

## **Environmental Policy Board 2011 Proposed Work Plan**

As outlined in City Code, the primary objective of the Environmental Policy Board is to review, consider, initiate and recommend to the City Council such policies, plans or projects which will enhance and preserve the natural environment of the City. The Board's scope shall include, but not necessarily be limited to, matters of the preservation of the community forest, water quality, wetland preservation, ground water protection, control of soil erosion and air, noise and light pollution.

The Environmental Policy Board will focus its efforts on the following tasks in 2011:

- Participate in an Arbor Day tree planting event.
- Encourage citizen awareness and education on environmental stewardship through the Environmental Expo & Tree Sale.
- Revisiting the water conservation and invasive species web pages as needed and/or directed by City Council.
- Public outreach.
- Demonstration project (such as a rain garden or 'mini arboretum' highlighting species that perform well in Ramsey's sandy soil).
- Developing a policy that ensures readily accessible recycling opportunities in public buildings (such as in conference rooms, lobbies, etc).
- Developing an additional web page(s) that identifies various wildlife and plants that may be seen while utilizing the City's trail system and includes phenological information as well (potentially in conjunction/unison with the Go Anoka County project).
