

Development Study Group: Volunteers Needed Old Municipal Center Site: 15153 Nowthen Boulevard

The city of Ramsey wants to identify the best future development of its "Old Municipal Center Site." The city is considering two concepts for the 20.5 acre former municipal center campus which would include either a data center development, or residential development. Until recently, the site was home to the city's Police, Fire, Public Works and administrative operations. All but the Fire Department moved to the new municipal center along Highway 10 in 2006. When the site develops, it is proposed the Fire Department be moved to another site the city owns just to the northeast.

Due to its past use as a busy municipal campus, the Old Municipal Center Site is currently zoned Public/Quasi Public. In order for the Subject Property to be sold and used for another use it will need to be rezoned. In June of 2013, the Council requested additional information and input regarding a data center development before moving forward with any plans.

In July of 2013, the City Council directed Staff to formulate a study group consisting of various stakehold-

ers; including: surrounding property owners and at-large Ramsey residents. The purpose of the Study Group is to better understand under what circumstances would a data center development be an acceptable use for the Subject Property.

It is estimated, a study group will need to meet 4-6 times for 1-2 hours; and will begin in November/December. If you, or someone you know, may be interested in serving on this study group, please contact Patrick Brama by September 20, 2013 at 763-433-9903 or pbrama@ci.ramsey.mn.us. The Ramsey City Council recently adopted a new strategic action plan. One major outcome of the plan was a commitment from the Council to a citizen-focused government in which residents are engaged in discussions and problem solving. In relation to the Old Municipal Center Site development, the Ramsey City Council desires to have a transparent and inclusive discussion about future development options.
