

City of Ramsey
Agenda
Environmental Policy Board (EPB)
Monday, September 21, 2020
6:30 pm
Council Chambers, 7550 Sunwood Drive NW

This meeting is being held in accordance with Minnesota Statutes 13D.021 and some members may be joining from a remote location. Due to the COVID-19 Pandemic, it is not practical and prudent for all members of this board to attend in person. Current Minnesota law requires certain social distancing standards that impacts the capacity of the Council Chambers. For those at highest risk, it is advised to isolate themselves from the general public. For these reasons, it is not practical and prudent to have this meeting exclusively in person. Members of the public are welcome to attend in person or remotely.

Remote Attendance available at www.cityoframsey.com/meetings. To maximize social distancing due to the COVID-19 Pandemic, those that can join remotely are encouraged to do so. Those joining remotely and requesting to speak are asked to use a webcam when speaking. For those attending in person, per Minnesota Executive Order #20-81, all participants must wear face masks unless they are actively speaking or otherwise qualify for exemptions listed in Executive Order #20-81.

**ENVIRONMENTAL POLICY BOARD
CITY OF RAMSEY
ANOKA COUNTY
STATE OF MINNESOTA**

On Monday, August 17, 2020, the Environmental Policy Board (EPB) met in the Council Chambers at the Ramsey Municipal Center, 7550 Sunwood Drive N.W., Ramsey, Minnesota.

Members Present: Chairperson Michael Valentine
 Board Member Jane Covart
 Board Member Melissa Fetterley
 Board Member Michael Hiatt (attended remotely)
 Board Member Laura Moore (attended remotely)

Members Absent: Board Member Reid Bernard
 Board Member Jared Little

Also Present: City Planner Chris Anderson

1. CALL TO ORDER

Chairperson Valentine called the meeting to order at 6:30 p.m.

2. CITIZEN INPUT

None.

3. APPROVE AGENDA

Motion by Board Member Covart and seconded by Board Member Fetterley to approve the agenda as submitted.

A roll call vote was performed:

Board Member Fetterley	aye
Board Member Covart	aye
Board Member Hiatt	aye
Board Member Moore	aye
Chairperson Valentine	aye

Motion carried.

4. APPROVE MINUTES

4.01: Approve Meeting Minutes Dated June 15, 2020

Motion by Board Member Covart and seconded by Board Member Fetterley to approve the regular meeting minutes dated June 15, 2020.

A roll call vote was performed:

Board Member Moore	aye
Board Member Hiatt	aye
Board Member Covart	aye
Board Member Fetterley	aye
Chairperson Valentine	aye

Motion carried.

5. POLICY BOARD BUSINESS

5.01: Consider Natural Resources Elements of Proposed Ramsey Villas North Preliminary Plat (Project No. 20-117); Case of Rivers Bend Holdings, LLC

City Planner Anderson presented the staff report. He stated that the City has received a Preliminary Plat application from Rivers Bend Holdings, LLC, for a three lot subdivision located on the northwest corner of Xkimo Street and Xkimo Court. The subject property is currently zoned R-2 Residential (Medium Density). The proposed housing product is detached townhomes (look like single family homes). In addition to the standard landscaping and tree preservation requirements, typically density transitioning would be required. However, the proposed density is similar to the existing neighborhood and the units are detached, giving the appearance of a more traditional single-family home project.

Chairperson Valentine referenced the optional plantings and other things that could help to mitigate noise and encouraged the City to do what it can to mitigate noise on the front end as it would be harder to address at a later date.

City Planner Anderson stated that he believed a noise study would be a contingency of the plat. He stated that it is helpful for the developer to address it earlier in the process rather than attempt to have the City address it at a later date. He stated that the EPB could also include the recommendation for a noise study, noting that would typically be addressed by planning but could also be mentioned by this group.

Board Member Hiatt asked the location of the existing sound wall and whether that could be extended. He believed that noise would be an issue in that area and was unsure that plantings would be sufficient mitigation.

Chairperson Valentine agreed that sound walls are more effective than plantings.

City Planner Anderson identified the location of the existing sound wall compared to the project location. He stated that any sound mitigation for this development would only be applicable to the subject property and therefore the vacant area between the existing sound wall and this project would not require mitigation.

Board Member Covart asked for details on the tree save fence.

City Planner Anderson replied that the Code would allow for the orange snow fencing or traditional silt fence. He stated that the fencing provides a physical barrier to ensure that equipment and grading activities do not go past that point. He stated that could be placed on the edge of a tree line or around clusters of trees. He noted that in this project there are certain trees that will be marked as protected during grading and construction. He also clarified that tree save fencing is temporary and ultimately is removed when construction activity is complete.

Motion by Board Member Covart and seconded by Board Member Hiatt to approve the Landscape Plan, contingent upon compliance with Staff's requested revisions/corrections, and with the additional recommendation that a noise study be completed by the developer.

A roll call vote was performed:

Board Member Hiatt	aye
Board Member Fetterley	aye
Board Member Moore	aye
Board Member Covart	aye
Chairperson Valentine	aye

Motion carried.

5.02: Consider Recommendation on Ordinance #20-04 (Landscape Requirements)

City Planner Anderson presented the staff report. He stated that as the EPB knows, staff is working on an ordinance amendment regarding landscaping requirements. Due to a couple of recent development proposals, staff wanted to check back in with the EPB regarding one aspect of the draft ordinance, which addresses detached townhomes and villas.

Board Member Covart asked for clarification on the tree requirement.

City Planner Anderson stated that two trees would be required for 80-foot lots and rural developing lots. He noted that the difference would appear in the R-1 villas. He also reviewed the requirements for R-2 and R-3.

5.03: Consider Recommendation from the Lower Rum River Water Management Organization to Provide Educational Campaign for Rum River Wild and Scenic Overlay District

City Planner Anderson presented the staff report. He stated that in 1978, the State of Minnesota added the Rum River to the Wild and Scenic Rivers Program. The stretch of river through Ramsey is designated as Scenic (meaning, at the time of designation, the adjacent lands were mostly undeveloped and therefore provided a sense of natural character). When the State added the Rum River to the Wild and Scenic Rivers Program, they also developed a Management Plan and directed local municipalities and counties to adopt and enforce zoning standards in compliance with the Management Plan. The City of Ramsey officially adopted the Scenic River Protection Overlay District, which incorporated the standards outlined in Minnesota Rules 6105.1400 through 6105.1500.

Board Member Fetterley asked if staff has an idea of how many letters would be sent.

City Planner Anderson stated that he does not have the actual count but estimated between 50 and 100 properties.

Board Member Fetterley asked if a link could be provided to the actual requirements as well.

City Planner Anderson stated that a link could be added to the letter but stated that perhaps developing a one-page summary would be better as the text is somewhat lengthy and addresses all elements (subdivisions, etc.). He stated that perhaps staff develop a one-page fact sheet for the most applicable items.

Board Member Fetterley agreed that perhaps the fact sheet address the most common violation items.

Board Member Hiatt stated that the designation has been in place for some time and properties have turned over in ownership. He asked if a person is notified of these regulations when they purchase a river property.

City Planner Anderson stated that he did not believe there would be any legal requirement to disclose the zoning requirements of the overlay district. He stated that the City also does not have the ability to stay on top of when properties are changing in ownership. He stated that when the initial overlay district was adopted, the DNR and realtors were more proactive, but as time has gone on that has faded. He explained that is one of the reasons that Ramsey is looking to send out this educational information. He noted that Andover has sent out this type of information for the past four or five years and while the first mailing generated more calls, those have faded as the information continues to be generated.

Board Member Hiatt commented that he believes that this information is well timed and needed.

Chairperson Valentine commented that the one-page fact sheet could answer a lot of the questions that may typically be generated from the communication.

Board Member Moore stated that the end of the letter mentions that it is not just Ramsey but also the other three adjacent river communities, which she likes. She asked if the fact sheet could include some information such as places people could volunteer or organizations they could join as a river property owner. She stated that perhaps a link to the Anoka Conservation District could also be included.

6. BOARD / STAFF INPUT

- **Fall Recycling Day Event (September 26)**

City Planner Anderson reported that the City is planning to offer a fall recycling event but noted that could change dependent on the circumstances. He stated that currently the event is planned for September 26th at the Public Works Facility. He noted that carpet and carpet padding will no longer be accepted. He stated that he has been unable to connect with the textile vendor, therefore

textiles will not be included in the fall event. He stated that any updates would be provided on the City website or at upcoming City Council meetings.

7. ADJOURNMENT

Motion by Board Member Covart and seconded by Board Member Fetterley to adjourn the meeting.

A roll call vote was performed:

Board Member Hiatt	aye
Board Member Moore	aye
Board Member Covart	aye
Board Member Fetterley	aye
Chairperson Valentine	aye

Motion carried.

The meeting adjourned at 7:20 p.m.

Respectfully submitted,

Chris Anderson
City Planner

Information

Title:

Consider Recycling Programming for 2021

Purpose/Background:

Each year, the City receives SCORE (Select Committee On Recycling and the Environment) funding for the recycling program through Anoka County (which the county receives from the State). Ramsey's allotted base funding for 2021 is \$57,990 (\$10,000 + \$5.00 per household; based on 2019 Metropolitan Council data), but there is also an opportunity to request additional funding for various uses. The other categories include Drop-Off programming (up to \$15,000), General Enhancement (up to \$9,598), and Organics (up to \$9,598).

The purpose of this case is to provide the Environmental Policy Board an opportunity to discuss and/or identify new programming opportunities and potential enhancements to the City's recycling program. Anoka County has provided more detailed documentation that needs to accommodate the funding request and this is due by September 30, 2020.

Observations/Alternatives:

The base funding is used to cover expenses generally related to recycling education and promotion, recycling events, staff time, etc. The additional funding categories are available to prompt cities to enhance recycling programming in an attempt to meet the State of Minnesota goal of recycling 75% of solid waste by 2030. While this funding would provide some flexibility for the City to explore and implement either enhancements and/or new recycling options, there also needs to be resources (staffing) available to successfully accomplish this.

After speaking with several other communities, one enhancement that could be incorporated into existing programming for 2021 (and wouldn't require much, if any, additional staff time) would be a coupon program for the City's recycling events. Multiple cities have recently begun to offer this and it has been very successful. This may also assist those that have been economically impacted by COVID-19 to still properly dispose of various items.

Thus, in addition to the base funding allocation, Staff will be seeking an additional \$13,500 to implement this promotional coupon program. The bulk of that money would go toward the cost of recycling the various items, with a small portion reserved for labor costs at the event(s). It is anticipated that this funding would only be available for a single event. Staff will be exploring the logistics of this over the coming months. It is acknowledged that this type of programming is not sustainable long term without continued access to this enhancement funding.

Additionally, Staff still intends to provide the 'extra' opportunities for cardboard recycling over the winter holidays and holiday lights collection in December and November. These costs have been accounted for under the base funding.

Funding Source:

This is being handled as part of Staff's regular duties. Since it involves recycling, this portion of Staff's time is reimbursable with SCORE funds.

Action:

Based on discussion.

Anoka County
HUMAN SERVICES DIVISION
Public Health & Environmental Services

Date: August 31, 2020
To: Municipal Recycling Coordinators
From: Sue Doll, Solid Waste Specialist
Regarding: 2021 Municipal Funding and Goals Information

Included in this email is your customized 2021 Municipal Waste Abatement Grant Funding Application. In order to give each community time to fill out the application, **please have any questions to us by September 18, 2020.**

For the County to make timely funding awards to each municipality, the 2021 Waste Abatement Grant Funding Application must be received by September 30, 2020. If the county does not receive a funding application from your municipality by this deadline, you will not be eligible to receive funding.

The Base Funding, Drop-off, General Enhancement, Organics and Additional Grant Program funding calculations are the same as last year. Any dollar amount changes are due to increases in population taken from the 2019 Met Council population estimates.

The following are the changes for 2021 Program Funding:

- **Everyone must fill out an application for Base Funding.** If nothing is turned in, the County **will not** assume you only need Base Funding.
- The Base Funding section is laid out similar to the regular reimbursement form. Make sure to note estimated revenue received in each section since there is not a separate revenue section. Enter revenue as a negative number and it will be calculated automatically within the form.
- **Only staff time spent directly on activities that help the municipality achieve its recycling goal will be eligible for funding** e.g. communications and collecting, processing or marketing recyclable materials and organics.
- Every section of the application must be filled out completely with how the municipality plans to spend the requested funding. Do not simply write the dollar amount requested.

Once the grant applications have been reviewed and awarded, you will be sent your final contract so there is no need to obtain signatures at this time. **The County will return grant award letters and contracts to you no later than December 1, 2020.**

Your tonnage goals were calculated using the same formula as the past two years, 215 ppy (pounds per person per year) for single family households and 160 ppy for multi-family households.

Thank you for your cooperation and efforts to reduce waste and increase the amount of material recycled and composted in Anoka County. Please do not hesitate to contact me if you have any questions regarding this information at 763-324-3482 or sue.doll@co.anoka.mn.us.

Affirmative Action / Equal Opportunity Employer

2021 Anoka County Municipal Waste Abatement Grant Funding Application

Applications are due September 30, 2020

The **City of Ramsey** is requesting the following funding for their 2021 Anoka County municipal waste abatement program efforts.

General Instructions

- **Please review and complete each section of this grant application carefully and in its entirety. How completely you fill out this form will affect our ability to process your request and the amount of funding that is awarded.**
- **If the County does not receive a completely filled out funding application from your municipality by the September 30, 2020, deadline, you will not receive funding. If there is nothing filled out in a section for how you plan to spend the funds, and you only list a dollar amount, that will be considered an incomplete section, and the application will be returned to the applicant.**
- All funding is reimbursement funding. Reimbursements are processed twice per year. No funds are processed until proof of expenditures are submitted to the county semi-annually in July and January as specified in the municipal contract.
- The County reserves the right to reduce the funding provided in the event the municipality does not complete the additional grant projects referenced in this application. The County also reserves the ability to reallocate unused SCORE (Select Committee On Recycling and the Environment) and LRDG (Local Recycling Development Grant) funds mid-year if any participating municipality demonstrates the need for additional funds and if funding is available.
- Any calculations based on the number of households or population of each community are established by using the latest Met Council data available when the contract documents were prepared.

Eligible Expenses

The following items are examples of eligible expenses allowed for reimbursement.

Collection Expenses: If residents are charged recycling fees for curbside or recycling events, waste abatement funds will reimburse the difference between the fees collected and the cost of recycling or composting the materials.

Equipment: The cost to purchase, maintain and repair equipment that is used **exclusively** to operate the recycling or composting program.

Containers: The cost for recycling or organics containers.

Promotion: The entire cost of a publication if totally dedicated to waste reduction, recycling or composting information or a percentage of the cost for the portion of a municipal publication dedicated to waste management information.

Staffing: Salary and benefits to cover a portion of full-time or part-time recycling program staff who are **directly** working on the planning, implementation and promotion of waste reduction, recycling and composting programs can be covered with base funding.

Ineligible Expenses

The following general operating expenses should NOT be submitted for reimbursement.

Standard Operational Expenses/Building Overhead: Since most of the municipal recycling coordinators are part-time positions and staff serve multiple roles at the municipality, standard operating expenses including office space rental, leasing office equipment and general office supplies, are not eligible for reimbursement.

Project Expenses: Specific to transportation, energy or ground water protection.

Collection Costs: The costs for general waste and recycling collection at municipal buildings, trash costs when advertised as being accepted at a recycling/cleanup day, and costs associated with road side cleanup of illegally dumped materials should not be included in this application.

General Municipal Staff: Staff time related to standard municipal operations (city administrator, office administration, facilities management, finance and legal staff) are not eligible for reimbursement. If municipal staff do not assist the recycling coordinator directly on activities to help the municipality achieve its recycling goal, e.g. communications and collecting, processing or marketing recyclable materials and organics, their time will not be reimbursed.

2021 Base Funding Allocation

All municipalities are eligible for base waste abatement grant funding. When completing this application, base funding requests should fall under one of the following categories:

- regular curbside collection,
- general operations of a drop-off center,
- costs for spring and fall recycling days,
- basic promotion,
- yard waste collection and
- percentage of time the recycling coordinator spends on waste abatement activities.

Base Funding is \$10,000.00 base, plus \$5.00/household (household counts are based on 2019 Met Council estimates)

Base Funding Allocation	Maximum Amount Available
City of Ramsey	\$57,990.00

Curbside Collection	
Collection Contract	
Other	
Less estimated revenue received	
General Operations of a Drop-off Center

Tires, oil & other	
Less estimated revenue received	
Administration (see above for eligible expenses)	
Recycling Coordinator _____ % of full-time equivalent	
Program Assistant	
Office supplies/training/mileage	
Total Drop-off Grant Requested	\$ -

2021 Enhancement Funding Allocation

The purpose of the Anoka County Municipal Waste Abatement grant funding program is to increase recycling and organics diversion and help the County achieve the State mandated goal of 75% recycling/composting by 2030. The County recognizes that this funding is needed to support established infrastructure costs that exceed municipal funding. To be eligible for grant funds, municipalities must apply for these funds. Applicants must itemize expenditures within each section below and calculate the total grant request for each category.

Drop-off Grant

This grant is allocated to cover additional drop-off center costs or events beyond the regularly scheduled spring and fall recycling days.

The grant maximum for this section is \$10,000.00 for municipalities with up to 4,999 households and \$15,000.00 for municipalities with household counts 5,000 and over.

Examples of materials that can be collected for reuse, recycling or composting:

Standard Reusable or Recyclable Materials Collected at Drop-off Centers or Events	Additional Items
Appliances	Block n Shape Polystyrene
Automotive Products	Film Plastics
Bicycles**	Furniture* and **
Carpet Pad	Small Household Goods*
Clothing**	Source Separated Organics
Confidential Papers	Yard Waste
Electronics	
Fluorescent Bulbs	
Household Batteries	
Mattresses* and **	
Scrap Metal	

* None of these materials should be advertised as being collected on a Recycling Day and then disposed of as trash

** Items that should be evaluated for reuse prior to recycling

Drop-off Grant	Maximum Amount Available
City of Ramsey	\$15,000.00

Special Monthly/Quarterly Drop-off Events	
Equipment	
Service Providers/Collection Costs	
Promotional Coupon Costs	
Labor - Staff/organizations (see above for eligible expenses)	
Other	
Additional Drop-off Center Costs	
Equipment	
Service Providers/Collection Costs	
Additional staffing requirements	
Total Drop-off Grant Requested	\$ -

General Enhancement Grant

The grant maximum for this section is \$1.00/household.

General Enhancement Grant	Maximum Amount Available
City of Ramsey	\$9,598.00

Park Recycling	
Recycling Containers	Price/container
Recycling Bags	
Service Providers/Collection Costs	
Labor - Staff costs needed for collection (see above for eligible expenses)	
<i>Park Recycling Subtotal</i>	\$ -

Quasi-Municipal Event Recycling - Please list any organics costs in organics section.	
Recycling Containers	Price/container
Recycling Bags	
Service Providers/Collection Costs	
Labor - Staff costs needed for collection (see above for eligible expenses)	
<i>Event Recycling Subtotal</i>	\$ -

Special Curbside Recycling Pickups	
Collection Costs	
Subsidy to resident -- # of items collected x _____	
<i>Special Curbside Subtotal</i>	\$ -
Multi-Family Recycling Outreach	
Equipment/Promotion	
Staff costs (see above for eligible expenses)	
<i>Multi-unit Enhancement Subtotal</i>	\$ -
Additional Promotion Costs	
Printing	
Postage	
Advertising	
<i>Promotion Subtotal</i>	\$ -
Total General Enhancement Grant Requested	\$ -

Organics Program Grant

The grant maximum for this section is .50/household if additional curbside or drop-off grant programs are not offered to residents or \$1.00/household if curbside or drop-off organics programs are offered to residents.

Organics Program Grant	Maximum Amount Available
City of Ramsey	\$9,598.00

Organics Program Expenses	
Equipment	
-- Organics Containers/Starter Kits Price/container	
-- Compostable Bags	
-- Compostable Serving Ware - cups/bowls/utensils	
-- Container rental or collection costs	
Promotional costs	
Labor - Staff/organizations # of hours (see above for eligible expenses)	
Other	
Total Organics Grant Requested	\$ -

Supplemental Funding Request

Supplemental grant funding is currently available to help support municipal waste abatement programs and/or new program development. Supplemental funding, however, should not be depended on for long-term program sustainability. Before requesting supplemental additional grant program dollars, it is critical that your municipality is willing to support and sustain the services before implementation.

Please be aware that there is a limited amount of supplemental funding available for this section. If the County receives more funding requests than funds, the funds may be reduced or denied for a municipalities supplemental funding request. Grants will be evaluated based on which projects best help the County meet the State mandated goal of 75% by 2030.

The maximum supplemental grant available may be up to \$20,000.00 per municipality.

Do you need additional funds to grow existing waste abatement programs? **Yes or No**

If **No**, go to page 7.

If **Yes**, continue on with this section.

In the box below, please include the following information:

- Identify need for supplemental funding;
- Describe project scope and design;
- Describe how the project may benefit multiple municipalities or the County as a whole;
- Note key stakeholders participating in project activities, including project collaborators;
- Quantify and list expected outcomes, such as, new materials to be collected, projected amount to be collected, percentage increase of currently collected materials if supplemental grant funding is approved.

Attach additional information as needed.

Information

Title:

Update on Water Efficiency Grant Program

Purpose/Background:

As the Environmental Policy Board (EPB) knows, the City was awarded \$28,000 from the Metropolitan Council to implement a water efficiency grant program between January of 2020 and June 30, 2022. The City rolled out the grant program in May of 2020. To date, twenty-nine (29) households have participated in the program, with the majority of the upgrades focusing on smart irrigation controllers. There is still approximately \$23,000 available for reimbursement through June of 2022. A summary of the program costs and reimbursements is attached.

It is anticipated that applications will slow down over the winter months. However, Staff will continue to periodically promote the program through the City's social media accounts and will ramp up promotion in the newsletter in the March/April and May/June editions.

Funding Source:

Per the grant agreement, the City had to contribute 25%, which is being provided through the City's Water Fund account. The remainder is being reimbursed by the Metropolitan Council.

Action:

No action necessary. This case is for informational purposes only.
