## **Appendix A**

### **Joint Powers Agreements Legal Description**

**JOINT AND COOPERATIVE AGREEMENT FOR THE ESTABLISHMENT OF  
THE LOWER RUM RIVER WATERSHED MANAGEMENT ORGANIZATION TO  
PLAN, CONTROL AND PROVIDE FOR THE DEVELOPMENT OF THE LOWER  
RUM RIVER WATERSHED**

**PREFACE**

The Lower Rum River Watershed lying East of the Mississippi River is a watershed that is basically a direct tributary to the Mississippi River. It encompasses all or parts of the following cities:

**Andover, Anoka, Coon Rapids, Ramsey**

Minnesota Laws of 1982, Chapter 509, mandated that all watersheds within the seven county Metropolitan area must be governed by a watershed management organization and as is now codified as Minnesota Statutes 1992, Sections 103B.201 through 103B.251. The Watershed is authorized to organize under a joint powers agreement pursuant to Minnesota Statutes, Section 471.59 and Section 103B.211 or if such an organization is not created, Anoka County shall petition for the establishment of a watershed district under Minnesota Statutes, Chapter 103D. All the cities in the Lower Rum River Watershed expressed a desire in 1985 to create a joint powers group rather than a watershed and now desire to adopt an amended joint powers agreement to establish a Watershed Management Organization which will comply with the current law for management of this watershed. It is the belief of these four cities that a joint powers group will provide more efficient planning and administration of the Lower Rum River Watershed if the watershed is managed under a joint powers agreement. The goal is to leave as much control as possible with the four individual member cities.

It has been determined by the four cities involved in the watershed that they desire to proceed under a Joint Powers Agreement rather than under Chapter 103D as a watershed district. Each party to this agreement has been fully advised that the Watershed Management Organization being created shall have the powers and responsibilities set forth in the Metropolitan Surface Water Management Act, Minnesota Statutes Sections 103B.201 through 103B.251 and as amended by this Agreement. It is further understood and agreed that it is the intent of this agreement to assign to the watershed management organization, which has operated since 1985, the additional powers and duties assigned by the Minnesota legislature. The management of water resources is a rapidly changing field and new laws and regulations are being adopted and amended frequently and it should not be necessary to amend this agreement every time the legislature enacts a new law.

Each member further recognizes that this is a binding contract and failure to cooperate or to carry out a member's responsibilities will result in a breach of this contract.

The purpose of this organization shall be to assist the four member Lower Rum Watershed cities to preserve and use natural water storage and retention systems to:

1. Protect and preserve natural surface and groundwater storage and retention systems;
2. Minimize public capital expenditures needed to correct flooding and water quality problems;
3. Identify and plan for means to effectively protect and improve surface water and groundwater quality;
4. Establish more uniform local policies and official controls for surface water and groundwater management;
5. Prevent erosion of soil into surface water systems;
6. Promote groundwater recharge;
7. Protect and enhance fish and wildlife habitat and water recreational facilities;
8. Secure other benefits associated with the proper management of surface and groundwater; and
9. Promote and encourage cooperation among member cities in coordinating local surface water and groundwater plans and to be aware of their neighbor's problems and to protect the public health, safety, and general welfare.

The Lower Rum River Watershed waters flow through many sub-watersheds directly to the Rum River and the Mississippi River. It is not anticipated that the Lower Rum River Watershed will have many capital improvement projects; if they do, it is hereby expressed that the intent of this Agreement is to encourage that the solutions should be handled by agreements between the Cities involved.

It is the intent of this Agreement to subject all four cities in the Lower Rum River Watershed to a common set of policies and to comply in all respects with the provisions of the Metropolitan Surface Water Management Act.

The purpose of this Preface is to clarify and establish for any court of review or any arbitrator or for the elected successors to the representatives who have entered into this agreement the reasons and purpose for this joint and cooperative venture. The parties to this Agreement realize that the success or failure of the Lower Rum River Watershed Organization created by this Agreement is dependent upon the sincere desire of each member City to cooperate in the exercise of a joint power to solve joint problems. Each party here by agrees to be bound by this agreement and pledges its cooperation.

## JOINT AND COOPERATIVE AGREEMENT

The parties to this Agreement are governmental units of the State of Minnesota, all of which have lands which drain surface water within the Lower Rum River Watershed and all of which have power and responsibility to construct, reconstruct, extend and maintain storm water management facilities to improve water quality, to promote groundwater recharge, and to protect, promote and preserve water resources within the Watersheds. ## METHOD OF PROCEEDING

### VII.

Subdivision 1. The procedures to be followed by the Board in carrying out the powers and duties set forth in Article VI, Subdivisions 5, 6, 7, 8, 9, and 10, shall be as set forth in this article.

Subdivision 2. The Board has previously prepared the over all plan as required in Article VI, Subdivision 5. This plan shall be updated as required by state law. The Board shall proceed to implement said plan, and this implementation may be ordered by stages.

Subdivision 3. No project which will channel or divert additional waters to subdistrict and subtrunks which cross municipal boundaries shall be commenced by any member governmental unit prior to approval of the Board of the design of an adequate outlet or of adequate storage facilities.

Subdivision 4. All construction, reconstruction, extension or maintenance of outlets for the various subdistrict and subtrunks, including outlets, lift stations, dams, reservoirs, or other appurtenances of a surface water or storm sewer system which involve construction by or assessment against any member governmental unit or against privately or publicly owned land within the watershed shall follow the statutory procedures outlined in Chapter 429 of the Minnesota Statutes except as herein modified.

The Board shall secure from its engineers or some other competent persona report advising it in a preliminary way as to whether the proposed improvement is feasible and as to whether it shall best be made as proposed or in connection with some other improvement and the estimated cost of the improvement as recommended and the proposed allocation of costs between members.

The Commission shall have authority to separate the watershed into subtrunks or subdistricts if the capital improvement project and costs only benefit a subtrunk or subdistrict area. If the Commission determines that a capital improvement and capital cost benefits only a subtrunk or subdistrict area it may so designate that said area shall be responsible for said costs and may allocate the costs to said area or areas rather than to the entire watershed.

The Board shall then hold a public hearing on the proposed improvement after mailed notice to the clerk of each member governmental unit within the Watershed. The Commission shall not be required to mail or publish notice except by said notice to the clerk. Said notice shall be mailed not less than 45 days before the hearing, shall state the time and place of the hearing, the general nature of the improvement; the estimated total cost and the estimated cost to each member governmental unit. The Board may adjourn said hearing to obtain further information, may continue said hearing pending action of the member governmental units or may take such other action as it deems necessary to carry out the purposes of this Commission.

To order the improvement, in accordance with the powers and duties established in Article VI, Subdivisions 7, 8 and 9, a resolution setting forth the order for a capital improvement project

shall require a favorable vote by two-thirds of all eligible votes of the then existing Board of the Commission. (In all cases other than for a capital improvement project, a majority vote of all eligible members of the Board shall be sufficient to order the work.) The order shall describe the improvement, shall allocate in percentages the cost allocation between the member governmental units, shall designate the engineers to prepare plans and specifications, and shall designate the member who will contract for the improvement in accordance with Subdivision 7 of this Article.

After the Board has ordered an improvement it shall forward to all member governmental units an estimated time schedule for the construction of said improvement. The Board shall allow an adequate amount of time, and in no event less than 45 days, for each member governmental unit to conduct hearings, in accordance with the provisions of the aforesaid Chapter 429, or the charter requirements of any city, or to ascertain the method of financing which said member governmental unit utilize to pay its proportionate share of the costs of the improvement. Each member governmental unit shall ascertain within a period of 90 days the method it shall use to pay its proportionate share of the costs.

If the Commission proposes to utilize Anoka County's bonding authority as set forth in Minnesota Statutes, Section 103B.251, or if the Commission proposes to certify all or any part of a capital improvement to Anoka County for payment, then and in that event all proceedings shall be carried out in accordance with the provisions set forth in said Section 103B.251.

Subdivision 5. The Board shall not order and no engineer shall be authorized by the Board to prepare plans and specifications before the Board has adopted a resolution ordering the improvement. The Board may order the advertising for bids upon receipt of notice from each member governmental unit who will be assessed that it has completed its hearing or determined its method of payment or upon expiration of 90 days after the mailing of the preliminary report to the members.

Subdivision 6. Any member governmental unit being aggrieved by the determination of the Board as to the allocation of the costs of said improvement shall have 30 days after the commission resolution ordering the improvement to appeal said determination. Said appeal shall be in writing and shall be addressed to the Board asking for arbitration. The determination of the member's appeal shall be referred to a Board of Arbitration. The Board of Arbitration shall consist of three persons; one to be appointed by the Board of Commissioners, one to be appointed by the appealing member governmental unit, and the third to be appointed by the two so selected. In the event the two persons so selected do not appoint the third person within 15 days after their appointment, then the Chief Judge of the District Court of Anoka County shall have jurisdiction to appoint, upon application of either or both of the two earlier selected, the third person to the board. The third person selected shall not be a resident of any member governmental unit and if appointed by the Chief Judge said person shall be a registered professional engineer. The arbitrators' expenses and fees, together with the other expenses, not including counsel fees, incurred in the conduct of the arbitration shall be divided equally between the Commission and the appealing member.

Arbitration shall be conducted in accordance with the Uniform Arbitration Act, Chapter 572 of the Minnesota Statutes.

Subdivision 7. Contracts for Improvements. All contracts which are to be let as a result of the board's order to construct, repair, alter, reclaim or change the course or terminus of any ditch, drain, storm sewer, watercourse, or to acquire, operate, construct or maintain dams, dikes, reservoirs or their appurtenances or to carry out any of the other provisions of the plan as authorized by Minnesota Statutes, and for which two or more member governmental units shall be responsible for the costs, shall be let in accordance with the provisions of Section 429.041 of the Minnesota Statutes. The bidding and contracting of said work shall be let by any one of the member governmental units, as ordered by the Board of Commissioners, after compliance with the statutes. All contracts and bidding procedures shall comply with all the requirements of law applicable to contracts let by a statutory city in the State of Minnesota.

The Commission shall not have the authority to contract in its own name for any improvement work for which a special assessment will be levied against any private or public property under the provisions of Chapter 429 or under the provisions of any City charter. This section shall not preclude the Commission from proceeding under Minnesota Statutes, Section 103B.251.

Subdivision 8. Contracts with Other Governmental Bodies. The Commission may exercise the powers set forth in Article VI, Subdivision 7, but said contracts for a capital improvement shall require a favorable vote of two-thirds majority of the eligible votes of the then existing members of the Commission.

Subdivision 9. Supervision. All improvement contracts awarded under the provisions of Subdivision 7 of this Article shall be supervised by the member governmental unit awarding said contract or said member governmental unit may contract or appoint any qualified staff member or members of the Commission to carry out said supervision, but each member agrees that the staff of this Commission shall be authorized to observe and review the work in progress and the members agree to cooperate with the Commission staff in accomplishing the purposes of this Commission. Representatives of the Commission shall have the right to enter upon the place or places where the improvement work is in progress for the purpose of making reasonable tests and inspections. The staff of this Commission shall report, advise and recommend to the Board on the progress of said work.

Subdivision 10. Land Acquisition. The Commission shall not have the power of eminent domain. The member governmental units agree that any and all easements or interest in land which are necessary will be negotiated or condemned in accordance with Chapter 117 of the Minnesota Statutes by the unit wherein said lands are located, and each member agrees to acquire the necessary easements or right-of-way or partial or complete interest in land upon order of the Board of Commissioners to accomplish the purposes of this agreement. All reasonable costs of said acquisition shall be considered as a cost of the improvement. If a member governmental unit

determines it is in the best interests of that member to acquire additional lands, in conjunction with the taking of lands for storm and surface drainage or storage, for some other purposes, the costs of said acquisition will not be included in the improvement costs of the ordered project. The Board in determining the amount of the improvement costs to be assessed to each member governmental unit may take into consideration the land use for which said additional lands are being acquired and may credit the acquiring municipality for said land acquisition to the extent that it benefits the other members of this agreement. Any credits may be applied to the cost allocation of the improvement project under construction or the Board if feasible and necessary may defer said credits to a future project.

If any member unit refuses to negotiate or condemn lands as ordered by the Board, any other member may negotiate or condemn outside its corporate limits in accordance with the aforesaid Chapter 117. All members agree that they will not condemn or negotiate for land acquisition to pond or drain storm and surface waters within the corporate boundaries of another member within the Lower Rum River Watershed except upon order of the Board of this Commission.

The Commission shall have authority to establish land acquisition policies as a part of the overall plan.

Subdivision 11. Pollution Control and Water Quality. The Commission shall have the authority and responsibility to protect and improve water quality in the Watershed as this is one of the main purposes set forth in the Surface Water Management Act. All member governmental units agree that they will refuse to allow the drainage of sanitary sewage or industrial wastes onto any lands or into any water course or storm sewer draining into the Rum River or Mississippi River. The Board may investigate on its own initiative and shall investigate upon petition of any member all complaints relating to pollution of surface water or ground water draining to or affecting the Rum River or the Mississippi River or their tributaries. Upon a finding that the creek or surface waters or groundwater are being polluted, the Board shall order the member governmental unit to abate this nuisance and each member agrees that it will take all reasonable action available to it under the law to alleviate the pollution and to assist in protecting and improving the water quality of surface water and groundwater in the Watershed.

Subdivision 12. Local Water Management Plans. The Commission shall have power and authority to review the members' local water management plans, capital improvements relating to surface water management programs and official controls required by Minnesota Statutes Section 103B.235 and/or by rules promulgated and adopted by the Board of Water and Soil Resources.

## FINANCES

Subdivision 1. The Commission funds may be expended by the Board in accordance with this agreement and in accordance with the procedures as established by law and in the manner as may be determined by the Board. The Board shall designate one or more national or state bank or

trust companies, authorized by Chapters 118 and 427 of the Minnesota Statutes to receive deposits of public moneys and to act as depositories for the Commission funds. In no event shall there be a disbursement of Commission funds without the signature of at least two Board members, one of whom shall be the Treasurer or Authorized Deputy Treasurer. The Treasurer shall be required to file with the Secretary of the Board a bond in the sum of at least \$10,000 or such higher amount as shall be determined by the Board. The Commission shall pay the premium on said bond.

Subdivision 2. Each member agrees to contribute each year to a general fund, said fund to be used for general administration purposes including, but not limited to: salaries, rent, supplies, development of an over all plan, engineering and legal expenses, insurance, and bonds, and to purchase and maintain devices to measure hydrological and water quality data. Said funds may also be used for normal maintenance of the facilities, but any extraordinary maintenance or repair expense shall be treated as an improvement cost and processed in accordance with Subdivision 5 of this Article. The annual contribution by each member shall be based fifty percent (50%) on the net tax capacity of all property within the Watershed and fifty percent (50%) on the basis of the total area of each member within the boundaries of the Watershed each year to the total area in the Lower Rum River Watershed governed by this Agreement.

Subdivision 3.

- (a) An improvement fund shall be established for each improvement project instituted under Article VII, Subdivision 4. Each member agrees to contribute to said fund its proportionate share of the engineering, legal and administrative costs as determined by the Commission as the amount to be assessed against each member as a cost of the improvement. The Board shall submit in writing a statement to each member, setting forth in detail the expenses incurred by the Commission for each project. Each member further agrees to pay to or contract with the member governmental unit awarding said contract for the improvement, its proportionate share of the cost of the improvement in accordance with the determination of the Board under Article VII, Subdivision 4. The member awarding the contract shall submit in writing copies of the engineer's certificate authorizing payment during construction and the member being billed agrees to pay its proportionate share of said improvement costs within 30 days after receipt of the statement. The member awarding the contract shall advise other contributing members of the tentative time schedule of the work and the estimated times when the contributions shall be necessary.
- (b) Notwithstanding the provisions of paragraph (a) of this subdivision, the Commission may by a vote of 2/3rds of all eligible votes of the then existing members of the Commission decide to proceed to fund all or any part of the cost of a capital improvement contained in the capital improvement program of the plan pursuant to the authority and subject to the provisions set forth in Minnesota Statutes, Section 103B.251. It is expressed as a goal of this Agreement that cost sharing of capital

improvement costs be assigned and agreed to by members pursuant to Article VIII, Subdivision 5, Subsections 1 and 2 of this Agreement. Without such agreement, all improvements will be constructed pursuant to Minnesota Statutes, Section 103B.251. The Commission and Anoka County may establish a maintenance fund to be used for normal and routine maintenance of an improvement constructed in whole or in part with money provided by Anoka County pursuant to Minnesota Statutes, Section 103B.251. The levy and collection of an ad valorem tax levy for maintenance shall be by Anoka County based upon a tax levy resolution adopted by a majority vote of all eligible members of the Commission and remitted to the County on or before the date prescribed by law each year. If it is determined to levy for maintenance, the Commission shall be required to follow the hearing process established by Minnesota Statutes, Sections 103D.915 and 103D.921 and acts a mandatory thereof and in addition thereto. Mailed notice shall be sent to the Clerk of each member municipality at least 30 days prior to the hearing.

Subdivision 4. On or before July 1 of each year, the Board shall adopt a detailed budget for the ensuing year and decide upon the total amount necessary for the general fund. Budget approval shall require a favorable vote by a majority of all eligible votes of the then existing members of the Board.

The secretary of the Board shall certify the budget on or before July 1 to the clerk of each member governmental unit together with a statement of the proportion of the budget to be provided by each member.

The Council of each member agrees to review the budget, and the Board shall upon notice from any member received prior to August 1, hear objections to the budget, and may, upon notice to all members and after a hearing, modify or amend the budget, and then give notice to the members of any and all modifications or amendments.

Each member agrees to provide the funds required by the budget and said determination shall be conclusive if no member enters objections in writing on or before August 1. If no objections are submitted to the Board, each member agrees to provide the funds approved by the Board, after the Board has conducted the aforementioned hearing. Modifications or amendments to the original budget require a favorable vote by a majority of all eligible voters of then existing members of the Board.

The schedule of payments by the members shall be determined by the Board in such a manner as to provide for an orderly collection of the funds needed.

Upon notice and hearing, the Board by a favorable vote of a majority of all eligible votes of then existing members may adopt a supplemental budget requiring additional payments by the members within 60 days of its adoption but in no event shall the budget require any member to contribute in excess of one half of one percent of the net tax capacity of all taxable property within the watershed and within the member's corporate boundaries in any one calendar year.

Members' attention is drawn to Minnesota Statutes, Section 103B.245, which authorizes a Watershed Management Tax District to be created within each member City to pay the costs of planning and for the purpose of paying capital costs and/or normal and routine maintenance of facilities.

Subdivision 5. Cost Allocation. General costs of operating the Commission shall be as set forth in Article VIII, Subdivision 2. The Commission shall apportion costs of any capital improvements to the respective members based upon a negotiated agreement to be arrived at by members who have lands in the subdistrict. In the event a negotiation cannot be reached, the distribution of costs will be determined through the arbitration process described in Article VII Subd. 6.

All such assessments shall be levied by the member wherein said lands are located. It shall have the power to require any member to contribute the costs allocated or assessed according to the other provisions of this agreement.

Subdivision 4. Each member agrees that it will not directly or indirectly collect or divert any additional surface water to the Lower Rum River or the Mississippi River or their tributaries from any subdistrict or subtrunk without a permit from the Board of Commissioners. Subdivision 5. Any member who is more than 60 days in default in contributing its share to the general fund shall have the vote of its Board member suspended pending the payment of its proportionate share.

Any member who is more than 60 days in default in contributing its proportionate share of the cost of any improvement to the contracting member shall upon application of the contracting member have the vote of its Board member suspended, pending the payment of its proportionate share.

Any Board member whose vote is under suspension shall not be considered as an eligible

member as such membership affects the number of votes required to proceed on any matter under consideration by the Board.

Subdivision 6. Enforcement. Members agree to be bound by the determination of the Commission and to agree to use their best efforts to carry out directives from the Commission; failure to respond may result in a legal action by the Commission to require the member to act under a court order.

Subdivision 2. This agreement may be terminated prior to January 1, 2005, by the unanimous consent of the members or if for any reason the Commission is reduced to less than three members. If the agreement is to be terminated, a notice of the intent to dissolve the Commission shall be sent to the Board of Water and Soil Resources and to Anoka County at least 90 days prior to the date of dissolution.

Subdivision 3. In addition to the manner provided in Subdivision 2 for termination, any member may petition the Board to dissolve the agreement. Upon 30 days notice in writing to the clerk of each member governmental unit and the Board of Water and Soil Resources and Anoka County, the Board shall hold a hearing and upon a favorable vote by a majority of all eligible votes of then existing Boardmembers, the Board may by Resolution recommend that the Commission be dissolved. Said Resolution shall be submitted to each member governmental unit and if ratified by three-fourths of the councils of all eligible members within 60 days, said Board shall dissolve the Commission allowing a reasonable time to complete work in progress and to dispose of personal property owned by the Commission.
