Minnesota Sale/Lease Disclosures

Property: Multiple Land Parcels, City of Ramsey, Minnesota

Seller/Landlord Disclosure of Material Facts, Delivery of Reports, and Compliance with Laws. Sellers/landlords are hereby requested to disclose directly to buyers/tenants all facts known to sellers/landlords that materially affect the value or desirability of the Property and are not readily observable nor known to the buyer/tenant, including, but not limited to, facts regarding hazardous materials, zoning, construction, design, engineering, soils, title, survey, fire/life safety, proneness to natural hazards such as earthquakes, and other matters, and to provide buyers/tenants with copies of all reports in the possession of or accessible to sellers/landlords regarding the Property. Sellers/landlords and buyers/tenants must comply with all applicable federal, state and local laws, regulations, codes, ordinances and orders, including, but not limited to, the 1964 Civil Rights Act and all amendments thereto, the Foreign Investment in Real Property Tax Act, the Comprehensive Environmental Response Compensation and Liability Act, and The Americans With Disabilities Act.

Americans with Disabilities Act (ADA). The Americans With Disabilities Act (42 United States Code §12101 et seq.) and other federal, state and local requirements may require changes to the Property. Have your experts investigate and evaluate these matters.

Taxes. Sales, leases and other real estate transactions can have federal, state and local tax consequences. In sales transactions, Internal Revenue Code §1445 requires buyers to withhold and pay to the IRS 15% of the gross sales price within 20 days of the date of a sale unless the buyers can establish that the sellers are not foreigners, generally by having the sellers sign a Non-Foreign Seller Affidavit. Depending on the structure of the transaction, the tax withholding liability can exceed the net cash proceeds to be paid to sellers at closing. Have your experts investigate and evaluate these matters.

Flood Zones. Many lenders require flood insurance for properties located in flood zones, and government authorities may regulate development and construction in flood zones. Whether or not located in a flood zone, properties can be subject to flooding and moisture problems, especially properties on a slope or in low-lying areas. Buyers/tenants should have their experts confirm whether the Property is in a flood zone and otherwise investigate and evaluate these matters.

Fires. Properties, whether or not located in a fire hazard zone, are subject to fire/life safety risks and may be subject to state and local fire/life safety-related requirements, including retrofit requirements. Have your experts investigate and evaluate these matters.

Hazardous Materials and Underground Storage Tanks. Due to prior or current uses of the Property or in the areas or the construction materials used, the Property may have hazardous or undesirable metals (including but not limited to lead-based paint), minerals (including but not limited to asbestos), chemicals, hydrocarbons, petroleum-related compounds, or biological or radioactive/emissive items (including but not limited to electrical and magnetic fields) in soils, water, building components, above or below-ground tanks/containers or elsewhere in areas that may or may not be accessible or noticeable. Such items may leak or otherwise be released. If the Property was built before 1978 and has a residential unit, sellers/landlords must disclose all reports, surveys and other information known to them regarding lead-based paint to buyers/tenants and allow for inspections (42 United States Code §4851 et seq.). Have your experts investigate and evaluate these matters.

Property Inspections and Evaluations. Buyers/tenants should have the Property thoroughly inspected and all parties should have the transaction thoroughly evaluated by the experts of their choice. Ask your experts what investigations and evaluations may be appropriate as well as the risks of not performing any such investigations or evaluations. Information regarding the Property supplied by the real estate brokers has been received from third party sources and has not been independently verified by the brokers. Have your experts verify all information regarding the Property, including any linear or area measurements, the availability of all utilities, applicable zoning, and entitlements for the intended use. All work should be inspected and evaluated by your experts, as they deem appropriate. Any projections or estimates are for example only, are based on assumptions that may not occur, and do not represent the current or future performance of the property. Real estate brokers are not experts concerning, nor can they determine if any expert is qualified to provide advice on, legal, tax, design, ADA, engineering, construction, soils, title, survey, fire/life safety, insurance, hazardous materials, or other such matters. Such areas require special education and, generally, special licenses not possessed by real estate brokers. Consult with the experts of your choice regarding these matters.

CONSULT YOUR ADVISORS – This document has legal consequences. No representation or recommendation is made by Broker as to the legal or tax consequences of this Agreement or the transaction(s) which it contemplates. This form is not intended to substitute for any disclosures the law requires that the parties make to each other. These are questions for your attorney and financial advisors.
