a professional or consulting service subject to Government Code, Chapter 2254.

(4) "Governmental entity" has the meaning assigned by Government Code, Section 2252.001.

2.2 Section 2252.152 - Contracts with companies engaged in business with Iran, Sudan, or foreign terrorist organization prohibited. A governmental entity may not enter into a governmental contract with a company that is identified on a list prepared and maintained under Section 806.051, 807.051, or 2252.153.

2.3 Section 2252.153 – Listed Companies. The comptroller shall prepare and maintain, and make available to each governmental entity, a list of companies known to have contracts with or provide supplies o services to a foreign terrorist organization.

CONFLICT OF INTEREST QUESTIONNAIRE
For vendor doing business with local governmental entity

A complete copy of Chapter 176 of the Local Government Code may be found at http://www.statutes.legis.state.tx.us/Docs/LG/htm/LG.176.htm. For easy reference, below are some of the sections cited on this form.

Local Government Code § 176.001(1-a): "Business relationship" means a connection between two or more parties based on commercial activity of one of the parties. The term does not include a connection based on:

(A) a transaction that is subject to rate or fee regulation by a federal, state, or local governmental entity or an agency of a federal, state, or local governmental entity;

(B) a transaction conducted at a price and subject to terms available to the public; or

(C) a purchase or lease of goods or services from a person that is chartered by a state or federal agency and that is subject to regular examination by, and reporting to, that agency.

Local Government Code § 176.003(a)(2)(A) and (B):

(a) A local government officer shall file a conflicts disclosure statement with respect to a vendor if:

***

(2) the vendor:

(A) has an employment or other business relationship with the local government officer or a family member of the officer that results in the officer or family member receiving taxable income, other than investment income, that exceeds $2,500 during the 12-month period preceding the date that the officer becomes aware that

(i) a contract between the local governmental entity and vendor has been executed; or

(ii) the local governmental entity is considering entering into a contract with the vendor;

(B) has given to the local government officer or a family member of the officer one or more gifts that have an aggregate value of more than $100 in the 12-month period preceding the date the officer becomes aware that:

(i) a contract between the local governmental entity and vendor has been executed; or

(ii) the local governmental entity is considering entering into a contract with the vendor.

Local Government Code § 176.006(a) and (a-1)

(a) A vendor shall file a completed conflict of interest questionnaire if the vendor has a business relationship with a local governmental entity and:

(1) has an employment or other business relationship with a local government officer of that local governmental entity, or a family member of the officer, described by Section 176.003(a)(2)(A);

(2) has given a local government officer of that local governmental entity, or a family member of the officer, one or more gifts with the aggregate value specified by Section 176.003(a)(2)(B), excluding any gift described by Section 176.003(a-1); or

(3) has a family relationship with a local government officer of that local governmental entity.

(a-1) The completed conflict of interest questionnaire must be filed with the appropriate records administrator not later than the seventh business day after the later of:

(1) the date that the vendor:

(A) begins discussions or negotiations to enter into a contract with the local governmental entity; or

(B) submits to the local governmental entity an application, response to a request for proposals or bids, correspondence, or another writing related to a potential contract with the local governmental entity; or

(2) the date the vendor becomes aware:

(A) of an employment or other business relationship with a local government officer, or a family member of the officer, described by Subsection (a);

(B) that the vendor has given one or more gifts described by Subsection (a); or

(C) of a family relationship with a local government officer.

CONFLICT OF INTEREST QUESTIONNAIRE

For vendor doing business with local governmental entity

FORM CIQ

This questionnaire reflects changes made to the law by H.B. 23, 84th Leg., Regular Session.

This questionnaire is being filed in accordance with Chapter 176, Local Government Code, by a vendor who has a business relationship as defined by Section 176.001(1-a) with a local governmental entity and the vendor meets requirements under Section 176.006(a).

By law this questionnaire must be filed with the records administrator of the local governmental entity not later than the 7th business day after the date the vendor becomes aware of facts that require the statement to be filed. *See* Section 176.006(a-1), Local Government Code.

A vendor commits an offense if the vendor knowingly violates Section 176.006, Local Government Code. An offense under this section is a misdemeanor.

OFFICE USE ONLY

Date Received

1 **Name of vendor who has a business relationship with local governmental entity.**

Calian Corp.

2 ☐ **Check this box if you are filing an update to a previously filed questionnaire.** (The law requires that you file an updated completed questionnaire with the appropriate filing authority not later than the 7th business day after the date on which you became aware that the originally filed questionnaire was incomplete or inaccurate.)

3 **Name of local government officer about whom the information is being disclosed.**

N/A

Name of Officer

4 **Describe each employment or other business relationship with the local government officer, or a family member of the officer, as described by Section 176.003(a)(2)(A). Also describe any family relationship with the local government officer. Complete subparts A and B for each employment or business relationship described. Attach additional pages to this Form CIQ as necessary.**

N/A

A. Is the local government officer or a family member of the officer receiving or likely to receive taxable income, other than investment income, from the vendor?

☐ Yes ☐ No

B. Is the vendor receiving or likely to receive taxable income, other than investment income, from or at the direction of the local government officer or a family member of the officer AND the taxable income is not received from the local governmental entity?

☐ Yes ☐ No

5 **Describe each employment or business relationship that the vendor named in Section 1 maintains with a corporation or other business entity with respect to which the local government officer serves as an officer or director, or holds an ownership interest of one percent or more.**

6 ☐ Check this box if the vendor has given the local government officer or a family member of the officer one or more gifts as described in Section 176.003(a)(2)(B), excluding gifts described in Section 176.003(a-1).

STATE OF TEXAS
COUNTY OF MONTGOMERY

WE, M/I Homes of Houston, LLC, a Delaware limited liability company, owner of the property subdivided in the above and foregoing map of the Amending Plat of Berryknoll Section 1, ("Owner") does hereby make subdivision of said property, according to the lines, streets, lots, alleys, parks, building lines, and easements thereon shown, and designate said subdivision as the Amending Plat of Berryknoll Section 1, located in the Raleigh Rogers Survey, Abstract No. 33, Montgomery County, Texas, and dedicates to public use, as such, the streets, alleys, parks, and easements shown thereon forever; and do hereby waive any claims for damages occasioned by the establishing of grades as approved for the streets and alleys dedicated, or occasioned by the alteration of the surface of any portion of streets or alleys to conform to such grades; and do hereby bind ourselves, our successors and assigns to warrant and forever defend the title to the land so dedicated.

WE, M/I Homes of Houston, LLC, a Delaware limited liability company, owners of the property directly affected by this amending plat being Lots 11–13, Block 1, Reserve "G", Lot 1, Block 2, and Reserve "D" as indicated hereon, do hereby consent to this amending plat for the purposes herein expressed.

This is to certify that Owner has complied or will comply with all Development Regulations and other regulations heretofore on file with the Montgomery County Engineer and adopted by the Commissioners Court of Montgomery County, Texas.

There is also dedicated for utilities an unobstructed aerial easement five (5) feet wide from a plane twenty (20) feet above the ground upward, located adjacent to all easements shown hereon.

Storm sewers located in the dedicated street rights–of–way are not maintained by Montgomery County. The storm sewers in the subdivision will be maintained by Montgomery County Municipal Utility District No. 211, its successors and assigns.

FURTHER, Owner does hereby dedicate forever to the public a strip, a minimum of land fifteen (15) feet wide on each side of the center line of any and all gullies, ravines, draws, sloughs, or other natural drainage coursed located in the said subdivision, as easements for drainage purposes, giving Montgomery County and/or any other public agency the right to enter upon said easements at any and all times for the purpose of constructing and/or maintaining drainage work and/or structures.

FURTHER, all of the property subdivided in the above and foregoing map shall be restricted in its use, which restrictions shall run with the title to the property, and shall be enforceable, at the option of Montgomery County, by Montgomery County or any citizen thereof, by injunction, as follows:

1. That drainage of septic tanks into road, street, alley, or other public ditches, either directly or indirectly, is strictly prohibited.

2. Drainage structures under private driveways shall have a net drainage opening area of sufficient size to permit the free flow of water without backwater, and shall be a minimum of one and three quarters (1 3/4) square feet (18" diameter pipe culvert).

FURTHER, Owner does hereby declare that all parcels of land designed as lots on this plat are originally intended for the construction of residential dwelling units thereon (or the placement of mobile home subdivision) and shall be restricted for same under the terms and conditions of such restrictions filed separately, unless otherwise noted.

FURTHER, Owner does hereby certify that this amending plat does not attempt to alter, amend, or remove any covenants or restrictions.

IN TESTIMONY WHEREOF, Owner, has caused these presents to be signed by Brannon Boozer, Vice President of M/I Homes of Houston, LLC, a Delaware limited liability company, thereunto authorized this 28th day of July, 2026.

M/I HOMES OF HOUSTON, LLC
a Delaware limited liability company

By: _____
Brannon Boozer, Vice President

STATE OF TEXAS
COUNTY OF MONTGOMERY

BEFORE ME, the undersigned authority, on this day personally appeared Brannon Boozer, Vice President, of M/I Homes of Houston, LLC, known to me to be the person whose name is subscribed to the foregoing instrument, and acknowledged to me that he/she executed same for the purposes and consideration therein expressed, and in the capacity therein and herein set out, and as the act and deed of said corporation.

GIVEN UNDER MY HAND AND SEAL OF OFFICE, this 28th day of July, 2026.

My Commission expires: 12/1/27

I Clemente Turrubiartes Jr., am registered under the laws of the State of Texas to practice the profession of surveying and hereby certify that the above subdivision is true and correct; was prepared from an actual survey of the property made under my supervision on the ground; that the elevation benchmark reflected on the face of the plat was established as required by regulation; that all corners and angle points of the boundaries of the original tract to be subdivided of reference have been marked with iron rods have a diameter of not less than five–eighths of an inch (5/8") and a length of not less than three feet (3'); and that the plat boundary corners have been tied to the nearest survey corner.

I, Clemente Turrubiartes Jr., hereby certify that the following changes were necessary to relocate one or more lot lines between adjacent lots and reserve which appear on the plat of Berryknoll Section 1, recorded on December, 17, 2025, in Cabinet OAA, Sheets 2206–2211, of the Montgomery County Map Records:

Revised lot lines for Lots 11–13/Block 1, Reserve "G", Lot 1/Block 2, and Reserve "D".

GENERAL NOTES:

1. The coordinates shown hereon are Texas Central Zone No. 4203 State Plane Grid Coordinates (NAD83) and may be brought to surface by applying the following combined scale factor 0.999946702.

2. Flood Statement: This site is situated in Zone "X", "X–Shaded", "AE" and Floodway in Montgomery County, Texas according to FEMA map number 48339C0350G dated August 18, 2014. Warning: This statement does not imply that the property and/or the structures thereon will be free from flooding or flood damage. This determination has been made by scaling the property on the referenced map and is not the result of an elevation survey. This flood statement shall not create liability on the part of the surveyor.

3. One–foot reserve dedicated to the pubic in fee as a buffer separation between the side or end of streets where such streets abut adjacent property, the condition of this dedication being that when the adjacent property is subdivided or resubdivided in a recorded plat, the one–foot reserve shall thereupon become vested in the public for street right–of–way purposes and the feet title thereto shall revert to and revest in the dedicator, his heirs, assigns or successors.

4. Subject too Electric Line Easement, recorded under C.F.N. 2007–048140 O.P.R. M.C.T.

5. Utility Easement is subject to 33 acres of subdivision, recorded under Montgomery C.F.N. 2011057762 O.P.R. M.C.T. Location of easement is based on the center line of existing power poles/guy wires.

6. Utility Easement is subject to 3 acres of subdivision, recorded under Montgomery C.F.N. 2000–068102 O.P.R. M.C.T. Location of easement is based on the center line of existing power poles/guy wires.

7. Utility Easement is subject to 70 acres of subdivision, recorded under Montgomery C.F.N. 9759097 O.P.R. M.C.T. No power poles and distribution facilities found within the 70 acres.

8. Utility Easement is subject to 70 acres of subdivision, recorded under Montgomery C.F.N. 2000–011265 O.P.R. M.C.T. No power poles and distribution facilities found within the 70 acres.

9. No residential structures are permitted with the 150' buffer easement.

Consent-Engineer

Commissioners Court-Regular Meeting **PRECINCT 2**

TO: Montgomery County Commissioners Court

FROM: Thomas Woolley, Director of Engineering Services

DATE: 08/20/2026

SUBJECT: Consider and approve the final plat of Kresston, Section 10.

Attachments

Plat App & Backup Docs - Kresston, Section 10

Proposed Plat - Kresston, Section 10

Montgomery County
Engineer's Office

August 20, 2026

Honorable Charlie Riley
Commissioner Precinct 2
P.O. Box 369
Magnolia, Texas 77355

Re: Kresston, Section 10
12.585 acres in the Joseph G. Ferguson Survey, A-221
Applicant: Zachary Zarse/LJA Engineering, Inc.
Review: Final

Dear Commissioner Riley:

The above listed subdivision has been reviewed by the Engineering Department and has completed all the requirements necessary for final approval.

Yours truly,

Jessenia Summers
Engineering Assistant

Planned Improvements

(Check the boxes that apply)

Streets: ☑ Public ☐ Private

Storm System: ☑ Storm Sewer ☐ Open Ditch ☐ Combination

Sanitary System (Check the one that applies):

☑ Sanitary Sewer System
Provider Name, Address and Phone No.
Montgomery-Grimes Counties MUD 146D
633 E. Fernhurst, Ste. 1204, Katy Tx 77450
(Attach approval letter from sanitary sewer provider)

☐ On-Site Sewage Facilities (30 TAC Chapter 285 Section 285.4)
(Attach approval letter from the Montgomery County Environmental Health Services)

Water System (Check the one that applies):

☑ Public Water System
Provider Name, Address and Phone No.
Montgomery-Grimes Counties MUD 146D
633 E. Fernhurst, Ste. 1204, Katy Tx 77450
(Attach approval letter indicating adequate capacity from water provider)

☐ Individual wells on each lot (Fill out the Water Well Acknowledgment below)

As part of my application process, I confirm the following (initial each):

_____ I have read the Rules of the Lone Star Groundwater Conservation District.

_____ I understand I will need to apply with the Lone Star Groundwater Conservation District for permission to drill and operate and well(s).

_____ I understand the location of the wells must comply with the Lone Star Groundwater Conservation District spacing rules, and that an adjustment to the proposed location of the wells may be required to ensure compliance with the District's spacing rules. Additionally, a hydrogeological report on potential impacts to neighboring wells may be required.

_____ I understand it is my responsibility to plan for the future water needs of the development including planning for increased demand, evaluating the need for water supplies other than groundwater to meet future demands, and the consideration of conservation efforts including reuse.

Other Items Required

Plat Application Fee:

☑ Attach check made payable to Montgomery County. (The fee is calculated as per the following: $500 Base Fee + $30 per Lot + $30 per Acre in Reserve.
For Street Dedication Plat: $500 Base Fee + $50 per Acre of Right of Way) ***IN ACCORDANCE WITH THE LAW, PLATS MUST BE RECORDED WITH THE COUNTY CLERK AFTER COMMISSIONERS COURT APPROVAL. RECORDING FEES WILL BE COLLECTED SEPARATELY BY THE COUNTY CLERK.**

Subdivision Development Permit Fee: (applicable to projects approved under previous regulations)

☐ Attach separate check made payable to Montgomery County. (The fee is calculated as per the following: $1000 Base Fee + $20 per Lot)
*Approval of plat in Commissioners Court serves as permit.

Mylars:

☑ Attach 20" x 24" original signed mylar(s). (One for Montgomery County + one if the City of Houston will require an original + one if the owner wants an original back) If in an ETJ of a municipality, the mylars must be signed by the city. (Local Government Code 232.101, Montgomery County Subdivision Rules and Regulations)

Paper Copies:

☑ Attach two complete paper copies of the plat. (Local Government Code 232.101, Montgomery County Development Regulations)

911 Address Map:

☑ Attach address map approved by the Montgomery County Emergency Communications District (Health and Safety Code, Title 9, Subtitle B, Chapter 772)

TxDOT Approval:

☐ Provide TxDOT approval for access connection. (For subdivisions proposing new or modified street connections to TxDOT right of way or for lots with driveways fronting TxDOT right of way. Preliminary approval from TxDOT of the access locations will be acceptable.) (43 TAC Part 1, Chapter 11, Subchapter C)

DESCRIPTION OF
12.585 ACRES
KRESSTON SECTION 10

Being 12.585 acres (548,216 square feet) of land located in the Joseph G. Ferguson Survey, Abstract 221, Montgomery County, Texas, more particularly being a portion of the remainder of that certain called 600.07 acre tract described in the deed to 249 SH Holdings LLC by an instrument of record under Document Number 2022140492, of the Official Public Records of Montgomery County, Texas (M.C.O.P.R.), said 12.585 acre tract being more particularly described by metes and bounds as follows (all bearings referenced to the Texas Coordinate System, Central Zone, NAD 83);

BEGINNING at a 5/8-inch iron rod with cap stamped "LJA SURVEY" previously set for the northwest corner of Heartland Pass Street Dedication, a subdivision of record under Cabinet AA, Sheets 1918-1920 of the Map Records of Montgomery County (M.C.M.R.), said point lying on the east right-of-way line of Trailblazers Run (60 feet wide) as shown on Legendary Boulevard and Trailblazers Run Street Dedication Phase 2, a subdivision of record under Cabinet AA, Sheets 937-940, M.C.M.R., the beginning of a curve;

Thence, along the east right-of-way of said Trailblazers Run, the following four (4) courses:

1. 66.84 feet along the arc of a non-tangent curve to the right, having a radius of 770.00 feet, a central angle of 04° 58' 26", and a chord which bears North 03° 13' 03" West, 66.82 feet to a 5/8-inch iron rod with cap stamped “LJA SURVEY” previously set;

2. North 00° 43' 50" West, 149.89 feet to a 5/8-inch iron rod with cap stamped “LJA SURVEY” previously set, the beginning of a curve;

3. 59.73 feet along the arc of a tangent curve to the left, having a radius of 530.00 feet, a central angle of 06° 27' 24", and a chord which bears North 03° 57' 31" West, 59.69 feet to a 5/8-inch iron rod with cap stamped “LJA SURVEY” previously set;

4. North 07° 11' 13" West, 180.06 feet to a 5/8-inch iron rod with cap stamped "LJA SURVEY" previously set, the beginning of a curve;

Thence, partially along the east right-of-way line of said Trailblazers run and 114.21 feet along the arc of a tangent curve to the right, having a radius of 770.00 feet, a central angle of 08° 29' 55", and a chord which bears North 02° 56' 16" West, 114.11 feet to a 5/8-inch iron rod with cap stamped "LJA SURVEY" set for corner;

Thence, North 01° 18' 42" East, 74.51 feet to a 5/8-inch iron rod with cap stamped "LJA SURVEY" set for corner, the beginning of a curve;

Thence, 26.46 feet along the arc of a tangent curve to the left, having a radius of 400.00 feet, a central angle of 03° 47' 22", and a chord which bears North 00° 34' 59" West, 26.45 feet to a 5/8-inch iron rod with cap stamped "LJA SURVEY" set for corner;

Thence, North 02° 28' 40" West, 80.09 feet to a 5/8-inch iron rod with cap stamped "LJA SURVEY" set for corner, the beginning of a curve;

Thence, 54.98 feet along the arc of a tangent curve to the right, having a radius of 35.00 feet, a central angle of 90° 00' 00", and a chord which bears North 42° 31' 20" East, 49.50 feet to a 5/8-inch iron rod with cap stamped "LJA SURVEY" set for corner;

Thence, North 87° 31' 20" East, 506.43 feet to a 5/8-inch iron rod with cap stamped "LJA SURVEY" set for corner, the beginning of a curve;

Thence, 225.18 feet along the arc of a tangent curve to the right, having a radius of 1,950.00 feet, a central angle of 06° 36' 59", and a chord which bears South 89° 10' 11" East, 225.05 feet to a 5/8-inch iron rod with cap stamped "LJA SURVEY" set for corner;

Thence, South 06° 28' 12" West, 584.86 feet to a 5/8-inch iron rod with cap stamped "LJA SURVEY" set for corner;

Thence, South 36° 55' 43" East, 108.99 feet to a 5/8-inch iron rod with cap stamped "LJA SURVEY" set for corner;

Thence, South 00° 57' 13" West, 50.67 feet to a 5/8-inch iron rod with cap stamped "LJA SURVEY" set for corner, said point lying on the north right-of-way line of Heartland Pass (70 feet wide) as shown on the aforementioned Heartland Pass Street Dedication, the beginning of a curve;

Thence, along the north right-of-way line of said Heartland Pass, the following three (3) courses:

1. 184.03 feet along the arc of a non-tangent curve to the left, having a radius of 935.00 feet, a central angle of 11° 16' 38", and a chord which bears South 85° 18' 54" West, 183.74 feet to a 5/8-inch iron rod with cap stamped "LJA SURVEY" previously set for corner;

2. South 79° 40' 34" West, 518.92 feet to a 5/8-inch iron rod with cap stamped "LJA SURVEY" previously set for corner, the beginning of a curve;

3. 41.29 feet along the arc of a tangent curve to the right, having a radius of 25.00 feet, a central angle of 94° 37' 10", and a chord which bears North 53° 00' 51" West, 36.75 feet to the POINT OF BEGINNING and containing 12.585 acres of land.

BOND WITH SURETY

(Corporate principal)

NO. 1122534

STATE OF TEXAS §

§ KNOW ALL BY THESE PRESENTS:

COUNTY OF MONTGOMERY §

That Bay Paving, LLC, a Limited Liability Company, with offices and principal place of business in Montgomery County, Texas, and 249 SH Holdings, LLC A Delaware Limited Liability Company with offices and principal place of business in Montgomery County, Texas hereinafter called PRINCIPAL, and The Hanover Insurance Company, a corporation or other entity existing under and by virtue of the laws of the State of NH and authorized to do business as a surety in the State of Texas, and whose principal office is located in the City of Dallas, State of TX whose officer residing in the State of Texas authorized to accept service in all suits and actions brought within said State is Gustavo Pereira, residing in the City of Dallas, hereinafter called the SURETY, are held and firmly bound unto Mark J. Keough, County Judge of Montgomery County, Texas, and his successors in office in the full sum of Four Hundred Thirty Four Thousand and No/100 DOLLARS ($ 434,000.00) current, lawful money of the United States of America, to be paid to Mark J. Keough, County Judge of Montgomery County, Texas, or his successors in office, to which payment well and truly to be made and done, the undesigned PRINCIPAL and SURETY, each binds itself and its successors and assigns, jointly and severally, by these presents.

WHEREAS the said PRINCIPAL is the owner of the following Subdivision: Kresston Section 10, located in Montgomery County, Texas, as per the map or plat thereof (the "Plat") approved by Montgomery County Commissioners Court and filed in Cabinet ____, Sheet(s)____, Map Records of Montgomery County, Texas; and

WHEREAS, the Commissioners' Court of Montgomery County, Texas, has promulgated certain rules, regulations and requirements relating to Subdivisions in Montgomery County, Texas, as more specifically set out in the Minutes of Commissioners Court (the "Development Regulations"), and all revisions and additions as may have been or may be adopted by separate action prior to date of this bond; same being made a part hereof for all purposes, as though fully set out herein; wherein it is provided, among other things, that the owner of the Subdivision will construct the roads and streets and the drainage requirements for the Subdivision as depicted on the Plat, in accordance with the specifications and within the time set out therein, and maintain such roads and streets and the drainage requirements for a period of not less than one (1) year following the completion thereof.

It is further stipulated and understood that the approval of the Plat of the above-named Subdivision is conditioned upon and subject to the strict compliance by the PRINCIPAL herein with the Development Regulations, and that the terms of the Development Regulations, including all deletions, additions, changes, or modifications of any kind or character, constitute a contract between the County of Montgomery and PRINCIPAL; and it is understood by the PRINCIPAL that the approval of said Plat of the above Subdivision(s) was obtained only by the undertaking of the PRINCIPAL to so comply with the said regulations and specifications, and that without such undertaking such approval would have not been granted.

NOW THE CONDITION OF THIS OBLIGATION IS SUCH, that if the above bonded PRINCIPAL, his, their, or its heirs, executors, administrators, successors, assigns, and legal representatives, and each and every one of them to do in all things well and truly observe, perform, fulfill, keep and comply with, all and singular, the Development Regulations and all other rules, regulations, requirements, and specifications above referred to, including any deletions, additions, changes, or modifications of any kind or character, in the construction and maintenance of all roads and streets in and the drainage requirements for the above-named Subdivision, and that upon approval of the construction of said roads and streets and the drainage requirements by the County Engineer or Inspector and Initial Acceptance (as described in the Development Regulations) by Commissioners Court, the amount held under this bond shall be automatically be reduced to Two Hundred Seventeen Thousand and No/100 DOLLARS ($217,000.00) and upon the expiration of one (1) year thereafter, the time required for proper maintenance by the above bonded PRINCIPAL thereof, and the approval of such maintenance by the County Engineer or Inspector and (as described in the Development Regulations) by the Commissioners Court, then this obligation is to be void and of no force and effect.

The PRINCIPAL and the SURETY hereon each agrees, binds, and obligates itself and themselves to pay to the County Judge of Montgomery County, State of Texas, for the use and benefit of Montgomery County, an amount, not exceed the then principal sum of this bond, adequate for Montgomery County to undertake any construction or other activity necessary to bring about compliance with each and every provision contained in the rules, regulations, requirements, and specifications above referred to relation to the construction of the roads and streets in the drainage requirements for the above named Subdivision, and further agree, bind and obligate themselves to save and keep harmless the County of Montgomery from any and all damages, expenses, and claims of every kind and character which the County of Montgomery may suffer, directly or indirectly, as a result of the PRINCIPAL's failure to comply with the rules, regulations, and specifications relating to the construction and maintenance of the roads, reserves the right to require PRINCIPAL to provide a bond from a different surety should Montgomery County deem itself insecure in the current SURETY's ability to perform the obligations under the bond.

The word *PRINCIPAL* when used herein means PRINCIPAL or PRINCIPALS, whether an individual, individuals, partnership, corporation, or other legal entity having the capacity to contract. The words *ROADS* or *STREETS* as used herein mean each and every road or street in said Subdivision according to the Plat. The words *DRAINAGE REQUIREMENTS* as used herein mean each and every improvement necessary for the property drainage of the Subdivision, including but not limited to ditches, detention ponds, drainage channels, swales, and drainage easements, as depicted on the drainage plans approved and signed by the Montgomery County Engineer. The word *MAINTENANCE* as used herein means all needful, necessary, and proper care and repair by the PRINCIPAL for a period of one (1) year from the completion of the roads and streets in and the drainage requirements for the Subdivision and the approval thereof by the County Engineer or Inspector. The word *SURETY* when used herein means surety or sureties and it is understood by the parties that any and all liabilities of any kind or character assumed or imposed upon the PRINCIPAL by the terms hereof extends in full force and vigor to each and every SURETY jointly and severally.

EXECUTED this 9th day of February, 2026.

THE HANOVER INSURANCE COMPANY
MASSACHUSETTS BAY INSURANCE COMPANY
CITIZENS INSURANCE COMPANY OF AMERICA

POWER OF ATTORNEY

THIS Power of Attorney limits the acts of those named herein, and they have no authority to bind the Company except in the manner and to the extent herein stated.

KNOW ALL PERSONS BY THESE PRESENTS:

That THE HANOVER INSURANCE COMPANY and MASSACHUSETTS BAY INSURANCE COMPANY, both being corporations organized and existing under the laws of the State of New Hampshire, and CITIZENS INSURANCE COMPANY OF AMERICA, a corporation organized and existing under the laws of the State of Michigan, (hereinafter individually and collectively the "Company") does hereby constitute and appoint,

Roxanne G. Brune, David R. Groppell, Beverly A. Ireland, Sharen Groppell, Francine Hay, James Wynne Tomforde, Kurt Risk, Gloria M. Villa, Michele L. Bondurant and/or Kourtney Reece

Of **Elsey & Associates AND Marsh & McLennan, Houston, Texas** each individually, if there be more than one named, as its true and lawful attorney(s)-in-fact to sign, execute, seal, acknowledge and deliver for, and on its behalf, and as its act and deed any place within the United States, any and all surety bonds, recognizances, undertakings, or other surety obligations. The execution of such surety bonds, recognizances, undertakings or surety obligations, in pursuance of these presents, shall be as binding upon the Company as if they had been duly signed by the president and attested by the secretary of the Company, in their own proper persons. Provided however, that this power of attorney limits the acts of those named herein; and they have no authority to bind the Company except in the manner stated and to the extent of any limitation stated below:

Any such obligations in the United States, not to exceed Thirty Five Million and No/100 ($35,000,000) in any single instance

That this power is made and executed pursuant to the authority of the following Resolutions passed by the Board of Directors of said Company, and said Resolutions remain in full force and effect:

RESOLVED: That the President or any Vice President, in conjunction with any Vice President, be and they hereby are authorized and empowered to appoint Attorneys-in-fact of the Company, in its name and as it acts, to execute and acknowledge for and on its behalf as surety, any and all bonds, recognizances, contracts of indemnity, waivers of citation and all other writings obligatory in the nature thereof, with power to attach thereto the seal of the Company. Any such writings so executed by such Attorneys-in-fact shall be binding upon the Company as if they had been duly executed and acknowledged by the regularly elected officers of the Company in their own proper persons.

RESOLVED: That any and all Powers of Attorney and Certified Copies of such Powers of Attorney and certification in respect thereto, granted and executed by the President or Vice President in conjunction with any Vice President of the Company, shall be binding on the Company to the same extent as if all signatures therein were manually affixed, even though one or more of any such signatures thereon may be facsimile. (Adopted October 7, 1981 – The Hanover Insurance Company; Adopted April 14, 1982 – Massachusetts Bay Insurance Company; Adopted September 7, 2001 – Citizens Insurance Company of America and affirmed by each Company on March 24, 2014)

IN WITNESS WHEREOF, THE HANOVER INSURANCE COMPANY, MASSACHUSETTS BAY INSURANCE COMPANY and CITIZENS INSURANCE COMPANY OF AMERICA have caused these presents to be sealed with their respective corporate seals, duly attested by two Vice Presidents, this **22nd** day of **April 2025**

The Hanover Insurance Company

WE, 249 SH HOLDINGS, LLC, A DELAWARE LIMITED LIABILITY COMPANY, ACTING BY AND THROUGH STEPHEN BARRERA, VICE PRESIDENT, BEING AN OFFICER OF 249 SH HOLDINGS, LLC, A DELAWARE LIMITED LIABILITY COMPANY, OWNER HEREINAFTER REFERRED TO AS OWNER OF THE PROPERTY SUBDIVIDED IN THE ABOVE AND FOREGOING MAP OF KRESSTON SECTION 10, DO HEREBY MAKE SUBDIVISION OF SAID PROPERTY FOR AND ON BEHALF OF SAID 249 SH HOLDINGS, LLC, A DELAWARE LIMITED LIABILITY COMPANY, ACCORDING TO THE LINES, STREETS, LOTS, ALLEYS, PARKS, BUILDING LINES, AND EASEMENTS THEREON SHOWN, AND DESIGNATE SAID SUBDIVISION AS KRESSTON SECTION 10, LOCATED IN THE JOSEPH G. FERGUSON SURVEY, ABSTRACT 221, MONTGOMERY COUNTY, TEXAS, AND ON BEHALF OF SAID 249 SH HOLDINGS, LLC, A DELAWARE LIMITED LIABILITY COMPANY; AND DEDICATE TO PUBLIC USE, AS SUCH, THE STREETS, ALLEYS, PARKS, AND EASEMENTS SHOWN THEREON FOREVER; AND DO HEREBY WAIVE ANY CLAIMS FOR DAMAGES OCCASIONED BY THE ESTABLISHING OF GRADES AS APPROVED FOR THE STREETS AND ALLEYS DEDICATED, OR OCCASIONED BY THE ALTERATION OF THE SURFACE OF ANY PORTION OF STREETS OR ALLEYS TO CONFORM TO SUCH GRADES; AND DO HEREBY BIND OURSELVES, OUR SUCCESSORS AND ASSIGNS TO WARRANT AND FOREVER DEFEND THE TITLE TO THE LAND SO DEDICATED.

THIS IS TO CERTIFY THAT WE, 249 SH HOLDINGS, LLC, A DELAWARE LIMITED LIABILITY COMPANY, HAVE COMPLIED WITH OR WILL COMPLY WITH ALL REGULATIONS HERETOFORE ON FILE WITH THE MONTGOMERY COUNTY ENGINEER AND ADOPTED BY THE COMMISSIONERS' COURT OF MONTGOMERY COUNTY, TEXAS.

FURTHER, WE, 249 SH HOLDINGS, LLC, A DELAWARE LIMITED LIABILITY COMPANY, DO HEREBY DEDICATE FOREVER TO THE PUBLIC A STRIP OF LAND A MINIMUM OF FIFTEEN (15) FEET WIDE ON EACH SIDE OF THE CENTER LINE OF ANY AND ALL GULLIES, RAVINES, DRAWS, SLOUGHS OR OTHER NATURAL DRAINAGE COURSES LOCATED IN THE SAID SUBDIVISION, AS EASEMENTS FOR DRAINAGE PURPOSES, GIVING MONTGOMERY COUNTY AND/OR ANY OTHER PUBLIC AGENCY THE RIGHT TO ENTER UPON SAID EASEMENT AT ANY AND ALL TIMES FOR THE PURPOSE OF CONSTRUCTING AND/OR MAINTAINING DRAINAGE WORK AND/OR STRUCTURES.

FURTHER, ALL OF THE PROPERTY SUBDIVIDED IN THE ABOVE AND FOREGOING MAP SHALL BE RESTRICTED IN ITS USE, WHICH RESTRICTIONS SHALL RUN WITH THE TITLE OF THE PROPERTY, AND SHALL BE ENFORCEABLE, AT THE OPTION OF MONTGOMERY COUNTY, BY MONTGOMERY COUNTY OR ANY CITIZEN THEREOF, BY INJUNCTION, AS FOLLOWS:

1. THE DRAINAGE OF SEPTIC TANKS INTO ROAD, STREET, ALLEY, OR OTHER PUBLIC DITCHES, EITHER DIRECTLY OR INDIRECTLY, IS STRICTLY PROHIBITED.

2. DRAINAGE STRUCTURES UNDER PRIVATE DRIVEWAYS SHALL HAVE A NET DRAINAGE OPENING AREA OF SUFFICIENT SIZE TO PERMIT THE FREE FLOW OF WATER WITHOUT BACKWATER, AND SHALL BE A MINIMUM OF ONE AND THREE QUARTERS (1-3/4) SQUARE FEET (18" DIAMETER PIPE CULVERT).

FURTHER, WE DO HEREBY DECLARE THAT ALL PARCELS OF LAND DESIGNATED AS LOTS ON THIS PLAT ARE ORIGINALLY INTENDED FOR THE CONSTRUCTION OF RESIDENTIAL DWELLING UNITS THEREON AND SHALL BE RESTRICTED FOR THE SAME UNDER THE TERMS AND CONDITIONS OF SUCH RESTRICTIONS FILED SEPARATELY, UNLESS OTHERWISE NOTED.

FURTHER, WE DO HEREBY CERTIFY THAT WE ARE THE OWNERS OF ALL PROPERTY IMMEDIATELY ADJACENT TO THE BOUNDARIES OF THE ABOVE AND FOREGOING PLAT OF KRESSTON SECTION 10 WHERE BUILDING SETBACK LINES OR PUBLIC UTILITY EASEMENTS ARE TO BE ESTABLISHED OUTSIDE THE BOUNDARIES OF THE ABOVE AND FOREGOING PLAT AND DO HEREBY MAKE AND ESTABLISH ALL BUILDING SETBACK LINES AND DEDICATE TO THE USE OF THE PUBLIC FOREVER ALL PUBLIC UTILITY EASEMENTS SHOWN IN SAID ADJACENT ACREAGE.

STORM SEWERS LOCATED IN THE DEDICATED STREET RIGHT-OF-WAY ARE NOT MAINTAINED BY MONTGOMERY COUNTY. THE STORM SEWERS IN THE SUBDIVISION WILL BE MAINTAINED BY MONTGOMERY-GRIMES COUNTIES MUNICIPAL UTILITY DISTRICT 146D, IT'S SUCCESSORS AND ASSIGNS.

IN TESTIMONY WHEREOF, THE 249 SH HOLDINGS, LLC, A DELAWARE LIMITED LIABILITY COMPANY, HAS CAUSED THESE PRESENTS TO BE SIGNED BY STEPHEN BARRERA, ITS VICE PRESIDENT, THEREUNTO AUTHORIZED, THIS THE 22nd DAY OF June, 2026.

NOTES:

1. BEARINGS AND COORDINATES SHOWN HEREON ARE BASED ON THE TEXAS COORDINATE SYSTEM, CENTRAL ZONE, NAD83 (NA2011) EPOCH 2010.00, STATE PLANE GRID COORDINATES (NAD83) MAY BE BROUGHT TO SURFACE BY DIVIDING THE GRID COORDINATE BY 0.9999472863.

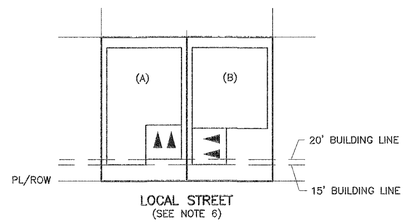
2. THE FOLLOWING RESTRICTIONS SHALL PERTAIN TO ANY DRAINAGE EASEMENT CONTAINED WITHIN THE BOUNDARIES OF THIS PLAT.

   2.a. PROHIBITS ALL PROPERTIES ABUTTING THE EASEMENT FROM THE CONSTRUCTION OF FENCES OR BUILDINGS, WHETHER TEMPORARY OR PERMANENT, AND THE INSTALLATION OR MAINTENANCE OF PLANTING OR OTHER OBSTRUCTIONS TO THE OPERATION AND MAINTENANCE OF THE DRAINAGE FACILITY WITHIN THE DRAINAGE EASEMENT.

   2.b. PROHIBITS ANY PROPERTY ABUTTING THE DRAINAGE EASEMENT FROM DRAINAGE DIRECTLY INTO THE DRAINAGE EASEMENT EXCEPT BY MEANS OF A DRAINAGE STRUCTURE APPROVED BY THE DIRECTOR OF PUBLIC WORKS AND ENGINEERING OR THE AUTHORIZED PUBLIC DRAINAGE OR FLOOD CONTROL OFFICIAL.

3. MONTGOMERY–GRIMES COUNTIES MUNICIPAL UTILITY DISTRICT NO. 146D WILL MAINTAIN ALL STORM SEWERS SERVICING THIS PROJECT.

4. FIVE EIGHTHS INCH (5/8") IRON RODS THREE FEET (3') IN LENGTH WITH A PLASTIC CAP MARKED "LJA SURVEY" ARE SET ON ALL PERIMETER BOUNDARY CORNERS. LOT, BLOCK, AND RESERVE CORNERS WILL BE SET UPON COMPLETION OF ROAD CONSTRUCTION AND PRIOR TO LOT CONSTRUCTION, UNLESS OTHERWISE NOTED.



5. BY GRAPHIC PLOTTING ONLY, THE SUBJECT TRACT LIES WITHIN ZONE "X" (UNSHADED) AS SHOWN ON THE FEDERAL EMERGENCY MANAGEMENT AGENCY (FEMA) FLOOD INSURANCE RATE MAP (FIRM) MAP NO. 48339C0325G, MAP REVISED AUGUST 18, 2014. LJA DOES NOT WARRANT NOR SUBSCRIBE TO THE ACCURACY OR SCALE OF SAID MAPS.

6. ALL LOTS WITHIN THIS SUBDIVISION ARE:

   6.a. RESTRICTED TO A 15–FOOT FRONT BUILDING LINE WHEN THE FACE OF ANY CARPORT OR GARAGE IS PERPENDICULAR TO THE STREET (SEE DIAGRAM "B") AND;

   6.b. RESTRICTED TO A 20–FOOT CARPORT OR GARAGE SETBACK WHEN THE FACE IS PARALLEL TO THE STREET. THE REMAINDER OF THE STRUCTURE SHALL BE RESTRICTED TO A 15' BUILDING LINE (SEE DIAGRAM "A").

7. ALL LOTS AND RESERVES SHALL HAVE A MINIMUM 5–FOOT SIDE AND REAR BUILDING LINE SETBACK IN ACCORDANCE WITH MONTGOMERY COUNTY REGULATIONS.

Commissioners Court-Regular Meeting **PRECINCT 2**

TO: Montgomery County Commissioners Court

FROM: Thomas Woolley, Director of Engineering Services

DATE: 08/20/2026

SUBJECT: Set a public hearing date of September 17, 2026, to consider and approve removal of the STOP signs on Morningbrook Drive approximately 2,800ft west of the intersection of Texas Trace Boulevard in High Meadow Estates, Section 9 based on a recent traffic study.

Attachments

Traffic Tech Memo

Montgomery County

Engineer's Office

Traffic Technical Memorandum

Evaluation of Stop Control Configuration
7174 Morningbrook Dr.

Executive Summary

At the request of Montgomery County Precinct II Office, The Engineering Department conducted a traffic operations evaluation of the stop sign located on Morningbrook Dr approximately 2,800ft west of the intersection of Texas Trace Blvd in section 9 of High Meadow Estates.

The purpose of the study is to determine whether the existing stop control configuration remains appropriate under current operating conditions and whether removal of the STOP sign would be acceptable from a traffic engineering standpoint.

The evaluation included a review of existing roadway geometry, traffic operations, crash history, and applicable guidance contained within the Texas Manual on Uniform Traffic Control Devices (TXMUTCD). The stop signs are currently located on the east and west bound of Morningbrook Dr. at a knuckle that opens to the north side of the road.

Based on the findings of this evaluation, the existing STOP signs are not supported by current traffic engineering criteria. Removal of the STOP signs would restore consistent traffic control operations along the roadway, improve driver expectancy, and maintain appropriate right-of-way assignment.

Montgomery County

Engineer's Office

Scope

This technical memorandum evaluates the existing traffic controlled conditions. The analysis includes a review of the existing roadway configuration, traffic operations, and applicable guidance contained within the Federal Highway Administration's Manual on Uniform Traffic Control Devices (MUTCD) related to stop control applications with the purpose of determining whether the existing stop control configuration remains appropriate under current operating conditions or if it can be removed.

Location Description

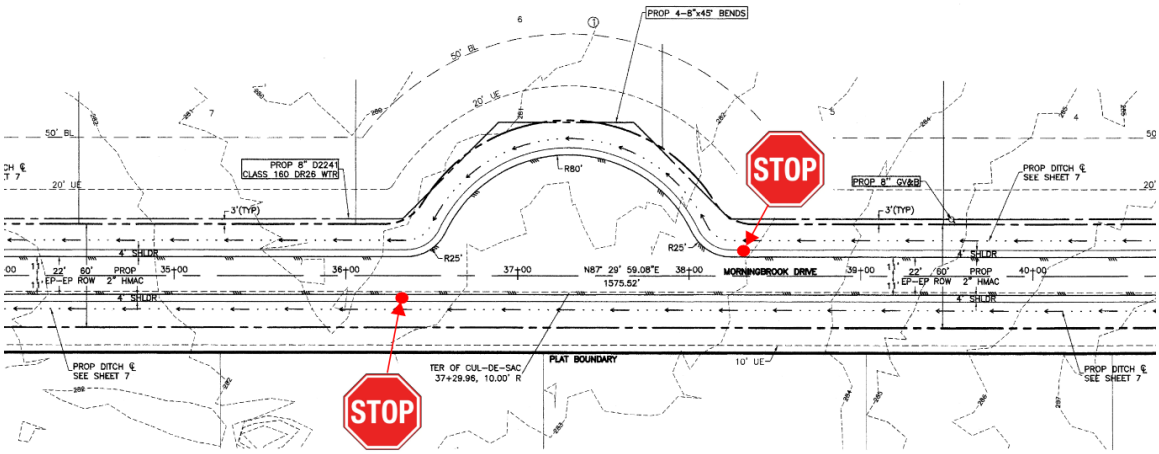
The stop sign is located on Morningbrook Dr. approximately 2,800ft west of the intersection of Texas Trace Blvd located within Section 9 if High Meadow Estates West of Jackson Rd. in Montgomery County, Texas.

Refer to the exhibit below for the project location and surrounding roadway network.

Montgomery County

Engineer's Office

Existing Configuration and Geometry



The Morningbrook Dr. is a 22ft wide, 2 lane local residential road with a posted speed of 30mph. The stop sign is located at a knuckle the opens to the north of the road. There is no intersection, curves, visual obstructions or other indications that a stop sign is required at the location.

No visibility or intersections exist in the area that require a sigh distance calculation. The road is straight and very open from trees or other obstructions.

The subdivision has approximately 10 knuckles similar to the one adjacent to the stop signs however, this location is the only one containing a stop sign.

Morningbrook Dr. does not have a crossroad intersection for more than 2,000ft. It is common for planners to include knuckles like this to provide a turnaround location for emergency vehicles at least every 1,000ft but these are not considered intersections.

An exhibit showing the existing roadway geometry and traffic control configuration is included below.

Montgomery County

Engineer's Office

Applicable TXMUTCD Sections

The Texas Manual on Uniform Traffic Control Devices (TXMUTCD), Section 2B.07, provides guidance regarding the application of STOP signs at intersections. The TXMUTCD states that STOP signs should be used where engineering judgment indicates that one or more of the following conditions exist:

Guidance:

STOP signs should be used if engineering judgment indicates that one or more of the following conditions exist:

1. *Intersection of a less important road with a main road where application of the normal right-of-way rule would not be expected to provide reasonable compliance with the law;*

2. *Street entering a through highway or street;*

3. *Unsignalized intersection in a signalized area; and/or*

4. *High speeds, restricted view, or crash records indicate a need for control by the STOP sign.*

The guidance on the same section indicates that "stop signs should not be used for speed control".

Crash History

Crash records for the area. were reviewed using the Texas Department of Transportation Crash Records Information System (CRIS) database. Based on the available records, no reported crashes have occurred at the intersection within the last five years.

Montgomery County

Engineer's Office

Conclusions and Recommendations

- No unusual geometric constraints, sight distance limitations, or known operational issues were identified that would necessitate retaining stop control.

- The only purpose these stop sign could serve is to slow down traffic however, the TMUCD discourages the use of stop signs for speed control. If speed is a problem in the area police enforcement and other options should be considered outside the installation of a stop sign.

- Removal of the STOP sign would restore consistent traffic control operations along the roadway and improve driver expectancy.

_____

_____

(Attach approval letter from sanitary sewer provider)

☑ On-Site Sewage Facilities (30 TAC Chapter 285 Section 285.4)
(Attach approval letter from the Montgomery County Environmental Health Services)

Water System (Check the one that applies):

☐ Public Water System
Provider Name, Address and Phone No.

_____

_____

(Attach approval letter indicating adequate capacity from water provider)

☑ Individual wells on each lot (Fill out the Water Well Acknowledgment below)

As part of my application process, I confirm the following (initial each):

✓ I have read the Rules of the Lone Star Groundwater Conservation District.

✓ I understand I will need to apply with the Lone Star Groundwater Conservation District for permission to drill and operate and well(s).

✓ I understand the location of the wells must comply with the Lone Star Groundwater Conservation District spacing rules, and that an adjustment to the proposed location of the wells may be required to ensure compliance with the District's spacing rules. Additionally, a hydrogeological report on potential impacts to neighboring wells may be required.

✓ I understand it is my responsibility to plan for the future water needs of the development including planning for increased demand, evaluating the need for water supplies other than groundwater to meet future demands, and the consideration of conservation efforts including reuse.

Other Items Required

Plat Application Fee:

☑ Attach check made payable to Montgomery County. (The fee is calculated as per the following: $500 Base Fee + $30 per Lot + $30 per Acre in Reserve. For Street Dedication Plat: $500 Base Fee + $50 per Acre of Right of Way) ***IN ACCORDANCE WITH THE LAW, PLATS MUST BE RECORDED WITH THE COUNTY CLERK AFTER COMMISSIONERS COURT APPROVAL. RECORDING FEES WILL BE COLLECTED SEPARATELY BY THE COUNTY CLERK.**

Subdivision Development Permit Fee: (applicable to projects approved under previous regulations)

☐ Attach separate check made payable to Montgomery County. (The fee is calculated as per the following: $1000 Base Fee + $20 per Lot)
*Approval of plat in Commissioners Court serves as permit.

Mylars:

☑ Attach 20" x 24" original signed mylar(s). (One for Montgomery County + one if the City of Houston will require an original + one if the owner wants an original back) If in an ETJ of a municipality, the mylars must be signed by the city. (Local Government Code 232.101, Montgomery County Subdivision Rules and Regulations)

Paper Copies:

☑ Attach two complete paper copies of the plat. (Local Government Code 232.101, Montgomery County Development Regulations)

911 Address Map:

☑ Attach address map approved by the Montgomery County Emergency Communications District (Health and Safety Code, Title 9, Subtitle B, Chapter 772)

TxDOT Approval:

☐ Provide TxDOT approval for access connection. (For subdivisions proposing new or modified street connections to TxDOT right of way or for lots with driveways fronting TxDOT right of way. Preliminary approval from TxDOT of the access locations will be acceptable.) (43 TAC Part 1, Chapter 11, Subchapter C)

RE: **LOOP CENTER**

To Whom It May Concern,

With the following understanding and conditions, we do not object to the approval of the plat for **LOOP CENTER.** This subdivision must comply with the Rules of Texas Commission on Environmental Quality (TCEQ) as stated in Chapter 285 of their Administrative Code and the applicable provisions of Vernon's Annotated Texas Statutes (VATS).

In this specific subdivision, special consideration must be given to the following:

* The on-site inspection indicated a brown Sandy Loam from 0 to 12 inches, a brown Sandy Clay to 24 inches, and a brown Clay to 48 inches on the lot. Adequate surface drainage is present throughout the entire subdivision and topography should not be a limiting factor. This subdivision should be suitable for on-site sewage facilities for Commercial Development. Although the lots surveyed were Class II and Class III soils, alternative on-site sewage facilities (OSSF) should be an alternative and should be designed and installed according to State and County rules and regulations. Any existing on-site sewage facilities located on this property is to be properly disposed of.

* Any design submitted to us for review should include a thorough and accurate site assessment of each lot – with special attention paid to issues such as suitable soil type, the presence of any slope, a consideration of the general drainage patterns and an evaluation to determine which on-site sewage facilities may be suitable on the individual lots should be done in accordance with 30 TAC Chapter 285 OSSF Rules. All existing water wells and easements also must be identified.

Additional information may be requested by Montgomery County Environmental Health Services on a case by case basis as system designs for these lots are submitted to us for individual review. Our interposing no objection to approval of this subdivision plat also is based upon the review already undertaken by your office and its findings and concurrent recommendation for approval.

Scott Nichols, D.R., S.E.
Director of Environmental Services

STATE OF TEXAS
COUNTY OF MONTGOMERY

WE, BELLVILLE PROPERTY, INC. A TEXAS CORPORATION ACTING BY AND THROUGH NIZARALI N. MOMIN, PRESIDENT AND RAHIM N. MAKNOJIA, SECRETARY, OWNERS OF THE 13.1863 ACRE TRACT SUBDIVIDED IN THE ABOVE AND FOREGOING MAP OF LOOP CENTER, DO HEREBY MAKE SUBDIVISION OF SAID PROPERTY, ACCORDING TO THE LINES, STREETS, LOTS, ALLEYS, PARKS, BUILDING LINES, AND EASEMENTS THEREIN SHOWN, AND DESIGNATE SAID SUBDIVISION AS LOOP CENTER IN THE J.M. REAL SURVEY, ABSTRACT 712, MONTGOMERY COUNTY, TEXAS; AND DEDICATE TO PUBLIC USE, AS SUCH, THE STREETS, ALLEYS, PARKS, AND EASEMENTS SHOWN THEREON FOREVER; AND DO HEREBY WAIVE ANY CLAIMS FOR DAMAGES OCCASIONED BY THE ESTABLISHING OF GRADES AS APPROVED FOR THE STREETS AND ALLEYS DEDICATED, OR OCCASIONED BY THE ALTERATION OF THE SURFACE OF ANY PORTION OF STREETS OR ALLEYS TO CONFORM TO SUCH GRADES; AND DO HEREBY BIND OURSELVES, OUR HEIRS AND ASSIGNS TO WARRANT AND FOREVER DEFEND THE TITLE TO THE LAND SO DEDICATED .

THIS IS TO CERTIFY THAT WE, BELLVILLE PROPERTY, INC., A TEXAS COORPORATION, HAVE COMPLIED WITH OR WILL COMPLY WITH ALL REGULATIONS HERETOFORE ON FILE WITH THE MONTGOMERY COUNTY ENGINEER AND ADOPTED BY THE COMMISSIONERS COURT OF MONTGOMERY COUNTY.

THERE IS ALSO DEDICATED FOR UTILITIES AN UNOBSTRUCTED AERIAL EASEMENT FIVE (5) FEET WIDE FROM A PLANE TWENTY (20) FEET ABOVE THE GROUND UPWARD, LOCATED ADJACENT TO ALL EASEMENTS SHOWN HEREON .

FURTHER, WE DO HEREBY DEDICATE FOREVER TO THE PUBLIC A STRIP OF LAND A MINIMUM OF FIFTEEN (15) FEET WIDE ON EACH SIDE OF THE CENTER LINE OF ANY AND ALL GULLIES, RAVINES, DRAWS, SLOUGHS OR OTHER NATURAL DRAINAGE COURSES LOCATED IN SAID SUBDIVISION, AS EASEMENTS FOR DRAINAGE PURPOSES, GIVING MONTGOMERY COUNTY AND/OR OTHER PUBLIC AGENCY THE RIGHT TO ENTER UPON SAID EASEMENT AT ANY AND ALL TIMES FOR THE PURPOSE OF CONSTRUCTION AND/OR MAINTAINING DRAINAGE WORK AND/OR STRUCTURE.

FURTHER, ALL OF THE PROPERTY SUBDIVIDED IN THE ABOVE AND FOREGOING MAP SHALL BE RESTRICTED IN ITS USE, WHICH RESTRICTIONS SHALL RUN WITH THE TITLE OF THE PROPERTY, AND SHALL BE ENFORCEABLE, AT THE OPTION OF MONTGOMERY COUNTY, BY MONTGOMERY COUNTY OR ANY CITIZEN THEREOF, BY INJUNCTION, AS FOLLOWS:

1. THE DRAINAGE OF SEPTIC TANKS INTO ROAD, STREET, ALLEY, OR OTHER PUBLIC DITCHES, EITHER DIRECTLY OR INDIRECTLY, IS STRICTLY PROHIBITED.

2. DRAINAGE STRUCTURES UNDER PRIVATE DRIVEWAYS SHALL HAVE A NET DRAINAGE OPENING AREA OF SUFFICIENT SIZE TO PERMIT THE FREE FLOW OF WATER WITHOUT BACKWATER, AND SHALL BE A MINIMUM OF ONE AND THREE QUARTERS (1-3/4) SQUARE FEET (18" DIAMETER PIPE CULVERT).

FURTHER, WE DO HEREBY DECLARE THAT ALL PARCELS OF LAND DESIGNATED AS LOTS ON THIS PLAT ARE ORIGINALLY INTENDED FOR THE CONSTRUCTION OF RESIDENTIAL DWELLING UNITS THEREON (OR THE PLACEMENT OF MOBILE HOME SUBDIVISION) AND SHALL BE RESTRICTED FOR SAME UNDER THE TERMS AND CONDITIONS OF SUCH RESTRICTIONS FILED SEPARATELY, UNLESS OTHERWISE NOTED.

IN TESTIMONY WHEREOF, BELLVILLE PROPERTY, INC., A TEXAS CORPORATION HAS CAUSED THESES PRESENTS TO SIGNED BY NAZARALI N. MOMIN, ITS PRESIDENT, THEREUNTO AUTHORIZED, ATTESTED BY ITS SECRETARY, RAHIM N. MAKNOJIA, THIS 13 DAY OF JULY, 2026.

Planned Improvements

(Check the boxes that apply)

Streets: ☑ Public ☐ Private

Storm System: ☑ Storm Sewer ☐ Open Ditch ☐ Combination

Sanitary System (Check the one that applies):

☑ Sanitary Sewer System
Provider Name, Address and Phone No.
East Montgomery County Municipal Utility District No. 13
3200 Southwest Fwy, #2600 Houston, TX 77027
(Attach approval letter from sanitary sewer provider)

☐ On-Site Sewage Facilities (30 TAC Chapter 285 Section 285.4)
(Attach approval letter from the Montgomery County Environmental Health Services)

Water System (Check the one that applies):

☑ Public Water System
Provider Name, Address and Phone No.
East Montgomery County Municipal Utility District No. 13
3200 Southwest Fwy, #2600 Houston, TX 77027
(Attach approval letter indicating adequate capacity from water provider)

☐ Individual wells on each lot (Fill out the Water Well Acknowledgment below)

As part of my application process, I confirm the following (initial each):

_____ I have read the Rules of the Lone Star Groundwater Conservation District.

_____ I understand I will need to apply with the Lone Star Groundwater Conservation District for permission to drill and operate and well(s).

_____ I understand the location of the wells must comply with the Lone Star Groundwater Conservation District spacing rules, and that an adjustment to the proposed location of the wells may be required to ensure compliance with the District's spacing rules. Additionally, a hydrogeological report on potential impacts to neighboring wells may be required.

_____ I understand it is my responsibility to plan for the future water needs of the development including planning for increased demand, evaluating the need for water supplies other than groundwater to meet future demands, and the consideration of conservation efforts including reuse.

Other Items Required

Plat Application Fee:

☑ Attach check made payable to Montgomery County. (The fee is calculated as per the following: $500 Base Fee + $30 per Lot + $30 per Acre in Reserve.
For Street Dedication Plat: $500 Base Fee + $50 per Acre of Right of Way) ***IN ACCORDANCE WITH THE LAW, PLATS MUST BE RECORDED WITH THE COUNTY CLERK AFTER COMMISSIONERS COURT APPROVAL. RECORDING FEES WILL BE COLLECTED SEPARATELY BY THE COUNTY CLERK.**

Subdivision Development Permit Fee: (applicable to projects approved under previous regulations)

☑ Attach separate check made payable to Montgomery County. (The fee is calculated as per the following: $1000 Base Fee + $20 per Lot)
*Approval of plat in Commissioners Court serves as permit.

Mylars:

☑ Attach 20" x 24" original signed mylar(s). (One for Montgomery County + one if the City of Houston will require an original + one if the owner wants an original back) If in an ETJ of a municipality, the mylars must be signed by the city. (Local Government Code 232.101, Montgomery County Subdivision Rules and Regulations)

Paper Copies:

☑ Attach two complete paper copies of the plat. (Local Government Code 232.101, Montgomery County Development Regulations)

911 Address Map:

☑ Attach address map approved by the Montgomery County Emergency Communications District (Health and Safety Code, Title 9, Subtitle B, Chapter 772)

TxDOT Approval:

☐ Provide TxDOT approval for access connection. (For subdivisions proposing new or modified street connections to TxDOT right of way or for lots with driveways fronting TxDOT right of way. Preliminary approval from TxDOT of the access locations will be acceptable.) (43 TAC Part 1, Chapter 11, Subchapter C)

STATE OF TEXAS §

COUNTY OF MONTGOMERY §

A **METES & BOUNDS** description of a certain 19.89 acre (866,613 square feet) tract of land situated in the Walker County School Land Survey, Abstract No. 494, in Montgomery County, Texas, being a portion of a called 610.4 acre tract conveyed to Forestar (USA) Real Estate Group Inc. by deed recorded in Clerk's File No. 2021046718, Montgomery County Official Public Records; said 19.89 acre (866,613 square feet) tract of land being more particularly described as follows with all bearings being based on the Texas Coordinate System, Central Zone, NAD 83:

COMMENCING at a concrete monument found, being the westerly southwest corner of said called 610.4 acre tract, being the southwest corner of The Canopies Sec 3 according to the plat thereof recorded in Cabinet AA, Sheet 0863, Montgomery County Map Records, and being the north corner of Reserve B, Block 1, of Harrington Trails Sec 8 according to the plat thereof recorded in Cabinet Z, Sheet 8272, Montgomery County Map Records;

THENCE, over and across said called 610.4 acre tract, the following thirty-six (36) courses and distances:

1. North 71°04'34" East, 2,798.00 feet to a 5/8-inch iron rod (with cap stamped "ELS") set, being on the south right-of-way line of Harrington Drive (60 foot right-of-way) according to the plat thereof recorded in Cabinet AA, Sheet 0662, Montgomery County Map Records, and being the **POINT OF BEGINNING** of the herein described tract;

2. North 87°04'11" East, along the south right-of-way line of said Harrington Drive, 232.96 feet to a 5/8-inch iron rod (with cap) found, being the beginning of a curve to the right;

3. Continuing along the south right-of-way line of said Harrington Drive and along said curve to the right in a southeasterly direction, with a radius of 30.00 feet, a central angle of 90°00'00", an arc length of 47.12 feet, and a chord bearing South 47°55'49" East, 42.43 feet to a 5/8-inch iron rod (with cap) found;

4. North 87°04'11" East, continuing along the south right-of-way line of said Harrington Drive, 90.00 feet to a 5/8-inch iron rod (with cap) found;

5. South 02°55'49" East, 111.00 feet to a 5/8-inch iron rod (with cap stamped "ELS") set, being the beginning of a curve to the left;

6. Along said curve to the left in a southeasterly direction, with a radius of 25.00 feet, a central angle of 90°00'00", an arc length of 39.27 feet, and a chord bearing South 47°55'49" East, 35.36 feet to a 5/8-inch iron rod (with cap stamped "ELS") set;

7. South 02°55'49" East, 50.00 feet to a 5/8-inch iron rod (with cap stamped "ELS") set;

8. South 87°04'11" West, 86.36 feet to a 5/8-inch iron rod (with cap stamped "ELS") set;

9. South 02°01'10" East, 893.93 feet to a 5/8-inch iron rod (with cap stamped "ELS") set;

10. South 87°58'50" West, 95.00 feet to a 5/8-inch iron rod (with cap stamped "ELS") set, being the beginning of a curve to the left;

11. Along said curve to the left in a southwesterly direction, with a radius of 25.00 feet, a central angle of 90°00'00", an arc length of 39.27 feet, and a chord bearing South 42°58'50" West, 35.36 feet to a 5/8-inch iron rod (with cap stamped "ELS") set;

12. South 02°01'10" East, 95.00 feet to a 5/8-inch iron rod (with cap stamped "ELS") set;

13. North 87°58'50" East, 763.44 feet to a 5/8-inch iron rod (with cap stamped "ELS") set;

14. North 44°39'32" East, 208.44 feet to a 5/8-inch iron rod (with cap stamped "ELS") set;

15. North 43°14'39" East, 165.08 feet to a 5/8-inch iron rod (with cap stamped "ELS") set;

16. North 42°50'59" East, 67.54 feet to a 5/8-inch iron rod (with cap stamped "ELS") set;

17. North 44°58'03" West, 93.48 feet to a 5/8-inch iron rod (with cap stamped "ELS") set, being the beginning of a curve to the left;

18. Along said curve to the left in a westerly direction, with a radius of 25.00 feet, a central angle of 90°00'00", an arc length of 39.27 feet, and a chord bearing North 89°58'03" West, 35.36 feet to a 5/8-inch iron rod (with cap stamped "ELS") set;

19. North 44°58'03" West, 50.00 feet to a 5/8-inch iron rod (with cap stamped "ELS") set;

20. North 45°01'57" East, 100.00 feet to a 5/8-inch iron rod (with cap stamped "ELS") set;

21. South 44°58'03" East, 50.00 feet to a 5/8-inch iron rod (with cap stamped "ELS") set, being the beginning of a curve to the left;

22. Along said curve to the left in a southerly direction, with a radius of 25.00 feet, a central angle of 90°00'00", an arc length of 39.27 feet, and a chord bearing South 00°01'57" West, 35.36 feet to a 5/8-inch iron rod (with cap stamped "ELS") set;

23. South 44°58'03" East, 190.00 feet to a 5/8-inch iron rod (with cap stamped "ELS") set, being the beginning of a curve to the left;

24. Along said curve to the left in an easterly direction, with a radius of 25.00 feet, a central angle of 90°00'00", an arc length of 39.27 feet, and a chord bearing South 89°58'03" East, 35.36 feet to a 5/8-inch iron rod (with cap stamped "ELS") set;

25. South 44°58'03" East, 50.00 feet to a 5/8-inch iron rod (with cap stamped "ELS") set, being the beginning of a curve to the left;

26. Along said curve to the left in a southerly direction, with a radius of 25.00 feet, a central angle of 90°00'00", an arc length of 39.27 feet, and a chord bearing South 00°01'57" West, 35.36 feet to a 5/8-inch iron rod (with cap stamped "ELS") set;

27. South 44°58'03" East, 74.48 feet to a 5/8-inch iron rod (with cap stamped "ELS") set, being the beginning of a curve to the right;

28. Along said curve to the right in a southeasterly direction, with a radius of 3,025.00 feet, a central angle of 00°35'43", an arc length of 31.43 feet, and a chord bearing South 44°40'12" East, 31.43 feet to a 5/8-inch iron rod (with cap stamped "ELS") set;

29. South 44°22'20" East, 30.33 feet to a 5/8-inch iron rod (with cap stamped "ELS") set;

30. South 45°37'40" West, 50.00 feet to a 5/8-inch iron rod (with cap stamped "ELS") set, being the beginning of a curve to the right;

31. Along said curve to the right in a southerly direction, with a radius of 35.00 feet, a central angle of 88°21'32", an arc length of 53.98 feet, and a chord bearing South 00°11'34" East, 48.78 feet to a 5/8-inch iron rod (with cap stamped "ELS") set, being the beginning of a reverse curve to the left;

32. Along said reverse curve to the left in a southwesterly direction, with a radius of 2,060.00 feet, a central angle of 11°19'26", an arc length of 407.14 feet, and a chord bearing South 38°19'29" West, 406.47 feet to a 5/8-inch iron rod (with cap stamped "ELS") set;

BOND WITH SURETY
(Corporate principal)

NO. SU 1216016

STATE OF TEXAS §
§ KNOW ALL BY THESE PRESENTS:
COUNTY OF MONTGOMERY §

That Forestar (USA) Real Estate Group Inc. , a DE Corporation , with offices and principal place of business in Tarrant County, TX , hereinafter called PRINCIPAL, and Arch Insurance Company , a corporation or other entity existing under and by virtue of the laws of the State of MO and authorized to do business as a surety in the State of Texas, and whose principal office is located in the City of Jersey City , State of NJ whose officer residing in the State of Texas authorized to accept service in all suits and actions brought within said State is Jack Crowley , residing in the City of Dallas, TX , hereinafter called the SURETY, are held and firmly bound unto Mark J. Keough, County Judge of Montgomery County, Texas, and his successors in office in the full sum of One Million One Hundred Eighty Six Thousand Five Hundred Fifty Dollars and 00/100 DOLLARS ($ 1,186,550.00) current, lawful money of the United States of America, to be paid to (*Mark J. Keough*), County Judge of Montgomery County, Texas, or his successors in office, to which payment well and truly to be made and done, the undersigned PRINCIPAL and SURETY, each binds itself and its successors and assigns, jointly and severally, by these presents.

WHEREAS the said PRINCIPAL is the owner of the following Subdivision: The Canopies Section 5 , located in Montgomery County, Texas, as per the map or plat thereof (the "Plat") approved by Montgomery County Commissioners Court and filed in Cabinet _____, Sheet(s) _____, Map Records of Montgomery County, Texas; and

WHEREAS, the Commissioners Court of Montgomery County, Texas, has promulgated certain rules, regulations and requirements relating to Subdivisions in Montgomery County, Texas, as more specifically set out in the Minutes of Commissioners Court (the "Development Regulations"), and all revisions and additions as may have been or may be adopted by separate action prior to the date of this bond; same being made a part hereof for all purposes, as though fully set out herein; wherein it is provided, among other things, that the owner of a Subdivision will construct the roads and streets and the drainage requirements for the Subdivision as depicted on the Plat, in accordance with the specifications and within the time set out therein, and maintain such roads and streets and the drainage requirements for a period of not less than one (1) year following the completion thereof.

It is further stipulated and understood that the approval of the Plat of the above-named Subdivision is conditioned upon and subject to the strict compliance by the PRINCIPAL herein with the Development Regulations, and that the terms of the Development Regulations, including all deletions, additions, changes, or modifications of any kind or character, constitute a contract between the County of Montgomery and PRINCIPAL; and it is understood by the PRINCIPAL that the approval of said Plat of the above Subdivision(s) was obtained only by the undertaking of the PRINCIPAL to so comply with the said regulations and specifications, and that without such undertaking such approval would have not been granted.

NOW THE CONDITION OF THIS OBLIGATION IS SUCH, that if the above bonded PRINCIPAL, his, their, or its heirs, executors, administrators, successors, assigns, and legal representatives, and each and every one of them to do in all things well and truly observe, perform, fulfill, keep and comply with, all and singular, the Development Regulations and all other rules, regulations, requirements, and specifications above referred to, including any deletions, additions, changes, or modifications of any kind or character, in the construction and maintenance of all roads and streets in and the drainage requirements for the above-named Subdivision, and that upon approval of the construction of said roads and streets and the drainage requirements by the County Engineer or Inspector and Initial Acceptance (as described in the Development Regulations) by Commissioners Court, the amount held under this bond shall automatically be reduced to Five Hundred Ninety Three Thousand Two Hundred Seventy Five Dollars and 00/100 DOLLARS ($ 593,275.00) and upon the expiration of one (1) year thereafter, the time required for proper maintenance by the above bonded PRINCIPAL thereof, and the approval of such maintenance by the County Engineer or Inspector and Final Acceptance (as described in the Development Regulations) by the Commissioners Court, then this obligation is to be void and of no force and effect.

The PRINCIPAL and the SURETY hereon each agrees, binds, and obligates itself and themselves to pay to the County Judge of Montgomery County, State of Texas, for the use and benefit of Montgomery County, an amount, not to exceed the then principal sum of this bond, adequate for Montgomery County to undertake any construction or other activity necessary to bring about compliance with each and every provision contained in the rules, regulations, requirements, and specifications above referred to relating to the construction of the roads and streets in and the drainage requirements for the above named Subdivision, and further agree, bind and obligate themselves to save and keep harmless the County of Montgomery from any and all damages, expenses, and claims of every kind and character which the County of Montgomery may suffer, directly or indirectly, as a result of the PRINCIPAL'S failure to comply with the rules, regulations, and specifications relating to the construction and maintenance of the roads, streets, and drainage requirements in the above named Subdivision. Montgomery County reserves the right to require PRINCIPAL to provide a bond from a different surety should Montgomery County deem itself insecure in the current SURETY'S ability to perform the obligations under the bond.

The word *PRINCIPAL* when used herein means PRINCIPAL or PRINCIPALS, whether an individual, individuals, partnership, corporation, or other legal entity having the capacity to contract. The words *ROADS* or *STREETS* as used herein mean each and every road or street in said Subdivision according to the Plat. The words *DRAINAGE REQUIREMENTS* as used herein mean each and every improvement necessary for the proper drainage of the Subdivision, including but not limited to ditches, detention ponds, drainage channels, swales, and drainage easements, as depicted on the drainage plans approved and signed by the Montgomery County Engineer. The word *MAINTENANCE* as used herein means all needful, necessary, and proper care and repair by the PRINCIPAL for a period of at least one (1) year from the completion of the roads and streets in and the drainage requirements for the Subdivision and the approval thereof by the County Engineer or Inspector. The word *SURETY* when used herein means surety or sureties and it is understood by the parties that any and all liabilities of any kind or character assumed or imposed upon the PRINCIPAL by the terms hereof extends in full force and vigor to each and every SURETY jointly and severally.

EXECUTED this 2nd day of June, 20 26.

ATTEST:

_____
(*L. BRANDON STEINMANN*), COUNTY CLERK

This Power of Attorney limits the acts of those named herein, and they have no authority to bind the Company except in the manner and to the extent herein stated. Not valid for Note, Loan, Letter of Credit, Currency Rate, Interest Rate or Residential Value Guarantees.

POWER OF ATTORNEY

Know All Persons By These Presents:
That the Arch Insurance Company, a corporation organized and existing under the laws of the State of Missouri, having its principal administrative office in Jersey City, New Jersey (hereinafter referred to as the "Company") does hereby appoint:

Noah William Pierce

its true and lawful Attorney(s)in-Fact, to make, execute, seal, and deliver from the date of issuance of this power for and on its behalf as surety, and as its act and deed: Any and all bonds, undertakings, recognizances and other surety obligations, in the penal sum not exceeding One hundred and Fifty Million Dollars (150,000,000.00). Any and all bonds, undertakings, recognizances and other surety obligations.

Surety Bond Number: SU 1216016
Principal: Forestar (USA) Real Estate Group Inc.
Obligee: Mark J. Keough, County Judge of Montgomery County, Texas

This authority does not permit the same obligation to be split into two or more bonds In order to bring each such bond within the dollar limit of authority as set forth herein.

The execution of such bonds, undertakings, recognizances and other surety obligations in pursuance of these presents shall be as binding upon the said Company as fully and amply to all intents and purposes, as if the same had been duly executed and acknowledged by its regularly elected officers at its principal administrative office in Jersey City, New Jersey.

This Power of Attorney is executed by authority of resolutions adopted by unanimous consent of the Board of Directors of the Company on August 31, 2022, true and accurate copies of which are hereinafter set forth and are hereby certified to by the undersigned Secretary as being in full force and effect:

"VOTED, That the Chairman of the Board, the President, or the Executive Vice President, or any Senior Vice President, of the Surety Business Division, or their appointees designated in writing and filed with the Secretary, or the Secretary shall have the power and authority to appoint agents and attorneys-in-fact, and to authorize them subject to the limitations set forth in their respective powers of attorney, to execute on behalf of the Company, and attach the seal of the Company thereto, bonds, undertakings, recognizances and other surety obligations obligatory in the nature thereof, and any such officers of the Company may appoint agents for acceptance of process."

This Power of Attorney is signed, sealed and certified by facsimile under and by authority of the following resolution adopted by the unanimous consent of the Board of Directors of the Company on August 31, 2022:

VOTED, That the signature of the Chairman of the Board, the President, or the Executive Vice President, or any Senior Vice President, of the Surety Business Division, or their appointees designated in writing and filed with the Secretary, and the signature of the Secretary, the seal of the Company, and certifications by the Secretary, may be affixed by facsimile on any power of attorney or bond executed pursuant to the resolution adopted by the Board of Directors on August 31, 2022, and any such power so executed, sealed and certified with respect to any bond or undertaking to which it is attached, shall continue to be valid and binding upon the Company. **In Testimony Whereof**, the Company has caused this instrument to be signed and its corporate seal to be affixed by their authorized officers, this **10th day of July, 2025**

ENGINEERING

STATE OF TEXAS §

COUNTY OF MONTGOMERY §

We, FORESTAR (USA) REAL ESTATE GROUP INC., a Delaware Corporation acting by and through Colin Daly, Development Director, (herein after referred to as "Owner") of the property subdivided in the above and foregoing map of THE CANOPIES SEC 5, do hereby make subdivision of said property according to all lines, streets, alleys, parks and easements therein shown, and designate said subdivision as THE CANOPIES SEC 5, in the Walker County School Land Survey, A-494 in Montgomery County, Texas; and do hereby dedicate to public use, as such, the streets, alleys, parks and easements shown thereon forever; and do hereby waive any claims for damages occasioned by the establishing of grades as approved for the streets and alleys dedicated, or occasioned by the alteration of the surface of any portion of streets or alleys to conform to such grades and do hereby bind ourselves, our heirs and assigns to warrant and forever defend the title to the land so dedicated.

FURTHER, Owner of the property subdivided in the above and foregoing map of THE CANOPIES SEC 5, have complied or will comply with all regulations heretofore on file with the Montgomery County engineer and adopted by the Commissioners' Court of Montgomery County, Texas.

FURTHER, Owner has dedicated and by these presents does dedicate to the use of the public for public utility purposes forever unobstructed aerial easements. The aerial easements shall extend horizontally an additional eleven feet, six inches (11' – 6") for ten feet (10' – 0") perimeter ground easements or seven feet, six inches (7' – 6") for fourteen feet (14' – 0") perimeter ground easements or five feet, six inches (5' – 6") for sixteen feet (16" – 0") perimeter ground easements, from a plane sixteen feet (16' – 0") above ground level upward, located adjacent to and adjoining said public utility easements that are designated with aerial easements (U.E. & A.E.) as indicated and depicted hereon, whereby the aerial easement totals twenty one feet, six inches (21' – 6") in width.

FURTHER, Owner has dedicated and by these presents does dedicate to the use of the public for public utility purposes forever unobstructed aerial easements. The aerial easements shall extend horizontally an additional ten feet (10' – 0") for ten feet (10' – 0") back–to–back ground easements, or eight feet (8' – 0") for fourteen feet (14' – 0") back–to–back ground easements or seven feet (7' – 0") for sixteen feet (16' – 0") back–to–back ground easements, from a plane sixteen feet (16' – 0") above ground level upward, located adjacent to both sides and adjoining said public utility easements that are designated with aerial easements (U.E. & A.E) as indicated and depicted hereon, whereby the aerial easement totals thirty feet (30' – 0") in width.

FURTHER, We do hereby certify that we are the owners of all property immediately adjacent to the boundaries of the above and foregoing plat of THE CANOPIES SEC 5, where building setback lines or public utility easements are to be established outside the boundaries of the above and foregoing plat and do hereby make and establish all building setback lines and dedicate to the use of the public forever all public utility easements shown in said adjacent acreage.

Storm Sewers located in dedicated street right–of–way are not maintained by Montgomery County. The Storm Sewers in the subdivision will be maintained by East Montgomery County Municipal Utility District Number 13, its successors and assigns.

FURTHER, Owner does hereby dedicate forever to the public a strip of land, a minimum of fifteen (15) feet wide on each side of the center line of any and all gullies, ravines, draws, sloughs, or other natural drainage courses located in the said subdivision, as easements for drainage purposes, giving Montgomery County and/or any other public agency the right to enter upon said easements at any and all times for the purposes of constructing and/or maintaining drainage work and/or structures.

FURTHER, Owner certifies that all of the property subdivided in the above and foregoing map shall be restricted in its use, which restrictions shall run with the title to the property, and shall be enforceable, at the option of Montgomery County, by Montgomery County or any citizen thereof, by injunction, as follows:

1. That drainage of septic tanks into road, street, alley, or other public ditches, either directly or indirectly, is strictly prohibited.
2. Drainage structures under private driveways shall have a net drainage opening area of sufficient size to permit the free flow of water without backwater, and shall be a minimum of one and three quarters (1 – 3/4) square feet (18" diameter pipe culvert).

IN TESTIMONY WHEREOF, FORESTAR (USA) REAL ESTATE GROUP INC., a Delaware Corporation, has caused these presents to be signed by Colin Daly, Development Director, thereunto authorized this 20TH day of JULY, 20__.

FINAL PLAT NOTES:

1. The following restrictions shall pertain to any drainage easement within the boundaries of this plat:
   1A: Prohibits all properties abutting the easement from the construction of fences or buildings whether temporary or permanent, and the installation or maintenance of planting or other obstructions to the operation and maintenance of the drainage facility within the drainage easement.
   1B: Prohibits all properties abutting the easement from draining directly into the drainage easement except by means of a drainage structure approved by the director of public works and engineering or the authorized public drainage or flood control official.

2. Unless otherwise indicated, the building lines (BL), along the right-of-way are as shown on plat. In addition to the building lines shown, all lots shall have a minimum 5' side yard and 10' rear yard setback unless otherwise noted. No structures shall be built in Reserves A through E.

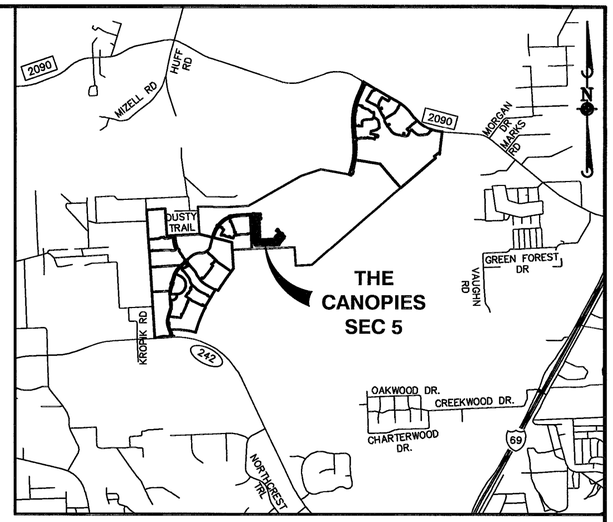
3. One foot reserve dedicated to the public in fee as a buffer separation between the side or ends of streets where such streets abut adjacent property, the condition of such dedication being that when the adjacent property is subdivided in a recorded plat the one foot reserve shall thereupon become vested in the public for street right-of-way purposes and the fee title thereto shall revert to and revest in the dedicator, his heirs, assigns, or successors.

4. All easements are centered on lot lines unless shown otherwise.

5. All off-site utility easements to be dedicated by separate instrument prior to recordation.

6. Until its dissolution the Municipal Utility District shall maintain Reserves B and C. Thereafter the Homeowner's Assoc. serving the land within the boundaries of Reserves shall assume complete responsibility for maintenance and the costs thereof.

7. The coordinates shown hereon are Texas Central Zone No. 4203 State Plane Grid Coordinates (NAD83) and may be brought to surface by applying the following combined scale factor of 1.00003.



8. Benchmark shown hereon are based on RM 150255: National Geodetic Survey Monument, designation Conport, PID No. BL2014 having published information as follows: Being a stainless steel rod inside a 1" PVC pipe encased in a 5" PVC pipe located at the Conroe-North Houston Regional Airport with an Elevation 234.56 Feet, NAVD 88 (1991 Adjustment)

9. Approximate limits of Floodplain per F.E.M.A. Community Panel Map No. 48339C0600G, Dated August 18, 2014, Montgomery County, Texas. This property is situated within: Unshaded Zone "X"; Defined as areas determined to be outside the 500-year Flood Plain.

10. That all corners and angle points of the boundary have been marked with iron rods having a diameter of not less than five eighths (5/8) inch and a length of not less than three (3) feet.

Consent-Engineer

Commissioners Court-Regular Meeting **PRECINCT 4**

TO: Montgomery County Commissioners Court

FROM: Thomas Woolley, Director of Engineering Services

DATE: 08/20/2026

SUBJECT: Consider and approve the final plat of Artavia, Section 40.

Attachments

Plat App & Backup Docs - Artavia, Section 40

Proposed Plat - Artavia, Section 40

Montgomery County
Engineer's Office

August 20, 2026

Honorable Matt Gray
Commissioner Precinct 4
23628 Roberts Road
New Caney, Texas 77357

Re: Artavia, Section 40
28.254 acres in the Benjamin B. Foster Survey, A-785, W.C. Clark Survey, A-732, and the T.&N.O.R.R. Co Survey, A-566
Applicant: Zachary Zarse/LJA Engineering, Inc.
Review: Final

Dear Commissioner Gray:

The above listed subdivision has been reviewed by the Engineering Department and has completed all the requirements necessary for final approval.

Yours truly,

Jessenia Summers
Engineering Assistant

Planned Improvements

(Check the boxes that apply)

Streets: ☑ Public ☐ Private

Storm System: ☑ Storm Sewer ☐ Open Ditch ☐ Combination

Sanitary System (Check the one that applies):

☑ Sanitary Sewer System
Provider Name, Address and Phone No.
Montgomery County MUD 158 c/o Inframark, LLC
10431 Westmoor Road, Richmond, Texas 77407, (281) 578-4200
(Attach approval letter from sanitary sewer provider)

☐ On-Site Sewage Facilities (30 TAC Chapter 285 Section 285.4)
(Attach approval letter from the Montgomery County Environmental Health Services)

Water System (Check the one that applies):

☑ Public Water System
Provider Name, Address and Phone No.
Montgomery County MUD 158 c/o Inframark, LLC
10431 Westmoor Road, Richmond, Texas 77407, (281) 578-4200
(Attach approval letter indicating adequate capacity from water provider)

☐ Individual wells on each lot (Fill out the Water Well Acknowledgment below)

As part of my application process, I confirm the following (initial each):

_____ I have read the Rules of the Lone Star Groundwater Conservation District.

_____ I understand I will need to apply with the Lone Star Groundwater Conservation District for permission to drill and operate and well(s).

_____ I understand the location of the wells must comply with the Lone Star Groundwater Conservation District spacing rules, and that an adjustment to the proposed location of the wells may be required to ensure compliance with the District's spacing rules. Additionally, a hydrogeological report on potential impacts to neighboring wells may be required.

_____ I understand it is my responsibility to plan for the future water needs of the development including planning for increased demand, evaluating the need for water supplies other than groundwater to meet future demands, and the consideration of conservation efforts including reuse.

Engineering Department

501 N. Thompson, Suite 103
Conroe, TX 77301
936-539-7833

Other Items Required

Plat Application Fee:

☑ Attach check made payable to Montgomery County. (The fee is calculated as per the following: $500 Base Fee + $30 per Lot + $30 per Acre in Reserve. For Street Dedication Plat: $500 Base Fee + $50 per Acre of Right of Way) ***IN ACCORDANCE WITH THE LAW, PLATS MUST BE RECORDED WITH THE COUNTY CLERK AFTER COMMISSIONERS COURT APPROVAL. RECORDING FEES WILL BE COLLECTED SEPARATELY BY THE COUNTY CLERK.**

Subdivision Development Permit Fee: (applicable to projects approved under previous regulations)

☑ Attach separate check made payable to Montgomery County. (The fee is calculated as per the following: $1000 Base Fee + $20 per Lot)
*Approval of plat in Commissioners Court serves as permit.

Mylars:

☑ Attach 20" x 24" original signed mylar(s). (One for Montgomery County + one if the City of Houston will require an original + one if the owner wants an original back) If in an ETJ of a municipality, the mylars must be signed by the city. (Local Government Code 232.101, Montgomery County Subdivision Rules and Regulations)

Paper Copies:

☑ Attach two complete paper copies of the plat. (Local Government Code 232.101, Montgomery County Development Regulations)

911 Address Map:

☑ Attach address map approved by the Montgomery County Emergency Communications District (Health and Safety Code, Title 9, Subtitle B, Chapter 772)

TxDOT Approval:

☐ Provide TxDOT approval for access connection. (For subdivisions proposing new or modified street connections to TxDOT right of way or for lots with driveways fronting TxDOT right of way. Preliminary approval from TxDOT of the access locations will be acceptable.) (43 TAC Part 1, Chapter 11, Subchapter C)

Montgomery County
Engineering Department

501 N. Thompson, Suite 103
Conroe, TX 77301
936-539-7833

Bond:

☐ Bond with Surety (Local Government Code 232.004)
(Attach executed Bond with Surety Form)

☑ Letter of Credit (Local Government Code 232.0045)
(Attach executed Letter of Credit and Bond without Surety Form)

☐ Other Financial Guarantee (Local Government Code 232.0045)
(Attach approval from Montgomery County Attorney and include Bond without Surety Form)

Original Tax Certificate:

☑ Attach original tax certificate showing all taxes paid. (Property Code Section 12.002)

Title Report:

☑ Attach City Planning Letter or Title Report issued within 30 days of the plat application. (Local Government Code Section 232.101, Montgomery County Development Regulations.)

Metes and Bounds:

☑ Attach metes and bounds description of the plat boundary signed and sealed by a Registered Professional Land Surveyor. (Local Government Code Chapter 232.001)

Construction Plans:

☑ Attach a complete set of construction plans approved by the County Engineer and the Fire Marshal. (Local Government Code Section 232.101, Local Government Code Section 233.061, Montgomery County Development Regulations)

DESCRIPTION OF
28.254 ACRES
ARTAVIA® SECTION 40

Being 28.254 acres of land located in the T. & N. O. R.R. Co. Survey, Abstract Number 566, the W.C. Clark Survey, Abstract Number 732, and the Benjamin B. Foster Survey, Abstract Number 785, all of Montgomery County, Texas, more particularly being a portion of that certain called 416.0463 acre tract described as Part 2 in the deed to Artavia Development Company by an instrument of record in Document Number 2021176236, in the Official Public Records of said Montgomery County, Texas (M.C.O.P.R.) and a portion of that certain called 172.5 acre tract described in the deed to Artavia Development Company by an instrument of record in Document Number 2025042841, M.C.O.P.R., said 28.254 acre tract being more particularly described by metes and bounds as follows (All bearings referenced to the Texas Coordinate System, Central Zone, NAD83 (NA2011) Epoch 2010.00):

Beginning at a 5/8-inch iron rod with cap stamped "LJA SURVEY" previously set for the east corner of Artavia® Section 19, a subdivision of record in Document Number 2023109596, M.C.O.P.R., said point lying in the northerly right-of-way line of Astaire Parkway (60' R.O.W.) as shown on Astaire Parkway Street Dedication Phase 2A, a subdivision of record in Document Number 2024004136, M.C.O.P.R. and on Artavia® Astaire Parkway Culvert Bridge No. 2, a subdivision of record in Document Number 2024060509, M.C.O.P.R.;

Thence, North 50° 23' 42" West, along a northeast line of said Artavia® Section 19, 182.13 feet to a 5/8-inch iron rod with cap stamped "LJA SURVEY" previously set for corner;

Thence, North 50° 26' 31" West, partially along a northeast line of said Artavia® Section 19 and a northeast line of Artavia® Section 19A, a subdivision of record in Document Number 2025094080, M.C.O.P.R., 327.22 feet to a 5/8-inch iron rod with cap stamped "LJA SURVEY" previously set for corner;

Thence, North 50° 16' 00" West, partially along a northeast line of said Artavia® Section 19A and a northeast line of said Artavia® Section 19, 453.20 feet to a 5/8-inch iron rod with cap stamped "LJA SURVEY" previously set for corner;

Thence, North 50° 48' 06" West, partially along a northeast line of said Artavia® Section 19, 96.41 feet to a 5/8-inch iron rod with cap stamped "LJA SURVEY" set for the west corner of the herein described tract, said point lying in the southeast line of that certain called 5.802 acre tract described as Part 2 in the deed to Montgomery County Municipal Utility District No. 157 by instruments of record in Document Numbers 2024039555 and 2024041200, M.C.O.P.R.;

Thence, North 45° 49' 56" East, partially along said southeast line, 596.30 feet to a 5/8-inch iron rod with cap stamped "LJA SURVEY" set for corner;

Thence, North 41° 00' 56" East, 240.79 feet to a 5/8-inch iron rod with cap stamped "LJA SURVEY" set for corner;

Thence, North 44° 05' 07" East, 92.73 feet to a 5/8-inch iron rod with cap stamped "LJA SURVEY" set for corner;

Thence, South 45° 55' 56" East, 27.29 feet to a 5/8-inch iron rod with cap stamped "LJA SURVEY" set for corner;

Thence, North 44° 04' 04" East, 50.00 feet to a 5/8-inch iron rod with cap stamped "LJA SURVEY" set for corner;

Thence, North 45° 55' 56" West, 27.28 feet to a 5/8-inch iron rod with cap stamped "LJA SURVEY" set for corner;

Thence, North 44° 05' 07" East, 338.77 feet to a 5/8-inch iron rod with cap stamped "LJA SURVEY" set for corner;

Thence, South 25° 27' 49" East, 349.78 feet to a 5/8-inch iron rod with cap stamped "LJA SURVEY" set for corner;

Thence, South 25° 18' 49" East, 1,147.09 feet to a 5/8-inch iron rod with cap stamped "LJA SURVEY" set for the southeast corner of the herein described tract, said point lying in the north right-of-way line of the aforementioned Astaire Parkway;

Thence, South 87° 14' 54" West, along the north right-of-way line of said Astaire Parkway, 212.42 feet to a 5/8-inch iron rod with cap stamped "LJA SURVEY" previously set for corner, the beginning of a tangent curve;

Thence, 482.78 feet continuing along said north right-of-way line and along the arc of a tangent curve to the left, having a radius of 730.00 feet, a central angle of 37° 53' 33", and a chord which bears South 68° 18' 07" West, 474.03 feet to a 5/8-inch iron rod with cap stamped "LJA SURVEY" previously set for corner;

Thence, South 49° 21' 21" West, continuing along said north right-of-way line, 122.74 feet to the POINT OF BEGINNING and containing 28.254 acres of land.

LJA Surveying, Inc.

LIENHOLDER'S SUBORDINATION TO DEDICATION

THE STATE OF TEXAS

KNOW ALL MEN BY THESE PRESENTS:

COUNTY OF MONTGOMERY

WHEREAS, Artavia Development Company, a Texas corporation, has platted that certain 28.254 acres of land out of the T. & N. O. RR. Co. Survey, Abstract 566, the Benjamin B. Foster Survey, Abstract 785, and the W.C. Clark Survey, Abstract 732 Montgomery County, Texas, which property was surveyed and platted on _____ _____, 2026 by LJA Engineering, Inc. and known as Artavia® Section 40 and recorded in Cabinet _____, Sheets _____-_____ of the Map Records and Clerk's File No. _____ of the Official Public Records of Montgomery County, Texas;

WHEREAS, Pilot Land Acquisitions, LLC, a Texas limited liability company, is the present owner and holder of a lien against the above described property, said lien being evidenced as recorded in Clerk's File Number 2021176239 of the Official Public Records of Montgomery County, Texas, and is the holder of a promissory note secured by said lien, desires to subordinate said lien to the dedication of all streets, rights-of-way and easements as well as all other terms and conditions referred to on the subdivision of Artavia® Section 40; and

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS: That for and in consideration of the premises, and the sum of $10.00 and other good and valuable consideration this day paid by Artavia Development Company, a Texas corporation, to said lienholder, the receipt and sufficiency of which is hereby acknowledged and confessed, the said lienholder as the present owner and holder of the note and the lien given to secure the payment of the same, does hereby fully subordinate its lien to the plat of the subdivision of Artavia® Section 40 and the dedication evidenced thereby and does hereby RATIFY, CONFIRM, AND APPROVE in all respects the subdivision of Artavia® Section 40 and the dedication, terms and provisions evidenced thereby.

The said lienholder does hereby WARRANT AND REPRESENT that it is the present owner and holder of the note and the lien given to secure the payment of the same and that it is the owner and holder of the note and the lien.

EXCEPT as expressly modified hereby the lien shall remain in full force and effect.

EXECUTED this 8th day of June, 2026.

BOND WITHOUT SURETY
(Corporate principal)

NO. _____

STATE OF TEXAS §
§ KNOW ALL BY THESE PRESENTS:
COUNTY OF MONTGOMERY §

That Artavia Development Company, a Texas Corporation, with offices and principal place of business in Harris County, Texas, hereinafter called PRINCIPAL, is held and firmly bound unto *Mark J. Keough*, County Judge of Montgomery County, Texas, and his successors in office in the full sum of One Million Eighty Five Thousand and 00/100 U.S. DOLLARS ($1,085,000.00) current, lawful money of the United States of America, to be paid to Mark J. Keough, County Judge of Montgomery County, Texas, or his successors in office, to which payment well and truly to be made and done, the undersigned PRINCIPAL binds itself and its successors and assigns, by these presents.

WHEREAS the said PRINCIPAL is the owner of the following Subdivision: Artavia Section 40, located in Montgomery County, Texas, as per the map or plat thereof (the "Plat") approved by Montgomery County Commissioners Court and filed in Cabinet_____, Sheet(s)_____, Map Records of Montgomery County, Texas; and

WHEREAS, the Commissioners Court of Montgomery County, Texas, has promulgated certain rules, regulations and requirements relating to Subdivisions in Montgomery County, Texas, as more specifically set out in the Minutes of Commissioners Court (the "Development Regulations"), and all revisions and additions as may have been or may be adopted by separate action prior to the date of this bond; same being made a part hereof for all purposes, as though fully set out herein; wherein it is provided, among other things, that the owner of a Subdivision will construct the roads and streets and the drainage requirements for the Subdivision as depicted on the Plat, in accordance with the specifications and within the time set out therein, and maintain such roads and streets and the drainage requirements for a period of not less than one (1) year following the completion thereof.

It is further stipulated and understood that the approval of the Plat of the above-named Subdivision is conditioned upon and subject to the strict compliance by the PRINCIPAL herein with the Development Regulations, and that the terms of the Development Regulations, including all deletions, additions, changes, or modifications of any kind or character, constitute a contract between the County of Montgomery and PRINCIPAL; and it is understood by the PRINCIPAL that the approval of said Plat of the above Subdivision(s) was obtained only by the undertaking of the PRINCIPAL to so comply with the said Development Regulations and specifications, and that without such undertaking such approval would have not been granted.

NOW THE CONDITION OF THIS OBLIGATION IS SUCH, that if the above bonded PRINCIPAL, his, their, or its heirs, executors, administrators, successors, assigns, and legal representatives, and each and every one of them to do in all things well and truly observe, perform, fulfill, keep and comply with, all and singular, the Development Regulations and all other rules, regulations, requirements, and specifications above referred to, including any deletions, additions, changes, or modifications of any kind or character, in the construction and maintenance of all roads and streets in and the drainage requirements for the above-named Subdivision, and that upon approval of the construction of said roads and streets and the drainage requirements by the County Engineer or Inspector and Initial Acceptance (as described in the Development Regulations) by Commissioners Court, the amount held under this bond shall automatically be reduced to Five Hundred Forty Two Thousand Five Hundred and 00/100 U.S. DOLLARS ($ 542,500.00) and upon the expiration of one (1) year thereafter, the time required for proper maintenance by the above bonded PRINCIPAL thereof, and the approval of such maintenance by the County Engineer or Inspector and Final Acceptance (as described in the Development Regulations) by the Commissioners Court, then this obligation is to be void and of no force and effect.

The PRINCIPAL and the SURETY hereon each agrees, binds, and obligates itself and themselves to pay to the County Judge of Montgomery County, State of Texas, for the use and benefit of Montgomery County, an amount, not to exceed the then principal sum of this bond, adequate for Montgomery County to undertake any construction or other activity necessary to bring about compliance with each and every provision contained in the rules, regulations, requirements, and specifications above referred to relating to the construction of the roads and streets in and the drainage requirements for the above named Subdivision, and further agree, bind and obligate themselves to save and keep harmless the County of Montgomery from any and all damages, expenses, and claims of every kind and character which the County of Montgomery may suffer, directly or indirectly, as a result of the PRINCIPAL'S failure to comply with the rules, regulations, and specifications relating to the construction and maintenance of the roads, streets, and drainage requirements in the above named Subdivision.

The word *PRINCIPAL* when used herein means PRINCIPAL or PRINCIPALS, whether an individual, individuals, partnership, corporation, or other legal entity having the capacity to contract. The words *ROADS* or *STREETS* as used herein mean each and every road or street in said Subdivision according to the Plat. The words *DRAINAGE REQUIREMENTS* as used herein mean each and every improvement necessary for the proper drainage of the Subdivision, including but not limited to ditches, detention ponds, drainage channels, swales, and drainage easements, as depicted on the drainage plans approved and signed by the Montgomery County Engineer. The word *MAINTENANCE* as used herein means all needful, necessary, and proper care and repair by the PRINCIPAL for a period of at least one (1) year from the completion of the roads and streets in and the drainage requirements for the Subdivision and the approval thereof by the County Engineer or Inspector.

This Bond Without Surety is secured with Letter of Credit No. 68208393 from Bank of America N.A..

EXECUTED this 8th day of April, 2026.

CLARK SURVEY, ABSTRACT 732, MONTGOMERY COUNTY, TEXAS, AND ON BEHALF OF SAID ARTAVIA DEVELOPMENT COMPANY, A TEXAS CORPORATION; AND DEDICATE TO PUBLIC USE, AS SUCH, THE STREETS, ALLEYS, PARKS, AND EASEMENTS SHOWN THEREON FOREVER; AND DO HEREBY WAIVE ANY CLAIMS FOR DAMAGES OCCASIONED BY THE ESTABLISHING OF GRADES AS APPROVED FOR THE STREETS AND ALLEYS DEDICATED, OR OCCASIONED BY THE ALTERATION OF THE SURFACE OF ANY PORTION OF STREETS OR ALLEYS TO CONFORM TO SUCH GRADES; AND DO HEREBY BIND OURSELVES, OUR SUCCESSORS AND ASSIGNS TO WARRANT AND FOREVER DEFEND THE TITLE TO THE LAND SO DEDICATED.

THIS IS TO CERTIFY THAT WE, TYLER STONE AND E. TRAVIS STONE, JR., VICE PRESIDENT OF LAND DEVELOPMENT AND PRESIDENT, RESPECTIVELY OF ARTAVIA DEVELOPMENT COMPANY, A TEXAS CORPORATION, OWNER OF THE PROPERTY SUBDIVIDED IN THE ABOVE AND FOREGOING MAP OF ARTAVIA® SECTION 40, HAVE COMPLIED WITH OR WILL COMPLY WITH ALL REGULATIONS HERETOFORE ON FILE WITH THE MONTGOMERY COUNTY ENGINEER AND ADOPTED BY THE COMMISSIONERS' COURT OF MONTGOMERY COUNTY, TEXAS.

FURTHER, ARTAVIA DEVELOPMENT COMPANY, A TEXAS CORPORATION, DOES HEREBY DEDICATE FOREVER TO THE PUBLIC A STRIP OF LAND A MINIMUM OF FIFTEEN (15) FEET WIDE ON EACH SIDE OF THE CENTER LINE OF ANY AND ALL GULLIES, RAVINES, DRAWS, SLOUGHS OR OTHER NATURAL DRAINAGE COURSES LOCATED IN THE SAID SUBDIVISION, AS EASEMENTS FOR DRAINAGE PURPOSES, GIVING MONTGOMERY COUNTY AND/OR ANY OTHER PUBLIC AGENCY THE RIGHT TO ENTER UPON SAID EASEMENT AT ANY AND ALL TIMES FOR THE PURPOSE OF CONSTRUCTING AND/OR MAINTAINING DRAINAGE WORK AND/OR STRUCTURES.

FURTHER, ALL OF THE PROPERTY SUBDIVIDED IN THE ABOVE AND FOREGOING MAP SHALL BE RESTRICTED IN ITS USE, WHICH RESTRICTIONS SHALL RUN WITH THE TITLE OF THE PROPERTY, AND SHALL BE ENFORCEABLE, AT THE OPTION OF MONTGOMERY COUNTY, BY MONTGOMERY COUNTY OR ANY CITIZEN THEREOF, BY INJUNCTION, AS FOLLOWS:

1. THE DRAINAGE OF SEPTIC TANKS INTO ROAD, STREET, ALLEY, OR OTHER PUBLIC DITCHES, EITHER DIRECTLY OR INDIRECTLY, IS STRICTLY PROHIBITED.

2. DRAINAGE STRUCTURES UNDER PRIVATE DRIVEWAYS SHALL HAVE A NET DRAINAGE OPENING AREA OF SUFFICIENT SIZE TO PERMIT THE FREE FLOW OF WATER WITHOUT BACKWATER, AND SHALL BE A MINIMUM OF ONE AND THREE QUARTERS (1-3/4) SQUARE FEET (18" DIAMETER PIPE CULVERT).

FURTHER, WE DO HEREBY DECLARE THAT ALL PARCELS OF LAND DESIGNATED AS LOTS ON THIS PLAT ARE ORIGINALLY INTENDED FOR THE CONSTRUCTION OF RESIDENTIAL DWELLING UNITS THEREON AND SHALL BE RESTRICTED FOR THE SAME UNDER THE TERMS AND CONDITIONS OF SUCH RESTRICTIONS FILED SEPARATELY, UNLESS OTHERWISE NOTED.

STORM SEWERS LOCATED IN THE DEDICATED STREET RIGHT-OF-WAY ARE NOT MAINTAINED BY MONTGOMERY COUNTY. THE STORM SEWERS IN THE SUBDIVISION WILL BE MAINTAINED BY MONTGOMERY COUNTY MUNICIPAL UTILITY DISTRICT NO. 158, IT'S SUCCESSORS AND ASSIGNS, PURSUANT TO AN AGREEMENT BETWEEN ARTAVIA DEVELOPMENT COMPANY AND MONTGOMERY COUNTY MUNICIPAL UTILITY DISTRICT NO. 158.

IN TESTIMONY WHEREOF, THE ARTAVIA DEVELOPMENT COMPANY, A TEXAS CORPORATION, HAS CAUSED THESE PRESENTS TO BE SIGNED BY TYLER STONE, ITS VICE PRESIDENT OF LAND DEVELOPMENT, THEREUNTO AUTHORIZED, ATTESTED BY ITS PRESIDENT, E. TRAVIS STONE, JR., AND ITS COMMON SEAL HEREUNTO AFFIXED THIS 15th DAY OF June, 2026.

ARTAVIA DEVELOPMENT COMPANY,
A TEXAS CORPORATION

NOTES:

1. BEARINGS AND COORDINATES SHOWN HEREON ARE BASED ON THE TEXAS COORDINATE SYSTEM, CENTRAL ZONE, NAD83 (NA2011) EPOCH 2010.00, STATE PLANE GRID COORDINATES (NAD83) MAY BE BROUGHT TO SURFACE BY DIVIDING THE GRID COORDINATE BY 0.9999764561.

2. THE FOLLOWING RESTRICTIONS SHALL PERTAIN TO ANY DRAINAGE EASEMENT CONTAINED WITHIN THE BOUNDARIES OF THIS PLAT.

   2.a. PROHIBITS ALL PROPERTIES ABUTTING THE EASEMENT FROM THE CONSTRUCTION OF FENCES OR BUILDINGS, WHETHER TEMPORARY OR PERMANENT, AND THE INSTALLATION OR MAINTENANCE OF PLANTING OR OTHER OBSTRUCTIONS TO THE OPERATION AND MAINTENANCE OF THE DRAINAGE FACILITY WITHIN THE DRAINAGE EASEMENT.

   2.b. PROHIBITS ANY PROPERTY ABUTTING THE DRAINAGE EASEMENT FROM DRAINAGE DIRECTLY INTO THE DRAINAGE EASEMENT EXCEPT BY MEANS OF A DRAINAGE STRUCTURE APPROVED BY THE DIRECTOR OF PUBLIC WORKS AND ENGINEERING OR THE AUTHORIZED PUBLIC DRAINAGE OR FLOOD CONTROL OFFICIAL.

3. FIVE EIGHTHS INCH (5/8") IRON RODS THREE FEET (3') IN LENGTH WITH A PLASTIC CAP MARKED "LJA SURVEY" ARE SET ON ALL PERIMETER BOUNDARY CORNERS. LOT, BLOCK, AND RESERVE CORNERS WILL BE SET UPON COMPLETION OF ROAD CONSTRUCTION AND PRIOR TO LOT CONSTRUCTION, UNLESS OTHERWISE NOTED.

4. BY GRAPHIC PLOTTING ONLY, THE SUBJECT TRACT LIES WITHIN ZONE "X" (UNSHADED) AS SHOWN ON THE FEDERAL EMERGENCY MANAGEMENT AGENCY (FEMA) FLOOD INSURANCE RATE MAP (FIRM) MAP NO. 48339C0575G, MAP REVISED AUGUST 18, 2014. LJA DOES NOT WARRANT NOR SUBSCRIBE TO THE ACCURACY OR SCALE OF SAID MAPS.

5. BENCHMARK: MONTGOMERY COUNTY LIDAR GROUND CONTROL POINT RM 548: A PK NAIL IN THE PAVEMENT AT THE SOUTHEAST CORNER OF THE INTERSECTION OF CALHOUN ROAD AND EAST DRIVE.

   ELEVATION = 139.49 FEET NAVD88 (GEOID2003)

6. ALL LOTS AND RESERVES SHALL HAVE A MINIMUM 5-FOOT SIDE AND REAR BUILDING LINE IN ACCORDANCE WITH MONTGOMERY COUNTY REGULATIONS.

7. THIS TRACT IS SUBJECT TO CERTAIN SURFACE USE WAIVER AND DRILL SITE AGREEMENT AS GRANTED IN CLERK'S FILE NO. 2009-057115 AND DOCUMENT NO. 2014117668, 2015018855, 2015018856, OF THE OFFICIAL PUBLIC RECORDS, MONTGOMERY COUNTY, TEXAS. THERE IS NO DRILL SITE WITHIN THIS TRACT.

8. THIS TRACT IS SUBJECT TO CERTAIN WAIVER OF SURFACE RIGHTS AS GRANTED IN DOCUMENT NO. 2023013310, 2023013313, 2023013314, AND 2023107779 OF THE OFFICIAL PUBLIC RECORDS, MONTGOMERY COUNTY, TEXAS.

9. THIS TRACT IS SUBJECT TO STRATEGIC PARTNERSHIP AGREEMENT RIGHTS AS GRANTED IN DOCUMENT NO. 2024123323 OF THE OFFICIAL PUBLIC RECORDS, MONTGOMERY COUNTY, TEXAS.

10. APPLICATION FOR PLAT APPROVAL

(Note: Plat applications will only be accepted for consideration every Wednesday between 8:00 AM and 4:00 PM. Incomplete applications and those submitted outside of the normal acceptance day will be returned to the Applicant for resubmittal on the next available date.)

Plat Name Timbers Edge Commercial Reserves
(Complete subdivision name, section and replat number if applicable)

For Street Dedication Plat, list name of associated subdivision _____

Court Action Requested

✔ Final _____ Amending _____ Replat _____ Partial Replat

Plat Location

Survey Name(s) and Abstract Number(s):
Walker County School Land Survey, A-494

Geographic Location (Major Street):
North of 242 East of Kropik RD
South of 2090 West of HWY 69

School District Splendora ISD Commissioner Precinct No. 4

Plat Data

Plat Type: (Check appropriate box at each description)
_____ Commercial _____ Residential _____ Street Dedication Plat
✔ Other (explain) Reserve

New Development Proposed		For Replat Only Existing	Proposed
7.611	Total No. of Acres		
2	Blocks		
0	Lots		
7.611	Acres in Right of Way in a Street Dedication Plat		

Montgomery County
Engineering Department

501 N. Thompson, Suite 103
Conroe, TX 77301
936-539-7833

Planned Improvements

(Check the boxes that apply)

Streets: ✔ Public ____ Private

Storm System: ✔ Storm Sewer ____ Open Ditch ____ Combination

Sanitary System (Check the one that applies):

✔ Sanitary Sewer System

Provider Name, Address and Phone No.

East Montgomery County M.U.D. No. 13A

____ On-Site Sewage Facilities (30 TAC Chapter 285 Section 285.4)
(Attach approval letter from the Montgomery County Environmental Health Services)

Water System (Check the one that applies):

✔ Public Water System

Provider Name, Address and Phone No.

East Montgomery County M.U.D. No. 13A

____ Individual wells on each lot

Other Items Required

Plat Application Fee:

✔ Attach check made payable to Montgomery County. (The fee is calculated as per the following: $500 Base Fee + $30 per Lot + $30 per Acre in Reserve.
For Street Dedication Plat: $500 Base Fee + $50 per Acre of Right of Way) ***IN ACCORDANCE WITH THE LAW, PLATS MUST BE RECORDED WITH THE COUNTY CLERK AFTER COMMISSIONERS COURT APPROVAL. RECORDING FEES WILL BE COLLECTED SEPARATELY BY THE COUNTY CLERK.**

Subdivision Development Permit Fee: (applicable to projects approved under previous regulations)

____ Attach separate check made payable to Montgomery County. (The fee is calculated as per the following: $1000 Base Fee + $20 per Lot)
*Approval of plat in Commissioners Court serves as permit.

Montgomery County
Engineering Department

501 N. Thompson, Suite 103
Conroe, TX 77301
936-539-7833

Mylars:

✔ Attach 20" x 24" original signed mylar(s). (One for Montgomery County + one if the City of Houston will require an original + one if the owner wants an original back) If in an ETJ of a municipality, the mylars must be signed by the city. (Local Government Code 232.101, Montgomery County Subdivision Rules and Regulations)

Paper Copies:

✔ Attach two complete paper copies of the plat. (Local Government Code 232.101, Montgomery County Subdivision Rules and Regulations)

911 Address Map:

✔ Attach address map approved by the Montgomery County Emergency Communications District (Health and Safety Code, Title 9, Subtitle B, Chapter 272)

TxDOT Approval:

_____ Provide TxDOT approval for access connection. (For subdivisions proposing new or modified street connections to TxDOT right of way or for lots with driveways fronting TxDOT right of way. Preliminary approval from TxDOT of the access locations will be acceptable.) (43 TAC Part 1, Chapter 11, Subchapter C)

Bond:

_____ Bond with Surety (Local Government Code 232.004)
(Attach executed Bond with Surety Form)

_____ Letter of Credit (Local Government Code 232.0045)
(Attach executed Letter of Credit and Bond without Surety Form)

_____ Other Financial Guarantee (Local Government Code 232.0045)
(Attach approval from Montgomery County Attorney and include Bond without Surety Form)

Original Tax Certificate:

✔ Attach original tax certificate showing all taxes paid. (Property Code Section 12.002)

Title Report:

✔ Attach City Planning Letter or Title Report issued within 30 days of the plat application. (Local Government Code Section 232.101, Montgomery County Subdivision Rules and Regulations.)

Montgomery County
Engineering Department

501 N. Thompson, Suite 103
Conroe, TX 77301
936-539-7833

Metes and Bounds:

✔ Attach metes and bounds description of the plat boundary signed and sealed by a Registered Professional Land Surveyor. (Local Government Code Chapter 232.001)

Construction Plans:

____ Attach a complete set of construction plans approved by the County Engineer and the Fire Marshal. (Local Government Code Section 232.101, Local Government Code Section 232.061, Montgomery County Subdivision Rules and Regulations)

ENGINEERING

STATE OF TEXAS §

COUNTY OF MONTGOMERY §

The undersigned (hereinafter "Owner" whether one or more), Lennar Homes of Texas Land and Construction, Ltd., a Texas limited partnership, d/b/a Friendswood Development Company, acting by and through Michael W. Johnson, Vice President, being an officer of U.S. Home, LLC, a Delaware limited liability company, (as successor–in–interest by conversion from U.S. Home Corporation, a Delaware corporation), General Partner of Lennar Homes of Texas Land and Construction, Ltd., a Texas limited partnership, d/b/a Friendswood Development Company, its General Partner, owner of the property subdivided in the above and foregoing map of TIMBERS EDGE COMMERCIAL RESERVES, do hereby make subdivision of said property according to the lines, streets, lots, alleys, parks, building lines, and easements thereon shown, and designate said subdivision as TIMBERS EDGE COMMERCIAL RESERVES, located in the WALKER COUNTY SCHOOL LAND SURVEY, ABSTRACT No. 494, MONTGOMERY COUNTY, TEXAS, and on behalf of said Lennar Homes of Texas Land and Construction, Ltd., a Texas limited partnership, d/b/a Friendswood Development Company, dedicate to public use, as such, the streets, alleys, parks, and easements shown thereon forever; and do hereby waive any claims for damages occasioned by the establishing of grades as approved for the streets and alleys dedicated, or occasioned by the alteration of the surface of any portion of streets or alleys to conform to such grades; and do hereby bind ourselves, our successors and assigns to warrant and forever defend the title to the land so dedicated.

This is to certify that Owner has complied or will comply with all Development Regulations and other regulations heretofore on file with the Montgomery County Engineer and adopted by the Commissioners Court of Montgomery County, Texas.

Storm Sewers located in dedicated street right–of–way are not maintained by Montgomery County. The Storm Sewers in the subdivision will be maintained by East Montgomery County MUD 13A, its successors and assigns.

FURTHER, Owner does hereby dedicate forever to the public a strip of land a minimum of fifteen (15) feet wide on each side of the center line of any and all gullies, ravines, draws, sloughs, or other natural drainage coursed located in the said subdivision, as easements for drainage purposes, giving Montgomery County and/or any other public agency the right to enter upon said easements at any and all times for the purposes of constructing and/or maintaining drainage work and/or structures.

FURTHER, all of the property subdivided in the above and foregoing map shall be restricted in its use, which restrictions shall run with the title to the property, and shall be enforceable, at the option of Montgomery County, by Montgomery County or any citizen thereof, by injunction, as follows:

1. That drainage of septic tanks into road, street, alley, or other public ditches, either directly or indirectly, is strictly prohibited.
2. Drainage structures under private driveways shall have a net drainage opening area of sufficient size to permit the free flow of water without backwater, and shall be a minimum of one and three quarters (1–3/4) square feet (18" diameter pipe culvert).

FURTHER, Owner does hereby declare that all parcels of land designated as lots on this plat are originally intended for the construction of residential dwelling units thereon (or the placement of mobile home subdivision) and shall be restricted for same under the terms and conditions of such restrictions filed separately, unless otherwise noted.

IN TESTIMONY WHEREOF, Lennar Homes of Texas Land and Construction, Ltd., a Texas limited partnership, d/b/a Friendswood Development Company, has caused these presents to be signed by Michael W. Johnson, Vice President, being an officer of U.S. Home, LLC, a Delaware limited liability company, (as successor–in–interest by conversion from U.S. Home Corporation, a Delaware corporation), its General Partner as the act of Lennar Homes of Texas Land and Construction, Ltd., a Texas limited partnership, d/b/a Friendswood Development Company, thereunto authorized this 21st day of July, 2026

FINAL PLAT NOTES:

1. The following restrictions shall pertain to any drainage easement within the boundaries of this plat:
   1A: Prohibits all properties abutting the easement from the construction of fences or buildings whether temporary or permanent, and the installation or maintenance of planting or other obstructions to the operation and maintenance of the drainage facility within the drainage easement.
   1B: Prohibits all properties abutting the easement from draining directly into the drainage easement except by means of a drainage structure approved by the director of public works and engineering or the authorized public drainage or flood control official.
2. All easements are centered on lot lines unless shown otherwise.
3. All off-site utility easements to be dedicated by separate instrument prior to recordation.
4. The coordinates shown hereon are Texas Central Zone No. 4203 State Plane Grid Coordinates (NAD83) and may be brought to surface by applying the following combined scale factor of 1.00003.
5. Benchmark shown hereon are based on RM 150255: National Geodetic Survey Monument, designation Conport, PID No. BL2014 having published information as follows: Being a stainless steel rod inside a 1" PVC pipe encased in a 5" PVC pipe located at the Conroe-North Houston Regional Airport with an Elevation 234.56 Feet, NAVD 88 (1991 Adjustment)
6. Approximate limits of Floodplain per F.E.M.A. Community Panel Map No. 48339C0600G, Dated August 18, 2014, Montgomery County, Texas. This property is situated within: Unshaded Zone "X"; Defined as areas determined to be outside the 500-year Flood Plain.
7. That all corners and angle points of the boundary have been marked with iron rods having a diameter of not less than five eighths (5/8) inch and a length of not less than three (3) feet.
8. This subdivision is subject to the terms and conditions set forth in the Grant of Master Telecommunications Easement recorded under MCCF No. 2024094058 MCOPR.
9. This subdivision is subject to the terms and conditions set forth in the document recorded under MCCF No. 9050364 MCOPR.
10. Unless otherwise indicated, the building lines (BL), along the right-of-way are as shown on plat. In addition to the building lines shown, all reserves have a minimum 5' side and 10' rear setback unless otherwise noted.

Date: **12 August 2026**

To: **Montgomery County Commissioner's Court**

From: **Montgomery County Engineering Department**

Re: **Drainage Criteria Manual Proposed Changes 2026**

The items listed below represent a concise summary of updates proposed to the August 2025 Drainage Criteria Manual. The primary goals in revising the manual are, 1) address common errors found in drainage submittals, 2) provide additional clarity upon specific items, and 3) ensure county wide consistency for drainage designs.

Summary of Changes

Global Changes

1) Storm Event nomenclature changed throughout manual to % and year.

Changes to Table of Contents

1) Update to the Table of Contents
   a. Added Table of Equations, Table of Figures, and Table of Tables
2) Created Clickable Table of Contents
3) Added Table of Contents Tree

Changes to Section 1 – Introduction

1) Updated Section 1.4 Hydrologic and Hydraulic Modeling
   a. Added Sections 1.4.1 – 1.4.5
2) Updated Section 1.5 No Adverse Impact
   a. Modified Section 1.5.1 – 1.5.6
3) Added Section 1.7 Project Types, Reviews, and Approval
   a. Added Subsection 1.7.1

Changes to Section 2 – Hydrology

1) Section 2 Renamed Hydrology and Hydraulics from Hydrology
2) Updated Section 2.3 Peak Flow Determination
   a. Modified Table 2-5 and supporting remarks
3) Updated Section 2.3.1.3 Drainage Area
   a. Added Figure 2-1
4) Updated 2.3.2.2 Peak Rate Factor
   a. Added Figure 2-2 and supporting remarks
5) Added Section 2.3.3 FEMA Flood Insurance Study Data

   a. Added table 2-10 for Atlas14 correlation
   b. Added Section 2.3.4
6) Added Section 2.5 Tailwater
   a. Added Sections 2.5.1 – 2.5.7

Changes to Section 3 – Open Channels

1) Added Section 3.4.1 Channel Junctions
2) Added Section 3.5 HEC-RAS Modeling Best Practices

Changes to Section 4 – Culverts and Bridges

1) Added Section 4.3 HY-8 Modeling Best Practices

Changes to Section 5 – Storm Sewer

1) Added EPA-SWMM Modeling Best Practices

Changes to Section 6 – Detention

1) Updated 6.3.1 Standard Minimum Detention Storage Rate
   a. Added example scenarios
2) Updated Allowable Discharge
   a. Added much needed clarity with example scenarios.
   b. Added Figure 6-1
3) Updated 6.3.5 Outfall Diversion
   a. Added Figure 6-2
   b. Added example scenarios
4) Updated 6.3.7 Allowable Drain Time Requirements
   a. Modified and clarified with likely scenarios
   b. Added Equation 6-2
   c. Added example calculations
5) Added Table 6-3
6) Updated 6.3.9 Contributing DA > 20 Acres
   a. Modified to include design and check conditions
7) Added Section 6.4.2 Hydraulically Connected Detention Ponds
8) Updated 6.4.3 Extreme Event Overflow
9) Updated 6.5.2 Peak Flow Timing Control
   a. Modified and clarified with sample calculations

Changes to Section 7 – Floodplain Mitigation

1) Added Section 7.3 Pre-Atlas14 and Post-Atlas14 Correlation
2) Added Section 7.4 Base Level Engineering
   a. Added Figures 7-1 – 7-4

Changes to Section 8 – Deliverable Requirements

1) Updated Section 8.2 Drainage Submittals
2) Added Section 8.3 Drainage Submittals with Multiple Agencies
3) Updated Section 8.4 Drainage Report Outline

Changes to Section 9 – Definitions

1) Added various terms in Section 9 Definitions

Changes to Section 10 – Attachments

1) Updated Attachments for clarity

Should you have any questions or comments, please feel free to reach out at any time and we will provide clarity and/or explanation for any of the above-mentioned changes.

DRAINAGE CRITERIA MANUAL

RELATING TO THE APPROVAL AND ACCEPTANCE

OF IMPROVEMENTS IN SUBDIVISIONS

OR RE-SUBDIVISIONS

A. AUTHORITY

THE STATE OF TEXAS §

COUNTY OF MONTGOMERY §

On this, the ??th day of MMMM, 2026, at a regular meeting of the Commissioners Court, sitting as the governing body of Montgomery County, came on to be considered the necessity of adopting drainage criteria providing for the supervision of the development of new subdivisions, re-subdivisions and other developments in Montgomery County, Texas, outside the legal limits of any incorporated city or town in Montgomery County in accordance with Chapter 232, Texas Local Government Code.

After a public hearing, the Court was of the opinion that there exists a necessity for establishing such drainage criteria and that these drainage criteria will replace and supersede all existing drainage criteria heretofore passed by Commissioners Court;

Upon due consideration, the Court was of the opinion that there exists a need for amending and establishing the Montgomery County Drainage Criteria Manual to supplement the Montgomery County Development Regulations previously adopted by the Commissioners Court.

NOW, THEREFORE, by and under the authority vested in the Commissioners Court, upon the motion of Commissioner _____ seconded by Commissioner _____ , duly put and carried, it is ordered, adjudged and decreed that the following drainage criteria relating to the supervision of new subdivisions or re-subdivisions and other developments in Montgomery County (Montgomery County Drainage Criteria Manual) are hereby adopted as conditions precedent to the approval, by the Commissioners Court, of plats or subdivisions or re-subdivisions for recording and shall be in full force and effect from MMMM ??, 2026 to wit:

1. Whenever the Court, in its judgment, deems it to be in the best interest of the public to change any part of the Montgomery County Drainage Criteria Manual, public notice of said changes will be published in a newspaper of general circulation in the County at least sixteen days (16) in advance of formal consideration by the Court.
2. This Montgomery County Drainage Criteria Manual, and any and all future additions thereto and changes thereof, will be binding on all new subdivisions, re-subdivisions and other developments in Montgomery County. All persons subdividing or developing real property in the applicable areas must comply with this Drainage Criteria Manual before approval or acceptance of the streets, roads, storm sewers, drainage ditches and drainage easements of a subdivision or re-subdivisions and other developments.

DRAFT - INTERNAL REVIEW ONLY

B. EFFECTIVE DATE

Whereas an emergency is apparent for the immediate preservation of good order, good government and the general public safety and welfare, these drainage criteria will become effective and applicable immediately upon their passage and it is accordingly so ordained.

These drainage criteria will become effective upon adoption by the Commissioners Court of Montgomery County, Texas.

Passed and adopted by the Commissioners Court of the County of Montgomery, Texas, on the ??th day of MMMM, 2026.

EFFECTIVE DATE: _____, 2026

I, the undersigned, County Clerk of Montgomery County, Texas, do hereby certify that the above and foregoing is a true and correct copy of the Montgomery County Subdivision Guidelines and Recommendations duly adopted by the Montgomery County Commissioners Court, at a Regular Meeting duly convened on _____, 2026.

SIGNED AND SEALED on the ____day of _____, 2026.

DRAFT - INTERNAL REVIEW ONLY

SECTION 1 – INTRODUCTION

1.1 PURPOSE

The purpose of this drainage manual is to establish standards and practices for the design and construction of drainage systems within Montgomery County. The design factors, formulas, graphs, and procedures are intended for use as minimum engineering requirements in the solution of drainage problems involving determination of the quantity, rate of flow, extents of inundation, method of collection, storage, and conveyance of storm water. In those areas currently regulated in conjunction with another jurisdiction, it is the policy of Montgomery County that the most stringent requirements take precedence.

1.2 LIMITATIONS AND DISCLAIMER OF LIABILITY

This manual is intended to provide criteria for the most commonly encountered drainage and flood control designs in Montgomery County. The manual was written for users with knowledge and experience in the applications of standard engineering principles and practices of stormwater design and management. There will be situations not covered by this manual that merit variations to the criteria specified in this manual. Other methods of design or exceptions to criteria may be permissible provided the variation is approved by the County Engineer. Close coordination with the Engineering Department is recommended during the planning, design, and construction of all drainage and flood control systems and facilities.

The minimum degree of flood protection required by these policies and associated design criteria is considered reasonable for approving work within the County's jurisdiction and is based on scientific and engineering considerations. On occasion, floods greater than the design storms may occur resulting in flood heights higher than predicted by the drainage analysis. These policies and design criteria do not imply that any area or the work within an area will be free from flooding or flood damage.

The policies and design criteria in this manual shall not create liability on the part of the County Engineer, Montgomery County, or any officer or employee thereof for any flood damages, property damage, or personal injury that results from reliance on these policies or any administrative decision lawfully made.

Any and all engineering construction drawings, drainage reports, geotechnical reports, and all other engineering documents, submitted in accordance with this manual and the Development Regulations, shall bear the signature and seal of a Licensed Professional Engineer, licensed to practice in the State of Texas, and thus will convey the licensed engineer's responsibility and accountability.

1.3 DRAINAGE POLICY

Properties can be impacted by overflow from diverted water, ponding due to impounding, or more frequent overflow events occurring. A primary objective of this criteria manual is

DRAFT – INTERNAL REVIEW ONLY

that no person, corporation, or governmental entity diverts or impounds the natural flow of surface waters in a manner that damages another property. Absolute caution shall be exercised to protect and safeguard the downstream reaches of each drainage area by the diversion and/or modification of waters by any person or entity upstream as mandated by the Texas Commission on Environmental Quality (TCEQ) and the Texas Water Code.

It is a further objective of the County to review construction and maintenance plans of facilities that are intended to minimize the threat of flooding to all areas of the County and to comply with the requirements of the National Flood Insurance Program. It is Montgomery County's goal to prevent additional flooding to existing property so as not to increase the limits of the floodplains as shown on the effective flood insurance rate maps for Montgomery County, or best available data when available.

This manual lists the minimum requirements for drainage improvements in Montgomery County. The County Engineer may impose additional requirements not explicitly stated in the manual in order to protect the life, health, and property, and promote the welfare of the public.

1.4 HYDROLOGIC AND HYDRAULIC MODELING

Hydrologic and hydraulic (H&H) modeling uses computer simulations to study how water moves and behaves in natural and man-made systems, predicting runoff, flood levels, and flow dynamics in watersheds, rivers, and drainage networks. It combines hydrology (water cycle, rainfall, runoff) and hydraulics (flow in channels, pipes) to help engineers design infrastructure (like bridges, culverts, stormwater systems), manage flood risk, plan water resources, and assess environmental impacts.

1.4.1 PRIMARY MODELING SOFTWARE

Montgomery County allows the following nonproprietary hydrologic and hydraulic software for any submittal that requires hydrologic and hydraulic modeling:

1. Hydrologic Modeling System (HEC-HMS)
2. River Analysis System (HEC-RAS)
3. Storm Water Management Model (EPA-SWMM)

1.4.2 PROPRIETARY MODELING SOFTWARE

Proprietary hydrologic and hydraulic software is typically not allowed, examples include, but are not limited to:

1. XPSWMM/XPSTORM
2. Bentley and AutoCAD Products
3. HydroCAD, FLOW-2D, etc.

1.4.3 ADVANCED MODELING

DRAFT – INTERNAL REVIEW ONLY

Advanced 2D modeling using unsteady HEC-RAS is acceptable when the project needs are met by a 2D model, otherwise traditional 1D steady flow is expected on most drainage projects in the county, furthermore, county approval in writing is required for any advanced 2D modeling efforts. Get county approval as early as possible to ensure no delays.

1.4.4 SPREADSHEET CALCULATIONS

Spreadsheet software, such as Excel, is necessary for engineering calculations supporting hydrology and hydraulics but is not to replace actual H&H modeling software.

1. Microsoft Excel – hydrology and storm sewer calculations, etc.

1.4.5 SECONDARY (OR CHECK) ANALYSIS

Additionally, Montgomery County allows the following nonproprietary hydrologic and hydraulic software for secondary (or check) calculations (not used for sizing detention, culverts, bridges, etc. all of which require primary H&H modeling software, 1.4.1), include, but are not limited to the following:

1. Hydraulic Toolbox – H&H calculators
2. TR-55/TR-20 – SCS Curve Number calculator, detention, etc.
3. HY-8 – simplified/basic culvert hydraulics
4. Any proprietary hydrologic and hydraulic software.

A secondary or check calculation is an independent verification of a primary calculation, used to catch errors by re-running the process with different methods or software to ensure accuracy and safety before final delivery. It acts as a crucial quality check, ensuring the original plan or numbers are correct and reliable, preventing major mistakes. This will not necessarily be reviewed by Montgomery County but will be a part of an engineering firm's internal QA/QC process.

1.5 NO ADVERSE IMPACT (NAI)

No adverse impact is the principle that the actions of one property owner should not be allowed to adversely affect the rights of other members of the community. The adverse effects or impacts of unwise development decisions can be measured by increased flood levels, higher flood velocities, increased erosion and sedimentation, deterioration of natural floodplain functions, increased risks for emergency response personnel, higher infrastructure maintenance costs, or other measurable adverse impacts to a community's well-being. This approach protects the rights of neighboring property owners and also protects the natural systems that provide flood mitigation benefits to the community.

For all drainage projects located within Montgomery County, the following criteria must be met in order for drainage approval:

DRAFT – INTERNAL REVIEW ONLY

1.5.1 PROJECT CONDITIONS

Project Conditions: Pre-Project (Existing) Conditions, Post-Project Undetained (Developed or Proposed without Detention) Conditions, Post-Project Detained (Developed or Proposed with Detention) Conditions, Phase-3A, Section-4, Alternative-B, etc.

Pre-Project (Existing) Conditions: the condition before any development; not the initial phase (or section) of a multi-phase (or section) project.

SPECIAL PROJECTS:

1. For **Sand Mining Projects**, the following are required: pre-project conditions, active-project conditions (i.e., active mining operations), and post-project conditions. The active-project conditions are the site conditions when the sand mining activities are ongoing.

2. For **Multiple-Phase Projects**, the following are required: pre-project conditions, phase-1, …, phase-N, post-project conditions. "N" represents the total number of phases (e.g., N=3 means there are three phases proposed).

1.5.2 PEAK FLOW

Peak Flow (cfs): No increase to flow leaving the project. This is determined by the following equation:

Equation 1-1 Peak Flow Impact Assessment

Post-Project Detained Q – Pre-Project Q ≤ 0 (zero) cfs

1.5.3 WATER SURFACE

Water Surface (ft): No increase to the water surface (and associated depth) either upstream or downstream of the project as this would result in flooding of the neighboring properties. This is determined by the following equation:

Equation 1-2 Water Surface Impact Assessment

Post-Project WSEL – Pre-Project WSEL ≤ 0 (zero) ft

1.5.4 VELOCITY

Velocity (ft/s): No increase to the velocity so as to cause scour in and around the project site especially at hydraulic structures like culverts, bridges, driveways, etc. Similarly, a decrease in the velocity can cause aggradation of suspended sediment and result in clogging of drainage infrastructure such as storm sewer pipes and culverts.

1.5.5 FLOW TYPE

DRAFT – INTERNAL REVIEW ONLY

Flow Type: Flow conditions (e.g., sheet flow, shallow concentrated, and channel flow) shall be maintained on and off all projects so as to prevent scour and downstream flooding. For example, if water leaving the project is sheet flow in the pre-project conditions, then it must remain sheet flow in the post-project conditions.

1.5.6 NAI ASSESSMENT

The NAI assessment shall be evaluated at **ALL LOCATIONS** where water enters and leaves the project.

Where water enters the project, there is a potential for backwater flooding due to the presence of a new hydraulic structure (e.g., culvert, bridge, etc.) whereas, at the exit locations there is a potential to cause an increase to flow rate and/or velocity, potentially resulting in adversely impacting the downstream neighbors.

Assessment will always be post-project ("proposed") compared to pre-project ("existing").

1.6 DRAINAGE FACILITY MAINTENANCE

Montgomery County shall not be responsible for maintaining drainage facilities located outside of a dedicated right-of-way and does not maintain drainage infrastructure within the right-of-way other than accepted ditches and culverts, unless a specific legal agreement is in place. **The County does not maintain storm sewer systems or detention facilities**. The name and contact information of the parties responsible for maintaining storm sewers, open channels, and/or detention facilities must be shown on the construction plans. If a storm sewer system is not maintained by a Municipal Utility District or other public entity, an improvements agreement must be approved through Commissioners Court.

1.7 PROJECT TYPES, REVIEWS, AND APPROVAL

The county engineering department reviews several different types of drainage projects, including, but not limited to the following:

1. Commercial, Residential, and Mixed Developments
2. Floodplain, Roadway, Sand Mining, and other Special Projects
3. Both Public and Private Projects

The county typically reviews engineering designs, plans, reports, models, and calculations for a variety of drainage project types and applications. The review time will vary depending on project complexity and others outside contributing factors.

The county approves engineering submittals once it has been determined that the submittal meets the county's minimum drainage requirements. Either "**The project does meet the county minimum drainage criteria**" (resulting in a Letter of No

DRAFT – INTERNAL REVIEW ONLY

Objection) or "**The project <u>does not</u> meet the county minimum drainage criteria**" resulting in additional rounds of H&H regulatory reviews.

1.7.1 TYPICAL REVIEW CYCLE

A review cycle begins with an H&H submittal sent to the County Engineering Department and Ends when either a Letter of No Objection (LONO) or the start of the next review cycle. The example below constitutes a typical engineering review cycle.

1. INTAKE: Submittal #1 Received by County Engineering Department
2. IN-QUEUE: Submittal #1 In Queue
3. IN-REVIEW: Submittal #1 Reviewed by County Engineering Department
4. COMM. SENT: H&H Regulatory Review Comments #1 Sent to Design Engineer
5. RECEIVED: Submittal #2 Received by County Engineering Department
6. VERIFICATION: Submittal #2 Verification for Compliance
    a. PASS: The submittal does meet the county minimum drainage requirements.
        i. Letter of No Objection (LONO) Sent to Design Engineer
    b. FAIL: The submittal does not meet the county's minimum drainage requirements
        i. Next Review Cycle Begins

DRAFT - INTERNAL REVIEW ONLY

SECTION 2 – HYDROLOGY AND HYDRAULICS

2.1 GENERAL

The purpose of this section is to establish standard procedures and criteria for conducting hydrologic and hydraulic analyses within Montgomery County.

2.1.1 DESIGN FREQUENCY

All projects subject to the requirements of this manual, shall be designed to mitigate, and attenuate the runoff for the 20% (5-year), 10% (10-year), and 1% (100-year) Annual Recurrence Intervals (ARI). Table 2-1 below relates the ARI with the Annual Exceedance Probability (AEP).

Table 2-1 ARI and AEP

Annual Recurrence Interval	Annual Exceedance	
	Probability	Percentage
2-year	0.5	50%
5-year	**0.2**	**20%**
10-year	**0.1**	**10%**
25-year	0.04	4%
50-year	0.02	2%
100-year	**0.01**	**1%**
500-year	0.002	0.2%

The 2% (50-year) post-atlas14 storm event will be evaluated when a project interacts with a FEMA studied stream due to correlation.

2.1.2 DESIGN STORM RAINFALL

Design storm rainfall can be described in terms of frequency, duration, areal extent, and distribution of intensity with time.

Table 2-2 shows the NOAA Atlas 14 depth vs. duration data for a variety of storm Annual Recurrence Intervals, from the 50% (2-year) to the 0.2% (500-year) storm, that shall be used within Montgomery County.

Table 2-2 Point Rainfall Depths for Varying Durations and Frequencies

Duration	Rainfall Depth (in.)						
	50% (2-Year)	20% (5-Year)	10% (10-Year)	4% (25-Year)	2% (50-Year)	1% (100-Year)	0.2% (500-Year)
5-minute	0.57	**0.70**	**0.82**	0.98	1.10	**1.23**	1.54
10-minute	0.90	**1.12**	**1.31**	1.56	1.76	**1.96**	2.42
15-minute	1.14	**1.41**	**1.64**	1.95	2.19	**2.43**	3.04
30-minute	1.62	**2.00**	**2.31**	2.74	3.06	**3.39**	4.30
60-minute	2.14	**2.67**	**3.11**	3.71	4.16	**4.64**	6.05
2-hour	2.69	**3.44**	**4.11**	5.09	5.88	**6.76**	9.32

DRAFT - INTERNAL REVIEW ONLY

3-hour	3.02	**3.94**	**4.79**	6.06	7.14	**8.36**	11.9
6-hour	3.60	**4.79**	**5.94**	7.72	9.28	**11.10**	16.2
12-hour	4.19	**5.62**	**7.04**	9.26	11.30	**13.60**	20.1
24-hour	4.80	**6.48**	**8.17**	10.80	13.30	**16.10**	23.9

Source: NOAA Atlas 14, Vol 11, Version 2, Sept. 2018; Conroe Station (41-1956; Latitude: 30.3303°, Longitude: -95.4831°)

2.2 TIME OF CONCENTRATION (Tc)

The time of concentration is used to estimate the rainfall intensity for the Rational Method and the hydrograph lag time for the NRCS hydrograph method. Travel time is a function of length, velocity, and the land use for a particular watercourse. The flow path along which the longest duration of travel is likely to occur shall be identified. Typically, this is the path to the most hydraulically distant point; however, the flow path should be representative of the drainage area. Runoff may reach a peak prior to the time the entire drainage area is contributing if the area is irregularly shaped or if land use characteristics differ significantly within the area. These instances are notable when a drainage area is partially developed.

The time of concentration may differ from undeveloped to developed conditions. Times of concentration for undeveloped conditions are often greater than developed conditions due to improvements in the conveyance systems within the drainage area.

Land use and slopes shall be considered in the calculations for times of concentration. Change in land use and slope may warrant segmentation of the longest flow path for each of the specified flow conditions. Flow segments can be characterized by three different flow conditions: overland sheet flow, shallow concentrated flow, and channel or storm sewer conduit flow.

The total time of concentration for a drainage area is the sum of travel times for all flow segments along the hydraulically most distant flow path as shown in Equation 2-1.

Equation 2-1 Total Time of Concentration

$$T_c = \Sigma T_{ov} + \Sigma T_{sc} + \Sigma T_{ch}$$

Where,

T_c = Total time of concentration for the drainage area in minutes
ΣT_{ov} = Sum of times of concentration for Overland Sheet Flow;
ΣT_{sc} = Sum of times of concentration for Shallow Concentrated Flow;
ΣT_{ch} = Sum of times of concentration for Open Channel Flow;

The minimum time of concentration shall be 10 minutes.

2.2.1 NRCS TR-55 VELOCITY METHOD

DRAFT - INTERNAL REVIEW ONLY

Montgomery County requires the velocity method as the primary method for estimating the time of concentration. The velocity method of computing time of concentration is hydraulically sound and provides the opportunity to incorporate changes in individual flow segments if needed. The velocity method is the best method for calculating time of concentration for an urbanizing watershed or if hydraulic changes to the watercourse are being considered.

The velocity method assumes that time of concentration is the sum of the travel times for segments along the most hydraulically distance flow path, as shown in Equation 2-1.

2.2.1.1 TRAVEL TIME FOR OVERLAND SHEET FLOW, TOV

The travel time through a flow path segment that is characterized by overland flow (depth of flow is approximately 0.1 foot or less), T_{ov}, can be approximated by Equation 2-2:

Equation 2-2 Travel Time for Overland Flow

$$T_{ov} = \frac{0.42 * (n * L)^{0.8}}{\sqrt{P_2} * (S)^{0.4}}$$

Where,

T_{ov}	=	Travel time in the form of overland sheet flow in minutes;
n	=	Manning's coefficient for sheet flow; see Table 2-3;
L	=	Overland sheet flow distance in feet;
P_2	=	2-year, 24-hour rainfall in inches; 4.80 inches for Montgomery County
S	=	Slope of the travel path in feet per foot.

The maximum overland flow path distance shall not exceed 100 feet.

Table 2-3 Manning's "n" Values for Overland Sheet Flow

Land Cover Type	Roughness Coefficient
Smooth Surfaces (e.g., concrete, asphalt, gravel, or bare soil)	0.011
Fallow or Unused Agricultural Fields	0.05
Range or Grasslands (i.e., natural vegetation)	0.13
Cultivated Soils	0.17
Graded Lawns (e.g., parks or residential and commercial green space)	0.24
Undeveloped Woods	0.80

2.2.1.2 TRAVEL TIME FOR SHALLOW CONCENTRATED FLOW, TSC

Overland sheet flow becomes shallow concentrated flow collecting in swales, small rills, and gullies. Shallow concentrated flow is assumed not to have a well-defined channel and has flow depth of 0.1 to 0.5 feet. The travel time through a flow path segment that is characterized by shallow concentrated, T_{sc}, can be approximated by Equation 2-3:

DRAFT – INTERNAL REVIEW ONLY

Equation 2-3 Travel Time for Shallow Concentrated Flow

$$T_{sc} = \frac{D_F}{60 * V}$$

Where,

T_{sc} = Travel time in the form of shallow concentrated flow in minutes;
D_F = Flow distance in feet;
V = Average velocity of flow in feet per second.

The velocity term of Equation 2-3 can be determined using the following equations.

Equation 2-4 Paved Areas

$$V = 20.328 * \sqrt{S}$$

Equation 2-5 Grassed Waterway

$$V = 16.135 * \sqrt{S}$$

Equation 2-6 Nearly Bare Ground

$$V = 9.9650 * \sqrt{S}$$

Equation 2-7 Cultivated Straight Row Crops

$$V = 8.7620 * \sqrt{S}$$

Equation 2-8 Short Grass, Pasture, and Lawns

$$V = 6.9620 * \sqrt{S}$$

Equation 2-9 Woods

$$V = 2.5160 * \sqrt{S}$$

Where,

V = Average velocity of flow in feet per second;
S = Slope of the travel path in feet per foot.

2.2.1.3 TIME OF CONCENTRATION FOR CHANNEL FLOW, TCH

Channel flow occurs when shallow concentrated flow depths reach greater than 0.5 feet. Channels can be defined as natural streams, graded channels, street gutters, ditches, or storm sewers. Channels may also begin where surveyed cross-sectional information has

DRAFT - INTERNAL REVIEW ONLY

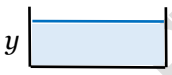
been obtained, where channels are visible on aerial photographs, or where bluelines (indicating streams) appear on U.S. Geologic Survey (USGS) quadrangle sheets.

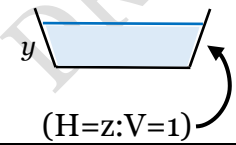
The velocity of flow through a defined uniform channel or a storm sewer closed conduit can be approximated by using Manning's Equation as shown in Equation 2-10. Average flow velocity is usually determined for the bankfull elevation.

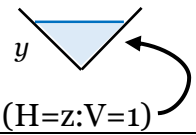
Equation 2-10 Manning's Equation for Velocity

$$V = \left(\frac{1.486}{n}\right) * \left(\frac{A}{WP}\right)^{2/3} * \sqrt{S}$$

Additionally, flow rate can be determined:

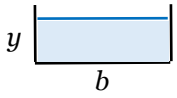






Equation 2-11 Manning's Equation for Flow

$$Q = \left(\frac{1.486}{n}\right) * \left(\frac{A^{5/3}}{WP^{2/3}}\right) * \sqrt{S}$$



Where,

V	=	Velocity in feet per second;
Q	=	Flow rate in cubic feet per second;
n	=	Manning's roughness coefficient, see Table 3-2;
A	=	Cross sectional area in square feet;
WP	=	Cross section wetted perimeter in feet;
S	=	Channel slope in feet per foot.

Table 2-4 Cross Section Geometry

Cross Section	Bottom Width (ft)	Top Width (ft)	Area (ft2)	Wetted Perimeter (ft)
Rectangular 	b	b	$b * y$	$\frac{b * y}{b + (2 * y)}$
Trapezoidal 	b	$b + (2 * z * y)$	$b + (2 * y)$	$b + 2 * y\sqrt{1 + z^2}$
Triangular 	0 (zero)	$2 * z * y$	$z * y^2$	$2 * y * \sqrt{1 + z^2}$

DRAFT - INTERNAL REVIEW ONLY

Wide Flat  (b >> y)	b	b	$b * y$	b

Where,
b = Base in feet
y = Water depth in feet
z = Side slope in feet, z (horizontal) : 1 (vertical)

The velocity term can then be used with Equation 2-12 to estimate the travel time for channel flow:

Equation 2-12 Travel Time for Channel Flow

$$T_{ch} = \frac{D_F}{(60 * V)}$$

Where,
T_{ch} = Channel flow time in minutes;
D_F = Flow distance in feet;
V = Average velocity of flow in feet per second.

2.3 PEAK FLOW DETERMINATION

The peak flow rate, also known as peak discharge, is the maximum volumetric flow rate of water passing a specific point in a stream, river, or drainage system during or following a precipitation event. Table 2-5 summarizes the acceptable hydrologic methods.

Table 2-5 Peak Flow Method Summary

Method	Applicability	Methodology	Section
1	Drainage Areas ≤ 200 acres	Rational Method or NRCS Hydrograph Method	***2.3.1*** ***2.3.2***
2	Drainage Areas > 200 acres	NRCS Hydrograph Method	***2.3.2***
3	Any FEMA Studied Stream	FEMA Flood Insurance Study (FIS) Data	***2.3.3***

Methods 1 and 2 are intended for projects which primarily drain through an unstudied FEMA stream where there are no published flows (cfs) via FEMA flood insurance studies (FIS) whereas method 3 is intended for any sized drainage area that drains through a studied FEMA stream where there are published flows (cfs) via FEMA FIS. When FEMA FIS flows are available, they are to be utilized for hydrologic and hydraulic design purposes.

DRAFT – INTERNAL REVIEW ONLY

The National Resource Conservation Service Hydrograph Method shall be used for analyses with drainage areas that are greater than 200 acres or any analyses that requires the routing of a flow hydrograph (e.g., the design of a detention pond, etc.).

Additional resources and background on the NRCS methodology and its parameters can be found in the *USDA NRCS National Engineering Handbook, Part 630, Chapters 10 and 15*.

2.3.1 RATIONAL METHOD

Method 1 – The Rational Method is applicable for the estimation of peak discharge for smaller drainage areas with no significant flood storage. This method provides the drainage engineer with a peak discharge in cubic feet per second, but does not provide time series of flow, nor flow volume. The Rational Method is based on a direct relationship between rainfall and runoff as expressed in Equation 2-13.

Equation 2-13 Rational Method

$$Q = C * i * A$$

Where,

Q	=	Peak runoff rate in cubic feet per second;
C	=	Runoff Coefficient, see Table 2-6;
i	=	Average rainfall intensity in inches per hour;
A	=	Area contributing to the point of interest in acres.

2.3.1.1 RATIONAL METHOD RUNOFF COEFFICIENT (C)

The runoff coefficient "C" in the Rational Method equation is based on a drainage area's land use type and relates directly to runoff. This parameter generally reflects characteristics of the drainage area's surface such as infiltration potential and natural runoff storage.

Table 2-6 presents runoff coefficient values for various land use types expected in Montgomery County. For land use types not explicitly designated in Table 2-6, a weighted coefficient shall be used. Weighted "C" values must be supported by calculations. See Equation ***2-14***.

Table 2-6 Typical Impervious Cover Percent and Runoff Coefficient Values for various Land Use Types

Land Use Type	Impervious (%)[4]	Runoff Coefficient
Undeveloped – Wooded/Forested	0	0.15
Cemeteries	0	0.15
Agricultural – Pastureland	0	0.15
Agricultural – Row Crops	0	0.30
Open Space – Lawns	0	0.20

DRAFT - INTERNAL REVIEW ONLY

Open Space – Parks/Green Space	10	0.25
Residential – ≥ 5 Acre[1]	5	0.20
Residential – 1 Acre[1]	22	0.35
Residential – 1/2 Acre[1]	38	0.45
Residential – 1/3 Acre[1]	45	0.50
Residential – 1/4 Acre[1]	50	0.55
Residential – ≤ 1/5 Acre[1]	60	0.60
Detention (Wet or Dry)[2]	85	0.75
Major Thoroughfares	90	0.80
Concrete, Asphalt, Gravel, Road Base Material and Roofs	100	0.85
Permeable Pavement System	varies	varies[3]

[1]Local streets are included in the impervious % and runoff coefficient values for residential land use types.
[2]Based on design and proper construction.
[3]Based on manufacturer's specification and proper installation.
[4]Impervious % not directly input into HEC-HMS unless directly connected to outlet.

Equation 2-14 Weighted Runoff Coefficient

$$C_w = \frac{(C_1A_1 + C_2A_2 + \cdots C_nA_n)}{\Sigma A}$$

Where,
C_w = Weighted Runoff Coefficient;
C_n = Runoff Coefficient for specified area;
A_n = Area corresponding to specific Runoff Coefficient.

2.3.1.2 RAINFALL INTENSITY (i)

Rainfall Intensity (i) is the average rainfall rate in inches per hour for a drainage area and is selected based on the design rainfall duration and the design frequency of occurrence. The rainfall duration shall be assumed to be equal to the critical time of concentration (T_c) for all portions of the drainage area contributing flow to the point of interest. The frequency of occurrence is a statistical variable (e.g., 20% (5-year), 1% (100-year), etc.) which is established by this criterion based on the drainage infrastructure being analyzed or otherwise chosen by the engineer.

A direct method for estimating rainfall intensity is through Equation 2-15, provided below, which is based on the time of concentration.

Equation 2-15 Rainfall Intensity

$$i = \frac{b}{(T_c + d)^e}$$

DRAFT – INTERNAL REVIEW ONLY

Where,

i = Rainfall intensity in inches per hour;

T_C = Total time of concentration for the drainage area in minutes (see ***Section 2.2*** for guidance in calculating time of concentration);

e, b, d = Intensity-duration-frequency coefficients based on the frequency of occurrence (Table 2-7).

Table 2-7 presents the intensity-duration-frequency coefficients developed for Montgomery County based on the point rainfall depths in Table 2-2 located in ***Section 2.1.2***. These coefficients are only valid when the time of concentration is shorter than 3 hours. For time of concentration values equal to or greater than 3 hours, the NRCS hydrograph method (***Section 2.3.2***) shall be used to determine peak flow.

Table 2-7 Intensity-Duration-Frequency Coefficients for Tc < 3 hours

Return Period	e	b (in.)	d (min.)
2-Year	0.757	53.90	10.87
5-Year	0.696	50.30	8.06
10-Year	0.642	45.66	5.52
25-Year	0.583	42.05	3.01
50-Year	0.532	37.74	0.58
100-Year	0.503	37.93	0.00

These coefficients were developed specifically for Montgomery County and represent the entire county limits. These values are independent of the values used by TxDOT. For T_c greater than three hours, see Table 2-2.

2.3.1.3 DRAINAGE AREA (A)

The size and shape of the drainage area shall be determined using topographic maps or lidar and supplemented by field surveys where the base topographic data has changed or is not clear enough to distinguish the direction of flow. The entire drainage area contributing to the drainage system and the drainage subarea contributing to each point of interest shall be identified.

The drainage area boundary must follow **natural topographic ridge lines** and **disregard legal boundaries** that have no effect on flow paths such as city limits, project boundaries, etc.

DRAFT - INTERNAL REVIEW ONLY

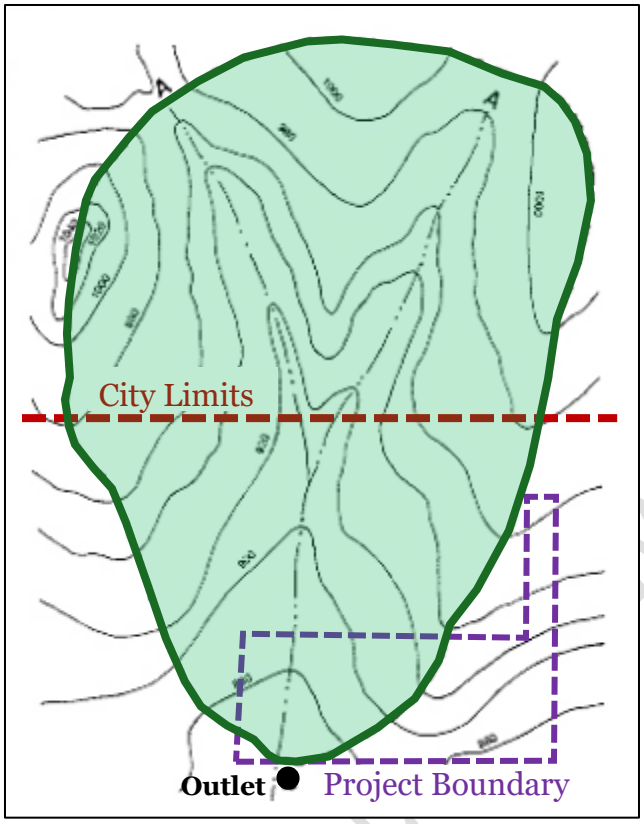


Figure 2-1 Drainage Area Delineation

For developed conditions, the drainage area boundary shall consider planned future improvements such as pavement slopes, roof slopes, downspout locations, graded grass areas, and other urban features that may affect the flow path of runoff. In some instances, the drainage divide may change based on the storm event due to overflows from one drainage area to another. In these cases, the drainage area shall be based on the design event for the drainage infrastructure being analyzed.

2.3.2 NRCS METHOD FOR PEAK FLOW DETERMINATION

Determining the peak flow for a drainage area using the NRCS hydrograph method (Method 1 or 2) will require the development of a full runoff hydrograph as described below. The maximum flow for the full hydrograph can then be used as a peak flow. Since there will be variation of calculated peak flows between the Rational Method and the NRCS method, the two methods may not be combined. For instance, if a culvert is being analyzed using peak flows developed by the NRCS method, then all other culverts that are hydrologically connected downstream shall be analyzed using peak flows developed by the NRCS method.

2.3.2.1 CURVE NUMBER

DRAFT - INTERNAL REVIEW ONLY

To estimate hydrologic losses for a drainage area due to rainfall infiltration and natural runoff storage, the NRCS Curve Number Method shall be used. The Curve Number Method consists of two parameters, the initial abstraction (I_a) and the curve number (CN).

The curve number (CN) indicates runoff potential of an area using a combination of soil characteristics and land use types and is obtained from Table 2-8. Additional physical characteristics such as tree canopy and natural runoff storage within a drainage area also affect runoff. These characteristics are captured within the CN value by varying the CN with land use type.

For other land use types not expressly designated in Table 2-8, a weighted curve number may be used if supported by engineering calculations. All Curve Numbers values shall assume a Type II Antecedent Runoff Condition.

Table 2-8 Typical Curve Number Values for Various Land Use

Land Use Type	Curve Number for Hydrologic Soil Group[1]			
	A	B	C	D
Undeveloped Land Use				
Woods	30	55	70	77
Brush	35	56	70	77
Meadow: continuous grass protected from grazing and generally mowed for hay	30	58	71	78
Pasture, grassland, or range	49	69	79	84
Fallow or Unused Agricultural Fields	77	86	91	94
Developed Land Use				
Residential Districts				
Average lot size < 1/5 acre	77	85	90	92
Average lot size = 1/5 acre	67	79	86	89
Average lot size = 1/4 acre	61	75	83	87
Average lot size = 1/3 acre	57	72	81	86
Average lot size = 1/2 acres	54	70	80	85
Average lot size greater than 1 acre	51	68	79	84
Streets and Roads				
Asphalt or concrete with curb and storm sewers	98	98	98	98
Gravel	76	85	89	91
Dirt	72	82	87	89
Other Developed Conditions				
Water	100	100	100	100
Parking Lots, roofs, driveways, etc.	98	98	98	98
Open Space Grass (lawns, parks, golf courses, cemeteries, etc.)	49	69	79	84
Commercial and Business Area (85% Impervious)	89	91	94	95
Industrial District (72% Impervious)	81	87	89	93

DRAFT – INTERNAL REVIEW ONLY

[1]For dual hydrologic soil group classifications (i.e., A/D, B/D, or C/D), the saturated condition "D" shall be used. Generally, the more conservative HSG or soils having lower infiltration potential shall always be used when multiple HSG are encountered.

2.3.2.2 PEAK RATE FACTOR

The Peak Rate Factor (PRF) is a constant used in the SCS (Soil Conservation Service) Unit Hydrograph transform method to define the shape, steepness, and peak discharge of a watershed's runoff hydrograph. It directly reflects the percentage of unit runoff that occurs before the peak flow is reached.

Table 2-9 PRF Application

Hydrologic Design Application	Peak Rate Factor (PRF)
Detention Design	150
All Other	300

PRF Application Example: For a detention design that includes several large cross culverts, separate HEC-HMS simulations with unique PRFs shall be used. The peak flows for detention (PRF 150) and the cross culverts (PRF 300) will differ.

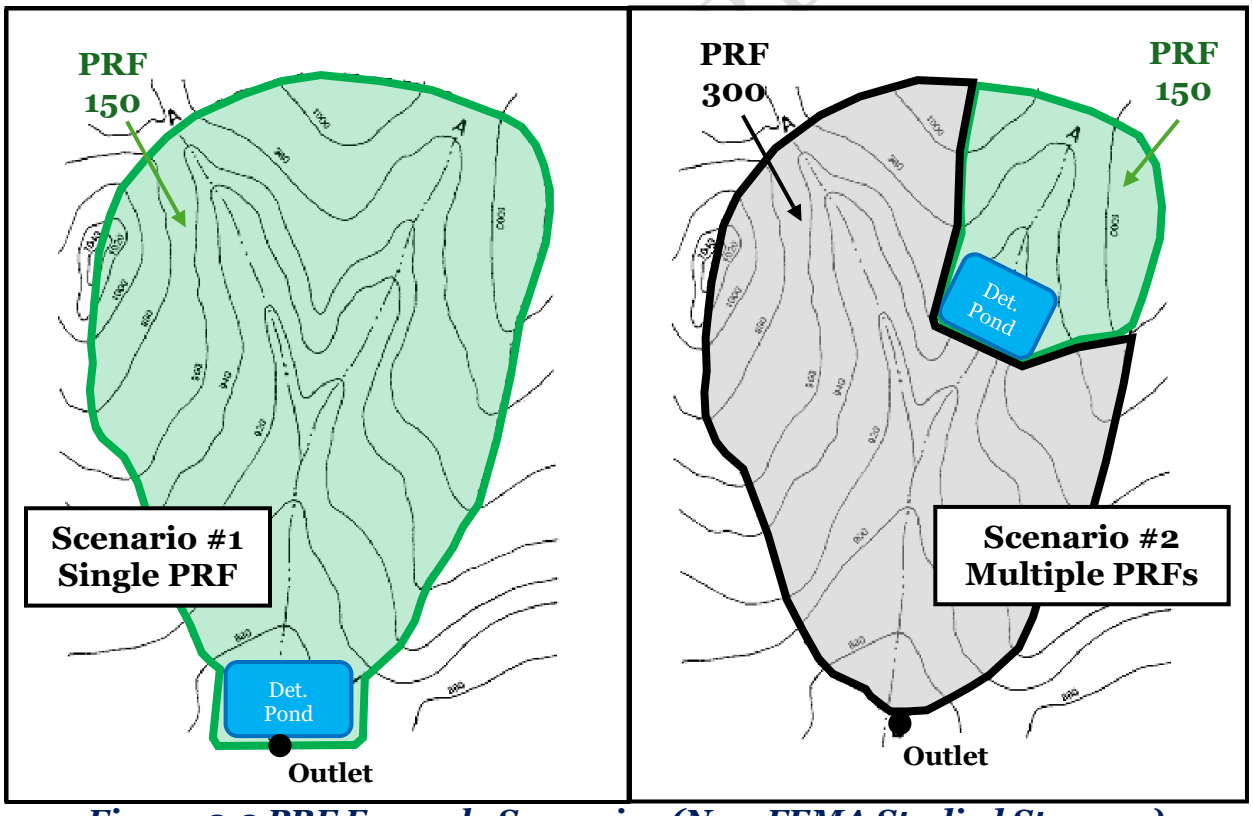

Figure 2-2 PRF Example Scenarios (Non-FEMA Studied Streams)

2.3.2.3 HYDROLOGIC SOIL GROUPS

Soil properties influence the relationship between runoff and rainfall since soils have differing rates of infiltration. The NRCS Curve Number utilizes the Hydrologic Soil Group (HSG) classification to group various soil types into four categories based on their infiltration potential—A, B, C, and D with A soils having higher infiltration potential and D soils having lower infiltration potential. To determine the HSG classification for a given area, soil survey maps can be obtained from the USDA Web Soil Survey online tool or directly through a geotechnical analysis.

2.3.2.3.1 HSG A

Hydrologic Soil Group (HSG) A is sand, loamy sand or sandy loam types of soils. It has low runoff potential and high infiltration rates even when thoroughly wetted. They consist chiefly of deep, well to excessively drained sands or gravels and have a high rate of water transmission.

2.3.2.3.2 HSG B

Hydrologic Soil Group (HSG) B is silt loam or loam. It has a moderate infiltration rate when thoroughly wetted and consists chiefly of moderately deep to deep, moderately well to well drained soils with moderately fine to moderately coarse textures.

2.3.2.3.3 HSG C

Hydrologic Soil Group (HSG) C soils are sandy clay loam. They have low infiltration rates when thoroughly wetted and consist chiefly of soils with a layer that impedes downward movement of water and soils with moderately fine to fine structure.

2.3.2.3.4 HSG D

Hydrologic Soil Group (HSG) D soils are clay loam, silty clay loam, sandy clay, silty clay or clay. This HSG has the highest runoff potential. They have very low infiltration rates when thoroughly wetted and consist chiefly of clay soils with a high swelling potential, soils with a permanent high water table, soils with a claypan or clay layer at or near the surface and shallow soils over nearly impervious material.

Soil data may be located at the USDA Web Soil Survey webpage (https://websoilsurvey.nrcs.usda.gov/app/).

2.3.2.4 LAG TIME

The SCS Lag Time is the time difference between the center of mass of excess rainfall and the peak of the resulting runoff unit hydrograph.

The relationship between the Lag Time (L) and the Time of Concentration (ToC) is:

Equation 2-16 Lag Time and Time of Concentration Relationship

DRAFT - INTERNAL REVIEW ONLY

$$L = 0.6\ x\ ToC$$

Where,

L = Lag Time in minutes,
ToC = Time of Concentration in minutes.

The Time of Concentration (ToC) is described in Section 2.2.1 NRCS TR-55 VELOCITY METHOD of this manual.

2.3.3 FEMA FLOOD INSURANCE STUDY DATA

Method 3 – FEMA Flood Insurance Studies (FIS) are available countywide and provide the following pre-atlas14 hydrologic and hydraulic information:

1. **Drainage Area** in square miles at various locations and cross sections along the channel.
2. **Peak Discharges** in cubic feet per second for the Pre-Atlas14 10% (10-year), 2% (50-year), 1% (100-year), and 0.2% (500-year) annual chance events.
3. **Manning's n-values** for both channel and overbanks.
4. Base Flood Elevations (BFE) at various locations and cross sections along the channel.
5. **Floodway** data includes the width, the cross-sectional area, the mean channel velocity, and increase at various locations and cross sections along the channel.
6. **Flood Profiles** and **Channel Stream Bed Profiles** along the channel for the pre-Atlas14 10% (10-year), 2% (50-year), 1% (100-year), and 0.2% (500-year) annual chance events.

When available, published hydrologic and hydraulic data will be used for design purposes in FEMA studied streams countywide. This H&H data will represent the baseline for which to build the design upon.

Correlation between pre-atlas14 and post-atlas14 shall be as follows:

Table 2-10 Atlas14 Correlation Table

Pre-Atlas14	Post-Atlas14
0.2% (500-year)	1% (100-year)
1% (100-year) "BFE"	2% (50-year)
2% (50-year)	10% (10-year)
10% (10-year)	20% (5-year)

This correlation means that the pre-atlas14 0.2% (500-year) correlates to the post-atlas14 1% (100-year) storm. This will not be an exact match but close enough for regulatory purposes. This correlation applies to all the following hydrologic and hydraulic scenarios:

1. **Drainage Areas** assessed by the design engineer must be checked against the published drainage areas in the FEMA FIS. Any variations must be both

DRAFT – INTERNAL REVIEW ONLY

documented and justified. It is expected that the drainage areas assessed by the design engineer will vary from the published drainage areas due to the use of updated terrain data such as LiDAR or ground survey.

2. **Peak Discharges** assessed by the design engineer in the FEMA studied stream shall agree with the FEMA FIS flows published. Any variations must be both documented and justified.
3. **Manning's n-values** assessed by the design engineer must be checked against the published drainage areas in the FEMA FIS. Any variations must be both documented and justified.
4. **Base Flood Elevations** (BFE) is the pre-atlas14 1% storm event and is utilized for the establishment of lowest structure elevation and will be enforced by the county Floodplain Administrator and the Floodplain Management Regulations.
5. **Floodway** regulations apply countywide and are enforced by the county Floodplain Administrator and the Floodplain Management Regulations.
6. **Flood Profiles** for the 10% (10-year), 2% (50-year), 1% (100-year), and 0.2% (500-year) are to be utilized as the tailwater conditions whenever they interact with a county project. Correlation will be required for these tailwater conditions, refer to Table 2-10. The **Channel Stream Bed Profiles** may be used in lieu of channel survey on a case-by-case basis. Channels should be surveyed to ensure highest level of detail possible.

Method 3 is in place to ensure countywide consistency when determining and/or estimating hydrologic and hydraulic parameters.

2.3.3.1 MODEL CALIBRATION AND VALIDATION

Calibration and validation are critical steps in hydrologic and hydraulic modeling. They transform a theoretical computer model into a reliable, defensible tool capable of mimicking real-world watershed and stream behaviors. Without these steps, an H&H model is simply a mathematical guess.

1. Model Calibration is the process of adjusting sensitive parameters within a model (such as soil infiltration rates, land imperviousness, or channel roughness coefficients) so that the simulated outputs closely match observed historical data from real-world storm events. Essentially, it is tuning the model to reflect local watershed realities.

2. Model Validation is the process of testing those calibrated parameters against an entirely separate, independent historical storm event without making any further adjustments. It serves as an independent quality check to prove that the model can reliably predict future flooding, rather than just matching a single past event.

The design engineer will need to ensure the model's results are within the following tolerances:

1. Peak Flow: +/- 10%
    a. Example

FEMA FIS Peak Flow = 100 cfs
Acceptable Model Peak Flow Range 90 cfs – 110 cfs

2. Water Surface: +/- 1%
    a. Example
    FEMA FIS WSEL = 100 ft
    Acceptable Model Range WSEL 99 cfs – 101 cfs

Method 3 is assumed to be the best available hydrologic and hydraulic data and therefore the best source for model calibration and validation.

2.4 HYDROLOGIC ROUTING

Hydrologic routing involves the balancing of inflow, outflow, and volume of storage for a reach through the use of the continuity equation. Travel time and attenuation characteristics vary widely between different streams. The travel time is dependent on characteristics such as reach length, slope, friction, and flow depth. Attenuation is also dependent on bed friction in addition to other characteristics such as channel and overbank storage.

Many routing methods have been developed under different assumptions and for different stream types. The routing method approved for use in Montgomery County is the Muskingum-Cunge methods (USACE, HEC-HMS, 2000 and Bedient and Huber, 1988).

Hydrologic routing shall not to be used for final channel design or sizing. Channel capacity analysis shall be performed using approved methods found in ***Section 3***. Hydraulic engineer software, such as HEC-RAS, is commonly used to size channels.

2.5 TAILWATER

Tailwater represents the downstream hydraulic control that influences the capacity, performance, and water surface elevation of upstream drainage infrastructure. Proper selection of tailwater conditions is required to ensure hydraulic consistency, prevent adverse impacts, and provide conservative yet realistic design assumptions. Tailwater conditions shall be evaluated for detention facilities, storm sewer systems, open channels, and outfalls, and shall reflect existing and ultimate downstream conditions consistent with adopted studies, FEMA mapping, and County criteria.

DESIGN NOTE: the tailwater condition shall not be selected for the purpose of:

1. Reducing calculated water surface elevations
2. Reducing hydraulic grade lines
3. Reducing detention requirements

The most hydraulically controlling and reasonable tailwater condition shall govern design which is the conservative maximum tailwater condition. The tailwater condition selected

DRAFT – INTERNAL REVIEW ONLY

must be sufficiently described (with calculations) and defended in the engineer's documentation submitted to the county.

2.5.1 NORMAL DEPTH

Tailwater based on uniform flow conditions where the downstream conveyance is not backwater-controlled. Computed using Manning's equation assuming critical or subcritical uniform flow.

Typical Source:

1. Manning's Equation

2.5.2 FIXED ELEVATION

A specified static water surface elevation applied at the downstream boundary, typically derived from known or regulated conditions.

Typical Sources:

1. Lake or pond normal or static pool elevations
    a. Lake Conroe Conservation Pool Elevation = 201.00 feet
2. Conduit Soffit (i.e., top of pipe or box)
3. Top of Channel Bank or Freeboard Elevation
4. Prior County Approved Drainage Study

2.5.3 RATING CURVE

Tailwater is defined by a relationship between discharge and water surface elevation at the downstream control (flow in cfs vs water surface elevation in feet).

Typical Sources:

1. Hydraulic model cross section data
2. Prior County Approved Drainage Study

2.5.4 REGULATORY

Tailwater set equal to FEMA flood elevations corresponding to the design event or regulatory flood for the 0.2% (500-year), 1% (100-year), 2% (50-year), and 10% (10-year) storm events.

Typical Sources:

1. FEMA Flood Insurance Studies (FIS) – Preferred Source
2. Effective FIRMs
3. Preliminary FIRMs (when accepted by the County)

DRAFT – INTERNAL REVIEW ONLY

Refer to Table 2-10 for information on correlation between pre-atlas14 and post-atlas14 tailwater conditions.

2.5.5 DYNAMIC

Tailwater extracted directly from an unsteady downstream hydraulic model (flow in cfs or depth in feet vs time).

Typical Sources:

1. Unsteady HEC-RAS
2. Prior County Approved Drainage Study

2.5.6 CONSERVATIVE MAXIMUM

The worst-case scenario of the highest plausible tailwater elevation is used to evaluate system performance under extreme or coincidence conditions. The most hydraulically controlling and reasonable tailwater condition shall govern design which is the conservative maximum tailwater condition. The tailwater condition selected must be sufficiently described (with calculations, if applicable) and defended in the engineer's documentation submitted to the county.

The conservative maximum tailwater condition will be used for all projects submitted to the county along with documentation justifying which methodology was used.

2.5.7 REQUIRED DOCUMENTATION

All tailwater assumptions shall be:

1. Clearly stated and described in the drainage report.
2. Justified with references or calculations.
3. Consistent across modeling and spreadsheet calculations.
4. Based on ultimate downstream conditions.

2.6 HEC-HMS MODELING BEST PRACTICES

In instances the development dictates the need for full hydrograph development, the approved software listed in ***Section 1.4*** shall be utilized.

Information on developing a hydrologic model using HEC-HMS, is available from the US Army Corps of Engineers, Hydrologic Engineering Center webpage.

(https://www.hec.usace.army.mil/software/hec-hms/training.aspx)

DRAFT – INTERNAL REVIEW ONLY

In the development of a full hydrologic model, Montgomery County requires that pre-project, post-project undetained, and post-project detained models be executed for the 20% (5-year), 10% (10-year), and 1% (100-year) storm events.

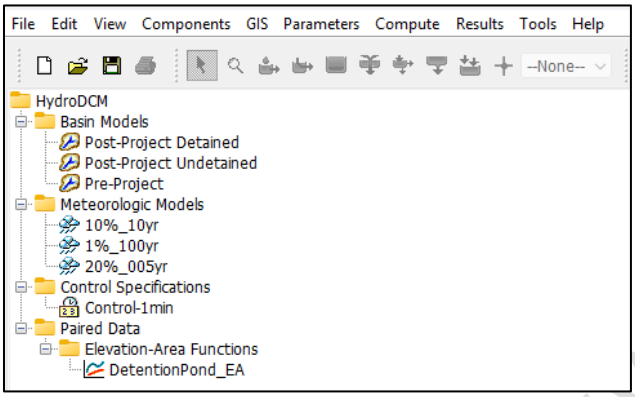

Figure 2-3 Hydrologic Model Example

The three primary components for a HEC-HMS model include Basin Model, Meteorological Model, and Control Specifications.

2.6.1 BASIN MODEL

When modeling sub-basins, the loss method should be set to SCS Curve Number, and the Transform Method set to SCS Unit Hydrograph (see Figure 2-4). The user inputs the area in square miles. All other parameters are set to "-None-."

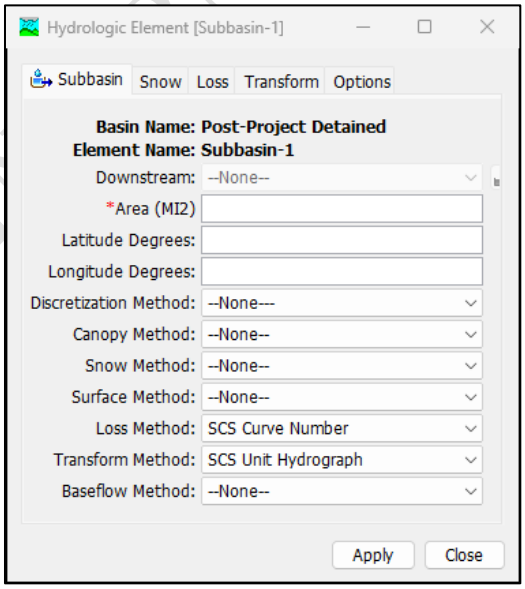

Figure 2-4 Subbasin Parameters

Under the "Loss" tab, the user inputs the Curve Number or weighted CN based on Table 2-8, as seen in Figure 2-5 below. The percentage of the subbasin which is directly connected impervious area can be specified. Any percentage specified should not be

DRAFT - INTERNAL REVIEW ONLY

included in computing the composite curve number. No loss calculations are carried out on the impervious area; all precipitation on that portion of the subbasin becomes excess precipitation and subject to direct runoff.

In most cases, the impervious (%) will be left empty as this is already accounted for within the developed curve numbers provided in Figure 2-8.

Within HEC-HMS, if the initial abstraction parameter is left blank, the program will assume a ratio of 0.20 and automatically calculate the initial abstraction based on the curve number value input by the user.

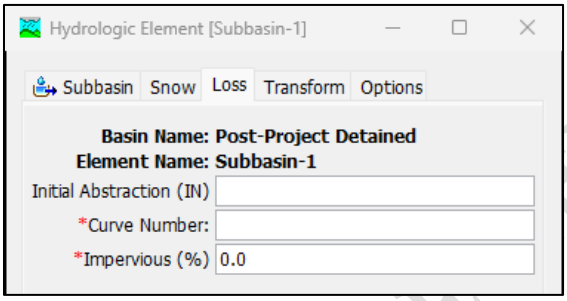

Figure 2-5 Subbasin Loss Parameter Inputs

2.6.1.1 LAG TIME

Under the Transform Tab, the graph type will be "Peak Rate Factor 150" as seen in Figure 2-6. The Lag Time Equation 2-17 is obtained by:

Equation 2-17 Lag Time

$$L = ToC \; x \; 0.6$$

Where,
L = Lag Time in minutes
ToC = NRCS Velocity Method Time of Concentration in minutes

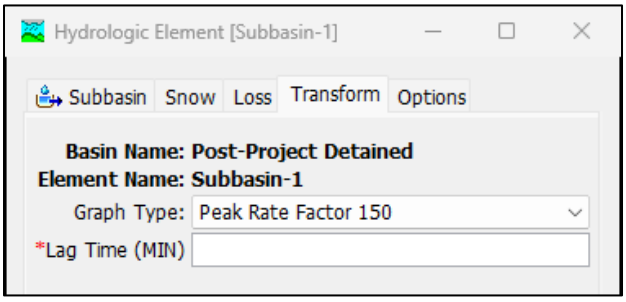

Figure 2-6 Subbasin Transform Parameter Inputs

2.6.2 METEOROLOGICAL MODEL

DRAFT - INTERNAL REVIEW ONLY

When setting the Meteorological Model, set the Precipitation to "Frequency Storm" as seen in Figure 2-7.

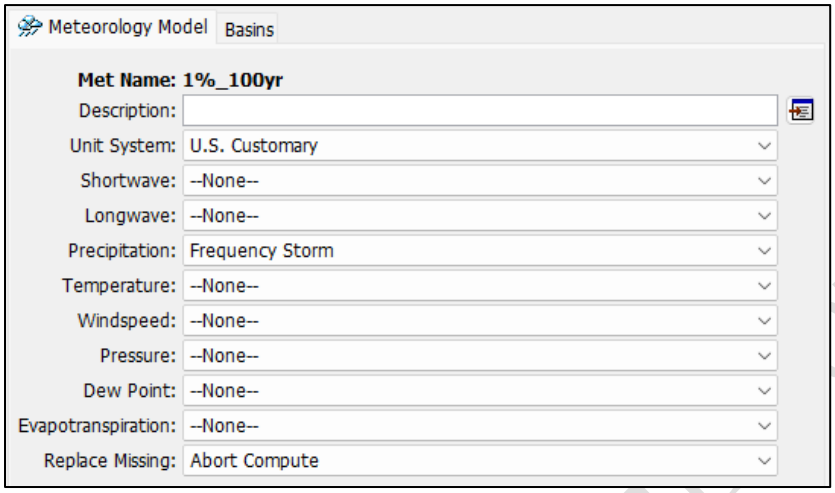

Figure 2-7 Meteorological Model Parameters

Under Frequency Storm, input the appropriate Rainfall Depth (depending on Storm Frequency) from Table 2-2, as seen in Figure 2-8.

The data in Table 2-2 is Partial Duration Series data (as opposed to Annual Maximum Series data). Partial Duration Series is preferred for use in design of smaller drainage systems (such as storm sewers and roadside ditches). To use Partial Duration Series in HEC-HMS, the "Annual-Partial Conversion" should be set to "—None—" in HEC-HMS Version 4.3 (in earlier versions "Input Type" and "Output Type" should both be set to "Partial Duration").

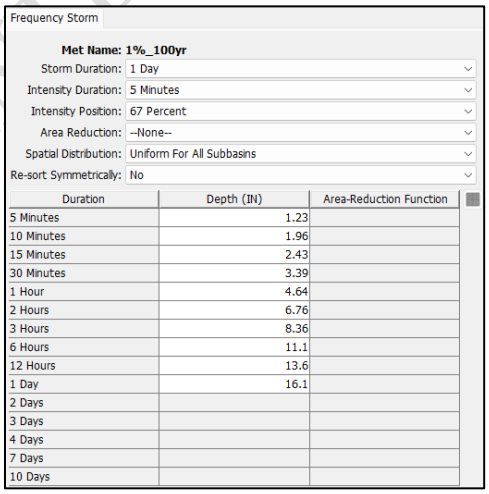

Figure 2-8 Frequency Storm for Meteorological Model

Standard Input Values for "Frequency Storm"

1. Storm Duration = 1 Day

DRAFT - INTERNAL REVIEW ONLY

2. Intensity Duration = 5 minutes
3. Intensity Position = 67 Percent
4. Area Reduction = None
5. Spatial Distribution = Uniform for All Subbasins
6. Re-sort Symmetrical = No
7. Depth = Point Rainfall Depth from Table 2-2

Meteorological Models shall be developed for 20% (5-year), 10% (10-year), and 1% (100-year) storm events.

2.6.3 MODEL RESULTS

Once the model has been completely developed, simulations must be run for each of the aforementioned storm events, in the existing, and the developed (proposed) condition. Montgomery County will require specific information, in addition to the hydrologic model, this information and layout can be found in ***Section 8***. The naming convention that shall be used for model submittal is also specified in ***Section 8***.

DRAFT - INTERNAL REVIEW ONLY

SECTION 3 – OPEN CHANNELS

3.1 GENERAL

This section summarizes the criteria necessary for the proper design of open channels.

3.1.1 CHANNEL DESIGN CONSIDERATIONS

The following design characteristics shall be utilized, where possible, when designing channels. As much as the design of the open channel will allow, the engineer shall:

1. Maintain creek overbank storage;
2. Follow the natural drainage course;
3. Avoid crossing drainage divides;
4. Avoid tight channel bends;
5. Minimize conflicts with existing buildings, homes, pipelines, and contaminated sites; and
6. Minimize the number of property owners affected.
7. If alterations are proposed to any existing channel, neither the location where the flow comes on or off the subject site can be changed without documentation of permission from the affected property owner. Peak flow in the channel on the property downstream cannot be increased, and design must ensure the 1% (100-year) HGL is not increased upstream in the channel on any other owner's property.
8. If the channel is currently in FEMA effective floodplain, additional considerations apply. See ***Section 7*** and county's current Floodplain Management Regulations.

When the use of these features is not possible, sufficient documentation shall be provided to justify their infeasibility.

3.2 CHANNEL DESIGN REQUIREMENTS

All open channels in Montgomery County shall be designed to adhere to the requirements below.

3.2.1 MINIMUM REQUIREMENTS

For the purposes of this drainage criteria, all channels fall under one of the following categories: swales, roadside ditches, small channels, or large channels. All channels are required to be subcritical flow. For lined channels, the Froude number should be calculated for each channel segment to confirm the absence of supercritical flow. If drop structures are required to maintain sub-critical flow, refer to the design requirements for a sloped drop section.

A summary of minimum requirements for each of the channel types is provided in Table 3-1. Further details for each channel are provided in the relevant sections.

DRAFT - INTERNAL REVIEW ONLY

Table 3-1 Minimum Requirements for Ditch and Channel Design

Criteria	Swale	Roadside Ditch	Small Channel	Large Channel
Description	• Shallow V-shaped ditch • Grass or concrete-lined • Typically located within a drainage easement • Service area dependent upon design	• Shares a common edge with a roadway • Located within the road right-of-way • Applies to all service area sizes	• Does not share a common edge with a roadway • Has a service area of less than or equal to 100 ac. • Typically located within a drainage easement	• Does not share a common edge with a roadway • Has a service area greater than 100 ac. • Typically located within a drainage easement
Design Storm	As required by design	• 4% (25-year) (Thoroughfare) • 10% (10-year) (all others)	1% (100-year)	1% (100-year)
Minimum Bottom Width	Not required	Not required	Not required	6 ft.
Minimum Depth	6 in.	18 in.	18 in.	18 in.
Maximum Depth	2 ft.	4 ft. without guardrail	4 ft.	N/A
Minimum Invert Longitudinal Slope	0.1%	0.1%	0.1%	0.1%
Steepest Allowable Side Slope (H:V)	3:1 (vegetated)	4:1 front slope 3:1 back slope (vegetated)	3:1 (vegetated)	3:1 (vegetated)
Maximum Velocity	3.0 ft/s	***Section 3.3.1***	***Section 3.3.1***	***Section 3.3.1***
Bottom Cross Slope	Not required	Not required	Not required	6-in. gradient or 3% (***Section 3.2.6***)
Maintenance Access Top Width	Not required	Not required	15 ft. (along one edge)	***Section 3.2.6***
Freeboard to Top of Bank	Not required	6 in.	6 in.	6 in.

3.2.1.1 GENERAL CRITERIA

1. Earthen channel slopes shall be re-vegetated immediately after construction to minimize erosion.
2. The values in Table 3-2 shall be used as the Manning's "n" roughness coefficient for man-made channels and for existing channels with irregular cross sections.
3. The width of the right-of-way or easements required for open channels shall be based on the ultimate development of the subject tract. Channel right-of-way shall be dedicated in a record plat or by separate instrument recorded in the County real

DRAFT - INTERNAL REVIEW ONLY

property records. Enough right-of-way shall be dedicated to accommodate the improved channel along with the required maintenance berms.

4. For channels with uniform channel conditions, Manning's equation shall be used to size a single segment of a swale, roadside ditch, or small channel. Changes in slope, shape, size, etc. will be considered the end of a segment.
5. Retaining walls are not permitted within or adjacent to a drainage easement in residential areas if the intent is to reduce the easement width. In non-residential areas, retaining walls may be allowed within or adjacent to a drainage easement only if the property owner provides a private maintenance agreement and the area does not receive offsite flow.
6. Natural channels remaining intact must be provided with the same maintenance access and easements as proposed channels.

3.2.2 MANNING'S COEFFICIENTS FOR OPEN CHANNELS

Table 3-2 refers to general Manning's roughness coefficients that meet the minimum channel design criteria.

Table 3-2 Manning's "n" Values for Channels

Channel Cover	Roughness Coefficient
Grass-lined	0.040
Concrete-lined	0.015
Fabric Formed Concrete	0.012
Articulated Concrete Block	0.035
Rock Riprap-lined	0.040
Existing channels with irregular cross sections (Refer to Table 3-7)	0.04 – 0.08

3.2.3 SWALES

A swale is a shallow v-shaped ditch that is grass or concrete-lined. Swales shall not accept flow from upstream roadside ditches, small channels, or large channels.

3.2.3.1 DESIGN FREQUENCY

Swales shall be designed based on the receiving system criteria.

3.2.3.2 FREEBOARD

There is no minimum freeboard required for swales; however, the peak flow for the design storm event shall be contained within the geometric boundaries of the swale.

3.2.3.3 BOTTOM WIDTH

There is no minimum bottom width for a swale, and it shall maintain a V-shape.

DRAFT - INTERNAL REVIEW ONLY

3.2.3.4 DEPTH

The minimum depth of a swale is 6 inches, and the maximum depth shall not exceed 2 feet.

3.2.4 ROADSIDE DITCH

A roadside ditch is defined as a channel that shares a common edge with a roadway and is located in a road right-of-way. A typical cross section for a ditch is shown in Figure 3-1. See ***ATTACHMENT 10.4*** for example calculations table.

Roadside ditches shall be contained completely within the road right-of-way.

Roadside ditches shall not accept flow from proposed upstream small channels or large channels, unless authorized by the County Engineer.

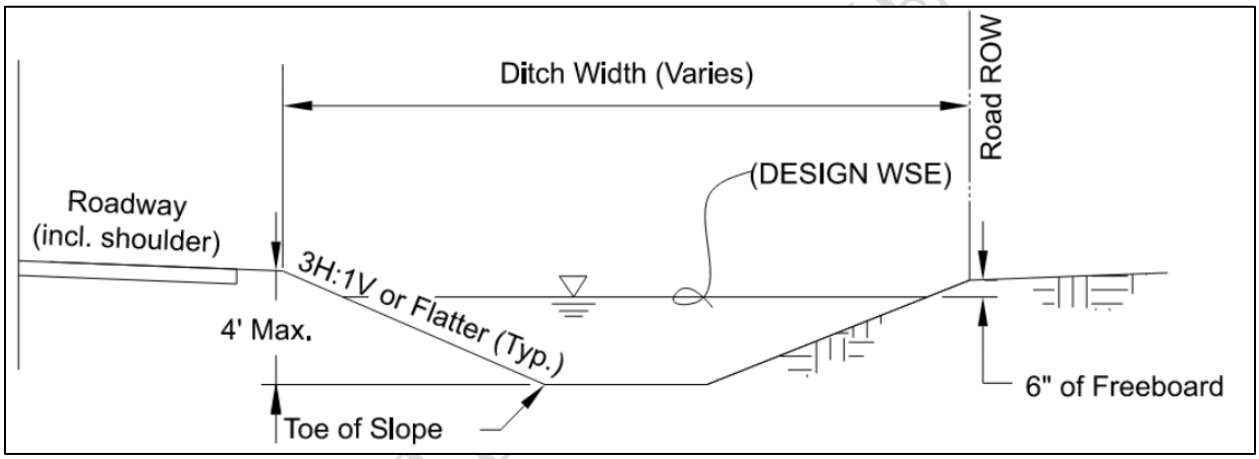

Figure 3-1 Typical Grass-Lined Trapezoidal Roadside Ditch Section

3.2.4.1 DESIGN FREQUENCY

Roadside ditches for thoroughfares shall be designed to convey the proposed developed peak flow rate from the 4% (25-year) storm event. The 1% (100-year) peak flow shall be contained within the right-of-way, allowing for one passable lane in each direction.

Roadside ditches for all other streets, collectors, and county roads shall be designed to convey the peak flow rate from the 10% (10-year) storm event. The 1% (100-year) peak flow shall be contained within the right-of-way.

3.2.4.2 FREEBOARD

A minimum freeboard of 6 inches to top of bank is required at the max water surface elevation of the design storm in the roadside ditch.

3.2.4.3 BOTTOM WIDTH

DRAFT – INTERNAL REVIEW ONLY

There is no bottom width for roadside ditches.

3.2.4.4 DEPTH

The depth of a roadside ditch is measured from the flow line to the lowest top of bank either at the edge of the shoulder or the right-of-way. The minimum depth shall be 18 inches.

The maximum depth of a roadside ditch without guardrails shall be 4 feet as measured from the elevation at the edge of the shoulder to the flow line of the ditch.

3.2.4.5 SIDE SLOPES

Side slopes for roadside ditches shall be no steeper than 3H:1V for front and back slope.

3.2.4.6 BOTTOM CROSS SLOPE

There is no minimum bottom cross slope for roadside ditches.

3.2.4.7 MAINTENANCE ACCESS WIDTH

There is no minimum maintenance access width for a roadside ditch.

3.2.5 SMALL CHANNELS

A small channel is defined as a V-shaped or trapezoidal channel that does not share an edge with a roadway and has a service area less than or equal to 100 acres. These types of channels typically act as collectors for small storm sewer systems, roadside ditch networks, or route a development's runoff to the outlet channel or detention facility. A typical cross-section of a small channel is shown in Figure 3-2. See ***ATTACHMENT 10.4*** for example calculations table. The engineer may be required to perform the hydraulic computations in HEC-RAS per the County's discretion.

DRAFT - INTERNAL REVIEW ONLY

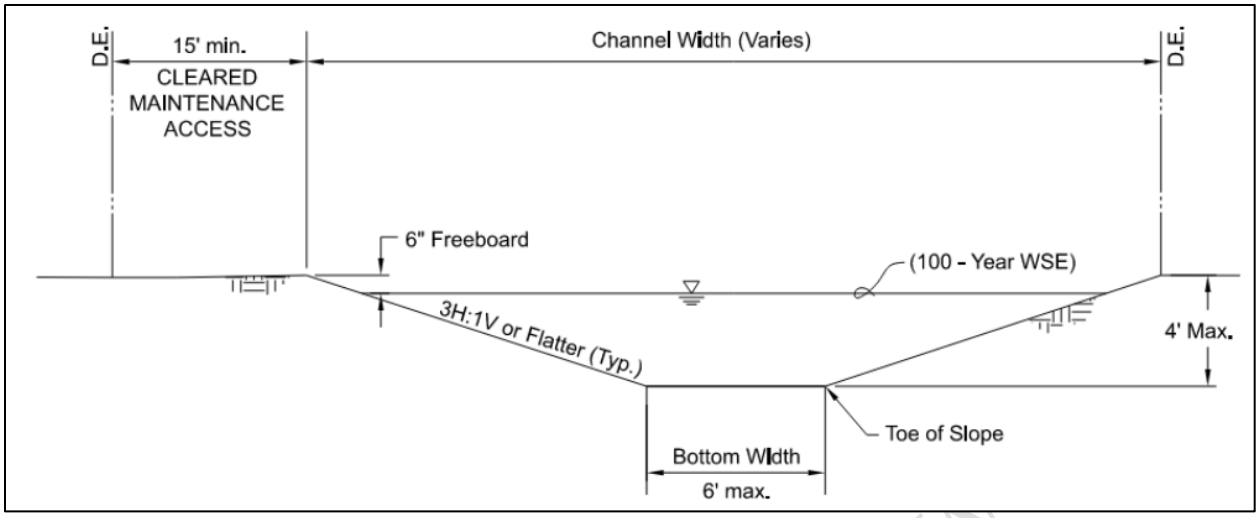

Figure 3-2 Typical Grass-Lined Trapezoidal Small Channel Section

3.2.5.1 DESIGN FREQUENCY

Small channels shall be designed to convey the proposed developed peak flow rate from the 1% (100-year) storm event.

3.2.5.2 FREEBOARD

A minimum freeboard of 6 inches to top of bank is required at the maximum 1% (100-year) design storm water surface elevation in the channel.

3.2.5.3 BOTTOM WIDTH

The bottom width of a small channel shall be less than 6 feet. A channel bottom width of 6 feet or greater is considered a large channel.

3.2.5.4 DEPTH

The maximum depth of a small channel shall be 4 feet and the minimum depth shall be 18 inches. A channel with a depth greater than 4 feet is considered a large channel.

3.2.5.5 SIDE SLOPES

Side slopes for small channels shall be based on the recommendations of a geotechnical investigation but shall be no steeper than 3H:1V. Slope reinforcement shall be provided at the recommendation of the geotechnical investigation.

Slopes flatter than 3H:1V may be necessary in some areas due to local soil conditions. If steeper side slopes are needed for design, a concrete lining shall be used. For specific criteria on concrete-lined channels, see ***Section 3.3.2***.

DRAFT - INTERNAL REVIEW

3.2.5.6 BOTTOM CROSS SLOPE

There is no minimum bottom cross slope for small channels.

3.2.5.7 MAINTENANCE ACCESS WIDTH

A minimum of 15 feet of maintenance access is required on one side of the channel. Access is required from right-of-way. The elevation of the top of the maintenance access shall be at natural ground along the channel reach. The maintenance access shall include a flat drivable surface a minimum of 12 feet wide.

3.2.6 LARGE CHANNELS

A large channel is defined as a trapezoidal channel that does not share an edge with a roadway and has a service area greater than 100 acres. These types of channels typically act as the main conveyance system for a development and receive flow from small channels, storm sewer systems, detention facilities, etc. These channels are also used to improve existing natural creeks. A typical cross-section of a large channel is shown in Figure 3-3. HEC-RAS shall be required to perform the hydraulic computations.

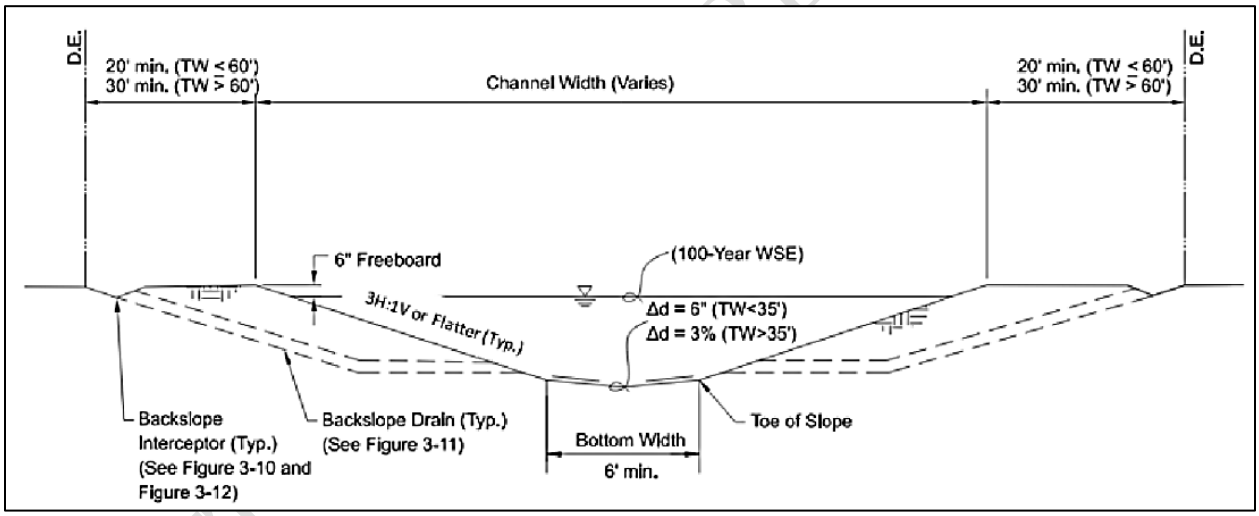

Figure 3-3 Typical Grass-Lined Trapezoidal Large Channel Section

3.2.6.1 DESIGN FREQUENCY

Large channels shall be designed to convey the proposed peak flow rate from the 100-year storm event.

3.2.6.2 FREEBOARD

A minimum freeboard of 6 inches to top of bank is required at the maximum 100-year design storm water surface elevation in the channel.

DRAFT – INTERNAL REVIEW ONLY

3.2.6.3 BOTTOM WIDTH

The minimum bottom width of a large channel is 6 feet.

3.2.6.4 SIDE SLOPE

Side slopes for large channels shall be no steeper than 3H:1V.

Slopes flatter than 3H:1V may be necessary in some areas due to local soil conditions. If steeper side slopes are needed for design, armored protection lining shall be required.

3.2.6.5 BOTTOM CROSS SLOPE

Use Table 3-3 to design the bottom of large, trapezoidal grass-lined channels. Center depression is the elevation to depress the channel centerline below the toe of slope.

Table 3-3 Channel Bottom Design

Bottom Width	Center Depression	Pipe Outlet Invert
6 ft. ≤ BW ≤ 20 ft.	0.5 ft.	At Toe of Slope
20 ft. < BW ≤ 60 ft.	1.0 ft.	At Toe of Slope
BW > 60 ft.	3% (0.03 ft/ft) Cross Slope	At Toe of Slope

3.2.6.6 BACK SLOPE DRAINAGE SYSTEM

Back slope drainage swales and drains shall be provided for all channels with a top width (TW) larger than 60 feet. Backslope drainage is not required if channel side slopes are shallower than 8H:1V or if offsite flows are shown not entering the channel due to natural topography or due to existing development.

Back slope interceptors are required for constructed grass-lined channels where the channels receive overland sheet flow or where proposed channel or detention depths are greater than 7 feet.

The design engineer shall account for the drainage area to be intercepted by such systems, particularly if the channel passes through large areas of undeveloped acreage with natural sheet flow. In these areas, drain spacing and backslope drainage pipe requirements may differ from the minimum parameters discussed below. Refer to Figure 3-9 through Figure 3-11 at the end of this section for backslope swale and structure details.

Documentation of drainage area for each backslope system as well as hydraulic pipe and swale sizing calculations shall be provided by the engineer.

General requirements for backslope drain and swales are as follows:

1. Minimum backslope drain pipes shall be 24 inches in diameter.
2. Maximum drain pipe spacing shall be 800 feet.
3. Drain pipe and swale centerline shall be 5 feet inside the channel right-of-way.

DRAFT - INTERNAL REVIEW ONLY

4. Minimum design depth of swale shall be 0.5 feet.
5. Maximum design depth of swale shall be 2 feet.
6. Maximum side slope shall be 3H:1V.
7. Minimum gradient of swale shall be 0.1%.
8. Backslope drains and swales shall be designed to accommodate the 100-year runoff from the contributing drainage area.

3.2.6.7 MAINTENANCE ACCESS WIDTH

Maintenance access is required on both sides of the channel. Access shall be provided from right-of-way. For channels with a top width (TW) of 60 feet or less, 20 feet of access is required on each side of the channel. For channels with a top width (TW) greater than 60 feet, 30-feet of access is required on each side of the channel to accommodate back slope drainage swales and drains shown in Table 3-4. The elevation of the top of the maintenance access shall be at natural ground along the channel reach. The maintenance access shall include a flat drivable surface a minimum of 12 feet wide.

Large grass-lined channels with side slopes of 8H:1V or shallower do not require maintenance access.

Table 3-4 Maintenance Access Widths for Large Channels

Side Slopes	Top Width of Channel	Maintenance Access Width (each side)
Steeper than 8H:1V	TW ≤ 60 ft.	20 ft.
	TW > 60 ft.	30 ft.[1]
8H:1V or Shallower	TW = all	None required

[1]Backslope drainage system required.

3.3 EROSION CONTROL

Erosion protection shall be required in the following situations:

1. Areas of channel curvature, especially where the radius of the curve is less than three times the design flow top width.
2. Around bridges where channel transitions create increased flow velocities.
3. When the channel invert is steep enough to cause excessive flow velocities.
4. Along grassed channel side slopes where significant sheet flow enters the channel laterally.
5. At channel confluences.
6. At the outfall of backslope drains, roadside ditches, culverts, and storm sewers.
7. Where geotechnical analysis indicates that it is needed due to highly erosive soils or slope stability issues.

3.3.1 MINIMUM EROSION PROTECTION REQUIREMENTS

3.3.1.1 VELOCITY

DRAFT – INTERNAL REVIEW ONLY

High velocities can cause erosion and may pose a threat to safety. Table 3-5 provides max allowable velocities based on the channel lining type. Max average velocities are based on the 1% (100-year) flow for small and large channels; max average velocities are based on the 4% (25-year) flow for thoroughfare roadside ditches and 10% (10-year) flow for all other roadside ditches.

Table 3-5 Allowable Velocities for Channels

Channel/Roadside Ditch Lining Description		Max Velocity	Slope (%)
Grass-Lined	Seeding / Hydro Mulch	4.0 ft/s	< 3% (0.03 ft/ft)
	Block Sodding	6.0 ft/s	< 3% (0.03 ft/ft)
Concrete	Articulated Concrete Block Lined	9.0 ft/s	> 3% (0.03 ft/ft)
	Concrete-Lined	11.0 ft/s	> 3% (0.03 ft/ft)
Riprap	Rock or Crushed Concrete	Design	> 3% (0.03 ft/ft)
Irregular	Overbanks and Existing Natural or Overgrown Channels	Site Specific	Site Specific

3.3.1.2 CONFLUENCE

Figure 3-4 presents the minimum requirements of erosion protection or channel lining based on the angle of the confluence. The top edge of the erosion lining shall extend 6 inches above the 1% (100-year) water surface elevation for freeboard (typically the top of the bank). Grass cover shall be established above the top edge of the erosion lining (see ***Section 3.3.2***) extending to the top of the bank. The angle of intersection between the tributary and main channels shall be between 30° and 60°. Angles in excess of 60° are discouraged but permissible if the 1% (100-year) velocities in both channels are less than 5 feet per second, as shown in Table 3-5. Angels in exceedance of 90° are not permitted.

DRAFT - INTERNAL REVIEW

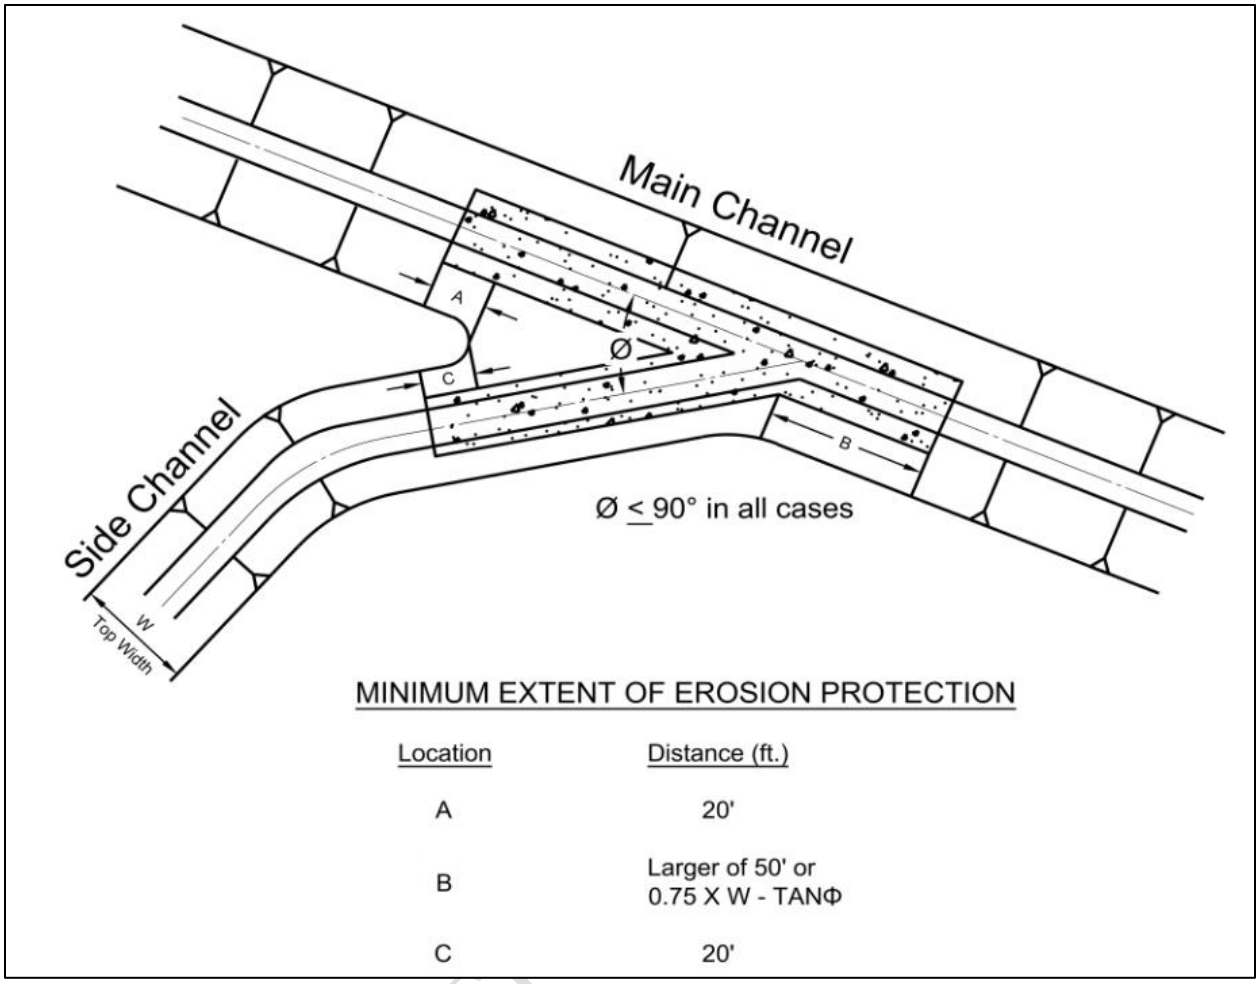

Figure 3-4 Erosion Protection at Confluences

Table 3-6 100-Year Erosion Protection Velocities for Channel Confluences

100-Year Velocity in the Side Channel (ft/s)	Angle of Intersection, ϕ	
	30° - 45°	45° - 90°
5 or more	Protection	Protection
3 – 5	No Protection	Protection
3 or less	No Protection	No Protection

3.3.1.3 BENDS

The following characteristics shall be implemented when designing any bend in open channels.

1. Curves shall have a minimum radius of three times the top width of the design flow unless erosion protection is provided.
2. The radius of any centerline curve on an open channel shall not be less than 100 feet.
3. The maximum curvature for any man-made channel shall be 90°.

DRAFT - ITD

4. The width of erosion protection shall be specified to 6 inches above the 100-year water surface elevation.

Erosion protection shall extend back from the downstream tangent to a length equal to the top width of the channel, at a minimum. The top edge of the lining shall extend to the top of bank. Additional protection on the channel bottom, inside bank, or beyond the designated length downstream will be required if maximum allowable velocities are exceeded. For further velocity information, refer to Table 3-5.

An example of the required protection is shown in Figure 3-5. Erosion protection in the channel bottom is not shown, but it may be needed.

Erosion protection is required when:

1. R < 3W and 100-year velocity > 3 feet per second.
2. Soil type, channel geometry, sinuosity or velocity indicate a risk for potential erosion or failure.

DRAFT - INTERNAL REVIEW ONLY

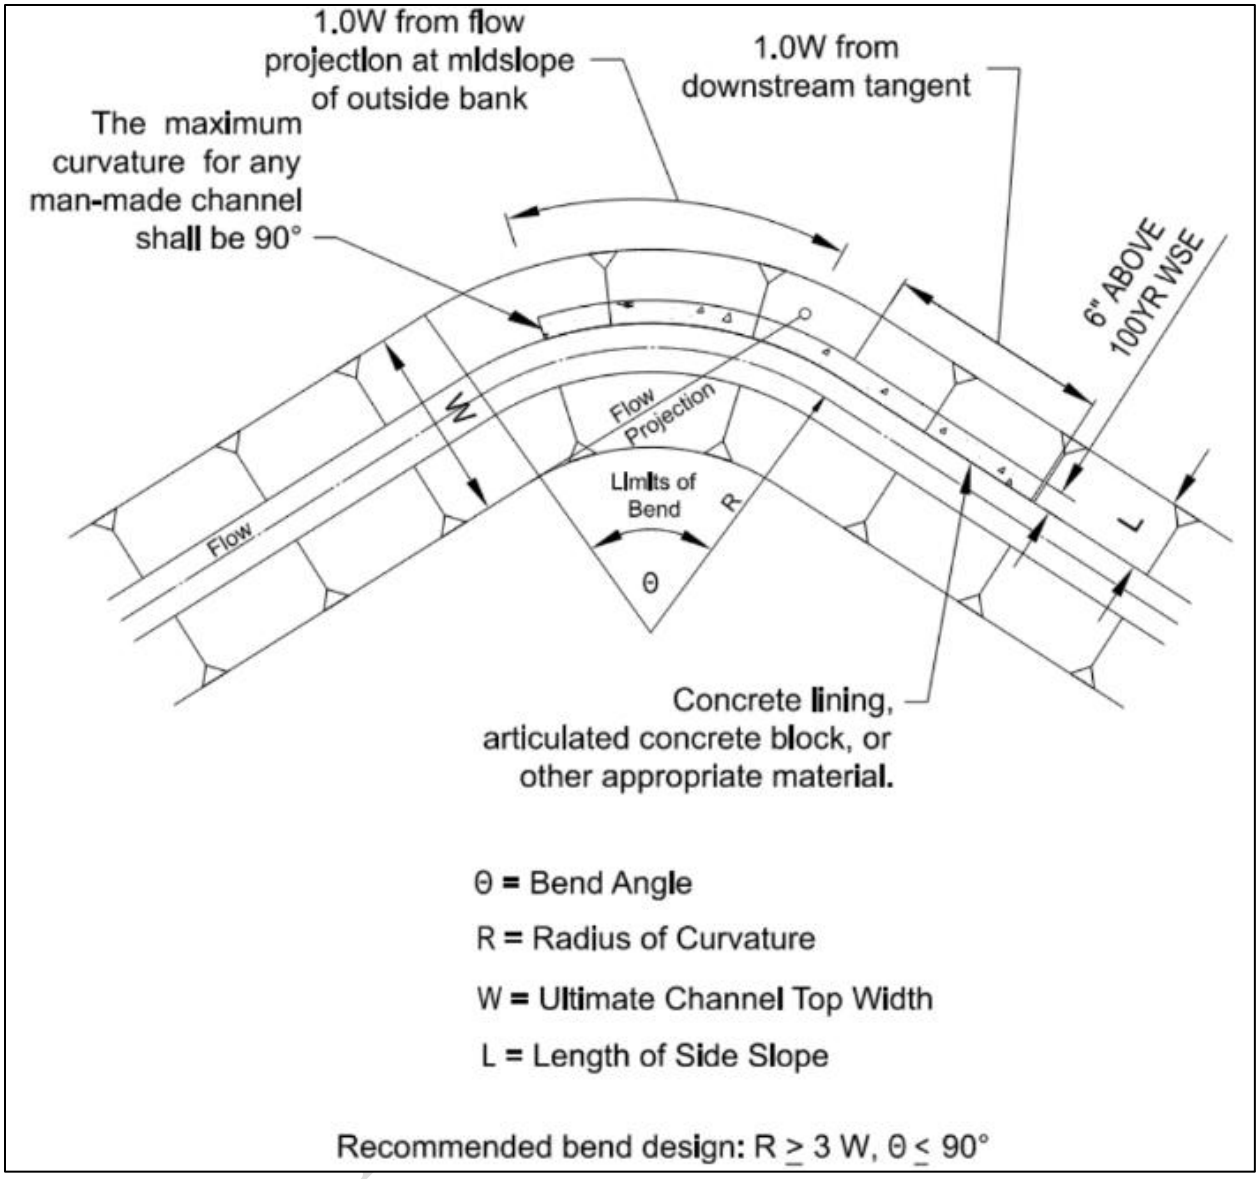

Figure 3-5 Erosion Protection for Channel Bends

3.3.1.4 CHANNEL TRANSITIONS

The following design applications shall be used when designing channel transitions:

1. Transition angles shall be a 1H:8V slope as shown in Figure 3-6.
2. When connecting rectangular and trapezoidal channels, a warped or wedge transition is required.
3. When erosion protection is required, the width of erosion protection shall be specified to 6 inches above the 1% (100-year) water surface elevation.

DRAFT

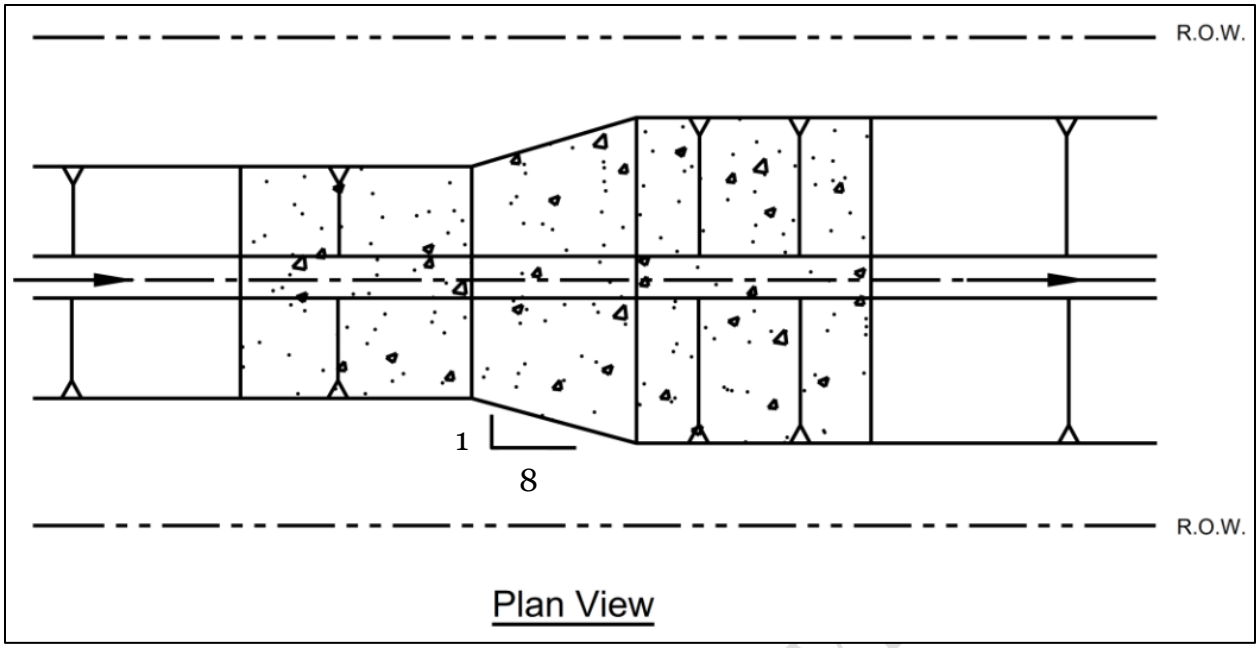

Figure 3-6 Channel Transitions

3.3.2 STRUCTURAL EROSION CONTROLS

When flow velocities exceed those allowed in Table 3-5 or when soils are deemed excessively erosive by a geotechnical engineer, acceptable structural erosion control shall be provided.

3.3.2.1 ROCK RIPRAP

The use of rock riprap is not allowed within a road right-of-way.

3.3.2.2 CONCRETE SLOPE PAVING

Lining a channel with concrete may be required due to high velocities, soil propensity to erode, or other factors. In these cases, further requirements apply to the channel design, as detailed below.

1. All concrete shall be Class B concrete as defined by TxDOT.
2. Concrete slope protection placed on 3H:1V side slope shall have a minimum thickness of 4 inches and a minimum reinforcement of #3 rebar at 18 inches on center each way.
3. Concrete slope protection placed on 2H:1V side slope shall have a minimum thickness of 4 inches and a minimum reinforcement of #3 rebar at 15 inches on center each way.
4. Cast-in-place concrete side slopes shall not be steeper than 2H:1V without approval from the County Engineer.
5. All slope paving shall include a minimum 24-inch toe wall at the top and sides of the channel and a 36-inch toe wall across or along the channel bottom.

DRAFT – INTERNAL REVIEW

6. Weep holes shall be used to relieve hydrostatic head behind lined channel sections. The specific type, spacing, and construction method for the weep holes will be based on the recommendations of the geotechnical report.
7. Control joints shall be constructed at approximately 25 feet on center. The use of a sealing agent shall be utilized to prevent moisture infiltration.

3.3.2.3 SLOPED DROPS

Sloped drop structures are required when the drop elevation is small, generally 1 to 4 feet.

1. Sloped drops shall be no steeper than 3H:1V and no flatter than 4H:1V.
2. Sloped drops shall be designed to convey the proposed design storm event flow.
3. The structure shall be located at a uniform and straight location in the channel.
4. Sloped drops shall be constructed of concrete slope paving.
5. When sloped drops are required, the width of the concrete lining shall be specified to a minimum 6 inches above the 1% (100-year) water surface elevation.
6. Sloped drop structures, when located near a culvert, shall be placed immediately upstream of the culvert, and monolithically connected to the upstream headwalls of the culvert.

Downstream of the drop, the required length for protection can be determined using the process outlined in Section 6.2 of the Federal Highway Administration (FHWA) HEC-14 guidance documentation or the results of hydraulic modeling.

Appropriate erosion protection shall be provided with a minimum of 20 feet upstream and downstream in areas where flow velocities exceed 3 feet per second.

3.3.2.4 STRAIGHT DROPS

Straight drop spillways are required when the drop elevation exceeds 4 feet in small or large channels. Public safety concerns in urban areas should be considered with straight drop spillways. A typical straight drop can be seen in Figure 3-7.

DRAFT - INTERNAL REVIEW ONLY

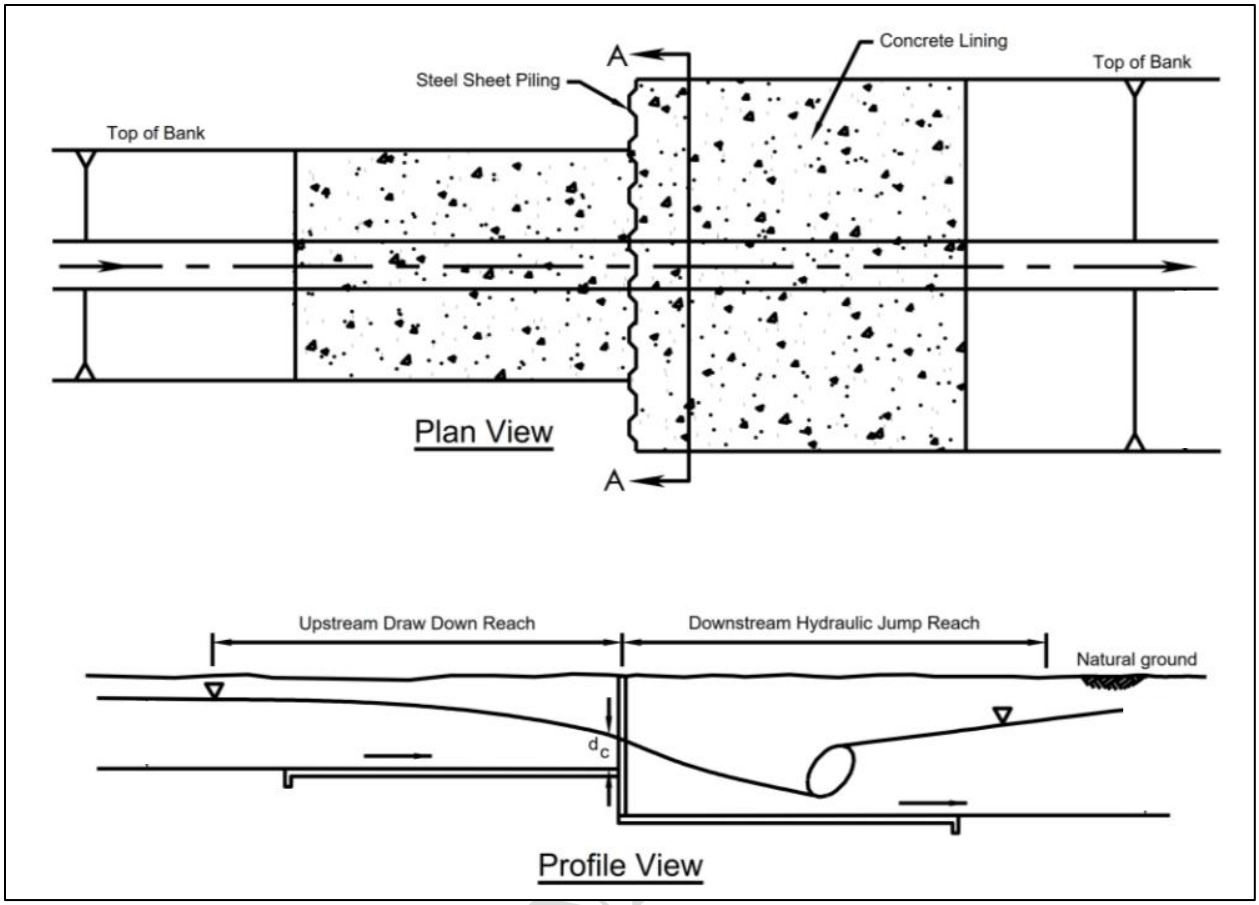

Figure 3-7 Typical Straight Drop

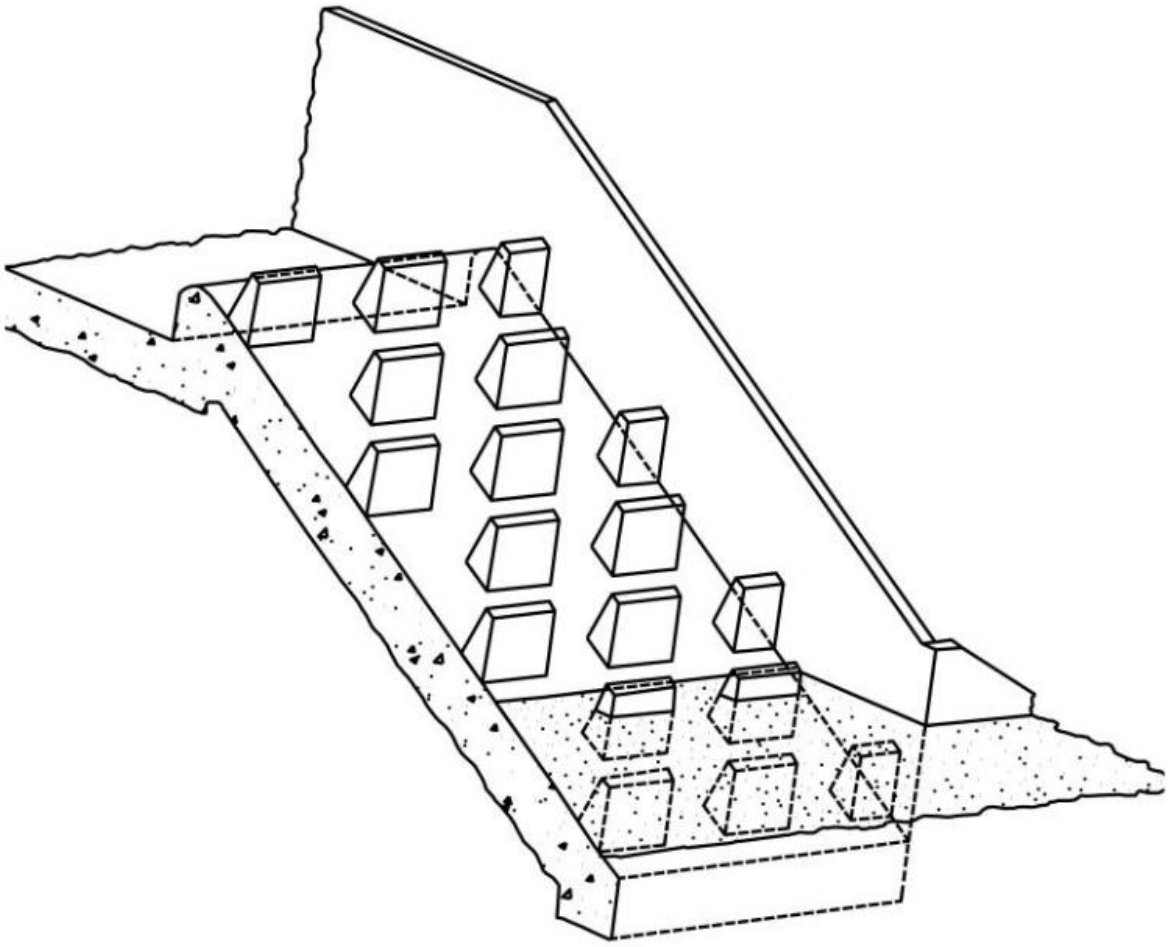
3.3.2.5 BAFFLED CHUTES



Baffled chutes are used to dissipate the energy in the flow at larger drops. Tailwater elevation can affect baffled chute performance; therefore, they require the absence of tailwater to be effective. A typical baffled block drop can be seen in Figure 3-8.

In addition to the design criteria for sloped drops given in the previous section, the following criteria should be followed when designing baffled chutes:

1. The approach velocity should be less than the critical velocity. When the approach velocity is greater than critical velocity, the potential exists for flow to pass over the first row or two of baffled blocks.
2. The chute, on a 2H:1V slope or flatter, may be designed to discharge up to 60 cubic feet per second per foot of width, and the drop may be as high as structurally feasible.
3. Construct the lower end of the chute below stream bed level and backfill with appropriate material to resist erosion.
4. When using a baffle chute to drop a tributary into a main channel, locate the baffle chute far enough away from the main channel so the baffled chute will not be susceptible to undermining.

DRAFT - INTERNAL

5. Use concrete lining on the entire cross section for the structure.
6. Downstream of the baffled chute, the required length for protection can be determined using the process outlined in Section 6.2 of the Federal Highway Administration (FHWA) HEC-14 guidance documentation or the results of hydraulic modeling.
7. Appropriate erosion protection shall be provided a minimum of 20 feet upstream and downstream in areas where flow velocities exceed 3 feet per second.
8. Use an applicable structural and hydraulic design methodology for baffled chutes.
9. Use ultimate development of subject tract for establishing the design flow rate to avoid rebuilding the baffled chute as the drainage area develops.

See "Hydraulic Design of Stilling Basins and Energy Dissipators," Engineering Monograph No. 25, U.S. Department of the Interior, Bureau of Reclamation, 1984.

Figure 3-8 Baffled Back Drop

3.4 HYDRAULIC ANALYSIS

Channel hydraulic analyses are not only necessary to adequately size proposed channels to convey runoff from the design storm but are also required to demonstrate new construction results in no adverse impact to flood risks, in particular if the project is located within a Special Flood Hazard Area.

All large channels, and small channels when required, shall be modeled using HEC-RAS. The use of alternate hydraulic modeling software shall be permitted only upon written approval by the County Engineer on a case-by-case basis.

3.4.1 CHANNEL JUNCTIONS

Channels (rivers and reaches) shall be modeled in HEC-RAS within a single geometry file and not separated into multiple geometries with individual channels (rivers and reaches) in each geometry. Options for modeling junctions in HEC-RAS include:

1. Hydraulic Junction: a single point connecting multiple reaches.
2. Storage Area: a designated region (i.e., a polygon) that functions like a lake, allowing water to be diverted into or out of it.
3. 2D Area: a region where flow is computed using two-dimensional algorithms, defined by a polygon boundary and a computational mesh.

The benefits to this approach are 1) to account for floodplain storage and 2) to delineate the updated, modeled 20% (5-year), 10% (10-year), and 1% (100-year) floodplains for comparison and evaluation between pre-project conditions and post-project conditions.

Other hydraulic software (SWMM, etc.) and modeling approaches must meet the above criteria for channel junctions.

3.4.2 MANNING'S "n"

The Manning's "n" roughness coefficient values in Table 3-7 shall be used in the one-dimensional (1D) hydraulic analysis of channels. Table 3-8 shall be used for referencing roughness coefficients for channel overbanks within two-dimensional (2D) models.

Table 3-7 1D Manning's "n" Values

Type of Channel and Description	Roughness Coefficient
A. Lined or Built-Up Channels	
A1. Corrugated Metal	0.025
A2. Nonmetal	
a) Concrete

3.5 HEC-RAS MODELING BEST PRACTICES

When FEMA models are available, the following file naming convention and associated definitions shall be used for all HEC-RAS models submitted to the county:

1. **Effective Model**, Shortened "EFF"
   For information on how to obtain copies of the effective FIS models, please visit the FEMA website at https://www.fema.gov/engineering-library.

2. **Duplicate Effective Model**, Shortened "DE"
   The duplicate effective model is a copy of the hydraulic analysis used in the effective FIS, referred to as the current effective model. The current effective model should be reproduced on the requester's equipment to produce the duplicate effective model. This is required to ensure that the current effective model's input data have been transferred correctly to the requester's equipment and to ensure that the revised data will be integrated into the effective data to provide a continuous FIS model, upstream and downstream of the revised reach.

3. **Corrected Effective Model**, Shortened "CE"
   The corrected effective model is the model that corrects any errors in the duplicate effective model, adds any additional cross sections to the duplicate effective model, or incorporates more detailed topographic information than that used in the current effective model. The corrected effective model must not reflect any manmade physical changes that have occurred since the date of the effective published study.

4. **Pre-Project (Existing) Conditions Model**, Shortened "PRE"
   The duplicate effective model or corrected effective model is modified to produce the pre-project conditions model to reflect any physical modifications that have occurred within the floodplain since the date of the current effective model, but prior to the construction of the project for which the revision is being requested. If no modification has occurred since the date of the current effective model, this model would be identical to the corrected effective model or duplicate effective model. The pre-project conditions model may be required to support conclusions about the actual impacts of the project associated with the revised or post-project conditions model or to establish more up-to-date models on which to base the revised or post-project conditions model.

5. **Post-Project (Proposed) Conditions Model**, Shortened "POST"
   The pre-project conditions model (or duplicate effective model or corrected effective model, as appropriate) is modified to reflect revised or post-project conditions. This model must incorporate any physical changes to the floodplain since the current effective model was produced, as well as the effects of the project.

DRAFT – INTERNAL REVIEW ONLY

SECTION 4 – CULVERTS AND BRIDGES

4.1 CULVERTS

This criterion applies to culverts crossing roadways, driveways, utilities, and pipelines. Criteria for storm sewers is presented in ***Section 5*** and criteria for detention outfalls is presented in ***Section 6***.

4.1.1 MINIMUM CULVERT SIZES

The minimum pipe culvert diameter shall be 18 inches, and the minimum box culvert dimension shall be 3 feet by 2 feet.

4.1.2 DRIVEWAY & INTERSECTION CULVERTS

A driveway culvert is a culvert located in line with a roadside ditch as defined in Section 3 and crosses a driveway. An intersection culvert is a culvert located at an intersection of two roadways that connects flow from two ditches.

4.1.2.1 DESIGN STORM FREQUENCY

1. Driveway culverts shall be designed to maintain the roadside ditch freeboard requirements specified in ***Section 3***.
2. Driveway culverts shall not be smaller in total cross-sectional area than the next upstream culvert.

4.1.2.2 MINIMUM DESIGN REQUIREMENTS

1. Driveway culverts shall be aligned with the centerline and direction of flow of the roadside ditch.
2. Driveway culverts shall be mitered to the existing ditch slope at no steeper than a 3H:1V slope if the road speed limit is greater than or equal to 45 miles per hour.
3. Driveway culverts for residential lots shall not be over 30 feet in length. Driveway culverts for commercial tracts that are 50 feet or greater in length must have a type A inlet for a clean-out in the middle of the culvert span.
4. The receiving ditch shall be designed to accommodate the width of all driveway culvert barrels.

4.1.2.3 HYDRAULIC ANALYSIS METHODOLOGY

The hydraulic analysis of driveway culvert shall be sized using the following methodology:

1. Determine the peak design discharge for the culvert following the hydrology criteria outlined in ***Section 2***.
2. Determine the tailwater for the design storm event based on the computed water surface elevation in the roadside ditch for the design storm. The higher of the

DRAFT – INTERNAL REVIEW ONLY

normal depth water surface elevation in the ditch or the computed headwater of the downstream culvert will control.
3. Calculate the entrance, exit, and friction losses through the culvert to determine a total head loss across the culvert.
4. Ensure the computed upstream headwater meets the minimum design requirements listed above.

4.1.3 CROSS-CULVERTS

A cross-culvert is a culvert which crosses beneath the travelled way of a road, such that its ends are exposed on the embankment of each side of the road and receives drainage from an adjacent drainage area. Intersection culverts under thoroughfares must also meet the requirements of cross culverts.

4.1.3.1 DESIGN STORM FREQUENCY

1. Cross-culverts shall be designed to convey the peak flow for the 1% (100-year) storm event, for the contributing drainage area.
2. For culverts crossing roadways, the maximum upstream headwater elevation shall not exceed the road edge of pavement.
3. In all cases, the design of the culvert shall ensure that the maximum water surface elevation for the 1% (100-year) storm event does not exceed an elevation greater than one foot below the lowest structure finished floor elevation and does not increase the 1% (100-year) maximum water surface elevation on neighboring properties.
4. Culverts located on FEMA-studied streams shall adhere to the minimum regulations set forth in the Montgomery County Floodplain Management Regulations.

4.1.3.2 MINIMUM DESIGN REQUIREMENTS

1. Culverts shall be aligned with the centerline and direction of flow downstream of the culvert for irregular cross-section channels, ditches, and swales.
2. In situations where a change in horizontal alignment is necessary, the change shall be provided so that the downstream culvert is aligned with the downstream channel.
3. For multi-barrel culverts in an irregular cross-section channel where the bottom is not level, set the center culvert(s), or the culvert closest to the low point of the channel, at the channel flowline. Place the other barrel flowline(s) a foot above the culvert placed at the channel flowline. This will reduce sediment buildup in the culverts.
4. Guardrails are required for any roadway culvert crossing with a ditch depth greater than 4 feet, unless the crossing is extended outside the clear zone. The approach ends of the guardrail shall be properly terminated from the roadway and anchored per the current TxDOT specifications.

DRAFT – INTERNAL REVIEW ONLY

5. The bottom width of receiving ditch shall be greater than or equal to the width of the barrels. If the bottom width is less than the barrel width, a transition zone of 20 feet shall be used to accommodate the barrels.

4.1.3.3 END TREATMENT AND HEADWALLS

General requirements for headwalls and end treatments are outlined below:

All culverts shall have appropriate end treatments as noted below:

1. On roads with a posted speed limit of 35 miles per hour or more, all cross-culverts shall have safety end treatments designed to comply with the requirements of TxDOT Standard Specification (current edition) Item 467 "Safety End Treatment".
2. On roads with a posted speed limit less than 35 miles per hour, all cross-culverts shall either use safety end treatment as noted above or shall be mitered to the slope of the embankment with concrete slope paving protection designed to comply with the requirements of TxDOT Standard Specification (current edition) Item 432 "Riprap".
3. Cross-culverts may use headwalls where needed to preserve the configuration and integrity of the ditch and embankment slopes. All headwalls must be designed to comply with the requirements of TxDOT Standard Specification (current edition) Item 466 "Headwalls and Wingwalls". All headwalls shall be located outside of the clear zone; if this is not possible, they must be adequately protected by guardrail.
4. Any cross-culvert located through or along a thoroughfare per the Montgomery County Thoroughfare plan shall have appropriate end treatments.
5. For further guidance regarding headwalls, see Chapter 8 – Culverts of the current edition of the TxDOT Hydraulic Manual.

4.1.3.4 HYDRAULIC ANALYSIS METHODOLOGY

Peak discharge for the culvert design shall be developed following the hydrology criteria outlined in ***Section 2***.

For all cross-culverts, HEC-RAS shall be used to perform the hydraulic analysis. The HEC-RAS model shall extend downstream of the project to a location where the boundary conditions do not have an effect on the hydraulic capacity of the culvert. Specifically, the model shall extend to a point where the normal depth of the downstream channel or creek is controlling the tailwater elevation as the culvert (i.e., the water surface profile for the creek is parallel to the slope of the bottom of the creek or channel). If the headwater produced by a structure downstream of the proposed culvert is controlling the tailwater at the proposed culvert, the model should extend just downstream of the controlling structure.

The conservative maximum tailwater condition shall govern the hydraulic design of culverts.

DRAFT - INTERNAL REVIEW ONLY

4.1.4 MANNING'S "n" VALUES FOR CULVERTS

The "n" values for culverts shall be determined based on the Manning's "n" values provided in Table 4-1.

Table 4-1 Typical Culvert Manning's "n" Values

Culvert Type	Roughness Coefficient
Circular Concrete Culverts	0.012
Reinforced Concrete Boxes (RCB)	0.012
Corrugated Metal Pipe (CMP) Aluminum	0.024
Plastic Pipes, including HDPE and HPPP	0.012

4.1.5 EROSION AT CULVERTS

Structural erosion protection shall be added upstream and downstream of the culvert based on the culvert exit velocity. In areas where culvert outlet velocities exceed 3 feet per second when transitioning to a grass-lined channel, channel lining or an energy dissipation structure shall be required. Erosion protection shall start upstream and continue downstream to the point where the velocity is less than 3 feet per second or less. Culverts discharging at 90° shall require erosion protection.

4.1.6 STRUCTURAL REQUIREMENTS FOR CULVERTS

All circular culverts shall be either reinforced concrete pipe (RCP), High-Density Polyethylene (HDPE), High-Performance Polypropylene (HPPP) or corrugated metal pipe (CMP) Aluminum. Box culverts shall be either pre-cast or cast in place reinforced concrete.

The structural requirements for culvert design are as follows:

1. All cross-culverts on thoroughfares and collectors, as shown on the Montgomery County Thoroughfare Plan, shall be constructed using RCP.
2. All RCP and joint sealing material for RCP culverts shall comply with the requirements of the current edition of TxDOT Standard Specification, Item 464 "Reinforced Concrete Pipe".
3. All HDPE and HPPP shall meet the requirements of the current edition of TxDOT Item 468 "Thermoplastic Pipe Culverts and Drains".
4. All precast or cast-in-place box culverts shall meet the requirements of the current edition of the TxDOT Standard Specification, Item 462 "Concrete Box Culverts and Drains".
5. RCP must be used if the culvert will have any appurtenance such as a manhole, inlet, junction box or other installation along the pipe, with the exception of headwalls or wingwalls which are acceptable with other types of approved culvert materials.
6. Cement stabilized sand shall be used for backfill around culverts and shall comply with the requirements of the current edition of TxDOT Standard Specification,

DRAFT – INTERNAL REVIEW ONLY

Item 400 "Excavation and Backfill for Structures" or Item 401 "Flowable Backfill" when specified.

7. All culverts must meet the minimum and maximum cover requirements from the manufacturing specifications. The cover of RCP culverts shall not be less than 0.5 feet, as measured from the top of the pipe to the top of the pavement. The minimum cover for all other culvert material types shall not be less than 2.0 feet.

4.2 BRIDGES

4.2.1 BRIDGE DESIGN REQUIREMENTS

The lowest point on the low chord of all new or improved bridges shall be located at least one foot above the 1% (100-year) flood elevation, or at the level of natural ground, whichever is higher. The top of the bridge must overtop when water is at least 6 inches below the lowest elevation of any upstream habitable structure.

4.2.2 HYDRAULIC ANALYSIS

A hydrologic and hydraulic analysis is required for designing all new bridges over waterways, bridge widening, bridge replacement, and roadway profile modifications even if no structural modifications are necessary. The analysis must extend far enough downstream to account for any potential backwater from downstream structures and channels and upstream far enough to evaluate potential impacts of the crossing.

Peak flow rates or hydrographs for the design storm event shall be determined using the hydrologic methodologies outlined in ***Section 2***. The hydraulic analysis shall include the following:

1. Determination of the backwater associated with each alternative profile and waterway opening(s);
2. Determination of the effects on flow distribution and velocities;
3. Pre-project and post-project condition water surface profiles for design and check flood conditions; and,
4. A scour analysis.

At a minimum, bridges shall be designed to pass the 1% (100-year) design flow without causing backwater impacts, structural damage, or erosion.

All bridges or bridge modifications proposed over channels that are studied as part of FEMA Special Flood Hazard Areas shall be designed to cause no rise in 1% (100-year) water surface elevations upstream or downstream of the subject property and shall include an analysis that demonstrates no adverse impact, to adjacent properties. Bridge abutments must be included in the hydraulic model.

A scour analysis utilizing TxDOT methodology is required for new bridges, bridge replacements, and widenings. Where a scour analysis indicates high depths of potential contraction scour, measures to withstand the scour shall be taken.

DRAFT – INTERNAL REVIEW ONLY

HEC-RAS shall be used to complete the hydraulic analysis. The analysis shall be in accordance with the recommendations provided within HEC-RAS guidance documentation.

The conservative maximum tailwater condition shall govern the hydraulic design of bridges.

4.3 HY-8 MODELING BEST PRACTICES

This hydraulic engineering software is not to be used for the final design of culverts but can be used as a secondary (check) design internally when developing a project. HEC-RAS is the preferred hydraulic engineering software for culverts.

DRAFT - INTERNAL REVIEW ONLY

SECTION 5 – STORM SEWERS

5.1 STORM SEWERS

The purpose of this section is to establish standard procedures and criteria for conducting hydrologic and hydraulic analyses of storm sewers within Montgomery County.

5.1.1 DESIGN FLOW FREQUENCY CRITERIA

The design flow frequency criteria to be used for continuous closed conduit systems are given below:

1. Peak flow rates for the design storm event and extreme storm event shall be determined using the hydrologic methodologies outlined in ***Section 2***.
2. For the portions of the storm sewer system with a cumulative service area less than or equal to 100 acres, the design storm shall be the 20% (5-year) frequency event.
3. For the portions of the storm sewer system with a cumulative service area greater than 100 acres, the design storm shall be the 1% (100-year) frequency event.
4. Closed conduit systems receiving runoff from an upstream open channel shall be designed for the 1% (100-year) ultimate discharge from the channel.
5. For all service areas, open ditch drainage, and portions of the storm sewer system, overland flow shall be considered for the 1% (100-year) storm event as discussed in ***Section 5.4.1***. Thoroughfares shall have at least one passable lane in each direction during the 1% (100-year) storm event.

5.1.2 DESIGN TAILWATER CONDITIONS

The following tailwater conditions shall be used for determining the hydraulic grade line for the closed conduit system discharging into a detention facility:

1. The 10% (10-year) water surface elevation of receiving stream/pond;
2. The top (soffit) of the discharging pipe; or
3. A known or regulatory water surface elevation.

The highest water surface elevation of the above criteria will govern, i.e., the conservative maximum.

5.2 CLOSED CONDUIT

The purpose of this section is to establish standard procedures and criteria for conducting hydrologic and hydraulic analyses of closed conduits systems within Montgomery County.

5.2.1 DESIGN CRITERIA

The following specific criteria and requirements shall apply to the design and construction of storm sewer systems in Montgomery County. See ***ATTACHMENT 10.5*** and ***ATTACHMENT 10.6*** for an example calculations worksheet.

DRAFT – INTERNAL REVIEW ONLY

1. Calculations to determine the conduit sizes needed to convey the calculated design flow assuming full flow conditions shall use Manning's Equation.
2. Calculation of the hydraulic grade line for design conditions in a specific branch of storm sewer shall proceed upstream from the water surface level in the outfall channel as specified in ***Section 5.1.2***.
3. The storm sewer system shall be designed to convey runoff from the design storm event without causing the hydraulic grade line to exceed the gutter flow line in the street.
4. The minimum diameter of a storm sewer pipe shall be 24 inches. Leads may be 18 inches.
5. Pipe sizes shall not decrease in the downstream direction, regardless of additional capacity developed by increased pipe slope.
6. Pipe soffit (inside top) elevations shall match whenever practical.
7. The minimum velocity to be allowed in a section of storm sewer flowing full shall be 3 feet per second. The maximum velocity shall be 10 feet per second. Erosion protection will be necessary in areas of high turbulence or velocity as typically found at the outfall of storm sewers into the main channel.
8. All storm sewer, located within, or servicing, a dedicated right-of-way shall be constructed with reinforced concrete pipe (RCP), or high-performance polypropylene pipe (HPPP).
    a. RCP shall be used when pipe crosses transverse a roadway, such as inlet-to-inlet connections.
    b. RCP shall be used when pipe diameter is greater than 48 inches.
9. All storm sewers and appurtenant construction shall conform to TxDOT specifications and all subsequent revisions or approved equal, except HPPP shall, in addition to TxDOT specifications;
    a. Not exceed manufacturer's specifications for maximum cover;
    b. Provide detail sheet, signed and sealed by the engineer-of-record, in all construction documents. The engineer-of-record is required to confirm the conditions for the project and structural adequacy of the pipe system.
    c. Provide certification, signed and sealed by the engineer-of-record, showing mandrel testing not exceeding 5% deflection. If mandrel test results exceed 5% deflection, repair or reinstallation is required.
        i. Two mandrel tests shall be required. The first shall be conducted prior to placement in the Developer Maintenance Period, and no sooner than 30 days from installation. The second shall be conducted prior to final acceptance by Montgomery County.
    d. Written approval from the entity responsible for maintaining the pipe, that the use of HPPP is authorized.
10. Where easements are restricted to storm sewers, the storm sewer shall be centered within the limits of the easement. The easement shall be twice the depth of the flowline of the pipe, with a minimum of 15 feet.
11. For all storm sewers with a cross-sectional area equivalent to a 42-inch diameter pipe or larger, soil borings with logs shall be made along the alignment of the storm sewer at intervals not to exceed 500 feet and to a depth not less than 3 feet below the flowline of the sewer. The required bedding of the storm sewer as determined

DRAFT – INTERNAL REVIEW ONLY

from these soil borings shall be shown in the profile of each respective storm sewer. The design engineer shall inspect the open trench and may authorize changes in the bedding indicated on the plans. Such changes shall be shown on the record drawings and, along with soil boring logs, submitted to the County Engineer. All bedding and subsequent revisions shall be constructed as specified in TxDOT Specifications or approved equal.

12. All storm sewer inlet leads shall be designed in a straight-line alignment.
13. All storm sewers shall be located in public street right-of-way or in easements that will not prohibit future maintenance access.
14. No storm sewers shall be placed longitudinally under the pavement. Additional manholes may be required in the system as determined by the County Engineer so that the length of the storm sewer pipe under pavement is minimized.

5.2.2 MANNING'S "n" FOR CLOSED CONDUIT PIPE MATERIAL

The values in Table 5-1 show typical Manning's coefficients for typical materials in Montgomery County.

Table 5-1 Typical Pipe Material Manning's "n" Values

Material	Roughness Coefficient
Reinforced Concrete Pipe	0.012
Reinforced Concrete Boxes	0.012
Thermoplastic Pipe (HPPP) & (HDPE)	0.012

5.2.3 MANHOLES

Manholes shall not be placed within the pavement cross-section and shall be placed at the following locations:

1. At the location of all changes in storm sewer size or cross section,
2. At storm sewer intersections or points of intersection,
3. At storm sewer slope changes,
4. At all inlet lead intersections with the storm sewer where precast concrete storm sewers are proposed,
5. At maximum intervals measured along the centerline of the storm sewer per Table 5-2 below.

Table 5-2 Manhole Placement Intervals

Pipe Diameter or Height (in.)	Maximum Distance (ft.)
≤36	400
42-54	600
60+	900

Not located within the wheel path of the street travel lane.

5.3 INLETS

DRAFT – INTERNAL REVIEW ONLY

5.3.1 DESIGN CRITERIA

The following specific criteria and requirements shall apply to the design and construction of inlets.

1. Curb inlets shall be constructed per the latest TxDOT specifications or approved equivalent.
2. Inlets shall be spaced so that the maximum travel distance of water in the gutter will not exceed 700 feet one way for residential streets and 330 feet one way on thoroughfares and streets within commercial developments.
3. Curb inlets shall be located on intersecting side streets to thoroughfares for all original designs or developments to prevent concentrated storm water flow from crossing traffic lanes. Special conditions warranting other locations of inlets shall be determined on a case-by-case basis.
4. All storm sewer inlet leads shall be designed in a straight-line alignment.
5. All inlets shall be located in rights of way or in easements that will not prohibit future maintenance access.
6. Hydraulic design of all inlets shall be done in accordance with the TxDOT Hydraulic Design Manual Chapter 10 Section 6.

5.4 EXTREME EVENT ANALYSIS

Street layout and pavement grades are the key components in developing a successful system which can convey the storm sewer overflows to the outfall channel designed to convey runoff from the 1% (100-year) storm event.

5.4.1 LAND PLAN AND STREET LAYOUT

For any offsite runoff that is draining toward the proposed development, drainage infrastructure (swales, channels, or storm sewer systems) shall be proposed to capture and convey the runoff through or around the development in a manner that is controlled and does not impact neighboring properties.

Excessive street cuts which can create ponding levels that hamper vehicle access and/or present a flood hazard shall be avoided.

The maximum allowable ponding level in a street during a developed 1% (100-year) storm event is the lowest of the following:

1. 1.0 foot (12 inches) above the top of curb
2. 1.0 foot (12 inches) below the lowest finished floor elevation
3. Natural ground at the street right-of-way

The design engineer shall verify that the storm sewer system and inlets can convey flows from a 1% (100-year) storm event without ponding water in the street at levels that exceed the maximum allowable levels. The County requires an emergency overflow swale at the lowest sag inlet in the system with the capacity to convey the 1% (100-year) excess flow

DRAFT - INTERNAL REVIEW ONLY

from the contributing drainage area. When sizing the emergency overflow swale, assume the final inlet is clogged. The emergency overflow swale shall have armored protection.

The surface flow conveyance system shall be contained within an easement dedicated to the appropriate authority, or a reserve. The easement shall be of sufficient width to operate and maintain the system. The design engineer shall submit supporting calculations, exhibits, and drawings which define the conveyance capacity of the roadway, the flow paths of overland sheet flow, and the ponding depths of overland sheet flow.

5.4.2 EXTREME EVENT ROUTING ANALYSIS

To determine whether adequate conveyance capacity has been provided to route extreme event flows to the outlet location, the following two methods are acceptable:

1. **Method 1**: **Hydraulic Grade Line Analysis**. This method is a simplified approach to analyze and control the 1% (100-year) water surface elevation by designing the storm sewer system for the 20% (5-year) frequency rainfall event; imposing a 1% (100-year) frequency storm event on the proposed design; calculating the hydraulic grade for the 1% (100-year) frequency event for the proposed design; and adjusting the position of the HGL to not exceed the critical elevation by increasing the size of the proposed storm sewer for selective reaches. Special care should be taken to ensure the inlets have sufficient capacity to convey the necessary flow to the storm sewer pipe system.

2. **Method 2**: **Overland Analysis**. This method utilizes overland flood routing to control the 1% (100-year) water surface elevation by designing the storm sewer for the 20% (5-year) frequency rainfall and designing the overland drainage system (either street gutters or emergency swales) to route the excess flows not conveyed by the storm sewer system and inlets to the outlet point. Typically, the street crests should be cascaded to allow flood waters to pass over the road crest before reaching critical ponding depths. In cases where this is not possible due to topographic restraints, overland channel systems will be required to convey the excess runoff away from the streets and to the outlet point.

Equation 5-1 Total Flow Conveyance

$$Q_t = Q_o + Q_c$$

Where,

Q_t = Total flow conveyed in cubic feet per second;
Q_o = Calculated overland flow in cubic feet per second;
Q_c = Calculated flow in the conduit for the 5-year design event in cubic feet per second.

The overland flow component (Q_o) is computed by applying Manning's Equation to calculate the flow across the critical street cross-section, along the right-of-way, or over the overflow emergency swale. For thoroughfares, the overland flow component is

DRAFT - INTERNAL REVIEW ONLY

computed by applying Manning's Equation to calculation the flow across the critical street cross-section, along the right-of-way, allowing for one passible lane in each direction. This method accounts for flow in the storm sewer and overland flow across the street crest, but it does not account for street ponding or storage.

5.5 EPA-SWMM MODELING BEST PRACTICES

This section is intentionally left blank.

DRAFT - INTERNAL REVIEW ONLY

SECTION 6 – DETENTION

6.1 GENERAL

The purpose of this section is to establish standard procedures and criteria for designing detention facilities within Montgomery County.

Detention facilities with an outfall berm or dam are subject to Title 30 Texas Administrative Code (TAC) Chapter 299 (Sub chapters A through E, latest edition). The height of a detention facility or dam is defined as the distance from the lowest point on the crest of the dam (or embankment), excluding spillways, to the lowest elevation on the centerline or downstream toe of the dam (or embankment) including the natural stream channel. Subchapters A through E of Chapter 299 classify dam sizes and hazard potential and specify required failure analysis and spillway design flood criteria. The Texas Commission on Environmental Quality (TCEQ) is the regulatory authority for dams in the State of Texas.

Contributing drainage area is the total land area, both developed and undeveloped, from which runoff is produced and routed into the detention facility. This may include any offsite runoff captured and routed through the site to the detention facility.

6.2 DESIGN FREQUENCY

All projects subject to the requirements of this manual, shall be designed to mitigate, and attenuate the runoff for the 20% (5-year), 10% (10-year), and 1% (100-year) storm events.

6.3 DETENTION VOLUME

In accordance with the regulation set forth in this manual, all proposed developments, regardless of size shall be required to provide detention. The detention facilities are designed to temporarily hold and control excess storm water runoff during heavy rainfall events. The typical purpose of a detention facility is to mitigate the impacts of increased runoff caused by development and impervious surfaces that can lead to flooding, erosion, and water quality degradation.

This section discusses the appropriate calculation methods for determining the volume and appropriate outlet size for a detention facility. The available methods for designing detention facilities are summarized in Table 6-1.

Table 6-1 Detention Design Summary

Drainage Area	Section	Minimum Detention Rate	Volume Method	Outflow Method
≤ 20 ac.[1]	***Section 6.3.6***	Figure 6-3 Table 6-3	Flat Rate	Static TW

DRAFT – INTERNAL REVIEW ONLY

> 20 ac.	***Section 6.3.7***	0.55 ac-ft/ac	Approved Modeling Software	***Section 6.3.7***

[1]This cannot be used if there is an outfall diversion. See Section 6.2.3

Any volume of water held in public infrastructure (storm sewer, roadside ditch, etc.) shall not be included as available detention volume.

6.3.1 STANDARD MINIMUM DETENTION STORAGE RATE

The detention volume necessary to mitigate impacts caused by a proposed development, the 1% (100-year) standard minimum detention storage rate for all projects within Montgomery County shall be 0.55 acre-feet of detention storage volume for every 1 acre of developed area. This minimum rate must be applied to the entire proposed development that results in a change in land condition, including the detention facility itself. The total volume shall be provided at the 1% (100-year) maximum ponding elevation. The minimum detention rate does not include storage volume used to mitigate floodplain fill and does not include storage volume in an existing floodplain.

The standard minimum detention storage rate applies to drainage areas ≥ 20 acres.

Example #1 Single Detention Pond Development
Developed Area = 100 acres
Contributing Drainage Area ≥ 20 acres
1% Minimum Detention Volume = 100 acres x 0.55 ac-ft/acre = 55 ac-ft

- Pond "SA" 1% Volume = 55 ac-ft

Example #2 Multiple Detention Ponds Development
Developed Area = 100 acres
All Contributing Drainage Area ≥ 20 acres
1% Minimum Detention Volume = 100 acres x 0.55 ac-ft/acre = 55 ac-ft

- 1% Pond "MA" 1% Volume = 27 ac-ft
- 1% Pond "MB" 1% Volume = 29 ac-ft
- 1% Pond "MC" 1% Volume = 8 ac-ft
    - Total Provided 1% Volume = 64 ac-ft > 1% Minimum Volume = 55 ac-ft

Note that this is the minimum rate; when the actual analysis is performed, the calculated required detention volume may exceed this rate based on the type of development, outfall conditions, location within the county, or other factors.

Exceptions to this minimum rate include:

1. No detention is require for one (1) single family home proposed for an individual residential lot not part of a larger development.
2. Any project that disturbs less than a cumulative 15,000 square feet of area is exempt from detention requirements. Any previous improvements on a site contribute to the cumulative value.

DRAFT – INTERNAL REVIEW ONLY

3. Stand-alone parks or open space not associated with a residential or commercial development. The detention rate for these projects shall be based on the calculated detention volume of the proposed park/open space. The minimum detention rate does not apply.
4. Roadway projects including new roads and modifications to existing roads not associated with a residential or commercial development. The minimum rate of detention for these projects shall be based on the calculated detention volume of the roadway. The minimum detention rate does not apply.
5. The minimum detention rate for residential developments where the minimum lot size is greater than 1 acre is 0.35 acre-feet/acre.
6. Developments with a contributing drainage area of 20 acres or less (See Section 6.3.6)

6.3.2 DETENTION OUTFALL

The detention facility shall outfall as near as possible to the existing discharge location.

6.3.3 ALLOWABLE DISCHARGE

The pre-project conditions allowable discharge for a detention facility shall be less than or equal to the peak flow rates from a SINGLE, UNDIVIDED, PRE-DEVELOPED CONTRIBUTING DRAINAGE AREA with ONE LONGEST FLOW PATH determined for time of concentration and lag time, and ONE WEIGHTED CURVE NUMBER value for the required storm events.

Excessive drainage area subdivision for pre-project conditions allowable discharge will not be accepted because it artificially inflates the peak flow rates by 1) shortening the travel time and 2) by stacking the various individual peak flows at a single outlet point, i.e., “hydrograph stacking” as shown in scenario #1 below.

Examples of unnecessary drainage area subdivision include dividing a drainage area at any of these upstream locations:

1. An upstream confluence.
2. An upstream roadway or railroad.
3. An upstream bridge or culvert.
4. At project boundaries.
5. At city limits or political boundaries.

Exceptions to the above statement include:

1. Any/all upstream detention and/or natural ponds – this is due to the mitigation impact upon the watershed which shall be considered for the purpose of allowable discharge.
2. Flow change locations based on ***2.3.3 FEMA Flood Insurance Study Data***.

DRAFT – INTERNAL REVIEW ONLY

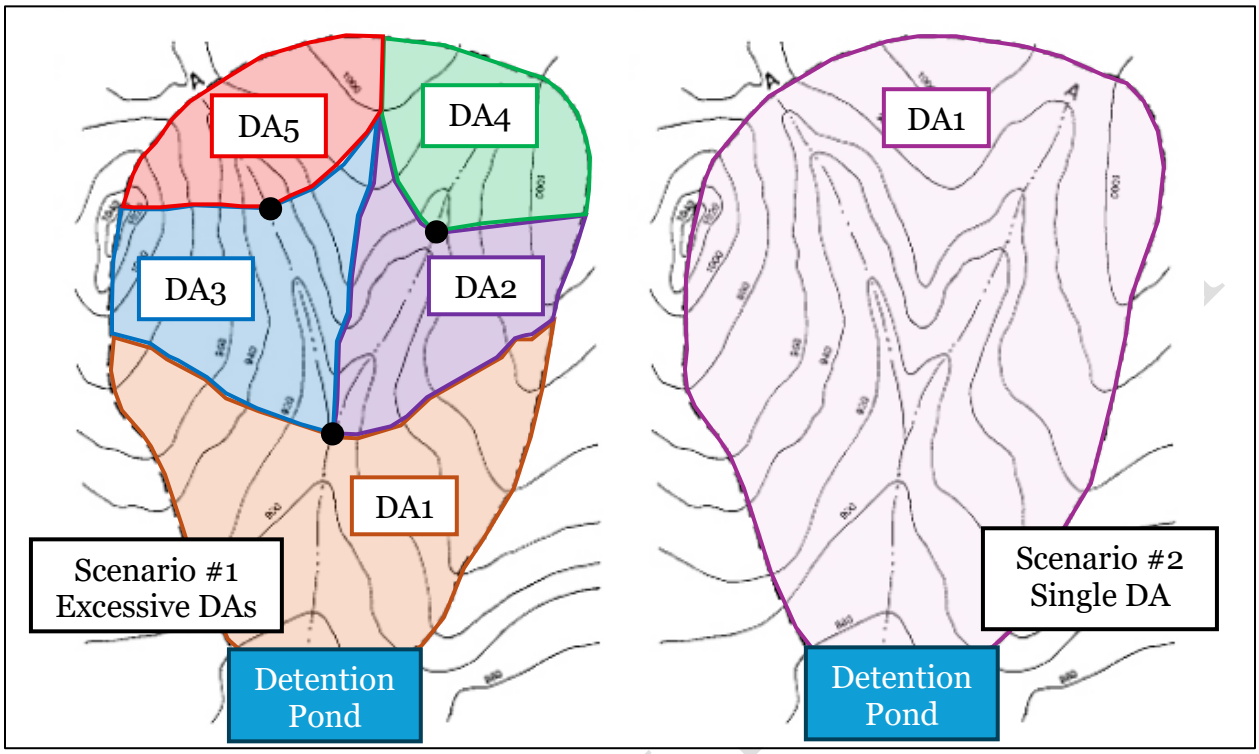

Figure 6-1 Excessive and Single Drainage Area Subdivision for Pre-Project Conditions Allowable Discharge (Non-FEMA Studied Streams)

6.3.3.1.1 FLOW DIVERSIONS

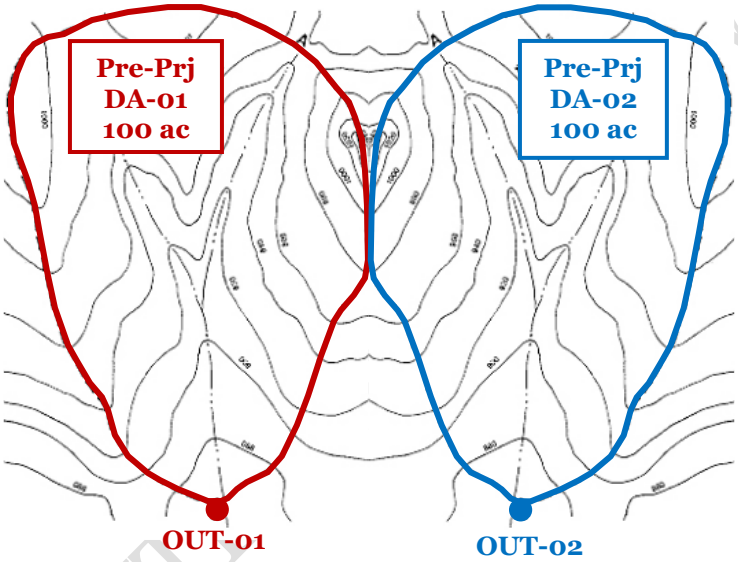
A flow diversion, also known as split flow, is defined as the redirecting of the natural flow of water into a different direction or location to accommodate a proposed development feature (e.g., perimeter berm, channel re-alignment, etc.). Flow diversions can affect times of concentration for the drainage area and result in a change to the peak flow rate for that watershed. Specifically, when the time of concentration decreases, the resulting peak flow rate increases. The total outflow from the proposed development is the summation of the detention pond(s) outflow plus the diversion(s) outflow, as seen in Equation 6-1. This shall be less than or equal to the allowable discharge for all design storm events.

Equation 6-1 Flow Diversion

$$Q_{allowable} \geq Q_{detention\ outfall} + Q_{diversion}$$

The peak flow rate from the diversion shall not be ignored when checking for no adverse impact.

6.3.4 SIDE FLOW WEIRS



DRAFT – INTERNAL

The use of side flow weirs to divert inflow to an offline detention pond for a development from an adjacent riverine feature may be approved on a case-by-case basis.

6.3.5 OUTFALL DIVERSION

An outfall diversion occurs when development or infrastructure drainage systems divert storm water from one outfall location (e.g., "DA-01" and "OUT-01") to another (e.g., "DA-02" and "OUT-02") from the Pre-Project (Existing) Conditions to the Post-Project (Proposed) Conditions. To illustrate this, consider the following example:

Pre-Project Conditions Drainage Areas
(no outfall diversion present)

DRAFT - INTERNAL REVIEW ONLY

Post-Project Conditions Drainage Areas
(includes an outfall diversion)

The green area highlighted initially flowed to **OUT-02** (**DA-02**) but now flows to **OUT-01** (**DA-01**), resulting in an outfall diversion condition as well as a change in the size of the drainage areas.

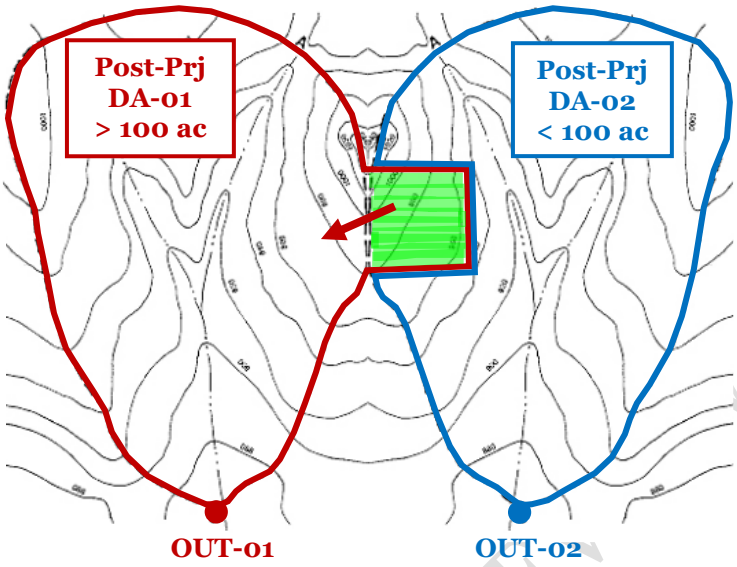


Figure 6-2 Outfall Diversion Scenario

If the proposed development is causing a diversion, the following criteria are required:

1. Allowable discharge must be calculated based on the pre-project conditions (un-diverted) drainage areas.
2. Runoff volume from the diverted area must be included in the detention volume calculation, and approved modeling software must be used for the calculations.
3. The drainage report or plans must document the pre-project and post-project outfall boundaries relative to the proposed project drainage area boundary. The report must also discuss the reason for the diversion.
4. This will typically result in an increased detention rate for the project.
5. Limited drainage area may be diverted based on the cases discussed in Table 6-2.

Table 6-2 Outfall Diversion Cases

Condition	Diverted Area	Necessary and Required Outfall Conditions
1	≤ 50%	Improved (cleared and graded) Channel or Natural Steam with a Depth of More Than 15 ft.
2	≤ 30%	Natural Streams with a Depth Between 5 and 15 ft.
3	≤ 10%	Natural Channel with a Depth Less Than 5 ft. or Undefined Channel or Sheet Flow or Roadside Ditch

DRAFT - INTERNAL REVIEW ONLY

Examples for Post-Project Conditions Maximum Diverted Drainage Area using a Pre-Project Conditions Drainage Area of 100 acres.

1. Condition 1: Post-Project Maximum Diverted Drainage Area = 150 acres
2. Condition 2: Post-Project Maximum Diverted Drainage Area = 130 acres
3. Condition 3: Post-Project Maximum Diverted Drainage Area = 110 acres

6.3.6 PUMPED DETENTION

Pumped detention may be used when a full gravity drained system is not possible due to land and terrain constraints. Pumped detention facilities will not be maintained by the County under any circumstances and will be approved for use only under the following conditions:

1. A full gravity system is not feasible based on provided engineering calculations and site characteristics.
2. A maximum of 50% of the required storage volume is pumped.
3. At least two pumps are provided, each of which is sized to pump the design flow rate. If a triplex system is used, any two of the three pumps shall be capable of pumping the design flow rate.
4. Gravity plus pumped flow shall not exceed maximum allowable outflow rate. Pump and system curves must be provided to document range of flows expected from the pump or system of pumps.
5. Fencing of the control panel is provided to prevent unauthorized operation and vandalism.
6. An Operations and Maintenance Plan (O&M) for the detention facility is submitted, which includes the entity responsible for maintaining the pumped facility, and clearly define the owner's responsibility for the continued operation, inspection and maintenance for the facility to ensure long-term functionality.
7. Emergency (backup) power supply shall be provided to ensure proper function during period of power outage. A power inlet is not sufficient to meet this requirement.

6.3.7 ALLOWABLE DRAIN TIME REQUIREMENTS

Allowable drain time is defined as the maximum allowable time to drain greater than 90% of the detention volume. It should be noted that 100% drain is not always possible as in many cases due to the modeling software receding hydrograph limb approaching zero (0) well beyond the maximum drain time. Drain time is evaluated without a tailwater condition (free outfall), starting at the maximum water surface elevation in the detention facility from a 1% (100-year) storm event. Consider the following:

1. Standard maximum drain time **less than 48 hours**.
    a. Special cases: Any deviation from this requirement must be approved by the County Engineer and shall not exceed 72 hours.

DRAFT – INTERNAL REVIEW ONLY

   i. Projects directly discharging into a named major river or stream or Lake Conroe may be a special case for > 48 hours drain time.
   ii. These situations will be considered by the County Engineer on a case-by-case basis.
2. In the case where extensive development is downstream and/or systems with limited capacity, the maximum drain time is 48 hours, no exceptions. This will ensure maximum capacity (i.e., dry ditches and storm sewers, etc.) for all downstream stormwater infrastructure.
3. For detention ponds in a series, the total drain time for the series shall be the standard maximum drain time.

To manually calculate drain time, use the following equation:

Equation 6-2 Drain Time

$$T = \frac{V}{Q}$$

Where,
T = Drain time in hours;
V = Volume in acre-feet;
Q = Detention pond outflow in cubic feet per second;
43,560 square feet / 1 acre and 3,600 seconds / 1 hour

Example Drain Time Calculations:

Volume = 142. ac-ft
Outflow = 38.3 cfs
Drain Time: (14.2 ac-ft / 38.3 cfs) x (43,560/3,600) ≈ 4.5 hours

The manual calculations are for reference only and will only apply in the simplest, small-site, detention designs. The use of H&H modeling software is preferred.

6.3.8 CONTRIBUTING DRAINAGE AREA OF 20 ACRES OR LESS

For developments with a contributing drainage area of 20 acres or less, detention facilities shall be designed using the required storage rate from Figure 6-3.

For areas below 25% impervious, a storage rate of 0.35 acre-feet/acre can be used. For areas greater than 25% impervious, the following equation can be used to identify the storage rate.

Equation 6-3 Storage Rate

$$\textbf{Storage Rate} = (0.0073 * \%\ \textbf{Impervious}) + 0.1667$$

DRAFT - INTERNAL REVIEW ONLY

The "Guide for Small Site Developments" included in ***ATTACHMENT 10.4*** includes a worksheet for sizing detention for small developments.

The contributing drainage area is the total land area, both developed and undeveloped, from which runoff is produced and routed into the detention facility. This may include any offsite runoff captured and routed through the site to the detention facility. The detention rate will be determined based on the ratio of the total area of proposed impervious cover to the total contributing drainage area.

The outlet structure shall be designed to convey peak flow rates from the detention facility that are less than or equal to the maximum allowable release rate for the 20% (5-year) and 10% (10-year) storm events. The 1% (100-year) discharge shall be as near to the 1% (100-year) allowable rate as possible, without exceeding it. The maximum release rate is the pre-developed peak flow rate for the site determined with the Rational Method presented in ***Section 2.3.1***.

H&H modeling software (e.g., HEC-HMS, HEC-RAS, EPA-SWMM, etc.) will not be acceptable for small site detention projects of less than 20 acres without prior approval by the county engineer because the method described in this section represents a simplified method for assessing detention volume (ac-ft), water surface elevation (ft), and detention outflow (cfs).

For the outflow structure headwater conditions, the maximum 1% (100-year), 10% (10-year), and 20% (5-year) water surface elevations in the detention facility shall be based on the volume relationships listed below:

1. For the 1% (100-year) storm event, use the "at freeboard" volume in the detention facility to estimate the 1% (100-year) design volume and resulting maximum water surface elevation.
    a. Refer to Table 6-4 for detention facility minimum freeboard values.
    b. Minimum freeboard values range from 6" to 12".
2. For the 10% (10-year) storm event, use 65% of the 1% (100-year) design volume in the detention facility to estimate the 10% (10-year) design volume and resulting maximum water surface elevation.
3. For the 20% (5-year) storm event, use 50% of the 1% (100-year) design volume in the detention facility to estimate the 20% (5-year) design volume and the resulting maximum water surface elevation.

For the outflow structure tailwater conditions shall be the highest of the following:

1. The 10% (10-year) water surface elevation of the receiving system;
2. The top of the restrictor's opening area;
3. A known static water surface elevation (i.e., amenity level) of the receiving pond.

The highest water surface elevation of the above criteria will govern, i.e., the conservative maximum.

6.3.8.1 SMALL DETENTION OUTLET STRUCTURE DESIGN

Submerged orifice calculations shall be used to estimate release rates from the outlet structure. A sample submerged orifice may be seen in Figure 6-4. The following equation may be used to compute the capacity:

Equation 6-4 Orifice Flow

$$\boldsymbol{Q = C * A * \sqrt{2 * g * \Delta h}}$$

Where,

Q = The flow capacity of the orifice in cubic feet per second;
C = The orifice flow coefficient (typically 0.8 – 0.6)
0.8 for a relatively short segments of pipe
0.6 for opening in plates, standpipes, or concrete walls;
A = The cross-sectional area of the orifice in square feet;
g = Gravitational Constant = 32.2 feet per second squared;
Δh = The difference in elevation between the headwater and the tailwater.

DRAFT - INTERNAL REVIEW ONLY

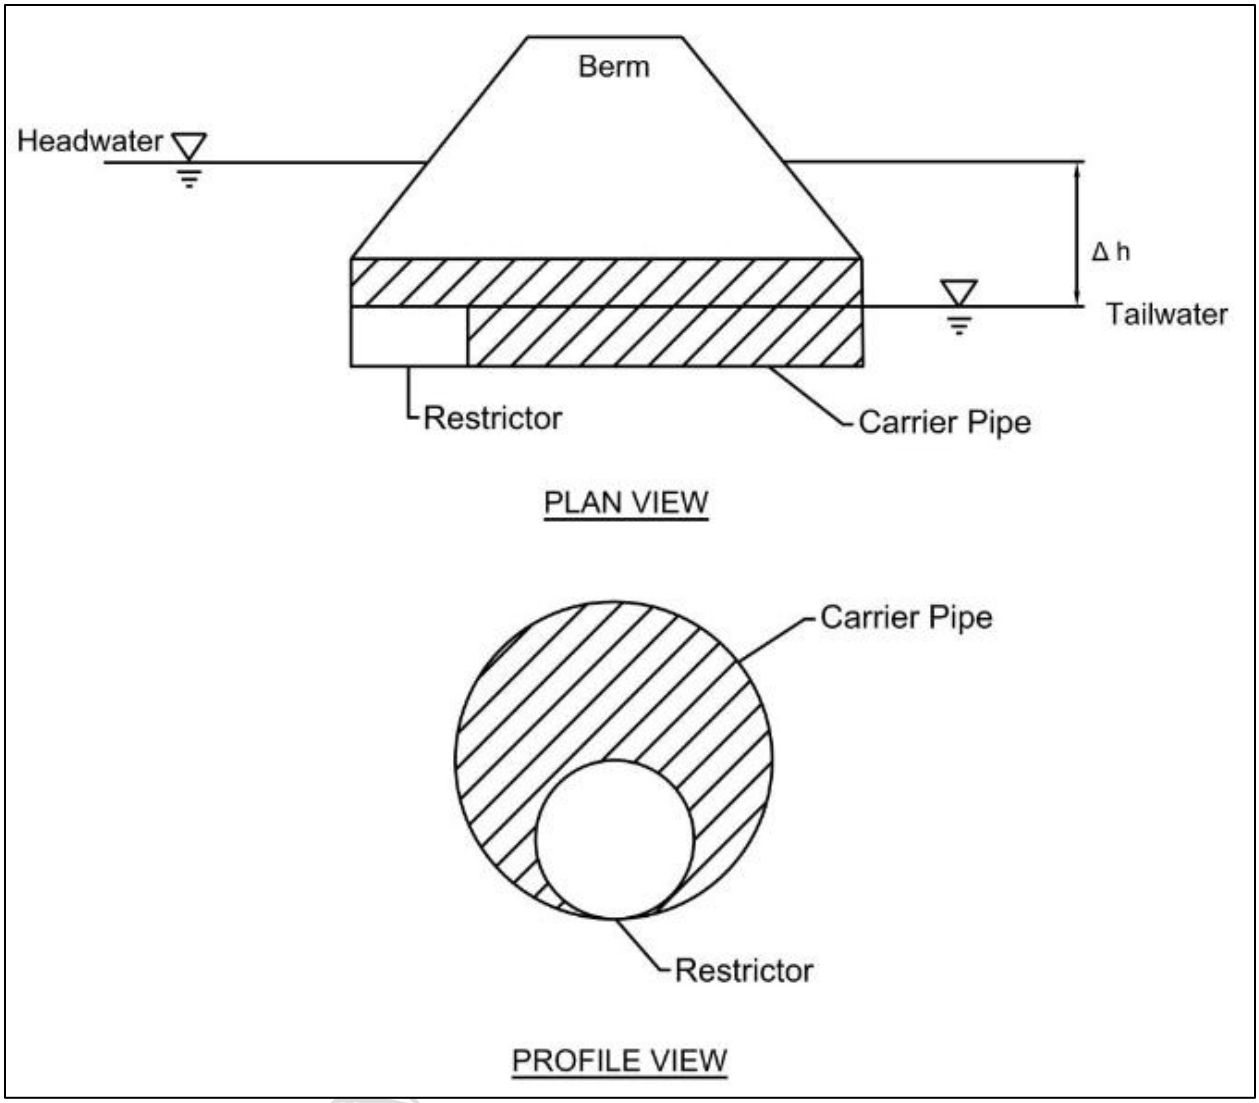

Figure 6-4 Submerged Orifice

The following equations, Equation 6-5 and Equation ***6-6***, can be used to calculate the discharge over a weir spillway crest:

Equation 6-5 Standard Weir Flow

$$\boldsymbol{Q = C * L * H^{3/2}}$$

Equation 6-6 Trapezoidal Weir Flow

$$\boldsymbol{Q = \frac{2}{5} * C_w * Z * H^{2.5}}$$

Where,

Q = The discharge over the weir;

C = Broad crested weir discharge coefficient (range 2.0 – 3.0)

DRAFT

		3.330 for sharp crested 3.090 for broad-crested (typical value) 3.367 for trapezoidal weir (typical value)
L	=	The length of the spillway crest;
H	=	The elevation distance between the water surface and the spillway crest
Z	=	Side slope (Z horizontal to 1 vertical)

6.3.9 CONTRIBUTING DRAINAGE AREA GREATER THAN 20 ACRES

For developments with a contributing area greater than 20 acres, the required detention volume shall be based on routing an inflow hydrograph through the detention facility. Both pre-developed and post-developed (mitigated) conditions hydrographs shall be evaluated using the using the NRCS method as presented in ***Section 2.3.2***. However, the Peak Rate Factor shall be set to 150 rather than 300 for both pre-developed and post-developed conditions.

HEC-HMS shall be used to perform detention routing using the Modified Puls routing method for the detention facility. The use of HEC-RAS, manual calculations or other software programs will not be allowed for detention design. The model shall then be used to verify the required volume of the facility, determine the size of the outlet structure(s), and demonstrate that the 20% (5-year), 10% (10-year), and 1% (100-year) post-developed peak flow rates are less that the pre-developed conditions peak flow rates.

For detention design and check, the following tailwater conditions shall be used:

1. For design of the system:
    a. Non-FEMA Studied Streams, the highest of:
        i. the outflow pipe (or box) soffit elevation (non-FEMA streams) or
        ii. the discharge channel's static WSEL for the 20% (5-year), 10% (10-year), 2% (50-year) storms.
    b. FEMA Studied Streams
        i. the 20% (5-year), 10% (10-year), 2% (50-year), and 1% (100-year) regulatory WSELs for outlets discharging into FEMA studied streams.

2. For check – the coincidental peak condition of the following storm events:
    a. 1% (100-year) detention and 1% (100-year) receiving channel
    b. 10% (10-year) detention and 10% (10-year) receiving channel
    c. 20% (5-year) detention and 20% (5-year) receiving channel

    Coincident peak condition occurs when the peak runoff from the detention pond arrives at the exact same time as the peak flood stage in the receiving stream.

Free outfall is only applicable for drain time estimation and neither for detention pond design nor checks. Drain time is estimated separate from design and check.

DRAFT – INTERNAL REVIEW ONLY

Variable tailwater (i.e., rating curve and/or dynamic tailwater) conditions are not allowed for detention pond design nor checks but may be appropriate for Peak Flow Timing Control.

Both design and check are required for all county detention pond designs submitted to the county for review and approval. The conservative maximum tailwater condition will govern the detention pond design.

6.4 DETENTION STRUCTURE DESIGN

The structural design of detention facilities is similar to the design of open channels. For this reason, all requirements from ***Section 3*** pertaining to the design of grass or concrete-lined channels shall also apply to grass or concrete-lined detention facilities. Typical cross sections and layouts of detention facilities are provided in Figure 6-3 and Figure 6-4.

1. The maximum side slope allowed is 4H:1V for long term stability and maintenance.
2. A maintenance access of at least 20 feet is required for all sides of the detention facility regardless of the maximum depth within the facility. The maintenance access shall include a flat drivable surface a minimum of 12 feet wide.
3. For dry bottom detention facilities, a pilot channel is required to ensure that proper and complete drainage of the storage facility will occur. Concrete pilot channels shall have a minimum depth of 6 inches and a minimum flowline slope of 0.0005 feet per foot. The maximum side slope allowed is 2H:1V. Unlined pilot channels shall have a minimum depth of one foot, a minimum flowline slope of 0.001 feet per foot, and maximum side slopes of 4H:1V.
4. The bottom slopes of the detention facility shall be graded toward the pilot channel at a minimum slope of 0.005 feet per foot. Detention facilities which make use of a channel section for detention storage are not required to have a pilot channel but shall be built in accordance with the requirements for open channels as outlined in Section 3.
5. Per ***Section 6.4.3***, an emergency spillway shall be provided at the 1% (100-year) storage elevation with sufficient capacity to convey at least the 1% (100-year) developed storm event assuming blockage of the closed conduit portion of the outlet. Spillway must be wide enough to ensure no overtopping outside the spillway during the aforementioned circumstance. Spillway requirements must also meet all appropriate state and federal criteria. Supporting hydraulic calculations shall be provided for all spillways.
6. Wet bottom facilities shall have a minimum water depth of 6 feet to prevent the growth of vegetation, and to minimize mosquito breeding.
7. Pipes, culverts, and conduits used in the outlet structures shall be carefully constructed with sufficient compaction of the backfill material around the pipe structure as recommended in the geotechnical analysis. Generally, compaction density shall be the same as the rest of the structure.
8. A calculation summary table shall be provided with the construction plans. Stage-storage values must be shown on plans, and include the 20% (5-year), 10% (10-year), and 1% (100-year) water surface elevation.

DRAFT - INTERNAL REVIEW ONLY

6.4.1 OUTFLOW STRUCTURES

Outflow structures shall be sized to meet the criteria outlined in ***Section 6.3***. Additional criteria include:

1. The minimum allowable diameter for an outflow pipe of a detention facility is 18 inches.
2. When the outfall configuration includes a restrictor, the restrictor shall be installed on the detention facility side of the outlet. The engineer shall indicate the restrictor material and type (plate, pipe, etc.) and provide details of the open area geometry (length, width, diameter, and elevation) of the restrictor in the drainage report and plan set. The minimum opening size for any restrictor shall be a 6-inch diameter or a 5-inch wide by 6-inch-high rectangular opening.

Smaller restrictor openings effect the hydrologic and hydraulic performance of the detention pond outlet, and may require a larger pond area to not exceed the allowable discharge. A smaller restrictor may increase discharge velocity, and thus increase the potential for scour. The use of erosion control is required in accordance with ***Section 3.3***.

Roadside ditches on county roads may be used as drainage outfalls only when all the following conditions are met:

1. The property being developed drains naturally to the roadside ditches in pre-developed conditions.
2. Peak flow rates leaving the development are limited to the peak flow rates naturally draining to the roadside ditch in pre-development conditions.
3. The outfall is designed and constructed in accordance with the requirements of ***Section 4.1.6***.
4. The outfall shall meet the requirements of ***Section 3.2***

6.4.2 HYDRAULICALLY CONNECTED DETENTION PONDS

Two or more detention ponds that are interconnected (via hydraulic structure, storm sewer system, culvert(s), weir/orifice, etc.) cannot be assumed to rise and fall simultaneously unless verified via unsteady hydraulic modeling. This assumption is an oversimplification of a complex hydraulic system and shall not be allowed for the sake of public safety.

The primary concern is that detention ponds that do not rise and fall simultaneously may in fact be over topped and cause localized flooding in the streets and neighboring drainage systems.

6.4.3 EXTREME EVENT OVERFLOW

DRAFT - INTERNAL REVIEW ONLY

An extreme event overflow structure shall be included with all detention facilities to ensure adequate capacity is available to convey flows out of the detention facility that are produced by a storm event that exceeds the 1% (100-year) storm event or in case the primary outlet becomes clogged. The extreme event overflow structure shall be sized with the following criteria:

Extreme Event Overflow Weir

1. Set the minimum extreme event weir crest elevation at or above the maximum 1% (100-year) water surface elevation in the detention facility.
2. Size the extreme event weir to convey the post-project undetained 1% (100-year) flow so that the 1% (100-year) water surface elevation (WSEL) does not exceed the top-of-bank of the facility while assuming that the principal outlet structure is completely blocked.
3. Size the extreme event weir assuming a normal pool level (if a wet bottom facility) or a dry condition (if a dry bottom facility) at the beginning of the storm.

Other types and/or shapes of extreme event overflow structures shall be sized in a similar manner, whether pipe or otherwise. Size the extreme event overflow structure, assuming a normal pool level (if a wet bottom facility) or a dry condition (if a dry bottom facility) at the beginning of the storm.

6.4.4 SHEET FLOW OUTFALL

In cases where an outfall ditch, channel, or storm sewer does not exist and the existing site naturally drains onto an adjacent property via sheet flow, the detention facility outfall must be configured to return a point discharge back to sheet flow conditions similar to pre-development conditions prior to leaving the developed property.

This can be achieved by using a level spreader, concrete baffles, or other types of sheet flow design elements.

6.4.5 FREEBOARD

Freeboard is required for all detention facilities and shall be measured from the minimum elevation of the top of bank of the detention facility to the developed 1% (100-year) water surface elevation. Required freeboard for detention facilities shall be based on the average depth of the facility as described in Table 6-5. The average depth is from the top of berm down to the normal pool level for wet bottom facilities or to the average bottom elevation for dry bottom facilities.

Table 6-4 Detention Facility Minimum Freeboard

Detention Facility Average Depth	Minimum Freeboard
0 – 3 ft.	0.5 ft. (6-in.)
Greater than 3 ft.	1.0 ft. (12-in.)

DRAFT - INTERNAL REVIEW ONLY

6.4.6 EROSION CONTROLS

The same types of erosion protection required in earthen channels shall be incorporated in detention design including the use of backslope swales and drainage systems, proper revegetation, and surface lining, when necessary, as outlined in ***Section 3.3***. Extra care shall be taken to provide proper protection at pipe outfalls into the facility, outlet structures, and extreme event spillways where excessive turbulence and velocities will encourage erosion.

6.4.7 FLAP GATES

Flap gates and other one-way valves are prohibited within County right-of-way. Use on private systems outside County-maintained infrastructure may be permitted at the discretion of the County Engineer.

6.4.8 MAINTENANCE

The name and contact information for the entity responsible for maintenance of the detention facility and outfall structure shall be listed on the construction drawings. Maintenance shall be the responsibility of the private property owner and not the County. Facilities and attendant maintenance accesses shall be wholly contained within a drainage easement or platted reserve. Private maintenance shall be required.

6.5 SPECIAL CIRCUMSTANCES

6.5.1 IN-LINE DETENTION

In-line detention may be permitted, but only in locations where the developer has property rights to the area that will be inundated by the inline structure during the 100-year storm event. Any such approval will be subject to the submission of an Operations and Maintenance Plan (O&M) for the detention facility and a recorded agreement guaranteeing maintenance in perpetuity. The O&M Plan shall clearly define the owner's responsibilities for the continued operation, inspection, and maintenance of the detention system to ensure its long-term functionality and compliance with applicable standards.

For design of detention in floodplain;

1. The design must include mitigation for loss of existing valley storage volume, because that existing volume attenuates existing flow in the floodplain.
2. The design and analysis must include accounting for volume-discharge changes in appropriate reaches in pre and post-hydrologic models.

The acceptance of an in-line detention facility will likely be contingent upon the issuance of a Conditional Letter of Map Revision (CLOMR) and a Letter of Map Revision (LOMR) by the Federal Emergency Management Agency (FEMA), revising the Base Flood Elevation (BFE) to accurately account for the storage volume and resulting water surface elevation(s) associated with the proposed detention system.

DRAFT – INTERNAL REVIEW ONLY

Construction plans for in-line detention will not be approved by the County until the CLOMR is approved by FEMA.

6.5.2 PEAK FLOW TIMING CONTROL

6.5.2.1 DEFINITION AND INTENT

Peak Flow Timing Control refers to the intentional advancement of runoff from a sub-basin to reduce composite peak discharges at downstream control points. This is a potentially beneficial engineering practice under specific conditions. When properly timed, peak runoff can be desynchronized and reduce the cumulative peak discharge at the downstream outlet. This method is not a substitute for detention, but rather a supplementary approach, primarily for larger-scale developments, and developments with unique hydrologic opportunities.

Montgomery County has a responsibility to uphold the public trust by adhering to conservative, evidence-based engineering principles. The use of timing-based methodologies must be approached with caution. Allowing such designs without strict limitations introduces unnecessary risk, threatens regional consistency, and may compromise the long-term performance and resilience of stormwater systems.

6.5.2.2 APPLICABILITY

Peak flow timing methods shall only be considered under the following conditions:

1. Upon consultation with and at the sole discretion of the County Engineer.
2. Authorized proposals may require third-party peer review at the developer's expense, conducted by a firm selected from the County's pre-qualified list.
3. Only permitted for large master-planned communities or subdivisions with a minimum size of 20 acres.
4. Curb and gutter streets must be provided.
5. The project must outfall directly into a named major natural creek or tributary as identified on the watershed map (See ***ATTACHMENT 10.15***).
6. Peak flow timing control must demonstrate a reduction in downstream absolute peak flow, although there will likely be an increase to the local peak flow.
7. A minimum of 50% of the standard detention volume is required for the 100-year storm events.

6.5.2.3 DISALLOWED APPLICATIONS

Use of this method is prohibited for:

1. Any commercial development (unless part of a master-planned community).
2. High-density (≥70%) impervious sites (e.g., apartment complexes, retail centers, etc.).

DRAFT – INTERNAL REVIEW ONLY

3. Sites discharging into systems with known downstream bottlenecks and flooding complaints.
4. Projects with no detention component.

6.5.2.4 MODELING AND DOCUMENTATION REQUIREMENTS

To be approved, all proposals using peak flow timing control must include the pre- and post-project conditions 20% (5-year), 10% (10-year), and 1% (100-year) storm events:

1. Models may be accessed from the San Jacinto River Master Drainage Plan (SJRMDP) at: https://www.hcfcd.org/Activity/Projects/San-Jacinto-River/C-17-San-Jacinto-River-Watershed-Study
2. Base Level Engineering (BLE) models for Spring, East Fork and West Fork San Jacinto River.
3. Watershed-scale H&H modeling (HUC-8 watershed), county-wide, including all upstream and downstream systems.
4. Hydrographs at key control points, including, but not limited to project discharge points at major downstream river, points upstream and downstream along the major downstream river, key hydraulic structures, etc.
5. Demonstrated non-coincident hydrographs (i.e., the absolute maximum peak flow does not occur at the same time) between pre- and post-conditions.
6. Watershed volumes (ac-ft) showing the Δ volume (Δ = post – pre) between pre- and post-conditions for all modeled subbasins.
7. **Certification of No Adverse Impact** signed and sealed by a Texas Licensed Professional Engineer verifying no increase in flood hazard condition(s) will occur.
8. Assessment of tailwater conditions from the development to examine the effects of backwater flooding for both pre- and post-conditions.
9. Downstream hydraulic capacity analysis via HEC-RAS proving that the receiving system can accept early discharge without surcharging, overtopping, or additional erosion.
10. Map identifying downstream infrastructure and flood-prone areas, including but not limited to communities affected by historic flooding events like Harvey (2017), Imelda (2019), Memorial Day (2016), and October (1994).

6.5.2.5 SUPPLEMENTAL COMPLIANCE REQUIREMENTS

1. Long-term maintenance and inspection responsibilities must be documented via a recorded Operations & Maintenance Agreement, ensuring enforceability.
2. For projects encroaching FEMA floodplains or other flood prone areas, public notice and comment shall be required.

6.5.2.6 DISCLAIMER AND ENFORCEMENT OF TIMING DESIGNS

Approval of timing-based designs does not imply County endorsement of their long-term effectiveness or compatibility with surrounding infrastructure. All liability for the design, implementation, performance, and downstream impact of this timing-based strategy rests solely with the design engineer, property owner, and/or developer.

DRAFT – INTERNAL REVIEW ONLY

Developers are strongly encouraged to prioritize conventional detention-based designs.

Montgomery County reserves the right to suspend or revoke eligibility for any engineer, firm or applicant to use peak flow timing control methodologies in future submittals if:

1. A project using this method is found to have contributed to adverse downstream impacts;
2. Post-construction condition materially deviate from approved models;
3. Required documentation was incomplete, inaccurate, or misleading, or;
4. Required maintenance agreements are not upheld.

Written notice will be provided outlining the basis for the restriction. The affected party may submit a written response within 30 days for reconsideration by the County Engineer.

Note: In the event a timing-based strategy is approved outside the conditions specified herein, the County Engineer shall document any objections or concerns in a written memorandum. The rationale, project context, and names of all individuals or entities party to and/or authorizing the deviation shall be maintained as part of the official project file.

DRAFT - INTERNAL REVIEW ONLY

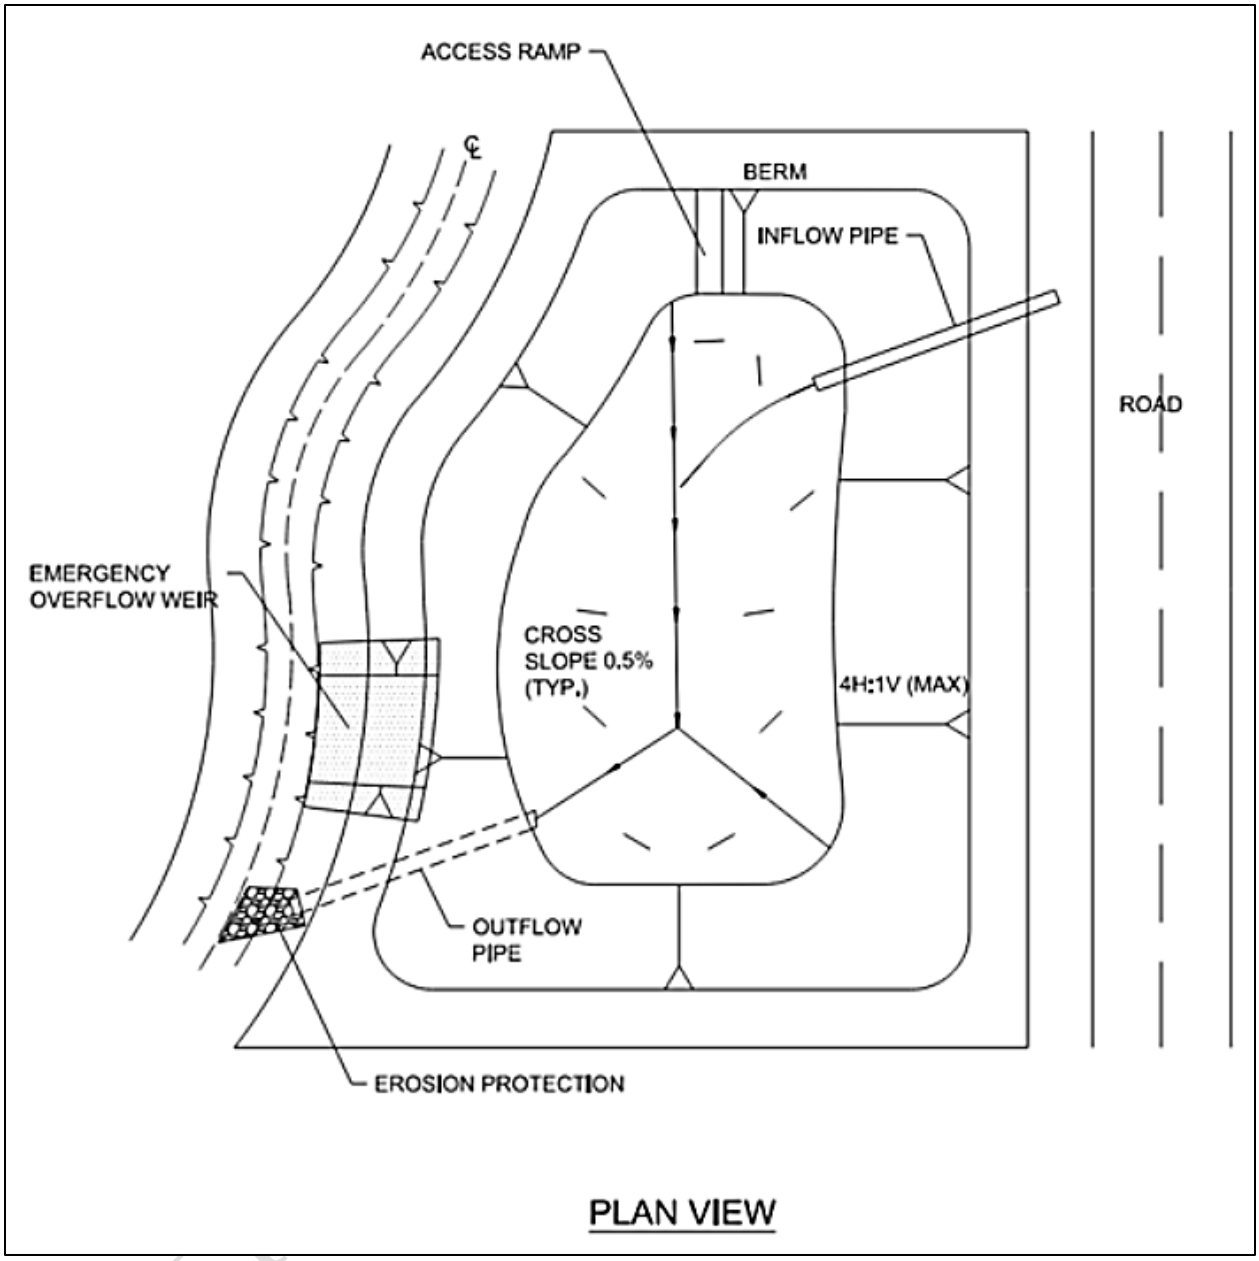

Figure 6-5 Proposed Detention Facility Plan View

DRAFT

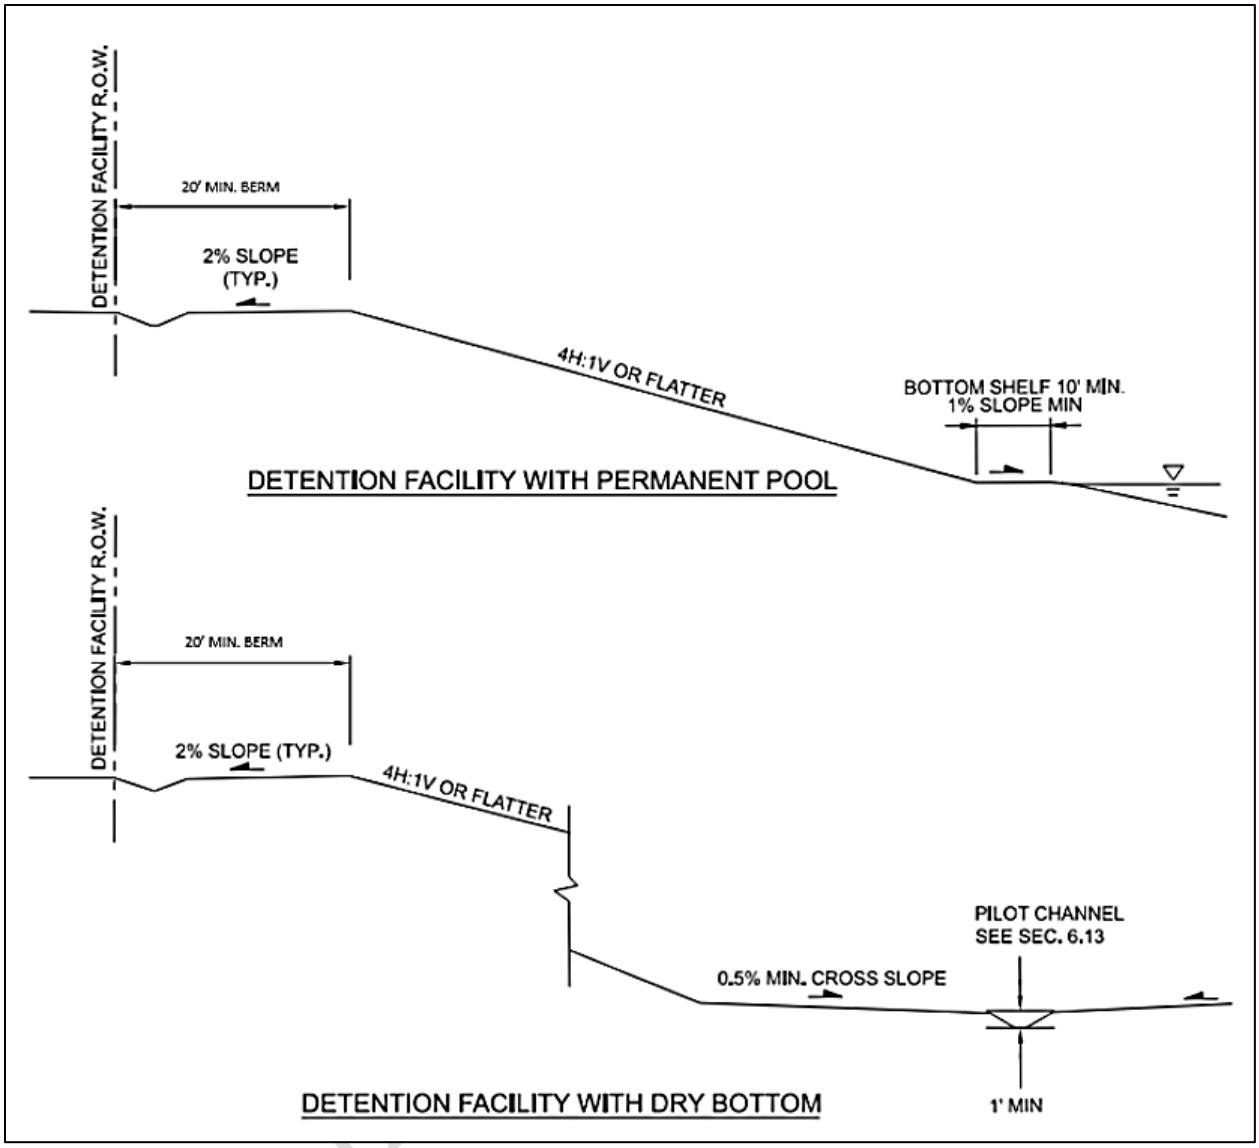

Figure 6-6 Proposed Detention Facility Profile View

Sample Watershed Volume Calculations from HEC-HMS

Pre-Project Conditions "Undeveloped"
Drainage Area = 0.1 mi2 ≈64 ac
Curve Number = 75 (undeveloped)
Lag Time = 60 minutes (PRF 150)
Peak Discharge =104.6 cfs
Volume = 67.7 ac-ft

Post-Project Undetained Conditions "Developed"
Drainage Area = 0.1 mi2 ≈64 ac
Curve Number = 85 (developed)
Lag Time = 40 minutes (PRF 150)
Peak Discharge =140.0 cfs

Volume = 75.5 ac-ft

Increase to both the peak flow (+ 35.4 cfs) and volume (+ 7.8 ac-ft).

DRAFT - INTERNAL REVIEW ONLY

SECTION 7 – FLOODPLAIN MITIGATION

All developments in the Special Flood Hazard Area (SFHA) must comply with the requirements of the Montgomery County Floodplain Management Regulations. This section provides additional guidance for when development is proposed in the SFHA. In the event of any conflict between the requirements presented in this section and the Montgomery County Floodplain Regulations, the most restrictive or conservative provision shall apply unless otherwise determined by the Montgomery County Floodplain Administrator.

The Montgomery County Development Regulations provide additional guidance for both residential and commercial drainage plans (Section 4) and development in the floodplain/CLOMR requirements (Section 5).

7.1 FLOODPLAIN MITIGATION CONSIDERATIONS

The following mitigation design requirements shall be followed when designing a development within the SFHA.

1. Montgomery County does not maintain the models for floodplains within the County. Hydrologic and hydraulic models must be obtained from FEMA for the flooding source. The models shall be modified to implement the latest data and adjusted, as needed, to adequately represent existing conditions. Any updates to the modeling must use the methods outlined within this manual.
2. If digital copies of the hydrologic and hydraulic models are not available from FEMA, new models must be developed. These models shall simulate both pre-project and post-project conditions for the flooding source using the methods discussed within this manual.
3. All mitigation measures shall be incorporated into the proposed conditions hydraulic model. The resulting maximum water surface elevations and peak flow rates for the 100-year storm event shall be determined and compared against the post-project results to verify that the mitigation measures adequately offset any impacts caused by the development.
4. Any volumetric mitigation (i.e., excavation required to offset the placement of fill within the floodplain) shall be geographically connected to the location of fill unless otherwise supported by a hydraulic model that demonstrates that a different location provides the necessary level of peak flow mitigation.
5. Coordination with the Floodplain Administrator is required before the start of design for any type of encroachment within a FEMA designated Floodway or any design that proposes to alter or relocate any watercourse.
6. All hydrologic and hydraulic modeling data, assumptions, methods, and results shall be completed in accordance with the criteria set forth in this manual and shall be submitted to the Floodplain Administrator for review.
7. All hydrologic and hydraulic modeling shall be completed with HEC-HMS and HEC-RAS software.

DRAFT – INTERNAL REVIEW ONLY

7.2 ACCEPTABLE FLOODPLAIN MITIGATION MEASURES

The following is a list of measures that may be implemented to mitigate potential impacts due to development within the floodplain. These measures are not intended to be mutually exclusive, and other measures not listed may be applicable to a specific project. A combination of mitigation measures may also be necessary. The developer must consult with the Floodplain Administrator during the design phase of any project to obtain concurrence for any proposed floodplain mitigation measures.

1. Channel improvements through the impacted area may be allowed but shall be designed and built in accordance with ***Section 3***. Natural channel clearing to reduce friction losses within the floodplain shall not be allowed as an acceptable floodplain mitigation measure.
2. If environmental constraints restrict the ability to implement channel improvements, then benching, above the Ordinary High-Water Mark, may be allowed in order to provide additional conveyance capacity for the flooding source. It shall be assumed that the vegetation within the benched area will revert to existing conditions. Therefore, the post-project n-value shall match the pre-project n-value.
3. A bypass storm sewer or channel system through or around the project may be allowed. Any proposed facilities shall be designed and built in accordance with the requirements outlined in this manual.
4. Increasing the crossing capacity of a bridge or culvert may be allowed. However, this may result in floodplain volumetric losses and increases in downstream peak discharge rates. Additional mitigation measures may be required to mitigate these impacts. The use of a HEC-RAS model is required to ensure there are no increases in downstream peak discharge rates.
5. An offline detention facility or other acceptable detention facility may be designed to eliminate any increase in peak flow rates to the flooding source. Detention facilities located inline with a FEMA studied stream are not allowed.

7.3 PRE-ATLAS14 AND POST-ATLAS14 CORRELATION

Pre-Atlas14 rainfall data (TP-40) was used in the FEMA effective flood insurance studies across Montgomery County and is used for insurance purposes whereas the Post-Atlas14 rainfall data is required for all new developments in Montgomery County. Generally, the Post-Atlas14 rainfall depths are greater than the Pre-Atlas14 rainfall depths thus resulting in greater flow rates (cfs) when calculating discharge.

When a project is affected by a FEMA studied stream's floodplain backwater or where there is overlap of the FEMA studied stream's floodplain and the project, the tailwater for the project shall be set to the regulatory water surface elevations provided by the FEMA effective flood insurance study (FIS). This measure ensures the agreement and/or correlation between the Montgomery County Floodplain Regulations and the Montgomery County Drainage Criteria Manual regarding the 1% (100-year) base flood elevation (BFE) requirements.

DRAFT – INTERNAL REVIEW ONLY

The effective flood insurance studies (FIS) for the project areas in Montgomery County can be found at the FEMA Flood Map Service Center at FEMA.gov.

7.4 BASE LEVEL ENGINEERING MODELS

Base Level Engineering (BLE) is an efficient modeling and mapping approach that aims to provide technically credible flood hazard data at various geographic scales such as community, county, watershed, and/or state level. This data is meant to complement the current effective Flood Insurance Rate Map (FIRM) data but not replace it. For areas where no flood hazard data exists, the BLE dataset may be the only source of flood risk data. You can access BLE data available, free-of-charge, on the interactive on-line portal, known as the Estimated Base Flood Elevation (estBFE) Viewer at USGS.gov.

Montgomery County overlaps with the following base level engineering HUC-8 studied watersheds, covering the entire county and beyond:

Spring Creek (≈ 760 mi2)
West Fork San Jacinto River (≈ 1,100 mi2)
East Fork San Jacinto River (≈ 1,000 mi2)

Usage of the BLE models may be appropriate under the following circumstances:

1. Peak Flow Timing Control projects where extensive watershed studies upstream and downstream beyond the limits of the project are required.
2. When a project is impacted by a FEMA studied stream's floodplain backwater and the project required the modeling to include the FEMA studied stream.
3. When approved by the county engineer.

In all cases, BLE models are required to:

1. Reflect the most up-to-date terrain data, either channel and floodplain survey or LiDAR.
2. Pre-Atlas14 steady flow (cfs) data can be used but must be presented in the design in accordance with the correlation table found in this manual.
3. Cross sections are required at points where the BLE model interacts with the project, specifically at critical points of interest, such as cut/fill locations and points where the flow from the project discharges into the FEMA studied stream. These cross sections may have to be added to the BLE model.
4. Receive approval from the county engineer.
5. Must agree with the most current and/or accepted county FEMA FIS data.

DRAFT – INTERNAL REVIEW ONLY

Base Level Engineering hydrologic, hydraulic, spatial, and model data are available within the following HUC8 subbasins: Spring Creek, West Fork San Jacinto River, and East Fork San Jacinto River.

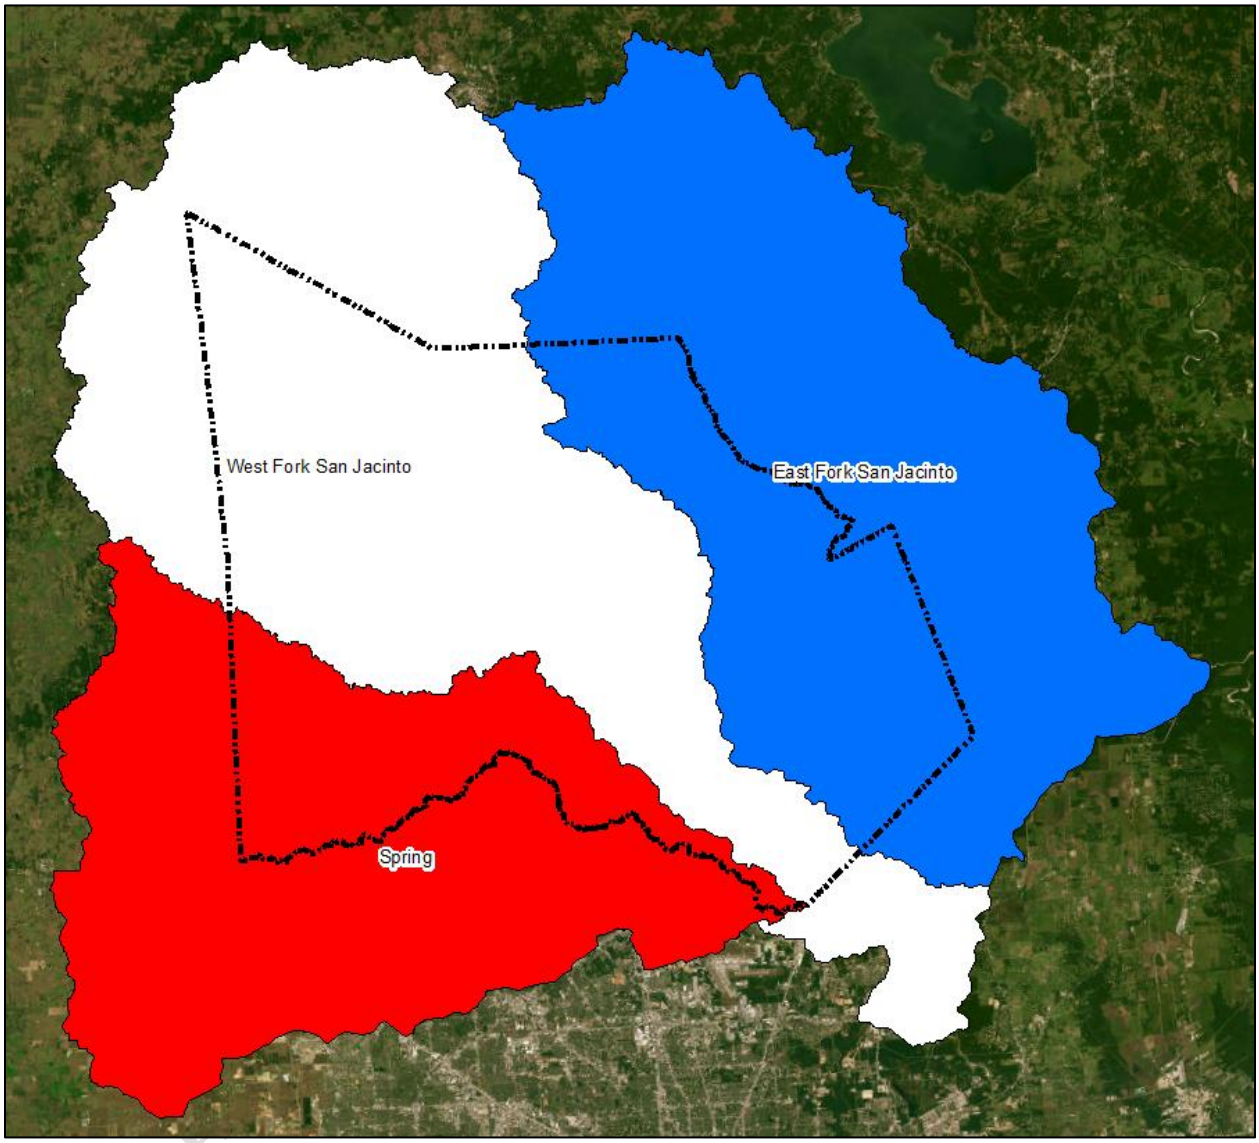

Figure 7-1 HUC 8 Subbasins Map

You can access BLE data available, free-of-charge, on the interactive on-line portal, known as the Estimated Base Flood Elevation (estBFE) Viewer at USGS.gov.

DRAFT

Base Level Engineering hydrologic, hydraulic, spatial, and model data are available within the following HUC12 subwatersheds: Spring Creek.

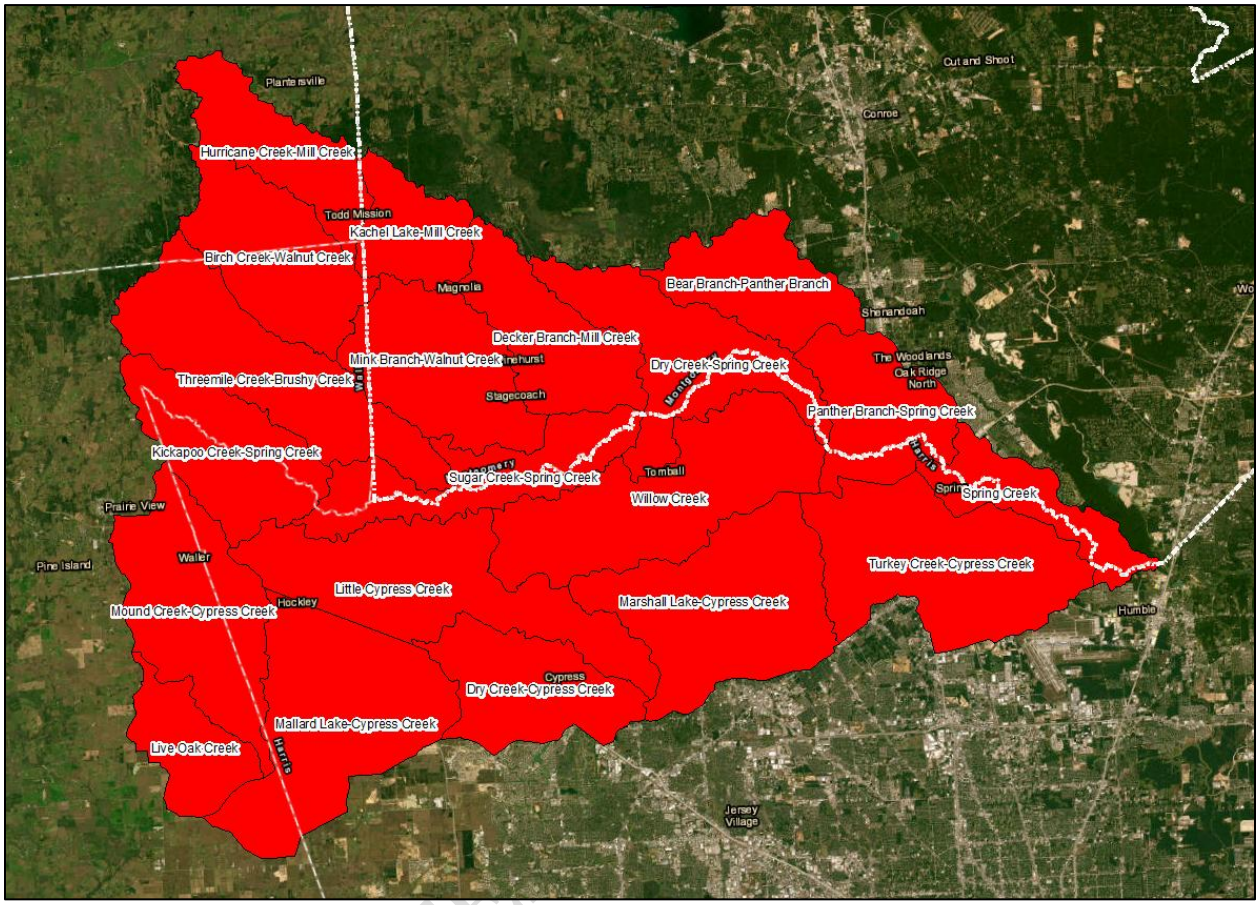

Figure 7-2 Spring Creek HUC12 Subwatersheds

You can access BLE data available, free-of-charge, on the interactive on-line portal, known as the Estimated Base Flood Elevation (estBFE) Viewer at USGS.gov.

DRAFT - ITR

Base Level Engineering hydrologic, hydraulic, spatial, and model data are available within the following HUC12 subwatersheds: West Fork San Jacinto River.

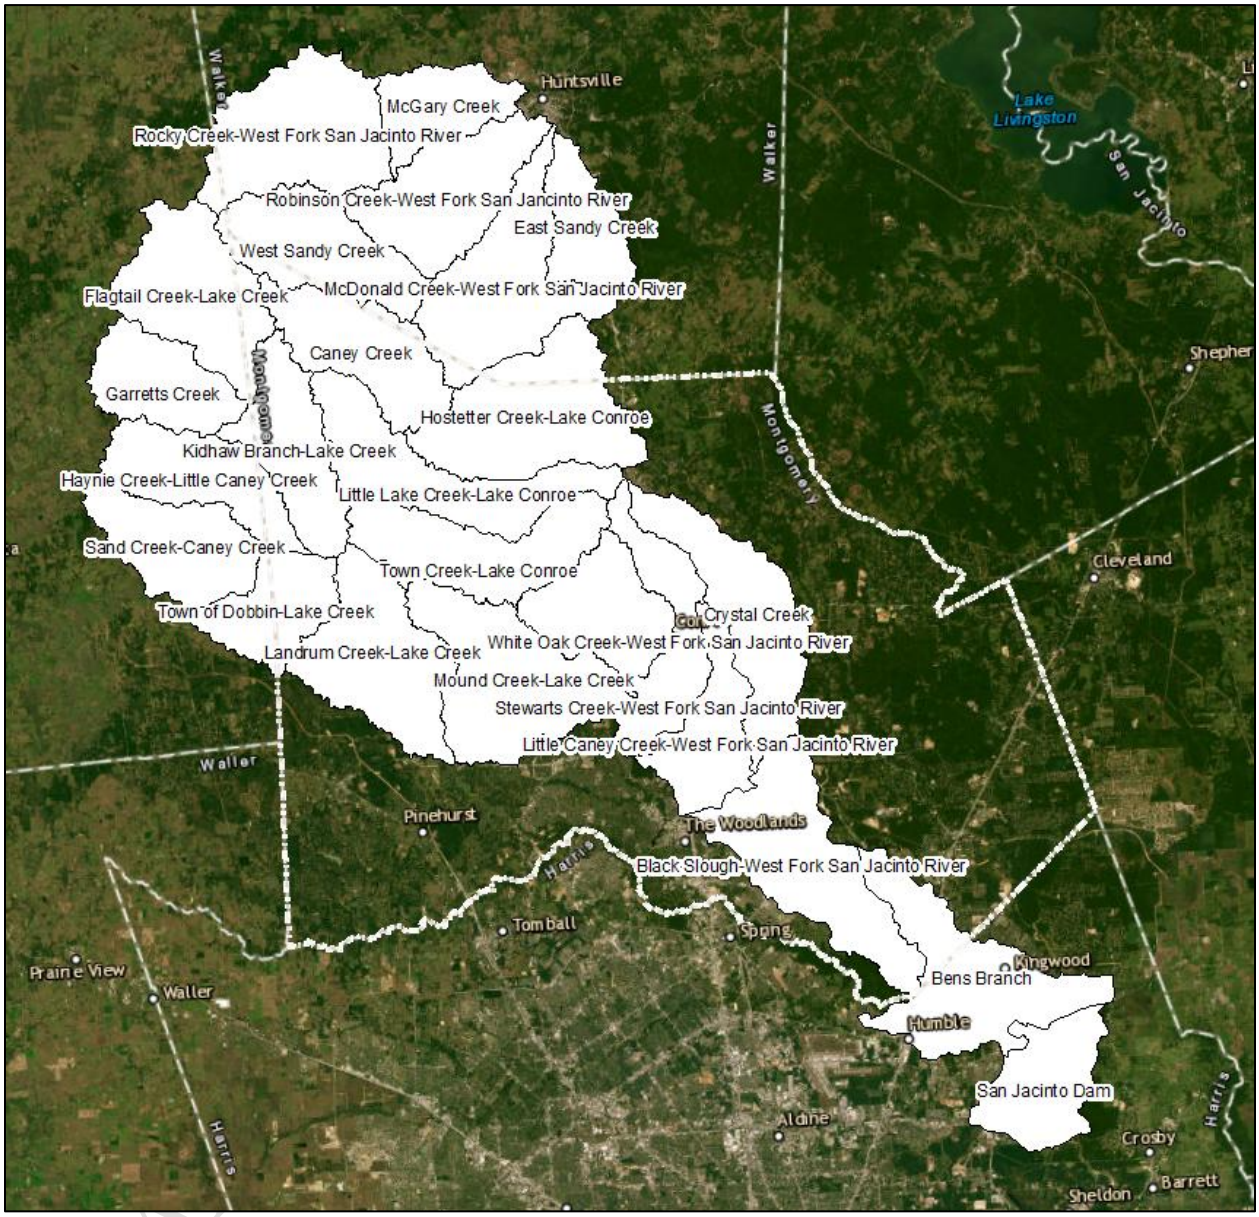

Figure 7-3 West Fork San Jacinto River HUC12 Subwatersheds

You can access BLE data available, free-of-charge, on the interactive on-line portal, known as the Estimated Base Flood Elevation (estBFE) Viewer at USGS.gov.

Base Level Engineering hydrologic, hydraulic, spatial, and model data are available within the following HUC12 subwatersheds: East Fork San Jacinto River.

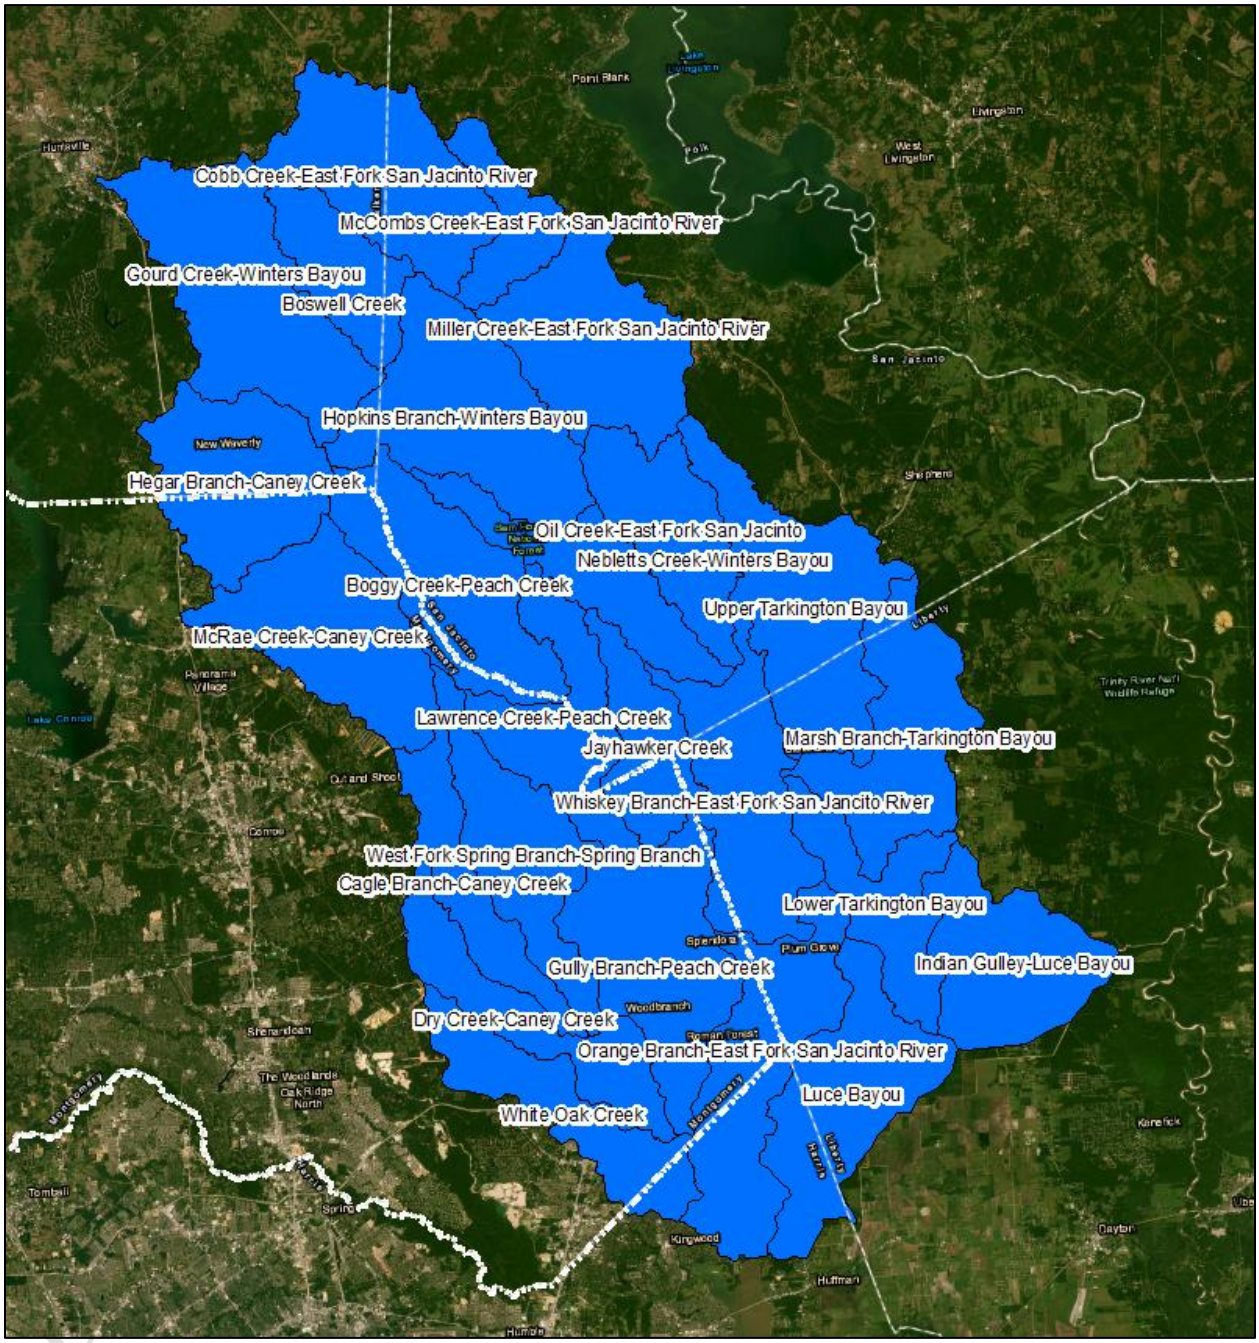

Figure 7-4 East Fork San Jacinto River HUC12 Subwatersheds

You can access BLE data available, free-of-charge, on the interactive on-line portal, known as the Estimated Base Flood Elevation (estBFE) Viewer at USGS.gov.

SECTION 8 – DELIVERABLE REQUIREMENTS

8.1 GENERAL

This section provides deliverable requirements for all proposed drainage infrastructure to ensure these facilities are designed in accordance with the policies, guidelines, and criteria in this manual as well as sound engineering practice.

8.2 DRAINAGE SUBMITTALS

A drainage report, or drainage impact analysis shall be provided whenever the use of hydrologic and/or hydraulic modeling software is required. This would include commercial and residential developments greater than 20 acres, any improvements in the floodplain, etc. The purpose of the drainage report is to identify impacts resulting from land development activities and determine the improvements necessary to control the increase in storm water runoff. All drainage reports shall include calculations, exhibits and, if applicable, models that support the Engineer's conclusions and recommendations.

The following deliverables are required for all H&H submittals:

1. A drainage study signed and sealed by a Texas professional engineer competent in hydrologic and hydraulic engineering practices in the greater Houston area.
2. H&H Models:
    a. Hydrologic Model – HEC-HMS.
    b. Hydraulic Model – HEC-RAS.
    c. Storm Sewer Model – EPA-SWMM.
        i. Include backdrop images.
3. Spatial Data:
    a. Shapefiles (shp) for ESRI GIS software.
    b. KMZ files for Google Earth.
4. Spreadsheet Calculation.
5. Plan Set (pdf) – preliminary plan set is acceptable, although final is preferred.
6. Reviews:
    a. All previous county review comments.
    b. All prior consultant responses.
    c. All prior resolutions/closure documents.
7. All previously approved drainage submittals – if applicable.
8. Consultant engineer's internal quality control and quality assurance (QA/QC) documentation for hydrology and hydraulic design.
    a. *THE COUNTY IS NOT YOUR QA/QC DEPARTMENT*

The drainage submittal will be rejected if all the required items are not included. The following illustrates the file structure for all submittals, including, 1) report, 2) models, 3) spatial data, 4) calculations (if applicable), 5) plan set (if applicable), 6) all prior review comments and responses, 7) all prior relevant county approvals, and 8) internal QA/QC documentation from design engineering firm.

DRAFT – INTERNAL REVIEW ONLY

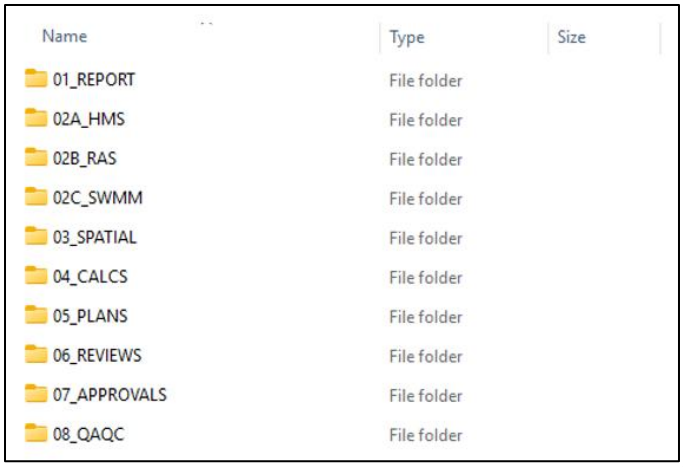

Figure 8-1 Submittal File Structure

8.3 DRAINAGE SUBMITTAL WITH MULTIPLE AGENCIES

If multiple regulatory agencies are involved in a particular project, due to overlapping jurisdictions, then the design engineer will likely have to submit separate, unique, drainage submittals to each agency. Do not submit another jurisdictions drainage submittal, like TxDOT or the City of, to the county for review.

8.4 DRAINAGE REPORT OUTLINE

A drainage report communicates the justification of the design of a proposed drainage facility to the County for review and approval. The drainage report also serves as a reference document for future design engineers who will perform additional work in, on, over, under, or adjacent to the same drainage facility. Enough information should be included in the drainage report so that a reader can determine the scope, purpose, approach, assumptions, and results of the analysis without any prior knowledge of the project and without any access to any of the modeling data.

To facilitate preparation and review of drainage reports, an outline is provided below. Sections related to design elements that are not included in the analysis may be omitted or marked as "Not Applicable." If two or more design elements share common features—for example, both design elements utilize the same hydrology—sections may be consolidated and referenced to avoid redundancy.

DRAFT – INTERNAL REVIEW ONLY

The following pages provide a more detailed and expanded explanation of the content typically in a drainage report submitted to the county for review and approval.

8.4.1 COVER

1. Project Name
2. Phase Identification
3. Developer Name and Contact Information
4. Engineer Name
5. Engineer Seal
6. Engineer Firm and Contact Information
7. Report Date

8.4.2 TABLE OF CONTENTS

1. Narrative Outline
2. List of Tables
3. List of Figures
4. Appendices
5. Supporting Data

8.4.3 EXECUTIVE SUMMARY

1. Contact Information (Engineer and Developer)
2. Project Summary
3. No-Impacts Results Summary at each outfall location, for each phase, and each storm event
    a. Detention Summary Table
    b. Times of Concentration Table, with exhibit indicating flow path
    c. Curve Number Calculation Sheet, with exhibit detailing land use
    d. Hydrologic Summary Table
    e. Table displaying HEC-RAS information from Standard Table 1 and including the change in water surface elevation (ΔWSE) for all required storm events.

8.4.4 INTRODUCTION

1.1 Project Summary

1.1.1 Overview

- Project name
- Project size
- Project location along with pertinent jurisdictions
- Limits of the project

1.1.2 Phase

- If applicable, indicate which phase(s) of the residential development is pertinent to this drainage analysis.

1.1.3 Objectives

DRAFT - INTERNAL REVIEW ONLY

1.1.4 Design Elements
- List and reference design elements (detention facilities, floodplain encroachment, bridge, culvert, channel, etc.) included in the analysis.

1.2 Prior Studies
1.3 Data Collection
- Source and dates for all supporting data: topography, land use, survey, in-field measurements, etc.

1.4 Datum
1.5 Agency Coordination
- Note any past or ongoing coordination with other permitting agencies (TxDOT permitting when draining into TxDOT ROW, TCEQ permitting for Aggregate Production Operations, USACE 404 Clean Water Acts, Endangered Species Acts, etc.)

8.4.5 PRE–PROJECT CONDITIONS

2.1 Site Description
- 2.1.1 Off-site studied areas
- 2.1.2 Location of site
- 2.1.3 Topography
- 2.1.4 Floodplain

2.2 Land Use
2.3 Right-of-way
2.4 Pipelines and Utilities
2.5 Hydrology

2.5.1 Method
- Rational or NRCS Method

2.5.2 Model Summary
- Model source, type, version, and any assumptions

2.5.3 Parameters
- Drainage Area Delineation and parameter summary tables
- Rainfall
- Time of Concentration
- Peak Rate Factor
- Weighted Curve Number

2.6 Hydraulics

2.6.1 Method
- Existing detention facility routing, riverine modeling, etc.

2.6.2 Model Summary
- Model source, type, version, and any assumptions

2.6.3 Parameters
- Parameter Summary Tables
- Manning's "n"
- Boundary Conditions
- Etc.

DRAFT – INTERNAL REVIEW ONLY

8.4.6 POST–PROJECT CONDITIONS

3.1 Site Description
- 3.1.1 On-site Proposed Alterations or Proposed Design Elements
- 3.1.2 Topography
- 3.1.3 Floodplain (if applicable)

3.2 Land Use

3.3 Hydrology

3.3.1 Parameters
- Modified Parameters Summary table

3.4 Hydraulics

3.4.1 Modified Parameters
- Modified Parameters Summary table

8.4.7 [DESIGN ELEMENT] DESIGN

Design Element Types = Detention Facility, Floodplain Encroachment, Bridge, Culvert, Channel, etc. (multiple sections can be included for each design element)

4.1 [Design Element] Summary
- 4.1.1 Description
- 4.1.2 Objective(s)
- 4.1.3 Analyzed Storm Events
- 4.1.4 For Peak Flow Timing Control approach:
- Watershed-scale modeling results for all required storm events
- Hydrograph timing charts for the 2-, 10-, 25- and 100-year storm events
- Downstream infrastructure analysis
- Third-party peer review documentation
- Operations and Maintenance plan

4.2 Hydrology

4.2.1 Results
- Pre-project peak flow results
- Post-project peak flow results

4.3 Hydraulics

4.3.1 Results
- Pre-project maximum water surface elevation results
- Post-project maximum water surface elevation results

8.4.8 CONCLUSION

5.1 Flow No-Impact Results
- Table that shows pre-project peak flow rates, mitigated post-project peak flow rates, and difference in peak flow rates at no-impact analysis points

5.2 Water Surface No-Impact Results

DRAFT – INTERNAL REVIEW ONLY

- Table that shows pre-project maximum WSE, mitigated post-project maximum WSE, and difference in WSE at no-impact analysis points or regions along with FEMA BFEs, if available

5.3 No Impact Statement

5.4 Proposed Detention Summary

- If a detention facility is proposed, the detention pond summary table, Attachment 10 shall be provided within Section 3 and the executive summary

8.4.9 EXHIBITS

8.4.9.1 PROJECT SUMMARY EXHIBITS

1A: Vicinity Map
- Project location
- Roads
- Jurisdictional boundaries

1B: Project Limits and Improvements
- Project limits
- All proposed improvements
- All design elements included in this analysis
- MCAD parcels with property ID (R######)

8.4.9.2 HYDROLOGY EXHIBITS

2A: Drainage Area Map – Pre-Project
- Drainage area delineations with IDs labeled
- Drainage area acreage
- Time of concentration flow paths
- Legible contours with labels
- Limits of project
- Key analysis points

2B: Drainage Area Map – Post-Project
- Drainage area boundaries with labeled ID
- Drainage area acreage
- Time of Concentration paths
- Legible contours
- Project improvements
- Key analysis points

2C: Curve Number Map
- Drainage area boundaries with labeled ID
- Pre-and Post-project land use and soil delineations
- Aerial background

DRAFT – INTERNAL REVIEW ONLY

8.4.9.3 DETENTION FACILITY EXHIBITS

3A: Facility Schematic (if unaccompanied by construction drawings)
- Facility footprint
- Side slopes
- Maintenance access
- Effective storage volume
- Outlet structure with dimensions (size, flowlines, etc.)
- Emergency overflow weir with dimensions (size, flowlines, etc.)
- Extreme event route into detention facility

8.4.9.4 RIVERINE HYDRAULIC EXHIBITS

4A: HEC-RAS Model Workmap
- Project limits
- Modeled stream centerlines
- Cross-sections with station labels
- Inline structures (bridges, culverts, drop structures, etc.)
- 2D mesh boundaries with name labels
- 2D Connectors with name labels
- Lateral structures
- Pump Stations
- Boundary condition locations (callout for 1D or line with name for 2D)

4B: Maximum Water Surface Elevation Results – Pre-Project
- Inundation limits for modeled storm events
- Maximum water surface elevation contours (similar to BFEs)

4C: Maximum Water Surface Elevation Results – Post-Project
- Inundation limits for modeled storm events
- Maximum water surface elevation contours (similar to BFEs)

4D: Water Surface Impacts (2D Hydraulic Modeling Only)
- Difference in pre-project and post-project maximum water surface elevations for 100-year storm event shown as a raster

8.4.9.5 FLOODPLAIN ENCROACHMENT EXHIBITS

5A: All exhibits required under Riverine Hydraulics

5B: Cut / Fill Exhibit
- Project limits
- Limits of fill with area and volume of fill below BFE labeled
- Limits of cut with area and volume of cut below BFE labeled

DRAFT – INTERNAL REVIEW ONLY

- FEMA floodway, 100-year floodplain, and 500-year floodplain
- FEMA flooding source (creek) with name
- FEMA cross-sections
- FEMA BFEs

8.4.10 APPENDIX

1. Hydrology
   - 1.1 Weighted Curve Number Calculations. See Attachment 1.
   - 1.2 Time of Concentration Calculations. See Attachment 2.
   - 1.3 Model Layout
   - 1.4 Model Parameter Inputs
   - 1.5 Model Detailed Results. See Attachment 3.

2. Hydraulics
   - 2.1 Model Parameter Inputs
   - 2.2 Model Summary Tables
   - 2.3 Model Detailed Results
   - 2.4 Model Warning Messages
   - 2.5 Water Surface Elevation Profiles (Riverine Modeling)
     - Profile stationing
     - Pre-project and post-project ground elevations
     - Maximum water surface elevations for all modeled storm events
     - Critical water surface elevations (when calculated)
     - Pre-project (blue) and post-project (red) maximum water surface elevations for 100-year storm event for comparison on its own profile
     - Inline structures (bridges, culverts, drop structures, etc.) with labels
     - Location of major confluences

3. Detention Facility
   - 3.1 Detention Facility Model Input Parameters
   - 3.2 Inflow and Outflow Hydrographs
   - 3.3 Routing Stage Hydrograph

4. Other
   - 4.1 Geotechnical Report

5. Data
   - 5.1 Hydrology Models
   - 5.2 Hydraulic Models
   - 5.3 GIS data

8.5 HEC FILE NAMING CONVENTIONS

The naming convention for the HEC-RAS and HEC-HMS models shall follow the naming convention in the following subsections.

DRAFT - INTERNAL REVIEW ONLY

8.5.1 HEC-HMS

Table 8-1 HEC-HMS File Naming Convention

Simulation (.run)	Basin (.basin)	Meteorological (.met)	Paired Data E-A Function (.pdata)
PrePrj_005yr	Pre-Project	20%_005yr	
PrePrj_010yr		10%_010yr	
PrePrj_100yr		1%_100yr

8.6 CONSTRUCTION DRAWING DELIVERABLES

For design elements not included in a drainage report, it is important that enough information is provided on the construction drawings such that justification of the design of a proposed drainage facility is communicated to the County for review and approval. Like a drainage report, construction drawings will also serve as a reference document for future design engineers who will perform additional work in, on, over, under, or adjacent to the same drainage facility. To facilitate preparation and review of construction drawings for drainage facilities, the following information is required based on the type of drainage facility proposed.

8.6.1 OPEN CHANNEL SYSTEM

The following information shall be submitted to the County for the design of roadside ditches, small channels, and large channels.

1. Plan view sheets that include the following:
    a. Project limits.
    b. Existing and proposed right-of-way.
    c. Existing and proposed drainage easements.

DRAFT – INTERNAL REVIEW ONLY

d. Existing and proposed utilities.
e. Existing and proposed roadways.
f. Existing and proposed lot lines.
g. Floodplain information (base flood elevations, floodway, 100-year floodplain, and stream centerline).
h. Existing and proposed drainage facilities with each proposed drainage ditch or channel segment being labeled with a unique identification.
i. Flow direction arrows for both the design event and the 1% (100-year) event.
j. A summary of the hydrologic calculations for each segment of ditch or channel using the format shown in Figure 8-8.

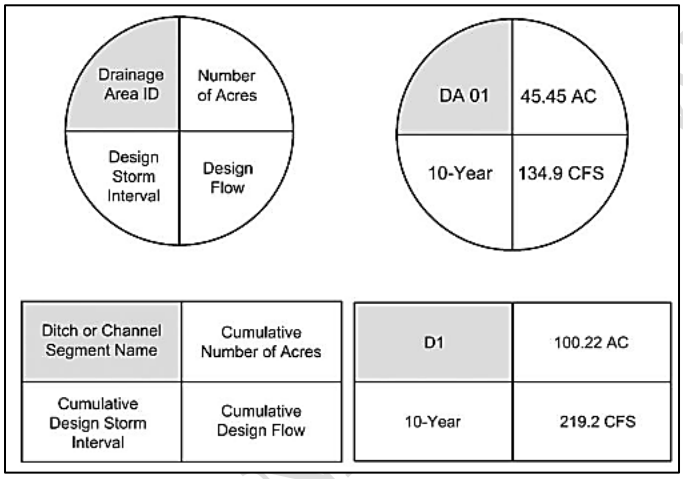

Figure 8-8 Channel Hydrologic Label Forma

k. Channel cross-sections.
    i. Unique name
    ii. Identification of which channel segments the cross-section represents
    iii. Bottom width
    iv. Left and right side slopes
    v. Separation distance of the roadside ditch from the edge of pavement
    vi. Design flow depth
    vii. Maximum top width

2. Profile sheets that include the following:
    a. Channel flowline profile with bottom slopes labeled
    b. Design storm water surface elevation profile
    c. 100-year water surface elevation profile
    d. Elevation profile for center of roadway
    e. Elevation profile for top of bank(s) of the channel
    f. Location, extents, and depth of erosion protection
3. Hydrologic and hydraulic calculations for each channel segment including all information listed within the table located in ***ATTACHMENT 10.4***.
4. Construction details.

DRAFT – INTERNAL REVIEW ONLY

8.6.2 CULVERTS

The following information shall be submitted to the County for the design of driveway and cross-culverts.

8.6.2.1 DRIVEWAY CULVERTS

A driveway culvert schedule shall be provided in the construction drawings and shall include all information listed in ***ATTACHMENT 10.7***.

8.6.2.2 CROSS CULVERTS

1. Plan view sheets that include all applicable information required under Section 8.4.1.
2. Profile sheets that include the following:
    a. Culvert unique identification
    b. Culvert shape, size, and number of barrels
    c. Culvert material
    d. Upstream and downstream flowlines and resulting slope
    e. Upstream and downstream headwall type
    f. Design storm event hydraulic grade line
    g. 100-year storm event hydraulic grade line
    h. Roadway and embankment profile
    i. Elevations labeled for the edge of pavement and crown of road
    j. Location, extents, and depth of erosion protection
3. Hydrologic and hydraulic calculations for each culvert including all information listed within the table located in ***ATTACHEMNT 10.5*** and ***ATTACHEMNT 10.6***.
4. Construction details.

8.6.3 STORM SEWER

The following information shall be submitted to the Montgomery County Engineer for the design of curb-and-gutter and storm sewer systems.

1. Plan view sheets that include the following:
    a. Project limits
    b. Existing and proposed right-of-way
    c. Existing and proposed drainage easements
    d. Existing and proposed utilities
    e. Existing and proposed roadways
    f. Existing and proposed lot lines
    g. Floodplain information (base flood elevations, floodway, 100-year floodplain, and stream centerline)
    h. Existing drainage facilities
    i. Proposed Inlets
        i. Labeled with a unique identification

DRAFT - INTERNAL REVIEW ONLY

ii. Type (e.g., 'C-2')

j. Proposed Manholes
   i. Labeled with a unique identification

k. Proposed Storm Sewer
   i. Labeled with a unique identification
   ii. Size
   iii. Type and material (e.g., RCP, RCB)

l. Crossing utilities with clearance dimensioned

m. Flow direction arrows for both the design event and the 100-year event

n. A summary of the hydrologic calculations for each inlet and storm sewer element where there is a change in flow using the format shown in Figure 8-9.

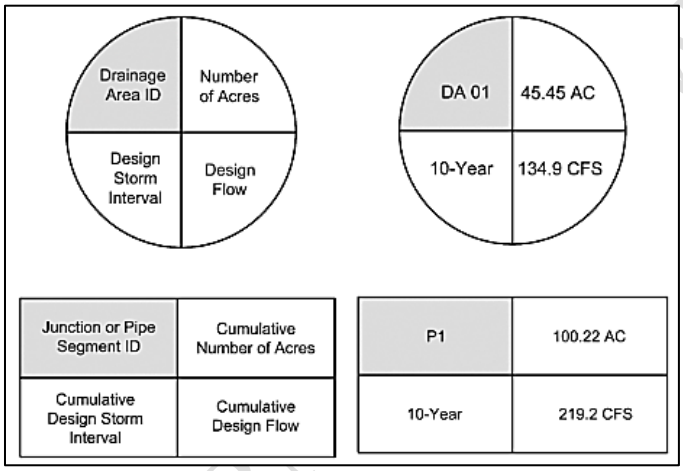

Figure 8-9 Storm Sewer Hydrologic Label Format

2. Profile sheets that include the following:
   a. Labeled unique identification for all inlets, manholes, and storm sewer segments
   b. Storm sewer size, material, and number of barrels
   c. Storm sewer slope
   d. Crossing utilities with clearance dimensioned
   e. Manhole bottom and top elevations along with location (e.g., "E", "W", etc.), size, and flowline of intersecting storm sewer segments
   f. Inlet type, gutter flowline, and bottom elevation along with location (e.g., "E", "W", etc.), size, and flowline of intersecting storm sewer segments
   g. Design storm event hydraulic grade line with starting tailwater elevation labeled
   h. 1% (100-year) storm event hydraulic grade line with starting tailwater elevation labeled
   i. Elevation profile for center of roadway
   j. Elevation profile for proposed grade at the left and right right-of-way
   k. Outfall type labeled
   l. Receiving channel, creek, or detention facility flowline elevations at outfall
   m. Location, extents, and depth of erosion protection at outfall

DRAFT – INTERNAL REVIEW ONLY

3. Hydrologic and hydraulic calculations for each inlet and storm sewer segment including all information listed within the table located in ***ATTACHMENT 10.8*** and ***ATTACHMENT 10.9***.
4. Construction details.

8.6.4 DETENTION FACILITY

The following information shall be submitted to the County Engineer for the design of a detention facility.

1. Plan of the detention facility that includes the following:
    a. Existing property boundaries.
    b. Existing and proposed drainage easements.
    c. Existing and proposed utilities.
    d. Existing and proposed roadways.
    e. Existing and proposed lot lines.
    f. Floodplain information (base flood elevations, floodway, 100-year floodplain, and stream centerline).
    g. Extents of the facility top of berm.
    h. Extents of the facility toe of slope.
    i. Proposed contours at 1-foot increments.
    j. Side slopes (e.g., 4H:1V).
    k. Extents and elevation of the amenity static pool level, if applicable.
    l. Facility bottom slopes.
    m. Pilot channel
        i. Type (e.g., grass or concrete)
        ii. Depth
        iii. Flowlines
        iv. Slope
    n. Maintenance access and berm width dimensioned.
    o. Backslope swales including flowlines and typical cross-section.
    p. Backslope interceptor structure including pipe size, material, and flowlines.
    q. Elevation of the receiving storm sewer or channel along with provided clearance from the facility bottom.
    r. Location of where flow from the extreme event is expected to enter the facility.
2. Outlet Detail – Length and Width Cross Sections
    a. Pipe or box flowlines, slope, size, and material.
    b. Pertinent dimensions for control structure (orifice, riser, pipe, etc.)
    c. Dimensions (top, bottom width, elevations, side slopes, thickness) and material of the weir.
    d. Receiving channel, creek, or receiving detention facility flowline elevations.
    e. Detention facility pilot channel flowline.
    f. Location, extents, and depth of erosion protection at outfall.
3. Profile of the detention facility that includes the following:
    a. Representative profile through facility, typically taken through the pilot channel.

DRAFT – INTERNAL REVIEW ONLY

   b. Elevation profiles for both existing and proposed grades
   c. Side slopes labeled.
   d. Maximum water surface elevations for all design events and including static WSE, if applicable.
   e. Elevation of the emergency overflow weir.
   f. Maintenance and berm widths dimensioned.
   g. Upstream and downstream lowest flowlines of the outlet structure.
   h. Elevation profile of the receiving creek or channel with flowline elevations labeled.
4. Supporting detention hydrologic and hydraulic calculations for detention facilities that have an accompanying drainage report:
   a. List the name and date of the drainage report
   b. Provide the detention summary table(s) as shown in Attachment 10B
5. Supporting detention hydrologic and hydraulic calculations for detention facilities that serve projects less than 20-acres and do not have an accompanying drainage report:
   a. Drainage Area Map that includes the following:
      i. Topographic contours
      ii. Drainage area boundary
      iii. Time of concentration path
      iv. Land use with area, type, and runoff coefficient labeled
      v. Service area of the facility with the area labeled
   b. All rational method calculations used to develop the peak flow rates for pre-project conditions
      i. Composite C
      ii. Time of Concentration
      iii. Intensity calculation for all design events
      iv. Peak flow rate for all design events
   c. Storage calculations
      i. Required detention volume
      ii. Resulting maximum water surface elevations
   d. Outlet hydraulic calculations
      i. Available headloss (design storm event maximum water surface elevation – tailwater)
      ii. Resulting peak outlet flow rate for each design event

8.7 GEOTECHNICAL INVESTIGATION

Before initiating final design of drainage infrastructure, a detailed soils investigation by a professional geotechnical engineer, licensed in the State of Texas, shall be undertaken. This report shall be submitted with the construction drawings and / or included within the appendix of the drainage report. The following minimum requirements shall be addressed within the geotechnical report:

1. Stability of detention facility or channel side slopes for short-term, long-term, and rapid drawdown conditions. If depth ≤ 5 feet, a slope stability analysis is not

DRAFT – INTERNAL REVIEW ONLY

required, however, a geotechnical report is still required to address the other issues.

2. Stability of permanent channel or pool side slopes.
3. Evaluation of bottom instability due to excess hydrostatic pressure.
4. Control of groundwater.
5. Identification of dispersive soils.
6. Potential erosion problems.
7. Constructability issues.
8. Evaluation of inflow and outflow structures.
9. If a dam is to be constructed, the following shall be required:
    a. Adequate investigation of potential seepage problems through the dam
    b. Attendant control requirements.
    c. Availability of suitable embankment material.
    d. Stability requirement for the dam.
10. Investigation into the potential for structural movement on areas adjacent to the drainage structure may be required. This is mainly due to the induced loads form existing or proposed structures and methods of controlling it.
11. Each geotechnical reports shall include a table summarizing specific elements of the design.
12. A minimum of one soil boring for each proposed detention pond location.

DRAFT - INTERNAL REVIEW ONLY

SECTION 9 – DEFINITIONS

Abutment
A structure that supports the lateral load of an arch or span.

Atlas14
In September of 2018, the National Oceanic and Atmospheric Administration (NOAA) released updated rainfall values for Texas in the form of "NOAA Atlas 14, Volume 11 Precipitation-Frequency Atlas of the United States, Texas" with updated, detailed, localized rainfall values for the State of Texas. In the southeastern part of the state particularly, this new research yielded increased rainfall intensities from those previously determined using TP-40 and Technical Memorandum NWS Hydro-35.

Atlas14, Pre-
Hydrologic information prior to the release of "NOAA Atlas 14, Volume 11 Precipitation-Frequency Atlas of the United States, Texas (September 2018)" specifically "Technical Paper No. 40 (TP-40), Rainfall Frequency Atlas of the United States for Durations from 30 Minutes to 24 Hours and Return Periods from 1 to 100 Years (May 1961)." This document can be found online at www.weather.gov/

Atlas14, Post-
Hydrologic information contained in the "NOAA Atlas 14, Volume 11 Precipitation-Frequency Atlas of the United States, Texas (September 2018)." This information can be found online at www.noaa.gov/

Attenuation
The reduction of the peak of a hydrograph, causing the shape to become flat and wide.

Backwater
Water that is backed up or slowed compared to the average, natural flow. This phenomenon can be caused by temporary obstructions or an opposing current.

Backslope Drainage
A small swale system running parallel to a grass-lined channel that is used to receive and convey overland sheet flow to prevent channel bank erosion.

Base Flood Elevation (BFE)
A FEMA term for the water surface elevation produced by the 100-year flood event.

Berm
A raised or elevated mound of soil with the purpose of impounding runoff or floodwaters.

Channel
A natural or manmade open system that conveys water, either during storm events or at all times. Rivers, streams, creeks, and tributaries are examples of natural channels while canals, ditches, and floodways are examples of manmade channels.

DRAFT – INTERNAL REVIEW ONLY

Channel Modification or Conveyance Improvement
Activities in a channel such as widening, deepening, enlarging, straightening, or smoothing that increase channel conveyance.

Conduit
An enclosed pipe or box, usually concrete, used to convey stormwater underground.

Confluence
The intersection and convergence of two channels.

Coincidental Occurrence
Often referred to as a coincident-event or flood-coincidence is the simultaneous or overlapping occurrence of two or more independent or partially dependent hydrological events within the same timeframe. This concept is essential for flood risk management, infrastructure design, and water resource engineering, as the joint impact of coinciding events is usually far more severe than an individual event occurring in isolation.

Conservative Maximum Tailwater
The worst-case scenario, or the most hydraulically controlling tailwater condition shall govern design which is the conservative maximum tailwater condition. The tailwater condition selected must be sufficiently described (with calculations, if applicable) and defended in the engineer's documentation submitted to the county.

Contraction Scour
Scour that occurs when water accelerates due to the constricting of the flow area, where the downstream flow area is narrower than the upstream flow area. The increase in velocity can cause more erosion of the sediment lining the channel than when a channel is not constricted.

Contributing Drainage Area
A single, undivided area, from which the total runoff flows, un-diverted, to a specific point of interest such as an outfall location.

Dam
A structure designed to hold back water in a lake, river, stream, estuary, or other waterbody.

Depression Storage
Water contained in natural low points in the land surface.

Design Storms
A defined total precipitation and pattern that represent the estimated rainfall for a given hypothetical storm (i.e. the 100-year design storm).

Detention Facilities
A man-made storage basin that drains by gravity or pump during a runoff event. It temporarily detains the runoff to reduce peak downstream discharge.

DRAFT - INTERNAL REVIEW ONLY

Developed Area
Any area on which a site improvement or change is made, including buildings, parking lots, and streets. See Development definition.

Development
Any man-made change to improved and unimproved real estate, including but not limited to buildings or other structures, clearing, demolition, alteration of streams or rivers, mining, dredging, filling, grading, paving, installation of fences, excavation or drilling operations or storage of equipment or materials.

Development Regulations
The Montgomery County Development Regulations adopted by the Montgomery County Commissioners Court, and all additions and amendments.

Disturbed Area
Any area on which there is any change to natural conditions, to include, but not limited to: the change of a flow regime, excavation, or clearing of such area. See Development definition.

Ditch
A narrow channel dug in the ground, typically used for drainage alongside a road or the edge of a field.

Discharge
The volume of water that passes through a cross-sectional area in a specified unit of time, usually measured in cubic feet per second or gallons per minute. Also termed as flow.

Diversion
The interception and redirection of the flow of water from one channel to a channel in a different watershed.

Drain Time, Standard Maximum
The standard maximum drain time for development in Montgomery County ≤ 48 hours.

Drainage Area
See Watershed.

Drainage Divide
The elevated topography that divides neighboring watersheds.

Easement
A legally designated area of private property reserved for specific use.

Elevation, Invert
The invert elevation refers to the elevation of the lowest internal point of a closed conduit, pipe, culvert, or bridge opening.

DRAFT – INTERNAL REVIEW ONLY

Elevation, Soffit
The soffit elevation (also known as the obvert level) refers to the elevation of the highest internal point of a closed conduit, pipe, culvert, or bridge opening.

Emergency Overflow Swale
An area that conveys flow that exceeds the storm sewer capacity.

Engineer
A person licensed by the Texas Board of Professional Engineers and Land Surveyors to practice Professional Engineering in the State of Texas. Also referred to as Design Engineer, and Drainage Engineer.

Erosion
A change in geometric configuration caused by the loss of existing soil.

Evapotranspiration
The loss of water due to evaporation from soil and water surfaces and the transpiration from plants.

Excess Rainfall
The volume of rainfall that turns into direct runoff after accounting for losses such as interception, depression storage and soil infiltration.

Extreme Event Weir
A passive static overflow structure designed to activate during rare, high-water events in basins, or channels.

Floodplain
The land area susceptible to being inundated by water during the base flood as indicated on Flood Insurance Rate Maps (FIRM) provided by FEMA.

Floodway
The channel of a stream, along with any adjacent floodplain areas, that must remain free of encroachment to ensure that the one-percent annual chance flood can be conveyed without causing a substantial increase (1 foot or more) in flood heights. The limits of the floodway are defined by FEMA, as indicated on the currently effective Flood Insurance Rate Map (FIRM) panels or FEMA-approved revisions.

Flowline
A line that through the center of a channel or waterbody which indicates the bottom of the creek.

Freeboard
The vertical distance between the top edge of a hydraulic structure and the water surface it is containing.

DRAFT - INTERNAL REVIEW ONLY

Friction Losses
The energy lost due to friction between the water and the conveyance structure (storm sewer, ditch, etc.).

Headwater
The water surface elevation immediately upstream of a hydraulic structure.

Hydraulic
Relating to the physical behavior or properties of runoff from a given rain event.

Hydraulic Grade Line
A line representative of the water surface elevation at any point of an open channel.

Hydrologic
Relating to the quantity of runoff produced from a given rainfall event.

Hydrograph
Graphical representation of rate of flow over a period of time.

Hydrology
The study of the interaction of water with the topography

Impervious Area
Surfaces that are solid and prevent aeration, infiltration, and water penetration. Generally, include, but are not limited to; roofs, roads, concrete, asphalt, or any type of material generally accepted for use as a road base (e.g. crushed concrete, crushed limestone, etc.). Also termed impervious area or impervious surface.

Impervious Area, Connected
Connected impervious area is the impervious area directly connected to the drainage area outlet location. Examples include a paved channel or drainage system that flows all the way to the project outlet, etc. This value will be transformed into percent impervious and then directly input into HEC-HMS.

Impervious Area, Disconnected
Disconnected impervious area is the impervious area not connected to the drainage area outlet location but found throughout the drainage area, often in several different locations. Examples are impervious areas (roofs, roads, parking lots, etc.) scattered throughout a drainage area and used for weighting calculations for the Curve Number and Rational "C" value.

Impervious Area, Percentage
The percent impervious = 100 x (Impervious Area / Total Area of Interest)

Infiltration
The permeation of water into the soil. The rate of infiltration decreases as the soil becomes more saturated.

DRAFT – INTERNAL REVIEW ONLY

Inline Detention
Inline detention includes both on-line and in-stream detention facilities. An on-line detention facility is one in which the total storm runoff volume passes through the retention or detention facility's outflow structure. An in-stream detention facility is a special type of on-line facility created by manipulating existing stream characteristics to provide additional storage without negative impacting upstream or downstream locations.

Intensity
The amount of rainfall experienced over a given time period. Usually expressed in inches per hour.

Interception
Precipitation captured by buildings, leaves, etc., before it reaches the land surface.

Loss Rate
The rate at which a portion of rainfall is “lost” due to interception, depression storage, infiltration, and evaporation.

Maintenance Access
A flat land surface bordering a body of water that allows personnel and equipment room to work. Also, may be called a berm or embankment.

Minor Losses
The energy lost in storm water due to inefficiencies at bends, junctions, and entrances of hydraulic structures.

Natural Channel
An existing channel with irregular cross section that is not man-made.

Natural Drainage Course
Any creek, ravine, channel, swale, etc. that has not been modified or developed or the original site of such a waterway before development. The natural drainage course is the direction in which water flows without interference by development.

Natural Ground
The undisturbed elevation.

Outfall
Downstream end of a pipe discharging into a channel or roadside ditch from a storm sewer system or a detention basin.

Outlet Structure
Structure usually composed of pipes, weirs, spillways, and/or pumps designed to drain a detention basin.

DRAFT - INTERNAL REVIEW ONLY

Overbank
The area outside of the physical channel banks, typically referred to as left overbank and right overbank looking downstream.

Overland Sheet Flow
The flow of runoff over the land surface, not through a channel or other designated conveyance system, typically limited to a depth of 0.1 feet or less.

Parameters
A numerical representation of characteristics of modeled events and locations.

Peak Flow
Rate of flow at the highest point of a hydrograph. Also termed as peak discharge.

Perimeter Swale
An open drainage system that conveys runoff around a site during storm events. The system is sized to collect and convey all offsite runoff around a development. Also termed as boundary swale.

Point of Interest
For the purpose of this manual, points of interest refer to specific locations, such as project boundaries where flow enters and/or exits, detention pond discharge locations, locations of culverts and/or bridges, etc., that have an impact on the drainage design.

Ponding
The volume of rainfall runoff that is unable to move downstream by gravity and therefore sits unmoving until it either evaporates or infiltrates.

Project Condition, Pre-
Pre-project (existing) conditions represent the physical state of the site prior to any construction or modifications. They establish the legal and environmental baseline used to evaluate future changes.

Project Condition, Post-
Post-project (proposed) conditions represent the predicted state of the site after the proposed development is completed. They model how the built environment will interact with natural systems.

Project Condition, Post- Detained
Post-project (proposed) detained conditions represent the predicted state of the site after the proposed development is completed with a detention element present.

Project Condition, Post- Undetained
Post-project (proposed) undetained conditions represent the predicted state of the site after the proposed development is completed with no detention element present.

Rainfall Intensity

DRAFT - INTERNAL REVIEW ONLY

The amount of rainfall experienced over a given time period. Usually expressed in inches per hour.

Reach
A natural or manmade section of river, stream, or channel, between an upstream and downstream location, for which the stage or flow measured at a point somewhere along the section is representative of conditions in that section of river or stream.

Reserve
An area within a subdivision plat that has been set aside for a specific use. Reserves are typically used for drainage features, utilities, trails, parks, and others.

Restrictor
An orifice (typically a plate, or other pipe) that regulates the flow rate of water through an outlet structure. The minimum opening size for any restrictor shall be a 6-inch diameter or a 5-inch wide by 6-inch-high rectangular opening.

Right-of-way
An interest in real property, either in fee or easement.

Riprap
Rock, loose stone, or other material used to prevent erosion of shorelines, stream beds, and other channels.

Roughness Coefficient
A dimensionless value used in hydraulic calculation to approximate the impact of different types of physical characteristics within a channel or floodplain.

Routing
The alteration of the shape and timing of a runoff hydrograph as it moves downstream through a drainage system.

Runoff
Excess rainfall which runs off the land and which is defined as the rainfall minus the losses. This is the portion of a rainfall event which hydraulic structures are designed to contain.

Runoff Coefficient
A constant used to describe the expected amount of runoff produced from a given rainfall event.

Scour
Erosion near the base of structures caused by the fast movement of water.

Shallow Concentrated Flow

DRAFT – INTERNAL REVIEW ONLY

The flow that occurs when minor rivulets form just downstream from the overland flow. Shallow concentrated flow occurs upstream of defined channels and typically has depths less than 0.5 feet.

Sheet Flow
Flow over plane surfaces, usually at the headwater of a stream (see Overland Flow).

Side Slopes
The angle of the side of a channel. Expressed in the change in horizontal dimension over the change in vertical dimension.

Slab Elevation
The lowest elevation at the top of a structure's foundation slab.

Slope Paving
Smooth concrete placed inside a drainage channel to prevent erosion.

Stage
The height of water surface elevation relative to a declared datum.

Steady Flow
A hydraulic assumption that uses a constant flow at various points in a creek or channel. Also termed "steady state" when used in an analysis.

Storm Sewer
A system of pipes that collect and reroute water from a development.

Swale
A shallow, densely vegetated drainage way with gradual side slopes that collects and conveys runoff. May be natural or manmade.

Tailwater
The water surface elevation immediately downstream from a hydraulic structure. The tailwater affects both the outflow structure design and the stage-outflow relationship of the detention basin.

Time of Concentration
The travel time of a single particle of water from the farthest point of the watershed to the point of interest.

Unit Hydrograph
The base level for defining a hydrograph from a given watershed. It is a graphical representation of the surface runoff due to one inch of rainfall excess applied uniformly over the watershed in a specified time interval.

Unsteady Flow

DRAFT – INTERNAL REVIEW ONLY

A hydraulic assumption that uses the change in flow over time through a creek or channel. Also termed “unsteady state” when used in an analysis.

Watershed
A defined area where all overland flow runoff is conveyed to the same outlet. Similar terms include basin, drainage basin, or drainage area.

Weep Holes
Small openings in the structural siding to allow for water to drain from within the structure.

10.13 GUIDE FOR SMALL SITE DEVELOPMENT

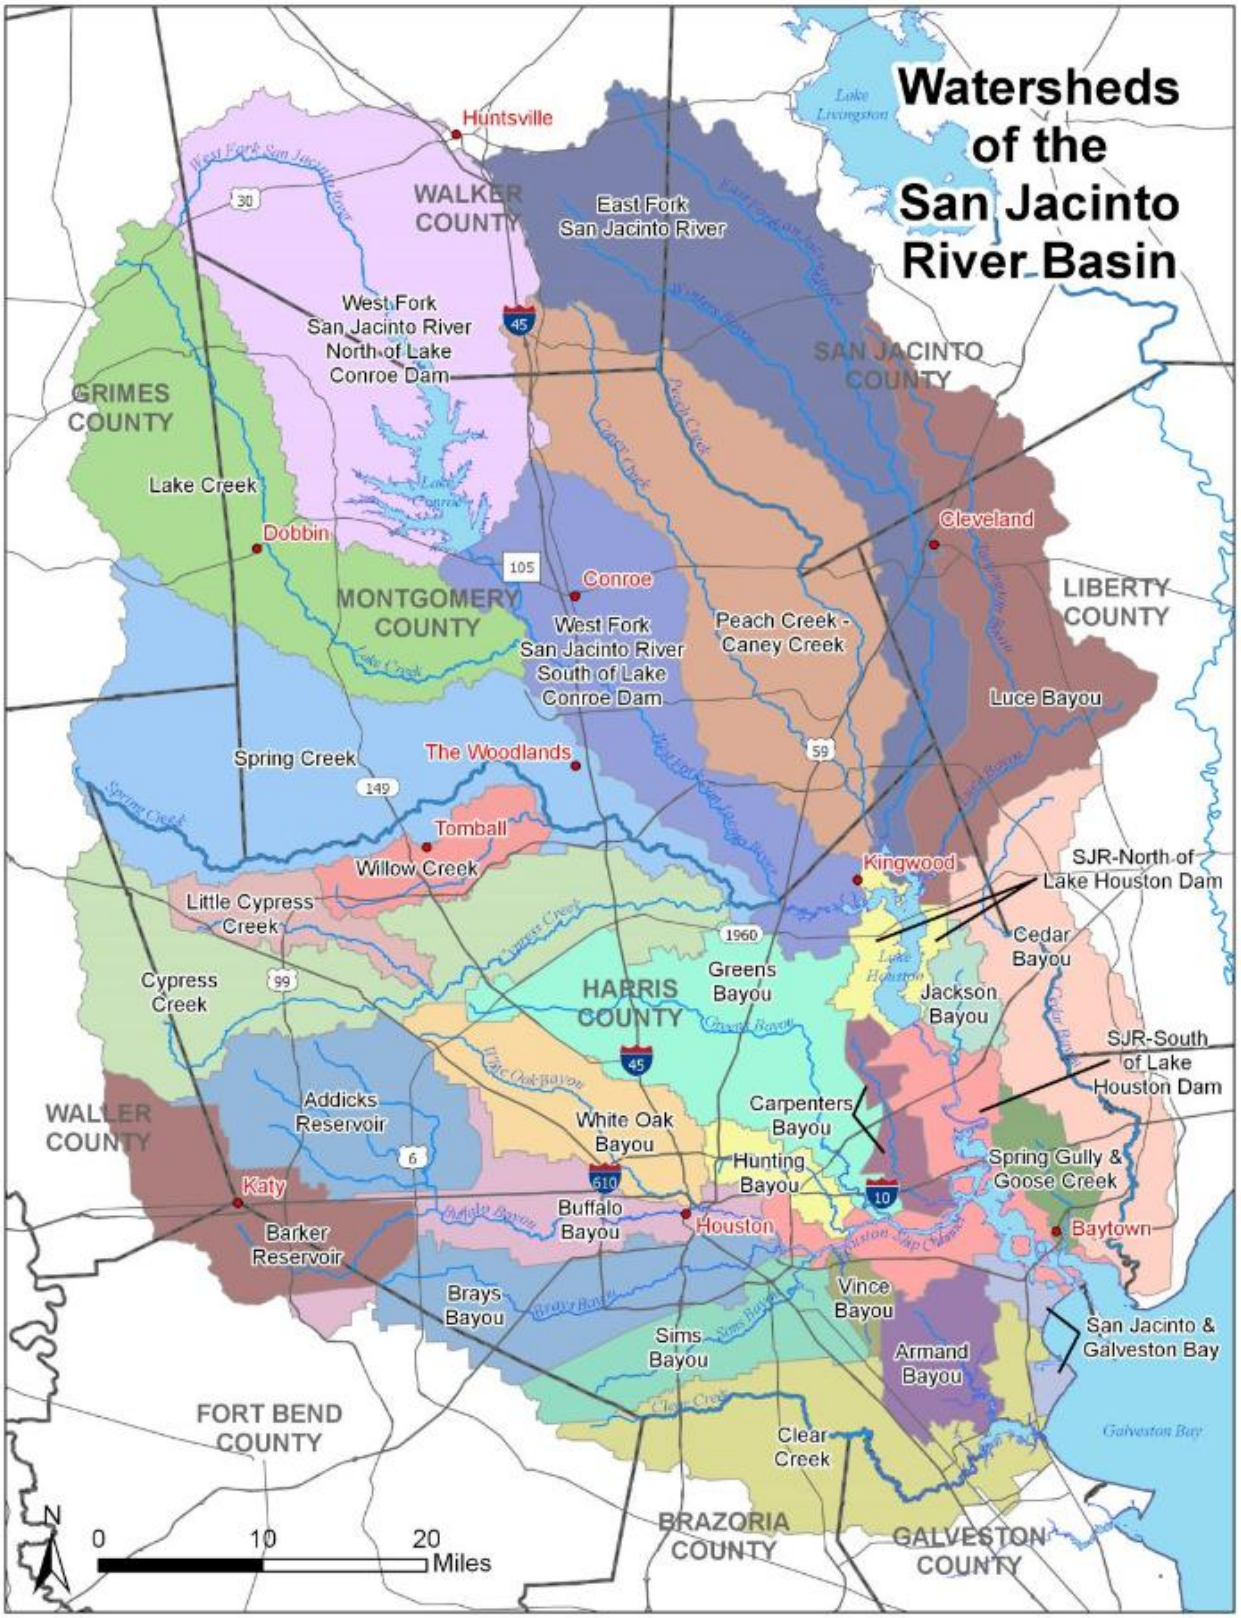
For contributing drainage areas less than or equal to 20 acres



STEP 1	Is the total cumulative disturbed area greater than 15, 000ft2?	
	Total Disturbed Area (ft2)	
	If **YES**, go to STEP 2.	
	If **NO**, no detention is required.	
STEP 2	Is the contributing drainage area less than or equal to 20 acres?	
	Contributing Drainage Area (ac)	
	If **YES**, go to STEP 3.	
	If **NO**, the use of a hydrologic model (HEC-HMS) is required.	
STEP 3	Determine the total impervious cover on the site:	
	Total Impervious Area (ac)	
STEP 4	Determine the percent impervious (%imp):	
	Percent Impervious = Impervious Area / Drainage Area	
STEP 5	Based on STEP 4, use Figure 6-1 to determine the required storage rate:	
	Minimum Storage Rate (ac-ft/ac)	
STEP 6	Determine the required storage volume for the site:	
	Minimum Required Volume (ac-ft) = [STEP 5] x [STEP 2]	
STEP 7	Determine the total time of concentration for the existing condition:	
	Travel Time (min)	
STEP 8	Use the time of concentration from STEP 7 to determine the rainfall intensities:	
	100-year Intensity (in/hr)	
	10-year Intensity (in/hr)	
	5-year Intensity (in/hr)	

DRAFT – INTERNAL REVIEW ONLY

STEP 9	Determine the existing condition weighted runoff coefficient:	
	Weighted Rational "C"	
STEP 10	Using the Rational Method Equation, determine the peak flows:	
	100-year Peak Flow (cfs)	
	10-year Peak Flow (cfs)	
	5-year Peak Flow (cfs)	
STEP 11	Determine the water surface elevation for each of the required storm events:	
	The 100-yr water surface elevation will be located at the freeboard elevation, 100-year WSEL (ft):	
	The 10-yr water surface elevation will be located at 65% of the 100-year volume, 10-year WSEL (ft):	
	The 5-yr water surface elevation will be located at 50% of the 100-year volume, 5-year WSEL (ft):	
STEP 12	Calculate the restrictor size (orifice and weir):	
100-yr	Opening Size (in)	
	Flowline Elevation (ft)	
	Coefficient (0.6 – 0.8)	
	Flow Rate (cfs)	
10-yr	Opening Size (in)	
	Flowline Elevation (ft)	
	Coefficient (0.6 – 0.8)	
	Flow Rate (cfs)	
5-yr	Opening Size (in)	
	Flowline Elevation (ft)	
	Coefficient (0.6 – 0.8)	
	Flow Rate (cfs)	
STEP 13	Calculate the drain time based on the 100-year storm event	
	Drain Time (hr)	
STEP 14	Complete Attachment 10.12	
STEP 15	Include the following:	
	Civil Plans	
	TxDOT Permits	
	Letters of No Objection	
	Other documents (as required)	

DRAFT - INTERNAL REVIEW ONLY

Commissioners Court-Regular Meeting **PRECINCT 4**

TO: Montgomery County Commissioners Court

DATE: 08/20/2026

SUBJECT: Consider and approve Resolution and Order regarding Amendment #2 to the Advance Funding Agreement between Montgomery County and the Texas Department of Transportation for the Project identified as Ford Road from Needham Road to the Harris County line (CSJ: 0912-37-259) to add additionally awarded federal funds to construction, and further authorize Commissioner Matt Gray to execute Amendment #2 and all other documents necessary to effectuate the transaction on behalf of Montgomery County, Texas.

Ford Road (CSJ 0912-37-259) RO Amendment #2

Agenda item _____
August 20, 2026

RESOLUTION AND ORDER APPROVING AMENDMENT #2 TO ADVANCE FUNDING AGREEMENT WITH THE TEXAS DEPARTMENT OF TRANSPORTATION (SUPPLEMENTAL TRANSPORTATION PROGRAM OFF-SYSTEM)
(CSJ 0912-37-259, Ford Rd.: Needham Rd. to Harris C/L)

On this the 20th day of August, 2026, at a Regular Session Meeting of the Commissioners Court of Montgomery County, Texas, there came on for consideration and approval a motion to (1) authorize Amendment #2 to the Advance Funding Agreement executed on September 25, 2025, between the State of Texas, acting by and through the Texas Department of Transportation ("TxDOT") and Montgomery County, Texas ("County") for the Ford Road improvements from Needham Road to the Harris County line (CSJ 0912-37-259) ("Project"), and (2) authorize Commissioner Matt Gray to execute Amendment #2 and all other documents necessary to effectuate the transaction on behalf of Montgomery County, Texas.

WHEREAS, on September 25, 2025, TxDOT and the County executed an Advance Funding Agreement for the Ford Road improvements from Needham Road to the Harris County line ("Project"); and

WHEREAS, on January 8, 2026, TxDOT and the County executed Amendment #1 to the Advance Funding Agreement to reallocate four direct state costs amounts from 80% federal participation to 100% local participation; and

WHEREAS, it has become necessary to amend the Advance Funding Agreement for the Project to add additionally awarded federal funds to construction; and

WHEREAS, the Commissioners Court of Montgomery County, Texas desires to reaffirm its support of the Project and approve and authorize the execution of Amendment #2 to the Advance Funding Agreement.

Motion was made by Commissioner _____ and seconded by Commissioner _____to hereby authorize Amendment #2 to the Advance Funding Agreement executed on September 25, 2025, between TxDOT and the County for the Project (CSJ 0912-37-259), and further authorize Commissioner Matt Gray to execute the Amendment and all other documents necessary to effectuate the transaction on behalf of Montgomery County, Texas.

Said Motion being put to a vote, it carried by a vote of ____ aye votes to ____ nay votes as follows:

	Yes	*No*	*Abstain*	*Absent*

INDEPENDENT AUDITOR'S REPORT

To the Board of Commissioners of the
Montgomery County Emergency Services District No. 7:

Report on the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities and the general fund of Montgomery County ESD No. 7 (the "District") as of and for the year ended September 30, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities and the general fund of Montgomery County ESD No. 7, as of September 30, 2025, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Montgomery County ESD No. 7 and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

The District's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for one year after the date that the financial statements are issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

(This page intentionally left blank.)

The purpose of the Management's Discussion and Analysis (the "MD&A") is to give the readers an objective and easily readable analysis of the financial activities of the Montgomery County Emergency Services District No. 7 (the "District") for the year ended September 30, 2025. The analysis is based on currently known facts, decisions, or economic conditions. It presents short and long-term analysis of the District's activities and discusses the positive and negative aspects of that comparison. Governmental Accounting Standards Board (GASB) Statement No. 34 establishes the content of the minimum requirements for MD&A. Please read the MD&A in conjunction with the District's financial statements, which follow this section.

THE STRUCTURE OF OUR ANNUAL REPORT

The annual financial report is presented as compliant with the financial reporting model in effect pursuant to GASB Statement No. 34. The financial reporting model requires governments to present certain basic financial statements as well as a Management's Discussion and Analysis (MD&A) and certain other Required Supplementary Information (RSI). The basic financial statements include (1) government-wide financial statements, (2) individual fund financial statements, and (3) notes to the financial statements.

Government-Wide Statements

The government-wide statements report information for the District as a whole. These statements include transactions and balances relating to all assets, including capital assets. These statements are designed to provide information about cost of services, operating results, and financial position of the District as an economic entity. The Statement of Net Position and the Statement of Activities report information on the District's activities that enable the reader to understand the financial condition of the District. These statements are prepared using the *accrual basis of accounting*, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account even if cash has not yet changed hands.

The Statement of Net Position presents information on all of the District's assets and liabilities. The difference between the two is reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. Other non-financial factors, such as the District's operating performance need to be considered to assess the overall health of the District.

The Statement of Activities presents information showing how the District's net position changed during the most recent year. All changes in the net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows – the accrual method rather than modified accrual that is used in the fund level statements.

The Statement of Net Position and the Statement of Activities present the District using one class of activity:

1. Governmental Activities – The District's emergency service operations are reported here.

The government-wide financial statements can be found after the MD&A within this report.

FUND FINANCIAL STATEMENTS

Funds may be considered as operating companies of the parent corporation, which is the District. They are usually segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal reporting requirements. The District's operations are reported using governmental funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The District maintains one governmental fund. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balance for the general fund, which is considered to be a major fund.

The general fund is used to report the District's activities. The District adopts an annual unappropriated budget for its general fund. A budgetary comparison schedule has been provided to demonstrate compliance with this budget.

Notes to Financial Statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes can be found after the financial statements within this report.

Other Information

In addition to basic financial statements, this MD&A, and accompanying notes, this report also presents certain Required Supplementary Information ("RSI"). The RSI that GASB Statement No. 34 requires includes a budgetary comparison schedule for the general fund. The RSI can be found after the notes to the financial statements within this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

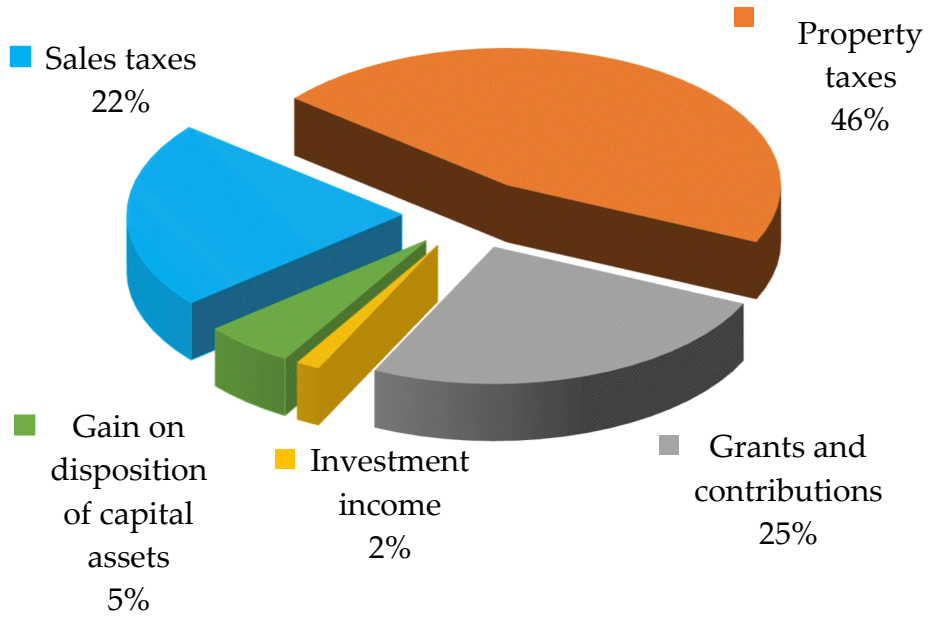
Net position may serve over time as a useful indicator of the District's financial position. For the District, assets and deferred outflows exceeded liabilities and deferred inflows by $10,029,804 as of yearend. Unrestricted net position, $4,875,329, may be used to meet the District's ongoing emergency service operations.

Statement of Net Position:

The following table reflects the condensed Statement of Net Position:

	Governmental Activities 9/30/2025	Governmental Activities 9/30/2024
Current and other assets	$ 6,663,316	$ 6,934,527
Capital assets, net	7,860,417	6,602,107
Total Assets	14,523,733	13,536,634
Deferred Outflows of Resources	1,050,579	606,803
Current liabilities	655,678	487,142
Long-term liabilities	4,888,830	5,402,788
Total Liabilities	5,544,508	5,889,930
Net position:		
Net investment in capital assets	4,550,852	2,603,541
Restricted	603,623	724,347
Unrestricted	4,875,329	4,925,619
Total Net Position	$ 10,029,804	$ 8,253,507

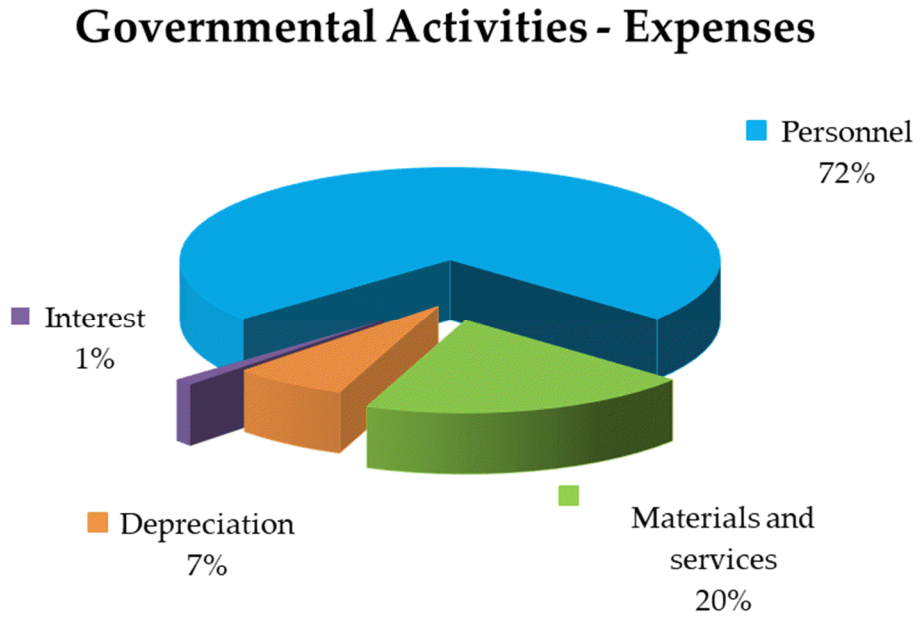
Capital assets, net increased by $1,258,310, or 19%, primarily due to cash outflows for land and vehicles/equipment during the year. Deferred outflows of resources increased by $443,776, or 73%, primarily due to actuarial changes in the County's pension inputs over the course of the year. Current liabilities increased by $168,536, or 35%, primarily due to greater payables due at the end of the year and timing of payments subsequent to yearend. Long-term liabilities decreased by $513,958, or 10%, primarily due to principal payments made towards debt in the current year.



Statement of Activities:

The following table provides a summary of the District's changes in net position:

	Governmental Activities Year ended 9/30/25	Governmental Activities Year ended 9/30/24
Revenues		
Sales taxes	$ 2,574,348	$ 2,263,666
Property taxes	5,364,564	4,273,081
Grants and contributions	2,961,712	3,957,455
Investment income	165,882	126,631
Other revenues	1,217	3,409
Gain on disposition of capital assets	622,483	20,000
Total Revenues	11,690,206	10,644,242
Expenses		
Personnel	7,165,135	8,147,411
Materials and services	1,965,957	1,427,888
Depreciation	670,544	541,244
Interest	112,273	94,316
Total Expenses	9,913,909	10,210,859
Change in Net Position	1,776,297	433,383
Beginning Net Position	8,253,507	7,820,124
Ending Net Position	$ 10,029,804	$ 8,253,507



Graphic presentations of selected data from the summary tables are displayed below to assist in the analysis of the District's activities.

Governmental Activities - Revenues

The District reported an increase in net position of $1,776,297. The increase was primarily due to an increase in property taxes and nonrecurring gains on disposition of capital assets in the current year. The increase in property tax revenues of $1,091,483, or 26%, over prior year is due to an increase in the taxable appraisal values for the District. Sales taxes increased by $310,682, or 14%, due to economic growth fueled by greater local purchases. Grants and contributions decreased by $995,743, or 25%, primarily due to greater nonrecurring Texas Interstate Fire Mutual Aid System (TIFMAS) and East Montgomery County Improvement District (EMCID) grants received in the prior year. Gains on disposition of capital assets increased by $602,483, or 100%, primarily due to nonrecurring reimbursements after tornado damages to Fire Station 154 and the District's 2010 Ferrara Pumper truck, which was destroyed in a vehicle accident.

This graph shows the governmental function expenses of the District:

Personnel expenses decreased by $982,276, or 12%, which is primarily due to a decrease in pension related expense and nonrecurring firefighter deployment hours incurred in the prior year. Materials and services increased by $538,069, or 38%, primarily due to greater vehicle/equipment repairs, insurance expense and nonrecurring Texas Intrastate Fire Mutual Aid System (TIFMAS) deployment equipment maintenance in the current year. Depreciation expense increased by $129,300, or 24%, primarily due to the acquisition of new capital assets in the current year.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, fund accounting is used to demonstrate and ensure compliance with finance-related legal requirements.

Governmental Funds – The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, the unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the year.

The District's general fund reflects a fund balance of $5,055,738. There was a decrease in the fund balance of $380,697 over the prior period. This decrease is mainly attributed to decreases in grants/contributions and increases in personnel and capital outlay expenses in the current year.

CAPITAL ASSETS

As of the end of the year, the District had invested $7,860,417 in a variety of capital assets and infrastructure, net of accumulated depreciation. This investment in capital assets includes land, buildings, vehicles and equipment. Major capital asset events during the current year include the following:

- The District purchased Upfitting kits for (2) 2024 Ram 4500's totaling $53,984.
- The District purchased Upfitting kits for (4) 2024 Ram 2500's totaling $88,403.
- The District purchased Upfitting kits for (1) 2024 Ram 3500 for $19,272.
- The District purchased Upfitting kits for (1) 2024 Ram 2500 crew cab for $12,909.
- The District purchased (1) 2025 Ram 2500 for $88,263.
- The District purchased (1) 2025 Ram 3500 for $64,675.
- The District purchased (1) 2025 Ram 4500 for $71,246.
- The District purchased a SKID unit for $23,850.
- The District purchased a SpaceSaver Model 100A two cylinder fill station for $25,442.
- The District purchased a ES-100-28-18V Generator for $24,525.
- The District purchased a Rowe skid unit 19HP Kohler EFI engine for $20,000.
- The District purchased an aluminum truck bed and under boxes for Booster 151 for $14,800.
- The District purchased (20) X3 Pro 2018 Edition 4.5 w/cga parachute buckles totaling $167,900.
- The District purchased (34) portable XL-200P, full keypad, PGRN radios totaling $359,199.
- The District invested in improvements for Station 151 totaling $130,932.
- The District invested in improvements for Station 154 totaling $356,890.
- The District invested in .37369 acres of land at 13833 N US Highway 59 for $577,842.

GENERAL FUND BUDGETARY HIGHLIGHTS

Actual general fund revenues were more than final budgeted revenues by $252,118 during the year. Actual general fund expenditures were greater than the final budgeted appropriations by $3,488,016. Other financing sources resulted in a positive budget variance of $840,531. These variances were the reasons for a net negative overall variance of $2,395,367 over the final budgeted amounts. For the current year, expenditures exceeded appropriations at the legal level of control by $3,488,016.

LONG TERM DEBT

The District's outstanding debt decreased by $689,001 during the year. The decrease was due to principal payments during the year. The total notes payable outstanding at yearend was $3,309,565.

More detailed information about the District's long-term liabilities is presented in note IV. D to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The District is located in Montgomery County, Texas. An increase in the overall property values in the County resulted in an increase in the assessed valuation of the District. The overall continued development within the District should continue to fuel increased property tax receipts in the coming year.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide a general overview of the District's finances. Questions concerning this report or requests for additional financial information should be directed to the Fire Chief at 19870 FM 1485 West New Caney, TX 77357; 281-689-3112.

See Notes to Financial Statements.

Montgomery County
Emergency Services District No. 7

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGE IN FUND BALANCE TO THE STATEMENT OF ACTIVITIES

For the Year Ended September 30, 2025

Amounts reported for governmental activities in the Statement of Activities are different because:		
Net change in fund balance	$	(380,697)
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays was more than depreciation in the current period.		
Capital outlay		2,146,902
Depreciation		(670,544)
Impairment		(218,048)
Revenue in the Statement of Activities that does not provide current financial resources are not reported as revenue in the funds.		
Property taxes		113,425
Long term grant receivable		(120,724)
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.		
Accrued interest		9,879
Pension (expense)/income		268,733
The issuance of long-term debt (i.e. leases) provide current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. This amount is the net effect of these differences in the treatment of long-term debt and related items.		
Principal payments		689,001
Principal payment recorded as prepaid expense in governmental funds		(59,927)
Interest payment recorded as prepaid expense in governmental funds		(1,703)
Net Change in Net Position	$	1,776,297

See Notes to Financial Statements.

(This page is intentionally left blank.)

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description of Government-Wide Financial Statements and Reporting Entity

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government.

Montgomery County Emergency Services District No. 7 (the "District") operates under Chapter 775, "Emergency Services Districts" of V.T.C.A, Health and Safety Code. The District was converted from a Rural Fire Prevention District in 1995. The District is a duly organized emergency services district, created to protect life and property from fire and to conserve natural and human resources. The District consolidated their operations with Montgomery County Emergency Services District No. 11 ("District No. 11") on June 9, 2015 (the "merger date"). A new entity was formed on the merger date, under the original name of the District.

As required by generally accepted accounting principles, these basic financial statements have been prepared based on considerations regarding the potential for inclusion of other entities, organizations, or functions as part of the District's financial reporting entity. The District has adopted Governmental Accounting Standards Board Statement No. 61, *The Financial Reporting Entity*. No other entities have been included in the District's reporting entity. Additionally, as the District is considered a primary government for financial reporting purposes, its activities are not considered a part of any other governmental or other type of reporting entity.

Considerations regarding the potential for inclusion of other entities, organizations or functions in the District's financial reporting entity are based on criteria prescribed by generally accepted accounting principles. These same criteria are evaluated in considering whether the District is a part of any other governmental or other type of reporting entity. The overriding elements associated with prescribed criteria considered in determining that the District's financial reporting entity status is that of a primary government are that it has a separately elected governing body; it is legally separate; and is fiscally independent of other state and local governments. Additionally prescribed criteria under generally accepted accounting principles include considerations pertaining to organizations for which the primary government is financially accountable, and considerations pertaining to organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

B. Basis of Presentation Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information about the District as a whole. These statements include all activities of the primary government. Governmental activities are normally supported by property and sales taxes and intergovernmental revenues.

The Statement of Activities presents a comparison between general government expenses and general revenues of the District's governmental activities. Expenses, such as those used to fund the principal operations of District, are presented as general government expenses. Revenues, such as taxes and investment earnings, are presented as general revenues.

The fund financial statements provide information about the government's funds. Separate statements for each fund category are presented.

The government reports the following governmental funds:

Governmental Funds

Governmental funds are those funds through which most governmental functions are typically financed.

General Fund

The general fund is used to account for the operations of the District's emergency service operations and all other financial transactions not properly includable in other funds. The principal sources of revenue are related to property taxes and sales taxes. Expenditures include all costs associated with the daily operations and contractual obligations of the District.

During the course of operations the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities are eliminated so that only the net amount is included as internal balances in the governmental activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds

included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column.

C. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources.* The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under leases are reported as other financing sources.

Property taxes, sales taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). All other revenue items are considered to be measurable and available only when cash is received by the government.

D. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance

1. Cash and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits and short term investments with original maturities of three months or less from the date of acquisition.

In accordance with GASB Statement No. 31, *Accounting and Reporting for Certain Investments and External Investment Pools*, the District reports all investments at fair value, except for "money market investments" and "2a7-like pools." Money market investments, which are short-term highly liquid debt instruments that may include U.S. Treasury and agency obligations, are reported at amortized costs. Investment positions in external investment pools that are operated in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940 are reported using the pools' share price.

The District has adopted a written investment policy regarding the investment of its funds as defined in the Public Funds Investment Act ("PFIA"), Chapter 2256, of the Texas Governmental Code. In summary, the District is authorized to invest in the following:

- Direct obligations of the U.S. Government
- Fully collateralized certificates of deposit and money market accounts
- Fully collateralized repurchase agreement, as defined by PFIA
- Bankers' acceptance if it has a maximum 270 day stated maturity from issuance date
- Commercial paper if it has a maximum 270 day stated maturity from issuance date
- No-load money market mutual funds registered with the Securities and Exchange Commission, weighted average maturity of less than two years and rated AAA
- Statewide investment pools

2. Receivables and Interfund Transactions

Transactions between governmental funds that are representative of the transfer of resources arrangements outstanding at the end of the year are referred to as "due to/from other funds." Further, the activity occurring during the year involving these transfers of resources between funds are reported at gross amounts as transfers in/out.

3. Property Taxes

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. Penalties are calculated after February 1 up

to the date collected by the government at the rate of 6% for the first month and increased 1% per month up to a total of 12%. Interest is calculated after February 1 at the rate of 1% per month up to the date collected by the government. Under state law, property taxes levied on real property constitute a lien on the real property which cannot be forgiven without specific approval of the State Legislature. The lien expires at the end of twenty years. Taxes levied on personal property can be deemed uncollectible by the District.

4. Capital Assets

Capital assets, which include property, plant, equipment, and vehicle assets (e.g., fire trucks, building, fire apparatus, and similar items) are reported in the applicable governmental activities columns in the government-wide financial statements. Capital assets are defined by the government, as assets with an initial individual cost of more than $5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Interest costs incurred in connection with construction of enterprise fund capital assets are capitalized when the effects of capitalization materially impact the financial statements.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Property, plant, and equipment of the primary government are depreciated using the straight-line method over the following estimated useful years.

Asset Description	Estimated Useful Life
Vehicles	5 to 12 years
Furniture and other equipment	3 to 10 years
Buildings and improvements	10 to 30 years

5. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/ expenditure) until then. An example is a deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources,* represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The government has only one type of item, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, *unavailable revenue,* is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from one source: property taxes. This amount is deferred and recognized as an inflow of resources in the period that the amounts become available.

6. Net Position Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

7. Fund Balance Flow Assumptions

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

8. Fund Balance

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The government itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority. The governing board is the highest level of decision-making authority for the government that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance

remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The governing body (board of commissioners) has by resolution authorized the treasurer to assign fund balance. The board may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

9. Compensated Absences

The District accounts for vacation and sick leave in accordance with the provisions of GASB Statement No. 101, Compensated Absences.

It is the District's policy to permit employees to accumulate earned, but unused paid time off (PTO) based on years of service, subject to a maximum carryover of 360 hours at fiscal year end. Unused PTO is forfeited upon resignation or separation and is not paid out at termination. Once per year, employees may elect to sell back accrued PTO at 75% of their regular hourly rate. As of September 30, 2025, all PTO eligible for payment under the buy-back program had been paid and no employees held remaining PTO balances. In accordance with GASB Statement No. 101, no liability for compensated absences is reported as of September 30, 2025.

Sick leave is considered a non-separation benefit and is recognized as a liability only to the extent it is probable that the leave will be used for qualifying absences and the amount can be reasonably estimated. Because unused sick leave is not paid upon separation from employment, the District does not record a liability for sick leave beyond amounts expected to be taken as paid absences in the future.

10. Long-Term Obligations

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements until due. The debt proceeds are reported as other financing sources, net of the applicable premium or discount and payments of principal and interest reported as expenditures. In the governmental fund types, issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures. However, claims and judgments paid from governmental funds are reported as a liability in the fund financial statements only for the portion expected to be financed from expendable available financial resources.

Assets acquired under the terms of leases are recorded as liabilities and capitalized in the government-wide financial statements at the present value of net minimum lease payments at inception of the lease. In the year of acquisition, lease transactions are recorded as other financing sources and as capital outlay expenditures in the general fund. Lease payments representing both principal and interest are recorded as expenditures in the general fund upon payment with an appropriate reduction of principal recorded in the government-wide financial statements.

11. Estimates

The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

12. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and pension expense have been determined on the same basis as they are reported by TCDRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. See Note V.C. for additional information.

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position.

The governmental fund balance sheet includes reconciliation between *fund balance-total governmental funds* and *net position-governmental activities* as reported in the government-wide statement of net position. One element of that reconciliation explains that long-term assets, such as property tax receivable, are not available to pay for current-period expenditures and, therefore, are deferred in the governmental funds.

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities.

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances – total governmental funds and changes in net position of governmental states that, “Revenue in the Statement of

Activities that does not provide current financial resources are not reported as revenue in the funds."

III. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the general fund. The legal level of control is the fund level. The budget is prepared using the same method of accounting as for financial reporting and serves as a planning tool. Encumbrance accounting is not utilized.

A budget is prepared by fund and function. Appropriations lapse at the end of the year. For the year ended September 30, 2025, expenditures exceeded appropriations at the legal level of control by $3,488,016.

IV. DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

As of September 30, 2025, the District had the following investments:

Investment Type	Carrying Value	Weighted Average Maturity (Years)
Certificates of deposit	$ 565,807	0.85
External investment pools	1,940,202	0.04
Total carrying value	$ 2,506,009	
Portfolio weighted average maturity		0.22

Applicable state laws and regulations allow the District to invest its funds in direct or indirect obligations of the United States, the State, or any county, city, school district, or other political subdivision of the State. Funds may also be placed in certificates of deposit of state or national banks or savings and loan associations (depository institutions) domiciled within the State. Related state statutes and provisions included in the District's bond resolutions require that all funds invested in depository institutions be guaranteed by federal depository insurance and/or be secured in the manner provided by law for the security of public funds.

Custodial Credit Risk – deposits. In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District requires funds on deposit at the depository bank to be collateralized by securities when in excess of FDIC coverage. As of September 30, 2025, checking deposits were collateralized by an amount over and above the yearend balances exceeding FDIC coverage.

The District's external investment pools consist of investments in Texas CLASS.

Texas CLASS

Texas CLASS is a local government investment pool emphasizing safety, liquidity, convenience and competitive yield. Since 1996, Texas CLASS has provided Texas public entities a safe and competitive investment alternative. Texas CLASS invests only in securities allowed by the Texas Public Funds Investment Act. The pool is governed by a board of trustees, elected annually by its participants. Texas CLASS is rated 'AAAm' by Standard and Poor's Ratings Services. The 'AAAm' principal stability fund rating is the highest assigned to principal stability government investment pools and is a direct reflection of Texas CLASS's outstanding credit quality and management. At September 30, 2025, the fair value of the position in Texas CLASS approximates fair value of the shares. There were no limitations or restrictions on withdrawals.

B. Receivables

The following comprise receivable balances of the primary government at year end:

		General Fund
Property taxes		$ 455,947
Sales taxes		432,614
Grant receivable		603,623
Other		172,623
	Total	$ 1,664,807

The District's grant receivable of $603,623 is owed from the East Montgomery County Improvement District ("EMCID") related to the May 29, 2020 grant agreement. The grant agreement relates to funding debt service payments for the purchase of a fire truck by the District. As a part of the grant agreement, EMCID agreed to pay the principal amount of the note payable and one half of the interest expense. The principal amount is fully accrued at yearend, and the portion related to interest is accrued with time.

The below schedule shows the future expected payments of the receivable:

Year ending September 30,	Grant receivable (per contract)		
	Principal	Interest	Total
2026	$ 120,725	$ 8,271	128,996
2027	120,725	8,271	128,996
2028	120,725	8,271	128,996
2029	120,725	8,271	128,996
2030	120,723	8,271	128,994
	$ 603,623	$ 41,355	$ 644,978

C. Capital Assets

The following is a summary of changes in capital assets for the period ended September 30, 2025:

	Beginning Balances	Increases	Decreases/ Reclassifications	Ending Balances
Capital assets, not being depreciated:				
Land	$ 393,438	$ 577,842	$ -	$ 971,280
Total capital assets not being depreciated	393,438	577,842	-	971,280
Capital assets, being depreciated:				
Buildings	4,634,353	534,682	(218,048) *	4,950,987
Vehicles and equipment	8,514,392	1,034,378	-	9,548,770
Total capital assets being depreciated	13,148,745	1,569,060	(218,048)	14,499,757
Less accumulated depreciation				
Buildings	(2,141,366)	(167,557)	-	(2,308,923)
Vehicles and equipment	(4,798,710)	(502,987)	-	(5,301,697)
Total accumulated depreciation	(6,940,076)	(670,544)	-	(7,610,620)
Net capital assets being depreciated	6,208,669	898,516	(218,048)	6,889,137
Total Capital Assets	$ 6,602,107	$ 1,476,358	$ (218,048)	$ 7,860,417

Depreciation expense was $670,544 for the year ended September 30, 2025.

* During the year the District endured a tornado that caused damage to their station #154. The related damage was accounted for using the restoration cost approach, which resulted in an impairment charge of $218,048 during the year. This amount was offset against the gain recognized from related insurance proceeds recognized.

D. Long-Term Obligations

The following is a summary of long-term obligations for the period ended September 30, 2025:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Governmental Activities:					
Notes payable:					
Due to State Comptroller, due in monthly installments through 2028, interest n/a	$ 307,414	$ -	$ (69,003)	$ 238,411	$ 75,276
2016 Ferrara Pumper, due in annual installments through 2025, interest at 2.84%	121,146	-	(121,146)	-	-
2019 Ferrara Pumper, due in annual installments through 2028, interest at 2.99%	233,695	-	(43,283)	190,412	44,946
2021 Pierce Enforcer Pumpers (2), due in annual installments through 2030, interest at 1.62%	696,304	-	(111,443)	584,861	113,247
New Station Loan, due in annual installments through 2037, interest at 4.15%	455,244	-	(27,142)	428,102	28,268
2017 Ferrara Pumper, due in annual installments through 2027, interest at 2.99%	200,186	-	(65,045)	135,141	66,990
2020 Ladder Truck, due in annual installments through 2030, interest at 2.25%	878,855	-	(117,164)	761,691	119,892
2024 RAMs (3), due in annual installments through 2031, interest at 5.25%	376,392	-	(45,878)	330,514	48,287
2024 Ferrara Pumper, due in annual installments through 2031, interest at 5.25%	729,330	-	(88,897)	640,433	93,564
Total Governmental Activities	$ 3,998,566	$ -	$ (689,001)	$ 3,309,565	$ 590,470
Long-term liabilities due in more than one year				$ 2,719,095	

These notes payable are secured by the underlying assets referenced above. The carrying value of these assets was $1,903,337 as of September 30, 2025.

As of September 30, 2025, the debt service requirements are as follows:

Year ending	Notes Payable		Due to State Comptroller		Total Debt	
September 30,	Principal	Interest	Principal	Interest	Principal	Interest
2026	$ 515,194	$ 108,681	$ 75,276	$ -	$ 590,470	$ 108,681
2027	532,113	90,060	75,276	-	607,389	90,060
2028	478,634	72,484	75,276	-	553,910	72,484
2029	494,748	56,370	12,583	-	507,331	56,370
2030	459,302	39,554	-	-	459,302	39,554
2031	352,054	24,086	-	-	352,054	24,086
2032	36,079	9,969	-	-	36,079	9,969
2033	37,576	8,472	-	-	37,576	8,472
2034	39,135	6,912	-	-	39,135	6,912
2035	40,760	5,288	-	-	40,760	5,288
2036	42,451	3,597	-	-	42,451	3,597
2037	43,108	1,834	-	-	43,108	1,834
	$ 3,071,154	$ 427,307	$ 238,411	$ -	$ 3,309,565	$ 427,307

V. OTHER INFORMATION

A. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the District carries commercial insurance. The District has not significantly reduced insurance coverage or had settlements that exceeded coverage amounts for the past three fiscal years.

B. Contingent Liabilities

Amounts received or receivable from granting agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amounts of expenditures which may be disallowed by the grantor cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Claim liabilities are calculated considering the effects of inflation, recent claim settlement trends, including frequency and amount of payouts, and other economic and social factors.

C. Defined Benefit Pension Plan

1. Plan Description

The District provides retirement, disability, and death benefits for all its eligible employees through a nontraditional defined benefit pension plan in the statewide Texas County & District Retirement System ("TCDRS"). The Board of Trustees of TCDRS is responsible for the administration of the statewide agent multiple-employer public employee retirement system consisting of nearly 900 nontraditional defined contribution benefit plans. TCDRS, in the aggregate, issues a comprehensive annual financial report ("ACFR") on a calendar year basis. The ACFR is available upon written request from the TCDRS Board of Trustees at P.O. Box 2034, Austin, Texas 78768-2034.

Plan Initiation

In February 2017, the District began enrollment within the TCDRS defined benefit pension plan for all full and part-time employees. The District's initial contributions were submitted in March 2017.

2. Benefits Provided

The plan provisions are adopted by the District within the options available in Texas state statutes governing TCDRS (TCDRS Act). Members can retire at ages 60 and above with 10 or more years of service, with 20 years of service regardless of age, or when the sum of their age and years of service equals 75 or more. Members are vested after 10 years of service, but must leave their accumulated contributions in the plan to receive any employer-financed benefit. Members who withdraw their personal contributions in a lump sum are not entitled to any amounts contributed by their employer.

Benefit amounts are determined by the sum of the employee's contribution to the plan, with interest, and employer-financed monetary credits. The level of these monetary credits is adopted by the District within the actuarial constraints imposed by the TCDRS Act so that the resulting benefits can be expected to be adequately financed by the employer's commitment to contribute. At retirement, death, or disability, the benefit is calculated by converting the sum of the employee's accumulated contributions and the employer-financed monetary credits to a monthly annuity using annuity purchase rates prescribed by the TCDRS Act. The Plan is open to new entrants.

3. Eligible Participants

All full and part-time non-temporary employees participate in the plan, regardless of the number of hours they work in a year. Employees in a temporary position are not eligible for membership.

4. Funding Policy

The District has elected the annually determined contribution rate (ADCR) plan provisions of the TCDRS Act. The plan is funded by monthly contributions from both employee members and the employer based on the covered payroll of employee members. Under the TCDRS Act, the contribution rate of the employer is actuarially determined annually.

The District contributed using the ADCR of 9.82% for calendar year 2025, and 10.16% for calendar year 2024. The District's contributions for the year ending September 30, 2025 was $563,929.

The District adopted a rate of 7% as the contribution rate payable by the employee members for calendar years 2025 & 2024, respectively. The District may change the employee contribution rate and the employer contribution rate within the options available in the TCDRS Act.

5. Contributions

The required contribution rates for fiscal year 2025 were determined as part of the December 31, 2024 actuarial valuation.

Additional information as of the three latest actuarial valuations also follows:

Valuation Date	12/31/2022	12/31/2023	12/31/2024
Actuarial Cost Method	Entry Age	Entry Age	Entry Age
Amortization Method	Level Percent of payroll, closed	Level Percent of payroll, closed	Level Percent of payroll, closed
Amortization Period in years	18.3 years	15.7 years	15.8 years
Asset Valuation Method	5-year Smoothed Fund	5-year Smoothed Fund	5-year Smoothed Fund
Actuarial Assumptions:			
Investment Rate of Return *	7.50%	7.50%	7.50%
Projected Salary Increases *	4.70%	4.70%	4.70%
* Includes Inflation at stated-rate	2.50%	2.50%	2.50%
Cost-of Living Adjustments	0.0%	0.0%	0.0%

Employees covered by benefit terms

At the December 31, 2024 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	0
Inactive employees entitled to but not yet receiving benefits	71
Active employees	70
Total	141

6. Net Pension Liability (Asset)

The District's Net Pension Liability (Asset) was measured as of December 31, 2024, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability (Asset) was determined by an actuarial valuation as of that date.

Actuarial assumptions:

Inflation	2.50% per year
Overall payroll growth	4.70% average over career, including inflation
Investment Rate of Return	7.50%, net of pension plan investment expense, including inflation

Salary increases were based on a service-related table. Mortality rates for active members, retirees, and beneficiaries were based on the gender-distinct Pub-2010, both projected with 100% of the MP-2021 Ultimate scale after 2010.

Actuarial assumptions used in the December 31, 2024, valuation were based on the results of an actuarial experience study for the period January 1, 2017 – December 31, 2020, except where required to be different by GASB 68.

The long-term expected rate of return on pension plan investments is 8.10% gross of administrative expenses. The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the TCDRS Board of Trustees. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income, in order to satisfy the short-term and long-term funding needs of TCDRS.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of

return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Benchmark	Target Allocation (1)	Geometric Real Rate of Return (Expected minus inflation) (2)
US Equities	Dow Jones U.S. Total Stock Market Index	13.00%	5.35%

(1) Target asset allocation adopted at the March 2025 TCDRS Board meeting.
(2) Geometric real rates of return equal the expected return for the asset class minus the assumed inflation rate of 2.35%, per Cliffwater's 2025 capital market assumptions.
(3) Includes vintage years 2005-present of Quarter Pooled Horizon IRRs.
(4) Includes vintage years 2007-present of Quarter Pooled Horizon IRRs.
(5) Includes vintage years 2006-present of Quarter Pooled Horizon IRRs.

Discount Rate:

The discount rate used to measure the Total Pension Liability was 7.60%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected

future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

Changes in the Net Pension Liability (Asset):

	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (Asset)(a) – (b)
Balance at 12/31/23	$ 3,135,796	$ 1,731,574	$ 1,404,222
Changes for the year:			
Service Cost	551,922	-	551,922
Interest on total pension liability [1]	279,115	-	279,115
Effect of plan changes [2]	-	-	-
Difference in experience gains or losses	573,182	-	573,182
Refund of contributions	(30,871)	(30,871)	-
Administrative expense	-	(1,596)	1,596
Member contributions	-	400,300	(400,300)
Net investment income (loss)	-	196,641	(196,641)
Employer contributions		581,007	(581,007)
Other [3]	-	52,824	(52,824)
Net changes	1,373,348	1,198,305	175,043
Balance at 12/31/24	$ 4,509,144	$ 2,929,879	$ 1,579,265

(1) Reflects the change in the liability due to the time value of money. TCDRS does not charge fees or interest.

(2) No plan changes valued

(3) Relates to allocation of system-wide items.

Sensitivity of the net pension liability (asset) to changes in the discount rate

The following presents the net pension liability (asset) of the District, calculated using the discount rate of 7.60%, as well as what the District's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.60%) or 1-percentage-point higher (8.60%) than the current rate:

1% Decrease 6.60%	Current Single Rate 7.60%	1% Increase 8.60%
$ 2,638,615	$ 1,579,265	$ 744,764

Pension Plan Fiduciary Net Position:

Detailed information about the pension plan's Fiduciary Net Position is available in a separately-issued TCDRS financial report. That report may be obtained on the internet at www.tcdrs.com.

7. Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ending September 30, 2025, the District recognized pension expense of $295,196.

At September 30, 2025, the District reported deferred outflows/inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources
Investment losses (gains)	$ 4,428
Changes in actuarial assumptions	31,056
Differences between expected and actual economic experience	590,453
Contributions subsequent to the measurement date	424,642
Total	$ 1,050,579

The District reported $424,642 as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date that will be recognized as a reduction of the net pension liability for the year ending September 30, 2026.

Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended December 31:	
2025	$ 85,509
2026	109,265
2027	73,262
2028	70,652
2029	74,909
Thereafter	212,340
	$ 625,937

D. Agreement with East Montgomery County Improvement District

On September 27, 2007, the District entered into an agreement (the "Agreement") with East Montgomery County Improvement District (EMCID). The Agreement stated that EMCID will provide a total loan (the "Loan") of $1,500,000 to the District for the purpose of hiring additional firefighting personnel and to provide expanded emergency services within its boundaries.

On September 22, 2009, the District approved an amendment to the Agreement in which the loan was defined as a grant (herein after referred to as the "Grant") and repayment is no longer a condition of the Agreement. Also as a part of the amendment, if a sales tax election was successful in November of 2009 for EMCID, EMCID will make an additional grant (the "Additional Grant") to the District in the amount of $600,000 to be used to hire additional firefighting personnel and provide expanded emergency services within its boundaries. This Additional Grant would be funded in equal amounts over a two year period, with the first funding being made on December 1, 2012 and the second on December 1, 2013.

The amended Agreement terms include a monthly donation (the "Monthly Donation") from EMCID to be paid to the District on April 1, 2010 and the first day of each subsequent month during the term of the Agreement. EMCID will also provide an additional monthly donation to the District in the amount of $6,250 (the Additional Donation") beginning on December 1, 2009, and the first day of each subsequent month during the term of the Agreement until the total of 12 consecutive Monthly Donations is equal to or greater than $263,000, at which time the Additional Donation shall end. The Monthly Donation is calculated based on the amount the District would have received from actual sales tax collected from the portion of the District that is within EMCID with the exception of the portion dedicated to the development referred to as the Earth Quest Tract. The term of the Agreement is for 25 years from the effective date and may be extended for an additional term of up to 25 years prior to the expiration of the original term.

On September 20, 2018, the District entered into an agreement (the "Agreement") with East Montgomery County Improvement District (EMCID). The Agreement stated that EMCID will provide a grant up to $1,248,301 (the "Grant") for payments to service the debt to finance the purchase of a fire truck for the District. The related purchase never occurred until after this grant agreement was later amended on May 29, 2020. Per the terms of the amended grant agreement, EMCID agreed to pay the principal portion of the fire truck purchase up to $1,207,246, and half of the interest expense if the interest rate is 4.25% or below.

Grant revenue received from EMCID by the District during the year ended September 30, 2025, totaled $1,504,242.

E. New Accounting Pronouncements

The District adopted GASB 101, *Compensated Absences* during the year. The goal of the standard is to create a more consistent model for accounting for compensated absences that can be applied to all types of compensated absence arrangements.

The new guidance introduces three criteria for recording a liability in financial statements prepared using the economic resources measurement focus (often referred to as a "full accrual" basis). A liability should be recognized for leave that has not been used if all of the following are true:

- The leave is attributable to services already rendered.
- The leave accumulates.
- The leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means (likelihood of more than 50 percent).

This standard was applied retroactively and had no impact on sick leave liability as of September 30, 2024.

F. Subsequent Events

On October 3, 2025, the District acquired a 2025 fire dozer and a type III fire truck for $196,925 and $406,000, respectively. The acquisitions were financed with loans bearing interest of 4.9% per annum, and annual payments of principal and interest totaling $25,379 and $52,324, respectively, beginning on October 3, 2026 and concluding on October 3, 2035.

On January 30, 2026, the District acquired a 2025 ladder truck for $1,890,687. The acquisition was financed with a loan bearing interest of 4.2% per annum, and annual payments of principal and interest totaling $235,431 beginning on January 30, 2027 and concluding on January 30, 2036.

There were no other material subsequent events through July 30, 2026, the date the financial statements were available to be issued.

SCHEDULE OF EMPLOYER CONTRIBUTIONS TO PENSION PLAN

For The Years Ended September 30,

	2025	2024	2023	2022
Actuarially determined employer contributions	$ 563,929	$ 477,156	$ 118,873	$ 92,528
Contributions in relation to the actuarially determined contribution	563,929	477,156	118,873	92,528
Contribution deficiency (excess)	$ -	$ -	$ -	$ -
Annual covered employee payroll	$ 5,695,189	$ 5,528,814	$ 3,897,446	$ 3,156,899
Employer contributions as a percentage of covered employee payroll	9.90%	8.63%	3.05%	2.93%

1) This schedule is presented to illustrate the requirement to show information for ten years. However, until a full ten-year trend is compiled, only available information is shown.

2) Payroll shown for 2017 is based on a start date in February 2017 to be consistent with time period contributions being made.

NOTES TO SCHEDULE OF EMPLOYER CONTRIBUTIONS TO PENSION PLAN

Valuation Date:

Notes	Actuarially determined contribution rates are calculated as of December 31, two years prior to the end of the fiscal year in which contributions are reported.

Methods and Assumptions Used to Determine Contribution Rates:

Actuarial Cost Method	Entry Age
Amortization Method	Level Percentage of Payroll, Closed
Remaining Amortization Period	15.8 years
Asset Valuation Method	5 year smoothed market
Inflation	2.50%
Salary Increases	Varies by age and service. 4.7% average over career.
Investment Rate of Return	7.50%, net of investment expenses, including inflation
Retirement Age	Members who are eligible for service retirement are assumed to commence receiving benefit payments based on age. The average age at service retirement for recent retirees is 61.
Mortality	135% of the Pub-2010 General Retirees Table for males and 120% of the Pub-2010 General Retirees Table for females, both projected with 100% of the MP-2021 Ultimate scale after 2010.

Other Information:

Notes	There were no benefit changes during the year.

2021	2020	2019	2018	2017	[1]
$ 57,577	$ 54,998	$ 55,490	$ 50,121	$ 27,154

Consent-County Judge

Commissioners Court-Regular Meeting

TO: Montgomery County Commissioners Court

DATE: 08/20/2026

SUBJECT: Consider and approve the appointment of Sheriff Wesley Doolittle to the Board of Managers of the Montgomery County Emergency Communications District (MCECD) for a two-year term beginning October 1, 2026, and expiring September 30, 2028. This replaces Ryan Gable's appointment that expires on September 30, 2026.

MCECD appointment letter

Montgomery County Emergency Communication District

RECEIVED
JUL 29 2026
Montgomery County Judge

July 9, 2025

Judge Mark J. Keough
Montgomery County
501 N Thompson, Suite 401
Conroe, Texas 77301

Dear Judge Keough:

The term for one of the county's representatives on the Montgomery County Emergency Communication District (MCECD) Board of Managers will expire soon. The Commissioners Court appointed Constable Ryan Gable to the MCECD board in 2024. Constable Gable's current term will end on September 30, 2026.

The Court must now make its appointment for the two-year term which begins October 1, 2026. All appointments are governed by Texas Health and Safety Code, Section 772.306 (c). The statute does not specify any requirements for members of the Board of Managers. Constable Gable may be re-appointed, or a new representative can be named.

MCECD administers and manages the 9-1-1 network for all of Montgomery County. It is governed by a five-member Board of Managers appointed for staggered, two (2) year terms. Two members are appointed by the County Commissioners Court. Two others are elected by the cities within the county. The remaining member is appointed by the chiefs of the fire departments in the county. The board currently consists of the following persons:

- Appointed by the Commissioners Court: Bobby Powell and Ryan Gable
- Elected by the cities: Paul Virgadamo and (vacant)
- Appointed by the fire departments: Doug Adams

Please notify us of the county's appointment at your earliest convenience.

If you should have any questions, please call me at (936) 523-5915. Thank you for your consideration in this matter.

Sincerely,

Chip VanSteenberg
Executive Director

2257 N Loop 336 W #140144, Conroe, Texas 77304
