RE: Construction Management Services for IGSA WON #19449177 Ten (10) Fire Hydrant Replacement

Mr. Robinson,

I am pleased to submit this proposal for Construction Management Services on this exciting Nueces County IGSA project. The proposal is based on the WON# 19449177 prepared by NASCC for the replacement of ten (10) fire hydrants designated by NASCC. The Construction Management services will be performed on a part time basis for the scope of work identified and are as follows:

Construction Management Services for Task Order Development:

- Review and comment as appropriate on draft task order from NASCC
- Site Visit to review scope for task order
- Preproposal walk through of site with JOC for pricing task order
- Review JOC price proposal for task order
- Attend Commissioners Court for task order award
- General Q&A, research, and consulting for task order

The not to exceed fee associated with this scope of services is **\$3,375.00**. This will be billed hourly at a rate of \$225.00 per. This fee proposal is good for sixty (60) calendar days. Should the scope of work change, the proposal will be revised accordingly.

I am immensely proud of my prior project accomplishments and would like to bring my expertise to this Nueces County project and add you to my list of satisfied clients. I look forward to your response.

All the best,

Scott D. Meares, CCM
