- Sunwood Drive Project - Supplemental Agreement #1, Change Order #2 and Connexus Relocation Charges
- Review of Miscellaneous Storm Water Appurtenances in the Vicinity of Lake Ramsey
- Follow-up Information on Radar Speed Signs

Council Update

Building and Planning Division Webpage Updates. In an effort to serve our customers better, updates have been completed to the Building and Planning Division Pages. These pages are a continual process for improvement, so comments on how to continue to improve these pages are greatly appreciated. All Building and Zoning Permits can now be found in one location with a simplified URL at www.cityoframsey.com/permits. Previously, users needed to navigate to either the Building Division or Planning Division page (depending on the permit type), through the Community Development page. Staff is hopeful this better matches the needs of website end-users and will assist Staff in more efficiently instructing callers where to access Applications. In addition, based on feedback from users, a comprehensive list of permits was developed to assist users to navigate, search, and identify appropriate permits, while still maintaining the current 'all-inclusive' Application. Also, Rates and Fees are more prominently displayed, which will assist Applicants in project planning. A link to this page can also be found

in the left-side Table of Contents that is part of all City webpages under 'Permits and Applications'. Finally, Land Use Applications such as Site Plan Review and Conditional Use Permits can now be found at

Firewood – Proceeds to Youth First. There were 8 pallets of split firewood left over from Happy Days. The firewood is being advertised on public auction with all proceeds going to the Youth First Program. The link to the auction is listed below:
<http://www.publicsurp.lus.com/sms/ramsey,mn/list/current?orgid+245904>
www.cityoframsey.com/LandUse.

Canvas Craft. It appears that Canvas Craft has chosen to sell its Ramsey location to another business user. The City received a site plan/conditional use permit application from Lake Region RVs for the property to operate a motor vehicle sales site. This is an existing Ramsey business, located near the western border on Highway 10.

Department Activities:

Building Maintenance

- Happy days clean up
- Repair bad pump at fire #1
- Repair bad faucet in parking ramp
- Attend meetings and meet with contractors

City Clerk

- Moved into new office space
- Researching questions with Secretary of State's Office from League of Women Voters
- Completed work on Special Events permit with Police Chief and Fire Inspector

Engineering

- Sunwood Drive / Armstrong Blvd: Construction of the last section of curb and gutter on Sunwood Drive is scheduled for this Friday, September 14th. Paving on Sunwood and Armstrong is now scheduled for September 19th and 20th. After the paving on this phase is completed, Sunwood Drive and Armstrong Blvd (north of Sunwood Drive) will be open to traffic. Temporary traffic control (stop signs) will be placed at the intersection of Sunwood Drive and Armstrong Boulevard until the traffic signals are installed.
- The Alpine Drive project is scheduled to start next week. The Contractor will begin by performing the storm sewer and curb repairs. Although some delays can be expected during construction, Alpine Drive will remain open to local traffic.

Finance

- 2013 Proposed Levy Documentation & Resolutions to County
- Field resident calls from certification letters sent last week
- Finalize F&C fifth draw
- RALF Properties - tax & property summaries, determine lease rates & work with tenant regarding compressor issue

Fire

- Notable Responses

- 9/6- P.I. accident near Bills Superette in Nowthen. Two vehicle accident with both vehicles moved into parking lot. Provided patient care to driver with minor injuries. Transported by Allina
- 9/11- Mutual aid to St Francis for a grass fire. Crew assisted with grass fire in ditch.
- Administration
 - Worked with applicant to meet requirements of special events permit
 - Met with business owner to define construction options for addition
 - Meeting to schedule S.T.E.P. school topics and dates
 - Filmed public safety show at QCTV
- Training this week: Business Meeting

HR

- Rehired Jason Fredrickson as a Temporary IT employee
- Continued/started recruitments for Patrol Officer and IT Specialist
- Met with Finance staff regarding open enrollment

Parks

- Tear down/clean-up after happy Days
- Repaired swings at Rivers Bend and Emerald Pond parks following vandalism
- DOC – field striping

Planning/Building

- Finish Additional Forecast Analysis per Metropolitan Council Staff request (Comprehensive Plan Amendment)
- Meeting about Cross of Hope project
- Drafting RFP for recycling enhancement grant project

Police

- **Safety Patrol.** Approximately 150 fourth and fifth graders at Ramsey Elementary School were trained and installed as official School Safety Patrol (bus and crosswalk) assistants. We encourage everyone to be aware of the crosswalk kids (clearly identified by their bright sashes and flags) and if you get a chance to ever thank them, please do so. These kids brave the pouring rain and blustery winter snow to make sure all students cross safely on school grounds. Bus patrol students have equally challenging jobs helping manage unruly riders so that the drivers can do their jobs. Safety is their number one priority....and they are very excited to serve in this capacity!
- **BCA Training.** Capt Katers and Joleen Wiemann attended the Bureau of Criminal Apprehension's Criminal Justice Information Users' Conference this week. They attended sessions involving the FBI's Security Policy, Data Practices, Criminal History Suspense Reconciliation, as well as others. Their registration to this conference was paid for by the Joint Law Enforcement Council, as part of the Anoka County Central Records project.

Public Works

- Clear ROW and culverts in the Rodeo Hills sub-division
- Grade dirt roads (finally got a little rain!)
- Tear down signs and other equipment for Happy Days

Utilities

- Received a call on water running out of the ground possible water main break at 148th and Bison street. Crew arrived to find that the water curb stop in a vacant lot had been damaged from recent site leveling and water was flowing rapidly from the site into a storm pond, employees had to excavate the site and manually shut of the damaged curb stop to stop the flow of water. A large painted stake was left at the site to alert construction crews of the shut off.
- Utility employees outfitted the jetter truck for our annual sanitary sewer televising program. We are required to televise 1/10 of our sanitary sewer mains each year, we are focusing on some of the newer construction north of Bunker Lake Boulevard this season, crews televised several thousand feet of sewer mains, manholes and service lateral connections to the mains

Save the Date:

Best regards,

FOR IMMEDIATE RELEASE

Anoka County Board Proposes to Lower Levy Again!

The Anoka County Board of Commissioners has voted in favor of a 2013 budget that decreases the property tax levy yet again by more than \$1 million. The proposed budget of \$241.5 million will result in a reduction in the county portion of the property tax bill for most low and moderate value Anoka County homes.

“We’re just beginning to emerge from one of the most devastating economic periods in our country’s history,” said Board of Commissioners Chair Rhonda Sivarajah. “It’s our responsibility as leaders to not overburden (hit our citizens with a tax increase) our citizens just as they’re starting to get back on their feet. We will move forward with the excellent and diverse array of service as we always have, while staying focused on our priorities of sound management, a diverse tax base, low debt burden, and healthy reserves,” said Sivarajah.

The county board continued its focus on streamlining service delivery and applying innovative ideas in order to cut spending without cutting service to citizens. Cost-saving measures totaling \$1,013,299 enable a net tax levy of \$97,517,399. That amount represents a 1.03 percent decrease from 2012.

“Our priority is serving our citizens in the best way possible, while keeping their hard-earned dollars in their pockets to the greatest extent possible. Every day we demonstrate our commitment to public safety and service while maximizing the value of every tax dollar we collect,” said Sivarajah.

Innovations, collaborations, and cost saving measures:

- **Voluntary Separation Program**

In 2013, eligible employees will again have the opportunity to take advantage of a voluntary separation program that will save Anoka County taxpayers nearly half a million dollars annually in salary and benefit costs. Future ongoing savings will result from not filling some positions and either restructuring or hiring replacements at a lower pay rate for the balance.

- **Investing in Technology**

Anoka County is investing in technology to enhance public safety, better serve the customers, and save dollars through the saving of staff time and resources. Implementing technology-based systems, such as the imaging project in the Human Service's Economic Assistance Department allows staff to quickly access data that otherwise would have been tucked away in a file drawer. The Commissioners also receive their board meeting packets electronically.

- **Highway Department**

Over the past two years, the Anoka County Highway Department has undertaken the largest investment in Anoka County's transportation infrastructure in the county's history. Significant projects have included the rebuilding of CSAH 14 (Main Street/125th Avenue) through Andover, Coon Rapids, and Blaine.

- **Fiber**

The Connect Anoka County project is nearing a successful completion to bring a 286-mile fiber optic network linking 145 public buildings – police, fire, public works, libraries, K-12 schools, colleges, city and town halls, and community buildings – in and adjacent to Anoka County.

“Last year we were one of only two counties in the entire state that cut their levy, the amount we collect from the taxpayer. We know that the recovery is just beginning and we are more than comfortable to once again lead in our effort to put our citizens first,” said Sivarajah.

Key Facts and Figures:

• Proposed 2013 budget	\$241,580,236
• Proposed 2013 net levy	\$97,517,399* (-\$1,013,399 or -1.03% from 2012)
• County program aid reduction	- \$917,666
• Certified foreclosures	2011 1,995 2010 2,259
• Average home value:	2008 \$213,000 2009 \$196,800 2010 \$177,500 2011 \$173,900 2012 \$155,400 2013 \$141,800

*County line only, does not include rail levy or school district levy.

FOR IMMEDIATE RELEASE

Anoka County Announces “Send Us Your Best Shot” Cover Photo Contest!

Every two years, more than 122,000 households in Anoka County receive the **Recyclopedia**, a guide produced by Anoka County about how to reduce waste, reuse resources, recycle more, and dispose of materials safely. This ‘go to’ guide is tailored to each of the 21 communities within Anoka County.

New this year, the cover of the **Recyclopedia** will feature a photo taken by one lucky Anoka County resident. Please help us spread the word about the “Send Us Your Best Shot” cover contest. The winning photo will be featured on the cover of the 2013-2014 **Recyclopedia**.

“This is a great way to raise awareness of all the great information the **Recyclopedia** has to offer and to showcase the talents of our Anoka County citizens,” said Anoka County Commissioner Jim Kordiak, who chairs the county’s Waste Management and Energy Committee. “In addition to the cover shot, additional photos will be selected to be featured on the county’s web site www.anokacounty.us.”
