Five-Year Street Reconstruction and Overlay Plan

2015 through 2019

I. INTRODUCTION

In 2002, the Minnesota State Legislature passed into law a bill which generally exempts city bonds issued under a street reconstruction program from the referendum requirements usually required for bonding expenditures. In 2013 the Legislature amended the law to allow bituminous overlays to be included in the street reconstruction program.

II. PURPOSE

Street reconstruction or bituminous overlay is a major expenditure of city funds for the reconstruction or overlay of streets. Street reconstruction and bituminous overlay may include utility replacement and relocation and other incidental costs, turn lanes and other improvements having a substantial public safety function, realignments, other modifications to intersect with state and county roads, and the local share of state and county road projects. Except in the case of turn lanes, safety improvements, realignments, intersection modifications, and local share of state and county road projects, street reconstruction does not include the portion of project costs allocable to widening a street or adding curbs and gutters where none previously existed. A Street Reconstruction and Overlay Plan (SROP) is a document designed to anticipate street reconstruction and overlay expenditures and schedule them over a five-year period so that they may be purchased in the most efficient and cost effective method possible. A SROP allows the matching of expenditures with anticipated income. As potential expenditures are reviewed, the city considers the benefits, costs, alternatives and impact on operating expenditures.

The City of Ramsey, Minnesota (the “City”) believes the street reconstruction and overlay process is an important element of responsible fiscal management. Major capital expenditures can be anticipated and coordinated so as to minimize potentially adverse financial impacts caused by the timing and magnitude of capital outlays. This coordination of capital expenditures is important to the City in achieving its goals of adequate physical assets and sound fiscal management. In these financially difficult times good planning is essential for the wise use of limited financial resources.

The Street Reconstruction and Overlay Plan is designed to be updated on an annual basis. In this manner, it becomes an ongoing fiscal planning tool that continually anticipates future capital expenditures and funding sources.

III. THE STREET RECONSTRUCTION AND OVERLAY PLANNING PROCESS

The street reconstruction and overlay planning process is as follows; the City Council authorizes the preparation of the SROP. The City staff is instructed to assemble the capital expenditures to be undertaken within the next five years. The City Council then reviews the expenditures according to their priority, fiscal impact, and available funding. From this information, a preliminary street reconstruction and overlay plan is prepared. A public hearing is held to solicit input from citizens and other governmental units. Changes are made based on that input, and a final project list is established.

The City Council then prepares a plan based on the available funding sources. If general obligation bonding is necessary, the City works with its financial advisor to prepare a bond sale and repayment schedule. Over the life of the SROP, once the funding, including proceeds from the bond sales becomes available, the individual capital expenditures can be made.

In subsequent years, the process is repeated as expenditures are completed as new needs arise. Street reconstruction planning looks five years into the future.

For a city to use its authority to finance expenditures under Chapter 475.58, Subdivision 3b, it must meet the requirements provided therein. Specifically, the city council must approve the sale of street reconstruction bonds by a unanimous vote of its membership present. In addition, it must hold a public hearing for public input. Notice of such hearing must be published in the official newspaper of the city at least 10, but not more than 28 days prior to the date of the public hearing. The city council approves the SROP unanimously following the public hearing.

Although a referendum is not required, a reverse referendum is allowable. If a petition bearing the signatures of at least 5 percent of the votes cast in the last general election requesting a vote on the issuance of bonds is received by the municipal clerk within 30 days after the public hearing, a referendum vote on the issuance of the bonds shall be called (if a vote is taken and the referendum passes, the taxes would be levied on market value rather than tax capacity).

IV. PROJECT SUMMARY

The expenditures to be undertaken with this Street Reconstruction and Overlay Plan (SROP) are limited to those listed in Appendix A. All other foreseeable capital expenditures within the City government will come through other means. The following expenditures have been submitted for inclusion in this SROP:

2015 Expenditures

- Garnet Street & 168th Avenue Reconstruction and overlay of streets in Hy-10 Ramsey, Northfork Highlands, Northfork Oaks, Northfork Point, Pondvale Estates, Pondvale Estates 2nd and Rolling Green.

2016 Expenditures

- Andrie Street and 164th Lane reconstruction and overlay of streets in AEC, Woodland Green and Sunwood Drive.

2017 Expenditures

- Reconstruction of Alpine Drive and overlay of streets in Rivers Bend.

2018 Expenditures

- Reconstruction of streets in Stanhope Terrace and North Forty and overlay of streets in Woodland Green, North Forty 2nd, North Forty 3rd, Northfork Oaks, Northfork, Northfork 2nd, Northfork 3rd and Northfork Itasca Shores.

2019 Expenditures

- Reconstruction of streets in Ford Brook Estates and overlay of streets in Brookview Estates, Meadow View, Flintwood Hills, Wood Pond Hills and Chestnut Ridge.

V. FINANCING THE STREET RECONSTRUCTION PLAN

The total amount of requested expenditures under the Street Reconstruction and Overlay Plan is approximately \$9 million. If these expenditures are to be funded, that amount of money is anticipated to be generated through the tax levy and the sale of approximately \$10,000,000 in bonds over the five-year period.

In the financing of the Street Reconstruction Plan, one statutory limitation applies. Under Chapter 475, with few exceptions, cities cannot incur debt in excess of 3% of the assessor's estimated market value for the city. In the City the pay 2014 EMV is \$1,795,975,400. Therefore, the total amount of outstanding debt cannot exceed \$53,879,262. As of February 10, 2015 the City had \$20,050,000 subject to the legal debt limit.

Under the Street Reconstruction Plan, the City will secure \$1,775,000 in general obligation bonds in the year 2015 to finance Garnet Street & 168th Avenue reconstruction and overlay of streets in Hy-10 Ramsey, Northfork Highlands, Northfork Oaks, Northfork Point, Pondvale Estates, Pondvale Estates 2nd and Rolling Green. In the year 2016, general obligation bonds in the amount of \$2,865,000 will be secured for the Andrie Street and 164th Lane reconstruction and overlay of streets in AEC, Woodland Green and Sunwood Drive. In 2017, general obligation bonds in the amount of \$995,000 will be used to finance reconstruction of Alpine Drive and overlay of streets in Rivers Bend. In 2018, general obligation bonds in the amount of \$2,435,000 will be used to finance reconstruction of streets in Stanhope Terrace and North Forty and overlay of streets in Woodland Green, North Forty 2nd, North Forty 3rd, Northfork Oaks, Northfork, Northfork 2nd, Northfork 3rd and Northfork Itasca Shores. Finally in the year 2019, \$1,440,000 in general obligation bonds will be secured for the financing of reconstruction of streets in Ford Brook Estates and overlay of streets in Brookview Estates, Meadow View, Flintwood Hills, Wood Pond Hills and Chestnut Ridge. All five general obligation bond issues will be repaid over a 10 - year period. The only exception is the road reconstruction portion of the 2016 bonds will be repaid over a 15-year period due to the size of the project (approximately \$2.325 million). The par amount of each issue is based on the amounts listed in Appendix A plus estimated issuance costs. The proposed general obligation street reconstruction bonds (including issuance costs) are shown in Appendix B.

Continuation of the Street Reconstruction and Overlay Plan

This Street Reconstruction and Overlay Plan should be reviewed annually by the City Council using the process outlined in this Plan. It should review proposed expenditures, make priority decisions, and seek funding for those expenditures it deems necessary for the City. If deemed appropriate, the Council should prepare an update to this Plan.

PROJECT COSTS

(Capital Expenditures to be funded with Bond Proceeds)

The 2015 capital expenditure of approximately \$1,680,100 for the City’s portion of reconstruction of Garnet Street & 168th Avenue and overlay of streets in Hy-10 Ramsey, Northfork Highlands, Northfork Oaks, Northfork Point, Pondvale Estates, Pondvale Estates 2nd and Rolling Green is to be funded with \$1,775,000 in bond proceeds.
