Title:

Continued Discussion of 2021 Budget/Levy

Purpose/Background:

At the July 14, 2020 budget worksession the council was presented with the 2021 General Fund budget and its effect on the tax levy. This was the first look at the budget which included all department requests. At this worksession, it was requested to take a look at the COLA and to reduce the levy to a six percent increase over 2020.

At the August 10, 2020 budget worksession, the July 14 worksession requests were presented and a preliminary review of the 2021 personnel requests began.

The direction at the worksession of August 25, 2020 was for staff to bring back a proposed 2021 tax levy increase of 5%. This represented a reduction of approximately \$91,000 from what was presented at the August 10 worksession.

Staff has reduced the levy in the amount of \$91,613 of which all reductions from the first worksession of July 14, 2020 are documented in the attachment entitled Levy Changes since 7-14-20.

	PERSONNEL JUSTIFICATION for Reclassifications, New Positions, Additional Hours	Additional responsibility added to this position. Employee scheduled for completion of the Clerks Institute. Employee's duties are focused on assisting the City Clerk, effective 7-23-18 including preliminary testing of election equipment, recruit and manage election judges, election publications and notices, election website updates/weekly update, minutes review/cases, ordinance retention/publication and staff agenda.	This requests is budget neutral. The demands for code enforcement have increased as the community grows. This request is a direct result of customer feedback provided to the City Council on July 14, 2020 and follow up discussions on July 28, 2020. The current Planning Technician is split between land use application administration and code enforcement. All others in the Planning Division, including contracted services, also have a role in code enforcement. Due to the hourly rate of current contracted services, this will increase the number of staffed hours by 24 hours with no budget impact. Contracted Services would no longer be used.	This position is the primary contact for customer service requests of the the police department office. The Police Records Technician processes and provides police reports to other criminal justice partners, insurance companies, and the public while complying with the MGDPA and other regulatory restrictions. The position compiles police statistical information/analysis and the duplication/dissemination of police squad videos. This position will spend time on the records of evidence/property and release/disposal of those items.	Assigned to patrol to continue level of basic services. Based on estimated growth and calls for service. Strategic Goals: Improve & maintain safety of community, create a strong positive image and enhance customer service	This request reclasses prof services (contracted inspections) as budget neutral, with the potential of overall cost savings. The City currently contracts with two separate inspection services to keep up with demand, creating multiple inefficiencies. The position allows for a more stable base of core services while still relying on contracted services for peak demands. This request is a direct result of customer feedback provided to the City Council on July 28, 2020 and follow up discussion on August 10, 2020. This service is paid for by building permit fees. Revenue history justifies the expense and will not have an impace on the tax rate.	Since 2006, the city has added 5 new parks that need weekly service and maintenance, but our park maintenance staffing level has remained the same. Continue to depend more and more on seasonal help and contracted services to accomplish maintenance tasks. While seasonal help is an essential part of park's operations, they are not a viable option in the spring and fall seasons, with spring being the busiest season. As the city's park system ages, maintenance needs will continue to increase. This person would also be part of snow removal operations and on-call team.

Title:

Discuss 2020 Citizen Survey

Purpose/Background:

Note, this case was previously scheduled for discussion at the August 10 work session and again on the August 25 work session and was postponed due to time constraints.

The purpose of this case is to consider the final language on the road funding question on the 2020 Citizen Survey. At the July 28 City Council Work Session, it was requested that this question be revised based on recent actions of the City Council. The Council is asked to limit discussion to this particular question.

The question is now proposed as follows.

Table 19: Question 19

The City employs a long-term Pavement management Program to cost-effectively maintain all 180 miles of City streets. From 2015-2020 the City funded projects by assessing 25% to benefiting property owners and contributed 75% through bonded debt, paid with property taxes. The City Council recently passed an ordinance to collect a monthly franchise fee on gas and electric customers and dedicate this funding to the Pavement Management Program, and to eliminate the need for additional property taxes or assessments. The City periodically evaluates funding sources for this ongoing program. Please indicate the extent to which you would support or oppose the following funding sources:

- Assess 25% of street project cost to benefiting property owners and pay 75% through bonded debt, paid with city-wide property taxes.
- Eliminate special assessments and pay 100% with property taxes, resulting in an estimated 15% increase in tax levy.
- Collect a monthly franchise fee on gas and electric customers in the amount of \$7 per utility per month.

Timeframe:

15 Minutes

Funding Source:

Responsible Party(ies):

Deputy City Administrator
City Engineer
Finance Director

Outcome:

Staff is seeking consensus on the final language on the road funding question for the Citizen Survey.
