Custom Limestone Seat Stones:
Approximately 24 inch tall x 28 inches deep x 60 inch lengths to create 40 lineal feet of seat wall/seat stone experience at two locations w/in the play area. Natural tops and bottoms, split sides including drill hole marks. Set in place to create a finished 18 inch height seat.

Custom Limestone Seat Stones:
Approximately 24 inch tall x 28 inches deep x 60
inch lengths to create 40 linear feet of sea-
wall/seat stone experience at two locations w/in
the play area. Natural tops and bottoms, split
sides including drill hole marks. Set in place to
create a finished 18 inch height seat.

IN-2416

Our Intensity® fitness play complex greatly increases the benefits and quality of your kids' outdoor playtime! Designed for children ages 5-19, Intensity encourages more engaging and challenging physical activity that fosters fitness, promotes cardiovascular health and fights childhood obesity. Intensity's 5" O.D. posts, direct-bolt fastening system and exciting play events offer a broad choice of configurations. A **FREE** Intensity Curriculum helps educators and instructors successfully guide children in establishing and developing their physical fitness habits by bridging the gap between classroom instruction and practical playtime activities!
