PERSONNEL JUSTIFICATION for Reclassifications, New Positions, Additional Hours		This is a replacement position to be phased over the next 24 months. The current Community Development Assistant will begin phased retirement 1/1/2020. This position was presented at a council worksession on June 11, 2019. Position will split their time between coordinating land use applications and key contact for code enforcement management.	Current position has taken on more independent HR work including assisting employees with benefits and benefit changes, collaborating with payroll, overseeing city's employee FMLA administration, serving as point of contact for Injury/workers compensation interactions as well as managing all on-line NeoGov recruitments.	This position was upgraded in 2018 to add additional responsibilities as Acting City Administrator. As part of this upgrade, the position assumed a greater role in supporting the City Administrator. The proposed position provides a role that develops skillsets and experiences in line with City Administration and creates a succession planning opportunity. New duties are to include, but not limited to: cross functional administrative project leadership, capital development project administration, and management analysis for the organization.	Current full-time Fire Marshall also has paid on-call responsibility as Assistant Chief. This request will combine both positions and eliminate paid on-call position. The additional responsibilities of the position are to assist in the overall planning, implementation, supervision and direction of the Fire Department along with the development, coordinating and scheduling of fire/EMS training. This position will also assist the Fire Chief in implementing policy and direction to improve operational readiness and support responding firefighters.	This position reclassification recognizes the achievement of successfully passing the Professional Engineer's examination and achieving a license to practice as a Professional Engineer under the laws of the State of MN. Obtaining a PE license will allow the employee to legally sign engineering studies, reports, plans and documents on behalf of the city. The primary duties of the employee generally remain the same, except the employee is now eligible to sign off on behalf of the city those documents noted above, which will also enable the employee to assume additional duties with added responsibilities over time.
