PRESCOTT VALLEY

Public Records Access

Arizona's Public Records Law

Arizona law requires all officers and public bodies to maintain records reasonably necessary to provide an accurate accounting of their official activities and of any government funded activities.

Any record in the custody of an Arizona government entity that has a substantial nexus to government activity is considered a public record and is presumed to be subject to disclosure. Griffis v. Pinal Cnty., 215 Ariz. 1, 4, ¶ 10, 156 P.3d 418, 421 (2007).

Pursuant to A.R.S. section 39-121, the public has a right to inspect (i.e. view in person) public records. Pursuant to A.R.S. section 39-121.01, the public has a right to obtain copies of public records, subject to reasonable copy fees.

Comparison with Federal Freedom of Information Act (FOIA)

- **The Federal Freedom of Information Act (FOIA) does not apply to Arizona state and local agencies.**
- However, when Arizona law does not directly address an issue regarding disclosure of public records, Arizona courts may look to the case law regarding the Federal Freedom of Information Act (FOIA) for guidance. *Scottsdale Unified Sch. Dist. No. 48 of Maricopa County v. KPNX Broad. Co., 191 Ariz. 297, 300–01, ¶ 10, 955 P.2d 534, 537–38 (1998)*
- The Federal Freedom of Information Act (FOIA) may also apply in Arizona federal district court cases (e.g., deliberative process privilege).

ARS §41-151.14(A)(6)

ARS §41-151.14(A)(6) requires the head of each state and local agency to designate an individual within the agency to be the Records Officer Liaison to the Arizona State Library of Archives & Public Records (ASLAPR). The agency should reaffirm this designation every other year.

Such Records Officer must be at a level of management sufficient to direct the records management program in an efficient and effective manner. This Officer is responsible for creating and implementing systematic controls for records and information activities from the point where they are created or received, through final disposition or archival retention (including distribution, use, storage, retrieval, protection and preservation, and disposal) in compliance with Town Code and State mandates.

Town Code § 3-02-020(B) designates the Town Clerk as the Records Officer Liaison to the AZ State Library.

What is a Record?

Records are defined as books, papers, maps, photographs, or other documentary materials regardless of physical form or characteristics, made or received by a governmental agency in pursuance of law or in connection with the transaction of public business and preserved by the agency or its legitimate successor as evidence of the organization, functions, policies, decisions, procedures, operations, or other activities of government.

Examples of public records and other matters include calendars, reports, legal memoranda, policies and procedures, accident reports, training videos and materials, tape recordings of meetings where there are no written minutes, personnel records, case files, and data bases.

Requests for Records vs. Information

- **Record**: A document or other material created, received, or maintained by a government agency in connection with its official business.

Examples: Emails, contracts, meeting minutes, invoices, reports, photographs, and text messages.

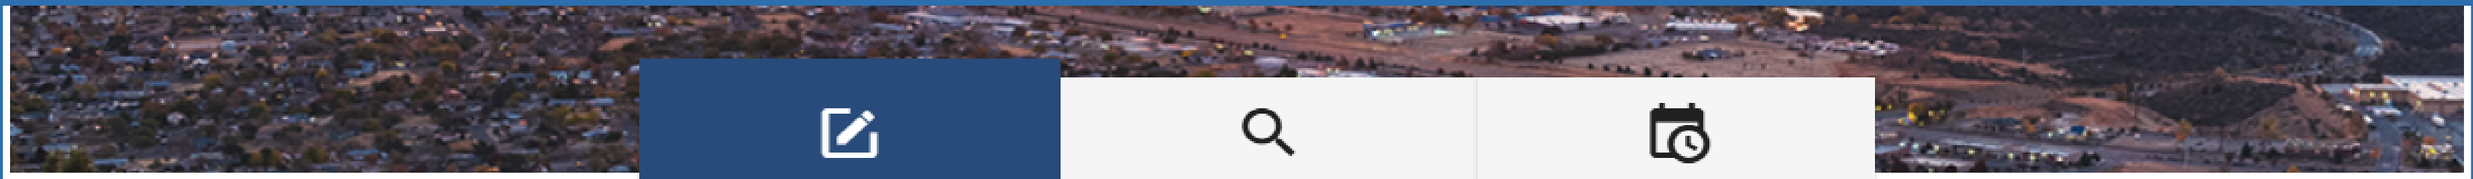

- **Information:** Facts, explanations, answers, or knowledge that someone wants to obtain. The information may exist in government records, or the person may be asking the government to generate a new answer.

Examples: Asking why a decision was made, who and when it was made, or what a policy means.

Why this matters for public records requests

In Arizona, public records law generally provides access to existing public records; it does not necessarily require government employees to create a new report, conduct research, answer questions, or develop an explanation that does not already exist in the records.

However, the distinction depends on the specific request and applicable law. An existing record does not cease to be a public record simply because a requester phrases the request as a question.

Magistrate Court Records Requests

- Requests for records from the Prescott Valley Magistrate Court are handled directly by the Court and are not submitted through the JustFOIA portal.
- A Prescott Valley Magistrate Court Records/Information Request Form is available on the Town's website and may be filed at the Clerk Window or emailed to prescottvalleymagistrate@courts.az.gov
- Fees, if required, must be paid before requested copies are completed by the Court. Information will be available within 3 to 5 business days after payment has been received.
- The Court follows a record retention structured by the State of Arizona Supreme Court.

How much time does a public body have to respond promptly to a public records request?

ARS §39-121.01(D) An agency is required to promptly furnish public records to the requestor. "Promptly" is **not** defined by statute.

The courts have held that defining promptness depends on what is reasonable under the circumstances.

The relevant factors to consider are:

- The agency's resources,
- The nature of the request,
- The content of the records, and
- The location of the records.

Public bodies need a workable records process. A request cannot be routed as though the clerk controls every copy by default.

Complex Records Requests

- **Requests lacking a clearly defined scope**
- **Requests asking for information vs actual documents**
- **Use of AI in Submitting Public Records Requests**
  - Highly detailed requests containing several bullet points covering an extensive range of records
  - Submission of multiple supplemental requests or addendums related to an original request
  - Extensive use of complex, technical, or highly formal language usually with a broad scope
- **Open-ended Requests**
  - Requests that lack clearly defined parameters or limitations
- **Large Volume Requests**
- **Requests involving multiple Town departments or divisions which require more coordination**
- **Requests that require extensive Review and Redaction**

origin documentation the Town or its vendor holds. If the Town does not hold such documentation, please state that in writing.

4. Records showing whether any component of this program appears on the Federal Communications Commission's Covered List of communications equipment and services determined to pose an unacceptable risk to national security, and any review the Town or its vendor has performed against that list.

L. Records concerning my own vehicle — TIME-SENSITIVE

This item is urgent and is being destroyed while you read it. The Town operates its system with a thirty-day retention period, after which non-hit data is automatically purged. **I ask that the purge be suspended as to my vehicle immediately upon your receipt of this letter, before any other part of this request is processed.**

My vehicle: Arizona license plate [redacted]. Please note: the fourth and sixth characters of the plate are the numeral zero (0), not the letter O. I ask that the query be run exactly as written.

1. Every ALPR detection, read, or record of that plate held by, accessible to, or retrievable by the Town — including any record obtained from or shared through Flock Safety, any Flock network, any other vendor, or any other agency. For each: the date, time, location, camera identifier, plate image, vehicle image, and the agency or system that captured it.
2. The complete audit log of every search, query, or access involving that plate — the date and time of the query, the identity of the person or agency that ran it, the stated purpose or reason entered, and any case or report number associated with it.
3. Whether that plate has ever been placed on any hot list, watch list, alert list, or custom list by the Town or by any agency whose lists the Town can see — and if so, by whom, on what date, on what basis, and whether it remains on such a list today.
4. Every agency, entity, or system outside the Town that has received, accessed, or could access any read of that plate, and the written agreement or memorandum of understanding governing that sharing. If no written agreement exists, please state that in writing.

I have submitted this demand to the Clerk separately and in greater detail. It is repeated here so that it is on the record together with this request, and so that no part of it depends on the routing of a single document.

VII. IF THE TOWN INTENDS TO INVOKE THE FEDERAL TASK FORCE RECORDS PROVISION

The Memorandum of Understanding this Council approved on March 12, 2026 (Exhibit G) contains a provision under which the Town agrees to notify the United States Marshals Service and to coordinate with that agency before any proposed disclosure of records — including, by its terms, where Arizona law **requires** disclosure. **If the Town intends to invoke that provision as to this request, I ask that it say so now, in writing, and identify the authority permitting a public body to condition a statutory right of public access on the approval of a third party.**

I am not accusing anyone of anything by asking this. I am asking because A.R.S. § 39-121 makes public records open to inspection by **any person**, and that duty is created by statute and owed to the public. A contract with a federal agency cannot create an exemption the Arizona Legislature never wrote, and a public body cannot bargain away a right that does not belong to it.

Any delay in production occasioned by that provision is itself a denial of access under A.R.S. § 39-121, and I will treat it as one. A.R.S. § 39-121.02 provides that a person denied access may bring a special

VIA EMAIL AND PERSONAL DELIVERY TO TOWN CLERK

SECOND FORMAL NOTICE OF NON-RESPONSE
Follow-Up to April 10, 2026 Demand for Written Reply
Notice of Claim GL 498365 | Original Reply Deadline April 24, 2026 | 114 Days Past Due

Dear Mayor Palguta and Honorable Town Council Members,

This letter follows up on my April 10, 2026 Formal Notice of Non-Response and Demand for Written Reply, delivered to the Town Clerk by email and in person the same day. That letter demanded a written reply from this Council no later than Friday, April 24, 2026. As of today, 114 days past that deadline, I have received no written reply from the Council on the matters raised.

I have also received no confirmation that the April 10 letter itself was ever logged or received. I am not aware of a receipt, a date stamp, or any written acknowledgment from the Town Clerk's office for that filing. I am asking for that confirmation now, in writing, along with a written reply to the underlying letter.

I. WHAT REMAINS OUTSTANDING

1. A written reply from the Town Council to the April 10, 2026 Formal Request for Council Investigation, addressing the chronology and the governance questions raised in that letter.

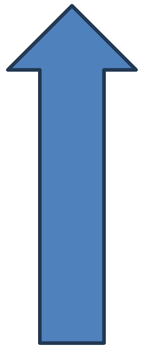

2. Written confirmation that the April 10, 2026 letter was received and logged by the Town Clerk, including the date and method of receipt.

3. A statement of whether the Council intends to take this matter up as a governance and oversight issue, separate from claim adjustment through Berkley Risk or the Utilities Department.

FY21/22	4003

Average of 403 documented public records request per month.

PRR Time & Materials

October 1, 2025 – October 1, 2026

Time Estimate: 27,359 **Time Actual: 35,462** = **62,821 minutes**

All Town departments (except PD) have collectively spent **62,821** minutes processing public records requests. This is an equivalent to:

1,047 hours of staff time

26.18 workweeks (40 hours)

6.5 months of full-time work

Fee Schedule

Town Clerk

- $0.50 per page for Photocopies
- $20.00 Electronic Media (DVD, CD, Flash Drive, etc.)
- $25.00 Commercial Purpose Fee
- No existing fee for Redaction of Documents
- No existing fee for Postage

Police Department

- $10 Report Copy (No charge for victim reports or to the County Attorney's Office, and DCS.
- $46 Body Worn Camera (per video hour reviewed)
- $46 Body Worn Camera – Commercial Purposes (per video hour reviewed)

** **$120.00 Fees Assessed 10/1/2025 through 10/01/2026 for copies/flash drives/ commercial purpose of Town Records.**

$25.00 Commercial Purpose Fee

A.R.S. 39-121.03(D) defines commercial purpose as:
The use of a public record for the purpose of sale or resale or for the purpose of producing a document containing all or part of the copy, printout or photograph for sale or the obtaining of names and addresses from public records for the purpose of solicitation or the sale of names and addresses to another for the purpose of solicitation or for any purpose in which the purchaser can reasonably anticipate the receipt of monetary gain from the direct or indirect use of the public record. Commercial purpose does not mean the use of a public record as evidence or as research for evidence in an action in any judicial or quasi-judicial body.

Four parts to what constitutes a commercial purpose:

1. **Selling or reselling the record or information in the record**
2. **Using names and addresses in the record to solicit**
3. **Selling names and addresses to somebody else for solicitation.**
4. **"or for any purpose in which the purchaser can reasonably anticipate the receipt of monetary gain from the direct or indirect use of the public record."**

Arizona Court of Appeals held in *Primary Consultants LLC v. Maricopa County Recorder, 210 Ariz. 393, 400 (App 2005)* that the statutory definition of Commercial Purpose in ARS 39-121.03(D) must be read to only apply to situations where someone is asking for a public document then turning around and directly selling it or the information in it, or obtaining names and addresses for solicitation purposes, to make money. Simply obtaining public documents to help prepare documents for a client who is paying money for them doesn't qualify.

Flock Safety Program Transparency Portal

Overview

Prescott Valley Police Department uses Flock Safety technology to capture objective evidence without compromising on individual privacy. Prescott Valley Police Department utilizes retroactive search to solve crimes after they've occurred. Additionally, Prescott Valley Police Department utilizes real time alerting of hotlist vehicles to capture wanted criminals. In an effort to ensure proper usage and guardrails are in place, they have made the below policies and usage statistics available to the public.
