Subject: Nowthen Estates (Garnet St NW)

Hi Tim,

Mike and I were unable to make it to the meeting regarding our road (Garnet St NW). We live at 16700 Garnet Street NW. We want to inform you that we do not want city sewer, water, curbs or gutters. We are fine with you just patching our road.

We especially do not see the need for a sidewalk down our road since there is one parallel to County Road 5. We bought our house here 15 years ago because it had a country feel. We were never for the development behind us and believe that since you opened our road for this development that is what has made our road go down hill fast and this was because of greedy people in this City and look where that got them. The development is not even close to being finished.

We heard that there might be a proposal to charge all residents and business owners in Ramsey a monthly fee of about \$20 or \$25.00 a month for road maintenance. We would be fine with this if this included taking care of our road.

You can call either Tara or Mike at 763-753-9315 if you have any questions.

Happy New Year.

Tara Monson
